

Rep. Hansen Addresses Meet

FFA Lauded For Leadership

Future Farmers of America has been one of the most constructive forces in the development of new opportunities in rural America. Rep. Orval Hansen emphasized during the morning session Friday of the Idaho FFA Leadership Conference at the College of Southern Idaho campus.

ADDRESSING more than 600 Future Farmers from throughout Idaho is Mayor Egon Kroll as the 38th annual Idaho FFA Leadership Conference got under way Thursday in Twin Falls. Mayor Kroll was one of three city and school officials who welcomed the FFA members to Twin Falls. The three-day conference is being held at the Fine Arts Center on the College of Southern Idaho Campus.

Ogden Couple Arrested On Homicide Concerning Hagerman's Skeleton Case

By FRED DODDS Times-News Staff Writer  
GOODING—An Ogden couple has been charged with the murder of a Hagerman man who disappeared nearly 12 years ago.

The arrest of Mr. and Mrs. Lester Hiwitt marked the end of one phase of the case and the start of another phase. Of prime concern to law enforcement officers in Gooding at the present time is the official and legal identification of a skeleton found in a shallow grave a half mile east of Hagerman Wednesday.

Holocaust Kills One, Injures 83

WILMINGTON, Calif. (UPI)—A fiery holocaust was contained today after huge storage tanks of aviation fuel, diesel oil and naphtha exploded Thursday night and sent fireballs towering 1,000 feet into the sky.

Big Welcome Home Is Given Chamber, T.F. Leaders

A brass band was about the only thing missing Thursday when six civic leaders were welcomed back from Siler City, N.C., where they were meeting when it was announced that the Siler Division of the Kellwood Co. will locate a plant in Twin Falls.

Annual Scout Recognition Fete Slated

The 44th annual Snake River Area Council Recognition Banquet will be held Saturday evening at 7 p.m. in the Elks Club. Featured speaker of the evening will be Dr. R. Franklin Thompson, president of the University of Puget Sound in Tacoma, Wash.

Eisenhower Dies At 78 After Lingerin Illness

WASHINGTON (UPI)—Dwight D. Eisenhower, the victorious allied commander of World War II who went on to become America's President in peacetime, died at 12:25 p.m. EST. He was 78.

Death ended a long and valiant battle Eisenhower had waged against illness dating back to his first heart attack in 1955 late during his first term. He had been in Walter Reed almost one year with a string of four heart attacks, surgery and pneumonia in February, and congestive heart failure in March.

DEATH CAME TODAY to Dwight David Eisenhower, former President of the United States and general of the Allied armies during World War II. Eisenhower died at 78, after a long and valiant fight against a series of heart attacks, in Walter Reed Army Hospital in Washington, D. C. (UPI telephoto)

Costliest In History

By PAUL M. QUINN  
BOISE (UPI)—The 40th Idaho Legislature—the third longest in the history of the state—adjourned sine die Thursday night after passing a record

Idaho Session Adjourns

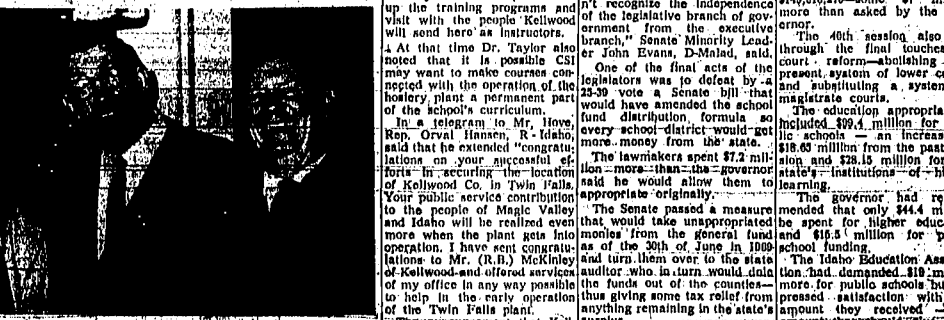

smashing general fund and surplus budget of \$221,123,440. The lawmakers, in the closing hours of the session, also took a tongue-lashing from Gov. Don Evans and gave him one back before calling it quits and heading home.

ALL SMILES THURSDAY EVENING when they arrived back in Twin Falls after a trip to the Kellwood Co.'s Siler City, N. C., housing manufacturing plant. From left: Orval Bradley, director, CSI Vocational School; Harold Howe, president, Twin Falls Chamber of Commerce; Orland Mayer, Boise, Idaho, Power Co. official; Ray Rostron, manager Chamber of Commerce; Dr. James L. Taylor, CSI president, and John Leimon, manager, Twin Falls office of the Idaho Department of Employment. The Kellwood Co. has announced it will build a new plant in Twin Falls.

Big Welcome Home Is Given Chamber, T.F. Leaders

Construction of the plant will begin Monday on 15 acres on the almost road. The Reeder Flying Service plane, carrying the six men, arrived shortly after 7 p.m., half an hour behind schedule. Earlier the crowd waiting at the airport had numbered upwards of 200. The men had been in Siler City since Monday night, and

Power Co. official; Ray Rostron, manager Chamber of Commerce; Dr. James L. Taylor, CSI president, and John Leimon, manager, Twin Falls office of the Idaho Department of Employment. The Kellwood Co. has announced it will build a new plant in Twin Falls.

**FINAL PERFORMANCES OF "The Ghosts and the Gangsters"** will be Saturday at O'Leary Junior High School. The play, designed for young and old, will be presented at 10 a.m., 2 p.m. and 7:30 p.m. Saturday. Among cast members are, from left, Mary Ann Anderson, daughter of Mr. and Mrs. Larry Anderson; Rick VanderDoes, son of Mr. and Mrs. Leland VanderDoes; and Laurie Wright, daughter of Dr. and Mrs. E. M. Wright. Tickets are available from Mrs. Larry Anderson, 733-6755.

**Policewoman Raps Parents Of Murdered Teenage Girl**

ANN ARBOR, Mich. (UPI)—to the police. Various police agencies disagreed on the value to police, was a drug user since she was 13, a high school dropout, and a teenage tripper on LSD who also tried heroin when cocaine, mescaline and amphetamines.

Marilynn, according to her family, underwent a personality change last fall, became more distant, had hippie friends and was frequently in debt. Her mother said she had no knowledge her daughter used drugs and gave her \$50 last Saturday to pay off her debts. Maralynn was found murdered and sexually abused in a wooded area north of here, the fourth such murder of a girl in less than two years, and the second in a week in this area.

Police searched for a solution to the killings by unraveling the skein of the brief and eventual life of Maralynn Skelton.

"She lied it all," said Mrs. Beverly Scannell, a policewoman who met Miss Skelton at the request of Romulus High School officials.

The policewoman said Miss Skelton sold drugs to support her habit and furnished information

**Nampa Man Will Teach In Area**

HAGERMAN—Loren Hughes, Nampa, has been hired to teach social studies at Hagerman High School for the remainder of the school year, replacing Richard Peters; who resigned earlier this month.

Mr. Hughes has served as superintendent of schools at Hailley, Sandpoint, Mackay, and Arco. He also served as principal of the Lewiston High School.

He has served in a similar capacity with the U. S. Army at Ft. Leavenworth, Kan.; Ft. Sheridan, Ill., and Seoul area command at Seoul, Korea.

**Oregonians To Sing At Rupert Soon**

RUPERT—The Victory Singers, Eugene, Ore., will be the featured artist Sunday morning and afternoon during activities at the Rupert First Christian Church, according to Rev. Roger Aydelott.

Rev. Aydelott said the group of vocal and instrumental music, will perform during the regular church services at 11 a.m. Sunday, and will perform in concert at the church at 2:30 p.m. Sunday. He said that within the Victory Singers group are a number of smaller units, including a male quartet, a ladies trio and an instrumental unit.

Christian Churches throughout the Magic Valley are encouraged to attend, Rev. Aydelott is specially invited to the afternoon performance.

One of the young men performing with the group is Jimmy Dean, from the Rupert area. The group has made guest appearances throughout the north-west and at Disneyland in California.

No admission will be charged but an offering will be taken.

Hopes For Electoral Reform Fading

Friday, March 28, 1969... AL WESTERLING... THOMAS HOWARD... O. A. (Gus) KALKER... WILEY DODDS... GENE CARPENTER... DALE THOMPSON... PAUL STANLEY... O. J. SMITH... Circulation Director... Composing Room Manager... Press Room Manager... Managing Editor

WASHINGTON—The drive to reform or abolish the electoral college, sparked by a much lamented near-crisis in last year's presidential election, is foundering and all but lost.

method of electing the President and Vice President. Key congressional leaders are reformers are remote. The net result is another word, change at all—in the much-criticized electoral-college system.

Ike Was There

If the essence of Dwight David Eisenhower could be summed up in a one-word epitaph, it would be simply: "Ike."

Here was the professional soldier who rose from relative obscurity at the beginning of the greatest war in history to supreme command of the greatest assemblage of armies in history, who later served his country for eight years in the highest position of responsibility any man can attain.

Looking back from the turbulent present, the years of the Eisenhower administration seem calm and stable. They were hot, but if they seemed so then as well as now, it was only because of the presence of this immensely popular president in the White House.

man named Faubus in Little Rock, Ark., was fomenting the gravest federal-state crisis since the Civil War, when a U.S. vice president was being spat upon in South America, when the world hovered on the edge of Armageddon as war broke out in the Middle East, when freedom-loving men everywhere agonized as Hungary was ground under the heel, when the nation plunged briefly into its worst recession since the 1930s; when Americans indulged in an orgy of self-doubt because Russia had launched something called a Sputnik into space; when words like "agonizing reappraisal," "brinkmanship," "U-2," "summit" and "missile gap" were part of the vocabulary of reproach against the administration.

Yet they SEEMED like calm years, because Ike was there. Now the general has lost his last battle, after besting the scythe-bearer in encounter after encounter. He went down fighting, he surrendered reluctantly. More than that can be asked of no soldier.

Dwight D. Eisenhower is not rated as one of America's great or even strong presidents, and it is not likely that another generation of historians will differ with this estimate. Of one thing we can be certain, however:

A Spring Rite

The House vote to increase the limit on the national debt by \$12 billion to \$375 billion is further evidence that the periodic rite of raising the ceiling has become a political extravaganza and not the economic issue that it properly is.

to have been reversed. For the first time since the Eisenhower administration, a majority of Republicans voted for the increase in the debt ceiling, as requested by President Nixon.

MR. SPECTATOR

All About History

One project going on heretofore that deserves aid from practically everyone is that of the Twin Falls County Historical Society.

But now is the time to get that little job done. If you are not sure what they need, just give a call to Helen Porterfield down at the county clerk's office.

That a new population trend is indicated by the report of California's state finance department that it expects the population increase of the nation's most populous state to level off in the near future.

LOOK-NO, NO, AT THE FLAG The National Safety Council says that road construction contractors in several states have solved a common problem: How to get motorists to pay attention to flagmen at construction sites.

AWAY WE GO! Mr. Spectator, stop this little Giveway Dept. item along with tongue in cheek.

Mr. Spectator, stop this little Giveway Dept. item along with tongue in cheek. The wife next to her had a correction, "My dear, you mean Mrs. Aristotle Onassis!"

WAITER'S SANDS OF TIME A hotel in Dobrence, Hungary, has come up with a novel idea to win friends and influence customers, reports Reuters.

They hired girls to replace the men with the flags. The girls were equipped with reflective hats and jackets — and of, you, minkalaks. No more problem.

ANDREW TULLY

Not A Lot Of Common Ground

WASHINGTON — Six inches of female Kennedy thigh and an unwelcome outburst by President Nixon's No. 1 press agent, Herb Klein, were reminders last week that there is little common ground between the administration and the liberal wing of the Democratic Party.

RAY CROMLEY

Russo-Sino Rift

SEOUL, Korea (NEA) — Increasing Russo-Red Chinese tension may push the Kremlin to seek more seriously some way of protecting her U.S.-Western Europe back door.

That the same third-country source reported that some of the high-level military men in the Soviet Union argued strongly against the Russian invasion of Czechoslovakia in 1968.

press. Unwittingly or not, this did not diminish the political clout of the senator who challenged Nixon's No. 1 press agent, Herb Klein, were reminders last week that there is little common ground between the administration and the liberal wing of the Democratic Party.

way systems are in no condition to permit Moscow to transport heavy numbers of men and great amounts of equipment from east to west with sufficient rapidity to make the Soviet general retreat easily.

One way or another, a great many troops and reservists and huge tonnages of equipment were mobilized westward for the invasion of Czechoslovakia.

It is the United States and West Europe should react strongly on the pointed out the general's defending simultaneously on the Czechoslovakian and Soviet borders would present the Chinese with grave problems on two fronts: thousands of miles apart.

Some experts contend, however, that many lawmakers believe that a direct popular vote would reduce the influence of the small, less populous states.

Each of the plans has its champions in the House and Senate. None of the reforms now appears likely to win the necessary two-thirds vote in both houses.

President Nixon is very well aware of the legislative difficulties involved. It cannot be said, however, that his message to Congress last month did much to resolve the present impasse on electoral college reform.

Electoral reform poses one of those awkward questions for a representative government which show that the lawmakers favor some sort of change, but they differ widely on what sort of change it should be.

GEORGE C. THOSTESON, M.D.

Keratosis

Dear Dr. Thosteson: Would you say a word about keratosis? I have a hard time explaining to my doctor why, although I appear to be healthy, I have to go to a dermatologist.

Removal is by electro-destruction, I believe. It's a little of numbness, but it's worth the electric needle, and the defect has been removed. I've had a few removed myself, and I'm a fair number of years into it.

Dear Dr. Thosteson: My husband has a disease called gout. His father says it is caused from nerves and that it can be cured. However, a friend says there is no cure and that it will cause damage to the kidneys and kill a person.

Official City and County Newspaper Member of Audit Bureau of Circulation and UPI Pursuant to Section 60-100 Idaho Code, Thursday is hereby designated as the day of the week on which kept notices for publishing are published.

# RFK Film Refused At Trial

LOS ANGELES (UPI)—The prosecution wanted to show Robert F. Kennedy today in the last conscious moments of his life—slashed with a primary presidential victory and wincing to his joyous supporters.

The jury at the Sirhan B. Sirhan murder trial had already seen other pictures of Kennedy mortally wounded, lying on the floor of a pantry in the Ambassador Hotel. It also was shown gruesome stills of the autopsy.

But Superior Court Judge Herbert V. Walker refused permission for the state to put on in the courtroom a 12-minute color film of RFK in his victory speech shortly before he was shot down by Sirhan B. Sirhan.

Walker ruled Thursday the emotionally inflammatory effect of such a presentation outweighed its value in proving Sirhan's guilt.

The 25-year-old Arab had not been shown by any evidence to have heard the Kennedy speech and therefore it was immaterial as to whether anything the senator said could have triggered him off, Walker said.

The defense rested on the 79th day of trial Thursday, calling 29 witnesses in an attempt to save Sirhan from sentence to the California gas chamber.

The state today was to call a number of police officers who questioned Sirhan in jail the morning of the shooting. The main import of their testimony would be to dispute the defense claim Sirhan was intoxicated.

A series of psychiatric witnesses was to be called Monday. Closing arguments by both sides were expected to conclude late in the week with the case going to the jury on Monday April 7.

Chief defense counsel Grant Cooper Thursday took exception to criticism the trial has cost almost half a million dollars.

Cooper told newsmen that figure took into consideration salaries of the judge, prosecutors, police and others who would have been on full salary anyway.

"I would have been glad to accept a life sentence at the outset and the judge turned us out."

HOME IS A HUNGRY PLACE these days for the normally affluent family of Sen. Philip A. Hart, D-Mich., as the family observes a week on welfare payments, as a Lenten observance and to demonstrate the plight of the needy. Mrs. Jane Hart, center, serves a stew of chicken necks and inexpensive vegetables over rice to, from left, Laura, 11; May, 13; Sen. Hart, Michael, 15, and Clyde, 15. The family is going to bed hungry this week, Mrs. Hart admits—despite their pleas. (UPI telephoto)

## 25 Cents Per Person-Per Meal Senator's Family Adopts Poverty Role

By MARGUERITE DAVIS  
WASHINGTON (UPI)—Home is a hungry place these days for the normally affluent family of Sen. Philip A. Hart, D-Mich., and his family who, as a Lenten observance, are living for a week on a welfare food budget.

Mrs. Jane Hart, mistress wife of the Michigan Democrat, said the decision was made at a family council. The four children living at home now—Michael, 16; Clyde, 15; May, 13, and Laura, 11—decided with their parents to experience what persons on welfare rolls must survive on.

Hart needed no persuasion. He has worked hard in behalf of bigger congressional appropriations to provide food for needy children.

"Survive" is the word to describe the welfare diet, Mrs. Hart said. The family is going to bed hungry.

## Legislative Log

- By United Press International/Introduced in Senate
- SC1018 (State Affairs)—Establishing a committee of the legislature to study recommendations of citizens committee on the state legislature and ordering report by second regular session of the legislature.

- SB1027 (Appropriations)—Appropriating \$100,000 from general fund for Idaho State Board of Tax Appeals, 346.
- SB1028 (Appropriations)—Appropriating \$100,000 from general fund and monies from other sources for State Board of Land Commissioners, 346.
- SB1029 (Appropriations)—Appropriating \$55,561 from general fund and \$10,000 from State Board of Tax Appeals for treatment of reclamation, 346.
- SB1030 (Appropriations)—Appropriating \$574,531 from Public Employees Retirement System for treatment of reclamation, 346.
- SB1031 (Appropriations)—Appropriating \$17,200 from general fund in Multi-State Tax Commission, 346.
- SB1032 (Appropriations)—Appropriating \$100,000 from general fund for short-term filing system, 346.

morning, but I said of course not. School lunches, never particularly popular with the children, suddenly became "banquets," she said. One day a friend shared a cupcake with Laura. Middy presented difficulties for the senator.

How can you go to a luncheon doctored from that sum every now and then to pay for their dog's food. "My spray deodorant ran out, and you can't replace that on the welfare budget," Mrs. Hart said. "So I learned the substitute—use baking powder. When you run out of toothpaste, use soda and salt."

Mrs. Hart is the daughter of the late millionaire auto parts manufacturer, Walter O. Briggs of Detroit, former owner of the Detroit Tigers baseball team. The senator has "investment income" and a "World War II" disability pension to supplement his \$42,500-a-year congressional pay.

"You check the food advertisements and find out where the best bargains are—pork liver at 29 cents a pound, stewing chicken at 39 cents a pound," she said. "Then, if you were on welfare, you'd have to let it from store to store."

Breakfast consists of toast or bread and reconstituted milk for the three children, coffee for the adults. After a couple of days, when the children were hungry enough to eat oatmeal without the usual dollop of cream, they were served cereal instead of bread.

Tests Finished  
HAILEY — Mrs. Gertrude Twombly, public health nurse, and Mrs. James Fenwick, Blaine County tuberculosis chairman, report tuberculosis skin tests have been completed on first and eighth grade students in the schools of the county. Any positive reactions will be offered a free X ray, made possible by Christmas Seals donations. Mrs. Twombly said 100 per cent participation was noted for the Carey Eighth grade.

**Dear Abby**  
By ABIGAIL VAN BUREN

**DEAR ABBY:** My sympathy to Grandpa, who complained because it took him so long to get his dentures carried on a dinner table conversation with the others.

There is nothing that will drive a man to distraction quicker than ill-fitting dentures. Sending him back to his dentist won't help. What Grandpa needs is a supply of thermoplastic material that will enable him to eat like a horse and talk as much as Hubert Humphrey at the same time.

**TOOTHLESS BUT HAPPY**  
**DEAR ABBY:** Clinical tests

KATHLEEN TATTERSALL

## June Wedding Slatd By Miss Tattersall, Lee

Mr. and Mrs. Arthur Tattersall, Eden, announce the engagement of their daughter, Kathleen, to Scott Lee, son of Mr. and Mrs. George E. Lee, Twin Falls.

Miss Tattersall was graduated from Valley High School in 1966 and is attending the University of Idaho.

Mr. Lee is a 1963 graduate of William Allen High School, Alentown, Pa. He completed four years in the Air Force and is currently attending the University of Idaho.

A June 6 wedding is planned.

## Club Officers Are Re-Elected

HANSEN — It was decided to re-elect present officers of the Latawah Club at the meeting held at the home of Mrs. W. C. Klutz, Mrs. J. Roy Durk was retained as president; Mrs. Grant Carlson, vice president, and Mrs. Thomas Steelsmith, secretary-treasurer.

A potluck dinner was held prior to the business meeting. An Easter gift will be purchased for the adopted girl at Nampa State School. It was decided to contact Mrs. V. L. Wilson to determine if there was interest enough in the school to warrant a poetry contest. A verbal thanks for a gift was expressed by Mrs. R. F. Baily received from the club while she was in the hospital.

Mrs. Durk displayed program leaflets and offered them to members.

Mrs. Clarence Hollifield presented a program of meditative poems and articles.

The April 15 meeting is at the home of Mrs. Grant Carlson.

I must say that you sure did put your foot in it. I have practiced dentistry for more years than you are old and can tell you that NO denture patient can eat as fast with "store-bought" teeth as he could with his own.

Also, there are any number of denture wearers who, because of the anatomy of their mouths, or their inability to adjust to new situations, cannot get a better "fit" no matter how hard the dentist tries. OLD PRO.

**DEAR ABBY:** Almost without exception I agree with you, but in the case of Grandpa, I feel a bit more information on your part is called for. It is obvious that YOU don't wear dentures, Abby.

May I suggest that all new denture wearers take smaller bites, chew more slowly, and distribute the food equally on both sides of the mouth to steady the dentures.

If they practice between meals with raisins, it will help. These hints and lots of patience may do the trick. If THAT does not work, then your advice to "put the bite on the dentist for a better fit" is in order.

Yours very truly,  
C. W. E. JR., D.D.S.  
SIREVEPORT, LA.

**DEAR ABBY:** I read your advice to the denture patient, and

JULIE RASMUSSEN

## Miss Rasmussen Reveals Troth

RUPERT — Mr. and Mrs. Myron Rasmussen, Rupert, announce the engagement and forthcoming marriage of their daughter, Julie, to Fred Legault, son of Mr. and Mrs. Dean Legault, Paul.

The couple is planning a May 7 wedding.

## July Wedding Slatd By Miss Lang, Jensen

GLENNIS FERRY — Lt. Col. (retired) and Mrs. Albert S. Lang, Glennis Ferry, announce the engagement of their daughter, April Susan, to Charles Jensen, Boise, son of Mr. and Mrs. Fred Jensen, Albany, Ore.

Miss Lang was graduated from the Mountain Home High School in 1964, attended Idaho State University for two years, and will be graduated in May from the nursing program at Boise State College.

Mr. Jensen is a graduate of Oregon State University and is employed as a biologist for the Idaho Fish and Game Department, Boise.

A July 26 wedding is planned at the Mountain Home Air Force Base Chapel, with a reception to follow at the Officers Club.

## Club Officers Are Re-Elected

HANSEN — It was decided to re-elect present officers of the Latawah Club at the meeting held at the home of Mrs. W. C. Klutz, Mrs. J. Roy Durk was retained as president; Mrs. Grant Carlson, vice president, and Mrs. Thomas Steelsmith, secretary-treasurer.

A potluck dinner was held prior to the business meeting. An Easter gift will be purchased for the adopted girl at Nampa State School. It was decided to contact Mrs. V. L. Wilson to determine if there was interest enough in the school to warrant a poetry contest. A verbal thanks for a gift was expressed by Mrs. R. F. Baily received from the club while she was in the hospital.

Mrs. Durk displayed program leaflets and offered them to members.

Mrs. Clarence Hollifield presented a program of meditative poems and articles.

# Magic Valley Favorites

MRS. MAUD QUAST  
246 Jackson St., Twin Falls

**Fig Cookies With Filling**  
1 cup sugar  
1/2 cup milk  
4 cups flour  
1/2 teaspoon baking powder  
1 teaspoon soda  
1 egg  
1/2 cup butter  
Vanilla

Roll dough out thin and spread with filling. Fold dough over filling and cut into squares. Place on greased cookie sheet and bake in a 375 degree oven for 15 minutes. Cool on rack.

**Filling**  
2 cups chopped figs or raisins  
1/2 cup sugar  
1/2 cup water  
1/2 teaspoon flour  
Combine mixture and bring to a boil.

(The Times-News will pay \$5 each week for the best recipe submitted for Magic Valley Favorites. If you have a favorite recipe, just mail it to the Recipe Editor, 246 Jackson St., Twin Falls. The recipe becomes the property of the Times-News and cannot be returned.)

## Beautyicians Name Officers

Carol Martin, Burley, was elected president of the Magic Valley Hairdressers Association during a recent meeting at the Artistic Beauty School.

Eva Lewis, Twin Falls, is first vice president; Christ Slimp, second vice president; Arlene Carlos, Burley, financial secretary; Margaret Kay-Wood, Burley, secretary; Virginia Carlson, Gooding, historian; Mossie Nora, Twin Falls, membership; Margie Butterfield, Twin Falls, legislation; Spencer Parker, Twin Falls, program chairman; and Elva Knowles, Twin Falls, director.

## Social Calendar

**SHOSHONE** — The American Legion's 50th Anniversary dinner will be observed at 7 p.m. Monday with a potluck dinner served at 7 p.m. by the American Legion Auxiliary. Legion members and their wives and auxiliary members and husbands are invited.

The Loyal Order of Moose will hold a dance at 9 p.m. Saturday at the Twin Falls Moose Hall. Music will be by the Varieties. All Moose members and their guests are welcome to attend.

The Partners will not hold a dance Saturday night at the Moose Hall as was previously announced.

**New Member Is Welcomed**  
JEROME — Mrs. Jim Payton, Jerome, was welcomed as a new member of the Western Ruralettes Home Demonstration Club during a recent meeting at the home of Mrs. Frank Perme.

Members made Easter rabbits and burlap flowers. Leaflets on bicycle safety and reflecting tapes were distributed to each member for their children by Mrs. Bill Jackson. The hostess served refreshments.

# Miss Schroeder Is Engaged To Deward Einfalt

Buhl — Mr. and Mrs. Donald Schroeder, Buhl, announce the engagement and forthcoming marriage of their daughter, Charlotte Ann, to Deward Einfalt, son of Mr. and Mrs. H. C. Gentry, Halley.

Miss Schroeder is employed by Gordon E. Beckstead, certified public accountant, Twin Falls.

Mr. Einfalt is employed as a draftsman for Acme Machine Works, Inc., Buhl.

A May 15 wedding is planned at St. John's Lutheran Church, Buhl.

# Book Reviewed

Members and guests of the Literary Art Guild met recently at the home of Mrs. Ed Cook where they heard the book, "Gift of Joy" written by Helen Hayes, reviewed by Mrs. Bernell Skinner.

Mrs. E. J. Morgan gave the guided thought and Mrs. LeRoy Fermin gave the authors sketch. Mrs. George Haney was in charge of favors.

Hostesses were Mrs. Vaughn Pond, Mrs. Leonard Mauss and Mrs. John Coleman.

## Nurse Answers 'Voice' At Airport, Saves A Life

By JEANNE MURRAY HILL  
Nurse and Housewife  
Scottsdale, Arizona

My flight home from a brief trip to the States was pleasant one — up until the last half-hour. Then, for no reason at all, apprehension began to gather me like the dark clouds of the turbulence we'd just passed through over Texas. But the turbulence hadn't unnerved me. After 15 years of being a nurse, I take a push to me like that. That's what was so strange about my unease. When the pilot announced, "We've passed through the turbulence easily with only a few minutes time-loss," my hand shook one that I spotted my suitcase on the floor.

"Why-worry? I asked myself. I wasn't trying to make plans. Connections was just going home. My husband and children would be in no danger. I had long been a practicing nurse in our family to make meeting places a family fun occasion. The children enjoyed watching the other planes and before the special plane was met. Then we would always have Cokes together in the airport before going home. So there was no reason to be upset over being a few minutes late. I chided myself. That thought was followed by the warning "Buckle up!"

For the next 15 minutes I sat, belongings in hand, waiting to land. Soon below us Phoenix was glimmering canopy of lights in the black night. "When will we land?" the man behind me asked the stewardess. "Are we very late?" "Any minute now," she answered, checking her watch. "We'll be about four minutes late. Her words sent a chill through me. "Hurry up, get out your baggage stubs." The words were felt more than actually heard, so definite this time that I obeyed without question. The plane landed safely and taxied to the terminal.

When the "fasten your seat belts" sign flashed, I jumped out of my seat and I scrambled down the ramp. I was glad to see my family well and safe. But still that did not relieve my feeling of anxiety. A stronger force was now guiding my very footsteps. I suddenly kissed the family, scooped up my 4-year-old into my arms and kept walking. My husband glanced at me questioningly when I headed away from the restaurant, the scene of our usual gabfest. "I need to get my baggage," called one of the children's heads. They followed me reluctantly toward the baggage depot. There I could see my two blue suitcases, but something else caught my eye. Three feet in front of my bags was a small cluster of people around a wheelchair. "Hurry up! Go to him!" I thought. I ran to the group and pushed my way through. A man in his 60s lay slumped in the chair. His skin was ashen. "He's got a chronic lung condition," said one of the men. "I had before," said the man's wife, her voice shaking.

"I'm a nurse," I said. I began to breathe. There was no pulse. I put my ear to his chest; I thought I heard a very faint "Dear God, help me," I heard under my breath. Then I said, "You! Call an ambulance." I pointed to a young man in the crowd. "Call the Fire Rescue Squad."

"Louis!" I turned to my husband. "Help me get him to the floor." Once the ill man was flat on the floor, I began mouth-to-mouth resuscitation, alternately blowing, resting, not daring to stop. By the time another nurse, also a passenger, arrived on the scene, an occasional beat of the man's heart could be felt in the pulse at his wrist. The additional nurse and I were able to massage the heart externally. We continued mouth-to-mouth resuscitation until the Fire Rescue Squad came with an oxygen unit. Then a passing doctor arrived to help. Now, the ill man's pulse was becoming more and more frequent.

"When the ambulance arrived about 10 minutes later, his color had changed from ashen to life-pink. My children, who had stayed on the slide, out of the way, joined my husband and me as we watched the ambulance drive off. "I've got your suitcases, Mom," my husband said. "Thanks," I murmured, and then I said another heartfelt "Thank you" to that voice I'd felt in the dark night. Minutes made the difference between life and death. A phone call to the hospital that day reassured me that I've recovered too — recovered my faith that over the years has become so casual I no longer expect the type of guidance that came to me on the airplane.

"You know now that God can speak to us in many ways. He can even nudge us to hurry when He has a job for us. (From the magazine, Guideposts, copyright, 1968, by Guideposts Associates, Inc., Carmel, N. Y.) Next — Barbara Wilkerson, California's bookmaker, tells of the inspiring and a heart-warming story of her uncle's impossible dream that came true.

**Green Team Is Winner Of Meet**  
HANSEN — The Green team with seven members present, won a score of 310 points to win over the Red team, also with seven members present, and with a score of 305 points, at the Woodman Rifle shoot at the Woodman Hill. Joe Hill was high individual shooter for men with a score of 54 points. Norville Reynolds was second with a score of 50 and Wayne Smith, third, with a score of 47. Mrs. Minerva Smith was high for women with a score of 50 points. Mrs. Ruth Hill, second, score 48, and Mrs. Helen Reynolds and Lydia Mae Pylon scored 47 points each, tying for third place. This was the last shoot of the six months series, and the winning Red team with a score of 1890 points will be feted at a banquet given by the dining Green team, with 1730 points, at the April meeting. The individual scores will be announced at that time. New captains named were Joe Hill for the Red team and Sharon Truscott, Twin Falls, Green, Mr. and Mrs. Bill Thompson were hosts for the evening.

### WATCH FOR OUR GETTING READY TO MOVE SALE IN SUNDAY'S PAPER ANDERSON LUMBER CO.

### Low Rent

WASHINGTON—Sen. Len. Jordan and Rep. Orval Hansen announced that Twin Falls has been awarded a \$12,800 loan by the Department of Housing and Urban Development. The funds will enable the housing authority in Twin Falls to start planning work for 20 low-rent homes for the elderly. Lawrence D. Harper is the executive director of the housing authority.

### Mohlman Gets Blue Pencil For Speech

RUPERT — For the second time since re-organization this year, Russell Mohlman was awarded the blue pencil for his speech during the weekly meeting of the Rupert Toastmasters Club Monday night in Rupert. Mr. Mohlman received the honor for his talk, "The New World" and will represent the Rupert club in the area speech contest Saturday at the Red Bank. About 80 speakers from the two-Twin Falls clubs, Jerome, Burley and Rupert clubs will participate in the event. The red pencil Monday night was won by Pete Ford of his table topic.

### Principal At Minico Gets ZUES Award

RUPERT — Minico High School principal, Leigh Ingersoll, was awarded the ZUES award from the Alpha Eta chapter of the Sigma Alpha Sorority Tuesday night during the second annual Minico Variety Show, sponsored by the sorority. The plaque was presented to Mr. Ingersoll to honor him for making it possible for the sorority to sponsor the show for the past two years at the high school. The Variety show is a fund raising event with all proceeds being used to purchase campships for handicapped children in Mindokota County. Mr. Ingersoll is noted for encouraging the sorority in their efforts, and the students in their talent achievements. In making the presentation, the sorority members noted how Mr. Ingersoll was proud of the school and is anxious for the public to see the accomplishments of today's youth. Mr. Ingersoll received his B.A. from BYU, his Masters from the University of Utah, and has also attended school at Logan. He has taught at American Fork, Utah, and joined with the Minico staff after a stretch of 10 years as a teacher. The man is sports minded and enjoys golf, fishing and howling, as well as snowmobiling. The Variety Show is presented each year in a community where there is an E.S.A. chapter to a man who has performed outstanding service to the chapter, to the community, and to mankind in general. The award this year was the first presented by the Alpha Eta chapter. The Variety Show was rated a successful venture as the audience was entertained by 18 talented numbers. Emcees were Rick Koller and Dick Shafer.

### Club Elects

WENDELL — Mrs. Richard Jasper, Wendell, was elected a leader for the Slip Knot Tops Club at a meeting at the Wendell Civic Club Rooms. Other officers include Barbara Eklund, co-leader; Zoo Blackner, secretary, and Mrs. Ervin Rast, treasurer. Meetings are held at 7:30 p.m. each Wednesday in the club room. Anyone wishing to join may contact one of the leaders or come to a meeting.

## Kent McCord, TV Star, To Emcee Dystrophy Benefit

KENT MCCORD

Kent McCord, star of television's Adam-12 series, will act as emcee during the halftime show at the benefit basketball game at 8 p.m. Saturday in the Twin Falls High School Gymnasium. The local chapter of Teens Against Dystrophy received word late this week that the television celebrity would be able to attend the benefit game and direct the halftime show. The game will pit the College of Southern Idaho Golden Eagles against the city all-stars. Teens Against Dystrophy has recently been included in the Magic Valley chapter of the Muscular Dystrophy Association. Proceeds from the game will go toward their cause. This will be the last chance for CSI fans to see Ron Adams, Tom Bush, Steve Miller and Claude Rasmussen in action.

### Tourney Set

SHOSHONE — A Bible quiz and ping-pong tournament will be held at 7:30 p.m. April 1 at the Methodist Church. Teams participating are youths from the Baptist, Methodist and Assembly of God churches. The quiz will be on Chapters 5 and 6 in the Gospel of Mark.

## Miss Chitty Speaks To Ex-Teachers

Irene Chitty, Caracas, South America, exchange student in Twin Falls, showed slides and answered questions on her country at a meeting of the South Central Retired Teachers Association at the Regency Hotel. Mrs. Alice Brennan, Boise, state director, said during the past year new chapters of the group have been organized at Lewiston, Idaho Falls and Nampa. Beulah Way, Twin Falls, introduced new members from Twin Falls, Murtaugh and Holister and Eliza Morgan introduced a new member from Filer. Vivian Klink and Juanita Suttcliff reported they have chosen Bernice Babcock for the "Hall of Fame" award. Selected as delegates to the Delegate Assembly to be held May 27 in Boise were Mrs. Fawn Nelson, Kimberly, Miss Babcock, Lillian Eliza Morgan, Eleanor Christoffer, Berlin, Maxwell and Ellen Brose, all Twin Falls, and Lillian-Barton, Wendell. Helen Coleman, Twin Falls, urged members to write to the Nampa State School. Names may be obtained from Ethel Kautz, Miss Way or Mrs. Coleman. She also reported on the Happy Day School here.

### Attend College

Three Twin Falls Headstart employees are taking an eight-week course in leadership training at Western Washington State College, Bellingham, Wash. Mrs. Doris Putado, Mrs. Carolyn Jasso and Mrs. Adeline Parrott started the course last week and will return the week of May 8. They can receive up to six college credit hours for the course.

## T.F. Lutheran Church Plans Special Holy Week Events

Special worship services and activities for Holy Week will be conducted at Immanuel Lutheran Church, Twin Falls, according to Rev. Harold Iben, pastor. It was noted that a Rodeo-ation Service will be held at 8 and 11 a.m. Palm Sunday with Chris Treinke, Seaward, Neb., as guest speaker. A Communion Service will be conducted Monday Thursday at 8 p.m. and Good Friday will be observed with a 6 p.m. service with Steve Ude, Springfield, Ill., as guest speaker. Climax of the week will be Easter Sunday Services conducted by Pastor Iben at 8 and 11 a.m. with communion at both services. A special musical selection, "Praise Ye, Oh Praise The Lord," a Motet by H. L. Hasselberg, will be presented by the Women's League and a tenor solo by Mrs. Henry Westendorf, director. Herbert Einspar is regular organist and Terry Becker, choir accompanist. From 7 to 10 a.m. a Continental Breakfast will be served in the Fellowship Hall by the Walker League.

### Joint Communion Service Slated

The First Presbyterian and the First Methodist Churches in Twin Falls have a joint communion service at 8 p.m. Thursday in the Presbyterian Church. The choirs from the two churches will combine to sing cantatas, "Christ Lay in Death's Dark Prison" by J. S. Bach. Following the cantata, communion will be served. Conducting the special service will be Rev. Robert Harvey, Presbyterian Church, and Rev. Harold Iben, Methodist Church. Soloist during the cantata will be Rev. Harvey and Roger Vincent, Methodist Church choir director. David L. Fairstead, Presbyterian Church choir director, will direct the cantata.

### Service Set

SHOSHONE — Special Palm Sunday services will be held at 11 a.m. Sunday at the First Baptist Church here. The Junior choir under the direction of Mrs. Mary Lou Maris and Mrs. Nora Ann Cook will be featured. Among musical selections will be "How Great Thou Art."

# Knickerbockers Trounce Baltimore, Atlanta Tops Rockets In NBA Playoffs

BALTIMORE (UPI)—Combined forces of the Baltimore Orioles and the Baltimore Colts trounced the New York Yankees 10-1 in a 13-10 victory Thursday night in the opening game of their Eastern Division semifinal playoff series.

Dave DeBusschere backed Frazier's playmaking with 24 points, and the Knicks got Bill Bradley and Elton Brand to bulldoze the Knicks' defense in front of 22,211 after one period, then swept into a 27-21 advantage with a straight-point attack at the beginning of the second quarter.

New York's defense forced numerous Baltimore mistakes. Earl Monroe scored 18 points in the first half and led the Bulls with 32 points.

In the third quarter, New York surged to 14-point leads of 64-44 and 74-54, both by shooting highlighting the play. Three straight Barnett baskets scored the margin to 82-66 and New York held on 84-72 lead after three quarters.

Ray Scott and Frazier traded shooting streaks early in the fourth quarter before Monroe scored three baskets of his own, and a Jack Martin jumper cut the lead to 101-94. However, DeBusschere, Barnett and Reed scored in quick succession, leaving no chance of a Bulls rally.

Atlanta (UPI)—Lou Hudson scored 39 points, 23 in the second half, to lead the Atlanta Hawks to a 107-98 victory over the San Diego Rockets Thursday night in the first round of the NBA Western Division playoffs.

Jensen Still In Serious Condition

RENO, Nev. (UPI)—Jackie Jensen, the former "Golden Rule" of college football and a star of the NFL, was in serious condition Thursday following a heart attack.

Jensen, 42, head baseball coach at the University of Nevada, was hospitalized Wednesday after suffering a severe heart attack during practice.

Doctors at Washoe Medical Center, who listed his condition as critical when he was admitted, changed it to serious Thursday. He remained in the cardiac intensive care section of the hospital.

Jensen was the American League's Most Valuable Player in 1953 when he batted .286, hit 35 home runs and led the league with 122 runs batted in for the Boston Red Sox.

He retired in 1960 because of his fear of flying after an 11-year career in the American League with the Yankees, Washington and Boston. Jensen compiled a lifetime batting average of .281, with a best of .315 in 1956 with the Red Sox.

Jensen began his baseball career in 1949 with Oakland in the Pacific Coast League, then joined the Yankees in 1950.

He played in the 1949 Rose Bowl Game, and was named an All-American football fullback at the University of California. He played in the 1949 Rose Bowl Game.

He was named head baseball coach at University of Nevada this season after serving as assistant coach last year.

# Twin Falls Jayvees Win 3-Way Meet

JEROME — Sophomore Jack Cooper's two-mile victory broke Twin Falls away from a tight race with Jerome and Arco in a triangular meet with Butte of Arco and Jerome.

Twin Falls led only 57-58 during the event but the Bruins Jayvees took the lead in the two-mile. Butte wound up with 49 and Jerome was third with 43.

Rockey Reece led Twin Falls with two firsts and a second while Barja placed in four events—and Thompson won a 200-yard dash.

Prestridge was the big point man for Butte.

In a girls dual conducted in conjunction with the affair, Butte defeated Jerome 61-43, sweeping four of the eight events.

Team scoring — Twin Falls 67, Jerome 49, Arco 43.

200-yard dash — Thompson, Butte; Moore, Jerome; 11.0.

400-yard dash — Prestridge, Butte; Tamm, Jerome; 1:15.

800-yard relay — Jerome (Barja, Kline, Jackson, Stauffer), Butte (1:30).

Shotput — Cummins, Butte; Spira, Jerome; 31.0.

Discus — Barja, Jerome; Cummins, Butte; Prestridge, Jerome; 125.7.

# Metal Proves Fatal To Cutthroats

MOSCOW, Idaho (UPI)—Cutthroats in both small and large streams are highly sensitive to small concentrations of metal contaminants and are acutely killed by them, according to Idaho zoologist Professor Fred Rabe said here Thursday.

The trout, a common species in the unpolluted North Fork of the river, are currently being bred in hatcheries under strict control of the Idaho Department of Fish and Game.

"During our research, we placed the trout in both small glass aquaria and a large running water system containing North Fork water," Rabe said. "They were exposed to a solution of zinc over a period of 96 hours to determine their tolerance limits to this toxin."

"It is apparent so far that the trout are very sensitive to zinc concentrations greater than 0.5 milligrams per cubic liter of water," Rabe said. "It is pointed out that the zinc in other heavy metals tends to limit aquatic life at all levels in the river, but said water quality standards set in 1967 by the Clean Water Act by the federal government should maintain clean-up of the river."

He also noted that many miles along the river have recently installed settling ponds which have substantially reduced the sediment destructive to aquatic life.

# Torre And Cepeda Pick Up Tempo For New Teams, Provide Spark In Victories

By United Press International

Joe Torre and Orlando Cepeda aren't having much trouble getting into the "swing" of things for their new teams.

Both sluggers, who were traded for each other last week, continued to impress their new managers by their hitting Thursday while leading their teams to exhibition victories.

Torre, who will play mostly at first base this year, hit a second home run since joining the Atlanta Braves to a 7-1 victory over the Baltimore Orioles.

—Southpaw Steve Carlton shared the spotlight with Torre. He pitched seven shutout innings for the defending NL champion. Tom Seaver worked seven innings for the Mets and allowed only six hits, but he was hit twice and was charged with three runs.

Cepeda's homer, a two-run shot, capped the combined two-

The Hawks were down by as many as 13 points in the second quarter, but began rolling behind Hudson and Bill Bridges, and by halftime Atlanta was in a 64-44 lead.

Bridges gave Hudson all the help he needed with 17 points and 12 rebounds.

Elvin Hayes, the league's leading scorer, led the Rockets with 31 points and Don Kojis hit 16.

The Hawks and San Diego resume their best-of-seven series here Saturday night.

# All-Stars Set Meeting Saturday

INDIANAPOLIS, Ind. (UPI)—Twenty of the nation's top college basketball players begin their "All-Star Game" Friday for the East-West all-star game in Hinkle Fieldhouse.

Despite the limitations of a two-hour practice for each club, West coach Branch McCracken, a former great player at Indiana, thinks the players will perform well.

"When you have good ball players like these, you know they'll put on a good show for the crowd," McCracken said.

McCracken is the head coach of Butler while Hinkle of the East team. Hinkle over the years has molded teams to a ball control style, while McCracken's Hoosier clubs have traditionally been fast-breaking teams.

The West team should have an advantage on the boards, with three centers on the roster at 6-9 or 6-10. Jack Gillespie of Montana State stands 6-10 while Ted Wiernan of Washington State and Ron Power of Michigan State and Terry Texas A&M both measure 6-9.

The East has a 6-10 star in Neal Walk of Florida, but the next tallest are Lee Lafayette of Michigan State and Terry Dixon of Boston College at 6-7.

The West club also has Gene Williams of Kansas State, Bud Ogden of Santa Clara, Bobby Smith of Tulsa, Willie McCarter of Drake, Butch Beard of Louisville, Don Griffin of Michigan State and Harry Hall of Wyoming.

The East club includes John Jones, Villanova, John Warren of St. Joseph, Tom Hagan of Vanderbilt, Roy Gilliam of Purdue, George Thompson of Marquette, Bill Grier of Tennessee and Bill Keller of Purdue.

An invitation was sent to Lew Alcindor, UCLA's towering pivotman, but he did not respond, game director Don Bates said.

# Vandals Sign 3 Idaho Gridders

MOSCOW, Idaho (UPI)—University of Idaho football coach YC McNamee announced today the signing of three top Idaho football players to three-year contracts.

The three are Dick Kline, 16, and Kevin Pooley, 5-11, both all conference selections from Sandpoint High School. Kline is a flanker and Pooley a fullback.

# Expos Scored

MONTREAL (UPI)—The Quebec Federation of Labor Thursday criticized the management of the Montreal Expos for "apparent racial prejudice" and suggested the team change its training site from Florida to "Latin America or Japan or even Cuba."

The union, which attacked three hits, including a pair of doubles, as the Pirates' high-pawed Jerry Nyman for five runs in four innings. The White Sox collected only five hits off Steve Driess, Bruce D'Arnaud and Luke Walker.

Henk Allen's first home run of the exhibition season enabled the Senators to post their first victory of the spring. Allen's homer came off Florida's Mike Nelson, who had pitched his way out of a bases-full, one-out jam in the ninth and a two-out, one-out situation in the 11th.

—Tony Conigliaro, trying to make a comeback after a serious eye injury last season, pitched a shutout in his first game, struck out a homer and a single, and paced the Red Sox' triumph. Conigliaro's homer was his first since July 1967, and his sixteenth in 10 seasons.

Manny Sanguillen, hoping to land the Pirates' first string-

# Murphy Tops 'Little Man' All-America

NEW YORK (UPI)—Calvin Murphy of Niagara, a two-time All-American, was named the "Small-Americk" basketball team for college players 5 feet 10 inches or under.

Selected with the 10th pick were John Rinka (5-9) of Kenyon, Greg Carney (5-9) of Wehita State, Greg Williams (5-9) of Rice and Dick DeVenzio (5-9) of Duke.

Murphy, the only "Small America" repeater from last year, amassed a 32.7-point scoring average for third place among 100 college players.

His high was 68 points against Syracuse early in the season. Rinka, leading vote-getter on the college "Little Man" All-America team, came through with a 33.3 scoring average.

Williams, second at the rate of 32.1 points, scored at DePaul, 21 points even, and DeVenzio at 22.2 as Duke's backcourt "quarterback."

Selected in the small men's second round were Gordon Triss (5-10) of Colorado, Charley Triss (5-8) of New Mexico State, Steve Bilko (5-10) of Pennsylvania and Pello Gipson (5-7) of New Mexico.

# Denyer Grabs Big Lead In Ski Tourney

STEAMBOAT, S.P.R.I.N.G. Color. (UPI)—An expected challenge by Denver grabbed the lead with a strong 89-1 points in the first day of the three-day NCAA Ski Championships here.

Fate Rachetto, a DU senior from Deadwood, S.D., paced the Planners in the individual slalom—Thursday recording a time of 1:31.41. Following Rachetto was an Air Force cadet, Greg Schwartz, with a time of 1:32.85.

The DU Planners were challenged, as expected, by Washington University, which placed third with total standing of 96.6. Montana State held on to the second spot in the team efforts with a 96.7.

The Colorado University Buffalo seemed to be well out of the running after one day, placing 11th in team standings with an overall 73.5.

One CU man, Tom Gratch, managed a third-place in the individual slalom with a 1:33.05, but his efforts couldn't pull the Buffs out of a day-long slump.

Observers at Mt. Werner said "Bright, sunny" conditions hampered many of the competitors, and a number of skiers fell during the first day of competition.

DU, barely leading Montann State and Dartmouth, is trying for its 12th NCAA Skiing title. Washington University held on to the fourth place with 90.7 team totals followed by Montana University with 90.4.

The DU Planners have lost only one of six ski meets this year, losing to the Buffs in the Rocky Mountain Regionals at Mt. Empire, Utah, on Friday, the downhill and cross-country are scheduled with ski jumping finishing up the tourney Saturday.

# Sweden Tops Canada In Hockey Meet

STOCKHOLM (UPI)—Ulf Sterner scored two goals and assisted on a third Thursday night to pace Sweden to a triumph over Canada in a wild, fist-swinging World Ice Hockey Championship game.

The 28-year-old Sterner, a former National Hockey League player with the New York Rangers, scored in the first period and triggered a three-goal third period rally with another score which brought Sweden from behind to win its sixth game, in eight starts.

Silgverton Johansson and Hakan Nygren also tallied for Sweden in the final period as the Swedes whipped the Canadians for the second time. Canada's two goals were scored in the second period by Gerry Pinard and Bill Heflin.

Penalties played an important part in the Sweden victory with two of their goals coming on power plays. A total of 27 minutes in penalties were called on Canada by referees Hal Tamm of the United States and Anatoly Seglin of Russia, and Canadian star Kevin O'Shea was banished from the game for fighting.

Sterner was the main target of the Canadians' rough tactics. In the first period violence, (hated between Sterner and two Canadians and in the third period O'Shea jumped on Sterner behind the Canadian net and was sent off the ice for five minutes.

On his way to the penalty box O'Shea knocked over Sweden's Bert-Ola Nordlander and Seglin tossed the Canadian out of the game. O'Shea was likely to be suspended for one or maybe both of Canada's remaining games.

# Ex-Quarterback Shatters Course Record To Claim Airlines Golf Meet Lead

MIAMI (UPI)—Former SMU quarterback Dewitt Weaver Jr. set a course record with a 6-under-par 66 Thursday to grab a one-stroke lead over 54-year-old Sam Sneed in the opening round of the \$20,000 National Airlines Open golf tournament.

Weaver, son of the former Texas Tech football coach, cut one stroke off the old record on the par-3 10th hole.

Another stroke back at 68 was taken by Sneed on the par-4 11th.

A tee-off breakfast and 18-hole sweepstakes will officially begin the 1968 season for the Twin Falls Men's Golf Association Sunday morning at the municipal golf course.

President George Merritt said breakfast will be served from 7:30 to 8:30 a.m. He said Sunday also will be the last day to enter or qualify for the spring best ball tournament.

# Kick-Off

A tee-off breakfast and 18-hole sweepstakes will officially begin the 1968 season for the Twin Falls Men's Golf Association Sunday morning at the municipal golf course.

President George Merritt said breakfast will be served from 7:30 to 8:30 a.m. He said Sunday also will be the last day to enter or qualify for the spring best ball tournament.

# Yarborough Misses Mark, But Qualifies

HAMPTON, Ga. (UPI)—Cale Yarborough, seeking a third straight NASCAR victory this Sunday, gambled on gears Thursday and missed his chance to set a lap record while leading Atlanta International Raceway.

Yarborough, the Timmonsville, S.C. Mercury driver, was off at 155.6 mph, barely a mile off pole sitter David Pearson's record pace of Wednesday, during practice but settled for 154.72 in his qualifying run.

That was still the second best time so far this week and gave him the No. 7 spot for Sunday's race since six drivers qualified ahead of him Wednesday.

Yarborough's wife, Jean, and Atlanta 500 in 1967 and 1968 and hopes to become the only man besides retired Fred Lorenzen to win here three times in a row, changed rear gears to seek the lap record but found it slowed him down.

"I've went back to his original set up but didn't have time to reset it before having to make his qualifying run."

A total of 10 drivers qualified Thursday by being in the number of cars set for the 40-car \$109,000 Sunday race. Another 14 will qualify with the time trial Friday and Saturday and the final 10 places will be filled by the results of a 30-mile race Saturday afternoon.

# Along Fences And Canals

Joley Parker and David Whitesell were Big Wood Canal employes making preparations to avert some flood conditions. Parker cleared some roads at Magic and a canal ditch in Gooding. Whitesell was working on a canal ditch in the Riverwood Ranch area, near Richfield.

Mrs. George Terry has been hired as the milker for the Frank Jones dairy cows, King Hill. The replacement heifers that have calved have been moved from the Knox River Ranch, to the Plitch Fork Ranch.

Alvin Irving, farm manager on the Knox Pitch Fork Ranch, King Hill, is at work seeding 100 acres to alfalfa, wheat and barley.

Wesley Fink is preparing land for potato planting. A number of farmers are plowing and harrowing land.

Curtis May, manager at the Land-Creek Farms, Glenns Ferry, for the second year, reports that they were starting to plant beets Monday and had the grain all in. They plan less potato acreage this year and the same for grain. They have 4,000 acres under cultivation near Glenns Ferry. 1,700 at Bill-Rio west of Hammett, and on the El Dorado west of Mountain Home, 500 acres are being cultivated.

High winds last week lifted a machine shed at the Rodney Ruttery farm at King Hill and put it on a truck. The roads were littered with large tree limbs and the garage roof was damaged at the Hugh Sugg home. The wind, which seemed to be a twister, blew a lot of shingles off the roof of the L. C. King residence also.

Shearing of two bands of sheep was completed on the Roo Bronson farm, Southeast of Burley on the Albion highway. The sheep will be trucked to the spring range about April, if weather conditions are favorable, and later moved to summer range in the Meadow Creek area.

Cold nights at Richfield have slowed thawing conditions even with sunny days. The temperature dropped to 10 degrees Monday night and such weather gives only about four hours of thawing during the day. Richfield's snowy winter storms have returned nitrogen to the soil, however, and a bumper first crop of hay is expected.

Sheep shearing is completed on the Jones-Sandy ranch, Salmon Falls, Sheep Co. ranch and the Brailsford ranch in Hagerman Valley.

Tumble-weeds have blown into and matted against net wire fences in the Hagerman Valley because of recent winds and give the appearance of solid fences.

Richfield's official weather observer, Leslie Bushby, reports a water content of 11.27 inches for the 1969 winter in comparison to 11.21 inches for the winter of 1965. That year there was less snow and more rain.

Mr. and Mrs. Wesley Monson and son Dean have moved from their farm in North Shoshone to a new place they have purchased in the Kinama-Paul area.

Barnyard fertilizer has been spread on fields at Tuttle this week including the farms of Bob Robinson and William Maude, by Willis-Hawkes. Plowing is under way also at the Bradshaw Ranch.

## 2 Dairymen Named To Hall Of Fame

BOISE — Two veterans of the milk production business have been added to the Idaho Dairy Hall of Fame at the annual convention of the Idaho Dairymen's Association at Hotel Boise.

They are Domingo Onederra of Boise and Harris Mickelson of Grace. Certificates of membership in the select circle of 28 men and women were presented at a noon meeting by the Idaho Purebred Dairy Association, sponsor of the hall of fame.

Onederra came to Idaho from the Basque Provinces in 1907. After herding sheep several years, he worked for a lumber company before buying Jersey cattle and an acreage near Boise. He has had many champion cows and bulls at county fairs and in the state show herd.

He conducted judging contests at his farm for Futuro Farmers of America and 4-H club members. University of Idaho judging teams have practiced on his herd. Onederra retired in 1961, but still maintains interest in dairy stock at the age of 84.

Mickelson has been raising Holsteins at Grace since 1928. Several of his cattle have won

## Hall Of Fame

The 1970 Southern Idaho Livestock Hall of Fame banquet will be held at the Ponderosa Inn, Burley, the first time to be held outside Twin Falls, according to Earl Stansell, Twin Falls president of the Hall of Fame.

Mr. Stansell said that 18 directors voted for the move, one against and two directors did not vote.

The 1970 Hall of Fame banquet will be held Feb. 16 in the Ponderosa Inn.

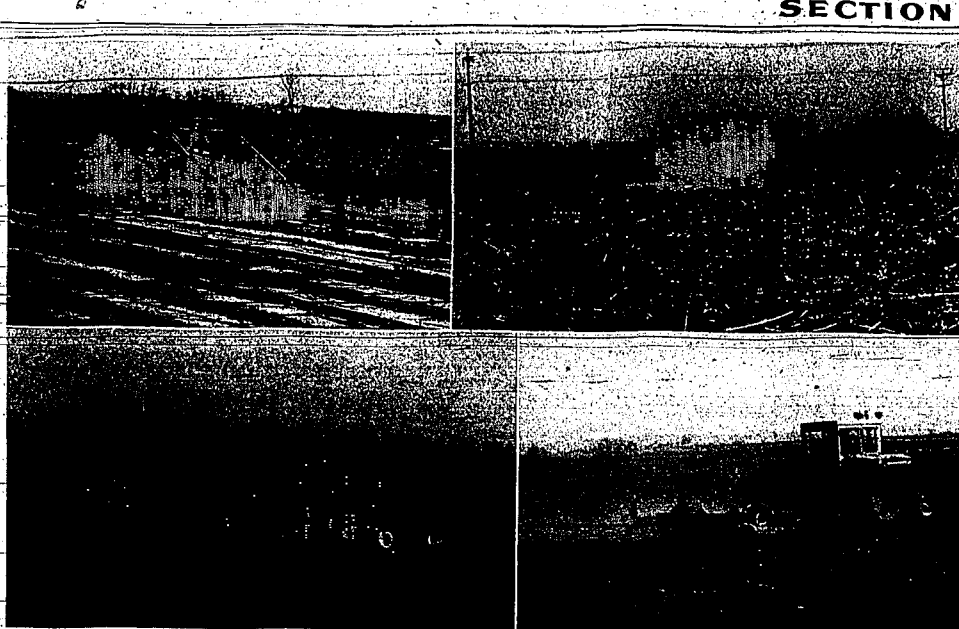

championships at various fairs. His bull named Senator was never defeated in any competition.

Life-time average of the Mickelson herd is about 450 pounds of fat and 12,500 pounds of milk.

Mickelson has for 30 years been a member of the Idaho Holstein association and director of the national association. He has been vice president of the Idaho Dairymen's Association, chairman of the county fair board and a 4-H club leader 12 years.

# Farm AND Ranch SECTION

FARMING in the southern part of Magic Valley got in full swing this week with the arrival of spring. These four photos depict most of the type of farming activity in this area. In the northern part of the valley, snow still remains on the ground, so farmers cannot get in the fields. With the arrival of spring (finally) farmers are busy in the fields preparing the ground for this season's crops.

## District Dairy Sale Planned For Area 4-H, FFA Members

A district dairy sale is in the making for 4-H Club and FFA members in Magic Valley according to Vernon Lassen, who was chosen chairman of the executive committee.

Dairymen, 4-H leaders and county agents from the area met in Twin Falls to determine a sale of dairy projects for the two youth organizations was feasible and worthwhile, initiative and interest for the sale came from dairy industry people, according to Graham Hooper, county agent from Gooding County.

The dairy industry has reasoned that 4-H and FFA members with dairy projects should have an opportunity to sell their animals for a premium the same as those members with fat meat animals.

Dewey Tubbs and Owen Bolan, both from Gooding County, agreed that plans for the sale area now underway will match to be done before the first sale to be held, perhaps in October.

Those named to the executive committee are Vernon Lassen, Twin Falls County, chairman; George Beer, Jerome County; Marvin Duggan, Twin Falls County; Dewey Tubbs and Owen Bolan of Gooding County.

Policies, including rules and regulations, will be put together

## Reports Given

BLISS — Wanda Hulse, daughter of Mr. and Mrs. Boyd Hulse, and Hugh Bishop, son of Mr. and Mrs. Sam Bishop Jr., reported on last year's Boys' State and Girls' State at a meeting of the Bliss Grange.

Mrs. Harold Hainline was appointed chairman of the food committee to serve at Mrs. Ruth Stevens' farm sale. She will be assisted by other women members of the Grange.

## Hog Totals On Farms In 10 States Given

WASHINGTON (UPI) — The number of hogs and pigs on farms in 10 corn belt states March 1 was 41.3 million head, up four per cent from one year earlier, the Agriculture Department said today.

The department's Crop Reporting Board said farmers in the 10 states produced an estimated 13.4 million pigs from last December through February, up three per cent from a year earlier. Producers indicated plans to farrow five per cent more sows than one year earlier in the March-May period, and six per cent more from June through August.

The states covered by the report included Ohio, Indiana, Illinois, Wisconsin, Minnesota, Iowa, Missouri, South Dakota, Nebraska and Kansas.

## HATCHINGS LISTED

WASHINGTON — U.S. hatcheries produced 267 million chicks during February, three per cent above a year ago, according to the Crop Reporting Board.

## We'll blend a fertilizer to fit your needs.

How big a yield are you shooting for this year? What crops are you going to grow? What nutrients are lacking in your soil? The answers to these questions determine your fertilizer requirements. We will blend the fertilizers you need to match your crop and soil. And we can do it right here, in our plant, at almost a moment's notice. In fact, we can blend special fertilizers for different areas of your farm. So, no matter what your fertilizer needs, call us. And if you need applying equipment, we have the most up-to-date, most accurate machines on the market, available for your use. But let us know just as soon as possible so we can reserve one for you when you need it. CROP-MATE Fertilizer — another quality reason to farm with American Oil.

You expect more from American and you get it.

## SPECIAL STOCKER & FEEDER SALE

**MAKING CHARTS** in preparation for the 14th annual Water Forecast Meeting of the Salmon Tract's water supply outlook are two Soil Conservation Service officials. From left are Morland Nelson, Boise, state snow surveyor, and Jim Marshall, Twin Falls, snow surveyor. Mr. Nelson will predict at this forecast meeting the amount of water the farmers will receive this year on the Salmon Tract.

### Social Security Question Box

If you have any questions about your social security, address them to: Jim Davis, Box 1239, Twin Falls, Idaho 83301.

**Q.** Why do you recommend that a person should check his social security record every few years?

**A.** The purpose of checking your social security record is to be sure that you are getting credit for all of the work you do under social security. Then when you retire, become disabled, or die social security benefits can be paid at the highest amount due to you. Periodic checking is particularly advisable if you change jobs often. Postcard forms are available at any social security office which can be used to request a statement of your earnings under social security. If you believe your record is incorrect, the people at your social security office will gladly help you straighten it out.

**Q.** I am a widow and do not have any children. What do I have to be to start receiving social security benefits on my husband's account?

**A.** A widow who is not disabled may start her social security benefits at age 60. A disabled widow may begin receiving benefits as early as age 50 if she becomes severely disabled before her husband's death or within seven years after his death. Also a widow who receives benefits as a mother with children may receive payments if she becomes disabled before these payments end. The full amount of a widow's benefit, payable at age 62, is 82 1/2 per cent of her deceased husband's retirement benefit amount. If she starts receiving benefits before the age of 62, the amount is permanently reduced.

## Water Forecast Meeting Set

Salmon Tract farmers will hear Friday, April 4, what the water outlook is for them. The Twin Falls Soil Conservation District's annual Water Forecast Meeting will be held then at 8 p.m. in the Hollister Garage Hall at which time the prediction of the water supply for the 1969 irrigation season will be made by Morland Nelson, Boise, state snow surveyor. According to Glenn Nelson, chairman of the soil district, Mr. Nelson along with other SCS officials will make charts and work out the estimated amount of water that will be available to each farmer this year, just prior to the forecast meeting. This week, snow surveys of the South Hills are being made by SCS and soil district officials. This will be the 14th annual water forecast meeting at the grange hall and this also will be Mr. Nelson's 14th prediction on the outlook of water supply for the Salmon Tract.

## 400 Attend Annual NFO Sausage Dinner At Rupert

RUPERT — Brynolf Grahn, a National Farmers Organization director from Minnesota, was in Rupert recently to address a gathering of more than 400 Minidoka County NFO members and interested area residents. The address was in conjunction with the annual sausage dinner prepared and served by NFO members in the Minidoka High School cafeteria. Mr. Grahn, in addition to being on the national NFO board, is executive assistant to the NFO field staff department, on the national level, and is a national director for the PCA, of which he has been a member for 15 years.

Discussing the role of rural America in the future, Mr. Grahn noted that the private free enterprise system has built the United States into the greatest nation the world has ever seen. He said that if the independent farmer falls, there would be no other recourse but accept a total corporate, agriculture, with four or five giants feeding the nation. "It now appears that the NFO has gone so far that we can not stop in the preservation of the independent farmer," he continued.

The organization is now in every state in the nation except Rhode Island, New Mexico, Alaska, and Hawaii. Mr. Grahn explained that it is even growing in popularity in the state of Idaho.

"The people in southern Idaho may not realize what is happening to the farmers in northern Idaho," he said, "but a year ago the NFO couldn't touch them. Now our group is signing up new members every day. The farmers are finally realizing that no one else is going to solve their problems," he said.

It is expected that in the immediate future, 40 of Idaho's counties will be signed up with the NFO, necessitating the election of another national director from the state. The task will be taken care of next fall during the annual convention of the group.

"Because of this free enterprise system," Mr. Grahn continued, "only 17.5 per cent of the American dollar is spent for food, while 38 per cent is spent in the common market, and 53 per cent in Russia. If we were to lose that free enterprise system, we can see what would happen to our economy."

If the farmer were to receive 100 per cent of what he is asking, he said, "it would only increase the cost to the consumer by 1.7 per cent and would eliminate the necessity of tax money being spent to aid the farmer."

Following Mr. Grahn's address, brochures entitled "The Biggest Farm Story of the Decade" were handed out. The pamphlet described the NFO story and recent actions by the group. Also during the program, Art Grove, manager of the Paul Gambles store, presented a check amounting to 10 per cent of the week's sales during the recent NFO week in Paul to Joe Taylor, president of the Minidoka NFO.

The Snake River Flats entertained in song, and the scouts representing the Rupert Elks Lodge, Troop 210, presented the colors.

Mrs. Martin Hoebelheirich was general chairman of the meal and was assisted by Mrs. Larry Dessel, Harold Caveney in charge of tickets, Carl Eames, program, and Mr. and Mrs. Richard Graf, publicity. The menu consisted of sausage, hash brown potatoes, green beans, carrot and celery sticks, rolls, butter, milk or coffee, and ice cream. The food was prepared by NFO members, and the sausage recipe for them according to their own recipe.

## 31.3 Million Acres Will Be Retired

WASHINGTON (UPI) — Farmers have indicated plans to take 31.3 million acres of ground intended for corn, sorghum and barley out of production this year under the government's grain acreage control program, the Agriculture Department said today.

The report covered enrollment in the program, which has a goal of 37 million acres for the three crops, through March 15. Signup ended in most of the nation March 21, but continued through April 4 in nine northern states.

Officials said enrollment in corn and sorghum areas on the basis of the March 15 report was running ahead of last year's pace. Signup of barley acreage reductions, which were not included in last year's program, was reported lagging somewhat because of weather conditions in northern areas.

The department said the 31.3 million acre retirement plan compared with pledges to retire 25.4 million acres of corn and sorghum at a comparable period a year ago.

## Flags Given To Area Grange

TUTTLE — The Hagerman Valley Grange presented a U.S. flag and a grange flag at a meeting of the Gooding County Pomona Grange at the Orchard Valley Hall.

The flag set was awarded by the Pomona unit to the local grange having the best attendance at exchange programs held among the county subordinate granges.

A reply to a letter sent to Gov. Don Samuelson by the group urging him to curb spending in the state, was read. Gov. Samuelson stated he was trying to carry out that policy.

The next Gooding County Pomona meeting was announced for April 28 at the Gooding Grange Hall.

## Flags Given To Area Grange

TUTTLE — The Hagerman Valley Grange presented a U.S. flag and a grange flag at a meeting of the Gooding County Pomona Grange at the Orchard Valley Hall.

The flag set was awarded by the Pomona unit to the local grange having the best attendance at exchange programs held among the county subordinate granges.

A reply to a letter sent to Gov. Don Samuelson by the group urging him to curb spending in the state, was read. Gov. Samuelson stated he was trying to carry out that policy.

The next Gooding County Pomona meeting was announced for April 28 at the Gooding Grange Hall.

## Soil Samples Are Urged By County Agent

JEROME — Sample envelopes and directions for taking soil samples on 17.5 per cent of the county agent's office, according to Wilmer Priest, extension agent.

"The soil test, properly taken, is the best guide in determining the needs of the crops you are going to plant," Mr. Priest said. The standard test gives the soil's reaction to pH, the phosphorus content, the potassium content and the percent of organic matter. The soil pH is a measure of the degree of acid or alkaline in the soil.

Potassium readings of 200 parts per million and above have been shown to be adequate for all crops of this area, more than 90 per cent of the soil tests out of this range.

The organic matter test is a measure of the soil's ability to produce nitrogen from normal organic matter breakdown.

**TOP POULTRY JUDGING TEAM** in the recent East Magic FFA District Poultry Contest are these three boys from the West Minico FFA Chapter. From left are Cary MacNeil, Don Suhr and Don McCall.

## West Minico Team Wins District FFA Poultry Event

RUPERT — Seven Magic Valley High School Future Farmers of America Chapter competed in the East Magic Valley District Poultry Contest held recently in the Minico High School vocational agriculture department.

The West Minico Future Farmer Chapter took first place in the event. Team members were Don Suhr, Don McCall and Cary MacNeil. Keith Merrill is the advisor. Placing second was East River and East Minico was third. Other competing were Declo, Burley, Valley and Oakley.

Thirty-one boys competed with three to a team. Ten members competed as alternates on an individual basis.

**NAMED MANAGER**  
RACINE — Arthur O. Knox has been named operations manager of the Agricultural Equipment-Retail-Enterprise Division of J. I. Case Company. His position has been vacant and Knox, in his new job, will be responsible for the operation of all Agricultural Division Company-owned stores in North America.

Competition consisted of judging two classes of four birds each for egg production. Hens were to be selected for breeding purposes or culling for egg production. The boys were also to grade the birds for market for slaughter and to grade and candle eggs.

Birds for the contest were furnished by Merrill's Poultry Farm, Paul and Lloyd Merrill was the judge. Eggs were supplied by Harvey Hollinger's Egg Ranch and Mr. Hollinger graded the egg competition.

## Queen Named

ATLANTIC CITY, N. J. (UPI) — Sandi Brombaugh, an 18-year-old buxom brunette adept at canning, freezing and dressing chickens as well as riding a unicycle, is the new Miss Rural Electrification.

Miss Brombaugh, an Iowa State University freshman majoring in home economics, from Mr. Pleasant, Iowa, won her national title recently at the 27th annual meeting of the National Rural Electric Cooperative Association.

## Tobacco Surpluses Will Decline

WASHINGTON (UPI) — Tobacco surpluses will decline in the 1968-69 marketing year and probably will ease down again in the 1969-70 season, the Agriculture Department said today.

A department report said total domestic and export tobacco use during the current season will probably reach about 2.03 billion pounds — 300 million more than farmers produced in 1968.

As a result, experts said, about 300 million pounds would be pulled out of the surplus carryover, reducing it to around 3.8 billion pounds this fall. Officials said the 1969-70 marketing season. This would bring the surplus carryover down to around 3.7 billion pounds by the fall of 1970 compared with 4.1 billion in late 1968.

# Now, effective wireworm control, even if you plant before April 1.

Now, you can apply Dioxin® at higher rates and get effective wireworm control when planting before April 1.

Just broadcast Dioxin either as a spray or granular application and control will last long enough to do a job on wireworms.

And what a job it does. Even on any strains that might be resistant to other insecticides. For years growers have been able to rely on Dioxin's effectiveness.

Now you can get the same kind of reliability on early planted potatoes, too.

Of course, Dioxin used at the lower rates still does the job on wireworms in potatoes planted after the first of April.

Either way, early or late, you'll get effective wireworm control with Dioxin.

Geigy Agricultural Chemicals, Division of Geigy Chemical Corporation, Ardsley, New York 10502.

IT'S SPRINGTIME and these two youngsters are enjoying the spring weather by taking part in their favorite hobby—horseback riding. The two youngsters, Lundy Thomson, 8, and

Marty Thomson, 8, daughter and son of Mr. and Mrs. Larry Thomson, Kimberly, are typical of many youngsters throughout the area who enjoy riding horses in the spring.

## Underground Water Resources Aired At Burley Public Meet

**BURLEY**—Underground water resources in Cassia County and eastern part of Twin Falls County were discussed recently during a public meeting at Burley Junior High School. Howard Conrad, president of the Magic Valley Pumpers Association opened the meeting.

The areas encompass the basins of Rock Creek, Dry Creek, Cottonwood-Creek and Goose Creek water basins in relationship to deep well pumping for irrigation purposes.

E. G. Croshaw, Boise, with the United States Geological Survey who has worked closely with the Department of Reclamation in this area presented background information.

Mr. Croshaw told of the large areas brought under cultivation by the use of underground water since 1947. The growing use of this ground water has caused water levels to decline and in many cases marked interference between wells.

Presenting an evaluation of these water resources the Idaho Department of Reclamation ceased issuing permits for new irrigation wells in January, 1968.

In the past years, areas not listed as critical can now get permits and some permits are being issued for drilling irrigation wells.

The water bearing formations and their extent was described by Mr. Croshaw. He estimated the amount and disposition of precipitation as to run off and ground water recharge, and underground water withdrawals and its effect on underground water levels.

This investigation was begun in 1961 and ran through 1963 at the request of the Department of Reclamation to include the Goose Creek area where the water level was declining.

Croshaw expressed his thanks to well-owners, drilling and pump companies, power companies, various agencies for their help on information used in the survey which has now been published.

Slides were used by Mr. Croshaw showing data, locations, ground formations and water levels in the different water holding basins.

Jack Barnett, Boise, assistant to R. Keith Higginson, state reclamation engineer, gave a brief history of the deep well irrigation from its beginning in the 1840's to the present time.

Data as to storage basins, underground formations, number of wells on these basins are being checked very thoroughly so that all available water can be used to the benefit of all concerned.

With the information now available the underground water can be much better controlled than it was in the early stages of pumping water for irrigation.

The copies of the 13-page report titled "Water Resources of the Goose Creek, Rock Creek Area, Idaho, Utah and Nevada" were given to the 80 persons attending the meeting. The same report also is known as "Water Information Bulletin No. 6," and the report was published by Idaho Department of Reclamation.

Mr. Croshaw and Mr. Barnett presented a summary of the report stating in part: "There are four major basins, formations that yield water for irrigation in the Goose Creek-Rock Creek basins.

"The most abundant and associated rocks—of Paleozoic age—yield large supplies near a fault zone along the northern side of Rock Creek hills. Welded tuffs, ash flows and sand and gravel of the Idavada Volcanics if Pliocene age yield small to moderately large supplies of Artesian water to irrigation wells in the Oakley, Golden Valley and Murtagh subareas, and in the northern part of the Artesian City subarea, and in the southern parts of the Kenyon, Golden Valley and Murtagh subareas.

quantities of water to wells principally in the Kenyon and Murtagh subareas, but some water is produced from basalt in the Oakley, Golden Valley and Artesian City subareas. Alluvial deposits of Holocene to Pleistocene age yield small to moderate supplies of water to irrigation wells in the Oakley, Golden Valley and Basin subareas and in the northern part of the Artesian City and southern part of the Murtagh subareas.

"An estimated average of 140,000 acre-feet of the precipitation that falls annually on the basin becomes water yield. Goose Creek yields about 50,000 acre-feet annually and Rock, Dry and McMullen Creeks about 43,000 acre-feet annually.

"Several smaller streams yield a few thousand acre-feet annually. Practically all the streamflow is used for irrigation except for about half the flow of Rock Creek, all the flow of McMullen Creek and part of the flood flows of the small streams.

"The total quantity of irrigation recharge to aquifers from precipitation in the Goose Creek-Rock Creek basins annually averages about 84,000 acre-feet. Upper Goose Creek receives 13,000 acre-feet, Lower Goose Creek 38,000 acre-feet, Rock Creek 21,000 acre-feet, and Basin 12,000 acre-feet. These estimates of groundwater recharge are preliminary and subject to revision when more and better data are available.

"Groundwater recharge derived from Snake River water is estimated to be 178,000 acre-feet annually in the Burley Irrigation District; 35,000 acre-feet annually in the Miller-Low-Lift Project and 150,000 acre-feet annually in that part of the Twin Falls South Side Project that lies in the report survey area. Total estimated groundwater recharge from all sources is estimated to be about 400,000 to 500,000 acre-feet annually.

"Estimated annual recharge is apportioned to the water-bearing formations thusly: Idavada Volcanics and older rocks, 64,000 acre-feet; basalt, 330,000 acre-feet; and the alluvial deposits 45,000 acre-feet.

"About 430 wells withdraw ground water for irrigation. During the 1961-68 irrigation seasons an estimated average of 185,000 acre-feet was pumped each year. Average annual withdrawals by subarea for the five-year period were: Kenyon—50,000 acre-feet; Oakley, 25,000 acre-feet; Golden Valley, 5,000 acre-feet; Buckhorn-Big Cedar, 15,000 acre-feet; Murtagh, 30,000 acre-feet; Artesian City, 30,000 acre-feet; and Basin, 700 acre-feet for a total of about 185,000 acre-feet.

"Groundwater withdrawals have caused water levels to decline from a few to several tens of feet in different parts of the basins. The amount of decline depends on the permeability of the water-bearing materials and the amount and proximity of sources of recharge as well as on quantities withdrawn.

"In the Kenyon subarea, water levels appear to be declining at an average rate of about three feet per year. The smallest declines have been near the Burley Irrigation District; the greatest in the southern and western parts of the subarea where water levels dropped 15 feet between April, 1963-66.

"The basalt aquifers are quite thin in this part of the subarea and as they become dewatered the water level declines may be accelerated.

"In the Oakley subarea, the older wells produced from alluvial deposits, and a few basalt aquifers in the lower part of the formations did not yield large supplies, some wells were deepened to the Idavada Volcanics. This reduced the draft on the shallower aquifer and water levels in the shallower aquifers de-

clined only one or two feet per year during the period 1958-63. However, in years of abundant water supply from Oakley Reservoir, many wells are used sparingly or not at all and water levels rise to several feet in the alluvial and basalt aquifers. No data is available to evaluate the effects of groundwater withdrawals from the Idavada Volcanics in this subarea.

"Sparse water-level data indicates no significant net change in water levels in the Golden Valley subarea. Groundwater withdrawals are on the order of 5,000 acre-feet annually and water is imported from the Big Cedar-Buckhorn subarea.

"Water levels began declining in the Big Cedar-Buckhorn subarea as soon as intensive development began in 1958.

"Water levels have dropped an average of 22 feet per year for the period 1961-68. Annual withdrawals are estimated to be about three times greater than the annual recharge.

"In the Murtagh subarea, pumping of groundwater has caused water levels to decline a few feet in the northern part of the subarea where withdrawals are small, to a few tens of feet in the southwestern part of the subarea where withdrawals are relatively large. Although the decline in water levels as measured in the spring of the year have not been large, pumping levels have declined progressively and practically every pump column has been lengthened since the well was put into production.

"In the Artesian City subarea, intensive development of ground water began in the late 1940's and continued through the 1950's. Yields of most wells declined, many wells were deepened and reconditioned, and more powerful pumps were installed to compensate for falling water levels.

"From 1952 to 1968 the water level in a well at Artesian City declined 110 feet.

"The largest declines have been from Artesian City westward for two or three miles. At some places water levels in non-pumping wells decline at a rate of two feet per day when

## Wheat Export Increase Is Foreseen

**BOISE**—A pessimistic view of the possibility of increased wheat exports was told to members of the Idaho State Wheat Growers Association board of directors during a meeting here recently.

Harry Graham, legislative representative for the National Farmers Organization in Washington, D. C. said increased foreign production of wheat, especially in India and Pakistan, was combining with decreased foreign aid needs in other areas to reduce expectations for American wheat exporting.

Graham told the growers that the export wheat price was set by two factors: national policy and the willingness of farmers to sell at an undesirable price. He said government programs were designed to guarantee only a minimum price but added that such programs are necessary to prevent market protection.

Maximum prices can be obtained only by farmers controlling production and marketing in such a way that the demands of the market can be satisfied only at an equitable price, Graham asserted.

Graham, who was here investigating a bill before the Idaho Legislature, was Legislative representative for the National Grower for seven years before assuming his new post with NFO.

"There are four critical underground water areas in the state and they are Oakley, Kenyon, Cottonwood, Artesian and Raft River. At present, there is a study survey report being made on Raft River which should be completed by July," stated Barnett.

"How far water could be lifted and still be profitable to pump the water for irrigation?" It was pointed out that what would be economic for one farmer would not be economic for another due to kind of crop, nature of soil and whether the pumped water was the sole source or a supplementary water to raise and harvest a crop, all these items must be considered.

"Sparse water-level data indicates no significant net change in water levels in the Golden Valley subarea. Groundwater withdrawals are on the order of 5,000 acre-feet annually and water is imported from the Big Cedar-Buckhorn subarea.

"Water levels began declining in the Big Cedar-Buckhorn subarea as soon as intensive development began in 1958.

"Water levels have dropped an average of 22 feet per year for the period 1961-68. Annual withdrawals are estimated to be about three times greater than the annual recharge.

"In the Murtagh subarea, pumping of groundwater has caused water levels to decline a few feet in the northern part of the subarea where withdrawals are small, to a few tens of feet in the southwestern part of the subarea where withdrawals are relatively large. Although the decline in water levels as measured in the spring of the year have not been large, pumping levels have declined progressively and practically every pump column has been lengthened since the well was put into production.

"In the Artesian City subarea, intensive development of ground water began in the late 1940's and continued through the 1950's. Yields of most wells declined, many wells were deepened and reconditioned, and more powerful pumps were installed to compensate for falling water levels.

"From 1952 to 1968 the water level in a well at Artesian City declined 110 feet.

"The largest declines have been from Artesian City westward for two or three miles. At some places water levels in non-pumping wells decline at a rate of two feet per day when

## Thimet gives "built-in" protection against aphids, leafhoppers, psyllid, wireworms

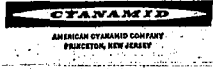

Use Thimet® 10-G Insecticide or Thimet-impregnated fertilizer at planting time—and get economical, extra-long control of insects.

Thimet's powerful systemic action means all-around plant protection including the lower leaves. By controlling insects with Thimet you prevent psyllid yellows and other destructive virus diseases that reduce crop yields.

With Thimet working systematically inside the plant you get steady, long-lasting even control. Thimet reduces soil compaction caused by spraying and dusting equipment—eliminates drift problems and hazard to beneficial insects.

Thimet protection produces a high quality crop for table use, shipping or other processing.

For further information, contact your insecticide supplier. Before using any pesticide, stop and read the label.

Cyanamid serves the man who makes a business of agriculture.

WINNERS of the West Magic FFA District Cooperative contest, held recently in Wendell, are these two Twin Falls farm boys. Mike Holloway, left, was high individual, and Bob Carr was second high individual. These two made up the Twin Falls team and also placed first in the team event of the contest.

## Wendell, Hagerman, T.F. FFA Chapters Top District Events

WENDELL — The Wendell, Hagerman and Twin Falls FFA Chapters came out on top during three West Magic FFA District contests recently. The three, held at Wendell High School, were dairy products, meat identification and the cooperative contest.

The Wendell judging team won the dairy products contest. Members of that team included Earl Jones, Fred Blackburn and Don Bunn. Second place team was Hagerman, with Evan Gridley, Ron Caster and Kim Reed as members. Members of the third place team from Shoshone were Ron Helderly, Larry Kerner and Stan Kerner.

High individual in this contest was Mike Holloway, Twin Falls. Second high individual was Ron Helderly, Shoshone, with Fred Blackburn, Wendell, third.

In the meat identification event members of the winning team from Hagerman were Phil Jensen, John Elliott and Steve Bennett. Second place team was from Wendell with Bill Royce, Leray Johnson and Tim Tracey as team members. Third place team was from Carey with Leslie Sweat, Jeff Toone and Dick Simpson as members of the judging team.

High individuals in these contests were Bill Royce, Wendell; Phil Jensen, Hagerman; and Stan Kerner.

NATIONAL RECORD HOLDER, Minidoka Sunday, who was named the nation's top Appaloosa racing mare for 1968 is shown here after winning a barrier class championship in Ogden, Utah. She is shown by Larry Stevens. Now a four-year-old, the mare holds several track and race records in Idaho and California. She is owned by Mr. and Mrs. L. W. Moore's Minidoka Stables, Hansen.

## "Minidoka Sunday" Nation's Top Appaloosa Racing Mare

HANSEN — For the past two years an Appaloosa racing mare has been chalking up track records around the state and for the 1968 racing season has been named top in the nation for the most wins by any horse of her breed.

She is Minidoka Sunday, of the Minidoka Stables owned by Mr. and Mrs. L. W. Moore, Hansen, and one of three horses they had on the tracks in the past year in Idaho, California and Colorado.

The 4-year-old, running in the past season as a 3-year-old, is a product of the Minidoka Stables breeding program. She is sired by Count Diamond, second leading sire in the nation in 1968 in number of wins, and out of Minidoka Friday. The horses brought Count Diamond, and one of three horses they had on the tracks in the past year in Idaho, California and Colorado.

## Hardin's Office Is Flooded With Mail

WASHINGTON (UPI) — If Hardin did nothing but answer his mail these days, he'd never get anything else done.

On one recent day, aides report, 2,000 letters arrived addressed to the secretary's office. More than half of them were from people concerned about what has been Hardin's main preoccupation lately — expansion of federal programs for feeding the needy.

The cabinet officer's mail is not always this heavy. It ebbs and flows with developments in the news. But aides estimate that incoming mail to the secretary's office is now running at the rate of about 80,000 letters a year. An estimated 90 percent are addressed to Hardin personally; the rest to the secretary's interested-in-and-assure everyone who writes in a reply. It is also designed, apparently, to avoid a repetition of a "scot" which left former agriculture Ezra T. Benson badly embarrassed one day during the Eisenhower administration.

A magazine editor sent Benson a copy of an editorial sharply critical of government aid to farmers. A secretary routinely drafted a letter of thanks and praise without realizing the policy implications of her note.

Another aide, who normally signed the secretary's name to routine outgoing mail, put Benson's name to the note — and a storm of criticism arose when the letter later appeared in print.

## Idaho Farmers To Plant More Acres Than Year Ago

BOISE — Idaho farmers have indicated, as of March 1, that the total crop acreage planted according to the reporting board, would be about two per cent more than a year ago, states the Idaho Crop and Livestock Reporting Service.

The board states that about 67,000 acres were released from the Conservation Reserve Program this year, compared to about 4,000 acres last year. Decreases in prospective plantings were noted for wheat and lentils, while commercial bean plantings indicate the same acreage as a year earlier. All other field crops showed a slight to moderate increase in acreage.

Acreages actually planted in 1969 may be larger or smaller than now, indicating that weather conditions, agricultural programs, prices, financial conditions and this report itself may affect final acreages planted.

Intended spring wheat acreage, at 222,000 acres, is 14 per cent below last year. This would assume normal winter kill and snow mold damage to the winter wheat crop. It is still too early to accurately evaluate losses of winter wheat because of snow mold, winter kill and other existing factors.

Barley acreage, at 585,000 acres, is expected to be nine per cent above a year ago. Oat plantings in 1969 are indicated at 183,000 acres — up sharply from 85,000 acres a year ago. Corn growers indicated they plan to plant 88,000 acres for all purposes, up six per cent.

## Mrs. Marble Wins Grange Candy Event

GOODING — Mrs. John Marble was awarded top score in the candy making contest, held at a meeting of the Gooding Grange.

There were 12 plates of candy brought to the meeting. Mrs. Marble will be eligible to enter the contest at Pomona Grange level. Judges were Mrs. Sue Slinn, Lou Stringer and Ed Koester.

Those wishing to enter cotton dresses in the annual National Grange sewing contest were reminded the contest closes April 25. This opportunity is available to non-grange women sponsored by a granger, as well as grange members. To enter, quilt and needlework contest will follow the dress-making.

Ed Koester, Gooding County Extension agent, spoke on the 4-H and Grange Youth benefit dinner. Last year the income was used to help defray expenses of Rocky Butte High IFVE student and to pay part of the expenses of several 4-H members attending 4-H Congress at the University of Idaho.

Some of the proceeds this year will be given to each subordinate grange in the county to pay the total cost of one person's three-day stay at the Grange Youth Camp at Donnelly. The remainder will go to the 4-H delegates to Moscow.

If there is no delegate to the Grange Youth Camp, the portion will be turned to the Grange Youth Camp Fund. The ages of the Grange Youth group is from 14 to 21 years. Children of delegates were welcome to accompany their parents, and any youth chairman of a subordinate grange is urged to attend the camp, regardless of sex.

Charles Gee reported on a cooperative creamery meeting at Jerome. Rex Miller, chairman of a special committee, reported that eight folding chairs had been ordered. It was voted to have the outside of the Grange Hall stuccoed.

The program was presented by Mrs. George Eden, lecturer. Taking part were Mrs. Charles Gee, Mrs. Mary Chittock, Mrs. Edna Paul, Mrs. Rex Miller, Harold Chelline, George Stringer, Ben Glauner, Mrs. George Stinger and Mrs. Betty Price. Winners were Mrs. John Marble and Ira Kistler.

Refreshments were served by Mr. and Mrs. John Marble and Mr. and Mrs. Maurice Capps.

OFFICERS NAMED  
MINNEAPOLIS — Daniel G. McPherson, director of quality control, and Thomas P. McFarland, controller of the consumer foods group, have been appointed vice presidents of General Mills. It was announced today by James P. McFarland, president of the company.

MEMBERS OF THE GOODING County agricultural short courses received certificates recently. From left are Edward Bush, Dewey Tubbs, Mrs. Tubbs, Mrs. Edward

Gooding and Edward Gooding. The wives of the members attended the banquet. Short courses were taught by county agents Edward Koester and Graham Hooper.

### 16 Complete Short Courses At Gooding

GOODING — The members of the Livestock Feeding and Soil Fertility and Management short courses, conducted by the Gooding County Extension agents Ed Koester and Graham Hooper, have completed the courses. A banquet was held at the Gooding United Methodist Church recently at which time certificates were presented to all those who had successfully completed the courses. There were 16 members enrolled in the soils class which held eight, two-hour sessions at the Gooding High School. The course, taught by Mr. Koester, covered various topics dealing with soil management including both organic and inorganic fertilizers, micronutrients, methods of fertilizer application, irrigation of the crops grown in this area, soil chemistry, soil testing and fertilizer recommendations, soil insect and disease control, rotations, etc.

GOODING COUNTY commissioner Ben Glanzer, center, presented certificates for successful completion of two agricultural short courses to these two men, Robert Lawrason, left, and Dick Sears, right, both Hagerman, who were enrolled in both courses, soil fertility and management and livestock feeding.

Those enrolled in the class included Owen Bolan, Bob Field, Harold Gay, Boyd Graves, Ed Gunning, Ray Harding, Kirby Hill, Gene Kleinkopf, R. H. Lawrason, Frank Orth, Larry Robertson, Dick Sears, Elmer Johnson, Ray McLeod, Elmer Meyer and Edward Bush. The livestock feeding short course was taught by Mr. Hooper. Subject matter included the net energy method of calculating rations as well as the value and use of various livestock feeds. The feed requirements of various classes of beef and dairy were covered in the course. Class members calculated their own rations for their livestock. Class members included Bill Burkhardt, R. H. Lawrason, Mike Reed, Dick Sears, David Smith, Lloyd Thuermer, Dewey C. Tubbs and Gene Bostman. Master of ceremonies at the graduation ceremony was Mr. Koester, who introduced guests. Mrs. Delores Harding, district instructor of the State School for the Deaf and Blind, presented several vocal numbers from the students of the school. The Sandy Kaye Gooding County Home Economics agent, told of the various homemaker workshops she had been conducting including basic and advanced clothing, home decorating and foods. Dr. Fred Kobi, district extension supervisor from Boise, was the speaker. He noted the importance of continuing education and training in all occupations and professions today. The emphasis of changing in our everyday lives was stressed. Bon Glanzer, Gooding County Commissioner, presented the certificates to the graduates. He thanked the class members on their accomplishments.

### Farm, City Night Is Held At Murtaugh

MURTAUGH — Members and their guests were welcomed to the Farm and City night potluck supper and program held by Murtaugh Grange by James Kirkpatrick, manager. Mrs. Helen Peterson, lecturer, welcomed the guests and presented the program which opened with an article read by Wilbur A. Hill was presented by the Ralph Breeding family and piano solos were played by Marlene Laitinger. "East Pans," was given by Jimmy Kirkpatrick; a skit, "A College Education," was presented by Kay Elgersa and a new play, "The Old Man," by Earl Young recited a poem about Texas; Mrs. Warren Fowler gave a reading, "Beck Falls," written by the Grange from 1834 to 1968, written by Oliver Johnson, was read by Henry Peterson. Gordon Graff presented a piano solo and a short reading was given by Mrs. Beck. Thomas Speedy, executive committee of Idaho State Grange, was the guest speaker. The closing thought was given by Mrs. Peterson.

### Farm Bureau's Bargaining Proposal Is Outlined

WASHINGTON (UPI) — Food processors and other big buyers of farm products could face "unfair trade practices" charges if they refused to negotiate with farmer bargaining associations under a new plan being pushed by the American Farm Bureau Federation. Farm Bureau leaders expect several bills incorporating their bargaining plan to be introduced soon in both the House and Senate. Here's how the plan might work if it becomes law: First, farmers producing a specific crop would set up a bargaining association—or designate an existing group—to represent them in bargaining with buyers over prices and other terms of sale. As an alternate line of defense for farmers, the new plan would allow the secretary of agriculture to go to court on behalf of a grower association to request an injunction against a balky processor.

The new bargaining bill is planned as an extension of a 1968 Fair Farm Marketing Act. It would make it illegal for processors and other buyers to discourage membership in farmer bargaining associations by "unfair" discrimination against association members. The new proposal would basically add refusal to bargain to the list of actions banned under last year's law. Some farm leaders who have been pressing for new bargaining rights legislation have criticized the Farm Bureau plan as weak because it fails to cover cases where buyers negotiate but refuse to reach agreement with growers. But a Farm Bureau official said today the new plan would be effective because it would "set up an environment in which effective negotiations can occur."

## Idaho Water Board Releases Report On Family Size Farms

BOISE — A detailed study of 3½ million acres now being irrigated in Idaho under present conditions and recommendations for changes in acreage limitations under State and Federal law was released today in a report issued recently by the Idaho Water Resource Board.

The Board made four basic recommendations based on an Advisory Committee report: 1. The Federal Carey Act should be amended to change the acreage limitation provisions from 160 acres per person to 320 acres per person. 2. Provisions in the State Code regarding the Carey Act should be amended to delete discriminatory language regarding women and make the acreage limitation compatible with Federal law. 3. The Federal Reclamation Act of 1902 should be studied by Congress to determine the effect of the 160-acre limitation provision under today's agricultural conditions. 4. Idaho Water Resource Board developments should be reviewed on an individual project basis with care given to make units large enough to obtain economies of size.

Because Federal development is often difficult and slow to become reality, it is conceivable that State and private, or a combination of all interests, will provide much of the impetus to the report stated.

The Board disclosed interesting figures about agriculture in Idaho. For example, it contributed over \$500 million to the state's economy in 1968. Livestock was valued at \$237 million; row crops at \$283 million, and fruit slightly over \$60 million last year. Land development has proceeded in an orderly fashion during recent years with new land going under irrigation at an average 30,000 acres per year. The high-point was reached in 1963 when nearly 100,000 acres were developed for irrigation. Individuals have developed about 50 percent of the total. Changes are taking place with farm sizes with a trend to larger units. In Idaho between 1959 and 1964, the average size of an irrigated farm increased from 378 acres to 438 acres. Capital requirements seem excessive to those who have not kept up with changing costs of farming. The report shows that a one-family operation, with hired labor on 600 acres of newly developed land, equipment costs are about \$65,000; shop months to discuss problems, compile information, and review data relative to agricultural production in Idaho.

\$100 thousand. Raising and harvesting a crop will cost at least another \$100,000. The cost of producing potatoes on various-sized acreages shows that large units (200-300 acres) have definite advantages over the smaller acreages.

Cost difference studies on three sizes of farms in southern Idaho using five basic crops showed that it cost \$95 per acre more to farm 200 acres than it did to raise the same crops on 600 acres. Copies of the report are available from the Idaho Water Resource Board, Statehouse, Boise, Idaho.

### Director Named; Dividend Is Set

OGDEN — Horace Havemyer, Jr., former board chairman of The National Sugar Refining Company, was today named as the Board of Directors of The Amalgamated Sugar Company, board chairman Marriener S. Eccles announced. The board also voted a quarterly stockholder dividend payment for the second quarter of this year equal to 40 cents per share, same as last quarter's payment. Company president A. E. Benning reported that acreage contracting with approximately 4,700 sugarbeet growers is nearly finished, with the total acreage committed to this year's crop significantly higher than last season's total.

### Completion Nears

MADRID — Spain's largest compound fertilizer plant, under construction at Escambrayes, should be in service by June. The plant is a joint effort by two large Spanish chemical companies, and the annual output of this new undertaking will be 240,000 tons of compound fertilizer. Irrigable land still available with approximately 100,000 tons of ammonia nitro-sulphide.

**A FORGOTTEN HOUSE PLANT:** If you never grow the "Kitchen" plant then you're in for a real treat. Achimenes (means "suffering from cold") is pronounced Ach-KIM-in-see and they are a bulbous item ideal for the shady bed, or porch box in summer, for the sunny window in winter or for a hanging basket.

Flowers are more or less tubular, resembling a small peony, coming in white, pink, rose red, violet, purple and blue. You can start Achimenes from seed and from scaly underground rhizomes or small tubers (resembling a small pine cone). You can start them now in a pot of soil mixture, one-third sand, one-third loam and one-third peat. The plants grow deeply. Just spread the tubers on top of the mixture and sprinkle about one-fourth inch of peat or vermiculite or perlite over them. The soil mixture should never allowing it to become completely dry at any time. Cover with plastic sheet until the shoots start to show, then remove.

Some gardeners put the sprouted tubers into individual pots, others use them for planters and flower boxes, and when warm weather rolls around they can be set out. Takes about 10 weeks for sprouted tubers to start flowering and you get a show-up through October or November.

When the plants finish flowering, withhold watering, dry the soil and keep the bulbs or tubers in a cellar where temperature is around 60 degrees. So, if you have a spot where shade is a problem, here's one item to grow. Achimenes requires shade and will not succeed in full exposure to sunlight.

**MORE ABOUT GERANIUMS:** A reader writes: "More of our readers should take your advice and grow geraniums from seed. I've started them from seed for the past four years, and with great success. Big-busty plants, with six or eight stems and lots of blossoms. All you have to do is start the seed in February and they'll flower by the time July rolls around. Every time I start my geraniums from cuttings, the slips root fine, then after they're potted, they rot. That's why I prefer to grow geraniums from seed."

**DUST FOGS** behind a self-propelled lawn sweeper on the Twin Falls County Fairgrounds, Eric Herr Thomas Shouse, secretary-manager of the Twin Falls County Fair, uses the machine to clean up leaves from the grounds. Mr. Shouse built the contraption from a Massey-Harris combine, a blower and several parts from other pieces of equipment that he had.

**NEW DEPARTMENT** at the Empire Corp. branch office in Twin Falls is the sewing department. Bobbie Taylor, of the store, left chapter was made for "light northwestern states." Here Tom Newbury, foreman, seems a tarp made for a fertilizer trailer. The local plant has just installed the sewing machines for making such items as fringed trailer tarps to sheep shed covers.

**Green Thumb Note:** Several have written to tell us that the Vapona strip is effective against cluster flies. Owners of small greenhouses find it is effective against white flies, aphids and other greenhouse pests. Those of you do not like to use chemicals should look into the Vapona strip.

**Green Thumb Note:** Several have written to tell us that the Vapona strip is effective against cluster flies. Owners of small greenhouses find it is effective against white flies, aphids and other greenhouse pests. Those of you do not like to use chemicals should look into the Vapona strip.

warmer window and it will flourish. Silver King is a good thing to have on hand for filler. There's a shorter one called Silver Mound (Angel's Hair), noted for its silken foliage.

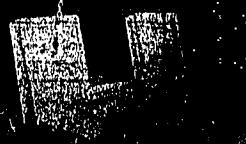

Incidentally, the herb Tarragon, or French Tarragon, is *Artemisia dracunculoides* today. It's the more "fragrant" herb used in making tarragon vinegar, and important ingredient of salad-dressing. Dried Tarragon is used for seasoning such foods as eggs, fish, shellfish, meats, poultry, salads and soups. You can cut the young leaves and tops, dry them on a screen in a shady, airy place. Then store in tightly covered container.

**AZALEA CARE:** Azalea house plants need a constant supply of water all the while. One drying out can kill the plant. Usually when the blossoms wilt and cease shrivel, you can change it on a lack of water at one single time. Sometimes a good soaking can revive a wilted azalea.

**QUESTION OF THE WEEK:** D.R. of Twin Falls: "Every year we plant a dozen hills of corn. Although the best seed is used, we don't get a full and only half ear develops. What is lacking?"

There are a couple reasons for your poor ears: (1) Poor pollination due to the layout of the corn patch. Corn should be planted in such a way as to pollinate one another. If sweet corn is planted in just one or two long rows rather than in blocks of four rows or more, incomplete pollination like your corn ear is very likely, since most of the pollen (male element) is blown outside the patch and wasted. If you had planted three hills one way and four hills the other, you would probably have better results.

(2) Sometimes hot dry sun and wind will cook the silk (female parts) and prevent the pollen grain from fertilizing the egg. This often happens on the side facing hot winds. But in your case, corn was not pollinated due to the way the row was laid out.

For less than the cost of two canvas dams you can install a concrete head gate... and it will last forever.

## EARLY CONCEPTS OFTEN INCORRECT

The bidding of today's hand would be reasonable by modern standards. Perhaps North would jump to six clubs or try Blackwood but the six-club contract

of the two diamond hearts. The suit choice and a pretty good one but it was not as good as the actual play and our sympathy goes out to the unfortunate player who went after the hearts.

His line of play was going to work against any 4-3 break in hearts. This was a 62 per cent chance. After the 4-4-1 hearts broke, he would still make it unless both the king and jack were going to show up in the long hand. This represented an extra 16 per cent chance for a total of 78 per cent. In addition, he might make it against certain 6-1 breaks.

Of course, we have not considered what would happen if clubs broke 4-0, since either line of play might well fail against that eventuality. All we want to point out is that this was one hand where either line deserved success with the tack in hearts being slightly better.

## CARD-SENSE

would be reached as it was by both sides in a 1930 team game after tactical bidding.

One declarer received a diamond opening and not a club making seven because he trump-finessed both the ace and queen of diamonds with no intention. A spade was opened since the player tried to make his contract by attacking hearts. The bad heart break led to his defeat because West played low on the third heart and East overruled dummy.

The 1930 analysis was interesting but incorrect. It was that South should have attacked hearts since he would make his contract if East held one

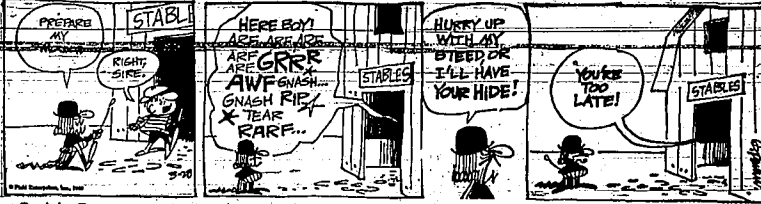

The bidding has been

West 3♣ Pass 2♥ Pass 3♦ Pass 4♥ Pass 5♥ Pass 6♥ Pass 7♥ Pass

What do you do now? A—Your partner has left it up to you. We favor a bit of defense, but anyone but don't feel very strongly about it.

TODAY'S QUESTION  
Instead of bidding three clubs your partner has bid two no-trump. What do you do now?

Answer Next Issue

THE NEW, STILL EXPERIMENTAL practice of branding cattle with a super-cold branding iron, has found a warm reception in Phelps County, Mo. "Freeze branding," as it is called, requires special copper alloy branding irons that must be cooled to 90 degrees below zero in a dry ice-ethyl alcohol solution, as shown in photo on left, to effect the destruction of hair pigment. Top right photo shows that clipping hair in the area to be branded is necessary so that hair will not insulate branding iron from skin. Strabbling with alcohol, bottom right, at air temperature helps assure good contact between the branding iron and the skin of the animal. (UPI telephoto)

RALPH BRANTLEY, Phelps County extension farm management agent, holds freeze branding iron in place 40 to 45 seconds to a clipped patch of the cow's hide as Oscar Jones, secretary of the Phelps County Livestock Improvement Association, looks on. When a properly chilled branding iron is applied to the hide of a dark-haired animal, the cells which produce pigment or give color to the hair are destroyed, and all future hair growth in that area will be white. The contrasting white hair growth in the shape of the brand allows easy identification. (UPI telephoto)

A SHALLOW GROOVE, left, is frozen into the hide by the freeze branding iron destroying the dark hair pigments. Only white hair will grow in the branded area, making future identification a simple matter. Branded more than a year ago, this cow, right, still carries a legible brand. Farmers who have tried freeze branding see several advantages — the brand is more legible most of the year than hot brand; it is less painful to the animal, thus the animal is subjected to less stress than a hot brand; freeze branding damages the hide less than hot brands, increasing the value of the leather, and a properly executed freeze branding is permanent. (UPI telephoto)

### Performance Tested Bull Sale Slated

JEROME — The Jerome Performance Bull Test Station's second annual all-breeds performance tested bull sale will be held April 12 at the testing station, southwest of Jerome.

Some 70 bulls and 30 Angus bred heifers will be sold in the station's sale ring, states A. F. Patterson, operator of the station.

Mr. Patterson said the bulls to be sold were on the 140-day test, but the 30 heifers are from the Mon Repos Angus Ranch, Jerome.

The sale gets under way at noon, with Ken Trout, Emmett,

and Jim Messersmith, Jerome, as auctioneers.

**'HIPPIES' RESTRICTED KABUL (UPI)**—The Interior Ministry has announced foreign hippies will not be admitted to Afghanistan unless they have at least \$200 spending money, the newspaper Daily Caravan said Wednesday.

## White House Soon To Settle Small Watersheds Dispute

BY BERNARD BRENNER (UPI) — The agriculture department's Soil Conservation Service (SCS) — The Nixon Administration is quietly settling a dispute that has slowed the government's program of promoting small watersheds.

The dispute arose during the Johnson Administration over whether procedures for congressional approval of individual watershed projects are unconstitutional.

The Johnson White House contended that the present procedure, under which projects are approved by the congressional public works and agriculture committees, is unconstitutional. Congressional leaders disagreed, and refused to change the system. The White House announced about one year ago that it would refuse to finance future projects until the approval procedure was overhauled.

The result: 98 congressionally approved watersheds are still under construction with SCS aid. But with no new projects moving into the construction pipeline, total activity in the watershed program is slowing down. Earlier this week, however, Agriculture Secretary Clifford M. Hardin told a senate subcommittee he was "optimistic that we'll have a solution (to the constitutional deadlock) in a very short time."

White House aides reportedly have told lawmakers they can expect a quick decision that would not require congress to change its procedure.
