## Reds Pour From Jungle To Launch New Offensive

SAIGON (UPI)—North Viet-  
namese and Viet Cong troops  
poured out of jungles today to  
attack U.S. bases near the  
Cambodian border in a new  
offensive that erupted into the  
heaviest fighting in Vietnam  
since last February.

Communist forces shelled 17  
Allied targets including a U.S.  
Navy hospital where mortar  
rounds blew up in a ward  
crowded with 50 wounded men  
and in an operating room.

The worst of the Communist  
attacks was a mortar assault  
on the U.S. Navy hospital five  
miles south of the northern  
coastal city of Da Nang. It is  
the largest U.S. medical  
evacuation hospital in Vietnam,  
expanding from a ward housing  
50 Navy medical corpsmen and  
three hospital staff members.

The mortar round that  
exploded in the hospital's  
operating room wounded three  
Navy medical corpsmen and  
three hospital staff members.  
Eleven 82mm mortar rounds  
hit the hospital.

## Israeli Premier Reports Air Raids Against Arabs

By United Press International  
Israeli Premier Golda Meir  
said today Israel had carried  
out bombing air attacks Sunday  
and Monday against Jordan and  
Lebanon to "cool" the frontiers  
and halt the Arab guerrilla  
raids directed against Israeli  
settlements.

Her statement at a news  
conference in Haifa coincided  
with diplomatic reports in  
London that the Soviet Union  
had warned Egypt strongly  
against escalating the Middle  
East conflict into full-scale war  
with Israel.

UPI diplomatic correspondent  
K. C. Thaler said Russia  
delivered the warning because  
it did not want to get involved  
at a time both Washington and  
Moscow are seeking ways to  
ease East-West tension, and  
because the Kremlin fears  
Egypt would lose a new war  
and a billion dollars worth of  
Russian-supplied equipment.

Lebanon complained to the  
U.S. Security Council Monday  
night against an Israeli air raid  
in the Mount Hermon area  
which it said killed seven  
persons, including a woman out  
to "cool" the border.

## Hospital Battles Nursing Crisis

There is an acute need for  
nurses at Magic Valley Memorial  
Hospital and steps were  
called Monday at a hospital  
meeting to meet this growing  
crisis.

Mrs. Irene Oliver, administrator, told board members  
the nursing program may start  
a meeting to meet this growing  
crisis.

There is a shortage of nurses  
throughout the country and  
we have our shortage here,  
also," she said.

Dr. Francis Fox, president  
of the medical staff, told board  
members an associate degree  
nursing program may start  
at the College of Southern Idaho  
this fall, providing a director  
for the program can be hired.

## Mock Mishap Drill Staged At Burley

BURLEY — A mock collision  
of a bus and train in Burley  
Monday resulted in a code blue  
disaster call at Cassia Memorial  
Hospital, where 20 "injured"  
Boy Scouts were taken.

## School Trustees Endorse Conduct Code For Students

Twin Falls school trustees  
Monday night approved unanimously  
a student conduct code  
and passed down a student's  
request that the code be altered  
to permit students to wear  
moustaches.

A student member of the  
advisory committee, Jim Baugh,  
a senior at Twin Falls High  
School, argued for a more liberal  
policy permitting "well  
groomed moustaches."

Board members thanked  
Baugh for his presentation, but  
later approved the committee's  
recommended policy without  
dissent.

## Nixon Seeks System To Train Manpower

SAN CLEMENTE, Calif. (UPI)—  
President Nixon today  
asked Congress for a complex  
system as a buffer against  
possible rising unemployment.

It was the second installment  
in Nixon's current trilogy  
dealing with underprivileged  
members of the American labor  
force. On Monday he asked  
Congress to provide an assured  
income for families too poor to  
care for themselves adequately.

Tuesday, August 12, 1969... MAGIC VALLEY'S HOME NEWSPAPER... PHONE 733-0931

WASHINGTON (NEA)—With the Job Corps and Head Start programs largely stripped from his hands, the Office of Economic Opportunity is struggling for new balance. Half of its proposed new budget may go to the often controversial community action agencies and related undertakings.

action programs were unwisely sold to the public as potential "power centers" for the poor. Whatever wisdom and justice may lie in giving the poor a voice and some muscle to go with it, the CAP's suddenly struck many city and county politicians as a possible threat to their own entrenched power.

Midyear Appraisal

That the American economy is a dynamic one, no one questions. That it at times appears to be a very confused one is also something of a truism.

For more than 100 months the economy has been soaring on an unprecedented binge of prosperity. So prosperous is it that many persons apparently have come to accept ever increasing rolls of unemployed, prices and wages to be something of an accepted pattern.

Export Lead

American exports of manufactured goods—the largest source of income in the international account—rose by almost 14 per cent last year, to a total of \$23.65 billion. Imports also rose significantly, producing a virtual standoff in the trade balance.

Japan and a few other European countries are formidable competitors in the marketplace. In view of this increasing competition and the deterioration in the U.S. trade balance despite increasing exports, the time is ripe to review trade concessions, economic aid programs and other factors contributing to the growth of foreign traders at the expense of American manufacturers.

Me And My Shadow

Community PR programs, of course, revolve about economic experiments, housing projects, legal and health services, a wide range of neighborhood self-help undertakings.

# England Walls Are Tumbling

By DEREK N. ABRAMS

LONDON (UPI)—The wooden walls of England are tumbling down.

The great oak trees whose limbers guarded the nation in the age of wooden ships are vanishing from the English countryside at the rate of 100,000 a year.

The guns of the Spanish Armada failed to dent them, or the ships of the French fleet at Trafalgar and a score of other historic naval battles.

But they are losing a fight for existence to enemies never heard of in the days when King Charles II, fleeing from the Protector, Oliver Cromwell, in 1651, leaped into a friendly oak and hid there in safety.

Pollution, the encroachment of the city—as well as old age and disease—are combining to end an era celebrated in romantic poetry and martial music.

As recently as World War II the British navy recalled an earlier tradition by using oak for fleet repairs, such as needed in a hurry. It was the last time the armed forces had gone to the forests as Britain prepared for a time of need for 1,000 years.

A spokesman for the Forestry Commission, an official body which manages the nation's forests for industry purposes, explained why the oak tree is disappearing.

"Builders no longer prefer the traditional oak for construction work as it is not pliable enough and it is too expensive. Builders now use the soft wood of conifer trees, such as spruce, pine and beech," he said.

The spokesman said in the trees planting year up to 1968, only 10 percent of the hardwood trees, mainly oak, were planted compared with 88,888,000 conifers.

He said as Britain can only supply 10 percent of the nation's timber requirements and the wood mainly used these days is soft wood, the obvious choice is to plant pine, beech and so on.

He said of the 52,393 acres of forest land used for industry only 1,672 acres were taken up by trees.

In the rural areas of England a losing battle is being waged in attempts to save what oak trees are left.

In Sherwood Forest, legendary home of Robin Hood, oak tree preservation orders are sometimes issued. A spokesman for the local council said development of a village once threatened the existence of a 140-year-old oak tree. An order was issued to save its life.

In northern Derbyshire, tree surgery is often used to preserve the oaks. Workmen cut away top branches if the wood is dead and dangerous to passers-by.

A spokesman for the Town Council of Matlock said when an oak tree dies these days it is not easy to replace it. "No many nurseries are cultivating oak saplings these days and so we are using the deeper rooted oak, an American species. They often do not grow as high as the English oak and often their appearance is slightly different but at least they keep the oak 'population' steady," he said.

# Truck Overtakes Near State Line

# Nixon Ponders Controls On Burgeoning Economy

SAN CLEMENTE, Calif. (UPI)—President Nixon today continued his high-powered concentration on domestic affairs, surveying the disturbing inflationary spiral with some of his chief economic advisers.

The President also followed up on his grand design for rearranging the federal attack on poverty by sending another message to Congress, this time on an expanded manpower training program.

(See Story, Page 1)

The Chief Executive planned a full morning of basic economic conferences, summoning to his Southern California base virtually all of his top command in the war against inflation.

He had an early morning meeting with Labor Secretary George P. Shultz on the manpower training program.

Secretary of State William P. Rogers also was a constant part of the western White House scene, conferring with the President from time to time about Asian affairs and efforts to end the Vietnam War.

During the late morning, the President scheduled a two-hour session with his Cabinet committee on economic policy. Among the ranking members invited were Treasury Secretary David Kennedy, Agriculture Secretary Clifford Hardin, Commerce Secretary Maurice Stans and Paul McCracken, chairman of the President's Council of Economic Advisers.

Seldom has such a collection of top-level presidential advisers been assembled outside Washington.

Furthermore, this group would be expanded later in the day for what the White House said would be a discussion of pending domestic matters.

This second session at the new complex of White House offices bordering the Nixon estate would include Dr. Daniel P. Moynihan, White House expert on urban affairs; Bryce N. Harlow, the chief White House liaison man with Congress; and two other key advisers—Dr. Arthur Burns on economics and Dr. Lee DuBridge on science, possibly including the extent to which the administration will push its space program next year.

Meantime, Nixon was trying to reserve a few afternoon hours each day for recreation. He told reporters of being knocked down twice by the heavy Pacific surf in front of his estate, explaining that even for a native Californian, it would take a few days to adjust to the heavy undertow of this coastal section.

# Detectives Seek To Link Savage California Murders

LOS ANGELES (UPI)—A six-man team of police detectives today probed two massacre murder cases which bore striking similarities to the savage stabbings with almost ritualistic overtones.

Police maintained there was direct physical evidence to connect the stabbings deaths of a middle-aged couple Sunday and the mass murder Saturday of actress Sharon Tate and her guests at a secluded estate.

But an officer said, "It is unusual to have the same team on two cases unless there's an indication the cases are linked."

The sole suspect in the Tate murders, William Garretson, a 36-year-old actor at the Benedict Canyon home leased by the actress, was released Monday.

Detectives today leaned toward the theory the stabbings Sunday of market owner Leo La Bianca and his wife Rosemary in their home might be a "copy" by a new assailant in an earlier murder.

In both cases, the victims, stabbed numerous times, were left with their heads covered by hoods and cords knotted around their necks. Police revealed Monday the same method was used to scrawl "death to pigs" in the La Bianca case and "pig" in the Tate case.

The murderer "apparently dipped the heel of his hand in the blood of his victims and smeared the words in letters from eight inches to one foot high."

A new suspect in the Tate case was still sought by police today. He was an acquaintance of Garretson and officers said he lived in the Southern California area and had not been in the area he murders, an indication that his pulse was staked out.

Last Friday night, another of Garretson's acquaintances, Steve Parent, 38, dropped by Garretson didn't accompany Parent to his car when he left about 11:30 p.m. Parent was found shot to death the next day, slumped in the front seat of his car in the driveway, the gear selector in drive and the parking brake released.

Police said the killer was known to Garretson, why was the caretaker spared and Parent slain?

Polanski, who flew here from London Sunday night, remained in seclusion in Beverly Hills. Police would not say whether they had questioned him yet.

# Three States Seek Trio Of Escapes From Wallace

WALLACE, Idaho (UPI)—Police in three states were on the lookout today for three of four prisoners who broke out of a guard state two guns and escaped from the Shoshone County Jail Monday.

Authorities here urged descriptions to law enforcement officials in Montana and Washington and warned that the three prisoners were considered "extremely dangerous."

The escape occurred when the four lured deputy B.J. Flanagan near the cell and hit him on the head with a piece of metal inside a sock.

Flanagan said later, "It didn't hurt much but was just enough to cool me for a minute."

He said the men then took a .357-magnum revolver and a .22-cal. pistol and fled the building.

One of the escapees, Craig Filpen, 39, Spokane, turned himself in eight hours after the foursome made their break.

Authorities believe the others—Roland Lee Mack, 21, Spokane; Dannie Powers, 19, and Charles L. Marquardt, 20, both of Kingston, Idaho—escaped into the timbered slopes around this mining town.

Roadblocks were set up a short time after the break but failed to trap the escapees.

The four prisoners were awaiting transfer to the Idaho State Penitentiary at Boise on felony charges.

Officials said Mack and Marquardt had escaped from the jail about a week ago but were recaptured in Spokane.

# Idaho May Share In Nixon's Plan For Tax Sharing

WASHINGTON (UPI)—Idaho should share modestly in the tax-sharing program proposed in President Nixon's welfare program, according to Sen. Len B. Jordan, R-Idaho.

Jordan singled out the President's announced objective in the new family assistance program of emphasizing an incentive to work as one of its soundest features.

Jordan said there would be approximately \$5 million in total relief to Idaho taxpayers, but added, "I don't see a change in direction of government concentration at the federal level which most Idahoans will applaud."

# Bean Company Suits Charged In Suit

A lawsuit asking \$839,508 in alleged damages against Bean Growers Warehouse Association Inc. in Millner, has been filed in Fifth District Court, records showed Monday.

The suit was filed by Mr. and Mrs. Jose Sanchez.

It is alleged Mr. Sanchez visited the warehouse in Millner on Sept. 15 of last year to deliver a truck load of beans. While standing in an open doorway waiting for the beans to be unloaded, he was hit on the head by a falling object. It is alleged Mr. and Mrs. Sanchez allege three counts of neglect on the part of the defendant corporation and ask \$25,000 in special damages and \$815,748 in general damages.

# Church Applauds Snake Dam Controls

WASHINGTON (UPI)—Sen. Frank Church, D-Idaho, said Monday he welcomed the will of the Interior Dept. to issue a moratorium on the Middle Snake River by approved while Sen. Len Jordan, R-Idaho, said the announcement cannot be disregarded.

Church said since the Interior Department had abandoned plans for federal participation in a dam on the river, the congress should move as quickly as possible to enact the moratorium legislation introduced by Senator Jordan and myself.

Jordan said Hickley's announcement could be interpreted as "withdrawal of federal plans for development of the Middle Snake River."

"For some time it has been apparent that federal construction of a Middle Snake project would have a very low priority for funding by the Congress at this time. Moreover, the will of the Interior Dept. to issue this area in order to bring the kluwats into the same north-west power pool without federal participation cannot be disregarded."

### Women's Section

Dear Abby  
By ABIGAIL VAN BUREN

DEAR ABBY: So much has been said about "louses" who are late with the support check, I'd like to hear a few words about the other side.

My husband was stationed in Alaska when his first wife started running around. By the time he got home, it was too late to save his marriage — or his credit rating. When the case came to court, he was a "gentleman" and didn't use the grounds of adultery, so the judge gave his wife custody of their four children, plus support payments that amounted to two-thirds of his salary.

Two days after we were married his wife shipped the kids to us for their summer vacation. She came to pick them up 26 MONTHS later! During that time we had a child of our own and a second one on the way.

Whenever she gets tired of the kids she ships them to us.

They are always shoeless, threadbare and starved for a decent meal. Their support money is obviously used for something else.

I believe a divorced man should support his children, but how is ridiculous. What do you say? THE OTHER SIDE

DEAR ABBY: Hear here! But take heart: Divorce reforms are in the works.

DEAR ABBY: There is no law that states a father has a 30-day "grace" period in which to make child support payments. Must the landlord or grocer wait for 30 days?

L. A. LAWYER

DEAR LAWYER: No, but if that's all the longer some of our kids had to wait, they'd be happy.

DEAR ABBY: I had the same problem as "LOVES POPS." Daddy was 80 years old and he also used a magnifying glass to read the newspaper, but he insisted on driving his automobile. All the people on the street knew what a terrible driver he was, and they'd get out of his way when they saw him coming. If anyone suggested that he should quit driving, he'd have a fight on his hands.

I wrote to the State Motor Vehicle Department and told them my problem asking them not to let my father know who tipped them off.

Shortly afterwards Daddy received an official notice to appear for a "re-testing." Of course he failed, and the examining officer who gave him the test said he'd never seen a worse driver.

Our family was greatly relieved, and Daddy never knew who turned him in. He still uses my name. He's still living and plenty sore.

His LOVING DAUGHTER

DEAR ABBY: Recently a lady who signed herself "LOVES POPS" wrote that she was worried about her 82-year-old father who she felt was too old to drive as he had already had a few minor accidents.

Writing to find out what "lousy" chances for survival were, I looked up the 1968 statistics of the National Safety Council, and this is what I came up with:

In the age group "75 and over" there were 10 accidents per 100 drivers per year. In the age group "under 20" the figure was 35. In the age group 20-24, it was 34.

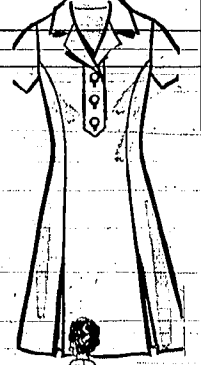

As for fatal accidents: In the age group "75 and over," there were 70 FATAL accidents per 100,000 drivers per year. The under 20 drivers were killed at the rate of 80 per 100,000 per year. And the 20-24, at the rate of 101 per year.

One may say, "The older driver makes fewer errors, but more accidents are caused by younger drivers who drive too fast."

So tell "LOVES POPS" that if she has a son under 25, she should worry more about him and quit worrying about Pops.

### Nutritionists Are Concerned With Fad Diets

WEST LAFFAYETTE, Ind. (UPI)—Nutritionists at Purdue University, alarmed at the nation's penchant for fad diets, offers a sensible and sure-fire method of losing weight. But you may not like their four point route to taking off pounds sensibly.

Here is the recipe:  
—Take a giant size portion of motivation.  
—Add knowledge about good nutrition and diet.  
—Mix well with self-discipline.  
—Add several dashes of physical activity.

The nutritionists point out that carbohydrates, proteins, fats, vitamins, minerals and water are all important to one's daily diet.

Taking these needs into consideration, they ask yourself, "What makes me grow sideways?"

General rule: Eat a fine breakfast, a light lunch and a good dinner. But please, you pudgy ones, don't eat so much.

WASH CLEAN  
Nipples on baby's formula bottles ought to be washed as soon as the bottle is emptied. The milk residue is quick to harbor bacteria—Keep a nipple brush in a jar of suds to scrub each nipple on all surfaces.

# Magic Valley, Billings Trade Tight Decisions In Pioneer Twin Bill

**BILLINGS, Mont. (UPI)**—The Billings Mustangs and the Magic Valley Cowboys split a Pioneer League doubleheader Monday night, the Cowboys winning 1-0 in the first game and the Mustangs coming back in the nightcap to push across the winning run in the bottom of the eighth for a 2-1 triumph.

Magic Valley will be in Idaho Tuesday and Wednesday before traveling to Idaho Falls for a three-day, three-game set with the Bengals which begins Thursday night.

Larverie Blanks, the loop leader in RBIs, stroked a double

in the fourth inning of the opener to score Jeff Geach with the only run that lefty Compton and c d e d. Losing pitcher Chuck Loseth, whose record is now 0-7, only allowed five hits.

Billings took quick 2-0 lead against Keith Walters in the nightcap when Burt Strain and Stan Walton drew walks. Compton hit by Phil Zahn and Gary Mariz brought the runs across.

Mariz scored in the third inning after hitting a single, when the Cowboy first baseman made a throwing error.

Magic Valley came to life in the fifth when pinch-hitter Conchito Escalona singled in Jim Nagelisen for the Cowboy's first run. Tom Heierle then stroked a single to score Blanks, who had drawn a walk in the first.

Heierle again came through in the seventh, this time tying the score with an RBI blow scoring Mariz. Magic Valley took the game back in the bottom of the first over-time frame against loser, Rick Walters, who had drawn a walk to single to lead it off before Vince Coluccio ended the game with another hit.

## First-Place Reds Topple Phils 4-3

**CINCINNATI (UPI)**—Jimmy Stewart's one-up single in the eighth-inning scored pitcher Jim Merritt Monday night to give the Cincinnati Reds a 4-3 victory over the Philadelphia Phillies.

Merritt went to second when Pete Rose scored before scoring on Stewart.

Stewart and Alex Johnson banged out three hits apiece as the Reds tagged Rick Wise for his 10th loss against nine victories.

Johnny Bench's 17th homer of the season gave the Reds one run in the second-inning as they added two more in the third, launching singles by Rose, Stewart and Tony Perez with Johnny's sacrifice fly.

Deron Johnson's 11th homer of the season coming after a single by Richie Allen gave the Phils two runs in the fourth and Cookie Rojas doubled Don Money home with the third run in the seventh inning to knot the score.

**DETROIT (UPI)**—The Detroit Lions announced Monday that they have acquired second-year tight end Ken Bonar from the Washington Redskins in exchange for an undisclosed 1970 draft choice.

The 6-foot-4, 235-pound Bonar was used in special teams by the Redskins last year after being drafted from Virginia Tech.

He will report to the Lions training camp Tuesday, and will see action in their Friday night home exhibition game against the Buffalo Bills, the Lions said.

## Smith-Homer Lets Boston Top Chicago

**CHICAGO (UPI)**—Reggie Smith's two-run homer, following a two-run double by Carl Walters, drew a walk in the first inning, sparked the Boston Red Sox to a 5-2 victory over the Chicago White Sox Monday night and gave Mike Nagy his seventh win of the season.

White Sox loser, Paul Edmonson, gave up a leadoff single to Mike Andrews and walked Dalton Jones before Yastremski doubled to right center field and Smith followed with his homer.

A double by Russ Gibson and Andrews' second single produced the final Boston run in the second inning and the Red Sox were then held hitless for the rest of the game by four White Sox relievers.

Nagy, 7-2, was lifted in the seventh inning after giving up a single to Rick Morales and pinch homer to Pete Ward. Al Lyle came on and shut out the Sox the rest of the way to earn his 10th save of the season.

Chicago's lineup included: Steve Lyle (7) and Gibson (6); Tom Lazar (7), Bell (4), Murphy (6), Walters (5), Edmonson (4), Lyle (3), Smith (3), Ward (2).

Frank Howard then hit an easy grounder to Hernandez at short which would have ended the inning, but Hernandez threw low to first base and the ball got by Mike Flare, allowing Bosman to score from second.

Bosman set the Royals down on five hits and ran his record to 8-5.

Pat Kelly homered in the third inning to give Kansas City a 1-0 lead.

# Twins' Boswell Out To Get Manager After Sound Licking

**DETROIT (UPI)**—Minnesota Twins pitcher Dave Boswell "sucker punched" teammate Bob Allison and manager Billy Martin. Doc Greene said Monday in a blow-by-blow account of the celebrated fight in his Detroit News column.

Boswell, who had been reported "cheating" on his pre-game running by Art Fowler last Wednesday, began "bad-mouthing" the Twins coach at a Detroit bar that same night.

"That's enough of that," Martin reportedly said, "go home and go to bed now. I'll be up to your room later and talk to you about it."

Boswell went out the rear entrance of the bar, said Greene, who learned of the incident from witnesses. The 240-pound Allison accompanied Boswell, when Boswell suddenly punched him, knocking him to the ground.

Jimmy Butsicaris (owner of the bar, the Lindell Athletic Center) and Johnny Lumbard, the three Greene witnesses, got between the two, the writer said, but Boswell kicked the

downed Allison in the head and back.

Martin then showed up.

"You're a big, brave one, aren't you?" Martin reportedly said.

"I'll take a piece of you, you little (bleep) squirt," Boswell said, referring to Martin's Italian ancestry, before firing a punch at his manager.

Martin then began riving away at Boswell's stomach.

Greene wrote, changing his attack every two or three punches to Boswell's head.

He punched the pitcher across the alley and up against a brick wall, nailing him again as Boswell bounced away from the wall.

Butsicaris took Boswell back inside, clearing his bar, and spent the next 20 minutes reviving him. Boswell returned from a hospital Thursday morning sporting two stitches in his hip and three over one eye.

Boswell reportedly phoned Martin that morning, outlining his punishment terms, what he would do to the battling manager when next he saw him.

**JOE AND MICKEY**

**NEW YORK (UPI)**—Mickey Mantle and Joe Namath, taking advantage of their prominence as household names throughout the country, went into business jointly Monday as an employment agency to be known as "Mantle-Men & Namath Girls Inc."

# Zinniger Fans 15-Ogden Batters In Bee Split

**OGDEN (UPI)**—Dennis Heran's double in the bottom of the ninth inning drove in runner Ken Mitter with a winning run in the first game Monday night as Ogden topped Salt Lake 2-1, but Bee ace Rich Zinniger came back to K 15 Dodgers enroute to a 1-0 victory in the nightcap.

The opener was a pitcher's duel between Danny Young and Ervin Ervin until Heran's double broke it wide open in the second extra inning.

Both teams scored a single run in the second inning, the Bee's getting theirs when catcher Jerry Kammell singled home Tom Zarta, and Ogden tallying when catcher Terry McDemott scrambled home from third on a 4-3-6 error.

In picking up the win, Ervin whiffed 14 Salt Lake batters while only allowing two hits.

"The nightcap was a different story as Zinniger, who owns the best won-loss record in the league, simply moved down Ogden at will.

John Baca's dramatic homer in the seventh gave Zinniger his ninth victory of the season. It was only the third hit given up by the former Mark-Meschuck, who struck out 10.

**Track Stars Still Fuming**

**LONDON (UPI)**—By the next Olympics (the United States won't have a team) who's submitting their names to be selected for the team? said representatives of the U.S. Track and Field team in London Monday night.

"They had sent a telegram costing \$2 dollars to President Nixon asking for a complete investigation of the system by which U.S. athletes are sent to the Olympics," said spokesman George Frenn, hammer thrower of the team which is competing against Great Britain Tuesday night.

# Dodger Great Don Drysdale Hangs It Up

LOS ANGELES (UPI)—Don Drysdale, the "Big D" of the Los Angeles Dodgers and last member of the team that came here in 1958 from Brooklyn, announced his retirement Monday.

The 33-year-old sideswinger with broken ribs, shin splints, shingles and other assorted injuries during his 14-year career, was a disappointing 5-4 this year and had pitched only 62 innings.

A recurrence of a shoulder injury forced him out of his role Friday and he said he believed he should be taken off the active list to make room for another pitcher.

Last year Drysdale compiled an amazing string of 19 2-3 consecutive scoreless innings, breaking a record set by Walter Johnson.

When teamed with former

Dodger great lefthander Sandy Koufax, who retired in 1966 with recurrent arthritis in his pitching arm elbow, the Dodgers had a formidable duo.

Drysdale pitched more innings, hurled more shutouts and struck out more batters than any pitcher in the history of the Dodgers. His career record was 209-166. He appeared in five World Series and posted a record of 3-3.

In the past 10 years Drysdale never pitched fewer than 230 innings in a season.

The 6-foot-6-inch first became notable as a pitcher in the suburban Van Nuys, Calif. His father, Scott Drysdale, a part-time Dodger scout, had hoped his boy would be a flinger. His hopes soared when Don began throwing a baseball in semi-garment when he was 9.

After early training as a second baseman he stayed with the second baseman's sidarm move when he became a pitcher. Don was signed by the Dodgers at 17 for a \$4,000 bonus and \$250 in signing money to Bakersfield of the California League.

He moved up a year later to Montreal and at 19 a youth-of-great-potential pitcher and a veteran's assurance, he was in the majors. It was after several years—in the majors—that he developed a knuckleball that made him one of the most feared throwers in the game.

The fireballing Drysdale won 25 games in 1962 and earned the Cy Young Award as the major league's pitcher of the year.

After the 1958 season Drysdale married Ginger Dubberly, his princess at the famed Rose Bowl and parade.

During the off season Drysdale enjoyed swimming, golf and riding. His interest in horses developed in 1965, when he developed a horse breeding ranch in 1965.

His other interests include owning a restaurant, being a principal in numerous business operations and investments in real estate.

# Bills Fans Cheer Arrival Of O.J.

BUFFALO, N.Y. (UPI)—Nearly 2,000 persons, cheering and pushing greeted O.J. Simpson at Greater International Airport Monday night as he arrived from California to play professional football for the Buffalo Bills.

The Heisman Trophy winner was continually pressed for autographs and virtually crushed in the crowd that stretched through the main terminal ramp and tried to chase him through a side door.

Simpson is due to undergo his first draft as a member of the AFL Buffalo Bills at 7 a.m. Tuesday on the Niagara University campus.

The crowd, gathered nearly a block before Simpson's arrival, cheered Simpson as he rode an escalator from the airport runway.

"How-yuh-dein"—Simpson holloed time after time as fans reached out to clasp his hand or ask for an autograph.

"Glad to be here," Simpson yelled, "but I could have been here six months ago."

Simpson was given the keys to the City of Buffalo by Mayor Frank A. Sedita and received a kiss from Miss Buffalo of 1969, Kathleen Karpinski.

Simpson ended a seven-month holdout Saturday by agreeing to terms with the Bills during contract talks in San Diego. His salary has not been disclosed but the best estimates point toward \$80,000 per year for four years.

Simpson's first news conference will be held Tuesday at the Buffalo-Bills training camp.

**Angels Over Tigers 3-1**

DETROIT (UPI)—Rudy May pitched a three-hitter and Tom Egan smacked a two-run homer Monday night to give the California Angels a 3-1 victory over the Detroit Tigers.

Earl Wilson allowed only two hits over the last seven innings, but one of the five he allowed in the first two was Egan's fifth home run of the year, following a single by Aurelio Rodriguez in the second.

May gave up an unearned run in the first inning without yielding a hit as he raised his record to 8-0. The fast-balling lefthander sandwiched walks to Tom Tresh and Willie Horton around Rodriguez' error which permitted Al Kaline to reach base, before Bill Freehan scored Tresh with a sacrifice fly.

The Angels added an insurance tally in the ninth on a sacrifice fly by Joe Azble, who entered the game in the seventh inning when Egan was hit in the head by a Wilson pitch, following one-out singles by Bill Voss and Rodriguez.

READING, Pa. (UPI)—Philadelphia Eagles left linebacker Adrian Young underwent an operation Monday for torn ligaments in his right ankle, an injury he sustained during the club's 12-7 loss to the Atlanta Falcons in Portland, Ore., last Saturday.

Team physician James E. Nixon, who performed the operation at the Graduate Hospital in Philadelphia, said he expected Young, a former All America at Southern California University, will wear a cast for three weeks, and probably be out of action from six to eight weeks.

Meanwhile the Eagles went through a workout at their training camp on the Albright College campus here in preparation for their second pre-season game with the Miami Dolphins at the Orange Bowl Saturday night.

## GOOD DEFENSE TAKES CHANCES

No one would ever think that a perfect bridge player. She takes plenty of chances and players who take chances can't be right all the time.

On the other hand, Helen is not inclined to play carelessly and when she has a choice between a right play and a wrong play, she will always make the right one.

Helen defended today's hand in an important match in 1937.

South ruffed the second heart, led a spade to dummy's king and continued with the 10 and declarer won with the jack.

His next play was the king of clubs. Helen took her ace and here is where a careless sort of player would go wrong and play the last heart.

This play would have been fatal since South would ruff with the jack of clubs, a club to dummy's queen and the last club to ruff in his own hand.

Helen would have been the ace-eight of spades and two diamonds. The only trick dummy's ace and king of diamonds and lead another one. Helen would have to ruff and declarer would overtrick.

Helen didn't go wrong. She returned a club. After this play it was impossible for declarer to shorten himself enough to develop the trump-coup and he had to go down one trick.

## Californian Claims Sting Of Bee Cured His Arthritis

ARTHRTIS--He suffered with arthritis until the day a couple of bees stung him. That's what a Modesto, Cal., man reports. After that, the arthritis cleared up. This is not the first time a subscriber has made the claim that bee stings cure arthritis. Some time back gentleman wrote--

Wrote--I am a 60-year-old professional beekeeper afflicted with arthritis. Go ahead, try. There aren't any." So I advertised for same, had turned up the none such. Maybe there's something to it.

SANDWICH SPREAD--How long has it been since you've had any food commodity labeled "sandwich spread"? Am told by an ad man that the makers of cheeses, margarine, and dips are giving up that expression. On the theory it suggests thick lips.

A NOMENPHILIAC is a person who likes to talk names. Would you describe yourself as a nomencliphilic? Likewise.

IF YOU HAVE TROUBLE telling the sheep from the goats, remember the goats always point their tails up, the sheep point theirs down.

MORE WOMEN than men go to church, and yet more women than men change their church denominations to those of their spouses when they marry. A paradox, no?

CUSTOMER SERVICE: Q--What does your Name Game man say about men, like my husband, who claim to be vegetarians? A--I'm sure you know nothing whatsoever about husbands named Waldemar. In fact, only other Waldemar the real is Waldemar Arvink, the gentleman who recently invented the artificial gill. However, he can start a file immediately on Waldemars, if your husband after invents things or swims fairly well. Please advise.

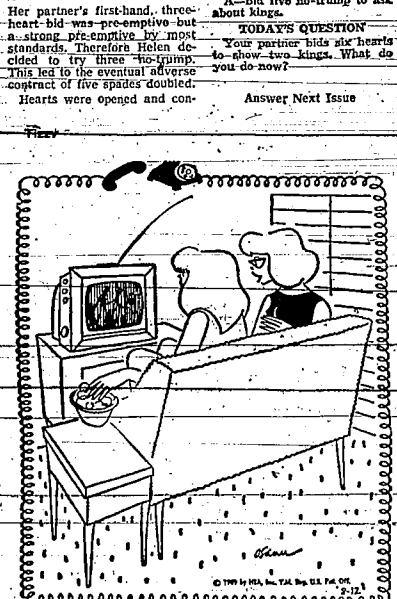

Q--"DID WILD ELEPHANTS EVER roam the North American continent?" A--Evidently, the diggers have found numerous elephant skeletons in the Texas Panhandle.

FRANZ'S YELL--Suppose at one time or another as a lad you tried to imitate Tarzan's yell. Who didn't, what? You could you make it sound the way it sounds in the TV movies? Probably not. Here's something else that the old folks know but the young folks don't. That original "ah-yell" isn't just one actor's voice. Blended in with that voice are the growl of a dog, a trill sung by a soprano, a note played on a violin's G string and the howl of a hyena recorded backward.

FLIGHT FEAR--A client claims most of those citizens who are afraid to ride in airplanes tend also to be of a conservative persuasion in their politics. Interesting. As examples, he cites Alabama's George Wallace and California's Ronald Reagan, both said to be phobic about flight. He fails to mention Joan Baez and Jimmy Durante. They, too, are known to both attitudes. Can't say much about the politics of the paradoxical, no?

Miss Baez, altho she is known to respond in a highly reactionary manner to the income tax. However, Mr. Durante frequently has been quoted as saying "Just keep your nuts offed--be people, soci. Leave them be!"

Your questions and comments are welcome in "Checking Up." Address mail to L. M. Boyd, in care of P. O. Box 99187, Seattle, Wash. 98189.

After all these dreary summer re-runs, I kind of wish it were a Presidential election year!

FROM THE AIR the paved runway at Gimlet, in the Wood River Valley section, can be seen nestled in the Valley. The Big Wood River meanders at the right in this picture. The

new project is one of several now underway in the Sun Valley-Ketchum-Halley area.

# Planes And Homes Mix At Gimlet

By PHILLIP LOWMAN  
Times-News Correspondent

KETCHUM — For those who pine for the unusual, and want it in privacy, Ketchum now has the ultimate to offer them Gimlet — which if not exactly is nearly every man's dream.

According to project originators and owners Ted Teren and Bill Casey, the main appeal of Gimlet lies in the 4800 foot paved runway, airplane parking in eight in one's own yard, and extreme privacy. A typical conversation between pilot and ground might go like this — "Gimlet Union, this is 4223 Zebra. Is the taxi ramp to my home clear, and how's the skiing?"

Another big appeal of the project is Larry Johnson's flying service which has moved from Halley Airport to the complex. Mr. Johnson said charter service for tourists should be much more satisfactory since Gimlet is only four miles south of Ketchum, and thus eliminates much driving on the park of those going to Ketchum and Sun Valley.

500 acre project is sold in minimum lots of two acres to five acre parcels. Prices vary according to location and size. Nearly a dozen lots have already been sold, and several homes have already been built.

One home presently under construction at Gimlet has 12,000 square feet of floor space, and will cost well over \$125,000. Among other things the home is to have a wood panel hangar in the basement. A home already completed at Gimlet is used at various times of the year by Mr. and Mrs. Hans Stolzechner of Kitabue, Austria and Mr. and Mrs. Phillip Thresher of Arusha, Tanzania, Africa.

Building restrictions at Gimlet are strict, but Mr. Teren said this is necessary to preserve the privacy of the project, and to keep an uncluttered landscape.

Some restrictions prohibit such things as any commercial activity anywhere on the Gimlet properties.

Trailer houses or temporary buildings; clotheslines unless they are hidden from view by a fence, telephone poles and

television antennas. Except for the buildings, tennis courts, a planned swimming pool, roads (which are all paved) and the airstrip the land is to remain in its natural state.

We as Idahoans take our state pretty much for granted, but if you can imagine for a minute the Los Angeles business executive. It is five o'clock Friday afternoon — a particularly hot smoggy afternoon. Millions of people are milling around in your eyes. You give the yaffe a call, tell her to pack her bags, the kids, and meet you at the airport. After forty-five minutes fighting traffic on the freeway you park your plane, and five minutes later get clearance for takeoff. Three hours later your aircraft sets down in another world of clear air, mountains and pine trees. You spend the last hour of daylight catching a few trout in the icy clear Wood River, and by bedtime the air is so cool you stoke the fireplace to ward off the evening's chill.

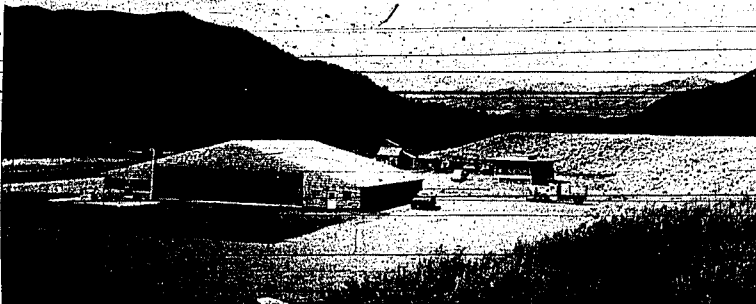

Meanwhile your next door neighbor, a thousand miles away, is coughing through the smog and people and heat and traffic and canceled dinner reservations and noise and so on and so on. It is little wonder Idaho Gimlet and other projects like this are booming.

What's the cost? Plenty! But then, maybe that is what our society is all about. We are a nation of producers, and the main reason for our production output is for personal gain. And if we have financial goals, just possibly owning an airplane and a home with a private air strip are sound goals. Of course most of us will never have the money for such lavishness, but we can dream and hope and perhaps through our dreaming find nearly as much pleasure in dreaming as in owning.

In a way the niceness of money belongs to us all.

## Writer Dies

BUDAPEST (UPI) — Hungarian writer Janos Kodolanyi died Sunday at the age of 70, the Hungarian MTI news agency reported. Kodolanyi rose to fame in the 1920s with his first works dealing mainly with peasant life.

NEW HANGAR of Johnson Flying Service at Gimlet will provide base for "back country" flights in addition to one for

air-taxi service. The runway and hangar are not visible from nearby Highway 93.

TWO YOUNG MEN with an idea are behind the Gimlet project. Ted Teren and Bill Casey look over the improvement area.

MILD QUAKE HITS TOKYO (UPI) — A mild earthquake shook parts of north-

day but no casualties or damage were reported. The quake registered three on the Japanese scale of eight.
