Supreme Court Upholds Contempt Ruling

The Idaho Supreme Court has upheld the contempt ruling of Chief Justice Frank Barnett's contempt of court conviction, but apparently will not rule on another question in the matter.

The High Court issued its decision in Boise Thursday.

Chief Barnett, when contacted by the Times-News, said he has not paid his \$100 fine for contempt of court but would probably do so soon. "Now that the decision is in," he said he felt the contempt was apparently unjust, but added "it was the other ruling I was interested in. I couldn't have taken this case for the defense in a preliminary

hearing. At that hearing he testified that about 10 days prior to the hearing, he refreshed his memory as to certain matters from notes which he had prepared. The defense counsel moved that the notes be produced in the court.

Chief Barnett refused, although ordered to produce the notes by Judge Reed.

The chief was then found in contempt and fined \$100.

The case was appealed to Fifth District Court, and Judge Charles Scoggins heard the matter. After study, Judge Scog-

gin upheld Judge Reed's ruling. Chief Barnett took the case to the Idaho Supreme Court, contending Idaho law does not require a witness to produce notes used to refresh his memory, when the notes were not used while the witness was actually testifying. He claimed Judge Reed was without jurisdiction to hold him in contempt of court.

The High Court's decision Thursday upheld the contempt judgment.

In the unanimous opinion, written by Justice Clay Spear,

the court held that the Idaho Constitution grants judicial powers to the courts and that the power to interpret a statute is a judicial power. In this case the High Court ruled Judge Reed had the judicial right to hold Chief Barnett in contempt.

The matter on introduction of notes apparently does not need a ruling since the contempt matter was the only question the court considered, it was learned.

Harry Turner was the attorney for Chief Barnett and Dan Mechl represented Judge Reed.

TONIGHT IS HALLOWEEN and somewhere in Twin Falls there is a witch doing her thing. Times-News photographer Dan Johnson was sent out recently with orders to get a picture of the witch. The film arrived in time for processing, but as for Mr. Johnson... let's just say he's getting a haircut here, halloween style. In all truth, this picture is a special mangle all its own. It required several chemists' bottles, water, dry ice, a fake skull and one woman willing to change her appearance, slightly. Needless to say, she prefers to remain unnamed.

T.F. Man Dies In Crash

Car Hits Truck Headon

Twenty-year-old Michael Paul Hopper of Twin Falls died instantly Thursday when the small foreign car he was driving slammed head on into a pickup truck in a half-mile west of the Hansen Bridge on State Highway 50.

It took workmen 45 minutes to free Mr. Hopper's body from the wreckage of his car.

Investigating State Police Officer Frank Mogensen said Mr. Hopper was traveling east on the highway and was attempting to pass another car when the accident happened.

Mr. Hopper's car hit a truck driven by W. J. (Buzz) Gray, 30, a Redding, Calif. geologist.

Mr. Gray walked away from the accident apparently unharmed, but suffering from shock. He was taken to Magic Valley Memorial Hospital but did not require treatment.

Officer Mogensen said Mr. Hopper had apparently been hunting in the area at the time. The accident happened about 4:30 p.m.

Mr. Gray said the sun was in his eyes and he did not see the Hopper vehicle until it was too late.

The impact turned the Hopper car sideways on the highway and pushed the truck into the borrow pit, where it over turned. The rear axle on the pickup truck was broken and the truck was about 10 feet from the truck.

Mr. Hopper's Twin Falls address was listed as 304 Ordener St. N.

Twin Falls County Coroner Clyde Edwards was at the scene and said he would order blood tests, but added an autopsy or inquest would not be ordered.

Traffic was guided around the wreck scene by volunteers and it was nearly 11 hours before workmen cleared the wreck site.

Mr. Hopper's body was taken to Magic Valley Memorial Hospital.

MANGLED WRECKAGE OF this small foreign car indicates the force of the collision when it crashed head on into a truck Thursday afternoon a half-mile west of the Hansen Bridge. Michael Paul Hopper, 20, Twin Falls, driver of this car, died instantly in the crash. It took 45 minutes to free his body from the wreckage.

CSI Gets \$1.544 Million Bid On Dormitory, Student Union

Nielsen and Miller Construction Co. of Twin Falls was the apparent low bidder Thursday night when bids were opened on two College of Southern Idaho projects.

The firm submitted a bid of \$1,544,072 for both buildings, a student union-library-administration commons and a 150-unit dormitory.

Bidders voted to accept the bid, subject to approval by the Office of Education and the Department of Housing and Urban Development, which are partially financing the projects.

The bid also must be approved by the CSI Housing Administration, which is responsible for management of the dormitory.

Next lowest bid was by Mitchell Construction Co., Pocatello, at \$1,564,974. Other bids were Reynolds Construction Co., Twin Falls, \$1,570,000; Taysan Construction Co., Pocatello, \$1,574,500; Chris Berg, Inc., Seattle, \$1,690,605, and Skyline Construction Co., Salt Lake City, \$1,732,500.

Projected cost of the two buildings was in excess of \$1.6 million, so the low bid was well within line of estimates.

Pre-bidding was held Wednesday, but the apparent low bidders for electrical work has

City Hears Cost Of Annexation

The Twin Falls City Council heard a report Thursday from Jean Millar, acting city manager, on the cost of water and sewer extensions to the areas proposed for annexation.

Mr. Millar also told the council the assessed value of the property, the income it would provide and the population of the areas.

The total cost for water extension would be \$24,500, and the cost for sewer, \$70,500, making a total of \$165,000 for the improvements. Mr. Millar said the city has this money in investments, which is authorized to use for these specific purposes, and there would be no burden on the people already living in the city limits.

He told the council the assessed value of the property proposed for annexation is \$111,170 and it would provide an income of \$13,450 at 47 mills.

The new property would add 1,324 people to the city's population.

The areas proposed for annexation have been broken down into seven ordinances and will be considered separately by the council.

Ordinance No. 1 concerns the Northeast Heights and the Neber subdivision.

Cost for water extension here would be \$2,700. The assessed value is \$74,359 with an income of \$3,600 and a population of 112.

The second ordinance is concerned with the Cathedral Heights and Canyon Crest areas. Water extension here would cost

City To Seek New Location For Land Fill

Jean Millar, acting city manager, plans to ask the Twin Falls City Council Monday night to authorize an application to the Bureau of Land Management for a new sanitary land fill.

Mr. Millar said the city will ask the BLM for a lease on 220 acres of property southwest of the city. He said the land is located a little farther out than the present land fill near the airport.

The land fill now in use will be filled to capacity in about a year, about the same time the sanitation contract with the Riddon Corp. expires. This land fill, on city-owned property, has been used for the past 20 years.

Mr. Millar said the city will investigate ways to use this area after it is no longer a waste disposal site.

The application for the BLM land will specifically state the land is to be used as a sanitary land fill, Mr. Millar said. He also said they would again plan to use the area, if it is obtained, for a 20-year period.

Order Refused

BATON ROUGE, La. (UPI)—Gov. Jim McKeithen Thursday flatly refused to comply with federal demands for complete desegregation of Louisiana colleges.

He said it would take federal marshals to oppress him.

"We are tired of being treated as guinea pigs and second class citizens in this state," McKeithen said.

Southern Educators Condemn Court Rule

ATLANTA (UPI)—The Supreme Court's tough new "desegregate now" school order drew bitter comment from school officials across the South Thursday, with many freely predicting that it sounds the death knell for public education.

Alabama Attorney General Macdonald Guillot said the decree was a "body blow to the public schools and our children here and everywhere," and Sen. James O. Eastland declared "the decision spells disaster for public education in Mississippi and many areas of the South."

In a ruling that came 10 years, 8 months and 12 days after the 1954 decree outlawing school segregation, the high court held Wednesday that it was "the obligation of every school district to terminate dual systems at once."

Although the ruling came as a blow to the administration, which had urged a go-slow policy in Mississippi—the state was specifically directed—President Nixon promised his backing. He said he would exert his leadership in solving the "practical and human problems" resulting from the ruling.

Southern officials said the problems would be many. Gov. Lester Maddox of Georgia predicted the ruling would create a "total annihilation of education in this state and would bring about a deterioration of education because whites in the future will 'not vote' for needed school bond issues."

No Charges To Be Filed In Shooting

KETCHUM — No charges will be filed in the shooting incident Wednesday night in a Ketchum motel which wounded Everett Curtin Dale, employed as a local carpenter, Sheriff Orville Drexler said Friday.

He said during a hearing Thursday afternoon before V. K. Juppson, Blaine County prosecuting attorney, Bernie Aase, foreman of a five-man carpenter crew, which included both the shooting victim and the suspect, believed to have injured him, told officers the suspect shot in self-defense.

All five men, who are from Seattle, are employed in the Blaine subdivision on Warm Springs Creek. They share an apartment in the Bald Mountain Motel here.

Mr. Aase and the other two men in the group told officers that Mr. Curtin Dale had fired five rounds from a .22 caliber revolver and that two of them jumped out of the window to avoid being hit. Sheriff Drexler said there are bullet slugs in the door and window casings.

He said the shooting was caused by friction among the men on their job. Mr. Curtin Dale was reported in satisfactory condition Friday at Sun Valley Hospital.

Blacks Stir 'Terror' At S.F. State

SAN FRANCISCO (UPI)—Dr. S. I. Hayakawa, president of San Francisco State College, said Thursday militant students have created a "reign of terror" in the school's new black studies program.

Students have forced teachers out of their classrooms and taken over classes for unauthorized rallies and propaganda sessions, Hayakawa said.

"Those who have complained have been threatened. Some have been attacked."

The college president said an "obvious course of action" would be to disband the department. He said he would not consider such a drastic step without giving it another chance. The administration and faculty "are working now on steps to protect the department," he said.

The new uproar at the college broke out earlier this week when black militants held a news conference at which Nathan Hare, ousted by Hayakawa last year, was proclaimed head of the black studies department.

Hayakawa conceded the department was "in serious trouble" but internally dissembled.

"The situation briefly is that a small clique, organized around revolutionary ideology, is attempting to seize control," Hayakawa said. The students want to "convert it into an agency for revolutionary propaganda," he said.

White House Asks Backing For Nominee

WASHINGTON (UPI)—The White House stepped up its campaign today to arouse grass roots support for Supreme Court nominee Clement F. Haynsworth Jr., even as a GOP leader accused the federal judge of breaking the law in off-the-bench financial dealings.

The dual developments revealed a stiffened determination by President Nixon to stick by Haynsworth and a denouncing of the law in the Senate over the nomination.

Sen. Robert P. Griffin, the Republican whip from Michigan, said Haynsworth by his own admission was in "obvious violation" of the federal law requiring judges to disclose their financial interests.

The White House, meanwhile, said Haynsworth is being backed by local Republican organizations, businessmen's groups, Chambers of Commerce and Haynsworth. The idea was to swamp senatorial offices with letters urging confirmation.

'Air Pirate' Diverts Jet To New York

DENVER (UPI)—A gunman, waving an M1 carbine and described as "some kind of nut," hijacked a Trans World Airways jetliner over California early today, forced it to land for fuel in Denver then flew to New York.

The hijacker, dressed in a military tunic and toting a "survival kit" of soup and other supplies, hijacked the aid of 10 male Negroes from nearby colleges to block the entrances and keep whites out.

About 40 of the black students—all on scholarships provided by Vassar to low-income students—seized part of the school's administration building Thursday and ordered the aid of 10 male Negroes from nearby colleges to block the entrances and keep whites out.

The black students refused to let anyone into the administration building today after suffering several days from a so-called 24-hour virus.

B52s Pound Red Troop Buildup

SAIGON (UPI)—Two flights of B52 bombers today went after what U.S. intelligence predicted the Red army would create a "total annihilation of education in this state and would bring about a deterioration of education because whites in the future will 'not vote' for needed school bond issues."

Military spokesmen said the B52s dropped 160 tons of bombs onto the recently spotted buildup following a wave of shelling during the night against the threatened artillery and Green Beret camps.

In Saigon, the American Command turned over 13 ocean-going patrol boats to the South Vietnamese in the continuing "Vietnamization" of the war and said 300 more American troops were leaving for home Saturday.

DRIVING PROGRAM SET (UPI)—Gov. Don Samuelson announced an Idaho driver rehabilitation program will get underway next week with a workshop to train new instructors who form the nucleus of a drivers' rehabilitation program in eight regions of the state.

PREPARING FOR THE annual Magle Valley UNICEF drive are Mary Ann Carter, left, and Ted Inley, young people from the local Girl Scouts, Presbyterian Church, First Baptist Church, United Methodist Church, Church of the Brethren, Kimberly Methodist Church, Key Club and Valley Christian Church will participate in the campaign. The UNICEF truck or treasurers will carry a special black and orange collection box on Halloween night. They will begin collecting at 4 p.m. The Episcopal Church of the Ascension held an old fashioned ice cream social Thursday evening with a Lowell Harding film. Proceeds from this event will also go to UNICEF.

House Panel Charges FCC Chairman

WASHINGTON (UPI) —The House Commerce Committee voted Thursday to bring contempt of Congress charges against Chairman Rosel H. Hyde of the Federal Communications Commission (FCC). The committee vote favoring a citation was 20 to 13. It came after a spirited debate over Hyde's refusal to produce FCC records asked by the committee in connection with a radio license renewal case. The committee chairman, Rep. Harley O. Staggers, D-W. Va., said after a closed session in which the action was taken: "We only asked him to comply with the subpoena; he refused."

Neither the Justice Department, which normally prosecutes contempt of Congress charges, nor longtime congressional staffers could recall any previous occasion when contempt of Congress charges had been brought against the chairman of a regulatory agency. Staggers said he would discuss with House leaders the question of when to take the committee resolution to the floor. At issue, as the committee saw it, was Congress' right of access to records of agencies it oversees. Staggers said the records had been sought "Just to see if there was anything wrong" in the FCC's handling of the case, involving an AM-FM station WISE at Indianapolis, Ind.

FERRY HADLOCK and REID NEWBY are two of the four candidates running for Shoshone mayor in next Tuesday's municipal election. Mr. Hadlock is manager of the Shoshone First Security Bank while Mr. Newby is warrmaster for the Big Wood Canal Co. The other candidates, Ellwood Werry, retired postmaster, and Incumbent Victor Bozzolo, did not have pictures available. Mayor Bozzolo did not file a nominating petition, but said he will accept a write-in vote since he has been urged to do so by fellow citizens. Running opposed for the three councilman posts are Dr. Paul Jacobsen and Frank Carothers, four-year term, and J. R. Churchman, two-year term.

Abandoned Girl Is Reunited With Parents, Parents Are Then Jailed

BAKERSFIELD, Calif. (UPI) —The parents of a four-year-old girl abandoned beside a freeway were jailed Thursday on charges of cruel and inhuman punishment. Ronald F. Fouquet, 31, a welder, and his wife, Betty, 26, pregnant with her fifth child, were arrested at their home 100 miles away in Bell Gardens Wednesday night after the pretty blonde girl identified them. "That's my mommy and that's my daddy," beamed little

Australian Says He Was 'Chosen' To Start Fire In Mosque In Jerusalem

JERUSALEM (UPI) — Denis Michael Rohan, accused of setting El Aqsa Mosque on fire last August, took the witness stand Thursday and spent over six hours explaining he set the fire to "prove to the world" that God would make him king of Jerusalem. The trial, which resumed after more than two weeks, was adjourned earlier this month as Rohan could undergo intensive psychiatric study. Rohan, 28, a member of the Church of God—Sect, said he believes the ancient Jewish temple of Solomon must be built again on Temple Mount before the second coming of the Messiah. Rohan, an Australian, was arrested Aug. 22 near Tel Aviv, the day after the fire severely damaged Islam's third holiest shrine. The fire had inflamed the entire Moslem world with calls for holy war.

Although Labor finally reversed a year-long string of district election setbacks at the hands of the opposition conservative party, there was an average 10 per cent vote swing to the Conservatives. Divorces were granted to Gene Bowman from Marie Bowman; Larry R. Henslee from Vickie R. Henslee; Mrs. L. L. Towne from James D. Towne; and Roy Caplinger from Geraldine F. Caplinger. A marriage license was issued to Richard L. Curtis and Sue Leavelle, both Gooding.

Air Pioneer In Britain Dies At 75

LONDON (UPI) — Lord Douglas of Kirtleside, aviation pioneer and governor of the British zone in Germany after World War II, died Wednesday night, family spokesmen announced Thursday. He was 75.

Known by his middle name of Douglas to his friends, Lord Douglas served in two world wars, and later became chairman of the British European Airways (BEA). As a socialist in command of a state-owned corporation, he disarmed critics with a remarkable enthusiasm for making money.

Rep. Bill Scherle Is Loaded For Bear

WASHINGTON — There is a lot of political dynamite behind Rep. William Scherle's vigorous crusade for more public hearings on the multi-billion dollar anti-poverty authorization bill.

Not only does he have a large mass of explosive evidence to back up his charges of extensive corruption, waste, mismanagement and other scandals, but a number of state and local officials are clamoring, he asserts, for the opportunity to testify on that.

Single critical witness was heard, nor given a chance to be heard. Even with my small staff, I have uncovered a great deal of shocking information about OEO throughout the country.

Of Rep. Scherle's mass of evidence is an extraordinary letter from Kentucky's Republican Governor Louis B. Nunn pleading with me to delay approval of the anti-poverty bill until documentary evidence of numerous abuses can be submitted.

ument was reported in this column last week. We disclosed that after making repeated efforts to get the manual recalled, the manual, Scherle gave him 24 hours to act or he would take the matter to the full House. That promise is rather unbinding.

Dr. Carver's Gag

The decision by members of the newly appointed atomic investigation task force to go along with the suggestion of Dr. Terrell Carver, the chairman, that members of the press be excluded from committee meetings, is to be viewed with outright skepticism.

Carver might think, writers and broadcasters attending such committee meetings would have been selected by their employers because they knew something about the subject and would understand the discussion.

A few weeks ago the Times-News, in an editorial, urged that the governor appoint an "impartial" group to study the potentially dangerous situation of waste dumping in an area which, in a sense, stores water later emerging as Snake River springs.

Now the citizens — the concerned citizens — are placed in the position of being "fed" whatever Dr. Carver and members of the task force would want to feed them.

Gov. Samuelson apparently agreed with the Times-News editorial because he took the necessary steps to investigate the investigation.

What is disturbing, as we have stated, is the secrecy which Dr. Carver wants to put around the actions, the findings, of the committee.

But at the initial meeting of the task force, Dr. Carver suggested that the press not be allowed to sit in on sessions because of the "sensitive nature" of the topics.

Now the investigation is underway. The investigation was ordered by Governor Samuelson to protect the people of this area from the possibility of a dangerous situation. We are certain that he had in mind that the citizens were to be informed — through the press — as to the day-by-day findings of the committee and would not be required to accept whatever the task force members — and Dr. Carver — felt they should be "let in on."

The confusion would not have come from the press in this situation because, contrary to what Dr.

to get it more bluntly, we are more than disappointed. We are disgusted.

Crack In The Solid Phalanx

WASHINGTON — The first significant crack in the Nixon administration's solid phalanx supporting tight money came at a high level in a meeting in the White House when George A. Shultz, Secretary of Labor, argued eloquently — though unsuccessfully — to expand the money supply.

The second public event, also coming Oct. 17, was the President's announcement that Dr. Burns will replace the retiring Martin as the Fed's chairman Jan. 11 (a move privately and tentatively agreed to by the President and Burns last December).

A former professor at the University of Chicago, Shultz is the leading advocate in Administration circles of monetary theories espoused by Chicago economics professor Milton Friedman. Believing that "Friedman has devoted vast more research to the question than any Administration official, Shultz agrees with him that the tight money policy is now in the overkill stage and should be relaxed immediately.

Additional jolting details about the two-volume 599-page "Training Manual for Community Action" are being released by OEO last August — without Rumsfeld knowing anything about it. (Representative Scherle's crack-down on this extraordinary doc-

If a large part of this minor work was thrown back to the already straining dealers' repair shops, the labor shortage could be compounded, with a corresponding increase in customer discontent.

MR. SPECTATOR

Higher Education For All?

Should everyone go to college? Or, better yet, must everyone go? Education in the crafts and trades has been badly neglected for many years by the national education system. Even Idaho has now recognized this truth and Gov. Samuelson, among others, is leading the way into an era of education for everybody—but not all in the same direction.

They also noted that only 40 per cent of the high school graduates go on to college. If income is the goal of the higher-education crusaders, they may be misled to learn that while it is true on the average a college graduate enjoys a higher lifetime income than the high school grad, there are vocations (among them carpenters, plumbers and electricians) which earn higher pay than white collar executives.

Conspiracy Trial Stalled During Fight With Witness

By TONY FULLER

CHICAGO (UPI)—"The only way you're going to get him is to kill him," Abbie Hoffman told the judge. "Looks like he doesn't lie."

Hoffman made his remarks Thursday in the trial of eight men charged with conspiring to incite riots at the 1968 Democratic National Convention.

For the second day, Black Panther Bobby Seale was gagged and shackled, fought wildly with U.S. marshals and screamed epithets at U.S. District Court Judge Julius J. Hoffman.

The trial was at a standstill for hours while Seale and his co-defendants were carried out and carried in a scuffle with marshals. Seale and his chair were thrown into the process section.

Seale and the other defendants shouted that marshals worked against him in the groin.

Defense attorneys exchanged bitter words with the prosecution and the judge.

The defense did manage to finish cross-examination of police investigator William Frappoly, who infiltrated the Students for a Democratic Society and the National Mobilization Committee to End the War in Vietnam, during the Democratic National Convention. The prosecution called another police witness, Lt. Joseph H. Healy, but little was accomplished in trial proceedings.

Ever since Frappoly began his testimony this week, Seale has been vehemently demanding that he be allowed to cross-examine the witness. Seale contends his attorney, Charles R. Garry of Francisco, is and he is his own attorney. Judge Hoffman has ruled William Kunstler is Seale's attorney. Kunstler denies this. Seale was first chained and gagged Wednesday. As he was carried into the courtroom Thursday, strapped to a wooden chair with a heavy gag over his mouth, a small voice piped from the back of the courtroom, "Hi, Daddy." It was Seale's son Malik, 3.

While defense attorney Leonard Weinglass was cross-examining Frappoly, Seale scribbled a note which was passed to Weinglass, who told the judge Seale's wrists hurt from the metal buckles. Hoffman excused the jury. While the marshals worked with the straps, Seale's left arm came loose and his gaff came off. There was a struggle and his chair fell into the press section.

"Don't hit me in my— "Look what they're doing to me," the other defendants yelled. Jerry Rubin went to Seale's aid but was pushed away.

"You're going to go to jail, you're going to go to jail, you're going to go to jail," Yippie Abbie Hoffman shouted at Judge Hoffman. "Looks like we don't lie."

The marshals plunged into the press section after Seale's chair, sending chairs and reporters flying. Hoffman, who screamed at Hoffman, "you fascist dog. I'm glad I said the things that I've said about you," Kunstler told the judge, "When are we going to stop this medieval torture?...this is a disgrace to the law. I am a disgrace to the law, I am a disgrace to an American lawyer."

Hoffman told Kunstler he had become disruptive behavior by the defendants. "You should be ashamed for the way you've conducted yourself."

CHAMPION BULLS CONSIGNED TO the 30th annual Fall Range Bull Sale of the Idaho Cattlemen's Assn., which opened Friday morning at the Filer fairgrounds, were expected to bring top prices. From left are Orson Zollinger, Malta, exhibiting the third place bulls Ernest Olsen and Steve Olson, Logan, Utah, reserve champion and Steve Rudd, owner of the grand champion and a member of the association board of directors, and his herdsman, LaVoy Bergeson, both St. Anthony. A total of 171 registered Hereford bulls were consigned. Champions were selected Thursday during day long grading of consignments.

Chamber At Burley Elects '70 Officers

BURLEY—Ernest Blauer will serve the Burley Chamber of Commerce as president for the 1970 year and Grant Filler more will serve as first vice president.

Announcement was made at the board of directors meeting at Bryan's Cafe.

The past year Mr. Blauer served as first vice president and Mr. Filler as second vice president. Mrs. Agnes Anderson was maintained as secretary manager of the chamber.

A second vice president will be elected in a special board of directors meeting Monday following the chamber's regular luncheon, reports Ted Kelsey, president.

Jim Roper reported on a bid for the 1970 GOP State Convention in Burley. The state law says the bid must be 12-13 and Burley is seeking to bring the convention here. About 400 rooms will be needed for lodging.

Tim Brennan, director of the Idaho Retailers and Food Dealers Association, will speak Monday during the chamber noon luncheon at Bryan's Cafe.

Mr. Brennan will speak on the Uniform Commercial Code, a proposed legislation that will be presented at the next legislature.

It was announced the Chamber of Idaho Congress will be held Nov. 15 in Boise. Mr. Kelsey was selected as a nominee for a director on the Idaho State Chamber of Commerce to represent Burley.

While defense attorney Leonard Weinglass was cross-examining Frappoly, Seale scribbled a note which was passed to Weinglass, who told the judge Seale's wrists hurt from the metal buckles. Hoffman excused the jury. While the marshals worked with the straps, Seale's left arm came loose and his gaff came off. There was a struggle and his chair fell into the press section.

'Insurance' Newsmen Tour South Vietnamese Prison Camp For Distaff Communist Suspects

RICHLAND, Wash. (UPI)—A group of enterprising high school students are making a tidy sum for a proposed mental health wing at the local hospital by selling Halloween insurance.

Mike McElroy, president of the Key-Club at Columbia High School, said Thursday his group would guarantee cleanup of Halloween mischief such as soaped windows for premiums of \$1 per household and \$2.54 per business, dependent on the number of windows.

par with accommodations for most South Vietnamese soldiers. The camp commander said the prisoners are permitted to listen to the radio or watch television for two hours each evening. There are movies once a week and relatives can visit for 30 minutes each month.

The Communist accusations were raised in Paris earlier this month by the Viet Cong delegation to the peace conference. A former prisoner in one of the South Vietnamese camps said women inmates were raped, tortured and beaten.

Although Hsu admitted there had been "a lot of trouble" at Hsu, referring to the international agreement covering treatment of war prisoners. "We never treat the POWs the way you do," he did not elaborate.

Many of the women, dressed in maroon-colored, two-piece pajama suits had actually gained weight since coming here, according to the camp physician, Tran Vinh Hou.

For many, the food and lodging are probably as good, if not better, than they knew in their native villages. It is on a

Senate Panel Takes Step Toward Cigarette Ad Ban

WASHINGTON (UPI)—Five years after the surgeon general's report condemning cigarette smoking as a menace to public health, the Senate Commerce Committee has taken a tentative first step toward a ban on broadcast cigarette advertising.

If passed by Congress, the measure would knock one of television's biggest advertisers off the air. The industry spent \$217.2 million on television advertising last year, according to the Federal Trade Commission (FTC), and \$21.3 million on radio advertising.

The committee depledged Thursday on another issue—whether to let the FTC require a health warning in printed cigarette ads. Cigarette makers have complained the FTC's proposed warning is so strong they would stop advertising rather than carry it. It reads: "Cigarette smoking is dangerous to health and may cause your health to deteriorate, and may cause heart disease, chronic bronchitis, pulmonary emphysema and other diseases."

Sen. Warren G. Magnuson, D-Wash., committee chairman, said the committee would meet Wednesday to trash out the FTC controversy, confirm its tentative vote to outlaw broadcast cigarette ads, and pick a date to make the blackout effective.

Sen. Frank E. Moss, D-Utah, said he favored imposing it next Sept. 30, in time to keep cigarette commercials off when the new season of television shows begins in September.

Sen. Norris Cotton, R.N.H., suggested Jan. 1, 1971.

New wording for the printed warning on cigarette packages was left undecided until Wednesday. The warning now says: "Caution: cigarette smoking may be hazardous to your health." The House passed a new version, reading: "Warning: The surgeon general has determined that cigarette smoking is dangerous to your health and may cause lung cancer or other diseases."

Moss said he would prefer a simpler message, saying: "Caution: cigarette smoking is dangerous to your health."

The House bill would permit no federal or state restrictions on cigarette advertising except the package warning if the Senate and House deadlock and pass no bill, the FTC would be free to impose its warning in cigarette ads, and the Federal Communications Commission could implement its proposal to take the same action backed by the Senate committee—a blanket ban on broadcast cigarette commercials.

Tryouts For Messiah Set For Sunday

JEROME—Carson Wong, director for the Community Chorale, announces that tryouts for the solo parts of the "Messiah" will be held in the Music Annex building of the Jerome High School at 2 p.m. Sunday.

The "Messiah" will be presented by the Community Chorale on Dec. 7. Mr. Wong urges any interested singers in the Magic Valley to come and sing in this production and would especially like to have more tenors and bass.

Rehearsals are held each Monday at 8 p.m. in the Music Annex building in back of the Jerome High School building.

Indians Conclude Rights Conclave

SPOKANE, Wash. (UPI)—About 100 representatives of 24 Western United States Indian tribes concluded a three-day conference here Thursday on Civil rights and the inheritance and enrollment of Indians in the various tribes.

The conference was arranged by the Bureau of Indian Affairs to seek some definitions on Indians' eligibility for memberships in a tribe.

Paul Weston, Portland, chairman of the conference, and tribal operations officer for the Bureau of Indian Affairs, said civil rights had become a complex problem since it had become related to the Indian territorial enrollment and in heritance procedures.

Some tribes have no blood requirement while others set specific rules for membership, and the picture has become more involved by the movement of Indians from reservations to urban areas, he said.

Mother Held On Drug Rap; Kids Helped

BELL GARDENS, Calif. (UPI)—A 29-year-old mother was held today on a criminal complaint charging she allegedly used her two children, ages 5 and 8, in the selling of dangerous drugs.

Carol Ann Gaffin was charged with possession and sale of dangerous drugs in a complaint signed Thursday by a Municipal Court judge.

Mrs. Gaffin's son, Tommy, 8, and daughter, Dawn, 5, were turned over to juvenile authorities.

A woman informant of the sheriff's department allegedly discovered the children were selling drugs and later called the Gaffin home.

Authorities at the little girl answered the phone. After the woman was asked if there were any drugs for sale, she allegedly responded, "what do you want, reds (candy) or whites (heroin, heroine, or acid (LSD))?"

The informant went to the Gaffin home later and bought \$5 of benzedrine from the boy, deputies said.

Questioned later by deputies, the boy said he and his sister were "just selling these for food. That's what my mommy does."

WASHINGTON (UPI)—High government officials cautioned today against expectations of a rapid pace of integration in the South with the Supreme Court's edict on school desegregation and the Nixon administration's vow to enforce it.

These officials said enforcement of the high court's order for immediate desegregation of 13 Mississippi school districts would begin as the 6th U.S. Circuit Court of Appeals in New Orleans acts on the case, probably next week.

Authorities said that implementation of the court's historic decision in all states which have ever maintained legally segregated schools will be a long process. The Justice Department will have to file a motion for compliance in each of 200 separate school desegregation cases pending.

They also pointed out that another 230 Southern school districts are not currently obeying federal desegregation guidelines. The officials forecast a flurry of private lawsuits from parents and the NAACP Legal Defense Fund to end segregation in these districts.

Even President Nixon, in pledging his administration's leadership and cooperation, warned Thursday the high court's ruling raised "practical and human problems." He called upon "all citizens and institutions in leadership positions to work together in seeking solutions to these problems."

Wintry Weather Felt In Nation

By United Press International

Rain and snow in some areas continued over 23 states today. Chilly temperatures under fair skies dominated in the West and Northwest.

Heavy rain persisted over southern Florida with some areas buffeted by strong winds. Homestead had more than an inch of rain and Fort Lauderdale reported wind gusts up to 45 miles an hour. Warm temperatures added uncomfortably high humidity.

Rain continued from the South Atlantic and Gulf coasts northward through the Mississippi Valley to the Midwest. Some snowfall persisted along the northwestern edge of the rain belt and in parts of Nebraska and Minnesota.

Temperature extremes within the Continental United States Thursday ranged from 10 degrees at Bozeman, Mont., to 88 degrees at Thermal, Calif.

ROBERT L. GAMMRATH
... has been appointed field sales manager - retail for American Oil in Idaho, according to H. G. Woodall, district manager, Twin Falls. He succeeds C. James Puglian who has been transferred to Phoenix, Ariz. Mr. Gammrath and his family will make their home in Twin Falls. He has been with American Oil since 1965 and will supervise sales through service stations in the southern two-thirds of the state. He was assistant to the district manager at Spokane, Wash.

Paintings Are Added To Library

Another 14 framed reproductions of famous paintings have been added to the Twin Falls Public Library's collection of pictures available for free loan to the public.
This brings the number to 38 paintings that may be checked out as a library book, borrowed to enjoy and enhance the homes of local residents for up to 30 days at a time. All of the paintings have been framed by Dudley Studio.
This service and the addition of a number of books of art to the library shelves is provided through a cooperative program with the Idaho State Art Commission.
Library officials say the service is meeting an important need in the community and public response has been excellent. Most of the paintings are kept in continuous circulation.
Artists represented in the recent additions include Goya, Cezanne, Picasso, Winslow Homer, Constable, Rembrandt, Utrillo, Van Gogh, Hopper, DeGees, Koschka, Luciani and Monel.

View Hobbies At Open House

By MARGE LIERMAN
Times-News Correspondent

FILER—Mrs. Ralph Dean's talents reach out in many directions. She is an expert at needlepoint, she refinishes old furniture and collects antiques, she makes and paints ceramics, and she works with contoured and laminated glass, making a variety of lovely things from old bottles and pieces of glass.

Now, after urging from many friends, she has decided to open up a small shop and let other hobbyists look over her collection of beautiful and useful things, many of which will be for sale.

Mrs. Dean and Mrs. Dean are converting the former Pastime Club into an attractive apartment where they are living, and several of the rooms will become the Pastime Ceramic Shop. Open house for the newest of Filer's shops will be from 2 to 3 p.m. Saturday. The public is invited to come in and browse. Refreshments will be served.

Mrs. Dean will keep her new shop open from 10 a.m. to 6 p.m. every day except Monday, and evenings, by special appointment.

She has been making lovely things from old bottles and window glass for over ten years. Her laminated glass plates and dishes are made by laminating or melting two pieces of glass together in desired shapes, often putting a handpainted design or fern leaf between the two pieces of glass.

Draping, by which a straight piece of glass is laid over a mold and heated until the glass flows around the mold in free form style, produces vases, candy dishes and the like in many shapes and colors.

Contouring is the process where a bottle is placed in a mold and heated until it assumes the mold form. Sculpture consists of tying a bottle or piece of glass on a wire or rod in the kiln and letting the heat form or sculpture it into shape.

Glass articles made these various ways include wall plaques, trays, plates for cakes, cookies, fruit, sandwiches or cookies, ash trays, vases, and zodiac plates.

She has her own kiln and a special room for working at ceramics where she makes a large selection of dishes, vases, canister sets, plaques, rock garden fountains, and ornaments such as plaques, small animals and birds, and lamps to hang in bushes and trees in the garden.

Mrs. Dean has some hand-painted china made by her sister, Ms. Everett Archer.

In their apartment, they have many examples of needlepoint which Mrs. Dean has made. A loveseat and several dining room chairs have been covered with needlepoint. Mrs. Dean is now working on making seat covers for a set of old ice cream chairs, which complete with a wrought iron table, are used for dining.

Hobbies

... plenty are displayed by Mrs. Ralph Dean, Filer. The large old cupboard in the top picture was refinished by Mrs. Dean, who calls furniture refinishing only one of her many hobbies. The quilt plex, animals and wood creatures, in the second picture, are part of the ceramic collection which Mrs. Dean will have on display at the Pastime Ceramic Shop when it opens Saturday. An open house will be held from 2 to 3 p.m. Saturday and all visitors are welcome.

USSR Is Child-Oriented

Woman's View
By GAY PAULEY
UPI Women's Editor

MOSCOW (UPI)—Always the thought is of and for the children. The Soviet Union is child-oriented to a degree difficult to understand in the United States where The Pill is a fact of modern life.

It shows in the fact that the USSR honors as "mother heroes" with decoration, any woman who has reared 10 or more children.

It shows in the fact that mothers who have brought up seven, eight or nine children receive the "glory of motherhood" decoration, and mothers who have reared five or six children receive the "medal of motherhood."

Mothers with two children, giving birth to a third, are given a lump-sum grant from the state and those with three children receive a monthly allowance besides the lump-sum grant for every successive child.

Nowhere in this sprawling group of republics does one even hear about a world population explosion, about The Pill, about any method of birth control.

Russia, with its vast territory (8.6 million square miles) needs far more people than its current population of 230 million (a U.S. State Department estimate).

Its propagandist never fails to remind that 20 million Soviet died in World War II "for the right to live, work, dream and venture—the prime obligation of youth will be the struggle for peace among all the peoples of the world."

"ALWAYS REMEMBER: THE FUTURE OF OUR COUNTRY IS IN THE HANDS OF OUR CHILDREN," reads an all-capitalized statement in "Children, Parents, the State" (a publication of Novosti Press Agency's publishing house).

The need for more people shows in the economic facts of life. Soviet economists tell you of total employment, of the shortage of workers in factories and on farms. Consumer goods in some instances still are short, but I noticed improvement in the supplies in food and clothing stores on this trip compared with one at the same time last year when whole sections of a store would be roped off—the shelves empty.

The U.S. State Department puts the problem thusly—The Soviet Union has more than twice the area of the United States, but its gross national product is only that of the U. S.

No wonder, then, that having babies is encouraged.

"Sow a seed—and reap a harvest. Sow a habit—and reap a character. Sow a character—and reap a destiny!" This proverb is quoted to show how the teachers are "faithful assistants" to parents in bringing up the children of the USSR.

FILM SHOWN

FILER—The Peace Lutheran Layman's League sponsored the showing of the film "Pain To a Family Night" for the congregation. A social hour with refreshments followed the film showing.

BRITAIN'S PRINCESS ANNE, 19, brings a touch of femininity to a man's world during a recent visit to a deep sea oil drilling rig 40 miles off the Norfolk Coast. The princess wore a red trouser suit and a swanbuckling "Highwayman" hat for the occasion. Her visit was a notable departure from tradition: superstition has it that women bring bad luck aboard drilling rigs and she was the first woman ever to set foot on this particular installation. Worthy Grand Matron Makes Official Visit

HOLLISTER—Hollister Chapter, No. 47, Order of the Eastern Star, met for a special meeting for the official visit of Mrs. Eula Chilcote, worthy grand matron of the Grand Chapter of Idaho.

A luncheon in her honor was served, with Mrs. Lois Yrjano and Mrs. Florabelle Dunkle as special guests. The luncheon was prepared and served by Mrs. LeRoy Mayo, Mrs. Ruth Kunkel, Mrs. George McGregor and Mrs. Lester McGregor.

A school of instruction was held after the luncheon, with Mrs. Chilcote presiding.

During the evening session, visitors were introduced and welcomed by Mrs. Joe Miller, worthy matron, and George McGregor, worthy patron. Those introduced were Mrs. Chilcote, Kellogg, worthy grand matron; Mrs. Grace Johnson, Twin Falls, past grand matron and member of the charter committee of the General Grand Chapter; Mrs. Paul Moseley, Twin Falls, grand chaplain; Mrs. Yrjano, Kellogg, grand marshal; Mrs. Dunkle, Cataldo, grand Martha; Mrs. Claude Allen, Hagerman, grand representative of New Brunswick; Mrs. Bill Matney, Hollister, grand representative of Indiana, and Mrs. Beth Pendleton, Shoshone, grand representative of North Carolina.

Worthy matrons and worthy patrons introduced were Mr. and Mrs. Clinton Dougherty, Filer; Mrs. Robert Blod, Twin Falls; Wilbur Loucks, Gooding; and Charles Pendleton, Shoshone.

Mrs. Lloyd Nelson, on behalf of the chapter presented a gift to Mrs. Chilcote with an original verse. George Clark sang Mrs. Chilcote's hymn accompanied by Mrs. John Henstock.

Mrs. Chilcote chose for her speech "Full Time" and appointed Mrs. Miller, grand emblem bearer, and George McGregor, member of the tellers committee.

Mrs. George Clark, Mrs. Chris Sims and Mrs. Matney decorated for the luncheon and evening events.

Refreshments were served by Mr. and Mrs. Homer Roberts, Mrs. William McDaniel, Mrs. Lyla Lange and Mrs. Chris Sims.

Women's Section

THERE ARE HOLIDAYS ahead for everyone and members of the Twentieth Century Club will show a preview of newest fashions for this special season during their luncheon meeting at 1 p.m. Tuesday at the Turf Club. Among those to show fashions courtesy of the Mayfair Shop include, from left, Mrs. Gene Sharp, Mrs. Bill Boyd and Mrs. D. A. Jackson. All models will be from the Twentieth Century Club and have assisted in their fashion selections by Nell King and Chuck Koehn. The show will feature a wide array of costumes for every occasion, including shoes and the latest costume jewelry. Mrs. Faren Faler is serving as program chairman and Mrs. Morris Carlson will be the narrator.

Fashion On A Fun Footing

Think fashioning for Fall, time for coming back indoors, and think entertaining with such fun fests as fondue.

It's also the time to think about refurbishing and sprucing-up with colorful and gay accent pieces or even going on to bigger things—such as buying new carpet. Right in step with today's focus on casual living is "In Fashion," a handsome three-level tip sheared polyester—a room really comes alive. Sunny yellows, and golden tones spiced with white accessory pieces are just the right young and fresh look.

It's understated elegance that's always "in"—stressing the simplicity of looseback club chairs and a white Parsons table and an engager for handy serving or showing off the newest trend in collect-a-man. For instance, display Naura's own treasures—fascinating rocks and minerals. They can now be found in boutique and gift shops everywhere. The room is really right for entertaining—with a handy pullout table all set and ready for the first guests to arrive. Furry floor pillows with the warm and comfortable carpet are also ready for four or more.

FASHIONABLE CHEESE FONDUE

- 2 1/2 cups milk, scalded
- 2 cups coarse dry bread crumbs
- 3 cups grated processed American cheese (3/4 lb.)
- 1 teaspoon salt-few drops tabasco
- 1 teaspoon Worcestershire sauce
- 2 tablespoons minced onion
- 1 teaspoon dry mustard
- 4 eggs, separated

Blend oven to 375 degrees. Cool scalded milk. Combine next seven ingredients in large bowl. Add milk, mix well. Beat yolks stiff but not dry; fold in. Turn into greased two quart casserole. Set in pan filled with warm water to one inch from top of casserole. Bake one and one half hours or until golden brown and firm at center. Makes six servings.

Nancy Elwood Reynolds Say Nuptial Vows

Nancy Elwood, daughter of Mr. and Mrs. Rex Elwood, Idaho Falls, was married to Steven Reynolds, son of Mr. and Mrs. Norville Reynolds, Hansen, in the Sept. 27 at the Idaho Falls Reception Center.

Bishop Glenn Nelson officiated at the ceremony. Pink and red were the colors chosen by the bride, with all decorations carrying out the theme. Tall baskets of pink roses and white stock completed the setting.

Given in marriage by her father, the bride wore a gown fashioned of white bridal satin. It featured a braided trim at the neckline, sleeves and hemline of the skirt that formed the edge of the chapel-length train. The train flowed from the empire waistline. She carried a cascade bouquet of red roses and white carnations and a handkerchief that the bridegroom's grandmother carried over 50 years ago.

The bride's gown was made by her mother. The bride wore a pearl drop necklace, a gift from the bridegroom.

Mastron of honor was Mrs. Carolyn Elwood, sister-in-law of the bride. Bridesmaid was Mrs. Linda Hess.

Best man was Scott Reynolds. Pocatello, brother of the bridegroom, with Richard Elwood, Idaho Falls, brother of the bride, and Dale Hoskins, Pocatello, brother-in-law of the bridegroom, serving as ushers.

A reception was held immediately after the ceremony.

Special out-of-town guests included Mr. and Mrs. Joseph Elwood, Hyde Park, Utah; Mr. and Mrs. Robert Monson and Mr. and Mrs. Clayton Kearl, Salt Lake City; Mr. and Mrs. C. Kearl, Tremonton, Utah; Mr. and Mrs. Eugene Hansen, Ogden; Mr. and Mrs. Douglas

Mr. and Mrs. Orlo McEwen, Kimberly, and Mrs. Orville Lawhorn, Eden.

The couple will reside at 720 Yellowstone, Miles City, Mont., where the bridegroom is employed at Tempo Store.

Is Television Violence Bad For Children?

By PATRICIA MCCORMACK

NEW YORK (UPI)—Question: Is violence on television bad for children?

Answer: In large and continuous doses, yes.

The Child Study Association of America, parent counseling for nearly a century, makes that point in its newly revised "Television—How to Use It Wisely with Children."

Jessie Frank, the association's director for children's books and mass media, says a certain amount of violence seems always to have been a part of children's mental diet in books and stories.

Samples: The three pigs do in the big bad wolf; Jack chomps down the beanstalk and sends the giant out of this world.

But such happenings are misused to tempt the barrage of violence that pounds into children's minds from all directions these days—movies, television, even radio and some comics.

It is in that framework that one must look at the question of violence on television, according to Miss Frank.

"The point at which this may be harmful varies with each child," Miss Frank notes. "Some boys and girls can take more than others, and some seem to crave it more."

"Many boys and some girls, too, get the thrill of coming close to danger, while, at the same time, feeling safe and snug at home."

But children may be unable to cope with the vivid open aggression on some programs. They are shaken and frightened about life and death.

Miss Frank cited a need for parents to guard all children against the possibility of getting mixed ideas about life and about people from what they see on television.

"Let's be sure we speak our minds to our children in no doubt about our own attitudes toward the ideas and behavior they see glorified on television," Miss Frank suggested.

Set the children straight by letting them know being a defender of the weak doesn't give one the right to be brutal; there are great heroes who don't tote guns; adults are not always in conflict with one another.

As an antidote to violence, Miss Frank urged parents to help children tune in the first-run, good comedy, honest family programs, worthwhile documentaries and public events.

"They will discover for themselves which values are real and which are phonies," she said.

"And the more experiences a child has with the good and true, both in his daily life and in the arts, the more likely he is to be proof against the shoddy and false."

CPL. AND MRS. RICK N. MCCONNELL

Miss Jones, McConnell Repeat Vows

ROGERSON—Victoria Ann Jones, daughter of Mr. and Mrs. Ruben M. Jones Jr., Rogerson, became the bride of Cpl. Rick N. McConnell, son of Mr. and Mrs. Robert McConnell, Wendell, in rites Oct. 8 at the home of the bridegroom's parents.

The single ring ceremony was performed by Revs-Woodrow D. Harris.

Given in marriage by her father, the bride wore a floor-length gown of white lace over satin, featuring a scalloped lace neckline and long lace sleeves. Her double floor-length net veil was held in place by a diadem of seed pearls. She carried a bouquet of pink carnations accented with pink satin streamers.

Mrs. Chester Hansen, T. W. in Falls, friend of the bride, served as matron of honor, with Donald R. Brown, Jackpot, Nev., as best man.

The three-tiered wedding cake, baked and decorated by the bridegroom's mother, was centered on the bride's table which was covered with lace.

The cake was decorated with white swans and blue roses and topped with a miniature bride and bridegroom. Mrs. Thelma M. Ordaz, Rogerson, arranged the bride's table.

Refreshments were served by

the bride's mother and Mrs. Jackie Brown, Wendell.

Special guests at the ceremony were Ruben M. Jones Sr., Jackpot, grandfather of the bride; the brothers, Ruben M. Jones III, Benjamin, Oris Jones and Robert William Jones, all Rogerson; Darwin McConnell, Wendell, brother of the bridegroom; Mrs. Thelma M. Ordaz, Rogerson; Mrs. Donna Hansen, Twin Falls; Mrs. Jackie Brown and son, Donald R. Brown, Wendell; and Mrs. DuWayne Durbin, Jackpot.

The bridegroom is serving in the Marine Corp., stationed aboard the USS Ticonderoga in Long Beach, Calif. The bride will join him in Long Beach soon.

Demonstration Given On How To Dip Chocolates

DECLO—A chocolate dipping demonstration was given by members of the Thrifty Thrifters Home Extension Club when they met at the home of Mrs. Jay Kidd.

Mrs. Kidd, assisted by Mrs. Earl Darrington, prepared a variety of fement centers and the recipes were distributed to the group. Each of the members practiced dipping the chocolates after the demonstration.

Senior Girl Scout Hosts Counselor

GLENN'S FERRY—As an extended pleasure from her Senior Girl Scout experience to the Canadian Boundary for a canoe trip last July, Patricia Parsberg entertained one of her counselors recently.

Mrs. Dick Fuqua, president, announced the next leader training course at the courthouse will offer a candy dipping demonstration by Mrs. Morris Mitchell and Christmas party tips by a representative of the Idaho Power Co.

It was Cheryl Watkins of Fargo, N. C., first Idaho trip, but she vows it won't be the last. Arriving in Boise by plane, Patty and her parents met the distinguished visitor who spent the next two days with Patty and her dad, Ernest Pasberg, as an observer on a game hunt on the South Fork of the Boise River and on Bennett Mountain.

Mrs. Darrington distributed recipes and information on the lesson, "With Granite to Tempt Your Taste." Painters were given on the proper ways to pass along to the hunters of the house in dressing and preparing the wild game.

Programs outlined for the coming months were December, party; January, clothing demonstrations; February, money management and March, interior decorating.

For the November meeting, Mrs. Dale Kidd and Mrs. Lawrence Thompson will be hostesses at the Kidd home. Each member was asked to contribute Christmas ideas or suggestions which might include gift wrapping, holiday dishes or decorations for the holiday seasons.

Mrs. George Schrenk served as co-hostess and assisted with refreshments.

Dear Abby
By ABIGAIL VAN BUREN

DEAR ABBY: Two years ago I was widowed. My children are married. Last year I married

a well-to-do banker 20 years my senior. Before we were married (against my better judgment) I signed a pre-nuptial agreement stating that I would be entitled to nothing if our marriage didn't work out. He promised to destroy the pre-nuptial agreement after one year if our marriage worked out.

Marian Martin Pattern

9041 SIZES 8-18 by Marianne Martin

The year is up now and we have gotten along beautifully. He keeps telling me how "happy" he is, and how much he loves me, but he wants to keep the pre-nuptial agreement intact. He told me before we were married that he would provide for me in his will, but so far I haven't seen the will either.

Abby, he has never been married before and has no children to leave his estate to. He is a fine person, but I feel so insecure now, as if I were still a widow. I am unable to work and I married this man for security. What should I do?

NO SECURITY

DEAR NO: Too bad you married him for security because you don't have any. If he refuses to produce the "will" showing that he has provided for you, and insists on keeping the pre-nuptial agreement intact, you had better have a showdown with him before investing any more of your time in what appears to be a non-profit venture.

DEAR ABBY: What do you think of a husband who in 10 years of marriage has never once remembered his wife on her birthday, anniversary, or even on Mother's day, although she has given him five children? Yet, he has asked his wife to bake a cake for his secretary's birthday. Sign me

DEAR CURIOS: I think he is a heel who, under the circumstances, is demonstrating great confidence in a neglected wife.

DEAR ABBY: My older sister says that if someone calls her on the telephone and fails to identify himself, it is none of my business to ask politely who is calling her? I disagree with her. What do you think?

BADGERED BROTHER

DEAR BROTHER: Since your sister does not wish to know who is calling her, I see no reason for you to ask. Even

DEAR ABBY: I have heard that a person's character is formed by the age of three, but I find it hard to believe.

At the age of three and a half I was adopted. Before that time I was passed around from neighbor to neighbor with little or no family life.

When my parents brought me home, I had the clothes on my back and a pair of shoes on my feet that were two sizes too small. My worldly possessions were in a shoe box. But that day I became the richest person in the world because I had the love of a mother and father who really wanted me. I am now 26. I am happily married and am a mother myself, but I still celebrate the anniversary of the day I was brought home by my parents. I could not love these wonderful people more if I were of their flesh and blood. They live in Tulsa, Okla. and I live in Imperial Beach, Cal. And yes, Abby, you may use my name.

Marine Given Stiff Term For Singer's Death

DA NANG, Vietnam (UPI)—A 29-year-old Florida Marine sergeant was sentenced to 20 years hard labor in the shooting death of a young Australian singer. A military court Tuesday found Sgt. Wayne C. Killen of Winter Haven, Fla., guilty of the murder of Catherine Ann Warnes, 20, of Sydney, Australia. Miss Warnes was shot July 20 as she performed in a noncommissioned officer club near Da Nang. At the sentencing, the sergeant, who has more than three years service in Vietnam, told the eight-man court that he did not commit the crime. "I am innocent," he said in a choked voice. "I did not do it."

By ROGER E. SPEAR
Q—I thought Performance Systems was a buy at 8 1/2. I bought shares for my son and myself. Please give me your opinion as to whether the stock is above 5.—M.T.
A—Sale of Minnie Pearl Chicken Systems and allied beef franchises was the major contributor to earnings last year. With only 200 outlets of the 1,600 sold—actually in business, operating earnings have been a scarce commodity in a fiercely competitive business. Franchise sales last year were \$9.3 million. Although more than \$8 million of this was in notes receivable, the entire \$9.3 million was reported as income. Attempts at "producing instant earnings" included the reported acquisitions of "Mr. Transmission"—25 per cent owned by PSI board chairman H. Hooker and his brother—on the 64 per cent take-over of Royal Castle Systems. PSI has also come up with two other franchise concepts, Country Dairy and American Child Centers. National General, a mini-conglomerate, has agreed to purchase a one-third interest in Performance Systems. The above-named directors, or their stockholders and PSI's treasury will receive \$10 and \$12 a share, \$2,000 a share in cash. This proceeds to be used for the purchase of the new dairy and child-care franchises, thus producing a 42 1/2 per cent increase. While management is obviously adroit, this is one situation I would rather watch than

Wall Street Chatter

NEW YORK (UPI)—A parallel can be drawn between the rally that marked the end of the 1958 bear market and the current market rally. Shearson, Hammill & Co. says. From Jan. 3, 1957, a "sensational" rally carried the Dow Jones average to a new recovery high in seven trading days and in 12 days the Dow was up 62 points at 847. This year, Oct. 9 marked the beginning of a rally which brought the average to a new recovery high in six trading days, and after 22 weeks lifted it to 853.62. After the 1957 rally, the market fluctuated within a narrow range for about two months, while the volume of interest remained high and a majority of stocks moved up, the firm notes. It seems reasonable to expect a similar period of consolidation in the current market, though the trading range probably will be somewhat larger, the firm adds. Market action this week probably will reflect clues to possible changes in the Vietnam situation. The firm's observations. "While President Nixon's message next Monday may well fall short of some of the hopes that have been expressed, any well-reasoned person to scale down the involvement in the conflict is likely to meet with good response in financial markets," the firm says. Wright Investors' Service believes that President Nixon's appointment of Dr. Arthur Burns as chairman of the Federal Reserve Board is a sign of an imminent easing of tight money policy. Burns' warning of recession ahead was ignored by the board in 1950. The firm notes: "Now he is a politician where his 'power to turn tight money into easy credit will be needed to secure congressional approval of the congressional elections which are now only 12 months away." The analyst adds, "The market, meanwhile, has a distinct 'post-mortem' glassed focus on 12 months ahead" and probably will continue to wear them. "The firm's investment gains in prime common stocks."

A guest speaker and program are planned.

Electricians Seek To Use Pact In Talks

NEW YORK (UPI)—The United Electrical Workers' Union (UE) says it wants to use an agreement it reached earlier this week with the Westinghouse Air Brake Co. (WAB) as the "floor" from which to negotiate in the General Electric Co. strike. The UE negotiator, Robert G. Egan, said the agreement, which ended a two-week contract for wage increases ranging from 8 to 88 cents an hour during the three-year contract, was a landmark in the industry's history of living adjustment, better hospitalization plans and other benefits. The agreement was not announced until Wednesday, a UE spokesman revealed Thursday. A pep assembly and a high haters snake dance also were held and students were treated to hot dogs and sodas prior to the O'Leary Cubs-Stuart Bears game. The high haters was composed of boy students who are not out for football and who donned their craziest hats for the serpentine.

Council Asks Survey Of Health Care

BOISE (UPI) — Idaho's Advisory Council on Hospital Construction called Thursday for a Health Department survey to determine if additional hospital beds are needed in Minidoka and Cassia Counties.

A request for the survey came after the council considered the application of Minidoka County for a certificate of need which prosecutor Larry Duff said was necessary before a 50-bed addition could be constructed to the 34-bed Minidoka County Hospital.

Duff told the council that all the county wants is a certificate from the state health administrator should be asked to issue the certificate if the survey shows there is such a need.

Later today, the council was to review seven applications for hospital and medical construction under Hill-Burton funds.

Sen. Frank Church Urges Idaho Department Of Health To Take Steps Necessary To Protect White Cloud Beauty

WASHINGTON, D.C. (Special) — Sen. Frank Church, D-Idaho, has asked the Idaho State Department of Public Health to take legal steps to halt any occurrence of water pollution in the White Clouds.

Sen. Church cited the report of the Forest Service biologist which told of the successful efforts of the Department of Water Pollution Control in abating pollution from a drilling operation in the White Clouds this summer.

"Your department is to be complimented on acting promptly in this matter, and I would like to urge you to take any legal steps that are necessary to prevent any further recurrence of such incidents," Sen. Church wrote Melvin D. Alsager, chief of the water pollution control section of the department.

The Idaho senator also wrote regional forester Floyd Iverson that the biologist's report more than ever points up the necessity of utilizing every possible precaution to assure that any drilling operations in the White Clouds, present or future, undergo constant surveillance to prevent any repetition of such incidents.

The report, by William S. Platts, zone fishery biologist for the Forest Service, said the drilling operations of the Taylor Mining Co. was polluting Willow Lake and that of the American Smelting and Refining Co. a second.

Forest Service Policy On Timber Bids To Be Discontinued Starting Saturday

The Forest Service moratorium on selling timber without re-advertising when no bids are received is being discontinued as of Saturday.

This has been announced by Martin C. Galbraith, chief of the division of timber management, Ogden.

He said the moratorium was imposed last June when the Forest Service was faced with an unprecedented disparity between the then current market and appraisal prices of timber advertised for sale to the industry. This condition has improved and the order is no longer necessary.

The forest service is returning to the procedure of selling timber, when no bids are received, without further advertisement and under the terms of the original offering.

Timber management officials in the Sawtooth National Forest in Twin Falls, said some 10 million board feet of timber will probably be advertised for sale before the end of the current year.

Bids are being prepared for the sale of some four million board feet in the Sprout Mountain area of the Shafer Creek Ranger District. Also in that district another six million feet will be offered for sale, probably before Dec. 31, in Roberts Gulch area.

Local officials said the timber sale program for the year will be about half completed at that time.

Other plans call for the planting of about 600 acres in the spring. This will be on areas in the Ketchikan, Fairfield and Snake Creek districts and will involve planting ponderosa pines and Douglas fir.

Lewiston Survey Shows High Pay Level But Many Jobless

LEWISTON (UPI) — Even though this area has a high rate of unemployment in the 18-25 age group, it has a high pay scale among those who are working.

An independent survey taken by a Washington State University research team showed the average weekly salary of those questioned was \$153, considered very high on almost any scale. However, the survey showed 42.2 per cent of the men in the 18-25 age group were unemployed as were 63.1 per cent of the women.

The study was sought by the Clearwater Economic Development Association to determine the manpower capacity and provide potential industry with information on the availability of the labor market in the area.

Blue Pencil Awarded To Mrs. Jones

BURLEY — The blue pencil was awarded to Mrs. Delta Jones for the best speech and Mrs. Ray Guiles was table topic winner during the Burley Toastmistress Club meeting Tuesday evening in the conference room of the Idaho Bank and Trust.

Founder's Day is observed by Toastmistress Clubs in October and Mrs. Olin Baker gave a brief address of appreciation for the educational lesson.

Table topic mistress was Mrs. Hatfield who used the topic "A Boy Was Answered."

General theme of the evening was "No Time Like the Present" and Mrs. Norman King was toastmistress of the evening. Speakers were Mrs. Guiles using the title of "Use Your Imagination in the Right Way"; Mrs. Preida Manning spoke on "Time" and Mrs. Jones used the title of "The Quality of Kindness" for her winning speech.

Speech coadjutors were Mrs. Gwen Stoker, Mrs. J. L. Driskell, and Mrs. Walter Povlsen. Timer was Mrs. Lurie McCullison. General evaluation was a round table discussion.

Mrs. John Jones was inducted into the Burley Toastmistress Club by Mrs. LeFay LeVeyton. Mrs. Jones was presented a notebook from the club.

It was announced that Toastmistress Council Six will hold an all-day meeting Nov. 8 at Caldwell, hosted by the Caldwell Toastmistress Club.

Refreshments were served by Mrs. Guiles and Mrs. Driskell.

Some folks used to go two days' ride for a jug of Beam Bourbon.

Jacob Beam was a big, easy-smiling grain farmer who came through the Cumberland Gap in 1788 to homestead the fertile land now called Kentucky. And with the choicest grains from his harvest, Jacob made his own brand of Bourbon. Was it good? Every one agreed it was the lightest, best-tasting Bourbon within a two days' ride. Today, you get that exact same taste with Jim Beam. Because for 175 years, we've made our Bourbon to the very same formula Jacob used. It's the Beam family art. Only one difference now. You don't have to ride a horse two days to get it. "World's finest Bourbon since 1795."

Chiefs' Runners Match Buffalo In Depth, Talent

By WILLIAM VERIGAN—UPI Sports Writer

What the Kansas City billiard carriers claim is they more than make up for in numbers and talent.

The Chiefs invade Buffalo on Sunday and the trio of running threats will get their chance to match O.J. Simpson of the Bills.

Warren McCree, 5-foot-10 and about 190 pounds; the leader of the trio, gaining 141 yards on 17 carries last week in Kansas City's 42-21 victory over his old Cincinnati Bengals teammates. The other Kansas City mites, both 5-foot-9, are Mike Garrett, who had 12 carries for 96 yards, and Robert Holmes with 12 carries for 61 yards.

Add 'em up, and they add up to trouble for the Bills, who have only two victories in seven American Football League games this season. The Chiefs have a 6-1 mark, second best in the West and quarterback Len Dawson may be available to spell Mike Livingston, who threw three TD passes last week in his substitute role.

Oakland, the leader in the West with a 6-0-1 mark, goes against Cincinnati (3-4) on Sunday; Houston (4-3) takes on winless Boston; the New York Jets, first in the East with a 5-2 record, meet the Miami Dolphins (1-5); and the Denver Broncos (4-3) face the Denver Broncos (3-4) in other AFL games.

SMU's Hopes Are Slim With Texas

By ED FITE—UPI Sports Writer

Coach Hayden Fry of Southern Methodist says his chances of beating No. 2-ranked Texas Saturday in the Cotton Bowl in the Southwest Conference's feature football attraction are "slim and none."

"I hope we can take the slim chance," Fry said in looking ahead to what is a "do or die" game for his Mustangs, who were knocked out of a share of the conference lead when upset by Texas Tech a week ago.

Texas and fourth-ranked Arkansas, which hosts Texas A&M at Fayetteville in a regionally televised game, are coasting along atop the standings with their 10 records and heading for their own Dec. 6 showdown. SMU and Texas Tech are the only other clubs with a little chance at 2-1.

"There is no chance but to be up for Texas," Fry said. "We're still in the race and might still win by beating the remaining four games (Texas, Texas A&M, Arkansas and Baylor)."

"We would wind up with a 6-4 record and in the Cotton Bowl, but there is a precedent for that. Texas A&M had the same record in 1967."

Texas and SMU usually play close games, although last year's 35-7 Texas margin didn't fall into that category. Five of their last seven meetings have been decided by seven points or less and it was only in 1966 that the SMU offense broke through in the last moment field goal to go on to the championship.

Texas, however, is a 17-point favorite over SMU in the 400-yard plus SMU offense being generated by passer Chuck Hixon and running back Daryl Doggett. Parker is expected to be the one of whom lead the conference.

Otis Honored By UPI As Back Of Week

COLUMBUS, Ohio (UPI)—Ohio State added a new wrinkle to Jim Ott's repertoire against Illinois.

The 6-foot, 218-pound senior tackle from Celina, Ohio, was turned loose on Sunday and Ott responded with several long gains.

Ott hit inside and outside for 167 yards on 131 carries, and one touchdown as the Buckeyes ripped Illinois, last weeked, 41-0 for their 19th consecutive win.

In his effort Ott Wednesday was named United Press International's Midwest Back of the Week.

"Man I love those sweeps," Ott said. "It just gives an opponent one more defensive problem."

"I really get pegged by linebackers. After the Rose Bowl game, one of the southern California linebackers came up to me and said 'my coach told me even when you're sitting on the bench, you've got to be right on top of you,' the jarring Buckeye fullback recalled.

While Ott called his 167-yard performance "a pretty good game," he's the first to admit that "I'm never satisfied. I never like to see film because I hate to see my mistakes."

Ott is a complete fullback field—a devastating short yardage rusher—can catch passes even though he has been used sparingly as a receiver and his blocking this season has earned a prope hearing without any written notice of charge or specification of charges, without the presentation of evidence against the plaintiffs, without giving the plaintiffs the opportunity to present evidence in their own behalf, and without a hearing on constitutional rights."

The coaching rule prohibiting player participation in protests has been modified, effective at the beginning of 1970 spring training, to allow such participation away from the playing field. But Eaton has said the modification does not affect dismissals this season.

Investment Firm Wants NHL Club

SAN FRANCISCO (UPI)—An investment executive from Minneapolis confirmed Thursday his company was interested in purchasing the Vancouver Canucks of the Western Hockey League.

"We're interested in helping the present owners of the Canuck team in any way we can fit into the picture," said Lynn Walters, vice president of Metric Investment Corp., of the Vancouver Sun, said Wednesday in a copyrighted story the Canucks would definitely go into the National Hockey League in 1970-71.

Under new ownership, San sportswriters Jim Kearney and Hal Sigurdson said Wednesday the team would assume either a majority or outright ownership of the western Canadian team.

Boise Sophs Outlast T.F. In 15-8 Win

Striking for two touchdowns in the first seven minutes of the third quarter, the Boise sophomores outlasted the Twin Falls sophs 15-8 Thursday night to preserve an undefeated season.

Twin Falls scored with 59 seconds left in the first half when Kevin Nelson passed for 12 yards to Steve Covered. Nelson got the two extra points.

After that Twin Falls had several opportunities, set up on four pass interceptions—three by Gene Ward.

Boise got even on a broken play in the third period. In punt formation, the snap from center went to the punter's head. He flopped a short pass to a blocker who got the first down and the young Braves went 50 yards to score on a 10-yard drive plumb by Rick Brown. Mike Siebert tied it on the conversion.

Four plays later Boise blocked a Twin Falls punt and recovered at the 11. Three plays later Siebert bootlegged in from there and John Homan kicked the point.

Twin Falls then tumbled away on a play with an error and a chance at the two-yard line and minutes later were stopped on another fumble at the 28. Arena upheld.

Boxing Group Denies Protest

CLEVELAND (UPI)—The Cleveland Boxing and Wrestling Commission Thursday night handed down a decision denying the protest of Angelo Curley, manager of midweight boxer Don Fullmer, following his split decision loss to Doyle Baird in their ten-round bout Wednesday night.

Chairman David Ott revealed that all officials, particularly two judges and the referee who worked the bout, were interrogated and score cards closely checked.

Ott said since it was a strict judgment decision on the part of each and no errors were found, the protest was denied and Baird's victory at the Twin Falls arena upheld.

Wells Placed On Probation By Judge

OAKLAND, Calif. (UPI)—Star receiver Warren Wells of the Oakland Raiders was placed on three years probation and ordered to pay a \$2,000 fine today for attempted rape.

Superior Court Judge Leonard Dleden gave Wells, 26, a suspended one to 20 year prison sentence.

Wells pleaded guilty three weeks ago. The charge was brought by the wife of an Oakland night club operator. She accused Wells of attempting to rape her in his car April 19. The woman said they had met that evening at a party following a fashion show in which Wells modeled men's clothes.

The judge ordered Wells to abstain from liquor, to stay out of bars or establishments serving drinks, and not to contact the complaining woman or her husband while he was on probation. Dleden also required the football player to undergo a psychiatric treatment thought necessary by probation officers.

Dleden also recommended that Wells return to college to get the three units he needs for a degree. Wells attended Texas Southern University, near his Beaumont, Tex., home.

Farm AND Ranch SECTION

POTATOES ON THE Charles Marshall farm, east of Jerome, are being harvested. Here a two-row digger is digging the potatoes and loading them into a truck, all in one operation. The potatoes will be put into storage until later for processing.

Official Explains Expenses Incurred By Livestockmen In Grazing Public Domain

BOISE — Many Americans, and especially those in the eastern United States, are unaware of the overall expenses incurred by livestockmen in harvesting an extremely important and vital crop produced by government land, grass.

Some uninformed individuals have indicated that stockmen using public lands are receiving a hand-out or are being subsidized by the government when actually the cost of running a cow and calf on public domain is greater than on private property or rented pasture, according to Bob Henderlinder, executive secretary of the Idaho Cattleman's Association.

Without the use of public domain ranges, the production of beef would be very limited.

Mr. Henderlinder said an analysis of the 1966-67 grazing fee study revealed the Forest Service total non-fee public costs exceeded private costs by 50 cents per AUM which means that permittees were paying more than full market value for operations, such as higher interest rates, higher machinery costs, requirements to truck livestock to the range rather than herd them in cattle drives has undoubtedly changed the results of the study to an even greater cost than private pasture costs and with perhaps less actual efficiency as far as reproduction of the livestock is concerned.

Cattle and sheep harvest an important crop produced by the government. Studies and research has proved that planned, conservation improving practices on the ranges are very beneficial to watershed improvements and improved wildlife habitat.

They install water troughs and construct water storage ponds all of which help supply water to wildlife and improve the recreational and watershed potential of the public lands.

All the budgets of the BLM and Forest Service should be charged (as some Easterners say) to livestock grazing. Recreation, watershed, and wildlife habitat are other big beneficiaries and users of this land and improvements.

Cattle Mart To Be Stable, Says Group

DENVER — "The cattle market should be relatively stable the rest of the year, and should show some price improvement before year-end." This was the judgment of the American National Cattleman's Association's (ANCA) Market Development Committee.

Composed of cattle industry leaders from all parts of the country, the committee discussed and analyzed the Oct. 1 quarterly cattle-on-feed report issued by the U. S. Department of Agriculture. The committee recommended that "cattlemen continue to market as many cattle as possible, at the best prices attainable, based on current market conditions."

Cattlemen were also cautioned against feeding cattle longer than absolutely necessary, as this would only delay improved market prices.

The ANCA committee estimated that "commercial cattle slaughter levels should run about three to five per cent over year-ago levels for the fourth quarter to balance supply and demand by late 1969."

Average slaughter weights are above year-ago levels, and the committee reminded feeders that weights are largely dependent upon the orderly movement of fed cattle as soon as they are ready. "The weight increase is due primarily to a higher percentage of total cattle being slaughtered coming out of feedlots.

The committee said pork supplies should be lower and poultry supplies should be up slightly in the last quarter of 1969. This, plus continued fattening of beef by retail stores, is generally favorable factor influencing the overall cattle and beef market outlook.

"If slaughter is about even with year-ago levels, and if cow slaughter about 3.5 per cent above year ago," therefore, the committee anticipated a very small increase in the nation's cow herd.

"Current placement rates in feedlots during the third quarter sustain the prediction that improvement in price levels is due the first half of 1970," the cattle industry leaders stated.

The committee concluded, "Consumers can be assured of a continued adequate supply of high-quality domestic beef at reasonable prices." The cattleman emphasized that retailers have had little trouble in selling the equivalent of 80 cents dressed beef or 31 to 33-cent slaughter steers during 1969. "This has been a major industry accomplishment this year."

Buhl Couple Joins Grange At Richfield

RICHFIELD — Mr. and Mrs. Tom Owens, Buhl, were given the membership obligation at Richfield Grange recently at the home of Mr. and Mrs. Glen Ross.

Ross, who is Grange master, officiated in the special ceremony.

Eugene Alexander reported on the wheat and beef outlook for the coming year. He said wheat prices would probably continue to be low to compete with the world market and consumers could expect better quality beef products.

Mrs. Glen Ross, treasurer, reported on serving lunches at two recent farm sales, and Mrs. H. A. Ross reported sending ten cards, for the courtesy committee.

Mrs. Alexander read fall poems as lecturer and Mrs. Jack Hubbsmith and Mrs. Rupert Goltschen read an article during the program period. Jack Hubbsmith received the attendance draw prize.

The Nov. 9 meeting will feature a no-hostess dinner at 1 p.m. at the home of Mr. and Mrs. Odell Chaffin, Buhl.

California Bans Pesticide Use On Major Crops

SACRAMENTO (UPI) — State Agriculture Director Jerry Fleider has announced a ban on the use of the pesticides DDT and DDD on 45 major crops and animals, effective Jan. 1.

Fleider said the Agriculture Department adopted the regulations after studying public comment on the ban proposal, the past two months.

The action, which cuts in half the farms use of the two killers, was recommended last summer in a study by Dr. J. E. Swift, statewide coordinator of pesticides for the University of California.

Along Fences And Canals

Potatoes have all been dug on Sallor Creek farms near Glenn, with a good crop reported, both in quality and quantity. Hauling beets to the Glenns Ferry beet dump is now in full swing.

Two new milking barns have been built in Richfield at the Morris Swainston residence east side of town, and the Jerry Johnston ranch northwest of Richfield.

Mrs. Mark Jaynes had a diversion last week while swathing hay on their outlying ranch east of Richfield. A full grown coyote unconcernedly kept up his mice hunting while staying within a stone's throw of her. Charlie Jaynes told his mother the coyote would have taken off if she had stopped the haying machine.

A cheese making and grading course of instruction at Utah State in Logan, Utah, was attended by Jay Ward, manager of the Richfield Nelson Ricks Creamery, and Kenneth Sams, foreman of the plant.

Mr. and Mrs. John Davis moved from the Carlos Berriochon farm near Dietrich, to a house owned by Mr. and Mrs. Roy Peck, on the Richfield highway just east of Shoshone. Davis is owner of the D and M service in Shoshone.

Mr. and Mrs. Rodney Ruberry, Karl Anderson and Harold Van Sickle are working at the beet dump in Glenns Ferry. Beets are being hauled in from the Lee Yralt and William Pruitt farms in the King Hill area.

Mack Proctor, northwest Richfield farmer, has set fish-baited traps for raccoons raiding his chicken pen. He hopes to catch the raiders and not attract any skunks.

Mr. and Mrs. George Terry, King Hill, are driving potato trucks in the BrunEAU area. Richard Hill has returned home, after working as a cook for some of the potato truck drivers.

BLM Advisory Board Elects

BURLEY — Three men were elected to the advisory board of the Burley district, Bureau of Land Management. All were incumbents re-elected to their posts.

They include Ennis Pickett, Oakley, precinct 2; John Basterchee, Rupert, precinct 3, and Leavitt Taylor, Arimo.

Other board members include Ray Lincoln, Twin Falls; Edwin D. Crockett, Hansen; Wilford Wrigley, Burley; John Pierce, Malin; and Milton T. Jones, Malad, all of whom are livestock representatives, and Garnet Kild, Kimberly, who is the wildlife representative.

The advisory board advises and counsels the BLM on local matters.

Methods To Conserve Water Shown On Sublett Farm

BURLEY — The Art Schorzman farm, Sublett, was the scene of a Dryland Tillage demonstration sponsored by East Cassia Soil Conservation District. Chairman of the event was Ben Paxton, Malta, a supervisor of the East Cassia Soil Conservation District.

Wayne Cole, Cassia County Extension Agent, served as master of ceremonies. The group of dryland farmers met in the Sublett Community Hall prior to the demonstration in the field. Refreshments were furnished by Idaho Bank and Trust Co.

Dave VanHouten, soil scientist with the Soil Conservation Service; Howard Roylance, agronomist, University of Idaho, and George Welch, Pocatello, dryland specialist with the Soil Conservation Service, each spoke.

In Southern Idaho conserving every bit of moisture that falls either as rain or snow is essential to insure a profitable crop. In the past when land had to be worked with horses a lot of horsepower was used. This result in a lower yield and sometimes a complete crop failure of fields in a lower elevation, the speakers said.

As tractors and large equipment pulled by the motor vehicles replaced the horses, the work could be done in a much shorter time. Also the land could be worked at the proper time, thereby conserving the moisture.

Today through research a new program of saving the moisture has been proven and this new

Alternate

WENDELL — Mr. and Mrs. Ray Ruby have been elected as alternates from the Wendell Grange to attend the state meeting scheduled for Dec. 25 at Twin Falls.

Grange members voted to continue the "Eyes for the Needy" project at the last meeting. Mrs. Bertha Stickle will act as chairman. All interested persons or organizations are asked to contact her for additional information or give old glasses to any Grange member.

Harvey Shirk presented the literary program entitled "Letter From Vietnam."

Federal Food Official Seeks Broadened Application Of School Breakfast Program

WASHINGTON (UPI)—Should all of the nation's children be offered a chance to get breakfast at school every weekday?

The law setting up the Agriculture Department's present small-scale school breakfast program is not designed to cover nationwide use of the program in schools of all income levels.

But Edward J. Heckman, recently-appointed head of the department's Food and Nutrition Service, believes broader application is needed. Although the Nixon administration is not proposing any changes in the school breakfast law, Heckman is talking publicly about the need for future change.

"We must provide a breakfast program, eventually in all schools," Heckman said earlier this week in a speech to school food administrators in Oklahoma.

The breakfast program, launched on a "pilot plan" basis in the 1967-68 school year, is growing fast. Breakfasts were served to an estimated 168,000 children the first year and about 300,000 youngsters last year.

This school year, an estimated 400,000 children — most of them needy — will get school breakfasts to reach the schools.

Present law, however, authorizes federal aid to school breakfast services only for two types of schools — those with a high proportion of needy students, and those where many of the children must travel long distances to reach the schools.

To bring Heckman's idea of a breakfast program in all schools to reality, Congress would have to remove the ban on aid to schools without a high proportion of needy students.

Agriculture Department experts estimate there are 6.6 million school youngsters nationwide enough to qualify for free or reduced-price school lunches. An estimated 3 million of the children get free or cut-rate lunches last school year, and department officials said they hope to reach the remaining 3.6 million this year.

Only about 5 per cent of the 6.6 million needy, however, are expected to be getting free or cut-rate breakfasts this school year.

Club To Meet Farm Income Sets Record In Gem State

GLENN'S FERRY — All girls from 12 to 15 years of age are invited to join Mrs. Ben Ross's 4-H Club which will hold its first meeting Nov. 12 at 855 N. 8th St. E., Mountain Home.

The group will decide on the project it would most like to take. Mrs. Ross likes to paint, but the group may decide on art, home decorating, money management, cooking, health, bread baking or child care.

BOISE (UPI) — Farm income in Idaho set new records in 1968. Lloyd Howe, Department of Commerce and Development, reported Tuesday.

Idaho's total cash receipts from farm marketings moved up one notch to 30th ranking in the nation. This year's gain of \$28 million brought Idaho's 1968 farm sales to a record \$346 million.

Howe said Idaho ranked among the 10 top states with six commodities and that dairy products held 7th place with receipts up to total sales of \$60 million.

Eight million dollars in sales gains were made in each of the two crops — potatoes, which ranked first in the nation with \$96 million, and sugar beets, which ranked second nationally, at \$47 million.

Other 1968 crops which placed Idaho in the top 10 were barley at \$15 million; sheep and lambs at \$21 million and wheat, which retained 10th ranking with \$51 million.

The theme of the conference, "Seeking, Serving and Growing," exemplifies the effort of the conferees to study a variety of financial problems as they affect farmers and ranchers in the Northwest.

Resolution Approved By Area Grange

TUTTLE — The Gooding county Pomona Grange has adopted a resolution calling for legislation whereby non-property owners could be taxed for payment of general obligation bonds.

Master Ira Kistler said the resolution will be presented at the state Grange sessions in Twin Falls in December.

Mrs. Chester Ewing, women's activities chairman, announced contests for the year, distributed yearbooks and announced the Pomona will furnish a hot dish and punch for 4-H Achievement day, Nov. 15, in Gooding.

Mrs. George Fuller, lecturer, announced plans are being made by the subordinate Granges in the county to have exchange programs, with emphasis on gaining new members. The fifth degree will be exemplified by Gooding County Pomona officers in March.

4-H Clubbers Urged To Spur Community Beautification

Thirty counties were represented and over a hundred 4-H Club members, adult leaders and University of Idaho Agricultural Extension Service staff members attended the 1969 Idaho 4-H Community Pride Convention held over the weekend at the Holiday Inn, Twin Falls.

Purpose of the convention was to review 1968 Community Pride Programs and discuss ideas designed to beautify Idaho. City and county officials welcomed the conventioners at the beginning of the sessions and R. D. Dunn of the Standard Oil Company, which sponsored the convention, also spoke.

Howard Tankersley, University of Idaho rural development leader, challenged club members to take the lead in beautifying their communities and offered guidelines in getting projects completed.

Tony Horn, University of Idaho Extension horticulturist, explained ways 4-H clubs could "strive for beauty." Marshall Schroeder reported on the tree-planting program held in the Shoshone Falls Park and also told of the nature trail at the 4-H summer camp.

Kathy McCandless gave a report on the Twin Falls County Builder Club "pride project" and Jack Southwick reported on the Sunnyside Livestock project. Lorrie told of the Stinch and Sire Club work; Teresa Karel of the Lucerne Happy Lassies project; and Rusty Jester of the Twin Valley Saddles Club achievement.

Special guests during the Friday evening banquet were Diana Hopperstad of Twin Falls, Miss Idaho 1969, and Gus Kell, editor of the Twin Falls Times-News.

Worthwhile 4-H Group Donates \$306

KIMBERLY — A four-pound money bag containing \$306.24 representing the result of a two and one-half week contest to raise money for the 4-H camp fund was presented to Ole Gonn, county 4-H club leader, at a meeting at the Pleasant Valley Grange hall.

The evening's event marked the end of the current club season and the beginning of the 1970 program for the Worthwhile Livestock Club led by Mrs. Ola Butler and Ace Clements. A standing ovation was given the leaders of the group.

It was noted that the club has contributed \$317.56 to the 4-H Club county council during the past two years and \$1,732.58 was noted during the last two years at the concession stand during the fair.

The \$306 raised during the past drive for the camp building was obtained in many ways, by inviting neighbors in the Kimberly-Hansen area to donate plus the sale of quonset, food, old batteries, pop bottles, labor for packaging eggs, cream and butter and baby sitting.

Each club member was presented a trophy for his efforts.

Land Banks Chart Parley In Spokane

SPOKANE — A two-day Federal Land Bank conference in Spokane Nov. 6-7 will be attended by representatives from 57 federal land bank associations in Washington, Oregon, Montana and Idaho.

Attending from the Twin Falls Federal Land Bank Association will be Clarence Hollifield, Hansel; Melvin Jagers, and George Atkins, both of Buhl; William Whittington, Eden, and Elmer Dossert, Twin Falls.

The theme of the conference, "Seeking, Serving and Growing," exemplifies the effort of the conferees to study a variety of financial problems as they affect farmers and ranchers in the Northwest.

Range Managers To Meet Soon

IDAHO FALLS — The annual meeting of the Idaho section, American Society of Range Management, will be held Nov. 17-18 at the Stardust Motel in Idaho Falls.

Papers to be presented will be of interest to stockmen, wildlife managers and conservationists as well as range managers.

Farm Sprayer Must Be Clean For Storage

Clean a farm sprayer before putting it away for the winter to save time and trouble in the spring. Is the advice of Donald Yost, Twin Falls County agricultural agent.

Be sure that all chemicals are drained from the tank, pump and hoses. Remove plugs from the end of the boom to flush out chemicals. Fill the tank with clean water, run the pump, and flush through the boom and avoid flushing directly into streams, ponds or drainage ditches. Wear rubber gloves and boots to prevent possible irritation of the skin from residual chemicals.

For thorough flushing, fill the tank again with clean water and add one ounce of household ammonia per gallon. Run the pump to agitate, flush through the boom and finish by flushing again several times with clean water.

For storage, remove nozzles and screens, clean and store either dry or in a jar of light oil to prevent rusting.

Drain the pump thoroughly, and coat the inside with soluble oil to prevent sticking during storage. If the tank can rust, coat it with oil.

Finally, remove and clean all hoses. Roll them carefully to avoid sharp kinks and store inside for the winter.

The Green Thumb

by GEORGE ABRAHAM

FOUR O'CLOCK CARE: The so-called Marvel of Peru or Four O'Clocks (Mirabilis) have large tuberous roots (resembling the dahlia) which should be lifted and stored indoors, if you want to carry them over.

It's not necessary to store the roots for extra plants next summer. You can sow seed outdoors in spring and get flowering plants. However, most gardeners believe you get earlier flowers and better blooms if you save the tubers, rather than start new plants from seed.

Seed catalogs list Four O'Clock seed, rather than tuberous, and you can get them in mixed colors of pink, salmon, red, yellow and white. Plants grow three feet high and thrive in poor soil. They need full sun.

Four O'Clock gets its name from the fact that the blossoms open in the afternoon. Save seed from your plants and store in a glass jar. Plant them outdoors next spring and they'll flourish.

NOTES ON THE PASSION FLOWER: This flowering vine has a great deal of religious significance attached to it. The ten petals represent the apostles at the Crucifixion. The rays of the fringed corona, the crown of thorns, and the anthers represent the wounds, while the stigmas are supposed to be the nails. The five-lobed leaves represent the hands of the persecutors and even the tendrils are supposed to represent the whips and cords.

Culture: Grow in a light, sunny or semi-sunny window with temperature around 72 degrees. Keep soil uniformly moistened and an ideal mixture consists of equal parts sand, peat and loam. You get a better shaped vine if you pinch the tips as they develop. Start new plants from the tip cuttings, rooting in sand or peat or plain tap water. You can start new plants from seeds, also.

GREENS: We're getting lots of letters asking why evergreens are turning yellow or brown, especially on the inside.

My answer: It's nothing to worry about. This time of year arborvitae and others turn brown or yellowish and drop their foliage. It's normal for them to do this. They shed their inside foliage while the outside remains green.

That's what makes these plants an "evergreen," as compared to a non-evergreen such as a maple, which loses all its leaves at once.

QUESTION OF THE WEEK: H. J. of Twin Falls, "All our evergreens have scales on them. Please tell us how to get rid of this as some of the needles are dropping."

I'll discuss three "white" insect pests which trouble evergreens. First, there's a pine-needle scale, an elongated insect 1-10 inch long, and when in large numbers, it produces a snow-like effect on needles. There are many scales and all are quite similar. They all have a coat of wax on them and overwinter in the egg stage under female chinks of armor. Eggs hatch in May.

Control: Spray with lime-sulfur during the dormant period (in early spring) or wait until late May or early June and spray with malathion to kill the young "crawlers," as they are highly vulnerable then. Spraying the white scales any other time is almost useless since the scale's coat is almost impossible to penetrate.

Another troublesome pest is the mealybug, especially found on Japanese Yew (taxus). It is covered with a mass of woolly white fluff and when crushed its body exudes a reddish juice. Control: Take a clean washcloth or nap or cloth and wash the cottony mass up and down the stems. This breaks up the waxy coating and exposes the bodies. Then spray with malathion, one tablespoon to a gallon of water.

Thistle, Dodder Claim Prize As National Weed Champions

By ROBERT HIGGINS
Extension Agronomist
University of Idaho

As national champions for being pests in the most places, Canada thistle and dodder shared the prize. A report on weeds in America shows they grow in 49 states, including many parts of Idaho. Quackgrass infests 48 states, field bindweed or morning glory occurs in 47, buckhorn plantain grows in 33, Russian knapweed in 32, and perennial sow thistle in 29.

All these and many others are nominated as outlaws in state laws. Twenty-one states, including Idaho, have weed-control rules and regulations. Ten are in the West, 10 in the North Central district, and one in the South. The weed rosters range from two to 107.

Idaho law specifies primary and secondary noxious weeds and requires control. Strict regulations are necessary because weed seeds can get into crop seeds and are difficult to separate. Primary noxious weeds in Idaho are quackgrass, Bermuda grass, Johnson grass (not found here yet), white top, hairy furd.

WHEAT STOCKS DROP

Total wheat storage in Idaho on October 1 were 12 per cent less than a year ago, according to the Idaho Crop and Livestock Reporting Service. Stocks in all locations totaled 34.7 million bushels, including 16.7 million in off-farm locations. On Oct. 1, 1968, 19.7 million bushels were reported in off-farm storage.

Best way to beat cheatgrass,

mustard and shepherdspurse in your alfalfa

is with a spray, this fall, of Princep® brand of simazine herbicide.

With Princep, you can turn a field of weedy alfalfa into a clean stand again. You get more TDN value from your hay. Reduce off-flavor problems in milk and give that stand a longer, more vigorous life span.

You can spray Princep anytime after the first killing frost. Winter moisture carries Princep down into the soil to pick off weeds as they germinate... right through next spring and summer.

Not only does Princep get cheatgrass (June grass), mustard, and shepherdspurse, it gets most other annual broadleaf and grassy weeds as well. Weeds that can infest, take over and eventually ruin a good alfalfa stand.

Your return on the investment in one spray of Princep is clear cut. Better quality hay which will help you get, more pounds of milk if you're a dairyman... a higher daily rate gain if you're raising cattle... cleaner, higher quality hay if you're selling the crop.

So make this the year you turn your weedy alfalfa into pure alfalfa again... with Princep.

RISKY FINESSE ONLY ANSWER

You can enter dummy with the 10 of trumps, take the spade finesse, run off the rest of your trumps, and hope for your discarding by your opponents to lead to an end play. Or maybe East holds just one little spade beside the king, in which case that king will drop for you.

You wish you could get to dummy twice and you see a way. It risks a two-trick set but you are willing to gamble an extra-trick penalty against game and rubber. You ruff the diamond with a high trump, lead a low heart and finesse queen of diamonds and continues the suit. You are going to ruff that second diamond but, before doing so, you should plan your play.

Let's go about it together. You are sure of nine tricks and the odds are greatly in favor of the spade king being held by East.

You have played the hand well and have been properly rewarded.

AT THE FIRST SHOT YOU BACHELORS RUNS—AT STARTS!!

WHOMSOEVER SUEZITCHES GOTTA MARRY HER—AN NO BACK TALK!!

Thousands of Sadie Hawkins Day Races are now run by colleges, country clubs, and just gangs of desperate girls

The original Sadie Hawkins was the daughter of the original Mayor of Dogpatch. No one offered to marry her—

Rex Morgan, M.D.

AT THIS TIME I CAN'T GIVE YOU A DEFINITIVE ANSWER, MR. WALLACE—BUT I SUSPECT THAT PART OF YOUR PROBLEM MAY BE EMOTIONAL / HAVE YOU BEEN UNDER ANY UNUSUAL TENSION?

WHEN THIS ATTACK OCCURRED I UNDERSTAND YOU WERE HAVING A BUSINESS DISCUSSION WITH MR. KODDELL / IS THAT RIGHT?

WAS IT JUST A NORMAL DISCUSSION—OR DID YOU FEEL UNDER TENSION?

DOCTOR I WISH YOU'D FIND OUT WHAT'S WRONG WITH ME AND STOP ASKING A MILLION QUESTIONS!

Incumbent Councilmen At Burley Seeks Second Term

BURLEY — James Henson, incumbent, is seeking a second term as councilman in the Burley city election Tuesday in which three councilmen and a mayor will be elected.

Mr. Henson is the owner of Henson Real Estate 1761 Overland Ave. Prior to going into the real estate business he was in the grocery business for 30 years in Burley and Rupert.

"My platform in seeking reelection to the council is to put more efforts where they will do the most good for the most people," Mr. Henson stated. "I feel that, with my past experience, I can make your and my tax dollars work for the benefit of us all, and to improve the economy as well as the growth of our city," he added.

He has been a member of the Lions Club for 23 years and served one term as director of the Rupert Lions Club of which he is a charter member and two terms as director of the Burley Lions Club, and has served as president of the Burley-Rupert Real Estate Board and past president of the Burley Chamber of Commerce.

He is a member of the Burley Kiwanis Club, a past president of the Rupert Chamber of Commerce and a active member of the LDS Church.

Nixon Vows Help To Cure School Woes

WASHINGTON (UPI)—President Nixon pledges his administration's leadership Thursday in solving the "practical and human problems" raised by the Supreme Court's order for an immediate end to segregation of public schools.

In a statement issued by the White House after the meeting with Attorney General John N. Mitchell, the President made no judgment of the court ruling against the Justice Department's move for delay in desegregation of 30 Mississippi school districts.

"There are of course practical and human problems involved. With all of us working together in full respect of the law, I am confident we can overcome these problems," Nixon said.

"I intend to use the leadership resources of the executive branch of government to assist in every possible way in doing so, call upon all citizens and particularly those in leadership positions to work together in seeking solution for these problems in accordance with the mandate of the court," Mitchell conferred with Nixon after he had discussed the decision with Assistant Attorney General Jerris Leonard, chief of the department's civil rights division who has the government's case for delay before the court.

A similar meeting was held at the department of Health, Education and Welfare.

Nixon's statement indicated the administration viewed the decision as applying to all public school systems in the nation. "But nobody knows," an official said.

Government lawyers were reported pondering whether the ruling might be applied only to the Mississippi school districts involved in the court case, the entire state of Mississippi or all Southern states which have ever operated segregated schools as official policy.

No matter how the ruling ultimately is interpreted, it is bound to set a precedent for future rulings in similar cases over the nation.

It was uncertain just what effect the court's ruling would have on new government procedures that emphasized court action rather than the federal fund cut offs to force schools to integrate.

In New Orleans, the clerk of the 5th U.S. Circuit Court of Appeals said it would be a matter of days before the proposed three-judge panel which applied the government request for delay could issue the new order. The Supreme Court announced the immediate abolition of the dual school system in Mississippi.

The appeals court earlier had granted the government a three-month delay—until Dec. 1—for submission of desegregation guidelines for the Mississippi districts. But the high court said the abolition of every school district is to terminate dual school systems at once and to operate now and hereafter only unitary schools.

Court Grants Kennedy Plea For Closed Kopechne Case

BOSTON (UPI)—The Massachusetts Supreme Court Thursday granted Sen. Edward M. Kennedy's request for a closed-door inquest into the death of Mary Jo Kopechne.

In its 17-page decision, the full bench of the high court ruled that not only the Kopechne inquest but all future inquests in Massachusetts should be closed to the public and news media.

The court in effect overruled Edgartown District Judge James A. Boyle who had ruled that the inquest into the death of the 28-year-old secretary killed in mid-July when a car driven by Kennedy hurtled off a bridge on Chappaquiddick Island into a tidal pond.

The court, in addition to ordering a closed-door inquest, laid down these ground rules for inquest proceedings:

"Witnesses may be accompanied and advised by counsel while in attendance or testifying."

Following the inquest, all documents pertaining to it shall be impounded. Access to the documents shall be afforded only to the attorney general, appropriate district attorneys and counsel for persons involved in the case.

The high court rejected the motion by lawyers for Kennedy and other potential inquest witnesses that Judge Boyle be disqualified from presiding at the inquest.

The lawyers had asked he be disqualified on grounds his presence could lead to bias and prejudice in the case.

Although the court did not set a date for the Kopechne inquest, the court said its rulings "should not hinder or delay the pending inquest."

In setting down the ground rules, the court said, "We shall not make any special rules for a particular case." However, the court said the Kopechne inquest "presents unusual problems."

"It has aroused great public interest, which in turn has stimulated great efforts by the press, radio, television and other media to provide news coverage."

Heyburn Meet

HEYBURN — The Heyburn RTA will have its monthly meeting at 8 p.m. Tuesday. All future meetings will be on Tuesday instead of Thursday, the former meeting day.

A panel discussion on child molesting will be held, with Ray Jarvis, Minidoka County deputy sheriff, as a member of the panel.

A musical number will be presented by first graders.

J. L. Driskell Asks Return To City Councilman Post

J. L. DRISKELL

AMMUNITION STOLEN

DEULO, Idaho (UPI) — A thief stole at least \$500 worth of rifle and shotgun ammunition in addition to knives, watches, gloves and coins from Lynch's general store Wednesday night.

Presently he is the oldest council member in terms of service and is serving as chairman of the Finance and Electrical departments. He presides at the council meeting in the absence of the mayor.

"For the past 41 years I have watched Burley grow and want to continue to see it grow and progress," Mr. Driskell stated. He came to Idaho in 1913 and to Burley in 1928 as foreman and engineer for Jerome Co-Op Creamery and he has resided in Burley since.

An engineer since 1925, he is a graduate of University of Idaho, and operates the J. L. Driskell Refrigeration Service.

Mr. Driskell has been a member of the Burley Lodge A.P. and AM for 38 years, was master of the lodge in 1943 and has served as secretary for the past 10 years; a member of the Grand Council of the International Order of Jobs Daughters, since 1939; and is a member of the Refrigeration Service Engineers Society since 1936.

He has served as a member of the International Board of Directors of the Refrigeration Service Engineers Society and served as president of the Magic Valley Chapter.

A member of the Burley Chamber of Commerce for many years, Mr. Driskell and his wife Emily have two married daughters and five grandchildren. The couple reside at 1425 Almo Ave.

Jackpot-Twice

RENO, Nev. (UPI) — The Mageson Hotel-Casino said Thursday it had paid the biggest slot machine jackpot in history.

A spokesman said it paid \$2,216.70 to a man, identified only as "a Californian," who hit the jackpot on a machine which accepts from \$1 to \$5 per play. The \$5 risk gives the player a chance at a jackpot which increases with the volume of play.

The Mageson said it was the largest single payoff for a three-foot slot machine in history. In addition, the winner got 92,167 trading stamps, enough to fill 73 1/2 books.

Notice is hereby given that the Idaho Fish and Game Department will accept bids for limited grazing on the Billingsley Creek segment of the Hogman Wildlife Management Area. The grazing of 75 head of cattle, regardless of size, will be permitted for the period January 19, 1970 through February 29, 1970.

Bids must be made on bid forms and submitted in bid envelopes furnished by the Department. They will be accepted at the Boise office of the Idaho Fish and Game Department until 2:00 P.M. on December 10, 1969. Forms and envelopes are available from the Idaho Fish and Game Department, 608 South Walnut Street, Boise, Idaho; Mr. Guy Harris, Star Route 8, Box 181, Brunson, Idaho; or Mr. Bud Ainsworth, State Fish Hatchery, Hogman, Idaho.

Rights Of Consumers Protected

WASHINGTON (UPI)—President Nixon asked Congress Thursday for a "buyer's bill of rights" which for the first time would permit consumers to sue in federal court for damages resulting from fraudulent or deceptive trade practices.

The suits, brought individually or by groups of consumers sharing the cost of litigation, would be based on a proposed broad new federal law banning frauds and deceptions already condemned by the Federal Trade Commission.

The FTC's mandate would be expanded, and the President proposed creation of a new Justice Department division under an assistant attorney general for consumer protection to enforce the law, in the same way a separate division enforces antitrust statutes.

In a special message to Congress, Nixon said individual "class suits" by consumers for damages could be filed only after the government itself has successfully sued to halt a violation of the law.

The President said this provision was "intended to prevent harassment of legitimate businessmen by unlimited nuisance lawsuits."

Consumers have no present right to sue in federal court to recover the cost of a faulty refrigerator, for example, and state laws against fraud or deception often are inadequate or nonexistent.

Nixon said his proposed legislation, to be submitted later, is intended particularly to provide quick federal protection for low-income families who are frequently victimized by unfair trade practices.

Reds Reject Lodge Plea On Conclave

PARIS (UPI)—The United States tried unsuccessfully Thursday to break the Vietnam peace conference deadlock by proposing the negotiations be switched to smaller, secret meetings.

The Communists rejected the American move.

U.S. chief negotiator Henry Cabot Lodge proposed that the first such secret session be held next Tuesday morning after President Nixon delivers his much-heralded speech on Vietnam.

But a disappointed Lodge told newsmen after Thursday's formal conference session that the Communist negotiators "rejected it out of hand—I'm sorry to say."

The Viet Cong's "foreign minister," Min Nguyen Thi Binh, confided to newsmen after the Paris meeting: "We rejected the American offer."

Both Hanoi and Viet Cong delegations countered Lodge's proposal with their own call for direct negotiations between Washington and the Viet Cong.

Mme. Binh said Lodge "would not have our proposal."

Lodge had proposed that the number of negotiators from each of the four delegations—U.S., South Vietnamese, North Vietnamese and Viet Cong—be reduced from 13 to four each, and that the texts of their proposals in the behind-the-scenes talks be kept secret.

The U.S. delegation chief said he made the proposal "because I felt so strongly that we needed a new approach to break out of the present sterile situation and promote serious negotiations."

Lodge complained that the present conference procedure had allowed the conference to degenerate into a "propaganda

To remedy this he proposed that "there would be no public release of the text of what said at such meetings, but we could agree on exactly what would be said in the press."

Almo newsmen have been banned from the conference hall ever since the four-sided conference began early this year.

Religion Today

By Rev. Lester Kinsolving

Anyone under the impression that Fundamentalism Christianly lost its political muscle after the Scopes Trial in 1924 should read the report "Within the California State Board of Education."

Last May, the board received and voted to accept a 61-page report, which included "morality guidelines" for California's public schools.

Written by an aide to the arch-conservative Superintendent of Public Instruction Dr. Max Rafferty, the "morality guidelines" consisted of "Back to the Bible" approach as well as attacks on the U. S. Supreme Court, the United Nations, mental health programs and sex education in the schools.

When the acceptance of this report became public information, the resultant furor, including a letter from the board ordered a rewriting of the report by a committee.

Selected to appoint this committee was the Rev. Donn Moomaw, a member of the Board and pastor of Southern California's First Presbyterian Church, of which Gov. Ronald Reagan is a member.

The Rev. Mr. Moomaw is a highly respected and strike terror into the hearts of foolish opponents of UCLA, for whom he functioned as an All-American track coach. He is formerly associated with the Billy Graham preaching team, and was elected to the board of trustees for having used public high school assemblies to try to convert students to Christ.

The governing pastor created an uproar by appointing eight white Protestants to his nine-man committee. He then proceeded to hold closed meetings, despite the Brown Act which forbids closed meetings of public bodies. Finally, he appointed Dr. David Hubbard to redraft the "morality guidelines," a project still under way. Dr. Hubbard is President of Parents' strongly conservative Fuller Theological Seminary, which was founded by the Rev. Charles E. Fuller, also founder of Long Beach's "Old Fashioned Revival Hour," (oh which Dr. Hubbard is currently the featured speaker).

In addition to this morality flap, the State Board has become embroiled in the controversy over teaching evolution in the public schools. It just recently refused to endorse a 200-page study by an aster committee which recommended a framework from which local schools can build a science curriculum.

Two board members, both physicians, protested that this proposal failed to include the story of Adam and Eve as the probable vehicle of the beginning of human life. Dr. John Ford of San Diego, recorded by Dr. Thomas Harwood of Needles, argued that since the Bible is an inspired book, proven wrong, I think we would be remiss if we didn't include it.

The Adam and Eve issue is tentatively scheduled to be decided in November. And the board should have an interesting time trying to prepare a curriculum which will provide effective explanation for today's young generation to the story of Adam and Eve story. For instance,

Genesis 2:17 - "But of the tree of the knowledge of good and evil, thou shalt not eat of it: for in the day that thou eatest thereof, thou shalt surely die." (How, if Adam and Eve

did not know the difference between right and wrong, could they be expected to obey this voice rather than that of the serpent, who told them they would not die - which proved to be true? Can God be wrong?)

Genesis 3:7 - "and the eyes of them both were opened, and they knew that they were naked." (Prior to this were they blind - or merely half-witted? And isn't this getting dangerously close to sex education in the schools?)

Genesis 3:8 - "And they heard the voice of the Lord God walking in the cool of the day; and Adam and his wife hid themselves among the trees. And the Lord God called unto Adam and said unto him: 'Where art thou?'" (God is believed by most denominations to be omniscient. Didn't God know where they were?)

Genesis 3:16 - "And the Lord God said unto the serpent, 'Because thou hast done this, thou art cursed above all cattle . . . Upon thy belly shalt thou go, and dust shalt thou eat.'" (Prior to this, was the serpent balancing on the tip of its tail - or crawling?)

Genesis 3:22 - "And the Lord God said 'Behold the man is become as one of us, to know good and evil: yet not he put forth his hand and take the fruit of the tree of life and eat and live forever'; therefore the Lord God sent him forth from the Garden of Eden." (Why was this God - among the other gods ancient and modern - so afraid of man?)

Stories similar to Adam and Eve are found in the literature

BROTHER ROBERT

... a friar of the Society of St. Francis, a Franciscan order in the Anglican church will be guest at a retreat and conference Nov. 3-5 at the Church of the Ascension in Twin Falls. Fourteen prelates from Oregon, Idaho, Nevada and Utah will attend. In 1967 Brother Robert was transferred to the American provinces of the society where his principal work is that of novice director at Little Boyton Friary, Mount Sinai, Long Island, N. Y.

of every ancient culture, such as the Greek myth of Prometheus. The Rev. Mr. Moomaw's fellow Presbyterian, the Rev. Dr. Carroll L. Shuster, Executive of the Synod of Southern California, has stated that "it is not necessary to include Adam and Eve in a scientific curriculum."

San Francisco, Grace Cathedral's Dean C. Julian Bartlett denounced the State Board of Education's action as "appalling," "preposterous," and "a clear violation of the Constitutional prohibition respecting establishment of religion."

Lecture Series Is Set In Memory Of Wayne Hankins

The Episcopal Church of the Ascension has announced a series of lectures and discussions on the subject of "Changes in Our World." In memory of Wayne Hankins, Mr. Hankins was a state liquor inspector at the time of his death and he also served as a Twin Falls deputy sheriff and was at one time president of the Idaho Peace Officers Association.

The first session of the series will be held Nov. 12 with Fr. Simoon of the Benedictine Priory and Student Center as leader. Topic for the evening will be "Reflections on Changes in the Family."

Nov. 19 the topic will be "Changes in Family Settings" with Rev. Glen Waltman, Buhl United Methodist Church, as leader.

"Changes in Roles and Controls will be the subject the evening of Dec. 3 when Roger Adams, vocations and professional counselor and faculty member at CSI, will be the convener.

On Dec. 10, Dr. and Mrs. E. M. Wright will lead the session on "Changes in Values and Goals" with various youth from the Twin Falls area participating with them.

The final session in the series will be on Dec. 17 when Rev.

SANCTUARIES Sought

WASHINGTON (UPI)—California's two senators, Democrat Alan Cranston and Republican George Murphy, have joined in introducing a bill which would establish a national sanctuary area along the California coast.

Bazaars, Dinners Included In November Society Plans

SHOSHONE - The month of November will feature the week-long series of bazaars, dinners and other types of fund-raising events for many wards.

Often the women work for the major part of the money prior to the fund-raising events, on various type handwork items, and have not only a sale of these things, but a "show" of their art and accomplishment.

For the Spiritual Living lesson, the first week of the month a study will be made on the topic, "Events Associated with the Second Coming of Christ" with an objective to encourage all women to so live as to prepare for this event.

The Visiting Teachers message this month will be on the topic of "Example," with illustration that "one's example can impede or help others."

The Home-making lesson topic is "Development through Home-making Education, Women's Role in Family Preparedness." Shopping skills are urged as well as possible development along with general money management.

Social Relations lesson is entitled "Honesty—Road to Freedom," which asks and answers such questions as "restraints—when?" according to knowledge and surroundings and application.

Council Of Churches Sets Meeting

The Magic Valley Council of Churches will hold its fall meeting at 7:30 p.m. Sunday at the First Presbyterian Church in Twin Falls.

The official boards of participating churches in Magic Valley will discuss Stephen Rose's book, "The Grass Roots Church" which is based on new ideas in ecumenicity.

The program for the evening will be a "first of its kind" according to Rev. John Riley, president of the council. Rev. Robert Harvey will direct the program, as the host pastor.

LDS Diocese President Leads 3,500 Members In T. F. Area

As Twin Falls diocese president, Lloyd A. Hamilton directs the activities of nearly 3,500 members of the Church of Jesus Christ of Latter-day Saints, commonly known as the Mormon Church. These members are divided into six wards, located at Murtaugh, Kimberly, and areas in the eastern portion of Twin Falls.

Mr. Hamilton, while a "native" of Sugar City, Idaho, actually was born in the South while his parents were serving on a mission for his church. He attended schools at Sugar City, lettering in basketball and football. He was also active in dramatics and played a trumpet in the school band.

Upon his return he became associated with his father in the

ranching business until 1945, when he purchased a farm of his own and actively farmed it for two years. He became interested in the insurance business during this period in Madison County, and two years at Preston, and finally moving to Twin Falls to organize his own business in 1952.

He served as counselor in the stake presidency in Twin Falls for three years before being sustained as president of the Twin Falls Stake in 1963.

Although serving as spiritual leader for 3,500 people is less complicated than for the 7,000 people in the stake before the recent division, his church responsibilities and business activities requires most of his attention. He still has time for his family, holding a "family evening" as often as once a week. He also calls on four or five families who are assigned him and a companion as "home teachers". These visits are made at least once a month.

He has also become an ardent skier during the past two years and is an active member of the Snake River Boy Scout Council.

Although he believes that community activities are important, he says that participation should be allotted to family duties and church work first.

Mrs. Hamilton, besides sharing in many church activities with her husband, is an accomplished musician. Before her marriage, she was a student at the University of Utah where she won the Federated Music Club contest and represented seven of the western states in the national contest in Baltimore, Md. She is also a former member of the famed Mormon Tabernacle Choir. She plays the piano and organ.

The family home is located at 203 Ninth Ave. East. Mr. and Mrs. Hamilton are the parents of seven children—Melanie, Leah and Cassie reside with their parents; David, recently married to Bonnie Miller, is serving in the Air Force, Barry is attending BYU at Provo, and two daughters are married—Jean and Sylvia Lynne.

Missionary Service In India Told

SHOSHONE—The varied calls on missionaries in India was exemplified by a program at the Methodist Women's Society of Christian Service Wednesday at the church.

Mrs. David Callen and Mrs. Ivan Mink, Jerome WSCS, presented the program, assisted by local members, Mrs. Wallace Fixsen, Penny Fixsen, Mrs. Gilbert Pierson and Mrs. Hugh Keith.

Problems of the poor, health work needed, education and scholarships for youth were noted in the outline.

Mrs. Orville Bean is the Jerome women's group president, and was also introduced.

Officers Training Day was announced for Nov. 4 at Rupert. The devotional service was given by Mrs. Hershel Korner. Hostesses were Mrs. Kerner and Mrs. Alta Eggersdorf.

Service Changes Are Announced

Services at Calvary Episcopal Church, Jerome, and Holy Trinity Episcopal Church, Buhl, will be changed starting this Sunday, according to Rev. John Wallace.

The hour for Calvary, Jerome will be 11 a.m., and the hour for Holy Trinity, Buhl, will be 9 a.m.

At both churches the service on the first and third Sundays will remain Holy Communion, and the other Sundays, morning prayer.

Today With All Faiths Presents CHURCH OF THE WEEK

THIS IS THE FIRST and Third Ward Chapel of the LDS Church at 168 Fourth Ave. E. Built with tall colonial columns, the church is the scene of numerous LDS activities throughout the week. This is just one of several LDS churches throughout Twin Falls.

Sale Planned

GLENN'S FERRY—Mrs. Bill Strum and Mrs. L. C. King were appointed as co-chairmen of the cooked food sale by Mrs. Tom Hartung, president when the Our Lady of Limerick Altar Society met with Mrs. Strum.

The sale of delicacies will be held in the Idaho Power Co. office on Nov. 14. Co-hostesses who were present were Mrs. Dan Sullivan and Mrs. Ray Whit.

Farm Receipts Rise Slightly

BOISE (UPI)—Idaho's total cash receipts from farm marketing moved up one notch to 30th ranking position in the na-

tion setting new records in 1968. This year's gain of \$28 million brought Idaho 1968 farm sales to a record \$546 million, according to Lloyd Howe, Idaho

Department of Commerce and Development.

Howe said Idaho ranked among the 10 top states with six commodities and that dairy products held 17th place with receipts up to total sales of \$90 million.

T. F. Stake Conference Scheduled

The Twin Falls LDS Stake will hold its first quarterly conference since the stake division in August.

The first session will be at 7 p.m. Saturday at the Stake Tabernacle on Maurice Street North. Priesthood and auxiliary officers are asked to be in attendance. A general session, open to the public, will be held at 10 a.m. Sunday. Music will be furnished by the Seventh Ward Youth Choir under the direction of Majorie Coleman, Junior Sunday School will be held during the session.

President Lloyd Hamilton and Counselors Rex Hall and E. J. Morgan will preside at both sessions.

Program Sets Practical Look At Death

A series of presentations and discussions on "The Christian Looks at Death" will begin at 7:30 p.m. Sunday at the First Baptist Church.

Five informal programs will feature speakers from various professions, followed by questions and discussions each evening. The series is planned to help persons and families deal with legal, financial, psychological, spiritual and other practical matters related to death and grief.

William Boyd, mortician, will be the Sunday night speaker; Dr. James Spafford, physician, Nov. 16; Dr. Robert Harvey, Clergyman, Nov. 17; Emil Pike, attorney, Nov. 30; and Rev. James B. Hughes, minister of the First Baptist Church will be the Dec. 7 speaker.

Each session is open to the public.

Promoted

BURLEY—Lewis Martindale, acting area manager at the Bureau of Land Management, Burley District, has been promoted to area manager in charge of the Raft River Resources Area within this district.

Martindale has been with the Burley BLM district for the past 4 1/2 years. He has a total of 10 years government service. He is a 1955 graduate of Utah State University, holding a BS degree in range management.

AMONG THOSE TO PARTICIPATE in the forthcoming Burley Stake MIA Choral Festival are, from left, Eleanor Hall, Seventh Ward; Judy Hatch, Fourth Ward; Bobby Jones, Eighth Ward, and Laura Blanch, Star Ward. The festival is set for Jan. 27 at the Burley Stakehouse with participants from each ward in the Burley LDS Stake. Mrs. Connie Bingham is serving as stake chorister and Mrs. Annie Beck is the stake organist.

Former India Missionary To Talk At Lutheran Meet Here

Mission Sunday will be observed Sunday at the Immanuel Lutheran Church.

Special worship services will be held at 8 a.m. and 11 a.m. with Rev. Lawrence E. Meinzen of Salt Lake City as guest speaker. A mission fair will be held in conjunction with Mission Sunday, according to Rev. Harold Iben, pastor.

Born in India of Missionary parents, Pastor Meinzen spent a total of 24 years in India—11 years during his boyhood and 13 years as teacher-missionary. His elementary education was in Koelne Memorial School of Kodakanni, India. He graduated from Concordia High School in Fort Wayne, Ind., after which he spent two years in the Army. He later enrolled in Michigan State University and graduated from Concordia Teachers College, River Forest, Ill.

Upon graduation in 1949 he married Martha Koch of Columbus, Ind., and accepted a call to serve as teacher-missionary to the Trivandrum District Synod of the India and Ceylon of the India, Lutheran

Church, Pastor Meinzen served as teacher, school manager, Malayalam literature distributor, station missionary, Sunday School and Vacation Bible School coordinator for the India Lutheran Church and College Youth counselor.

Most of his work was in the Malayalam language.

In 1963 Pastor Meinzen resigned from India service to complete his studies toward the pastoral ministry at Concordia Seminary, St. Louis, Mo., where he earned the degree of Master of Arts in theology. Thereafter he was ordained and then accepted the call to serve as pastor of St. Johns Lutheran Church in Salt Lake City. Pastor and Mrs. Meinzen are the parents of 10 children.

The mission fair, under the direction of the LWML, will be held in the parish hall from 9:30 a.m. to 12:30 p.m. and from 2 p.m. to 4 p.m. Mrs. E. A. Walters is general chairman. The four groups of the LWML will have booth displays to illustrate the mission work of the church throughout the world.

set for Jan. 27 at the Burley Stakehouse with participants from each ward in the Burley LDS Stake. Mrs. Connie Bingham is serving as stake chorister and Mrs. Annie Beck is the stake organist.

Lesson

"Go ye and learn what that meaneth, I will have mercy, and not sacrifice; for I am not to call the righteous, but sinners to repentance."

These words of Jesus are part of this Sunday's Christian Science Lesson-Service which will begin at 11 a.m. at First Church of Christ Scientist.

Paul Church Music Leader Is Named

PAUL — Mrs. Hollis McClellan has accepted the responsibility of planning for music in church services at the Paul United Methodist Church.

A committee of youth people in the church has also been named to arrange for special music for Sunday morning worship. Members of the committee are Mary Overman, Karen Kligman, Patty McClellan and

Book Review Is Given At Paul

PAUL — Mrs. Ronald Matheson reviewed the book, "Emma, Lazarus and the Gifted Lamb" at the October meeting of the Woman's Society of Christian Service of the Paul United Methodist church.

It was decided to discontinue the weekly rummage sale throughout the winter. If the need arises, the sales will be resumed in the spring.

A needle making day was set for Nov. 10 in the church kitchen with Charlene Patterson as chairman. Committee members named for the memorial dinner include Mrs. Dave Kraus Sr. and Mrs. Hollis McClellan. Mrs. Gerald Schneider, co-chairman of the annual bazaar, will be held Dec. 5. The November meeting will be changed to Nov. 20 because of Thanksgiving.

Lucille King.

Along with plans for special music, choir practice will be held at the church each Wednesday at 4:45 p.m. A director will also be named. Accompanists on piano and organ are Dennis Stoller, Kathy Lindstrom and Lois Stoller.

New Minister Brings Varied Education, Including College Degree In French

Born at Hiteama, Iowa, the Rev. James B. Hughes, First Baptist Church, Twin Falls, grew up on a farm in southern Illinois and in another small Iowa town before his family moved to Nampa, Ida. At Nampa, he attended final weeks of the fourth grade long enough to contract chicken pox.

After graduation from Nampa High School, Mr. Hughes went to College of Idaho, Caldwell, for three semesters. After his family moved to Moscow, he acquired his education at the University of Idaho, receiving a Bachelor of Arts degree in French. Three years of graduate study followed at Berkeley (Calif.) Baptist Divinity School, now the Berkeley campus of the American Baptist Society of the West, in which he received the Bachelor of Divinity degree.

Through high school, university and seminary, Mr. Hughes' extracurricular interests were drama and music. At one time, he planned a college major in music. While in seminary, he conducted the school's male chorus. He directed Quaker and Presbyterian choirs to pay his way through seminary.

The minister is in Mr. Hughes' blood. After pastorates in Iowa and Illinois, his father was minister of First Baptist Church, Nampa, for nine years, then moved to First Baptist Church, Moscow. Mr. Hughes' maternal grandfather was a Midwest Baptist minister. After his grandfather's death, his grandmother continued as pastor of his last church. Following Mr. Hughes father's death in Moscow, his mother took her M.A. degree at Berkeley Baptist Divinity School, and served as an administrative worker in churches at Ustick, Ida., and Seattle.

Cour d'Alene was Mr. Hughes' first pastorate after seminary. After two and a half years there, he lived in Washington 23 years, leading churches in Seattle, Richland, Bellingham and Tacoma.

Mr. Hughes met his wife, Ruth, a minister's daughter, at Berkeley. A graduate of University of Redlands, with an M.A. degree in religious education from Berkeley, she is now working toward certification as an elementary teacher in Idaho

public schools.

The Hughes family arrived at First Baptist Church, Twin Falls in September, 1967. The older son, John, is a junior at Stanford University, finished two quarters at the Stanford campus in Vienna in August, and is now touring Europe prior to return to the Stanford campus in Palo Alto for the winter quarter. The other son, Dick, is a junior at Twin Falls High School, where he plays in the pep band and symphony band and is a reporter for the Bruin News.

When he gets a chance to do them, Mr. Hughes' recreational interests are camping, hiking, photography, "writing bad poetry" and fishing "if they're biting."

Mr. Hughes says: "We greatly enjoy Twin Falls and vicinity and are repeatedly impressed by cultural, recreational, medical and other resources that are such valuable assets here. We believe the Christian church and its message should enter into all aspects of life for persons and society, and are happy to help bring religious resources to bear on the needs of our community and the world."

DINNER PLANNED

The Twin Falls First Baptist Church will have its annual polk Loyalty Dinner at 6:30 p.m., Nov. 17 in the fellowship hall. Reservations must be made for this event.

REV. JAMES B. HUGHES

Special Services Are Slated At Baptist Church In Filer

Evangelist Ernie Habecker of Tampa, Fla., will be the guest speaker for a special series of services at the First Baptist Church of Filer Nov. 19-30, Pastor Roy W. Watson announced.

The Rev. Habecker was a young person in the First Baptist Church of Downingtown, Penn., while Watson was pastoring that church and enter-

ted the Christian ministry during that time. Rev. Habecker was a successful pastor in Maryland, Oklahoma and Florida before entering full-time evangelism. Invited to teach Evangelistic Crusades increased until he directed all his time to this work. Over 250 church-centered crusades in several states testify of his ability to communicate to the spiritual needs of his generation.

Rev. Habecker believes that though our age is in the current of competition, sex, narcotics and alcohol, Christ is the only anchor for drifting humanity in search of contentment. The faith he proclaims is uncomplicated. His message is clear, forceful and vigorously presented. Topics include: "The First Hippie," "Weight Consciousness," "The Great Heart Transplant" and many others.

His appeal to youth is unquestioned. He supports his campaigns in great numbers. Youth and their questions are given vent in seminars especially for teenagers.

Rev. Joe John, pastor of the Filer Missionary Church will be the song leader for the services. He has experience in the music field. He began singing at the age of three, continuing to the present. In high school he was president of the concert choir, a member of the a cappella choir and the Bethel Oratorio Society in his college days. He also sang with "our Worship Hour" choir now heard over "KART" on Sunday music.

Everyone is invited to these evangelistic meetings beginning each evening at 8 and on Sunday mornings at 11.

Youth Group Organized At Paul Church

PAUL — The Methodist Youth Fellowship of the Paul United Methodist Church held an organizational meeting Sunday evening for the youth of the Church in the Junior and Senior High age group.

The MYF will hold weekly meetings at the church at 7 p.m. The group will have special programs are planned elsewhere. Officers for November and December were elected during the initial meeting and include Karen Klamm, president; Larry Stoller, vice president; and Lois Stoller, secretary-treasurer.

Sponsors for the group are Mrs. Hollis McClellan and Mrs. Martin Muecke. Following the Sunday organizational meeting, the group attended a film and discussion on the use of marijuana at the Paul Congregational Church.

Pastor Honored At Church Fete

HAGERMAN—Rev. and Mrs. Woodrow Harris were guests of honor at a polk dinner held following church services at the United Methodist Church Sunday.

Following the dinner, a short program was presented by the members of the MYF. Songs were sung by JoAnn Berry and Cheryl Sandy with Miss Berry playing guitar accompaniment.

A playlette was presented by Miss Berry, Miss Sandy, Linda Phillips, Lorn Sandy and Regina Moreland, who also took part in a skit along with Diane Jones, Robert Sanda, David Sears, Cathy Jones, Nancy Jones, and Rev. Harris. Larry Hill was the announcer.

The welcome was extended by Alfred Sandy. The dinner and program were under the direction of Mrs. Sandy.

Social Security Question Box

If you have any questions about your social security, address them to Jim Davis, Box 1239, Twin Falls, Idaho 83401.

Q. I own an apple orchard. This year I am hiring some teenage boys to help harvest the crop. Do I report their earnings for social security?

A. Since this is agricultural work, you should report their earnings and those of any employees if either of the following is true:

1. You pay an employee \$150 or more in cash wages during the year; or
2. It works for you on 20 or more days in the year and you pay him cash wages (not on a time basis (rather than on a piece rate basis)).
