**RETIRED NAVY MAN** Gale Diamond took his days off last week to construct this unusual flagpole. Mr. Diamond, who retired from the Submarine Force of the U. S. Navy two years ago after 26 years of service, said he just felt "it would be nice to have a flagpole, and I wanted it to be unusual." He also said the flag has flown over his residence nearly every day since he constructed the pole and he doesn't feel people need to wait for holidays to display the colors. "In my own mind, there ought to be more flagpoles put up—it doesn't take too much effort to fly the flag every day and display love of our country," he added. Mr. Diamond, who retired as a chief torpedoman, qualified in submarines, is now assistant engineer at Magic Valley Memorial Hospital. He and his family live at 433 Elm St. N.

### Discussion Series Set In Memory Of Wayne Hankins

A lecture-discussion series in memory of the late Wayne Hankins, longtime area law enforcement officer, will begin Wednesday at Bishop Rhea Auditorium, Episcopal Church of the Ascension.

"The Changing Family" will be the topic of the five-session series. Mr. Hankins, who was area liquor control officer at the time of his death and a former Twin Falls County Sheriff's deputy, died last September of cancer.

### Sen. Church Urges Aid For Potatoes

WASHINGTON, D. C. (Special to the Times-News) — Sen. Frank Church has urged the Secretary of Agriculture, Clifford Hardin, to start immediately a national potato diversion program.

In a letter Monday, Sen. Church said frost damage to large parts of Idaho potato crops has caused a rapid movement of the crop onto the market. The result, he said, has been a decline in prices.

The diversion program was requested by the State Board of Potato Growers of Idaho. Sen. Church urged Sec. Hardin to "instruct the Consumer Marketing Service to start the national diversion program for a period no longer than 60 days and at a minimum price of 85 cents a pack."

Wednesday night's session, which will be held by Father Simeon, of the Benedictine priory and student center, and Mr. and Mrs. Kenneth Walker of Twin Falls. The Wednesday evening topic will be "Reflections on Changes in the Family," with emphasis upon new role and demands in family living.

All sessions are open to the public at no charge. The series continues Nov. 19, led by Rev. Glen Waltman, pastor of the United Methodist Church, Buhl, Dec. 2, led by

Rev. J. Bernhardt, faculty member at the College of Southern Idaho; Dec. 10, Dr. and Mrs. E. M. Wright, pediatrician and pre-school teacher, Twin Falls, and Dec. 17, Rev. John Steppart, pastor, Presbyterian Church, Wendell.

ROME (UPI)—An American lawyer representing accused hijacker Raffaele Michiello went to Rome's Queen of Heaven prison for a talk with his client Monday but called it off when told he could only spend an hour inside the jail. "It took me so long to get my pass into the jail that I wouldn't have had time for a decent talk with Raffaele before the jail closed," Attorney Marvin Mitchelson of Beverly Hills, Calif., said.

### T. F. Man Gets Scholarship

Glen Hull, son of Mr. and Mrs. John F. Hull, 902 Sparks St., holds a Wilkins Scholarship at the University of the South for 1969-70.

The University of the South, popularly known as Sawanee, awarded nearly half a million dollars in financial aid for the current school year. About 900 students attend the Episcopal-owned college.

The Wilkins Scholarships, established by a bequest from Georgia M. Wilkins, Columbus, Ga., are a major honor at the university. Mr. Hull, a sophomore, is a graduate of Twin Falls High School where he was a member of the National Honor Society and received a math award and a Bausch and Lomb Award.

"But then," he added, "I've been listening lately to some of the British records my children play and it's possible you've gotten even."

### Charges That Hospitals And Nursing Homes Demand Drug 'Kickbacks' Levelled

WASHINGTON (UPI)—Hospitals and nursing homes are demanding and receiving "kickbacks" from drugstores to provide prescriptions, under federal health programs, the American Pharmaceutical Association said Monday.

In testimony before the House Ways and Means Committee, spokesmen said cash is passed under the table from drugstore owners to institutions to win drug contracts under Medicare and Medicaid programs.

professional association's public affairs committee, told UPI later that the "kickback" demands are being made in every state. Carl Roberts, who heads the APA's legal division, also added in an interview, "It's big money."

Miller said the practice is running up the high costs of drugs, since in some cases, the druggist is raising his prices to other customers to meet the kickback cost.

"The most bitter complaints we have received are from pharmacists who have, in fact, been subjected to 'kickback' demands," Miller said.

Nearly \$50 million in prescriptions is dispensed annually to nursing homes and other extended care facilities under the Medicare program. In turn, the hospitals are reimbursed for the "in-patient" drug costs. A Medicare patient who is not hospitalized can not get reimbursed for his drug costs.

In his testimony, Miller said nursing homes and hospitals without their own pharmacies must go to community drug stores for medicines.

### Gov. Reagan Speaks In London, Says America Can Help Poor Through World

LONDON (UPI) — California Gov. Ronald Reagan said Monday the poor nations of the world, with the help of the United States, can become rich in a much shorter time than it took America to amass its wealth.

Reagan said economic assistance from free enterprise business to the underdeveloped countries can shorten the time they need to be able to stand alone on their economic feet.

"Many emerging countries fail to realize the United States and other developed nations had to go through a developmental stage," Reagan told the British Export Council. "What we're offering to the underdeveloped world is an economic and social leap through time."

"This leap is symbiotic of the benefits that are essential if we are to maintain some semblance of tranquility and progress on the world fronts," he said.

The governor of America's fastest-growing state stopped in London enroute to Los Angeles from Paris to address the council's luncheon launching a major British export drive to California in 1970.

The 58-year-old Reagan, an unsuccessful candidate for the 1968 Republican presidential nomination, regaled 500 business executives with a string of carefully placed jokes mixed with some serious words about the role of business in the peaceful progress of the world.

Referring to the student unrest rife in California, Reagan quipped:

"There have been accusations

I am such a Neanderthal man that I have no interest in higher education. I want you to know that at this point as governor I'm willing to engage in student exchange program with anyone."

Reagan said international corporations have been foremost in making more effective use of the world's economic resources.

"International economies have demonstrated one nation can raise its own standard of living by helping raise the standard of living of its trading partners," he said.

The governor told the council that California would cooperate with the British export drive next year.

"I don't have to tell you that for years California has been one of your best markets, although I'm surprised you haven't retaliated from some of the films we've sent you," ex-actor Reagan said.

"But then," he added, "I've been listening lately to some of the British records my children play and it's possible you've gotten even."

### Bizarre Murder Case Heard

REDWOOD CITY (UPI) — The attorney for Ronald Paul Martin Monday described the confessed killer as a modern version of Dr. Jekyll and Mr. Hyde.

Martin, 28, has admitted the August, 1968 murder of Brenda Joyce Gregory, a San Jose singer, and is on trial in San Mateo County Superior Court to determine his sanity.

In his closing statement to the all-male jury Monday, Defense Attorney Jack C. Small gestured to Martin, sitting quietly at the counsel table, and said, "his appearance today is that of Dr. Jekyll, or Ronald Martin, sane."

"But we've got to understand and know more," Small said, "about Mr. Hyde."

In earlier testimony, Martin himself had recounted in grim detail how he killed the 35-year-old woman. He also narrated the story of his murder of a Japanese woman when he was serving overseas with the Air Force in 1960.

### Ocean Secrets

Last January, after spending two years studying the question, a 15-member presidential commission recommended that the nation mount a major program of scientific research in the oceans.

It proposed the creation of a National Oceanic and Atmospheric Agency to bring some order and focus out of the existing situation which finds government marine efforts split up without plan or purpose among 11 different departments and agencies, ranging from the Coast Guard to the Bureau of Sport Fisheries and Wildlife.

Strangely, while NOAA has been compared with NASA (the National Aeronautical and Space Administration) and promises to bring greater, and certainly more immediate, benefits to the nation than space exploration, the idea has failed to capture the public imagination and congressional support is not exactly running like a house on fire.

The moon landing was, of course, a spectacular and easily identifiable, if not easily attainable, goal. The space program was and is an all-federal effort. Although the proposed ocean agency has been nicknamed a "wet NASA," it is some-

thing quite different, says the National Oceanography Association.

A strong national ocean program, it notes, will necessarily involve greater private than public outlays. The offshore petroleum, chemical and fishing industries, for instance, represent a private investment many times larger than government spending on oceanographic activities.

It will also have multiple objectives, such as increasing fish harvests, expanding recreational activities, improving weather forecasting, as well as advancing over-and-underwater technology.

The oceans have been called the last frontier. The U.S. continental shelves alone embrace a territory—still virtually a terra incognita—one-third the size of the 48 contiguous states. Expanding world population makes inevitable the day when the mineral resources and food potential of that frontier assume crucial importance.

Just in terms of getting more mileage out of existing tax dollars, NOAA makes sense. As the association puts it—"more splash for the cash."

### Ordeal By Inquiry

WASHINGTON (NFA)—Sen. Edward M. Kennedy expects there will always be some critics and adversaries to keep alive the troubling matter of his July 18 accident at Chappaquiddick. But he thinks that for most others there can be a kind of cutoff date, a milestone point which largely relegates the case to history.

That is the deep-seated reason why he has now said publicly in the aftermath of a Massachusetts high court ruling on guidelines for a proposed inquest, that he wants a hearing soon and wants a full transcript of the proceedings made public.

The court directed that such proceedings be closed to press and public on grounds that the piecemeal evidence emerging daily from an open hearing

might be dealt with in a manner which would unfairly damage the effect of the hearing judge's final decision.

Kennedy wants any formal inquiry to be full—to include interrogation of himself and all other principals and witnesses.

He is aware that it will inevitably be an ordeal for him and for the parents of Mary Jo Kopechne, the young former secretary to the late Robert Kennedy. Review of the incidents surrounding her death in the bridge accident at Chappaquiddick is bound to revive crushing memories.

Yet he feels that in the end it will be greatly helpful to the Kopechnes, to him, and to much of a badly puzzled public if he can in future times point to the official record and the judge's decision as a conclusive and ter-

minal thing.

It is not altogether new that he says privately that no great, damaging secrets will surface at a hearing. "There is nothing of that sort which is going to come out," he has often remarked.

What will emerge, etched in painful specifics, is a fuller story—a version not controlled by him or immunized from official probing—that will lay out the postaccident chaos that led him, on nationwide television, to label his own behavior that night to be "indefensible."

He still lays that charge heavily upon himself. But it would be apparent to anyone that he lives today on a different plane than that he plunged to in the first cruel aftermath of Chappaquiddick.

He is a man of enormous resilience, with an instinct to go on and find a way to live with both mental and physical pain—an instinct finely sharpened by the assassination of his two celebrated brothers, the deaths of others in his family, and his own narrow escape from death in a plane crash in 1964.

So he has waded hard into all-consuming work. His offices as senator and assistant Democratic leader are once again a busy focus of Senate procedural business, of issues being hammered out, of people shuffling in and out. The difficult quiet of late summer has passed.

Inescapably, the work is a kind of therapy. But there is more to it than that.

Ted Kennedy has always loved the work of the Senate. Strong issues and causes, many totally his own, some taken over from his fallen brothers, have always engaged him.

He is back at these matters now, confident of his abilities, driven to pursue his interests, driven to make each day count for something. No clear rebuffs have been delivered against any of his favored causes. Rather he has had some successes on issues like money for student loans and help for poverty-ridden Indians.

In his job as whip, there was a touchy period when some senators held aloof from any close contact. Time is changing that. Accustomed to the warmth of a very wide circle of Senate friends, Kennedy hopes it will again open up to its fullest dimensions when the legal proceedings over the accident are complete—possibly by the year's end.

In the meantime, he is an unshakable candidate for reelection in 1970. He will be visiting his state roughly once every 10 days, talking of his constituents' current concerns, now and then seizing a chance to talk broadly of the war, the economy, health and other national issues. But on national politics the promise is only silence.

### SDS Violence

"My God, what have I done!" A thousand tragedies acted out in fiction and in fact, have been climaxed by that anguished cry from a suddenly repentant culprit.

The drunkest drunk is turned stone sober by the sound of a gunshot or the sight of blood.

Similarly, our whole arm-waving, breast-beating, slogan-shouting nation is stunned into shocked silence when a statesman falls to an assassin's bullet.

"Kill the empire!" we shout. Yet, when one is felled by a thrown bottle and carried from the field, we weep with shame.

Last month an angry mob invaded Chicago. In advance they had proclaimed their intention to "tear up pig city."

These SDS revolutionaries were allowed to use three area churches for mobilization headquarters, so innocently trusting were the "sympathetic clergymen."

Each of the first days of the ugliness, the headlines were of "numbers" involved and "numbers" arrested and "numbers" injured.

Then Saturday, Oct. 11, demonstrators charged a line of police in Chicago's Loop.

On the scene at the time was Richard J. Elrod. As assistant corporation counsel, he has actively sought to negotiate and resolve legitimate public grievances.

By both sides he was known as "firm but fair."

Three times in 18 months he has been injured in the line of this home-front duty.

But on this occasion, as the demonstrators charged, one of them, swinging a length of pipe,

hit Mr. Elrod in the face.

As he fell to the pavement he was kicked in the neck and back.

Police on the scene promptly subdued and arrested Brian D. Flanagan, 22, Columbia University student from New York City and Southampton, N.Y.

Within minutes the first report from the hospital sobered the city. Richard Elrod, 35, had a broken neck, was paralyzed from the neck down — he still is.

The charge against young Brian Flanagan was changed from aggravated battery, felonious mob action and resisting arrest — to "attempted murder."

More than all the burning, smashing, looting, fighting—the blow that felled Richard Elrod stunned the city, dispersed the mob and mobilized resentment of the "sickies" who have been trying to take over our cities.

Senators, a former Supreme Court justice, others — heretofore noted for their understanding of and tolerance for society's dissidents — suddenly openly denounced "vandalism," "hooliganism," "barbarians."

Newsmen who had spilled crocodile tears over last year's convention rioters turned about-face, praised police, urged more firmness in law enforcement.

A minister who'd helped house the troublemakers in his church publicly apologized for his own naivete.

Maybe we've reached what editor-columnist Jenk Jones calls the "stomach turning point."

As over the motionless body of a gallant man a misguided mob falls back, exclaiming, "My God, what have I done!"

GEORGE C. THOSTESON, M.D.

### Firecrackers

Dear Dr. Thosteson: Could there be something wrong with a 14-year-old boy who would put a firecracker in a live frog's mouth and light it and blow the frog to bits?

He is a tall boy for his age, an honor student in school, has a high rating in Scouting, and apparently physically healthy—Mrs. D. M. B.

So he's smart and he's healthy—but he apparently missed something in the process of growing up. There must be a sadistic streak in him.

Killing flies, rats, ants, and mice is one thing — inflicting as little pain as possible. Making a circus stunt out of destroying a harmless life is quite another.

Small children sometimes do brutal things, not realizing that they are cruel. I recollect a small girl, just a toddler, who caught some toads and broke their legs because she "wanted to be a nurse and bandage them and get them well again." It just hadn't crossed her mind that she was hurting the little creatures.

When that was pointed out to her, she stopped.

But she wasn't 14. She was 3.

trouble for some time. He takes 1 1/2 grains of phenobarb daily. Would that be the reason? He also expels a lot of gas from the bowel, and his stools seem loose, never solid.—Mrs. EW.

Since others use phenobarbital regularly and do not have his trouble, I would look elsewhere for the cause. While bad breath can originate in the digestive tract, there usually are other symptoms present, too.

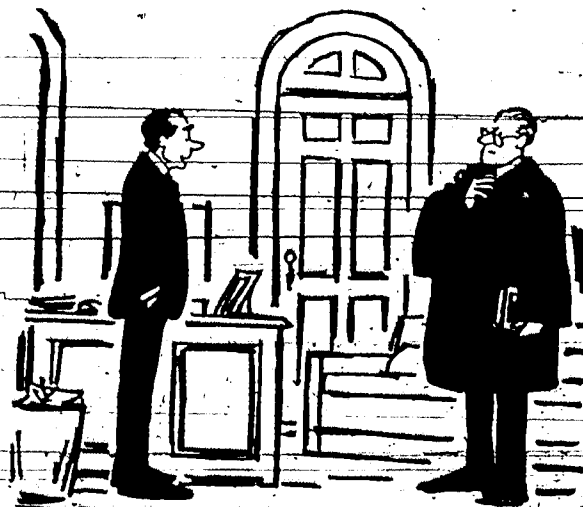

I presume he has had a dental checkup, with attention not just on the teeth but also on the gums, since gum infections can be extremely malodorous.

What about his throat and lungs? Chronic infection in the bronchial tubes (bronchiectasis) can produce an offensive odor such as you describe.

For the reasons why these various factors can cause bad breath, I suggest that you read my booklet, "Bad Breath Can Be Corrected." Send 25 cents in coin and a long, self-addressed, stamped envelope for a copy. It outlines the variety of causes that need to be investigated when chronic bad breath does not yield to simple remedies.

Dr. Thosteson welcomes all reader mail, but regrets that, due to the tremendous volume received daily, he is unable to answer individual letters. Readers' questions are incorporated in his column, whenever possible.

### The Eagle In The Zoo

Every school child knows the official bird of the United States is the bald eagle, but the only place he will see this once plentiful bird is in a zoo. There is danger that this native creature, with its rock-hewn beauty and fiercely competitive endurance among natural enemies, will disappear from the land it formerly surveyed so majestically.

To head off its demise, the National Audubon Society has long been engaged in a study of the North American eagle, its habits, its favorite type of nesting terrain, and the disturbing influence man is exerting on its existence.

Few enough remain of the once numerous and varied wildlife which populated this continent when it was a wilderness. It would be a shame if future generations were denied acquaintance with those remaining because this generation ignored the threats of diminishing natural habitat and other imbalances in the laws of nature affecting these winged and furred creatures.

Especially the bald eagle, a living symbol of the independent spirit and rugged beauty of the nation's founding fathers, deserves utmost efforts to prevent its extinction.

**PEACE**

At a Vietnam Moratorium Day rally at Macalester College in St. Paul, Minn., one Prof. Thomas Grisom informed his audience, "We live in a country whose government is the primary obstacle to peace in the world."

The charge is quite true. It is also true that the government of Winston Churchill was the primary obstacle to peace in Europe in 1940.

**TRAVEL HAZARDS**

It might give some satisfaction to those who could not afford an out-of-the-country vacation this year to learn their neighbors who went to all the exotic spots might have come home with more than they bargained for.

A consulting gastroenterologist at the Yale Department of University Health reports that many persons returning from foreign vacations bring back some form of infection or gastrointestinal trouble. A study conducted on 1,800 Yale students who went overseas during the summer revealed 65 per cent of them came home with an infection or parasite they picked up abroad.

Students who visited France, Italy, Spain and Latin America returned with the highest incidence of ailments. Many, although "feeling poorly," had no idea they were ill.

There it is, the perfect squelch. But be careful how you handle it. Some travelers might try to turn a foreign parasite into some new kind of status symbol.

**GIVEAWAY DEPT.**

We have three kittens, black and white and black, to give away. You can pick them up at 1620 Seventh Avenue East in Twin Falls. They are six weeks old and are housebroken.

We have a mother dog and two puppies to give away. The mother is part Norwegian Elk Hound, but we are uncertain as to the father's origin. One of the pups is male and the other female and one is long-haired and the other is short-haired.

## American Concert Ballet Co. Is Feature Of First Mini-Cassia Community Concert

BURLEY — The first Mini-Cassia Community Concert program of the season will be presented at 8 p.m. Thursday in Burley High School Auditorium, featuring the American Concert Ballet Company.

The American Concert Ballet Company was formed when, as the dancers and dances developed under the rigors and discipline of Gene Marinaccio training, the men and women began to seek an outlet for the expression of their creations.

Soon the company was being booked around the southwestern United States performing original ballets choreographed by Mr. Marinaccio to the music of Francis Poulenc, Villa-Lobos, Bartok, Debussy and others. Not only were the dancers fulfilling themselves, but audiences and critics alike were being treated to the American Concert Ballet Company as something special in the world of dance.

The company's director, Mr. Marinaccio, who as a performer has appeared with the famed Ballet Russe De Monte Carlo Internationally.

He also has appeared with the celebrated ballerina Alicia Alonso and the Ballet de Cuba, has conceived of a technique not only based upon classical ballet, but a form which also embodies the broader ranges of movement found in modern and ethnic dance.

To familiarize other dancers with his theories, Marinaccio began offering classes based upon them. With amazing rapidity, dancers gathered, seeking something creative and definitive in the dance, something more personally fulfilling for themselves.

Dance Magazine reviewed the company's first appearance. The critic wrote: "The long-awaited first public performance of the American Concert Ballet Company was a thorough artistic success. The program reached its highest excitement in their "Nutcracker" pas de deux."

The first tour of the company began in Fort Worth and went as far afield as Trinidad.

With these first triumphs, the American Concert Ballet Company has gone on to conquer the U.S. dance world. Ensuing appearances have been greeted like a breath of fresh air around the country.

The company's members work and study together daily in the group's school. Along with other Los Angeles area dancers who are seeking a sensitive and exciting dance form, they are striving to make Mr. Marinaccio's dream a reality. They are succeeding. As the critic for the Santa Barbara News - Press wrote, "Thorough masters of technique and traditional style, the dancers brought to their per-

PERFORMING during the Mini-Cassia Community Concert Thursday in the Burley High School Auditorium will be members of the American Concert Ballet Co. Here three members of the troupe do a scene from "The Spanish Suite." The dancers are Michael Robbins, Garner Carlson and Carla Ceslander.

formance exhilarating verve, fluency and lightness, and so communicated something more to the viewer."

Marinaccio was born in Newark, N.J. At the comparatively late age of 18, he began his formal dance training as a student of Hindu dance with Bupesh Guna, and one year later started his study of ballet under Michael Brigante in Los Angeles.

After only three years of intensive work, during which he made remarkable progress, he was invited to appear as a soloist with David Lichine's Ballet de la Ville des Anges, which was then touring Europe.

Returning to the United States, Mr. Marinaccio was im-

mediately signed by Metro-Goldwyn-Mayer to appear with Roland Petit's Ballet de Paris in several major musical films. He was subsequently engaged for solo roles in national television productions, again as a member of Mr. Lichine's Group.

Marinaccio's outstanding ability soon brought him to the attention of the Ballet Russe de Monte Carlo with which he toured the United States and Canada for four seasons and was featured in solo character parts.

His superb artistic performances also attracted the interest of the celebrated prima ballerina Alicia Alonso, and she invited Marinaccio to join her as premier danseur of the Ballet de Cuba. Though he was ex-

## Action Pending

BOISE (UPI) — Idaho's Attorney General said Monday he intended to wait for the remainder of the week before bringing legal action against the Idaho First National Bank.

Robert Robson last week told the bank to lower its interest rate on Master Charge credit cards to 11.55 per cent from 18 per cent a year, or he would bring action against the bank in U. S. District Court.

Earline Robson and John B. Silva, state finance commissioner, instituted a similar action against the First Security Bank on the Bankamericard's 18 per cent interest.

Robson contended that 11.55 percent was maximum interest rate a bank could charge on credit cards in Idaho.

## LOAN APPROVED

WASHINGTON (UPI) — Rep. Orval Hansen, R-Idaho, said today an additional loan for \$50,000 had been approved for the Montpelier Irrigation Company of Bear Lake County.

Extremely well received during the company's tour of South America, he found the political atmosphere and artistic turmoil in Cuba particularly oppressive and soon returned to the United States.

It was in Los Angeles he began giving his classes and formulating the idea of dance which was to result in the American Concert Ballet Company, one of this country's most vital and exciting young dance groups.

## Purpose Of Isolating Brains Told

By DELOS SMITH

LOS ANGELES (UPI)—Why keep a living human brain in isolation, asked the scientist who has kept more than 100 brains alive after they had been cut off completely from their monkey bodies.

It would add immeasurably to science's knowledge of the brain disorders which now afflict mankind and about which science knows next to nothing, said Dr. Robert K. White, answering his own question.

What's more, he said, it can be done hard as it would be to get a human brain out of the head and away from the body alive and then keep it going in isolation.

"However, moral and social factors are operating here, as they should be," he added. "The passage of a considerable period of time may be required to lessen the impact of these factors."

White was speaking at a science writers' seminar of the Philanthropic Foundation, research to prevent blindness. His remarks were pertinent. The retina of the eye is part of the brain and retina disasters cause much blindness.

In his laboratories at Case Western Reserve University, Cleveland, Ohio, White keeps isolated monkey brains alive for hours with mechanical gadgetry which, in his words, "is no more complex than that of a child's electric toy."

## "Silent Majority" May Be Correlated With TV Ratings

By VERNON SCOTT  
UPI Hollywood Correspondent.

HOLLYWOOD (UPI) — President Nixon's "great silent majority" may be correlated with "all things, the television Nielsen Ratings.

In all likelihood, they are men and women who stay at home most evenings—especially Sunday and Monday nights—and watch television. What they watch might be indicative of the temper of that "silent majority."

The two highest-rated shows of the past month are old, comfortable safe, father-figure, family-oriented Westerns reflecting rugged independence, patriotism and love of God and country.

At the top of the heap was "Gunsmoke" with a 26.4 rating, and in the No. 2 spot right behind it was "Bonanza" with a 26.3.

Neither show specializes in social comment, political foment or activism. The values of another era constantly are involved: Honor, dignity, downbeat humor, honesty, toil and virtue rewarded.

Astonishingly, "Gunsmoke" has been around 15 years, and "Bonanza" is now in its 11th year.

Like it or not, that says a great deal for the mood of a

majority of home viewers. They hold with the old values, the square, the outmoded, the traditional—much of what Mr. Nixon stands for.

It is also generally recognized that most viewers are persons over 30 (or children). Each of these over-30 has a vote. And if the Nielsen Ratings are any kind of indication of the mood of Americans—today—they are looking backward to the frontier for solace and answers that may or may not be forthcoming.

## Congress Close To Reversing Cold War Policy With Reds

By MIKE FEINSILBER

WASHINGTON (UPI) — Almost without notice, Congress is close to reversing America's 20-year-old cold war policy aimed at discouraging exports to the Soviet Union and its allies.

The Nixon administration opposed the change but will find it difficult to ignore the mandate of a bill intended to permit the sale of goods to the Communists if the same items are available from other nations. Enactment of the measure is expected soon.

Under the old law, the government has been able to ban the sale of even such nonstrategic items as brassieres and wigs. If the bill passes, it would have to be publicly justified such a ban.

Congressional liberals won their point by arguing the old policy was neutral in its impact on the Communists, harmful to U.S. businesses and to the U.S. balance of payments and helpful only to America's allies who are also its competitors for trade.

Sen. Walter F. Mondale, D-Minn., chief architect of the new policy, compared present U.S. restrictions on trade "to the ancient Chinese method of averting oneself against one's enemy by committing suicide on his doorstep."

Both houses of Congress have adopted bills easing the old Export Control Act of 1949. But the Senate's version was far more liberal than the House's and, at least in its intent, reversed the cold war policy of clamping down on such trade.

In a conference committee Thursday the House was represented by liberal trade proponents and the Mondale viewpoint prevailed. With acceptance or rejection the only possibility when the compromise comes up in each chamber, the committee's measure is expected to become law this month.

The present law applies two considerations when the government decides whether to grant a U.S. firm an export license—whether the item to be sold would have military significance to the buyer and whether it would have "economic significance." The bill drops the question of economic significance.

But it still leaves the administrators of the law considerable discretion and power to ban an export on the grounds it would be "detrimental to the national security of the United States."

## Troops Are Alerted For War Protests

WASHINGTON (UPI) — An unspecified number of troops have been alerted for possible movement into the Washington area during this week's antiwar demonstrations; it was disclosed Monday.

The units alerted are more than 100 miles from Washington and are in addition to 82,000 men—10,000 of them in organized units—already available for duty in event of trouble.

The District of Columbia's National Guard force of 2,700 also is available.

Justice Department officials have warned of possible violence during the demonstrations, particularly on Saturday the 15th, in refusing to issue permits for a mass march on Pennsylvania Avenue.

A Defense Department spokesman, Jerry W. Freidhelm said an alert advisory was sent to some commanders of units more than 100 miles from Washington at the request of the Justice Department, which has the primary federal responsibility for maintaining order during the demonstrations.

Friedhelm said "certain commanders have been advised to assure that the responsiveness of their units is appropriate to meet possible needs" during the demonstrations.

## Reveals Reports Nixon Has Medical Examination

WASHINGTON (UPI) — The government planned to make public 91 of 1,400 reports today on whether car and auto equipment manufacturers are complying with federal safety standards. Safety critic Ralph Nader said the reports would not tell the whole story.

Eighty-one of today's reports involve The Mohawk and General Tire companies. Nader said in a letter to Transportation Secretary John A. Volpe that he was disturbed the results would emerge "piecemeal and with less than full disclosure."

In a conference committee Thursday the House was represented by liberal trade proponents and the Mondale viewpoint prevailed. With acceptance or rejection the only possibility when the compromise comes up in each chamber, the committee's measure is expected to become law this month.

## Nixon Has Medical Examination

WASHINGTON (UPI) — President Nixon underwent a complete medical examination Monday—his first since taking office—and his doctor reported he was "in excellent physical condition."

"It was just a routine physical with routine results," Nixon told reporters as he left Bethesda Naval Hospital in suburban Maryland.

Later, White House physician Dr. Walter R. Tkach said he found the President to be in excellent physical condition during his two-hour examination.

White House spokesmen emphasized that the examination was strictly routine and that Nixon had not been suffering from any ailment. They said he was given "all the tests normally given to individuals taking a routine physical examination."

## Personnel Director Quits Post

BOISE (UPI) — William H. Petersen resigned today as state personnel director to accept employment with private industry in Maryland.

Petersen plans to join Systems Science Development Corporation of Silver Spring, Md., the first of the year as director of law enforcement management services.

A 1954 graduate of Idaho State University, Petersen did graduate work in public administration at Wayne State University in Detroit. He was appointed Idaho's first state personnel director in February of 1966.

Before coming to Boise, Petersen spent eight years in St. Louis as chief administrative officer for the St. Louis Metropolitan Police Department and was a consultant for a private research organization in Detroit, Mich.

He has served as a consultant to the Washington, D.C., Police Department, Michigan State Police and Detroit City Police.

## Boise Man Held On Rape Charge

BOISE (UPI) — City police arrested Johnny Romaro Lopez, 36, Boise, on a rape charge Sunday after he allegedly held a 24-year-old Boise woman captive in her home for 3 1/2 hours.

Officers found Lopez sitting on a curb after the woman escaped about 5:30 a.m. and called police from a nearby home.

Bond was set at \$5,000 for the suspect.

## MUSIC INTEREST GROWS

CHICAGO (UPI) — Nearly one of every four Americans plays a musical instrument, says the American Music Conference. There were 46,200,000 amateur musicians in the United States in 1968. Money spent on instruments, sheet music and accessories totaled \$934,138,000 for the year.

four of its last five games against Texas in Austin. Asked if memories of a 6-0 loss to the Frogs in 1961 that may have cost Texas a national championship still lingered in his mind, Royal snapped "damn right. That's how kids learn not to touch a hot stove. When you get the hell burned out of you, you've got to remember it."

## Carter Might Get Chance With Bears

CHICAGO (UPI)—Chicago Bears coach Jim Dooley, whose team broke a seven game losing streak, the club's longest in a record, Sunday, hinted on Monday that he might change quarterbacks before the season ends.

## SNAP SKID

BOSTON (UPI)—Veteran wingers John Bucyk and John McKenzie scored two goals each and linemate Fred Stanfield added another Monday night to pace the Boston Bruins out of a five-game winless streak in an 8-3 win over the Oakland Seals.

# Gillman Quits Chargers' Post

SAN DIEGO, Calif. (UPI)—Sid Gillman, the only man ever to coach the San Diego Chargers football team, turned over his job Monday to backfield coach Charlie Waller because of ill health.

# K-State's Chance For Bowl Dim

KANSAS CITY, Mo. (UPI)—The mention of "bowl game" brings a sour taste to the mouth of Kansas State coach Vince Gibson right now. Two weeks ago his Wildcats were flying high with a 5-1 record. Then they lost a fast and furious 41-38 thriller to Missouri. And last Saturday they were upset by lightly regarded Oklahoma State, 28-19.

Kansas State, a school which has been playing football since 1896, has never been to a bowl game. Two weeks ago the Wildcats' chances seemed bright. Kansas State, a school which has been playing football since 1896, has never been to a bowl game. Two weeks ago the Wildcats' chances seemed bright.

# Hudson Hits For 57 Points In 133-132 Victory

AUBURN, Ala. (UPI)—Lew Hudson hit 57 points but it took a field goal by Bill Bridges with two seconds to play to allow the Atlanta Hawks to sneak past Chicago 133-132 in a National Basketball Association game Monday night.

The Old Boy Himself

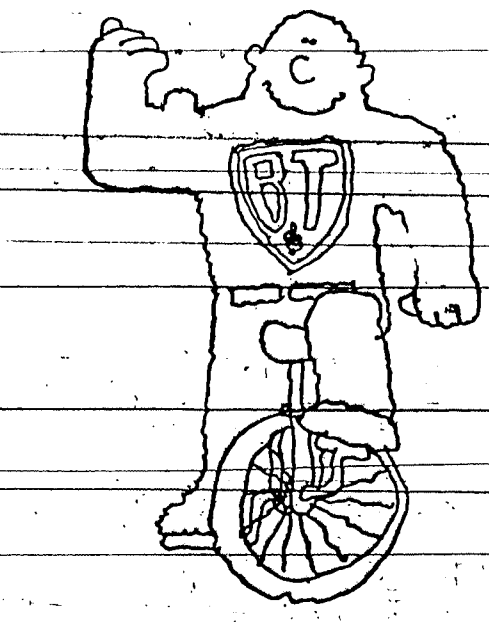

As a result, Ohio State staged a 13-0 stunner over the No. 1 team and used the upset as a springboard to the national title. Saturday, however, the roles will be reversed as Purdue (7-1) tries to bump the unbeaten Buckeyes from their lofty perch.

It's not just his arm that makes him a great quarterback, Phipps is a sharp reader of defenses. He knows where certain coverages are coming from. In other words, he knows the where and why. Phipps is also moving better this year. He's much more effective than last year when he was bothered by an ankle injury.

## SIMPLE HAND MADE DIFFICULT

South let the opening club lead come around to his king. Then he laid down his ace of spades. West showed out but this didn't really faze our hero. He led his deuce of diamonds and went up with dummy's king in the vain hope that West had the ace.

tricks and could top whichever trump East played after South led from dummy.

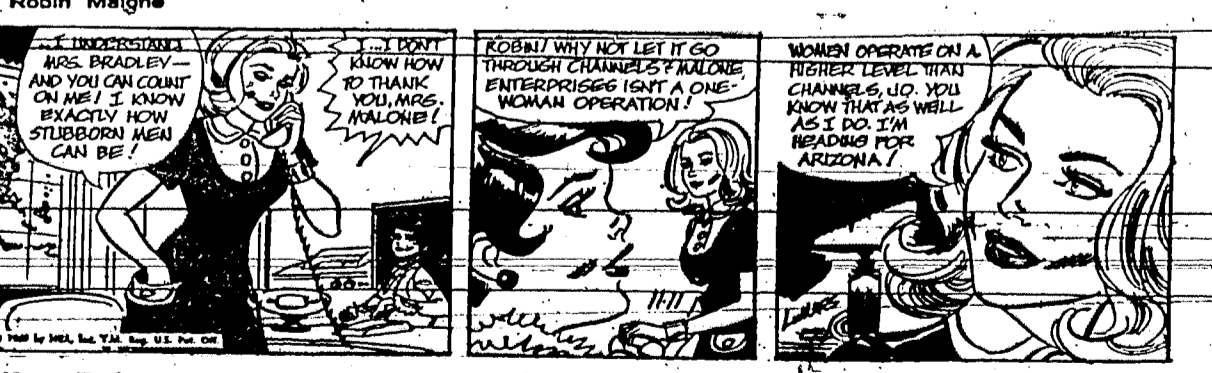

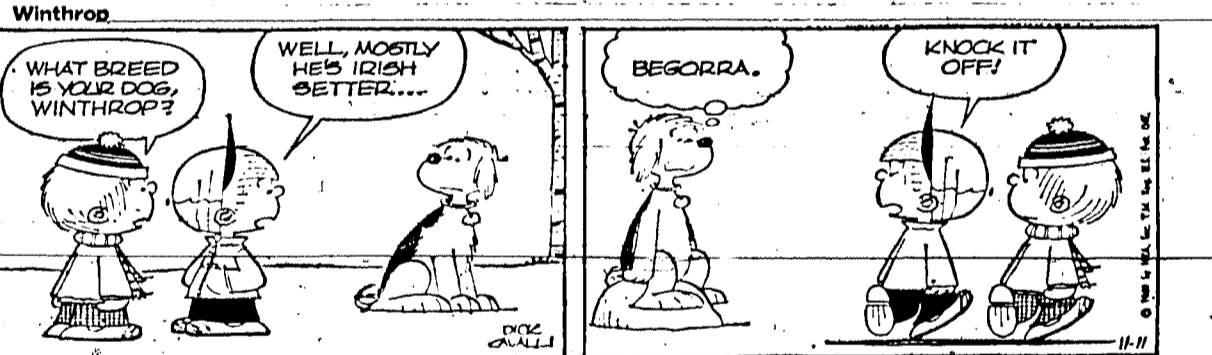

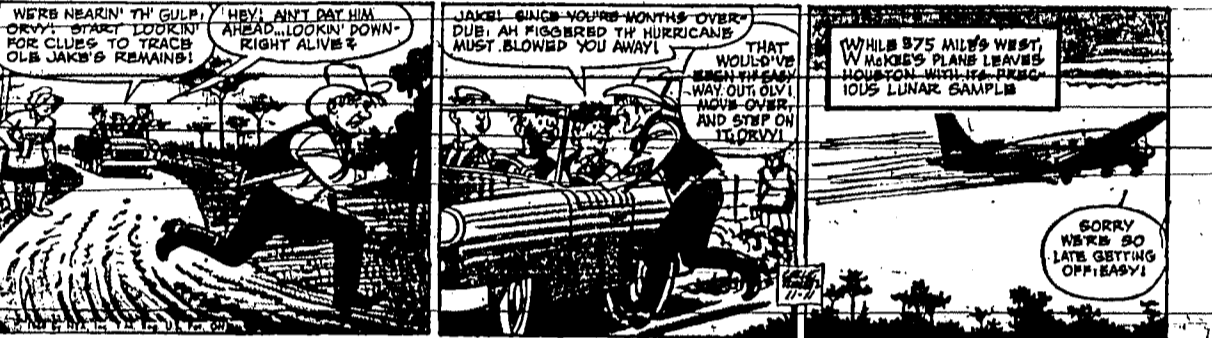

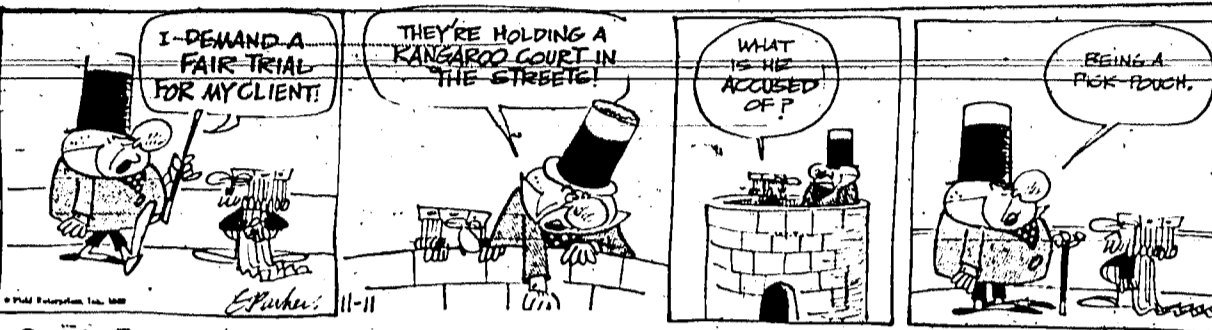

South was very happy and asked, "Pretty well played, wasn't it?" It was beautifully played after the initial mistake, since it required a combination of perfect timing, plus a lot of good luck, to salvage the slam from the wreckage, but any really good player would have made the hand with no trouble at all. The really good player would have led the three of trumps to dummy's queen at trick two. West would have shown out but South would have had no trouble picking up the trump suit. He would simply lead trumps twice from dummy, covering East's played card each time.

East won and returned a club to dummy's queen. We approve of the quick play at trick three and of the long study South gave the hand before leading to trick five. Eventually he played dummy's jack of diamonds and ruffed East's queen with the three of trumps. His next two plays were the ace of hearts and a low heart to the jack. Then he discarded his last club on the 10 of diamonds and a high heart on the nine, while East had to continue to follow suit. Now came the fifth diamond. East was down to trumps and chose to ruff with the nine. Not that it did him any good. South overruffed, ruffed his last heart with the queen of trumps and showed his hand. He was down to the last two

A—Bid for hearts. The hand should play better there than in no-trump. Your alternate call is a pass. A further black suit bid would be bad.  
**TODAY'S QUESTION**  
Instead of bidding three no-trump, your partner has bid four clubs over your three spades. What do you do now?

Woman With Name Of Swab Serves In Army Nurse Corps

AM TOLD the house dice in Las Vegas only last about half an hour... THOSE NATIONALS most apt to be color blind are the Czechs... ONCE YOU COULD get all the way from New York City to Chicago on trolley cars with 976 transfers... ONE OUT OF FIVE of next year's marriages will be remarriages... THE WARDORF ASTORIA employs three men who do nothing but break liquor bottles.

QUOTE—Was none other than John R. Leach who said, "Attending a convention with your wife is like going hunting with the game warden. Surely you remember Mr. Leach? He is that Portland, Ore., fellow who stated, "Take care of the pennies and the dollars will take care of your lawyer." Mr. Leach's stationery is imprinted with his name, address, measurements (39-44-42), and the inscription: "Time is a great healer but a lousy beautician."

DON'T KNOW who's financing it, but a research outfit in Chicago reports it has been working for a dozen years on a pill to grow curly hair... ENROLLMENT in girls' colleges around Colorado Springs, Colo., promptly jumped 22 per cent after the opening there of the Air Force Academy... CERTAINLY CAN'T turn down the nomination to our Proper Job Club of that excellent lady in the Army Nurse Corps named Capt. Wealthy Swab.

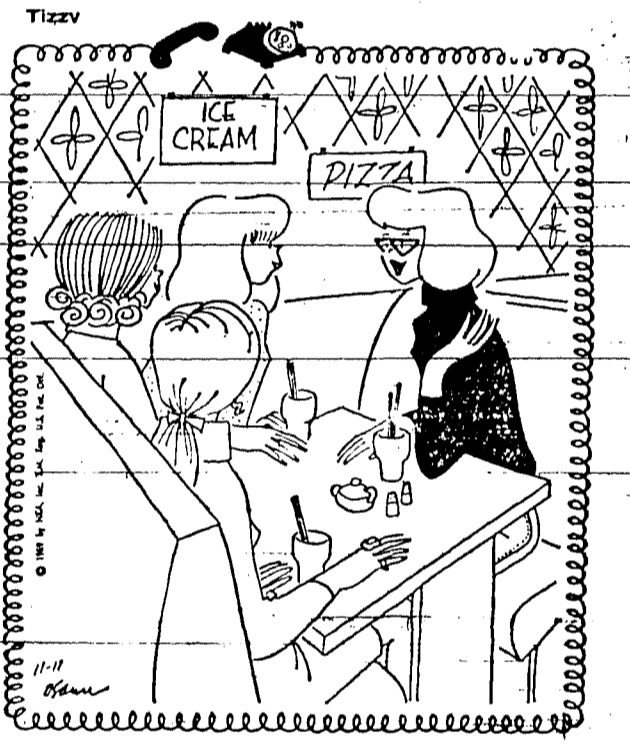

FILMS—Am asked if any cowboy movies were produced in Hollywood during World War II. A few, a few. But they were filmed without cows. Meat-ra-

tioning was in force, if you recall, and the old stampede scene, which can reduce the cattle weight considerably, was banned... CUSTOMER SERVICE: Q. "When you consider what happened to 'hepat' and 'zoot suit,' ask your Language man how long he thinks 'pod' and 'hippie' will survive in American talk." A. He figures "hippie" will be gone in five years. But usage will change the spelling of "pod" to "pot" and it will still be around at the turn of the century. Not all slang passes quickly, you know. When Mr. Chaucer spoke of "bones" and "goons," he too meant dice and thugs.

BEAUTY—In the majority judgment of the Caricaturists' Society of America, Miss Polly Bergen has the most beautiful eyes in the world, Miss Elizabeth Taylor the most beautiful lips and Miss Sophia Loren the most beautiful neck.

OFFICE NOTE—Is your secretary aware her typewriter has about 2,200 parts? A precision instrument, that. Incidentally, a little yellow pencil is a precision instrument, too. At least it is put together with great precision in one of the most delicate of manufacturing operations. The lead has to be exactly centered, and I mean exactly. If it were not, you couldn't put a point on the thing in a sharpener. That's it. I've told you all I know about little yellow pencils.

Your questions and comments are welcomed and will be used wherever possible in "Checking Up." Address mail to L. M. Boyd, in care of Times-News.

"I suppose we ought to demonstrate our patriotism more—how about setting up a Spiro T. Agnew fan club?"

# NOW COLLECT "EXTRA CASH" FOR BEING IN THE HOSPITAL

YES! "EXTRA CASH" PAID DIRECT TO YOU!

- "EXTRA CASH" THAT'S ALL 100% TAX FREE!
- "EXTRA CASH" TO SPEND AS YOU PLEASE!
- "EXTRA CASH" OVER AND ABOVE ANY OTHER HOSPITAL INSURANCE, EVEN MEDICARE!

Think of it. Now, with a stroke of your pen, you can have tax-free, expense-free extra cash paid direct to you when a sudden accident or unexpected illness hospitalizes you or a covered member of your family! And you may enroll during this limited Enrollment Period without having to see a company representative and without any red tape whatsoever. All you need do is mail the Enrollment Form below together with just \$1 before the expiration date. It's that easy!

**Why You Need Extra Cash**

In Addition To Ordinary Hospital Insurance  
 Anyone who has been in the hospital recently knows ordinary hospital insurance—even Medicare—simply will not cover everything. You have to pay many "extras" out of your own pocket—and it can add up to hundreds of dollars in a frighteningly short time. But even if your ordinary hospital insurance covers most of your medical and hospital bills, what about the bills that keep piling up at home? If you, as husband, father and breadwinner are suddenly hospitalized, your income stops, your expenses go up. Even if you have some kind of "salary insurance"—it probably won't come close to replacing your full-time pay. If your wife is suddenly hospitalized, who will look after the family, do the laundry, the marketing, the cleaning? You may have to take time off from your job—or hire full-time domestic help—to take care of things at home. If one of your children is suddenly hospitalized, you will certainly spare no expense. You wouldn't even think of the cost. If you're over 65 and are suddenly hospitalized, Medicare, fine as it is, won't pay all of your hospital expenses or any household expenses. Most senior citizens won't want to use up savings it may have taken a lifetime to accumulate... they want to retain their independence and not become a "burden" to their children or community. Without "extra cash" protection, a hospital emergency may leave you with savings gone, debts you can't pay, peace of mind shattered—even your recovery can be seriously delayed by money worries!

**How The Plan Protects You And Your Family**  
 Now, with the unique "extra cash" protection of The Doctors Hospital Plan you can avoid these worries because you can be assured of extra cash income when you or any covered member of your family goes to the hospital. No matter how large your family, no matter what your age of occupation and without any qualifications whatsoever, you can choose any of the four low-cost plans shown at right to meet your family's special needs. In addition to the "extra cash" hospital benefits, you get all these valuable "extra" features:

**Your "Health-Bank Account" Grows Each Month**

Here's a wonderful benefit, no matter which plan you choose—almost like having an extra "Bank Ac-

count." When your policy is issued, your insurance provides up to \$10,000, \$7,500, or \$5,000—depending upon the plan you choose. This is your "Health-Bank Account."

Then, every month your policy is in force, a sum equal to your regular monthly premium (including your first month) is actually added to your maximum! When you have claims, your benefits are subtracted from your "account." It's much like putting money in and taking it out of a bank account.

**Enjoy Life-Long Security**

For as long as you live and continue to pay your premiums, we will never cancel or refuse to renew your policy for health reasons—and we guarantee that we will never cancel, modify or terminate your policy unless we decline renewal or modify all policies of this type in your entire state or until the maximum (Aggregate of Benefits) of your policy has been paid.

**You May Actually Come Out "Money Ahead"**

Because The Doctors Hospital Plan pays you in addition to any other company's health insurance you carry—individual, group or even Medicare—and because all your extra cash benefits are tax-free, you may leave the hospital many dollars ahead... money you don't have to account for to anyone. Of course, you may have only one like policy with Physicians Mutual.

**Enroll For Only \$1**

Regardless of your age, the size of your family, or the plan you select, you get your first month for only \$1.00. If you choose the All-Family Plan—all your eligible children (including future additions) are included at no extra cost. (See box at right for low rates.)

**Extra Cash Protection At Surprisingly Low Cost**

How can a hospital plan offer so much for so little? The answer is simple: We have lower total sales costs. The Doctors Hospital Plan is a mass enrollment plan. All business is conducted between you and the company by mail. No salesman will call. It all adds up to real savings we share with you by giving you high quality protection at low cost.

**Offered By Physicians Mutual "The Doctors Company"**

Your policy is backed by the resources, integrity and reputation of the Physicians Mutual Insurance Company, "the doctors company," specializing in health and accident protection for physicians, surgeons and dentists for more than 65 years. Dunne's Insurance Reports, one of the leading insurance industry authorities in the nation, gives Physicians Mutual its highest policyholder's rating of "A Plus (Excellent)." Serving hundreds of thousands of policyholders throughout the United States direct by mail, Physicians Mutual has its headquarters in Omaha,

**\$100<sup>00</sup> a Week "Extra Cash" When You Are Hospitalized**

**\$75<sup>00</sup> a Week "Extra Cash" When Your Wife Is Hospitalized**

**\$50<sup>00</sup> a Week "Extra Cash" When Each Eligible Child Is Hospitalized**

**\$350<sup>00</sup> a Week Double "Extra Cash" When You and Your Wife Are Both Injured and Hospitalized**

**PLUS 50% Increased "Extra Cash" for Cancer, Heart Attack, or Stroke**

**ACT NOW! LIMITED ENROLLMENT EXPIRES MIDNIGHT, NOVEMBER 30, 1969**

Regardless of Your Age or the Size of Your Family, You Can Enroll for Only \$1.00

**CHOOSE THE PLAN THAT SUITS YOU BEST**

**ALL-FAMILY PLAN \$10,000 MAXIMUM.**

**PAYS YOU: \$100 weekly (\$14.28 daily) extra cash when you are hospitalized. \$75 weekly (\$10.71 daily) when your wife is hospitalized. \$50 weekly (\$7.14 daily) for each eligible child hospitalized.**

If yours is a young, growing family, we recommend the All-Family Plan. All your children (including future additions) between 3 months of age and under 21 are included at no extra cost as long as they are unmarried and live at home.

You pay only \$7.95 a month and you get your first month for only \$1.00!

**ONE-PARENT FAMILY PLAN \$7,500 MAXIMUM**

**PAYS YOU: \$100 weekly (\$14.28 daily) extra cash when you are hospitalized. \$50 weekly (\$7.14 daily) for each eligible child hospitalized.**

If you are the only parent living with your children, we suggest the One-Parent Family Plan. This plan has been tailored to help meet your particular needs—it covers you and all unmarried children living at home between 3 months of age and under 21.

You pay only \$5.95 a month and you get your first month for only \$1.00!

**HUSBAND-WIFE PLAN \$7,500 MAXIMUM**

**PAYS YOU: \$100 weekly (\$14.28 daily) extra cash when you are hospitalized. \$75 weekly (\$10.71 daily) when your wife is hospitalized.**

If you have no children, or if your children are grown and no longer dependent on you, you will want the Husband-Wife Plan.

You pay only \$6.45 a month and you get your first month for only \$1.00!

**INDIVIDUAL PLAN \$5,000 MAXIMUM**

**PAYS YOU: \$100 weekly (\$14.28 daily) extra cash when you are hospitalized.**

If you are living by yourself, or if you wish to cover only yourself or one family member, choose the Individual Plan.

You pay only \$3.95 monthly and you get your first month for only \$1.00!

On all plans, your "extra cash" benefits are paid from the very first day you enter the hospital, for as long—and for as many times—as you are hospitalized, right up to the maximum (Aggregate of Benefits) of the plan you select.

Naturally The Doctors Hospital Plan will cover any new accident or sickness. New accidents are covered immediately. After your policy is 30 days old, you are covered for new sicknesses which begin thereafter. There are only these minimum necessary exceptions: pregnancy or any consequence thereof

(unless you have the All-Family Plan or the Husband-Wife Plan, each of which covers maternity after the policy is in force for 10 months), war, military service, mental disorder, alcoholism or drug addiction, or conditions covered by Workmen's Compensation or Employers Liability Laws.

You are free to go to any lawfully operated hospital of your own choice, with these exceptions only: nursing homes, convalescent, extended-care, or self-care units of hospitals; or Federal hospitals.

Nebraska, and is licensed and incorporated in that state. Its Board of Directors is composed entirely of respected members of the medical, dental and insurance professions.

**"Easy To Enroll! No Salesman Will Call!**

During this limited enrollment period there are no other qualifications other than to complete and mail the Enrollment Form below. We will issue your Doctors Hospital Policy (Form P322 Series) immediately—the same day we receive your form. This

automatically puts your policy in force. Along with your policy you will receive a simple, easy-to-use Claim Form. When you need your benefits, you can be sure that your claim will be handled promptly.

**Protect Your Family—Enroll Now. If Not Satisfied Your \$1 Will Be Refunded**

Take a moment now to fill out your Enrollment Form and mail it with only \$1.00 for your first month. When you receive your policy, you'll see that it is honest and easy to understand. But if for any rea-

**SPECIAL EXTRA BENEFITS!**

Whichever plan you choose, you get: **50% INCREASE IN YOUR CASH BENEFITS**... if you or any member of your family is hospitalized for cancer (including Leukemia and Hodgkin's Disease), heart attack (acute myocardial infarction), coronary thrombosis and coronary occlusion, or stroke (apoplexy).

If you choose the All-Family Plan or the Husband-Wife Plan, you get in addition:

**"DOUBLE CASH BENEFITS"** if both you and your wife are injured and hospitalized at the same time: You get **twice the amount—\$350 A WEEK!**

Important—Here is another real "plus"—if you have been told that anyone in your family is "un-insurable"! Even if one of your covered family members has suffered from chronic ailments in the past—ailments that come back again and again, or are likely to recur—you will be covered for these pre-existing conditions after your policy has been in force for one year!

**IF YOU ARE OVER 65**

Even though Medicare will pay most of your hospital expenses it will not cover all of your needs. During this limited enrollment, you can get the extra cash protection needed during the high-risk senior years without any qualifications just by using the form below!

It's a fact that people over 65 go to hospitals more often and have larger hospital bills. That's exactly why they need extra cash protection! And that's why some hospital plans won't accept them or charge rates beyond their means. But The Doctors Hospital Plan not only accepts you regardless of age, it gives you easy-to-carry protection that is within your means. If you are over 65 now, or when you become 65, the following modest monthly additional rate applies:

Female on All-Family or Husband-Wife Plan	\$2.50
Female on One-Parent Family or Individual Plan	3.50
Male on any Plan	3.50

## 19 Important Questions Answered

**ABOUT THE NEW DOCTORS HOSPITAL PLAN**

**1. What is The Doctors Hospital Plan?**

The Doctors Hospital Plan is a brand-new, low-cost health protection plan—that pays extra cash direct to you when a covered accident or illness hospitalizes you or a covered member of your family.

**2. Why do I need The Doctors Hospital Plan in addition to my regular insurance?**

Probably your present hospital insurance won't cover all your hospital expenses, but even if it does, you will still need help to cover all your household expenses when you are hospitalized.

**3. Can I collect even if I carry other health insurance?**

Yes. The Doctors Hospital Plan pays you in addition to any health insurance you carry, whether individual or group—even in addition to Medicare! And all your benefits are tax-free! Of course, you may have only one like policy with Physicians Mutual.

**4. Is there a lot of red tape to qualify?**

None at all. Your only qualification is to complete and mail your Enrollment Form by the deadline date shown.

**5. Which plan should I choose?**

You may choose any of four low-cost plans—you can actually select the exact plan that suits you best! If yours is a young, growing family, we recommend the ALL-FAMILY PLAN. You and your wife are covered at once for accidents, for new sicknesses after 30 days, and for maternity benefits after 10 months. All your children (and future additions) between 3 months and under 21 are included, at no extra cost, as long as they are unmarried and live at home.

If you are the only parent living with your children, we suggest the ONE-PARENT FAMILY PLAN. This covers you and all unmarried children living at home between 3 months of age and under 21.

If you have no children as yet, or if you have children who are grown and no longer dependent on you, you will want the HUSBAND-WIFE PLAN.

Or, if you are living by yourself, choose the INDIVIDUAL PLAN.

6. If I become hospitalized, when do my benefits begin? On all plans, your cash benefits are paid from the very first day of covered hospital confinement, for as long—and for as many times—as you are hospitalized, up to the maximum (Aggregate of Benefits) of the plan you choose.

7. How much can I be paid? Each plan has its own "Aggregate of Benefits," what we call the maximum.

For example, under the ALL-FAMILY PLAN, the maximum is \$10,000—\$100 a week (\$14.28 a day) extra cash income for you; \$75 weekly (\$10.71 daily) for your wife; \$50 weekly (\$7.14 daily) for each of your eligible children.

Under the ONE-PARENT FAMILY PLAN, the maximum is \$7,500—\$100 weekly (\$14.28 daily) for you; \$50 weekly (\$7.14 daily) for each of your eligible children.

Under the HUSBAND-WIFE PLAN, the maximum is \$7,500—\$100 weekly (\$14.28 daily) for you; \$75 weekly (\$10.71 daily) for your wife.

Under the INDIVIDUAL PLAN, the maximum is \$5,000—\$100 a week (\$14.28 a day) for you.

8. Are any additional benefits included in The Doctors Hospital Plan?

Yes. You receive a 50% increase in cash benefits if you or any covered family member is hospitalized for cancer (including Leukemia and Hodgkin's Disease), heart attack (acute myocardial infarction), coronary thrombosis and coronary occlusion, or stroke (apoplexy).

9. What are the "double" cash benefits? If you and your wife are both injured and hospitalized at the same time and are covered by the ALL-FAMILY PLAN or the HUSBAND-WIFE PLAN, you get double cash benefits. You get twice the amount—\$350 A WEEK!

10. Does this plan pay in any hospital? You will be covered in any lawfully operated hospital except nursing homes, convalescent, extended-care, or self-care units of hospitals; or Federal hospitals.

11. When does my policy go into force? It becomes effective the very same day we receive your Enrollment Form. New accidents are covered on that date. After your policy is 30 days old, new sicknesses which begin thereafter are covered. Under the ALL-FAMILY PLAN and the HUSBAND-WIFE PLAN, childbirth or pregnancy or any consequence thereof is covered after your policy is in force for 10 months.

12. What if someone in my family has had a health problem that may occur again? Even if one of your covered family members has suffered from chronic ailments in the past, pre-existing conditions are covered after the policy has been in force for one year.

13. What conditions aren't covered? Only these minimum necessary exceptions: pregnancy or any consequence thereof (unless you have the ALL-FAMILY PLAN or the HUSBAND-WIFE PLAN), war,

military service, mental disorder, alcoholism or drug addiction, or if something happens "on the job" and is covered by Workmen's Compensation or Employers Liability Laws.

14. Can I drop out any time? Can you drop me? We will never cancel or refuse to renew your policy for health reasons—for as long as you live and continue to pay your premiums. We guarantee that we will never cancel, modify or change your policy unless we decline renewal or modify all policies of this type in your entire state or until the maximum (Aggregate of Benefits) of your policy has been paid. You, of course, can drop your policy on any renewal date.

15. Why is The Doctors Hospital Plan almost like having an extra "bank account"? When your policy is issued, your insurance provides up to \$10,000, \$7,500, or \$5,000—depending upon the plan you choose. This is your "Health-Bank Account." Then, every month your policy is in force, a sum equal to your regular monthly premium (including your first month) is actually added to your maximum. When you have claims, benefits are subtracted from your "account!"

16. Will my claims be handled promptly? Yes. With your policy, you will receive a simple, easy-to-use Claim Form. Your claims will be processed quickly and your checks sent directly to you.

17. Why are the premiums so low? With The Doctors Hospital Plan, you actually get all these benefits—at such a low cost—because this is a mass enrollment plan—and no salesman will call. Our volume is higher and our total sales costs are lower!

18. How much does my first month cost? Only \$1.00, regardless of your age, the size of your family or the plan you select. After the first month, if you are under 65, you pay only these low monthly rates: only \$7.95 a month for the ALL-FAMILY PLAN; only \$5.95 a month for the ONE-PARENT FAMILY PLAN; only \$6.45 a month for the HUSBAND-WIFE PLAN; only \$3.95 a month for the INDIVIDUAL PLAN. (When you are over 65, premiums increase. See modest increases in box above.)

19. Why should I enroll right now? Because an unexpected sickness or accident could strike without warning—and you will not be covered until your policy is in force. Remember, if for any reason you change your mind, you may return your policy within 10 days and your \$1.00 will be refunded immediately.
