TEN CENTS

SECRETARY OF STATE William P. Rogers was at the Capitol when this picture was taken to brief Senate Foreign Relations Committee Chairman J. William Fulbright, right, and other committee members on the tense situation in Indo-China. (UPI telephoto)

## Arms To Cambodia Strongly Opposed

WASHINGTON (UPI)—Secretary of State William P. Rogers ran into firm and unanimous opposition from the Senate Foreign Relations Committee Monday to any American military aid for the beleaguered government of Cambodia.

Rogers told the committee in a two-hour closed session that the Nixon administration still has under consideration the request from Cambodia for help in fighting the North Vietnamese and Viet Cong.

But Sen. J. William Fulbright, D-Ark., the committee chairman, and George Aiken, of Vermont, its ranking Republican member, reported that the 11 members who met with Rogers made clear their strong opposition to any arms—even "dribbles," as Fulbright put it.

Fulbright said the request amounted to "hundreds of millions of dollars" worth of arms — everything, he said, from helicopters to spam, the prepared canned meat.

Gov. Samuelson, who explained the plan to the lunchroom delegates, said the highway board has authorized the design and studies to determine the exact type of structure at the existing location.

Highway board officials, the governor said, agreed the present site would be less expensive in the long run and would adequately serve the traffic needs.

LIBERTY CORNER, N.J. (UPI)—The Klenast quintuplets—three pink bundles with bows and two blue-blanket-wrapped artfuls—came home Monday to a house friends and neighbors helped build for them.

NEW YORK (UPI)—Police arrested 10 youths in their Harlem basement clubhouse Monday night and confiscated a cache of 40 Molotov cocktails and a half dozen home-made pipe bombs.

### Vatican

VATICAN CITY (UPI)—The Vatican announced today it will disclose its new rules for mixed marriages between Roman Catholics and non-Catholics on Thursday.

They said Pope Paul VI has made no change in the requirement that children of such marriages must be brought up as Roman Catholics.

## Attorney Sees Rupert Case "Ahead Of Time"

A Denver district attorney said Monday afternoon that the decision of Judge Sherman Bellwood, Rupert, to commit six teenagers to the state prison for drug violations was "a year or two ahead of its time."

The statement was made by Mike McKeivitt of the National District Attorney's Association as he spoke to about 300 attending a drug abuse symposium in Twin Falls at CSI.

SAIGON (UPI)—Ambassador Ellsworth Bunker is expected to ask President Nixon next week to replace him by late summer as the top American diplomat in Vietnam, U.S. sources said today.

NEW YORK (UPI)—The three major television networks and a number of independent television stations have canceled the anti-smoking television commercials filmed by actor Tony Curtis because of his conviction in London Monday for possession of marijuana.

WASHINGTON (UPI)—The House Post Office Committee today starts drafting a new postal reform bill as two independent union leaders threatened another round of postal worker strikes if the Nixon administration's reform bill is enacted.

### Round Of Strikes Possible

WASHINGTON (UPI)—The House Post Office Committee today starts drafting a new postal reform bill as two independent union leaders threatened another round of postal worker strikes if the Nixon administration's reform bill is enacted.

Bill thousands of postal workers went on strike in mid-March and in negotiations that ended the strike, the administration modified its reform measure so the department would be operated by an 11-member commission, which would appoint the postmaster general without Cabinet rank.

ASHBY SMITH, president of the 48,000 member Alliance, said he had been "mandated" by his union to call a strike. David SILVERBERG, president of the 90,000 member NPU, said "we are standing with the Alliance in whatever action it takes."

## Bunker Will Ask To Leave Office

SAIGON (UPI)—Ambassador Ellsworth Bunker is expected to ask President Nixon next week to replace him by late summer as the top American diplomat in Vietnam, U.S. sources said today.

NEW YORK (UPI)—The three major television networks and a number of independent television stations have canceled the anti-smoking television commercials filmed by actor Tony Curtis because of his conviction in London Monday for possession of marijuana.

WASHINGTON (UPI)—The House Post Office Committee today starts drafting a new postal reform bill as two independent union leaders threatened another round of postal worker strikes if the Nixon administration's reform bill is enacted.

### Quints Are Home With Parents

LIBERTY CORNER, N.J. (UPI)—The Klenast quintuplets—three pink bundles with bows and two blue-blanket-wrapped artfuls—came home Monday to a house friends and neighbors helped build for them.

# Mrs. Koontz Gets Soroptimist Post

Delegates to the Rocky Mountain Region, Soroptimist Federation of America, Inc., conference in Caldwell returned to Twin Falls Monday to announce the election of Edythe D. Koontz, Twin Falls, as governor of the region.

Mrs. Koontz, a former president of the local club, has served the past three years as lieutenant governor. Others who attended from this area included Nedra Greene, Ina Howard, Lora Doss, Shirley Easton, Ruth Caeter, Ruth Guyer and Louise Bush.

The Soroptimist organization is the world's largest classified service club for executive business and professional women. It involves 1,683 clubs in 40 countries and a total membership of 53,000 women.

Mrs. Koontz said one of the leading programs of Soroptimist, the Youth Citizenship Award, has been signaled for honors by the Freedoms Foundations for a seventh time and has earned the coveted George Washington Honor Medal. This involves the granting of \$1,000 to those young citizens selected in 15 regions and two affiliated areas of the Soroptimist Federation of America, Inc., as outstanding in contributing to home, community and the world. An additional \$1,500 is granted to one of the 17 youths as a finalist.

The Twin Falls Soroptimist Club won first place in the region for publicity, using news coverage of their Youth Citizenship Award project.

As regional governor, the Twin Falls businesswoman will serve the Soroptimist program in the states of Nebraska, Colorado, Wyoming, Utah and Idaho.

Weeds and sometimes, nutritious pasture plants will produce off-flavors in milk.

EDYTHE D. KOONTZ

## FAA Aide, City Heads Discuss Airport Project

Loren Spencer, Federal Aviation Agency, Washington, D. C., met Monday with Twin Falls City Manager, Jean Millar; Airport Manager Harry Merrick and City Engineer, George Michael to discuss federal participation in the local airport improvement project.

Mr. Millar said the purpose of the meeting was to provide information to the FAA on means of providing more rapid and better service from the federal government on such projects as the local one.

Mr. Spencer is currently meeting with city officials where such programs are under way to determine what can be done to improve communications and facilitate federal cooperation.

THESE TALENTED YOUNG musicians of the Twin Falls area, Julia Westendorf, on left, and Gordon Graff, will perform violin and piano solos, respectively, during the first statewide convention of the Idaho Federation of Junior Music Clubs Saturday at the College of Southern Idaho Fine Art Center. A number of students from the five districts of the federation, all of whom have earned "superior" ratings at music festivals, will perform during the conference. (Times-News photo by Lee Tremaine)

# Junior Music Clubs' State Convention Scheduled Here

Young musicians from throughout Idaho will gather in Twin Falls this weekend for a unique event — the first Idaho convention of Junior Music Clubs, scheduled Saturday in the Fine Arts Building at the College of Southern Idaho.

The Junior Music Club of Twin Falls is sponsored by the adult organization, the Twin Falls Music Club, and both are affiliated with the National Federation of Music Clubs.

The assembly will feature an unusual format for a convention; young musicians will perform throughout the day, with the public, and especially the younger generation, cordially invited to attend any portion of the day's activities. Registration will be conducted from 9 to 10 a. m. with the formal opening of the convention scheduled at 10 a. m. by Mrs. D. H. Kidd, Pocetello,

the presentation of the Colors by grade-school students of Twin Falls, and the recitation of the Pledge of Allegiance.

Chris Blastock, accompanied by JoAnn Vincent, will present the National Anthem, followed by the "collect" and pledge by Kimberly students; a junior hymn by Daren Nussbaum, accompanied by Lynette Berry; the formal welcome to delegates by Mrs. Kidd, state music clubs counselor, and Mrs. Frank DeLuca, co-chairman of the convention; response by Pocetello delegates; introduction of guests by Mrs. Kidd, and outline of convention program by Mrs. John Biercoll.

The convention program calls for musical numbers following the presentation of items of business. James Salisbury will present the report of District One, Twin Falls, at 10:30 a. m., followed by a vocal solo by

Linda Talley, a violin number by Julia Westendorf and a piano solo by Gordon Graff.

Others scheduled to perform during the convention include Nancy Elshenberger, Norma Dominick, Alyson Lowder, Leone Miller, Steven Spender, Steve Eyre, Susan Houghland, Carol Ann Floyd, the CSI stage band, Suzuki-trained violinists of Mrs. Del Slaughter, and the Hackney Ballet School.

All students performing during the convention have earned "superior" ratings at the district music festivals earlier this year.

An added feature of the convention will be the Mason-Hamlin Scholarship competition for a first-place award of \$500, second of \$300 and third, \$200. All prizes will be in the form of scholarships to any recognized educational institution for the furtherance of

musical studies.

Laura Vincent of Twin Falls will compete against Susie Skyrn, Caldwell, and Peter Durney, Pocetello, for the scholarship awards. The competition is scheduled at 4 p. m. at the CIS Fine Arts Building, and is open to the public.

Three drawings for door prizes will be conducted during the day. The conference and its musical activities are designed to honor National Music Week, as a part of the statewide celebration.

## Republican Is Candidate For District 7 Seat

LEWISTON (UPI) — Curtis D. Larson, Lewiston, became the first Republican to enter the race for one of the two state house seats from District 7.

Three Democrats have already announced their candidacy for the two spots. The Democrats are House Minority Leader Ed Williams, Lewiston; former state Rep. A. L. White, Orofino; and Fred A. Jabbara, Cullisac.

Indications are at present that state Rep. Dee Merrill, D-Elk River, will not seek re-election. The top two vote getters in the general election take the two positions from District 7, which includes Clearwater and Nezperce Counties.

## Library Will Close So Staff Can Attend Meet

Librarian Robert Bruce announced Tuesday the local public library will be closed April 30, May 1 and 2, to allow staff members to attend the Idaho Library Association Conference in Burley.

About nine members from the local staff will be attending the three-day state meeting. Mr. Bruce said, Trustees and Friends of The Library also will

participate in conference sessions.

Mr. Bruce, Idaho member of the National Library Association, will speak during the first general session Thursday on public libraries. Among other speakers are Gerald Shields, editor of "American Libraries" who will give the keynote address Thursday.

## Filer Class To Plan Reunion

FILER — Members of the Class of 1940 at the Filer High School will hold a meeting Thursday at 8 p. m. at the home of Mr. and Mrs. Leonard Fisher, Twin Falls, to discuss plans for a 30-year reunion.

The Fisher home is located four miles east and one-half mile north of the Washington School in Twin Falls. Additional information is available from Mrs. Fisher 733-6015 or Mrs. Carl Grabert, 733-6048.

## Quitting Smokes? — Here's Aid

Smokers who would like to change their ways, but just haven't been able to make the grade on their own, will be offered some professional assistance at the YMCA-YWCA next week.

A five-day plan for those wishing to give up smoking is scheduled beginning May 3 and continuing through the week, with a physician-dentist-clergyman team on hand to assist.

This program has been successful in a number of larger cities, and will be sponsored here by the Seventh Day Adventist Church for all interested area residents. Conducting the program will be Dr. R. A. Drake, physician; Dr. George Wemenberg, dentist, and Rev. S. O. Francisco of the Twin Falls Seventh-Day Adventist Church. Group therapy sessions will be held at 8 p. m. each evening with the aim of helping improve the health of the community and contributing to the national physical fitness program, Rev. Francisco explained.

MOTHER'S DAY SUNDAY, MAY 10

Give Mom a Break Take her out to Dinner this week!

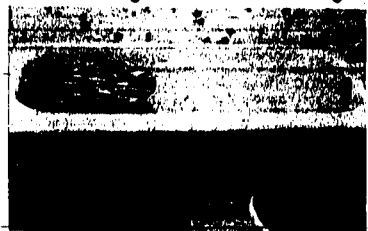

Come dine in the Evening Home-made Soups

Smilly's PANCAKE HOUSE

348 Addition Ave. West

OPEN 7 DAYS Hours: 6:10 A.M. to 9 P.M.

## Cheney's Safety Bath Lift

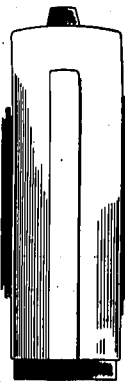

Does someone in your home need a lift out of the tub? Cheney's bath lift is the answer. Lies flat in the bottom of the tub. It raised and lowered hydraulically with push-button controls. Enables the disabled to enjoy the soothing comfort of a tub bath. Convenient and safe for the whole family. Can be installed in your own bathtub.

GAS Heats Water 1/3 Faster for 25% LESS than Electric Water Heaters

Electricity for

WASHING MACHINES

DISH WASHERS

SMALL APPLIANCES

A balanced power home provides the ultimate in economy, efficiency, convenience and comfort. Natural gas makes short work of high-energy jobs — water heating, heating, cooking and clothes drying — at the lowest pos-

sible cost. Electricity provides lighting and runs countless appliances throughout the home. Discuss this proposition with the friendly folks at the Gas Company.

GAS DOES THE BIG JOBS BETTER FOR LESS!

INTERMOUNTAIN IDAHO'S PARTNER IN BETTER LIVING

WASHINGTON (NEA)—The biggest top-down town—not to mention elsewhere—in the country is the nation that if the space program were somehow cut to the bone we could be spending the money "more usefully" to solve the nation's urban and other social ills.

Security and health, (mostly for the aged), in the decade of the 1960s. In the second, and I have examined this matter in terms of detailed figures before, there is no convincing evidence in U. S. history that when war or some other extraordinary event (like the leap to the moon) ends, Congress simply goes on spending the same total sums but reallocates the "extra" appropriations to "more fruitful" domestic uses.

Anybody with a pencil and a little basic arithmetic with these prospects can understand very quickly that if the space program never got another dime and the war's expense began tapering off sharply toward zero tomorrow, all the moneys saved would be speedily swept up in this almost uncontrollable upward spiral of social costs.

Now some of this is inevitable. People cost money. And we are boosting our numbers every day. Unless we are seriously prepared to act to control population growth, at least some portion of the con-

education tasks — have been substantial failures. I heard not just conservative Republicans — but one-time liberal firebrands like Hubert Humphrey talking this game as long as five years ago. Everybody in this town who has his head screwed on right knows these men are dwelling on the hard realities.

A Tall Order

If the movement to impeach Supreme Court Justice William O. Douglas, led by Republican floor leader Gerald R. Ford of Michigan, gets as far as a vote, and if a majority of the House of Representatives concurs it would be the first time such a thing has happened in 166 years.

Should two-thirds of the Senate subsequently vote to convict Douglas on the Articles of Impeachment brought against him by the House, it would be the first time in the nation's entire history that a Supreme Court justice was removed from office.

The uniqueness of this possible event demands that whatever charges may be brought against Douglas be of the most serious nature. Anything less will simply not do.

The Constitution is, as usual, both specific and vague on the matter. Judges shall hold office "during good behavior" and, like all other civil officers of the United States, shall be removed from office on impeachment for and conviction of treason, bribery or other high crimes and misdemeanors.

If more than a century and a half of precedence and tradition are any guide, "misdemeanors" does not include a ragbag indictment involving the personal philosophy, public decisions or private life style of a judge which some congressmen may find distasteful.

Before 1804-05 and the impeachment and trial of Supreme Court Justice Samuel Chase, the independence and near inviolability of the judicial branch was far from accepted.

Democratic-Republican Sen. William Branch Giles of Virginia put it plainly to the court, which then consisted of only six justices: "We want your offices, for the purpose of giving them to men who fill them better."

Removal by impeachment, argued Giles, was nothing more than a declaration by Congress that those impeached hold "dangerous opinions." If justices of the Supreme Court offended Congress by their decisions, it was the undoubted right of Congress to impeach and remove them.

Giles was referring not only to Justice Chase but four other justices, all of whom were Federalists appointed by Washington or Adams. Only one justice, appointed by Jefferson,

was to be spared in the planned purge.

Chase was an arrogant, intolerant, arbitrary judge, compared to whom even the SDS would have to admit Judge Julius Hoffman of Chicago. Seven fame is a paragon of patience and moderation. Chase was not, however, by any stretch of the imagination, guilty of criminal conduct.

The Senate voted his acquittal (by a margin of three votes on one charge), and by so doing established "a mile-stone in the struggle for independence of the judiciary," wrote Charles B. Blackmar in the Journal of the American Judicature Society a few years ago.

"It can be argued as Senator Giles argued that Congress has the naked power to impeach a judge for any reason at all or for no reason, but the Senate in 1805 decided that the impeachment power should be exercised only for the gravest cause. The example of forbearance which a highly partisan Senate set at that time should stand as a constant example and guidepost for future legislatures."

At the time Blackmar wrote those words, it was Chief Justice Earl Warren, not Douglas, whose head some people devoutly desired. Today, the thinking seems to be that if judges like Clement F. Haynsworth or G. Harrold Carswell can be declared unfit to sit on the high bench, why should Douglas be permitted to continue to sit there?

There is plenty about Douglas that rubs a lot of Americans the wrong way — his part in the court's dismantling of the country's sexual censorship and its alleged "coddling" of criminals, his acceptance of a fee from a foundation associated with gambling interests, his penchant for young wives, his authorship of anti-establishment articles in magazines noted more for eroticism than erudition.

But unless Ford and his colleagues can come up with more solid complaints than these — which in reality amount to little more than a formless dislike and distrust and fear of Douglas' "dangerous opinions" — they may only make themselves look foolish and could do far more damage to the good name of the court than anyone has yet charged Douglas with doing.

ROBERT ALLEN AND JOHN GOLDSMITH

Rites Of Brezhnev

Washington — In the festivities attending Russia's celebration of the V. I. Lenin centennial, party secretary Leonid I. Brezhnev has moved to center stage as the Kremlin's number one spokesman.

Brezhnev has grabbed the Moscow spotlight in the view of top Kremlinologists here. That development is apparently a culmination of weeks of tension and uncertainty in Moscow — weeks in which a number of Russia's top leaders were "killed" or otherwise dropped from sight.

There is a feeling among the top experts here, however, that there may be more to come with respect to the Kremlin's shifting power structure.

Brezhnev's emergence, as reflected by the Russian propaganda machine, has been truly impressive. Three of his speeches last week were nationally televised and given a big build-up in the Russian press. He had not made a national address since November.

In the pre-centennial celebrations, other members of the Politburo made speeches too. President Nikola V. Podgorny spoke in Orenburg. Premier Alexei N. Kosygin spoke in Kurak and Politburo member Andrei P. Kirilov spoke in Yerevan. None of these speeches got the Brezhnev treatment, however.

It can be argued that Brezhnev, as the top party official, should be expected to figure prominently in festivities honoring Lenin, whose writings charted a political course for the Soviet Union. In his speeches, however, Brezhnev did not come forward to politics but covered a wide spectrum of Kremlin concerns.

Beyond the big publicity build-up, there are other signs that Brezhnev has been enlarging his power base. Two agriculture experts, viewed as Brezhnev associates, were recently reassigned to the top-level committee for science and technology.

That seems, to experts here, to constitute a high-level endorsement of Brezhnev's thesis that agriculture must lead the way in a resurgence for the flagging Soviet economy.

were announced in June for the Supreme Soviet.

In addition, the 24th Communist party congress is to be held later this year, and a Central Committee meeting is expected within the next couple of months to set a date for the congress.

There will, in short, be plenty of opportunity for changes in the Kremlin high command if, as suggested by some sources in Eastern Europe, the Lenin celebration has been exerting a

don't-rock-the-boat influence up to now.

Some changes of that sort have long been expected if not predicted — by Kremlinologists here. Most of the members of the Politburo are old Communists — 60 years old and more.

Some of them, like Kosygin, have frequently been reported as ill, and authorities here are inclined to believe that some are in poor health. So there are good reasons to expect changes, if only from a natural attrition.

ART BUCHWALD - Lecture Scene

WASHINGTON — The most popular speakers on campus these days are the student revolutionaries, black militants and those advocating the legalization of drugs.

And anyone convicted of a crime and out on bail can write his own lecture ticket. I was at the offices of the "Up Against the Wall Lecture Bureau" the other day and the phone didn't stop ringing.

"Hello, Up Against the Wall Lecture Bureau. Who's this?" Harvard U. What can we do for you? "Nope, we're sorry the Chicago Seven are booked up through 1970. But we have some great speakers for you. How would you like Meg Dog Fouquet? You know, the one who wrote the book on student revolution titled 'Mother in the First To Go'."

"Right. Fifteen hundred dollars and expenses... Sure he takes off his clothes at the end... What kind of lecture do you think he gives? Thank you. I'll send the contract."

"Hello... What's that? You're booking speakers for Columbia U. This fall? Let's see... Here's one for you... Ruben Ruben... Yes, that's right. He's the one who hijacked the Goodyear Blimp to Havana... Uh huh. He's out on bail now... He'll be available... Even if he's convicted this summer he'll appeal... You don't think he's a draw?"

"What about Abbie Satchel... You know, the guy who set fire to the elephant house at the Bronx Zoo during last week's anti-Vietnam demonstrations... He's a beautiful person... Two thousand bucks... Of course he'll get the students fired up. He spoke at Simonson Tech last week and

the most cogent debate that has been raging in this country for at least the last year starts from the demonstrable premise that the great money allocations — particularly for welfare but also for some portions of the housing and

GEORGE C. THOSTESON, M.D.

Restless Legs

"Jitter legs," or the "restless leg syndrome," a situation in which, after a person has gone to bed, the legs twitch uncontrollably, is a rather common problem.

A physician who lives a few miles from me encountered this problem, himself, following some circulatory trouble, and passed on to me the three things which were most helpful to him: 1 — Elevate the foot of the bed with an ordinary brick under each corner post.

2 — Use a lightweight electric blanket instead of the usual heavy blankets.

3 — Do not tuck in the covering sheet and blanket at the foot of the bed.

All of these are entirely logical, but when logic is reinforced by practical success, that's better yet. In behalf of all who may benefit by these tips, I thank W.F.B., M.D.

Dear Dr. Thosteson: Here's 25 cents and a long, self-addressed envelope for your booklet "How to Stop Leg Cramps and Foot Pains" etc. It would be interesting to know your opinion of cigarette smoking as related to leg cramps. My own doctor says they do not cause the condition but definitely contribute to it. — D.H.L.

His views and mine agree completely.

Dear Dr. Thosteson: The past few months I have been seeing halos around lights — approaching car lights, etc. I will be 72 soon and have enjoyed excellent eyesight these many years, and do not want to neglect my eyes. I tried for an appointment with a specialist but it takes about two or three months so I didn't make an appointment. A friend told me that it could mean glaucoma or high blood pressure.

I haven't consulted a doctor in 15 or 20 years. This may be foolish but I'm on borrowed time, feel good, have lots of energy, and really can't tell that I feel any different than I did at any other age. Have you any information of these halos? — Mrs. O. D. B.

They can be a sign of glaucoma, and as healthy as you feel that could be your case. "BY all means find out. Glaucoma does not as a rule develop rapidly, but the sooner it is detected, the more success there is in treating it. Untreated glaucoma is one of the commonest causes of blindness — possibly the most common one. So even if you have to wait, I'd get an appointment with an eye specialist. When you asked for an appointment, did you say that you suspected glaucoma? That might bring an earlier appointment for you.

Dear Dr. Thosteson: Is it harmful to eat canned soup right out of the can without diluting or heating it? I like it that way. — K. K.

Perfectly safe to do so. Hemorrhoids can be cured! If troubled with fissures, fistulas, itching, and other rectal problems, write to Dr. Thosteson in care of this newspaper requesting a copy of the booklet, "The Real Cure For Hemorrhoids," enclosing a long, self-addressed stamped envelope and 25 cents in coin to cover cost of printing and mailing.

Dr. Thosteson welcomes all reader mail, but regrets that, due to the tremendous volume registered daily, he is unable to answer individual letters. Readers' questions are incorporated in his column whenever possible.

MR. SPECTATOR

Worthy Caterpillars

Those who find history's footnotes as fascinating as Mr. Spectator will be happy to learn that one piece of minor unfinished business dating from World War II has been attended to.

Gen. James H. Doolittle and 34 members of his famed "Tokyo Raiders" have finally been inducted into the Caterpillar Club, which has only one requirement for membership — that a person saved his life by parachuting from a disabled aircraft.

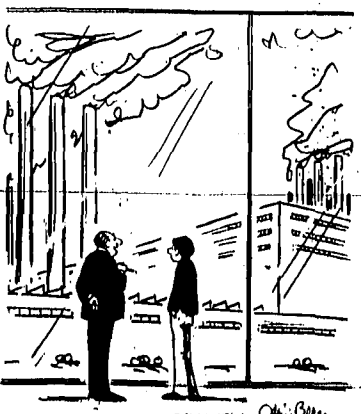

Each of the 35 new members qualified during the historic first air strike made against the Japanese homeland in April, 1942.

There are no surviving raiders out of 80 who participated. The pins were awarded at the group's recent 28th reunion.

Another footnote. For Gen. Doolittle, it was the third time he was inducted into the club. He had twice before saved his life by parachuting from a disabled plane, in 1928 and 1931. On the latter occasion, he sent a four-word telegram to Leslie Irvin, president of Irvin Industries, Inc., who invented the ripcord parachute in 1919 and founded the Caterpillar Club in 1921.

"Airplane failed, chute worked." Mr. Spectator will drink to that one!

### Old Report On Defeats Of GOP Sounds Fresh

WASHINGTON (UPI)—An 11-year-old post mortem report on Republican defeats in the 1958 congressional elections seems as fresh as the current cries from Eastern Republicans for "broadening the base" of the GOP.

Those Easterners want more attention given to the industrial states and big cities. They fear they are being abandoned by the Nixon administration while it is showing greater affection for the South.

The 1958 report was written by Robert Humphreys, who worked for the Republican Congressional Campaign Committee, the GOP National Committee and finally the House-Senate Republican leadership before his death in 1965.

His confidential political memos appear in a newly published book, "Smoke-Filled Rooms."

**Dissects GOP**

Humphreys dissected the GOP in a memo to Leonard W. Hall, national party chairman from 1953 to 1957. Hall had asked what happened in the 1958 elections, which added 15 Democrats to the Senate and 40 to the House.

Never identified with the Eastern establishment, Humphreys had conservative inclinations. But like most pros in

politics, he was more concerned about winning than ideology.

He wrote Hall that a voter wanted to know only that a political party was "interested in him" and looked for some warm human appeal rather than abstractions about a balanced budget, decentralized government, states rights, civil rights and a sound dollar.

"It is the fact that the Republican party is the party of big business because it is run from the big business world," Humphreys said.

**Have to Change People**

"The answer: Obviously you have to change the people running the party; you do not eliminate men from the business world; you dilute them and their influence by broadening the base.

"This we have not done nor is there any indication that we intend to do it."

"The inescapable conclusion is that a cross section of the Republican party is a mere splinter in breadth compared to a cross section of America."

After Richard M. Nixon's 1960 defeat in his first run for the presidency, Republican leaders blamed the weak GOP performance in the big cities. They fiddled with projects to strengthen their support among Negroes, nationality groups and

### The Church Gives All To Poor

By United Press International

Today is Tuesday, April 28, the 118th day of 1970 with 247 to follow.

The moon is in its last quarter.

The evening stars are Mercury, Venus, Mars, Jupiter and Saturn.

On this day in history:

In 1788 Maryland was admitted to the union as the seventh state.

In 1945 Fascist leader Benito Mussolini was executed by Italian patriots.

In 1952 the war with Japan officially ended when a peace treaty with the United States and 47 other nations was signed.

In 1969 French President Charles de Gaulle resigned after being defeated in a referendum.

A thought for the day: President George Washington said, "To be prepared for war is one of the most effective ways of preserving peace."

other predominantly Democratic blocs of voters. But by the end of the decade, the South and the suburbs appeared to offer more immediate dividends.

### Church Gives All To Poor

WASHINGTON (UPI)—The parishioners of a Washington church have decided to donate the church property to the community and use it to develop new low-cost housing.

The action, in response to Black United Front demands for reparations, was taken Sunday by the congregation of St. Stephen and the Incarnation Episcopal Church, on a 137-2 vote. It is believed to be the first such move by an American church.

The 1.25-acre property will be administered by a corporation comprising representatives of the church and of community service groups. Most of the estimated \$300,000 worth of the property will be used as collateral for construction of up to 200 varied housing units.

Worship and community service facilities will be maintained on the site, using either part of the present church or new structures.

The plan was worked out at weekly meetings over the past four months, with about 60 civic and religious groups represented.

## Guatemala Doesn't Rest Easy When Night Falls

GUATEMALA CITY (UPI)—At night in Guatemala City, policemen toot whistles and warble birdcalls so—other patrolmen will know where they are. Many walk in pairs, rattling door locks and thumping picket fences with nightsticks. Almost all carry sub-machine guns.

The whistling and the almost non-existent nightlife are the

first indications that Guatemala, Central America's most populous republic with 5 million citizens, does not rest easy after sundown.

This country bordering El Salvador, British Honduras, Honduras and Mexico, has the highest rate of diplomatic kidnappings and killings this year of any country in Latin America.

The latest was that of Count Karl von Spreti, the West German ambassador who was kidnaped on March 31 and killed on April 5 when the Guatemalan government refused the kidnappers' demands to release 22 political prisoners and pay a ransom of \$700,000.

The government imposed a state of siege, suspended constitutional guarantees and conducted house-to-house searches to find the kidnapers. The police have arrested more than 100 suspects, but no charges have been filed.

Rightwing terrorists reported by kidnapping and killing a known Guatemalan leftist. They said it was the first step in retaliation for Von Spreti's slaying.

It is not a rare occurrence that Communist terrorists somewhere in Guatemala will zip past a lone policeman or a sleepy police patrol at night and open up with machine guns. Usually, on the next night, terrorists from the extreme right—many of them off duty policemen or soldiers—snatch a suspected terrorist, then call the fire department to come and get the corpse.

Buried deep in the morning newspapers are brief stories about the violence. There are items about kidnappings and bodies found floating down rivers. Photos often accompany the articles.

The fact remains that the people are relatively unconcerned about violence.

"We have seen so much blood for so many years that we hardly think it is newsworthy any more," one reporter said.

"Sure, Von Spreti's death bothered us, but certainly not as much as it infuriated the rest of the world. We have violence here all the time and most of it is far bloodier and more gruesome than the Von Spreti death."

There were 364 banking facilities in Hong Kong at the end of 1969.

### Congressional Help On Advisory Units Urged

NEW YORK (UPI)—A foundation study of presidential commissions has concluded that the President should appoint such advisory groups jointly with Congress and perhaps the Supreme Court to make them more accountable to the public.

The Twentieth Century Fund reported Sunday that its study indicated that the use of presidential commissions in the past has led to "genuine abuses, especially the narrowly political use by a president of a mechanism which ostensibly is out of politics and functions best when it actually is apolitical."

In the past, the fund pointed out, significant groups of Americans such as the young, the poor and women have been "consistently underrepresent-

ed" on such panels and groups considered by the establishment as radical have never been represented. As a result commission advice reflects "a consensus of mainstream, prosperous, unalienated individuals."

The report is, however, in favor of retaining commissions because "they are the most effective mechanism in the American government for providing the President publicly with disinterested, prestigious advice."

It cited the Hoover Commission, which dealt with restructuring of the executive wing of government, and the Kerner Commission, which studied the causes of racial rioting, as outstanding examples.

### Solon's Good Thinking Rates 'News' Category

WASHINGTON (UPI)—Good thinking in Congress is not as rare as a day in June, but it still comes under the heading of news when it happens. It is therefore my duty to report an outbreak of good thinking on the part of Rep. William E. Minshall, an Ohio Republican who celebrates on the House defense appropriations subcommittee. In a volume of recently released testimony, Minshall and friends interrogated Gen. William G. Westmoreland about the Army's plan to train certain generals to fly helicopters. The lawmakers expressed concern over the expense of sending generals to flight school and of making them eligible for flight pay. Which was where Minshall had his good thought. Rather than go to the expense of training some of its generals as helicopter pilots, he said, the

Army should simply promote some of the helicopter pilots to general. Stroke of Genius By me, this was a stroke of military genius, worthy of a Von Clausewitz, a Hannibal, a Napoleon or a Mel Laird. Westmoreland, however, failed to embrace it wholeheartedly. "Most of our helicopter pilots are not in the zone of selection for general officer at this time," the Army chief told the subcommittee. Which seems rather a lam demurrer. So what's wrong with pinning bars on a couple of first lieutenants? Minshall also questioned whether there was "really a need for a general officer to be a helicopter pilot." On that point, Westmoreland's reply was more cogent. When a general has helicopters under his command, he should

### Offer Made

ALSDORF, Germany (UPI)—Chemie Gruenthal, manufacturer of thalidomide, has urged acceptance by next Thursday of its \$30 million offer to parents who allege the drug caused their children to be born malformed. In letters to 2,300 families, the company offered to pay \$13.7 million into a trust fund by June and the remainder over three years with interest. A trial of seven Gruenthal executives for negligent homicide, inflicting bodily harm and violating federal drug laws has been underway for three years.

### Drill Team Sets Declo Review

DECLO — A Spring Review will be presented by the Declo High School Stingerettes at 8 p.m. Thursday in the gymnasium. Mrs. Dale Swan, advisor, announced. The group will perform routines that have been presented in competition at Ricks' College and at the Pacific Northwest Drill Competition in Boise. The annual review will give the community the opportunity to view the girls' costumes that netted them the first place trophy at Boise for the most attractive costume. Various types of drills will be presented and between drill variety acts will be featured.

HOSPITALIZED KING HILL — Mrs. Nick Robinson is hospitalized in St. Luke's Hospital, Boise. Her daughter, Tonette, Idaho State University, is here visiting her mother in Boise.

### Electric Firm Is Big Japan Earner

TOKYO (UPI)—Matsushita Electric Industries Co., electric appliance maker, became the country's largest earner in 1969, according to the Tax Administration. The government agency said Matsushita registered gross sales of 604,500,000,000 yen (\$1,679,000,000) to earn 87,970,000,000 yen (\$244 million). Other top earners following Matsushita were, in order: Bank of Japan; Toyota Motor Co.; Hitachi, Ltd.; Arabian Oil Co. and the Tokyo Electric Co.

## Fan Magazine Readers Get Blame For Rise, Fall Of Jackie Onassis

NEW YORK (UPI)—Best selling author Irving Shulman, well known for his "inside stories" on Mrs. Aristotle Onassis' popularity, put the blame on a class of poorly educated fan magazines—mostly women—who wanted to drag her down from her heroine's pedestal. The book, "Jackie: The Exploitation of a First Lady," said Mrs. Onassis' photograph was sometimes on the cover of 35 fan and movie magazines a month during her years as the widow of President John F. Kennedy. According to Shulman's thesis, the movie magazines decided to make Mrs. Onassis a "star" when they found their circulations slipping during the successful years of "Confidential Magazine." Their judgment proved to be right and the fan magazines won a record audience among "unthinking" Americans who believe that "although they are little people who don't count, their lives were far better than those of the rich and the famous."

Later, the slick women's and picture magazines saw how well "inside stories" on Jackie's widowhood sold and almost outdid the cheaper magazines in making her a cover girl. Many of the stories, Shulman said, were full of insinuation but without substance and many readers told him they felt they had to "read between the lines" to find out what "Jackie was really up to," he wrote. Publications were virtually free to write fiction about Mrs. Onassis because they were sure she would never sue them, and she never did. "Jacqueline Kennedy suffered imprisonment for more than five years in the publishing hell of the 'Jackie factories.' Now that she has escaped, is her cell being readied for Ethel Kennedy? Or Joan Kennedy? or at some later time, for Caroline Kennedy? It is not too prejudiced to conclude that only in a nation where many of its institutions and citizens have become clinically psychopathic, she would aggressors scream so loudly if even one of their innocent victims escaped persecution." The press, in general, was furious with the former first lady for deciding to marry Aristotle Onassis "without telling anyone but Cardinal Cushing." As a result, even the international press "treated the newlyweds with scorn, derision and the lightest humor, but it would be safe to say that these would have been minimized if the American media had truly wished the couple well and not behaved like the fan magazines," he wrote. Shulman is the author of "Harlow," "Valentino" and "The Amboy Dukes."

### Spiro Says Southland Will Be Treated Fairly

EDGEFIELD, S.C. (UPI)—Vice President Spiro T. Agnew, called America's greatest vice president, "next to John C. Calhoun," by Sen. Strom Thurmond, R-S.C., says the Nixon administration is determined to treat the South fairly. Speaking to 4,000 persons in Thurmond's home county, Agnew said there was a "conscious and determined effort" by the administration "to see that the South is treated in an evenhanded manner with the rest of the nation..." But he denied the existence of any "Southern strategy" based on "calculated plannings." "It is simply a matter of dispensing justice to a region of the country long deprived of it," Agnew said. "And it's time our friends in the North ripped off their masks of hypocrisy and faced the fact with us." Agnew spoke at an observance in honor of the 300th anniversary of the colonization of South Carolina by the British. He was introduced by Thurmond.

### Youngsters Find Unusual Chores

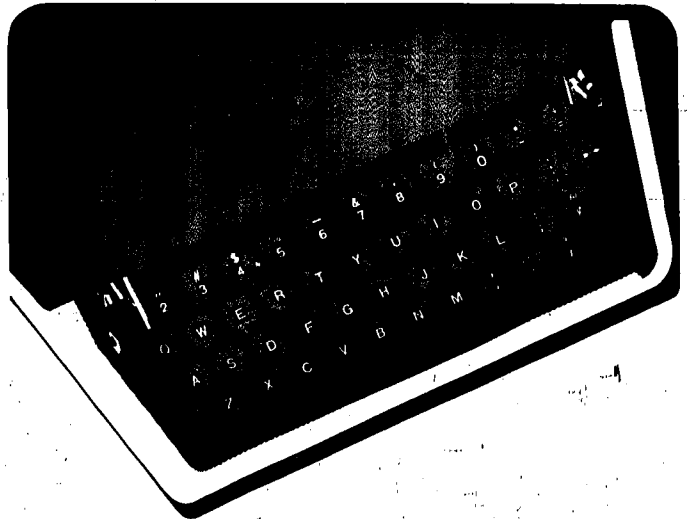

HALIFAX, N.S. (UPI)—More than 5,000 school children turned out during the week to clean up provincial roads, the Department of Highways said Friday. They collected empty bottles, cardboard cartons and discarded furniture but ran into an unexpected task. A spokesman said: "They had to drag a dead horse off Highway 7 just outside Halifax."

People who mind their own business miss out on a lot of interesting plant gossip.  
The entire family is coming over for a cook-out, and there'll be plenty of feud for all.  
What to give a relative who has everything is plenty of respectful attention.

"understand the capabilities and limitations of the helicopter," Westmoreland explained. Situation Might Arise It would be difficult to argue with this philosophy. Were it otherwise, a situation something like this might arise: SAIGON—Three helicopters under the command of Brig. Gen. Gideon E. Whirly sailed up the Mekong River today to launch an underwater attack on Communist gunboats near Phnom Penh. They didn't make it. "Nobody told me helicopters wouldn't float," Whirly said as the three machines sank in 30 feet of water. "This convinces me that helicopters are unsuitable for naval warfare," the general added. "From now on I'm going to run my helicopters on the ground, where they belong, even if they do jump the track occasionally."

## Atomic Battery Is Placed To Aid Heart

PARIS (UPI)—Surgeons Monday implanted an atomic battery into the body of a woman suffering from failing heart beat, the first such operation on a human being, the French Health Ministry announced.

Until now, heart "pacemakers" installed in humans have been powered by electricity from mercury batteries, ministry officials said.

Pacemakers powered by atomic energy have been implanted only in dogs, first in the United States in 1968, then in France the following year.

The heart stimulators were named "pacemakers" when American scientists first developed them in 1952.

The grafting of a radio isotope-propelled battery Monday at Broussais Hospital was successfully carried out on a woman of more than 50 years of age, the officials said.

The operation lasted four hours and was carried out by a team under Prof. A. Litwinc, the ministry said.

Officials said the woman had been afflicted with difficulties in her nervous system that prevented the heart from beating normally. Her blood circulation, particularly in the brain, was hampered.

The heart stimulator, or pacemaker, will assure the patient of a normal heart rhythm.

Regular pacemaker batteries must be replaced approximately every 18 months.

## Trustee Is Captured In Boise

BOISE (UPI)—A trustee who escaped from the Eagle Island prison farm in 1968 was recaptured Monday afternoon when he returned to Boise on a shopping trip.

Deputy Sheriff Vic Peterson said Gary Knowland, 22, apparently had been working in the McCall area under another name since his escape from the minimum security farm.

But when he came back to Boise, ostensibly to go shopping, he was recognized by C. B. Cowie, a former chaplain at the penitentiary, who notified Peterson.

City and County officers then began looking for the escapee and at first spotted him in Grand Central station. However, Knowland managed to get away so the search continued.

Finally, officers converged on him in K Mart shopping center and when he saw them coming after him he again tried to slip out a back door. It was there that Police Capt. Gus Urretil and two patrolmen nabbed him without resistance, Peterson said.

At the time of his escape, Knowland was serving a five-year term for first degree burglary.

## Candidate Warns On Water

MOUNTAIN HOME (UPI)—Rep. Vernon Ravnescroft, D-Tuttle, a Democratic candidate for the gubernatorial nomination warned Monday Idaho may some day face a major battle to keep its water.

Ravnescroft, speaking before the Mountain Home Chamber of Commerce, said little attention had been given to the fact that the Central Arizona Project Authorization passed by the federal congress contained a clause which made the Mexican water treaty the responsibility of the entire nation.

Ravnescroft said that meant the decision had already been made to divert at least two million acre feet of water into the Colorado River system, and added the Snake River was the most logical source for diversion for the Colorado system.

Ravnescroft said the next state administration would have to give water development and resources management practices a high priority in the activities of its administration.

He said the southwest Idaho water development project, in some form, must proceed as rapidly as possible and warned three years of the 10-year moratorium on diversion studies already passed.

ENCYCLOPEDIA OF SAINTS ROME (UPI)—The Pontifical Lateran University has published what is billed as the Roman Catholic church's most complete "Encyclopedia of Saints."

The 12-volume work, written by 500 experts from 19 nations, relates the lives of 20,000 recognized or legendary saints and candidates for sainthood. It has 3,000 illustrations and costs 150,000 lire (\$250).

ANN TURNER, 15, Tipon, Ind., learns to cook breakfast cereal, sometimes using a finger to tell when it is done. Ann was almost totally blinded when she stared four minutes at the

March 7 solar eclipse. She has only faint side vision left and doctors say the damage probably is permanent. (UPI telephoto)

## Douglas Stays Out Of Supreme Court Cases

WASHINGTON (UPI)—Justice William O. Douglas stayed out of two censorship cases and a libel appeal in the Supreme Court Monday. His chief critic in the House said that proved Douglas acted indiscreetly in a previous case.

House GOP leader Gerald R. Ford, R-Mich., heading a move in Congress to impeach Douglas, said the 71-year-old justice's disqualifications in those cases were "tacit admission" he should have disqualified himself from a libel case involving publisher Ralph Ginzburg Jan. 28.

Douglas had written an article for a Ginzburg publication, but still participated in the Supreme Court ruling upholding a libel action against the publisher. Douglas cast one of the two dissenting votes in the January action.

The censorship case involved two disputes over the showing of the movie "I Am Curious (Yellow)."

The film is distributed by Grove Press, whose president, Barney Rosset, puts out Evergreen magazine, a publication cited by House Republicans for part of their impeachment case against the 71-year-old justice.

The court has scheduled for argument later this week a Massachusetts lawsuit about the film. The state has been barred by a federal court from prosecuting persons showing the movie in Boston.

The lower court said theater owners cannot be barred from

showing movies to which adults come voluntarily.

The Supreme Court blocked the effect of this ruling until it can examine the case.

When review was granted, Douglas participated and voted against blocking the lower court decision.

Today, the court granted permission to the American Civil Liberties Union and other groups to file briefs in both the Massachusetts case and another from Maryland which is not scheduled for immediate hearing. Douglas had taken part in the court's decision to hear the Maryland case.

Tornadoes Hit In Tennessee, 90 Injured

By United Press International

Tornadoes cut a path of destruction through north central Tennessee Monday, injuring about 90 persons, wrecking property and uprooting trees and utility poles.

Jesse Holmes Jones Hospital at Springfield, Tenn., 25 miles north of Nashville, treated about 80 persons and admitted 25 to 30.

"It's a helluva mess," hospital administrator Robert Hardison said. "Everything we have now is full. We've started putting them on cots. A lot of people who have been brought in here have been dug out of the rubble."

## National

### Great Improvement Seen In Soviet Arms

WASHINGTON (UPI)—Sen. Strom Thurmond, R-S.C., said Monday the Soviet Union had improved its weaponry so much it might "sweep the U.S. Navy from the seas" unless the United States beefs up its fast carrier striking forces.

"There is no item in our arsenal that the Kremlin would rather see us downgrade and eventually discard than the attack carrier," Thurmond said.

Sens. Walter F. Mondale, D-Minn., and Clifford F. Case, R-N.J., have urged Congress not to appropriate \$158 million requested by the Navy this year for initial work on a \$1.8 billion nuclear attack carrier.

In a Senate speech, Thurmond described a number of new Russian weapons. "This information must be made public to offset some of the unreasonable demands for reduced military spending," he said.

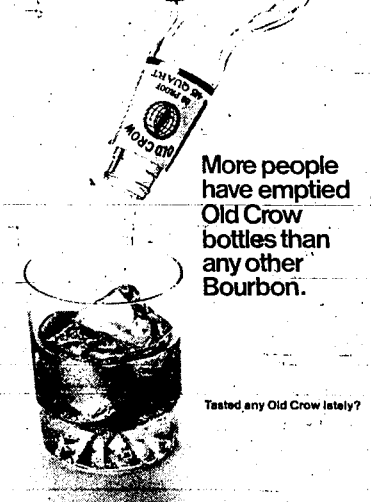

The South Carolinian said the Russians now have an aerosol chaff which blacked out NATO radars during Russia's invasion of Czechoslovakia in 1968, radio direction finder installations which can detect sea forces up to 5,000 miles away air to surface missiles with ranges of more than 100 miles, sonar

## American Schools Bad

WASHINGTON (UPI)—A Senate committee studying school segregation problems was told Monday that American schools are so bad they're hardly worth integrating.

Charles E. Brown, a former junior high school teacher who served eight years as school superintendent in Newton, Mass., said grades are "idiotic," and that schools rule most children by fear and stifle their minds.

"The entire system must be changed," Brown told the Senate's new Select Committee on Equal Educational Opportunity.

## Teachers

LOS ANGELES (UPI)—Negotiators for striking teachers and the school board met Monday for the first time since a walkout crippled the nation's second largest school district two weeks ago.

Benjamin Aaron, the mediator who helped bring the two sides together, cautioned against undue optimism, saying hopes for a quick settlement are "highly unrealistic."

The strike has kept about one half of the school district's 25,000 teachers off the job, fighting for better wages, educational reforms and recognition of united teachers of Los Angeles as their bargaining agent.

## Action Is Urged In Studies

BOISE (UPI)—In a prepared statement released Monday, Dick Smith of Rexburg, a Republican candidate for governor, called upon the State Board of Education and the governor "to seek immediate solution to the problems which led to the state board decision to declare a moratorium on additional graduate studies at Idaho's institutions of higher education, and more specifically at Boise State College."

Smith's statement said: "It is an extreme disappointment to me that continued planning and scheduling of graduate level of studies at Idaho's institutions of higher education have been terminated by the State Board of Education."

"While a member of the board I was convinced that graduate programs in education and business administration were quite necessary at Boise State College, as well as our other institutions. As a member of the board, I presented a motion which approved the planning and scheduling of graduate studies at Boise State College, which were to begin in 1971. The motion was approved by the board."

He said he was "not aware" of the conditions that have prompted the board to call for the moratorium.

## Lenny Webb, Puls Disclose Wedding Plans

Mr. and Mrs. Samuel Webb, Milner, announce the engagement and forthcoming marriage of their daughter, Lenny LaPriel, Twin Falls, to Michael Dennis Puls, son of Mr. and Mrs. Vernon J. Puls, Wilton Junction, Iowa.

Miss Webb is a 1969 graduate of Burley High School and is a freshman at the College of Southern Idaho. She is a part-time employ at the Twin Falls Clinic.

Mr. Puls is a 1969 graduate of the Bennett High School, Bennett, Iowa, and a 1963 graduate of U.S. Army Security Agency School, Fort Devens, Mass. He is manager of the Twin Falls, Station of Lynch Oil Co. of Burley, and is also self-employed.

An early August wedding is planned at the bride's home.

LENNY WEBB

DEBRA BODINE

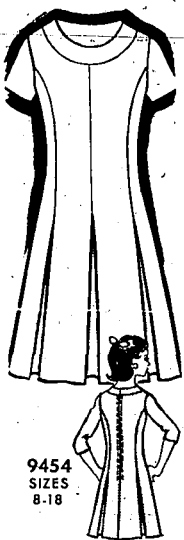

## Debra Bodine, Clark Plan May Wedding

Mrs. Vernon E. Doshier, Twin Falls, and Marvin R. Bodine, Meridian, announce the engagement of their daughter, Debra Diane Bodine, to Joe Clark, son of Mr. and Mrs. Ralph Clark, Springfield, Va. Miss Bodine is a 1968 graduate of Twin Falls High School and is a sophomore at Idaho State University, majoring in education. She is a cheerleader for the university and a member of Gamma Phi Beta Sorority.

Mr. Clark was graduated from Lee High School, Springfield, in 1964, and is a senior at Idaho State University, majoring in education. He is tri-captain of the university football team.

The couple will be married May 29 in rites at Neuman Center, Pocatello.

## Lose 10 lbs. in 10 days on Grapefruit Diet

HOLLYWOOD, Calif. (Special) — This is the revolutionary grapefruit diet that everyone is talking about. Literally thousands upon thousands of copies have been passed around from hand to hand in factories, plants and offices throughout the U.S. and Canada.

Word of its success has spread like wildfire. Because this is the diet that really works. We have testimonials in our files reporting on the success of this diet. If you follow it for 10 days, you should lose 10 pounds in 10 days. There will be no weight loss in the first four days. But you will suddenly drop 5 pounds on the fifth day. Thereafter you will lose one pound a day until the 10th day. Then you will lose 1 1/2 pounds every two days until you get to the 20th day. After that, best of all, there will be no hunger pangs. Now revised and enlarged this new diet plan lets you stuff yourself with foods that were formerly forbidden — such as big steaks trimmed with fat, roast beef, chicken, fish, soups, mayonnaise, lobster swimming in butter, bacon farts, sausages and scrambled eggs. You can eat until you are full, until you cannot possibly eat any more, and still lose 10 pounds in the first 10 days plus the 200 lbs. every two days thereafter until your weight is down to normal. The secret behind this diet is the grapefruit juice in this new diet acts as a catalyst (the "trigger") to start the fat burning process. You stuff yourself on the permitted food listed in the diet plan, and still lose unsightly fat and excess body fluids. When the fat and excess body fluids are gone, you will lose weight, and your weight will remain constant. A copy of this new and startling successful diet plan can be obtained by sending \$2 to GRAPFRUIT DIET, Dept. 153-7, 7045 Hollywood Blvd., Suite 802, Hollywood, Calif. 90028. Money-back guarantee: If after trying the diet plan you have not lost 7 pounds in the first seven days, and 1/2 pounds every day thereafter, we will simply return the diet plan and your \$2 will be refunded immediately. Tear out this message and mail to the firm, now and we will rush your diet plan via first class mail. Decide now to regain the trim, attractive figure of your youth, while enjoying hearty breakfasts, lunches and dinners.

## Dear Abby

DEAR ABBY: Your answer to "Sexy But Lonely" left a lot to be desired. [She's the "lucky" one who's 51, but looks 30, has naturally flaming red hair, wears bikinis, and causes photographers' hands to shake.] She also has a husband who gets drunk every night and is no good for sex.

All you could offer her was the advice that her husband needs help and should seek out Alcoholics Anonymous. I agree, he needs help, but I suspect he also needs to be rescued from a self-centered wife who is so wrapped up in her "youthful" appearance that she has probably driven the poor guy to drink and impotence. She went on for two graphic paragraphs, describing how young-looking and gorgeous she was.

Maybe a psychiatrist could help HER to understand that a youthful appearance at 51 is indeed fortunate, but not nearly as important as consideration for her husband's welfare. The latter will stand her in much better stead than a model's figure.

I think you short-changed that poor husband, and I hope you will add this to your advice.

## SYMPATHETIC IN MASSACHUSETTS

DEAR SYMPATHETIC: I just have. Thank you.

DEAR ABBY: Can you give me some help on how to keep my big mouth shut? I repeat everything I hear even if it hurts myself or other people. I would like to be the kind of person who can keep a confidence, but I am not. The minute I hear some gossip, I can't wait to tell it to somebody. I am 41, married and have children, and I really know better but I can't seem to help myself. What is wrong with me?

## GOSSIP

DEAR GOSSIP: Most gossips suffer from a feeling of insecurity, and they use gossip to ingratiate themselves with those whom they inform. Perhaps if you realized that people of quality do not indulge in gossip, and avoid those who do, it would help you to keep your mouth shut. Also, if someone starts to give you a piece of gossip, it would help immeasurably to cut him off in mid-sentence with, "That's none of MY business." Try it. It works.

DEAR ABBY: This letter may be of interest to housewives who are constantly complaining about rising food costs.

I am a clerk in a chain grocery store. Yesterday I spent three hours picking up items off shelves where they didn't belong, because somebody decided they didn't want them after all, and just dropped them wherever they happened to be.

Now, just who do you think is paying me for three hours labor to do this? THE CONSUMER!

All right, forget the wages—let's talk about the TV dinner someone left in the cereal aisle? When found, it was partially thawed out and not fit for resale. Or the milk that was left standing out of the cooler for half a day? Or the cellophane-wrapped pork chops someone had set on top of the spices? These items are spoiled and must be thrown out. But who pays for them? YOU DO, LADY! I would guess that about 1 out of every 10 shoppers is guilty of the above, at least occasionally.

So next time you go marketing, put those unwanted items back where they belong and keep prices down. And it might not be a bad idea for grocery store managers to post this up on the cash register. It may help.

## WANTS LOWER PRICES

DEAR WANTS: It may not help. But it can't hurt.

What's your problem? You'll feel better if you get it off your chest. Write to ABBY, Box 89700, Los Angeles, Cal. 90069. For a personal reply enclose stamped, addressed envelope.

## Magic Valley Favorites

MRS. F. D. BRONER

CORNMEAL COOKIES  
(Cornmeal makes them crispy)  
4 cups cornmeal mix  
1 cup sugar  
1/2 teaspoon nutmeg  
1 egg, slightly beaten  
1-2 teaspoons vanilla  
Blend the mix, sugar and nutmeg. Add egg, vanilla and water. Work into a stiff dough. Roll out to 1/4-inch thick or less. Cut out cookies with cutter. Bake on greased baking sheet in hot oven, 400 degrees, six to eight minutes. Cool. Top with Lemon Frosting. Makes two and one-half to three dozen cookies.

LEMON FROSTING  
Combine one and one-half cups sifted confectioners sugar, two tablespoons soft butter and one teaspoon grated lemon peel. Add two to three teaspoons lemon juice gradually beating until smooth.

SUPREME COURT JUSTICE William O. Douglas gets a sip of water from his young wife Kathleen as they take a luncheon break during a recent hike along the C & O Canal outside of Washington, D. C. Justice Douglas, 71, is facing possible impeachment proceedings in Congress. He makes the annual hike to call attention to the scenic and historic values of the old canal. (UPI telephoto)

## Scientists Develop Therapy To Cure Sexual Problems

NEW YORK (UPI)—The sex study team of Masters and Johnson reported Sunday a high degree of success in curing sexual inadequacy in humans—especially impotence in males and frigidity in women.

Dr. William H. Masters and Mrs. Virginia E. Johnson described the treatment in a new medical textbook, "Human Sexual Inadequacy" (Little, Brown and Co. \$12.50). They said there was an urgent need for establishment of sex therapy training centers like theirs throughout the country because crippling sexual problems were widespread and destructive both of marriages and the overall social fabric.

The scientists based their new report on treatment of 448 men and 342 women during the past 11 years at their Reproductive Biology Research Foundation in St. Louis, Mo.

Followups after five years, during which there was little if any additional treatment, revealed low "reversion rates" of zero to 11.1 per cent, depending on the type of sexual inadequacy.

This was in sharp contrast to results of psychoanalysis and related forms of psychotherapy generally prescribed, which take months, sometimes years, and have not achieved a high rate of success.

Masters and Mrs. Johnson based their treatment on the findings reported in 1966 in their first book, "Human Sexual Response" which has sold more than 300,000 copies, detailed physiological measurements and other body data taken from couple engaged in sexual acts in their laboratory. Subjects for the two-week treatment were required to be "referred by an authority,"

such as a physician, psychologist, social worker or clergyman. Because a basic Masters-Johnson concept is that an inadequate sexual partner inevitably involves an adequate one in disturbing emotions, couples were treated as a "marital unit" with the healthy partner acting as a directed therapist. The scientists also considered basic that each couple be treated by a male and female therapist because a woman can best interpret a female's sexuality and a man a male's sexuality.

peachment proceedings in Congress. He makes the annual hike to call attention to the scenic and historic values of the old canal. (UPI telephoto)

NEW YORK (UPI)—The Kienast quintuplets went home in a special police-escorted ambulance, nine weeks after they were born at Columbia Presbyterian Medical Center.

Dr. Stanley James, the pediatrician who has been attending the three girls and two boys, said they are "completely normal, healthy infants."

The babies, born Feb. 24 to Mrs. Margaret Kienast who had taken fertility medication, spent about 10 days in the intensive care unit at the hospital but since then have been in a regular nursery with normal newborns.

HOLLYWOOD (UPI)—Inventive horse player Jimmy Durante will headline the Del Mar Fair this June when the Del Mar Race season is under way.

Murdered  
NEWARK, N.J. (UPI)—Three muggers jumped a couple from behind Sunday night and beat the 51-year-old man to death before his wife's eyes.

Robert Regan of Newark died about a half-hour after being admitted to Martland Medical Center.

Police said Regan's wife, Lenore, 41, collapsed and was admitted to the hospital in a state of shock.

The attack occurred at about 10:30 p.m. after Regan had picked up his wife, who had been attending a shower, police said.

The victim was beaten on the head with a blunt instrument by one man while two held his wife, police said. They then seized Regan's wallet and fled.

# Democrats Urge Party Reform

WASHINGTON (UPI)—A Democratic Party commission said today the party must reform itself to survive and to keep the disenfranchisement from turning to "third and fourth party" politics or the anti-politics of the street.

The warning was issued by the Commission on Party Structure and Delegate Selection, headed by Sen. George S. McGovern of South Dakota.

The McGovern commission was one of two created to avert strife like that which disrupted the 1968 Democratic National convention. The other deals

with convention procedure. In a report to the Democratic National Committee, McGovern's 28-member commission proposed guidelines for state party organizations it said were intended to open the party to all Democrats who wanted a voice in the choice of a presidential nominee.

"We believe that popular control of the Democratic Party is necessary for its survival," the commission said. "We do not believe this is an idle threat."

"When we view our past history and present policies alongside that of the Republican Party, we are struck by one unavoidable fact: our party is the only major vehicle for

peaceful progressive change in the United States. If we do not represent the demands of change, then the danger is not that people will vote to the Republican Party; it is that there will no longer be a way for people committed to orderly change to fulfill their needs and desires within our traditional political system. It is that they will turn to third and fourth party politics or the anti-politics of the street."

As a basis for its guidelines, the commission's findings included: Party organizations in at least 20 states had no rules or inadequate rules and a handful of party leaders controlled the

convention delegates selection process. Much stress was caused by "unrestrained use and application of majority rule" through such devices as binding instructions on delegates and favorite son candidates. The cost of participation in delegate selection was too high in many states.

Party organizations in at least 20 states had no rules or inadequate rules and a handful of party leaders controlled the

**THE MEDIUM THAT FITS FOOTWEAR.**

**LEFT HEEL**

The fashion revolution has worked down to the ground. Shoes are news. Everyone's buying more shoes—because of style. Not just women.

Men, boys, girls and toddlers, too. The footwear business is on the march. "Because..."

Boot & Shoe Recorder says, "basic shoes are no longer enough—for any wardrobe."

During 1968, the average American family spent \$100 plus on footwear—up from \$88 just six years ago. Count the families who live in your area. Multiply by \$100. If you want your share of that footwear money, you've got to tell the fashion footwear story. Out where people will see it. Right on the pages of this newspaper. Your newspaper.

Eight out of ten over-21's read the paper every day. Seven out of ten teenagers do too. Even more to the point: a recent survey showed that seven out of ten Americans look forward to the ads in the papers—while only one in four feels that way about ads on TV. No wonder retailers invested more than \$3 billion on newspaper advertising last year. No wonder the country's top shoe stores spent more than two percent of net sales on their ads in the papers. Your competitors know the power of that seven-syllable anils force: Newspaperability.

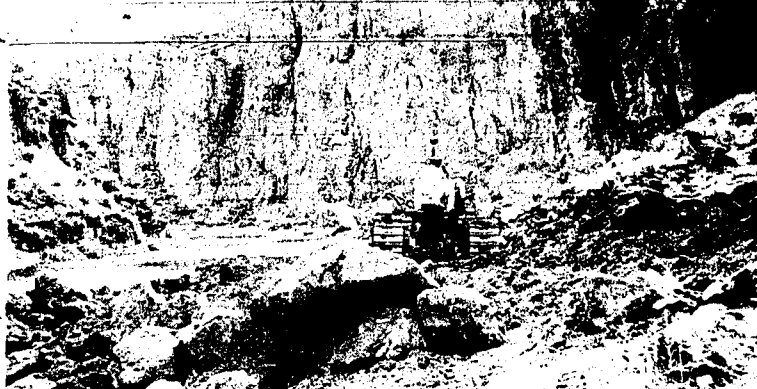

The footwear business has changed. And newspapers have changed, too. With economical new neighborhood ad buys, superb color reproduction, and new printing techniques. This change has brought a substantial increase in local papers' ad volume. During June '69, dailies' retail ad revenue jumped 11.3 percent over June '68. Newspapers are working for retail.

To paraphrase an old saying: If the medium fits, buy it. And no medium fits you better than your own local paper. That's what we mean by Newspaperability.

Equipment seems dwarfed beside deep canyon walls at the Balanced Rock park area west of Castleford. The walls of the canyon will be left intact, but rocks and earth are being leveled

## Work Under Way At Balanced Rock Park Near Castleford

CASTLEFORD — Work is underway at the Balanced Rock Park, at the crossing in the canyon near what is known as Castle Crossing or Castle Ford, west of the town of Castleford. Work is being done by the Stutzman Construction Co. and is under the direction of the Twin Falls County Parks Department.

along the creek to make parking space and more picnic facilities. The project, under the direction of the Twin Falls County Parks Department is being done by Stutzman Construction Co.

## Lawsuit At Jerome To Be Transferred

JEROME — The lawsuit against a Salt Lake City investment firm by former stockholders of Investment, Inc., for not honoring terms of an agreement to build a motel in Jerome will be transferred to another court.

## Precinct Is Enlarged In Lincoln

SHOSHONE — The North Shoshone voting precinct has been enlarged by action of County Commissioners to more equalize the number of people who vote in precincts two and three. The boundary line for those who vote in the Wood River Center Grange hall has been changed to more directly north of Shoshone. Names of registered voters who are included in the change are listed in a legal publication by Mrs. Luella L. Kinsey, county clerk. Formerly those people voted in Precinct 2 at the Lincoln school building, but the number was so great that judges could not keep up with the remainder of the county in handling of the vote.

## District PTA Meet Hears Psychiatrist

GOODING — Dr. Merritt Egan told members of the Fourth District PTA Saturday that not all youngsters having difficulty at about the age 7 will turn into juvenile delinquents, but psychiatrists find that juvenile delinquents had difficulties at that age. Dr. Egan was guest speaker Saturday during Spring conference of PTA workers throughout Magic Valley at the State School for the Deaf and Blind. He was sponsored by a Sears Roebuck Foundation Grant and serves as director of child and adolescent psychiatry at the University of Utah Medical Center, Salt Lake City. Dr. Egan discussed the line between the overly conscience minded child and the one with little or no conscience at all. He pointed out that one suffers from over parental protection while the other suffers from parental rejection or no parents at all. He described various stages of development to be infant,

## Twin Falls Cleanup Extended

Residents of Twin Falls have done such a good job of cleaning and collecting trash that the spring clean-up week has been extended. City manager Jean Millar said Monday crews and equipment from the street department were unable to cover the entire city last week in the special pick-up program. As a result, they will be on the job throughout this week as well. Areas covered in the first week will not be serviced again, he said, but those living in the northeast, northwest and south of Rock Creek, whose trash was not picked up last week, should be patient and trucks will cover those areas this week. Mr. Millar said 1,000 cubic yards of trash was picked up last week and about the same amount is yet to be collected. The city manager said he is pleased with the efforts, especially those of the individuals in observing the clean-up drive. Many organizations also joined the effort, and cooperation from the schools and Boy Scouts has been especially gratifying, he said. During the weekend another group of Bickel School students collected trash and debris in the airport area, and did an outstanding job, Mr. Millar said.

## Richfield Club Elects Officers

RICHFIELD — Forrest Armstrong is the new president of the Richfield Outlaw Riding Club, moving up from first vice president. Wendell Johnson is now the first vice president, and Sidney Edwards, Jr. was elected as second vice president. Mrs. Lillian Parker was re-elected as secretary and Mrs. Wendell Johnson as treasurer. The 34 members of the club will be in charge of the annual Outlaw Day celebration at Richfield June 13. Committees for the various events will be named by the executive board, and the theme chosen.

## It Says Here

NEW YORK (UPI) — In the United States, the proportion of family income spent on food has been decreasing steadily even though actual food expenditures have risen, reports the U.S. Department of Agriculture. Last year, 17 per cent of income was used for food. In 1960, by contrast, funds spent for food represented 20 per cent of income.

## HOSPITALIZED VIEW

Mrs. Joseph E. Scarle is a patient at the Twin Falls Clinic Hospital.

# Closure Is Urged For Dump Site At Kimberly

KIMBERLY — A dumping site three miles north of here should be closed as soon as possible, city officials and interested persons attending a special meeting were told Monday night.

The meeting was held in Kimberly's City Hall, with the mayor and councilmen, county commissioners, a Bureau of Land Management official, a representative of the Idaho Department of Health, and several interested citizens attending. County Commission Chairman Heber Loughmiller told the group it is the first of several such meetings that "should be held in the county to come up with a solution to the growing problem of waste disposal."

Bob Brock of the BLM said he was interested because the BLM is the land owner of the Kimberly dump site, located on the edge of the Snake River Canyon near the Twin Falls, and the site has been criticized as unsightly.

Bob Olson of the Department of Health told the group, "You've had that site for about 30 years now. I recommend you write it off. It has served its purpose. It should be closed and closed as soon as possible."

He said the site is "suspect of water pollution in the Snake River because of the dumping in lava rock." He added there are minor problems with breeding of mice and flies in the area, and noted he found no significant rat population in the area.

He said because of the nature of the site it can't be used as a sanitary land fill, burning adds to air pollution and "re-cycling the material before it gets to the dump site is too costly right now."

He said the only alternative was to find another site. Mr. Loughmiller said the county has 14 dump sites at the present time, adding, "We would like to reduce this to four and have those four maintained by full time superintendents."

He said the county has applied for a federal study grant on waste disposal and Mr. Olson informed him the chances of the grant being approved "are good."

## Bliss Stockman Killed When Train Strikes His Truck

BLISS — Well-known Magic Valley stockman and rodeo producer Ernest Watts, 53, was killed Monday evening when his pickup truck was struck by a freight train at a rural crossing about one-fourth mile north of Bliss's main street.

Earl Brown, Gooding County Sheriff, said Mr. Watts and his

wife, Hazel, 43, were on their way to feed the Watts bucking string which was being wintered in Bliss.

The impact of the west bound freight train shoved the hay-loaded truck about 250 or 300 feet down the tracks, the sheriff said. Mr. and Mrs. Watts both were thrown from the truck which was demolished in the collision.

Sheriff Brown said he did not believe Mr. Watts, who was driving the south-bound vehicle, saw the approaching 7:20 p.m. freight train.

The couple lived in Bliss during the winter months and ran a ranch at Hill City in the summer. He was a long-time rodeo producer, furnishing stock for many amateur rodeos in Magic Valley.

Mrs. Watts suffered a broken leg, broken knee and numerous other injuries and is reported in good condition at Gooding County Memorial Hospital.

Mr. Watts' body was taken to Thompson Chapel, Gooding, where services are pending.

## Big Broom Project Sweeps In Blaine

HAILEY — Blaine county's "Operation Big Broom" will sweep through Bellevue and surrounding areas this Saturday in conjunction with the month-long clean-up campaign staged by the county commissioners.

The campaign began last weekend in Carey-Picabo-Gannett area with county commissioners, county highway crews and equipment, city volunteers and lots of youngsters participating. Saturday crews will be working from Bellevue southern city limits to the Gage ranch, and from the Gage Ranch through the city of Hailey the following weekend.

May 16 volunteers and crews will finish the county by cleaning up from the northern Hailey city limits through Ketchum and Sun Valley area. Old abandoned cars are being hauled to a special dump for them near the sanitary land fill, and either rubbish cleaned up and burned or otherwise disposed of. It was noted during this week's Hailey Chamber of Commerce meeting that the State Highway Department has no funds with which to clean up the borrow pits of the state highway and will not allow volunteer crews to do so unless properly patrolled because of the liability involved.

Blaine county sheriff Orville Drexler has offered the services of his office to patrol the highway while it is being cleaned up. In last week's cleanup, roadblocks were set up advising motorists to proceed with caution to protect volunteer workers. Sheriff Drexler said the same procedure will be used on the remaining strip of Highway 93 while it is being cleaned.

## Science Fair Held At Wendell

WENDELL — Helen Maltz and Mary Wennstrom received the Grand Prize Award at the annual Science Fair, sponsored by the Wendell High School Science Club, for a hand-painted map of the United States with a small replica of each state's flag placed on the state.

First, second and third place trophies were awarded in both the history and science divisions. Mike Strickling was first in his history for a contour map of South Vietnam.

Janet Callen, second place winner, displayed eight American flags. Third place winners were Rick Thompson and Kirk Dennis for a chart of the history of aviation.

Mary Ann Miller's project on how drugs affected the body won first in the science division. Ann Hagerman received second for her construction of a three-foot long mosquito and report of life history. Terry Gunnung received third place for her report on the Amulidae class.

Mrs. Gay Petersen and Dan Green, science club advisers, reported there were approximately 100 projects entered. Judges included Wayne Iles, Hagerman, Mrs. Opal Dixon and Arlin Dennis.

## Crash Victim Reported Good

RUPERT — Mrs. Ina Drug, 54, Declo, who was hospitalized Saturday following a car and truck accident was dismissed Tuesday from Minidoka Memorial Hospital.

She was the driver of a car that collided with a truck resulting in the death of her husband, Roy Drug, 63. Later Mrs. Drug's mother, Mrs. Earl Munson, 83, died of a heart attack when informed of the accident by a telephone caller.

## FIRE CALL

Twin Falls Fire Department answered a call at 278 Lincoln St. about 7 p.m. Monday. A mattress in a garage was on fire and firemen extinguished it. Cause of the fire is unknown.

Among the Magic Valley officials attending the district PTA conference at Gooding Saturday were, from left, Mrs. Floyd Kling, District, acting parliamentary; Mrs. Keith Amende, Albion, district president; Mrs. Dale Kidd, Declo, district secretary, and Mrs. Norman Smyer, Declo. Mrs. Morris Fuller, Boise, presented the state address and Dr. Merritt Egan, Salt Lake City child psychiatrist, was guest speaker.

# West Sinks Crucial Shots As Lakers Drop Knicks 105-103

NEW YORK (UPI)—Calm-shooting Jerry West sank two four-point shots with 46 seconds remaining Monday night as the Los Angeles Lakers edged the New York Knicks 105-103 to square their National Basketball Association playoff final series at one game apiece.

West, the game's leading scorer with 34 points, was fouled by Mike Buden as he went in for a layup. The NBA scoring champion had been successful in inducing Knick personals during the fourth quarter that helped Los Angeles gain the victory.

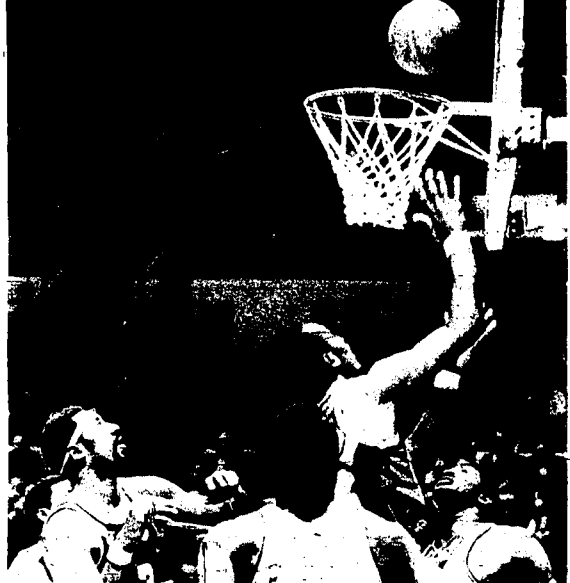

Walt Frazier committed his fifth personal in nine minutes to go in the game and Dick Barnett, New York's other guard, drew his fifth with 2:30 remaining as West netted a total of eight fouls in the last quarter.

New York had one final chance at tying the game, but Barnett's long 25-footer at the buzzer was short.

No more than five points separated the teams in the last hectic 12 minutes of play. New York twice enjoyed that margin but Los Angeles rallied. West briefly gave Los Angeles a 101-100 lead with 2:30 to go when he was fouled by Barnett.

Willie Reed, who scored 29 points for the Knicks, netted a free throw to tie it, but Dick Garrett put the Lakers ahead again with 1:55 to go with a corner set shot.

Frazier's lone two points of the second half decapitated the game for the last time at 103-103 with a minute to go, but West came right back to sink his game-winning foul shot.

Cazzie Russell of the Knicks (33), Jerry West made a pair of crucial foul shots in the closing seconds as Los Angeles squared the series 1-1. (UPI telephoto)

TIGHTLY SURROUNDED by a cluster of players, Happy Hairston of the Lakers makes it look easy 'x-ray in NBA playoff action Monday night at the Garden in New York. Watching the play are Walt Chamberlain and

## Wendell Girls Claim Gooding Invitational

GOODING — The Wendell Trojans crowned three individual champions and showed exceptionally strong depth Monday afternoon in easily taking the Gooding Invitational girls' track meet.

Wendell ended with 70 1/2 points to 40 1/2 for Shoshone and 44 for Glens Ferry. Filer and Gooding trailed with 39 and 24 respectively although each had some strong individual performances.

Miss Freeman of Wendell took the 880 in 2:57.7. Miss Laudert the 440 dash in 1:06 flat, and Miss Simerly the 220 in 28.1 for the Trojans' individual titles.

Team Scores: Wendell 70 1/2; Shoshone 40 1/2; Glens Ferry 44; Filer 39 Gooding 24.

Wendell also claimed two of the three relays and placed at least a pair of girls in almost every event.

Long Jump — Ballely, Filer; Berrichosa, Shoshone; Peterson, Wendell; Brown, Gooding; Johnson, Ferry, 15-1 Shot Put — Shepard, Filer; Maltz, Wendell; Pagaoga, Shoshone; Hockstra, Wendell; Singer, Gooding, 32 feet.

Wendell also claimed two of the three relays and placed at least a pair of girls in almost every event.

Discus — Wooten, Ferry; Pagaoga, Shoshone; Parrott, Gooding; Maltz, Wendell; Hockstra, Wendell, 88-6

Miss Bailey of Filer swept both the high jump and broad jump, taking the first in 4-8 and the latter in 15-1. But Miss Shepard of the Wildcats was the big winner of the day — taking the shot, 100 yard dash, and 75-yard dash.

80-Meter Hurdles — Wooten, Ferry; Hansing, Filer; Loewry, Wendell; Mays, Gooding; Kober, Wendell, 14.5

ST. LOUIS (UPI)—The Pittsburgh Penguins may be getting a little dizzy.

880-Yd. Run — Freeman, Wendell; Dennis, Wendell; Goode, Ferry; Neher, Shoshone, Parke, Gooding, 2:57.7

They compounded their 'suezes' by routing past the Oakland Seals in four straight games in the Stanley Cup quarterfinals. And the pace was indeed becoming a dizzy one.

50-Yd. Dash — Berrichosa, Shoshone; Scheel, Wendell; Carrauhan, Ferry; Peterson, Shoshone; Macey, Gooding, 5.7

The Penguins were decided underdogs to the Blues at the beginning of the Stanley Cup semifinals more than a week ago, but after the first four games the underdogs and the favorites are tied with two victories each.

225-Yd. Dash — Simerly, Wendell; S. Churchman, Shoshone; Wiecha, Ferry; Malsay, Gooding; Ibert, Ferry, 28.1

ST. LOUIS (UPI)—The Penguins may be getting a little dizzy.

75-Yd. Dash — Shepard, Filer; Freeman, Shoshone; Eton, Wendell; Thompson, Wendell, 66 flat.

STARS SET DATES FOR ABA WEST Playoff Games

880-Yd. Relay — Wendell (Eaton), Simerly, Schuel, Laudert, Shoshone; Gooding, Ferry; Filer, 1:55.4

LOS ANGELES (UPI)—The Los Angeles Stars announced Monday that the third and fourth games of the ABA Western Division playoff finals will be held at Anaheim Monday, May 4, and Long Beach Tuesday, May 5.

440-Yd. Dash — Laudert, Wendell; Parson, Shoshone; Lenniger, Ferry; Kober, Wendell; Thompson, Wendell, 66 flat.

The Stars will meet either Washington or Denver in the finals. The defending ABA champion Caps are at Denver Tuesday night in the deciding game of their best-of-seven semifinal series.

225-Yd. Relay — Simerly, Wendell; S. Churchman, Shoshone; Wiecha, Ferry; Malsay, Gooding; Ibert, Ferry, 28.1

LOS ANGELES (UPI)—The Los Angeles Stars announced Monday that the third and fourth games of the ABA Western Division playoff finals will be held at Anaheim Monday, May 4, and Long Beach Tuesday, May 5.

## Banquet

Rex Winter, head basketball coach at University of Washington, is the feature speaker Tuesday night at the 1970 College of Southern Idaho Awards Banquet, which begins at 7 p.m. in the Turf Club.

## Solons Tip Brewers By 6-5

WASHINGTON (UPI)—Ed Brinkman's two-run single tied the game and John O'Donoghue's throwing error let in the deciding run in the 10th inning Monday night as the Washington Senators rallied for a 6-5 victory over the Milwaukee Brewers.

## Mc Dowell Defeats Twins 5-1

M I N N EAPOLIS—ST. PAUL (UPI)—Sam McDowell allowed only six hits and Vada Pinson drove in three runs with two sacrifice flies and a single Monday to lead the Cleveland Indians to a 5-1 victory over the Minnesota Twins.

Brinkman's two-run single knocked out loser Bob Locker and tied the game 5-5. The Senators had loaded the bases on Rick Reichardt's walk, John Roseboro's single and Jim French's walk to set the stage for Brinkman's hit.

McDowell struck out eight batters and walked only five in stretching his record to 3-2. He also started two Cleveland rallies with singles and scored twice.

Pinson drove McDowell home with a sacrifice fly and two more runs scored on back-to-back doubles by Tony Horton and Ray Foster.

Vada Pinson drove McDowell home with a sacrifice fly and two more runs scored on back-to-back doubles by Tony Horton and Ray Foster.

## Shields, Muniz Clash In Feature T. F. Bout

Twin Falls' Earl Shields, who got a trip to the Rocky Mountain Golden Gloves championships in Salt Lake City only because the middleweight champ for Idaho didn't make the trip and took the title — meets that same man in the feature bout of the big 16-event card at O'Leary gym Saturday.

Earl Shields and Bill Muniz will hook up in a 165-pound feature bout Saturday as part of the 16-event card of Golden Gloves boxing at the O'Leary gym which starts at 7:45 p.m. Shields, Twin Falls, lost a controversial decision to Muniz, Burley, in the Idaho GG finals but competed in the regional when Muniz couldn't make the trip—and won the title.

## Red Sox Edge Past A's 4-3

BOSTON (UPI) — Reggie Smith's solo homer in the eighth inning cracked a 3-2 tie Monday and gave the Boston Red Sox a 4-3 victory over the Oakland Athletics.

Shields (165) fought in Boise in February with Burley's Bill Muniz for the Idaho GG title and lost in a controversial decision. In that bout, Shields had Muniz on the ropes twice but didn't get the knockout and the judge ruled for Muniz. When Muniz failed to compete in the regional meet, Shields promptly advanced as the runner-up and won the title by a knockout.

Smith's homer, his third of the season and third hit of the game, came off Oakland starter Jim Hunter to lead off the eighth inning.

## C of I Keeps Northwest Hopes Alive

CALDWELL (UPI) — The College of Idaho had an inning in each game Monday to sweep a doubleheader from Pacific Lutheran 9-0 and 5-2 to keep its faint hopes alive for the Northwest Conference pennant.

The Athletics got all three of their runs on bases-empt in the fourth inning, Don Mincher in the sixth and Rick Monday in the eighth.

## Eliminated Netter Can Be Linesman In British Meet

BOURNEMOUTH, England (UPI)—The young tigers of the future will have a chance today to show they can stand up to the bullying tactics of the circuit tennis pros as the British hard court championships enter their second day.

## Ramos Is Shipped Out After Just Eight Innings

WASHINGTON (UPI)—Pedro Ramos, signed as a free agent this year by the Washington Senators, was placed on waivers Monday after pitching only eight innings.

## Beaver Gets Most Compliments Of Gem Depredation

BOISE (UPI) — The Idaho Fish and Game Department said Monday beaver led all species of wildlife in the statewide list of depredation complaints and servicing measures taken by district conservation officers.

Ramos was given his unconditional release to make room for Jim Hannan, who had been on the disabled list.

## O'Malley To Stay In Mayo Clinic

LOS ANGELES (UPI)—Los Angeles Dodgers' majority stockholder Walter O'Malley will remain at the Mayo Clinic in Rochester, Minn., this week, a spokesman for the Dodgers said Monday.

20 3-Year-Olds Still Listed As Possible Starters For Derby

LOUISVILLE, Ky., (UPI)—A big field for Saturday's Kentucky Derby seemed certain today and the running of the Derby Trial Stakes at Churchill Downs hardly will change the picture.

DODGERS' ANDY KOSCO slides home to score a run in the sixth inning of Monday night's Phils-Los Angeles game. Phillies' Tim McCarver dropped the ball and umpire Al Barlick called the play. Billy Grabarkewitz watches. Rick Wise pitched the Phils to a 4-3 win—the club's fifth straight. (UPI telephoto)

Wise Bloops Single, Phils Top Dodgers 4-3

LOS ANGELES (UPI)—Pitcher Rick Wise bloomed a single to right to score Byron Browne in the fourth inning with the deciding run in a 4-3 decision by the Philadelphia Phillies, their fifth straight victory.

Wise got credit for his second victory in three decisions with relief help from Joe Hoerner. Dodger starter and loser Don Sutton, now 3-2, turned back the Phillies without a hit for the first two innings, but in the third successive singles by Wise, Denny Doyle, Don Money and John Briggs produced two runs.

Money sprained his right ankle rounding first after driving in Wise and was replaced by Tony Taylor.

In the fourth, Larry Hise started another two-run rally with a single to left. Browne doubled into the right field corner. Larry Howe popped foul to Bill Grabarkewitz, who made a running catch over his shoulder. Hise tugged up at this and scored on the sacrifice to make it 3-0.

Then Wise hit his bloop to right, scoring Browne with the fourth run.

Full Swing Wins Cherry Hill Race CHERRY HILL, N.J. (UPI)—Full Swing rallied from the back of the pack with a strong stretch drive Monday to win the \$15,000 allowance feature at Garden State Park.

—Give Derby candidates a final prep for the big race; —Give disappointing lesser lights a chance at a purse without challenging the top young horses in the country.

Major League Leaders

Table with 2 columns: Team and Leaders. Lists leaders for batting average, home runs, RBIs, etc., for various leagues.

Supreme Quality has only raced three times, winning each occasion. But trainer Lloyd Gentry does not think the colt is seasoned enough for the Kentucky Derby.

George Lewis, with William Hartack up, was the Trial favorite with Native Royalty at 4 to 1, High Echelon at 9 to 2 and Supreme Quality at 5 to 1.

The leading Kentucky Derby probabilities were My Dad George, Teriago, Personality, Silent Screen, and Cron off the Card. Others considered likely to start were Action Getter, Cassie Red, Dr. Behrman, Dust Commander, Holy Law, Kadan, Naska, Protanto and Villager.

Clay Enjoys Years Of No Pressure

By WILLIAM VERIGAN UPI Sports Writer NEW YORK (UPI)—Exactly three years ago—on April 28, 1967—Cassius Clay refused to take the step that would have turned him into an Army private.

"It hardly seems that long ago," he said Monday night as he watched television in his Philadelphia mansion. "Doesn't seem like more than two years at the most, so I guess I must be getting to be an old man."

A visitor from Jordan waited patiently in a corner of the room, waiting to ask the former champion to make a college speaking appearance.

Tony Doyle Gets Decision Against Peruvian Champ

CHICAGO (UPI)—Heavyweight Tony Doyle, Phoenix, Ariz., won a split decision over Peruvian champ Roberto Davilla, and Eddie Perkins of Chicago handed welterweight Clyde Gray of Toronto his first loss Monday night in a ten round bout on the Aragon Ballroom fight card.

Perkins, weighing 145 pounds to Gray's 144, never was in trouble against the Canadian and had Gray scrambling most of the way. Going into the bout Gray had won 21 fights without a loss and had 13 knockouts, but he failed to tag Perkins throughout the match.

Doyle's victory, his 31st win in 38 fights, was booed by the fans, many of them believing Davilla's swarming tactics had put him in front.

Doyle, who weighed 210 pounds to Davilla's 201, scored repeatedly with left jabs but rarely landed with his right.

CFL Montreal Signs 3 Players From WAC

MONTREAL (UPI)—The Montreal Alouettes of the Canadian Football League Monday announced the signing of three players from the University of Wyoming.

Barrows, a 21-year-old defensive back and wide receiver, was an all-Western Athletic Conference selection as a defensive back. He is from Ft. Lauderdale, Fla.

Devlin's 23-year-old defensive back, was an all-league selection in 1968. The Pittsburgh native was a 10th draft choice of the American Football League Boston Patriots in 1969.

Tucker played an offensive guard and line-backer. A native of Lansing, Mich. Tucker was captain of the Wyoming team in 1969 and is a two-year all-conference selection.

The trio joins other Wyoming stars who play in the Canadian Football League, including Pierre Desjardins of the Montreal Alouettes, Vic Washington, of Ottawa, Tom Wilkinson with the Toronto Argonauts and Calgary's Len Sparks.

Today's Market And Financial Report

Stocks

NEW YORK (UPI)—Stocks again were in reverse gear Tuesday after the collapse of a mid-morning rally. Trading was moderately active. As activity rounded the bend, the market, the UPI market, showed a loss of 0.35 per cent on 1,523 issues crossing the tape. There were 752 declines and 519 advances, a domination that has extended through 19 sessions. The Dow Jones industrial average of 90 selected blue chips was off 1.58 at 737.57, the lowest level in six years. A three-hour turnover of around 8,000,000 shares was running well ahead of Monday's at a comparable period. Some selling was generated by a report of a decline in the government's index of leading economic indicators in March. The index is regarded as a barometer of future movement in the economy. Among the other items that troubled Wall Street were rising short term interest rates, high unemployment, and corporate earnings results, the threatened spread of war in Southeast Asia, and belief that the administration has not yet licked inflation. Among the day's most active issues were Texaco off 1/2 on 206,800 shares, Gulf Oil down 1/4 on 130,600 shares, Chrysler 1/4 lower on 101,500 shares, Occidental Petroleum 1/2 lower on 100,900 shares, Texaco Corp. up 1/4 on 97,700 shares, and American Telephone off 1/4 on 85,400 shares.

Mutual Funds Successful Investing

By ROGER E. SPEAR. Q—For retirement, we are building a portfolio committed primarily to growth stocks. Can you suggest a suitable package at this time?—A. F. Plough, Inc., which produces cosmetics, medicines and household products and operates a radio network, appears to fit your objectives. Well-managed with an excellent track record, Plough has exhibited a genius for stable growth over an extended period. Profits increased at a compounded annual rate of approximately 15 per cent over 1957-1969. Major shareholders (1969 sales of only \$134 million) producer has achieved this healthy growth at a seemingly effortless pace. The company has no long-term debt and less than 7 million common shares outstanding. Net sales for 1969 improved 10 per cent while per-share profit, assuming conversion of outstanding preferred stock and after deduction of federal surtaxes, was \$2 compounded with \$1.85 in 1968. Continued gains are expected in 1970.

Normal annual growth of 5 per cent to 8 per cent for Corporation products should be maintained, with strong gains expected for the Di-Gel division. Massive advertising support and an expanded sales force should substantially improve Maybelline sales; and reduction of the surtax should contribute to a 10 per cent profit increase. In short, Plough is an attractive commitment for long-haul purposes. Q—I bought Research-Cottrell at a higher price than it is now. Should I hold or sell at current levels?—L. K. A Research-Cottrell reported a 47 per cent advance in sales for the first quarter ended January, 1970. Net income rose 7 per cent but, because of a greater number of shares outstanding, per-share results were flat year-to-year at 12 cents. Under current market conditions, high-multiple growth stocks, such as RC, are extremely vulnerable to profit taking. With national concern now sharply focused on pollution, competition will increase proportionately. However, Research-Cottrell should maintain its leading industry position as a pure "pollution" company and should benefit more than most from stepped-up research and spending in this field. The longer-term prospects are encouraging. Hold shares.

Wall Street Chatter

NEW YORK (UPI)—No immediate end to the general market decline is in sight, according to Gould's Position. It insists that "better buying opportunities" are still in the future and suggests that investors accumulate reserves for what is to come.

With the long bear market in most stocks now undergoing "another leg downward," the "highly speculative and highly volatile" market is being especially hard hit, Wall Street notes. It points out that some of the dip is a "natural" correction of the "far flung" speculation of several years ago in many "fad" stocks.

# BRIDGE

By Jacoby

## Test Your Luck At No Extra Cost

The answer to his problem is that if he fineses for those kings in the right order...

Then he leads a spade to dummy's ace and plays dummy's queen of clubs for a finesse...

East is on lead and plays a spade. South could finesse for that queen but he doesn't because he can now take the rest of the tricks without that finesse...

Opening lead - ♠ Q

### WIZARD OF ID

Q - The bidding has been: West North East South Pass 2 ♠ Pass 1 ♠ Pass 3 ♠ Pass 5 ♠ Pass 7 ♠

You, South, hold: ♠ A K 10 8 7 ♥ 2 8 3 ♦ K J 7 5 2

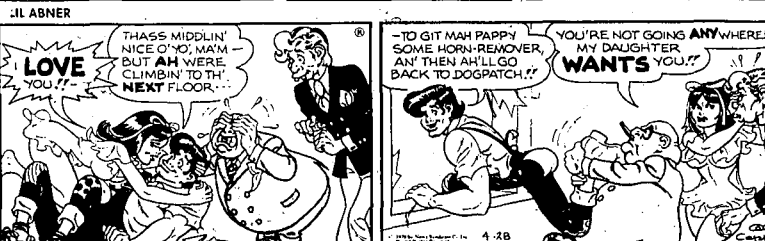

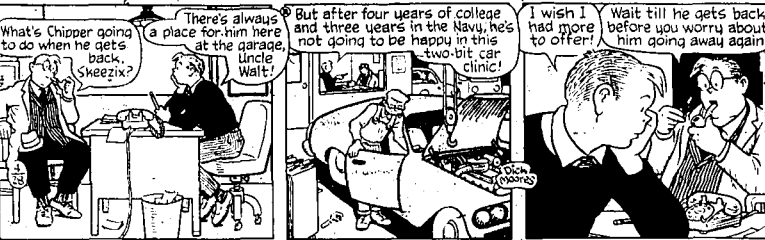

What do you do now? A - Did six clubs only. Your partner is trying to get to seven but your hand is minimum in high cards...

### TODAY'S QUESTION

Instead of bidding three clubs your partner has bid three hearts over your two spades. What do you do now?

Answer Tomorrow

### GASOLINE ALLEY

### PASS IT ON

by L.M. Boyd

AM ASKED if people who have been blind all their lives ever dream. That they do. Not visual dreams, but dreams of the other senses. Of hearing, mostly...

FIGHTERS - Are blond men with blue eyes particularly dangerous fighters? If not, how do you account for the fact that most of the Old West's gunners were fair-haired and light-eyed?

CLIENT ASKS if there is any way to keep tanked water aboard a cabin cruiser from turning stale. Will check. Know the British Navy poured rum into it and called it grog, but there must be a better way...

TWO-THIRDS of the married women in the United States have never received a diamond ring... NO TWO ZEBRAS are striped just alike. No two tigers, either... POLICE CHECKS: shown only about one driver in five uses his seatbelt...

CUSTOMER SERVICE - Q. "What is your Love and War Man's viewpoint on twin beds?" A. He thinks they are dandy for twins... Q. "Has any horse ever won the Kentucky Derby twice?" A. Couldn't happen. It's only for three-year-olds... Q. "Where is the oldest farm in the United States?" A. Just outside of El Paso, Texas.

DRUNKEN BEASTS - Did you know wild elephants occasionally get drunk on purple? So do wild baboons. They eat fermented fruit, when they can find it. The African expert who made public knowledge of this fact says a drunken elephant tends to be an easygoing, congenial, good-natured inebriate...

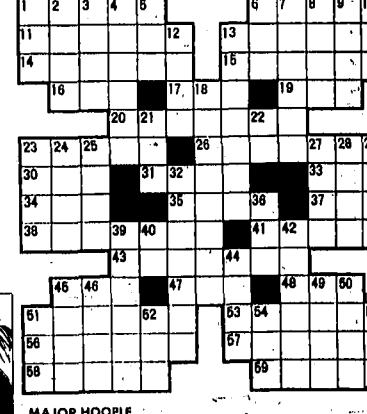

A HOLLYWOOD bartender says he refuses to serve another drink to any customer who can't pronounce "criticism"... DID I TELL YOU the scientists have figured out that dinosaurs never belched, but squeaked like mice? ... EXTENSIVE SURVEYS show married women tend to prefer married men, but single women don't. Why is that? What do you mean, it's a naive question?

RAPID REPLY - Yes, sir, in England, the one-armed bandit is called a fruit machine.

TOM TIEDE

To Willie, Who Can't Hear

'Color Don't Make No Difference'

By TOM TIEDE
NEW YORK — (NEA) — Once every month Willie Jeanette buttons into his best suit, walks over to the Domino Social Club, selects one of the idle girls—and pounds the dance floor with versions of the Fring, the Monkey or the Boogaloo. It's an absolute education to witness. Why? For one reason, Willie Jeanette, age 31, is a deaf mute. The Domino Club is composed of people who can't hear or speak, with one exception: the music vibrations through the sales of their feet. For another reason, Willie is the only Negro member of the club; the girls he dances with must be either white or Puerto Rican. Prejudice? Not much among the deaf and dumb. No saints, these folks. But most of them simply can't afford any further narrowing of their lives by bigotry. As one of the members of Willie's group explains (in forced speech): "None of us look at each other as Jews, Negroes or Catholics or that. We only know we talk the same, with our hands, and we hear the same, by reading lips. We're all in the same boat. Color don't make no difference."

Willie himself adds (in sign language): "I don't hate anybody. I get mad at some people sometimes, but not because they're white. I'm happy to be black, but I don't think about it much. I only want to have the touches of my fingers together" many fingers. Times being what they are, Willie Jeanette's temper and outlook are refreshing. They are also somewhat surprising. For, given his history, it's a wonder he isn't out rating with everybody else. Willie was born to hard times, in North Carolina. Little more than a shack for a home. A few scraps of dollars for income. Fat back and thin grits. When he was two years old, his parents were told he'd be deaf and dumb for life. His father walked out on the family, leaving them penniless, never to come back. The mother and boy then migrated north to New York, where Willie grew up poor, deaf, speechless and black. He got odd jobs to help the family finances. He absorbed himself in sports for pastime. He attended and graduated from a New York school for the deaf. He got a steady (\$130 a week) job in the bakery of the Chock Full O' Nuts chain. And he married—a 29-year-old girl named Monsarret who is Puerto Rican and who is also totally deaf and dumb. Today, Willie lives with his wife in a comfortable, nicely furnished apartment in the Bronx. He watches television, drives his own car, goes occasionally to the movies, dances at least every month at the Domino Club and in almost every way lives a quite normal and happy existence. While society around him seethes with bitterness and frustration, Willie says he is at peace. Politics? He thinks the President does the best job he can. He disagrees with some things that happen, but he feels, all in all, the nation is a good deal better off than any of the globe's other peoples. Causes? Extremists, he says, fight futile battles. He has no sympathy for the Black Panthers. If someone does him wrong, he thinks it can be better resolved in some other way than big sticks and big mouths. It might be argued that Willie Jeanette is out of California's leading fish catch is tuna.

touch with reality. If so, Willie pleads guilty—with cause. Because he and hundreds of thousands of other speechless, less mutes live in a world in which fact, not just fiction, insists no one can survive alone. Where everyone is a member of the minority and say only griet? "Even if somebody did call me nigger," he smiles and waggles his hands, "I wouldn't know it anyway." (Newspaper Enterprise Ass'n.)

SIDE GLANCES by Gill Fox

CARNIVAL by Dick Turner

"Of course I believe it's important to continue to explore space... after all, sooner or later we're going to need some place to put our overflow garbage!"

WEDNESDAY, APRIL 29
8:30 p.m. 2B, 3, 5, 11: Beverly Hillsites features guest star Phil Silvers as con man Shilly Shaler, who meets the millionaire Clamplatts while in the Ozarks to pick up some traveling money.

If it's Revolutionary — Cain's Has It
Coming just topped the self-cleaning oven.
The Counterange.

This is Counterspace Cooking. A Corning Invention.
No burners, coils, grease traps. At last! Smooth, tough, porcelain-glaze ceramic top. Beautiful invisible electric heating elements. Invaluable by controlled very precise self-cleaning oven. Naturally, the Counterange is the range of tomorrow. BUT YOU CAN GET IT TODAY.

Four electric heating elements hidden beneath the surface provide precise, thermostatically controlled heat. Individual burners glow yellow to show which cooking area is turned on — the rest of the surface stays cool.
• Automatic oven bunnys controls turn the oven off and on even if you're away. And the handy outside mood may be set up to 80 minutes at a time.
• Because the roof is completely flat, there is no place for splatters to hide. With no joints to remove just wipe away any of it to keep clean.

Lost and Found
LOST: LITTLE Crippled Girl pet between Twin Falls and Jerome. Female, semi Siamese, cat. White spot on nose, white patch on neck. Two dark spots on service white back feet and part written front. Other white Siamese color. Name: 'Sandy'. Research: Contact Mrs. Margaret Saroff, R. 5015 Ash, Spokane, Washington. Call FA 8-5478 or 757-7777. City Police in Twin Falls.

**THINGS ARE TOUGH BUT OVER.**  
 The perpetual potholes fill one in and another opens up.  
 Your car is cruelly abused by lousy roads. There's no place in the world for it to hide.  
 So you've resigned yourself to a new car every three years or so because you figure you can't change the world.  
 But you can change your car. Consider Volvo.  
 9 out of every 10 Volvos registered here in the last eleven years are still on the road. And while we can't guarantee your Volvo will last that long, it should last considerably longer than the payment book, enabling you to bank the money you'd normally spend on a new car.  
 Thus, while you can't make the world a better place for your car, the Volvo we sell you can make it a better place for you.

EXTREMES IN FASHION are demonstrated at McNary High School, Salem, Ore., as Shelly Stevens, left, models a "naked" during a fashion show while Cynthia Legg, seated, wears the pantsuit which brought her temporary ex-

pulsion from school. Cynthia obtained a court order restraining school authorities from enforcing the school dress code until court suits is settled. (UPI telephoto)

### Former 'Beret' Battled Nazis In Prison Camps

CINCINNATI (UPI)—The code name "Jerry the Dagger" gave sinister warning that O.S.S. Major Jerry Sage was a soldier to be taken seriously.

Now, 25 years later, Green Beret Col. Jerry Sage is still tall, straight and raw-boned and people continue to listen when he speaks.

Sage, head of the ROTC operations in the Southeastern United States headquartered at Ft. McPherson near Atlanta, Ga., talked about the wild days of 1944-45 in Germany when he was a prisoner at Stalag Luft 3, an Air Force officers camp.

"If the Nazis had discovered I was with the O.S.S. (Office of Special Services) I would have been tortured for information and then killed," he stated matter-of-factly.

"So I had to assume various identities in POW camps such as American or British pilots," he explained.

Sage, a hand-to-hand combat expert, was known as the "Cooler King" at Stalag Luft 3 because of the amount of time he spent in the "cooler," solitary confinement.

This was the part made

famous by actor Steve McQueen in the movie "The Great Escape" which was based on the activities of the POWs of Luft 3 who are holding their 25th reunion here.

"I must say I deserved a lot of the solitary time I got," Sage confessed, grinning. "Although I certainly didn't like it, I made a hell of a lot of escapes."

The nearly 200 former Air Force pilots who spent much of the war at Stalag Luft 3 swapped stories most of the day Saturday while attending a series of small parties.

One of the highlights of the day was a Fourth of July celebration reminiscent of the one held in the camp in 1944, complete with costumes.

#### CLEANER AND CLEANER

NEW YORK (UPI)—Fifteen years ago there were about 30 million bathtubs in America. By 1971, it is estimated there will be 70 million.

As tubs multiply, so do sales of bath preparations. Industry sources say they will soon reach the \$250 million mark.

### Protest

OSAKA, Japan (UPI)—A young Communist extremist sat in the left eye of a 200-foot statue at Expo '70 Monday and shouted to police that he would stay there until the world's fair was called off.

Police said the young man wore a red helmet of the extremist Japanese Communist faction called the Red Army. Nine members of the same group hijacked a Japanese jetliner to North Korea March 30.

The youth got into the top of the tower through an unguarded stairway late Sunday. Police strategy was to try to starve him out of the perch.

### Soviet Anti-Semitic Novels Ignite Dispute

MOSCOW (UPI)—Two virulently anti-semitic novels written by the same author have drawn almost unanimous critical fire since their recent publication here but have been defended in some quarters.

Navy Capt. Ivan Shevtsov blew up a literary storm a few weeks ago with his first book, "In the name of the Father and the Son," which quickly sold 60,000 copies.

His first novel was followed the other day by "Love and Hatred," issued by the armed forces publishing house in an

# U.S.-Trained Expert Aids Reds

TOKYO (UPI)—Former U.S. Navy Secretary Dan Kimball was a worried man when he heard that a Chinese-born scientist named Chien Hsueh-shen wanted to leave the United States for Communist China.

"I'd rather shoot that guy than let him out of the country," Kimball said. "He knows too much that is valuable to us. He's worth five divisions anywhere."

That was in 1950, when Chien was one of the brightest stars in the constellation of scientists at the Jet Propulsion Laboratory of the California Institute of Technology.

Master Builder  
Chien has lived up to

Kimball's highest estimates of his ability. Communist China announced Saturday the launching of its first satellite into orbit. The master builder of the rockets that did the job was Chien.

Chien's rockets are the backbone of a Chinese System intercontinental ballistic missiles (ICBM) that U.S. Defense Secretary Melvin Laird says will be pointed at the United States by 1975.

Like many of Red China's leading scientists, Chien is a product of American education. He came to the United States in 1935 on one of the scholarships America set up with its share of the indemnity paid by China after the Boxer rebellion of 1906.

MIT Student  
Chien first studied at the Massachusetts Institute of Technology, then moved to Caltech at Pasadena, Calif., in 1936. His teacher was Theodore von Karman, the Hungarian-born Jew whose genius made Caltech a leader in the development of jet engines.

Only the most gifted of Caltech's students got to work with Von Karman. Chien was one. Granted a security clearance late in World War II, Chien wore the wings of a colonel in the old U.S. Army Air Corps. He was sent to Germany after the war to study the rockets developed by Hitler's scientists.

His report was so brilliant that Chien was officially commended by Gen. Henry "Hap" Arnold, then the commander of the Air Corps. Chien's troubles with the United States began after Red China intervened in the Korean War in 1950. FBI agents uncovered the fact he had attended meetings of Communist sympathizers among scientists in southern California during the late 1940s. He was arrested and declared an undesirable alien. Chien was defended unsuccessfully by attorney Grant Cooper, who later was defense counsel for Sirhan Sirhan, the assassin of Sen. Robert F. Kennedy. Chien had tried to leave the United States before his arrest. He was stopped in Honolulu, and detained for five years. In 1955, officials of the Eisenhower administration decided he had been out of the U.S. defense program so long that he was no longer dangerous. Eleven American airmen who had been held by the Chinese Communists were freed about the same time but State Department officials always denied that it was a swap. NO ORDER, NO PAY AUSTIN, Tex. (UPI)—Unsolicited goods sent through the mail are regarded as gifts in Texas. The state legislature in 1969 voted to allow consumers to keep such items without any obligation to pay the sender unless the goods were received as the result of a bona fide mistake.

# Announcing a better deal for the man who needs a truck.

We're truck people. We want you to know that we understand your trucking needs and your problems a little better than anybody else. We've made it our specialty.

Which is why we've created a new place to do business in.

It's better equipped to handle all your service and parts requirements. Our factory-trained mechanics are ready with the latest scientific equipment to track down any problem you may have and correct it. And, our parts department stands ready to serve you with a complete inventory.

We also have a better area to display the big range of our new GMC Trucks. Light duties, mediums, and heavies.

And remember this. Our sales force is made up of men who are truck specialists. They've made a commitment to the trucking industry. They've studied it. They've lived it. They know what kind of unit is required to do any job efficiently and profitably.

Why not come in and visit us. We'd welcome the opportunity to tell you our whole new story. It's written just for you.

### Museum To Explore Laos Plain

PHILADELPHIA (UPI)—The University of Pennsylvania museum said Saturday it is hoping to send an archaeological expedition to study the Plain of Jars in Laos, a high plateau west of the Ho Chi Minh trail and surrounded by rugged mountains and an aura of mystery. The name of the plain is perfectly descriptive. It's grassy and covered with an estimated one thousand stone jars, some more than six feet tall, carved out of huge boulders of granite, limestone and conglomerate. Some are big enough to hold six men. Archaeological interest in the Plain of Jars has been revived by Elizabeth Lyons, a specialist in Southeast Asian art history now on assignment at the university museum. She had worked several years in Southeast Asia, most recently in helping Thailand modernize its archaeological museum and was approached by the Laos government for aid in establishing a museum in Vientiane.
