PROTEST DEMONSTRATION against shipment of nerve gas from Oklahoma to Hermiston, Ore. caused blackage of one of Seattle's main intersections as about 150 persons engaged in what they called a "die-in." They hoped to dramatize what would happen if nerve gas was blown into Seattle by accident. They held their positions for about 15 minutes. (UPI telephoto)

White House Says No Troops In Laos

KEY BISCAYNE, Fla. (UPI)—A disclosure that South Vietnamese troops sometimes chase Communist forces into Laos brought comment by the White House today that the U.S. has "no ground troops in Laos" and has not changed its policies there.

The disclosure by South Vietnamese Foreign Minister Tran Van Lam made at a Southeast Asia Conference in Jakarta, was the first official admission of a practice that has been underway for years.

Responding to newsmen's inquiries on the American role in such operations, Deputy Press Secretary Gerald L. Warren said: "We do not have American ground troops in Laos and there is no change in our activities in Laos."

"I don't know the extent of South Vietnamese operations," Warren added, "I haven't seen the foreign minister's statement in details."

It has been an open secret that both South Vietnamese and American troops have for several years conducted clandestine ground operations across the Laotian border to intercept enemy supplies coming down the Ho Chi Minh Trail.

However, there has been no official admission of these limited border forays.

President Nixon in his statement on March 30, said there were no American ground troops stationed in Laos but very carefully did not address himself to these sub-rosa operations from bases in Vietnam.

The White House restatement on Laos came as President Nixon and his family prepared to fly back to Washington tonight.

He was slated to depart about 8:30 p.m. EDT after dinner at his seaside villa.

Nixon also had on tap a farewell meeting with U.S. Ambassador Ellsworth Bunker before he returns to his Saigon post.

with the Urban Affairs Council. One other meeting on his Tuesday agenda was a session with the President in Washington. Many troublesome problems await the President in Washington, including the Cambodian issue, student unrest and the economic slowdown.

Agnew Doesn't Intend To Cool His Rhetoric

WASHINGTON (UPI)—Vice President Spiro T. Agnew says he has no intention of cooling his rhetoric until "some of the Eastern newspapers" begin toning-down language that appears on their editorial pages.

The vice president also discounted recent antiwar student demonstrations as an accurate barometer of campus discontent over the U.S. incursion into Cambodia.

"I certainly don't agree that the demonstrations that took place in Washington and some of the demonstrations that have taken place on the campus are really indicative of the deep seated student hostility to the Cambodian situation," he said.

"I think a lot of those students were out on a typical spring lark," Agnew said.

Agnew said the May 9 demonstration in Washington. He said there were also some who actually had the feeling they were participating in a very important venture.

But he described the "people who spoke and who publicly appeared on the media as 'the same old tired radicals' that everybody in the country's sick of listening to."

Judy's Slippers Go For \$15,000

CULVER CITY, Calif. (UPI)—The \$14 ruby red slippers in which Judy Garland danced down the yellow brick road in "The Wizard of Oz" fetched \$15,000 Sunday night as Metro-Goldwyn-Mayer continued to auction off its history.

The bidding started at \$1,000, jumped a few times, settled on \$11,000 and finally ended at \$15,000.

It took less than a minute Sunday night and Richard Wonder, who identified himself as a representative of a "Southern California" millionaire, walked off with the dancing shoes.

Wonder, who started the bidding, said he had been authorized by his client to go as high as \$22,000.

Another item from the 1939 movie was a MGM motion picture set of the Cowardly Lion's suit worn by Bert Lahr.

Suez Fight Is Heavy For Period

By United Press International. A weekend of heavy Middle East fighting ended with Israel claiming to have blunted the Egyptian Suez Canal offensive and Cairo leading reports proclaiming the monthlong drive a success.

Both sides reported heavy artillery exchanges all along the 102-mile waterway Sunday, the Israelis saying their gunners destroyed and Egyptian fuel dump, Cairo saying its men knocked out an Israeli tank, half track and two bulldozers.

Israel kept up its daily aerial bombardment of Egypt's canal front with 85 minutes of strikes all along the line, Cairo said one of the raiders was shot down and two were damaged—a claim Israel denied.

Tel Aviv's report on blunting the Egyptian offensive was carried over Israeli state radio. It said the Israeli air attacks along the canal "have freed the skies on the Suez front" and have reduced artillery attacks.

"In the past few days there has been a decrease in Egyptian artillery attacks and also a decrease in Israeli casualties."

On the one-month anniversary of its air and artillery offensive along the canal, Egypt said it was gratified with the results and predicted the bombardment would continue short of all-out war.

Soviet Union Gearing For Mid-East Crisis

LONDON (UPI)—Eastern European diplomats report the Soviet Union is geared for a Cuban missile crisis-type confrontation with the United States in the Middle East, this time in hopes of winning.

The Soviets hope to reverse what happened in 1962 when former Soviet Premier Nikita S. Khrushchev pulled Soviet rockets out of Cuba under pressure from the late President John F. Kennedy.

The sources said the Soviets figure the United States is so deeply involved in Southeast Asia that it will shy from risks of war with the Soviet Union in the Middle East and pressure Israel for a settlement with the Arabs.

The Kremlin would be gambling for high stakes in such a situation but is too deeply involved in the Middle East to back out now without serious loss of face and of political and ideological influence that might even threaten Kremlin leadership itself.

"The Soviet Union is deeply committed to the Arabs," one diplomatic source said, "but what is more, Russia's own prestige is now involved and would suffer immeasurably in the event of a further major Egyptian defeat that could topple President Gamal Abdel Nasser, Moscow's vital pillar in its overall Middle Eastern strategy."

Settled

WASHINGTON (UPI)—The federal government announced today settlement of a strike that had grounded National Airlines for 108 days.

Labor Secretary George P. Shultz said National, the nation's sixth largest domestic airline, and the Air Line Employees Association, reached agreement at 7:30 a.m. EDT on a new contract after an all-night session.

Shultz said the agreement was achieved with the aid of Assistant Labor Secretary William J. Usery Jr. and the chairman of the National Mediation Board, W. Frank O'Neill, after five days of almost continuous bargaining.

Papyrus Boat Sets Course On Atlantic

SAFI, Morocco (UPI)—Explorer Thor Heyerdahl, seven crewmen, 24 chickens, a duck and a monkey sailed down the Moroccan coast in a papyrus boat today toward currents Heyerdahl hoped would carry them across the Atlantic.

Red and white sails billowing, the red boat Ra II headed for the Canary Islands, the starting point for the current. Heyerdahl was coupling on.

Heyerdahl hoped the papyrus boat would reach Mexico's Yucatan Peninsula in 70 days in his second attempt to prove ancient Egyptians could have reached the New World centuries before Columbus.

His first attempt at navigating the Atlantic in a reed boat failed July 18 when heavy seas broke up his craft near Barbados, 600 miles short of Yucatan. The crew abandoned the boat after sharks surrounded it.

Arrest

ELIZABETH, N.J. (UPI)—The 19-year-old son of Sen. Ernest F. Hollings, D-S.C., was arrested Sunday night for unlawful use of marijuana after a car he was riding in was stopped for speeding on the New Jersey Turnpike.

Michael M. Hollings was released on \$250 bail pending arraignment today. Police said he was "very cooperative."

Hollings' companion was not charged. Police said a state trooper here found a quantity of marijuana inside the car when he pulled it over for a speeding violation.

Equal Pay Ruling To Stand

WASHINGTON (UPI)—The Supreme Court let stand today a ruling that one of the nation's largest manufacturers of glass containers violated the 1963 equal pay act by discriminating against employees on the basis of sex.

The court in a brief, order rejected the position of the Wheaton Glass Co., of Millville, N.J., found guilty of paying women less than men in comparable jobs.

An earlier case of discrimination against women was accepted by the court March 2. It involved an alleged violation of the Civil Rights Act of 1964. Mrs. Ida Phillips claimed she was refused employment as an assembly-trainee in the Orlando, Fla., plant of the Martin Marietta Co., solely because she was the mother of preschool children.

The Labor Department contended that Wheaton Glass, which employs 2,800 persons, paid men 10 per cent more than women in the category of "selector-packers."

New Park For 'Homes' Under Way

Construction of a 75-unit mobile-home park on 10 acres of land along 70th Street and the north edge of Twin Falls will begin Tuesday, with completion anticipated in 90 days.

To be known as the "Lazy J Mobile Home Ranch," the facility will be owned and operated by J. C. Williams and his wife, Margaret. The site lies half-way between Washington Street North and Blue Lakes Boulevard, on the Perrine Coulee.

Each of the 75 mobile-home lots will be at least 5,000 square feet in size, and will accommodate all sizes of trailers including the ultra-modern 74-by-76-foot models now coming off the assembly lines, Mr. Williams said.

The facility will include paved streets and paved off-street parking, a large common storage area for boats and large equipment, and complete landscaping, including grassy areas between the lots. Cement patios will be provided at all lots in addition.

All utility lines will be underground, adding to the cleanliness of the landscaping, and complete electrical facilities will be provided to handle all electric homes when desired.

Abernathy Predicts Big March

ATLANTA (UPI)—Dr. Ralph David Abernathy, president of the Southern Christian Leadership Conference, predicted Sunday thousands would join a mass march here Saturday to protest the "shoot-to-kill mentality" in the United States.

Abernathy said the Atlanta march will be coordinated with others in Chicago and Los Angeles.

The SCLC president said the march also will memorialize the shooting deaths of six Negroes in Augusta, Ga., two blacks at Jackson State, Miss., College and four white students at Kent State University in Ohio.

HUT HOW?

GRIMSBY, England (UPI)—Mrs. Betty Thompson hummed a hymn Sunday to one of her pet kittens which got into her vacuum cleaner. The animal was removed unharmed.

Stopping Inflation Is Risky

HOT SPRINGS, Va. (UPI)—Federal Reserve Chairman Arthur F. Burns said today traditional government fiscal and monetary policy cannot stop inflation without risking "a very serious business recession."

Burns suggested that the government might adopt a "very modest" incomes policy—a scaled-down version of the wage and price guidelines used by the Kennedy and Johnson administrations—to help control the cost of living.

"An effort to offset, through monetary and fiscal restraints, all of the upward push that rising costs are now exerting on prices would be most unwise," Burns said in a prepared speech to the monetary conference of the American Bankers Association.

"Such an effort would restrict aggregate demand so severely as to increase greatly the risks of a very serious business recession," he said.

Monetary policy is controlled by the Federal Reserve Board and includes basic interest rates and the supply of money and credit. Fiscal policy involves the government's spending and taxation actions.

Agenda Of Congress Heavy

WASHINGTON (UPI)—House members looked toward a varied legislative agenda this week, that takes in everything from their personal finances to improving benefits for Social Security recipients. But in the Senate there was only one subject, Cambodia.

Senators were on notice to expect spending the entire week on an increasingly controversial amendment to a pending military foreign sales bill.

American Delegates Are Named

Wayne Kinney, Twin Falls, was elected chairman of the Twin Falls County American Party at the county assembly Friday night filling the vacancy created by the resignation of Mrs. T. M. Jackson-Kimberly.

Mrs. Jackson was elected secretary to fill an existing vacancy.

Others presently holding county office are Mrs. Wayne Steele, state committeewoman and Dr. T. J. Wilks, state committeeman, both Twin Falls, and Mrs. Robert Miller, Hunsdon, Arvourer.

Pope Paul Deplores Fighting

VATICAN CITY (UPI)—Pope Paul VI today deplored the "growing involvement" of the United States and Soviet Union in Indochina and the Middle East and said their action was increasing world tensions.

Speaking to a Vatican Consistory of Cardinals, the Roman Catholic pontiff said also that growing fighting in those areas seemed to forget the populations of the countries involved.

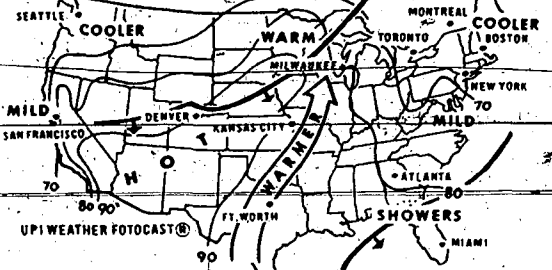

Without specifically mentioning either the United States or the Soviet Union, the Pope said, "the growing military involvement of the great powers, in fact, makes the menace of uncertainty (in the world) even larger."

Question . . .

What are the principal things I should look for when I purchase cemetery property?

Answer . . .

If you are buying grave spaces in a cemetery which is owned or controlled by a religious group or by a city or county agency you are protected by their perpetual existence. If you are acquiring property in any other type of cemetery you should exercise extreme caution.

MEMBER OF NATIONAL ASSOCIATION OF SELECTED MORTICIAN'S

Civitan Conclave Elects Officials

Members of the Civitan Club from the Intermountain district wound up a three-day convention Sunday in Twin Falls with a business meeting conducted by the new district governor, Robert E. Briggs, Pocatello.

Mr. Briggs succeeds R. C. (Bob) Adamson of Twin Falls as head of the unit. During business meetings, Dean Fisher of Nampa was named governor elect. He will take over in July, 1970, from Mr. Briggs.

About 75 Civitan members and their wives were in Twin Falls for the gathering at the Holiday Inn.

The majority of the time was spent in business meetings. Among those taking part were Mayor Frank Feltsman, G. M. (Bud) Keyt, Twin Falls Civitan president, who welcomed delegates to Twin Falls and the session.

Tom Nelson, immediate past president of the local unit, was master of ceremonies at a Saturday-night banquet which featured a speech by Eddie Lunn, immediate past president of Civitan International from Nashville, Tenn. K. S. Valls, Denver, international vice president from Zone 8, also attended the convention and spoke at a Saturday luncheon.

Guest speaker at a Sunday morning breakfast was Rev. Keith Maxwell, assistant pastor of the First United Methodist Church of Twin Falls.

New lieutenant governors announced by H. E. (Bud) Cheney, convention chairman, and Mr. Keyt, were Perry Fryslie, Idaho Falls, South East Idaho Division; William Sterretre, Billings, Mont., Montana Division, and George Asselin, Nampa, South West Idaho Division.

Housewife Takes Helm

TAMPA, Fla. (UPI)—A housewife took the unfamiliar controls of a single engine plane Saturday and flew it for 26 minutes after her pilot husband blacked out during a landing approach.

The Piper Cherokee landed safely at Tampa International Airport, which had put its emergency rescue operations on "red alert."

The Federal Aviation Administration identified the pilot as Richard C. Ragnitt, an Air Force ground control approach operator stationed at nearby MacDill Air Force Base.

AMONG OFFICIALS ATTENDING the District convention of Civitan International in Twin Falls were, from left, K. S. Valls, Denver, international vice president from zone 8; R. C. (Bob) Adamson, Twin Falls, district governor,

and Eddie Lunn, Nashville, Tenn., immediate past president of Civitan International. The convention, headquartered at the Holiday Inn, was attended by about 75 Civitan members and wives.

Monument Commends Southern Rebellion

AUGUSTA, Ga. (UPI)—"No nation rose so white and fair; none fell so pure of crime." The words are chiseled into a marble monument rising out of the hot pavement in the center of Broad Street—sleepy Augusta's main thoroughfare—as an everlasting tribute to the Confederacy.

There are blacks who say the attitude of many whites has not changed since the Ladies Memorial Association of Augusta had the monument erected 92 years ago.

It is these persisting, entrenched ideas, say the blacks, that nearly brought this city to its knees last Monday during the night of bloody rioting that left six persons dead.

Officially, the word was that the spark which lighted one of the deadliest racial incidents in the South in decades was the death in a Richmond County jail cell of 19-year-old Charles Ogden, a Negro. Police have charged that two teenage black celmates killed the Oatman boy, who had been accused of killing his five-year-old niece.

Pope Paul May Greet Red Chief

The slaying was merely the final gust that fanned the glowing embers of frustration into blazing rage—an anger directed against whites in a 100-square block ghetto area.

Snipers battled police and took pot-shots at firemen who battled more than 50 fires in a 19-hour period beginning about dusk Monday.

As one policeman that night put it, "A white man's life ain't worth a damn in there."

Whites were beaten and terrorized, their cars wrecked, but of the six persons killed, all were black. Hoving hands burned white-owned businesses in the Negro areas, selectively sparing next-door businesses owned by Negroes.

VATICAN CITY (UPI)—Pope Paul VI may receive President Tito of Yugoslavia later this year in the second meeting between a Pope and a Communist chief of state, Vatican sources said Saturday.

"It is fairly certain the president will call on the Holy Father," the sources said. "But no date has been set. It probably will come sometime in the autumn."

The only other Communist chief of state to visit a Pope was Soviet President Nikolai V. Podgorny early in 1967.

Measure Of Political Trouble

WASHINGTON — A measure of the political trouble President Nixon and the Republicans find themselves facing in this time of Cambodia, inflation and a sick stock market, can be found in the suggestion that even House Minority Leader Gerald Ford might not be a shoo-in for re-election next November.

has been a public hero in the state since his days as an athletic star at the University of Michigan. He entered the House in 1960, and has always won going away. Politicians on Capitol Hill like to claim he has the safest Congressional seat outside the South.

COMMENT

The Policy

IDAHO STATE JOURNAL The apparent success of President Nixon's Cambodian strategy, and his repeated assurances that U. S. forces will be withdrawn from that country in a matter of weeks, make it seem unnecessary for the U. S. Senate to enact legislation to cut off funds for U. S. operations in Cambodia after June 30.

could upset Mr. Nixon's timetable, of course. Cambodian developments are far from settled, and the enemy could react in a number of ways. If, for instance, former Prince Sihanouk were returned to power with the active support of either Soviet-Russia or Red China, it would be a dangerous new ball game.

The President said when he announced the Cambodian invasion that we had no intention of remaining. It was our purpose to destroy enemy bases and facilities, and take away the sanctuaries he had enjoyed across the border from South Vietnam.

FOR THE NEXT FEW weeks in this country, the action against the war will be taking place in the Senate. The uproar on campuses seems to be tapering off, despite recent violence in the South, and even some New Mobilization Committee leaders concede that the day of mass protest is over.

NEVERTHELESS, for the benefit of Mr. Nixon's credibility, the deadline should be met and our troops withdrawn. He said we would be out by July 1, and that is the most important consideration.

But we doubt that it will alter the course of events in the war. It now seems apparent we are irrevocably committed to getting out of the war, while maintaining our determination to achieve a just peace.

are, after all, made not just of mud. But our young are not as overawed as we are by the conquest of space. And they remain confused, confounded and suspicious of our magnanimous concern for the three.

Hope In Delta

KIEN HOA PROVINCE, South Vietnam — The single greatest reason to hope that South Vietnam may ultimately be kept from Communist domination is the vital Mekong River Delta, where the Vietcong have been losing the guerrilla war for over a year and may well have lost it entirely by the end of 1970.

The Saigon government has extended its presence through new outposts manned by territorial forces so that only 15 percent of Kien Hoa's population is under Communist control — and that number is being whittled down.

What an ingenious plan! "My studies," the professor said, "have indicated that there are hundreds of thousands of people who have said to our young citizens, 'I only wish I were your age so I could fight.' The Applebaum plan makes it

Wasteful Nation

Portland Oregonian The Seattle Argus offers a small suggestion for a big problem: conservation of natural resources. are running neck and neck in wasteful use of paper, not only for envelopes but for speeches by executives, reports ad infinitum, so-called press releases — you name it. It is a daily struggle for an editor to keep from being buried under the tons of unwanted, unread and utterly useless "information" dragged into his office by weary mail carriers. Many others must suffer a like fate.

MEASURING UP special ingredients for the annual Council of Catholic Women's Marion Luncheon are Mrs. Kenneth Walker, chairman, and Mrs. Paul Reynolds, co-chairman. Registration is set for 11 a.m. Tuesday at the Parish Hall, with the luncheon at noon. Special entertainment will be presented, taken from

acts in the recent school talent show. Initiation of officers is scheduled after the luncheon, along with a special talk by the Rt. Rev. Msgr. Edmund Cody, Rev. Don Wolverton is in charge of the programs. Mrs. Susan Will will enter the luncheon.

CASTLEFÖRD — The United Methodist Church, Castleford, was the setting for the wedding of Mary Bernice Darrow, daughter of Mr. and Mrs. John Darrow, and Douglas Bybee, son of Mr. and Mrs. Gerald Bybee.

The double ring ceremony was performed by Rev. Lewis Yagus, pastor of the Bible Baptist Church, Buhl, before the altar accented with two cathedral baskets of yellow pompon chrysanthemums and white daisy chrysanthemums with lime-green bows. In the background were white candles holding lime green candles decorated with swags of yellow chrysanthemums, white daisy chrysanthemums and lime-green ribbon.

The bride was given in marriage by her father and mother. Her floor-length gown of organza featured an empire bouffant "A" line, camelot sleeves, and was trimmed with fine cotton imported Venise lace. The wattleau chapel train was removable. Her shoulder length veil of illusion was held by a cap of soft pearls. She carried a colonial bouquet of white roses, baby's breath and stephanotis. She wore a diamond lavalier borrowed from her maternal grandmother, Mrs. Ivy Nielsen.

Dear Abby

DEAR ABBY: My husband and I both work, but in different fields. I have always made more money than he has—but it goes into a common pot and there is no "mine" and "thine."

I was recently offered a chance for promotion with a substantial increase in money, but it would mean moving to another city. My question: Should I ask my husband to leave his job so I can accept this promotion? He wouldn't have any trouble getting lined up in another job, but it would mean giving up his seniority where he is, plus some other accumulated benefits. Abby, every day husbands ask wives to give up good jobs and move to strange cities so they (the husbands) can accept promotions. But how about a wife asking her husband to move to a new city except a promotion? My husband is a good man, but he is very sensitive, and I wouldn't want to hurt his masculine pride. We have no children and are both working toward retirement. Above all, I want this marriage to last as it's the second time around for both of us and we really love each other.

NAMELESS, U. S. A.

DEAR NAMELESS: Your concern for your husband's masculine pride shows you to be a very considerate and intelligent woman. Don't ASK him to make the move. Tell him about the offer, observe his reaction and you'll have your answer.

DEAR ABBY: I have vowed that never again will I say anything about a fat child in the presence of the child. Many times I've said, "Oh, what a cute little 'fattie'—how fat and healthy she looks!" I didn't mean anything by this as I've always thought chubby children were darling.

My child (age 9) had a blood problem and was put on a very strong drug which made her abnormally fat. Frequently in public, people would point at her and say, "Look how fat that child is!" While shopping in a store, one woman asked her if she had the mumps. Another shopper brought her friend over to have a look.

I watched my daughter become increasingly self-conscious and shrink further and further away from people—even children her own age. Abby, I know this is too long to print, but please remind people to keep personal remarks to themselves. The child is aware of the abnormal condition, but may be on some strong drug that is saving his life, as it is in our case. We thank God for the medicine that made her fat. A MOTHER

DEAR MOTHER: All personal remarks, including how "fat," "short," "thin," and "fat" are unkind. Even remarks meant to be a compliment, such as "What lovely eyelashes your little boy has—what a pity to waste them on a boy," can be embarrassing to the child. If once knew a boy who, after hearing this a number of times, cut his eyelashes off with a scissors!

DEAR ABBY: That letter about "grandma" age 74 and "grandpa," 83, sure made me laugh. The question was, "Will the neighbors talk if they share an apartment to save expense, although they aren't married, and there is nothing between them but friendship?"

I think I can answer that question. They certainly will. My husband has been dead for 9 years, and an old friend of mine lost his wife 18 years ago. They've known each other since grammar school. I don't drive, so they also do gentleman brings me my groceries once a week. (Of course I pay for them.)

He stays maybe an hour just visiting with me. I have heard that my neighbors are shocked! I am 81 and he is 82, and he lives with his mother who is 97. Doesn't that beat everything? "TALKED ABOUT AT 81"

DEAR TALKED ABOUT: It sure does!

Verna Tracy, Jerry Hamby Marry In Home Ceremony

MALTA — The home of the bride's aunt and uncle, Mr. and Mrs. Irwin Christiansen, Rupert, was the setting for the April 25 wedding, uniting in marriage Verna Tracy, daughter of Mr. and Mrs. J. LaVerne Tracy, Malta, and Jerry D. Hamby, son of Mrs. Stella Hamby, Salt Lake City, and the late Mr. Noah M. Hamby.

Bishop Francis E. Ham Burley, performed the ceremony. The bride, given in marriage by her father, was attired in an empire-styled creation, fashioned completely of handmade rose lace. The fitted bodice, which featured a round sweetheart neckline, was accented by a crown of white rose petals in tear-drop fashion with accents of seed pearls and crystal sequins. She carried a single long-stemmed pink rose. Roberta Christiansen, aunt of the bride, was matron of honor. Bridesmaids were Mrs. Vernon Tracy, sister-in-law of the bride, and Karin Christiansen. Big Dargar served as best man and ushers were Jay Harper and Bruce Christiansen. The newlyweds were feted at a reception May 1 at the Raft River High School. The reception room was decorated with a pleated white backdrop with gold flake accents and white French doors.

Beauty baskets of Better Times pink chrysanthemums and white gladioli with Better Times pink ribbon accents flanked the French doors. Each basket was resting on a white pillar column. A garland of greenery and lilies of the Valley draped the backdrop. Joella Hirsch, Brigham City, registered the guests. Gifts were arranged by Mrs. Ronald Walters, Mrs. Bert Tracy and Althia Heber. Karen McElwain, Kristan McElwain and Susan Tracy were gill-bearers.

Centered on the bride's table, which was covered with lace, was the three-tiered wedding cake. Pillars and white swans divided the tiers. The white lattice trim and Better Times pink rose accented were topped with two white doves.

Special guests were grand-chrysanthemums and white parents of the bride, Mr. and Mrs. Rowlin J. Harper, Malta; six-tiered wedding cake decorated with lilies of the Valley and daisies, topped with Margaret Felix, Polly Barnes, daisies. Yellow candles in crystal candleholders decorated with swags of yellow lilies.

SAIDRA NYE, sister of the bride, was the matron of honor. Bridesmaids were Shari Darrow, sister-in-law of the bride, and Vickie and Teresa Bybee, sisters of the bridegroom.

Flower girl was Jennifer Nye, niece of the bride. She carried a yellow basket of rose petals. Allen Sample, ringbearer, carried the rings on a white heart-shaped pillow, made by Mrs. Minnie Wing, great-aunt of the bridegroom. Tom Owens and Terry Mitton were taper lighters. Tony Wiggins was best man. Ren Ruffing, Alan Kinyon, and Dean Allred were ushers. Mrs. Dean Allred was in charge of the guest book.

Wedding music was played by Mrs. James LaGrone at the organ and she also accompanied John Ensunas, soloist.

The reception for the 225 guests was held in the fellowship hall of the church after the wedding ceremony. The reception table was covered with a white lace cloth and served the cake and Mrs. Gene Baxter and Mrs. William Gene Baxter served. Assisting with serving were Valley and daisies, and topped with Margaret Felix, Polly Barnes, daisies. Yellow candles in crystal candleholders decorated with swags of yellow lilies.

Hospital's Radio Link Proves Life-Saver

FRANKFORT, Ky. (UPI)—The new emergency hospital radio network linking 12 rural Kentucky hospitals had been on the air less than a week when it saved the lives of two children.

In the long run it will provide all the residents of the 11 counties served by the hookup with faster, more efficient medical and hospital treatment, both in everyday operation and in emergencies.

The system is the first of its kind in a rural area, although similar networks have been established in such cities as Los Angeles, Chicago and St. Louis. It will make it possible for the health care resources of the entire region to be coordinated

in a major disaster or emergencies, as well as providing day-to-day inter-hospital communications on such matters as blood and drug supply.

Radio hookups

The network includes not only inter-hospital radio hookups, but also two-way radios for communication with ambulances and other emergency vehicles, and portable two-way radios and pocket paging devices for hospital personnel.

The system received its first emergency test on April 10, when it had been on the air only three days.

At 4:21 p.m. Frontier Nursing Hospital in Hyden, Ky., reported a three-year-old child badly

bitten by a rabid dog and in need of rabies vaccine.

Phone Call

A check of the other hospitals on the radio hookup revealed no serum available, but a worker at one hospital recalled a recent outbreak of rabies in Virginia. A telephone call was made to a Wise, Va., hospital and the vaccine was located at 4:35 p.m.

Ten minutes later, an emergency vehicle was dispatched to meet Virginia State Police at the state line to receive the serum. In less than three hours it arrived in Hyden.

YOU COULD WIND up in this chair if you register in the College of Southern Idaho's "On Stage" workshop this summer. Fran Tanner, who along with guest director Frances Mackenzie, London, England, will conduct the

workshop, said the two-week course is designed for high school drama instructors, students, and church and community drama leaders and participants. The course begins June 8 at the Fine Arts Center.

Theater Directors Plan Workshop At CSI

Two theatre directors will present a basic drama workshop "On Stage" during June at the College of Southern Idaho.

Guest director at the workshop offered by the speech and drama department at CSI will be Frances Mackenzie, London, England. Conducting the workshop will be Fran Tanner, associate professor of drama at CSI.

The workshop will feature directing, acting and some improvisation. The session will offer three college credit hours and will run from 9 a. m. to noon and 1 p. m. to 3 p. m. Monday through Friday, June 8 to 19 at the Fine Arts Center.

Director Mackenzie is well-

known in the United Kingdom for her work in theatre. Besides professional acting experience she is the author of four theatre books, is an examiner in speech and drama at London University Institute of Education, and is a member of the Council of Guild and Drama Adjudicators. She presently is a tutor for professional actors at the City Literary Institute in London.

She was principal of the British Drama League from 1938 to 1964 and during that time she judged and lectured in New Zealand, Australia, Ceylon, Malta, Kenya, Uganda and East Africa. In 1964 Queen Elizabeth II awarded Miss Mackenzie an MBE in the New Year's Honor-

list. Mrs. Tanner is the author of "Basic Drama Projects" and is head of the CSI drama department. She recently has directed "Dandelion Wine" and "Barefoot in the Park," both CSI productions.

The workshop is recommended for school drama directors, college and high school students and church and community drama leaders and participants.

Fee for the two-week course will be \$35. Registration can be made by calling the administration building at 733-6554, extension 22.

Puerto Rico Grooms New Tourist 'Mecca'

SAN JUAN, P.R. (UPI)—Puerto Rico's south side, as dry and open as the American southwest, is little known to tourists. Now it's being groomed as the island's second major tourist area.

The plan centers around construction of an international airport to serve the southern half of Puerto Rico, as isolated from the metropolitan north by the central mountain chain as if it had been a separate island.

The tourism development is part of an integrated plan to siphon some of Puerto Rico's economic boom to the region bounded on the east by the second largest city, Ponce, and on the west by the third largest, Mayaguez. The \$26 million airport, to be completed in 1973, will be situated halfway between the two cities in the Lajas Valley, a sweep of scrub and ocean-bounded by the mountains on the north and the

Caribbean on the south. Jets from New York will land directly at Ponce and visitors will be dispersed to a number of hotels either already built or in the blueprint stage. One transportation idea envisions tourists riding to and from scenic spots on a narrow gauge railway to be restored from segments of the old sugarcane-shuttle lines.

Before the southwest playground can unfold, however, the infrastructure has to be built. There are few decent roads, telephone service is meager, water and sewer lines do not exist in many places. These services are equally vital to the industrial expansion planned for the area.

The master plan for the combined industrial, agricultural and tourist development of the area is to be completed this summer by the commonwealth planning board.

Successful Investing

By ROGER E. SPEAR

NEW YORK (UPI)—Stocks were firm as trading passed the halfway mark Monday. Turnover was light.

Analysts held the upturn was largely an extension of Friday's technical rally, but they noted that demand was being restrained by economic uncertainty and concern over Indianapolis and the Middle East.

The UPI market indicator, measuring all stocks traded, showed a gain of 0.33 per cent on 1,465 issues on the tape. Of these, 718 moved higher and 475 backedtracked.

The Dow Jones Industrial average of 30 selected public chips was ahead 1.45 at 703.67. A three-hour turnover of around 6,000,000 shares was running well below Friday's pace.

Ford Motor Co., the day's most active stock, was off about 1% on 177,000 shares, most involving a block of 170,000 shares at 41 1/2 by Salomon Bros. & Hutzler.

Bentguy was heavily traded and down more than a point. The firm received unfavorable comment in a business publication's article.

DESPITE PRESS REPORTS to the contrary that the annual Armed Forces Day celebration at the Mountain Home Air Force Base had been cancelled, the air base welcomed several

thousand visitors to "open house" ceremonies on Saturday. On left, a huge C-54 propeller-driven aircraft attracted many visitors who were allowed to view the plane via a stairway. On

right, the wheel well of a B-52 bomber brought many to marvel at the complexity of a modern aircraft. Crowds also viewed

Marine Corps tanks, Army weapons and thrilled to a fly-by of F-4D Phantom jets and their reconnaissance RF-4C version.

Two Soldiers Say Trial Is Not Fair

ATLANTA (UPI)—Two soldiers facing possible death sentences in connection with charges stemming from the alleged My Lai massacre said Sunday the "army machine is rolling over us" in efforts to gain a conviction.

Riley, Kan., was charged with offenses in connection with the alleged My Lai massacre. He immediately selected Capt. Delmar C. Gowing to defend him.

In a statement issued Sunday night by the Pentagon, Lt. Col. Harry Heath said the Army was "aware" of Hutson and Smith's request for their chosen counsel.

Sunday's interview with UPI marked the first time any of those accused had come forward with accounts of their treatment by the Army.

BARBERS AND WAITRESSES - Once a barber, always a barber. That is the claim of a contemporary. His point is a barber rarely rises above his original occupation. Might be something to that. Can think of only Perry Como as one exception. It is likewise true, you know, that good waitresses rarely go into other lines of work, at least not permanently.

THE OWNER of a drive-in theater in Seattle employs a husky old boy with a towtruck as his bouncer. ... HUMOR - Psychologists at Wellesley University and Smith College recently conducted tests to determine which had the better sense of humor, men or women. They told 100 jokes to a single sampling of both sexes, and concluded the women's ability to appreciate humor was far greater than the men's. The girls were more sensitive and more discriminating, they decided. What else could you expect at Wellesley and Smith? Pickets, prepare your banners. We march at noon.

Just A Moment!

Before you decide to sell your own home, perhaps you'd better ask yourself these questions:

- 1. Which is best for me: a cash sale or a real estate Exchange?
2. Is it necessary to advertise? If so, how extensively?
3. How can I invest the proceeds of my sale profitably in other real estate?
4. How can financing or transfer of the present loan be arranged if I sell now?
5. How can I help the buyer arrange satisfactory financing?
6. How can I get all the information on financing, comparative values, and market trends?
7. Is this a good time to sell?
8. How much cash can I get for my property on the current market?

It will pay you to see a Realtor! Smart Move! One That Could Save You Time, Effort, and Money.

REASON? Because Realtors and brokers are professional in real estate. As such, they can place at your disposal wide experience and technical skill in selling a home...

Few Citizens Ask Violence Reprisal

CHIEF RON JENNINGS of the Twin Falls Navy Recruiting station recently received an award for being named the outstanding recruiter for 1969 in the Portland District. He was competing with about 70 men from 23 recruiting stations in the district, and was elected for his commendable personal conduct as a representative of the Navy and his initiative and perseverance which contributed directly to attainment of recruiting goals. The Twin Falls station was second from top in the district during 1969-70 and Chief Jennings said if the present trend continues, he should be the top station in the area for 1969-70. His award was signed by Vice Admiral Charles K. Duncan, chief of Naval personnel. Chief Jennings has been in Twin Falls for three years and recently received a one-year extension to June, 1971.

WASHINGTON (UPI) — The response of state and school authorities to the student strikes and protests over Kent and Cambodia has been generally restrained with relatively few demands for legislative or academic reprisals, a 50-state UPI survey showed.

In some states, notably New Hampshire and New Jersey, there have been demands for a special session of the state legislature to crack down on campus violence. In Delaware and Massachusetts, punitive measures were pressed but then shelved.

But in a great number of states the prevailing official attitude was to keep the schools open during student strike activity, to be ready to cope with any violence but to keep the situation as calm as possible and let time cool the controversy.

The survey showed that most states have experienced strong campus antiwar protests and

student strike activity. But in only five states were schools compelled to shut down completely. There were temporary closings of from one to 10 day duration in 14 states.

On the other end of the scale, UPI bureaus in Arkansas, Alaska, Mississippi, North Dakota and South Dakota reported everything normal on their campuses.

The nationwide survey indicated that in every instance school authorities were working out flexible plans so that students will sustain no academic loss or punishment for class work or exams missed in a college year disrupted by strife and angry dissent.

At schools that were disrupted, the general academic rule was that students would be allowed to leave early and be given the option of taking the grade they made at May mid-term exams, to take make-up final exams this summer and next fall or to obtain credit for their courses on a pass-or-fail basis with no grade.

Complete school closings were reported at Kent State University where four students were fatally shot by Ohio National Guardsmen; Grinnell in Iowa which ended its school year before the end of the spring term; the University of Massachusetts and Boston University; Seton Hall in New Jersey after a police clash that left 26 injured, and in Vermont where five universities cut short their terms.

There were temporary closings reported from Washington, Pennsylvania, Maryland, Michigan, Illinois, New Hampshire, Wyoming, New Mexico, Georgia, Delaware, Oregon, New York, California and Tennessee — either by consent of college authorities or by direction of state governors in cases where violence flared.

UPI bureaus in 31 states reported their schools were kept in operation although in most

cases classes were disrupted by protest, classroom strike activities and spasmodic violence. These were Alaska, Kentucky, Indiana, Montana, Utah, Colorado, Virginia, Wisconsin, Arizona, Rhode Island, Nebraska, Nevada, South Dakota, Mississippi, Oklahoma, West Virginia, South Carolina, Minnesota, Kansas, Missouri, Alabama, Connecticut, North Carolina, Texas, Florida, Hawaii, Idaho, Louisiana, Arkansas, North Dakota and Maine.

Ohio, where the Kent shootings triggered national tension, typified much of the legislative response to the campus controversy.

UPI's Columbus bureau reported that a newly formed student and citizens group has urged enactment of a law providing mandatory expulsion of any student-lawbreaker at a state college.

The report then commented: "The legislature, which returns May 18, shows no sign of passing any such bill but initiating a summer-long study of the campus situation. A flood of bills has come in designed to deal with disturbances but this is an election year and such is to be expected. The leadership is less inclined to take hasty action."

There were no visible movements in California to cut off state funds to public schools and colleges that "experienced trouble. But public reaction to Gov. Ronald Reagan's decision to close state colleges to avoid violence was generally favorable.

In Delaware, a state legislator declared he would introduce a bill to eliminate funds for the University of Delaware if school authorities ordered the school closed. He was talked out of it by Gov. Russell Peterson.

Illinois — Republican state senators summoned Samuel F. Braden, president of Illinois State, to a party-caucus and upbraided him for allowing American flags on his campus to be lowered to half staff in memory of the dead Kent students.

"But the executive committee of the state Senate subsequently approved creation of a special state commission to study campus turmoil."

UPI's New Orleans bureau summarized the Louisiana situation this way: "The attitude of the over-30s seems to be more or less no-harm. There is no move afoot to cut off public funds to the state schools — most of which are in dire financial straits anyway."

But from Maine, it was reported that while there is no sign of a fund-cutting effort by the legislature, university officials believed that the outbreak of protests has damaged chances for passage of a \$14.9 million university bond issue that goes before the voters June 16.

Northern States Fight Segregation

United Press International President Nixon has said de facto school desegregation based on housing patterns rather than law is not illegal. But almost every major city in the North is trying to eliminate it.

UPI surveys taken two years ago and last month indicate the cities are not making much progress, but the efforts continue in some cities because many question the wisdom of segregated education and some also question its morality.

"No aspect of education deserves higher priority than providing our future citizens the experience of learning together so they can live in peace tomorrow," said the Pennsylvania Human Relations Commission.

There is evidence, however, that the Northern school desegregation movement was in trouble even before the Nixon statement.
