Blacks In Florida Rampage

MELBOURNE, Fla. (UPI)—
A group of Negroes, frustrated by their failure to get into a city Council meeting, stoned cars and stores Tuesday night. Three white persons were injured.

The —blacks,—their number swelling to around 1,000, largely. Confined their rampage to the Nogrodistrict. A 150-man police force, sealed off a 40-square block-jarca.

The violence subsidied around 2:30 a.m. today when a meeting was set up for Wednesday evening between black spokesmen and Mayor Adger Smith and the City Council.

Most of the officers were withdrawn, but Police Chief-Robert Cotron kept a riot squad and shatgun patrols in the area. About 30 blacks went to City Hall Tuesday night to present their grievances to a City Council meeting.

A Time To Pause . . . A Time To Remember

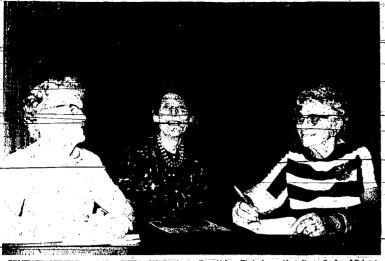

Once Again on Memorial Day, we pause to recall, with respect and much pride, the selfless sacrifices of our brave and valiant departed heroes. With unflinching devotion, they gave their lives so that our precious heritage of liberty might endure. Lest their deeds be forgotten or ignored, and their sacrifices be in vain, let us all now resolve to be equally steadfast and courageous in preserving that which has been so heroically achieved. Let us dedicate ourselves to ever cherish and uphold that priceless freedom, which is the legacy of those whose memory we honor on this day.

Vote Power

Of all that has been said in the aftermath of the Kent State
University tragedy, one of the most
poignant statements was that of an

poignant statements was that of an anguished coed.
These four deaths wouldn't have happened, she said, if the government had listened to the students when they gathered by the hundred thousand in Washington last October for the Peace Moratorium. The students tried to work within the system, to express dissent peacefully, but nobody listened to them.

them.

Ever since campus unrest began
at Berkeley back in 1964, the older
generation has been telling—the
younger that if it wants to reform
society it must work within the generation has been telling the younger that if it wants to reform society it must work within the system set up by society. And more and more the young have been replying that society resists orderly change, that the system is stacked against reform. Therefore, more violent action is necessary. The fault is not that of youth. Somehwere along the line, while the children were raising a generation of obedient parents, someone failed to make clear to them the nature of "the system." The simple fact is that while everyone in this country has the right to state and publish and dramatize his opinions, nobody is obligated to listen to him. In a democracy it is through the ballot box that the people implement change, not through the megaphone.

Oh, yeah? it is asked. What about the 1964 election? Did not the people yote overwhelmingly for

the 1964 election? Did not the the 1964 election? Did not the people vote overwhelmingly for Lyndon Johnson because he promised not to widen the war in Vietnam and overwhelmingly against Barry Goldwater because he talked as if he might? And did not Johnson turn around and do exactly what he promised not to-

exactly what he promised not to do?
What about the 1968 election?
The people elected Richard Nixon because he said he had a plan to win the war and because they believed a fresh administration might have a better chance to get the country out of the entanglement. But now we are in Cambodia by Nixon's order and, a year and a half after his election, still have over 400,000 men in Vietnam.

This is democracy?
The reply is that a president's room for unilateral action as commander in chief is also part of the system, an imperfect system. In 1964, Congress backed up that power by giving the president a virtual blank check in Vietnam. In 1970, with the hindsight of six years, some senators wish they could give the President nothing more than 30-day renewable notes.

The reaching of a consensus

The Power Of The Presidency

WASHINGTON (NEA) — Since the onset of the events in Cambodia and at Kent State, the power of the presidency to overawe — if not to overwhelm — has, been freshly and dramatically demonstrated to dramatically demonstrated to those of us who try to cover the

Talking recently at Santa Fe,

Commencement time puts me on a campus somewhere else two or three times every week. It's wonderfully refreshing to encounter segments of our student population still facing the future with confidence and pride and great expectations. I find more than a few who

are not sitting around asking themselves "Who am I?" "Are my parents real?" "Is God dead?" "Which dope is not

dead?" "Which dope is not dope?"

And I thought I'd sensed a renaissance of some old-fashioned philosophies and values among today's young sophisticates; now I've seen three surveys which say the same thing: There is "an old-fashioned youth movement."

Hearing Slated In T. F.

Within about two months the Twin Falls Planning and Zoning Commission should be ready to hold hearings on a proposed. new zoning ordinance.

This was reported Twisday by Dale Riedesel, chairman of the commission. He said for the Past several months his organization has been reviewing the present ordinance to liberalize it in some areas and make it more applicable and easier to administer.

Allowable uses in certair

Allowable uses in certain zones, he said, are proposed without the present practice of a zone change application each time a piece of property is designated for a new use.

A matter brought before the zoning commission Monday night for informal discussion Monday in the provides for unit development including several in that it provides for unit development including several uses in one area, A proposed development including several uses in one area. A proposed housing development on Pole-Line Road to include a "neighborhood service center" would be covered in the new ordinance, the chairman said.

In addition, the commission is

also propering a new signing ordinance based on recommendations of the Down Town Improvement Committee to fit signing regulations in with the signing regulations in with the new mall type development.

Mr. Riedesel said both proposals will be submitted to the city council for final action following hearings and work by the zoning board.

This class the's still in college), or a no solution with the boys.

I'm not saying he is up to anything, but, it sure looks suspicious. I would rather he didn't wear his ring at all than to have him pick it up and put it down like a yoy.

To me, a wedding band is not just a piece of jewelry, it's a symbol of a commitment. This part-time wedding band business is driving us apart. How do you feel about it?

FULL-TIME WIFE

DEAR FULL FILE to make you jealous, or he needs to take a course in elementary psychology.

DEAR ABBY: My son will be married soon and he and his bride-to-be have decided that an evening sit-down dinner reception for 200 guests should not include small children. I want very much to have my three grandchildren present at the wedding and reception. They are 6, 4, and 3 years old. I am sure it would be a wonderful memory for them

Doesn't a parent of the bride or groom have a say in this matter? Who is the final authority? GRANDFATHER

DEAR-ORANDFATHER:—The-final "authority" is the bridal couple. Don't press it. To attempt to make "exceptions" of your grandchildren would be unfair. And unwise.

DEAR ABBY: My husband wears a hearing aid, and when we're at a cocktail party he turns off his hearing aid and goes to sit in a corner. Many people think he's anti-social or snobbish, but it's not true. He says that when some folks (especially women) get a few drinks in them, they tend to laugh and shriek extra loud, and the sound, when ampillied thru his hearing aid, feels like a "knife" in his ear.

Abby von would be doline neonle who wear hearing aids

Abby, you would be doing people who wear hearing aids a big favor if you asked your readers to be a little more considerate.

Model for model, Chevies are priced lower.

Chevy pickup prices start below the others. And model for model, they stay below-all along the regular pickup line. By as much as \$201.04* below in the case of a Chevrolet ½-ton Fleetside – Americ:a's most popular pickup body style.

Chevy offers you more horsepower.

Our 40() V8 is the largest available in its field by more than 50 horses. That's horsepower for moving the largest

camper bodies-at-turnpike speeds with ease. With five engines and four transmissions available. Chevy also gives you the biggest

power team selection. There are 250 (staindard) and 292 sixes. And 307 (standard) and 350) V8s, besides the 400. And they all use regular gas. So that you not only enjoy savings when you bu y a Chevy pickup now, you save while you enjoy u sing it later on.

Others would have you rough it on stiff I-beams.

Chevy's independent from suspension uses massive coil springs to soak up jolts. For

a ride as smooth and comfortable as most passenger cars. And the whole unit is solid steel, for years of punishing service - not just part steel, like other suspension systems.

Behind Chevy's walls of steel.

Since Chevy pickups are priced less, you might think that we give you less pickup. How wrong you'd be. Chevies actually have more double-wall construction built into them than any similar pickups in their field.

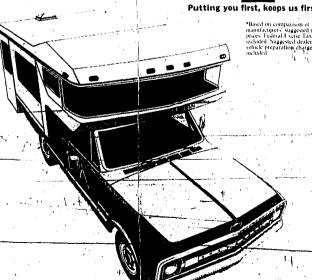

Chevie's come with double-wall cowl. Rear body and body sills Roof: Double-wall Fleetside box walls And even their fenders have fenders built inside them. Tough liners to fight rust and wear. Try finding extras like these in competitive pickups.

Chevles live longer.

Now that you know a few of the ways Chevy pickups have it over the others, it shouldn't surprise you that they outlive the others. Industry scrappage ratest prove it. For example, over 56', of the Chevy trucks built in 1955 are still on the job. No competitive make has as many as half of its 15-yearold models still working. Over the years, Chevrolet trucks' consistently stay on the road longer than any other make of truck.

Contains No **Option Clause**

NEW YORK (UPI) — The New York Jets announced Tuesday that contrary to previous reports quarterback Joe Namath-doos. have an option-contained in his 1971

option—contained in his 19/1 contract.

If had been announced last week that there was no option included, which would have allowed Namath to become a free agent if he so desired after 1971

rice agent if he so desired after 1971.

Cub president Phit Iselin said: "The only thing stricken from Namath's contract is the stendard clause saying that if he played out this option he would be paid only 90 por cent of his contract. This is part of the standard player contract at the standard player contract that we have never done this with any of our players. This past season Don Maynard and Dave Herman didn't sign until a fetter the season. We agreed not to recognize the 90 per cent clause in their contracts too. "The insorteet information for the insorteet information of contracts. The copy of Jet's contract in our attorney's file, which was used to bring the directors up to date at our annual meeting, was incorrect, we latter checked this out against our copy, the lengue's copy and the copy which Jose's lawyers have. It definitely shows that Joe has 1970 and 1871 to go on his contract plus the option for 1972."

His Southern Strategy
Harris, politically and personally, is a study in contrasts.
While judged a liberal by most political standards, he comes from a conservative state,
He apeaks with a Southern farm bey drawl but quotes by memory from a seemingly unlimited reservoir. Of the writings of Shakespeare, Jeffer-Soff, Albert, Coringé and other-litterary and political greats,
His father, born in Misskasippl, worked as a mule skinner, cotton picker, farmer and eattleman, His mother, a native of East 'Foxas, has been a chicken plucker, laundry worker, cotton picker, store clork and housewife.

From this background he has emerged as a leader in civil, rights and other social legislations. Harsis' wife, Ladenna, a Comanche Indian, has helped in his election campaigns and with his legislative program in the Senate. Ross and James cy, both Twin Falls, cod electronics, and Funkhouser, Gooding, Senate.

-He points to his own Southern family background in proclaiming his optimism that America's divisioness over recial problems will be heated.

"If I can coine to see these things," he says, "anyone can."

Built-In Drunk Driver Tester Has Some Bugs

WASHINGTON (UPI) —My

compliments to General Motors for hitting on the idea of a cartituth a built-in Blank driver tester. But I fear the device GM has in mind is inadequate. GM's tester, still in the development stage, flashes a series of numbers on the dashboard when the ignition is turned on. After, two seconds, the numbers disappear and the driver has six seconds to push the same numbers on a series of buttons.

By JOAN HANAUER
NEW YORK (UPI)—Jim
Hersom bettees it is criminate of subject children to the hard sell of television commercials under selling them is reading, writing and rithmetic.

Tri very upset about television the special solution of children, Henson said. He speaks as an authority—he is the creator of the Muppet puppets—such as Kermit, the frog, and the Cookle Monster seen-regularly of Sesame Street on National Educational Television (NET).

"There are millions of dollars aimed at the 12 or younger group:" he said. "It's almost criminal—no. It is criminal, getting kids to buy products.
"That's not where the networks should be making money. These kids are our country, our future," and ribey shouldn't because lit's me the works should be making money. These kids are our country, our future, and ribey shouldn't because lit's me them is garding—and then rocked anything almed at Item 18 garding—and the reception will be used increasingly for everything from to his recent network officials wonder why the teen-agers—un-of-levision for them is any good, They convinced anything almed at Item 18 garding—and the recent levision will be used increasingly for everything from to his recent network shows, Henson says:

"That's different—and not just because it's me.
