

President In West For Work Holiday

SAN CLEMENTE, Calif. (UPI)—Looking tired, President Nixon settled down today at his ocean-side, Spanish-style villa, hoping to relax and work at a leisurely pace this holiday weekend.

The President brought along with him a covey of foreign policy and domestic advisers with whom he planned to confer with before returning to Washington Monday.

The 57-year-old Chief Executive has been riding out the storm in Cambodia, the stock market slump, the economic slowdown and student unrest. Nixon planned a quiet Memorial Day weekend with his wife, Pat, and best friend, Charles "Bebe" Rebozo, who accompanied him. The Nixon's daughter, Tricia, and other plans that kept her from making the trip and the First Lady hinted her daughter had a big date.

Nixon flew in from Knoxville, Tenn., late Thursday night, addressing a Billy Graham youth rally where he called for change "in a peaceful way."

"I know there are things about America that are wrong with America," Nixon said. "But I also know this is a country where a young person knows there is a peaceful way he can change what he doesn't like about America and that is why it is a great country."

Nixon spoke emotionally and of the Gulf. He spoke above the shouted obscenities of a small crowd of dissenters.

When they passed the collec-

Rogers' Security Is Strong

MADRID (UPI)—Secretary of State William P. Rogers arrived Thursday for an official two-day visit amid some of the strongest security precautions for a foreign visitor to open in recent years. About 100 armed policemen ringed his plane when it landed.

Rogers flew to Madrid from Rome where U.S. officials said before he left that the United States may reach a decision on supplying all or part of Israel's request for 25 Phantom jet fighter bombers within the next few weeks.

Sanction

BOISE (UPI)—A professional sanction has been lodged against the Boise School District Board of Trustees and notice distributed to the National Education Association, state education associations, schools in the Northwest and placement services in the immediate area.

New York executive secretary of the Idaho Education Association, said the move followed a resolution approved by the IEA Delegate Assembly at its annual meeting in March.

Agnew In Assurance Address

HUNTINGTON, N.Y. (UPI)—Vice President Spiro T. Agnew apparently trying to reassure the nation's financial community, said Thursday that the developments in Southeast Asia would increase the federal budget and boost inflation "are totally unfounded."

He told Suffolk County Republicans 1970 would be a good year for business, a "turn around" year in Vietnam and "a time when everybody learned that it never pays to sell America short."

Agnew said the President's decision to send U.S. troops into Cambodia was "the most successful military move since Inchon Landing in the Korean War" but that it didn't signal a widening of the war.

tion plate, Nixon, who never carries any money had to borrow \$5 from Graham to support his "own crusade."

As the President said goodbye at an airport, he told Graham he was not going to pay the money back.

Renewal Of Japan Treaty Expected

TOKYO (UPI)—Police expect Japan's radical student movement will allow the military treaty with the United States to remain in force without the first bloodshed that marked the pact's birth.

The treaty, signed in 1951, Japan's Communist Party and other political groups have been demanding its revision and abolition since the revolutionaries and rightists almost killed each other in 1968.

But police do not expect the pact will be revised, which would mean a new treaty. The pact was signed in 1951, which was the first time since World War II that the United States and Japan signed a treaty.

Police expect that as many as 50,000 students may mobilize on the streets of Tokyo, the world's most populous city with 11.4 million residents, to denounce the treaty.

denounce the treaty, which the United States has maintained since the war.

Police expect that as many as 50,000 students may mobilize on the streets of Tokyo, the world's most populous city with 11.4 million residents, to denounce the treaty.

The mood of Japan's students has changed in 10 years.

Police do not expect the pact will be revised, which would mean a new treaty. The pact was signed in 1951, which was the first time since World War II that the United States and Japan signed a treaty.

450 May Die In Accidents

CHICAGO (UPI)—Between 350 and 450 persons will die in the nation's traffic during the Memorial Day weekend beginning 6 p.m. tonight and ending midnight Sunday, the National Safety Council says.

The council said Thursday 18,000 to 20,000 other persons may suffer disabling injuries during the holiday weekend.

Council President Howard Pyle urged motorists to plan ahead, make sure they are physically fit, not tire themselves and avoid "the abusive use of alcohol."

The council also gave several tips on how to avoid other injuries during the holiday period.

—When using electrical appliances in the back yard, be careful to keep them away from water, even a wet patio surface.

—Do not drink if you will be swimming.

—Keep camp sites tidy and built far from damp spots.

—Check boats for leaks and carry life preservers; check fuel supply.

—Keep toes and fingers away from lawnmower blades.

Boom Banned

LONDON (UPI)—The Concorde, the new Anglo-French supersonic jet, will not be allowed to make a supersonic boom over England.

The government decision was announced Thursday in a paper on protection of the environment and will mean that the new faster-than-sound aircraft will have to wait until it's over water before breaking the sound barrier.

Nixon Will Not Ask For Higher Taxes This Year

We Don't Like The New Court Either

Twin Falls officials joined a growing statewide dissent over the new Supreme Court, which they said was "not the court we want."

They said the new court was "not the court we want" and that they were "not going to support it."

They said the new court was "not the court we want" and that they were "not going to support it."

They said the new court was "not the court we want" and that they were "not going to support it."

They said the new court was "not the court we want" and that they were "not going to support it."

Arson

PULLMAN, Wash. (UPI)—Arsonists tried unsuccessfully today to complete the burning of a building at the Washington State University campus.

However, the fire was quickly controlled and only minor damage resulted from the flames, which officials said were "not a threat."

Decision Made For New Site

BOISE (UPI)—The Idaho Energy Commission's facilities and studies are being made of sites other than those at the National Reactor Testing Station near Idaho Falls for possible burying grounds for some radioactive materials.

In a letter to the Governor's Task Force on Radioactive Waste, the commission said it had decided to seek congressional authorization and funding in the 1972 budget to establish a new radioactive waste repository.

The commission said the effort would not significantly alter the present waste storage practices at the NRTS before the latter part of this decade.

The task force committee, meeting Tuesday in Boise, released a statement saying, "There is no known danger from radioactive waste disposal at the NRTS, however, this does not mean there is no future danger."

For Sale

BOISE (UPI)—Sale or lease of the Idaho Tuberculosis and Chest-Disease Hospital in Gooding was advertised Thursday by the Idaho Department of Health.

Officials said the institution is being phased out as a state hospital and that patients now being treated will be transferred in mid-June to Gooding Hospital in Spokane, Wash.

Facilities include three major buildings on 40 landscaped acres with one-half acre of paved parking.

Error

WASHINGTON (UPI)—The office of Sen. Frank Church, D-Idaho, said Thursday he was misinformed by the Economic Development Administration concerning a \$650,000 loan to the Lewis-Clark Motor Hotel in Lewiston.

Wednesday Church's office was advised the EDA had approved the loan to the hotel; but Thursday the office received a copy of a letter to the hotel from the EDA stating that the loan had not been approved.

Kennedy Plans Set For 1972

NEW YORK (UPI)—Sen. Edward J. Kennedy said today there was no way he could be persuaded to run for the presidency in 1972.

The Massachusetts Democrat declared in a television interview that he was "not planning to run for president."

He said he was "not planning to run for president" and that he was "not planning to run for president."

Pope Paul Is Ending 50 Years

VATICAN CITY (UPI)—Pope Paul VI completed 50 years in the Roman Catholic priesthood today, a remarkably active man of 72 who spiritual leader of more than 600 million Roman Catholics and absolute monarch of the tiny Vatican State.

He will have been pontiff for seven years next week. Before he succeeded John XXIII, the Pope was archbishop of Milan and before that an official in the Vatican Secretariat of State.

He worked as a priest in a parish for only five months after his ordination in the cathedral at Brescia, his home town.

Bishop Giacinto Gaggia, who ordained the future Pope as Father Giovanni Battista Montini, said that the young priest would have a brilliant future at the Vatican and sent him to study at Rome's Gregorian University.

The Pope celebrated his first mass the day after his ordination, wearing vestments out from his mother's wedding gown.

Tuesday night, the pontiff braved rain and cold to celebrate Mass in the open air at a suburban housing development. The Mass marked Corpus Christi, a national holiday in Italy.

He wiped up "Bob," said store owner Bob Spangler. "The \$50,000 between \$50,000 and \$100,000 merchandise was not insured."

Jackson and Duncan "told me his buddy that was in on this thing with him, had promised to give half of the proceeds of about \$1,000. That's some friend."

Deficit Will Hit At Record Level

By NORMAN KEMPSTER
WASHINGTON (UPI)—The Nixon administration will not propose additional taxes this election year even if the deficit in the federal budget soars to \$5 billion, a high-ranking administration official said today.

He said that if the economy remains sluggish, such a deficit would be "acceptable."

The administration's latest formal estimate places the deficit for the fiscal year beginning July 1 at \$1.3 billion.

Evaders Get Break In Ruling

WASHINGTON (UPI)—The Justice Department gave U.S. attorneys blanket authority last Jan. 30 to dismiss charges against draft evaders declared delinquent and subjected to accelerated induction because of antiwar protest activities, it was disclosed Thursday.

Acting on these instructions, about 600 cases have been dropped to comply with two Supreme Court rulings, which held that draft boards could not induct antiwar protesters.

The Justice Department and the Selective Service system both have taken the position since the ruling that they did not know the status of such cases.

Senate Honors War Dead

WASHINGTON (UPI)—The Senate paused today in its three week debate over the Indochina War to honor the dead of past wars.

Most senators were in their home states to take Memorial Day weekend soundings on Cambodia, as well as the broader questions involving Southeast Asian policy, the economy and domestic unrest.

It appeared the first real test vote on whether to limit President Nixon's authority to use American troops in Cambodia after June 30, would be at least 10 days away.

The limitation amendment, sponsored by Sens. John Sherman Cooper, R-Iowa, and Frank Church, D-Idaho, would be attached to a bill authorizing sales of military equipment.

The Senate will vote Wednesday at 11:30 a.m. EDT an amendment offered by Sen. Robert J. Dole, R-Kan. It asserts the President's authority to re-enter Cambodia after June 30 if American citizens are held as war prisoners in that country.

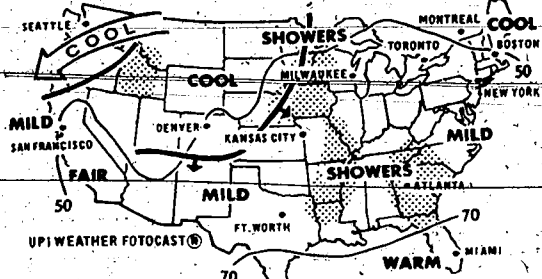

The Senate took a short holiday—today, Saturday and Sunday. But business will be slow until Wednesday, because there are primary elections in seven states Tuesday.

University Action Is Disgrace

FRANKFORT, Ky. (UPI)—Gov. Louie B. Nunn, Thursday night said it was a "moral disgrace" that some university students and faculty have shown more concern for campus riots than for the victims.

Daily Weather Report

PREVIEW OF ESSA WEATHER BUREAU FORECAST TO 7:00 A.M. EST 5-30-70

DURING FRIDAY NIGHT, shower activity is expected throughout most of the Mississippi Valley, in the Northern Rockies and in parts of the South Atlantic States. Clear to partly cloudy skies should prevail elsewhere.

Glenns Ferry Asks Fuel Bid

GLENN'S FERRY — The Glenns Ferry Highway District is advertising for bids on gasoline and diesel fuel for a one-year period. The bids are to be opened in the district office at 8 p.m. June 4.

Proposals are to contain the price per gallon of regular gasoline and diesel fuel delivered exclusive of Federal Tax to the yard in Glenns Ferry and the price delivered to the Hill City Yard.

Richfield Teachers List Plans

RICHFIELD — Diversified plans for the summer have been announced by Richfield faculty members.

James Thomas will return to Krasner Ranger Station above Cascade to serve again as supervisory fire control aid; Walter Thoreson will return to Yellowstone Park where he is employed by Hamilton Stores at Camp Roosevelt; Charles Butcher will attend summer school at the University of Idaho to work towards his master's degree; Mrs. L. T. Sanders will attend summer session at Idaho State University; David Beveler will work on farms for relatives at Leander; and Gary Kiser plans to vacation in Mexico, Utah, and California for part of the summer.

Six of Richfield's elementary teachers reside in Richfield with no special plans announced for the vacation period. Ronald Roder, former seventh grade instructor will attend summer session in Maryland on a science grant.

Church Sets Bible School

FAIRFIELD — "Discovering Christ Where You Go" and "Proving God's Promises are the Themes for the Community Church Daily Vacation Bible School next week.

Classes will be from 8:30 to 11:30 each day. Children from 4 years old through the eighth grade may attend.

The school this year will be divided into two sections, according to Mrs. Robert Rush. The 4 year old through the fourth grade will meet at the Community Church. The fifth through the eighth grade will meet in the high school. All children in the community are invited to attend.

There will be a closing program June 5 at 7:30 p.m. that will feature an open house to view the handcraft made during the week. A program of music and other entertainment will begin at 8 p.m.

Bible teachers include Mrs. Donald Groff, Rev. Robert Rush, Mrs. Winnie Rice, Mrs. Walter Pearson, Mrs. Lono Baldwin, Mrs. Melvin Brooks, Mrs. Loy Vanskike, Mrs. Hersch Lange, Mrs. John Gaskill, Mrs. Keith Strom and Phyllis Strom.

Craft teachers include Mrs. Rice, Mrs. Baldwin, Rev. Rush, Janet Cluer, Mrs. Dallas Serr, Paula Bauscher, Linda Prock, Mrs. Glenn Gilg, Beverly will be Sandra Ruby, Hepler, Kevin, Christie, Giesler, Jackie Gaezle, Lynnann Cox, Amy Strom, Mrs. Robert Newhouse, Mrs. Harold Brooks, Mrs. Kelly Thompson and Mrs. Bud Prock. Lucinda Osborne and Mrs. Doran Cluer will be pianists. Music teachers are Mrs. Victor Flansky and Mrs. Rush.

Refreshments will be served each day and Mrs. Floyd Clutter, Mrs. John Gaezle, Joanne and Penny Pauls will be the committee.

The extended outlook, Sunday through Tuesday, indicates generally fair weather with a warming trend. This will result in highs of 70 to 80 Tuesday and lows of the high 30s and 40s.

The general fishing season in Idaho will be off to a poor start tomorrow morning due to the forecast showers and the fact that most small streams remain somewhat high and muddy.

Mr. Newnam Funeral Services

Bennie Lewis Newnam, 83, 421 Taylor St., died at his home Thursday of a short illness. He was born March 10, 1887, at Bogard, Mo., and married Nell Townsend on March 10, 1921, at Harden, Mo.

He came to Idaho from Missouri 40 years ago, working as a barber in Boise for 40 years. He moved to Twin Falls about six months ago, to be near his daughter, Mrs. Gerald (Betty) Suggen.

Mr. Newnam was a member of the barbers' union and the church. He was a member of the Survivors, in addition to his daughter, include his wife, Twin Falls; one son, William F. Newnam, Nampa, five grandchildren and two great-grandchildren. Four brothers preceded him in death.

Funeral services will be conducted at 10 a.m. Monday at the Alden-Wagoner Funeral Chapel in Boise with burial at Cloverdale Memorial Park.

Friends may call at White Mortuary in Twin Falls this evening, and at the Alden-Wagoner Chapel in Boise Saturday evening, all day Sunday and Monday until time of services.

Damage Is \$4,000

All windows in the new Child Development Center on Harrison Street have been broken by vandals, causing an estimated \$4,000 damage.

The incident was reported Thursday to Twin Falls Police, who said either an air gun or a BB gun was used to cause the destruction.

The center, now under construction by Otis Hall Construction Co. of Twin Falls, is nearly complete. Mr. Hall said all the windows were not in the building at the time the vandalism occurred, or damage probably would have been more extensive. A shipment worth several thousand dollars arrived Thursday morning and had been put into place.

Broken were eight 8 by 7 foot windows and 24 3 by 7 foot windows. Mr. Hall said the windows were "very expensive tempered glass which completely shattered" when struck by the pellets.

It is believed children were responsible for the damage because small footprints were found around the construction site.

The vandalism was the latest in a series since the first of the year. BB guns, air guns and even staple guns have been used to break windows in homes, businesses, and schools. Mr. Hall said about two weeks ago a large window in the construction company's office also was broken by vandals.

Frank Hicks

Frank Hicks, 85, of 235 8th Ave. N., died Thursday at a Jerome nursing home of a lengthy illness.

He was born March 2, 1885, in Bristol, England, and came to Idaho from England in 1908. He married Mary Orchard in Twin Falls in 1922.

Mr. Hicks farmed in the Twin Falls area, retiring some time before his death.

He was a member of the Methodist Church.

Survivors include his wife, Twin Falls; a son, Francis H. Hicks, Mountain Home; a daughter, Mrs. Virgil (Catherine) Lang, Twin Falls; two brothers, Tom W. Hicks, Twin Falls, and Arthur Hicks, in England; one sister, Mrs. Dorothy Hawking, in England; 14 grandchildren and seven great-grandchildren.

Funeral services will be conducted at 11 a.m. Monday at White Mortuary Chapel by Rev. Harold Nye. Burial will follow in the Twin Falls Cemetery.

The family suggests memorials to the Idaho Youth Ranch.

Lila Dunn

KING HILL — Word has been received here by Mr. and Mrs. Thompson of the death of Mrs. Lila Irene Henderson Dunn in St. Luke's Hospital, Boise, following a brief illness.

Mrs. Dunn, a cousin of Mrs. Thompson, was born in Blais, February 7, 1922, and attended elementary school in King Hill. Her mother, Mrs. Cora Henderson, and her father, Hubert Henderson, Orofino, and sister, Mrs. Emory (Helen) Helm Plummer, were all King Hill residents.

Green Team Is Shoot Winner

HANSEN — The Green team won over the Red team with a score of 279 points to 245 points at the Modern Woodmen Rifle shoot at the Woodman Hall.

High men scores for the evening were Jack Nuckols, first with a score of 51; Norville Reynolds, second, score 50; and John Nuckols, third, with 49 points.

High ladies were Mrs. Minerva Smith and Mrs. Ruth Hill; who tied for first place with scores each of 51 points, Lydia Mae Pyron was second with a score of 49, and Mrs. Cloe Weech and Mrs. Rae Nuckols tied for third place with scores each of 46.

Jim Bennett was host.

New Books Reported For Filer

FILER — A number of new books for adults have been added to the shelves of the Filer City Library, according to Mrs. F. E. Albion, librarian.

They include "The Shivering Sands" and "The Queen's Confession," both by Victoria Holt, "Mary Queen of Scots," Fraser; "The French Lieutenant's Woman," Folwell; "Four Came Back," Caldwell; "Goat Song," Verby; "Marijuana, The Facts, The Truth," (Non-fiction), Ouraler; "Have I Ever Lied To You?," Buchwald; "The Good Dead," Buck; "The Day," Cora Henderson; "The Winter People," Kellogg; "The Velvet Hammer," Baldwin, and "Many A Green Tale," Turnbull.

Parade Of Homes Is Planned

Plans for a 1970 Parade of Homes were formulated at a meeting of the Magic Valley Home Builders Association held at Bob Willis Motor Co. this week.

Alex Brehm was named chairman of the 1970 show, tentatively set for September 18, 19 and 20. Early commitments indicate that more than 10 homes will be shown, according to Brehm, with showings at Green Acres, Shoshone Acres and at Regal Homes, Kimberly.

Participants in the planning session, in addition to Brehm, include Bob Willis of Willis Construction, Lyle Frazier of Regal Homes, Charles Wetzler of Twin Falls Title and Trust Co., Robert Lassiter of Vance Builders, Leo Baslin of Key Lighting and Building, Glen Call of Idaho Power Co. was appointed advertising and publicity chairman.

The next meeting will be held in the evening of June 11 at Key Lighting and Building Offices, according to Brehm. All interested builders are invited to phone him at 733-5557.

Boy On Bike, Auto Collide

A young Twin Falls boy escaped serious injury about 4 p.m. Thursday when his bicycle and a car collided on Blue Lakes Boulevard North.

John Meehl, 11, son of Mr. and Mrs. Dan Meehl, was taken to Magic Valley Memorial Hospital and treated for minor injuries and released.

Twin Falls Police said the boy rode his bicycle from a driveway into the path of a south bound car driven by Harlan D. Thomas, 30, Twin Falls.

Forest Camping Fees Set

Recreation user fees for U.S. Forest Service camp and picnic areas have been established at an annual permit charge of \$7, or a daily fee of \$1, with permits to be available in the near future at the Sawtooth National Forest offices and ranger headquarters.

Area residents and others using the Sawtooth Forest over the Memorial Day weekend will not be charged a use fee, however. Local forest officials said permits and program information for the recreation use are not yet available here. An announcement on when the program becomes effective will be made later.

Under the 1970 program forest recreation permits will be good on forest lands only and National Park Service permits will cover use of national parks only. There will be no interchange with other agencies.

Congress is now reviewing a proposal to continue the Golden Eagle program and should it be adopted yet this year the Forest Service permits may be exchanged for the Golden Eagle badge, good on all public lands.

All Forest Service recreational sites have been open to free use since expiration of the Golden Eagle program March 31, 1970. Under the new 1970 program, areas where permits are made will be properly closed and other areas are open to the public.

Lots of permits are available from Forest Service headquarters.

Gems Glean

The Gem and Southern Idaho has received a \$200,000 grant from the U.S. Department of the Interior.

The funds will be used to purchase a telescope for astronomical observations, a microscope for the study of minerals, and a variety of other equipment.

Jerome Bridge Results Listed

Jerome Bridge winners of the 1970-71 season were listed Tuesday at the Epworth Club. Included were: Joe Fasella and Mrs. L. J. Reese, first; Mrs. Ethel Nelson, second; and Mrs. Edith Nelson, third.

Mrs. J. W. Towle and Warren Van Camp, third; East and west winners included Mrs. Dick Lowe and Mrs. Alice Clark, first; Mrs. Charlotte Jacobson and Mrs. Ron Rogers, second; and Mrs. Warren Van Camp and Mrs. Jerry Diehl, third.

The play was a semi-novice, open game. Anyone interested in learning to play duplicate bridge is welcome to attend the weekly meetings. Experienced players were urged by club members to bring a novice as a partner.

Anyone wishing to play and needing a partner may call 324-2960 in Jerome. Play starts at 8 p.m. each Tuesday.

WALTER HAEMERLE

MARCUS BERESFORD

Wood River High school juniors, both from Ketchum, have been named by the Ketchum American Legion to represent the area at the annual Gem State Boys' State Sunday through June 6 in Boise. They are the sons of Mr. and Mrs. Florian Haemerle and Mr. and Mrs. Barney Beresford. Mark Jensen, son of Mr. and Mrs. Lynn Jensen, also Ketchum, is the alternate.

Business College Will Graduate 32

The Twin Falls Business College will grant degrees and certificates to 32 graduates at 8 p.m. today in the First Baptist Church at 8 p.m. in the 23rd annual graduation exercises.

The college is accredited as a two-year school of business and offers six curricula leading to diplomas in accounting, stenography and related fields.

Sterling C. Larson, founder of

the school in 1947, who served as its administrative head until 1962, will be commencement speaker. Rochelle Wing will furnish incidental organ music and will present Mendelssohn's "Sonata No. 2," for program music.

The traditional cap-and-gown ceremony will be highlighted by announcement of the award to the most outstanding student.

Graduates receiving certificates or diplomas for one or two years of study will include Francis Cammack, Karen Cope, Bonnie Haviland, Margie Haviland, Joyce Lassen, Ruth McArthur, Linda Wright and Cynthia Wasko, all of Buhl; Sandra Magee, Burley; Jennie Kunter and Ronda O'Hulse, Boise; Betty Bullers, Eden; Carolee Lance, Gooding; Jeanette Larson, Hansen; Karla Black, Hazelton; Marvin Ravel, Heyburn, and Betty Bush and Billie Wilson, Riverton.

Guests and faculty June Jacobs, Ketchum; Sue Andrews, Joan Smith, Ellen Lennister, all of Salmon; Jeanne Coffman, Shoshone; Judy Hendrix, Wendell; and Barbara Arnt, Clady Brooks, Clatskanie; Janyce Goddard, Sherm Gilmore, Toni Grinnick, Howard Jorgensen and Geraldine Kuch, all of Twin Falls.

Guests and faculty June Jacobs, Ketchum; Sue Andrews, Joan Smith, Ellen Lennister, all of Salmon; Jeanne Coffman, Shoshone; Judy Hendrix, Wendell; and Barbara Arnt, Clady Brooks, Clatskanie; Janyce Goddard, Sherm Gilmore, Toni Grinnick, Howard Jorgensen and Geraldine Kuch, all of Twin Falls.

Meeting Places, Directors Announced For County-Wide Beautification Drive

The County-wide beautification drive is nearing the home stretch in Twin Falls.

County with co-chairmen of the one-day campaign June 13, having announced seven districts where committees will be working at the same time.

William Chancey, county commissioner, and Bob Brock, BLM office, Burley, share chairmen honors, Thursday announced division of the county and meeting places for volunteers and assigned committee workers.

The Kimberly, Hansen and Murtaugh area, with Dick Harris, will coordinate efforts and will meet at the

Deane Zeller as coordinators, will meet at the Hansen dump to begin their campaign.

Castleford and Buhl will be under the direction of Don Kraher, Marion Ambrose, Doug Bishop and Larry Wilson. In Castleford workers will meet in the downtown area, and in Buhl, at the city park.

Hollister and Rogerson will meet in Hollister, with Heber Loughmiller and Lew Martindale as coordinators.

For the Clover-Elmer area, Merle Leonard and Morris W. Carlson, assisted by Rod Harris, will coordinate efforts and will meet at the

fairgrounds.

In Twin Falls, the old hospital grounds will be the meeting place, with Don Youtz, Bill Nutting and Chuck Bate as coordinators.

Final district will be the Murtaugh area with the school in the meeting place and Herb Thorne and Gary Lee as coordinators.

Mr. Chancey and Mr. Brock, meeting with campaign leaders Tuesday afternoon, reported assistance for the drive is growing daily.

About 700 4-H club members under the leadership of Olen Genn will donate their efforts

and the entire membership of the Twin Falls Jaycees, with Larry Utley, president, also have volunteered.

Several items are still needed, say the chairmen. About 2,000 bar-lap bags are needed for volunteers to use in collecting cans, bottles, and trash.

County Commissioner Morris W. Carlson said persons with bar-lap bags to donate may call the commissioners and they will be picked up.

There are also some heavy trucks and loaders needed in various parts of the county.

Persons volunteering for assistance should come

prepared to work and must wear proper clothing.

Good boots that are comfortable and won't wear blisters are a must, said Mr. Chancey.

Gloves also will be necessary and hats to protect the workers from hot sun also should be worn. Rakes, pitch forks and similar equipment also would be helpful.

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.

TOPS Convene

HANSEN — "It's not how young you are but how young you look," was the opening thought given by the leader at the Slim and Trim TOPS Club meeting at the home of Mrs. Thomas Steelsmith.

Mrs. June Wilson was best loser for the evening. Mrs. Wilson was also a 10-lb loser and received a gift for her loss. As best loser for the week she gets to choose a gift from the hostess table and if she continues to lose for three more weeks, she may open it and keep it. She is also entitled to a bouquet of flowers. If she shows a loss each week, "Diet Watchers Guide," a book recommended for diet control, gave reasons why some foods are limited and why some are more desirable in using while dieting.

Social Events

FILER — Mary Time Club will meet at 2 p.m. Tuesday at the home of Mrs. Lyle Abel. There will be a silent auction and refreshments. Plans are being made to bring white elephant items for sale.

The Salmon Social Club will meet Thursday at the Fuller Brownell home in Twin Falls. Mrs. Mae Fuller is hostess, with Alice Courtney as co-hostess. Mrs. Nina Hardy will present the program.

Seventy-five cents for each pattern—add 25 cents for special pattern for Air Mail and Special handling. Send to Marian Martin, Times-News, 395 Pattern Dept., 232 West 18th St., New York, N. Y. 10011. Print name, address with zip, size and style number.

Big, new spring-summer pattern catalog, 111 styles, free pattern coupon. 50¢ Instant Sewing Book sew today, wear tomorrow. \$1. Instant Fashion Book—what-to-wear answers, accessory, figure tips! Only \$1.

Dear Abby

DEAR ABBY: You stated, "If there is an International Brotherhood of Mountain Goats, I hereby offer my most humble apologies for saying they smell bad."

You were probably joking, but there is an "International Order of Rocky Mountain Goats," and no apologies are in order for your remarks concerning the odor of goats, domestic or mountain. (Neither variety smells like Chanel No. 5.)

Unfortunately women cannot join this organization or I would submit your name for honorary membership, but at our next meeting I shall propose a toast to you.

STEVE FRAZEE

Salida, Colo.

DEAR STEVE: I don't know that many women would care to butt into the "International Order of Rocky Mountain Goats," but those who do shouldn't be denied membership because of their sex. Perhaps you'll be hearing from the Women's Liberation Movement about this.

DEAR ABBY: "KNOWS HIS GOATS" doesn't know his goats! It's true, the Barnyard Billy goat may not smell very good to humans, but he smells fine to the Nanny goat who is just about as particular an animal as you can find.

You hear a lot of stupid things said about goats. They are very particular about their grooming and they are very clean.

Goats are much more intelligent than you think. They are very smart and they are very stubborn. If you want to brag about your kids—try about goats.

DEAR ABBY: I read in your column where someone wrote that if she should marry her first cousin, Glory, why would anybody want to marry their cousin? The way most people get along with their relatives, it's bad enough to be related to them accidentally, but to marry them on purpose is really insane.

Me? I'd rather take my chances and marry a stranger. "FREE AND ENJOYING IT"

What's your problem? You'll feel better if you get it off your chest. Write to ABBY, Box 69706, Los Angeles, Cal. 90069. For a personal reply enclose stamped, addressed envelope.

Twin Falls Jay-C-Ettes Honor Mothers And Guests

"Honor your mother — not only on Mother's Day, but 365 days of the year," Jay-C-Ette members noted during their recent meeting at the American Legion Hall in honor of their mothers and guests.

Mrs. Tom Wojcik gave the invocation and flag salute. Hostesses were Mrs. Doug Vollmer and Mrs. Tom Tinker.

Mrs. Stan Vandenberg presented the program with several readings on her interpretations of mother.

Mrs. Dick Waldman reported on the concession stand at the Battle of the Bands and Mrs. Robert Becker reported on a party held at the Mountain View Convalescent Center in Kimberly. The Child Care Center report was given by Mrs. Gordon Welch and Mrs. Juan Galindo reported on the gift of a

wall clock given to the Jaycees.

Mrs. Vollmer noted special awards given during the installation banquet included Mrs. Darrell Smith Key Woman award; Mrs. Waldman and Mrs. Mary Utley—hardest workers; Mrs. Galindo, friendliest, and Mr. and Mrs. Tinker, Mr. and Mrs. Jaycee.

Members voted to sponsor a girls soft ball team and to host the open house for the Regal Manufacturing Co.

Mrs. Tinker was named the "Jay-C-Ette of the Month." It was announced Mrs. Sweet will be secretary during the summer while Mrs. Becker is out of town.

A white elephant sale was conducted by Mrs. Waldman and Mrs. Tinker. The special prize was given to Mrs. Becker.

55th Annual Conclave Slated

Mrs. K. A. Keveren, Twin Falls, president of Idaho State Chapter, PEO Sisterhood, will preside at the 55th annual convention to be held in Coeur d'Alene, June 2-4.

This culminates seven years service on the executive board as a state officer for Mrs. Keveren.

Guest of honor at the convention will be Helen F. Evers, Winfield, Kan., first vice president of Supreme Chapter. Dr. Ernest V. Hartung, president of the University of Idaho, will be the featured speaker at the banquet.

Wijdan Shami, Jordan, who has been studying at the University of Idaho during the past year under a PEO International Peace Scholarship, will speak at the PEO Projects Program. Miss Shami has just received her doctor of philosophy degree and will return to her native land to teach.

Two Idaho girls will be awarded scholarships to Colby Junior College, Warrenton, Ore. They are: Mrs. C. R. Fox, a past state president.

Religion Today

By Rev. Lester Kinsolving

The strongest opposition to the rapid liberalization of the nation's abortion laws may be coming from the Catholic Church. It would seem from examination of statements made by official spokesmen attending the recent Conference of Catholic Bishops in San Francisco.

The 238 assembled prelates DID pass a resolution against abortion. But when asked if the Bishops intended to campaign for reversal of recent abortion law liberalization — or to punish those legislators who voted for it — New Orleans' Archbishop Philip Hannan replied: "We were concerned only with a statement — not political action."

Bishop Raymond Gallagher, of the Diocese of Lafayette, Ind., and chairman of the committee which prepared the anti-abortion statement, added: "We have no desire to effect a legislative program in this regard."

When asked "If the Bishops' resolution favors prohibition of all presently legalized abortions, even in cases where pregnancy and giving birth pose a threat to the mother's life, he answered: "We would recognize existing legislation."

Bishop Gallagher was also questioned about his committee's statement that "the U. S. Bill of Rights guarantees the right of life to every American" — in light of the 14th Amendment's definition of a citizen as a person born or naturalized. The Bishop smiled and replied: "Well, this was one of those generalities we brought up."

A similarly significant attitude was shown by Brooklyn's Bishop Francis Mugavero. He is, or any other New York Bishop planning a campaign to repeal that state's recently passed legislation (allowing abortion for any reason) — or to try to defeat any legislator who voted for this bill?

"Oh, my, no!" he answered. And when asked about one N. Y. State legislator who predicted that his tie-breaking vote for the bill was "political suicide," Bishop Mugavero smiled and conjectured that "he must have been talking to his family rather than the public!"

The same sort of tolerance was shown by Detroit's Archbishop, John Cardinal Dearden — even as a Women's Liberation picket line was marching in front of the hotel, loudly chanting: "Women control their own bodies — male Bishops don't."

Cardinal Dearden, president of the Bishops Conference, was gentle in his comment on the marching women. He did not ~~refer to them as either advocates of "Murder-in-the-Womb," or advocates of "Nazi practices," as have some of the less-restrained Catholic traditionalists.~~

"The Bishops' tolerant attitude seemed to evoke little immediate objection, however, in the type of lengthy rebukes presented as press conference questions by a writer for the ultraconservative periodical, The Wanderer, and by Brent Bozell, brother-in-law of

William Buckley and publisher of *Trump* magazine.

Just prior to the Bishops' Conference, the *National Catholic News Service* distributed an article entitled "The Reality of Abortion" — which the National Catholic Reporter subheadlined: "I Drew Out A Detached Arm, Still Moving At The Elbow."

This was one of the article's reported comments of Detroit obstetrician Richard Jaynes. Another was: "The child inside is cut into pieces and pulled or scooped out, limb by limb."

Such sensational descriptions, worthy of such periodicals as *The National Enquirer* (I Cut Out Her Heart And Ate It Raw) tend to give weight to the contention that abortion is "legalized murder" and particularly gory murder at that. Articles of this kind tend to obscure, even when they mention it, the fact that the vast majority of abortions are performed in the early stages of pregnancy, when the embryo or fetus is a tiny gelatinous mass which is indistinguishable to identify as a human being.

Neither such hair-raising nor the more restrained and dignified statement of the Bishops appear destined to halt the movement towards abortion law liberalization. For one day after the Bishops' statement, Oregon Senator Robert Packwood proposed legislation which will allow any woman in the U. S. to have an abortion if any reason, provided it is performed by a licensed physician.

Recurrent polls, and legislation in a number of states indicate that the hypothetical term "unborn child" is no longer taken seriously — or at least not nearly so seriously as the tragic actuality of women being forced to produce unwanted children. (Copyright Chronicle Publishing Co. 1970)

Breakfasts

Senior breakfasts are being planned for Sunday morning by three Twin Falls churches.

The First Christian Church will have its annual breakfast for graduating seniors at 8 a.m. in the home of Mr. and Mrs. George Emmen, 411 Elm St.

First Baptist Church's seniors will have a breakfast at 8:30 a.m. in the home of Mrs. Fern Amick, 561 Addison Ave.

First United Methodist Church will have its annual senior breakfast at 9 a.m. in the church's Fellowship Hall.

Bible School

PAUL — Bible school sponsored by the Paul United Methodist Church will be held next week at the Sunday School room of the church between 9 and 11:30 a.m.

Junior High School girls will assist with baby sitting. Children through the sixth grade will be assigned classes. Interested persons may contact Pastor Alice Mae Woolley at the parsonage or church.

Rev. E. B. Harley New Pastor Of Buhl Church

BUHL — Beginning their ministry at Buhl Church of the Nazarene are Rev. and Mrs. E. B. Harley.

Rev. Harley has ministered in churches in Indiana, California and Idaho. He was pastor of the First Church of the Nazarene in Boise for nearly 19 years and also has served as

district secretary and treasurer. He has been on the board of regents for Northwest Nazarene College in Nampa and Olivet Nazarene College, Kankakee, Ill.

The Harleys come to Buhl from Nampa where Rev. Harley has just concluded a term of service as associate minister at College Church of the Nazarene.

Mrs. Harley is well-known throughout the church as a speaker and counselor. In Nampa she has enjoyed a wide sphere of service in the college community.

The Harleys have three daughters. Phyllis Harley, who spent five years in Japan as a missionary teacher at Chiba Nazarene college near Tokyo, is now a Girl Scout executive in the Southwest. Marilyn Harley McKay lives in Milwaukee, Wis. where her husband Neil is an attorney, and Sharon Harley Mowry makes her home in Eugene, Ore., where her husband George is a teacher.

The Harleys also have five grandchildren.

James A. Cullimore, assistant to the Council of Twelve, LDS Church, will speak at the Burley Stake Conference June 13-14 in Burley.

LDS Aide To Speak At Burley

BURLEY — Elder James A. Cullimore, assistant to the Council of Twelve of the LDS Church, will speak at the Burley Stake Conference June 13-14 in Burley.

Elder Cullimore, a former mission president in England, supervises church mission work in the mid-American states. Prior to his present church assignment, in 1966, he was a church leader and furniture business executive in Oklahoma.

The conference session will be held at 10 a. m. Sunday in the Stake Center, 2050 Normal Ave. The public is welcome.

Missionary League Meet Held

FILER — Peace-Lutheran Women's Missionary League decided to include the League song and pledge at each meeting in the future when they met at the home of Mrs. Marvin Rulter.

Mrs. Ralph Pielstiek was in charge of the devotional service and Mrs. Paul Kalfelisch led the topic study on the Muslim religion. Mrs. Werner Kramer, vice president, was in charge of the meeting.

Mrs. Ray Eggleston and Mrs. Katherine Dewitt were guests. Mrs. Walter Mueller announced she had made some more baptismal napkins. It was announced the new gold draperies, purchased by the league, were now hung and in use. The project committee reported delivery of clothing for good used clothing fair distribution to needy people in the area.

Secret Pals

Secret pals were selected by members of the Twin Falls First Church of the Nazarene's Chapman Missionary chapter at the home of Mrs. Charles Johnson, Kimberly.

Ruby Hagedorn, "Mother of the Year," was presented a gift. Dora Robinson gave the study lesson.

House Churches Increasing

By DAVID E. ANDERSON
United Press International
One of the guitarists sits on a stool that looks like it was borrowed from the house's recreation room bar. His partner is sitting across the room on the floor.

Together they play the melody to "Lord of the Dance," while the minister, dressed in a black turtleneck shirt and sport jacket, passes the communion cup to a young woman on his right. The 15 other worshippers scattered around the living room, join in the words to the song.

This scene, and variations on it, are being repeated with increasing frequency throughout the country as Christians, seeking the intimacy possible through direct relationships, gather in small groups in homes for worship.

It is not restricted by either religious faith or locale. It is an aspect of both the underground and the above-ground church, which both denominational and ecumenical groups and occurs in the city and the suburbs.

The rise of the house church can be traced to many causes but most observers — and many participants — feel that it is caused by a concern for mission and the quest for vitality and its validity as a viable alternative to the structure of the conventional congregation.

The Rev. Donald Allen of Harrisonburg, Va., who has had six years experience as pastor to five house churches, believes the house church "first of all (is) an experience in community. It is not an ingrown community, due to its outreach, where most members are working close to the non-urched every week; however, it is a community, with few visitors or new members."

Each Needs To Work
Allen adds that in his experience — and other house church ministers would echo his sentiment — "each house church needs to work at an equal division of time between inward growth and outreach into the city as servants of one type or another."

The basic format of the house church is simple and self-disciplined in its title. It is a group of people who meet in a home rather than a church for worship.

In whatever way the house church is organized, however, many Christians are finding it a meaningful alternative to simply dropping out of conventional congregations and a sign that Christ's body is alive in the world.

One of the guitarists sits on a stool that looks like it was borrowed from the house's recreation room bar. His partner is sitting across the room on the floor.

Together they play the melody to "Lord of the Dance," while the minister, dressed in a black turtleneck shirt and sport jacket, passes the communion cup to a young woman on his right. The 15 other worshippers scattered around the living room, join in the words to the song.

This scene, and variations on it, are being repeated with increasing frequency throughout the country as Christians, seeking the intimacy possible through direct relationships, gather in small groups in homes for worship.

It is not restricted by either religious faith or locale. It is an aspect of both the underground and the above-ground church, which both denominational and ecumenical groups and occurs in the city and the suburbs.

The rise of the house church can be traced to many causes but most observers — and many participants — feel that it is caused by a concern for mission and the quest for vitality and its validity as a viable alternative to the structure of the conventional congregation.

"Occult Boom" In U.S. Discussed By Writer

By LOUIS CASSELLS
UPI Religion Writer
One of the most curious phenomena of contemporary American life is a tremendous upsurge of public interest in astrology, witchcraft, spiritualism and other occult arts.

"The present 'occult boom' seems to have tapped a hidden reservoir of the mind," says Editorial Research Reports. "Classes in the history of witchcraft, sorcery and the black arts are being taught in many high schools and universities, and they are usually over-enrolled."

"Bookstore shelves are laden with occult books, both sensational and academic. More than 1,200 daily newspapers in the United States publish columns on astrology."

"There is abundant evidence that millions of persons half-believe, are willing to believe, or do indeed believe in mysterious forces that are dismissed by science and most Western religions as superstition."

That such a mass regression should take place in this supposedly enlightened age is a judgment on America's churches.

The Rev. David H.C. Reed, pastor of Madison Avenue Presbyterian Church in New York, says there is today a great "yearning for the transcendent," particularly among young people who are in revolt against a secular and materialistic society.

Psychiatrist Ludwig B. B. Leber, writing in *Psychology Today* magazine, agrees that vast numbers of people are seeking ways "to get beyond themselves." And most churches, he says, are not responding adequately to this hunger for "direct contact with a supernatural agency."

Since "direct contact with a supernatural agency" or in conventional religious language communion with God — is precisely what churches are supposed to be offering, it is a very serious indictment to say that most of them are not "responding" to a widespread demand for it.

A great effort has been made to de-emphasize the supernatural, "other-world" aspect of Christian teaching, and to present religion as a here-and-now aid to ethical behavior, by churches.

But it is beginning to appear that "modern man" is not quite as ready as some theologians thought to reject anything he can't explain on rational grounds. On the contrary, he seems to retain an ineradicable intuition that there is more to this world than is dreamt of in materialistic philosophy and secularized religion.

Test Vote Planned On Cambodia Fund Ideas

WASHINGTON (UPI)—The Senate, after two weeks of talk, finally agreed Thursday to a test vote on legislation to cut off funds for U. S. military operations in Cambodia. But final action on the measure still was not in sight.

Members unanimously agreed to vote at 11:30 a.m. EDT Wednesday on an amendment that would void the antiwar measure if any U. S. citizens were being held as prisoners of war in Cambodia. The test likely will come moments before that on a motion by Sen. Robert Dole, R-Kans., to table the amendment.

The tabling vote will provide the first indication of whether Sen. John Sherman Cooper, R-Iowa, and Frank Church, D-Idaho, have enough support to pass their controversial proposal to bar U. S. combat units from re-entering Cambodia after they are withdrawn next month.

Most head counts indicate they have a solid majority behind them, perhaps 60 votes. Opponents, however, say they may not have sufficient strength to block the Dole amendment, since the prisoners of war issue is such an emotional one.

Cooper said he considered the vote a "real test." If the Dole amendment is passed, he said, the antiwar measure will be too emasculated to mean anything.

The Senate was still far away from final action on the Cooper-Church proposal. Eleven Republican senators, with the tacit backing of the administration, were blocking a showdown by parliamentary tactics, in the hope that a final vote could be delayed until U. S. troops are withdrawn.

Sen. Ted Stevens, R-Alaska, held the floor most of the morning with a speech opposing any restrictions on Nixon's Cambodian operation.

Dole disclosed the existence of an "informal" group of 11 Republicans who are responsible for the voting delay. Members of the group are Assistant Senate Republican Leader Robert P. Griffin, Mich., and Sens. Milton R. Young, N.D.; Hiram L. Fong,

Hawaii; John J. Williams, Del.; Paul Fanning, Ariz.; George Murphy, Calif.; Clifford P. Hansen, Wyo.; Henry Bellmon, Okla.; Edward J. Gurney, Fla.; Dole and Stevens.

Indians Council On Island

SAN FRANCISCO (UPI)—A band of Indians began a war council on Alcatraz island Thursday in the hope of thwarting government plans to make the former prison island into a national park.

A spokesman said 200 Indians were on the 13-acre island in San Francisco bay and 300 more were expected during the weekend.

The General Services Administration announced Wednesday the island would become a park "for all the people of the nation." The government promised it would have "maximal Indian qualities."

But Bob Bradley, a 24-year-old ex-marine on the island, said the Indians' "Answer is no" to the park proposal.

"We are going to dig in and go ahead with our plans to build an Indian cultural center," said Joseph L. Morris, 33, a Blackfoot leader from Montana.

The Indians said they would not allow any white men on Alcatraz during the next few days while they are in council.

Some of the invaders have been there more than six months. They seized the island last Nov. 20 and have been removed by lengthy negotiations with federal officials. The government has made no attempt to retake Alcatraz by force.

When asked if the government would now remove the Indians, regional GSA administrator Thomas E. Hannon said, "We will just have to wait and see what the Indians do."

Hannon said the island, whose crumbling buildings were abandoned in 1953, will be turned over to the Interior Department to become the keystone in a "Golden Gate National Recreation Area."

The decision came after several studies and numerous suggestions for the landmark in the bay, which once housed Al Capone and other notorious criminals.

REFUSE PETITION

THE HAGUE, Netherlands (UPI)—The Soviet embassy Tuesday refused to accept a petition signed by 68 Dutch writers, protesting the reported arrest of Soviet author Andrei Amalrik and urging his release.

A group spokesman said A. N. Burlakov, embassy third secretary, refused the petition on grounds that the embassy was unaware of the affair.

WORMS EYE VIEW of the new beacon tower at the Twin Falls City-County Airport, Justin Field, gives this unusual perspective. The beacon has been moved from the top of the administration building to the new tower site so

the light may be better identified away from the cluster of other lights. It is one of many improvements being made at the local field through cooperation of federal, city and county officials.

Everyone Shows Disbelief After Preliminary Census Results Come

MOSCOW, Idaho (UPI)—Disbelief in the figures released Wednesday by the U. S. Census Bureau is continuing to grow in northern Idaho.

Jeff Lamy, Moscow Chamber of Commerce manager, said Thursday he does not believe the figures for this city are correct.

The bureau preliminary figures place Moscow's population at 13,731, an increase of 2,546 over the official count in 1970.

Lamy said an interim nose count was taken here in 1966 which showed a population of 13,782, 51 more than the official 1970 tally.

Lamy said he figures the population of Moscow to be close to 15,500.

Wednesday, Coeur d'Alene officials began the dispute with the figures released by the Census Bureau.

The bureau claimed Coeur d'Alene had a population of 15,765 for an increase of 1,474 over the official count 10 years ago.

"I don't think the 1970 figure is accurate," Kyle Walker, Coeur d'Alene chamber manager, said.

He said new houses had been constructed at a rate of about 70 per year during the past 10 years and demolition of older homes had been small.

Senator Hatfield Coughs Up Funds Used To Post His Antiwar Letter

WASHINGTON (UPI)—Sen. Mark O. Hatfield, R-Ore., said Thursday he had reimbursed the treasury \$2,176 to cover the cost of mailing 35,000 copies of an antiwar letter using his free mailing privileges.

The Senate Rules Committee said Wednesday that Hatfield had illegally included a letter signed by antiwar leaders Sam Brown and David Hawk with a letter he and four other senators mailed asking support of an amendment calling for a total U. S. withdrawal from Indochina by the end of 1971.

"I had requested this ruling from the committee myself to clarify the matter," Hatfield said. "I accept their finding."

The letter from Brown and Hawk, leaders of the now-defunct Vietnam Moratorium Committee, asked for signatures on an antiwar petition.

An aide said at the time of the mailing that Hatfield felt the franking privilege was justified for his letter, but was upset that the Brown-Hawk letter had been included.

The aide said the mailing was done from several makeshift offices not under the direct supervision of Hatfield's office, and Hatfield did not know the

Brown-Hawk letter was included with his. An aide said Thursday that Hatfield hopes to be reimbursed by the committee that sponsored the antiwar appeal.

The use of the franking privilege was questioned in the Senate by Sens. Carl T. Curtis, R-Neb., and Henry Bellmon, R-Okla.

Sweden

Disturbs Officials

WASHINGTON (UPI)—The State Department said Thursday that it was "very seriously disturbed" by continuing racist and physical attacks against the U. S. ambassador to Sweden.

State Department spokesman Carl E. Bartholomew said a news conference there was "no intention" to recall the ambassador, Dr. Jerome Holland, at this time. But other U. S. officials said the United States would have to consider seriously such a step if the antiwar protests centered against Holland did not stop.

Dr. Holland, a Negro, has been splattered with eggs and tomatoes and he and his family have been insulted with racist epithets by Swedish anti-American demonstrators since his arrival in Sweden.

Bartholomew noted that Swedish Prime Minister Olof Palme, who will visit the United States next week, has called the attacks "intolerable and indefensible." But the State Department spokesman said the attacks have continued despite Dr. Holland's protest to the Swedish government.

He said new houses had been constructed at a rate of about 70 per year during the past 10 years and demolition of older homes had been small.

Dissent Is Nixon's Subject

KNOXVILLE, Tenn. (UPI)—President Nixon, making his first visit to a college campus in nearly a year, came to Knoxville Thursday to speak on youth and dissent at a Billy Graham Crusade.

Some university students were reported trying to work up a demonstration at Neyland Stadium, where Nixon was to appear with his old friend Graham.

The outgoing student body president, Jimmy Baxter, said he wired Nixon urging him to cancel the visit because "your presence on this campus could provoke violence."

The incoming president, John Smith, sent Nixon a message of welcome. It was Nixon's first appearance on a college campus since last June 4, when he made the commencement address at the Air Force Academy.

Air Force One brought Nixon to Knoxville at 6:59 p.m. EDT. Before leaving Washington, he talked with Interior Secretary Walter J. Hickel and two special advisers on campus problems.

"GODFATHER" AS MOVIE

Oregon Woman Is Killed In Accident

HAZELTON — A young Oregon woman was killed in a head-on collision with a car on Interstate 80 in Jerome County, Idaho, late Thursday when she was thrown from her car as it rolled over control on Interstate 80 in Jerome County.

Investigating Idaho State Police officers identified the victim as Katherine Louise Weeks, 21, Portland, Ore. Weeks was driving in the west bound lane of the interstate about 10:30 p.m. when she was struck by a car traveling in the east bound lane. The car was traveling in the north bound lane of the freeway, scraped the freeway fence and went back onto the road, rolling over and coming to a stop on its side.

Mr. Smith apparently was in the wreckage and was able to crawl from the mangled vehicle before officers arrived.

Miss Weeks' body was thrown about 90 feet from the wreckage into the median strip. Jerome County Coroner Lauren Neher pronounced the victim dead at the scene. Her body was taken to Hope Funeral Chapel, Jerome.

The young couple had been students at Brigham Young University in Provo, Utah, and were en route back to Oregon when the accident occurred. It was reported they were planning to be married later this summer.

The accident occurred about one mile west of the Ridgeway Road Overpass.

Park Service Chief To Tour City Of Rocks June 13-14

WASHINGTON, D.C. — Cassia County's summer-long "One Hundred Years of Progress" celebration took on added interest today with the announcement that George B. Hartzog, Jr., Director of the National Park Service, will be the guest of Idaho-Spanish and Oregon-Oregonians for a tour of the City of Rocks June 13-14.

Hartzog's visit will coincide with the Centennial's historic trail tour and barbecue at the City of Rocks on June 13. The National Park Director is scheduled to arrive that evening following a park dedication in Texas and will join the Idaho legislators in touring the area on Sunday after staying in Burley over night.

Jordan and Hansen expressed enthusiasm over Hartzog's visit to the City of Rocks, which is well known for its unique geologic formations and rich historical background. Hansen has recently requested the U. S. Interior Department to study the area to determine its suitability for federal status such as a national park or monument.

Magic Valley

Richfield Man Is Appointed To Post

RICHFIELD — Kenneth Johnson, 64, Richfield rancher, was appointed Thursday by Gov. Don Samuelson as state representative in district 21-A. He will fill the vacancy created by the resignation of John George.

Mr. Johnson was not among the candidates and had not filed for the primary. He told the Times-News he will not be a candidate for the post in the Aug. 4 primary.

Candidates who filed for the Republican nomination for the primary include C. F. Chaffield, Lincoln county commissioner; chairman, Stephen W. Bolter, Halley, and E. V. McLean, Ketchum, and Ward Mills, Shoshone, former legislator.

Mr. Johnson, who has been active in party circles all his adult life, said he was contacted by the governor's office Thursday afternoon and asked if he would accept the post.

Mr. Johnson, the son of one of Richfield's earliest pioneers, has lived here all his life. He has ranched most of the time, except for a brief stint operating a garage here and a store in Twin Falls.

He has served on the Richfield school board and is now serving on the highway board. He belongs to the Farm Bureau.

Candidates Sought At Richfield

RICHFIELD — Queen candidates for Richfield's Outlaw Day June 13 are being solicited by Mrs. Sidney Edwards II, queen chairman this year.

Girls desiring to enter the contest are asked to contact Mrs. Edwards and local organizations who will sponsor a queen candidate are requested to contact her also.

Eligible girls must be 15 years or older by June 13 and single. They will be judged 80 per cent on horsemanship, 20 per cent on personality, and 10 per cent each on appearance and ticket sales.

Contestants are limited to Lincoln county. Deadline for entering the queen contest is June 8.

Hearings Set On Big Wood Plan

SHOSHONE — Army Engineers will hold hearings on water problems of Big Wood River basin in June.

The first will be held at 2 p.m. June 24 at the Memorial hall in Gooding and the second will be at 8 p.m. June 25 at Halley Junior High School.

The hearings will be to further study Big Wood River basin which includes Little Wood river and Camas creek. Part of the proposed study will be devoted to assessing needs, problems and available sources.

The study will include flood control, recreation, irrigation, fish and wildlife, water quality and municipal and industrial water supply.

T. F. Boy Falls Into Canyon

A young Twin Falls boy who was seriously injured Thursday night when he fell about 12 feet into a canyon, was transferred later Thursday to a Boise hospital.

The boy, Mike Etter, 5, son of Mr. and Mrs. J. J. Harrington, 1809 Granada Drive, reportedly received serious head injuries in the mishap.

He was taken about 7:30 p.m. to Magic Valley Memorial Hospital and later taken by ambulance to St. Luke's Hospital.

The boy reportedly was hiking with his parents near the Canyon Country Club when he stepped on a loose rock and stumbled into the Snake River Canyon.

Picnic Held

SHOSHONE — The kindergarten class of Mrs. Jessie Dunner, Shoshone, held a picnic at the Methodist Church basement. Mrs. Richard Beckman was in charge of arrangements. Other mothers of the children assisted with the potluck preparation.

Times-News, Twin Falls, Idaho Friday, May 29, 1970

Club Lists Caravan Slated To Advertise Days Of Old West At Hailey

Winners Of Speeches

BURLEY — Mrs. Don Bohon, Minico Toastmistress Club, and Mrs. Wilma Parish, Burley Toastmistress Club, were the table topic winners during Burley Toastmistress Club meeting in conference room of Unity Light and Power.

Members of the Minico Toastmistress Club were guests.

Table topics were directed by Mrs. Norman King who used the topic of "A Book or Story I Remember."

Toastmistress was Mrs. Della Jones and the general theme was "Books." Book reports were given by Mrs. Lucie McCulligan on "Love Is Eternal" and Mrs. Parish reported on "Duke's Yesterday." The blue pencil was presented by Mrs. Parish. Evaluators were Mrs. T. Wayne Woodland and Mrs. Walter Povlsen.

Mrs. Lillian Jensen gave an ice breaker speech. General evaluator was Mrs. LaPage Layton.

New officers were elected including Mrs. Freida Manning, president; Mrs. Povlsen, vice president; Mrs. Jack Box, secretary; Mrs. Sharpless, treasurer; and Mrs. McCulligan and Mrs. Black, club representatives. The officers will be installed June 9.

Mrs. Woodland, council seven chairman, reported on information of the Snake River Toastmistress Regional Conference which will be held June 12-14, at Ontario, Ore.

RETURNS HOME

RICHFIELD — Howard DeWitt, Richfield city councilman, returned home from St. Alphonsus hospital, Boise, where he underwent the 17th operation on his hand. He was injured three years ago in a boating accident at Magic Dam. Mrs. DeWitt and daughter, Claudette, accompanied him home from Boise.

HAILEY — Plans for Hailey's 1970 Days of the Old West Celebration are announced by the planning committee.

The celebration gets underway with a caravan through Magic Valley June 26 to advertise the July 3-4 event. The caravan will gather on Main Street at 10 a.m. that day and

will travel through Fairfield, Gooding, Wendell, Bliss, Hagerman, Jerome, Shoshone and back to Hailey.

Enroute, participants will be selling buttons which will admit the holder to the button barve in conjunction with the event at 5 p.m. July 4. Anyone interested in participating in the

caravan is welcome and western attire is appropriate. The Hailey Hellers Riding Club will signal the event June 27 with a shoot-out and stage coach hold up on Main Street in Hailey. The time of that event will be announced later.

Also planned for the celebration is a rodeo queen contest, with the winner to be announced July 4 during the rodeo, and a senior citizens king and queen contest, with winners to be selected at a penny vote. Winners will be announced July 3 during that rodeo. Jan Seal is chairman for the rodeo queen contest and Marlene Ellinger is chairman for the senior citizens event.

Tommy Northcott and Paul Paoli have agreed to be chairmen of the "Days of the Golden West" parade which will travel through Hailey July 4. During the planning meeting this week, the Wood River Journal agreed to contribute beef for the barbecue and lamb will again be donated by Pete Charrusa. Larry Young is chairman of the feed which will conclude this year's celebration.

Work days at the Hailey rodeo grounds were slated for June 7 and June 21.

Both events will be potluck and workers will be repairing and painting facilities.

Fairfield Reports Honor Roll

FAIRFIELD — School Supt. Harold Stroud has released the honor roll for the second semester of Camas County High School.

Seniors Kathy Baker and Phyllis Storm both had all A's. Charles Cox, Sandra Ruby, Sunnie Sweet, Valada Vanskike and Judy Wilson were seniors with all A's and B's.

Junior students with all A's and B's were Randy Baucher, Christie Giesler, Mark Lee and Lucinda Osborne. Sophomores with all A's were Becci Barron and Bervy Kavan. All A's and B's were David Coates, Mike Gill, Mark Johnson, Mel Olson and Shane Sweet.

Freshmen with all A's were Kim Fields and Bill Strout. Janet Cluer had all A's and B's.

Minidoka Schools Eye Extra Classes

RUPEK — Possibility of having more classes for exceptional children is being considered in Minidoka County. Supt. Camden Meyer told the county association for Retarded Children.

Two classes perishing and the one at the high school will remain," he stated. "and to advise the Idaho Youth Ranch will be moved according to ages of individuals into appropriate classes. We also will try to work the trainable group into the school system."

Darrel Bourlier, of the Twin Falls Child Development Center, reported on the trainable class, noting that your self help skills will be emphasized along with diagnosis and referral service. He suggested the classes could participate in the county recreational program.

Dr. Fred McCabe, of the Twin Falls center, said the primary concern at the center is working with the staff and individual self help in five fundamental areas. These are social development, education, preceptual motor, occupational and recreational.

Clinical services for persons needing such help will be available at the center in Twin Falls where the staff works with children individually. Persons who cannot work in a group will be individually trained until they can function in a group, he explained.

The center will have a traveling group including a

psychologist and a social worker.

Officers installed by Hugh Short were Mrs. Rulon Ramsey, re-elected president; John Hilling, first vice president; Mr. Short, second vice president; Mrs. Gus Gerleman, secretary, and Mrs. Edward Knopp, treasurer.

The group will meet again in September.

HAILEY — Plans for Hailey's 1970 Days of the Old West Celebration are announced by the planning committee.

The celebration gets underway with a caravan through Magic Valley June 26 to advertise the July 3-4 event. The caravan will gather on Main Street at 10 a.m. that day and

The celebration gets underway with a caravan through Magic Valley June 26 to advertise the July 3-4 event. The caravan will gather on Main Street at 10 a.m. that day and

will travel through Fairfield, Gooding, Wendell, Bliss, Hagerman, Jerome, Shoshone and back to Hailey.

Enroute, participants will be selling buttons which will admit the holder to the button barve in conjunction with the event at 5 p.m. July 4. Anyone interested in participating in the

caravan is welcome and western attire is appropriate. The Hailey Hellers Riding Club will signal the event June 27 with a shoot-out and stage coach hold up on Main Street in Hailey. The time of that event will be announced later.

Also planned for the celebration is a rodeo queen contest, with the winner to be announced July 4 during the rodeo, and a senior citizens king and queen contest, with winners to be selected at a penny vote. Winners will be announced July 3 during that rodeo. Jan Seal is chairman for the rodeo queen contest and Marlene Ellinger is chairman for the senior citizens event.

Work days at the Hailey rodeo grounds were slated for June 7 and June 21.

Both events will be potluck and workers will be repairing and painting facilities.

Students Create Hazelton Park Plan

HAZELTON — A class project assignment, a desire to improve his home town, the enthusiastic interest of a fellow classmate, and a lot of co-operation from the neighborhood has led to the development of a realistic plan for the recreation parks in Hazelton by a Hazelton youth.

Early in April, after receiving the project assignment for their third year architectural design class at the University of Idaho, Randy Turner, Hazelton, and John Spangolis, Pallasades, decided to give Hazelton a boost and do a study of the town's parks.

They drove to Hazelton where they spent four days interviewing the townspeople to obtain a clear idea of their desires and needs. They surveyed the sites, took motion and still pictures, did landscape analysis and met with the town council in order to get the information they were after. They returned to Moscow and began the involved process.

This week the two young men presented their completed designs to the Hazelton Lions Club and other guests. The sites dealt with in this project are the city park in the southeast section of Hazelton, a Memorial Park on Main St. adjacent to the city hall, and the property belonging to the Lions Club at Wilson Lake Reservoir. They explained that the goal of this development is the creation of a pleasant place for leisure time to be spent.

They tried to give the areas an air of separation from the town's daily activities.

John presented the proposals for the city park, explaining in detail from the design and an advanced sketch of the ultimate scene after its completion. In color. Included in these plans were a sunken tennis court, (the lower level is for the purpose of reducing glare from street lights and traffic that has caused problems in other towns in nightgown play) playground areas, and a play area for children which includes a free-form concrete play sculpture. The flat site as it now exists will utilize rolling berms of lawn and shrubbery to create a unique landscape and expose to full view the form of the mountain range in the south.

The Memorial Park design presented by Randy featured a

fountain designed by the pair accented with a natural rock surface, resembling that of the lake area with the spacing of trees to provide more privacy for a greater number of visitors at any time.

This project provided the students with real experience in designing. It provided the townspeople with a usable plan that could add to the character of the town.

The Lions and City Council look with favor on the plans offered by these two young men who used their ability to take their academic classroom activities and adapt them to real life situations.

restful areas in the parks. The natural, wild vegetation appeared, was kept in the lake area with the spacing of trees to provide more privacy for a greater number of visitors at any time.

ANSWERING QUESTIONS at the proposed recreational areas in Hazelton are Randy Turner, left, Hazelton, and John Spangolis, Pallasades, right. Hazelton youth presented a study they did of the town's parks in a meeting in Hazelton this week.

Record Reviews

***** EXCELLENT ***** VERY GOOD
*** GOOD *** FAIR *** POOR

Sentimental Journey: Ringo Starr (Apple SW-3385)
This is unqualified garbage. If the singer wasn't Ringo Starr, but some nobody named Richard Starkey, he would have been laughed back to Liverpool. But he is Ringo Starr, and that makes it even more trashy, for it is quite apparent now just how far the other Beatles carried Mr. Starkey. He can't even carry a tune, and the tunes in this album are a cop-out: everything from "Bye, Bye, Blackbird" to "Have I Told You Lately That I Love You."
(Unless you are a staunch collector of Beatle memorabilia, don't buy this, or you'll hate yourself in the morning.)
No stars.

Sh-Doo Young Stranger: Gordon Lightfoot (Reprise 6392)
Songsmith Gordon Lightfoot has produced another memorable album of his folksy music.
All the songs but one in this new album are his, and there are some choice new titles in the offing.
"Mind of the Dawn" and "Sit Down Young Stranger" are among the best. But just about every song in the album has merit, and each is stamped indelibly with that Lightfoot trademark of rustic elegance.
He plays and sings—accompanied by a shifting pattern of music, ranging from strings to mandolin and auto-harp.
"If You Could Read My Mind" and "Approaching Lavender" are two other excellent contributions in the album, which literally bulges with good work.
Five stars.

Raw Sienna: Savoy Brown (Savoy PAS 71038)
Savoy Brown is one of the more esoteric British blues groups, which plays contemporary blues in traditional styles, and rarely produces anything audibly offensive.
This album is no exception. Everything in it sparkles with attractive tunes and lyrics, performed in a very polished manner.
All of the tunes were written by pianist Chris Youldens and lead guitarist Kim Simmonds. Several tunes are reinforced with strings and brass.

The music shifts around the blues "groove" through several styles of blues idiom, including Chicago, Memphis, New Orleans and jazz.
This is a valuable album, from both a blues and a jazz standpoint, for several of the pieces verge on pure jazz in structure and content.

Youldens and Simmonds writing is very sophisticated in view of their relatively remote British upbringing. But British bluesmen have really been dishing out some lessons to their U.S. counterparts in the last few years.

The two best tunes in the album, ones likely to climb the charts, are "I'm Crying" and "A Hard Way To Go," both relatively standard blues rock numbers.

Four stars.
Southern Comfort Columbia (CS 1011)
His funky groups are becoming the thing nowadays, and this is a good example of what they're doing.

This album simply rocks from start to finish with some very inventive music in a variety of musical styles.
Much of the sound in the album is "Memphis" in its structure and horn work, and leans toward blues and jazz.

The album was produced by Jim Brown, and they all should bespeak of its excellence. The musicians are experienced, from a variety of backgrounds and groups.

Focal point of the album is Ron Stallings, who wrote about half the songs in the album, sings on many cuts, and plays some great tenor.

The album is strong musically and instrumentally, with light, ringing arrangements which maintain a free, open mood. The only outside tunes in the album are the Beatles' "Get Back" and Arthur Conley's "Love Got Me."

The best two tunes in the album are "Love Got Me" and "Mountain Girl," but there are half a dozen others which really rock out.
Four stars.
Keith Ratto David Axelrod (Capitol NKAO 458)
David Axelrod, who in the last

to the album which is warm and relaxing. It is a simple album of simple music, performed in a genuinely warm and sincere manner, without many frills. But it is an album of music that almost guarantees satisfaction.
Nine of the 10 songs are by Dunn & Cruz, and the 10th is "Two Hardin's" "Yellow Cab."
There's much good instrumental backing from a variety of polished professionals on the album, but the album even more appeal.
Very enjoyable.
Four stars.
Jill Williams (RCA LSP 4314)
Songwriter Jill Williams makes her singing debut on this new album, and her evocative voice carries her hauntingly into the realm of new mystique.

Most of her songs are deeply personal "I - You" songs which deal with personalities and reality, giving her songs strong inner attraction. She sings in a somewhat frail, wispy voice, not unlike the young Judy Garland, but a voice that is far more secure and certain.
Her songs are low key, quiet tunes which appeal as much for their intelligence as for the esthetic qualities.
The music is also low-key, and does not intrude. If you want to categorize the style, you'd have to call it just a simple, although there are large folk and country through the album.

There is one of those albums which has you humming the songs and running the lyrics through your mind after only one hearing.
Four stars.
Ananda Shankar (Reprise 6392)

This unusual album combines the best of Indian star sound with rock melodies, and despite any preconceived notions, manages to produce a very interesting album of music.

Even those who dislike traditional-style ragas rhythm will enjoy this album, for the star played by Shankar is played in more of a guitar style, and therefore is far more musical in the western sense.

The musical content of the album is also fascinating. Shankar is playing just obscure Indian ragas. He plays the Rolling Stone's "Jumping Jack Flash" and the Doors' "Light My Fire" and actually enhances the work.

All the remaining tunes, except one traditional rag number, are basically rock.

The musicians backing Shankar provide good basic rock rhythms for him to rock around and through. Several tunes are enhanced electronically, and the Moog sparkles on several cuts, giving the album even more latitude and appeal.

The album is interesting musically, mentally challenging, and just plain exciting.
Four stars.

SUE LYON STARS HOLLYWOOD (UPI)
Sue Lyon will star in ABC's Movie of the Week, "But I Don't Want To Get Married," with Herschel Bernardi and Shirley Jones.

The album is interesting musically, mentally challenging, and just plain exciting.
Four stars.

THE EFFECT
The effect is a strange one, the album can almost scare you, it is so convincingly sinister.

VOODOO ROCK?
The stars of "The Break of Dawn: Linn County (Phillips 600 328)"
There is much good music in this album, most notably the incredible "Let The Music Begin," which alone makes the album worth the purchase price.

This tune is one of the most infectious, rollicking tunes to be recorded outside of gospel circles in years, and it is largely structured on gospel themes.

Another fine tune in the album is "Boogie Chillun," which is a gritty gritty dirty blues tune which grooves along for almost nine minutes.

Linn County is a new group, composed of Steve Miller (The Steve Miller) on organ, Clark Pierson on drums, Fred Walk, guitarist, Dino Long, bass, and Larry Frazier, sax.

It has more talent than three average groups, so much so that it doesn't seem to be able to properly channel all of it properly.

The group has roots deep in jazz, and country, and rock-and-blues, and they all emerge in one form or another throughout the album.

This is a no group of kids. Every member of the group is 30 or so, and their age is reflected in the maturity of their music.
Four stars.

MONTE DUNN AND KAREN CRUZ
Technically, this is not the best album in the world, but it is one of the most enjoyable you'll hear in a very long time.

The songs of Monte Dunn and Karen Cruz (Mr. & Mrs.) are some of the most enchanting, engrossing little tunes to crop up in years.

They are childlike, simply structured tunes which attract and hold your attention. They are deep and warm love songs which immediately put you at ease. They are foolish silly songs you enjoy.
There's a country folk flavor

Boys And Girls Bikes Are In Great Demand.

Personal 9
PRIVATE Investigator—24 Hour Service. All confidential. Phone 733-6031. Night 733-1757.

Baby Sitters—Child Care—14
CHILDREN'S VILLAGE. Child care. 461 North Locust, near Linnwood. Licensed. Separate classes nursery pre-kindergarten. Kindergarten. Also day care working mothers. 733-7080, 733-7019.

WILL DO baby sitting for working mothers. Address across from Kalamazoo 733-9997.

The first potatoes to be air freighted by a pure jet from this area are these two boxes of potatoes.

The potatoes were sent by Air West's first pure jet into Twin Falls last week by the Twin Falls Chamber of Commerce to the Yuma, Ariz., Chamber of Commerce. The Chamber represented the City of Twin Falls and Twin Falls County in the promotional venture.

Looking at the two boxes of potatoes are, from left, Mayor Frank Feldtman; Robert Harvey, first vice president of the Chamber of Commerce; Warren Barry, chairman of the Twin Falls City-County Airport Commission; Don Cooper, Boise, Idaho sales manager for Air West, and Larry Ecklund, Twin Falls station operations manager for Air West.

Idaho Junior Hereford Group Sets Field Day

BUHL. — The Idaho Junior Hereford Association will have its annual Hereford Field Day in the Buhl area next month.

The event will be held at the Clark Hereford Ranch, west of Buhl on Highway 94, on Monday, June 6, beginning at 9 a. m.

A full day's activities have been planned. Vocational agriculture instructors and 4-H leaders will be interested in the Hereford judging contest slated on the morning program, featuring six classes of breeding cattle and steers.

Contestants will compete for a host of trophies and awards, both on an individual and team basis.

The top award will be a registered Hereford Heifer, going to the top individual judge that is a member of the Idaho Junior Hereford Association. The heifer will be given by the Clark Hereford Ranch.

Andy Kendall, Emmett, will give a demonstration on the timely subject, "A new look in the show ring." Representing the American Junior Hereford Association will be Joann Selman, Watrous, N. M., secretary of the organization.

Craig Ludwig, Kansas City, Mo., director of junior activities of the American Hereford Association, also will speak during the day.

Herschel Boydston, Twin Falls, head of the agricultural department, College of Southern Idaho, will give a presentation on animal and carcass evaluation.

Another featured for that day for all Idaho Junior Hereford Association members is the speech contest. These speeches can be on anything dealing with the Hereford cattle and the contest is open to any association member.

The official judges at the field day will be Bob Goggins, Ennis, Mont., and A. J. Burns, Wallawa, Ore.

On Tuesday, June 9, a tour of several Magic Valley Hereford ranches is being planned by Idaho Hereford Breeders Association.

The tour will start at 8:30 a. m. June 9 at the Lawrence Renner Ranch, five miles north and three and one-half miles east of Gooding.

The next ranch on the tour will be the Ed Eakin ranch, 2½ miles south and ¾ mile west of Jerome. The Lickley Ranch, east of Jerome, is the next stop on the tour.

Tour members will then visit the College of Southern Idaho campus and have lunch at the

Turf Club.

Then the tour will stop at the Art DeVisser Ranch, one mile west and 1¼ miles south of the Highway 93-30 junction. The next ranches on the tour will be the Devo-Chadwick ranch; Hollister; Tom Callen, Point Ranch, Rogerson; C. J. Boss Ranch; near Nat-Soo-Pah; Bob Howard Ranch, near Murtaugh and then to the Excel Hereford Ranch near Burley, the final stop.

Tour members will spend about 30 minutes at each ranch.

Swine Clinic

Another session of the swine clinic for 4-H members, leaders and parents will be held June 4 at the College of Southern Idaho's area vocational building, Twin Falls.

The class will begin at 8 p. m. and the instructor will be William (Bill) Loughmiller, Twin Falls swine producer. He will discuss fitting and showing of hogs.

Shoshone FFA Unit Has Event

SHOSHONE. — Future Farmers of America received awards at the annual banquet held at the Manhattan cafe here.

Advisor Brian Evans was the speaker of the evening, noting the leadership development that FFA provides. James Thorpe, club president, was master of ceremonies.

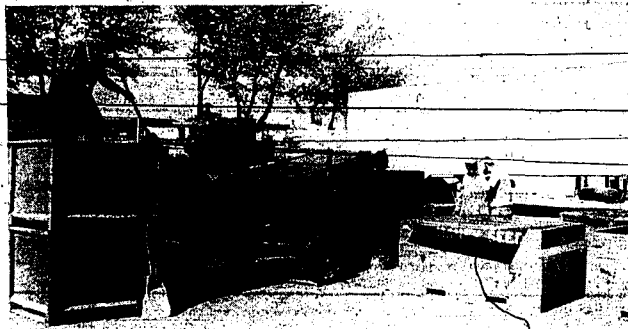

Foundation awards were given to James Thorpe, crop; Dewey Williams, livestock; Melvin Huyser, dairy; Thorpe, soil management; Allen Stowell, home improvement; Ellis Gooch, agriculture mechanics, and Richard Halsey, farm placement.

Honorary chapter awards were presented by Thorpe to Harold Huyser, Gary Hill, Gordon Braun, Mrs. Robert Gaskill, Brian Evans, Herb Love, and Howard Hill.

Certificates of appreciation went to Carl Kinney, principal; and Superintendent of Schools Kenneth Crothers. A plaque for outstanding service also was presented Mr. Evans.

Thorpe received the Star chapter farmer award. He and John Urrutia received leadership awards and Urrutia and Ellis Gooch received scholarship awards.

Officers for the coming year are Ellis Gooch, president; James Thorpe, vice president; Kenneth Green, secretary; Dewey Williams, treasurer; Allen Stowell, reporter, and Rick Halsey, sentinel.

THRESHING beans during May is Haney Seed Co., Twin Falls. This portable threshing machine, shown in photo, was supposed to have been ready last fall so the firm could thresh the small lots of new varieties of bean seed that are

being developed. The machine arrived at Haney Seed Co. warehouse last week, so crews have been busy the past few days threshing last year's crop of bean seed.

Mrs. Dietz Speaks To Grangers

accepted to allow the Buhl Bible Baptist Church to use the Grange Hall as a meeting place for Sunday morning and Wednesday evening services beginning June 4.

The summer meetings were set for the first Thursday of each month.

An invitation was extended to the Castleford Grange to the Dance recital to be held today at 8 p. m. in the old gymnasium at

Mike Hauser Joins 4-H Club

TILER. — Mike Hauser is a new member of the Better Livestock 4-H Club. He was welcomed to the club during a recent meeting in the home of Mr. and Mrs. Lee Sharp, leaders.

A demonstration was given by Julie Tews on horse grooming. The next meeting will be June 9.

CASTLEFORD. — Mrs. Don Dietz, Buhl, the Twin Falls Pomona Grange lecturer, was a guest at the Castleford Grange, and spoke to the group of the results of the evaluation for the recent ritualistic work that had been conducted among the subordinate Granges in Twin Falls County.

Mrs. Blanch Smith, Buhl Grange, accompanied Mrs. Dietz. Mrs. Dietz also explained the proposed degree program coming up in the fall and asked for opinions of the Grangers as to this program. This degree work is in preparation for the coming convention to be held in Boise.

The motion was made and

Land Law Commission Praises Forage Study

BOISE — Commenting on the forage study of the national public lands made by the University of Idaho, the Public Land Law Review Commission, the Idaho Commission on Federal Land Laws stated the report is of the utmost interest to Idahoans.

The Idaho Commission notes in its views presented to the PLLRC that the public lands have many recognized uses which are of benefit to the public. A balance of these uses, taking into account the direct as well as the indirect benefits, are important, the report explains.

"Forage for livestock and wildlife are some of the most beneficial uses of such lands. In addition to forage, we must consider the benefits and possibilities of mining, mineral leasing, timber production, hunting and fishing, watershed management, gluckinck and other outdoor recreational pursuits.

"In general, we agree that where such public lands are in blocks of sufficient size and have multi-purpose and balanced use potential, full consideration should be given to retaining these lands under federal ownership until and if higher use is demonstrated. On isolated or fractionalized tracts which are within the boundaries of privately owned lands and can be more effectively and efficiently managed in private ownership, the present public sub laws should be utilized which would permit the adjoining landowner to have a preference in meeting the high bid, if such lands are sold under the public sale laws.

"The deficiency most significant to western stockmen, is the absence from the study of adequate treatment and research on 'public benefits,' arising from use of the public land forage. This substantial increase in numbers reveals that which graze on public lands as public lands. It is water-based in many areas of the West arising from range re-seeding, re-vegetation, proper range utilization procedures; for spreading practices including erosion control and requiring all a part of good range management, are performed in essential measure with the lands, the efforts, property and know-how of the individual range operator. These public benefits, tangible and intangible, frequently have a measurable dollar value which is not reflected in the fees charged by the government for use of its forage resources. For this reason, the stock industry agrees in the urgent note with the study expressed in its conclusion, that the Congress at the earliest opportunity, should undertake to establish a clear and precise guideline and criteria for assessing grazing fees that will provide a fair return to the government and will also be fair and equitable to the rancher and to the benefit of the community, the state and the Nation.

"To encourage full cooperation between the range user and the federal land management agencies, more consideration should be given to protection of the investment of the range user for range improvement. Other public benefits will accrue from such improvement on the public lands.

"The public interest can best be served by the maximum utilization of the forage on federal public lands for the proper grazing of domestic livestock and wildlife. This necessitates not only a range survey but periodic analysis to determine if the forage on such range lands is improving so that increased utilization may be practiced."

management agencies, more consideration should be given to protection of the investment of the range user for range improvement. Other public benefits will accrue from such improvement on the public lands.

"The public interest can best be served by the maximum utilization of the forage on federal public lands for the proper grazing of domestic livestock and wildlife. This necessitates not only a range survey but periodic analysis to determine if the forage on such range lands is improving so that increased utilization may be practiced."

Kirby Hill Speaks To Grangers

WENDELL — Kirby Hill spoke to members of the Wendell Grange on plans for the consolidation of road districts in the Wendell area.

Application for grange membership was received from Laura Jasper.

Mrs. Ray Ruby, women's activity committee chairman, reported on the Lions Club dinner and the FFA banquet. She also announced members of the Women's Activity Committee will cater a picnic luncheon June 28 for the Wendell High School class reunion.

Mrs. Agnes Wyner was named first place winner in Pomona judging of the Grange's cotton sewing contest. The winning garment, an A line princess, style dress of red seranno, has been entered in state competition.

A report on regulations regarding meat slaughtering plants was given by Richard Jasper, agricultural chairman.

Correspondence was read from Hugh Parks, Boise, state Grange legislative representative in relation to the new revised Idaho State Constitution. Harvey Shirk, Wayne Matthews and Richard Jasper were appointed to study the revision and report on them.

George Fuller, master, thanked Mr. Shirk for repairing and refinishing the front door of the grange hall.

A memorial program was conducted by Mrs. Kirk Hays chairman.

Spring Meet

THREE CREEK — The 71 Livestock Association's annual spring meeting will be held at 1 p.m. June 13 at the Three Creek school.

Noy Brackett, secretary, states a potluck lunch will be held at noon. Ladies are to bring salad or cake.

Wheat Unit Starts New Program

BOISE — A program to inform city dwellers on the problems and contributions of agriculture has been launched here by the Idaho Wheat Commission.

Called "Food... For Tomorrow," the promotion program is being tested during May with informational advertising in newspaper, television and radio.

Harold West, administrator of the Wheat Commission, said the promotion was designed to further understanding between urban and rural people.

"We used to think people in Idaho cities knew all about agriculture," West said. "But when we took a survey in Boise last month, we found out that just isn't true."

West said the Wheat Commission survey uncovered "several startling facts." He noted that 89 per cent of Boiseans surveyed were not aware that the out of 10 new farm jobs are directly related to agriculture, and 83 per cent didn't know that the average farm worker produces enough food to feed 45 other people.

"Farm efficiency has tripled in the last 20 years, yet prices for farm commodities have gone down," West said.

Most significant discovery in the survey, according to West, was that most Boiseans are not aware of what percentage of their income goes for food. More than three-quarters of those surveyed felt the percentage was increasing.

"This just isn't true," West asserted. "Food prices to consumers are not increasing as fast as other goods. So, the average family spends less of its disposable income for food all the time. In 1960, food took 20 per cent of the average budget. Now, it's down to about 16 per cent."

West said if the efforts of "Food For Tomorrow" prove effective, the promotion will be expanded in Boise and other cities, possibly with help from other commodity groups.

Local Farm Ponds Help Control Water Pollution

Farm ponds represent one of the oldest and most effective means for prevention of water pollution, Carl Boyd, chairman of the Twin Falls Agricultural Stabilization and Conservation (ASC) Committee said.

Ponds have gained this reputation by helping to cut down the flow of silt from farmlands into streams, lakes, and rivers. Mr. Boyd explained water running off farmlands from irrigation and during storms carry large amounts of silt and other pollutants.

Farm ponds catch and hold a portion of the runoff water and thus slow down its erosive effects. Ponds throughout the county have a capacity of holding tremendous amounts of water. Mr. Boyd said, thereby, alleviating flooding and silt damage to downstream crops, highways, bridges, and homes. Nationally, farmers and the Federal Government have shared the cost of building more than two million farm ponds during the past 34 years through the Agricultural Conservation Program (ACP).

Farm ponds provide other benefits that often extend beyond the farm on which they are located. Many of these ponds are designed to supply water for livestock. They may also be constructed to store irrigation water, for the benefits of fish and wildlife, and to provide water for fire fighting.

The ponds, Mr. Boyd said, which provide significant conservation benefits, also help

fulfill the expanding need for recreation by providing opportunities for fishing, swimming, boating, and ice skating in some areas.

Farmers interested in cost sharing of farm ponds should contact the Twin Falls ASCS Office for complete information.

Because of the lack of funds at the County ASCS office, has discontinued accepting requests for Federal cost-sharing on control of noxious weeds, said Mr. Boyd.

Swimming Party Set By 4-H'ers

FILED — The Lucky Boots and Spurs 4-H Club planned a swimming party when they met at the home of Billie Rae Robertson. It will be held from 5-8 p.m. today at Ranbury's. The group discussed 4-H camp. Members decided to keep their old signs but add to them each year. Connie Hendrix presented a demonstration on determining the age of an animal by its teeth.

Officers of the group include Janie Vincent, president; Rex Reed, vice president; Donna Rae Reichert, secretary; Lauren Reed, reporter; Doug Goff, recreation leader; Carol Vincent, song leader, and Judy Brown, sergeant-at-arms.

University Hosts 4-H Congress

MOSCOW — To the theme of "In Touch with Tomorrow," about 250 boys and girls from all corners of the state will attend the annual 4-H Club Congress on the University of Idaho campus, June 7 to 12, the planning committee announced today.

The slogan, according to Maurice Johnson, Dorothy Hale, and William Shane, state club leaders of the University of Idaho extension staff, sets the stage for a week of campus life, assemblies, workshops, classes and recreation. Most of the young people are at high-school age. They will be assisted by adult volunteer club leaders, county agents, and other members of the university staff.

Main speakers will be the Rev. Robert Burchell, Spokane; Lawrence H. Merk, mayor of Moscow, and assistant professor of communications at the university; James E. Kraus, dean of the college of agriculture, and James L. Graves, associate director of the extension service.

Steve Wetzel, American Falls, president of Gem State 4-H, will conduct business meetings and give an address as 4-H Reporter-to-the-Nation. He was chosen to the select group at the National 4-H Congress in Chicago last winter. He will share the platform with Oscar Johnson, Chicago, also a member of the national team that tells the 4-H story in all parts of the country.

The club delegates will have workshops on a wide variety of subjects, such as moral values, Idaho beautification, personality development, citizenship, environmental ecology, selection of careers, and creative arts. There will be classes in clothing construction, nutrition, small engine repair, meat identification, gun safety, names of insects, social etiquette, animal health, wilderness camping, and many other topics.

They will swim, dance, learn recreation leadership, have a style show, barbershop and talent show, elect officers and publish a newspaper. Janet Little, Boise, is editor.

Officers, in addition to Wetzel, are Bill Hunt, Carey, vice president; Burt, Fairfield, secretary; Kathy Daniel, Meridian, historian; Lyle Siddoway, Teton City, sergeant-at-arms and Diane Elman, Idaho Falls, song leader.

Sheep Club Elects Aides

The Southside Sheep 4-H Club elected officers recently at a meeting in the CSI vocational building. Leaders are Jim Olson and Joan Winkle.

The new officers are Jeff McGowan, president; Greg Winkle, vice president; Joan Winkle, secretary; treasurer, Ed Carr, Dorr, reporter.

SOME OF THE participants of the recent Idaho Morgan Horse Association's "Play Day," held at Frontier Field, Twin Falls, are shown here. This particular class is the English

pleasure class and the judge is Bud Higgins, Pleasant Grove, Utah, center left. Center right is Roy Jessor, Twin Falls. Over 50 horses from throughout Idaho participated in the events.

Boise Gelding Tops Recent Idaho Morgan Horse Group's "Play Day"

A Morgan gelding, "Arana Troubadour," owned by Carolyn Bowser, Boise, was high point horse in the recent Idaho Morgan Horse Association sponsored play day at Frontier Field.

Tying for runner-up place were "Gazatter," owned by Anna Lucy Keller, Pocatello, and "Snipper Supreme," owned by Karen Jones, Filer.

There were over 50 horses in the various classes and the official judge was Bud Higgins, Pleasant Grove, Utah. Announcer was the late Lefroy (Andy) Anderson. Winning the various classes were:

Matched pairs — "Gazatter"

and "Cynabar," shown by Joe and Anna Lucy Keller, Pocatello.

Pony pleasure — "Dandy," shown by Ginger Olive, Pocatello.

English equitation — "Ginger," shown by Patty Seelachson, Jerome.

Stock horse — "Snipper Supreme," shown by Karen Jones, Filer.

Pole bending — "Beauty," shown by Derry Fender, Kimberly.

Lead line — "Snipper Supreme," shown by Shaun Jones, Filer.

Jumping — "Tonya," shown

by Dolores Nanpinge Pocatello.

Beginning jumpers — "Ginger," shown by Diane Fender, Kimberly.

English pleasure — "Arana Troubadour," shown by Carolyn Bowser, Boise.

Stock seat equitation — "Chocolate Chip Bars," shown by Fritz Wonderlich, Twin Falls.

Rescue race — "Brandy," shown by Derry Fender, Kimberly.

Western pleasure, Juniors — "Chocolate Chip Bars," shown by Fritz Wonderlich, Twin Falls.

Bareback dollar — "Cricket," shown by LuRae Gilbert, Twin Falls.

Western pleasure, adults — "Traddaboo," shown by Earl Bell, Rupert.

Harrel race — "Snipper Supreme," shown by Karen Jones, Filer.

Costume class — "Arana Troubadour," shown by Carolyn Bowser, Boise.

Trotting race — "Twin-Ida Major Lynn," shown by Rusty Jessor, Twin Falls.

Mrs. Clyde Vanuuden, safety chairman, gave a reading "Is your farm safe from fire?" Claude Oliver gave a report on riots in the United States and noted that France has passed a law requiring anyone starting a riot to pay for all damages resulting from it.

School graduates of Grange members will be honored at the annual dinner at 7:30 p.m. June 12 in the Grange hall.

Mrs. Harley Williams announced all Grange members have been mailed cards telling them what they are to furnish for the Grange booth at the Twin Falls County Fair this fall.

Grassman Candidates Are Named

JEROME — Two men and a woman have been nominated as Jerome County's Grassman-of-the-Year.

The three candidates are Mrs. Clark Heiss, Tom Prescott and Ray Chugg. Mrs. Heiss and Mr. Prescott were nominated for their reseedling and rotation grazing programs, and Mr. Chugg for his reclaiming desert land, using sprinkling systems.

The three will be judged on Wednesday, beginning at 9 a.m., and the winner will be Jerome's candidate in the state contest.

Cutworm Eradication Is Sought

BOISE — The Idaho Bean Commission, meeting here recently has expressed concern over a problem developing with bean cutworms in South Central Idaho.

Cutworm infestation is not at the serious stage yet, but members of the Bean Commission said they would prefer to have the problem stopped before it becomes serious.

Gerard Barker, Hazelton, the commission chairman, said University of Idaho researchers have been granted funds to study the bean cutworm and make recommendations for its eradication.

In other business before the Bean Commission, consulting home economist Ella Lehr Neja was directed to expand efforts on promoting the small value of beans in the diet of teachers and school children.

Social Security Questions

If you have questions concerning Social Security benefits or qualifications, address them to Jim Davis, Box 1239, Twin Falls, Idaho 83301.

Q — I have been drawing my own social security since I was 62 years old. Would it be beneficial for me to change to a wife's benefit now that my husband has signed up? If I do keep on with my own benefits, will it make any difference in the amount if I should become a widow?

A — There are several things we would have to know before we could tell you whether you can receive more as a wife than you are presently receiving on your own account. However, if your own benefit before being reduced for age 62 is higher than one-half of your husband's primary amount, you would not receive a higher benefit as a wife. It is very possible that your widow's benefit would be higher than what you are receiving on your own account because a widow's benefit is 82½ per cent of your husband's primary benefit.

Q — My husband died last August and I received a check for \$255.00 which was the lump sum death payment. I also received a letter which said that my monthly benefit would be in the amount of \$122.90. However, every check I have received since then has been in the amount of \$118.90. Why have I only received \$118.90 each month when I have the letter stating I was to receive \$122.90?

A — The thing you have overlooked is your Medicare premium which is exactly \$4.00 per month. The letter said that the amount of your widow's benefit is \$122.90 which is correct. However, since you did sign up for Medicare and your cost for this protection is \$4.00 per month, this amount was held out of your check, and they have sent you \$118.90 per month.

4 Will Go To North Gem Camp

Four Magic Valley youths have been selected to attend the Idaho Youth Conservation Camp, June 15-Aug. 9 at Farragut State Park.

They are John M. Miller, Burley; Danny D. Daniels, Filer; Brian C. Kadel, Paul, and Bob T. Sievers, Twin Falls.

Assistant camp director will be Paul Folletto, Kimberly High School coach. A junior counselor this year will be Dean Turbeville, Jerome.

While attending the camp, the boys, along with 46 others selected, will work on projects which have been planned by the Farragut State Park staff. The boys will be paid \$50 per month for their work, plus meals.

CERTIFICATE for superior performance is handed to Ken Kuhlman, right, assistant BLM area manager for the Magic Resource Area is Bob Brock, left, area manager of the same resource area. Mr. Kuhlman received the award and \$200 from the BLM for his work on allotment management, planning unit resource analysis and for initiating the Johnny Horton cleanup campaign in Twin Falls County. Both men are with the Burley BLM district.

Friday, May 29, 1970 Times-Town, Twin Falls, Idaho. 5

Gardening Is Discussed At 4-H Meeting

MILNER — Kevin McBride gave a talk on preparing a garden seed bed at a meeting of the Better Feeders and Pitters 4-H Club at his home.

Carl Seymour demonstrated the care of a horse's foot and Paul Warr gave a talk on the choosing and buying pork.

Farnum Warr led a general discussion on 4-H Club Congress to be held at Moscow. Jim Brill and Paul Warr will represent the club at this meeting in June.

EXTRA PAYMENT

WENDELL — Orchard Valley Grange members voted to send in an extra payment on the grange hall. Howard Niccum reported on the state parks system.

The Twin Falls County-wide 4-H Horse Gymkhana gets underway at 9:30 a. m. Sunday at Frontier Field.

All members of the 4-H horse clubs are urged to participate and all persons interested in horses and 4-H are urged to watch the events as spectators.

Weevil threat seen bigger in '70.

Unfortunately, it's been a good winter for alfalfa weevils. And serious weevil infestations are expected. So even though you've got a lot of jobs to do, don't overlook your alfalfa. Don't let weevils slip in undetected and ruin it.

It will pay you to check your fields carefully. Go out often and look for signs of larvae feeding. When you find three to five out of ten plants that show weevil damage, get in there fast with a spray of Alfa-tox insecticide.

Why Alfa-tox? Because it was designed for the job. We combined Diazinon® and methoxychlor to provide effective killing power that lasts 2 to 3 weeks from a single spray. To give you more days of control for your insecticide dollar.

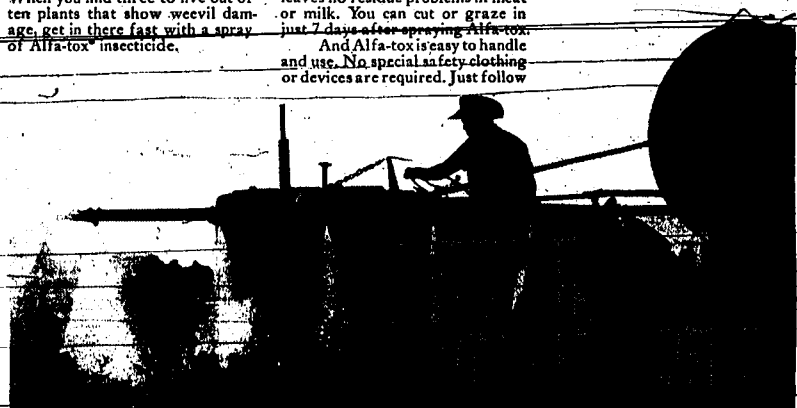

The combination controls a wide range of damaging insects in addition to weevil larvae. Yet it leaves no residue problems in meat or milk. You can cut or graze in just 7 days after spraying Alfa-tox.

And Alfa-tox is easy to handle and use. No special safety clothing or devices are required. Just follow

the label. You'll get consistent, dependable control and a hay crop that will be worth it.

For more information, write to Geigy Agricultural Chemicals, Div. of Geigy Chemical Corp., Ardsley, New York 10502.

MAGIC VALLEY GROWERS

Twin Falls 733-5671

Jerome 324-2388

Now Is Time To Prune

NEWARK, N.J. (UPI)—The best time for pruning plants is when the pruning wounds will heal most quickly.

That time is right now and on through June when the sap begins to flow and new growth starts, according to a major manufacturer of shears and scissors.

Most plants, with the exception of evergreens, can be pruned or trimmed at any time, says J. Wise & Sons Co., Newark. Ordinarily a pruning in late spring or early summer, after considerable new growth has been made, and again in late summer or early fall, will maintain them in good form.

Except for climbers, all roses need spring thinning out. Remove all dead and diseased wood to the ground, and cut back dying canes to a point just above a healthy vigorous outside bud on clean strong wood. Leave only the strong healthy canes produced by the previous year.

In pruning shrubs, object is to keep the plant in bloom and at the same time to preserve its graceful habit of growth. This is best accomplished by (1) removing all very old wood and (2) by cutting back the branches which have bloomed to uneven lengths.

Lilacs are easily kept in control by removing, in the spring, old dying wood and suckers or new shoots from underground. This is also true of azaleas, buddleias, kalmias, magnolias, rhododendrons and sorbarias.

To assure clean smooth cuts and proper healing the tool used for pruning should be kept sharp and free of rust.

Most pruning around the house will be done by pruning shears. If these are the scissors type, with blades that pass each other, there must be no "play" between the blades, or a clean cut cannot be made.

Keeping your yard and garden in top trim calls for the right cuttings with the right tools.

Agricultural Research Bean Seed Orientation Research Under Way

Beans in the Magic Valley will emerge uniformly and up to five days earlier if the seed is correctly oriented when planted.

Clarence Hayden, agricultural research technician at the Snake River Conservation Research Center, Kimberly, recently observed this orientation response. Mr. Hayden, along with others at the center, had been investigating the effect of soil crusting on dry bean production. He noticed that some beans would emerge before others and decided that seed placement might be a factor. The idea was checked in the greenhouse. Beans were grown in boxes with windows on the side so that the beans could be observed as they sprouted and emerged. Eleven different seed orientations or positions were tried. He found that seed orientation had a very definite effect on how quickly the bean emerged.

Beans were then grown in greenhouse boxes where the soil would form surface crusts. The number of plants that emerged depended to some extent upon their orientation. One orientation was particularly desirable. This position was the one in which beans were placed in the soil with the hilum or 'eye' in the upward position.

Presently available planting equipment allows bean seeds to land in many different positions. So the problem confronting the researchers was to design a planter which would place the bean seeds in the proper position.

Several ideas were tried and finally a tubular 'sliding board' was developed which positioned the bean seed correctly. A one-row planter was then built and field tested. It was found that about 95 per cent of the bean seeds were planted in the desirable position.

The idea was then applied on

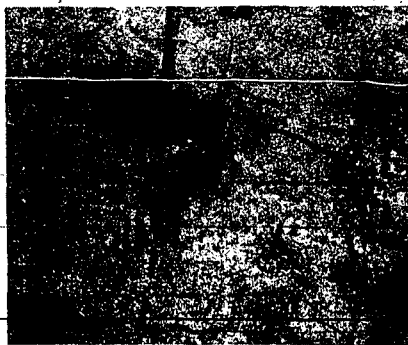

small research plots where beans were position-planted and yields then checked against standard planting techniques. Results from these research plots indicated that the oriented planting increased the average yield by 78 pounds per acre.

Two important factors were observed in this study. The first was that plants emerged earlier and more uniformly than when seeds were planted normally. Secondly, plants were able to emerge through crusts more satisfactorily than when placed in other positions in the seed

bed.

Hopefully, with this method the farmer can obtain an early and uniform emergence. This will also allow the farmer to initiate and complete his harvesting a week or two earlier.

These positive responses to orientation planting do not suggest that farmers immediately rush down to the implement dealer and demand an oriented-bean-seed-planter. These types of planters are not commercially available, but perhaps the idea is a step in the right direction.

SOIL CRUST is removed in this photo to expose germinating bean seedling from poorly oriented planting.

Changes In Law Sought

WASHINGTON — Mack Yenzler, president of the National Livestock Dealers Association, has called upon the industry to re-write the Packers and Stockyards Act.

Yenzler, Dodge City, Kan., said the present act is outdated and does not apply to livestock marketing in the 1970's.

Murtaugh Mavericks Elects

MURTAUGH — Debbie Thompson was elected president of the Murtaugh Mavericks Riding Club during the meeting held at the Doug Bailey ranch.

Tina Bradshaw was elected vice president; Myra Kirk, secretary; Laurie Fowler, treasurer; Mr. Bailey, assistant treasurer; and Terri Christensen, reporter.

Mrs. Bailey is the drill master for the club, Keith Perkins, assistant drill master, and Mrs. Norman Shirley, drill mistress. An Provost, Mark Lockwood, Carl Toupin, Jr. and Steve Grierson are new members.

At 7:30 p.m., Monday, there will be a meeting for members and parents to discuss a trail ride. All parents are urged to be present.

All drill practices will be held at 7:30 p.m. on Monday of each week. Same night will be held at 7:30 p.m. every Thursday. Both meetings will be held at Bailey's arena.

4-H's See Demonstration

FILER — Bill Jones gave a talk and demonstration on the care and showing of swine to Filer-Livestock-4-H Club members at the home of Jerry Kruse, leader.

Jerry Brown and Bill Hlass were scheduled to present a demonstration on beef cattle at the next meeting at the Kruse home. Club members state they find the talks and demonstrations very helpful in learning the proper way to care for and exhibit animals at the fair.

MODERN FARM BUILDINGS PUMICE CONCRETE MASONRY mean less work - higher profits

Which one of these work-saving profit-making buildings do you need?

POULTRY HOUSE

You'll insure a vigorous, healthy flock if you build your poultry house of insulated, vermin-proof, dry concrete masonry. They're so easy to clean.

DAIRY LOUNGING SHED

A concrete masonry shed keeps your cows warm in winter, cool in summer. Durable... saves on repair costs... easy and economical to construct.

MILK HOUSE

Insulated concrete masonry allows you to build the largest milk house for the least money... and they're easy to clean... vermin-proof.

GARAGE-MACHINE SHED

Protect valuable machinery with a concrete masonry shed. Fire-safety, long life, low upkeep and appearance make this shed a farm asset.

VOLCO
BUILDERS
SUPPLY

TWIN FALLS COUNTY has several farm flocks of sheep and these seven head are part of a flock west of Twin Falls. Most all of the small farm flocks are out on pasture as noted in this

photo. Larger operators run their sheep out on summer range in the foothills and mountain areas.

RIDING HIGH in the bareback event last year in the High School Rodeo championships is Rawley Stanley, Gooding, Idaho's High School All-Around Cowboy. Action like this awaits those planning to see the Fifth District High School Rodeo next weekend at Gooding. Performances are scheduled for 8 p.m. Friday,

June 5, and at 1 and 8 p.m. Saturday, June 6. Livestock owned by the late Ernie Watts will be used during the rodeo and contestants from most all Magic Valley areas will be competing. The public is invited to any or all of the three performances.

No Need For Increased Imports, Cattlemen Say

BUTTE — "Pressures are constantly being placed on President Nixon and members of his staff to increase the amount of beef being shipped into this country," according to W.D. Farr, president of the American National Cattlemen's Association.

Farr reported to the members of the Montana Stockgrowers Association at their annual meeting, "The American National is doing everything in its power to hold the line on imports. We have told the Administration the population of the nation's cowherds is at an all time high. We have also pointed out U.S. cattlemen are producing ample supplies of beef to meet anticipated consumer demand."

The cattle industry leader continued, "We have made it perfectly clear to the Administration that tampering with increased imports could adversely affect the delicate balance of supply and demand U.S. beef producers have maintained. If more imports are allowed, then much of the economic incentive for cattlemen could be lost; and American consumers would be the losers in the long run."

Farr said the U.S. cattle industry has been gradually and efficiently building up beef cow numbers. Any economic or psychological factors could upset domestic production patterns.

"ANCA stands behind the Meat Import Act of 1964 as a

workable solution to the import situation," said Farr. "Any move by foreign exporters or domestic importers to tamper with the law must be considered an attempt to sabotage the domestic cattle industry."

Valve Lifters Reorganize

CASTLEFORD.—The home of Dennis Conrad, 4-H club leader for the Castleford Valve Lifters, was the meeting place for the reorganization meeting of the club.

Record books and ribbons from last year were distributed. The junior leader, Barbara Conrad, spoke of the responsibilities of the various officers.

Officers were elected for the coming year and included Steve Dixon, president; Charles Fritz, vice president; Tim Davis, secretary; David Foukal, treasurer; Barbara Conrad, reporter; John Parker, sergeant-at-arms.

Gem Meat Production Estimated

BOISE — Production of meat animals on Idaho farms and ranches — 1968 — is estimated at 680 million pounds liveweight by the Idaho Crop and Livestock Reporting Service.

In 1968, meat animal production totaled 684 million pounds. Meat animal production is defined as total liveweight of livestock marketed, custom slaughtered and farm slaughter consumed on farms where produced, minus liveweight of shipments, and plus or minus the charge in inventory liveweight.

Cattle and calves represented 64 per cent of the total production, sheep and lambs, 10 per cent and hogs accounted for six per cent.

NEW MEMBER

J. Alfred May, Twin Falls, has been elected to membership in the American Angus Association.

STARTING ROSES: Several readers have written to tell us they start their roses by inserting a cutting into a half potato. The potato nurses the cutting along and supplies nutrients, plus moisture.

Last summer a reader tried this and wrote us: "We put a slip of rose stem under a glass jar, using a half potato for the cutting. In a few weeks green leaves started to shoot up around the sides of the jar and around September the leaves turned brown, even though we applied water."

"I removed the jar and dead rose stem, pulled up the potato plant (which grew, instead of a rose), and found nine nice round potatoes which we ate. My husband said that if growing potatoes is that easy we're going to turn the rose garden into a potato patch. And what did I do that was wrong!"

This often happens when you try to root a rose in a potato. The spud takes over before the rose cutting can root. Try rooting the rose in plain soil. Incidentally, potatoes are easy to grow, and if you want a good tasting vegetable, try raising a few this year.

MOLES IN LAWNS: This has been a good mole year. As we mentioned recently, you can fight them with harpoon type traps, baits and by using pesticides to kill off the grubs in the soil.

Here's a "sure" remedy for curing moles, sent to me by a

reader recently: Go to your druggist and get a quart of castor oil. Mix one quart of the oil with equal parts of a liquid detergent. Add a little warm water and beat into a foam. Put two or three tablespoons into a watering can of warm water and stir. Then douse the soil where the moles are. Douse it again and again.

The moles will disappear for a period of from three to six months. You may not need a whole quart of the castor oil, depending upon the size of your lawn. Most of us know that moles are not fond of castor beans and if a few seeds are put into the runway it'll do the trick. Even the castor plant has a repelling effect on moles. Castor bean seed is poisonous so keep it away from children.

F. K. of Twin Falls: "We have a fine peach tree which our son planted eight years ago. We heard you can bottle a peach while on the tree and my son would like to try it. Can you tell us how?"

A conversation piece which also serves a purpose (provided you like and use wine) can be made with a bottled peach. Here's how: When the peaches are thumb-sized on the tree, fasten a bottle over a single peach, sealing the seal with tape or wax. Put the bottle on when the peach is dry, making sure the peach hangs freely inside.

Leave until the peach is firm ripe, remove, add some wine, and seal the bottle.

Chicago Stockyards: No More Hogs

CHICAGO (UPI) — Chicago without the stock yards? Unthinkable. But times, and the yards, have changed. Attesting to this is the announcement this spring by the Union Stock Yard & Transit Co., which has operated the Chicago stock yards since Christmas of 1865, when 15 carloads of hogs arrived in the city.

The company said it was "no longer economically feasible" to continue the operation of its hog division. It added that hog producers, selling agencies and buyers would be allowed 30 to 90 days to complete their business.

The announcement came nearly a century after Philip D. Armour and Gustavus F. Swift founded their plants here in the late 1870s. A short while later, Chicago was being hailed as the meat capital of the world.

By 1920, the stock yards could boast a yearly volume totaling more than 7.5 million hogs. That was just four years after a local newspaper reporter named Carl Sandburg gave the city the title, "Hog Butcher for the World," in his poem "Chicago."

Last year, however, hog receipts were down 26 per cent from 1968. Less than 1 million hogs were sold at the yards.

"The reason behind the discontinuation is simple," said Larry Kane, administrative vice president of the International Amphitheatre Co. and general manager of the Union Stock Yards. "Hog producers in the Chicago market area are no longer marketing their hogs at

the Chicago terminal market." Cost is the answer. In recent years, the high cost of shipping livestock to Chicago and the increases in refrigeration efficiency have driven much of the nation's butchering business to smaller cities nearer the farm sources of supply. It is cheaper

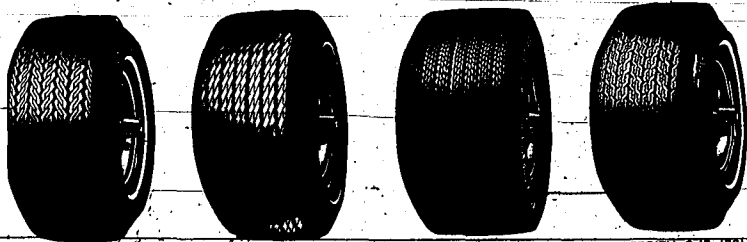

to move the meat than the animals. In addition, the Chicago yards can't compete with the new two-story plant facilities now in operation. "There is too much hand-carting the stuff around at the Chicago yards," one local packer said.

"In the new plants everything moves on chains and belts." As early as 1882, Swift and Co. ceased slaughtering, dressing, and packing hogs in Chicago because of the "increasing cost of dressing in the Chicago plant."

4-H Club Has Mother's Tea

ALBION — Members of the Junior Domestic-Kates 4-H Club held their annual Mother's Tea recently in the Albion Grange hall.

The program included a solo by Julianne Jolley, accompanied by her mother; a ventriloquist skit by Angela Tuttle and Joanna Nelson; guitar duet by Vikki Redman and Drenda Woodall; a skit by Charlotte Eck and Callen Asher, and soloist, Carol Amende.

Poems were read by Miss Asher and Miss Eck. Hostesses for the tea were Joan Nelson, Tammy Brackenbury and Angela Tuttle.

Rustic Rustlers 4-H'ers Elect

CATTLEFORD — The Cattleford Rustic Rustlers 4-H Club held its organization meeting and election of officers at the home of Mrs. Jay Welch.

Mona Griggs was elected president and Lou Ann Kinyon was chosen as the vice president. Nancy Reese is secretary-reporter and Cindy Welch is assistant reporter. Mary Whitley and Kay Hoagland are recreation co-chairmen and John Kinyon and Nick Welch are clean-up chairmen. Christie Reese is sergeant at arms.

Mrs. Welch, Mrs. David Kinyon and Mrs. Chris Reese are the leaders for the club. Nancy Reese is junior leader.

AUTHORIZED-INDEPENDENT DEALER

LOCAL HORSE breeder is introducing new Quarter Horse blood in this area with this stallion, "Jayhawk Bar," son of Three Bars, a leading sire of top running Quarter Horses. Thane Lancaster, Filer, and his partner, Dean Parker, purchased the stallion last fall in a dispersal sale in Kansas. Thane and Mr. Parker are the second owners of the horse.

Filer Man Has Top Quarter Horse Sire

FILER—New Quarter Horse blood is being introduced in the West and Idaho by Thane Lancaster, Filer, well-known Quarter Horse breeder.

Thane and Dean Parker, Auburn, Calif., have purchased "Jayhawk Bar," a top sire of running Quarter Horses. This top sire was sold in a dispersal sale last November to Mr. Lancaster and Mr. Parker by Quimby Demmitt in Kansas for \$13,750.

Thane said he and Mr. Parker are the second owners of this Quarter Horse stallion and this is the first time the horse has been in Idaho.

Thane added that mares from eight states have been brought to Filer to the stallion so far this spring.

"Jayhawk Bar" has proven to be one of the most durable sons of "Three Bars," running until 12 years of age and running in AAA time his last year. He has earned 92 racing points.

Hollister 4-H Club Has Meet

HOLLISTER—Fitting and showing of calves were explained to members of the Happy Hollister 4-H Club recently at the home of Dave Chadwick, leader.

Mr. Chadwick explained these items and also on tying a calf.

Members were urged to attend the Idaho Junior Hereford Association meeting June 8 at Clark Hereford Ranch, Buhl.

and won checks 74 times in 94 starts.

As a sire, the stallion has nearly 30 ROM offspring, including stake winners and his daughters have produced stake horses, Thane notes.

One of his daughters, "Twiggy Doolin," ran third in the 1969 Kansas Bred Futurity in AAA time.

The stallion's dam is Miss Reed McCue, also a well-known racing mare.

Anyone interested in more information about the stallion, his service or to see him, should contact Mr. Lancaster.

4-H Junior Leaders To Help Members

MURTAUGH—The junior leaders of the Poothill Lads and Lassies 4-H Club will visit and assist new members in starting their projects this year.

This decision was made at the recent meeting of the club at the home of Scott Breeding.

Debbie Buchanan gave a demonstration of fitting and showing a steer. A cow-wash was discussed and final plans were made. The members voted to have three demonstrations at each meeting.

The club tour was discussed and it will be held the second week in June.

The next meeting is scheduled for 8 p.m. today at the home of Debbie Howard.

California Ranch Sold; Buffalo Cause Trouble

LAKE RIVERSIDE, Calif. (UPI)—Nestled in this high desert valley 180 miles south-east of Los Angeles is a huge ranch that resembles the plains states of frontier days, complete with a herd of buffalo.

The herd, a dozen of the mean, ornery critters, must remember the days when millions of them ruled the plains. And anyone who thinks they're as easy to handle as cattle is in for trouble.

It was a case of the past versus the future when R. J. Beaumont & Associates bought up the 3,200-acre ranch and private lake for development as an equestrian and aquatic recreational community.

"Both light tractors and pickup trucks have come out second best when the herd decided that these vehicles were encroaching on their domain," said Robert Beaumont, head of the firm.

The buffalo, which Beaumont describes as "just too big to ignore (at 1,500 pounds) and just a little too rambunctious to train as household pets," originally were brought to the ranch in the early 1900s and the herd limited to 12-15 head.

When he bought the ranch, Beaumont decided the best way

to handle the buffalo was to set aside a special "buffalo park." It was tentatively set at 500 acres, pending a study by a conservation expert to determine how much land is needed to support the herd.

"It was never made clear whether this special pasture would be created to protect the herd from the construction equipment or to protect the construction equipment from the herd," Beaumont said.

But once the decision was made, he discovered the solution to one problem created another: how to convince the buffalo to move into their new preserve.

First, Beaumont had to round up a team of wranglers who knew how to round up buffalo, a problem he said was compounded by the fact the last experts—the Sioux Indians—were forced out of the buffalo business in the 1860s.

Then there was the problem of horses for the wranglers. "While there is an overabundance of cow ponies throughout Southern California," Beaumont said, "there is an understandable lack of buffalo ponies."

After nearly three months, seven wranglers and horses were assembled and the great roundup was held in April. Faced with those kind of odds, the buffalo gave up their traditional stomping grounds and stalked off to their new pastures.

A demonstration was given by Ricky Allen on calf roping. Members practiced barrel racing.

The Murtaugh Bridge WILL BE CLOSED

Monday, June 1st thru Friday, June 5th

FOR REPAIRS

Luis Alastrá, Chairman
Milledale Road District

Along Fences And Canals

A first-calf Holstein heifer had triplet heifers recently on the William Kerner farm near Shoshone.

Seed potatoes were sorted at the A. W. Motyueux ranch at Gannett recently.

Denver Allred, King Hill, is now helping his brother, Herbert Allred, Gooding, on the Allred ranch.

Mr. and Mrs. James Newberry and two sons have returned to Richfield from Seattle. Mr. Newberry will work on the N. E. Silvey ranch. The Silveys are the parents of Mrs. Newberry.

About 90 acres on the Victor Gallo, Tuttle, farm are being leveled to make bigger fields and to aid irrigation.

Ray Auchenbaugh, Jerome, sheared sheep recently on the Forrest Armstrong ranch, near Richfield. He then went to the Ginther place to shear for N. E. Silvey, Ronald Golcochea, Hoyt Pugh and Norman Rogers. Cold weather stopped the work for several days.

Heather Tews, North Shoshone, recently purchased a 6-year-old Arabian gelding with white stockings and a blazed face. Miss Tews plans to rename him.

PLACING a "sticky board" in a Burley sugar beet field is J. Wayne Cole, Cassia County agent. The boards are used to gather samples of sugar beet root maggot, which are on the increase in Magic Valley.

Survey Under Way On Sugarbeet Root Maggots

BURLEY — J. Wayne Cole, Cassia County agent, is making tests to determine if the sugarbeet root maggot is increasing in this area.

Sugarbeet fields being tested are owned by Tom Geary, Gordon Luke and Leo Thurston, all Burley, and Frank Gillett, Declo.

Each field is tested by placing stakes covered with a "Stuckem Special," five stakes per field. The stakes are removed and replaced with new stakes once a week.

The stakes are turned over to Douglas W. S. Sutherland, extension entomologist at Twin Falls for the final count and report.

Records show that the sugarbeet root maggot has been on the increase since 1962 in this area. To date the maggot has been found in Bannock, Bingham, Bonneville, Caribou, Cassia, Franklin, Gooding, Jerome, Lincoln, Madison, Minidoka, Oneida, Power, and Twin Falls Counties.

Artificial Light Helps Leafcutters

Artificial light helps to get rid of insects that kill valuable alfalfa leafcutter bees.

Ways of doing the job are told in a leaflet just published by the University of Idaho College of Agriculture. Copies are available any county agent's office.

Light plus water traps destroys a large number of the predators while the beneficial leafcutters are in the incubation room, stated Norman D. Waters, entomologist at the Parma branch experiment station, author of the bulletin "Current Information Series No. 120". Many producers of alfalfa seed use incubating rooms for raising leafcutter bees. The bees play an important role in pollinating the crop.

The bees emerge from their winter nests after about 20 days of 85 degree temperature. Knowing this, the seed producer can set the date he wants to have his bees ready to work by holding them in cold storage until about three weeks before he needs them in the field. He puts the bee boards in a rearing room and maintains 85 degree heat for incubation.

However, parasites live in the nesting material. If they are not controlled, they raise havoc with the bees. Traps using black light and incandescent bulbs were tested. The idea was to lure the predators into water traps. The proposition works, Mr. Waters said.

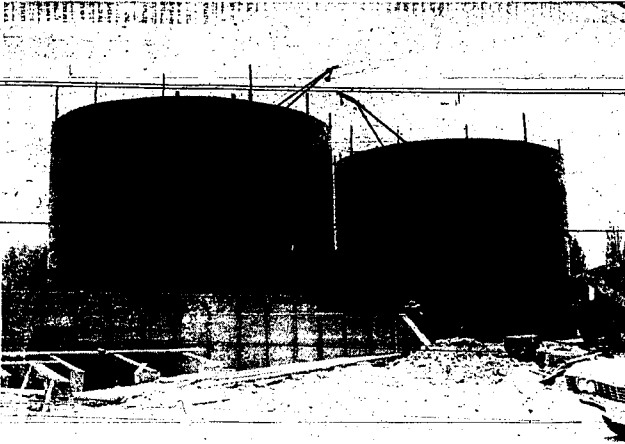

Black light is best for catching some predators. White light is best for others. However with the exception of chequer-board beetles and blister beetles, filtered black light appeared to range from 10 to 30 per cent more attractive to the rest of the trapped species than no-filtered black light.

Water traps were made of inverted lids of styrofoam ice chest. Water was about an inch deep. A little detergent in the water caused insects to sink more rapidly. Lights were centered over each pan about an inch above the water surface.

Nevada Plans Crop Survey

RENO — Nevada farmers and ranchers will be asked to participate in a special crop and livestock survey to be conducted by the Nevada Crop and Livestock Reporting Service and the U. S. Department of Agriculture. The survey will take place in early June.

The activity is part of a nationwide effort to provide information needed to estimate acreage, crops, livestock numbers and far labor. The survey is conducted by USDA's Statistical Reporting Service at mid-year, and on a smaller scale in December. In Nevada, about 400 farms will be contacted.

THIS SILO COMPLEX at Rangen, Inc., Buhi, is scheduled to be completed by July 1. Malting barley for the Adolph Coors Co. will be stored in

these silos. About 100 area growers are raising the barley for the beer firm and about 350,000 bushels are expected to be stored.

Bridge Closed

MURTAUGH — The Murtaugh Bridge will be closed to the public from 8 a. m. to 5 p. m. Monday through June 5 for repairs.

This repair job is a joint venture by the Hillsdale and Murtaugh Highway Districts, according to Luis Alastrá, Hazelton, chairman of the Hillsdale district.

U. S. Dairy Herds To Be Fewer

WASHINGTON — Dairy herds will become fewer and larger in the 1970s, predicts A. G. Mathis, head of the dairy section of the economic and statistical analysis division of USDA's economic research service.

Mathis said that by 1980, there may be as few as 200,000 dairy farms selling milk, as compared to about 400,000 now.

He also said, "Now, farms selling milk or cream average about 30 cows per farm. By 1980, the average will be about 50. If recent trends continue, and there will be an increase proportion of herds with 100 or more cows. These developments already are apparent in data reported by the census."

"Dairy farming will remain essentially a family operation. Most herds will be in the 50 to 75-cow class. These will be largely family operations, with some hired help."

The United States is the world's largest exporter of farm products. Our nation accounts for about 20 per cent of world agricultural trade.

Construction Of Silo Complex On Schedule

BUHL — Construction of a 350,000-bushel silo complex at Rangen, Inc., Buhi, is on schedule, reports Thorleif Rangen, vice president of the firm.

Completion of the construction work is July 1. These silos are being built to meet the increasing need for storage of Moradian malting barley that is being grown in the Buhi-Castleford area for the Adolph Coors Co.

The storage facilities are expected to handle the anticipated 150-carload crop of about 100 local growers. Mr.

Rangen said the first load of the malting barley crop is expected to arrive at the storage complex July 10.

Contractors for the complex are Gordon VanOstran and London's Structural Steel, Buhi, and C. K. Brown and Associates, Twin Falls, equipment.

Prices To Dairymen New High

BOISE — Producers received in 1969 a record high, \$4.4 million for milkfat received at Idaho's licensed dairy manufacturing plants at higher prices more than offset the decrease in quantity received.

The Idaho Crop and Livestock Reporting Service notes, the previous high was established in 1961.

The average price from all sales was \$1.22 per pound of milkfat — six cents above a year earlier and 10 cents above 1967. Cream sales continued their downward trend, accounting for only one per cent of total milkfat receipts.

Output during 1969 of American cheese, totaling 36.3 million pounds was a record high. This was an increase of 1.5 million pounds from 1968. Total cheese output at 53.7 million pounds was nearly one million pounds over 1968.

Butter output at 23.5 million pounds was 2.8 million pounds below 1968, and the lowest level since 1957. Creamed cottage cheese continued its upward trend and surpassed the 3.4 million pound level.

Total volume of frozen products manufactured in 1969 was up about one per cent from a year earlier. Ice cream and sherbet production showed increases from the preceding year, while ice milk output decreased four per cent.

One out of every four U.S. harvested acres produces food or fiber for export.

Feedlot Wastes Handling

JEROME — The storing and handling of animal feedlot wastes are gaining a lot of attention in the Magic Valley area, reports Wilmer Priest, Jerome County extension agriculture agent.

Priest said his office has received many requests on the handling of the feedlot wastes. Several people are considering confinement pits and lagoons to dispose of these wastes.

He said in planning a pit or a lagoon you should plan on the maximum number of animals to be served and the maximum time needed between clean out periods. In the Jerome area there were 42 days during the winter of 1969-70 when heavy equipment could not get on open fields and 31 days during the summer, irrigation schedule prevents hauling onto some fields for 60 to 90 days, Priest noted.

"Figure your needed space by the following formula: days of storage times the maximum number of animals times gallons needed per day per animal."

The following table gives the gallons of capacity needed per day per animal. One cubic foot of storage contains 7 1/2 gallons of liquid waste," Priest said.

Gallons per day, dairy cattle, scrap yard, minimum 14 and maximum 18, water washed yard, minimum 28, maximum 36. Beef cattle, scrap yard, minimum 4, maximum 10, water washed yard, 15 minimum, 20 maximum; hogs, scrap yard 1.5, minimum, 2.0 maximum; water washed yard, 3 minimum, 4 maximum, and laying hens, scrap yard, 0.03 minimum, 0.04 maximum, water washed yard, not recommended.

Covered pits should contain a mechanical means of agitation. The bacterial action in these pits use up the oxygen will cause suffocation to anyone who enters them.

Lagoons are of two general types, aerobic and anaerobic. Lagoons need oxygen and light to break solids into water, carbon dioxide and nitrates. A surface area of 350 to 400 square feet per mature dairy animal and a maximum depth of five feet, makes this system impractical in most cases.

An anaerobic lagoon decomposes organic solids into hydrogen sulphide, ammonia, methane, mercaptan gases and carbon dioxide. Odors and health hazards are high. It needs two cubic feet of volume per pound for swine and one cubic foot of volume per pound for cattle. These lagoons can have a depth up to 15 feet.

The Cooperative Extension Service has blue print plans for two type of rectangular covered pits and one covered circular pit. These plans cost \$1.50 each and can be ordered through the County Agent's office, according to Priest.

SOME OF THE Charolais producers from five states at the recent field day at the Parker-Nelson Charolais Ranch and Beef Cattle Evaluation Center near Gooding, are shown here. Bull

Charolais Ranch Near Gooding Has Field Day

GOODING — Charolais producers from five states attended the recent field day at the Parker-Nelson Charolais Ranch and Beef Cattle Evaluation Center, southwest of here.

On display were Ross Parker and Dick Nelson's own herd of Charolais cattle and the bulls that were on a 140-day performance test at the ranch.

Several head from Mr. Parker's and Mr. Nelson's herd as well as several tested bulls were sold during the day. Some of the top buyers were Ray Wilkins, Cambridge; Ralph Sanderegger, Texburg, and Al Wilding, Blackfoot.

Another feature of the field day events, besides the sale of the cattle, were brief discussions immediately after the catered lunch by Leo Soran, Twin Falls, by Ed Koester,

Gooding County agent, and Herschel Boydston, head,

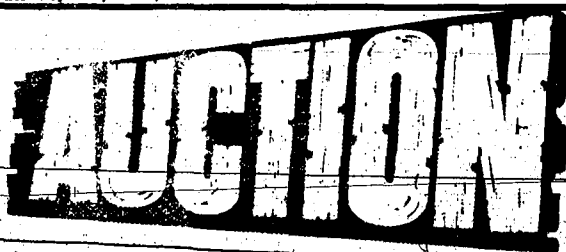

performance testing and yield grades of fed steers were explained to those attending the field day activities. Several head of bulls and heifers also were sold during the day.

agricultural department, College of Southern Idaho.

Mr. Koester spoke briefly on the bull performance testing being carried out on the Parker-Nelson Charolais Ranch and

Mr. Boydston discussed yield and carcass reports on fed steers by Mr. Parker and Mr. Nelson.

St. Williams, Caldwell, was Charolais marketing consultant.

Mrs. Hine Honored By Farm Bureau

SHOSHONE — Mrs. Alice Hine, Twin Falls, was honored during the dinner meeting of the District Three Farm Bureau Men's and Women's presidents held at Woods Cafe, Jerome.

A plaque expressing appreciation for her work and interest was presented to Mrs. Hine by Mrs. Ervin Braun, Shoshone, District chairman. Mrs. Braun represented the state women's committee.

A formal arrangement from District Three women also was presented to Mrs. Hine.

Mrs. Hine had served for a number of years as District Three women's chairman and chose not to run for re-election last fall. Mrs. Braun was elected to fill the vacancy at that time.

The men and women presidents held separate business meetings. Mrs. Larry Peterson acted as secretary for the women.

Members decided to hold their annual district talent contest at Shoshone at 8 p. m. July 31 at the First Baptist Church. Each county will have a contest for junior and senior age groups. Juniors are ages 12-16 and one number will be selected to attend the State Contest as the district contestant. Senior ages are 17-30 and there will be two winners who may attend the state from this group.

Trophies and certificates will be given to all who participate in the district. Winners will be expected to attend and participate in the State Contest at Pocatello in November. District women will provide substantial funds for the winners to attend the state convention.

The contestants must be Farm Bureau members. Talent numbers are limited to eight minimum. There will be judging from Twin Falls, Blaine and Jerome counties for the event. Judging will be on accomplishment, poise and presentation and audience appeal.

Anyone in this age group interested in participating should contact the women's

chairmen in their county. These are Mrs. Frayn Shouse, Mindoka; Mrs. Robert Rasmussen, Cassia; Mrs. Larry Peterson, Blaine; Mrs. Grant Stephens, Richfield; Mrs. Don Childers, Gooding; Mrs. Fred Thieme, Twin Falls; Mrs. Jack Bell, Jerome.

County winners will participate in the district, the district winners will participate in the State and the state winner will participate in National.

There will be no meetings in June or July.

Mrs. Peterson showed color movies of snowmobiling at Yellowstone Park and the Queen's contest which she entered this year. Robert Sexton, Jerome, is the new fieldman for the district and is state and district 3 marketing association director. He was in charge of the Men's meeting which featured Lewis Lepper, Boise, state legislative and research director, as speaker.

Retailers Get Most Of Dollar

WASHINGTON (UPI) — The middleman's share of your beef dollar is up this year, an agriculture department report indicates.

The report, based on February prices, shows that wholesale and retail prices advanced over the levels of February, 1969 — but the greatest gain came in the margin added by retailers.

Wholesale beef prices at Chicago, Los Angeles, San Francisco, and Seattle-Tacoma, Portland, went from \$3.00 cents a pound (carcase weight) in February, 1969, to 47.70 cents in February, 1970 — up 1.75 cents. But the retail value on 4 carcass weight basis went from 63.60 cents a pound in February, 1969, to 69.00 cents in February, 1970 — up 5.40 cents.

The same report showed live choice grade steer prices rose from 28.00 cents a pound in February, 1969, to 29.40 cents a pound in February of this year. Cattlemen have complained that although recent cattle prices are below the peak reached last summer, some retail prices have not retreated in proportion.

Castleford 4-H Club Elected

CASTLEFORD — The Stitch and Stir 4-H club held its first meeting of the year at the Tom Barron home west of Castleford.

Missy Wiggins, Tracy and Troy Read, Kent Calhoun, and Wade Shorzeman were welcomed as new members.

Laurence Sill was elected president of the group. Jennifer Barron is vice president. Caroline Barron is club secretary. Missy Wiggins is reporter and David Barron is song leader.

The leaders for the Stitch and Stir club are Mrs. Lawrence Sill, Mrs. Tom Barron and Mrs. Earl Hudson. Joy Owen, Linda Severs and Laurene Sill are the junior leaders.

The next meeting will be a summer party Tuesday at the Lawrence Sill ranch.

The group discussed a family picnic to be held at Banbury Hot Springs in the near future and a parent and member dinner.

Two Join Castleford 4-H Club

CASTLEFORD — The Eager Beavers 4-H club met recently at the home of its leader, Mrs. Ted Quigley.

Debby Fritz and Linda Reeter were welcomed as new members. The project and record books were distributed. The meeting ends were set for Tuesday afternoons.

The cooking, sewing and quilting assignments were given out by the junior leaders, Linda Hips, Mavis Peterson, and Patil Quigley.

A "sandwich making" about "sandwich making" was given by Sandy Cox. Janet Peterson demonstrated a relish plate arrangement. A "teepee fire" was the subject of the demonstration given by Ann Potucek.

Eradication Of Cotton Boll Weevil Planned

WASHINGTON (UPI) — Farmers in years gone by cursed him in helpless rage. Story tellers and folk singers made him a part of the American legend. Now farm officials are talking of a test to see if the cotton boll weevil can be eradicated completely.

If the experiment succeeds, a top agriculture department official said, it will be making a major contribution toward lessening the need to add chemicals to the environment.

Farmers currently spend about \$5 million a year on insecticides to control the boll weevil. This accounts for about one-third of the total volume of insecticides used in the United States every year. Dr. George W. Irving told a house appropriations subcommittee in testimony made public this week.

Eradication of the boll weevil would reduce the need for chemical pesticides, said Irving, administrator of the agriculture department's research service.

Officials said today they expect soon to decide whether the boll weevil eradication experiment, planned as a two-year test, can be launched this year. A spokesman said the decision depends largely on whether cotton industry sources can come up with about \$1.25 million to match planned federal contributions for the first year of the project.

The experiment, officials said, would use a combination of all known control measures including nonpersistent insecticides and sex attractants to lure weevils into traps and the release of sterilized male weevils.

The site chosen for the experiment is an area centered in Jefferson Davis and Covington Counties in South Mississippi, also taking in small adjoining areas of Alabama and Louisiana.

Within the test area, officials explained, the program would begin with spraying this fall in an effort to cut the "overwintering" weevil population by

about 90 per cent. In the spring of 1972 technicians would spray in traps baited with a sex attractant, to sop up most of the surviving weevils.

Later, when 1971 cotton begins to fruit, sterile male weevils would be released. They would, hopefully, complete the job of eradicating the pest by making unproductive matings with normal female weevils.

If the two-year test wipes out the weevil from the pilot plant area, Irving testified, the agriculture Department would be ready to recommend a national eradication campaign. "Specifically, we expect the test to show whether we do, indeed, have the necessary means for eradication; whether operating personnel can apply these techniques effectively; and how much ridding the United States of the boll weevil would cost," Irving said.

Legislator Urges Controls On Soap

OTTAWA (UPI) — New Democratic party member Grace MacInnis suggested in the House of Commons that the government buy up existing stocks of high phosphate content detergents and destroy them, as it did with DDT pesticide.

J.J. Greene, Ministry of Energy, Mines and Resources, replied that a gradual ban on phosphates in detergents was scheduled to start in Canada Aug. 1. Unlike DDT, he said, phosphates are not a poison and "the delay of a few more months after the ban, many years of phosphate use will not make a great deal of difference to the total problem."

Oregon has enough timber to build 1 million homes each year indefinitely.

Cholera Nearing Extinction

WASHINGTON (UPI) — Cholera was one of the nation's most serious problems for hog farmers only a few years ago, but it is nearing extinction in the United States today.

All but a small percentage of hogs are free of cholera. There is a small hardcore of disease carriers, however, that are preventing its complete demise.

Since 1964, the U. S. Department of Agriculture has worked with state and local authorities to eliminate hog cholera. Last year Agriculture Secretary Clifford M. Hardin declared all out war to end it entirely by 1972.

But hog cholera actually increased in 22 states last year. One reason is that vaccination, which had been prevalent earlier, has stopped in most states.

"Vaccination was needed as the preliminary step to control the disease, but complete eradication requires an end to vaccination," says Dr. Milton J. Tillery of the department's animal health division.

Without vaccination, hogs exposed to the disease are susceptible. But the cholera virus would eventually build up a resistance to the vaccine and new methods would have to be found.

Often farmers, who suspect cholera or who have hogs that seem to be weak, fail to notify state authorities or a veterinarian.

"The incidence of the disease has fallen off so much and it has taken such new turns since introduction of the vaccine that farmers now don't look for hog cholera or don't think it exists," says Tillery. "Farmers aren't looking for it anymore."

Under existing programs in most states, hogs that are apparently healthy can be marketed when cholera breaks out in a herd. But one to two percent of these "salvage" hogs are infected, according to federal and state authorities.

If salvage is ended, then every hog in a herd will be destroyed when cholera is discovered. Federal officials say a drive to stop salvage will be undertaken soon.

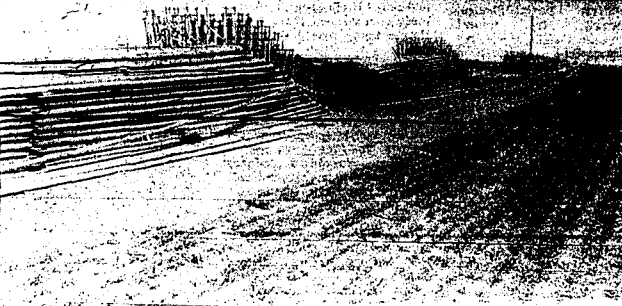

Department scientists believe cholera virus is passed on to healthy hogs through improperly cooked or raw garbage or through pork scraps from infected animals.

Wisconsin has had a law forbidding the feeding of garbage to hogs since 1961. Similar laws take effect this year in Alabama, Illinois, Louisiana and South Dakota, and Virginia is considering such a measure.

A third major step in the prevention of cholera is state inspection of feeder pigs on the farm before they can be shipped to market.

Cholera has plagued farmers since the 1840s when it was first identified in Indiana and Southern Ohio.

FAMILIAR SIGHT in the Golden Valley area between Oakley and Murtaugh are stacks of irrigation pipe and sprinklers. These stacks of pipe and sprinklers can be found on most all

farms in this area as all of the land is under sprinkler irrigation. Soon farmers and ranchers will be putting these systems to use in irrigating crops.

Fuel-Breaks Help Solve Fire Problems

Valuable watershed land throughout the Intermountain area is covered with "cheatgrass" (*Bromus tectorum*). Drinking the early spring water, the grass grows rapidly, coloring the foothills a luxuriant shade of green.

But this annual plant cover dries out early in the summer, ignites easily and spreads fire rapidly. It provides fuel for many forest and range fires that threaten the environment each summer.

In addition to creating a potential for wild land fires, this flammable plant cover threatens dwellings built on and near the grass and brush-covered slopes. As communities spread into wild lands, the potential fire danger becomes overwhelming.

Fuel-breaks are needed to divide large continuous expanses of "flash" fuel, reduce the ignition potential and slow down the rate of fire spread. Research to establish such fuel-breaks is being conducted by Forest Service personnel in the Division of Fire Control and State and Private Forestry, Ogden, Utah; the Intermountain Forest and Range Experiment Station, Ogden; and the Pacific-Southwest Forest Experiment Station at Riverside, Calif.

Using a unique approach, the

researchers are modifying vegetation with herbicides on long, usually narrow, strips of land. Their objectives are to remove extremely flammable plants such as cheatgrass and leave the perennials.

In searching for a suitable herbicide, researchers look for those low in toxicity that selectively remove cheatgrass and leave other plants in the fuel-break healthy and undamaged. Atrazine and simazine have proved most satisfactory.

Both atrazine and simazine are less toxic than aspirin. These herbicides have been tested by the Forest and Range Administration, Public Health Service, and the U. S. Fish and Wildlife Service and are registered with the Department of Agriculture. When used at recommended rates, there is no danger to humans, livestock, or wildlife.

Fuel-breaks created by eliminating cheatgrass have several advantages over the conventional mechanically constructed firebreaks where all vegetation is removed. In the fuel-breaks, vegetation is left for watershed protection, soil is not disturbed in any way that would cause erosion, the fuel-breaks remain green and preserve the esthetic values.

In addition to features that

combine to preserve the natural environment, the chemically created fuel-breaks can be established for about one-third the cost of conventional methods, helping reduce fire suppression costs. Rates of application range from 1 1/2 to 3 pounds per acre. These rates are effective for two years, after which retreatment is needed.

One final phase of the research program remains — that of actually testing fuel-breaks with fire. Tests will be conducted this summer near Farmington, Utah.

'70 Wool Prices To Be Down

WASHINGTON (UPI) — Farmers' prices for shorn wool this year probably will average "moderately below" last year's 41.8 cents a pound, the agriculture department predicted today.

Department economists indicated this would probably lead to an increase in the level of wool price support payments. The payments cover the gap between actual market prices and a support target fixed by the government.

Not only is the average market price declining this year, but the 1970 support target has been raised to 72 cents a pound, up 3 cents from 1969, a department report said.

The report added that domestic wool production, which totaled 166 million pounds in 1969, probably will decline again this year. The drop in wool, eligible for support payments will partly offset the projected increase in support levels.

SPRAYING FRUIT TREES: Many home owners ask if it is really necessary to spray their fruit trees every 10 days all summer long in order to have clean fruit.

It is true that commercial growers spray fruit anywhere from 7 to 14 times a year to get clean fruit, but this would be ridiculous for the home gardener to do. Such a rigid schedule would not only be discouraging but take the fun out of home fruit growing.

The most important sprays are applied during the problem (when buds begin to show color but before petals unfold) period and the petal fall (when last petals have fallen from the blossoms. Of course it's not that simple and I know many commercial growers would take me to task for simplifying the spray program. With the introduction of the "all purpose" sprays applied four or five times during the growing season you can check most major pests and get fruit that can be eaten in the dark with an easy mind.

You can buy an all purpose formula, or make your own. Here's a good one: Malathion (25 percent wettable powder), two tablespoons, Sevin, three tablespoons, Captain (50 percent powder), also three tablespoons and sulfur, two tablespoons, all added to one gallon of water.

Home grown fruit may not be perfect, but what's the difference? Isn't it better to have plenty around even if some is gnarled or has a few bad spots on it? We don't mind eating out a worm hole or a bad spot now and then.

BROWN EVERGREENS: Evergreens which have come through the winter with brown foliage can be sheared now. Browning was bad in the side facing wind, or from salt drifts.

Those of you who strung tree lights on evergreens last Christmas might be surprised to find a lot of brown spots scattered up and down the tree now. These, burned spots are where the lights touched, scorching the foliage. Nothing serious. Take a pair of clippers and nip out the browned areas. Ice and snow damage shows up now and you can clip out any brown foliage so new growth can come in. Dog burn shows up around the base of evergreens and a pair of clippers will help improve the sight of the plant. Yews can be trimmed now, as can most other evergreens.

In trimming, be barber, not a butcher. If you cut too deep into an evergreen you'll have a hole left that will take years to fill in. **QUESTION OF THE WEEK:** S. E. of Twin Falls "We have a steep slope that is too much to mow. Please tell us how to handle this problem."

Grass substitutes on a steep slope include ivy (English or Balis type), Myrtle (Vince minor), pachysandra

(Japanese spurge) and Creeping or climbing Eumomus. Most of these items will tolerate shade or sun. Hall's Honeysuckle and the Memorial Rose are two other good candidates for the steep bank. Plant the latter in staggered rows about six feet apart.

Dwarf flowering shrubs suitable for steep banks include coralberry, Japanese barberry and weeping Forsythia. Other suitable ground covers to substitute for grass are St. John's wort (Hypericum), Canby Pachistima, Bearberry, Cotoneaster, Purple-leaf wintercreeper and Andorra Juniper. Andorra is a ground-hugging, small evergreen that does well in full sun but poorly in shade.

Sometimes when a bank is too steep to mow you can build a wall of rocks or railroad ties. Or you can make a rock graden or try terracing to reduce slope erosion. Crown vetch is becoming quite popular as a cover for steep banks. It tolerates many soil conditions and forms matting roots that bind the soil on steep banks. It does not present the neat, well kept appearance desired for small slopes around the home.

Finally, Ajuga (Uh-Ju-guh) is a fast growing perennial which tolerates sun or shade. In spring runners take root in all directions forming new plants. Foliage is about four inches high, with bluish flower spikes in May.

The earliest written record of cheese dates back to 4,000 B.C. The first cheese factory in this country was built over a century ago.

Gardeners: Watch For Mexican Bean Beetles

BOISE — Idaho farmers and home gardeners are again requested to be watching for the Mexican bean beetle, an insect closely resembling the well known ladybug. The Mexican bean beetle is regarded as a serious threat to the Idaho bean industry.

There are some 402 varieties of the ladybug, only two of which are detrimental. While most of the other species are considered to be beneficial since they feed on small, damaging insects such as aphids, the Mexican bean beetle is the subject of widespread concern in bean producing areas.

A few untreated rows of beans can be the breeding ground for hundreds of beetles, which can spread to commercial fields and destroy large acreages. The beetle has been found in the Boise, Twin Falls, Jerome and Rupert areas in previous years.

The Mexican bean beetle is slightly larger than its cousin, the ladybug. In the larvae stage, it is lemon colored and has a fuzzy appearance. Color in the adult beetle ranges from yellow to golden and finally copper during the latter portion of the adult stage. It is most readily identified by its characteristic eight spots on each wing. The spots are arranged in two rows of three spots and one row of two spots, making a total of 16 spots in all.

The beetle lives on the underside of the bean plant leaf and eats from that side. They consume the chlorophyll from the leaves of the bean plant, resulting in a mottled appearance in the leaf. These "thin spots" soon dry up and become holes in the plant.

Farmers and home gardeners are asked by Agriculture Commissioner Stanley W. Trenhale to be on the lookout for the bean beetle. "It is important that anyone finding this

beetle report it to the state agriculture department or county agent immediately," Trenhale stated.

Trenhale pointed out it is important that accurate identification be made before reporting. "The best way is to count the spots on the wings of any golden or copper colored ladybugs. If there are eight spots on each of the two wings, then it is definitely the Mexican bean beetle."

Horses Discussed

Horses were discussed by members of the Dozen Dudes 4-H Club recently at the home of Terry and Rona Anderson.

Members also planned a workshop at J. T. Story's training stables.

Tea Set By Local 4-H Club

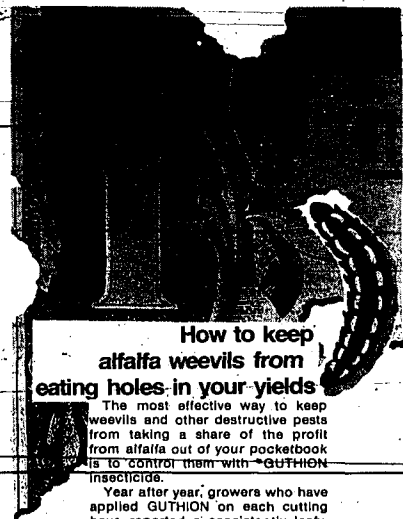

Final plans for a Mother's Tea were made by members of the Happy-Go-Lucky 4-H Club recently at the home of Tracie Perkins.

The event will be June 5 at the home of Christine Britt.

Committees named were Janet High and Teresa Meyerhoeffer, invitations; Mickey Baker, Jane Klinka and Tracie Perkins, serving; Eldonna Verwey and Tracy Engelhart, program. Serving at the tea table will be Christine Britt, president, and Debbie McDowell, vice president.

Tracie Perkins gave a demonstration on chocolate malted milk.

How to keep alfalfa weevils from eating holes in your yields

The most effective way to keep weevils and other destructive pests from taking a share of the profit from alfalfa out of your pocketbook is to control them with GUTHION insecticide.

Year after year, growers who have applied GUTHION on each cutting have reported a consistently leafy, healthy, green stand.

And by following application directions on the label, they have not encountered any residue problem!

So, for top performance against alfalfa weevils...as well as aphids, leafhoppers, plant bugs, lygus bugs, spittlebugs, fleahoppers, flies and grasshoppers...insist on GUTHION insecticide. Order a supply from your dealer today! Use GUTHION and you'll pocket a full return from each mowing.
