

Death Toll Soaring In Peru Earthquake

By MAX JENNINGS
LIMA (UPI)—Landslides and floods blocked rescue efforts to reach devastated cities today in Northern Peru, where the government estimated the death toll in Sunday's earthquake at 1,000. More after shocks jolted Lima.

Many of Sunday's 10,000 inhabitants stood as if frozen in the streets, looking at the demolished homes and buildings. A priest operating a radio in Chimbote said Sister Gabriella of Pittsburgh and Sister Edith Mary, no known address, were killed in the quake. Both were from the San Jose Order.

The director of the Peace Corps in Peru, Ed Baca of Lima, identified the two missing volunteers as Mario Clutter, 27, of Caribollisport, Pa., and Gail Gross, 23, of Freemansburg, Pa.

Armstrong was said to have replied: "It is one of the best gifts you can give me." Soyuz 9 was launched at 10:09 p.m. Monday in an unusual flight shot from the Central Asia Soviet Space Center at Balkonur.

2 Soviet Cosmonauts Having Smooth Flight

MOSCOW (UPI)—Two Soviet cosmonauts orbiting the earth in Soyuz 9 reported today everything was going smoothly in the flight, unofficially dedicated to visiting American astronaut Neil A. Armstrong.

Representatives of seven "core" industries met Monday afternoon with Twin Falls City Council members and consulting engineer Earl Reynolds to discuss the next step in a secondary sewage treatment plant in Twin Falls to serve the municipality and industrial establishments.

Earlier revenue bond issue approved for the purpose of meeting secondary treatment needs when required. Other cities, he said, might have applied earlier but if they do not have local matching funds available pending bond issue elections, Twin Falls' chance for qualifying for funds could be better than other cities.

The government said it was impossible to give a firm count of casualties because many of the hardest hit areas were inaccessible due to destroyed highways and air strips.

Secondary Sewage Topic Of Sessions

Armstrong's first inkling there would be a space shot came when Berogovoi turned on the television set shortly before the launch was shown and told him, "This is especially in honor of your trip here."

He urged the city and industries to go ahead with secondary plans on the time schedule outlined by the Idaho Department of Health and in this way to be ready when federal and state funds are available. In this way, he said, the city will be meeting its obligation.

Washington (UPI)—Secretary of State William P. Rogers' meeting today with Soviet Ambassador Anatoly P. Dobrynin may help determine whether the Nixon administration heads steadily increasing congressional pressure to supply additional jet warplanes to Israel.

Two women reported Corps volunteers were Ponce killed in the Andean city of Huaraz and two Catholic nuns from the United States were said to have died in the fishing village of Chimbote.

Syrians Suffer New Loss

By United Press International
Israel said today its front-line troops caught Syrian and Arab guerrilla patrols in the occupied Golan Heights during the night and killed six of the intruders without a loss of their own.

It will be the first Rogers-Dobrynin meeting since the Soviet envoy returned from more than a month of consultations in Moscow. It comes with Congress applying increasing pressure on President Nixon to sell Israel the jet warplanes.

Sen. Len Jordan set the tone of the meeting in introducing Mr. Washburn. Nothing that the United States is on the short end of the balance of trade, as far as tourism is concerned, he said the government now is out to change this trend, bring more tourist dollars from foreign countries into the United States.

Huaraz, a city of 80,000, nestled in a semicircle of towering mountains 100 miles northeast of Lima, could not be reached Monday but ham radio reports said 90 per cent of the houses were destroyed.

AEC May Remove Wastes

WASHINGTON — Idaho Sen. Frank Church said today that the Atomic Energy Commission will seek legislative authority from Congress next year for the establishment of a permanent national depository for high-level, long-lived nuclear wastes. A Midwestern American site is under consideration.

The depository would probably be located in the Midwest, Sen. Church said.

The decision to seek such a permanent national burial ground would mean that within a decade the AEC should find it possible to begin removing the atomic waste now stored temporarily above the Idaho aquifer — the vast underground reservoir which feeds the Snake River, the Senator explained.

Sen. Church was given word on the AEC depository plan at a meeting in his Washington office with AEC Commissioner Theos J. Thompson, Assistant General Manager John B. Erlewine and Idaho AEC Director William F. Ginkel.

"This is what I've been asking for," Sen. Church commented. He said he has long been concerned with the problems associated with nuclear waste disposal, especially in Idaho.

Sen. Church said he had also been assured that the National Reactor Testing Station near Arco will continue to play a large role in nuclear safety research. Congress has authorized about \$1.3 million more than the amount requested by the Nixon administration for reactor safety programs. About half of this money is destined for Idaho research, Sen. Church said he was told.

IDAHO SEN. FRANK CHURCH met recently with officials of the Atomic Energy Commission to discuss nuclear waste disposal programs at the National Reactor Testing Station in Eastern Idaho. The officials included, from left, John B. Erlewine, Assistant general manager of the AEC; Theos J. Thompson, AEC commissioner; Sen. Church, and William L. Ginkel, Idaho AEC director.

With Lox, Gox And Vox Pop To Ponder, Talking May Stop

CHICAGO (UPI) — This is the era of the gop, fox, vox pop, bionics, firmware, mascons, nitinks and the golden handshake.

These are just a few of the newer words in the English language, says the 1970 Britannica Book of the Year.

A gop is the zoological result obtained by crossing a goat and a sheep.

Lox, contrary to popular belief, does not necessarily come from your neighborhood delicatessen. It is liquid oxygen. It follows naturally then, that gox is gapedox oxygen.

Vox pop is slang for television's man on the street commentaries on the burning issues of the day. It is derived from vox populi, vox Dei (voice of the people, voice of God) of the eighth century.

The "Golden Handshake" is the formal dismissal, with a gift, of an unwanted executive.

Other recently coined words are: bionics, biology electronics; firmware, data processing software; mascons, massive concentrations of rocks beneath the moon's surface and nitink, a transformational linguist trained at MIT.

Not all these words will survive. They are in use today but may not be tomorrow. For those that don't last there will be others to take their place.

BATTLING CHAMPS
PITTSBURGH (UPI) — Pittsburgh Pirate players won four consecutive National League batting championships from 1963-67 — Robert Clemente in 1963, 1965, 1967 and Matty Alou in 1966.

Romania Faces New Red Tension

By DAVID J. OESTREICHER
United Press International

Look for renewed Soviet pressure on Romania to start cooperating with other Communist nations. Even before disastrous floods swept Romania last month, an authoritative Soviet economist had warned that nations which refuse to cooperate with Kremlin demands for economic cooperation might find themselves cut off from Russian raw materials. Romania now floods these raw materials more than ever, and the issue is fast becoming Eastern Europe's biggest potential crisis since the Soviet-led invasion of Czechoslovakia two years ago.

Foreign Minister Andrei A. Gromyko.

Watch Grenada
Grenada could be the next Caribbean island to explode with black power troubles. The government of the island, next door to Trinidad is clamping down hard on black power advocates, and the police force has been doubled in recent months. Black resentment is increasing, and the political opposition is joining church leaders in appeals for the government to take a more conciliatory line.

President Truman relieved Gen. Douglas MacArthur of his command in the Far East on April 11, 1951.

Bonn-Moscow Pact Near
West Germany and the Soviet Union are within sight of agreement on a nonaggression pact or, more precisely, "a treaty renouncing the use or threat of the use of force."

West German state Secretary Egon Bahr—Chancellor Willy Brandt's righthand man—worked out treaty principles in 14 meetings in Moscow over the past four months with Soviet

Political observers in Brazil expect the military government of President Emilio Garrastazu Médici to open soon the three remaining state legislatures which are closed—but not before the opposition is cleaned out. The technique for purging

Middle East Oil
The Communist nations of Europe are expected to buy more oil and natural gas in the Middle East. The Soviets already have told their Eu-

ropian allies that growing Russian needs will reduce the amount of Russian oil which can be shipped to Eastern Europe where demand is also rising sharply. This will mean more Communist aid and support for the Arab world in the Israeli conflict. The only exception is Romania which receives Iranian oil through an Israeli pipeline and is the only Communist nation to maintain diplomatic relations with Israel.

out. The technique for purging

'Big Bird' Tattles On Hooligans

BOSTON (UPI)—Boys playing along railroad tracks around Boston have to be on their best behavior. "Big Bird" may be watching.

"Big Bird" is an airplane used to fly above the trains and report any vandals along the tracks.

The use of the airplane to report on potential and actual vandals is part of the Penn Central railroad's program to reduce the number of broken windows on their trains traveling through the city's Roxbury, Fenwick, Hyde Park and Forest Hills sections.

The planes are equipped with short wave radio transmitters to keep them in contact with police patrol cars when they spot troublemakers.

"Visibility is so good we can pick out a youngster along the tracks from as high as 1,000 feet," says Lt. Francis J. Kirley, an observer.

The widespread use of safety glass has minimized the number of passenger injuries, but the glass is very expensive—\$100 a pane. The Penn Central has spent over \$50,000 for car window repairs since the New Haven railroad joined it in January 1969.

Postal Speakers Outlined

MC CALL (UPI) — Three out of eight speakers will address the Idaho chapter, National Association of Postmasters of the United States at the group's annual convention Tuesday at Shore Lodge.

Colas Postmaster John G. Root said seminars on postal problems, procedures and policies will be conducted through Thursday.

Speakers include Fred Huleen, regional director, Seattle; David Ordway, Washington, D.C., director of special projects, office of the deputy postmaster general, and Raymond Lacey, director of systems and planning, postal data center, San Mateo, Calif.

Mrs. Marian Gillette, Kimberly postmaster, is president of the Idaho chapter of NAPUS.

BIGGEST DAY
OSAKA, Japan (UPI) — Expo '70 had its biggest day Sunday with 224,294 persons visiting the fairgrounds.

Officials said the largest previous one-day crowd at the World's Fair was May 3, Constitution Day, when there were 193,447 visitors.

Attendance since the fair opened March 15 has been 22.5 million.

Pulling power: Toro has it!

21" Whirlwind POW-R-DRIVE

Exclusive Toro Front Wheel Gear Drive

\$164.95

Up the steepest hills... through the thickest grass, this machine refuses to stop... unless you take its front wheels out of gear. That's because of TORO's exclusive front wheel Pow-R-Drive. It's self-propelling. You don't push... it pulls. (Other mowers have rear wheel drive... makes steering and maneuvering difficult.) TORO has another kind of pulling power, too. The famous "S" blade and wind-tunnel housing pull the grass up for a more even cut, and about the new rear safety shield.

The "Crutch"

Those suburbanites who think that the central city is a drain on the economy of an area are wrong.

Or so says an economist of the University of Michigan, who studied six suburbs and the city of Detroit, concentrating on the financial relationships between them.

An article based on this study by Jesuit Father William B. Neenan will appear in the National Tax Journal in June.

The suburbs benefit directly from Detroit through the use of library, art museum, zoo, parks, streets and traffic control.

Some specific examples of how the economist arrived at his figures (the estimated each suburban resident is subsidized by \$9.18 a year) are these:

Three-fourths of the users of Detroit Main Library were residents of one of the suburbs — yet Detroit taxpayers bear 55 percent of the cost.

The Detroit Metropolitan Water Services retails water to Detroit residents and sells it wholesale to

suburbs, which in turn retail it to residents at a markup. He found that the revenue from water sold wholesale to suburbs does not equal the cost of supplying the water.

Detroit's freeways, which accommodate suburbanites more than city residents, removed taxable property from the duplicate. Likewise, tax-exempt Detroit colleges and universities, used by many suburbanites, are indirect subsidies.

Although suburbanites contribute to Detroit's revenue through sales tax, intangibles tax, gas tax, vehicle registration tax and a 1/2-per cent income tax (as well as some hospital facilities), these revenues do not balance the outgo in services.

Father Neenan concludes: "A metropolitan area, both central city and suburbs, is a natural economic and social unit. We are learning that Henry Ford's prescription, 'we shall solve the city problem by leaving the city,' does not work."

The "most economist's conclusions support those urbanologists who contend that the city-suburb governmental conglomerations that now exist in most metropolitan areas are unfair in many respects. Usually, however, we hear that core cities are drags on suburbia. Somewhat the opposite may be the case.

WASHINGTON — On the inflation-recession front, (a preposterous association of words) the private comment of a member of President Nixon's Council of Economic Advisors, Charles C. Johnson, is of considerable significance.

The source, in the past a successful leader of Nixon's mind, was discussing a call for mild wage and price controls. He said his opposition goes to government guidelines on wages and prices was not a "theoretical" stand, and ad-

mitted that economic conditions were now more conducive to the idea.

Summed up, it would not seem that Richard Nixon may be persuaded by his advisers to try what Burns called a "new way of dealing with our current inflationary illness."

At any rate, Burns' proposal put Nixon on a bit of a spot, with prices still rising and business in a slump.

Morover, Burns has put more pressure on the President by calling on Congress either to clamp a tight ceiling on Federal spending or to raise taxes to cover any substantial expenditure increase.

GEORGE C. THOSTESON, M.D.

Hemorrhoids

Dear Dr. Thosteson: Please send me the booklet, "The Real Cure for Hemorrhoids," for which I enclose 25 cents and a long, self-addressed, stamped envelope.

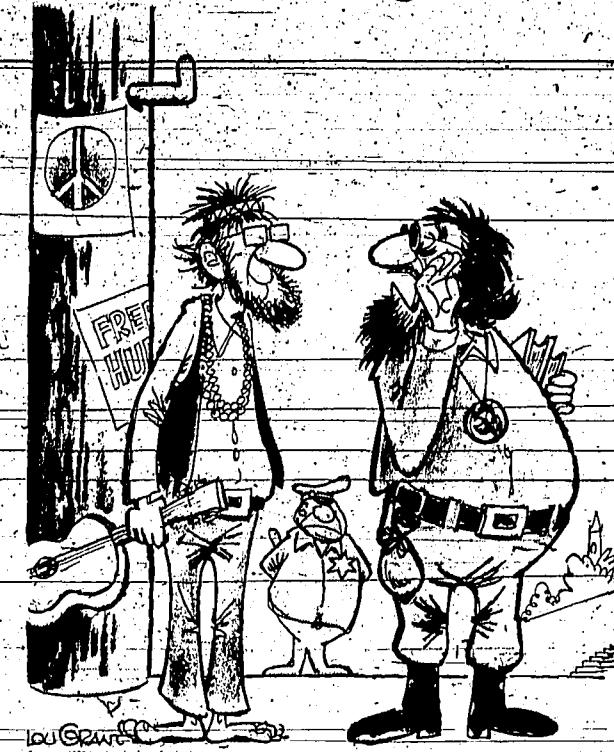

Hemorrhoids, of course, are varicose veins in the anal region, and like varicose veins anywhere else, it is important to prevent pressure from building up in those veins.

Finally the use of Vitamin B complex helps, both in controlling constipation directly and by toning the colon, too.

These methods, combined, can be immensely important in preventing hemorrhoids from becoming worse.

Dear Dr. Thosteson: I have been told by my doctor to abstain from salt entirely because of high blood pressure.

"H-I-G-K-E-L'S BACK ON THE FRIENDLY LIST... PASS IT ALONG"

ROWLAND EVANS AND ROBERT NOVAK

Education Crisis

SAN FRANCISCO — At the moment that student vigilantes are trampling on academic freedom at the famous Berkeley campus of the University of California, the university's regents were engaging in a political charade which vividly demonstrated the crisis of liberal education in America.

The 24-member board of regents was meeting in San Francisco in an atmosphere of crisis. Like other major colleges, the giant University of California had been in turmoil since the Kent State killings.

ART BUCHWALD

Psst!

WASHINGTON — There are several groups lobbying against the building of the SST, otherwise known as the supersonic transport airplane.

"Will you change the name of the organization?" I asked.

"In opposing the SST what tack are you going to take?" I asked.

"Our campaign will be based on the fact that the SST is really a Communist plot."

"We have data, confirmed from CIA sources, that sonic booms, from test flights of Russia's SST have caused total deafness in 70 percent of all listeners of Radio Free Europe and The Voice of America. Of course the American SST sonic boom would be much greater than the Russian one, and we could have a nation of deaf people one year after our first plane was built."

"That would be terrible. We wouldn't be able to hear our leaders!"

Psst!

Baxendale continued: "The entire SST program smacks of pink socialism. According to the latest reports, nine-tenths of the cost of building the first SST will be borne by the government."

"You ask specifically about mineral oil. It can help if used in moderation. Too much, however, can absorb and carry away Vitamin A. So what is 'moderation'?"

"We're aware of this and we're not hardheaded about it. If we have to have a supersonic plane for prestige reasons, then we suggest it be built by the same company that built the TFX. In that way, we'd have a very good chance that the SST would never fly!"

"You're pretty persuasive in your arguments," I admitted.

"You have any other thoughts on the subject?" Baxendale said. "If God had intended us to fly faster than sound, he would have given each of us 67,000 pounds of thrust."

"How about coming out with a sequel to Reuben's book and calling it 'SON OF Everything You Always Wanted to Know About SST'?"

Two Years

American legislators might give some thought to this: In Japan, their counterparts are considering a nationwide law that would provide a maximum prison sentence of two years for an automobile driver involved in an accident after having one or more drinks.

And what's more, the same penalty would apply to the person who provided the motorist with the drinks.

MR. SPECTATOR

Story On Luman Coad

Remember the Coad family of Buhl? Bob Coad was the photographer of years standing who had the studio by the post office. His wife was right in there with him.

Now that you remember, then let's go on from here.

This is a little story about one of the Coad youngsters — Luman Coad, to be exact. He was born at the Magic Valley Memorial Hospital, grew up in Buhl, went to school there, continued in college in California and is now in Canada — and, as you will see from reading on, is now famous in his own right.

He and his Canadian wife, Arlyn, are operators of the Coad Canada Puppets and, because of their widespread fame in the country up north, they were only recently featured in an illustrated article (in color, no less) in Western Homes and Living And Vancouver Life.

Young Coad actually became interested in this Puppet stint back when he was just a kid in Buhl. His first shows, probably, were given in the Buhl Public Library in front of a group of friends and neighbors — because everybody in Buhl knows everybody.

The article relates that to attend one of Coad Canada Puppets' productions is to experience a sudden reversal of expectations.

focus attention exclusively on the brightly colored, highly stylized, little figures.

"A viewer, accustomed to the rules of traditional puppet theater might consider this (innovation) outrageous. But the Coads and their contemporaries are deeply immersed in a new and dynamic movement toward experimentation in puppetry."

So that's their secret. In addition to skill they are putting out something entirely different. Therein lies the key to their success throughout Canada.

Their show, was established in 1966 and is Western Canada's only full-time professional puppet troupe.

Before coming to Canada he worked in puppetry for six years. He was director of the puppet theater at Children's Fairland Theater, in Oakland, California, and in 1965 won first prize for presentation at the Third International Festival of Puppet Theaters in Bucharest, Rumania.

To the Coads, the article says, each puppet develops a personality.

It's a long ways from Buhl to Canada via California, but Luman Coad has made it — and along the way he picked up an attractive and talented helpmate.

And, in closing, Mr. Spectator thanks Mrs. Leland Hudson of Route Three, Buhl, for bringing this article to his attention.

unable to immediately provide such an investigative dossier. Unsatisfied though they were, the conservative regents said no more.

The immediate explanation for the papering-over of this crisis is that the conservatives have their minds on other things, namely, whether avowed Communist Angela Davis should be rehired at the university's Los Angeles faculty. In closed-door session

unit day marked by table-pounding and shouting, the Reagan majority of regents voted to seize responsibility for the Davis case from the UCLA administration.

That the regents should give priority to such a headline-catching but essentially trivial issue while their university is being destroyed poses doubts about how helpful a political institution can be in saving higher education.

"It's too late, we have all our bumper stickers printed."

"In opposing the SST what tack are you going to take?" I asked.

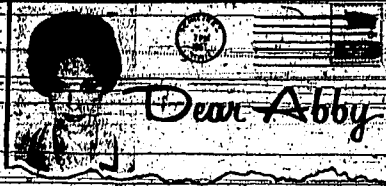

"We have data, confirmed from CIA sources, that sonic booms, from test flights of Russia's SST have caused total deafness in 70 percent of all listeners of Radio Free Europe and The Voice of America. Of course the American SST sonic boom would be much greater than the Russian one, and we could have a nation of deaf people one year after our first plane was built."

"That would be terrible. We wouldn't be able to hear our leaders!"

"One of the reasons American supporters often give for building the SST is that it would link East and West. We are pointing out to our congressmen that there is nothing the Communists would welcome more than an opportunity to fly their saboteurs from Washington to Moscow in under

BERRY'S WORLD

Dear Abby

DEAR ABBY: That 17-year-old boy who wrote, "the boy is not always the aggressor," knew what he was talking about.

I am a 17-year-old girl, and several times I have felt like going farther than I should with my boyfriend, whom I really like.

All of us have normal passions that get stronger during adolescence. Married people have an outlet for their sexual desires, but what about teenagers?

In American society, we are expected to abstain from sex relations for years and years until we are married. Why? So many other countries like Samoa have relaxed marital codes. I can see logical reasons for not being promiscuous, such as danger of venereal disease, and unwanted babies, but when two healthy people want sex and know how to prevent pregnancy, and disease, why the big "No No?"

Our society is way ahead in so many things, like science, but it lingers its natural urges to wither away by pretending they don't exist.

If there is any valid reason why two healthy people in love should refrain from premarital sex, I would like to know what it is.

TRUTH SEEKING — The big "No No" is not the relationship between two normally healthy, MATURE, responsible people "in love"—it's the use of sex by the immature, irresponsible, confused adolescent who mistakes his first sexual stirrings for "love."

"Knowing" how to prevent unwanted pregnancies and venereal disease is not enough to prevent them—witness NO decline in illegitimacy even with the Pill—and in spite of all the education concerning venereal disease, it's still on the INCREASE.

When you are ready to accept all the responsibilities and commitments of "love" and a family, you will not ask me what is wrong with premarital sex.

DEAR ABBY: I am 16 and a diabetic. My doctor has me on a very strict diet, and I have to have my meals served promptly at certain hours.

For instance, I have to have eight ounces of meat for dinner every night with a vegetable and some starch, and for breakfast I have to have two pieces of bacon, one egg, a glass of orange juice and milk.

My problem is, I want to visit some friends of mine this summer at their cottages. How can I go about asking the parents of my friends to serve me special foods at a set time without sounding rude or selfish?

DIABETIC GIRL

DEAR GIRL: Since you obviously do not know the parents of your friends well enough to make such requests without embarrassment, if you want to visit them, I suggest you provide your own special foods, and also be prepared to cook for yourself.

DEAR ABBY: I am involved in patient care in a hospital. We are frequently criticized as being "heartless" for asking the "heat of kin" for permission to perform a post mortem (autopsy). Obviously we cannot ask this question before the patient dies. Equally obviously we cannot wait until the grief has passed (a year or more—if ever).

If people understood that an autopsy is simply a careful examination of the body by specially-trained doctors, perhaps there would be a greater acceptance of the procedure. No mayo "damage" is done to the body than is done by embalming which is required by a law in most states.

Even though the cause of death may be known, much may be learned from the autopsy. (For example, "how the cancer spread" may help researchers find ways to reduce the suffering of future cancer patients. Or it may give clues to earlier detection of the disease.)

There is nothing to lose and so much to be gained from autopsies. If you print this, perhaps more people would be less horrified, and more understanding. Thank you.

KANSAS CITY, KAS.

Magic Valley Favorites

MRS. DAN STAPELMAN
Route 1, Box 59, Paul

- BEEFSTEAK BUNDLES**
- 3 cups cooked rice
 - 1 package dried onion soup mix
 - 1-pound round steak, 1/4-inch thick
 - 1/2 cup milk
 - 1/4 cup frozen peas, optional
 - 4 teaspoon butter or margarine

Have ready four 18 by 12-inch pieces of heavy aluminum foil. Cut steak into 3 by 1-inch strips. Put 1/4 cup rice in center of each piece of foil. Sprinkle one tablespoon onion soup mix over each. Put steak on rice. On each, pour two tablespoons milk and sprinkle with one more tablespoon onion soup mix. Add one tablespoon peas and place one teaspoon butter on each.

Bring together short sides of each piece of foil. Fold over twice. Fold up ends to seal tightly. Bake on a cookie sheet in a 350 degree oven for one hour. Serve in foil packages.

The Times-News will pay \$5 each week for Magic Valley Favorites. If you have a favorite recipe, just mail it to the Recipes Department, Women's Page Editor. The recipe becomes the property of the Times-News and cannot be returned.

For a different taste and beautiful butter to white cake mix.

A handy hint from National Family Opinion Inc., a market research firm to clean, fashionable fabric furs, only commercial well light the fabric, roll garment in a sheet and let stand a couple hours. Then shake and brush.

MR. AND MRS. RICHARD R. DOHNER (Davis photo)

Grace Johanssen, Dohner Exchange Nuptial Vows

GOODING — Grace Elaine Johanssen, daughter of Mrs. Richard Johanssen Sr. and the late Richard Johanssen Sr., Gooding, and Richard R. Dohner, son of Mr. and Mrs. Harold Dohner, New Plymouth, exchanged wedding vows May 1 at the Gooding First Christian Church.

Rev. Harold Livingston, Jerome, officiated at the double ring ceremony before large baskets of pink roses and white chrysanthemums. Two candelabra decorated the background.

The bride, escorted to the altar by her brother, Richard Johanssen Jr., Gooding, wore a street-length white slipper satin gown, made by the mother of the bridegroom. It featured long pointed sleeves and lace trim applique around the neck and skirt. Her elbow-length veil of English silk illusion cascaded from a seed pearl crown. She wore a pearl necklace a gift of the bridegroom, and carried a bouquet of pink roses.

The bride was attended by Mrs. Willard Swenson, Boise, and Mrs. George Davis, Jerome, sisters of the bride. Women of the church assisted with the reception.

The newlyweds will live in Boise where he is employed by the Professional Adjustment Agency and attends Boise College.

The bride is title officer of Security Title Co., Boise. Out of town guests attended from Boise, New Plymouth, Parma, Twin Falls, Jerome, Ontario, Ore., and Whittier, Calif.

87TH BIRTHDAY OBSERVED

Mr. and Mrs. Neal A. Haalam, Twin Falls, entertained in honor of their grandmother, Mrs. Louise Peterson, Jerome, on her 87th birthday anniversary. Guests attended from Wendell, Castleford, Shoshone, Gooding and Filer.

Mrs. Barron Is President Of Camas Club

FAIRFIELD — Mrs. Lloyd Barron was installed president of the Camas Club at the May meeting. Outgoing officers installed the new officers in a candlelight ceremony. Mrs. Thomas Spackman is vice president, Mrs. Everett Coates, secretary, and Mrs. Charles Dickinson, treasurer.

The outgoing president, Mrs. Richard Dalry, was presented a gift from the club.

Mrs. Barron reviewed the activities of the club and stated that more than \$3,300 has been spent by the club the past five years on civic and school projects. This included \$555 spent on Christmas decorations for the main street of town; \$649 for gasoline and bus drivers for the swimming program; \$500 was spent on scholarships and the rest on miscellaneous projects.

Committees for the 1970-71 club year were announced: Mrs. Glenn Miller, Mrs. Pauline Merrill and Mrs. Wesley Fields will serve on the program committee; Mrs. Lee Daniel and Mrs. Hugh Koonec, civic committee; Mrs. Olan Beal and Mrs. Dale Reedy, music; Mrs. Don Bauschell, welfare; and Mrs. Russell Pate, constitution.

Mrs. Helen Cox and Mrs. Donald Iyie will have the birthday calendar. A new innovation will be a "Welcome Wagon" committee and Mrs. Thomas Spackman, Mrs. Harold Brooks, Mrs. William D. Simon and Mrs. Floyd Crandall will serve.

The program consisted of piano numbers by Lucinda Osborne, Roxane Gaskill, Lee Ann Osborne, Jeanie Paul, Susy Giesler, Debbie Simon, Janet Cluer and guitar numbers by Mike Wilson, Stan Shippy, Kelli Pate, Mrs. Victor Planasky, Katie McCarter and Mrs. Joe McCarter.

The club will sponsor an appearance of the Antique Festival Theater group in July.

The evening concluded with the playing of games with bedding plants as prizes.

Hostesses were Mrs. Robert Newhouse, Mrs. Charles Scoggins, Mrs. Lowell Ruby and Mrs. Hugh Koonec.

Social Events

Amigo Star Club members will meet at 8 p.m. Thursday in the Senior Citizens Recreation Room at Sunny View Courts for a regular meeting. Special guests will be introduced and all members are urged to attend.

MR. AND MRS. EDWARD DEAN (Shig Marita photo)

Georgia White, Dean Wed In Double-Ring Ceremony

FILER — A double ring ceremony at the Hollister LDS Church united in marriage Georgia Jo Ann White, daughter of Mr. and Mrs. Larry Hawker, Rogerson, and Edward James Dean, Jackpot, Nev., son of Mr. and Mrs. Neal Dean, Filer.

President Ralph Ward officiated at the May 5 rites before background decorations of baskets filled with large white pompons and yellow gladioli.

The bride, given in marriage by her father, wore a Bridal Original gown of hand-clipped Chanilly lace, fashioned in an empire line with a redingote effect over acetate peau de sole that swept to a wateau scalloped chapel train. The neckline and long sleeves of the gown were encircled with ruffles.

An all pearl double queen's crown held the bride's elbow-length veil of English nylon illusion. She wore a star-shaped diamond pendant, a gift from the bridegroom, and carried a bouquet of white chrysanthemums and yellow roses.

Tawna White, sister of the bride, was maid of honor and Hill Hadley, Twin Falls, was matron of honor. Bridesmaids were Rhonda White, and Marianne White, sisters of the bride, and Joanne Durham, Jackpot, Nev. Vicki Biggerstaff, Murtaugh, niece of the

bridegroom, was flower girl and carried a basket of yellow flower petals. Tony Durham, Jackpot, was ring bearer.

Gerald Dean was best man for his brother, and ushers were Ronnie Lanke, Jim Lockridge, William Sutterfield and Duane Durham, all Jackpot.

Dela Allen, Filer, furnished the wedding music.

A reception was held after the ceremony. Kathy Lehman was in charge of the guest book and Jenny Sutterfield had charge of the gifts.

The bride's table was covered with a white satin cloth and enhanced with pink bows, and centered with a three-tiered wedding cake decorated with yellow roses, yellow doves and bells, and topped with a miniature bride and groom.

Reception assistants were Denise Cook, Linda Diresal, Alta Stover, Jackie Hows, Margaret Drake and Linda Bays.

After a wedding trip to Southern California, the couple resides in Jackpot, Nev., where both are employed.

Special out-of-town guests attended from Ashton, Idaho Falls, Rigby, Jackpot, and Wehdevor, Utah.

The bride was honored at a shower given by the Hollister LDS Church and by Parker's Hollywood Beauty College.

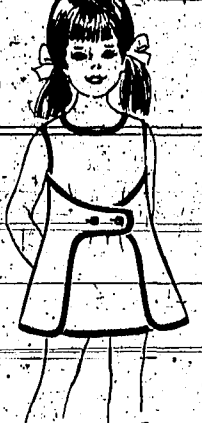

Date Revealed

SUBLETT — Mr. and Mrs. Asiel Zollinger, Sublett, announce the engagement of their daughter, Carol Jo Philip Pillsbury, son of Mrs. Betty Hunter and William Haws, both Brovo.

Miss Zollinger, a senior home economics major at Brigham Young University, is a graduate of Raft-River High School. Mr. Haws is taking a course in electrical engineering at Utah Technical School.

A June 3 wedding is planned, with a reception June 5 at the Malta High School.

Quickie Wrap!

9301 SIZES 2-8

by Marianne Martin

Quickie wrap for autumns days! Whip up one, two, three in no time flat and bind off brightly. Costs pennies to make. No fitting problems; opens flat for ironing.

Printed Pattern 9301; New! Children's Sizes 2, 4, 6, 8. Size 6 takes 1 1/2 yards. 35-Inch; Seventy-five cents for each pattern—add 25 cents for each pattern for Air Mail and Special Handling. Send to: Marianne Martin, 222 West 18th St., New York, N. Y. 10011. Print name, address with zip, size and style number.

Big, new, spring-summer pattern catalog, 111 styles, free! pattern coupon, 50 cents. Instant Sewing Book—new today, wear tomorrow. \$1. Instant Fashion Book—what-to-wear answers, accessory, figure tips! Only \$1.

Communist Troops Capture Baray In Attempt To Join Supply Units

PHNOM PENH (UPI)—Pathet Lao troops were reported today to have joined the North Vietnamese in trying to establish a jungle supply route north of Phnom Penh.

Military spokesmen said the Communist troops had captured the town of Baray, 55 miles north of the capital, on Monday and were increasing their pressure on Kompong Thom, 15 miles farther north.

Western military attaches said the threats to the northern provinces of Kompong Thom, Preahvihear and Stung Treng were "definitely not Viet Cong. These are Pathet Lao and

PHNOM PENH (UPI)—The Cambodian government sent a battalion of paratroopers into the search today for two American "network" television crews missing south of Phnom Penh since Sunday.

The CBS and NBC teams, a total of eight men, were feared captured by Communist troops along with the three Cambodian drivers.

Three American correspondents were in the group—George Svetssten and Gerry Miller of CBS, and Willis Hagen of NBC.

By United Press International

As much as five inches of rain drenched areas from the Southern Plains to the Northwest corner of the Midwest late Monday and early today.

Other showers and thunderstorms drenched the Southeast and Northern New England while generally clear weather covered the rest of the nation.

Five inches of rain pelted an area near West Plains, Mo., Monday evening. Nearly 2.25 inches soaked Grand Rapids, Mich., in six hours, while Rockford, Ill., had almost an inch, with more than a half-inch falling in one hour.

Early morning temperatures today ranged from 34 at Laramie, Wyo., to 88 at Bakersfield, Calif.

An apparent tornado damaged eight house trailers and slightly injured eight persons Monday in Carbonate, Ariz. A "funnel" cloud was sighted at first bounce for a putout.

Foreign Aid Bill Approved

WASHINGTON (UPI)—The House Appropriations Committee Monday approved a \$1.6 billion foreign aid bill for next fiscal year, 25 per cent less than President Nixon's request of \$2.2 billion.

Nixon, limited by last year's congressionally imposed ceiling on foreign aid spending, had asked for the smallest amount since the program was begun after World War II.

Other action Monday—The House approved by voice vote a resolution that will permit six congressmen to go to Switzerland this month for the International Labor Organization. Rep. H. R. Gross, R-Iowa, protested the trip was a "junkie."

The House passed by voice vote and sent to the Senate a bill that would authorize \$270,000 for purchase and remodeling of a three-story building next door to Ford's Theatre, where Lincoln was assassinated. The theater would be designated as a National Historic Site.

The House Rules Committee refused to permit amendments to be attached to a bill that would lift the ceiling on the national debt by \$18 billion. The bill will come to the floor for debate Wednesday.

The House foreign affairs subcommittee on national security policy and scientific developments said H. Ross Perot, Dallas, Tex., computer millionaire, will be permitted to build replicas of Communist prisoner of war cells for public display in the crypt of the Capitol.

A House commerce subcommittee was reported to have approved privately a bill that would permit consumer groups to file "class action" suits against alleged business deception or fraud.

The bill contained an administration-backed proviso that consumers could file suit in federal court only after federal agencies have successfully prosecuted a firm. But the bill also contained a proposal championed by Rep. Bob Eckhardt, D-Tex., that would permit "class action" suits to be filed in state or federal courts.

Electrical Costs May Skyrocket

WASHINGTON (UPI)—Sen. Lee Metcalf, D-Mont., said Sunday a major item in the cost of living, electricity, may be headed toward higher, inflationary levels. He said electric utilities were seeking \$2 billion in rate increases despite record net profits.

Metcalf is author of the Book "Overcharge" and a leading Senate critic of public utility rate making and government regulatory practice.

Last month he ordered the Federal Power Commission to compile profit figures from reports of 206 of the country's largest utilities. He specified he wanted net figures—that is, profits after all taxes, interest and expenses were deducted from revenues.

South Vietnamese marines sweeping up the eastern bank of the Mekong reported killing 28 Communist troops Monday in a series of clashes east of Phnom Penh. Their thrust up the waterway was launched Sunday in an attempt to ease the guerrilla pressure.

Military sources in Saigon said Viet Cong and North Vietnamese soldiers meanwhile are trying to move back into their Ba Thui sanctuary in Cambodia's Parrot's Beak, 40 miles west-northwest of Saigon. Allied troops swept through there earlier in their cross-border offensive.

The 10,000-man American force operating in Cambodia reported very light battle action Monday, but troopers of the 1st Cavalry Division found a hospital complex and a 70 miles north of Phnom Penh in the region of Cambodia north and northeast of Saigon.

The Americans blew up the would-be supply lines and evacuated the medical supplies, spokesman said.

"M.A.S.H." is what the new freedom of the screen is all about.

Gale Green Has Big Victory For U.S. In British Championship

NEWCASTLE, England (UPI)—Gale Green of Las Vegas, Nev., scored the United States' only point in a big victory of the day Monday when he crushed France's Jean-Benoit in the first round of the British Amateur golf championship.

England Will Open Defense On Tuesday

GUADALAJARA, Mexico (UPI)—England opens defense of its World Cup soccer championship Tuesday against a Romania squad which may be the most underrated team playing in the four-team group that also includes Czechoslovakia and Brazil.

The opening match Tuesday against Romania could make or break Bobby Moore and his teammates in the toughest group of the 1970 world championship.

Brazil and Czechoslovakia tangle on Wednesday at the 70,000 capacity Jalisco Stadium. No games were scheduled Monday. Host Mexico and Russia got the championships underway Sunday in Mexico City, by battling to a scoreless tie.

Sir Alf Ramsey, realizing that winning the World Cup in England is one thing, defending it in the blazing heat and oxygen-lacking air of Mexico another, has genuine respect for Romania.

Rosewall And Okker Move To Finals

NEW YORK (UPI)—Tom Okker of the Netherlands fought off Tony Roche off Australia 6-3, 3-6, 7-5, 3-6, 6-4 to remain alive in the \$200,000 Tennis Champions Classic Monday night at Madison Square Garden.

Ken Rosewall won a \$10,000 winner-take-all match from Fred Stolle, 5-7, 6-0, 6-4, 6-1, and will meet Okker on Tuesday night in another \$10,000 match.

Rosewall raced to a 3-1 lead in the first set but Stolle started the tiny Rosewall by charging back to force the set into sudden-death and pull it out.

Rosewall then took charge and breezed through the next three sets.

Roche, suffering from an injured elbow, could not keep his powerful service going throughout the 2 1/2 hour match but managed to fight off three match points.

In the final set, Okker reached set point in the ninth game but Roche managed to break him to pull within one game at 5-4.

Tony's crashing service brought him to 40-love before Okker, with the aid of a double fault by Tony, pulled back to deuce.

The Dutchman held match point before finally winning the match when Roche's overhead smash went far behind the line.

Funeral Set For M. Ortiz

SAN DIEGO (UPI)—Funeral services were pending Monday for Manuel Ortiz, world bantamweight boxing champion from 1942 to 1950.

Ortiz, who resided in the area where he was born at El Centro, Calif., died Sunday night at Balboa Naval Hospital. He was 47.

The body was taken to Lamons-Wiley Mortuary in El Centro.

Ortiz, a great favorite with Mexican-American fans in the Los Angeles area, first won the bantamweight title Aug. 7, 1942 with a 12-round decision over Lou Salica at the Hollywood Legion Stadium.

He lost the title briefly when he dropped a 10-round decision to Harold Dade at San Francisco Jan. 6, 1947 but reclaimed Dade March 11 of the same year to win it back.

Ortiz defended his title 10 times before losing it permanently to Vic Towell May 31, 1950 at Johannesburg, South Africa.

Murphy Cops Meet, Wins Race Horse

LOUISVILLE, Ky. (UPI)—Portly Bob Murphy rolled in five-foot birdie putt to defeat Gay Brewer in a sudden death playoff and win a thoroughbred race horse Monday in the first Kentucky Thoroughbred celebrity golf tournament.

Murphy and Brewer were tied at three-under par 69 for the first 18 holes over the Huetshausen Country Club course. On the first sudden death hole, Murphy lofted a wedge shot within five feet of the pin and sank his putt.

Brewer barely landed on the green with his wedge shot on the par-five hole and left his putt about a foot short from 15 feet away.

Dave Hill, fresh from his victory in the Memphis open Sunday, fired a two-under par 70 to tie Doug Sanders for runner-up honors.

Sportscaster Pee Wee Reese, the old Brooklyn Dodgers shortstop, had the best score of any of the amateurs as he wound-up with a three-over par 75.

Other celebrities who turned in creditable scores included Alabama football coach Paul (Bear) Bryant with a 12-over par 84 and ex-jockey Eddie Arcaro with a 17-over par 89.

Montreal Claims Jim Gosger
MONTREAL (UPI)—The Montreal Expos Monday purchased outfielder Jim Gosger from their Buffalo Bisons farm club of the International League.

In order to make room for Gosger on the major league roster, the Expos optioned outfielder Boots Day to the Bisons. Day was acquired by the Expos on May 12 from the Chicago Cubs in a trade for catcher Jack Hyatt.

Blair To Undergo Surgery After Pitched Ball In Face

ORANGE, Calif. (UPI)—Paul Blair, Baltimore centerfielder who was hit in the face by a pitched ball, was scheduled to undergo surgery for repair of multiple fractures of the nose and eye socket Monday night.

The surgery was to be performed at St. Joseph Hospital by Dr. Jason Stevens, an ophthalmologist, with the assistance of Dr. Joseph Triggs.

Triggs, who was at Anaheim Stadium Sunday when Blair was hit by a fast ball thrown by California Angel pitcher Ken Tatum, said the Baltimore player suffered double vision from the blow but it could not be determined immediately whether there was any permanent damage to his left eye where the lower part of the orbit bone or socket was damaged.

"The blow alone would cause double vision in a case like this," said Triggs, "but that's nothing to be alarmed about. We won't know whether his eyesight is affected probably until quite a while after the surgery."

Tatum visited Blair in his hospital room Monday afternoon to assure him the blow was accidental. The Angel relief pitcher also hit Boog Powell, the batter who preceded Blair in the eighth inning. Powell was merely shaken on the right wrist.

Oklahoma Cager Signs With Sonics

SEATTLE (UPI)—The Seattle Sonics of the National Basketball Association Monday signed Garfield Heard, a 6-foot-6-inch forward from the University of Oklahoma.

Heard was the third round draft choice of the Sonics. He was the Alltime rebound leader for Oklahoma with 830 during his college career.

Heard also was the No. 2 alltime scorer for Oklahoma with 1,227 points.

Heard was the third round draft choice of the Sonics. He was the Alltime rebound leader for Oklahoma with 830 during his college career.

Food Stamp Program Starts In Valley Area

Food stamps went on sale in Magic Valley Monday and many prospective buyers reported waiting as much as 45 minutes in line at area banks to make their purchases.

The stamps were on sale in Twin Falls County at the First Security and Bank of Idaho in Twin Falls and the Idaho First National Bank in Buhl and the Lynwood Branch, Bank and Trust in Twin Falls.

Part of the appeal for the first day was a "special" offering buyers—a two-for-one bargain. Those buying stamps during the first month are able to buy twice the number of stamps for the money they spend.

Several Twin Falls grocery stores also reported sales increased substantially with many of the largest orders being those purchased with the stamps.

David Humphrey, county director, Department of Public Assistance, said about 500 families are now signed up for the program in the local county and the registration is continuing. He said it has been steady over the past month with increased interest just before the June 1 opening date.

As yet, he said, there have been no complaints on the program and the response has been generally good and the program well accepted. Low income families are eligible and must make application at their local DPA offices and when their eligibility has been established they are issued a permit to purchase the stamps. Mr. Humphrey said as far as he knows at this time very few have applied who are not eligible.

The program also began Monday in Blaine, Lincoln, Gooding, Jerome, Minidoka and Cassia and good response is also reported from those areas.

Most major stores are participating in the food stamp exchange although some small rural area stores have not found it necessary as yet.

Mr. Humphrey said monthly reports will be compiled in all participating counties to show participation and to help work out any problems to be encountered. Registration will continue throughout the program with persons who may become eligible accepted at any time.

It has been estimated about 1,500 families in Twin Falls county would be eligible for participation and with about one third of those now signed up, Mr. Humphrey said apparently the estimate was relatively close.

FIRST CRASH OF CURRENT spray season occurred Monday 10 miles northeast of Rupert in a potato field when this single wing craft, owned by the Hawk Flying Service, Albion, crash landed during spray operations. Pilot R.H. Dunn, Albion, not only walked from the damaged plane but was back in the air spraying grain within the hour. LePage Layton, Burley, checked damage here which owners said reached about \$12,000.

Zone Change To Allow Restaurant Is Denied

Request for a zone change at the north end of Shoshone Street to allow for establishment of a commercial operation, a fried chicken restaurant and take-home business, was denied Monday night by Twin Falls City Council members.

In taking the action, the council followed recommendations of the city planning and zoning commission, but following the vote, Councilman Tom Nelson urged a close look be taken at all of Shoshone Street with the idea of possibly rezoning the entire street.

He said he was not necessarily opposed to a commercial zone at the end of Shoshone Street because of many already established commercial firms in the general area, but said he could not support "spot-zoning". Strong opposition has been voiced by residential property owners in the vicinity.

George Haney, Jr., Realtor who had asked for the change on behalf of owners, Dr. R. A. Drake and Lyman Sperry, said his clients were prepared to withdraw their requests at the public hearing and voiced support of Mr. Nelson's proposal.

In another hearing, the council heard no objections and approved zoning of an additional eight block downtown area as commercial central rather than commercial general.

City officials gave approval to going ahead with preliminary plans for the proposed new sewage treatment plant for Twin Falls. Earl Reynolds, consulting engineer, explained steps to be taken now that a feasibility study has been completed for a system involving the city and seven area industries. In the coming preliminary study, extensive testing on sewage loads from seasonal and year around industries will be conducted.

Mr. Reynolds said the proposed plant would serve the equivalent of 100,000 persons although it would consider only a population increase in Twin Falls to about 30,000, the remainder representing industrial loads.

Approval of a lease for a new sanitary fill system on property owned by Ellis Fuller was approved and a letter was signed requesting the Idaho Highway Board set another public hearing on proposed improvement of the North Five Points intersection.

Portland Man Talks On Safety

BURLEY — Merle Bassett, Portland, a veteran in electrical safety, spoke to representatives from eight local electrical firms at the Bonneville Power Administration office, Burley.

He told of safety measures which can be taken by electricians and demonstrated proper grounding of electrical parts, and what happens if lines are not properly grounded.

Mr. Bassett has worked in electrical safety for 26 years and has taught safety at Portland State University and at Clark College, Vancouver, Wash. He has been with BPA for past 21 years and has been traveling to various areas to explain procedures in grounding power lines.

Attending the session were representatives of Bureau of Reclamation, South Side Electric, Raft River Rural Electric, City of Burley, City of Hoyburn, Unity Light and Power Co., BPA officials and Federal Aviation Administration.

July 4 Reunion Is Planned At Albion

ALBION — A reunion for Albion State Normal and Southern Idaho College of Education will be held July 4th in conjunction with the Albion Old Fashioned Fourth of July Celebration and the 100 Years of Progress in Cassia County.

Keith Amende, alumni association president, reported that forms have been mailed to all known graduates of the now deserted campus. Plans are for a 11 a. m. registration and coffee hour in the dining room at Cornish Hall. A luncheon meal will be catered by a Burley cafe. A business meeting will follow the luncheon.

Names are still needed of alumni for many are not in the association files, reported Mr. Amende. Alumni may write to the association at Box 157, Albion, Idaho, 83311.

Car Breaks Off Pole At Burley

BURLEY — Mrs. Geneva S. Alnis, 24, Burley, and her two children escaped injury in a one-car accident at 1:45 a. m. Monday, one-fourth mile west of Burley on West 15th Street.

Mrs. Alnis told officers she had been in Twin Falls to see movies and dogs. The car went off the road, hit a telephone pole and the car came to a stop in the yard of the Robert Savvik home.

The 1967 Pontiac was damaged about \$400 and the telephone pole was broken off and will have to be replaced.

Cassia County Sheriff officers investigated.

Garden Club Convention At Sun Valley Hears Pointers

SUN VALLEY — "An arranger must have a 'seeing eye' for all designs naturally created," Mrs. Phillip Brueckner, California, featured lecturer during Monday's luncheon of the 28th annual Pacific Regional Convention of the National Council of State Garden Clubs, held a gathering of about 70 delegates here.

Mrs. Brueckner held her audience captive while she presented a 45 minute demonstration on arrangements in glass and wood in creative design. She noted that it is important to prepare the wood to be used by scrubbing it, then coloring it to suit the ideas.

She also noted that glazes in flower arrangements is the newest innovation and demonstrated unique ways it could be used.

The regional conclave got under way with an early morning breakfast Monday, followed by a business session during which state reports were given. Idaho state club president, Mrs. Kenneth Sadler, told the group that the local organization had two important pieces of legislation passed, one which would upgrade the criteria for teaching environmental science at all levels, beginning in 1971, and the other relating to non-redeemable bottles. A third proposal was introduced to the legislature to have a new state award in Conservation with suitable rules for applying for it.

She added that the initial Environmental Conservation Convocation was held in October, 1969, with the second planned for this September. She also noted that the Landscape Design Schools were completed in Idaho last fall, and through them Tony Horn, state horticulturist, won the Spiller's award at the National Spring Convention.

Idaho's theme has been "Let's Grow and Conserve Our Beauty".

Delegates were free Monday afternoon to tour Sun Valley and concluded the day with a barbecue at the Trail Creek Lodge.

The Idaho delegation was honored during the Tuesday luncheon which also featured the presentation of awards by David Harford, Bear's Footstock and Company vice president. Mrs. Harford was speaker and his topic, "Preservation of the Environment Through Forestry".

Workshops in the various aspects of gardening and conservation consumed the afternoon, with the concluding banquet scheduled for Tuesday evening. Mrs. William Barton, national president, will be

Ketchum Amends Ordinance Dealing With Off-Site Signs

KETCHUM — Following heated discussion, the Ketchum City Council Monday night approved a petition for amending the city's zoning ordinance, concerning off-site signs.

The amendment stipulates that a sign advertising a business may not be placed off the premises until the sign meets size requirements, advertises only the major use of the advertised business, is recommended by the planning and zoning commission and determined by the city council to be necessary to promote the interest of the user.

The present ordinance allows off-site signs. One interested citizen appeared to protest what she called "loopholes" left by the amendment in that the signs may still be permitted by the approval of the council.

She recommended the amendment should signify that signs never be permitted and that directories be placed at each end of the city denoting what businesses are available and their location.

Councilmen overruled the objection and set a public hearing June 15 on the ordinance amendment.

In other business, councilmen:

- discussed a dog leash law which is presently operating with the license law. It was reported that Dutch Gunderson, Deer Creek, will rent his kennels to the city at \$2 per day for two days for each dog. Councilmen tabled the matter until Steve Bolter is able to appeal the 1970 budget before the Tax Commission next month.

Magic Valley Test Case Possible In T.F. Decision

A test case may develop in Twin Falls over failure of Probate Judge Eugene McCoy to impose the mandatory 10-day jail sentence on a man convicted Monday in his court of a drunk driving charge.

A new Idaho law stipulates everyone convicted of driving while intoxicated must serve at least 10 days in jail, but Judge McCoy, Probate Judge in Twin Falls, said "Until such time as this (the law) is cleared up, I will not impose the 10-day sentence for first offenders."

A panel of jurors found James Francis Dillon, 38, Twin Falls, guilty of drunk driving. Judge McCoy set penalty of \$176 fine, plus \$5 cost and 30 days in jail, which was suspended. Dillon also was placed on probation for six months.

Judge McCoy noted the Prosecuting Attorney's office has 10 days in which to file a writ of mandate. Prosecutor Robert Galtley said whether he will file the writ depends on what other judges in the county are doing. He noted that if other judges are following the new Idaho law, he probably will file a writ, pointing out, those charged with DWI could simply file affidavits of prejudice against the other judges and file themselves in Judge McCoy's court, where the 10-day penalty will not be enforced.

Both justices of the peace, HARB Vaughan in Twin Falls, and Judge John C. Pearce, Buhl, said they have been following the 10-day stipulation and will continue to do so as long as it is on the books.

Judge Pearce said he has been doing so "reluctantly." Prior to implementing of the new law, he said, he had been imposing a \$200 fine and five days in jail on first offenders and 10 days or more on second offenses.

Service Held At Burley

RICHFIELD — Memorial day services were conducted at the Richfield cemetery by Earl Morrison Post of the American Legion. Everett Ward served as chaplain and Delmar Hardy, commander, headed the firing squad.

Members of the color guard were Lyle Piper, Charles Maestas, with Jerry Johnson and Jerry Davis as color bearers.

Equipment Stolen At Hagerman

HAGERMAN — About \$2,000 worth of equipment was stolen over the weekend from the Bell Rapids Irrigation project near Hagerman.

The theft, being investigated by Twin Falls County Sheriff's officers, was discovered Monday morning.

Equipment taken was owned by Eugene Ciancy, Nampa, and Roy Mays, Gooding. Taken were saws, painting equipment, a welder, tools and other equipment.

Some of the articles were taken from a storage shed after a padlock was removed from the door, officers said.

Queens

GOODING — Applications for the Gooding County Sheriff's Posee queen contest are now available.

Any Magic Valley girl, unmarried and will be at least 18 years of age by July are eligible to enter the contest. For further information call Margaret Driess, Gooding.

SMOKE JUMPERS — KING, HILL — Wayne Sugg, son of Mr. and Mrs. Hugh Sugg, has gone to Fairbanks, Alaska, to work as a "Smoke Jumper" again this summer. Paul Bradley, former coach at Jerome, accompanied him.

REMOVE FLOWERS

Twin Falls Cemetery officials request persons to remove any permanent flower arrangements by Wednesday so grounds can be cared for.

FEATURED LECTURER Mrs. Phillip Brueckner, California, displays arrangements for delegates to the 28th annual convention of state representatives at the convention with the state representative of the National Council of State Garden Clubs, Inc. now in convention at Sun Valley. She discussed her arrangements for each state represented at the convention with the state representative of the National Council of State Garden Clubs, Inc. now in convention at Sun Valley. She discussed her arrangements for each state represented at the convention with the state representative of the National Council of State Garden Clubs, Inc. now in convention at Sun Valley.

WELCOME TO NEWES

ADOLPH Coors

YOUR STAY BELONGS PLEASE

OFFICIALS OF COORS, INC., testing a luncheon meeting Monday at the Ponderosa Inn, Burley, are from left, Willard Hays, Mark McCarty, William K. Coors, president of the firm, and Elmer Worth. Mr. Coors outlined plans for the company which is building a \$18 million dollar storage facility in the Burley area for malt barley. He said one million bushels are expected from Idaho per year.

Coors Chief Reports Plans

BURLEY — In the next 10 years the Coors company will raise about 18 million bushels of malt barley and 10 million bushels are expected to be raised in Idaho, Burley Chamber of Commerce members were told here Monday.

William K. Coors, president of Coors, Inc., Golden, Colo., pointed out very few places in the United States can grow the malt barley which the firm uses in brewing beer. Climate, geography and land conditions has a better record than Coors as we have our own disposal area of water.

The company uses about six million bushels of barley per year and one million will come from this area, with the other five million bushels to be raised in Colorado.

The official stressed there will be no problems with water and said it would be used in brewing beer.

Coors corporation in America which has been operating in the Burley area since 1954, is in charge of purchasing, barley raised here and stored in the Golden, Colo., where Coors has a large facility. The firm is building a \$18 million storage facility here and will be in charge of the barley program in Idaho.

Truman Bradley, chairman of the chamber, indicated the Chamber and Coors are planning to build a malt barley processing plant in the Burley area.

Negative Double Helps Force Slam

With 40 points North has a very good negative double. South's hand is very strong and he wants to force to game. West's double of two spades gave North a chance to pass and a w.a.l.t. development.

Bridge score table with columns for North, West, East, South and various card counts.

If you don't want to use negative double at all you don't have to do so. You also don't have to read this article but we feel that it will be of great interest to nearly all bridge players.

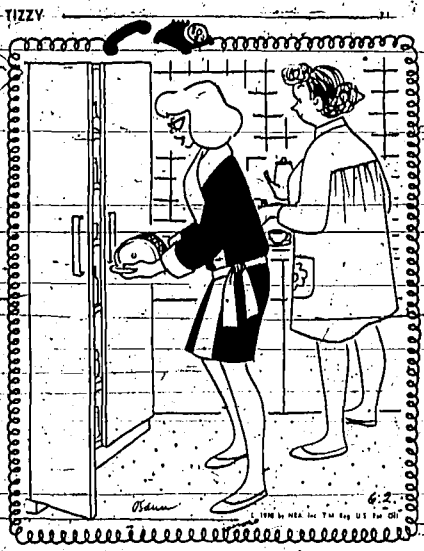

The basic idea of the negative double is that when your partner's opening bid is overcalled, your double of the overcall is for take-out, not for business.

South won the first spade returned the suit and ruffed the third lead. Then he played out three rounds of trumps and three top clubs.

(Newspaper Enterprise Assn.)

W.C. CARD Sense

The bidding has been: West 1 North East South Pass 2 Pass 2 You, South, hold: A-K-4-4-Q-4-4-K-J-9-7

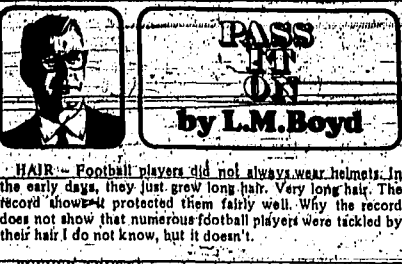

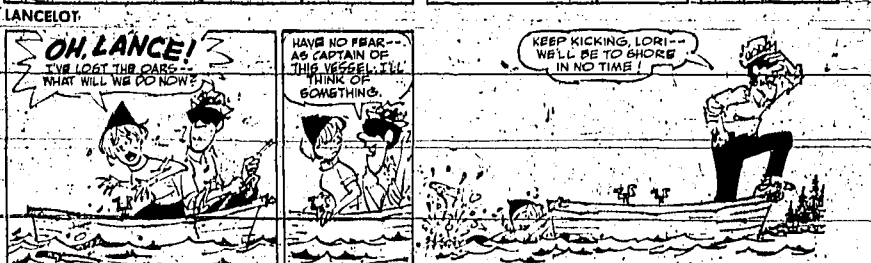

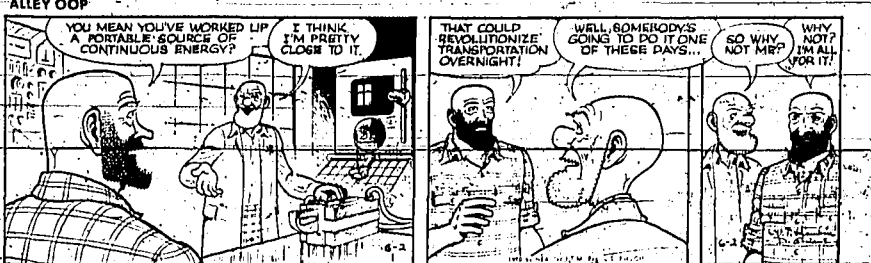

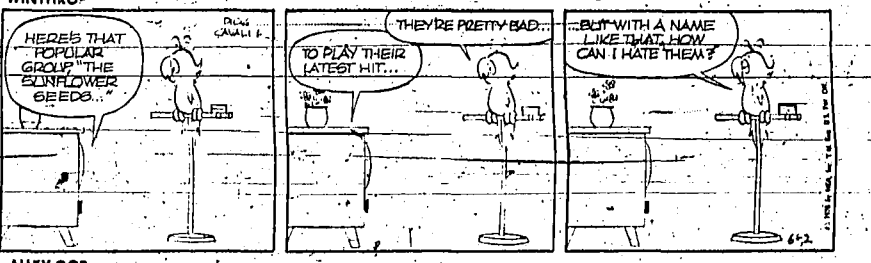

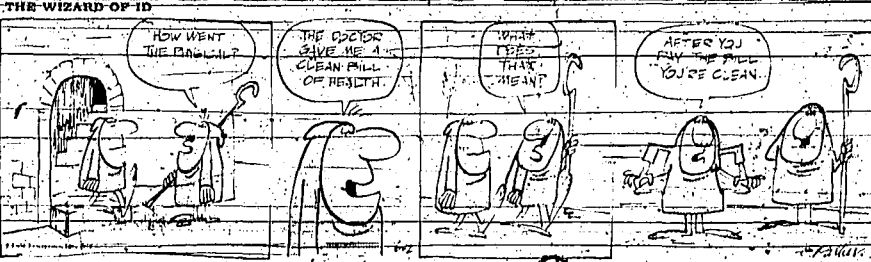

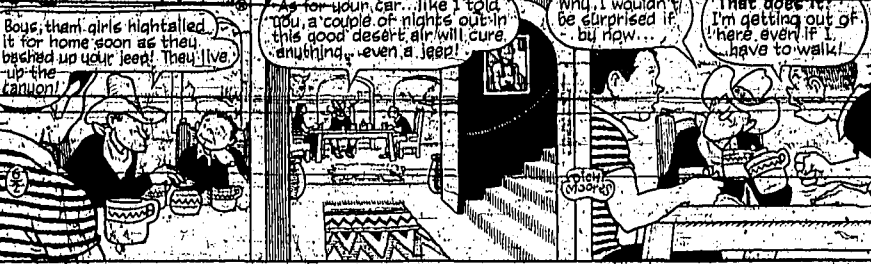

"Just finished reading 'Hamlet'—man, was THAT cat over uptight!"

OUT OUR WAY

STAR GAZER horoscope section with columns for Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius, Pisces.

HAIR - Football players did not always wear helmets. In the early days, they just grew long hair. Very long hair. The record shows it protected them fairly well.

CUSTOMER SERVICE - Q. Of all the household appliances now on the market, which is generally considered by the majority of women to be the best labor-saving device?

DURING THAT RECENT newspaper strike in Detroit, the suicide rate reportedly dropped 20 per cent. IT WAS the Belgians, not the French, who invented french fried potatoes.

NURSERY - Average new born baby cries 113 minutes a day, it's reported. That's too much crying. Any baby that cries 113 minutes a day isn't getting sufficient attention.

SMOKING - Hereabouts works a secretary who repeatedly tried and failed to quit smoking until a month ago. At which time she bought a case of pretzels.

MAJOR HOOPLE

Nixon's 'Small Talk' Seeks To Teach Lesson Of History

NEW CONCORD, Ohio (UPI) — President Nixon made "small talk" about toothpaste and surfing to put college protesters at ease in a surprise confrontation at the Lincoln Memorial but he really wanted to help them to understand the lessons of history.

White House Press Secretary Ronald L. Ziegler said Sunday: "It was the first indication that the White House was chafing a bit over reports by some of the student dissenters of their surprise dialogue with Nixon when he showed up at the monument at 4:30 a.m. May 6, the day of his big demonstration against his decision to move into Cambodia."

"He might, of course, have talked about the obvious issues — about Cambodia and the detailed rationale for why he acted as he did or about the other pressing questions of the moment," Ziegler said to a commencement address at Washington College. "But he wanted to leave those questions with something more — not what they heard debated every day in the newspapers and on radio and television, but rather something deeper and more fundamental."

Scribe Reports 'Feud' Over Odd Car Colors

WASHINGTON (UPI) — Perhaps you are aware of the industrial feud that has developed between the Ford Motor Co. and Eagle Shirts makers. If not, I'll give you a quick fill-in.

Models have interiors done in "bouncing check." Others have seat covers made of fake "patent-leather leathor."

"But essentially, he talked with them about some of the longer-term lessons of history, and about the various countries of the world and the importance of getting to know the people of those countries in order to understand the world."

First I should point out that the auto industry does not paint new cars with ordinary colors, such as brown, red and blue. It paints them with glamorous colors bearing names like "silver dawn," "misty magenta" and "passion peach."

I have no doubt that Eagle enjoyed tweaking Ford in this manner. It appears to me, however, that Eagle may have left itself vulnerable.

"He talked about how what seems the attractive course is not always the right course — about how, for example in the 1930s he thought Neville Chamberlain was the greatest man alive and Churchill was a madman, only to learn later that Chamberlain was a good man and that Churchill was right."

Well, everyone got a chuckle out of this. Everyone, that is, except the folks at Eagle Shirts makers, Inc.

My proposed entries, with proper apologies to Eagle, run like this: "The short-tail wastebunch-or," "frazzled-neck wrinkler," "drip-dry buttonpopper," "frayed-cuff shrinker," "long-sleeved seam splitter," "button-down throat binder," "non-starched limpoplar," "soot-faded broadcloth" and "underarm stainer."

Another expert, Earl Kauffman, Director, Council on Aging at the University of Kentucky, says that "we can achieve high morale in our retirement years while at the same time remaining in contact with the tossing, churning, changing social sea that constantly flows around us."

New Saint Is Son Of Israelite

VATICAN CITY (UPI) — The son of a converted Jew has become the Roman Catholic Church's latest saint.

The morning stars are Mercury and Saturn. The evening stars are Venus, Mars and Jupiter. On this day in history: In 1862 Gen. Robert E. Lee took command of the Confederate armies of eastern Virginia and North Carolina.

Another expert, Earl Kauffman, says that "we can achieve high morale in our retirement years while at the same time remaining in contact with the tossing, churning, changing social sea that constantly flows around us."

"We think he can be honored as a model for every priest of our time, a time when they say the priesthood itself suffers a profound crisis, a crisis of identity," said the Pope, who marked his own 50th anniversary as a priest three days ago.

A thought for the day: American author Ernest Hemingway said, "The world is a fine place and worth fighting for."

Comment On America Proves Apt

WASHINGTON (UPI) — History never repeats itself, it is said. But sometimes it comes close. Speechwriters for Adm. Thomas H. Moorer, chief of naval operations, found what they thought was an apt comment for today's times in a well-known American magazine. It read: "It is a gloomy moment in history. Not in the lifetimes of any man who reads this paper has there been so much grave and deep apprehension. Never has the future seemed so dark and incalculable."

WAR BOOTY collected in Cambodia includes rice, rifles, machine guns and mines. American and South Vietnamese forces attacking Communist sanctuaries near the border have turned up large caches of weapons, food and supplies.

GENTLE SIDE of the law. This Washington, D.C. policeman carried a bunch of flowers in his gun belt while on duty at scene of an antiwar demonstration near the White House.

FINNISH FROLIC HELSINKI (UPI) — Police called to quiet a party on a ship in Helsinki's harbor found a naked man hanging over the ship's side trying to drag a large net aboard. In the net were a struggling man and woman, both nude. The three were charged with being drunk and disorderly.

CARLOTTA BLASTOCK, daughter of Mr. and Mrs. Robert Blastock Jr., Route 1, P.O. Box 1, is pictured aboard the World Campus Afloat vessel, on which she traveled with 483 students for the spring semester of study. The voyage began Feb. 3 from Los Angeles and visited ports in Asia and Africa.

MOSCOW (UPI) — Astronaut Neil A. Armstrong flew to Moscow from Siberia Sunday for a live-day visit. Armstrong and Soviet cosmonauts Georgi Beregov and Konstantin Feoktistov spent Friday and Saturday in the Soviets' "Science City" on the outskirts of Novosibirsk in Siberia, where many of the top Russian scientists live and work.

Time For Living

You and I might think that the first and last word on book learning came from McGuffey's Readers. But that's so, according to educators at a meeting of the New England Center for Continuing Education in Durham, N.H.

Record Reviews

EXCELLENT VERY GOOD
GOOD FAIR POOR

Deja vu Crosby, Sillis, Nash & Young, Dallas Taylor & Greg Reeves (Atlantic SD 7200) — This is one of the finest albums of the year. There isn't a bad cut in it, and there are a half dozen excellent tunes.

The fruitful association of Crosby, Sillis & Nash, now bolstered by Neil Young and further reinforced by Dallas Taylor and bassist Greg Reeves is certainly one of the most outstanding in contemporary music.

The album's origin is well mixed; there are two tunes by Crosby, two by Sillis, two by Nash and two by Neil Young. The sole outside tune is "Woodstock" by Joni Mitchell. There are several highlights: Sillis' "Carry On," a shifting tempo tune, is easy on the ear; Nash's "Teach Your Children" delivers a needed message in groupness rather than being merely platitudinal.

Fun From The Gutter
Champion Jack Dupree (Atlantic SD 8255)
This delightful scoundrel's music is so enjoyable its almost painful.

Retired Teachers Host Conference

PETER HUGHES legislative representative of the American Association of Retired Persons and National Retired Teachers Association is scheduled to speak tonight to members of the Idaho Retired Teachers Association.

Speakers for the Idaho Retired Teachers Association assembly which opened today in the Roundup Room of the Rogerson Hotel include Peter Hughes, legislative representative of the American Association of Retired Persons and the National Retired Teachers Association.

Mr. Hughes, Washington, D.C., will address tonight's banquet meeting of the association, discussing legislative programs of benefit to retired persons.

He represents the two organizations with a combined membership of more than 1,800,000 on legislative matters in Washington. A native of New York, he was educated in Montclair, New York and Colgate University, Hamilton, N. Y. He served as special assistant to Sen. George A. Smathers (D-Fla.) and legislative assistant and press aide to Rep. Robert Glavin (D-Conn.) before joining the AARP and NRTA.

Mr. Hughes has received numerous national awards in recognition for his services and is active in the Young Democrats Club and Burro Club of the United States, the United States Senate Staff Club and others.

Retired teachers from throughout Idaho began registering at 8:30 a.m. for the one-day assembly. Bess Bays, Boise, state president, will conduct the meeting with reports on the Idaho state employee retirement system and utilization of the National Retired Teachers Association.

Elsie Lindgren, Twin Falls, will be toastmistress for this evening's banquet.

Capture Of Ship Said 'Mistake'

Rare Plane Designed By Hickel

NEW-YORK (UPI)—Cmdr. Lloyd M. Bucher, commander of the U.S.S. Pueblo which North Korea seized more than two years ago, believes the "whole damn thing was a mistake," Newsweek magazine said Sunday.

Bucher, who was held captive along with his crew for nearly a year, said he believes the North Koreans took the intelligence-gathering Pueblo for a South Korean ship because it flew no colors and was numbered and painted like a South Korean naval vessel.

Bucher said that once the North Koreans had encircled the Pueblo and realized their mistake, they proceeded "to make the best of a bad situation," according to Newsweek.

The magazine said that Bucher, who was assigned to the Navy's Postgraduate School at Monterey, Calif., after his release by North Korea, had to drop out after 15 weeks despite high grades because of severe headaches, sometimes lasting as long as three days, which were connected to his treatment at the hands of his captors.

Newsweek said he plans to return to school and complete the course. Bucher, the magazine said, believes the Navy will not promote him again "for both medical and political reasons" and he plans to retire at the end of 20 years' service in 1972.

COLUMBUS, Ohio (UPI)—Interior Secretary Walter J. Hickel is justly proud of the airplane he helped build—"It has no sonic boom, doesn't pollute the air, and requires no runways or new airports."

Hickel's invention is a paper airplane, which he entered in a local contest here. He calls it "the environmentalist."

The craft was made entirely from recycled refuse by the Black Clawson Co. of Middle-town, Ohio, Hickel said.

"This aircraft, in addition to being a completely recycled product, has several other environmental quality aspects," he said in a note accompanying the entry.

"You will note upon flying the environmentalist, it has no sonic boom, doesn't pollute the air and requires no runways or new airports."

He recommended the plane be given to a youngster after the June 21 contest at nearby Lockbourne Air Force Base. "and you might recycle the box (it was shipped in), by sending any prizes back to me in the same box."

Guardsmen Get Mail On Riots

Get a tune-up at BILL WORKMAN FORD

COLUMBUS, Ohio (UPI)—Ohio National Guard officers said they have received 6,513 letters, telegrams and post cards expressing reaction to the Guard's handling of Ohio Campus disorders, including the shooting deaths of four Kent State University students.

Reactions, most of which concerned the KSV shootings, RANGED FROM "next time let them have it with both barrels" from a Columbus man, to "you bear the burden of four murders..." from an Army veteran in Seattle, Wash.

Lt. Col. J.E.P. McCann, administrative assistant to Gen. Sylvester del Corso, commander of the Guard, said the huge volume of mail, the target in the Guard's history, contained 9,069 expressions of agreement and 444 expressing criticism.

Unique
PROVIDENCE, R.I. (UPI)—The 250 graduating students at the Rhode Island School of Design received their diplomas on a reproduction of a nude painted by the 19th Century French artist Ingres. The black and white reproduction of the nude woman reclined above the lettering on the diploma, which was bordered by red and purple flowers. The traditional formalities of speakers, hands and caps and gowns were ignored at Saturday's ceremony but a canon was fired to honor those passing degrees.

Maddox Halts Newspaper Sale

ATLANTA (UPI)— Anyone planning to read the Atlanta Constitution or Journal of Work in the complex of state buildings near the capitol today better bring his own newspaper, aren't on sale there.

"The only copies of the Atlanta newspapers that will appear on the capitol grounds will be those brought in by state employees," said Gov. Lester G. Maddox, who personally helped remove the vending machines Memorial Day.

The governor added he hopes to convince "many (state employees) to cancel their subscriptions as I have."

In fact, said Maddox, "I hope to have 50,000 cancellations within the next couple of months and hope to eventually get this up to 100,000."

Maddox said it was an "outright lie" if anyone said he was removing the vending racks from state property because the newspapers—largely in the state—oppose his plans for a special legislative session.

"I started this fight years ago," Maddox told newsmen just before he rode a blue pickup truck through state property and helped load the machines into the truck to be carted off. In all, he removed or had removed about 28 racks.

Maddox insisted the newspapers will not be sold on state capitol property until the leftist management of these papers apologize to the people.

"It's time they started taking the side of the people instead of always being against them," newspaper officials refused to comment on the matter but loudly displayed a front page editorial Sunday which was headlined "Welcome, Governor" and said: "Presumably having solved at least to his own satisfaction all the pressing problems of state, his apologetic excellency, Governor Lester Maddox has announced his intention of coming over and picking us 'dirty devils' for a week, two weeks... maybe even a month."

"Good. The governor is an old hand at pickinget... and we

If you're casting a wider shadow these days you could be in trouble

People in our "Stress Society" tend to over-indulge and as a result, overweight and high blood pressure are common problems. If you're in your 40's or 50's the odds are high you have one or both of these problems. If you identify yourself with this group you'd be wise to do something about it. Like getting regular check-ups, finding out your limits, and sticking to them. If you've been thinking about life insurance, and discovered that the cost in your case is high, or even difficult to get, Manufacturers Life may be able to help. We have always believed that life insurance should be available to the largest group of people possible and at the lowest possible price. You will find the Man from Manufacturers well qualified and helpful in your selection of a plan to suit your particular needs. Call him soon.
