TEN CENTS

Violent Forecast

CARTOON from "The Black Panther," official publication of the Black Panther Party, appeared in the Aug. 8 issue, the same week as the Martin County shootout in which Superior Court Judge Harold J. Haley was killed during an abortive escape attempt. The caption proclaims that the time is at hand to use violence in freeing prisoners. (UPI)

House OK's School Act

WASHINGTON (UPI) — The House has voted to override President Nixon's veto of an over-the-budget \$4.4 billion school aid bill. Senators today were getting in line to add their endorsement.

The Senate vote will come next Wednesday. Meantime, a check showed Democrats solidly supporting the move to enact the bill over the veto, and more than enough Republicans ready to join them to make a two-thirds majority and write the bill into law.

Back-home popularity of federal aid to schools — from elementary grades to graduate levels — easily outweighed Nixon's economy plans in the House Thursday when members voted 289 to 114 to repeal the bill.

That was well over the two-to-one margin needed, with 77 Republicans joining 212 Democrats voting to override while 13 Democrats and 101 Republicans voted not to do so.

But on a second bill vetoed Tuesday by the President as too costly — an \$18 billion measure carrying above-budget funds for urban renewal, water and sewage grants, and veterans' medical care — Nixon's stand was upheld by the House.

Fighting Intense Along Laos Border

SAIGON (UPI) — The U.S. Command today reported intensified fighting along the Laotian border to the south of Allied artillery base O'Reilly, under pressure from an estimated 2,000 North Vietnamese troops.

U.S. military spokesmen said Viet Cong and North Vietnamese troops attacked a U.S. Army unit near the Allied outpost of Kham Duc, 51 miles southwest of Dan-Nang Thursday.

The mortar and machine gun fire killed one American and wounded 12, U.S. military spokesmen said. The defenders killed at least two of the attackers.

Kham Duc is seven miles from Laos and some 110 miles south-southeast of the embattled Allied artillery base O'Reilly.

The base is reported by military intelligence to be surrounded by as many as 2,000 North Vietnamese troops bent on destroying the base's effectiveness in shelling Communist infiltration routes from Laos.

Panel Asks Slow Traffic at Schools

TWIN FALLS — Low speed limits were recommended Thursday to protect Bickel and Lincoln schoolchildren from heavy traffic rerouted in front of their schools.

The Twin Falls City Traffic Safety Commission Thursday unanimously recommended to the city council that the speed limit in front of the schools be kept at 25 miles per hour — rejecting State Highway Department plans to increase the speed limit to 35 miles per hour.

Commission members said the speed limit should be kept at 25 miles per hour for the entire length of the street rather than having short speed zones in front of the schools with higher limits for the rest.

The commission will ask that crosswalks be located at intersections and not in the center of blocks in front of school entrances.

The crosswalk for Bickel School would be at the intersection of Sixth Street East, while Lincoln's crosswalk would be at Seventh Street North.

Traffic commission members recommended yellow flasher lights be provided in the vicinity of the schools to warn approaching vehicles.

The commission recommended police crossing supervision be left to the discretion of local police.

Parking is now prohibited from 8 a. m. to 5 p. m. in the blocks in which the schools are located. The traffic commission's recommendation calls for new no-parking zones 50 feet back from the intersections in the blocks on either side of the two schools.

Those meeting Thursday said they have no objection to moving the bus parking for loading and unloading of students to Sixth Street North instead of Second Avenue at Bickel School.

In other business, the committee deferred action on a request for reduction of speed limits from 50 miles per hour to 35 miles per hour on Blue Lakes Boulevard north of Falls Avenue.

Members suggested police speed checks to supplement checks by the Idaho Department of Highways, before a recommendation is made.

At the request of City Manager Jean Miller, the committee also asked for speed checks on Sunrise Boulevard between Filer and Addison Avenues. Present limits are 25 miles per hour and complaints have been voiced by residents who say drivers generally exceed the regulation.

Thursday's actions followed an appeal last week from Twin Falls School officials seeking regulations to assure safety for the school children at the two schools.

'Coffins Could Burst'

WASHINGTON (UPI) — The Army admitted during questioning by a federal judge Thursday that coffins of nerve gas might burst under pressure if dumped into 10,000-foot-of-water and release all their deadly contents at once.

The concession came at a hearing on a motion for a court order to halt temporarily the Army's plan to sink an old Liberty Ship loaded with 14,500 concrete and steel encased rockets containing the obsolete nerve gas in three miles of water off Cape Kennedy.

U.S. District Judge June L. Green was expected late in the day to announce her decision on the request by Florida Gov. Claude R. Kirk — and the Environmental Defense Fund, a nonprofit group of scientists and citizens. They claim the dumping should be in more shallow waters to assure full protection for Southeastern states.

As loading of the vessel proceeded at top speed at the Sunny Point military terminal in North Carolina, an Army lawyer told Judge Green that government scientists could not say for sure whether the ship's deadly cargo would withstand the water pressure when it descended to the bottom of the Atlantic 282 miles off Cape Kennedy.

"We don't know whether they (the rockets) will be crushed or not," said Kenly Webster, the Army's deputy general counsel. "They may or may not, your honor. We are right at the equilibrium point on that question."

Webster said he was not sure but that "I don't believe we expect it to explode."

Falling Slab Kills Workers

PHILADELPHIA (UPI) — Three construction workers were killed Thursday when a five-ton slab of granite fell 12 floors onto a pedestrian walkway from a 38-story building under construction one block from City Hall.

Israel Balks on Ceasefire Talks

By United Press International
Israel will refuse to begin Middle-East peace negotiations until new Soviet missiles that it says violate the cease-fire are removed from the Egyptian Suez Canal front, political sources in Jerusalem said today.

The sources said a majority of the Israeli cabinet, led by Prime Minister Golda Meir and Defense Minister Moshe Dayan, overwhelmed a minority led by Foreign Minister Abba Eban Thursday and decided to take a stiffer line toward the American peace initiative.

Dayan charged that the Egyptians and Russians moved SAM2 and SAM3 missiles to within 12 miles of the Suez Canal a few hours after the cease-fire began last Friday.

Egypt said the Israeli claims of a cease-fire violation were a "contemptible attempt by Israel to evade the consequences of its acceptance of the American peace initiative."

These consequences, Egypt said, would include Israel's withdrawal from territory occupied during the 1967 Middle East War.

Jordan accused Israel of violating the cease-fire with a strafing attack by two jets Thursday on a North Jordanian village. A Jordanian spokesman said there were no casualties or damage in the attack on the village of Northern Esh-Shana, five miles south of the Sea of Galilee.

Political sources in Jerusalem said Eban, backed by a few other cabinet ministers, had argued that the missile crisis, though serious, should not be allowed to interfere with attempts to get negotiations started. But Eban had to give in to the will of the majority, they said.

Eban said in a television interview Thursday night that Israel had not replied to a query from U.N. peace envoy Gunnar V. Jarring as to when talks should begin.

Dayan told the Knesset (parliament) that the United States, as the originator and mediator of the cease-fire agreement, should police it.

U.S. officials in Washington said the United States was still trying to determine whether there was a cease-fire violation.

States, as the originator and mediator of the cease-fire agreement, should police it. U.S. officials in Washington said the United States was still trying to determine whether there was a cease-fire violation.

Doubts Move-Up

WASHINGTON (UPI) — ABC News said Thursday night in a report from its State Department correspondent that there is "no evidence" that Egypt had moved Soviet-built anti-aircraft missiles closer to the Suez Canal in violation of the 90-day Middle East cease-fire.

ABC news correspondent John Scall said after studying aerial photographs "American Experts see no evidence that Russian missiles were moved closer to the Suez Canal, as the Israelis allege."

Scall said the missiles have been moved, "but in a north-south direction, not eastward toward the Israeli lines." He said it was not clear whether this deployment continued after the cease-fire began at midnight last Friday, "but officials doubt it."

Scall said the Americans have invited Israeli officials to present any contrary evidence they have, "but until they produce more convincing proof, the belief here is that the Egyptians are not guilty."

Panel Hits Gem Mine Law

MOSCOW (UPI) — State law regulating mining came under heavy criticism Wednesday night as an Idaho Legislative Council committee ended a three-day tour of north Idaho mines.

Five representatives from conservation groups testified to damage being done by mining in north Idaho at a hearing held by the eight-man committee on surface mines at the University of Idaho.

Fred Rabe, Moscow, advisor to the Idaho Environmental Council, said environmental quality is not being preserved by laws regulating strip-mining in the state.

"In the past, we have felt the earth's resources were limitless and that our environment could withstand any impact we might make in our extraction of those resources," Rabe said.

"But with the present increasing population and the growing demands of an already voracious appetite for resources, we are beginning to see we can soon destroy our environment," he added.

Rabe said mining has affected water quality in north Idaho. He said stream alterations had been noted after dredging operations on the east and west fork of Emerald Creek and the north fork of the Palouse, and after strip mining on Moose Creek.

Nixon, Kosygin Plan N. Y. Talk

LONDON (UPI) — Eastern European diplomats said Thursday that Soviet Premier Alexei N. Kosygin plans to meet with President Nixon and other Western leaders in New York in October on the occasion of the United Nations 25th anniversary session.

The diplomats said a summit conference was virtually certain. But they said Kosygin apparently would prefer a four-power meeting with Nixon and the French and British premiers rather than a bilateral meeting with Nixon.

If a Big Four summit conference proved impractical, a meeting between Kosygin and the American chief executive appeared "inevitable," the sources said.

The Eastern diplomats indicated the Kremlin's preference for a four-power conference was motivated by its apparent desire to avoid charges of "ganging up" in world affairs by the two superpowers.

World leaders will converge on New York for the special U.N. meeting scheduled for October 10-24.

RALPH NADER

Agnew Sets Tour

WASHINGTON (UPI) — Vice President Spiro T. Agnew will make a nine-day trip to South Vietnam, South Korea, Taiwan and Thailand later this month on a fact-finding mission for President Nixon.

GM Pays Car Critic \$425,000

DETROIT (UPI) — General Motors agreed Thursday to pay consumer advocate Ralph Nader \$425,000 in an out-of-court settlement of his \$25 million invasion of privacy suit.

The company said Nader withdrew all claims for punitive damages as part of the settlement.

The suit stemmed from an investigation by private detectives of Nader's private life following publication of his book "Unsafe At Any Speed," in which he charged GM's Chevrolet Corvair was an unsafe car.

It developed that the private investigating firm hired by the auto company adopted "gumshoe" tactics in investigating Nader's private life, including questioning friends and neighbors about Nader's social life.

During Senate committee hearings, GM Board Chairman James M. Roche issued a public apology to Nader. While accepting full responsibility for the investigation, Roche said he deplored the tactics used.

T.F. Woman Dies In 2-Car Crash

BURLEY — A Twin Falls woman, Vera Jensen, of 219 Harrison St., was killed early today in a two-car collision on Highway 27 north of Burley.

Mrs. Jensen was a passenger in a car driven by her daughter, Mrs. Sadie Perry, 48, also of 219 Harrison St., who was listed in serious condition at Cassia Memorial Hospital.

A third person in the car, Dora Hamilton, 65, Oakland, Calif., was also listed in serious condition at Cassia Memorial Hospital.

The second vehicle was driven by Kenny Smith, 21, Malters. He was in fair condition today at Cassia Memorial Hospital.

Sells To Chileans

BOISE (UPI) — The president of Boise Cascade Corp. said Thursday a law has been signed authorizing the purchase of the company's interests in Chile's largest private electric power company.

Robert Harberger, Boise, said under terms of the law the Chilean government will pay Boise Cascade more than \$9 million for a period of 25 years at six per cent interest after the initial \$3 million payment.

He said, "This is not an expropriation. It is a sale of property and eliminates several years of extended negotiations."

Youthful Escapees Apprehended

SHOSHONE — Three of the 17 escapees from St. Anthony Youth Training Center were apprehended here Thursday afternoon in an alley behind the Claude Chens residence.

Sheriff Thomas Conner and State Patrolman C.R. Eggleston arrested Marvin Walker, Dan Viller and Floyd Broncheu after the boys had asked the courthouse custodian, Harold Burgess, for some cigarettes as he was walking on the sidewalk along Highway 93.

When Burgess returned to the courthouse he heard the officers discussing the alert for the escaped youths.

Police Chief Bill Anderson said a fourth youth, Oan Johnson, escaped from the officers, but was apprehended Thursday night in Bellevue where a late model car reported stolen from Idaho Falls, had run out of gas.

The police chief said he expected the four boys would be returned to St. Anthony sometime today.

Sells To Chileans

BOISE (UPI) — The president of Boise Cascade Corp. said Thursday a law has been signed authorizing the purchase of the company's interests in Chile's largest private electric power company.

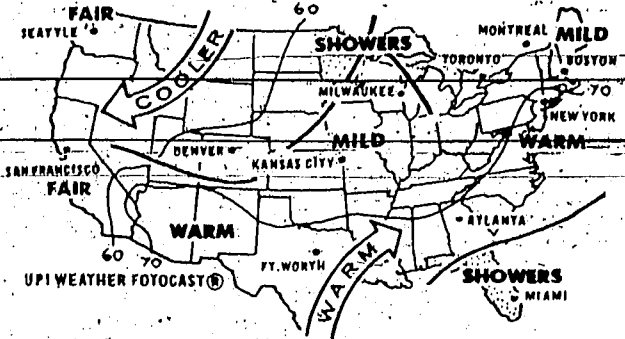

WHEEL THAT WILL open one of the flood valves of the LeBaron Russel Briggs, World War II cargo vessel that is carrying a cargo of nerve gas rockets, is checked by military technical specialist. The ship is to be towed to sea Saturday toward a destination some 280 miles off Cape Kennedy, and the flood valves then are to be opened to sink ship and cargo. (UPI)

A TWIN FALLS woman, Vera Jensen, was killed early Friday when this car, in which she was riding, was struck broadside on Highway 27 near Heyburn.

Daily Weather Report

PREVIEW OF ESSA WEATHER BUREAU FORECAST TO 7:00 A.M. EST 8-15-70

DURING FRIDAY NIGHT showers will be indicated over the Upper Mississippi Valley and the state of Florida. Clear to partly cloudy skies over the remainder of the nation. Cooler readings will be noted in the Northern Plains and most of the Rockies.

National Forecast

Table with columns: Max, Min, Precip. Rows for various cities: Atlanta, Bismarck, Calgary, Chicago, Cleveland, Denver, Des Moines, Detroit, Fairbanks, Fort Worth, Honolulu, Indianapolis, Jacksonville, Juneau, Kansas City, Las Vegas, Los Angeles, Memphis, Miami, Minneapolis, New Orleans, Omaha, Philadelphia, Portland, Ore., St. Louis, Salt Lake City, San Diego, San Francisco, Seattle, Spokane, Washington, Winnipeg.

Weather Synopsis

The dry cold front which passed through the area Thursday is now located in Central Wyoming and Northern Utah. High pressure is building up over Southern Idaho and East-Central Oregon behind this front with the main high pressure system located 400 miles off the Oregon coast. This high pressure system will continue to keep the main storm track over the far west, well north of Idaho. The surface winds will not be as strong as yesterday, so high temperatures will rise slightly today. Temperatures should be up about three degrees in most areas except for extreme Southeastern Idaho, where it will be slightly cooler today. This means that highs today will range from the mid 80's to the mid 90's. This morning lows are in the upper 40's to 50's. No rain was reported over Southern Idaho and East-Central Oregon on Thursday.

Idaho

Table with columns: City, High, Low. Rows for: Aberdeen, Bear Lake, Boise, Buhl, Burley, Caldwell, Castelford, Emmett, Fairfield, Gooding, Grace, Grangeville, Halley, Jerome, Kimberly, Kuna, Lewiston, Mountain Home, Parma, Pocatello, Rupert, Salmon, Soda Springs, Tuttle, Twin Falls.

Marine Officer Takes Course

Marine Maj. Jay M. Davis Jr., son of Mr. and Mrs. Jay M. Davis, Twin Falls, was graduated from the Amphibious Warfare School at the Marine Corps Base, Quantico, Va. The school provides professional education for majors and captains to prepare them for command duties at the battalion-squadron level and staff duties at the regimental-group level.

GRAFFITI OUR BOSS IS A HEADACHE AND HIS WIFE'S A PILL

Missing Man in Oregon

TWIN FALLS — Roy Rogers, 18, who triggered a widespread air and ground search when he apparently disappeared in the Balanced Rock area, is believed to be in Oregon. His Yamaha motorcycle was discovered Thursday by police in Arlington, Ore., about 71 miles west of Pendleton, just south of the Columbia River. Twin Falls County Sheriff Paul Corder said police in surrounding states had been alerted to look for the 'cycle when no trace was found of the youth.

Civil Air Patrol cadets joined the search on Wednesday, with two small aircraft flown by CAP instructors and a Jeep carrying two cadets scouring the area from the ground. Deputy Sheriff Bud Skinner also flew an aerial search. "Flying low enough to see the jackrabbits on the ground," Sheriff Corder said today. "We felt he had left the area when we found no trace of him or his motorcycle." Rogers left his wife in Twin Falls, with no reason given for his disappearance, Corder said. "No further action by sheriff's officers is indicated, Corder said. He added that he did not know if Rogers is in Arlington, "but we imagine he's there if his bike is there." He said he believed that Arlington police had talked to Rogers, but this had not been confirmed by press time today.

The Almanac

By United Press International Today is Friday, Aug. 14th, the 226th day of 1970 with 139 to follow. The moon is between its first quarter and full phase. The morning stars are Mars and Saturn. The evening stars are Mercury, Venus and Jupiter. On this date in history: In 1900 2,000 marines helped capture Peking, China, to end the Boxer Rebellion. In 1935 the Social Security Act was passed by Congress. In 1945, at 7 p.m., Eastern War Time, President Truman announced that Japan had accepted an unconditional surrender. In 1958 a New York bound Dutch airliner crashed into the Atlantic, killing all 99 persons aboard. A thought for the day: American poet Alice Cary said, "Kiss me, though you make believe, kiss me, though I almost know you are kissing to deceive."

Twin Falls News in Brief

Elizabeth Nesbitt, daughter of Mr. and Mrs. G. K. Nesbitt, Twin Falls, leaves Saturday to visit Irene Chitty, Caracas, Venezuela. Miss Chitty was the American Field Service exchange student during the 1968-69 school year and made her home with the Nesbitts.

New Office Will Expand Seen... Food Stamp Program

TWIN FALLS — Three "outreach workers" have been named in the three counties of the South-Central Community Action Agency to spread the word about the food stamp program. A new office has been established under the title "Emergency Food and Medical Program," located at 634 Adair Ave. W. In the old hospital building, Mrs. Karen Christopherson is in charge as coordinator. The new office is designed to expand the food stamp program by reaching more people and teaching them of the program's benefits, Mrs. Christopherson said. In addition, the outreach workers aim to work with needy people on nutrition and wise shopping to make their money stretch farther. "Ultimately, classes of 10 persons each will be taught the elements of nutrition, food buying and meal planning," Mrs. Christopherson said. The outreach workers, each of whom will be responsible for their entire county, include Mrs. Jim (Patricia) Brown, residing in Kimberly, working in Twin Falls County; Mrs. Steve (Anita) Fahrenwald, Jerome, for Jerom County, and Mrs. Gerald (Marie) Bean, Burley, in Cassia County. Many needy people apparently still are unaware of the food stamp program, Mrs. Christopherson said. Others apparently believe that only recipients of welfare are eligible, "and this isn't true. Any needy person who can meet the criteria is eligible," the coordinator explained. Much of the information about food stamps is conveyed by people talking to their friends, she said. People will know of needy families, or will see families shopping who are obviously in dire circumstances. The outreach workers should be told of needy persons or families, and they in turn will contact them. The Emergency Food and Medical Program has been funded for an 18-month trial period by the Office of Economic Opportunity (OEO), which operates the CAA programs.

City Opens Bids for Supplies

TWIN FALLS — Bids for coal, tires, petroleum products and anti-freeze were being reviewed Friday by City Manager Jean Millar and will be acted on Monday night by City Council members. Seven firms submitted bids on petroleum products with the apparent low for gasoline being American Oil Co. with prices of 22 1/2 cents per gallon for ethyl; 19.9 cents per gallon on regular in bulk purchases and 21 cents per gallon on regular in small purchases. Kendrick Oil Co., bid a low of 11.9 cents on diesel fuel and 12.5 and 11.0 on burner oils. Consolidated Chemical Co. bid \$1.25 per gallon on antifreeze. Other bidders included Firestone Stores, O-D Tire Co., Standard Oil and United Oil Co. The bids still were being reviewed Friday to determine low bids. Firms submitting figures included O-Tire Co., D and B Supply, Firestone, Magel Tire Co., Simplot and United Oil Co.

Bridge Results Reported Here

TWIN FALLS — The Magic Valley Duplicate Bridge Club met at the Episcopal Church for the fifth of six weekly games. Winners included, north and south, Mrs. H. Munyon and Mrs. Roy Hill, first; Mrs. J. Meeks and Mr. Mrs. J. F. Henry, second; and Mrs. J. Archer tied with Mrs. Nicholas Bradie and Mrs. L. H. Van Riper for third. East and west winners were Mrs. A. V. Williams and Mrs. B. E. Stanley, first; Mrs. A. W. Shrank and Mrs. F. E. Jensen, second; and Mrs. Lou Wendling and Mrs. Bill Cook, third.

Stella Sligar

GOODING — Mrs. Stella Carrie Abernathy Sligar, 70, died Thursday morning at her home of a short illness. She was born Oct. 17, 1890 in Toponlis, now Gooding. She attended grade schools in Gooding, graduating from Shoshone High School. In 1909 she married Thomas Eugene Abernathy in Gooding. He died in 1932. She later married Wesley H. Sligar in Boise, Jan. 20, 1936. The couple operated the Madeline Hotel in Gooding until 1967, at which time they retired. She attended the Baptist Church. She is a former member of the Daughters of American Revolution. Survivors include her husband Wesley, Gooding; one son DeVelle Abernathy, Sun Valley; one daughter, Mrs. Leonard (Vernita) Pough, Oroville, Wash.; three sisters, Mrs. Alta Woodworth and Mrs. Netta Meeker, both Oregon City, Ore., and Mrs. Gladys Haley, Yakima, Wash.; six grandchildren and 17 great-grandchildren. She was preceded in death by one brother and one sister. Graveside services will be conducted at 1 p.m. Monday, at Elmwood Cemetery, Gooding, by Rev. Roy Myers of the Baptist Church, Gooding. Friends may call at Thompson Chapel, Gooding, all day Sunday and until 1 p.m. Monday.

Vietnam Duty

U.S. Air Force S. Sgt. Harold M. Greenfield, son of Gordon L. Greenfield, Wendell, is on duty at Tan Son Nhut Air Base, Vietnam. Sgt. Greenfield serves as an aircraft electrician with the 460th Field Maintenance Squadron, a unit of the Pacific Air Forces. PACAF is headquarters for air operations in Southeast Asia, the Far East and the Pacific area.

Pollition

In one month about 72 tons of dust per square mile falls on Detroit, 61 tons on New York City, 61 tons on Chicago, 46 tons on Pittsburgh, 34 tons on Cincinnati and 33 tons on Los Angeles, according to Encyclopaedia Britannica.

THANK YOU...

Our sincere thanks to the banks of Twin Falls County and the supermarkets including Albertson's, Buttreys, Safeway's, Shelby's and Swenson's South Park store, and Blick-Reese Warehouse of Castleford and Community Builders Supply in Murtaugh. A special thanks to the League of Women Voters of Twin Falls who gave so generously of their time. The efforts and cooperation of all of these are greatly appreciated in the voter machine educational program of Twin Falls County for the Aug. 4 primary election.

TWIN FALLS COUNTY COMMISSIONERS AND COUNTY CLERK.

THE U. S. COMMAND said Thursday that 85 American servicemen were killed and 769 wounded in the Vietnam war last week. The total of American combat dead in the Vietnam war since Jan. 1, 1961 now stands at 43,297. (UPI)

Registration Heavy at CSI

TWIN FALLS — Early registration at the College of Southern Idaho has been better than expected, according to Registrar Gorry R. Meyerhoeffer.

About 80, rather than the 50 expected, students have been registering each day since Aug. 3. At this rate, the expected 10 per cent increase in enrollment may be exceeded, he said.

Students may register from 9

a. m. until 4 p. m. through Aug. 19 at the downtown administration office, and next Monday until 5 p. m. Six to eight counselors will be available to aid students.

Regular registration will begin Aug. 26 and students may register for three days from 9 a. m. until 4:30 p. m.

CSI is offering two adult classes this school term — physical conditioning and environmental problems.

Meyerhoeffer said students who wish to register in a special class should register early, before the class is closed.

Vocational education registration also is going well, Assistant Director Neil Cross said.

Most classes are almost filled and auto mechanics and practical nursing classes have been filled for weeks.

He also said there is no enrollment limit on agricultural business, distributive education and law-enforcement classes.

Suit Claims Soft Drink Spoiled

TWIN FALLS — A suit for \$17,500 plus medical expenses and other losses was filed in Fifth Judicial District court here Thursday against Albertson's, an Idaho food chain, and Filling Corp and Black and White Corp., packagers for Pepsi Cola Bottling Co.

Mont L. Boyer, plaintiff in the case, charges he purchased a can of Pepsi Cola June 5, 1969, from the Albertson's store, then located at 607 Filer Ave. He said he became violently ill from drinking the soft drink and on examining the can found a tiny pin-hole, which had allowed the product to become contaminated.

Stolen Truck Recovered

HAILEY — A semi-truck, stolen from Hailey early Wednesday morning, was recovered that evening by state police.

Police found the rig, three-fourths mile south of Berger, out of gas and deserted. A half-mile farther down the road, police said, they arrested Jack Morgan, 37, who witnesses identified as the man who earlier abandoned the truck.

FIVE TORCH MEMBERS met at Harmon park Thursday to give Henry Fabeln, 29, upper left, and Glenn Blomn, 15, upper right, a send-off to the National Special Olympics to be held in Chicago on Soldiers Field. Both boys are first place winners in local events and gold medal winners in state events. There will be more than 2,500 children from 47 states, Canada and France, competing. The two Twin Falls entries will compete in the 50 and 300-yard dashes and the 440-yard relay race. They traveled by car to Boise then flew to Chicago, and will return home Saturday.

Camp Fire Girl Hours Changed

During the remainder of August and the first part of September the Magic Valley Council of Camp Fire Girls office will keep a revised office schedule.

From Aug. 17-21 the office will close at 4 p. m., but will be open during the noon hour.

From Aug. 24-28 it will be closed for vacation, and from Aug. 31-Sept. 4, the office will be open Monday, Wednesday and Friday only, from 9 a. m. until noon.

CAA Meet Set

TWIN FALLS — The Board of Trustees of the South-Central Community Action Agency will conduct its quarterly board meeting Aug. 20 at the Twin Falls County Courthouse, in Judge Cunningham's courtroom.

The trustees will consider a proposed change in the CAA bylaws.

Truck Strikes Bridge

SHOSHONE — Damage to a 1968 Dodge pickup truck was estimated at \$250 and a camper on it was declared a total loss as the result of an accident at 1:15 a. m. Wednesday one mile north of Shoshone on U.S. highway 93.

Homer G. Solder, 25, Route 1, Bollevue, was driving the vehicle, when he lost control. It sideswiped a bridge abutment, spun-around-and-hit-the-other

side of the bridge, throwing the camper off. It came to rest in the east borrow pit, north of the bridge.

The driver was cited with driving while intoxicated.

Hans Hämmergatterstein was a pseudonym used by Henry Wadsworth Longfellow, famous American poet.

Agency Has Lots Of News, All Alike

When the U. S. Department of Commerce institutes new business programs, it believes in letting people know about them.

A fat, frank envelope from the USBC Office of Field Services, Salt Lake City, was delivered to the Times-News Thursday containing six identical releases about a conference held to advise field directors of the new programs.

Purpose of the conference, the release pointed out, was "to advise Field Office personnel of the best means of bringing these programs to the attention of businessmen."

The same mail brought another letter from the same office, signed by Ray L. White, director, urging publicizing of an enclosed preliminary report of the 1970 census.

Pure limestone water. Part of the Beam family art for 175 years.

Baker Beam and Booker are out on Beam's own fresh-water lake, collecting a water sample. Sweet, soft, and iron-free, it's as much a part of the Beam formula as the measures of choice grains. Together, Booker and Baker represent the sixth generation of the only Kentucky family that's made the same Bourbon since 1795.

So when you sip Jim Beam, savor its quality and its light taste. That's what we mean when we say it's a 175-year-old family art.

Effects Of Defoliants To Be Studied

WASHINGTON — The Pentagon, which has been sharply criticized for the widespread use of defoliants in Vietnam, is quietly proposing a detailed and comprehensive ecological survey to determine the effects of all wartime operations there.

The study is expected to continue for three to five years. The impact of defoliation operations will be a principal focus of the survey, which is said to have originated as an idea of Defense Secretary Melvin R. Laird.

The Pentagon will therefore be directly into the complaints of private U.S. scientists that indiscriminate use of defoliants and area bombing by the big B-52s have caused permanent ecological damage in South Vietnam.

Divided Future

The partition of Germany into East and West countries is given permanent legal sanction in the agreement between the Bonn government and the Kremlin to renounce the use of force and to maintain the present national borders in Europe.

West Germany accepted the reality of partition, with an expressed hope for possible peaceful reunification. In return, the West Germans expect an easier relationship with Russia, increasing trade and amelioration of Berlin's condition, divided by the Berlin Wall.

Russia, while imposing present national boundaries on West Germany, keeps effective control of East Germany with the aim of forever neutralizing Germany as a threat.

The agreement may well mark a turn for the better in East-West relations and as such must be welcomed.

Any relaxation of tensions and mutual fears is desirable and essential to further progress in peaceful resolution of differences.

Foreign Minister Scheel of West Germany said the agreement strengthened peace in Europe, but Chancellor Willy Brandt said he would not ask the Bundestag to ratify the treaty unless the Russians agree to improvements in Berlin's situation, an island in East Germany.

East Germany apparently was not consulted by her Russian masters although the agreement has fateful implications for her.

Free mingling of East and West Berliners, greatly desired by the West, is feared by the East and little real improvement in the situation can be expected until and unless the Berlin Wall is removed.

"So Happy to Have a High-ranking Delegate To Negotiate with Again!"

ANDREW TULLY

Popular

It requires a special kind of courage to become a spelunker. Intrepid explorers of uncharted caves obviously don't suffer from claustrophobia.

The beauty of the formations, the insects and fish which survive in many caves for generations without a glimpse of sunlight, the suspense of never knowing what might be found around the next turn — these are some of the lures which draw

thousands to this specialized form of exploration.

They come from all walks of life. Some are scientists following their disciplined curiosity into another world. Many are students, housewives, businessmen and other part-time explorers out to chart new courses in an unusual domain.

More than 50,000 caves in the U.S. and thousands more in Canada await the penetration of their carbide lamps and the sound of their non-slip boots, many of their passageways as virgin as the ocean floor.

Henry's Legacy

Henry Ford generally is credited with being first to introduce the automotive assembly line. He would be proud of one being used this year to turn out one of the small models being produced by American manufacturers to compete with foreign imports.

It will be virtually a computerized car. Computers were used to smooth out the rough design, to find any flaws, to help plan the production line, and to

check the quality of the car as it proceeds through the line.

Other automated equipment handles such chores as performing 95 per cent of the welds, hanging the doors and unraveling production snags.

The line is in production use now, but when it becomes fully operational it will be geared to turn out 100 cars an hour.

Now if someone could find a way to automate the driver so he would respond with matching efficiency.

Women's Suffrage

Aug. 26, 1920, was a date memorable in American history. It was the day on which women were given the vote.

Political soothsayers 50 years ago loosed a barrage of predicted consequences, most of them dire, which were certain to occur as a result of women at the polls. Numerical superiority would obviously give the ladies the advantage in every election, they said. It would be only a matter of a few years until all levels of government would be captured by female candidates.

Women have achieved high offices under the impetus of the Nineteenth Amendment. They

have brought respect to official positions in many states, but there is a less pronounced tendency toward continuity of their careers than is true of the male politician.

There have been 13 presidential elections since women started to vote. Conjecture as to what changes if any there might have been in the roster of presidents had suffrage not occurred continues. That the feminine hand has been influential at the polls is apparent, but the greatest influence of the ladies — in domestic and political matters — probably is to keep those who attempt to follow the contemporary scene off balance.

Highway Freight

Highways were most widely used by United States manufacturers in shipping 1.385 billion tons of commodities in 1967, according to figures just released by the Census Bureau. Railways handled 52.9 per cent of the total and waterways 20.3

Two-thirds of highway shipments were by motor carrier and one-third by private truck. Later but incomplete estimates in shipping circles are that truck transportation continues to gain.

Rich, Poor In Same Boat

WASHINGTON — There are people who still enjoy a good, draw-out lynching, and they have crawled out of the woodwork to smack wet lips over the marijuana charges lodged against 16-year-old Robert Kennedy Jr., and 17-year-old Sargent Shriver, III.

Perhaps, indeed, a special compassion should be reserved for the children of the celebrated rich. Frequently, it is easier for a kid with money and a celebrated name to fall into trouble. The relatively poor often meager profit and no chance at all of celebrity for the professional peddlers of trouble — dopepushers, pimps and blackmailers. Sometimes the burden of being the offspring of a famous man or woman is too

heavy to carry and the boy or girl seeks release in the illicit, or merely the shifless.

Clearly, the scandal mongers seek to punish young Kennedy and young Shriver for the politics of their fathers. Given the propensity of the young to reject the dogma of their elders, this is ludicrous as well as nasty.

There is also something to the American ethic called the concept of redemption. Unless they changed the rules while I was out to lunch, it still applies even to rich kids.

Clearly, the scandal mongers seek to punish young Kennedy and young Shriver for the politics of their fathers.

There is also something to the American ethic called the concept of redemption. Unless they changed the rules while I was out to lunch, it still applies even to rich kids.

ART BUCHWALD

Tourist Explosion

TAHITI — There have been two explosions in the South Pacific recently. One is the French atomic bomb and the other is the tourist invasion of Polynesia. It is predicted that while the fallout from the former will blow away, the fallout from the tourist explosion will be around for centuries to come.

Tahiti and the other islands in the South Pacific are sought between cultures. The airplane has made it possible to fly to Tahiti in a matter of hours. The only ones who aren't awed by this are the Tahitians. They don't know who designed the 707 jet but they'd just as soon he'd drown in the nearest atoll.

For hundreds and hundreds of years Tahitians have set their own pace, which is somewhat slower than that of Americans and Europeans.

To cite an example, as of this writing, Tahiti is still celebrating Bastille Day, which took place on the 14th of July.

No one is exactly sure when the 14th of July will be over out here, though some hotel owners, whose help has not come back yet, are hopeful everyone will be at work by Christmas.

In order to enjoy the islands you must understand the thinking of the Tahitians. The American says "Please, I must have breakfast immediately because I have to catch a plane for Pago Pago."

"Yes, sir," the Tahitian says. But he thinks "I have already had breakfast and besides I do not have a plane to catch, so why is he bothering me with his problem?"

Ten minutes later the American says "Waiter, I must have breakfast now!" "Yes, sir," the Tahitian says. But he thinks to himself "If I do not give him his breakfast, perhaps the French manager will fire me and then I can go fishing in the lagoon."

Fifteen minutes later a fuming American says "See here, I have been waiting for breakfast for 25 minutes. I haven't even had coffee. I have five countries to see in six days. When I get back to the United States I will tell all my friends not to come to Tahiti."

"Yes, sir," the Tahitian says, wiping the counter. But he thinks, "If he would only keep his promise, then this hotel would close, and I could sleep with my payaya all day long."

A half hour later the American is now steaming and shouting for the "French manager" who is also steaming and yelling.

The Tahitian smiles at both of them and thinks to himself sadly "I would hate to be a tourist in Tahiti because it's almost impossible to get anything to eat."

GEORGE C. THOSTESON, M.D.

Staying Young

Dear Dr. Thosteson: I am a 62-year-old female with full office employment and very active. I especially enjoy young people and spend much time with them.

There are a few old people who severely criticize me for moving around and walking quickly. They say that because of my age I should stay at home more, learn to walk and move slowly to retain my health.

I have regular checkups with my family physician and have a clean bill of health, but these few old people say I will ruin my health if I don't slow down. Your thoughts please? — M. R.

Sounds like sour grapes. Let 'em sit around and listen to their arteries harden if they want to, but I'm all in favor of your method of staying young.

Dear Dr. Thosteson: Please send your booklet, "How to Stop Leg Cramps and Foot Pains," for which I enclose 25 cents and a self-addressed, stamped envelope. Do support stockings help this condition? — M. D.C.

Yes, if you have varicose veins or are on your feet a lot, such hosiery may give some relief, and is worth trying.

Dear Dr. Thosteson: I have pernicious anemia and take thyroid tablets each morning and a shot of B-12 once a month. A friend sent me some B-12 tablets. Would taking them cause an overactive thyroid? I haven't taken any yet. — J. F. S.

I'm afraid you are getting two separate problems mixed up. Vitamin B-12, given by injection, is the proper way to control pernicious anemia. Your thyroid problem is a separate matter. You take tablets for that. Taking B-12 tablets would not make your

thyroid overactive, but on the other hand, since you're getting the injections, I don't see why you should need B-12 in tablet form in addition.

Dear Dr. Thosteson—Please! Will just one small drink of whisky eventually do my system any harm if taken daily? That's all I take, and my children all feel it will cause some damage to my kidneys or liver—in time—I'll abide by what you say, sir. I am 65 and a widow. Sign me — GRANDMA.

If you mean just one a day, and by "small" you mean about an ounce, then I think your children are worrying over nothing.

(But as you know, I'm opposed to excessive drinking.)

Dear Dr. Thosteson: I am 78 and took 100 mg. niacin tablets for about three months. Then I started having trouble with burning urination. I stopped the niacin and began taking methenamine and sodium phosphates tablets, which helps some. Is this the right medication for me? Does niacin cause this trouble? — Mrs. I. S.

Niacin can cause a flushing of the skin shortly after taking a tablet, but this lasts only a few moments. It is possible, however, that it could cause burning on urination. Whether you improved because you stopped the niacin or started the methenamine is hard to say. One possibility is that you have developed cystitis (infection of the urinary tract) quite apart from the medications. That would require special treatment, and you will have to let your doctor diagnose and treat that.

You might try a smaller dose of the niacin, say 50 mg. instead of the 100, and see whether that allows you to be more comfortable.

BERRY'S WORLD

"Do you have anything left that's GOOD for us?"

Too Much Heat, no Ice Bother Siberia Tourists

"In frozen Siberia, who would have expected that our main problems would be too much heat and no ice?" This message on a postcard-bearing Russian stamp arrived today from a member of Alaska Airlines eight-day Siberian tour.

"Too much heat! Sweaters stayed in the suitcases and coats were a bother to members of the group that arrived back in Anchorage June 28. In Siberia, summer temperatures are said to average around 35 degrees Centigrade which sounds reasonable, but this translates into about 100 degrees Fahrenheit. All across Siberia the American travelers hit 90 degree weather and the further north they went, the hotter it got! Thunderstorms occasionally soaked some unwary tourists, but most of the rain was at night.

No ice! "If you want ice, come to Siberia in the winter," Sarge the Intourist representative, told com-

panions. There are no bars in Siberia accessible to tourists. Drinks are served in the hotel dining room, and if it's closed, that's too bad. Room services does not exist. In the dining room in Khabarovsk, the first stop, where the Moscow-bound party had been greeted with buckets of ice, not a cube remained. On the other hand, the tap water in the hotels of Irkutsk and Bratsk was very cold and tasty. On the restaurant tables there was nearly always cool apple juice labeled "Yablochny Natural." Coffee and tea were hot and good. Champagne and white wines were refrigerated and vodka is vodka, the group discovered, even at room temperature. The first cube of ice the party saw was on their jet, homeward bound.

To beat the heat, Monday morning early in Irkutsk, ladies with suitcases full of long-sleeved wool knits were off to shop for cotton dresses. From

the Angara hotel they were directed down Lenin Street, formerly Silk Road, the old caravan route south to China. At the Lenin statue they turned right onto Karl Marx street, in pro-revolutionary days a fashionable neighborhood of apartments and shops. As they passed two and three-story flats of stucco, they could imagine carriages and sleighs passing into the dirt courtyards through the broad wooden gates.

Irkutsk, a town of nearly half a million, has a wide, blocked-off street serving as a "shopping mall" but no large department stores such as GUM in Moscow or the three-story

"Pausdy Otdel" magazine in Khabarovsk. Those intent on cooling off picked up simple cotton shirts off the rack, priced about \$8. But more plentiful than ready-made were the yard goods displays. Here, Russian saleswomen were cutting out patterns for customers and in some stores even stitching the seams for them.

Shoppers at the mall found much to see and photograph but little to buy. In the large jewelry store where Russian girls crowded the counter to be measured for wedding rings, nobody understood English. At the delicatessen sign language

(a sneeze) produced snuff instead of pepper, but tomato juice could be obtained by pointing. For Americans, prices were cheaper and quality higher in the hotels and airports than in the city. American dollars are accepted. Prices for consumer goods bought by ordinary tourists Russians appear to be set by supply rather than by demand; what the government deems necessary is supplied cheaply.

'Fat Cats' Invest, And You Can, too

Q — Inflation is eating up our savings. I thought I would buy some government securities. Someone said they were a safe bet and paid 8 per cent interest. I learned that the minimum amount you can buy is \$10,000. What is this? The government makes it hard for those with limited funds and yet they make it easy for the fat cats to invest.

Can't somebody do something about this inequity? — Mrs. D. M., Los Angeles.

A — It does seem unjust. But there is something you can do about it. There are mutual funds dealing exclusively in federal government bonds, bills, notes and other securities which can pay you 7 per cent interest.

For a minimum of \$250 initial investment, you can purchase shares in Mutual Fund for Investing in U. S. Government Securities, 101 William Penn Place, Pittsburgh, Pa. Similar investments can be made with Atlantic Fund for Investment in U. S. Government Securities, 70 Wall Street, and Savings Fund, 1301 Avenue of the Americas — both in New York City.

You can also buy Treasury bills without paying anyone a commission by applying for them through a special form you get from your nearest Federal Reserve Bank. The minimum amount is \$10,000 but some readers have suggested forming an investment club with, say, 20 members, each having \$500 to invest. You can get information on how to form an investment club by writing National Assn. of Investment Clubs, 1515 East Eleven Mile Rd., Royal Oak, Mich.

Q — In your column on insurance, I think you must be in error when you quote John C. Post, (professional money manager) as saying: "The breadwinner of the family should have enough insurance and other income to cover one-half of current yearly income." Are you saying that a man who makes \$10,000 a year needs only \$5,000 a year income, yet it protects you with the basic minimum (cost of bringing up children to college age) if that should occur."

Perhaps it could have been clearer but he was suggesting that a family man should have enough insurance to cover one-half of his yearly income for all the years needed to bring the kids up to college age.

For example, if a man makes \$10,000 a year and his wife is facing five more years before the youngest child reaches college age, he would need at least \$15,000 total insurance to provide the \$5,000-a-year basic minimum. This is just a rule of thumb which can vary to fit an individual's special situation.

Q — I would like to know more about liquid flooring. Does moisture harm it? Is it easy to apply? — O. E. A., Dayton, Ohio.

A — Liquid flooring paints on with a brush and is designed for below-grade floors in basements and for porches or patios. According to the National Paint, Lacquer and Varnish Assn., this urethane

Dear Abby

DEAR ABBY: The advice you give, "seek professional help," is good, except for one hitch—One should check on any prospective therapist first.

I went to a kook whose office walls are festooned with degrees but he must have left his othello behind in grade school. Three years and thousands of dollars later, I wound up with a divorce. The grounds? Adultery. The man? My therapist. (And I'm not even good looking.)

Therapy often causes women patients to "fall in love" with their doctors, but the competent (and ethical) psychiatrist knows how to handle this situation.

A little investigating later turned up the facts that my doctor was known for tom-cating around. He is still sitting around "helping" people, raking it in and no doubt putting out.

Me? I have a ruined marriage, two fatherless children and no money. Please print this. It might save some unsuspecting woman from my fate.

BITTER

DEAR BITTER: Most therapists wouldn't touch a patient with a 10-foot pole. You just happened to get the local Lachivar. However, YOU are in a better position than I am to "save some unsuspecting woman from the same fate." Report your doctor to the county medical society. He desperately needs therapy himself, and shouldn't be permitted to practice.

DEAR ABBY: My wife and I have been married for 9 years. We have four daughters, 7, 5, 4 and 2. We own our own business, own an average home, and drive an average late model car.

My wife is just about the most wonderful woman in the world. She's a great cook, an excellent housekeeper and a fine mother. She loves to work in the yard, seldom raises her voice or loses her temper and we get along beautifully.

Our children are exceptionally well-behaved and we have wonderful friends. My wife loves my folks, and I love hers.

My problem, Dear Abby, is that I am about to go completely out of my mind trying to figure out how a bum like me ever got into such a wonderful situation. Should I accept the fact that I am the luckiest guy in the world, or should I just keep trying to figure this thing out?

DAVE IN EUGENE, OREGON

DEAR DAVE: Accept it. And also knock on wood and bite your tongue.

DEAR ABBY: My husband and I were eager to entertain at home after our marriage last year. We have invited friends for cocktails, brunch, foreign meals, buffet dinners and after-theater suppers. We were pleased with the high number of acceptances, and our guests always seemed to have a good time. As newlyweds we live in a small apartment in a new high-rise building in the "city." But in spite of the limited area of entertaining, we have opened our doors to about 150 guests—most of them four or five times.

However, andly, we must admit, only three couples have reciprocated thus far. The rest are still repeating meaningless phrases, like "drop in sometime," or, "we MUST get together soon."

Of course we don't intend to "drop in." We are dropping OFF—their names from our list of future guests. Isn't that the only answer?

DISAPPOINTED

DEAR DISAPPOINTED: Yes, I think in your "eagerness" to get into the social swim, you may have "gone off the deep end." To invite the same people four and five times without a reciprocal invitation from them appears to me as "social climbing." Stick with those who have returned your invitations. If you have only three couples who appreciate your company and hospitality, you're doing well.

DEAR ABBY: What is all this commotion about fat women? My wife is 30 pounds heavier than she was when we were married, but for crying out loud, she is also 30 years older? She is stylish and immaculate and she always looks beautiful because she has sense enough to wear the proper foundation garments.

She doesn't LOOK as heavy as she is because she is never bouncing, sagging or bursting at the seams. Just because a woman is "fat" doesn't mean she has to be sloppy.

PAPA LOVES MAMMA

Church Group At Richfield Has Luncheon

RICHFIELD — Mrs. Max Behr conducted a review of several lessons when the Richfield W.S.C. met for a luncheon meeting at the Methodist Church recreation rooms this week. Mrs. S.C. Peterson, Mrs. Joe Seward, and Mrs. Albert Pelloy assisted.

A song number was given by Tom, Jamie, and Terri Peterson with Mrs. C.M. Pridmore as piano accompanist.

A welcome-back dinner was planned for the church pastor, Rev. Hardy Thompson, who has been reassigned to the Richfield and Shoshone churches. The evening dinner will be Sunday, Sept. 13, at the church recreation rooms with each family bringing food for the no-host event.

The year's program will start with the Sept. 13 meeting with place to be announced. Mrs. Eugene Alexander is chairman of the program committee and Mrs. Myrtle Riley and Mrs. Pelley are other members.

Social Events

TWIN FALLS — The Fidelity Class of the Methodist Church will hold its monthly picnic at the L. A. Widrig residence at 8:30 p. m. Sunday.

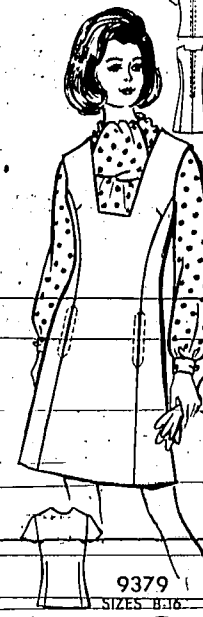

Crofts Family To Meet

IDAHO FALLS — The 1970 annual Crofts Family reunion will be Saturday at Tautphaus Park, Idaho Falls, at shelter No. 3.

Lunch will be at noon, potluck style. Those attending should bring food and table service. There will be ice cream, melon and pop.

Genealogy records will be present. At 1 p. m. each family will present a brief part of the program. Those attending should bring softball and other athletic equipment.

Buhl Miss Weds T.F. Man

BUHL — Lesley Alcon Rogers, daughter of Mr. and Mrs. Dexter Rogers, Buhl, became the bride of Martin L. Meigs, son of Mr. and Mrs. Louis B. Meigs, Twin Falls, in an afternoon ceremony at the Congregational Church in Dayton, Wash., July 18.

Rev. Gordon Trichter performed the double ring rites before a background of pink gladioli and white carnations in baskets and altar bouquets and brass candelabra with white tapers.

The bride, given in marriage by her father, wore a floor-length gown of chiffon cape gathered onto a satin band accenting the empire waist and forming a bow in the back. The neckline and sleeves were accented with lace. A Juliet cap of daisies held her shoulder length veil of bridal illusion. She carried a bouquet of white carnations and stephanotis on her Rainbow Bible.

Mary Rainey, Puyallup, Wash., was maid of honor and Jerilyn Jewitt, Dayton, Wash., was bridesmaid.

Mike Nash, Boise, served as best man and Duane Watson, Twin Falls, was usher. Mrs. Richard Juris played traditional wedding music.

A reception was held following the ceremony at the fireplace room of the church. Tracie Rogers, sister of the bride, registered the guests.

A round table covered with white net and centered in front of the fireplace held the wedding cake. The three-tiered cake was accented with pink and white and topped with a cluster of bells. Mrs. Harold Hohenstein, great-aunt of the bride, cut and served the cake. On a second table covered with white lace were the silver coffee service and crystal punch bowl. A centerpiece of pink gladioli and white carnations flanked by candelabra with white tapers completed the table appointments. Mrs. M. G. Thompson poured coffee and Mrs. Wesley Calkins, served punch. Both are grandmothers of the bride.

The couple will reside in Pocatello where both are attending Idaho State University. Special guests at the wedding were parents of the bride; parents of the bridegroom; Mrs. M. G. Thompson and Sheila Thompson, grandmother and aunt of the bride; Ray Edinger and K. C. and Shawn, Seattle, uncle and cousins of the bride; Mr. and Mrs. Harold Hohenstein, Spokane, great-aunt and uncle of the bride; Mr. and Mrs. Gary Dillon, Logan, Utah, sister and brother-in-law of the bridegroom; Col. and Mrs. Wesley Calkins, Dayton, Wash., grandparents of the bride; Mr. and Mrs. William Meyers, Seattle; Murie Miller and Marilyn Jones, both Twin Falls, Don Becker, Jerome; Lynn Porter, Kennelwick, Wash., and Mr. and Mrs. Perry Hanson, Dayton, Wash.

Social Events Best Losers Named at TOPS Club

TWIN FALLS — The Singles Club will have a steak fry Sunday afternoon at the Idaho Power Co. park at the Twin Falls. The club will furnish steaks, corn and other items. Those attending should bring their own table service. The event will start after 1 p. m. Single people between the ages of 30 and 60 are welcome. If weather is bad, a new date will be set for the event.

TWIN FALLS — Magic Valley Hairdressers Affiliate No. 4 will present a program on "New Trends" at 10 a. m. Sunday at Juan's College of Hair Design in the Lynwood Shopping Center. Helen Echevarria, Boise, will be guest designer. All cosmetologists from Magic Valley are invited. New memberships will be accepted.

TWIN FALLS — An old time dance will be held from 8 p. m. until midnight Saturday at the Twin Falls Moose Hall. Tom Lancaster's band will play. A lunch will be served.

Jewelry Shown

RICHFIELD — Mrs. Duane Storton was hostess at a jewelry display party at the home of her grandmother, Mrs. Mary Gilles. Mrs. Alice Garrity, Shoshone, was the demonstrator. Mrs. Lattie Brown and Mrs. Donald Erwin assisted the hostess in serving refreshments.

HANSEN — Bonnie Ryan and Mrs. Lewis Morris were best losers at the Slim and Trim TOPS Club meeting at the home of Mrs. Thomas Steelsmith. Both received hobby gifts to keep if they lose consistently for the next three weeks.

It was reported by the assistant leader, Mrs. Kimber Glenn, that a fall rally is planned and will be at Burley. The date will be set later. Mrs. James Wright, the leader, attended the planning session of district leaders.

Mrs. Bob Niven reported that she had been a KOP for a year at this time.

Mrs. Morris was program chairman and hostess. She showed paintings which she had done and also two paintings done by another member, Mrs. Hazel Schutte, a mountain scene, and a sunset silhouette. Mrs. Morris also showed candlesticks made from various bottles, saucers and etched glass items, then painted brown to resemble wood.

Mrs. Fred Howard was penalties chairman and requested that those gaining carry a brick to and from the meeting for each pound gained during the past week for this current week.

Workshop Set by Catholics

BUHL — A workshop for the South Idaho Diocese of the Catholic Church was planned at a board of directors meeting held in Buhl and attended by 28 members from Malley, Hagerman, Jerome, Rupert, Twin Falls and Buhl.

Mrs. Frank Karel, deanery president, conducted the meeting and Mrs. Henry Eggleston, treasurer, gave her report. Father McNeill led the group in the opening and closing prayers.

The workshop will be held Sept. 16 in the Immaculate Conception School in Buhl beginning at 9 a. m. and with Father McBride, Jerome, as guest speaker. There will be "CCD Religious Education," a salad luncheon will be served at noon.

KETCHUM AND SUN VALLEY'S newest church, Our Lady of the Snows, will be dedicated Sunday with Bishop Sylvester W. Treinen of the Catholic Diocese of Boise, officiating. The newly-constructed church features several interesting items, including a 12-foot Italian carved wood statue of the Madonna, as noted in this photo.

Dedication of Catholic Church at Ketchum Set

KETCHUM — Sunday evening, Bishop Sylvester W. Treinen of the Catholic Diocese of Boise, will officiate at the blessing and dedication of the newly constructed church of Our Lady of the Snows. Father Emanuel N. Nattini, first pastor of the area Catholics, erected the first Catholic church in Ketchum in 1884 and dedicated it under the name of Saint-Mary Church.

Because of increased activity in the Sun Valley area, there has also been an increase in population of permanent and temporary residents in the Ketchum-Sun Valley area. Sunday Catholic services were held in the second church of Our Lady of the Snows and also in the Sun Valley opera house. Both facilities were found inadequate to facilitate the many Catholics now coming into the area.

The church was designed by Ivan Stone of Twin Falls and construction was performed by General Contractor Robert L. Ullman of Twin Falls. Various local firms performed the subcontract work.

The church, formerly a mission of the Halley parish, was designated a parish by Bishop Treinen in August 1969.

The church was designed by Ivan Stone of Twin Falls and construction was performed by General Contractor Robert L. Ullman of Twin Falls. Various local firms performed the subcontract work.

Shoshone LDS Unit Has Fete

SHOSHONE — A style show and fashion fantasy were held as part of the special Lihoma Holiday program at the LDS Primary, to end the summer's activities.

Mrs. M. J. Dille played the prelude music.

The greetings were given by Mrs. Lawrence Sturgeon, Bonnie Stears and Tamara Bateman gave the prayers.

Talks by Merihands were given by Deanna Jacobsen, Tammy Blackburn and Mrs. Sturgeon gave the tribute to graduates.

Scrolls were awarded and graduation featured for the girls, under direction of Mrs. James Scott, primary president. Mrs. Kenneth Blackburn gave a short talk and an explanation of primary work the coming year.

Mrs. Burton Thorne was narrator for the style show. Mrs. Larry Kenney was in charge of music. The Gynotes had charge of hand bags; the Firelights, the hats, and the Merihands, the dresses.

Nazarenes Set Bible School

TWIN FALLS — The Twin Falls First Church of the Nazarene has several activities for its members this weekend. At 7:30 a.m. Saturday the Men's Fellowship Breakfast will be held at the Idaho Powerpark at Twin Falls and the ladies are invited, states Rev. Joe Chastain, pastor.

Sunday morning at 9, the men will meet at the church for an early morning prayer. Rev. Chastain will speak on heaven in the morning service and on "holiness now" at the evening service. An instrumental group will play in the evening.

The church's vacation Bible school will begin at 9 a.m. Monday and continue through Aug. 26.

Youth Sunday Eyed By Wendell Church

WENDELL — The United Presbyterian Church in Wendell will present a Youth Sunday program Sunday with local high school and college students conducting the worship service.

They also will present a one-act play and offer folk singing, he play, "The Last Church," was written by Rev. O. Linn McGulro, San Francisco Presbyterian minister. It carries a warning for modern Christianity, local church members say, and could be happening in any church in the country.

The public is invited to attend the Youth Sunday presentation with worship services at 11 a.m.

Registration will begin at 9:45 a.m. Sunday and continue Monday morning. Classes are planned for youngsters 4 years and older, from 9 to 11:30 a.m. daily and under the direction of Miriam Rawls.

Parents wishing to enroll their children may contact the church and make arrangements for transportation if needed.

Bible School Set By Church

TWIN FALLS — The First Assembly of God Church, Locust Street North and Shoup Avenue North, Twin Falls, will have its vacation Bible school Sunday through Friday at the church.

Registration will begin at 9:45 a.m. Sunday and continue Monday morning. Classes are planned for youngsters 4 years and older, from 9 to 11:30 a.m. daily and under the direction of Miriam Rawls.

Parents wishing to enroll their children may contact the church and make arrangements for transportation if needed.

The church was designed by Ivan Stone of Twin Falls and construction was performed by General Contractor Robert L. Ullman of Twin Falls. Various local firms performed the subcontract work.

RELIGION

Burley Minister Going to Boise

BURLEY — Rev. John W. Pickrell, Burley, has accepted the invitation to serve as pastor of the Southminster United Presbyterian Church, Boise.

The pastorate of the Boise church has been vacant since March of this year and was formerly held by Rev. James F. Moore. Rev. Pickrell will assume his duties at Southminster Sept. 1.

For the past eight years, Rev. Pickrell has held the position of pastor of the First Presbyterian Church, Burley.

He received his B.A. degree at Seattle Pacific College and his B.D. degree at San Francisco Theological Seminary. Rev. Pickrell holds the rank of Lt. Commander, U.S. Navy Reserve, and is senior Navy Reserve Chaplain for the state of Idaho.

For one summer he served as an exchange pastor in Scotland. Prior to coming to Burley, he served as assistant pastor, First Presbyterian Church, Hayward, Calif., and served as the National Mission Pastor at Pacific Beach, Wash.

Rev. Pickrell, his wife, M'Lou, and their two children will be moving to Boise the latter part of this month.

REV. JOHN PICKRELL

"Magic Circus" Set Here

Colonel Jim Todd will bring his "Magic Circus" to the Grace Baptist Church, 211 4th Ave. E., Twin Falls, for this year's daily, vacation Bible school.

The school will be held next week. The program will extend from 9 to 11:30 a.m. A closing program will be presented Friday evening at 8.

God's truth for today's youth will be presented by "Colonel" Jim by means of magic messages, sermons from science and blacklight mystery pictures. In addition to these features, there will be handicraft and refreshments and games for all ages. All boys and girls, 4 years old through eighth grade, are invited to attend.

The Sunday school bus will begin its new route Sunday morning for Sunday school. The new route is generally restricted to the "President Streets."

For further information concerning the Bible school or the new bus route, please call 733-1452 or 733-5376.

BISHOP JOHN VANDENBERG

Confab Set Here By LDS

TWIN FALLS — Bishop John Vandenberg, presiding bishop of the LDS Church, will speak this weekend at the Twin Falls Stake Conference in the stake tabernacle, 421 Maurice St. N.

Bishop Vandenberg is a prominent businessman and church leader. He formerly was engaged in the merchandising of wool and livestock in Denver. As presiding bishop, a position he received in 1961, he supervises many youth, financial and welfare activities of the church. The conference session will be held at 10 a.m. Sunday. Stake president Lloyd A. Hamilton says visitors are welcome.

Drive-In Services

Rev. Robert Schreckenberg, pastor of the Eastside Southern Baptist Church, Twin Falls, will be guest speaker during the Drive-In Church services at 8 a.m. Sunday at the Motor-Vu Theater.

A duet will be sung by Vicki Newcomb and Karen Goodson. Accompanist will be Mitt Sweet.

Church, Give Hope On Our Failings

By DAVID POLING

When the Bible refers to prophecy, it normally means the ability of a person ordained of God to give penetrating and truthful interpretations of the contemporary scene. One of the things that comes of this is a glimpse of future events—a feel for the trend of history.

The Old Testament prophets were often saying to the children of Israel that, "If you don't shape up and change your ways, if you continue to ignore God and his justice, then this calamity is going to happen. They were usually correct."

Modern man has come to see prophecy as a prediction that has little to do with theological affairs. He's thinking about the future course of the stock market, the winner of the World Series or the possibility of a settlement in the Middle East conflict.

There can be some marvelous performances in these instances, but the prophecy does depend on the interpretation of present events as well as a wild solo into the unknown future.

Today, people are begging for more prophecies—religious, political, romantic, financial, any kind. Whenever community and national life becomes so hectic, filled with change and upheaval, it is natural to grasp for some fresh understanding of what's going on.

This anxiety, which springs from so much scientific advance and social ferment, puts a powerful strain (and temptation) upon the religious establishment. An hour touched with the sounds of calamity, the smell of gunpowder and the songs of revolution points to a frightening conclusion.

In this setting, not a few within the church have stated that the end of the world is near, the Second Coming at hand. Popular evangelists and curb-side orators raise the apocalyptic standard. The nery now give you the date of the last act.

What this type of prophecy fails to grasp is that, within every crisis, every point of historic disturbance, there is the ediment of hope. Throughout the Bible, almost every prediction of disaster and ruin is accompanied by the offer of victory and success for those who are willing to work faithfully and honestly with the Lord of history. Repent means to turn around, change direction. Repentance is more than a sawdust trail—it is cutting out a new highway of living where the jungle of apathy and alarm prevailed.

Our urban, mass society is panting for a sparkling word from the Christian family concerning war, the ghetto, the racial conflict and the military solution that has failed. A Christian message that dodges these questions is not worthy of the name.

We need more prophecy, because the future is now.

A. THEODORE TUTTLE

Elder Speaker At Meet

DECLO — Elder A. Theodore Tuttle, a member of the First Council of Seventy of the LDS Church, will speak at the Cassia East Stak Conference Aug. 22-23 in Declo.

Elder Tuttle, an educator, has devoted most of his life to teaching youth. He was an administrator and instructor in the Church school system. He supervises missionary activities in South America.

The conference session will be held at 10 a.m. Sunday in the stake center. Visitors are welcome.

Attended Meet

Rev. and Mrs. Robert Seaman, represented the Twin Falls Grace Baptist Church recently at the 30th annual conference of the General Association of Regular Baptist Churches in Denver.

Services Different At Jerome

JEROME — Rev. C. Warren VanCamp, who is filling in for Rev. William L. Barrett, Jerome First United Presbyterian Church, is varying the August worship services.

Sunday morning, Rev. VanCamp will speak on "The Religion of the Impassive Buddha," and on Aug. 23, "The Religion of the Mosque and Minaret (Islam)."

Rev. VanCamp will speak briefly on the subject, then a lay moderator will collect questions from the congregation on that particular subject. He will then answer the questions.

All members of the congregation are urged to bring pencil and paper to write the questions.

Soil fertility was the object of a tour of test plots in Southern Idaho this week by fertilizer dealers, county agents, technicians and farmers. These three photos show some of the tour members visiting test plots on the Twin Falls Branch Experiment Station, University of Idaho. Top photo shows tour members listening to Leonard Kerbs, left, research associate, University of Idaho, explain residual nitrogen in potatoes. Lower left, Wayne Thiessen, left, extension soils specialist, examines potatoes from a test plot with Coley Parrish, local fertilizer dealer. In the other photo, participants listen to Dale Westermann, technician at Snake River Conservation Research Center, Kimberly, tell of phosphorus tests in commercial beans. Object of the tour was to explain fertilizer research in potatoes, alfalfa, wheat, beans and sugar beets. Test plots in Eden and Burley also were viewed as well as in Eastern Idaho and Western Idaho.

Grange Drapes Charter

TWIN FALLS — The charter was draped by the Twin Falls County Pomona Grange in memory of the former National Grange master Herschel D. Newsom, at a recent meeting in the Knoll Grange Hall.

Clifford Davis discussed briefly pesticide regulations and food imports. The White Cloud mining issue was explained by Craig Dunlap.

Ed Harper, Pomona Grange master, gave a report on progress of the Balance Rock park.

Mrs. Dunlap, women's activity chairman, said judging of backing, needlework and textile painting contest entries will be held at the Flier Grange Hall on Aug. 25.

TOP SHOWMAN at the Gooding County Fair this week in the first year 4-H dairy division was Lonnie Tate, son of Mr. and Mrs. Harvey Tate,

Hagerman. He is a member of the Tuttle Toro Twisters 4-H Club.

Work Day Set

TWIN FALLS — A work day has been planned for members of the Highliner's 4-H Club. The event will be held at 8 p. m. Thursday at Sandoe Sommer's home. All members are to bring painting equipment. Fair decorations will be made.

In 1940 a family could select from about 1,000 food items. Today the average supermarket has 8,000 — many of which were not even available ten years ago.

AGED GELDING CHAMPION in the Appaloosa class of the Gooding County Fair this week was this Appaloosa owned by Andy

James, Gooding, right. This gelding outclassed three others to win.

Cutworms

TWIN FALLS — The emergence of western bean cutworm adult moths reached a peak about Aug. 1 and has decreased rapidly since Aug. 7. This is a week to 10 days later than usual.

Consequently, there may be more immature larvae, or worms, of this insect feeding when beans are cut.

It is again suggested that beans be combined as soon as possible after cutting to prevent worm damage in the windrow, states Walter Peay, Entomology Research Division, ARS, USDA.

Trail Ride Planned by 4-H Club

TWIN FALLS — Members of the Saddle Tramps 4-H Club planned a trail ride at Porcupine Springs on Aug. 23-24.

The ride was discussed by members at a recent meeting at the home of Diane Fender.

Also discussed were decorations for the fair and tips for showing animals at the fair. A demonstration on preparing a lamb for showing was given by Derry Fender.

The next meeting will be held at 7 p. m. Thursday at the home of Margaret Harvey.

BLM to Classify Area Public Land

Classification of nearly 1,100,000 acres of public domain in eastern Owyhee and western Twin Falls Counties are being proposed by the Bureau of Land Management under the Classification and Multiple Use Act passed by Congress in 1964.

A small acreage in Elmore County is being classified for stock driveway purposes to provide access from near Glens Ferry and Bliss, 15 miles south to the area to be classified. Six recreation sites in this area totaling about 4,000 acres will also be closed to location and entry under the mining laws.

Clair M. Whitlock, BLM acting state director for Idaho, in announcing this classification said this is a part of a nationwide program to identify public domain suitable for continued multiple use in public ownership.

Homesteading, entry under the Desert Land Act, and sale of this land as isolated tracts or under the "rough and mountainous" provisions would not be permitted in the retention areas. The lands remain available for state and private exchanges and for selection by the state.

This classification is being proposed following meetings with federal, state, and local governmental officials, public land users, and the general public.

Anyone who wants to comment on this proposal may do so at the public hearing scheduled

North American farmers devote more acreage to corn than any other crop according to New Holland, the farm equipment division of Sperry Rand.

for 2:30 p.m. Aug. 27, in the American Legion Hall, 205 3rd Ave. E., Twin Falls, or in writing to the District Manager, Bureau of Land Management, 230 Collins Road, Boise, Idaho 83702. The Bureau of Land Management will consider all comments received before taking action on a final classification.

ROUND-ROBIN CHAMPION during the Lincoln County Fair last weekend in Shoshone was Kent Green, son of Mr. and Mrs. Charles Green, Shoshone. Kent won after properly fit and showed a lamb, hog, horse, heifer and his steer, shown here with him.

Engineer Gets Service Pin

KIMBERLY — Charles (Deb) Carpenter, hydraulic engineering technician at the Snake River Conservation Research Center, recently completed 20 years service with the federal government.

Carpenter received a service pin from Dr. Marvin Jensen, director of the center.

Carpenter has worked at the center since its opening in 1964.

Steers

TWIN FALLS — The "final weighing and slaughtering" of steers in the evaluation program sponsored by Magic Valley Cattlemen's Association, will be held at 7 a. m. Monday at Olmstead Cattle Co.

Dick Noh, Rogerson, president, said all consignors and directors are urged to attend and help with the weighing of the steers left in the program.

Sugar Beet Growers Attention

Sugar Beet Growers Association fail to reach agreement with Amalgamated Sugar Co. on a contract for the 1971 crop of Sugar Beets. At a meeting of representatives of the Sugar Beet Growers Association of the three states of Oregon, Idaho, and Utah, held at Twin Falls August 12, 1970, a resolution was unanimously adopted to notify the Sugar Beet Growers of these three states that The Amalgamated Sugar Co. rejected the Association proposal which would provide some additional income to partially offset the higher cost of production.

FIRST YEAR dairy project winner in 4-H fitting and showing at the recent Lincoln County Fair was Connie Hubsmith, 10-year-old

daughter of Mr. and Mrs. Jack Hubsmith, Richfield. Here she poses with her heifer. She is a member of the Daisy Dairy 4-H Club.

National Cattle Industry Advisory Group Set up

WASHINGTON (UPI) — The Agriculture Department has set up a new advisory panel to collect advice from cattlemen and businessmen — but not from consumers — on the volume of future meat imports.

Don Paarberg, the department's chief economist, in an interview, defended the move as an effort to give farmers an equal chance to influence government decisions in this controversial field.

Consumers already have a voice, through the White House consumer adviser and the Council of Economic advisers, in shaping top-level opinion on proposals to allow increased meat imports, Paarberg said.

Creation of the agriculture department's new committee is, Paarberg said, "an effort to get the picture as producers see it."

Officially designated the National Cattle Industry Advisory Committee, it replaces a similar panel whose

term expired some time ago. An official memorandum creating the committee said its members — who have not yet been appointed — would serve two-year terms. They may include representatives of ranchers, cattle feeders, shipping associations, packers, handlers and retailers.

The memo left the way open for the possible addition of consumer members, but made no specific provision for them.

The memo was signed by Agriculture Secretary Clifford M. Hardin. It designated Paarberg as chairman of the advisory group.

Hardin's order gave the committee a wide range of subjects for consideration. Significantly, however, the first two listed were:

"Imports of beef, veal and live animals and their effects on the domestic economy; and international trade negotiations pertaining to beef and related products."

County Fairs

Blaine County — Aug. 19-22.
Cassia County — Aug. 20-22.
Jerome County — Aug. 24-29.
Minidoka County — Sept. 3-5.
Twin Falls County — Sept. 9-12.

Ends Lactation

JEROME — A 2-year-old registered Holstein cow, "Houston Uva Gloria," in the herd tested for Frank W. Houston, has completed a lactation of 17,650 pounds of milk, 630 pounds of butterfat and 1,462 pounds of solids-not-fat in 313 days.

The majority of Finnish herbara are women.

Horse Clinic Held At Burley

BURLEY — Members of 4-H clubs with horse projects living in Cassia and Minidoka counties attended the recent one-day Horse Clinic at Cassia County fairgrounds.

A total of 105 4-H members registered for the workshop. Fred Gilbert, Twin Falls, extension livestock specialist, and Blaine Linford, Twin Falls, district extension conducted the presentations and demonstrations.

Items discussed and viewed were proper ways to fit and show a horse, proper equipment for showing and riding, different riding patterns, safety rules, and rules and regulations for the 1970 District 4-H Fair.

Poultry Entries Increasing for T.F. Fair

FILER — Entries in the poultry department of the Twin Falls County Fair have been increasing each year and those planning to enter poultry this year in the four-day fair Sept. 12 are urged to get their entry blanks at the fair secretary's office early.

Owing to the limited number of coops and display space, no exhibitor will be allowed to make more than two entries in

any one class, stated Doyle Shriver, Buhl, superintendent, who noted that it has been found in the past that exhibits do not show well if there are too many birds in one coop.

All exhibits will be cared for under the supervision of the superintendent. All birds will be fed and cared for during the time of the fair without cost to the exhibitor. Owners must remove birds at close of the fair

at their own expense.

Entries close at 6 p. m. Sept. 7 and all entries should be made at the poultry building that day. Judging will begin at 9 a. m. Sept. 8 and all poultry must be removed by noon Sunday, Sept. 13.

A pen of chickens consists of four hens or four pullets. A pen of turkeys consists of three hens and a gobbler, and a pen of ducks consists of three ducks and a drake.

Types of chickens include White Leghorn, Black Australop, Barred Plymouth Rock, White Plymouth Rock, Rhode Island Red, New Hampshire, Brahma, bantam,

cross breeds light weight and heavy weight and show chickens.

Turkeys include Naragansett, White, Bronze and Bourbon; geese, Toulouse and White Embden, and ducks, Mallards,

trokin, Muscovy and Hovens.

First and second place premiums will be given six classes of chickens, a pen of three capons, five classes of turkeys, two classes of geese and three classes of ducks.

Utahn to Judge Twin Falls Fair

FILER — No Russell, Kamas, Utah, will be judge for the horse department of the Twin Falls County Fair Sept. 9-12, according to John Qualls, Twin Falls, superintendent.

Entries for the horse department will close at 6 p. m. Sept. 5 and judging will begin at 9 a. m. Sept. 9, and horses must be on the grounds by 8 a. m. of that day.

Three place cash awards and fourth place ribbons will be awarded Arabians and Morgans for stallion, any age; mare, any age; gelding, any age, and foal of 1970.

The Appaloosa, Quarter Horse and Paints and Pintos classes will present three place ribbons for stallion colts, foaled in 1970; stallion, foaled in 1969; stallion, foaled in 1968; stallion, foaled in 1967 and stallion, foaled in 1966 or before.

Filly colt, foaled in 1970; mare, foaled in 1969; mare, foaled in 1968; mare, foaled in 1967 and mare, foaled in 1966 or

before.

Gelding, foaled in 1969; gelding, foaled in 1968; gelding, foaled in 1967 and gelding, foaled in 1966 or before. Grand champion stallion, mare and gelding will receive rosettes and reserve champion stallion, mare and gelding will receive purple ribbons.

There will be a full line of working events for Quarter Horses at 8 a. m. Sept. 10 in the rodeo arena.

Special awards in the horse department include a trophy for the best decorated and cleanest kept horse stall from Cook Electric Company; a trophy for grand champion Appaloosa stallion from Harney's Boomer Ranch; a trophy for grand champion Appaloosa mare from Mindoka Stables; a trophy for grand champion Appaloosa gelding from Walte Electric Company, and AQHA trophies for grand champion stallion, mare and gelding from the Quarter Horse Association.

Resource Projects Toured

GOODING — Farmers, ranchers and businessmen in the Wood-River area participated recently in the Wood River Resource tour.

Among the places visited included the diversion of the Wood River canal, which has just been completed with costs being shared by the cities of Gooding and Shoshone and the counties of Gooding and Lincoln.

At the Mont Johnson ranch, his pasture operation was viewed. Johnson explained his daily rotation of his cattle on the pasture of later orchardgrass and alfalfa. He grazes five head per acre.

In Gooding, the new hospital and nursing home were toured briefly.

South of Wendell new sprinkling systems were viewed.

Foothill 4-H Club Has Meet

MURTAUGH — The Foothill Lads and Lassies 4-H Club met recently at the home of Doug and Julie Self.

Fair decorations and achievement day were discussed and Shuana Mason gave a report on 4-H summer camp. Demonstrations were given by Julie Self on washing a cow and Kym Gunnell on tying a manger knot.

Members decided to hold a door to door cooked food sale.

The annual club achievement day will be held starting at 9 a.m. Aug. 23. All club members are to gather at the Glen Briggs potato cellar with their project animals.

Nancy Brockman gave a demonstration on meat cuts of beef cattle.

Reports Top Farm Unit Meet

Several reports highlighted the recent meeting of the Twin Falls County Farm Bureau meeting.

Giving reports were Mrs. Fred Themo, women's activities chairman, on the talent contest, as well as on the fair booth; Hugo Meyer talked on commodity marketing association and the Magic Valley Vegetable Growers bargaining association, and Monroe Hays, state director, on the Sugar Act.

It was announced the county picnic will be held the latter part of August at the fairgrounds.

REPRESENTATIVES OF SEVEN Soil Conservation Districts visited two area farms recently to view pasture management. The farm of Gene Thomas and his son, John, near Filer and the Ray Quigley farm near Buhl, were visited. These SCD representatives saw how the two pasture management systems work in this area. The top photo shows some of the tour

participants looking at Thomas' pasture and the bottom photo shows them in a field being readied for planting to pasture on the Quigley farm. Both pasture management operations use the rest rotation system. The seven SCDs represented included the East Cassia, West Cassia, Twin Falls, Snake River, Balanced Rock, Brunau River and Mayfield-Elmore.

Social Security Questions

Q. If you have any questions about your social security, address them to Jim Davis, P.O. Box 1239, Twin Falls, Idaho 83301.

Q. Does Medicare's medical insurance help pay a doctor's bill only when I'm in a hospital?

A. No. Medical insurance will help pay for the services of doctors no matter where they are received — hospital, doctor's office, your home, or elsewhere. It is NOT necessary that you first be hospitalized in order to receive reimbursement on your doctor bills. Other medical services for which medical insurance will help pay include certain diagnostic services; X-ray or other radiation treatments; surgical dressings; splints; casts; braces; and the use of a wheelchair; hospital bed or similar equipment in your

home.

Q. My wife and I have both worked full-time since our marriage 10 years ago. We are both concerned over the social security contributions she must pay, especially since she can get payments on my work record. Why deduct from my wife's earnings when she can get payments whether she works or not?

A. It's true that your wife could qualify for payments on your social security record whether she works or not. However, an important consideration is the valuable protection she has built up as a

result of her own work. Now that she has worked 10 years, she can be insured for a benefit on her own work record at age 62 or later. She can receive this benefit even if you continue to work after her retirement.

Milner 4-H'ers Meet

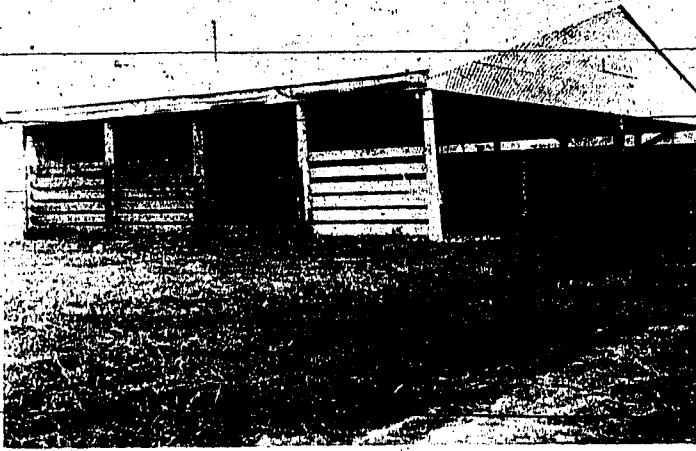

MILNER — Demonstrations were the order of the day at a recent meeting of the Bator Feeders and Fillets 4-H Club at the home of Allen Kloer.

Carl Seymour gave a talk on getting a lamb ready for the fair and preparing boots for an exhibit.

Allen Kloer had a prepared exhibit on various types of beans and explained the differences in each variety. Jim Brill explained the various safety devices on an automobile and the proper method of

ventilation for electricity. Farnum Warr, leader, asked all members to have record books ready when they were called for and led a discussion on the various talks and demonstrations.

Warr reported Myra and John Kirk, Brenda and Jim Brill and Paul Warr spent two evenings at the Warr home painting and decorating three trash barrels for the Cassia County fairgrounds. The barrels were painted green with the lettering in white.

AN ADDITIONAL 32 horses can be handled this year during the Cassia County Fair because a 60-foot addition has been constructed to the 4-H horse barn. The addition will be open, but

stalls will soon be erected prior to the fair, scheduled for Aug. 19-22. Karlson Brothers, Burley, was the contractor for the \$3,000 addition.

Richard R. Lee, Jerome, has purchased a registered Milking Shorthorn bull, Hillfrock Vera's Chesley, from Wayne Boeshans, Beulah, N.D.

Both Richfield gardeners and raccoons are watching the corn growing progress. Some growers have found tracks of a large raccoon and several little ones in corn patches, so forays are expected soon.

James Powell, Richfield, is putting a concrete floor in his 13 by 145-foot silage pit. Assisting him with the plans was his son-in-law, Herbert Sacey, Mountain Home.

Roy Thompson, Lee Trail and Donald Carnahan, all King Hill, each lost several head of cows and calves recently in the desert south of Pasadena Valley. A Goodling veterinarian suspects contaminated water.

More than 40 head of sheep were killed recently on the Domingo Boloaga sheep farm between Shoshone and Jerome when lightning struck two large trees. The sheep were under the trees.

Life on the farm is often a study of nature for Mrs. Mark Jaynes, northeast Richfield. Her companion while swathing hay is often a lone coyote which seems to her to be the same size for the past three years. Sorrows come while swathing hay, too, when baby pheasants don't run in the right direction and can't be seen until too late.

GOODING BROTHER AND SISTER swept the fitting and showing classes for beef animals this week

at the Gooding County Fair. Rosemarie Bilhao, left, won the 4-H division, and Eddy Bilhao, right, was the

FFA champion. Their parents are Mr. and Mrs. Alex Bilhao, Gooding.

Idaho Lands Mapped

For the first time since Idaho became a state, all irrigated and potentially irrigable lands have been classified and delineated on one large map.

The result of over three years' work by the Land Classification Branch of the Idaho Water Resource Board in cooperation with other state and federal agencies, the five-color map shows the location of 3,532,000 acres of irrigated, and 8,580,000 acres of potentially irrigable, lands.

J. Dewayne McAndrew, chief, Land Classification Branch, said the information would prove valuable to land and water resource planners, soils scientists, land managers, county agents, developers and schools. Reviewing the history of the study project, McAndrew said:

"A primary objective of the Idaho Water Resource Board is formulation of a State Water Plan which can only be achieved by investigation studies of the resources, needs, and preparation of alternatives for meeting the needs in the years that lie ahead.

"Fundamental to comprehensive planning is our need for reliable information about the amount and kinds of lands we have within the State. This was the first project authorized by the Board in 1966. Criteria were developed for placing

lands into different classes which also were compatible with those being established for the Columbia-North Pacific Comprehensive Framework Study.

"A work plan was developed and contracts signed with the University of Idaho and the U. S. Soil Conservation Service for soils surveys of the first series of counties. Fifteen counties in southern Idaho were studied and mapped under this contract. The Board later contracted with the U. S. Bureau of Reclamation for county land tabulations and classification maps and general description of lands with potential for irrigation in the remaining 29 counties.

"Information obtained has been placed on one 32 inch by 48 inch map showing lands now being irrigated by surface and ground water, along with potentially irrigable lands of 8,580,000 acres divided into three classes. Class One lands have the highest potential for irrigation development. They are well-drained, have smooth topography, are productive and have only minor limitations for irrigated agriculture. Our studies show that Idaho has 1,218,000 acres of this high quality land available for future development for agricultural purposes. Class Two lands, only slightly less desirable than

Class One, total 3,733,552 acres, while the more marginal Class Three lands total 3,628,570 acres.

"When we consider that only slightly over 3 1/2 million acres have been developed for irrigation in Idaho during the past 70 years, and our present water resources, the opportunity for long-range development, and positive economic benefits appear good."

Acreages and land classes are listed on the map. Major areas now irrigated, and potential lands, lie adjacent to the huge curve of the Snake River across southern Idaho. Counties with the most acreage now under irrigation include: Canyon, 315,600; Bingham, 315,600; Twin Falls, 201,500; Jefferson, 237,100; Cassia 253,200; Bonneville, 183,500 and Owyhee, 178,200.

Counties with the most potential land in the Class One category include: Bingham, 135,400; Elmore 104,300.

FULL TIME

No matter how you slice it, the Federal Land Bank serves part-time farmers as well as full-time farmers. Use it as a dependable source of long-term financing, whether buying land, machinery, livestock, education, housing, whatever.

Our farmer-owned private enterprise won't interfere with your free enterprise!

Chick And Egg Prices to Drop

WASHINGTON (UPI) — Prices for eggs and broiler chickens are expected to average below year-age levels this summer and fall, according to a report from the agriculture

department. Turkey prices, however, may continue above last year's levels through summer, the report said. Production of all three commodities is expected to remain above 1969 levels through the summer and fall, it said. Miriam A. Ferguson was the first woman governor of Texas.

Shoshone Fat Stock Sale Set for Monday

SHOSHONE — Shoshone Sale Yard will sponsor their annual 4-H and FFA fat stock sale on Monday, Aug. 17, according to Ivan Hopkins, county extension agent.

Those with swine are Larry Kerner, Denise Stutzman and Marshal Chatterton, FFA, and Clair Hollibaugh, 4-H.

New Aide

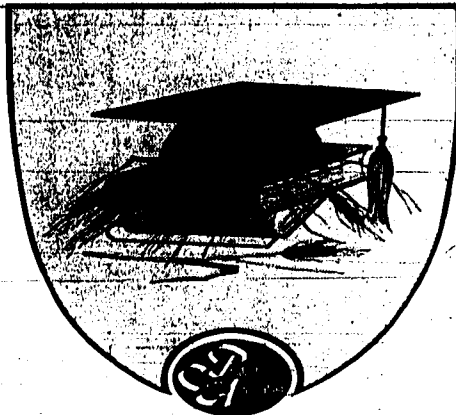

WASHINGTON (UPI) — Agriculture Secretary Clifford M. Hardin has named Clayton Youtter, 30, as administrator of the Consumer and Marketing Service, one of the government's most important consumer-protection agencies.

Students who will have beef for sale are Denise Stutzman, Jerry Davis, Tim Ridinger, Ron Golcochen and Roger Golcochen, 4-H, Kent Green, FFA.

Those with fat lambs, all in 4-H, are Sheri Braun, Deanna Braun, Deann Sorensen, Bonnie Laughlin, Roger Golcochen, Sabrina Pugh, Dale Halls, Jon Pugh, Kim Pugh.

The "Big Rock Candy Mountain" immortalized in American folk music is a lemon-colored hill in Utah.

Youtter, a former aide to Nebraska Gov. Norbert Tiemann, is presently director of the University of Nebraska agriculture mission in Bogota, Colombia. The new post involves supervision of federal meat and poultry inspection.

Reports Given at Filer Meet

FILER — Harley Williams reported on fair booth progress to Filer Grange members at the meeting in the hall.

He noted the barley sheaves have been made and members worked on wheat sheaves after the meeting.

Mrs. Alfred Theener reported on the Grange picnic held in July at the fairgrounds. Clifford Thomas gave a report to sugar beet growers on wages for workers in the beet fields.

Mrs. Craig Dunlap announced she had been elected woman's activities chairman for Pomona Grange for the remainder of the year. She stated the judging for the Grange contest on needlework, cooking, sewing and textile painting will be held Aug. 28 in the Filer Grange Hall.

The charter was draped for Herschel D. Newson, former national Grange master.

Battle Shapes up Between Magazine, Congress

BOISE — A verbal and print battle between farm groups and the Reader's Digest may soon reach the floor of Congress, it was revealed today by the Idaho Wheat Commission.

Wheat Commission administrator Harold West, Boise, said action in terminate \$9.4

million in subsidies to the Digest has been promised by Congressman David Henderson (D. - N.C.).

Henderson, who is vice chairman of the House Post Office and Civil Service Committee, is acting in response to a May article in the

Reader's Digest titled "Time to Say No to Big Farm Payments."

Henderson charged the magazine with disseminating distorted information and requested that his rebuttal to the article be printed. The Digest denied his request and stated, "We do not want a subsidy, nor do we believe we are being subsidized."

Henderson promised to oblige the magazine by initiating steps to end its second class mailing privileges, said to save the Digest \$9.4 million annually in postage costs.

West said "distortions and misinformation" in the Digest article had angered farm

organizations throughout the country. He said the article implied that farm price sup-

ports had boosted prices, while in fact the cost of most commodities has gone down.

RESERVE CHAMPION in the Round Robin event at the Lincoln County Fair was Lucy Berriochon, daughter of Mr. and Mrs. Carlos Berriochon, Shoshone.

TEN CENTS

Violent Forecast

CARTOON from "The Black Panther," official publication of the Black Panther Party, appeared in the Aug. 8 issue, the same week as the Marin County shootout in which Superior Court Judge Harold J. Haley was killed during an abortive escape attempt. The caption proclaims that the time is at hand to use violence in freeing prisoners. (UPI)

House OK's School Act

WASHINGTON (UPI) — The House has voted to override President Nixon's veto of an over-the-budget \$4.4-billion school aid bill. Senators today were getting in line to add their endorsement.

The Senate vote will come next Wednesday. Meantime, a check showed Democrats solidly supporting the move to enact the bill over the veto, and more than enough Republicans ready to join them to make a two-thirds majority and write the bill into law.

Back-home popularity of federal aid to schools — from elementary grades to graduate levels — easily outweighed Nixon's economy plans in the House Thursday when members voted 289 to 114 to repass the bill.

That was well over the two-to-one margin needed, with 77 Republicans joining 212 Democrats voting to override while 13 Democrats and 101 Republicans voted not to do so.

But on a second bill vetoed Tuesday by the President as too costly — an \$18 billion measure carrying above-budget funds for urban renewal, water and sewage grants, and veterans medical care — Nixon's stand was upheld by the House.

Fighting Intense Along Laos Border

SAIGON (UPI) — The U.S. Command today reported intensified fighting along the Laotian border to the south of Laoit artillery base O'Reilly, under pressure from an estimated 2,000 North Vietnamese troops.

U.S. military spokesmen said Viet Cong and North Vietnamese troops attacked a U.S. Army unit near the Allied outpost of Kham Duc, 51 miles southwest of Dan Nang Thursday.

The mortar and machine gun fire killed one American and wounded 12, U.S. military spokesmen said. The defenders killed at least two of the attackers.

Kham Duc is seven miles from Laos and some 110 miles south-southeast of the embattled Allied artillery base O'Reilly.

The base is reported by military intelligence to be surrounded by as many as 2,000 North Vietnamese troops bent on destroying the base's effectiveness in shelling Communist infiltration routes from Laos.

Panel Asks Slow Traffic at Schools

TWIN FALLS — Low speed limits were recommended Thursday to protect Bickel and Lincoln schoolchildren from heavy traffic rerouted in front of their schools.

The Twin Falls City Traffic Safety Commission Thursday unanimously recommended to the city council that the speed limit in front of the schools be kept at 25 miles per hour — rejecting State Highway Department plans to increase the speed limit to 35 miles per hour.

Commission members said the speed limit should be kept at 25 miles per hour for the entire length of the street rather than having short speed zones in front of the schools with higher limits for the rest.

The commission will ask that crosswalks be located at intersections and not in the center of blocks in front of school entrances.

The crosswalk for Bickel School would be at the intersection of Sixth Street East, while Lincoln's crosswalk would be at Seventh Street North.

Traffic commission members recommended "yellow" flasher lights be provided in the vicinity of the schools to warn approaching vehicles.

The commission recommended police crossing supervision be left to the discretion of local police.

Parking is now prohibited from 8 a. m. to 5 p. m. in the blocks in which the schools are located. The traffic commission's recommendation calls for new no-parking zones 50 feet back from the intersections in the blocks on either side of the two schools.

Those meeting Thursday said they have no objection to moving the bus parking for loading and unloading of students to Sixth Street North instead of Second Avenue at Bickel School.

In other business, the committee deferred action on a request for reduction of speed limits from 50 miles per hour to 35 miles per hour on Blue Lakes Boulevard north of Falls Avenue.

Members suggested police speed checks to supplement checks by the Idaho Department of Highways, before a recommendation is made.

At the request of City Manager Jean Millar, the committee also asked for speed checks on Sunrise Boulevard between Fifth and Addison Avenues. Present limits are 25 miles per hour and complaints have been voiced by residents who say drivers generally exceed the regulation.

Thursday's actions followed an appeal last week from Twin Falls School officials seeking regulations to assure safety for the school children at the two schools.

Israel Balks on Ceasefire Talks

By United Press International
Israel will refuse to begin Middle East peace negotiations until new Soviet missiles that it says violate the cease-fire are removed from the Egyptian Suez Canal front, Egyptian sources in Jerusalem said today.

The sources said a majority of the Israeli cabinet, led by Prime Minister Golda Meir and Defense Minister Moshe Dayan, overwhelmed a minority led by Foreign Minister Abba Eban Thursday and decided to take a stiffer line toward the American peace initiative.

Dayan charged that the Egyptians and Russians moved SAM2 and SAM3 missiles to within 12 miles of the Suez Canal a few hours after the cease-fire began last Friday.

Egypt said the Israeli claims of a cease-fire violation were "contemptible attempt by Israel to evade the consequences

of its acceptance of the American peace initiative. These consequences, Egypt said, would include Israel's withdrawal from territory occupied during the 1967 Middle East War.

Jordan accused Israel of violating the cease-fire with a strafing attack by two jets Thursday on a North Jordanian village. A Jordanian spokesman said there were no casualties or damage in the attack on the village of Northern Esh-Shanna, five miles south of the Sea of Galilee.

Said Eban, backed by a few other cabinet ministers, had argued that the missile crisis, though serious, should not be allowed to interfere with attempts to get negotiations started. But Eban had to give in to the will of the majority, they said.

Eban said in a television

interview Thursday night that Israel had not replied to a query from U.N. peace envoy Gunnar V. Jarring as to when talks should begin.

Dayan told the Knesset (parliament) that the United States, as the originator and mediator of the cease-fire agreement, should police it.

U.S. officials in Washington said the United States was still trying to determine whether there was a cease-fire violation.

Doubts Move-Up

WASHINGTON (UPI) — ABC News said Thursday night in a report from its State Department correspondent that there is "no evidence" that Egypt had moved Soviet-built anti-aircraft missiles closer to the Suez Canal in violation of the 90-day Middle-East cease-fire.

ABC news correspondent John Scall said after studying aerial photographs "American experts see no evidence that Russian missiles were moved closer to the Suez Canal, as the Israelis allege."

Scall said the missiles have been moved, "but in a north-south direction, not eastward, toward the Israeli lines." He said it was not clear whether this deployment continued after the cease-fire began at midnight last Friday, "but officials doubt it."

Scall said the Americans have invited Israeli officials to present any contrary evidence they have, "but until they produce more convincing proof, the belief here is that the Egyptians are not guilty."

Back-home popularity of federal aid to schools — from elementary grades to graduate levels — easily outweighed Nixon's economy plans in the House Thursday when members voted 289 to 114 to repass the bill.

That was well over the two-to-one margin needed, with 77 Republicans joining 212 Democrats voting to override while 13 Democrats and 101 Republicans voted not to do so.

But on a second bill vetoed Tuesday by the President as too costly — an \$18 billion measure carrying above-budget funds for urban renewal, water and sewage grants, and veterans medical care — Nixon's stand was upheld by the House.

Panel Hits Gem Mine Law

MOSCOW (UPI) — State law regulating mining came under heavy criticism Wednesday night as an Idaho Legislative Council committee ended a three-day tour of north Idaho mines.

Five representatives from conservation groups testified to damage being done by mining in north Idaho at a hearing held by the eight-man committee on surface mines at the University of Idaho.

Fred Rabe, Moscow, advisor to the Idaho Environmental Council, said environmental quality is not being preserved by laws regulating strip mining in the state.

"In the past, we have felt the earth's resources were limitless and that our environment could withstand any impact we might make in our extraction of those resources," Rabe said.

"But with the present increasing population and the growing demands of an already voracious appetite for resources, we are beginning to see we can soon destroy our environment," he added.

Rabe said mining has affected water quality in north Idaho. He said stream alterations had been noted after dredging operations on the east and west fork of Emerald Creek and the north fork of the Palouse, and after strip mining on Moose Creek.

Nixon, Kosygin Plan N.Y. Talk

LONDON (UPI) — Eastern European diplomats said Thursday that Soviet Premier Alexei N. Kosygin plans to meet with President Nixon and other Western leaders in New York in October on the occasion of the United Nations 25th anniversary session.

The diplomats said a summit conference was virtually certain. But they said Kosygin apparently would prefer a four-power meeting with Nixon and the French and British premiers rather than a bilateral meeting with Nixon.

If a Big Four summit conference proved impractical, a meeting between Kosygin and the American chief executive appeared "inevitable," the sources said.

The Eastern diplomats indicated the Kremlin's preference for a four-power conference was motivated by its apparent desire to avoid charges of "ganging up" in world affairs by the two superpowers.

World leaders will converge on New York for the special U.N. meeting scheduled for October 10-21.

RALPH NADER

Agnew Sets Tour

WASHINGTON (UPI) — Vice President Spiro T. Agnew will make a nine-day trip to South Vietnam, South Korea, Taiwan and Thailand later this month on a fact-finding mission for President Nixon.

GM Pays Car Critic \$425,000

DETROIT (UPI) — General Motors agreed Thursday to pay consumer advocate Ralph Nader \$425,000 in an out-of-court settlement of his \$25 million invasion of privacy suit.

The company said Nader withdrew all claims for punitive damages as part of the settlement.

The suit stemmed from an investigation by private detectives of Nader's private life following publication of his book "Unsafe At Any Speed," in which he charged GM's Chevrolet Corvair was an unsafe car.

It developed that the private investigating firm hired by the auto company adopted "gun-show" tactics in investigating Nader's private life, including questioning friends and neighbors about Nader's social life.

During Senate committee hearings, GM Board Chairman James M. Roche issued a public apology to Nader. While accepting full responsibility for the investigation, Roche said he deplored the tactics used.

'Coffins Could Burst'

WASHINGTON (UPI) — The Army admitted during questioning by a federal judge Thursday that coffins of nerve gas might burst under pressure if dumped into 16,000 feet of water and release all their deadly contents at once.

The concession came at a hearing on a motion for a court order to halt temporarily the Army's plan to sink an old Liberty Ship loaded with 14,500 concrete and steel encased rockets containing the obsolete nerve gas in three miles of water off Cape Kennedy.

U.S. District Judge J. Lee Green was expected late in the day to announce her decision on the request by Florida Gov. Claude R. Kirk and the Environmental Defense Fund, a nonprofit group of scientists and citizens. They claim the dumping should be in more shallow waters to assure full protection for Southeastern states.

As loading of the vessel proceeded at top speed at the Sunny Point military terminal in North Carolina, an Army lawyer told Judge Green that government scientists could not say for sure whether the ship's deadly cargo would withstand heavy water pressure when it descended to the bottom of the Atlantic 282 miles off Cape Kennedy.

"We don't know whether they (the rockets) will be crushed or not," said Kenly Webster, the Army's deputy general counsel. "They may or may not, your honor. We are right at the equilibrium point on that question."

Webster said he was not sure, but that "I don't believe we expect it to explode."

Falling Slab Kills Workers

PHILADELPHIA (UPI) — Three construction workers were killed Thursday when a five-ton slab of granite fell 12 feet onto a pedestrian walkway from a 38-story building under construction one block from City Hall.

The workers were killed when the slab fell from the top of the building. The workers were on the ground below.

Youthful Escapees Apprehended

SHOSHONE — Three of the 17 escapees from St. Anthony Youth Training Center were apprehended here Thursday afternoon in an alley behind the Claude Chess residence.

Sheriff Thomas Conner and State Patrolman C.R. Eggleston arrested Marvin Walker, Dan Villar, and Floyd Bronchou after the boys had asked the courthouse custodian, Harold Courthouse, for some cigarettes as he was walking on the sidewalk along Highway 63.

When Burgess returned to the courthouse he heard the officers discussing the alert for the escaped youths.

Police Chief Bill Anderson said a fourth youth, Oan Johnson, escaped from the officers, but was apprehended Thursday night in Bellevue where a late model car, reported stolen from Idaho Falls, had run out of gas.

The police chief said he expected the four boys would be returned to St. Anthony sometime today.

T.F. Woman Dies In 2-Car Crash

BURLEY — A Twin Falls woman, Vera Jensen, 61, 210 Harrison St., was killed early today in a two-car collision on Highway 27 north of Burley.

Mrs. Jensen was a passenger in a car driven by her daughter, Mrs. Sadie Perry, 48, also of 210 Harrison St., who was listed in serious condition at Cassia Memorial Hospital.

A third person in the car, Dora Hamilton, 65, Oakland, Calif., was also listed in serious condition at Cassia Memorial Hospital.

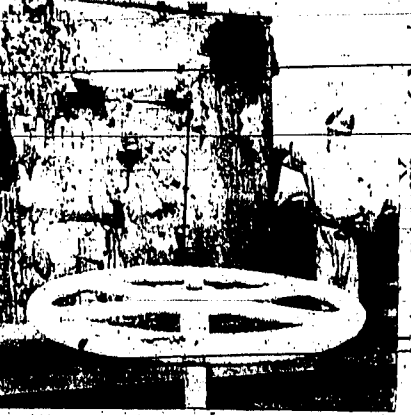

The second vehicle was driven by Kenny Smith, 21, Minn. He was in fair condition today at Cassia Memorial Hospital.

Sells To Chileans

BOISE (UPI) — The president of Boise Cascade Corp. said Thursday a law has been signed authorizing the purchase of the company's interest in Chile's largest private electric power company.

Robert Hansberger, Boise, said under terms of the law the Chilean government will pay Boise Cascade more than \$1 million for a period of 25 years at six per cent interest after the initial \$1 million payment.

He said, "This is not an extraordinary sale of property and culminates several years of extensive negotiations."

WHEEL THAT WILL open one of the flood valves of the Labarron Russel Briggs, World War II cargo vessel that is carrying a cargo of nerve gas rockets, is checked by military technical specialists. The ship is to be towed to sea Saturday toward a destination some 280 miles off Cape Kennedy, and the flood valves then are to be opened to sink ship and cargo. (UPI)

A TWIN FALLS woman, Vera Jensen, was killed early Friday when this car, in which she was riding, was struck broadside on Highway 27 near Heyburn.

Registration Heavy at CSI

TWIN FALLS — Early registration at the College of Southern Idaho has been better than expected, according to Registrar Gerry B. Meyerhoeffer.

About 80, rather than the 60 expected, students have been registering each day since Aug. 1. At this rate, the expected 10 per cent increase in enrollment may be exceeded, he said.

Students may register from 9 a. m. until 4 p. m. through Aug. 19 at the downtown administration office, and next Monday, until 8 p. m. Six to eight counselors will be available to aid students.

Regular registration will begin Aug. 20, and students may register until 7:30 p. m. on that date.

CSI is offering two adult classes this school term — physical conditioning and environmental problems.

Meyerhoeffer said students who wish to register in a special class should register early, before the class is closed.

Vocational education registration also is going well, Assistant Director Neil Cross said.

Most classes are almost filled and auto mechanics and practical nursing classes have been filled for weeks.

He also said there is no enrollment limit on agricultural business, distributive education and law enforcement classes.

Suit Claims Soft Drink Spoiled

TWIN FALLS — A suit for \$17,500 plus medical expenses and other losses was filed in Fifth Judicial District court here Thursday against Albertson's, an Idaho food chain, and Pilling Corp. and Black and White Corp., packagers for Pepsi Cola Bottling Co.

Mont L. Boyer, plaintiff in the case, charges he purchased a can of Pepsi Cola June 5, 1969, from the Albertson's store, then located at 607 Filer Ave. He said he became violently ill from drinking the soft drink and on examining the can found a tiny pin-hole, which had allowed the product to become contaminated.

Camp Fire Girl Hours Changed

During the remainder of August and the first part of September the Magic Valley Council of Camp Fire Girls office will keep a revised office schedule.

From Aug. 17-21 the office will close at 4 p. m., but will be open during the noon hour.

From Aug. 24-28 it will be closed for vacation, and from Aug. 31-Sept. 4, the office will be open Monday, Wednesday and Friday only, from 9 a. m. until noon.

Stolen Truck Recovered

HAILEY — A semi-truck, stolen from Hailey early Wednesday morning, was recovered that evening by state police.

Police found the rig, three-fourths mile south of Berger, out of gas and deserted. A half-mile farther down the road, police said, they arrested Jack Morgan, 37, who witnesses identified as the man who earlier abandoned the truck.

CAA Meet Set

TWIN FALLS — The Board of Trustees of the South Central Community Action Agency will conduct its quarterly board meeting Aug. 20 at the Twin Falls County Courthouse, in Judge Cunningham's courtroom.

The trustees will consider a proposed change in the CAA bylaws.

FIVE TORCH MEMBERS met at Harmon park Thursday to give Henry Fabian, 20, upper left, and Glenn Bjorn, 15, upper right, a sendoff to the National Special Olympics to be held in Chicago on Soldiers Field. Both boys are first place winners in local events and gold medal winners in state events. There will be more than 2,500 children from 47 states, Canada and France, competing. The two Twin Falls entries will compete in the 50- and 300-yard dashes and the 440-yard relay race. They traveled by car to Boise then flew to Chicago, and will return home Saturday.

Truck Strikes Bridge

SHOSHONE — Damage to a 1968 Dodge pickup truck was estimated at \$250 and a camper on it was declared a total loss as the result of an accident at 1:15 a. m. Wednesday one mile north of Shoshone on U.S. highway 93.

Homer G. Solder, 25, Route 1, Bellevue, was driving the vehicle, when he lost control. It sideswiped a bridge abutment, spun around and hit the other side of the bridge, throwing the camper off. It came to rest in the east borrow pit, north of the bridge.

The driver was cited with driving while intoxicated.

Hans Hammergatterstein was a pseudonym used by Henry Wadsworth Longfellow, famous American poet.

Agency Has Lots Of News, All Alike

When the U. S. Department of Commerce institutes new business programs, it believes in letting people know about them.

A fat, franked envelope from the USDC Office of Field Service, Salt Lake City, was delivered to the Times-News Thursday, containing six identical releases about a conference held to advise field directors of the new programs.

Purpose of the conference, the release pointed out, was to advise Field Office personnel of the best means of bringing these programs to the attention of businessmen.

The same mail brought another letter from the same office, signed by Ray L. White, director, urging publicizing of an enclosed preliminary report of the 1970 census.

Pure limestone water. Part of the Beam family art for 175 years.

Baker Beam and Booker are out on Beam's own fresh-water lake, collecting a water sample. Sweet, soft, and iron-free, it's as much a part of the Beam formula as the measures of choice grains. Together, Booker and Baker represent the sixth generation of the only Kentucky family that's made the same Bourbon since 1795.

So when you sip Jim Beam, savor its quality and its light taste. That's what we mean when we say it's a 175-year-old family art.

IN THE GALA ROOM

MARLANE'S SWINGIN' DOLLS

This is a diverting quintet of attractive singing musicians who specialize in parodies of country styled combos, unusually done with witty spontaneity. Marlane, who doesn't use her surname, plays an electronic organ expertly while leading her bevy of mini-skirted dolls. Their vocal close harmony and novelties are as appetizing as the buffet dinners served in the Gala Room at Cactus Pete's.

Also this is one time you will really enjoy singing along with the girls to such songs as "Bill Bailey," "Release Me" and other old ballads.

THE FRIENDLY SPOT WHERE THE ACTION REALLY IS AT THE GALA BAR Jerry Lane

Effects Of Defoliants To Be Studied

WASHINGTON — The Pentagon, which has been sharply criticized for the widespread use of defoliants in Vietnam, is quietly proposing a detailed and comprehensive ecological survey to determine the effects of all wartime operations there.

defoliated and bombed areas — and with charting ecological trends. The Pentagon will therefore dig privately into the complaints of private U.S. scientists that indiscriminate use of defoliants and arbo bombings by the B-52s have caused permanent ecological damage in South Vietnam.

Divided Future

The partition of Germany into East and West countries is given permanent legal sanction in the agreement between the Bonn government and the Kremlin to renounce the use of force and to maintain the present national borders in Europe.

West Germany accepted the reality of partition, with an expressed hope for possible peaceful reunification. In return, the West Germans expect an easier relationship with Russia, increasing trade and amelioration of Berlin's condition, divided by the Berlin Wall.

Russia, while imposing present national boundaries on West Germany, keeps effective control of East Germany with the aim of forever neutralizing Germany as a threat.

The agreement may well mark a turn for the better in East-West

relations and as such must be welcomed. Any relaxation of tensions and mutual fears is desirable and essential to further progress in peaceful resolution of differences.

Foreign Minister, Scheel of West Germany said the agreement strengthened peace in Europe, but Chancellor Willy Brandt said he would not ask the Bundestag to ratify the treaty unless the Russians agree to improvements in Berlin's situation, an island in East Germany.

East Germany apparently was not consulted by her Russian masters although the agreement has fateful implications for her.

Free mingling of East and West Berliners, greatly desired by the West, is feared by the East and little real improvement in the situation can be expected until and unless the Berlin Wall is removed.

"So Happy to Have a High-ranking Delegate To Negotiate with Again!"

ANDREW TULLY

Rich, Poor In Same Boat

WASHINGTON — There are people who still enjoy a good, drawn-out lynching, and they have crawled out of the woodwork to smack wet lips over the marijuana charges lodged against 16-year-old Robert Kennedy Jr., and 17-year-old Sargent Shriver, III.

Perhaps, indeed, a special compassion should be reserved for the children of the celebrated rich. Frequently, it is easier for a kid with money and a celebrated name to fall into trouble. The relatively poor offer meager profit and no chance at all of celebrity for the professional peddlers of trouble — dopepushers, pimps and blackmailers. Sometimes the burden of being the offspring of a famous man or woman is too

heavy to carry and the boy or girl seeks release in the illicit, or merely the shiftless. Clearly, the scandal mongers seek to punish young Kennedy and young Shriver for the politics of their fathers. Given the propensity of the young to reject the dogma of their elders, this is ludicrous as well as nasty. As a political man, Bobby Senior was fair game and subject to censure for misbehavior, and so today is Sargent Senior. But their sons are kids, not candidates for high office.

Popular

It requires a special kind of courage to become a spelunker. Intrepid explorers of uncharted caves obviously don't suffer from claustrophobia. They find a unique fascination in climbing and crawling through tiny passageways and mammoth caverns where man may never have set foot before.

The beauty of the formations, the insects and fish which survive in many caves for generations without a glimpse of sunlight, the suspense of never knowing what might be found around the next turn — these are some of the lures which draw

thousands to this specialized form of exploration. They come from all walks of life. Some are scientists following their disciplined curiosity into another world. Many are students, housewives, businessmen and other part-time explorers out to chart new courses in an unusual domain.

More than 50,000 caves in the U. S. and thousands more in Canada await the penetration of their carbide lamps and the sound of their non-slip boots, many of their passageways as virgin as the ocean floor.

Henry's Legacy

Henry Ford generally is credited with being first to introduce the automotive assembly line. He would be proud of one being used this year to turn out one of the small models being produced by American manufacturers to compete with foreign imports.

It will be virtually a computerized car. Computers were used to smooth out the rough design, to find any flaws, to help plan the production line, and to

check the quality of the car as it proceeds through the line. Other automated equipment handles such chores as performing 95 per cent of the welds, hanging the doors and unraveling production snags.

The line is in production use now, but when it becomes fully operational it will be geared to turn out 100 cars an hour.

Now if someone could find a way to automate the driver so he would respond with matching efficiency.

Women's Suffrage

Aug. 26, 1920, was a date memorable in American history. It was the day on which women were given the vote.

Political soothsayers 50 years ago loosed a barrage of predicted consequences, most of them dire, which were certain to occur as a result of women at the polls. Numerical superiority would obviously give the ladies the advantage in every election, they said. It would be only a matter of a few years until all levels of government would be captured by female candidates.

Women have achieved high offices under the impetus of the Nineteenth Amendment. They

have brought respect to official positions in many states, but there is a less pronounced tendency toward continuity of their careers than is true of the male politician.

There have been 13 presidential elections since women started to vote. Conjecture as to what changes if any there might have been in the roster of presidents had suffrage not occurred continues. That the feminine hand has been influential at the polls is apparent, but the greatest influence of the ladies — in domestic and political matters — probably is to keep those who attempt to follow the contemporary scene off balance.

Highway Freight

Highways were most widely used by United States manufacturers in shipping 1.265-billion tons of commodities in 1967, according to figures just released by the Census Bureau. Railways handled 32.0 per cent of the total and waterways 26.3

per cent. Two-thirds of highway shipments were by motor carrier and one-third by private truck. Later but incomplete estimates in shipping circles are that truck transportation continues to gain.

GEORGE C. THOSTESON, M.D.

Staying Young

Dear Dr. Thosteson: I am a 62-year-old female with full office employment and very active. I especially enjoy young people and spend much time with them.

There are a few old people who severely criticize me for moving around and walking quickly. They say that because of my age I should stay at home more, learn to walk and move slowly to retain my health.

I have regular checkups with my family physician and have a clean bill of health, but these few old people say I will ruin my health if I don't slow down. Your thoughts please? — M. R.

Sounds like sour grapes. Let 'em sit around and listen to their arteries harden if they want to, but I'm all in favor of your method of staying young.

Dear Dr. Thosteson: Please send your booklet, "How to Stop Leg Cramps and Foot Pains," for which I enclose 25 cents and a self-addressed, stamped envelope. Do support stockings help this condition? — M. D.C.

Yes, if you have varicose veins or are on your feet a lot, such hosiery may give some relief, and is worth trying.

Dear Dr. Thosteson: I have pernicious anemia and take thyroid tablets each morning and a shot of B-12 once a month. A friend sent me some B-12 tablets. Would taking them cause an overactive thyroid? I haven't taken any yet. — J. F. S.

I'm afraid you are getting two separate problems mixed up. Vitamin B-12, given by injection, is the proper way to control pernicious anemia. Your thyroid problem is a separate matter. You take tablets for that. Taking B-12 tablets wouldn't make your

thyroid overactive, but on the other hand, since you are getting the injections, I don't see why you should need B-12 in tablet form in addition. Dear Dr. Thosteson: Please! Will just one small drink of whisky eventually do my system any harm if taken daily? That's all I take, and my children all feel it will cause some damage to my kidneys or liver in time. I'll abide by what you say, sir. I am 65 and a widow. Sign me — GRANDMA. And by "small" you mean about an ounce, then I think your children are worrying over nothing. (But as you know, I'm opposed to excessive drinking.)

ART BUCHWALD

Tourist Explosion

TAHITI — There have been two explosions in the South Pacific recently. One is the French atomic bomb and the other is the tourist invasion of Polynesia. It is predicted that while the fallout from the former will blow away, the fallout from the tourist explosion will be around for centuries to come.

"Yes, sir," the Tahitian says. But he thinks "I have already had breakfast and besides I do not have a plane to catch, so why is he bothering me with his problem?" Ten minutes later the American says "Waiter, I must have breakfast now!" "Yes, sir," the Tahitian says. But he thinks to himself "If I do not give him his breakfast, perhaps the French manager will fire me and then I can go fishing in the lagoon."

For hundreds and hundreds of years Tahitians have set their own pace, which is somewhat slower than that of Americans and Europeans. To cite an example, as of this writing, Tahiti is still celebrating Bastille Day, which took place on the 14th of July. No one is exactly sure when the 14th of July will be over out here, though some hotel owners, whose help has not come back yet, are hopeful everyone will be at work by Christmas.

Fifteen minutes later a fuming American says "See here, I have been waiting for breakfast for 25 minutes. I haven't even had coffee. I have five countries to see in six days. When I got back to the United States I will tell all my friends not to come to Tahiti."

"Young people today," he said, "are being subjected to the most profound temptations and stresses. All young persons have our deepest sympathy. He was saying what every concerned parent knows — that we are all in this mess together, that the bell tolls not only for

The American says "Please, I must have breakfast. I'm late because I have to catch a plane for Pago Pago."

BEBRY'S WORLD

"Do you have anything left that's GOOD for us?"

Too Much Heat, no Ice Bother Siberia Tourists

"In frozen Siberia, who would have expected that our main problems would be too much heat and no ice?" This message on a postcard-bearing Russian stamps arrived today from a member of Alaska Airlines' eight-day Siberian tour.

Too much heat! Sweaters stayed in the suitcases and coats were a bother to members of the group that arrived back in Anchorage June 28. In Siberia, summer temperatures are said to average around 35 degrees. Centigrade which sounds reasonable, but this translates into about 100 degrees Fahrenheit. All across Siberia the American travelers hit 90 degree weather and the further north they went, the hotter it got! Thundershowers occasionally soaked some unwary tourist, but most of the rain was at night.

No ice! "If you want ice, come to Siberia in the winter," Sergel the Intourist representative, told com-

palnars. There are no bars in Siberia accessible to tourists. Drinks are served in the hotel dining room, and if it's closed, that's too bad. Room services does not exist. In the dining room in Khabarovsk, the first stop, where the Moscow-bound party had been greeted with buckets of ice, not a cube remained. On the other hand, the top water in the hotels of Irkutsk and Bratsk was very cold and tasty. On the restaurant tables there was nearly always cool apple juice labeled "Yablochny Natural." Coffee and tea were hot and good. Champagne and white wines were refrigerated and vodka is vodka, the group discovered, even at room temperature. The first cube of ice the party saw was on their jet, homeward bound.

To beat the heat, Monday morning early in Irkutsk, ladies with suitcases full of long-sleeved wool knits were off to shop for cotton dresses. From

the Angara hotel they were directed down Lenin Street, formerly 5th Road, the old caravan route south to China. At the Lenin statue they turned right onto Karl Marx street, in pre-revolutionary days a fashionable neighborhood of apartments and shops. As they passed two and three-story flats

of stucco, they could imagine carriages and sleighs passing into the dirt court yards through the broad wooden gates.

Irkutsk, a town of nearly half a million, has a wide, blockaded street serving as a "shopping mall" but no large department stores such as GUM in Moscow or the three-story

"Pisudny Otdel" magazine in Khabarovsk. Those intent on cooling off picked up simple cotton shirts off the rack, price about \$6. But more plentiful than ready-made were the yard goods displays. Here, Russian saleswomen were cutting out patterns for customers and in some stores,

even stitching the seams for them.

Shoppers at the mall found much to see and photograph but little to buy. In the large jewelry store where Russian girls crowded the counter to be measured for wedding rings, nobody understood English. At the delicatessens, sign language

(a sneeze) produced a snuff instead of pepper, but tomato juice could be obtained by pointing. For Americans, prices were cheaper and quality higher in the hotels and airports at the BERIOZKA or dollar stores, so called because only

American dollars are accepted. Prices for consumer goods bought by ordinary dollarless Russians appear to be set by supply rather than by demand; what the government deems necessary is supplied cheaply.

'Fat Cats' Invest, And You Can, too

Q — Inflation is eating up our savings. I thought I would buy some government securities. Someone said they were a safe bet and paid 8 per cent interest. I learned that the minimum amount you can buy is \$10,000. What is this? The government makes it hard for those with limited funds and yet they make it easy for the fat cats to invest.

Can't somebody do something about this inequity? — Mrs. D. M., Los Angeles.

Q — In your column on insurance, I think you must be in error when you quote John C. Post (professional money manager) as saying: "The breadwinner of the family should have enough insurance and other income to cover one-half of current yearly income." Are you saying that a man who makes \$10,000 a year needs only \$5,000 insurance? — J. A. W., Wallerstein Insurance, Richmond, Va.

A — Mr. Post said in the next paragraph that one-half yearly income "takes into account the slim chances of your dying immediately, yet it protects you with the basic minimum (cost of bringing up children to college age) if that should occur."

Perhaps it could have been clearer but he was suggesting that a family man should have enough insurance to cover one-half of his yearly income for all the years needed to bring the kids up to college age.

For example, if a man makes \$10,000 a year and his wife is facing five more years before the youngest child reaches college age, he would need at least \$15,000-year basic minimum. This is just a rule of thumb which can vary to fit an individual's special situation.

Concert Slated At S.V.

SUN VALLEY — Ensembles will be featured at the two weekly concerts by the Sun Valley Music Camp Saturday and Sunday. Both are slated for 4 p. m. in the Opera House.

Saturday's event, presented by faculty members includes Bach's "Quintet in G Major," with Eugene Foster, flutist; Diarral Stubbs, oboist; Elaine Ribbey, violinist; Sally Peck, violinist; Christian Tiemeyer, cellist; and Roy Sanchez, pianist.

"Sonata for Cello and Piano," by Debussy features Tiemeyer on the cello and Lowell Farr, pianist; Schubert's "Auf dem Strom," will have Peter Sacco, tenor; Gaylen Hatton, horn and Carol March, piano; Poulenc's sextet includes Foster, Stubbs, James Hopper, clarinetist; Hatton, Roy Sanchez, bassoonist, and Miss March.

Sunday's student concert includes Carter's woodwind quintet; Ibert's "Trois Pieces Breves" by the faculty quintet; Sacco's "Last Six Love Songs," and Brahms' "Trilo in B Major" with Miss Ribbey, Tiemeyer and Farr.

HAILEY'S POLICE CHIEF, Bill Reid, center, receives a certificate from Larry Plott, left, coordinator of the Police Training School at Idaho State University. Pocatello, upon completion of requirements for a certified police officer, as Mayor Lawrence Hoagle looks on. Reid is the second police chief in the state to complete the requirements.

Hailey's Police Chief Receives Certification

HAILEY — Hailey's new police chief, Bill Reid, has received the second certificate of police certification issued to an Idaho police chief. Larry Plott, police training coordinator, Idaho — State University, presented the basic certificate to Officer Reid by completing full requirements as set forth by the Idaho Police Officers Standard and Training Advisory Council. Chief Reid attended the initial 30-day training school at the University in January, studying for 280 hours. About 45 police oriented subjects are studied at each of the schools with three such training sessions held this year. About 40 officers in the state have been certified to date, Mr. Plott said.

The first chief to be certified is George McConville, Rigby. Mr. Plott also explained that Officer Reid's certificate is the initial one, with more training required for the intermediate and advance certificates. He noted that the city council was to be complimented for hiring a man with training.

The presentation was made at the city council meeting this week during which the council approved the payment of \$450 to the Little League program in the city. The request was made by Roberta McKecher. Engineer Bill Briggs, Boise.

completion of requirements for a certified police officer, as Mayor Lawrence Hoagle looks on. Reid is the second police chief in the state to complete the requirements.

reported that specifications for Phase III of the city's water and sewer project were to be presented to the Farmers Home Administration for approval Tuesday, and that the phase should be ready for bid by September. The phase includes the installation of water and sewer lines through the city. Phase I, for the rebuilding of Indian Springs and the laying of water lines from the springs to the city edge, has already been contracted to Drake Plumbing and Heating but work has been held up pending the arrival of FHA funds to finance the work. Phase II, providing for the construction of the sewer treatment plant, must also be prepared for bids before state and federal monies will be approved for the project. Councilmen hope to have the project completed by next summer.

Burley Elks Lodge Plans Celebration

BURLEY — Burley Elks Lodge No. 1384 will celebrate its 50th anniversary Saturday at the lodge hall.

A no-host social hour is slated from 5 to 6:30 p.m. followed by dinner at 7 p.m. and dancing will begin at 9 p.m. in the dining room. Dinner tickets are by reservations. Dale Plotts Originals will furnish the dance music.

Expected to attend the anniversary event is Frank Hise, Corvallis, Ore., past grand exalted ruler of the National Elks, who will be guest speaker during the evening. He has just held the title of past grand exalted ruler for the last month. Bill Hawkins, past grand exalted ruler of Idaho, has been invited and will attend if his health permits.

All Burley Elks who have had a membership of 30 years or over will also be honored during the dinner and program. Directing the 50th anniversary celebration are Ben Sprague, exalted ruler; Charles Shaddock, leading knight; James Skiles, loyal knight; Jerry Anderson, lecturing knight; George Korb, esquire; William Howard, chaplain; Kirk Pickett, inner guard; Frank Langer, Tyler; Warren Mohrlang, secretary-manager; T.J. Sedam, treasurer; Harland Thomas, Mel Doman and Fred Baines, all trustees.

George W. Greene, representing the development agency, met with the council and members of the Blaine County Economic Development Committee this week for the presentation. The initial check will be followed by three others for a total of \$442,250. The final payment to the city will be made after an audit of the finished project has been completed.

Mr. Greene noted the Economic Development Administration is under the Department of Commerce and is designed to help redevelopment areas in the United States with loans and grants to improve the local economic level. In order to participate in the funds, he said, the community such as Blaine County must develop a local committee under the Overall Economic Development Plan. This was done in the county when the county commissioners appointed Betty Laverty and Joe Wurst to form the committee in 1965.

Times-News

Times-News, Twin Falls, Idaho Friday, August 14, 1970

Stanley Group Raps Proposal for Park

STANLEY — About 150 persons swelled Stanley's population of 35 Thursday night to attend a meeting at which a strong protest against a national park for the area was formulated. The Sawtooth Valley Association went on record "for a national recreation area, with

multiple use management of the area resources, and opposed to a national park," according to Mrs. J. G. Nicholson, Obsidian. She said the meeting at the schoolhouse was attended by cattlemen, sheepmen, homeowners, loggers, mining interest representatives and business people, as well as aides

from both the Challis and Sawtooth National Forests. Much of the meeting was concerned with questions and answers as to the effects the new legislation introduced Under this proposal, the Sawtooth region would be "jointly" administered by the

Park Service and the Forest Service, with the "higher elevations being designated a national park, and the lower areas operated as a recreation area." John Breckenridge, Twin Falls, who has a ranch in the Stanley basin, told the group Wednesday night the wise use and careful management of the land and its resources under the recreation concept can make this area productive and useful for generations to come.

Rogerson Facility Sought

ROGERSON — The Rogerson rural Post Office station is being put up for bids, according to Lloyd Libert, officer in charge at the Twin Falls Post Office.

The present Postmistress is retiring, Libert said, and a replacement is needed immediately. Deadline for the bidding is Aug. 21. Bid forms may be obtained from Libert at the Twin Falls Post Office.

The bidder must be able to furnish a minimum of 120 square feet of space for postal facilities, including window service, though the station may be placed in a private home. All required postal services, including money orders, registry of mail, parcel post and stamp sales, along with a space for postal boxes, must be furnished.

The successful bidder must furnish a \$3,000 performance bond. Window service must be provided during normal business hours, and on Saturday mornings. In order to bid, Libert explained, a bidder must take all factors into consideration, including a satisfactory salary, and offer to perform the postal services for a stated amount per year. The salary will be paid monthly, Libert said.

Senior Group Leader Named

BURLEY — Mrs. Katherine Butcher, Burley, has been named to head a Senior Citizens' Agency program of the Community Action Agency in the local area.

Mrs. Butcher will work with service clubs and other groups in a survey to determine the needs of senior citizens of the area and will then fit services to these needs.

Work of the new agency representative will not affect activities of existing organizations assisting retired and older residents of the area.

Magic Valley Barlow Warehouse Sale Reported

HAZELTON — The sale of the Charles W. Barlow warehouses at Hazelton and Murtaugh was announced today by Bert Barlow, whose family has operated the bean and grain operation for 57 years.

The warehouses will be known as Conida Warehouses, Inc., according to Barry Barlow, son of the former owner, who will continue as manager at the Hazelton facility. Barlow operated two warehouses at Hazelton and one at Murtaugh, all of which were acquired by the new owners, who were identified by the Barlows only as "an Eastern concern." The name "Conida" is a blending of the states Connecticut, where the new owners are headquartered, and Idaho, the younger Barlow said. No changes in personnel or operating procedures are contemplated by the new owners, though they plan to expand their operations, Barlow said.

Request Asked at Airport

HAILEY — Requests were issued here Friday to pilots, automobile and bus drivers and local area employees not to park on the east side of the runway at the Hailey airport beginning Aug. 17, through Aug. 26.

This is necessary to permit final upgrading in sweeping, oiling, rolling and fog sealing of the runway, taxiway and aircraft and auto parking areas at the airport.

Aircraft and automotive equipment should park across the runway along the west side of the airport as a necessary convenience to construction workers. Cooperation by all concerned will alleviate closure of the airport during the final work period, Chet Moulton, state Aeronautics director reported.

He said when equipment must work on the runway, pertinent will be asked to circle until such equipment is stopped to assure visual safety preparedness by workers.

The Hazelton-Murtaugh warehousing operations are the first for the new owners in Idaho, who chose the area for its prospects of ultimate prosperity, Barlow said he was told. The new Conida Warehouses are highly modernized, with just six employees handling operations in all three facilities, Barlow said. The larger unit at Hazelton can store 150,000 bags of beans, while the smaller warehouse, designed for garden bean seed, holds 46,000 bags. The Murtaugh operation will store 15,000 bags of beans and grain, Barlow said.

It was pointed out that with the formation of a park, the land would be used for recreation only, thereby eliminating grazing, logging, hunting or snowmobiling as it now exists and there would be no private grounds or holdings in the area. Ranchers pointed out that without their grazing rights they would be unable to continue operation and mentioned that the meadows throughout the Stanley basin area irrigated from the many creeks running into the Salmon river. If the ranching ceases, the meadows would return to sagebrush as they were some 30 years ago.

Homeowners in the valley expressed concern about the future of their land and Forest Service aides said they could not give any definite answers.

Parents Protest Wording

SHOSHONE — A group of Shoshone parents who have petitioned the Shoshone school district board of trustees to have their children removed from the Shoshone schools has objected to the wording of a news item which appeared in Wednesday's Twin Falls Times-News.

The parents declared today that they have not "demanded" any particular rights, but have "petitioned the school board" to allow their children to attend schools in Dietrich or Gooding. The parents also said that, whereas the news story indicated they feel their children "will not be educated properly in the Shoshone school district," they have said their children have "experienced severe emotional strain during the preceding school year." They object "to the standards of teaching and administration in the grade school," and feel that their children "have been ridiculed and abused because parents have voiced these objections."

Takes Training

DIETRICH — E-2 Gordon Black, having finished Basic Training at Fort Ord, Calif., has been sent to Ft. Lewis, Wash., for further training. He has been home visiting. His wife, the former Eileen Cooper, plans to join him soon.

Six Girls Seek Cassia Fair Queen Title at Cassia Fair

BURLEY — Six young ladies are making a bid for Cassia County Fair and Rodeo Queen and a new queen will be crowned Aug. 22, the final night of the rodeo.

Candidates are Jill Allred, Murtaugh; Ronda Barnes, Bridge; Janice Clark, Albion; Wendy Jacobs, Declo; Debra Mabey, Oakley; and Nancy West, Burley.

Miss Allred is 19 years old, a graduate of Murtaugh High School in 1969 and last year attended Idaho State University, Pocatello, majoring in government. The daughter of Mr. and Mrs. Jack Allred, she is

sponsored by the Burley Lions Club. Her hobbies are snow skiing, flying and swimming. She served as commander for ISO Scotch Guard and she is reigning Miss ISU for 1970-71.

Miss Clark, 19, is the daughter of Mr. and Mrs. Ernest Clark. A graduate of Declo High School, she is a sophomore at Brigham Young University, majoring in nursing. Her hobbies are reading, playing the piano, knitting and riding horses. She is sponsored by the Burley Jaycees.

A graduate of Raft River High School this spring, Miss Barnes, 18, is the daughter of Mr. and

Mrs. Don Barnes. This fall she will attend Ricks College entering the nursing program. Her hobbies are sewing, playing the piano, snow skiing and water skiing and all types of sports. The Malta Lions Club is sponsoring Miss Barnes.

The Declo Kiwanis Club is sponsoring Miss Jacobs, 18, daughter of Mr. and Mrs. Don Jacobs. She graduated from Declo High School this spring and plans to enter University of Idaho this fall, majoring in elementary education. Her hobbies are water skiing, sewing, baseball and all sports. Miss Mabey, 18, is the

daughter of Mr. and Mrs. Donald Mabey. She was the reigning queen for Pioneer Days held in July at Oakley. This spring she was graduated from Oakley High School and plans to enter Ricks College this fall. Her hobbies are music and riding horses. While she was a senior in high school she was crowned harvest queen. The Oakley Vigilantes are sponsoring Miss Mabey.

A graduate of Burley High School this spring, Miss West, 18, is the daughter of Mr. and Mrs. Earl West. This fall she plans to attend Idaho State University, Pocatello, majoring

in mathematics. She is sponsored by the Burley Rotary Club.

The queen contestants will be guests at an 8:30 a.m. breakfast Monday, at Price's Cafe. The girls are judged on riding ability in a walk, trot, canter, sliding stop, figure eight, and mounting and dismounting. Also they are judged on poise, appearance, speaking ability, and of answers given to a question on horsemanship.

This year a trophy saddle will be presented to the queen which has been purchased by donations from local merchants. The six contestants will be guests of various clubs and organizations from now through fair week.

The first night of the fair will begin at 8 p.m. Wednesday with the Country Western Jamboe, followed by three nights of rodeo produced by Dell Haslam.

The fair parade is set for 10 a.m. Thursday at the Overland Shopping Center and the fair queen contestants will be riding in the parade.

Parl-mutual horse racing will begin at 1 p.m. Thursday with 10 races planned each day.

Theme for this year's fair is "100 Years of Progress."

Assault Case Being Studied

RUPERT — Probate Judge Leroy Blacker will decide Monday whether Eltsio Benavides, about 40, of Gooding, will be held for trial on a charge of assault with a deadly weapon with intent to commit murder.

Judge Blacker took the case under advisement after a preliminary hearing Thursday in Probate Court. He also will rule on a request from Benavides' attorney, Roger Ling, Rupert, to reduce the charge to assault with a deadly weapon.

Benavides was charged in connection with the reported shooting of Chico Melcher, who was found wounded in the back seat of a car parked in the sand dunes area near the Heyburn bridge on Aug. 3.

School Aides End Conclave

SUN VALLEY — Some 350 Idaho school administrators and Trustees ended their three-day conference here today after hearing a summary of group discussions on drug abuse education, student unrest, teacher militancy and interested school patrons.

Idahoans seem more concerned about the social and psychological effects of drug use than in identifying users, Dr. Alan Matzger, Haigh-Ashbury medical clinic in San Francisco, told the group in summarizing Thursday's discussions on this subject.

He said in other places there is more concern to know if it is happening, and less with the effects. There are no easy answers or pat solutions to the problem, but the best basic guideline is "total personal involvement," the doctor said.

In discussing student unrest, Don Oliver, Los Angeles, NRC news correspondent, said school administrators would be better off to forget the dress code and spend their energy on more important problems. He said the dress code is a symptom of a much deeper problem and if not resolved, will lead to deeper problems.

The school system must accept teachers as co-equals, Gerald Handy, of the Utah Education Association board of trustees, declared. He noted negotiations are a good method of solving problems and creates improved teacher morale.

Mrs. Janet Hay, League of Women Voters official at Caldwell, said patrons need to know more about what is going on in the Idaho school system.

Dress Code Noted For Valley Schools

EDEN — Schoolgirls may wear slacks and pantsuits this year in the Eden-Hazelton School District No. 282 — but not extremely short skirts — will be allowed, according to the dress code adopted by trustees at their meeting this week.

Girls may not wear low-cut shirts, Bermudas or stretch pants, though culottes and stylish dress slacks are allowable. Girls must not wear hair rollers or curlers to school, and no clothing deemed in poor taste will be allowed.

Boys must also be neat, the trustees ruled, with shirts tucked in at all times. Socks must be worn with shoes or sandals, and all hair must be neatly trimmed, with no beards or mustaches allowed. Hair must not hang down over the collar — ears and must be neatly trimmed.

The school calendar was adopted, with classes to begin Aug. 13 at 8:45 a.m. Buses will run as usual, and hot lunch will be served beginning the first day of school. Holidays during the school year include Labor Day, Sept. 7, teachers' in-

stitute, Oct. 8 and 9; Thanksgiving, Nov. 26-27; Christmas, Dec. 24 through Jan. 3; Easter vacation, April 9 through 12, and final day of school, May 20.

High school students will register throughout next week, with seniors signing up Monday. Juniors on Tuesday; sophomores on Wednesday; freshmen, Thursday, and eighth graders on Friday. Registration will be conducted from 9 to 11:30 a.m. each day. School insurance will be available at registration, or it may be purchased during the school year.

In other business, the trustees adopted a drug-abuse education program, as outlined by Dr. Tom Utterback. Background of drugs and their hazards will be taught to all students.

Bids were awarded to Ida-Gem Dairymen for dairy products, Bronson's for coal for the elementary schools, and American Oil Co. for oil for Valley High School. Bids were received for installation of electric heat, but a decision was reserved until a later date.

81 Cases

SHOSHONE — A total of 81 juvenile cases were heard last year before the Lincoln County Probate Judge C. M. Wilson, according to his annual report to the Youth Rehabilitation Division, Department of Public Health.

Of the 81 youths, 69 were male and 12 female offenders, and the 17-year-olds predominated, the judge said.

Wall Street Chatter

NEW YORK (UPI)—There is little basis for expecting new market low below the late May levels, as many market observers now seem to be doing, says E. F. Hutton.

Although certain areas of the market, notably the glamour issues, still are weakness-prone, other groups clearly have halted downturns and, in a few cases, established new uptrends. This is in marked contrast to previous declining phases this year, Hutton adds.

During the past 18 months, the investor who allowed his political judgments to influence his economic interpretations made a very costly mistake according to Argus Research Corp. Now the "catapontion" phase of the biennial political campaign is about to descend upon the American people again, the firm says, and investors will have to take care to see that their investment decisions are not influenced by political propaganda.

this pointless false card, only man he could fool his partner.

Then East returned nine of spades. Dummit ace won the trick and four of clubs was South's trick last to West queen and the defense hit two tricks in West's last certain of a trump trick as if he could count on winning a fourth trick with the kit of diamonds, he would have the hand beaten.

All this should have gone through West's mind but West was thinking about the heart suit. His partner had bid four hearts without the king or queen. Obviously he held the ace of diamonds. Why not be brilliant and lead his king?

So West was just as brilliant as his partner. He led the king of diamonds and South made his impossible contract!

(Newspaper Enterprise Assn.)

♥CARD SENSE

Q—The bidding has been: West North East South 3♥ Pass You, South, hold: ♠7 6♥A 6 5 4♦A 9 2♣A 10 7 3 What do you do now?

A—If vulnerable, bid four spades. If not vulnerable, pass or bid four spades, depending on what sort of preumps your partner makes. Do not bid three no-trump.

TODAY'S QUESTION

East opens three spades. You, South, hold: ♠K 3♥A 6♦K Q 5♣A K Q 8 6 5 What do you do?

Answer—Tomorrow

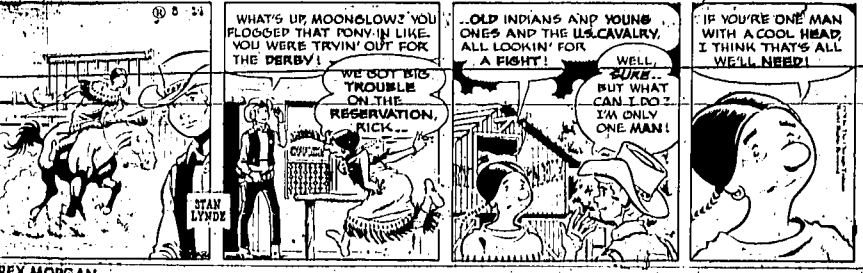

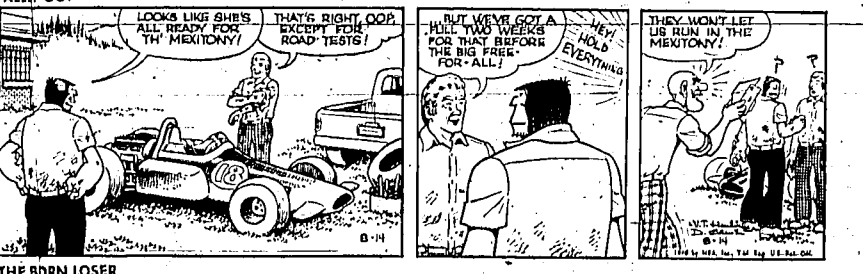

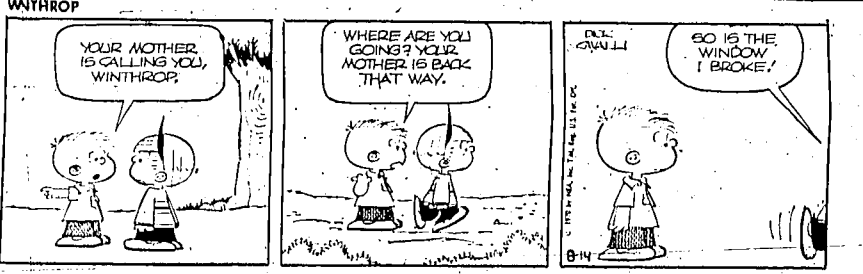

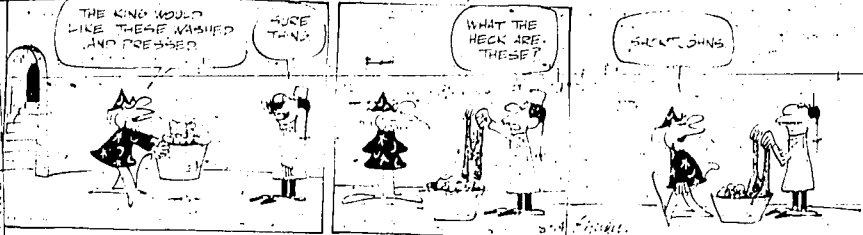

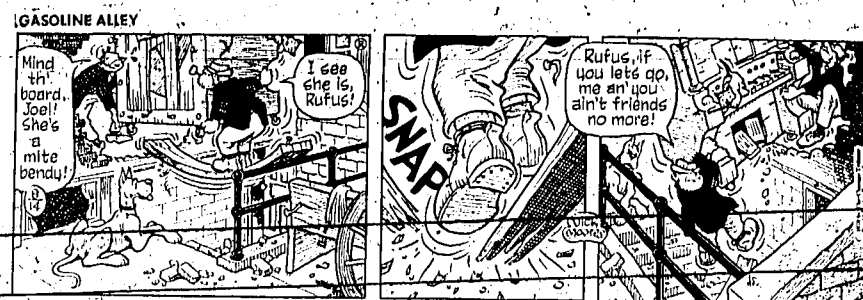

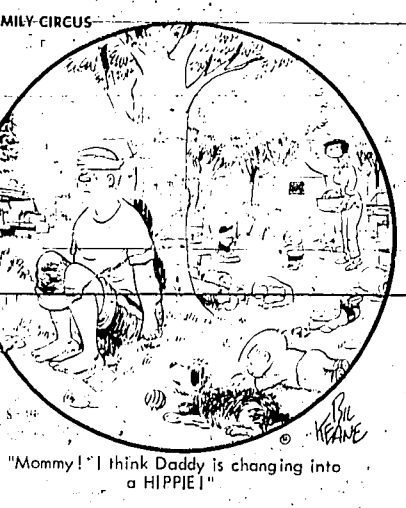

You all know the fairy tale of a prince who was endowed with everything good by friendly fairies but cursed by an unfriendly fairy with the gift of being too clever.

The same holds true at the bridge table. It pays to be clever but not to be too clever.

East's jump to four hearts was an overbid intended to jam his opponents. It did drive South to four spades. If East had just bid three hearts like a normal human being, South would have just bid three spades and East might have wound up playing and making four hearts.

West made the normal opening lead of the deuce of hearts and too-clever East won with the ace. We'll never know why he made

State Slowpitch Tourney Begins At Harmon Tonight

On a note of cautious optimism, five Twin Falls teams will battle 11 of the other top teams for the state title when the state slowpitch tournament opens at 6 p. m. Friday at the two Harmon Park fields.

Surgery Set For Cook's Passing Arm

WILMINGTON, Ohio (UPI)—Cincinnati Bengals quarterback Greg Cook will undergo surgery to correct a muscle tear in his throwing arm, Head Coach Paul Brown disclosed Thursday.

Brown said he was informed by Dr. Roger Collins, an orthopedic surgeon at the well-known Cleveland Clinic, that Cook should have an operation to correct the arm ailment.

Brown said in all probability Cook would be lost for the entire 1970 season. He said he would go with quarterback Sam Wych as starter and rookie Dave Lewis as the backup signal caller.

Cook traveled to the clinic Thursday morning to undergo tests in an attempt to determine why he continued to experience pain when he threw a football.

Brown said he was told by Rogers, a specialist in athletic injuries, that Cook's rotator cup in his right shoulder was healed. The cup was injured last season in a game with Kansas City and was believed to be causing the trouble.

remotely, two of the teams, Turf Club and Blitz Beer, have to be rated the most likely to succeed with Royal Lounge as a darkhorse. The other two clubs, Varsity Barbershop and Sherwood's Sport Center, run more to youth and the lack of state tournament experience may hurt them. However, Varsity has come up well in two previous meets this year.

Still, no one is favoring the local teams. There is a solid feeling that the probably champion will come out of northern Idaho and the feeling is just as strong that it will be The Falls from Post Falls.

Tennis Grand

Prix Growing

NEW YORK (UPI)—The fledgling \$200,000 Grand Prix of tennis — under which various tournaments throughout the world would contribute to a fund to be distributed among tennis players gaining the greatest number of points by their finishes in tournament play — Thursday got a tremendous financial boost when tournament officials for the U.S. Open Championships at Forest Hills said they would contribute \$10,000 to the fund. Under Grand Prix plans, each tournament would donate 10 percent of its prize money to the fund. The U.S. Open, with an announced prize money total of \$100,000, will give an additional \$10,000 to the Grand Prix. The announced prize money structure, for the Sept. 2-13 tournament.

"They have had the sport longer than we have and have been more serious about it," says Fred Plankey, manager of the Blitz team. "They play considerably more games than we do. It seems like there's a weekend tournament up in that area about twice a month."

"Most of the teams play very well defensively and that was the one thing that you realized immediately in watching Post Falls play last year. They hit the ball well, too, and just basically don't have any glaring faults but the one thing about them is their defense."

Lewis Flattens Almazan In 10th

LOS ANGELES (UPI)—High-ranking welterweight contender Hedgemon Lewis scored an eighth round knockout over Mexico City's Chucho Almazan in a scheduled 10-round fight at the Olympic Auditorium Thursday night.

Lewis, of Los Angeles, had Almazan pinned against the ropes and defenseless when referee George Latka stopped the bout.

Lewis, formerly of Detroit, recorded his fifth straight win since a knockout loss to Indian Red Lopez.

The California fighter sent his Mexican opponent, who was making his first U.S. start, into the ropes with a left to the stomach and a right-left combination. Lewis improved his record to 32-2 with his 18th knockout. Almazan now is 25-4.

"Still I think with a little break here or there one of our local teams could win it," continues Plankey, who doubles as president of the local league. "I think our league gets a little stronger each year and you just never know."

The thing that worries Plankey more than anything, though, is his charges, third in the district tournament, will be playing Post Falls in Saturday morning's lead-off game.

The first-round pairings include:
Diamond One
6 p. m. Friday, Varsity membership of Twin Falls vs. Coeur d'Alene Merchants.
7:15 p. m., Turf Club of Twin Falls vs. Wallace Platting of Boise.

8:30 p. m., Sherwood's of Twin Falls vs. Sacred Heart Booster of Boise.

Diamond Two
8 p. m., The Lakers of Coeur d'Alene vs. Hammers Beers of Lewiston.

7:15 p. m., Boise Cascade of Emmett vs. Lucky Lager of Lewiston.

8:30 p. m., CityClub of Sandpoint vs. Royal Lounge of Twin Falls.

The first round will wind up at 9 a. m. Saturday with Blitz Beer of Twin Falls meeting The Falls of Post Falls on diamond one and Grasmick Produce of Boise playing Viola Heidelberg of Moscow on diamond two.

Action will be nearly continuous Saturday with games starting at 9, 10:15 and 11:30 a. m., and 1:30, 2:45, and 3:15 p. m. in afternoon session and the usual three games starting at 6 p. m. Saturday.

Cowboys Climb Within One-Half Game Of Lead, Host Ogden Saturday

GREAT FALLS—The Magic Valley Cowboys swept a doubleheader from Great Falls 5-1 and 4-2 Thursday night to pull to within one-half game of the Pioneer League leading Ogden Dodgers.

The Cowboys wind up their series at Great Falls Friday night and return to Twin Falls' Jaycee Park Saturday night to open a four-game stand with Ogden in what could be the first critical series of the year. Game time for all four of the battles for first place will be 8 p. m. Perry Chapple and Dave Ford combined for a one-hit effort.

decision in the nightcap over the Giants after some Great Falls errors helped Magic Valley win the nightcap 4-2.

The Cowboys picked up one run in the third on two Giant errors, a walk and a single by Luis Galendez, and added two more in the fourth on a pair of walks, an error and a single.

The other Magic Valley runs came in the fifth on a hit batter, a walk, the Giants' fifth and sixth errors of the game and a single.

Great Falls tallied its only run of the game in the third when Dave Ford got on base on a fielder's choice and scored on Hiroshi Suzuki's single to centerfield.

Singles by Marc Menjo and Tom Cox, combined with an infield out, staked the Cowboys to the lead in the nightcap, and they added another run in the sixth on two walks, a single and a hit batter.

The deciding runs were pushed across in the seventh on an error, a walk, a groundout and the only hit of the inning.

Great Falls was shut out until the final inning of the second game when Cowboy second baseman Dan Pedersen lost an infield popup in the lights which saw the runners going with two men out.

However, Cowboy reliever Ed Childress ended the threat with a strikeout.
First Game:
Magic Valley, 001 220 0-5 7 1
Great Falls, 001 000 0-1 1 6

McKay Is On Top 20 Grid Coach List

BIRMINGHAM, Ala. (UPI)—John McKay, of Southern California, only a decade on the job, shows up for the first time this year in the list of college football's current Top Twenty winning coaches.

Bob Devaney of Nebraska, percentage leader for the fourth straight year, and former coach Bud Wilkinson of Oklahoma are the only other men who made the list in just 10 years of head coaching. Standings were started in 1958.

McKay's teams have a 78-25-4 record for a 74.3 percentage, placing him seventh in percentage among active coaches with 75 or more victories. He has won two national championships and taken teams into five Rose Bowl games.

SPORT FANS!
BET YOU DIDN'T KNOW

By BILL WORKMAN

Here's an interesting point to think about... Whenever a father or anyone teaches a youngster how to hit a baseball, there always try to put your hands together on the bat... Yet, did you know that two of the greatest hitters in the history of baseball used a different way of hitting?... Both Ty Cobb and Honus Wagner batted with their hands separated on the bat... They said "had any more pitchers for you" "aches from the other on the handle of the bat... Isn't it strange that no one tries to hit that way today? Cobb had the highest lifetime batting average of all time, .367 and Wagner's was .329.

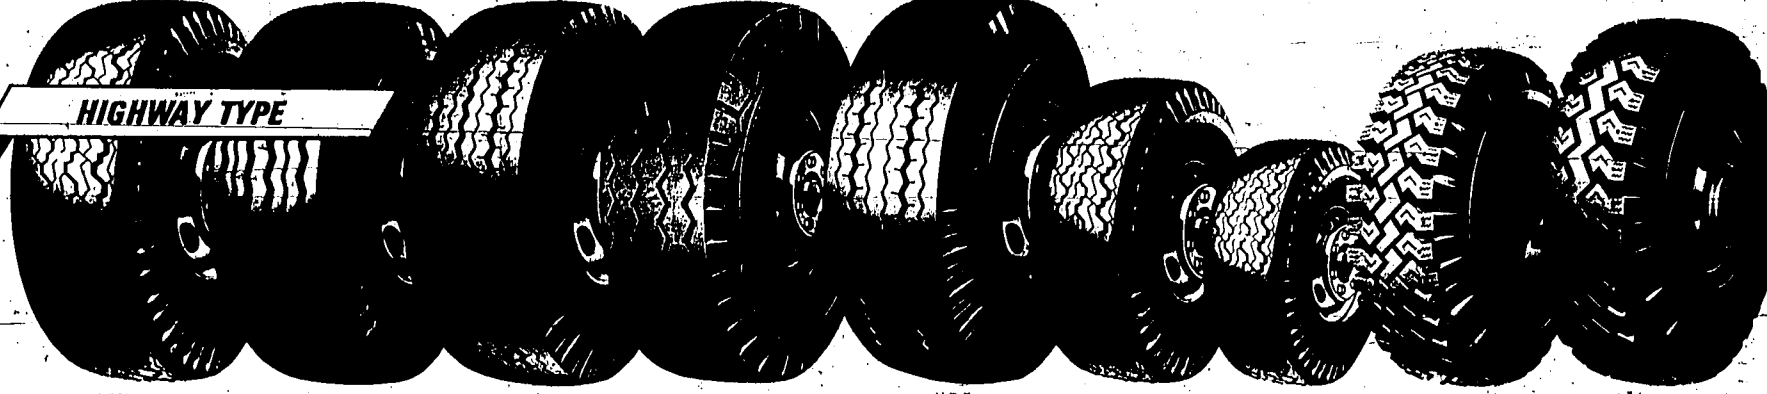

And speaking of odd batting positions, one of the strangest belonged to Al Simmon who played in the majors for 20 years between 1924 and 1944... He always stepped away from the plate with his left or front foot while hitting, or, as it's known in baseball slang, he "stepped in the bucket". If any batter does that today, he's instructed not to... You aren't supposed to be able to hit that way... Yet, Simmon who did it all his career is in the Hall of Fame, and wound up with a lifetime batting average of .334!

Did you know that construction is well under way on the new building for Bill Workman West, located on Blue Lake Boulevard North across from Newton Sport Center.

King's SCLC Shifts To Militant Stance

ATLANTA (UPI)—The mood of the Southern Christian Leadership Conference (SCLC) has taken on a militancy far different from the early days of civil disobedience under the late Dr. Martin Luther King Jr. It has become soul power in a bright-African-styled attire, a demand for black identity along with equality with the white man.

The difference was forcefully evident at the final night session of the SCLC's 13th annual convention Thursday.

"What time is it?" shouted the Rev. Jesse Jackson, one of the young, forceful leaders in the SCLC. "Nation time," shouted the audience of some 600, an apparent reference to a black nation.

A candidate for the Fulton (Atlanta) County Commission, Billy McKinney, said he was running for office because the "power" was in the commission. He said he had learned in 21 years as a city policeman that white patrolmen protected whites and "we should protect our own."

The Rev. Ralph D. Abernathy, president of the SCLC, demanded the United States be put on "trial" for alleged crimes against blacks.

Abernathy charged the Negro had been lied to, defrauded, robbed and murdered during the generations he had been in this country.

"How do you find the accused?" he asked the

audience in mock jury proceedings. "Guilty!" came the shout.

The United States, Abernathy said, is a "criminal which has committed many crimes for almost 200 years."

"During the early months of 1971, the trial will take place in Washington, D.C. I will see you in Washington in the spring," Abernathy said.

The music had changed, too. The soft, haunting sound of "We Shall Overcome" was replaced by a "soul music" sound evident even in hymns, sung by soloists and chorus.

And the crew from a local television station consisted of three blacks and one white.

The change was evident. The black man is demanding his place, asking no longer.

SALT Talks Conclude

VIENNA (UPI)—In a mood of optimism and satisfaction, the United States and Russia finished work today in a communique wrapping up their first four months of negotiations at the Strategic Arms Limitation Talks (SALT).

The delegations were meeting at the U.S. Embassy to approve the communique before going to the Belvedere Palace for a formal adjournment ceremony.

The delegates were to start leaving for home later today.

SALT began at the Belvedere April 16 with a public call by President Nixon for "an early, equitable, verifiable agreement" curbing the nuclear arms race.

Diplomatic sources said the 32 working sessions—held in

tightest secrecy at the U.S. and Soviet embassies here—have gone a long way toward that goal.

When SALT resumes in Helsinki in the autumn for its second round, they said, a treaty limiting both offensive delivery systems and defensive anti-ballistic missiles (ABM) will be in sight.

The sources said the two delegations may come to Helsinki from their respective capitals with draft treaties ready to lay on the table. The rest of the Helsinki session, they said, then could be spent in hammering out the treaty language—itsself a major task studded with political and military pitfalls.

The most likely topics to be

included in the first SALT treaty, they said, are a numerical ceiling on offensive missiles and bombers, a limit on giant missiles like the Soviet SS9, and restrictions on ABM defensive systems.

These topics were included in an outline which Gerard C. Smith, the chief U.S. delegate, presented to SALT July 24. That outline formed the basis of discussion from that time until the end of the talks.

The sources said the Soviet's reaction to it was "positive" and their comments and questions on it gave U.S. negotiators a clear picture of the Kremlin's desires.

Those desires, they said, are similar to the American ones, giving real hope for a treaty soon.

Kasabian Free Soon

LOS ANGELES (UPI)—A year and a few days ago Linda Kasabian listened to the death cries of five persons at the home of actress Sharon Tate, drove away with the suspected killers, and tossed the bloody weapons over a cliff.

Thursday, her testimony against Charles Manson and his followers nearly completed, she was a free woman.

Superior Court Judge Charles H. Older dismissed seven counts of murder against the slender young woman who said she went with Patricia Krenwinkel, Susan Atkins and Charles "Tex" Watson to the Tate house, then accompanied Manson, Miss Krenwinkel, Miss Atkins and Leslie Van Houten to the Leno LaBianca home the following night, "because Charlie told me to."

During three weeks of intensive questioning, the pig-tailed mother of two has stuck to her version of what happened on the nights of Aug. 8 and 9, 1969.

Although she must return to the witness stand for further redirect examination, and still

must be cross-examined again by each of the four defense lawyers, Mrs. Kasabian no longer will spend her nights in jail.

Formal dismissal of the charges took place in the judge's chambers before court resumed Thursday, but under questioning by Ronald Hughes Mrs. Kasabian told the jury she

had been released.

"They tell me I am a free woman, but I don't feel any different," she said.

She spent the noon hour in the heavily guarded ninth floor of the Hall of Justice, as usual, but her husband, Robert, and a friend, Charles Melton, were permitted to join her and her attorneys for lunch.

First 'No Fault' Car Insurance Set

BOSTON (UPI)—Gov. Francis W. Sargent has signed a bill making Massachusetts the first state with a no-fault auto insurance system.

He offered a compromise measure in an effort to persuade four insurance companies who said they were quitting the state to remain.

Under a no-fault system, companies are required to pay claims for their own policy holders for medical costs and salary and other out-of-pocket losses up to \$2,000 regardless of who is at fault in an accident.

Beyond that, court suits still would be required to determine fault for accidents before payments would be made.

In an effort to induce the four companies to reconsider their proposed pullout, the governor announced the submission of emergency legislation to eliminate one of two provisions in the bill cited by the industry as intolerable.

The provision requires companies to renew virtually all policies, regardless of the driving records of the persons involved.

On the other provision opposed by the industry, it guaranteed 15 per cent rate reduction in all categories of

insurance. Sargent stood firm.

A section in his new bill would give the insurance commissioner or emergency regulatory powers sufficient to protect the 16 per cent rate reduction, even if the section of the new statute containing the reduction is ruled unconstitutional by the courts.

Three-quarters of the way through a 15-minute radio and television address to the people of Massachusetts, Sargent stopped to sign the bill into law. He did so with the statement, "and now the crisis is upon us."

Wreck-Prone Bus Driver Charged

ALLENTOWN, Pa. (UPI)—A New Jersey bus company owner and his supervising mechanic have been charged with seven counts of involuntary manslaughter each for last month's bus crash near here that killed seven Long Island school children.

Charges were filed Thursday against Frank Tedesco, 52, of Jersey City, N.J., president and owner of the Tedesco Bus Co., Inc., and Michael Grazioso, 45, of South Toms River, N.J., supervisor of the company's garage.

Hubert Daye, 46, of Montclair, N.J., driver of the bus in the July 15 accident, was charged with involuntary manslaughter shortly after the crash.

Tedesco and Grazioso have waived extradition and are expected to be arraigned on the charges today. In announcing the charges Thursday, District Attorney George Joseph said human and mechanical error contributed to the accident that also resulted in 52 persons being injured.

Daye, who obtained a "forfeiture" operator's license in New Jersey despite a lengthy driving conviction record, was driving the bus on the rainy July day when it skidded off Route 22 in nearby Wescoesville and plunged 50 feet down an embankment.

THEY LONG TO BE CLOSE TO YOU

THE CARPENTERS ARE COMING!

Women's Section

DEAR ABBY: The advice you give, "seek professional help," is good, except for one hitch. One should check on any prospective therapist first.

I went to a kook whose office walls are festooned with degrees but he must have left his ethics behind in grade school. Three years and thousands of dollars later, I wound up with a divorce. The grounds? Adultery. The man? My therapist. (And I'm not even good looking.)

Therapy often causes women patients to "fall in love" with their doctors, but the competent (and ethical) psychiatrist knows how to handle this situation.

A little investigating later turned up the facts that my doctor was known for "cutting around." He is still sitting around "helping" people, raking it in and no doubt putting out. Me? I have a ruined marriage, two fatherless children and no money. Please print this. It might save some unsuspecting woman from my fate.

DEAR BITTER: Most therapists wouldn't touch a patient with a 10-foot pole. You just happened to get the local Lochinvar. However, YOU are in a better position than I am to "save some unsuspecting woman from the same fate." Report your doctor to the county medical society. He desperately needs therapy himself, and shouldn't be permitted to practice.

DEAR ABBY: My wife and I have been married for 9 years. We have four daughters, 7, 5, 4 and 2. We own our own business, own an average home, and drive an average late model car.

My wife is just about the most wonderful woman in the world. She's a great cook, an excellent housekeeper and a fine mother. She loves to work in the yard, seldom raises her voice or loses her temper and we get along beautifully.

Our children are exceptionally well-behaved and we have wonderful friends. My wife loves my folks, and I love hers.

My problem, Dear Abby, is that I am about to go completely out of my mind trying to figure out how a bum like me ever got into such a wonderful situation. Should I accept the fact that I am the luckiest guy in the world, or should I just keep trying to figure this thing out?

DAVE IN EUGENE, OREGON

DEAR DAVE: Accept it. And also knock on wood and bite your tongue.

DEAR ABBY: My husband and I were eager to entertain at home after our marriage last year. We have invited friends for cocktails, brunch, foreign meals, buffet dinners and after-theater suppers. We were pleased with the high number of acceptances, and our guests always seemed to have a good time. As newlyweds we live in a small apartment in a new high-rise building in the "city." But in spite of the limited area of entertaining, we have opened our doors to about 150 guests—some of them four or five times.

However, sadly, we must admit, only three couples have accepted thus far. The rest are still repeating meaningless phrases, like "drop in sometime," or, "we MUST get together soon."

Of course we don't intend to "drop in." We are dropping OFF—their names from our list of future guests. Isn't that the only answer?
DISAPPOINTED

DEAR DISAPPOINTED: Yes, I think in your "eagerness" to get into the social swim, you may have "gone off the deep end." To invite the same people four and five times without a reciprocal invitation from them appears to me as "social climbing." Stick with those who have returned your invitations. If you have only three couples who appreciate your company and hospitality, you're doing well.

DEAR ABBY: What is all this commotion about fat women? My wife is 30 pounds heavier than she was when we were married, but for crying out loud, she is also 30 years older! She is stylish and immaculate and she always looks beautiful because she has sense enough to wear the proper foundation garments.

She doesn't LOOK as heavy as she is because she is never bouncing, sagging or bursting at the seams. Just because a woman is "fat" doesn't mean she has to be sloppy.
PAPA LOVES MAMMA

Crofts Family To Meet

IDaho PATHS — The 1970 annual Crofts Family reunion will be Saturday at Tautpahas Park, Idaho Falls, at shelter No. 3.

Lunch will be at noon, potluck style. Those attending should bring food and table service. There will be ice cream, inolon and pop.

Genealogy records will be present. At 1 p. m. each family will present a brief part of the program. Those attending should bring softball and other athletic equipment.

Buhl Miss Weds T.F. Man

Buhl. — Lesley Aileen Rogers, daughter of Mr. and Mrs. Dexter Rogers, Buhl, became the bride of Martin L. Meigs, son of Mr. and Mrs. Louis B. Meigs, Twin Falls, in an afternoon ceremony at the Congregational Church in Dayton, Wash., July 18.

Rev. Gordon Trichter performed the double ring rites before a background of pink tulle and white carnations in baskets and altar bouquets and brass candelabra with white tapers.

The bride, given in marriage by her father, wore a floor length gown of chiffon crepe gathered onto a satin band accenting the empire waist and forming a bow in the back. The neckline and sleeves were accented with lace. A Juliet cap of daisies held her shoulder length veil of bridal illusion. She carried a bouquet of white carnations and stephanotis on her Rainbow Bible.

Mary Rainey, Puyallup, Wash., was maid of honor and Jerilyn Jewell, Dayton, Wash., was bridesmaid.

Mike Nash, Boise, served as best man and Duane Watson, Twin Falls, was usher. Mrs. Richard Juris played traditional wedding music.

A reception was held following the ceremony at the fireplace room of the church. Tracie Rogers, sister of the bride, registered the guests.

A round table covered with white net and centered in front of the fireplace held the wedding cake. The three-tiered cake was accented with pink and white and topped with a cluster of bells. Mrs. Harold Hohenstein, great-aunt of the bride, cut and served the cake.

On a second table covered with white lace were the silver coffee, service and crystal punch bowl. A centerpiece of pink gladioli and white carnations flanked by candelabra with white tapers completed the table appointments. Mrs. M. G. Thompson poured coffee and Mrs. Wesley Calkins, served punch. Both are grandmothers of the bride.

The couple will reside in Pocatello where both are attending Idaho State University. Special guests at the wedding were parents of the bride; parents of the bridegroom; Mrs. M. G. Thompson, grandmother and aunt of the bride; Ray Edinger and K. C. and Shawn Edinger, uncle and cousins of the bride; Mr. and Mrs. Harold Hohenstein, Spokane, great-aunt and uncle of the bride; Mr. and Mrs. Gary Dillon, Logan, Utah, sister and brother-in-law of the bridegroom; Col. and Mrs. Wesley Calkins, Dayton, Wash., grandparents of the bride; Mr. and Mrs. William Meyers, Seattle; Marle Miller and Marilyn Jones, both Twin Falls, Don Becker, Jerome; Lynn Porter, Kennewick, Wash., and Mr. and Mrs. Perry Hanson, Dayton, Wash.

Social Events

TWIN FALLS — The Singles Club will have a steak fry Sunday afternoon at the Idaho Power Co. park at the Twin Falls. The club will furnish steaks, corn and other items. Those attending should bring their own table service. The event will start after 1 p. m. Single people between the ages of 30 and 60 are welcome. If weather is bad, a new date will be set for the event.

TWIN FALLS — Magic Valley Hairdressers Affiliate No. 4 will present a program "New Trends" at 10 a. m. Sunday at Juan's College of Hair Design in the Lynwood Shopping Center. Helen Echevarria, Boise, will be guest designer. All cosmetologists from Magic Valley are invited. New memberships will be accepted.

TWIN FALLS — An old time dance will be held from 8 p. m. until midnight Saturday at the Twin Falls Moose Hall. Tom Lancaster's band will play. A lunch will be served.

Jewelry Shown

RICHFIELD — Mrs. Duane Stinton was hostess at a jewelry display party at the home of her grandmother, Mrs. Mary Giles. Mrs. Alice Garrity, Shoshone, was the demonstrator. Mrs. LaRue Brown and Mrs. Donald Erwin assisted the hostess in serving refreshments.

Best Losers

Named at TOPS Club

HANSEN — Bonnie Ryan and Mrs. Lewis Morris were best losers at the Slim and Trim TOPS Club meeting at the home of Mrs. Thomas Steelsmith. Both received hobby gifts to keep for themselves for the next three weeks.

It was reported by the assistant leader, Mrs. Kimber Glenn, that a fall rally is planned and will be at Burley. The date will be set later. Mrs. James Wright, the leader, attended the planning session of district leaders.

Mrs. Bob Niven reported that she had been a KOP for a year at this time.

Mrs. Morris was program chairman and hostess. She showed paintings which she had done and also two paintings done by another member, Mrs. Hazel Schutte, a mountain scene, and a sunset silhouette. Mrs. Morris also showed candlestick made from various bottles, saucers and etched glass items, then painted brown to resemble wood.

Mrs. Fred Howard was penalties chairman and requested that those gaining carry a brick to and from the meeting for each pound gained during the past week for this current week.

Church Group At Richfield

Has Luncheon

RICHFIELD — Mrs. Max Behr conducted a review of several lessons when the Richfield WSCS met for a luncheon meeting at the Methodist Church recreation rooms this week. Mrs. S.C. Peterson, Mrs. Joe Seward, and Mrs. Albert Polley assisted.

A song number was given by Tom, Jamie, and Terri Peterson with Mrs. C.M. Pridmore as piano accompanist.

A welcome-back dinner was planned for the church pastor, Rev. Hardy Thompson, who has been reassigned to the Richfield and Shoshone churches. The evening dinner will be Sunday, Sept. 13, at the church recreation rooms with each family bringing food for the no-host event.

The year's program will start with the Sept. 8 meeting with place to be announced. Mrs. Eugene Alexander is chairman of the program committee and Mrs. Myrtle Riley and Mrs. Polley are other members.

Social Events

TWIN FALLS — The Fidelity Class of the Methodist Church will hold its monthly picnic at the L. A. Widrig residence at 6:30 p. m. Sunday.

Camas County 4-H Fair Displays Draw Praise.

FAIRFIELD — The Camas County 4-H Fair featured more and better displays this year and created more interest.

Tables of 4-H projects, a section devoted to the Camas Prairie Homemakers Extension club and open class exhibits, antique and four display cases of the Soldier Mountain Buck Wranglers took up much of the space in the American Legion hall. Booths were maintained by the Purple Sage Cowbelles and an A-H-I-Drug organization of youth. Demonstrations by 4-H members and style review were held in the Community church this year because of the exhibits.

Paula Bausher, daughter of Mr. and Mrs. Allen Bausher, had the grand champion beef, and Dick Bausher had the reserve champion. Lynden Osborne, son of Mr. and Mrs. Dwight Osborne, had the grand champion swine with his brother, Layne, having the reserve champion. Diane Prock, daughter of Mr. and Mrs. Bud Prock, had the grand champion sheep with Carl Fields having the reserve champion.

A large crowd attended the Fat Stock sale that concluded the three day fair.

Trophy awards in the fair include Division I, Laron Sweet, Division II, Susy Giesler, advanced, Debbie Simon, Foods, beginners, Julie Trader, advanced, Janet Clegg, Knitting, beginners, Dalona Reedy, advanced, Nancy Gonzalez, home improvement, beginners, Jeani Pauls, advanced, Janet Clegg, Forestry, beginners, Dalona Reedy, advanced, Dana Reedy, Outstanding secretary, Bevvy Kavan, Outstanding reporter, Jeani Pauls, Wheat Demonstration, Jeani

Area Boy Honored

RICHFIELD — Mark Dixon, Richfield high school student, boy president, has been named to have his biography published in the fourth annual edition of Moritt's Who's Who Among American High School Students, 1969-1970.

This makes the youth eligible for one of 10 \$600 scholarships sponsored by the Merit Foundation. Winners will be chosen by test performance and financial need.

Dixon has an outstanding scholastic achievement record for high school; won the 7th Intermountain Junior Science Symposium trip to the University of Utah in 1969; seven years of experience in 4-H winning the top district award in electricity for six years; was a local winner in the American Legion oratory contest; and earned varsity letters in football, basketball, and track for three years.

He attended Boys State this summer, was active in the student council, annual staff,

and junior class president at Richfield High School. A member of the LDS Church he is a semiary graduate and will be district Seminary officer for the coming year. He has attained the Life rank in Scouting.

Workshop Set by Catholics

BUHL — A workshop for the South Idaho Deansery of the Catholic Church was planned at a board of directors meeting held in Buhl and attended by 28 members from Hatley, Hagerman, Jerome, Rupert, Twin Falls and Buhl.

Mrs. Frank Karol, deansery president, conducted the meeting and Mrs. Henry Eggleston, treasurer, gave her report. Father McNell led the group in the opening and closing prayers.

The workshop will be held Sept. 16 in the Immaculate Conception School in Buhl beginning at 9 a. m. and with Father McBride, Jerome, as guest speaker. Theme will be "CCD Religious Education." A salad luncheon will be served at noon.

KETCHUM AND SUN VALLEY'S newest church, Our Lady of the Snows, will be dedicated Sunday with Bishop Sylvester W. Treinen of the Catholic Diocese of Boise, officiating. The newly-constructed church features several interesting items, including a 12-foot Italian carved wood statue of the Madonna, as noted in this photo.

Shoshone LDS Unit Has Fete

SHOSHONE — A style show and fashion fantasy were held as part of the special Lihoma Holiday program at the LDS Primary, to end the summer's activity.

Mrs. M. J. Dille played the prelude music.

The greetings were given by Mrs. Lawrence Sturgeon, Bonnie Stearns and Tamara Bateman gave the prayers.

Talks by Merihanda were given by Deanna Jacobsen, Tammy Blackburn and Mrs. Sturgeon gave the tribute to graduates.

Scrolls were awarded and graduation featured for the girls, under direction of Mrs. James Scott, primary president. Mrs. Kenneth Blackburn gave a short talk and an explanation of primary work the coming year.

Mrs. Burton Thorne was narrator for the style show. Mrs. Larry Kenney was in charge of music. The Gaynotes had charge of hand bags; the Firelights, the hats, and the Merihandas, the dresses.

Nazarenes Set Bible School

TWIN FALLS — The Twin Falls First Church of the Nazarene has several activities for its members this weekend. At 7:30 a. m. Saturday the Men's Fellowship Breakfast will be held at the Idaho Powerpark at Twin Falls and the ladies are invited, states Rev. Joe Chastain, pastor.

Sunday morning at 8, the men will meet at the church for an early morning prayer. Rev. Chastain will speak on heaven in the morning service and on "holiness now" at the evening service. An instrumental group will play in the evening.

The church's vacation Bible school will begin at 9 a. m. Monday and continue through Aug. 26.

Dedication of Catholic Church at Ketchum Set

KETCHUM — Sunday evening, Bishop Sylvester W. Treinen of the Catholic Diocese of Boise, will officiate at the blessing and dedication of the newly constructed church of Our Lady of the Snows.

Father Emanuel N. Nattini, first pastor of the area Catholics, erected the first Catholic church in Ketchum in 1884 and dedicated it under the name of Saint-Marys Church. Father Edmund M. Dougherty coordinated efforts in the building of a second and larger church in 1948.

Because of increased activity in the Sun Valley area, there has also been an increase in population of permanent and temporary residents in the Ketchum-Sun Valley area. Sunday Catholic services were held in the second church of Our Lady of the Snows and also in the Sun Valley opera house. Both facilities were found inadequate to facilitate the many Catholics now coming into the area.

Therefore, a special building fund drive was inaugurated late in 1968 to raise funds for the establishment of a new and larger Our Lady of the Snows church. The third and new church of Our Lady of the Snows is located on a two-acre tract of land on the Sun Valley Road. The ground is a gift of Mr. and Mrs. William Jans and family in memory of the late Son-Robert F. Kennedy.

The church was designed by Ivan Stone of Twin Falls and construction was performed by General Contractor Robert L. Ollman of Twin Falls. Various local firms performed the subcontract work.

The church, formerly a mission of the Hatley parish, was designated a parish by Bishop Treinen in August 1969.

Youth Sunday Eyed By Wendell Church

WENDELL — The United Presbyterian Church in Wendell will present a Youth Sunday program Sunday with local high school and college students conducting the worship service.

They also will present a one-act play and offer folk singing, he play, "The Last Church," was written by Rev. O. Linn McGuire, San Francisco Presbyterian minister. It carries a warning for modern Christianity, local church members say, and could be happening in any church in the country.

The public is invited to attend the Youth Sunday presentation with worship services at 11 a. m.

The exterior of the church features a wood and stucco paneling. On the Sun Valley Road side of the church, a 12-foot Italian carved wood statue of the Madonna has been placed against the stucco wall. Above the statue, on the roof, a bell tower rises, with a cross superimposed, from which may be heard throughout the valley, sounds of Verdin bells. The church has a cold roof feature.

Future plans for the exterior of the church call for the placement of native granite stone along the base of the walls, with properly landscaped trees and greenery.

A temporary altar of wood graces the sanctuary at the present time. Future plans call for an altar of native stone and wood of a more permanent character.

In the main body of the church, one finds the floor covered with blue carpeting. The walls are of cedar and plastering, with lighting furnished from beautiful spiral type candle fixtures.

To the left of the chapel area, a large social hall is located, with huge sliding doors of oak, which permit more than one activity to be held at the same time. At one end of the hall a well furnished kitchen is featured. At the other end of the hall are a number of smaller rooms, which will serve as class rooms for the parish religious classes. The resident pastor makes use of one of the class rooms for office work and the second for his residence.

Registration will begin at 9:45 a. m. Sunday and continue Monday morning. Classes are planned for youngsters 4 years and older, from 9 to 11:30 a. m. daily and under the direction of Miriam Rawls.

Parents wishing to enroll their children may contact the church and make arrangements for transportation if needed.

Rev. and Mrs. Robert Seaman, represented the Twin Falls Grace Baptist Church recently at the 39th annual conference of the General Association of Regular Baptist Churches in Denver.

Bible School Set By Church

TWIN FALLS — The First Assembly of God Church, Locust Street North and Shoup Avenue North, Twin Falls, will have its vacation Bible school Sunday through Friday at the church.

Registration will begin at 9:45 a. m. Sunday and continue Monday morning. Classes are planned for youngsters 4 years and older, from 9 to 11:30 a. m. daily and under the direction of Miriam Rawls.

Parents wishing to enroll their children may contact the church and make arrangements for transportation if needed.

Attended Meet

Rev. and Mrs. Robert Seaman, represented the Twin Falls Grace Baptist Church recently at the 39th annual conference of the General Association of Regular Baptist Churches in Denver.

RELIGION

Burley Minister Going to Boise

BURLEY — Rev. John W. Pickrell, Burley, has accepted the invitation to serve as pastor of Southminster United Presbyterian Church, Boise.

The pastorate of the Boise church has been vacant since March of this year and was formerly held by Rev. James F. Moore. Rev. Pickrell will assume his duties at Southminster Sept. 1.

For the past eight years, Rev. Pickrell has held the position of pastor of the First Presbyterian Church, Burley.

He received his B.A. degree at Seattle Pacific College and his B.D. degree at San Francisco Theological Seminary. Rev. Pickrell holds the rank of Lt. Commander, U.S. Navy Reserve, and is sponsor Navy Reserve Chaplain for the state of Idaho.

For one summer he served as an exchange pastor in Scotland. Prior to coming to Burley, he served as assistant pastor, First Presbyterian Church, Hayward, Calif., and served as the National Mission Pastor at Pacific Beach, Wash.

Drive-In Services

Rev. Robert Schrockenberg, pastor of the Eastside Southern Baptist Church, Twin Falls, will be guest speaker during the Drive-In Church services at 8 a. m. Sunday at the Motor-Vu Theater.

A duet will be sung by Vicki Newcomb and Karen Goodson. Accompanist will be Mitzi Sweet.

A. THEODORE TUTTLE

Elder Speaker At Meet

DECLO — Elder A. Theodore Tuttle, a member of the First Council of Seventy of the LDS Church, will speak at the Cassia East Stake Conference Aug. 22-23 in Declo.

Elder Tuttle, an educator, has devoted most of his life to teaching youth. He was an administrator and instructor in the Church school system. He supervises missionary activities in South America. The conference session will be held at 10 a. m. Sunday in the stake center. Visitors are welcome.

"Magic Circus" Set Here

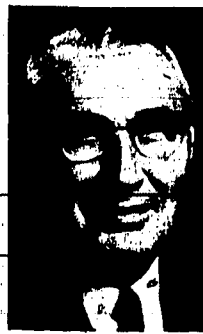

"Colonel" Jim Todd will bring his "Magic Circus" to the Grace Baptist Church, 211 4th Ave. E., Twin Falls, for this year's daily vacation Bible school.

The school will be held next week. The program will extend from 9 to 11:30 a. m. A closing program will be presented Friday evening at 8.

God's truth for today's youth will be presented by "Colonel" Jim by means of magic messages, sermons from science and blacklight mystery pictures. In addition to these features, there will be handicraft and refreshments and games for all ages. All boys and girls, 4 years old through eighth grade, are invited to attend.

The Sunday school bus will begin its new route Sunday morning for Sunday school. The new route is generally restricted to the "President Streets."

For further information concerning the Bible school or the new bus route, please call 733-1452 or 733-5376.

BISHOP JOHN VANDENBERG

Confab Set Here By LDS

TWIN FALLS — Bishop John H. Vandenberg, presiding bishop of the LDS Church, will speak this weekend at the Twin Falls Stake Conference in the stake tabernacle, 421 Maurice St. N.

Bishop Vandenberg is a prominent businessman and church leader. He formerly was engaged in the merchandising of wool and livestock in Denver. As presiding bishop, a position he received in 1961, he supervises many youth, financial and welfare activities of the church. The conference session will be held at 10 a. m. Sunday. Stake president Lloyd A. Hamilton says visitors are welcome.

Services

Different At Jerome

JEROME — Rev. C. Warren VanCamp, who is filling in for Rev. William L. Barrett, Jerome, First United Presbyterian Church, is varying the August worship services.

Sunday morning, Rev. VanCamp will speak on "The religion of the impassive Buddha," and on Aug. 23, "The Religion of the Mosque and Minaret (Islam)." Rev. VanCamp will speak briefly on the subject, then a lay moderator will collect questions from the congregation on that particular subject. He will then answer the questions.

All members of the congregation are urged to bring pencil and paper to write the questions.

Soil fertility was the object of a tour of test plots in Southern Idaho this week by fertilizer dealers, county agents, technicians and farmers. These three photos show some of the tour members visiting test plots on the Twin Falls Branch Experiment Station, University of Idaho. Top photo shows tour members listening to Leonard Kerbs, left, research associate, University of Idaho, explain residual nitrogen in potatoes. Lower left, Wayne Thiessen, left, extension soils specialist, examines potatoes from a test plot with Coley Parrish, local fertilizer dealer. In the other photo, participants listen to Dale Westermann, technician at Snake River Conservation Research Center, Kimberly, tell of phosphorus tests in commercial beans. Object of the tour was to explain fertilizer research in potatoes, alfalfa, wheat, beans and sugar beets. Test plots in Eden and Burley also were viewed as well as in Eastern Idaho and Western Idaho.

Grange Drapes Charter

TWIN FALLS — The charter was draped by the Twin Falls County Pomona Grange in memory of the former National Grange, master Herschel D. Newsom, at a recent meeting in the Knull Grange Hall.

Clifford Davis discussed briefly pesticide regulations and food imports. The White Cloud mining issue was explained by Craig Dunlap.

Ed Harper, Pomona Grange master, gave a report on progress of the Balance Rock park.

Mrs. Dunlap, women's activity chairman, said judging of backing, needlework and textile painting contest entries will be held at the Filer Grange Hall on Aug. 25.

TOP SHOWMAN at the Gooding County Fair this week in the first year 4-H dairy division was Lonnie Tate, son of Mr. and Mrs. Harvey Tate,

Hagerman. He is a member of the Tuttle Toro Twisters 4-H Club.

Work Day Set

TWIN FALLS — A work day has been planned for members of the Highliner's 4-H Club.

The event will be held at 6 p. m. Thursday at Sandee Sommer's home. All members are to bring painting equipment. Fair decorations will be made.

In 1940 a family could select from about 1,000 food items. Today the average supermarket has 8,000 — many of which were not even available ten years ago.

FARM Auction CALENDAR

Cutworms

TWIN FALLS — The emergence of western bean cutworm adult moths reached a peak about Aug. 1 and has decreased rapidly since Aug. 7. This is a week to 10 days later than usual.

Consequently, there may be more immature larvae, or worms, of this insect feeding when beans are cut.

It is again suggested that beans be combined as soon as possible after cutting to prevent worm damage in the windrow, states Walter Peay, Entomology Research Division, ARS, USDA.

Contact the ~~Insurance~~ Farm Sales department for complete advertising coverage of your farm sale, hand bills, newspaper coverage (over 70,000 readers in Magic Valley) advance billing. All at one special low rate. Every sale listed in this Farm Calendar for 10 days before sale.

AGED GELDING CHAMPION in the Appaloosa class of the Gooding County Fair this week was this Appaloosa-owned-by Andy

James, Gooding, right. This gelding outclassed three others to win.

Trail Ride Planned by 4-H Club

TWIN FALLS — Members of the Saddle Tramps 4-H Club planned a trail ride at Porcupine Springs on Aug. 23-24.

The ride was discussed by members at a recent meeting at the home of Diane Fender.

Also discussed were decorations for the fair and tips for showing animals at the fair. A demonstration on preparing a lamb for showing was given by Derry Fender.

The next meeting will be held at 7 p. m. Thursday at the home of Margaret Harvey.

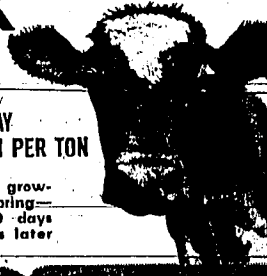

Second

Dean Brothers, Twin Falls, were the nation's second largest Polled Shorthorn recorders during June, according to the American Shorthorn Ass'n, Omaha, Neb.

The Deans recorded 43 head.

BLM to Classify Area Public Land

Classification of nearly 1,100,000 acres of public domain in eastern Owyhee and western Twin Falls Counties are being proposed by the Bureau of Land Management under the Classification and Multiple Use Act passed by Congress in 1964. A small acreage in Elmore County is being classified for stock driveway purposes to provide access from near Glenns Ferry and Bliss, 15 miles south to the area to be classified. Six recreation sites in this area totaling about 4,000 acres will also be closed to location and entry under the mining laws.

Clair M. Whitlock, BLM acting state director for Idaho, in announcing this classification said this is a part of a nationwide program to identify public domain suitable for continued multiple use in public ownership.

Homesteading, entry under the Desert Land Act, and sale of this land as isolated tracts or under the "rough and mountainous" provisions would not be permitted in the retention areas. The lands remain available for state and private exchanges and for selection by the state.

This classification is being proposed following meetings with federal, state, and local governmental officials, public land users, and the general public.

Anyone who wants to comment on this proposal may do so at the public hearing scheduled

North American farmers devote more acreage to corn than any other crop according to New Holland, the farm equipment division of Sperry Rand.

for 2:30 p.m. Aug. 27, in the American Legion Hall, 205 3rd Ave. E., Twin Falls, or in writing to the District Manager, Bureau of Land Management, 220 Collins Road, Boise, Idaho 83702. The Bureau of Land Management will consider all comments received before taking action on a final classification.

ROUND ROBIN CHAMPION during the Lincoln County Fair last weekend in Shoshone was Kent Green, son of Mr. and Mrs. Charles Green, Shoshone. Kent won after properly fit and showed a lamb, hog, horse, heifer and his steer, shown here with him.

Engineer Gets Service Pin

KIMBERLY—Charles (Deb) Carpenter, hydraulic engineering technician at the Snake River Conservation Research Center, recently completed 20 years service with the federal government.

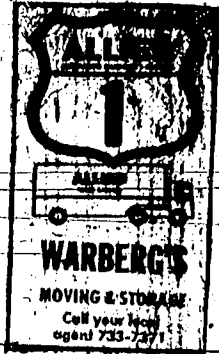

Carpenter received a service pin from Dr. Marvin Jensen, director of the center.

Carpenter has worked at the center since its opening in 1964.

Steers

TWIN FALLS—The "final weighing and slaughtering" of steers in the evaluation program sponsored by Magic Valley Cattlemen's Association, will be held at 7 a. m. Monday at Olmstead Cattle Co.

Dick Noh, Rogerson, president, said all consignors and directors are urged to attend and help with the weighing of the steers left in the program.

Sugar Beet Growers Attention

Sugar Beet Growers Association fail to reach agreement with Amalgamated Sugar Co. on a contract for the 1971 crop of Sugar Beets. At a meeting of representatives of the Sugar Beet Growers Association of the three states of Oregon, Idaho, and Utah, held at Twin Falls August 12, 1970, a resolution was unanimously adopted to notify the Sugar Beet Growers of these three states that The Amalgamated Sugar Co. rejected the Association proposal which would provide some additional income to partially offset the higher cost of production.

FIRST YEAR dairy project winner in 4-H fitting and showing at the recent Lincoln County Fair was Connie Hubsmith, 10-year-old

daughter of Mr. and Mrs. Jack Hubsmith, Richfield. Here she poses with her heifer. She is a member of the Daisy Dairy 4-H Club.

County Fairs

Blaine County — Aug. 19-22.
Cassia County — Aug. 20-22.
Jerome County — Aug. 26-29.
Minidoka County — Sept. 3-5.
Twin Falls County — Sept. 9-12.

Horse Clinic Held At Burley

BURLEY — Members of 4-H clubs with horse projects living in Cassia and Minidoka counties attended the recent one-day Horse Clinic at Cassia County fairgrounds.

A total of 105 4-H members registered for the workshop. Fred Gilbert, Twin Falls, extension livestock specialist, and Blaine Linford, Twin Falls, district extension conducted the "discussions" and demonstrations.

Items discussed and viewed were proper ways to fit and show a horse, proper equipment for showing and riding, different riding patterns, safety rules, and rules and regulations for the 1970 District 4-H Fair.

Ends Lactation

JEROME — A 2-year-old registered Holstein cow, "Houston Uva Gloria," in the herd tested for Frank W. Houston, who has accumulated a lactation of 17,650 pounds of milk, 630 pounds of butterfat and 1,402 pounds of solids-not-fat in 313 days.

The majority of Finnish barbers are women.

National Cattle Industry Advisory Group Set up

WASHINGTON (UPI) — The Agriculture Department has set up a new advisory panel to collect advice from cattlemen and businessmen — but not from consumers — on the volume of future meat imports.

Don Paarlberg, the department's chief economist, in an interview, defended the move as an effort to give farmers an equal chance to influence government decisions in this controversial field.

Consumers already have a voice, through the White House consumer adviser and the Council of Economic advisers, in shaping top-level opinion on proposals to allow increased meat imports, Paarlberg said.

Creation of the agriculture department's new committee is, Paarlberg said, "an effort to get the picture as producers see it."

Officially designated — the "National Cattle Industry Advisory Committee," it replaces a similar panel whose

term expired some time ago. An official memorandum creating the committee said its members — who have not yet been appointed — would serve two-year terms. They may include representatives of ranchers, cattle feeders, shipping associations, packers, handlers and retailers.

The memo left the way open for the possible addition of consumer members, but made no specific provision for them.

The memo was signed by Agriculture Secretary Clifford M. Hardin. It designated Paarlberg as chairman of the advisory group.

Hardin's order gave the committee a wide range of subjects for consideration. Significantly, however, the first two listed were:

"Imports of beef, veal and live animals and their effects on the domestic economy; and international trade negotiations pertaining to beef and related products."

Poultry Entries Increasing for T.F. Fair

FILER — Entries in the poultry department of the Twin Falls County Fair have been increasing each year and those planning to enter poultry this year in the four-day fair Sept. 9-12 are urged to get their entry blanks at the fair secretary's office early.

Owing to the limited number of coops and display space, no exhibitor will be allowed to make more than two entries in

any one class, stated Doyle Surver, Buhl, superintendent, who noted that it has been found in the past that exhibits do not show well if there are too many birds in one coop.

All exhibits will be cared for under the supervision of the superintendent. All birds will be fed and cared for during the time of the fair without cost to the exhibitor. Owners must remove birds at close of the fair

at their own expense. Entries close at 6 p. m. Sept. 7 and all entries should be made at the poultry building that day. Judging will begin at 9 a. m. Sept. 8 and all poultry must be removed by noon Sunday, Sept. 13.

A pen of chickens consists of four hens or four pullets. A pen of turkeys consists of three hens and a gobbler, and a pen of ducks consists of three ducks and a drake.

Types of chickens include White Leghorn, Black Australop, Barred Plymouth Rock, White Plymouth Rock, Rhode Island Red, New Hampshire, Brahma, bantam,

cross-breeds light weight and heavy weight and show chickens.

Turkeys include Narragansett, White, Bronze and Bourbon, geese, Toulouse and White Embden, and ducks, Mallards,

Pekin, Muscovy and Rouen. First and second place premiums will be given six classes of chickens, a pen of three capons, five classes of turkeys, two classes of geese and three classes of ducks.

Utahn to Judge Twin Falls Fair

FILER — Jo Russell, Kamas, Utah, will be judge for the horse department of the Twin Falls County Fair Sept. 9-12, according to John Qualls, Twin Falls, superintendent.

Entries for the horse department will close at 6 p. m. Sept. 5 and judging will begin at 9 a. m. Sept. 9, and horses must be on the grounds by 8 a. m. of that day.

Three place cash awards and four place ribbons will be awarded to stallions and mares for stallion, any age; mare, any age; gelding, any age, and foal of 1970.

The Appaloosa, Quarter Horse and Paints and Pintos classes will present three place premiums and four place ribbons for stallion colts, foaled in 1970; stallion, foaled in 1969; stallion, foaled in 1968; stallion, foaled in 1967 and stallion, foaled in 1966 or before.

Filly colt, foaled in 1970; mare, foaled in 1969; mare, foaled in 1968; mare, foaled in 1967 and mare, foaled in 1966 or

before. Gelding, foaled in 1969; gelding, foaled in 1968; gelding, foaled in 1967 and gelding, foaled in 1966 or before. Grand champion stallion, mare and gelding will receive rosettes and reserve champion stallion, mare and gelding will receive purple ribbons.

There will be a full line of working events for Quarter Horses at 8 a. m. Sept. 10 in the rodeo arena.

Special awards in the horse department include a trophy for the best decorated and cleanest kept horse stall from Cook Electric Company; a trophy for grand champion Appaloosa stallion from Hurney's Boomer Ranch; a trophy for grand champion Appaloosa mare from Mipidoka Stables; a trophy for grand champion Appaloosa gelding from Walte Electric Company, and AQHA trophies for grand champion stallion, mare and gelding from the Quarter Horse Association.

Resource Projects Toured

GOODING — Farmers, ranchers and businessmen in the Wood River area participated recently in the Wood River Resource tour.

Among the places visited included the diversion of the Wood River canal, which has just been completed with costs being shared by the cities of Gooding and Shoshone and the counties of Gooding and Lincoln.

At the Mont Johnson ranch, his pasture operation was viewed. Johnson explained the daily rotation of his cattle on the pasture of later orchardgrass and alfalfa. He grazes five head per acre.

In Gooding, the new hospital and nursing home were toured briefly.

South of Wendell new sprinkling systems were viewed.

Foothill 4-H Club Has Meet

MURTAUGH — The Foothill Lads and Lassies 4-H Club met recently at the home of Doug and Julie Self.

Fair decorations and achievement day were discussed and Shauna Mason gave a report on 4-H summer camp. Demonstrations were given by Julie Self on washing a cow and Kym Gunnell on tying a manger knot.

Members decided to hold a deer to door cooked food sale.

The annual club achievement day will be held starting at 9 a.m. Aug. 23. All club members are to gather at the Glen Briggs potato cellar with their project animals.

Nancy Brockman gave a demonstration on meat cuts of beef cattle.

Reports Top Farm Unit Meet

Several reports highlighted the recent meeting of the Twin Falls County Farm Bureau meeting.

Giving reports were Mrs. Fred Thome, women's activities chairman, on the talent contest, as well as on the fair booth; Hugo Moyer talked on commodity marketing association and the Magic Valley Vegetable Growers bargaining association, and Monroe Hays, state director, on the Sugar Act.

It was announced the county picnic will be held the latter part of August at the fairgrounds.

REPRESENTATIVES OF SEVEN Soil Conservation Districts visited two area farms recently to view pasture management. The farm of Gene Thomas and his son, John, near Filer and the Ray Quigley farm near Buhl, were visited. These SCD representatives saw how the two pasture management systems work in this area. The top photo shows some of the tour

participants looking at Thomas' pasture and the bottom photo shows them in a field being readied for planting to pasture on the Quigley farm. Both pasture management operations use the rest rotation system. The seven SCDs represented included the East Cassia, West Cassia, Twin Falls, Snake River, Balanced Rock, Bruneau River and Mayfield-Elmore.

Social Security Questions

Q. If you have any questions about your social security, address them to Jim Davis, P.O. Box 1239, Twin Falls, Idaho 83301.

Q. Does Medicare's medical insurance help pay a doctor's bill only when I'm in a hospital?

A. No. Medical insurance will help pay for the services of doctors no matter where they are received — hospital, doctor's office, your home, or elsewhere. It is NOT necessary that you first be hospitalized in order to receive reimbursement on your doctor bills. Other medical services for which medical insurance will help pay include certain diagnostic services; X-ray or other radiation treatments; surgical dressings; splints; casts; braces; and the use of a wheelchair; hospital bed, or similar equipment in your

home.

Q. My wife and I have both worked full time since our marriage 10 years ago. We are both concerned over the social security contributions she must pay, especially since she can get payments on my work record. Why deduct from my wife's earnings when she can get payments whether she works or not?

A. It's true that your wife could qualify for payments on your social security record whether she works or not. However, an important consideration is the valuable protection she has built up as a

result of her own work. Now that she has worked 10 years, she can be insured for a benefit on her own work record at age 62 or later. She can receive this benefit even if you continue to work after her retirement.

Milner 4-H's Meet

MILNER — Demonstrations were the order of the day at a recent meeting of the Better Feeders and Fitters 4-H Club at the home of Allen Kloer.

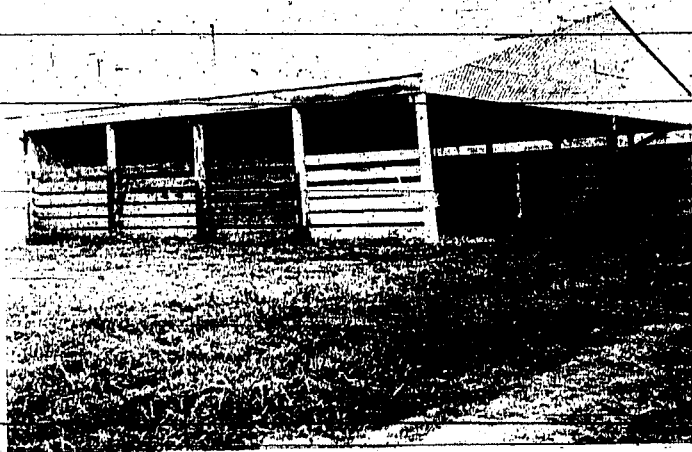

Carl Seymour gave a talk on getting a lamb ready for the fair and preparing boots for an exhibit.

Allen Kloer had a prepared exhibit on various types of beans and explained the differences in each variety; Jim Brill explained the various safety devices on an automobile and the proper method of

ventilation for electricity.

Farnum Warr, leader, asked all members to have record books ready when they were called for and led a discussion on the various talks and demonstrations.

Warr reported Myra and John Kirk, Brenda and Jim Brill and Paul Warr spent two evenings at the Warr home painting and decorating three trash barrels for the Cassia County fairgrounds. The barrels were painted green with the lettering in white.

AN ADDITIONAL 32 horses can be handled this year during the Cassia County Fair because a 60-foot addition has been constructed to the 4-H horse barn. The addition will be open, but

stalls will soon be erected prior to the fair, scheduled for Aug. 19-22. Karlson Brothers, Burley, was the contractor for the \$3,000 addition.

Richard R. Lee, Jerome, has purchased a registered Milking Shorthorn bull, Hillrock Vera's Chesley, from Wayne Boehman, Beulah, N.D.

Both Richfield gardeners and raccoons are watching the corn growing progress. Some growers have found tracks of a large raccoon and several little ones in corn patches, so forays are expected soon.

James Powell, Richfield, is putting a concrete floor in his 13 by 145-foot silage pit. Assisting him with the plans was his son-in-law, Herbert Snocy, Mountain Home.

Ray Thompson, Leo Trail and Donald Carnahan, all King Hill, each lost several head of cows and calves recently in the desert south of Pinedale Valley. A Gooding veterinarian suspects contaminated water.

More than 40 head of sheep were killed recently on the Domingo Soloaga sheep farm between Shoshone and Jerome when lightning struck two large trees. The sheep were under the trees.

Life on the farm is often a study of nature for Mrs. Mark Jaynes, northeast Richfield. Her companion while swathing hay is often a lone coyote which seems to her to be the same size for the past three years. Sorrows come while swathing hay, too, when baby pheasants don't run in the right direction and can't be seen until too late.

GOODING BROTHER AND SISTER swept the fitting and showing classes for beef animals this week at the Gooding County Fair. Rosemarie Bilbao, left, won the 4-H division, and Eddy Bilbao, right, was the FFA champion. Their parents are Mr. and Mrs. Alex Bilbao, Gooding.

Idaho Lands Mapped

For the first time since Idaho became a state, all irrigated and potentially irrigable lands have been classified and delineated on one large map.

The result of over three years' work by the Land Classification Branch of the Idaho Water Resource Board in cooperation with other state and federal agencies, the five-color map shows the location of 3,532,000 acres of irrigated, and 8,580,000 acres of potentially irrigable, lands.

J. Dewayne McAndrew, chief, Land Classification Branch, said the information would prove valuable to land and water resource planners, soils scientists, land managers, county agents, developers and schools. Reviewing the history of the study project, McAndrew said:

"A primary objective of the Idaho Water Resource Board is formulation of a State Water Plan which can only be achieved by investigation studies of the resources, needs, and preparation of alternatives for meeting the needs in the years that lie ahead.

"Fundamental to comprehensive planning is our need for reliable information about the amount and kinds of lands we have within the State. This was the first project authorized by the Board in 1966. Criteria were developed for placing

lands into different classes which also were compatible with those being established for the Columbia-North Pacific Comprehensive Framework Study.

"A work plan was developed and contracts signed with the University of Idaho and the U. S. Soil Conservation Service for soils surveys of the first series of counties. Fifteen counties in southern Idaho were studied and mapped under this contract. The Board later contracted with the U. S. Bureau of Reclamation for county land tabulations and classification maps and general description of lands with potential for irrigation in the remaining 29 counties.

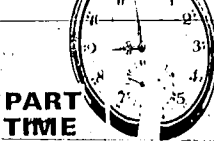

"Information obtained has been placed on one 32 inch by 48 inch map showing lands now being irrigated by surface and ground water, along with potentially irrigable lands of 8,580,000 acres divided into three classes. Class One lands have the highest potential for irrigation development. They are well-drained, have smooth topography, are productive and have only minor limitations for irrigated agriculture. Our studies show that Idaho has 1,218,000 acres of this high quality land available for future development for agricultural purposes. Class Two lands, only slightly less desirable than

Class One, total 3,733,552 acres, while the more marginal Class Three lands total 3,620,570 acres.

"When we consider that only slightly over 3 1/2 million acres have been developed for irrigation in Idaho during the past 70 years, and our present water resources, the opportunity for long-range development, and positive economic benefits appear good."

Acres and land classes are listed on the map. Major areas now irrigated, and potential lands, lie adjacent to the huge curve of the Snake River across southern Idaho. Counties with the most acreage now under irrigation include: Canyon, 315,800; Bingham, 315,600; Twin Falls, 291,500; Jefferson, 237,000; Cassia 253,200; Bonneville, 183,500 and Owyhee, 178,200.

Counties with the most potential land in the Class One category include: Bingham, 135,400; Elmore 104,300.

PROUDLY SHOWING his beef project is Jerry Davis, son of Mr. and Mrs. Kent Davis, Hichfield, after winning first place in the first

year division of 4-H beef fitting and showing at the Lincoln County Fair recently. He is a member of the West End 4-H Club.

Chick And Egg Prices to Drop

WASHINGTON (UPI) — Prices for eggs and broiler chickens are expected to average below year-age levels this summer and fall, according to a report from the agriculture

department. Turkey prices, however, may continue above last year's levels through summer, the report said. Production of all three commodities is expected to remain above 1969 levels through the summer and fall, it said.

Miriam A. Ferguson was the first woman governor of Texas.

Shoshone Fat Stock Sale Set for Monday

SHOSHONE — Shoshone Sale Yard will sponsor their annual 4-H and FFA fat stock sale on Monday, Aug. 17, according to Ivan Hopkins, county extension agent.

Students who will have beef for sale are Denise Stutzman, Jerry Davis, Tim Ridinger, Ron Golcochea and Roger Golcochea, 4-H, Kent Green, FFA.

Those with fat lambs, all in 4-H, are Sheri Braun, Deanna Braun, Deann Sorensen, Bonnie Laughlin, Roger Golcochea, Sabrina Pugh, Dale Rails, Jon Pugh, Kim Pugh.

The "Big Rock Candy Mountain" immortalized in American folk music is a lemon-colored hill in Utah.

Those with swine are Larry Kerner, Denise Stutzman and Marshal Chatterton, FFA, and Clair Hollibaugh, 4-H.

New Aide

WASHINGTON (UPI) — Agriculture Secretary Clifford M. Hardin has named Clayton Youtter, 39, as administrator of the Consumer and Marketing Service, one of the government's most important consumer protection agencies.

Youtter, a former aide to Nebraska Gov. Norbert Tiemann, is presently director of the University of Nebraska agriculture mission in Bogota, Colombia. The new post involves supervision of federal meat and poultry inspection.

Reports Given at Filer Meet

FILER — Harley Williams reported on fair booth progress to Filer Grange members at the meeting in the hall.

He noted the barley sheaves have been made and members worked on wheat sheaves after the meeting.

Mrs. Alfred Theener reported on the Grange picnic held in July at the fairgrounds. Clifford Thomas gave a report to sugar beet growers on wages for workers in the beet fields.

Mrs. Craig Dunlap announced she had been elected woman's activities chairman for Pomona Grange for the remainder of the year. She stated the judging for the Grange contest on needlework, cooking, sewing and textile painting will be held Aug. 26 in the Filer Grange Hall.

The charter was draped for Herchel D. Newson, former national Grange master.

Battle Shapes up Between Magazine, Congress

BOISE — A verbal and print battle between farm groups and the Reader's Digest may soon reach the floor of Congress, it was revealed today by the Idaho Wheat Commission.

Wheat Commission administrator Harold West, Boise, said action to terminate \$9.4

million in subsidies to the Digest has been promised by Congressman David Henderson (D. - N.C.).

Henderson, who is vice chairman of the House Post Office and Civil Service Committee, is acting in response to a May article in the

Reader's Digest titled "Time to Say No to Big Farm Payments."

Henderson charged the magazine with disseminating distorted information and requested that his rebuttal to the article be printed. The Digest denied his request and stated, "We do not want a subsidy, nor do we believe we are being subsidized."

Henderson promised to oblige the magazine by initiating steps to end its second class mailing privileges, said to save the Digest \$9.4 million annually in postage costs.

West said "distortions and misinformation" in the Digest article had angered farm

organizations throughout the country. He said the article implied that farm price sup-

ports had boosted prices, while in fact the cost of most commodities has gone down.

RESERVE CHAMPION in the Round Robin event at the Lincoln County Fair was Lucy Berriochon, daughter of Mr. and Mrs. Carlos Berriochon, Shoshone.

"TOPS IN SERVICE AND PRODUCTS"

TWIN FALLS 733-5671 (COURT CROSSING) JEROME 324-2388

A "CUKE" TRICK: Recently we mentioned growing "burbles" cucumbers, the kind which don't "talk back" once you've eaten them. I received this intriguing letter from a reader with a tip for "de-burping" a cucumber so you can eat it in peace and not suffer any gastric disturbance.

She writes: "Here's a trick I learned from my parents and I hope it benefits your readers. Take a good solid cucumber (any variety) and cut the top off, about 1/2 inch or so (stem end). Then grasp the cuke and rub the cut stem end vigorously over cut surface of the cucumber. When you rub the little piece over the cut surface of the large cucumber, you work the 'bitter' fluid out of it. This bitterness fluid is what causes the 'after talk' and rubbing the two cut ends together draws it out. This bitter fluid is also what benetticians (I'm one myself) use as a facial mask. This trick works on any cucumber that is firm and without any cuts in the skin. People in the restaurant business will benefit from this if they add cucumbers to their salads."

Green Thumb note: Good tip. I like items like this and hope more readers will send them along.

QUESTION OF THE WEEK: F. R. of Twin Falls: "My husband, has a thing about putting wood chips on his roses every winter. He mounds the soil around the roses then covers mounds with wood chips. In the spring he spades them under. He gets all the chips he wants from tree people who chop up stumps and limbs. Now the chips are getting thicker

and they don't deteriorate as fast as they used to. We have 50 hybrid teas, climbers and floribundas and I note that some have weak stems. Would you say the chips are harmful?"

Up to a certain point, wood chips are fine, either in a clay or sandy soil. Like anything else, you can over do it with wood chips. When you have more chips than you do soil, plants may turn yellow.

This is because soil fungi and bacteria that decompose the organic material (chips) consume so much nitrogen that temporarily none is left for the plants and the leaves may turn yellow, a hunger sign for the plants.

This can be prevented and controlled by adding extra nitrogen, such as a cupful of nitrate of soda for each bushel, or by watering the mulch with a liquid plant food such as 23-19-17, mixed at the rate of one-half pound to 11 gallons of water.

Use the chips in the flower bed, vegetable garden or as a mulch around trees and shrubs.

Named to Unit

HAGERMAN — John R. LeMoyné, Hagerman real estate broker, has been named into associate membership of the American Society of Farm Managers and Rural Appraisers.

Mr. LeMoyné and his family live south of Hagerman on the Snake River.

Treated feed should never be fed to livestock or poultry. It should be stored well away from feed and in a place where neither livestock nor children have access to it.
