## Local Jets Noisy

## Population Shifts . . .

THIS MAP ILLUSTRATES the changes in population according to preliminary figures of the 1970 census. The Census Bureau reported Tuesday that California had officially replaced New York as the most populous state, and that Americans continued to migrate from the cities to the suburbs during the 1960s. (UPI)

## 200 Million of Us

WASHINGTON (UPI) — The Census Bureau, peppered all summer with state and local charges of undercounting, now is faced with the task of finding 4.6 million Americans to match its own estimates of U.S. population.

Commerce Secretary Maurice H. Stans and Census Director George Hay Brown announced Tuesday the preliminary total population of the 50 states after five months of tabulation was 200,263,721. But both men told reporters they expected the final official figures due by Dec. 1 would be close to the bureau's April 1, "population clock" estimate of 204,828,260. The clock is the bureau's constantly changing totalizer at its Washington headquarters.

More than the pride of Census Bureau estimators is at stake. The size of state congressional delegations and the amount of aid funds states

## U.S. Verifies Arab Violations

WASHINGTON (UPI) — Administration sources said today the United States now has evidence of its own that Egypt and Russia have violated the cease-fire agreement in the Middle East.

They said this evidence, as well as the diplomatic complications it poses, were discussed in detail at President Nixon's meeting at the Western White House Tuesday with his top military and diplomatic advisers.

The conclusive information that the United States has concerns the forward movement of several batteries SA2 antiaircraft missiles in the standstill zone on the west bank of the Suez, as well as continued work on some of the emplacements which were already in the zone.

Administration officials said the United States also has concluded that Egypt, with the assistance of the Russians, probably moved some antiaircraft missile batteries into the standstill zone during the night of Aug. 7-8 when the cease-fire began.

## Assassins Miss King

KING HUSSEIN

AMMAN (UPI) — The Jordanian cabinet, shaken by a new assassination attempt against King Hussein, met in emergency session today to discuss an Iraqi threat to move against the Jordanian army.

Iraq has about 12,000 troops in Jordan and threatened Tuesday to use them to "protect" the Palestinian guerrillas who battled Jordanian troops in Amman Tuesday night.

Amman was quiet after a night of sporadic shooting and Amman Radio said the airport — where the assassination attempt occurred — had been reopened.

The official radio appealed to Jordanians to close ranks and said, "Jordan derives its strength from your cooperation."

"Long live the unity of our Jordanian family."

The attempt against Hussein — the ninth since he ascended to the throne — took place Tuesday night as he was driving to the airport. An antitank shell fired at his motorcade missed.

According to reports, unknown persons shot at the motorcade near a railway crossing. Hussein, 34, was on his way to the airport to meet his teen-age daughter, Princess Alla, who was returning from a trip abroad. Jordan Radio said Hussein was unharmed, but gave no further details.

Immediately afterward heavy fighting broke out between Jordanian and guerrilla forces and lasted for four hours, with some shooting continuing throughout the night. An Al-Fatah guerrilla spokesman said 10 persons were killed and 40 wounded.

## Egypt, Israel Balk

By United Press International

The shaky first steps towards possible peace in the Middle East appeared further jeopardized today, with statements from both the Israeli and Egyptian sides indicating negotiations could be cut off before they got fully under way.

In Jerusalem, an Israeli cabinet meeting failed again Tuesday to reach a firm decision on when to resume the U.N.-sponsored talks in New York, which started Aug. 24 and then ground to a near-halt when the Israeli representative was recalled for consultations.

At the same time, the Egyptian negotiator, U.N. Ambassador Mohammed Hassan el-Zayyat, met with U.N. Mediator Gunnar V. Jarring Tuesday and indicated afterwards his nation may not want to continue the talks beyond the current 90-day cease-fire due to expire Nov. 5.

Indications were Israel will demand the Egyptians pull back Soviet-made missiles Israel claims they moved within the 31-mile cease-fire zone along the Suez Canal after the cease-fire went into effect Aug. 7. But after Tuesday's cabinet meeting, a spokesman said only that no firm decision was taken and the "discussion will be continued." He did not say when, but it is believed the next cabinet meeting will be Sunday, meaning Tekoa cannot return to the United States before Monday.

In New York, El-Zayyat noted after meeting with Jarring that "25 days have been lost" — referring to the 15 days the cease-fire has been in effect. He added, "we shall wait the rest of the 90 days."

This was interpreted to mean Egypt may not be willing to continue the peace talks after the original cease-fire expires.

El-Zayyat said of Israel, "We have been told for 20 years that people are yearning for us to come for peace. Now we are here and we are alone."

## Agnew Briefs Johnson

SAN CLEMENTE, Calif. (UPI) — President Nixon dispatched Vice President Spiro T. Agnew to the LBJ Ranch today to inform former President Lyndon B. Johnson that Asian allies are resigned to American troop withdrawals.

Agnew, fresh from his 10-day, five-nation tour, reported to Nixon and top diplomatic and military advisers Tuesday on his talks with Asian leaders.

He departs El Toro Marine Air Base near here at 11 a.m. EDT aboard Air Force Two for the flight to Texas.

Following a three-hour session at the Western White House, Agnew told newsmen he found "a great acceptance for the Nixon doctrine among the Asian leaders that I visited."

The Nixon doctrine, enunciated by the President in Guam last year, calls for a lower American profile and presence in Asia but continued economic and military aid to allies to help them defend themselves.

Agnew said "the Cambodian situation seems to be developing very well" and the nation now has "at least a fighting chance of survival."

Agnew also praised Cambodian Premier Lon Nol as "a leader and a military planner." He said the Cambodian leader was satisfied with the present rate of aid, including the newly announced \$40 million in military funding.

After a top-level review on the Middle East situation with advisers Tuesday, Nixon shifted his focus to Vietnam and other foreign policy developments today. The President set aside the day for intensive staff work.

## Jordan Rejects Threat

AMMAN (UPI) — Jordan today rejected an Iraqi threat to intervene with its 12,000 Jordanian-based troops if the Jordanian army cracks down further on Arab guerrillas. The crisis was heightened by a new assassination attempt against King Hussein Tuesday night.

The cabinet took the decision at a four-hour emergency session in Amman which looked like a deserted city after a night of battling between Hussein's troops and the Palestine refugee guerrillas. The sound of machinegun fire crackled through the streets today.

Iraq, Syria and the Arab guerrilla movements have rejected the American-instigated Middle East cease-fire and have criticized Hussein and Egyptian President Gamal Abdel Nasser for moves against the guerrillas. On Tuesday, Iraq threatened to intervene with the 12,000 Iraqi troops stationed in Jordan.

"The Jordanian government regrets such a warning being directed against it and it cannot accept it," the cabinet said in a note delivered to the Iraqi ambassador in Amman.

Public transport in Amman was at a standstill and there were only a few private cars on the streets.

## Judge Quits JP Case

TWIN FALLS — Third District Judge Gilbert Norris disqualified himself Tuesday in the criminal case against Karl R. (Jack) Lewis, former Buhl justice of the peace.

Judge Norris took the action after reading of a civil case filed by the defendant on Friday in Twin Falls.

The case has now been presented the Idaho Supreme Court where Justice Charles Donaldson will select another district judge to hear the matter.

On returning Wednesday to Twin Falls from Emmett where the case was underway before Judge Norris, Prosecuting Attorney Robert Gailey said the county wasted considerable time and money in the futile two days in Emmett.

Judge Norris, in disqualifying himself after the jury had been selected and testimony was to be presented, said the poor timing in filing the civil case was a major factor. Secondly, he said the jurors had no prior knowledge of the Lewis case. Finally, he said, were he the defense, he would not want a judge in his frame of mind hearing the case.

Lewis is charged with three counts of misuse of public funds.

In the case filed Friday, he was charged with \$42,500 in damages from an auditor Elmer Wilson who audited the Buhl City and Twin Falls county records prior to the criminal complaint filed by the county.

## Torrents Flood Manila

MANILA (UPI) — A record rainfall of more than 22 inches in 20 hours flooded Manila today and took 14 lives including those of two U.S. sailors. President Ferdinand E. Marcos declared a state of "calamity and emergency."

The Navy men were killed in a landslide at Cubi Point Naval Station about 90 miles northwest of Manila. The names of the victims will not be released by the Navy until their relatives are notified.

## School's Fair Day

TWIN FALLS — The Twin Falls school system will be dismissed Thursday, September 10th, so students and teachers may attend the county fair.

Students having exhibits that are planning to be at the fair September 9th or 10th must have permission prior to those dates to be absent from school.

The system also will close Monday in observance of Labor Day, according to Assistant Superintendent George Staudaer.

## Library Declares Records Private

TWIN FALLS — The Twin Falls Library Board Tuesday denied access to circulation records to investigating governmental agencies and declared the records "confidential."

The trustees' action was a formalization of what Librarian David Bruce said was a long-standing policy which had never been articulated at the board level.

Bruce said there have been at least four recent incidents at other libraries in which agents of the U. S. Internal Revenue Service attempted to obtain check-out data to identify persons reading material pertaining to construction of explosive devices.

The board's action closely paralleled a recommendation by the American Library Association urging libraries to declare circulation records confidential, not to be made available except under court order.

Under the Twin Falls library policy, the library staff was instructed to refuse access to such records except by express order of the library trustees.

No attempt was made by the trustees to determine when the board should approve such access.

In other action the board authorized Bruce to contract with Jack Radtke Construction Co., Twin Falls, for \$1,872 of basement remodeling.

The trustees also approved closing the children's library while the alterations and painting are underway.

## Stennis Gets His Weapons Choice

WASHINGTON (UPI) — Sen. John Stennis, D-Miss., emerged from 129 hours and 30 minutes of controversy with \$19.2 billion worth of weapons for the Pentagon, a hot contract for his home state and an unscathed reputation, as the Senate's most effective manager of legislation.

"The Judge" guided the beleaguered military procurement bill through six weeks of debate and 14 separate roll call challenges by a growing and determined coalition of defense critics. It finally passed 84 to 5. Tuesday in virtually the same form Stennis and other Pentagon allies wrote it.

Having succeeded in thwarting the reformers at every turn, Stennis also won an old-fashioned, political tug-of-war on a ship contract with Sen. Margaret Chase Smith, R-Maine, the ranking Republican on his committee.

Even though Mrs. Smith is in the right party, the Republican administration awarded a \$2.5 billion contract for 30 submarine destroyers this summer to the Litton Industries shipyard in Pascagoula, Miss. It rejected the competing bid of the Bath Iron Works of Bath, Maine.

## Jerome Annexes

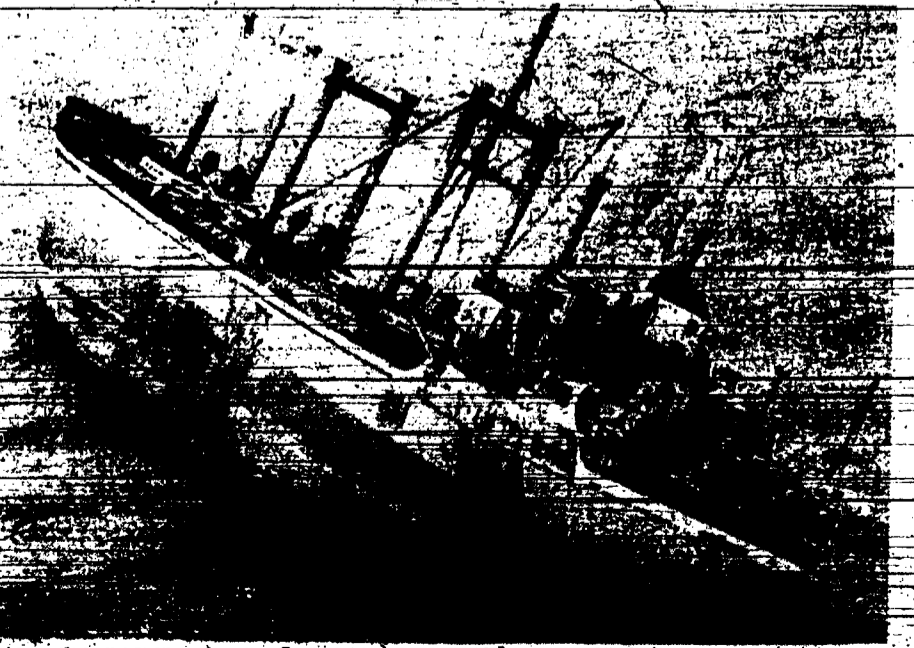

JEROME — Jerome councilmen approved Monday an annexation of 20 acres adjoining the western city limits.

The ordinance was prompted by a request made in July that the Marshall Warehouse complex be annexed. The final area annexed includes additional land holding the sewer plant and Jerome County Fairgrounds. The area extends from the city limits west to the sewer canal.

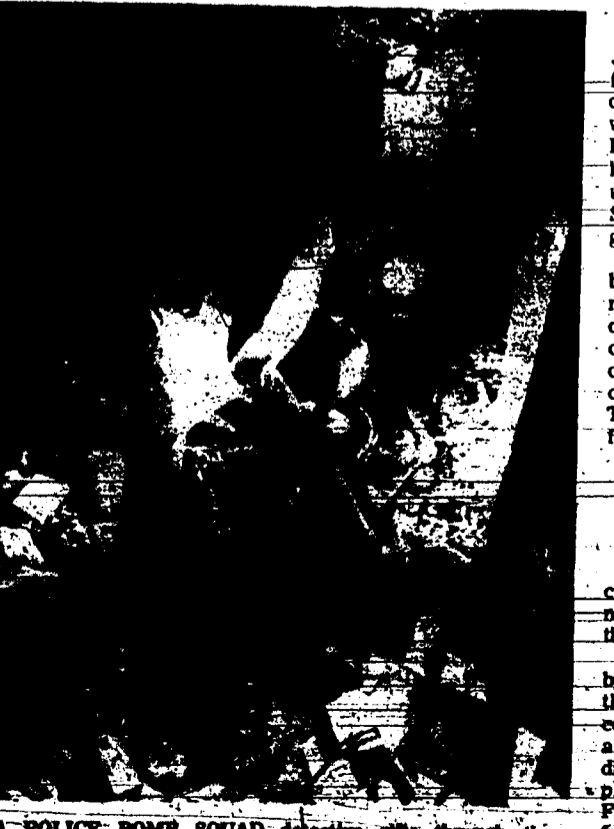

Councilman Elwood Tinker said street repair work is progressing on East Avenue F and widening Third, Fourth and Sixth streets West.

Fourth Street will be extended to the city limits.

It was reported that Mrs. Elwood Becker, Jerome Civic Club Memorial Librarian, was named to the governor's committee on libraries.

THE CRIPPLED Philippine freighter Don Jose Figueroa lies off Port Angeles, Wash., Tuesday while a salvage crew attempts to pump water out of the vessel so it can be taken into the harbor. The ship caught fire off the Oregon coast 10 days ago and was towed into the Strait of Juan de Fuca by a tug. (UPI)

A POLICE BOMB SQUAD selective sists through the wreckage of the Burlington Northern Penn Rail Lines Building in St. Paul, Minn., Tuesday after an explosion ripped open the side door of the building. Two persons were injured in the blast. Three other explosions rocked St. Paul during Tuesday morning's rush hour. (UPI)

ARMOUR ANDERSON, left, Twin Falls businessman, was named chairman of the Twin Falls City-County Airport Commission at a meeting held at the airport Tuesday. Bill Powell, second from left, also a Twin Falls businessman, was sworn in as the newest member of the board. Ed Novacek, Buhl banker, second from right, is the board member from that area while O. A. (Gus) Kelker, Times-News editor, right, was elected vice-chairman. George Colner, Hansen rancher and board representative from the east end of the county, was not able to attend the reorganization session.

## House Numbers Assigned

TWIN FALLS — More than 200 new residents of Twin Falls will be receiving their official house numbers in a mailing program beginning this week.

Barry Bragg of the Twin Falls Engineering Department said the 200 notices are going to homes in newly annexed areas north and west of the city. The department has just completed a survey to establish house numbers for each of the homes added to the city earlier this year.

Bragg said the department works from the legal description of each piece of property. The location of each home is measured from the property line and from the end of the block. A different number is assigned each 12½ feet which accounts for the variance between house numbers, some being located on large lots and not always in the center of the lot.

The more than 200 numbers

include homes on Filer, Robbins, and Lawrence Avenues among others. Mail deliveries in the area are now handled on a route basis, and Bragg said this will probably continue for some time due to the postal staff size.

Numbers are needed, he said, to help persons locate addresses and for other proper designation of property.

Notices to the home owners advise each of the proper number for his home and ask that the numbers be purchased and attached to the front of the building. City ordinance, the notices explain, require dwelling and business house numbers within the city limits determined and assigned by the city engineer and conforming to the numbering map of the city. The numbering map in Twin Falls was approved by the board of city commissioners Feb. 25, 1957.

Bragg said some of the homes have obtained numbers not

officially assigned by the city numbering program and will have to be changed to conform. Where the homes already have numbers which are reasonably close and would not duplicate another home or be inconsistent with the numbering in the block in which they are located, the old numbers have been retained.

Numbers should not be less than three inches in height for clear visibility and should be placed where they can be seen from the street.

Before the first of the year, Bragg said, numbers should be attached as another survey will be made at that time to check on progress of the numbering system. Persons in violation of the city code at that time will be notified.

Additional information is available from the city engineering department, Bragg said.

# Foresters Battle 385 Fires

By United Press International  
Nearly 2,500 men were involved in the battle Tuesday to stop the 385 fires burning in the 18 national forests of the Forest Service's Northern Region.

Almost 250 of the blazes were sparked Monday night by a lightning storm which slashed through the western portions of the region stretching along the Canadian border from eastern Washington to the Dakotas, and fire officials expect more blazes to crop up from the storm

in the next few days.

Hardest hit was the St. Joe National Forest of north central Idaho.

A total of 76 new blazes had been reported by late Tuesday afternoon and dispatcher Oliver Goldammer said he expected more fires to be reported over the next day or so.

"So far, though," Goldammer said, "we're in pretty good shape. We've got enough manpower to staff all of the fires in the forest and expect to have them manned soon."

Similar sentiments were expressed by Robert Adams, dispatcher for the Clearwater National Forest, also in north central Idaho, which bore a large brunt of the storm activity.

Adams said his crews were already battling 48 fires started by a lightning storm Monday morning when the new storm added to their burden with approximately 60 more blazes.

Adams said, however, the forest got some moisture and humidity was fairly high Tues-

day in favor of the firefighters.

"Right now," he said, "it looks like we're doing pretty well."

All 44 new fires in the Nezperce National Forest adjacent to the other two were manned by early afternoon, according to dispatcher Darold Harris, who said he felt his forest had adequate manpower on hand to keep the situation from getting away from them.

All 27 new fires in the Coeur d'Alene National Forest of northern Idaho were manned by

mid-afternoon Tuesday, dispatcher Paul Wilson said.

He also claimed to have enough manpower on hand to take care of the forest's needs.

Across the border in Montana, fire crews in the Lolo National Forest had mopped all 59 new blazes there by Tuesday afternoon.

Besides their big one, the 2,000-acre east Little North Fork fire 18 miles southwest of Eureka, Mont., firefighters in the Kootenai National Forest were battling 35 small fires,

## Diggers Race Winter

PULLMAN, Wash. (UPI). — The expression, "race against time," may be an old cliché these days, but that's exactly what Washington State University archaeologists are doing at an Ozette Indian village site on the Olympic Peninsula.

The scientists are busy uncovering ancient Indian treasures that have been buried by mountains of clay, right on the edge of the Pacific Ocean.

They fear, however, that winter storms will whip ocean waves up on the beach with such ferocity that much of the valuable material they have been unable to remove will be washed away.

Gerald Grosso, project manager, said funds which would have enabled them to work on through the winter have not been forthcoming.

To speed the recovery process, they have set up a hydraulic excavation system using sea-water under high pressure which enables the diggers to move 20-25 cubic yards of clay an hour when the pressure is going full blast.

"This really speeds up the work," said Grosso. "Because in some places slides have covered the materials the archaeologist want to get at under 12 feet of clay and debris."

Since much of the material being removed is delicate and brittle, the diggers switch to garden hoses and low water pressure when they get near the layers that contain artifacts.

"We can operate eight garden hoses off one pump and produce a soft spray for the work that requires a gentle

touch," Grosso said.

"When you are working in a layer where there is matting woven from cedar bark, you don't want to hit it with a high pressure blast," he explained.

He said most of the materials being removed from the Cape Alva site is made of vegetable fiber.

The only animal material found so far is baleen or whalebone, a horny substance that grows in the mouth of whales.

The area is proving to be one of the richest ever uncovered by a Washington State University archaeological team. Grosso, who worked at the famed Marmes site in 1963, says there is no comparison between the two areas as far as the amount of recoverable artifacts is concerned.

On Service Drug Abuse

Academic Foes

Preconceptions are fatal to the spirit of free and open inquiry that should be the hallmark of academic freedom to pursue the truth.

voluntary service to the nation's defense? A voluntary army is out of the question if the Reserve Officers Training program is permitted to be scuttled.

WASHINGTON — In all the talk about narcotics addiction in the armed forces, unpublished Pentagon statistics show that the Army's drug-offense rate has very nearly doubled in one year's time.

heroin, cocaine and the like — pose much less of a problem for Army commanders. It is, however, an unsettling fact that the offense rate for those hard narcotics more than doubled in the same year — from 29 per thousand in 1969 to 69 last year.

education and remedial medical treatment as civil authorities use to combat this drug problem. All men entering the Army get drug abuse orientation. Periodic refresher courses are given, and all individuals assigned overseas get a special course before departure, keyed to the area for which they are headed.

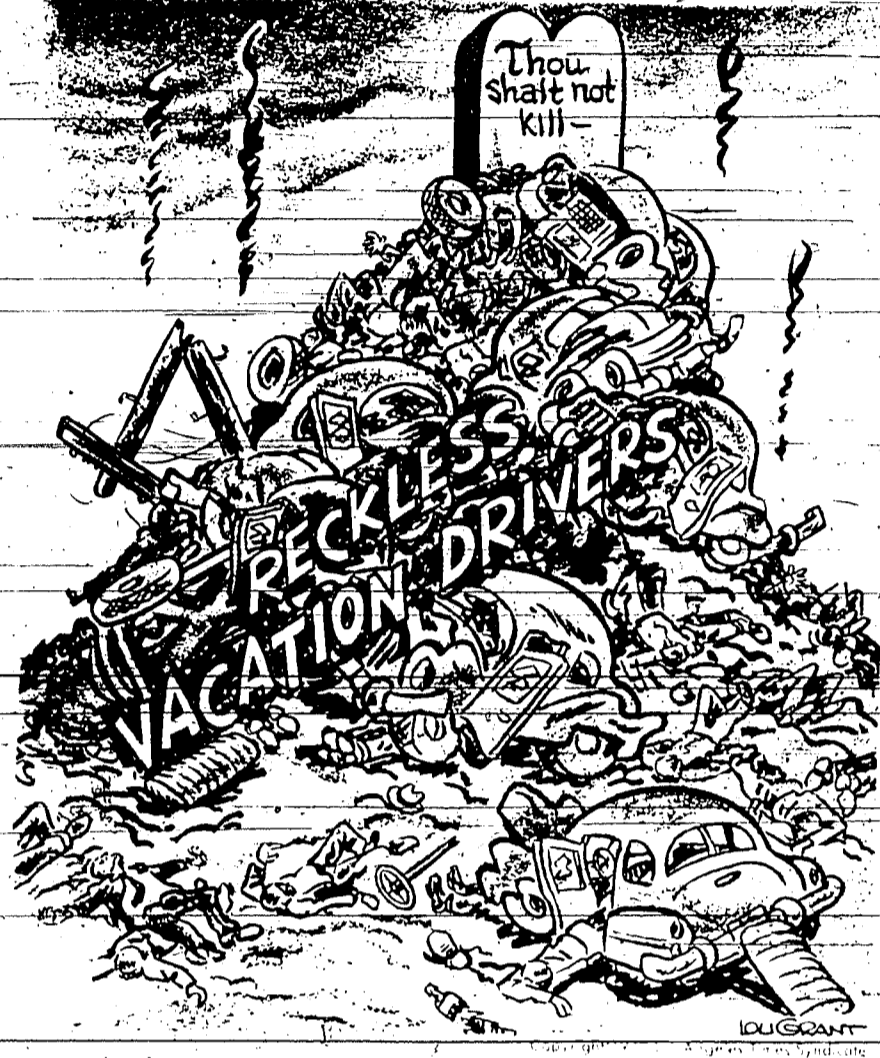

problem. Air Force statistics, prepared on a somewhat different basis, tell a somewhat similar story. The number of Air Force drug abuse investigations was 1,500 in 1967. The total jumped to 3,168 in 1968, and to 3,910 in 1969.

"Although Navy recruiters are not permitted to sign up applicants who have been involved in drug abuse, young men detected for in-service drug abuse frequently have had pre-service experience," Duncan reported.

It is currently fashionable for teachers to urge "involvement" in all kinds of questionable causes, without recognizing the obvious fact that everyone is involved willy-nilly.

Some members of the Congress have introduced a bill to physically remove the outstanding and time-honored reserve training program from the campus, a move on a par with the recommendation that the best way to fight pornography and pot is to legalize both.

SERMON ON THE MOUNT

Like the other services, the Navy finds that marijuana is the drug involved in most of its abuse cases. However, LSD is the drug involved in most of the Navy cases which result in administrative discharges.

Regulations require discharge of Navy men who have used LSD. The Navy is trying to work with those who are involved in offenses connected with marijuana, the barbiturates and the amphetamines and who state their intention to kick their drug involvement.

In that connection, the Navy is reporting what Duncan describes as a "considerable rehabilitation record." According to the admiral, about 2,000 Navy men, who have quit drugs during the early stages of drug use, have been returned to duty in the rehabilitation program.

GEORGE C. THOSTESON, M.D.

Allergies

(First in a series of two articles). Dear Dr. Thosteson: Would you write about desensitization for allergies? I am allergic to so many things—soaps for both cleaning and personal use, perfumes, deodorants, lotions, and many other things.

If desensitization is tried, and succeeds, do not make the mistake of thinking that you are entirely immunized. Too much exposure to offending items can upset your allergy balance again.

Eyes On Chile

Sept. 4 will be election day in Chile. While this event has occurred numerous times without special attention from the rest of the world, this year could be significantly different.

has more support in congress than either of the other two.

RAY CROMLEY

Perils Of Pot

WASHINGTON (NEA) — One of the cruelest campaigns ever conducted in this country has been directed at convincing Americans marijuana is no serious danger — "no worse than alcohol."

characteristic personality changes — apathy, loss of effectiveness and diminished capacity or willingness to carry out complex long-term plans, endure frustration, concentrate for long periods, follow routines or successfully master new material.

controls have been maintained by the Justice Department over use of the wiretapping statute. At the same time, federal courts have been giving close scrutiny to the reasons behind wiretap requests in order to guard against any possible misapplication.

There's no good way to try to oversimplify your questions. Severe allergy is a complicated thing, a continuing annoyance very often, and not easy to treat.

Dear Dr. Thosteson: I am going to have a hysterectomy in the near future. I am of average weight now but my friends tell me after an operation of this kind one gains weight regardless of diet.

MR. SPECTATOR

Electronic Madness

Imagine every telephone in the United States suddenly ringing simultaneously, in concert with every radio turned up at full volume! That cute little trick would be performed by a patented emergency warning system the Defense Department is studying closely.

about 200 million candidates for rest homes. What is the matter with alerting the countryside a la Paul Revere?

ANDREW TULLY

Investigators

WASHINGTON (NEA) — One of the cruelest campaigns ever conducted in this country has been directed at convincing Americans marijuana is no serious danger — "no worse than alcohol."

(Mr. Tully is on vacation. Today's guest columnist is John N. Mitchell, attorney general of the United States)

Government investigators now have a strong upper hand in their relentless attack against organized crime, particularly gambling and narcotics.

Basically there are three ways to combat allergies: 1—Avoid, if it is possible, things known to bother you.

Although cholesterol has been implicated in heart attacks and other circulatory troubles, it is nevertheless vital to human life. For this reason, Dr. Thosteson has entitled his booklet, "Control Your Cholesterol Sensibly."

The idea is that in a national emergency, the President could — according to the inventor — be in touch with 95 percent of the American people within 60 seconds by dialing a coded sequence on equipment in the White House.

TOMATODOG If fruits and vegetables of the future take on some unaccustomed shapes, blame it on agricultural scientists at the University of California campus at Davis.

As a matter of truth, a series of not-yet-published research studies sponsored by the U.S. National Institute of Mental Health give the most horrifying picture of what marijuana may do to chronic smokers.

Operating within these safeguards, the Justice Department in the past 18 months has arrested 419 persons with the aid of information supplied by electronic surveillance measures.

These figures take on more significance because of the strict criteria which determine whether to request a wiretap. Only when normal investigative procedures are deemed inadequate is a request made.

BERRY'S WORLD

"Maybe things aren't as dehumanized as we thought. Here's another form letter with the complimentary closing, 'Warmest personal regards.'"

Nice as it might be to have that feeling of security which must come with a direct communications link with the White House, the uninhibited confusion which would result from this warning system-functioning as its inventor says it will at, say, three o'clock in the morning, is too horrible to contemplate.

Well, why not? Is there any reason why tomatoes should be round, or apples, plums or oranges either? Just because an accident of nature grew them that way doesn't mean they can't be changed.

**THE MILITARY SERVICES** are joining forces — at least in the location of office space. Twin Falls recruiters for the Army, Navy and Air Force have relocated in a single set of offices at 130 2nd St. E., about a block off Main Avenue. Pictured are the four recruiters stationed in Twin Falls including, from left, Sgt. Bill Donnelly, Air Force; Sgt. Hal Kreps, a new Army recruiter;

and BM-L Dean Getchell and Chief Ron Jennings, both with the Navy. Kreps was assigned to Twin Falls about six weeks ago, succeeding Sgt. Fulton as spokesman for the Army. The recruiters work together, "contrary to what many people think, we're not trying to cut each other's throat," Jennings said.

## Environmental Crisis Looms

By JOSEPH C. ...  
 LPI Senior Editor  
 WASHINGTON (UPI) — We're having an environmental crisis. We're also having a rapidly into an environmental crisis. The "brownouts" of the "brownouts" of winter. Power plants, which are conventional or nuclear, are the one way or another to a pollution crisis. And the concern over environmental pollution is contributing to the coming power crisis.

Power in this area of the Twentieth Century is what makes our society go. You might not miss your electric tooth brush much if the power went out.

But would you like it if there

projects of all kinds have been abandoned or stalled in controversy. According to John N. Nassikas, chairman of the Federal Power Commission, nuclear power is the best hope for an ultimate solution of the energy crisis. But the key word is "ultimate." The best atomic power can do now is to supplement conventional generating plants while the technology is being developed for that distant day when nuclear energy will assume a major role in power production.

According to the Atomic Energy Commission, there are now 16 "operable" commercial nuclear power plants, 55 being built and 43 planned — a total of 114 in 31 states. This is pretty small stuff compared with the cozy dreams of yesteryear.

Meanwhile, more and more people have become dubious about atomic energy, just as more and more people have become disenchanted with the polluting properties of conventional plants.

Nuclear plants don't spew smoke, but they do lose a bit of radioactivity into the environment and they do heat up the waters adjacent to them and thus jeopardize the aquatic ecology.

Some objections to new atomic power projects are mainly esthetic. Some are environmental. Others concern private enterprise rivalries.

There also is the simple matter of cost, the issue of states' rights and a host of vague fears engendered by the fact that the first use of atomic energy was to make the bomb.

## Viewers Will Judge Fair Entries

TWIN FALLS ...  
 will be judged ...  
 the judging ...  
 County Fair ...  
 will be no formal judging ...  
 past years, according to Mrs. Evanelle Henkelman, president of the Magic Valley Art Guild.

Mrs. Henkelman said that there have been many complaints in the past years, a favored painter did not win a ribbon. So this year the viewers will vote each day for favorite paintings by blanked entry blanks. Winners will be announced and the best show winner will be announced on Saturday.

The Art Guild will accept entries for the fair from Sept. 2 through Saturday and from 9 a.m. to 5 p.m. Sunday in the Art Building at the Filer Division of the Magic Valley County Fair grounds.

Mrs. Henkelman emphasized the ruling that any entries in the art division must be the artist's own original work and cannot be copied in any way. In addition, the artist must not have received any instruction or help on the work entered in the fair.

Many paintings have apparently been copied from magazines, particularly Arizona Highways, which features full-color landscapes of outstanding quality, Mrs. Henkelman said. In addition, Mickey (Mick) Marshall of Murtaugh is chairman of fair exhibits this year.

**TINA HEPWORTH**, age three, doesn't seem too thrilled with the idea as she picks the winners in the downtown merchants' association bi-weekly promotion. She said, "why can't I win one" as she quickly picked out the four lucky entry blanks. A brand new bicycle was awarded Saturday to each of four entries. Lucky winners were: Jennifer Gann, 387 Jackson street, Twin Falls; Ben Briggs, 1611 Kimes, Twin Falls; Mary Wright, Route 1, Hansen; Mike Armga, 1604 Addison Avenue East. Winners of the bicycles are also eligible to win the brand new Opel Kadett which will be given away in October. Patrons of local downtown stores are urged to ask for entry blanks and deposit them before the next drawing September 12 when a half of beef and a pot to cook it in will be awarded. It's all a part of making it worth your time and effort — more than ever — to shop downtown Twin Falls during the remodeling and beautification of the area.

# Researchers Report Pornography May Shift Boys Toward Deviancy

WASHINGTON (UPI) — A team of sex researchers, in a report submitted to the president's Commission on Obscenity and Pornography, has concluded boys exposed to large doses of erotic material before the age of 14 may develop deviant sex behavior.

The report came from Keith E. Davis, chairman of the Rutgers University Psychology Department, and George N.

Braughton of the University of Colorado. They said they based their findings on a study of 365 men between the ages of 18 and 30, ranging from Denver jail inmates to black college students to Catholic seminarians.

The commission is scheduled to submit its already controversial report to the White House and Congress within three weeks. Preliminary reports have indicated the panel has concluded there is no evidence that adults exposed to pornography will engage in deviant behavior. The commission also is expected to call for a relaxation of laws governing the availability of pornography to adults, and to recommend continued measures to protect children from such material.

Dr. W. Cody Wilson, executive director of the commission, verified the panel had received the Davis-Braughton Report, among others. He said the panel's recommendations would be based on a wide variety of such studies.

Excerpts from the Davis-Braughton report and from several other studies done for the commission will be presented Monday at the 78th annual convention of the American Psychological Association in Miami. UPI obtained copies of these reports today.

"Early and ample exposure (to pornography) may affect the youth's view of sexuality and willingness to engage in varieties of deviance," the researchers said. "In an old-fashioned language, his sexual inclinations may be warped by a very early significant exposure."

They admitted their study had some built-in limitations, "but these data do not allow us to rule out the possibility that exposure to considerable pornography at early ages, under 14, plays some role in the development of sexual deviant life styles."

"We found that the relations between exposure to pornography and sexual deviance include a broad spectrum from mildly deviant, high frequencies of heterosexual behavior, to group sex, to sex without love, to homosexuality, rape and male prostitution for those subjects exposed to greater amounts of pornography."

# Cannon, Raggio Win Primary Bids

By Unified Press International Sen. Howard W. Cannon, D-Nev., won re-election in 1964 by only 84 votes. This time he faces a President-backed candidate campaigning on what some experts believe to be the primum issue this year—"law and order."

The opponents in Nevada's senatorial race were decided Tuesday when Cannon, 58, and William Raggio, 42, Republican district attorney, won their parties' nomination by lopsided margins.

Candidates for the state's sole House seat will be Rep. Walter Bargin, 58, a Democrat seeking his 10th term, and Republican J. Robert Charles, 27, a former Las Vegas hotel guard making his first political bid.

North Dakota also had a primary election Tuesday, but those contests weren't as decisive. There was only one declared winner of a contested nomination early today. Sena-

torial nominees ran unopposed and the big fights were waged over the state's two congressional seats.

Richard Elkin, endorsed for the GOP nomination to replace Rep. Thomas Kleppe, held a slim lead over Robert McCarney. Kleppe is giving up the House seat he first won in 1966 to challenge the state's only Capitol Hill Democrat, Sen. Quentin Burdick.

Rep. Mark Andrews won handily in his bid for a fifth term, but James E. Brooks, the endorsed candidate, held only a slim lead over two other candidates in a bid to be the Democratic challenger.

Gov. Paul Laxalt of Nevada, who gave Cannon that close race six years ago, is retiring after this term. His hand-picked candidate for the GOP nomination, Lt. Gov. Ed Fike, won over a housewife advocating legalized prostitution and abortion.

### MR. AND MRS. BOB OHLSENHLEN (Shig Morita photo)

### Double Ring Wedding Rites Performed For Area Pair

**FILER**— Darlene Kendrick, daughter of Mr. and Mrs. James Kendrick, Filer, and Robert Ohlensehlen, son of Mr. and Mrs. A. E. Ohlensehlen, Jerome, were united in marriage Aug. 15 in the Filer United Methodist Church.

The double ring ceremony was performed by Rev. Elam Anderson before a background of candelabra decorated with pink carnations and greenery holding pink tapers and baskets of gladioli arrangements in shades of pink.

The bride, escorted by her father, wore a floor-length empire-styled gown of white silk organza over peau de soie. Pearled and scalloped Chantilly lace enhanced the bodice and long tapered sleeves. Her mantilla veil and train were of white silk organza and matching lace.

She wore a necklace and earrings, a gift from the bridegroom.

The bride carried a crescent bouquet of pink and white roses encasing a white Bible the bridegroom's mother carried when she was married. She also carried a white crocheted handkerchief made by her grandmother, Mrs. J. C. Kendrick.

Rhonda Gasset, sister of the bride, was matron of honor, and Judy Kendrick, sister of the bride, was maid of honor. Bridesmaids were Jeannie Holtzen, Jerome; Shirley Ingie, Filer, and Sherry Babbit, DeSmet.

Lauren Reed and Rex Reed Jr. were candlelighters. Mary Louise Olson was flower girl and Daniel Olson was ringbearer. Mrs. E. A. Beem played the traditional wedding music and accompanied Mr. and Mrs. Rex Reed who sang two duets.

Jeff Ohlensehlen, brother of the bridegroom, was best man. Ushers were Kevin Varin, Gooding; Lea Beaton, Moscow; Cliff Cassert and Larry Maxson, Filer, and Richard Maine, Fruitland.

Ginger Strickland, cousin of the bride, was in charge of the guest book. Gifts were displayed by Mrs. Raymond Ohlensehlen, aunt of the bridegroom, assisted by Glenna Keslar, Caldwell, and Susan Gisler, Hagerman.

The bride's table was covered with a white satin cloth and centered with a square wedding cake decorated with flowers in shades of pink and topped with a miniature bride and bridegroom under a flower-enhanced archway. Flanking the cake was a styrofoam stairway on which were grouped replicas of the entire wedding party, which had been made by the bride's mother and aunt. In front of the large cake was a pair of bell-shaped cakes bearing the names of the bridal couple.

Mrs. Frank Sidelier, aunt of the bridegroom, presided at the punch bowl and Mrs. W. R. McHarque, aunt of the bride, poured coffee. The cakes, baked and decorated by Mrs. Reuben Lierman, were cut and served by Mrs. Harvey Maxson, aunt of the bridegroom, and Mrs. Billie Strickland, aunt of the bride.

After a wedding trip to California, the couple will be residing at 201 W. Taylor, Moscow. The bride will be a junior at the university, majoring in elementary education, and the bridegroom will be a senior in agriculture.

Miscellaneous showers honoring the bride were hosted by Alice Reed, Norma Blass and Jessie Olson, and Pam Pertole and Nancy Hothaus hosted a kitchen shower. The parents of the bridegroom hosted the rehearsal supper.

Special guests attending the wedding were Mrs. Edna Hobeh, Columbus Junction, Iowa, grandmother of the bridegroom; Mr. and Mrs. Frank Seidler, Salinas, Calif. uncle and aunt of the bridegroom; Mr. and Mrs. Bill Harlow, Boise, grandparents of the bride, and Mr. and Mrs. Jerry Sullivan, Boise.

## Anniversary Open House Set

**HAGERMAN** — Mr. and Mrs. Earl Padgett will be honored at an open house Sept. 6 in observance of their Golden Wedding Anniversary.

The open house will be held from 2 to 4 p.m. at the Reorganized LDS Church, Hagerman, and will be hosted by their children. All friends and relatives are invited to attend.

Mr. and Mrs. Padgett were married Dec. 29, 1920, in Gooding and moved to their present address in 1932. They are the parents of two sons, Ray Padgett, Boise, and Eugene Padgett, Hagerman, two daughters, Betty Bosh, Pocatello, and Sandra Thompson, McCall. They have 17 grandchildren and two great-grandchildren.

### Women Needed In Politics

**WASHINGTON (UPI)** — Republican and Democratic women leaders are making common cause in an attempt to lure more members of their sex into big-time politics.

Mrs. Elly M. Peterson, assistant chairman of the GOP national committee, and Mrs. Geri Joseph, who formerly held the same position with the Democrats, began last spring to look for a foundation that would finance the poll they believe should be made.

Once they find an angel, they will be ready to compile questions they believe should be asked.

Women now do far more of the nuts-and-bolts work than do men. But even though they comprise more than half the national population, they generally are forgotten when party endorsements are distributed, and few are to be found in high political office.

There have been Jews on the Supreme Court bench, and there is a Negro there, but no woman ever has been named to this prestigious position. None has been chosen for the cabinet since President Dwight D. Eisenhower names Mrs. Oveta Culp Hobby to head the then new Health, Education, and Welfare Department.

The 100 senators include one woman, and the 435-member House has 10 women members. Why such a small representation?

It is hoped the poll will provide the answers.

Harriett Cipriani, deputy vice chairman of DNC, said the Democratic women's division first wrote to all feminine candidates in the 1968 convention, those who lost as well as the winners. The questionnaire asked if it had been difficult to raise campaign money, for example, did men support them as the gentle sex has male candidates?

The effort for a professional poll was launched because party leaders believed their first attempt was to amateurish in such a complicated field.

"Maybe we're urging women to run for public office and then will find out they couldn't care less," Mrs. Cipriani said. "And some simply prefer to vote for the male candidate."

If this hazard proves true, she said, "we must turn to education to change their minds."

"We're not saying women would be better than men, but there should be more of them in Congress."

### Distressed Woman Needs Assistance From Men

By **PATRICIA McCORMACK**

**NEW YORK (UPI)** — I'm all for equality of the sexes but one thing bothers me — what do we women do about matching male brawn?

And (a not entirely unrelated question) must I now also find out what makes my automobile run, and how to fix it when it doesn't?

Tell you why this suddenly bothers me.

My nearly new car stalled the other morning on the way to the railroad station. In fact, it stopped at a rather inconvenient place — in the middle of an intersection with a traffic rotary, two of the roads carrying cars going like bats out of you know where.

I activated the car's flashers, a distress signal. I sounded the horn. A man at the gas station dropped his wrench and came running.

His sleeves were rolled up and I was grateful to see those huge strong arms of his. Put her in neutral, release the brake, smells like you're flooded," he said, going around to the rear of the car. With the ease of flicking a fly off his face, he pushed auto to curb.

"Maybe I have a vapor lock," I said.

"Nope," he said, "I think she's flooded."

I was instructed to wait half an hour and then try to start her.

When I tried "to start her" the odor of gas was heavy again. And no luck.

My Galahad from the gas station signaled to three other, equally brawny co-workers and the four of them marched to the car. I was about to be saved.

Eight women couldn't have done what they did. They pushed the car up a huge grade into the station.

They then went over the car. When they found the trouble I got that "how dumb can one dame be" look.

I had been trying to start the car with the choke all the way out. This fed extra gas to the engine in addition to the gas from my heavy foot on the gas pedal.

"It will take hours for her to dry out," the man said.

I made a note to learn about chokes.

When you have a vapor lock, by the way, you pump the gas pedal up and down furiously. It gets the air out of the gasoline. But I can't remember if you do it when the engine's on or off.

MR. AND MRS. BENJAMIN G. BRAUSEN  
(Dudley photo)

### Tami Toler Marries Benjamin Brausen

**TWIN FALLS** — Tami Toler, daughter of Mr. and Mrs. Gaylord W. Toler, Twin Falls, became the bride of Benjamin G. Brausen, son of Mr. and Mrs. Arthur G. Brausen, Moscow, at a High Mass, performed by Father Simeoni at St. Benedict's Priory in Twin Falls Aug. 10.

A reception was held immediately following the ceremony.

The bride, given in marriage by her father, wore a cathedral-styled gown of crepe featuring bell sleeves and jewel neckline. Miniature self-covered buttons extended down the back to the waistline. The gown was belted with a rope of pearls which extended to the hemline. The gown was made by the grandmother of the bride. Her veil of bridal illusion was edged with Venise lace. She carried a Victorian cluster bouquet of white and blue cushion pompoms accented with ivy.

Lisa Toler, sister of the bride, was maid of honor. Bridesmaid was Roseann Brausen, sister of the bridegroom.

Best man was Jon Koefod and groomsmen were Ron Myklebust — both friends of the bridegroom. Ushers were Jim Brausen and Jim Kuykendall.

Mary Gustavson presided at the guest table which was skirted in a ruffled alencon lace cloth accented with a blue plumed pen and a floral arrangement of blue and white pompoms and leather leaf. Blue and white topiary trees lined the entrance to the chapel.

The wedding party greeted guests before a background of wedding bells and blue satin streams caught with a white love dove.

The bride's table highlighted the decor. It was covered with a white taffeta skirt topped with white embossed satin and blue satin bows. The table was centered with a four-tiered wedding cake decorated with blue star flowers and double hearts and topped with a silver Christogram. The cake was flanked with floral arrangements of blue and white pompoms and ivy.

Quartet tables were covered with white nylon lace over blue and centered with bridal baskets of fern and pompoms.

Refreshments were served by Mrs. Ronald Stephenson, aunt of the bride, and Marilyn Olmstead, friend of the bride. Gifts were arranged by Sandra McConnell and Maggie Brausen.

After a wedding trip to Priest Lake, the couple will reside in Boise.

### Cookbook Available For Aged

**NEW YORK (UPI)** — How would you peel a potato, slice a tomato, or open a box of corn flakes — using just one hand?

For millions of American homemakers — an estimated one in 10 — such challenges are a three-times-a-day occurrence as they attempt to cook for themselves and their families.

More than 12 million handicapped homemakers have arthritis. Others, in wheel chairs, suffer from the after-effects of polio, strokes, accidents.

Some have a loss of feeling in the hands which, for safety's sake, must be sensitive to hot and cold in the kitchen. Many can't see well — or at all.

**Book Offers Solutions**

A new book, "Mealtime Manual for the Aged and Handicapped" (Simon & Schuster Inc.) offers solutions for the handicapped homemakers.

From the institute of rehabilitation medicine at New York University Medical Center, the book is dedicated "to those stalwart homemakers who, although limited by physical problems, are unbounded in their ability and love in caring for their families."

Judith Klinger directed research programs carried out under a grant from the Campbell Soup Fund. The resulting helpful hints for the handicapped were two years in the making and testing.

The research group also included medical advisers, a home economist, a bio-engineer, an electrical engineer and a graduate engineering student.

## Marsh Family Has Reunion in Hagerman

**HAGERMAN** — Descendants home of Mr. and Mrs. Mel Boise, Hagerman, Rupert, of Mrs. Flossie Marsh and the Nelson. Thirty family members, including 14 great-grandchildren, gathered from San Jose, Calif., to attend the reunion recently at the late Howard Marsh held a family reunion recently at the

## Miss Sharp, Edwards Exchange Promise

**FILER** — A candlelight wedding Aug. 1 in the Twin Falls Nazarene Church, united in marriage Lynda Louise Sharp, daughter of Mr. and Mrs. Francis Sharp, and Danny Duane Edwards, son of Mr. and Mrs. Don Edwards, Twin Falls. The double ring ceremony was performed by Rev. Jack

Weller, assisted by Rev. Fred Hills, Jerome, before a background setting of a candle arch highlighted with a wedding bell, and two candelabra decorated with white gladioli and blue chrysanthemums. The aisles were marked with blue ribbon bows.

The bride, escorted by her father, wore a Bridal Original gown of peau de sole which featured a Sabrina neckline enhanced by beaded and scalloped Chantilly lace imported from France. The short sleeves were of the same lace and the empire line of the gown swept into a lace-encrusted scalloped chapel train.

Her elbow-length veil and butterfly face veil of English nylon illusion were held by organza petals enhanced with pearls and crystals. She carried a crescent bouquet of white roses, blue carnations and ivy. As she entered the church she presented two of the roses from her bouquet to her mother and her future mother-in-law.

The bride wore a string of pearls her mother wore at her wedding and carried a lace-edged handkerchief belonging to her grandmother, Mrs. Faye Sharp.

Her attendants were Trisha Sharp, sister of the bride; Barbara Sharp, Nampa, sister-in-law of the bride; Vicky Kirkman, Twin Falls, cousin of the bride; Sherry Rynerson, Nampa, and Midge Fisher, Filer.

Kathy and Sandy Sharp, twin cousins of the bride, were candlelighters. Janie and Christine Reynolds, Boise, were flower girls and carried white wicker baskets filled with pink rose petals.

Don Edwards, father of the bridegroom, was best man. Groomsmen were Steve Sharp, Nampa, brother of the bride; Mark Handy, Portland, cousin of the bridegroom; Darrell Edwards, Blackfoot, cousin of the bridegroom; and Ken Reed, Hazelton, Nick Schroeder, Buhl, was ringbearer.

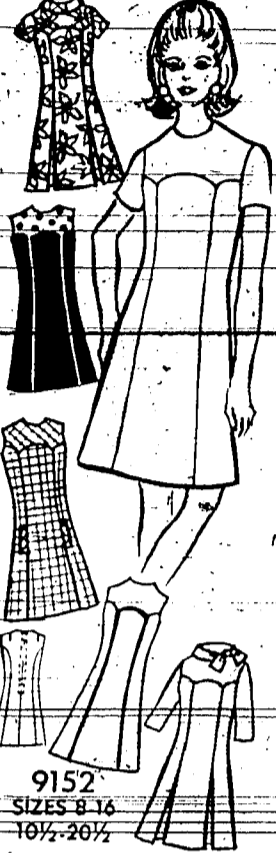

Hubert Hendrix, Twin Falls, was soloist and was accompanied by Karen Korkoide, Seattle, Wash., cousin of the bride, who played the traditional wedding music.

Debbie Sharp, cousin of the bride, was in charge of the gift book. In charge of gifts were Mrs. Garth Kirkman, aunt of the bride; Marty Edwards, Phoenix, Ariz., cousin of the bridegroom; and Anna Coxen, Twin Falls.

Mrs. Gordon Schroeder, Burley, aunt of the bride, was hostess for the reception which was held in the fellowship hall. She was assisted by Mrs. Lois Hudson, Buhl, aunt of the bride.

MR. AND MRS. DANNY D. EDWARDS  
(Shig Morita photo)

The bride's table was covered with a white silk cloth over a nylon flounce and flanked by spiral candelabra decorated with blue and white flowers. The four-tiered wedding cake was decorated with tiny sugar bells and blue roses. It was surrounded at the base with greenery and blue-and-white roses.

Mrs. Faye Sharp and Mrs. Jennie Fields, Twin Falls, grandmothers of the couple, cut and served the cake. Mary Sharp, aunt of the bride, served punch and Mrs. Evelyn Edwards, Phoenix, aunt of the bridegroom, presided at the coffee service.

The bridegroom's table was covered with a hand-crocheted

cloth made by the bride's grandmother. Mrs. Edna Handy, Portland, Ore., aunt of the bridegroom, served the bridegroom's cake and distributed rice bags.

After a short wedding trip to Jackson Hole, Wyo., and Yellowstone National Park, the couple now resides in Twin Falls. Mrs. Edwards is employed as a legal secretary at the law firm of Kramer, Plankey and Meehl. Mr. Edwards is employed at KMVT.

The bridegroom's parents hosted a rehearsal dinner in the fellowship hall of the church for the bridal party.

Out-of-state guests attended from Oregon, Washington and Arizona.

### Organ Recital Presented

**BURLEY** — Robert D. Hamblen presented Wendy Whitesides in an organ recital at his studio in Burley.

Miss Whitesides is the daughter of Mr. and Mrs. Rulon Whitesides, Heyburn. She is a student at Minico High School and is active in student activities.

Included in the recital

selections were "Come Thou But Near," Bach; "Air," Bach; "Come Sweet Rest," Bach; "Rosery," Nevin; "Hungarian Rhapsody," Liszt; "Etude," Chopin; "Cachita," Hernandez, and "Piesta Samba," Bandroff. At the conclusion of the recital, guests were served from the tea table, with Mrs. Whitesides presiding.

### Notice!

The Times News finds an increasing number of stories appropriate for its women's pages. Because of the premium on available space stories must be selected on the basis of currency.

All stories pertaining to the women's pages must be brought to the Times News no later than two days after the meeting to be considered for publication. Wedding pictures and stories must be in within two weeks of the wedding. As in the past, a \$5 fee will be charged for two-column wedding pictures and a \$2.50 fee for en-queue pictures.

## Valley Couple Weds In August Rites

**KING HILL** — Lorraine Carnahan, daughter of Mr. and Mrs. Karl P. Carnahan, Glens Ferry, became the bride of Gary Lee Arbaugh, son of Mr. and Mrs. W. I. Arbaugh, Glens Ferry, in rites Aug. 15 at the King Hill United Presbyterian Church.

The bride was honored recently by a tea hosted by Mrs. Gloria Matkovich and a shower given by Mrs. Martin Woodward and Mrs. Mildred Carnahan at the King Hill church.

The double ring ceremony was performed by Rev. Edward Bawden before baskets of gold and white chrysanthemums and candelabra. The church was decorated with gold and white streamers and white bells.

The bride, given in marriage by her father, wore a white crepe, floor-length gown with a re-embroidered lace bodice and appliques, a long crepe train and lace-trimmed chapel-length veil. Her bridal bouquet was of white chrysanthemums, carried on a Job's-Daughter's Bible. The lace was handmade from the Azore Islands.

Julie Carnahan, sister of the bride, was maid of honor and Mrs. Roger Barker, Lewiston, was bridesmaid.

Larry Arbaugh, brother of the bridegroom, Twin Falls, was best man Terry Woods, Hammett, was an usher.

Michael Maxwell, Boise, was ringbearer and Mylinda Maxwell, Boise, was flower girl. Both are cousins of the bride. Barbara Wertz, Glens Ferry, played the background music. After the ceremony a reception was held in the church parlors.

The bride's table was covered with a white linen cloth and centered with a three-tiered wedding cake. It was decorated with gold roses and lilies of the Valley. The top layer was supported by three inverted champagne glasses. The glasses had been a first anniversary wedding gift to the bride's mother by her father. A miniature bride and bridegroom stood beside a glass column on the top of the cake. The cake was baked and decorated by Mrs. Roy F. Scott, Mountain Home.

Linda Silva, Boise, was in charge of the guest book. Mrs. Sherman Stump, Gooding, aunt of the bride, cut and served the cake. Mrs. Delbert Decker, Fairfield, aunt of the bridegroom, served punch. Mrs. Ted Lisle, King Hill, aunt of the bridegroom, was seated at the coffee service. Mrs. Gloria Matkovich, Mrs. Terry Woods and Mrs. Marshall Howsden, Wendell, were in charge of the gift table. Gold chrysanthemums decorated the rooms.

The couple took a honeymoon trip to Banff and Lake Louise, Alberta, Canada. They reside in Glens Ferry.

Guests attended from Boise, Lewiston, Jerome, Gooding, Wendell, Twin Falls, Buhl, Nampa and Riverside, Calif.

# Dear Abby

**DEAR ABBY:** About six months ago I won a wig at a raffle at our church bazaar. It was a good one that would sell for \$65 in any store. I tried it on and my husband said I looked like Merv Griffin. Well, I never wore it.

One day a friend of mine came over and asked me what I did with the wig I had won. I told her it was still in the box. She asked if she could try it on. We both thought it looked great on her. Then she asked if she could take it home and show it to her husband, so I said sure.

The next morning she called and said she'd give me \$35 for it, which was a good deal for me because I only paid a dollar for the raffle ticket I won it with.

My friend kept the wig and paid me the money. A deal, right?

Well, three months later she called and asked if she could bring the wig back. She said she wore it once and her husband decided he didn't like it on her, and she has no use for it.

Do I have to take the wig back? **MAD**

**DEAR MAD:** No. Tell your friend to send it to Merv Griffin. If he ever flips his wig, he'll have a spare.

**DEAR ABBY:** My problem is my husband and his foolish ways.

We have five children, ages 3 to 17. We can't put a light on to go to the bathroom at night. [It's "wasting electricity."] If the telephone rings after 8 p. m. [It's usually for one of the kids] my husband wants to tear the phone out of the wall. [He did that twice.]

He locks his dirty clothes in his tool box in the cellar so I can't wash them. Once he took a bolt out of my washing machine so I couldn't use it. [He says the machine uses too much hot water.]

Our 13-year-old forgot to put the scissors back in its proper place, so my husband became so furious, he smashed a beer bottle against the wall.

Once he hurt the youngest one so bad I had to take him to the doctor to get him checked. He also hurt the 13-year-old bad enough for a doctor's care. I should have told the doctor how these kids got hurt but I didn't. Now I regret it.

Is there anything you can do about my problem? This man is murder to live with. **NO NAME, PLEASE**

**DEAR NO NAME:** Your husband's ways are more than "foolish." They are symptoms of a sick, and potentially dangerous man. See that he gets help before he does serious bodily harm to you or to one of the children. It's not too late to report him now. I sincerely hope you do.

**DEAR ABBY:** For the last year and a half my son has been keeping steady company with a girl I'll call Judy. The other evening Judy and her mother paid me a visit. I had no idea they were coming, and it just so happened that I was on the telephone talking to my daughter at the time. I must admit we talked for some time, I would say it was about an hour or so.

Well, my son's girl friend says that she will never come to my house again—that I was rude, inconsiderate and insulting! She said I should have cut the conversation with my daughter short, and entertained her and her mother.

Abby, she really hurt me with those words. I don't feel that I was in the wrong because there were other members of the family in the house to keep Judy and her mother company while I was on the phone.

I am terribly upset over this and wish you would tell me what I should do about it, if anything. **UPSET**

**DEAR UP:** I think you owe Judy and her mother an apology. An hour is a long time for visitors to be entertained by "other members of the family" when they came especially to visit with you.

**DEAR ABBY:** We thoroaly agree with "SICK OF HYPOCRITES." Invariably, when an "X" rated movie is shown in our theater, some people will sit thru it twice, and then come out and complain about how disgusting it was. Some even have the gall to ask for their money back.

We feel that the most "disgusting" thing about an "X" rated film is the kind of people who come to see them. **THEATER OWNER**

What's your problem? You'll feel better if you get it off your chest. Write to ABBY, Box 69706, Los Angeles, Cal. 90069. For a personal reply enclose stamped, addressed envelope.

## Family Meets

ALMO — The John S. Rooker family reunion was held recently at Reno, Nev., with Mrs. Bessie Fairman and family in charge of arrangements. The Rookers are former Albion residents.

**—WEDDING GUESTS** at a reception in honor of newlyweds, Mr. and Mrs. Merl Egbert, Friday night at the LDS Church on Maurice Street, refused to eat this elaborately decorated wedding cake. Noting it was much too pretty to eat, guests were very satisfied to eat the sheet cakes. Made by Mrs. Alden C. Arrington, Ogden, the live-tiered cake featured an elaborate stepping-stone staircase to the top tier holding a perfect replica of the Idaho Falls LDS Temple where the couple was married. The base of the cake featured five heart-shaped cakes accented with blue roses, leaves and lattice fans. Each tier was completely lighted by white Italian lights nestled in the frosting and decorations. The bride is the former Kathlyn Barrus, daughter of Mr. and Mrs. Gene Barrus. The bridegroom is the son of Mr. and Mrs. Francis M. Egbert Jr.

1/2 cup oil  
3 eggs, beat until fluffy  
2 cups grated carrots  
1 cup nuts  
3 teaspoons vanilla  
1 small can pineapple and juice  
3 cups flour  
2 teaspoons cinnamon  
1 teaspoon salt

The Times-News will pay \$5 each week for Magic Valley Favorites. If you have a favorite recipe, just mail it to the Recipe Department, Women's Page Editor. The recipe becomes the property of the Times-News and cannot be returned.

## Omicron Unit Meets

TWIN FALLS — The Idaho Omicron Chapter of Beta Sigma Phi held its first meeting of the sorority year at the home of Mrs. Dave Gietzen, with Mrs. Jack Jardine, president, presenting the cultural.

Mrs. Jardine introduced Mrs. Lynn Hendrickson who gave a demonstration on making Christmas novelties.

Other officers for the group include Mrs. Gietzen, vice president; Mrs. Steve Swope, recording secretary; Beverly Richardson, treasurer; Mrs. Bob Pierson, librarian; and Mrs. Lawrence Vecera, City Council representative.

Appointments to standing committees were read and reports given on the "come-as-you-are" coffee hour and the patio party held during the summer months.

Members decided to sell tote bags as the unit's, ways and means project. Yearbooks were distributed.

The next meeting is set Sept. 9 at the home of Mrs. Steve Swope. All members are asked to bring needed supplies as Mrs. Swope will demonstrate the art of decoupage.

# Interstate Nearing Completion at Bliss

By CHARLOTTE BELL, Times-News Correspondent  
The section is expected to be completed and signs are being placed. This new section will eliminate Henderson hill between King Hill and Bliss. Approaches leading off and onto the new section are being completed.

## Speaker Calms Recession Fears

By LIZ BOLTON, Times-News Correspondent  
SUN VALLEY — The economy of the United States is approaching conditions not unlike those of the early 1930's and there has been some suggestion that our economic and financial system may deteriorate further, according to Stuart Silloway, president Investors Diversified Services, Inc.  
Mr. Silloway was concluding speaker for the Rocky Mountain Regional Conference of the IDS at Sun Valley Tuesday evening. He said, "I think this fear may be important enough to put into perspective as there is just no way it can happen." Explaining his statement, he noted that the nation does not have a large portion of total bank credit in the stock market as it did at that time; speculation in commodities is on a very small scale; bank failures and loss of deposits is not likely; and consumer credit, in general, is related to ability to pay and is extended on a more intelligent basis than previously.  
He also added that individual income which is so vital is well protected, through unemployment insurance, social security, Medicare, and a wide range of pension and fringe benefits.  
"There is no doubt," he added, "that the U. S. economy is now passing through what amounts to a moderate recession. The recession has in all respects been more moderate than any others of the postwar period thus far, and chances are it will continue to be moderate," he said. "Inflation, however, the number one enemy of economic stability, remains a serious problem. It encourages borrowing, puts great strains on lending and credit and discourages saving, and will undermine international confidence in the dollar."  
To succeed, the fight against inflation must involve both fiscal and monetary restraint, he said, and added that Uncle Sam must be very "careful of his budgetary deficits and the Federal Reserve Board must keep the banking system liquid."  
The conclave concluded Wednesday afternoon after a series of business seminars.

THIS SECTION of Interstate 80N, between King Hill and Bliss, is expected to be completed within the next few days, according to E. D. Tisdale, Boise, deputy state highway engineer. Approaches to the stretch are being completed and signs are being placed on the nine-mile stretch which cost an estimated \$4.5 million.

## Ketchum Refers Zoning Request

KETCHUM — Ketchum city councilmen have referred a request for a zoning variance to the city's planning and zoning commission after meeting with petitioners the past two nights. The council Monday night denied a request for a variance to Resort Development Corp. which would allow the firm to build 10 more minicondo units than originally approved in the Willowood Development on Cottonwood street in Ketchum.

## Boardings Highest In August

TWIN FALLS — More passengers — a total of 2,714 — boarded Hughes Air West planes at the Twin Falls City County Airport during August than during any other month since the airline was established. The announcement that a boarding record had been set was made by Don Cooper, Idaho sales manager for the airline, as he met with members of the airport commission Tuesday. He said the new record was 263 above the previous high mark for a 30-day period which was set in June of this year. Cooper said advent of the jets into Twin Falls was "the reason for the big passenger increase at a time when below-record loads were normally anticipated." He said 2,786 pounds of air-mail were carried out of Twin Falls during August as well as 53 pounds of surface (first-class mail), 2,110 pounds of express and 79,791 pounds of air freight.

## Jaycees Sponsor Program

BURLEY — The safe driving program sponsored jointly by the Jaycee Clubs of Burley and Rupert, and local law enforcement is now under way. The Jaycees initiated the project as a measure to combat the extremely high rate of auto accidents in Cassia and Minidoka counties. For the next 12 months the police officer may be looking at the driver, not for the law he may have violated, but for the safe job he or she is doing of driving. One driver will be selected each month and presented a safe driver's award and honored at a dinner along with the officer who nominated the driver. The project is also intended to bring better understanding between the police officer and the motorist.

## Boise Firm Bids Low On Work

BOISE (UPI) — The Idaho Department of Highways said Tuesday Western Construction, Inc., Boise, was apparent low bidder of three firms for work on a project in Blaine County. The firm bid \$1,075,093 to construct a roadway and bridges on eight miles of State Highway 68 between the junction of U.S. 93 and Picabo and to construct a rest area roadway and other work at the Timmerman Rest Area at the junction of U.S. 93 and State Highway 68.

## Improvements Made At Hailey Airport

SUN VALLEY — Pilots flying into the Friedman Memorial airport here now have much better facilities. Improvements which began early this summer were near enough completion that the field was opened Monday. The field now has a paved runway 6,500 feet long and 100 feet wide which permits corporate and private jets to take off fully fueled at any time of the year, according to airport officials. There is sufficient ramp parking for private planes, scheduled aircraft and transient jets. The tie-down area has been entirely paved and fencing which will make the ramp safer is being installed. Officials say this is now an excellent landing strip and the airport has the added advantage of being at the edge of the mountains so it can be approached from both east and west over the high plateaus without aircraft having to cross high ranges of mountains. The airport is jointly operated by Blaine county, Hailey city and the state department of aeronautics.

## Richfield Elects Officers

RICHFIELD — Richfield High School student body and class officers were announced today. Chris King is student body president; David Brush, vice president and treasurer; and Peggy Ralls, secretary. Senior class officers are Mark Dixon, president; Brent King, vice president; Sandra Brauburger, secretary; Jeff Ward, treasurer; Dale Crowther, representative, and James Thomas, faculty adviser. Scott Ward was chosen president for the junior class Colleen Brown, vice president; Carol Lynn Sanders, secretary; Charlotte Davis, treasurer; Bill Patterson, representative, and P. C. Ross, adviser. Liann Edwards is sophomore class president; Wade Allred, vice president; Kelly Pridmore, secretary; Dawn Walker, treasurer; Clyde Paulson, representative, and Charles Buttane, class adviser.

## Family Moves

SHOSHONE — Mr. and Mrs. Douglas Rose and daughter will move to Provo where he will enroll at Brigham Young University. He has completed a four-year tour of duty with the Air Force, and his wife and daughter spent the past two years with him in Japan and Korea. His parents are Mr. and Mrs. Florin Rose, Jerome, and her parents are Mr. and Mrs. D. H. Hansen, Shoshone.

## Cassia Fair Trophies Given

BURLEY — Trophies were presented to fair float winners during the Burley Chamber of Commerce noon luncheon at Bryan's Cafe. Guest speakers were Ken Ward and E. L. Barry, both Idaho Falls, with the national reactor testing station. Larry Stonely, chairman of the judges for the Cassia County Fair parade, presented trophies to the float winners. The awards were specially designed with the theme "100 Years of Progress in Cassia County" in mind. They are walnut plaques holding a metal gold-colored covered wagon, a wooden outline of the state of Idaho with Cassia County boundary engraved and the official seal of the 100 Years of Progress. Receiving the trophies were Mrs. Gwen Woodbury, representing Springdale CUB Scout Pack No. 21, theme float winner; merit winners were Cassia National Bank, Rex Gardner accepting; Overland Shopping Center, Dean Draper accepting; Zion Lutheran Church, Bill Jones accepting; Cameron Sales Inc., Rupert, John Cameron received the Trophy and Idaho First National Bank, Rupert, Jerald Kraus, accepting. Mr. Barry gave a brief background of the national reactor testing station which was established in 1949 as a place where the U. S. Atomic Energy Commission could build, test and operate various types of nuclear reactors, allied plants, and equipment with maximum safety. Presently there are 25 reactors in operation and 25 reactors on standby. Mr. Ward reported that six buyers work under his supervision and some of the items which the reactor station purchases include plastic bags, computer data processing, cleaning supplies, linen, repair of office machines, and clothing. Other items include office equipment, printing equipment, fittings, pipe and tubing, lumber, plumbing supplies, power transmission, welding gauges, tools for hand, machine and power; wire rope, automotive parts and equipment, bearings, belts, cement, fuel, diesel, gasoline, kerosene and burner oil, glass all types; generators, diesel and gasoline powered; electric lamps and food.

## Puerto Rico Governor Issues Plea

PORTLAND, Ore. (UPI) — Puerto Rico's Governor Luis Ferre pleaded for statehood today before the American Legion. In a speech prepared for delivery before the legion's 52nd national convention, he declared: "We still have a long way to go in getting the full benefits due us as American citizens. Governor Robert Docking of Kansas told the convention Tuesday that small groups of radicals in most states are bent on destroying the "foundation and moral fiber" of the nation. "I'm losing patience with this group," he said. "I think it is time we started listening to the majority of our nation's youth who are talking not about rights alone, but rights coupled with duties and responsibilities."

## Jamboree Set

STANLEY — A number of top-flight fiddle players will participate in the second annual Old-Time Fiddlers Jamboree on Sept. 12 at Stanley. The Stanley Chamber of Commerce sponsors the annual event, designed to attract participants and viewers from far and wide. Events at the convention went without incident although a youth group called the People's Army Jamboree held a second protest parade — this one against war and racism. Oregon's Governor Tom McCall earlier had asked legionnaires to "expand and enrich the dialogue between generations."

Jerome lawyer to seek attorney job

## Ecology Plans Sought

BOISE (UPI) — Environmental quality has top ranking as a health planning priority, the Executive Committee of the governor's Advisory Council on Comprehensive Health Planning learned Friday. Council members voted on 1971 health priorities during a full meeting of the 31-member group at McCall in July but complete tabulation of the vote was not revealed until a meeting in Boise Friday. Other health planning priorities established as important by the council vote, in order of importance, are manpower training needs, area-wide planning, public health districting, rural health service, low-income needs, establishment of a health information center, state health goals and family planning.

## Burley Man Cited After Collision

BURLEY — Richard M. Funk, 20, Burley, was cited for following too closely after a two-car accident at 12:05 a. m. Sunday at the corner of Overland Avenue and 13th Street, police report. Walter O. Gaved, 27, Pocatello, was driving a 1969 Ford north on Overland Avenue and was stopped at the intersection for a traffic light; Funk was driving a 1960 Mercury north on Overland Avenue and his car bumped the rear of the stopped Ford. Damage was \$500 to the Ford and \$150 to the Mercury. Linda Quamstrom, and Merlin Dorsey, both Rupert, were passengers in the Gaved vehicle and Ken Sachler, Moscow, and Debora Taylor, Aberdeen, were passengers in the Funk car.

## Car Is Ruined In Crash

SHOSHONE — A 1955 Oldsmobile belonging to Mrs. Nora Ann Cook, Shoshone, and driven by her son Harold, 14, was demolished at 4 p. m. Sunday when it overturned one mile from the main highway on the Shoshone city dump road. Chief of Police Bill Anderson said the boy was traveling too fast for the gravel road and lost control of the vehicle. He escaped with scratches and bruises, and two other teenage boy passengers were not injured.

## Jerome Lawyer To Seek Attorney Job

JEROME — Gene Fredericksen, Jerome lawyer, announced today he will seek election as Jerome county prosecuting attorney in the Nov. 2 general election as an independent candidate. He will oppose S. A. Kolman, Republican candidate who polled 781 votes in the Aug. 4 primary. Fredericksen said he has decided to run for the office on the basis of number of votes he received as a write-in candidate in the primary election. The independent candidate received 312 votes, 119 of which were from Democratic voters and 193 from Republicans. He has a bachelor of science degree in agricultural economics and a law degree from the University of Idaho. The candidate is a member of the Fifth Judicial district, Idaho and American Bar Associations. He is married to the former Judith K. Tuttle, Caldwell, and the couple has two children.

Today's Market And Financial Report

Bemis Co. Successful Investing Acquires

MINNEAPOLIS, Minn. — Bemis Company, Inc. through its wholly owned subsidiary, Western Litho Plate & Supply Co., has completed the acquisition of Commercial Litho Plate Graining, Ltd., of Montreal, Canada.

While this may continue to depress shares over the near term, long-term prospects should not be severely penalized since the company's basic patent on Darvon expires in 1972.

Platinum, soft, 99.5 five 1130-135.00. Quicksilver \$360-370 76-1b. Tin, N. Y. prompt deliver 177.25c 1b.

**QUICK QUIZ**  
 Q—What is the meaning of the expression "the five-foot shelf"?  
 A—The expression came into usage from a song adopted for the I.W.W. movement. Originally a hobo, as long as it promises the down-trodden that after a life of eating hay, they will have their pie in the sky.  
 Q—What was the first locomotive to travel at a speed of 100 miles per hour?  
 A—In 1893, Locomotive 1099 made the world's first 100 m.p.h. run.  
 Q—What set of books is commonly referred to as "the five-foot shelf"?  
 A—The Harvard Classics, compiled by Charles Eliot.  
**Pardoned Pirate**  
 Jean Latitte, buccaneer of Louisiana, by U.S. Federal Court granted a presidential pardon for his past crimes. He aided Andrew Jackson in the successful defense of New Orleans in 1815.

Baseball scores table with columns for team names and scores. Includes games like Philadelphia vs Chicago, Cincinnati vs Cleveland, etc.

# SPORTS

## Adderley Swapped to Dallas By Green Bay

GREEN BAY, Wis. (UPI)—The Green Bay Packers Tuesday swapped Herb Adderley, their talented but disgruntled cornerback, to the Dallas Cowboys for center Malcolm Walker and defensive end Clarence Williams.

## Russians, U.S. Meet In Finals

TURIN, Italy (UPI)—The United States beat Italy 95-36 Tuesday night to join the Soviet Union as the only undefeated teams in the basketball finals of the sixth World University Games.

Algeria, playing politics instead of basketball, was disqualified for refusing to meet Portugal in a consolation round game.

The Americans, paced by Indiana's George McGinnis's 21 points had trouble containing the Italians in the opening half but drew away with fast break tactics after intermission.

## Clay Says He Can Be Contender

ATLANTA (UPI)—Former heavyweight champion Cassius Clay, here for eight rounds of exhibition boxing against two opponents, said Tuesday he could be a serious contender for the title again within a month.

Clay, who prefers to be known as Muhammad Ali, said he would have two and "maybe three" opponents in the exhibition Wednesday night at the Morehouse College gymnasium.

During a 10-minute airport news conference when he arrived here from Miami, Clay said he could get ready to seriously challenge Heavyweight Champion Joe Frazier in four weeks. A title fight had been "talked" for Oct. 25.

Walker gives Green Bay needed depth in the offensive line. Williams could be used to spell Bob Brown at defensive end, or give Brown a chance to play at defensive tackle, where he is more at home.

Adderley was miffed at not being named to the UPI all-pro team and at not being named to the Pro Bowl squad. He accused the Packer coaches of not recommending him for the Pro Bowl, and also lashed at Wayne Robinson, then the Green Bay secondary coach, accusing him of unfairly criticizing the players under his jurisdiction.

Adderley vowed to retire rather than play for the Packers again, but Green Bay had trouble finding a team which would make a satisfactory trade. The Cowboys made the best offer and Bengtson indicated he was pleased with the deal.

Walker, 6-foot-4 and 249 pounds, was the Cowboys' second pick in the 1965 college draft out of Rice, where he twice won all Southwest Conference honors. Walker, 27, was Dallas' regular center the past two years, although he missed several games with a knee injury.

However, he underwent knee surgery in the off-season and Cowboys physicians gave him a clean bill of health.

East Germany, winner of the last championship held four years ago, was ranked the favorite last time out; the East Germans won the Cox fours, pairs and fours.

## Sanders Rips Carol Mann

GROSSINGER, N.Y. (UPI)—Doug Sanders took care of the Women's Liberation Movement all by himself Tuesday when he overwhelmed Carol Mann by 12 strokes in a head-to-head 18 hole match for a purse of \$2,500.

Sanders shot a 37-36-73 over the par 71 new championship course at the Grossinger Country Club and Miss Mann shot a 43-42-85.

Miss Mann, who said before the match she felt women's purses should be increased, kept the match close until the ninth hole when she hit her tee shot out of bounds and came in with a quadruple bogey.

## World Row Meet Gets Underway

St. CATHARINES, Ont. (UPI)—The 2,000 meter Henley course was crowded with rowing shells of all sizes Tuesday as more than 400 oarsmen from 30 nations took their last practice runs before the third world rowing championships get underway Wednesday.

The money poured into the event by the people of St. Catharines built a setup that brought smiles and enthusiastic compliments from the participants. The sun shone, the winds were light, and the South Korean Army's removal of one competitor appeared to be about the biggest problem of the day.

Wolverine Times Changed

HAILEY — Starting times for all Wood River high school home games has been moved up to 1 p. m. instead of the previously announced 2 p. m. reports Coach Bill Bowman. This will affect games with Oakley, Jerome, Filer and Glens Ferry.

## How To Hold False Teeth Firmer, Longer

Do your false teeth slip and embarrass you by coming loose when you eat? You can hold them firmer, longer with FASTEETH™ Denture Adhesive. For your plates, bases, dentures, partials, make-up, make-up, make-up. See your dentist for FASTEETH.

# Timothy T. Is Favorite For Hambletonian

DU QUOIN, Ill. (UPI)—Timothy T. ruled as the solid (5-2) favorite in a field of 35 three-year-old colts on the eve of Wednesday's 45th edition of the Hambletonian trotting classic.

But the weatherman and the size of the field could be important factors in whether Timothy or another takes the winner's share of \$71,815 of the total purse of \$143,630.

The \$143,630 is the largest net purse in Hambletonian history and the field is the largest since 1962.

Rains Monday left the track muddy and it was still drying out Tuesday. The weatherman predicted a 30 per cent chance of rain Wednesday but said any showers would be widely scattered.

Hambletonian post time for the first heat is 2:05 p.m. CDT wit about one hour between heats. Wins in two heats are required for a stake victory.

Timothy T., owned by John Simpson Sr., Hanover, Pa., and driven by his son, John Jr., 27, who could become the youngest Hambo winning driver in history, owns the fastest time, 1:38.45, of any entry.

But his only two breaks this year came on off-tracks. Simpson is hoping that any showers skip Du Quoin. The favorite will race from the No. 9 post position in the first heat. Timothy T. is the son of Ayres, the 1963 Hambletonian winner in the record time of 1:36.45.

Many observers fear that the size and quality of the field lessen the chances of a straight heat victory.

Timothy T's main challenge are expected to come from Vickers Star, winner of the Vickers Turf Cup, and of trotting's triple crown, Speedy Spin and Cleverly.

Muny Women Set Monthly Meeting

A daily tournament will be held Thursday following the regular monthly meeting of the Twin Falls Municipal Women's Golf Association.

Coffee and rolls will be served at 9 a. m. in the clubhouse. Pairings for the competition will be announced before tee-off.

# U.S. Given Little Chance In Its Own National Tourney

FOREST HILLS, N.Y. (UPI)—The United States, titular champion of the tennis world, must veer into an even higher orbit Wednesday and will be hard pressed to make any kind of showing in its own national championship.

Although the Yanks won the Davis Cup this past weekend for the third consecutive year, it will take a major surprise for one of their number to emerge on top in the \$160,000 U.S. Open which begins a 12-day run Wednesday at West Side Tennis Club.

Australia, led by defending champion Rod Laver, boasts the top five men's seeds, Arthur Ashe of Gum Springs, Va., the first Open winner in 1968, is the best-placed American as the seventh seed and Cliff Richey of San Angelo, Tex., is seeded 10th.

# 4 HRs Let Tigers Drop Boston 10-9

BOSTON (UPI)—Four homers, including Jim Price's grand slam and Gates Brown's bases-empty winner in the seventh inning Tuesday night wiped out a seven-run Boston lead and gave the Detroit Tigers a 10-9 victory over the Red Sox.

Jim Northrup also hit a solo homer and Norm Cash a two-run home run in a Tiger barrage that offset a grand slam by Boston's Tony Conigliaro and a solo homer by Mike Andrews.

Ashe and Richey teamed to win all four singles matches in the 5-0 sweep over West Germany in the Davis Cup Challenge Round at Cleveland, but Ashe was limping with a sore left heel at the conclusion of his final contest Monday and Richey, considered better on clay courts than on the faster grass surface he'll encounter here.

**'Super' Match Is Suggested**

MELBOURNE, Australia (UPI)—A "super-tennis match" between Australia's top professionals and the victorious United States Davis Cup team seemed a distinct possibility Tuesday when the Lawn Tennis Association of Australia challenged to meet the U.S. "anywhere, at any time and on any surface to suit Americans."

**'Super' Match Is Suggested**

MELBOURNE, Australia (UPI)—A "super-tennis match" between Australia's top professionals and the victorious United States Davis Cup team seemed a distinct possibility Tuesday when the Lawn Tennis Association of Australia challenged to meet the U.S. "anywhere, at any time and on any surface to suit Americans."

**Yanks 4, Orioles 2**

NEW YORK (UPI)—Home runs by Bobby Murcer and Roy White backed the nine-hit pitching of Fritz Peterson and Lindy McDaniel Tuesday night as the New York Yankees defeated the Baltimore Orioles, 4-2.

**K.C. 4, Angels 0**

ANAHEIM (UPI)—Wally Bunker shut out California on four hits to earn his first victory of the season Tuesday night as the Kansas City Royals parlayed five singles and a fielder's choice into four runs in the seventh inning to beat the Angels, 4-0.

**Rams Acquire Dick Evey**

LOS ANGELES (UPI)—The Los Angeles Rams acquired veteran defensive tackle and end Dick Evey from the Chicago Bears Tuesday in exchange for rookie wide receiver Jim Seymour and veteran safety Ron Smith.

**State Board Sets Meeting On Friday**

Magic Valley football coaches with possible hardships cases to present to the board of control for the Idaho Interscholastic Activities association are reminded the board will meet at 8 a. m. Friday in Boise.

**Tribe 4, Solons 3**

WASHINGTON (UPI)—Mike Paul, back from the minors only four hours before game time, received credit for his first major league win of the season Tuesday night when the Cleveland Indians beat the Washington Senators, 4-3, with the help of Vada Pinson's two-run eighth-inning triple.

**A's 6, Chicago 5**

OAKLAND (UPI)—Second baseman Tony LaRussa scratched an infield hit with the bases loaded in the bottom of the ninth Tuesday night to give the Oakland A's a 6-5 win over the Chicago White Sox.

**Twins, 4-0, 7-1**

MILWAUKEE (UPI)—Harmon Killebrew drove in seven runs, six of them on his 39th and 40th homers of the year and Jim Perry won his 20th game to lead the Minnesota Twins to a sweep of the Milwaukee Brewers, 4-0 and 7-1 in 11 innings.

**Shoemaker Nears Mark**

DEL MAR, Calif. (UPI)—Jockey Bill Shoemaker scored a rickety triple Tuesday at Del Mar that left him just four winners short of the retired John Longden's all-time riding mark of 8,032 winners.

**Twins, 4-0, 7-1**

**A secret recipe. Part of the Beam family art for 175 years.**

Carl Beam, Master Distiller, is just as particular about the ingredients that go into his Bourbon as his wife is about the fruits and vegetables she puts up for winter. That's because Carl is the fifth generation of the only Kentucky family that's made the same Bourbon since 1795.

So the next time you sip Jim Beam, savor its quality and its light taste. That's what we mean when we say it's a 175-year-old family art.

86 Proof Kentucky Straight Bourbon Whiskey Distilled and Bottled by the James B. Beam Distilling Co., Clermont, Beam, Kentucky

He would not have time to try both. He had to get that ninth trick established before Polonius got his heart suit going.

There was no hurry. Hamlet started proceedings by running off the four good diamonds. Polonius had to make one discard. He let the six of clubs go. Poor Yorick sitting East had to find two cards to jettison. A heart came easily but when he played the deuce of spades it looked as if a tooth were being pulled.

It looked to Hamlet as if Polonius surely held the spade ace but he could afford to try out the clubs. A club to the king and a second one back to the ace showed that Yorick had protected that suit thoroughly.

This made it necessary for Hamlet to try the spades. He led toward dummy and had finally won a rubber.

(Newspaper Enterprise Assn.)

## CARD Sense

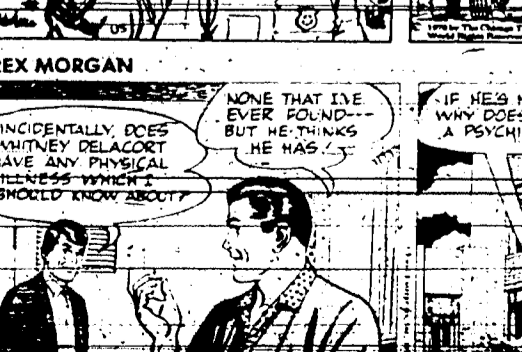

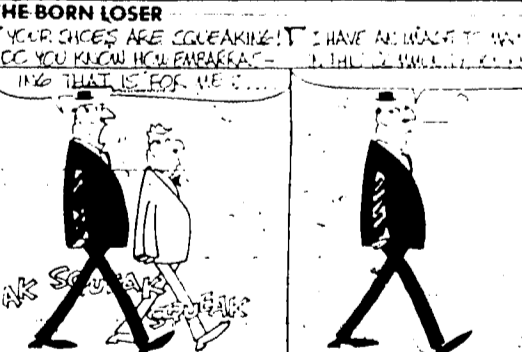

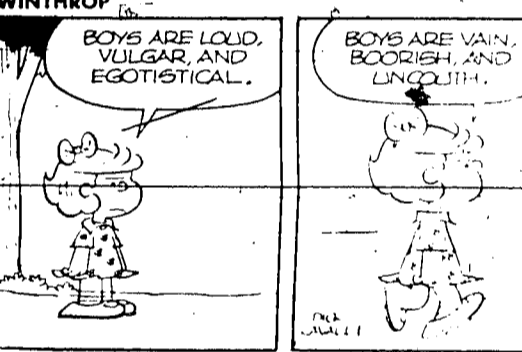

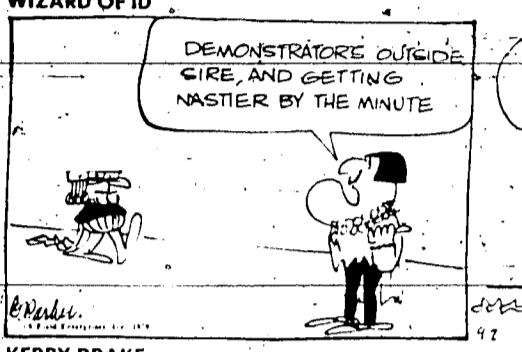

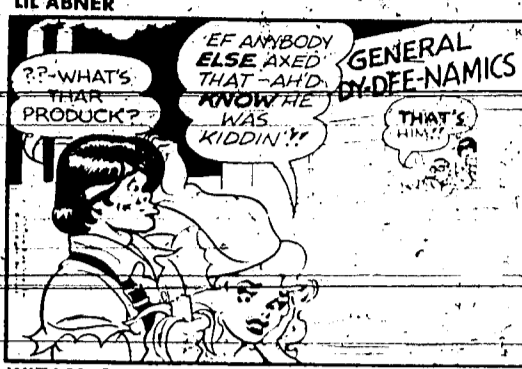

Q—The bidding has been:  
West North East South  
3 ♠ 3♦ 3♥ Pass

You, South, hold:  
♠ A 2 ♥ K 3 ♦ Q 9 8 4 ♣ Q 7 6 5 2

What do you do?

A—Bid four spades. You don't want to commit the hand to either minor suit and a mere bid of four diamonds or clubs is inadequate.

**TODAY'S QUESTION**  
You bid four spades and your partner bids five spades. What do you do now?  
Answer Tomorrow

**LOVE AND WAR**—All over the country now are little dens of polygamous people. One man and his girls. One girl and her men. Or some several of each. Not all are scavengers. Mostly they work, but change jobs often. Mostly they rent ramshackle houses, pretending to landlords their meals like indoor picnics. But they sleep in nests and take their meals like indoor picnics. They form and break up, hitting the matches. Peculiarly enough, jealousy is not what demolishes them. Money does that. As soon as some in such a bunch make decent incomes, their oddball devotions come unraveled. Couples pair off, and disconsolate loners drift away. Then the young fellow from the car wash down the street shows up with his sleeping bag under his arm and the blonde carhop from across-town drops in and forgets to go home. It is only an enormous personal control that allows me to refrain from moralizing about this matter. Aren't you proud of me?

**ESTIMATORS FIGURE** one grownup in every five has gray hair... OR IF YOU DON'T want to refer to a male ladybug as a lordbug, how about a laddiebug? IT'S KNOWN vampire bats kill about a million cattle a year—Sleep on that... SOMEWHERE in the world in the next hour, there'll be 1,870 hailstorms, it's said... THREE OUT OF EVERY 10 men in Sweden hold down two jobs.

**CUSTOMER SERVICE**—Q "So you say no insect can fly as fast as a good racehorse can run, do you? Sir, the female deer hot-fly is known to reach speeds of more than 800 miles per hour. If you know any racehorse that can outdistance one of those little devils, please give me its name and the next running date." A—Come on, mister, don't tell me you're still swallowing that old 800-miles-per-hour claim! It's way out of line. Latest research has proved no insect can keep up a speed of more than 24 miles per hour. Even the best spurr speed is only 36 miles per hour. Lot of good racehorses do better than 40 miles per hour.

**WHAT'S THE MOST misspelled word in English?** Dr. George C. Kyte of the University of California says it's "question." AM ASKED AGAIN for the whereabouts of the most beautiful girls That's easy Seattle, San Francisco and Denver, in that order... IT WAS A MERF 45 years ago that the White House cookbook contended asthma could be relieved by placing muskrat fur on the chest.

**CONSIDER THIS**—All this talk about the national population explosion is peculiar. Wait, figure it out! How long do you think it would take for our head count to hit one billion? Quite some time right? None of our children, their children or children's children will see that, sure enough. Yet even if the census were to show one billion, the population density of the United States would still be less than that of Switzerland today. And who says Switzerland is jampacked? Nobody.

Your questions and comments are welcomed and will be used in PASS IT ON, wherever possible. Please address your letters to L.M. Boyd, P.O. Box 90068, Seattle, Wash. 98199

EXPLAINING THE OPERATION of Jerome's new FM radio station to Mayor Jack Russell, seated, and Leo Alftin, chamber president, is Ronn Thorne, left, station manager. The mayor turned the switch which began operation of the station during

ceremonies Monday. The station KFMA will operate on 3,000 watts at 92.7 on the FM radio dial and will broadcast from 8 a.m. until midnight seven days a week.

## New FM Radio Station Operating at Jerome

By CHARLOTTE HELL, Times-News Correspondent  
**JEROME**—Jerome Mayor Jack Russell tossed the switch that officially put Jerome's new FM Stereo radio station on the air. Also attending the ceremony Monday was Leo A. Alftin, Jerome Chamber of Commerce president.  
 Ronn Thorne is the manager of the new station, KFMA, the first of its kind in the area. It will operate on 3,000 watts at 92.7 on the FM radio dial and will have the same facilities now used by KART radio. The hours of broadcasting will be from 8 a.m. to midnight.  
 The same personnel that now runs KART will operate the new station as it is completely automated, according to Allen Lee, owner of KART.  
 Lee said that many people have asked about commercials on the new station.  
 "Most people have a misconception of FM radio stations because they have listened to them in larger cities in past years and have not heard any commercials. The reason was that no advertiser would buy on FM stations but with the advent of stereo in 1962 the picture has changed to where FM stations are now the leading stations across the country both in listeners and in sales," he added.  
 Lee emphasized that there would be no change in the present programming on KART as it would continue with country music but KFMA would broadcast easy listening popular music with the advent of stereo. The station will also broadcast news and sports.  
 Thorne has been with KART

since 1969 and has worked as sales manager. Before he joined KART Thorne worked for KCVR in Lodi, Calif.  
 Other personnel include Junior Walden and Jim Guest,

account executives; Phil Gray, music and operations director; Jo Rene Lee, bookkeeper, and Karla Hall, traffic. Dick Davis will join the staff sometime this month.

## Drawing Set Soon At Wendell

**WENDELL**—"Every type of blood is the right type," according to Mrs. Harold Holsinger, blood bank chairman for Wendell, in urging all citizens to donate at the blood drawing set for Sept. 16 at the American Legion hall.  
 The drawing will be held from 11 a.m. to 3 p.m. Roger Brown, longtime Wendell businessman, will undergo open heart surgery at the LDS Hospital, Salt Lake City, Sept. 14 and it is estimated he will need up to 14 pints of blood.  
 Mrs. Holsinger notes that it is strongly recommended that all persons receiving blood arrange for its replacement.

The contest originally began with five groups competing, but two dropped out because of medical reasons.  
 Steile added he felt this year's fair was one of the best Jerome has had for some time.  
 "We're already planning next year's fair and rodeo and we think it will be even better than this year's," he said.

## NORTH SIDE

### T.F. Group Takes Honors at Jerome

**JEROME**—The Woodlins, Twin Falls, are winners of the Battle of the Bands held in conjunction with the final day of Jerome county fair. Jim Rupert and Ralph Scott, co-chairmen, announced today.  
 The Twin Falls group received \$150 for first place, with the other two competing groups, the Sun Cycle, Rupert, and Rock Brigade, Mountain Home, each receiving \$25. Judges were Mrs. Nancy Guest, Kathy Rupert, Russel Green and Debbie Bathram, all Jerome.  
 The dance which followed the Battle of the Bands was late in getting started because the judges tied in their scoring and a playoff had to be held.  
 Additional excitement occurred when an overloaded electric circuit on some of the band equipment caused a small fire. Damage was negligible, but the incident further delayed the dance, the chairmen said.  
 John Steile, chairman of the

Jerome County Fair board, said the board felt that not enough was offered to teenagers at the fair and it was hoped the Battle of the Bands would get more youth interested in the fair.

## New Courses Given At Wendell School

**WENDELL**—Several new courses are being taught at Wendell High School this year, and eight new teachers have been added to the staff, according to Will Spalding, principal.  
 Arts and Crafts are being taught at the high school level for the first time this year by Cherril Ground. Also new in the high school curriculum is English for vocational students, under Mrs. Pat Mathers.  
 In addition to Cherril Ground, new instructors include Dorothy Brunt, teaching home economics; Lynn Farnworth, typing and French; Mrs. Pat Ground, English I and II; Richard Moore, junior high math and high school chemistry; Les Snyder, band and choral music at all levels; Lance Wesley, government and history, and Ray Hurd, junior high social studies and physical education, along with coaching.  
 School hours at the high school will be 8:30 a.m. to 3 p.m., with lunch from 12:40 p.m. to 1 p.m.  
 The Wendell elementary school reported that 320 students had enrolled on Monday, the first day of school showing no marked change from the student load last spring, according to Arlin Dennis, principal.  
 The elementary school will include three fifth-grade rooms, and two each of the other grades.  
 The full staff of 14 teachers

### Store Slated Enrollment Up in Camas

**GOODING**—A nationwide chain of women's stores will soon open a branch in Gooding. Mode O Day Stores has leased the former B and J Toggery building and are in the process of remodeling and shipping in new merchandise to stock the store.  
 Company officials said Tessie Mink, Gooding, will be the new manager of the store.

**FAIRFIELD**—Enrollment is up in the high school and down in the grade school in Camas County, according to Supt. Harold Stroud.  
 There are 64 students enrolled in the high school with 62 at the same time last year. There are 141 enrolled in the grade school with 150 at this time last year.
