TEN CENTS

Jet Flights Double

BY O. A. (GUS) KELKER
Times-News Editor

TWIN FALLS — Hughes Air West will double the number of jet flights serving Magic Valley, effective Oct. 25, airline officials said here today.

Announcement of the expanded service was made at a luncheon to members of the Twin Falls Chamber of Commerce board, city and county commissioners and the airport commissioners.

The new schedule, which will double daily jet flights from two to four, was detailed by Mike Murray, Seattle, special assistant to the Air West director of community affairs, and Don Cooper, Boise, Idaho sales manager for the airline.

The men advised local officials that the winter schedule, effective Dec. 19 to coincide with the opening of Sun Valley

for the ski season, presents the possibility of seven jets landing here each Saturday to care for the anticipated Sun Valley traffic.

The daily jet flights will link Seattle with Los Angeles through Twin Falls.

The new northbound flight will depart Los Angeles at 5:45 p. m. for Salt Lake City, Twin Falls (arriving at 9:15 a. m.), Boise, Lewiston, Pasco and Yakima arriving at Seattle at 11:54 p. m.

The new southbound flight will leave Seattle at 5 p. m. for Portland, Boise, Twin Falls (arriving at 8:40 p. m.), Salt Lake City and Las Vegas, arriving at Los Angeles at 11:08 p. m.

Two current daily jet flights through Twin Falls have been in effect since completion of the larger runway at the local field last April.

Nasser Death Destroys Fragile Mideast Order

Defeated Military Leader . . .

CAIRO (UPI) — Egyptian President Gamal Abdel Nasser died of a massive heart attack Monday, leaving the divided Arab nations without a unifying leader and the Middle East in chaos.

Vice President Anwar El Sadat temporarily succeeded Nasser as president, but a major power struggle appeared certain to develop over who will rule Egypt in the future. There was no clear-cut successor to the man who briefly unified a traditionally divided part of the world, using the common hatred of Israel as the focal point to weld the Arab nations together.

El Sadat's first action, even

LATE EGYPTIAN leader Gamal Nasser, right, watches Egyptian troops maneuver along the west bank of the Suez Canal in November, 1968. After gaining world prominence with his successful handling of the Suez debacle in 1956, Nasser's

dream of uniting the Arab world was shattered by the Egyptian army's crushing defeat in the 1970 war. After that, he lost much of his prestige among militant Arabs. (UPI)

2-5 Year Delay Seen for Bridge

By LEE TREMAINE
Times-News Staff Writer

TWIN FALLS — Designs for a replacement for weakened Perrine Memorial Bridge will be delayed for at least two years — and possibly five, State Highway Engineer Ellis Mathes said here Monday.

The board visited Twin Falls and discussed plans and problems concerning the replacement of the Perrine Bridge, along with other highway problems, including the North Five Points and West Five Points projects, with Twin Falls Mayor Frank Feldtman and representatives of the city council and city-county planning and zoning board.

Serious problems of financing cloud any plans for the bridge, Mathes said. Replacement of the entire structure, which is deemed the only feasible solution, would cost at least \$6.5 million for a two-lane structure and \$7.5 million for four-lane design. The entire yearly outlay of the Idaho Highway Depart-

ment for all highway maintenance and construction, exclusive of interstate projects which are in a separate category, equals \$11 million.

Taking two-thirds of the Idaho funds for one bridge is at present impossible; the project can be contemplated only if federal funds are made available, Mathes said.

Unless a federal aid bill is "in the hopper" in Congress by Oct. 29 at the latest, no action will be possible until the next session, Mathes said.

At present the highway department has earmarked \$3.4 million for planning and construction of the Perrine Bridge, Mathes said. Another \$3 million from a federal aid bill would nearly complete funding for the new bridge.

"But it will be at least 1973 before any adequate funding could be made available at the present speed of legislation," he added.

C. Ed Flandro, chairman of the highway board, said the

idea of a bond issue to raise funds has been under consideration. Even with a bond issue, "it would be 1973 to 1975 before we could get under way," he added.

Establishing a toll on all vehicles crossing the bridge is another possibility, Flandro said. The toll, to retire the bonds, authorized only until sufficient funds were available to build the bridge, taking the available \$3.4 million into account.

Mayor Feldtman said one objection to the toll is that many Magic Valley businessmen and farmers, from communities north of Twin Falls often cross the bridge several times a day, and paying a toll twice each trip would work a severe hardship.

Designing of the new bridge has been proceeding gradually, but "we can go only so far until we know we have the money or know where we can get it," Mathes said.

Nasser had used all his political power to bring an end to Jordan's civil strife and was at Cairo airport seeing off one of the Arab league leaders who participated in the truce negotiations when he was stricken. He went to his suburban home, a comfortable but far from luxurious villa, and called doctors. He died three hours later, at 6:15 p.m.

Nasser had not been in good health. Earlier this year he was treated for diabetes and a circulatory ailment while in the Soviet Union, but he appeared to be in good condition Sunday when he greeted Arab leaders at the Arab League meeting.

El Sadat in the announcement over Cairo radio said "the United Arab Republic, the Arab nation and the whole of humanity have lost one of their most precious, most courageous and most sincere men. He is President Gamal Abdel Nasser, who gave up the ghost at 6:15 p.m. today Sept. 28, 1970, as he stood in the arena of struggle fighting for the unity of the Arab nation and for the day of its victory."

The announcement was received with a few seconds of shocked disbelief by the Egyptian people. Then they poured into the streets of Cairo and other cities, towns and villages, some in near hysteria, to mourn his death.

Women tore their hair and scratched their faces. Men wept openly. Many at first refused to believe the news, shouting "Nasser lives. . . Nasser lives."

An estimated two million people jammed the streets of Cairo, with hundreds of thousands gathered around the presidential palace and Nasser's suburban home. In other areas of Egypt, thousands of men and women began moving to railway stations, bus stops and along roads towards Cairo to attend Thursday's funeral.

A number of world leaders also were expected for the funeral. The Soviet Union, which supported Nasser with massive military and economic aid, announced that Premier Alexei N. Kosygin will attend.

And Hero Troops Alerted

HERO TO MILLIONS throughout Africa and Asia, Gamal Nasser was an apostle of revolution with a self-proclaimed mission to unite Arab, African and Islamic nations under Egyptian leadership. Here he is shown being mobbed by supporters on a Cairo street in 1954. The Egyptian leader died Monday of a heart attack. (UPI)

By United Press International

Israel and Egyptian troops along the Suez Canal were reported on full alert today as a precaution against a possible flareup in fighting following the death of Egyptian President Gamal Abdel Nasser. No incidents were reported, however.

Soon after Nasser's death was reported, Egypt announced its men along the canal had been placed on a "maximum alert." The Israeli newspaper Maariv reported today that Israeli troops also had been alerted against any surprise Egyptian attacks.

The well-informed newspaper said Israeli military men do not expect the canal front to flare up anew in the next few days but that it does not exclude localized skirmishes initiated by local Egyptian commanders in forward positions.

It was clear the U. S. middle East peace offensive was dead for the time being. White House officials said Nasser's death was expected to shelve the peace plan perhaps for months to come. And, in Tel Aviv, the Israeli cabinet met in urgent session to consider the new situation.

In Jordan, Nasser in death may have achieved what he had sought throughout his life — a measure of brotherhood and sense of unity between two armies which only last week were locked in civil war. Both sides halted their inflammatory broadcasts and mourned as one.

Both King Hussein and the Al Fatah guerrilla organization issued statements on the death of Nasser, whose last diplomatic effort was to negotiate a peace between the warring parties.

Hussein said "the last efforts of the great deceased were to minister the wounds of his nation inflicted by the Jordan tragedy. But the wounds of Jordan and the wounds of his nation through his loss are beyond any cure and beyond any consolation."

The Al Fatah statement said "Palestine is very unfortunate. It has lost a fighter in the forefront of fighters. . ."

Before Nasser's death was announced, the guerrilla radio had broadcast rejections of some parts of the 14-point peace package that ended the civil war. However, guerrilla leader Yasser Arafat went on the radio to defend acceptance of the overall package, saying it was "to save our people from shelling, hunger, thirst and disease."

Also still in doubt was the whereabouts of six Americans taken hostage during the hijacking of three airliners three weeks ago.

Surge of Donations Opens U.F. Campaign

TWIN FALLS — The Twin Falls United Fund drive for 1971 got off to a fast start Monday with more than one-fourth of the \$95,000 goal — \$25,887.75 — already pledged.

The report was given by Vice-Chairman Jim Sinclair during the kick-off luncheon of the United Fund campaign Monday

noon at the Turf Club. More than 200 U. F. officials, volunteers and representatives of U. F. agencies attended.

The \$95,000 goal is the highest ever set for a United Fund drive in Twin Falls, and it is hoped that the campaign can meet or exceed the goal within a month, Paul Ostyn, serving as master

of ceremonies, told the group.

Kenneth Newman, campaign chairman, reported on the organization of the 1971 United Fund drive, and introduced the division chairmen. Report meetings are scheduled each Friday at noon at the YMCA, under the direction of Roy Roper, Ostyn said.

Committee chairmen present included Ruth Ainsworth, public relations; Marvin Jensen, speakers' bureau; Linda Smith, personnel and organizations, and Bob Seibel, special events.

Dr. Terry Smith, chapter plan chairman, discussed the "loaned executives" program in which businessmen donate two and one-half days of their time for four weeks to full-time soliciting for funds.

Other reports were given by Steve Bancroft, chairman of the agency relations committee, who said the nine member agencies of the United Fund desperately need the additional help given by the annual drive; Darl Glead, executive director, who explained how to fill out donors' cards, and asked that all cards be returned even if a prospect decides not to pledge a donation, and Jack Muldoon, United Fund president, who read a proclamation from Twin Falls Mayor Frank Feldtman, declaring October "United Fund Month."

Mike Gray, president of Twin Falls Title & Trust Co., principal speaker for the occasion, urged all-out efforts by campaigners.

of ceremonies, told the group.

Child's Death Studied

TWIN FALLS — Police Judge Harry Turner has taken under advisement the case of Gerry Lewellyn, charged Sept. 9 in connection with the death of his 22-month-old step-son.

A preliminary hearing began last Friday and ended Monday afternoon with no decision by Judge Turner, pending further study of the case.

Court officials said Judge Turner will delay a few days the decision which will determine if Lewellyn is to be bound over to stand trial in district court.

The suspect was arrested on a charge of involuntary manslaughter. His step-son died of head injuries a week earlier in a Boise hospital.

The preliminary hearing was held behind closed doors at the request of defense attorney Rudolph Barchas.

Fleet Muzzled

ABOARD THE USS SARATOGA (UPI)—President Nixon told the U.S. 6th Fleet today it had helped keep the Jordanian crisis from erupting in a wider war, but he entered its mighty firepower because of the Arab world's loss of Gamal Abdel Nasser.

Soon after awakening, the President conferred at sea with Secretary of State William P. Rogers and Defense Secretary Melvin R. Laird about the implications the Egyptian president's death for the Middle East and the dormant Arab-Israeli peace talks.

Nixon will not interrupt the schedule of his European tour to attend Nasser's funeral in Cairo Thursday—Rogers will represent the United States—but changes were likely in his plans to visit Yugoslavia that day. President Josip Broz Tito was expected to be in Cairo for the funeral.

With today's canceled air and sea exercises canceled, the President stood on the decks on his huge carrier off Naples and told the 25,000 officers and men of the naval armada by radio that they were indispensable for peace in the Mediterranean.

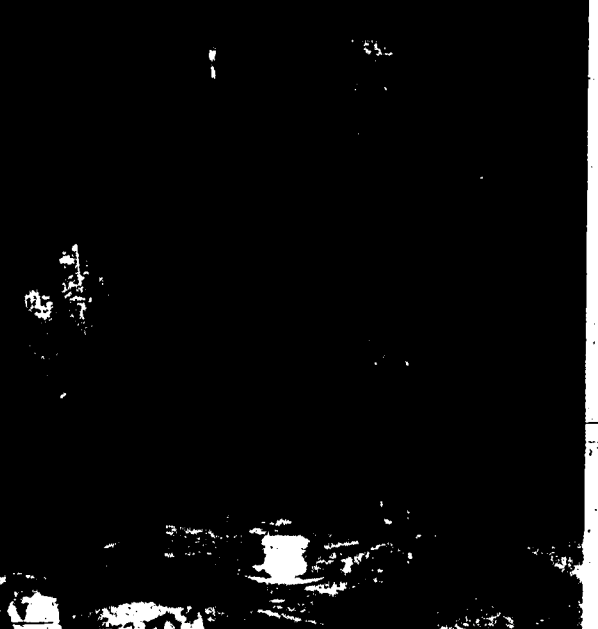

"Power for peace," Nixon declared.

Rogers To Attend Funeral

CAIRO (UPI)—American Secretary of State William Rogers will attend President Gamal Abdel Nasser's funeral, the Egyptian foreign ministry announced today.

A foreign ministry spokesman said President Nixon will not attend but will send Rogers in his place.

The spokesman said the U.S. government notified the Egyptian government of the decision earlier today.

CALLING FOR an all-out effort by United Fund workers is Mike Gray, president of Twin Falls Title & Trust Co., principal speaker at the dinner Monday which kicked off the 1971 United Fund Drive. During the event, it was announced that more than one-fourth of the \$95,000 goal has been pledged. Darl Glead, district Boy Scout executive, is at left. Paul Ostyn, a United Fund director, is at right.

Homemakers' Council Opens Burley Meet

BURLEY — The 21st annual Idaho Extension Homemakers Council convention opened today at the Ponderosa Inn in Burley with 300 delegates attending.

A meeting of the board of directors was held Monday evening prior to opening of the general session which lasts through Wednesday.

The general sessions are being conducted by Mrs. Ralph Geffe, Boise, state president. Welcomes were given by Rupert Mayor Wendell Johnson and Burley Mayor Garis Robertson. Mrs. Leo Becker,

Paul, general convention chairman, introduced district presidents and Mrs. Lucia L. Wilson, Boise, University of Idaho Extension Service, introduced all state board members.

Speaking Tuesday morning were James L. Graves, Moscow, University Extension Service, and Dr. James L. Taylor, president of the College of Southern Idaho, Twin Falls.

Scheduled Tuesday afternoon were four seminars on health, safety, citizenship and public information. A banquet scheduled Tuesday night will feature a speech by Mrs. Keith Blackner, Lyman, Wyo., national Extension Homemaker's Council president.

Wednesday will feature more general and business sessions, with a luncheon and program featuring George Forschler, Burley. The general session concludes after the luncheon, but board members will meet Wednesday afternoon.

New Camp Rite Set Saturday

HAGERMAN — Special dedication ceremonies for a new Scout camp for the Snake River Area Council, Boy Scouts of America, will be held Saturday at 2 p.m.

The camp, located on the old Banbury estate on the Snake River near Hagerman, bears the name of Camp T. E. Roach, after the chairman of the board of Idaho Power Co.

The property was donated to the council in 1967, by the power company during a special camp development finance drive put on by the Boy Scout council.

Development work being carried on by the Scout council for the past two years is nearly complete. A few projects are still underway but far enough advanced to permit camping use by Boy Scout troops. The dedication ceremonies will signify the beginning of the camping program at the new property.

Camp T. E. Roach has been built and developed as a year-round camping facility for scouting groups. Special features of the camp will be a one-half mile nature trail over streams and water falls, through dense foliage with a sample of all native vegetation identified and marked on the trail, archery range, rifle range, Scout craft instruction areas, a four-acre lake for boating and canoeing, Indian artifact digging, fishing and numerous other scouting oriented features.

The dedication ceremonies will include Roach as a special guest and other scouting and community leaders. Special programs will be provided by Scout troops during the ceremonies.

Delegation Announced

FILER — Lawrence Knigge, board member of School District 413, accompanied by Mike Ochsner, Filer high school student body president, and Kris Annis, student body secretary, will attend the White House Conference Oct. 2 and 3 in Boise; Supt. Thomas Turner announces.

Knigge was appointed by Dr. James Taylor, CSI president, as district representative to work with the students at the conference. Information compiled at the sessions will go to Washington, D.C. for study.

VFW Sets Petition Assembly

GLENN'S FERRY — Sixth district Veterans of Foreign Wars posts will meet in Glenn's Ferry Sunday for a district meeting to assemble petitions the veterans group is circulating on Vietnam prisoner of war treatment.

John Price, Twin Falls, district commander, called the meeting for noon in the Glenn's Ferry Memorial Hall and urged all VFW members in the district to attend. Members of the host post in Glenn's Ferry will serve a lunch to be followed by the business meeting.

Sun, Shrubs Aid Wreck

RICHFIELD — Brilliant early-morning sun which obscured drivers' vision was blamed in part, along with shrubbery along the roadside, for a two-car collision Monday at the intersection of Cassia Avenue and Second Street.

City Marshal Lester Johansen said that the collision involved cars driven by Guy Bottles, 66, and Clinton Mull, 25, both of Richfield. There were no injuries, and no citations were given, Johansen said.

mond, Salt Lake City; Rex Engelking, Buhl; Florin Hulse, Murtaugh, and Lawrence LaRue, Wendell. The conclave discussed operational plans for individual school districts.

Hansen Man Accused Of Robbery

TWIN FALLS — A Hansen man was arrested this morning by Twin Falls sheriff's officers and charged in connection with the robbery of a Twin Falls man last Friday.

Jimmy Anderson, charged with robbery, was scheduled to be arraigned today on that charge. He is confined in the county jail in lieu of posting bond.

Morris Tickner told officers last Friday that he had been beaten about the face and robbed of more than \$100 and other items. He said he had been left lying in a ditch near the sugar factory in Twin Falls County.

Collisions At Burley Net Tickets

BURLEY — Burley Police issued citations to three drivers Sunday after investigating three accidents in downtown Burley.

Mary Mendez, 44, Burley, was charged with failure to yield the right of way after her car and a pickup truck driven by Walter G. Roberts, 25, Bqrlay, collided at Sixth Street and Miller Avenue.

Officers said the truck was traveling east on Sixth Street and the Mendez vehicle south on Miller Avenue when the accident occurred.

Police charged Jeannie Peterson, 17, Heyburn, with making an improper lane change after a two-car collision at 7:35 p.m. Sunday at Overland Avenue and 15th Street. Officers said Steven R. Judd, 17, Burley, made a left turn onto Overland about the same time Miss Peterson changed lanes.

Michael J. Priest, 20, Burley, was issued a citation for following too closely after his car and a vehicle driven by Randy John Amen, 17, Burley, collided in front of a drive-in cafe on Overland Avenue Sunday afternoon. Officers said the Amen vehicle made a left turn into the drive-in and was struck in the rear by the Priest vehicle.

Police reported there were no injuries to any of the drivers or their passengers.

Farragut's Promotion David G. Farragut, on Dec. 21, 1864, became the first officer of the U.S. Navy to be promoted to the rank of vice-admiral, according to Encyclopaedia Britannica.

Constitution 'Outdated,' Burley Attorney Declares

BURLEY — Idaho's Constitution was described as "outdated" Monday noon when Burley City Attorney William Parsons spoke to members of the Chamber of Commerce.

Persons urged chamber members to study booklets on the constitutional revision proposal which have been made available to the public by the league of Women Voters and the office of the secretary of state. By being well informed on the subject, Parsons said, people can vote with a conviction when the constitution question is presented to voters on November.

He compared portions of the constitution, written in 1889, with how the document has been

rewritten in its revision. He explained the proposed constitution maintains the three-branched form of government — executive, legislative and judicial.

Ernest Blauer, chamber president, told members the small business administration has a film on shoplifting and bad checks available for viewing by merchants.

SUSPECT in the murder of a Boston police officer is taken from Worcester, Mass., police headquarters after his capture. The murder occurred as a Boston bank was robbed. The suspect is William Gilday, center. (UPI)

Manson Boasted Of Death Feats

LOS ANGELES (UPI)—The same month the Sharon Tate killings occurred, Charles Manson threatened a cowboy at the Spahn ranch and boasted, "Don't you know I'm the one who is doing all these killings?" a state witness testified Monday.

Juan Flynn, a 6-foot ranch hand, testified the incident took place several days after Manson drove off with six other members of his "family" on what the prosecution contends was the night of the killings of Leno LaBianca and his wife. Actress Sharon Tate and four other persons were slain the night before.

Flynn said he was sitting in the kitchen at the ranch, headquarters for the "Manson family," in August, 1969, when Manson entered and ordered three girls to leave.

"He grabbed me by the hair and put a knife to my throat and said, 'You son of a bitch, don't you know I'm the one who is doing all these killings?'" Flynn said he did not believe

Manson and went on eating his supper.

He said Manson put the knife down on the table and said: "Okay, you kill me."

"I told him I didn't want to kill him or do him any harm and he said that if I felt that way I should go down to the waterfall and make love to his girls," Flynn said.

"I told him that if I wanted to contract a case of syphilis or gonorrhea, he would be the first person I would come to see."

Manson and three female codefendants are on trial for the slayings.

As the trial entered its 15th week, Charles "Tex" Watson appeared in another courtroom for arraignment as a fifth defendant in the case.

Watson, who fought extradition from Texas for 10 months, stood mute before Superior Court Judge George Dell and would not even utter his name. The state expects Watson to plead insanity when he finally comes to trial.

Governor To Speak In Burley

BURLEY — Gov. Don Samuelson will be among the speakers at the annual convention of the Idaho Association of County Assessors scheduled for Oct. 6-8 at the Ponderosa Inn.

W. D. Martindale, Halley, president, said Max Yost, Boise, executive director, Associated Taxpayers of Idaho, will speak on the "taxation gap" at the first day's session. Members of the state tax commission will participate in the program as will Jack Simplot, Boise, president of the J. R. Simplot firm.

Rep. William Onweiler, R-Boise, will discuss recodification of revenue and taxation after the luncheon Oct. 7. Jack Harwood, soil scientist, will discuss general soils maps for rural appraising.

Other speakers include Eugene Taylor, Moscow, Latah County assessor, who will lead a discussion on legislation, and Jack F. Farley, Boise, director of the motor vehicle division, department of law enforcement.

Officers will be elected and site for the 1971 convention chosen during the business sessions.

Other officers include A. J. Ryals, Bonners Ferry, vice president; Norton Randolph, Payette, secretary; Winifred Proffer, Idaho City, treasurer, and Vearl C. Crystal, Rigby, historian.

Members of the tax commission are Luther I. Passmore, Caldwell, chairman; Clyde Koontz, Twin Falls; Ewing Little, Kellogg, and Don C. Loveland, Burley.

Andrus Proposes 'Rescue'

BOISE (UPI) — Democratic candidate for governor, Cecil Andrus, said Monday "It is time to rescue the Idaho economy from the clutches of the lackluster Samuelson administration."

During an organizational meeting Andrus warned that Idaho's magnificent heritage of land, resources and people are being endangered by a quarter-century of state Republican rule that has not provided Idaho citizens with the economic and education opportunities to keep young persons in the state and provide Idaho wage-earners with an assured standard of living.

PRESIDENT RICHARD Nixon smiles broadly during his talks with Pope Paul VI during special audience at the Vatican Monday

Auto Industry Strike Cost Tops \$2 Billion

DETROIT (UPI) — Striking General Motors employees received their first strike benefit checks from the United Auto Workers today in the two week walkout that already has cost about \$2 billion.

At the same time, bargainers on both sides of the negotiating table at the General Motors building stepped up efforts to settle local plant disputes—a necessary prelude to agreement on a new, three-year national contract.

UAW President Leonard Woodcock, after a day's absence from formal negotiations, pledged to attend main table bargaining sessions from now until the end of the strike.

About 396,431 workers, including strikers and those laid off in related industries, have been idled by the walkout, which has cost the economies of the United States and Canada an estimated \$1 billion a week.

GM division labor relations directors and top UAW negotiators spent their spare time Monday talking with local bargainers, giving them guidance and helping them break up stalemates.

Agreements have been reached so far at eight of 155 local bargaining units in the United States, but there have been no settlements at the seven strikebound Canadian plants.

Some of the 349,910 workers receiving strike benefit checks, which range from \$30 to \$40, also sought other means of assistance. The UAW's strike fund has a life expectancy of between seven and eight weeks.

The 138,000 strikers in the Detroit and Flint, Mich., area became eligible for public assistance Monday, and several food stamp centers and temporary welfare offices reported overflow crowds.

Canada's national anthem, O Canada, was written in 1880.

U.S. Choppers Launch Attack

SAIGON (UPI) — Helicopters of the U.S. 101st Airborne Division attacked a patrol in mountains west of Da Nang and killed 23 Communists after calling in air strikes, the U.S. Command said today.

Communications from Phnom Penh said fighting in Cambodia was at a low point with the only action report a battle in which South Vietnamese forces killed 21 Viet Cong and North Vietnamese 75 miles northeast of the capital.

The U.S. Command in Saigon said the 101st Airborne Division aerial gunships were on routine patrol on the border between Thua Tien and Quang Nam provinces when they spotted a Communist force 40 miles west of Da Nang Monday.

miles west of Hue in raids Monday night and today. But military spokesmen reported no new fighting around the besieged South Vietnamese fire base.

Viet Cong guerrillas unleashed more artillery attacks on civilian population centers in Vietnam Monday, the South Vietnamese command said today.

Ten rounds of mortar fire struck the district capital of Dien Khanh, 188 miles northeast of Saigon in the Central Highlands. Two civilians were killed and six others wounded.

GAS DOES THE BIG JOBS BETTER FOR LESS!

RENT

ANY ONE OF THESE ...

GAS WATER HEATER

Just \$1.95 a month will rent a Gas Water Heater. Installation and maintenance included. Why have the responsibility of ownership when you can rent one for as long as you wish?

GAS CONVERSION BURNER

Most oil and coal furnaces can be quickly converted to gas with the simple installation of a conversion burner. You can rent one for only \$1.95 per month including installation and maintenance.

GAS WALL FURNACE

A gas wall furnace is the most practical and economical way to heat anything from a garage or recreation room up to a small 2-bedroom home. Rent one for only \$1.95 a month including installation and maintenance.

ONLY **\$1.95** EACH PER MONTH

INSTALLATION AND MAINTENANCE INCLUDED

Our rental program on water heaters, conversion burners and wall furnaces is one of the most popular programs offered to our customers throughout southern Idaho. It is the most inexpensive way to buy hot water or heating comfort under the sun. Why own these appliances when we will maintain them or replace them at no extra charge to you? Call soon!

THICK AS LAWN grass are these small lodge pole pines which sprung up in the Magic Burn area of the Twin Falls ranger district after fire which destroyed the original stand of trees. The pine cones are opened to allow seeding. County Commissioners

Morris W. Carlson, left, and William Chancey inspect the small trees with Ranger Lewis Munson, right. In background are dead pines still standing after the 1966 fire.

CHARRED REMAINS of clear cut and burning operations at left of vehicle show progress in one project to reestablish new forest cover in the south hills area. The burned slash can be salvaged for fire wood or will decay into the ground soon. The fire forces open the "serotinous" pine cones and automatically reseeds the area to new timber.

Don Helped Andrus

BOISE (UPI) — Gov. Don Samuelson and one of his staff inadvertently rendered some temporary support to Samuelson's general election opponent, Democrat Cecil Andrus.

Andrus said the governor told him he discovered a "Republicans for Andrus" sticker on the bumper of his official state limousine Sunday.

He indicated he was unaware who put it on the bumper or when but that it apparently was on the bumper only a short time because it peeled off easily.

Ruby Stone, one of the governor's stenographers, said a similar thing happened to her car while it was parked at home in her driveway. She speculated the sticker was on her bumper for about an hour.

Oregon has 742 tree farms primarily producing Christmas trees.

Forest Management Includes Tree Removal, Restoration

BY BONNIE JONES
Times-News Staff Writer

TWIN FALLS — Because much of the timber in the Twin Falls ranger district of the Sawtooth National Forest is "over mature" timber management has become a matter of removal of present stands and restoration of the forest.

Lewis Munson, district ranger, said the program is under way and has been for some time but it must be extremely gradual, taking into consideration watershed, soil protection, recreation and other factors.

seeds to deposit and grow and fire takes care of this.

Once this has been done, Ranger Munson explained at a second site, the tiny pines spring up almost as thick as grass and another problem arises.

The ranger showed county officials an area burned some 20 years ago where the growth has now stagnated because of the

thick stand which permitted the trees to grow only to a few inches in diameter because they were never thinned. There is little market for these trees and they will not grow larger.

An area burned in the 1966 Magic Burn was also inspected where the trees, a few inches to a foot high, are extremely thick and in need of thinning.

Thinning presents a problem

as the tiny trees must either be pulled up, by hand, or individual trees "capped" for protection and the area sprayed.

A small area of the Magic Burn has been thinned in this manner with good results but the time involved and the small area that can be covered in a season because of limited personnel and funds is discouraging, Munson said.

Nixon Administration Wary After Recent Soviet Antics

WASHINGTON (UPI) — Soviet actions in the Middle East, together with indications the Russians might be up to some military monkey business in Cuba, have caused the Nixon administration to take a hard, new look at other issues coming under the head of East-West relations.

The State Department denies that any formal across-the-board review is under way. And officials contend that President Nixon's so-called "era of negotiations" is not yet in jeopardy.

These same officials acknowledge, however, that the Kremlin's attitude is beginning to puzzle and irritate them. And they are speaking in much less optimistic terms when they consider the possibilities of specific agreements to ease East-West tensions.

A major opportunity to test the willingness of Russia to

lessen the explosive potential of an old problem is at hand. On Thursday, the U.S., British and French ambassadors to West Germany will meet in Berlin with the Russian representative to East Germany to begin negotiations on a new Berlin agreement.

The agreement that the Western allies, as well as West Germany, want would provide much more specific written guarantees of the Allied rights of access to red-encircled West Berlin, which lies 100 miles within Communist East Germany.

The Soviet actions have cast somewhat of a pall over the Soviet-American negotiations on limitation of strategic nuclear missiles. Presidential advisers who once were optimistic about getting such an agreement soon after the talks resume in November now caution that this may not be possible.

The change in the American official mood came after Washington proved to its own satisfaction that the Russians had openly connived in Egypt's violations of the Aug. 7 cease-fire by moving aircraft missiles closer to the Suez Canal in the forbidden zone.

The haste with which the Russians and the Egyptians took the actions caused the Nixon administration to revise its previous assumptions that Moscow was interested in trying to avert the peril of a wider war.

The discovery about two weeks ago that the Soviet Union could be building a submarine base in Cuba added to the concern of Nixon and his advisers over the Kremlin's real objectives.

Asia has about 35,000 miles of coastline.

Psychiatrist Says Jails Make Crooks

SALT LAKE CITY (UPI) — Dr. Karl Menninger, co-founder of the Menninger Foundation Clinic in Topeka, Kans., said Sunday many psychiatrists believe jails are manufacturing criminals "just like General Motors is producing automobiles."

Menninger, here to address a 10-state conference on the administration of the federal Omnibus Crime Control and Safe Streets Act, called himself a critic of "the injustice of justice" handed down to the nation's criminal offenders.

In an interview prior to his scheduled 8 p.m. address tonight, Dr. Menninger said most people are "underconcerned" with crime.

"They want to get disagree-

able persons stuffed out of sight, but that's not being concerned with crime," Dr. Menninger said.

"That isn't taking any scientific steps to help the man you shuffle out of sight, or preventing that situation from recurring."

"Crime is not rapidly sweeping over us. The problem is more and more crimes are recognized."

Menninger said that police have an impossible job. "Most of the time, 50 to 80 per cent, they work on noncriminal acts — picking up drunks and taking cats out of trees."

"County jails are awful, completely uncivilized," he said. "They have no place in society. You have to detain people,

but nothing in the law says you should throw people in a pig pen," he added.

"In jail they (criminals) probably get slapped around, raped and kicked. Not enough people are asking, 'what is a better type of jail.'"

"Jails," he continued, "are manufacturing criminals just like General Motors is producing automobiles."

The 10-state conference, which continues through Tuesday, has drawn delegates from Colorado, Iowa, Montana, Nebraska, North Dakota, South Dakota, Missouri, Utah, Wyoming and Kansas.

The Douai Version of the Bible was first completed by Catholic refugees from England at Reims, France.

Cathedral Building Continues

By LOUIS CASSELS
UPI Religion Writer
In this age of rapid construction, when tall office buildings seem to sprout from the ground like mushrooms, it boggles the mind to encounter a building that has been under construction for 63 years and still is unfinished.

The slow-rising edifice is the Cathedral Church of St. Peter and St. Paul, better known to millions simply as Washington Cathedral or the National Cathedral.

Although it is only three-fourths completed, the huge Gothic cathedral already plays an important role in the life of the nation's capital. More than 150,000 persons attended the 1,632-worship services held in the cathedral last year. It is a leading Washington tourist attraction, drawing nearly half a million out-of-town visitors a year. It frequently is the site of state funerals and other public ceremonies.

But the cathedral's chief importance, in the eyes of many who live in or visit Washington, is as a symbol. Overlooking the capital city from the pinnacle of its highest hill, it serves as a perpetual reminder of America's heritage as "a nation under God."

Because of the outspoken sermons delivered from its pulpit by Dean Francis B. Sayre Jr. and other cathedral clergy, it also has come to symbolize the prophetic role of America's free churches, which are never subject to government but always critically concerned with the morality of government's actions and policies.

Sayre was born in the White House (he is the grandson of Woodrow Wilson) and is not overawed by the kingly trappings that sometimes surround the presidency. When he thinks a president of either party has done wrong, he says so, bluntly and forthrightly. For this reason, he does not often get invited to dinner at his birthplace.

Although the cathedral is affiliated with the Episcopal Church, and follows its rites in its services, it was chartered by Congress to serve as "a house of prayer for all people." Americans of many denominations have contributed to its construction.

Since ground was broken in 1907, about \$20 million has been spent on its soaring Gothic arches, flying buttresses, and intricately carved stonework. Building costs have risen so steeply over this period that a unit of construction which cost \$1 in 1907 costs \$8.50 today. With allowance for further inflation, Sayre estimates it will cost another \$21 million to complete the last fourth of the structure, which includes its most spectacular architectural feature, the twin-towered west front.

KENT STATE UNIVERSITY student vice president Thom Dickerson rings victory bell to officially open the fall quarter. It was here that a noon rally of anti-war demonstrators gathered, leaving four students dead in a confrontation with national guard troops. (UPI)

Kent Deaths 'Unjustified'

WASHINGTON (UPI) — Two members of the President's Commission on Campus Unrest — a student and a police chief — said Sunday the fatal shooting of six persons at Kent State University and Jackson State College last May was "completely unjustified."

Joseph Rhodes Jr., a junior fellow at Harvard University, and James Ahern, chief of police at New Haven, Conn., were questioned about the commission's report, made public Saturday.

The report, released just before President Nixon left for Europe, deplored violence at every level. And it said the President had the responsibility of offering "the compassionate, reconciling moral leadership that can bring the country together again."

Rhodes, said the commission found that on both the Kent State and Jackson State campuses "the use of deadly force that was used was completely unjustified."

Four students died in shooting by Ohio National Guardsmen on the Kent campus and two persons were killed by police gunfire on the Jackson, Miss., campus of Jackson State.

Ahern was asked if he agreed with Rhodes. He replied, "Yes, I do."

Rhodes and Ahern appeared on NBC's "Meet the Press." The commission chairman, former Pennsylvania Gov. William W. Scranton, appearing on the same program, said he believed some high officials in the Nixon administration already had toned down rhetoric about students.

Scranton said in answer to a question that Nixon probably would not tell Vice President Spiro T. Agnew to be quiet. But Scranton said Agnew's statements about students already

have changed. The commission report concluded that there is a more profound national crisis — than simply campus violence of the past decade.

Novelist Dos Passos Dies at 74

BALTIMORE (UPI) — John Dos Passos, one of the great novelists of the post World War I generation, died here today at the age of 74.

His most famous work was a trilogy, "The 42nd Parallel," published in 1930; "1919," published in 1932, and "The Big Money" published four years later.

It was on the basis of these works that he was considered a literary revolutionary and a political radical. In later years he moved from the left to the right in his writings.

Dos Passos died at his home in the village of Cross Keys, a luxury development in Baltimore, two days after he was released from Good Samaritan Hospital where he was being treated for a heart ailment.

His trilogy was a panorama of America that used "news-reel" and "camera eye" techniques he developed from his experience as a newspaper correspondent.

Dos Passos was born Jan. 14, 1896 in Chicago and was a Harvard University graduate. From Harvard he went to Spain and when the United States

entered World War I he joined the various ambulance services. Later he entered the U.S. Army.

From his war experience he wrote his first novel in 1922. Called "Three Soldiers."

Dos Passos' first wife, Katherine Smith, was killed in an auto accident in 1947. In 1949 he married Elizabeth Holdridge.

His mother's family was from Maryland and Virginia. His father was a lawyer and the son of a Portuguese immigrant.

He attended Choate Prep School and considered himself a "Virginia gentleman." He lived in Westmoreland County, Virginia.

He once wrote: "I've always wanted to divest myself of my class and monied background."

In 1925 he wrote "Manhattan Transfer", a panoramic view of life in New York City.

Three million acres of prime timber were destroyed in forest fires in Maine and New Brunswick, Canada, in October, 1825.

Humphrey Didn't Dump

MINNEAPOLIS, Minn. (UPI) — Minnesota Republicans have been looking for a formula to defeat Hubert H. Humphrey for 22 years.

This year they thought they had it. The word went out that Humphrey was vulnerable. His brand of liberalism was passe. He talks too much. Voters want a fresh face.

There was talk of a \$1 million war chest for the GOP candidate.

There even was a tough fight for the GOP nomination for the U.S. Senate. Rep. Clark MacGregor won the right to oppose the former vice president when Attorney General Douglas Head agreed to run for governor.

But Republicans are no longer so sure this is their year.

A top Republican appeared with Humphrey at a political rally in Minneapolis shortly after the campaign began during the summer. It was his first closeup of the new law and order liberal who captivated the crowd throughout a long speech, climaxing his remarks with a rousing and somewhat embellished version of the allegiance pledge to the flag.

"We were supposed to beat this old liberal by moving a little to the right, talking about law and order and waving the flag," the Republican confided to a colleague the next day.

Peace Corps Shuns Campus 'Idealists'

International Horizons
"New directions" of Peace Corps

The Peace Corps is leaning away from what some critics have called "campus idealist types" — eager but inexperienced and untrained, and is recruiting persons with specific vocations, and their families as well. One place where family groups are undergoing training is the Philippines. UPI correspondent Patrick J. Killen describes the center and the dedication of the volunteers.

Ioilo, Philippines. Picture.

Soviet Advertising
"Rhaika chistit cheesto, chistit bystro" reads the headline and it means "Chaika cleans white, cleans fast." It also means the Russians are learning the ad business, but Madison Ave. doesn't have to worry just yet. Moscow.

Japan aims for East Europe
Teams of neatly dressed Japanese businessmen are becoming fixtures in Budapest, Prague and Bucharest. They are out to turn eastern Europe into a rich market for Japan's exporters, and so far have done quite well. Vienna.

Interpol, the international criminal police organization, coordinates information on 400,000 international criminals, and, says its chief: "Interpol is indispensable to any national police force which considers itself organized." Paris. Picture.

Nixon faces crucial decision
Within the next few weeks President Nixon must decide whether to pull troops out of Europe. It's a tough decision, especially when NATO allies are exerting powerful pressure against any cuts, and congressmen are calling for big ones.

Washington, Picture.
It's been so long most Republicans have forgotten how - It's been 16 years since the Republicans controlled the Senate and this is the year of the big election push. It the GOP gets a Senate majority the party automatically wins committee chairmanships. A dispatch describes who's in line for the plum jobs. Washington, Picture.

U. S. air defense chief on Soviet

missiles: "We cannot destroy them"

The war room of the North American Air Defense Command is buried deep inside a mountain. That's where a 24-hour watch is mounted against an enemy attack. But what if missiles are launched? "All we can do is detect them," says NORAD's chief, Colorado Springs, Colo. Picture.

On once-thriving Florida key, only thorny hemp plants survive

Florida's Indian Key was once infamous as a pirate's lair, later as one of the most corrupt cities of its time. Now it's just an overgrown island whose plants hide ruins with a blood-curdling story to tell. Indian Key, Fla. Picture.

All-woman bank
Except for the one security guard, the U. S. National Bank in Altadena is an all-female operation. But, says the manager, the ladies are democratic. "If an opening should arise, and a qualified man apply, I'd certainly consider his application." Altadena, Calif.

WORLD ALMANAC FACTS

The Liberty Bell rang to proclaim the Boston Tea Party and the first public reading of the Declaration of Independence, thereby becoming a symbol of great reverence to Americans. The World Almanac says that in July, 1835, the bell cracked while tolling for the funeral of Chief Justice John Marshall. The 2,080-pound bell was first hung in the Philadelphia State House in 1753, and is now exhibited in Independence Hall.

Blast Shreds Thesis

MADISON, Wis. (UPI) — Michael R. Molnar, a 25-year-old graduate student in astronomy, had nearly completed his doctoral thesis when a bomb exploded at the University of Wisconsin on Aug. 24.

His thesis and most of the research that went into it were virtually destroyed. The explosion shattered the U.S. Army mathematics research center, causing an estimated \$6 million damage to the facility and several nearby buildings.

"I would like to stay away from campuses until they cool off," said Molnar. "I think a lot of my colleagues feel the same way. Academic freedom does not exist. You live in an atmosphere of fear and terror. It's a terrible way to live."

The blast killed a 33-year-old physicist who was working late and injured four other persons. Molnar was one of about two dozen graduate students who lost their research data.

He said he had been researching a new type of star just recently discovered and had hoped to be among the first scientists publishing in that area.

**ONE WAY TO AVOID
THOSE MIDWINTER
"GET-ME-OUT-OF-THIS-RUT" BLUES!**

Sure, your husband is great and you love your kids. But it is that time of year when "tired" seems to be the only word in your vocabulary. Don't be discouraged. It's an affliction which strikes each year about this time in near-epidemic proportions.

So "getting away from it all" is just not in the cards. What can you do to bounce back?

Here is how you can engineer a break in the routine and add a few bucks to the family budget at the same time.

Run a Want Ad in the Times-News, offering for sale some of the valuable but seldom used items around the house. Golf clubs, furniture, appliances, bicycles, power tools, you name it. A Want Ad will help you sell anything.

A lot of nice people will call in response to your ad. You will meet them when they come to look at the item or items you are offering for sale. And the lady you reach when you call the Times-News to place your ad will be friendly and helpful, and pleasant to talk to.

It's a great way to break the monotony and pick up some unexpected extra cash at the same time. Oh yes, the cost of the ad is very low, and it is easy to get it into the paper.

Call the Want Ad number -- 733-0931 and start a pleasant adventure.

MUFFLING VOICE is one of the annoying methods of the unidentified caller.

Hang up When Unidentified Caller Bothers

TWIN FALLS — "If an unidentified caller blows in your ear, hang up your receiver. Depriving an annoying or an obscene caller of an audience is the best way to discourage him," advises Ken Mann, Mountain Bell Telephone Co. manager in Twin Falls.

That is one of several ways of combatting harassing or obscene calls, according to Mann. There are several types of annoying callers. One hangs up when the receiver is lifted. Another breathes into the mouthpiece but says nothing. Others make obscene or improper statements.

Dangerous as well as upsetting, Mann said, is the caller who threatens the life or property of the person called. This type of call is of major concern to the telephone company.

Harassing calls are usually received by women, according to Mann. In those cases, it is not always a woman living alone who is called. Mann said that often callers wait until a husband has left home, then call the wife.

To combat obscene callers, the telephone company has devices which can be used to trace the call or "lock" lines together and identify the phone from which the call was placed.

When devices of that type are used, the company obtains written permission to attach the equipment to a line and a release to turn information over to police.

There is still another method by which a person receiving annoying calls can put an end to the calls.

"For 29 cents, a police whistle can be purchased," Mann said. "One blow and the caller not only is deprived of an audience but gets an earache for his trouble."

Contest Regarded As Step

AUGUSTA, Maine (UPI) — Maine's senatorial contest is regarded as a step toward the White House for Sen. Edmund S. Muskie.

How big a step depends on his margin of victory over his Republican contender, Neil S. Bishop, self-styled "dirt farmer" turned high school teacher.

Muskie, the Democrats' 1968 vice presidential nominee, is expected to defeat Bushop for a third term. There are no "ifs," "ands" or "buts" about that, in the reasoning of the pros. The big questions is: by how much?

The size of the vote Muskie gets could bear heavily on his presidential aspirations for 1972. Going into the November election, the 56-year-old Muskie is rated a frontrunner for his party's presidential nomination.

A far closer race is the gubernatorial scrap between Democratic Gov. Kenneth M. Curtis, a progressive liberal, and Republican attorney general James S. Erwin, a moderate conservative.

A key issue is a 5 per cent state income tax Curtis rammed through the Republican-controlled legislature in 1968. The economic slump aggravated resentment against the levy, especially among low-income working people vital to Curtis' re-election.

The Curtis-Erwin fight is considered a toss-up. Democratic Reps. Oeter N. Kyros and William D. Hathaway are expected to defeat GOP challengers with ease.

JIMI LEFT 500G ESTATE NEW YORK (UPI) — Jimi Hendrix, popular rock singing star who died in London Sept. 18 of a drug overdose, left an estate valued at \$500,000.

Since Hendrix, 27 did not leave a will, a court-appointed administrator will handle the disposition of the estate, it was disclosed in New York Surrogate Court Friday.

Ostend Manifesto The Ostend Manifesto of 1854, issued by U.S. ministers to England, France and Spain, urged American acquisition of Cuba from Spain by purchase or force.

Group Recommends State Salary Hike

BOISE (UPI) — When the State Personnel Commission meets Friday, Director George Murphy will recommend five to 15 percent salary increases to bring state employees to competitive levels with employees of private industry and other states.

The increases will be based on a study made by the personnel office and the State Department of Employment of wages paid in neighboring states and by private industry in Idaho.

The survey of 55 benchmark positions showed salary differences ranging from 58 per cent less paid to senior buyers to 26 per cent more laid to vocational rehabilitation counselors II.

Murphy emphasized the salary

hike recommendations are no cost-of-living increases. The problem with the across-the-board hike, he said, is that an employee who is already paid the prevailing scale or more will also get the increase.

"The law requires that the state pay comparable salaries," Murphy said. "This study is simply to determine what the prevailing salaries were. If a state salary is presently competitive no salary increase will be recommended."

"State employees should not be paid less than prevailing salaries and not more than prevailing salaries. They should be paid right on the level."

Murphy said he will not know until Friday what the cost of the entire package will be. If the commission accepts the recommendations and if Gov. Don Samuelson approves and if the proposals are given the nod by the legislature when it meets in 1971 the raises would be made by increasing appropriations to those state agencies which have employees falling within the selected categories.

The study showed veterinarians are paid seven per cent more than their counterparts in private industry and in other states, rehabilitation counselors 26 per cent more, correction officers

four per cent more and parole officers are right on schedule.

A five per cent salary hike will be recommended for general clerical classes not requiring stenographic skills, statisticians, economic analysts, information officers, management analysts, library technicians, chemists and lab classes and case workers and related classes.

On the other end of the scale, per cent increases will be recommended for maintenance craftsmen, painters, plumbers, electricians, mechanics, engineering and engineering technical positions, psychologists, psychiatrists, professional medical and dental classes and dormitory supervisors.

Murphy will recommend a 10 per cent increase for the largest number of positions: stenographic and secretarial positions, data processing classes and key punch operators, fish and game biologists, foresters and park personnel, personnel and training officers, state trooper and related law enforcement classes, agriculture-related positions, public health classes, employment counselors and general employment classes and safety inspectors.

Other positions in the 10 per

cent category are purchasing agents, buyers, storekeepers and related occupations, food service workers and cooks, psychiatric social workers, nursing classes, accountants, custodians and related classes including equipment operators, maintenance men and housekeepers.

Murphy said agency administrators who do not agree with the recommendations and State Employees' Association representatives who do not agree will appear at Friday's session to make their feelings known.

After that, Murphy said, the commission will act as arbitrator and decide just what recommendations will be made to the governor.

The first cats known in history were those of the ancient Egyptians.

Officials Go on Tour Of Other Washington

WASHINGTON (UPI) — Have you ever seen something bad happening in your town and wished you could show it to the mayor and demand to know why something wasn't being done to fix it?

Joe Mack Jr., a veteran taxi driver and fledgling newsman recently did something very much like that. He took a group of high-ranking District of Columbia officials and some of his UPI colleagues on a tour of "the other Washington," the one most tourists never see. He showed them uncollected trash, abandoned and vandalized public housing units, pot-holed streets, air-polluting power plants—the whole picture of city blight.

The city officials did not seem to be men who didn't care. They spoke with bitterness about their inability to get money from Congress to make the national capital city into the "showcase" that presidents have been talking about for years.

And they gave explanations for each fouled up example of urban decay that came into view: this bridge was patched and bumpy because the river crossing that will permit traffic to be diverted so it can be fixed right isn't completed yet; that housing project is choked with trash because its owners have neglected their legal obligations to arrange its removal; this body of water (the Washington Tidal Basin) is disgustingly polluted because someone in Maryland or Virginia is dumping sewage into the Potomac River upstream. Plus, the explanation that this or that problem is "under study."

Obviously, the city officials were aware of the problems (and said they knew of even worse examples). And they had plausible reasons why each had not been solved.

Except that the problems have not been solved. Except that the people who live with them every day can't get a personal explanation from the housing director or the highway chief. Except that some people believe the explanations are excuses, to be described in one of those short, barnyard terms that isn't supposed to be uttered in polite company. Except that some people don't believe anything will ever be done.

Now this is a different kind of problem. It has to do with the fragile fabric of trust and belief that makes it possible for governments to operate without holding guns over the people. If the people believe the government will not or cannot solve their problems, the government is in a lot of trouble.

Yet, despite the demonstrable capacity of the subject to turn off people, reform may be the only alternative to violence on a scale not seen since 1860-65. Except for the unlikely possibility that dissent will wither or the unacceptable option of killing it, the solution is for government to start solving the people's problems faster and better. If government as set up now can't do that, the obvious first step is to fix government.

The Defense Department has worked out ways to respond to missile attack within seconds.

You'll never make a fortune with Savings Bonds.

You'll never lose one either.

Did you hear the one about the guy who invested his savings and became a millionaire practically overnight?

We all have. But for every get-rich scheme that works, what you don't hear about are the thousands of people who invest their nest eggs unwisely and end up with nothing.

That's why so many people look for a safe investment. Yet one that pays. U.S. Savings Bonds are like that.

Now Bonds pay 5% interest when held to maturity of 5 years, 10 months (4% for the first year; thereafter 5.20% to maturity). So Savings Bonds build your investment quicker than ever before.

And since Bonds are issued by the Government, they're about as safe a way to make your nest egg grow as you'll find.

Another thing about Bonds: they're a sure way to save regularly. When you sign up for the Payroll Savings Plan at

work, or the Bond-a-Month Plan where you bank, you can count on your savings program being a constant one.

So when it comes time to cash in your Bonds, you may not set the world of high finance on its ear, but you won't end up in the poorhouse either.

Bonds are safe. If lost, stolen, or destroyed, we replace them. When needed, they can be cashed at your bank. Tax may be deferred until redemption. And always remember, Bonds are a proud way to save.

Take stock in America. With higher paying U.S. Savings Bonds.

The U.S. Government does not pay for the advertising. It is authorized to provide copies for distribution to the Department of the Treasury and The Advertising Council.

IDAHO SMELLS A WINNER.

Canadian Black Velvet sales increased 72.2% last year. Sure our expensive blend of Canadian whiskies costs a few pennies more but the lighter color, lighter taste and lighter aroma are worth it. We asked Idaho to compare a sniff of Black Velvet with Idaho's largest selling whiskies and—Idaho smells a winner.

Fairfield Mill Burns Fourth Time Since '47

BY ROBERTA DANIEL Times-News Staff Writer FAIRFIELD—For the fourth time since it was erected in 1947, the Wendell Mill and Lumber Co., west of Fairfield has been razed by fire.

Davidson said he saw flames coming from the east end of the main building at about 12:10 p.m. and sounded the alarm.

building as well as the green chain portion of the mill and a number of stacks of lumber stored close to the building.

large stockpile of logs cut in the local area.

Davidson credited well directed action by the fire department with saving a newly installed de-barker and the control building, for it as well as large stockpiles of logs near that part of the building.

Built in 1947, the plant was destroyed in the early 50's and was rebuilt only to be destroyed again in August, 1963. The planer burned in March of 1964.

Flames of undetermined origin swept through the main building, two other building sections and a quantity of new lumber during the lunch hour Monday. Estimated replacement cost from Monday's fire was set at about \$300,000.

Winds of 20 to 25 miles an hour carried flames through the buildings immediately and the entire structure was ablaze by the time the Fairfield volunteer fire department arrived.

Davidson said plans for rebuilding are underway but not formulated at this time. He said the buildings were insured. The mill maintains a

The mill is owned by the Prairie City Lumber Co., Prairie City, Ore. Fire equipment was still on stand-by duty at the site of the fire Tuesday and rubble continued to smoke.

SMOKE RISES from ruins of the Wendell Mill and Lumber Company's mill west of Fairfield after a fire destroyed the plant Monday noon. Damage was estimated at \$300,000 by Rod E. Davidson, manager. The fire was the fourth at the mill since it was built in 1947. Cause of the fire is not known.

Bridge Life Nearing End, Engineer Claims

TWIN FALLS—The Perrine Memorial Bridge has just about "outlived" its usefulness.

Ellis Mathes, state highway engineer, said Monday that the bridge, built in 1927, was not designed for today's heavy traffic. That is one reason the 22-ton load limit was placed on the bridge.

An intensive survey of the bridge also discovered "some loose rivets," which could

conceivably pose a hazard if unlimited loads were allowed to traverse the span, he added. But a large structure such as a bridge "is only designed to last about 50 years anyway," so the Perrine Bridge, now 43 years along, is nearing its dotage and would probably have to be replaced even if the "loose rivets" had not been detected.

whether tourists or truckers; the limit was carefully placed so the heaviest trucks allowed across would not stress the bridge too much.

Increasing age brings "fatigue" to any metal structure, the engineer said. Metallurgists can test metals in the laboratory to determine their load limits; there is always a limit beyond which the metal will fall to hold the load.

found in the axle of a vehicle which will snap due to metal fatigue. The failure usually occurs in old and long-used vehicles, Mathes explained.

But in sum, the major problem is the continually increasing weight limits allowed on Idaho highways, he said. As larger trucks are developed and loads increase, load limits are raised correspondingly — far above the designed-in limits of the bridge.

Law Lack Said Behind Water Project Delay

By LEE TREMAINE Times-News Staff Writer MURTAUGH—Only the lack of federal legislation prevents the implementation of the long-awaited Salmon Falls Project, according to W. A. MacGregor, Boise, area engineer with the Snake River Development Office of the Bureau of Reclamation.

A scheduled hearing on the project in the House of Representatives in August was delayed due to a misunderstanding between legislators and the bureau of the budget, McGregor said. It is hoped the hearing can be re-scheduled before the end of the current session.

any action until the next session of Congress, he added. Members of the audience discussed the ramifications of the proposal as it affected them.

Rep. Ray Lincoln of Twin Falls County, who owns land in the Murtaugh area, asked how the project would affect the larger landowners. He also asked the cost per acre.

McGregor told members of the Hansen-Murtaugh Canal Co. that basic planning on the project to restore rapidly shrinking ground-water supplies has been completed. Congress must now pass the implementing legislation to form the project, known as the Salmon Falls Division of the Upper Snake River Project.

Rep. Jack Claiborn, Twin Falls County legislator and chairman of the board of the Hansen-Murtaugh Canal Co., called the meeting to explain progress of the project and to bring affairs of the canal company up to date. He also said he needed to arrive at a consensus of opinion on Murtaugh area landowners on the Salmon Falls Project.

Use of the Snake River as a source of water was considered during the 1960s, at which time the canal company asked to be included in the planning, McGregor said.

McGregor said the irrigators would pay about 26 per cent of the total cost; the rest would be paid by a power company pool which would use the water in the Snake River for power generation.

Key Port Proposed For T.F.

TWIN FALLS—City, county and airport commissioners today were asked to accept designation of Twin Falls as primary airport during the governor's conference in Sun Valley Dec. 12 through Dec. 15.

Despite a few objections, the majority of the land owners present at the meeting agreed that the project is badly needed, McGregor reviewed the project which began with initial

The costs average about \$189 per acre over a 50-year period, the engineer estimated, or about \$14.28 per acre per year on the average.

The landowners present questioned a Bureau of Reclamation ruling that no more than 160 acres per landowner can be included in the proposed project. This means, McGregor said, that a husband and wife, under the community property laws of Idaho, could include a total of 320 acres, but a corporation, designated as a single landowner, could include only 160 acres.

This designation would mean that many of the private planes bringing more than 40 governors to the conference would land at the Twin Falls field.

Railroad's Old Timers In Session

SUN VALLEY—The Union Pacific Railroad is again "running" this resort although the company has not owned it for several years.

The concept would use Salmon Falls Creek as a storage basin, with water pumped for the Snake River, McGregor said.

However, opposition was heard from some areas, and the project was delayed. The irrigation subcommittee of the House Interior Committee, which controlled the legislation, demanded that the project be re-evaluated and a new pumping area developed.

The request was made by Don Cooper, Boise, chairman of the transportation committee for the conference.

About 580 former Union Pacific employees and their wives are staying here for the annual Oldtimers conclave which officially got under way Monday with business sessions.

Sen. Len Jordan of Idaho is currently seeking a Senate hearing on the project, but the House may be forced to delay

The conference, of major proportions, will attract film and commentator crews from the three major TV networks as well as more than 100 newsmen from newspapers scattered through the United States.

Arriving on a special 20-car train to Ketchum Sunday, the group will leave Wednesday following the completion of another year's reunion.

BUHL—A Buhl mother saved the life of her nine-year-old son Monday morning when she administered mouth to mouth resuscitation to the child, Twin Falls sheriff's deputies report.

The Oldtimers is a social group organized to promote goodwill between the railroad management and employees.

The president's reception and the banquet tonight will conclude this year's event. John Kenrick, executive vice president, Union Pacific Railroad, will be keynote speaker for the banquet.

Wrapped around the child's neck was a length of electrical wire which was attached to a tractor wheel spoke.

Officers said the Reed children were out of school Monday because the family is preparing to move to Colorado.

District Judges Asked to Approve Area Magistrates' Appointments

BONNIE BAIRD JONES Times-News Staff Writer TWIN FALLS—District judges of the Fifth Judicial District will be asked to approve the appointments of nine Magic Valley men as magistrates under the court reform system which becomes effective in Idaho Jan. 11.

Those nominated by the commission include Reed P. Maughan and Daniel Meehl, Twin Falls County; Thomas LeRoy Blacker, Minidoka County; Charles C. Shaw, Gooding County; Russell Shaud, Jerome County; C. M. Wilson, Lincoln County; Charles Packham, Camas County; Bell Grant, Blaine County; and Gleason Anderson, Cassia County.

Maughan is presently serving as a justice of the peace in Twin Falls and prior to that time was mayor of Buhl. He has also served with the Washington, D. C., metropolitan police department and the White House security guard, and has managed businesses in Buhl, having resided in this area since 1958.

Meehl, a resident of Twin Falls since 1967 has been associated with firm of Kramer, Plankey, Meehl and Smith since coming here. He graduated from Stanford Law School, California, with honors and for three years before coming to Twin Falls was with the Idaho Supreme Court as a law clerk.

Nominations were made by a special district Magistrate's Commission comprised of one district judge, one mayor and

The Twin Falls magistrates were selected from a list of eight candidates, all attorneys but one. In making their selection, the committee by

A graduate of USU at Logan, Utah, and Brigham Young University, Provo, Maughan is currently studying law at

practiced law in Hazelton and Jerome and received his pre-law education in Dickinson College, Pa., and his law degree in 1951 from the University of Idaho.

CSI Bond Sale Meeting Called

TWIN FALLS—A meeting which will pave the way for selling \$1.3 million worth of bonds for College of Southern Idaho construction will be held at noon Wednesday, according to Dr. James L. Taylor, CSI president.

Francisco about the middle of next week, Taylor said. Before the bonds can be marketed, the buildings have to be 80 per cent complete, a status which is expected to be reached by Thursday.

The board of trustees and the CSI dormitory-housing commission will draft a resolution for the selling of the bonds to the federal government at a three per cent interest rate — a rate which Taylor says has been guaranteed to the college.

Groups pledging help with manpower are Boy Scouts, Girl Scouts, Camp Fire Girls, Civil Air Patrol, state highway department Jay-C-Ettes, city of Burley and state police. Cassia County commissioners have endorsed the cleanup project.

The documents will be forwarded to the college district's bond counsel, Chapman and Cutler of Chicago, Ill., so bonds can be printed. CSI officials should be able to deliver them to the Department of Housing and Urban Development in San

Lindy Neddo, Malta, is serving as chairman of the citizen's committee for cleanup in the Malta-Raft River area. In the Malta area manpower has been pledged by the Boy Scouts, City of Malta, Raft River Rural Electric, Malta Lions, state highway department, 4-H Clubs, county highway department, and Raft River Fire Department. A state patrolman will be on duty in that area during the cleanup.

In the Burley area the cleanup will primarily involve

Hopefuls Invited To Speak

HAILEY—In anticipation of the upcoming Nov. 4 general election, the Hailey Chamber of Commerce has scheduled two "Meet the Candidates" programs in October.

Republican candidates on the local level will address the group during the regular chamber meeting Oct. 12, and Democrats on Oct. 26. Both meetings will be luncheon events at the Hiawatha Hotel.

Drugs Bill Endorsed

WASHINGTON, D. C.— Cong. Orval Hansen (R-Idaho) today voiced strong approval of the comprehensive Drug Abuse and Control Act passed by the House last week and commended President Nixon for his efforts to control the drug menace in the United States.

Mother Revives Unconscious Son

An ambulance was called and the child was rushed first to a Buhl physician and then to Magic Valley Memorial Hospital where he is listed in poor condition today.

Charles Packham of Fairfield was appointed Justice of the Peace for Camas County in June to fill a term vacated by Wesley Jones. Packham has

farmed and raised stock on Camas Prairie for many years and for the past several years was employed on the Sten Frostenson farm south of Fairfield.

Bill Grant of Blaine County has served 36 months as probate judge for that county. He was graduated from the College of Idaho in 1959 with a degree in zoology and served five years as director of public assistance for Blaine and Lincoln counties. Prior to being elected probate judge he operated the Harry Catalano Store in Hailey, a business which his wife and he managed. He has lived in Blaine County for 12 years.

Today's Market And Financial Report

Stocks

NEW YORK (UPI)—The stock market, off sharply during the early morning, turned higher at the halfway mark Tuesday.

The Dow Jones industrial average, the barometer of 30 selected blue chips, was ahead almost 2 points at 760.68 after being down around 7 points during the first hour.

Advances pulled in front of declines, 703 to 510. A three-hour turnover of 10,300,000 shares was up from 8,000,000 shares traded during a comparable period Monday.

Analysts noted the early setback was the result of emotional selling stemming from the death of Egyptian President Gamal Abdel Nasser. But they added it was not enough to shift investors attention from the generally favorable economic news which has been fueling demand for stocks recently.

Among the day's most active stocks were Telex Corp. up 1/2 on 344,600 shares, Sunbeam Corp. unchanged on 176,300 shares, Memorex up 2 3/4 on 187,800 shares, and Plessey Co. steady on 157,800 shares.

WORLD ALMANAC FACTS

Jupiter is the largest planet in our solar system, with an equatorial diameter of 88,000 miles. The World Almanac notes that Jupiter's rotational speed is amazing as it carries a point on its equator along at a speed of 22,000 miles an hour, as compared with 1,000 miles an hour for a point on the earth's equator.

Buckeyes, Texas, Irish Dominate College Ratings

NEW YORK (UPI)—It's too bad Woody Hayes and Darrall Royal couldn't book a game between their respective schools this year. The result of such a dreamgame would give the nation's top football coaches a clear cut indication of who is the best college team in the country—Ohio State or Texas.

Brawl Sidelines 2 Texas Players

AUSTIN, Tex. (UPI)—Police searched Monday for a 21-year-old Austin man believed to have been involved in a brawl early Sunday that left one University of Texas football player sidelined for at least two weeks and two other teammates injured. Officers said they believe eight or nine persons were involved in the attack on the three Longhorn players and expect to issue additional warrants after they get to talk with sophomore defensive end Sam McBrierty.

Longhorns Rate 21 Over UCLA

LOS ANGELES (UPI)—Unlike most football coaches, Tommy Prothro feels better when his team is favored, and he has an uncomfortable feeling about his UCLA squad meeting the University of Texas Saturday.

"I like being a 40-point favorite instead of a 21-point underdog as I understand we are against Texas," Prothro told the Southern California Football Writers Association.

"Usually when a game is coming up, I look for challenges and opportunities and I see too much of one and too little of the other in this game. But I don't mind close games like that against Northwestern because we will be in real trouble when they are not close."

After viewing films of the Texas win over California, Prothro said "I don't think I've ever seen a better college team than Texas." He said Eddie Phillips looked like an outstanding replacement for last year's star quarterback, Jim Street.

Coach John McKay said his University of Southern California Trojans played their best game of the season against a comparatively weak Iowa unit. McKay singled out Clarence Davis for his highest praise after accepting a trophy for his tailback as the University Player of the Week.

Beavers Lose QB For Year

CORVALLIS, Ore. (UPI)—Quarterback Steve Endicott of Oregon State was declared out for most of the season Monday night with a broken wrist. Endicott, a key figure in the Beavers' 1970 football hopes, hurt his wrist last Saturday as Oregon State upset nationally ranked Oklahoma State 24-13. Endicott fired three touchdown passes in the surprise victory.

Doctors said the junior letterman from Grants Pass, Ore., would have to wear a cast on his throwing arm for four to six weeks. The injury had been diagnosed as a sprain until X-rays proved otherwise.

Coach Dee Andros said Ralph Keck, a seldom used junior, probably would get the starting call next Saturday when the Beavers face Pacific-8 Conference champion Southern Cal.

Irish Backup Has to Quit

SOUTH BEND, Ind. (UPI)—Bill Eter, Notre Dame's No. 2 quarterback has resigned from the football team and given up his football career on the advice of team physicians, coach Ara Parseghian said Monday.

Eter, a junior from Spokane, Wash., was hospitalized two weeks ago with severe headaches. Doctors indicated a contact sport could develop a head injury from the condition Eter has had for some time, a Notre Dame spokesman said.

"Bill was given extensive tests in the past two weeks and the results indicate that he should give up football or any other contact sport," Parseghian said. "The doctors anticipate no problems but Bill will drop out of school until January and stay with his brother in Arizona."

Garrett Homers For Win

NEW YORK (UPI)—Wayne Garrett's three-run homer off reliever Hoyt Wilhelm with two out in the 10th inning Monday night gave the New York Mets a 6-3 victory over the Chicago Cubs and tied the teams for second place in the National League East.

Garrett hit his 12th homer of the season after Jerry Grote doubled and pinch-hitter Rod Gaspar walked. The Mets had tied the score in the bottom of the ninth when Donn Clendenon hit a two-run homer off Ken Holtzman after a single by Cleon Jones.

Reliever Danny Frisella received credit for his eighth victory of the season while Wilhelm suffered his fifth defeat. The Mets took a one run lead in the first inning on a lead-off triple by Leroy Stanton, a walk and a double play but the Cubs took a 3-1 lead in the sixth on Tommy Davis' three-run homer following a walk and a hit batsman.

Stanton was knocked unconscious sliding into third base when hit in the head by the relay from the outfield. He was removed from the game but was not seriously injured.

Johnson Keeps AL Bat Lead

ANAHEIM (UPI)—Tom Murphy, who had a no-hitter going for six innings, singled home the deciding run in the sixth Monday night to give the California Angels a 4-3 decision over the Chicago White Sox.

The Angel right-hander lost his no-hit bid when Tom McGraw singled in the seventh after Jose Ortiz got aboard on an error to open the inning.

Murphy then surrendered a three-run homer to Bill Melton. After a single by Carlos May, Eddie Fisher came on to pitch.

Fisher registered his eighth save to preserve Murphy's 16th victory against 13 defeats. The loss went to White Sox starter Bart Johnson, who gave up eight hits and the four runs in 5 2-3 innings. He now is 4-7.

California took a 2-0 lead in the first inning on run-producing singles by Tony Gonzalez and Jim Spencer. The Angels tallied twice more in the sixth after the American League's leading hitter, Alex Johnson, opened with a single and stole second.

Rookie Mickey Rivers singled home Johnson and Murphy singled in Rivers from second with two out.

Laver Rises In Rankings

NEW YORK (UPI)—Rod Laver of Australia jumped two notches into second place in the \$200,000 Pepsi Grand Prix by virtue of his victory in the Pacific Southwest Open tennis championships.

Laver added 11 points to his total when he beat compatriot John Newcombe in Sunday's final and he now has 40 points, according to the official figures released Monday. Ken Rosewall, another Australian who did not compete in the Los Angeles tournament, still leads in the Grand Prix with 42 points.

Cliff Richey of San Angelo, Tex., the leader for five consecutive weeks before Rosewall vaulted to the top by winning the U.S. Open, fell to third place with 39 points and Newcombe moved up to fourth with 35 points.

Clay Given License for N.Y.

NEW YORK (UPI)—Nearly 3 1/2 years after it suspended him, the New York State Athletic Commission decided unanimously Monday to restore Cassius Clay's boxing license. Clay had been suspended since April of 1967 because of his refusal to accept induction into the Armed Forces. However, Federal Judge William Mansfield ruled two weeks ago that this wasn't sufficient reason to deny Clay his means of livelihood.

Clay last fought officially on March 22, 1967, when he successfully defended his heavyweight championship by knocking out challenger Zora Folley in the seventh round at Madison Square Garden. Since that time he has fought only infrequent exhibitions, the last being three weeks ago when he fought a total of eight rounds against three different sparring partners.

Clay has signed to fight top-ranking contender Jerry Quarry in Atlanta on Oct. 28. The bout, scheduled for 15 rounds, is considered by Clay, who numbers 23 knockouts among 29 wins in a perfect record, as a title fight. Clay has often remarked that a champion should lose his title only in the ring.

is one of the simplest. The basic idea of Stayman is that the two-club response to an opening no-trump is an artificial forcing bid and demands that partner rebid two diamonds if he doesn't have a major suit of four cards or more. If he does have a major he rebids two in it. If he has four cards in each major suit he rebids two of the one he likes better.

North has 17 balanced points. There is no need to use the Stayman convention since he does not hold a four-card major suit. Therefore, he does not need to explore suit possibilities. He knows the partnership total is from 33-35; that 33 is the key number for a small slam and 37 the key number for a grand slam. He just bids six no-trump.

South may fool around and try to make-seven by putting the ace of hearts to sleep. Maybe he will. Maybe he won't, but in any case six is home.

(Newspaper Enterprise Ass'n.)

CARD SENSE

The bidding has been:
West North East South

You, South, hold:
♠ A Q 9 4 ♥ K J 8 5 ♦ 3 2 ♣ Q 10 8

What do you do?

A—Bid one club. You have 13 points counting one for the doubleton. Bid a club rather than bid your four-card majors to provide for future bidding.

TODAY'S QUESTION
Your partner raises you to two clubs. What do you do now?

Answer Tomorrow

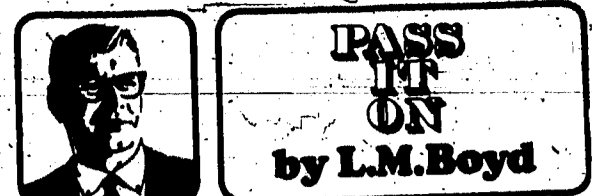

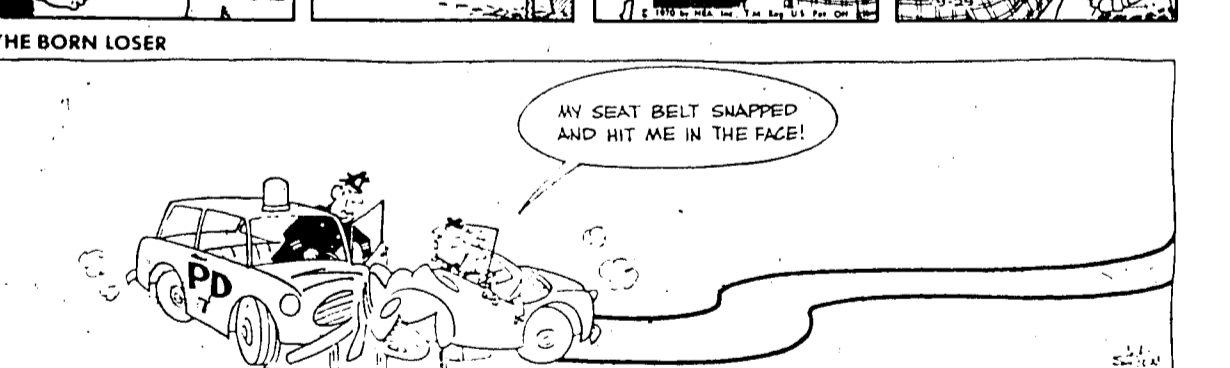

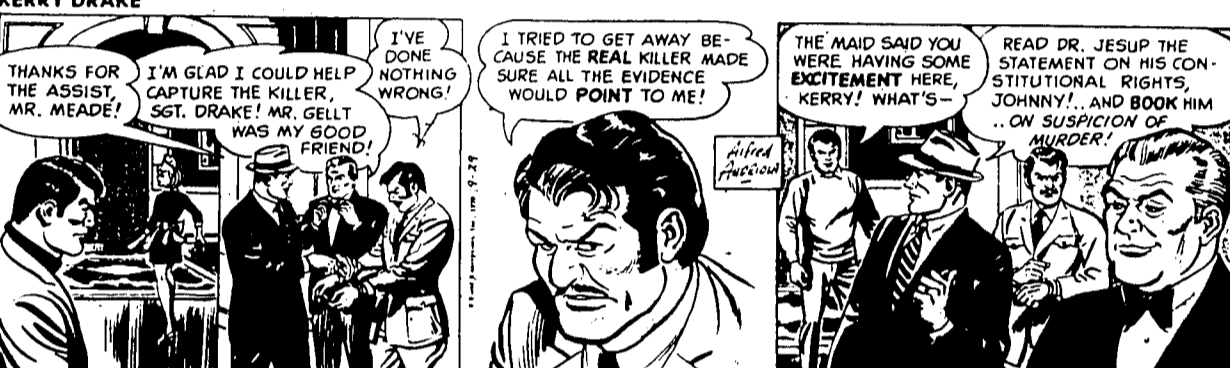

Championship techniques are easy to understand in Jacoby Modern in new 128-page, illustrated book. For your copy, send name, address, Zip and \$1 c/o this newspaper.

Back in 1932 young Oswald Jacoby married the tennis champion of Texas, Mary Zita Jacoby had never played bridge but wanted to learn and in order to teach his wife quickly he invented the point: count no-trump. This picture bid showed 5-3-3-2, 4-4-3-2 or 4-3-3-3 distribution and from 16-18 points in high cards. It became the Standard American no-trump and still is. It is also the JACOBY MODERN no-trump.

The only difference between 1932 Jacoby and 1970 Jacoby is that we now provide that the doubleton may be Jx as well as Ax, Kx or Qx. In face we don't consider it a capital crime to open one no-trump with a worthless doubleton if you feel like living dangerously.

We do use the Stayman convention in responding to opening no-trumps. If you have never learned this convention it is about time you did. There are innumerable versions of Stayman. The JACOBY MODERN version

GASOLINE ALLEY

MATRIMONIAL RESEARCHERS say their lengthy studies indicate collegiate athletic directors appear to be the most happily married men. Least happily married, they say, seem to be oil field workers. YOUNG LADY, if those eyelashes are your own, it took about three weeks for each of them to grow in, and maybe another six months for each to fall out. Such are the fancy facts.

GRUB — The surveytakers say those three foods the American is most apt to detest are brains, kidneys and buttermilk. Buttermilk? Don't understand that. If properly produced, buttermilk is dandy. Brains aren't too bad when scrambled with eggs for breakfast. As for kidneys, the way to prepare them is boil them... that is, cook them well. More gourmet data upcoming. Watch for it.

IF YOU HAVE a biblical scholar in the family, ask said expert, which came first, the day or the night... QUICK, HOW MANY locks on your car? Five is average for late models... ANOTHER THING you could do with one billion pennies is pave a road 40 feet wide and 1,850 miles long.

THE OREGON TRAIL — The old wagon trains rolled over the Oregon Trail, and rolled and rolled. And before it was done, that refugee clutch of citizens toward the sunset, toward dusk to their despair, they prayed, through dogwood and horsemanure, tamarack and broken harness, and all the savage flowers that bloomed in their noses, on shale where everything skidded down and ragged granite that tipped things up, God's red mud and democratic dust and half the rotten logs in ancient Idaho, before it was done, as I said, so many of them died. Seventeen for every single mile of it, in fact.

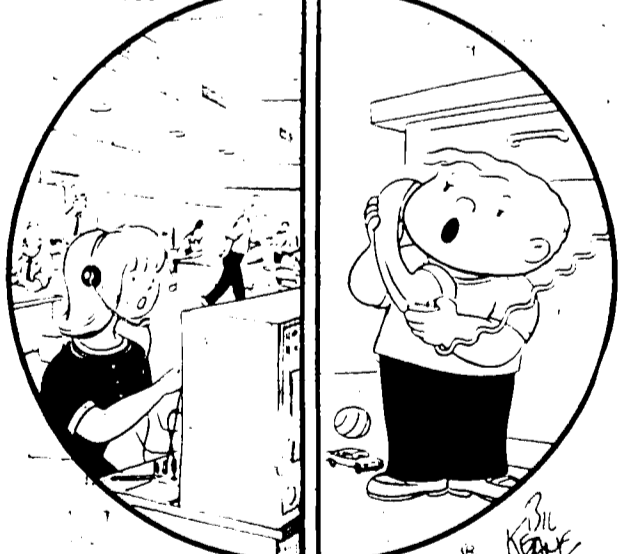

CUSTOMER SERVICE — Q. "What's your stand on the killing of deer by hunters, sir?" A. Take no stand whatsoever on that matter, madam. Can only report I can't do it myself without feeling peculiar... Q. "If I jumped off the Golden Gate Bridge, how fast would I be going by the time I hit the water?" A. Little better than 70 mph.

MR. T. HEE is up for nomination as honorary member of the Proper Job Club inasmuch as he was once in the employ of the late Walt Disney as a gag writer... RESEARCHERS at the University of Michigan claim their studies of girls who graduated therefrom indicate the older a woman gets, the less interested she is in music... HERE'S to Sheilah Mvili — clink! Approached in the waters of Southern Rhodesia by a crocodile, she bit the beast, but it got away, and that's the world news to this hour.

Policing Suggested for Public Service Firms

SALT LAKE CITY (UPI)—Stronger policing of the nation's major public service corporations who "are in daily violation of laws and regulations" was urged here today.

Making the appeal was Vic Reinemer, executive secretary to Sen. Lee Metcalf, D-Mont. He spoke during a noon luncheon of the Western States Water and Power Consumers Conference which is wrapping up a two-day conference.

He told the group that dozens of such public service corporations are violating laws which were designed to provide clues as to their ownership and operations.

Reinemer said methods of policing corporations are "primitive," and indicated there are too few regulatory accountants in the nation to adequately do the job.

He struck out at corporate unwillingness to disclose its ownership, financing and company policies. The author of the book "Overcharge" added that Sen. Metcalf is sponsoring a Utility Consumers' Counsel Bill which would provide for corporate disclosure.

"It is based on the premise the public has the right to know who owns and works for a public service corporation, where the company's money comes

from, where it goes and what company policies are," Reinemer said.

The bill also "would provide counsel for the public which now pays the fees of the companies' counsel, but has no wherewithal for its own defense or presentation of its own case."

Earlier this morning, the conference delegates viewed a panel discussion on "Water and Power Requirements of the West," headed by Henry G. Curtis, executive director of the Northwest Power Association of Vancouver, Wash. Other panel members were Kenneth Holm of Ken Holm and Associates, Washington, D.C.; Charles A. Robinson Jr., staff counsel to the general manager of the National Rural-Electric Cooperative Assn. of Washington, D.C.; Arthur Jones, president of the Basin Electric Power Cooperative of Bismark, N.D.; and vice chairman of the Northern California Power Agency.

Monday night, Sen. Thomas F. Eagleton, D-Mo., told the group that many of the problems of the cities can be traced to lack of development of rural areas, and he said the present administration was not making any efforts to further rural development.

In an attack on President Nixon on Eagleson charged present economic policies of the chief executive "threaten to eliminate new resource development projects."

Colombia has a population of 21 million.

Reinemer said methods of policing corporations are "primitive," and indicated there are too few regulatory accountants in the nation to adequately do the job.

HEW Aide Finds First Northern School Bias

WASHINGTON (UPI)—A Health, Education and Welfare Department hearing examiner ruled for the first time Monday that a northern school district was guilty of running an illegally segregated system.

The decision, involving schools in the Detroit suburb of Ferndale, Mich., can be appealed to a HEW reviewing authority and ultimately to HEW Secretary Elliot L. Richardson.

But if the ruling becomes final, Ferndale would lose \$275,000 a year in federal school aid and become the first school district outside the South to suffer such a fund cutoff.

In his decision, examiner Horace H. Robbins said the Ferndale school board began in 1926 to deliberately segregate black elementary school children in the U.S. Grant school following racial disturbances at an integrated elementary school.

Ferndale has an integrated high school, an integrated junior high and 10 elementary schools. Just under one third of the 8,300 students are black or members of some other minority.

All but 31 of the 396 black elementary school children attend the Grant School, Robbins said, but none of the students and few of the teachers there are white.

The school situation was closely tied to segregation of Negro residents in the neighborhood surrounding Grant, which began with the help of restrictive covenants in real estate contracts, Robbins said.

Gravel Dumped In River OK

BOISE (UPI)—Assistant Attorney General George Detweiler said Monday the state Land Board can continue to dispose of gravel in the bed of the Clearwater River until the army corps of engineers begins to use or remove the material.

In a letter to Land Commissioner Gordon Trombley, Detweiler said the board could re-hew the mineral leases requested by the Idaho Department of Highways to use the gravel in the bed.

Detweiler said the Highway Department had requested renewal of the leases, but said in the meantime the Corps of Engineers had notified the board it wanted the gravel for construction of dikes and levees around Lewiston. Detweiler said although U.S. Supreme Court decisions had given the state ownership of the beds of navigable rivers, the ownership is subject to the federal power to regulate navigation as part of interstate commerce.

Detweiler said the Corps had notified the land board it wanted the gravel from the Clearwater's bed and had asked that the Highway Department lease not be renewed.

In his letter, Detweiler cited cases giving the Corps authority, pursuant to authorization from Congress, to remove and use materials from the bed of a navigable river for the purpose of improving navigation, but added, "None of these cases go so far as to hold that the Corps may forbid a state from disposing of bed materials in a navigable river on the strength of an intention by the Corps to use such material at some time in the future."

Gem Highway Cost Critics Challenged

BOISE (UPI)—Chairman C. Ed Flandro of the State Highway Board today challenged critics of rest area costs to "step forward" if they know of a cheaper way to do the work.

Flandro answered critics of the rest area costs in a special press statement issued by the State Highway Department.

Costs of those areas—in the neighborhood of \$25,000—recently came under editorial fire from newspapers in the state. Flandro, a Pocatello car dealer, said he felt the cost of the facilities would stand close scrutiny. He said Idaho's standards were comparable with those being used in other states and the only way he knew costs could be cut was to put in lesser type service.

able with many public park facilities and private housing (and) because of their extreme susceptibility to vandalism walls of most rest area buildings have to be of concrete block with interior glaze and radiant heat built into the concrete floor," he said.

"Cast aluminum fixtures are necessary because cheaper vitreous china ones are more easily destroyed by users."

"There are many individual items of work having separate bid prices," he said. "Award, however, is made on the basis of the total amount bid for the complete rest area or other project."

Americans consume nearly a million pounds of shrimp each day.

THIS AD IS OUR WORD

It is backed by Sears Advertising Policies Manual which requires every advertised item to be "supported in each participating store with sufficient merchandise. . . ." If we should run out of any reduced price item during the sale, we will re-order for you at the sale price. This does not apply to clearance and closeout sales where available quantities are limited.

Sears

Tire and Auto Center

Heavy-Duty Shock Absorber Guarantee

If Sears Heavy-Duty Shock Absorber fails due to faulty materials and workmanship or wear-out while original purchaser owns the car, it will be replaced upon return free of charge or the purchase price will be refunded. If the defective shock absorber was installed by Sears, we will install a new shock absorber with no charge for labor.

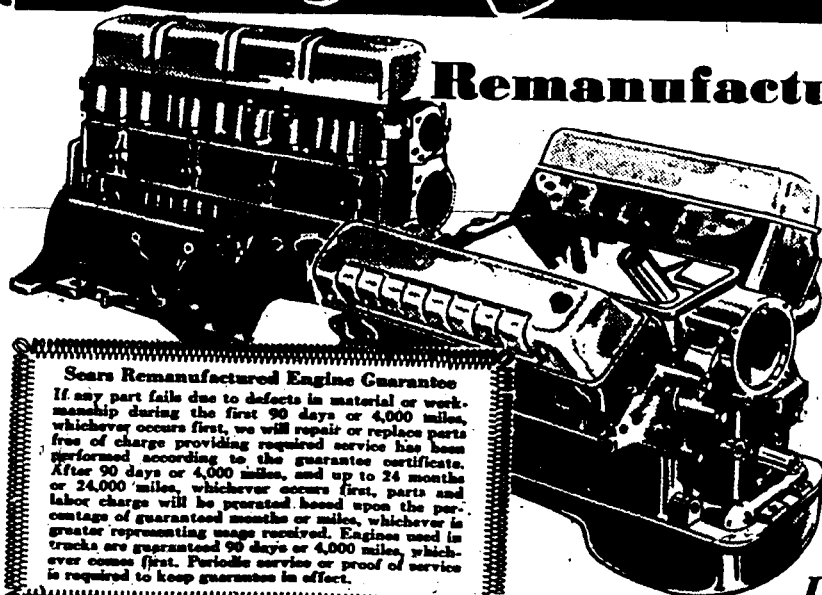

Remanufactured Engine SALE

Regular \$3.79, 10-qts. Heavy Duty Motor Oil

Sale Price **2⁹⁷**

Top quality oil in 20 or 30 weight, single grade. Contains additives to fight rust, sludge and acids. Keeps your car's engine running smoother.

Sears Remanufactured Engine Guarantee

If any part fails due to defects in material or workmanship during the first 90 days or 4,000 miles whichever occurs first, we will repair or replace parts free of charge providing required service has been performed according to the guarantee certificate. After 90 days or 4,000 miles, and up to 24 months or 24,000 miles, whichever occurs first, parts and labor charge will be prorated based upon the percentage of guaranteed months or miles, whichever is greater representing usage received. Engines used in trucks are guaranteed 90 days or 4,000 miles, whichever comes first. Periodic service or proof of service is required to keep guarantee in effect.

THIS COUPON WORTH **\$50**

This coupon worth \$50 toward the purchase of any installed remanufactured 6 or 8 cylinder engine from Sears. Limit one coupon per customer per engine.
