## Farmer angered

**ANGRY FARMER** beats a policeman with a stick in Brussels Tuesday after thousands of farmers from six western European nations went on a rampage in the Belgian capital. The farmers were demonstrating for higher prices for farm products. Police estimated 70,000 participated. (UPI) (See story page 18)

## Plant manager tagged

**BURLEY** — Ore-Ida officials today announced the appointment of Evan (De) Nelson as manager for the Burley factory.

Vice-president of operations for the firm, Gerald D. Herrick, said Nelson will report to Peter S. Helming, general manager of manufacturing.

Herrick said that Nelson will oversee the entire two plant Burley operation, including over 1,000 people employed in three shifts.

The Ore-Ida complex in Burley puts out in excess of 100 million pounds of processed potatoes a year.

Nelson began his career in potato processing with Idaho Potato Processors, Inc., at Burley in 1960. He joined Ore-Ida in October of 1964 when the company purchased Idaho Potato Processors, Inc.

Nelson's first Ore-Ida assignment was in the Burley factory production department from 1964 to 1968. His last Burley assignment was as production manager over the combined two-factory complex.

In October of 1968 he was assigned to the company's corporate headquarters in Boise as administrative assistant to the vice-president of operations. In June of 1970, he was promoted to manager, packaging coordination.

Nelson was born in Idaho Falls and attended elementary and secondary schools at Pocatello. He received his bachelor of arts degree from Idaho State University in 1960. He is the son of Mr. and Mrs. Evan L. Nelson of Pocatello.

He married the former Darlene Williams, daughter of Mr. and Mrs. Forrest Williams of Twin Falls. They have two daughters, Lori, five, and Lisa, eight. His family will move from Boise in early June after the school year is over.

Nelson has been active in the Boise Junior Achievement Program and the Boise Civitan Service Club.

# U.S. leaves border base

**SAIGON (UPI)** — American troops today began a pullout from the Khe Sanh headquarters of the U.S. support of the Laotian campaign. The remaining handful of South Vietnamese forces in Laos moved back across the border under heavy Communist fire.

Communist troops and tanks were reported moving east from Laos toward Khe Sanh, which came under heavy rocket attack today.

South Vietnamese spokesmen said there were 2,000 to 3,000 troops left in Laos from the peak of 24,000 soldiers who carried out a six-week drive to cut the Ho Chi Minh Trail, the primary Communist supply line into South Vietnam and Cambodia.

UPI Correspondent Stuart Kellerman said flight after flight of C130 Hercules transport planes airlifted men and

supplies out of Khe Sanh on an around-the-clock schedule. More than 80 rockets hit the Khe Sanh airstrip early today.

South Vietnamese Marines conducted their pullout from Laos without radio communications in an effort to keep their movements secret, Saigon sources said.

Kellerman said troops pulling out of Khe Sanh included 100 men from the 101st Airborne Division, Air Force administrative units and South Vietnamese Rangers and Marines who had guarded the base perimeter.

The Laotian drive, which began Feb. 8,

Communist armor and infantry units were reported moving

east toward the base from Laos. U.S. spokesmen said 101st Airborne Division helicopters attacked three Soviet-made tanks less than a mile west of the border town of Lao Bao on Highway 9.

The choppers destroyed one tank and damaged the others. Air strikes knocked out three other tanks six miles northwest of Lao Bao.

"The way the Communists are moving, they'll be on top of this place (Khe Sanh) in a week," said 1st Lt. Erick Hentz, 25, of Spokane, Wash., a helicopter pilot.

An officer supervising the withdrawal from Khe Sanh said, "We want to get the heavy things out as soon as possible. The way the withdrawal (from Laos) is going we may have to move out quickly and we want to be as mobile as possible."

## Israel bends... slightly

By United Press International  
Israel has agreed to provide the United States with guidelines for drawing up a Mideast peace settlement map, but has made it clear it will not give up its secure borders in exchange for an international peace-keeping force.

Government sources said Prime Minister Golda Meir and top cabinet aides had decided to give the United States "guiding principles" on what it would consider acceptable Arab-Israeli borders in a settlement.

The sources also said Mrs. Meir, in conversations with U.S. Ambassador Walworth Barbour in Jerusalem Tuesday, made it clear Israel would not give up its secure borders in exchange for an international peace-keeping force as proposed by the United States.

At the same time, a top Israeli general warned "The war is not over yet." Lt. Gen. Haim Bar-Lev, chief of staff of the Armed Forces, told a group of paratroopers Tuesday "Although there is no shooting now, and all is quiet on the Egyptian border, we must nevertheless be prepared for a possible resumption of the war."

# Ketchum eyes ban on heavy industry

By WARREN GOSSETT  
Times-News Correspondent  
**KETCHUM** — In a precedent-setting move, the Ketchum City Planning and Zoning Commission Tuesday sent a letter to the city council recommending zoning to prohibit heavy industry which might pollute the air or water in the community.

The planning commission recommended the city amend Ordinance 85 to prohibit heavy industry and re-zone several areas previously zoned industrial to light industrial, to protect the recreational aspect of the area.

The council will consider the recommendations during its April 5 meeting, according to Betty Coles, city clerk.

Under provisions of the recommendation any factories

or plants which would "emit dust, fumes, odors, refuse or smoke from within its premises" would be prohibited. Such plants listed were junkyards, auto wrecking yards, dumping operations, rendering plants or concrete or asphalt plants.

Defined under light industrial operations, which would be permitted, are laboratories for research or testing, such as electronics; manufacturing, including toys, drugs, precision instruments, textiles, candy and food products; publishing or printing establishments, warehouses, lumberyards, blacksmith shops and cabinet shops.

Under the proposed amendment in the city ordinance, sawmills or planing mills would be prohibited.

The recommendations stress the necessity for the firm to keep any substance which might cause pollution confined within its premises, Mrs. Coles said.

# Nixon lumps Peace Corps, Vista units

**WASHINGTON (UPI)** — President Nixon proposed today a new volunteer program called action, merging the Peace Corps, Vista, and a number of lesser-known federal programs such as the Teacher Corps and Foster Grandparents.

In a special message to Congress, the President said the new agency would tap undeveloped potential of Americans who would like to volunteer their service.

"America must enlist the ideals, the energy, the experience and the skills of its people on a larger scale than it has ever done in the past," Nixon said. "We must insure that these efforts be used to maximum advantage."

The message filled in the details of the volunteer agency

consolidation which Nixon first suggested in a speech at the University of Nebraska last year.

Nixon proposed including in the new agency these present groups: Volunteers in Service to America (VISTA), the Peace Corps, the Teacher Corps, Foster Grandparents, Retired Senior Volunteer Program, Service Corps of Retired Executives, Executives, Active Corps of Executives, Office of Voluntary Action and the Auxiliary and Special Volunteer Programs of the OEO.

Nixon proposed that the new agency, which would have 1,883 employees and would be independent, begin life with a budget of \$176.3 million, including \$156.3 million already earmarked for the various groups, plus an additional \$20 million to pay for impulsive new programs.

# San Francisco mayor charged

**SEATTLE, Wash. (UPI)** — Mayor Joseph L. Alioto of San Francisco and three former Washington State officials were indicted Tuesday by a federal grand jury on charges of bribery, mail fraud and conspiracy in an alleged \$2.3 million fee-splitting arrangement.

Alioto, who was flying back to San Francisco from a meeting at the White House when the indictment was issued, said it was a "14-carat fake" that he would plead innocent and expected to be "vindicated."

U.S. Attorney Sam Pitkin said the defendants will be arraigned on the nine-count indictment either Thursday or Friday.

John J. O'Connell, former Washington Attorney General; George K. Faler, O'Connell's former assistant; and John G. McCutcheon, former prosecutor in Pierce County, Wash.

The charges grew out of Alioto's sharing with O'Connell and Faler more than \$600,000 of \$2.3 million in legal fees he received in an anti-trust suit brought for 15 Washington cities and public utilities districts. The incident occurred before Alioto was elected mayor in 1967. He is a Democrat.

The government said the indictments were not connected with charges by Look Magazine that Alioto had connections with organized crime. Alioto has a \$12.5 million libel suit pending against Look.

## Drunk sentence pondered

**TWIN FALLS** — Idaho Supreme Court justices were back in session here today to hear additional appeal cases including a test case of the state's mandatory drunken driving jail sentence.

Scheduled for this afternoon, the case involves an appeal from the Fifth Judicial District Court by the state of Idaho in its case against former Twin Falls County Probate Judge Eugene L. McCoy.

District Judge Theron W. Ward ruled in favor of the probate judge who had sentenced Ernesto Medina to 30 days in jail and a fine on a conviction for driving while intoxicated and then suspended the jail sentence.

Prosecuting Attorney Robert Galley moved in district court for a writ of mandate to compel the probate judge to carry out the mandatory ten day jail sentence.

Judge Ward denied the motion on grounds the state statute which made the jail sentence mandatory was in conflict with other statutes and the state appealed the case to the higher court.

Wednesday morning the high court heard arguments in the case of Charles Edwin Skaggs and Skaggs Furniture Co., Inc., against Harlan and Betty Jensen and Sears Roebuck Inc., involving a contract for operation of a furniture store in the Overland Shopping Center, Burley.

## Step saver

**UNLOADING** — Buildings at the Miller Stockman Co. in Denver, where workers will be dismantled soon, is done in a novel way. A shoring built of concrete form blocks above the steel structure is used for the shoring. (UPI)

# 12% jump ICC approves rail freight rate hike

**WASHINGTON, D.C.** — Freight rate increases averaging nearly 12 per cent were granted to American railroads Tuesday by the Interstate Commerce Commission.

ICC officials said the increase was the fifth major freight rate hike since 1958. It is expected to provide an additional \$1.3 billion in revenue for the railroads.

While the ICC granted most of

the railroads' initial request — a 15 per cent hike had been asked — the agency criticized the quality of freight service, particularly accusations of pilferage and unreliable service.

However, the ICC rejected shippers' proposals calling for railroads to meet service standards or pay penalties.

Despite the increases, which may go into effect in 15 days, the railroads could ask for more freight rate increases to offset

another round of pending wage settlements expected to climb 4.4 per cent over the next three and a half years.

Actual rate increases approved vary from 14 per cent for Eastern lines to six per cent for roads in the South. The ICC also decreed that increases on some products such as fruits, vegetables, lumber and grain be held to varying levels below 12 per cent.

## Solons chart district lines

**BOISE (UPI)** — Both Houses of the Idaho Legislature broke into regional groups again today to study reapportionment and it appeared their success hinged on solving the problems of southwestern Idaho.

"This is the key to it," said House Speaker William J. Lanting, R-Hollister. "You've got to solve this before you can solve anybody's problems."

Tuesday night it appeared southwestern Idaho pretty well had its problems resolved, particularly the Oregon border area involving Payette, Washington and Adams Counties.

Because a portion of one of those districts was short of enough population there was

talk of giving it the northern part of Ada County. That plan fizzled by morning, however.

Representatives from inside Boise City still had not resolved their problems, either. There was talk of splitting the Boise State College area among more than one district.

Some legislators balked, however, contending this would diffuse the representation for the young people at the college.

Lanting took Rep. Edward V. Williams, D-Lewiston, to a regional meeting of southwestern Idaho legislators so Williams could discuss what a southwestern proposal did to northern plans.

Williams said north Idaho already had a plan drafted but said a southwestern proposal to take the southern part of Idaho County into District 9 would mean pulling part of District 6 in the Lewiston Orchards area further west.

## Kellwood to raise output

**TWIN FALLS** — A spokesman for the Twin Falls Kellwood-hosiery plant said Tuesday that the plant is expected to be at full production by the end of the year.

William Satterfield, manager, said the plant's current work force of 425 people should be expanded to between 600-625 persons by the end of 1971.

The current production rate of 20,000 dozen pair of hose per week should be increased by 40 per cent to 28,000 dozen pair per week, he said.

The plant payroll is currently \$2 million per year.

Satterfield said about 80 per cent of the Twin Falls plant is party owned.

## E.B. Hicks heads NFO

**TWIN FALLS** — E. B. (Bill) Hicks, Buhl, was re-elected president of the Twin Falls County National Farmers Organization Tuesday night during a county-wide meeting in the judicial building, Twin Falls.

Other officers elected included Leo Stanger, Murtaugh, vice president; Thayne Roberts, Buhl, secretary; treasurer, and Richard Howard, Buhl, livestock chairman.

Barney Hoppe, Paul, assistant NFO area marketing chief, played a tape recording of the 1970 NFO area meeting in Washington, D.C., in protest of the NFO's position on the Vietnam war.

## Calley's jurors lauded

**FT. BENNING, Ga. (UPI)** — Jurors in the My Lai court-martial of Lt. William L. Calley Jr. heard more re-reading of testimony today and were complimented by the judge for their painstaking deliberation.

"The jurors in this case are doing more than can be expected of them," Col. Reid W. Kennedy, the judge, told defense counsel George W. Latimer.

His remarks seemed to be a judicial reply to Latimer's charge Tuesday that the jury had been "wasting and delaying" and taking too little time in deliberation.

At the jury's request, it was read testimony today of a prosecution witness who said he saw Calley firing into a ditch where the government charged the 22-year-old former platoon leader murdered at least 70 of the 149 My Lai villagers he is accused of slaying.

It also heard the re-reading of a deposition of a prosecution witness who said he saw Calley firing into a ditch where the government charged the 22-year-old former platoon leader murdered at least 70 of the 149 My Lai villagers he is accused of slaying.

### Steel jaws bite

SPRING brings demolition time for several buildings in downtown Twin Falls which weren't razed in 1970 by the Urban Renewal Agency. A contract has been signed with a firm to demolish those structures, and heavy construction — or destruction — machinery is chomping busily. This grim-looking unit was knocking down the old building at the corner of Second Avenue East and Second Street East. (Times-News Photos by Lee Tremaine)

## Rate hike hearing April 15

BOISE — A public hearing on a request to increase rail freight rates in Idaho by six per cent has been set for 9:30 a.m. April 15 by the Idaho Public Utilities Commission.

The hearing will be conducted in Room 301 of the Industrial Administration Building in Boise.

Commission spokesmen said the application to increase freight rates and charges by six per cent has been submitted by all Idaho railroad lines.

Submitting the application were the Burlington Northern Inc.; Camas Prairie Railroad Co.; Chicago, Milwaukee, St. Paul and Pacific Railroad Co.; Spokane International Railroad Co.; Union Pacific Railroad Co., and Washington, Idaho and Montana Railway.

## Collision injures T.F. pair

TWIN FALLS — Two persons were treated for minor injuries and released from Magic Valley Memorial Hospital following a traffic accident Tuesday evening.

City police said Kim Orson Thomson, 19, Twin Falls, and a passenger, Sharon Thomson, 19, also Twin Falls, suffered minor injuries when their vehicle and one driven by P.R. Carpenter, Route 1, Ashton, collided.

The 1966 sedan driven by Thomson was demolished. Damage to the Carpenter vehicle, a 1963 pickup truck, was estimated at \$300.

Officers said the Thomson vehicle was going south and the other traveling west when they met at the intersection of Fifth Avenue East and Fifth Street East. Carpenter escaped injury.

The Girls Scouts of America was founded in 1912.

# Gem solons due 18-year-old vote study

BOISE (UPI) — Gov. Cecil D. Andrus said Tuesday he will amend his call for a special legislative session to include possible ratification of a constitutional amendment on 18-year-old voting.

The U. S. House of Representatives completed congressional action on the amendment earlier Tuesday and two states — Minnesota and Delaware — immediately ratified it.

Andrus said the ratification of the amendment to permit 18-year-olds to vote in state and local elections is one of two or three items he already is planning to add to his call.

So far, Andrus has charged

this special session of the legislature with legislative reapportionment, congressional redistricting and restructuring of the political parties on a one man, one vote basis.

"I fully intend to amend the call on 18-year-old voters," Andrus told United Press International when he returned to the statehouse from a quick trip to Portland, Ore.

"As you recall my background on this issue I preceded Congress in recommending 18-year-olds be allowed to vote."

Andrus said he also intends to include an appropriation for the public employees retirement session in amending the call for

the special session, which got under way at noon Monday. The House killed a \$362,000 appropriation for employees retirement system Saturday in the final minutes of the first regular session because the Senate trimmed out money for an office building.

The governor said he wants to wait a "couple more days" before amending the call to determine if there are other legislative miscues or oversights which may need correction during the special session of the legislature.

Lt. Gov. Jack Murphy and most legislative leaders agreed the call should be amended to

include the 18-year-old voting amendment.

"The special session is called for the purpose of settling all questions as to electioneering and this type of question," Murphy said, "and having Idaho conform with the United States Supreme Court decision on one man, one vote."

"It is entirely consistent to have it (18-year-old voting) before us at this time," he said.

House Speaker William J. Lanting, R-Hollister, said he felt the governor would want to explore the attitudes of the legislature before throwing the question before them.

Earlier this year both houses of the Legislature — without a dissenting vote — agreed to put before Idahoans at the 1972 general election a state constitutional amendment to do the same thing as the proposed amendment to the federal constitution.

But Lanting said that vote and one to ratify the federal constitution were two different things. The earlier vote, he said was to put the question before the people.

Ratification of a federal amendment by the state Legislature would not be putting the question before the people. The U. S. Constitution can be ratified if three fourths of the state legislatures approved the amendment proposed by the Congress.

"I still think it is a good idea to consider it," Lanting said, but he added, "I'd sure hate to see it considered and fail."

Senate President Pro Tem James Ellsworth, R-Leadore, said if the governor has decided to put the question before the legislature "we'd just as well handle it."

"I think it'll go through all right," Ellsworth said.

### Strange theft

BERKELEY, Calif. (UPI) — All but six copies of a recent edition of the Daily Californian were stolen and the student newspaper's city editor couldn't imagine why. "It was a very dull issue — no politics, no obscenities, no nothing," said Trish Hall, 20.

Assistant Senate Minority Leader John P. Mix D-Moscow, said "that'll be the easiest thing we can accomplish."

Assistant House Minority Leader William J. Murphy, D-Wal-lace, said it will be a very "interesting thing to do it."

Senate Majority Leader Wayne Kidwell, R-Boise, said he felt it would be a good idea to include the question in the call. He said the legislature already

has given a clear expression of how it feels about the question.

"I think it's only a question of time and I'm glad they (the Congress) faced up to it," Kidwell said. "I think we ought to lend our support to Congress and while we are in special session it is a good time to do this."

"It is rather germane to the reapportionment process," Kidwell added.

## Expansion pact set

TWIN FALLS — A "pre-construction conference" today in the offices of the CTA Architects signaled the formal awarding of a \$53,920 contract to Earl Peck Construction Co. to enlarge the Twin Falls offices of The Idaho State Department of Employment, 403 3rd St. N.

John Leinen, manager of the employment office, said approval has been received from the state department of employment and the commissioner

of public works in Boise. Construction is to begin within 10 days after awarding of the contract, with completion ordered in 120 days, Leinen said.

The project will add additional office space to the present offices with an addition to the east of the present building, Leinen said.

The pre-construction conference was called to present details of the project to the news media and all other interested persons.

## Idaho highways slick

BOISE (UPI) — Idaho's mountain roads were slippery from snow and ice today while elsewhere in the state major roads were slick from rain.

State Highway 51 was closed from Mountain Home south. State highway 32 in Eastern Idaho also was closed.

By road, this was the report from the State Department of Highways and Law Enforcement:

U. S. 95 — Cuddeback Hill, Whitebird Hill, rolling rock. Interstate 90, U. S. 10 — Lookout Pass, snow floor, snowing.

U. S. 12 — Lolo Pass, icy spots.

State Highway 55 — Banks

Canyon to Cascade, icy spots, snowing.

U. S. 93 — Lost Trail Pass, snow floor; Galena to Stanley, broken snow floor.

State Highway 21 — Idaho City to Lowman, slick, broken snow floor, snowing; Mores Creek to Idaho City, icy spots.

State Highway 51 — Closed from Mountain Home south.

State Highway 31 — Icy spots. State Highway 32 — Closed. State Highway 238 — Gilmore Hill, icy spots.

U. S. 191 — Ashton Hill, West Yellowstone, broken snow floor, light snow.

## Rate trial delayed

BOISE (UPI) — Federal Judge Fred M. Taylor has postponed at least 30 days trial of a lawsuit in which the state is trying to force national banks to lower credit card interest rates to 12 per cent from 18.

Attorneys for the state and for the Idaho First National and First Security banks agreed to the postponement, Judge Taylor said.

He said the delay was sought several weeks ago when outcome of the uniform consumer credit code in the 41st Legislature still was in doubt.

The lawmakers last Saturday approved and sent to the governor a version of the code setting the maximum annual interest rate on bank credit cards at 15 per cent.

## Parking spaces offered

TWIN FALLS — Additional parking spaces to be leased on a month to month basis will be available next week, Jean Millar, city manager, said today.

The spaces are now being prepared by city crews on the old Bill Workman Ford used car lot on the corner of Third Avenue and Second Street East.

Millar said the spaces, available at \$5 per month, may be reserved at the city clerk's office. This is one of several lots in operation by the city as a result of the Urban Renewal Program in which the property acquired and cleared will be used for parking until it is purchased or otherwise used for commercial purposes.

## Pupil hurt in mishap at Lincoln

TWIN FALLS — City police said today a seven-year-old Lincoln School pupil escaped serious injury in a car-pedestrian accident in front of the school on Second Avenue North Tuesday afternoon.

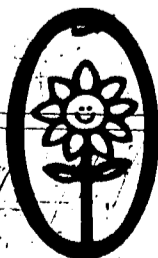

Steven W. Bond, 20, was driving west in front of the school when the child, Kevin D. Labrum, ran from the sidewalk into the path of the car, officers said. The child is the son of Mr. and Mrs. Don Labrum, Route 3.

The child suffered cuts and bruises and was taken to Magic Valley Memorial Hospital by his mother where he was treated and released. The accident occurred at 3:17 p.m. as the child was leaving school for the day.

## GREENBACK SPECIAL

# ONE DOLLAR FREE

YOUR ROUTEMAN OR SALES CLERK WILL GIVE YOU A CRISP NEW \$1.00 BILL WITH ANY DRY CLEANING ORDER OF \$5.00 OR MORE.

## Troy National LAUNDRY CLEANERS

Offer Expires May 1, 1971

# Chevrolet Impala. All the reason you could want for buying a big car.

Impala. Big in what it builds in for you. Like a longer, smoother wheelbase that absorbs much of what your body used to. A new double panel roof that absorbs much of the noise your ears used to. More roominess than any other car in its field. A new power ventilation system that keeps on bringing you outside air, even when the car's standing still. You even get standard power disc brakes, up front. Impala. Big in built-ins. Big in trade-in value.

## And now, two new reasons for buying something sportier.

### Announcing Rally Nova. 60th Anniversary Special No. 1.

Chevrolet's been making cars now for 60 years. That's reason to celebrate. And to offer you Rally Nova.

Which is a regular Nova we've done up. By adding accent stripes. A black grille. A remote-control sport mirror. Color-keyed carpeting. Bright roof molding. A special suspension.

And wider 14 x 6 rally wheels. We offer you a selection of the standard 6 or V8 engine. Or a bigger V8. All run just fine on no-lead, low-lead gasoline, too.

Rally Nova. The economy car that puts you first, by looking like it costs a lot more than it does.

### Announcing Heavy Chevy. 60th Anniversary Special No. 2.

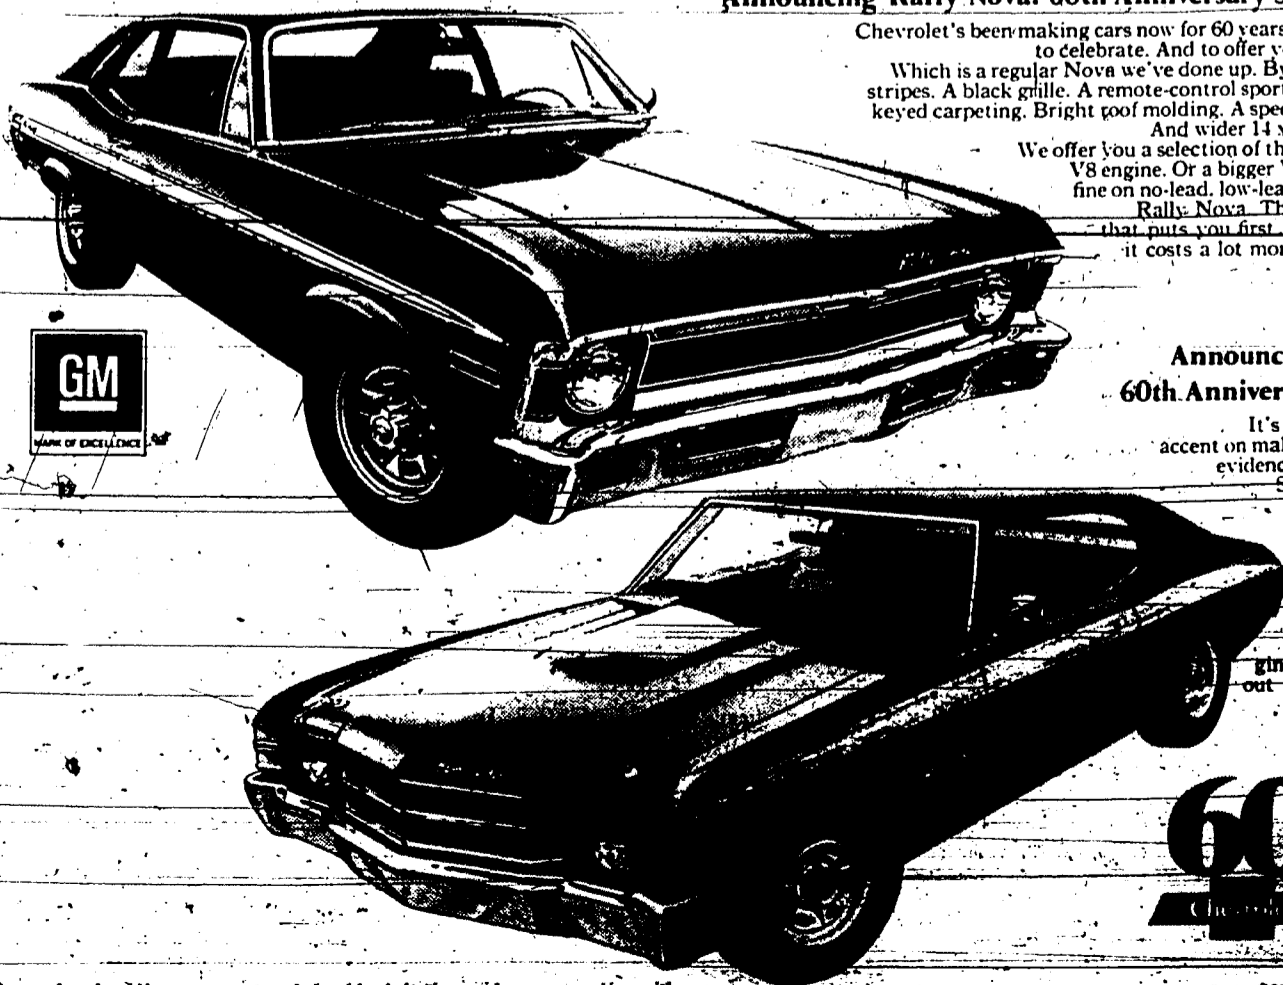

It's a Chevelle with a heavy accent on making its presence felt. As evidenced by its special stripes.

Special identification on the side. Special domed hood with lock pins.

Black grille. And 14 x 6 rally wheels.

Some more nice things: It's available with our standard V8, or three bigger engines. Which all move right out on no-lead or low-lead gasoline.

Heavy Chevy. Only its price is light.

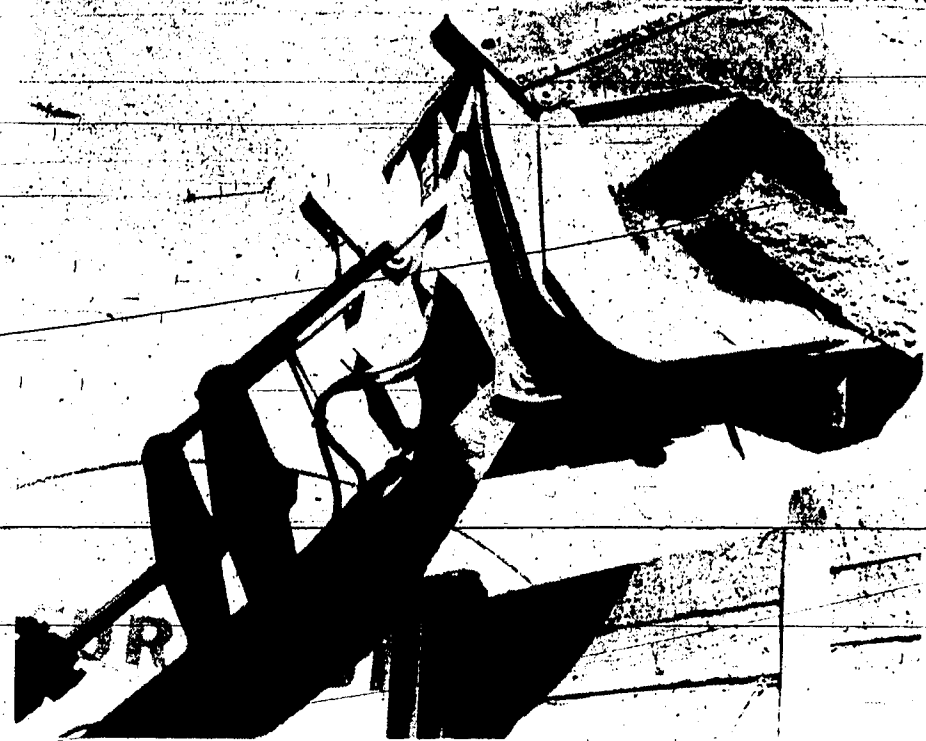

Remember, buckling your seat and shoulder belts is an idea you can live with.

State Highway 51 was closed from Mountain Home south. State highway 32 in Eastern Idaho also was closed.

By road, this was the report from the State Department of Highways and Law Enforcement:

- U. S. 95 — Culesac Hill, Whitebird Hill, rolling rock.
- Interstate 90, U. S. 10 — Lookout Pass, snow floor, snowing.
- U. S. 12 — Lolo Pass, icy spots.
- State Highway 55 — Banks Canyon to Cascade, icy spots, snowing.
- U. S. 93 — Lost Trail Pass, snow floor; Galena to Stanley, broken snow floor.
- State Highway 21 — Idaho City to Lowman, slick, broken snow floor, snowing; Mores Creek to Idaho City, icy spots.
- State Highway 51 — Closed from Mountain Home south.
- State Highway 31 — Icy spots.
- State Highway 32 — Closed.
- State Highway 238 — Gilmore Hill, icy spots.
- U. S. 191 — Ashton Hill, West Yellowstone, broken snow floor, light snow.

## Rate trial delayed

BOISE (UPI) — Federal Judge Fred M. Taylor has postponed at least 30 days trial of a lawsuit in which the state is trying to force national banks to lower credit card interest rates to 12 per cent from 18.

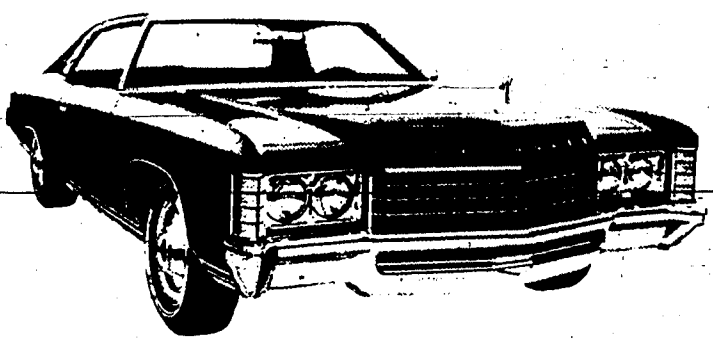

Attorneys for the state and for the Idaho First National and First Security banks agreed to the postponement, Judge Taylor said.

He said the delay was sought several weeks ago when out come of the uniform consumer credit code in the 41st Legislature still was in doubt.

The lawmakers last Saturday approved and sent to the governor a version of the code setting the maximum annual interest rate on bank credit cards at 15 per cent.

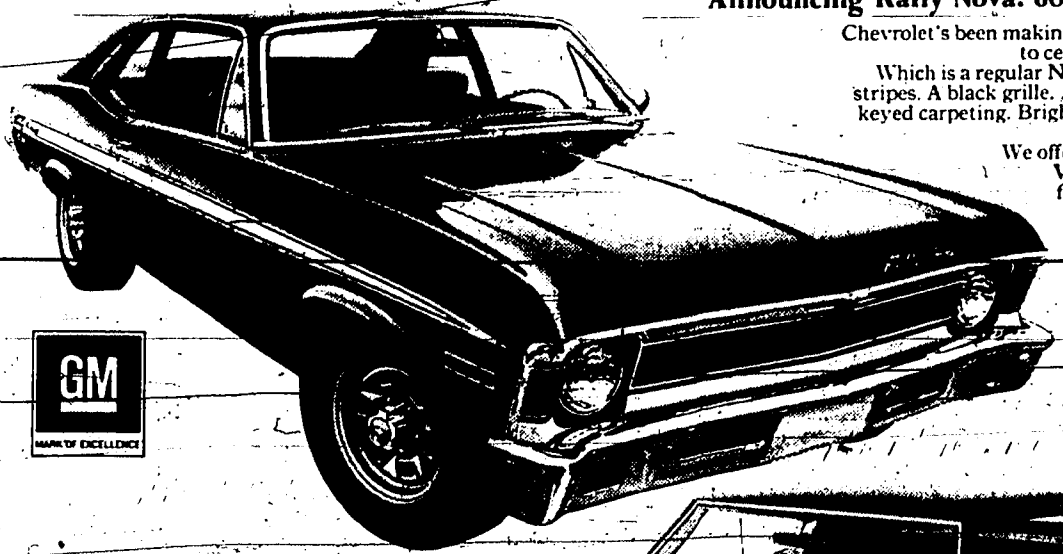

## Chevrolet Impala.

# All the reason you could want for buying a big car.

Impala. Big in what it builds in for you. Like a longer, smoother wheelbase that absorbs much of what your body used to. A new double panel roof that absorbs much of the noise your ears used to. More roominess than any other car in its field. A new power ventilation system that keeps on bringing you outside air, even when the car's standing still. You even get standard power disc brakes, up front. Impala. Big in built-ins. Big in trade-in value.

## And now, two new reasons for buying something sportier.

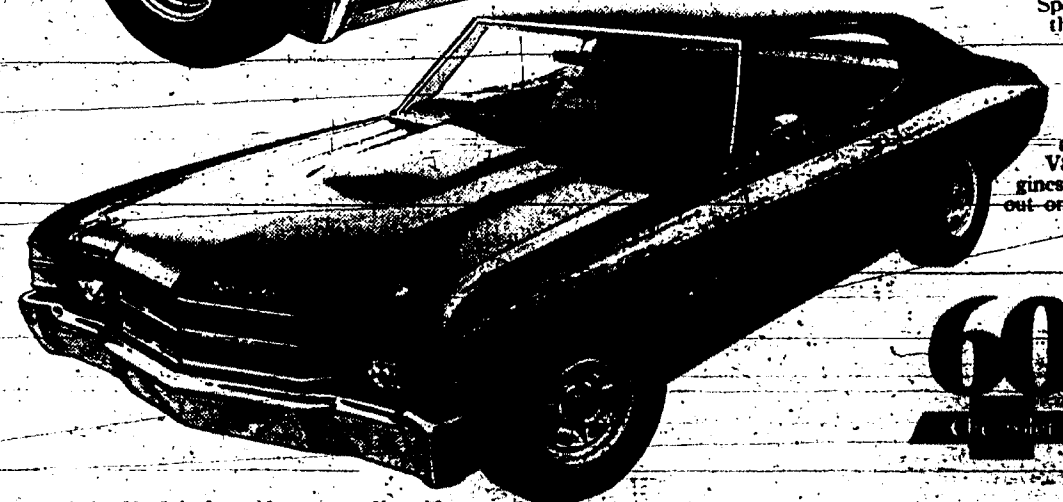

### Announcing Rally Nova. 60th Anniversary Special No. 1.

Chevrolet's been making cars now for 60 years. That's reason to celebrate. And to offer you Rally Nova. Which is a regular Nova we've done up. By adding accent stripes. A black grille. A remote-control sport mirror. Color-keyed carpeting. Bright roof molding. A special suspension. And wider 14 x 6 rally wheels. We offer you a selection of the standard 6 or V8 engine. Or a bigger V8. All run just fine on no-lead, low-lead gasoline, too. Rally Nova. The economy car that puts you first by looking like it costs a lot more than it does.

### Announcing Heavy Chevy. 60th Anniversary Special No. 2.

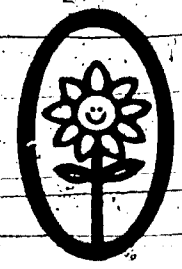

It's a Chevelle with a heavy accent on making its presence felt. As evidenced by its special stripes. Special identification on the side. Special domed hood with lock pins. Black grille. And 14 x 6 rally wheels. Some more nice things: It's available with our standard V8, or three bigger engines. Which all move right out on no-lead or low-lead gasoline. Heavy Chevy. Only its price is light.

### GREENBACK SPECIAL!

# ONE DOLLAR FREE

YOUR ROUTEMAN OR SALES CLERK WILL GIVE YOU A CRISP NEW \$1.00 BILL WITH ANY DRY CLEANING ORDER OF \$5.00 OR MORE.

## Troy National LAUNDRY CLEANERS

Offer Expires May 1, 1971. Times-News—ACE PPL.

## Parking spaces offered

TWIN FALLS — Additional parking spaces to be leased on a month to month basis will be available next week, Jean Milar, city manager, said today.

The spaces are now being prepared by city crews on the old Bill Workman Ford used car lot on the corner of Third Avenue and Second Street East.

Milar said the spaces, available at \$5 per month, may be reserved at the city clerk's office. This is one of several lots in operation by the city as a result of the Urban Renewal Program in which the property acquired and cleared will be used for parking until it is purchased or otherwise used for commercial purposes.

## Pupil hurt in mishap at Lincoln

TWIN FALLS — City police said today a seven-year-old Lincoln School pupil escaped serious injury in a car-pedestrian accident in front of the school on Second Avenue North Tuesday afternoon.

Steven W. Bond, 20, was driving west in front of the school when the child, Kevin D. Labrum, ran from the sidewalk into the path of the car, officers said. The child is the son of Mr. and Mrs. Don Labrum, Route 3.

The child suffered cuts and bruises and was taken to Magic Valley Memorial Hospital by his mother where he was treated and released. The accident occurred at 3:17 p.m. as the child was leaving school for the day.

Remember, buckling your seat and shoulder belts is an idea you can live with.

Tuna-Bananas

Ecuador's repeated seizures of American tuna fishing boats within 200 miles of the Ecuadorian coast is stirring the anger of American taxpayers who are footing the bills...

the U.S., to harass the tuna fishermen. Ecuador's increasing greed may prove expensive in the long run but so long as the State Department advises U.S. fishing vessels to ignore the arbitrary 200-mile limitation and continues to reimburse the vessels the price of their ransom, the arrests and fines can be expected to continue.

Appreciated

The Sisters who teach at St. Edward's Catholic School in Twin Falls will be missed. The school is to close this spring and will not be reopened.

friends. The teaching Sisters of the Order Of The Immaculate Mary will be called from Twin Falls. They are the victims of the times in which we all live.

They Disappear

Between 500,000 and a million persons will drop from sight in the United States this year. Some of them will disappear for a short time. Others will never be seen again by former friends and relatives.

chances are he can get away with it. Two factors make it easy for a person to disappear. There is no law against disappearing and police will drop a voluntary disappearance case as soon as they satisfy themselves that is what it is — and that the person in question has done nothing illegal.

MR. SPECTATOR

About Cheating

We have some honest students at the Robert Stuart Junior High School if you believe what you read in the most recent "Bear Facts" newspaper put out by the students. A front page article on cheating is an eye-opener. Let's quote from it: "The majority of the students here at Robert Stuart are guilty of this crime! Cheating involves a large number of things including copying another person's paper when we haven't bothered to do our own, devising a code to be used particularly during tests, writing down some of the test answers beforehand on our desk or finger, and worst of all copying down the answers to an assignment right out of the teacher's book."

know as well as I that this excuse isn't valid. Anyone can be an "A" student without cheating just by studying a generous amount every evening and completing assignments on time. "Just a reminder the next time when you cheat on a test, or copy someone else's assignment that you aren't hurting anyone but yourself." So hats off to "Lulu" who wrote the page one article. In Mr. Spectator's day very few kids admitted to cheating — and even if caught they would deny it. One of the most outstanding cheaters in Mr. Spectator's day was a gal who wrote the answers on her thigh. That was in the days of the long skirts and there was a great rush to sit in the row next to her. We boys were interested in all the answers, you know!

ANDREW TULLY

First Robin Is Daniel Boone

WASHINGTON — By now the Tenth Robin is settled in the northland, accepted as a solid and respectable citizen. He sits behind a big desk, dictating imperious memos, his mien solemn and his manner brusque and decisive. The Tenth Robin is of the breed earmarked for big things — definitely top executive timber. Socially, he is the kind who will never find himself in an embarrassing position. Already, one can picture him as president of the local luncheon club. Politically, the Tenth Robin is safe, too. He doesn't go for all that progressive stuff, and says folks would be a lot better off without the luxuries they buy on the installment plan. He has an impatient contempt for the robin down the street who suggests mildly that even Russian robins might appreciate a juicy worm. He sees foreign robins as trouble makers who should behave themselves or go back where they came from.

Meanwhile, the First Robin is all but forgotten. His name is mentioned only to disown him as a mere adventurer, an irresponsible fool. For the First Robin was wrong. He arrived too soon. To be sure, the First Robin was a brave figure as he flattered down from the sky and alighted on a branch of your apple tree. He was shivering from the cold, but his head was cocked perky and there was a cheery smile on his beak. And his song was sweet after he'd feasted off the bread crumbs tossed onto the snow. But it wasn't long before the First Robin was discredited. A few days after his arrival, the wind blew and the snow fell and the mercury plummeted. His song and his cheery presence had informed you that it was spring, and you had made your plans. But now it was winter again and a new fuel bill had arrived in the mail. So the First Robin was forced to fly away into exile — into a lonely wood creaking with ice-

laden branches. He had been too eager. He had set out from the southland simply because it seemed a fine thing to do. Wiser heads had sought to restrain him, but he had seen only that it seemed a wonderful day to fly, and he had taken off with a cheery goodbye, his heart full of hope. The Tenth Robin, on the other hand, had approached the matter with common sense. He had not been fooled by sunny days in Pennsylvania or by blazing forsythia in Virginia. He had checked all the weather reports until they assured him that spring indeed was headed north. Then he packed his bag carefully — tucking in a pair of galoshes for insurance — and took off. Sure enough, he and spring made it together. Today, it would seem, the Tenth Robin's planning has paid off. He has been asked to address the Boosters Club. He modestly accepts credit for budding tulips and wine-filled zephyrs. The First Robin is a nobody, perched on a park bench with the rest of the faceless. Yet, though he end up in a pool hall, the First Robin gets this vote. He was wrong, but what of it? Nobody can be right who refuses to take a chance. The First Robin stuck

Wiser heads had sought to restrain him, but he had seen only that it seemed a wonderful day to fly, and he had taken off with a cheery goodbye, his heart full of hope. The Tenth Robin, on the other hand, had approached the matter with common sense. He had not been fooled by sunny days in Pennsylvania or by blazing forsythia in Virginia. He had checked all the weather reports until they assured him that spring indeed was headed north. Then he packed his bag carefully — tucking in a pair of galoshes for insurance — and took off. Sure enough, he and spring made it together. Today, it would seem, the Tenth Robin's planning has paid off. He has been asked to address the Boosters Club. He modestly accepts credit for budding tulips and wine-filled zephyrs. The First Robin is a nobody, perched on a park bench with the rest of the faceless. Yet, though he end up in a pool hall, the First Robin gets this vote. He was wrong, but what of it? Nobody can be right who refuses to take a chance. The First Robin stuck

his neck out; he was willing to gamble on being first, and though he lost, there is something glorious in his losing. The Tenth Robin, after all, is merely a success. But the First Robin is Daniel Boone.

GEORGE C. THOSTESON, M.D.

"Teet-Zee's"

Dear Dr. Thosteson: I've been in pain for eight months with what my doctor called "Teet-Zee's disease." That's the way it sounds. I understood it to be a sprain of my ribs and breastbone, and he said it would be all right in six weeks — but eight months later it still hurts. Shouldn't it have healed by now? What causes it? What can I do to ease the pain or prevent it? Honestly, will it ever go away? — B.A. It's called Tietze's disease — pronounced just the way you wrote it. It is a painful swelling, usually where the second rib attaches to the breast bone. Yes, it is painful — it hurts to breathe or wear a bra, and usually occurs in women in the 30-to-40 age bracket. It is not cancerous; it is not a form of arthritis; and your doctor's forecast that it probably would be all right in six weeks was reasonable. It quite commonly works out that way. But not always — as you found out. Injection of a steroid (cortisone-type) material into the area usually affords relief. (A tip: heat, however, usually aggravates the pain.) Meantime — an interesting observation has been made by a physician who kept track of the patients with Tietze's disease. He noticed that five of them had one leg shorter than the other. The lump associated with the disease usually occurs on the left side; with these cases, the right leg was a bit shorter. While the cause of the disease has not been definitely determined, it seems likely that this observation might be an enlightening clue. Anyway, after noticing that seeming connection between the disease and a small difference in leg length, the doctor advised his patients to have a lift of 3/16 to 1/4 of an inch on the shoe, to equalize. It would seem to make sense, and you might well try it. Meantime, also watch out for high heels which could throw you out of balance.

came off and it bled a little. Would you suggest that I have this removed and if so how. Could there be a possibility of its being malignant? — G.E.R. Moles, when they bleed or begin to change in any way, are subject to suspicion. Yes, I'd get rid of it. How? Let your doctor decide on the best method, but he doubtless will want to have the tissues examined to see if early cancer is present. If so, a bit of the surrounding tissue probably would be removed too, for safety. Diverticulosis is a bulge in the digestive tract. To become more familiar with the subject, write for Dr. Thosteson's booklet, "Don't Let Diverticulosis Throw You," enclosing a long, self-addressed, stamped envelope and 25 cents in coin to cover cost of printing and handling. Dear Dr. Thosteson: Do you have a booklet about the lower tube being too large going to the stomach and it lets digestive juices back into the upper stomach causing burning? — M.E.C. I'm afraid that in your description you've taken some inadvertent liberties with the physiology of the stomach — but I'm likewise sure that the booklet you want is "Hiatal Hernia and Eight Ways to Combat It." Send 25 cents and a self-addressed, stamped envelope for a copy. You can lose weight if you really want to! Dr. Thosteson's booklet, "Lost Secrets of Reducing," tells you how — naturally and without gimmicks — to the level that best suits your individual needs. For a copy, write to Dr. Thosteson, care of this newspaper, enclosing 35 cents in coin and a long, self-addressed, stamped envelope. Dear Dr. Thosteson: With much embarrassment I am writing about a problem. Is it normal for a woman of 75 to have sexual desires or am I getting balmy? This is really upsetting, but I have heard of some others my age that had this trouble. I have been a widow for 10 years, never interested in remarrying. I S. This is not unusual in women past menopause, and not a sign that you are balmy. Not much to do about it — but don't waste your nerves by thinking that there's something wrong with you, or that it doesn't happen somewhat often than you hear about. Dr. Thosteson welcomes all reader mail, but regrets that, due to the tremendous volume received daily, he is unable to answer individual letters. Readers' questions are incorporated in his column whenever possible.

When passenger trains stop running, CAN WE DO WITHOUT... "DEAR ME! - I'VE FORGOTTEN WHERE I'M GOING!" ...THOSE 10-HOUR (OR 2-DAY) WAITS BETWEEN TRAINS? Shelton TRIBUNE-JOURNAL CO. INC.

PAUL HARVEY

The Vote At 18

President Nixon, already in gear for the 1972 presidential campaign, is planning more travel, more activism, more news conferences, more Cabinet meetings, fewer vacations. These are "cosmetic" changes. Unless the President is to be chased out of office by 11 million 18-, 19- and 20-year olds, he'd better throw out his unwanted war into full-speed reverse. It has been eight months since American troops went smashing across the Cambodian border, ostensibly seeking the Communist underground headquarters for the Vietnamese war. They never did find anything like the "nerve center" they were seeking. Another monumental intelligence snafu. And though our President got our troops out of Cambodia on schedule, South Vietnamese troops have had to rush to the rescue of the Cambodian government. This has resulted in hair-pulling intramural squabbling between those ancient enemies — Cambodia and South Vietnam — with allegations of atrocities by South Vietnamese against Cambodians! And further, though the Cambodian intrusion was intended to hasten withdrawal of American troops — it can't — because American troops must fill in back home for the South Vietnamese troops now in Cambodia. More devastating to Administration self-respect is the deteriorating morale of the third of a million American troops still over there. Not even the Pentagon pretends any longer that "our boys know what they are fighting for." They don't.

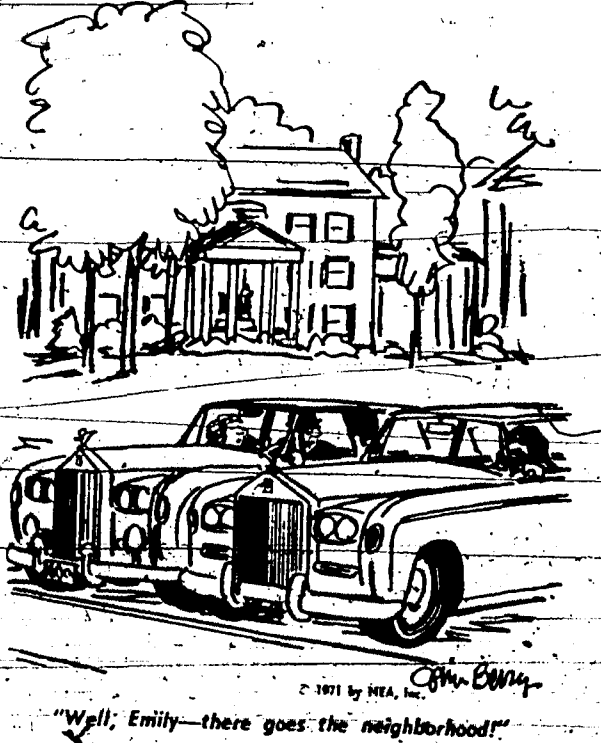

Bob Hope was cheered by 15,000 troops at the first stop on his 1970 Christmas tour but, when he introduced South Vietnam's Vice President Ky to that audience, almost total silence. Ky was not present at subsequent appearances. Never in any war heretofore have West Point commanders had to plead with their men to go on patrol. Nobody wants to be the last man killed in a dead-end war. An Congress hears evidence 60 per cent to 80 per cent of our GIs have been sampling the powerful Vietnamese brand of marijuana. Similarly, the home front has lost its stomach for this unwinnable war. The Army, required to continue recruiting, is enticing men to enlist by promising that they will not be sent to Vietnam. So nine out of ten of our foot soldiers in Vietnam are reluctant draftees. President Nixon's so-far announced rate of withdrawal will still leave a crumbling, grumbling force of some three-of-a-million Americans over there indefinitely. That's too long.

BERRY'S WORLD

Miner's Canary

By CHARLOTTE BELL Times-News Correspondent (Editor's Note: Fourth in a series on today's environment problems.) JEROME — Because man shares the natural environment with wildlife, pollution affects both. Most wild creatures, lower in the food chain, are more sensitive to a polluted environment. It follows, therefore, that wildlife is man's "miner's canary", an early warning signal to danger. When wildlife is endangered by a poisoned environment, so is man. The bald eagle, symbol of our country, is endangered in 48 states. Feeling the effects of DDT and other harmful chemicals, certain species of birds, including eagles, ospreys, peregrine falcons and now the brown pelican, have disappeared at an alarming rate. Scientists have proven that DDT is causing females to lay fragile and often infertile eggs. Loss of habitat is also of major concern to wildlife managers. It is estimated that a million and a half acres a year of prime wildlife habitat are being taken for highways, airports, housing and industry. Government at all levels is attempting to set aside "green acres" and wildlife living space, but acres lost still outstrip those that are saved. And what we have done to the fish life in the Great Lakes is incomprehensible as well as the fish in many of our own streams here in Idaho. The number of wildlife species on the official endangered list has jumped from 80 to 162 in the last year. Will we soon be adding man to that list if he should not already be there? Man's "canary" is ill; it is time to clean up the environment and restore wildlife habitat before the "canary" and we are fatally stricken.

Well, Emily - there goes the neighborhood!

# Smooth flow for new water plan by July 1

TWIN FALLS — Problems anticipated in putting the new Twin Falls City Irrigation System into operation should be resolved by about July 1, City Manager Jean Milar said today.

Council members discussed the new program in an informal meeting Monday afternoon and called for strict enforcement of provisions of the new ordinance establishing the city irrigation system.

Milar said persons wishing to receive the services of the city such as maintenance of ditches will be expected to join the system and pay the fees.

Those maintaining their own water rights and ditches will be required to keep the water in control. The council has advised the city manager it will not tolerate flooding of alleys and streets from such ditches.

Milar said there will be no

fees assessed for the ditch water in the city system this year and the coming summer will serve as an organizational period to determine which properties will become part of the district and which will not. On a basis of this summer's irrigation pattern the system will be set up to serve those wishing to join and the assessment rates established and the water delivery system established, Milar said.

Since the city is not responsible for handling the water deliveries Milar said the city crews will keep a watch on the situation and he believes by July 1 it will be possible to resolve most of the problems involved with creation of the new system.

The system was created by ordinance to regulate the surface or ditch water used for irrigation within the city. Most

of the city properties have turned their water rights over to the city to hold in trust because of the old water supply in which the city took water from Snake River through the Twin Falls Canal Co. system and treated and filtered it for domestic use.

Since this system was closed several years ago and water rates increased, properties continuing to use irrigation water did so at the expense of the properties using the more costly sprinkler systems. They have paid nothing for ditch water in most cases and by doing so were able to reduce their city water bills, Milar said.

Milar said the formation of a water system, in which residents will pay a maintenance fee to cover cost of ditch water deliveries, is designed as a more equitable situation for all city resident.

# Mars forms organic compounds

PASADENA, Calif. (UPI)—Organic compounds similar to those from which life sprang on earth probably are being formed on the surface of Mars, three scientists reported Monday.

They created the compounds—formaldehyde, acetaldehyde and glycolic acid—in a laboratory under simulated Martian conditions. The compounds are primitive forms of life and are the starting points for formation of more complex organic materials, including sugars.

"This is the most favorable indication for a possible Martian biological evolution that we have had in the last five years," said Dr. Norman H. Horowitz, biologist at the California Institute of Technology.

The probes did, however, sample the Martian atmosphere and the amount of ultraviolet radiation striking the surface.

# Clerk says state could fund court

TWIN FALLS — Apportionment of fees and fines from Magistrate Court in Twin Falls County from Jan. 11 through March 5 indicate the state could afford to finance the entire court operation, Harold Lancaster, county clerk, said today.

There were about 1,500 court transactions, he said, with about \$30,000 in receipts.

Most of this, he said, went to the state funds. He said receipts are larger than anticipated at the time the court system went into operation Jan. 11.

Noting this is not exactly two full months of average operation as February is a short month, he said the state general fund received \$8,740.94 while another \$6,450.33 went to the state highway fund from 45 percent of the fines from state police citations and arrests. The general school fund received

\$2,309.32.

A total of \$8,450.33 went to the county current expense fund and the remaining \$5,455.80 was divided among cities in the county.

Lancaster said a study of the figures for the two month period would indicate the state would receive ample revenue to finance the court's operation. At present the salaries of the two

magistrates are paid by the state while the county must assume costs of other salaries, supplies, and other operating expenses.

As the system is part of the state's district court system, Lancaster said it would relieve some of the county level financial burden if the court could be self supporting through state general fund receipts.

## Loaded campaign

REPUBLICAN mayoralty candidate Richard E. Friedman bolts can of refuse into truck while campaigning to demonstrate claim that Chicago Democrats use such services to gain support. He undertook the garbage collection because a supporter was having trouble with refuse service. (UPI)

## Some firms offer malpractice policy

NEW YORK (UPI)—Doctors and lawyers worried because their insurance agents can't get malpractice policies for them any longer, need not despair, a top insurance executive said today.

"Malpractice insurance isn't going the way of the hula hoop and the Nehru jacket," said Thomas F. Tucker, a vice president of Continental Casualty Co. in Chicago.

"True, it's almost as hard to buy an individual malpractice insurance policy today as to find a colony of whooping cranes," Tucker said. "Dozens of companies have quit the business because they couldn't break even in it in spite of rate boosts of 30 to 400 per cent."

But malpractice insurance now is being sold by Continental and other companies on a group basis through medical societies and bar associations in a number of communities. It should gradually become available to doctors and lawyers all across the land at rates, not cheap but well within reach.

However, there's more to the

group malpractice insurance plans than sending the local medical society or bar association a check and asking to be insured.

"These group plans are really 'risk control' agencies," Tucker told United Press International. "It takes months to set one up so that it can have the machinery to screen the risks and make the operation sound and profitable."

The plans control risks in two ways. First, doctors and lawyers are screened by their own professional societies to determine if they are proper risks and restrictive rules are laid down. For example, doctor and an internist, is told firmly he cannot suddenly branch into specialty for which he hasn't proper training and still get malpractice insurance. Lawyers also are screened and given certain rules to observe.

Second, the group screens all malpractice claims filed against members, deciding which claims should be settled out of court and which should be firmly resisted by the society, the insurance company and the doctor or lawyer involved.

They also are profit sharing plans. If they become profitable, the societies and their members can hope for partial premium rebates.

Continental Casualty, a member of the CNA Financial Corp. family, pioneered the new approach to medical malpractice insurance with the San Diego County Medical Society in California, enrolling 75 percent of its members as they were screened and became eligible. The plan already has saved money and resulted in faster settlement of claims and given doctors more peace of mind, Tucker said.

## Cash sues over cash

NASHVILLE, Tenn. (UPI)—Country music star Johnny Cash has filed suit against an accountant he fired March 10 accusing him of converting more than \$300,000 of the singer's money into private bank accounts.

The suit alleged that Herman A. Clark "systematically converted" the money to his own use during the past year. Cash said he fired Clark after an audit turned up apparent discrepancies.

Cash said he gave Clark a chance to explain, but he "refused to do so."

Legend says Korea was founded by Tangun in 2333 B.C.

## Guild exceeds goal at annual benefit

JEROME — St. Benedict's Hospital Guild staged its annual benefit-dinner-dance at the Blue Lakes Country Club, with the guild exceeding its goal of \$1,000 by \$56.

Two hundred twenty-eight tickets were sold and \$222 received in donations, officials announced today.

Mrs. Frank Titus, general chairman of the March event, said the proceeds this year will be used to purchase a patient lift, "The Steel Nurse," for the hospital. Mrs. Titus noted that some funds for the lift have been raised earlier and that any excess money will be used to purchase wheel chairs for the Long Term Care Unit. How many the guild will be able to purchase will depend on the cost of the lift and the chairs, Mrs. Titus said.

The steel nurse is a new, safe way for one person to lift and move even a large and heavy patient weighing as much as 425 pounds easily and with confidence for both the patient and nurse or attendant. With the lift, there is no need to do any preliminary lifting of patients by hand. The patient can be lying flat, reclining or sitting prior to positioning in the steel nurse. After the supporting straps are in place, a few strokes of the handle and the pumping mechanism gently raises the patient free of bed, chair or stretcher. In the "carrying" mode, a patient can be moved smoothly, easily and with complete confidence.

One hundred eighty-three persons attended the dinner-dance, which featured the music of Boise's Hank Houst Orchestra. The guild decorated the club in a St. Patrick's Day theme.

Mrs. Frank Wilmoth presented Mrs. Frank Titus one dozen red roses in appreciation of Mrs. Titus taking over for Mrs. Wilmoth as general chairman after Mrs. Wilmoth's husband, Dr. Wilmoth was hurt in a snowmobile accident seven weeks ago.

The ticket committee was headed by Mrs. Harold Greenawalt. Mrs. John Hohnhorst was in charge of ticket sales in Hazelton; Mrs. Jim Shawver, Eden; Mrs. Royal Neher and Mrs. Leon Felder, Shoshone; Mrs. Gail Gunning, Wendell, and Mrs. Boyd Freeman, Twin Falls.

Other committee members included Mrs. L. M. Neher, Mrs. Forrest Hymas, Mrs. S. A. Kolman, Mrs. Jess Wilson, Mrs. William Last, Mrs. James E. Sloat and Mrs. Jack Russell, guild president. Mrs. Kay McGill and Esther Eakin greeted person at the door and took tickets.

## Bridge winners

TWIN FALLS — Winners of the Monday-Night Duplicate Bridge Club are announced. Nine tables were in play.

North and south winners were Mrs. H.E. Burgess and Rex Wood, first; Mrs. M. J. Weaver and R. G. Sass, second; Mrs. E. H. Adkins and Mrs. A. J. Meeks, third; and Mr. and Mrs. C. R. Tucker, fourth.

East and west winners were Riley Burton and W. R. Cook, first; Mrs. Rex Wood and Dr. H.E. Burgess, second; Mrs. H. M. Proctor and William VonBergen, third; and Mrs. W. R. Cook and Mrs. Judy Warner, fourth.

A buffet supper is slated at 7 p.m. Monday with special tournament play following. Special prizes will be awarded.

## Committee announced for PTA

OAKLEY — Mrs. Floy Morrison, Jay Fowles and Keith Warr have been named to the nominating committee for the Oakley PTA, Kenneth Rosecrans, president, said today.

Officers will be elected at the April meeting. The annual fund raising banquet was held at the March meeting under the direction of Mrs. Jay Robinson and Mrs. Jay Fowles.

The program was arranged by Mrs. John Swan, Mrs. Thurlow, Smith and Mrs. Maurice Matthews, and narrated by Mrs. Matthews. Hawaiian dances, vocal solos and readings were featured.

## Benefit

GENERAL CHAIRMAN of the St. Benedict's Hospital Guild annual benefit-dinner-dance at Blue Lakes Country Club, Mrs. Frank Titus, was presented a dozen red roses for her work. The top picture was taken shortly after the presentation and shows, from left, Titus, Mrs. Jon Wilmoth, who made the presentation, Mrs. Titus and Mrs. James Sloat. The bottom picture shows Dr. and Mrs. Wesley Rose, Jerome, toasting the evening activities. The guild exceeded its goal of \$1,000 during the benefit, with proceeds to be used to purchase a patient lift.

## Open pairs winners

TWIN FALLS — Monday Afternoon Duplicate Bridge Club met for an open pairs tournament.

Overall winners were Mrs. K. E. Kall and Mrs. L. J. Robertson first; Mrs. John Hahn and Mrs. Jesse Husted, second; Mrs. E. A. Peterman and Mrs. H. D. Fitzpatrick, third; Mrs. Faren Falter and Mrs. Jerre Cover, fourth; and Mrs. W. H. Newcomer and Mrs. R. J. Skeem, fifth.

Other north and south winners were Mrs. L. M. Hall and Mrs. Harmon Munyon, third; and Mrs. A. W. Schrank and Mrs. H. G. Holmes, fourth.

East-west winners were Mrs. A. C. Victor and Mrs. B. E. Standlee fourth.

## Betty Coxen works with Resident News Bureau

TWIN FALLS — Betty Coxen, Twin Falls, has been appointed as telephone correspondent for the Resident News Bureau, which began operations today at the Idaho State School and Hospital, Nampa.

Releases will then be sent out to various newspapers over the state.

The head of the recently created news bureau is Ted Lewis, Lewiston. His assistant is John Wetter, Boise, and many other residents will also give time on the new bureau. Those who work on this project are volunteers, and any funds received for materials published go into the fund to finance the resident newspaper. The newspaper is also a new project, having begun with the February issue. It is published monthly, and Marilyn Beasley is the editor.

Mrs. Ann Patterson, director of volunteers at the institution, said that funds have not been budgeted for the publications put out by residents, and the projects are supported by contributions and fund raising efforts.

## Valley Briefs American folk music history presented

TWIN FALLS — The Knoll Grange meeting scheduled for Friday night has been canceled. The next meeting is slated for April 9.

TWIN FALLS — Golden Age Club will meet at the DAV Hall at 6:30 p.m. Thursday instead of Friday for a potluck dinner. Those attending are asked to bring their own table service. Persons 60 years - of - age or older are welcome.

BURLEY — Unit Duplicate Bridge Tournament play was held at Ramada Inn with 10 tables. Over all winners were Mrs. Virginia Martin and Mrs. Ruth Walton, first; Mr. and Mrs. H.E. Burgess, second; Mr. and Mrs. L.E. Hack, third; Mr. and Mrs. L.C. Hunter, fourth; Mr. and Mrs. Ralph Holmes, fifth; Mr. and Mrs. Max Hogg, sixth; Dan Hunter and Arthur Norby, seventh; and Mrs. L.J. Robertson and Rex Woods, eighth.

TWIN FALLS — Swinging Sixties will meet at 8 p.m. Friday at the IOOF Hall. Those attending are asked to bring their own table service. All persons 60 years - of - age or older are welcome.

RICHFIELD — Mayor and Mrs. Clifford Ward and sons, Dallas Ward, Jerome, and Jay Ward, Richfield, have returned from Yakima, Wash., where they attended funeral services for the mayor's brother-in-law, Paul Johnston.

TWIN FALLS — The Twin Falls Grange will meet at 8 p.m. Wednesday and all members are asked to attend.

## Trend

TWIN FALLS — The furniture trend for 1971 is bright and bold. A great amount of color in any room in the house can do much to lift the spirits for spring.

## Magic Valley Favorites

MURIE W. MUTH  
Route 3, Twin Falls

### BREAD AND BUTTER PUDDING

1 quart milk  
1 cup sugar  
5 eggs  
6 slices bread  
1 teaspoon vanilla  
1/2 cup raisins, optional  
Butter bread well on both sides and place slice on top of slice and cut four times each way, making 16 pieces. Scald milk — do not boil. Beat eggs, sugar and vanilla to a creamy consistency. Add to the milk, the bread, eggs, sugar, vanilla and raisins. Stir well. Sprinkle top with nutmeg. Bake at 350 degrees for one hour or until knife comes out clean. Stand pudding pan in a pan of water while baking. Serve plain or with a lemon sauce.

The Times-News will pay \$5 each week for Magic Valley Favorites. If you have a favorite recipe, just mail it to the Recipe Department, Women's Page Editor. The recipe becomes the property of the Times-News and cannot be returned.

## Diet-conscious

Diet-conscious people who avoid potatoes as if they were ice cream sundaes don't know what they're missing. A medium-sized spud, boiled, baked or pressure-cooked, provides only about 100 calories, or about as many as a large apple or an orange. That same spud contains worthwhile amounts of Vitamin C, two important B-vitamins and the minerals iron, phosphorus and potassium. Naturally, sauces or gravies or fats used in frying will add calories.

## Tickets still available for show

BURLEY — A few tickets are still available from Burley-Rupert Shrine Club members for the Fred Waring and the Pennsylvanians Show at 8 p.m. Sunday, March 28, at Minidoka gymnasium.

This is the fourth year the Burley-Rupert Shrine Club has sponsored the famous entertainers in the Mini-Cassia area.

Dr. B. V. Holcomb, general chairman of the show, announced tickets are available at Roper's and Volco Builders, both Twin Falls; East Park Motel and Volco Builder's Supply, both Burley, and from

all Burley-Rupert Shrine Club members.

The new Waring production promises a re-action from those who may have felt that Waring was completely tradition bound. In the day of what is called "contemporary" music, Waring, who turned 70 in June, has found the formula for mixing the current hits with the great standards and providing the eye appeal, ear appeal, and all the other ingredients for which the Pennsylvanians have long been famous.

The concert will feature music from popular standards and contemporary songs to

Broadway show tunes, chorales and folksongs, vignettes and the latest in novelty tunes.

Featured artists will include Ray Sax Schroeder, singer and dancer; Terry Ann Kelly, soloist; Kay Kellogg, soloist; Joanne Schroeder, soloist; Kathy Koehler, soloist; Buddy Wachter, banjo player; Barry Tucker, soloist; Andy Robinson, soloist; Mike Barber, trumpet player; James Jarrett, soloist; Betty Jo Stubblefield, and Betty Ann McCall, both play the cordovox, an instrument which combines the flexibility of an accordion with the sounds of the electronic organ. Local members assisting Dr.

Holcomb are Martin Anderson, president of the Burley-Rupert Shrine Club; Bob Reed, Wayne Konrad, Dave Barry, Roland E. Willis, George Warrell and Charles Skaggs, Sr.

Fred Waring and the Pennsylvanians include a company of 40 in the concert orchestra and glee club and they will be performing solos, vignettes, dances, and brilliantly staged production numbers.

The entire show is conceived and produced by Waring whose current tour marks 55 years in the milestones that have made Fred Waring and the Pennsylvanians an American musical institution.

FRED WARING and the Pennsylvanians will present a show at 8 p.m. Sunday at the Minidoka gymnasium, sponsored by the Burley-Rupert Shrine Club. The concert will feature music from popular standards and contemporary songs to Broadway show tunes, chorales and folksongs, vignettes and the latest in novelty tunes.

## CowBelles convene

PAUL — The Mini-Cassia CowBelles held their Monday meeting at the home of Mrs. Virginia Duff, Paul, and Mrs. Clinton Easton, president conducted the session.

It was announced the next meeting will be April 13 at home of Mrs. Ann Bedke, Oakley.

The group discussed serving beef broth to those who participate in the next Red Cross Bloodmobile drawing in both Cassia and Minidoka counties.

"Beef for Education" was discussed and cards have been sent to home economic teachers in order to determine the number of students enrolled in each economics class. Beef will be supplied by the Beef Council in accordance to number of students in the classes.

Members attended from Elba, Oakley, Heyburn, Rupert, Declo, and Paul.

Refreshments were served by Mrs. Duff.

## Blue pencils awarded

TWIN FALLS — Martin Foss won the blue pencil for best speech and Kent Kirk for best table topics when the I.E. Perrine Toastmasters Club No. 783 met Monday evening at Kay's Supper Club.

Doug Sutherland was general evaluator, with Ed Baker, Kirk, Foss and Alan Greenway as speakers.

## Party held

RICHFIELD — The Girls' League of Richfield High School sponsored a "Festas Hagan" party at the school cafeteria. It was announced today. Hillbilly silhouettes and wishing wells decorated the room for a buffet dinner, games and relays directed by Peggy Ralls and Jo Ann Riley. Mr. and Mrs. L. T. Sanders, Mrs. David Kennison and Mrs. Glen Jensen were adult supervisors.

## Speaker slated

HUNTER, TRAVELER and lecturer H. L. (Bill) Consley will be featured speaker at the Burley-Rupert Knife and Fork Club at 7 p.m. March 27 at the Ponderosa Inn.

## Bosses night observed in Burley

BURLEY — The South Central District Clerical Association honored their bosses during a banquet at Price's Cafe, it was announced today.

The theme was "Every Day Is Bosses' Day" and Mrs. Vera Rygals, Twin Falls, gave the welcome and introduced guests. Mrs. Rosemary Diehl, Jerome, gave the tribute to the bosses.

A reading, "What Does A Public Health Secretary Do?" was given by Mrs. Marge Berglund, Mrs. Marva Marsh, and Mrs. Rygals.

Gerald Hurst, public health sanitarian for Cassia and Minidoka counties, gave the response to the secretaries.

Mrs. Millie Hyde and Mrs. Beth Pearson were in charge of the special prizes.

Special guests were Mrs. Millie Nielsen, Cassia County public health nurse; Mrs. Mary Ellen Carlson, Minidoka County public health nurse; Jim Ingalls, Twin Falls district supervising director; Mrs. Lucille Jacobsen, Twin Falls County public health nurse; Roger Peratto, laboratory technician, Twin Falls, and Hurst.

## Plastic lids

Use plastic lids from coffee cans to freeze hamburger patties. Place one patty on each lid, stack the lids on top of each other, and slip the whole stack into a plastic bag. Seal the bag and store in freezer.

## World hunter and traveler will present club program

BURLEY — H.L. (Bill) Consley, a man of the world as a hunter and traveler, will share his experiences during a dinner meeting at 7 p.m. Saturday, March 27, sponsored by the Burley-Rupert Knife and Fork Club at Ponderosa Inn.

Professionally, it might be said that Consley "has gun, camera, and will travel," almost anywhere. The world of danger, adventure, strange places and strange people are interesting to Consley.

He will tell of his experiences during three trips around the world, hunting, fishing, and just plain visiting; his experiences with people, including those of Vietnam, where he also hunted the bengal tiger, panther and wild boar.

Consley hasn't always been a traveler. He spent most of his adult years as an engineer, personnel director and manufacturing executive. Finally, he succumbed to his one weakness, traveling to strange places for big game and little known people.

A good photographer, a lot of Consley's pictures have been reproduced. He is a member of the Pennsylvania Outdoor Writers Association and as such has had many of his stories printed in sporting magazines.

An accomplished lecturer, some 500 of his audiences have asked for return lectures.

## Fleischman tours with Vandaleers

GOODING — Richard D. Fleischman, Gooding, son of Mr. and Mrs. Leland Fleischman, is now touring western Europe with the University of Idaho's Vandaleer Choir. The group, composed of 40 choir members and an eight-piece orchestra, left Moscow Saturday morning, March 13, via Seattle where they boarded a 747 Jet Airliner for London.

Fleischman is a sophomore at the university, majoring in physical therapy. He is a member of Sigma Nu Fraternity and an honor student.

Besides singing baritone with the Vandaleers, he is active in campus activities. He served this year on the Homecoming Committee, was elected vice president of the Council for Exceptional Children and participates in the intra-mural sports program.

The Vandaleers, a well-known University of Idaho touring singing group, will spend the following three weeks on a concert tour of Europe. They will perform in England, Holland, Germany and France on their travels through nine countries.

RICHARD D. FLEISCHMAN

Buckingham Palace, a Rhine Valley Boat Trip, a tour of East Berlin, an Amsterdam Canal boat ride and a visit to The Hague.

The group will leave April 4 from Paris on their return to the United States and Moscow via London and Chicago.

## Western wear

TWIN FALLS — The fashion forecast for Magic Valley for 1971 will include much western wear — both the mod and traditional western. The National High School Rodeo comes to Filer this summer and local residents are expected to get into the swing of things with a turn to western wear.

## Fashion tips

TWIN FALLS — Men, too, are more colorful in 1971, and any man who does not have a brightly colored dress shirt included in his wardrobe is missing something. The bright shirts go great with the new, more colorful wide ties.

TWIN FALLS — Men also have a "flare" for fashion in 1971, with pants wider at the cuff and great for all those fun shoes which are now available for him.

TWIN FALLS — Granny's cedar chest can be searched to find some great go-togethers for today's pioneer fashions. Brooches, cameos and any other jewelry which has the antique look can be put to use again.

TWIN FALLS — Pantsuits are "it" for milady in 1971 and with many styles and fabrics to choose from, there is something for nearly every shape and age. The longer tunic top or coat can hide a multitude of sins for the slightly hefty woman.

TWIN FALLS — Country music, ever popular in Magic Valley, is a big influence on today's fashions. The mod western and pioneer looks are already greatly accepted among the younger set, with the pioneer influence expected to become popular among all age groups this spring.

DEAR ABBY: My husband and I separated in November of '69 for a year. We are now back together and happier than ever. My problem is that during that year I lived with another man. In fact, I married him. I know that makes me a bigamist. I told my real husband about it and he said he doesn't care as long as we are together and happy now.

My questions: What would the law do to me if they found out? And how can I correct this big mistake?

MASSACHUSETTS MESS

DEAR MESS: Under Massachusetts law, the penalty for bigamy is, state prison for not more than five years; or jail for not more than 2 1/2 years; or a fine of not more than \$500. (The choice is the judge's, not the bigamist's.)

In Massachusetts a bigamist need not do anything about a second or bigamous marriage because it is no marriage at all, and is void without a decree of divorce or other legal process. However, there may be advantages to having the bigamous marriage judicially annulled, but it is best to wait six years until the time to prosecute has run out.

I advise you to consult a lawyer. The law is full of exceptions and unique situations and it is dangerous to generalize. Besides, I don't have a license to practice law in the state of Massachusetts. (Or any other state.)

DEAR ABBY: We purposely do not have ashtrays in our home because we don't want people to smoke in our house. Yet some folks will look for an ashtray, and when they don't find one they will smoke anyway and use anything else that is handy. (The saucer of a coffee cup, a candy dish, wastepaper basket, or even put the ashes in their cupped hand.)

Is there any way we can let people know that we do not want smoking in our home?

HATES SMOKE

DEAR HATES: Yes, you could tell 'em!

DEAR ABBY: I have never hit a woman in my life, but I have come mighty close to it a couple of times in the last few months.

My wife uses my razor to shave her legs and she leaves the used blade in the razor. This gets me hopping mad and she knows it, but she does it anyway.

Don't tell me to buy her a razor exactly like mine because I've done that, but she uses mine anyway. I have also given her an electric shaver designed especially for ladies, but it's still in the original box. Any suggestions before I belt her one?

MIKE

DEAR MIKE: Either take your razor to work with you, or lock it up when you leave.

DEAR ABBY: In regards to the mother who wanted some idea of how much to charge her son when he returned from Viet Nam. She should be thankful he's coming back. On the other hand, he might have gotten zapped, and she'd have collected \$15,000.

DISGUSTED

# States receive bill to lower voting age

WASHINGTON (UPI) — A proposed constitutional amendment lowering the minimum voting age to 18 years in all elections—federal, state and local—won final congressional approval Tuesday and was sent to the states for ratification. The amendment passed the House, 400 to 19, easily meeting the requirement for a two-thirds majority on proposals to

amend the Constitution. The Senate passed the measure last month, 94 to 10, and no presidential action is required. Before it can become the 26th amendment to the Constitution, the measure must be ratified by at least 38 state legislatures. Its supporters hope the required three-fourths of the 50 states will ratify the amendment in time for the 1972

elections. There was some opposition in debate to passage of a constitutional amendment that would remove state powers to set minimum voting ages for state and local elections. The voting age for federal elections—for president, the Senate and the House—was set at 18 by Congress last year. Rep. Emanuel Celler, D-N.Y., chairman of the House Judiciary Committee, said the amendment was sure to pass. "Any effort to stop it would be as useless as a telescope to a blind eye. Youth will be served," he said.

The amendment would not have been needed had the 1970 Voting Rights Act stood up in court. That law set the voting age of 18 for all elections, but the Supreme Court said Congress could establish voting ages by statute only for federal elections. That meant that either the state legislatures would have to lower the voting age or the U.S. Constitution would have to be amended. Because only Alaska, Georgia and Kentucky have adopted the 18-year-old voting age and a number of states could not make the change without amending their own constitutions, Congress decided to do it all with one measure.

## Capping off winter

CHUCK HOLE in street in Traverse City, Mich., repeatedly popped hub caps off passing cars before it was filled Monday. About a dozen collected in yard of home of Dr. and Mrs. James M. Davis, and some have been recovered by owners. (UPI)

## Calley jury goes into second week

FT. BENNING, Ga. (UPI)—Apparently quickening its pace, the Calley murder jury got down to work early today in its stark deliberation room crowded with 165 court-martial exhibits. The jury arrived at 8:20 a.m., doffed jackets, and began its second week of deliberation on a verdict in the case of point-blank slaughter at My Lai. The six officers ended their first week of deliberation Tuesday, spending nearly seven hours in its narrow little room. It was the longest day since it began considering charges that Lt. William L. Calley Jr. murdered 102 men, women and children at the village of My Lai three years ago.

The jurors asked for read-backs of the testimony of two more witnesses, Sidney Kye, for the prosecution, and Daniel E. Hill, a helicopter crew chief, who told of his observations from the air. The alleged killing of 70 civilians in the ditch is the second of four government counts against Calley. The defense has contended many of those killed in My Lai on March 16, 1968, were victims of the preparatory artillery and helicopter gunship fire. Hill who was on reconnaissance duty over My Lai, said he watched the fire, with the gunships "prepping" the whole village, and then saw some bodies while flying below treetop level.

## Primary excluded from Idaho laws

BOISE (UPI) — A special legislative joint committee voted Tuesday not to include plans for a presidential preferential primary in any re-working of the state's election laws. The suggestion was included in an election law "package" presented to the House-Senate committee by Rep. Harold Snow, R-Moscow, who said the primary would be at the same time Oregon has its primary and said it would "bring some candidates here for us to have a look at them." David Little, Emmett, Republican party national committee man, said the national Repu-

can convention would not be bound by the results of such a primary, adding, "I don't think you're going to change things very much except for the publicity we get out of it." But James Donart, Weiser, chairman of the Idaho Democratic party committee on rules, party structure, and delegate selection, opposed the idea. He noted, Snow said the primary would not be binding, but said under rules of the Democratic national convention the results would be binding for the Idaho delegation regardless of the state law.

## Carver return due March 31

BOISE (UPI) — The chairman of the Board of Health said Tuesday Dr. Terrell Carver, who was suspended for 30 days from his post as health administrator, will be reinstated March 31.

Fred Humphreys said as far as he was concerned Carver will be reinstated and "if it doesn't happen that way it will be totally uncalled for." Carver, who was suspended for 30 days without pay while an investigation was underway, will not receive back pay the 30 days he was out of office.

Results of the investigation were mailed to members of the board Monday, but Humphreys said he would not release the findings until the board met later in April.

Reliable sources said the investigation did not turn up anything the board didn't already know and added, in at least one area the report was critical of the health board itself.

Humphreys said there were no surprises in the report and as far as he was concerned no further action was necessary. He said, however, any release of the investigation, which was conducted by the attorney general's office, would be premature at this time.

He said the suspension action was justified because Carver had failed to meet requirements of the Board of Health policy which require that the health administrator keep the board informed. He said Carver, in several instances, had failed to live the letter of this policy, but that the infractions were not serious enough to require permanent dismissal.

"There is no doubt in my mind that Dr. Carver has done many outstanding things for public health in Idaho. If this were not the case then I would not even consider keeping him on," Humphreys said.

Carver said in response to the statement made by Humphreys, "I do not plan to make any statements until I hear from the board directly. If I don't hear from the board, then I will and do plan to return to duty March 31st."

## Heater danger listed

BOISE (UPI) — Idaho owners of 1961 through 1969 model year Corvairs were advised Tuesday by the Department of Law Enforcement of possible dangerous carbon monoxide emission from direct air car heaters.

Referring to information provided by U.S. Sen. Vance Hartke, D-Ind., following a subcommittee for surface transportation hearing, Commissioner John Bender, Boise, said the public should be alerted to potential health and safety standards present during heater operations.

At the hearing, Douglas Toms, acting administrator for the National Highway Traffic Safety Administration, said preliminary investigation indicated Corvair owners should limit use of heaters, to drive with a window open when the heater is used and to have cars checked for carbon monoxide levels.

Toms told the committee a final report on the heater investigation should be ready late this month or early in April and that vehicle owners would be advised of the potential dangers so corrective action could be taken.

## Reds fire atom blast

UPPSALA, Sweden (UPI)—The Soviet Union set off a powerful nuclear explosion underground on the western slopes of the Ural Mountains Tuesday, the Seismological Institute reported.

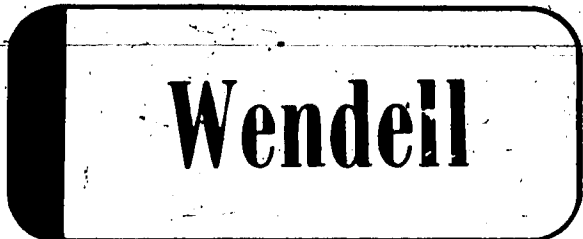

Prof. Markus Baath said the explosion apparently was carried out for peaceful purposes.

Baath said Tuesday's explosion occurred at exactly 2 a.m. EST and had a Richter magnitude of 5.9.

## Houses moved

FOUNDATION has been poured for one of three houses belonging to Mr. and Mrs. Nelson King which must be moved to make way for the interchange west of Wendell on Interstate 80. One of the houses will be moved onto property in Wendell the family owns and the other two moved to another location on their farm.

## Wendell teacher advisor of year

WENDELL — Mrs. Frances Lamb, Wendell High School student paper adviser for the past 23 years, was named journalism adviser of the year during the 25th annual High School Journalism Conference at the University of Idaho.

Mrs. Lamb was named to the top award by the Idaho Press Association. Helen Christensen, Borah High School, Boise, was named the outstanding girl reporter and winner of the Gladys Rae Swank award by the Idaho Press Women. The IPW also named Colleen Damiano, Kootenai High School, Harrison, as outstanding girl editor of the state.

The Trojan Echo of Wendell High School was given second class honors in ratings. It also received second in the feature stories (duplicated) competition and Wendell also received first in the radio broadcast news contest. The Trojan also received third in news stories (duplicated).

The No Name Newspaper of the Idaho State School for the Deaf and Blind at Gooding received third in staff editorials (duplicated).

The Gooding High School Senator received second class honor rating for duplicated newspapers from schools with more than 250 enrollment.

## Group to meet April 18

WENDELL — The Magic Valley Friendship Club for the Handicapped will meet at 3:30 p.m. April 18 at Green Acres Terrace, Gooding, reports Buel McGhee, president.

Rev. Fred Hills will arrange the program. Miss McGhee said members are to call Mrs. Enos Schiffler, Twin Falls; Rev. Hills, Jerome, or Mrs. Howard Niccum, Wendell, if they wish to attend as reservations must be made.

LARAY JOHNSON

## Medina trial set for May

FT. MCPHERSON, Ga. (UPI)—The Army announced Tuesday that initial pre-trial hearing in the court martial of Capt. Ernest L. Medina, charged with overall responsibility for the My Lai massacre, will be held here May 24.

Medina is set to be court-martialed for the premeditated murder of 102 Vietnamese civilians during his company's sweep through the My Lai hamlet on March 16, 1968. The 34-year-old career officer could receive the death sentence if found guilty of the specifications.

One of Medina's junior officers, Lt. William L. Calley Jr., currently is on trial at Ft. Benning for his part in the alleged slaughter.

The May 24 hearing for Medina will be conducted under the provisions of Article 39A of the Universal Code of Military Justice and will be open. Col. Kenneth A. Howard will preside over the trial.

Mondau, the Army announced a similar pre-trial hearing for the court-martial for Capt. Eugene Kotouc, of Humboldt, Neb., who is charged with maiming and assaulting an unidentified Vietnamese woman in an incident in the general area of My Lai but several hours after the alleged massacre.

## Youth given stipend

WENDELL — LaRay Johnson has been awarded a \$200 scholarship sponsored by the Union Pacific Railroad Co., James Benson, Future Farmers of America adviser, said today.

The scholarship is awarded each year to an outstanding FFA member in the county. Johnson plans to attend the University of Idaho, Moscow, where he will study veterinary science. He received his state farm degree this year and served on meat and dairy judging teams during his high school years.

He also placed third in state wrestling. Johnson is the son of Mr. and Mrs. Rex Johnson.

NAMED TO COMMAND DEER PARK, Tex. (UPI)—Arthur G. Taylor, 49, a retired Coast Guard officer, has been named to command the Battleship Texas, which has been berthed as a state historical monument at the San Jacinto battlegrounds for 23 years.

## Power grab looms

WASHINGTON (UPI) — A Pennsylvania congressman suggested Tuesday electric power produced at federal dams on the Columbia River might be "too valuable" to keep in the Pacific Northwest alone. Rep. John P. Saylor, the ranking Republican member of the House Interior Committee, urged the Interior Department to study possibilities for use of the power elsewhere. Saylor suggested electricity marketed by the Bonneville Power Administration in the Northwest might best be used as "peaking" power to meet suddenly changing demands in other parts of the country. "In view of the pending power shortage in all sections of the

country and the fact that BPA power comes from hydroelectric sources exclusively," Saylor asked, "is it not too valuable an asset to be used for firm power in the Pacific Northwest when it might be used for peaking power throughout the land?" The question was addressed to Interior Assistant Secretary James R. Smith during a poorly attended "briefing" of the committee on department water and power programs. "I hope you're going to take a look at it," Saylor added. Smith, apparently surprised by the question, hesitated for a moment and then said it was "principally a question of economics — a question of whether or not it would be truly econo-

mic to transfer hydroelectric power." "I would not now be willing to suggest that it is economically feasible...but perhaps it's worth studying," he said. In answers to questions by Reps. John Dellenback, R-Ore., and James A. McClure, R-Idaho, Smith expressed doubt about predictions of a Pacific Northwest power shortage in 1972 and 1973. A shortage, Smith said, was likely to occur only if low water flow, extremely old weather and equipment outages were to occur at the same time. He said, however, that he was not ruling out the possible need for bring in power from some other area.

## Election winner

HAPPY Rev. Walter Farnley and wife greet supporters after his election Tuesday as first Congressional representative from District of Columbia since 1878. A Baptist minister and former aide to the late Dr. Martin Luther King, Farnley will have equal status with other representatives save for vote on floor. (UPI)

# Clubs probe rests

WASHINGTON (UPI)—The television lights are off, the hearing room is locked, the records have been forwarded to the Treasury and Justice departments for possible prosecution, and senators have gone on to other things.

But the two-year Senate investigation into alleged bribery and corruption at military clubs and post exchanges around the world is more at parade rest than dismissed.

"God, I don't see how it can ever really end," says a staff aide to the Senate permanent investigations subcommittee which has been looking into the situation since as early as 1968.

"I think a lot of things are going to happen now—surprising things," says former Brig. Gen. Earl F. Cole, the highest-ranking witness to testify on the subcommittee's charges.

Insisting he has been "allegedly" accused of allowing and even fostering corruption under his commands, Cole said he believes others have lied to the subcommittee "to save their own tails."

From time to time after the latest hearings began Feb. 16, charges were entered in the record than Army superior officers "hindered and blocked" the inquiry, that the Pentagon withheld crucial information, and that commanders in Vietnam knew of wrongdoing but covered it up, "obviously because high-ranking officers were involved."

Similar charges were made by several witnesses in sworn testimony.

The subcommittee has concentrated its attention mainly on Cole because his name was first linked in public testimony 17 months ago with that of William J. Crum, an American entrepreneur who sold slot machines, liquor and other goods to club and PX systems which Cole supervised in Vietnam.

Initial hearings in the fall of 1969 focused on a clique of career Army sergeants who operated enlisted men's clubs in Vietnam—and Germany—and resulted a month ago in federal indictments against seven men on charges of conspiracy, fraud and bribery.

Cole, 51, was relieved of his European PX command at the time of the 1969 hearings and was shipped back to Washington. Last summer, he was demoted to colonel stripped of his Distinguished Service Medal and retired.

Cole says he'll go all the way to the Supreme Court if necessary to get his general's star and his medal back, and has challenged subcommittee members to repeat their allegations outside the halls of Congress, where they are immune from lawsuits.

Most of the charges against Cole were made by two men—Jack Bybee, a former Crum employee, and Maj. Clement E. St. Martin, who testified he was dismissed by Cole after confronting him with evidence of underhanded activities at the huge U.S. Army Headquarters Base at Long Binh near Saigon.

The man the subcommittee most wanted to question—Crum himself—appeared not in the hearing room but on network television. Although Senate investigators had been unable to find Crum for more than two years, CBS did—and broadcast an interview with him the night before the latest hearings ended.

Crum told interviewer Mike Wallace that he would testify only if investigators visited him in Hong Kong because he was too ill to go to Washington.

There were allegations that the late Rep. L. Mendel Rivers, D-S.C., chairman of the House Services Committee twice tried to stop the Senate investigation by calling the acting subcommittee chairman, Sen. Abraham Ribicoff, D-Conn., to vouch for Cole's character.

Ribicoff says his subcommittee is willing to go "anywhere in the world" to get Crum's story first hand.

What will come of it all, only time—and possibly the Justice and Treasury departments—can tell.

covered in turn with the queen. If any declarer was foolish enough to win with the ace he lived to regret it. Eventually West would get in with the ace of diamonds and lead a second heart, whereupon East would cash four heart tricks. If any declarer made this play, we would have to drop him to the foot of our class.

If South lets East hold that first heart trick he will have made a sort of backward Bath Coup. True, the jack has been played but the nine spot has taken its place as the third best card in the suit. If East is foolish enough to continue hearts, South will have an extra heart trick.

Of course, if West had led the 10 of hearts from five to the king-10, the low heart play would lose the contract, but we would pay off to anyone who did that to us.

(NEWSPAPER ENTERPRISE ASSN.)

### CARD Sense

The bidding has been:  
West North East South  
Pass 2♠ Pass 1♥  
Pass 4♠ Pass 3♦

You, South, hold:  
♠ K 10 7 6 5 ♦ A K Q 9 4 ♠ A 2  
What do you do now?  
A—Bid four diamonds. You want to show that you hold at least five cards in your second suit.

**TODAY'S QUESTION**  
Your partner continues to four hearts. What do you do now?

Answer Tomorrow

By Oswald & James Jacoby

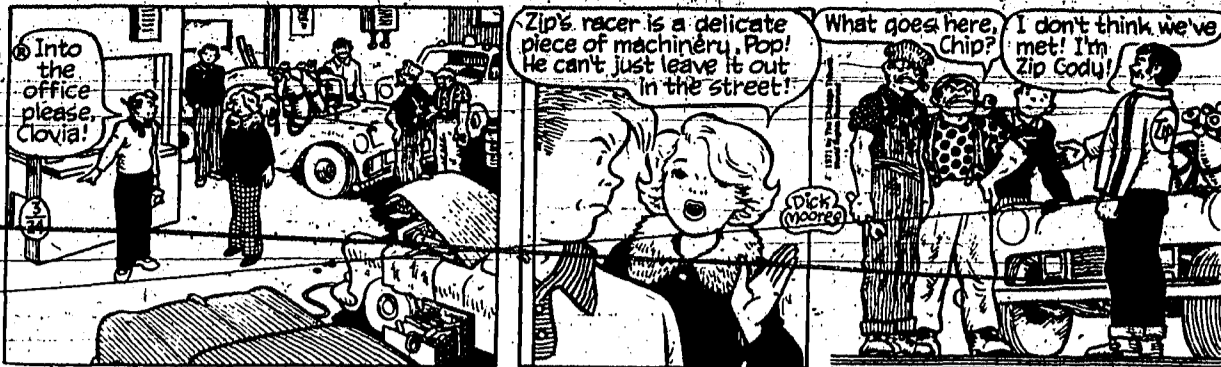

Forty years ago the late Walter Wyman wrote an article entitled, "How to Tell a Bath Coup from a Bath Tub."

The classic Bath coup occurs when the king is opened and declarer plays small from ace-jack-small. If the suit is continued declarer collects two tricks instead of one. If there is a shift declarer still has control of that first suit.

When today's hand was played in a duplicate game and East opened anything but a heart the declarer had no trouble making nine tricks. At a few tables West led the heart 10. That led separated the sheep from the goats.

Every declarer covered with dummy's jack. East

**MORE MARRIED COUPLES** split up in Houston, Texas, than just about anywhere. For a city its size, I mean. Why is a mystery. But our Love and War man notes the divorced partners evidently don't much like their liberty, after all. Among those sentimental greeting cards printed up to commemorate no special day in particular, one of the best-selling in Houston reads merely: "This is no better and it's much lonelier."

**IT IS THE MOON CHILD FELLOW** born under the sign of Cancer, says our Planet man, who is most apt to take up cooking as a hobby. "EVERY TIME I meet a new interesting man," writes a feminine subscriber, disconsolately, "either he's married or I am." Sad... THE MARIJUANA PEDDLERS, police say, admit they find their best markets among medical school students.

"NOW TAKE a good look at the ends of your eyelashes," said wise old Cedric Adams. "If they're getting thin at the outer ends, it denotes laziness." Wise old Cedric Adams said a lot of things like that. For instance: "Short straight eyelashes indicate nervousness." And: "If your eyelashes are gracefully curved, without much doubt you're a calm person." Wise old Cedric Adams did not reveal his sources.

**CUSTOMER SERVICE:** Q: "When a young girl goes to Hollywood specifically to seek her fortune in the movies, what are the chances she'll turn out to be a full-fledged star?" A: Just one in 30,000, statistically, now... Q: "What animals, I mean besides the primates, have but a single set of mammary glands?" A: Elephants. Been getting too many elephant questions lately, don't you think? I don't want to talk about them anymore... Q: "Don't more than half the businessmen still wear white shirts to the office every day?" A: Far less than half do so, the shirt-makers report.

**DID OUR LANGUAGE MAN** say "shipmanship" is the only word that begins and ends with the same four letters? "I submit 'Pago Pago,'" writes a St. Louis subscriber. Accepted. But it's borderline... HOW MUCH TIME do you waste on the job? Don't tell, it's none of my business. Merely want to mention one of those efficiency experts says his latest studies show the average worker kills more than an hour a day just walking around.

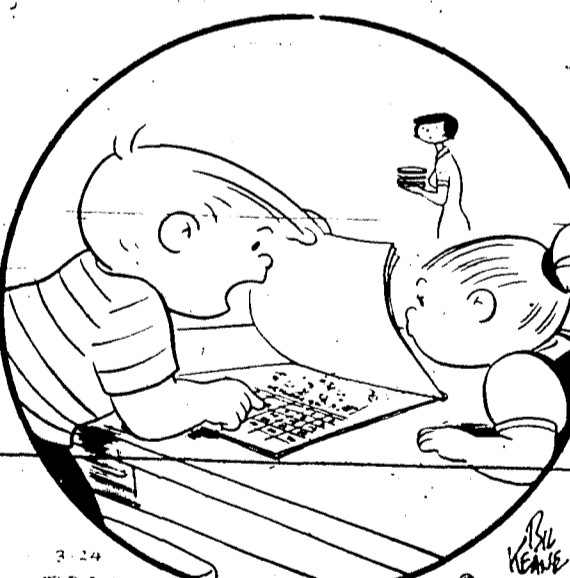

**IN STOCKHOLM, SWEDEN,** stands an institute wherein researchers are studying how too much alcohol in your blood stream affects your ability to listen. When the alcohol content reaches 0.1 per cent, a high noise level does something or other to the inner ear. Makes you hard of hearing. Said it makes you hard of hearing. HARD OF HEARING! Oh, you've heard this bit of whimsy before? All right, but the Stockholm study is fact, truly.

Your questions and comments are welcomed and will be used in PASS IT ON wherever possible. Please address your letters to L.M. Boyd, P.O. Box 17076, Fort Worth, Texas 76102.

### MAJOR HOOPLE

**Lenten Guideposts**

**Youth attains temper control**

By JOEL WILLIAM FRANKS  
Cotter, Ark.

One day when I was still small, I got very angry at my older brother, Jim, and barked, "My Grandpa, who overheard the display of temper, reprimanded me — nobody could make me feel two inches tall any faster than Grandpa!"

John, 13-15: "Whoever hates his brother is a murderer and ye know that no murderer hath eternal life."

But I thought, "What a ridiculous verse — I couldn't kill Jimmie. I love him, I couldn't murder anyone, especially Jim."

From the earliest time I can remember, I have admired my brother. Everything he does, he does well — especially in sports. When he was a freshman in high school, his basketball team won the Arkansas state championship, and he was voted the most valuable player.

What Jim did I wanted to do. For the three years I played on the Cotter, Ark., Junior High basketball team, I played every game with this thought in mind: When I was a junior high freshman, we would win the state championship, and I would have all the glory that my older brother had received.

As my freshman year wore on, it became evident that we had good chances to win state. With each game, the pressure grew.

We advanced to the state tournament at Hampton, over 200 miles away. And as they often are in Arkansas during the Boys Basketball Championship, the roads were covered with ice and snow, and every mile of the way we wondered what was keeping us from ending up at the foot of some mountain.

After traveling that far, we seemed to press even harder to win. The first two games, both cliff-hangers, were won by the Cotter Warriors. We gave our best training every minute and nerve to defeat the other team, who tried just as hard to beat us.

In the second game my tensions were compounded. I fouled out and was forced to watch the last minute of play from the bench.

In the semifinals we were pitted against Quachita County — a tall, talented all-black team of junior-high-school boys. They were the best, and if only, if only we could beat them the final game would be easy.

The game started. We matched them basket for basket. At half time the score was tied. The victory was close, we knew, so very, very close.

Then came the final tense seconds, and suddenly my beautiful dream died. We were defeated by one point. The big balloon which I was riding — blown tight by three close games in three days, the "hairy" trip down — had suddenly been pricked. I was deflated, defeated, empty.

My disappointment was so great that I could feel my heart surging with hatred. How easy it was at that moment to hate those black faces — shiny with sweat and excitement after a hard-fought game. And theirs was a victory that was almost ours.

How easily I could have hated the referees for a foul not called, a walking infraction not seen, a tie ball not jumped. One call reversed could have meant the difference.

Then just as these feelings of hate — welled up in me, I remembered my Grandpa's words, "Whoever hates his brother is a murderer."

No, I didn't hate the black faces, I didn't hate the long black arms and legs that had won the game. I didn't hate them, the referees or anybody. I'm not a murderer. They are my brothers.

The brief moment of bitterness passed. I reached out my hand to the referee nearest me. "You called a nice game," I said.

If I live to be 100 years old, I'll never forget the look of surprise on the referee's face.

Someone that remark was just enough to ignite my teammates, and all of us began to shake the hands, and embrace the happy boys, and just beaten us. It became a contagion of joy, real joy, and everyone was affected by it.

The next night, Ouachita County won the Class B Junior Boys Basketball Championship, the first all-black team to win a state championship in Arkansas. We were thrilled for them. And, as it turned out, our Cotter Warriors were chosen by the coaches and officials for the highly coveted Sportsmanship Trophy.

One week later, my brother Jimmie and the senior Cotter Warriors were defeated in the semifinals of their state tournament, but they, too, won the Sportsmanship Award. These trophies honor not only the coach and the players, but also the school, the community, the homes and the churches of the school district.

I still attend Cotter High pitted against Quachita County senior basketball team. Whatever the future holds, whether we win or lose, I will never forget the night I won the greatest victory of all — the victory over hate.

DEMAND that administration free funds impounded for cities, housing, highways and public works was made by former Interior secretary Stewart Udall, left, and Mayor Joseph Alotto of San Francisco in appearance before Senate subcommittee on separation of powers Tuesday. (UPI)

**Nixon's health appears strong**

WASHINGTON (UPI) — A self-imposed diet he rigidly follows keeps both his weight and blood lipides, the fatty substances that invite heart ailments, low.

Trach, who traveled widely with Nixon when he was vice president and witnessed his famous kitchen debate with Soviet Premier Nikita Khrushchev in Moscow, estimates the President averages little more than six hours of sleep a night.

He never naps in the afternoon and quite frequently has lunch brought to his desk.

By his own estimates, Nixon eats both breakfast and lunch in about 10 minutes. Unlike his two most recent predecessors, he never catnaps on the long flights he often takes. But during his weekend visits to Camp David and Key Biscayne, Fla., he frequently sleeps in late.

"The only thing I'm concerned about is physical exercise. I wish he would get more," Trach said in a recent interview.

When he first came into office, he occasionally played golf but now finds this too time-consuming.

Sometimes now he jogs in place. But his favorite exercise is swimming, outdoors and in pressure.

**Italian right wing stronger**

By PHIL NEWSOM  
UPI Foreign News Analyst

Back when Benito Mussolini was top man in Italy, any discussion of him usually ended on some such note as "at least the trains run on time."

It was an important observation because it implied order instead of chaos and stability instead of instability.

And it is a longing for these qualities, a revulsion against the violence and the succession of unstable governments which have characterized Italian life for the last couple of years, to which is attributed the sudden prominence of the Italian political right wing.

It is an almost incredible situation since for so many years it has been the political left as represented by communists that has been regarded as the greatest threat to Italy's democratic institutions.

As opposed to the Communist party, the largest in the West outside the Communist bloc, for example, the rightwing neo-Fascists have been among the weakest of Italy's political parties. That there could be a return to Fascism, Mussolini style, seemed unthinkable.

Yet it was a reported plot against the government by ultra rightists and the current investigation into it that led Premier Emilio Colombo to warn against extremists of both left and right and in effect to call down a plague against both their houses.

The excessive nationalism of Fascism and Nazism, he said, "ends up devouring freedom and humanity."

On the other hand, he said, the Communists sought to take advantage of the anti-Fascist sentiments aroused by World War II.

Both, he said, wanted "to replace a free society with a closed society in which justice is the advantage of a weakness at the center."

Factional bickering among the Christian Democrats, the Socialists and the Social Democrats of the government has also, plus divisions within the parties themselves, have delayed essential social and administrative reforms.

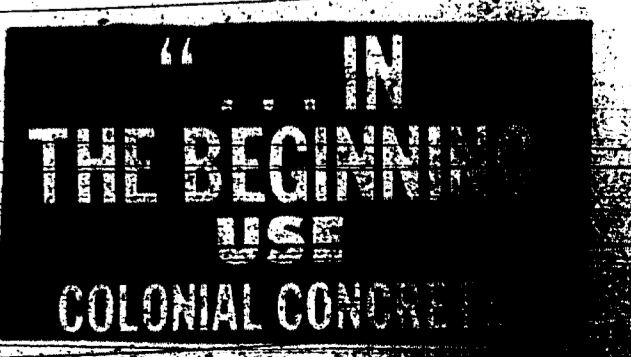

Workers have become impatient with the slowness of low-cost housing, insufficient urban and commuter transportation and the inadequacy of health-care and old-age pension systems.

# Gardner ends 18-year coaching career at Utah

SALT LAKE CITY (UPI)—Veteran basketball coach Jack Gardner of University of Utah, the subject of a growing undercurrent of criticism for alleged recruiting apathy, was fired Tuesday after an 18-year reign.

His removal was couched in official language from President James C. Fletcher that Gardner "has requested and been granted" sabbatical leave for one year.

However, the 61-year-old coach, who was nearing the 500 mark in victories as a major college coach, has stirred increasing resentment over his recruiting program and failure to win a Western Athletic Conference championship in the past five years.

Gardner's record at Utah was an impressive one and included only two losing seasons. His overall mark with the Utes was 339 victories against 154 defeats and eight times his team won 20 or more games.

Contacted moments after the official announcement was made, Gardner denied that pressure had been brought against him to step down.

He said that during his leave of absence, which he is entitled to as a full professor, he would complete writing assignments, conduct basketball clinics and travel extensively.

After that he will assume the position of golf coach at the school where he came in 1953 after taking Kansas State twice to the NCAA finals during 10 years as head coach.

Gardner coached that feat at Utah when his 1962 and 1966 teams won the NCAA western regionals and reached the NCAA finals.

Dubbed "The Fox" for his crafty use of basketball strategy, Gardner compiled a 458-233 record in 28 years at Kansas State and Utah.

Fletcher, who is leaving his position in a few weeks to head the nation's space program, and Athletic Director James R. (Bud) Jack raised Gardner's coaching reign at Utah.

"I have had great admiration

for him as a person and for his long and successful coaching career with a winning record. He deserves a rest."

Fletcher and Jack indicated that the search would begin immediately for a successor to Gardner.

Gardner became the first basketball coach in the eight-team Western Athletic Conference to lose his job.

### NCAA top scorer, Rebel soph Neumann, signs big ABA pact

MEMPHIS, Tenn. (UPI)—University of Mississippi sophomore Johnny Neumann, the nation's leading college scorer, signed a contract to play with the Memphis Pros of the American Basketball Association Tuesday, so he could support his family.

The agreement was announced in New York by ABA Commissioner Jack Dolph, who said the contract was approved by the league's board of trustees in light of a California circuit court judge's decision that a draft limited to seniors was in violation of anti-trust laws.

Neumann, the 6-6 sophomore forward who averaged 40.1

### 3 families dominate ski meet

FAIRFIELD — The Lawrences, Glicks and Clowards ran off with most of the first places in the Gooding Jaycee mile ski races at Soldier Mountain Sunday.

Cade Lawrence of Twin Falls won the Class A boys division in 55.4 with Jerry Lawrence second at 58.0. Bob Newhouse, Fairfield, was third at 58.1.

Judy and Cheryl Glick, both Wendell, went one-two in the Class A girls, Judy winning at 58.3 with Cheryl second at 68.3. Debbie Simons, Fairfield, was third at 85.4.

In the Class B boys, Brian Cloward, Twin Falls, won at 56.2, two and one-half seconds ahead of Billy Simon, Fairfield. Bret Rudy, Fairfield, was third with 80.2. The B girls crown went to Leslie Cloward, Twin Falls, at 62.2, followed by Cara Merkle, Wendell, 77.9 and Kerri Goeckner, Wendell, 78.3.

Ricky Choate, Fairfield, won the C boys with 72.5, followed by John Newhouse, Fairfield, at 83.6 and Tim Hill, Twin Falls, 2:17.0.

points per game, told the Commercial Appeal in a copyrighted story that the decision was made because of personal hardships created by a heart attack suffered by his father in late February and by his marriage last summer.

Dolph did not reveal details of the contract, but the newspaper said it was a "no-cut, five-year contract (worth) in excess of \$2 million."

The story said the contract was reported to be a "league contract" similar to that which was signed last week by Artis Gilmore with the Kentucky Colonels.

"My father may never be able to work again," said Neumann, who missed the final three Rebel games of the season to stay at his father's hospital bedside.

"Now I'm the head of the household," Neumann told sportswriter Bobby Hall. "And I'm married too. All this creates quite a hardship."

"I've always planned to make my living by playing basketball," said Neumann.

"I knew this was the time," he said. "My family comes first."

His father, Robert H. Neumann, 60, was hospitalized Feb. 20 with the first heart attack and suffered another seizure while in the intensive care unit of Baptist Hospital.

Neumann's mother gave up her job at a local clothing store in order to stay with his father after the attack. His younger brother, Bill, was a basketball standout at a local high school this season and an older brother, Bob, is a stock broker in New York.

Robert (Cob) Jarvis, head basketball coach at Ole Miss, accepted Neumann's decision with mixed emotions.

"John has always been close to his family and Mr. Neumann's illness weighed heavily upon him. Johnny feels a personal obligation to help his father and mother financially. "We at Ole Miss have always

Hoop shoot trophies

"HOOP SHOOT" trophies, donated by Ray Sherwood of Sherwood's Sports Center, left, are admired by Gary Rasmussen who is assisting the Twin Falls city recreation department in setting up the annual contest for grade and junior high school basketball enthusiasts. Finals in the "hoop shoot" will be held Thursday at 6:30 p.m. in the local high school gymnasium.

### Hoop shoot finals set Thursday

TWIN FALLS — Finals in the Twin Falls City Recreation Department sponsored "hoop shoot" are scheduled for Thursday from 6:30 to 8 p.m. in the Twin Falls High School gymnasium, Chad Browning, recreation director, said today.

To qualify for the event, grade students and junior high school students must shoot two out of five and the 25 best scorers from each school will compete with the top boy of each grade selected to compete in the finals Thursday night.

Trophies for the event, donated by Sherwood Sports Center in Lynwood, will go to the boy with the highest score and to the top competitor in each grade level.

Gary Rasmussen, assisting in the city recreation program as a University of Idaho senior apprentice, is in charge of arrangements.

### Grand jury will resume grid probe

CLEVELAND (UPI)—The federal grand jury investigation into possible anti-trust violations by the National Football League is to resume April 5, it was reported Tuesday.

The grand jury, which began its investigation in November, has heard testimony from numerous players, owners and former players. It has also subpoenaed the records of every team in the NFL.

In addition to possible anti-trust violations, the jury is to investigate the alleged black listing of some players.

team must prove itself

HOUSTON (UPI) — Coach John Wooden of UCLA agreed Tuesday that his Bruins should be favored, on paper, to win this week's NCAA basketball championship for a record fifth time, but he's really not sure in

his heart. "I suppose since we are defending champions and are No. 1 in the polls we should be favored, but down deep I don't feel this is any different than any other year," Wooden said

from Los Angeles in a four-way telephone news conference with the coaches of the other three finalists. Wooden meant that all four teams were starting even Thursday night. He did not

mean that 1971 will be no different than any other year because his team was going to win again. UCLA, 27-1, and fourth-ranked Kansas, also 27-1, meet Thursday night in the second game of a doubleheader at the Astrodome. Western Kentucky, 23-5, and ranked seventh, plays Villanova, 26-6 and ranked 17th, in the first game.

Fans support penalty on missed kick tries

NEW YORK (UPI)—If pro football fans had their way, the game's place-kicking specialists would be getting some added rest in the years ahead. Fan reaction appears favorable to the National Football League rule proposal that would eliminate placing the ball for missed field goal attempts on the 20-yard line and change the placement to the line of scrimmage for all kicks outside the 20-yard line.

The NFL is considering the rule change at its annual meeting in Palm Beach, Fla., this week, and the proponents of the proposal feel coaches will think twice before ordering field-goal tries close to the 50-yard line if it meant risking giving the ball back to the opposition in good field position should a touchback result.

on fourth down when they know the opposing team will have to take it on the 20." Among the dissenters, a Pittsburgh man said he opposed the idea because "football would turn into a punting game. Teams will not want to take a chance of giving up the ball at 30 or 40 yard line." "Scoring will be lower and there will be less excitement," said a Chicago man. "Instead of putting the ball back on the 20, why don't they just go back to a regular kick off position with the team that missed the field goal doing the kicking." The NFL owners have a decision to make and it will be interesting to see which way they go.

NFL owners vote to return Super Bowl to New Orleans

PALM BEACH, Fla. (UPI)—The owners of the National Football League voted Tuesday to return the Super Bowl to New Orleans Jan. 18, 1972. Football commissioner Pete Rozelle said the decision was made after 14 ballots and a three hour session.

He said that the deciding factors were the New Orleans weather and the "football climate" in the Louisiana city. The decision came as a surprise. Dallas had been considered the favorite choice after a delegation of football-hungry Texans had appeared before the owners earlier in the day showing pictures of a new Dallas Stadium and pointing to new liquor laws.

New Orleans, KBacoff thought, was the fact that his group could make available 7,800 hotel rooms.

Rocha sees tough test for Hawaii

NEW YORK (UPI)—Red Rocha, coach of the University of Hawaii, feels his team is in for trouble Wednesday night in the quarterfinals of the National Invitation Basketball Tournament.

Hawaii, which Monday night barely squeaked by Oklahoma, 88-87, in double overtime in an opening round game, meets St. Bonaventure-Wednesday night, and Rocha considers the Bonnies one of the best teams he has seen this year. "We have a quick team, but, by God, they're really quick. They're about the quickest team I've seen this year," said Rocha.

Swedes rip U.S. hockey team 7-4

BERN, Switzerland (UPI)—Finland handed the United States its third defeat in four games in the 1971 World Ice Hockey championships Tuesday night, beating the battling American sextet 7-4.

The loss left the United States second from the bottom in the world championship table with one win—the upset 5-1 victory over Czechoslovakia. Russia, defending world champions, and Sweden, are at the top of the table in the six-nation tournament, both undefeated after three games.

Benvenuti to undergo physical

TURIN, Italy (UPI)—Italy's No. 1 boxing promoter said Tuesday former world middleweight champion Nino Benvenuti is undergoing a thorough medical checkup to determine if he is fit for a rematch against Carlos Monzon of Argentina, the man who took the title from him.

Utah moves back into loop tie

SALT LAKE CITY (UPI)—Willie Wise scored 28 points and grabbed 23 rebounds Tuesday night to lead the Utah Stars to a 124-117 victory over the Denver Rockets and back into a tie for first place in the ABA's Western Division with the Indiana Pacers.

USC loses vaulter on grades

LOS ANGELES (UPI)—Sweden's Kjell Issakson, who this month set a world indoor pole vault record of 17 feet, 9 inches, has been declared ineligible to compete for the University of Southern California, assistant track coach Ken Matsuda announced Tuesday.

Matsuda told the Southern California Track Writers of Issakson's ineligibility and said the Swedish vaulter would compete for the Southern California Striders, a club team. "His high school grades from Sweden could not be converted into proper equivalents for American subjects," a university spokesman said. "And because of a language handicap, he did not score high enough on comprehensive examinations."

Idaho inks top J.C. passer

MOSCOW — Coach Don Robbins of the Idaho Vandals football team, announced today that Buckley "Bucky" Bruns, quarterback for the Yakima Valley junior college last fall, had enrolled at Idaho for the spring semester.

Petrie joins NBA elite

CLEVELAND (UPI)—Geoff Petrie tossed in 37 points, including the go-ahead basket with 21 seconds left in the game Tuesday night, to lead the Portland Trail Blazers to a 114-112 victory over the Cleveland Cavaliers in the final NBA game of the season.

Reese will give Killebrew tussle for first base job

By United Press International Rich Reese, who apparently lost his job to Harmon Killebrew during the winter, will be back at his old first base stand for the Minnesota Twins this year.

Some left

WEMBLEY, Eng. (UPI)—Only 200 tickets have been sold for Wednesday's Britain vs. Bulgaria Olympic qualifying soccer match. The stadium has a 100,000 capacity.

Reese will give Killebrew tussle for first base job

On other fronts: The Chicago White Sox raised their spring record to 13-5 by beating the New York Yankees, 4-3. Tom Egan led the White Sox with a homer and three doubles. A two-run homer by Billy Williams and a two-run double by Johnny Callison led the Chicago Cubs to an 8-0 decision over the San Francisco Giants. Ray Newman, Joe Decker and Juan Pizarro blanked the Giants on six hits.

# Frustration overpowers urban dweller

By LOUIS CASSELS  
UPI Senior Editor  
WASHINGTON (UPI) — We were standing in the rain, six of us, waiting for a D.C. Transit "express" bus that was scheduled to leave the Maryland suburbs for downtown Washington at 8:48 a.m.

"It's outrageous," muttered a lawyer who was going to be late for an important appointment. "But what can you do?" That despairing question, "What can you do?" is becoming the litany of 20th century urban man. It expresses more eloquently than any angry outburst the deep sense of frustration and

powerlessness that overwhelms the modern city-dweller when he perceives how dependent he is on things over which he has little or no control. Just getting to and from work can be a daily trauma once a city has reached a certain size. Even if your bus leaves on time, it may get tied up in a traffic jam or break down from lack of adequate maintenance. And there's nobody to blame or complain to except the hapless bus driver, who is not your persecutor but your fellow victim.

Housewives are spared the travail of commuting, but they have problems of their own. If the refrigerator or washing machine breaks down, she calls the repair man. If he happens to be in a gracious mood, he may tell her what day she can expect him. But it is useless for

her to ask what time of day he'll arrive. So she has to sit at home all day, neglecting her other errands, while she waits for him to show up and perform the mysterious rites of mechanical adjustment for which he charges a fee that would be more appropriate for a brain surgeon. Power failures sever the lifeline between urban man and the technological matrix of his existence. It's not just a matter of being plunged into darkness. That he could cope with, by lighting candles. But if he has a furnace with electric-powered blower, he will have no heat until the power comes on. He can't cook on his electric stove, take a shower in electrically heated water, or make ice cubes. Worst of all, he can't find out how long he's going to be in

### LEGAL NOTICE

Notice of Call for Bids  
Bids for the construction of 23 miles of range fence will be accepted by the Star Lake Cattlemen's Association, Inc. up to 5:00 p.m. April 5, 1971. The fence will be built in three segments part of which will include taking down existing fence and using salvage materials and part will be construction with new materials. Interested parties are asked to contact the Lincoln County Agent's Office at the courthouse in Shoshone for specifications, dates of construction, and all pertinent information. A site inspection tour will be held March 30 starting at 9:00 a.m. from the Lincoln County Courthouse. Bids will be opened at a meeting at the courthouse in Shoshone, Idaho at 8:00 p.m. April 5, 1971.  
PUBLISH: March 24, 25, 26, 28 & 29, 1971.

### Study funds approved

WASHINGTON (UPI) — Idaho Congressman James McClure reported from the nation's capital Monday the University of Idaho would receive \$47,000 in National Science Foundation grants for engineering studies. He also said the Office of Education had approved the application of the Lewiston Indepen-

dent School District for a program entitled "communication skills through authorship." In addition the Republican Representative said the state's law enforcement planning commission will receive \$796,000 under provisions of the Omnibus Crime Control and Safe Streets Act to improve the criminal justice system.

# Casey backed for SEC post

WASHINGTON (UPI) — The Senate Banking Committee reaffirmed its support Tuesday for tax lawyer William J. Casey to be the new head of the Securities and Exchange Commission (SEC). But one member called him a wheeler-dealer whose confirmation will insult 31 million stock market investors.

## Battle pushed

PORTLAND, Ore. (UPI) — Gov. Tom McCall of Oregon and Gov. Cecil Andrus of Idaho said today their states will continue joint efforts to have an east-west rail route from Portland to the east through Boise.

They want the route added to the national Railpax plan. The governors made their statements preceding opening of a three-state meeting on Columbia and Snake River fish problems.

to disqualify him. But two of the three members who voted against his nomination, Sen. William Proxmire, D-Wis., and Adlai E. Stevenson, D-Ill., were dissenting opinions.

Proxmire used unusually acid language to express his opposition. He said a plagiarism suit in which Casey paid \$20,500 damages showed "that he deliberately attempted to steal the work of an unknown author" and he charged that Casey "irresponsibly misrepresented the facts" when he initially testified.

Despite the vehemence of Proxmire's opposition, the nomination is expected to win Senate approval, possibly late this week. Proxmire acknowledged as much.

Casey, 58, is a nationally prominent tax lawyer, a substantial contributor to Pres-

ident Nixon's 1968 campaign and a law partner of former GOP National Chairman Leonard Hall.

His appointment was approved by the committee Feb. 10 and again on March 9 after he was called back to discuss the disclosure that he had twice been a defendant in civil suits charging him with violating the securities law which the SEC is responsible for enforcing. He settled one suit out of court and the other is still pending.

Sen. Harrison A. Williams, D-N.J., joined Proxmire and Stevenson in voting against Casey's nomination.

Proxmire insisted the record showed that "Mr. Casey has cut corners when he considered it to be necessary to a business profit."

"He has wheeled and dealt his way into a personal fortune,

sometimes at the expense of his clients," Proxmire said.

"It is an affront to the 31 million members of the invest-

ing public for President Nixon to propose such a man for the chairmanship of the SEC," he said.

# Generation gap? Jim Beam never heard of it.

Bert Bacharach, America's top music composer, and his father, Bert, famed newspaper columnist.

The Bacharachs. Famous son, famous father. They're of different generations. But in one way they're alike, exactly alike—each is a craftsman. With a respect for his craft. And a desire to excel at it.

The Beams, too, are craftsmen. Their craft is distilling Bourbon. And for 176 (176!) years now, son has followed father at that craft.

Each with a respect for it. Each with a desire to excel at it.

It's a proud record.

It's a proud Bourbon—smooth and light and mellow. With a rich, aroma full of promise.

Jim Beam. For six generations; one family, one formula, one purpose. The world's finest Bourbon.

BE PROOF KENTUCKY STRAIGHT BOURBON WHISKY DISTILLED AND BOTTLED BY THE JAMES B. BEAM DISTILLING CO., CLEMONT, KENTUCKY

# Train routing stirs protests

WASHINGTON (UPI) — The government's plan to save some passenger trains at the cost of derailing others stirred hot protest in Congress today and an investigation was promised.

Chairman Harley O. Staggers, D-W.Va., of the House Commerce Committee said the route and schedules approved Monday for preservation after May 1 appeared to have been drafted without regard to Congress' intent or the law it passed creating the new Railpax passenger system.

Staggers told the House he had been bombarded with complaints from more than 100 members of Congress and had had 1,000 or more protests from outsiders.

He said his committee would investigate the supposedly final version of the government-backed nationwide rail passen-

ger system among other things, it will see to what extent the government responded to pressure from the railroads in making its decision on which routes to save and which to abandon, Staggers said.

Among cities to be left without any passenger service under the plan is Cleveland, once a railroad center. Rep. William E. Minshall, R-Ohio, protested on the House floor today Cleveland's exclusion. Staggers arrived to echo this complaint and carry it further.

The "final" rail version announced Monday—with 184 trains serving 85 per cent of the urban population—still can be changed, even after it becomes official May 1.

Oldest man to serve in the U.S. Senate was Theodore F. Green of Rhode Island. He retired from the Senate in 1960 at the age of 93.

## River topic

READY FOR tri-state governors' meeting at Portland, Ore., on supersaturation of Columbia and Snake rivers are Gov. Tom McCall of Oregon, left, and Gov. Cecil Andrus of Idaho. Steps to combat the chemicals in the river were discussed. (UPI)

# Snake River fish loss potential still rising

PORTLAND, Ore. (UPI) — Three northwest states Tuesday asked the federal government for immediate multi-million dollar funding of projects to prevent a massive loss of fish in the Columbia and Snake rivers.

The resolution was announced at the end of a three-state meeting on the problems of nitrogen supersaturation in the rivers. The nitrogen caused 1970 fish losses so severe that at least two speakers warned fish runs could be wiped out in two more years of similar loss.

The resolution was signed by Gov. Tom McCall of Oregon, Gov. Cecil Andrus of Idaho and by Thor C. Tollefson, Washington state fisheries director, for Gov. Dan Evans of Washington. The three represented their states at the meeting.

Robert W. Schoning, director of

the Oregon Fish Commission, said the nitrogen problem poses "a threat to the very survival of all fish life living in or passing through these areas."

Schoning outlined the problem this way: "Releasing water over spillways at dams causes nitrogen supersaturation in the water. If the level is high enough it kills young and adult fish, upstream and downstream migrants. In the past three years it has been high enough."

Schoning said that mortality for juvenile chinook salmon passing through the areas of dams had increased from 5 per cent to 70 per cent.

He said that a basic problem was that there is no longer any free flowing river which would reduce the nitrogen saturation.

Schoning outlined a plan which he said agencies hope will get most of the hatchery produced

fish through the Snake and Columbia. Rivers with a minimum exposure to high nitrogen levels.

He said the plan would require liberating the fish "at a smaller size and earlier than biologically desirable."

He added, however, "A warm spring would accelerate high river flows and negate much of this planning."

Schoning also said that a Corps of Engineer proposal for passing water through slotted bulkheads in dams in which turbines have not yet been installed could be of great help and the project should receive funds.

# Western stations listed

WASHINGTON (UPI) — Railpax today announced specific stops on the route segments announced Monday for the new railroad passenger system.

The agency, which will operate the passenger trains after May 1, said because of connection service, not all stations were listed for each route.

Also, it said, not all trains which the corporation proposes to operate on a route will necessarily stop at every station listed. It also said, from time to time, additional stops may be added.

The list includes:

Chicago - San Francisco: Chicago, Aurora, Mendota, Princeton, Galesburg, Monmouth, Burlington, Mt. Pleasant, Ottumwa, Creston, Omaha, Lincoln, Hastings, McCook, Denver, Granby, Bond, Glenwood Springs, Grand Junction, Helper, Provo, Salt Lake City, Wells, Carlin, Sparks, Reno, Sacramento and Oakland.

Chicago - Seattle: Chicago, Glenview, Milwaukee, Columbus, Portage, Wisconsin Dells, Tomah, La Crosse, Winona, Red Wing, Minneapolis-St. Paul, Wilmer, Morris, Breckenridge, Fargo, Grand Devils Lake, Clacier Park, Whitefish, Libby, Troy, Sandpoint, Spokane, Pasco, Yakima, Ellensburg, E. Auburn, Seattle, Minot, Williston, Wolf Point, Glasgow, Havre and Shelby.

## Honored

KETCHUM — The election of the late Jim Griffith to the Ski Hall of Fame was announced this week by Charles T. Gibson, president of the United States Ski Association.

In the 1950s, Griffith, a member of the Sun Valley Ski Club, was generally regarded as the greatest downhill racer in the nation. He was a member of the FIS team in 1950 and the Olympic team in 1952.

He died of complications after a skiing accident at Alta, Utah, before the start of the 1952 skiing season when he was scheduled to compete in the Olympics in Oslo, Norway.

Griffith was the son of Mrs. Albert Griffith, Ketchum, and the late Albert Griffith.

# Pollution fight priority asked

TWIN FALLS — A woman who has been interested in the fight against pollution for several years has urged Magic Valley residents to assist in stemming the tide of pollution before the Idaho problem becomes as intolerable as that of New York.

Mrs. Rosemary Haley Clinton, a former resident of New York City now living in Magic Valley, cited the need for area citizens to assume part of the responsibility for the nation because wind carries pollutants to urban areas. She said this in a speech before the Republican Women's Club in Twin Falls.

Mrs. Clinton, who is an active member of the local anti-pollution organization, gave the first media pollution report in 1962. She also conducted a regular program on pollution on W-ABC.

She said pollution readings of have been taken locally for about a year, revealing that the sulfur dioxide content safe level, as recommended by the state, has been exceeded five times in Twin Falls. She said Twin Falls ranks with Pocatello and Nampa as high pollution areas.

Mrs. Haley said indoor fireplaces, backyard barbecues, burning ditchbanks and dust rising from behind a plow all are "villains" in the drama of "What's in the air in Twin Falls."

Mrs. Clinton said London, England, is a prime example of the fact that pollution can be dealt with effectively. She said Londoners can now expect 85 per cent cleaner air—and a visibility of four miles instead of one fourth mile since clean air legislation was introduced there.

Members of the Republican women are asked to write a letter to NASA, Manned Spacecraft Center, Astronaut Office, Houston, Tex., 77058, to support the astronauts reading of the Bible at the time of moon landing.

The meeting was conducted by Mrs. Robert Stradley, president. The April meeting will be a legislative tea. State legislators from Twin Falls County will attend. The Twin Falls unit has been invited to a 2 p.m. Friday meeting of the Jerome Club.

# Pond probe asked

BOISE (UPI) — The State Land Board has authorized Attorney General Anthony Park to investigate fish ponds placed across an estuary in the Thousand Springs area.

Park said a fish hatchery had placed the fish ponds in the area without consulting the state land department and to do so had diverted part of the stream from Niagara Spring.

The estuary is on the east side of the Snake River.

Park said he would investigate to see whether the waters are navigable—in which case the state has authority over the waters and said if they are navigable he will return to the state land board to ask for permission to sue for removal of the ponds "or the monetary damages if that isn't feasible."
