Nixon fears new arms race

WASHINGTON (UPI)—President Nixon warned the Soviet Union Tuesday not to let its new friendship treaty with Egypt touch off a fresh Mideast arms race that could greatly

introducing arms into the area," Nixon said at a White House news conference.

But if Moscow does step up its weapon supplies to Cairo, he said, "it can only mean a new arms race that could greatly jeopardize the chances for peace. We trust that this is not the case."

Nixon added that he is still hoping to work out some kind of Mideast peace settlement "and we are not going to allow this treaty to discourage us insofar as seeking that agreement is concerned."

Nixon fielded 21 questions during the 30-minute nationally televised session. In other highlights he:

—Said he was analyzing the U.S. position on admitting Mainland China to the United Nations, and will decide in about six weeks whether to revise long standing opposition to seating Peking.

—Labeled some of those who took part in the May day demonstrations in Washington "vandals and hoodlums and lawbreakers" who deserved to be arrested, terming it an exaggeration to say their constitutional rights were abridged by mass arrests.

—Accused Hanoi of refusing to do anything more than "discuss" not release American prisoners of war if this country would set a termination date for the war.

—Pledged highest priority attention to the problem of heroin addiction in the United States, including that among returning Vietnam veterans, and reaffirmed his opposition to legalizing marijuana for any reason.

—And said he would be willing to travel anywhere in the world if it would help to achieve troop reductions in Europe or arms limitation agreements with Moscow.

Crash kills three from Buhl family

By RUTH MILLER and PAULINE DAY
Times-News Writers

BUHL Three members of a Buhl family were among five people killed Tuesday afternoon in one of the worst traffic accidents in the state's history.

Dead are Michael Harrison Rippee, 17, and his parents, Patricia Rippee, 35, and Frank Harrison Rippee, 40, all Buhl and Patricia Taylor Webb, 27, and her husband, Harold Frank Webb, 28, both Dallas, Tex.

Idaho State Police Capt. Marvin (Bud) Snyder said the Rippee vehicle, driven by Michael Rippee, went out of control on rain-slickened Interstate 15 20 miles north of Dubois and slid broadside into the path of the Webb car, driven by Mrs. Webb.

Capt. Snyder said both vehicles were demolished. The front of the Webb vehicle penetrated the side of the Rippee car before they broke apart, both coming to rest in the northbound lane.

Capt. Snyder said Mr. and Mrs. Webb, the only occupants of their vehicle, were wearing seat belts.

The three dead members of the Rippee family remained in their vehicle.

None of the occupants of the Rippee vehicle were wearing seat belts. The three victims were seated in the front of the car. Frank Rippee on the right and his wife in the center. Seated in the back were Debbie Rippee, on the left, Dennis Burgoyne on the right, and the other two children in the center.

Four other people in that car were injured—all reported in fair condition today at the LDS Hospital, Idaho Falls.

They are Linda Newlan, 18, Castleford, Michael Rippee's fiancée; Debbie Rippee, 15, Buhl; Thomas Rippee, 12, Buhl, and their cousin, Dennis Burgoyne, 9, Twin Falls. Debbie Rippee and Linda

Newlan both were thrown from the vehicle, officers said, and the Burgoyne child was pinned in the vehicle.

Capt. Snyder said the Rippee car and another vehicle, driven by Robert Burgoyne, Twin Falls, father of Dennis Burgoyne, were traveling together. The two car-loads of area residents were returning from Montana. Capt. Snyder said.

Mr. and Mrs. Webb were traveling north toward Montana where he reportedly had accepted a church pastorate.

Another Rippee child, Teddy, was believed to have been traveling in the second car driven by his uncle.

Frank Rippee had been employed at the Green Giant Co. plant in Buhl since April of 1965. He was a factory mechanic. He was active in civic affairs and had been a past president of the Jaycees.

Michael Rippee was graduated from Buhl High School last month and planned to attend the College of Southern Idaho, majoring in engineering.

He was a football player and a "fine student" according to Frank Chariton, Buhl High School principal.

His sister, Debbie, will be a junior at Buhl High School this fall.

Investigating officers were Cpl. Ronald Hoodenpyle of the Idaho State Police and Clark County Sheriff Earl L. Holden. Capt. Snyder, who also was at the scene, said it was one of the worst accidents on record. He said on Thanksgiving Day on 1954, while stationed in Magic Valley, he investigated an accident near Malta in which six Buhl residents were killed when their car burst into flames after a two-car collision. The preceding October he investigated an accident near Declo in which five Mexican-Americans were killed.

Suspect arraigned for 10 of 23 Yuba deaths

YUBA CITY, Calif. (UPI)—

Mass murder suspect Juan V. Corona, wearing a blue suit and cowboy boots, went to court today for his arraignment on charges of slaying 10 of the 23 men whose bodies were found along the Feather River.

The Mexican-born farm laborer was removed from the jail in Marysville, across the river, and taken to the courthouse in an unmarked blue sedan.

Deputies held back newsmen and spectators as the suspect entered the courthouse.

A judge ordered the arraignment closed to the public because of security reasons.

The judge felt security would be impaired if the courtroom were packed with newsmen and spectators.

The order came a few hours after two anonymous bomb threats. No bombs were found.

Sheriff Roy Whiteaker said he was sending a "sophisticated spy plane" into the air and his 15 deputies back into orchards along the Feather River in the search for the bodies of more itinerant farm workers and a possible "central murder site."

Attacks drugs

PRESIDENT Nixon gestures to make a point during Tuesday evening news conference in White House. He called for major attack against drug addiction, particularly among GPs in Vietnam. (UPI)

Reds build new attacks

SAIGON (UPI)—Communist forces stepped up a week-long offensive and attacked allied troops in four widely-scattered sections of Indochina Tuesday, military communiques reported today.

The U.S. command also said nine Americans had been killed and one injured in three helicopter crashes.

In the heaviest fighting, Communist troops fired rocket and mortar barrages on Cambodian troops guarding the approaches to Phnom Penh only 15 miles east of the capital and engaged them in hand-to-hand combat.

The Cambodian high command said the government troops were completely surrounded and were being supplied by helicopter drop. But the troops, who had been trained by the American Green Berets, were stubbornly holding their own after six days of heavy fighting, spokesmen said.

Further north in Cambodia, survivors of the 2,000-man South Vietnamese Task Force driven out of the Cambodian frontier town of Snuol on Monday were regrouping along

the South Vietnamese frontier 75 miles north of Saigon under Communist mortar fire.

Spokesmen in Saigon for the Army of the Republic of (South) Vietnam (ARVN), who had announced that 37 South Vietnamese were killed in the five-day fight for Snuol, today added that 74 ARVN soldiers were missing in action after that battle.

In a third region, the A Shau Valley of South Vietnam's northern Central Highlands 375 miles north of Saigon, the Communists launched artillery and ground attacks against two South Vietnamese bases.

And Fire-Base 5, an ARVN outpost 190 miles north of Saigon under attack since last week, also came under heavy mortar fire and Communist ground attacks late Tuesday and early today. Military sources said at least four government soldiers were killed in one assault.

With the U.S. ground combat role winding down, nine of the 11 American casualties reported in today's morning communique occurred in helicopter crashes.

Elmore OK's bond for care

MOUNTAIN HOME—Elmore County voters Tuesday approved a \$240,000 bond election to help pay for an addition to the Elmore Memorial Nursing home.

Complete results were not yet tabulated at the courthouse, since returns from some of the mountainous precincts had not been reported this morning. But an incomplete, unofficial figure reported by the Mountain Home News showed 600 for to 60 against the proposal.

The money will be used to enlarge the county hospital to provide extended nursing home care.

Canyon OK's wine sales

CALDWELL (UPI)—Canyon County commissioners voted 2-1 Tuesday to allow sale of wine in retail stores in the county starting July 1.

Commission Chairman Ira L. Craven, Middleton, who opposed the action, said last week the commissioners believed they would wait until November of 1972 to place the issue on the general election ballot.

U. S. general cited for war crimes

WASHINGTON (UPI)—A brigadier general has been charged with murder and assault in the deaths of eight South Vietnamese civilians in late 1968 and early 1969, the Army announced today.

Brig. Gen. John W. Donaldson commanded a brigade in the same division of which Lt. William L. Calley Jr., under life sentence by an Army court martial for 22 deaths in the My Lai massacre, several months earlier, was a platoon commander.

In addition to Donaldson, now the highest ranking officer accused of Vietnam crimes, the Army announced murder charges against Lt. Col. William J. McCloskey. He was accused of two civilian slayings in March, 1969—a year after My Lai.

The deaths charged to both Donaldson and McCloskey occurred in the same province of northern South Vietnam in which My Lai is located.

Donaldson, then holding the rank of colonel, was commander of the 11th Infantry Brigade of the Americal Division.

The charges against him and McCloskey were formally announced by First Army headquarters at Ft. Meade, Md. Donaldson is assigned there as a special assistant to the chief of staff of the First Army while McCloskey is assigned to Ft. Belvoir, Va., which is in the First Army command.

Donaldson, a 47-year-old West Point graduate, is a native of Fort Oglethorpe, Ga.

The charges against him were not connected with the My Lai slayings that took place in March, 1968.

The commander of the Americal Division at the time, Maj. Gen. Samuel Koster, was originally accused of covering up the My Lai slayings, but the accusations were subsequently dropped. However, he was stripped of one of his two stars and relieved of a Vietnam-won medal.

The deaths charged to Donaldson were said to have occurred in Quant Ngai province in the northern part of South Vietnam during the last two months of 1968 or the first month of 1969.

The charges both murder and assault against Donaldson were filed by an Army investigator, Col. Roger L. Rank, on May 20.

The charges were formally filed with the headquarters of the First Army, since Donaldson now is assigned to that command.

The next step in the army process is for Donaldson's immediate superiors to decide whether the charges warrant a so-called Article 32 investigation—the military equivalent to a grand jury inquiry in civilian courts.

Rank brought the charges under the uniform code of military justice, which provides that any person subject to the code may bring charges of violating it against any other person subject to it.

Koster and some others who were investigated by the Army in connection with allegations growing out of the questionable deaths in Vietnam have been assigned to Ft. Meade.

One of those is Col. Oran K. Henderson, also an Americal Division officer who is accused of My Lai coverup charges. Court martial proceedings against Henderson are in recess for a few days.

person subject to it.

BRIG. GEN. DONALDSON

Well ban ignored in basin

BY JERRY HERRMANN
Times-News Writer

MALTA—A 1963 ban on new wells in the RAIR RIVER area has apparently failed to slow the amount of land coming under irrigation in this area.

Don McEldowney, appropriation supervisor for the Idaho Department of Water Administration, said today that in 1963 this area was declared a critical ground water area.

Under this provision only the valid permits were allowed. This whole problem came to a head in 1962 when a new party drilled a well in the area and the state had to close it down, he said.

The state's decision to declare the area a critical ground water area was ratified by the Supreme Court in 1967, McEldowney said.

He also said that about a year or two ago the valid permits were completed and since then his department has observed new land coming under irrigation.

As a result the department sent its crews into the area this spring to do a complete survey of the acreage under irrigation. This survey indicates that about 6,000 acres have been brought under irrigation since this ban.

"After checking our records we couldn't discover any valid water rights for this land. So letters were sent out to the 16 landowners involved asking them where the water was coming from. The landowners are given either 30 or 60 days to reply," he said.

As a result of these letters and new requests the department's director, Keith Higginson met with water users in the area at Malta Tuesday night.

The results of this meeting won't be known until Higginson returns to his Boise office.

It has also been reported that the water table in the area is still decreasing at about five feet a year. "Once the replies from the landowners are in they will be studied and the possible course of action will be decided," he said.

Details p. 26

Embezzle suspect arraigned

TWIN FALLS—Mrs. Anna May Jones, 23, Twin Falls, who was arrested last Saturday in connection with an alleged embezzlement at Magic Valley Memorial Hospital, requested a preliminary hearing Tuesday when she was arraigned.

Mrs. Jones appeared before Judge Daniel Meehl Tuesday afternoon in Magistrate Court. She has been free on \$1,000 bond since Sunday.

She was arrested by Twin Falls Police who have been investigating the apparent loss of about \$12,000 at the hospital. Mrs. Jones is a former hospital employee.

NATO assured

LISBON (UPI)—The United States reassured its NATO allies today it still plans no one-sided troop cuts in Europe but wants to discuss mutual east-west force reductions with the Soviets, U.S. officials said.

They said this was the message Secretary of State William P. Rogers brought to the annual two-day spring stocktaking meeting of NATO foreign ministers opening here Thursday.

Rogers, who arrived Tuesday night, spent most of today in pre-conference talks with other NATO ministers.

Their primary job was to draft a reply to a recent surprise offer by Soviet Communist Party Leader Leonid I. Brezhnev to discuss troop cuts something the West had been

seeking without success for three years.

But they wanted to avoid surrendering any bargaining cards in the current slow-moving East-West talks on Berlin or becoming bogged down in a vast all-European security parity which the Soviets have been demanding.

Secretary of State William P. Rogers arrived Tuesday to head the U.S. delegation. Officials said Rogers was spending most of today in pre-conference talks with other NATO ministers.

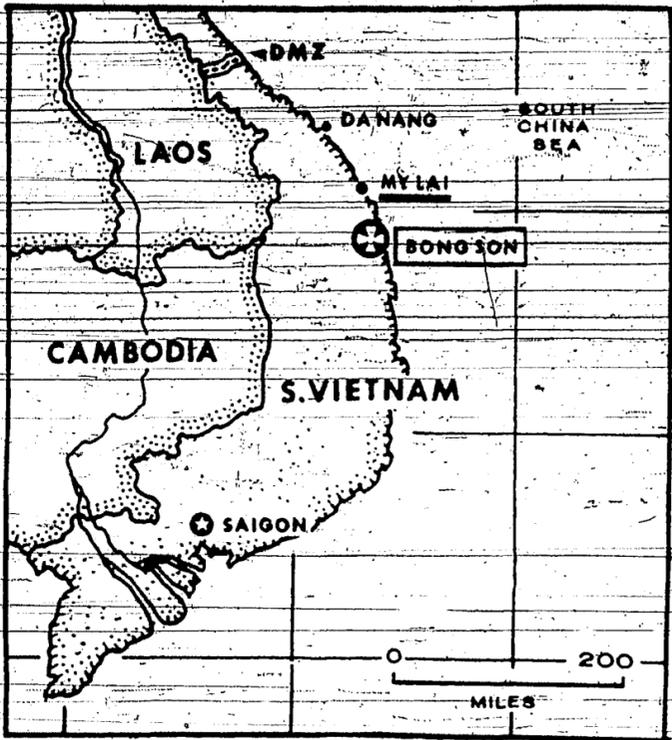

NATO first began calling for mutual and balanced East-West troop cuts in Europe in the spring of 1968, shortly before the Soviet-led invasion of Czechoslovakia.

The Soviets ignored the Western bid until May 14, when

Brezhnev surprised the West by offering to start exploratory talks on this issue.

Allied officials said the NATO ministers hoped to agree on a positive reply to the Soviets that would not commit the West to a vast European Security Conference but that also would not mean backtracking on the West's own three-year-old call for talks on troops cuts.

Rogers refused comment when he arrived Tuesday night. But in a speech at Hamilton, N.Y., Sunday he said the NATO Council aimed at a new initiative that would accelerate movement towards mutual and balanced reduction of forces in Europe "now that the Soviets have finally responded affirmatively to NATO's long-standing proposals."

PENTAGON sources said Tuesday Army is investigating report at least 24 Vietnamese civilians were massacred during amphibious landing at Bong Son, South Vietnam, in 1968. Report was made by former soldier, William E. Marlow, 30, St. Paul, Minn. He refused to give names of persons involved. (UPI)

Deaths probed

Gambling said money source

HUNTSVILLE, Ala. (UPI)—M. Sgt. William E. Higdon's attorneys Tuesday contended the amassed money not from illegal kickbacks, but by gambling—especially on a horse owned by the "Mad Greek of Okinawa."

Massey also testified that under Higdon's management the 26 NCO clubs for which he was responsible consistently exceeded the government's profit requirements.

Art Selin explaining interim report on mountain area study. Carol Jones waiting down hallway with coffee cup in hand. Arnold Putzier taking in movie and overheard, "Lots of people like this kind of weather umbrella manufacturers and ducks."

Collision injures teenager

TWIN FALLS — A Twin Falls teen-ager is in good condition at Magic Valley Memorial Hospital today with injuries received in a car-motorcycle accident Tuesday night on Addison Avenue West. Twin Falls Police said Michael D. Stevens, 19, was traveling east on Addison when the accident occurred about 10:30 p.m. Tuesday. His motorcycle and a car driven by Floyd L. Fisher, 16, collided in the 300 block of Addison West. The Fisher vehicle, westbound on Addison, pulled into the center island to make a left turn into a drive-in cafe. Fisher apparently failed to see the motorcycle and turned in front of it. Fisher was issued a citation for failure to yield the right of way. He was not injured.

Magic Valley Obituaries

N. W. Woody R. M. Lindsay M. Robinson E. E. Fischer

GOODING — Funeral services for Nicholas W. Woody, 29, of Palisades, Idaho, who died Sunday in a Salt Lake City hospital, will be conducted at 2 p.m. Friday at Thompson Chapel. The Rev. Willard Pultz, of Calvary Lutheran Church, will officiate. Burial will be in Elmwood Cemetery.

DECLO — Ronald Marjell Lindsay, 63, Ashford, Wash., former Mini-Cassia area resident, died Saturday at San Andreas, Calif., after a short illness.

TUTTLE — Marvin Robinson, 75, died in Weiser of a sudden illness Monday. He was born Dec. 21, 1895 in Rockland, Idaho, and was married to Bernice Carlson on Aug. 12, 1926 in Pocatello.

MURTAUGH — Mrs. E. E. Fischer, 85, Murtaugh, died at her home early Tuesday morning of a short illness. She was born Jan. 16, 1886, at Heidsheim, Germany, and was married to George Fischer in Kansas in 1905. He died May 3, 1942.

Mr. Woody was born May 22, 1942, at Gooding and was reared in Hagerman. He graduated from Hagerman High School in 1960. He was married to Norma Jean Billington on June 13, 1960, at Boise. He was a graduate of the Gate City Welding School at Boise as well as the Nuclear Welding School at Bremerton, Wash. He was employed by the Bureau of Reclamation and had worked at the Bremerton Naval Shipyard for a number of years.

Surviving are two sons, Joseph Mortensen, Olympia, Wash., and Benjamin Mortenson, Ashford; two brothers, Clive Lindsay, Burley; Adrian Lindsay, Mountain Ranch, Calif.; a sister, Mrs. Clea McArthur, Pierce, Idaho, and three grandchildren. Funeral services will be at 11 a.m. Saturday at the McCulloch Funeral Home Chapel, Burley, with the Rev. David E. Buzza officiating. Burial will be in the Declo Cemetery with graveside rites by the Paul Masonic Lodge. Friends may call at the funeral home Friday afternoon and evening and Saturday prior to service time.

He was a veteran of World War I and attended schools in Rockland. Survivors include his wife of Tuttle; one son, Bob A. Robinson; Tuttle; two daughters, Mrs. Dick (Ramona) Marlow, Wendell, and Mrs. Frank (Norma) Anderson, American Falls; three brothers, Clinton, Roy and Robert, all American Falls, and seven grandchildren. Funeral services will be held at 2 p.m. Thursday at the Rockland Congressional Church by Rev. Leonard Leisy. Military rites will be held by the American Legion at the Valleyview Cemetery, American Falls. Friends may call at Leeper Mortuary, Wendell, tonight, and tomorrow at the church in Rockland at 10:30 until time of services.

Survivors include one daughter, Mrs. George (Lois) Allen, Salem, Ore.; one nephew Elmer Graff, Murtaugh; one niece, Mrs. Ralph Ford, Twin Falls; one brother, John Schrob; Bennett, Colo.; three sisters, Mrs. Caroline Nacks, Colorado Springs, Colo.; Mrs. Mathilda Thomas, Oakley, Kan., and Mrs. Emma Clark, Wheat Ridge, Colo. Funeral services will be announced by White Mortuary.

Fishermen

The normally peaceful occupation of fishing is becoming a troublesome headache for American commercial fishermen both in the Pacific and the Atlantic.

Off the shores of South America, up to 200 miles off, American tuna boats have been seized repeatedly by Ecuadorian patrols and assessed heavy fines. The United States, refusing to recognize the territorial limits beyond the 12 mile zone, has reimbursed the fishermen. Thus, the American taxpayer, who has been generous with aid to Ecuador and her neighbors who make similar exorbitant claims, has been paying the fine.

With this precedent, it is hardly surprising that the costly Russian fishing vessels, a hundred miles off New England shores, have wantonly ignored the American lobster pots and have wrecked gear, broken lines and stolen materials.

Even after a direct appeal and despite Russian assurances that molestation would cease, the interference has continued.

In this the freedom of the seas civilization fought so long to establish?

The lobstermen think someone should pay them for the losses they have suffered. They are willing for

the United States government to pay them. But the taxpayer may be forgiven if he thinks it ought to be the Russians who pay for the damage they have caused.

If the Russians are unwilling to pay, and you can bet they will be, then it might be worthwhile to have a few patrols dog the Russian fishing fleet to see they do observe the rights of the American lobstermen. After all, we would be following an example set by the Russians who have been keeping close tabs on our fleet in the open seas.

A realistic international agreement on territorial limits of offshore waters is urgently needed before these sorry incidents bogot defensive measures and retaliation. Two hundred miles is obviously an excessive limit and 12 miles is too little.

Salmon fishermen off the northwest coast have been provoked by Russian trawlers they claim have intruded inside the 12 mile limit.

In the past, freedom of the seas has been deemed worth fighting for. At present, it appears that if we are willing to be shoved around, we will be.

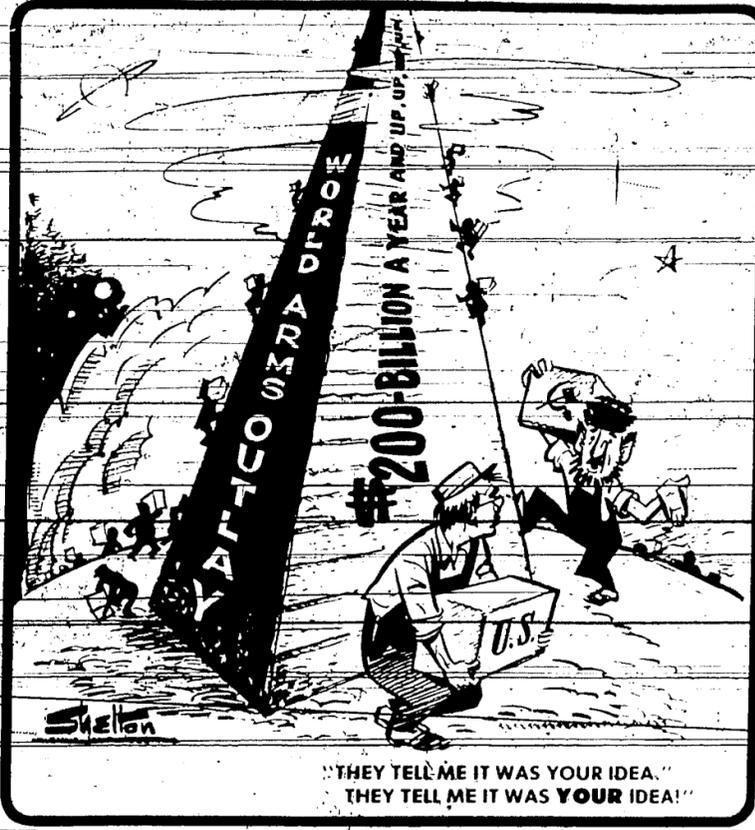

WASHINGTON — Iffy as it is in content, Republicans are already making political hay with the recently announced agreement-to-look-for agreement in the U.S.-U.S.S.R. strategic arms limitation talks (SALT). The declared intention to give priority in the talks to curbs on defensive missiles — ABMs — files in the face of anti-ABM statements by dovish Democrats. The GOP does not propose to let their apparent miscalculations pass unnoticed.

An unheaded, unsorted document in rather wide circulation here vividly recalls dovocate assertions that the Safeguard ABM would be as effective as gasoline shot through a fire hose. Also spotlighted by the GOP are anti-Safeguard statements of four of the Democrats who want to run against President Nixon in 1972.

Relations Committee and sharp administration critic, that "At present, the ABM is likely to be as effective as gasoline shot through a fire hose." Also spotlighted by the GOP are anti-Safeguard statements of four of the Democrats who want to run against President Nixon in 1972.

advance SALT. I suggest that the case has become so weak that they are using SALT to get Safeguard. The issue is not whether we will give the President a bargaining chip, it is whether we will allow the negotiations to be misused as a debating point here at home, to pry loose a system the President appears determined to build."

continue to retain ours, its value will merely be a provocation for Soviet retribution. Those now outdistanced statements are relished by GOP strategists — and not only because they are rather hard for the spokesmen to swallow now. More importantly, the statements, read in today's context, suggest that future critics of the ABM and strategic arms policies will have to be very careful about their comments.

"THEY TELL ME IT WAS YOUR IDEA." "THEY TELL ME IT WAS YOUR IDEA!"

Sen. Edmund S. Muskie, D-Me. (Aug. 3, 1969): "It may be that the Safeguard proposal is intended as a blunt challenge to come to the bargaining table and negotiate over strategic weapons or else the United States will heat up the arms race, counting on our superior technology to protect us if negotiations fail. I cannot believe that this kind of bluster would have any rational justification, and I must caution the Senate and the country that such diplomacy is the very essence of provocation."

Sen. Edward M. Kennedy, D-Mass. (April 9, 1970): "The Nixon Administration must do everything in its power to make the SALT talks a success for peace. The proposed deployment of MIRV and Safeguard is a step toward disaster. It substantially increases the risk that the dreaded arms race, with all its costs and all its dangers, will continue to plague mankind..."

Sen. Hubert H. Humphrey, D-Minn. (Feb. 1, 1971): "The President has long demanded that the United States commit itself to the building of weapons systems, such as the Safeguard ABM and MIRV, which could serve as 'bargaining chips' at the SALT talks. Last year, a reluctant Senate agreed to support him for phase two of the Safeguard system. Today, however, any value it might have had as a bargaining chip has vanished. The Russians are no longer building the SS-9; they have given up their chip. If we

With the SALT talks in a new phase, and both sides actively seeking an agreement as simultaneously announced in Washington and Moscow, even the most outspoken of the critics will have to give President Nixon the benefit of the doubt and freedom to maneuver. Cautious Republicans should be sobered, however, by the fact that today's happy circumstances carry future political risks for Mr. Nixon and his policies. The context of the Moscow-Washington announcement has been characteristically overglorified by Mr. Nixon and his aides, and a careful reading suggests that there has been no real breakthrough at all — just the resolution of a procedural impasse.

In past negotiations with the Russians one such impasse has often been followed rather quickly by another. It is quite within the realm of possibility that the SALT talks will have been stalemate, or even ended by a Russian walk-out, by next September. If that should happen, Mr. Nixon's critics would have a field day in the ensuing presidential campaign. In the political context it is very important that the salt talks succeed, and rather quickly — and an important posture has not been notably fruitful in previous negotiations with the Kremlin.

Economical

Insurance costs, like everything else, keep going up. But there's a happy exception in at least one field of insurance: Workmen's compensation is providing a better return on the premium dollar than ever before.

According to the Journal of Insurance, workmen's compensation benefits on a countrywide basis have risen more than 100 per cent over a 30-year period while rate

levels have increased only 16.6 per cent.

The reason is that loss-producing accidents experienced by covered firms have dropped by almost half during the period. This in turn is attributed to safety engineering services provided by insurers, plus the incentive of individual premium reductions tied to company safety records.

Lib Myth

Bra burning, the symbolic act associated with the women's liberation movement, is just a myth kept alive by the news media that "never happened anywhere," says Aileen Hernandez, president of the National Organization for Women (NOW). A few years ago, she explains,

protesters at a Miss America pageant in Atlantic City threatened such an act. But they called it off when fire officials said it would be a hazard to the Boardwalk.

The symbol stuck, however, even though the event never took place. The record stands corrected, if not exactly uplifted.

ART BUCHWALD

In Paranoia

WASHINGTON — In the city of Manicdepressia, on the banks of the Schizophrenic River, live the rulers of the great country of Paranoia.

The rulers of Paranoia are constantly announcing a plot against the government by the citizens. The citizens are always announcing a plot by the government against the people.

Since these plots are passed on by the news media, the rulers suspect there is a plot by the media to destroy the government. This has made the news media suspect that there is a plot against them by the rulers.

The leaders of Paranoia believe that if the news media would stop pointing out what is wrong in the country, the problems would go away. The news media think unless they point out the faults of the government, things will get worse.

Skin tone means a lot to the people of Paranoia, and the light-skinned people inhabit the best houses, have the most money and live in deathly fear that the dark-skinned people will marry their daughters. The dark-skinned people live in deathly fear that the light-skinned people will kill them. Both the light-skinned people and the dark-skinned people are stocking up on guns, as each is suspicious that the other is plotting against them.

The young people suspect that the older people and the leaders are going to get them killed in some senseless war. So the young people have taken to the streets to protest. This has made the older people suspect that the young people are plotting against them, and they have demanded that the rulers use force to see that the young people do nothing to change the system.

Many of the people in Paranoia believe that the large companies in the country are trying to destroy them by poisoning the air and the water. The large companies believe that there is a plot to prevent them from making the things the people want. The rulers are caught in between, because Paranoia's economy depends on the companies that are destroying the environment.

The rulers have promised the people to clean up the air and water. At the same time they have promised to raise the gross national product and give people full employment. Since the people know it's impossible to do both, they are very depressed.

There are not enough jobs in Paranoia, and therefore the people who are working suspect

people on welfare of cleverly dodging work, and the people on welfare suspect the people who are working of keeping them off a payroll.

To make matters worse, the leaders of Paranoia believe that other countries are plotting against them, so they spend more than 50 per cent of their budget for defense.

A great deal of this money goes for digging large holes in the ground for great big missiles, which everyone assures everyone else will never be used.

Every night before they go to sleep, the rulers of Paranoia look under their beds to see who is plotting against them. In the

morning they check again. Even if they don't see anybody, they suspect the worst.

Because of this the citizens of Paranoia are always looking over their shoulders and wondering if their phones are tapped.

With everyone suspecting everyone else of a conspiracy it's impossible to solve any of Paranoia's pressing problems.

In desperation the leaders of Paranoia have asked the United States for help. But so far the U.S. refuses to get involved. A high-ranking American official told Paranoia's ambassador, "Since we don't have any such problems in our country, we wouldn't know where to start."

As defense secretary, Charlie Wilson got into all kinds of trouble for saying "What's good for General Motors is good for the country." But he was right.

Now we have car maker Henry Ford saying the United States may have to go out of the car making business; what'll that do to our country?

The inevitable complexity of economic issues is best understood in terms of one typical example.

More and more, Americans are doing their shopping overseas. From other countries we are buying an increasing variety and quantity of usables.

While we're comparatively prosperous our buying power is a shock absorber. But if just one American industry, say automobiles, should be starved to death by foreign competition — in that and related industries — more than a million Americans would be jobless.

And the outgo cash flow would be disastrous.

Yet it's happening. Last year 12 per cent of all car buyers in the United States bought foreign cars. So far this year 16 per cent.

Ford tried to compete by producing the Pinto. General Motors tried to compete with the Vega. Both unsuccessfully.

Henry Ford says when foreign car makers will work for one-third the wages of American auto workers, ours can't compete. Americans get more for their money in foreign cars. And, says Ford, when mandatory safety modifications add another \$1,000 to the price of our 1972 models, the advantage to foreign producers will be even greater.

From the workers' point of view, average weekly wages in American industry have increased \$29 since 1965. But inflation made each dollar worth less so that the workers' "real increase" amounted to only \$2.72.

Seeking improvement, the worker demands more dollars — and makes things worse.

The auto industry is just one industry but typical. Robert McCurry of Chrysler says, "Once, almost everyone wanted as big a car as he could afford; now many people buy the least costly car that'll serve their purpose."

Foreign car makers, with their cost-price advantage, are capturing more and more of the total U.S. market: 1971 is a 10 million new car year. Bumper-to-bumper production in all factories will leave nobody hurting enough to baller much.

But the right now international money market snafu demonstrates that, our economy must consider the worldwide wage-output ratio. American workers, if they insist on more money per car, soon may be making no cars at all.

GEORGE C. THOSTESON, M.D.

Raynaud's

Dear Dr. Thosteson: Please explain Raynaud's disease. — M.M.

Dear Doctor: What can you tell me about Raynaud's phenomenon, causes, symptoms, relief? — L.B.O.

There are two disorders which seem to be identical but are not, and treatment may be totally different.

Raynaud's disease is a matter of spasm of the small arteries of the fingers and toes, usually with exposure to cold. Fingers turn white because blood flow is curtailed.

The cause is not known, but it occurs more in women than in men, often in those who are nervous and sometimes underweight. It may affect others in the family, which falls short of saying it is "hereditary."

Careful protection from the cold is imperative. In addition, smoking is taboo because that also causes spasm of the small arteries.

Medication can be taken before exposure to cold, to dilate the arteries temporarily. More recently it has been found that certain drugs used to control blood pressure (reserpine, methyldopa) afford relief when given by injection.

Thus one shouldn't suffer in silence; measures of relief are available. Milder cases tend to improve in time; severe cases can lead to ulceration of the fingertips.

Reason for the difference is that Raynaud's phenomenon is secondary to some detectable cause. For some examples, an extra-large cervical rib or muscles in the neck which exert pressure of blood vessels; or arthritic changes in the neck can press on nerve roots causing the same symptoms; or the phenomenon may be part of one of the so-called collagen diseases, especially scleroderma; or in some instances there may actually be a peculiarity of the blood which makes it thicken (thus slowing circulation) when exposed to cold. (Even a mild cooling in summer can do it.)

Since the end result so far as symptoms are concerned can be so similar, careful examination is necessary to distinguish between the disease and the phenomenon.

When a case is proved to be the phenomenon, the form of treatment must depend on which of the various causes is identified.

From the workers' point of view, average weekly wages in American industry have increased \$29 since 1965. But inflation made each dollar worth less so that the workers' "real increase" amounted to only \$2.72.

Seeking improvement, the worker demands more dollars — and makes things worse.

The auto industry is just one industry but typical. Robert McCurry of Chrysler says, "Once, almost everyone wanted as big a car as he could afford; now many people buy the least costly car that'll serve their purpose."

Foreign car makers, with their cost-price advantage, are capturing more and more of the total U.S. market: 1971 is a 10 million new car year. Bumper-to-bumper production in all factories will leave nobody hurting enough to baller much.

But the right now international money market snafu demonstrates that, our economy must consider the worldwide wage-output ratio. American workers, if they insist on more money per car, soon may be making no cars at all.

MR. SPECTATOR

A New Grandpa

Well, we suppose it had to happen someday. Mr. Spectator is now a grandpa and Mrs. Spectator is now a grandma. The first offspring is a boy.

It all happened last Saturday but we are just getting over the strain sufficiently to tell you about it. Everything at the hospital was efficient, the labor was long but the doctor was understanding. And, when it was all over, everyone was happy.

But how different a birth is now than it was in the pioneer days of this area. In those times, we are told, everything stopped until the birth was completed. Mother and doctor and midwife were in one room. The male members of the family were in another. And they would stay like that for hours until the youngster — the new one — let out a yell and everybody knew everything was fine.

But today! Grandpa was working when the expectant mother went to the hospital with Grandma and papa-to-be. Did grandpa run out and sit and wait? Not on your life in this modern day. I remember well my last words to Mrs. Spectator

that Saturday morning, May 29. "If anything happens, give me a call. I'll be down at the paper."

Well, the call came shortly after 9:26 p.m. Saturday and, like I said, I was down at the paper.

Oh for the good old days.

Say, we nearly forgot to mention that father, Jon, and mother, Shelia, are both coming along fine as is the new heir, Bjorn.

LONG WEEKENDS

The three-day weekend has now arrived. This year Congress and most of the States have designated four Monday holidays in addition to Labor Day. They are Washington's Birthday, Memorial Day, Columbus Day and Veterans Day.

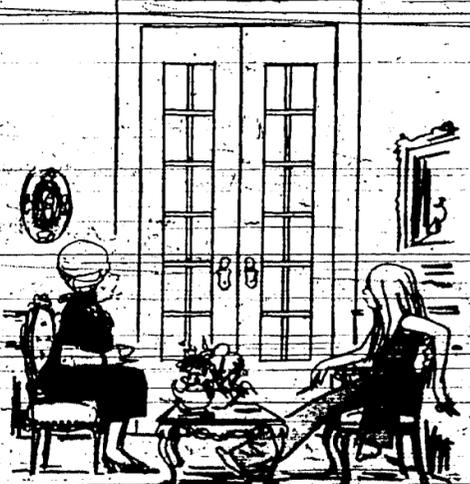

This means at least five long weekends and a great opportunity for you to plan at least five mini-vacations a year.

There's only one catch to all this three-day holiday stuff.

It just isn't true in the editorial department of a daily newspaper.

So when you who can do it are enjoying the long weekends, please remember us and be sure to read your paper when you get home.

BERRY'S WORLD

"But, my dear, if you plan the wedding for June 12, you'll be competing for space with Tricia and Edward!"

Lead hazards spread

WASHINGTON (UPI) — The Environmental Protection Agency (EPA) has received a report that says slum children already exposed to lead poisoning in their homes may face increasing hazards from lead in exhaust fumes if they live near busy highways.

central nervous damage in children," the statement said. "Repeated exposure to high environmental levels of lead greatly increases the risk of irreversible damage."

The crumbling walls of dilapidated slum buildings long have been recognized as the major cause of lead poisoning among children aged 1 to 6. Lead-based paints were widely used on the interiors of such buildings, and children sometimes eat paint peeling from the walls.

The EPA paper, made available to UPI by a government health worker, affirms the peeling paint hazard, but also points a finger at the automobile.

Space age education course set

POCATELLO (UPI) — The College of Education of the Idaho State University will offer a course in space-age aviation for elementary, junior high and senior high school teachers, July 12-23.

Maj. Robert Sobelgaon, USAF, Boise, will instruct the session to include lectures and demonstrations by representatives of the Civil Air Patrol, Federal Aviation Agency and the National Aeronautics and Space Administration.

Alcoa pact irks Nixon

WASHINGTON (UPI) — President Nixon considers the wage settlement reached in the aluminum industry as inflationary and is disappointed at the development, the White House said today.

Press Secretary Ronald L. Ziegler told newsmen: "Wage and price increases of the size announced in the aluminum industry, the President feels, creates serious problems for the American economy and the American people."

Ziegler, on the President's behalf, cautioned that if the aluminum wage boost of 30 percent over a three-year period was followed by the steel industry, there would be even more serious consequences. "The steel industry is especially cautious about following patterns in other industries such as steel which are vulnerable to both domestic and world competition should be very cautious about following patterns in the aluminum industry," Ziegler added.

Murphy termed acting 'living'

HOLLYWOOD (UPI)—Audie Murphy was different from other movie stars. Murphy called it play-acting. Others called themselves artists. He had been "To Hell and Back"—the title of his autobiography—and the makeup box was kid stuff compared to an ammobox.

"Acting is just a living with me. I'm not kidding myself. If it weren't for the medals I wouldn't be in Hollywood," he said once.

Murphy did not take his World War II heroics nor his designation as America's most decorated soldier seriously. Of killing, wounding or capturing 240 German soldiers and collecting 24 medals, he said, "I did what I had to do, like everybody else."

But the past clung to Murphy's name. Ironically it was during the Memorial Day weekend—the holiday designated for remembering America's warriors—that death finally caught up with the most honored of them all on a Virginia mountainside.

A sharecropper's boy in the hardpan country near Kingston, Tex., Murphy grew up with a sharp instinct for honor in the traditional sense, and quick vengeance for enemies.

On his return from Europe's war, his early acting as a contract player at Universal Studios was wooden and amateurish in "Bad Boy," "Sierra," and "Kid From Texas."

But Murphy learned to handle a script as deftly as a rifle.

Man's first written records date from about 3000 B.C.

The hawthorn-tree has the smallest buds of any tree. They are so tiny they are best seen with a magnifying glass.

Wahunsunacock was the real name of the Indian chief Powhatan.

Held

ROY DeLONG, 52, friend of one of victims in Yuba City, Calif., mass murders, has been arrested as "material witness" by officers, who believe he can identify Juan V. Corona, charged in killings, as man with whom Sigrid (Pete) Belerman, 63, was last seen. Belerman is one of victims. (UPI)

Eyes vote

WASHINGTON (UPI)—Sen. George S. McGovern, D-S.D., the only announced presidential candidate, underwent surgery for a hernia Tuesday at Georgetown University Hospital. He hoped to return to his office by Friday, in time to vote on key amendments to the draft extension bill.

The Almanac

By United Press International Today is Wednesday, June 2, the 153rd day of 1971. The moon is between its first quarter and full phase. The morning stars are Mercury, Venus, Mars and Saturn. The evening star is Jupiter. Those born on this day are under the sign of Gemini. American engineer George Corliss, designer of the steam engine, was born June 2, 1817. On this day in history: In 1862 Gen. Robert E. Lee took command of the Confederate Armies of Eastern Virginia and North Carolina.

NBC baseball TV pact notable for realism

HOLLYWOOD (UPI)—In a period when some sports are asking out-of-line, astronomical sums for television contracts, baseball's new four-year pact with NBC-TV is noteworthy for its realism.

When the total sums of each contract are averaged out on an annual basis, there is by today's standards—relatively little difference between the old three-year agreement and the new four-year pact.

NBC-TV, happy with showing the World Series and All-Star competition, but long upset over big money losses on the weekly Saturday afternoon games—a

Experts picked

MOSCOW (UPI)—Norman Luboff, Joe Morello and William Starr, names well known in their musical fields, will be instructors at various workshops at the University of Idaho this summer, the university announced today.

The university said high school choral students and teachers will have a chance to study and perform under director Luboff June 21-26 at the summer music camp choir for high school students

problem it hopes to solve by switching to more Monday night contests—thinks the new contract is fair enough.

And agreeing with the network that the four-year deal is equitable is one of the most influential figures in sports; Walter O'Malley, chairman of the board of baseball's Los Angeles Dodgers, a gentleman well known for his financial expertise—to put it mildly.

Nothing that the old three-year contract with NBC-TV was for about \$50 million total, O'Malley said in an interview Wednesday.

"The new four-year agree-

ment is somewhat in excess of \$70 million. I'd say that, on a weighted basis, it's comparable to the last contract, and at a proper plateau. By that I mean that, in everyone's greed to get the last dollar, you can price yourself out of the market. We've had very honorable and pleasant arrangements with NBC."

According to sources in and out of baseball, the new contract is for about \$72 million, give or take a little. What is interesting, say these sources, is that although the final year of the old deal was for \$18 million-plus, the first year of the new pact is for \$17 million-plus. After that, sources say, the new contract naturally is staggered upwards in the remaining years, again finishing around \$18 million-plus.

O'Malley, while not discussing these various figures directly, said, however, when asked about them: "You're in the ballpark."

He added, though, that the different prices paid for each year were negotiating points—with obvious reasons—but indicated he felt that the overall figures were more significant, and that they averaged out pretty close to the same in both contracts.

Soviet sifters plan Mars probe

MOSCOW (UPI) — Soviet science writers hinted Tuesday that two big Soviet robots will soft-land and sift Martian soil for signs of living organisms. The Soviets, following their usual policy, announced the launch of Mars 2 and Mars 3 last month without saying what they will do when they reach the red planet. But a half dozen Soviet science writers have commented on the problems of finding life on Mars, indicating that the two ships will try to solve the problem.

One writer mentioned Tuesday in general terms, mechanical "scoops" and culture mediums that could be used in searching for microbes in Martian soil.

The writer, in an article for the railway union newspaper Whistle, said Martian life may be in primitive forms "and it will not be easy to find it."

Scientists can offer no guarantee that Martian microorganisms will be unequivocally recognized even if they get into a scoop mechanism.

The Soviets have developed complex soil analysis devices which were used by their Lunokhod moon robot during six months of exploring the lunar surface. The robot scooped up bits of lunar soil for chemical analysis and chipped at small boulders with a mechanical rock hammer.

The enormous size of Mars 2 and 3, which weigh 10,253 pounds each, suggested the possibility of a soft landing and the use of such soil analysis equipment.

The armed forces newspaper Red Star offered Tuesday the first public explanation of the great weight. Red Star said the long distance between earth and Mars necessitated unusually powerful communications and navigation equipment.

The newspaper compared the Mars probes with the successful Soviet mission last year to soft-land a capsule on Venus. The Venus 7 probe that made the landing was much smaller because the shorter distance from earth to Venus did not demand such powerful radios, the newspaper said.

Gem benefits paid

BOISE (UPI) — Gov. Cecil D. Andrus said Tuesday some \$628,000 has been paid under a new Idaho law passed early in the 41st legislature.

The measure provided additional unemployment compensation to 2,700 claimants who had exhausted their weekly benefit allowance entitlement.

Andrus said the Idaho bill took advantage of provision in the employment security amendments of 1970 which for the first time made federal matching money available on a 50-50 basis to Idaho for the extended benefits program.

The bill became effective Feb. 3, and the Department of Employment began implementing the new benefit provisions just 12 days after he urged passage of the enabling legislation.

The governor said 2,693 unemployed workers become eligible from the start of the extended duration period last February through May 15.

Canyon ground bought

TWIN FALLS — Purchase of over half an acre of land at the rim of Rock Creek Canyon west of Twin Falls has been completed by Twin Falls County Commissioners, Chairman William L. (Bill) Chancey said today.

The .56 of an acre was purchased from Mrs. Alica Prescott for \$2,500.

Chancey said both the upper area and the lower canyon land have been cleared of old car bodies and as funds and time permit the county, with the cooperation of the Twentieth Century Club of Twin Falls, will go ahead with landscaping and other improvements. Eventually the entire area will become a county park designed for day use by local residents and tourists.

Chancey said some landscaping at the top will provide a more scenic entrance and will give space for a few vehicles to pull from the highway before entering the park area.

Final plans for development are being prepared by Ed Woods, county zoning administrator. Chancey said one reason for obtaining the land around the canyon entrance, was to clear it of old car bodies and other junk and to assure protection against some other use of the park entrance.

Woods said county park work this spring has been hampered by excessive rainfall and it has not been possible to get heavy equipment into any of the park projects. Balanced Rock Park will be completed this year and efforts will turn to other parks such as the Rock Creek development next year.

Woods said the county previously purchased about eight acres in the canyon along the creek. Other organizations, such as men's service clubs, will be assisting in work projects and development of the park area, he said. Federal funds are being utilized on a matching basis for the project and the county and Idaho Department of Parks meet local funding obligations. This financing covers land acquisition and improvement costs, he said. The Prescott property was purchased at the appraised price, Chancey said. Hopefully the Rock Creek Park area can be in progress next summer and available for public use by the following year, he said.

Man injured

DRIVER OF this vehicle, Jerry Lee Siles, 25, Kimberly, is in good condition at Magic Valley Memorial Hospital where he was taken after the Tuesday morning accident. His was one of three vehicles involved in the mishap at Eastland Drive and Kimberly Road. Officers said Siles pulled from Eastland South onto Kimberly Road into the path of a truck driven by Stanford L. Myers, 31, Twin Falls. The truck swerved to miss the vehicle, clipped the front of a car pulling a trailer which was parked at Eastland, and collided with Siles' car. Driver of the other vehicle was John Henry Hamlow, 55, Hawthorne, Calif.

Wyoming bans eagle poison

BIG PINEY, Wyo. (UPI) — The Wyoming Board of Agriculture Tuesday placed a temporary ban on the sale of the poison thallium, blamed for the deaths of many of the 48 eagles found in the state since May 1. The action came on the eve of a congressional hearing in Washington to look into the uses of thallium. The hearing will be conducted by the Senate Agriculture Appropriations Subcommittee.

The Wyoming Board of Agriculture, acting on a request by Gov. Stanley K. Hathaway, removed thallium sulfate from the list of registered pesticides for six months pending further study of predator control.

Although thallium has been blamed for the deaths of several golden and bald eagles recently in our state, it has not yet been determined whether the predatory animal control program is the cause or misuse of thallium sulfate is responsible, the board said.

Drug sale term given T. F. man

TWIN FALLS — Douglas U. Cunningham, 24, Twin Falls, was sentenced to five years in the state penitentiary Monday for illegal sale of an enumerated drug.

Cunningham, who was arrested last year by Twin Falls Police, pleaded guilty to the charge Friday when he appeared in Fifth District Court. Cunningham was placed on a 90-day jurisdiction retention, however, and after serving 90 days in the penitentiary, he will return to Twin Falls to reappear in court.

Cunningham also was given a six-month sentence in the county jail for receiving stolen property. That sentence was suspended.

Y plans ballet, tennis courses

TWIN FALLS — The Magic Valley YMCA is offering a beginners' ballet class for boys and girls 8 to 12 years of age.

The class in basic ballet will be taught by an advance student of Mrs. Beverly Hackney. Reservations can be made by calling 733-4384. The eight-week course will begin when enough students register. Classes will be conducted in the late afternoon or early evening. The class is limited to 15 students.

Sign-up night for tennis lessons sponsored by the Y will be Thursday. The classes will

be taught by Jim Rich and Duane Watson of the 1971 tennis team at the College of Southern Idaho.

The first of 10 lessons will start the week of June 7. They are designed for junior or senior high school students who want to improve their tennis ability. The classes will be conducted from 7 to 10 p.m. Tuesdays and Thursdays at Harmon Park. Classes will be kept to a maximum of eight students. Reservations also can be made by calling the Y at 733-4384.

Fume trap offered market

TWIN FALLS — Delwin W. Butterfield, Twin Falls inventor, has a new item ready for introduction to manufacturers.

His latest invention, now being introduced for production, is a device which traps gases and smoke before they escape into the atmosphere from a chimney. These are returned to the furnace for

returning. Butterfield's invention not only cuts down on air pollution but provides a reduction in fuel bills. The heat generated by the device is adaptable for use with any type of fuel and may be used in a wide variety of applications.

Butterfield is now negotiating for production and marketing rights on the invention, one of several he has developed in Twin Falls. He is working through Raymond Lee Organization, New York City, in bringing the equipment into commercial production.

Runway bids due June 18

TWIN FALLS — Bids for reconstruction of Runway 7-25 at the Twin Falls City-County Airport will be received until 4 p.m. June 18 at the office of the city clerk.

Opening of the bids is set for that hour in the city council chambers.

The project includes raising the west end of the runway, removing part of the existing asphalt surface, placing a base course, grading, raising part of the high intensity runway lighting system, paving and striping.

Instructions for bidders, specifications, and the necessary forms and information may be obtained from the offices of Reidesel and Straubhar, 1615 Addison Ave. E.

Appointed

BOISE (UPI) — Appointment of Glenn A. Gearhard, Boise, as chief plumbing inspector for the Idaho State Plumbing Board was announced Tuesday by Donald L. Coons, Boise, the board's executive officer.

Gem families tour NG training sites

By NORMA HERZINGER
BOISE — Families of Idaho National Guardsmen received a first-hand view of what takes place during military summer camp when they participated in a field tour Monday.

Two tours were conducted by personnel of the First Squadron of the 116th Armored Cavalry Regiment, the first ending with lunch at the Officers Club at Gowen Field and the second commencing with lunch there.

The families were bused south of Gowen Field, passed the old Interoceanic Ballistic Missile site of the disbanded Titan Missile Complex and on out into the desert to the various training sites and firing ranges.

Young and old alike, for example, were fascinated with the operation and range of the 50 caliber machine gun as they watched members of Headquarters and Headquarters Troop of Caldwell, under the direction of Lt. Donald DeCoursey, fire at targets great distances away.

The thundering boom of the 90 millimeter tank guns took many of them completely by surprise although they had been warned of the intense noise before the firing began by members of the First Squadron's Company D from Emmett. Many of them agreed

the loud racket of the .50 and .30 caliber machine guns on the tanks was quite easy to take after the large guns.

The large group viewed a simulated battlefield casualty, showing how the medical administrator first aid and prepare the wounded for evacuation to hospital stations by helicopter.

The families, who had until then only heard their sons, fathers or boyfriends talk about their activities, were given ample opportunity to see how the men live, train and learn when they must spend days in the field, all under battlefield conditions.

Such tours have been conducted in the past, but never for families. Usually, for legislators, state officials and interested military personnel.

Summer encampment at Gowen Field is presently being conducted for the First Squadron of the 116th Armored Cavalry Regiment, which includes Headquarters and Headquarters Troop out of Caldwell and Homedale, Troop A, Buhl and Gooding; Troop B, Nampa; Troop C, Weiser and Payette; Company D, Emmett, and Howitzer Battery, Nampa, members of the First Squadron of the 108th Armored Cavalry from Mississippi; members of the Third Squadron of the 116th Armored Cavalry Regiment from Nevada; 116th Regimental Headquarters and Headquarters Troop out of Twin Falls; an MP detachment from the USAR and a medical detachment from the USAR.

Idaho's Second Squadron, which includes Pocatello, Blackfoot, Preston, Rupert, Burley, Jerome and Hailey, is presently doing summer training in Mississippi.

Families

CLOSE VIEW of the tanks, top picture, was of great interest to the youngsters as they and other members of their families participated in the Monday tour of the various training sites and firing ranges used by members of the Idaho National Guard during a summer camp. The tour was hosted by personnel of the First Squadron of the 116th Armored Cavalry Regiment. Youngsters are shown, in center picture, covering their ears as they view the firing of the 90 millimeter tank guns. In the bottom picture, are three of the officers at one of the training sites: from left, Gen. George Bennett, Boise, Idaho, state adjutant general; Col. Sam Magaw, Twin Falls, commander of the 116th Armored Cavalry Regiment; and Maj. Stanley J. Herzinger, Caldwell, executive officer of the First Squadron.

Institutional awards given

BOISE — Graduates of the College of Southern Idaho and area high schools who have been awarded institutional awards to attend Boise State College this fall are announced by F. Richard Reed, director of financial aids.

The awards are made in areas of academic achievement, performing arts, special talents, science competition, journalism and student leadership. Awardees from Magic Valley are:

College of Southern Idaho: Lawrence Barber, student leadership; Peggy Martiny, student leadership; Andrea Farnateau, academic achievement; Robin Roberts, performing arts; Becky Howard, special talent, and Jerry Gage, academic achievement.

Minico High School: Barbara Bethke, academic achievement; Claudia Heins, academic achievement; Pamela Stevens, academic achievement; and Brent Wilkins, science competition in physics and engineering.

Wendell High School: Vikki Pepper, academic achievement, and Leslie Sullivan, academic achievement.

Burley High School: Jeffrey Bunn, academic achievement, and Trudy Sherrod, academic achievement.

Hagerman High School: Barbara Asca, academic achievement.

Buhl High School: Charvella Brewer, performing arts; Barry Buckendorf, science competition in biology; Connie Carson, academic achievement; Christine Hahn, academic achievement; Richard Shriver, academic achievement.

Kimberly High School: Leanne Doolittle, student leadership; Michael Arickson, academic achievement; Bruce Gott, academic achievement; Vicky Hamby, academic achievement; Julie Howe, academic achievement.

Hansen High School: Fredericka Wheeler, academic achievement.

Glenns Ferry High School: Harlie Hanks, Mr. FBIA, Deborah Houfburg, academic achievement; Toni Ickes, academic achievement.

Twin Falls High School: Mark Golay, performing arts; Vicki Holloway, performing arts; Jon Thorpe, science competition in physics and engineering.

Royal charmer

An entirely new, feathery eye opening lash look is named for Queen Nefertiti, the royal charmer who first used kohl to create a seductive wide-eyed look. This Nefertiti lash is available in two side-swept styles, creating almond eyes without liners, shadow or mascara, the manufacturer says.

Canton, auxiliary announce events

RUPERT — Ladies Auxiliary and Canton Rupert No. 19 announced dates for coming events during the meeting at Rupert IOOF Hall, according to today's announcement.

Mrs. Velma Fenton, president, presided during the meeting and Mrs. Agnes Satchwell-Meyer formed the lines.

Mrs. Lucille Anderson gave the opening and closing thoughts. It was announced a social will

be held at 6:30 p.m. June 14 honoring Father's Day and Flag Day hosted by Pocatello No. 11. The local group is invited to attend the event at Pocatello.

The Rupert Auxiliary voted to invite other auxiliaries to attend a covered dish dinner in September instead of a picnic during the summer months.

It was announced the next regular meeting will be June 28 at Burley IOOF Hall and members are reminded no uniforms that night. The canton will entertain the women.

A thank-you card was read from a relative of the late Mrs. Cora Thompson and a thank-you note from Mrs. Gladys Willis whose husband is a patient at Minidoka Memorial Hospital.

It was reported visits have been made to Mrs. Frank Eastman, Mrs. Goldie Ridgeway and Mrs. Alice Bowman, all of Colfax No. 13, who are recovering from illness.

Mrs. Meyer was given a pair of pillowcases as a wedding gift from the auxiliary and canton.

4-H club slates tea

TWIN FALLS — Final plans were made for the Happy-Go-Lucky 4-H Club's Mothers Tea when members met for their last May meeting at the home of Tracy Engelhart. It was announced today.

The tea is set for 7:30 p.m. Thursday at the home of Christine Britt. Committees include invitations, Miss Britt and Miss Engelhart; serving, Kimmitt Bybee, Teresa Meyerhoeffer and Diana Brown; program, Lisa Pfeiffer; Janet High and Eldonna Ver Weir, and decorating tea table and cleanup, Miss Britt. Serving at the tea table will be Mickey Baker, president, and Molly McRoberts, vice president.

A demonstration was given by Miss Engelhart on making a cake from mix to be used for strawberry shortcake.

Dear Abby

DEAR ABBY: My husband and I get along fine, but I have a problem I can't talk to anyone about because this is a small town and if this ever gets out it might hurt him in a business way.

I've heard about some people having far-out hang-ups on sex, but listen to this: My husband gets excited if he can pretend that some part of his body is missing. One time he wants me to pretend that one of his legs is missing. Another time he pretends that one of his fingers is missing. Lately he asks me to pretend that one of his eyes is gone! He feels no guilt or shame when he asks me to go along with this pretending game.

I don't know why he should get turned on by finding that a part of his body is missing, but he does. I find this weird and sometimes frightening. I never have refused to play his game for fear his mind will snap and he will harm me. Do you think he's dangerous? Ask one of your doctor friends and let me know.

WORRIED

DEAR WORRIED: Fetishes (and this is one) are usually harmless if both parties derive a mutual enjoyment from them. But if your husband's "something missing" game is causing you fear and anxiety, discuss it with a doctor and take his advice.

DEAR ABBY: My husband's sister is being married soon in another state. My husband and I plan to attend her wedding, but here is the problem. We have two sons. One is 2 years old and the other is nearly a year old. They are very active, and to say they are a handful is a mild understatement. I want to leave them home so that I can have a little vacation and relax away from home, children and responsibilities!

My mother-in-law offered to stay with the boys for the one weekend we will be gone. My husband thinks we should take the boys to live with them. He says it will be "unfair" to his relatives if I leave them home. What do you think?

NEEDS A REST

DEAR NEEDS: I think it will be unfair to you if he insists on taking them. And he owes you more than he owes his relatives. Besides, his relatives will look after the kids for two minutes, and you'll have to look after them the rest of the time.

DEAR ABBY: A teen-age girl wrote: "Dear Abby, why are adults so quick to judge a person by his outward appearance? If a boy has long hair he is taken for a hippie, radical, pot smoker or a freak. Why? Adults don't bother to look beyond a person's hair or dress. They don't care what's on the inside."

Well, Abby, I am a 30-year-old high school teacher, and I would like to turn her letter around and write:

"Dear Abby, why are kids so quick to judge a person by his outward appearance? If a man has short hair he is taken for a square or a freak. Why? Kids don't bother to look beyond a person's hair or dress. They don't care what's on the inside."

To prove my point, I finally got tired of the snide remarks about my very short hair, so I let it grow longer. Quite predictably the comments have stopped, and now I am considered "normal." Strange, isn't it?

HIGH SCHOOL TEACHER
SAN PEDRO, CAL

DEAR ABBY: Now I've heard everything. I should think a wife would be tickled pink to be able to go thru her husband's pockets before sending his clothes to the dry cleaners or putting the washables into the machine.

Most women have to wait until their husbands are asleep before they can get into their pockets.

E. C. SPILLWATER, OK.

What's your problem? You'll feel better if you get it off your chest. Write to ABBY, Box 69700, Los Angeles, Cal. 90069. For a personal reply enclose stamped, addressed envelope.

Reports given

RUPERT — Mrs. Joyce Carnahan gave a report on the three-day course during a meeting of the Jolly Neighbors Extension Homemakers Club at home of Mrs. Léila Baird. It was announced today.

The course was given by the Civil Aeronautics Administration in "First Aid and Medical Self Help for Family Guide to Emergency Health." Mrs. Carnahan reported they were taught to care for every type of injury, emergency care for delivery of infants, and what to do for poisons, snake bites and botulism before getting persons to the hospital. In the case of poisoning, the poison control center in Boise has the telephone number, 342-7781, that may be called for assistance, reported Mrs. Carnahan.

The business meeting was conducted by Mrs. Baird, president. Mrs. Beulah Laycock gave the secretary and financial reports.

The lesson, "Calling on Convenience in the Kitchen," was given by Mrs. Baird. Included in the lesson was serving a luncheon of convenience foods.

A discussion on conveniences was held after the lesson.

Mrs. Rose Lindauer, safety chairman of the County Extension Homemakers' Council, was a guest.

Mrs. Belva Mix assisted Mrs. Baird in serving refreshments.

Summer music camp

TREASURER of the Magic Valley Junior Music Clubs, Mrs. Marvin Molyneux, right, presents a \$2,434 check to Mrs. Donald Youtz, scholarship chairman for the Twin Falls Music Club, for summer camp scholarships. The money was raised through projects carried out by the 14 Junior Music Clubs in Magic Valley.

Junior Music Clubs give scholarships

TWIN FALLS — A \$2,434 check was recently presented by Mrs. Marvin Molyneux, treasurer of the Magic Valley Junior Music Clubs, to Mrs. Donald Youtz, scholarship chairman.

The money was raised through projects carried out by the 14 Junior Music Clubs in Magic Valley. Various projects included cooked food sales, sale of note stationery, oranges and Christmas decorations, car wash, donations on the Young Peoples Concert presented with

the assistance of the Magic Valley Junior Music Clubs, Mrs. Marvin Molyneux, right, presents a \$2,434 check to Mrs. Donald Youtz, scholarship chairman for the Twin Falls Music Club, for summer camp scholarships. The money was raised through projects carried out by the 14 Junior Music Clubs in Magic Valley.

The money presented to scholarship winners attending Sun Valley Music Camp is in memory of Tom Gary.

As a result of the great contributions made by the clubs 42 young musicians of Magic Valley will be able to study seriously at the summer camp. Beverly Hackney and Willa Dean Nielsen, teachers of ballet and modern dance, have donated the profits from their dance recitals to awards in dance.

New member welcomed

HANSEN — Mrs. Ada Solem, Kimberly, was welcomed as a new member at the Slim and Trim TOPS Club meeting Monday evening at the home of Mrs. Thomas Steelsmith.

Mrs. Paul Bowman was best loser of the week and received a gift.

It was decided a backward weigh-in will be held next Monday night. An invitation was read from the Measure-Ups TOPS Club, Twin Falls, to attend a salad bar Wednesday evening. The Measure-Ups were the losers in a recent weight loss contest, and entertain the winners, the Hansen group. The event will be held at the Twin Falls Elks Lodge Cafeteria at 8 p.m. Plans were discussed for a

birthday anniversary of the club to be held July 12. The club was organized four years ago. Mrs. Bryson Vinyard was program chairman and hostess. She played tape poems written by her mother, Mrs. Edith Kramer, Chewelah, Wash.

A hansom cab is a light, two-wheeled covered carriage with the driver's seat elevated behind.

Franklin Delano Roosevelt was remotely related to 11 former presidents (five by blood and six by marriage).

Area man named to post

TWIN FALLS — Floyd Bandy, Twin Falls, was elected most illustrious grand master of the Grand Council of Royal and Select Masters of Idaho at the state convention at Lewiston, it was announced here today.

Dick Wheeler, Twin Falls, was named sentinel of the Grand Chapter of Royal Arch Masons and Thomas G. Cain, Twin Falls, was elected grand generalissimo of the Knights Templar of Idaho during the conclave.

A report on the eye foundation carried out by the Knights Templar's 400,000 members since 1955 was given by John T. Parish, Twin Falls. He said the objective is to provide surgical treatment of anyone needing it who lacks funds and to carry out research in eye disease.

Through \$1 per member per year plus additional sponsorship by members and associated patrons and non-patrons who are not affiliated with Knights Templar, \$4,619,447 has been raised in a trust fund for the eye foundation, Parish said.

He said 22 of the 15,106 applications which have been processed since the foundation's inception were from Idaho.

Knights Templar was founded in 1118 as a religious order of knights who fought in the Crusades.

The first two sons of Adam and Eve were named Cain (meaning "possession") and Abel (meaning "vanity").

2 Shoshone teachers retire, marking 64 years of service

By MELBA THORNE
Times-News Writer
SHOSHONE — Two of Shoshone's teachers are retiring this year, culminating a total of 64 years of teaching service. Most of these years have been at the Lincoln School in Shoshone.

The teachers are Mrs. M.E. (Bibi) McKendrick, second grade teacher, and Mrs. Dorothy Clayton, a fourth grade teacher.

Mrs. Caleyton, with 31 years of teaching to her credit, came to Richfield at the age of 11 with her mother, Mrs. Edna Piper. Her father died when she was 5-years-old in Arthur, Ill. She attended schools at Richfield, was graduated from high school there, went to Albion State Normal School and the College of Idaho one year. She finished her bachelor degree work by taking extension courses and summer schools at Idaho State University, Pocatello, receiving the degree in 1959.

Mrs. Clayton taught at Richfield three years, then taught at Glenns Ferry, Gooding, Boise and Montpelier prior to taking up her career at Lincoln School. She has taught third, fourth and fifth grades, the majority of the time.

In 1928 she married Earl A. Clayton at Preston. He served as sheriff of Lincoln County for many years, prior to his death in 1963.

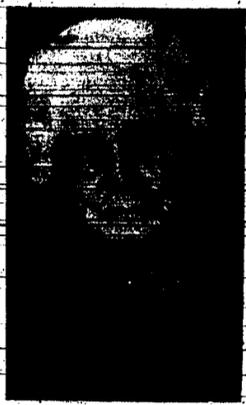

Mrs. Clayton is a member of Lincoln Chapter No. 42, Order of Eastern Star, the Shoshone Methodist Church, United Methodist Women, holds a life membership for her activity and service in PTA, and is a past member of Delta Kappa Gamma, professional teachers honorary society.

Shortly after her retirement this month, Mrs. Clayton plans to leave for Dawson Creek, B.C. where she will visit her daughter, Mrs. Beverly Fellers, and family. Her son, Ray Clayton, and family reside in Shoshone. She has seven grandchildren and one great-grandchild.

In addition to her plans to travel some, Mrs. Clayton looks forward to her hobbies of handwork, knitting, crocheting and yard work. And, as she states, "no doubt one of the best parts of my trips away from home will be when I return to my own driveway."

She plans to continue to keep her home in Shoshone and maintain residence here.

Mrs. McKendrick, the former Viola Warner, has taught 32 years in all, 22 of them in Shoshone school system. Most of the time she taught first and second grades in Shoshone. She is a native of Idaho, born

MRS. M.E. MCKENDRICK

MRS. DOROTHY CLAYTON

at Warm Creek near Oakley. She attended schools in Helyburn, was graduated from high school there, attended Albion State Normal school, attaining a life-time certificate.

Her teaching career, prior to Shoshone, was at Mink Creek, northeast of Preston, Burley and Kimberly.

A highlight of those earlier years was an art tour she attended, sponsored by Stanford University of California.

She spent three months on a bus and boat tour, from California to Hawaii and Japan, through Korea to China and back home via Canada.

She married Merrill McKendrick in 1947.

Many of her hobbies and talents can be used during retirement, such as hobbies of sketching and painting, sewing and other handwork. She likes to read, do her yard work and develop new color shades of iris. She has been so successful with this shading of iris that she has named one after a friend and another after her daughter-in-law. She cares for seedling trees from her son's experimental gardens at the

University of Idaho. She has one son, Jay Dee, and two grandsons.

Mrs. McKendrick has been active in Grange, Farm Bureau, PTA, holding a life membership, and was recipient of the Masonic Teacher's Award in 1961.

Mrs. McKendrick recalls the three-fourths mile walk to school buses when the snow was deep and roads impassible to her home; floods from Big Wood River over the route, and the 11 mile drive to school where she could observe the desert flowers in bloom, wild game along the roadside, herds of sheep in fall and springtime.

In speaking of their profession, Mrs. McKendrick and Mrs. Clayton remark they have seen teaching methods come and go, but have observed that they always revert back to the original and more satisfactory phonetic and drill methods of instructing reading and mathematics. "Many areas have already given up the new math and English teaching methods recently popular in schools."

YOUNG COUPLE, Dr. Dennis Alexander, and Edwina Hinton Alexander, formerly of Twin Falls, figures prominently in the Utah education scene. Dr. Alexander is a professor at the University of Utah where his wife will be a guest professor this summer for a special two week course. Both have degrees in speech. Mrs. Alexander, daughter of Mr. and Mrs. L.E. Hinton, Twin Falls, will head a new program this fall in the Cottonwood High School, Salt Lake City.

Education scene

"Guest" professor post accepted at university

TWIN FALLS — A former Twin Falls resident, Edwina Hinton Alexander, daughter of Mr. and Mrs. L. E. Hinton, Twin Falls, will be a "guest" professor this summer at the University of Utah during a two week workshop on the "oral approach" in high school teaching.

Mrs. Alexander, who has been teaching speech at South High School in Salt Lake City the past two years will be accepting a new assignment next fall with the Granite School District. She has been selected to head a new department in the new Cottonwood High School. She will be developing a new concept in high school curriculum in a program which will incorporate oral expression with English and literature. This is not a public speaking program as such, Mrs. Alexander says, but one in which the student will be assisted in "just speaking" as a means of genuine expression and in an oral participation in classroom study.

In the summer workshop course at the University of Utah, Mrs. Alexander, 29, will be working with English teachers and other experienced teachers from throughout Utah in the encouragement of the "oral approach" to classroom work. She will be working with several other leaders in education in Utah in the program. She and her husband, Dr. Dennis Alexander, visited her parents during the Memorial Day weekend.

Mrs. Alexander, who was selected for coverage in the 1970 edition of Outstanding Young Women of America, is not unfamiliar with the University of Utah programs as her husband, Dennis, is a professor there. He accepted a teaching position there two years ago and the couple moved to Utah from Ohio where he received his doctor's degree, also in speech. With the University of Utah, he works with the speech department in communications, most of his work in research and

therapy fields. Mrs. Alexander met her husband while both attended Linfield College where they received their bachelor degrees and both attended the University of Hawaii where they received their masters. From there they returned to Ohio where Dennis completed studies for his PHD and Edwina worked as an advertising specialist for a national employment concern.

While teaching at South High School, one of the oldest high schools in Salt Lake City, Mrs. Alexander's students set a number of school records in drama and speech contests. For the first time in 14 years, the school achieved state finals and received a superior rating for one-act play competition. One student received nine superior ratings in humorous interpretation. Her students also produced a play, including composing the original musical score, and went "on tour" of junior high schools in the city.

Carnation instant breakfast makes milk this kind of nutritious meal

That's right. You can turn a quick glass of milk into this bacon and egg kind of breakfast in an instant—the instant it takes to add the important nutrition of Carnation Instant breakfast.

How can a glass of milk and a packet of Carnation instant breakfast give you so much nourishment?

Milk contributes substantial nutrition. (Read our package label for details). And then, to make milk a meal... Carnation instant breakfast contributes the rest of the protein, vitamins, minerals and food energy. It all adds up to as much nourishment as there is in a poached egg on toast, two strips of bacon and a glass of orange juice.

Now, that's the kind of balanced breakfast you want for yourself and your family—when you don't have time for a regular breakfast.

Pick up a package of Carnation instant breakfast today. No family should be without it. Because no family should ever go without good nourishment in the morning.

A Lovelier You

PERSONALITY ON THE JOB

By Mary Sue Miller

A June grad, just setting out on a career, shows insufficient promise if she takes what seems to be an unending standoffish attitude toward her colleagues. In reality she may not feel superior, only shy. Even so, shyness is never an asset in the workaday world.

Poise—self confidence—rates as a trait. But courtesy, consideration and cooperation toward others on the job are indispensable. They cannot be turned on and off like a faucet, either. Everybody hears the drip when a girl butters up executives and splatters her ill-nature on the office boys.

Only think of leaders in any field and you discover they have one quality in common—a kind of magnetism that stems from a genuine concern for people. The great star appears at benefits for a people's cause. The great doctor gives time to unfortunate people. The great civic leader works for you and me—people.

We cannot help responding to persons who care. Yet the point is missed by so many dreamers of success. A girl's value grows in direct ratio to the combination of accrued skills and good will of others. Thus half the battle is won by making a good business of your personality.

FACTS ABOUT ACNE

Is acne your problem? If so write to Mary Sue Miller in care of this newspaper, requesting her leaflet, **FACTS ABOUT ACNE**. Adviser covers medical and home care, use of cosmetics, diet and tension control. Please enclose self-addressed, stamped envelope and 15 cents in coin.

NANCY STALLINGS

June 10 wedding planned

BURLEY — Mr. and Mrs. Boyd A. Stallings, Blackfoot, former Rupert residents, announce the engagement and forthcoming marriage of their daughter, Nancy, to Paul I. Coltrin, son of Mr. and Mrs. Ira Coltrin Jr., Burley.

Miss Stallings is a 1967 graduate of Minico High School and is in her senior year at Brigham Young University, Provo, majoring in English and speech.

Coltrin was graduated from Burley High School in 1967 and attended Ricks College and Brigham Young University, majoring in sociology. He has completed a LDS mission in Southern Australia.

The couple plans to be married June 10 at the Idaho Falls LDS Temple.

Valley Briefs

TWIN FALLS — Amigo Star Club will meet at 8 p.m. Thursday in the Senior Citizens building.

TWIN FALLS — Military Wives of Magic Valley will meet at 7 p.m. Saturday at the home of Mrs. Maxine McDonald, 559 Lincoln St. New members are welcome. More information can be obtained by calling the chamber of commerce.

WALLA WALLA, Wash. — Bruce Smith, son of Mr. and Mrs. Vernon E. Smith, Twin Falls, was graduated cum laude from Whitman College, Walla Walla, Wash., during the 112th graduation ceremony with a major in history. He will enter the Army in July and has been accepted at an Army language school in Monterey, Calif.

SHOSHONE — Mr. and Mrs. Hugh Keith and family have

moved to Boise, where he was transferred in his work with the Idaho Department of Highways. Mrs. Sylvia Osborn has purchased the Cottage Motel from the Keiths.

TWIN FALLS — Robert Clark, son of Dr. and Mrs. W. H. Clark, Twin Falls, is among about 500 students at Pacific Union College, Angwin, Calif., who has been honored for maintaining above average scholastic achievement. He is a junior majoring in religion at the 1,900-student co-educational college operated by the Seventh-Day Adventist Church.

Routine care

Routine care for all wood includes frequent dusting, occasional washing, infrequent thorough cleaning and polishing; and making minor repairs as needed.

Richfield awards told

RICHFIELD — Awards for Richfield High School students have been announced by Supt. Neil Andreason and Coach James Thomas.

Academic awards were presented by faculty members with outstanding students named for both upper and lower classes.

Gary Kissler presented mathematics awards to Mark Dixon and Brenda Hiatt; science awards to Mark Dixon and Miss Hiatt by Kissler and Merrill Beyeler; Beva Dawn Robinson and Rhonda Swainston, speech by V.C. Ross; Miss Robinson and David Jones, English, by V.C. Ross; Carol Sanders and Brenda Hiatt, French, by Jayator; Carrie Robinson and Charlotte Davis, business awards by Charles Buttane, and Sandra Brauburger and DeAnn Dixon, home economics by Mrs. L.T. Sanders.

Nick Hubsmith received a special award from the Richfield American Legion for winning the local oratorical contest.

Letters earned in football, basketball, and track went to David Brush, Chris King, Mark Dixon, Steve Bowers, Wade Allred, Toby Daley, Rick Brown, Nick Hubsmith, Craig King, Ronnie Golcochea, Calvin Brauburger, Doyle Fredrickson, Harvey Brauburger and David Jones. David Ross was the only student earning a cross-country track award.

Letters for football and basketball went to Alan Paulson, Scott Ward, Kelley Swainston and Roger Golcochea. Brent King, Bill Patterson, and Jeffery Ward earned football letters, and Ronald Jones, basketball. Girls track letters went to Debbie Johnston, Yvonne

Jensen, Cheryl Jensen, Sandra Jones, Kelly Pridmore, Brenda Hiatt, Cheryl Hiatt, Marie Hubsmith, DeAnn Dixon, Laurie Pridmore and Rosalie Behr.

Managers awards went to Norma Ralls, Luann Edwards, Mickey Holland, Clyda Paulson, Rhonda Swainston and Carol Sanders.

Jerome may open pool on Tuesday

JEROME — The Jerome City swimming pool will open Tuesday, weather permitting, S. N. (Shorty) Weeks, city councilman, informed city councilmen Tuesday night.

The council approved his request to raise the cost of Red Cross swimming lessons from \$2 to \$2.50 for 10 lessons.

Weeks said Willard Brown will be the pool manager, with Jean Burkhalter to be the head swimming instructor and Betty Clubb and Danny Carroll lifeguards.

The pool will be closed on Mondays and will be open from 2 to 5 p.m. and from 7 to 9 p.m. Tuesdays through Saturday and from 2 to 5 p.m. only on Sundays.

CECIL DICK

Staters lectured on church Rogerson

BOISE (UPI) — The law enforcement class at the 1971 session of American Legion Gem Boys State listened to Ada County Sheriff Paul Bright Tuesday night, who said youth today has "moved away from the church."

During a class session in the Boise State College Business and Public Administration Building, Bright told the 150 youths present when asked what is one problem of young people today, "Every country, bar none, that defies God or that has defied God or has fallen away from God, has fallen on its face."

"We've turned our backs on God, and until Americans turn back to him, until we get down on our knees and beg for forgiveness, we will continue to have the same problems."

Bright also fielded a question if his department has ever received any "protection money." He said, "There has never been a nickel of protection go into my department, and I can speak for (John) Church's police department, too."

One question from the delegation pondered the alleged "slaying" of persons sporting long hair.

Bright said, "I don't like long hair. I do not, however, hassle a man because he is a 'long-hair' or a 'hippie'."

The Ada County sheriff went on to say he can often identify a criminal by his dress, appearance and mannerisms. When asked what the difference between a "longhair" and a "hippie" was, he said, "They smell different."

Earlier in the day at boys state, platforms were proposed and primary elections were scheduled for today, with the general election slated for Thursday.

lad cited at school

ROGERSON — Cecil Dick, son of Mr. and Mrs. Rolland Dick, Rogerson, has graduated with honors and served as salutatorian of his class at Chilocco Indian School, Chilocco, Okla.

As salutatorian, he gave the graduation welcome address. More than 1,000 students attend the school from throughout the United States.

"Throughout the four years Cecil has been a member of the school's honor society and has received a full scholarship to the Haskell Institute, Lawrence City, Kans., because of his outstanding school record at Chilocco.

In addition to maintaining a top scholastic rating, Cecil served as a member of the student council four years, vice president in his junior year and president of the student council this year. He received the outstanding athlete award of the school for wrestling, baseball, and football, and lettered in all three for four consecutive years.

Dick was elected lieutenant governor in the Key Club convention in Kansas City this year. He also plays trumpet in the school band.

He plans to return to Rogerson this summer and will be employed by Roy Brackett. Brackett says the young man has worked summers for him during his high school education and is, a top hand, excelling in calf roping, bronc-riding and other ranch duties.

Area rodeo slated

GOODING — The county fairgrounds at Gooding will be the site Friday, Saturday and Sunday of the Fifth District High School Rodeo.

About 125 teen-age cowboys and cowgirls will compete in this rodeo, trying for a step up the ladder to the National High School Rodeo scheduled for August in Filer.

LeRoy Johnson, Gooding, fifth district director, said performances will be at 8 p.m. Friday, 1 and 3 p.m. Saturday and at 1 p.m. Sunday. Boys and girls cutting contests will be Friday afternoon.

Other events in which the youthful contestants will compete are calf roping, saddle bronc riding, bareback-riding, bull riding, break-away roping, barrel racing, goat tying, pole bending and steer wrestling.

There will be two go-arounds in each event. Winners on the district level will compete at the Idaho State High School Rodeo scheduled in Burley later this month.

About 20 girls also will be competing in the fifth district queen contest.

Belt buckles will be awarded to the first three place winners in all events, Johnson said, and the all-around cowboy and all-around cowgirl will receive saddles.

CSI sets summer signup

TWIN FALLS — Jerry Meyerhoeffer, director of admissions and records at the College of Southern Idaho, announced today registration for the 1971 summer session will take place June 3-4 from 9 a.m. to 4 p.m. in the CSI Student Union Building.

Classes are scheduled to commence June 7.

Meyerhoeffer indicated that the session would continue through July 30 but as in the past a few classes will be accelerated to be completed in a four-week period. The dates on accelerated classes are June 7 to July 2 and July 6 to July 30.

Special courses in outdoor recreation will be initiated this summer. Some of the instructional areas will include basic camping, canoeing, back packing, mountaineering and survival techniques.

Another of the summer highlights will involve a program of physical activities for the elementary child. Age range will include children from grade 1 through grade 6.

Auxiliary to session at Boise

JEROME — Seven delegates from St. Benedict's Hospital Auxiliary, Jerome, will attend the fourth annual Teen-age Conference June 10-12 in Boise. "Where Aquarius" is the theme for the conference.

The teen-age conference of Idaho State Hospital Auxiliaries will be sponsored by the auxiliaries from St. Luke's Hospital, St. Alphonsus Hospital and the Elks Rehabilitation Center. Mrs. Bart Brassey and Mrs. William Burpee are co-chairmen for the event.

Hospital auxiliaries from 13 counties in Idaho are expected to attend making about 100 delegates at the conference.

Fiddlers set for park fest

GLENN'S FERRY — The Oldtime Fiddlers will play at the dedication of the Three Island Park here June 19, according to an official of the fiddlers' organization.

The musicians will play from about 1 p.m. until the dedication at 3 p.m., and they will play as a part of the program during the dedication ceremonies.

Paper passed

Rupert rules on pay rates

By JERRY HERRMANN Times-News Writer

RUPERT — A policy on what pay scale city of Rupert department heads should follow when hiring part-time or seasonal help was established by the Rupert City Council at its meeting Tuesday night.

This decision was made after the council discovered in going through the bills that some of the city's part-time help was getting more money than it had approved.

After much heated debate the council established the new hiring policy as follows: "Establish the maximum rate for part-time or seasonal help for all departments not to exceed \$2 an hour unless prior council approval has been granted. It shall be left to the discretion of the department head to establish hourly rates between the minimum hourly wage set by law and the

maximum of \$2. This policy was approved with an unanimous vote.

During the debate on the problem Councilman Grover Newman proposed that the city only pay the employees involved \$1.65 an hour and then at a later meeting the council decide what salary would be paid.

Councilman Dalry pointed out that this would be unfair to both the people involved and to the city's department heads who had hired the people.

He also said that he didn't think \$1.65 was an unreasonable rate for high school students to receive. But high school graduates should be paid as they are adults, he said.

After agreeing on its new policy the council approved of an hourly rate of \$2.25 to be paid to Randy Hanshaw and George Giraud as recommended by the department heads involved.

City room fee hike delayed

RUPERT — The rate charged organizations and individuals for the use of the city's old library room will remain as is until Dec. 31.

This decision was made by the Rupert City Council at its meeting Tuesday evening. The council's decision means that its proposed rate increase from \$2.50 for morning, \$2.50 afternoon and \$4 for evening to \$2 an hour won't go into effect in September as planned.

Riders set June meet

GLENN'S FERRY — Three Island Riding Club will hold a Gymkhana at the riding arena at 1:30 p.m. June 13.

There will be various races including musical chairs, rope races, keyhole races, flag races and trail class races.

Western Pleasure Classes for ladies, men and youth (ages 1-14, both boys and girls) will be held. Regulations for this event require western riding equipment and western apparel (including at least a long-sleeve shirt and a hat).

The horse must be shown both ways in the ring at a walk, trot and canter. Judging will be by the action of the horse, horsemanship, and apparel.

Terry Duffin, parks and recreation department director, had recommended that the council leave its rate at \$2.50 morning, \$2.50 afternoons and reduce evening rates to \$2.50 also.

Mrs. Carol Mosley, who teaches dance and ballet lessons in the room, told the council that even if it went to its proposed \$1 an hour rate it had considered at its last meeting she would be priced out of the room.

Both Councilman Grover Newman and Chuck Dalry wanted the rate changed to an hourly rate. This route they thought would be the most equitable to all users.

Councilman Bill Whitton said, "I'd like to see us work this out with Mrs. Mosley so we can keep her here and not deprive the city of this service."

Councilman Newman then proposed that the city set the rate for this room at \$1 an hour with a \$2.50 minimum charge.

This rate was described by the mayor, Wendell Johnson, councilman George McDonald and Whitton as being too prohibitive for Mrs. Mosley.

Therefore, Councilman Whitton moved that the rate be continued at its present rate until Jan. 1, and at that time another look will be taken at the rates that will be charged.

Air pollution index 56

The pollution reading was taken by the staff of the South Central Health District at the Twin Falls City Hall. The reading is expressed as the number of micrograms of particulate material per cubic meter of air for the 24-hour period ending at 8 a.m. today.

Federal pollution regulations say pollution levels should be kept below 75 micrograms over any 24-hour period, and should not be permitted to rise above 260 micrograms for even a short period of time.

Forecast Today: Excellent Tonight: Good Tomorrow: Excellent

This forecast provided by the Idaho Department of Health indicates the ability of the atmosphere to disperse

pollution. Burning is permitted by law should be curtailed when the air is poorly able to disperse air pollutants.

Tupperware site zone given nod

BY CHARLOTTE BELL Times-News Writer

JEROME — Location of the Tupperware plant south of Jerome was assured Tuesday when county commissioners approved a rezoning application from Dr. Charles Parker and Dr. Wesley Rose.

The 90-acre tract one and one-half miles south of Jerome along Highway 79 was rezoned from agricultural-commercial to heavy industry. Sale of the land by the Jerome optimists to the Dart Foundation was pending the rezoning.

Mr. and Mrs. James P. Kelly, Jerome, were the only two protesting the zoning at the public hearing into the matter Tuesday.

Mrs. Kelly said she did not feel the county commissioners should at this time grant the rezoning change without an official of the Tupperware or Dart Industries being present to state in an open public meeting that the plant to be constructed would in no way pollute the

underground water supply or air, or that they are not planning to build a "little city" of their own to compete with the surrounding towns.

Mrs. Kelly emphasized that no one can speak for the Tupperware or Dart Industries and that they must speak for themselves. She said with the Tupperware plant outside the city it will be free to do what it wants and will not be under authority of the police department. She said she had "good authority" information that the only reason Tupperware is coming to Jerome is because of the anti-pollution laws in

However, Councilman Grover Newman felt that the city shouldn't make any decision until a public hearing had been held on the question.

In other business the council: — Were informed that on Monday at 9 a.m. the court will be asked to decide if Archie Carotta's request to come in on the suit of Trevino Equipment Co. vs. city of Rupert, will be allowed.

Shoshone team leads

SHOSHONE — The Riding Redskins of Shoshone are in first place for the season, having won the first two riding club events of the season, Mrs. Floyd Silva, Shoshone, said today. The club has 37 points.

The Carey club is in second place for the season with a total of 32 points, Richfield is in third place with 28 points and the Twin Falls Sheriff's posse fourth with 27 points.

The Redskins placed first at the last event, with the Twin Falls Riding Club coming in second and Carey third.

White Cloud study ready for perusal

By BONNIE BAIRD JONES Times-News Writer

TWIN FALLS — An Interim Progress and Status Report on the initial phases of the long-range comprehensive land use planning study of the White Cloud, Boulder and Pioneer Mountains region of central Idaho is now available for public review at the Sawtooth National Forest office, 1526 Addison Ave. E.

Supervisor Edwin A. Fourrier said interested persons are invited to visit the office and review the phases of the study which include a legal report; interim ecological evaluation; mineral activity; vegetation, wildlife, aquatic environment, forest insects, plant pathology, scenic analysis, "pristine" land, interpretive inventory, archaeological, economic overview, social statistics for Blaine and Custer counties and an index to land status and special use.

The study, the most extensive ever undertaken in the Intermountain region, began a year ago with the 1970 field season the first in which data was collected in the study area. During the coming summer it is anticipated most of the remainder of the field work will be completed and the inventory on the basic area map include

Tennessee are "so tough" that they plan to close the plant there when the one near Jerome is completed.

Frank Reddick, attorney for Dr. Parker and Dr. Rose, said the rezoning is only laying the groundwork for the industry to come in. He said Tupperware still will have to meet all laws and regulations that the state of Idaho now requires for all industries. The rezoning in no way, he said, gives the industry permission to violate any laws.

Dr. Parker told commissioners that his information is that the plant will cause no pollution to this area. The firm plans to construct its plant that will employ 900 people when completed and the parking area on half the 90 acres. The rest will be in reserve for future expansion.

Rain slows site work

JEROME — Heavy rainfall throughout the Magic Valley Tuesday washed-out plans for the first work on the site of the new Tupperware Corp. plant south of Jerome.

Dr. Wesley Parker of Jerome said drilling was scheduled to test the foundation preparatory to drawing plans for the \$5 million project, located along the railroad tracks and Highway 79 about three miles south of Jerome. However, rain postponed work, Dr. Parker said.

Dr. Parker said the company has set an April 1, 1972 deadline for completion of construction.

Homes plat due June 15

JEROME — The American Pacific Corp. will submit a final plat for a 10-acre housing development to the Jerome City Council at the June 15 council meeting, Mayor J. A. Russell told councilmen Tuesday night.

He said Andy Anderson, Boise, division manager for the firm, had told him the firm will have the final plat ready for the council's approval at that time. The proposal is for the Karrie subdivision to be built on the south side of East Avenue I and west of Davis Street. It will include 45 homes on the 10-acre tract ranging in price from \$17,900 to \$27,900.

A petition was presented to the council from several residents in the area of North Davis and 10th Avenue

requesting the removal of large trees on the southeast and northeast corners of the intersection. The petitioners claim the trees pose a hazard to motorists as they obstruct vision, citing an accident at the site May 27.

Police Chief C. N. Puntney said the May 27 accident was the first at that location in many years and definitely was not caused by the trees as the drivers had full visibility.

The mayor asked Chief Puntney, Police Commissioner Walt Bentzinger, Fire Chief Lynn Bingham and Street Commissioner Edwin Tinker to study the matter and check on other intersections with the same conditions and report to the council later.

White Cloud study ready for perusal

finished. The study is divided into two phases, inventory, and decision making. In the second phase, decision making, public opinion is being requested as well as views of other agencies and organizations.

Work is continuing on the inventory, or first phase of the study, with the U.S. Geological Survey and Bureau of Mines portion of the mineral survey expected to be complete by 1973.

Information now compiled and available for public review at the local supervisor's office include a legal report; interim ecological evaluation; mineral activity; vegetation, wildlife, aquatic environment, forest insects, plant pathology, scenic analysis, "pristine" land, interpretive inventory, archaeological, economic overview, social statistics for Blaine and Custer counties and an index to land status and special use.

Each of these separate topics summarizes the existing situation and identifies sites pertaining to each and the extent and variety in such cases as wildlife, plants and timber.

Some management practices now in effect are also reviewed. Overlays which are available on the basic area map include

Quota missed by one pint

BURLEY — Cassia residents missed their 150 pint quota during the Red Cross Bloodmobile drawing Tuesday by one pint with 152 persons registering for the drawing. Three were rejected for various reasons, making 149 pints of blood donated.

James Ferlic received his six-gallon pin and A. Woolstenhulme, and J. R. Kircher, each received their five-gallon pins. Others receiving donor pins were Bonita Day, four gallons; H. R. Bowen, three gallons; D. A. Taylor, and Leo H. Henschied, both two gallons; Ray Muir, R. Goodfellow, and Nick Crofts, all one gallon.

Working at the registration desk where Mrs. Bob Halouska, Cassia County blood chairman; Mrs. Dave Barry, county co-chairman; Mrs. Virginia Watterson, and Mrs. Cecil Brim.

Typists were Mrs. Betsy Spencer, Mrs. Peggy Newcomb, and Mrs. Lois Henderson.

Taking temperatures were Mrs. Rebecca Street, and Trudy Sherrod. Mrs. Ione Rambo served juice. Working at the numbering table were Mrs. Helen Morgan and Mrs. Irene Chisholm.

Assisting at the blood drawing tables were Mrs. Bonnie Hess, Mrs. Nina Hartwell, Mrs. Alyenne Hayden, Mrs. Hettie Sprague and Mrs. Ruth Morgan.

Walking with blood donors were Mrs. Eva Chaburn and Mrs. Zolonia Mahoney.

The canteen was operated by Mrs. Rose Aetis, Mrs. Gene Bennett, Mrs. Deana Asson, and

Mrs. Josephine Fedrezzi, all members of the Catholic Altar Society. Mrs. Helene Coffey was the supervisor for the canteen.

Members of the Mini-Cassia CowBelles serving soup, included Mrs. Esther Montgomery, Mrs. H. V. Beaver, Mrs. Tad Abo and Mrs. Clinton Easton.

Dr. James Kircher was the attending physician. Registered nurses were Mrs. Fred Sherrod, Mrs. T. R. Nielsen, Mrs. Donna Foth, Mrs. Sandra Becker, and Mrs. Jo Allred.

Blood was replaced for Joe Henderson, 18 pints; Howard Halford, 17 pints; Nancy Shultz, 11 pints; Susan Hepworth, Steven Roberts, and Jennie Eliason, seven pints each; Vila Bell, six pints and Vicki Funk and Kari Jo Fisher, five pints each. There were numerous other residents who received from one to four pints of replacement blood.

Mrs. Halouska extended special thanks to Simplots, BPA, Ore-Ida Foods, and other firms who donated in a group. Mrs. S. H. Kunaui was in charge of arranging for volunteers.

The service clubs were notified by Mrs. Agnes Anderson. Members of the Lions Club unloaded and reloaded the equipment under the direction of Joe Olenstlager, chairman. Tom Gibson, Dennis Reed and Mike Paul also helped unload the equipment.

The lodge hall and coffee were furnished by the Burley Elks Lodge No. 1384 and the typewriters were supplied by Spencer's Office Supply.

Posters were put up by members of the Girl Scouts.

Mini-Cassia

Benefit dance slated Friday

HEYBURN — A benefit dance and social will be held at 9 p.m. Friday at Burley Elks Lodge for the family of Mrs. Dorothy Skelton, Heyburn. The benefit is sponsored by the Heyburn Lions Club.

Roger McBride is serving as general chairman of the benefit. The lodge hall has been donated by the Elks and refreshments are being donated by area merchants, McBride said.

Mrs. Skelton's husband, Dwight, was killed May 15 in an auto accident at west edge of Burley. Mrs. Skelton was recently dismissed from the Twin Falls Clinic where she had been a patient for six weeks with infectious hepatitis. She has been ill since January.

The late Mr. Skelton and the couple's son David, 12, had been diabetics for some time.

David who has resided at the home of Mr. and Mrs. John McClure, Rupert, since January, broke his arm last February. Also in February his diabetes became worse and he was hospitalized for three days. On April 3 he was injured during a tubing accident and received a fractured pelvis.

A daughter, Susan, 5, has resided at the home of Mr. and Mrs. Terrance Gully, Rupert, since March 14. Another daughter, Linda, 14, stayed at the family home until the death of her father and she is now staying with the Gully family. Mrs. Skelton is restricted from activity and presently is staying at the home of her mother, Mrs. Gladys Hills, Twin Falls.

The exact amount of the family's medical expenses isn't known at this time, but the community wants to help in every possible way," said McBride.

The family has lived in the Mini-Cassia area for 14 years, and own a home in Heyburn where the children attended school. Prior to Mr. Skelton's death, he worked for the Burley Beverage Co., for 14 years and was working for Young's Dairy at the time of his death.

Mr. Skelton was a charter member of the Heyburn Lions Club. The public is invited to the dance and social. Anyone unable to attend may mail contributions to Roger McBride, Heyburn.

Dance Festival slated Saturday

BURLEY — The Regional LDS Dance Festival will be held at 8:30 p.m. Saturday at the Burley High School gymnasium. The theme will be "Circus of Dance."

About 350 teen-agers from eight LDS Stakes in Magic Valley will be taking part. All the dances performed at the regional festival will be presented at the LDS All Church Dance Festival at the June Conference in Salt Lake City.

Mr. and Mrs. Fred Larson, Burley, district dance directors and Mr. and Mrs. Neil Anderson, Burley stake dance directors, are in charge of the local arrangements.

Immediately following the dance program presented by the teen-agers a dance for the general public will be held and music will be provided by a live dance band. The evening of entertainment and the dance are free, according to Larson, and the public is invited.

Grand opening set at new Durfee cafe

MALTA — Grand opening for the new Durfee Cafe and Union 76 station located at the Sublett interchange eight miles east of Malta on Interstate 80 will be held from 6 p.m. Saturday through 6 a.m. Sunday. Dancing will start at 9 p.m. Saturday with music by the Clark Ward orchestra. The celebration will include free refreshments and gifts with a motor tuneup to be given as a grand prize.

The new building was built by Larry Wright Construction Co., Rupert, and was begun last November. The cafe will seat 44

people and the dining room will accommodate 50 persons. Reservations for private parties are accepted for groups from 20 to 50 people.

The service station has a mechanic on duty 24 hours daily and the station has a shower for truckers in the basement.

The building, which is 80 by 40 feet, is heated by electricity. This summer the parking lot will be blacktopped.

The cafe formerly was called Margy's Cafe in Strevell, and pies can still be ordered 24 hours a day as in the past.

Style Show held at Rupert

RUPERT — A style show was viewed by members of the Minidoka County Pōhōhō Grange during a meeting at the Rupert Grange Hall.

Garments modeled were entries for the National Grange Sewing Contest.

Awards given at the Pomona level were Mrs. David Hill, first, and Mrs. Cash Peterman, second place, both class A; Paula J. Coter, class B, and Mrs. Gary Asson, class C, second place.

Mrs. Mary Dallolio was narrator. Mrs. Ed Schwaegeter, Burley, state director of Women's Activities for the grange, announced the sewing results. Mrs. Hill, sponsored by Mrs. Howard Bruns, Rupert Grange, placed first in Best of Show. She received a Polaroid camera, a \$50 savings bond and a \$15 merchandise certificate. Mrs. Peterman, Rupert

Grange, placed second and received a Samsonite ladies' weekend case.

Mrs. Asson, sponsored by Aldo Dallolio, Pioneer Grange, placed second in her class for making her 12 year daughter an outfit. She received a Sunbeam electric egg cooker.

Mrs. Hill's three-piece Trevira pantsuit with short-sleeved overblouse will be entered in the Grant National Grange sewing competition which will be held June 14 at New York City, Mrs. Schwaegeter said.

The grand national prize is a seven-day cruise to Nassau in the Bahamas on the Home Lines Oceanic Hotel Ship.

Other state winners were Mrs. Doris Ysuda, Wilder, Class B and Mrs. June Custer, Twin Falls, Class C.

Local Pomona sewing chairman was Alvin Holmes.

Water seminar set for Boise

TWIN FALLS — Ten Magic Valley residents will participate in a three-day Snake River Basin land and water use seminar June 3-5 at the Roadway Inn, Boise.

Twin Falls residents, include J. H. Breckenridge, livestock and farming; Richard G. High, associate editor of the Times-News; C. P. Parrish, president of Farm Service, Inc.; Kimberly, and member of the Idaho Soil Improvement Committee; Pedro Hernandez, University of Idaho and Jos. L. Sonnevile, graduate assistants. Hernandez and Sonnevile both work at the Snake River Conservation Research Center in Kimberly.

Other Magic Valley citizens attending will be Laird Noh, Kimberly, rancher and sheep grower and vice chairman of the Twin Falls County Republican Central Committee; State Sen. John T. Peavey, livestock operator, Rupert; G. P. Russell, Hagerman mayor and maintenance supervisor for Idaho Power; Mrs. Myrtle Schrenk, Wendell, conservationist for Thousand Springs and Box Canyon; and Catherine Stapp, Gooding, veterinarian and member of the Idaho Environmental Council.

The Magic Valley group will join 50 other participants in the conference, sponsored by the League of Women Voters of Idaho, Washington and Oregon and funded by a grant to the national League's Education fund by the Water Quality Office of the Environmental Protection Agency, Washington, D. C.

The participants will meet with 20 faculty speakers and 22 planning committee members to discuss potential solutions to the problems of related land and water uses in the Snake Basin.

Mrs. Eugene Smith, Idaho Falls, seminar chairman, said the seminar is designed to assist basin residents learn about inter-related uses and misuses, and alternative choices for the future.

Mrs. Royal Slotten, Twin Falls, is public relations chairman on the seminar's planning committee.

Jerome man honored

RECEIVING THE Distinguished Flying Cross in Air Force Sgt. Joseph A. Young, left, son of Mr. and Mrs. Earl A. Young, Jerome. Presenting the award is Col. Russell S. Ryland, vice commander of the 44th Tactical Airlift Wing. Young also received his third Air Medal for extraordinary aerial achievement in Southeast Asia. He was graduated from Murtaugh High School in 1947. His wife, Freida, is the daughter of Mr. and Mrs. Roy Knighton, Murtaugh.

CSI studies bid for new catalogs

TWIN FALLS — Standard Printing Co. of Twin Falls submitted the apparent low bid for printing College of Southern Idaho 1971-72 catalogs, according to H. W. Van Slyke, CSI business manager.

Bids were opened Friday, but are being evaluated since the second-highest bidder, Ace Printing Co. of Twin Falls, quoted a price only \$14 higher than Standard, Van Slyke said. Standard bid \$3,250.64, while Ace Printing quoted \$3,264.35 for printing 6,000 CSI catalogs.

Bidders were asked to quote prices separately on printing lots of 5,000, 6,000 and 7,000 catalogs, Van Slyke said. Since prices were so close on the 6,000 catalog offer, that amount will probably be ordered.

C and R Printing Co. of Filer was third, quoting a price of \$3,847 for 6,000 catalogs, while two other bidders fell out of the competition as soon as bids were opened. They quoted prices of \$12,445 and \$16,636 for 6,000 copies, making each catalog cost the college more than \$2 and \$2.50 respectively.

Van Slyke said he will award the contract when the evaluation is completed. The CSI board of trustees voted to waive the usual procedure of requiring formal board approval, since time is short for printing the catalogs.

Bids set on Idaho project

WALLA WALLA, Wash. (UPI) — The Army Corps of Engineers announced today it plans to call for bids late this week or early next week on construction of the upper reservoir roads at Dworshak dam on the north fork of the Clearwater River near Orofino, Idaho.

The corps said it expects to hold bid opening about July 8. Cost of the project is estimated between \$500,000 and \$1 million and the work will be expected to be completed within 420 calendar days.

Machine shop opens at Dietrich

SHOSHONE — Mr. and Mrs. H. D. Nance are new residents of Dietrich. He has leased the Bolton building and will open a mechanic shop for welding and machinery repair, soon.

The family has leased a house on the Jim Walker ranch. Their three children are all school age. Nance has 15 years experience in mechanical work.

'Cowboys' round up heifer

By LEETREMAINE
Times-News Writer
TWIN FALLS —

cattle on an open range on horseback is one thing — but chasing a frightened heifer across residential lawns and down busy streets in rain — without a horse — is something else again.

John Woody, who raises Charolais cattle near Filer, sold a Charolais heifer to a customer on Eastland Drive well north of Addison Avenue Tuesday morning. But the critter disapproved. Spooked by traffic and dogs in the neighborhood, she took off down the street after escaping through an open gate in a nearby residential yard.

Woody and the city "humane officer," Keith Seville, gave chase, when the fast-moving heifer was reported ambling through yards on Maple Street, in the 2000 block, apparently puzzled by the lack of corrals and grazing grass in the vicinity.

Several veterinarians were called, but all were busy and none favored playing cowboy in a rainstorm.

The humane officer carries a tranquilizing syringe which can be fired at a fractious or rabid

dog, but the dose would not "handle" anything over 80 pounds — and the busy heifer certainly topped that by a few pounds, he estimated.

After a long chase across yards along Maple Street, 11th Avenue East, and other neighboring streets, the critter was brought to bay in a yard on Addison Avenue East, just east of Eastland Drive.

Using a professional cowboy-style lariat donated for the purpose by veterinarian Dr. H.W. Ronk, Woody and a fellow "cowboy" — assayed the beast, despite her loud and vocal protest, and roped her to the rear of Woody's cattle truck.

Lacking a loading ramp at the site, he couldn't load her into the vehicle, so he led her slowly and loudly down Addison Avenue to a nearby pasture where he could hold her until he could complete delivery — again.

Churches complete merging

SALEM, Ore (UPI) — Formal merger of the regional agencies of the Methodist and Evangelical United Brethren Churches was completed Monday at the Oregon-Idaho conference of the United Methodist Church.

Five former EUB churches joined the conference to complete the merger, begun in 1968. Emmanuel EUB Church at Milwaukee decided to disband rather than join.

When the national merger began more than half the EUB churches in Oregon and Washington withdrew and formed the Evangelical Church of North America.

The conference was working today on a program for service in Idaho and Oregon.

Alaska is two and one-fifth times the size of Texas.

'Dropout' back with new album

NEW YORK (UPI) — Janis Ian became a musical dropout possibly because fame came to her too soon in life.

She was only 16 when she became a recording star. And it's possible she felt uneasy about it, knowing that older and more experienced singers and musicians were not making their mark. So she disappeared from the recording scene.

Perhaps Janis' guilt feelings have vanished. She recently recorded 16 songs which have been released in an album, "Present Company" (Capitol SKAO-683).

Tiny Janis does not have a big voice but it is clear and pleasant. And her phrasing is excellent. One of her songs in this selection, "Hello Jerry," injects hope that music-making will "brighten the leaded skies." The title tune, "Present Company," has hit possibilities.

Like Janis, Dory Previn has had some uncomfortable moments. And her talents as an artist and composer are strong enough to overcome her human deficiencies.

Dory has a soothing voice which immediately sets her listener at ease. She also writes lyrics in a poetic style with lines that stimulate the imagination and intellect.

The text of her lyrics to the music in her latest album, "Mythical Kings and Iguanas" (Medarts 41-10), are printed on the inside of the record jacket, making it easy to follow and understand her vocal outpourings. She is not averse to sprinkling profanities and four-letter words into her songs.

One of her teasing lines shows up in a song called "The Lady With the Braid." She asks: "Would you hang your denim jacket near the poster of Picasso?"

"Come on, girl, we won't hurt you."

Iris doesn't taste like grass...

Three men, one rope do the job.

Doped candy falls student

OMAHA, Neb. (UPI) — It was an innocent-looking piece of candy and Marilyn Cleveland, 17, didn't give it a second thought as she popped it into her mouth while preparing to leave for school.

But several hours later, Marilyn, the 1970 Miss Teen-Age Nebraska, woke up to find herself in a hospital room.

That was the morning of May 11. Marilyn returned to school for the first time this week after "freaking out" on the chocolate which she said her family believe was laced with LSD or some other hallucinogen.

Marilyn, daughter of Mr. and Mrs. Glen Cleveland, recalls she was changing purses the morning she found the candy. "I have a sweet tooth," she

said, "so I ate it and thought no more about it." She then began to feel strange while driving to school.

"All the cars looked like little colored strings as they passed by," she said. "After that, my mind just went blank until I got to school."

"I then remember getting terribly frustrated while trying to get my locker open, and some friends came over and helped me," she said.

"They thought I was sick or drunk or had food poisoning — they just didn't know what to think," she said.

The friends took her out of school and gave her bread and tomato juice.

"I remember seeing a great big tomato coming at me — all kinds of weird things like that. It was

really scary.

Strange Effects

"Then I woke up at Clarkson (hospital)," she said.

Marilyn spent two and a half days in the hospital as "really a bummer. A lot of times people's faces looked deformed, and outside the window everything looked really different.

"I wouldn't want to ever go through it again."

She spent a week and a half resting at home and trying to keep up with her classwork before returning to school but says she still suffers strange effects.

"When I read, my eyes all of a sudden will just stop and read backwards," she said.

Richey, Lutz out of French tennis events

PARIS (UPI)—Cliff Richey and Bob Lutz, the fourth and ninth seeds, slumped out of the \$100,000 French Open tennis championships Tuesday, but sixth-seeded Stan Smith squeezed through to move three Americans into the last eight of the men's singles.

Richey, the top ranked U.S. player from San Angelo, Tex., fell to 39-year-old Istvan Gullys, Hungary's top player, 6-4, 7-5, 3-6, 6-2 on the slow clay center court of Roland Garros Stadium.

Lutz, the pro from Los Angeles, found the clay equally hampering as he went down in straight sets in another fourth round match before France's 21-year-old Davis Cup hope, Patrick Proisy, 6-4, 9-7, 7-5.

Smith, from Pasadena, had to struggle to beat Frenchman Patrice Dominguez, 6-4, 2-6, 8-6, 6-2 to John Arthur Ashe and Frank Froehling in the quarter finals.

Ashe and Froehling clash in the quarter finals to assure at least one American semi-

finalist, while Smith takes on Ilie Nastase of Romania.

Top seeded Jan Kodes came through in five hard sets to beat Frenchman Francois Jauffret 4-6, 6-2, 5-7, 6-0, 6-4, to earn the right to meet Proisy in the quarter final.

Gulyas, the Pancho Gonzalez of eastern Europe, will have to wait until Wednesday to discover his rival. Bad light stopped play in the outstanding fourth round match as Frenchman Pierre Barthes was upsetting fourth seed Zeljko Franulovic of Yugoslavia 4-6, 6-4, 6-4.

SPORTS

19 Americans in British Open

CARNOUSTIE, Scotland (UPI)—Four Walker Cup stars led a five-strong American Challenge into the third round of the British Amateur golf championship Tuesday with impressive wins over a sun-baked course.

In all, 19 Americans were in contention after first and second round matches at the 76th renewal of the championships. Seven U.S. winners, plus Jim Watts of Forest, Va., who received a bye, got through first rounders to join six survivors from Monday's program.

Jim Simons, John Farquhar, Vinny Giles and Tom Kite were the Walker Cup men to win through to the third round, plus Mike Sanger of Mt. Kisco, N.Y.

Simons, 21, of Butler, Pa., beat Charles Feaver of Fresno, Calif. 3 and 2; Farquhar, of Amarillo, Tex., had a massive 6 and 4 win over Englishman Bob Beaumont; Kite of Austin, Tex., clobbered another Englishman, Peter Gardner, 5 and 4; Giles of Richmond, Va., edged past Tom Howey of Scotland by 3 and 2, while Sanger beat Frank Redman of El Paso, Tex. 4 and 2.

turn, got a tgrip on his match by the 12th when he went 'two up. He held on to the advantage and clinched his victory at the 16th.

Farquhar, who received a first round bye, had a walkaway victory and was four up by the sixth, while Giles was similarly untested by his opponent and turned three up. Kite set up his second runaway victory—he won 7 and 6 in the first round—with a powerful opening half. He also turned three up and it was just a question of when the one-sided match would end.

Rowe, Pistons ink pact

DETROIT (UPI)—Curtis Rowe, called by his coach the "most consistent player" he had on three straight national championship UCLA teams which included Sidney Wicks, today signed a five-year contract with the Detroit Pistons.

The National Basketball Association team's No. 1 draft choice put his name on a contract for an undisclosed amount believed to be under the \$1.5 million 6-foot-10 center Bob Lanier signed for a year ago.

The 6-foot-6 Rowe averaged 15.2 points per game and nearly nine rebounds a contest for the 90 games he started for Coach John Wooden's Bruins. UCLA was 86-4 during the three varsity seasons led by Rowe and Wicks, who attended the press conference in Detroit with his less celebrated teammate.

"The addition of Rowe beefs up the Pistons where we need help the most—at forward—and brings to the Pistons a winning-type player," said General Manager Ed Coll.

"Curtis is an unspectacular, spectacular player at both ends of the court," Wooden said prior to winning another NCAA tournament title this past season. Early in the year, he called Rowe "the most consistent player I had during the past three seasons."

As a freshman, Rowe broke Lew Alcindor's single-game fresh scoring high for UCLA with a game of 51 points. His average improved during his varsity career from 12.9 to 15.3 to a final season mark of 17.5 points per contest.

"I know both can play," Rowe said of Alcindor and Wicks.

"But I know I can play, too.

'Consistent'

WEARING PISTON TEAM jacket over his mod shirt, Detroit Piston top draft choice Curtis Rowe relaxes after signing a five-year contract with the NBA team Tuesday. UCLA coach John Wooden said Rowe was the "most consistent player" he had on three straight championship UCLA teams. (UPI)

Second round losers who drew British opponents were Bobby Frieis of Tulsa, Okla., Daniel Forde Keane, Fairfield, Conn., Lance Cooper of Miami, and Peter Droker of Weston, Mass. Simons, held all square to the

Two lead JC tennis player to instruct clinic

RUPERT — Rosemary McRoberts, Twin Falls, and Sorjene Sorensen, Burley, are leading the Times-News sponsored Magic Valley Women's Amateur Golf Tournament.

Mrs. McRoberts shot a gross 86 and Mrs. Sorensen shot an 89, but each had a net 79. The two and 45 other Magic Valley women braved rainy weather Tuesday at the Rupert Country Club course for the two-day tournament.

Wednesday afternoon the awards were screamed to be awarded the winners.

Tuesday afternoon in the Championship flight, Sharon Paterson, Jerome, and Delta Wilson, Buhl, each shot a net 80, one stroke behind the leaders.

In flight one, Martha Holcomb, Burley, and LaRae Hodges, Rupert, both had 81 net; flight two, Ethel Martin, Jerome, and Lanora Kasworm and Mardene Grortindia, both Rupert, tied with 76.

Flight three, Johnnie DeBlaguere, Rupert, shot a net 79, and Phyllis Barth, Burley, shot an 85 net. Fourth flight, Peggy Shockey, Burley, and Doris Wall, also Burley; each shot 70 net.

TWIN FALLS — California's eighth ranked Junior College tennis player in 1969 will be instructing tennis this summer during the Twin Falls Recreation Department's summer program.

Sterling Bishop, 21, San Jose, Calif., who will be attending the College of Southern Idaho this fall for one semester, will be the instructor for a tennis clinic which begins Monday.

Bishop attended the College of Sequoias, a junior college at Visalia, Calif.; and while there was named the outstanding conference player, undefeated in singles, eighth-ranked junior college player in the state and Northern California Player of the Week. All this was 1968-69 school year.

Then he received a scholarship to the University of Idaho where he played No. 2, went 28-2 in singles, won conference No. 2 in singles and was voted the "most inspirational player."

Then Bishop laid out a year. Now he is in Twin Falls and will be attending CSI for some credits, and after the first semester, he will be heading for Boise State College where he has a scholarship.

Until this fall, Bishop will be instructing the clinic which is for anyone who is interested in playing tennis. There will be four two-week sessions and not only instruction on techniques will be given, but also strategy.

Registration for the clinic is this week and Bishop can be contacted by those interested in the clinic at the Harmon Park Recreation Building, 734-3336.

STERLING BISHOP

Owner of Canonero to sell

NEW YORK (UPI)—The owner of Canonero II said Tuesday that the start colt will be sold "win or lose" after his bid to wrap up the turf's Triple Crown this Saturday in the Belmont Stakes, and he hinted he was leaning toward selling the Kentucky-bred colt to someone in the United States.

Pedro Baptista of Venezuela, owner of Canonero, left himself one "out" in saying the horse will be sold — he added that the sale will take place "provided the terms as to price and conditions are the terms we are seeking."

He said he is entertaining eight offers for the Kentucky Derby and Preakness champion — five from persons in the United States and one each from Japan, England and Venezuela.

"I want to give Canonero his best opportunity as a stallion," Baptista said. "That would be the case in the United States because here the best mares would be available to him. If he should be sold to someone in the United States, he would still be available to the best mares in my country, too."

Baptista said the conditions he is seeking, in addition to a price reportedly in the \$4 million range, is that he would be able to retain a share in the horse.

Meanwhile, Canonero got back on the track Tuesday and galloped easily once around under jockey Gustavo Avila, who returned from Venezuela Monday to get ready to ride Canonero in the mile-and-a-half Belmont.

Canonero appeared to be moving easily and was fighting for his head, obviously wanting to break loose from restraint and run harder. There did not appear to be any sign of the foot infection from which he had been suffering recently.

"The foot has responded very well to treatment," reported veterinarian Dr. William O. Reed. "There is no fever. The rash is just about gone. He is going to be in the race; don't worry about that."

Trainer Juan Arias said he was well pleased with Canonero's condition after the gallop. He reported the colt is very much "on the muscle" and pranced all the way back to his barn.

which begins Monday.

Mtn. Home 6-round bout set by Clay

MOUNTAIN HOME — The first annual Gilbert Hawley Memorial Tournament will be held Saturday and Sunday at the Mountain Home Municipal Golf Course.

Sponsoring the event is the golf course and Mountain Home merchants. There will be \$2,160 in prize money, plus \$600 added prize money guaranteed.

Prizes will be awarded each flight in both gross and net areas, each for 36 holes.

Spaniels From Spain

The spaniel family contains more breeds than any other dog family. The spaniel family is descended from a Spanish dog and the name spaniel comes from Spain.

So none of the talk about comparing me to anybody else upsets me." Detroit missed the playoffs again last season despite a 51-31 record—the best in the club's NBA history. Injuries and lack of depth at forward played a key part in their late collapse, something which Rowe is expected to help cure.

CHARLESTON, S.C. (UPI)—Former heavyweight boxing champion Muhammad Ali will fight a six-round exhibition bout here June 25 to raise funds for amateur boxing.

Promoter Reginald C. Barrett Jr. said Tuesday Ali will fight two opponents who will each go three rounds. The other fighters have not been named.

A similar exhibition fight involving Ali was cancelled at the last minute last year after county officials turned down Barrett's request for the county auditorium. The county officials acted following complaints from civic groups opposed to Ali's anti-draft stand.

Frank DeHoney of Twin Falls recently received the Outstanding Freshman Swimmer Award at Idaho State University.

He placed high at the Big Sky Conference meet in the butterfly events and was on the winning 400-yard medley relay team.

FRANK DeHONEY

Jones and Kroll win golf fete

TWIN FALLS — Paul Jones and Egan Kroll were first place winners in the Blue Lakes Country Club's Memorial Day Weekend Tourney. They shot 54.

Tied for second and third team spots at 56 were the team of Edgar and Hudson and the team of Edgar and Carpenter.

In fourth spot were Ross Bevan and Dr. Glen Hoss, at 57.

Another tie resulted for fifth and sixth places at 58. They were the team of Youree and Chaborn and a father-son team of Feldtman and Feldtman.

Petty adds to winnings

DAYTONA BEACH, Fla. (UPI)—Richard Petty, enroute to becoming NASCAR's first million-dollar driver, added another \$10,000 to his winnings Tuesday when NASCAR distributes the first \$25,000 bonanza from the \$100,000 Winston Cup program.

Petty, who finished with a 106-point edge over James Hylton after Sunday's World 600, will also have a headstart toward first place money when the second \$25,000 is divided after the Southern 500 in September, and when the final \$50,000 is distributed at the end of the season.

Hylton received \$5,000 for his runner-up finish while Cecil Gordon picked up \$3,000 for his third place finish and Elmo Langley earned \$2,000 for finishing fourth.

Petty, who made his Grand National debut in 1956, has now won \$22,648 in his fantastic career. The Plymouth ace has won \$133,740 this season, his fourth year over the \$100,000 mark.

The top 10 drivers shared in the \$25,000 melon with Dave Marcis edging Frank Warren for 10th place and \$500.

Astros beat Braves 7-6

ATLANTA (UPI)—Cesar Cedeño, a 196 hitter going into the game, went four-for-five, drove in three runs and scored three Tuesday night as the Houston Astros handed the skidding Atlanta Braves their 11th loss in 13 games, 7-6.

Jesus Alou also drove in three runs in the 27-hit marathon.

Hank Aaron gave Atlanta a brief 2-0 lead in the first inning with a two-run homer, his 16th of the year and 808th of his career. But the Astros jumped on starter Tom Kelley in the third inning for three runs, two of them on Cedeño's two-run homer.

Houston lefthander Wade Blasingame, though hit freely by the Braves, held them in check until they pushed across their third run in the seventh.

With two out in the ninth Aaron singled and Cedeño hit his 13th homer over the left field fence.

In the seventh, the Braves loaded the bases against Blasingame with one out on three straight singles and Ralph Garr drove in Marty Pérez from third on an infield out. George Culver relieved at that point.

Houston took the lead it never gave up in the third inning when Blasingame opened with a walk and scored ahead of Cedeño's third homer of the season.

Houston got two more in the fifth on back-to-back singles by Cedeño and Watson and Alou's double.

The Astros scored their seventh run in the seventh when Joe Morgan walked, moved to third on a double by Cedeño and scored on Mayberry's sacrifice fly. Alou drove in Cedeño with the decisive Houston run.

Oakland, Blue nip Yankees

NEW YORK (UPI)—Southpaw Vida Blue, aided by Reggie Jackson's two-run homer, pitched a six-hitter Tuesday night to record his 11th victory of the season as the Oakland Athletics defeated the New York Yankees, 5-2.

Blue, who went the distance for the 11th time in raising his record to 11-2, was touched for three hits in the first two innings but settled down and retired 17 consecutive batters before the Yankees tagged him with three more hits in the eighth. Blue struck out six and walked one.

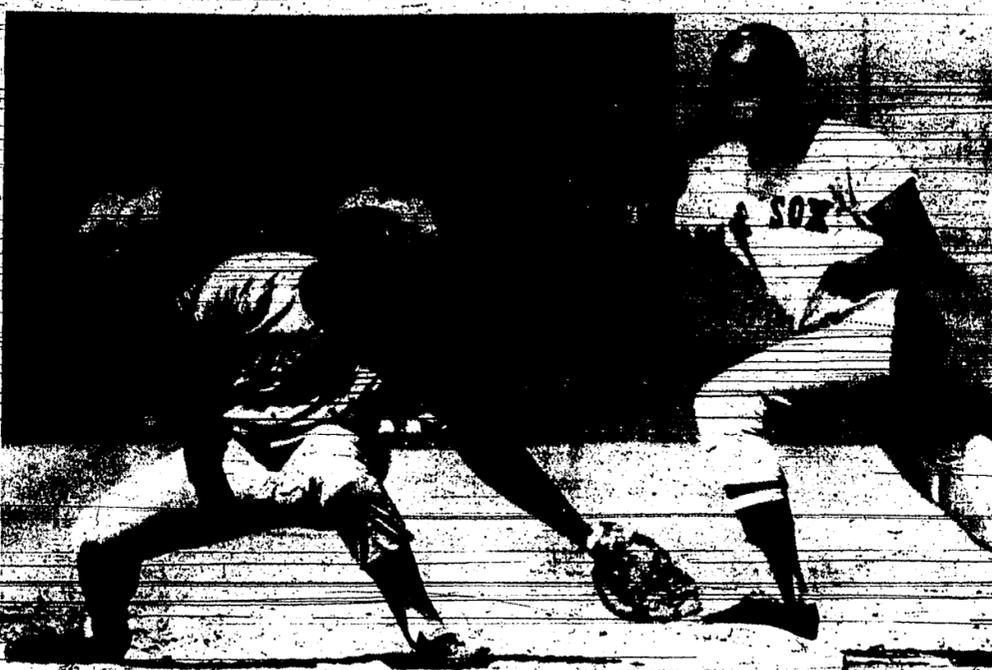

Team	ab	r	h	er	bb	so
Oakland	35	5	11	2	1	2
Yankees	35	3	11	2	1	2

Brewers 5, Indians 3

MILWAUKEE (UPI)—Johnny Briggs drove in three runs with a single and his fifth home run of the season Tuesday night to give the Milwaukee Brewers a 5-3 win over the Cleveland Indians.

Briggs' home run came in the seventh inning, off Cleveland pitcher Steve Carlton. Carlton pitched a six-hitter, but the Indians scored three runs in the first two innings.

REGGIE SMITH of the Boston Red Sox gets back to first safely, beating pickoff attempt from Kansas City catcher Jerry May to first baseman Bob Oliver in sixth inning of Tuesday's game. Royals won 4-2 to sweep the three-game series. (UPI)

Close call Red Sox handed another loss

BOSTON (UPI)—Amos Otis hit his third home run in two days to back Mike Hedlund's seven-hitter for a 4-2 Kansas City Royal victory and a three-game sweep of the Boston Red Sox Tuesday.

Otis, who had driven in six runs while hitting a homer in each half of a Monday doubleheader, hit his 10th of the season after a Fred Patek

single in the eighth inning as Boston's East Division lead was cut to a single game over idle Baltimore.

The Royals had scored twice off losing Boston starter, Jim Lonborg in the fifth as Cookie Rojas doubled, Bob Oliver was hit by a pitch, Joe Keough singled for one run and Jerry May hit a sacrifice fly for the other tally.

Hedlund, now 5-3, walked one and struck out three while pitching his second complete game.

He lost a bid for his first shutout in the ninth inning when Reggie Smith singled and George Scott hit a two-run homer with two out, his seventh of the season.

Loborg, suffering his first loss against one win in his latest comeback bid, limited the Royals to one hit over the

Shortstop injured

NEW YORK (UPI)—Shortstop Gene Michael of the New York Yankees injured his neck in a collision with second base umpire Ron Luciano in the ninth inning of Tuesday night's game with the Oakland Athletics and was taken to Roosevelt Hospital for precautionary X-rays.

Michael collided with Luciano as he went to stop catcher Thurman Munson's throw on a successful steal attempt by the A's Joe Rudi. Munson's throw was on a bounce and skidded off the bag and as Michael went to field it he caught Luciano's arm in the face and had to be taken off the field on a stretcher.

Michael suffered a cut lip in addition to what the Yankee trainer called a "whiplash injury of the neck."

Senators 6, Angels 5

WASHINGTON (UPI)—Elliott Maddox's three-run homer in the seventh inning powered the Washington Senators to a 6-5 victory Tuesday night over the California Angels.

Maddox hit a three-run homer in the seventh inning, off California pitcher Steve Carlton. Carlton pitched a six-hitter, but the Senators scored three runs in the first two innings.

Twins 3, Tigers 1

BLOOMINGTON (UPI)—Les Cain walked Harmon Killebrew and Leo Cardenas with the bases filled in the eighth inning to force in the tie-breaking runs and enable the Minnesota Twins to beat the Detroit Tigers, 3-1, Tuesday night.

Cain walked Killebrew and Cardenas, who scored on a sacrifice fly by Fred Green. The Tigers scored once in the first inning.

Plea changed

SARASOTA, Fla. (UPI)—Atlanta Hawks basketball star "Pistol" Pete Maravich has changed his plea from innocent to no contest on a charge of driving while intoxicated, a court clerk confirmed Tuesday.

The plea change was filed May 17 and Sarasota County Court of Records Judge Marvin E. Silverman placed Maravich under a pre-sentence investigation. He will be sentenced June 28.

Fight set

PHILADELPHIA (UPI)—The veteran Don Fulmer of Salt Lake City will meet undefeated Eugene (Cyclone) Hart, winner of 19 straight bouts, in a 10-round middleweight bout here June 22, it was announced Tuesday.

Trevino second on PGA list

NEW YORK (UPI)—Lee Trevino's victory in the Danny Thomas Memphis Classic has vaulted him to second place in the money-won standings of the PGA tournament Players Division.

Leading batters

Player	ab	r	h	er	bb	so
Brock, S.L.	48	16	34	3	1	2
Davis, L.A.	49	19	30	7	3	6
Garr, A.L.	50	21	37	7	3	6
Torre, S.L.	48	16	34	3	1	2
Becker, C.H.	48	19	33	6	3	5
Mays, S.F.	44	15	32	5	2	3
Staub, A.M.	43	15	29	5	2	3
Alou, S.L.	46	19	31	6	3	3
Sanguillan, P.H.	45	18	34	3	1	2
Cash, P.H.	40	15	28	5	2	3

The \$35,000 top money at Memphis put Trevino at \$115,785 and put him just behind leader Jack Nicklaus, who has banked \$131,788. Jack did not play in the Danny Thomas.

Trevino's win also put him over the \$100,000 mark for the fourth consecutive year.

Arnold Palmer is third on the list with \$106,796 and Miller Barber is fourth, his modest \$475 money at Memphis edging him over the \$100,000 total to \$100,369.

Gary Player is fifth on the list, with \$98,187, followed by Tom Shaw, \$84,176; Gene Littler, \$83,605; Frank Beard, \$75,486; George Archer, \$70,652 and Billy Casper \$66,614.

MERRILL WEINSTEIN of the Milwaukee Leagues Quincey Cubs is an ordinary, hardworking general manager. In addition to running the front office, he sells tickets, handles advertising, supervises concessions, substitutes for the public address announcer—and, occasionally, babysits his year-old son Danny at the ballpark in Quincey, Ill. (UPI)

Keeps busy

Scott sees draft OK'd

WASHINGTON (UPI)—A majority vote of the first time publisher of the draft bill, which would force a vote and pass a two-year extension of the draft, is expected Tuesday the Senate would force a vote and pass a two-year extension of the draft despite a "very gentlemanly" effort by the House to keep the bill from going to the Senate.

He said he had taken no head-counts, but that he felt the changes of halting the filibuster led by Sen. Mike Gravel, D-Alaska, with a two-thirds

Mind Your Money

By PETER WEAVER

Q—Would you like to lift a paragraph from your consumer report (column on credit card protection) and then comment on it?

A—Now that it's much more difficult for you to be held accountable for any unauthorized charges, there is less need for special credit card notification or insurance.

You are publicizing the fact that the new 450 limitation (liability on unauthorized charges) is a license to steal. Thousands of new crooks will be born because of the fine work you are doing.

Protection companies offer many valuable services: (1) a key tag registration (2) change of address service and (3) a service to do a credit card registration. Credit Card Sentinel does this for \$3 a year.

W.A.L., Credit Card Sentinel, Inc.

Q—In the new law which protects consumers against unauthorized credit card charges, Congress intended to put more of the burden of guarding against credit card thefts on the card issuer, less on the consumer.

I said that credit card "protection" services were less important now because consumers were only liable for \$50 on unauthorized charges, not the "open checkbook" that existed before. If a company does not advise a consumer of his rights and does not send a self-addressed card or envelope for notification of loss or theft, then the consumer is not liable for any payment, not even the \$50.

Of course consumers should notify companies when a credit card is lost or stolen. It will eliminate errors and wasted time in billing, and it will help cut down overall credit costs for everybody.

Q—We have elected to comply with the recent amendment to Truth in Lending (credit card protection) in an effort to encourage card holders to notify us of the loss or theft of their credit card so that we may, in turn, notify establishments honoring the credit card.

We are providing each card holder at the time his credit card is issued or reissued with a self-addressed, postage paid by

address) post card to be mailed back to this company in the event of the loss or theft of the card.

It is not our intention to pursue our card holder for \$50 every time there is an unauthorized use of the card. S.B.F. Carle Blanche Corp. Thanks for the information. It's interesting to note that, since the credit card protection law went into effect, more and more card issuers and establishments honoring the cards are tightening their security.

Several BankAmericard member bank issuers are now requiring card holders to have color pictures on the cards. A number of stores have electronic devices check each card to see if it's on the "hot" list.

What does "Class E" stamped on a cigar box mean? Are there several classes? What goes into cigars which are "predominantly natural" (tobacco) with "non-tobacco ingredients"? — W.D.P., Morris Plains, N.J.

A—The Internal Revenue Service requires manufacturers to put a stamp with an alphabetical rating system on cigar boxes. The cheapest are rated "Class A" and are usually small cigars retailing for less than three cents each. B stamps indicate a retail price of four cents or less, C indicates less than six cents, D less than eight cents, E less than 10 cents, F less than 20 cents, and the top rating, Class G, means the cigar sells for more than 20 cents.

Non-tobacco ingredients are found in reprocessed "sheet" tobacco used in cheaper cigars. Paper is used in sheet tobacco to give it resiliency, but the Federal Trade Commission has received complaints that other items such as glass, wool, ceramics, silicate fiber and diatomaceous earths are going into cigars.

The FTC has asked manufacturers to disclose all ingredients used. Copyright 1971, Los Angeles Times

Market Review

NEW YORK (UPI)—Stocks held firm in moderately active trading after more than three hours Wednesday.

The Dow Jones industrial average was ahead 5.97 at 919.62, while Standard & Poor's 500 stock index showed a gain of 0.59 at 100.79. Advances topped declines, 921 to 388, among the 1,606 issues crossing the tape.

Volume at 1 p.m. amounted to 11,345,000 shares up from 7,040,000 shares traded at a comparable time the previous session.

Firmness was attributed to an easing of concern about the recent rise in interest rates, bargain hunting coming after sharp market declines in recent weeks, optimism about the economy and belief among investors that corporate earnings will make pleasant reading in the second quarter and last half of 1971.

UPI WEATHER FORECAST

Lots of showers

SHOWERS or thunderstorms are forecast for the northwest, central plains, lower Great Lakes and the mid-Atlantic Coast. No important temperature changes are expected. (UPI)

continuing the chance of showers.

Lows this morning were mostly in the 40s ranging from 40 degrees at Pocatello to 45 degrees in Boise. Thursday morning lows should range from the mid 30s through the mid 40s.

Occasional light rain showers occurred during the night but were not nearly as widespread as Monday night.

Weak cold front keeps rain here

Twin Falls, Northside, Burley-Rupert area:

Considerable cloudiness tonight with chance of showers. Partly cloudy Thursday with slight chance of showers. Warmer days: Highs Thursday 65 to 75. Lows tonight 38 to 48. Outlook for Friday, partly cloudy with little temperature change.

Probability of measurable precipitation 40 per cent tonight and 20 per cent Thursday.

Camas Prairie, Hailey and lower Wood River Valley:

Considerable cloudiness tonight with chance of showers. Partly cloudy Thursday with slight chance of showers. Warmer days: Highs Thursday 60s. Lows tonight 30s. Outlook for Friday, partly cloudy with little temperature change.

Synopsis: The upper level low pressure system which has dominated the intermountain weather for the past several days continues to remain nearly stationary and is now located over extreme southeastern Oregon. This storm is gradually weakening but is still potent enough to produce scattered showers tonight.

A weak cold front was just off the northwest coast of Washington this morning and will move southward through southern Idaho late Thursday night.

economic indicators probably will continue spotty until the latter part of the year, at which time they should show a definite uptrend, the Alexander Hamilton Institute says. Meanwhile, the stock market "will continue to reflect this eventuality," the institute says. The firm recommends systematic stock buying.

Ultimately dividends, or the hope of dividends, should be the prime mover of equity values, Spear and Staff believes. Over the past two decades corporate earnings have more than doubled and the flow of dividends has tripled, the firm observes, adding that 1968 has been the only year since the end of the Korean War in which the total amount of dividend disbursements failed to rise.

There is an increased need for discrimination in making new purchases of stocks, Standard & Poor's warns. The market's advance over the past year, and particularly between November and April, have discounted a good deal of the improvement anticipated in 1971, and in some cases in 1972, by individual companies, it notes.

Correct Play for Contract

Bridge hand diagram showing North (D) and South hands with suits and cards.

and lead a second club. Now South can afford to draw trumps, but he still must take care to guard against the chance that the defense can win the second trump and lead a third round.

He handles this problem by leading a heart to dummy and playing a low trump to his queen. West takes his king. His best play is to lead the jack right back, but this doesn't hurt South. He takes dummy's ace and goes about his business of playing anything but a third round of trumps.

West sits there with the high trump, but the best he can do with it is either to overruff at some stage of the play or to wait in the vain hope that South will make a mistake and play the third round of trumps himself.

(NEWSPAPER ENTERPRISE ASSN.)

By Oswald & James Jacoby

Some of the simplest-looking hands are the most difficult to play because they offer so many options. South has all sorts of problems...

The correct line of play is to start with the diamonds. South wins the club lead in his own hand and leads the four of diamonds toward dummy. West can do no better than to rise with the king.

CARD SENSE

The bidding has been:

Bidding table showing West, North, East, South bids.

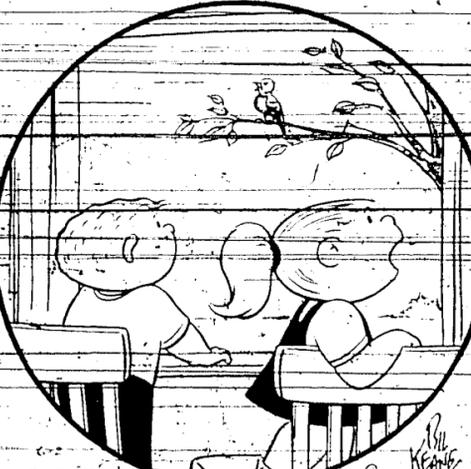

You, South, hold: ♠975 ♥KJ85 ♣92 ♦K86. What do you do now? A—Bid two no-trump. Your partner is showing a very big hand. You have two kings and two potential hearts stoppers.

TODAY'S QUESTION: Instead of bidding two diamonds, your partner has bid two hearts after your one spade. What do you do now? Answer: Tomorrow

MAJOR HOOPLE

Seek death clues

PHOTOGRAPHER Joel Huyes, left, checks camera to be used in aerial survey of orchards near Yuba City, Calif., where graves of 23 transient farm workers have been found. Infrared procedures will be used to photograph area, registering differences in temperatures which presumably could aid in locating more graves. Cutting branches from trees near grave sites (right) are Sutter County Sheriff's deputies, who are gathering evidence for presentation at hearing for Juan V. Corona, 37, charged in deaths. (UPI)

Murphy burial set in Arlington

ATLANTA (UPI)—The body of war hero actor Audie Murphy, killed in a fiery plane crash in the Blue Ridge Mountains of Virginia, was met by a military honor guard Tuesday night at an overnight stop en route home to Los Angeles.

funeral home operator said Dr. Walter Gable, deputy chief medical examiner for Virginia's Western Division, would release all the names when he finished his identification work.

Martinsville, Va. to inspect a plant when the crash occurred. With Murphy were Claude Crosby of Atlanta, president of Modular Management, a firm specializing in factor-built homes and motels; Raymond Prater of Chattanooga, Tenn., an attorney; Jack Littleton of Fort Collins, Colo., secretary-treasurer of the Lenoir Corp., and the pilot, Herman Butler of Crossville, Tenn.

His body, en route from Roanoke, Va., to Los Angeles, arrived by plane in Atlanta late Tuesday night. An honor guard of 20 soldiers from Ft. MacPherson accompanied the flag-draped casket to a hearse, which carried the body to a funeral home. It was to be put aboard another plane Wednesday for the last leg of the journey.

Murphy and his party were en route from Atlanta to Arlington.

The sixth passenger was tentative, identified as Jim Dodey, a friend of Littleton.

Labor contract probe launched

SANDPOINT, Idaho (UPI) — An investigation was underway here Tuesday into charges a contractor for the Forest Service has been using workers illegally in this country.

The story began to unfold Monday when six Mexican agricultural workers, none of whom could speak English, sent a note to Sheriff Robert Wilcox. The six were being held in the Bonner County Jail for illegal entry and were awaiting deportation action by the border patrol.

Neither Wilcox nor any of his staff could speak or read Spanish so Sandpoint Daily Bee editor Ken Miller was called to the jail.

Paul Gyles, contract specialist for the Kaniksu National Forest, said Tuesday the contractor who was awarded the contract for the tree planting in the area where the men were working was Ruben Baier, a volume labor contractor whose office is in Redding, Calif.

Mariner zips toward target

PASADENA, Calif. (UPI) — America's Mariner 9 spacecraft streaked toward Mars at more than 6,000 miles an hour Tuesday on its mission to map two-thirds of the Red Planet.

small midcourse correction will head Mariner 9 on its final trajectory to its rendezvous with Mars Nov. 14.

Ancient safe jimmied open, items inside found in order

WASHINGTON (UPI) — An anonymous safecracker has opened that "centennial safe" despite its lost keys and combination and it will be ready for a grand unveiling of its perfectly preserved memorabilia on America's 200th birthday.

missing, they apparently wanted to make sure the whole thing wasn't a hoax.

When Mrs. Deihm, a Civil War widow and New York publisher, gave it to Congress, she wanted the safe opened by the president on the nation's 200th birthday.

Rep. Bob Casey, D-Tex., who heard about the safe and started looking into its history, and George Hays of the Capitol architect's office, showed reporters Tuesday how they could readily open the safe.

Pick death shot, defense requests

SAN RAFAEL, Calif. (UPI) — Ruchell Magee's court-appointed attorney Tuesday asked Marin County Superior Court to order the prosecution to decide which of two shots killed Judge Harold J. Haley in the Aug. 7, 1970, Marin County shootout.

abrupt attempt to break out of Judge Haley's courtroom by holding the judge and others hostage. Magee is accused of taking part in the kidnaping and of firing a shotgun blast in the back of an escape van that killed the judge.

PREVIEW of centennial safe is taken by Rep. Bob Casey, D-Tex., after vault was opened by locksmith. Safe sat for about 80 years in crypt below Capitol dome. Mrs. Charles F. Deihm, publisher and Civil War widow from New York City, filled safe with memorabilia in 1876, specifying it not be opened until 1976. Glass plate covers interior. (UPI)

WASHINGTON (UPI) — A new government report which will put a monthly spotlight on changes in the middleman's share of the consumer food dollar says that share rose in April.

The spread between what the shopper pays at the super market and the farm value of a typical "market basket" of foods in April increased 1.4 per cent over the March level, the Agriculture Department reports.

In the past, the agency has reported this farm-to-retail price spread data only on a quarterly basis as part of a broader publication called the "Marketing and Transportation Situation." Now, however, Nixon administration farm officials are giving the spread greater potential public impact by pulling it out for separate publication every month.

The new monthly report, headed "Price Spreads For Farm Foods," was expected to be popular with farmer who frequently have complained that consumers plagued by rising food prices don't really appreciate how little the original producer is getting.

The April report said the retail cost of a market basket of farm foods in that month rose 0.2 per cent from March while returns to farmers went down slightly.

Farm-to-retail price spreads were sharply wider for lettuce and tomatoes and up by smaller margins for foods including meats, dairy and bakery products. The spread went down substantially for eggs, however.

Overall, the marketing spreads in April were 3.2 per cent wider than a year earlier.

The farmer's share of the consumer food dollar, which is reported only in units of whole cents, was unchanged at 38 cents in April despite the slight widening of price spreads. The farm share, however, was 2 cents smaller than a year earlier.

Changes in price spreads reported for April included:

- Choice grade beef, up 2 per cent from March and 0.8 per cent from a year ago.
- Pork, up 1.2 per cent from March and 7.9 per cent from a year ago.
- Milk, up 1.4 per cent from March and 2.1 per cent from a year ago.
- White bread, up 0.5 per cent from March and 4.9 per cent from a year ago.
- Lettuce, up 68.6 per cent from March and 10 per cent from a year ago.
- Tomatoes, up 38.9 per cent from March but down 6.7 per cent from a year ago.
- Eggs, grade A large, Down 16.3 per cent from March and 21.8 per cent below a year ago.

Wymore farm tops production chart

RUPERT — The Wymore Farm had the five highest producing cows in individual production, according to reports in the Dairy Herd Improvement Association for the month.

Also the Wymore herd was the second highest producing herd, according to Dolly Smith, tester for the Dairy Herd Improvement Association.

Mrs. Smith tested 10 herds totaling 1,009 cows, 887 of which were milking. Total daily production was 33,037.1 pounds of milk and 1,302.85 pounds of butterfat. Average daily production, including dry cows, was 32.6 pounds of milk and 1.29 pounds of butterfat. A total of 54 cows produced 1.3 pounds of butterfat or more.

Highest herd averages including dry cows were Gene Hansen, 29 cows all milking, 41.2 lbs. milk daily average, 3.4 lbs. butterfat, grade Holstein; Wymore Farm, 143 cows milking, 25 dry, 38.9 milk, 1.37 butterfat, grade Holstein; Joe Studer, 189 cows milking and 23 dry, 36.9 milk, 1.35 butterfat, grade Holstein; Aldo Dalljolo, 24 cows milking, and 4 dry, 42.2 milk and 1.33 butterfat, Vernon Hansen, 195 cows milking and 36 dry, 23.9 milk and 1.36 butterfat, grade Jerseys.
