

Nixon plans Red China visit

SAN CLEMENTE, Calif. (UPI)—In a dramatic announcement, President Nixon disclosed Thursday night he had accepted an invitation from Premier Chou En-lai to visit Red China sometime before next May.

The visit would mark a giant step toward ending the isolation of the world's largest Communist nation and welcoming it back into the international community.

The President told a nationwide radio and television audience that the trip was arranged during a secret visit to Peking last weekend by his chief national security adviser,

Dr. Henry A. Kissinger.

Kissinger, then on a round-the-world trip, was said to have been recuperating from a minor ailment common to travelers in Asia at a mountain resort 50 miles from Islamabad, Pakistan, when he actually was in Peking.

"As I have pointed out on a number of occasions over the past three years, there can be no stable and enduring peace without the participation of the Peoples Republic of China and its 750-million people," the President said.

"I have taken this action because of my profound conviction that all nations will gain

from a reduction of tensions and a better relationship between the United States and the Peoples Republic of China."

Nixon was scheduled to meet today with his National Security Council, his top foreign policy forum, to discuss a broad range of diplomatic problems.

Nixon would become the first U.S. President to visit Communist China since the Communist regime was proclaimed on Sept. 21, 1949. The United States has not had diplomatic representation with China since shortly after that time.

The President made the announcement in a terse, three-paragraph statement identical

to one issued simultaneously in Peking. It said:

"Premier Chou En-lai and Dr. Henry Kissinger, President Nixon's assistant for national security affairs, held talks in Peking from July 9 to 11, 1971.

"Knowing of President Nixon's expressed desire to visit the Peoples Republic of China, Premier Chou En-lai has extended an invitation to President Nixon to visit China at an appropriate date before May, 1972. President Nixon has accepted the invitation with pleasure.

"The meeting between the leaders of China and the United States is to seek the normaliza-

tion of relations between the two countries and also to exchange views on questions of concern to the two sides.

He amplified his reasons for making the move, giving assurances to the Republic of China that its special relationship with the United States would continue to exist.

"Our action in seeking a new relationship with the Peoples Republic of China will not be at the expense of our old friends. It is not directed against any other nations," he said.

"We seek friendly relations with all nations. Any nation can be our friend without being any other nation's enemy."

Commission asks calm

By BONNIE HAIRD JONES
Times-News Writer

TWIN FALLS — County commissioners in a joint statement today called for an end to verbal exchanges over hospital operations and a unified effort to assure the community the best possible medical facility.

The statement followed comments earlier this week in which the county commissioners were critical of hospital administration.

"It is unfortunate," the commissioners said, "constructive criticism designed to bring about a re-adjustment and corrective measures instrumental in providing the best possible medical services to residents of this area has created apprehension and caustic remarks regarding operation of Magic Valley Memorial Hospital.

"It is also regrettable an incident on Sunday afternoon, July 11, resulted in a call from a member of the medical staff which prompted the presence of the hospital board and county commission chairman at the hospital regarding patient use of the intensive care unit," the commissioners said.

"However, it is certainly not the intent of the county commissioners to berate or make derogatory comments against any person or persons connected with the hospital.

"County commissioners have a responsibility to the residents of Twin Falls County in the over all expenditures of their tax money. While at this time tax levies are producing only about eight per cent of the \$2.9 million annual income of the hospital, real property taxpayers are the backbone of the whole operation.

"The taxpayers provide the aggregate assessed valuation necessary to cover deficits and provide a tax base for bond

issues. Commissioners are named co-defendants in any resulting liability or legal actions.

"It is our firm belief the recent recommendations made and adopted by the hospital board will be a great step forward in the improvement of business office operations when they are put into use," they continued.

"The professional medical people must be commended for their loyalty to Irene Oliver, hospital administrator, and it is a recognized fact she is an exceptional and outstanding woman dedicated to the patient care and medical needs of the community.

"Criticism was not made to place a stigma or reflect on her personal character, but to bring to the attention of the hospital board and administration the many complaints county commissioners have received from the public.

"Comments are welcome by all news media and we feel factual and accurate information is a great help in establishing good public relations essential to the wellbeing of our county," the commissioners continued.

"We commissioners feel confident that by uniting as quickly as possible, all factions concerned with the hospital can work toward providing the highest quality medical facilities at Magic Valley Memorial Hospital. We do not wish to become embroiled in verbal exchanges through the news media and lose sight of our objectives," the statement concluded.

Commission chairman, W. L. (Bill) Chancey, said he and commissioners Merl E. Leonard and Heber Loughmiller concur in the statement explaining their position.

War reflections

Strike halts Gem rail line

WASHINGTON (UPI)—The United Transportation Union struck the Southern Railroad and the Union Pacific today in a dispute over work rules.

A marathon all-night round of negotiations broke off but more talks were arranged for later in the day in Washington.

"The strike is on," said UTO President Charles Egan as union-management talks with federal mediators broke up at 6:25 a.m. EDT—more than 12 hours after they began.

Spokesmen for the two railroads said picket lines went up as planned at 6 a.m. local time as UTO members—brakemen, switchmen, conductors and other train-operating employees—refused to work.

Passenger service, as usual, was the first to close down. Efforts were being made to keep freight moving on the two

lines, but a spokesman for Southern said all its operations likely would be halted within 24 hours.

At issue in the selective strike are work rules, many of which have been in effect since the turn of the century even though the railroads have automated many operations and otherwise modernized. The union has continually fought to continue the rules, arguing many of the jobs are necessary for safety purposes.

Area RR workers on lines

TWIN FALLS — While rumors of progress in negotiations were being circulated among picketers at Mountain Bell offices in the Magic Valley, another strike put pickets at Union Pacific Railroad offices today, halting most railroad activity.

At the UPRR freight offices in Twin Falls, two pickets were seen marching this morning. Both declined to give their names, or details of the strike, saying that the union local is located in Pocatello and only union officials could speak for the members.

A railroad spokesman at the UPRR freight depot in Twin Falls admitted that the strike has halted all railroad activity, including all freight shipments into and out of the Magic Valley.

"We're stopped dead," he said. Only a few supervisory personnel were on hand to answer telephones today in UPRR offices throughout the area.

In Pocatello, railroad officials were silent. An unidentified spokesman said only that management personnel "are not accepting any calls." He refused to identify himself or provide any details.

National product grows

WASHINGTON (UPI)—The nation's total output of goods and services grew by \$19.7 billion in the second quarter of this year, but more than half of the increase resulted from the inflation that continues to plague the economy.

The Commerce Department said today that the Gross National Product (GNP) reached an annual rate of \$1.04 trillion in April-through-June period. Three-quarters of the rise was attributed to personal consumption.

The report said prices increased during the same three months at an annual rate of 4.2 per cent. That was the lowest inflation since the third quarter of 1968 but still was higher than the approximately 3 per cent President Nixon had set as a goal.

The actual output of goods and services, exclusive of the effect of inflation, increased 3.6 per cent in the second quarter.

Except for an 8 per cent first quarter advance swollen by recovery from the auto strike late last year—the growth was the greatest since the third quarter of 1966.

But it was below the 4 per cent growth figure that many economists believe is required to prevent an increase in unemployment, and was well below the advance required to reduce the jobless rate—now at a 10-year high.

Fed hikes bank borrowing rate

WASHINGTON (UPI)—The Fed Chairman Arthur F. Burns has been urging Nixon to combat cost-push inflation—where higher wages and prices keep bringing more of the same—by appointing a wage-price review board to adopt some other form of "incomes policy."

"If we are to restore price stability with high employment in our economy, I see no immediate alternative to a cogent incomes policy," Burns said in testimony before the House-Senate Economic Committee two weeks ago.

Incomes policy is a broad-term covering most direct government action against inflation ranging from mandatory wage-price controls to calls for voluntary restraint. It contrasts with continuation of substantial cost-push inflation in the austere federal budgeting or by tight money.

Hospital staff supports boss

By BONNIE HAIRD JONES
Times-News Writer

TWIN FALLS — In a statement issued today, Magic Valley Memorial hospital employees expressed concern over morale at the institution and loss of public confidence as a result of recent criticism and publicity given that criticism.

A letter, signed by 135 of the 267 full time and 30 part time employees of Magic Valley Memorial Hospital came from the employees today. Assistant Administrator James Rosenbaum said. He said he believes the 135 would be in addition to the 31 nurses who issued comments yesterday and explained about 35 persons are currently on vacation.

Rosenbaum said he did not solicit the action but understood it was initiated by staff members themselves.

In their statement, the employees said publicly given the

county commissioners' criticism of the hospital has caused the public to lose confidence in the medical center. They were also critical of the report on the embroiled situation of \$18,000 in hospital funds last month prior to an arrest being made in the case.

"We employees of Magic Valley Memorial Hospital believe those who attempt to criticize our administration and operation should become more familiar with the facts. Through cooperative team work and sincere endeavor, we hope we have given good patient care to every patient. That and our support of the administration is our goal for the future.

"The publicity of events of the hospital has left us depressed and confused. We fear the verbal attack on the hospital will result in loss of public confidence and eventually decreased efficiency."

Mills cites cost of welfare plan

SUN VALLEY (UPI)—"The rolls," Mills told the state leaders.

Some of the lieutenant governors and other state officials have expressed fears the Mills welfare proposal might wind up costing the states more money than the relief it would furnish them.

Under the Mills provision, about \$1.6 billion would be available to the states as a share of their current welfare costs. The Arkansas Democrat, chairman of the House Ways and Means Committee, said his panel also is working on a proposal for a similar assumption of a greater share of the cost of Medicaid.

Burned body said found in TF alley

TWIN FALLS — The death of a Twin Falls man whose body was found in an alley in Twin Falls Thursday is still under investigation and Clancy Edwards, Twin Falls County coroner, said attempts are being made to determine how the man received burns over a large portion of his body.

Edwards said the body of Joe Aleck, 65, was found about 6 p.m. in weeds at the side of an alley between Fourth Avenue West and Third Avenue West. The coroner said today an autopsy probably will be ordered in the death, but he is awaiting further information before requesting one.

The burns, which covered the man's body from his waist to his feet, could have been caused by hot water, steam or gasoline or solvent fumes, Coroner Edwards said.

He said he did not believe the burns were the cause of death. He said Aleck had been in ill health and was being treated by a Twin Falls physician. Aleck had reportedly been seen about 5 p.m. Thursday at the entrance to the alley.

Nixon China visit big step toward foreign policy goal

By STEWART HENSLEY
UPI Diplomatic Correspondent
WASHINGTON (UPI)—President Nixon's announcement of an impending visit to Peking represents a large and dramatic step towards fulfillment of major foreign policy objective he set for himself more than two years ago—normalization of relations with the Peoples Republic of China.

The fact that such a visit has finally been arranged could have considerable impact on the international climate, even before it takes place.
The Soviet Union, Communist North Vietnam and a number of other countries will be going over the combined announcement between now and Nixon's trip to determine just what the possibility of improved relations between Peking and Washington may mean to them.

The Soviet Union has viewed with some apprehension the efforts of the United States to move toward re-establishing formal relations with Communist China, which were broken off in January 1950 when the administration of President Truman accused the Communists of mistreating American diplomats and pulled them all out.

Russia, locked in an ideological and geographical quarrel which has raised tension along its entire 4,500 miles border with China, has tended to look with suspicion upon any moves for rapprochement between Peking and Washington.

Russian commentators have mentioned the possibility of "Sino-American collusion" but without specifying just what form they believe this might take.

As for the Vietnam conflict, it is not impossible that the fact that Nixon has received an invitation to visit Peking may improve the prospects for headway in the so far sterile Paris peace talks with Hanoi and the Viet Cong.

Hanoi, dependent upon Peking for a considerable amount of its war supplies, nevertheless has no desire to become dominated by China. It will be interesting to see whether there are any great changes in the diplomatic tactics of the North Vietnamese.

So far as the United States is concerned, it can be said with certainty that the Nixon administration will exercise greater caution to avoid any incidents which might sabotage the proposed Nixon visit to Peking. Nixon well remembers how President Eisenhower's "crusade for peace," the high point of which was to be a June 1960 visit to Moscow, was destroyed by the downing by the Russians of a U2 spy plane deep in Russia.

Killer's portrait drawn

GRASS VALLEY, Calif. (UPI)—A composite portrait of the maniac who slashed two campers to death with a sickle shows a heavyset man with a seamed face and powerful jaw muscles.

The composite was released by Sheriff Wayne Brown who also said he had a piece of physical evidence which could be used to find the killer. He described the evidence as "an object" but refused to elaborate.

"If we ever catch the right man, it will link him," he said. Meanwhile deputies checked on foot along the river, hunting for other clues.

The portrait showed a middle-aged suspect with receding hair combed straight back and bags under his eyes.

Brown said the picture was compiled through extensive interviews with Kenneth Garbe, 20, and his wife, Jean, 25. The pair escaped with knife wounds Monday when the killer struck at a campsite along the Bear River. Brown said he released the

portrait "with reluctance" but hoped it would be of some value in efforts to apprehend the slayer who escaped into the wooded Sierra Nevada foothills after the attack.

Meanwhile, residents of the heavily wooded area were arming themselves and locking and bolting doors in a region where people are accustomed to trusting their neighbors.

"People up here are just terrified," said District Attorney Harold Berliner. "This is the kind of country where people are used to leaving their doors open and letting their children sleep in the back yard."

Killed in Monday night's attack were Mrs. Donna Fitzhugh, 28, Ontario, Calif., and John Simmons, 29, Weimar, Calif.

Mrs. Martha M. Parker, 25, Walnut, Calif., remained in critical condition Thursday but doctors said she was showing slight improvement.

Mrs. Parker was nearly decapitated in the savage onslaught during which the killer, "laughing, grumbling and growling like an animal," roamed through the campground with a sickle and a machete.

Crash kills Nampa man

HOMEDALE (UPI)—Robert Rodriguez, 16, Nampa, was killed Thursday afternoon when he apparently lost control of his vehicle three miles east of Homedale on the Homedale Road.

John Denson, Canyon County Sheriff's Department officer who investigated the accident, said Rodriguez' vehicle rolled over after leaving the road and he was probably killed instantly.

It was the 141st fatality on Idaho highways this year, 10 less than at the same time last year.

Smith asks law change

By G. A. (GUS) KELKER
Times-News Editor
TWIN FALLS — Leon Smith, Twin Falls County prosecuting attorney, Thursday told members of the Kiwanis Club the new Idaho drug law is "hard to understand" and "hard to enforce because there is little incentive to do so and legislators should change the possession part of the act."

He was not critical of the whole drug act as now related to Idaho but did say it was a relatively weak law. He said the problem is that under the old law, possession of hard narcotics could be prosecuted as a felony while under the new law possession is looked upon as only a misdemeanor, punishable on conviction by a fine of only \$300 or six months in the county jail.

THREE CREEK — For many persons, the sale of the frame Three Creek School brings back memories of casting their first ballot or attending community dances as well as elementary school days.

The building — to be sold at auction at 10 a.m. Saturday — has served as a polling place for Owyhee County community, a dance hall, headquarters for the 71 Livestock Association, and as a community center.

The school to be sold Saturday contains one large room with a library and another smaller room. The building has been remodeled since it was originally constructed and an indoor lavatory was installed about three years ago.

The decision to build a steel school building was made because woodpeckers in the area caused considerable damage to frame structures.

Midwestern tent show opens theater season

By LORAYNE SMITH
Times-News Writer
TWIN FALLS — The Antique Festival Theatre's eighth season opened in Magic Valley Thursday night at Frontier Field with a refreshing presentation of a tent show of the Midwest.

Health Association. Thursday night's opener is set in the yard of a country school on an August day and evening when the cornfields are high.

and Toby becomes respected instead of the town bumpkin after licking the spoiled banker's son.

The simple story set in Lincolnville, Iowa, near the Iowa-Missouri border, with its lovable figure of Toby Tolliver, aptly played by Armin Shinerman, is a heart-warming experience.

When the hero, a romantic gypsy boy convincingly played by John Chapot, falls in love with the school teacher, portrayed by Catherine Schmidt, she is faced with the age-old hostility which always occurs when anyone marries outside his own group.

This play, written in 1926, was one of the three plays credited with the largest number of performances in tent repertoires.

The repertory theater will present a 15th century English comedy, "Roister-Doister," at the Wendell High School football field tonight and then repeat "Where Is My Teddy?" Saturday night at the Fairfield school field.

The traveling performances, bringing the fun of live theater to people at the grass-roots level in their own home town parks and schools is made possible with support from the Idaho Commission on Arts and Humanities and the National Endowment for the Arts, Washington, D.C.

Termed "Toby plays" because of the happy, bumbling character of that name, these tent shows are one of the few truly indigenous contributions to the American theater.

The Recall

We go along with the contention of the State Senator and State Representative from Bonneville county that the recall movement against them does, in fact, constitute harassment.

We The People -- thought this was grounds for the recall. The movement started five months ago. We were of the opinion the recall law was to provide a means for the removal of Legislators who were suspected of being guilty of malfeasance, dishonesty, dereliction of duty, drunkenness or having committed a felony.

WASHINGTON -- India's self-righteous fulminations about U.S. arms shipments to Pakistan are characteristically hypocritical, inconsistent and misleading.

cannot be used outside of these countries. Some U.S. diplomatic expenses and other relatively minor outlays in these countries are financed with them.

the middle -- billions in economic aid from the U.S. and billions in military aid from Russia -- is unctuously considered neutralism.

But when small neighbor Nepal tries to pursue the same neutralist course, the Indian government is irately indignant and threatens to crack down by refusing to permit the U.S. to use a little of the billion in rupee counterpart funds for economic aid to Nepal.

If India is unyielding and persists in refusing to allow U.S.-owned counterpart rupees to be used for economic aid to Nepal, the U.S. may have to either fork over more dollars or cut down on aid to Nepal.

Of course, it also could cut down on aid to India. There is strong sentiment for that in Congress. Illustrative are the following blunt views of Sen. Vance Hartke, D-Ind., ranking member of the Finance Committee.

"We have spent billions to keep the Indians from starving, and Russia has spent large sums to arm them. If that isn't breeding war, I don't know what is. If the Kremlin can arm India, then I say it can also feed India. It's time our country took a realistic look at such inconsistencies and acted accordingly."

Pap Test

Dear Dr. Thosteson: My report from a recent Pap test read: "No cancer cells present." Then stamped across the bottom of the report was: "Inflamed (tissues noted)."

to become plugged is not easy to say, except they are very small, hence rather easily plugged.

Dear Dr. Thosteson: If emphysema is detected through X ray before there are any symptoms of coughing and congestion, and the patient stops smoking at that stage, with plenty of fresh air and breathing exercises, can the disease be checked -- or held dormant?

Why can't the diseased or damaged parts of the lungs be corrected by surgery? -- C. J. G.

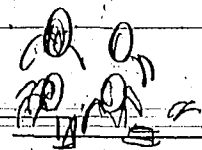

Under the circumstances you describe, the patient's chances are pretty good. But you can't correct emphysema by surgery because merely removing damaged tissue doesn't mean that you replace it with active tissue -- Emphysema usually affects all of the lung substance and not an isolated segment. I gather that you don't fully understand what the disease is all about, and I recommend that you send 20 cents in coin and a self-addressed, stamped envelope for my booklet, "How to Control Emphysema."

Dear Dr. Thosteson: At what age are you supposed to start to potty-train a baby? My sister-in-law seems to think you start at four months. My grandmother told me she was wrong, and I think so. Who is right? -- J. V.

I don't know whether grandmother is right, because you didn't tell me what she thinks is the right age. However, at four months the baby is too young to have any idea what it's all about, and the result will be frustration for both infant and mother.

At 18 months to two years, you'll get better cooperation.

The Quicksands

WASHINGTON (NEA) -- There is no more perilous exercise today than the effort to build firm judgments about Southeast Asia on the emotional quicksands of Vietnam.

in Vietnam encouraged resistance to the takeover. Some Indonesian officials say we might have had indirect effect, by perhaps contributing to a "climate" heightening the non-Communists. We can never really be sure.

ANDREW TULLY

Sacred?

WASHINGTON -- A Republican banker expressed mock horror the other day at news that J.P. Morgan & Co. reported a decline in earnings.

to employ language which for him is almost rowdy. Mansfield also called for wage-price controls on a temporary basis, and was joined in this demand by House Speaker Carl Albert.

It was not much of a joke, but then few bankers dispense humor even in the best of times. Besides, banks avoid becoming pockets of poverty by raising their interest rates whenever the going gets sticky.

Albert was not speaking from private information. It is common conversation that creation of a review board has been urged by Treasury Secretary John Connally, Federal Reserve Board Chairman Arthur Burns, and Paul McCracken, chairman of the Council of Economic Advisers.

Those nations' secret government files may ultimately provide some clues as to what might have happened after 1965, but they will be only rough guides. Leaders may not in fact do what they think or say they will do in critical situations.

Economically, everything has been going wrong for Richard Nixon. Aside from the combination of inflation-recession-unemployment, there has now been another increase in the prime lending rate by major banks -- after a period during which the rate took several drops.

Moreover, if any of the "domino" countries has to face this dilemma in the years ahead, its answer may not be the same one it would have given in 1965-68. None of these lands is what it was then.

Naturally, the Democrats are having a ball with this one. Even our kindly Senate leader, Mike Mansfield, has accused the administration of using "double talk" on unemployment figures and of fighting inflation "with racy predictions."

That was pretty flamboyant rhetoric for Mansfield, who is noted for his measured pronouncements. Clearly, Mike has become concerned enough

Senate GOP Leader Hugh Scott has been on the President's back to do something "before you lose next year's election for all Republicans."

Looking for a husband, girls? Australia's the place to go. It needs girls -- by the boatload. The situation was created by the hundreds of thousands of migrants who went to Australia during the last decade. Only 25 per cent were women between the ages of 15 and 44.

European migrants marrying Australian girls. But that has not occurred to the degree expected. For the many migrants who settled in small towns and farming areas to engage in agriculture, there simply weren't enough girls available.

Out Of The Past

Three Island Crossing -- originally Three Island Ford -- at Glenns Ferry, is mentioned in a number of diaries kept by the pioneers who came this way back when.

and dreary country between the western borders of the United States and the shores of the Pacific.

In notes she wrote on August 13, 1836, Mrs. Marcus Whitman told of crossing the Snake at that point after writing that the 15 miles prior to reaching the Ford were "the worst route in all the journey for the cart." Then she tells of the crossing in which two of the tallest horses were selected to carry "Mrs. Spaulding and myself over."

Then on September 24, 1844, Edward Evans Parrish wrote: "we crossed the river safely after noon today and camped on a fine bed of grass within sight of the ford. The river is rapid and the water middling low. The bottom is gravel of the prattiest kind and the water is clear."

It was in 1843 that Overton Johnson and William H. Winter wrote: "Twenty-seven miles below Salmon Falls we came to the crossing where the companies which preceded us had passed over to the north side, which is much the nearest and best way, but we, having attempted the crossing and finding it too deep, were obliged to continue down on the south. This is perhaps the most rugged desert,

Shocking, isn't it? The Snake River clear! But that's the way it was in the old days at the spot that is now Three Island State Park.

Governors ask guard

JACKSON HOLE, Wyo. (UPI)—With a job at House Ways-and-Means Chairman Wilbur D. Mills, Western governors Thursday pleaded with the Nixon administration and Congress to protect their state governments from the growing power of big cities. "If current trends continue they're going to eliminate state governments," Gov. John A. Burns of Hawaii told the windup meeting of the annual Western Governors Conference. The governors particularly criticized Mills' proposal to

bypass the states and share \$3.5 billion in federal revenue with cities and heavily populated counties. Referring to President Nixon's welfare reform bill, which passed the House with Mills' backing, Republican Gov. Dan Evans of Washington declared: "If Wilbur Mills thinks there is a substitute for revenue sharing (with the states) either he can't figure or he's trying to fool the people. The idea that welfare reform is a substitute for revenue sharing is going to break our states."

Senate defeats pay lid

WASHINGTON (UPI)—The Senate Thursday readily beat back an attempt to limit to \$20,000 the annual farm payment any farmer could collect on each of his cotton, wheat and feed grain crops. The 57-28 vote rejecting the \$20,000 annual per crop limitation left in effect the \$55,000 ceiling that just went into effect this year. But the House, which approved a \$20,000 ceiling earlier this year, appeared certain to put up a stiff fight for the lower figure.

Mills himself was in Sun Valley, Idaho, Thursday, addressing the National Lieutenant Governors Conference, where another governor, Warren E. Hearnes of Missouri, took another crack at him. Hearnes, also a speaker to the lieutenant governors, said the nation's governors would not agree to any revenue sharing plan incorporating direct grants to the cities.

Sen. Birch Bayh, D-Ind., who said he was a farmer himself, offered the amendment to lower the payment ceiling as the Senate considered a \$13.1 billion appropriations bill for the Agriculture Department and environmental and consumer protection programs during the fiscal year that began July. Bayh said that before the \$55,000 per crop limit was imposed, seven big farms received more than \$1 million a year in subsidy payments in 1969, and 54 others collected between \$250,000 and \$500,000. The \$55,000 ceiling had not worked, he said, because many big landowners simply split up their holdings and collected the limit on each new farm unit.

Loan looks up

WASHINGTON (UPI)—The Lockheed Aircraft Corporation's chances of getting the \$250 million government-guaranteed loan it needs to stay in business have been considerably enhanced. Senate Democratic Leader Mike Mansfield, in a change of heart, has scheduled Senate debate on the Lockheed bill for next Thursday or Friday. He says its prospects of passing are improved. The bill would create a three-man board with authority to guarantee government repayment of up to \$3 billion in bank loans to troubled businesses whose collapse would hurt the national economy or the economy of a region. The Treasury says Lockheed's application would be the first considered. Sen. William Proxmire, D-Wis., the chief opponent of government help to failing businesses, sounded discouraged in an interview when asked about his prospects of engineering the bill's defeat on the Senate floor. He said he did not know if he could muster a Senate majority against it.

Epidemic strikes Sooners

AUSTIN, Tex. (UPI)—Swarms of mosquitoes and biting flies carried an epidemic of horse-killing sleeping sickness northward through Texas today, and Oklahoma officials said they fear it has already reached their state. The disease, which has raced through Mexico and into Texas killing at least 6,000 horses and hospitalizing more than 1,000 persons, marched on despite massive inoculations and insecticide spraying.

"We're at war," said Mexican President Luis Echeverria. He toured disease-ravaged northern Mexico and invited the United States to join a campaign to stop the illness. In Washington, State Department sources said unofficially Mexico contacted them Thursday and the two countries agreed to set up a meeting. Meanwhile the U.S. Senate approved a measure to pump \$1 million into Texas to help fight the disease. The proposal now faces House action. A federal quarantine on the estimated 400,000 horses in Texas remained in effect, and state police helped enforce a state restriction barring movement of horses between counties.

States across the country banned Texas horses from their borders, including California, Georgia, Michigan, Utah, Arizona and all states bordering Texas. Most of the harm was caused on the Mexican side of the border, but horses in south Texas dropped dead by the hundreds. Unofficial sources said at least 500 horses in the lower Rio Grande Valley suffered from the disease, Venezuelan Equine Encephalomyelitis. Doctors say it kills 80 per cent of infected horses, but is only about as serious as the flu when it strikes humans.

Lockheed officials have said that would be too late. The firm's agreement with Rolls-Royce expires Aug. 8. Rolls is to make the engine for the Lockheed L1011 TriStar jetliner, the commercial plane

whose mounting costs threatened to carry Lockheed into bankruptcy. But after Rolls went bankrupt in February, the British government said it would save Rolls only if the U.S. government agreed to save Lockheed from bankruptcy to assure a market for the new jet engine. Lockheed's Senate supporters said Senate approval of the emergency loan authority would enhance the bill's prospects in the House.

Fund boost advocated

WASHINGTON (UPI)—Sen. Frank Church, R-Idaho, urged a \$2.2 million increase Thursday in funds available to the Office of Economic Opportunity to finance senior citizens public service projects.

Appearing before the Senate Appropriations Committee, Church said the extra funding would go to the OEO's Operation Mainstream, which contracts with national organizations to provide community service projects by the elderly Americans. Church, who said Operation Mainstream had "literally been a lifesaver," said thousands of disadvantaged older persons had been able to help themselves out of poverty by providing urgently-needed public services in their communities.

Star rank to blonde

WASHINGTON (UPI)—A pert blonde who joined the military because she was flat broke today became the first Air Force woman general. Jeanne M. Holm received her new rank of brigadier general at a Pentagon ceremony. She turned 50 three weeks ago but still looks in her thirties as she putters around her cabin cruiser in Bermuda shorts or whisks down the ski slopes near her condominium at Vall, Colo. Miss Holm was a silversmith before World War II brought her into the Army at the age of 21. With the end of the war she left the service for Lewis and Clark College in her hometown of Portland, Ore.

Arrest probe asked

MOUNTAIN HOME AFB (UPI)—A man who claims he was illegally arrested by Air Force security policemen said Thursday he will allow a "reasonable time" for investigation into the matter and action against the security guards. Mark Lane, author of the best-selling "Rush to Judgment," a criticism of the Warren Commission report on the assassination of President John Kennedy, earlier said he would demand legal proceedings against Base Commander Gilbert Hereth in 48 hours. But Thursday Lane said he would wait to see whether the Air Force investigates the incident.

Dam ban endorsed

MCCALL (UPI)—The Governor's Advisory Council on Comprehensive Health Planning voted Thursday to endorse the moratorium pending in Congress on dam construction on the Middle Snake River. The council also endorsed a resolution to seek an additional \$1 million annually from the state legislature for a dedicated water pollution control fund, and approved with a one-vote margin of resolution to increase from five to seven the number of members on the State Board of Health. The moratorium resolution said there is insufficient knowledge of the effect impounding water would have on the state water quality. It asked congress to take whatever steps necessary to pass the moratorium supported by Idaho Senators Frank Church and Len Jordan, in order to gain time to study the issue.

Agent triggers tragic reaction chain

The Riddle of Angela Davis
EDITOR'S NOTE: This is the last of five articles telling the life story of black militant Angela Davis.

By JACK V. FOX
 United Press International

If a UCLA student named Wilfredo Divale, an FBI underground agent, had not written in a moment of pique to the college newspaper fingering Angela Davis as a Communist party member, she might be teaching philosophy classes there today.

The article appeared in the Daily Bruin on July 1, 1969, and it set off a chain of reactions culminated by her indictment for murder, kidnaping and conspiracy in the San Rafael Courthouse tragedy.

Miss Davis had been hired as an acting assistant professor in the UCLA Philosophy Department for the term beginning that fall at a salary of \$10,260. Her academic qualifications were impeccable. Her other activities were not, however, of the nature to endear her to white parents of the middle

class sending their children off to freshman year.

She was hired at UCLA by the head of the Philosophy Department, Prof. Donald Kallish. Kallish says he did not know she was a Communist party member at the time but that he would have hired her anyway.

The board of regents met on Sept. 19, 1969. Gov. Ronald Reagan was leader of the faction demanding that Miss Davis be fired. Lt. Gov. Robert Flinch, a close associate of President Nixon and later to be

appointed secretary of health, education and welfare, went along.

After a heated, hours-long discussion, the regents ordered Miss Davis' appointment terminated.

Miss Davis, with the backing of the overwhelming majority of the UCLA faculty, went to court to fight the dismissal. One month later, on Oct. 20, County Superior Court Judge Jerry Pachit struck down the regents' action. He ruled that all policies against hiring Communists passed in the 1940s

and '50s had been declared unconstitutional.

Although she did a job above reproach in her classes, Miss Davis had become an international figure overnight. There were literally hundreds of requests for her to speak, to back black causes. And then she became deeply and emotionally involved in the case of the "Soledad Brothers."

Soledad is a Spanish word meaning solitude, loneliness, homesickness, seclusion. Soledad also is the name of a California state correctional institution south of San Francisco. The inmate population is 2,570—30 per cent Mexican-American and 70 per cent black.

In January, 1970, a brawl broke out in an exercise yard among black inmates. A tower guard blew a whistle, they began shooting. Three black men were killed and one guard was wounded.

Three days later a 25-year-old guard, John DeJung, was beaten, dragged up three flights of concrete steps and tossed head first to his death on the cellblock floor below. Beside him was a note: "One down, two to go."

Three convicts, George L. Jackson, 28, John Cluchetto, 28, and Flietta DeJung, 25, were indicted for Mills' slaying. They became the "Soledad Brothers" and Angela soon thereafter became their public champion.

part-time private investigator and pen-pal.

George Jackson's younger brother, Jonathan, 17, became her almost constant companion and bodyguard.

On June 19, 1970, the board of regents by a vote of 16 to 6 declined to renew Angela's contract for the next year. The report of the ad hoc committee this time made no mention of Communism but said her "extra university commitments and activities interfere with her duties as a member of the faculty."

What Miss Davis did after that is, of course, the subject of the charges against her.

On the record is the fact that on Aug. 7 her young friend and bodyguard, 17-year-old Jonathan Hale, carried four guns. Holding the courtroom at gunpoint, he freed James McClain, 37, a San Quentin convict on trial for assaulting a guard, and Russell Magee, 31, another convict—willing to testify. Magee went outside the courtroom and freed another prisoner, William A. Christmas, 27, also waiting to testify.

Wiring a shotgun around the neck of Judge Haley, they took him, Assistant District Attorney Gary W. Thomas, and three women jurors as hostages, intent on escaping in a yellow rental van waiting outside the

Andrus' \$30,000 ranks in middle pay range

BOISE (UPI) — The \$30,000 per year received by Gov. Cecil D. Andrus places him just about in the middle for yearly salaries paid to chief executives in the nation.

A check with a 1971 almanac shows 25 governors receive less than Idaho's governor, five receive identical salaries, and 19 receive more.

Andrus and the state's other elected officials benefit from the salary hike approved by the Idaho Legislature prior to the 1970 elections.

Idaho Gov. Jack Murphy receives \$7,000 per year — plus additional pay as Senate president, a legislative officer.

Attorney General W. Anthony Park and superintendent of public instruction D.F. Engelking each receive \$18,000 per year, while State Auditor Joe R. Williams, State Treasurer Marjorie Ruth Moon and Secretary of State Pete Cenarrusa are paid \$17,000 per year.

Personnel commission records show D.E. "Skip" Chlberg received as of July 1 both a salary increase and a title change, in addition to becoming an exempt state employee.

As deputy budget director he received \$13,788 per year, just slightly more than former budget director Charles Holley. As

assistant to the director of Administrative Services he will receive \$14,472.

One of the newer state officials is William Hepp, investment trustee chosen by Idaho's Investment Board. He will receive \$20,000 per year to oversee day-to-day investment of the state's endowment funds.

Director of Aeronautics Darrell Manning is paid a yearly salary of \$15,204. He was chosen earlier this year by the Board of Aeronautics and originally received the \$13,128 per year salary also given to long-time director Chet Moulton.

Some new state officials are receiving salaries higher than their predecessors.

Mrs. Kay Pell, director of Special Services, is paid \$15,204, compared to the \$12,504 salary to former director Herbert Whitworth.

The director of the state planning and community affairs agency, Glenn Nichols, was hired April 26 at \$14,500. Acting Director Marvin Mianer received \$13,788 while he held the spot.

Agriculture Commissioner Oscar Arsteln was listed in personnel commission records at \$16,872 as of July 1. Former commissioner Stanley Trenhallo was paid \$14,472. Labor commissioner Bartlett C. Brown receives

\$16,872, compared to the \$14,077 compared to former commissioner W. L. Robison.

Other new state officials are receiving salaries identical to those paid former officials.

Acting Finance Commissioner Tom McEldowney is paid \$19,500, acting director of Administrative Services Robert Lenaghten receives \$16,872, and acting Commerce and Development Secretary Lloyd Howers receives \$14,500.

The new administrator of the Division of Building Services, Thomas F. Payne, is paid \$11,904, the same as his predecessor, Mines Inspector W. Carl Griner

receives \$12,500, commissioner of Law Enforcement John Renger is paid \$16,080, and Public Works Commissioner Max Boesiger receives \$14,472.

The superintendent of the liquor dispensary, Bill Webster, was hired March 9 at \$13,788, but on July 1 was boosted to \$15,204.

The administrator of the communications division, Barrett Rainey, was hired at \$14,472 as of June 1. Martin Peterson, Human Resources Development Council, was hired at \$10,800 as of June 7.

State officials who have

received pay increases recently include Insurance Commissioner John R. Blaine who on July 1 went from \$18,872 to \$17,724; Personnel Commissioner Director George Murphy, who went

from \$17,724 to \$18,812 on April 1; State Employees Retirement System executive director Thomas Terrell, \$19,548 per year to \$20,520 per year on April 1; Doyle Scott, soil conservation

Commission, \$11,340 to \$11,904 on July 1; Larry Laughridge, Veterans Home, \$13,128 to \$13,788 on April 1; and Roy Irons, vocational education, \$16,500 to \$17,250 on July 1.

TWIN FALLS — The Christi Crux Chorale, a 13-member vocal ensemble from Concordia College and high school, Portland, will present a concert at both morning services Sunday at Immanuel Lutheran Church, 2055 Filer Ave. E., Twin Falls. The presentations, at 8 a.m. and 11 a.m. will feature a folk musical entitled "It's the Lord's Thing." The entire program will be of an informal nature, including folk songs, audience participation and several more traditional choral selections. Immanuel Lutheran Church will serve as host to the chorale members for four days during which time members of the group will visit many of the families of the congregation, according to Lee Huebner, teacher at the Immanuel Lutheran school, who is local contact organizer for the group. Membership of the chorale is composed of selected members of the school's two touring choirs. Their appearance in Twin Falls is part of an eight-week tour which began June 5 and will end on Aug. 1. Their itinerary will include cities in eastern Washington, eastern Montana and southern Idaho. Their concluding appearance will be in Oregon City, Ore. Concordia college and high school are operated by the Missouri Synod of the Lutheran church, offering fully ac-

Board to scan fund requests

BOISE (UPI) — Budget requests of state institutions of higher learning for 1972-73 will be determined Tuesday and Wednesday in Boise by the State Board of Education. Joseph D. McCollum, Twin Falls, president, said the public schools budget will not be acted upon until the September board meeting. He said it would take until then to gather the necessary information from the school districts. Budgets of other agencies under the board control also will be taken up later. These include State Department of Education, State School for the Deaf and Blind, State Youth Training Center, vocational education and vocational rehabilitation. McCollum said the board now has adequate information from these institutions on which to base budget decisions. Dr. Donald F. Kline, executive director, Office of Higher Education, said his office and board members have made in-depth studies of the budget requests submitted at last month's board meeting by the University of Idaho, Idaho State University, Boise State College and Lewis-Clark State College. He added budget recommendations would be based on the formula worked out last year by his office and the board. That board "accepted" the budget requests for state general funds of all institutions under its control at last month's three-day meeting in Boise, but made no decisions "prior to a detailed breakdown of each individual request." Final recommendations of the board will be presented to the Idaho Legislature next January for approval.

Cardinal resigns

WASHINGTON (UPI) — Cardinal Patrick O'Boyle said Thursday he had submitted his resignation to Pope Paul in compliance with a 1968 directive of the Roman Curia requesting that bishops resign when they reach age 75. O'Boyle, in his 24th year as spiritual leader of 400,000 Roman Catholics in the Washington archdiocese, will be 75 on Sunday. He was made a cardinal in 1967. The chancery said the Vatican had not yet replied to the offer to resign, submitted last month. O'Boyle desegregated schools and churches in the archdiocese during his first years as archbishop, and gave the invocation at the 1963 Washington civil rights march. But he was criticized by liberals when he imposed a stiff penalty on 39 priests in 1968 for their refusal to accept the Pope's encyclical opposing birth control.

All members with birthday anniversaries in May, June, July and August will be honored. Members gave reports on the work of the grange for the Three Island Park dedication. They voted to send thank-you notes for the use of the high school kitchen facilities. A communication relative to the National Grange session at Charleston, W. Va., Nov. 8-16 was read. The Pomona Grange picnic will be held Aug. 8 at 4 p.m. at the Carl Miller Park, Mountain Home, with Mariposa Grange as host. Speaker Society to meet July 20

TWIN FALLS — Rev. Howard Larson, Hansen, will speak on "Urban Vessels" at the drive-in worship services at 8 a.m. Sunday at the Motor-Vu Drive-In, sponsored by the First Christian Church. Special music will be provided by Dorothea Froehlich, accompanied by Donna DePew. SPOKANE — Relief Society members of the Shoshone LDS Church will meet at 10 a.m. Tuesday, July 20, instead of this week. The meeting was postponed due to education week being held in Twin Falls. Mrs. Del Glauner has been named the new second counselor in the Relief Society for Shoshone ward, replacing Mrs. LaMar Duffin in the position. Mrs. Julia Larraway has been sustained as a new teacher in the primary association of the church.

Topic given at Clover

FILER — Mrs. Edgar Meyer presented the opening devotional service on the topic "We Are Christian World Citizens" to Clover Lutheran Women's Missionary League members at the July meeting in the school. The group voted to continue sending student scholarships to Concordia, Portland. Mrs. Ray Lassen, president, asked the member to remember in their prayers the delegates attending the Synodical Convention this month. The special project group two reported sending \$28 to Wilhelm Torgerson, a German student, at the Springfield, Mo., seminary. Mrs. Arthur Kaster led in a discussion on "The Word and Civic Disobedience." Mrs. Wayne Jagels and Mrs. Walter Kaster led the pledge of allegiance to the American flag. The LMWV retreat at Camp Perkins is scheduled for July 25-29. Mrs. Ray Ohlensehler and Mrs. Tillie Paschen were hostesses. Members at large were Mrs. Ray Schmidt and Mrs. Doug Schroeder.

Cut denied

BOISE (UPI) — Ada County commissioners, meeting as the Board of Equalization, have turned down a Boise Cascade Corp. request for a tax reduction this year on its new office building under construction. Jack Barney, commission chairman, said the corporation would pay taxes based on 42 per cent completion of the new structure. Using the Boise building permit valuation of \$10.6 million, the 1971 value of the building would be \$4.45 million, while the value of the land fixed at \$420,000 would bring the total taxable property value to \$4.87 million.

MRS. HARDY THOMPSON looks on while her husband, Rev. Hardy Thompson, Richfield-Shoshone Methodist minister, is ordained a deacon by Bishop Maynard Sparks. The ceremony took place at the annual church conference in Salem, Ore.

Rites held Area pastor ordained deacon at conference

RICHLAND — Rev. Hardy L. Thompson, pastor of the Richfield and Shoshone United Methodist churches, was ordained a deacon in the closing service of the annual conference at Salem, Ore. He has pastored since 1952 in Wisconsin, Indiana, Washington and Oregon before coming to Idaho. He took over the Richfield-Shoshone charge in 1968. The ordination ceremony was performed by Bishop Maynard Sparks, Bishop of Alaska, Washington, Oregon-Idaho, and Sierra Leone Conferences. The family of Rev. Thompson and his wife, Hope, consists of three boys, Mark, who will be in college this fall; Danny, an eighth grader, and David, a fifth grader. Rev. Thompson's mother Mrs. Georgianna Thompson, also makes her home with the family at the Shoshone church parsonage. Mrs. Hardy Thompson will again teach elementary school music for the Gooding school system this fall. Rev. Thompson has been reappointed for his fourth year to the Richfield-Shoshone churches. House OK's aid bans

WASHINGTON (UPI) — The House Foreign Affairs Committee overrode administration opposition Thursday and voted to withhold U.S. military aid as a means of bringing about internal reforms in Greece and Pakistan.

Committee scans insurance rates

BOISE (UPI) — The legislative committee on automobile liability insurance heard a discussion today on the regulation of auto insurance rates in Idaho, with figures provided by the Department of Insurance questioned. Robert A. Fraundorf, deputy commissioner of the public service division of the Idaho Department of Insurance, presented a report to the committee, but some members failed to agree figures used were reliable. Rep. Clyde Keithly, R-Nampa, said he felt some of the figures compiled for the state of Idaho were too much higher than others, making it possible for some insurance companies to write insurance for less than half the cost of rival firms. The report on insurance rates takes rates from the states of Oregon, Washington, Montana and Idaho for cities comparable in size. Rates were compared on a six-month policy basis, with rates for Idaho less than those in neighboring states. It was the opinion of the committee the discrepancies in the report figures made it difficult for them to accurately study the findings. The Department of Insurance was asked to investigate Idaho rates more thoroughly. Committee Chairman Sen. Wayne Kidwell, R-Boise, asked Fraundorf to ask Insurance Commissioner John Blaine to appear at the next committee meeting to discuss the regulation of rates presented in the report. He also asked if the department could draw up conclusions as to how those rates could tie in with a new insurance plan for the state.

Plans set Cycle ride Sunday

TWIN FALLS — A special kind of poker game, a 100 mile motorcycle event, will be played Sunday by members and guests of the Checkmates Motorcycle Club. The "poker ride" involves a marked route over which cyclists must ride, making five designated stops. The rider picks up a sealed envelope containing a playing card at each stop. These five envelopes provide the poker hand and the person holding the best hand wins the trophy. Three top winners will be selected. The ride begins at 1 p.m. in the Sears parking lot. An entry fee of \$1.50 will be charged each rider. The club will furnish punch and dessert with a picnic planned at the end of the ride. The route will end in Twin Falls. Girls are invited to buy a ticket and ride with their husbands or escorts and to bring a picnic lunch for the picnic following the 100 mile trip.

Since this was also the fourth anniversary of the club's organization, charter members were honored including Mrs. Fred Howard, Mrs. Clifford McCoy, Lena Bohrn, Mrs. Ralph Simmons, Mrs. Bowman and Mrs. Steelsmith. They were given corsages.

Mrs. Howard read a brief history of the club and introduced Mrs. Vergil Ball, a former member, who became a KOPS and has kept her weight down since that time. She spoke briefly on how she attained her

goal and showed her trophy, won as Division No. 4 state champion her first year. She answered questions after her talk.

Mrs. Wayne Skeen and Mrs. Ron Pease, a former member, were guests. Mrs. Skeen joined the club as a new member.

Mrs. Bryson Vinyard announced she was to be the chairman for a new contest, Lucky Bucks, which started with this week's weights.

Mrs. Howard, as a KOP for three years, and Mrs. Bob Niven, as a KOP for two years, were honored. Mrs. Vinyard and Mrs. Afton Dopson were also honored as KOPS-in-waiting.

Pictures for the scrapbook and for individuals were taken of the winners, charter members and of the whole group.

A tea was served at the close of the meeting. Mrs. Bryan Harris Jr. and Mrs. Howard planned the program and tea, and Mrs. Lewis Morris was responsible for the corsages. The next meeting will be measurements.

DEAR ABBY: A year ago my father passed away. He was 69 years old. Since then my mother has been carrying on until she has me half crazy. You would think she was the only woman ever to lose a husband. She had a good life with him and she should be grateful she had him that long.

However, my real problem is that I live only a block away from her. I run over every day, but it's not enough for her. She spends every free hour at my house, saying she has nothing to live for and she is going to take an "overdose."

She keeps saying she can't live alone. [I think she wants to move in with me and that would be the end of me.] She is not disabled in any way, but she complains and whines constantly until I am about to have a nervous breakdown.

I have no privacy. She has brothers and sisters, but she is here all the time, or else she's at home calling me to come over. She won't even turn on her TV. She'd rather sit and feel sorry for herself.

She criticizes everything and tears everyone to pieces. My husband is thinking of asking for a transfer so we can move away. What else can we do? **SMOTHERED**

DEAR SMOTHERED: You can take your mother to a doctor. Your mother needs professional help in handling her grief. And YOU need some help in learning how to handle your mother.

DEAR ABBY: A 19-year-old man [if you can call him that] was recently found guilty of beating two of his girl friend's children, and he was given the maximum penalty of 180 days in the workhouse. The children, ages 4 and 6, were taken to the hospital and treated for numerous lacerations and welts across their backs, which the state claimed were inflicted by a knotted electric cord.

The mother of these battered boys was 17 years old, and she had three other children—one per year beginning when she was 12 years old!

Now if this isn't a case in favor of planned parenthood, I don't know what is. **APPALLED IN ST. PAUL**

DEAR APPALLED: Amen!

DEAR ABBY: This problem has been on my mind for several years and I hope you can help me.

Many years ago I obtained a divorce from a man, but before the divorce was final, I married again. We both knew my divorce was not final at the time, but we had to get married, so we did. I have had my final papers for years but we've never renewed our vows. My question is, how legal is this marriage? **TROUBLED**

DEAR TROUBLED: Some states recognize common law marriages, but I wouldn't bet on that as a solution to this problem. I advise you to quietly get married without broadly proclaiming the fact that your first marriage was invalid. But before you do anything, I advise you to see a competent lawyer.

CONFIDENTIAL TO "WHERE DID WE GO WRONG" IN WHEELING, W. VA.: From your letter I would say you did your best. Some parents "freak up a child in the way he should go," and out of sheer rebellion, the child deliberately departs from it.

What's your problem? You'll feel better if you get it off your chest. Write to ABBY, Box 8790, Los Angeles, Cal. 90089. For a personal reply enclose stamped, addressed envelope.

Hungry 'hoppers threaten crops

By STEPHEN BLAYE
Times-News Writer
TWIN FALLS — "The grasshopper problem is the worst I have ever seen and is the worst for several years," said Allen Scoggan, United States Department of Agriculture inspector.

Idaho's central western area — consisting of Washington, Adams, Gem and Payette counties — is the hardest hit so far. The Boise valley spraying project also consisted of a "very large area," and the Magic Valley area is fast becoming a problem with grave potential for next year, Scoggan said.

Seth Parkinson, Dubois, investigating the Magic Valley area for the USDA, inspected the Rupert and Minidoka area and planned to view the remainder of the Magic Valley Friday. He said, "From what I have seen in the Rupert area the problem here is just as severe as that north of here where a half million acres is involved."

He said area farmers will definitely have to organize control units to face the problem developing in this area. There are a lot of grasshoppers and this is apparently going to be a "hopper year" for the state, he said.

The grasshoppers are definitely going to cause extensive damage unless control programs are started immediately, he said. For now, the farmers will have to do their own work if they intend to save this year's crop and protect next year's, Parkinson said.

However, it is getting late as the 'hoppers are now mostly in the adult stage and will soon have their eggs laid.

The government can only come in on a cooperative program to combat these 'hoppers from the rangeland and we will be tied up with the northern problem for some time, Parkinson said.

The programs are usually organized much earlier in the

year as it takes time for government contracts to go through. However, the problem happened so fast and not where expected this year that coping with it is nearly impossible, he said.

Grasshoppers in the Magic Valley will be back next year in greater force if the eggs get laid before the 'hoppers are killed. "If we do succeed in killing them before this then the problem will not appear usually for another five or six years," Parkinson said.

"Next year could be the worst over for the Magic Valley unless a miracle happens," Parkinson said. The USDA suggests that farmers start their own programs without the federal government because of the urgency of the problem, he said.

In Washington and Adams counties alone 185,000 acres have been destroyed, said Scoggan. Gem County has had the largest spraying project so far and most farmers in the infested areas have 50 to 100 per

cent damage and loss in their fields.

Small grains, wheat, oats and barley have been greatly affected. Alfalfa leaves are entirely stripped in many fields.

The USDA's problem is trying to kill the grasshoppers before they lay their eggs, Scoggan said. Shortages of money, manpower and time have hindered the department greatly, he said.

Scoggan said the program does work and is sufficient in areas where used early enough. Malathion spray is effective in killing grasshoppers, he said. The poison kills all it contacts but dissipates in four days

which creates another problem according to Scoggan. This dissipation of poison allows the grasshoppers to migrate back into areas that have been sprayed, requiring more spraying.

He said farmers will have to organize and cooperate in the infested areas. It is not likely that attempts to destroy the hoppers will be successful or feasible if they don't, he said.

Farmers must ask for and organize the programs. The USDA investigates and determines if there is a true problem and the two go from there, he said.

Hoppers chomp away

EFFECTS of the grasshopper invasion in the Magic Valley area are shown in these photographs taken in the Hansen Butte vicinity Thursday. Above, the damage to this bean plant is shown by a bare strip of earth between the crop and range grass. At left, bare stalks of bean plants in the field are shown. Below, a grasshopper munches a leaf, unperturbed by a camera close by.

Big range fires sear wide area

SHOSHONE — An estimated 1200 acres of federal rangeland was burned in one of two separate fires in the Shoshone Bureau of Land Management district Thursday afternoon.

This fire was the result of a farm fire spreading because of high winds which spread it into the desert two miles east of the Owinca Railroad stop between Dietrich and Kimama.

Wallace Eivson, fire control officer, said the fire was under control around 1 p.m. One tanker from Minidoka, two tractor crews and four tankers from the Shoshone office were used to extinguish the blaze.

At 3 p.m. a fire four miles west of Shoshone was believed to have started from sparks from trains on railroad tracks. Two hundred fifteen acres of rangeland burned there and crews were dispatched from Shoshone to handle this fire.

Fund fight at Rupert

BY JERRY HERRMANN
Times-News Writer
RUPERT — The controversy the Rupert City Council is now embroiled in was likened to a family squabble over finances.

Rupert's Mayor, Wendell Johnson told the Chamber of Commerce members at the chamber meeting Thursday, "When you don't have the money to go around you have more problems than when you have the money."

"We're all looking for more money. Last year we worked with the legislature and it looked like we were doing alright. We got one cent of the gasoline tax revenue."

"However, in the last six months the city is about \$11,000 short of what it received the year before in liquor taxes. The city is also \$1,000 short on the amount of taxes received from the county."

Last fall the council reviewed the budget requests and at that time four means of raising revenue were recommended. However, to date none of the bills have been passed, he said.

One ordinance the mayor was pleased that it had been passed was the one that equalized sewer costs for all users.

"This change, which bases the sewer charge on kitchen units and the amount of water going into the sewer system will bring in an additional \$1,000, he said.

There is now a charge of 20 cents per 1,000 gallons of water

going into the city's sewer system. Some users think this is too high. "If any of you have complaints about the charge bring them to the council. I'm sure they will be heard and reviewed to see if it is just," he said.

One source of income to the city's general fund is the \$130,000 it receives from the city's electrical service. The rest of this money is kept in the electrical department's budget, he said.

The city's drinking water system will show a profit of about \$7,000-\$8,000 this year, he said.

The garbage service budget is close to balancing.

"We still have the old truck. Due to finances we haven't bought any new trucks in the past two years," he said.

He also pointed out any expense over \$250 has to have the approval of the councilman in charge of that operation before it can be made.

"I think we have a real good accountability in the city. Each bill is credited to the department involved," he said.

Due to this practice the city's recreation department's budget is \$32,000, instead of \$14,000 as it might have in other cities, he said.

It takes care of all the revenue in the department including money from the candy-and-pop machines, pool fees, etc.

4-H youths to compete

SHOSHONE — All boys and girls enrolled in 4-H Club work in Lincoln County are eligible to compete for the various awards and in different contests at the county fair Aug. 6-7.

Record books and stories must accompany exhibits when entered. No exhibit will be judged unless this requirement is fulfilled. All exhibits except livestock will remain in place until 9 p.m. Saturday, Aug. 7.

Box canyon tour set

HAGERMAN — The controversial Box Canyon Springs area, scene of a growing dispute between commercial and private interests, will be toured by members of the Idaho chapter of the Nature Conservancy, a group devoted to preserving the beauties and utility of nature unhampered by commercial development, on Sunday.

The members will meet at the Hagerman City Park at noon on Sunday for a picnic luncheon, then will travel in a group to the upper rim, according to Aldrich Bowler of Buhl.

Dr. Karl Halle of Pocatello, a professor of biology at Idaho State University, is chapter president.

Till tappers elude blockade

GOODING — Roadblocks set up throughout Magic Valley Thursday afternoon after a reported till tapping at a Gooding grocery store failed to yield any suspects, according to Bill Bunn, Gooding County deputy sheriff.

Bunn said personnel at Cook's Food Center on Main Street in Gooding reported that at about 4 p.m. Thursday three well-dressed young men entered the store. At least one of them purchased an item with pennies which the clerk had to count out.

After the young men left, a loss of between \$400 and \$500 in \$20 bills was discovered and it is believed the money was taken

while the clerk was counting the pennies.

Bunn said roadblocks were up "real quick" and he doesn't see how the trio managed to elude authorities.

He said the men were strangers and "had to be moving." Hotels and motels in the area also were checked out, with no results.

Bunn said Earl Brown, Gooding County sheriff, and M. L. James, Gooding pilot, flew over most of Gooding County Thursday afternoon in an attempt to locate the suspects or their car in the event they had not taken a major highway from Gooding.

Seattle Officers vow man held in entry

KETCHUM — A 26-year-old Seattle man arrested by officers when he was found hiding under a garbage can behind the Pioneer Saloon, is in jail in lieu of \$1,000 bond on charges of first degree burglary.

Steve Rounds was arraigned Thursday before Magistrate William Grant and his preliminary hearing is set for 10 a.m. Monday.

The man apparently gained entrance to the saloon through the back door with a crowbar and several screwdrivers. Ketchum City Patrolman John Douglass was alerted by a burglar alarm and he and Blaine Deputy Sheriff Douglas Williams went to the site where officers finally apprehended Rounds after seeing his feet sticking out from under a garbage can.

Halley City Marshal Roy Evans and Ketchum City Police Chief Dennis Haynes also assisted.

HAILEY — Blaine County officers today replied to criticisms of a citizens group over laxity of law enforcement with statements they intend to apply the law equally to all people, whether they have long or short hair.

Sheriff Orville Drexler said, "We will stay within the legal bounds whether people are long haired or short haired and the law applies equally to all. It seems we have a group with a little different philosophy than others and their manners, dress and action relate to this."

John Fox, Blaine County commissioner, also reiterated officials will "work within the law" and said he understood the citizens, organized as "Citizens for a Better Wood River," basically want to encourage officials to work within the law and discourage the "hard core hippie" from settling in this area.

"But it's not an easy solution and how do you distinguish?" he asked. "We just can't go out and start making rules of our own."

Magistrate William Grant, criticized at the Wednesday night meeting for being too easy on lawbreakers, today defended his action and said he follows guidelines set by the district court and legislature.

He indicated "these meetings are based on lack of knowledge of the scope of the problem and ignorance of the law."

"I'm afraid some of the people think the officers should draw in everyone with long hair and put them in jail," he said.

Ben Cutler, chairman of the citizens group, said there has been considerable theft and destruction of mining property in the area, with buildings and one head frame dismantled.

There is a ready market for the new buildings now under construction around Ketchum.

He also said "hippies" is an inaccurate term and his group is aroused only against people who are "living outside the law."

Air pollution 220 index

The pollution reading was taken by the staff of the South Central Health District at the Twin Falls City Hall. The reading is expressed as the number of micrograms of particulate material per cubic meter of air for the 24-hour period ending at 8 a.m. today. Federal pollution regulations say pollution levels should be kept below 75 micrograms over any 24-hour period, and should not be permitted to rise above 260 micrograms for even a short period of time.

Today:	Good
Tonight:	Poor
Tomorrow:	Good

This forecast provided by the Idaho Department of Health indicates the ability of the atmosphere to disperse pollution. Burning as permitted by law should be curtailed when the air is poorly able to disperse air pollutants.

Families fight fire

KING HILL — Several King Hill families turned fire fighters this morning, putting out a cheat grass fire caused by a firecracker set off by boys walking past the Arthur Greer home about 9 a.m.

Mrs. Greer said the blaze was extinguished before any property damage resulted, but homes of Elmer Ebbington and Cecil Bott, as well as the Greer home, were threatened.

The neighbors quickly employed shovels and connected garden hose to the domestic hydrants used for irrigation water, not stopping to call the nearest fire department which is in Glenns Ferry.

Mrs. Greer said the three sons of Mr. and Mrs. William Meeker were walking along the street in front of her home when one of the firecrackers they were setting off started a blaze in

nearby cheat grass. The fire burned up a side hall and also threatened the old King Hill school house.

Even the rural mail carrier, Clarence Anderson, got into the act, stopping to help the fire fighters. Ted Moore, King Hill Irrigation manager, brought equipment to the scene, but the garden hose and shovels and fast-working neighbors saved the day.

Paul labor camp dedication planned

By **JERRY HERRMANN**
Times-News Writer
PAUL — The Paul Housing Authority's Labor Camp will be dedicated Wednesday by E. Frederick Behrens, executive secretary to Secretary of Agriculture Clifford Hardin.

The camp will also have an open house from 10 a.m. to 5 p.m. on Wednesday to enable residents of the area to see the camp for themselves. Dedication ceremonies will start at 2 p.m.

Work on this \$60,100 project should be completed by the end of August, according to Lee Robison, Farmers Home Administration county supervisor for the west half of Mindoka County.

Work on the project began on Oct. 23, 1970, Robison said, by the Ullman Construction Co., Twin Falls. The project was supposed to be finished on April 15, but delays have pushed the completion date ahead.

This project is being financed by a \$404,150 FHA grant and a \$255,950 five per cent loan from the FHA payable over 33 years. In the camp are 20 four-plex units; a well, lagoon, sewage disposal system; parking spaces for about 115 vehicles; a recreation hall; a washroom, and large courtyards for the children to play in.

Jim Mai, 28, camp manager, looks forward to the day when this camp, located where the old Mindoka County Farm Labor

Sponsoring Association camp was, is finished.

A native of Burley, Mai attended schools in Burley and attended Snow Junior College, Ephraim, Utah, and Idaho State University, Pocatello, before becoming camp manager of the old labor camp.

Mai said the old camp had 72 one-room units. One of the old units was about as large as one of the bedrooms in these new units, he said.

The new units, which will rent for \$10 a week for a one bedroom apartment, \$12 a week for a two bedroom apartment, and \$14 for a three bedroom apartment. There will also be a \$25 housing deposit required before the units can be rented, Mai said. The old one room apartments rented for \$8 a week.

"While the units are designed as two-bedroom apartments by the locking of a door they can be made into an adjoining one and three bedroom apartment in the four-plex," Mai said.

The basic two bedroom apartment would have a combination kitchen-living room; two bedrooms, and a bathroom with a shower stall in it. The units are all electric and are heated by electric cables in the ceilings, Robison said.

In the old one-room apartments there wasn't any running water and the stove was only a three gas burner unit, Mai said. In the new apartments there is

an electric stove and refrigerator.

These units when rented will be completely finished so that all the tenant has to do is move in.

The basic dimensions of the four plex, which cost about \$27,440 each, are 50 by 42 feet and a basic two-bedroom apartment is 25 by 21 feet, Robison said.

In the old camp there were 72 of the one-room apartments. They held about 300 workers, those 14-years-old and over, or a total population of about 700 people.

The new camp, Mai estimates, will house 400 workers or a total population of about 800 people when it is full. This camp will also be open year round where the old camp closed down the first of November, Mai said. He estimates about 90 per cent of the people living in the camp will live in it year round.

If the camp had been open the middle of May when it was

supposed to have been it would have been full during the rest of May, June and July. The number of tenants will decrease in August and September each year. But in October and November it should be full, Mai said.

Mai, his wife, Barbara and their two daughters, Carrie, 5,

Crashed plane in Almo area brought to T.F.

ALMO — A spray plane which crashed on June 22 in the Almo area has been dismantled, loaded onto a flat bed trailer and transported to Twin Falls for repair, it was reported today.

William Maxwell, with A.V.I. Aviation in Twin Falls, pilot of the downed plane, walked away from the mishap without harm. Maxwell was spraying sagebrush on grazing land owned by Robert Ward, Almo, near Granite Pass in the Junction Valley area.

He was flying the plane at an altitude of 6,500 feet when it was caught in a down draft and crashed into a rocky site on a hillside. It was first thought the plane would be a total loss,

Maxwell said, but later an estimate was given on repairs for approximately \$6,000.

Pieces of the damaged plane were gathered at the crash site and taken to Twin Falls for the repair work.

Ward, who has a private landing strip near his ranch home and is himself a licensed pilot, assisted Maxwell with the salvage work. Ward's private strip has been used as a base for the brush spraying operation in the area this spring and summer.

The spraying project on about 7,000 acres of grazing land has been progressing as weather permitted. Rainy and windy days have hampered the project considerably, Ward said.

trying to control sagebrush, rabbit brush and other noxious weeds through the spraying program. The flying operation has been quite hazardous because of the rough terrain, rocky hillsides and formations in the nearby City of Rocks, Ward said.

Mallard Flying Service, Idaho Falls, and the A.V.I. Co. have been in charge of the spraying. The ASC office in Burley has supervised the project.

Ranchers who participated in the project include Dwayne Ward, Nell Durfee, William Bruesch, Zennith Taylor, Jack Erickson, David Boden, Gus L. Erickson, Wesley Ward and Robert Ward, all Almo.

Carr may begin exercising

CLEVELAND (UPI)—Cleveland Cavaliers Physician Dr. Nick Sekerak said Thursday that Austin Carr, the team's number one draft choice, will be able to begin light exercises immediately.

Carr, who cracked the fifth metatarsal in his right foot two weeks ago while scrimmaging on a Harlem playground, had the foot X-rayed earlier in the day at Kaiser Foundation Hospital in nearby Parma and received the good news from Sekerak.

"Bones in the rookie guard's right foot are setting in excellent position," Sekerak said. "The healing process is well ahead of expectations.

Leahy's condition critical

PORTLAND, Ore. (UPI)—Frank Leahy, one of America's greatest football coaches who led the PGA Heritage Classic after 36 holes last November before finishing 11th and then earlier this year shared the 36-hole lead in the greater Jacksonville open before finishing in a 16 for fifth.

Melnyk credits fellow Jacksonville pro Dan Sikes and Jack Nicklaus for helping him with his game and in making the decision to join the tour.

"They really helped me quite a bit," he said. "I've been real fortunate that I've been able to surround myself with people not only knowledgeable about the game, but interested in me."

"I think I decided about three or four months ago to turn pro," Melnyk said. "There's not much else left to do as an amateur."

Melnyk said the hardest adjustment he will have to make on the tour will be playing every day. "I am the type of golfer who likes to play only when I feel like it, which is something amateur golf affords you," he said.

"I don't think the fact that I will be playing for money will make any difference," Melnyk said immediately after making his announcement. Melnyk headed for Hidden Hills Country Club where he has been practicing five hours a day this week after being dissatisfied with his play in last week's British Open.

"I wasn't playing well in England last week," he said. "I wasn't hitting the ball solidly. That's what I've been working on this week. I think I've got it just about where I want it right now so I'll taper off before next week's tournament."

Melnyk, a native of Brunswick, Ga., and a former University of Florida golfer, attained national prominence with his victory in the 1969 U.S. Amateur tournament. He led the PGA Heritage Classic after 36 holes last November before finishing 11th and then earlier this year shared the 36-hole lead in the greater Jacksonville open before finishing in a 16 for fifth.

How could he make the hand? By refusing the heart finesse!

South did play the queen of hearts. East took his king, and led back the queen of clubs. Later on South lost two clubs and a diamond.

Make that queen of hearts in dummy a small heart. South would rise with the ace since there would be no temptation. He would cash his ace and king of trumps and lead the queen of diamonds for a finesse. East would win with his king, cash the king of hearts and shift to a club, but it would be too late to get two club tricks. South would win the trick, play his good jack of diamonds, enter dummy with the jack of trumps and discard one losing club on the diamond ace.

BLM has 25th anniversary

BURLEY — Today is the silver anniversary of the Bureau of Land Management, according to H. Max Bruco, Burley district manager. He said on this date in 1946, the General Land office which was established in 1812 and the Grazing service, formed in 1934, were consolidated to create the BLM. The General Land Office was responsible for the survey and administration of thousands of land laws which made possible the settling of the West through the disposal of much of the once vast public domain. The Grazing service was established under authority of the Taylor Grazing Act in 1934 to manage and protect the remaining public domain lands and to stabilize the livestock industry dependent on these lands. With the formation of the Bureau of Land Management in 1946 and the subsequent passage of such legislation as the Multiple Use and Classification Act and the Environmental Policy Act, the BLM manages and protects the public lands for all uses, including watershed, wildlife, habitat, grazing, timber production, recreation and mining. In recent years preservation of environmental quality has become an essential part of all land management decisions made by the BLM, Bruce said.

Corn blight spreads out

WASHINGTON (UPI) — The corn blight, now reported in parts of 29 states, continues to be classified as only a light infestation, according to the latest government reports. But the Agriculture Department's weekly bulletin on the situation said there are increasing reports of pockets of moderate to severe infection and further evidence that the potentially destructive disease has started to spread from field to field.

Ask study of threat

WASHINGTON (UPI) — Rep. James A. McClure, R-Idaho, asked the Department of Agriculture Wednesday to investigate a possible grasshopper threat to the state's 1971 farm crops. In a letter to Agriculture Sec. Clifford M. Harding, McClure said the late cool spring is conducive to a grasshopper epidemic and requested appropriate action as soon as possible.

Gem farmers dispute jobless, camp claims

BOISE (UPI) — The Food Producers of Idaho, Inc., an Idaho farmers group, disputed Wednesday recent statements concerning the number of unemployed migrant workers in Idaho and the condition of labor camps. Phil Batt, Wilder, president of the organization, said the group had received "conflicting reports" when it tried to determine the number of farm unemployed in Idaho. The office of Gov. Cecil D. Andrus placed the figure at 5,000 earlier this year when it announced it would seek federal help in feeding the needy Mexican-Americans. But Frank Mercer, manager of the Wilder labor camp and the association's secretary, said in a recent survey he could not find a "single labor camp in southwest Idaho that had a bad unemployment problem."

Mountain views seen by Grange

TWIN FALLS — Larry Drexler, a member of the Trail Cycle Club, showed slides of the White Clouds area for members of the Twin Falls Grange Wednesday evening. Gary Custer, master, was in charge of the business session, with Kenneth Poe, chairman of the resolutions committee, reporting resolutions are being prepared to be presented at the state grange meeting this fall.

labor camps were "pretty good." Symms said the farmers are already working on other problems such as paying workers individually rather than through a crew leader, eliminating any discrimination in pay, and providing sanitary facilities in the fields. He added the organization was not attempting to downgrade any labor group because "we need labor, we need them. It is too bad we've had a little too much labor this year."

Water, land stands adopted by council

BOISE (UPI) — The Western States Water Council has adopted three resolutions relating to national land use policy, the Refuse Act program, and the Federal Water Pollution Control Act, during a meeting in Portland, Ore.

Tom Olmstead, Twin Falls, Idaho Water Resource Board member, said today two of the council's actions were "positions," and one was by "resolution." Olmstead is one of Idaho's representatives on the Western States Water Council. The resolution recommended to the governors of the Western states that "they urge that the federal permit program under the 1956 Refuse Act not be implemented in those states which have a water quality control program approved by the federal government."

The council also recommended a review of water pollution programs now existing throughout the various agencies of the federal government with the goal of placing all such programs under one agency's jurisdiction. "The council adopted a five-point recommendation to go before the western governors at their conference in Wyoming asking that they urge Congress to:

- Retain and re-emphasize primary responsibility of the states to prevent and control water pollution.
- Delete sections which would pre-empt state responsibility and efforts.
- Retain federal jurisdiction over interstate waters, but preserve state control of intrastate waters.
- Maintain primary enforcement responsibility in the states, but allow federal enforcement if a state will not take action.
- Eliminate duplication of administrative and enforcement procedures created within the federal government.

Olmstead said the council was vitally interested in bills before Congress calling for the states to engage in comprehensive land use management programs and had taken a position on the proposed legislation.

A thought for today: Biologist Thomas Henry Huxley said, "For every man the world is as fresh as it was at the first day and as full of 'unfolds' novelties for him who has the eyes to see them."

1 teaspoon lemon juice
2 cups flour
1 1/2 teaspoon baking powder
1/4 teaspoon salt
1/4 teaspoon soda
1 cup chopped nut meats.

Cream shortening and sugar. Beat eggs until light and add. Force bananas through a sieve; add cream and lemon juice, combine with first mixture. Add flour, sifted with baking powder, salt and soda. Add nut meats.

Bake in a greased loaf pan at 350 degrees for 50 to 60 minutes.

ARDITH WHEELER
Rt. 1, Hansen

1 cup sifted flour
1 1/2 teaspoon baking powder
1/4 teaspoon salt
2 eggs, well beaten
1-3 cup milk

Sift together flour, baking powder and salt. Beat eggs with milk. Stir ingredients into egg and milk mixture. Beat until well blended and smooth. If desired, fold in a cup of drained corn or diced fruit. Drop by tablespoonful into deep fat, 375 degrees, and fry until golden brown. Drain on absorbent paper. Makes about 12 fritters.

Dairy cream contains far more fat than milk, as well as vitamin A. It is a good energy food and, because it is easily digested, it is very nutritious for invalids.

1 can chopped olives
4 hard boiled eggs
1 whole pimento, chopped
onion, grated or chopped fine enough to taste

This covers a dozen rolls cut in half. Recipe can be fixed and put in freezer until wanted. So good with chili beans or a green salad.

FEATHER-LIGHT BUTTER HORN ROLLS

MRS. MYRTLE ANDREASON
Rt. 2, Piler

1 yeast cake
1 tablespoon sugar
1 cup scalded milk
1/2 cup sugar
1/2 cup melted butter
3/4 teaspoon salt
3 eggs, well beaten
3 1/4 or 4 cups flour, sifted

Crumble yeast cake; add 1 tablespoon sugar in about 1-3 cup warm water. Set aside 5 minutes. Add milk which has been cooled to lukewarm. Add 1/2 cup sugar, butter, salt, beaten eggs and yeast mixture. Add flour enough to make a soft dough, a dough stiff enough to knead, beware of getting too stiff. Cover and allow to rise 5 to 6 hours.

To make butter horn rolls, divide the dough in half and roll each half nearly round as possible and about 1/4 inch thick. Cut as you would a pie into six pieces, beginning at broad end, roll each section very loosely to small end and pinch end down. Put in buttered tins. Let rise until very light, 4 to 6 hours.

Bake in moderate oven, 375 degrees, for about 20 minutes. Yields 32 rolls. This can be frozen.

SQUASH BREAD

JEANNE COOPER
439 A Ave., Wendell

3 cups sugar
2-3 cup shortening
4 eggs
2 1/2 cups squash, prepared
Pinch of salt
1/4 cup water
1/4 tsp. cloves
1 tsp. cinnamon
2 tsp. soda
1 tsp. baking powder
3 1/2 cups flour

Chopped nuts, if desired.
Prepare enough yellow squash to equal 2 1/2 cups. Cook as you would potatoes; in approximately 1/4-inch water until soft, drain and mash well with a little butter. Cool.

Beat sugar, shortening and eggs with mixer until creamy. Add squash, salt and water. Sift together cloves, cinnamon, soda, baking powder and flour. Add nuts, if desired.

Bake in 3 loaf pans at 350 degrees for approximately 1 hour; or you may use soda pop or beer cans for 45 minutes, if until done, cut off end and push bread through.

PEANUT BUTTER USES

Peanut butter, an excellent source of food energy, protein, and B vitamins, blends smoothly into cooked dishes while adding tasty variety to common foods, such as potatoes. Either white or sweet ones are zester when crunchy peanut butter is mashed with them. Meatloaf takes on unusual nutty goodness with peanut butter as an ingredient.

FUN BUNS

VERLA DODSON
845 Eastland Dr., Twin Falls

1 package Pillsbury Butterflake Rolls

(Can use other)

Roll each large enough to cover a large marshmallow. Dip marshmallow in melted butter, then in cinnamon and sugar (mixed). Dot with a few raisins or currants and put dough around marshmallow. Bake at 400 degrees in muffin tins until golden brown. Glaze with your favorite glaze.

GLAZE

One-fourth cup brown sugar, 3 tablespoons butter, and 2 tablespoons water. Bring to a rolling boil stirring, then cook 1½ minutes without stirring.

**QUICK
HOT ROLLS**

EDITH JOHNSON
293 Sunnyview Courts,
Twin Falls

1 cup lukewarm water
Dissolve 1 package dry yeast
¼ cup sugar
¼ cup melted shortening
1 teaspoon salt
2 egg whites, slightly beaten
2½ cups flour

Mix thoroughly. Cover and let stand for 30 minutes. Sprinkle board lightly with flour. Knead down and shape in buns. Let rise for 30 minutes longer. Bake at 350 degrees.

JUICY NOTE

Sprinkling 3 tablespoons of sugar on the bottom of an unbaked pantry-shell before filling it with cut fresh fruit does more than sweeten the underside of the fruit. By absorbing the fruit juice, the sugar helps prevent the crust from becoming soggy.

Family chicken recipes

There are so many creative dishes possible with chicken, a cook could show her gourmet talents with a new specialty each week. And she'd be doing right by her family's nutrition, too, since chicken has high quality complete protein, the kind needed to build, repair and maintain tissues, muscles and cells.

Chicken can be so exciting in the dishes you serve the family. Soy Mustard Chicken is a newcomer to the world of chicken recipes. It's chicken that has learned to speak Chinese, and the secret is in the marinade. Broiler fryers for this dish are marinated in a blend of soy sauce, sherry, Tabasco sauce, mustard, scallions and oil. This gives a savory Chinese accent to the flavor of the meat.

After two hours of refrigeration in the marinade, the chicken is permeated with the flavor of the ingredients, and then it is coated with bread crumbs to make a crispy chicken treat. And this dish is so easy to do.

To give your family the complete protein needed at a meal, the minimum serving of chicken is three ounces of cooked edible meat, according to the National Broiler Council. That means you'd want to buy six ounces of chicken per person.

Most people like more than that, for appetite's sake. But it is at least a guideline to protein needs.

Soy Mustard Chicken is delicious served with vegetables that have a Chinese touch, such as green beans with sliced water chestnuts. For dessert, fresh fruits — sliced oranges, strawberries and pineapple — are a fitting finale to your dinner.

Another nutritious chicken recipe that will give your family fine food value is Chicken and Potato Scallop, a hearty, meal-in-one dish dinner that is baked in a casserole.

High protein dish . . .

SOY MUSTARD chicken is created with a special soy mustard marinade. An easy recipe, it makes highly nutritious baked, crispy chicken with a zesty new flavor.

Try "Pieces of Eight" for hungry young pirates

Looking for an intriguing theme for a youngster's birthday party? Here's one just perfect for the six to ten year old set — a pirate party complete with easy-to-make black eye patches, and chocolate pieces of eight.

The filling in the Pieces of Eight Sandwiches is a simple but surefire combination of frankfurters cooked in a zesty sauce made with an envelope of seasoning mix for Sloppy Joes. Topped with cheese slices, it's both an appealing and nutritious dish to serve the young guests.

No birthday is complete without a cake and this Treasure Island Cake is especially impressive. It starts with a cake mix with instant mashed-potato granules added to give it a moist, firm texture that stays fresh for days. Even the adults will gladly walk the plank for a piece.

- Pieces of Eight Sandwiches**
- 1 envelope (1½ oz.) seasoning mix for sloppy joes
 - 1 can (6-oz.) tomato paste
 - 1½ cups water

- 1 pound frankfurters, sliced
 - 8 hamburger rolls
 - 8 slices American cheese
- Combine contents of envelope of seasoning mix, tomato paste, and water in medium size skillet or saucepan. Stir in sliced frankfurters; heat to boiling; simmer 6 minutes. Spoon onto rolls; top each with a slice of cheese. Eight servings.

- Pirate Birthday Cake**
- 1 chocolate or yellow cake mix (1-lb, 2½ oz size)
 - ¼ cup (¼ of 5-serving envelope) instant mashed potato granules
 - 2 cups water
 - 2 eggs
- Frosting**

Combine cake mix and instant mashed potato granules in large mixer bowl. Add water and eggs; beat as directed on package. Spoon into two 8 or 9-inch layer cake pans, well greased on the bottom only. Bake at 350 degree for 30 to 35 minutes.

To decorate cake, frost with your favorite homemade, mix, or canned frosting. Use cake decorator to draw outline of pirate map on top of cake.
