Butz confirmed for agriculture

WASHINGTON (UPI)—Earl J. Butz won Senate confirmation today as President Nixon's new agriculture secretary.

The vote was 51-44 in the closely divided Senate.

Butz, 62, dean of Purdue University, Lafayette, Ind., will succeed Gifford M. Hardin, one of Nixon's 12 original cabinet appointees.

Butz is returning to the department where he served as an assistant secretary under Ezra Taft Benson in the Eisenhower administration while Hardin accepted a top job with Ralston-Purina Co.

The Senate vote followed a bitter fight which revived the farm vote as a potential major factor in the 1972 presidential election.

Some Democrats charged Butz would favor corporate agribusiness interests over family farmers and show little sympathy for programs to feed the hungry.

Butz responded with pledges of action to help improve sagging corn and wheat prices which have produced escalating unhappiness in some farm areas.

In a personal round of lobbying with uncanceled senators, Butz promised to "work vigorously to protect and preserve the family farming system" and gave assurances of support for anti-hunger programs.

Democrats continued in the final debate to charge that Butz' appointment foreshadowed hard times for farmers. The GOP counter-charged that

Sen. Herman E. Talmadge, D-Ga., chairman of the Senate Agriculture Committee, said he opposed Butz "because I do not believe he can possibly provide the nation's farmers, with the kind of support that they must have."

Butz once was a key adviser to much-criticized Agriculture Secretary Ezra Taft Benson in the Eisenhower administration.

Benson himself told UPI he hoped Butz would be confirmed. "He is competent and knowledgeable with a rich background in agriculture," Benson said in an interview in Salt Lake City. "I have nothing but good to say about him and I have been surprised at the attacks on him."

Potato moon?

FIRST photographs of Phobos, a tiny potato-shaped moon of Mars, were transmitted to Earth by the Mariner 9 spacecraft. The dark spot at top of the left photograph and center on the right is a crater about 4.2 miles across. The moon itself is about 23 miles high and 16 miles long. (UPI)

Cameras capture Phobos

PASADENA, Calif. (UPI)—Mariner 9 scientists were cheered today by the most successful photography performance yet by their Mars-watching satellite.

And they waited, as one Russian put it, "for the Russians to talk and the dust to clear."

He referred to the expected communication from Soviet scientists on what their Mars probe has discovered, and to the gradually dying dust storm that still blurs the surface of the red planet.

The scientists hailed as a "fantastic performance" Mariner's photography of Phobos, the larger of Mars' two moons. It was easily the most spectacular picture radioed back to earth so far by Mariner, which found its view of the planet cut off by the dust storm.

Comparatively little was known of Phobos previously. The photo received Tuesday showed it to be roughly oblong shaped, like a mangled potato or battered skull, and about 16 miles by 13 miles in size. Scientists said the moon could be anywhere from three miles to a mile bigger or smaller.

Mr. T-N
says...

Butz is in. Well farmers, here we go again.

Indira tells world 'mind own business'

NEW DELHI (UPI)—Prime Minister Indira Gandhi told the world's major powers today to mind their own business and let India find its own solution to the Indo-Pakistan crisis.

On the war front, East Pakistani rebels surrounded a government airstrip in the Sylhet area in northeast East Pakistan while Indian forces took control of a major north-south Pakistani railway in the Dinajpur area west of Sylhet.

"The times have passed when any nation sitting three or four thousand miles away could give orders to Indians on the basis of their color superiority to do as they wished. Today we will do what is in our best national interests and not what these so-called big nations would like us to do," Mrs. Gandhi said.

Mrs. Gandhi made her remarks to a group of political workers who had rallied outside her residence.

"We value their friendship, help and aid, but we cannot forsake the country's territorial integrity and sovereignty," she said.

Earlier this week President Nixon sent appeals for peace between India and Pakistan to Mrs. Gandhi, Pakistani officials and the Soviet Union. The Soviets recently signed a peace and friendship treaty with India.

(The U.S. government Wednesday suspended all future licenses for arms shipments to India and canceled about \$1 million in licenses already approved. The State Department said the action was taken because of "the continuation of military engagements" between India and Pakistan.)

(Communist China, which has supported Pakistan in the dispute, also appealed for peace earlier this week.)

(The Soviets have not commented officially on the situation but the Soviet Army newspaper Red Star said earlier a peaceful solution should be found.)

Ballet dancer injured

TWIN FALLS—John Nelson, 23, featured male dancer for Ballet West, was injured during the final number of a special performance Wednesday night at the GSI Fine Arts Auditorium.

Nelson, who is a former Twin Falls ballet student, evidently came down too high on the ball of his foot on a slippery spot on the floor, rupturing his Achilles tendon.

Dr. Harry Brumbach, who was attending the final performance, administered first aid and took Nelson to Magic Valley Memorial Hospital. Nelson left today for Salt Lake City, where surgery is anticipated. Dr. Brumbach said the injury can be repaired.

Nelson and Peggy Scott were dancing Grand Pas De Deux when the accident occurred.

Nelson slipped behind the curtain and was replaced with Tom Rudd.

Devaluation offer surprises nations

ROME (UPI)—The United States has offered in theory to devalue the dollar by more than 5 percent in a move to realign major Western currencies, West German Finance Minister Karl Schiller said Wednesday.

Schiller said other member countries of the so-called Group of 10, the non-Communist world's wealthiest nations, were "embarrassed" by the proposal and unable to give any prompt official response.

He said this was why the "Ten" meeting of finance ministers Tuesday and Wednesday was adjourned until Dec. 17 and 18 in Washington.

"What has happened is that one country made a hypothetical offer which was bigger than some countries expected," Schiller told a news conference. "This has caused embarrassment to the others."

"Some other countries are not in a position to respond properly to this contribution to a monetary realignment," Schiller said. "A small number of countries are not yet in position to come to terms with this larger-than-expected offer."

The West German made clear that he was referring to an offer made by the United States because he excluded Japan and West Germany, both of which are expected by Washington to revalue their currencies upwards.

The other members of the "Ten" demanded at the meeting that America devalue the dollar by between 5 and 7 percent in return for them either revaluing upwards or at least staying put.

France made it known beforehand it would not be reluctant to maintain the present parity of the French franc in the event of any large dollar devaluation because this would make French exports to America more expensive while U.S. goods would be cheaper in France.

The West Europeans and Japan demanded dollar devaluation as part of a monetary realignment, refusing to merely revalue their money higher.

Conference officials said the United States discussions including the dollar in a realignment provided the others made sufficient concessions.

Nixon economic powers blocked in House unit

WASHINGTON (UPI)—The House Banking Committee refused today for the second time to approve a bill to extend through April 30, 1973, President Nixon's power to control the economy.

But a compromise was reported in the offering.

The committee voted 18 to 35 against sending the measure to the House floor, with four members voting "present." The committee voted 18 to 18 Wednesday in failing to agree on a bill.

Senators approved the control bill late Wednesday 83 to 4 despite misgivings by some members of both parties. A few Democrats warned that Congress would come to regret giving Nixon such vast economic controls. Sen.

Barry M. Goldwater, R-Ariz., said he had a "strange and ugly feeling" the controls would be on for the rest of his life: "I pray to God I am wrong," Goldwater said.

As passed by the Senate, the bill carried a number of provisions only reluctantly approved by the White House. Among them, it would give government workers and servicemen a 5.5 percent pay raise on Jan. 1 at a cost of about \$2 billion a year—instead of delaying it until July 1 as Nixon wanted.

The Senate bill would extend until April 30, 1973, Nixon's powers—unprecedented in peacetime—to control almost all aspects of the economy through whatever machinery he sets up.

Fairfield nearly nation's coldest

FAIRFIELD—Fairfield's low temperature of 12 degrees below zero was within one degree of being the coldest in the nation this morning.

The National Weather Service reported that a temperature of 13 below zero in Boonville, N. V., made it the coldest spot in the nation.

Fairfield has 10 inches of snow on the valley floor and there is a 20 inch layer at the Soldier Mountain ski area. More snow is expected in the Magic Valley area tonight from a storm approaching Idaho.

Cambodian forces in retreat

Cambodian youth leads patrol

PHNOM PENH (UPI)—A hands of the Communists. The force of 20,000 Cambodians had called for more U.S. air support earlier this week but it failed to halt the red drive.

The retreat left 25 miles of Highway 6 in Communist hands and there was speculation the whole road to the north would have to be abandoned, thus cutting off Phnom Penh from the major city of Kompong Cham and Kompong Thmar, 66 and 77 miles north of Phnom Penh.

Baray and Kompong Thmar were the second and third major areas to fall into Communist hands in the last September the government's current North Vietnamese offensive.

U.S. fighters and bombers were called in to destroy tanks the south of Baray, fall late in October with the loss of more than 400 troops.

Labor charges confusion Seen...

Holiday shopping

WASHINGTON (UPI)—Labor sources said today the Pay Board is beset by chaos and confusion, leaving the country in doubt about how to apply for wage increases.

"The Pay Board still has no detailed rules, regulations, procedures or forms," said one labor source on the 15-member panel. Another union official said that because of the situation the Internal Revenue Service, which enforces the wage controls, has been putting a rigid 5.5 per cent lid on pay raises, making no exceptions for unusual or inequitable situations.

The official said this "represents a substantial change in the procedures and policies of the Pay Board," which has said the 5.5 per cent yardstick is a general rule not necessarily to

be applied in all cases.

"There's an air of chaos and utter confusion at the Pay Board," the labor official said. The source on the panel added that "there's utter confusion out across the country on how to file for wage increases and get them approved."

The Pay Board reportedly was studying a proposal that would exempt workers at all firms with fewer than 100 employees from wage controls, if the workers involved were not represented by a union or other collective bargaining agent. There was opposition to the idea, however, from some board members who felt that no segment of the economy should have a blanket exemption.

The under-100 exemption would not include construction

workers, whose wage hikes still are subject to the construction industry stabilization committee set up in April.

The coal industry, meanwhile, protested Wednesday's Price Commission decision to allow the Old Ben Coal Co., a subsidiary of Standard Oil of Ohio, a 3.75 per cent price increase instead of the 6.71 per cent hike the firm requested.

"If, with one hand, the

government has approved a wage contract, another hand of government cannot legitimately compel the industry to operate at a loss," said Carl E. Bege, president of the National Coal Association. "If the formula issued today by the Price Commission as we now understand it is applied industry-wide, it will impair the ability of the coal industry to meet the critical energy needs of the nation."

Casey Weigt embarrassing husband Harley with "the boys"; Wanda Adams Christmas shopping; Lucille Wilcock and Harold Lancaster going into courthouse basement to look at items to be auctioned; Merl Leonard and Wally Savage discussing new building; Ruth Rushton talking about season old tickets; Mabel Lash not looking forward to busy Christmas season; Larry Hauber talking about youth rehabilitation programs in Idaho; Paul Corder looking over jail remodeling plans; Heber Loughmiller back on the job after visit to hospital; Chuck Koehn and Gary Braun waiting on customers; Mr. and Mrs. Doran Cluer and Mrs. Russell Pate, all Fairfield, shopping in Twin Falls; Capt. Kenneth Johnston eating in restaurant; Sgt. Ralph Sifford taking hot off at downtown; Earl Faulstich displaying musical toys; Bob Harvey hanging clothes on rack; and overheard, "About this time of year he always announces big plans for next summer's yard work, but he forgets them by spring."

Police investigate purse snatchings

TWIN FALLS — Twin Falls Police are investigating two incidents of purse snatching.

Officers said Mrs. Edna Durham, Twin Falls, was knocked to the ground and relieved of her purse by a young man Wednesday afternoon. The incident occurred about 2:20 p.m. on Blue Lakes Boulevard North.

Officers said the man approached Mrs. Durham from behind, grabbed her shoulder

bag and ran. After he had run for a short way he dropped the purse, which was recovered by the victim. The suspect had removed between \$4 and \$5 from the purse.

On Tuesday a young man grabbed a navy blue purse from Amy Butler as she was walking in the 300 block of Third Avenue North. The woman said a young man jumped from the bushes, grabbed her purse and ran. The purse, which contained no money, has not been recovered.

Widow awarded 'Muse' by court

NEW YORK (UPI)—A shapely blonde entered the Guggenheim Museum Wednesday and walked out with an \$80,000 masterpiece by sculptor Constantin Brancusi, thus ending an 11-year court battle that had made front pages.

Mrs. Illeana Lindt was accompanied by two deputy sheriffs on her surprise morning visit to the small-shaped museum overlooking Central Park. It was two years and five days since the State Supreme Court had awarded her possession of Brancusi's "The Muse" and she was tired of waiting for the museum to surrender it.

They didn't want to give it up, but what could they do? I had the sheriffs with me."

Museum officials refused to comment. The Guggenheim had been willed the Brancusi, an egg-like white marble head cradled on a hand, by Arde Bulova, board chairman of the Bulova Watch Co. Inc., who died in 1938. His widow, Illeana, claimed ownership of "The Muse" in 1962 but failed to win her case in lower courts.

These courts held that although she bought the sculpture at auction for \$7,000 her husband had paid for it. By 1969 the case had involved 40 judges and reached the State Supreme Court which ruled in Mrs. Lindt's favor. A New York Times story on the ruling brought 4,000 persons to the museum to view "The Muse" the next day.

Henderson's jurors still deliberating

FT. MEADE, Md. (UPI)—The jurors in Col. Glyn K. Henderson's court-martial on charges of covering up the My Lai massacre studied their notes in private Wednesday while awaiting arrival of three additional witnesses they want to hear.

The panel of two generals and five colonels might conceivably call still other witnesses, which could further delay the trial that started Aug. 23.

Henderson, who was commander of the American Division's 11th Infantry Brigade in Vietnam at the time of the massacre March 16, 1968, is charged with failing to follow orders to investigate and report on the incident.

Two of the three additional witnesses the jury requested Tuesday are to appear Friday. They are Lt. Col. Henry J. Lowder, now stationed at the Pentagon, and Carl Greawell, an Episcopal clergyman who was chaplain of the artillery unit at the time of My Lai.

The third witness, Fred Blaney, was being subpoenaed from Chicago where he is a student, and his appearance

Troops shoot gunman

BELFAST, Northern Ireland (UPI)—British troops shot a gunman in Londonderry today. In Belfast, thousands of Northern Ireland families invited British soldiers to spend Christmas with them, an army spokesman said.

An army spokesman said soldiers wounded the gunman when a car pulled out of the Roman Catholic Bogside area of Londonderry, screeched past an army roadblock then reversed in an attempt to ram the soldier who flagged down the vehicle.

Troops at the roadblock fired rubber bullets at the reversing car and smashed the rear window. A soldier fired two shots into the car when a gun barrel poked through the jagged edges of the smashed car window and a passenger slumped forward, the spokesman said.

The Belfast spokesman said Northern Ireland families "by the thousands" have invited

British soldiers to spend Christmas holidays in their homes.

"It's a terribly difficult question from a security point of view," he said. "We don't know even what the situation will be like at Christmas. But the invitations have been coming in by the thousands."

He said there was "no way of telling" whether the invitations were coming from both Protestant and Roman Catholic families. "I would not want even to attempt a comment on that," he said.

This statement came only

hours after the government of Northern Ireland and its arch-enemy, the Irish Republican Army (IRA), rejected any suggestion of a Yule truce in their continuing conflict over the six-county British province.

The IRA, which seeks to separate Northern Ireland from Britain and unite it with the predominantly Roman Catholic Irish Republic, underscored its no-truce stand Wednesday night with a chain of bomb attacks in Londonderry, an army spokesman said.

Four bombs went off within minutes of each other in the shadow of the city's centuries-old walls on the fringe of the Roman Catholic Bogside area. Three civilians sustained slight injuries.

Army sources said the military was apprehensive over soldiers visiting private homes for Christmas because of consistent hostility shown the troops, especially by minority Catholics.

Trustees asked to violate rules

BY LEE TREMAINE
Times-News Writer

TWIN FALLS — The Idaho Superintendent of Public Instruction has advised Idaho school districts to violate the regulations of the Federal Pay Board, according to a Twin Falls law firm.

The firm, Parry, Robertson, Daly and Larson, retained by Twin Falls School District No. 411, analyzed a recent directive from Dr. F. Engokling, state school chief, regarding pay for teachers under terms of the federal controls.

Engokling's advice, in part: "Therefore, it is my

recommendation that such school districts deduct the payments made on the contracts through the month of November for the total contracted amount, divide the balance by the number of months remaining under the contract and pay such amount beginning with the December check."

This means that a teacher holding a contract with increased pay which was withheld during the federal freeze on salaries is to be paid the full amount of the contract, including the increase, over the rest of the year.

Fred D. Decker, an attorney with the firm, advised in a letter released by Twin Falls school Supt. George Staudaher that: "This advice is in direct contradiction to Section 201.19 of the Pay Board's regulations which provides:

"Payments of scheduled increases in wages and salaries for services rendered by employees after Aug. 15, 1971, and before Nov. 14, 1971, which were not made because prohibited by the freeze may be made retroactive only if approved by the Pay Board."

The legal counsel advised that "The only way that increased pay can be made is to treat it as post-Nov. 15, 1971, raise and amend the contract to provide for the raise. The raise should be considered a pay raise under the 5.5 per cent limitation and reduces the school board's options with respect to raises for next year's contracts by the amount of raises granted by contract as post-Nov. 15, 1971, raises."

The Boise School District will correct the situation created by Engokling, the letter said, in a new letter which "would be circulated among the superintendents of schools in Idaho."

School districts must "request permission to pay the retroactive pay increase for the Aug. 15 to Nov. 15, 1971 period directly to the Pay Board in Washington, D. C."

Other school boards may pave the way with appeals to the federal authorities, eliminating "the necessity of a direct appeal by School District No. 411," the legal analysis said.

Staudaher said the Twin Falls School District has not decided whether to appeal or to wait for action by other districts.

"We don't know where we stand at this point," Staudaher said Wednesday.

He conferred with Engokling by telephone Wednesday and said that "Engokling insists he's right and the federal authorities are wrong."

Hopefully, Staudaher said, the situation can be cleared up before checks have to be made out late this month.

ALFRED H. MATTHAEUS

Inflation exported, says aide

TWIN FALLS — America is exporting its inflation to the rest of the world, Alfred H. Matthaeus, senior vice president of Charter Street Corp., Seattle, told the Twin Falls Rotary Club Wednesday.

Matthaeus discussed the adverse effects of the lack of gold backing for the American monetary system and its contributions to inflation.

Observing that inflation is "killing American business," he said one major cause of inflation is printing of vast amounts of dollars.

Matthaeus also discussed natural gas and oil reserve problems facing the United States.

Jail remodeling delayed

TWIN FALLS — Planned remodeling of the Twin Falls County Jail this year will probably be delayed another week until a meeting of city and county officials is held to review a joint law-enforcement plan.

William L. (Bill) Chancey, chairman of the county commissioners, said the county budgeted \$50,000 for jail improvements this year but has delayed the work until the feasibility study of CTA-Architects, Engineers and Planners could be completed. A report on the study was presented Tuesday afternoon.

Chancey said the county will probably go ahead with part of the jail remodeling since the study recommendation calls for such improvement as the initial step. However, he said, the county wants to know the thinking of city officials and law enforcement officers before taking any action.

The jail is on the fourth floor of the courthouse.

Sheriff Paul Corder said the proposed plans as presented for remodeling have been on file with his office, and the county commissioners for some time. He said first phases of these plans could be started without any conflict in the overall proposals should the city and county accept the recommendations of the study.

Initial needs, he said, are for a visitor area which will provide proper security; and for

juvenile facilities. These could be provided by remodeling the present sheriff's apartment into a detention area.

One of the principal factors of the study now being reviewed by city and county officials is the use of the present O'Leary school property for a future jail facility to serve a county-city or even regional need.

In this way it would join the present judicial building and the proposed city-county law enforcement administration building proposed on the present courthouse property.

George Staudaher, superintendent of schools, said the district would be ready to negotiate for the sale of the junior high school property at any time, but he said the CTA estimate of \$90,000 is far below the district's opinion of the property value. He said the location and size of the property should represent a much greater value. The former Twin Falls High School, the building

is old but sound but the area is no longer suited to school use, he said.

Staudaher said the school could continue to serve in its present use for 10 years or so, but the district would be willing to talk sale at any time the county and city are interested.

Practical nursing schools in the United States reported 53,080 students enrolled in October, 1970, up 4,738 over the preceding year.

Burglars take 3 brief cases

TWIN FALLS — City police reported Wednesday three briefcases were stolen by burglars.

Robert Teeter, Twin Falls, said someone entered his unlocked 1970 sedan Tuesday night or early Wednesday and took a brief case containing personal papers. He said the burglar ignored a camera in the car.

Blaine L. Shaffer, Earl Drive, told officers a blue Air Force raincoat and a brief case were taken from his automobile while it was parked in front of his home Tuesday night.

Harold Morris, Twin Falls, said his 1968 sedan was parked and locked in the driveway beside his home on Dorlan Drive and he discovered

someone entered it, possibly because a window was rolled down about a half inch.

A large brief case containing tools for IBM computer equipment was taken. He valued the loss at about \$300.

Two other car burglaries were also reported Wednesday.

John Loder, East Drive, told officers someone broke into his parked 1962 sedan by breaking a left rear window. A stereo and several tapes valued at \$80 were taken.

Bob Colner, Route 3, said two bottles of unopened and newly purchased liquor were removed from his pickup truck when he left it parked at Magic Valley Drug on Addison Avenue West Tuesday afternoon.

\$4,400 grant given

TWIN FALLS — The Twin Falls High School English department has received a \$4,400 Right to Read grant from the Elementary-Secondary Education Act, Title II Special Purpose Grant fund.

Mrs. Cam Howard, head of the English department, said the money was from a statewide allotment of \$80,000 especially

for the reading program and will be distributed for the improvement of education.

Local distribution of the grant, Mrs. Howard said, will be primarily for library catalogued and processed resources, books, periodicals, and other printed and published instructional materials.

Retires

BOISE (UPI) — Dr. Alfred M. Popma, coordinator and regional director of the Mountain States Regional Medical Program for the past five years, is retiring as of Dec. 31. It was announced Wednesday.

Dr. John W. Gerdes, deputy director, will serve as acting regional director of the program for Idaho, Montana, Nevada and Wyoming until a successor is chosen.

WHAT IS THE BEST GIFT YOU CAN GIVE YOUR CHILD? A LOVE OF LEARNING

Many children find it hard to keep up with the fast pace of learning and get behind. Soon they are discouraged and lose all desire to even try to learn.

We have found that many times a little extra help in the right areas makes all the difference in the world.

Two-Way Race

Even at this early date it is very apparent that the Republican race for the United States Senate seat now held by Senator Jordan — and to be vacated when he retires next year — will be a two-way affair.

Opinions expressed "off the cuff" by area leaders of the Republican party put Cong. James McClure and former Congressman George Hansen as the two who are really in the race.

Cong. McClure, at the present time, is the favorite. Mr. Hansen is taken as a close second.

say his task is "all" the harder because he was defeated when he sought a Senate post the first time and was soundly defeated by Senator Frank Church, a Democrat.

Idaho Democrats have yet to come up with any suggestion of candidates capable of defeating either Cong. McClure or Mr. Hansen.

Sign Language

Road signs and highway markings are being internationalized, in an effort to make highway directions standard in most countries.

Symbolic signs are not entirely new. They have been used for such conditions as curves and crossroads for years.

Carrying out the theme, the FHA also is employing sign shape and color to denote various road hazards.

diamond-shaped a warning, vertical rectangle a traffic regulation and horizontal rectangle guidance information.

In colors, red and green continue their traditional stop and go designations.

Highway striping also will be undergoing some changes, but for the moment this is enough for one memory lesson.

Like how to apply visual aids to the car's controls.

WASHINGTON, — Rep. Pete McCloskey is dropping some curious hints for an avowedly dedicated anti-Nixon crusader.

Unquestionably another potent motivating factor is the likelihood McCloskey may be redistricted out of Congress.

McCloskey's 11th District is very apt to be extensively modified — to his disadvantage.

The strident California Democrat's backing — which would be lost to him in a projected geographic reshuffling.

has won him some cheers from dovish students, but the general public is giving no evidence of being impressed.

As one veteran local observer remarked: "So far, McCloskey is running like a dry creek. I'm beginning to wonder whether he'll stick it out until March."

McCloskey is finding himself in the unhappy position of being a loud and clamorous crusader with a vanishing cause.

McCloskey is sadly discovering that — which may explain those hints about jumping the traces and joining the Democrats.

to junk the \$500 million military credits for Israel, the Senate wrote into the multi-billion dollar defense money bill.

"AND AWAY WE GO, AGAIN"

Senate Critics

WASHINGTON, — They lost this one, but Senate critics of our gargantuan espionage establishment have refused to buy the argument of the first Queen Elizabeth's State Secretary, Sir Francis Walsingham, that "Knowledge is never too dear."

Led by Sen. Stuart Symington, D-Mo., an economy bloc in the upper chamber was put down by a 56 to 31 vote in its attempt to limit total spending by all the various spy shops to \$4 billion for the fiscal year starting next July 1.

committee. As part of the audience when intelligence submits to private questioning by select Congressional groups, Ellender is presumed to possess at least an inkling of what's going on.

But no. Ellender admitted under questioning on the floor that he did not know in advance about the CIA's financing of an army in Laos.

tolerate this "dangerous situation. From such lack of information come such hasty actions as the Gulf of Tonkin resolution, which escalated a brush fire war in Vietnam to a full-scale conflict.

Peace Weapon

TOKYO (NEA) — Just at the time the United States is questioning the whole idea of foreign aid, Japan is putting more and more faith in it as a way of stabilizing insecure, underdeveloped lands.

And, since Japan's mood of pacifism is deepened, a military club in the closet would hardly be viewed as a credible deterrent by potential aggressors against this country's weaker Asian neighbors.

characterized as "too self-concerned" with long-term severe and short-range.

As part of this picture, too much aid is linked with trade benefits for Japan. Aid recipients must often have to agree to buy Japanese goods in return for help.

The assistance is not diversified enough to promote the long-range stability of recipient countries, especially in Asia.

GEORGE C. THOSTESON, M.D. Breast Cancer

Dear Dr. Thosteson: I am aware that women can develop breast cancer, but is it possible for a man?

When I was 14, a lump about the size of a nickel developed in both breasts. Some of my friends had the same thing. They were very sore at first but within a year the soreness subsided but the lump and swelling remained.

A general practitioner said they would probably go away when I was in my early 20s, but I am 24 now and the lumps are still there.

Breast cancer is possible in the male but it is rare, constituting less than 1 per cent of all breast cancer cases.

It is true that a lump is one of the first signs of cancer, but there are many causes of lumps. In your case, you've had the lumps for 10 years with no further signs; add to that the fact that breast cancer in a man when it occurs is usually when he is in his 60s or later; there are nipple changes in half the cases, and a bloody discharge in about one-sixth.

If you are still worried, you could have mammography done — an X-ray technique commonly used in women with breast lumps that have to be identified.

Or, perhaps preferably, have the lumps removed. There would be little disfigurement, and the exact nature of the lumps could then be ascertained positively.

Dear Dr. Thosteson: I read the letter from the woman with the problem of fibreglass particles in things from being washed with draperies of that material.

Several years ago I had the same experience. Those particles are worse than the "jokesters" "itching powder," and they do make the skin burn.

My thanks in behalf of anyone who can use this novel suggestion. At our house, after one sad experience, we learned not to wash anything else along with fibreglass fabrics.

Dear Dr. Thosteson: Does a conjunctival hemorrhage leave any permanent impairment of the eye? — T. H. M.

No. The eye looks scary but the blood is rapidly absorbed. The hemorrhage occurring as it does, on the outside of the eyeball, does not interfere with vision.

Frankly, John, I don't care about the Gallup Poll, or the Harris Poll — what does Jimmy the Greek say?

MR. SPECTATOR

A Real Happy Time

It was a real happy time at the home of Mr. and Mrs. Jess Winters, Glens Ferry, the other day. In fact, it was Thanksgiving.

The celebration also was for the 89th birthday of Mrs. Angie Holloway, Twin Falls, mother of Mrs. Winters. The five generation affair included Mrs. Angie Holloway and her daughter Mrs. Blanche Winters, Mrs. Marjorie Pack, her great-granddaughter, Sharron Pack, her great, great granddaughter, and Mrs. Betty Wise, her granddaughter.

The dinner of the day was, we were informed, a pleasant affair and aside from the five generations mentioned guests included Mr. and Mrs. Reed Pack and daughter Shannon; Mr. and Mrs. Floyd Wise, Jr., and their son Don. In the afternoon Mr. and Mrs. Wayne Holloway, Gooding, were among those dropping in to wish his mother a Happy Birthday.

Which all goes to prove that the American family unit, as an institution, has not all gone down the drain.

Giveaway Dept. We have four healthy kittens we must give away. Some of them have long hair. If interested please call 733-0930.

BELIEVE IT? A meeting of psychologists heard

some experimenters' report on work with rats to see how people, some day, may get some help from their brains in regulating their appetite and weight.

Chemicals may be all right in their place, but have the experimenters considered the usefulness of the power of suggestion? Mr. Spectator would point out the story of Pavlov's dogs — and how they salivated, finally, at the sound of a bell even when not accompanied by food — is known to all laboratory psychologists.

And that brings up the story of the two cockroaches. In a dark corner of the kitchen a cockroach was munching happily away on a bit of last Friday's fish or something equally odorous, when another cockroach came running up.

"Something awful is happening," said the courier. "The housewife is going around the house with a mop and a scrub brush. Can't you smell the soapuds?"

The first cockroach choked, then carefully laid down his tidbit and turned to the other one. "Please!" he said severely. "Not while I'm eating."

This is not to suggest that people who want to reduce must have their appetite taken away in any such brutal manner, through the sense of smell, but must they take drugs to do the job?

Moreover, except for a few privileged members, Congress has no idea how intelligence spends this vast sum.

Two much of it is private business assistance and too little is from government sources. The private aid is

Lindsay calls for urban progress

HONOLULU (UPI) — New York Mayor John V. Lindsay, a possible Democratic presidential contender next year, called Wednesday for a new national commitment to reform and urban progress.

Lindsay told the 48th annual convention of the National League of Cities annual meeting that cities "can do their share" and are "massively capable of running their own affairs." But he said there still is no "substitute to massive federal commitment."

"Let us not delude ourselves that there is any substitute for a sound economy," Lindsay said.

"Without federal support, the job cannot be done."

"We have an increasing number of poor, unemployed blacks, a crisis in our courts, and an endless war in Vietnam. We never should have started and should have had the guts to end years ago."

"The future of the nation and the cities are one," he said. "We cannot have peace in our cities until America is at peace."

In other action, the chairman of the federal Cost of Living Council said no immediate conclusions should be drawn from the Price Commission's decision allowing coal compa-

nies to recover only two-thirds of the cost of increased unloading.

Noting that Wednesday's decision in the Old Ben Coal Co. case was only "one of many," Donald Rumsfeld told a news conference:

"I don't believe that anyone looking at the activities of the Pay Board or the Price Commission should necessarily assume, from any single action, that they can predict what that pattern is."

Rumsfeld said "a great deal has been accomplished" by Phase Two of President Nixon's new economic policy.

Symbol only

NEWARK, N.J. (UPI) — The black mayor of Newark says a board of education decision to install black liberation flags in city schools is merely a symbol and will not concretely advance the cause of education.

"The flag remains only a symbol which cannot teach our children to read," Mayor Kenneth A. Gibson said Wednesday.

"I must question the board's wisdom in projecting symbols at a time when we have made very little progress toward quality education."

John Gervase, a white school board member and all attorney, filed suit in Essex County Court Wednesday seeking a restraining order against the board's decision.

Five board members, four blacks and a Puerto Rican, voted unanimously Tuesday night to install the red, black and green "black power" banner in all schools with a black majority.

"The overwhelming majority of black and white citizens of this city abhor and are shocked by this flagrant display of irresponsibility," Gervase said.

Powell praised

WASHINGTON (UPI) — Senate liberals who oppose William H. Rehnquist's nomination to the Supreme Court praised fellow nominee Lewis F. Powell Jr. Wednesday as one of the "courageous men" in Virginia who was determined not to engage in massive resistance to court-ordered school desegregation.

The joint statement by Sens. Birch Bayh, D-Ind., Edward M. Kennedy, D-Mass., John V. Tunney, D-Calif., and Philip A. Hart, D-Mich., assured Powell's confirmation by the Senate, very possibly by a unanimous vote.

The same four members of the Senate Judiciary Committee accused Rehnquist Tuesday of "a dangerous hostility to the great principles of individual freedom under the bill of rights and equal justice for all people."

Top black resigns

WASHINGTON (UPI) — Arthur A. Fletcher, one of the administration's highest ranking blacks, has resigned from the U.S. delegation to the United Nations, the White House announced Wednesday.

President Nixon accepted the resignation in a "Dear Art" letter, the White House said. "Without you, moving the ball is going to be tougher," it said Nixon told Fletcher.

Fletcher will become executive director of the United Negro College Fund Board. The administration had shifted him from assistant labor secretary to the United Nations only a few months ago.

The resignation becomes effective at the end of this month. Fletcher was not immediately available for comment.

The White House deputy press secretary, Gerald L. Warren, said Fletcher would continue as chairman of the White House's Domestic Council Working Group on Economic Discrimination "until the work of the committee is finished."

Fletcher was a chief proponent while at the Labor Department of the "Philadelphia Plan" requiring employment of more persons of minority races in the construction industry.

Life cuts

NEW YORK (UPI) — Life magazine, which plans to cut its circulation by 1.5 million in January, will eliminate approximately 80 to 90 jobs this week in an economy move.

Managing Editor Ralph Graves told a hastily called staff meeting Wednesday that about half the jobs would be editorial and the other half would be in circulation, advertising and noneditorial fields.

Life is facing an economic squeeze and has decided to cut its circulation from 7 million to 5.5 million beginning with the Jan. 14 issue.

Uruguay election called big fraud by runner-up

MONTEVIDEO (UPI) — The runner-up in Sunday's Uruguayan presidential elections charged Wednesday that the apparent victory of government candidate Juan Maria Bordaberry was based on a "gigantic fraud." He called on the armed forces to "intervene."

Opposition Blanco Party candidate Wilson Ferreira Aldunate accused the interior minister of rigging the vote and said that "votes from the interior were deliberately mixed with those of Montevideo" to produce what he said were false results.

He said the elections were a "gigantic fraud" and called on the nation's armed forces to "intervene" and clarify the situation.

Interior Minister Danilo Sena immediately denied the charge.

The latest official total gave Bordaberry 503,000 votes to Ferreira's 382,218.

Advertisement gets proposal results

YUMA, Ariz. (UPI) — An 18-year-old girl who advertised for a husband got a lot of proposals and finally has chosen one.

Mario Savino, who said she had to get married to keep her family legally together, said she picked the "most honest" suitor, a 22-year-old Lebanese pre-medical student who reacted to her as a way of proposing.

The pair tried to tie the knot Wednesday at Winterhaven, Calif., but the chapel refused them a license because the girl did not have her required birth certificate.

"He is not well-to-do," Miss Savino said of her future husband, named "Bob" Kallon, "but he is the most honest one, the one person who is right for me."

The girl's story was told in the front page of a Phoenix newspaper Monday along with a telephone number. Her telephone has been ringing since. Miss Savino said her father was dead, her mother severely ill, and she was forced to care for her sisters, ages 2, 4, 13 and 16.

Double trial law defined

BOISE (UPI) — Idaho's Supreme Court said Wednesday the constitutional prohibition against double jeopardy does not bar a second prosecution unless the same offense is involved in both trials.

In doing so, the court held the prohibition against placing a person twice in jeopardy for the same offense does not bar a prosecution for perjury committed by a defendant testifying in his own defense at a former trial which resulted in conviction of a substantive offense.

The affirmation of a Twin Falls court decision stemmed from the December, 1969, trial of Delbert Lee Crawford on a charge of exhibiting a deadly weapon.

During trial Crawford denied having had a gun in his hand on the night in question, contending the item was a jack handle. He was later prosecuted for perjury.

In August, 1970, Crawford was convicted of having committed perjury and was sentenced for a term not to exceed three years. The high court held since perjury is a different offense than exhibiting a deadly weapon Crawford's perjury conviction should be affirmed.

In another case, the Supreme Court held that a seller cannot claim forfeiture of a contract and subsequently accept the purchase money subsequent to the terms of a contract. The court affirmed a trial court decision which held acceptance of such payments meant the seller could not maintain a suit to forfeit the contract.

The Supreme Court also af-

firmed consolidated appeals from Sixth and Seventh District Courts which had held portable irrigation equipment owned by Clair Kracaw and Sons, Inc., to be exempt from taxation. The high court noted the counties involved did not tax similar equipment where it was located on assessable property.

Holiday time off slated

BOISE (UPI) — State employees at the discretion of department heads may use Christmas Eve and New Year's Eve for compensatory time days, and banks, if they wish, may close their doors on those dates, it was announced Wednesday.

Gov. Cecil D. Andrus, making the announcement, said his office will be closed those days under the compensatory time provision.

Andrus based his announcement on a ruling from Attorney General W. Anthony Park, who pointed out Christmas and New Year's Eves were not included in the days to be considered official state holidays.

Park's opinion said, however, when a holiday falls on a weekend, the day closest to the holiday — in this case Friday — may be used as compensatory time days for state employees.

Hall of Fame

THE LATE BILL PICKET, who originated the rodeo event of steer wrestling about 1900, tonight will become the first black cowboy enshrined in the National Rodeo Hall of Fame, a division of the National Cowboy Hall of Fame and Western Heritage Center in Oklahoma City. Induction ceremonies will be held during tonight's performance of the National Finals Rodeo, the sport's world series. (UPI)

Sniper kills N.M. official

TUCUMCARI, N.M. (UPI) — The district attorney of this northeastern New Mexico town near the Texas border was shot to death Wednesday in front of his home by a sniper using a high-powered rifle.

Police roadblocks were set up encircling the county seat. Texas authorities also set up a watch.

Victor C. Breen, district attorney since 1951, was killed instantly by the shot which struck him as he was getting into the driver's seat of his car. Robert Rowley, Breen's law partner, said two shots apparently were fired by the sniper, who sat in a light colored car about 200 or 300 feet away. Only one of the shots struck Breen, 55.

Rowley said the sniper was apparently the only man in the car. He said witnesses were unable to determine the make of the automobile.

Officials could not come up with a motive for the slaying. Breen was on his way to try a murder case against Danny Joe Jimenez, a 17-year-old youth charged with the slaying of 86-year-old Mrs. Myrtle Spence of Tucumcari.

Appointed

BOISE (UPI) — Gov. Cecil D. Andrus announced appointment Wednesday of Howard Schrag, Post Falls, as director of the Idaho Office of Child Development in the governor's office.

The new office, one of the first of its kind in the nation, is a federally funded program through the national office of child development of the Department of Health, Education and Welfare.

Gem commission formed

BOISE (UPI) — Attorney General W. Anthony Park, chairman for the Idaho Bicentennial celebration commemorating the 200th anniversary of the signing of the Declaration of Independence, announced Wednesday formation of the Idaho Bicentennial Commission.

Park said the commission will hold its first meeting in Boise Dec. 17 and said that three members will probably discuss proposed legislation to formally establish and fund itself.

The commission presently exists under authority of a governor's executive order. Park said the commission will coordinate activities for Idaho in observance of the bicentennial era and will work with the National Bicentennial Commission for development of Idaho's programs.

Members include State Sen. Edward High, R-Twin Falls; Mrs. Angela Butterfield, Fort Hall; Dr. Merle Wells, director, Idaho Historical Society; Mrs. Thelma Christiansen, Moreland; Margus J. Ware, Lewiston; Mrs. Dorothy McCann, Wallace; and D. John Caylor, American history professor at Boise State College.

Cheese recalled

BOISE (UPI) — The Idaho Department of Health relayed a Food and Drug Administration warning Wednesday that the Rollete brand cheddar cheese in four or eight ounce packages should not be eaten.

Carroll Despain, chief of the milk and food sanitation section of the Department of Health, said 35 separate complaints of poisoning involving 143 persons have been directly attributed to the cheese.

He said the cheese products were sent to approximately 100 wholesalers nationally who supply a large number of retail stores, including some in Idaho.

An expanded recall was begun when numerous cases of moderate to severe gastroenteritis were reported and when tests by the FDA revealed enteropathogenic *E. coli* bacteria in the products.

Almanac

By United Press International Today in Thursday, Dec. 2, the 138th day of 1971.

The moon is new.

There are no morning stars. The evening stars are Mercury, Venus, Mars and Jupiter. Those born on this day are under the sign of Sagittarius. American statesman Frank Kellogg was born Dec. 2, 1856.

On this day in history:

In 1804 Napoleon Bonaparte crowned himself emperor of France in Paris.

In 1851 Napoleon's nephew, Louis, overthrew the 3rd French Republic and proclaimed himself Emperor Napoleon III.

In 1942 the atomic age was born when scientists working under a football stadium at the University of Chicago demonstrated a self-sustaining nuclear reaction.

In 1964 Pope Paul VI was greeted by 24 million persons as he visited Bombay.

A thought for today: George Bernard Shaw said, "There are no secrets better kept than the secrets that everybody guesses."

Children's group eyed

By MARJORIE LIERMAN
Times-News Writer

FILER — Plans for an eight-county association for retarded children are under way, Chet Bartlett, Twin Falls, official of the Child Development Center, said today.

Strong approval of forming the Magic Valley-wide group, as well as sheltered workshops and selection of a steering and nominating committee marked the Tuesday evening meeting of interested persons at the center.

Named to the committee were Mrs. Gene Glenn, Mrs. Fred Maughan and Mr. and Mrs. Richard Clark, all Twin Falls; Jim Arbaugh, Jerome; Bernadine Fillmore, Burley, and Miss A. Moncur, Rupert, a teacher in the Minico school.

Mrs. Gladys Coxen, Twin Falls, was also named to serve on the committee which will meet next week to fill a slate of nominees and make needed laws and bylaws. The next meeting of the entire organization is set for Jan. 11 in Twin Falls.

The group agreed the organization should include all the eight counties of Magic Valley and that meetings should be held in the different areas. All agreed on the need for sheltered workshops to employ the handicapped, and also stressed the need for boarding homes for clients who live some distance from Twin Falls.

Bartlett told of the center and its program and explained the needs of the workshops. He introduced E. E. Jellison, director of Live, Inc., Boise, who told how the Boise organization began in a small way when concerned people started a business to employ handicapped people in a small building at Gowen Field, and now Live, Inc., has become a large concern.

Since it is a non-profit organization, it pays no taxes, and all proceeds are put back into the corporation. Recently another building in Boise has been acquired to add to the growing business.

Jellison displayed a number of articles made at the Boise concern, including rugs and rubber mats, made by blind people, also wind chimes, ribbon bows, hanging baskets, magnetic brooms and mops. He stated the main product now being made is floor mats for trailers. Also made in large quantity are survey stakes for the highway departments which are sold all over the United States.

Mark Litvin, Vocational Rehabilitation Service, had planned to address the group but was unable to attend because of illness.

Lola Darnell, Boise, Vocational Development Center, Inc., told how handicapped persons are being evaluated and placed in jobs in nursing homes, the Idaho Elks Rehabilitation Home, St. Luke's Hospital and others.

"The purpose of the vocational center is to provide occupational therapy and evaluation to help the handicapped to the fullest usefulness of which he is capable," said Miss Darnell, who told how clients are interviewed after being referred from Vocational Rehabilitation centers, school systems, health centers, parole boards and by individuals.

After being interviewed, the clients are given pre-training periods to find the job most fitted for them, and when able to be placed in jobs, are given employment. Many clients eventually are hired on full-time basis and can become self-sustaining individuals.

A film showing how Alabama and Georgia are succeeding with their vocational-rehabilitation programs was shown, after which the large group was divided into six smaller groups for discussion sessions. A coffee and get-acquainted hour preceded the business meeting.

Disease down

DETROIT (UPI) — Detroit is the 1971 elm inspection revealing making progress in the war against Dutch elm disease with 8,600 positive disease cases.

10 hurt in blaze

BLACK SMOKE billows up from lingering flames where a series of explosions ripped through a Standard Oil gasoline and oil bulk storage yard at Visalia, Calif., Wednesday. The blasts destroyed a sheetmetal warehouse in the yard and damaged nearby houses, smashing windows as far as a mile away. Only 10 persons were injured in the explosions and there were no deaths. (UPI)

TF commissioners asked to continue assistance

TWIN FALLS — County Commissioners were asked in a meeting Wednesday with John Owens, Boise, acting director, and Lawrence Hauber, district supervisor of the Idaho Youth Rehabilitation Division, to continue their financial assistance for another year.

The county has assisted during the past year in part of the salary for Helen Henderson, state youth rehabilitation officer assigned to this county, and one secretary who serves both Mrs. Henderson and Hauber.

Commissioners were told Wednesday the state legislature failed to appropriate funds to cover all of the state program and some help from the counties is essential to the youth rehabilitation program.

Since Jan. 1, when the court reform program

began, the entire youth rehabilitation system has become a state program and Owens said the office is working toward complete state financial support of the offices.

In the Fifth Judicial District, Hauber serves as supervisor, headquartered in Twin Falls, with youth rehabilitation officers assigned to counties in the district, including Twin Falls, Cassia and Minidoka.

Commissioners told the state officials they will take the request under consideration, but will also call a meeting with all state legislators of the county for next Tuesday to discuss necessary steps for state financing of the division. Commissioners asked Owens and Hauber to attend the meeting if possible.

Administration willing to settle Meany dispute

WASHINGTON (UPI) — The administration is willing to settle its bitter dispute with AFL-CIO President George Meany by accepting legislation to restore to workers wage increases lost during the wage-price freeze, top Senate leaders said today.

Chairman John Sparkman, D-Ala., of the Senate Banking Committee and Sen. John G. Tower, R-Tex., the committee's ranking Republican, said the White House had decided not to fight retroactive pay to millions of workers who were denied raises during the 90-day freeze.

Tower said the administration also has given up its fight against an amendment adopted by the Senate to grant a 5.5 per cent pay increase to the

government's civilian and military employees on Jan. 1. President Nixon had sought to postpone the increase until July 1.

The increase will add \$1 billion to the government's deficit of \$28 billion this fiscal year—the largest peacetime deficit in American history.

Church foresees action to preserve Box Canyon

(Editor's note: Mrs. Chd, who represents the Times-News in the Gooding area, has been in the east on vacation. She will return to Idaho soon.)

By PEGGY CHU
Times-News Writer

WASHINGTON, D. C. — Sen. Frank Church, D-Idaho, says special legislative action may be necessary to preserve Box Canyon and the Thousand Springs area.

Sen. Church said in an interview here prior to his trip to India and Pakistan that he had visited with George Hartzog, director of the National Park Service, about the possibility of creating a national monument in that area.

Hartzog informed Sen. Church that in the past this designation was used for preserving an existing site and not for restoration, the Senator said. However, a representative of the park service may be sent to Idaho to inspect the area.

If a national monument designation is not possible, then a special bill may be required, the Senator said. The objective of this bill would be to restore the entire Thousand Springs area, Church said.

He said this will require hearing in the Magic Valley and the cooperation of state officials and Idaho Power Co., but at this

point plans are too tentative to know the best course of action. Earlier, a telegram from Church was read at Bureau of Land Management hearings in Gooding at which testimony was presented in connection with the proposed diversion of water for fish hatcheries in the Box Canyon area. The Box Canyon Spring is the largest of the Thousand Springs and one of the largest in the United States.

Senator Church left a meeting of the Senate Foreign Relations Committee to meet with this Times-News writer at the Capitol Building. He sat in the

foyer outside the closed doors of the committee room and spoke freely about the importance of saving Idaho's natural resources.

"I would like to see the Thousand Springs restored to at least a shadow of its former self," he said. "I have visited it many times and it is a unique facet of Idaho." When asked about the progress of the White Clouds bill, he said he expects the House of Representatives to act on the proposal before the end of this year.

Overriding question said war imminence

By PHIL NEWSOM
UPI Foreign News Analyst

As the United Nations begins another debate on the Middle East, the overriding question is whether another Arab-Israeli war is imminent.

Egyptian President Anwar Sadat says it is. Cairo dispatches quote him as saying "there is no alternative to battle... this is our decision and there is no going back on it."

In Lebanon Christmas lights glow along Beirut's fashionable Rue Hamra. It's Egypt's war, says the Lebanese.

Even in Cairo there is

Analysis

evidence of a split personality which on the one hand places troops on the alert and dims city lights but on the other permits tourist spots and casinos to operate full blast.

There was nothing new in what Sadat said. He had, in fact, been saying it since last July 23 when he declared, "I shall not allow 1971 to pass without the battle being resolved, either by war or by peace."

With constant repetition there was increasing wonderment whether he was painting himself into a corner where renewal of the fighting would become inevitable.

Egyptians, accustomed to extravagant rhetoric from among their leaders, speculated on what possible avenues Sadat had left open to himself for peaceful settlement and fall back on humor.

A story current in Cairo declares that instead of extending the Mideast cease-fire, Sadat will issue a decree extending 1971.

What seemed most likely was that both Sadat and Israel were aiming their remarks beyond their own borders toward world opinion, Sadat attempting to create an atmosphere sympathetic to Egypt in advance of the U.N. debate and counting upon the big powers to prevent a large-scale resumption of the conflict, and Israeli Premier Mrs. Golda Meir using Sadat's speech-making to press the United States for more Phantom jets.

Confident

ON ARRIVAL at nearby Andrews Air Force Base, Md., Israeli Prime Minister Golda Meir told a news conference she hoped that fighting would not erupt in the Middle East, but if it did she was not worried about the outcome. Mrs. Meir, in the U.S. on a private visit, was to meet with President Nixon today at the White House. (UPI)

Low-lead gas 'bombed at pump'

By LOUIS CASSELS
United Press International

In the matter of low-lead gasoline, the U.S. consumer is not putting his money where his mouth is.

A couple of years ago, a great hue and cry went up from the public (or at least, that vocal portion of it concerned about air pollution) demanding that oil companies "get the lead out" of gasoline.

Lead Tetraethyl, a widely used additive which raises the octane rating of gasoline and reduces engine knocking, was depicted by aroused environmentalists as a major villain in contamination of the atmosphere.

Responding to what sounded like a widespread public clamor, major oil companies rushed into production and distribution of low-lead or lead-free brands of gasoline.

And did the American consumer hasten to take advantage of this opportunity to do his part in combatting the air pollution he professes to fear so greatly?

He did not. In the jargon of the oil industry, low-lead gasoline has "bombed at the pump."

Finding that low-lead gasoline means lower performance or higher cost, or both, the vast majority of motorists are still filling their tanks with the usual brands of leaded gasoline.

Last year, only two per cent of the gasoline bought by American motorists was of the low-lead variety. Since many 1971-model automobiles were specifically designed to utilize low-lead gasoline, the oil industry is hopefully anticipating it will be able to sell a bit more of the stuff this year.

The original rationale for removing lead from gasoline was that it contaminates the air. But the legs were cut off this argument by a recent report from the National Research Council stating that the amount of lead which gets into the air via gasoline "poses no identifiable threat to the general population."

Less spending

MANILA (UPI)—Household spending of the Philippines increased at a rate of 3.9 per cent last year, compared with 6.1 per cent in 1969, government statistics show.

Squad lures Briton

BELFAST, Northern Ireland (UPI)—Detectives said today they believe an Irish Republican Army (IRA) execution squad lured a British soldier into a death trap visit to friends in Northern Ireland.

Detectives and British army probes said a man found two days ago lying beside a road at Teer, Crossmaglen, about 20 miles southwest of Belfast was Pvt. Robert Benner, 25.

They said Benner had been shot through the head at close range and apparently was the fourth British soldier lured to his death this year. He was off duty and wearing civilian clothes.

Earlier in the year, three members of the Royal Highland Fusiliers, two of them brothers, were shot and killed when gunmen lured them to a lonely road overlooking Belfast.

Detectives said they were trying to piece together Benner's last movements, and theorized he may have been on the way to visit friends in the Crossmaglen area.

In Belfast, a gunman fired and wounded a 15-year-old boy who was walking in the Roman Catholic New Lodge Road area of the city while wearing a green jacket army officials said was similar in color to those worn by British troops.

Northern Ireland spent a quiet night, one of its few in two years of almost uninterrupted four-way bloodshed involving the province's Protestant majority, Roman Catholic minority, the troops and the IRA.

The IRA's avowed aim is to unite Northern Ireland by force with its Roman Catholic Irish Republic under the republic's flag.

Questions abound

SORTING THROUGH stack of telegrams received by Pay Commission in Washington, D. C., is Voe Fisher, clerk for commission. Messages are part of flood received by panel asking clarification of its rulings on price increases during Phase II of President Nixon's economic recovery program. (UPI)

Nixon appeals to youth vote, leadership

CHICAGO (UPI)—President Nixon, appealing to the 18-year-old vote, said Wednesday that the voice of the "young majority" is needed in the political process and the abilities and insights of young people are needed in forming public policy.

In a prepared address to 2,000 delegates to the National Aft Congress, Nixon said: "Certainly the time when the young are to be seen and not heard is gone from America—gone for good."

Citing a tendency on the part of youth to reject campus strife and anarchy and to work within

the system, he said "opinion surveys have detected a rising disgust with political radicalism even in the stronghold of the counterculture."

"As these new attitudes have taken hold, young America has passed from its unrest recent years into a bright new morning," he said. "College turmoil has subsided sharply—not in resignation but in wisdom. High schools and young working people, the next declared target of the radicals,

have not caught fire." Nixon flew here after presiding over a National Security Council meeting—it was his fourth trip to Chicago this year and fifth to electoral-vote rich Illinois.

Speaking in the ballroom of the Conrad Hilton Hotel, Nixon told the youthful audience that they were not only witnesses to the new developments but leaders in them.

"You could not be leaders in a more important cause," he

said. "For the more convincingly the young majority demonstrates its resilience and levelheadedness, the faster you will find the so-called Establishment responding to your hopes and opening to your aspirations."

He said the young are no longer going to be treated as "a mass, or bloc, in this country" and that America was moving rapidly to take them into "full partnership as individuals."

Red China endorses Guinea war

UNITED NATIONS (UPI)—Chinese Ambassador Huang Hua told the 15-member security council Tuesday the Republic of Guinea was fighting for the sovereignty of all African states in its dispute with neighboring Portuguese Guinea (Bissau).

Huang made the remarks during a council debate on a charge by Guinea that Portuguese troops were preparing another attack on its territory.

The security council, in a statement read by its president, Eugeniusz Kulaga of Poland, upheld its previous decision ordering Portugal to respect Guinea's territorial integrity and independence.

A group of armed mercenaries landed in Guinea a year ago. Guinea officials said the invasion was instigated by Portugal, which denied the charge.

A special U.N. group sent to investigate the incident supported Guinea's claim.

Toastmasters name Finney president

TWIN FALLS — Ron Finney was elected president of the E. Perrine Toastmaster Club during a meeting this week at Kay's Supper-Club.

Bill Foster is educational vice president; Charles Green, administrative vice president; Ed Barker, secretary-treasurer, and Ken Glasby, sergeant-at-arms.

The blue pencil for table topics went to Art Sellin and Jack Holland won the blue pencil for best speech.

Speakers included LeRoy Baker, Ken Glasby, Holland and Finney.

Devert Douglas was the presiding officer, with Adrian Arp giving the invocation. Bill Foster was table topic chairman; Elmer Little, toastmaster, and Arp, Umer, Kent Klirk was general evaluator.

It was announced the Jerome club would like to have a Christmas meeting with husbands and wives with the local group.

GENNY POPPELWELL

Summer wedding planned

BUHL — Mr. and Mrs. C. Lee Poppellwell, Buhl, announce the engagement of their daughter, Genny Lee, to Vaughn Ferris Sweet, son of Mr. and Mrs. Ferris I. Sweet, Twin Falls.

Miss Poppellwell was graduated from Buhl High School in 1968 and will be graduated in May from the University of Idaho, with a degree in elementary education. She is affiliated with Kappa Kappa Gamma Sorority.

Sweet was graduated from Twin Falls High School in 1968 and is a senior at the University of Idaho, majoring in veterinary science. He is a member of Sigma Alpha Epsilon.

An early summer wedding is planned.

White collar

The look of the white collar girl, immortalized in Christopher Morley's "Kitty Foyle," is all over the place in spring collections. White collars and white cuffs are in-for day and some designers carry the look over into evening. Most of the collars lie flat.

Major attention grabbers

NEW YORK (UPI)—The platform sole, the wedge, and the ankle strap grab the major attention in the new footwear collections for spring.

All actually are a throwback to the 1940s. All were high style with the movie-glamor-girls-of-the era.

Some of the platforms are an inch deep, the wedges raising women to new heights with their solid, wedge-shaped sole from heel to toe. Those ankle straps, go on the wedges, the platforms and on open-work sandals with higher (two inches and more) heels.

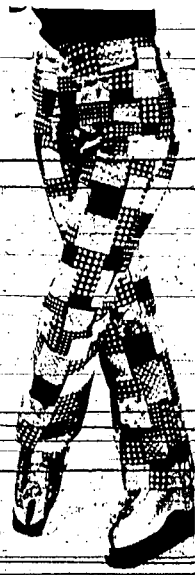

These were some of the shoe trends outlined this week by the American Footwear Institute, representing the bulk of the industry. The institute was one of the participants in the American Designers Group shows underway all week for visiting fashion reporters from newspapers, television and radio.

The Institute says there's something for every woman; maybe she doesn't want that bulky wedge. Then there are sandals "naked as jaybirds" right alongside the traditional pump and other covered-up silhouettes.

Many of the pumps are designed with block heels, some low and sturdy, others with the higher stacked heels. Higher heels seem on their way, although many women say they won't wear them, won't give up the getting-around comfort of lower heels.

Patent always is a big spring seller, but spring '72 will see a rebirth of suede, soft-brushed for sports and dressy kid in sandals and ties.

Boots don't leave the scene just because warm weather's ahead. They do have more open work and new materials include white burlap with silver eyelets.

ASPEN SKIWEAR'S EXCITING LADIES' FASHIONS

Loser named by Hansen TOPS group

HANSEN — Mrs. Paul Bowman was named best-loser of the week at the Slim and Trim TOPS Club meeting this week at the home of Mrs. Thomas Stasell.

Mrs. Judy Miller, a Murtaugh TOPS Club member, was a guest and signified that she planned to transfer to the Hansen chapter. She recently moved to Hansen.

Plans were made to entertain the Measure-Ups, winners in a recent contest with the local group. Mrs. V. L. Wilson was appointed to determine the place to meet. Mrs. Bryson Vinyard, Mrs. Barbara Curtis and Mrs. Lewis Morris will plan the entertainment, and Mrs. Bryan Harris Jr., assisted by Mrs. Percy Christensen and Mrs. Morris, will make name tags.

Mrs. Morris was program chairman and hostess. She introduced Mrs. Ray Joalin who displayed paintings made by Mrs. Hazel Schutte, Mrs. Marlan Skeen, Mrs. Afton Dopson and Mrs. Morris, all members of the club.

Magic Valley Favorites

MRS. BUD WATKINS
Box 667, Castletford

SERVICEMAN'S CHOCOLATE CHIP

- COOKIES**
- 2 cups butter
 - 2 cups brown sugar
 - 2 cups white sugar
 - 4 medium-size eggs
 - 2 teaspoons vanilla
 - 6 cups flour
 - 3 teaspoons soda
 - 1/4 teaspoon salt
 - 4 cups chocolate chips
 - 2 cups nuts

Cream butter, add sugar and blend. Beat eggs and vanilla and add to first mixture. Add chips and nuts.

Sift dry ingredients together and add. Dough should be stiff. Stir and drop by round balls. Bake at 350 degrees for 10 minutes or until done. Makes 140 cookies.

The Times-News will pay \$5 each week for Magic Valley Favorites. If you have a favorite recipe, just mail it to the Recipe Department, Women's Page Editor. The

recipe becomes the property of the Times-News and cannot be returned

With Knickers

Knickers look great with a turtleneck top and stockings to match the top. Or you can wear boots with the knickers. But make sure the bottom of the knickers and the top of the boots meet so there's no space in between.

Rain and Shine

Itain and shine coats for the fall have more style and flair this year. Try the mild for the rain season—practical and fashionable.

Blushing Beauty

Cream blusher blends into the skin so it doesn't look like added color—but part of your own natural blush.

Christmas Seal volunteers keep busy year around

NEW YORK (UPI) — Christmas seal volunteers, like the penny-apiece stamps from the National Tuberculosis and Respiratory Disease (NT-RD) association, work year around — not just during the Yuletide.

The pennies from the Yule stamps around the calendar help to finance research and education in the field of respiratory ills — from smoker's cough to air pollution-irritated lungs.

A group of Yule seal volunteers in Chicago is known as "court watchers." These volunteer smog fighters spend several hours a month observing — and reporting — what happens to suits the city of Chicago brings against alleged violators of the environmental control ordinance.

The "court watchers" also provide a week by week account of environmental control progress, an invaluable and continuous bank of data that is amplified by their personal observations.

"I wouldn't do it if I thought it didn't make any difference," says Mrs. Diane Vrbancic, 30, a housewife and mother of three.

"I think it is great that things are getting done in courts that otherwise wouldn't get done."

Mrs. Vrbancic is one of 10 volunteer Christmas Seal court watchers from the Gads Hill

section of Chicago. In Kansas City, Mo., Christmas Seal volunteers operate a telephone hotline to receive complaints about pollution. Such hotlines also operate in California and Ohio.

In Cleveland, Ohio, Christmas Seal volunteers conduct "eco tours" of the industrial area known as the Flats. Literature for the tour includes explanation of industries and description of pollutants that may be seen. It includes a form for recording heavy pollution and naming the source.

In Hartford, Conn., Lucie Broadbent, 11, sponsored a Christmas seal fair for clean air. It was held in her backyard. There were games to play, food to buy, and prizes donated by businesses.

The proceeds, \$141.31 — exactly, were given to the Christmas Seal Association for purchase of air sampling equipment to be used by teenage scientists gathering data on the pollution problem.

"There's a little bit of the ostrich in all of us," says 1971 national Christmas Seal chairman, Jack Lemmon, himself an ardent spokesman for clean air.

"But volunteers like the 'court watchers' are helping us to pull our heads out of the sand. So are the Christmas Seal volunteers manning pollution

hotlines, setting up recycling depots, helping to test auto emissions, testifying at hearings — and doing thousands of other useful tasks.

Fashion perfect

MODELS for the forthcoming Psi Chapter, Beta Sigma Phi, fashion revue include, picture at left, from left, Mrs. Dick Dey, Mrs. Joe Steffens and Mrs. Jess Wilson. Showing fashions from the Paris Co., Mrs. Dey models hoipants, Mrs. Steffens, a pantsuit, and Mrs. Wilson an evening gown for the holiday season. In the junior set, showing fashions from Kiddie Villa, are, from left, little Debbie Carroll, 3, David Steffens, 3, and Randy Day, 5. Debbie is modeling a pink polyester trimmed dress with white and black polka dot polyester and doggy applique; David, a toddler vest suit from Danny Dare made of polyester and cotton, and Randy, a leather banded vest suit of polyester and cotton. The luncheon and fashion show are set at 12:30 p.m. Dec. 5 at the Turf Club.

Jerome sorority plans fashion show, luncheon

JEROME — Psi Chapter of Beta Sigma Phi, Jerome, will hold a style revue and luncheon Dec. 5 at 12:30 p.m. at the Turf Club, Twin Falls. A baron of beef smorgasbord will be served and the latest styles from the Paris Co. and Kiddie Villa will be shown.

The style revue will include the latest in fashion in after-five evening wear, street dresses, ski fashions, pantsuits, hot pants, hoodies, gowns and coats.

Models for the afternoon event include Mrs. Donny (Sandy) Weigt, Mrs. Shey (Cheryl) Patterson, Mrs. Jess (Cheryl) Wilson, Mrs. Kelvin (Sharon) Jones, Mrs. Joe (Rose) Steffens, Mrs. Will (Marsha) Reid and the unit's Sweetheart Queen, Mrs. Duane (Mary) Carrell, who will model evening wear.

Children models will be Debbie Carroll, 3, daughter of Mr. and Mrs. Duane Carrell; David Steffens, 3, son of Mr. and Mrs. Joe Steffens; Randy Day, 5, son of Mr. and Mrs. Dick Dey; Jennifer Adams, 7, daughter of Dr. and Mrs. Jack Adams, and Jan Patterson, 9, daughter of Mr. and Mrs. Shey Patterson, all Jerome.

Alternates will include Mrs. Gerald (Regie) Luther, Mrs. Bob (Pat) Morris and Mrs. Bill (Cheryl) Watts.

Entertainment will be provided by Mrs. John (Marcella) Miller.

Hostesses will be Mrs. John (Rena) Perfect, Mrs. Gail (Susie) Gunning and Mrs. Jon (Carol) Wilmoth.

Narrator for the show will be Mrs. Jack (Diane) Adams. Hair styles by Mrs. Carroll. Stage arrangers are Mrs. Dey and Mrs. Warren (Peggy) Ward, and sound system, Mrs. Terence (Charlotte) Fitzpatrick. Pictures will be by Mrs. Jerred (Ginger) Irish.

Table arrangements will be provided by Mrs. Bill (Carol) Stennett and Mrs. Irish.

Dressing assistants include Mrs. Jerry (Angie) Jacobson and Mrs. Ken (Sharon) McRae.

Mrs. Wallace (Linda) Ekren and Mrs. Gary (Arlene) Anderson will take tickets at the luncheon.

Marquee poster was done by Mrs. Perfect and poster distribution was handled by Mrs. Anderson and Mrs. McRae.

Anyone wanting to obtain tickets for the luncheon and revue are asked to contact Mrs. Steffens, 324-4048, Jerome.

Mrs. Steffens said that all women in Magpie Valley are welcome to attend.

Notice!

The Times-News finds an increasing number of stories appropriate for its women's pages. Because of the premium on available space, stories must be selected on the basis of currency.

All stories pertaining to the women's pages must be brought to the Times-News no later than two days after the meeting to be considered for publication.

Wedding pictures and stories must be brought within two weeks of the wedding. As in the past, a \$5 fee will be charged for two-column wedding pictures and a \$2.50 fee for engagement pictures.

Some ways to stay alive during holiday season

NEW YORK, N.Y. — It is hard to think of the crisp, green Christmas tree tradition that has brought joy into the home for so long as a prime factor in holiday tragedies.

The Council on Family Health, sponsored as a public service by the manufacturers of medicines, points out, however, that fire officials regard the improper selection and care of natural and artificial Christmas trees as a major cause of home fires during the months of December and January.

Fire Department and those made of 100 per cent polyvinylchloride (it's easier to pronounce than it looks) good sense, in decorating the home. Lighted candles, for instance, should never be placed in a window.

The council also urges parents to warn children about the dangers of playing with Christmas decorations of all types and to use caution and good sense in decorating the home. Lighted candles, for instance, should never be placed in a window.

Christmas Tea scheduled Monday

TWIN FALLS — The annual Christmas Tea given by the Magpie Valley Memorial Hospital Auxiliary for hospital employees, doctors and their wives will be Monday, Dec. 6, from 1:30 to 4:30 p.m. in the hospital auditorium.

The Christmas party is under the direction of tea chairman Mrs. D. A. Jackson, and her committee. Auxiliary members are urged to attend the party and serve as hostesses. Snacks should be worn.

Mrs. Cleo Shaddy, Christmas decorations chairman, has set up the dates for the annual hospital trimming project. Wednesday, Dec. 7, and 8, members will make and assemble decorations; Wednesday, Dec. 15 and 16, will be used to decorate the floors and trim the various trees that will be used this year in the hospital.

Pink Ladies who have signed up to assist with this project should be at the hospital at 9 a.m. on the dates specified.

A Lovelier You GIFTING, THEN AND NOW

By Mary Sue Miller

Do you sometimes think the true pleasures of the coming holiday season have escaped you? Gifts were once knitted, baked and whittled. Effort, time and thought went into them. A homemade gift, although a trifle, was rewarding to give, to receive.

Of course, in these frenetic times, the very idea of making everything you give may seem less feasible than tucking 10-cent diamonds in the toes of all your friends' stockings. But a few evenings devoted to homework would conjure up the smell and warmth and sense of holiday.

A young mother of six we know, bakes two dozen fruit cakes with all children itching in to help. A teen makes marvelous bread and freezes it until delivery time. Aunt M. contributes whole-cranberry sauce in decorative glass jars. If you happen to pop in on the act, the scene and the fragrance bring tears of nostalgia to your eyes.

One fragrance memory begets another of a different sort. Potpourri and pomander come to mind. Store-bought, both are elegant. Fashioned by loving hands, they are just as sweet. The ingredients are found at health-food shops and ecology-oriented drugstores.

To list but a few of the possible ingredients, there's rose petals, lavender flowers, arslroot, quality cloves, cinnamon, benzoin, oil of sandalwood, lemon, geranium, tincture of musk. Let the purveyors guide you. Have a merry!

MODEL TIPS FOR TEENS
Fifty ways to ideal skin and natural makeup for young adults ages 13 to 19 are detailed in my booklet, MODEL TIPS FOR TEENS. Advice covers corrective skin care; how to use makeup to accent good points and play down less-than-perfect-making-ticks. For your copy, write Mary Sue Miller in care of this newspaper, enclosing a long self-addressed stamped envelope and 25 cents in coin.

1971, Publishers-Hall Syndicate

Hints

Rotate curtains and drapes several times a year so that those exposed to strongest sun rays will get a "rest."

A good morale builder for a sick little girl is to arrange her bed in a glamorous way, perhaps adding a fresh ribbon. She may also feel a lot happier if allowed to wear one of Mommy's pretty bed jackets.

Hang all woolen jackets and coats on wooden hangers to prevent stretching, seams and wear marks.

Wary of additives?

MOSCOW (UPI) — Consumers who are wary of food additives may shun processed foods and make everything from scratch but they still use food additives, according to University of Idaho extension nutrition specialist, Ester H. Wilson.

She said some ingredients that are not commonly thought of as additives have been safely used for years. These include

spices, pectin, sugar, gelatin and salt, which are used to flavor and preserve food.

Mrs. Wilson said iodine was the first commercial food additive when it was added to salt in 1924 to prevent simple goiter. Since then fortifying bread, cereal products, milk and other foods with vitamins and mineral deficiencies, she said.

Holiday snacks for sale

TWIN FALLS — Civitan members in Twin Falls are looking to make holiday snacks in the Twin Falls area more enjoyable this year and at the same time help some worthwhile youth projects.

Club members, under the chairmanship of R. L. (Pete) Burnikel and Carl Schoele are selling the choice Claxton fruit cakes which have been in demand in the area in past years, and mixed nuts.

All members of the club will have items for sale, and additional information may be obtained by calling the chairman at 333-6508 or 333-6509.

Burnikel said proceeds will be used to help such civic projects as citizenship awards, scholarship and expenses for delegates to the youth seminar.

"FRUIT CAKE, anyone?" asks R. L. (Pete) Burnikel, co-chairman of the Civitan holiday sales campaign of fruit cake and mixed nuts. Funds from the event are used for civic projects by the club.

DEAR ABBY: I have been a lonely divorcee for nearly three years. I'm 45. Several months ago I met an attractive 50-year-old man who was (and still is) separated from his wife. This gentleman and I have been constant companions ever since our meeting, which is the nicest thing that has happened to me in a very long time.

Several weeks ago his wife started phoning me at all hours of the night. At first I was patient because I felt sorry for her. But now her calls have become frightening.

I have left my sweater off the hook for hours, but still she calls. I spoke to my companion about this, and he has spoken to her, but to no avail.

I don't want to get an unlisted number as I have friends all over the country who call me, and come to town occasionally, and these calls are important to me.

My companion says his wife is emotionally disturbed, and I believe she is. What's the answer? Should I put up with her calls until she decides to quit? Must I stop seeing my gentleman friend? Or should I take legal action to stop the harassment?

NEEDS ADVICE

DEAR ABBY: Don't take any legal action unless you are positive that both you and your constant companion are not vulnerable to some legal action from his wife. Until a man is divorced, he is married, you know, which places you in the position of coexisting with a married man.

DEAR ABBY: I am a boy, 15, and a high school sophomore. Recently we had school elections, and I was nominated for vice president of my class and I am wondering about the following situation:

Is it snobbish to vote for yourself in any kind of election? I'm not speaking only of the secret ballot when nobody else will know for whom you have voted, but in open elections when the voters raise their hands to cast their votes. I did this the other day (voted for myself in an open election), and now I feel terrible because I'm afraid some of the kids will think I am stuck up.

I would like your opinion on this. DAVID

DEAR DAVID: The Rabbi (Hillel) said, "If I am not for myself, who will be for me?" The rabbi was right on!

DEAR ABBY: I am 41 and am getting married for the first time. My fiancé is 39 and has called two wives. My problem is what kind of wedding to have.

I have always dreamed of having a big church wedding with a white gown and veil, bridesmaids and all the trills, but I am afraid that some of my friends and relatives would consider this bad taste.

I want my wedding to be perfect, but I care a great deal about what people say.

My fiancé is agreeable to anything I decide. I can well afford to have a large, church wedding, but I am wondering if perhaps a smaller, more quiet wedding wouldn't be in better taste? What do you think?

UNDECIDED IN BOSTON

DEAR UNDECIDED: A large church wedding would not be in "bad taste" since this is YOUR time. But since you are hesitating, I think you'd be happier with a smaller, more quiet one.

What's your problem? You'll feel better if you get it off your chest. Write to ABBY, Box 49706, Los Angeles, Cal. 90046. For a personal reply enclose SASE, addressed envelope.

Civitan sale

Old bill must be

MIAMI BEACH (UPI)—The American Telephone and Telegraph Co. has told the Democratic party to forget about telephones for its 1972 presidential nominating convention next July unless the party takes care of its old bill.

The Democrats still owe \$1.5 million to AT&T for telephone lines and equipment in the 1968 national convention in Chicago. Now AT&T has told Democratic chairman Lawrence O'Brien to either pay the old bill, put up a \$2 million guarantee payment bond or do without telephones.

"Like any residential customer, each convention customer may be asked to put up a deposit or a cash advance, depending on his credit rating and history," said Jack Peake, a public information spokesman for Southern Bell.

Peake said Tuesday that the guarantee payment bond is \$500,000 more than the 1968 bill because the convention will require more service at a higher cost than the last convention.

JAMEY GATHINGS February wedding planned

TWIN FALLS — Mr. and Mrs. James P. Gathings, Twin Falls, announce the engagement and forthcoming marriage of their daughter, Jamey Carol, to Sgt. Dave A. Miller, son of Mr. and Mrs. Norman Miller, Salunga, Pa.

Miss Gathings is a 1969 graduate of Twin Falls High School and was graduated from Twin Falls Business College in 1970. She is currently employed by First Security Bank.

Sgt. Miller is a 1968 graduate of Hemphill High School, Landville, and a 1968 graduate of Electronics Institute, Harrisburg, Pa. He is serving with the Air Force and has just recently returned from Southeast Asia.

A Feb. 19 wedding is planned.

Lodge fetes 4 members

HANSEN — Mrs. Thelma Stanger, Mrs. Hugh Sanderson, Mrs. Jessie Calico and Mrs. Arthur Adamson were honored at the Royal Neighbor potluck birthday anniversary dinner at Woodman Hall.

Tables were decorated in a Thanksgiving motif with turkey figurines, candles, fall branches and autumn leaves.

Mrs. Lewis Reed, Mrs. Ora Simpson and Mrs. John Brown decorated the tables and were members of the kitchen committee. Mrs. Reed made the cake.

Other guests included Mrs. Lulu Farrar, a former Royal Neighbor deputy for the area, Mrs. Laurence Corey and Mary Ann Payton, all Twin Falls.

Mrs. Minnie Bedow, Mrs. Vernon Ball and Mrs. Ovie Anderson planned the entertainment during the social hour.

Officers will be elected at the Dec. 14 meeting at Woodman Hall.

Television goof!

BEVERLY, Ohio (UPI)—For more than seven hours early Tuesday cable television subscribers in this southeastern Ohio community were presented two photographs of nude women.

Police said someone broke into a building owned by Sandix Radio, Inc., the cable TV firm, and taped the photo over dials showing the time and temperature. The dials are automatically scanned by a television camera.

Sandix officials said the break-in occurred shortly after midnight. They said they were not notified of the photos until shortly before 8 a.m.

Many American designers are dashing to dots for spring, showing all sizes of white dots on dark backgrounds usually. These are especially popular in blouses with large, floppy bows at the necks. Many times the jacket of the suits are lined in the same print as that featured in the blouse.

Valley Briefs

BURLEY — Burley-Rupert Shrine Club will have its annual Christmas dinner-dance at the Ponderosa Inn from 9 p.m. to 1 a.m. Saturday. Music will be provided by Kenneth Johnston and his group.

meet in the hospital lobby.

TWIN FALLS — Orientation for prospective Magic Valley Memorial Hospital auxiliary members will be held at 1:30 p.m. Friday at the hospital under the direction of Mrs. Jack Stephens and Mrs. Paul Carl. Interested persons are asked to

Hints

No more tangled threads on spools in the sewing box if you place a thumbtack on one end of the spool and twist the thread around it.

Before cleaning the face of an electric clock, disconnect the clock as a safety measure. Move both hands to 12 o'clock to expose maximum surface, then wipe face, hands and any glass door with a sponge wrung out of thick suds.

Curtains and draperies do as much to set the decor, or atmosphere, of a room as the furniture or the walls themselves.

Draperies

Draperies that are badly worn can be used to make covers for machines, as packing material and as dust cloths. Your first impulse may be to try to make slipcovers from such draperies. But don't unless the draperies pass this test: Wet a spot that has hung near center of window and pull with fingers. If damage results, don't waste time making slipcovers. The draperies are too worn.

Valley Briefs

TWIN FALLS — A Christmas party for all C. B. radio fans will be held at 8:30 p.m. Saturday in the Twin Falls IOOF Hall. Those attending should take a covered dish as well as dishes and silverware. Entertainment will be furnished and Santa will arrive with bags for the children. Door prizes will be given.

HANSEN — Rev. William Tucker and family moved to Fresno, Calif., where he plans to enter the evangelistic field. He has been pastor of the Hansen Baptist Church. A new pastor has not yet been named.

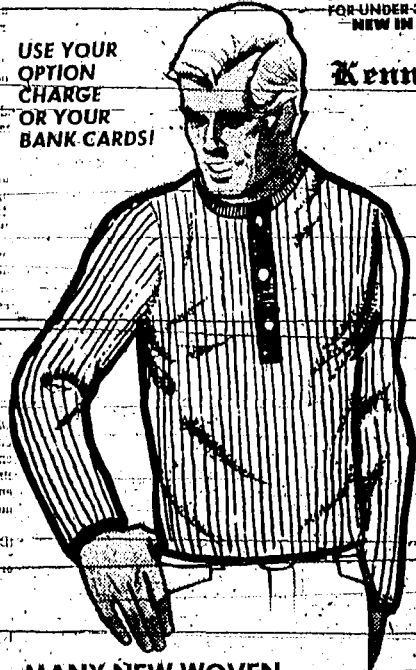

TWIN FALLS — All Panhellenic members are invited to the monthly meeting at 1 p.m. Saturday at the Colonial House. For reservations call Mrs. G. W. Burgess, 733-6650, or Boush Way, 733-2927.

Grand Opening

Idaho high court nominations box in Andrus

BOISE (UPI)— Idaho's Judicial Council has neatly boxed in Gov. Don D. Andrus with its recommendations for a new Supreme Court Justice.

Whether by design or by accident the council has put Andrus in an almost untenable political position with its four nominees for the vacancy created by retirement of Justice Clay V. Spear.

In case you missed the names — the nominees are District Judge Wett Prather, Coeur d'Alene; District Judge Sherman Bollwood, Rupert; Jerry V. Smith, Lewiston, and Robert E. Bakes, Boise.

Spear, at the time of his retirement, was the only member of the five-member court from northern Idaho. Two members are from Boise, one is from Pocatello and the other is from Halley.

Traditionally, be it right or wrong, Idahoans have sought a so-called "geographical balance" on their highest state

Analysis

court. ~~Therefore, no matter which~~ ~~side information say the vote~~ ~~He has called for investigation~~ ~~ed to amend the law creating~~ ~~the Supreme~~ ~~discussed the ways and~~ ~~whereof of a political event~~ ~~one of them ascribed it all to~~ ~~what he called "the golden~~ ~~Echocoe, from the rule "Do unto others~~ ~~No," he~~ ~~Statehouses: When a group of said "Those with the gold make~~ ~~the rules."~~

ally his wife, Justice Albert R. Shepard and Charles R. Donaldson, both of Boise, won election the same year.

Unless Andrus picks Prather or Smith, however, northern Idaho will lose its representation on the high tribunal.

Usually reliable sources indicate the Democratic governor is not overjoyed with his choices. Prather is a former Republican legislator. Smith, as a lawyer, represented a group tied on charges of distributing unsigned campaign material against Andrus in 1968.

"He has two political enemies and one personal enemy in north Idaho to choose from," said one observer.

If Andrus picks Bollwood that puts two men on the bench from the Magic Valley. If he picks

Bakes — an active Democrat — he brings to three the number of justices from Boise, and also brings charges of political expediency.

Therefore, no matter which side information say the vote He has called for investigation ed to amend the law creating the Supreme discussed the ways and whereof of a political event one of them ascribed it all to what he called "the golden Echocoe, from the rule "Do unto others No," he Statehouses: When a group of said "Those with the gold make the rules."

But, this way the law is written, he apparently must pick one of the four nominated by the Judicial Council unless he can get that body to reconsider its nominations.

The statute creating the council requires it to nominate between two and four persons for the post and it says the governor "shall" pick from those nominees.

In selecting the four it did, the council "whittled" them from among 21 candidates — including Mike McNichols, Orofino, son of U.S. District Judge Ray McNichols, and former Rep. Wm. J. Brauner, D-Caldwell. Sources who claim to have

side information say the vote was 4-3 against both McNichols and Brauner and 3-3 in favor of the four chosen by the council.

Whatever decision Andrus makes it will not be a hasty one.

ed to amend the law creating the Judicial Council, Andrus probably will not make such a suggestion but some disgruntled members of the Idaho Bar already are talking about it.

Not only are some of them

Ex-student files plea

RAVENNA, Ohio (UPI)— Larry Shub, a former Kent State University student, pleaded guilty Wednesday to first degree riot charges growing out of the 1970 campus disorders at the school where four students were killed by Ohio National Guardsmen.

Shub, 20, of Cleveland Heights, Ohio, was the third of 21 persons indicted by a Portage County grand jury to be tried on charges stemming from the disturbances which began May 2, 1970, and were climaxed two days later when the students were shot to death.

Jerry Rupe, 23, Ravenna, the first person to be tried, was convicted Tuesday of interfering with a fireman after the campus ROTC building was set on fire May 2, and charges against Peter C. Bilek, 23, of Rochester, N.Y., were dropped because of a lack of evidence.

After Shub pleaded guilty, the prosecution said it would ask that two other charges filed against him—second degree riot and attempting to burn a campus building—be dismissed. The defense requested Judge Edwin Jones to place Shub on

probation; Jones referred the matter to the Portage County Adult Probation Department.

Charges of first degree riot can be considered either a misdemeanor or a felony, a decision which will be made by Jones.

Under a misdemeanor, Shub could be fined up to \$1,000 and sentenced to one year in jail, or both. If a felony, Shub could receive up to, but not less than, one year in prison and not more than three years.

Richard Felber, 22, Akron, Ohio, Rupe's former roommate at Kent, is the fourth person scheduled for trial. He has been charged with burning a campus building. His trial was not expected to start until Monday.

charged the hunters with breaking a padlock on a gate to gain entry to the property of Harold Smith in Butte County for the purpose of hunting deer. Judge Phillips sentenced a 15-day jail sentence for each upon payment of the fine and costs.

The judge said this is the second time in the past few years the Smith property has been entered by forcing open a locked gate.

Smith told the court he locked the gate after numerous instances of persons ransacking a cabin, shooting livestock and taking property from the ranch.

Licenses suspended

TWIN FALLS — A Twin Falls man is one of three hunters whose hunting and fishing privileges have been suspended for two years on charges of trespassing to hunt on private property.

Glenn A. Phillips, Butte County magistrate, ordered licenses suspended for two years for Allen B. Swafford, Twin Falls, and his two companions, Lawrence D. Miller and Roy Dean Carter, Lewisville, after they pleaded guilty to the charge. Each was fined \$75 and costs.

A complaint issued Nov. 22

charged the hunters with breaking a padlock on a gate to gain entry to the property of Harold Smith in Butte County for the purpose of hunting deer. Judge Phillips sentenced a 15-day jail sentence for each upon payment of the fine and costs.

National Potato Council told action in big cities

BURLEY — A Los Angeles fruit shipper told the National Potato Council it "must go where the action is, and the action is in the big cities." Charles E. Glib, president of the Charles E. Glib Co., told the noon luncheon of the convention, "No one in the world can grow a product and think they can eat it in Burley, in Bangor."

He called upon the potato farmers to "organize," since, he said, "the name of the game is

money, and we have to make a profit and you have to make a profit." At the same time, he paid tribute to what he termed the "backbone" of the agricultural industry — "the integrity, love and sweat of the small farmer."

Glib urged the farmers to exploit means of shipping their crops to the major terminal markets of the country, and then into the market places across the nation.

He also called for "an

education" of the young American housewife, noting "in the year 2000 there will be 350 million people in the United States of America and all of them customers, hopefully eating potatoes."

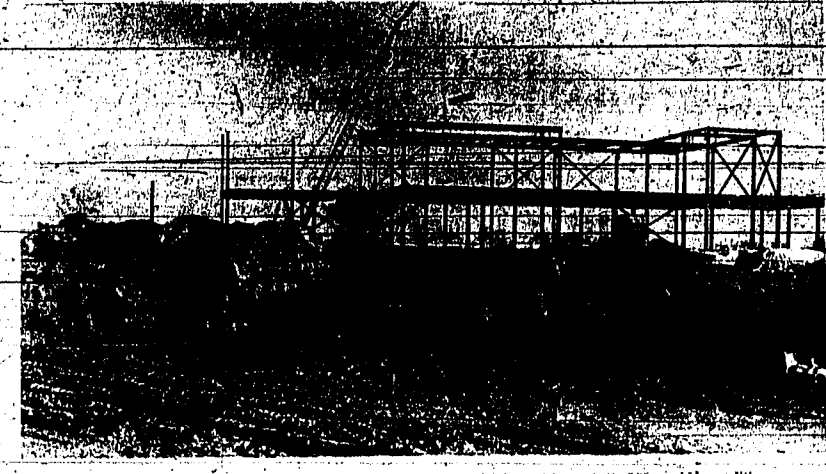

Glib singled out the airlines as "our salvation" in meeting shipping demands, because they would free the railroads to carry farmers' crops. At the present time, he said, "the railroad just runs a sloppy organization," and have left the

farmers disorganized as a result.

"If we'd get together and muscle them back, we could do something about this business," he said.

At the present, Glib said, "we go on and on and don't do a thing but talk about it."

Glib drew strong applause in his speech for an endorsement of Los Angeles Mayor Sam Yorty, who, he said, had "thrown" union organizer Cesar Chavez out of city hall in Los Angeles.

Muddy enterprise

DESPITE EXTREMELY muddy conditions resulting from rain and snow during the past week, construction of the Tupperware plant at the south edge of Jerome is proceeding. Construction crews are placing steel structural members for the plant frame. Workers at the site report their cars have been stuck in the mud frequently in the past few days.

Filer highway post contested

FILER — Filer Highway district election, scheduled for Monday, will have a contest between Thano Lancaster and John Orthel, both area farmers seeking the post of director from Subdistrict 3.

Lancaster, the incumbent, has served one four-year term and has indicated he will seek re-election. Orthel has filed a nominating petition.

Bill Olson and Harvey Maxson are holdover directors. Polls will be open from 1 to 7 p.m. Monday in the district office. Any qualified voter residing within the district may vote, according to Harold Huston, district secretary.

Gem workers hit by premium hike

BOISE (UPI) — Health insurance rates for state employees are being increased dramatically to make up a \$200,000 deficit, Legislative Auditor James A. Defenbach said today.

Defenbach read to the Interim Budget and Fiscal Committee a letter to all department heads from Gov. Cecil Andrus asking for a 33 per cent increase in state contributions starting Jan. 1.

He said a corresponding jump will be needed in employee contributions so that Blue Cross "can come out even" at the end of the current fiscal year.

Committee members raised serious questions about the looseness of a contract which would permit such an increase and suggested a legislative study of the problem.

After a brief discussion, however, it was decided to put the matter before the appropriate legislative committees which deal with insurance.

Tax payment deadline nears

TWIN FALLS — Taxpayers in Twin Falls County were reminded today by County Treasurer Ruth K. Jones of the 1971 payment deadline of Dec. 20 on all real property taxes.

She said her office will be collecting about \$504,416 more than last year on real property tax payments or a total of \$5,892,423. This bill is shared by about 17,000 real property owners in the county. Mrs. Jones said.

Richfield's voting site changed

RICHFIELD — Change of voting site has been announced for the Richfield Fire Protection district election Tuesday.

Residents of the district will vote at the Richfield Public Library between noon and 7 p.m. instead of at the fire house office, as previously planned.

Candidates for election are James M. Brown and F. M. Craythorn, both incumbents. Two trustees will be elected for terms of four years each.

Elections planned

JEROME — Jerome voters Monday will select new commissioners and directors for three highway districts, an irrigation district, and two fire control districts.

Two additional irrigation district elections are also slated for Dec. 14 in the county.

One commissioner will be elected for a four year term in the Jerome Fire Control District No. 1 on Monday.

Polls will be open from 1 to 5 p.m. at the rural fire station. Martin Block is seeking election and is presently serving the unexpired term of Del Houston, who resigned.

Write-in candidates will be accepted. All qualified electors living within the boundaries of Jerome Fire Control District No. 1 are eligible to vote.

The West End Fire Protection District will elect a four-year commissioner for Subdistrict No. 3. Polls are open from 7 to 9 p.m. at the fire hall in Paul and the Paul-D. Warner residence, 1450 West 325 South, Jerome County.

In the Jerome Highway District, one highway district commissioner to represent Subdistrict No. 3 will be elected. John Magnuson is incumbent. Polls will be open from 1 to 7 p.m. at the highway office on North Blvd., Jerome.

Three district commissioners for the Good Roads Highway District will be elected in balloting from 1 to 7 p.m. at the Sugar Leaf Grange Hall. Incumbents are Dale McClellan, William Hill and Ray Lickley. One commissioner for the Hilldale Highway District.

Subdistrict No. 3 will also be named. Electors will vote at Eden and Houghton City halls from 1 to 7 p.m.

The second division of the Hilldale Irrigation District will name one three-year director. Polls are open from 1 to 7 p.m. at the homes of Ernest Reed, John Rolce and Ethel McDonald.

In balloting on Dec. 14, two directors for the American Falls Reservoir District will be named. Positions are open in precinct No. 2 and precinct No. 3. Polls will be open from 1 to 7 p.m.

The A and B Irrigation District also will elect two directors, one for Division No. 1, presently served by Clark D. Higley, and Division No. 3, presently served by Dale E. Crabb. Polls are open from 1 to 7 p.m.

Hunter safe

CASTLEFORD — A Castleford hunter late returning from a duck hunting outing on Salmon Falls Creek was found about 3:30 a.m. today in good condition except for two bruised knees.

Twin Falls County Sheriff Paul Corder said the hunter, George Keith, 66, started hunting from Lilly Grade about 8 a.m. Wednesday. He was let off there by his wife, who was to pick him up about 3 p.m. at Balanced Rock, about seven miles away.

Keith failed to return at 3 p.m. Mrs. Keith waited for him until dark. She notified officers that her husband was missing about 8:30 p.m.

A search party was formed including the sheriff, deputies

Ketchum juveniles charged

KETCHUM — Petitions will be filed today in the Blaine County Magistrate Court against two Ketchum juveniles in connection with about 14 burglaries, according to Ketchum Police Chief Dennis Haynes.

Haynes said possibly a third juvenile was involved with the burglaries. He declined to give the ages of the youths.

The burglaries occurred during the past several months in Ketchum and Sun Valley with three committed in the county office buildings and summer homes were the main targets, he said.

No dollar value of the burglaries can be set at this time, Haynes said. The Ketchum Police Department was assisted in the investigation by Sun Valley Police Department and Blaine County sheriff's deputies.

Closed

SHOSHONE — Danger of snow slides has resulted in closing of State Highway 21 between Stanley and Layman, District Highway Engineer Howard Johnson said today.

Two directors retained by bean growers group

TWIN FALLS — Two directors were re-elected and a new member added to the board of the Bean Growers Warehouse Association in the 40th annual meeting Wednesday afternoon in the Holiday Inn.

About 200 members of the grower owned organization, representing all parts of Magic Valley, attended the afternoon business session.

Members re-elected Leslie R. Jones, Salmon Tract, and Jack D. Clalborn, Jr., Kimberly, to the board and named Wayne Lincoln, Filer, to succeed Ed Reithert, Filer.

In a board of directors meeting following the general membership session, directors re-elected Jones association president and Clalborn secretary. M. R. Cothorn, Buhl, was re-elected vice president.

Association officials reported the current year was a good one for the bean growers of the association with volume of both beans and grain showing increases. Manager Robert E. English told members the association continued to show progress over the previous year and production increased. He said prices have been good this fall with a better than average price level maintained since 1967, he said, the

Support sought on hobby center

TWIN FALLS — The Community Improvement Association, an association of low-income people seeking to find housing through group effort, was asked to support a planned teen-age hobby and recreation center in Kimberly during a meeting Wednesday night.

The association discussed the proposal with backer Kenneth Thacker, owner of the Kimberly Auction Center and Swap Shop during a long organizational meeting in the offices of the South-Central Community Action Agency.

The CIA was formally organized Nov. 22, with Gary Krefl elected chairman by acclamation. The group seeks to find solutions to problems facing low-income families without resorting to welfare and handouts, according to Krefl.

Thacker said he will provide space for hobbies and crafts for area young people on a self-maintaining basis, with those using the facilities paying for maintenance and utilities. He suggested upholstery, auto mechanics and similar hobbies as potential uses for the center, with adults and young people both utilizing the facilities.

Thacker said today he will schedule a meeting for 3 p.m. Sunday at the Kimberly Swap Shop on Monroe Street. All interested adults and young people should attend to discuss plans for the center and what activities they would prefer.

During Wednesday night's meeting, several self-styled opponents of "all welfare programs" appeared to discuss their opposition to the CIA program. Mrs. John (Judy) Holland, who had voiced her protests a week earlier, returned with several friends to continue her opposition to "welfare." Despite explanations by Krefl and other members of the committee that the CIA program is directly opposed to the welfare concept.

Further plans will be made to contact businessmen of the community in an attempt to obtain counseling on home buying and building at a meeting scheduled for next Wednesday, Dec. 8, at 8 p.m. in the CAA offices, located in the former St. Edward's School on South Avenue East between Shoshone and Second Street East.

Council eyes resolutions

BURLEY — Delegates to the National Potato Council consider several resolutions today, including one supporting legislation banning futures trading in potatoes on the nation's mercantile exchanges.

The Potato Growers of Idaho, meeting earlier this week in Burley, passed a similar resolution. A council member said Tuesday two bills are currently pending in Congress which would outlaw a practice he called "using potatoes like chips in a poker game."

In addition, the second business session of the three-

Nixon pledges senior help

WASHINGTON (UPI) — President Nixon pledged today to work for a minimum annual income for older people and to press for programs to reverse the "growing sense of isolation and insecurity" among people over 65.

In an address to the White House Conference on Aging, on the last day of a five-day meeting, Nixon also promised the 3,600 delegates to seek tax relief for the elderly.

Other pledges were improvement of private pension systems, upgrading of nursing home care, and expansion of programs to allow the elderly to continue contributing to society after retirement.

Moments before Nixon addressed the conference, the delegates approved resolutions asking for a minimum annual income of \$4,500 for an aged couple. They also asked for greater food stamp benefits, liberalized retirement laws and national health insurance.

These resolutions will be sent to Nixon as a part of the report of the conference, which Nixon called.

The President told the delegates: "As we consider your suggestions, we will be guided by this conviction: Any action which enhances the dignity of older Americans enhances the dignity of all Americans. For unless the American dream comes true for our older generation, it cannot be complete for any generation."

"This country will have to be at its best if we are to meet the challenges of competition in the world in the 1970s. And we cannot be at our best if we

Raps proposal

WASHINGTON (UPI) — Rep. Orval Hansen, R-Idaho, has sharply criticized a presidential check-off fund amendment to the tax bill, calling the proposal "nothing less than a partisan raid on the federal treasury."

Hansen said the amendment "jeopardizes the enactment of the much-needed revenue act of 1971 just at a time when the President's economic program is taking hold and could threaten our entire economic recovery."

used to this fact," Murphy said. Stating the reason for this, Murphy said, "The state government just can't keep up with the pay scales of private industry." He said the personal commission is presently working on the following problems:

Reducing the number of exempt state employees that do not fall under the personal commission.

Coordinating all state agencies so that they are all on the same pay scale. The agency pay scales now range from 10 to 10 steps, Murphy said.

He said the state agencies would like to have a pay scale that is the same as the federal government and private industry. When a state agency takes a position in state government he might as well get

House to house fund drive slated Monday

BURLEY — Monday has been set for a house to house fund drive for the Mini-Cassia Child Development Center.

Final plans for the two county drive were made during a meeting of workers and the finance committee this week. Gus Gerleman, finance chairman, directed the meeting which was held at Frank Motor Co., Burley.

The old armory building has been obtained to house the Child Development Center in Rupert. A federal grant has been received for staffing the center.

A social worker has already been hired and is now at work for the center.

William Strasser is chairman of the building committee.

Incorporation papers have been sent to an attorney for the Mini-Cassia Child Development Center, which is a satellite center to help residents of Cassia and Mindoka counties who have some type of learning disability or handicap. Eight such centers could be established in Idaho according to Dr. John H. Head.

Now funds are needed to maintain the building and do remodeling work as build rest rooms, panel two rooms, install lights, carpet and make office space. The armory building has been given rent free from the City of Rupert, but water, lights and heat must be paid for and a \$10,000 goal has been set to be raised in the one night fund drive, Dr. Head said.

Gerleman reported the receipts are being printed and will be ready for the one night fund drive which will be staged from 5:30 to 8 p.m. by the volunteer workers.

Volunteer workers in the Rupert area will meet at 5:30 p.m. in the Camp Fire building on Fourth Street and receive their block assignments.

Starting at 8 p.m. telephone pledges will be received by phoning 436-4791, and the telephone is being donated by Project Mutual Telephone Co.

Workers in the Burley area will meet at Frank Motor Co., 974 E. Main St. at 5:30 p.m. for their assignments and instructions for the fund drive. At 6 p.m. phone pledges will be received by calling 678-9021.

In the Paul area volunteers

will meet at the fire station and after they have completed the assigned area they will return to the Rupert Camp Fire building where refreshments will be served.

Heyburn volunteers will meet at the Heyburn school. When they have completed their areas will return to Frank Motor Co.

for refreshments and to turn in their donations.

John Anderson, treasurer for the Mini-Cassia Child Development Center has announced that persons wanting to donate to the center may mail their check to any bank in the Mini-Cassia area or directly to the Idaho First National Bank, Rupert, where the funds have been set up in an account.

Persons or organizations interested in assisting with the fund drive are urged to contact Gerleman, Mrs. Vernon Egbert, Mrs. Edward Knopp or Mrs. Rulon Ramsey, all Rupert, or Keh Frank, Mrs. Jerry Fowler or Grant Richins, all Burley.

Map drive

STUDYING MAP for the house to house fund drive campaign planned for Monday, p.m., from left, Mrs. Barbara Dickson, back to camera; Mrs. Esther Knopp, Mrs. Mary Jane Ramsey, Gus Gerleman, chairman of the finance committee, and Mrs. Connie Walker, shows on desk.

Leadership contest applications available

RUPERT — Youth application blanks from Mrs. Ann Mathews, counselor at Minico High School. Application may be returned to Mrs. Mathews, Hornor or Dick who are sponsoring the event.

All applications must be returned by Dec. 14 and interested youths may obtain the

place category at the local level and a \$25 bond will be awarded to second place winners.

Items taken from school

BURLEY — Burley police are investigating a break-in at the Burley High School, reported this week by Tom Gruwell, principal. Loss was valued at \$1,000.

Police said entry was gained by breaking a window. Items taken included four small speakers, two record players, a film strip projector, a fire extinguisher and a projector.

Two directors will be elected

RUPERT — The Mindoka Irrigation District will elect two directors Dec. 14 and polls will be open from 7 to 7 p.m. at the six voting places in the district.

Voting places are W. C. Paul residence; Acequin school house; Paul Highway District Office; Rural Electric Co. office; City of Heyburn office and Mindoka Irrigation District

office. Terms are expiring for LaVern Montgomery and Tad Abo, directors from Director's Divisions No. 4 and 5.

Petitions of candidacy must be filed with Betty L. Anderson, secretary for the district, no less than 10 days before the date of the election.

Mini-Cassia

Trustees meet set Dec. 10, 11

BURLEY — Fourteen topics are scheduled for discussion when school trustees from throughout the Magic Valley meet in Burley Dec. 10 and Dec. 11 for a workshop.

The Idaho School Trustees Association and the State Department of Education are cooperating in planning and operating the workshop at the Ponderosa Inn.

Among the topics for discussion are teacher tenure, dismissal and school policy; use

of citizens advisory committees in developing school policy; school policies in coping with school critics; students rights and responsibilities; school law trends, court decisions and their impact on local school board policy; and policies for improving school board meetings.

Also to be discussed are accountability and its significance for school policy; policies for improving school board superintendent relations; drug education.

Jobies receive majority degrees

BURLEY — Five received the majority degree during a meeting of the Job's Daughters, Bethel No. 18, Monday at the Masonic Temple.

Debbie Thornburg, honored queen, presided and conducted the majority degree ceremony for Mrs. Susan (Gochour) McCall, Mrs. Christine (Lynch) Peterson, Mrs. Dalls (Sands) Feasenden, Rhona Harney and Mrs. Pam (Brown) Jensen. Lifetime membership cards and flowers were presented to each.

The Jobies are preparing a skit to be presented Dec. 8 during the worthy grand matron's visit to Evergreen Chapter No. 46, Order of Eastern Star. The Jobies will also serve the dinner to the Eastern Star members and their guests.

Officers for coming year were elected. They include Shelly Breeding, honored queen; Kathy Stanley, senior princess; Kim Blair, junior princess; Betsy Moorman, guide, and Andrea Skaggs, marshal. The other officers will be appointed by Miss Breeding.

Guests were Mrs. Ann Sands, the worthy matron, and Lewis Sands, Gary Feasenden and Mr. Bethel No. 18, Monday at the and Mrs. Ransom Brown.

Credit Women honor members

BURLEY — Members holding a perfect attendance record for the past year were honored during luncheon meeting Tuesday at the Ponderosa Inn of Credit Women International.

Mrs. Marion Walker, president, conducted the business meeting.

Perfect attendance records are held by Mrs. Valma J. Mabey, Mrs. Joanne Dickson, Mrs. Odean Brown, Mrs. Sondra Critchfield, Mrs. Walker, Mrs. Pauline Reeder, Mrs. Virginia Rogers, Mrs. Juanita Kerbs and Mrs. Ruby Edmons.

Assists

RUPERT — Mindoka County Sheriff's officers are working with Thomas W. Connor, Lincoln County Sheriff, in cooperation with the brand inspector on the theft of an animal from the Western Land and Cattle Co., north of Paul.

A heifer weighing about 800 to 900 pounds was shot in a pasture, dressed out and the meat taken and the remains left at the site.

The company and the Cattlemen's Association are offering a reward of up to \$1,200 for information leading to the arrest and conviction of the person or persons involved.

The invocation was given by Mrs. Reeder. Guest speaker was Sharon Green, editor of the Burley High School newspaper, "Paw Prints," who discussed "Youth and Easy Credit."

Plans were made for the groups Christmas party Dec. 21 and each member is to bring a gift. A silent auction will be held during the party.

Mrs. Donna Brown was awarded the "goody" box.

Farmers instructed to cease housing laborers

BOISE (UPI)—A farm labor camp manager says it is time for farmers to get out of the labor-housing business. Frank Mercer, manager of the Wilder labor camp, told the Idaho State Horticultural Society Tuesday that despite a great effort by farmers to provide and update housing for workers all they get is criticism.

"It's time to get this monkey off our backs," Mercer said. "It's time to get out of the labor-housing business." Mercer took note of increasing criticism, especially from what he called "activists; the press and TV." "Let's bow out and let those with all the answers try to solve the problems," he said. Meantime, a research

director for the Idaho Farm Bureau Federation, Louis Lepper, said the legislature should re-enact the 1971 Farm Labor Act. Unless the lawmakers re-enact or extend the law it is scheduled to expire March 1. In other business, the fruit growers elected Richard (Dick) Symms, Sunny Slope, president. He succeeds Cecil Shurtlett, Payette. Norvill Elliott, Emmett, was elected vice president and Tony Horn, Boise, was re-elected secretary-treasurer.

Farm Proposition made

SPOKANE (UPI)—Eugene A. Prince, Thornton, past president of the Association of Washington Wheat Growers suggested Monday an international wheat growers association be created. Addressing the wheat growers 17th annual convention, Thornton said "agriculture is no longer a national business—its scope is international." "Among the primary advantages of such an organization would be the information we would share with each other and that we would remove some of the distrust and suspicion among nations over what we're doing," Prince said. Textiles are Spain's leading manufacture.

Idaho 4-H members reach halfway mark

MOSCOW (UPI)—Idaho 4-H members are just the halfway mark toward their goal of raising \$10,000 for expansion of the National 4-H Center in Washington, D. C. Maurice Johnson, state 4-H leader at the University of Idaho, said Tuesday. Johnson said between now and next summer members of 4-H clubs in the state will hold rummage and bake sales, wash cars, sponsor raffles and dances and conduct other fund-raising activities to raise the remaining \$4,410. "We have considerable participation in events at the national 4-H center even though it is so far away," Johnson said. "Each year an Idaho delegation goes to the National 4-H Conference, which is held at the center. In addition, several

West Coast dock strike may resume

SPOKANE, Wash. (UPI)—An official of the Western Wheat Associates feels that the West Coast dock strike will continue sometime around the first of the year. Richard K. Baum told the Western Association of Wheat Growers Tuesday he feels it is "doubtful" the strike could be settled before the end of the Taft-Hartley cooling-off period, which ends Dec. 24. Baum noted the International Longshoremen's and Warehousemen's Union committee was in San Francisco and consider exempting itself from the strike resume.

House uses muscle to encourage baseball return to Washington

PHOENIX, Ariz. (UPI)—Responding to a claim that the "shock" of losing the Washington Senators has created a "new spirit" in the city, the major leagues Wednesday appointed a committee to study whether it can accede to the demand that Washington get a major-league baseball team by 1973.

"We did not guarantee a solution to the problem but did guarantee that we will search diligently to find whether there is a solution," announced baseball commissioner Bowie Kuhn after the big league club owners met with a special group from Washington at the winter baseball meetings here. Four Congressmen headed the group and presented Kuhn with a petition signed by 238 members of the House of Representatives "supporting a return of major league baseball to the nation's capital."

Mike Burke, New York Yankee president, characterized Washington's presentation as "a fine power play. They flexed a muscle—in the most genteel way," Burke said. "Running through the whole thing was an implied threat." Without referring to baseball's current problems in the courts and in Congress, representative Frank Horton, R-NY, carefully pointed out that the number of petition signers is more than the 218 figure which is House majority. Representative Bernie Slisk, D-Cal., refused to state what might happen in Congress if baseball didn't get Washington another team, saying only: "we will run across that bridge when we come to it."

Slisk insisted that the "traumatic shock" of losing the Senators, who pulled out of Washington after the 1971 season and moved to Dallas-Ft. Worth, had created a split in Washington which now makes possible a financial success that the Senators didn't attain. "Sometimes a shock wakes people up," said Slisk. "Maybe we took baseball too much for granted."

Horton and Joseph Danzanky, president of the Washington Board of Trade, claimed that now there is "ample financial ability" to do what ever has to be done to get a

team—"to buy a team, to create an expansion team, or to support with tickets a team which would move to Washington."

Kuhn said he will name members of a high-level baseball committee during the meetings here to work with the Washington committee "to find out what we can do."

Slisk said the Congressmen

Unlikely Cavaliers take fifth in row

CLEVELAND (UPI)—The Cleveland Cavaliers, who were 1-22 at this time last year, raced to their fifth straight victory and ninth of the season Wednesday night by rolling to a 118-108 victory over the Houston Rockets.

The game was tied 11 times in the first half before the Cavs

forged ahead 68-55 paced by Butch Beard's 13 first half points.

The lead changed hands 11 times in the third quarter before Beard put in a layup and Charly Davis hit on a pair of foul shots to give the Cavs an 83-80 lead. Davis then sparked the Cavs to a 33-point fourth quarter by tossing in 11 of his 19 points.

Bulls top Royals

CINCINNATI (UPI)—The Chicago Bulls, behind the 36-point performance of forward Bob Love, handed the Cincinnati Royals a 109-101 defeat Wednesday night for the Bulls' ninth win in the last 10 games. Love hit for 12 of his points in the second quarter as the Bulls, leading 27-24 at the end of the first period, jumped to a comfortable 65-40 halftime lead. Chicago extended its lead to 23 points early in the third period, sparked by Chot Walker's nine points. Walker finished with 23.

The Royals, paced by mini-guard Nate Archibald, who led all scorers with 42 points, pulled to within 12 going into the final period but Love and Walker continued to hit for key baskets and kept Cincinnati out of reach.

76ers win

PHILADELPHIA (UPI)—Billy Cunningham celebrated his 500th National Basketball Association game by scoring 32 points and leading the Philadelphia 76ers to a 102-98 victory over the Seattle SuperSonics Wednesday night.

Cunningham's performance paced the 76ers and his 22-foot jump shot with 18 seconds to play clinched the game.

Safety check

DETROIT (UPI)—More than 525,000 trucks serve the daily needs of Michigan's people and industry, reports the Michigan Trucking Association which maintains a Cooperative Safety Patrol of 95 men, some with radar equipment, to check on the driving habits of regulated trucks.

had been "pleased by the response" of baseball to its presentation. The group met with Kuhn and other top baseball officials for two and a half hours Tuesday night.

Down Celtics

BOSTON (UPI)—Jerry West and Gail Goodrich teamed up for 78 points Wednesday to carry the Los Angeles Lakers over the Boston Celtics 124-110.

West fired in 45 points with a 73 per cent shooting average and Goodrich added 33 points with 61 per cent accuracy. Bill Chamberlain ruled the boards on offense, and defense with 20 rebounds as the Boston defense fell apart.

Cophers trim North Dakota

MINNEAPOLIS, Minn. (UPI)—Minnesota, behind the outside shooting of Clyde Turner, broke open a tight North Dakota zone defense on its way to a 68-49 victory Wednesday night.

Turner, who finished with a game high of 28, had scoring streaks which stopped Sioux rallies in each half.

With Minnesota leading 22-19, Turner scored eight straight to make it 30-19. When North Dakota rallied briefly in the second half, Turner sank 12 straight points to lead the Cophers to a 50-41 edge and put the game safely out of reach.

Lefthanded sweeping hook

CSI's Vince Volmut releases a two-point hook over two Treasure Valley defenders during action Wednesday night. The Eagles won 93-80 for their fourth win against one loss.

Sobers sparkles early, leads Eagles past Treasure Valley

Frosh Rick Sobers tagged a dazzling one-man offensive show in the early going Wednesday night to point the College of Southern Idaho

Golden Eagles to a 93-80 victory over the Treasure Valley Chukars.

The final score didn't tell the story of the game. At one point the Eagles mounted a 31-point margin and coasted in. Due to cancelling of the University of Idaho frosh game Friday night, the Eagles will not play again until Monday when they host the Boise State frosh. Dec. 20 they'll entertain University of Utah frosh and then run into one of the biggies of the year on Dec. 11-traveling to Brigham Young frosh.

Treasure Valley, which has never defeated a CSI team, saw daylight only momentarily when it managed a 4-0 lead. But Sobers hit the first four buckets for CSI to shove the Eagles ahead and from then on it was easy.

For the second night Coach Jerry Hale went to the bench liberally in the first half and went to the dressing room with a comfortable 51-32 advantage.

Early in the second period Dan Dreasen pumped through six points and Vic Kelly went on a ball-stealing and fast break bing to push CSI quickly away. Willie Williams wound up the assault with two more buckets and the 31-point margin before

Coach Hale again set about the business of getting experience for his other freshmen.

Dreasen, who wound up the night with game honors at 24 points, hit 18 in the first half.

Hughes of the Houston Oilers suggested Wednesday that Commissioner Pete Rozelle of the National Football League should station an official at an instant replay television set during a game and review immediately the calls made on the field.

Hughes said the man at the television set should have enough authority to change a call. Hughes referred to a play in last Sunday's Houston-Cleveland game in which Charlo Joiner caught a 53-yard pass from Dan Pastorini, tripped and fell near the goal line. The official placed the ball on the one yard line, but Hughes said the film shows clearly that Joiner scored.

"The film showed Joiner slid into the end zone and an opposing player never touched him until he was five yards across the goal line," Hughes said. "The official couldn't see it because he couldn't keep up with the play. He was 15 yards behind it. It would have been caught on the closed circuit, however."

"As soon as the commissioner puts an official at the closed circuit TV, we'll be better off," Hughes said. "There's too much money involved not to do it."

Majors to remain at Iowa State

AMES, Iowa (UPI)—Iowa State Football Coach Johnny Majors Wednesday put an abrupt end to rumors he was thinking of another job and signed a five-year extension of his appointment at the Big Eight school.

Majors, 35, was named this week as UPI Big Eight Coach of the Year, for his efforts in bringing the Cyclones to their best season in 65 years. The 8-3 record was good for a Sun Bowl berth against Louisiana State.

The former Tennessee All-American had been rumored as the next coach for Baylor University and one published report said Majors had already signed with Baylor.

About that rumor, Majors said: "I appreciated the interest shown in me. I am certain Baylor is going to present some ambitious coach with a program that will be equal to the school's desire to win."

Majors whose team lost only to Nebraska, Oklahoma and Colorado this season, said he has "full confidence" that Athletic Director Lou McCullough and the school administration will continue to give coaches "the opportunity to produce teams that will bring proud recognition to Iowa State, the state of Iowa and the Big Eight conference."

Notre Dame lineman tops all-Americans in voting

NEW YORK (UPI)—The old adage that the lineman does all the dirty work while the offensive backs get all the press clippings went out the window Thursday when Notre Dame's huge defensive end Walt Patulski was the top vote-getter on the 1971 United Press International All-American team.

Patulski received 164 votes from sportswriters and sportscasters across the country to beat out running backs Greg Pruitt of Oklahoma (160) and Ed Marinaro of Cornell (154) and Auburn's Helman Trophy winning quarterback Pat Sullivan (143).

Idaho nips Pirates 76-75 in overtime

MOSCOW, (UPI)—The Idaho Vandals opened their 1971-72 basketball season with a 76-75 overtime victory over the Whitworth Pirates Wednesday night.

Whitworth scored eight unanswered points in the last two minutes, tying the game 68-68 in regulation time. After Chip Tyson put Whitworth ahead, 72-70, with three minutes left in the overtime, Doug Hansen, Carl Robinson and Carlos Perkins hit field goals to move the Vandals in front 76-72 with one minute left. Whitworth could only manage a free-throw by Lynn Bennett and the Vandals led Bennett score untouched as the time ran out.

Kentucky tips Northwestern

LEXINGTON, Ky. (UPI)—Jim Andrews, a 6-11 junior, poured in 37 points and grabbed 13 rebounds Wednesday night to lead slow-starting Kentucky to a 94-85 season-opening win over Northwestern.

Paul Hardt with 24 points and 15 rebounds led the Vandals with good backup scoring by Don Beane with 14, Perkins with 13 and Steve Ton with 11. Tyson had 22 for Whitworth and Bennett had 19. The Vandals shot 42 per cent from the field to Whitworth's 46 per cent. Whitworth led 31-30 at halftime.

Andrews, the replacement for 7-2 Tom Payne, who left Kentucky for the pros, had the best night of his college career. He scored 23 second-half points as Kentucky expanded a 41-35 halftime lead and controlled thereafter.

The lead changed hands four times during the first 10 minutes and the score was tied six times before Kentucky ran off eight straight points, six by Andrews, to take the lead for good 24-17.

Huskies trip Portland

SEATTLE, Wash. (UPI)—Center Steve Hawes led a second-half splurge Wednesday night as the Washington Huskies defeated the University of Portland 76-63 in the basketball opener for both clubs.

Washington State held a 31-21 edge at halftime but the Zags outscored the Cougars 56-34 in the second half to spoil the coaching debut of WSU's Bob Greenwood.

Down 38-23, the Pilots rallied behind Ken Hettrich to score the final nine points of the first half and cut the Huskies lead to 38-32. Then Portland further reduced the margin to 53-51 with 10 minutes remaining before Washington rallied to close out the game by outscoring the Pilots 23-12.

Gonzaga was paced by Junior forwards Gerg Stenn and Joe Clayton. Stenn had 24 points to take honors and Clayton added 10 points and 20 rebounds.

Ducks outlast Montana 69-65

EUGENE, Ore. (UPI)—Oregon used a balanced scoring attack and a lot of hustle Wednesday night to open their 1971-72 basketball season with a 69-65 win over the visiting Grizzlies from Montana.

Brown hit on nine of 10 field attempts and four of six free throws and Eberhard added 20 points and 15 rebounds to give the Tigers an easy opening-game win over the Big Ten foe. Spartan center Billy Kilgore got into foul trouble early and finished the game with seven points and only two rebounds. Michigan State's Mike Robinson led all scorers with 25 points.

Libel suit threatened against ABC, Cosell for fight showing

NEW YORK (UPI)—Peers, Inc., which manages heavyweight boxer Buster Mathis, threatened a libel suit against the American Broadcasting Company and announcer Howard Cosell Wednesday in the aftermath of the network's presentation of its Wide World of Sports coverage of the Mathis-Muhammad Ali fight two weeks ago.

almost arrogant disregard for facts and the ultimate distortion on screen is something that must be corrected if that is at all possible. We are demanding a public apology from ABC and Cosell and are being advised by our attorneys as to what future course to take.

Nicklaus chases Trevino in money race

ORLANDO, Fla. (UPI)—Golf great Jack Nicklaus plans to chase his World Cup teammate Lee Trevino down to the wire to try to claim top spot among this season's money winners.

Nicklaus and Floridian Bert Yancey both hit record 65s, seven under par, during Wednesday's pro rounds over Disney's newest fantasyland.

Nicklaus, trailing Trevino by less than \$16,000 going into today's start of the \$150,000 Walt Disney World Open, said he would enter the Bahamas National Open at Freeport next week if he falls at Disney to overtake Trevino's earnings of \$229,552 so far.

Nicklaus rated the Magnolia course, getting its first test under the cloats of pros, as "far better than the average course."

However, this flagrant and... The ABC network was... Hellogg's BRAN BUDS

Ok. Let's get down to facts.

Fact is we're the largest, most experienced snowmobile manufacturer in the world. Here's why!

| | | | | |
|---|---|--|--|---|
| FACT/ROYAL ENGINES: Designed exclusively for each model of Ski-Doo snowmobile and winter proven to start even at forty below zero. Aluminum alloy cylinders, aluminum pistons, shrouded axial fan (two cylinder engines) and cooling fins get rid of heat fast to keep it running cool. | FACT/IDEAL BALANCE: The power to weight ratio is just right. Even the position of the driver has been taken into account. Enough weight on the track to give you sure thrust traction and enough weight on the front for carving tighter turns. | FACT/QUALITY BUILT: The keynote to each Ski-Doo snowmobile is quality. Each one is checked on the drawing board, test run in the factory and checked out by your dealer to insure the best possible performance for each particular model. | FACT/WIDEST CHOICE: The economical, full-sized Elan model at \$595; the fun-loving, sporty Olympiques... the zappy, TNT trailbusters... and, the swinger's choice, the luxury-laden Nordic machinas. Plus Alpino, Valmont, Blizzard, seven great series more than 24 models. | FACT/BEST SERVICE: Our special factory approved service schools assure you quality maintenance. Your Ski-Doo dealer, one of more than 2,400 across North America, also offers you a dependable warranty, the most complete stock of genuine Ski-Doo parts, accessories and winter fashions. |

Nielsen-led Bobcats overpower Twin Falls 78-55 in cage opener

The Burley Bobcats turned loose their awesome size to dominate the backboards and a zone defense into a forest of long arms Wednesday night when they whirled past the Twin Falls Bruins 78-55 in a non-conference opener.

Cochin Ivan Davis' Bobcats lived up to the potential feared by about 10 other foes on the Burley schedule this year. The Bobcats put no one on the floor under 6-4 to start the game and although Twin Falls' fore-court pressure caused them to turn the ball over a few times, the second, third and fourth shots off—the offensive—backboards dominated the game away early.

Twin Falls made only one run at the Bobcats, midway through second period. Early on the Bruins showed first-game jitters, handling the ball five times before getting a shot off. The latter they studied and played better than expected at times.

Tracy Nielsen, a 6-7 junior, and the Sager boys provided most of Burley's scoring punch as the Bobcats hauled into a 15-4 lead at one point in the first period. Nielsen hit six of Burley's opening nine points in the second period for a 26-10 advantage before Twin Falls clicked on its only spurt of the night. Charlie Brown, Landy Haynes, Bob Durham and Jim Show all collected points to pull Twin Falls to within six.

But the next time down the floor Burley got off seven shots thanks to its rebounding dominance and Lon Frazier, the tallest Bobcat at 6-10, then hit four free throws and two field goals in the final two minutes to gun Burley back to a 38-22 in-

termission margin. In the second half the Bruins were not able to get closer than 13 points the last time at 65-52 on

two Darrell Groves free throws and a field goal. Twin Falls sophomores won the first game 49-45.

Idaho State rips Stanislaus 95-77

POCATELLO (UPI) — Behind the scoring of 6-7 forward Edison Hicks, Idaho State University in its season opener Wednesday topped Stanislaus state of California 95-77.

In the season debut for both teams, ISU kept control of the game from the start, leading 52-43 at halftime. Stanislaus only got as close as 61-47 during the

second half. The win was the first for Jim Killingsworth, the new basketball coach for Idaho State. Killingsworth started only one man from last year's team during the night, James Bonner, who did not score.

Hicks led scoring with 25 points, followed closely by sophomore guard Pete "Pistol Pete" Miller with 24. Junior college transfer Everett Foppa was third with 15 points, but was injured late in the first period.

Leading scorer for Stanislaus State was Jim Thomson, who picked up 18 points, followed by John Coossen with 16 and George Blahnik with 13.

The ISU Bengals scored 64.9 per cent of their field goals and Stanislaus scored 43 per cent.

Houston belts Stanford

STANFORD, Calif. (UPI) — The University of Houston pulled away in the second half Wednesday night to thrash Stanford 87-67 in the season basketball opener for both teams.

Stanford used a zone defense to try and stop the quicker Cougars but Donnell Hayes hit four straight field goals midway in the second half to put Houston on top by 12 points.

The Indians fell behind for the next four minutes as Dwight Jones and Dwight Davis each hit a pair of field goals for the Cougars.

Stanford hit on only 30 per cent of its first-half shots and trailed by nine points at halftime. Three quick field goals pulled the Indians to within three points but Davis, Hayes and Jones more than equalized the short space.

Stanford hit on only 30 per cent of its first-half shots and trailed by nine points at halftime. Three quick field goals pulled the Indians to within three points but Davis, Hayes and Jones more than equalized the short space.

San Diego St. trips Buffs

BOULDER, Colo. (UPI) — San Diego State dominated the backboards and took advantage of Colorado University turnovers Wednesday to score a 70-68 basketball victory over the Buffaloes.

Colorado jumped to a quick nine point lead, holding San Diego scoreless for the first three minutes, but the Californians quickly regrouped and were ahead 47-39 by half-time.

The closest the Buffaloes could come after that was to within five points in the third quarter.

San Diego pulled down 66 rebounds to only 35 for Colorado in the season opener for both clubs. The California team narrowly edged the Buffaloes in field goal shooting with 38.8 per cent of its shots to 36.6 per cent for Colorado.

Texas Tech drops W. Ky.

LUBBOCK, Tex. (UPI) — Texas Tech guard Greg Lowery scored 27 points and teammate Richard Little, the other Raider guard added 21, as the Raiders opened their season Wednesday night with a 95-87 victory over Western Kentucky.

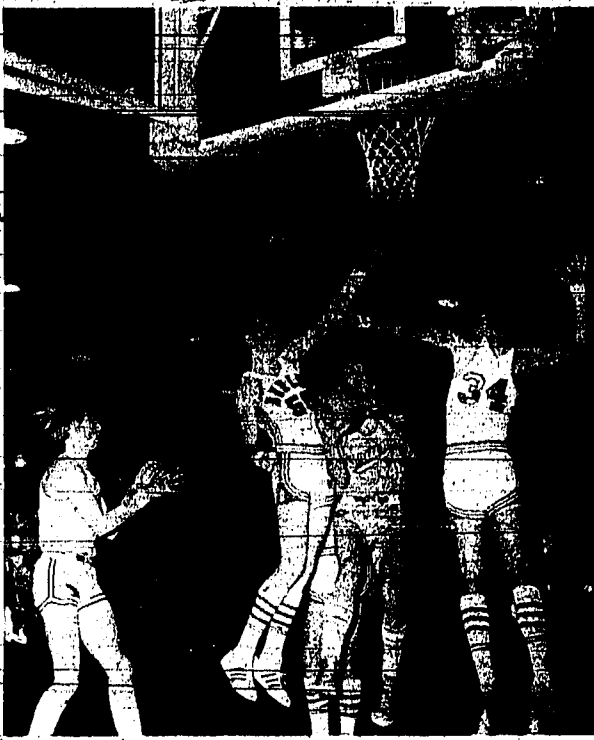

The Raiders, with no major height advantage, also dominated the backboards to offset the superior Hilltopper shooting percentage.

The game was tied 11 times and the lead changed hands four times. The Hilltoppers led only once in the second half, however, 76-75.

Illini rally past Butler

CHAMPAIGN, Ill. (UPI) — Illinois switched to a zone defense after trailing 44-33 at halftime and held off Butler in the final two minutes for a slim 73-71 basketball victory Wednesday night.

Illinois trailed until more than eight minutes were gone in the second half. Then the lead saw-sawed until Nick Weatherpoon sank a jump shot with 2:23 left to put Illinois ahead to stay at 69-67. The Illini scored five more free throws and Butler's Bill Shepherd scored two 20-foot jump shots to finish the scoring.

Splitting the Bobcats

BOXED IN Twin Falls' Bob Durham goes underhand to get this two-pointer off against the Burley Bobcats' Tracy Nielsen (50) and Lou Frazier (34) in the basketball opener Wednesday night. Burley demolished the Bruins 78-55.

Arizona State rips third-ranked USC

TEMPE, Ariz. (UPI) — Arizona State broke open a close battle by outscoring Southern California 13-1 early in the second half and went on to down the third-ranked Trojans 96-78 in the season opener Wednesday night.

The Sun Devils got double figure scoring from five veterans, including 22 from Rhea Taylor and 31 from Bill Kennedy. The Trojans were paced by Ron Helly with 29. But highly touted guard Paul Westphal was held to 12 points by Kennedy.

ASU led the rest of the way after breaking a 33-33 tie in the first half. In the second half the Sun Devils moved from a 48-47 lead to a 63-48 advantage in a 3:08 outburst. Taylor had three

buckets and Mike Hopwood two in the Devil spurt. The Devils, who outshot the Trojans 60 per cent to 33 per cent from the field, also held a 54-40 edge in rebounds as Paul Bennett gathered in 15 and Ron Kennedy 10. Helly was tops in the game with 18 boards.

Florida stuns Louisville

GAINESVILLE, Fla. (UPI) — Jerry Hoover sank two foul shots with 13 seconds left Wednesday night to give Florida a 70-69 upset over eighth-ranked Louisville.

With just 2:55 remaining to play the Gators were 12 points ahead of Louisville, but Louisville rallied.

Florida's Steve Williams battled Ron Thomas under the boards throughout the contest, hauling down nine rebounds while scoring 14. Thomas led Louisville with 21 points, but got only four rebounds.

Florida guard Tony Miller led all scorers with 29 points.

WSU coach honored

PULLMAN, Wash. (UPI) — Washington State University football coach Jim Sweeney has been named Kodak District 8 Coach of the Year for 1971.

Officials said Sweeney won the district award in a close race with Frank Kush, Arizona State head football coach.

The clincher for Sweeney appeared to be his team's victories over Stanford and Oregon.

"This is a great honor for me," Sweeney said, "especially coming from such a large segment of the coaches association."

All eight district winners will be honored at the Football Coaches Association convention Jan. 11-13, in Hollywood, Fla., and the national Coach of the Year will be named at that time.

Sweeney won the district award in a close race with Frank Kush, Arizona State head football coach.

The clincher for Sweeney appeared to be his team's victories over Stanford and Oregon.

"This is a great honor for me," Sweeney said, "especially coming from such a large segment of the coaches association."

All eight district winners will be honored at the Football

Rising production prices hike national farm price averages

WASHINGTON (UPI) — Rising prices for cattle, cotton, eggs, lettuce and tomatoes pushed the national farm price averages up 1 per cent in the month ending Nov. 15, the Agriculture Department reported today.

Corn prices, under harvest season pressure as a record crop can't be declined.

The Nov. 15 report left farm prices, after their second straight monthly increase, averaging 8 per cent above a year earlier.

Increases for cattle and other commodities were partly offset by lower prices for hogs, corn, soy beans, oranges, grapefruit and lemons.

Farmers' costs remained at a standstill for the third consecutive month and were 5 per cent above a year earlier. The combination of higher average prices for farm commodities and unchanged farm costs brought prices to 70 per cent of the traditional "fair earning power" parity ratio.

The Mid-November parity figure compared with reports showing farm prices at 69 per cent of parity last month and 68 per cent a year earlier.

The report also presented a second price-cost ratio pegged to 1967 conditions instead of the 1910-14 base used in the previous parity formula. On the new standard, the Nov. 15 price-cost ratio was 94 per cent of 1967 levels compared with 93 per cent a month ago and 94 per cent a year ago.

The index received by farmers stood at 114 per cent of the 1967 base compared with 113 per cent a month ago and 108 per cent a year ago. The index of farm costs was 121 per cent of the base compared with 121 a month ago and 118 a year ago.

Mid-November prices paid to farmers for all meat animals as a group was unchanged from mid-November but was 18 per cent above a year earlier. Beef cattle prices rose 40 cents per hundred weight and calf prices rose to a record-high level of \$37.80 per hundredweight. But hog prices, joined by lambs in declining although sheep edged up.

AVERAGE MID-NOVEMBER prices for some leading commodities compared with month-ago and year-ago levels, included:

Corn 0.974 cents per bushel, \$1.00 and \$1.29; hogs \$18.50 per hundredweight, \$19.50 and \$18.40; beef cattle \$19.50 per hundredweight, \$19.10 and \$25.10; wheat \$1.31 per bushel, \$1.30 and \$1.45; soybeans \$2.94 per bushel, \$2.96 and \$2.86; eggs \$27 cents per dozen, \$24 cents and 35.7 cents; milks (all grades) \$6.14 per hundredweight, \$6.09 and \$6.09; cotton (upland) 22.77 cents pound, 22.62 cents and 22.09 cents; broiler chickens (live) 12.6 cents a pound, 13 cents and 12.9 cents.

be brought in federal district courts to settle disputed land titles.

It is one of three pieces of legislation introduced by the two senators to help resolve the omitted lands problem. The other two bills are pending in committee.

Present law makes no provision of court settlement of land title disputes unless the government itself is willing to allow court settlement.

The bill reported Tuesday amends the United States Code to allow the federal government to be named as a party in a civil action brought by any person to settle land title disputes. Such cases would be tried without juries in federal district courts, Jordan and Church said.

Idaho lands bill clears committee

WASHINGTON (UPI) — Legislation to help resolve the omitted lands problem along the Snake River in eastern Idaho was favorably reported by the Senate Interior Committee Tuesday.

Idaho Sens. Len B. Jordan, a Republican, and Frank Church, a Democrat, are both senior members of the committee. They said the legislation now goes to the full Senate for further action.

The bill would allow suits to

Potatoes And Onions

Wheat growers neutral on Butz nomination

PORTLAND, ORE. (UPI) — The Oregon Wheat Growers League will take a hands-off position on nomination of Earl L. Butz as U.S. secretary of agriculture, according to league president Glen Brogitt.

Brogitt said Tuesday the group decided not to take a stand on the nomination of Butz to succeed Clifford Hardin because there is considerable opposition to Butz among farmers in Oregon and elsewhere in the Northwest.

In a league session of its past presidents Tuesday, Rich Pennell of North Pacific Grain Growers said he doubts that

exemption of wheat from further dock strikes action would help Northwest farmers.

He said even if the International Longshoremen's and Warehousemen's Union, agreed to exempt wheat, "I doubt that there would be more than 10 per cent of the ships coming into Portland taking on cargo here, where the port already is congested."

There is a need for some kind of anti-trust tool to help solve labor disputes, Pennell said. The Taft-Hartley Act "has had a bad batting average in the handling of such cases in the past," he added.

Livestock

DENVER (UPI) — Livestock: Hogs 850; barrows and gilts steady to 25 lower, instances 50 off; 1-3 10.75-20.25; 1-3 10.00-19.50; 2-4 18.75-18.75. Sows steady; 1-3 14.00-14.75.

OMAHA (UPI) — Livestock: Hogs 10,500; barrows and gilts 25-50 lower; mostly 25 lower; 1-3 100-240 lbs 19.50-20.00; 2-4 240-270 lbs 18.50-19.50; 270-375 lbs 17.25-18.75.

Farm

Valley residents will participate

WASHINGTON (UPI) — The Agriculture Department began mailing an additional \$22-million Wednesday in 1971 crop price support payments to 1,012,000 wheat growers as a supplement to market prices which have been pushed below 1970 levels by heavy supplies.

The final payments going to farmers who enrolled in the government's set-aside acreage control program are in addition to preliminary payments totaling \$90 million on July 1.

That brought total federal subsidies to cooperating wheat growers to \$877 million, slightly more than estimated earlier because market prices were weighed down by a record crop and weaker export markets — have been below early projections.

Union Pacific Scholarship Program helps build Idaho leaders.

This is the 50th anniversary of the Union Pacific Railroad Scholarship program through which 1,783 young men and women in Idaho, interested in agriculture, have been given help in furthering their education.

Each year one award is offered to 4-H Club members and another to members of the Future Farmers of America in each of the 44 counties in Idaho. The State 4-H Club leader and the State Supervisor of Agricultural Education are responsible for selecting the winners.

Since agricultural production and agricultural processing or food manufacturing constitute about 70 percent of Idaho's total economic transactions, the importance of trained, capable young leaders in agriculture cannot be overemphasized.

It is gratifying to Union Pacific that many of Idaho's prominent citizens today, leaders in agriculture and business, have been recipients of the Union Pacific 4-H and Future Farmer awards over the 50 years that the scholarship have been awarded.

REV. GERALD ROBESON

Mission confab slated

TWIN FALLS — Three Magic Valley area churches will feature special missionary conventions simultaneously Thursday, Friday and Sunday, Missions from Central America, Africa and Indonesia will appear at the First Assembly of God churches in Twin Falls, Buhl and Shoshone on each of the three nights, on a rotation basis.

3 state positions offered

BOISE — Applications for three positions with the Idaho Personnel Commission will be accepted until Dec. 22 in Boise. Positions open are Rehabilitation Specialist I, Rehabilitation Specialist II, and Rehabilitation Specialist III. Employment preference will be given persons residing in the area in which the Vocational Rehabilitation Specialist I will be employed.

Military pay hike reported

TWIN FALLS — The armed forces recruiting stations here today published enlisted men's pay following the recent military pay hikes. Dennis Abrams, Navy recruiter, stated: "We want to let everyone see how the pay rates have increased. Wages for personnel in all of the services." The pay increases are designed primarily to benefit the new enlistee — those with less than two years of service.

Mind Your Money

BY PETER WEAVER
Q — What about all the cola drinks on the market? I've been told they can be bad for your heart because they contain caffeine. Do these drinks have more caffeine than coffee? — Mrs. M.L.P., San Gabriel, Calif.
A — According to a report from George Washington University's Center for Responsive Journalism: "Most popular brands of cola contain about the same amount of caffeine."
This is probably due to the fact, that the Food and Drug Administration limits caffeine in cola drinks to .02 per cent or less. So most of them stick to that amount.
Coffee, tea and cocoa, according to the report, contain natural caffeine or chemically related compounds. Brewed coffee has .05 per cent to twice the amount found in most cola drinks.
Brewed tea has .05 per cent to .08 per cent caffeine including a trace of theophylline and cocoa drinks have .05 per cent to .08 per cent caffeine and theobromine.
Caffeine and the other chemically related stimulants do bring on changes in the body. One or two cups of coffee, for example, will make your heart beat faster, increase your metabolism rate, and make certain glands more active. The effects usually subside within an hour.
The National Heart Institute has found that excessive intake of coffee (more than five cups a day) is sometimes related to heart disease. No danger has been found in moderate (one to two cups a day) coffee drinking. It might even be beneficial for some kinds of heart ailments. You'd have to be drinking 10 or more cups a day to be getting dangerous caffeine levels.
Q — When you looked into nonflammable pajamas for children did you get any information on washing instructions? How long will the flame-resistant chemicals in the pajamas last? — Mrs. K.S., Washington, D.C.
A — The new government standard for nonflammable children's sleepwear to go into effect in 1972 (some are on the market now) calls for the material to withstand at least 50 washings.
It has been found, however, that flame-resistant chemicals in these garments may withstand 50 washings with one kind of detergent and not last nearly as long with other detergents or with soap. Most nonphosphate detergents, when used in hard water (contains calcium carbonate), seem to cancel out the flame-resistant chemicals.
But, flameproof sleepwear can be restored to its original protection after soaking in a mild hydrochloric solution or in a mild rinse of white vinegar and water.
Q — I've heard from a friend that some "scalops" sold these days are nothing more than scooped out pieces of cheap fish. Is this true? How can you tell the real thing? — D. P., Arlington Va.
A — With special metal cutters, the common skate fish can be cut to look like scallops. You can detect these fake scallops if they're regular in shape and rather thin. Skate also has a more slippery texture.

Idaho fund gains told

BOISE (UPI) — Investment of Idaho funds earned \$277,012 for the state's general fund during November. Governor Don Evans said today that the state's investment fund had gained \$277,012 during the month. The fund also had a net gain of \$1,000,000 during the year.

NEW YORK (UPI)—Early profit taking rounded off Wall Street as trading resumed mid-session Thursday, and prices were higher for the sixth consecutive session. Trading was brisk.

Most analysts commented that investors are interpreting everything as being bullish for the stock market even though there is little concrete news around.

Institutions, such as banks, pension funds and mutual funds, have been responsible for most of the buying, but one analyst said that as the rally continues "more and more investors are jumping on the bandwagon." He suggested that "no one wants to be left at the gate."

After being down about 3 1/2 points at 11 a.m., the Dow Jones industrial average was ahead more than 4 points at 1:15 p.m. Advances led declines, 819 to 518, and Standard & Poor's 500 stock index showed a gain of 0.42 at 85.96.

A three-hour volume of 10,870,000 shares compared with 12,490,000 shares traded at a comparable period Wednesday.

Among the day's most active stocks were Gillette unchanged on 266,600 shares, Shell Oil down 1 1/2 on 171,400 shares, Pan American World Airlines up 1/4 on 155,800 shares, and American Telephone 1/4 higher on 152,700 shares.

Less active and firm were IBM up 2; General Motors 1; Natomsas 1/4; and Superior Oil 1. Mission Corp., however, was off 3/4 after big gains earlier in the week.

Steels were fractionally mixed.

Idaho Valley Weather Report

SNOW IS predicted for the mid-Mississippi Valley, and the northern Rockies. Rain is expected in the east Gulf Coast region and the south Atlantic states. (UPI)

Weather preview

SNOW, strong winds on the way. Twin Falls, Northside, Burley-Rupert area: Chance of snow early this evening with periods of snow likely late tonight and Friday.

Outlook for Saturday, clearing and colder. Camas Prairie, Halley and lower Wood River Valley: Chance of occasional snow

early tonight with snow likely late tonight and Friday. Snow locally heavy at times. Strong gusty winds 20 to 30 mph at times tonight. Not so cold tonight. Highs days 28 to 32. Lows tonight in 20s.

Outlook for Saturday, clearing and colder. A cold front moving through western Washington and western Oregon this morning

has already produced cloudy skies and gusty winds in southern Idaho with this condition spreading into southeastern Idaho this evening.

The front is expected to move into southern Idaho tonight. Showers will begin in southern Idaho tonight. The precipitation will be snow except in the lower valleys where it will start as rain turning to snow showers late tonight and Friday.

There will be partial clearing with scattered snow showers in southern Idaho by late Friday afternoon behind the cold front. Gusty winds will be the rule through Friday with winds occasionally reaching 35 mph and the snow will be locally heavy at times in the mountains. Valley precipitation amount will average a quarter of an inch.

The outlook for Saturday is clearing and colder.

Successful Investing

By ROGER E. SPEAR. Q—I purchased American Telephone & Tel. (NYSE) in 1964. Although it is frequently one of the most actively traded issues, it has only been as high as \$58 since 1968. I don't understand it. Is there any chance that it will recover in the foreseeable future?

Computers think people inferior

WASHINGTON (UPI) — People talk about computers with great respect, as though they were people.

But computers seem sometimes to treat people with contempt as though they were inferior machines.

At least, that is what Alphonse Chapanis seems to be saying.

Chapanis is professor of psychology at Johns Hopkins University. He recently completed a series of experiments that convinced him people and computers are poorly matched when it comes to communicating with each other.

Man-machine exchanges are hampered, he says, because

computers are "almost completely unforgetful of the many simple errors people make in ordinary communication."

Dr. Chapanis used teams of Baltimore area high school and college students in his experiments. One member of each team represented an information seeker (the computer user) another took on the role of the information source (the computer itself).

They tested among other things the effectiveness of four common ways of communicating: handwriting, typewriting, voice, and person-to-person contact.

Chapanis concluded that the teletypewriter, the chief means

of man-machine communication now, is the least efficient mode. His findings, according to the university, show that if computers are to be made more interactive, more responsive to people, the capacity to forgive such human frailties as misspelling, use of incomplete sentences, slips of

the tongue, mispronunciations and the like will have to be designed into the machines.

In person-to-person communication such slight errors are seldom noticed and don't keep the message from getting across. But even the most minor slip by a human being can put the computer's back up and

cause it to turn off, so to speak.

The experiments showed that in people-people communication, the voice is far more rapid and effective in conveying information than written communication.

The man-machine link is now the teletypewriter keyboard which, says Chapanis, is "not

only slow but unnatural and even disruptive of the communication process."

So, according to Chapanis, "we will almost certainly have to endow computers with the ability to receive information and commands by voice—even in idiomatic language—and to respond in kind."

Non-partisan aid proposed

WASHINGTON (DPI) — Sen. Frank Church called Wednesday for a broad coalition by members of both parties to improve the conditions under which America's elderly citizens live.

In remarks prepared for delivery in the White House Conference on Aging, Church said that when it comes to aging "there is really no room for a game plan based upon short-range political tactics seeking narrow partisan advantage."

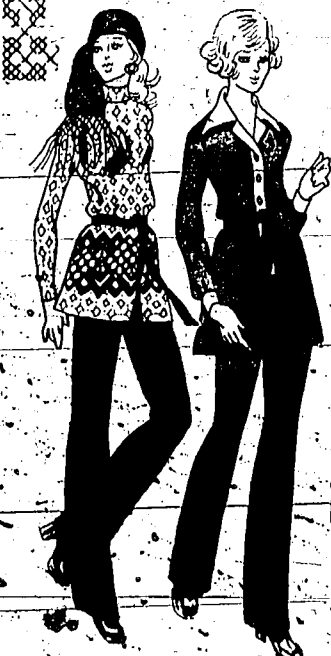

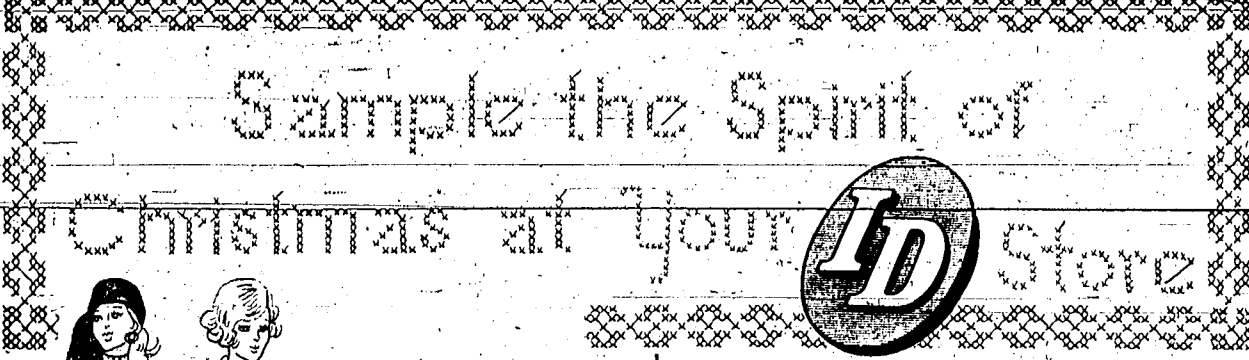

"It is already much too late to play games or to stall or to explain why this or that hasn't been done or can't be done—for older Americans of today and tomorrow."

He said the primary goal must be to end poverty among older Americans.

Noting this will include legislation to upgrade the Social Security system, Church said no old-age retirement system is "worthy of the name which leaves fully a fourth of the elderly on incomes below the government's own poverty line."

Church, who is chairman of the Senate Special Committee on Aging, said that the nation's "talking behind and got advance in its efforts to assure genuine security and fulfillment in retirement."

He cited evidence showing that in the past two years alone, alone, 100,000 more elderly persons have slipped into poverty, that six million older Americans now live in unsatisfactory housing.
