Moving time

FILING CASES are transferred to the offices of the new Gooding High School Thursday by two youths assisting with the move, which is continuing today. Teachers and patrons of the school district helped with the move from the old school built in 1912. (Related story and picture, P. 13)

Panel works over Gem criminal code

BOISE (UPI) — An eight-member Idaho State Bar committee from throughout the state was to meet with legislative leadership today to discuss drafting an acceptable interim criminal code.

The request to the bar came after House Republicans and Democrats met in caucus today to look at the Senate-approved bill reinstating the old criminal laws as they existed Dec. 31, 1971, and decided to ask for help.

Ron Kull, executive director for the bar, said there are some "serious questions" over whether re-enacting the old criminal laws will work, and said some bar members feel the old laws need amendments to make them acceptable.

Re-enactment of the old laws might cast some legal shadows over many items of legislation

approved during the 1972 session. A bill approved in the Senate Thursday contained a "petty misdemeanor" penalty which is contained in the revised criminal code but not in the old laws which would be in effect when the revision is repealed April 1.

Already, Gov. Cecil D. Andrus has let become law without his signature a bill making certain changes in the Uniform Controlled Substances Act on grounds the changes refer to the revised criminal code which will not be in existence in less than a month.

The old criminal laws contain a number of archaic statutes and laws which have been declared unconstitutional by the courts but, because they were never repealed formally by the legislature, still were on the books as of Dec. 31.

By picking up such sections and re-enacting them, many of the outdated statutes would take precedence over recent acts of the legislature designed to supplant them.

Spokesmen for the bar told House Republicans a special committee could possibly come up with a workable code in two or three days.

House Speaker William J. Lanting, R-Hollister, has made arrangements to have the bill rushed through the drafting center if it is written.

Sen. Edith Miller Klein, R-Boise, an outspoken proponent of the revised criminal code, said she felt writing an interim code was an "excellent idea." The revision, she said, contained an "excellent outline of crimes and gradation of penalties" which could be carried into the interim code.

Jordan scores request

BOISE (UPI) — Sen. Len B. Jordan said today Idaho may be knocking "on the wrong door" by asking Congress to allocate \$1 million to prevent commercial exploitation of Hells Canyon.

Jordan, who once was a rancher in the area, told a press conference in Boise the state ought to look into "its own kitty" before going to the federal government for money to buy the land.

He said he agreed with the concept of purchasing the land to protect against subdivision, but "we're broke at the federal level."

Idaho and Oregon lawmakers are seeking support from Congress and the administration for \$1 million to purchase private landholdings in Hells Canyon. The funds under the proposal would come from the land and water Conservation Fund.

In other comments, the Republican Senator predicted that Sen. Edmund Muskie would not get the Democratic nomination.

Quoting former President Harry S. Truman, Jordan said, "If you can't stand the heat stay out of the kitchen."

"Senator Muskie can't stand the heat," he said. Jordan said he agreed with President Nixon's stand on busing while he also said Idaho "should continue a modest reclamation program."

He said in the future with population pressures and the need for ecology federal reclamation programs will be needed. He said presently the federal government is not making any headway on the backlog of requests for reclamation programs.

Is all the green grass appearing this St. Patrick's Day Irish?

Mr. T-N says

such a venture.

He said the possibility exists that "We may not be able to use any of the programs available to our best advantage. In that case, we could not use the credits."

The credits with the U.S. Department of Housing and Urban Development resulted from what may have been a shrewd investment on the part of Twin Falls business men.

Private funds used to support the downtown local improvement district in connection with the mall urban renewal project can be used to match on a 75-25 per cent basis the HUD funds.

The federal agency required federal grants be matched by a smaller amount of local funds.

Prior work builds up "credits" which can be used as matching funds.

Should the city seek and receive the matching HUD \$750,000, the city in effect would be given \$750,000 "free" without further obligation.

Milar said the additional credits resulted from the creation of the LID and subsequent funding from private sources. Originally, all the urban renewal project did not include plans for underground utility lines.

Local merchants channeled their improvements through the city budget, making the work count for matching fund credit.

Twin Falls Urban Renewal Agency Director Evan Robertson said the \$250,000 in surplus matching credits is "based on current opinion

on where we are on financing" the current urban renewal project.

He said HUD had yet to certify the credits, a step required prior to making federal matching funds available.

Robertson said housing renovation projects "have been receiving favorable action from HUD in communities such as this."

"Potentially," he said, "such projects could be developed for Twin Falls making use of federal money based on our current matching fund surplus."

Robertson said "this idea has received some consideration from city officials and other interested civic leaders, but is definitely just in the thinking stage at this point."

2 die, 6 hurt in Belfast

BELFAST, Northern Ireland (UPI)—Two persons died and six were wounded in violent incidents late Thursday night, including three British soldiers injured in a mine explosion.

The deaths of a young woman in a bomb explosion and an unidentified man in a shooting incident brought to 278 the number of victims since violence erupted in Northern Ireland, August, 1969, a British army spokesman said.

The woman was killed when she entered an underground public lavatory in Lurgan and a bomb inside exploded. Her husband waiting for her outside was injured, the spokesman said.

On a deserted street in the Roman Catholic Ardoyne section, a man was found shot dead. His body with a bullet hole in the head was lying outside the church hall, a spokesman said. Security forces had not been in the area all night and no shooting incidents were reported, the spokesman said.

An army spokesman said the three soldiers injured were on mobile patrol near the border with the Irish Republic on the outskirts of Londonderry when their vehicle ran over a mine in the road. One of the soldiers was admitted to a hospital and the other two were released after treatment, he said.

Earlier in the evening British troops engaged five gunmen in a 30-minute gun battle in Belfast.

Security forces Thursday years arrested Patrick Kennedy, a Roman Catholic member of Parliament—the first such arrest in Northern Ireland in 15 years.

Catholics oppose commission's call

WASHINGTON (UPI)—A presidential commission's call for universally available abortion, contraception and sterilization encountered quick opposition today from the U.S. Catholic Conference and a few of the commission's own members.

Suggesting the report be treated with "benign neglect," the Catholic Conference called it "naïve in its assumptions and punitive in its recommendations."

Rep. John N. Erlenborn, R-Ill., one of the commission's 24 members, said he hoped the report would not be interpreted as a proposal "that contraceptive devices be sold through vending machines in school corridors."

However, 19 commission members joined in the report's recommendation that women be allowed abortion on demand, with costs covered by public and private health insurance and with government subsidies to pay abortion costs for the poor. Insurance coverage also was recommended for contraception and sterilization.

TF Tract pioneer dies

TWIN FALLS — Funeral services will be conducted at 10:30 a.m. Saturday for Mrs. Rhoda E. Smith, 85, one of the first women to arrive in Twin Falls as a permanent resident.

She died Tuesday in a Lawton, Okla., rest home.

Mrs. Smith came here in June, 1904, to join her father and brother who arrived in March to claim land for farming on the new tract.

She lived in a tent on an 80-acre homestead just west of Curry where her father, Henry Cryder, was engaged in building of the main canal system in exchange for water for his farm.

Mrs. Smith helped grub sagebrush and cooked for some of the other workers.

The family and other settlers of the area hauled water from Dead Man's Gulch for drinking, cooking and washing. Mrs. Smith came to Shoshone by train from the family home in Yakima, Wash., after graduating from high school.

She traveled by stagecoach from Shoshone by way of the Blue Lake Grade.

She was born July 20, 1886, in Gold Hill, Ore., and was married to Arthur C. Smith who died in 1929. Mrs. Smith lived in the Twin Falls area and purchased a home in Burley where she resided until about five years ago when she began making her home with husbands and daughters.

Winners listed

TWIN FALLS — The Magic Valley Duplicate Bridge Club met Wednesday afternoon at the Episcopal Hall.

North and south winners were Mrs. M. D. Hartshorn and Mrs. R. Williams, first; Mrs. A. V. Williams and Mrs. A. P. Russell, second; Mrs. A. C. Victor and Mrs. H. C. Ward, third; Mrs. John Hahn and Mrs. C. R. Tucker, fourth.

East and west winners were Mrs. Ralph O'Harrow and Mrs. Floyd Broadhead, first; Mrs. V. L. Kelly and Mrs. Emma Kelly, second; Mrs. W. H. Driscoll and Mrs. W. H. Newcomer, third; Mrs. J. T. Shelby and Mrs. R. R. Watson, fourth.

Tournament play will be next Wednesday.

The winged friend of the snowy owl may reach five feet.

Obituaries

W. Belfield

BURLEY — William Louis Belfield, 92, Burley, died Thursday at the Burley Retirement Center after a long illness.

He was born Nov. 20, 1879, at Kirksville, Mo.

Mr. Belfield spent his early years driving a stagecoach on the Flathead Indian Reservation in Montana. In 1903 he moved to Nampa and later he moved to Gifford, Mo., where he married Nina E. Brown in 1912.

They moved to American Falls in 1915, and then to the Burley project in 1916 where he farmed for many years.

He later worked several years for the city of Burley.

Mr. Belfield was active in civic affairs and fraternal organizations and joined the Odd Fellows Lodge on his 21st birthday anniversary. He was also a member of the Blue Lodge Scottish Rite, York Rite and Shrine.

He served two terms as master of the Blue Lodge and was a past noble grand of the Odd Fellows Lodge, Burley. He was a charter member of the Claremont Grange and a member of the United Methodist Church.

Survivors include his widow, Burley; one daughter, Mrs. Clifford (Jrene) Chase, Tacoma, Wash.; one granddaughter, Mrs. Carol Keene, two great granddaughters; two brothers, Grover H. Belfield and Harvey Belfield, both Missouri.

Funeral services will be conducted at 11 a.m. Saturday in the Joseph Payne Memorial Chapel with the Rev. George A. Trobaugh officiating. Final rites will be at Pleasant View Cemetery.

Friends may call at the mortuary this afternoon and evening and Saturday prior to services.

C. Weeks

SPRINGDALE — Clarence Weeks, 80, former Cassia County resident and farmer, died earlier this week in Ogden after a long illness.

He was a pioneer in Cassia County, coming from Ogden in 1912. He farmed in the View area for a brother, Dr. Frank H. Weeks, for many years. Later he purchased land in the Springdale area where he and his wife, the former Helen Driggs, lived for a number of years.

They sold the farm and moved to Clearfield, Utah, about 20 years ago where they had since lived. Funeral services were conducted in Ogden.

C. Hopkins

JEROME — Strother Banks Hopkins, 78, died about noon Thursday at St. Benedict's Hospital.

He was stricken about 11 a.m. at his home southwest of Jerome.

Funeral arrangements will be announced by Hove Funeral Chapel.

Funeral Services

BURLEY — Services for Richard H. Jacobsen, who died at 2 p.m. Saturday in the View, Wadsworth, Chapel by Bishop Deloss Stoker. Final rites will be held in the Paul Cemetery. Friends may call at Payne Mortuary Friday afternoon and evening and Saturday at the church one hour prior to services.

mortuary this afternoon and evening and Saturday prior to services.

WASHINGTON (UPI)—Federal officials were unsure today whether President Nixon can stop a walkout if West Coast dock workers reject the Pay Board's decision to cut their proposed pay by \$1,150 over the next 18 months.

The Pay Board voted 8 to 6 Thursday to reduce a proposed 20.6 per cent increase in wages and benefits to 14.6 per cent. A Labor Department spokesman said Nixon was without any legal tools under the Taft-Hartley Act or the Emergency Dock Strike Act passed earlier this year to order the longshoremen back to work if they decide to strike over the decision.

Court asked to not make new busing orders

(Continued from P. 1)
Sen. George S. McGovern, D-S.D., was among the first and most vigorous objectors to Nixon's proposals. After the Nixon speech, the Democratic presidential candidate accused Nixon of abandoning "moral and political leadership" of the nation.

A spokesman for the NAACP, Clarence Mitchell today called the President's proposals "incredible" and served notice that "we'll be right in court when they (Congress) pass such a law." Mitchell added, "And I predict we'll win."

Sen. William Brock, R-Tenn., who favors a constitutional amendment against busing, nevertheless praised Nixon's recommendations, saying today that "what we need is clarification of what the supreme Court really means" on the subject of busing.

Brock said he agreed with Nixon that conflicting lower court decisions on busing had created "confusion not only at the local level but at the national level" and that a moratorium on busing orders was essential.

Nixon drafted his busing plans after the Florida primary in which voters there voted by a 3-1 margin in favor of banning by constitutional amendment any busing to achieve racial balance in schools.

Mitchell insisted that Nixon "revised his opposition" to come down harder on the issue after Florida. The White House denied that.

Overall, Nixon's program would limit the authority federal courts have been exercising to ban equal education under the provisions of the 14th Amendment.

The President insisted that Congress has the authority to spell out the method of enforcement of 14th Amendment rights. But as Mitchell warned, if Congress enacts the statute, it likely will touch off a new confrontation with the courts, jealous of maintaining

their authority to interpret the Constitution.

In his message, as in his speech, Nixon was sharply critical of the role of some federal courts which he said have produced "contradiction and uncertainty and...unequal treatment among regions."

"If some of the federal courts have lately tended toward extreme remedies in school desegregation cases—and some have—this has been in considerable part because the

work has largely gone forward in the courts, case by case, and because the courts have carried a heavy share of the burden while having to operate within a limited framework of reference and remedies," Nixon said.

The President said he was convinced that a majority of the people—black and white—oppose busing.

In describing his proposed busing moratorium Nixon said: "I propose that the Congress

act to impose a temporary freeze on new busing orders by the federal courts—to establish a waiting period while the Congress considers alternative means of enforcing 14th Amendment rights. "I propose that this freeze be effective immediately on enactment, and that it remain in effect until July 1, 1973, or until passage of the appropriate legislation, whichever is sooner."

In his speech, carried live from his oval office on radio

and television Tuesday at 10 p.m. EST, Nixon said that it is "dangerous nonsense" as well as "vicious libel" to say that all those who opposed busing are racists.

But he acknowledged some who are most strongly against "oppose busing for the wrong reasons—because of racial prejudice."

Petroleum and coffee are the two leading exports of Venezuela.

Spud tax increase approved

BOISE (UPI) — Satisfied with provision for referendums, the senate approved 32-0 Wednesday a bill to increase the assessment on Idaho potatoes to support research and advertising of the Idaho spud.

The bill was killed 12-23 March 6 after some lawmakers objected to allowing the first increase with no referendum.

The bill was amended to provide for referendums conducted by the Commissioner of Agriculture before each step: an immediate increase from 2½ cents per hundredweight to three cents, a second boost to four cents and a third step to five cents.

Sen. Leon Swenson, R-Nampa, floor sponsor, said only growers would be allowed to vote in the referendum despite the fact shippers or first handlers pay 30 per cent of the first increase and 40 per cent of the next two increases.

Bill would create new fund

BOISE (UPI) — The senate voted 26-0 Thursday to create and fund an Idaho Bicentennial Commission to plan the state's participation in the bicentennial observance of the American Revolution in 1975 through 1983. One measure created the eight-member commission to be appointed by the governor and the second measure funded the commission with \$2,500 from the general fund.

Two main land masses, the North and South Islands, form New Zealand.

Yellowstone

The graft-ridden administration of U. S. Grant is not numbered among the more illustrious in America's history. Yet, with one stroke of the presidential pen 100 years ago, President Grant did something that placed him among the greatest of presidents in terms of what they bequeathed to posterity.

At a time when this section of Idaho was not yet born and Idaho Territory was just starting to come to life, President Grant signed a bill creating Yellowstone National Park. That was on March 1, 1872 and the park area was still in the distant and much unexplored West. The move actually had a great effect on the way our section of the West developed.

It was the first time in history that a nation had set aside part of its territory to preserve for future generations. The example of Yellowstone inspired similar park systems in other countries.

Before the turn of the century, Yellowstone had been joined by Yosemite, Sequoia, General Grant (later renamed King's Canyon) and Mount Rainier National Parks.

In 1899, when memories of the Indian wars were still fresh, Congress acted to preserve the remains of ancient pre-Columbian civilizations, first at Casa Grande and later Mesa Verde.

Some of this may be news to those who believe that ecology and conservation and environment are

words that were coined yesterday. True, our forefathers were often careless and prodigal with this land. Yet an appreciation of its natural beauty and the awareness that this beauty is a heritage to be passed on unspoiled is not the exclusive discovery of latter-day "Consciousness III" types.

Yellowstone came into being because a 14-man exploring party was so impressed by its wonders and grandeur that they gave up all thought of staking claims. Around a campfire on the night of Sept. 9, 1870, Montana Territorial Judge Cornelius Hedges advanced the idea of making the area a national trust for generations yet unborn.

What is remarkable is that this concept could have been accepted at a time when so much of America was still wilderness, when there seemed to be an unlimited quantity of land and wealth for the taking and when only a very small fraction of a small population could make the difficult journey to the remote Yellowstone area.

Today, of course, it is just the opposite. Highways and automobiles have brought America's natural beauties within reach of everyone—so much so that some areas of some parks in peak tourist seasons resemble city slums.

But the parks are there. What would America be like today if a few men had not had vision 100 years ago?

No Ghosts Walk

Rightist radicalism continues to decline in the Federal Republic of Germany.

Not only has the largest rightist party, the National Democrats, failed to gain seats in the national parliament in Bonn, but it has consistently won a percentage of votes well below the 5 per cent minimum for sending a delegate to

any state legislature.

According to the latest report of the Federal Office for the Protection of the Constitution, West Germany and West Berlin have only about 31,500 far-rightists all told in a population of around 60 million, and they are scattered among 66 splinter parties.

MR. SPECTATOR

Pictures Of Mars

In a few months we will have available pictures of Mars which will enable us to know the surface there much better than we knew the surface of the Earth say about 50 years ago.

Officials of the National Aeronautics and Space Administration have informed us that despite the giant dust storms which obscured its pictures of Mars for about six weeks, NASA's Mariner 9 has completed its primary objective of photographing the planet from the South Pole to the northern hood.

Nearly 7,000 pictures of Mars have been recorded by Mariner and played back to Earth stations as well as several dozen photographs of the Martian moons Phobos and Deimos. About a week ago Mariner completed its 232nd orbit of the planet.

With Mariner pictures of Mars now in hand, scientists at the Jet Propulsion Laboratory, Pasadena, Calif., are preparing to assemble a map of a large part of the planet. More than 1,000 overlapping pictures will make up the Martian map.

Then, Mr. Spectator was told, scientists will be able to look at and study the surface of the "war" planet and will know much more about it than residents of Earth did of this planet some half-century ago. Not only will they know the surface but they will also be able to study thermal, chemical and pressure atmospheric characteristics.

Science is wonderful! Here we

sit, these thousands of miles away, and we will be able to "read" the surface of Mars just as good (or perhaps better) than we do Earth when we use the highway map we get at the corner service station.

THOUGHT FOR EASTER

[Editor's note: This poem was written a few years back by Jo Ann Fabie, a daughter of Mrs. Paul (Evelyn) Flingson of Buhl. The daughter now is a resident of Wisconsin.]

Is it nothing to you who hurry by
 A lonely cross in the windswept sky?

The emblem of sacrifice high in the blue—
 Calling you home, is it nothing to you?

Is it nothing to you who close your eyes
 To the Savior's suffering as he dies;
 And the little church with its empty pew—
 And room for one more, is it nothing to you?

Is it nothing to you, the debt you owe
 For His crown of thorns, His blood-red flow?
 That the taste of gall you give Him anew—
 By passing Him by, is it nothing to you?

Is it nothing to you that only He
 Can carry you over eternity's sea
 That He is salvation, total and true
 And your only hope, is it nothing to you?

Is it nothing to you that only He
 Can carry you over eternity's sea
 That He is salvation, total and true
 And your only hope, is it nothing to you?

Is it nothing to you that only He
 Can carry you over eternity's sea
 That He is salvation, total and true
 And your only hope, is it nothing to you?

Is it nothing to you that only He
 Can carry you over eternity's sea
 That He is salvation, total and true
 And your only hope, is it nothing to you?

Is it nothing to you that only He
 Can carry you over eternity's sea
 That He is salvation, total and true
 And your only hope, is it nothing to you?

Is it nothing to you that only He
 Can carry you over eternity's sea
 That He is salvation, total and true
 And your only hope, is it nothing to you?

Unseating Daley's Delegates

CHICAGO — The self-purifying road to reform travelled by Democrats since 1968 is nearing the point where the party must either disavow its new guidelines or court disaster by unseating delegates sent to the Miami Beach convention by Mayor Richard J. Daley's Chicago machine.

The new reforms require Daley's regulars to fight — for the first time — to elect their

own delegates to the national convention. However, a peculiarity in the McGovern Commission reforms prohibits electioneering by the regulars but not their opponents. Thus, the Daley organization must violate the guidelines to elect their delegates.

Even in its present non-pragmatic mood, it seems scarcely conceivable that the Democratic party would risk

the wholehearted support of the Chicago organization (essential to national victory) in the autumn campaign by unseating Daley's delegates and sending them home in disgrace.

Nevertheless, the situation here represents the excess of reform engulfing the party. Although the Illinois reformers unhappily admit the prospect of defeating President Nixon in this vital state is bleak, they are

devoting their substantial energies and talents not to that end but to undercutting Daley in all ways, including emascuating his influence at Miami Beach.

Until 1972 Illinois delegate selection was routine. Daley and his downstate allies would pick the delegation. The new procedure facilitates contests in next Tuesday's primary, between delegate candidates pledged to various Presidential candidates.

But Daley's plan was still to control delegates from his own Chicago districts (62 out of 170) by running uncommitted organization delegates, and persuading Presidential candidates not to run their own delegates in the city. Front-running Sen. Edmund S. Muskie, wooing Daley and expecting his eventual support, agreed and so did other candidates.

What spoiled this arrangement were machinations by one Victor de Grazia, an anti-Daley politician whose liberalism is laced with backroom tactics. De Grazia is managing the uphill campaign for governor by Dan Walker, an

anti-Daley reformer. To generate anti-organization activity that would aid Walker, de Grazia schemed to instigate contests for convention delegates in Chicago.

Accordingly, de Grazia concocted a plot with the Independent Voters of Illinois (IVI), state branch of the liberal Americans for Democratic Action (ADA). Working clandestinely, the Walker campaign and the IVI enlisted delegates pledged to Presidential candidates — without permission from the candidates — to run against uncommitted Daley delegates in Chicago.

The result is typified in the heavily Polish 8th Congressional District on Chicago's North Side. An uncommitted Daley slate headed by Rep. Daniel Rostenkowski is expected to back Muskie at Miami Beach. But a rival slate of IVI reformers, nominally pledged to Muskie but quite likely with contrary allegiances, was entered. Would the pro-Muskie Polish-American voter vote for the uncommitted regular or the "Muskie" reformer?

"RELAX, IT'S JUST A PEBBLE IN A POND"

ANDREW TULLY

True Believer

WASHINGTON — For the True Believer, the most annoying aspect of St. Patrick's Day is the flood of learned prose turned out by editorial writers who would better spend their time bemoaning the high cost of trash collections.

This is no day for the cunning deviltry of scholarship. No matter the testimony of aged yellowing manuscripts, the True Believer knows that St. Patrick was born on the Old Sod and even probably wore a green hat and marched in parades — pausing from time to time to lubricate his throat with a dram of usquebaugh against the rigors of singing the praises of "Dear Old Donegal."

Because the Irishman is a soft-spoken lad whose voice can barely be heard in the next county, Englishmen and Frenchmen with stronger lungs have spread the heresy that theirs is the soil that gave St. Patrick to a theretofore uncivilized world. Even the Italians have elbowed into the act, claiming that while Patrick may have been born in England, he was the son of an Italian soldier engaged in the impossible task of subduing the Sassenachs.

The fact is, of course, and it is a flattering one — that these broadcasters of heterodoxy want in on the Great Day. By claiming dear Pat, they would slyly imply that they, too, have a drop or two of Irish blood and therefore may wear the badge of nobility.

Indeed, there are spallspens abroad impudent enough to challenge the Irishness of a newspaper columnist on the grounds his mother was a Scot. Their case would be thrown out of even a Russian court.

As is well known in educated circles, the Scots are merely poor Irish cousins who happen to live in Scotland. They are there because in the misty dawn of history some brave Irishmen agreed to marry Scottish girls so the Scots would be strong enough to fight the English. The Irish even sent the bagpipe over to Scotland as a gag, and the Scots took it seriously. An Irishman made amends for this hoax by inventing a marvelous malt-based booze which he permitted the Scots to call Scotch whiskey.

It is true that St. Patrick spent some time in both Britain and Gaul, or France. Somebody had to teach those people how to

eat with a knife and fork and get them up for morning mass, and Patrick had some time on his hands after banishing the serpents from Ireland and passing laws that all Irish girls had to be beautiful and all Irish boys must write the best English in the world.

Some alleged scholars have written that Patrick's father was a medium-ranking civil servant. Nonsense. Every Irishman's father was a king — for the simple reason that there were no Irishmen who would do what they were told. Where do you think all those castles in Ireland came from?

Finally, we Americans would still be under British rule and eating boiled mutton were it not for the Irish. George

Washington was part Irish, and Commodore John Barry, father of the American Navy, spoke in an authentic brogue. Brig. Gen. Richard Montgomery, an Irishman, was the first American officer to die in the Revolutionary War. Four native-born Irishmen and four direct descendants of Irishmen died most of the work on the Constitution.

Thus on this day it is not surprising to find Americans of all races, colors and creeds displaying their gratitude to the Irish. One especially warming tribute — from another learned and courageous breed — can be found in the neighborhood kosher delicatessen. Its bagels have been colored green. Up Israel, too.

PAUL HARVEY

The Letter

New York City is flooding midtown Manhattan with 98 extra patrolmen to try to make the Great White Way and Times Square and thereabouts safe again for you.

But how can they when out of 94,000 felony arrests in New York last year only 522 ever went to trial?

And New York's Police Commissioner Murphy says that the age group most frequently arrested for serious crimes in his city — is 15!

From behind the walls of Chillecothe Correctional Institute, Convict No. 129-406 has written a letter to his son. And he has offered me a chance to share it with you.

Convict No. 129-406, Mr. Lou Torok, writes:

"Dear Son: When I broke the law and ended up in prison I really didn't know it would hurt you and your mother so much."

"I thought I could pay for what I'd done."

"I just didn't think how the kids at school would call you the jailbird's son. And there's nothing I can do to help — except maybe to tell you some things I've learned to spare you having to learn them the hard way."

"I was just your age when I stole my first candy bar. I got away with it. It was easy. It was fun. I stole more."

"Then bigger things."

"One day when the grocer caught me, I told him I was Sorry. I'd forgot to pay for the stuff. He let me go."

"I was mighty relieved then. But how I wish now that he'd called my parents or the police."

"I really believe it was that grocer who turned me from an amateur thief into a professional burglar — by showing me how easy it is to con a sympathetic bleeding-heart adult."

"Between jobs I tried everything — that — promised pleasure. If there'd been drugs in those days I'd have tried those."

"Now here you are — that same age — all the temptations that lured me astray and more."

"And I read crime is easier than ever to get away with. That's got to be tough to say no to."

"But that wrong road ends in the same place, and this is a miserable place to end."

"However you must hate me. I love you. And I don't want you to pay for a cheap thrill with the rest of your life."

"And that's why my last prayer as I snuck out every night is that you don't break any law — and that if you do break any law, I pray you don't get away with it."

"Your Dad."

GEORGE C. THOSTESON, M.D.

Band-Aid Surgery

Dear Dr. Thosteson: Please advise women that the laparoscopy sterilization is here. The operation is simple and the hospital stay is only one day. I had it done in Miami. For me, mother-of-two, I am real glad to have had the sterilization done. — Mrs. X.

Dear Doctor: Is there any "Band-Aid surgery" done on women in my area? It consists of two incisions near the navel to permit sterilization. I understand it is offered in New York. — R.M.S.

This is a variation of technique to substitute for the older method of tying the Fallopian tubes as a means of permanent birth control.

"Band-Aid surgery" is sort of a silly name for it, but it's easier than the technical term bilateral partial salpingectomy.

Here's the way it is done. First a small incision is made near the navel to admit a thin instrument called a laparoscope. This has been in use for a long time because through the instrument — a tubelike affair with a light — it was possible to see, by direct vision, various parts inside the abdomen (and even see the liver.)

The surgeon sees what he is doing through a laparoscope. The other incision admits an instrument with which he cauterizes or seals the Fallopian tubes, to make pregnancy impossible.

The advantages are that a day in the hospital is sufficient; the incisions are small and require no sutures and only a small dressing; there is little discomfort, and the scars are very small.

With the older method, a larger incision was necessary and required somewhat more time in the hospital.

This newer method is being used by gynecologists in many parts of the country. You'll have

to ask your regular physician or your gynecologist who is using the method in your vicinity.

Not being a soothsayer, I decline to predict whether, over the years, this will replace the older method of tube-tying generally, or whether the older way may prove to retain certain advantages. But so far the new method seems to be considered satisfactory by those who use it.

Dear Dr. Thosteson: I am a diabetic and have heard that insulin comes in capsule form. I asked my doctor about it and he said it doesn't. Would you know anything about insulin in capsule form? — Mrs. H. C.

There are several medications used in relatively mild cases of diabetes, but they aren't insulin. There is no such thing as insulin that can be taken in capsule form, because the digestive tract would change the insulin into an inert form. To be effective, insulin has to be taken by injection.

Dear Dr. Thosteson: I'm too embarrassed to ask my doctor about it. I'm 19 and a girl, and I think I have pinworms. I read in your column that they are small like bits of thread and that little children get them. Could I have them at my age? How can I get rid of them without going to my doctor? — B. P.

People can get pinworms at any age — 19 or 90, so far as that goes. The small fry get them more often because kids don't wash their hands and clean their fingernails except under pressure, and they are out in the play yards, scuffling around, and picking up pinworm eggs without knowing it (they're too small to see) and sticking their dirty fingers in their mouths.

But there's no reason at all why anyone else may not accidentally swallow an egg and develop a crop of pinworms.

BERRY'S WORLD

1972 BY M.A. BERRY

Spring skiing continues good

TWIN FALLS — In spite of warm daytime temperature, record snow depths in ski resorts are continuing to provide excellent spring skiing. Resorts, especially those on the south side of the Snake River, continue to maintain all-time record snow depths and freezing and warming conditions have created corn snow spring skiing.

Reports from the various resorts show: Pomerelle, 84 inches of snow at the lodge and 144 inches at the top of ski runs with no new snow during the week.

Temperatures range from 40 to 45 degrees in the daytime and the weather is clear and sunny with no wind. The road is good, dry and graded most of the way. The area operates Wednesday, Thursday, Saturday and Sunday.

Magic Mountain has 75 inches at the lodge and 100 inches at the top of the slopes. Weather is clear and sunny with daytime temperature of 40 degrees.

Begin the Begonia

Plant begonias from Holland now! Have a beautiful garden all summer long. Large selection. Reasonably priced.

Hide 'n' chute?

AN OLD parachute was used in this physical education drill to improve pupils' coordination, but the group of Washington School children from Twin Falls found it was more fun to hide the entire second grade class under the chute. Mrs. JoAnn Rice is their teacher.

Housewives label Nixon a "cop-out"

By RICHARD HUGHES
TAYLOR, Mich. (UPI)—Six weary housewives paused on the second night of their 600-mile walk to Washington to press for a constitutional ban on busing long enough to watch President Nixon's televised busing message and promptly labeled it "a copout."

Gathered with supporters in motel basement in this Detroit suburb, Mrs. Irene McCabe, a leader of the antibusing National Action Group (NAG), and five other Pontiac mothers

watched Nixon with open disappointment Thursday night because he failed to endorse a constitutional amendment prohibiting forced busing.

"All we have is this great flood of rhetoric," Mrs. McCabe said. "We're going to choke on rhetoric and I'm very disappointed because I love this President."

Irene, a man shouted from the back of the room, "I thought that was a copout on the President's part."

Exhibition skiing underway

SUN-VALLEY (UPI) — The western division of the National Exhibition Skiing Championships, sponsored by Chevrolet Skiing Magazine and Sun Valley Co., got underway Thursday with stunt and ballet skiing competition.

Wayne Wong, Waterville Valley, N.H., placed first in the event, Patricia Karnek and Mike Lund, skiing as a couple,

Alpentel, Wash., placed second, and Eddy Ferguson, Boise, was third.

The Eastern Division championships were run last week in Waterville, N.H., and the finalists from east and west will compete next week at Aspen, Colo., for the national overall championships.

Prizes in the national event will be a 1972 Chevrolet car for

the first place overall winner in the three events — stunt and ballet skiing, aerial acrobatic skiing and freestyle skiing.

The overall second place winner in the three events will receive \$350, and the third place overall winner will get \$200.

In each of the three events, in addition, first place nets \$500, second \$300, third \$200, fourth \$200 and fifth \$50.

SV woman Prayer cycle used at KH injured

SHOSHONE — A Sun Valley woman, Mrs. Mary Lu Fitzpatrick, received minor injuries when a right rear tire blew out on her car.

The accident happened Thursday afternoon three miles south of Shoshone on U.S. Highway 93 as Mrs. Fitzpatrick was returning to her home. The vehicle left the roadway and ran into a pile of rocks.

She was treated by a Shoshone physician.

Sheriff's officials at Shoshone said the vehicle involved extensive damage.

Prayer cycle used at KH

KING HILL — The Latin American countries of Cuba, Costa Rica and Barbados were used in the Prayer Cycle Thursday at the meeting of the United Presbyterian Women.

Mrs. Nathan Miller used "Our Work and God's Work" for the program. Mrs. Farnk Jones, Mrs. E. B. Lawson, Mrs. Miller and Mrs. Karl Carnahan presented a skit.

The group discussed "The Dignity of Work" and work attitudes. Mrs. Carnahan, secretary, read a letter from Mildred Brown, a missionary who recently visited King Hill. Miss Brown is presently in New York but will return to Japan in April.

Another letter also was received from Mrs. Gene Mann, concerning the area meeting at

Stockton, Calif., next summer. The Spring Presbyterial has been set for April 19.

During the meeting, Mrs. Jones reported on the book "The Hallelujah Chariot." For the ecumenical missions, Mrs. Lawson discussed "Voluntary Services." And for the ceremony of the "Least Coin," Mrs. Carnahan discussed the countries world-wide that participate in the program as well as how the money is collected and how the least coin of each country is used.

Mrs. Miller gave the closing meditation and Mrs. Jones gave the prayer. Mrs. Lawson was the hostess for the meeting at her home.

Valley Briefs

BUHL — The Young Republicans Committee will meet at 8 p.m. Monday at the home of Steve Kohntopp, Filor. Persons interested in attending or joining the group are asked to call Benny Blick, Castleford, 537-6674.

TWIN FALLS — The Patatotic Pokes 4-H Club welcomed two new members, Joni and Jerry Mottorn, at its weekly meeting. The club will hold a workshop Saturday at the John Massey residence, or at the KMYT pasture.

Jewelry stolen from TF store

TWIN FALLS — An investigation was in progress today in the theft of several hundred dollars in jewelry from Barton's jewelry in the Lynwood Shopping Center.

City police said someone broke a plate glass window, apparently reached through the break and removed jewelry from the window display.

Officials of the store were unable to determine the full extent of the loss pending a more complete check of store records.

The burglary was reported about 2:15 a.m. today.

Cassia unit sets meet

BURLEY — The next meeting of the Cassia County Education Association will be held in Burley April 26.

Clyde Wardle, CCEA president, said at the last meeting Supt. Harold Blauer discussed the defeat of the recent bond election in the county, asking what future action of the school building program will be.

He further discussed individual schools, need for

Curriculum meetings followed the general session.

Negotiations committee members, Dahl Reed, David Peck, Clifford Darrington and Floyd Bell reported on salary schedules and other pertinent school questions.

Almanac

By United Press International
Today is Friday, March 17, the 77th day of 1972.

The moon is between its new phase and first quarter.

The morning star is Jupiter. The evening stars are Mercury, Venus, Mars and Saturn.

Those born on this day are under the sign of Pisces.

Singer Nat King Cole was born March 17, 1919.

On this day in history:
In 1958 the navy successfully launched Vanguard 1, a 3½ lb. satellite, into orbit around the earth.

Davis juror choice slow

By DONALD B. THACKREY
SAN JOSE, Calif. (UPI)—It only took eight days for attorneys to accept the 12-member, all-white jury in the Angela Davis murder trial, but the process of finding four alternate jurors already is in its fourth day with 16 persons questioned and dismissed.

Judge Richard E. Arnason called today's extraordinary session in an effort to speed up the selection of alternates so that testimony can begin in the murder, kidnap and conspiracy trial.

Miss Davis, who is a cocounsel in her case, sat silently Thursday and let her defense team question the potential panelists. The defense used three peremptory challenges to exclude a Mormon woman, a man born and raised in South Carolina and a Vietnam veteran.

The prosecution used one challenge to dismiss an Indian mother of nine.

At the end of Thursday's session, the defense had five peremptory challenges left to the state's seven. Three alternates have passed questioning for "cause" and are tentatively seated.

If those alternates are accepted, the first person to join the regular jury in case of illness or other problems would be black-haired Michelle Savage, 20, a receptionist.

Miss Davis, 28, a former UCLA philosophy instructor and an avowed Communist, is charged with supplying the guns for the 1970 Marin County courtroom escape attempt and shooting in which a judge and three others died.

During questioning Thursday, prosecutor Albert W. Harris Jr. hinted that photographs of the shooting may be produced as

evidence and that a sawed-off shotgun may be fired in a field for the jurors. Superior Judge Harold Haley's head was half-blown off by a shotgun during the San Rafael shootings. Harris also used one of his eight peremptory challenges to dismiss Eunice R. Hewitt, an Indian mother of nine who said demonstrating "was not my bag," but she had no objection to militants.

"To each his own," she said.

Boyle faces court test

WASHINGTON (UPI)—United Mine Workers President W. A. Tony Boyle faced his sternest courtroom test to date today on federal charges he and two other UMWA officials converted \$49,500 in union funds to political campaigns in 1968.

The initial session before U. S. District Judge Charles Richey was expected to be limited mainly to jury selection.

If convicted, the 67-year-old union leader could be slapped with a lengthy prison sentence, a large fine, and ouster from union activity for five years.

Boyle's leadership of the 180,000-member union has come under close scrutiny from the federal government since the murder of Joseph A. "Joey" Yablonski, who unsuccessfully opposed Boyle in the union's 1969 presidential election.

The federal indictment under which Boyle is charged alleges that he aided in funneling \$30,000 to the 1968 presidential campaign of Hubert H. Humphrey, then vice president, and another \$19,250 to several other candidates.

Gandhi arrives in Bangladesh

DACCA, (UPI)—Indian Mujibur Rahman and his wife Prime Minister Indira Gandhi greeted Mrs. Gandhi but crowds arrived in Bangladesh amid which had been gathering since heavy security precautions dawn to greet her were kept 200 yards from the airport today for the first time since her troops liberated the infant nation from Pakistan in December.

She was taken to the presidential mansion by installed across the grassy helicopter and under heavy security precautions. Prime Minister Sheikh persons.

SAIGON (UPI)—The U.S. Army today ordered the pullout of 11 units, including a pair of helicopter combat teams. The U.S. command said the units with a total of 1,220 men were placed on "standdown" orders and told to clean up their equipment for the trip back to the United States.

Included in the latest withdrawal were the 162nd Aviation Company, and Delta Troop of the 3rd Squadron, 17th Cavalry. The cavalry unit took part in last year's drive into Laos by the south Vietnamese army. Most pilots in the troop were shot down at least once.

FBI testifies

HARRISBURG, Pa. (UPI)—the scenes of the crime. FBI agents testified Thursday about the vandalizing of several antiwar urging was found on draft boards on June 18, 1970, June 18, 1970, on a counter of a but did not place any of the vandalized draft board in Harrisburg Seven defendants at Dover, Del.

Senate gets school bill

(Continued from P. 1)
A committee proposal carried by Rep. John Edwards, R-Council, to replace 18 mills of local property taxes with a one cent increase in the state sales tax went down, 27-39.
Rep. E. V. McHain, R-Ketchum, urged the House to kill Ravenscroft's bill a second time after it was reconsidered, pointing out it violates the campaign promise of many not to raise taxes.
This bill and the other two proposals would grab nearly \$11 million in inventory tax phase-out monies and put them into the school aid formula. It would, however, allow local units to make up their loss by a property

levy of up to 4 1/2 mills. It also would impose a number of new or increased state-wide taxes, including a levy on real estate transactions to raise \$1 million; extension of the sales tax to such services as telephones, retail electricity and water, heating matter, barber and beauty services, repair on non-exempt equipment, laundry and dry cleaning to raise nearly \$8.4 million; a one cent cigarette tax increase to produce \$800,000; a hike in the corporate income tax to seven per cent from six to raise \$2.1 million; and a boost in personal income taxes to raise \$4,919,000.

Must register

BOISE (UPI) — The senate passed 28-0 and sent to the governor Thursday legislation requiring registration as a pre-requisite for voting in Idaho.
Sen. John Mix, D-Moscow, said the legislation would clear up the legal question raised when First District Judge Watt Prather ruled the legislature allowed for registration but did not specifically require registration before voting.

Senate passes farm labor act

BOISE (UPI) — The Senate passed 23-1 and sent to the House Thursday a new Idaho Agricultural Labor Act with 'debaters' indicating the bill, while not perfect, was better than no legislation at all.
The measure, drafted by a special committee appointed by Gov. Cecil D. Andrus, was described as a compromise and a middle-of-the-road approach to farm labor problems.

About a dozen Mexican-American picketed the Statehouse Wednesday protesting the bill. Sen. William Crookham, R-Caldwell, floor sponsor and one of the bill's drafters, said the "best indicator of the worthiness of the legislation is that neither side advocates it but we can all live with it."
Crookham said some of the substantive changes from the bill vetoed by the governor included deletion of the six-day employment provision for picketing, authority to the Agricultural Labor Board to determine voter eligibility for elections, indirect subpoena powers given for the board, and a 72-hour limit on injunctions obtained by either side.

House extends probate code

BOISE (UPI) — Feeling more time is needed to perfect Idaho's new Uniform Probate Code the House approved 49-16 today a bill to extend its effective date until July 1, 1973 from July 1, 1972.

Floor Sponsor E. Don Copple, R-Boise, advised the House if the members did not know what the uniform code does to stop and consider what they would be doing by voting against it.

Ruling removed

BOISE (UPI) — The senate passed 30-0 Thursday a bill to remove the requirement that educational property must be used exclusively by the owner to be exempt from property taxation.

Sen. James Stotchiff, D-Sandpoint, said the change would ease the situation for schools which have rented buildings to use for students.

Name changed

BOISE (UPI) — The Senate passed 29-0 and sent to the governor Thursday a bill changing the name of the Department of Public Assistance to the Department of Social and Rehabilitation Services.

Senate bill to re-enact code held

BOISE (UPI) — House Speaker William J. Lanting, R-Hollister, sent to a leadership committee for safekeeping today a Senate bill to re-enact the old Criminal Code.

Lanting indicated his purpose was to keep the measure on ice while the House looked at a possible compromise between the new and the old penal codes.

Gov. Cecil D. Andrus earlier signed into law a bill repealing the new Criminal Code as of April 1. The old code — purportedly Idaho's criminal laws as they were last Dec. 31 — was approved by the Senate as a replacement for the one being repealed.

Proposal defeated

BOISE (UPI) — Fearful of disturbing the state's reapportionment plan under appeal to the U. S. Supreme Court, the senate killed 12-21 Thursday a bill creating subdistricts in legislative districts 9, 20, 21, 23 and 28.

Sen. John Barker, R-Buhl, said an attorney general's opinion indicated any change in the reapportionment plans already approved in U.S. District Court might upset its chances in the U. S. Supreme Court.

General fund budget \$137 million

BOISE (UPI) — The final computer print-out from the Joint Finance-Appropriations Committee Thursday placed the proposed general fund budget for fiscal year 1973 at \$137,328,000.

Figures for the Health Department and the Department of Public Assistance were adjusted when it appeared the house would not approve the transfer to the DPA of youth rehabilitation from health and the Youth Training Center at St. Anthony from the State Board of Education.

The decision meant more money would have to be appropriated for both youth rehabilitation and the training center.

Under the proposed move to the DPA in an effort to pick-up more federal money both youth rehabilitation and the training center would have needed no more than current funding.

But, if the transfer is not made and the federal moneys are not available, each program required a larger general fund level.

Driver training fee hike proposed

BOISE (UPI) — Despite contentions the fee for driver's education would be prohibitive for low-income students, the senate approved 28-1 Thursday increases in license, permit and course costs to pay for the program.

Meat inspection methods tighter

By BERNARD BRENNER
UPI Farm Editor

WASHINGTON (UPI) — Tightened inspection methods helped produce a jump of nearly 8 million pounds in the volume of imported meat rejected by U.S. inspectors in 1971 because it was adulterated, rotten or otherwise in violation of federal standards, according to the Agriculture Department.

A department report shows some 29.2 million pounds of imported meat were "refused entry" last year out of total imports of over 1.7 billion pounds — a rejection rate of about 1.7 per cent. A department report shows some 29.2 million pounds of imported meat were "refused entry" last year out of total imports of over 1.7 billion pounds — a rejection rate of about 1.7 per cent.

In 1970, records showed 21.3 million pounds were rejected by inspectors at U.S. ports of entry out of over 1.8 billion pounds imported — a rejection rate of under 1.2 per cent.

Part of the increase came because, under a new revised reporting system, some meat rejected in late 1970 did not appear in the federal "refused" statistics until 1971, an official said.

But the spokesman added there was also a general tightening up of port-of-entry inspection standards and supervision.

The imported meat came from more than 40 countries in which plant inspection systems had been certified as equal to American standards.

Exporting meat came from more than 40 countries in which plant inspection systems had been certified as equal to American standards.

Exporting plants are periodically checked by visiting U.S. experts as well as full-time resident local inspectors. Nearly three-quarters of the imports last year came from six countries — Canada, Denmark, Australia, Netherlands, New Zealand and Argentina.

Despite presumably rigid inspection of the meat in foreign plants, an annual Agriculture Department report to Congress today showed the agency's force of 100 port-of-entry meat inspectors found adulterants including hair, wool, bone and stomach and intestinal contents in some samples, and illegal pesticide residues in some canned beef.

Compromise farm labor bill scored by FB aide

JEROME — Gordon Hollifield told Farm Bureau members Wednesday the organization cannot support a compromise farm labor bill drafted by the governor's labor committee.

Hollifield, a member of the Farm Bureau's tax committee, also told the group that cooperative efforts between the Food Producers, Inc. board of directors and the Farm Bureau apparently ended when Gov. Cecil Andrus vetoed the Farm Labor Act. The Food Producers, Inc. now supports the governor's compromise bill.

"Four major changes were made to the proposed legislation," Hollifield said. "First, elimination of the six-day picketing provision; second, elimination of the 14-day employment requirement before signing a petition calling for a vote on union representation; third, strengthening the duties of the Agricultural Labor Board; and fourth, permission

to picket establishments other than where they are employed."

He explained that the Farm Bureau is presently trying to extend the Farm Labor Act for one more year.

Hollifield told the group House Bill 421, which allows school trustees to review their budgets periodically, has been signed by the governor. "Compared to Farm Bureau tax policy, this is a move in the wrong direction," he said. The committee objects to changing school budgets in the middle of the year.

Legislation which would move more authority to the state was defeated in this session, Hollifield noted.

Jerome County Extension Agent Bill Priest spoke to the meeting about bean blight. He said in Jerome County 67.2 acres were plowed down because of bean blight, and he noted that the county will have 26,000 acres under the bean

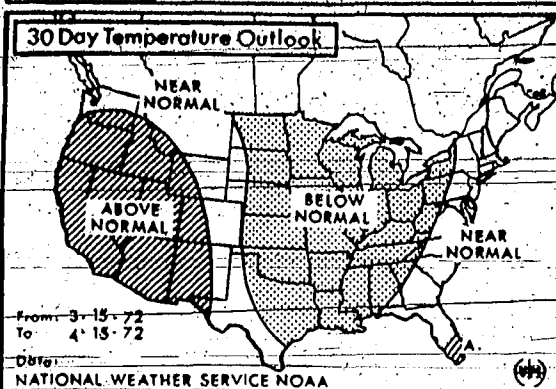

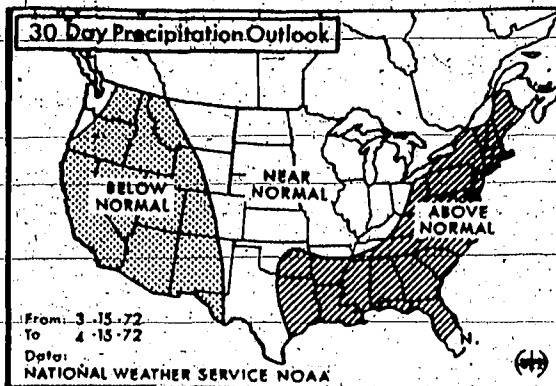

blight pooling program this year.

Priest reviewed plans for grasshopper control for the coming year. He said he does not feel it will pose any threat to the Jerome area if treated in time.

"It looks like we'll have between 12 and 14 thousand acres to treat," Priest said. It would be handled through the Bureau of Pest Control and the Bureau of Land Management.

Priest said determination of how many acres would have to be treated was made from the count of eggs that were laid last fall and the survival over the winter.

they walked with christ

by Robert Pollard

BARTHOLOMEW

One of the most thoughtful, questioning followers of Jesus was Nathanael, better known as Bartholomew. He learned about the Master through his friend, Philip, who flatly announced that he was the Messiah. When Bartholomew heard that he was from Nazareth, he wondered, "Can there any good thing come out of Nazareth?" The town had a bad reputation until he met Jesus. He moved from doubt to faith and exclaimed, "Rabbi, thou art the Son of God, the King of Israel."

Tradition holds that Bartholomew extended the Christian influence far beyond Israel after the Resurrection, touching India and leaving that continent the Gospel of Matthew. The Christian church in Egypt (Coptic) has many early writings traced to the personality of Bartholomew.

For a full-color, 64-page book based on this series, containing eight big illustrations suitable for framing, send \$2.25 in cash or check to LENTEN-COOK, c/o this newspaper, P.O. Box 489, Radio City Station, New York, N.Y. 10019.

Catholic conclave

SEVENTY Magic Valley women attended the Idaho Council of Catholic Women's annual day of recollection Wednesday at St. Benedict's Priory, Twin Falls. They included from left, Mrs. A. C. Truxal, diocesan church community chairman, Rupert; Mrs. Louis Logosz, South Central deanery president, Shoshone; Father Slimeon, director; Mrs. T. J. Tappen, vice chairman of church communities, Buhl; and Mrs. William Last, diocesan vice president, Jerome.

Christian unit sets breakfast

TWIN FALLS — An Easter breakfast will be held at 10 a.m. March 31 in the First Christian Church Fellowship Hall.

Plans for the breakfast were made at the last meeting of the Christian Women's Millipin Service.

Pat Brown, Community Action Center representative, gave the program at the meeting. She described efforts to feed transients and others needing food from "The Pantry" located in the old hospital building.

Mrs. Floyd Smith, 1971 president, announced that 16 dozen place settings in Corningware had been purchased for the church kitchen.

Group 1 met at the home of Mrs. Maurice Allen with Mrs. Uba Allen giving the lesson.

Group 2 met at the home of Mrs. Ralph Bogar with Mrs. V. J. Davidson assistant hostess and Mrs. Philip Schmidt giving the lesson and Mrs. John Parish giving devotions.

Group 3 met at the home of Mrs. James Ingalls with Mrs. Robert Wilson giving the lesson and Mrs. Walter Brose giving devotions.

Mother's Club met at the home of Mrs. William Goff with Mrs. James Lindsey assistant hostess. Scott Harmon demonstrated the microwave oven. Mrs. Bud Huddleston gave devotions.

Anniversary

SHOSHONE — The LDS Relief Society's Anniversary party at Shoshone Ward will be held at 7:30 p.m. Saturday at the church.

A potluck dinner will be served and there will be a program. Mrs. M. J. Dille, president, said.

Those attending are asked to take their own table service. Husbands of members are to be guests.

Dinner slated by Lutherans

SHOSHONE — A potluck dinner honoring an adult confirmand and high school graduates is scheduled for May 7 at Calvary Lutheran Church, Gooding.

The Lutheran School for the Deaf at Detroit, Mich., will be the recipient of the Lutheran Women's Missionary League Easter thank offering.

Mrs. Kurt Westendorf reported homemade cookies had been sent to single college students and servicemen.

Mrs. James Bri reported success of a potluck held in honor of Henry Bowlin, who completed instruction and was recently confirmed.

Mrs. Lyle Thomas said the new waste baskets for the kitchen and both rest rooms were gifts from Mr. and Mrs. David Robbins.

Members voted to quilt several quilts this year to add funds to the league treasury. Several pairs of pillow cases have been embroidered and crocheted for the gift display.

Richfield has Blaine confab

RICHFIELD — Pres. Oral G. Stewart, Carey, conducted the Blaine Stake LDS Quarterly Conference at Richfield and addressed the 550 members attending.

He set goals for improvement of home teaching, holding family home evenings and sacrament meeting attendance in the stake during the coming year. He also announced that all stake meetings will be held in Hailey after general conference in April.

Stake Clerk Myron Johnson, Shoshone, read the roster of church authorities for the sustaining vote of the members. All voting was unanimous in the affirmative.

Walter Bowman, Dietrich, counselor in the stake presidency, urged members to "teach our families about the evils and permissiveness of YWMA, and Mrs. Doris Barton, Carey, Relief Society

on a firm foundation. Another counselor, Pres. Joseph Tve, Hailey, noted the power and authority of the priesthood and challenged men holding the priesthood to respect it and to be "faithful and true to the church" at all times.

Newly appointed high councilmen, Kenneth Blackburn, Shoshone, and William Zickgraf, Sun Valley, spoke on their new Scouting assignment. Zickgraf reminded leaders to set a good example in holding family home evening, family prayer and studying the scriptures.

Other speakers included presidents of the stake women's auxiliaries: Mrs. Ken Dixon, Richfield, Primary; Mrs. Wordell Ratney, Hailey, YWMA, and Mrs. Doris Barton, Carey, Relief Society.

Film slated Sunday

TWIN FALLS — Sunday morning programs at the First Presbyterian Church in Twin Falls will include a film at 9:30 a.m. and regular 11 a.m. services.

"Seasons of the Seventies" will be shown at the 9:30 a.m. service.

Rev. Robert Van Nest will speak at 11 a.m. on "Who

Cares?" The third and final lenten dinner will be held at 6:30 p.m. Thursday in the church dining room. This is a potluck dinner with a guest speaker, Rev. William Barrett, Jerome Presbyterian Church. New members will be honored and special music is planned.

Concert Thursday

TWIN FALLS — The Concordia Lutheran High School Choir will appear in concert at Immanuel Lutheran Church, 2055 Filer Ave. E., at 8 p.m. Thursday.

The choir, made up of 40 young people from the northwest district and Montana is

under the direction of Pam Mueller. Concordia Lutheran High School retains a resident facility for high school boys wanting to study for the ministry of the Lutheran Church.

Filer circle meet

FILER — The Judson Circle of the First Baptist Church will meet at 7 p.m. Monday at the home of Mrs. Jim Webster.

Each member is to bring a new or favorite dish and the recipe for it.

Mrs. Donald Ransom and Dianne Ransom will be in charge of the devotional service.

The Youth Bible Club will meet at 3:45 p.m. Tuesday at the church. Mrs. Pearl Nelsen will furnish refreshments.

Naomi Circle will meet at 2 p.m. Thursday at the home of

Mrs. Della Dunlap, Buhl. Those wishing transportation may contact Mrs. Elza Prough.

THIMET soil and systemic action means extra protection... improved grade & yield

Applied when you plant potatoes — THIMET® 10-G Soil and Systemic Insecticide gives you a "built-in barrier" against insects and virus diseases spread by insects. A barrier that provides extended control. A protection that gives you better size and quality, bigger yields and crop profits.

- Here's what THIMET does for you:
- Provides true systemic action against aphids, leafhoppers, leaf miners and psyllids.
 - Controls wireworms and flea beetle larvae in the soil.
 - Helps prevent psyllid yellows and purple top carried by insects.
 - Eliminates drift problems and hazard to beneficial insects.
- Order THIMET or fertilizer impregnated with THIMET from your supplier.

Before using any pesticide, stop and read the label.

Miss Cox, Phillips exchange promise

KING HILL — Debora Lin Cox and Victor Lee Phillips were married in a 2 p.m. double ring ceremony March 8 at the home of the bride's parents.

The bride is the daughter of Mr. and Mrs. Clyde Cox, King Hill. The bridegroom is the son of James Phillips, Glenns Ferry, and Mrs. Lee Case, Superior, Mont.

Rev. Larry Maxwell of the Glenns Ferry Baptist Church performed the ceremony under an archway of yellow daisies and yellow streamers, flanked by baskets of yellow and white daisies.

The bride, given in marriage by her father, wore a floor-length gown of white lace over yellow satin with lace sleeves. Her elbow-length veil was held by a tangle of yellow rosebuds, white daisies and hearts of pearls.

She carried a cascade bouquet of yellow rosebuds with yellow satin streamers and an English lace handkerchief belonging to an aunt. She wore a necklace belonging to the bridegroom's grandmother.

Becky Cox, Wells, Nev., sister of the bride, was maid of honor. Janice and Christi Cox, sisters of the bride, were bridesmaids. Floyd Johnson, Glenns Ferry, was best man. David Cox, brother of the bride, and James

Phillips, Rock Springs, Wyo., brother of the bridegroom, were ushers.

Christi and Janice Cox, accompanied by Mrs. Lee Nichols, provided vocal music.

The couple was honored at a reception after the ceremony at the Moose Hall, Glenns Ferry.

The bride's table, covered with lace, was centered with a four-tiered wedding cake topped with a miniature bride and bridegroom in an archway of net and lilies of the valley. Yellow rosebuds and white doves were between the tiers, flanked by yellow rosebuds and greenery. The cake was flanked by yellow candles in holders decorated with yellow ribbon and lilies of the valley.

The room was decorated with baskets of yellow and white gladioli.

Mrs. William Phillips Caldwell, aunt of the bride, who baked and decorated the cake, served it. Mrs. Grant Finch, Springfield, Ore., presided at the punch bowl. Mrs. Vernon Thurber, Rupert, poured coffee. Both are aunts of the bride.

Mrs. F. C. Anderson, King Hill, decorated the bride's table and the knife used to cut the cake.

Yvonne Decker, Glenns Ferry, will in charge of the guest book. Mrs. Dick Griggs and Mrs. Floyd Johnson were in charge of the gift table.

Special guests were Mrs. Warren Brown, Skamackawa, Wash., grandmother of the bride, and Mr. and Mrs. C. W. Phillips, Caldwell, grand- parents of the bridegroom. Other guests attended from Rock Springs, Wyo.; Springfield, Ore.; Wells, Nev.; Middleton, Rupert, Boise, Melba, Kuna, Mountain Home, Filer and Fairfield.

After a honeymoon trip to Sun Valley, the couple is at home in Glenns Ferry.

The bride is a senior at Glenns Ferry High School. The bridegroom is employed by David Clark Sprinkling Co., King Hill.

The bride was honored at a bridal shower at the LDS Church, with Mrs. D. O. Decker and daughter, Yvonne, and Mrs. Charles Farris and daughter, Angie, as hostesses.

PAM PIPER

Richfield delegate

announced

RICHFIELD — Pam Piper, Richfield High School junior, has been selected to attend Syringa Girls' State in June.

She is the daughter of Mr. and Mrs. Lyle Piper.

The American Legion Auxiliary will sponsor her trip. She has participated in Pep Club, Girls' League and Girls' "R" Club at the high school. She has been active in volleyball and track.

Plentiful

TWIN FALLS — The United States Department of Agriculture urges homemakers not to abandon the egg after the Easter Bunny has vanished next month.

Officials from the USDA report eggs are in plentiful supply and are at a good price now and will be through April.

Other items in extremely plentiful supply are grape juice and all sorts of canned cranberry items. Farmers reaped a bountiful crop of both grapes and cranberries last year and the surplus was canned to avoid waste, the USDA reports.

March meeting set

TWIN FALLS — The next meeting of the Country Women's Club will be March 19 at the home of Pearl Allred.

A May luncheon was discussed at the last meeting of the club at the home of Genevieve Bird.

Dorothy McCracken, president, conducted a short business meeting.

Valley Briefs

JEROME — Pal Chapter of Beta Sigma Phi will hold a social at Jackpot, Nev., March 25. Mrs. Jack Adams, club president, said the social will be for members, their husbands and guests. A bus will be chartered for the evening to take the group to Jackpot.

JEROME — Camp Fran Ida Pome will meet Friday with Mrs. Hazel Ivie.

JEROME — Barrymore Club will meet Friday with Mrs. Scott Gulick for a potluck luncheon.

JEROME — Missionary party for Bible Baptist youths will be at the church at 7:30 p.m. Saturday.

JEROME — Baptists and all church skating party will be held in Twin Falls, Monday, March 27.

JEROME — St. Benedict's Hospital Guild's St. Patrick's dinner-dance will be held Friday night at the Blue Lakes Country Club.

TWIN FALLS — A meeting of the third division, Pacific Northwest Region, National Model Railroad Association, is

planned in Twin Falls Saturday. It will begin at 10:30 a.m. at the home of Paul Remaley, 2132 Maple. Slide shows, a construction and operating clinic, and a luncheon are planned.

TWIN FALLS — A tea in honor of Erma Scott, grand guardian of Idaho International Order of Job's Daughters, will be given by Twin Falls Chapter No. 29, Order of Eastern Star, at the Masonic Temple from 2 to 3 p.m. Sunday, March 19.

TWIN FALLS — Al Rohweder of IBM Twin Falls, will receive national recognition at the 100 Per Cent Club Convention to be held at the Fontainebleau Hotel, Miami Beach, Fla.

Speech contest slated

TWIN FALLS — Ethel Martin, Magic Toastmistress Club speech chairman, announced the annual speech contest to be held March 23 at Colonial House.

The announcement was made at the last regular meeting of the club. Winner of the contest will compete at the council level during the April 15 meeting of Council 7 in Twin Falls.

Mrs. Clara Bednor directed table topics and Deanna Vollmer won the traveling trophy for the best topic of the evening.

Deanna Vollmer led the pledge and the inspiration. Vera Young conducted the lexicology lesson.

Mary K. Sharp introduced Alda Strong, toastmistress. Mrs. Strong introduced speakers, Mrs. Groeta Smith and Alleen Lindemood. Mrs. Smith won the blue pencil for the best speech.

Evaluators were Nettie Magel and Kathie McKool. Mrs. Magel served as timer.

Ethel Martin was general evaluator for the evening and presented a red pencil to Mrs. Ruby Box, a guest.

Exchange ideas

Australian miss attends high school in Twin Falls

TWIN FALLS — Robynne Barnes, 18, was graduated in December from high school in Wollongong, Australia, and in May she receives a second diploma from the Twin Falls High School.

Since January she has been attending high school in Twin Falls as an exchange student sponsored by the Twin Falls Rotary Club.

Miss Barnes is currently residing with the Edwin Cook family in Twin Falls where Cheryl, a high school senior, is her "exchange" sister.

Her home town, Wollongong, with a population of 170,000, is located on the eastern coast of Australia, about 50 miles south

of Sydney. It is one of the three largest cities in the country.

Her parents operate a news agency which involves the sale of newspapers, magazines and other material. She has an older sister attending the University in Wollongong and a younger brother in school.

When Robynne learned she would be coming to Idaho she read statistics about the area including weather information. From her research she concluded Idaho in January would be covered in a heavy mantle of beautiful white snow. She had never seen snow and was looking forward to a new experience.

Instead, when the plane flew

into Boise she could see nothing but brown vegetation, trees with no leaves and no snow.

Since then, she has seen plenty of snow. In addition to the many storms in Twin Falls since January, she has visited nearby ski resorts and learned to ski.

"I can't say I have learned, but rather am learning," she said.

This summer she will realize a life-long ambition — a visit to Disneyland.

In Australia schools open in January and run the calendar year, closing in December, which made it possible for her to enroll for the second semester in Twin Falls.

During the 12 months she will spend here, Robynne will reside with four local families. Her next home will be with Dr. and Mrs. Russell Newcomb and their family of small children.

"The idea of the exchange program is to give us the widest possible experience in family living, so not all of the families I live with will have sons or daughters my own age," she explained.

Robynne says she plans to attend the university in her home town after returning to Australia and will study economics or geography. She hopes to teach or work for an industry or large business.

Schools in Twin Falls are much different than in Australia, she says.

"We are highly regimented. We wear uniforms and do not have the opportunity as we do here to choose our own schedules. Where we have only 10 subjects in our high schools, there are 94 in the Twin Falls school," she said.

Because she has already completed high school, Robynne is taking business courses, life management and several other subjects not available in her own high school.

Miss Barnes said there is a tremendous influence in Australia now from the United States — much more than from England as was the case in years past.

Not only do many Americans visit there each year, but a great deal of money from the United States has been invested in land and business there, she says.

Miss Barnes said she would like to obtain a work permit and get a job for the summer as a means of learning more about the area and a means of supporting some of her hopes for travel while here.

"The trouble with being an exchange student," she said, "is the short time we are here. We meet many new families and friends for a brief time and must then leave them."

Miss Barnes said she hopes to return to the United States after completing her education, possibly for a longer stay.

Monitoring system attempted

MOSCOW — University of Idaho electrical engineering students are attempting to produce a prototype heart monitoring system.

They are trying to produce a system which will be comparable with those presently on the market, but which will also present new and original information in the display and recording of the heart structure.

The students hope the new output systems will aid medical technologists in the detection and prevention of potential cardiac failures.

Opening lead — ♣ 6		

By Oswald & James Jacoby

South took a very jaundiced look at that six-of-diamonds lead. He could live happily with any other opening hand put in the line and returned the device and left South with the problem of finding eight tricks before giving up the lead.

Four clubs were easy and so were three spades. Four spades would come right in if the jack would drop but East had opened the bidding with one spade and almost surely had five of six for the bid.

Could West actually hold the singleton jack? Possible, but unlikely. Was there any other way to score four spade tricks? An end play? Wouldn't work. There was no way to get to the end of

the hand without letting the diamonds parade home.

Finally, South saw there was a way to make his contract. If West's singleton spade were the eight or nine he could handle East's case. South was going to look for the jack but South didn't care about his partner's bid.

South led a club to dummy and played dummy's 10 of spades. East covered with the jack. West dropped the eight and now South was in clover.

Back to dummy with a second club to lead a low spade. East played low and South put in the seven-spot. It held and he had his four spade tricks.

The bidding has been:

West North East South

♠ A K 6 5 4 ♥ A 2 ♦ J ♣ A K 6 5 4

What do you bid?

A — Bid one club. Do not open one spade, since there is a chance one spade will be passed out but virtually no chance the same will happen to one club. The hand is not quite strong enough for a forcing opening.

TODAY'S QUESTION

You do open one club and your partner responds one heart. What do you do now?

ON THE MALL DOWNTOWN

Dear Abby

DEAR ABBY: I hope you won't think this is too dumb to answer. Can a girl get pregnant from kissing? DALLAS

DEAR DALLAS: No. But it's a good beginning.

DEAR ABBY: Will you please help me? I am a 13-year-old girl and live with my mother alone. A few years ago my father and my two brothers were killed in a car accident. Since I am the only one my mother has left, she babies me something awful. She won't let me go anywhere without her.

I live only one block from school, but my mother walks me to school every morning. If I have to stay after school, my mother comes to school and stands outside waiting for me. It is so bad, Abby, that I don't have any friends left. My mother doesn't even like for me to call anyone on the phone.

If I complain about the way my mother babies me, she cries and says I don't love her. I DO love her, Abby, but I would like to have friends and be like other girls. I used to be an A and B student. Now I dropped down to C's and D's.

It's gotten so that my mother wants to comb my hair in the morning. Please, be my friend, and help me.

PALLING APART

DEAR FALLING: Your mother has suffered a terrible loss, and the shock, plus her loneliness has apparently affected her mental well being. She desperately needs someone to tell her troubles to. And she may need medical attention. Tell your school counselor what you've told me. If you have no counselor, confide in your favorite teacher. Or your minister. When your mother gets the help she needs, she will stop babying you, which will solve your problem and your mother's, too. Good luck, Honey.

DEAR ABBY: I was really disgusted with that college kid whose roommate suggested they share an apartment with two girls. This boob said they would be mutually benefited because the boys wouldn't have to bother with cooking or laundry, and the girls would have the "protection" of men living on the premises, plus they would all save a few bucks!

In this guy for real? If the girls are students, they are in college to study, not to wash out some jerk's socks. Didn't this boy's Mommy ever teach him to feed himself and pick up his things? Where does he come off expecting a stranger to cook for him and do his laundry?

I hope this idiot wakes up, and soon. And if those girls know what they are getting into and still want to live with those two guys for the sake of "security," and to have a few bucks, they all deserve each other. DISGUSTED IN L.A.

What's your problem? You'll feel better if you get it off your chest. Write to ABBY, Box 69766, Los Angeles, Cal. 90066. For a personal reply enclose stamped, addressed envelope.

Montana singers set three events

TWIN FALLS — Three appearances of the New Genesis, an ecumenical folk singing group from Montana, are scheduled in Magic Valley next week.

The singers will be appearing Sunday at the First Presbyterian Church in Twin Falls for a 7:30 p.m. concert. They will perform during a noon assembly Monday at the Valley High School in Eden and on Thursday, March 23, will perform in another evening concert at 7:30 p.m. in the Burley First Presbyterian Church.

The New Genesis is the musical arm of the Ecumenical

Campus Ministries at Montana State University, Bozeman. The group is similar to many others featuring music written recently by church composers for use in worship services and featuring guitar accompaniment rather than the usual church organ.

Church officials say the music is of particular interest to young groups but is also enjoyed by persons of all ages.

The New Genesis logs thousands of miles each year for appearances around Montana and adjoining states. They appear in churches, on campuses and during church conventions with folk-rock

music. They also offer a variety of musical numbers ranging from the traditional "folk mass" liturgy to the modern informal "celebration" type programs.

Some of their music consists of "songs of the market place," music written for the popular market with significance for the church.

An addition to this year's repertoire of the New Genesis group is the well known rock opera number, "Jesus Christ Superstar."

Jack Jennings, former pastor of the United Presbyterian Church in Twin Falls, is director of the group.

Portland choir to sing Sunday

TWIN FALLS — A concert of inspirational music will be presented by the 40-voice Ambassador Choir from Multnomah School of the Bible, Portland, Ore., at 7:30 p.m. Sunday.

The concert will be given at Tyler Street Baptist Church. The choir is under the direction of Frank Eaton, Multnomah School of the

Bible is an inter-denominational Bible college offering a full line in Bible major courses, including for degree programs. Founded in 1938, under the leadership of Dr. John G. Mitchell, the school now has an enrollment of almost 700 day students and over 400 evening school students.

The public is invited to attend the musical program.

Concert slated at Burley

BURLEY — A concert by the Adolphian Concert Choir at 8 p.m. today at the United Methodist Church was announced at the WSCS meeting. WSCS members made plans to host a dinner for the singers who will stay overnight in the homes of church members.

Mrs. Wallace Sharples gave the lesson. Mrs. Earl Reynolds did a chalk sketch while Mrs. Maxine Ellenberger accompanied by Mrs. Mack Crouch sang.

Mrs. Ellenberger gave a reading accompanied by Mrs. Grouch.

Mrs. Frank Redfield read the scripture and Mrs. Sharples told a legend. Mrs. Redfield gave the closing prayer.

A large cross adorned with lilies formed the background decoration for the meeting.

Refreshments were served on a table covered with a lace cloth purchased by members with donated bonus stamps.

Crusade set

V. O. BRASSFIELD, Tulsa, Okla., will conduct a series of crusade meetings at the First Assembly of God Church, Twin Falls, beginning Sunday 11 a.m. Services continue nightly except Monday and Saturday through April 1. The public is invited.

Minidoka Different conclave planned

RUPERT — Elder Bernard P. Brockbank, an assistant to the Council of Twelve of the LDS Church, will speak at the Minidoka Stake Conference Saturday and Sunday.

Stake President Rodney A. Hansen said visitors are welcome to the Sunday morning session at 10 a.m. in the Stake Tabernacle, corner of 8th and G. Street, Rupert.

Elder Brockbank was named an Assistant to the Council of Twelve on Oct. 6, 1962. He was president of the Scotland Mission of the church and completed his term of service in addition to his new responsibilities. He was managing director of the Mormon Pavilions at the New York World Fair, HemisFair '68 in San Antonio Tex., and Expo '70 in Osaka, Japan.

Twin Falls WSCS meet Thursday

TWIN FALLS — The Women's Society of Christian Service of Twin Falls will meet Thursday in the Fellowship Hall.

The meeting will be in observance of prayer and self denial for the Lenten season. Devotions will begin at 11:30 a.m. followed by a sacrificial luncheon.

Hostesses for the luncheon will be members of Circle 4 with Mrs. H. O. Widener, leader, and members of Circle 5, Mrs. John Heck leader.

Program will be "Open up Your Life" with Elsie Lindgren as leader assisted by Mrs. Russell Potter and Mrs. Terry Sullivan.

Minidoka Different conclave planned

FILER — The March 21 meeting of the Young Mothers Council Service will be different from former meetings.

The group will meet at 9:30 a.m. at the Mennonite Church and leave their children in the church nursery. They will then travel in cars to the Twin Falls Mortuary where William Boyd will speak to them on the subject, "A Child Looks at Death."

All young mothers are invited to attend. This group includes all mothers of children under 14 years of age.

Lecture tonight

TWIN FALLS — The third discussion in a series of "Know Your Religion" lectures will be given 8 p.m. tonight in the LDS West Stake Tabernacle, Twin Falls.

George W. Pace, a member of the College of Religion Faculty

at Brigham Young University, will deliver tonight's lecture, "What It Means to Know Christ."

Tickets may be purchased at the door for \$1.25 for adults and 75 cents for students. The public is invited.

Speaker at Buhl

BUHL — Dr. and Mrs. Harold W. Gretzinger will be guests during a special service Sunday morning at the Buhl Church of the Nazarene.

Dr. Gretzinger will deliver the sermon on Christ's Second Coming. The special service will use the first half of the Sunday School hour from 10 to 10:30 a.m. and all of the worship service at 11 a.m.

TF Nazarenes set talent contest

TWIN FALLS — A zone talent contest will be held at the First Church of the Nazarene in Twin Falls Sunday afternoon.

Youth groups from eight church organizations will be taking part. The program will begin at 2:30 p.m. in the Twin Falls Church. In addition to the talent competition, there will be a zone scripture quiz. Rev. Triving Laird, district quiz director, will conduct the contest.

Sunday morning Rev. Joe Chastain, pastor, will speak on "The Demands of the Law and the Sacrificial Christ."

Special music for the day will be furnished by the mixed quartet and the boys youth group. A nursery is available for morning and evening services.

Nearly ninety years old... Pulling harder than ever for Idaho.

Union Pacific has been serving Idaho for nearly ninety years, and is still doing it better than ever.

Union Pacific has long been one of the top employers of the State as well as one of the leading taxpayers.

But Union Pacific is helping Idaho grow in many other ways, such as:

- Working with state, county, and local officials in bringing an average of at least one new business a month to the State over the past three or four years
- Establishing and developing new industrial areas
- Bringing sales and industrial development people from all parts of the railroad to learn firsthand what Idaho has to offer plant site seekers and tourists
- Building a million-dollar diesel locomotive inspection service and running repair facility at Pocatello
- Maintaining two major Pacific Fruit Express repair and maintenance shops at Pocatello and Nampa (PFE 50% owned by U.P.)
- Establishing favorable rates and providing special equipment to expand markets for Idaho products
- Providing the finest rail transportation in America for Idaho shippers
- Building Idaho export sales with container flat car service to major West Coast ports

These are just a few of the ways in which Union Pacific is involved, offering service benefits for Idaho as well as a wider diversification of job opportunities for people of the Gem State.

Modernistic design spells name of new school

Gooding moves to new school

GOODING (UPI) — Farmers lent their trucks and students and teachers lugged the furniture as Gooding High School moved to its new \$1.4 million plant Thursday.

School was dismissed Thursday and Friday so students could lend a hand in the move from the old building erected in 1912 to the modern structure on the west side of town.

Besides students and

teachers, some residents donned sweatshirts and worked side by side moving furniture, books and supplies.

The new 23 classrooms and hallways decorated in the school colors drew "ohs and ahs" as the students tramped through their new home.

The complex also includes a new gymnasium with a "floating floor." Students previously used an area junior high school gymnasium.

Dinner set

SHOSHONE — Final plans for the annual athletic dinner will be made by the Booster Club at a meeting to be held at 8 p.m. Monday at the high school building.

Joe Berriochoa, president, said the banquet will be on April 13 and urges members of the club to attend the meeting to complete plans.

Ketchum lists election data

KETCHUM — Ketchum City Clerk Betty Coles has announced hours for voter registration for Tuesday's special bond election.

The office will be open from 7 until 9 p.m. today, and on Saturday from 8 a.m. to 5 p.m. and 7 p.m. to 9 p.m.

Qualified voters must have been a resident of the state for

six months and a city resident for three months.

The clerk said if a resident had voted in the municipal election last fall, they are registered at this time, but if anyone is uncertain as to whether or not they are registered, they may call her office.

Wendell holds pollution meet

WENDELL — Aldrich Bowler, Bliss, told a seminar on pollution at Wendell Thursday afternoon that every living thing is a polluter to some degree.

A member of the Idaho Environmental Council and Magic Valley Recreation Council, Bowler said if an "aesthetic" environment is to be accomplished through public pressure and environmental control, the advocates must present visual and verbal material at public meetings and let the people be the judge.

Bowler said that 62 per cent of the land in Idaho is federally owned. He urged those present to be patient with the public official who must face both the environmentalist and the developer.

As a visual aid, he showed before and after slides of the Box Canyon and other Thousand Springs developments.

He said Thousand Springs area is an example of the "multiple use" concept, and on this basic advocated that the Box Canyon, with the eleventh largest spring in the world, be completely preserved and not aside as a national monument.

Ed Koester, Gooding County extension agent, spoke on "The Economic Feasibility of

Cleanup." He listed sediment, livestock wastes, pesticides, fertilizers and irrigation as the five main agricultural pollutants.

He said everyone must develop common sense and learn to live with many of today's problems if our culture continues to survive.

"Everyone has more questions than answers, and if we expect to clean up the environment we must be prepared to pay a high price," Koester said.

Perhaps, he said, the answer lies in whether we will accept a change in priorities. Where there's a balance of nature, there's no pollution, he said.

Mrs. Ruth Wahler, Wendell Home Improvement Club, spoke briefly on "Ecology Through Laws, Regulations and Codes."

Mrs. Hugh Caldwell Wendell, urged the homemakers present to fight pollution by learning city ordinances and abiding by them. She suggested that clean-up and beautification campaigns could be used as a community tool.

Lease approved for housing plan

WENDELL — The Wendell City Council Thursday night approved the lease of one-third block of city property for construction of 12 two-bedroom low-income housing units.

At a special meeting with members of the Wendell Housing Authority, the council voted 3-1 to lease the property located on West Ave. A. to the Wendell Housing Association.

The association is a non-profit legal entity formed to represent the city. Del Taylor, of the Federal Housing Authority in Gooding, said he is completing application for a loan from the FHA for \$151,000 to be made to the Housing Association.

To qualify for housing, applicants must earn less than \$9,000 annually.

Voting for the motion were city councilmen Dale Bitterli, Harold Simerly, and Dale Gilbert. Vernon Mason voted against the lease.

Members of the Wendell Housing Authority include Ed McNutt, chairman; Larry Peterson, secretary, and Charles Miller and Charles Freeman. They were appointed by the City Council in 1970 to determine whether Wendell needed a low-income housing project.

Mayor Eugene Soares earlier had said McNutt agreed to drop

the project after opposition from councilmen. The special meeting was called to review the matter.

Simerly and Bitterli said they both felt the earlier report was a misunderstanding because of lack of communication with the Wendell Housing Authority. At the previous meeting Bitterli mentioned to table the signing of the lease until a few facts were clarified.

Mrs. Nelson King, who operates the Country Store, would have to find other accommodations for her business. The Old Firehouse would be razed for construction of the new housing units. She has been offered space in the old bank building, formerly occupied by Idaho 1st National Bank.

North side group to meet Thursday

SHOSHONE — North Side Communities are urged to attend. Wives of delegates are invited.

Manhattan Cafe, Shoshone. Kenneth Blackburn and All delegates from chambers. Perry Haddock, Shoshone, are in charge of a program of commerce in the North Side.

Mt. Home dwelling explodes

MOUNTAIN HOME (UPI) — A Mountain Home woman was injured Thursday night when her home exploded and then was destroyed by fire.

Authorities said Mrs. Lucille Pannone, 20, was treated for first, second and third degree burns at Elmore County Memorial Hospital.

Officials said no one else was in the home when an explosion blew off the roof and caved in the sides of the structure.

A fire followed the blast. No surrounding homes were damaged as a result of the explosion and fire, which occurred shortly after 10 p.m.

City Councilman John Hiller said firemen were investigating the cause of the explosion.

Press decision not final

GOODING — A Gooding Chamber of Commerce official said Thursday that a decision to limit chamber press coverage was not unanimous.

James Wilkins said he and another member of the chamber's 11-man executive board, Vern Nelson, had protested the press policy decision.

Wilkins, owner of Wilkins Sales Co., and Nelson, manager of the Gooding branch of the Bank of Idaho, argued the chamber's new policy "was discrimination and they couldn't control the news that way," Wilkins said.

The chamber committee voted to channel news reports through the publisher of the Gooding County Leader, at Hagen, who is also the chamber's publicity director.

The purpose of the move, according to Chamber President Walter Locke, was expressly to delay Times-News reportage until after the Leader could print.

Locke had said the decision was unanimous. Under the policy reporters could attend the meetings, but not print. A handout later would be made by Hagen.

According to Wilkins, "We disagreed that it was possible to give out news releases through a weekly outlet, because of the time lag. We felt the news should go out when it happens — when it's news."

"Both Vern and I agree it was an ill-advised action by the chamber," he said, "and would like to see it rectified if possible."

Fairfield fetes medic

By RUTH MILLER
Times-News writer

FAIRFIELD — Thursday was Doc Kearns Day in Fairfield.

The event was sponsored Thursday night at the American Legion Hall by the Camas Club and Fairfield Chamber of Commerce, honoring Dr. Marlon J. Kearns, who has served as Camas Prairie's only doctor for more than 30 years.

Dr. Kearns was forced into retirement by illness. He has also served as county coroner.

About 200 people attended a potluck dinner, including Dr. Kearns' son and wife, Mr. and Mrs. James Kearns, Boise, two daughters, Mrs. Jay Lee, Fairfield, and Suzy Kearns, Boise, and their families.

A presentation was made to Dr. Kearns from the chamber of commerce by Marie Olson and Chamber President Walter Tanous. Marie is the 10-year-old daughter of Mr. and Mrs. Charles Olson, the last baby Dr. Kearns delivered.

A telegram was received from Nancy Packham, California, who was the first baby Dr. Kearns delivered about 30 years ago.

Mrs. Lyle Hupfer gave Dr. Kearns a gift on behalf of the American Legion and Legion Auxiliary.

A slide presentation on natural resources in the Sawtooth Region north of Fairfield was presented by forest ranger, Larry Weeks.

Mrs. Lloyd Barron was mistress of ceremonies.

Rotary hears safety talk

SHOSHONE — A program on safety was given at the Wednesday Rotary Club meeting. Leslie Stimpson, Shoshone, Idaho, state patrolman, was speaker.

Driving while drinking, in particular was discussed by the patrolman with an outline of what is being done to try to combat this problem in Idaho.

Kenneth Blackburn was program chairman.

Easiest way to picket

BURLEY — The easiest way to walk a picket line is apparently to pick a car bearing "on strike" signs in front of a firm.

Sheet metal workers striking Wes's Welding of Burley have found this tactic works to perfection.

The union struck the firm several months ago over issues around wages and union security.

The strike continues amid stalemated negotiations, according to Fred Smith of the Idaho Employers Council, Boise, which acts as a mediator between employer and union in disputes.

The union hasn't even asked for a meeting yet, so we have no progress to report," Smith told the Times-News today.

The union vehicle, parked daily in front of the firm, recently came to the attention of Burley police, who told the union members they could not park a car on a city street for more than 72 hours.

The union responded by switching to a "two-car system," according to Police Chief Ken Barry.

even asked for a meeting yet, so we have no progress to report."

Smith told the Times-News today.

The union vehicle, parked daily in front of the firm, recently came to the attention of Burley police, who told the union members they could not park a car on a city street for more than 72 hours.

The union responded by switching to a "two-car system," according to Police Chief Ken Barry.

even asked for a meeting yet, so we have no progress to report."

Smith told the Times-News today.

The union responded by switching to a "two-car system," according to Police Chief Ken Barry.

Bank planning Wendell branch

WENDELL — J. P. Hamilton, Buhl, president of Karmore National Bank, said directors of the bank are seeking a branch in Wendell.

Hamilton said an application has been filed with the administrator of national banks, Portland office. If the request is granted, new quarters for a branch office will be built.

Bank officials will begin an economic survey of the Wendell-Gooding-Jerome area this week.

The Farmer's National Bank of Buhl was chartered in 1917. The bank has a branch in Hagerman.

Shares are 99 per cent owned by residents of Twin Falls and Gooding counties, he said.

Dave Nicholson, Hagerman, is bank director in the Hagerman-Wendell area. John Black, chairman of the board, is a potato producer in the Wendell area.

The application was made because of population growth and fast-growing dairy and fish industries in the Wendell area, he said.

Hamilton said the Tupperware factory near Jerome also will be a factor in the future growth of Wendell.

Interest low

JEROME — A meeting in Jerome on low-cost housing broke up shortly after it began Tuesday night because only two people appeared.

Harley Wallington, a member of a group of interested Jerome citizens trying to obtain low cost housing, said persons "contacts are now being made to determine interest in the project."

Wallington said if enough interest is shown, possibly another meeting will be scheduled later.

Silent vigil at Burley

A "MOBILE PICKET LINE" maintains a silent vigil in front of Wes's Welding, Burley. Sheet metal workers struck the firm several months ago but no progress has been reported in negotiations. The union has stationed a car with "on strike" signs in front of the firm.

Tummy Acid Is Really Hot

The acid inside your midsection is so strong, say the medical men, it would blister the palm of your hand. LITTLE LATE in reporting this, but in the year 1816, most all the ponds in Vermont froze over on the Fourth of July. JUST ABOUT half of the 23-year-old men hereabouts are single. But only a third of the 23-year-old girls remained unmarried. IT IS ALSO a proven fact, as you might expect, that sleep-walkers are easiest to hypnotize. BECAUSE of the superb emergency hospital facilities, safest place in the world to have a heart attack, it's said, is Belfast, Ireland. Remember that. Plan ahead. A LOT of the food you eat is alive, you know? Green onions, Oysters maybe. But Professor Marston Bates points out, quite rightly, all have one common characteristic: They're mute. With some satisfaction, the diner notices the oyster's muscular twitch as the lemon juice drops upon it. "But I doubt the oyster would be eaten alive," he says, "if it were to shriek when pried open or squeal when jabbed with a fork." True enough. Never thought of that before. Won't think of it again, either, if I'm lucky.

FORECAST FOR SATURDAY, MARCH 18, 1972

GENERAL TENDENCIES: A day when most of your friends will be interested in attaining the best possible health through beneficial treatments they will want to show off to advantage the improved attractiveness. Following this the desire for romance, plus new assaults upon prosperity, will be strong.

ARIES (Mar. 21 to Apr. 19) Look to an adviser for good ideas that will help you advance in the near future. Plan how to have more money so that you can build up a sizable reserve. Be more thrifty.

TAURUS (Apr. 20 to May 20) Bring out your finest features so you can make a good impression on those you deal with in business. Accept an invitation for a social event extended to you.

GEMINI (May 21 to June 21) You are able to delve into new pleasures now that could lead to more productive channels in the future. Your intuition is working accurately. Be sure to follow it.

MOON CHILDREN (June 22 to July 21) There is much activity where friends are concerned, so be sure to join in the fun. Use new systems, since you find your desires have changed. Be careful in travel.

LEO (July 22 to Aug. 21) An ideal time to show your finest talents where bigwigs are concerned. Follow all regulations that apply to you and gain the support of leading citizens in the community.

VIRGO (Aug. 22 to Sept. 21) You have to do a specialized study now if you are to follow a new course you have in mind. Making new contacts can be most valuable now. Be sure to try the right ones.

LIBRA (Sept. 22 to Oct. 21) Contacting those persons who can give you the right ideas and advice to make your life more successful is wise. Put your fine skills to work. Show mate you are truly devoted.

SCORPIO (Oct. 22 to Nov. 21) Know what is expected of you by your associates today, and then cooperate for more accord and mutual success. One who has been opposed to you is now off your side.

SAGITTARIUS (Nov. 22 to Dec. 21) Start doing necessary work ahead of you and accomplish a good deal today. Improve on your wardrobe for the coming social events. Show that you have excellent taste.

CAPRICORN (Dec. 22 to Jan. 20) This can be a fine day for you if you schedule your time and activities early. Then visit people you like. You can handle both business and social affairs well.

AQUARIUS (Jan. 21 to Feb. 19) Affairs at home may not appear interesting, but you have to take care of problems there quickly and thereby increase harmony. Stop being so distrustful.

PISCES (Feb. 20 to Mar. 20) You can obtain the views of persons who are in a position to assist you. Show gratitude, plus an interest in their problems. Handle correspondence tonight and avoid the limelight.

IF YOUR CHILD IS BORN TODAY he or she will be one of those charming young people who will realize early the importance of being practical, and thus make a good, profitable life. A fine spiritual and ethical training is essential. There is in this chart a canny ability to think through a course of action and follow through on it wisely. "The Stars impel, they do not compel." What you make of your life is largely up to YOU!

QUERIES

Q. "How many buildings does the U. S. Government own?"
A. Almost but not quite half a million.
Q. "ISN'T it a fact two-thirds of all the long distance telephone calls are made by women?"
A. From home phones only.
Q. "WHICH is the older—the pyramids of Egypt or the Great Wall of China?"
A. The pyramids.
Q. "MISTER, would you like your son to go into politics? Politicians decided that was a lively query to put to fathers nationwide. And seven out of 10 of same said no, not that, never. Or words to that effect."

SPEAKER

Much also is usually made of the after-dinner speaker on the professional circuit. Clap, clap. He is thought to be a witty important fellow who loves his work. Am told, however, that's not quite right. Most such speakers, it's said, despise their assignments. Most, like old Mark Twain, are in financial hot water. They need the money. Otherwise, phooey. It's true. DID I ALREADY tell you a skunk never sprays into the wind? Might have.

UCLA, Long Beach set for regional showdown

PROVO, Utah (UPI)—Long Beach State downed the University of San Francisco 76-66 and UCLA thumped Weber State 90-58 Thursday night in the NCAA West Regionals.

That set the stage for a showdown rematch between the sixth-ranked 49ers and No. 1 rated Bruins Saturday night for the West title and a trip to the NCAA finals March 23-25 in Los Angeles.

UCLA edged the 49ers 57-55

in last year's West finale and went on to capture its fifth straight NCAA basketball championship.

All America guard Ed Ratloff of Long Beach State and forward Chuck Terry each scored 10 points.

Using a 1-2-2 sagging zone defense, the 49ers shut off San Francisco from the inside and forced the Dons to fire from outside. Guard Mike Quick hit for 16 points in the second half

and finished with 10 points as the only Don in double figures.

USP shot a dismal 32 percent and gave up the ball 10 times on steals, four by Ratloff.

Long Beach fell behind 4-2 in the opening minutes but the 49ers zone cut off the San Francisco scoring attack and Long Beach went on a 12-0 spurt to coast to an 11-point halftime margin, 33-22.

Five-time defending champion UCLA scored the first

seven points of the game against unheralded Weber State and easily overcame the Wildcats despite the early exit of All America center Bill Walton.

Bruin coach John Wooden removed the 6-11 sophomore center from the game one minute into the second half when he picked up his fourth foul. He had only four points, a season low, and never returned because he wasn't needed.

Junior Sven Nater took over for Walton and scored 12 points in the second half.

Forward Larry Farmer and Walton's All America teammate Henry Bibby led the Bruins with 15 and 16 points apiece.

Rozelle hit by players at hearing

WASHINGTON (UPI)—John Mackey, Alan Page and several other star pro football players, testifying in favor of a bill that would speed up NLRB grievance procedures, Thursday attacked commissioner Pete Rozelle for a lack of "neutrality" at a congressional hearing.

Speaking before the House Labor subcommittee studying the proposed bill, Mackey, the president of the National Football League Players Association said, "We are not complaining about Rozelle personally but against his power."

He added, "we are against the system and we would be against it whether Rozelle or anyone else was the commissioner."

Noting that a pro football player has an average career spanning just 4.6 years, Mackey said the average player can't wait out the several years it takes for a grievance to go through the channels of the National Labor Relations Board.

African pygmies average under 4 1/2 feet in height.

Twin Falls banquet honors basketball players, matmen

Seniors Steve Chapman and Farrell Groves walked off with basketball honors while junior Mark McKain and senior Chuck Harper shared wrestling awards Thursday night at the Twin Falls winter sports banquet.

Chapman was named the most inspirational player by his fellow teammates while Groves, the team captain, was named the most valuable player.

The wrestling award was divided between Twin Falls' two state champions in another vote of teammates. Harper won the 141-pound state title and McKain was titlist at 157. McKain joins his older brother;

Mike McKain, on the per-dedication, work and ex-manent trophy which goes for cellence.

Beard has Jacksonville lead

JACKSONVILLE, Fla. (UPI)—Frank Beard sank a 12-foot birdie putt on the final hole Thursday for a 4-under-par 69 to take a one-stroke lead over Al Gelberger in the first round of the \$125,000 Greater Jacksonville Open.

Beard battled a gusty wind and heavy intermittent showers which forced a 40-minute delay in competition as he posted six birdies and two bogeys on the tough 6,943-yard Hidden Hills Course.

Gelberger, a pencil-thin Californian, sank four short birdie putts, finishing play shortly before heavy rains drenched the layout. His only bogey came on the 568-yard 14th hole when he three-putted from the fringe 45 feet from the cup.

Blue says he's out of baseball

OAKLAND (UPI)—Holdout pitcher Vida Blue, dundlocked in a salary dispute, said Thursday he was leaving baseball to accept an executive position in private industry.

Last year's Cy Young award winner and most valuable player in the American League told newsmen he had accepted an offer to work full-time for Dura-Steel Products of Los Angeles as a vice president in charge of public relations.

Wearing slacks, a striped sports shirt and sneakers, the 22-year-old lefthanded pitcher of the Oakland Athletics giggled when he made the announcement.

"Excuse me for smiling, but I am dead serious," said Blue.

"This is a wonderful opportunity for me and one that I feel I should take."

"It is with deep regret and sadness I announce my leaving baseball. I had hoped my career could have been longer. While it was short, it was packed with excitement."

Seven players finished two strokes back of Beard at 70. They included former U.S. and British Open champion Tony Jacklin, J.C. Snead, Jim Weichers, Eric Jones, Bob Murphy and two unknowns Jim Hardy and George Hixon.

Arnold Palmer, struggling to get his game in shape for the Masters, Doug Sanders, Tommy Aaron, John Taster, Jim Gilbert, Rod Curl, Dick Lutz, Larry Ziegler and Jack Montgomery were at 71.

Defending champion Gary Player headed a large group at 72, while Lee Trevino had a 73. Jack Nicklaus, the only two-time winner on the tour this year, passed up this tournament.

Beard, who has topped the \$100,000 mark each of the last five years, sank birdie putts of 5, 6, 4, 20, 10 and 12 feet. His two bogeys came when he failed to hit the green on his approach shot.

Beard, recovering from an ear problem which hampered him earlier in the year, said he

drove the ball fairly well all day.

"I was a little tight after the rain delay and hit a bad shot on the 31st tee," he said. He was two under at that stage but bogeyed No. 4 and No. 6. He rallied with birdies at 12 and 18 to take the lead.

Hall of fame member dies

PITTSBURGH (UPI)—Harold Joseph "Pie" Trzynor, Hall of Fame third baseman and former Pittsburgh Pirate manager during the fading Babe Ruth era, died Thursday at the age of 72.

Ferrum knocks CSI from title contention 61-60

Penn and North Carolina gain finals

Friday, March 17, 1972 Times-News, Twin Falls, Idaho 17

HUTCHINSON, Kans. — Carlos Vermudez tipped in a shot with 1:44 left in the game and Ferrum, Va., made that 61-60 lead it provided stand up for a national junior college tournament quarter-final victory over the College of Southern Idaho Thursday night.

Ferrum, which now has won two straight one-point victories over CSI in this event, simply outlasted the Eagles and refused to crack when CSI went up by nine points early in the second half. The Eagles hit only five field goals over the last 11:00 of the game and Ferrum inched back into a tie at 56-55 with 5:20 left. CSI led only once after that—but nearly pulled the game out just before the buzzer.

CSI was scheduled to meet Seminole, Okla., at 2:30 p.m. Idaho time while Ferrum advanced to the semi-finals against Tyler, Tex., Friday night.

Ferrum, smaller but a fierce defensive and patient offensive team, kept CSI from getting anything going except for the first five minutes of the second half. The first half was a matter of lead exchanges and tight scores with Ferrum holding a 31-30 advantage.

But after Ferrum hit the first bucket of the second half, Rick Sobers hit three times and Vic Kelly, who wound up with 20 points, added a field goal for a 38-33 lead. Vermudez scored for Ferrum at that point before Kelly hit twice and Willie Williams once to send CSI quickly into a 44-35 lead—but that was the closest.

Don Dorcas then blazed for seven of the next eight points of the game and CSI struggled to stay a point or three ahead. After the 56-56 deadlock, Charlie Thomas hit a field goal and Mark Sandy a free throw for a three-point Ferrum lead. Dan Dessen got a crumple at the three-minute mark and a minute later Gene Stroebel hit a jump shot as CSI regained the lead. Then came Vermudez's decisive tip—followed by turnovers. CSI got the ball with 25 seconds left and Kelly's shot with 10 seconds remaining wobbled the rim but came out.

Host Hutchinson whipped Ulster of Stone Ridge, N.Y., 97-88, to advance in the consolation bracket.

Hutchinson was led by Tyrone Pryor with 26 and Rich Moresen with 25. Coleman Link contributed 25 for Stone Ridge, which was eliminated from the two-defeat tourney.

A late rally gave Burlington, Iowa, a 77-74 decision over Robert Morris of Carthage, Ill. It advanced Burlington in the loser's bracket and eliminated Morris with its second loss.

John Moody hit 25 points for the Iowa club, while Gilbert Lee scored 23 for Morris.

In another consolation game, Casper, Wyo., eliminated Paducah, Ky., 80-71, on the shooting of Ron Crowell with 25 and Clark Moran with 20.

Arizona Western of Yuma scored a 116-76 rout of Erie of Buffalo, N.Y.

With Calhoun out of the game, Villanova limited Penn Quakers 21-8 and moved within three points of the lead.

But a tip-in by Bob Morse with 3:25 to go and two free throws by Al Cotler a minute later wrapped up the game. Penn led from the start, rolling to an 11-point lead midway through the first half before Villanova closed the halftime gap to 38-31. The teams traded baskets through the first six minutes of the second half before Penn ran off eight straight points, four by Hankinson and two each by Calhoun and Cotler to grab their biggest lead of the night.

Second-ranked North Carolina turned the game into a runaway by outscoring the Gamecocks 28-11 over the last

eight minutes of the first half—getting 12 straight points in one stretch while three South go.

Carolina starters were sitting on the bench with three personal fouls apiece.

Wuyek, the nation's leading field goal percentage shooter, finished with 16 points, but South Carolina's Kevin Joyce

was high in the game with 21 before fouling out with 2:56 to go.

Kentucky shocks Marquette, Florida State downs Gophers

DAYTON, Ohio (UPI)—Rowland Garrett scored 23 points to lead 10th-ranked Florida State to a 70-56 victory over Big Ten champion Minnesota in the NCAA Midwest Regional Thursday night after Kentucky upset seventh-ranked Marquette 65-69 in the opener.

Florida State and Kentucky meet Saturday afternoon for the Midwest title and a berth in the NCAA semi-finals next Thursday night in Los Angeles.

Coffey, a 6-6 senior forward, fired in 14 of his game high total in the second half when the fast-breaking Seminoles pulled away from the defensive-

minded Gophers in the last 12 minutes of the game.

Minnesota, which played the last portion of the regular season primarily with a five-man squad, was hurt considerably when 6-5 sophomore Keith Young drew his fourth foul with 1:24 remaining in the first half. Coach Bill Musselman started Young in the second half and he picked up his fifth foul with 11:32 remaining.

The Gophers, now 17-7, led in the early minutes but never by more than six points. Florida State tied it for the first time at 20-20 on a jump shot by Ron King and took the lead for good

at 26-27 on a jumper by Ron Harris with 2:38 to go in the half.

In the first game, Little Ronnie Lyons scored 19 points to lead Kentucky to a stirring 65-49 victory over Marquette.

Lyons, smallest man on the court at 5-10, led a second half Kentucky rally after the Wildcats had trailed 34-33 at halftime.

Marquette ran into foul trouble in the second half and couldn't contain the Kentucky fast break, led by Lyons, Stan Key and Larry Stamper.

Kentucky, which converted 22 free throws in the second half to only nine for the Warriors, hit on eight of nine one-and-one attempts for 18 points after getting to the bonus situation with 10:06 remaining.

Marquette meanwhile, which lost starters Larry McNeill and Marcus Washington and substitute Kurt Spychalla on fouls, didn't get into the one-and-one until 3:24 to go.

Marquette, now 25-3, jumped to an early 19-10 lead, mostly on the scoring of Bob Lackey, who had a game high 21 points. The Wildcats, however, rallied to tie it 23-23 with 6:35 remaining and the teams battled on even terms the rest of the half.

The game was tied 51-51 with 10:50 remaining when a basket by Key and two free throws by 6-11 center Jim Andrews gave the Wildcats a 55-51 lead which they never relinquished.

NCAA skier killed in accident

WINTER PARK, Colo. (UPI)—A skiing accident during NCAA competition Thursday claimed the life of a 20-year-old University of Utah student.

David Allen Novelle lost a ski, witnesses said, after going through a gate during the downhill racing, and in trying to maintain his balance, skied off the course and hit a tree.

The accident happened shortly before noon about halfway down the 1.3 mile course on Little Pierre Trail. The Winter Park ski area is 67 miles west of Denver.

Authorities estimated Novelle's speed at 50-60 miles per hour as he struck the tree.

His parents were identified as Mrs. Joann Guseman of Salt Lake City and David Novelle of Park City, Utah.

If you like "things"...

then you'll like reading the Want Ads on a daily basis.

Regardless of what your favorite pastime is, you're sure to find some of the things you need to enjoy it more, advertised for sale in the columns of The Times-News Want Ads.

And if, like many others, you have tired of your interest or hobby, you'll find the Want Ads a fast, low-cost way to let others know what it is you no longer need. Just a phone call to 733-0931 and a friendly Ad-taker will be happy to help you word your ad for quick response.

ATTENTION FORD & CHEV. FOLK.

I'M
CARL RICHARDSON
FROM
BONANZA MOTORS
AND I SAY
DODGE
BUILDS A BETTER
PICKUP!

OUR CAB IS THE ROOMIEST.

Your first look inside tells you that. But we have the facts and figures to prove it. Since Dodge is the only all-new pickup this year, it's been designed bigger than any of the others.

OUR INDEPENDENT FRONT-SUSPENSION IS EXCLUSIVE.

Certainly there are other kinds of I.F.S., but only Dodge pickups have newly designed coil spring suspension assemblies with a built-in front control strut. One test drive will show you what a difference it can make.

OUR TOUGHNESS IS A PROUD DODGE TRADITION.

Toughness is a reputation Dodge has enjoyed for many, many years. We still have it with features we can show you now — if you'll come in and see the only all-new pickup on the road for 1972 — DODGE. Depend on it!

Read this ad and take advantage of these good buys OVER 40 New Pickups and trucks in stock!!

Theisen Motors

Idaho's Oldest Lincoln-Mercury Dealer

701 Main Ave. E. 733-7700

"I expect to get at least 20% longer engine life because of Chevron with F-310... fabulous stuff."

Charles Boynton is President of the Salt Lake Transportation Company, which operates the Yellow Cab fleet in Salt Lake City.

He tells you why he won't run his cabs on anything but Chevron gasoline with F-310.

"We were pretty skeptical about F-310 and all that Chevron was claiming it could do. We didn't, quite frankly, really expect to get better mileage. But we did."

"We're getting better mileage, less engine wear, and cleaner running engines."

"There's also been more consistency in the mileage of our cars. Mileage used to drop dramatically after we ran a few thousand miles, and our gas consumption

went up. This hasn't happened with F-310."

"We broke down an engine with 96,000 miles on it, just to take a look. The engine was so clean the mechanics couldn't believe it. And not only are we getting better performance, but the cabs are spending less time in the shop. My records prove it."

"We used to get about 109,000 miles out of a taxi engine, now we should get 130,000. That's not only good for us, but it helps us keep the rates down for the public."

F-310

Total Sale

Gallons

Price per Gallon

Chevron

"And there's one other thing."

A cleaner engine means cleaner air, and that's more important to me than all the money F-310 is saving us.

When you've got a hundred taxicabs on the street, you've got a responsibility to the community, not the least of which is doing your fair share

in making that community a nice place to be. If we didn't have good clean-running cabs,

I couldn't live with myself nor my family, either.

"I don't know how F-310 works, and I don't particularly care. All I know is that it works, and I wouldn't run my cabs on anything else. All I

have to do is look at what it's done for us to be convinced that everyone ought to be using it."

"It's fabulous stuff."

It works.

F-310 in Chevron gasoline keeps vital engine parts cleaner than any other additive in any other gasoline we know of.
