## TF ditch water bills protested

BY BONNIE BAIRD JONES Times-News writer

TWIN FALLS — Recon sideration of assessments on large properties in the now Twin Falls Irrigation System was promised for 1973 by city officials Monday night.

The assurance was given by Mayor John Christoffersen after 175 persons crowded into the city hall auditorium and adjoining foyer to protest assessments.

Nearly one-third of those attending addressed the new irrigation system those council, all complaining about using the water would be paying cost of water they have previously received at no charge.

Mayor Christoffersen told the group its only alternative for 1972 will be to petition for withdrawal of their individual districts — water users on a single headgate network — from the system, or to individually withdraw by not using water and not paying the assessment.

The mayor said this procedure can be followed for 1972 by those who cannot afford the fees and the council will give full consideration to making some adjustments, especially on large lots and acreages for 1973.

Hates were set by city officials said, on a basis of about \$60 per

## Single vote decides Bellevue mayor race

BY TERRY CAMPBELL Times-News writer

BELLEVUE — One vote decided the Bellevue, majority race Monday.

In unofficial return, Halbert Hatch was elected mayor in the annual balloting with 53 votes. James Pigg, ran a close second with 54 votes.

Hatch succeeds Claude Ballard, who declined to run again for a one-year term.

Mike Ivie received a greater proportion of votes, 70, for election to one of the three open alderman posts. Each position carries a two-

year term.

The remaining seats were filled by Duke Martin, who received 50 votes, and George McKay, who received 44. Incumbent Mark Patterson and Thomas Barratt received 41 and 26 votes, respectively. The third post was previously held by James Pigg.

The remaining alderman votes were as follows: Charles Wright, 34; John W. Jensen, 34; Elmer Berney, 15.

The new officials will join present Aldermen Joe Bergin, Ralph Griffin, and Kenneth Wright, who have one year remaining in their terms.

## Red blitz shatters South Viet lines

By ARTHUR HIGBEE

SAIGON (UPI) — North Vietnamese using amphibious tanks broke through the main South Vietnamese Cua Viet River defense line 10 miles below the Demilitarized Zone (DMZ) today and a U.S. pilot who flew over North Vietnam compared

the Communist drive to a World War II type: Blitzkrieg.

Lt. Col. John O'Gorman, commander of the 421st Tactical Fighter Squadron, an F4 Phantom outfit, said his pilots had sighted MIGs at the western end of the DMZ and that the North Vietnamese "are firing SAM missiles like it was the Fourth of July as if they had an inexhaustible supply."

UPI correspondent Stewart Kellerman reported from the northern provinces that the North Vietnamese swarmed across the Cua Viet River despite heavy U.S. air strikes and gunfire from five U.S. Navy destroyers offshore.

They overran a South Vietnamese Naval base at the mouth of the Cua Viet River five miles east of Dong Ha and sent the South Vietnamese defenders fleeing leaving their fleet of junks to the Communists.

Another force of Communists swept out of the Annamite foothills and captured Fire Base Anne, 18 miles west of the old Imperial capital of Hue, the 13th and 14th bases lost in the five-day-old invasion. This brought a threat to Hue and a threat to Quang Tri from the South.

U.S. fighter-bombers carried out hundreds of air strikes but the weather was still bad and the five-day-old invasion rolled on unchecked after being thought to be stopped at the Dong Ha River. The Dong Ha river branches out of the town of the same name and one branch is the Cua Viet River.

O'Gorman told of seeing huge Communist supply columns moving southward along Highway 1 which once connected Hanoi with Saigon. He told UPI correspondent Kim Willerson at the Da Nang Air Base:

"They're firing SAMs like it

was the Fourth of July, as if they had an inexhaustible supply of them. They're using perilous,"

The North Vietnamese invasion road between Hanoi and was the first serious test of Haiphong. Every truck is President Nixon's Vietnamization program.

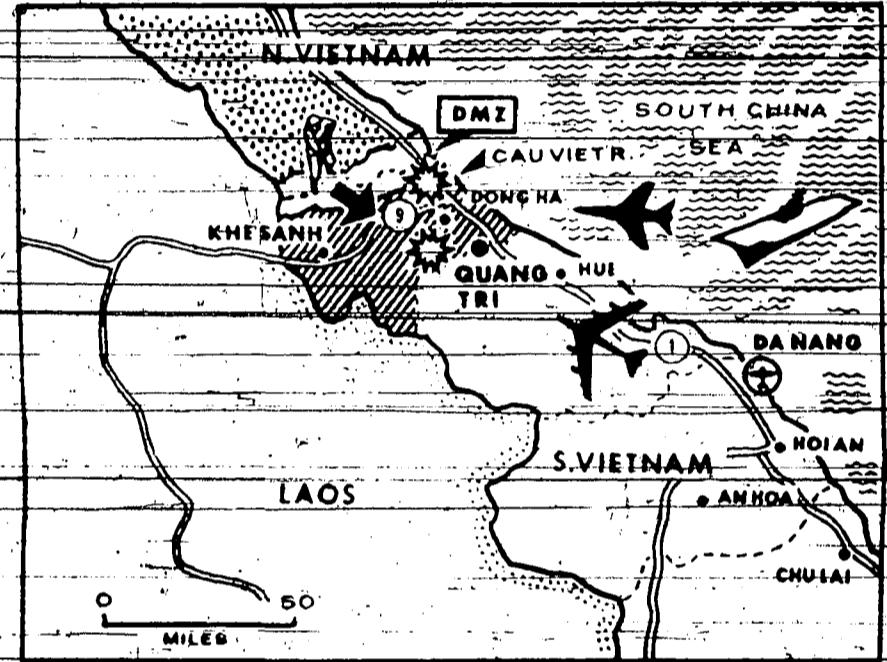

South Vietnamese President Nguyen Van Thieu named Premier Tran Thien Khiem as acting Defense Minister today with instructions to take direct

charge of the Quang Tri batde. Khiem is one of only two four-star generals in South Vietnam.

North Vietnam broadcast a series of statements vowing that its troops would fight on to final victory and describing as

"impudent" a threat of heavy U.S. bombing retaliation from three carriers in the Tonkin Gulf. A fourth was en route and from the Da Nang air base in Vietnam and three

carried out "sustained attacks" in Thailand.

## Vietnamization policy faces strongest test

By STEWART HENSLEY

UPI Diplomatic Correspondent WASHINGTON (UPI) — President Nixon's vaunted Vietnamization program is finally facing

its "moment of truth" as Saigon forces for the first time try to turn back major North Vietnamese attacks without the support of American ground troops.

The next few weeks will disclose whether the South Vietnamese, with U.S. air support from carriers and land-based planes, can hold the line or will be forced to concede large areas to Hanoi and the Viet Cong.

While the situation appears perilous and is described by officials here as "serious," there was no evidence of any tendency to panic. President Nixon and his top advisers

of the South Vietnamese forces, the North Vietnamese advance in Quang Tri province can be stopped and the threats to the Central Highlands and the III Corps area, which includes Saigon, can be contained.

President Nixon said recently he had been assured by Gen. Creighton Abrams, the U. S.

Commander in the area, that Saigon's ground forces might "bend" under the anticipated enemy attack but they would not break. If Abrams is wrong, the life expectancy of the Saigon government could be considerably shortened.

The United States officials said air power already has been pounding targets in North Vietnam for some days.

### Paris talk demands spurned

PARIS (UPI) — North Vietnam and the Viet Cong today demanded the United States return to the Vietnam-Peace Conference Thursday, but the South Vietnamese and U.S. delegations rejected the proposal.

The two Communist delegations announced they had delivered notes to the American delegation demanding the resumption of the regular session which the United States boycotted March 23 on the grounds the Communists refused to negotiate.

# Muskie longs for 'miracle' upset

## Women's Lib wins one

MILWAUKEE, WIS. (UPI) — Sen. George S. McGovern and Hubert H. Humphrey battled in Wisconsin's crowded primary today for their first victory on the long trail to the Democratic presidential nomination.

His ambitions of mounting an early bandwagon gone, Sen. Edmund S. Muskie hoped for a "miracle" upset that would keep him from a staggering setback in the nation's fourth primary of the 1972 election year.

Facing the voters for the first time in their native Midwest, Humphrey and McGovern were rated neck-and-neck as the favorites in Wisconsin. But an

expected large crossover of completely ignored by the Republicans and the presence of Alabama Gov. George C. Wallace on the ballot fueled the election with uncertainty.

An estimated 1.5 million persons were expected to cast ballots. Sub-freezing temperatures spring snow were predicted.

In addition to McGovern, Humphrey, Muskie and Wallace, the Democratic ballot listed eight other candidates.

Always unpredictable politically, Wisconsin could prove crucial to the presidential ambitions of several of the candidates, most notably Muskie.

Jackson, Mayor John Lindsay of New York, and former Sen. Eugene J. McCarthy campaigned in the state.

The Republican primary, key. None of them came into the Badger state.

Democrats were picking 87 delegates to their national convention and Republicans 28.

Always unpredictable politically, Wisconsin could prove crucial to the presidential ambitions of several of the candidates, most notably Muskie.

Jackson, Mayor John Lindsay of New York, and former Sen. Eugene J. McCarthy campaigned in the state.

The balloting may leave the Democrats no closer to knowing who their nominee will be.

The Badger State primary could establish McGovern as a winner and turn him into a serious contender for the nomination; could underscore Humphrey's claim that he is still the most electable Democrat and not a 1968 relic; and could establish some momentum for Muskie's flagging campaign or send him reeling into the next primaries in Massachusetts and Pennsylvania.

## Lake purchase

TWIN FALLS — The Twin Falls City Council Monday voted to make the final payment to purchase Dierkes Lake for a city recreational area.

The council voted unanimously to pay the remaining \$40,000 to complete the purchase of the 130-acre site.

In 1969 the city began acquiring property under a \$100,000 lease-purchase agreement. Since that time \$50,000 of the total had been paid. The 1972 budget includes the money for the final payment.

According to City Manager Jean Milar, the amount is being obtained as a grant from the Department of Housing and Urban Development and constitutes a reimbursement move and will close the purchase agreement.

City plans call for developing the scenic Snake River Canyon area for recreation use. Camping, picnicking, swimming, fishing and hiking are already provided in the area.

In addition to the large Dierkes Lake, six other small lakes are included in the area.

## Abandoned house

**FLAMES CONSUME** an abandoned house on Addison Avenue West with Twin Falls Fire Department equipment standing by. The fire, a practice for firemen, was burned Monday afternoon to clear property for business use. Smoke and flames attracted a number of spectators.

## TF Firemen burn home

TWIN FALLS — Firemen of the Twin Falls Fire Department stood by Monday afternoon while flames destroyed a home on Addison Avenue West.

The building, an old and vacant house and barbershop, was burned under the direction of the fire department and building inspector Reed Coulam. The burning provided fire fighting and fire control practice for department members.

Fire Chief Bobby Bopp said the building, owned by Baker Mobile Homes, was burned to provide additional space for the business firm to

display trailers. Mrs. Bob Baker said the property had been used by her and her husband on a rental basis since 1956. They purchased it this year and plan to improve it.

The house and property were previously owned by Lora Doss. The house was on the property in 1936 when Mrs. Doss purchased it. It had been used as residential property and the barber shop until several years ago.

Mrs. Baker said she and her husband plan to level the area and blacktop it for display for their travel trailer and recreational vehicle business.

## TF improvement plans approved by council

TWIN FALLS — Resolutions creating Local Improvement District 87 for street, sidewalk, curb and gutter improvement in Twin Falls were approved by the City Council Monday.

The district represents a total improvement of \$656,730, of which \$394,565 will be assessed against properties where the improvements are to be made. The resolution sets payments on a schedule of 15 years.

A public hearing to file protests against formation of the district will be held on April 24 at 11:30 a.m. in the Twin Falls City Hall. This will be a special meeting of the City Council

construction date of May 22. He authorized Milar to call for bids said bids can be advertised and opened May 19 with May 22 the earliest date at which work can begin.

An intensified street improvement program is planned in Twin Falls this year and under the city regulations, where new improvements are required, such as new streets, curbs, gutters or sidewalks.

Property owners, must participate in the cost. LID 87 will allow the property owners to pay their share of the costs over a period of years if they so choose.

In other business, the council approved building permits including four requests for deferral of required installation of curb and gutter or sidewalks where new construction is being added. In the case of the S. T. Hendry, chiropractor, the council denied a request for waiver of a screening fence around his property.

City Manager Jean Milar said it is hoped the LID can be advertised to allow for a con-

certion of city council members

Devoted To The Citizens of Magic Valley

Tuesday, April 4, 1972 Al Westergren, Publisher

PHONE 733-0931

Official City and County Newspaper  
Pursuant to Section 40-108 Idaho Code, Thursday is hereby designated as the day of the week on which legal notices will be published. Published daily and Sunday, except Saturday, at 125 Third Street West, Twin Falls, Idaho, 83301, by Magic Valley Newspapers, Inc. Entered as Second class mail matter April 8, 1918, at the post office in Twin Falls, Idaho, 83301, under the act of March 3, 1879.

## Course Change

Britain's Conservative government has presented a very unconservative budget to parliament. It has proposed sweeping tax cuts to the tune of \$3.14 billion and an upgrading of social welfare benefits.

It proposes pumping that much more spending money into the economy to boost business and cut unemployment. Among the direct aids to business is a 100 percent depreciation allowance.

That is not the type of thing Prime Minister Edward Heath had in mind when he took office. He was looking forward to a steady disengagement of government from business. To lead Britain to a new era of industrial and technological renovation.

Anthony Barber, the chancellor of the exchequer, referred to the "twin evils of inflation and

unemployment." He clearly indicated in his budget message that the main goal now is reduction of unemployment, at the risk of stoking the fires of inflation.

The time, from a strictly fiscal point of view, did not seem very opportune. Britain's foreign trade in February once again went deep into the red after a year of favorable transactions. But unemployment was compounding the economic problems. The government apparently felt it could risk greater inflation and some dwindling of foreign reserves.

The explanation of the Heath government's change, of course, seems to be a desire to help business and industry grow faster. This, of course, would reduce unemployment. And if all turns out as planned, the obvious effect should not be lost on the voters.

## Memories

Group discussions of high prices rarely fail to convince listeners that the degrees of shock people experience at a price boost are closely correlated with their ages.

Older people remember when bread was five cents a loaf, a quart of milk was ditto. They're only human when they remember.

The older a food shopper in a supermarket is the more she is likely to pause in self-doubt over the price of what she buys. Her granddaughter is likely to be roaming the aisles filling her carrier with insouciant indifference to the cost of things.

She doesn't remember when "it only cost a nickel."

## About Norman Herrett

Gaining national attention and winning awards has become almost a matter of habit with Norman Herrett, owner, operator and spirit behind the Herrett Arts and Science Center out on Kimberly road.

Well, he's come up with another one. The nationally circulated and widely-read magazine "Instructor" has awarded him the Newsworthy Program Award. He won out for this coveted recognition from among more than a dozen others in the United States.

The award came to him because of his "dream" which is the Arts and Sciences Museum. It is now—and rightly so—famous over much of the country and in this area more than 9,000 students come each year from distances up to 200 miles away. They come to wonder and to learn at this display which centers around pre-Columbian American cultures and which is crammed with artifacts, dioramas and exhibits. The lectures are unique. Many of the displays are in motion and in sound-and, in addition, there is a planetarium and telescopes which give the youngsters exciting looks into the domain of the spacemen.

Down through the years of building and collecting, Herrett has, of course, had help from various individuals but his is the guiding force behind the entire project.

Each year a different culture is featured in the museum and about 50 young people (one of the reasons for the success of the venture) belong to the lecture group. So far more than 800 boys and girls have participated in the program in this capacity.

What is impressive is what Herrett has been able to do without large sums of money or institutional backing.

Now he's about at the retirement age, but anyone knowing him cannot believe it. He is, however, taking the initial steps to arrange to set up a similar program at the College of Southern Idaho. Schools are just catching up with Herrett's unique educational ideas and CSI could be the first college to do just that.

So we take our collective hats off to Norm Herrett — dreamer and doer — and a valued member of our community and our Magic Valley.

## Is This Humphrey's Day?

MILWAUKEE — The top manager for one of the lesser candidates in Wisconsin's overcrowded presidential primary told me:

"The only firm commitments we are finding in our telephone canvassing are for Hubert Humphrey."

That little message is heard again and again in this state, from canvassers, from travelers to the north, in editors' offices, among key

politicians.

Many, many Wisconsin voters voice polite interest in some other candidate, but then add:

"Of course, Hubert is a personal friend."

If this deep and evidently

quite broad attachment holds

today then, the man from neig-

boring Minnesota may be

about to win the first major

presidential primary of his

By now, naturally, every

political appraiser descending

upon this heralded primary

state is writing Humphrey. The

interesting thing is how and why

he got there.

# Old West featured in decor

By TERRY CAMPBELL

Times-News writer

KETCHUM — A taste of the Old West is featured at a new Ketchum business — Hawk's Barn — located south of the city off U.S. Highway 93.

Atmosphere is keynoted in the large wooden structure which houses a saloon, candy shop, ice cream parlor, banquet room, game room, offices and apartments.

Antiques, including a bank safe door that is believed to be the oldest in the area, grace the walls and ceilings. And a player piano pokes out current hits and old favorites in a tin-like tone.

For the owners, Clyde and Sandy Hawk, the New Year's Eve opening capped a year's planning. The 28-year-old structure was originally planned as a casino and was located on Warm Springs.

Before construction was completed, gambling was outlawed and the workers walked off the job.

The Hawks bought the building and last spring, the structure was dismantled, each section numbered, moved by crane to its present location and reassembled.

Old chairs and tables were rounded up from all over Idaho and Montana and refinished during the summer. A 100-year-old Brunswick bar was installed in the ice cream parlor and Mrs. Hawk fashioned realistic overhead lights from wagon wheels and antique Mason jars.

The Bucket of Gold Saloon, which is open until 1 a.m. daily, overlooks Mt. Baldy. And, the candy counter serves specialty confections from a dry goods store button case.

Over 40 kinds of ice cream are available in the Soddy Parlour and Dining Room. A hearty patron can sample 24 flavors by ordering the "Great Sawtooth," which is accompanied by blasts from an 80-year-old English foghorn.

Chef Ted Carroll, formerly with Sun Valley, supervises the kitchen, which is open from 6:30 a.m. to 10 p.m. daily and until 2 p.m. Fridays and Saturdays. The menu features red cabbage salad with peanuts, sour dough pancakes, shepherd potatoes and thick slab bacon.

## Atmosphere prevails

**HAWK'S BARN**, a new business in Ketchum, is located south of the city off U.S. Highway 93. ## Valley Living

Dear Abby

DEAR ABBY: I have a friend who is about my age. Adele lost her husband last year, so she went to California for the winter to visit her sister. When Adele came back, nobody recognized her. She looked like a 25-year-old girl. And beautiful! She had a whole new face and a new figure. It was unbelievable! Adele admitted to having her face lifted, which was obvious, but she said she also had her behind lifted!

Now I have heard of silicone implants to lift and fill out sagging breasts, but I have never heard of anyone having her behind lifted, have you?

What kind of doctor does this work? I would really like to know because if it can be done I might want to have mine lifted.

LOW SWING IN BROOKLYN

DEAR LOW: Yes, it can be done. Some plastic surgeons do it. Since Adele appears to speak so frankly about it, ask her who lifted her behind. She'll probably be glad to tell you unless she intends to do it forever.

DEAR ANTI: My husband is a sports nut. He monopolizes the color TV and the children and I miss some of our favorite programs.

Last Christmas I thought I would solve that problem, so I bought him a portable TV. This worked fine for a while, but pretty soon he started setting the portable on top of the big one, and he'd watch both of them, tuned in to different sports channels. He is the only man I know who can watch a hockey game and a football game at the same time!

By the way, the small TV has ear plugs, so I only have to contend with the noise of the big one.

Any suggestions?

ANTI-SPORTS IN ARIZONA

DEAR ANTI: You have a super-selfish husband there, lady. Tell him that as long as the family can afford only two TVs, it's one to a customer.

DEAR ABBY: This is the first letter I have ever written to your column, but your reply to the woman who wondered if she should make a report when she saw a pocketbook being stolen really hit home.

When I learned that my teen-age daughter [and her friends] were stealing clothes from the local department store, I called the store's protection office and tearfully requested an appointment to bring my daughter in with the clothes. The merchandise was priced, and I paid for it. My daughter was given a stern lecture and told what would happen to her if she ever repeated this act in their store again. And I, incidentally, was told by the young lady in the store's protection office that in the two years she had worked there I was the first mother ever to do this, even though she was certain that there were other mothers who had found strange merchandise in their homes that they knew their money did not buy.

Abby, that was four years ago, and I thank God that I had the backbone to do what I did because from that day to this I have never had any reason to suspect my daughter of taking a penny that does not belong to her. It was a bitter lesson for both of us, but an effective one.

I would like to quote the words from a sign I saw in the protection office on that eventful day:

To watch a crime in silence is to commit it.

Sincerely,

WITHOLD MY NAME AND TOWN

CONFIDENTIAL TO "ASHAMED OF MY HUSBAND": Tell him that a man who does not take care to sit in a gentlemanly position can be as offensive as a woman who doesn't sit in a ladylike position.

What's your problem? You'll feel better if you get it off your chest. Write to ABBY, Box 8970, Los Angeles, Calif. 90089. For a personal reply, enclose stamped, addressed envelope.

In Utopia finesses always work. In real-life there is no point trying one when you have little or nothing to gain. West opens the king of hearts. His suit was contaminated. South ruffed the third lead and played a couple of rounds of trumps. Then he lost the diamond finesse. East returned a diamond and South proceeded to play out all but one of his trumps. West discarded several diamonds and South deduced West was short in clubs. Therefore South cashed dummy's king of clubs and finessed for the queen against East. West's queen became the setting trick. South was unlucky. He had lost two finesses and he had

# Andrus completes signing of bills

**BOISE** (UPI) — Gov. Cecil D. Andrus completed action Monday on all bills approved by the 1972 legislature and signed into law the \$2.6 million budgetary cornerstone of the fiscal year 1973 budget.

The bill approved by Andrus, a compromise passed by both houses on the final day of the 1972 session, adopts the higher deductions of the federal tax code, eliminates the deduction of federal tax payments from income for tax purposes, imposes an additional one-half per cent on the corporate income tax and nets \$2.6 million for the general fund.

The \$2.6 million will be combined with \$800,000 from a one penny per pack cigarette

tax increase; \$550,000 from a 2½ per cent liquor surcharge increase, and the current tax base to balance the \$187.3 million budget.

Still uncertain, however, is the return from the current tax base on which the budget is to be used for airport construction, built.

Andrus, Democrats in both houses and the House Revenue and Taxation Subcommittee

maintained current revenue would bring \$132 million in fiscal year 1973, while senate Republicans held to \$134 million.

And impose an additional one cent per hundredweight tax on potatoes, with the estimated \$800,000 return to be used for emergency promotion and legal fees to fight the threatened boycott of Idaho's potatoes.

## Snakes, lions

**SACRAMENTO** (UPI) — As part of Evel Knievel's Mountain Lion Motocross event at nearby Plymouth this weekend, the motorcycle daredevil plans to jump his cycle over 100 perched rattlesnakes and two live mountain lions.

Knievel is sponsoring the motocross event and plans two jumps. In addition to the leap over the wildlife, he'll also jump over a group of automobiles.

## Limiting subjects vital, Kidwell says

**BOISE** (UPI) — Idaho's Senate Majority leader says he was sorry to see legislation die in the 1972 legislature which would have limited the subject matter during annual legislative sessions.

Wayne Kidwell, R-Boise, speaking to the Boise Association of Insurance Underwriters said the recently completed session

## Pasting error results in no prostitution penalty

**BOISE** (UPI) — Because of an apparent cutting and pasting error there is no penalty for prostitution in the state of Idaho.

This, despite the fact that the

State's 1972 legislature

gave the state a precise defini-

tion of prostitution:

The original printed version of

Senate bill 1626 carried a mis-

demeanor penalty for the crime

of prostitution but the final bill

the engrossed measure signed

by Gov. Cecil D. Andrus and

filed in the office of the Secre-

tary of State — is minus the

line carrying the misdemeanor

penalty.

The error places the state

roughly back in the same position

where it was before the re-

vised criminal code went into

effect Jan. 1.

The revised criminal code

made prostitution a misdemea-

nor and contained prohibitions

against working in a house of

prostitution or loitering in a

public place for the purpose of

being hired to engage in sexual

activity."

It should have read "A per-

son is guilty of prostitution, a

misdemeanor, if he or she (A)

But when the final bill was

an inmate of a house of pro-

stitution..."

The legislature, however, engrossed the line containing the voted to repeal the revised code misdemeanor penalty was not effective April 1 and in its place pasted back with the definition. As the result, the final bill re-enacted the old criminal laws. The old laws, however, reads: "A person is guilty of were amended and the lengthy 1A) is an inmate of a house of sections on prostitution con- prostitution."

# Jerome school patrons seek Jefferson addition

By CHARLOTTE BELL

Times-News Writer  
JEROME — Jerome School trustees will be asked to add 13 rooms to Jefferson School and discontinue use of Lincoln School.

not be held, but the board will hear the recommendation of the citizen's group at a regular meeting next Monday night. Craig said the meeting was necessary to make only the repairs insurance coverage for the next school year, Craig said.

to end June 30. Under this plan, it is estimated the addition could be paid for in four and one-half years with no increase in taxes.

John Keith, school trustee, proposed such an addition at an estimated cost of \$400,000 to the school board at the last special meeting. He suggested that the board consider purchasing any land available in the area to provide adequate playground space, and noted that the additional students could use existing lunchroom, gym and restroom facilities.

Following an executive session, Vining announced that because board opinion was so split, Lincoln School would be repaired at an estimated cost of \$30,000 to maintain insurance for the next school year.

Reports by the Department of Labor and the South Central District Health Board recommended repairs estimated to cost about \$90,000, rather than the \$30,000 authorized by the board.

LeRoy Craig, chairman of a citizens committee, said the group of about 135 school patrons decided Monday night to ask for a special school board meeting Wednesday night to present a request for the Jefferson School addition.

Dale Vining, school board chairman, said today it has been decided the special meeting Wednesday night will

for reparts to Lincoln School. The \$30,000 was authorized by the board in a special meeting last week.

According to Craig, the group also considered two other proposals: spending the \$30,000 approved by the board or having students attend school in split shifts, but favored the addition to Jefferson School.

A large group of citizens

called Monday night to discuss alternatives to spending \$30,000

insurance coverage for the next school year, Craig said.

He said his company carries fire insurance on the building and as he reported to the board in an earlier meeting, Lincoln School is a potential firetrap and in his own opinion he would hate to see the district continue use of the building.

Craig said the citizen's group asked for the special school board meeting so that approval by the board Wednesday would make it possible to petition the Idaho Board of Education for a special bond election to be held in 30 days instead of the usual six months.

If the proposed bond issue is passed, it is possible the 14 rooms would be ready for occupancy sometime this fall. In the proposal, patrons would be asked to maintain the present six mill levy, scheduled

for the next school year.

Reports by the Department of

Labor and the South Central

District Health Board

recommended repairs

estimated to cost about \$90,000,

rather than the \$30,000 authorized by the board.

## Burley approves parking project

BURLEY — A \$300,000 off-street parking project was approved in principle by the Burley City Council Monday night.

must be repaved. Robertson said.

Other work may be done if funds allow.

The project will be funded in part by federal and state funds.

The mayor said he has received a verbal pledge from the Federal Environmental Protection Agency approving a project to pump the northside sewage lagoon into the main holding ponds along the Snake River. The project will involve about \$80,000 cost.

The council approved an annexation of the area where the new Albertson's Shoppes shopping center will be located, approved a contract with Gordon Paving Co. of Burley to pave the main road into Pleasant View Cemetery, with the job to be done before Memorial Day if possible; approved permits to sell fireworks for the M. H. King Co., the LDS Fourth Ward Quorum, and Walt Thueson, to be sold at Jay's Fine Foods at Burley.

## Irrigation fees draw TF crowd

(Continued from P. 1)

The new system was formally adopted after a public hearing two weeks ago at which only one person appeared.

Individual assessments were then figured and each member within the system was mailed a card showing his or her assessment. As a result the 175 persons appeared Monday night to protest.

On the assessment cards Monday was listed as the deadline for the 1972 payment. Monday night the council agreed to extend this, saying all payments should be made as soon as possible and no later than July 1.

Residents, some of them angry, charged misrepresentation by the city in the survey cards sent out last year asking if residents wished to receive ditch water.

Many senior citizens said they simply cannot afford the fees and many said they have large lots but use ditch water only on a small corner of garden but are assessed on a basis of the entire lot.

Others said the new system and the fees charged will result in large weed patches around the city because people will stop irrigating their yards and gardens.

One man said the fee of \$30 per acre of land per year is

completely out of reason when compared to the A and B Pumping System on the north side, one of the most costly irrigation systems in the nation. Fees there, he said, run about \$3 per acre.

One woman said it costs more for her city lot than it did her entire 400-acre ranch in the Three Creek area.

Mayor Christoffersen said the intent of the district is to cover the cost of the water and delivery system by fees from those who benefit from the water use.

Over the past years, the \$25,000 has come from city water rates with those using

cultivation water to irrigate their lawns and gardens paying the cost for those who benefit by free ditch water. Rates under the irrigation system would be far less than the cost of cultivation water for the same lots, it was pointed out.

Early in the meeting it was necessary for Chief of Police Frank Barnett to call in an additional police officer to help keep the crowd quiet.

Several standing in the hallway shouted remarks at the council before Mayor Christoffersen appealed for courtesy and order so both the council and residents could benefit by remarks from concerned water users.

## Jerome gets 4th candidate

JEROME — The fourth candidate has announced for the Jerome County sheriff's nomination in the August primary.

Jack Parrott, 35, Marine Corps veteran and former Twin Falls deputy, is the latest to file on the Republican ticket. He will have competition from Boyd Rydahl, deputy sheriff for eight years, and James R. Laswell. The fourth candidate, Paul Whaley, is running as an independent candidate.

Parrott resigned his post as Twin Falls deputy two years ago to manage a farm near Eden.

Parrott has a farm and cattle ranch and also owns and operates the 80 North Towing Service of Jerome. He is married and has two step-children, both married.

Parrott serves as a special deputy for Twin Falls and Jerome counties, and works with the auxiliary police force of Kimberly.

## Jury in sixth day

HARRISBURG, Pa. (UPI) — They were unable to reach a unanimous verdict on nine of the 10 indictment counts.

These included the main one, accusing the Rev. Philip F. Bergman and six other antiwar activists with conspiring to kidnap Henry A. Kissinger,

blow up Washington heating tunnels, and vandalize draft boards to disrupt government activities and publicize their views.

# Funeral for Gil Hodges will be in Brooklyn

NEW YORK (UPI) — The body of Gil Hodges came home to Brooklyn Monday, the scene of the former Dodger great's Mets in their infant years, waited and watched through a wire fence at La Guardia Airport as Hodges' body was taken from a chartered United Airlines plane and placed in a silver-grey hearse from the Torregrossa Funeral Home which waited nearby.

A group of about 20 sad-eyed young fans, many of whom could not have remembered

outfielder Ron Swoboda (now with the New York Yankees) and even though I had my coaches, Rube Walker, Joe Pignatano and Eddie Yost were also aboard the plane carrying differences with him, I always respected his viewpoint," Hodges' body. Three Met coaches, Rube Walker, Joe Pignatano and Eddie Yost, asked about one single characteristic he could point out about Hodges, Swoboda replied: "He was an absolute disciplinarian. He always stayed with his decision. That's why you had to respect him."

The plane that Hodges' body was flown to New York in was originally chartered by the Yankees to carry home their executives from Florida in the wake of the player's strike which erased the remainder of the spring training schedule.

Mets' general manager Bob Scheffing, who now faces the agonizing task of picking a successor to Hodges, did not accompany the body. Instead,

Schelling was reported to be driving home from Florida with his family after awaiting any late developments on the strike. A Mass of the Resurrection was scheduled for Thursday at 11 a.m. EST at Our Lady Help of Christians Roman Catholic Church in Brooklyn with a private burial at nearby Holy Cross Cemetery following immediately.

Dodger catcher and teammate of Hodges, is tutor of the Mets' pitchers and has been given much of the credit for the development of young stars Tom Seaver, Gary Gentry and Jerry Koosman. It was Walker who assumed command of the Mets when Hodges suffered his first heart attack September 1968, in Atlanta.

The only other name mentioned in connection with

succeeding Hodges has been that of Whitey Herzog, director of player personnel for the Mets. Like Berra, Yost, Walker, and Bauer, Herzog is familiar with the present Mets' players.

However, it would not appear likely that the club would

create another serious void by removing Herzog from his present position.

General manager Bob Scheffing has declined to speculate

on Hodges' successor, saying, "It's too early, too quick." Indications are if the baseball strike should be settled and the season begun before the Mets

are ready to make a decision, one of the present coaches

would guide the team temporarily.

PORTLAND, Ore. (UPI) — The Portland Trail Blazers Monday named Jack McCloskey of Wake Forest as their new coach.

McCloskey, 46, is the second college coach Portland has

chosen during its short history in the National Basketball Association.

He succeeds Stu Inman, an interim coach, who replaced

Roland Todd, the first Blazer coach who came out of University Nevada-Las Vegas.

Todd was fired in early

February for losing control of his team.

Some baseball executives

have accused Gerst of misleading Blue but the lefthanded pitcher backed his attorney. "I'm not a crazy, mixed-up kid and I never authorized anyone to say I was. I'm of age and I'm old enough to make my own decisions," Blue said.

The contract wasn't to play baseball for the Oakland A's but to begin a movie career in a black detective series called "Shaft."

Facing a battery of klieg lights and TV cameras, Blue

said, "I'm not trying to play games, I'd like to play baseball

but I want a fair contract. I'm

looking forward to the challenge of the movies and I'm

happy to sign a contract that

doesn't include a reserve clause."

The attorney also said that

Mike Burke's figure of \$75,000

for a contract would be a

"satisfactory figure." Finley is

offering \$50,000 currently.

But when he was asked if he

start until the fall, he wouldn't

interfere with baseball if Blue

comes to terms with the A's and the strike is settled.

But Blue and his attorney,

Robert Gerst, said they aren't

any closer to signing with A's

owner Charley Finley than they

were in January. Blue rebutted

Finley's claim that Blue

authorized him to say "I'm a

crazy, mixed-up kid" and they

indicated they might not want

"several alternatives." By that

was only \$25,000 apart with

Finley, Gerst said, "there are

other factors involved. When

you consider that a person like

Finley is willing to let Vida rot,

it may not be the best thing to

be associated with or work for

such a person."

Even if Blue holds out the

entire 1973 season, he hopes to

be back in 1973. Gerst said that

by next year there may be

"several alternatives." By that

\$9,982 in 1972.

## Rally lets Stars top Chaparrals

SALT LAKE CITY (UPI) — The Utah Stars turned in a torrid fourth-quarter performance Monday night to drop the Dallas Chaparrals 113-107 in an American Basketball Association Western Division playoff match.

The victory gave the Stars a 2-1 lead in their best-of-seven series with Dallas.

Willie Wise scored 36 points to balance Chap's 36 markers to give Utah its last-quarter fire power.

The Stars took the lead after being down 60-54 at intermission with 8:42 remaining in the game on Wise's 20-foot jumper.

Dallas tied the score four times in the fourth quarter and regained the lead twice before Red Robbins hit a jumper with 4:47 remaining to put Utah ahead for good, 103-102.

Wise scored six of the Stars' last eight points, while Utah held Dallas to only five in the final three minutes.

Freeman scored 24 points in the first half to lead Dallas to their halftime margin. Dallas took the lead with 5:48 left in the second period after out-shooting Utah 14-5 in a five-minute stretch.

The Chaparrals scored 11 straight points midway in the third period to push their margin to 75-63 with 7:48 in the quarter, but Utah came back under the leadership of veteran center Zelmo Beaty and closed the gap to 80-84 going into the final 12 minutes.

Wise was the high scorer for the Stars while Freeman paced Dallas to push his total in the two games of the series to 55 points.

## Spartans top Blackfoot 4-1

RUPERT — The Minico Spartans defeated Blackfoot 4-1 in a Monday afternoon baseball game.

The Spartans had eight hits compared to four for Blackfoot. Minico scored three runs in the second inning with Hardman driving in a run and Bruce Gaff driving in two. Saras scored a run for the Spartans in the third inning.

Blackfoot scored its single run in the fourth inning. Winning pitcher was Tony Saras and losing pitcher was Rapp.

## Search begins for new manager for New York

NEW YORK (UPI) — It will be weeks and probably months before the shock of Gil Hodges' death begins to wear off among the New York Mets and yet the realities of life dictate the search for a new manager begin immediately.

Met officials, still dazed by the suddenness of Hodges' death from a heart attack on Easter Sunday, have begun the mournful task of selecting a successor to the popular manager who led the club to its only world championship in 1969.

Top consideration for the job will be given to three of Hodges' coaches: Yogi Berra, Eddie Yost and Steve Walker. In addition, Hank Bauer, manager of the Met's AAA farm club at Tidewater, is a prime candidate to replace Hodges.

Both Berra and Bauer, former World Series rivals of Hodges during their days with the New York Yankees in the 1950s, while the late Mets skipper was the mainstay first baseman for the Brooklyn Dodgers, have had previous

NEW YORK (UPI) — Vida Blue to sign with Finley at any time, the Supreme Court decision in the Curt Flood case

plumbing executive, Monday. "I'm not a crazy, mixed-up kid and I never authorized anyone to say I was. I'm of age and I'm old enough to make my own decisions," Blue said.

The contract wasn't to play baseball for the Oakland A's but to begin a movie career in a black detective series called "Shaft."

## GASOLINE ALLEY

FORECAST FOR WEDNESDAY, APRIL 5, 1972

## CARROLL RIGHTER'S HOROSCOPE

from the Carroll Righter Institute

**GENERAL TENDENCIES:** Poor judgment about financial matters along with upsetting conditions connected with everyday matters can bring you problems hard to solve, so relax and take life as quietly and as easily as possible. Avoid getting into arguments or discussions. For no one would really win.

**ARIES** (Mar. 21 to Apr. 19) You are not sure just how to handle some financial affairs you have to take care of, so use every caution to avoid making expensive errors. Don't interfere in the affairs of others for they are not thinking clearly, either.

**TAURUS** (Apr. 20 to May 18) You are not in a particularly good mood so would do well to postpone any important decisions you may have to make. Do something to improve your health and attractiveness. Be more sure of yourself as a result.

**GEMINI** (May 21 to June 21) You are under some pressure, but can carry through very well and be the winner just the same. Try to help those who are having some rough sledding. You have the right answer to their problems.

**MOON CHILDREN** (June 22 to July 21) Your judgment is rather poor today so do not try to pass it along to others or you both get into trouble. Be clever even though the cards may seem stacked against you. Then you win out easily.

**LEO** (July 22 to Aug. 21) You are thinking negatively and could get yourself into all sorts of trouble, so take time to compose yourself early in the a.m. Then you can carry through admirably the rest of the day and p.m. Drive with care.

**VIRGO** (Aug. 22 to Sept. 21) You are feeling disconcerted and can therefore come up with some fine new ideas you know are right which improve your future. Make the changes necessary in a positive way. Stop struggling so hard.

**LIBRA** (Sept. 22 to Oct. 21) Impress others with the fact that you can discharge obligations in a most accurate way, and gain their respect and approval. There is no need to argue so much with associates. Listen more to what they have to say and stop being so opinionated.

**SCORPIO** (Oct. 22 to Nov. 21) You have to study those plans more carefully before you talk them over with partners and come to the right agreement. Newcomers have fine ideas so listen and understand them, instead of just pretending to do so. Gain.

**SAGITTARIUS** (Nov. 22 to Dec. 21) That mood to do nothing while duties await you is just a state of mind, so change it. You are one who can persevere and be thorough, and this is the time to do just that. Your planets are testing you to be equal to the test.

**CAPRICORN** (Dec. 22 to Jan. 20) What makes you think you can leave important work and let others down just so you can have extracurricular fun? Get down to business, forget the tempter and by p.m. you will have the last laugh, instead of vice versa. Stop being the goat, actually.

**AQUARIUS** (Jan. 21 to Feb. 19) You are apt to treat family most contemptuously if you don't get hold of yourself and realize that your loyalty belongs at home. You there are small. Eliminate these quietly and kindly.

**PISCES** (Feb. 20 to Mar. 20) Control yourself and stop rushing around, talking too fast, saying the wrong things. Show you have your feet squarely on the ground. An ounce of control can save the day, p.m. for you, and others who depend on you as well. Wisdom.

**IF YOUR CHILD IS BORN TODAY** he or she could very well be one of those fortunate youngsters unfortunate enough to be born in actual need. From this temporary background can come the fortitude and the will to succeed lacking in those with the silver spoon in the mouth who often fail to take it out on time and therefore do not know the ingredients for success, unless good fortune is forcibly taken away. Look for same in this chart.

"The Stars impel, they do not compel." What you make of your life is largely up to YOU!

## About Codfish And Chickens

How can any advertising executive expect to serve his clients properly, if he does not commit the following to memory? The codfish lays 10,000 eggs ... The homely hen has one ... The codfish never cackles. To tell you what she's done ... And so we scorn the codfish ... While the humble hen we prize ... Which only goes to show you ... That it pays to advertise.

**THAT GIRL** whose hair is most resistant of all to peroxide bleach, it's said, is the natural redhead.

**JUST 56** out of every 100 teenagers play a musical instrument.

By "play" I mean ... No, I don't know what I mean.

**YOU'VE HEARD** of mountain-grown coffee beans, but have you heard of hilltop-grown wine grapes? They make the best, I'm told.

## LOVER

That the most famous of lovers was Casanova is widely known, but less widely known is his romantic technique. Must report that "if I were interested in a girl," he wrote, "I simply watched and waited. Sooner or later, her eyes or hands or some dainty movement of her skirt told me yes, and when, and where. Remember that, young fellow. Keep your eyes on the eyes, the hands and the skirt for coded messages."

Q: WHO wrote that verse, "The Purple Cow?"

A: Mr. Gelett Burgess was the profound fellow. He also wrote: "Ah, yes, I wrote 'The Purple Cow' ... I'm sorry, now, I wrote it ... But I can tell you, anyhow ... I'll kill you if you quote it!"

## BIBLE

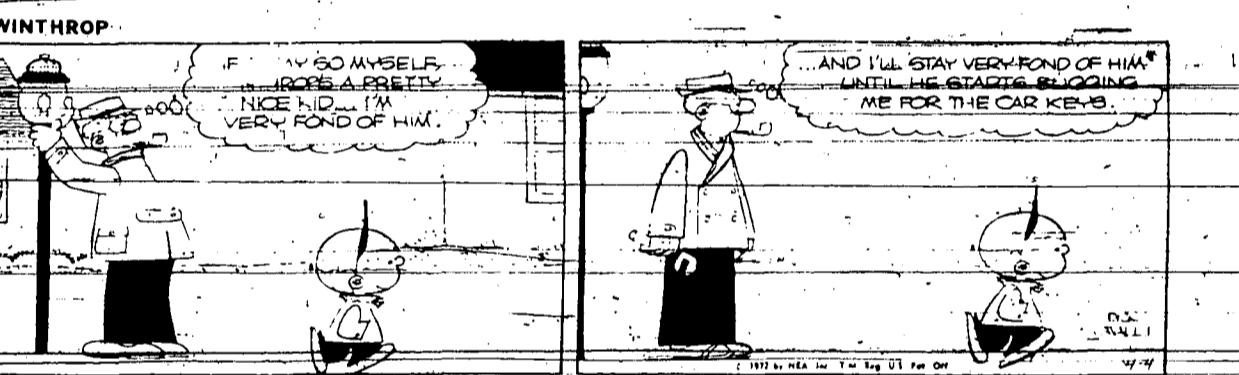

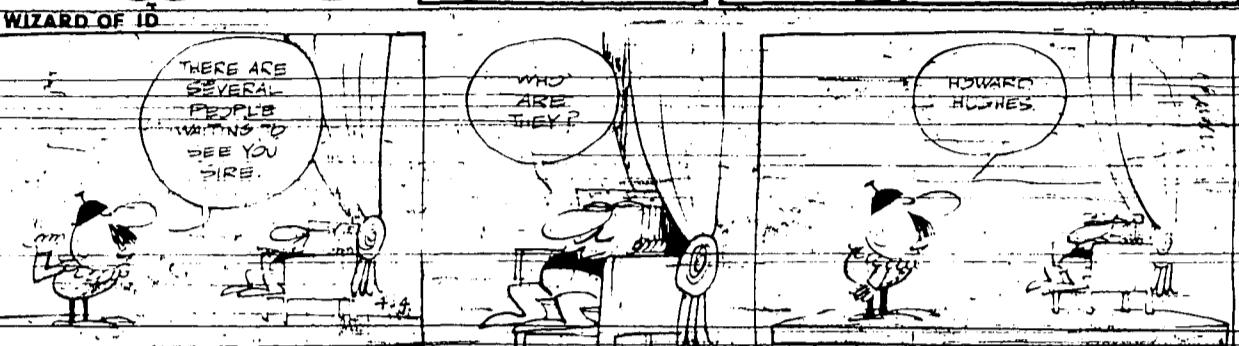

There's no complete Bible in existence that does not contain printer's errors. That's the strange truth. Incidentally, proof-readers who work in Bible publishing houses are known to key on one word in particular. It's "Immortality." Too often it has appeared erroneously as "immorality." Junk another edition, gentlemen.

**MISTER**, if you can lend \$20 to a friend down on his luck without explaining the matter to your wife, your marriage is probably in pretty good shape. Providing your wife can take a long nap in the afternoon without explaining that to you. Such is the contention of matrimonial counselor of lengthy experience. He says these simple tests signify greatly. And having been kicked in the head by a horse as a child, I tend to believe marriage consultants.

**IMMIGRANT** Jews have retained their identity in every nation except one. Can you name it? That's right. China, the sea that salts all rivers.

## Artists display at Burley

BURLEY — The Desert Art Guild started a public art display Sunday at the Ramada Inn.

It will continue through next Sunday.

There are 31 artists from Albion, Burley, Rupert, Paul, Heyburn, Oakley, Murtaugh and Kimberly who are displaying their work. Some of the paintings are for sale and others are on display only.

Directing the activities for the art display is Mrs. Louise Zadrozny, president of the Desert Art Guild; Run Vaneck, vice president of the guild; Mrs. June Haggard, Kimberly, and Mrs. Raye Konicek, Murtaugh.

There are several hundred paintings on display ranging in size from small to extra large.

## Rupert has rides for elder citizens

RUPERT — The Rupert Lions Club has initiated a program to provide rides for senior citizens needing transportation.

Clifford Nutting, Lions Club president, said the group will work with the Senior Citizens Center to provide transportation for elderly people without rides, or who are unable to drive because of a physical handicap.

Mrs. Lottie Martindale, director of the Senior Citizens Center, said any senior citizen needing transportation to the center or for other reasons,

such as grocery shopping, medical care and the like, may call her at 436-9106.

Callers should allow at least one day before they will need the ride, to allow arrangements with Lions Club members, Mrs. Martindale said.

She may be reached at the center any weekday except Thursday between 1 and 5 p.m. There will be no charge for the service, Nutting said.

More information on the program may be obtained from Nutting by calling 436-4360, or from Dr. Robert C. Phillips, the program director, at 436-3197.

# Lensman testifies at Angela's trial

SAN JOSE, Calif. (UPI) — A news photographer, who pointed at the judge's head that Miss Davis was an active party to the plot in which Judge Harold Haley was killed.

The state also introduced evidence tying the 28-year-old captors told him plainly in the corridor that the Soledad Brothers must be freed. He produced six books, two of them bearing her name on an inside page, which were found in a briefcase on the floor of the would-be getaway van.

The testimony by Kean, a former UCLA philosophy instructor to the case when it started to go to the elevators to leave the building.

"Magee said, 'Come on you're going, too,'" Kean said. "I fell in line between Judge Haley and the other hostages. Then Jackson came up and said, 'We don't want this — we've got enough already.'

Then McClain said to tell them: "We want the Soledad Brothers released by 12 o'clock. I asked him to repeat it and he did. And I said, 'So there will be no mistake, did

Kean said that when he entered the corridor with his cameras, convict William Christmas told him to "take all the pictures you want — we are the revolutionaries." Kean said he snapped away, taking about 25 photos, and that convict

James McClain said "be sure to come along if you want to," and then he smiled and said, "But you may get killed."

The trial was recessed until Wednesday because of the funeral of the father of one of the jurors.

The prosecution was pound-

ing away at its contention that the August, 1970, San Rafael events were part of a conspiracy to free San Quentin time had a sawed-off shotgun

## Fallout increase recorded

WASHINGTON (UPI) — The Atomic Energy Commission has recorded a slight increase in radioactive fallout across the country resulting from China's above-ground nuclear test March 18.

The agency said fallout apparently reached a peak during the last week of March, but the increase was estimated to be only a fraction of the amount that occurs from natural sources each year.
