

## Concern rewarded

### Firemen reward TF girl

By BONNIE BAIRD JONES  
Times-News writer  
TWIN FALLS — An 8-year-old girl who thanked Twin Falls firemen for "being there" on the job Christmas Day was rewarded by being invited back to spend a day as the firemen's special guest.

Shawn Louise McNeil, a third grader at Bickel school, wrote the fire department: "Dear Firemen, We passed the fire station Friday and I asked my mom if you stayed there Christmas Day and she said yes, in case of a fire you had to be there."

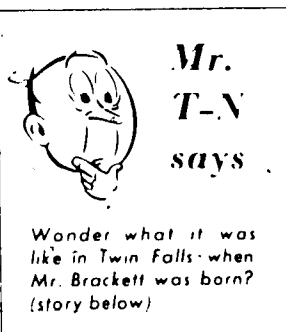

"I am real sorry you can't be home with your families but I want you to know I'm glad you are there in case we have a fire, but I pray over our vacation that there won't be any fires."

"Thank you for being there, Shawn Louise McNeil."

After reading the letter, the firemen invited Shawn to the fire department Christmas afternoon where she toured the fire station, inspected the fire engines, slid down the pole and even had cake and ice cream with the firemen.

Firemen who said it was the nicest holiday greeting they received told her to come back anytime so Thursday she brought other members of her family for a brief visit.

Shawn is the daughter of Mr. and Mrs. Robert V. McNeil.

### Pioneer succumbs

**FILER** — Chester E. Brackett, 84, pioneer rancher who was born in southern Twin Falls County 15 years before Twin Falls was founded, died Thursday.

Mr. Brackett was born Oct. 10, 1888, in Flatcreek near what is now Three Creek. His parents, Ira and Sarah Elizabeth Brackett, homesteaded some of the first land settled in Twin Falls County. They moved from Flatcreek to Cedar Creek.

He homesteaded a ranch, mostly grazing land, in the mountains above Brown's Bench and owned and operated ranches in Castleford and Roseworth.

SHAWN MC NEIL, 8 year old "fireman for a day" takes a ride down the pole Twin Falls firemen use when in a hurry. This was part of an eventful day when she visited firemen as their special guest. Assisting the young guest are Ward Freeman, left and Roger Eaton, firemen.

## 20 nations sign clean ocean pact

WASHINGTON (UPI) — The United States, the Soviet Union, Britain and Mexico were among about 20 countries that signed an international convention Friday for prevention of pollution of the world's oceans.

The convention marks a unique step by nations to protect our global ocean resources from further pollution.

At an international conference of 92 countries in London in November, about 20 countries were expected to sign the convention Friday.

Times-News writer  
KETCHUM — The area office of the Idaho Department of Employment attributes the high unemployment rate in Ketchum to the seasonal nature of the local economy.

But some local businessmen and elected officials say that "unwillingness to work" is as important as the statistical data that labor market analysis uncovers.

The U. S. Department of Labor announced Thursday that Ketchum had been added to its list of small labor markets with "substantial unemployment."

Twin Falls area labor analyst Kenneth Hodge said local officials had requested that the classification be made to qualify the city for Economic Development Act funds that may go to areas suffering chronically inflated unemployment.

Hodge prepared a report in October which confirmed that unemployment was high in Blaine County, and in Ketchum in particular, and forecast, "The unemployment picture, then, cannot be expected to improve. On the contrary, the seasonal highs in employment are expected to bring with them slightly increased unemployment rates. The seasonal slumps are expected to get much worse as more and more workers will be laid off each year."

During August the report noted, unemployment reached 7.8 per cent of the labor force, but it had been nearly ten points higher during June.

The report concluded, "Thus, although the economic growth of the area paints an optimistic picture, opportunities for the average workers are not expected to improve."

But some observers locally think the labor market analysis doesn't tell the entire story. Bud Feltman, national sales manager for Scott USA Inc., Ketchum, said, "Most people don't want to work."

# Short pause set in air attacks

SAIGON (UPI) — Informed U. S. sources said today President Nixon has ordered a brief New Year's Day pause in the bombing of North Vietnam and will extend it if the North Vietnamese return to the negotiating table. Hanoi failed to respond to a similar pause at Christmas.

The massive bombing of North Vietnam entered its 11th day today, with more air losses. The North Vietnam Foreign Ministry said in a statement broadcast by Hanoi Radio that Thursday's raids carried out "extermination

attacks on many populous areas in Hanoi" and that "hundreds" of persons were killed.

The U. S. Command today reported the loss of four more planes, including a 15th B52 strategic bomber, bringing to 26 the number of planes reported lost with 85 fliers killed, captured or missing over North Vietnam. In addition, 16 Americans were missing in the loss of an AC130 Spectre gunship shot down over Laos in a support mission.

Hanoi Radio claimed 76 American planes have been

shot down since the heavy attacks began Dec. 1, 33 of them B52s. Hanoi Radio and Communist dispatches from Hanoi said some of the B52s crashed inside Hanoi and that some pilots were killed, others captured. Hanoi listed the names of 10 more captive fliers today.

President Nixon ordered the heaviest raids of the war against Hanoi and Haiphong on Dec. 18 after talks between his envoy, Dr. Henry A. Kissinger, and the Communist negotiator, Le Duc Tho, broke down.

The North Vietnamese have

said a number of times that bombing will not force them back to the negotiating table, and there were defiant words said today from Peking when North Vietnamese pledged not to negotiate under threat and Chinese Premier Chou En-lai told an antiwar rally of 10,000 persons that China gave Hanoi its firm support.

The Communists said they will observe a 24-hour New Year's truce starting at 1 p.m. (midnight EST) New Year's Eve. The South Vietnamese are expected to announce a similar plan.

## Managua short of food

MANAGUA, Nicaragua (UPI) — A spokesman for the Nicaraguan Red Cross said today his organization has only enough food to feed survivors of the Managua earthquake for another 72 hours despite foodstuffs sent from around the world.

He said more foodstuff was needed.

Army patrols dispersed about 300 persons Thursday night who went to an airport warehouse, shouting: "We want food, we want food."

A government spokesman said the problem was finding enough trucks and manpower to move the 50,000 to 60,000 tons of food at the city airport to relief points.

About 300,000 persons were made homeless when an earthquake struck Managua last Saturday night. Most of them are now living in makeshift homes scattered around the capital and even in villages beyond. Responsibility for feeding them was given the Red Cross.

At least 24 countries around the world sent foodstuffs and more was promised.

## Downed US bombers blamed

WASHINGTON (UPI) — The Defense Department suggested Friday that much of the damage reported in Hanoi may have been caused by U.S. B52 bombers crashing into populated areas of the city after they were shot down.

So far, the U.S. command has announced the loss of 15 of the big jets, which carry up to 60,000 pounds of bombs each. Pentagon sources speculated that some of the shot down planes may have plunged to earth still fully loaded with bombs.

At a news briefing, Defense Department spokesman Jerry W. Friedheim was pressed to explain eye witness reports from Hanoi that U.S. raids had caused extensive damage to the city including the leveling of at least one street.

Friedheim refused to comment on specific reports of damage, but said:

"We know of instances where aircraft have been shot down and crashed in the city. We know of instances where SAMs (Surface-to-Air Missiles) have gone ballistic (after missing U.S. planes) and exploded in the city."

## Beef margin grows

WASHINGTON (UPI) — Supermarket margins for beef, looming as one of the administration's key inflation-control problems in 1973, rose to a new record in November and were one-third above a year earlier, the Agriculture Department reported today.

The department's monthly report on farm-to-retail price spreads showed the overall gap between farm and retail prices of choice grade beef rose 4.6 per cent in November to a record 48.7 cents a pound, 26.1 per cent above a year earlier. It was the second consecutive monthly rise.

The previous record was 44.8 cents a pound last August.

The spread between wholesale and retail beef prices, primarily made up of supermarket costs and profits, rose 4.9 per cent in November to a record 38.2 cents a pound, up 33.1 per cent from a year ago.

Despite these margin gains, Agriculture Department estimates showed average retail beef prices dropped in November for the fourth straight month and reached \$1.12 a pound, the lowest level since last May. This happened because average farmer returns on live cattle—despite a sharp upturn late in the month—fell to the lowest level in nearly two years and were 5.1 per cent below a year ago.

Retail pork prices, backing down from a record set in October, fell 0.3 per cent to 87.2 cents a pound but were still 22.1 per cent above a year ago. Farmers' returns fell 1 per cent to 45.9 per cent above a year earlier, but the farm-to-retail spread rose 0.5 per cent and was above a year earlier by the same amount.

## Jerome kills housing plan

By CHARLOTTE BELL  
Times-News Writer

JEROME — A request for a low-cost rental housing project has been denied by the Jerome City Council.

In a special meeting called to consider the request of approval of a building permit and annexation of a 10.5-acre site adjacent to the southeast border of the city for the housing complex, the council turned down the requests.

Andy Anderson, Boise, representing Brent Corp., had asked the council in its regular December meeting for

permission to construct a semi-rural, low-cost rental housing complex adjacent to the Carey Subdivision.

He had said the facility would include 20 to 22 units of one to two bedrooms each which would be available to low income families or individuals. He had estimated the construction cost at \$250,000 to \$300,000.

Anderson said he needed immediate council action in order to complete financial plans with the FHA and to exercise a 30-day option on the land before expiration. Because of the urgency, the council called the special meeting.

# Why the high Ketchum jobless rate?

By TERRY CAMPBELL  
Times-News writer  
KETCHUM — The area office of the Idaho Department of Employment attributes the high unemployment rate in Ketchum to the seasonal nature of the local economy.

But some local businessmen and elected officials say that "unwillingness to work" is as important as the statistical data that labor market analysis uncovers.

The U. S. Department of Labor announced Thursday that Ketchum had been added to its list of small labor markets with "substantial unemployment."

Twin Falls area labor analyst Kenneth Hodge said local officials had requested that the classification be made to qualify the city for Economic Development Act funds that may go to areas suffering chronically inflated unemployment.

Hodge prepared a report in October which confirmed that unemployment was high in Blaine County, and in Ketchum in particular, and forecast, "The unemployment picture, then, cannot be expected to improve. On the contrary, the seasonal highs in employment are expected to bring with them slightly increased unemployment rates. The seasonal slumps are expected to get much worse as more and more workers will be laid off each year."

During August the report noted, unemployment reached 7.8 per cent of the labor force, but it had been nearly ten points higher during June.

The report concluded, "Thus, although the economic growth of the area paints an optimistic picture, opportunities for the average workers are not expected to improve."

But some observers locally think the labor market analysis doesn't tell the entire story. Bud Feltman, national sales manager for Scott USA Inc., Ketchum, said, "Most people don't want to work."

week, he said, he has about 10 positions open directly from this turnover.

Feltman said most jobs with the company require no experience and usually offer a higher wage than the Sun Valley resort jobs, although he said he didn't know the average pay.

Ordinarily, he said, an employee will be given a raise after two weeks if he indicates he would like to continue work.

He said the main problem is transient workers. "My feeling is that among permanent residents, very few people that have lived here for five years are without a job," he said.

The sales manager said efforts are being made to lengthen the production cycle in an attempt to attract more permanent residents.

Ketchum Mayor Kenneth Richey added, "There seem to be jobs available for persons who want to work."

The mayor said part of the unemployment stems from the seasonal economy, but most permanent residents have jobs.

Lloyd Curtis, secretary manager of the Ketchum-Sun Valley Chamber of Commerce,

said the area experiences an influx of people at the beginning of each recreation season.

In the winter, he said, most job seekers don't want a daytime job because it interferes with their skiing. He estimated the number of nighttime jobs available at 20 per cent of the total job market.

As transients come into the area they exceed the number of available jobs and many remain in the community, and apply for welfare assistance and food stamps, he said.

Curtis said the business community and the legislature should consider requiring recipients of unemployment to accept their assistance checks in person.

Presently at season's end numbers of persons leave the area and have their checks mailed to them, he said, adding that applying for and receiving the checks in person would save mail costs and assure the agencies the checks were spent in the local community.

# Brezhnev sets autumn Nixon talks

LONDON (UPI) — Soviet Communist Party chief Leonid I. Brezhnev has put off a scheduled visit to the United States for talks with President Nixon until next autumn "because the political climate is not right" for an earlier trip, a Communist report from Moscow said today.

The report said that without a Vietnam agreement, a visit by the Soviet leader is "out of the question."

The report came from Victor Louis, a Soviet journalist who often reflects official Moscow developments. He was the first to report the fall from power of former Premier Nikita Khrushchev. Today's report appeared in the London afternoon newspaper The Evening News.

The report strengthened recent diplomatic hints that Brezhnev—who intended to visit the United States next April—might put off the summit for domestic and international considerations.

Louis said Brezhnev's planned visit, "understood to have been set for next spring, is not now expected to take place until the autumn, according to observers here (in Moscow)."

"The political climate is not right for such a meeting early next year," Louis wrote.

"An agreement on peace in Vietnam has not been reached,

and without an agreement a visit by the Russian leader is 'out of the question.'"

The Louis report added that the Middle East is unsettled and that the projected European Security Conference and the Russo-American Strategic Arms Limitation Talks (SALT) are not expected to produce any result until later next year.

Brezhnev's U.S. visit, he said, would be considered of great importance, and the Soviet leader would not want to return home empty-handed from the United States.

There was speculation in diplomatic quarters here that the postponement report may have been "inspired" by Soviet authorities or by some interested quarters.

The timing was considered significant. The linkage of the planned delay of the visit with the latest crisis in the Vietnam conflict appeared to diplomatic observers here a calculated warning to the U.S. administration. While it carries no official weight, it appeared intended as a reminder that the Kremlin will find it difficult to negotiate with Washington while the war in Vietnam is escalating.

Official Moscow has so far refrained from any direct linkage between the Vietnam crisis and relations with the United States except in mildly worded reprimands.

## Fiery wreck

TWENTY-NINE cars of a 50-car Santa Fe Railroad freight train derailed near Melvern, Kan., early Thursday morning and at least eight cars burned. Many cars carried flammable liquids but there were no injuries. Cause of the derailment has not been determined. (UPI)

## 1972 one second longer

SANTA CLARA, Calif. (UPI) — The year 1972 is more than one second longer than the year 1900, and time-keepers will stop their clocks to let the world catch up at precisely one second before the start of 1973.

The extra second, called a "leap second," is part of the scientific scheme to keep order in such fields as navigation, astronomy and space research.

The adjustment is necessary from time to time—one was made last June 30—to account for the fact the earth is gradually slowing down its rotation speed because of friction.

When it is 11:59 and 60 seconds at Greenwich, England, official time-keeping stations throughout the world will stop the new year from starting for a second.

## Valley Obituaries

### Ace Johnson

TWIN FALLS — Ace L. Johnson, 59, Twin Falls, died at his home of a heart attack early this morning.

Mr. Johnson was a former Boise resident before moving to Twin Falls in 1956.

He was a real estate broker with the Joe Hackney Agency. He attended the University of Utah on a football scholarship. He graduated from LaSalle University, Chicago, in 1935.

He was a World War II veteran, serving in England with the US Air Force.

He was a member of the Twin Falls Rotary Club and was active in community affairs.

He married Bernice Wilson in Boise Dec. 28, 1941.

Surviving are his wife and two sons, William Ace Johnson, Denver, Colo., and Richard Harris Johnson, Anchorage, Alaska; two daughters, Mrs. Vida Sanders, Richmond, Utah, and Mrs. Ada Wright, Franklin, Idaho; four brothers, Reid Johnson, Salem, Ore.; Vern Johnson, Richmond; Dale Johnson, Spokane, Wash., and William Johnson, Smithfield, Utah.

Funeral services will be conducted at 2 p.m. Tuesday at White Mortuary Chapel by Rev. Herbert Morris.

The family suggests memorials to the Heart Fund.

### C. Brackett

FILER — Chester E. Brackett, 84, Filer, died Thursday morning at a local nursing home following a long illness.

He was born Oct. 10, 1888, at Flatcreek, Idaho, near Three Creek.

Mr. Brackett ranched at Cedar Creek where Roseworth Reservoir is now located.

He owned and operated ranches in the Castleford area, including the Antelope Ranch, a ranch at Roseworth and the Brackett Ranch on Brown's Bench.

At one time he owned around 3,000 head of horses under the M-L brand. He also ran between 1,200 and 1,500 head of cattle.

He was a member of the 71 Lavestock Association.

Mr. Brackett is survived by two nephews, Truman Clark, Castleford, and Roy E. Brackett, Twin Falls; two nieces, Mrs. Edna Bailey, Filer, and Mrs. Roland (Beth) Patrick, Rogerson.

He was preceded in death by a brother and a sister.

Funeral services will be conducted at 2 p.m. Saturday at Reynolds Funeral Chapel, Twin Falls, by Rev. Raymond P. Jones, First Christian Church.

Burial will be in the Twin Falls Cemetery.

Friends may call this evening and Saturday until time of services.

### Della Brown

KIMBERLY — Mrs. Della Norb Brown, 75, Kimberly, died at her home early Thursday of a short illness.

She was born March 28, 1897, at Shoshone.

She was married to Louis A. Brown in Twin Falls Dec. 31, 1918. He died Nov. 25, 1966.

Mrs. Brown was a member of the Kimberly Christian Church and the Pleasant Valley Area Women's Club.

Survivors include two daughters, Mrs. Robert E. (Jean) Bean and Mrs. Troy (Nora) Kell, both Kimberly; two sisters, Mrs. Edna Stephens, Centralia, Wash., and Mrs. Myrtle Goller, Twin Falls; three grandchildren and one great-grandchild.

One daughter and two grandchildren preceded her in death.

Funeral services for Mrs. Brown will be at 2 p.m. Saturday at White Mortuary Chapel, Twin Falls, by Rev. Howard Larsen. Burial in Sunset Memorial Park, Twin Falls.

Friends may call this afternoon and until 1 p.m. Saturday.

### Cora Hayhurst

JEROME — Cora Hayhurst, 62-year-old former Jerome resident, died early this morning at the Twin Falls Clinic Hospital.

Services will be announced by Howe Funeral Chapel.

SUN VALLEY — Mrs. Helen Reed, 77, Columbus, Ohio, died Thursday at Moritz Community Hospital after a short illness.

She had been in the area on vacation. Funeral services will be conducted in Ohio.

### Helen Reed

### Funeral Services

GOODING — Services for John Clinton Carlton will be conducted at the United Methodist Church by Rev. Harold Hake and Bishop Bobby Rogers. Burial in Elmwood Cemetery.

The world's first parking meter was built by three Oklahoma men and installed in Oklahoma City in 1935.

## Burglars ransack TF home

TWIN FALLS — A Twin Falls woman returned from vacation to find her house ransacked Thursday.

According to police reports, Florence Kunkel, 452 4th Ave. E., returned from a vacation in Arizona to find her house broken into and an undetermined number of items missing.

Chief of Detectives Tim Qualls said reports indicate the break-in occurred shortly before Mrs. Kunkel returned to her home. The list of missing items is still being compiled. Thus far, some food has been reported missing from the kitchen.

The case remains under investigation.

## Thieu limits parties

SAIGON (UPI) — Informed sources said today President Nguyen-Van Thieu quietly signed a new law Wednesday—the day before his special powers expired—that would limit South Vietnam to no more than five political parties.

In practical terms, the sources outside the government said, it would be difficult for more than three existing parties, including Thieu's own Dan Chu (Democratic) party, to meet the requirements of the legislation.

An announcer on the government radio, in discussing the new law, said Thieu drafted it because "the Republic of Vietnam, while fighting for its survival against the Communists, is looking for democracy. Only democracy can win over the Communists and for this reason, activities of the political parties must be reviewed."

Thieu has always been known to favor a two-party system for South Vietnam to replace the schismatic political system based loosely on France's Fourth Republic.

There are currently 27 officially legalized political parties in South Vietnam and few could currently meet the requirements of the new law, promulgated by decree under the six months of special powers that Thieu had until Thursday.

The law demands that an officially recognized political party must have branches in at least half of the country's cities, towns, villages and hamlets and in at least one-fourth of the wards in each city.

## Senator scores Nixon

CLEVELAND (UPI) — Sen. William B. Saxbe, R-Ohio, was quoted by a Cleveland newspaper today as saying that President Nixon "appears to have left his senses" by ordering the renewed bombing of North Vietnam.

Saxbe told the Cleveland Plain Dealer he would support end-the-war legislation which he feels certain will be introduced next week in the Senate.

"I have followed President Nixon through all his convolutions and specious arguments, but he appears to have left his senses on this," Saxbe said. "I can't go along with him on this."

Saxbe, a member of the Senate Armed Services Committee, told the Plain Dealer he was angered because no effort was made by the White House to get in touch with him before the renewed bombing was undertaken Dec. 18.

"I have never been more than five minutes away from a phone but I never got a call."

## Starlings threaten parade

WASHINGTON (UPI) — While thousands in the nation's capital are scrambling to get tickets for choice seats along the route of President Nixon's inaugural procession, Frank and Joseph Fink today will begin trying to make sure that thousands of others are kept away.

The objects of the Finks' attention are not people, but starlings who roost in the elms and oaks that border Pennsylvania Avenue between the Capitol and the White House.

"We want the only white on the top hats of dignitaries to be from the sheen of reflected sunlight," said a spokesman for the father and son Finks.

The Finks run National Bird Control Laboratories, Inc., Skokie, Ill., which has a \$13,000 contract with the inaugural committee to spray repellent on trees along the inaugural route.

Frank Fink, 68, who developed the repellent formula, said the non-toxic spray gives birds "a type of hot foot" when they land on treated trees. The repellent is effective for about four months.

## Snow blankets Utah

By United Press International

A major snowstorm wrapped Utah in a heavy white blanket today — one so heavy it could hardly move.

More than 13 inches of snow had fallen in the Salt Lake Valley by 6 a.m., with many areas of the state reporting similar amounts.

To add to the problem, winds up to 35 miles an hour at times pushed the snow into huge drifts. Some drifts of over six feet were reported.

The Utah Highway Patrol warned motorists to avoid all travel in the state.

The National Weather Service said the snow was expected to decrease gradually during the day, but that strong winds would probably remain to continue drifting the snow.

Numerous roads and highways throughout the state were closed during the night and today.

More than 90 miles of U.S. 91 and 115 between Nephi and Cove Fort were closed for a time during the night, along with 180 east of Wendover, U.S. 50-6 over Soldiers Summit between Provo and Price.

## Many TF fenders bent

TWIN FALLS — While local auto body shops are busy repairing crushed fenders and twisted bumpers from the pre-Christmas snowstorm, a new batch of banged up cars is forming in the wings.

Police report 20 minor accidents Thursday in the city of Twin Falls.

According to Chief of Police Frank Barnett, several factors account for the large number of fender-benders.

Having survived the first area snowstorm, drivers have a tendency to be less cautious during the second storm, Barnett says.

However, the most important factor in Thursday's accidents, Barnett believes, was not increased motorist confidence, but the large amount of traffic on city streets as a result of

post-Christmas sales. Residents took to the streets who would normally have stayed indoors, Barnett said, in order to return Christmas gifts and take advantage of price mark-downs in city stores.

Barnett said he estimated 98 per cent of all two-car accidents within the city were reported. One-car accidents, he said, might be reported less frequently.

A quick survey of body shops reveals that most are booked ahead and busy with the damages incurred in the earlier snowstorm. While estimates are beginning on damages from the latest snow, most body shop operators agree that motorists won't bring their cars in for repair until road conditions improve and they have broken the bad news to their insurance companies.

# CSI gets gift for stipends

TWIN FALLS — A grant and scholarships totaling \$850 were presented to the College of Southern Idaho Thursday by First Security Foundation.

The foundation is a subsidiary of First Security Bank of Idaho NA.

According to CSI president James L. Taylor, the funds included \$500 to be used for scholarships and \$150 to provide additional materials for the CSI library.

Taylor said the scholarship money will go into the college's trust fund and be awarded by the scholarship committee to needy students, mostly in the form of tuition payments.

The library grant, Taylor said, will be spent on the recommendation of the college's business department to increase its holdings.

Presentation of the funds to the college was made by Kenneth J. Newman, vice president of First Security Bank and manager of the Twin Falls branch.

# Nixon profits in sale

MIAMI (UPI) — Real estate records here showed Thursday that President Nixon last week sold two lots owned at Key Biscayne for \$150,000. The profit was believed to be nearly \$100,000.

Dade County records and tax stamps indicate that the President bought the lots in 1967 and 1971 for a total of \$53,100, meaning that he cleared \$96,900.

The lots which are not a part of the President's vacation villa at Key Biscayne, were bought by New York attorney William E. Griffin Jr., a longtime acquaintance of the President.

Griffin said he heard through Nixon aides nearly a month ago that the property was for sale and he began negotiations. He said he did not deal directly with the President on the matter.

Griffin, whose parents live in Fort Lauderdale, Fla., said he will build a home on the property.

Records show that Nixon bought the first lot in 1967 for \$30,000 and the second in 1971 for \$23,100.

Nixon said when he made the first purchase it was an investment.

"I'm a firm believer in real estate as an investment," he said at the time.

# New books, scholarships

COLLEGE OF Southern Idaho president James O. Taylor, left, accepts checks totaling \$650 from Kenneth J. Newman, vice president of First Security Bank.

# CBS technicians approve contract

NEW YORK (UPI) — Cameramen, technicians and electricians who struck the Columbia Broadcasting System 56 days ago over a jurisdictional work dispute voted Thursday to accept a new three-year contract.

Members of the Radio and Television Engineers Union, a local of the International Brotherhood of Electrical Workers, voted to accept the new pact by a slim 52 vote margin, 561-509. The contract provides for a 5.5 per cent pay raise each year for the technicians, in addition to two extra holidays. Technicians now earn a base pay of \$305 weekly.

The technicians were expected to return to their jobs within 48 hours.

The strike had idled CBS workers in New York, Los Angeles, San Francisco, Washington, Boston, Chicago and St. Louis.

The walkout, which began Nov. 3, involved disputed jurisdiction over new electrical equipment, and hampered coverage of football games, election returns and the flight of Apollo 17.

# Skiing reported good

TWIN FALLS — New snow was reported Thursday at most ski resorts around the area with conditions ranging from good to excellent.

Sun Valley reported snow was falling by late afternoon but had not built up at that time. Total depths are reported at 29 inches at the top of Baldy Mountain and 13 inches on Dollar Mountain.

The roads in and around Sun Valley are listed as good.

Soldier Mountain reports a 23-inch depth at the bottom of the hills, packed to about one foot on lower runs and 14 inches on the top. David Wheeler, manager, said skiing is very good on main runs.

It was overcast yesterday but snow had not yet reached the area.

Both Pomerelle and Magic Mountain reported new snow Thursday with the storm continuing through the day.

Pomerelle reports four inches of new snow with skiing good to excellent. Total depths range from 24 inches to 48 inches. The road to the area is good but officials say all vehicles are required to have snow tires or chains because of upper icy sections.

Buses are running daily from most Magic Valley towns to Pomerelle.

Magic Mountain reported five inches of new snow and the storm continuing Thursday. Skiing remains excellent and buses are running daily through Monday, leaving Twin Falls at 9 a.m.

The road is listed as good with snow tires or chains required. Total depths range from 40 to 50 inches at the resort.

Rotarun is not yet open and snowmobiling is listed as good in the South Hills.

# Solon quits race for House post

WASHINGTON (UPI) — Adverse results from a poll of House Democrats has prompted Rep. Sam Gibbons, D-Fla., to withdraw from the race for House Democratic leader.

Gibbons' decision virtually assures the election of Rep. Thomas P. O'Neill of Massachusetts to the post. O'Neill, 60, served as party whip in the last Congress.

Gibbons told UPI by telephone from his Tampa, Fla., home Thursday that his poll showed he did not have sufficient support to beat O'Neill when House Democrats vote Tuesday in a party caucus to fill the leader's office left vacant by Rep. Hale Boggs, D-La., who disappeared on an airplane flight over Alaska Oct. 16.

# Plane down in Nebraska

KEARNEY, Neb. (UPI) — The wreckage of a light single engine plane with seven persons on board was found about 2 1/2 miles northwest of Kearney late Thursday night. Witnesses at the scene said there were no survivors.

The wreckage was found halfway between the farm communities of Amberst and Pleasanton. Four wheel vehicles were being used to get to the crash scene in the hilly, rough terrain.

A witness at the scene told the state patrol in Grand Island, "there are no survivors. Repeat, there are no survivors."

The Ravenna Police Department, which dispatched a rescue unit to the scene, said squad members were returning "because they said they weren't needed."

# Burns asks spending freeze

TORONTO (UPI) — Federal Reserve Board Chairman Arthur F. Burns Friday suggested a "freeze or near-freeze" on federal spending as a means of coming to grips with the government budget problems and helping to dampen inflation.

Burns criticized the notion that government can cure social and economic ills with massive uses of taxpayers' funds.

The reserve board chairman also said quick end to wage-price controls was "impractical" and urged Congress and

the administration to change laws that reduce competition in business, labor and agriculture.

Burns made his comments in a speech prepared for delivery to a joint meeting of the American Economic Association and the American Finance Association.

The remarks of the central bank chief were generally pessimistic. The United States, as most other industrial nations, is mired in a state of chronic inflation, he said, and only tough fiscal and monetary measures can break this impasse.

"The single most important need at the present time is to curb the explosive growth that has marked federal spending in recent years," he said. "Some shock therapy may be needed here, such as a freeze or near-freeze for a year or two of federal expenditures."

President Nixon has vowed to hold spending to \$250 billion this fiscal year, an \$18 billion increase in outlays over the previous year. Burns' proposal would allow no increase at all in budget spending from one year to the next.

President Nixon already has said he will ask Congress to extend the economic stabilization program beyond its April 30 expiration date. Burns applauded this move and said even a toughened fiscal and monetary policy could not effectively deal with pent-up demand in the economy without the help of the stabilization program.

"As a practical matter, I see no alternative but to pursue for a while longer the experiment with direct controls," Burns said.

# TF firemen plan new Christmas tree burn

TWIN FALLS — Initiation of a new program to help dispose of used Christmas trees and provide a community service was announced today by Twin Falls Firemen.

Known as the "Burning of the Green", the program will involve collection of discarded trees in Twin Falls. Firemen will pick up the trees for a small donation. The money will be used to provide a bonfire at which refreshments will be served and to build up a burn-out fund to help fire victims.

Cases such as the Blubaugh family which lost all of their possessions and home in a Tuesday night fire will be helped with whatever funds have been built up or to the extent needed, Phil Clough, fireman, said.

Clough said the trees will be

picked up during the coming week and piled in an area selected for the fire. At 7:30 p.m. Jan. 12 the firemen will touch off the bonfire and will supervise the fire for safety purposes.

Fire fighters and the fire fighters auxiliary will serve free refreshments to those attending.

Firemen say they hope the program will call attention to the severe loss annually in lives and property as a result of fires. Nationally, more than 12,000 persons perished and 330,000 more were maimed and injured during 1971. Property loss was more than \$3 billion.

In Twin Falls this year there were 166 fire calls with an estimated \$153,560 property loss.

Persons wishing to

participate may call the non-emergency number at the fire department 733-1361 and a fire fighter will pick up the tree on his own time and will accept the donation. Trees and donations may also be left at the fire station or sub station.

The bonfire will be held at Frontier Field, behind the sub-station on Falls Avenue.

# TF blood draw set Wednesday

TWIN FALLS — A quota of 150 pints has been set for the blood drawing of the Twin Falls chapter of the American Red Cross Wednesday.

The drawing will be at the American Legion Hall from 1 to 6 p.m.

## Peace Hopes

Pope Paul spoke for mankind when he voiced regret that the world will not receive the gift of a Vietnam peace for Christmas.

"Bitterness invades our hearts as a result of this delay," the Pontiff said, "but we must not lose the strength of spirit to go on hoping."

His words reflect the mood of the American people, whose hopes were raised toward the end of October by indications that a peace agreement was within reach. But as the secret negotiations dragged on into December, it became clear that a Christmas peace was not to be.

Henry Kissinger, in a sober and frank report, told the American people the kind of tactics he had been up against in Paris. "Every day an issue was settled," he said, "a new one was raised. When an issue was settled as part of an agreement, it was raised again as an understanding, and when it was settled as an understanding, it was raised again as a protocol."

For President Nixon and the American negotiators, Kissinger said, "nothing has meant more than attempting to bring this war to an end."

"It was painful to think of the hopes of millions," he said, "while one frivolous issue after another was surfaced."

"We will not be blackmailed into an agreement," he went on. "We will not be stampeded into an agreement. We will not be charmed into an agreement until its conditions are right."

Kissinger said we are prepared to continue in the spirit of the negotiations started in October and maintain an agreement providing for release of all allied prisoners, an immediate ceasefire, withdrawal of American troops, and imposing no political solution on either side.

Only Hanoi's decision to maintain agreements already reached is necessary to end the war, Kissinger said.

When the North began a new military buildup, President Nixon had no choice but to resume the bombing of North Vietnam.

Hanoi's trickery is obvious and its propaganda charging the United States with escalating the war is plainly false.

The road to peace is wide open to Hanoi. Unfortunately, the United States cannot take the road alone.

## Reforming Reforms

Tax reform in the United States — property tax reform in particular — and reduction, are undergoing a change in emphasis. Less than a year ago revenue-sharing by the federal government was seen by many as the surest way to provide relief to property owners and the tie-in was suggested frequently.

But at that time also the administration was seriously considering a value-added tax as a source of new funds for the federal treasury which could be applied to reduce taxes at the state and local levels.

Now, VAT is dead, victim of a

pledge for no new taxes and uncertainty over the effects it might have on the American economy. At the same time, heavy emphasis is placed on the no-strings provision of revenue sharing.

Which means the recipients can use the funds distributed from Washington for property tax relief if they wish — or for any other purpose. In Idaho it will apparently be for any other purpose.

The plot has changed from a year ago, but the current program may not be the end of the tale.

ROBERT ALLEN

## McGovern: Off The High Horse?

WASHINGTON — Sen. George McGovern, being the self-sanctified leftist that he is, is giving no indication of heeding the advice, but some good friends are bluntly telling him to climb off his high horse and come down to earth.

This realistic counsel is very timely and much needed.

Despite the South Dakota radical's historically crushing election defeat and subsequent

virtual repudiation by the Democratic National Committee, he is still acting as if he were the party's standard-bearer and trying to throw his weight around in its affairs.

That he has gotten nowhere doesn't seem to faze him. Self-righteously he avows, "I'm sticking by my principles and policies because they're right. I don't see myself as the loser. I see the country as the loser."

Revealingly indicative of McGovern's haughty egotism are the following:

1 — Secretly planning with certain other militant Senate doves to launch a "rancorous" fight against President Nixon's Vietnam peace efforts on the ground they are "phony and fraudulent," and to cut off all funds for the conflict. Declares McGovern, "Nixon's Vietnam policy is murderous, inhuman

and barbaric... and one of the darkest chapters in American history."

2 — At a tense moment at the recent Democratic National committee session which booted out his handpicked chairman, McGovern covertly tried to slip in his running-mate Sargent Shriver as a "compromise" replacement. The slick maneuver got nowhere; it was promptly and decisively squelched.

3 — Accepting some \$15,000 in privately-raised funds for the avowed purpose of enabling McGovern to employ additional personnel for his Washington and South Dakota offices. Previously, when it came to light that some Republicans had accepted money for the same reason, McGovern bellowed to high heaven in indignant condemnation.

Maintains McGovern in unctuous justification, "Once you've run for the presidency, you have a following that needs to be nourished and kept alive... These people believe in you and shouldn't be dropped."

With his deeply ingrained self-importance, it's a cinch he would be the last to drop 'em.

For one thing — he faces a tough and highly uncertain reelection fight in South Dakota two years hence. In his recent nationwide campaigning, his

home folks got a look at him they had never had before.

Which may well explain why he lost his own state by such a big margin.

Aside from the debatable ethics of the \$15,000 fund is the highly moot question of what it's really for!

McGovern has a clerical allowance of around \$225,000 based on his state's population. That's in addition to his \$42,500 salary and numerous perquisites, allowances and other benefits. Further, his staff is as big as his colleagues from the same area.

They're not complaining, and they don't have private funds.

Nether did McGovern, until the \$5,000 was raised for him — by his great friend and multimillionaire benefactor, Stewart Mott, 4-year-old bachelor heir of an \$800 million General Motors fortune, who ante'd up \$400,000 for McGovern's campaign.

A gilded do-gooder and crusader, Mott engineered the private fund-raising affair. It took the form of a "by invitation only" \$100-a-plate dinner in a swank establishment in New York. McGovern and his wife attended, as obviously the occasion and a purpose had his complete approval.

The press was barred.

"You're Great at Dark Clouds, But What Happened to the Silver Lining?"

RAY CROMLEY

## Those Securities

WASHINGTON (NEA) — The word from Capitol Hill is that the stock exchanges, the profits made from security investments and the operating methods of brokerage houses are going to be in for thorough investigating this year.

New laws will be considered which will affect the incomes, the taxes paid and the safety of millions of investors.

This may affect you; for figures developed by the New York Stock Exchange suggest that as of now 33 million Americans own stocks directly. This includes investments in mutual funds, which often emphasize capital gains.

Directly and indirectly, 106 million Americans own shares through their own investments, through participation in pension funds, insurance companies and other institutions.

The number of individual direct shareholders increased by 53 per cent between 1965 and 1970. The New York Stock Exchange projections suggest that by 1980 almost 50 million Americans will be direct investors.

A study made in 1970 calculates that three out of five of the direct shareholders were members of households with incomes reported at less than \$15,000 a year and that the median income of the average investor's household was around \$13,500 annually. Some 2.5 million of the shareholders were in households with yearly earnings of less than \$5,000.

In 1970, 6.3 million or 22 per cent, of the shareholders were professional and technical employees; 10.3 million or 37 per cent, housewives and retired persons; 849,000, operatives and laborers; 1.4 million, craftsmen and foremen; 4.4 million, or 16 per cent, in clerical and sales; 622,000, service workers, and 4 million, or 14 per cent, managers, officials and proprietors. Farm and farm labor direct owners totaled only 170,000.

Some 22 per cent of the shareholders were under 35 years of age, only slightly less than the 25 per cent in the 45 to 54 age group. Fourteen per cent were 65 or older. A fifth were 35 to 44 and another fifth from 55 to 64. Unfortunately, the figures do not show what per cent of the shares by value were owned by persons of modest means and those with wealth.

This incomplete data, however, does indicate that investment in shares is now so widespread among the middle income and even the poor through their stake in pensions, life insurance investments and otherwise, that radical changes in laws affecting share earnings, capital gains and terms of investment would affect at least half the families in the United States, not just the wealthy few. Many of the wealthy would be more heavily affected, of course.

What must be sought, therefore, is not some simplistic meat cleaver approach to the markets, but a means to control stock manipulation and pure speculation having no relation to investment.

Congressional investigations, however, indicate that the small investor, and sometimes the pension fund, insurance company or mutual fund investing for him, have some considerable worries in addition to politicians and the vagaries of the market.

BRUCE BLOSSAT

## Revolution?

WASHINGTON (NEA) — Some of America's intellectuals are in a departure from historical pattern, taking a great interest right now in their own country. The reason, they think the "real revolution" is happening here.

They look about them and see nearly all four of our major institutions under heavy attack — the political system business, education, religion, the family and its ways.

They argue, of course, that this is good, and they find it occurring nowhere else on earth with comparable force and speed.

At least a few of the approving intellectuals believe the assault won't stop until American institutions have been radically altered, in some cases along Marxist lines.

No one can question that the attack has been going on or that it already has produced some significant change.

Nor can anyone fairly contend there should be no change since change is a law of life.

It is quite possible to disagree, however, with the notion that the country's institutions are in for a truly radical makeover. Admittedly, the pace of change is faster than it used to be, but that's true of almost everything these days. Most probably, the net consequence will not be drastic enough to win the intellectuals' final applause.

For one thing, a lot of the attack comes from tiny bands of dissenters who contrive, by volume of noise and other, attention-getting tactics, to make

their efforts seem larger and more significant than they are. For another, to the extent larger numbers of Americans are involved, the evidence suggests that the assault is not bent toward purposeful revolution but is instead an exercise in frustration, a kind of wild flailing away at institutions which seem unresponsive to popular needs.

The intellectual may ask: What's the difference so long as people's energies are being expended in attacks which may bring down these structures?

The difference is huge. Nothing illustrates the fact better than the 1972 election. The sweeping verdict for Richard Nixon was a decision among other things against radical change. As one reporter has pointed out, this same characteristic of caution was exhibited in the small specifics of the vote in California on various propositions. The far-past proposals went down.

The thing to say, then, is not that there is no attack upon American institutions, but that intellectuals who read it as "revolution" are grossly misreading it. Indeed, a better case could be made out that the United States was closer to revolutionary change in the Great Depression, when a third of the work force was unemployed. That, for sure, was a time of breaking bonds and institutional overhaul. Yet, it has to be remembered that in six years the steam was out of the New Deal.

GEORGE C. THOSTESON, M.D.

## Radiculitis

Dear Dr. Thosteson: My mother suffers with a condition classified as "cervical radiculitis" and she gets agonizing headaches. The right side of her head is constantly in pain and she can't use her right arm to lift anything without the side of her head being affected. This started four years ago and she has been to many doctors without relief. No pills help her.

Please give me any information on the condition and any treatments that are possible. Her condition was ruled as hopeless, but she can't go on like this. — R.H.

Radiculitis is inflammation or irritation of the root of a nerve, at the point at which it emerges from the spine. The "cervical" places it in the neck portion of the spine.

While this is not, as a rule, an easy condition to treat, I would question whether it is "hopeless" — unless there are other circumstances which you have not told me about.

I also question why your mother went to "many doctors," although I know that such events occur. I recall a patient, younger perhaps than your mother, who went to by count

20 doctors from coast to coast, and none advised an X-ray of the neck. Why? I don't exactly know. Perhaps some did, but perhaps she didn't listen. Or perhaps she was too insistent on an immediate diagnosis, or thought that if she visited enough doctors, one of them would prescribe a pill that would cure her.

Anyway, in such cases, the X-ray is valuable beyond price, to indicate where some pressure is irritating the nerve. It may be from arthritic changes, or from an old injury (such as from a

"whiplash") or at times habitual poor posture may be at fault.

In the case of the patient I just mentioned, there was fusion of two vertebrae in the neck. They were separated by surgery, and her pain vanished. He was, I grant you, a rather unusual case, but it happened.

In many cases, improvement of posture is essential — yet the patient is puzzled as to why better posture can do anything to relieve pain in the neck.

Sometimes neck traction, by means of a head halter, pulley and weight, can give considerable relief. Again, some degree of muscle spasm often exists, and medication to ease the tension, along with application of hot wet compresses can help.

Depending on the exact nature of the situation, treatment can vary, and a good many cases may require continuation of treatment before relief results. But again I say that I would be unwilling to say that the situation is "hopeless" until something more than pain medication has been tried.

Dear Dr. Thosteson I have been trying to get pregnant for three years, and nothing yet. We do have two children. My doctor said he could find nothing wrong but prescribed some pills for me. I noticed that the prescription said "thyroid 4 grains." Is this supposed to be a fertility drug? — T.Y.

You could hardly call it a fertility drug, but it is true that inactivity of the thyroid gland can prevent pregnancy, and the use of thyroid helps.

## BERRY'S WORLD

"Whenever I see someone with a figure like yours, I always wonder if she's high on diet pills!"

MR. SPECTATOR

## Just Another Day?

In one sense Jan. 1 is but another day. In another it is quite important. It is the most impressive milestone in the unalterable course of Time which weighs heavily upon every human being.

Time is inextricably interwoven with both morality and materialism. The great lesson of moral conduct is to use his little time to the best purposes so that a man may review his deeds at his life's end with a quiet conscience. The materialists would have us be up and doing in the acquisition of goods. The sensualists live to savor each passing moment to its fullest.

Life is the incomparable gift too soon taken away. Youth is heedless of it but the phase of awareness quickly comes in which the striking hours emphasize the limits of earthly tenure.

Those who know what to do with time become the outstanding individuals of every era. We always have time enough, as Goethe said, if we will but use it aright.

Jan. 1, 1973, marks another astronomical measurement of motion in the universe. The message of the New Year is to meet with brave resolution and discharge with good conscience the affairs of everyday living.

### BONANZA

Ever dream of finding a bonanza? It happens sometimes, even if nothing more dramatic is involved than finding money put away in a teapot for a rainy day.

### Outdoor Code

As an American, I will do my best to —

BE CLEAN IN MY OUTDOOR MANNERS — I will treat the outdoors as a heritage to be improved for our greater enjoyment. I will keep my trash and garbage out of America's waters, fields, woods, and meadows.

BE CAREFUL WITH FIRE — I will prevent wildfires. I will build my fire in a safe place and be sure it is out before I leave.

BE CONSIDERATE IN THE OUTDOORS — I will treat public and private property with respect. I will remember that use of the outdoors is a privilege I can lose by abuse.

BE CONSERVATION-MINDED — I will learn how to practice good conservation of soil, water, forests, minerals, game, birds, and wildlife, and I will urge others to do the same. I will use sportsmanlike methods in all my outdoor activities.

# Irish troops hunt bombers

DUBLIN (UPI) —The violence of Northern Ireland spilled over into the Irish republic Thursday night, leaving two persons dead and at least 12 wounded in one of two separate bombings.

Irish troops sealed off the border today in the hunt for the bombers.

The explosions in the south were the first since Dec. 1 when two persons died in a Dublin blast.

Four other bombings were reported in Northern Ireland itself, but there were no reports of injuries there.

Police said one blast in the southern town of Belturbet killed a man and a 17-year-old girl and injured at least 12 other persons, among them a child.

The other ripped a street of shops in the town of Clones, but caused no casualties.

Police said they thought Protestant extremists from the north planted the bombs to take vengeance on border towns in the republic they consider bases from which the illegal Irish Republican Army (IRA) launches bombing and shooting strikes into Northern Ireland.

In Belfast, the Protestant extremist Ulster Defense Association, which has claimed responsibility for some past attacks in the republic, declined comment on the latest bombings.

### Storewide Savings to Save You More!

## Blood not needed

WASHINGTON (UPI) —A blood bank official says blood is not needed for victims of earthquake-ravaged Nicaragua.

Dr. Robert Langdell, president of the American Association of Blood Banks, said Thursday Americans had volunteered in overwhelming numbers to donate blood for earthquake victims. But he said U.S. government agencies coordinating relief efforts had received no requests for whole blood or blood components.

"It is gratifying to know that people care but there is no requirement to ship whole blood to Nicaragua at this time, and appeals for blood are apparently unauthorized," Langdell said.

## Golda, cabinet toast hostages

TEL AVIV (UPI) —Prime Minister Golda Meir and her cabinet waited until they heard the voices of the Israelis released by Arab guerrillas in Bangkok before toasting their freedom with brandy today.

Nearly four months ago, the same ministers proposed a similar toast when they were told Arab guerrillas in Munich had released nine members of the Israeli Olympic team. Hours later, they learned that all nine were dead.

"One knows without asking that this was a long day and a long, long night," Mrs. Meir said, a half-filled brandy glass on a walnut table in front of her.

She, Foreign Minister Abba Eban and Deputy Prime Minister Yigal Alon moments earlier had hoisted their glasses in a toast that ended what Eban described as "long hours of fearful—suspension and tension." The cabinet had stayed in a small room since early Thursday.

"There were no concessions," Eban said. "At no time was it even considered."

"We were very fortunate that members of the Thai government immediately went into action," Mrs. Meir said. "Because of their help and devotion and ability, we have our people back in Bangkok with their families."

Mrs. Meir said the action of the Thai government should serve as a model for other governments faced with similar circumstances.

## Garbage plagues New York City

NEW YORK (UPI) —How do you get rid of 30,000 tons of garbage each day without damaging the environment?

For years New York City, the most populated in the nation, has been struggling with the question. The various proposals submitted have provoked reactions ranging from general laughter to a fistfight between two political figures.

The latest proposal is to build a 1,500-acre island in lower New York Bay between New Jersey and Staten Island in the vicinity of the Statue of Liberty.

City officials and conservation groups express restrained optimism over the plan.

But they say the project can only be implemented if all of the questions of environmental protection and ecology can be satisfied.

Proposed by the engineering firm of Pope, Evans and Robbins, Inc., the \$300 million project would create a three-mile long, 1.5-mile wide island that would be called Recap Island. It would receive the solid wastes generated by the tristate metropolitan area for the next 30 years.

The island would contain recreation areas, a marina and an industrial park.

Jerome Kretschmer, head of the city's Environmental Protection Administration, called the proposal "a reasonable idea" but one that raised "broad questions" of environmental impact, location and structural feasibility "that must be examined before the EPA commits itself to such a project."

"We first have to worry about the ecology before we start putting an island in the middle of the bay," Kretschmer said.

Kretschmer in July exchanged verbal and physical blows in City Hall with Councilman Michael DeMarco over a

# Egyptian war committees told to prepare for fight

By United Press International  
Hours after announcing that he has ordered his government to prepare for possible war with Israel, President Anwar Sadat of Egypt set up committees at local levels today to carry out his proposals.

Government sources said the president issued decrees setting up committees in the country's 24 governorates to take charge of the war preparations.

Sadat, the sources said, will head a national committee and from it will branch a subcommittee chaired by Prime Minister Aziz Sidky. The sources said Sadat will begin a series of meetings Saturday

with his top aides aimed at preparing the nation for war.

The decrees were issued only a few hours after Sadat, in a 45-minute speech to parliament Thursday, said Egypt will have to fight "through fire and storm" to liberate occupied Arab lands.

"I declare it here with the loudest voice and the fullest responsibility," he said, "that the door to battle is the door of the future, and that there is no other path."

Sadat's speech was interrupted several times by applause. "I have asked the government not only to content itself with a plan for preparing the state for battle—a plan which

has been carried out already—but I asked them to prepare another plan to prepare the nation for the possibility that fighting may break out," he said.

"We shall fight our way through fire and storm, sacrifice our blood for honor and our sweat for freedom, and place our banners where they should be placed. We shall fight... We shall fight... We shall fight... until God gives us victory," he said.

Sadat also said he was seeking military coordination

with Syria and Libya, Egypt's partners in the Federation of Arab Republics, and support from other Arab countries for a "long, drawn-out battle" with Israel.

"But the principal force in the battle will be the force of the Egyptian people," he said.

## Fast import

FRENCH-BUILT turbine trains similar to this have been ordered for use for high-speed link between three major midwestern cities. Two of the 125 mph, 304-passenger trains were ordered under a lease agreement. The trains will link Chicago, St. Louis and Milwaukee. (UPI)

## Russ to free prisoners

MOSCOW (UPI) — The government announced Thursday night it will free thousands of petty criminals, but no political prisoners, in a general amnesty marking the 50th anniversary of the Soviet Union.

The amnesty is the first since 1967. This time the government called for the release of "those convicts who proved, through exemplary conduct and conscientious attitude towards labor, that they firmly embarked on the road to correction."

## President at retreat

CAMP DAVID, Md. (UPI) — President Nixon was expected to spend the holiday weekend in seclusion at his mountaintop retreat working on his inaugural address.

He and Mrs. Nixon flew by helicopter to Camp David Thursday after Nixon dispatched Maurice J. Williams, a veteran of disaster relief efforts, to earthquake-shattered Nicaragua. Williams, deputy head of the Agency for International Development (AID), will coordinate U.S. aid to the Central American nation. Deputy White House Press Secretary Gerald L. Warren said Nixon's action "reflects the President's concern for the people of Managua and his desire to insure full mobilization of American resources to assist in relieving the suffering."

The announcement by the Soviet news agency Tass said the amnesty applies mostly to petty crooks and pickpockets guilty of misdemeanors and felonies.

It specifically excluded "those convicted for dangerous state and penal crimes" — murder, rape, banditry, rioting and narcotics selling and prisoners with two or more previous convictions.

Soviet amnesties have been traditional on state occasions since Czarist days, but just as traditionally, they have not applied to political prisoners.

Those benefitting now included first term prisoners serving sentences up to five years who fit at least one of the following categories: expectant mothers, women with children

under 17, women older than 55, persons under 17 when they committed their crime, decorated military combat veterans and men older than 60.

Also pardoned were persons serving terms up to three years, provided they accept jobs offered them by the state.

Soviet citizens have not been enthusiastic over the freeing of petty criminals in previous general amnesties because many of them released in 1953, 1957 and 1967 amnesties went immediately back to their old trades and wound up back in prison.

## What do doctors recommend for patients in pain?

Doctors all over the country dispense over 50,000,000 of these tablets to their patients each year.

There are many medications a physician or dentist can prescribe for pain. Some are narcotic; many are available only on prescription. But there is one pain reliever available without prescription: doctors dispense again and again, Anacin.

Each year doctors give over 50,000,000 Anacin tablets to their patients in pain. If doctors think enough about Anacin to dispense all these tablets, what better recommendation can you ask when you are in pain?

You see, Anacin contains more of the pain reliever doc-

tors recommend most than any other leading tablet.

Headache and dental pain is relieved incredibly fast; minor pains of arthritis are dependably eased for hours; even the aches and pains of colds and flu respond to Anacin. So the tension and depression that can be caused by such pain will be relieved too. And millions take Anacin without stomach upset.

When you're in pain, why don't you follow the practice of so many doctors and take the tablet a doctor might give you in his own office. Take Anacin.

the Gooding Grange Hall

*Abby*

Abigail Van Buren

**DEAR ABBY:** My home is on the verge of breaking up and there seems little I can do about it. If I leave my husband, there will be three teen-aged children without a father, but I see no other solution.

My husband is a professional man with a valuable career. He has admitted to having had sexual relations with a young woman patient 10 years his junior and now he says he's in love with her, but he claims he is also still in love with me. Can this be?

We were married when we were both in college 23 years ago and I still love him. Our sex life has been tremendous, yet he tells me that "in the line of duty" he helped this woman to find her "ego identity" by teaching her how to love.

I can't stay married to a man who would have relations with other women in the line of duty or for any other reason.

'Loves'  
his work

Is this something new in psychotherapy? I can't believe psychologists really believe this will help their patients. What of their own emotional involvements and that of their families?

HEARTBROKEN

**DEAR HEARTBROKEN:** No professional man in his right mind would have sexual relations with a patient. Your husband needs treatment himself and should not be allowed to continue practicing until he has been rehabilitated.

If you love him, don't leave him, but DO insist he see a psychiatrist about his problem. If he continues as he is, he will not only lose his family but his practice as well.

**DEAR ABBY:** I finally found one answer to the age old "I never received a 'thank you' for my gift" problem.

A few months ago, the son of a very close relative was married. Prior to the wedding, the bride-to-be had more showers, lunches, and dinners than most young girls. The gifts she received were very lovely — more like wedding gifts.

Many people were invited to the showers and, of course, to the wedding. So many, many gifts were given to this young couple. To date, not one person has received a "thank you" note.

Rather than bother the bride's mother (or mother-in-law) I called the bride. I figure that if she's old enough to get married, she is old enough to explain why she didn't bother to thank people for their gifts. Also, I wanted to know if mine was received.

Her answer was, "Oh, yes, I got everything, but if I only thank some of the people, the others will get mad."

How would you have responded to that? E. K.

**DEAR E. K.:** I'd have told her that since she thanked nobody, EVERYBODY was mad!

**DEAR ABBY:** We are wondering how many married couples are suffering from a social status game people play when two or three couples get together. It goes something like this:

"We have three cars, two boats, and now HE is talking about buying another snowmobile! How do we get all that in a two-car garage?"

Or, "We spent the weekend at the lake cabin with (your favorite friend) and drove over to this place for dinner. Although the tab was \$83 for four of us, we weren't impressed with the salad."

Abby, are we out of it? Why do people try to outbrag each other? Is this something new in our affluent society?

MIFFED IN ST. LOUIS PARK

**DEAR MIFFED:** No. There have always been people who talk about what they have, where they've been, and what they know. The really worthwhile people talk about ideas and issues.

**DEAR ABBY:** You once gave a definition for "MATURITY" before a high school audience in St. Louis six years ago. What was it?

LOREN D.

**DEAR LOREN:** To be able to stick with a job until it's finished, to do one's job without being supervised, to be able to carry money without spending it, and to be able to bear an injustice without wanting to get even.

Problems? Trust Abby. For a personal reply, write to ABBY, BOX 6700, L. A., CALIF. 90009 and enclose a stamped, addressed envelope.

SUSAN HALL  
... engaged

## June wedding planned

**TWIN FALLS** — Mr. and Mrs. Virgil W. Hall, Pocatello, announce the engagement of their daughter, Susan, to Jerry L. Robinson.

Robinson is the son of Marvin B. Robinson, Twin Falls, and the late Edith R. Robinson.

Miss Hall was graduated from Pocatello High School in 1968 and received her B. S. degree from Idaho State University in dental hygiene in 1972.

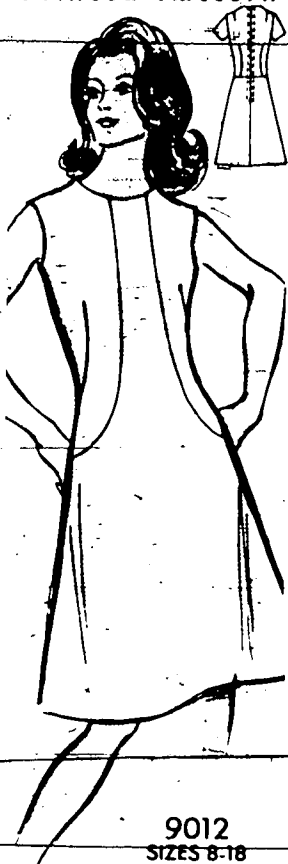

She was active in Gamma Phi Beta social sorority, Order of Diana Auxiliary of Tau Kappa Epsilon social fraternity, Scotch Guard Auxiliary to ROTC, and the American Dental Hygienists Association.

She is employed in Ogden, Utah, as a dental hygienist.

Robinson was graduated from Twin Falls High School in 1960. He will receive a BBA degree in marketing in May of 1973 from Idaho State University. He is a member of Alpha Kappa Psi professional business fraternity, Phi Sigma Kappa social fraternity and an honorary member of Circle-K International. He served as ISU student body president for the 1971-72 school year.

He completed an eight-year obligation in the U. S. Army Reserves in 1967 and was employed by Safeway Stores for six years prior to entering ISU. He was resident assistant at Redfield Hall at ISU from 1968 to 1971. He is currently employed by Westwood Village Safeway parttime.

"Seamed to Slim"

## BSC lists regional graduates

**BOISE** — Boise State College officials have listed the names of area students who applied for graduation at the close of fall semester Dec. 21.

Bachelor of science physical education or secondary education degrees will be granted to G. Ramon Bittner, Twin Falls, and Roberta Day, Mountain Home.

John Lathrop, Mountain Home, will receive a B. A. degree in general business administration.

R. Erick Mikesell, Twin Falls, will receive a B. A. degree in history.

Carylon McMillon, Rupert, has completed requirements for a B. A. degree in social work.

B. A. degrees in elementary education have been earned by Joyce Montrose, Mountain Home; Kathleen Freeman, Buhl; and Clifford Mitchell, Glenn's Ferry.

Robin Hicks and Leland Higginson, both Mountain Home, will receive B.B.A. degrees in general business administration.

Robert Thomas, Mountain Home, will receive a certificate of completion in auto mechanics.

## Valley Briefs

**TWIN FALLS** — Colfax Canton and Auxiliary No. 13 will meet at 8 p.m. Jan. 6 in the Twin Falls IOOF Temple. There will be a short business meeting followed by installation of officers. Members that have uniforms are asked to wear them and each woman is to bring sandwiches or cookies for refreshments. Major Del Bowman and president Alice Bowman will be hosts.

**TWIN FALLS** — Twin Falls Hobbycrafters will meet at Harry Barry recreation building at 11:30 a.m. Wednesday. Members are asked to bring a covered dish, birthday gifts and new ideas.

By Oswald & James Jacoby

Here is a hand from the Swiss teams at the Lancaster Nationals. It doesn't show any particularly bad play but the leading expert who managed to make exactly 10 tricks didn't think much of his play.

We'll let him describe what he did in his own words.

"As anyone can plainly see, five spades is a laydown. All I had to do was win the club in dummy and lead a heart to my king. West would pop on his ace but there would be no way for the defense to stop me ruffing my other two hearts and

winding up with 11 tricks. "I was careless enough to let the club come to my hand. Then I played two rounds of trumps before leading a heart. West took his ace and was mean enough to lead a third trump. "Now I could ruff only one heart. I was in potential trouble so I ducked a diamond in an effort to set up some diamonds for discards. East won and forced dummy with a heart. I played dummy's ace of diamonds, ruffed a diamond, but the suit didn't break and my last heart had become a loser. "Then I played out clubs: they broke and I wound up losing only one IMP because my poor play had just cost me an overtrick, not my contract."

## Peggy returns to SV

**SUN VALLEY** — Sun Valley's Limelight Room will be converted into an ice rink as Peggy Fleming returns to the valley in January.

According to the Sun Valley publicity office, "A Concert on Ice" — recently returned from a nationwide tour — will be presented nightly Jan. 28 through 29.

Miss Fleming will be joined by 20 other performers from the show which combines skating and non-skating acts on a portable, lightweight ice surface, served by its own refrigeration equipment.

Featured entertainers will include Walt Wagner, the Willis Sisters, Eric Waite, Paul Sibley, Mike Nuen and Pairs skaters, Cathy Steele and Willy Biatack.

Producers for the show are Bob Banner and Associates, Hollywood, Calif., who also produced the "Peggy Fleming at Sun Valley" television special.

Additional information or advance tickets may be obtained through the Sun Valley publicity office.

KATHY LASSEN  
... plans rites

## Filer miss sets June date

**FILER** — Mr. and Mrs. Raymond Lassen, Filer, announce the engagement of their daughter, Kathy, to Doug Morrison.

Morrison is the son of Mr. and Mrs. Dale Morrison, Port Orchard, Wash.

Miss Lassen is a graduate of Filer High School and Concordia Junior College, Portland, Ore. She is presently employed by Kellwood.

Morrison is a graduate of Concordia High School and attended Concordia Junior College. He is employed by Tupperware Co. in Jerome.

The couple is planning a June 15 wedding.

## Open house set

**KIMBERLY** — An open house for Mrs. Mary Walker will be from 2 to 6 p.m. Saturday at the Kimberly Christian Church Fellowship Hall on her 83rd birthday anniversary.

Mrs. Walker has resided in this area since 1903 and she requests no gifts. The event is being sponsored by Mr. and Mrs. Gene Walker, Mr. and Mrs. Redford Walker, Mr. and Mrs. Milton Ballard and grandchildren who reside in this area.

## Retiring employee honored

**TWIN FALLS** — Evelyn Humphrey, secretary of City Manager Jean Millar, was honored by city employees Wednesday afternoon.

Mrs. Humphrey is retiring at the end of this week after working for the city of Twin Falls since 1954. She began work as a parttime employee in that year and became a fulltime city worker in 1959, serving in the wa. office until 1963 when she transferred to the city clerk's office.

In 1966 she was named secretary to then city manager Herbert Derrick. Since his resignation she continued in that capacity for Millar.

Joan Bragg has been named to succeed Mrs. Humphrey as secretary to the city manager.

## Winners

**TWIN FALLS** — The Magic Valley Duplicate Bridge Club met Wednesday afternoon at Episcopal Hall.

North and south winners were Mrs. Ace Johnson and Mrs. R. Williams, first; Mrs. John Stoddard and Mrs. Tom Marzocca, second, and Mrs. A. P. Russell and Mrs. A. V. Williams, third.

East and west winners were Mrs. Earl Nielsen and Mrs. H. Munyon, first; Mrs. W. H. Newcomer and Mrs. W. Driscoll, second, and Mrs. L. M. Hall and Mrs. H. D. Fitzpatrick, third.

Next week there will be a membership tournament.

## A Lovelier You

## TEEN TIME FOR BEAUTY

By Mary Sue Miller

It is said that beauty is in the eye of the beholder. Maybe so. But let us hope that a beholder is myopic in the extreme, when it comes to looking at most of us girls when we get ready to retire.

A mass of skin-care goo, no matter how much treatment is needed, can hardly be considered a beautiful sight. And what about a mass of rollers? Or a tangled web of long, hanging locks?

A film of skin-care corrective benefits the complexion quite as much as a mask of wax. The skin can absorb only a small quantity. Overages are wasted on your skin, not to mention your pillow. If you must curl your locks, do cover the devastating process with a pretty cap. Braid long tresses and bow the ends.

Finish with a bit of chap chaser on your lips and a quick brush-groom of your eyebrows. That way you retire a lovely and arise more so. Too, you show consideration for your family that even junior appreciates. If you are a dorm dweller, look around when you return to school. 'Nough said!

Enough, except to remind ump-teens to keep today's message in mind; not for a check on Miss Teen, but on one's own self. 'Really, there is no such thing as part-time beauty.

## YOUR GROOMING—A to Z

Put aside your grooming doubts and worries! Send today for YOUR GROOMING—A to Z, a booklet that covers every step in achieving smooth looks. It tells how to manicure and pedicure, use deodorants and depilatories, bathe for beauty, tend feet, hands, teeth and eyes, polish skin and hair, care for clothes, apply perfume, overcome personal posers. To obtain your copy, write Mary Sue Miller in care of this newspaper, enclosing a long, self-addressed stamped envelope and 25 cents in coin.

## CHOCOLATE MINT

ANGEL PIE  
1/2 cup granulated sugar  
1/2 teaspoon cream of tartar  
2 egg whites  
1/4 cup chopped pecans or walnuts  
1/4 cup semi-sweet mint flavored chocolate bits  
3 tablespoons hot water  
1 teaspoon vanilla flavoring  
2 cups heavy cream, whipped  
Pre-heat oven to 275 degrees.

Sift sugar and cream to tartar together.

Beat egg whites until stiff, but not dry. Add sifted ingredients very slowly, beating continuously until smooth and glossy. Use the mixture to line the bottom and sides of well greased nine inch pie plate, keeping center hollowed out to one-fourth inch thickness. Do not spread on rim of pan.

Sprinkle chopped nuts into meringue and bake for about one hour or until lightly brown and crisp to touch. Cool.

preferably leaving in oven until oven is cool.

Melt chocolate in double boiler, stir in water, cook until thickened. Cool slightly and add vanilla and fold in one cup of the whipped cream. Turn into the meringue shell and chill two to three hours.

Before serving, spread remaining cup of whipped cream over the top.

The Times-News will pay \$5 each week for Magic Valley Favorites. If you have a favorite recipe, just mail it to the Recipe Department, Women's Page Editor. The recipe becomes the property of the Times-News and cannot be returned.

# Charter fete set Jan. 5

TWIN FALLS — A charter B. Howell, Boise. will be presented Jan. 5 to the newly formed Twin Falls Chapter of the Full Gospel Businessmen's Fellowship International. The newly formed group will meet at the Holiday Inn at 7 p.m. to receive the charter from international director, James

## Episcopalians slate pageant

TWIN FALLS — Ascension Parish children will present a pageant for the traditional "Twelve Days of Christmas" Sunday at 10 a.m. "Yes, Virginia," a play based on the famous letter and adapted by Rev. Albert E. Allen and directed by Carolee Walker, will include a retelling of the story of the birth of Jesus. Ascension Junior Choir, directed by Helen C. Allen, will provide music. A party for the children will follow the service. Eucharist will be celebrated New Year's Day at 10 a.m.

## Ira Lancasters honored at Filer

FILER — Mr. and Mrs. Ira Lancaster were honored during the Sunday morning service of the Filer Church of the Nazarene. Rev. Gernie W. Iwerson, pastor, presented the couple with a plaque and gifts from the church. The plaque reads "Our appreciation to Mr. and Mrs. Ira Lancaster, founders of and service to the Filer Church of the Nazarene." According to church history, in the summer of 1937 Mrs. Lancaster contacted Rev. L. D. Smith, pastor of the Twin Falls First Nazarene Church, who then spoke with the district

## Three events

TWIN FALLS — Members of the First Church of the Nazarene, Twin Falls, plan three special events for this weekend. A special night of prayer is planned for members on Saturday. Communion will be served to all believers on Sunday morning. Interested persons need not be members to participate. A festival of music is planned for 7 p.m. Sunday. It will be an all-request musical program. The pastor and people of the First Church of the Nazarene wish everyone a Happy New Year.

## Assembly of God groups set class

TWIN FALLS — The two Assembly of God churches in Twin Falls are sponsoring a series of "training classes" Monday through Friday. Rev. Erick Kaiser of the Salmon-Gibbonsville church will be instructing the classes. Beginning New Year's Day, the classes will be held in the First Assembly of God Church on North Trust Street and Shoup Avenue at 7 p.m.

## Women eye material in Sunday school

WASHINGTON (UPI) — Women, struggling to assert themselves in the life of the church as well as the rest of contemporary life, have to face their own churches' Sunday School material as one of their biggest obstacles, according to a study. While women are becoming presidents of major denominations or interfaith agencies, the study shows much Sunday School material continues to portray women as passive, subservient, weak in mind and dependent on men. Even in Sunday school curricula based on the Bible, the women presented often are either wicked (Jezebel, Delilah, Bathsheba) or passive, humble and acted upon (Ruth, Mary, Jarius' daughter). (Actually, there are many strong, able women in the Bible — Miriam, one of the leaders of Israel at the time of the Exodus; Deborah, a judge of the nation of Israel; the queen of Sheba; Esther, Jewish queen of Persia; and others.) There is no deliberate attempt on the part of males to oppress women, for most of the authors of the Sunday School material are women, the study shows. Most directors of religious education in churches are women. Diana Beach, a research associate for the Joint Educational Development (JED) task force on Family Life and Human Sexuality, concluded that by and large, "the biblical image of women as it is filtered through these materials, is one of moral weakness, passivity, servitude and inferiority." Miss Beach (she really prefers the Women's Lib "Ms.") studied the Sunday School material of several denominations for JED, a joint group made up of the educational boards of the Christian Church (Disciples of Christ), Episcopal Church, Presbyterian Church in the U. S., Reformed Church in America, United Church of Christ and the United Presbyterian Church in the U. S. A. Her results have been published in pamphlet form by John Knox Press.

Cross at angle

CROSS CANTED at an angle and bells dangling from crosspiece are all that remain of Anjo Domingo Church in Managua, Nicaragua. Demolition crews using bulldozers and dynamite already are at work in a 320-square-block contaminated area, finishing the complete destruction that the earthquakes and aftershocks left undone. (UPI)

## Filer United Methodists announce new leaders

FILER — New officers and committee members of the United Methodist Church have been announced. Jacob Tolk will serve as lay leader. Chairmen and their committees include Jack Skinner, council of ministries; Loren G. Drake, work areas and ecumenical affairs; Mrs. Tom Lancaster, education; Mrs. Elsie Hunt, Mrs. Morris Carlson, evangelism; Clinton Dougherty, stewardship. Mrs. Helen Beem and Mrs. Jay Cobb, worship; Mrs. Esther Larson and Mrs. Marie Greenwood, missions and social concerns; Mrs. Ann Fender, age level coordinators and children's ministries; Mr. and Mrs. Jack Pierce, youth ministries. Wayne Lincoln, family ministries; Allen Pierce and Gary Shouse, youth members of council of ministries. Mrs. Nancy Skinner, secretary of enlistment; Morris Carlson, lay member of the annual conference; Loren G. Drake, first alternate; Ruth McDonough, second alternate. R. W. Pierce, John Woody, Margaret Thomas, Dorothy Thomas, Mrs. Warren Stroud, Mrs. Jacob Tolk, Mrs. Ruth Danos, administrative board; Mrs. Jack Ramsey, health and welfare representative. Mrs. Fender, superintendent of the study program; Mrs. Lucille Jamerson, membership secretary; Mrs. Bernice Walter, Mrs. Mabel Brown, honorary members of the administrative board. Carlson, chairman of the pastor-parish relations committee; Mrs. Beem, Mrs. Joan Ingle, Mrs. Helen Martin; Tolk, Mrs. Stroud and Ed Brown; Karen Fender and Ted Sier. Jay Cobb, finances; Earl Crouse, Dougherty, Mrs. Tolk, Mrs. Jessie Olson, Mrs. William Rude, Mrs. Fender, committee on nominations and personnel; Russell Hall, Oren Anderson, Fred Gardner, Clifford Thomas, Ron Ingle, Jack Ramsey, board of trustees. Mr. and Mrs. Crouse, alternates; Minerva Lorain, church treasurer; Mrs. Dougherty, financial secretary; Mrs. Drake, Patricia Fender, Mrs. R. J. Bennett, Mrs. Dorothy Thomas, committee on records and history. Jacob Tolk, trier of appeals; Rev. James Crego, chairman, Mrs. Marian Vincent, Mrs. Rude, Mrs. Tolk, Mrs. Mary Moreland, memorial fund; Cobb, chairman, Ingle, Mrs. Hunt, Mrs. Lena Reichert, Dougherty, Tolk, Ramsey, ministerial scholarship fund committee. Mrs. Paul Hash, church school secretary; Crouse and Dougherty, ushers committee; Drake, district missionary extension representative; Rex Reed, alternate; Hall, Dougherty and Crouse, extra-curricular use of the church committee.

## King Hill sets youth services

KING HILL — The college and high school youth of the community will be in charge of Sunday morning church services. The youth of the area will be in charge of the singing. There will be a coffee hour in Greer Hall following the second service. Terry Parish, a junior at the College of Idaho, Caldwell, and a son of Mrs. William Carnahan, will be the coordinator and guest speaker.

## Churches show signs of starting to snap back

By LOUIS CASSELS  
United Press International  
America's churches showed signs in 1972 of starting to snap back from the religious recession that has brought declines in membership and giving in many large denominations. The official statistics won't be available for many months yet, but the feeling among church officials is that an upswing is underway, which will continue through 1973. That would be a characteristic pattern. Throughout history, public interest in religion — as measured by such indexes as church attendance and contributions — has tended to ebb and flow at irregular intervals. A resurgence of public interest has been particularly noticeable in one field. People of all ages, but especially the young people, are intensely interested in the mystical aspects of religion — including the possibility of directly experiencing the reality of God as an indwelling spiritual presence. Churches have been slow to respond to this hunger for firsthand experience of God, with the unfortunate result that many people have gone running off after spiritualism, witchcraft, and other "occult arts". In 1973, it seems probable churches will take steps to reclaim their birthright as "the Community of the Holy Spirit" — the fellowship in which God makes His presence known in a particularly striking way. Another forecast which can be made with reasonable confidence is that the coming year will see less hassling in churches over "social action." A battle has been under way for years between "liberals" who wanted to convert the church into a social welfare agency and "conservatives" who cared a lot about saving souls but very little, it seemed, about feeding hungry bodies. This internal squabble has been a major cause of demoralization and falling attendance in many churches. Although some contenders doubtless will continue to make a lot of noise, I think the vast majority of church members are fed up with this damaging row. They don't see why a church should be polarized by an "either-or" choice, when it is clear from the Gospels that Jesus was concerned for the welfare of both souls and bodies of men. On one front, the outlook for 1973 is far from bright. The Christian unity movement, which was bowling along with such great promise a few years back, has fallen into the doldrums. And there is nothing on the horizon to suggest it will undergo rejuvenation in the coming year.

## Remodeling begun

BOISE — Construction is underway on a new phase of the international headquarters of the Christian Science Center every denomination in Boston, Mass., and Christian Scientists in Idaho are enthusiastic about the progress being made. Nathan A. Talbot, the Committee on Publication for Idaho, who recently returned from a trip to the Christian Science Center, reports a new entrance designed by I. M. Pei and Partners, Architects, is being added to The Mother Church, The First Church of Christ, Scientist, in Boston. "More than 100,000 people from many lands come to the Christian Science Center every year, and the new open approach and central entrance will make it easier for people to visit The Mother Church," Talbot stated.

# 3-county CAA has new staff

TWIN FALLS — The South Central Community Action Agency hired nine new staff members Thursday night to help get the stalled local anti-poverty effort moving.

The new members are the first to be hired since regional anti-poverty officials told the local agency it had to declare "open hiring", and the local

director and board fired the existing staff members to clean house thoroughly.

Board Chairman Royal Slotten said today the new staffers hired in a six-hour meeting of members of the agency's personnel and executive committee included David Bockman, now working with a community action

agency in Elmore and Ada counties, and John Ricks, a student.

Bockman was hired as a technical resource specialist and Ricks will be the agency's new planner. Both men will receive \$9,400 annually.

Also hired were Loretta Putzier to be the agency's fiscal officer, Marlene Butler as the senior citizens resource specialist and Robert Rodriguez as a community organizer. Both Mrs. Putzier and Mrs. Butler had worked on the old staff.

Also hired were Evelyn Walker, community education aide for Twin Falls County; Nancy Kreft, property officer, and two secretaries, Sally Ann Pett and Sharon Burgman. Mrs. Walker and Mrs. Kreft are also holdovers from the old staff.

But agency director Bob Russell indicated today the agency had already run into problems with one of its appointments. He said Ricks is related to another employee of the agency, which could make his appointment invalid. Russell was awaiting word of the status of the appointment late this morning.

Top priority for the new planner and technical assistance specialist will be to assist in the preparation of two planning blueprints, one governing the agency for the fiscal year beginning in July, and the other a three-year planning outline for the agency. Also needed is a Cassia County health project.

The three-year plan is due for completion by March while next year's study must be finished by April.

Staff hiring was originally scheduled to begin two weeks ago, but some committee members objected because they said newspaper advertisement announcing the staff positions had not been printed bilingually.

## Now you know

Only one person, a convict, is known to have survived the volcanic eruption in 1902 of Mt. Pelee in Martinique, West Indies, which completely wiped out the town of St. Pierre killing about 30,000 persons.

request by Ishmael Scott, Wendell, to unload nitrogen within the city limits for a fertilizer plant.

Mason and Simerly are to study the problems and effects of establishing such a plant, and unloading the nitrogen. They will consult with cities who have such plants and report at the next Jan. 11 council meeting.

According to Scott, who operates Collaer Cropbuilders, the unloading of the nitrogen would be a summer-long process and the odor would be minimal.

# Sale denied at Wendell

WENDELL — The Wendell City Council declined to sell the old Wendell fire station at a regular meeting Thursday night.

Douglas Schrank, owner of the Wendell Department Store, had asked the city to sell the fire station for \$2,000. In a letter to the council he said that he would use it for storage.

The council decided not to sell, saying that the station and property could be more beneficial at a later date.

In other council action Vernon Mason and Harold Simerly were appointed to study a

# Salmon driver severely hurt

TWIN FALLS — An elderly motorist suffered severe injuries in a two-car collision Thursday in the 1600 block of Blue Lakes Boulevard North. William Erwin Baker, 75, Salmon, is reported in fair condition in Magic Valley Memorial Hospital today after suffering fractures when his station wagon collided with a pickup truck Thursday.

The driver of the pickup Charles Ernest Miller, 62, Twin Falls, was treated at Magic Valley Memorial and released. Both Baker and Miller were alone in their vehicles when the collision occurred at about 3:30

p.m.

According to preliminary reports from the Twin Falls County sheriff's office, Baker was apparently pulling onto Blue Lakes from the Ace Hansen Chevrolet parking lot and drove into the path of the southbound pickup.

Citations are pending. The accident remains under investigation.

According to officers at the scene, an unidentified doctor and nurse, traveling in separate vehicles, stopped and administered assistance to Baker and Miller prior to the arrival of an ambulance.

# Roads vary

SHOSHONE — Weather and road conditions were varied in Idaho Highway District No. 2 Friday morning.

Between Burley and Malta, three inches of new snow are reported, with a snow floor on the highway, cloudy and drifting; Cotterel to the Utah State line, broken snow floor, snowing and drifting.

Fairfield, icy spots and fog; Hailey, icy spots and cloudy; Galena to Stanley, snow floor and clear; Arco to the NRTS center, drifting, and in the Shoshone area a few icy spots, clear and sunny.

Expressed as micrograms of particulate matter per cubic meter of air for the 24 hour period ending at 8 a.m. today. Readings were taken in Twin Falls by the South Central Health District staff.

Federal recommendations call for levels below 75 for any 24 hour period and below 260 for even a short period of time.

## Dispersion:

Today: Excellent

Tonight: Good

Sat.: Good

An Idaho Department of Health prediction of the ability of the atmosphere to disperse pollution.

# Highway break-up early

SHOSHONE — Highway break-up is starting early this year as a result of the severe cold followed by rain and warmer temperatures.

Howard Johnson, district engineer, Idaho Department of Highways, said the break up of paved surfaces has started throughout the district with the low areas and most heavily traveled roads suffering the most.

Some minor spots are showing up on interstate roadways, he said, but the older highways are the hardest hit.

Johnson said the department will be making temporary patches as best it can until spring conditions permit permanent repairs.

Driving conditions will depend entirely on the weather, he said, and as yet it has not been necessary to impose any load limits. Again, depending on the weather and extent of the break up, load limits will be withheld, Johnson said.

# Break-in probed

HAILEY — Investigation is continuing today into a break-in at the Hailey Post Office.

According to Hailey Police Chief Doug Williams, whose department investigated the incident jointly with the Blaine County Sheriff's office, the break-in occurred sometime between Sunday morning and Monday morning.

Williams said entry was allegedly made by removing a panel and molding underneath a window on the north side of the building. Unsuccessful attempts were apparently made to break into two drawers, he said.

Nothing was reported missing from the building.

# Cassia school bus damaged

ALBION — A Cassia County school bus sustained \$3,000 damage in a single vehicle accident Thursday afternoon.

State Patrolman DeLon Jones said the accident occurred at 12:20 p.m. three miles south of Albion on Highway 77.

Jones said the driver of the bus, Arnold Hirsch, Rupert, was traveling north when he lost control of the vehicle and veered into the southbound lane and skidded across road and into the east borrow pit.

The large vehicle came to rest on its side. At the time of the accident there were no passengers in the bus, officers said.

Hirsch suffered only a minor ear laceration. He was cited for driving at a speed too fast for existing road conditions.

In another accident late

Thursday, two Twin Falls television employees escaped injury when their four-wheel drive vehicle skidded on ice on the mountain road to Pomerelle Ski area and rolled over several times.

Deputy Sheriff Don Taylor said the two reported the accident but no investigation was made as the two escaped injury and were brought out before the report was made.

Richard Tuininga and J. J. Alexander escaped injury but Tuininga said today the station wagon they were driving is still lying below the roadway where it rolled.

He said they were returning from Pomerelle where they had gone to watch some "hot dog" skiers, one of several news events they were covering in the area Thursday.

# Filer drawing

FILER — The Filer blood Main St. Quota for the drawing drawing for the Twin Falls is 75 pints.

Filer residents have not made the quota in the last few drawings according to Red Cross officials, and are encouraged by them to help put Filer over the quota this time.

Dr. Wayne B. Carte will be attending physician at the drawing which will be in the Filer American Legion Hall, 205

# Snowball specials for SV

SUN VALLEY — Three "Snowball Specials" will roll this winter from Los Angeles to Sun Valley.

According to Wes McDorman, manager of Sun Valley Travels, the three trains will arrive in Ketchum on Jan. 13, March 3 and March 10.

The second train is expected to be the largest with about 300 passengers. All the trains will exceed 250 passengers, McDorman said.

Three other trains — including two from the Seattle-Portland area — were planned, McDorman said, but failed to draw an Amtrak set minimum of 250 passengers per train.

Those passengers will be transported by air, with departures scheduled from Seattle and Portland on Jan. 20 and March 17, and departure from Los Angeles on Jan. 6.

News Tips  
733-0931

## Vehicles collide

# Sewage systems headline Lincoln news for '72

SHOSHONE — Sewage collection and treatment systems for Shoshone and Richfield headlined Lincoln County news in 1972.

Problems encountered during construction and the process of funding the two systems were the main news items arising from the projects. Neither city has previously had sewers.

City clerk Mrs. Claude Chess, Shoshone, said the cost of Shoshone sewer to date is \$636,440.38 and this may be altered to a little higher figure

before final tabulations are in. City clerk Mrs. Ruth Swainston said cost of the Richfield system is running about \$336,000.

C. W. Ward, Richfield, said cost of the new cheese plant there will run over one-half million dollars.

At Richfield, three new homes ranging in cost from \$20,000 to \$30,000 each are being built at this time.

"This is the first year in many that any new homes have been built in Richfield," Mrs.

Swainston said, though there has been the usual remodeling and upkeep on existing homes.

Mrs. Chess said the city of Shoshone has issued 406 sewer connection permits out of the possible 500. Some residents are waiting until spring to make the connections due to weather interfering with the digging of trenches and laying pipes.

However, all went on a paying basis on Oct. 1.

The city of Shoshone also expended \$4,041.31 for new street lights to match those

installed with construction of the new roadway to the edge of the city on South Rail Street by the Idaho Highway Department.

Shoshone, too, had an upswing in building of residences during 1972, with four completed, one under construction, permits issued for another three and two other persons indicating they plan to build on lots they have recently acquired.

The homes range in price from \$12,800 to \$80,000, to total more than \$98,500 for those built

and having secured permits to build.

Remodeling was up in Shoshone, also, to a figure of \$40,575, and new garages for residences built cost about \$2,500.

During 1971, there were no new homes built, Mrs. Chess said, and remodeling was estimated to be about \$35,000.

Real estate broker Harrell Thorne estimates that considerably more farm and residential property has sold in Lincoln County during 1972 than

in any other year in the history of the county.

Ranches sold range in value from less than \$50,000 to over \$100,000 and both new and older homes have sold at a good market price.

In addition to the homes built, a number of persons have purchased and moved new trailer homes into the city limits. These range in price from near \$20,000 to about \$10,000 each.

Final payment was made by the Shoshone First Baptist

Church on their new building and at Dietrich the LDS Church carried out a remodeling program.

Also at Dietrich, among other remodeling projects and farm sales, Mr. and Mrs. John Stoker will build a new home as soon as weather permits this spring.

One new home was completed at Dietrich, that of Mr. and Mrs. Semi Astle.

At least two new homes have been built on farms in the North Shoshone area, those of Mr. and Mrs. William Harris and Mr. and Mrs. Kenneth Thorne.

# N.C. State sends frosh against West Virginia

ATLANTA (UPI) — Dave Buckley, a slender 18-year-old who says "yes sir" and "no sir" to his elders, will be the man on the spot when North Carolina State takes on West Virginia tonight in the fifth annual Peach Bowl football game.

Bruce Shaw, the starting North Carolina State quarterback, is sidelined with a cracked bone in his left arm and Buckley, a freshman, will be guiding the potent Wolfpack offense.

Coach Lou Holtz of North

Carolina State made the decision Thursday after watching Shaw try to handle the ball with a cast on his arm.

"Bruce Shaw is out of the game," he told newsmen. "He will dress but I see no way, possible that he would play."

Buckley, a blond 155-pounder from Akron, Ohio, has appeared in 10 games for the Wolfpack. He threw 60 passes and completed 36 and also ran for 246 yards.

"I don't like going with a freshman in a game as big as this," said Holtz. "But if I had

to choose one freshman quarterback to play in a game like this, it would be Dave Buckley."

The game figures to be a shootout. West Virginia, coached by Bobby Bowden, averaged more than 36 points a game while posting an 8-3 record while North Carolina State averaged just under 33 points per contest in a 7-3-1 season.

Senior Bernie Galiffa, the quarterback of the Mountaineers, passed for 2,312 yards and 16 touchdowns. He is the nephew of former Army

quarterback Arnold Galiffa.

The Wolfpack averaged 432 yards a game in total offense, gaining 2,472 rushing and 2,286 in the air.

Weather has been terrible in the first four Peach Bowl games but the forecast for tonight is for mild temperatures, partly cloudy skies and no precipitation.

Bowden doesn't believe it. He was at the 1969 Peach Bowl as an assistant coach when West Virginia beat South Carolina in a downpour.

"We've already instructed our captains that if we win the toss, we'll take the tide," he observed to newsmen Thursday.

Everyone predicts a high-scoring contest, although both coaches feel their defensive units are better than their records indicate. Holtz feels 34 points could win the game.

"You give us 34 points and we won't even snap the ball," he told Bowden. "We'll just play defense."

Bowden said he was concerned that the North Carolina State team would be mentally "up" for the game after losing its starting quarterback.

"I imagine they'll rally behind Buckley," he said. "We're very impressed with Buckley anyway."

Cracked Holtz, "We wouldn't play him if I didn't have a five-year contract, I guarantee you that."

Each school will have more than 12,000 of its fans in the stands and if decent weather prevails, attendance will be close to the Atlanta Stadium capacity of 58,000. The game is played for charity with profits going to the Georgia Lions Lighthouse Foundation.

## Burley, Jerome set tilts

The Burley Bobcats and Jerome Tigers take Magic Valley's basketball banner out of district Friday night and those two clubs provide the only action of the holiday weekend.

Burley, running 2-4, will be at Boise Friday night; the Braves being one of two clubs the Bobcats have defeated this year Saturday evening Burley returns home to play one of the best in the state, the Highland Rams.

Meanwhile, Jerome will take on Ontario at 7 p.m. Friday in the first round of the NNC holiday tournament in Nampa. The winner of that one will go against the Baker-Payette winner for the title Saturday night.

That will take Magic Valley teams into the new year. On Tuesday, Buhl will be at Gooding, Oakley at Hansen and Raft River at Declo. Wednesday Minico gets back into action by traveling to Idaho Falls.

The announcement of the fight came just two days after Lyle, who has won 19 straight fights since turning pro, including 17 knockouts, was named World Boxing Association (WBA) fighter of the year.

Quarry, 27, must first get past Randy Neumann of New Jersey in a Jan. 5 Garden bout. Quarry, who announced his retirement from the ring after suffering a technical knockout at the hands of Muhammad Ali June 27, asked for the warmup bout before meeting Lyle.

Leishman dies

SAN DIEGO, Calif. (UPI) — Edwin W. "Eddie" Leishman, the man who engineered the success of the minor league San Diego Padres and who later was general manager of the major league Padres, died Thursday of cancer.

Leishman, 62, had undergone gall bladder surgery earlier in the year and had been treated for pneumonia.

DUCKING UNDER the defensive efforts of Mel Utter (20) of St. John's, Michigan's Joe Johnson starts a drive. St. John's, on a last-second jump shot, upset 17th-ranked Michigan 85-83 to gain the ECAC tournament finals. (UPI telephoto).

## Making the move

## St. John's stuns Michigan, meets S.C. for ECAC crown

NEW YORK (UPI) — Seven-foot Danny Traylor, who saves his best games for Manhattan College, scored 21 first-half points and freshman star Alexander English took over in the second half Thursday night to spark 19th ranked South Carolina to a 79-69 victory over St. John's in the first round of the 21st annual Holiday Festival Basketball Tournament.

St. John's upset 17th ranked Michigan 85-83 in the other semifinal contest on Bill Schaeffer's 15-foot jump shot with one second left to play.

The Saturday final will pit South Carolina coach Frank McGuire against one of his former players, coach Frank Mulzoff of the Redmen.

In earlier consolation games, Niagara converted six consecutive one-and-one free throws in the final 33 seconds to nip Tennessee 66-62 and Villanova edged Boston College 65-63 on Tom Ingelsby's two foul shots with four seconds remaining.

Traylor, who scored a career-high 37 points against Manhattan last season, hit on eight of 12 shots from the floor, grabbed 11 rebounds and blocked five shots in the first half as South Carolina jumped to a 37-25 lead.

However, English and senior Kevin Joyce picked the Gamecocks up down the stretch with 12 remaining.

Michigan's awesome 1-2 punch of Henry Wilmore and Campy Russell combined for 41 points and brought the Wolver-

the freshman forward contributing six points in the last 3:23 and Joyce adding four. English scored 14 of his 16 points in the second half while Joyce tallied 11 of his 16 in the second stanza. Traylor finished with 25 points to lead all scorers.

Schaeffer, who scored 22 points, got his dramatic final basket after St. John's had called timeout with 33 seconds remaining in order to set up a last shot with the score tied at 83. Mel Utley dribbled the ball for 20 seconds and fed off to Schaeffer at the top of the key with two seconds remaining.

Schaeffer's shot hit the front of the rim, bounced up, and went in as the Madison Square Garden partisan crowd erupted with cheers.

St. John's, trailing by six points with 5:18 left to play, rallied to tie the score at 83 on a tip-in by Ed Searcy with 1:32 remaining. The score was tied 45-45 at halftime and was knotted 10 times in the second half.

Michigan's awesome 1-2 punch of Henry Wilmore and Campy Russell combined for 41 points and brought the Wolver-

ines to a 79-73 lead before the Redmen rallied. Wilmore finished with 21 points while Russell had 20 points and 16 rebounds.

## Goal tending call carries

## Indiana past Houston 75-72

EL PASO, Tex. (UPI) — A Houston Olympian Dwight Jones with 94 seconds remaining led to a 75-72 Indiana victory in the opening round of the 12th annual Sun Bowl Basketball Tournament Thursday night.

## K-State, Sooners post Big 8 wins

KANSAS CITY, Mo. (UPI) — Steve Mitchell and Larry Williams combined for 40 points Thursday night as 11th-ranked Kansas State thundered past Kansas 91-70 in the first round of the Big Eight Basketball Tournament.

Mitchell had 21 points for the Wildcats and Williams added 19 to lift Kansas State to 8-1 for the season. The Wildcats got the spark they needed at the opening of the second half when Danny Beard hit three straight buckets.

Rick Suttle had 22 points for Kansas, 4-5. Oklahoma edged stubborn Oklahoma State 69-62 in overtime in the opening contest.

## Stanford and Tech gain meet finals

NORFOLK, Va. (UPI) — A late rally by Virginia Tech gave the Gobblers an 81-80 victory over Old Dominion University Thursday night and the right to meet Stanford for the Old Dominion classic title Friday night.

Stanford earlier beat Navy, 67-61, in the other first round match of the tournament.

A 22-foot shot by Tech's forward Craig Lieder with 1:39 left in the game proved the decisive basket and the final scoring in the contest. Earlier, Tech rallied from an eight-point halftime deficit of 41-33 as the Monarchs began to falter. Lieder scored eight of Tech's

ing led to a 75-72 Indiana victory in the opening round of the 12th annual Sun Bowl Basketball Tournament Thursday night.

The host Texas-El Paso Miners defeated Southern Methodist 71-55 in the opening game. UTEP and 14th-ranked Indiana will battle in the title game Friday night with Houston meeting SMU in the consolation match.

The goaltending call against Jones credited Jerry Memming with his third basket of the night and pulled the Hoosiers from behind to a 73-72 lead. Houston then rushed down court and missed a basket.

Indiana came up with the rebound and held to six seconds when freshman Jim Crews hit two free throws to clinch the game.

Louis Dunbar led the Cougars with 32 points and John Ritter hit 22 for Indiana, 6-1 Houston is 2-2.

After a close first half, the Miners took the advantage on a corner shot by Gus Bailey and followed with a Bailey-led fast break for a four-point halftime advantage, 38-34.

The Mustangs were cold at the beginning of the second half and did not score for the first four minutes. During that time the defending champion Mustangs built a commanding 12-point advantage and SMU never trimmed it to less than 10.

UTEP's biggest lead, 16 points, came with seven minutes left on a jump shot by Brewster.

Bailey finished with 22 points and teammate Ed Lyman added 13 for the Miners. Ira Terrell paced SMU with 17 points.

Also in double figures were Ruben Triplett with 13, Sammy Hervey with 11 and Jimmy Murphy with 10.

UTEP boosted its record to 2-2 while SMU fell to 2-4.

# BYU nips A-M on jump shot at gun

OKLAHOMA CITY (UPI) — Brigham Young forward Belmont Anderson hit a jump shot with one second remaining Thursday night to give the Cougars an 83-81 victory over Texas A&M in the final opening round game of the 37th annual All-College Basketball Tournament.

The game was close throughout, with the lead changing seven times in the first half, which ended with BYU ahead 35-32.

Doug Richards sank two

charity tosses near the end of the second half and Aggie Chuck Tone came back with a long jump shot to tie it 79-79. The teams exchanged another basket apiece, and BYU stalled until the final second when Anderson hit the winning field goal.

Anderson had 26 points to lead all scoring and Joseph paced the Aggies with 19 points.

The win gave the Cougars a 7-1 season record and Texas A&M came out with a 4-3 mark.

In the night's opener, the top-

seeded Florida State Seminoles defeated Penn State 70-60.

The Seminoles jumped to a 15-7 lead, outscoring the Nittany Lions 14-2 at one point, but could not shake off the Penn State attack under the basket. The Lions trailed by only four points at the half.

Florida State's biggest lead came with 8:02 left when the Seminoles were in front, 60-46.

Ron Brown led the Lions with 15 points and four players in all hit in double figures for Penn State.

# Redskin coach unconcerned about Staubach's starting

WASHINGTON (UPI)—Washington Coach George Allen didn't even wait until it was official to declare he couldn't care less that scrambling Roger Staubach would quarterback the Dallas Cowboys against the Redskins Sunday in the National Football Conference championship game.

Even before rival Coach Tom Landry announced Staubach would start instead of Craig Morton in the battle for a Super Bowl berth, Allen told reporters: "I don't care which one it is. We're ready for either."

Earlier in the week, the Washington coach had predicted Staubach would be Landry's pick because of his fourth period heroics which lifted the

Cowboys to a last-ditch 30-28 victory over the San Francisco 49ers and kept alive Dallas hopes of retaining the Super Bowl title.

The winner of Sunday's 3 p.m. EST confrontation between Washington (12-3) and Dallas (11-4) will head for Super Bowl VII against the winner of the Pittsburgh-Miami battle for the American Football Conference crown.

Some of Allen's players were less unconcerned about Landry's substitution of Staubach for Morton. Defensive tackle Bill Brundage pointed out "it makes a difference when you have a scrambling quarterback. You have to think quicker and better. You have to run faster

too."

Morton was at the Dallas helm in the two regular season meetings between the heated rivals.

In the first, he pitched the Cowboys to a 20-7 lead in the third period only to see now-injured Sonny Jurgensen rally the Redskins to a 24-20 victory.

In the second, the Cowboys rolled to a 28-3 halftime lead and then held on for a 34-24 margin when a Redskin comeback led by quarterback Bill Kilmer fell short.

Washington's top runner, Larry Brown, worked out gingerly in Thursday's secret practice. The squad was reported healthy except for second-string back Bob Brunet who was sidelined with flu.

Which sport?

PLACE KICKER? Wyoming's Rod Penner (32) appears to be coming in to kick the ball held by Texas Christian's John Hurdle during Far West Classic action Thursday night. Wyoming won 54-53. (UPI telephoto).

# Oregon State, Wyoming gain Far West meet's semi-finals

PORTLAND, Ore. (UPI) — Oregon State used its speed, height and shooting power Thursday night to run away from Baylor 88-54 and gain a spot in the semifinals of the 17th Far West Classic.

The Beavers will face Wyoming Friday night. Wyoming withstood a second-half scare from Texas Christian to escape with a 54-53 victory over Texas Christian in the other opening-round game Thursday night.

Oregon State, 6-2 on the year, trailed early in the game but outscored the Bears 23-6 in a 10-minute span midway through the half to produce a 31-17 lead.

Connecting on 12 of their first 15 shots, the Beavers ran off with a 44-30 halftime lead.

Sparked by guard Charles Neat who led a fastbreak, the Beavers literally ran Baylor into the hardwood. Center Neal Jurgenson and forward Sam Whitehead combined for 38 points, most from inside, to pace the Beavers.

Oregon State managed a 60-35 rebounding edge with Jurgenson grabbing 10.

Jurgenson led all scorers with 22 points followed by Whitehead with 16. Jerry Ahart topped Baylor with 10.

Oregon and Minnesota will meet in the first semifinal game Friday followed by Wyoming-Oregon State.

Baylor will face Southwest Conference rival Texas Christian in a Friday consolation game, following a match between Washington State and Columbia.

The Cowboys, who had managed a 31-24 lead after a sloppily played first half, watched as the Horned Frogs began their comeback early in the second half, outscoring Wyoming 9-0 in a six-minute span to pull within four, 39-35.

TCU finally evened the game 51-51 with 2:15 remaining on a

jumper by Lynn Royal. Wyoming, however, moved ahead 54-51, and then watched two TCU winning attempts fall in the last 15 seconds.

TCU picked off a deflected Wyoming pass and with 12 seconds remaining, Royal was fouled. He missed the free throw, however, and Wyoming rebounded.

With seven seconds remaining, Royal stole another Wyoming pass, but guard Bill Mullen's 30-footer with three seconds remaining fell short. Wyoming again rebounded and held on for its fifth victory of the year against two losses.

TCU fell to 1-4 record.

Ron Crowell, who scored 15 points in the second half, paced Wyoming with 21 points. Royal was high for TCU with 16.

# Quaker City tournament to have all-Philadelphia final

PHILADELPHIA (UPI)—Pat McFarland and Mike Bantom each scored 20 points Thursday night as St. Joseph's outlasted Duquesne, 76-74, to set up an all-Philadelphia final in the ECAC Quaker City basketball tournament.

The Hawks will meet LaSalle in the championship game Saturday night, while Duquesne plays New Mexico State for third place.

LaSalle, paced by senior Jim Crawford's 30 points, gained the final by dumping New Mexico State, 76-70, in an earlier game.

Duquesne battled back to tie the game at 66-66 after trailing by 14 points with 10:43 left in the first half. McFarland then hit a jump shot and his team got another two points on a

goaltending call to lead, 70-66, with 3:48 left.

Duquesne twice came within two points, the last time at 72-70 with 2:02 left to play, but Mike Moody made a basket and McFarland two free throws to clinch St. Joe's victory.

Jack Wodjowski and Oscar Jackson had 22 points apiece for Duquesne, now 5-2. St. Joseph's is 5-3.

In consolation play, Tim Bassett's all-around play helped Georgia rally in the second half for a 70-62 victory over Rhode Island. The opening round of consolation play saw sophomore Gus Williams score 23 points to lead Southern California to a 70-55 romp over Princeton.

Crawford missed his first two shots of the game, but then came back to sink his last 11 as LaSalle held off a desperate New Mexico State rally that cut the Explorers' lead to four points with 3:13 left.

LaSalle, leading 63-59, then scored seven straight points to put its record at 7-2.

**Baltimore nips Hawks 112-111**

ATLANTA (UPI)—Baltimore rode a hot streak by Mike Riordan to a 112-111 victory over Atlanta Thursday night to maintain first place in the NBA's Central Division.

Riordan scored 16 of his 26 points in the first seven minutes of the fourth quarter to build a nine-point lead for Baltimore, 104-95. The Bullets then had to weather a furious Atlanta rally in the final two minutes.

The Hawks got four points each from Herm Gilliam and Lou Hudson to close the gap to 110-109 with 18 seconds left. Atlanta came up with a loose ball but Pete Maravich missed the shot and with five seconds left Phil Chenier iced the game for Baltimore.

**Wake Forest, Citadel win**

CHARLESTON, S.C. (UPI)—Brown beat The Citadel, 67-60, and hot-shooting Wake Forest ripped Tulane, 95-88, Thursday night in the opening round of the Palmetto Invitational.

The victory put the Rhode Island team into the championship game Friday night against Wake Forest while the Bulldogs meet Tulane in the consolation match.

The Bruins capitalized on the miserable shooting exhibition by The Citadel—37.6 per cent from the field—to win their fourth game of the season.

**Bucks bounce Detroit 115-91**

MILWAUKEE, Wis. (UPI)—Kareem Abdul-Jabbar and Bob Dandridge combined for 73 points Thursday night to lead the Milwaukee Bucks to a 115-91 National Basketball Association win over the Detroit Pistons.

Abdul-Jabbar, the second leading scorer in the NBA with a 29-point average, unloaded 44 points and Dandridge added 29. Dave Bing, with 28 points, was Detroit's high scorer.

The game was close throughout the first half and the Bucks carried a slim 49-45 advantage into the locker room at intermission. But Milwaukee outscored Detroit 11-1 during a stretch midway through the third period to open a 12-point lead and the Pistons never threatened seriously after that.

# ABA leaders strengthen positions

By United Press International

Utah and Carolina strengthened their respective division leads in the American Basketball Association Thursday night.

Utah, with Glen Combs hitting on 10 of 13 field goal attempts, demolished the New York Nets 128-90. The triumph was the 12th in the last 13 games for the Stars who opened up a three game lead over both Indiana and Denver in the West.

Carolina, behind Billy Cunningham's 32 points, helped Utah by trimming Indiana 120-106 as the Cougars posted their fifth straight victory and moved one game ahead of second place Kentucky in the East.

In the only other ABA game, the Virginia Squires used Julius Erving's 32 points to defeat Dallas 124-117.

In addition to Combs' 26 points, four other Utah players scored in double figures, with Willie Wise adding 24, Ron Boone and James Jones 18 each and John Beasley tossing in 16. Brian Taylor's 20 points led the

Nets who lost for the 14th time in the last 17 games and now reside in last place in the East.

Cunningham scored 14 of Carolina's 35 first quarter points and the Cougars were never headed. Tom Owens had 19 points and Mack Calvin added 17 for Carolina while George McGinnis paced Indiana with 24.

Virginia, trailing by three points, at halftime, outscored Dallas 44-26 in the third quarter. Bernie Williams was second high scorer behind Erving for Virginia with 21 points while Rich Jones and Joe Hamilton led Dallas with 21 each.

Carroll Righter

FORECAST FOR SATURDAY, DECEMBER 30, 1972

**GENERAL TENDENCIES:** Whatever is worldly in its nature can be handled well today. The evening finds you able to investigate and to uncover answers for which you have been searching. Plan to have a greater amount of the things that are vital to your interests.

**ARIES (Mar. 21 to Apr. 19)** Talk with bigwigs on how you can improve your position in life. Many situations arise during the weekend that can help to make your future much brighter. Don't argue over trifles. Be wise.

**TAURUS (Apr. 20 to May 20)** Find out just what it is that associates expect of you during the day, and then do whatever will improve your image with the public in the evening. Make sure contractual deals are effective.

**GEMINI (May 21 to June 21)** Get busy with end-of-the-year duties that are important so you have a clear slate for the new year. Plan for greater success and happiness. Strive for the confidence of co-workers.

**MOON CHILDREN (June 22 to July 21)** Plan to get your home in finer condition now so that the New Year starts on the right note. Buy a nice gift for your mate. Attending a social affair together can prove enjoyable.

**LEO (July 22 to Aug. 21)** Compromise may be necessary if you are to gain your aims at home which means a great deal to you. Improve the whole fundamental structure of your life. Get rid of a feeling of bitterness.

**VIRGO (Aug. 22 to Sept. 22)** You can attend to those duties that require clever handling and get good results. Buy whatever will make you more comfortable in the place where you reside. Settle any pending problems.

**LIBRA (Sept. 23 to Oct. 22)** You know how to handle a monetary matter very intelligently now, so attend to this as early as possible and add much to present assets. Attend a social affair tonight that pleases you and mate.

**SCORPIO (Oct. 23 to Nov. 21)** Getting together with good friends and planning mutual affairs in right directions is wise today. Make the months ahead very productive. Accept invitation to attend the social tonight.

**SAGITTARIUS (Nov. 22 to Dec. 21)** A good day to analyze just how far you have progressed toward your finest aims and what to do in the New Year for greater advancement. Find the right means through which to be more efficient.

**CAPRICORN (Dec. 22 to Jan. 20)** A different approach at personal aims is important and your good friends can be very helpful in this. Attend the right social gatherings and make big headway. Show more devotion to mate.

**AQUARIUS (Jan. 21 to Feb. 19)** Be sure you go through with promises you have made to others, particularly those who are influential. Add to your image by getting involved in civic work. Make a bigger name for yourself.

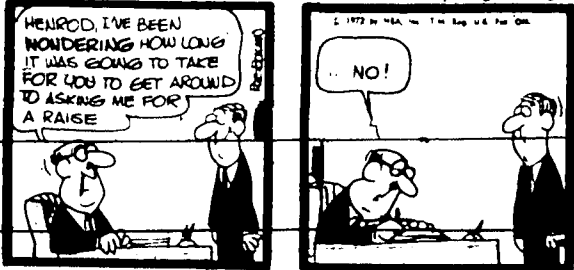

**PISCES (Feb. 20 to Mar. 20)** You can now get out of that dull routine that is comfortable but not getting you very far. Make new contacts and look into new outlets. Do some studying that can prepare you for bigger things.

**IF YOUR CHILD IS BORN TODAY** he or she will be one of those delightful young people who is very magnetic. Teach the finest philosophy of life so that your progeny will achieve a great deal along right lines and not go off on tangents that would bring an unhappy life instead of a successful one. Help your youngster adopt a give-and-take attitude toward others. Sports are a must here.

"The Stars impel, they do not compel." What you make of your life is largely up to YOU!

# What's What

L. M. Boyd

When a childless couple decides to adopt a baby, more often than otherwise they say they want a girl. Why is that? Asked a lady adoption expert about this matter, and she said: It's usually the wife more so than the husband who longs for an infant. She wants a companion in the home. As for the husband, he's generally not certain the youngster will turn out to be a credit to him, but he knows a girl will marry, so eventually will give up his name.

**ALL YEARS THAT** are divisible by four are leap years. Except those years that end in two zeros. Like A.D. 1900. That wasn't a leap year. Wait, there's an exception to the exception. Those two-zero years that are divisible by 400 are leap years, after all. Pretty complicated. Will run more on this matter in the year A.D. 2000, which is divisible by 400, so will be a leap year.

BREAST FEEDING

A pollster checked out numerous mothers who had breast-fed all their children. Typically, in each family the first-born baby was nursed just about twice as long as the last-born.

**SIGN** at a railroad intersection near Colorado Springs reads: "Average time it takes a train to pass this crossing is 14 seconds, whether your car is on it or not."

**WOMEN LIVED ABOUT** a year longer than men on the average 50 years ago. Today they live about seven years longer. Do you have a theory as to why?

**THAT HUSBAND** who was a mama's boy usually likes his wife to wear her hair long. Such is the observation of an authority on hair care.

**DO NOT CONTEND** there's anything philosophical about that flower called the pansy. Contend only it gets its name from the French word for "thought."

ANIMAL WORLD

When prairie dogs put together a village, they clear out all the foliage within 30 maybe 40 yards in every direction. And post sentries. It's like a No Man's Land. No predator can creep close enough unseen to hit. I swear, the animal world is at war, always.

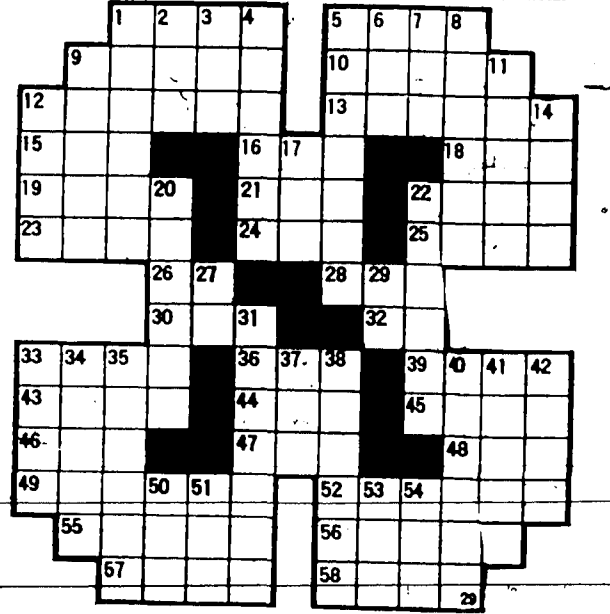

**NO, BETTER PUT** the best tires on the rear wheels, not the front, after all. The National Bureau of Standards says so. Its most recent research indicates rear tire failures cause more smashups than front tire failures. Surprising.

**THE SCOTSMEN** of old had a variation of what we now call a handshake agreement. They employed something they referred to as a "by thumb" contract. Whatever the deal, when two parties agreed on terms, they pushed their thumbs together. That did it. The understanding was not to be violated.

MAJOR HOOPLE

# Market Review

**NEW YORK (UPI)** — Prices boomed higher in typical year-end fashion Friday on the New York Stock Exchange. Trading was heavy.

The Dow Jones industrial average was up 10.68 at 1,018.36 shortly before noon. Advances outnumbered declines, 923 to 422, among 1,714 issues across the tape. Two-hour turnover amounted to more than 12 million shares.

American Telephone & Telegraph warrants were most actively traded and up 1/4 to 9 on volume of 208,600, including a block of 110,000 at 9. Skyline Corp. was second, up 1 1/2 at 31 on 172,600 shares, and Champion International preferred third, up 1/4 at 23 1/2 on 122,160 shares.

Prices were slightly higher in heavy trading on the American Stock Exchange. Champion Home Builders was the most active Amex issue, up 1/4 at 13 1/2 on 65,000 shares. Rapid American warrants, up 1/4 at 5 1/2 on 26,100 shares, and Kaiser Industries, off 1/4 at 6 on 23,200 shares, followed.

Many electronics, computers and glamours paced the Big Board rise. Texas Instruments gained 3 1/2, IBM 3, Burroughs 2 1/2 and General Electric, Westinghouse, Motorola and Honeywell around a point. Westinghouse received an order from Carolina Power & Light for a gas turbine.

*icers*

The next regular meeting will be at 8 p.m. Jan. 9 at the IOOF Hall and joint installation of officers will be held with the Odd Fellows Lodge on Jan. 16. A social hour was held after the meeting this week and members enjoyed home-made cookies, favorite Christmas recipes of each.

Arraigned Thursday on charges of second degree kidnaping, unlawful imprisonment, coercion and second degree assault were Thomas Hagen, John Mitchell, Ernest R. ...

treasurer, Kenneth Crothers, secretary.

Delmas Carraway, senior deacon; Howard Johnson, junior deacon; Arthur Biswell, marshal; George Young, senior steward; Frank Finlayson, junior steward; J. J. Lockie, Tyler, and John Conway, chaplain.

A reception following the installation featured

He received instruction in the use of various kinds of weapons, maintenance of armor vehicles, map reading, communications, artillery adjustments, and mines and demolitions.

Pvt. Black entered the Army in July.

He is a 1972 graduate of Jerome High School.

# TF native leads eco research

TWIN FALLS — A Twin Falls native will coordinate the first ecosystem research by the U. S. Forest Service Intermountain Forest and Range Experiment Station, Ogden, Utah.

The coordinator will be Charles A. Wellner who will work with the University of Idaho and Washington State University as well as the U. S. Forest Service.

Objectives of the program, forest service officials say, are aimed toward developing ecological knowledge of the cedar-hemlock ecosystem which characterizes many of the timber stands in northern Idaho, eastern Washington and western Montana.

Robert W. Harris, director of the Intermountain range experiment station, said the information is needed by land managers trying to evaluate the particular environmental consequences of alternative management practices.

Wellner has firsthand knowledge of the northern Rocky Mountain wildlands,

Harris said. His professional career following graduation from the University of Idaho in 1933 has been devoted to research in the region.

He served as a forest research specialist on silvicultural work in the cedar-hemlock white pine forest of northern Idaho and adjacent states from 1934 to 1948 and supervised 10 to 15 scientists working the USFS Inland Empire Research Center, Spokane, Wash., from 1948 to 1958.

In 1958 he was transferred to the Intermountain region, Ogden, where he served as assistant director administering 13 research work units in timber management, insect and disease studies headquartered in Boise, Moscow, Logan, Missoula, Bozeman and Ogden.

In his new assignment he will be stationed at the forestry science laboratory in Moscow, on the University of Idaho campus.

Wellner has firsthand knowledge of the northern Rocky Mountain wildlands,

CHARLES WELLNER  
... coordinator

## Extension agent compares feeds

JEROME — Jerome County extension agent Bill Priest compares the value of feed in a statement released recently.

In the statement Priest questions how one feed compared to another in food value per dollar spent noting that at the present prices for feeds, several substitutions could be made which are money savers.

"Alfalfa hay is our basic feed in this area and serves as the most logical basis for comparison. When based on total digestible nutrients average alfalfa hay at \$26 per ton is equal to excellent hay at \$30.96, corn silage at \$9.46, barley at \$2.07, wheat bran \$1.74 and dried molasses

beet pulp \$1.86," Priest said. The county agent explained that when hay sells at \$36 per ton, excellent hay is worth \$42.84, corn silage \$13.10, barley \$2.78, wheat \$2.86, wheat bran \$2.40 and dried molasses beet pulp \$2.58.

"The hay and silage can be substituted for each other and the grains for the most part are also capable of being interchanged. By watching prices and knowing the values of the different feeds several economical substitutions can be made without lowering the feeding value of the ration. We have a chart which shows these relative feed values available at my office which will be mailed upon request," Priest said.

# Magic Valley harvest completed by Dec. 1

BOISE — Harvest made good progress during November, despite some wet weather interruptions.

By Dec. 1, harvesting operations were complete in all areas, according to the Idaho Crop and Livestock Reporting Service. Precipitation during November was near normal. Temperatures were also near normal for the month.

Idaho's wheat production was 44.2 million bushels, 11 per cent below last year, but six per cent above the 1970 crop.

Winter wheat production, which accounted for 79 per cent of the total wheat, is placed at 34.7 million bushels compared with 37.8 million bushels last year and 34.5 million bushels in 1970.

Yield per acre was 45.0 bushels, six bushels below last year.

Seven hundred and seventy two thousand acres were harvested in 1972 compared with 742,000 last year and 749,000 acres in 1970.

Spring wheat production was

9.5 million bushels compared with 12.1 million last year and 7.1 million in 1970. This year 186,000 were harvested compared with 232,000 last year. Yield was 51 bushels compared with 52 bushels last year.

The state's 1972 barley crop, estimated at 39.7 million bushels, is four per cent below last year's record crop. The harvested acres placed at 736,000 acres compare with 740,000 acres last year. Yield at

54 bushels is two below last year.

Idaho's oat production at three million bushels compares with 3.6 million last year and 5.9 million bushels in 1970. This year 56,000 acres were harvested.

In 1971 65,000 acres were harvested and 105,000 in 1970. The yield, at 54 bushels per acre, is down two bushels from the 1971 crop.

Production of mixed grain harvested, at 93,000 acres, was up two per cent from last year but eight per cent below 1970. Yield was 68 bushels per acre, down three bushels from last year but up two bushels from the 1970 yield.

Rye production is down seven per cent from 1971 at 84,000 bushels. Acres harvested were 3,000 each year. This year's yield was 28 bushels per acre. Idaho's lentil production was 216,000 hundredweight, which is 10 per cent below last year and one per cent below 1970. Harvested acreage was 20,000 acres compared to 24,000 acres last year and 21,000 acres in 1970.

Yield is placed at 1,080 pounds per acre, up 80 pounds from last year and 40 pounds above 1970.

## Cotton growers advised to abandon fed grants

WASHINGTON (UPI) — A high Agriculture Department official said today he thinks cotton growers should abandon supplemental government grants for their farmer-financed sales promotion program as soon as practical.

Kenneth E. Frick, administrator of the Agricultural Stabilization and Conservation Service (ASCS), said in an interview he was voicing only a personal view.

Frick said the Agriculture Department has no formal policy yet on whether controversial government grants to the Growers' domestic sales promotion program should be extended beyond 1973 when current legal authority for the grants will expire.

"But I have a personal view that the quicker growers can take over the total cost, the

better the program is," Frick said.

The farm official, himself a former California cotton grower, strongly defended the Agriculture Department's scheduled \$30 million in grants to Cotton, Inc., the promotion agency which also gets funds from a \$1-a-bale fee paid by farmers.

Payments of \$10 million were made in 1971 and 1972, and the third \$10 million is scheduled for delivery next summer despite protests by critics who contend the total is far beyond the amount congress meant to authorize.

"That extra \$30 million has given the (promotion) program the boost it needed, at the time it needed it its cotton is ever going to be able to compete with companies like Dupont," Frick said.

But for 1974 and future years,

Frick added, he would personally favor steps to phase down the government payments. He said he did not want to see an abrupt complete cut-off but preferred a gradual transition to all-farmer financing "as soon as the growers can find a way."

In the past two years, Cotton, Inc., had been operating on a \$20 million annual budget with a half coming from grower funds and half from the government.

The government contributions, under fire recently from Rep. Paul Findley, R-Ill., were authorized by a 1970 law which said up to \$10 million annually could be spent from money saved through a ceiling placed in 1971 on federal subsidy payments to big cotton farmers.

## Farm labor force down

TWIN FALLS — Farm workers in Idaho during the week of November 19-25 totaled 36,000, down 3,000 from a year earlier.

Of the total, family workers accounted for 29,000 down 2,000 from last year's number and hired workers at 7,000 compared with 8,000 a year ago, according to the Idaho Crop and Livestock Reporting Service.

The farm labor force in the United States was 4.0 million workers during the week of Nov. 19-25, or slightly below the

total during the survey week last year.

The work force consisted of 3.1 million farm operators and unpaid family members and 889,900 hired workers.

Farm workers averaged 35 hours during the November survey week, compared with 34.6 hours during the comparable week last year. Farm operators averaged 38.1 hours and other unpaid family members 30.3 hours.

Hired workers averaged 32.5 hours.

## Breed yearlings, revised farm act increase profit

MOSCOW — A way to increase profits from sheep is to breed ewe lambs to lamb as yearlings. That is the recommendation of Dr. J. J. Dahmen, University of Idaho animal scientist and superintendent of the Caldwell Branch Experiment Station. The recommendation is based on research at the Caldwell station and other locations.

Dahmen said a greater lifetime production has been shown from breeding ewes to lamb as yearlings compared to the usual practice of lambing as 2-year-olds.

In the Caldwell study, 83 Panama ewes, born in January and February, 1971, were exposed to yearling Panama rams for a six-week breeding season which started Oct. 1.

Average age of the ewes at start of the breeding period was 260 days; average weight was 111 pounds. Average age at lambing was 422 days.

The 83 exposed ewes produced a 116 per cent lamb crop, even though only 93 per cent of the ewes lambed.

Dahmen said mothering ability of the young ewes was good. Those ewes that lambed averaged a 98 per cent lamb crop. "We like to handle these young ewes. They are more apt to claim their lambs than 2-year-olds lambing for the first time," he stated.

There are several things to keep in mind if one intends to breed ewe lambs to lamb as yearlings.

One important item is that ewe lambs should be born in late winter or early spring if they are to be bred that fall. The reason is that lambs born early usually come in heat the following fall.

Breed and size of ewe lambs also influence what lambs will breed. Age at puberty may vary as much as from 5 to 12 months.

Since size influences age of puberty, adequate levels of nutrition are essential if ewe lambs are to be bred

successfully. Lambs should not be allowed to stop growing after weaning. Rate of gain should be at least a quarter pound daily from weaning to breeding time.

A general rule might be, well-fed, well-grown, early-dropped ewe lambs of most breeds can be bred to lamb as yearlings. They should be well grown out for the breed and at least six to seven months of age at the start of breeding and should be exposed to rams for at least six weeks.

Peak of the breeding season is during the months of September, October and November.

Dahmen states best results will be obtained if ewe lambs are bred separately from older ewes. Use to young rams per breeding group of 10 to 15 ewe lambs.

Rams of smaller breeds may be desirable for use on young ewes to prevent first lambing difficulties. Data points show that, genetically, and size is influenced by size of the breed represented by the ram.

According to Dahmen, recent research at Clay Center, Neb., showed Rambouillet-cross and Finn-cross ewes produced more lambs per ewe than straightbred Suffolk, Hampshire, Rambouillet, Dorset, Targhee, Corriedale and coarse wool breeds.

## NOTICE

To The Stockholders Of The Twin Falls Canal Co.  
You are hereby notified that the regular meeting of the stockholders of the Twin Falls Canal Company will be held on Tuesday, the ninth day of January 1973, at ten o'clock a.m., at the office of said Company in Twin Falls, Idaho, for the purpose of electing five members of the Board of Directors and transacting such other business as may come before said meeting. Polls close at six p.m.

The books will close for the transfer of stock ten days before said meeting and all proxies must be in the hands of the Secretary not less than five days before said meeting.

## 92nd Congress revised farm act

WASHINGTON — When the new 92nd Congress convenes in Washington on Jan. 3, its members will be faced with some knotty problems in the field of agricultural legislation.

And if they do their job as well as their predecessors in the 92nd Congress they will have a record of which they can be proud.

Any analysis of the work of the adjourned Congress must give the lawmakers who were here in 1971 and 1972 a good mark for achievement.

The 92nd Congress passes a landmark Rural Development Act, a completely revised Farm Credit Act, and new pesticide legislation.

All three measures were highly controversial, but all three were enacted in such form that they will be regarded as the interests of farmers and rural people generally.

All three were first passed by the House of Representatives, and each incorporates ideas developed in the House Agriculture Committee.

The record of the Senate in each case was to modify the basic House bill.

The new rural development, farm credit and pesticides laws will have a major impact on countryside America.

The new Congress has an opportunity to make a record as good as, or even better than, the one written by the old. The

new Congress will probably write a new government farm program law.

It will also deal with two other major agricultural issues — a market and bargaining bill and a law governing agricultural labor relations.

All three areas of probable congressional action — government farm programs, marketing and bargaining, and farm relations — are potentially as controversial as the major farm bills considered in the last Congress.

Now, before the new Congress convenes, is a good time for farmers and their organizations to decide on what they want the new Congress to do.

The record of the 92nd Congress indicates that the lawmakers do pay attention to farmers' recommendations.

## 25 Hereford bulls rated 'super sire'

KANSAS CITY — Twenty-five isn't a magic number.

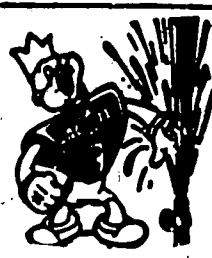

In fact, it means little until one attaches some qualifying value or degree to it as the difference between 25 cents and \$25,000 indicates. Twenty-five has now taken a special meaning for the American Hereford Association.

There are literally hundreds of thousands of registered Hereford bulls in use on farms and ranches in this country, but there are only 25 that have received the designation of "super sire" by the AHA which clearly sets their genetic richness apart as being superior.

In the newly re-organized Register of Merit system, rigid requirements have been placed on the bull sires of the Hereford breed to qualify as "super sires" in both show ring performance and in feedlot and carcass evaluation. In the show ring, progeny of a bull must accumulate a minimum of 100 points in officially designated ROM shows, which are earned on the basis of the placing of a bull's off-spring in show classes.

In the feedlot and carcass phase of the program, a bull's progeny must garner 100 points and must meet the following criteria: Eight head must qualify and no more than four

heifers; each animal must meet minimums in weight per day of age, cutability and marbling, and each animal must earn at least 11 points.

To be twice as big you'll need four times as much money.

Where's it coming from?

It will probably come from your Production Credit Association, from the people who understand the kind of credit a farmer or rancher really needs.

Every PCA office across the country is staffed with experienced professionals who know about the special farm needs you'll have in the years ahead. They'll work with you to provide money and assistance to help you farm better. And they'll tailor your loan to your individual needs. They'll show you how to use your earning power as collateral.

Discuss your plans with your PCA planner. Ask him about the special agricultural line of credit available from PCA.

You'll find him a real professional in agricultural lending and listening.
