## today in brief

**Grenade wounds 33 Cambodians**  
PHNOM PENH (UPI) — A wave of terrorist grenade attacks in crowded suburban areas of Phnom Penh today wounded at least 33 persons, including two children, police said.  
Three grenade blasts were reported, all within a few hours of each other. One of the explosions wounded 21 persons in a crowded restaurant.

**Nixon devotes weekend to Mideast**  
WASHINGTON (UPI) — Despite major unresolved questions in the Watergate controversy, President Nixon devoted most of his weekend at Camp David to work on arranging peace talks in the Middle East, his chief aide said.  
White House chief of staff Alexander M. Haig said Nixon's efforts were concentrated on helping set up peace talks between Israel and its Arab neighbors, and included telephone conversations with advisers in Washington.

**Woman to appeal NASA firing**  
WASHINGTON (UPI) — Ruth Bates Harris, the highest ranking black woman in the U. S. space agency, plans to appeal to the Civil Service Commission for reinstatement after being fired.  
She charged she was fired after reporting that NASA had the worst record in government of hiring women and minorities. She also charged that two men who helped prepare that report were not fired or demoted.

Convoy escort

ISRAELI ARMY jeep leads United Nations relief convoy near cease-fire line in Egypt Sunday as supplies were taken through Israeli lines to aid trapped Egyptian forces. Supply passage was agreed upon in meeting of Israeli, Egyptian officers. (UPI)

## Trapped Egyptians receive supplies

By United Press International  
Israeli forces in Egypt permitted a mercy convoy of food, water and medical supplies to cross its lines today for relief of the 20,000-man Egyptian 3rd Army trapped on the east bank of the Suez Canal, but its planes and guns shot down three Egyptian helicopters trying to reach the force in the middle of the night.  
More men of a United Nations peace-keeping force moved out of Cairo today to form a buffer zone between the existing Israeli-Egyptian lines but a U. N. spokesman dodged the politically explosive question of a pullback by the two sides to the positions they held when the cease-fire went into effect Oct. 22.  
Details of the agreement to let Egyptian trucks — with U. N. drivers — take supplies to the trapped Egyptian force was worked out in the first face-to-

## Kids escape Burley fire

By MARILYN ELLIOTT  
Times-News Writer  
BURLEY — Flames ravaged the three-story Burley Junior High School today, but school officials said all students escaped without injury.  
Flames, shrouded in billows in black smoke, were leaping 30-feet from the roof of the building.  
Both the Burley Fire Department and the Rupert Fire Department were called to fight the blaze.  
The fire was reported by secretary Mrs. Lovell Turner who said she smelled the smoke before the fire was discovered. Mrs. Turner speculated the fire started in the third floor girl's lavatory.  
As the flames consumed the East side of the building, school personnel ran in the out of the school, attempting to salvage all the moveable office equipment that they could.  
The school building, which is 60 years old, was scheduled to be remodeled for use as an

elementary school within the next two years. Architects had declared the building structurally sound.  
The school normally holds about 900 students in the seventh, eighth and ninth grades. Large crowds of bystanders and students gathered around the schoolyard at midday as firemen battled the spreading fire. Efforts of firefighters were hampered by a strong west wind that whipped the flames.  
As flames rose higher and the east wall of the building collapsed, one bystander said "It's gone now, I'm sure of that."  
Firemen worked to save nearby buildings, including a school shop, located about 40 feet from the building, and houses north and east of the building.  
Fire and school officials broadcast pleas to community people to stay away from the fire scene as the crowd of onlookers grew.

**Chicago 7 trial opens**  
CHICAGO (UPI) — The contempt trial of the Chicago Seven and their two attorneys opened today on a quiet note in sharp contrast to the stormy court sessions of 1969-70 which led to the charges.  
The defense indicated it would move to have the trial delayed because the government revealed last Friday it had a full tape recording of the original 4 1/2 month trial. But U.S. District Court Judge Edward T. Gignoux said any such request would be considered only after the government presented its case and if the tapes were offered as evidence.

**Viet militia losses heavy**  
SAIGON (UPI) — Communist troops inflicted heavy losses on a militia platoon in a night attack 64 miles northeast of Saigon but government forces killed more than 80 Communists in a raging battle in the Mekong Delta, the Saigon command said today.  
A command spokesman said the militiamen lost 11 dead, one wounded, three missing and 17 weapons captured.

**Portuguese government backed**  
LISBON (UPI) — The Portuguese government said Premier Marcello Caetano received a strong vote of confidence in national assembly elections Sunday, despite a last-minute boycott by the opposition.  
The government said that with 14 of 22 districts in Portugal reporting, 71.18 per cent of the electorate had gone to the polls. Complete results were not expected to be known for several days, particularly from the overseas provinces.

**Baker says Russ threat real**  
SYRACUSE, N.Y. (UPI) — Sen. Howard H. Baker Jr., R-Tenn., said Sunday night President Nixon did not exaggerate the Middle East crisis last week in an attempt to divert public attention from Watergate-related issues.  
"There was a real, deadly threat of massive intervention by the Soviet Union in the Middle East. It was a threat to the security of Israel and the United States itself," he said.

**Quebec voters to polls today**  
QUEBEC CITY (UPI) — Quebec's 3 million voters decide today between leaders who want the province to remain part of Canada and Separatists who want the mostly French-speaking region to cut ties with the rest of the country.

Mr. T-N SAYS  
There's nothing like a brisk autumn breeze

**Economy dipping?**  
(c) Washington Star-News  
WASHINGTON — An index that often gives clues to future trends in the economy declined last month for only the second time in the last three years, the Commerce Department reported today.  
The department said the index of "leading indicators" decreased 0.4 per cent in September, following a 1 per cent rise in August. This index had risen in every month since September, 1970, except for a decline of 1.1 per cent last April.  
If the index continues to decline for several months, it could indicate that the economy is heading into a recession next year. The leading indicators often rise and fall in advance of broader movements in the economy, and therefore the index is used as a forecasting tool.

face meeting between Israeli and Arab officers in 25 years, a meeting Israeli Prime Minister Golda Meir saw as a possible prelude to direct Arab-Israeli negotiations.  
The Tel Aviv newspaper Ma'ariv said the United States was applying pressure to Israel to lift its encirclement of the Egyptian 3rd army whose surrender would threaten the survival of President Anwar Sadat's regime but that Israel is resisting the pressure.  
Sadat dispatched an aide, acting Foreign Minister Ismail Fahmi, to Washington today with a letter for President Nixon and possible talks with Secretary of State Henry A. Kissinger. There was speculation in Cairo that the mission might be connected with forthcoming Mideast peace talks.  
A possible clue to a future settlement came today from the well-informed Beirut newspaper An Nahar which said the United States and Russia had agreed on a broad plan calling for Israeli withdrawal from occupied lands but with a U. N. security force to safeguard its borders and establishment of a Palestinian state on the occupied west bank of the Jordan.  
(Continued on p. 2)

## Angler snags lost wallet

By TERRY CAMPBELL  
Times-News Writer  
KETCHUM — The lucky combination of a fisherman and a mud bank has resulted in the return of a wallet lost nine years ago.  
The fisherman is Jack Corbridge, 77, Long Beach, Calif., who with his wife have returned to their native Idaho for the past 38 years to hunt and fish.  
Corbridge said he was fishing at Fish Creek Reservoir, near Carey, when he discovered a wallet imbedded in a mud bank. The wallet disintegrated as he picked it up, but its contents — encased for almost a decade in the mud — had remained relatively intact.  
They included two silver dollars, one dated 1921 and the other 1923, nine pennies ranging in dates from 1941 to 1965, a driver's license which had expired in October, 1964, and a social security card, which aside from weathered corners, was legible.  
Finding the owner, Glenda Gay Mann, Jerome, had posed a problem, but Corbridge finally traced her to Challis. When he telephoned her to tell of the discovery, Corbridge said she "just gasped."  
Corbridge said he felt the mud had protected the contents as the reservoir dried up and refilled two to three times since the wallet was lost. "How it could stay like that is a marvelous thing," he said.  
But if that wasn't enough, Corbridge returned to the reservoir about a week later and was fishing about 200 yards from where he had found the wallet.  
Reeling in a snag, he found part of another wallet on the end of his line.

## Demands increase for unfettered prosecutor

WASHINGTON (UPI) — Sen. Edward Gurney, R-Fla., the Senate Watergate committee member considered friendliest to President Nixon, today joined a growing demand for appointment of a new special prosecutor who would be free from administration control.  
"I think above all, we've got to have a special prosecutor that is independent, because I don't think people are going to buy the idea of a special prosecutor...that is the President's man, as part of the administration prosecuting the administration," Gurney said.  
Gurney's comments came as the Senate Judiciary Committee prepared to begin hearings on the fast developing battle over the prosecutor's role and the firing of Archibald Cox as prosecutor.  
The start of the hearings was delayed from this morning until the afternoon because a Capitol policeman suffered a heart attack at the hearing room.  
Cox, who said Sunday Congress should establish an independent Watergate prosecutor by statute and should legislate out of existence

any new special prosecutor named by the administration, was to be the committee's first witness.  
Gurney said he felt the prosecutor could be named by the President or Acting Attorney General Robert H. Bork but said there should be an agreement that "he would be totally independent and that he could not be fired without consent of Congress."  
He made the comments on the CBS-TV Morning News program.  
Another Nixon supporter, former Treasury Secretary John B. Connally, said in Austin, Tex., Sunday that the firing of Cox was a "healthy thing" but said "the President owes the country a better explanation for his actions than we got."  
Bork, who hinted in a weekend interview that he may resign if the new prosecutor's independence was interfered with, has been instructed by Nixon to name a new special prosecutor to take over the Watergate investigation.  
(Continued on p. 2)

## Idahoan letters oppose

By LESTER KINSOLVING  
Times-News Washington Bureau  
WASHINGTON — Mail and telegrams still pouring in to Idaho's Congressional delegation are running strongly against President Nixon.  
Most writers, reportedly are asking "he be impeached."  
All members of Idaho's congressional delegation reported their mail running overwhelmingly against the President.  
The Times-News survey showed that by Friday, even following the President's announcement that he would release the Watergate tapes to Federal Judge John Sirica, the public expressions were not favorable to him.  
Sen. James McClure, R-Idaho, found his mail running at "three to four to one in opposition to the President."  
McClure said demands for impeachment had subsided following the tape decision.  
An even more lopsided mail consensus was recorded by other Idaho officials.  
Sen. Frank Church D-Idaho, reportedly received 253 expressions opposing President Nixon's recent activities, against only 12 supporting the President. Of those opposing the President's actions, 172 included requests for impeachment.  
Rep. Orval Hansen, R-Idaho, found his mail running 297-19 against Nixon.  
"Very few" printed or form letters were included, in contrast to expressions on other major issues, he said.  
Rep. Steve Symms, R-Idaho, had mail running 305-13 against the President.  
The public outcry apparently was prompted by President Nixon's decision to fire Special Watergate Prosecutor Archibald Cox and his unwillingness to permit access to White House files other than the nine subpoenaed Watergate tapes.

## Arms flowing to Middle East

WASHINGTON (UPI) — Though they have suffered heavy battle losses, Israel, Egypt and Syria may emerge from the Middle East war as heavily armed as before it began.  
Officials said Sunday the flow of weapons

from the United States and Russia to the Middle East was continuing unabated by both air and sea. Before it ends, the officials said, both the Arabs and Israelis probably will have had all their losses replaced.

## State urges back pay in CSI sexual discrimination case

TWIN FALLS — The Idaho Human Rights Commission has urged the College of Southern Idaho to rehire and pay back wages to a former CSI teacher.  
The proposal was part of a "conciliation agreement" urged by the state agency in the sexual-discrimination case of Instructor Terrill Castaneda.  
Castaneda had charged that she had not been rehired because of sexual discrimination at the college.  
The conciliation agreement proposed by the Human Rights Commission is not binding and must be accepted by the college and Castaneda before effective.  
At the same time the commission reported that the federal government may be called into the Castaneda case, should it be necessary to take the case to court.  
Commission Attorney-Director Fred Grant said the state

agency is prepared to turn the Castaneda case to the Federal Equal Employment Opportunities Commission (EEOC) if substantial progress is not made in the CSI case.  
Grant said he had discussed the terms of the proposed CSI conciliation agreement with EEOC officials and had obtained their support for the agreement. He said this was a necessary step because of the possibility that the federal agency would be involved later in the case.  
Last August the Human Rights Commission found "reasonable cause" of sex discrimination by the College of Southern Idaho regarding Castaneda, who had been assistant professor of English and French.  
Following a two month delay, the HRC sent a conciliation proposal on the case to CSI Thursday.  
CSI President James L. Taylor said today he just received the

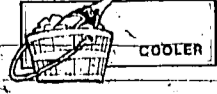

recconciliation proposal this morning and had not had time to review it. The college's formal reaction to the proposal, he said, would be made to the trustees at the next board meeting the third week of November.  
Castaneda first filed charges of sex discrimination with the EEOC in April 1972. She charged that the college's denial of her appointment for the 1972-1973 term was not legitimate because male teachers who were reappointed taught classes with lower enrollment and student attrition rates equaling that in her own classes.  
CSI claimed the attrition rate of students in her classes was unusually heavy and that with limited enrollment in these courses her continued employment could not be justified. CSI further claimed that Mrs. Castaneda had been given consistent poor ratings as a teacher by the academic dean.

# Free prober demanded

(Continued from p. 1)

The President said Friday that this prosecutor would have "independence" and "total cooperation" from the White House but would be expected to refrain from suing the White House for information.

Sirica could fire him only for "extraordinary improprieties." Cox said Sunday that Congress should create such a prosecutor by statute, and guarantee his independence in legislation.

Legislation setting up Congress' version or abolishing the administration's prosecutor would be subject to Nixon's veto. Then the test would be whether two-thirds of the House and Senate would vote to override that veto.

officials by the President, not by the courts. Also, he said, if Judge Sirica named and supervised a prosecutor, how could he impartially try the case?

# Israel opens lines for supply trucks

(Continued from p. 1) for Israeli withdrawal from occupied lands but with a U.N. security force to safeguard its borders and establishment of a Palestinian state on the occupied west bank of the Jordan.

establish a situation just now. How they can establish the situation that existed on Oct. 22, I do not know. Nobody from the United Nations in Cairo knows about the situation on Oct. 22 because we were not in the field at that time. That is the big problem.

# No refusal

TEL AVIV (UPI) — Based on the widespread contention that the United States compelled Israel to accept the cease-fire and permit the resupply of the surrounded Egyptian 3rd Army, a new joke is making the rounds in Israel.

# Blood probe opens

MIAMI (UPI) — Federal, state and county officials called a meeting today to discuss alleged unsanitary blood collection practices which left 13 plasma donors hospitalized in four days.

Blood Service" in downtown Miami, which was ordered closed Saturday. The hospitalization of the 13 plasma donors comes when the "snowbirds" of northern cities leave cold climates and arrive penniless in Miami.

# Space rookies

# Skylab launching count moving along smoothly

CAPE CANAVERAL (UPI) — The countdown for launching the last crew of Skylab astronauts rolled along smoothly today toward a Nov. 10 firing date on a mission that could break the space flight endurance record by more than three weeks.

CAPE CANAVERAL (UPI) — The countdown for launching the last crew of Skylab astronauts rolled along smoothly today toward a Nov. 10 firing date on a mission that could break the space flight endurance record by more than three weeks.

LAST SKYLAB crew is scheduled for launching on Nov. 10, a mission that could break the space flight endurance record by more than three weeks. Crew members are (from left) Gerald P. Carr, Edward G. Gibson, and William R. Pogue. (UPI)

# TF agencies get grants

By BONNIE BAIRD JONES  
Times-News Writer

**TWIN FALLS** — Grants under the Law Enforcement Planning Commission included \$49,534 in Twin Falls city and another \$38,920 to the county law enforcement agencies from 1969 to 1973.

Chief of Police Frank Barnett said Twin Falls city was able to purchase a number of equipment items until to obtain extensive training as a result of the funding. Equipment purchased included four walkie-talkie radios at \$1,500; video viewing and recording equipment, \$1,000; a multi-channel recording system; \$2,204; and two grants to the Magic Valley Alcoholic Rehabilitation Center in the amounts of \$13,000 and \$25,105.

Training was provided for a number of officers in investigation ranging from arson and narcotics to basic training programs for peace officers.

Under the county program were three grants for construction work for Magic Valley Harbor House. The first was in the amount of \$9,500, the second, \$12,500 and the final was for \$2,850.

The sum of \$5,175 was used for a planning study of consolidation of the city and county jails and administrative offices. A total of \$5,516 was granted for a special deputy to patrol county range lands for control of cattle rustling. Most of the remainder was used for training of officers on the county sheriff's staff.

Elsewhere in the county, Murtaugh, Castleford and Hagerman each received grants of about \$500 for mobile radio equipment. Kimberly received \$1,679 for radio mobile unit and a base station and one walkie-talkie.

In other parts of Magic Valley, Blaine County received \$158,073 including \$115,000 to the cities in the county toward construction of the county jail and \$20,175 for county participation. Sun Valley received \$20,853; Halley, \$15,000; Ketchum, \$20,524 and Bellevue \$760.

Camas County received \$5,499 including money for additional personnel and radio equipment.

Cassia County's share totaled \$20,502 including remodeling of the magistrate court facilities, officer training programs and radio equipment.

In Burley, grants totaled \$33,041 with \$20,000 going to hire additional law enforcement personnel. DeLoe, purchased a mobile radio unit as did Oakley, each costing \$645.

Gooding County received \$55,413 with \$16,718 going toward jail construction and \$12,600 for courthouse furnishings. Another \$11,000 was used for officers to reduce cattle thefts.

Jerome County received \$6,148, most of it for additional personnel and Jerome city received, \$1,518 for radio equipment and court investigative items. Eden and Hazelton purchased radio units at \$733 each.

Minidoka County received \$180,000. Of this, \$80 went for jail expansion and combination of the city and county jail facilities with another \$32,000 for jail furnishings. Idaho Youth Ranch grants totaled about \$28,000.

In Rupert, training programs, jail furnishings and radio equipment required \$17,400. Paul received \$5,258 for personnel and radio equipment. Heyburn received \$758 for radio equipment.

NEW OFFICERS of the Blue Lakes Country Club Ladies Golf Association are, left to right, Barbara Unander, secretary; Annis Bevan, vice president; Louise Nelson, president, and Peggy Satterfield, treasurer.

# Broadcast laws urged

WASHINGTON (UPI) — Presidential aide Patrick Buchanan today advocated legislation to break up what he called "excessive power" of broadcast networks to dominate the flow of ideas to the American public.

The suggestion by Buchanan, a speechwriter for President Nixon, followed the President's criticism at his Friday news conference of what he described as "outrageous, vicious, distorted reporting," particularly by network commentators.

Buchanan said the major commercial networks dominate the flow of ideas and information and said this is "injurious to the democratic process."

"Every legal constitutional means ought to be considered in order to break up that dominance and spread it out so that you decentralize power in this area," Buchanan said.

He said he was not speaking for the administration but when asked about possible antitrust moves, Buchanan said: "My personal view would be to move with some sort of legislative action ... to break the power of the networks."

Buchanan gave his views in an interview on the CBS-TV Morning News program.

Representatives of ABC, CBS and NBC denied during the weekend that their coverage of the Watergate scandal and related matters justified Nixon's strong criticism of them. Some newspapers derided his attack as intemperate.

Buchanan cited the New York Times and the Washington Post as having "a tremendous power in a society to influence opinion," adding that the First Amendment protection of freedom of speech and press "is a two-way street—it applies to us as well as you."

"In our judgment," the White House assistant said, "just as the First Amendment gives you the right of free press, the right of freedom of speech—to criticize us, to say that the President of the United States is not doing a good job, we can exercise the same freedom to say the networks are not doing a good job."

Buchanan said he thought there should be more TV competition—with as many as eight networks instead of the present major three. This, he said, would result in "far less criticism on the part of the government."

"Our concern is not with the exercise of freedom—but with the power of the networks," Buchanan said.

Soybeans generally require more water for germination than corn, according to the University of Tennessee extension service.

## Head golf unit

## School closed

MONTEVIDEO (UPI) — The Uruguayan military government closed the national university today and placed the rector, the deans and 150 other persons under arrest for allowing subversive activities within the university.

Interior Minister Col. Nestor Boletini announced the arrests and said the situation at the University of the Republic "is disastrous. The universities are no longer universities."

The government decided to intervene in the university after a four-hour meeting Sunday night among President Juan Maria Bordaberry, cabinet members and the commanders of the armed forces. Bordaberry has ruled by decree with the advice and consent of the military since June 27 when he closed Congress.

The crisis began Saturday when an explosion in the engineering school killed Marcus Cardud Jordan, 22, a chemistry student making a bomb. Security forces immediately searched the university and found "arms, ammunition, explosive material, and a plan to systematically disturb the public order on certain dates," the government said.

## Pre-sentence probe granted

TWIN FALLS — Ronald Spearing, 29, charged with two counts of embezzlement from a finance firm, was granted a pre-sentence investigation in Fifth District Court.

He was charged with embezzling more than \$50,000 from Avco Finance Co., Twin Falls, while serving as manager. He entered pleas of guilty to both counts.

Charles Cox, 22, Twin Falls, was given a three-year-state prison sentence which was commuted to 18 months probation. He was charged with writing an insufficient fund check.

Scott Marvin Hayden, 20, Burley, completed probation on charges of delivery of a controlled substance and the charge was dismissed.

Frank Calvin Kitchen, 23, was released from probation after completing three months on charges of driving while intoxicated.

Lillian-Jane Knight, Buhl, charged with forgery, was placed on probation for 18 months after pleading guilty.

Dee Snodgrass Jr., 22, Jackpot, Nev., charged with embezzlement by a lessee, entered a plea of guilty to taking five head-of-Holstein cattle from H. E. Hammerquist. He was placed on probation for 18 months.

Rocky Carpenter, charged with grand larceny involving the alleged theft of an automobile taken from James Monroe, Kimberly, entered a plea of innocent.

# Europe troop reduction vowed

VIENNA (UPI) — The Soviet Union and United States pledged today to work for a reduction of troops and weapons in central Europe, but negotiators said a quick agreement was unlikely.

"The Soviet delegation will exert every effort to bring about a specific understanding providing for reduction of armed forces and armaments," Soviet negotiator Oleg N. Khlestov said.

Khlestov spoke on arrival from Moscow for talks starting Tuesday on reducing NATO and Warsaw Pact forces in central Europe.

American officials said the United States was also committed to force reductions but stressed they must be balanced.

The Children

Children are our greatest resource. Each child born is hope for the future...

Today, one billion youngsters of the developing world are hampered by lack of adequate nutrition, health, education and vocational training...

For the past 27 years the United Nations Children's Fund has sought to help free these children from the forces impeding their physical well-being...

supplementary feeding programs. To help prepare young people for adult life, the Children's Fund has introduced curriculum reform, better preparation of teachers, and practical training into primary and secondary schools.

Governments work hand-in-hand with UNICEF to improve their children's lives. Assisted nations contribute more than half the equipment, resources and manpower for programs receiving UNICEF aid.

UNICEF needs our assistance to help save the world's most precious resource - its youth. By supporting UNICEF's Trick or Treat campaign we demonstrate our faith in the generation of the future.

Kent On Wheels

A new development on the technological front holds out promises of being both a sword and a plowshare. It's portable radar capable of "looking down" through concrete and several feet of soil to locate buried objects...

The penetrating radar was developed by Calspan Corp., formerly Cornell Aeronautical Laboratory, in association with Army researchers.

The Army has long wanted something like this since the advent of plastic mines, which cannot be spotted by conventional mine detectors. Such mines, which are expensive to manufacture, caused many of the U. S. casualties in Vietnam.

One civilian application, says Calspan, is the detection of buried

bodies, a severe problem in law enforcement for which no satisfactory technology existed before.

Another major use will be to map the exact location and depth of underground conduits, sewers and water lines, which could mean reduced digging at busy street intersections, where lines have been buried at various times over a period of many years, and not always where old city maps say they were supposed to go.

One version of the radar, carried on a vehicle, could monitor the subsurface condition of highways. Cruising at 60 miles an hour, it could be used to guide routine maintenance or survey entire highway systems for hidden weakened spots in areas where flooding has occurred.

Times-News Public Forum

About Land Planning

Editor, Times-News: Who has created the furor over land planning and control? During the past few years there are those who carry this banner with great zeal. We are led to believe disaster will follow if master planning of property use is not followed.

One of the most basic rights of freedom is the private unrestricted ownership of property. No matter what excuse the control of our property is taken from us the end results are the same. Our founding fathers lived in a time under conditions which taught them the great God given blessings of private ownership of property with its right for the owner to determine its fullest and best use. They provided for the protection of these rights and we now trample on their wisdom. No one has the right to personally or through the arms of government deprive another of his right to use or sell his

property to whom he wishes. This country has functioned well for many years without such control. The controls have not added one worthwhile asset to our well being. Those who trample these rights are interfering with divine direction and will positively be held accountable.

The very location of a property will automatically determine its fullest and best use in our free enterprise system. Who would survive putting businesses in locations which will not support them? The value of property and shame of neighbors will prevent wrong uses of property. Subdividers can control the use of their own properties and leave those purchasers to choose if what restrictions have been drafted meet with their desires. The value of the subdivision is increased or decreased accordingly, all without one

neighbor or governmental agency inflicting their control over the property owner. There never will be value received for the surrender of our property rights.

Presently those who choose to control others are proposing a full time city and county planner with an annual salary of \$13-14,000. Just one more burden for the tax payer to carry. It is strange that our chosen leaders want outsiders to always make the decisions needed to direct the affairs of our communities. Could it be that they want someone to echo their beliefs and do their dirty work which they are ashamed to do so openly?

It is time that we have a restoration of public responsibilities. I feel that it is time that local specialists be asked to serve the community without pay to advise the leaders. I am sure that local real estate brokers and salesmen would serve to guide. Local engineers could offer free advice and many others who are qualified to assist in various capacities could and would serve if called to do so. We have spent hundreds of thousands of dollars for so called specialists to ill advise us during the past few years in Twin Falls alone. It is time for us to think for ourselves.

When property is artificially controlled through zoning and planning the people lose. The restrictions remove competition and create high prices for some property and low prices for others of equal importance. Commercial rents and costs rise, likewise do residential prices rise, and the consumer pays for the costs. Let your voices be heard.

Curtis Webb and John Carter, Twin Falls

Nolan Victor, Twin Falls

(c) New York Times Service SHANGHAI — Ever since Moscow broke with Maoist China, ending all aid and even closing its consulate general here, this country has stressed its self-sufficiency. While it may pay by slowing the speed of potential progress, the amount of ground covered by this go-it-alone policy is impressive. Steel output has risen from 5.35 to 23 million tons a year between 1957 and 1972, petroleum from 46 to 29 million tons and chemical fertilizer from .03 to 20 million tons, despite the fact that emphasis has probably been on defensive armament. The G.N.P. has increased about 5.5 per cent per annum.

This performance has been achieved with comparatively little reliance on foreign trade which rose from only \$4,285,000,000 to only \$4,614,000,000 between 1959 and 1971. During this same time China has virtually by its own effort established a broad industrial base while equalizing individual incomes to accord with Maoist doctrine.

Peking found it had to solve its problems alone after Russia withdrew its engineers and technicians and embargoed promised materials. The Chinese therefore revamped their basic program. Agriculture was made the economic foundation and self-reliance the political cornerstone. In the small role assigned to foreign trade, diversification of partners was stressed.

British Trident and American Boeings moved in on the heels of Russian Illyushins and Antonovs as civilian

aircraft. Pakistan International Airways, Air France and Ethiopian Airlines joined Russia's Aeroflot as foreign carriers and Canadian Pacific comes next spring. And a boat journey along the Shanghai harbor from the upper Huang-Po to its confluence with the Yangtze reveals dozens of Rumanian, Somalian, Dutch, Japanese, Singapore, Greek, British, Cypriot, Swedish, Italian and Liberian ships — not one from the U.S.S.R. or the United States for, that matter, American cargoes are sent via Hong Kong or aboard other nations' ships.

Reflecting national goals, Shanghai has changed rapidly from a banking and consuming city to a major industrial producer with trade, although this remains China's port, slipping ever further behind in relative importance. I have been shown a wide variety of manufacturers here including trucks cars, jeeps, tractors, machine tools, maritime equipment, agricultural machinery, radars, cameras, precision instruments, x-ray machines, artificial lungs, transistors and telecommunications equipment.

I also visited a shipyard on the riverbank behind a screen of ever-moving junks, their lattice canvas sails brown with pig's blood. Twenty-thousand ocean-going vessels have been built here for the last three years. This is a new project, although Shanghai has long had repair facilities.

Wu Kuo-Chung, vice chairman of the yard's revolutionary committee and therefore equivalent to its

To Fair Play

Editor, Times-News: I am appealing to your sense of fair play. I am enclosing the editorial and the several articles from this week's Wood River Journal. The new owner of the paper had promised unbiased reportage when he recently took over, but it is obvious that he is following the lead of Mr. Fritz.

We are distressed wondering what to do. We are not sure how much credit the residents of Hailey place in Ketchum Tomorrow and we are obviously not going to get any equal space in the Journal. As a matter of fact, our candidate for mayor, Ralph Rutter had taken an article dealing

with the Referendum-Initiative question into the Journal for this week's publication only to have the article turned down.

It has been a struggle from the beginning of the McCulloch controversy to get fair and objective coverage. We are in desperate need of this type of reporting. The type of coverage that the Times-News has given.

We do not have much money to work with and so any coverage you could give us would be deeply appreciated.

We hope that you continue your support of land use.

Sharon Parker Hailey

Airport Into Court?

Editor, Times-News: I find it highly disturbing that there has been a "star chamber" proceeding in our area. I am referring to the meeting "by invitation only" regarding the location of the regional airport.

While those farmers invited to the meeting would be most immediately affected personally by the selection of the site north and east of the Highway 93 - Interchange, nevertheless, all of the people in the county are involved and the meeting should have been open to the public and well advertised so that all who wished could attend.

This is of course not the only abuse of law in connection with airports in our country. The election by which Jerome County entered the Regional

Airport Authority was illegal — the election should have been held from 8 a.m. to 8 p.m. Instead the voting was done — at the height of the harvest season, when farmers would be unable to easily vote — between the hours of noon and 7 p.m.

It will may be that a court case may yet have to decide whether Jerome County is actually legally a part of the Regional Airport Authority. It may well be that taxes collected to date in our county for this Regional Airport Authority may even have to be refunded to the taxpayers.

It may well be that any decisions participated in by Mr. Ruebel, the Jerome member of the thing, may all be invalid.

Another violation of law was that the voters of this Jerome County voted upon the site south of the interstate, not upon any alternate site. The law required that the election specify the site being voted upon. A change in the site could only be accomplished by a new election, with the site specified. The most salient fact that should be pointed out is this: The most important reason, and probably the only reason, that the Regional Airport Authority wants to change the site from south of the Interstate to north of the Interstate, is that on the south side are two high-voltage powerlines of the Idaho Power Company.

According to a decision of the Idaho Supreme Court, in ex-rel. Rich vs. Mountain States Telephone and Idaho Power Company, these powerlines would have to be removed or placed underground. AT THE EXPENSE OF THE IDAHO POWER COMPANY.

It is rather sickening to see our elected officials, and the officials of the FAA, acting so obediently to the orders of their "master," the J. C. Kennedy-owned Idaho Power Company.

Vnes Kelly, Jerome

Gun Owners

Editor, Times-News: It is with regret that we notice in a recent issue of the American Rifleman that the National YWCA at its delegate assembly in San Diego voted to register firearms and ammunition. They would license all gun owners and buyers and ban privately owned handguns.

This is not the first time that a national organization supposedly dedicated to some high purpose has taken a hard poke at gun ownership. It is time that all such organizations realize that while they are unquestionably free to express themselves as they please, so are the targets of their political action.

We hope that all sportsmen and collectors will refrain from contributing to community drives whose proceeds go in part to support the YWCA.

Jack Donner Association for the Right To Own And Bear Arms Twin Falls

manager, admits: "We still have a long way to go. Our shipping industry is young and backward. We have a very low rate of automation and much of our work is done by hand."

There isn't the slightest doubt of this and, moreover, the casual observer notes what would appear to be a low per-capita productivity rate wherever he goes in China. But in the end, if a nation has about 80 million people at its disposal and most of them are in the work force, the luxury of comparative lassitude is easily supportable.

I never knew Shanghai before what is known as the "liberation" of 1949 when Mao Tse-Tung took over — thereby, among other things, revenging himself against Chiang Kai-Shek's 1927 bloody putsch against the communists, then his allies. However, I have no doubt that the city has lost much of its former charm.

The massive old buildings among the former British concession's harbor front are now party and administrative headquarters flying endless red placards emblazoned with Maoist slogans. The grand

hotels rattle with occasional Japanese and Albanian tourists.

Pedicab drivers, few as they are, seem hard put to it finding fares. Moreover, workers' pay is extremely low — well under \$35 a month, although everything else, such as rent, food and medicine are still lower for a Chinese citizen.

But the nation as a whole is benefitting from this massive, do-it-yourself experiment. It has already seemed to solve its food problem, the world's

greatest — as are most basic Chinese problems — and now it is perceptively moving along the road to serious industrialization.

No one knows or seems to care what the rice of a crop tractor is; it will be some years before China enters competitive foreign trade markets. The first job at hand is using Chinese machine products to benefit an enormous hinterland. Before, the decade is out the results will easily be visible.

A Thought

Let the words of my mouth and the meditation of my heart, O Lord, my rock and my redeemer. — Psalm 10:14

No great work has ever been produced except after a long interval of still and musings meditation. — Walter Bagehot, English economist.

Give instruction to a wise man, and he will be still wiser; teach a righteous man and he will increase in learning. — Proverbs 9:9

A man learns only by two things: one is reading and the other is association with smarter people. — Will Rogers, American humorist.

Exception Noted

Editor, Times-News: Please permit me to take friendly exception to your recent editorial on the Mid-East War captioned "Vengeance."

In the matter of race, color or religion I am neither anti-Jewish nor Arab but my loyalties extend at least as far back as the record of the Crusades during which 200 years the Arabs fought and won the most vicious war in history.

There is nothing to compare with the unforgiving bitterness of religious antagonists whether by virtue of moral persuasion or force of arms. The Moslem world undeniably belongs to the Moslems and we, of all people, should respect this.

I quote one short paragraph from United Press dispatches: "Military experts say if it were not for the aid pouring into both sides — first, from the Soviet Union to the Arabs and then from the United States to Israel — there simply would not have been arms and ammunition to have fought this war for more than 10- or 12 days."

Rupert Vote

Editor, Times-News: Soon the people of Rupert will elect a mayor.

Our town has grown, but it is still a little town. We think we need the kind of leadership that will serve the wishes of the people.

Mr. Whitton is the man who can best qualify for the position of mayor. There are problems within our town that require action — such as sewer lines, sub-conditions and domestic water. Mr. Whitton is acquainted with these conditions and at present is serving on the city council.

The need has arisen for the "something" in our city government besides a group of "yes" men down at the city hall.

It's time for a change. Delores Wilkinson

I do not know what is intended by "first" Russia and "then" the United States. I seem to remember that we set Israel up in business and shipped Egypt the last of our surplus wheat in order to maintain the high price of flour to our local consumers.

We are now asked to believe that we have two massive airlifts working at cross purposes in the interests of peace.

HR:feathers! Our sickly state department

has been groping around in a dense fog since World War II. We are doubly cursed with an administration which has had hands out in every direction for the past six years. I shudder to see it pressured by a religious lobby with hundreds of millions of dollars to spend. Our final confrontation with Russia is coming along rapidly enough without our being lobbied into it.

Ray Howell, Shoshone

Airport Issue

Editor, Times-News: The Regional Airport was discussed to some length in Jerome Monday night with the board and adjacent land owners. Thursday's issue of the North Side News quoted me as saying "We should amend the law so Twin Falls County would have to join with the majority of the people in the Valley."

I said the law should be amended to give the taxpayer some protection. The Airport Regional Board is spending \$30,000 a year. This can go on and on. Before the project can be built, there must be a bond election. If it fails this money is wasted. The law should require a majority of all the Airport district.

Members of the Airport board admit it cannot be built without Blaine and Twin Falls Counties. Twin Falls has offered Joslin Field for the Regional Airport which is adequate for the needs of the region. If the differences between Twin Falls citizens and Airport Board cannot be worked out, there should be an election so the people can make the decision.

The site in Jerome County will take 1,000 acres out of production and off the tax roll. This site is a low-density area, with fog in wet damp weather and smoke in the dry weather. Jerome schools are overcrowded and it looks like a must for new school buildings. I think we can use our tax dollars to a much better cause than for this Airport at this time.

Del S. Hlatt, Route 3, Jerome

It's Hogwash

Editor, Times-News: I believe the enclosed newspaper article about a pattern of segregation in the Twin Falls schools is a lot of damned hogwash.

One nice thing about living in Idaho is that we do not have racial problems in this state, and I see no reason why the owner of the Times-News and Mr. Lazarus should come in here from out-of-state and

attempt to create disturbances that do not exist in order to sell more newspapers for their own financial benefit.

If Bill Howard doesn't want his children attending Twin Falls and Idaho schools, then why in hell doesn't he return to California?

A. L. Blandford, Twin Falls, Kimberly

Man With a Dream

Editor, Times-News: There is a man with a Dream.

Beside him there stands a woman. With him she walks, captivated, impressive. She shares with him, The Dream.

He is the President of the United States of America. She is the First Lady of "America, The Beautiful." Together they have traveled sharing the dream.

The dream is One World, All nations on speaking terms, reasoning together, giving a little, receiving a little; learning to live in Peace, with each other.

They traveled together to learn and understand; to share and be understood. Good will was in the making, even while wars and rumors of wars persisted, American men were dying on fields of battle in our longest war in history.

Our President promised to end the war and bring our men back home. To save face agreements were made. The War was ended and our boys returned home. Under his leadership this was done. He kept his word. Have we

forgotten so soon? The Man with the Dream knew and knows our world; and the relationship of America in our world; The Arab-World and Russia; The perilous position of Israel and American with problems afar and at home.

Lo, something NEW is taking place. Russia and America are working together; going before The United Nations to bring about the Will and the Way to halt the Arab-Israel War; a Cense Rere, and the laying of firm foundations for peace, understanding and long-range solutions reaching into the future.

The avoidance of the ever threatening World War III is paramount. Divide and Conquer has been and continues to be Russia's procedure. A divided America was far too tempting and she made her move to send troops to Egypt.

The Dream seemed doomed, A Nightmare at home and abroad demanded ACTION.

With the World and the Nation on mind and in heart, a snarling pack of partisan

politicians snapping at his heels, HE ACTED. He called a night meeting of officials and advisers. The armed Forces of an embattled Nation were placed on Alert. A confrontation seems averted. United Nations Forces are being called to serve.

I do not know what mistakes he may have made, that he remains sane and devoted, picking himself off of the floor; he comes back fighting. He has courage, Tenacity.

This much I do know. With 61 years a voting citizen 57 years on the public platform and in public life Politics often is dirty business. "The Pot cannot call the Kettle Black" and get away with it. "Neither major part can sing, "When the Saints Go Marching In."

Each and every citizen has a responsibility to THINK and ACT. Avoid Hysteria and Mob action.

Shall the dream be lost in a nightmare of Political Intrigue, and the Suicide of Freedom? "This nation, under GOD" is more than a slogan.

Henry J. Gerhardt, Sr. Former Twin Falls Minister.

# Rough week on Capitol Hill

WASHINGTON (UPI) — Congress and the President face a bumpy week, including a preliminary inquiry on impeachment, hearings on the special prosecutor dispute, more activity by the Senate Watergate committee, two veto lights and a vote on the Alaska pipeline.

While the Senate Judiciary Committee was looking into legislation to have an independent Watergate prosecutor, appointed by U.S. District Judge John J. Sirica, the administration prepared to name its own special prosecutor, setting the stage for a struggle of wills between the executive and legislative branches.

The House Judiciary Committee meets Tuesday to adopt procedures for a possible later

impeachment inquiry against the President, and to discuss how to go about hearings on the nomination of House GOP Leader Gerald R. Ford to be vice president. Most Democratic leaders have said Congress should proceed with approval of Ford rather than wait until the Watergate tapes or special prosecutor disputes are settled.

The Watergate committee meets in closed session Tuesday to plan its course. Though the President has agreed to give nine Watergate tapes to the courts, an earlier "compromise" plan to let the committee have them after "verification" by Sen. John C. Stennis D-Miss., apparently has fallen through.

On Tuesday, the Senate will vote on whether

to override President Nixon's veto of a bill funding the U.S. Information Agency and requiring the agency to provide confidential information requested by Congress.

The House will vote Thursday whether to override the President's veto of a bill limiting his authority to send troops overseas to 90 days unless Congress approves a longer period.

The House will also take a final vote on the Alaska pipeline, designed to carry oil from Alaska's north slope to its southern coast for shipment to U.S. markets. The project has been opposed by environmentalists. The House will also consider a "mini tax reform" proposal and a 7 per cent increase in Social Security benefits.

## Israelis paying US help price

TEL AVIV (UPI) — Israel, pressured into supplying the battered remnants of an Egyptian army it considered defeated, is paying the price for U.S. military, diplomatic and financial support during the 1973 Middle East war.

The armed forces chief of staff, Lt. Gen. David Elazar, made it clear in a nationwide television interview Sunday that the 100,000 supply convoy into the besieged Egyptian 3rd Army was forced upon Israel.

Cease-fire or no, the military command wanted to maintain its stranglehold on these 20,000 Egyptian troops, force their surrender and thereby erase one of Cairo's two bridgeheads on the Israeli side of the Suez Canal.

Now the convoy has given the 3rd Army the food and water it needs for survival.

The reason appears to be the

belief in the United States, United Nations and elsewhere that Israel completed its encirclement of the Egyptian force in violation of the Oct. 22 cease-fire and therefore has to let supplies through.

Approval of the convoy idea by Prime Minister Golda Meir's government, already under fire on the issue of preparedness for the war, brought widespread editorial condemnation of the United States.

The United States supplied Israel with almost unlimited weaponry, granted it \$2.2 billion in aid and loans and stood face-to-face with the Soviets during the year so Israel could stand the test of survival.

Now Israel is facing what it has long feared—U.S. pressure to see things the U.S. way. Washington faces a worsening energy crisis from the boycott of oil shipments by Arab states.

### Solon dies

## US troop cuts receive study

WASHINGTON (UPI) — Alleged lack of cooperation by European allies during the U.S. military response to the Middle East crisis has prompted administration officials to take

a "hard look" at possible troop and arms cutbacks overseas.

Government sources said no decisions have been made, but they reported discussions are taking place, involving a serious review about U.S. military relationships with the NATO allies.

"We're going to be taking a hard look at whether this has long-range implications, or whether it was just a crisis anomaly," one official said.

"We may very well decide we want to put some of those forces (in Europe) somewhere else."

### FCC aide raps Nixon

WASHINGTON (UPI) — Federal Communications Commissioner Nicholas Johnson has petitioned the House of Representatives to impeach President Nixon.

As a member of a so-called "independent" agency under the executive branch, Johnson works for Nixon, but he is a Democratic appointee.

In his petition to the House, he cited a list of alleged impeachable offenses on the part of the President, exclusive of the Watergate bugging affair. His charges included authorization of an unconstitutional war in Cambodia, a systematic campaign against a free press, Nixon's impounding of funds for programs voted by Congress and use of government funds to improve Nixon properties in Key Biscayne and San Clemente.

### 'Too smart'

HOFFMAN ESTATES, Ill. (UPI) — Julie Nixon Eisenhower said Sunday her father is "too smart to get involved in any dumb land deals." President Nixon's daughter was responding to a report her father was being investigated for evading taxes in a Florida land deal.

Mrs. Eisenhower appeared at a news conference after she spoke at dedication ceremonies for the Dwight David Eisenhower Junior High School in Hoffman Estates.

"My father is brilliant and of high intelligence and too smart to get involved in any dumb land deals," she said.

## Cancer probe set

(c) New York Times Service  
NEW YORK — The National Cancer Institute is sponsoring a multi-million-dollar study to see if the current dismal survival rate among victims of lung cancer can be improved through screening techniques that may detect the disease in its early stages.

The study began at the Mayo Clinic two years ago and will now be extended to Johns Hopkins University and Memorial Sloan-Kettering Cancer Center here. It will be conducted among 25,000 men who have high risk of developing lung cancer — cigarette smokers 45 to 69 years old.

At present, only 9 per cent of lung cancer patients are alive five years after the disease is detected. In fact, only 40 per cent can be operated upon by the time the tumor shows up on a conventional chest X-ray. In the rest, the disease is too advanced for surgery when it is diagnosed.

## AMA scores laxity in ethics efforts

(c) Chicago Daily News  
CHICAGO — The American Medical Association lashed out today against state and local medical societies that are reluctant to crack down on unethical physicians.

In a hard-hitting editorial, the AMA Journal said the public trust cannot be gained unless there is evidence the medical profession is dealing with errant members.

"It is amazing how many excuses can be found for not conducting an investigation or for not taking action," said the editorial written by Edwin J. Holman, secretary of the AMA's judicial council.

Holman warned that unless discipline is prosecuted by the medical profession, one of the few professions that is permitted by the public to govern itself, restrictive laws could be passed. The laws might turn out bad for the doctors because of over-reaction, he said.

## Coal use said key to power

WASHINGTON (UPI) — The United States could ease its energy problems by slowing the drive for clean air and taking advantage of its huge coal reserves, the National Petroleum Council said Sunday.

The NPC is an industry group that advises the secretary of interior on energy matters.

"Delays in the enforcement of severe air pollution regulations pending commercial availability of the respective technologies may well be in the public interest," the NPC said.

"U.S. coal resources can make a major contribution to the nation's future energy needs with further development and application of technologies for solving environmental problems," the NPC said.

The NPC estimated recoverable coal, the coal "firmly defined" by geologic work and past experience, at 150 billion tons. At current demand that figure is 300 years' supply. The U.S. Geological Survey estimates the total amount of coal in the United States at 3.2 trillion tons.

If technology could get at that, it would be thousands of years' supply.

The NPC projected demand at about 663 million tons a year by 1985. It is 150 million now.

Strip mining is attractive on economic grounds, but not on environmental grounds, the report said.

## Watches flames

FIREMAN KEEPS EYE ON FLAMES NEAR HOMES AS Boulder Oaks fire in San Diego County, Calif., rages near by. Blaze covered 5,000 acres, burned a dozen homes before being controlled. (UPI)

## Arsonist set big brush fire

ALPINE, Calif. (UPI) — A brush fire that roared through 8,000 acres, destroying some homes and forcing the evacuation of Morena Village, was set off by an arsonist with an incendiary device, forestry officials said.

Firefighters said the blaze

was 95 per cent contained today, and full containment was expected later in the day.

The fire blazed through the Boulder Oaks area of the Cleveland National Forest about 50 miles east of San Diego, with more than 1,000 men, backed by retardant-dumping bomber planes, battling it.

The fire was begun by an incendiary device that ignited the brush at the Boulder Lakes Camp Ground, according to Hamilton Mills, state Division of Forestry information officer.

He said the device, which he would not describe, had been found at the camp ground and

an arson investigation was under way.

Whipped by hot winds off the desert, rustling up to 70 miles per hour, the blaze Saturday drove through Morena Village, a retirement and vacation community, and the Buckman Springs Road area, burning 15 buildings, including five homes and three trailers, at a loss estimated by state fire officials at \$250,000. About 350 persons were evacuated.

## Aide denies affidavit

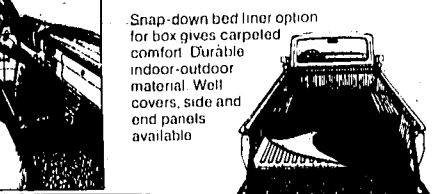

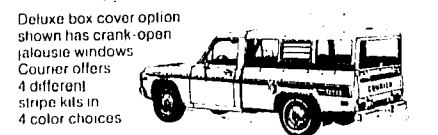

WASHINGTON (UPI) — A spokesman for the Senate Rules Committee, which will hold hearings on the nomination of Gerald R. Ford to be vice president, has denied that the panel received an affidavit from a lobbyist charging that Ford accepted \$15,000 in loans he never paid back.

Columnist Jack Anderson reported Sunday that lobbyist Robert N. Winter-Berger submitted a four-page affidavit to the Senate Rules Committee charging that Ford accepted the money in "amounts of \$50 to about \$250" between 1966 and September, 1969, and never offered to pay it back.

## Rape-murder suspected

COEUR D'ALENE (UPI) — Coeur d'Alene police are investigating the possible rape-murder of a 15-year-old girl whose body was found in a residential section in Coeur d'Alene during the weekend.

The girl, Debra Alice Prety, daughter of Mr. and Mrs. Paul Prety, was reported missing Friday night after she failed to return from a school dance.

Police Chief Robert Nuttelman said the body of the girl was found Saturday morning near her home by neighborhood youths. An autopsy was completed, but Nuttelman said he had not yet seen the report.

The investigation continued. No suspects were in custody Sunday.

## Fort Hall man arrested

BOISE (UPI) — Police arrested a Fort Hall man on marijuana charges at the Boise Air Terminal over the weekend. Matthew Clyde Hall, 22, Fort Hall, was released on \$300 bond. He is scheduled to appear in Magistrate Court Tuesday.

## Fire damage high

SALMON, Idaho (UPI) — Damage may be as high as \$60,000 from an arson-caused fire Oct. 22 at the A.B. Brough Warehouse in Salmon.

Police were called in to investigate when evidence indicated the fire was deliberately set. Now, an adjuster is investigating to determine the extent of damage.

The Brough office was broken into and fires were set to the floor and a counter. Officials said locks on doors of a storage area were pried off.

Extensive damage was caused to the warehouse midsection. No arrests have been made in the incident, police said.

## Granges to meet

BOISE (UPI) — John W. Scott, Harrisburg, Pa., master of the National Grange, will be a special guest at the 65th annual meeting of the Idaho State Grange beginning in Boise Tuesday.

Delegates and visitors are expected to attend the four-day meeting from Idaho and neighboring states. Gov. Cecil D. Andrus will address the opening session Tuesday.

## IEC head resigns

CATSKILL, Idaho (UPI) — Gerald Jayne says he is stepping down as president of the Idaho Environmental Council because he does not have sufficient time to devote to the organization. Jayne made his announcement during an IEC meeting Saturday in Caldwell. A new president is to be named by mail ballot.

IEC directors during that meeting rejected a Forest Service proposal for the Idaho and Salmon River Breaks primitive areas. The council voted to support wilderness classification for more than two million acres, instead of the 1.5 million acres as set forth by the U.S. Forest Service.

The Forest Service is required under the Wilderness Act to recommend wilderness status or declassification of the two primitive areas. Hearings on the matter are scheduled in Pocatello, Boise and Lewiston during November.

## FAA probes crash

SHELLEY, Idaho (UPI) — Federal Aviation Administration officials are investigating the crash of a light plane and resulting fire on Taylor Mountain near Shelley.

The Saturday crash killed pilot Ray Draney, 19; his brother Mark, 27; Don Parks, 22, and Mark Fielding, 21, all of Shelley. Funeral services for the men are pending.

Robert Armbrist, operating inspector with the FAA from Boise, and David Beardsley, investigator with the National Transportation and Safety Board from Seattle, examined the wreckage but said the cause of the crash was under investigation.

## Physician injured

BOISE — A Ketchum physician was reported in satisfactory condition at St. Alphonsus Hospital here today following an auto accident Oct. 19 near Galena Summit.

Dr. George B. Saviers, 58, Ketchum, received a fractured vertebra when his car left Highway 93 mile south of the Galena Summit and rolled down an embankment.

St. Alphonsus spokesmen said today Dr. Saviers will remain in traction about five weeks to allow the spinal injury to heal.

## Statement made public

WASHINGTON (UPI) — The Department of the Interior has made public a final environmental impact statement describing potential development of geothermal steam resources in the federal lands of the West as supplementary sources of energy.

The statement, submitted by Interior Secretary Rogers C. B. Morton to the President's Council on Environmental Quality, evaluates possible impacts resulting from adoption of the department's proposed geothermal regulations for the leasing of federally owned geothermal resources.

## Pageant slated

SALT LAKE CITY (UPI) — The First Presidency of the Church of Jesus Christ of Latter-day Saints has set the dates for the 1974 Hill Cumorah Pageant.

The pageant — titled "America's Witness for Christ" — will be seen on the Hill Cumorah near Palmyra, N.Y., July 26 and 27, and July 30-Aug. 3. The outdoor stage presentation has been presented by the LDS Church annually since 1937.

It depicts scenes from the Bible and the LDS Church's Book of Mormon and from the founding of the Mormon Church in the 1800s.

## Miracle baby survives

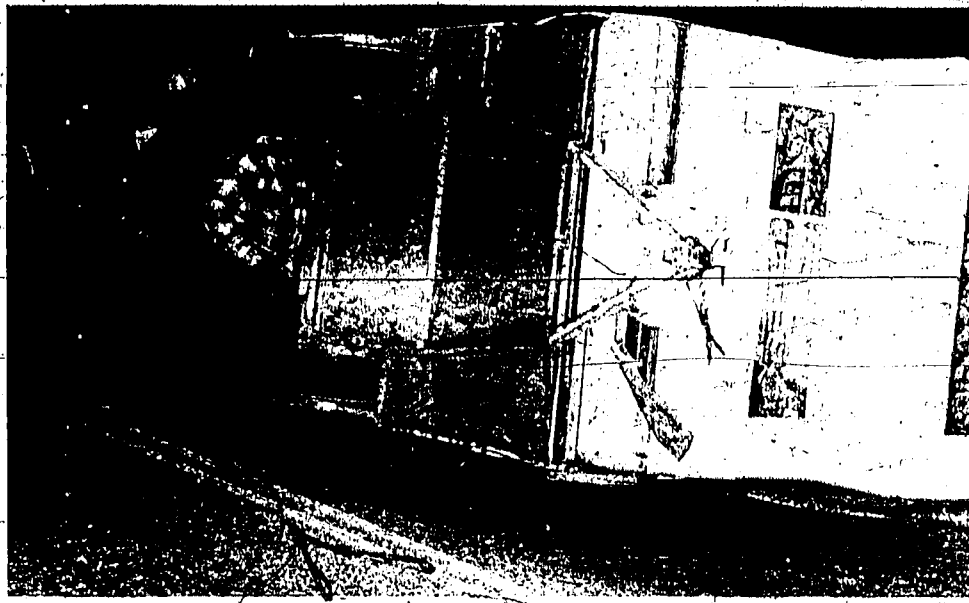

NYSSA, Ore. (UPI) — Javier Alfonso Gonzales, the four-month-old boy born last June to a mother who later died of botulism, now weighs more than 10 pounds and is considered a miracle baby.

The child was born June 20 at St. Alphonsus Hospital while his mother, Mrs. Enrique Gonzales, Nyssa, Ore., was being treated for the food poisoning ailment. She died a week after her premature baby was delivered.

The source of the poisoned food was never determined. The surviving child was believed to be the first born to a woman suffering from botulism.

County health officials say the child is healthy, receiving a regular formula, plus cereal and fruit.

A fund to help the family — faced with high medical bills has been set up at a Nyssa bank.

Tipped trailer blocked Perrine Bridge during Sunday windstorm

## Youth still 'critical'

TWIN FALLS — A 14-year-old Twin Falls youth remained in critical condition this morning in Magic Valley Memorial Hospital from injuries received last Thursday when he was struck by a truck.

Jerry Lynn Craghead was reported by a hospital spokesman to be "slightly improved" today but still in critical condition.

The Craghead youth suffered multiple fractures, internal injuries and head injuries when he was struck by a pickup truck driven by Darrel Lee Schmitt, 17, Twin Falls, about 4:30 p.m. Thursday along Pole-Like Road.

Craghead was apparently walking home from his school bus stop when he was struck by the truck.

According to police reports, Schmitt came upon the Craghead youth walking down the center of the road and swerved his truck to avoid missing him. However, the youth was hit as he darted into the path of the swerving truck while trying to avoid it.

## Balloon rites

MOUNTAIN-HOME, Idaho (UPI) — Ever heard of a wedding where the bride couple floats in a hot air balloon and the minister performs the ceremony on the ground over an intercom system?

That's what Michelle Curney, 20, and Donald Marsief, 21, Mountain Home, hope to accomplish Nov. 4. They plan to be married in a hot air balloon floating above Ann Morrison Park in Boise.

Miss Curney said they decided on a balloon wedding because it was "unique." Pharmacist Doug Misner at the Mountain Home Drug Store where she works will pilot the balloon, to be tethered to the ground. Misner is president of Intermountain Balloons, Inc.

## Gooding OK's subdivision

GOODING — A subdivision proposal has been approved by the Gooding County Planning Commission.

The subdivision, located east of Wendell, will consist of five-acre plots with 50-foot roads and will include about 10 building sites, according to Marcus Koll, who presented the proposal to the Planning commission.

The subdivision proposal has already been approved by the City of Wendell and will require final approval from the Gooding County Commission.

A committee was appointed by the planning commission to draw up guidelines for setting subdivision approval procedures. The committee is made up of Bruce Robertson, Thelma Ferguson, and Hup Erwin.

According to planning commission chairman, Robert Bolte, the chairman is necessary because every subdivision proposal up to now has been handled differently.

Bolte said since the county does not have law governing subdivisions, the planning commission must operate under state planning commission laws but should have its own procedures for approving subdivisions.

## Blaine okays credit plan

SUN VALLEY — Uniform credit and collection policies have been adopted by the boards of trustees for the Blaine County Hospital, Hailey, and the Moritz Community Hospital, Sun Valley.

According to Gary Steinbach, administrator for both hospitals, the following credit and collection policies were effective Sunday.

All hospital in-patient accounts which are 120 days overdue will be turned over to hospital collection agencies. The exception to this policy will be to patients who have made specific arrangements with the hospital business office for reasonable regular monthly payments on their bill.

Payment for all emergency and out-patient services will be on a cash or credit card basis.

Steinbach said hospitals throughout Idaho are adopting credit and collection policies which conform to accepted business practices.

## Kids parade draws crowd

HAILEY — Pint sized spooks, goblins and story book characters paraded down main street, Hailey, Saturday, led by the day's honored guest, the "good witch of the west."

The event was the "kids parade," part of the Hailey Halloween Fun Day staged by the Hailey Chamber of Commerce merchant's committee. Winners from the about 125 entries in the parade included the following.

Most original costume: first, "Bert and Ernie," Jeffrey and Matthew Piterin; second, "Red Riding Hood," Patty Wilson; and third, "Snoopy," Brent Bishop.

Spookiest: first, "Hunchback of Notre Dame," Mike Kleven; second, "Vampire," Kip Brower; and third, "Headless Horseman and Igor," Paul Richards and Mike Barker.

Funniest: first, "Clown," Lowell Anderson; second, "Old Lady," Amy Jo Morey; and third, "The Great Pumpkin," Madeline Jacobsen.

Honorable mention: "Scarecrow," Darren McGrath; and "Raggedy Ann," Darcy Ramsey.

Parade co-chairmen were Deanna McGrath, Carolyn House and Wanda Kinghorn.

Winners chosen from the about 40 entries in the jack o'lantern contest chaired by Jim Montgomery — were as follows.

One through nine year olds: first, Kathy Grant; second, Steve Richards; and third, Darren McGrath.

10 through 14 years olds: first, Paul Richards; second, Lennett Dabis; and third, Kim Jones.

## Accidents caused by wind, dust

TWIN FALLS — Wind and dust storms Sunday evening caused power outages and accidents and closed at least one road in the Magic Valley.

A 16-foot trailer owned by Curtis Smith, Twin Falls, was ripped from a pickup on the Perrine Bridge at about 6:30 p.m. and blocked traffic on the bridge for two hours, according to state police.

The trailer was being towed by a pickup driven by Harlan McMillen, Twin Falls. Smith, his son, Chad, Dick King, his son, Greg, and two of McMillen's sons, Bob and Brent, were passengers in the pickup.

The state police reported no injuries. A crane was dispatched to the bridge and removed the trailer about two hours after the accident, according to the state police.

The trailer reportedly sustained about \$1,500 in damages.

The Idaho Power Co. reported electricity outages in the Hunt project area, near Hazelton and Eden, in the Castleford-Buhl area and in the Hagerman Valley.

The outage in the Castleford-Buhl area lasted from about 7 p.m. to midnight, according to Idaho Power officials.

The Hunt project outage was from about 7 p.m. to 9:30 p.m., according to the firm.

Power was out in the Hagerman Valley for about one hour, from 7 to 8 p.m., Idaho Power reported.

The Magic Valley had "quite a few scattered outages" in addition to the major power losses, the firm said.

A section of Highway 27 north of Oakley was closed "for a few minutes" around 7 p.m. due to a dust storm, according to the state police.

## Vandals hit bar register

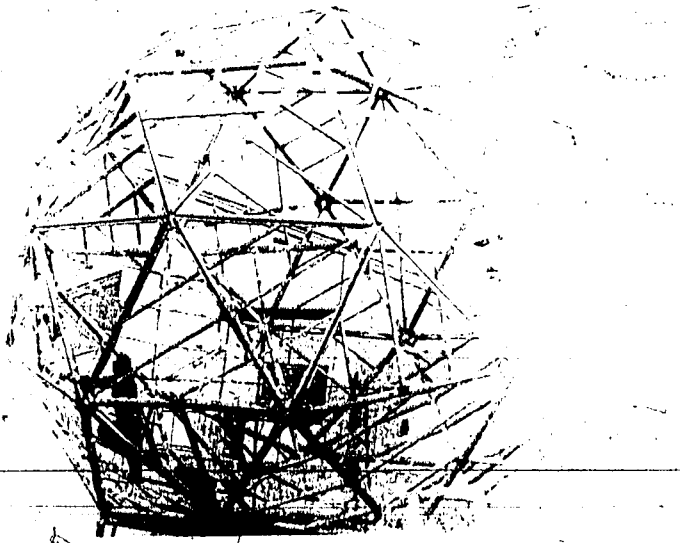

TWIN FALLS — The Chateau Bar, Twin Falls, was reported broken into over the weekend and an antique cash register damaged.

According to police reports, Mrs. Frank Garcia, wife of the owner of the bar which is located on 3rd Avenue West, reported Sunday that the bar was broken into about 8:15 p.m.

Mrs. Garcia told the police the building was entered through forced means and the cash register dragged out of the bar and smashed. There was no money in the cash register, she said.

Damage to the cash register was estimated at \$500.

In an unrelated theft Sunday, Melvin Preckel, Jerome, told Twin Falls police a tool box containing about \$300 in tools was stolen out of the back of his pickup truck Sunday evening while it was parked in the 100 block of Blue Lakes Boulevard.

## Structure dismantled

PIONEERING Geodesic domed structure, a well-known Ketchum landmark, is being dismantled for salvage. The unique wood structure was built by a contractor who once planned to make it into a house. Possessors have often expressed wonder at its purpose.

# New West End cemetery district asked

By GEORGE WILEY  
Times-News writer

TWIN FALLS — Lack of funds to buy land and the approaching exhaustion of burial plots in the Buhl Cemetery have resulted in a recent petition for a new cemetery district to take in Buhl and Castleford.

Petitions were filed last Monday with the Twin Falls County Commissioners to hold a special election to create a West End Cemetery Maintenance District to include the portions of the Buhl and Castleford school districts within Twin Falls County.

Buhl City Clerk Francis McArthur said Friday Buhl officials have known for some time that the present Buhl Cemetery would have to be expanded soon if alternate arrangements were not made.

Mrs. McArthur said the cemetery, operated by the City of Buhl, has been running in the red for the last three years and four of the last six years.

The city consequently has no money in the cemetery fund to buy farmland adjacent to the present cemetery when the

estimated 1,000 remaining burial plots become filled in the next few years, she said.

The city is currently empowered to levy a tax on city residents to fund expansion of the cemetery, Mrs. McArthur said, but city officials have opted instead to seek a new cemetery district, since more than half of the burial plots bought in the Buhl cemetery are purchased by out-of-city residents.

Over the last six years, the city clerk said, 218 plots were bought by Buhl residents and 281 by persons not residing in Buhl.

If the proposed special cemetery district election is successful, the district can then levy up to two mills on all real and personal property in the district for either expansion and maintenance of the present cemetery or the construction of a new cemetery.

Mrs. McArthur said no decision has been made on whether to expand the present cemetery or purchase land for a new one. This decision, she said, will be up to the cemetery district board if the election is successful.

One reason the present cemetery has been running a deficit, Mrs. McArthur said, is that the price of burial plots, until prices

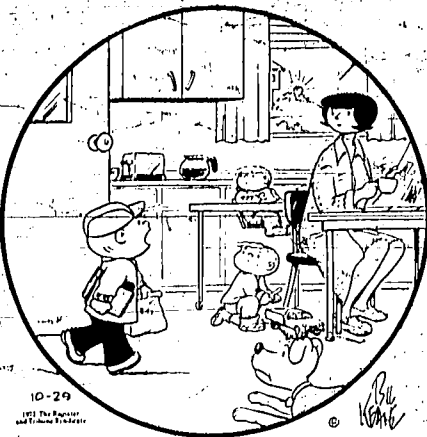

were raised in July, was unusually low.

Since July plots have sold for \$60 for Buhl residents and \$100 for out-of-city residents. Prior to July all plots sold for \$60, the clerk said. The low price not only kept the cemetery operation in the red, it encouraged persons from outside Buhl to purchase plots, she added.

The Twin Falls County Commissioners have set a public hearing on the proposed cemetery district for Nov. 14. The tentative date for the election, if approved by the commissioners, is Dec. 18.

The cemetery district election is the third to come before the county commissioners within a month. A little over a week ago, petitions were presented for a special election for a Filer recreation district, and petitions are now being gathered to hold a special election to consolidate part of the Twin Falls Highway District in the Buhl Highway District.

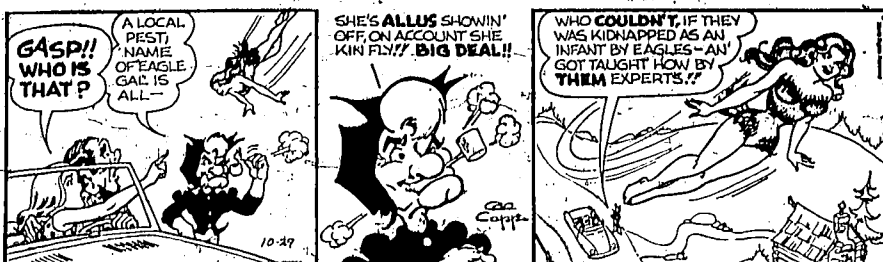

County Clerk Harold Lancaster estimated Friday that the cost of the cemetery district election would run to about \$1,000, including advertising and printing costs as well as opening the polls.

"Darn! The school bus missed me today, Mommy!"

Carroll Righter

FORECAST FOR TUESDAY, OCTOBER 30, 1973

**GENERAL TENDENCIES:** The morning is fine for accepting new concepts in your financial affairs as well as in partnership matters. The afternoon and evening require much tact to avoid serious arguments. Strive for more understanding with kin.

**ARIES (Mar. 21 to Apr. 19)** If you do research work in the morning you can make real progress in present endeavors. Tonight use tact in dealing with others.

**TAURUS (Apr. 20 to May 20)** You have an opportunity to solve a financial problem early in the day. Use your intuitive faculties since they can be helpful to you.

**GEMINI (May 21 to June 21)** Doing whatever pleases associates in the evening will add to present goodwill. You can easily turn an enemy into a true friend.

**MOON CHILDREN (June 22 to July 21)** If you don't waste time you can gather the data you need before afternoon Relax tonight and restore your energies.

**LEO (July 22 to Aug. 21)** Morning is a good time to plan a social affair. Later attend to important duties but don't take any risks with anyone or anything.

**VIRGO (Aug. 22 to Sept. 22)** Work family affairs out properly early in the day. Later iron out any problems in your business life. Entertain at home tonight.

**LIBRA (Sept. 23 to Oct. 22)** Morning is the best time for keeping appointments. Take time later to solve any troublesome matters. Go over records for possible errors.

**SCORPIO (Oct. 23 to Nov. 21)** Show that you are clever in handling financial matters. Care must be taken in motion of any kind. Take it easy at home tonight.

**SAGITTARIUS (Nov. 22 to Dec. 21)** The early hours are ideal for handling personal affairs but the afternoon is best for business and property matters. Be wise.

**CAPRICORN (Dec. 22 to Jan. 20)** Do some confidential angling that can help put your project in operation. Steer clear of a social affair that could lead to trouble.

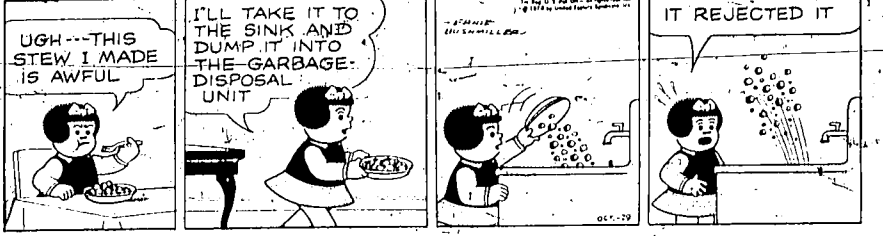

**AQUARIUS (Jan. 21 to Feb. 19)** Do whatever will please your good friends and show how much you value their alliance. Think over your personal aims for the future.

**PISCES (Feb. 20 to Mar. 20)** Handling career affairs well during the day is important. Later be careful you don't lose your temper with a good friend. Relax tonight.

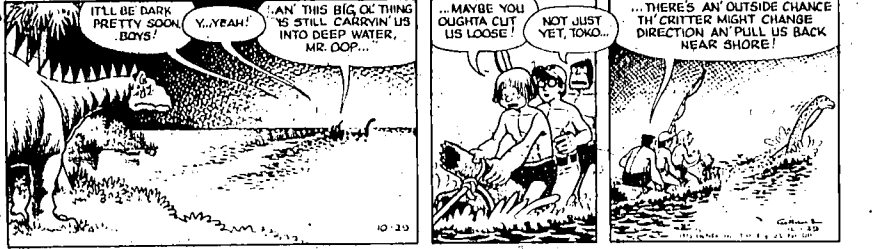

**IF YOUR CHILD IS BORN TODAY** — he or she will be of those delightful young persons who like or dislike and turn out to be very gregarious. Be sure to include technology in the educational curriculum. A great many individuals can be helped by your good and clever progeny. There is much travel indicated in this fine chart.

The Stars impel, they do not compel! What you make of your life is largely up to YOU!

"Spinage" is also a correct spelling for "spinach," please note.  
A man's body temperature is just a little bit lower than the woman's.

Elephants have terrible nightmares.  
Artificial insemination experts report numerous babies have been fathered from sperm frozen and stored many years. Such babies are said to just as normal and healthy as those fathered in the usual fashion. This is why some doctors now recommend that any man who wants to submit himself to sterilization should first deposit in an artificial insemination deep-freeze the wherewithal for future fatherhood, just in case.

**SOUS CREAM**  
Q "How long does it take a dairy to turn a batch of fresh milk into sour cream?"  
A. About 30 minutes, I'm told.  
Q "Please report the approximate size of Robin Hood's Sherwood Forest."  
A. In his time, about 200 square miles. In our time, about 200 acres. Only 400 oak trees still stand there now. Near Nottingham, England.

How does this sound to you as a breakfast? Clam chowder, pork and beans, cornbread, pumpkin pie and cold beer. Col. William F. "Buffalo Bill" Cody supposedly made his morning meal out of that regularly.

One medical investigator insists his findings prove 12 per cent of the women nationwide reach menopause between the ages of 36 and 40. And 15 per cent, between 51 and 55.

**ESTABLISHMENT**  
Question arises as to how "The Establishment" came to be so named. That goes way back. A wealthy English scientist named James Smithson bequeathed \$500,000 to the United States to found the Smithsonian Institution. In 1829, he died in Italy, incidentally, without ever having visited the U.S.A. At any rate, in 1846, to run the Smithsonian, Congress created a corporate group, consisting of the President, the Vice-President, the Chief Justice and various heads of departments plus regents. And that group was formally designated "The Establishment."

Some television studio wag in Dallas recently handed a newscaster on camera a note, and the old boy read "A late bulletin. You've got a piece of spinach or something on your front teeth..."

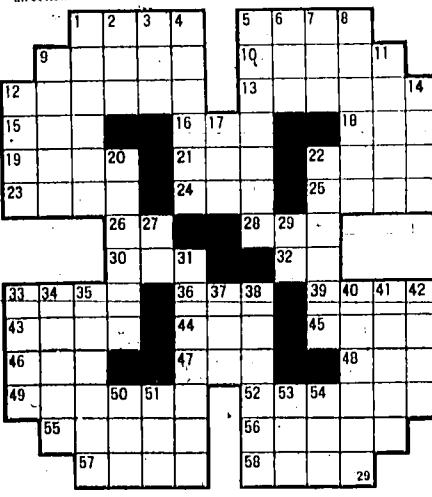

Am now advised nothing works better to clean the terrible odor out of an inadvertently defrosted freezer than a plate of grapefruit rinds left therein for a few days.

Ratio of men to women in college now is 59 to 41, sir.

## MAJOR HOOPLE

# Shoshone sets Halloween fete

SHOSHONE — A Halloween carnival will be held at the Lincoln school auditorium at 7:30 p.m. Wednesday, sponsored by the High School. This is an annual event sponsored by the school with prizes for various concessions provided through community donations.

There will be entertainment for people of all ages, the school reports.

Mayor Ellwood Werry requests that children of the community respect property and avail themselves of the opportunity to attend the carnival and adults to be careful driving that night to avoid danger to youngsters out for trick-or-treat.

He suggests further that all little children have an older person with them to supervise and instruct them.

Mayor Werry said "Let's all take whatever action possible to make this a trouble free evening."

# College offers shorthand class

TWIN FALLS — Because of many requests, the Department of Adult Education in conjunction with the business department of the College of Southern Idaho is offering a beginning Gregg shorthand class, starting at 7 p.m. Nov. 5.

The objective of this course is to assist students in obtaining limited shorthand skills in theory, dictation and transcription sufficient to qualify them for basic employability. One necessary requirement for enrollees is

# Mothers named for Shoshone school

SHOSHONE — Room Mothers for the Lincoln school have been named: Mrs. David Porter is the chairman.

Others include Mrs. Melvin Larraway, first grade; Mrs. Porter, second; Mrs. LaMar Duffin, third; Mrs. Bud Warbis, fourth; Mrs. Ivan Hopkins, fifth; Mrs. Gordon Connell and Mrs. George Swanner, sixth.

The mothers have decided to try to carry out a new program this year, whereby they will call on several mothers to assist with various projects.

Oswald: "Good defense in rubber bridge consists of trying to find a way to defeat the contract. In match-point duplicate you also play to keep declarer from making overtricks when the contract appears safe."

Jim: "With today's hand either a rubber-bridge or match-point player should go all out to defeat the contract. The match-point player would see that he could have saved cheaply against South's game and therefore could not expect a good score if the contract waltzed home."

Oswald: "West's king of

clubs holds the first trick. He should note that if his partner holds either the ace of diamonds or king of hearts that two spade tricks added to one club and one red-suit trick will beat declarer. He should then decide on the best way to get two spade tricks.

Jim: "An immediate spade play is essential. He can lead the ace or nine and get his two spade tricks if East holds the jack and South has at least three spades."

Oswald: "Further study will show that he can also get two spade tricks if East holds the 10 spot and he, West, leads the queen."

Jim: "Assuming he is a good enough player to see it, West should lead the spade queen and declarer will wind up down one."

# Abby

Abigail Van Buren

DEAR ABBY: You recently advised a storekeeper against keeping a loaded gun under the counter in order to protect himself against possible robbers. Why? In Switzerland every citizen is required by law to keep a gun in his home, and they have one of the lowest rates of homicide and armed robbery in the world! M.C. IN VA.

DEAR M.C.: I advised the storekeeper against keeping a loaded gun under his counter for "protection," because his wife stated that he had never fired a gun in his life. I repeat the advice.

You are correct about Switzerland. But their unique situation requires some clarification. Switzerland has no standing army—they are purely a citizens' army. Every physically and mentally fit Swiss male is required to take military training when he reaches the age of 20. He also must take a refresher course annually until he is 50. Meanwhile, he keeps his guns and ammunition at home.

# Don't keep loaded gun

If you are suggesting that perhaps if every American had a gun in his home, it would reduce the national incidence of homicide and robbery, I would remind you that unless one is well trained in the use of firearms, he is better off without them.

DEAR ABBY: Just a moment, please. What does "Bewildered Grandma" mean, saying her granddaughter looks like "a little old lady" from the hills of Tennessee, because she wears her hair pulled back straight in a bun, no make-up whatsoever, and funny little wire-rimmed glasses?

What gives people the impression that we people in Tennessee are a bunch of ignorant hillbillies who still use outhouses, go barefoot, marry at age 11 and do nothing but drink moonshine all day?

Tennessee is a beautiful state, and Tennesseans are the most hospitable, considerate and compassionate people in this country!

PROUD IN KINGSPORT

DEAR PROUD: Bravo! Now, let's hear it from The Jackson Sun:

DEAR ABBY: A "bewildered grandma" complains because her beautiful 22-year-old granddaughter doesn't wear a drop of makeup, and doesn't go in for fancy hairstyles and up-to-the-minute fashions. I should be so lucky with my 17-year-old daughter.

She is a naturally beautiful girl, with big brown eyes, a flawless complexion and a gorgeous smile, but every morning she piles the makeup on so thick she looks unreal. I never know from one day to the next whether her eyelids will be blue, green, purple or brown.

I am waiting for the day my daughter grows up, and realizes, as "Bewildered's" granddaughter has, that the more natural a girl looks the more beautiful she is.

JEALOUS IN JACKSON, TENN.

DEAR ABBY: Tell that old lady who burred the folks in Tennessee she doesn't know what she's talking about. The State of Tennessee has got to be the greatest because Elvis Presley was born here!

LOVES ELVIS IN MEMPHIS

DEAR LOVES: Sorry, but Elvis was born in Tupelo, Miss.

Hate to write letters? Send \$1 to Abigail Van Buren, 133 Laaky Dr., Beverly Hills, Cal. 90212 for Abby's booklet, "How to Write Letters for All Occasions."

MR. AND MRS. GEORGE E. MITCHELL

# Mary Holcomb marries Mitchell

TWIN FALLS — Mary Ester Holcomb and George Edwin Mitchell were married in an Oct. 12 candlelight ceremony at the Twin Falls First Nazarene Church.

The double ring ceremony was performed by Rev. Joseph Chastain before an altar decorated with white chrysanthemums and yellow gladioli.

The bride is the daughter of Mr. and Mrs. Joe E. Holcomb, Hansey. The bridegroom's parents are Mr. and Mrs. George H. Mitchell, Twin Falls.

The bride, escorted by her father, wore a full-length gown of lace featuring long fitted sleeves.

Her tiered veil of bridal illusion was held in place by a crown of lace trimmed with pearls. She carried a bouquet of yellow roses, white daisies and baby's breath.

Ireta Norris was maid of honor. Bridesmaids were Nancy Huxsol, Sue Spain and Bonnie Jones.

Larry Eastman, nephew of the bridegroom, was best man. Ushers were Dave Eastman, nephew of the bridegroom; Mike Sullivan, Jerome, and Fred Davis, Twin Falls. Bonnie Jones and Fred Davis were candlelighters.

Flower girls were Angie and Cindy Holcomb, nieces of the bride, and Sandra and Shirleen Eastman, nieces of the bridegroom. Randy Holcomb, nephew of the bride, was ringbearer.

Mrs. Barbara Mason played wedding music. Mike Dixon was soloist, accompanied by Mrs. Mason.

The couple was honored at a reception after the ceremony in the church recreation room.

The bride's table was covered with yellow satin and white lace and decorated with white, chrysanthemums and yellow and white daisies. The three-tiered wedding cake was made by Mrs. Jeanie Brown and decorated with daisies and a miniature bridal couple.

Debra Eastman, niece of the bridegroom, registered guests. Mrs. Paul Eastman, sister-in-law of the bridegroom, Mrs. Rhonda Rainbo and Mrs. Barb Shewmaker cared for and displayed gifts.

Mrs. Gerald Holcomb and Mrs. Paul Holcomb, sisters-in-law of the bride, cut and served the cake and served punch and coffee.

The bride is a graduate of the College of Southern Idaho and is employed at Magic Valley Memorial Hospital. The bridegroom is a graduate of the College of Southern Idaho vocational school and is employed by Blue Lakes Volkswagen.

Pre-nuptial showers were given for the bride by members of the Nazarene Church of Kimberly and the Twin Falls First Nazarene Church.

After a wedding trip to the Oregon coast, the couple will reside in Twin Falls.

# Bank toured

DIETRICH — Members of the Dietrich General Business class at the High School toured the Shoshone office of First Security Bank Thursday.

Mrs. Dan Kelley, bank employe, showed the class through the bank and explained the work. Roy Hubert, bank manager, answered questions and explained the facilities and work to the group.

John Sabala, teacher, accompanied the group.

# Adult classes offered

DIETRICH — Classes in bookkeeping, office practice and some typing will be offered adults through the Dietrich school, Supt. Wayne Perron said.

The classes will be taught in the evening at the school if enough persons are interested. At least eight are to be enrolled for the class.

There will be no charge and persons from Richfield and Shoshone areas may also take them.

Interested persons may contact Supt. Perron at the school for additional information.

# Decisions called very agonizing

(c) Chicago Daily News — With the consent of parents, 43 infants have been deliberately allowed to die at Yale-New Haven Hospital over a 2 1/2 year period because doctors decided their birth deformities could not be overcome to afford "meaningful happiness."

The extraordinary disclosure in a medical report by two staff pediatricians underscored the devastating moral and ethical dilemma—little known to the public—that is faced every day in special care nurseries where the severely impaired youngsters are referred.

Dr. Raymond Duff, associate professor pediatrics, said in a telephone interview that the agonizing decisions must be made in the best interests of the child who cannot speak for himself.

"Those who claim the right to life is a one-way street must realize there is also a right to die," he said.

"The critical question parents and physicians must answer is 'can you live with your decision for the rest of the year life?'"

If they think they can, it is the right decision, if they think they can't, the decision should be thought through again.

Given full information, parents can make a just decision, he said.

Duff and his associate, Dr. A. G. M. Campbell said every decision was painful and many cases prompted arguments among doctors themselves, among nurses and doctors and occasionally among parents who wanted treatment stopped and doctors who did not.

Those who opposed death argued that the prognosis might be inexact; that the child, given extensive care, might live for months or even years. Some feared law suits or compromising the hospital's reputation.

Some doctors opposed death on the grounds that science can never learn to cure these problems in the future if there are no children to study.

In one case, a junior office said to a senior physician investigating this child, don't you think it's time to turn off your curiosity so you can turn on your kindness?"

In another case, a nurse said to a doctor, "We lost him several weeks ago. Isn't it time to quit?"

Parents were tormented. Some felt there were limits to

the crushing burden they could bear or feared that their children would become "socially enslaved, economically deprived and permanently stigmatized, perhaps for a lost cause."

In most cases, there was unanimity of judgment after it became apparent the child's condition exceeded the capacities of medical care and rehabilitation.

For example, one child born with lung and heart problems continued at age 5 months to require 40 per cent supplemental oxygen to survive and even then was blue and short of breath.

Nurses, parents and physicians considered it cruel to continue and yet difficult to stop. All were attached to the child. But when the hospital bills mounted and the strains of illness threatened the marriage and other children's behavior, the decision was made to stop oxygen supplementation. The child died in three hours.

Eighteen months later, the parents had another baby who was healthy.

The Yale report in the New England Journal of Medicine is likely to provoke renewed response for critics of euthanasia. Last April, the Illinois Right to Life Committee and the Illinois Citizens concerned for life charged a Decatur, Ill., hospital with starving a mongoloid child.

The baby's esophagus was incomplete and parents rejected an operation that would have permitted normal eating and would not permit intravenous feeding.

The first European settlement in the United States was San Gabriel, N.M., which was colonized by Juan de Onate and 200 other Spaniards in 1598.

# Aides probe Nixon funds

(c) New York Times Service  
WASHINGTON — Federal and congressional investigators are looking into possible "corruption" at the highest levels of the Nixon administration and have been focusing on the personal finances of the President himself, Newsweek Magazine says in its edition to be published tomorrow.

White House Press Secretary Ronald L. Ziegler, contacted by telephone, called the Newsweek article "incredible." He said that White House lawyers were looking into the statements in the article and added that the White House would have a statement on the article later.

In one inquiry, according to the news magazine, investigators are looking into the possibility that Nixon may have "manipulated" some family-owned property transactions to minimize the capital gains tax required.

The magazine said that in 1967, Nixon bought two lots near his Key Biscayne property from a friend of Charles G. Rebozo, a close friend of the President, for what it called the "bargain price" of \$37,600, and then sold the same property for \$150,000, leaving a profit of \$112,400.

Newsweek said it had learned that Tricia Nixon, now Mrs. Edward F. Cox, the President's elder daughter, was an "unrecorded partner"

in the property transactions and that \$20,000 of her money was included in the original purchase price.

However, according to Newsweek, investigators have found that the President claimed the entire capital gain on the deal as income on his own tax return. Since Nixon had already established large deductions, according to the investigators' theory, he claimed the gain because less taxes would have to be paid on the profit than if it were recorded as Mrs. Cox's income.

Newsweek quoted one tax expert as saying of this procedure, "that would be rearranging the family's property for the purpose of avoiding a tax. There have been fraud cases brought on that." The White House said Mr. and Mrs. Cox had paid taxes on the transaction, Newsweek said.

Methods used by Nixon to establish his "tax-shelter" deductions, under which he reportedly was able to pay taxes of only \$792.81 in federal income taxes in 1970 and \$873.03 in 1971 are also being investigated, the magazine reported.

In particular, investigators are scrutinizing the \$570,000 income tax deduction Nixon claimed for the "charitable donation" of his vice presidential papers to the national archives.

JULIE EISENHOWER gives comments

## Vitamin issue upheld

WASHINGTON (UPI) — A spokesman for an association of senior citizens has told Congress the federal government is right in its plan to restrict sale of heavy doses of vitamins. He says "private interests" are working to defeat the plan.

Cyril F. Brickfield, counsel for the American Association of Retired Persons and the National Retired Teachers Association, defended the government's plan in testimony prepared for the opening of a two-day House commerce subcommittee hearing into the question. The panel has before it at least four bills designed to block the regulations.

"While our support has prompted a vicious attack by private interests representing makers and sellers of nutritional food products, we continue to believe the regulations are sane, sensible and serving in the public interest," Brickfield said.

# Rostow raps Soviet steps

(c) New York Times Service  
ST. LOUIS — Eugene V. Rostow today sharply denounced Soviet intervention in the Arab-Israeli conflict as a "carefully planned move threatening the fundamental security of the United States and its allies."

"The events of the last few weeks should be a sobering experience for American public opinion," said Rostow who was under secretary of state for political affairs during the Johnson administration and is today a member of Yale University's Law School faculty.

Rostow asserted that the U. S. Government be explicit "about what the Soviet Union has done," saying "it has deliberately used aggressive war as an instrument of national policy and in using wars as an instrument of policy, it has not hesitated to exploit anti-Semitism as a weapon."

Rostow's remarks before 500 Jewish leaders from various parts of the country highlighted the closing sessions of the annual meeting of the American Jewish Committee's Policymaking National Executive Council.

A definitive peace in the Middle East between the Arab states and Israel, Rostow said, "is indispensable in many perspectives."

"It should permit the moderate Arab states," he said, "to recover their equilibrium, and to convince Egypt and Syria that their willingness to act as Soviet proxies has brought them nothing but tragedy. It should permit our relations with the oil producing states to return to normal."

"And we can hope at least that it would help the Soviet Union to realize that détente is a goal to be realized by responsible political action not a mask for old fashioned imperialism," as usual," he declared.

parts of the country highlighted the closing sessions of the annual meeting of the American Jewish Committee's Policymaking National Executive Council.

A definitive peace in the Middle East between the Arab states and Israel, Rostow said, "is indispensable in many perspectives."

"It should permit the moderate Arab states," he said, "to recover their equilibrium, and to convince Egypt and Syria that their willingness to act as Soviet proxies has brought them nothing but tragedy. It should permit our relations with the oil producing states to return to normal."

"And we can hope at least that it would help the Soviet Union to realize that détente is a goal to be realized by responsible political action not a mask for old fashioned imperialism," as usual," he declared.

## No restraints

GEN. Alexander Haig, White House chief of staff, said Sunday the Administration's new Watergate prosecutor will be free of any prior restraints. Haig commented on the new prosecutor during a television interview. (UPI)

## 336 POWs returned

NEW DELHI (UPI) — India today sent back another 336 Pakistani prisoners of war to Pakistan through the Wagah border, 300 miles west of New Delhi.

With today's repatriation under the Delhi agreement of last August, India has sent back 17,105 of the 90,000 POWs captured in the December, 1971, Indo-Pakistani war.

# Solon opposes Middle East aid

WASHINGTON (UPI) — Sen. Mark O. Hatfield, R-Ore., is considering asking Congress to prohibit the use of any U.S. forces in the Middle East.

Hatfield said Sunday that when President Nixon's bill authorizing \$2.2 billion for military aid to Israel, he considered he may offer an amendment outlawing the use of any funds "to finance directly or indirectly any combat activity by United States military forces in or over or from off the shores of any country in the Middle East."

over or from off the shores of any country in the Middle East.

He said the proposal is in accord with the principle laid down Thursday by Secretary of State Henry A. Kissinger opposing the introduction in the Mideast of the forces of either nuclear superpower.

Sushi or sashimi are bite-sized Japanese delicacies whose main ingredients are fillets of uncooked fish.

# Reappointment idea 'unsound'

WASHINGTON (UPI) — Though he wants Congress to create a new Watergate prosecutor, Archibald Cox says he doesn't think he should have the job again himself.

Cox, who was fired as special prosecutor by President Nixon after he kept demanding the President's tapes through the courts, said on NBC television's "Meet the Press" Sunday it would be "unsound" to give him the job, because it would be interpreted as evidence he bears a grudge.

"A few friends whose judgment I respect have said, 'Well, it is all right for you to close the door, but don't lock it tight,' and I suppose if I were pressed, that I would have to consider it."

"But I am not looking for it, and my own judgment is, quite strongly, it would be unwise for anyone to offer it to me and unwise for me to take it," Cox said.

Asked about reports he was fired because administration officials believed he was out to "get" President Nixon, Cox replied: "I didn't want to get anybody." He said there must be a "fair-minded and vigorous investigation" designed to establish "guilt or innocence on the part of a large number of people, in a large number of areas."

In a related development, Time Magazine reported Cox was fired because he started investigations of Nixon fund-raising efforts in 1970 and was probing other matters not directly connected with Watergate.

## Earthquake felt

SAN DIEGO (UPI) — A small earthquake, registering 4.0 on the Richter scale, shook offshore San Clemente Island Sunday and was felt by Southern California residents as far away as Laguna Beach.

No damage was reported from the tremor, centered about 50 miles west of here, but the quake was strong enough to shake buildings in San Diego.

# Market Review

**NEW YORK (UPI)**—Stocks opened mixed on the New York Stock Exchange Monday. Trading was moderate.

The Dow Jones industrial average was off 0.45 to 986.61 shortly after the opening. Advances held a moderate lead over declines, however, among the 333 issues traded.

Tight spots in the economic news Friday helped the stock market to its best gains of the week. The Dow closed at its best level in more than eight months, gaining 12.57 to 987.00.

The general news background took a distinct turn for the better late last week, analysts said, and could help the market to further gains.

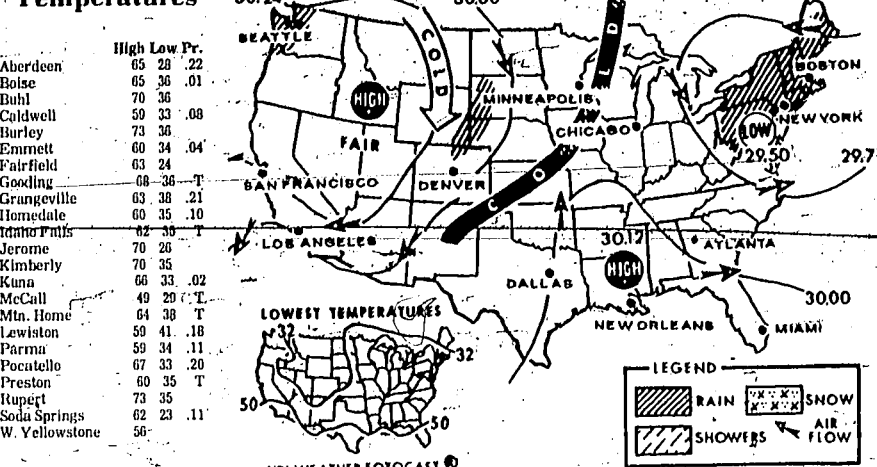

Last Friday, First National City Bank lowered its prime lending rate—the interest banks charge to their most creditworthy customers—by 1/2-point to 9 1/2 percent. The move marked the second decrease in the rate in less than two weeks, and is expected to spread nationwide.

In addition, a sizable trade surplus compiled in September enabled the United States to more than wipe out its \$730 million trade deficit accumulated in the first eight months of 1973.

# Idaho Valley Weather Report

## Temperatures to drop tonight

Twin Falls, Burley, Rupert, Windy at times. Lows tonight in the teens and 20's. Highs Tuesday in the 40's. Outlook for Wednesday, mostly fair and cool.

Hailey, Camas Prairie, Lower Wood River Valley: Fair and cold tonight. Fair and a little warmer Tuesday.

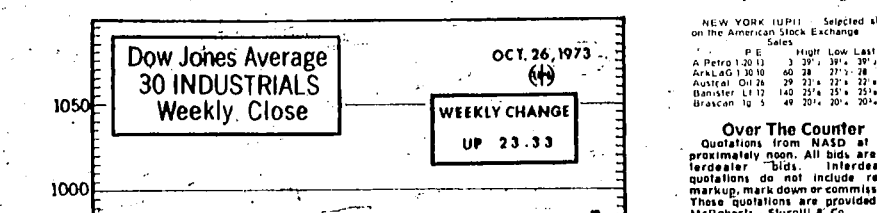

exceeding 40 miles per hour at some locations. Some valley stations recorded a light rain. The snow level lowered below 5,000 feet. The cold front moved east of the state during the night, however, the upper trough lingers over eastern Idaho and Aberdeen reported two inches of snow. Snow was also falling at Soda Springs and Idaho Falls.

# Minnesota drops Rams to remain unbeaten in NFL

BLOOMINGTON, Minn. (UPI)—Minnesota used a Fran Tarkenton scoring pass, a Fred Cox field goal and a typical Viking defense which came up with the big plays at the right time Sunday to beat the Los Angeles Rams 10-9 and become the only unbeaten team in the National Football League.

The victory, in the NFL's glamor game this season, was the 12th in a row for the Vikings, including exhibitions. It gave them a 7-0 record and a four-game lead in their dash toward the Central Division title.

The Rams' first loss of the season fixed their record at 6-1.

Minnesota's defense, which has given up only six touchdowns in seven games, frustrated the vaunted Rams' offense time and again. The Vikings intercepted two John Hadl passes, blocked a David Ray field goal attempt and in a key play with four minutes left, tossed Hadl for a 15-yard loss to prevent a possible game-winning field goal try.

The Viking offense, led by Tarkenton and running backs Chuck Foreman and Oscar Reed, marched 80 yards for the only touchdown of the game. The drive was climaxed by a nine-yard Tarkenton to Foreman pass.

Los Angeles settled for three

# Atlanta upsets San Francisco

SAN FRANCISCO (UPI)—Dave Hampton's and Art Malone's running enabled Atlanta to play ball control Sunday and Bob Lee, picking his spots, threw a pair of scoring passes to Ken Burrow in leading the Falcons to a 17-3 upset of the San Francisco 49ers.

Francisco's lone score. With Hampton and Malone churning out the short yardage, Atlanta went 82 yards late in the opening quarter for its first score. On the scoring play, Burrow took a 38-yard catch from Lee and ran the remaining 11.

The Falcons needed seven plays to make it 14-0 with 47 seconds left in the first half. Burrow split the San Francisco defense and caught his second scoring pass all alone under the crossbars.

Steve Spurrier started at quarterback for San Francisco and with only four completions in 11 attempts, was lifted early in the third quarter for the retiring John Brodie.

Lee, playing in his third straight game, threw 51 yards to Burrow in the first quarter and 22 in the second as the Falcons scored their third straight victory and their fourth overall in seven games. That left them two games behind the pace-setting Los Angeles Rams in the NFC West.

The 49ers suffered their fourth loss in seven games and fell three games back in a tie with the New Orleans Saints.

Gray hit Mel Gray on touchdown passes of 55, 41 and 10 yards, and Walker Gillette caught a 48-yard scoring toss Sunday as the St. Louis Cardinals snapped a four-game losing streak with a 35-27 victory over the New York Giants.

Hart completed 13 of 18 passes for 245 yards. He hit Gray for their third touchdown late in the first quarter when the speedy wide receiver got ahead of New York cornerback Willie Williams and then dragged Williams into the end zone.

# Miami rallies to beat New England

FOXBORO, Mass. (UPI)—Four poor punts set up three Garo Yepremian field goals and a Mercury Morris touchdown Sunday as the Miami Dolphins overtook the New England Patriots, 30-14.

The Dolphins added a fourth period touchdown on an eight-yard burst by Larry Csonka, capping a nine play 75 yard drive. The Dolphins trailed 7-0 in the first period but tied the game late in the quarter on an 11 yard pass from Bob Griese to Marlan Briscoe.

It was also Butkus' pass interception on the Houston 41, that started the Bears on the way to their last touchdown — rookie Gary Huff's one yard scoring pass to Earl Thomas. It was Huff's first touchdown pass as a pro.

# Chicago drills Houston 35-14

After another New England punt into 25 and 30 yard field goals in the second period put the Dolphins ahead, 16-14 at 2:16 of the third period. The last field goal, Yepremian's seventh straight, followed a 17 yard punt by Jeff White, who replaced injured Bruce Bonds in the second half.

The Dolphins took possession at the 42 and Morris swept 25 yards to set up what proved to be the game winning boot.

It was also Butkus' pass interception on the Houston 41, that started the Bears on the way to their last touchdown — rookie Gary Huff's one yard scoring pass to Earl Thomas. It was Huff's first touchdown pass as a pro.

# John Mahaffey wins first PGA tourney

LAS VEGAS, Nev. (UPI)—John Mahaffey, the great Ben Hogan's young pupil from Houston, won his first tournament on the PGA tour by a three-stroke margin Sunday when he shot a final three-under-par 68 for a 72-hole total of 271, 13 under par, in the \$135,000 Sahara Invitational.

The earlier rounds that brought the 25-year-old former NCAA champ first prize of \$27,000 were 68-66-69. The win boosted his earnings for the year to more than \$92,000. Mahaffey went on a health kick recently, lifting weights, jogging two miles a day and laying off beer.

Also at eight-under-in-the-40 for fifth was Larry Ziegler, who shot a final 72. He was in third place going into the final round.

# Rich & Rare moments with CANADIAN R&R

Hubert Green, Panama City, Fla., who won twice this year, finished in eighth place with 66-277, worth \$3,983. At 278, ninth was young John Schroeder, La Jolla, Calif., who had a final 68. He won \$4,645. Ben Kern, Toronto, and Jim Wiechers, Napa, Calif., tied for 10th at 279. Kern shot a final 71 and Wiechers a 70. They each won \$3,210.

Mahaffey's best previous finish was a fourth at the Kaiser Invitational a week ago. Before that, he took three weeks off "just to get in physical shape."

# Cards break losing streak

ST. LOUIS (UPI)—Jim Hart teamed with Mel Gray on touchdown passes of 55, 41 and 10 yards, and Walker Gillette caught a 48-yard scoring toss Sunday as the St. Louis Cardinals snapped a four-game losing streak with a 35-27 victory over the New York Giants.

# Raiders throttle Baltimore

BALTIMORE (UPI)—Ken Stabler threw two touchdown passes, setting a league record for one game percentage completion, and running back Clarence Davis scored on nine and 32 yard fourth quarter runs Sunday as the Oakland Raiders beat the Baltimore Colts 34-21.

# Broncos defeat New York

NEW YORK (UPI)—Charlie Johnson threw for two scores and Leroy Mitchell returned an interception for another as the Denver Broncos erupted for three touchdowns in a 1:36 span of the first quarter Sunday and then held on to beat the New York Jets, 40-28.

# Secretariat finishes career with victory

TORONTO (UPI)—Triple crown winner Secretariat closed out his illustrious racing career Sunday by winning the \$142,000 Canadian International Championship stakes.

# New Orleans scores early to upset Washington 19-3

NEW ORLEANS (UPI) — Bill McClard, in his first game for New Orleans, kicked four field goals Sunday as the Saints scored on their first four

possession to upset the Washington Redskins 19-3. The Saints' defense sacked quarterback Billy Kilmer and Sonny Jurgensen four times,

made two key pass interceptions and shut off the Redskins' running game.

McClard, who played college ball at Arkansas and who was picked up as a free agent after being released by San Diego, connected on field goals of 45, 43, 30, and 37 yards. Archie Manning hit Bill Butler on a nine yard scoring pass to round out Saints' scoring.

McClard however, missed 47 and 37 yard field goals attempts.

For the Redskins, Curt Knight kicked a 30 yard field goal with 11:11 left in the game to put Washington, now 5-2, on

the scoreboard. The Saints record is now 3-4.

Two Saints interceptions of Washington passes in the third quarter dealt the most serious blow to the threatening Redskin offense.

Kilmer threw long to Charley Harraway, but it was tipped by Johnny Fuller to Tom Meyers who intercepted and returned it 20 yards to the Saints 40.

On the next series, with 0:57 left in third period, Jurgensen took over for Kilmer and moved Washington 58 yards to the Saints 22 only to lose the ball to Ernie Jackson, who intercepted it on the 13 and returned it to the Saints 23.

# Steelers down Bengals 20-13

PITTSBURGH (UPI) — Terry Hanratty, replacing injured Terry Bradshaw, threw a 51-yard scoring bomb to Ron Shanklin with 58 seconds remaining in the first half for the go-ahead score, leading the Pittsburgh Steelers to a 20-13 victory over the Cincinnati Bengals Sunday.

The former Notre Dame All-American hesitated, pumped once, and then lofted the ball to Shanklin to put the Steelers ahead 10-6. Hanratty went into the game when Bradshaw suffered a fractured right collarbone with 5:20 remaining in the half.

The go-ahead score came as the result of good field position, set up by Steve Davis' 40-yard kickoff return.

The Steelers, avenging their only defeat, are 6-1 to remain atop the Central Division of the AFC.

Two Cincinnati turnovers left the Bengals' third defeat against four victories. In the first period, the Bengals

threatened when they marched to the Pittsburgh 18 but Essex Johnson, after catching a pass from quarterback Ken Anderson, had the ball jarred loose at the five yard line and cornerback John Rower recovered.

Early in the final period, Cincinnati moved to the Steelers' 25 but Mike Wagner intercepted an Anderson pass at the 15, blunting another Bengal chance. Wagner finished the day with three interceptions.

Both teams earned their first scores on turnovers. In the first period, cornerback Mel Blount picked up a fumble by Cincinnati's Boonie Clark on the Bengal 22 and six plays later, Hoy Gerela, the AFC's leading scorer, kicked a 15-yard field goal.

In the second period, the Bengals took the score after Tom Casanova intercepted a Bradshaw pass. The Bengals moved to the Pittsburgh 10 and Horst Muhlmann kicked a 17-yard field goal.

The Bengals took a 6-3 lead in that period on a 31-yard field goal by Muhlmann but the Bengals' only lead lasted but 16 seconds before Hanratty turned in his heroics.

The Bengals scored in the last period on Anderson's 16 yard pass to Johnson.

# Chargers tie with Cleveland

CLEVELAND (UPI) — Ray Wersching kicked his third field goal of the game with 30 seconds to play Sunday to lead the San Diego Chargers to a 16-16 tie with the Cleveland Browns in an AFC game played in continual rain Sunday.

Wersching's kick was set up on a 50 yard pass from quarterback Dan Fouts to Willie McGee, a cornerback playing as an offensive end, which carried the ball to the Cleveland 17. Mike Garrett ran for one yard, and after an incomplete pass, Robert Holmes ran seven yards to the nine to set up Wersching's kick.

Seven minutes later Greg Pruitt ran seven yards for a touchdown to give the Browns a 16-13 lead. He appeared dropped for a loss by safety Bryant Salter but spun free, reversed his field and ran in untouched.

The play was set up when Ben Davis recovered a fumble by Garrett at the Chargers 32 and returned it to the 10.

# Philadelphia tops Cowboys in upset

PHILADELPHIA (UPI) — The Philadelphia Eagles and their take-charge quarterback Roman Gabriel, turned a string of Dallas mistakes into a 30-16 upset victory Sunday after eleven consecutive losses to the Cowboys since 1967.

Gabriel passed for 203 yards and two touchdowns to Harold Carmichael, ran a sneak for a third-and set up three field goals by Tom Dempsey.

Roger Staubach, who threw for 250 yards and two touchdowns, attempted a second half comeback effort, but faltered when rookie safety Randy Logan intercepted a pass at the Eagle 20 with eight minutes left to play.

Gabriel, who completed 20 of 34 passes, went to his ball control offense and consumed the next six minutes en route to a 32-yard field goal by Dempsey with 1:41 to go.

After the Eagles led 27-13 at the half, Dallas managed only a 33-yard field goal in the third quarter by Mike Clark.

A short punt of 17 yards by Marv Bateman put the Eagles into position for their first score on an eight-yard Gabriel pass to Carmichael. A fumble by Walt Garrison on the next series led to a seven-yard Dempsey field goal.

Staubach then drove the Cowboys 92 yards towards an eight-yard TD pass to Otto Stowe. Clark was wide on the conversion attempt, the first miss after 162 straight by Cowboy kickers.

A pass interception call set up Dempsey for a 35-yard field goal, and later two consecutive pass interference pass penalties enabled the Eagles to take a 20-6 lead on Gabriel's one-yard sneak.

# Detroit holds Packers to 63 yards in win

DETROIT (UPI)—Alte Taylor had his best day rushing as a pro Sunday by gaining 161 yards, scoring one touchdown and setting up another, as the Detroit Lions held Green Bay to 63 total yards offense and overwhelmed the Packers 34-0.

Taylor had his best day against the New York Giants last year when he gained 123 yards, scored on a nine-yard run on the first play of the fourth quarter. He carried 23 times and one of his jaunts, a 29 yarder, helped Mel Farr score a one yard touchdown with 1:56 to play in the first half.

Steve Owens scored on a two-yard run the first time Detroit had the ball during the rainy day while Jim O'Brien kicked field goals of 32 and 30 yards.

Detroit now has a 2-4-1 record to Green Bay's 2-3-2 mark in the Central Division of the National Football League. Lions' owner William Clay Ford ridiculed his own team's performances in its last two losses, saying among other things that it had no pride.

But the Detroit defense finally looked like something, holding Green Bay to just 56 yards total offense — this after the Packers had been limited to 63 in previous week's game. Detroit gave up 48 yards in the first half, 10 in the third quarter and held Green Bay to minus two in the final quarter. The Lions defense limited the

Packers to 48 yards total offense in the first half, 10 more yards in third quarter and plus five for in the fourth quarter. Green Bay had only generated 63 yards total offense the previous week.

"Let's get that creeping football in the air," an unidentified but clearly irate Green Bay Assistant coach was heard to holler in the press box, after the Packers had run their sixth successive unsuccessful play of the game.

But that didn't work, either. Starter Jim Del Galzo, who injured the shoulder in the second half, and missed the rest of the game, completed 5 of 9 passes but for just 32 yards, and reliever Scott Hunter was worse — going 1 for 10 for a minus four yards and one interception.

Starting quarterback Greg Landry of Detroit, who suffered a knee injury himself in the

second quarter and was replaced by Bill Munson thereafter, hit Owens with a 19 yard pass on a third and seven situation and took the ball to the two yard line with a seven yard gain when it was third and six to set up the Lions first touchdown.

Munson wound up the scoring when he hit reserve tight end John Hillton on a seven-yard touchdown.

# FB sets January national meet

PARK RIDGE, Ill. — Plans are being made for the 55th annual meeting of the American Farm Bureau Federation, Jan. 13-17 in Atlantic City, N. J.

This will be the first convention held in January, the result of a decision by voting delegates of member state Farm Bureaus to hold the annual sessions a month later than the customary December date.

The move to a new date was made in order to permit greater member participation in county, state and AFBF meetings. Because of the change in date, no AFBF annual meeting will be held in 1973.

Another change in convention plans moves the meeting of the resolutions committee to the week of Dec.

17. This meeting will be held in AFBF general offices in Park Ridge, Ill. In previous years, the resolutions committee met during the week just prior to the convention.

Recommendations of the resolutions committee, which include presidents of all of the member state Farm Bureaus, plus the chairmen of the American Farm Bureau Women's Committee and Young Farmers and Ranchers Advisory committee, will be presented to the voting delegates at the convention in January for consideration and adoption.

On Sunday, January 13, opening day of the convention in Convention Hall adjacent to the Atlantic City boardwalk, the traditional vesper service will be at 7 p.m. Discussion meet finals of the Young Farmer and Ranchers committee will follow at 8:30 p.m.

General sessions of the convention will be Jan. 14 and 15.

## Chavez joins pickets

FARM LABOR leader Cesar Chavez joins picket line outside San Diego area headquarters of Safeway markets protesting earlier arrest of 29 persons protesting at Delano, Calif., store of chain. (UPI)

## Gem youth at meet

KANSAS CITY, Kan. — Four Idaho youths, including two from Magic Valley, attended the national convention of the American Junior Hereford Association here.

The youth, and their offices in the state organization included Barbara Swan, Twin Falls, voting delegate; Deanne Scott, Hazelton, Idaho Hereford queen and reporter; Mike Kendall, Emmett, first vice-president; and Ken Rice, New Plymouth, second vice-president.

Also attending was Clay Harrison, Heyburn, who was in Kansas City to receive his American Farmer Degree at the national convention of the Future Farmers of America.

The AJHA convention was held in conjunction with that of the American Hereford Association and Auxiliary, and with the American Royal Livestock Show. The four day event included election of officers, in which Kendall was named national director.

Adult advisors for the four youth were Mr. and Mrs. Paul Pattee, of Emmett. Approximately 175 young people, representing 35 states, attended the meeting.

## Report spurs sales

(c) N. Y. Times Service

NEW YORK — News that Leonid I. Brezhnev had forecast a record Soviet grain crop of 215 million tons spurred some frantic selling of wheat futures contracts Friday.

Many traders sold to get out of wheat, while others sold to hedge against wheat they expect to have on hand. The December delivery closed at \$4.46 down the 20-cent-a-bushel permissible daily limit. All other months also were down the limit.

While the grain trade had expected the Soviet Union to produce a good crop after a bad season a year ago, the prediction apparently caught even some Department of Agriculture officials by surprise, along with many grain traders.

# World grain gains seen

By BERNARD BRENNER  
UPI Farm editor

WASHINGTON (UPI) — Amid widespread concern about tight world food supplies, an Agriculture Department report predicts that current production-boosting drives around the world are likely to result in "substantial" harvest gains within a few years.

The report, prepared for two Senate agriculture subcommittees, cautiously avoided any long range

conclusions about the world food supply balance.

It said the balance between world production and use of livestock feed grains after 1975 will depend heavily on consumption policies in key countries including Russia and China, and on trade policies of the European common market.

If all or most of these nations follow policies aimed at boosting food consumption, world import needs would remain high, the report said.

"However, failure of these policies to materialize could lead to downward pressure on prices in several years as production is stimulated by current high prices," experts added.

The report, drafted at the request of Sens. Hubert H. Humphrey, D-Minn., and Walter D. Huddleston, D-Ky., also underlined the growing dependence of U. S. Agriculture on tight supplies of fertilizer and fuel.

Huddleston, in a statement

released with the report, warned that unless the world learns better management in food production, "much of it may be faced with major shortages and famine in the not-too-distant future."

Humphrey added that the report provides a "valuable blueprint of the problems facing U. S. Agriculture. But he complained it also shows how little the government seems to know about changes in rural transportation systems and farm grain storage capacity.

The two senators, who have been holding hearings on world

food problems, said they would renew their probing into transportation, weather research and other factors affecting food supply when the joint hearings resume, probably next month.

The Agriculture Department report, underlining the critical tie between fuel and food production, noted that U. S. farmers are using an estimated 7.76 billion gallons of fuel this year compared with 7.08 billion gallons in 1969 and 6.47 billion gallons in 1964. It said overall world fertilizer supplies should be "ample" through 1975, but warned the U. S. could suffer shortages of some key items during the next two years.

The report also predicted that "some improvement" in world beef supplies can be expected over the next few years because producers in the U. S., Australia, Argentina and Western Europe are all currently expanding their herds.

## Caveman

STANTON, Mo. (UPI) — Lester B. Dill, who operates Meramec Caverns on U.S. 66 here, is marking his 50th year in the cave business. "I started at the top and worked myself down," Dill says.

## Burley's markets weaker

BURLEY — Heifer calves were 6.00 to 8.00 lower at the Burley Commission Yards, Inc., this past week.

Steer calves, yearlings, Holsteins, slaughter cows and fat hogs were all steady. There were 101 sellers and 82 buyers, with 2,830 head of cattle, 223 hogs, and 8 sheep offered.

Weaner pigs brought 18.00-30.00; fat hogs 40.00-42.00; sows 30.00-33.00; killer ewes 10.00-13.00; baby calves 50.00-55.00; light Holstein heifer calves 100.00-115.00; light Holstein steer calves 125.00-200.00; light whiteface steer calves 65.00-68.00; light whiteface heifer calves 52.00-56.00; common feeder steers 45.00-48.50; common feeder heifers 41.00-45.00; whiteface feeder steers 55.00-57.00; whiteface feeder heifers 48.00-49.00; Holstein milkcows and heifers 40.00-50.00; Holstein feeder steers 40.00-45.50; older stock cows 30.00-43.00; cows and calves 425.00-460.00; feeder cows 28.00-33.00; canner and cutters 28.00-30.00; utility and commercial cows 30.00-33.00; whiteface heiferettes 38.00-44.00; feeder bulls 38.00-46.00; killer bulls 40.00-44.00.
