

Nixon granted rationing power

WASHINGTON (UPI) — House and Senate conferees have agreed to give President Nixon unlimited authority to impose gasoline rationing, without the consent of Congress.

Hoping to have emergency energy legislation on President Nixon's desk before they adjourn for the holiday, the conferees also agreed Tuesday to allow the President to order other energy conservation measures until June 30, subject only to veto by either house of Congress. After June 30, the president would have to seek specific legislation for any further energy conservation moves except gasoline rationing.

The conferees, trying to iron out differences between House and Senate measures to deal with the energy crisis, worked on

the measure until midnight and scheduled another meeting this morning to work out compromises on other portions of the bill.

As a result of lower speed limits imposed because of the energy crisis, the Teamsters union demanded Tuesday that its national contract with the trucking industry be reopened. Truck drivers are paid by the mile, and Teamsters President Frank Fitzsimmons, invoking a wage reopener clause in the contract, said the union will seek to raise the per-mile pay of long-haul drivers. The lower speed limits were imposed to save fuel.

Nixon scheduled a midafternoon meeting today with William Simon, his energy chief, presumably to discuss the possibility of rationing.

today in brief

Angler, 86, said missing

TWIN FALLS — Sheriff's officers continue to search today for an 86-year-old Filer man who apparently went fishing Tuesday and has not yet returned.

T. H. Nicholson was reported missing about 7:15 p.m. Tuesday.

Sheriff Paul Corder said officers searched the Hagerman area and Roseworth and Salmon Dam Tuesday night without success. A plane will be sent up later today to attempt to spot Nicholson's gray pickup truck, Corder said.

Drug promotion ban asked

WASHINGTON (UPI) — Sen. Gaylord Nelson, D-Wis., proposed before the Senate health subcommittee Tuesday Congress restrict promotion of prescription drugs.

Charging that drug houses spend \$5,000 for every U.S. doctor annually, Nelson asked for a ban on 20,000 men employed by drug firms to call on doctors with free samples and promotional pitches.

N. Korean violation charged

SEOUL (UPI) — A pair of North Korean gunships twice violated South Korea's territorial waters Tuesday, a defense ministry spokesman said today.

Spokesman Sun U-jin said it brought to nine the number of Communist violations of South Korean territorial waters since the North Koreans claimed jurisdiction over the waters Dec. 1.

Laird resigns US post

WASHINGTON (UPI) — President Nixon accepted with deepest personal regret Wednesday the resignation of counselor Melvin R. Laird effective Feb. 1. The resignation had been long expected.

Laird, a former defense secretary, said he would be joining Reader's Digest as a senior counselor for national and international affairs.

Tanaka beating infection

TOKYO (UPI) — Doctors treating Prime Minister Kakuei Tanaka for an ear infection said today he will be released from the hospital about Christmas Day.

An attending physician said Tanaka is "recovering favorably" and will be able to make a scheduled tour of southeast Asia in January. He will also be allowed to leave the hospital Friday to attend three conferences in Tokyo.

Liberian freighter sinks

VANCOUVER, B.C. (UPI) — A Liberian freighter with a crew of about 40 men lost power in a storm Tuesday and sank early today in icy North Pacific seas about 500 miles west of Vancouver.

The fate of the crew was not known. A single lifeboat was spotted from the air, but it was covered with a canvass, and it was not known if any crew members were in it.

US civilian freed by Cong

SAIGON (UPI) — The Viet Cong freed an American civilian today more than two months after he was seized by the Communists in an evening ambush in the Mekong Delta.

Blaine land under lease

By TERRY CAMPBELL
Times-News writer

KETCHUM — Two Gulf Oil representatives have obtained geothermal leases on large tracts in Blaine County during the past week.

M. W. Rafferty confirmed Tuesday that he and Jerry Hill, both of Denver, Colo., have been working in Blaine County for about one week, obtaining geothermal leases.

Rafferty said the firm presently has a "considerable amount of acreage under lease," generally including private lands extending from Ketchum to the south county line. He said he was unable to say how many acres were involved, but said Gulf may release a total figure when the leasing process is completed.

The Gulf representative said the area is known to have geothermal resources. However, he said testing must be conducted to determine whether the resources are present in commercial quantities.

The program, Rafferty said, resulted from "considerable research" over a period of years by Gulf and has been accelerated by the recent energy crisis.

One of the land owners contacted by Rafferty, William Burt, owner of the 8,000-acre Deer Creek Ranch, said he was in favor of granting geothermal leases on the land to Gulf, if the work was carefully controlled so pipe that may be installed would not interfere with plowing or irrigation.

Burt said Gulf's lease prices were 25 cents per acre per year, with a 10 per cent royalty.

Rafferty said the prime use of geothermal energy was presently generation of electrical power. He said geothermal technology is new, with only one such generating plant in operation in the United States.

He said geothermal energy was "probably the cleanest source of power available" because it utilizes natural steam and does not involve the burning of fossil, non-renewable fuels. He also said, from an aesthetic standpoint, there is "no installation to speak of" except the well and a pipeline to a generating plant.

When leasing is completed, Rafferty said, preliminary research will be conducted which will lead to the first major test well. He said he could not determine when the first well would be drilled, but said it would probably be "sometime in the near future."

Rafferty also said the geothermal leases specifically exclude gas or oil.

Cemetery approved

BUHL — A cemetery district for the Buhl-Castleford area was approved by an overwhelming majority Tuesday.

In Buhl, there were 265 votes for and 34 against.

For the Castleford area, there were 49 yes votes and 7 no votes.

The first board of the newly formed district will be appointed by Gov. Cecil D. Andrus. The cemetery has been operated by the city of Buhl. The board will assume responsibility for its operation soon after members are appointed.

Mrs. Frances McArthur, Buhl City clerk, said the change was necessary because the city of Buhl does not have the needed funds to buy land for expansion.

AF Dam bill to Nixon

WASHINGTON — Legislation authorizing reconstruction of the American Falls Dam is on its way to President Nixon for signature.

The U. S. Senate Tuesday accepted the House version of the bill, a day after it received unanimous approval in the House of Representatives. The Senate had first passed the measure in June.

The bill authorizes the secretary of the Interior to contract with the American Falls water users for reconstruction of the dam, which has been weakened by deteriorating concrete. As a result, storage capacity has been cut by one third to 1.12 million acre feet.

Three members of Idaho's congressional delegation praised the swift action by the Senate.

Sen. James McClure, R-Idaho, said the bill is "the single most important piece of legislation for southern Idaho" to pass Congress. Rep. Derval Hansen, R-Idaho, commended the Senate

for its quick approval.

Sen. Frank Church, D-Idaho, said although he opposed one House amendment, he agreed to accept it in the interest "of speedy action and because the water users had given their consent." He said he opposed an amendment requiring water users to reimburse the Interior Department for costs incurred in approving design of the new dam.

Church said the most important change was recognition of an agreement between the state of Idaho and the water users providing for financing of a second highway crossing below the dam.

Estimated cost of replacing the dam is about \$25 million, to be financed through a bond issue. Plans call for the water users to negotiate a contract with Idaho Power Co. to provide water for power generation, in return for which the utility would pay up to \$10 million in bond retirement over a 40 year period.

Israel says PW's slain

Mr. T-N says
Just think — two weeks more and it's '74.

By United Press International
Israel accused Syria today of murdering 42 Israeli prisoners of war and said the alleged mistreatment of other captives was one of the reasons Syria is boycotting of the Middle East peace conference.

Egypt said it was going to the peace conference to secure Israel's complete withdrawal from occupied Arab territory and safeguard the rights of the Palestinian people.

"We will settle for nothing less than these two objectives, regardless of the time it takes and whatever the price," Deputy Premier Abdel Kader Hatem told the Egyptian parliament today.

Syria announced Tuesday it would not attend as previously announced.

US refuses brand name drug bills

WASHINGTON (UPI) — In a step which could cut the costs of drugs for all Americans, the government announced today that federal health programs will soon stop paying for brand name drugs when identical unbranded ones are available.

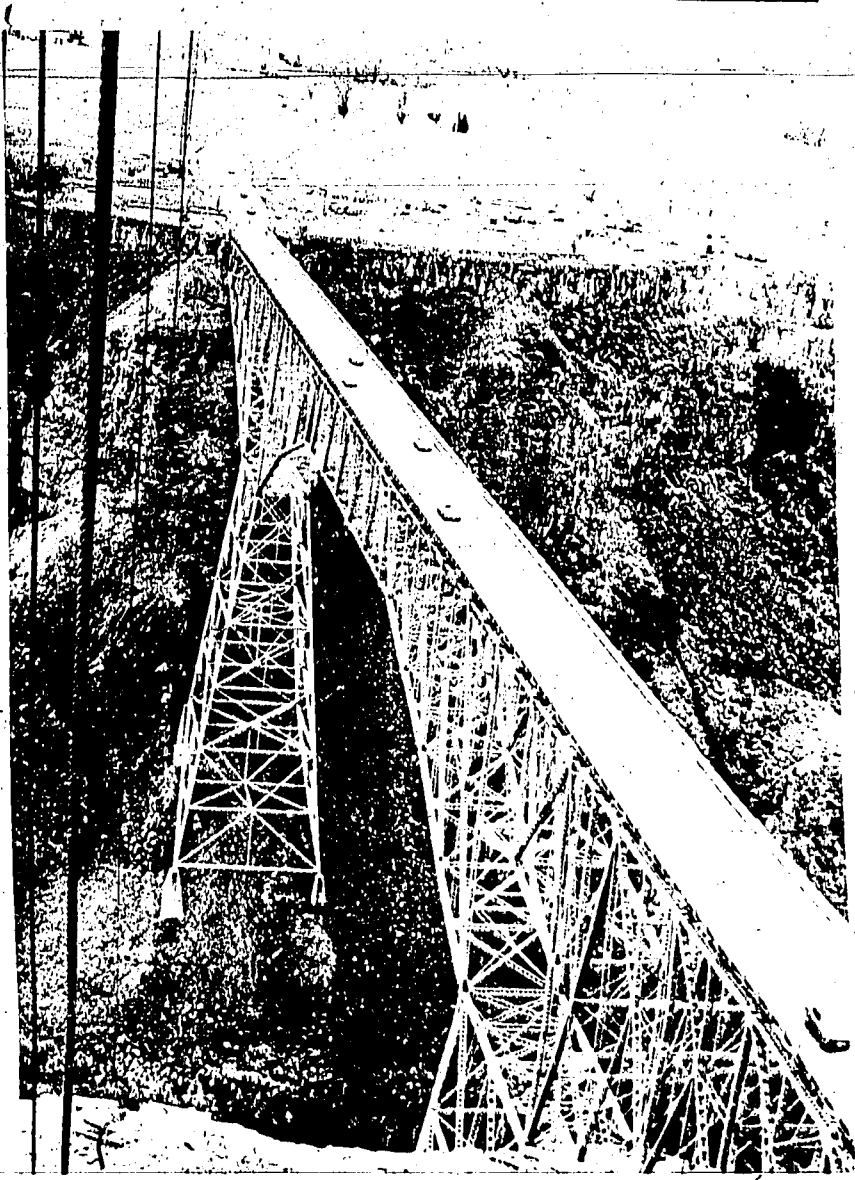

Casper W. Weinberger, Secretary of Health, Education and Welfare announced the new policy at a hearing before Sen. Edward M. Kennedy's Senate health subcommittee.

Weinberger said Medicare, the health insurance program for persons over 65, and Medicaid, which pays some of the health bills of poor people, would reimburse drugists for prescription drugs only at the lowest price at which the drug is widely available.

Consumer advocate Ralph Nader claimed Tuesday that the savings to the government and drug purchasers could eventually total \$1 billion a year.

The government spends \$1.5 billion a year on prescription drugs and consumers spend another \$7.5 billion, he estimated.

Bridge overview

PERRINE BRIDGE traffic and the south rim of the Snake River canyon look like this from 160 feet above the north rim. Times-News writer George Wiley took the picture from one of the 200 foot high-cableway towers being erected to construct the new bridge across the canyon immediately east of the present span. Cables are visible at the left.

Rim plea legal, Gem aide says

BOISE — The Idaho attorney general's office has contradicted legal advice given by the Twin Falls prosecutor involving a controversial rim subdivision.

The legal question was whether citizens may petition to retract earlier approval of a subdivision.

An opinion written by Assistant Atty. Gen. James C. Weaver issued Tuesday said the state law is "plain, clear and unambiguous" that any citizen may petition to have platted subdivisions vacated and the county commissioners must provide for a notice and hearing on the petition.

The Twin Falls County commissioners last month rejected a petition for vacation of the Meander Points subdivision northwest of Twin Falls on the Snake River Canyon rim. The petition was submitted by Canyon, Inc., a Twin Falls corporation.

The commissioners said they relied on advice from County Prosecutor Robert Galley in denying the petition.

Galley had advised the commissioners that "petitions filed by people not owning the plats sought to be vacated should be denied and no hearing held."

Weaver wrote his opinion in a letter to Robert N. Wise, head of the State Department of Planning and Community Affairs. Wise sought a legal opinion from the office of the attorney general when a Twin Falls lawyer asked a similar question of his office.

Weaver wrote Wise "that any person, persons, firm, association or corporation may, on its own volition, petition a city council, or the county commissioners, as the case may be, to vacate a particular previously platted subdivision. Upon receiving the petition, the county commissioners shall provide for notice and hearing, and shall proceed to a hearing on the petition."

County commission Chairman William Chaney today said "I'm in no position to say" what action will be taken on the opinion. We went by the opinion of our attorney and he's still our attorney," he said the commissioners would consider a new petition from Canyon, Inc.

Dave Mead, president of Canyon Inc., said he had not studied the opinion yet. "At this time we aren't really in a position to say what we're going to do," he said.

Storms hit central US

By United Press International
Freezing rain, heavy snow and blizzard conditions today paralyzed portions of the central United States.

Blinding clouds of churning snow swept across much of Kansas Tuesday night, figuring in at least four deaths.
Three persons died in accidents on icy roads and one was killed in a plane crash. Police were searching for a possible second victim.

Visibility was near zero early today in much of western and central Kansas, with snow tapering off in western areas.
Heavy snow or winter storm warnings extended from the mountains of Colorado and New Mexico, through the Central Plains and Central Mississippi Valley region, and into the northern portions of the Texas Panhandle, Oklahoma and Nebraska.

Blizzard or blizzard conditions, backed by winds up to 45 miles per hour, were expected to last during the day over much of Kansas, Colorado and New Mexico.

Many schools in the Colorado-Wyoming area were closed today. Numerous basketball games scheduled for Tuesday night were canceled.

Firefighters near Glenrock, Wyo., braved 16-degree temperatures and gusty winds with blowing snow in their battle against a two-week old oil well fire where damage was expected to go into the millions.

In the East, many of the 200,000 homes that have been without power since Sunday

night today were still without lights or heat.

The Denver Headquarters of the State Patrol reported their switchboard was swamped with calls from drivers who had fought the weather and lost.

"When we have 30 pileups all over the roads, that's pretty bad," said one dispatcher. "We can barely handle all of the accident reports that are pouring in. And it's all over, not just Denver."

The Museum of Natural History in Denver City Park closed up Tuesday after the storm knocked out all power in the building. The Denver Post decided to cancel printing its final street edition because of distribution problems.

Governors from Arizona and New Mexico were forced to cancel their attendance at the Four Corners Regional Commission meeting in Denver because of the snow.

The storm dumped 10 inches of snow in Montana, seven inches in the Black Hills of South Dakota, 12 inches in Meeker, Colo., and in Silver Bay, Minn., 18 inches fell, forcing the closing of schools and keeping many residents home from work.

Valley Briefs

TWIN FALLS—The Almon Association will meet at 8 p.m. today in the Fireside Lounge of the Twin Falls First Presbyterian Church. All persons interested or who have an alcohol problem in their family are invited.

Valley Hospitals

Minidoka Memorial

Admitted
Cletus Schuch, Jean Parker, both Rupert; Elvira Garcia, Paul, and Arthur Taylor, Almo.

Dismissed
Lonnie Woodskow Jr. and Milton Blair, both Heyburn; Nolle Parr, Rupert; Kenneth Blunbarr, Burley.

Births
A daughter was born to Mr. and Mrs. Michael Parker, Rupert, and a son to Mr. and Mrs. Esequiel Garcia, Paul.

Gooding County

Admitted
Pearl Price, Rebecca Hocklander, Mary Greufe, all Gooding.

Dismissed
Mrs. Lloyd Parker, Mrs. John Gulnn, both Gooding.

Bull riding is the most dangerous event in a rodeo because of the animals' speed and willingness to attack fallen riders.

Valley Obituaries

Irvin Walz

JEROME—Irvin Walz, 56, Jerome, died Tuesday morning at a Boise hospital after a long illness.

Born Sept. 11, 1917, in Goodrich, N. D., he came to Idaho in 1925 with his parents, living briefly in Twin Falls before moving to Jerome where he has lived since.

He married Elizabeth Winterholler March 5, 1945, in Shoshone.
Mr. Walz was a contract milk hauler in the Jerome area for many years.

He was a member of the Church of God.
Survivors are his wife; three daughters, Anita and Paula Walz and Mrs. Wayne (Phyllis) Sheppard, all Jerome; three brothers, Ben Walz, Caldwell; Bill Walz, Ontario, Ore.; and Orville Walz, Roseburg, Ore.; six sisters, Ida Stohler, Ontario; Alma Cuff, Jerome; Arline Stohler, Fruitland; Lorraine Miller, Wilbur, Ore.; Alice Shaffer, Roseburg, and Ruby Skaggs, Reno, Nev., and one granddaughter.

He was preceded in death by his parents, one brother and one sister.
Funeral services will be at 3 p.m. Thursday at Hope Funeral Chapel by Rev. Norman Archer and Rev. Robert Halliwell. Burial in the Jerome Cemetery.

Friends may call at the chapel this evening from 7 to 9 and until 2:30 p.m. Thursday. Memorials may be made to the American Cancer Society.

O.D. Loveland

TWIN FALLS—Oliver Delos (Hap) Loveland, 78, Twin Falls, died Monday at Magic Valley Memorial Hospital.

Born Sept. 15, 1895, in Albion, he began his schooling in Albion and later attended the Oakley Academy. In 1915, he moved to Almo.

He was a member of the LDS Church and served a mission to the central states. Mr. Loveland had served as a ward teacher and helped with the MIA program.

During World War II, he was employed at the Pocatello Armory. In 1948, he moved to Jerome and farmed for several years. Then in 1953 he moved to Twin Falls where he has since resided.

He is survived by one brother, Seth Loveland, Rupert, and one sister, Mrs. Verda L. Crawford, Vaughn, Mont.

He was preceded in death by 10 brothers and sisters.
Funeral services will be conducted at 11 a.m. Friday in Payne Memorial Chapel with interment following in the Albion LDS Cemetery.

Friends may call at the mortuary Thursday afternoon and evening and prior to services Friday.

Pauline Bower

TWIN FALLS—Mrs. Pauline Bower, 89, Twin Falls, died Tuesday evening at a local nursing home of a long illness.
Funeral arrangements will be announced by White Mortuary.

Funeral Services

RUPERT—Services for Robert B. Rasmussen will be at 9:30 a.m. Thursday at the Fourth Ward LDS Church with burial in Bear River, Utah.

Rebekahs honor two in GF

JEROME—Funeral services for Harlan G. Maddox, 52, Middleton, Wis., former Jerome resident, were held at 1 p.m. Tuesday in Arlington, Wis.

Maddox died Friday evening in Middleton of a heart attack. He was born May 13, 1921, in Nebraska and was married Jan. 30, 1944, to Josephine Johnson, Rio, Wis.

He is survived by his wife, two sons, one sister and three brothers, Elvis, Clarke and Thane Maddox, all Jerome, and 1 grandchild.

He served in the Air Force during World War II and was a member of the Wisconsin National Guard.

Shoshone LDS Church sets party

SHOSHONE—The annual Christmas party for the LDS Church in Shoshone will be held at 7:30 p.m. today at the church recreation hall. There will be a program and visit from Santa.

On Sunday during the regular Sunday school hour, the special religious program will be held through joint efforts of the junior and senior Sunday schools. The two will be meeting together for the presentation. This will be at 10:30 a.m.
The public is invited.

Antonio Stradivari of Cremona, Italy, whose 17th Century violins sell today for as much as \$200,000, sold his first violins for as little as \$30.

Rebekahs honor two in GF

GLENN'S FERRY—The charter was draped Monday evening for two members at the meeting of Alleen Rebekah Lodge No. 62.

Mrs. Bertha Belmont who served as assembly president, and Mrs. Martha Watts, a member of Alleen for many years. Mrs. Florence Greer, chaplain; Mrs. Orval Irving past noble grand, and Mrs. Arthur Greer, noble grand, took part in the service.

A letter and donation was received from Mrs. David Stringer, a retired member. A discussion was held relative to raising the lodge dues.

Mrs. Ray Whitt presented the program.
Members placed donations in a red Christmas stocking for the lodge treasury, in place of having a gift exchange.

Mrs. Whitt, noble grand elect, decorated the tables in the dining room, with the Christmas motif, and placed a small gift at each place. The group enjoyed a potluck supper.

Panelist resigns at Hansen

HANSEN—Robert Perkins has resigned from the Hansen City Council because he has moved to Kimberly.

The vacancy will be filled by the council not later than February, according to Dorothea Steelsmith, assistant city clerk. She said no decision has been made yet.

The council also has voted to annex property in the southwest portion of town. The land, which includes Blocks 21, 22, 32, 33 and 34, once was in the city and later relinquished. It is the construction site for the new elementary school.

The city will put up more stop signs, Mrs. Steelsmith said, on First and Second streets east and First and Second streets west, leading onto Overland Avenue. A stop sign also will be placed at First Street West and Walnut near the school, she said.

Councilmen are studying a proposed dog ordinance prior to establishing a dog control law. This was favored in an advisory vote at the last city election, Mrs. Steelsmith said.

Students seek change of hours

TWIN FALLS — College of Southern Idaho students appealed to the college's board for a change in dormitory visitation hours Monday night. Student senator and college newspaper editor Mark Stinson said a survey showed that 85 per cent of the dorm students wanted more such hours. Visitation hours are "not for the sake of romance," Trace Johnson, student academic secretary said Monday night. He mentioned that even his parents had not been able to visit him in his dorm at times. The students recommended that dorm hours be set for noon to 9 p.m. Sunday through Thursday and from noon to 10 p.m. Friday and Saturday. Taylor said that in response to the recommendations, the administration had twice extended dorm hours. Because there are two-thirds more males than females in the dorm, further extension of visiting hours might create problems, he said. Taylor said the college has an obligation to stick to the terms of the dormitory contract on dorm hours. He mentioned a survey by counselor Paul Oatyn showing that a majority of girls did not desire extension of visiting hours. The board took no action on the matter. Taylor said that to conserve energy all offices at the college are being heated between 66 and 68 degrees, and that some lights have been shut off. He said that during November 27,000 visitors came to the campus to see various productions and because of this outside lighting would be maintained.

Christmas sale.

TWIN FALLS — The Twin Falls Lions Club will sponsor its annual Christmas Cracker Jack sale project Friday and Saturday. Lions Club members will be at Lynwood Shopping Center, Blue Lakes Shopping Center and downtown on the mall from 5 to 9 p.m. Friday and from 1 to 9 p.m. Saturday.

Burley man, 20, pleads innocent

BURLEY — The court entered a plea of innocent Monday for Emilio F. Ramos Jr., about 20, Burley, who was charged in connection with a \$7,000 burglary at Hinzi Jewelry, Burley, which took place on Dec. 1. Ramos was charged with first degree burglary and as a persistent violator of the law. He had been convicted on two counts of second degree burglary on Feb. 5 in Fifth District Court. Ramos is currently being held in the Cassia County Jail awaiting a hearing. He was apprehended the night of Dec. 5 after the stolen goods had been recovered from a Burley residence. Robert J. Smith, 29, and Terry Lee Teeter, 30, both Malta, and Del Ray Barnes, 19, Bridge, each pleaded guilty to two counts of first degree burglary and one count of third degree arson in Fifth District Court Monday. The burglary charges stemmed from incidents on the night of Nov. 27 in shops belonging to Harvey Wight and Ray Doughitt, both in the Malta area. Tools and shop equipment were taken from the shops. The arson charge stemmed from a fire which was allegedly set by the men on the Burton Anderson farm the same night. About 45 tons of hay were lost in the fire.

Pony project under way

TWIN FALLS — The South Side High School Rodeo Association will give away a Shetland pony at noon Saturday in downtown Twin Falls. Tickets are being sold by members of the association. Proceeds will be used to help rodeo club members pay entry fees at fifth district, state and national high school rodeos. The pony was donated by Adrienne Hurlbert, Twin Falls. The winner will be announced.

Gooding okays gas bid hike

GOODING — The Gooding City Council Monday night approved an increase in the bid price of gasoline for the second time in two months. City Clerk George Silva read a letter from Harbaugh Motor Co. informing the council that the cost to the company for gasoline has risen 4 1/2 cents, diesel fuel is up 9 1/2 cents and stove oil also is up 9 1/2 cents. The company requested that the city cover the cost of the increases. Bob Eckles met with the council to request that the city pay one-third of the cost of the winter basketball program. Supt. James Muscat and

Trustee Claude Scanlon also met with the council. Eckles estimated the cost of the program at \$1,000 for use of the school gymnasium three nights a week for 10 weeks. He has requested the school district also pay one-third of the total cost and members of the eight basketball adult teams would make up the remaining third. Councilman Earl Greenawald said the city would pay one-third on a monthly basis, but no official action was taken by the council. The council rejected a bid of \$1,500 for two city lots located on Idaho Street. The bid was entered by David Kaneaster.

Ketchum okays payment

KETCHUM — The Ketchum City Council Monday approved payment of the contractor's estimate number four for the Ketchum sewage treatment plant modification project. The payment of \$20,877 on the about \$230,000 contract with Hunter-Saucerman Construction Co., Idaho Falls, was made contingent on the availability of funds and on the understanding that no contract penalties for project delays were involved. In other action, the council: — Approved taxi service fare increase requested by David Martin and Lauren Day. Martin said the fares will be increased from the present \$2.50 from Sun Valley to Halley to \$3; from \$2 to Gimlet to \$2.50, and from 50 cents from Sun Valley to Ketchum to 75 cents. Martin said gas prices had increased about 10 to 15 cents a gallon and said, within his

knowledge, fares had not been increased during the last five years. — Heard a request for a building permit by Neil Wright, Ketchum, architect for the new Riviera Motors building. Riviera presently has a partial permit to conduct concrete work. Wright said he had received a list from Fire Chief Bill Brand, enumerating fire protection measures needed before a building permit would be issued. Wright said these measures were being followed, but said he felt that "day after tomorrow" he would get "new one of these lists." "Feel like my client is being harassed at this point," Wright said. Building Inspector John Jacoby said he felt that there had not been an undue delay in issuing a building permit. He said he had received the plans last Monday and was almost

finished checking them. Even with fire department approval, he said he felt a building permit could not be issued for several days because some plan changes would be necessary. — Agreed to have City Clerk Betty Coles contact an Idaho Power representative to meet with the council after John Koppes complained about a new street light adjacent to his house at an intersection on Warm Springs Road. Koppes said the light shines directly into his house and said there was "no need to illuminate all buildings" at an intersection. He said different street lights were available and maintained that Idaho Power "is pawning off barnyard lights on the city of Ketchum." — Authorized the mayor to sign the final plat for its Krystal Villa II. — Informed Clint Jacob, Twin Falls attorney for Philip Poynter — who had sought vacation of a portion of Leadville Avenue, extending from Ninth Street to Highway 93 — that the street had been vacated in 1982.

Bid approved

RUPERT — The Minidoka school trustees Monday approved a bid of \$9,499.50 for each of four buses. Total cost for the buses, to be delivered next year, will be about \$38,000. Trustees approved a section of the district policy on discipline devised by Roger Ling, school attorney. The section requires that discipline be "reasonable and prudent" and corporal punishment be carried out in the presence of an adult "when possible." The changes will take some

of the responsibility of the teacher and provide some support from the board, Ling said. In other action, the board voted to join the Idaho School Board Association, approved an early graduation list, a procedural agreement for arbitrating teachers contracts, five adult education classes for the next semester and granted the city of Paul an easement along the north edge of West Minidoka Junior High School for a trunk sewer line.

IPUC okays freight rate increase

BOISE (UPI) — Idaho's Public Utilities Commission, pointing to increased costs brought on in part by the energy crisis, has authorized a 0.5-per cent freight rate increase for Garrett Freightlines, Inc. The increase is to take effect within 15 days after public notice of the new rate schedule is made, the PUC said, reducing the normal advance warning given for rate hikes. Commissioners made it clear in their report and order that the energy crisis has a lot to do with the increase. "The critical fuel shortage situation is already having a pronounced effect upon motor carriers," the PUC said. "At the time of this hearing Garrett had a 10-per cent loss allocation of diesel fuel than for a corresponding period last year. "Price of this fuel is on the rise and other effects on this carrier's operations are expected in increased labor costs because of the slowdown in truck speed and possible reduction in schedules. "The situation for the future is uncertain as only month-to-month allocation of fuels is provided," the PUC said. "Actual 1972 fuel expense for Garrett totaled \$1,799,892 which increased by projection to Dec. 31, 1973 will total to \$2,345,000. "Prices expected to rise from 12.4 cents per gallon to 16.4 cents, a 32-per cent increase. Operating measures have been taken wherever possible to counteract this." The PUC said evidence presented at the Garrett hearing leaves "little doubt" as to the need for increased revenue to help sustain the company's business posture in intrastate service. "Coupled with that are the very apparent increases in costs anticipated as a result of the current energy crisis," the PUC said. Commissioners said they gave wider than usual public notice of the hearing for Garrett and that the company is turned served notice of the proposed increases upon its customers. Despite this, the PUC said, no body appeared at the hearing or otherwise made any objection to the proposal. Meantime, the PUC announced it has authorized rate increases sought for hauling pipe, culverts, smokestocks, lighting, and conduits and their applicable fittings, lumber, beams, boards, lath.

'BEAT IT! NOBODY'S LISTENING TO THAT NONSENSE THIS YEAR!'

Amendment worrying Europeans

WASHINGTON — There was a lot of talk, some of it grimacing, but the annual session of NATO ministers in Brussels did little to refute a deposition by Secretary of State Henry Kissinger four days before the convention opened. Kissinger had noted NATO's basic problem is that while the United States seeks Atlantic unity, our allies are interested only in European unity. NATO in fact is rather a mess. Western Europeans demand that Washington maintain its 315,000 troops on their soil, but dash off to lunch when we suggest that they pay a bigger share of the cost of keeping the troops there. For more than a decade, the French have led the movement to diminish U.S. influence in NATO, so it was predictable that Foreign Minister Michel Jobert should take off and orate about the "risk" that the Atlantic Alliance might be downgraded by the June agreement between the U.S. and the Soviet Union to consult on the prevention of nuclear war. Doing so, he

ANDREW TULLY

also declared that European interests are not identical with those of the United States. Jobert was right. But defense against the Russians is certainly a mutual concern, and Kissinger properly reduced Jobert's position to nonsense.

The European position is one that says do what we say, not do what we do.

If all this sounds like mostly baloney, that's because it is baloney. The Europeans must know that detente between the U.S. and the Soviet Union can only add to their security.

Meanwhile, the troop question remained. Once again, the U.S. gave assurances it has no intention of withdrawing its forces, while gently pressing its allies to cough up a little more dough for the troops' maintenance. The reply as usual was that American troops help provide "stability" in Europe, as well as a defensive bulwark—although nobody pretends the 315,000 Americans could long resist a Soviet attack. Mostly, our GI's guard the 7,000 nuclear warheads at 100 European locations which are NATO's real preventive force.

But it was nice to learn that the allies are worried about the Jackson-Nunn amendment to the military procurement bill, which would reduce troop strength in direct proportion to NATO's failure to increase its contribution to the troops' support.

Maybe, after 28 long years, we have found a stick to go with the carrot.

Energy crisis approach changes

(c) New York Times Service
WASHINGTON — The Nixon administration has made a significant change in its approach to the energy crisis.

Only a few short weeks ago, it was talking in isolationist tones about the goal of "national self-sufficiency." Now, while maintaining this goal, it is asking Canada, Europe, Japan and the oil producing countries to join together in a long-range effort to assure adequate fuel supplies for all nations.

The first approach troubled other nations, for President Nixon seemed to be saying that the United States, which has only 6 per cent of the world's energy, was going to concentrate on assuring America's own needs and let others worry about theirs. Now the talk is of a massive cooperative effort to deal with the problem on a worldwide basis.

In London the other day, however, Secretary of State Kissinger suggested a partnership to conserve fuel in the short-run and develop new sources of energy to meet the rising demands of the world in the long run.

This, he suggested, should work out programs to conserve energy through more rational utilization of existing supplies; encourage the

petroleum. The producing nations, Kissinger said, should be invited to join in this common effort.

It will be interesting to watch the reaction to this suggestion both at home and abroad.

There are serious political problems abroad. Industrial Europe and Japan do not share Washington's policy toward Israel, but have supported the Arab states in the hope of assuring normal supplies of fuel from the Middle East.

The practical advantages for other nations are fairly obvious. The United States has great experience in the field of atomic energy.

In addition, the United States has done some preliminary research in solar energy and thermal energy, and it has half of the world's known coal reserves, vast resources of untapped natural gas.

The political advantages are also important. The relationships among the advanced nations are now at a critical point, with Japan soon to become the second industrial nation in the world, Britain coming into Europe, China coming out of isolation, and the United States trying to work out new understandings with both Moscow and Peking while adjusting its policies to the emerging but yet unified Europe.

What the Kissinger speech did was to switch the emphasis from Operation Independence to Operation Interdependence and bring the question of consultation to the practice level of a common effort to solve an urgent problem. This could be compared to the Marshall Plan for the reconstruction of Europe after the last World War, but it has its dangers.

For if it is rejected, the United States would probably accept the rebuff and strike out on its own.

Pressures no bother for Simon

WASHINGTON — Following precious months frittered away in bureaucratic shell games, Deputy Secretary of the Treasury William Simon has quickly made himself energy czar in fact as well as name.

Named by President Nixon to head the new National Energy Administration, Simon fired crusty vice Adm. Ell Reich, who had retired from the Navy to take charge of the vital energy allocations program.

The separation, say friends of the much-decorated submarine commander, was "mutual." But what triggered it was Reich's resistance to knuckle under to what he regarded as Reich's prima donna tendencies, which had been cowering other civilians.

Placing a unique Sunday afternoon conference call from his office to the ten regional directors of the still-forming new agency, Simon gave them a 16-minute pep talk. He then offered the phone to Reich.

But the admiral refused, telling Simon: "You seem to have covered the subject yourself."

Minutes thereafter, when all officials present had departed except Simon, Simon's deputy, John C. Sawhill and Reich and his five aides, Reich exploded.

Reich was angry that Simon had replaced most of his own earlier choices for regional directors and brought them into the new energy agency and out of Reich's petroleum allocation office.

What really infuriated the former Navy admiral, however, was Simon's refusal to make

JAMES RESTON

discovery and development of new sources of energy; give producers new incentives to increase supplies; and coordinate research to develop new technologies to use energy more efficiently and provide alternatives to

LETTERS

TF man tired of being pushed around

Editor, Times-News:
I am a tired American. Tired (!) of what? Tired of being pushed around by a small group of bureaucrats. I'm tired of being pushed around by a group of individuals with desires for great power. I'm tired of the Environmental Protection Agency telling the Auto Manufacturers how to build engines. I'm tired of the E.P.A. "engineering" Auto Engines that get less than 10 miles per gallon.

I'm tired of getting less than 10 miles-per-gallon, and then having another group of bureaucrats start a panic with the relationship to Gasoline consumption and the energy shortage. I'm tired of a group of idiot E.P.A. Bureaucrats telling us that Fish Production in the Magic

Valley is polluting the Snake River. I'm tired of our Congressional and legislative 'leaders' always supporting losers. Just once, I'd like to see support for a Winner. Let the Arab Nations cut their oil, let's give our support to Israel. Let's associate with the winner for a change. I'm tired of our Congressmen and Senators taking trips to Arab nations, at Arab expense, and then landing their support to the loser (the Arab countries, in this case).

I'm tired of politicians — we need statesmen back in our Nation's capital. I'm tired of Congressmen and Senators who are full of double-talk, little white lies, who wishy-washy and who don't have the guts to stand up for The United States of America. I'm tired of individuals in public office, who don't give a

damn about what America needs. I'm tired of Congressmen and Senators who are after monetary gain only.

We are becoming a nation of lethargic humans. We are telling politicians run our lives, rather than telling them how this great nation should be run. I'm tired of seeing the world's greatest nation slip and slide, backwards, in-to the sewer-of-world-waste. We need a change, in government, in attitude, and in action. The control of this country needs to be returned to the people. The silent majority must become more vocal in the affairs of government.

Sincerely,
Steven T. Hirst
Twin Falls

Tax structure reforms due

Editor, Times-News:

I should feel real important, I find out that I pay more taxes than the President of the United States. After the recent disclosure of the amount of taxes paid by the No. 1 citizen of the United States, we should as taxpayers cry out while we still have the strength. Reform in the tax structure is long overdue and the recent disclosure should wake up some of us to the fact that the small business and average Americans are carrying the load. The rich have been dragging their patent leather shoes long enough. The tax structure has been planned and operated by the wealthy, for their benefit, with all the loopholes, tax dodges, and other advantages that can be maneuvered for their benefit.

President Nixon apparently feels that his disclosure should make every American stand up and cheer for his courage and honesty in disclosing these facts. In my estimation it should make every hard working American rise to the point of indignation and disgust. It isn't what you know that counts it's who you know, money will buy anything, if that is what is desired out of life. The almighty dollar is Man's God. Can we ever get back to the old basics of life of loving thy neighbor and live in humility and thankfulness for what we have. We seem to forget we came into this life naked and we leave this life with only the knowledge that we gain in this mortal existence.

It is time for the rich to share their burden and load and keep this land of ours as near as we can to the ideals that the founding fathers meant for it to be. Let us be heard in Washington!

G. W. Warner
Route 3
Twin Falls,

Resentment expressed

Editor, Times-News:

To Representatives Orval Hansen and Steve Symms, Senators Frank Church and James McClure, Gov. Cecil Andrus, and the president of the Idaho Power Co., president of the Intermountain Gas Co., and to all of those heads of state agencies and major corporations such as Standard Oil, General Motors, etc.

As a responsible citizen, I resent being made to feel guilty or in any way responsible for the present energy crisis. At the present time, I am being bombarded with information from your public relations officers and your advertising staffs, to the effect that WE can work it out. I am referring, of course, to the energy crisis that we are now encountering.

I feel that the energy crisis has absolutely nothing to do with the American public. We have not been asked in the past to conserve energy. As a matter of fact, we have been encouraged to be wasteful with energy. We have done so because you have tried to sell us more, you have tried to sell it to us cheaply, you have tried to encourage us to take trips, in the most inefficient cars ever designed, to have more and more lighting, more and more appliances, and we have responded to your mass advertising.

You are the people who know what your capacities to produce are in terms of steel in washing machines, and power to run washing machines. You are the people who study our resources and have the long term responsibility for protecting them. As elected officials, it is time for you to shoulder the burden of your irresponsibility, and admit that you did not fund properly or encourage proper regulation to protect our national interests and natural resources.

Since none of us are allowed to vote on the floor of the Senate or the House of

Representatives, and since this is a totally nonpartisan issue, it is up to you to represent both Republicans and Democrats in the most protective way possible.

Now you are telling me that my irresponsibility in traveling too much, in keeping my children warm, and my house comfortable, and free from illness, is the cause of all our problems. BALONEY!

I'll pay the higher prices for your gas and fuel oil, I'll put up with your rationing, and I'll do my best to resist buying black market tickets, but I won't sit quietly and let you put the blame on my shoulders. I want to say it out loud and I want to hear other people say it out loud. You were elected to do the job by the people of the state and by your stockholders. So do it.

Dr. John F. McNees
Twin Falls

Car damaged

Editor, Times-News:

Please print this as the person responsible will have a chance to read it:

To whom it may concern:
Will the inconsiderate person who is responsible please send me the \$7 you owe for breaking the left front signal light on my 1971 VW.

It was parked in front of the hospital between 6 and 8 p.m. while I was there working on an emergency surgery case on Wednesday night (Dec. 5).

Information from any witnesses will also be appreciated.
Thank you,
Shannon J. Tyree
Twin Falls

Electric rates

The Idaho Public Utilities Commission, smarting from recent Legislative criticism of laxness in its regulation of Idaho utilities, now has its work cut out for it.

IPUC commissioners should take a close look at the proposed 12.8 per cent rate increase requested by Idaho Power Company.

The power company is spared direct competition through the PUC's licensing process. Along with its franchise, the firm accepts regulation of rates — and therefore profits — by the PUC.

In the past the PUC has been willing to see Idaho Power's profits reach high levels. According to a Library of Commerce study, Idaho Power's after-tax profits of 23 per cent in 1972 were the second highest among the nation's 100 largest electric utilities.

On the surface, the high profit margins suggest stricter rate regulation might be in order.

But a strong argument to the contrary is presented by Idaho Power President Albert Carlsen. Carlsen says the firm's investment in plant and equipment is the first or second highest in the nation and that the firm's profit expressed as a percentage of capital investment is not excessive. High profits, he argues, also are necessary to expand supplies of energy.

It is too early to judge the merits of the Idaho Power rate request.

Nevertheless it is clear the Public Utilities Commission must make more than a cursory examination of the merits of the rate increases.

Nearly everyone in Idaho has a strong interest in maintaining electric power charges at the lowest level consistent with expansion of energy supply and reliable operation.

Truckers lose friends

Oceanside, Calif., Blade-Tribune

Our sympathies are all with the truck drivers in the current extreme frustrations which they are undergoing in trying to keep running, earn a living and do their job.

However, we cannot condone the tactic of highway or freeway blockades by trucks as a form of protest. When blockades are used, the victims are not the fuel vendors, nor oil companies nor the government.

The victims are ordinary motorists who are trying to get to work or store, or even doctor. They, too, have their problems. They have a gasoline shortage, either now or threatened. They cannot buy fuel on Sunday.

Their problems are much similar to the truckers, with the exception that they do not have to meet the time schedules, in most cases, which truckers must meet to operate their vehicle at a profit.

The truckers seem to be seeing the light on this tactic. Sympathy for their plight could quickly turn to anger if their protest efforts impede the ordinary and orderly flow of traffic. The "strike against the public" is a new tactic which has been employed for its dramatic results. The hope is that the ire of the people will be turned, not against the striker, but against the cause of the problem.

It is an unfair tactic. We protested it when gasoline stations were closing as a protest against controlled prices. They were hurting their own customers, not the government which had imposed the restraints.

All of us are facing difficulties, and perhaps hardships ahead. They may be a little easier to bear if we are kind to one another and careful who is hurt by protests.

EVANS & NOVAK

him one of the six assistant administrators now in Simon's table of organization. Until Simon was named, Reich was a virtual free agent.

Angered by Reich's explosion, Simon lectured the veteran naval combat officer. The nation is in an energy crisis, he said, and no one could be a "pompous" prima donna.

A few minutes later, Reich and Simon agreed Reich simply could not fit into Simon's energy program.

The episode tells much about Simon. It shows, first, that he knows exactly what he wants. Second, it underlines his tough self-confidence in not veering away from confrontation.

Perhaps most important, however was Simon's careful political preparation for the confrontation with Reich.

To cover his flank, Simon cleared the possible ouster with Morton, who had hired the admiral for the allocations job on the recommendation of presidential counselor Melvin R. Laird. Next, according to aides in Reich's allocation office, Simon called Deputy Secretary of Defense William P. Clements Jr., to make certain that a job was ready for Reich in the field of defense energy allocation.

Simon is only beginning to feel the hot pressures of the most politically dangerous job in government today.

Simon will be lucky to survive. But his tough, quick response to challenges should give President Nixon one small comfort: He has finally picked a "Czar" unafraid to crack heads in an administration that badly needs it.

THOSTESON, M.D.

Transplants last

Dear Dr. Thosteson: Our granddaughter died at 21 and donated a cornea and a kidney to two grateful people. How long do these transplants last? — J. G.

A cornea, transplanted in the eye, usually is permanent. A transplanted kidney sometimes lasts for a matter of years, depending on how closely it is matched to the recipient's needs. The length of time is gradually becoming longer as more is learned about this type of transplant.

Shortage affects forecast

WASHINGTON (UPI) — The fuel crisis and international politics have made future food prices unpredictable, an Agriculture Department food economist, Larry V. Summers, said Tuesday.

"The demand for food, both at home and abroad, could be weakened if overall economic activity slows and widespread unemployment develops," as a result of the fuel shortage, Summers said in remarks prepared for the Agricultural Outlook Conference. The result could be lower food prices.

"Conversely, uncertainty concerning fertilizer and fuel supplies and increased costs associated with producing and marketing food could result in supply reductions and upward price pressure," he said.

In addition, he said, the international trade and monetary situation also contributes to uncertainty over food prices beyond the next few months.

In past years, he said, large inventory crops such as grain served as a buffer against shortages and cut down on speculative demands for those commodities. In obvious reference to huge Soviet purchases of U.S. grain, Summers said stocks now down to near minimum levels, "and increased crop output merely restores supply to a rather precarious balance with demand."

STORES WILL CLOSE AT 7 P.M. CHRISTMAS EVE. ALL STORES CLOSED CHRISTMAS DAY.

Arctic air hampers warming trend

Twin Falls, northside, Burley-Rupert area: Mostly fair through Thursday except for areas of night and morning fog. Low temperature tonight 29 to 25. Highs Thursday near 40.

Halley, Camas Prairie, lower Wood River Valley: Mostly fair through Thursday except for areas of

night and morning fog. Low temperatures tonight 5 to 10. Highs Thursday in the mid 30's.

Synopsis: A Pacific storm system was located off the Washington, Oregon coast this morning, but its eastward progress is slow and erratic due to a very strong cold Arctic high pressure system which covers eastern

Idaho, Montana and the northern plains. Some of the cold air spilled over the Continental Divide last night and drained down the Snake River Valley to drop temperatures to two degrees above zero at Idaho Falls and Soda Springs early this morning. The cold air drainage will also retard a strong

warming trend which would otherwise develop over the Magic Valley.

The extended outlook is for only weak storm activity and average wintertime driving conditions during the last half of this week. Temperatures will average slightly above normal with highs 35 to 45 and lows in the 20s.

Brokerage firm head threatens to quit NY exchange

NEW YORK (UPI) — George Shinn, president of Merrill Lynch, Pierce, Fenner and Smith, Tuesday said the brokerage firm may withdraw from the New York Stock Exchange if a controversial securities reform bill now in the Senate Banking Committee becomes law.

"I want to make clear that we have not threatened the exchange nor told them that we are definitely going to pull out," Shinn told UPI.

"What we have said is that we will do whatever is necessary to protect the interests of our customers in getting the best price and best

service" in securities transactions.

The legislation, which was advanced by Sen. Harrison Williams' subcommittee on securities last week, has drawn sharp criticism from Wall Street leaders because it makes no provision for requiring exchange

membership after fixed commission rates are abolished in 1975.

The legislation essentially is designed to set the stage for creation of a national securities market, or central market system.

Critics have said competitive commissions replacing the

fixed rates after April 30, 1975, will lure members away from the exchanges unless the government requires them to maintain membership for dealing in listed securities. Fixed commission rates for securities transactions are a major incentive for exchange membership.

The "floating dollar" situation and the detente with Russia and the People's Republic of China — and consequent increase of trade — had significantly contributed to the overall prices situation, he said.

"Additional developments in the international sphere could have significant repercussions on domestic food supplies in the year ahead," Summers said.

Kuwait airs fate of hijackers

KUWAIT (UPI) — The cabinet of this Persian Gulf sheikhdom conferred for three hours today to discuss what to do with the five guerrillas who carried out the bloodiest hijacking in the history of Palestinian extremist groups. A dozen of the guerrillas' hostages left for Rome, where the nightmarish two days began.

A Kuwaiti government spokesman said it had not decided whether to put the guerrillas on trial. The cabinet met in emergency session to discuss the guerrilla operation.

The terrorists' 30-hour ordeal ended Tuesday night with the surrender of the five hijackers and release of their hostages when a hijacked West German Lufthansa 737 jetliner landed at Kuwait airport, completing an odyssey of terror stretching from Rome to Athens to the Middle East.

The attack against a Pan American World Airways jetliner and a shoot-out at Rome's Leonardo da Vinci International airport Monday left 33 persons dead. Thirty-two persons were killed at the airport and one wounded man died en route to Athens in the hijacked Lufthansa jet.

Lufthansa spokesmen had said at the time of the surrender of the hijackers and the release of their captives it was understood Kuwait had agreed to grant the Palestinians safe passage out of the country.

The Lufthansa official said the terrorists left behind two

submachine guns, five pistols, six hand grenades and a few pounds of explosives.

The two days of terror left 33 dead—32 killed at Rome's Leonardo da Vinci airport and the last victim dying en route to Athens after being wounded in Rome.

In Athens, the guerrillas dumped the last body onto the airport tarmac and ordered the pilot to tell authorities they were killing the hostages one-by-one.

Kuwaiti officials said later there were no killings in Athens, but the commandos ordered the pilot to lie to pressure Greek authorities into releasing two imprisoned Palestinians.

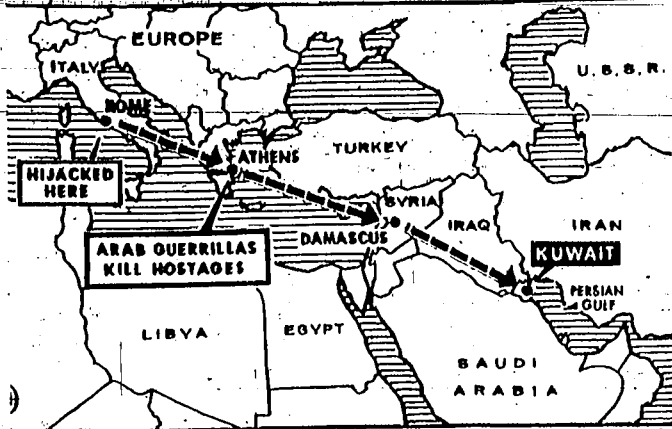

The casualty figure made it the worst Arab terrorist attack to date, topping the 28 persons slain in 1972 during an attack at Israel's Lod International airport.

One hijacker told Kuwait officials the guerrillas "are not

criminals" and "carried out this operation in defense of our rights."

The commando raid, however, was condemned by Arab guerrilla organizations and political leaders. Palestinian chief Yasser Arafat called it "an immoral act."

The ordeal began Monday afternoon at the Rome airport when the five suddenly began spraying the passenger lounge with submachine gun fire.

Guidelines adopted

VIENNA (UPI) — Representatives of the world's 12 major oil-producing nations have decided on new guidelines expected to increase energy prices for the rest of the world.

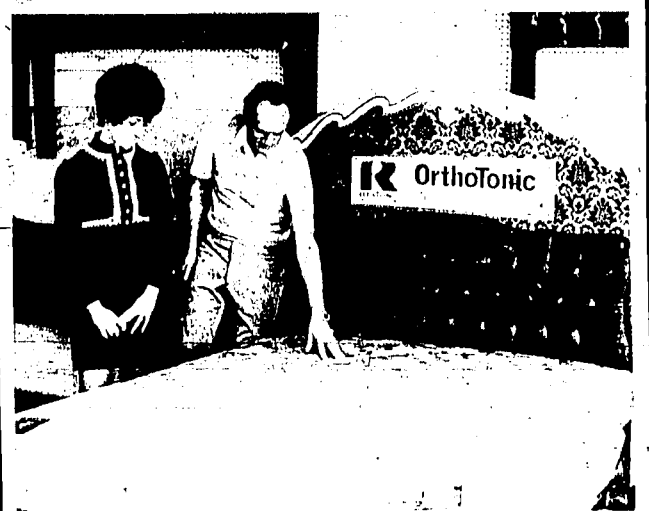

Sources in the Organization of Petroleum Exporting Countries (OPEC) said a conference Tuesday agreed prices should be based on supply and demand. Until now, oil prices have been fixed in advance by the 12 countries.

The sources agreed plans to restrict supply combined with increasing demand would push prices higher.

Several companies including unidentified American firms last week bought oil at auction from Iran at more than three times the current world price.

OPEC nations from the Middle East, Asia and South America produce 85 per cent of all the world's oil imports. Most other countries must buy oil at OPEC prices or go without fuel.

Soviet Soyuz orbits

MOSCOW (UPI) — Rookie cosmonaut Pyotr Klimuk (twisted in his contour seat, pushed a radio button and in the Soviet Union's space language became Kavkaz.

"Zarya, zarya (dawn)," he called to Russian ground control. "I am Kavkaz (Caucasus). We begin working according to plan. Warm greeting to all on the ground."

Back over the airwaves came the metallic rasp of an anonymous ground controller at the Balkanur cosmodrome: "Flight proceeding normally."

The two-man Soyuz 13, the second manned Soviet space flight in three months, was in orbit.

The Tass news agency said the spacecraft blasted off Tuesday afternoon, piloted by two 31-year-old space rookies, Klimuk and Valentin Lobelev, flight engineer.

The two were among the youngest cosmonauts or astronauts since Russia's Yuri Gagarin became the world's first spaceman in 1961 at the age of 27.

Nelher was scheduled to take part in the 1975 joint Soviet-American flight involving two-man Soyuz and three-man Apollo capsules.

Tass said Soyuz 13 carried an "integrated observatory for astrophysical survey" and Soviet sources said the spacecraft would remain in orbit for several days.

The cosmonauts were reportedly making solar studies and performing spectrography on stars. Tass said the men were also testing methods of weather forecasting and trying to predict natural calamities.

The cosmonauts were also scheduled to test the systems of the Soyuz, extensively revamped after three cosmonauts died when a hatch leaked during the re-entry of Soyuz 11 in June, 1971.

There were indications the Soviets planned to dock the Soyuz with a Salyut space station, Russia's equivalent of America's Skylab, as practice for the 1975 flight, although there was no official confirmation.

Nixon returns queried

WASHINGTON (UPI) — President Nixon "can't remember" whether he paid California income taxes when he was a congressman, senator and vice president, an official spokesman says.

In addition, two White House spokesmen indicated Tuesday that "Nixon's aides have no present intentions of searching through California records between 1948 and 1960 to clarify his tax status during those years."

In making public Nixon's tax returns Dec. 8, officials disclosed that he has paid no California income tax since he became president on ground that his "domicile" is in Washington even though he votes in California. As an elected federal official, he also paid no District of Columbia income tax during his presidency.

UPI asked White House officials a week ago whether the President paid state taxes when he served in Congress and was vice president. He was elected to the House from California in 1946; served two terms and was elected to the Senate in 1950. He was elected vice president in 1952 and served two terms under Dwight D. Eisenhower.

Kenneth Clawson, deputy director of White House communications, said Tuesday he had asked Nixon and that the President told him "he can't remember" whether he paid state taxes during the years in question.

Road money

SAN FRANCISCO (UPI) — More than 5,000 persons pull up to the toll plaza of the Golden Gate Bridge each year and discover, to their embarrassment, that they have no money.

About one-tenth of the broke motorists leave such items as watches and parts of oil and cuff links as security deposits until they can return with the 80-cent toll, according to bridge authorities.

Soviet crew

THE CREW of the Soviet Union's Soyuz-13 spacecraft, flight engineer Valentin Lobelev, foreground, and Maj. Pyotr Klimuk, spacecraft commander, wave prior to launch Tuesday. (UPI)

Drug price cut aired

WASHINGTON (UPI) — Ralph Nader says Secretary of Health, Education and Welfare Casper Weinberger has it within his power to shave millions from what consumers and the government pay for prescription drugs.

Weinberger could issue a regulation prohibiting the HEW Department from paying above

the lowest price for generic drugs when it makes purchases under federal health programs such as Medicare and Medicaid, Nader said.

When drugs are sold under their chemical, or generic, names they are usually cheaper than when the identical compounds are sold under brand names.

OUR GIFT SUGGESTION for your favorite salesperson

Tuition charge to the Dynamics of Outside Selling training seminar at College of Southern Idaho beginning January 14. Each Wednesday evening 7 to 10 p.m., ten weeks. The cost is \$25.00.

While the course is written for outside sales work, the principles are helpful anywhere in the business world.

Boyle term cut

WASHINGTON (UPI) — Federal Judge Charles Richey today ordered W. A. "Tony" Boyle jailed immediately for making illegal political contributions from United Mine Workers funds, but reduced the sentence of the former UMW president from five to three years.

Boyle, 72, is expected to be taken to a federal prison hospital at Springfield, Mo. He has been in a hospital since a suicide attempt Sept. 24.

Richey originally sentenced Boyle to the five-year term, and said he was reducing the period because of his health.

Hearing continues

CLEVELAND (UPI) — A federal grand jury investigating the fatal shootings of four Kent State University students by Ohio National Guardsmen today resumed its secrecy-shrouded hearing at the Federal Office Building.

No one from the Justice Department would discuss what transpired Tuesday in the first day of the inquiry, but David Trost, a representative of the Columbus consulting firm of Richardson-Smith, Inc., said the 13 men and 10 women jurors were given a graphic

briefing on the Kent State campus.

Trost, of Westerville, Ohio, said he testified to the accuracy of a model prepared by his firm of the part of the campus where the shootings occurred. He said he thought he was the first witness.

Film materials also were taken into the jury room and it appeared the first day was devoted to filling the jurors in on the area where the incident occurred and possibly on the incident itself.

US trade surplus reported

WASHINGTON (UPI) — The Commerce Department reported today that three indicators of U.S. world trade soared from a second quarter deficit to a third quarter surplus of \$2.5 billion.

One indicator, the balance on current account which measures goods, services and payments, rose to \$1.2 billion between July and September from a deficit of \$307 million in

the April-June period. The other two, which measure the flow of money, showed U.S. government capital flows switched from a surplus of \$75 million to a deficit of \$303 million. But private long-term capital flows reversed from a deficit of \$317 million in the second quarter to a surplus of \$1.7 billion.

Spurred by a favorable shift in export-import performance,

the balance on goods and services advanced to a \$2.1 billion surplus, the Commerce Department report said.

Spiro seeking suspension

(c) N. Y. Times Service
 ANNAPOLIS, Md. — Spiro T. Agnew asked Maryland's judiciary Tuesday to suspend rather than disbar him, giving him a second chance at the practice of law.
 He made his plea before a panel of three judges in the county court house here, shortly after lawyers from the Maryland State Bar Association told the panel the former vice president should be disbarred because of his conviction last October for tax evasion.
 His voice cracking, his face lined and tired-looking, Agnew told the judges that a temporary suspension from practice would be sanctioned.
 "I would conduct myself in a way that would not bring discredit upon the bar, or the legal profession or the courts," he promised.

The panel of judges, appointed by the Maryland Court of Appeals to hold a disciplinary hearing and to recommend a disposition to the court, recessed the hearing after Agnew spoke and promised a ruling as "expeditiously" as possible.
 It gave no indication of what it would recommend. But during the hearing, it overruled Agnew's lawyers on one key point: it decided to admit into the record the full transcript of the proceedings in which Agnew entered a plea of nolo contendere last Oct. 10 in the federal district court in Baltimore to a single federal charge of tax evasion.
 Agnew's lawyers argued that the summary was irrelevant in that it concerned matters for which Agnew was not formally charged.

... SPIRO AGNEW
 ... wants chance

Tighter control asked

(c) N. Y. Times Service
 WASHINGTON — The General Accounting Office, reporting on its review of federal spending on President Nixon's private residences, called today for Congressional action to provide closer control over and greater public disclosure of such expenditures in the future.
 The agency also asked Congress to consider limiting the number of private residences of a president protected at public expense. The report by the General Accounting Office put the total spending by the General Services Administration at the

president's private residences at Key Biscayne and San Clemente at \$1.4-million. It concluded that most of that amount was in fact spent on the protection of the President.
 However, the GAO, Congress's "watchdog agency," also found that some of the expenditures by the government were questionable and perhaps should have been paid by the President himself.

'Gate tape played at party

WASHINGTON (UPI) — One of President Nixon's tapes has been played at a Washington cocktail party.

According to Attorney William Dobrovir, it happened this way:

Dobrovir represents a Ralph Nader group suing to roll back milk price increases on grounds they were affected by dairy

industry contributions to the Nixon re-election campaign.

In connection with the suit, Dobrovir subpoenaed a tape recording of a meeting between President Nixon and dairy industry representatives. Someone, whom he didn't identify, gave him the tape last Wednesday night on an airplane bound for California.

It was "kind of a funny place to honor a subpoena," Dobrovir said in a telephone interview with UPI Tuesday night. He returned to Washington Monday, had the recording transferred from a reel to a cassette and started home with it, intending to play it on his home sound system.

On the way, he stopped at a friend's house in the George-

town section of Washington for a drink. "I remember saying I've got the tape in my pocket and they said let's play it and I said sure," the attorney reported.

All that could be made out from it, he said, was President Nixon's voice introducing a number of participants at the meeting. "It was virtually inaudible," he said.

Dita won't appear

(c) N. Y. Times Service
NEW YORK — The Watergate special prosecutor has decided not to call Dita D. Beard as a witness before the Watergate grand jury, following two psychiatric examinations of the former lobbyist for International Telephone and Telegraph Corp.

Mrs. Beard had been considered a potentially important witness in establishing ITT's controversial relationship with the Nixon administration.

However, a psychiatrist appointed by the court has concluded she would not testify.

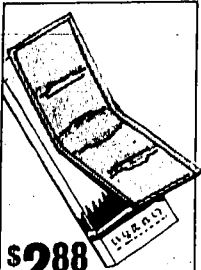

Embargo ban

(c) N. Y. Times Service
WASHINGTON — The Senate voted Tuesday to restore a United States embargo against imports of chrome from Rhodesia.

The measure still requires approval in the house of representatives, but Sen. Hubert H. Humphrey, D-Minn., was said to feel the 54-to-37 victory of his bill in the Senate augured well for elimination of the loophole by the House, too.

Short-term energy hardships reviewed

Facilities donated

GOODING — The Gooding Senior Citizen's Center will be donated use of space in the Gooding TB Hospital instead of being charged for it as previously reported.

The space used by the center is valued at \$3.50 per square foot, but is an "in kind donation," with the value being set for matching fund purposes, according to Milt Klein, Department of Environmental and Community Services regional director.

Directors elected

GOODING — New directors of the Gooding Chamber of Commerce were elected at a meeting Tuesday.

They are Larry Robertson, Walt Locke and Al Hagan, incumbents who were re-elected, Phil Alger and Jack Varin. They will all serve two-year terms.

The new president of the chamber of commerce will be elected Dec. 27.

Quota topped

HAILEY — The Blaine County blood drawing passed its 100-pint quota by one pint Monday in Hailey.

Donors included 16 National Guardsmen; over 30 first timers; and, in a challenge between the Wood River Lions Club and the Hailey Rotary, each group donated nine pints. Rupert House, Triumph, was also awarded a six gallon pin.

The Red Cross was aided in staging the drawing by the Blaine County Hospital, Auxiliary.

Boise firm low bidder

BOISE — Western Construction, Inc., Boise, is the apparent low bidder for construction of 4.62 miles of Interstate 80 North in the Bliss area.

The firm's bid of \$5.05 million was the apparent low among seven received for the project. Included are construction of the roadway, drainage structures, base, pavement, signing, one 361 foot concrete underpass and twin 246 foot concrete railroad overpasses.

When completed, the project will carry I-80N around Bliss on the north side of town.

Parents liable

BOISE (UPI) — Attorney General W. Anthony Park is preparing legislation to make parents liable in shoplifting crimes in their minor children.

Park said his office also is applying to the Law Enforcement Planning Commission for a \$12,500 grant to help conduct a statewide anti-shoplifting campaign.

He said the Idaho Retailers Association has pledged to match the grant.

Gas available

IDAHO CITY, Idaho (UPI) — Gasoline once again will be available here.

After publication and broadcast of news stories about the gasoline drought in this mountain town Tuesday, suppliers started calling retailers and offering them gasoline.

Charles Douds, owner of D and A Distributing, said his telephone started ringing Tuesday morning.

"I had suppliers offering me gas," Douds said. "I guess they didn't like the publicity."

Emmett receives grant

WASHINGTON (UPI) — The Health, Education and Welfare Department has awarded a \$172,440 grant to the West Idaho Community Action program in Emmett for the Head Start program serving Gem, Payette and Washington counties.

The program will use the funds to provide pre-school training and part-time day care for children from low-income families in the three counties.

Rationing averted

WASHINGTON (UPI) — Sen. James A. McClure, R-Idaho, believes the nation could get by without gas rationing, if the Arab oil embargo is lifted. But he said rationing is inevitable if the embargo remains.

McClure made the statement Tuesday after a 20 minute meeting with President Nixon to discuss the energy crisis and the senator's recent trip to the Mid East.

New members needed

BOISE (UPI) — Food Producers of Idaho, formed primarily to deal with farm labor problems, is seeking new membership and hopes to branch out into other areas of interest to all Idaho agricultural groups.

Jack Pierce, organization president, said the group has met with representatives of some 20 member organizations to discuss the expanded role of the Food Producers.

Meal fund set

POCATELLO, Idaho (UPI) — The cities of Pocatello, and Lava Hot Springs will receive nearly \$26,000 in federal funds for a program to provide five meals a week to the elderly.

The meals will be provided through the Christenson Court, the community center in Pocatello, and at the Senior Citizen Center in Lava Hot Springs.

The nutrition funds are included an allocation of \$110,000 which will also provide a minibus for transportation of the elderly at Lava Hot Springs.

Five counties benefit from the grant. They are: Bannock Bear Lake, Bingham, Caribou and Oneida.

Buhl exceeds quota

BUHL — The blood drive in Buhl Tuesday exceeded its quota by 48 pints.

Donors contributed 148 pints of blood in the drive. The quota was 100 pints.

New class offered

MOSCOW, Idaho (UPI) — Presidential privilege will be the topic of a new class being offered next semester by the University of Idaho Department of Political Science.

Dr. Robert E. Hoosick, professor of political science who will be teaching the course, said the class will begin meeting Jan. 22 and will continue through Feb. 14. Part of the course will include attendance at the annual Borah Symposium Feb. 5-7.

Grants announced

WASHINGTON (UPI) — Sen. James A. McClure, R-Idaho, has announced a pair of grants totaling \$446,400 to Northern Idaho.

McClure said the Economic Development Administration notified him Tuesday of the grants to the Coeur d'Alene Indian Tribe and to Bonner County.

The Coeur d'Alene Tribal Council grant of \$304,000 is to stimulate community development and long-range growth, and will be used for construction of an administration building and water system by the tribe at Plummer.

By BILL LAZARUS
Times-News Writer

BOISE — Oil hardships have fallen primarily upon farmers, food processors and truckers in Idaho, according to Lawrence E. Davis, federal energy allocation officer for the state.

During the past month Davis, who works for the U.S. Bureau of Mines, has been reviewing short-term energy hardship cases along with the U.S. Energy Office in Idaho.

The Energy Office works as an appeals board, over which Davis has vote power. Individuals or companies flooding more heating or diesel oil for periods of up to a month can appeal to the

Energy Office. If the request is approved, Davis reviews the decision.

The office has control over a diesel oil reserve supplying 10 per cent of the state's total allocation. This reserve is used to meet the short-term hardship requests. Any long term fuel requests are sent on the northwest regional energy office in Seattle.

So far about 30 requests for more oil have been granted, Davis said. He could not estimate how many requests had been turned down.

Rick Brown, in charge of the Idaho Energy Office, said the office has been able to handle the immediate needs of all hardship cases. Expanded farming operations and switch overs

from gas to diesel fuel use have been a source of many new fuel needs, he said.

Davis said the Bureau of Mines has stepped into the energy allocations field for expediency. When the government first established the Energy Office Nov. 1, it needed staff to man the offices.

The Bureau of Mines provided the staff, he said. Davis predicted the Energy Office will be an entirely separate operation next year.

Although the Energy Office was officially operating Nov. 1, it did not start making allocation decisions until mid-November, Davis said.

Davis predicted that as time goes on, the

office's job may become tougher. "We all may be reduced to 30 or 40 per cent of what we are accustomed to before this whole thing is over," he said. Currently, major oil suppliers in Idaho have been reduced 25 to 90 per cent of last year's diesel oil for the state.

An information officer for the regional energy office in Seattle said about 350 applications for more diesel have been received since Nov. 1, and only about half of them have been reviewed. She did not know how many requests had been accepted or rejected but said, "I don't believe we are doing very much rejection... we're trying to spread the shortage around to everybody equally."

Gooding visitors

MR. AND MRS. SANTA CLAUS and three elves took time out from their busy holiday schedule to visit the Green Acres Nursing Home in Gooding Tuesday afternoon. Frosty the Snowman accompanied them also. They distributed gifts and candy to the senior citizens.

Rupert Council approves request

By MARILYN ELLIOTT
Times-News Writer

RUPERT — The Rupert City Council tentatively approved a joint city-county request for a portion of the about 12,000 acres of Bureau of Reclamation land being studied for disposition.

County commissioner Lyle Barton presented the council with a letter Tuesday night, drawn up by the commissioners, asking the director of the Idaho Bureau of Reclamation for one of two choices for joint ownership by the city and county.

The first site choice was about 310 acres of land located north of Rupert to be set aside for recreation and in part for a county sanitary landfill, Barton said.

The second choice located just east of the first parcel consists of 507 acres for recreation use and for a landfill.

Councilman Clark Cameron said the council's final decision will rest on the recommendation of Mayor Wendell Johnson who was not present at Tuesday's meeting. Cameron said, however, the city and county were "in basic agreement" on the use of the land.

Dave Wilson, head of the Rupert waste water treatment plant, reported on a city meeting with Environmental Protection Agency (EPA) representatives last week.

The men, he said, told the city to proceed with the A Street sewer line including a hookup from

the H Street line if that was what the city wanted to do. Prior approval from the EPA may be granted for the project, he said, but that would not guarantee funds for the \$150,000 project.

Wilson said the officials put the waste water disposal plant on a strict deadline, requiring completion of new facilities in 1975 or the sewage permit would be denied. The deadline can just barely be met "if everything goes smoothly," Wilson said.

A request by Charles Hutton to use the old city landfill for temporary storage of old cars will be worked out in conjunction with Hutton and the county, the council decided. Hutton has apparently requested the use of a portion of the present county landfill for the same purpose.

The council felt the use to the facility now in operation would be more efficient than the reopening of an old landfill which could create a new dumping ground for other refuse.

The council heard the first reading of five ordinances which would lead to the adoption of the Idaho Uniform Housing, Fire, Sign, Building and Mechanical Code. Rupert is now operating under the 1959 Fire Code and the 1967 Building Code.

The council asked for feedback from 11 local builders and contractors on the adoption of the codes.

The council tabled a proposal by parks and recreation director Dan Shabe to reorganize parks personnel until those suggested for the

posts consent to the changes.

Shabe's plan called for a year-around, part-time parks director and a full-time parks supervisor hired for an eight-month year. The change, he said, would save the city about \$100 per year.

The council approved the purchase of carpet at a cost of about \$400 by the Rupert Senior Citizens. The carpet will be used in two rooms at the Senior Citizens Center.

Pollution control compromise eyed

By DAVID ESPO
Times-News Capitol Bureau

BOISE — The energy crisis may mean compromising on some areas of environmental protection, according to a top state official, but "that doesn't mean the whole program is going to be thrown out the window."

A. J. Elguren, head of the environmental protection division of the Department of Environmental and Community Services (DECS) said Tuesday in an interview environmental officials across the country were afraid of "serious setbacks" brought on by dwindling energy supplies.

"My own feeling is that some areas are going to have to be compromised," Elguren said in relation to Idaho's pollution problems. But he also warned that compromises would be made only on a case by case basis.

He said every effort would be made by Idaho pollution officials to separate the "real reasons" for changes in plans to clean up dirty

air or water from what he termed "the other requests."

Elguren said DECS had already had some discussions with major polluters in the state who were having trouble getting delivery on pollution abatement equipment. "Extensive material shortages" Elguren said, would in some cases constitute a legitimate reason for extensions on pollution abatement deadlines.

Amalgamated Sugar Co. has discussed delivery problems with state officials, Elguren said, although had not formally requested an extension on compliance schedules they have been committed to. Any request from the company, or other firms that have raised the issue, will be turned down unless delivery problems can be documented, he said.

Other possible areas for compromise, according to Elguren, are:

— permitting industry to burn coal with a higher sulfur content than is now permitted. Elguren emphasized, however, that western states don't face that problem as much as other

parts of the country because of the type of coal in use;

— certain control devices used in manufacturing may not be feasible because of the high energy demand they make in operation. In that case, Elguren said, other methods might have to be found that are "less efficient" but still cut back on pollution.

In spite of these potential problems, Idaho is going to stick to the compliance schedules and pollution permits already issued wherever possible.

In other areas, Elguren said the department was going to concentrate more heavily in "preventive kinds" of activities as well as in eliminating existing pollution sources.

Plant site location will be monitored by DECS, Elguren said, to make sure that new industrial and other construction is handled to minimize the amount of waste emitted into the state's atmosphere and water sources. He said the department will require new sources to

meet "stringent new standards" before permitting them to construct their facilities.

Pointing to the 1974 legislature, Elguren said the environmental division had at least two goals in mind:

— enacting legislation giving DECS sufficient authority to gain control over water pollution permits, currently under federal jurisdiction. The penalties approved by the 1973 legislature aren't strict enough, DECS has been told.

As a result, Elguren said, efforts would be made to increase both the civil and criminal penalties the state can impose.

— retention of water quality management under DECS instead of its transfer to the proposed Department of Water Resources in a reorganized executive state government.

Efforts to transfer the functions away from other pollution programs DECS controls would be a step against the progress made in the past 18 months, Elguren and other DECS pollution experts argue.

Lanting may end service

TWIN FALLS — House Speaker William Lanting, R-Hollister, said today he is considering an end to his legislative service.

According to a United Press International story Tuesday, the eight-term representative said he did not want to make an official statement until after the end of the next legislative session which convenes in January, but added, "I am not planning on running again."

Lanting said today "every legislator considers leaving or staying." He would not confirm any plans to step down next year.

Douglas Kramer, chairman of the Twin Falls County Republican Central Committee, said he had known for several months that Lanting might not seek re-election, according to the UPI story.

Lanting has served as Speaker of the Idaho House since 1967. He represents District 24. He served as majority leader in the House from 1963 to 1967.

The Speaker said he would devote full-time to his farming operation if he does step down.

He said he took office with the expressed intention of "improving and broadening the tax structure" of the state. The adoption of the sales tax in 1965 was a "major answer" to that problem, he said.

The state has also "made strides toward uniformity in assessment of property for tax purposes," according to Lanting.

Burley okays 11% increase

BURLEY — The Burley City Council granted an 11 per cent increase in payments to Teal's Sanitation for residential garbage pickup.

The action will transfer an additional payment of about \$400 per month from the city to the sanitation firm.

The change will not affect current pickup rates charged city residents.

Under past contracts the city received 52 per cent and Teal's Sanitation received 48 per cent of sanitation revenues. The new formula would reduce the city's share to 47 per cent and the sanitation firm's share increased to 53 per cent.

In other action Monday the council approved an ordinance calling for a \$10 fee and a \$20,000 bond from any contractor digging in city streets.

City attorney William Parsons said air rights over the Lex Kunau property on East 16th Street had been purchased for \$2,500. The purchase, being negotiated for several months, will secure a \$40,000 grant from the Federal Aviation Administration for improvements at the Burley Municipal Airport.

The council also drew up a resolution of a statement of intent to remodel the old National Guard armory for use as a new fire station with the use of city personnel.

The Council decided to meet with Olla Orton to discuss purchase of several acres of his property south of town for construction of a well and water storage tank.

Jerome thumps Valley with last-half spree

JEROME — Getting 10 quick points from Steve O'Toole and John Donkersloot, the Jerome Tigers burst away in the third quarter and rolled past the Valley Vikings 69-46 Tuesday night.

Although Jerome had a big height advantage, Valley stayed in the contest through the first half. That came largely because the teams took turns hitting cold spells. Jerome never trailed in the contest but that was due to terrible free throw shooting by the Vikings in the first half.

Nursing a 28-24 halftime lead, the Tigers quickly ran away as Kelly Emerson hit two points and Jerome went inside to O'Toole for six more. Donkersloot picked up two more on cripples, the first on a one-pass fast break and the second on the back end of

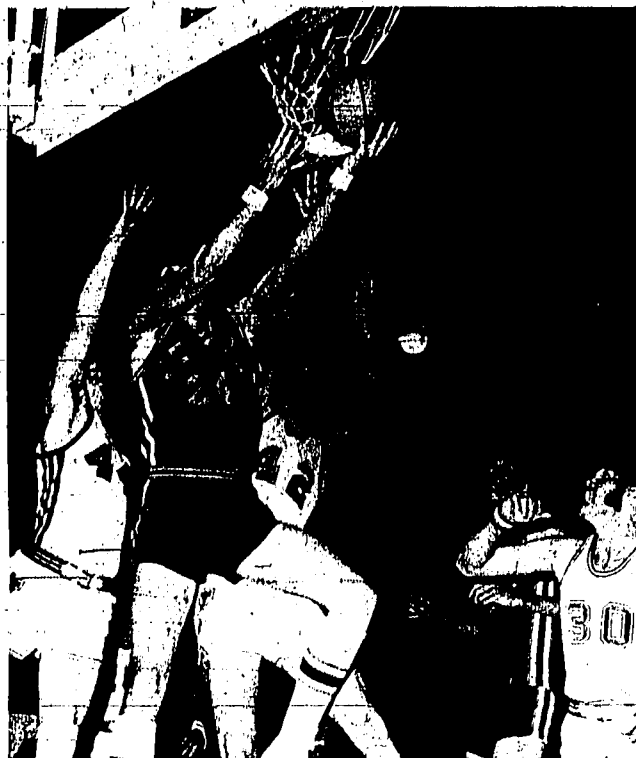

Valley's zone defense. Only Valley's Rocky Hagan could hit with any consistency and this wasn't his best shooting night.

Jerome looked like it was going to breeze away two minutes into the second period when Emerson hit the baseline for a bucket, and Grandon Stanley followed up with a three-point play. That made it 21-10. But Hagan and Fitzpatrick replied for Valley to narrow the count again.

Buckets by Hagan and Begmes reduced the halftime deficit to 28-24. After Jerome pulled out 30-24, Valley scored to establish a four-point margin. But in the next five minutes Jerome outscored the Vikings 10-2 and wound up with a 22-point third quarter against Valley's five.

Jerome won the first game 79-39.

Jerome	Jerome 47	Valley 46	
Emerson	10	Hagan	7
Chapman	5	Donkersloot	1
Donkersloot	5	O'Toole	2
O'Toole	5	McDonald	2

Driving the baseline

REVERSE LAVUP is launched by Jerome's Lee Chapman despite the efforts of Valley's Rocky Hagan (44) and McDonald to stop him. Jerome won 69-46.

Wolves nip Mushers for 7th in row

FAIRFIELD — The Castleford Wolves won their seventh straight victory Tuesday night by outlasting the Camas County Mushers 63-62 in a non-conference game.

The Wolves, who trimmed the Mushers by 14 points last week, took the lead near the start and by halftime made it appear they would repeat the more comfortable decision.

But in the third quarter, Roland Weeks, despite carrying four fouls, crammed through 16 points and the Mushers inched back. They were never able to catch the Wolves, who had four men in double scoring figures, however.

The one-point margin came five seconds from the end when Layne Osborne hit a short jumper on an in-bounds play. Castleford also won the preliminary.

Wood River rolls past Shoshone

HAILEY — The Wood River Wolverines had a hot man for each occasion Tuesday night when they rolled past the Shoshone Indians 63-44.

Shoshone stayed with the favored Wolverines through much of the first half, although Wood River always had the advantage. Scott Uhrig hit 11 and Bill Aldinger 13 in the first half to make it 37-27 at intermission.

The roof caved in on Shoshone in the third period when Wes Moore opened with six straight points and Wood River went on to outscore the Indians 18-4.

Wood River's jayvees racked up their sixth straight decision 40-15 in the first game.

Utah trims Ohio 71-68

SALT LAKE CITY (UPI) — Utah scored nine straight points midway through the second half Tuesday night to regain the lead and edge Ohio University 71-68.

Guards Tickey Burden and Ty Medley led the Utah attack with 17 and 15 points respectively as the Utes grabbed their sixth straight win.

Walter Luckett was high for Ohio with 27 points. The 6-foot-4 sophomore guard tossed in five consecutive baskets to power Ohio U. to a four-point lead in the second half, its biggest margin in the game.

OK TIRE TRUING

EXCLUSIVE TRU-MATIC AND BALANCE

Very few tires are really round, regardless of the brand, grade, or price of the tire. They are made in round molds, but during the cooling process parts of the tire expand and others contract, causing high and low spots on the tire. At today's high speeds, these high spots create a bounce action, which, in turn, causes vibration—a dangerous driving condition—and extra wear on both the tire and the car.

In just minutes the exclusive O. K. TRUmatic corrects this condition by planing off the high spots, making the tire perfectly rounded to the wheel.

Results:

- ★ Safer Driving
- ★ Smoother Ride
- ★ Longer Wear.

Five rookies named to all-NFC squad

NEW YORK (UPI) — Five rookies were named Wednesday to the National Football Conference Pro Bowl squad for the

Jan. 20th contest in Kansas City. The newcomers are tight end Charley Young of Philadelphia,

running backs Lawrence McCutcheon of Los Angeles and Chuck Foreman of Minnesota, punter Tom Witrum of San Francisco and kicker Nick Mike-Mayer of Atlanta.

McCutcheon was on the Los Angeles squad last year but officially qualifies as a rookie under NFL rules because he didn't line up for an offensive play and didn't appear on the special teams in five games.

The team was selected by the 13-NFC coaches, who weren't allowed to name players from their own squad.

The 40-man squad includes 20 offensive and 17 defensive players plus three specialists. Nineteen of the 40 players were voted for the first time.

Among the repeaters, defensive tackle Merlin Olsen was named for the 12th straight times in his 12-year NFL career, and cornerback Mel Renfro was selected for the ninth time in nine seasons.

Outside linebacker Dave Wilcox of San Francisco was the only unanimous selection on the NFC squad.

One man whose name is conspicuous by its absence is Fran Tarkenton, the Minnesota Vikings' quarterback who's led his team to a 12-2 regular season record. Tarkenton was beaten out by John Hadl of Los Angeles and Roman Gabriel of Philadelphia.

Hadl is appearing on the NFC team for the first time after playing for the AFC three times. He was traded from San Diego to Los Angeles this year.

Despite Tarkenton's absence, Minnesota placed the most players on the squad—seven. Los Angeles and Dallas each placed six players on the team.

Four teams, Chicago, New Orleans, the New York Giants and the St. Louis Cardinals, failed to place a single player on the squad.

Crunched

SANDWICHED between two Jerome Tigers, Valley's Rick Gooding was unable to get this shot off but did manage to pick up a couple of free throws Tuesday night. Making the defensive plays are John Donkerloot, left, and Steve O'Toole (21)

Guess who's become race horse of year

NEW YORK (UPI) — Meadow Stable's Secretariat, the first Triple Crown winner in 25 years, has been voted Horse of the Year in the Eclipse Award polling as well as 3-year-old and grass champion, it was announced Tuesday.

The brilliant colt was the unanimous selection in each category in voting by the Thoroughbred Racing Associations, the Daily Racing Form and the National Turf Writers' Association in their joint poll. In winning the Triple Crown, Secretariat set track records in winning the Kentucky Derby and the Belmont Stakes and may have set a record in the breakness but for a malfunction of the automatic timer. The long-striding son of Bold Ruler, now retired to stud, started only twice on the turf, winning the Man o'War Stakes at Belmont Park and the Canadian International

Championship at Woodbine in his final race. His brilliant victories over the grass course were enough to earn him that title. Windfield Farm's Tentam and Mrs. Mary Jones' Cougar II were second and third respectively.

Secretariat earned five Eclipse Awards during his two years of racing. In 1972 he was the 2-year-old champion and Horse of the Year. Mrs. John Tweedy, manager of the Meadow Stable, will receive the three latest awards at the TRA's annual dinner on Jan. 11 at the American Hotel in Bal Harbour, Fla. She also will receive the TRA's Triple Crown trophy.

Secretariat won 9 of 12 races during the year with two seconds and one third. He earned \$800,404 to put him fourth among racing's 13 equine millionaires with lifetime earnings of \$1,316,809.

New Chicago team to be called 'fire'

CHICAGO (UPI) — Chicago's franchise in the new World Football League will be called The Chicago Fire and play its home games in Soldier Field under former Canadian Football League Coach Jim Devito.

Owner Tom Oringer announced plans for the franchise today and said that the team had "about 40" players already signed.

He would not disclose the

identity of any player under contract, but said none was in the \$100,000 category.

Oringer said 10 teams would play in 1974 and "possibly 12," identifying New York, Southern California (Anaheim), Boston, Toronto, Honolulu, Jacksonville, Orlando, Fla., Birmingham, Washington and Detroit as having representatives.

He said that while a suggestion had been made for the league to pool its resources to sign a major player, he was opposed to the idea because he did not want to share the losses of any other team.

"One strong point I made," he said, "is that franchise fees be placed in escrow to help finance any team in trouble the first few years."

He said that he had paid \$400,000 for the Chicago franchise, that Detroit paid \$500,000, and that the price on future franchises would rise \$100,000 for each one.

Contracts have been signed for national television with Hughes Sports Network, he said.

LA tips Bucks at final gun

INGLEWOOD, Calif. (UPI) — Jim Price sank a last-second shot from 25 feet out Tuesday night to give the Los Angeles Lakers a 100-107 victory over the Milwaukee Bucks.

The Lakers, trailing 107-103 with a minute to go, had Price hit a 14-foot jump shot with 46 seconds to play to pull within two. Then the little guard stole the ball from veteran Oscar Robertson with 32 seconds remaining and Bill Bridges tied the score on a tip-in.

No-shows hit million mark

NEW YORK (UPI) — Offered a choice between freezing in the stadium and sitting in their easy chairs at home, more than one million pro football fans opted for the warmer choice this season.

National Football League figures put the number of no-show ticket-holders at 1,016,565, a 63 per cent increase over the 621,886 who failed to show up last year when there was a league ban on televising home contests.

In the final week of the season the largest number of easy chair devotees was apparent as 175,383 ticketholders failed to show.

Celtics rip Warriors

OAKLAND (UPI) — Reserve forward Paul Silas came off the bench and ignited a second-quarter rally that boosted the Boston Celtics to a 125-106 National Basketball Association victory over the Golden State Warriors Tuesday night.

The Warriors were ahead 43-40 midway through the second period when Silas entered the game. Boston immediately turned things around, outscoring the Warriors 23-12 for a 53-46 halftime advantage.

Market Review

NEW YORK (UPI) — Prices opened higher in active trading on the New York Stock Exchange Wednesday.

The Dow Jones industrial average had gained 1.08 to 830.57, 50 minutes after the opening bell. Advances led declines by more than two-to-one among the 365 issues traded.

With no single news development as a reference point, the market rallied sharply Tuesday and raised hopes on Wall Street the flat finally might have hit bottom, and is bouncing back. The Dow climbed 19.37 to 829.49.

Analysts, in making a case for a market upturn, pointed to an easing of credit policies reported Monday by the Federal Reserve, the Middle East peace conference expected to start in Geneva this Friday and the accompanying hope for a speedy end to the Arab oil embargo.

MH man will produce flying saucer aircraft

MOUNTAIN HOME (UPI) — A Mountain Home man believes aircraft as we now know them may be obsolete if he can get his flying saucer into production.

John Bloomer of Bloomer Flying Saucer Co. Inc., said not only would it be the first break-through in aircraft development but it also would result in saving millions of dollars of wasted taxpayer money.

"Millions of dollars have been wasted by providing the big corporations with money for aircraft design and development," Bloomer said. "People with good ideas are not permitted to get into the picture."

Bloomer's revolutionary aircraft would actually be a flying wing with the capability of taking off vertically and then maneuvering horizontally.

"We dispense with the long extended wing," he said, "and the whole craft becomes one

complete wing — a flying wing."

Bloomer said that his aircraft would be "a very strong wing" that could withstand 10 times as much stress as the strongest aircraft ever built.

If Bloomer can obtain the financing to test his flying wing and get it into production, he feels he can drive the major aircraft builders completely out of business.

"I plan to give them their first competition in 50 years," he declared.

Bloomer said it would not affect employees in the aircraft industry because he would buy up the majors' machinery and hire the employees that they were forced to lay off because of his craft.

He noted that \$50,000 a minute was being wasted by the U.S. government on research into military aircraft. Just in the past 12 months, he

added, \$6 million has been wasted on worthless development in the helicopter field.

Bloomer, who said he had 10 years experience with Boeing, Lockheed, Douglas, North American and Northrup Aviation companies, said his flying saucer could be built much cheaper than present day aircraft.

And, he said, "My aircraft is ideal."

Capable of carrying up to 1,000 passengers at speeds over 600 miles per hour, the flying wing would be constructed of Dymel over plastic foam.

"It's amazingly strong," Bloomer said.

He said his craft would not be dependent on any type of engine because "any type can be used." He said it would be coupled to a compressor which would produce the compressed air which drives the aircraft.

All the power plants, Bloomer said, would be on carriages which could be shoved around so the pilot would have control at all times in changing the center of gravity.

Fuel consumption, he said, would be normal but the payloads would be greater.

Bloomer hopes to raise an initial \$50,000 for his project. He said he was contacting foundations in the Boise, Seattle, Los Angeles and Portland areas.

His first big obstacle, after obtaining financing, will be to test a prototype of the airplane-helicopter type craft in a wind tunnel, possibly at the University of Washington.

Missing Americans search on in Asia

(c) New York Times Service — BINH CHANH, South Vietnam — A few American Green Berets came back to Vietnam without their guns, but with some strong memories and fears.

They put on fatigues and combat boots, holstered radios onto their backs and slugged knee-deep through flooded rice paddies.

"Just like old home week," one sergeant said.

They were searching not for some elusive enemy, but for the final resolution of a small chapter in the war.

In July, 1966, a U.S. Army helicopter gunship carrying four crewmen was shot down here 10 miles southwest of Saigon. Three bodies were recovered, the fourth was never found.

That soldier — whose name was not made public — is one of a long list of Americans unaccounted for in the warfare that has raged across Indochina.

His remains were the object of the search by the Green Berets — members of the Army's special forces who are

now based in Thailand and assigned to the job of examining crash sites throughout Vietnam, Laos and Cambodia.

Almost all the dozen or so men on the search team had fought in Vietnam, some had done two tours or more.

Now they were back, a few feeling naked without their rifles.

Better to Give...

The more you compare the better we look. And sound. Proof? MGA is one of the few companies in the world big enough and experienced enough to produce a wide line of quality electronic products and to manufacture most of its own critical parts. That's one reason why MGA's reliability is world renowned. The price is right, too because there's no middleman. MGA distributes on a direct factory to dealer basis.

But why not have a look and a listen for yourself. Then compare MGA's more for your money features with anything on the market. We think you'll agree. MGA is better. Every way. See the MGA line at Mel Quales Service Co.

Annual handbook available

WASHINGTON (UPI) — The Agriculture Department today announced publication of its annual "Handbook for the Home," a yearbook designed to show families how to use their income to best advantage.

The increase in the cost of living is reflected in the price of this year's 388-page volume. Copies will sell for \$5.70, an increase of \$2.20 over last year. It will be the first increase in price for the book since 1969, when it rose from \$3.50 to \$5.50.

The biggest selling yearbook, was in 1965, when the public bought 125,396 copies. More than 68,000 copies were sold last year.

The department ordered 251,152 copies this year, of which 233,450 will be given free to

Congress for distribution to constituents. Another 6,152 copies will be distributed among various governmental agencies. The superintendent of documents will be in charge of copies for public sale.

Unlucky car

RENO, Nev. (UPI) — Robert McLean was eating his lunch when a policeman told him his car had rolled down an incline and crashed against a wall.

McLean parked the car again and returned to finish his lunch. The policeman returned with another message. McLean's car was on fire.

ICA picks officers

NEW OFFICERS of the Idaho Cattlemen's Association include (from left) Farrell Daniels, Malad, president; Rolfe Patrick, Rogerson, first vice president and David Little, Emmett, second vice president.

Gem unit picks Daniels

BOISE — Farrell Daniels, Malad, is the new president of the Idaho Cattlemen's Association.

Daniels was elected at the 80th annual convention here, succeeding Ralph Steele, Idaho Falls. Nearly 750 cattlemen attended the event.

Roland Patrick, Rogerson, was elected first vice president to succeed Daniels, and David Little, Emmett, was elected second vice president to help direct activities of the 3,000 plus member organization.

Elected to three-year terms as directors were Robert Sandy, Priest River; Don Carr, Kootenai; Lee Trail, King Hill; Blaine Ramey, Blackfoot; Kanyon Weeks, Bran Valley; Dale Payne, Leadore; and Delmo Smith, Bancroft.

Heading the list of resolutions was strong opposition to classification of wild and scenic rivers being applied to the Salmon River. The association opposes single proposals for classifying and enlarging the Salmon River and Idaho wilderness areas.

Also taking strong precedence was a resolution endorsing the actions of the livestock industry's Public Lands Council in intervening in lawsuit against the secretary of the Interior and director of the Bureau of Land Management that could eliminate grazing of livestock on public ranges.

The association also asked Congress to appropriate substantially more money to the federal agencies for sufficient funding of projects for resource improvements as outlined in allotment management plans.

The association resolved to support the adoption of legislation that would assist the state and counties in Idaho to formulate and implement land use plans, but leave private property rights intact, and refrain from authorizing the use of sanctions against non-complying states. The group urged Congress to delete the

sanction provision in the two land use planning bills pending before Congress.

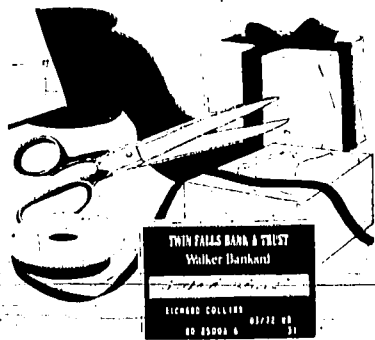

The association opposed the establishment of a wild horse refuge, stating it is not compatible with good resource management and the multiple use concept. The organization encouraged Congress to seek necessary appropriations for the U.S. Forest Service to develop a comprehensive research program in cooperation with the University of Idaho to provide effective management practices for all uses and values on forest and range lands that are composed of

fragile, granitic soils.

The association supported the proposal to expand the veterinary medicine program in the northwest by Idaho supporting its share of a joint curriculum effort with Oregon State University, Washington State University and the University of Idaho.

Many at the convention criticized the Delaney Amendment which places zero tolerance on the use of many additives, antibiotics, and agricultural chemicals that have proved to be extremely beneficial and necessary for the increased production of natural protein through meat.

Extra care in engineering... It makes a big difference in small cars. **Where's the only place in town to find a small car that...**

- ... is priced less than Volkswagen's most popular model. You'll be surprised how little it costs to own one of our small cars. The suggested retail price is less than Volkswagen's most popular model, believe it or not.
- ... can go farther on a gallon of gas than Nova. Recently published test results by Popular Science show our "Slant Six" engine can go farther on a gallon of gas than Nova, and you get a "Slant Six" engine standard in all our small cars, which means you can get more miles per gallon than comparable size small cars like Maverick, Comet, Ventura and Apollo.
- ... has more trunk space than 3 Pintos. Dodge Dart Sport has the largest luggage capacity by far in the small car field. More than Nova and Maverick, twice as much as Vega and more than three times as much as Pinto.
- ... has up to 20" more total hiproom than a Maverick. Dart Sport and Duster seat 5 comfortably. And they have more hiproom — front and rear — than Nova, Hornet and, of course, Mustang II, Granlin, Vega and Pinto.
- ... can save you as much as \$53 in ignition maintenance alone. Electronic ignition is standard on all our small cars. In recommended ignition maintenance alone, you can save up to \$52 every 24,000 miles over competitive 6-cylinder engines and up to \$27 over competitive 4-cylinder engines.

The Answer Is At Bob Reese Motor Co.

Dodge Dart Swinger

*Price comparison based on manufacturer's suggested retail prices excluding destination charges, dealer preparation and state and local taxes. Optional wheel covers shown, \$51.20 extra.

**Gas mileage figures based on October 1973 Popular Science magazine. Tests performed by Popular Science for its report were conducted on 73 vehicles with figures adjusted by Popular Science for 1974 model changes and the results of E.P.A. tests.

Maintenance literature and parts list are extracted from 1973 Chilton's Labor Guide and Parts Manual. Labor rates based on national average of \$10.00 per hour.

Energy crisis hits Forest City, many out of work

FOREST CITY, Iowa (UPI) — There's a spirit of optimism in this north central Iowa community of 3,600 that may seem a little unusual. Unusual because the town's biggest employers—Winnabago Industries—has laid off nearly two-thirds of its work force in a little more than a year. The energy crisis hit it and the town known as a "city of

millionaires" because of the many persons who invested in Winnabago stock and reaped a bonanza. Winnabago, one of the nation's largest manufacturers of recreational motor homes, is only one of several companies in that industry who have been stricken by consumer fears over gasoline supplies and attendant travel restrictions.

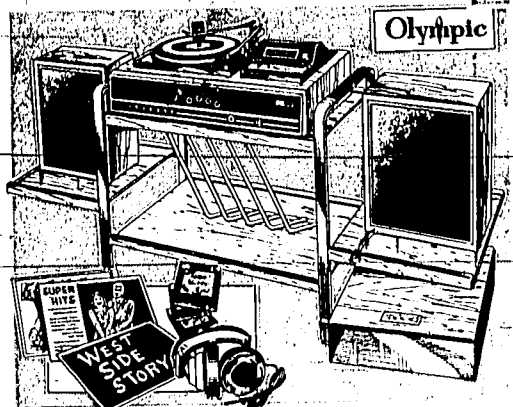

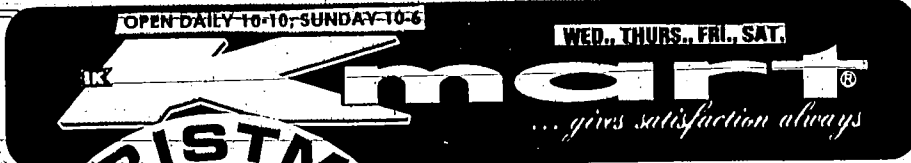

Yet residents are taking the layoffs in stride. Some feel the layoffs are only temporary, others say there are enough jobs in the area to take up the slack. Winnabago was rolling along at peak production employment last fall. At that time, the plant employed 3,600 persons but by the first of this year, the figure was 3,400.

Now it is 1,600. The most recent layoffs came in bunches as customer demand dropped. About 700 production workers were laid off last summer but 400 were hired back. However, another 300 were dropped shortly after that and 400 were laid off in November. One of the optimists is Dan Carter, publisher of the Forest

City Summit. His main point is that the economic blow from the layoffs has been softened because many of those put out of work did not live in Forest City. "The impact of the reduction in force is spread over quite an area," he said. "It isn't concentrated locally. We've had car people coming to work at Winnabago from Fort Dodge,

Cresco, Charles City and several areas in Minnesota." Carter also said the city has been fortunate because the firm implement industry has been hiring new workers. He said a number of the employees laid off at Winnabago went to work at the Oliver tractor works in nearby Charles City. Several construction projects also are under way in the area,

Carter said. Winnabago officials also are optimistic that the firm can recover from the initial shock of the fuel crisis, perhaps by branching into other lines of production. Public relations director Larry Crall says the company "will look into diversification" if necessary. "We're not going to dry up and blow away," Crall said.

Abby

Abigail Van Buren

© 1973 by Chicago Tribune-N. Y. News Synd., Inc.

DEAR ABBY: The advice you gave "Letterless," that poor wife whose husband is away in the service and hardly ever writes to her, was nothing less than cruel. I am old enough to be her mother, and I would have told her to get rid of the bum!

When she begs him to write because she's worried, his response is: "If I die, the service will inform you." Abby, his cruelty is surpassed only by yours. He's not her teenage son, he's her husband, and the father of her children. She has every right to worry about him, and demand that he write. And you tell her to write him "cheerful, neway,"

GI husband won't write

entertaining letters." Why should she? She's at home being both mother and father to their children, and has far less time to write than he has. Abby, I do believe your compassion and brains are in your rear end!

DISAPPOINTED IN BUFFALO

DEAR DISAPPOINTED: Sorry, but I still think I'm right. Your "fight-fire-with-fire" philosophy would be a sure way to consign marriage to a heap of ashes.

DEAR ABBY: My husband and I have been married for about six months and we live a long way from his parents and mine.

We have a new two-bedroom home, but only one of the bedrooms is furnished. (Ours!) My parents want to come to visit us and see our new home. We don't know whether we should give them our bed and rent something for us to sleep on, or keep our own bed and rent something for them to sleep on while they are here.

What do the etiquette books say about this?

NEEDS ADVICE

DEAR NEEDS: Who cares what the etiquette books say? Plain, old-fashioned consideration and respect for one's parents can tell you to give them the more comfortable sleeping accommodations.

DEAR ABBY: My ears have been ringing almost continuously for a year. I went to a physician. He looked in my ears, said he couldn't see anything wrong, but maybe I should consult an ear doctor.

Well, I went to an ear specialist. He looked in my ears, and even took X-rays, but he couldn't see anything either.

Abby, I know my ears can't be ringing for nothing. Something must be causing it. I worry all the time over it. I am tired of having people tell me to forget it, it's only my imagination. Any suggestions?

WORRIED

DEAR WORRIED: See another doctor. This time, an ear, nose and throat specialist. Worrying about what it **COULD BE** is sometimes more serious than what it is.

CONFIDENTIAL TO "LOVING WIFE IN HARTFORD": Sorry, but I can't help you get a Vietnamese orphan to be "used" as a Christmas present to surprise your husband. A child is not a toy, neither is it a pet.

Problems? You'll feel better if you get it off your chest. For a personal reply, write to **ABBY:** Box No. 69700, L. A., Calif. 90069. Enclose stamped, self-addressed envelope, please.

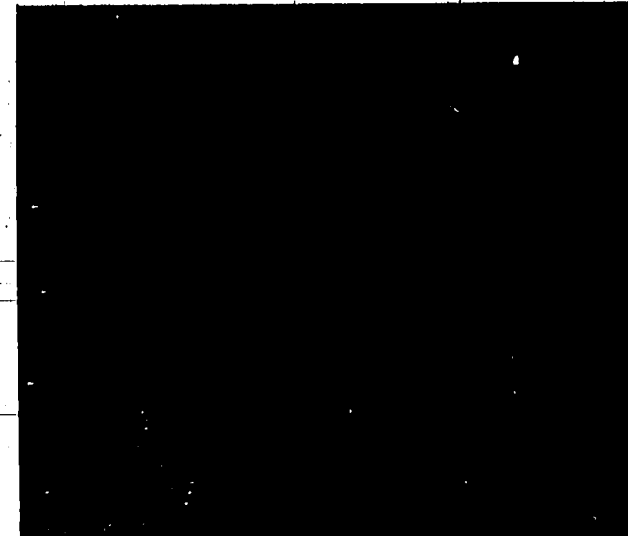

Christmas party set

TWIN FALLS — The Stradley Chapter No. 5 of the Disabled American Veterans will hold its Christmas party at 7 p.m. today at the DAV Hall, Harrison and Shoup Streets, Twin Falls.

All members and their families are invited. Those attending should bring a covered dish of their choice.

There will be a short program followed by dancing. Mr. and Mrs. Santa Claus will be in attendance for children.

The average American spent 8.2 cents more daily for food in 1972 than in 1971. More than half of the increase was spent for meat.

Benefit planned

AMONG THOSE who will participate in the forthcoming American Red Cross benefit jamboree and dance Jan. 5 are Sam Lewis, Jerome, right, and Marvin Leidig, Gooding. The event is set at 8 p.m. at Vera C. O'Leary Junior High School Auditorium.

Benefit jamboree, dance set

TWIN FALLS — Idaho Oldtime Fiddlers, including a number of national champions, will be here Jan. 5 for the American Red Cross benefit jamboree and dance.

Held in the Vera C. O'Leary Junior High School Auditorium, the program will begin at 8 p.m. with a dance to

follow in the school gymnasium and continuing until midnight. The event is open to the public and persons are invited to take part in both events or to stay for only the program if they want.

Mannie Shaw and Holly Houfburg will be masters of ceremonies for the event.

Musicians from Idaho Falls, Blackfoot, Malad, Aberdeen, Pocatello, Burley, Rupert, Albion, Jerome, Shoshone, Mountain Home, Gooding, Bliss, Boise, Meridian, and all of Twin Falls County have indicated plans to take part.

Many nationally known fiddlers will take part in the program. Lennie Malone and her father, Russell Dille, national trick fiddlers, and Dave Frisbee, one of the top fiddlers in the nation, will also perform. Sam Daniels, Gooding, and Fred Craig, Twin Falls, many times national award winning fiddle makers and favorite players, will take part.

In addition to fiddlers, guitar, banjo, mandolin and piano music will be featured. Sponsored by local fiddlers in conjunction with the area Red Cross programs, the event will provide proceeds to be used for purchase of teaching equipment and supplies for teaching first aid classes in the local area.

Couple exchanges nuptial promises

TWIN FALLS — Linda Mariene Hoover and Dean Alan Johnson were married in an evening ceremony Nov. 30 at the Tyler Street Baptist Church.

The bride is the daughter of Mr. and Mrs. Arthur H. Hoover, Twin Falls. The bridegroom's parents are Rev. and Mrs. Jack Johnson, Kimberly.

The double ring ceremony was performed by the bridegroom's father before an altar decorated with four topiaries in the bride's colors and tied with green ribbon.

The bride, escorted by her father, wore a full-length gown of dotted Swiss, featuring long puffed sleeves.

Her flower girl, Tina Moyle, was dressed in a crown of lace decorated with pearls. She carried a bouquet of feather flowers in her colors.

Sherie Rieger, Twin Falls, was maid of honor. Bridesmaids were Debe Johnson, sister-in-law of the bridegroom, and Jan McBride, cousin of the bride, both Twin Falls, and Lynn Johnson, Kimberly, sister of the bridegroom. Tina Moyle, Filer, was flower girl.

Lanny Johnson, Twin Falls, brother of the bridegroom, served as best man. Jerry Hoover, Twin Falls, cousin of the bride; Steve Johnson, Kimberly, brother of the

bridegroom, and Leslie Bennett, Buhl, were groomsmen. Candlelighters were John McBride, Twin Falls, cousin of the bride; and Robert Johnson, Kimberly, brother of the bridegroom. Sean Hockett was ringbearer. Shirl Bennett played wedding music. Joy Johnson was soloist accompanied by Gloria Fischer.

The couple was honored at a reception in the basement of their church, following the ceremony.

Sandy Allen was in charge of the guest book. The bride's table was decorated in green, blue, pink and yellow.

Jean McBride, Twin Falls, cut the wedding cake. Tomiko Johnson, Buhl, served the cake. Dolores Hoover, Twin Falls, poured coffee and Barbara Moyle, Filer, served punch.

Chris Hoover, Anne Hackett and Lyn Rider cared for gifts with Tracy Hackett assisting. Mrs. Dorothy Pulsipher and Mrs. June Moore helped in the kitchen.

The bride was honored at pre-nuptial showers given by Mrs. Barbara Moyle, by Mrs. Sandy Allen, Mrs. Tim Hine and Jan McBride, and by Mrs. Debe Johnson, Joy Johnson and Lynn Johnson.

The couple resides in Twin Falls.

MR. AND MRS. DEAN A. JOHNSON

CowBelles committee chairmen announced

GLENNIS FERRY — Mrs. J. Wilson Steen, Glennis Ferry, newly elected president of the Idaho CowBelles, has announced committee chairmen.

Mrs. Evan Jones, Harrison, will serve as beef education chairman; Mrs. Lee Strandford, Jordan Valley, beef for Father's Day; Mrs. Roy Mink, Gooding, public relations; Mrs. Garth Ecker, Boise, and Mrs. Juanita Cunningham, Glennis Ferry, courtesy.

Mrs. William Clark, Rogerson, legislative; Mrs. Ann Black, Bruneau, auditing; Mrs. Walter Smith, Payette, industry information; Mrs. Robert Stringfellow, Boise, by-laws; Mrs. Richard Bass, Murphy, leather project; Mrs. Joseph Webster and Mrs. Ben Goslin, beef broth and napkins.

Mrs. Elias Jaca, Murphy, was elected president-elect; Mrs. Clyde McAfee, Arco, first vice president; Mrs. Paul Pattie, second vice president; Mrs. Ralph Ross, Meridian, secretary; Mrs. Cecil Hampton, King Hill, Emmett, treasurer; Mrs. Farrell Daniels, Malad, Historian;

Mrs. Lawrence Bradburry, Challis, parliamentarian, and Mrs. Kenneth Royer, Loalle, Belle View editor.

Lee Trail, King Hill, was appointed a director of the Idaho Cattlemen's Association by Farrel Daniels, Malad, newly elected president.

Also serving as a director from the local area is Charles Kast, King Hill.

Magic Valley Favorites

RUTH RIDLEY
Rt. 1, Filer

DATE PUDDING
1 1/2 cups brown sugar
1 1/2 cups water
Boil together for a few minutes and pour into a 9-by-13-inch pan.
1 scant cup white sugar
1 cup flour
1 cup sweet milk
1/2 cup dates, chopped
1/2 cup nuts
1 teaspoon baking powder
1 teaspoon vanilla
Mix together and pour into above mixture in pan. Bake at 325 degrees for 45 minutes.

Serve with whipped cream.
The Times-News will pay \$5 each week for Magic Valley Favorites. If you have a favorite recipe, just mail it to the Recipe Department, Women's Page Editor. The recipe becomes the property of the Times-News and cannot be returned.

Faceless veteran receives invitation

(c) Chicago Daily News — WASHINGTON — President Nixon has invited LeRoy Bailey, the faceless Vietnam veteran whose problems with the Veterans Administration caused a national furor, to visit the White House.

Bailey, 31, of La Grange, Ill., came to Nixon's attention last week after he read Chicago Daily News Columnist Mike Royko's report about the VA turning down Bailey's request for medical aid.

In a two-page letter to Bailey, the president promised him the "finest medical care," and added he would keep fully informed of Bailey's progress.

"I am determined that everything humanly possible shall be done to assist you and to speed the accomplishment of your rehabilitation," Nixon wrote.

"The administrator of Veterans Affairs, Donald E. Johnson, has told me of your admission Dec. 11 to the Hines Veterans Administration Hospital.

Got a household of unexpected pests? Sell the extras with a low cost Classified Ad! 733-0931.

Program presented

SHOSHONE — A special Christmas program was presented at the Shoshone Assembly of God Church Sunday night.

There were playlets, recitations, songs by the chorus and duets and solos.

Gifts were presented, certificates to the children, and a certificate and frying pan to the Rev. and Mrs. Wesley Johnson.

A caroling party was held Tuesday evening for young members of the Sunday school and tonight Mrs. Violet Christopherson, Twin Falls, will show slides of her missionary experiences in Alaska this past summer.

She expects to return there in the near future.

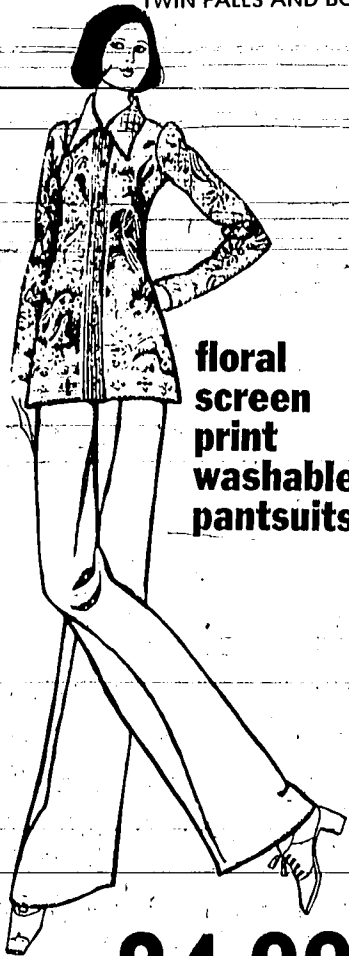

Scouts honored

DIETRICH — Six Dietrich Boy Scouts were given badges, awards and rank advancement at a court of honor, according to Dietrich Scouting officials.

Lorn Anderson received a second class badge and three skill awards. Merit badges and skill awards were given to Alvin Fowers, Marc Perron, John Anderson and Frank Dodge.

Perron, Dodge and Fowers also received Tenderfoot progress awards.

Wendell couple to observe 60th year

WENDELL — Mr. and Mrs. Anton Almborg, who live southeast of Wendell, will be married 60 years Christmas Day.

The occasion will be celebrated with a family dinner at their ranch home Christmas Day.

Almborg was born Oct. 1, 1888, at Surmudal, Norway, migrating to the United States in May, 1908. He first settled at Boulder, Colo., where he has a cousin who had migrated from Norway earlier. Almborg worked in the gold mines around Boulder, then moved to Arizona, then to Spokane, Wash., so he could be near Mrs. Almborg.

Mrs. Almborg was born June 13, 1894, at her parents' ranch home at Cottonwood. Her parents, Mr. and Mrs. O. P. Moberg, were well known early day Camas Prairie residents. Mrs. Almborg and her mother were the first passengers on the Camas Prairie Railroad, en route to Boulder, Colo., where they visited Mrs. Almborg's aunt. It was at this time that Mr. and Mrs. Almborg met.

became engaged June 13, 1913, and were married Christmas Day 1913 at her parents' home in Asotin, Wash. After marriage, they lived at Spokane, and moved to Twin Falls in Nov., 1914. In Twin Falls Almborg was engaged in farming the place where the college is located. They moved to their ranch at Wendell, Jan. 13, 1936, where they have since resided. In 1966, Mrs. Almborg suffered a stroke, but is able to

be about and enjoy life.

The couple have three daughters, Carol, who lives at home and cares for her parents; Violet Mink, who is their adopted daughter, lives at Gooding, and Shirley Wilson, their youngest daughter, lives at Boise.

The couple have nine grandchildren and five great-grandchildren. They will all be in attendance at the family dinner.

Club installs

SHOSHONE — Mrs. R. B. Kelley has been installed president of the North Shoshone House Improvement Club, according to a club spokesman.

Other newly installed officers are Mrs. Dean Guthrie, vice president; and Mrs. Wanda Jones, secretary-treasurer.

The next meeting will be at 2 p.m. Jan. 17 at the home of Mrs. Clifton Dayley.

Student at CSI inhales smoke

TWIN FALLS — A CSI student was released from Magic Valley Memorial Hospital in good condition Monday after being treated for smoke inhalation from a wastebasket fire.

The student, whose name was not released, was taken by ambulance to the hospital after a trashbasket in the dormitory building on the CSI campus caught fire and burned up, scorching the wall of a dorm room.

According to Captain James Miller of the Twin Falls Fire Department, the fire apparently started when a cigarette butt or other burning material was thrown in the trashbasket.

Miller said firemen responded to the fire about 11:45 p.m. Monday. Students

had put the fire out when firemen arrived, he added. He said there was no estimate of damage to the dorm building, although it was minor.

In an earlier minor fire Monday, firemen responded to a blaze at the Swinging Set Beauty Salon, 1913 Addison Ave. E., which caused damage to a wall surrounding a fuse panel.

Miller said a short in electrical wiring apparently triggered the small fire behind the fuse box in the beauty salon. The fire was reported about 2:55 p.m. and put out by 3:15 p.m., he said.

Beauty shop employees and customers had to wait about 30 minutes while smoke cleared before returning to business.

No lights? No branches!

THERE will be many Christmas trees this year without lights — but here's one without branches. Michele and Michael Chacon, Lynwood, Calif., picked up this "gem" for 50 cents from a lot owner who clipped the branches to make wreaths, then set it up as a joke. However, when friends admired the idea, the "gem" became their official Christmas tree — which may be a way of combining economy with some illogical ecology. (UPI)

Idaho bill seeks fund disclosures

BOISE — A bill to require financial reporting of campaign contributions and expenditures in all statewide and legislative races in Idaho will be introduced in the 1974 legislature.

Son John Peavey, R-Rupert, intends to introduce the legislation along with another proposal to change the pattern of campaign financing in the state. Modeled after federal law, the second bill would provide for semi-public financing of political parties.

Under Peavey's plan, Idaho income taxpayers would be able to contribute \$1 from their annual tax return to the political party of their choice. The contribution would be made by checking a box in the state income tax return.

Most of the money raised would go to major parties — and any other political organization that had a candidate for governor in the most previous election.

An early draft of the legislation would also set aside some money for minor parties that had not run gubernatorial

candidates in past elections however.

Another bill Peavey wants to introduce would require lobbyists to register with the state. Peavey's bill would also require those who registered to report their lobbying expenses publicly. The state senator said a lobbyist would be defined as "someone who is working for or against legislation for pay."

Peavey also intends to reintroduce his controversial "can bill" that failed to pass the senate a year ago. Basically, the bill would ban non-returnable beverage containers and would provide a refund on bottles and cans.

Peavey said studies in Oregon, conducted since the 197 legislature, have indicated a similar law in that state has reduced roadside litter by 90 per cent.

Of the remaining 10 per cent, Peavey said, the studies indicate most of the bottles or cans were brought into Oregon from out of state or were purchased before the legislation went into effect.

Skis by sound

BLIND skier Frank Siget, 51, foreground, and his skiing companion, Art Caldwell, both Pittsburgh, Pa., ski down a slope in Vail, Colo. Blind for 14 years as the result of an accident, Siget has been skiing for four years. (UPI)

Traffic help sought at Burley schools

BURLEY — The city of Burley decided Monday night to draw up a special resolution to help solve traffic problems at the Burley High School.

Kirby Wilson, Cassia County School District bus superintendent, met with the council to ask for city assistance in controlling traffic around the school while buses are loading and unloading.

The school operates on two shifts to accommodate both junior high and high school students following a

fire which gutted the Burley Junior High School last October and left students without a school.

Buses have to unload in the dark in the morning and also load in the dark at night. Wilson said the traffic in the bus area is a hazard.

The council authorized city Atty. William Parsons to draw up a resolution to control traffic in the area and to authorize the city to set up temporary blockades to teach the public the new procedures.

Concealed weapon nets term, fine for SL man

GOODING — Isadore Independence Martin, 44, Salt Lake City, was sentenced to seven days in Gooding County Jail and fined \$50 Monday by Magistrate Charles Shaw for possession of a concealed weapon.

He was arrested Saturday night by State Patrolman James Finch. Finch said the

arrest stemmed from an investigation into an armed robbery in Salt Lake City Friday.

Martin and two companions were stopped on Interstate 80 for speeding, Finch said. The owner of the vehicle and the other passenger were questioned and released.

Chariot race

JEROME — The results of the Jerome chariot races have been announced.

In the 2-year-old teams: Boyd Stevens over Webb and Juker; Rose Acres over Bob Juker; Thompson over Elliott; Halfway Ranch over Ewing and Juker.

In the aged teams: Grant No. 2 over Clark; Ernie Stevens over Bud Wan; Peterson and Kimball over Kimball and Bolton; Tom Webb over Ed Johnson; Don Vandenbos over D. U. Wolverton; Bob Grant No. 1 over Rainbow Ranch; Hansen and Muir over Harold Peterson No. 1; Eldon Anderson over Blaine Sorensen and Homer Stradley, bye.

BLM solicits bids for Owyhee County well

BOISE — The Bureau of Land Management is soliciting bids for the drilling of the new Buck Flat Well in Owyhee County.

According to Andrew B. Truden, chief of operations for BLM's Boise district, the 700-foot well site is approximately 22 miles southwest of

Castelford. He said further information can be obtained from the Boise district, Bureau of Land Management, 230 Collins Road, Boise, 83702.

Phone 342-2711, ext. 2582. Truden said all bids must be in by Dec. 28.

Right now, the bartender is half way through the hot grogs & cold noggs.

Meanwhile, her husband is setting up the hot & cold buffet.

Leilani Nogs
Beat 12 egg yolks until light; beat in 1/2 lb. of sugar till thick. Stir in 1 qt. of milk, a fifth of Leilani Hawaiian Rum, and chill 3 hours. Pour into a punch bowl, fold in 1 qt. of heavy cream stiffly whipped. Chill 1 hour, dust with nutmeg, and you've got 24 jolly noggs for one merry party. Chill the glass.

Leilani Grog
Mix 2 oz. of Leilani Hawaiian Rum with 1 oz. of hot apple cider. Add sugar to taste and stir, and serve with a dusting of cinnamon. It's that simple, and about as uncommon as you can get. Warm the mug.

Just ordinary good things from the kitchen, and Leilani, which is anything but ordinary. It's the only Hawaiian Rum, the only rum made from raised-in-Hawaii sugar cane. It is cool, clear, light and light-tasting, a lovely mixing rum. So go ahead, be festive; 'tis the season.

Cheers! Leilani, The Hawaiian Rum.
HAWAIIAN RUM — 80 PROOF. SUMMIT MARKETING COMPANY, N.Y.C.

Glenns Ferry winners

THE VOICE of Democracy winners from Glenns Ferry are Jan. Bellifton, first; Barbara Robertson second, and Jill Mack, third. The contest was sponsored by the local Veterans of Foreign Wars Post 3446.

Airline pilots protest cuts

CHICAGO (UPI) — Airline pilots, contending the fuel shortage has fallen unfairly on airline employees, plan to protest federal cutbacks in fuel allocations for commercial airlines with a demonstration at O'Hare International Airport Friday.

An Air Line Pilots Association (ALPA) spokesman said Monday the pilots would post "informational pickets" at O'Hare, and the demonstration would coincide with similar protests by pilots in Los Angeles, Dallas, New York City, and San Francisco.

The federal government has said that beginning Jan. 7 airlines will be provided with only 76 per cent of their 1973 fuel allocations. The action has resulted in several commercial airlines announcing they will lay off hundreds of pilots, flight attendants and ground personnel.

The ALPA executive board has scheduled a meeting in Washington to "consider wide-ranging efforts to exert all possible influence on the federal government to effect a more adequate and equitable allocation of aviation fuels to the commercial airlines."

Judge gives industrial thieves probation for Christmas present

CHICAGO (UPI) — A federal judge Monday called two men who stole industrial secrets valued at \$500 million "bunglers" for trying to sell them for only \$5,000, but then sentenced the pair to only three years probation as a "Christmas present."

U.S. District Judge Frank J. McGarr granted

the probated sentences to George W. Thornton Jr., 32, of Maryland Heights, Mo., and Craig W. Rantz, 38, of St. Louis, who admitted they were guilty of interstate shipment of stolen documents.

McGarr called the two men "bunglers who were trying to make a fast buck."

Officials said the men did not realize the values of the secrets, which were stolen from Monsanto Chemical Co., St. Louis.

The two men were arrested in October after trying to sell the documents to an FBI agent posed as a representative of the Stauffer Chemical Co., of Westport, Conn., a Monsanto competitor.

Following the arrests, assistant U.S. Attorney Michael King said, "We have Monsanto figures on the three documents that carried a value of \$501.9 million." Monsanto officials later said no exact value had been placed on two of the documents, but the impact on the company's textile and other markets could be considerable.

Super carburetor story only rumor

DETROIT (UPI) — You've probably heard the story about the guy who invented a super-carburetor and then had it bought up by one of the auto companies so the fantastic device would never get on the market, 56 have the automakers.

In one form or another, that story has been making the rounds for years. What with the state of the energy situation, it's getting even wider circulation.

The story—usually goes something like this: You heard from a friend who has a friend who knew a guy that someone got a new car that was giving him 50 miles to a gallon of gasoline—or maybe 75 or 100 miles. It seems an experimental carburetor was accidentally put on the car.

When he took it back to his dealer, he was given an offer he couldn't refuse and another "supercarb" comes off—the market.

"It used to be the oil companies that got blamed for trying to hide those miracle devices," said a Ford Motor Co. spokesman. "Now it's us."

An East Coast radio personality recently wrote to Ford and cited "three sources" as saying a special carburetor has been developed that allows gas mileage as high as 35 to 40 miles per gallon.

"One source said he got the demo by mistake and Ford

refused to allow him to keep the auto," he said in the letter. "I understand it took litigation on your part to regain this vehicle."

Richard Place, emissions and power train product planning manager at Ford—better known as the company's economy expert—says—he usually answers the letters by saying that rather than suppressing such a device, Ford would be fighting to be the first on the market.

"If we were aware of anything that gives us 20 per cent more in fuel economy—an advantage our competitors didn't have—we'd break down the Great Wall of China to get it on the market," says Place. "Any car with that kind of advantage would sell."

Rustling steak

RACINE, Wis. (UPI) — Cattle rustling appears to be on the rise and law enforcement officials are blaming higher meat prices.

The magazine Wisconsin Agriculturalist reports that in Wisconsin alone, farmers lost \$216,973 to rustlers during the first eight months of the year. One Wisconsin sheriff predicted even more cattle thieves would surface if meat prices remained high.

News Of Servicemen

GM notifies 22,000 owners of '74 model defects

DETROIT (UPI) — Nearly 22,000 owners of 1974-model General Motors cars will receive certified letters notifying them of defects that could result in a failure of the rear brakes or cause the rear wheels to lock.

GM notified the National Highway Traffic Safety Administration Monday of two separate recall campaigns. The company said it knows of no accidents or injuries as a result of the defects.

The first campaign involves 12,700 compact Chevrolet Novas, Pontiac Ventures, Oldsmobile Omegas and Buick

Apollos and the second affects 9,200 full-size Chevrolet station wagons.

GM said the compacts may have been assembled with faulty "U" bolts bought from a supplier. The "U" bolt helps secure the chassis spring to the rear axle and may break, allowing the spring to drop away from the rear axle which would pull on the parking brake

and lock the rear wheels. Owners were warned to avoid rapid starts and stops which place a heavy load on the rear suspension until they can have their cars inspected and corrected, if necessary.

The owners of the 9,200 station wagons were advised not to load the vehicle heavily and to avoid roads that might cause the car to "bottom"

while it is being driven until repairs can be made.

A GM spokesman said the station wagons were assembled at the Tarrytown, N.Y., plant and may have the rear brake line installed improperly so that it touches the underbody of the vehicle when it is constantly heavily

loaded. Constant contact could cause the line to break, allowing the brake fluid to escape and making the rear wheel brakes unusable. The front wheel

brakes would still work, however, because the station wagons have dual braking systems.

brakes would still work, however, because the station wagons have dual braking systems.

Cooler living helpful

WASHINGTON (UPI) — Turning the thermostat down to 69 degrees won't give you a cold, flu or pneumonia, and it might be help you lose a few pounds, the government says.

Health, Education and Welfare Caspar W. Weinberger said Monday: "Our medical specialists report that a reduction in room temperatures from 72 to even down to 60 degrees would have no effect on the likelihood of an individual contracting a common cold, influenza or pneumonia, and by the same token, a reduction to 68 (the officially recommended level) would certainly have no ill effects."

According to an HEW study, cooler living may be more healthy because most bacteria and viruses thrive better at higher temperatures.

"For some individuals, particularly the affluent, overweight person, reduced temperatures may assist in weight reduction since more calories will be used to maintain body heat and there probably will be more physical activity," the study said.

In general, the study said, temperatures should be reduced gradually to aid the adjustment, people should dress warmly, and room humidity should be maintained at as high a level as possible.

The study said no special precautions need be taken for infants, preschoolers or pregnant women, and elderly persons should be able to adjust — although some may take a month or longer to be comfortable with a 10-degree reduction.

Luncheon scheduled

GOODING — The annual Christmas luncheon of the Gooding Hobokah Club will be Friday at 1 p.m. at the Gooding Odd Fellow's Temple.

Those in charge of dinner arrangements are Mrs. Milton Roberts, Mrs. Tren Myers, Mrs. Mae Copsy and Mrs. E. L. Leeper.

The luncheon will be a planned potluck. All members not contacted for food should contact the committee as to what food they are to furnish. The annual election of officers will follow the luncheon. Members are asked to remember their secret pals with a Christmas gift. Secret pals for the past year will be revealed.
