

Some Yanks leave Laos

VIENTIANE, Laos (UPI) — An authoritative source said today the U.S. government has decided to remove some of the Americans and their dependents from Laos as the Communist Pathet Lao tightens its grip on the country.

The source said the United States also is considering shutting down operations in some parts of the country following the collapse of the pro-American side of the Laotian coalition government.

The source said it has not yet been determined how many of the approximately 800 official Americans and their dependents in Laos would leave as a result of the continued unsettled security situation.

The disclosure came as the capital emerged from a three-day holiday weekend that saw the resignation and flight from the country of several rightist ministers and loyalist generals as well as a large number of other senior military officials.

Many civil servants stayed away from their desks today. At the Finance Ministry about 200 workers staged a demonstration demanding the dismissal of senior officials they charged with corruption and the promotion of Pathet Lao deputy Finance Minister Bouasom Souvannavong, to fill the vacant minister's post.

US pressure on Khmers

WASHINGTON (UPI) — President Ford, applying both diplomatic and military pressure, today sought the help of China and ordered 1,000 Marines to prepare to enter Thailand in an effort to win release of an unarmed American merchant vessel seized by Cambodia, sources said.

Pentagon sources said 1,000 Marines on Okinawa received the order to "prepare to depart soon" for Thailand in a show of military force against the Cambodian armed forces who seized the ship *Mayaguez* early Monday in what Ford described as an "act of piracy."

The aircraft carrier *USS Coral Sea* and several destroyers also were steaming toward the area. And U.S. aircraft were continuing air surveillance of the *Mayaguez*, which was being held by two Cambodian vessels near a tiny island about 30 miles offshore in the Gulf of Siam.

State Department sources reported the administration was seeking the help of China to convince the Cambodian-Khmer Rouge government to release the *Mayaguez* and its 39-man crew and avoid an international incident. China is one of the few countries which has communications with the new Communist regime.

But White House Press Secretary Ron Nessen declined to discuss the details of Ford's diplomatic and military strategy toward the seizure. "We cannot discuss any possible military movements," he said when asked about the Marine alert. He also said he could not answer the question whether Ford was considering a military response.

Asked if U.S. officials had sought to speak directly to the Cambodian government, Nessen replied "I cannot talk about that." The Cam-

bodian government has made no public statement of the incident.

The U.S. embassy in Phnom Penh was closed a month ago, a few days before the American-backed government of Lon Nol fell to the Communists.

Nessen said that the *Mayaguez* was not a "spy ship" such as the *USS Pueblo* which was seized by North Koreans in 1968.

Nessen said the fact that Ford instructed the State Department Monday to demand release of the ship indicated that active diplomatic efforts were underway to reach a peaceful solution of the problem.

Ford meanwhile summoned members of the National Security Council to their second meeting since the incident. Nessen said Secretary of State Henry A. Kissinger, who was on a speaking trip in Missouri, did not intend to return to Washington for the meeting.

Nessen explained that the *Mayaguez* "a containerized merchant ship which was carrying cargo from Hong Kong to Thailand when it was seized, has been under constant surveillance by U.S. aircraft."

He reported that the vessel was seized near the island of Poiso, Wal, a tiny rock about 20 miles offshore claimed by both the Cambodians and the Vietnamese. Two Cambodian gunboats then escorted the *Mayaguez* to another island, Koh Tan, about 30 miles north, where it has been held ever since, he said.

Cambodians are aboard the ship, Nessen said. But he declined to say whether the American crew had been taken off the vessel.

today in brief

Quebec police free strike hostages
MONTREAL (UPI) — Riot-equipped police today stormed an aircraft manufacturing plant and freed 10 hostages seized and held four hours by rampaging strikers.

Quebec Provincial Police, revising earlier figures indicating seven hostages had been taken, said the eight men and two women were unharmed.

Britain recognizes PRG as legal
LONDON (UPI) — Britain announced today it was recognizing the Viet Cong's Provisional Revolutionary Government as the legal government of South Vietnam.

British Foreign Secretary James Callaghan on Monday cabled Mme. Nguyen Thi Binh, former minister of the PRG, and said Britain was prepared to establish diplomatic relations with the new government as soon as possible, the Foreign Office said.

Wants strike
WASHINGTON (UPI) — Sen. James L. Buckley, R-Cam-N.Y., Ford called on President Ford to "order immediate air and naval attacks on appropriate targets in Cambodia" in retaliation for the capture of the American merchant ship *Mayaguez*.

Most other Congressmen interviewed said they hoped diplomatic means could be used to free the crew and the ship, though use of force to do so was not ruled out.

Venezuela sets oil industry seizure
CARACAS (UPI) — Venezuela's oil industry will be nationalized in 1976, according to Venezuelan congressional estimates.

Venezuela is the world's third largest oil-exporting country and supplies the bulk of U.S. imports.

Heads firm
NEW YORK (UPI) — Wallace W. Booth was chosen president and chief executive officer of United Brands Co., the multi-national food concern, Monday.

Booth succeeds Eli M. Black, whose suicide three months ago led to revelations the firm paid \$2 million in bribes to officials in Honduras and Europe to smooth its business operations.

The Securities and Exchange Commission discovered the payments in a routine investigation.

Burley family object of search
BURLEY — The Cassia County sheriff's office is conducting ground and air search today for a Burley family reported missing in the South Hills.

Jim Southern, his wife and three children, reportedly drove into the hills Monday night and failed to return as expected.

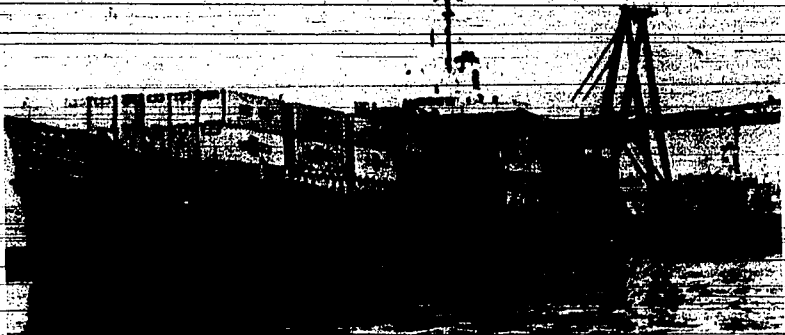

Temperatures last night were probably below freezing, Taylor said.

House panel OK's resettlement funds
WASHINGTON (UPI) — The House Appropriations Committee today approved legislation to provide \$465 million for resettlement of more than 100,000 South Vietnamese and Cambodian refugees during the next 14 months.

The total was \$102 million less than the administration requested. A subcommittee reduced the amount because the administration's figures on how many refugees would be relocated were imprecise.

says...
Sometimes Oregon's Al Ullman sounds like the voice crying in the wilderness.

Fuel tax boost wins panel nod

WASHINGTON — The House Ways and Means committee, divided over how to tackle the nation's energy problems, approved legislation Monday that would raise the federal tax on gasoline and take other steps designed to conserve fuel.

The measure was adopted by a vote of 49 to 16. Four Democrats joined all 12 Republicans in opposing the bill.

The committee chairman, Rep. AT ULLMAN (D-Ore.), who would have preferred a steeper gasoline tax, summed up the problem the committee faced in its two weeks of deliberations.

If there were another Arab oil embargo and if the public perceived the extent of the energy crisis, Ullman said there would be broad support in the country for tough legislation.

"But this is an invisible crisis," he added, "and that's why it's so hard to legislate."

The chairman said he hoped to have the measure before the full House next week.

The committee approved procedures, likely to be endorsed by the Rules Committee, that would permit most relevant amendments to be offered on the House floor, as long as they were printed by next Monday in the Congressional Record.

The recommended procedures, however, would not allow for a floor vote on imposing a windfall-profit tax on fuel producers.

The Ford administration's most serious objection to the committee's bill is that it omits such a tax.

"The administration regards such a tax as a necessary political prelude to enactment of a gradual phasing out of oil price controls, a keystone of President Ford's energy policy but widely opposed in Congress."

The bill would raise the federal tax on gasoline; now 4 cents a gallon, to 7 cents a gallon next year.

In following years, the tax could rise by as much as an additional 20 cents per gallon if gasoline consumption rose above its 1973 level of 6.97 million barrels a day.

Quake rumbles through S. California
PASADENA, Calif. (UPI) — A moderate earthquake rumbled through a strip of Southern California more than 100 miles long Monday evening, including the Los Angeles area, but apparently did no significant damage.

Dads get foot inside door

TWIN FALLS — The Magic Valley Memorial Hospital board Monday adopted a "foot in the door" policy which may lead to fathers being admitted to the delivery room.

According to hospital spokesman Mary Goe, the new policy will allow fathers who have taken a pre-natal course to stand outside the delivery room door until the delivery of the infant is breathing well and appears to be functioning normally.

At that point, the father, clothed in proper medical garb, will be allowed to join his wife in the delivery room, Mrs. Goe added.

She said the 13-point "foot in the door" policy was adopted unanimously by the board upon the recommendation of the hospital's executive committee of the medical staff.

The policy, she said, was adopted with an eye to eventually admitting fathers full entry to the delivery room to observe the birth of their child.

About 20 persons seeking fathers' admission to the delivery room attended the Monday meeting.

Previously, the hospital staff had refused to admit fathers to the delivery room and the refusal had disappointed a group composed mostly of young parents which had been seeking a

change in hospital rules.

Mrs. Goe called Monday's board action "a compromise."

"The father, she said, will not be able to observe the birth closely from his viewpoint outside the door but will be able to see generally what's going on in the room."

"But the mothers won't be arranged so that he can actually watch the birth," she added.

She said that admission to the delivery room is likely to follow if the present policy provides assurance to doctors that such a program would work smoothly.

Participation in the "foot in the door" program will require that both the prospective father and the mother sign forms saying they are completed or are enrolled in pre-natal classes conducted without charge by the hospital, Mrs. Goe said.

In other action the trustees voted to limit hospital visiting hours. The currently unlimited visiting hours would be cut to from 1-5 p.m. and 6:30 p.m. Only two visitors would be allowed at any one time.

Administrator James Rosenbaum said hospital overcrowding was placing too great a burden on the staff to perform routine patient care while dealing with the influx of visitors.

Snappy start
WHILE FELLOW shipmates stand at ease this Russian sailor at the rail of the destroyer *Boyko* was losing no time snapping photographs of the United States. The ship was one of two Soviet vessels which arrived in Boston, Mass. Monday for a five-day exchange visit marking V-E Day. Two American naval ships are visiting Leningrad. (UPI)

Giving FBI credit data may have broken law, aide says

BY DIANE ALTERS
Times News writer

TWIN FALLS — A local credit reporting agency may have violated the law by giving credit information to the FBI, according to an attorney.

Constance C. Erickson, a Seattle attorney, told the Federal Trade Commission, which oversees the four-year-old Fair Credit Reporting Act, called "illegal" a practice of giving out credit information to government agencies without making sure that the agencies would not misuse the information.

Kreus was commenting on an April 30 Times News article, in which owner Norman Garlington of the Credit Bureau of Rupert said his office would give consumer credit reports to government agencies upon request when they showed "proper credentials."

FBI said he "never specifically asked" why agencies wanted credit reports, and that the agencies, including the FBI, did not sign forms to request other information seekers.

Garlington, reached by phone, said "I personally don't give out credit reports but I don't recall further comment on the government official remark."

Garlington also owns Magic Valley Credit Bureau, Inc., Twin Falls, which is a collection agency, not a credit-reporting agency, and another credit bureau in Elk, Nev.

At the Twin Falls FBI office, a bureau spokesman who refused to be identified by name, confirmed that he asked for credit reports from Garlington, saying "I prefer to deal with him." The agent's area of responsibility includes the Mini-Cassia area, also covered by the Rupert Credit Bureau, he said.

"This agency covers my territory," he said.

The FBI agent questioned whether illegality was involved. "Occasionally, we check credit information," mostly on applicants for government jobs, which accounts for "about 70 percent" of the credit checking the agency does, he said.

"There may be other occasions... depending on the need," he said. He would not describe the "other occasions." He said he felt that obtaining a credit report was not a serious matter, similar to talking to an acquaintance about a person.

The agent said the bureau did not make "public use" of any citizen's credit report, but kept the information within the bureau.

CSI trustees

evaluate bids

TWIN FALLS — Meeting in a special "work session" Monday, the College of Southern Idaho board of trustees evaluated bids for construction of a large enclosed arena on campus.

The bids, which were opened last Tuesday, "were a little higher than we anticipated," according to board secretary Karl Black.

The meeting Monday "was a matter of getting together and trying to decide whether there was a problem or not," Black said.

He said final action on the bids probably will come at the next regular board meeting Monday night.

Nelissen and Co. Twin Falls, submitted the apparent low base bid of \$599,700. Arrington Brothers Construction, Twin Falls, bid \$611,200; Mitchell Construction, Pocatello, bid \$662,699, and Miller Construction, Twin Falls, bid \$675,000.

Mother instinct strong for 'dog'

CINCINNATI (UPI) — The motherhood instinct is strong — even in a cat named "Dog."

Hamilton County farmer Roger Van Deryt said Monday his cat, which recently gave birth to a litter of three kittens, has "adopted" a baby bunny.

He said "Dog" apparently found the young wild rabbit, which is about the same age as her two-week-old kittens, in a field and carried it to Van Deryt's barn, where it shares a nest with her kittens.

"Dog" normally kills rats in the barn and roams the field in search of adult rabbits, which she also kills, Van Deryt said.

Signup set for 3 TF fun programs

TWIN FALLS — Registration is being held for three programs offered by the Twin Falls Parks and Recreation Department.

Persons wishing to enter the "Learn to Swim" program can register at the Harmon Park recreation building until Friday. Sign up time is from 9 a.m. to noon and 1 to 5 p.m.

Registration for the Knobel baseball and girls' softball programs will continue until May 30 at the Harmon Park building. Sign-up times are the same as the swim program. The swim classes are offered for water babies, beginners, advanced beginners, intermediates, junior and senior life saving, diving, adults swim team and training class.

The program will be conducted at the Harmon Park and Harry Barry pools. Participants can choose from four different sessions at both pools: June 10-17—July 7-14, July 21—Aug. 1 and Aug. 4-11. The registration fee for 10 seasons is \$2 at Harmon and \$7.50 at Harry Barry.

Children in the swim program will be limited to one session until all have had a chance to enroll. Then enrollment for a second session will be accepted if there are vacancies.

The Knobel baseball teams are organized by grades 1 through 9 and players must have completed the first grade to be eligible. League play will begin June 17 and end July 31. Playoff games will be July 31 through Aug. 1, with finals to follow in Jaycee Park.

The registration fee is \$1.

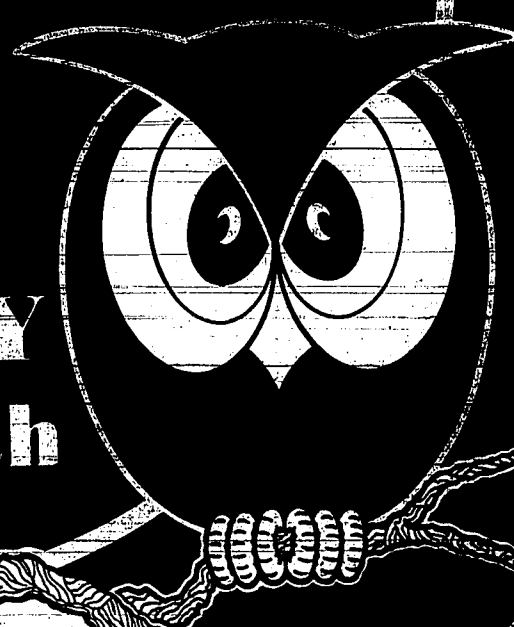

The leagues, ages and game days are: Pee Wee for boys who have completed first grade, Tuesday and Thursday; Dunk second grade, Wednesday and Friday; Peanut, third grade, Tuesday and Thursday; Four, fourth grade, Wednesday and Friday; Dobin, fifth grade, Tuesday and Thursday; Midget, sixth grade, Wednesday and Friday; Babe Ruth, for boys aged 13-15, call Gene Gamel, 732-6919, for information.

Girls' softball teams are organized by grades 4 and up. League play will begin June 17 and end July 31. Finals and the tournament will follow.

Cambodia must release ship

The Cambodian seizure of an unarmed American merchant ship on the high seas is an act of piracy that cannot be accepted by the United States.

The new government of Cambodia should understand that the freedom of the seas is of vital importance to the United States and other trading nations.

The case is complicated by the fact that the ship was taken within the 12-mile territorial limit claimed by Cambodia and a number of other nations.

The Cambodian argument, however, has a hollow ring. The ship was plying an established sea lane and not posing any threat to anyone when it was captured.

We appeal to the Cambodian rulers to release the ship and its crew. The only alternative will be for some kind of punitive action by the United States.

The resort to force ultimately will serve neither the interests of the fledgling Cambodian regime nor the interests of the hostage crewmen.

The only sane solution is for the ship to be released and for the United States to take steps to keep its ships at least 12 miles off Cambodia's shores.

Sea consensus needed

Christian Science Monitor

None of the more graphic events of the day means more to mankind's future than the prosaic process of deciding how to use, rather than abuse, the seas.

The session just ended in Geneva was not a "failure" as headlined. The leader of the United States delegation saw some substantial progress.

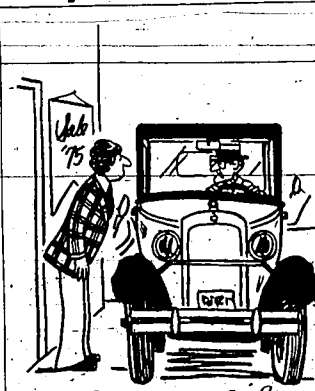

Nevertheless, the longer disagreement lasts the more the temptation for the U.S. Soviet Union, and other industrialized countries to begin the exploitation of the seabed.

One of the sticking points now is whether such a body should have all the rights and control sought by the developing countries or the limitations sought by developed countries.

It is vital to broaden the area of consensus, through such means as interim regional meetings, by the time of the next session.

When these points were asked to name the country's most serious problem, 43 per cent named inflation and 23 per cent voted for unemployment.

Berry's World

I don't intend to trade this year for the same reason a lot of other people aren't — new car prices are too high!

Demand for damages seems reasonable

WASHINGTON — By almost any yardstick one employs, the crime problem in Great Britain is vastly less than the crime problem here.

One explanation may lie in a national attitude that looks with compassion upon the victims of violent crime.

The experience of the United Kingdom in this regard is of timely interest. In his speech at Yale on April 25, President Ford spoke eloquently of the plight of persons victimized by violent crime.

Ten years ago, Parliament created the Criminal Injuries Compensation Board in the 1973-74 fiscal year.

It has been administered by a nine-member board, headed by Sir Walker Carter, a distinguished jurist.

The board found, for example, that the state pay damages for their failures? It seems so to me.

members conduct a hearing. Their decisions are final.

One case last year had to do with the bombing of a bus near Old Bailey. More than a hundred persons were injured in the explosion.

More claims, of course, are from less spectacular crimes of violence. A couple of years ago, for example, the board acted upon the application of a coal miner who was assaulted

JAMES KILPATRICK

on the street. He fell with such violence that his eyesight was permanently impaired.

Spring brings forth reassurance

Chicago Daily News

WASHINGTON — For the past week, at least, no shots were fired by organized armies anywhere in the world.

Spring finally took off its mittens and caressed the capital's troubled brow with a warm gentle hand.

President Ford, a former naval person, took his cabinet (except for Secretary of State Henry Kissinger, who was busy elsewhere) on a Potomac cruise aboard the presidential yacht Sequoia.

The sweet aroma of Havana leaf was wafted across the Caribbean on the concubine words of Fidel Castro.

Washington has been in a losing streak lately. But it was heartened when the Bullets took a 3-1 edge over the Boston Celtics in the National Basketball playoffs.

Not all was Stroganoff and cheesecake, however. Somebody dredged up Madame Ngo Dinh Nhu, the fiery dragon lady of the Dien era in Vietnam.

In a "breath-taking" historical analysis, Alabama Gov. George Wallace said, in effect, that the U.S. might better have allied itself in World War II with Japan and Germany instead

of those crummy Communists under Joe Stalin. That kind of creative thinking in foreign policy added a new dimension to the Wallace phenomenon.

In this interlude of peace, two words dominate the official dialog — reaffirm and reassess. The President was busy reaffirming commitments from Seoul to Singapore and Suez to Salamanca.

Foreign leaders were being shuttled in and out of the Oval Office to be reassured that the U.S. has not been intimidated by the collapse in Indochina.

The President spoke his lines with self-assurance at his last news conference, assuring not only allies but also potential adversaries, as the saying goes, and it left some to wonder who was being left out and why a reassessment was necessary.

It's a reasonable hunch here that no new policies will emerge unless and until the U.S. redefines its interests in the world and reduces its commitments to those around which a new consensus can be built.

It's a reasonable hunch here that no new policies will emerge unless and until the U.S. redefines its interests in the world and reduces its commitments to those around which a new consensus can be built.

Americans understand warnings about twin threats

WASHINGTON — President Ford apparently is speaking the language most Americans understand when he inveighs against big government spending and walloping deficits as posing the twin threats of inflation and recession.

When these points were asked to name the country's most serious problem, 43 per cent named inflation and 23 per cent voted for unemployment.

2. Ford was rated good or better in his stand on these issues by 37 per cent of the respondents, and fair by 35 per cent.

At any rate, the GOP-sponsored poll shows that a sizable majority of Americans realize that the problem of inflation has not yet been solved and that they want something done about

it. And, in rating Ford's efforts, the respondents were saying they were not all that sure that massive pump-priming would do the job.

Andrew Tully is trying and should get points for doing so. Moreover, Ford's race against Kennedy was not too bad; Kennedy led him by only 7 percentage points.

At any rate, the GOP-sponsored poll shows that a sizable majority of Americans realize that the problem of inflation has not yet been solved and that they want something done about

it. And, in rating Ford's efforts, the respondents were saying they were not all that sure that massive pump-priming would do the job.

concentration and memory have been seriously affected and she is tired and listless.

Great Britain's problems with violent crime, to repeat, are not nearly so severe as ours. In 1973, only 463 homicides were reported in a nation of 53 million.

Under our federal system, criminal justice is overwhelmingly the responsibility of the states. This is especially true of violent crime — murder, assault and rape.

Under our federal system, criminal justice is overwhelmingly the responsibility of the states. This is especially true of violent crime — murder, assault and rape.

Questions about US, refugees

One of these days — too late to do any good, of course — there is going to be an investigation of the evacuation of South Vietnam and our handling of its refugees.

I hope that investigation will be run by good men without political plunder in mind, though in these wretched days one wonders whether there are enough of these to constitute a substantial committee.

My information is that at the moment of maximum pressure, there were two typists in whatever office in Washington concerned itself with refugees — two typists; peeking out authorizations for individual South Vietnamese who sought American help.

There are stories now that individual South Vietnamese were told by glib American officials with access to that escape hatch on top of the Embassy that they would get into a helicopter in return for two, five, ten thousand dollars.

But Vietnamese waters end 12 miles from land. Without violating any law at all, the United States could, if it were so minded, cruise its entire fleet 12 miles from the Vietnamese coastline.

It happens that tens of thousands of Vietnamese, beginning a month ago when the great flight from Da Nang began, groped their way to anything at all that would float, and show themselves out to sea.

It happens that tens of thousands of Vietnamese, beginning a month ago when the great flight from Da Nang began, groped their way to anything at all that would float, and show themselves out to sea.

Where is the gallant Senator Kennedy, so concerned about refugees? So long as they are refugees from American bombing? Where was he last week, to show the consistency of his concern? He will, one learns, cooperate with private rescue organizations.

Only the International Rescue Committee survives, with honor and ingenuity and steadfastness, the test: the IRC was everywhere, helping in every way. But a small private organization cannot have been expected to come up with a fleet of ships.

Their two and one half times now, for America, when we turned refugees back to the Russian Army where they were slaughtered by Stalin in 1945. Then, in 1953, we were apparently prepared to force North Korean prisoners of war to return to the North against their will.

Domestic CIA spying minimal

© N.Y. Times Service
WASHINGTON — The vice chairman of the Rockefeller Commission said Monday that after 18 weeks of investigation it was his opinion that with "one or two major exceptions" the Central Intelligence Agency never engaged in massive domestic spying.

In a briefing — completed by the commission — completed the active portion of its investigation, C. Douglas Dillon said the commission had uncovered "no major surprises" beyond the original published reports last December that the agency was involved in wiretapping, opening mail of private citizens and the maintenance of dossiers on Americans.

He said that the commission's findings went only modestly beyond the agency's internal CIA investigation conducted by William E. Colby, the director of the agency.

Dillon publicly confirmed for the first time that the commission has been asked to investigate reports to assassinate foreign leaders and that these investigations centered on reports involving Fidel Castro of Cuba and Rafael Trullio, president of the Dominican Republic.

He declined to discuss the commission's conclusions on the matter of assassination plots but he confirmed that the commission had entered this realm of inquiry at the request of President Ford.

At one point Dillon was asked whether the commission's investigation had found "any indication of massive lawbreaking — domestic spying by the CIA."

"Not in my opinion," he replied, "my own personal opinion, which is not necessarily that of the commission, is that with one or two rather major exceptions, everything that was done was rather peripheral and connected in one way or another with the legitimate work of the agency."

He later noted that the "allegation is that the agency was devoting a major part of its 'time' on domestic areas when it was supposed to be operating abroad."

"I don't think this was the case," he said.

Dillon also said he had been personally surprised to learn that the CIA did such things as open mail, which he had not known before he went on the commission.

Dillon said that, under presidential order, the commission had throughly investigated charges of plots to assassinate foreign leaders, he mentioned both Castro and Trullio by name.

He said he did not believe that the Rockefeller Commission would expand on the findings of the Warren Commission following President John F. Kennedy's assassination. Dillon declined to comment on the commission's other findings.

From the beginning, the commission has been criticized for being made up of

Rescue effort

CONSTRUCTION crewmen and rescue squad members worked at the entrance to a shaft leading to a tunnel 100 feet beneath the Fox River in Green Bay, Wis., where a gas explosion Monday killed at least two men. Officials feared two others in the shaft may have been killed. Gas stopped two rescue tries Monday before drilling of a separate vent began. (UPI)

Senate panel approves limited refugee program

© N.Y. Times Service
WASHINGTON — The Senate Foreign Relations Committee Monday approved a bill limiting the number of Indochinese refugees after limiting the program's cost to \$405 million.

The \$405 million limit which was the same figure approved last Thursday by a House appropriations subcommittee, "was less than the \$507 million requested by President Ford, but government officials administering the refugee program for South Vietnamese and Cambodian refugees have said that they could work with the reduced amount."

The Senate committee action, which came on May 13 to vote after only one three-hour hearing Monday morning, indicated that both houses would approve similar refugee legislation

Criminal probe meddling rapped

© Chicago Daily News
WASHINGTON — Rep. John E. Moss, D-Calif., has accused the State Department of interfering in a criminal investigation on behalf of an international oil company.

The allegation was made by Moss in a letter to Secretary of State Henry Kissinger.

Moss said State Department official Gerald A. Rosen urged a delay in a grand jury investigation of alleged overcharges to the Jacksonville, Fla., Electric Authority for "obvious foreign policy reasons."

The federal grand jury was investigating charges that Ven-Fuel, a joint venture of the Venezuelan Petroleum Corp. and International Systems and Controls Corp. of Houston had overcharged the utility \$6 million to \$20 million for oil.

Moss said Ven-Fuel attorney, Walter S. Surrey, contacted Robert McClintock, who was then U.S. ambassador to Venezuela, to warn that the inquiry would have a harmful impact on U.S. relations with the South American nation.

McClintock wrote a memo reflecting Surrey's view without checking into the facts, Moss said, although Venezuelan diplomats did not complain about the investigation until two months later.

Surrey then contacted other State department officials and "the impact of Surrey's lobbying effort was substantial," Moss said.

One result, Moss said, was that Rosen sided with the Federal Energy Administration in urging delay of the criminal investigation during a meeting last October of government agencies concerned with the case.

"This, Mr. Secretary, was an unwarranted intrusion by the Department of State in the normal processes of law enforcement," Moss wrote, adding:

"This action raises the most substantial questions of public policy. In our country today, one of the defining features of big business is its multi-national character...

"If these firms simply because of partial ownership by foreign nationals or governments gain thereby a special pleader in the Department of State, we will have created an intolerable situation."

Bill approved

SACRAMENTO, Calif. (UPI) — A bill legalizing all sex acts between consenting adults in private was signed Monday night by Gov. Edmund G. Brown Jr.

Informally called a "Bill of Rights for Homosexuals," the measure repeals prohibitions as old as 103 years governing the private sexual behavior of consenting adults 18 years and older. It takes effect Jan. 1.

The bill eliminates criminal penalties for adultery, oral copulation and sodomy. Oral copulation currently carries a maximum prison term of 15 years while sodomy can be punished by life behind bars.

Brown's office said the governor signed the measure without comment. Brown had expressed strong support for the bill's concept.

Spacemen practice launches

HOUSTON (UPI) — American and Soviet spacemen start today practicing the launches and flight maneuvers that will link the two nations' spacecraft in orbit this summer.

The simulation includes the mission control centers and tracking stations operating as if it's the real July 15 launches.

The three astronauts and two cosmonauts will work in their computer-operated spaceship simulators, talking with ground controllers and each other as they will on the first intercontinental flight.

The Soviet simulated launch was set for 8:20 a.m. EDT — the same time and day of the week as the real launch 45 days from today.

Aleksey A. Leonov and Valery N. Kubasov go through the launch pushing launch sequence as the American control center watches a videotape of an earlier Soyuz launch.

Seven-and-a-half hours later Thomas P. Stafford, Donald K. "Deke" Slayton and Vance D. Brand simulated the Apollo launch.

Nine U.S. officials are in Russia working in the Soviet control center as they will in July, and Soviet engineers are here. All personnel for the Apollo-Soyuz flight are taking part in the simulation which will last seven days.

The initial segment of the simulation covers the first 26 hours of the mission. It will pick up again Thursday morning with the docking in space and run through Saturday noon with the separation. It resumes Monday with a replay of the docking sequence.

In July, the Apollo will chase the Soyuz for two days, rendezvous in orbit and link for two days of joint activities. The first thing after docking, Leonov will join the astronauts for dinner in the Apollo. Kubasov will remain in the Soyuz and will join the Americans for the ceremonial dinner the next day.

Actor's daughter dies

LOS ANGELES (UPI) — Jenny Arness, 24, daughter of James Arness, star of the "Gunsmoke" television series, was found dead in her home late Monday night, apparently from an overdose of sleeping pills, sheriff's deputies reported.

Deputies said the death apparently was suicide and two notes found near her body indicated she was depressed. They did not say over what. A neighbor in the wealthy seaside Malibu district called authorities, saying he was worried because he had not seen her all day.

"Gunsmoke" was canceled last week after 21 years on the air, the longest running series in television history.

Oakley wants to save structures

SOME of these old homes in Oakley are being restored to their original condition, and a local group is working to have them declared an historic site, thus making them eligible for federal grants to finance the restoration.

Guided tour set May 24

OAKLEY — The Historic Oakley Society is sponsoring a guided tour through historic buildings in Oakley May 24.

The tour is to spur interest in about 33 historic buildings in the town, according to Kent Hale, Oakley native and spokesman for the preservation group.

Guides will take groups of 10 or 12 people through the town's Victorian houses built around 1900 and through some of the old commercial buildings.

The tour is part of an effort by Historic Oakley to have Oakley named an "historic district" by the National Trust for Historic Preservation. Such designation would spur concern for preserving the historic character of the town and would make the outside of a few homes eligible for restoration grants.

Anyone who has sex once, just once, can get syphilis or gonorrhea. VD is spreading through our neighborhoods. Hitting people you'd least expect to get it.

In the suburbs, VD is more prevalent than chickenpox. Finding that hard to believe is one of the reasons it's spreading so fast.

So don't think it's not your problem.

Antibiotics cure VD and prevent its spreading. So it's ironic there's so much VD around when it's so easy to prevent or cure.

If you're curious or confused, get information or a pamphlet at most pharmacies or a health clinic. If you need help, see a doctor.

V.D. isn't what "other people" get anymore.

SAV-MOR DRUG ON THE MALL

OAKLEY — The collapse of Oakley's economy around 1915 was a prime cause of the town's present historical significance, according to Kent Hale, spokesman for Historic Oakley, a group attempting to protect old buildings in the town.

Much of the town, located about 20 miles south of Burley at the edge of the South Hills, was built between 1885 and 1910. Farms and a major silver mining concern led to a thriving economy in the town of about 2,000.

But around 1915 the "mine petered out" and the farm population proved to be too big to live well on the amount of water from a recently built

dam in the area, Hale says. The result was a "big exodus" migration of about 1,000 people, cutting in half the population of the town.

"When people moved away, the dilapidated houses were torn down," Hale says. With an "over-abundance" of "hauling people only picked the better homes to live in."

Also, between 1910 and 1940 nearly nothing was built in the town. Since 1940, the change has not been great.

"The result of this decline and then slow-growth is that 33 buildings — of historic significance exist in the town," Hale says. Among the oldest of these buildings are six to eight Victorian style houses.

Oakley missed the progress that these other communities had. Ordinarily these old houses would have been torn down," Hale says.

Four or five of these old homes were "on the verge of being destroyed" a few years ago since they were vacant and nobody wanted to buy them, Hale says.

These Victorian houses were eyesores and they weren't popular. They're starting to come back," he says.

Now even though some restoration work needs to be done, Hale is mostly concerned about what could happen to Oakley's historic buildings in the future.

So Hale, a native of the town,

along with seven other Oakley residents, has started "Historic Oakley."

The group's goal is "to make Oakley an historic district, hopefully by the bicentennial."

Being classified as an "historic district" by the National Trust for Historic Preservation would make the town eligible for some grants but, more importantly, would encourage zoning to preserve the character of the town, Hale says.

A seven-member board would be appointed by the City Council to zone the historical areas of the town. Although new building would be permitted, it would have to conform with codes set down by the board, he says.

Israel bars publication of embarrassing volume

© N.Y. Times Service
JERUSALEM—The Israeli government has moved vigorously to block publication of a book that reportedly contains secret minutes of conversations between Secretary of State Henry A. Kissinger and Israeli ministers in which the secretary allegedly made disparaging remarks about the leaders of Egypt, Syria, the Soviet Union and other countries.

The book was banned on the orders of Premier Yitzhak Rabin who, according to Israeli sources, told the cabinet that Kissinger would probably have to resign and that Israeli-American relations would be seriously damaged if the material was made public.

On the ground that this might threaten the flow of American arms and aid to Israel, the government censor blocked publication of the book and last week, according to sources familiar with the case, the author's manuscript and notes and document used in preparation of the work.

In a rare move, the government also

prohibited Israeli newspapers from publishing the fact that the book had been censored. Such a step is authorized under Israel's stringent security regulations, but it is rarely imposed.

Israeli Journalists have protested the action as a political use of Israel's military censorship.

The storm measures taken against the book and its author, Matti Golan, an Israeli journalist, are a barometer of both Rabin's irritation over a recent spate of leaks from his government and Israel's deep concern over the strained state of relations with the United States. They also underscore the importance Rabin placed on maintaining a close relationship with Kissinger.

According to sources familiar with the manuscript, it contains the verbatim transcript of closed-door talks between Kissinger and former Golda Meir and other members of her government during negotiations leading to the Israeli-Egyptian disengagement agreement in January, 1974, and the Israeli-Syrian pact signed on June 1, 1974.

Park bans dissidents

SEOUL (UPI)—President Park Chung-hee today outlawed all anti-government activities, including reporting of dissident opinions.

Park said he issued the ban to solidify national unity in the face of what he termed real and imminent threats from North Korea.

Park's emergency decree, which takes effect immediately, forbids opposition to the decree, the constitution and the government as well as student political activities and reporting of such activities or dissident opinions.

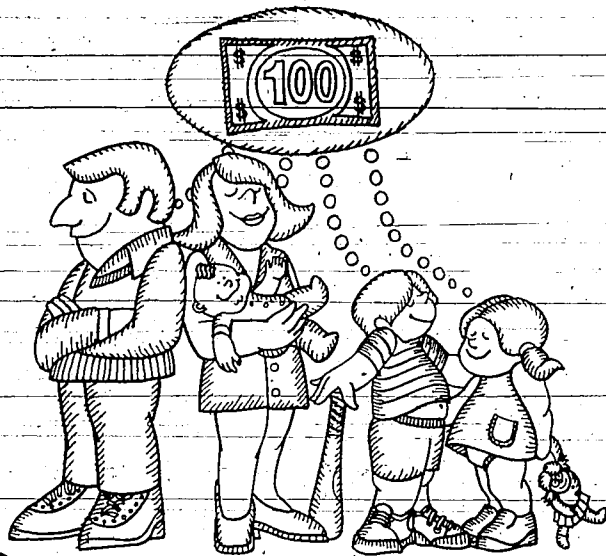

The edict provides for a minimum punishment of one year in prison. Suspected violators may be detained or searched without formal warrants.

FBI files kept shut

© N.Y. Times Service
WASHINGTON—Atty. Gen. Edward H. Levi's refusal to let a General Accounting Office task force view the FBI's investigative files has set the stage for his response to similar requests expected later this year from the House and Senate select committees examining the intelligence community.

Bicentennial group supports chief

BOISE (UPI) — The Idaho Bicentennial Commission, in a 40-minute closed meeting after a five-hour discussion on the commission's financial problems, rejected a letter of resignation from director J.M. Nell.

Chairman Tony Park told reporters the commissioners were unanimous in their support for Nell and had asked him to talk with the director about reconsidering the resignation.

Nell earlier told UPI he was reconsidering the resignation

and would stay in the job if the commissioners wanted him.

He also said the strong statement of confidence from the governor's office Monday had encouraged him to stay.

The commissioners earlier voted to seek outside sources of funding to assist with immediate debts, especially \$12,000 owed since December to Thorpe Electric, Inc., of Kelllogg for work at the Cataldo Mission.

The commissioners analyzed the source of the financial troubles as slowness

by the federal government in sending money owed to the state commission, a shortage of contributions for bicentennial projects, and a cash flow that Nell said "trickles in."

The commission needs \$51,000 to complete the historic preservation for the Old Cataldo Mission in north Idaho and the Malad Gorge tourist park near Tuttle. Nell said the commission Monday had only \$693 on hand.

The financial problems are complicated by federal

requirements to match state money that has been spent for certain bicentennial work, creating a gap in the cash flow.

The commission found it is overdrawn \$10,000 and agreed to use money coming in July 1 to make up the deficit. It also agreed to temporarily shelve plans for the Tenare archeological park near Lewiston in favor of putting \$25,000 from that project into the Intersect project at Twin Falls.

R.J. Bruning, representing the governor's office, told the commissioners the commission "has been an excellent one and Park and Nell have done excellent jobs, with the exception of this fiscal thing and let's leave that out."

"You can't fault a man who is strong in one field for not being strong in another," Bruning said.

The commission with Nell as director has done more than most of the other commissions in the nation toward organizing the bicentennial activities, he said, adding that the governor "thinks this commission should be continued as it is" and that he did not think Nell's resignation was in order.

He added there is a need "for strong fiscal control for the commission."

In an effort to help the commission solve its financial problems, the governor's office made available two members of the State Division of Budget, Policy Planning and Coordination. They reviewed the commission books last weekend and said the records all were in order but could have been handled better.

The staff auditors will go over the commission records during the coming week and prepare a financial report on each of the bicentennial commission projects to determine the commission's debts and accounts receivable.

The commission will meet again at 9 a.m. May 19 to further discuss its financial troubles.

Ex-student leader at College of Idaho held

CALDWELL, Idaho (UPI) — A former College of Idaho student body president and another student at the school were arrested and arraigned Monday on charges of unlawful use of cocaine.

Larry Jarred Stamps, 27, Caldwell, who has been student body president the past year, faces one charge of delivery of cocaine April 9. The other student, Mark Clark Shumaker, 24, Caldwell, is charged with delivery of cocaine May 9 and delivery of marijuana April 21. Stamps also is a student teacher at Caldwell High School.

Canyon County Prosecutor James C. Morfitt said since the wives of the two defendants had worked in the prosecutor's office since he took office and some time preceding that, he requested the district court to appoint a special prosecuting attorney to handle the cases.

District Court Judge Robert B. Dunlap signed

an order appointing Ada County Prosecutor David LeRoy and his deputies to act for Morfitt.

Morfitt declined to comment when asked if the wives were still employed in his office.

The two defendants were arrested late Monday morning at their homes after an extensive investigation involving the prosecutors' office, the city-county narcotics division and federal drug enforcement officers.

At their arraignment Stamps and Shumaker both asked for court appointed attorneys.

Magistrate Milton Birnbaum granted Stamps an attorney but denied one for Shumaker. Shumaker's case was continued until Tuesday, Stamps' until Wednesday morning.

Birnbaum set \$5,000 bond for the one count against Stamps and \$8,000 for Shumaker on the two counts.

New statue of liberty?

WASHINGTON (UPI) — The Vietnam refugee problem suggests the United States may need another Statue of Liberty — this one on the West Coast, Rep. George V. Hansen said today.

"These people non-immigrating to America from Vietnam are those who have put liberty and self-determination above creature comforts and cultural heritage in the best spirit of the American dream for which patriots pledged their lives, their fortunes, and their sacred honor," the Idaho Republican said.

"Do these refugees who have made such a

great personal sacrifice deserve less than a chance to breathe free and enjoy the same opportunities as we do?"

Hansen said the U.S. labor market will be affected only barely by the refugees.

"Preliminary information indicates less than one third of the refugees will be entering the labor market," Hansen said. "A high proportion of these are considered to be skilled workers and professionals."

"It is thought that the impact on the U.S. work force will be negligible."

Warm breezes to blow over MV

Twin Falls, northside; Fair and warmer through Wednesday. Low temperature tonight 45 to 50. Highs Wednesday near 80. The probability of measurable precipitation is near zero through Wednesday.

Halley, Camas Prairie, lower Wood River Valley. Fair and warmer through Wednesday. Low temperatures tonight 45 to 40. The high Wednesday near 70. The probability of measurable precipitation remains near zero through Wednesday.

Synopsis: The weather through Wednesday will be excellent for just about any kind of outside work or play, except that southerly winds will tend to increase to 15 to 25 miles per hour Wednesday afternoon.

Strongly rising temperatures will bring a rapid rise in the melt stream flow by melting snow. The weather pattern over the entire northern hemisphere has changed dramatically from that of last week. High pressure seems likely to center over the northwestern corner of the United States and to weaken any incoming storm systems so that although the extended outlook is for some increasing cloudiness and a chance of precipitation about Thursday or Friday, the precipitation, if any, should be too light to be of great importance. Farmers will likely be able to continue cutting up on their field work. Soil temperatures have responded to the sunshine and are now averaging about 50 degrees at all depths to eight inches or more.

TWIN FALLS — About 130 Explorer Scouts from 15 posts participated in the Snake River Area Council Explorer Olympics on May 2.

Participation to date in the Olympics, which began in February with a basketball tournament, totals 235 Explorers from 34 posts.

Winners of May awards:

Public speaking: Dan Taylor, post 49; Rupert and Richard Humphries, post 43; Kimberly, tied for first place; Scott Burnett, post 100; Twin Falls, third place; general knowledge test, Ken Aamodt, post 481; Twin Falls, first place; Curtis Webb, post 481; Twin Falls, second place; Roger Carter, post 443; Kimberly, third place.

Tennis: Craig Brown, post 307; Twin Falls, first; Doug Nicholson, post 49; Rupert, second; David Vance, post 474; Twin Falls, third; table tennis, Kevin Price, post 79; Twin Falls, first; Roger Christensen, post 481; Twin Falls, second; Charles Allen, post 72; Filer, third.

Archery: Gary M. Miller, post 481; Twin Falls, first; Mike Waymont, post 100; Twin Falls, second; Mark Lockwood, post 501; Murtaugh, third; chess, Richard Morgan, post 38; Heyburn, first; Jim Stanger, post 101; Murtaugh, second; Ken Aamodt, post 481; Twin Falls, third.

Track and field events: high jump — Craig Day, post 474; Twin Falls, first; Kenny Gleed, post 101; Twin Falls, second; Gary Blything, post 110; Burley, third; pole vault — Roger Christensen, post 481; Twin Falls, first; Jay Gordon, post 100; Twin Falls, second; Marty Short, post 31; Gooding, third.

Long jump: Craig Day, post 474; Twin Falls, first; John Lambert, post 13; Burley, second; Jay Gordon, post 100; Twin Falls, third; shot put — Roger Christensen, post 481; Twin Falls, first; Craig Day, post 474; Twin Falls, second; Darl Gleed, post 100; Twin Falls, third.

Discus throw: Jerry Koyle, post 49; Rupert, first; Tracy Haddock, post 474; Twin Falls, second; Mark Lockwood, post 501; Murtaugh, third; 100-yard dash, Craig Day, post 474; Twin Falls, first; John Lambert, post 13; Burley, second; Darl Gleed, post 100; Twin Falls, third.

220-yard dash: Craig Day, post 474; Twin Falls, first; John Lambert, post 13; Burley, second; Darl Gleed, post 100; Twin Falls, third; 440-yard run — Brent Beaman, post 501; Murtaugh, first; Allen Evans, post 401; Twin Falls, second; Scott Anderson, post 78; Twin Falls, third.

880-yard run: Charles Allen, post 72; Filer, first; Wayne Davids, post 13; Burley, second; Jay Gordon, post 100; Twin Falls, second; Jerry Koyle, post 49; Rupert, third.

Event winners: 322nd annual state meet — 322nd team posts for a first place win, silver medals and 3 team points for second place, and bronze medals and 1 team point for third place.

Overall standings are: Post 481, Twin Falls LDS Seventh Ward; First with 40 team points; post 474, Twin Falls LDS Sixth Ward; second with 20 team points; post 49, Rupert LDS 5th Ward and post 106, Twin Falls 3rd Ward; tied for third place with 18 team points each.

Successful nuclear fusion seen

WASHINGTON (UPI) — Rep. Mike McCormack, D-Wash., predicted Monday that the nation will succeed in controlling nuclear fusion to produce an unlimited source of clean, cheap electricity forever.

McCormack, chairman of a House energy subcommittee and former nuclear scientist, said an experimental demonstration fusion power plant should be in operation in the mid to late 1990s. He said fusion power should be available commercially after the year 2000.

The congressman told the second Energy Technology Conference that the effort to develop controlled nuclear fusion is going to require massive financial support.

"Starting now," McCormack said, "fusion power has not yet been proven feasible, but McCormack said it is now possible to predict success. It would control the type reaction used in the hydrogen bomb and fusion reactors could be fueled by deuterium which comes from sea water.

In the meantime, McCormack said the nation must rely on increased oil and coal production, energy conservation and on more of the nuclear fission power plants now producing about 7 per cent of the nation's electricity. He said solar energy also will play an increasing role in heating and cooling, but it will not be available for large scale electricity generation until 1990 at the earliest.

The public has been constantly bombarded by sensationalized press and television stories about the hazards of atomic power plants, McCormack said, even though "nuclear energy is the safest form of energy we have available to us."

In a related development, nuclear physicist Ralph E. Lapp criticized the anti-nuclear arguments of consumer advocate Ralph Nader, saying Nader "superecharges the nuclear debate atmosphere with unending misinformation and misinterpreted data."

Lapp released at a news conference an analysis he prepared of 27 of Nader's charges. The book was published by a public education division of Reddy Kilowatt Inc., a power industry organization.

"My own impression is that Mr. Nader aims for 'zero risk' and that 'he overlooks' the obvious risks we all run from cradle to grave," Lapp said. "Nuclear power has no acceptably small compared to other risks and, especially when viewed on the basis of choices and realities of other energy sources."

Meany says unemployed totals soar

WASHINGTON (UPI) — AFL-CIO President George Meany said Monday one of every four workers in this country will be unemployed by 1975, if current jobless rates continue.

Meany complained in testimony before a congressional subcommittee that the Democratic Congress is sharing the administration's fixation on the size of the project's federal deficit, without concern for anything else.

"We should face up to the fact that this country is big enough to take a \$100 billion deficit if necessary," he told the Joint Economic Committee panel. "If the leadership of this country had considered only the budget deficit in the early 1940's, Hitler would have won the war."

On the basis of existing trends, a million- or more workers will be jobless during every month of 1975, Meany said — meaning nearly a quarter of the work force will be unemployed sometime this year.

Nursing graduates

CATHY WIGGINS, president of the 1975 nursing class at CSI, Ron Fisse, the class' only male student, vice president Terry Todd were among the 26 nursing graduates to participate in a White Honors ceremony Saturday at the College of Southern Idaho.

26 graduated from CSI's nursing program

TWIN FALLS—The 26 graduates of the College of Southern Idaho's nursing program participated in a traditional White Honors ceremony Saturday evening.

Some students received honors awards, including: Rebecca Egbert, the Dr. James L. Tyson scholastic achievement award; Gail Becker, the Sister Martina award; St. Bernard's Hospital; Sherrell Sullivan, the Irene E. Oliver award; Magic Valley Memorial Hospital; Tammy Carson, the Twin Falls Clinic award; Chris Greer, Skyview Manor award; Shinobu Kaneko, Hazel Del Manor award; Terry Todd, the self-advancement award and the Lucille Pimental award.

The graduates were in the third graduating class of the School of Nursing. Besides the

award recipients, other graduates were: Ann Bybee; Mickey Davidson; Marie Ettinger, Susan Gass, and Annett McNew, Twin Falls; Marcia Drage, Jackle Grant and Carol Winn; Rupert; Joy Finley, Blackfoot; Linda Flores, Gooding; Kathryn Ford and Jeanne Mortenson, American Falls.

Patressa Handy, St. Anthony; Shirley Hulise and Deborah Nelson, Kimberly; Patricia Rasmussen, Burley; Karen Schmitt, Pocatello; Catherine Wiggins, Castileford, and Ronald Fisse, San Francisco, Calif.

Amy Savage, president of the Idaho Nurses Association and a faculty member of Idaho State University, was the guest speaker for the event.

Shortline Railroad supports home

SAND SPRINGS, Okla. (UPI)—Charles Page was called the "million dollar fool" in 1908 for building his seven-mile Sand Springs Railway.

And people were incredulous when he announced the railway would build a town to support a home for orphans.

Page died in 1926, but the railway, the town and "The Home" remain—each growing year by year.

Today the Sand Springs Railway is one of the most profitable shortline railroads in the nation. It enjoys the reputation of being "seven miles of profit" running from the industrial community Page built in Tulsa where freight is exchanged with four major railroads.

"People couldn't figure out why a man would come out here in this God-forsaken area with nothing but Indians and sand and build a railroad," said S. Neal Johnson, railway president.

"They called him the million dollar fool, but he knew what he was doing."

Page made a deathbed promise to his mother to build a home for orphans, Johnson said. He also wanted to build an industrial community, so he bought a chunk of land in what was then Indian Territory near Tulsa and combined the two projects.

"The whole idea behind the city of Sand Springs was to support the children's home and a widow's colony," Johnson said.

"This was what Mr. Page had a dream of—providing a home for needy, children and widows and their children. It was never called an orphanage. It was, and is, called simply The Home."

The Home owns 100 per cent of the stock in the railway and all of the profit goes into room, board and education—up to and including college—for the children who live there. The Home and other interests are operated by a board of five trustees appointed by the Grand Master of the Masonic Lodge under terms of Page's will.

Since its founding on Page's birthday, June 2, 1908, more than 800 children have lived at The Home. Although the original residents were orphans, Johnson said most now are from broken homes.

The Home also contributes to the other 14,000 residents of Sand Springs. For example, Johnson said, all school land has been donated from the orphanage holdings.

The railway had a record year in 1974, Johnson said, with business up some 30 per cent. From the previous high, and so far this year is running ahead of that. He credits the success to several factors: variety of cargo shipped by the more than 70 firms using the line; a franchise Page obtained in the beginning which makes his railway exclusive; top condition of the tracks and equipment, most of it from 20 to 40 years old, and to the people who work for it.

Page utilized his railway to the fullest, building spur lines instead of using trucks when he needed to move something.

He started with two 200 horsepower self-contained gasoline coaches, later switching to electric engines. The original turban commuter service was discontinued in 1955 when it began losing money. Since then the railroad, now using three diesel engines bought about the same time, has not had a bad year.

"Our people have always taken pride in the railway making money because it means they are doing their job to support these kids," Johnson said. "The Sand Springs Railway has never been on strike (all of the employees are union members). They have a terrific loyalty to the philanthropic interests adopted by Mr. Page."

Reunion set at Jerome

JEROME—The Jerome graduating class of 1950 will hold a 25-year reunion June 29-29 and is presently seeking class members.

Dr. Jack Adams, chairman, said a buffet dinner is planned at the Jerome Country Club Saturday night which will be followed by a picnic in the city park Sunday.

Dr. Adams asked anyone knowing the addresses of the following classmates to contact him.

Genette Pettit Tankersley, George Hyrum Elmer, Lloyd Tankersley, Iva Lou Hellewell Smith, Richard R. Callison, Anna Peterson Nelson, Valera Garro's Rodney, Evelyn Silbaugh Dewalter, Ray E. Prentice, Eloise Mills Cole, Velda Ellinger Arnett, Eva Silbaugh, Betty Trappen Wood and Vivian Homan Lippman.

RANDY ZAGATA gets award

Filer boy gets award

FILER — Randy Zagata, Filer High School senior, has been awarded a "package" of financial aid valued at \$3,000.

He is the son of Mrs. Mary Lu Zagata, Filer, and Tony Zagata, Buhl. The package included a Supplemental Educational Opportunity grant, an honor student scholarship, an achievement award, a direct student loan and a workstudy grant.

He also has received a Basic Educational Opportunity grant of an undetermined amount based on an index number. He will be attending the College of Idaho, Caldwell, and his tentative plans are to major in accounting.

S. Idaho may hold 'key'

BOISE (UPI)—The Idaho archeologist of the Bureau of Land Management says sites in southern Idaho may hold the key to understanding early man in North America.

Richard R. Harrison says some of the oldest sites recording man's existence have been found in Southern Idaho.

On the Camas Prairie near Fairfield, a cache of tools used by elephant hunters from the earliest aboriginal culture in North America have been found, he said. In the early 1960s, a Harvard team excavated Wilson Butte Cave near Shoshone, finding artifacts made by aborigines 14,000 to 18,000 years ago.

He says similar sites are waiting to be discovered in Southwest Idaho, where a recent study documented 600 locations in a four-million acre area.

"Idaho archeologists estimate these 600 sites are only 10 per cent of the sites there. For the most part, places like Owyhee County are unknown professionally," Harrison said.

He was hired nine months ago, to document the archeology and historical sites on BLM land in Idaho and integrate them in the overall land-use management plans of the federal agency.

"Archeology sites are public values," he said. "We preserve them just like artwork and artifacts of the Indian people that rise on the Snake River Plain and we're concerned about endangered species."

Parents day observed at Filer grade school

By MARJORIE LIERMAN
Times-News writer

FILER — Parents' Day was observed Friday at the Filer Elementary School and attended by more than 200 parents, grandparents and

friends. Songs and activity numbers were presented by the students of the first, second, and third grades, under the direction of Mrs. Claire Theener, music director.

refreshments were served and parents were presented cards and gifts the children had made in school.

Mrs. Theener was assisted by first grade teachers, Dorothy Morrie, Genevieve Engle and Mrs. Arlene Marshall; second grade, Mrs. Helen Hall; Lois Cammack and Patricia Randolph; and third grade, Mrs. Judy Snider, Mrs. Connie Garey and Mrs. Sue Ellen Lammers.

Mrs. Lenore Bunce, director of the Teachers' Corps, announced the numbers, and expressed appreciation to the more than 20 parents who have assisted with volunteer programs at the school through the year.

Each of the first three grades at the school is divided into three groups so students of the nine units presented skits, dances and songs, some based on the Bicentennial and featuring songs of early America, while others stressed a patriotic theme with "This Land is My Land". One particularly colorful number "Sing Me A Rainbow" featured the use of multi-colored scarves.

Following the program,

Jerome youth beaten

JEROME — A 17 year old Jerome youth told police officers Sunday he was beaten up by a narcotics officer.

Howard DuBois, chief of police, said the youth came into the police station Sunday night and reported he was in the South Park around 8 p.m. Sunday when a man came up to him and slugged him several times. The youth said the man told him he was a narcotics agent so the youth didn't try to defend himself.

"We don't have enough information to make a judgment at this time. If it was a police officer involved, he was not working for my department," DuBois said. DuBois said the youth was supposed to make a detailed report and bring witnesses to the incident.

Sign holders

LARRY TAYLOR holds a sign spelling the world "hippopotamus" during a program at the Filer Elementary School Friday during Parents' Day. Larry is in Mrs. Arlene Marshall's class and is shown with June Wilson, Melinda Paulsen and Randy Drown.

Elmore County fair date set

GLENN'S FERRY — The Elmore County Fair will be held Aug. 6-9. Ruth Van Slyke, Elmore County home extension agent, and Herbert Edwards, county agent, urges everyone to plant vegetables and flowers with the fair in mind.

There will be divisions for all age groups—11, junior 11 years and under; Adult and Senior Citizen 65 years and older. There will be exhibit

classes for fresh produce, canned meats, fruits, and vegetables—and preserved jams and jellies.

Flowers will be judged on the 7th of August. If the flower exhibit wins, the fair board encourages people to replace the wilted flowers, to keep the exhibit looking fresh.

Fair books are being printed with all information pertaining to the exhibits.

TWIN FALLS — JEROME

TF sweeps two from Minico to claim baseball crown

The Twin Falls Bruins exploded for two hits in the bottom of the seventh inning to cap a day-long comeback campaign, sweep a doubleheader from the Minico Spartans and claim the district baseball championship.

Down 2-0, Twin Falls won the nightcap 3-2 with one out in the last inning.

Twin Falls, trailing 5-1 in the opener, rallied back for four runs in the sixth inning and then won it on Bruce Bird's suicide squeeze that plated Klayton.

In the nightcap, the Bruins, held to almost nothing over the first six innings, got an edge when Gary Hull opened the

seventh with a walk and the second out by a hit by Randy Persinger. Gene Murray and the capably Scott Williams.

It was a bitter pill for Minico Coach John Astorquia and his Spartans. They'd defeated the Bruins 4-3 in the first tournament meeting to take the inside track.

But it also kept alive the "backdoor" reputation of Twin Falls coach Ron Watson who in the past nine months has won three district titles — all of them in extra session. His Legion team won that way in August, his Bruin basketball team came around to win in five games in March and now

Twin Falls now advances to the state tournament Wednesday where they will meet an opponent not yet known due to other playoff weather postponements. Minico may have a second shot since an eighth spot in state is available for an "at-large" team, which generally means the one with the best record. Minico now is 13-7.

In both instances Minico seemed rolling along with no problem. Twin Falls had problems early in both. In the first game, Kerry Van Every started the game with a walk and seal and scored on a throwing error that let Bob Head live. Paul Sarus singled to third and Dietz squeezed him in.

In the second, Mickey Janks

Daily rinse

Preakness long shot pays extra

BALTIMORE (UPI) — Native Guest, whose owner will have to pay a supplementary entry fee of \$10,000 for the Preakness, worked through six furlongs Monday at Pimlico and left trainer Bobby Frankel satisfied the money would be well spent.

The colt owned by W. A. Levin's Goldmill Farms turned the first quarter mile in 23 3/5 seconds, three furlongs in 35 1/5 seconds and the half mile in 47 1/5.

With former national riding champion Sunny Harvick in the saddle for the workout, Native Guest wound up his three quarter mile gallop in 1:12.

PREAKNESS favorite Foolish Pleasure gets his morning bath Monday as groom Frank Morris, right, does a daily chore. The Derby winner will post his record of 11 wins in 12 starts against a field of nine other horses Saturday. (UPI)

Before jumping in a car to catch a plane with Hawley back to California, Frankel described the colt's last serious workout before the May 17 Preakness as entirely satisfactory. "That's just what I wanted," Frankel said.

Native Guest never raced as a 2-year-old and was neither a Derby entry nor an original nominee for the Preakness.

But his four straight wins as a 3-year-old, including the Debonair and the El Dorado Handicap at Hollywood Park, have persuaded Levin to pay the extra fee required of Preakness entries not nominated by the Feb. 15 closing date.

Allen to play first

PHILADELPHIA (UPI) — The Philadelphia Phillies announced Monday night that Dick Allen would be playing first base for the team Wednesday when they play the third game of a four-game series with the Cincinnati Reds.

The Phillies acquired Allen, who has sat out the start of the baseball season, from the Atlanta Braves last week in a trade.

Allen started his major league career with the Phils at the end of the 1963 season. He was named rookie of the year in 1964.

After the 1969 season, the controversial slugger was traded to the St. Louis Cardinals where he played one

year. He was sent to Los Angeles where he played one more season and then played the next three seasons with the Chicago White Sox before being traded to the Atlanta Braves.

"I want it to be different this time," Allen said after a pregame workout Monday before the series opener. "I'm putting it in the hands of God. All I'm interested in is hitting the ball."

The Phillies will have to move a player to make room for Allen and there was speculation that outfielder Alan Bannister would be optioned to Toledo or that it would be outfielder Don Hahn.

Bruin sops take district track title

The Twin Falls Bruins sophomores showed off better strength than expected Monday afternoon in coasting into the frosh-soph track and field championship.

The Bruins won half of the events, but for the first time in many years the pole vault eluded them. That could be at least a five-year first.

Twin Falls scored 215 points while runner-up Jerome had 102. Minico had 68, Stuart 53, East Minico 35, O'Leary 31 and West Minico 10.

Team scoring — Twin Falls 215, Jerome 102, Minico 68, Stuart 53, East Minico 35, O'Leary 31, West Minico 10.

Shotput — Jerome: Jim Hagan, 41.1; Twin Falls: Tom Wootley, 37.1; West Minico: 34.1; Jerome: 33.1.

Discus — Jerome: 118.1; Twin Falls: 115.1; Jerome: 112.1; Jerome: 108.1; Jerome: 105.1; Jerome: 102.1; Jerome: 98.1; Jerome: 95.1; Jerome: 92.1; Jerome: 88.1; Jerome: 85.1; Jerome: 82.1; Jerome: 78.1; Jerome: 75.1; Jerome: 72.1; Jerome: 68.1; Jerome: 65.1; Jerome: 62.1; Jerome: 58.1; Jerome: 55.1; Jerome: 52.1; Jerome: 48.1; Jerome: 45.1; Jerome: 42.1; Jerome: 38.1; Jerome: 35.1; Jerome: 32.1; Jerome: 28.1; Jerome: 25.1; Jerome: 22.1; Jerome: 18.1; Jerome: 15.1; Jerome: 12.1; Jerome: 8.1; Jerome: 5.1; Jerome: 2.1.

Camas County seeks coaches

FAIRFIELD, Ore. — Camas County High School, contending for both boys and girls state track titles in Idaho Falls Friday, is seeking applicants for football and track coaching vacancies.

Superintendent Harold Stroud said Monday night current coach Mark Hansen has accepted a fellowship at Brigham Young University where he will continue his education and work in the track program.

Fingers' relief downs Boston

OAKLAND (UPI) — Rollie Fingers, making his longest relief appearance in nearly two years, pitched 6 1/3 innings of one-hit ball and Jim Left slugged a key two-run pinch hit single Monday night to give the A's a 5-4 win over the Boston Red Sox.

Fingers, who had not gone more than six innings since July 15, 1973, replaced Oakland starter Dave Hamilton in the third and held Boston to a walk and a single brought Paul Lindblad out of the bullpen to retire the last batter. Fingers is now 3-2 and has appeared in 18 of Oakland's 30 games.

Reggie Cleveland had a three-bitter and Boston a 3-1 lead until the A's erupted for four runs in the seventh.

Dodgers win Cards in 10th

ST. LOUIS (UPI) — Tom Seaver, Cardinals, and Steve Carlton, Dodgers, tied the game in the ninth but the Dodgers won in the 10th inning on a home run by Reggie Cleveland. The Dodgers won 4-3 in the 10th inning.

Tigers blank Royals 5-0

DETROIT (UPI) — Vern Riffe and John Hiller shut out the Kansas Royals on nine hits and rookie Leon Roberts hit a three-run home run Monday night to power the Detroit Tigers to a 5-0 victory.

Torre sparks Mets victory

NEW YORK (UPI) — Joe Torre smacked a three-run double in the seventh inning and Jon Matlack received credit for his third win Monday night to lead the New York Mets to a 3-2 victory over the San Francisco Giants.

Torre's two-base hit came with two out off reliever Gary Gentry who had replaced starter and loser Jim Barr earlier in the inning. Barr gave up 10 hits in 6 1/3 innings and left after Mike Phillips-Felix Millan and Del Unser loaded the bases with seventh-inning singles.

Young gains on \$ list

ATLANTA (UPI) — Donna Casper Young, winner of last year's Lady Tara Golf Classic here, jumped into fourth place on the LPGA money list Monday with the \$5,700 championship purse.

Mrs. Young, who until Monday was the association's sixth highest money winner, has picked up \$23,035 this year but Sandra Palmer, who tied for second and won \$3,665 in the Lady Tara, still is far out in front. She has won \$44,251 so far this year.

Jane Blalock is a distant second with \$27,493 followed by Kathy McMillen with \$25,373 and Mrs. Young.

Expos trounce Atlanta 11-1

MONTREAL (UPI) — Rookie Pat Scanlon drilled his first major league homer, a three-run shot, and drove in four runs Monday night as the Montreal Expos beat the Atlanta Braves 11-1 behind the eight-hit pitching of Steve Rogers.

The Expos took a 2-0 lead in the first inning with Scanlon's groundout driving in one of the runs.

Rookie Gary Carter hit a solo homer in the second off former Expo Carl Morton who suffered his first loss against his onetime teammates after beating them six straight times over two seasons.

Scanlon's homer highlighted a five-run third inning for the Expos. Pepe Mangual and Mike Jorgensen singled to start the rally. Larry Bittner then doubled to drive in Mangual. Scanlon, starting in his first major league game, homered over the right field fence to increase Montreal's lead to 7-0.

Atlanta's only run came in the seventh inning on a single by Steve Garvey. Steve Carlton pitched a scoreless eighth.

Atlanta	Montreal
Garvey 1-0	40-11-0

Csonka says WFL 'solid'

MEMPHIS, Tenn. (UPI) — Memphis Southern Football League stars, who signed for a \$3 million package with a Memphis and played out their options with the Dolphins last season, said they anticipate no problems of jealousy by new Memphis teammates.

"I don't expect anything to be given to me," said Warfield, a wide receiver. "I expect to earn my position. I expect to earn the respect of my teammates and of the Memphis fans."

Kick, on the bench often while playing at Miami, said he expects stiff competition for the starting nod at running back.

"They have some awfully good people already here," he said. Memphis running backs J. J. Jennings, John Harvey and Willie Spencer were rated among the best in the WFL last season.

Csonka, who along with Kick joined the Dolphins before the American Football League merged with the NFL, said he thinks the WFL is now in better shape than the early AFL.

"I think the WFL has displayed more than was expected of it, especially the first year," Csonka said.

Celtics mull loss

BOSTON (UPI) — The Boston Celtics spent Monday daydreaming up moves and trying to convince themselves they were happy to be out of work.

The defending National Basketball Association champions, knocked out of the playoffs Sunday by the Washington Bullets, ambled into the team office at Boston Garden with talk of fishing, driving home and drinking beer.

"What can I say about losing?" asked John Havlicek as he founded up a couple of teammates for a weekend fishing trip to Ontario. "Our shooting wasn't good and our execution wasn't either. We were being indecisive about things."

Assistant General Manager Jeff Cohen provided some statistics that bore out Havlicek. The Celtics, who had shot at a 43.8 percentage all season ("our best season ever") connected at a 40.1 rate in losing to the Bullets. "Yet we averaged more than 100 shots a game against the Bullets, compared to 95 a game during the season. The ball just wasn't going in the hole," he said.

Dave Cowens, who had shooting problems all series, along with Havlicek and Jo Jo White, wasn't interested in statistics on Monday. The Boston center, wearing blue pants, blue shirt and dark sunglasses which accented the red crop of hair atop his 6-9 frame, was looking for drinking buddies.

Abby

By Abigail Van Buren
© 1974 by Chicago Tribune-H.L. Hunt Synd., Inc.

DEAR ABBY: My wife and I enjoyed your column in which you reported "Notes for Female Teachers in 1880." Perhaps you would enjoy reading the rules for female nurses published in 1880. Nurses were told they must:

First: Bring in a sack of coal each day.

Second: Report every day at 7 a.m., and leave at 8 p.m., except on the Sabbath "on which day you will be off from 12 noon until 2 p.m."

Third: Graduate nurses in good standing will be given an evening off each week for church services.

Fourth: Any nurse who smokes, uses liquor, goes to the beauty shop or frequents dance halls will give the director a good reason to suspect her worth, her intentions and integrity.

Fifth: The nurse who performs faithfully and without fault for five years will be given an increase of \$3.05 a day, providing there are no hospital debts outstanding.

A footnote, Abby: To illustrate how much progress has been made in achieving political and economic justice, in 1845 three young women who were employed as copyists in the U.S. Patent Office were threatened with loss of their jobs.

1880 rules for nurses

A member of Congress wrote to the secretary of the Interior, Robert McClelland, on behalf of one of the copyists and received the following response:

"There is every disposition on my part to do anything for the lady in question except to retain her or any of the other females who work in the rooms of the Patent Office. I have no objection to the employment of females in the performance of such duties as they are competent to discharge, but there is such obvious impropriety in the mixing of sexes within the walls of a public office that I have determined to arrest the practice."

The lady in question lost her job, anyway. But she later distinguished herself in a job considered exclusively male. The lady's name was Clara Barton. Her work on the Civil War battlefields and as founder of the American Red Cross make her one of the most illustrious women in our nation's history.

Very truly yours,
JENNINGS RANDOLPH, U.S. SENATOR
WEST VIRGINIA

DEAR SENATOR RANDOLPH: Thank you for a dandy contribution to my column. Your interest in equal rights for women is not surprising, since you co-sponsored the Equal Rights Amendment, which I hope the necessary 38 states will ratify.

DEAR ABBY: If you had a choice, would you rather have your kids hooked on drugs or alcohol? Please be honest.

BERKELEY SOPH

DEAR SOPH: If I had a choice, I'd rather have them hooked on nothing! Why assume kids have to be hooked on SOMETHING?

CONFIDENTIAL TO JINNIE: Wear pants to the office, only if you are sure that the end justifies the jeans. If you don't have a three-way mirror, ask an honest friend.

Everyone has a problem. What's yours? For a personal reply, write to ABBY, Box No. 63700, L.A., C.H. 90069. Enclose stamped, self-addressed envelope, please.

For Abby's booklet, "How to Have a Lovely Wedding," send \$1 to Abigail Van Buren, 132 Lasky Dr., Beverly Hills, Calif. 90212. Please enclose a long, self-addressed, stamped (20¢) envelope.

A Lovellor-Yau LETTERS FOR LEGS

By Mary Sue Miller

What's my weight problem? My mail. It's weighty with my lovely readers' weighty legs. Tennis and golf clothes are revealing the spot reducing that you "just didn't get to" last winter.

Well, it's not too late to trim before summer if you really want to and will faithfully perform these routines:

1. Starting position - lie on your right side with legs stretched and together. Prop-up your head with your right hand; place your left hand on floor opposite your waist for balance. Action: bending left knee straight, then up and far to the side, as to form a V with the right leg. Hold position for five slow counts. Then gradually lower leg to rest atop right leg. Repeat 10 times; turn on your left side and continue.

2. Turn face down on floor with back of hands under your forehead. Bend your knees and try to kick buttocks. Holding knee band, alternately bounce thigh against floor.

3. Turn back to right side. Try to kick buttocks, 10 times. Repeat on left side. Be sure the thigh on the bottom touches floor.

To speed matters, never ride if you can walk. Swim, if you have the facilities. Ride a bike or a horse. Go on a diet, if you are as much as five pounds overweight.

LEGLINE TRIMMERS

If your individual problem is heavy legs, send for my new leaflet, **LEGLINE TRIMMERS**, which contains spot reducing exercises that will meet your individual needs, whether for thighs, knees, calves or ankles, or for contouring your patellar legline. Write Mary Sue Miller, in care of this newspaper, enclosing a long, stamped, self-addressed envelope and 10 cents in coin.

Newlyweds honored

TWIN FALLS - Mr. and Mrs. David Johnson, Carlsbad, Calif., were honored at an open house reception April 25 at the Bethel Temple Church.

The Johnsons were married in El Sobranle, Calif., on April 19. Mrs. Johnson is the former Lorene Messner, daughter of

Mr. and Mrs. Dale Messner, Twin Falls. Johnson is the son of Mr. and Mrs. Joe Johnson, San Pablo, Calif.

He is stationed in the U.S. Marine Corps at Camp Pendleton, Calif. The Johnsons are living in Carlsbad.

Pamela Fawcett bride of Lonnie Cisco

TWIN FALLS - Pamela Renee Fawcett, daughter of Mrs. Goldie F. Fawcett, became the bride of Lonnie R. Cisco, Shoshone, in a double ring ceremony April 25.

He is the son of Mrs. Ida Cisco, Shoshone, and the late Robert Cisco.

Best Man Slagel performed the double ring ceremony at the Christian Center of Magic Valley in Twin Falls before an archway decorated with chrysanthemums and roses. The altar was flanked by bridesmaids.

The bride, given in marriage by her brother, Scott Fawcett, Buhl, wore a fitted, full length white crocheted lace gown over white satin. Her veil of illusion nylon tulle was attached to a Juliet cap. The gown and veil were made by the bride's mother and grandmother.

The bride carried a bouquet of pink pom poms, roses and chrysanthemums.

Mrs. Lynn Strickland, Procatello, was matron of honor and Cynthia Weaver, Buhl, and Judy Legaretta, Gooding, were bridesmaids. Best man was Don Cisco, Shoshone. Groomsmen were Lawrence Cisco, Hugerman, and Roy Murray, Gooding.

Heldi Ann Hayes, niece of the bride, was flower girl. Ringbearer was Smokey Legaretta; also Gooding.

Mrs. Scott Fawcett presided at the guest book. Mrs. Arlene Shank, accompanied by Mrs. Cheryl Slagel, sang "Wedding Song" during the ceremony and Mrs. Goldie Fawcett sang "Annie's Song" and "Let Me Be There," accompanied by Les Bowman, Buhl, guitarist and cousin of the bride.

A reception was held in the Presbyterian church fireplace lounge. A four-tiered cake flanked by silver candelabras was baked by Mrs. Velma Blisset, Gooding, and served by Mrs. Sandy Cisco and Mrs. Dixena Wildman.

Mrs. Jeanette Moline served punch. The coffee service was presided over by Mrs. Shirley Person, Boise, cousin of the bride.

The wedding trip to Sun Valley, the couple is residing in Gooding where the bride is employed as secretary

at Green Acres Terrace Nursing Center and the bridegroom works with France Transportation, Inc.

Here's how electric use and costs compare with family income

1940 and 1973
(Income figures not available for 1974)

1. Idaho's 1973 average family income was 7 times larger than it was in 1940.
2. The average annual residential electric use in 1973 was 6 times larger than it was in 1940.
3. The average residential electric bill in 1973 was 4 times larger than it was in 1940.
4. The average residential cost per kilowatt hour in 1973 (and today) was 35% lower than it was in 1940.
5. In 1940 the average annual residential electric bill was 2.7% of average family income.
6. In 1973 the average annual residential electric bill was 1.5% of average family income ... for six times as much electricity.

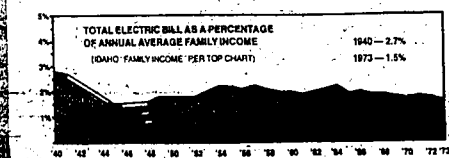

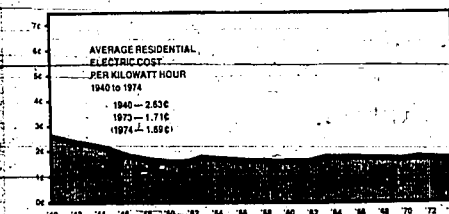

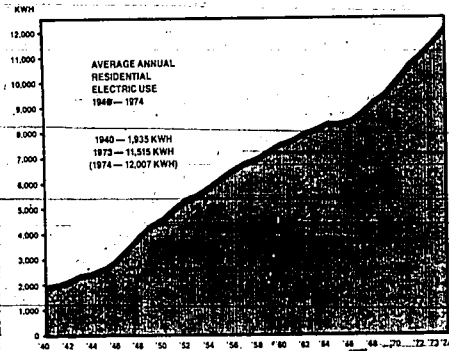

Idaho Power's rates are 40% below the national average. If electric bills are higher, it's because you are using more electricity ... but you are paying 35% less per kilowatt hour than were electric users in 1940.

What other major product or service do you use that costs 35% less than it did in 1940?

EASY FRANKFURTER DINNER

Dice and cook enough potatoes to make four cups. In a Dutch oven heat two teaspoons butter or margarine. Add one-half cup sliced onion and one pound of frankfurters, sliced. Cook and stir about 15 minutes. Drain, cut, rinse and drain again in one pound can of sauerkraut. Add to the frankfurter mixture. Stir in one

teaspoon paprika, two teaspoons caraway seed and the cooked potatoes. Heat well. Sprinkle with parsley. Serve with sour cream to six. **The Times-News will pay \$5 each week for Magic Valley favorites.** If you have a favorite recipe, just mail it to the Recipe Department, Women's Page Editor. The recipe becomes the property of the Times-News and cannot be returned.

TWIN FALLS — Dr. and Mrs. Gene Groshart, Worland, Wyo., announce the engagement of their daughter, Deborah Jo, to Thomas Guy Bailey, both Twin Falls.

He is the son of Mrs. R.E. Bailey and the late Robert Bailey, Worland.

Miss Groshart received her B.A. from the University of Wyoming in 1973 and is presently teaching third grade in Twin Falls.

Bailey attended Amarillo College, Amarillo, Texas and studied court reporting in Denver. He is presently employed with the Fifth Judicial District Court in Twin Falls.

The wedding will take place June 22 at the United Methodist Church in Worland, Wyo.

DEBORAH GROSHART sets date

Mini-concert set

TWIN FALLS — The District V Junior Music Clubs Gold Cup Award presentations and mini-concert will be at 7:30 p.m. Thursday at the YM-YWCA auditorium. Gold cups and certificates will be awarded to musicians meeting requirements through performances in the Twin Falls music festival.

Performers include Mark Newirth, Kimberly, piano; Mark Cheslik, guitar; vocalist, Sheri Brown, Twin Falls, dance; and Marie LeClair, Twin Falls, dance; all winners of college scholarships. Summer music camp scholarship winners participating are Merrilee Bradshaw, Kimberly, vocalist, and Jerry Whitman, Twin Falls, dance.

<p>East-West vulnerable</p>				<p>West North East South Pass Pass Pass Pass Opening lead — 3♦</p>			

By Oswald & James Jacoby
Here is another Belladonna hand that shows the advantage gained by defender in holding back his ace of trumps. Unlike other aces that are sure to win a trick whenever it is played.

West opens the three of diamonds against South's four-heart contract. You East analyze the lead as fourth best from a four or five-card suit. You Review the bidding and assume that South has seven hearts. He also holds at least three diamonds so you can score three diamond tricks if your partner holds the king. Your first impulse is to play

do this declarer will discard his last diamond on dummy's spades and make an overtrick. If you don't lead trumps he will ruff his third diamond. Then what can you do?

Just lead your low trump! If South leads a second diamond your partner will win and play his last trump. Your ace of trumps and 10 of diamonds will set declarer.

All other lines of play will also leave him one trick short. That lead of the low trump has cooked his goose.

CADENCE

The bidding has been: 13

West North East South
Pass 2♦ Pass 3♠
Pass 3♦ Pass ?

You South hold:
A K 9 8 7 A 2 ♦ K 4 ♠ 9 8 7
What do you do now?

— Bid three hearts. Your partner showed strength by his two-diamond call. He is now showing a strong diamond suit. Some further forcing bid is indicated.

TODAY'S QUESTION
Your partner continues to three notrump. What do you do now?

Parks expect record turnout

WASHINGTON (UPI) — The National Park Service expects a record turnout at America's national parks this summer, but the services may be less. Chief Gary Everhardt says there are more parks with the same amount of money and people.

"The standard of service the visitor has known in previous years may not be as high this year in the 31 million acre park system which could double soon with the addition of new land in Alaska," Everhardt said Monday.

In 1974, about 217,437,600 visits were recorded at national parks. The fiscal year 1975 budget called for \$403.9 million for operation and care.

"We are operating more parks (this year) with essentially the same amount of money and personnel," Everhardt said.

To make vacations in the parks more successful, Everhardt said, visitors should learn before leaving home

about the requirements for using parks. More than 20, for example, require backcountry permits for wilderness areas.

"So whether you are interested in the right kind of hiking gear for Yosemite or want to know if your mother-in-law needs a fishing license on Yellowstone Lake, the time to find out is before you leave home."

Everhardt said the approaching Bicentennial is increasing problems. Congress earmarked \$9.1 million for Bicentennial activities and National Park Service expenditures will have an Eastern bias because of it. He said Independence Park in Philadelphia would be "the focal point of the Bicentennial period."

The lush West Coast and western forests now dominate the timber industry, National Geographic says. But in a decade, foresters predict, the South will take the lead with its vast pine forests.

LINDA RUPPRECHT
...valedictorian

LINDA JOHNSON
...salutatorian

Girls top Filer '75 graduates

FILER — Linda Rupprecht and Linda Johnson have been named as valedictorian and salutatorian of Filer's 1975 High School graduating class.

Miss Rupprecht is the daughter of Mr. and Mrs. William Rupprecht. She is a member of the National Honor Society, was class secretary-treasurer during her sophomore and junior years, and has served as student body secretary-treasurer.

She is a member of the marching band, concert band, pep band, and has received two letters for band. She was girls volleyball secretary for a year, YMCA Youth Legislature, where she served as reporter in the 1974 sessions.

She plans to attend the University of Idaho this fall and major in chemical engineering.

Miss Johnson is the daughter of Mr. and Mrs. Ted Johnson. She belongs to the concert and marching band, was a junior varsity and varsity cheer leader, member of drill team, Girls' League and National Honor Society.

She belongs to the Dedolomai Society, is also a member of the F Club, is Ski Club secretary and serves on the yearbook staff.

She was selected Key Club Sweetheart, football Homecoming Queen, is active in volleyball, basketball and the track team. She was a Girls' State delegate last year.

She plans to attend the college at Pocatello or Boise.

246 lose licenses during April

BOISE — Of the 316 drivers who lost their licenses in Idaho during April, 105 were in charge of driving while intoxicated.

Suspensions for Magic Valley drivers by counties as listed by the Department of Law Enforcement include:

BLAINE — Lorraine — Owner — Kelchum; James Gregory Kaylor; Halley, and Richard Edward Lindsay, Sun Valley, all driving while intoxicated; Carolan P. Knott, Kelchum; chemical test refusal; and Cameron S. Cooper, Sun Valley, accumulation of violation points.

CASSIA — Nick Gurule, W. Norwood Jones and Joel Lorenzo Meacham, all Burley, all driving while intoxicated (Meacham and Jones have completed suspension time), and Kevin Dee Banner, Burley, accumulation of points.

ELMORE — William Joseph Schaffner, Mountain Home, (time completed), drug racing.

PEROME — Linda Sue Hall, Michael Eugene Jackson, both Jerome, both driving while intoxicated; Frank Edward Vigil, Jerome, reckless driving; and Barry William Bruckner and Deborah Dawn Cooley, both Jerome, both violation of restrictions.

GOODING — Everett Dean Arntsen and Oscar Frank Measel, both Hagerman, both driving while intoxicated; Patrick James Higginbotham and Ron Winfred Pearce, both Woodell, both accumulation of violation points, and Ron Winfred Pearce, failure to appear.

LINCOLN — Jose E. Garayon, Eldon O. Heath and John Richard Thomas, all Shoshone, and all driving while intoxicated.

TWIN FALLS — Steve John Aamodt (time completed), Alene Lucille Dalrymple, Kenneth Edward Green, John Wilkes Thompson and Thomas W. Warden, all Twin Falls, and Dixie Lee Lea, Edna, (time completed), all driving while intoxicated; Danny Allen Davis (time completed) and Calvin Ray Jensen, both Twin Falls, both drag racing; Randolph Hamilton Colston, Buhl, chemical test refusal; Herman Wade Scheraman, Gaston, accumulation of violation points; Terry Jay Greene, Filer, violation of restriction; Thomas LeRoy Kelley, Twin Falls and Eugene Carrill Widmer, Kimberly, both revocations and Wayne J. Bennett (time completed), Kimberly, failure to appear.

Curry Kids make plans

TWIN FALLS — The Curry Kids J.H. Club made plans to participate in the Junior Polled Hereford Day June 7 during its meeting Friday.

The Hereford event will be at the C.J. Boss ranch. Club members also discussed fair decorations. Holly Schoraman and Darlene Tuma were appointed to the demonstration committee.

The next meeting will be May 30 at the Maurice Allen home.

FORECAST FOR WEDNESDAY, MAY 14, 1975

GENERAL TENDENCIES: The early part of the day finds it possible for you to impress others with your charm. But the remainder of the day some of them may feel imposed upon. Maintain kindness and smile.

ARIES (Mar. 21 to Apr. 19) Morning is quite apt to be happy for you but later the tide turns, so remain steadfast and do nothing unwise.

TAURUS (Apr. 20 to May 20) The morning is a good time to come to a fine understanding with associates. Your friends can give you important data.

GEMINI (May 21 to June 21) Listen to what a business expert has to suggest. Find a way to increase your abundance. Make the evening enjoyable at home.

MOON CHILDREN (June 22 to July 21) Take the time to improve your appearance and get rid of that feeling of being inadequate. Strive for happiness.

LEO (July 22 to Aug. 21) Come to the aid of a friend who is having a difficult time now. Attend to your duties with enthusiasm. Think constructively.

VIRGO (Aug. 22 to Sept. 22) Forget recreation for the time being and stick to important business matters. Make your environment more charming.

LIBRA (Sept. 23 to Oct. 22) Handle important career work early in the day but don't step on the toes of co-workers. Postponing civic work is wise now.

SCORPIO (Oct. 23 to Nov. 21) You receive a message in the morning that is to your liking, but don't let it interfere with the work at hand. Be wise.

SAGITTARIUS (Nov. 22 to Dec. 21) Handle important responsibilities early in the day. A heart-to-heart talk with mate brings fine results tonight.

CAPRICORN (Dec. 22 to Jan. 20) First converse with associates and then do the work expected of you. Sidestep one who opposes you. Relax tonight.

AQUARIUS (Jan. 21 to Feb. 19) Come to the right understanding with fellow workers early and then carry through with your part of the bargain.

PISCES (Feb. 20 to Mar. 20) Attend to your obligations early in the day. Budget your money expenses in connection with business and pleasure.

IF YOUR CHILD IS BORN TODAY... he or she should be given a good education-along practical lines in order to insure security and prosperity later in life. The field of investigations is fine here, whether male or female. Be sure to give ethical training early in life.

"The Stars impel, they do not compel." What you make of your life is largely up to YOU!

GASOLINE ALLEY

what's what

L.M. Boyd

You've heard about the British exchequer? Originally, a checked tablecloth was used in that office as a calculating device. It was the tablecloth that gave the exchequer its name.

THAT VODKA is now the No. 1 liquor in sales nationwide has been reported. With bourbon a close No. 2. That's not true among those snazzy fellows known as executives, however. Scotch is their No. 1 drink, far and away. Their No. 2 is gin.

EVERYBODY knows that item of a feminine apparel known as bloomers was named after Amelia Bloomer. But few know that she absolutely refused to put on a pair of those things in her last 33 years of life.

SICK CALL

That time of the week when hospital emergency rooms get the most business, pollsters say, is Monday morning. They say further that a lot of the patients seem not all that sick, but just don't want to go to work.

CANT NAME those explorers who took their dogs with them to Antarctica, but evidently they goofed in doing so. Report now is that feral dog packs thereabouts are endangering the penguin colonies.

PISCES MEN are said to be somewhat economy minded. Not tight, exactly. But they want to know where their pennies go. If they don't flout give up, they tend to be pretty good managers of the household budget. Or so say the stargazers.

THE LAW

An ordinance in Brewton, Ala., specifically requires all people on city streets there either to walk or to ride. Imagine it's aimed at preventing them from sleeping, crawling or just standing around, don't know.

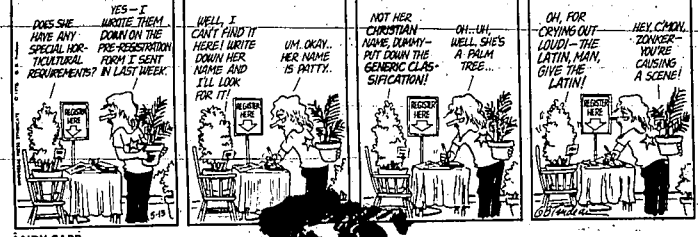

THAT GREAT billiard champion Willie Masconi never plays the game unless he's wearing a jacket. Says he: "You just can't project the image of a prestige game in your shirt sleeves."

DON'T CARE how much yeast you put in that bowl, if you give it sufficient food and care at a temperature of 85 degrees F; it should gain weight by more than 2,000 times in 24 hours.

THOSE MATRIMONIAL experts now purport to know for a fact that one out of every 100 married women becomes expectant by a man other than her husband.

farm

Filer FFA elects

FILER - Brian Armes has been elected president of the Filer Future Farmers of America for the 1975-76 year.

Labor bill over toughest hurdle

SACRAMENTO, Calif. (UPI) - Gov. Edmund Brown Jr. has struck an historic accord between growers and United Farm Workers leader Cesar Chavez which may end strife and violence in the state's \$10 billion farm industry.

Grain sales over expectations

By BERNARD BRENNER UPI Farm Editor... WASHINGTON (UPI) - Despite some recent cancellations of export orders for wheat and corn, foreign sales contracts currently on the books remain at or beyond government forecasts...

million bushels worth of corn, including nearly eight million bushels earmarked for the Soviet Union... The report said the Soviet Union is planning to expand its grain storage capacity by 40 million tons...

Soviet affairs, meanwhile, said a report in another department publication today... over reserve stocks of grain from year to year...

Retailers cautioned on rules

BOISE (UPI) - Retailers offering pesticides for sale have been cautioned by the Idaho Department of Agriculture to require assurances from wholesale distributors...

The Soviet Union canceled a corn order, reportedly because of quality complaints... An agriculture specialist in Longmont, Colo., said...
