## today in brief

### Henry says monitor cost low

WASHINGTON (UPI) — Secretary of State Henry A. Kissinger told Congress today the cost of stationing American civilians in the Sinai to monitor electronic surveillance equipment would amount to no more than "a few hundred million dollars."

In testimony before the House International Relations Committee, Kissinger also said the number of American personnel needed to man the stations at the Mitla and Gidi passes would never climb above 200.

### More accords?

BEIRUT, Lebanon (UPI) — Egyptian Foreign Minister Ismail Fahmi said Sunday a second Syrian-Israeli military disengagement agreement was imminent and would be followed by a similar move on the Jordanian front.

Fahmi also said in an interview with the weekly magazine Monday Morning that the Geneva Middle East peace conference would be reconvened before the end of this year.

### NY teacher talks in recess

NEW YORK (UPI) — Talks aimed at averting a teachers' strike Tuesday that would affect 1.1 million school children recessed early today in a pessimistic atmosphere.

Negotiators for the 80,000-member United Federation of Teachers (UFT) concluded a two-hour caucus at 5:30 a.m. about an hour after talks with city school officials adjourned.

### Paris gunmen demand big ransom

PARIS (UPI) — Two youthful gunmen wearing hoods and carrying gas masks held up a Paris bank today during the lunch-hour rush, seized seven hostages, and demanded about \$1.2 million in ransom.

Police said the raiders apparently decided to seize the hostages and barricade themselves inside the bank when they panicked after seeing a police car cruise by on routine patrol after they assaulted the Credit Industriel et Commercial bank.

### Works for Ford

DALLAS (UPI) — Sen. John Tower, R-Tex., says he will concentrate on winning his state for President Ford, but not necessarily for Vice President Nelson Rockefeller.

"Our focus is on the President," said Tower, who is expected to head the Texas committee for the President. "Nobody runs for vice president. What we're doing is bringing together the people who are for President Ford."

### Lebanese factions war in streets

BEIRUT, Lebanon (UPI) — Rival political and religious factions fought pitched street battles with machine guns, bombs, rockets and mortars today in the city of Tripoli, setting off a new political crisis between feuding leftists and rightists.

Police said at least 31 persons died and 75 were wounded since fighting escalated Sunday and Monday and the toll was expected to rise "many times."

### Price OK asked

WASHINGTON (UPI) — Sen. Charles Percy, R-Ill., Sunday asked the Federal Trade Commission to override laws in 36 states which prohibit advertising the price of eyeglasses.

Percy said that in states which have such laws, including Illinois, many persons pay up to twice what they should for eyeglasses.

### Milan bank helst hostages freed

MILAN, Italy (UPI) — A band of bandits surrendered and released 16 hostages held inside a Milan bank today without carrying out a threat to kill the captives one by one unless they received a \$300,000 ransom.

### Bolse man dies in Elmore crash

HILL CITY, Idaho (UPI) — Clarence J. Rigney, 67, Bolse, died late Friday night in a one-car accident on Highway 64 near Cal Creek summit.

Elmore County sheriff's officers said Rigney's car apparently went off the road and hit the large rocks at the viewpoint near the summit. There were no witnesses to the accident.

### Boston cops, busing foes clash

BOSTON (UPI) — Crowds of antibusing demonstrators showered riot-garbed police with rocks and bottles near Charlestown High School today at the start of Boston's second year of a federally ordered classroom desegregation program.

At least 80 persons were arrested. Seventy-four were part of a protesting group stopped near South Boston High. Two persons were jailed after the Charlestown incidents, including one accused of assaulting a police captain.

There were no serious injuries.

"It's been a wonderful morning," said Marian Fahy, acting school superintendent. "We believe that it is a beginning. I am confident this year will really be a landmark."

School officials said they were considering contingency plans to deal with the dismissal of classes in the afternoon. They would not comment on attendance, although observers believed it to be off sharply from projected enrollment.

Police pushed and shoved crowds away from Charlestown High near the Bunker Hill monument following two major incidents of rock and bottle throwing. Occasional objects con-

tinued to be hurled at the helmeted police as they kept Bunker Hill Street clear with their riot batons, motorcycles and horses.

The first incident involved an estimated 300 demonstrators who gathered in a housing project a block downhill from the old granite school, which was not involved in the opening phase of desegregation last fall. The crowd taunted police, pelted them with rocks and tossed a burning effigy of a black man off a building.

Teams from a task force of 300 police guarding Charlestown High broke up the crowd, under the personal direction of Police Commissioner Robert J. DiGrazio. Police in formation swept along neighborhood sidewalks to keep crowds from forming. There were no immediate reports of injuries, but at least one person was arrested.

When the Charlestown crowd refused to disperse, 40 members of the tough Tactical Police Force, 40 metropolitan police and 30 officers on motor scooters moved in. They were joined by a squad of US marshals who shot their neckties, donned black gloves and riot helmets and armed themselves with clubs.

### Guarding bus runs

KENTUCKY National Guardsman watches as a student at a suburban Louisville high school climbs off a bus today as school began. Armed guards rode each bus, and there were no reports of incidents although four plights of protests and arrests preceded the start of school. (UPI)

## Ford oil control veto due Tuesday

WASHINGTON (UPI) — President Ford Tuesday will veto the bill extending domestic oil price controls for 30 months and congressional leaders predicted today the presidential rejection will be upheld.

White House Press

Secretary Ron Nessen said Ford is confident the Senate will sustain his veto.

"If he (Ford) gets a reasonable assurance Congress will approve phased decontrol of oil prices over a 39-month period, he will support a 45-day extension measure to work out a compromise," Nessen said.

Ford met with Democratic and Republican congressional leaders to discuss energy policy and the oil pricing controversy, in particular. The President met earlier with a group of nine Senate Republicans on the same subjects.

"The President is going to veto (the bill) tomorrow and he is confident when the vote in the Senate rolls around there will be the votes to sustain," he said.

House Speaker Carl Albert

## Successful TF Fair sets all-time attendance mark

PHILIP — Nearly 70,000 people went to the Twin Falls County Fair, an all-time attendance record.

According to fair Secretary-Manager Tom Shouse, 69,519 attended, about 5,000 above last year's record attendance of 64,619.

The four-day event was a "success in every way," according to Shouse.

Saturday's attendance was 19,853, the highest of the four days and an increase of 1,600 over the same day last year. Each day's attendance showed a large increase over the same day last year.

Shouse said every department showed an increase this year, except beef cattle, where there was a downward trend for the first time in 11 years. Fair board members believe this is

due to the economy and the low price of cattle, which makes it too expensive for many cattle breeders to bring their stock in for showing.

Shouse said:

"We have had small problems always crop up, but each year, the board tries to solve them for the coming year. The board will meet in a week or two and begin planning for next year's fair, which will have a bicentennial theme. The board plans a number of changes in rules, Shouse said."

Mike Gray, fair board president, also expressed his pleasure with the fair's success and said fair board members welcome suggestions from the public as well as from department superintendents on how to make next year's fair bigger and better.

## CIA probe executive meet off

WASHINGTON (UPI) — The Senate committee investigating U.S. intelligence activities capped an executive session today because of other business, but still plans to begin public hearings next week.

Sen. Frank Church, D-Idaho, chairman of the Senate Select Committee on Intelligence which has been investigating the Central Intelligence Agency since January, said the public sessions would cover a "very important subject which has not yet come to light."

Despite the cancellation of today's session, a subcommittee drafting agreement on alleged assassination plots involving the CIA continued its work.

Senate Republican Leader Hugh Scott, who attended the leadership meeting with Ford, said the President made a "very impassioned plea" for a compromise and said he was willing to give the Senate and House more time to work out an alternative program.

"Damn it, we have to find a way to make the system work," Scott quoted Ford as saying. "It can work and I'll be at your service 24 hours a day if it's needed to work out a compromise."

Scott claimed the administration has the Senate votes to sustain the veto.

Senate Democratic Leader Mike Mansfield said "well, it's tough and go."

## Missing TF man found in canal

TWIN FALLS — A Twin Falls man who had been missing nearly two weeks was found dead Sunday inside his pickup truck submerged in a canal southeast of here.

E. D. Taylor, 64, had been missing from his home since about 1 p.m. Aug. 28. The submerged pickup was located when Orval Hamilton, Twin Falls, saw a light-colored reflection in the water of the Highline Canal and called officers early Sunday morning.

County Coroner Cloyce Edwards said Taylor drowned. He estimated Taylor had been in the water at least five days. No inquest or autopsy is planned, Edwards said.

Twin Falls County Sheriff Paul Corder said Taylor had been using medication and was subject to periodic blackouts. Corder said he felt the drowning was "an accidental thing."

Hamilton told officers he had been up and down the canal bank several times, but hadn't noticed the reflection of the submerged pickup because of cloudy weather and high water. The truck was found about five miles south, one mile east and another three quarters of a mile south of Twin Falls, several hundred yards up the Highline Canal, Corder said.

### Honoring Indians

WITH HIS dog Smokey standing watch, sculptor Peter Toth cuts the face of an American Indian from the trunk of a 100-year-old elm tree. Toth plans to celebrate the nation's bicentennial by erecting monuments to the Indians in all 50 states. (UPI)

## GOP panel gives KC nod for '76 convention site

WASHINGTON (UPI) — Republican National Committee today unanimously approved Kansas City, Mo., as the site of the 1976 GOP National Convention, starting Aug. 16.

The National Committee ratified the choice of the site selection panel which Sunday night gave Kansas City the nod over Cleveland.

Despite a tight housing situation, the site

selectors believed Kansas City would be better able to handle 15,000 to 18,000 Republicans and convention visitors expected for the bicentennial nominating convention.

"We are confident that we will provide the hospitality and the enthusiasm to put on a great convention," said Mayor Pro Tem Richard Berkeley, leader of the group that pressed Kansas City's bid in the final hours.

Reporting for the site selection committee, Vice Chairman Edwin Middleton of Kentucky said "there never was such a genuine display of hospitality and enthusiasm" as shown by Kansas City.

He said that the housing, which would include as many as 2,500 rooms an hour's travel time away, would provide "some inconveniences, but unhappiness, we think not."

**Mr. T-N says**

Will the GOP adopt 'Missouri Waltz' as its convention theme song?

## Swimmer rescued following seizure

TWIN FALLS — A 24-year-old man nearly drowned Sunday after apparently having an epileptic seizure while swimming at Banbury Hot Springs pool.

He was reported in serious condition at Magic Valley Memorial Hospital today.

The Hagerman area, recently moved to the River area, was pulled from about 5 feet of water at about 5 p.m. by lifeguard Dale Bell. Rivera had been underwater only "momentarily," Bell said.

Mouth-to-mouth resuscitation was administered by Bell, aided by his wife, Lita Bell. Rivera was partially revived and breathing on his own when an ambulance arrived, Bell said.

Sheriff's reports Dale Rivera suffered an epileptic seizure in the ambulance on the way to the hospital and say the man had a "long childhood history of seizures."

## Burley man faces count

BURLEY — A charge of assault with intent to commit murder was lodged Saturday against Jesse James Gallegos, 23, Burley.

Gallegos is being held on \$30,000 bond.

Police said Gallegos allegedly beat up his wife, Virginia, Saturday evening. The said Mrs. Gallegos reported he then pointed a gun at her and pulled the trigger.

Mrs. Gallegos told police the 22 caliber pistol did not fire because there were no bullets in the gun. She said Gallegos then began searching for shells and she escaped.

Police were notified and arrested Gallegos at his home, at 10:15 p.m. Saturday.

# House GOP unit drafts 15 point legislative agenda for Congress

Washington Star  
WASHINGTON — A task force of House Republicans has drafted a 15-point legislative agenda that spells out what the party would attempt to accomplish if the GOP gained control of Congress, including a reduced governmental role in matters of the nation's economy.

The program, entitled the "Republican Legislative Agenda: A Program for Progress," calls for a balanced federal budget within three years and outlines — in broad, general terms — the goals of tax, social security, and welfare reform; of an overhaul of the governmental bureaucracy; and of a comprehensive energy conservation and development program.

The agenda, which was adopted unanimously last week by the House Republican

Policy Committee, closely parallels traditional Republican policy and is pegged on a scaled-down federal role in society and more reliance on local government and private enterprise.

"We believe that at this time in our history it is essential the role of government be diminished — and emphasis placed on the encouragement of private enterprise," the policy statement says.

Although the House Republican agenda does not differ significantly from policy of the Ford administration or from GOP presidential platform of the recent past, it represents the first effort in memory by a congressional party with control of the White House to establish its own legislative program.

Historically, the president has set legislative policy and

diminished government role in attempt to rejuvenate the nation's sagging economy.

Development of a comprehensive national energy policy based on new production incentives for private industry, a relaxation of government regulations and restrictions on development and pricing and stepped-up research and development of new energy sources.

Welfare reform kept purging rolls of ineligible recipients, strengthening work requirements, and tightening eligibility requirements.

Consolidation of federal education programs, eliminating those that are ineffective.

Federal tax reform geared toward simplifying tax preparation, discouraging tax evasion, bringing "equity" to the tax system and providing incentives for economic growth.

Continuation of federal efforts to aid localities in crime-fighting efforts and enactment of legislation setting mandatory sentences for habitual offenders and individuals convicted of crimes involving violence, use of firearms, or hard-drug trafficking.

A crackdown on illegal aliens entering the United States.

Continued improvement of the U.S. military capability "until disarmament becomes a reality."

Although Rhodes had indicated previously that the 33-member task force that drew up the GOP agenda would propose specific legislation in many cases, the finished proposals are closer to general statements of principle.

The Republican leader said that the task force decided on this approach during its work because it would be more easily understood than specific legislative proposals and because, with his party's current one-third minority in the House, "there is no way we can enact this program at the present time."

## Dateline 1775

By United Press International  
LONDON, Sept. 8 — King George decided that Adm. Graves would have to be replaced as commander of the British naval forces in the colonies. Graves was accused of lethargy in the face to rebel attacks on his Majesty's ships and the King concluded the command could "no longer be left in improper hands."

In a recent interview, Rhodes said Ford had reviewed the finished program and "has no objection to it."

In an introduction to the legislative agenda, Rhodes characterized his aim as one "Providing the American people with a solid notion of what they could expect from a Republican congress" and said the proposed program "represents our best recent effort to take a realistic look at where America should strive to go during the coming critical years."

Among the House GOP proposals are these:

A renewed dependence on private enterprise and a

CROWNED Saturday night were Miss America, Tawny Elaine Godin, 18, of Saratoga, N.Y., left, and Helen Ford, 22, Hattiesburg, Miss., as Miss Black America, right. They will wear their crowns during the nation's biennial year after being chosen in Atlantic City, N.J., and Gary, Ind., respectively. (UPI)

## Double postal subsidy sought

WASHINGTON (UPI) — Postmaster General Benjamin Ballar today proposed that Congress double its present \$20 million subsidy to the Postal Service, so stamps do not have to become too expensive for some mail users.

Ballar said the current subsidy is worth less now than in 1970, when Congress authorized it as part of the act creating an independent Postal Service a "self-

supporting" agency to replace the old Post Office department.

Ballar, addressing a three-day national postal forum, predicted there will be continued pressure for rate increases following new hikes scheduled to become effective after Christmas. The scheduled increases will up the cost of a first class letter from 10 cents to 13 cents per ounce.

Ballar said these pressures "have raised justifiable concern lest the price of postage rise beyond the reach of some Americans and impede the free flow of ideas and information."

Part of the \$20 million subsidy was intended to allow delays in making certain lower cost mail rates, such as those charged for magazine subscriptions, self-supporting. The subsidy is intended to give such mail users six to eight years to become self-supporting, and avoid giving them an unduly abrupt mail rate increase.

Profit making publications have until 1979 and nonprofit publications until 1987.

Another part of the subsidy is earmarked for services that cannot be made self-supporting, such as meeting public demand for small post offices in some areas where they cannot pay their own way.

Ballar proposed that an extensive study be made to redefine the service his agency is supposed to give.

"These proposals are a departure from what some have seen as the approach to a self-sufficient Postal Service," Ballar said. "But I am convinced that their enactment would be beneficial to the future of the Postal Service as an effective public service agency."

## Valley obituaries

**Ellis C. Armstrong**  
TWIN FALLS — Ellis Charles Armstrong, 71, Twin Falls, died Saturday at the Valley Memorial Hospital after a long illness.

Born May 14, 1904, at Circleville, Kan., Mr. Armstrong worked for the Intermountain Fuel Co. for 12 years and also worked on farms. He was a member of the United Methodist Church.

He was married to Alice Hundley in Holton, Kan., on Feb. 15, 1925.

Surviving are his wife; seven sons, Kelly Armstrong, Charles Armstrong, Raymond Armstrong, Kenneth Armstrong, and Monty Armstrong, all Twin Falls, Donald Armstrong, South Bend, Ind., and Jerry Armstrong, Beloit, Wis.; a daughter, Karen Hawkins, Bellevue, a step-daughter, Evelyn "Evvy" Brink, Twin Falls, and five grandchildren and six great-grandchildren.

Mr. Armstrong was preceded in death by two sons.

Funeral services for Mr. Armstrong will be at 2 p.m. Thursday at the White Mortuary Chapel. Burial will be in Twin Falls Cemetery.

**Eldred D. Taylor**  
TWIN FALLS — Eldred DeForest Taylor, 64, Twin Falls, Route 2, died Aug. 28 in an accident.

Born July 31, 1911, at Jennings, La., Mr. Taylor moved to Idaho in 1927 and had farmed on the Salmon Tract for the past 40 years. He was married to Velda Lenz on May 30, 1939.

Surviving are his wife; a daughter, Mrs. John (Naida) Kelleher, Portland, Ore.; three sons, Marvin Taylor and Evan Taylor, both Twin Falls, and Melvin Taylor, Bryant, Ark.; two sisters, Mrs. Larry (Winona) Loyd, Keetchum, and Mrs. Norman (Orville) Dudley, Roseburg, Ore.; two brothers, Olanda Taylor, Heyburn, and Kenneth Taylor, Wells; Nev. There are nine grandchildren.

Mr. Taylor was preceded in death by an infant daughter, Shirley, and by two brothers.

Funeral services for Mr. Taylor will be conducted at 2 p.m. Wednesday at the White Mortuary Chapel with the Rev. Ray Jones of the First Christian Church officiating. Burial will be in Sunset Memorial Park.

**Funeral services**  
HAGERMAN — Funeral services for Miss Naomi Sowersby, 66, Hagerman, who died Friday, will be conducted at 10 a.m. Tuesday at the Thompson Chapel. Burial will be in Mountain View Gray, Fairfield.

**TWIN FALLS** — Private graveside services for Joseph Allison Owings, 77, Twin Falls, who died Saturday, will be conducted at 1 p.m. Tuesday at the Sunset Memorial Park by Ray Thompson, minister of the First United Methodist Church. Friends may call at White Mortuary this evening.

**Funeral services**  
GODDING — Wood River Valley 22 LAPM and Canton will meet in regular session Wednesday at the Gooding Oddfellows Temple. A meeting will be followed by a meeting which begins at 8 p.m.

**SHOSHONE** — First fall meeting for Opal Rehobek lodge will be at 8 p.m. Tuesday at the IOOF Hall. Meetings will be each second and fourth Tuesday of the month unless otherwise designated, according to Mrs. T.V. Strunk, secretary.

## Credit proposals sure to stir row

WASHINGTON (UPI) — Federal Reserve Board proposals on credit procedures published today are sure to start a row about sex discrimination.

Rep. Frank Annunzio, D-Ill., accused the Fed of trying to thwart the intent of Congress when it enacted the Equal Credit Opportunity Act.

As set forth by the Fed for publication today, banks and other credit services could ask women about their child bearing plans and could decline to tell persons why their applications for credit have been refused.

Although the act called upon lenders and in credit extending agencies to keep records for two years on loan denials, the Fed regulations shaved this to 12 months.

Under the law, banks may not specifically disallow the income of a wife or ask about birth control but banks can request an appraisal of the chance the woman's income will be interrupted by child bearing.

Annunzio said the Fed regulations implemented the provisions of the new act too slowly. Annunzio is chairman of the House Consumer Affairs Subcommittee. He said the Fed was even more generous in allowing delay of implementation than industry groups had requested.

The regulations, after publication today, will be opened for public comment and possibly alterations.

Annunzio said the law required implementation of provisions by Jan. 31, 1976, but the Fed regulations call for full implementation as late as Nov. 1, 1976. The Congressman said the Fed was "playing pique" for business interests who had opposed passage of the Equal Credit Opportunity Act.

**Question**  
Is it possible that the incidence of teenage suicide is increasing or am I just more sensitive concerning these situations?

## services - briefs

**Funeral services**

## W. Virginia miners head back to pit

CHARLESTON, W. Va. (UPI) — A major back-to-work trend developed in the southern West Virginia coalfields today with little picketing reported by dissident miners who have been demanding the right to strike without threat of federal court injunctions.

"It's just about a full return," said Ronald Lester of Beckley, a subdistrict officer in the United Mine Workers District 20, largest in the union.

However, there were pockets of resistance to the return-to-work sentiment voiced by UMW members during the week.

The Westmoreland Coal Co. mines at Clabber in Logan County remained idle, and the No. 117 mine at Ferrell had only a partial crew working, a Westmoreland spokesman said.

The large Keystone No. 1 mine in McDowell County was reported working, but three other McDowell mines were shut down. Lester said these shutdown mines were shut down by local "issues" and indicated the workers there were not an extension of the long strike.

"We're all working," said an Eastern Associated Coal Corp. spokesman at Beckley.

"No" disturbances were reported by police agencies during the night, although pickets showed up at a few installations on early shifts today.

**HUGH C. PHILLIPS**  
-Manager

**Question**  
Is it possible that the incidence of teenage suicide is increasing or am I just more sensitive concerning these situations?

**Answer...**

Suicide is increasing among children, young adolescents and older teenagers. Dr. Reginald S. Lourie reported in an issue of the St. Louis Children's Hospital publication "Clinical Proceedings." Child suicide, he said, is not a new problem but it is a growing one. Impulsiveness, aggressiveness, and revenge or spite are the primary motivating factors in adolescent suicides according to Dr. Lourie.

Dr. James Jan-Tsueh reported to the American Association of School Administrators that his findings indicated loneliness, lack of participation in group activities, and failure to identify with a class friend to be major factors in this unnecessary waste of human lives.

Both men agree that in order to identify with a class friend the student had given ample warning evidence of his distress. With community effort and understanding the incidence of suicide among adolescents in the future should eventually show a significant downturn.

## Economic dialogue at UN dragging on

UNITED NATIONS, N.Y. (UPI) — Delegates to the U.N. General Assembly's special session reached the midpoint of their economic dialogue today with little hope they can finish their experts by week's end.

Economic experts from all 138 member countries scheduled private meetings as a committee charged with combining three major programs and putting them into working form.

The delegates said it was unlikely that work could be completed on an agreed economic program by the session's end Friday.

British experts believed the dialogue going on here between rich and poor nations would continue for a decade.

British Foreign Secretary James Callaghan proposed a streamlining body to sort out the work and eliminate duplication by the dozen or more world groups seeking to narrow the gap between rich and poor countries.

The expert committee has before it a position paper outlining 20 proposals and 17 statements of policy presented to the Assembly by the United States in a message from Secretary of State Henry Kissinger.

It also has draft program from the Group of 77 Third World countries and a third set of proposals from the nine member nations of the European Common Market.

BRING PEACE OF MIND back to driving with a safety-checked car.

## Answer...

Suicide is increasing among children, young adolescents and older teenagers. Dr. Reginald S. Lourie reported in an issue of the St. Louis Children's Hospital publication "Clinical Proceedings." Child suicide, he said, is not a new problem but it is a growing one. Impulsiveness, aggressiveness, and revenge or spite are the primary motivating factors in adolescent suicides according to Dr. Lourie.

Dr. James Jan-Tsueh reported to the American Association of School Administrators that his findings indicated loneliness, lack of participation in group activities, and failure to identify with a class friend to be major factors in this unnecessary waste of human lives.

# Cassia-Minidoka tax levies eyed

**BURLEY** — Commissioners of Cassia and Minidoka counties will take up tax levies for their various jurisdictions Monday.

Both Cassia and Minidoka commissioners will review district budgets for their respective counties in the light of 1975 real and personal property valuations. If the budgets appear to be within the limits of valuations, they will order determination of the levies.

The levy figures should be ready in both counties later in the week. They are to be sent to the state by Sept. 15.

Among the valuations before the Minidoka county commissioners will be the North Burley figures which caused some controversy Tuesday at the Burley City Council meeting.

The figure given the council by City Clerk E. E. (Bud) Brinegar was \$571,379, down \$1,100 from 1974. Councilmen doubted the decrease.

Minidoka County Clerk and Auditor August Bethke said that figure was in error. He said the county had not given Burley the 1975 real and personal property figure.

Bethke said the North Burley evaluation actually increased from \$572,479 in 1974 to \$589,945 this year. He said 1975 utilities-figures and sub-roll (the remainder of these items to be taxes) are not yet available and 1974 figures are used for levy calculations without creating significant differences.

The property valuation for Cassia County in 1975 is \$10,224,740, Oakley \$482,531, Declo \$218,940, Albion \$214,977.

Property valuations in all areas were up, primarily due to a market rise in land values and development of some properties. Assessed value is 17 per cent of market value in Minidoka County this year, compared with 16.5 per cent in 1974, as counties must reach 20 per cent by 1982 under state law.

Cassia County Assessor Calvin Helmer said the assessed valuation in that county will be 16.2 per cent of market value, also up half a per cent from 1974.

Valuations for cities in Cassia County are: Burley \$10,224,740, Oakley \$482,531, Declo \$218,940, Albion \$214,977.

and Malto \$145,058, for a total of \$11,224,248 in the incorporated areas.

Burley area school taxing district 151 has \$10,423,248. District 331 (Murtaugh area) has \$802,190, district 418 (near Power County) \$720,997 and district 381 (American Falls) has \$511,059.

The Burley highway district figure is \$30,030,957, Oakley \$3,727,170, Raft-River, \$4,678,636, Albion \$783,424 and Murtaugh \$582,181 in the county. There also is 90 miles of county road in the Elba-Almo area with a district valuation of \$655,125.

Cemetery districts include valuations of \$5,470,456 for Oakley Valley, \$1,958,037 for Valley View of Mallo, \$1,704,850 for View 10 miles southeast of Burley, \$1,628,959 for Udon and \$745,231 for Albion.

Fire district valuations show North; Cassia Rural with \$16,691,155, Ratt River with \$4,495,844, Oakley with \$2,413,284 and Albion with \$668,838. The Oakley library district shows a valuation of \$6,265,949.

County Clerk Frank Kearns said only one budget had not been turned in by late Friday. He said the county's own budget would be about the same as in 1974 except possibly for a slight rise in the current expense account.

The 1974 county-wide tax levy figures were 1.897 mills for the county, .3789 for general school fund and .0244 for the Southern Idaho Regional Airport Authority.

Bethke said late Friday that the Rupert cemetery, highway district and schools budgets had not been received but were expected for Monday's meeting.

Bethke listed city property valuations for 1975 as: Rupert \$4,202,593, Heyburn \$1,658,999, Paul \$763,281, Acequia \$94,220 and Minidoka \$75,497 for a

total of \$7,383,535 in the incorporated areas, over half a million dollars higher than in 1974.

The county fire district valuation is \$10,486,081 and the West End figure \$6,580,008.

Cemetery district valuations are: \$13,370,521 for the first district, \$6,864,212 for the second and \$5,423,634 for the third.

Library district valuation is \$3,076,116.

## Grand champion

# SETA public service plan praised by Burley clerk

**BURLEY** — City Clerk E. E. (Bud) Brinegar has high praise for the federal SETA II program of public service employment.

Brinegar is preparing a report on the program for the mayor and city councilmen, who requested it last week.

The city hired a total of 19 people under the program, 11 of them in general maintenance.

Others included two clerks for police, two clerks for the city clerk's office, a general mechanic in the shop, a purchasing inventory controller, a labor trainee in the water department and a man in the city planner's office.

Four are now on the city's payroll.

Brinegar said Friday that the largest allocation was \$60,646 for the federal fiscal year which ended July 31 of this year.

In a letter of thanks to the city for its time and effort with the program, Gov. Cecil D. Andrus said that 2,300 people were working in SETA public

service jobs in Idaho as of April.

"It has been a good program," said Brinegar. "In every instance the city got good from them."

Brinegar said the program also helped the employees; not only by getting them a job and paycheck but also giving them invaluable experience.

"It did a tremendous service to young people just out of school," Brinegar said.

Nine people on the program came from college to the job.

"They were good young people," he said, "sharp and able to communicate. They did a fantastic job."

Recreation Director Jack L. Keen, who had some SETA employees in his program, was just as enthusiastic.

Keen had a SETA II employee at the swimming pool and another in charge of the recreation program. He said out of a total of seven, five "did excellent jobs."

"We want first crack at them if we get a chance," he said, referring to those who had returned to school.

## Police probe burglaries

**TWIN FALLS** — Twin Falls police are investigating two burglaries reported over the weekend.

Steve Robinson told officers someone entered his apartment at 136 Ash, between 7 and 11 a.m. Sunday. He reported the loss of a camera, clothing, jewelry and watches, totaling

about \$346.

Greg Hoagland, Melba, was staying at the Blue Lakes Inn and reported a burglary of his car between 7 p.m. Saturday and 11:30 a.m. Sunday. He said items of clothing, dishware and several record albums were missing and estimated loss at \$159.

## Bones assembled

**GIANT BONES** of a rare Ice Age bison are being assembled by Dr. George E. Jakway at Idaho State University, Pocatello. He is a former Twin Falls resident.

## Ice Age bison studied

**POCATELLO** — Dr. George E. Jakway, a former Twin Falls resident, is fitting together the bones of an Ice Age bison found near American Falls Reservoir.

Dr. Jakway is working with the Idaho State University Museum in Pocatello. He says the rare bison is estimated to have been twice as large as a Hereford bull. The specimen is only the second example of this type found in North America with the skull and skeletal parts clustered together.

Dr. Jakway is an ISI alumnus.

## AUCTION

### ETHEL HOYER ESTATE AUCTION

**WEDNESDAY, SEPTEMBER 10, 1975**  
11:00 A.M. (Lunch at the Chuckwagon)

(located: 612 Hayes Drive, Twin Falls (Filler Avenue East to Lynwood Drive, left onto Fremont, right onto Hayes Drive — watch for orange AUCTION signs)

#### FURNITURE AND FURNISHINGS

DINING TABLE, oval, w/3 leaves, table pads; DINING CHAIRS, a designed spindle w/topstry seats; CHINA CLOSET and matching SILVER SERVICE SIDEBOARD; all matching dark solid hardwood, top condition — DINING TABLE, gate-leg dropleaf, solid hardwood with burlled insets — Old mahair sofa and chair, top condition — Pair silk brocade matching barral-style occasional chairs — Floral pattern barcade club chair and matching barral chair — Silk brocade green sofa, very nice — Duncan Phyle style coffee table — Telephone table w/hinged conversation seat — Large hardwood fern stand — Smoking Stand — Small oval hardwood occasional table — Ottoman — Several very nice china table lamps —

#### KITCHEN AND APPLIANCES

GE 40" 4-burner electric stove — Westinghouse washer — Westinghouse dryer — Electrolux Vacuum Kenmore vacuum — GE Refrigerator — Coldspot Chest Top freezer — Westinghouse Ironer — Electrolux wax mist sprayer-polisher — Fancy electric wall clock — Electric can opener — toaster — skiller — coffee pots — waffle iron — Irons — Small double leaf kitchen table; two chairs.

#### INTERESTING, UNIQUE and EVEN ANTIQUE

OAK Lovers — Book Case, 3-tier, very fine condition. — Several hardwood straight chairs — Beautifully carved ornate design OAK Singer treadle sewing machine D76805, works good too — Very old hand-drawn cabinet — Greatest of old butters — lots of design enamel tin boxes, various sizes and designs — China desk set (stamp dispenser, stapler, pencil sharpener, paperholder) — Lots and lots of bird figurines (Mrs. Hoyer was a collector and several are from other countries) — Two large wicker clothes chest from Java — Old wicker garden/patio table — Italian typewriter bedspread — Old RCA Victor table model wood — Old corded telephone — Green depression glass cake stand — erw-metal color, green glass knob — Feather beds — Swill Silverleaf-Brand Lord 50-gal drums wilds, 3 of these. —

#### MISCELLANEOUS OTHER

Fireplace screen, and iron set and set of fireplace tools — Dishes — Pats and pans — Corner — Silverware — Wall plaques — Lots and lots of sofa pillows — several size oval braided rugs — hooked large area rug; throw rugs — luggage — handbags — card tables — clothes hangers — mirrors — folding wooden kitchen stool — 3 shell kitchen cart — redwood picnic table and benches — 4 metal lawn chairs — metal chaise frame and pad — fruit jars — glass jugs — mops — brooms —

Cruet — 2 old wooden spindle floor lamps — Misc. older jewelry — Four large trunks — Roseville 18" vase marked '98 15' — Fur stole and fur stole and muff — Strain — Fancy blue smoke center — Humidor, match jar, ash tray, all on tray — Qu (pleated and quilted) — Porcelain — Silver salt and pepper shakers — Lots and lots of picture and frames — Many books, some very fine — China, 1 1/2 then Bohemia Czechoslovakia, Empire Johnson Bros Graydon China — Some very, very fine lace cloth hand crocheted items and fancy linens — Some old pocket watches —

— Xmas decorations — garbage cans — snow shovels — h tools, including saws, hammers, planes, hand drill, electric sander, iron, etc. — lawn cart and miscellaneous garden hand tools — glass-sippers and electric trimmers — electric lawn mower — many more items too numerous to mention that accumulated in a household over a period of 60 years of living. Don't miss this auction!

## Conclave planned

**BURLEY** — Involved will be the major topic at the 18th annual conservative convocation in cooperation through Friday at the Idessa Inn.

The conference is sponsored by the Idaho State Federation of Garden Clubs and the Federation of Women's Clubs in cooperation with the United States Fire Service and the Idaho Parks and Recreation Department.

"How You Become Involved" will be the theme according to Mrs. Ken Sadler, Burley.

Thursday will have a heavy schedule at the meeting.

## US economic slide shows sign of end

London Economist News Service.  
**WASHINGTON** — (LENS) — "We cannot take any more of the grant of President Ford warned his Republican audience in Illinois.  
 The administration's repeated forecasts that the economy would bounce out of its recession in the second half of 1975, with sufficient vigor to give 6.6 per cent growth in GNP throughout 1976, and perhaps even 1977, are being belied.  
 The second half of 1975 is already here, and the figures now coming through justify European's fears that the boom may be delayed for six months or more.  
 The slide in America's economy is certainly over. Industrial production, which had dropped by 13 per cent in the recession's course, has climbed in the past two months — but only very slowly, by about 5 per cent in July.  
 Worse, prices are on the rise again: both retail and wholesale indices rose 1.2 per cent last month alone. Mr. Ford has made it clear in his state of summer speeches that his administration continues to count control of inflation as a higher priority than recovery.  
 He backs the Federal Reserve's policy of forcing interest rates to rise (the prime rate is now 7.75 per cent) rather than risk an excessive growth in the money supply.  
 True, there has been a sharp increase in consumer demand. Retail sales rose in value by 2.5 per cent in July, the fourth successive rise and the biggest of the year. Car sales are sharply up: in response, Detroit's production increased by 5 per cent last month. So output of consumer

goods expanded in July at more than twice the rate for overall industrial production.  
 "This — has given rise to fears that the "recovery" may be a mirage caused by a burst of consumer spending from the \$16 billion tax rebates of earlier this year... The Organization for Economic Co-operation and Development takes the gloomy view of recovery. But its annual report was done in June, on the basis of largely first-quarter figures, at the worst of the slump.  
 There is no sign yet of an upswing in demand for capital goods, or in manufacturers' new orders. Demand for business loans remains slack.  
 Output of business equipment, consumer durables and construction materials is still dropping. The run on business stocks, which fell by more than \$4 billion in the three months May-July, has not yet triggered the expected rush of replacement orders.  
 Two bits of good news.  
 Housing starts, a favorite early-warning indicator, were up 14 per cent in July on the month before, though still at nearly half the starts averaged in the 1971-73 boom years. And unemployment has now come down to 8.4 per cent.  
 But it will be another two months before the post-1974 indicators show whether America's pulse beat indicates real recovery. The world will be watching. As long as the American economy remains sluggish the prospects for world recovery are equally bleak.

I HAVE GOOD NEWS AND BAD NEWS. THE BAD NEWS IS YOU'RE GOING TO BE BUSSED 'WAY ACROSS TOWN — THE GOOD NEWS IS THE TEACHERS ARE ALL ON STRIKE!

## Political freshets increase strength

**N.Y. Times Service.**  
**WASHINGTON** — The political freshets have begun to run; soon, streams of press releases will be coming from various camps and factions, each purporting to represent the mainstream, culminating — this month from now — in two mighty rivers of conventionalities, flowing vexatiously to the sea.  
 One freshet is the Citizens for Reagan headquarters here, presided over by lawyer John Sears, 35, who thinks "it's more like '52 than '64 — and this time Tall's a good-looking guy!"  
 Since political wisdom holds that the electorate tunes out politics between Thanksgiving and New Year, the Reagan campaign plans to get underway in late October or early November. The White House professes to be aloof and unconcerned, but the political operatives there are concocting and have reason to be.  
 That's because Reagan and his men swing easy, with little to lose and much excitement ahead. One of the first new brought aboard is a lawyer, Loren Smith — who prepped on James St. Clair's White House staff — to make sure nobody runs afoul of the new campaign laws, and a direct mail money-raising expert, Eberle Associates. (In the old days, the first aboard would be a speechwriter and a press agent).  
 They've just signed up a full-time pollster, Richard Wirthlin, whose California firm has one of those dynamic-sounding titles: Decision-Making Information.  
 Maybe it will all go nowhere, maybe it will go all the way. The grip of American politics is that nobody becomes somebody, somebody becomes has-been, and everybody gets another chance someday.  
 Consider John Sears. Few men of his years have ridden the roller coaster so far up and so far down. He began in the mid-sixties in the law firm of Richard Nixon, a studious conservative volunteering to work on speeches and position papers, later moving into the free-wheeling field of buttonholing delegates.  
 An easygoing and likeable young man, his illusions about kingmaking and his rewards

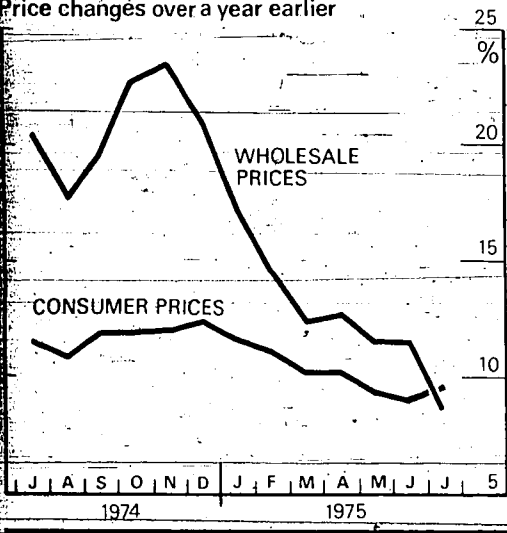

were shattered when a hard-eyed crew took over in the late sixties. As a member of the Price-Buchanan-Garment set who actually engineered the beginnings of the Nixon comeback, Sears found himself on the outside looking in when John Mitchell and Bob Haldeman became the ins.  
 Sears' friendly dealings with the press especially raised the ire of John Mitchell, who found such fraternization intolerable. In the White House, as it later was revealed, Sears was most egregiously wiretapped, and without the most remote justification of "national security."  
 When he became fed up enough to walk out of the White House, Sears could not have faced a bleaker political future. If Nixon stayed for eight years, as seemed so likely, Sears had no Republican opportunities; if the Democrats ever got in, he was not one of them; and the third-party route had no appeal. Sears was all washed up before he was thirty.  
 Now, in one of those turnings-of-the-wheel that typifies American politics, Sears lunches at Washington's Sans Souci restaurant, guest of a series of high-powered pundits, sprinkling his conversation with those delicious "no-for-attributions" and "deep backgrounds" that we all lap up with the sauce mienure.  
 I will go to my grave before revealing who told me this, but I have it from a "Key Reagan strategist" that the secret plan of the former California governor is to "manufacture momentum in the primaries" of New Hampshire, Florida and Wisconsin and win going away in the California primary, thereby capturing the nomination from a sitting President in the grand tradition of the candidates who ousted John Tyler, Millard Fillmore, Franklin Pierce, Andrew Johnson and Chester Arthur.

Some True Believers of conservatism, who would like to see a separate party, are using Reagan to duck the question that invariably gets asked — would he support whichever candidate the Republican party chooses? My guess is that Reagan will step up to it and declare his loyalty no matter what, that's really the only way a candidate is entitled to a seat at the poker table.  
 All this may sound like the usual political hot stove league stuff, but such talk is mother's milk to likes of Sears and young men like him, who share an excitement that drugs otherwise sensible people into the arena. They are as kamikaze pilots, either: if the effort aborts along the trail, the usual procedure is for the winner to pick up the best of the loser's staff to be a party warden.  
 The impermanence of defeat—the turnings of the wheel, the possibility of a comeback help make politics attractive. That was what was suspended in Watergate times, when the politics assumed savagery and its reaction a hate-filled retribution alien to the system, but it seems that those days are fading and some of the fun may comeback.  
 For politics ought to be a place for "happy warriors," and men like Hubert Humphrey are not to be reviled by cynics for having spoken of the "politics of joy." Serious business, yes; intense emotion and furious debate, of course; but after the battle, the blood should turn out to be catnip and some of the roundhouse punches only what Wendell Willkie called "campaign oratory."  
 To latch on to the latest teen-age cliché, "put it this way": as the Democrats' most talked-about for the nomination, it's good to see two men whose political obituary has been issued time and again: Hubert Humphrey and Edward Kennedy. And to run into Gene McCarthy, Mo Udall and Fred Harris in high school auditoriums doing their thing, which may be running for president, or may be running to get support that can be traded for something else.  
 And it is good to see John Sears, a comrade-in-taps, wearing media fences with good humor and good sense.

ANDREW TULLY

## Inflation on the run?

## Price increases persist in face of weak markets

**By NEA/London Economist News Service**  
**WASHINGTON** — (LENS) — Some ecologists think that the recession has been over enough and has left enough slack in men and machines to make the American economy inflation-proof, at least for the next year.  
 But even more fear that inflation has by no means been wrung out of the economy and are alarmed by the recent rash of price increases, even in the face of weak market.  
 Prices are being put up in basic industries: by 2.5 per cent in aluminium and by nearly 4 per cent in steel. The car industry, moving delicately because it does not want to frighten off buyers as it did a year ago with 9.10 per cent cost, says that the 1976 models, due on the market in a few weeks, will cost an average \$206 more than the 1975 models did.  
 This proposal looks less modest when it is appreciated that buyers will have to pay 6 per cent more for extras, that some equipment formerly standard will now become optional and have to be paid for and that dealers' margins are being squeezed; this means that they will not be so generous as they have been in the past over old cars being traded in. The true increase is probably over 5 per cent.  
 Still, the rises in all three industries fail to cover fully the increase in costs and are not out of line with the official hope that inflation will be running at no more than 6 per cent a year by the

end of 1975. It has been receding rapidly.  
 The trouble is that the announcements come on top of shocks from the price index. In June, mainly because of higher food prices, the 1.2 per cent jump in the wholesale index in July also due to costlier foods and feeds, made it inevitable that July's consumer-price index, released last week, would bring further bad news; it rose by 1.2 per cent.  
 Wholesale food prices may come down in the autumn if the scare over Russia grain buying subsides, but by that time oil prices will have risen, if controls have come off, as seems almost certain. Officially the price of gasoline is now expected to rise by three cents a gallon.  
 The slamming on of the brakes on the money supply in July suggests that at least the Federal Reserve Board is taking alarm: But so far most businessmen do not report any sharp rise in the prices they have to pay.  
 What they fear is what may happen to prices once demand really starts to pick up. July's tiny increase in the industrial production index (0.5 per cent for the second month in a row) does not suggest that recovery is yet proceeding at a stalling pace. The index, now standing at 110.8 per cent of the 1967 average, has a long way to go before it gets back to its pre-recession peak of 127.5 per cent.

## Hero of early US times receives honors

**WASHINGTON** — They buried an important coffin at the Coast Guard Academy's chapel in New London, Conn., and perhaps it would not be an intolerable intrusion on the customer's time to ponder the occasion.  
 The coffin was that of Capt. Hopley Yeaton, patriot of a long ago time: On March 21-1991, President Washington signed the commission making Captain Yeaton the first man appointed as master of the Coast Guard.  
 Captain Yeaton was buried in a pine coffin on his farm overlooking the Maine coast in North Lubec on May 12, 1812. He was 70 years old when he died after an adult life dedicated to his wearling country. — His remains now rest in a gray steel coffin in the seafaring community where every Coast Guard trainee is given a chance to emulate his dedication.  
 As a new Englander, my interest in the interment was natural. I know that part of the country well. We boys were steeped in American history, and especially in the exploits of men such as Hopley Yeaton. The term hero was not employed lightly, but when it was used it was not done so self-consciously. People were not ashamed to honor men like Captain Yeaton.  
 For Captain Yeaton was indeed a hero. He was a privateer, aashing, courageous and effective. He and his men sailed and fought hard against British shipping during the American Revolution. In a single year, Captain Yeaton's vessel captured or destroyed a 26 British ships, merchantmen and men-of-war.  
 So I treat with fascination and — yes — with pride, The New York Times' report of the ceremony at North Lubec before the Yeaton coffin was transported to a Coast Guard patrol boat and thence to the Coast Guard bark, Eagle, for the voyage to New London.  
 The ceremony at the old grave site was brief, I appear. I like to think Yeaton would have preferred it that way. Maine men are not much for haworring. But I confess there was something like a lump in my throat when I read of the two platoons of Coast Guard cadets, carrying rifles, marching with the pallbearers when they carried the new coffin away.  
 There was no volley of shots, said The Times. No one played taps.  
 "This is not a funeral," said the Coast Guard chaplain, Capt. Frederick W. Brink. "This is a recognition of a man who gave almost his entire life in one way or another to his country." — For men like Yeaton, of course, one funeral for one lifetime was enough.

WILLIAM SAFIRE

old graveside: "No joys domestic, Not the love of ease could cool his patriotic zeal."

Then Stewart spoke his own sparse words: "In a real sense, Hopley Yeaton's life itself shines as a beacon to guide us today through a time of slipping values and faint hearts."  
 Thank you, Admiral Stewart, Chaplain Brink and you young Coast Guard cadets. You did it just right for an authentic hero who was my boyhood friend.

# Opposition to gun control laws not weakened by attack on Ford

WASHINGTON (UPI) — Despite Friday's attempted assassination of President Ford, opposition to strict gun control legislation remains strong.

There is already legislation before Congress that would prohibit possession of the kind of handgun used in Friday's attempt.

## Letters oppose US role

WASHINGTON (UPI) — A spot check of mail coming into Senate offices on the interim accord between Israel and Egypt shows the letter-writers are dead set against any new U.S. involvement on foreign soil.

"Remember—Vietnam?—No Americans in the Middle East!" read one postcard received last week by an East Coast Republican who serves on the Senate Foreign Relations Committee.

An informal UPI survey indicated such feelings were typical of those who expressed themselves about the agreement President Ford hailed as a great achievement.

Though mail thus far has been light, it indicated voters back home are worried about a provision that American civilians will be used to man early-warning stations in the Sinai.

Letters are not running in favor of the pact in any of the offices of the Foreign Relations Committee members, who will have first crack at approving or rejecting the agreement.

"It's a combination of Vietnam and the whole fear of sending Americans abroad," said an aide to Sen. Claiborne Pell, D-R.I. "Most people are uneasy about things like that."

Sen. Stuart Symington, D-Mo., has received 35 letters, all against the accord; Sen. Jacob Javits, R-N.Y., has gotten 100 letters against it and just 20 in favor; 15 of the 19 letters to Sen. Howard H. Baker, R-Tenn., were against it, as were 24 of the 28 letters to Sen. Dick Clark, D-Iowa.

"Don't send our boys over there," said a letter to Baker. But mail to other committee members ranged from "Just a trick" to "I've written you 100 letters and telegrams. Most expect the volume to pick up as consideration of the accord begins on Capitol Hill, and some said it is too early to judge accurately public reaction to the Sinai pact."

"You have to remember that it's the people who are against things who usually write," said an aide to Sen. James H. Pearson, R-Kan. "Those who are for something generally don't bother."

## Aide hints no oil hike in autumn

© N.Y. Times Service WASHINGTON — Kuwait's Minister of Finance hinted Saturday that the 13-nation Organization of Petroleum Exporting Countries might make no increase in prices before January even though its self-imposed "freeze" expires Sept. 30.

Abdel Rahman Salem al-Aliqi, who was Kuwait's oil minister until earlier this year, also said the prospect of a new troop disengagement accord between Israel and Egypt would cause the oil countries to be "more helpful and considerate" in pricing decisions taken at the cartel's Sept. 24 meeting in Vienna.

"But not to retreat back to bringing down prices," the minister added pointedly. Aliqi said that news accounts of remarks he made in South Carolina earlier this week mistakenly attributed to him a prediction that OPEC would raise crude-oil prices by 10 per cent, or roughly \$1 from the present level of \$10.46 for a 42-gallon barrel.

What he had said, the minister explained, was that if OPEC adopted as its "unit of account" the special drawing rights of the International Monetary Fund, the effect might be to raise the price of oil by \$1, as expressed in dollars.

Leader Mike Mansfield said Saturday gun control legislation would not prevent attempts to assassinate U.S. presidents.

"It wouldn't be the answer," he said. "Don't think there could be such a thing as tight enough gun control. If you had gun control you'd have a lot of bullets left."

Assassinations have prompted passage of federal gun control laws. The current law banning imports of manufactured cheap handguns was passed in 1968 following the slaying of Sen. Robert F. Kennedy and civil rights leader Martin Luther King.

But the law permits importing parts, which can be assembled and sold in the United States.

The Senate approved a much tougher bill in 1972 after Alabama Gov. George C. Wallace, was paralyzed by a bullet fired by Arthur Bremer in a Maryland shopping center, but the House never acted.

## Security tightened in Dallas

DALLAS (UPI) — Police and Secret Service Agents have promised security would be extremely tight for President Ford's second visit to the city where John Kennedy was assassinated 12 years ago.

The attempt on Ford's life at Sacramento, Calif., will not alter the President's visit Saturday to a meeting of the National Federation of Republican Women and a convocation at Southern Methodist University, his national campaign director said Sunday.

Walter Coughlin, Secret Service special agent in charge, said the agency always works at maximum capacity, regardless of the political tension of the day.

He said there probably would be additional agents at the airport and convocation center, said the agency always works at maximum capacity, regardless of the political tension of the day.

He said there probably would be additional agents at the airport and convocation center, said the agency always works at maximum capacity, regardless of the political tension of the day.

on it. Rep. John Conyers Jr., D-Mich., heads a House subcommittee studying various gun control proposals. He called the attempt on Ford's life "reinforces the need" for legislation.

House Judiciary Committee Chairman Peter Rodino agreed, saying "we cannot afford to wait any longer."

But Rep. Robert E. Bauman, R-Md., said the Ford threat did not change his opposition to gun control.

"There is not necessarily a correlation between gun control and the actions of fanatics," he said. "There are three gun control bills awaiting subcommittee action in the Senate, and similar ones in the House."

Ironically, President Ford has proposed a complete ban on readily-concealable handguns such as Lynette Alice Fromme pulled from a holster strapped to the outside of her right calf in Sacramento.

The Tale-Lablanca murders in 1971, told newsmen during the weekend Miss Fromme was a "secretive officer" for Manson when the family was in full flower. She was chief spokeswoman during the Manson trial in Los Angeles.

In a book about the "family," Bugliosi described "Squeaky" as "the undisputed leader of the family while Charlie was in absentia."

Friday's action was "completely within their lifetimes — to kill or attempt to kill people, and in such a way as to shock the world. I'm not surprised. Not at all."

Miss Fromme is kept in a cell without television surveillance, her Jailer said. He said she turned down jail meals containing meat because of a vegetarian diet.

"She's in good spirits. She had a peanut butter and jelly sandwich," he added.

It was reported that Miss Fromme and her roommate, Sandra Good, 31, had tried this year to get on the accepted visitors list at San Quentin prison to see Manson, serving a life term for influencing Charles "Tex" Watson and several young women in his sex and drug-oriented cult to commit at least seven murders.

Officials said Fromme and Miss Good tried to get a lawyer to help them obtain visiting privileges. The lawyer contacted police, who warned the women possible legal action could be taken against them.

"There is no evidence at this time indicating a conspiracy in the threat to Ford's life," said U.S. Attorney Dwayne Keyes.

Miss Good, released by police after questioning, said Miss Fromme wrote every day

to Manson but that "Squeaky" acted totally of her own volition. Manson didn't order her to do it.

The FBI said Sunday agents had questioned Manson at San Quentin but that he provided no information.

"He gave no information of an evidentiary or lead value," said Paul Young, special agent in charge of the Sacramento FBI office. "He was not responsive to specific questions."

Young said "at least" 50 agents are working on the case.

REX D. DAVIS

weapon surplus

# Old Colt surplus in 1913

WASHINGTON (UPI) — The 45-caliber gun Lynette "Squeaky" Fromme aimed at President Ford Friday was made 64 years ago and sold as government surplus two years later.

The big Colt 45 she carried, one of America's most popular sidearms, was first used by the Army and then sold as surplus in 1913, said Rex D. Davis, director of the Treasury Department's Bureau of Alcohol, Tobacco and Firearms.

Davis said Sunday the National Firearms Trading Center has not been able to determine the gun's history after that, although it could be traced further if Army records of its sale exist.

An Army spokesman had no immediate comment, but said the gun's owner, a man whom he would not identify, was aware Miss Fromme had it in her possession.

"We do not believe it has a criminal history," Keyes said. The gun, weighing nearly 2 1/2 pounds, may have been retired after World War II.

"If they're put away in very good condition, they last a very long time," he said. "If they're exposed to the elements or if they're fired continually... they'll deteriorate."

He said the Army in recent years has stopped selling handguns as surplus. "Generally, they are reducing them for scrap now so that they can't be repaired."

The Colt 45 has several safety features that make it tricky to fire. Investigators said Miss Fromme, who appeared shocked when the gun did not go off as she held it a few feet from the President, did not pull back the barrel mechanism and load the firing chamber.

Investigators said Miss Fromme, who appeared shocked when the gun did not go off as she held it a few feet from the President, did not pull back the barrel mechanism and load the firing chamber.

# Attempt attention bid?

SACRAMENTO, Calif. (UPI) — Lynette Alice Fromme, leader in absentia of the Manson cult, told a Jailer she had to try to assassinate President Ford because nobody paid attention to what she was saying.

The tiny, red-haired Miss Fromme, 26, nicknamed "Squeaky" by convicted mass murderer Charles Manson because of her high-pitched voice, was held today on \$1 million bail in an isolation cell at Sacramento Jail.

She was reported in "good spirits" and maintaining a vegetarian diet.

Miss Fromme pointed a .45 caliber pistol at Ford Friday and became the first woman ever to try to assassinate a President. The weapon did not fire.

A Jailer told of a conversation with the 5-foot woman after she was wrestled to the ground by a Secret Service agent when she aimed the pistol at the President.

"Well you know," he quoted her, "when people around you treat you like a child and pay no attention to the things you say, you have to do something."

Federal investigators said they had no evidence "at this time" of a conspiracy in the assassination attempt Friday at the state capitol. Agents interviewed Manson at San Quentin Prison after Miss Fromme's attack, but said Manson would not respond to specific questions.

The U.S. attorney planned to file full charges against Miss Fromme to federal grand jury Wednesday.

Vincent Bugliosi, who prosecuted Manson and members of the "family" for

the Tale-Lablanca murders in 1971, told newsmen during the weekend Miss Fromme was a "secretive officer" for Manson when the family was in full flower. She was chief spokeswoman during the Manson trial in Los Angeles.

In a book about the "family," Bugliosi described "Squeaky" as "the undisputed leader of the family while Charlie was in absentia."

# Teacher strikes, busing unrest shut city schools

**By United Press International**  
Teachers strikes closed schools to nearly one million students today and negotiators worked against dwindling hopes they could avert a strike shutting down schools for 11 million New York City students.

National Guardsmen were ordered to duty at schools in Boston and Louisville to deter violence triggered by busing desegregation programs. Armed guards rode school buses in Louisville to protect pupils.

Chicago teachers Sunday night rejected the school board's latest contract proposal and schools were closed to the city's 530,000 public school students for a fourth day today.

The key remaining issue in the contract dispute between the school board and the 26,744-member Chicago Teachers Union was salaries.

The CTU has called on Mayor Richard Daley to meet with the dispute, but Schools Superintendent Joseph Hanna says he did not favor Daley's intervention.

Representatives of the New York Board of Education and the 80,000-member United Federation of Teachers continued negotiations with state mediators today as schools opened to 1.1 million children.

Albert Shanker, the union president, said a strike at 12:01 a.m. Tuesday, when the contract expires, was "inevitable," although a strike vote will not come before meetings of the UFT's delegate assembly and its full membership this afternoon and tonight.

The "main issue" on which the negotiations have broken down is the teachers' demand for increased "productivity," including cuts in teacher preparation time and in substitute and sick leaves.

The first full week of school busing began in Louisville today with District security measures in

force after a fourth night of disorders. More than 500 persons have been arrested, and several policemen and protesters injured, since the start of massive court-ordered desegregation Thursday.

U.S. District Court Judge James Gordon, who ordered the busing in late July, has forbidden protests near schools.

Security measures included 570 city and state policemen, U.S. marshals and National Guardsmen riding buses, and bus guards at school buildings and along the more routes.

A crowd of 400 to 500 persons peppered National Guardsmen in Boston with rocks and bottles Sunday night on the eve of the second year of court-ordered school desegregation.

Some 1,650 Boston police, state troopers and federal marshals were stationed at seven possible trouble points today. Anti-busing forces vowed a boycott of classes similar to one which dropped high school attendance on opening day last year to 59.9 percent.

Lynn, Mass., teachers defied a court-issued back-to-work order today and schools were closed to the city's 15,000 students. Wilmington, Del., teachers also ignored a court order and continued their strike, affecting 2,200 students.

Schools will open Tuesday for 20,000 students at Taylor, Mich., where teachers voted Sunday night to accept a new contract and end their strike. However, a strike continued in the Lakeshore school district, affecting 9,000 students.

Other walkouts affected 26,000 in Ft. Worth, Tex., and 200 students in St. Pennsylvania. School authorities for the right to marry a French woman ordered to leave the Soviet Union, friends of the two said today.

Spassky and the woman, Marina Stuchatel, had planned to marry Nov. 11, but she has been ordered to leave her job with the French commercial delegation Sept. 30, the friends said.

Her contract originally ran until July 1976. The friends said the French apparently were acting under pressure from Soviet authorities in releasing her sooner.

The 38-year-old Spassky was divorced in July and had obtained the papers necessary for marrying Miss Stuchatel, the friends said.

They said the country earlier to leave the country earlier this year because she had lent her car to a Soviet citizen who got in a wreck. However, her diplomatic status protected her against expulsion.

Supporters of the Socialists and Popular Democrats, the two largest parties in Portugal, have burned down headquarters in two months of political unrest.

The Goncalves government resigned on mass Saturday night, a day after the policy-making General Assembly of the Armed Forces Movement forced the general to give up his new appointment as military commander.

Chairs, a persistent critic of Goncalves, called for an expansion of the regime's power base to win back the support of the majority of the people.

# Portuguese army chief says democracy unlikely

**LISBON, Portugal (UPI)** — The commander of Portugal's army has warned non-Communist politicians against expelling a "Western-style" democracy, despite the fall from power of Communist-backed Gen. Vasco Goncalves.

Gen. Carlos Fabiao, the moderate army chief of staff, said Sunday Portugal's political parties aren't capable of governing the country out of its two-month-old crisis.

Fabiao, who led the moderate campaign to oust Goncalves as prime minister, said Portugal's warring political parties "don't seem to be able to come to any understanding" on running the country.

He called for "the development of basic organizations" — grass roots groups — to run Portugal in place of the three leading parties — Socialists, Popular Democrats and Communists.

Goncalves has also called for bypassing Portugal's political parties. But he wants a centralized, Communist-leaning mass movement to run the country, instead of the loose coalition proposed by Fabiao.

Brig. Gen. Carlos Chaves, the moderate commander of Portugal's central military district, warned Communist supporters in the armed forces Sunday against attempting a coup d'etat.

Chaves told the newspaper Domingo any attempted coup to put Goncalves back in power would be a "suicidal act" threatening civil war and a right-wing dictatorship.

He said "the forces of the right wing would have many more possibilities than the forces of the left," if pre-Communist officers try to overthrow the military government.

Chaves, a persistent critic of Goncalves, called for an expansion of the regime's power base to win back the support of the majority of the people.

# Reagan booster sees large push

**By United Press International**  
Ronald Reagan's chief booster figures Reagan will make a run at President Ford before the Republicans collect their presidential nominee. Ford apparently plans no campaign let-up despite his confrontation in Sacramento with a gun-toting young woman.

The GOP site selection committee Sunday night unanimously selected Kansas City to host their 1976 nominating convention. The Democrats earlier chose New York City for their convention.

Ford, after a brush with a 45 caliber pistol in California, apparently has elected to stay on the campaign trail with no change in his heavy travel schedule.

Betty Ford was asked if she would like her husband to curb his travel because of the incident, in which Lynette Alice Fromme has been charged with an attempt to assassinate the President.

"Heavens no. He's been traveling all his life," Mrs. Ford said.

Ronald Reagan apparently will begin campaigning in earnest, according to Sen. Paul Laxalt, R-Nev., chairman of the Reagan for President Committee. Laxalt told UPI during the weekend that after strategy talks last

week, Reagan felt little doubt he will challenge Ford in the primaries.

Ford has been advised to woo Reagan's supporters by taking up some of the issues Reagan has used to criticize the government.

But Reagan apparently is not dissuaded from his own challenge. Laxalt said that "in my judgment, he is totally turned up and ready to go. He looked like a candidate ready to wage battle. The meeting moved him to the brink of a declaration."

In other political developments: Sen. Lloyd Bentsen, D-Tex., told a gathering of farmers in Minnesota during the weekend that Agriculture Secretary Earl Butz "and his bureaucrats" are about as reliable as the weather and that the country lacks a farm policy and has not had one for more than six years.

Butz said in Illinois Ford can score political points next year by establishing that he has restored integrity in government.

# Eyes tax cut

**SECRETARY OF Treasury** William E. Simon appearing on NBC's Meet the Press said Sunday that it's too early to decide whether this year's tax cut should be extended past next Jan. 1. (UPI)

# Spassky battles

**MOSCOW (UPI)** — Former world chess champion Boris Spassky is battling Soviet authorities for the right to marry a French woman ordered to leave the Soviet Union, friends of the two said today.

Spassky and the woman, Marina Stuchatel, had planned to marry Nov. 11, but she has been ordered to leave her job with the French commercial delegation Sept. 30, the friends said.

Her contract originally ran until July 1976. The friends said the French apparently were acting under pressure from Soviet authorities in releasing her sooner.

# Miners go back on job

**CHARLESTON, W. Va. (UPI)** — Southern West Virginia coal miners began a massive return-to-work today despite prospects of picketing by dissidents demanding the right to strike without the threat of court injunctions.

Wary of a month-old wildcat walkout which at one time idled up to 60,000 workers, rank-and-file miners held weekend meetings and voted to heed United Mine Workers President Arnold Miller's order to resume coal production.

Thompson said that as far as he could determine, all locals in Charleston-based District 17 voted to end the strike in neighboring District 329, headquartered in Beckley, the same sentiment was voiced by 50 of 66 locals.

Union officials cautioned against confrontations with pickets but some miners said they intended to cross any lines set up by strikers who want a right-to-strike provision inserted in the UMW contract.

# Energy project leaders urge conservation

**By BART QUENNEL**  
Times News Service  
**SUN VALLEY** — School janitors and bus mechanics must become as vital a component in the move to conserve energy as school administrators.  
Participation in the Interstate Energy Conservation Leadership project meeting in Sun Valley contended every level of the education process must become involved if a true effort to conserve is to be made.  
The project includes leaders in educational and energy fields across the United States. Their goal is to approach legislators, state departments of education and other leaders to get them to introduce energy conservation measures in all school districts.  
Their approach is to show administrators and district trustees that a plan of energy conservation will save all districts money.  
They point to National Science Foundation figures that indicate today's school

buildings waste as much as 40 per cent of the energy they consume.  
Tests performed by the Educational Facilities Laboratory show that at least \$4,000 per year in fuel and utility costs can be saved in a typical elementary school by reducing energy waste.  
Savings reach \$10,000 in a typical secondary school; a figure taxpayers should take heed of, they say.  
Tom O'Kelley, plant operations engineer with the North Carolina Department of Education, said in many cases it is simple to conserve energy.  
"Tell youngsters to dress correctly," O'Kelley states.  
During the fall and winter months children should be dressed with pants, sweaters and coats if necessary and encouraged to wear warm clothing inside if it is too cold.  
Dress coats must be looked at carefully, he said.  
"This will take a whole new lifestyle and attitude," he said.  
"It may mean the elimination of the mini-skirt."

Teachers and students should keep windows closed during cooler weather. Halls and auditoriums should not be heated when not in use.  
Keep inside and outside doors shut, he warned. School districts should eliminate the use of space by closing off or cive groups if the meetings have nothing to do with education.  
Restrict control of thermostat to as few people as possible and set back thermostats at night.  
Studies recently conducted show that "set-back" savings are approximately one per cent for each degree the temperature is turned down during an eight hour period.  
A big savings, he said, can be made by using cold water in the place of hot whenever possible.

Not all of the techniques are that simple O'Kelley said. Accurate records of the monthly fuel use, by building, must be kept.  
An energy manager should be appointed in the district whether in large or small districts, the manager, often the principal should be aware of the needs and consumption of fuel during the month, he said.

Janitors and maintenance personnel will have to become skilled in the future and become versed in "preventative maintenance."  
Simple combustion testing devices are available which can increase the efficiency of a heating plant 20 per cent.  
School boards must become aware of energy savings related to the design of buildings, he said.

Monday, September 8, 1975  
Too often boards compute only the cost per square foot in construction without considering the energy and money that can be saved with alternate designs.  
He said the pay-back period of solar energy heating and cooling systems is comparable now with the conventional use of fossil fuels. In older schools with proper efficiency he said the old cast iron steam radiators are the best money savers in operation.  
Everyone in the school

system must become aware and responsible for energy and dollar conservation, O'Kelley said. Students and teachers, along with the administrators and plant operations people must scrutinize energy waste in their schools.  
The IECL project has been organizing workshops this week in Sun Valley to take across the nation. The project has already visited 39 states in the U.S., trying to persuade leaders to put suggested practices into operation.

Times News Service, Twin Falls, Idaho 7

## Shoshone pool fund gets needed boosts

**SHOSHONE** — The Lincoln County swimming pool fund took another jump this week, with several donations including one from Walt Disney Productions.  
A check for \$400 from the Disney group was given to the pool fund in appreciation for cooperation extended the firm during a recent filming of "Once Upon a Winter" in Shoshone.  
Bill Hata, from the Manhattan Cafe, donated the \$100 given him for signs and use of the front of the cafe in the picture. Mrs. Joe Berriehon, one of the local women who appeared in the film, donated her wages of \$42.14, according to Myron D. Johnson.  
In sending the donation to Shoshone, in care of Johnson, William T. Schneider, location manager for the Disney Productions, stated the check was in appreciation for the "wonderful cooperation and assistance received" while filming in Shoshone. 1 hope

there is some way you can express our thanks to the people of Shoshone whose enthusiasm made working in town a pleasure to all of us. The extras really looked authentic."  
Schneider also wrote, "I am sure Shoshone will look as good on television as it did in real life and I look forward to seeing you all again soon, on the tube."  
Francis Bergin, who is treasurer for the Lincoln County recreation district, said there is still needed paying for the pool construction, landscaping and erecting a plaque which has been designated to contain names and information about persons who donate \$1,000 or more to the project.  
To date there have been two such donations, one by D. Sidney Smith, Shoshone, and the other from the family, and in memorial of the late W. F. Grosse.

## Courses offered

**TWIN FALLS** — Courses being offered at the College of Southern Idaho and now available for registration include a computer programming class and one on Indians of the North America.  
The computer course offers instruction in programming for the Burroughs L8000 series and will be taught during the fall semester if sign up is sufficient.  
A history class and a laboratory class will be held on separate nights each week.  
Interested persons should contact Marvin Glasscock, 733-2641 ext. 201.  
Several semesters will be offered in succession with the first designed to introduce the student to basic data

processing fundamentals. Students with no prior programming training or experience or those without access to the L8000 computer should take both classes.  
The class on Indians of North America is also offered through the continuing education division, Idaho State University and is taught at CSI by Robert Speyer, an anthropologist.  
The next class session is Wednesday at 7 p.m. in the Shields Academic building at the college. Sessions will be held each Wednesday night thereafter.  
Interested persons may contact 733-9554, ext. 221, or 734-4255.

## Ordinance proposed

**MINIDOKA** — City liquor licenses could be transferred and the "no-protection" portion of the year under a proposed ordinance here.  
The City Council directed City Attorney Robert Nielsen to draft an ordinance allowing transfer of licenses and a provision for pro-rating the annual fee on a quarterly basis.  
The action was taken on the request of Clarence Tate, who has purchased the Depot Grill from former operator Lyle Bassett. Tate took over the bar and grill last month.  
Tate said he felt the pro-rating was fair, since the license "already has been paid

for once" by Bassett.  
Mayor Dorothy Courtwright reviewed the present ordinance and said the \$225 fee could not be pro-rated without an ordinance change.  
Nielsen said the current city license is similar to the state license and is non-transferable. He said the city ordinance could be written to allow transfer of the license upon meeting qualifications for a new license.  
In Tate's case, he suggested, the council could waive the fee for the first half of the year so that it matched the provisions of the draft, since it would become effective after Tate's application.

## CARNIVAL

by Dick Turner

"What's goin' on over there, Alie?"

"They're paintin' the fence!"

# The more you and your family watch color TV, the more reasons you'll want a Quasar COLOR TV

Look for this seal when you buy a color TV!

Quasar makes a color TV that's easy on the eyes... "Super Insta-Matic" Color Tuning is an electronic device that works much like a light meter, adjusting constantly to normal changes in room lighting. The result is a picture comfortable to watch under many changing light conditions. When you're watching Quasar Color TV in a brighter-than-normal room, "Super Insta-Matic" Color Tuning with the Electronic Light Sensor adjusts automatically. Delivers a vivid balance of brightness, contrasts, and intensity. When the room lighting gets darker, "Super Insta-Matic" Tuning automatically softens this balance. Benefit? A picture that's comfortable to watch even when room light changes. If you're concerned about your family's TV viewing habits... see a demonstration of "Super Insta-Matic" Color Tuning today. Only at your Quasar dealer.

# your health

By GEORGE C. THOSTESON, M.D.

**Dear Dr. Thosteson:**  
I had my first baby at age 30. My baby came early, two weeks early by due date. He was not considered premature, but was called "small for date." My doctor said he was about six weeks early by birth size. He only weighed four pounds.  
The problems we encountered were numerous. My doctor said my placenta did not function properly. My son had low blood sugar that caused breathing difficulties. The baby is doing fine now.  
My doctor feels that in subsequent pregnancies I should not encounter the problem with my placenta. Do you agree? — Mrs. D.A.M.

The terms "premature" and "small for date" are the cause for some confusion. The estimated date of confinement can easily be two weeks off. The variation often reflects the fact that pregnancy occurs at mid-cycle, a couple of weeks before the last period was missed.

As to "prematurity" this is a pretty specific term. A baby weighing under five and a half pounds at delivery is regarded as premature, and special care is required.

Low blood sugar is not unusual, even in full-term babies. Some exhibit symptoms, others do not.

## Herald patch explained

Your baby's breathing problem may or may not have been attributable to the low sugar. A condition called "respiratory distress syndrome" is common in premature babies—in those delivered by Caesarian section, and among those of diabetic mothers.

The cause is not clear, but it is thought to be caused by a coating on the air sacs of the lungs which hinders the necessary exchange of gases between lungs and blood.

I think your doctor is correct in stating that your placenta problem is unlikely to occur in subsequent pregnancies.

**Dear Dr. Thosteson:**  
Can you please tell me how long you can keep eggs? I do my food shopping once a month and buy four or five dozen eggs. They last through the month. Is it safe to keep eggs that long? — Mrs. B.M.

Yes, it's safe under certain circumstances. The eggs should be kept in the refrigerator, preferably in their cartons, and at temperatures between 45 degrees and 55 degrees Fahrenheit. Under such conditions they will keep several weeks, according to the Poultry and Egg National Board.

At room temperature eggs lose more quality in a single day than they would in a week under refrigeration. Even under refrigeration eggs lose water and carbon dioxide through the porous shell, but the nutritional quality is not lost.

Keep in mind, too, that eggs can pick up odors and tastes from nearby foods, and this can occur under refrigeration.

**Dear Dr. Thosteson:**  
Will you please explain what a "herald patch" is, and what its cause and treatment? — M.T.

This is a term used to describe the first sign (the herald) of *phyriasis*, which is a mild inflammatory skin eruption of unknown cause. It can "herald" a general eruption.

Often the herald patch will fade and be replaced by another, similar eruption elsewhere on the body.

Mild cases require no treatment. If itching is pronounced, soothing lotions may be used. Ultra-violet light has also been used, and, rarely, steroid drugs.

Acne is a terrible problem for anyone growing up. If you are afflicted with it, or have children who are, write to Dr. Thosteson, in care of this newspaper, P.O. Box 3999, Elgin, Ill., 60120, for a copy of his booklet, "Controlling Acne, Blackheads and Pimples." Enclose a long, self-addressed, stamped envelope and 25 cents.

Pass	4♠	Pass	Pass
10♣	Pass	Pass	Pass
Opening lead — ♠			

Furthermore, West's hand fulfilled one requirement for a sacrifice bid: "It was pretty sure that South would make four hearts."

South did just that, but look what would have happened if West had sacrificed himself together and bid four spades. North and South might have gone on to five hearts — down one. They might have doubled four spades or let East play there. If they had they would have been sorry. East would make four spades with no trouble at all.

### Ask the Jacobys

An Oregonian asks what sort of hand South should have. North has opened one diamond; East has doubled and South has bid one no trump.

The answer to this one depends on partnership understanding but in common with almost all experts and bridge teachers we play the bid to show eight or nine high-card points, a balanced distribution and certainly no five-card major suit.

*(Do you have a question for the Jacobys? Write "Ask the Jacobys" care of this newspaper. The most interesting questions will be used in this column and writers will receive copies of JACOBY MODERN.)*

# Abby

By Abigail Van Buren  
© 1975 by Chicago Tribune-N.Y. News Synd., Inc.

**DEAR ABBY:** What do you think of a man who has got to be the world's biggest liar, cheat and hypocrite, yet who never misses a Sunday in church?

**HATES HYPOCRITES**

**DEAR HATES:** I can't think of a better place for him. A church is a hospital for sinners, not a museum for saints.

**DEAR ABBY:** I am one broken-hearted, 17-year-old girl. Bobby and I went together for three years and planned on getting married this Christmas when Bobby turns 18. (I am ashamed to admit it, but we had been having sex since I was 14.)

Well, last week, he slam tore my heart out when he told me that he'd been fooling around with a 15-year-old girl and got her pregnant. Now this girl's parents are on top of him to marry their daughter. They say he either has to marry her or go to jail.

## Girl despairs

Abby, please help me get my mind straight. I can't turn off my love for Bobby. He says he will marry the girl to give her baby a name, and as soon as he can, he'll divorce her and marry me. He wants to keep on seeing me anyway because he says he still loves me, regardless. What should I do?

**ALL TORN UP**

**DEAR TORN:** If I were you, I'd forget him, dear. If Bobby could have been fooling around with another girl while planning to marry you, his "love" for you couldn't have been sincere.

Don't see him again—ever. He spells trouble with a capital T.

**DEAR ABBY:** I surely do sympathize with "Smoked out" whose friend's smoking made him sick. I had the same problem with my dad. He would always smoke cigars in the car. One time when I was about 7, he was smoking a cigar in the car, and I said, "Dad, your cigar is making me sick." He replied, "No, it's not." Then I said, "Yes, it is." He repeated, "No, it's not." Then I threw up in the car. He hasn't smoked cigars in the car since.

**MIKE IN CULVER CITY**

**CONFIDENTIAL TO MY READERS:** If you enjoy biographies, beg, borrow or buy "The Remarkable Life of Dr. Armand Hammer," by Bob Conditine. It's a fascinating book about one of the world's most successful, creative, talented, yet warmly human men of our time. I loved it!

Everyone has a problem. What's yours? For a personal reply, write to ABBY: Box No. 69700, L.A., Calif. 90069. Enclose stamped, self-addressed envelope, please.

For Abby's new booklet, "What Teen-agers Want to Know," send \$1 to Abigail Van Buren, 132 Lasky Dr., Beverly Hills, Calif. 90212. Please enclose a long, self-addressed, stamped (20¢) envelope.

MR. AND MRS. KIM E. ELLIS

## Rites unite couple

**JEROME**—A double ring ceremony in the Idaho Falls LDS Temple united in marriage Tammy Harding, daughter of Mr. and Mrs. William L. Harding—Jerome—and Kim E. Ellis, son of Mr. and Mrs. Merthan Ellis, Hagerman.

The rites were performed Aug. 21 by A. Barrus. A wedding dinner was hosted by the bride's parents at the West Bank following the rites at the temple.

A garden reception was held Aug. 22, at the home of the bride's parents. Decorations for the reception was a white bride, a round cake, supported by pillars, with a waterfall underneath. The cake top was decorated with pink Sweetheart roses, pink Pixie carnations, ring of baby's breath around base of cake and white roses.

Isabelle Marshall, Florence Eggelgum and Mary Harding, aunts of the bride, and Pam Pratt, sister of the bride, poured.

A program was held during the reception. Following their honeymoon trip, to Oregon, the couple reside in Hagerman. The bride is a 1973 graduate of Minico High School and attended Ricks College two years.

The bridegroom is a 1971 graduate of Snake River High School, served a two-year, full-time mission in Illinois and is engaged in farming.

The bride, presided at the guest book. The gift table was attended by Debbie Mead, Pam Summers and Gwen Anderson, roommates of the bride.

The bridegroom is a 1971 graduate of Snake River High School, served a two-year, full-time mission in Illinois and is engaged in farming.

Out-of-town guests attended from Nevada, Texas, South Dakota, Rexburg, Ririe, Snake River, Pocatello, Caldwell, Burley, Rupert and Paul.

Showers for the bride were given by Julia Powell, Joyce Ford, LaVina and Gwen Perkins from Jerome and at Rupert, a shower was given by Cathy and Maureen Stefan.

Cathy Stefan, close friend of

## Pair recites vows

**SPRINGDALE**—Kaye Dawn Larson and Richard Silcock were married Aug. 22 at the Idaho Falls LDS Temple.

The bride is the daughter of Mrs. June Larson and the bridegroom's parents are Mr. and Mrs. Donald Silcock, Burley.

Lloyd Mickelson solemnized the marriage and a reception was held in the evening at the

Springdale LDS Cultural Hall, decorated in yellow and white. The bride wore a gown she designed of polyester crepe, sheer tulle and lace. She carried a bouquet of yellow roses and white daisies with a white orchid.

Sister of the bride, Lyndell Darrington, was the matron of honor with her sisters, Beatrice Thurston and Della Carter as bridesmaids. Tina Larson and Marilyn Silcock, her sisters-in-law, and Shelley Thurston and Amy Larson, her nieces, were also bridesmaids. Reed Beck, a friend of the bridegroom's, was best man, with brothers of both the bride and bridegroom as ushers.

Pelda Creighton registered the guests, who were seated at quartet tables covered with yellow and white checked material over white lace. Baskets of yellow and white daisies were centerpiece. Aunts of the bride, Myrtle Stunrt, Rupert, and Ruth Quarstrom, Albion, cut and served the wedding cake. Other relatives and friends arranged and served the other refreshments.

Irvin Thurston, brother-in-law of the bride, was master of ceremonies—at a program presented later in the evening. Assisting at the gift table were Janene Zingler, Diane Hardy and Kay Kato. Flowers were arranged by Darwin Silcock.

JEAN BARRY sets date

## Rites planned

**TWIN FALLS**—Mr. and Mrs. Jean F. Barry, Twin Falls, have announced the engagement of their daughter Jean Marie to Jim Robertson, Halley.

Robertson is the son of Mr. and Mrs. Calvin Robertson, Halley. Miss Barry received her B.A. in art from El Camino College, Los Angeles, Calif. She is employed by the Forest Service in Halley. Robertson is a graduate of Wood River High School and also works for the Forest Service, Halley. The couple plans a Sept. 20 wedding in Halley.

## briefs

**TWIN FALLS**—Josephine Ann White, 21, a senior at Idaho State University, graduated from the Bodoni College Religious Education Institute. The Institute provides religious educators with the techniques and knowledge to work effectively in a variety of changing contemporary settings and structures.

**TWIN FALLS**—Cheryl Hackett, Twin Falls, made a pledge to Alpha Omicron Pi, one of the three state sororities at the Idaho State University.

**GLENN'S FERRY**—The Circle 8 Square Dance Club will dance Friday at 8:30 p.m. at the Moose Hall. All square dancers are invited. Please bring sandwiches or dessert. Myron Bliss will call the dances.

SALLY SEATER MV meets

## College rep talks

**TWIN FALLS**—Sally Seater, a field representative of Colley College, Nevada, No., will be in Magic Valley this week to meet with high school students regarding their plans for college enrollment.

She will be in the Burley-Rupert area Monday morning and in Jerome—Monday—afternoon. On Tuesday she will visit schools in Twin Falls County.

The field representative is sponsored by the P.E.O. Sisterhood which owns and supports Colley College. The college was founded in 1884 and is one of the few remaining two-year liberal arts colleges for women in the United States.

The schedule for Miss Seater's visits include Monday at 11 a.m. to 1 p.m. in Burley and Rupert with a sack lunch at the Ponderosa Inn, Burley

at noon. She will be at the home of Mrs. H. E. King, 2481 Laurel Drive, to meet with students.

At 2:30 p.m. she will be in Jerome at the high school for the remainder of the afternoon. Tuesday she will be in Buhl at 9 a.m. with a brunch at the Presbyterian Church near the high school. Buhl and Castletown High School girls are invited to attend.

At 10:30 a.m. Tuesday she will be at the Filer High School and will then go to the home of Mrs. Tom Lucas. At 1:30 p.m. Tuesday she will be at the home of Dr. and Mrs. John Affleck for a workshop for adults.

At 3 p.m. she will join students and counselors at the high school. She will be met by Twin Falls Sunday evening in Jane Davis.

# WR project on schedule

**HAILLEY** — The new Wood River High School construction project is on schedule and should be completed and ready for use the fall of 1976.

Blaine County residents voted a \$4 million bond issue in 1974 to build the school and add on to all schools in the district.

Although construction on the additions has been somewhat slower than expected, work at the high school is on schedule, according to Jay Phippen, Miller Construction superintendent.

Phippen said most of the walls on the 8,000 square foot school have been erected. Crews are trying to get the roof on before winter snows stop construction, he said.

There have been no major supply problems at the school, Phippen said. About 50 carpenters, masons, electricians, plumbers and ironworkers are employed at the high school site, located on the north end of the Woodside subdivision.

Phippen said even if the roof is not installed this fall, the school will be ready for occupancy by the fall of 1976.

EXTERIOR walls of the new Wood River High School are nearly complete. The new school should be ready for occupancy by the fall of 1976, according to Jay Phippen, Miller Construction superintendent. The school is being built at the north end of Woodside subdivision.

## Wood River HS

# Idaho economy looks brighter

**TWIN FALLS** — Idaho's economy should begin to shake off the effects of the national recession in the third quarter, according to First Security Bank's quarterly newsletter.

Lumber production should continue to increase as the construction industry nationwide begins to recover, the report said, and the outlook for livestock producers also is improved.

Continued employment expansion in the third quarter is expected to stimulate retail sales and personal income growth.

Cash receipts from farm marketing in Idaho for the January-April period totaled \$10.8 million, which is a 36 per cent drop from the previous year. Receipts from crops were down 43.3 per cent, while receipts from livestock and livestock products fell 21.5 per cent. These reductions reflect continuing downward price trends rather than decreased quantities marketed, according to the newsletter.

Lumber production for the first four months totaled 422.7 million board feet, a drop of 27 per cent compared with the corresponding period in 1974. However, residential construction in May was down 1.2 per cent from a year ago.

Total employment in Idaho in May was 346,000, an increase of 3.1 per cent above last year. At 275,500, nonagricultural wage and salary employment remains 15,200 jobs below last year's figure, and has considerably increased throughout the first five months of 1975, the report said. Manufacturing employment was 2.9 per cent above May of last year, while food processing employment was 10.6 per cent greater than one year ago.

The seasonally adjusted employment rate was 7.5 per cent, down 7.7 per cent in April but still higher than the 5.5 per cent a year ago.

Retail sales and services for the July — May, 1975 period in Idaho jumped 13.7 per cent above last year's figures. However, new cars and trucks sales were off 1.1 per cent when compared with last year, the newsletter said.

# Sugar firm sets Burley symposium

**BURLEY** — Amalgamated Sugar Co. will hold a 3-day symposium Tuesday through Thursday at the Ramada Inn here.

The meeting is held every year, according to Al Hanlein, public relations official, "to have a good hard talk session among the entire agricultural operation."

Hanlein said the symposium is to "get communications squared away" for Utah, Idaho and Oregon prior to the harvest. He said about 50 agricultural officials from within the company will attend.

They will review agronomic practices, including discussion of the 1975 sugar beet harvest. Hanlein said they will tour the new cane farm in Paul and the agricultural research farm at Twin Falls.

Hanlein said outside speakers also will make presentations to the group.

Allan Lipman Jr., legal counsel and vice president of the company, will speak at the banquet at 6:30 p.m. Wednesday at the Ramada Inn. Among topics he will cover are the legal action on sugar pricing and the company's corn syrup venture.

The sessions begin at 1 p.m. Tuesday and end at noon Thursday.

## Wendell sets blood quota

**WENDELL** — A Red Cross Blood Drawing will be held at the Wendell American Legion Hall Wednesday from 11 a.m. to 2 p.m.

The drawing, sponsored by the P.E.O. Ladies and chaired by Mrs. Harold Holsinger, has a quota of 75 pints. The Orchard Valley Grange will provide a noon meal for the volunteer workers, with city employees unloading and loading the bank.

Replacements can be made for the late Ray Ruby, who needed 29 pints of blood before his death. He had given well over three gallons in his lifetime, according to Mrs. Holsinger.

## Shoshone meet set

**SHOSHONE** — Shoshone School board will meet at 8 p.m. today at the Courthouse.

## Dietrich school meet tonight

**DIETRICH** — The Dietrich School Board will meet at 9 p.m. today at the school building.

# Home economist named for Jerome

**JEROME** — Mrs. Ruth Spidahl, State Home Economics Leader, University of Idaho, announced that Mrs. Mary Ann Freeman is the new Jerome County Extension home economist for the University of Idaho Cooperative Extension Service.

She fills the position recently vacated by Mrs. Sharon Allred.

Mrs. Freeman holds a bachelor of science degree in home economics from Boise State University. She has taught school in the Boise school system since 1971, teaching the first two years in North High and from 1973 to 1975 in Capital High. She and her husband reside in Jerome. Her husband, David Freeman is manager of the Bon Marche store, Twin Falls.

# BPA sets public hearing in Burley

By SHANE O'NEILL, Times-News Writer

**BURLEY** — The Bonneville Power Administration will hold a public hearing on environmental impact at 8 p.m. Tuesday at the Ramada Inn here.

The hearing covers the BPA construction and maintenance schedule for fiscal 1977.

Of primary interest to people in Magic Valley will be the four alternative proposals to augment electrical transmission in central Minidoka County and two alternatives in the Lost and Salmon river areas northwest of Arco.

The first alternative to give additional service to the Lost River Cooperative and the Salmon River Cooperative would involve 29 miles of transmission line.

It would run from the Antelope Substation to a delivery point near Moore Substation. The line could run parallel to the existing Scoville-Moore line or follow a new route.

The second alternative would tap the Scoville-Howe line. This would require conversion to higher capabilities on the Scoville-Howe line and the associated substations.

The line could run through either a northern or southern corridor.

The former would run from near Howe in a 20-mile arc north by west to the Moore Substation.

# Cassia dairy barn destroyed

**BURLEY** — A dairy barn was gutted early Saturday as the North Cassia Rural Fire Department had busy 24 hours.

The barn fire was reported at 1 a.m. Saturday at the Kenay Lind place about 2 1/2 miles southeast of Burley.

Four men used a pumper and tanker to contain the blaze within the old cinder block structure and keep it from spreading to adjacent corrals. Firemen were on the scene for one and one-half hours.

Damage was estimated at \$1,000.

Cause of the fire is undetermined. Firemen said there was no electricity in the unused barn.

Rural firemen responded to four other fires between Friday and Saturday evenings.

An old shed on the Barbara Oslander place four and one-half miles west of Burley on Highway 30 was destroyed in a fire reported at 5:49 p.m. Friday.

The shed was used for storage. It burned to the ground, but firemen were able to save an adjacent garage and corrals.

Damage was estimated at \$300. Firemen said the cause of the fire was electrical.

Three fires Saturday afternoon caused only minor damage.

Firemen were called out at 1:27 p.m. to extinguish smoldering chaff in the bottom of an elevator at Feeders Grain, four miles southwest of Burley.

The cause is undetermined. Firemen were on the scene for nearly one and one-half hours.

A water heater short in the house of Daniel Dunham, three miles west of Burley, brought firemen out at 3:46 p.m. Saturday. The only damage was to the heating element.

A weed fire that singed a telephone pole was reported at 5:26 p.m. Saturday.

The fire was at the Harold Anderson home, 1951 Washington Road. There was no appreciable damage.

# Cycle mishap injures TF man

**TWIN FALLS** — A Twin Falls man was injured in a motorcycle accident Sunday night on the Shoshone Falls road.

Edwin D. Biddecome, 32, is still under observation at Magic Valley Memorial Hospital for leg and back injuries and lacerations.

Idaho State Police officer Richard Wright investigated and reported Biddecome had apparently lost control of his vehicle while trying to pass vehicles driving up the falls road about 7:40 p.m. Wright said Biddecome was cited for driving while intoxicated.

The southern corridor would begin near the crossing of State Highway 88 and head west by north to the Moore Substation.

The Minidoka County proposal is to eventually feed into the West Burley Substation when it is constructed. The Minidoka County Planning Commission gave approval Aug. 20 to one of the four alternatives to deliver additional electrical transmission to its HayMill Substation.

The approved line would run 5 miles from the Heyburn Substation to HayMill on a 100-foot right-of-way. It also involves installation of a new transformer at HayMill.

The HayMill substation serves part of the Rural Electric Company's area in central Minidoka County.

BPA officials said that growth and conversions to all-electric systems indicate peak loads will exceed the HayMill Substation capacity by December, 1978. An outage there or at the Paul Substation would affect the other two of the three substations (including Budge) which serve the area.

It also said additional power will be needed in the Rupert-Burley-Heyburn area by the mid-1980s.

BPA said there already are voltage fluctuations in the Scoville-Arco line that serves the Lost River-Salmon River area.

One alternative in southcentral Minidoka County was a three and one-half-mile line tapping existing Idaho Power Co. lines near Paul and running to HayMill. Another would be a 1,000-foot tap on the Idaho Power line near Paul and building a new substation there.

The final alternative would run 8 miles of transmission line to the HayMill Substation from the Idaho Power's proposed Adalade Substation, approved last year for construction in 1977 six miles northeast of Rupert.

The BPA environmental impact report on the approved line for Minidoka County said "a minimum of soil is expected to be disturbed and compacted by transmission line construction."

It found that the new line "is not expected to noticeably change existing water resources."

It also stated that the "impact to agriculture would be slight" if the line parallels the existing line. It is expected to run along the railroad track from Heyburn to HayMill.

If not, the study said that impact on agriculture would be higher "because of possible interference and/or interruption of farming practices and sprinkler irrigation."

The greatest impact might be on wildlife, the report said.

"Primary impact would be short-term disturbance and wildlife due to construction," it said, adding that wildlife should adapt quickly.

However, it added, "These transmission lines could result in some mortality to waterfowl due to possible collisions at the canal and other waterfowl habitat crossings."

The report said there would be temporary noise and dust disturbance to nearby residences, but no interference with recreational facilities or activities.

BPA warned of the problems with seasonal loads if the line is not built.

It said there might be "mandatory load curtailment," including a halt to installations and conversions of residences and commercial enterprises and force the use of "scarce and higher-cost fossil fuels."

The environmental report on the Lost-Salmon rivers project admitted an erosion hazard on steep hills and mountains, but said the impact would otherwise be slight, as it would on hydrology and vegetation.

It anticipated early adaptation by wildlife to any displacement.

Of the line from Antelope Substation near Arco, the report said there would be "slight in-high" agricultural impact along the Big Lost River Valley bottom to Moore, but "it warned that the impact would be even greater along the northern corridor route from Howe to the Moore Substation."

# Streams ordered closed

**JEROME** — The Idaho Fish and Game Department issued an emergency order today closing the tributaries of Anderson Ranch Reservoir to Kokanee fishing.

According to Bill Webb, regional supervisor for the Fish and Game Department, the closure had been ordered because of large numbers of fishermen and some vandalism.

The closure, effective until Oct. 15, affects the South Fork of the Boise River from the Pine Bridge downstream to the backwaters of the reservoir and Fall Creek from the Fall Creek Pine Road culvert downstream to the reservoir backwaters.

Fishermen "descended like a small city" this weekend, Webb said.

1,000 people with 14,000 Kokanee went through the check station on Saturday and Sunday. Fish and Game Department officials figure they checked only 50 per cent of the people there.

Webb said, this is the second year the area has been opened to snag fishing and this year there are ten times as many people as last year. Originally the area was opened to snag fishing due to overpopulation in the reservoir.

Snag fishing allows the fisherman to use any hook from any part of the fish's body.

Some fishermen were pulling the pickets from the weirs which had been set up by the Fish and Game Department to collect fish for planting in other parts of the state, Webb said.

Four citations were issued this week-end for over limit catches.

# TF program set Tuesday

**TWIN FALLS** — Dr. Charles E. Umbanhowar will speak on "Looking at the Presidency" at 3 p.m. Tuesday in Room 117, Shields Academic Building, College of Southern Idaho.

Dr. Umbanhowar is an associate professor of government at Idaho State University. His talk is being sponsored by the Twin Falls League of Women Voters in conjunction with a current study on the role of the executive branch in national government. He has taught courses in American Political Theory, Constitutional Law and Political Philosophy.

A question and answer period will follow Dr. Umbanhowar's talk. He will also speak to League members, prospective members and their guests at 7:30 p.m. Tuesday in the Fireside room of the Presbyterian Church.

# TF accident injures five

**TWIN FALLS** — Five persons were injured in an accident west of Twin Falls about 9:30 p.m. Saturday evening.

Treated and released at Magic Valley Memorial Hospital were Frank Garcia, 24, George Martinez, 29, Donald Joseph Joerges, 40, and Mary Joerges, 39, all Twin Falls. John Garcia, 23, was admitted overnight to the hospital but released Sunday.

The accident occurred one-quarter mile west of the Grandview Drive-In on Highway 30, according to Twin Falls Sheriff Paul Cordova.

Joerges was driving an Idaho Power Co. truck, investigating damage to a power pole when a collision occurred between the truck and the other vehicle, driven by John M. Garcia.

Garcia was cited for driving while intoxicated, sheriff's records show.

# Airwest will expand program

**SAN FRANCISCO (UPI)** — Hughes Airwest is expanding its ski program this winter with a wide assortment of package tours to Idaho, Montana, Nevada, Oregon, Utah and western Canada.

Airwest says it will offer 13 separate tours to major ski areas in the five states and Canada, and groups will be able to charter DC-9 jets to major ski destinations from Dec. 3 through April 13, 1976.

Besides the special ski packages, Airwest will also supply a "snow phone," computerized telephone network. The network will offer information on snow conditions at the West's major ski areas.

The packages also include accommodations and lift passes to the following ski areas: Lake Louise, Mt. Norquay, Sunshine, Banff and Marmot Basin in Canada; Sun Valley and Bogus Basin in Idaho; Big Mountain in Montana; Heavenly Valley near Reno; Mt. Bachelor in Oregon; Alta, Brighton, Park City, Park City West, Snowbird and Telluride in Utah.

Airwest said its Saturday-only jets will continue to operate from Los Angeles and San Francisco to Twin Falls, Idaho — gateway to Sun Valley. The Saturday flights will also supplement regular daily service to Twin Falls from such cities as Las Vegas, Phoenix, Portland, San Francisco, Santa Ana, Calif., and Seattle.

## Enjoy facilities

**LINCOLN** County children are enjoying the new \$85,000 pool opened three weeks ago. The children turn out in abundance each day after school. Francis Bergin, clerk of the recreation district, said about \$3,000 is still needed to finish painting the pool, to provide landscaping and to provide a plaque with the names of \$1,000 donors.

# Give blood in Ketchum at Catholic Church from 2-6 p.m. Tuesday

# Orantes wins U.S. title over Connors

FOREST HILLS, N.Y. (UPI) — Manuel Orantes, a Spaniard of monumental patience, perpetrated one of the biggest upsets in U.S. Open history Sunday when he so-called defending champion Jimmy Connors into submission, 6-4, 6-3, 6-3, before a crowd of 15,669 who watched in almost pure disbelief.

For Connors, who gained his world No. 1 ranking by winning the Australian Wimbledon and U.S. titles in 1974, the defeat was particularly hard to take because it meant that he had lost all three championships this year after fighting his way into the finals.

Chris Evert, who won the women's title for the first time

Saturday by defeating Evonne Goolagong-Cawley of Australia, 5-7, 6-4, 6-2, watched the match from a seat in the box in almost total silence.

The 28-year-old native of Granada, was not given much of a chance by tennis experts because he had never won a major championship before and because he did not get off court until just before midnight Saturday after an epic five set semifinal victory over Guillermo Vilas of Argentina. Orantes, down 2-1 in sets of 5-love in the fourth set, was forced to serve five match points against Vilas and it was thought it would be too much for him to perform a second miracle just 12 hours later.

"When Orantes hit a forehand down the line into the corner on match point, he turned to his wife Virginia in a courtide box and sank to his knees. He then satified the Spaniards in the crowd before going over to shake Connors by the hand.

The 5-foot-8½ Spaniard, a stocky 160 pounds, won the championship in the style of Chris Evert; he never left the court. He passed Connors as Jimmy tried to get to the net, and when Connors was at midcourt, he would find Orantes' lob too much to handle.

Connors said after the match, "He was unbelievable. I did not believe a man could hit passing shots for an entire match the way he did, but unfortunately for me he did."

Orantes became the second Spaniard to win the championship, succeeding where Manuel Santana triumphed in 1965. Orantes' victory was so popular that several hundred fans invaded the grey clay court to acclaim him.

Orantes, on receiving his winning check of \$25,000 and an automobile, told the crowd: "It is a great honor to have my name inscribed on the U.S. Open trophy. To win this tournament you have to be lucky and play well. I played well and was lucky, especially last night. My semifinal against Guillermo (Vilas)."

Orantes moved into the final almost unnoticed until his epic semifinal victory against Vilas. But he was the clay court player in form. He won the U.S. Clay Courts title in Indianapolis and was successful in the Canadian Open

**U.S. Open Champion**  
MANUEL ORANTES of Spain hits a high, hard one as he battles Jimmy Connors in the men's finals of the U.S. Open Tennis Championships at Forest Hills Sunday. Orantes won the match in three straight sets. (UPI)

# sports

## Bergdorf wins bowling title in Burley tourney

BURLEY — Dennis Bergdorf, Pocatello, won first place in the Dahlman Equipment Open-Idaho Scratch Bowlers Association Sunday at Bonanza lanes, Burley.

Second to Bergdorf was Ed Pullman of Boise, Bob Ford of Nampa was third, Lem Miller of Burley was fourth, followed by Gary Friley of Twin Falls.

The live men qualified for the finals in eight game qualifying blocks Saturday.

## Sipe passes Browns by Giants

SEATTLE (UPI) — Reserve quarterback Brian Sipe hit 15 of 18 passes to bring the Cleveland Browns behind for a 24-20 NFL exhibition victory Sunday over the previously unbeaten New York Giants.

Sipe, who entered the game in the second quarter for starter Mike Phillips, put the Browns ahead for good with a seven-yard scoring pass to reserve tight end Gary Farris in the third period.

The Giants ended the scoring with a 37-yard field goal by George Hunt and added a touchdown on a 71-yard punt return by Rodney Cabert to begin the second quarter.

The Browns countered with an 64-yard drive capped by a three-yard touchdown run by Larry Foole with just under six minutes left in the half. Sipe sparked that drive by completing six passes for 56 yards.

Hunt closed the first half scoring by drilling a 53-yard field goal for the Giants with just over a minute to play, lifting New York to a 17-10 lead at intermission.

The third quarter was all Cleveland. In addition to Sipe's seven-yard pass to Farris, Don Cockroft kicked a 34-yard field goal.

## S.F. Giants rout Broncos 44-10

SAN FRANCISCO (UPI) — Norm Snead, named the San Francisco 49er's No. 1 quarterback earlier in the week, fired a pair of touchdown passes to Bob Hayes, triggering a 44-10 National Football League exhibition rout of the Denver Broncos Sunday.

After Snead hit Hayes of scoring bombs of 18 and 31 yards early in the game, the 49ers defense forced three turnovers in a 15:15 span of the second period, leading to 10 more points enroute to a 29-0 halftime lead.

Denver, now 2-3, went 80 yards following the opening kickoff. Veteran quarterback Charlie Johnson made his 1975 debut and hit Bill Van Heusen with a 30-yard touchdown pass before the 49ers, also 2-3, took over and dominated the game.

Hayes' first touchdown catches as a 49er placed San Francisco ahead to stay. A fumble recovery by rookie quarterback Frank Oliver on the ensuing kickoff prefaced a 43-yard field goal by rookie Steve Mike-Mayer.

After a fumble recovery by linebacker Frank Nunley went for nought, linebacker Skip Vanderbil picked off a Johnson pass and returned it nine yards for a touchdown.

## Pats outrun Chargers 31-24

FOXBORO, Mass. (UPI) — Leon McQuay scored three touchdowns in the third period, one on a 101-yard kickoff return, as the New England Patriots outran the San Diego Chargers 31-24 Sunday night in a NFL exhibition game.

The victory, which brought the Patriots to 3-2 in preseason play, cost New England the services of quarterback Jim Plunkett for three to four weeks. The fifth-year pro suffered a separated shoulder during the second period.

McQuay, shaking off a slightly sprained ankle suffered in the first half, also scored on a 5-yard run and 56-yard ramp around the right side.

New England opened the scoring with Mack Herron's eight-yard touchdown run in the first period, but the Chargers countered with Ray Werschung's 40-yard field goal, 4 four-yard quarterback keeper by Dan Fouts, and an 11-yard fumble return by defensive end Gary Johnson to take a 17-7 halftime edge.

## Jets overtake 'Skins 35-31

WASHINGTON (UPI) — Cornerback Delles Howell's 37-yard rushing run with an intercepted pass triggered a 14-point fourth quarter comeback Sunday night and led the New York Jets to a 35-31 exhibition victory over the Washington Redskins.

Howell's interception was followed minutes later by the clinching New York tally as Bob Gresham went seven yards for his second TD of the game.

New York then held as the Redskins mounted their own last period comeback.

Second-string quarterback Randy Johnson, who had been victimized by Howell's interception, marched Washington on an 85-yard drive climaxed by a 29-yard scoring pass to wide receiver Larry Jones. The TD came with just over four minutes left to play, but the Washington effort fell short.

The high scoring battle featured fine performances by Washington's Bill Kinner and the Jets' Joe Namath. Namath was forced to the sideline late in the third period with leg cramps but not before completing 12 of 28 passes for 219 yards and one touchdown.

## Greenley urges legislation

BOISE (UPI) — The director of the Idaho Department of Fish and Game, Greenley, says he "strongly advocates the enactment of legislation to protect stream flows and thereby insure a future for fish and wildlife that depend on the state's streams."

Speaking at a hearing held by the Legislative Council Committee on Minimum Stream Flows, Greenley said, "The people of Idaho place a high value on fish and wildlife resources and recreation provided by the streams, values made very clear in recent surveys and hearings on the state water plan.

"To date," he continued, "laws of the state have been oriented toward diversions and no consumptive uses with little or no consideration of instream values." Unless this trend is changed, it will lead to the elimination of significant aesthetic and economic values dependent on maintenance of stream flows," Greenley said.

## Greenley urges legislation

Comparing Idaho's water to other western states, Greenley said Idaho "has some of the best fish and wildlife populations yet due in part of the quality and quantity of the water found here."

While other states have already devoted most of their water to consumptive uses and no longer have a choice, "Idaho still has the option to protect stream environments that are of value so highly," Greenley said.

"The majority of Idaho's streams have not been affected by man's activities and could be preserved by legislation with little or no adverse effect on existing or proposed consumptive uses," he added.

"I believe Idaho can preserve its streams and still maintain reasonable future growth" in agriculture and industry. With some foresight, Idahoans can have both a high quality environment and a high standard of living," Greenley testified.

"Aquatic habitats so important to Idaho's fish and wildlife resources can be afforded protection through state legislation or largely destroyed as has already occurred in many other states," he concluded.

In other news from the Department of Fish and Game, Resident hunting and fishing license sales picked up in August, but non-resident sales stayed below normal. Sales to residents were up 8.4 per cent over the same month last year, while non-resident sales were down 12.4 per cent.

Total resident license sales for the year to date stand almost six per cent below the same time-period last year and total non-resident sales are about 15 per cent below 1974 figures.

Greenley announced the department will submit only one bill to the Idaho Legislature this session on

## Greenley urges legislation

recodification of the fish and game laws. He said no substantive changes are contained in the new draft of the code book, but related laws are grouped together and a few obsolete laws have been deleted.

A preliminary draft of the department's first wildlife plan makes its way this week to director Greenley's desk for his review. "It will require more time to put the plan in a form to present to the Fish and Game Commission and the state's sportsmen for their input," Greenley said.

The plan now calls for a 15-year policy guide. Operational plans, detailing how polices will be fulfilled, will cover five years each. There will also be one-year segments of the operational plans to cover annual regulations and budgets, Greenley explained.

In the final draft of what he calls a comprehensive fish and wildlife policy plan, management goals and objectives for individual species and groups of species will be stated, Greenley added.

He said the plan will be spread throughout the state for public comment after the commission review.

# Mann wins LPGA Dallas Open golf

DALLAS (UPI) — Carol Mann shot her third straight sub-par round Sunday and fought off an early challenge by Sandra Palmer to coast to a five-stroke victory in the Dallas Women's Open.

It was the fourth triumph of the year for Miss Mann, who, despite her duties as president of the LPGA's executive board, is having her best year since 1969.

Miss Mann shot a final round 71 over the Brookhaven Country Club course for a 54-hole total of eight-under 208. That was five shots better than Miss Palmer, who could manage only a 72 Sunday and blamed her putter for not having made a better run at the winner.

Donna Young and Debbie Austin finished tied for third at one-under 215. Mrs. Young having posted a 75 Sunday and Miss Austin having a five-under 67.

Judy Rankin finished alone in fifth place at even-par 216.

The 6-foot-3 Miss Mann started the day with a three-shot lead over Miss Palmer and Mrs. Young, but after six holes Miss Palmer, the current U.S. Open champion, had narrowed the deficit to one shot.

But Miss Mann ran in a birdie putt at the par-3 seventh and Miss Palmer bogeyed the par-4 eighth and the race was soon over.

"I missed five putts of 10 feet or less," Miss Palmer said.

## Fishing hints: by Swen

**A lot of grumbling**  
A trip to Magic Res. produced a lot of grumbling from fishermen.

Why they ask is the fishing gone to pot? ...

For one thing, the Fish and Game Department budget must have gone amuck.

With increased costs and decreased revenue, it is only natural that less fish will be produced.

Also, my personal belief is that the lake and streams in the area of Magic Reservoir have become more and more polluted.

A case in point is the Richland canal, that flows from Magic. This stream, in years past, produced some of the largest fish to come from this area.

This year it has been a bust. Those who have fished the canal regularly are catching only smaller fish and few of them.

Why? Well for one thing, you need only pick up the mass that grows along the canal and shove it out onto a newspaper.

It used to be, in one good haul of 100 you would find 20 or so fresh water shrimp. Now you will be lucky to find 3 or 4 per haul.

This condition has been blamed on the use of chemicals put into the canal to control the moss.

The people in charge of such things, say they have stopped using the chemicals in the canal, but those who fish the canal say there is less moss now.

Perhaps the blame can be traced to the water itself.

It may be that the water coming into the lake (Magic) has been polluted from upstream development and it is only natural that the water would be affected.

Progress... the price we must pay?

# Cincinnati clinches west division title

**By United Press International**  
The Cincinnati Reds have set a new record—for the earliest clinching of a title in National League history—and now want to round out the season with one of the best all-around performances in major league annals.

The Reds clinched the NL's Western Division title Sunday when they defeated the San Francisco Giants 8-4 and the Atlanta Braves beat the Los Angeles Dodgers 5-4. The feat surpassed by one day the old Brooklyn Dodgers' clinching of the 1955 NL pennant.

With 85 victories and 20 games to play, the Reds have a good shot at winning more games than any other NL team except the 1966 Chicago Cubs (116) and the 1969 Pittsburgh Pirates (110). They are likely to surpass the 1962 Pirates' bulge of 72 games at the end of the season but if they retain their present 20% game lead it will be the second highest in major league

history. The American League record of 19½ games is held by the 1936 New York Yankees.

"This is the best Reds team I've ever managed," said Manager Sparky Anderson during the Reds' clubhouse victory celebration. "It's the best in every department—speed, defense, power and pitching.

"We're going to keep trying to win," Anderson continued. "Not at all costs, of course, but we need to keep good habits."

George Foster had four hits and drove in four runs and Don Gullett went seven innings to raise his record to 13-1 in Sunday's victory. Then the Reds, originally scheduled to fly immediately to the West Coast, waited 90 minutes for the news that the Braves had eliminated the Dodgers before hooping the corked 40 champagne bottles.

The Dodgers led the score 4-4 in the top of the ninth but the Braves won in the bottom of the inning when Marty

Perez' bases-filled single with two out drove in pinch-runner Rod Gilbreath. The Braves had-filled the bases on a walk, a single by winning pitcher Bruce Dal Canton and an error by second baseman Lee Lacy.

The Pittsburgh Pirates defeated the Montreal Expos 6-0, the St. Louis Cardinals walloped the New York Mets 12-4, the Chicago Cubs topped the Philadelphia Phillies 6-4, and the Houston Astros edged the San Diego Padres 3-2 in other NL games.

In the American League, it was Oakland over Texas 4-1 and 7-1, New York Yankees 0, Kansas City's California 7, Minnesota 9 Chicago 1, Milwaukee over Boston 7-3 after a 6-3 loss and Cleveland over Detroit 7-2 and 9-0.

Pirates' Expos pitched a fourturler for his 16th win and the Pirates hammered out nine hits including homers by Al Oliver and Dave Parker and a three-run double by Art Howe. The Expos pulled the fourth triple in the fourth inning when Howie popped to shallow left field with two on. Tim Lincecum, running backwards, made the catch, relayed to second baseman Pete Mackanin for the second out and he threw on to first baseman Jose Morales for the third out.

Cardinals 12, Mets 4. Ted Simmons drove in four runs with three singles and Mike Tyson knocked in three in a 10-hit attack which brought Lynn McClinton his 14th win against 11 losses. Jon Mallack was tagged for five runs in six innings and lost his 10th game against 16 victories.

Cubs 6, Phillies 4.

The Cubs took advantage of four errors, including two on the bases, to score six runs in the sixth inning and hand the Phillies' Wayne Twitchell his 10th defeat. Ray Burris went 7-2-3 in innings for his 13th victory for the Cubs.

Astros 4, Padres 2.

Danny Nolasco—out—loose with a wild pitch with the bases filled and one out in the ninth inning, enabling Greg Gross to score the winning run for the Astros. Gross had doubled with one out and advanced to third on a sacrifice bunt and an error by Willie McCovey. Dick Scharrin homered for San Diego and Doug Rader connected for Houston.

# sports Tom Watson wins Golf World Series

## World Series winner

**BRITISH OPEN** champion Tom Watson poses with trophy after winning the World Series of Golf and first prize money of \$50,000. He shot even par, 140 two strokes ahead of Jack Nicklaus in the 36 hole event. (UPI)

AKRON, Ohio (UPI) — British Open champion Tom Watson, falling to fold coming down the stretch, shot a one-over-par 71 Sunday to capture the 14th annual World Series of Golf and its \$50,000 first prize.

Watson, 26, of Kansas City, Mo., finished with a 36-hole score of 140, two shots in front of Masters and PGA champion Jack Nicklaus, five ahead of Canadian Open winner Tom Weiskopf and seven better than U.S. Open winner Lou Graham.

Nicklaus, who was seeking his fifth World Series of Golf victory in 10 appearances at the par 70, 7,180-yard Firestone Country Club, had to settle for his sixth runnerup finish after a final round 71.

Weiskopf, who got into this year's WSG by winning the first alternate event for qualifying, the Canadian Open, also shot a 70 Sunday and finished at 145.

Graham, who didn't get his first birdie in the two-day nationally televised event until the 32nd hole, shot a final round 71 for 147.

Watson, who started the day three shots in front of Nicklaus, five ahead of Weiskopf and six ahead of Graham, never led by less than two shots and had a three-stroke margin most of the way.

On both the 14th and 15th holes, Nicklaus had golden opportunities to cut at least

one and possibly two shots off Watson's lead, but the former Stanford University star was up to the task.

On the 14th, Watson hit his second shot into the bunker guarding the right side of the green, while Nicklaus' second shot was about 15 feet to the left of the pin.

With a possible two-shot swing slaring him in the face, however, the cool Watson blasted out eight feet from the hole and sank it for a par four. Nicklaus put appeared to be in but slid just by the left edge of the cup.

On the next hole, the tough 225-yard par 3 15th, Watson again found the sand and Nicklaus, desperate to mount a charge, hit a two iron 11 feet from the hole.

Again Watson got it up and down in two from the sand and Nicklaus' putt for a birdie missed.

Watson, making the most of his first World Series appearance, just about locked it up with a routine par on the 63rd yard, par 5 16th when Nicklaus hit his third shot over the back of the green and took a bogey six. Watson parred the final two holes.

Nicklaus, however, with Weiskopf closing in on him for second place, birdied the final

two holes, sinking a 23-fo on 17 and an 80-footer on 18.

"The whole tournament was 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100, 101, 102, 103, 104, 105, 106, 107, 108, 109, 110, 111, 112, 113, 114, 115, 116, 117, 118, 119, 120, 121, 122, 123, 124, 125, 126, 127, 128, 129, 130, 131, 132, 133, 134, 135, 136, 137, 138, 139, 140, 141, 142, 143, 144, 145, 146, 147, 148, 149, 150, 151, 152, 153, 154, 155, 156, 157, 158, 159, 160, 161, 162, 163, 164, 165, 166, 167, 168, 169, 170, 171, 172, 173, 174, 175, 176, 177, 178, 179, 180, 181, 182, 183, 184, 185, 186, 187, 188, 189, 190, 191, 192, 193, 194, 195, 196, 197, 198, 199, 200, 201, 202, 203, 204, 205, 206, 207, 208, 209, 210, 211, 212, 213, 214, 215, 216, 217, 218, 219, 220, 221, 222, 223, 224, 225, 226, 227, 228, 229, 230, 231, 232, 233, 234, 235, 236, 237, 238, 239, 240, 241, 242, 243, 244, 245, 246, 247, 248, 249, 250, 251, 252, 253, 254, 255, 256, 257, 258, 259, 260, 261, 262, 263, 264, 265, 266, 267, 268, 269, 270, 271, 272, 273, 274, 275, 276, 277, 278, 279, 280, 281, 282, 283, 284, 285, 286, 287, 288, 289, 290, 291, 292, 293, 294, 295, 296, 297, 298, 299, 300, 301, 302, 303, 304, 305, 306, 307, 308, 309, 310, 311, 312, 313, 314, 315, 316, 317, 318, 319, 320, 321, 322, 323, 324, 325, 326, 327, 328, 329, 330, 331, 332, 333, 334, 335, 336, 337, 338, 339, 340, 341, 342, 343, 344, 345, 346, 347, 348, 349, 350, 351, 352, 353, 354, 355, 356, 357, 358, 359, 360, 361, 362, 363, 364, 365, 366, 367, 368, 369, 370, 371, 372, 373, 374, 375, 376, 377, 378, 379, 380, 381, 382, 383, 384, 385, 386, 387, 388, 389, 390, 391, 392, 393, 394, 395, 396, 397, 398, 399, 400, 401, 402, 403, 404, 405, 406, 407, 408, 409, 410, 411, 412, 413, 414, 415, 416, 417, 418, 419, 420, 421, 422, 423, 424, 425, 426, 427, 428, 429, 430, 431, 432, 433, 434, 435, 436, 437, 438, 439, 440, 441, 442, 443, 444, 445, 446, 447, 448, 449, 450, 451, 452, 453, 454, 455, 456, 457, 458, 459, 460, 461, 462, 463, 464, 465, 466, 467, 468, 469, 470, 471, 472, 473, 474, 475, 476, 477, 478, 479, 480, 481, 482, 483, 484, 485, 486, 487, 488, 489, 490, 491, 492, 493, 494, 495, 496, 497, 498, 499, 500, 501, 502, 503, 504, 505, 506, 507, 508, 509, 510, 511, 512, 513, 514, 515, 516, 517, 518, 519, 520, 521, 522, 523, 524, 525, 526, 527, 528, 529, 530, 531, 532, 533, 534, 535, 536, 537, 538, 539, 540, 541, 542, 543, 544, 545, 546, 547, 548, 549, 550, 551, 552, 553, 554, 555, 556, 557, 558, 559, 560, 561, 562, 563, 564, 565, 566, 567, 568, 569, 570, 571, 572, 573, 574, 575, 576, 577, 578, 579, 580, 581, 582, 583, 584, 585, 586, 587, 588, 589, 590, 591, 592, 593, 594, 595, 596, 597, 598, 599, 600, 601, 602, 603, 604, 605, 606, 607, 608, 609, 610, 611, 612, 613, 614, 615, 616, 617, 618, 619, 620, 621, 622, 623, 624, 625, 626, 627, 628, 629, 630, 631, 632, 633, 634, 635, 636, 637, 638, 639, 640, 641, 642, 643, 644, 645, 646, 647, 648, 649, 650, 651, 652, 653, 654, 655, 656, 657, 658, 659, 660, 661, 662, 663, 664, 665, 666, 667, 668, 669, 670, 671, 672, 673, 674, 675, 676, 677, 678, 679, 680, 681, 682, 683, 684, 685, 686, 687, 688, 689, 690, 691, 692, 693, 694, 695, 696, 697, 698, 699, 700, 701, 702, 703, 704, 705, 706, 707, 708, 709, 710, 711, 712, 713, 714, 715, 716, 717, 718, 719, 720, 721, 722, 723, 724, 725, 726, 727, 728, 729, 730, 731, 732, 733, 734, 735, 736, 737, 738, 739, 740, 741, 742, 743, 744, 745, 746, 747, 748, 749, 750, 751, 752, 753, 754, 755, 756, 757, 758, 759, 760, 761, 762, 763, 764, 765, 766, 767, 768, 769, 770, 771, 772, 773, 774, 775, 776, 777, 778, 779, 780, 781, 782, 783, 784, 785, 786, 787, 788, 789, 790, 791, 792, 793, 794, 795, 796, 797, 798, 799, 800, 801, 802, 803, 804, 805, 806, 807, 808, 809, 810, 811, 812, 813, 814, 815, 816, 817, 818, 819, 820, 821, 822, 823, 824, 825, 826, 827, 828, 829, 830, 831, 832, 833, 834, 835, 836, 837, 838, 839, 840, 841, 842, 843, 844, 845, 846, 847, 848, 849, 850, 851, 852, 853, 854, 855, 856, 857, 858, 859, 860, 861, 862, 863, 864, 865, 866, 867, 868, 869, 870, 871, 872, 873, 874, 875, 876, 877, 878, 879, 880, 881, 882, 883, 884, 885, 886, 887, 888, 889, 890, 891, 892, 893, 894, 895, 896, 897, 898, 899, 900, 901, 902, 903, 904, 905, 906, 907, 908, 909, 910, 911, 912, 913, 914, 915, 916, 917, 918, 919, 920, 921, 922, 923, 924, 925, 926, 927, 928, 929, 930, 931, 932, 933, 934, 935, 936, 937, 938, 939, 940, 941, 942, 943, 944, 945, 946, 947, 948, 949, 950, 951, 952, 953, 954, 955, 956, 957, 958, 959, 960, 961, 962, 963, 964, 965, 966, 967, 968, 969, 970, 971, 972, 973, 974, 975, 976, 977, 978, 979, 980, 981, 982, 983, 984, 985, 986, 987, 988, 989, 990, 991, 992, 993, 994, 995, 996, 997, 998, 999, 1000.

# Royals, Oakland to play crucial three game stint

**By United Press International**  
When Whitley Herzog first addressed his players after taking over as the Kansas City Royals' manager on July 24, his message was plain and simple.

"I told them that if we go into Oakland in September five games or less behind the A's, we have a good chance to take the whole thing," Herzog recalled Sunday after Kansas City outslugged California 8-7 with the help of five home runs — three by Tony Solaita and two by John Mayberry, who leads the majors — to creep within five games of Oakland in the American League West.

"Like many things, the task is easier said than done. After all, the Royals were 10½ games behind the A's when Herzog took over and, as Reggie Jackson often has said, Oakland doesn't start to take its baseball seriously (with usually heavy clubhouse banter) until things get tight.

"Well, somebody had better call in a referee and two fight officials real soon because Kansas City has won 20 of its 45 games under Herzog, and the two teams begin a crucial three-game series tonight in Oakland.

"We played Oakland in August and we took two out of three — two shutouts, lost the third one 6-5," Herzog said. "They looked awful then. They definitely can beat us."

Especially if Solaita and Mayberry continue to crush baseballs the way they did Sunday.

Solaita, the 28-year-old "Smoan Strongboy," blasted three consecutive homers before his single scored Al Cowens with the winning run in the 11th inning.

"It was awfully tempting to go for another one," Solaita said of his chance to join seven other players who have hit four homers in a game. "Heaven in that situation, you have to give in a little to the pitcher. I just wanted to make contact."

Mayberry, who suffered through a haunting slump earlier this season, belted his 22nd and 23rd homers. A leading candidate for the Most Valuable Player, Mayberry is hitting a robust .296 with 94 RBI.

Elsewhere in the AL, Oakland swept Texas 4-1 and 7-3, New York blanked Baltimore 2-0, Boston split with Milwaukee winners 6-3 before losing 7-3, Minnesota drubbed Chicago 9-1 and Cleveland swept Detroit 7-2

and 9-0.

In the National League, Cincinnati clinched the West by defeating San Francisco 8-1 while Los Angeles was losing to Atlanta 5-4. Other scores were: St. Louis 12 New York 4, Chicago 6 Philadelphia 4, Pittsburgh 6 Montreal 0 and Houston 3 San Diego 2.

A's 4-7, Rangers 1-3.

Jim Todd pitched a 2-3 innings of shutout relief in the opener and Rolfe Fingers worked out an eighth-inning jam in the nightcap to help Oakland sweep Texas. Billy Williams' two-run homer, his 21st, was the key hit in the second game, while Bert Campaneris' Jackson and Gene Tenace all drove in first game runs.

Yankees 2, Orioles 0.

Jim "Califish" Hunter joined Walter Johnson and Lefty Grove as the only American League pitchers to win 20 games in five consecutive seasons when he pitched his seventh shutout and 27th complete game in besting Baltimore's 20-game winner, Jim Palmer. Sandy Alomar doubled, singled and scored both runs.

Red Sox 6-3, Brewers 3-7.

Carlton Fisk slammed a two-run eighth inning double to help Boston win the first game. In the nightcap, Bill Travers, knocking out in the first inning of the Red Sox' 20-4 victory Saturday, fired a three-batter shutout.

George Scott, struck a three-run homer, his 23th, to lead the Brewers. The split left Boston seven games ahead of Baltimore in the AL East.

Twins 9, White Sox 1.

Dave McKay, batting .438 since reporting to Minnesota on Aug. 22, drove in three runs and Steve Brye celebrated his return from a two-month layoff with a pair of home runs. Jim Hughes walked two and struck out four to gain his 14th victory.

Inland 7-9, Tigers 2-0.

George Hendrick drove in three runs and reliever Tom Buskey retired the last nine batters in the opener. Fritz Peterson tossed a six-hitter to win his eighth straight game and Oscar Gamble drove in three runs in the second game.

Perez' bases-filled single with two out drove in pinch-runner Rod Gilbreath. The Braves had-filled the bases on a walk, a single by winning pitcher Bruce Dal Canton and an error by second baseman Lee Lacy.

The Pittsburgh Pirates defeated the Montreal Expos 6-0, the St. Louis Cardinals walloped the New York Mets 12-4, the Chicago Cubs topped the Philadelphia Phillies 6-4, and the Houston Astros edged the San Diego Padres 3-2 in other NL games.

In the American League, it was Oakland over Texas 4-1 and 7-1, New York Yankees 0, Kansas City's California 7, Minnesota 9 Chicago 1, Milwaukee over Boston 7-3 after a 6-3 loss and Cleveland over Detroit 7-2 and 9-0.

Pirates' Expos pitched a fourturler for his 16th win and the Pirates hammered out nine hits including homers by Al Oliver and Dave Parker and a three-run double by Art Howe. The Expos pulled the fourth triple in the fourth inning when Howie popped to shallow left field with two on. Tim Lincecum, running backwards, made the catch, relayed to second baseman Pete Mackanin for the second out and he threw on to first baseman Jose Morales for the third out.

Cardinals 12, Mets 4. Ted Simmons drove in four runs with three singles and Mike Tyson knocked in three in a 10-hit attack which brought Lynn McClinton his 14th win against 11 losses. Jon Mallack was tagged for five runs in six innings and lost his 10th game against 16 victories.

Cubs 6, Phillies 4.

The Cubs took advantage of four errors, including two on the bases, to score six runs in the sixth inning and hand the Phillies' Wayne Twitchell his 10th defeat. Ray Burris went 7-2-3 in innings for his 13th victory for the Cubs.

Astros 4, Padres 2.

Danny Nolasco—out—loose with a wild pitch with the bases filled and one out in the ninth inning, enabling Greg Gross to score the winning run for the Astros. Gross had doubled with one out and advanced to third on a sacrifice bunt and an error by Willie McCovey. Dick Scharrin homered for San Diego and Doug Rader connected for Houston.

# Green wins Southern Open tournament by three shots

**COLUMBUS, Ga. (UPI)** — Veteran Hubert Green, frustrated in four previous tries here, fired a six-under 64 Sunday for a four-round Southern Open record 264 to overtake John Schroeder and win the \$100,000 tournament.

Green final total for the four-day tournament was three strokes less than the old record, which helped young Johnny Miller's rise to PGA fame in 1971.

Green finished three shots below the struggling Schroeder, who had dominated the first three rounds at the Green Island Country Club.

He trailed Schroeder by three strokes at the turn Sunday but then reeled off four birdies on the next five holes

and also birdied the finishing hole to give him his 64. That equalled the tournament record 64 that Mason Rudolph shot in the final round in 1970 when he won the inaugural Southern Open, then known as the Green Island Open.

Schroeder, from La Jolla, Calif., had led or shared the lead in this year's tournament since the opening round Thursday when he fashioned a 65 to tie the early-finishing Mac McLendon of Birmingham.

He started Sunday's final round with a stroke advantage over Green, and three shots ahead of Bill Rogers, the former University of Houston star. Rogers fell to a 71 Sunday and finished fourth, a stroke behind Terry Dill.

The victory was the first of the season for Green and brought him a first-place check for \$20,000.

Green, the third-leading money winner on the PGA tour last year when he won four tournaments and the PGA Team Championship and banked more than \$212,000, now has won \$110,298 this year.

The Birmingham, Ala., native, who now lives in Bay Point, Fla., had won only \$740 while failing to make the cut twice in his four previous tries at the Southern Open.

Schroeder, whose only tour victory came in the 1973 PGA Match Play Championship, birdied three holes on the front side to go three up on the field.

## FORECAST FOR TUESDAY, SEPTEMBER 9, 1975

**GENERAL TENDENCIES:** A fine day to delve into whatever mysteries face you and to get the answers you can use best to solve any perplexities. Seize the chance to discuss your aims with an influential man for he is in a more receptive condition to go along with your desires and wishes.

**ARIES (Mar. 21 to Apr. 19)** You can handle obligations well with an early start. Quietly understand how to have more harmony with loved one. Talk less.

**TAURUS (Apr. 20 to May 20)** Coordinate efforts with a partner for increased success. Find out why someone is not "acting" oddly toward you and do something to correct situation.

**GEMINI (May 21 to June 21)** Discharge obligations early. Take health measures that give you more vim and vigor. Evening can be particularly happy for you.

**MOON CHILDREN (June 22 to July 21)** Get yourself better prepared to have the fine social time desired. Show more thought and affection for one you love.

**LEO (July 22 to Aug. 21)** Show more devotion to kin instead of trying to lord it over them and gaining their displeasure. Put a solid foundation under your activities.

**VIRGO (Aug. 22 to Sept. 22)** Make the appointments necessary to gain the advice and aims you are after. Make your routines more proficient. Don't neglect necessary shopping.

**LIBRA (Sept. 23 to Oct. 22)** With common-sense handling of financial affairs, problems are soon solved. Don't downgrade others so much. Be more cooperative.

**SCORPIO (Oct. 23 to Nov. 21)** Get personal duties cleared and gain the assistance of a good friend. Accept a worthwhile social invitation; much benefit results.

**SAGITTARIUS (Nov. 22 to Dec. 21)** You have excellent reception and can study any matter and come up with the right answers today. Clear off accumulated debts.

**CAPRICORN (Dec. 22 to Jan. 20)** Get in touch with a good friend who will cooperate with you in an important matter. Gain a personal aim via social channels.

**AQUARIUS (Jan. 21 to Feb. 19)** Handle career and matters related, then you can gain the benefits that will accrue. Give immediate attention to credit.

**PISCES (Feb. 20 to Mar. 20)** Investigate an opportunity to expand. Some new contact can assist you greatly in the days ahead. Control your temper.

**IF YOUR CHILD IS BORN TODAYAY...** he or she will be one of those self-willed, dynamic young people who require ethical and religious training early so the efforts will be turned in the right directions. Education should be adequate and slanted toward whatever is of an investigative nature, or anything connected with property and big money, since the desire for conspicuous living is great. Make sure you permit to indulge in sports. "The Stars impel, they do not compel." What you make of your life is largely up to YOU!

# what's what

L. M. Boyd

Remember, the lobster always enters its burrow, tail first.

**WAS NONE OTHER** than Gene Fowler who said, "Success is a toy balloon among children armed with sharp pins."

**CLIENT ASKS** if babies ever cry audibly before they're born. Definitely. Medical records list one instance wherein an unborn infant wailed for 40 minutes.

**TO OUR ANNUAL** Limerick Contest comes this submission from William K. Alsop, Jr.: "I'll no trick to fix wicks or mix wax... I'm sick of thick chicks in slick slacks... For kicks, I stack sticks... Pick lax, or pack bricks... Sack tacks, or axe tacks, or track yaks."

**NEWLYWEDS** Just about 10 per cent of all the newlyweds 25 years ago lived with in-laws. Fewer than 1 per cent do so now. True, that was fairly soon after World War II when housing was hard to come by. But our Love and War man says that situation is flat out incomprehensible to most young couples today. That was about the year when "Goodnight, Irene" got so popular. Where did you and your matrimonial mate live then?

**Q. "ON WHAT** occasion is it okay to applaud the National Anthem?"

A. "Never," says a Washington, D.C. protocol specialist who always wears a severe correct suit.

**THIEVES** That one out of every 15 department store shoppers swipes something has been reported. A nationwide study revealed it. But local research in New York City indicates one out of every nine shoppers swipes something there. Average theft at last report was about \$36 worth.

**ASBESTOS WORKERS** reportedly tend to get more warts than do other craftsmen.

**A TOW TRUCK OPERATOR** writes to report his business dropped off when the speed limit was lowered to 55 m.p.h. To make ends meet, he says, he contracted out to drive-in theaters as a bouncer.

**THE FRESHER** the hard-boiled egg, the more difficult it is to peel. You know that. But do you know why? A newly laid egg with a white that's more acidic than alkaline has an adhesive quality. But an egg that's a few days old becomes more alkaline, then, acidic, and loses that stickiness. Scientists learned that about 16 years ago, probably at least a decade after your mother found it out.

# Minidoka gets depot

MINIDOKA — Union Pacific Railroad plans to donate the depot to Minidoka. City Attorney Robert Nielsen told councilmen Thursday that the building had been appraised at a minimum of \$7,000. Railroad officials earlier had planned to demolish the structure after moving into the new depot, but heeded requests from the city to turn it over for city use. Union Pacific now has moved its offices into the old building. The city plans to repair and paint two pumphouses this week. — The pumphouses and water tank are on lease from the railroad for 15 years. Councilmen also discussed the possibility of traffic problems at the Amalgamated Sugar Co. beet dump on the other side of the railroad tracks from town. But Councilman Chester Hoyt said he doubted that many trucks would be lined up at one time. Nielsen said the city could not control traffic there because it is outside the city limits, but he had discussed the question with Amalgamated officials and, if a problem arose, something would be done.

# Women flee trucker

COTTEREL — Two hitchhikers escaped bargaining a price they could not pay for the Cassia County Sheriff's Department reported. Deputy B.N. Crystal said the two women, ages 21 and 17, jumped from a moving truck Thursday after the driver made obscene proposals. Crystal said the women were picked up by the truck driver just outside Ogden and were from their way to Pocatello. They told Crystal the driver passed

# 2 attend GOP meet

TWIN FALLS — Two Twin Falls women will represent Twin Falls and Jerome Counties in the National Federation of Republican Women's Convention in Dallas, Tex., this week. The convention will be held Sept. 11, 12 and 13. Ornette Simula, who is national committee woman from Idaho, and Kathleen Noh, president of the Twin Falls club will attend.

# Lost miles

JEFFERSON CITY, Mo. (UPI) — The Missouri Conservation Commission says from the mouth of the Missouri River to Ruth, Neb., the river has lost 45.6 miles in the past 31 years, or more than eight percent of its former length. Between 1954 and 1972, 16.4 miles were lost. The average rate has been one-half mile a year.
