

# Paving ingredient turns playgrounds into lung hazard

BOSTON (UPI) — First, it was cigarettes. Now they say playgrounds may be hazardous to your health.

A New York physician told the American Lung Association today that an asbestos-like substance found in crushed rock used to pave playgrounds and roads could be linked to certain types of lung disorders.

A paper delivered by Dr. Arthur L. Frank of the Mount Sinai School of

Medicine in New York City at the group's annual meeting warned there is a possible widespread health hazard from the use of crushed rock containing a substance called chrysotile.

The crushed rock, mined from a quarry near Rossville, Md., has been used extensively in paving roads, playgrounds and parking lots in the United States.

Frank said workers in Maryland's Montgomery County recently removed

more than 10,000 tons of the crushed rock from the quarry which was used to surface school playgrounds.

He said workers in mining, milling and fabricating processes involving chrysotile are known to suffer from an increased incidence of chronic lung disease and some forms of cancer.

Air samples by Frank and his co-researchers taken in Montgomery County in the vicinity of roads surfaced with the

crushed rock contain concentrations of chrysotile 1,000 times greater than those found in other urban areas of the nation.

Marijuana smoking, parquat poisoning, legionnaire's disease, lung disorders in infants and the victims of non-smokers will also be discussed this week during the joint annual meeting of the American Lung Association and American Thoracic Society at the Sheraton-Boston Hotel.

Several hundred scientific papers will be

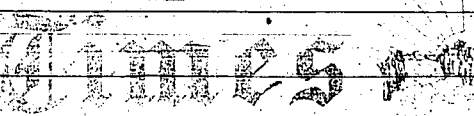

presented during the meeting on such topics as lung disease in non-smokers, parquat poisoning, and the effects of respiratory symptoms in relation to air pollution in London.

In another paper delivered today a researcher from the Oklahoma Health Sciences Center in Oklahoma City, said

loud moaning may be a signal of upper airway obstruction in the lungs.

An animal sleep studies conducted by Dr. William C. Orr, Jr., was determined that air flow into the lungs may stop for intervals as long as 40 to 80 seconds in persons with obstruction.

He said many people are unaware of they have obstructions such as enlarged tonsils and adenoids of a large tongue which blocks the incoming air.

# Jet sale debate approaches vote

WASHINGTON (UPI) — Senate Republican Leader Howard Baker today said President Carter's "double-edged" offer of F-16s for Israel in the Middle East arms package, and "reluctantly" urged fellow senators to approve the sale.

As the Senate launched debate on the controversial, \$5 billion proposal to sell warplanes to Saudi Arabia and Egypt as well as Israel, Carter engaged in some final-hour telephone negotiations with key senators to press his message.

White House Press Secretary Judy Powell told reporters Carter is "stressing to them the importance that he attaches to this vote."

reluctantly vote for the sale on that ground alone.

"I am convinced," he added, "that it is imperative for the United States to assure Israel of its unique relationship to our interests in the Middle East by granting the 150 F-16s the Israeli government has requested."

Baker and Senate Democratic leader Robert Byrd, D-W.V., speaking to reporters before the Senate began debate, predicted sufficient Senate support for

approval of Carter's package.

Sen. Clifford Case, R.N.J., said Egypt and Israel should have a chance to negotiate a Middle East peace without the complication of new, sophisticated weapons of war.

He urged that Carter put the package on the back burner with the understanding that all or any of the sales may be revived but the present time is the wrong time to push.

"He believes it to be crucial to our efforts to promote a peaceful settlement in the Middle East," Powell said.

In urging the Senate to approve the entire package, Baker said that because of the "unique" U.S.-Israeli relationship, Carter should double the number of F-16s to be sold Israel from 75 to 150.

He said, however, that "the balance of peace in the Middle East depends on congressional approval of the jet sales."

"I believe that the prospects for peace in that area would be significantly eroded by such a repudiation, and so I must

# School vote on Tuesday

MAGIC VALLEY — School board candidates throughout the Magic Valley face the voters in Tuesday's school district elections.

Following are lists of candidates for each school district and the polling hours and places.

Rhodes Wood in Zone 2 and Dick Geer in Zone 4. Polls will be open from noon to 8 p.m.

## Snapped up

LOS ANGELES (UPI) — One mortuary had a picture perfect idea for Mother's Day.

About 1,300 persons came in to Angeles Funeral Home in South Los Angeles Sunday to take advantage of an offer to provide free 8 by 10 color pictures of mothers.

John L. Hill, president of the funeral parlor, said in an advertisement he makes the offer every year because "my mother has passed on, I am fortunate to have many lovely photographs to remember her by."

Incumbent Byron Snyder faces the challenge of Gary Custer.

Polls will be open from noon to 8 p.m. at Twin Falls High School, Robert Stuart Junior High School and Lincoln and Morningside elementary schools.

Gooding

Three men are running for the two board positions to be filled in the Gooding election. The polls will be open from 1 to 7 p.m. at the school administration building.

Gooding Incumbent Bob Reinke is opposed by his bid for re-election in Zone 3 by Dr. James L. Malchan. In Zone 4, Wall Nelson, currently vice chairman of the board, is running unopposed.

Wendell

Rulon Chandler is the sole announced candidate for the trustee post in Zone 3, the only one up for election. He seeks the post now held by Ward McHan, board chairman, who did not seek re-election. Polls will be open from 1 to 8 p.m.

Hagerman

Charles Pepper, a local farmer, is vying with board Chairman Dean Williams for the one trustee post to be filled in Zone 1. Polls will be open from noon to 8 p.m. at the school.

Bliss

Two incumbents are running for re-election unopposed. Candidates are

Considerable interest is being shown in the Camas trustee race with six men vying for the three posts to be filled.

All of the candidates are newcomers to school board service since none of the incumbents are seeking re-election.

Seeking the one-year position in zone 2, the Corral area, are Wayne Clifford and Melvin Fletcher. The incumbent, Marvin France, who was filling out an appointive term, did not file.

In Zone 3, in Blaine County, Bill Stron and Jerry Perron are seeking the post now held by Kenneth Peck.

The contest in Zone 4, at Fairfield, is between Larry Jones and Boyd Eklund for the seat currently held by LeRoy Packham.

Shoshone

There is no competition for the two trustee posts open this year. Neither of the incumbents, Dr. E.D. Saras nor Gordon Braun, sought re-election.

Candidates are Martha Wallace in Zone 1 and Gary Hill in Zone 4. Polls will be open from noon to 8 p.m.

Richfield

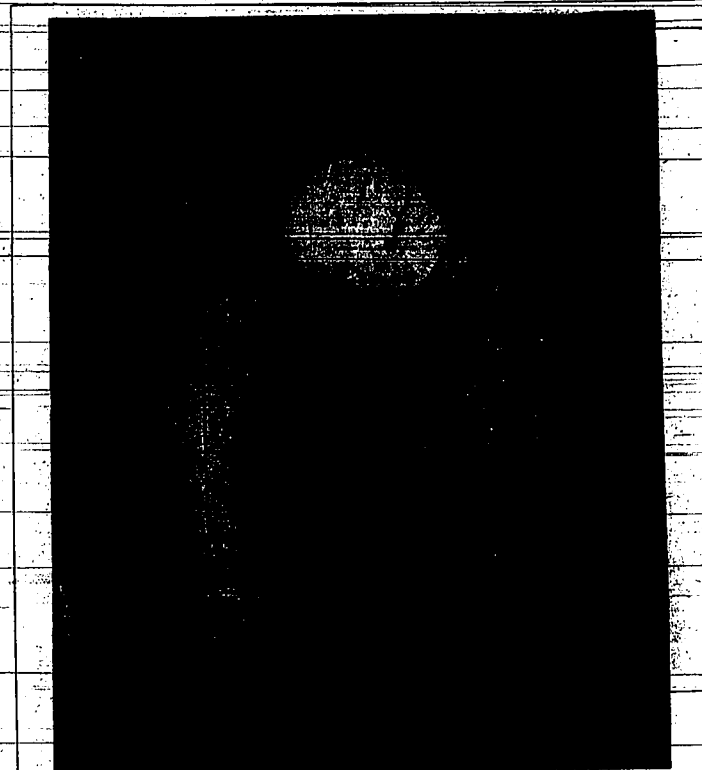

Rod Pridmore, who is currently serving an appointive term, is the only candidate.

Dietrich

Four posts are up for election because two trustees are filling out appointive terms. There is no announced candidate in Zone 2 where Arnold Bridge, vice chairman of the board, did not return a nominating petition.

It is expected there will be write-in candidates. Wayne Perron, superintendent, said there was a mixup about the deadlines for filing petitions.

Running unopposed for the other three seats are Jim Meservy, Zone 1, and Wallace Bingham, Zone 2, both of whom

## Benefit show

CLARE Williams of Twin Falls stops in the spotlight fashion show at the Holiday Inn in Twin Falls Friday. Men's and women's fashions were paraded before nearly 200 people in a benefit to raise money for the Y.

# Eight ballots carry levies

Rain, cool, wind P. 11

MAGIC VALLEY — Voter approval of override-and-plant-facility levies is being sought by eight Magic Valley school districts on Tuesday.

All residents may cast votes on the levies in their school district simply by showing up at the polls tomorrow.

To be eligible to vote a person must be 18 years old or older and a resident of the district.

Plant facility levies can be used for building and school grounds improvements and site acquisition. These taxes are levied for up to 10 years.

Override levies, collected for one year only, are designed to meet unforeseen school district expenses not covered by regular school taxes.

Following are brief descriptions of the levies and the times and places for voting on the override and plant facilities in the

eight districts, Twin Falls, Wendell, Casata County, Richfield, Camas County, Shoshone, Jerome and Kimberly.

Twin Falls

Voters in the Twin Falls School District are being asked to renew a 2 mill, 10 year plant facility levy.

The plant facility levy has been approved twice beginning in 1958 and would bring in approximately \$94,000 a year.

The district now pays the lowest per pupil of any district in the state and the levy is needed for several building projects.

Polls will be open from noon to 8 p.m. at the Twin Falls High School, Robert Stuart Junior High School and Lincoln and Morningside elementary schools.

Kimberly

Kimberly school district patrons are

being asked to approve a one-year, 6-mill override levy to pay for several special items and add some debt reduction.

The levy is a renewal of one for the same amount that was levied last year.

The polling place is the Kimberly Elementary School and will be open from noon to 8 p.m.

Jerome

The Jerome School District is seeking approval for a 3 mill, ten-year plant facility levy to complete several projects at the new high school and improve its older school buildings.

It is the first time the Jerome schools have sought a plant facility levy, which would amount to approximately \$78,000 a year.

Votes may be cast at the Jerome Junior High School gymnasium from noon to 8 p.m.

(Continued on p.2)

Gooding

Three men are running for the two board positions to be filled in the Gooding election. The polls will be open from 1 to 7 p.m. at the school administration building.

Gooding Incumbent Bob Reinke is opposed by his bid for re-election in Zone 3 by Dr. James L. Malchan. In Zone 4, Wall Nelson, currently vice chairman of the board, is running unopposed.

Wendell

Rulon Chandler is the sole announced candidate for the trustee post in Zone 3, the only one up for election. He seeks the post now held by Ward McHan, board chairman, who did not seek re-election. Polls will be open from 1 to 8 p.m.

Hagerman

Charles Pepper, a local farmer, is vying with board Chairman Dean Williams for the one trustee post to be filled in Zone 1. Polls will be open from noon to 8 p.m. at the school.

Bliss

# Stress grows on world's renewable resources

© New York Times Service

WASHINGTON — Fisheries, forests, grasslands and croplands, the systems that support life on the planet, have come under mounting and unsustainable pressures and have become a source of increasing economic stress, a new study has found.

A paper published by Worldwatch Institute, a resource monitoring body here, says that in large areas of the world human demands on these resources are already contributing to inflation, unemployment and reduced growth.

"As human needs outstrip the carrying capacity of biological systems and as oil reserves shrink, the emphasis in economic thinking must shift from growth to sustainability," said the paper's author, Lester Brown, an agricultural economist

and specialist in resource management.

His paper, "The Global Economic Prospect: New Sources of Economic Stress" develops a theme taken up earlier in this decade by the Club of Rome, an international group of industrialists, scientists, economists and sociologists that has sponsored studies warning of the dangers of overpopulation.

One Club of Rome work, "The Limits of Growth," jarred thinking a half-dozen years ago with the message that the planet's capacity to support human life and unrestricted industrial growth was rapidly being reached.

Brown adds to the pessimism by concluding that the so-called renewable resources — fisheries, forests, grasslands and croplands — are in danger of not being renewed and argues that declining yields

from them are adding to economic stress.

He cites the following evidence to support his contention:

— Between 1950 and 1970 fish supplied an increasing part of the human diet as the technological capacity to exploit oceans fisheries expanded. But in 1970 the trend was abruptly and unexpectedly interrupted, and the productivity of scores of oceanic fisheries is still falling as the catch exceeds the regenerative capacity. World population growth has led to an 11 percent decline in the per capita catch and to rising seafood prices everywhere.

— Forests provide not only lumber, but firewood as well, and for fully a third of humanity this is the main source of energy. With the average village requiring a ton or more of firewood each year, expanding village populations are raising

firewood demands so fast that the regenerative capacities of many forests are being surpassed.

— Population growth and rising affluence are increasing demands on the world's grasslands — a third when overgrazing is allowed to take place — and the productivity of scores of grasslands is still falling as the catch exceeds the regenerative capacity. World population growth has led to an 11 percent decline in the per capita catch and to rising seafood prices everywhere.

— Forests provide not only lumber, but firewood as well, and for fully a third of humanity this is the main source of energy. With the average village requiring a ton or more of firewood each year, expanding village populations are raising

capital or labor in any activity would eventually result in diminishing returns. Brown says the same principle applies to fertilizer utilization and crop yields in recent years.

During the 1950s, each additional million tons of fertilizer used annually was associated with a 10-million ton increase in the grain harvest. During the early 1960s the increase per extra million tons of fertilizer declined to 8.2 million tons of grain. During the late 1960s, it fell further to 7.2 million tons, and by the early 1970s, each additional million tons of fertilizer yielded only an extra 5.8 million tons of grain.

Efforts to expand the world fish catch represent another case of diminishing returns, according to Brown. He cites figures from the Organization for

Economic Cooperation and Development showing that the total gross tonnage of the world's fishing fleets grew by more than 50 percent in the six years ending in mid-1975. In the same period, the world catch did not increase at all, so the catch per dollar invested fell sharply.

Closely related to diminishing returns are the rising real costs of many commodities, a factor that adds to inflationary pressures. The world price of soybeans, a principal source of high quality protein, doubled between 1972 and 1973. During the five years since then, prices have remained at high levels.

Although rising oil prices have commanded attention in the industrial world, rising firewood prices have fueled inflation in many third-world countries.

# Women now 41% of work force

WASHINGTON (UPI) — Putting off marriage and children longer, today's women are gaining an ever-increasing share of America's jobs and now make up 41 percent of the total labor force, the Census Bureau reports.

Profiling the U.S. population, the bureau said the labor force topped the 100 million mark for the first time in 1977 with a gain of nearly 14.7 million workers in the period from 1970 to 1977. Women accounted for 57 percent of that growth and now hold 41 million jobs.

In 1960, the bureau reported, 38 percent of all American women were employed while in 1977, 48 percent of the women had jobs. During the same period the proportion of men working dropped from 83 to 80 percent.

The ratio of males to females in the civilian labor force declined from 210:1 in 1960 to 1.44:1 in 1977.

The bureau said the number of working

wives continued to increase, rising from 40.5 percent in 1970 to 46.4 percent in 1977.

Young women are delaying marriage and childbearing longer. About 43 percent of women in the 20-24 age group in 1977 had not borne children, compared to 36 percent in 1970 and 24 percent in 1960.

The number of women in their early 20s who have not married went from 36 to 45 percent between 1970 and 1977.

Based on interviews with some 53,000 households interviewed monthly, the researchers pulled together assorted population figures mentioned in earlier surveys.

Items:

- An estimated 1,914,000 unmarried adults of the opposite sex were living together in 1977, an 85 percent increase since 1970.
- The marriage rate went up marginally from 9.9 per 1,000 in 1976 to 10.1 in 1977 but was still below the peak of 11.0 in 1972. The number of marriages in 1977 was 2,176,000.
- Nearly twice the number of divorces, 1,097,000.
- About 33 percent of the first marriages of women in their late 20s may eventually end in divorce, the bureau estimated.
- Women in the same group with an incomplete college education were more likely to be divorced, 49 percent, than those with exactly four years of college, 29 percent.
- The average size of an American household has declined from 3.14 persons in 1970 to 2.66 in 1977.
- Median or mid-point family income in 1978—the only figure available—is in constant dollars, was \$14,965, about \$500 higher than in 1970, and was 3 percent higher in 1976 than in 1975.
- White families had a median income in 1976 of \$15,340; black families \$9,240 and Spanish origin families \$10,280. Families headed by females had a median income of only \$7,210 compared with a husband-

wife-family whose median income was \$18,200.

In 1976, about 25 million persons or 12 percent of the population were below the poverty level with blacks making up 39 percent and Hispanics 11 percent of the poor people. The elderly accounted for another 13 percent.

There were 24.5 million blacks in the population in March 1977, representing 11.5 percent of the total. Persons of Spanish origin numbered 11.3 million. The total included 8.5 million persons of Mexican origin, 1.74 million from Puerto Rico, 680,000 from Cuba, and 2.30 million from Central or South America or other Spanish locations.

The 1977 birthrate was 15.3 per 1,000 population, up from 14.7 in 1976 and 1975. The death rate declined downward to a historic low of 8.9 per 1,000, compared with 8.9 in 1976 and 1975.

# Sasquatch legends convince Soviets

VANCOUVER, British Columbia (UPI) — Criticizing their Western colleagues for harboring doubts about the legendary Sasquatch, two Soviet scientists say they are convinced the hairy, seven-foot ape-man exists.

"That there is a Sasquatch is as valid and obligatory to us as the fact that the world is round," wrote Dimitri Bayanov and Igor Bourtsjev, two Soviet scientists, in a paper delivered Friday at a conference on the creature at the University of British Columbia.

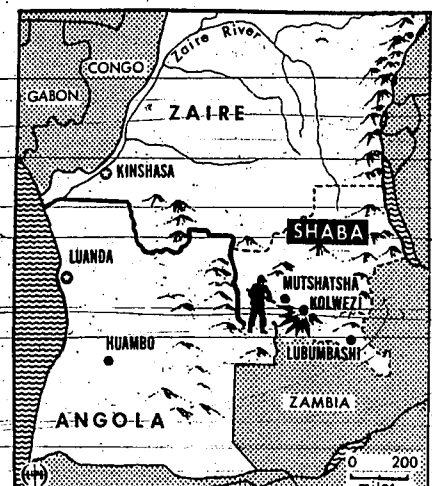

Bayanov and Bourtsjev were unable to attend, but sent a 60-page paper in which they said they believe firm and footprint evidence of a Sasquatch

encounter at Bluff Creek in Northern California is authentic.

The 1967 film was made by Roger Patterson and Robert Gimlin, who were in the mountains hunting for the creature, also known as Bigfoot. It purports to show a seven-foot female Sasquatch that left 14½-inch footprints.

The Soviet scientists said the film demonstrates that Bigfoot has "covert and subtle differences with man," occupies "an intermediate position between ape and man" and is "an original figure not to be confused with any other."

Bayanov and Bourtsjev blasted "irrational attitudes and narrow mindedness" among scientists in the West who doubt the existence of the Sasquatch.

CUBANS ACCUSED OF LEADING NEW REVOLT ... copper-rich Zaire province scene of fighting

# Zaire rebels take key town

KINSHASA, Zaire (UPI) — About 4,000 Zaireans splintered by Cuban troops have again attacked Zaire's copper-rich Shaba province and apparently captured the strategic mining town of Kolwezi.

Persons in Brussels and Paris claiming to speak for the rebels denied Zairean charges the Cubans were involved, that the attack originated in neighboring Marxist Angola, and that the revolt was aimed at winning Shaba's independence.

In Washington, a State Department official Sunday confirmed the rebel claims they had seized Kolwezi, the key railroad center in the province, formerly known as Katanga. Kolwezi is 220 miles inside Zaire.

The American official said it appeared another town, Mutshahala, 60 miles west of Kolwezi, also had fallen to the rebels, but heavy fighting was continuing in that region and the situation was less clear.

In Brussels, the Zaire Embassy denied either of the two towns had fallen.

The Paris-based Congo National Liberation Front urged Western governments to stay out of the conflict, denying Zaire President Mobutu Sese Seko's claims of Cuban participation. The front, which says it is the political force behind the uprising, said the rebels were Shaba natives trying to overthrow Mobutu.

Zaire's official AZAP news agency charged Sunday that while Katangese

exiles living in Angola formed the backbone of the rebel column that attacked Mutshahala, the group included "whites who have been identified as Cubans."

AZAP said, however, the attack on Mutshahala had been repulsed in a 2½-hour battle with the help of Zairean F-4 Phantom II fighter-bombers.

Another rebel opposition group, the Congo-Lumumba National Movement, said in Brussels the revolt "involves popular forces from every walk of life" and not just the Katangese.

The Katangese are the same force that fought in vain for an independent Katanga south of Zaire, the former Belgian Congo, achieved independence in 1960 and again in early 1977.

The Katangese invaded Zaire 14 months ago and fought an 80-day war before fading away under attacks by Mobutu's better-armed troops, were stiffened by the presence of a 3,000-man Moroccan expeditionary force.

A statement issued by the Liberation Front in Brussels said the rebels had "entirely liberated" Kolwezi and Mutshahala and seized a quantity of Zairean war material and destroyed five fighter-bombers, two helicopters and six transport planes. It denied Cuban involvement.

# Valley school elections Tuesday

(Continued from p.1)

are seeking election for a full term after being appointed to the board, and Mervyn Ridinger, incumbent in Zone 3.

**Blaine**

Four of five trustee positions will be contested in the Blaine County school board election Tuesday where two incumbent board members will not run for reelection.

Nine Blaine County citizens have filed petitions to enter the district election. All five trustee positions are up for election because the school board redrew

# Eight ballots carry levies

(Continued from p.1)

**Wendell**

Wendell school patrons are being urged to approve a 10 mill override levy Tuesday to give the district's financial condition a much needed boost.

Last month voters defeated a 10 mills plant facilities levy, but since then trustees and Superintendent Lawrence LaRue have made efforts to acquit the public with the need for the estimated \$70,000 income which the 10 mills would bring in.

Even if the levy is approved the district will have to trim some of its program. Although trustees have not announced just what cuts will be made, among the suggestions under consideration are elimination of music and physical education in the grade school and cutting back on teacher aides.

Non-tenured teachers have been notified they may not be offered contracts. The attendance officer was eliminated as of this semester and the budgeted amount for instructional supplies has been trimmed by some \$15,000 for next year.

Polls will be open from 1 to 8 p.m. in the physical education building.

**Shoshone**

At Shoshone, patrons are being asked to approve a five-mill override levy. The district currently has a 2 mill levy.

**Camas County**

Camas County school district voters will decide on a 9 mill override levy. The district now has a 3 mill levy in effect.

**Richfield**

Richfield district also is seeking a 10 mill override levy to assist the district finances. Both Richfield and Fairfield superintendents have said decision on teacher salaries for next year will depend upon the outcome of Tuesday's levy elections.

**Camas County**

The Cassia County schools are asking for a 5 mill override levy. Voters may cast ballots at the following polling places: Springdale School, Southwest School, Overland Elementary School, Oakley High School, Deco City Hall, Alblon Elementary School, Raft River School, Armo School, Burley High School and the Bean Growers warehouse in Milner.

trustee zones in February to more accurately reflect population centers in Blaine County. State law requires all school board trustees run for election, regardless of how long they may have served on the district board.

The length of each trustee's term will vary from one to three years depending on how long incumbent school board members served on the board before the trustee zones were redrawn.

Polling places will be located at schools throughout the district and will remain open from noon to 8 p.m.

In zone 1, which extends from Carey to Bellevue, incumbent Ross Peck will run against Ron Taylor. The zone 1 trustee will serve a two-year term, and voting will take place at Carey School and Bellevue Elementary School.

In zone 2, which runs from Bellevue to Halley, incumbent John Tracey will face Merle Hampton for a one-year term on the board. Ballots will be cast at Bellevue and Halley elementary schools.

In zone 3, which stretches from eastern Halley to Ketchum, incumbent Frank Rowland and Bertman Bender will be running for the trustee seat with a two-year term. Voting will be at Halley and Hemingway elementary schools.

In zone 4, which runs from western Ketchum north to the county line, Pete Flood stands unchallenged for a one-year trustee position. Incumbent Dr. Paul Husted did not file for reelection. Ballots will be cast at Hemingway Elementary School.

In zone 5, which extends from eastern Ketchum to Sun Valley and Elkton, then north to the county line, Jack Colven and David Griffith will vie for a full three-year term on the school board. Incumbent Dorothy Moore, the current board chairperson, did not file a petition for reelection. Voting will take place at Hemingway Elementary School.

**Jerome**

Two three-year trustee posts are up for election in the Jerome School District.

In zone 3, incumbent board member Lyle Van Orman is running unopposed.

In zone 4, there is a contest between Merna Johnson, who was appointed to the board in 1976, and Joyce Martin.

Balloting will take place at the Jerome Junior High School gymnasium from noon to 8 p.m.

**Valley**

In the Valley School District, the two incumbent school board members are running without opposition for two three-

year terms of office.

They are Glen Reed in zone 2 and Keith Huettig in zone 4.

Votes may be cast from noon to 8 p.m. at Valley High School.

**Castelford**

One incumbent faces opposition and another candidate is unopposed in two school board contests in District 417.

Incumbent board member Mary Ann Blank and James LeGrone square-off for a three-year term, while in zone 2 Lawrence Guldley Jr. is running alone. Incumbent Reynold Houk did not seek reelection in zone 2.

Voting will be at Castelford High School from 1 to 6 p.m.

**Riler**

Two incumbent Riler school board members are running unchallenged.

David Chadwick in zone 5 and Al Ochser in zone 3 have filed for reelection to three-year terms.

Voting in District 413 runs from noon to 8 p.m. at the Hollister School in zone 5 and Riler High School in zone 3.

**Buhl**

Two three-year trustee positions are open in Buhl.

Two men and two women are seeking the Buhl School District trustee post from zone 1 where incumbent John Honck is stepping down. They are Lila Bell, Linda S. Wolford, Jim Pearson and William Mason.

In zone 2, present school board Chairman Richard Morris is running without opposition.

Balloting takes place at Buhl High School from noon to 8 p.m.

**Hansen**

A total of 15 persons have filed petitions to run for election to all five school board positions in Hansen School District 415.

In zone 1 the contestants are Gail Mori,

Terry Burton and Bill Ehrhridge. Cecil Stanger, Merle Lierman, Pat Callen, Ron Gales and Leon Reed are running for zone 2 position.

In zone 3 Art Bally and Gary Nielsen face off.

In zone 4, the candidates are Phyllis Adams, Robert Pettigrove and Eldon Ethington.

In zone 5, Bill Allen faces Ted Crockett. The polls will be located at Hansen High School from noon to 8 p.m.

In the Kimberly School District, Keith Jensen is opposed for the zone 1 school board seat.

**Murtaugh**

Two three-year Murtaugh School District board memberships are up for grabs in the Murtaugh Elementary School.

In zone 4, Bill Nebaker is running unopposed. Incumbent Ralph Breeding previously held the position.

The zone 1 post is open to write-in candidates because no petitions of candidacy were filed.

The polls will be open from 1 to 8 p.m. at the Murtaugh Elementary School.

**Cassia County**

Del Garner, Raft River area; Bill Estes, Deco, and Donald Carson, Malta, are vying for the Zone 5 trustee seat being vacated by Charles Ward, Malta.

Polling places, which are open from noon to 8 p.m., include Deco City Hall, Alblon Elementary, Raft River School's hot lunch building and Almo School.

**Minidoka County**

Incumbent Barbara Belpas faces challenger Hal Stevenson for her Zone 5 Board of Trustees seat.

The polling places are open to voters from noon to 8 p.m., Lincoln and Acquia schools and the W.C. Ward residence, located at 500 East and 176 North.

# Violent weather abates on weekend

By United Press International

Heavy rains drenched New York City on Mother's Day but the rest of the nation got a break from spring's violence.

"It's been raining St. Bernards," a National Weather Service spokesman said of the 3.88 inches of rain recorded at Central Park to exceed the previous mark for the date — 2.55 inches in 1967.

Rain and accompanying high winds were expected to buffet the Northeast through today and possibly into Tuesday.

Flash flood watches were in effect throughout the New York metropolitan area.

The rains deflated flights into the area's airports and officials expected slow rush hours today because of some flooded streets and highways.

For the rest of the nation, Mother's Day ranged from nice to dreary, but for the first time in six weeks there were no reports of severe thunderstorms or tornadoes.

Rain-persisted in the Pacific Northwest and wet weather dominated the Great Lakes and mid-Atlantic coastal areas, but fair skies prevailed over most of the rest of the nation today.

Overnight temperatures dipped into the 40s in the Ohio Valley and upper Great Lakes region. Milder readings in the 60s and 70s extended westward across the Plains and into the lower elevations of the Rockies.

# Menzies dies at 83

MELBOURNE, Australia (UPI) — Sir Robert Gordon Menzies, a former Australian prime minister and one of the country's most dominant figures of the 20th century, died today at the age of 83.

Menzies' illness in Canberra said his death in Melbourne came after a long illness. He had been confined to a wheelchair since suffering a stroke in 1966.

Menzies first became prime minister in 1939 when he was 44 — the youngest prime minister in Australian history — and served until 1971. His second term from 1949 to 1966 was the longest in Australia.

He was knighted in 1963 by Queen Elizabeth II, who today paid a message of condolence. Menzies' family and the Canberra government, and made Lord Porters of the Ciskei Ports in 1965.

Flags were at half-staff over the Clock Tower — five historic English Channel towns that faced Europe with their naval fleets, before there was a British navy.

**Question . . .**

When a deceased person is entitled to both a Social Security and Veterans death benefit allowance, how is the distribution made?

**Answer . . .**

The lump sum Social Security death benefit is paid to the veteran's widow without regard to funeral cost. If she was living with her husband, the \$250 Veterans funeral benefit and the \$150 cemetery allowance usually is paid to the mortuary.

If there is no widow or the widow was estranged from her husband, Social Security will pay as a death benefit only the difference between the Veterans allowance and the cost of the funeral. The maximum payable under these circumstances may not exceed the Social Security entitlement; this is usually \$275.

Feel free to contact our office for copies of the latest official bulletins concerning Social Security and Veterans benefits, as well as other survivors rights and benefits.

# Congress takes up sanctions against terror havens

WASHINGTON (UPI) — Today marked the first step of a long legislative road for a bill to require the imposition of economic sanctions on countries that aid international terrorists.

The Senate Governmental Affairs Committee has completed work on the legislation and designated formal approval as its first order of business in today's session.

Because of its wide scope, the bill will

need approval by the foreign relations, commerce and possibly the intelligence committees as well, but an aide predicted the substance of the proposal probably will not be changed by the different committees.

The bill was weakened somewhat from its original draft after testimony earlier this year from Secretary of State Cyrus Vance that forcing the president to impose mandatory economic and trade sanctions

against countries that aid terrorists would "straitjacket the executive branch in the conduct of what is a large part of an issue which affects foreign policy."

At the same time, however, the bill coming out of committee today broadens the definition of a terrorist-aiding country to include not just those that provide arms or haven for terrorists, but those that provide the outlaws with financial or diplomatic support as well.

The measure would require the administration to:

- List for Congress every six months each incident of international terrorism.
- Name the countries involved in either abetting or capturing the criminals and describe the U.S. response.
- List countries that "have demonstrated a pattern of support for acts of international terror" and deny foreign aid, military assistance and commercial

ports to them unless the president tells Congress. "The interests of national security would be better served by not cutting off aid," the president could propose removing a country from the list, but a vote of both houses could veto that action.

— List and rate the security effectiveness of world airports that serve U.S. airlines or planes that fly to the United

States. The transportation secretary would have authority, on approval of the secretary of state, to "ban flights" to the United States from those airports.

The measure also requires explosives makers to "tag" their product with substances that will enable authorities to trace the location and date of manufacture and eventually to detect the presence of an explosive before it goes off.

## Pension setups threaten cities

WASHINGTON (UPI) — Pension plans for policemen and firemen could bankrupt many cities unless the plans are revamped, Police Magazine reports.

In an article in the magazine's May issue, writer John Blackmore described the commitments to paying future retirees as a "time bomb ticking away in every major American city."

In at least two cities, help came from elsewhere. Voters in Oakland, Calif., modified that city's pension system for policemen and firefighters to exclude newly hired employees, with the state picking up new employees in the plan. And Congress, which mandated a generous pension system in Washington, D.C., is stepping in to pick up some of the tab.

But many other cities will have to change pension systems from within, Blackmore said in an article entitled "Pensions: Something Has Got to Give."

"The accumulated pension debt for all federal, state and local jurisdictions taken together is said to exceed \$5 trillion — an amount equal to the federal budget for the next 20 years at its current level," he said.

# Inventor William Lear dies at 75

RENO, Nev. (UPI) — William F. Lear, 75, was an industrial genius whose inventions went on to become a part of the American automotive and aviation scene.

He was indefatigable — it was nothing for him to put in a 12-hour day even at his age, but a long bout with leukemia forced him into a hospital last week, and he died Sunday.

J.S. Lear's last instructions to him concerned a new turbo-prop business jet called Learfan.

"He said, 'Finish it. You bet we'll finish it,'" Lewis said.

Lear was responsible for the creation of the car-radio, the eight-track tape player, the Lear jet and more than 150 other patented inventions.

Lear, born June 28, 1902, in Hannibal, Mo., started his career in 1928 with the development of the automobile radio. That invention put Motorola Corp., in which once Lear held a one-third interest, into business.

WILLIAM LEAR

By 1930, he had branched out on his own. He formed Lear Developments, later Lear Inc., to produce aerospace and electronic equipment. By 1932 the company employed more than 5,000 workers in California, Ohio and West Germany.

His inventions of aircraft radio, navigation and autopilot systems won international acclaim, including the Frank M. Hawks Memorial award in 1940 for the Learmole-Hewigator. President Harry Truman awarded him the Collier Trophy in 1950 for design of the F5 autopilot system, the first for jet aircraft.

He received the Great Silver Medal from the city of Paris in 1960 for development of an automatic pilot for the Caravelle jetliner.

One of Lear's best known products, the Lear Jet, was introduced in 1963. It was the first business jet and the first production jet financed by a single individual. More than 800 have been sold.

In the 1960s, Lear's eight-track tape player went on the market, popularizing

stereo sound in automobiles.

Although his fame was worldwide and his personal fortune estimated at greater than \$30 million, Lear kept looking for new ventures. In 1968, after selling Lear Jet Industries, he concentrated on low-pollution power systems.

He developed a steam-powered bus that was successfully tested on the hills of San Francisco. Still under development is a car powered by the energy stored in a pair of spinning flywheels.

Lear Motors engineers predict the car will be able to travel up to 100 miles with a top speed of 60 mph before the flywheels must be re-energized from an electrical outlet.

Recently Lear focused on development of the Learfan business jet.

The craft will be built largely of plastic composites half the weight of aluminum but with the strength of titanium. The result will be a craft less than half the weight of the Lear Jet, nearly as fast and much more economical.

## Report raps Americans' food buying

WASHINGTON (UPI) — A draft congressional report released without authorization by a former Senate staff member recommends basic changes in America's food buying habits.

Guidelines for Food Purchasing in the United States, as completed independently by former Senate staff committee member Nick Mottern, lists three major guidelines for buying food:

- Avoid ready-to-eat foods in favor of fresh and processed food staples.
- Buy through consumer cooperatives and farmers' markets, and start a garden.
- Base food buying decisions on nutritional knowledge and avoid decisions based on advertising influence.

The 201-page draft urges the consumer "to become an active participant in the food system rather than a passive acceptor of its products and apparent convenience."

Fair days' pay for fair days' work

William E. Howard, Publisher
Chris Peck, Managing Editor
Monday, May 15, 1978

Twin Falls, Jerome schools need help

It is fairly easy for a taxpayer these days to thumb his nose at requests by the schools for more money, what with the continuing charges of an inferior product at a more expensive price...

Both districts appeal to the citizens of their districts Tuesday in the form of plant-facility levies. It has been made quite clear in the past few days that these levies are not merely further attempts at milking the taxpayer for as much as possible with the extra money used to buy some sort of bizarre piece of equipment not even dreamed of by science textbook writers 15 years ago.

Instead, the levies in Jerome and Twin Falls districts are quite basic in design. They concern such basic things as roofs, lights, walls and windows. And needed improvements in these areas need basic money, and enough OKs from the taxpayers Tuesday will provide the money needed. It's that simple.

Is there a case for opposition to the Jerome and Twin Falls levies? Unless the constant outcry of the exploited taxpayer is counted as a reason, no, there doesn't appear to be. The situation in the Twin Falls district is so perfectly clear that even the Twin Falls Chamber of Commerce departed from its usual quiet course on such matters and unanimously voted support for the levy in addition to commending James Sawin for his operation of the schools in his first year as schools superintendent.

The chamber should be applauded for its applause. In both Twin Falls and Jerome districts, it appears that improvements will have to be made in a number of buildings one way or another in the next few years, and waiting for funding in future years will only make matters worse ... and more expensive.

There are four schools in Jerome that require badly needed repair work. If that work isn't done soon, Jerome taxpayers may have to consider the costs of new schools sooner than they had perhaps expected. The 3-mill levy for 10 years will also be applied to projects completing the two-year-old high school.

The Twin Falls voters will be asked to continue a 2-mill levy for another 10 years. As Sawin says, it is difficult to see how the certain schools in the district could function properly without the levy extension.

Considering the well-publicized fact that Twin Falls School District spends less money per student than any other district in Idaho, Sawin and company can't exactly be accused of extravagance in their requests.

The levies in Jerome and Twin Falls school districts are sincere cries of financial help for very real problems. They must not be rejected.

Len Jordan, 79, and a statesman

Even though he is no longer officially serving Idahoans in the political arenas of Boise and Washington, D.C., it is good to know that a man like Len Jordan is alive and well and living in Idaho. Today the former Idaho governor and U.S. senator celebrates his 79th birthday, and probably thousands of Idahoans are celebrating with him ... at least in spirit.

He is still quite well remembered for carrying the spirit of Idaho with dignity to the floors of the U.S. Senate, and as such was considered by many as the last of the true old-time "western senators." As is the case with many nationally respected legislators, perhaps Jordan was not fully appreciated by the people of his home state during his tenure in Washington, but that in no way takes away from what he did accomplish in the Senate in the name of Idaho as well as in the name of Len Jordan.

Jordan, who is now living in Boise, says he still acts as an adviser to politicians who seek out his views. Considering that many of those Jordan-like traits (character, integrity, honesty, modesty, etc.) seem to be always in danger of evaporating from our governmental halls, maybe a series of short courses with Jordan should be considered as a basic requirement for Idaho legislators.

TWIN FALLS — It's coming some 88 years late, but Idaho legislators may soon be receiving a fair days' pay for a fair days' work.

Friday the Citizens Committee on Legislative Compensation — established through a 1976 Constitutional Amendment — voted to set legislative salaries at a rate which is finally approaching a livable wage. Unless rejected by a vote of legislators in the next session, Idaho's 105 lawmakers will receive a base pay of \$4,200 a year. That's a 28.5 percent increase from what salaries have been.

It's still not enough. Until the state salaries for Gen State legislators were among the 10 lowest in the nation. Now they're 12th from the bottom. But it's a significant step toward quality government in Idaho.

There has always been opposition to raising legislative pay. In 1971 two east Idaho legislators who voted for salary increases lost by the John Birch Society and other crackpot fringe elements.

That put the seal of God in many lawmakers, and they ducked the question of adequate salaries for several years. But the pinch was still felt. Most honest legislators privately agreed that it was so low many candidates could not afford to run for office. Finally, in 1976 the legislature placed on the

general election ballot a proposed constitutional amendment creating the existing Citizens Committee on Legislative Compensation.

Voters gave the go-ahead to the plan, under which the committee recommends salaries every two years. The legislature then has power to lower, reject entirely or approve its proposed new budget. Legislators no longer can raise their own pay.

Largely for this reason they point out, drafters of the Idaho Constitution set legislative salaries in 1890 at the rate of \$5 a day for 60 days.

That pay hasn't increased much until recent years, but the results weren't quite what the Idaho Founding Fathers expected.

Rather than encouraging citizens to serve without consideration of reimbursement, lack of funds prevented many persons from running for the legislature at all.

In recent years, some Idaho legislators have been mockeries of the idea of citizen representation. In reality, some legislatures have been little more than fronts for isolated special interests. The harsh reality is that in most cases only limited classes of persons are able to serve in the legislature.

These low salaries mean several things. The rich can afford to serve, as can those whose occupation won't suffer from a two-month gap during the legislative session.

Citizens and farmers frequently fall into both of those categories in Idaho. The legislature, for instance, meets in winter when out-of-door activities are fewest. It's not surprising that 77 percent of all Idaho legislators are employed in farming or ranching activities — a higher percentage than any legislature in the nation.

But low legislative salaries mean many persons can't serve in the legislature.

Lawyers with day-to-day practices, for instance, seldom wish the severe loss of income service in the legislature would bring.

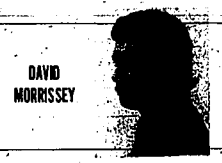

There were only seven lawyers in the last session and the lack of legal expertise was evident in the number of silly bills that made it out of committee.

Middle income businessmen can also rub out serving their state through the legislature. Few self-employed merchants can afford to lock their shops during the 60 to 70-day session.

Manual laborers are also excluded. Unless willing to accept the financial support of a business "benefactor" a day laborer simply can't afford to live during the legislature on what he is now paid.

For an incumbent legislator, these factors are not only a major deterrent. The smaller the number of qualified persons able to run, the better the chances of an incumbent being re-elected. And beneath the pious hypocrisy of some Idaho legislators who preach the virtues of a citizen legislature is the smug awareness that what he's really doing is pricing potential opponents out of office.

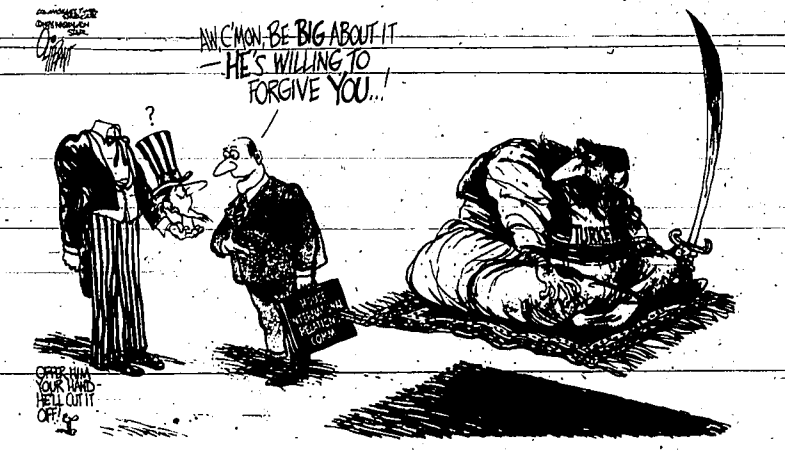

The way raise legislators are being offered is a good step, and a move supportive of a better legislature. It could go a long way toward making the Idaho Legislature a body representing all citizens, not just those financially able to serve.

DAVID MORRISSEY

There will likely be heated discussion of the proposed pay hike during this election year. And as with many political issues, a good deal of the argument will be rhetoric.

Advocates of low pay for lawmakers insist a minimal scale of pay encourages "citizen politicians" who volunteer their services for the good of the community rather than for the enticing salary.

Look out! Columnists at large

It promises to be the biggest collection of pathological liars, manic depressives, con artists, hypochondriacs, social outcasts, rumbustious braggarts, morality-free vipers, bleary-eyed alibis, alimony-dodging masochists, and flat-out deadbeats since the day they merged the original Georgia Prison Farm with the State Dungeon for the Hopelessly Adled.

It is the annual convention of the National Society of Columnists.

It will take place this week in Louisville. Newspaper columnists are a notoriously desperate lot. Taken one-by-one, they are relatively harmless. All you have to do is turn the page.

But last year, for the first time, the National Society of Columnists was formed. What is it? In the words of Richard Des Ruisseaux of the Louisville Times, chairman of this year's convention:

"The society is a loosely knit group of columnists — general interest, humor, what have you — who have no other organization they can count on to provide the rationale for a yearly luncheon. The society assesses no dues, elects no officers, has no secret handshake and does no good deeds. Its only goal is to perpetuate itself. Membership accrues only to those who attend the annual workshop or who, in lieu of that, send in a sufficiently large bribe."

If you are lucky, you may have never known a newspaper columnist. If you are unlucky, you know that.

If you are a newspaper columnist and you are dying of a dread disease, he will ask you to keep a diary and give it to him.

A newspaper columnist would trade away the First Amendment, the People's Right to Know, and his mother's virtue in exchange for two ideas that will put him a couple of days ahead of dead.

When you say something funny to a newspaper columnist, he will steal it and claim it is his own; if you say something that makes sense, he will twist it around, misquote you, and make you sound dumb.

A newspaper columnist is as good as his word, unless he needs to betray you for a column.

If your house is burning down and you and your family are hanging out the attic window shouting for help, a newspaper columnist will call the fire department for you, just as soon as he gets done phoning his office and jettisoning what you are wearing.

A newspaper columnist cannot stand the sight of blood, unless, of course, it is somebody else's.

A newspaper columnist is dedicated to his profession because he loves the underdog, believes in truth, and no one has ever offered him a real job.

And now America's newspaper columnists are banding together.

For years the editors and publishers of the country's newspapers have done this, gathering in convention each year to discuss the philosophical, ethical, and financial questions facing their brethren in the business.

The idea of columnists doing this, however, is new and for some reason sounds dangerous.

"The National Society of Columnists can help you, too," Des Ruisseaux promises his colleagues. "In just 10 short seconds a day, you can increase the length of your columns by one-third. The secret? Dynamic paraphrasing. The society can show you how."

At the columnists' convention, according to Des Ruisseaux, "Seminars will be conducted on such topics as 'Adjusting Your Margins in a Merit World,' 'Ethical Considerations of the Backspace Key,' and 'Outdoor Writing: The Importance of Properly Grounding Your

Machine During Thunderstorms."

One of the major functions of the columnists' convention, according to Des Ruisseaux, is devising a "workable correspondence system wherein potential column ideas can be circulated for individual recycling."

In other words, a way to swipe colleagues' ideas without having to go to all the trouble of reading other newspapers.

Also high on the agenda at the columnists' convention are five-to-six "hospitality suile" breaks per day, at which the columnists can mutter their favorite motto, such as "The only good editor is a dead editor."

When editors and publishers are invited to attend conventions, financial considerations are not very important, but columnists must obtain permission to travel. Addressing this, Des Ruisseaux points out:

"You'd expect to pay \$1,000 or more for our workshop, but because the society deals in volume, your cost is only \$50, which pays for the buffets, a day at the races (although not your losses), a kindly quantity of Kentucky bourbon and airdrop tickets, and a Glendon Bible in each hotel room."

Des Ruisseaux advises:

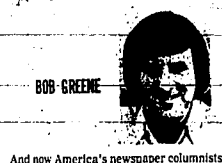

"The only items the society suggests you bring along are a notebook and a pencil or ballpoint pen (no crayons, please). You won't be expected to use them, but when your managing editor sees you off at the airport, he'll think that the suitcase is serious business and not just another junkie."

"If you have time to whip through your scrapbook, you might also send along three samples of your handwork. If you have any three are timeless or with universal appeal (the kind I could conveniently steal," in other words), so much the better."

Don't look for any reports of the National Society of Columnists convention in the newspaper, by the way.

The newspaper columnists have unanimously voted to make the entire proceedings off the record.

Field Enterprises, Inc.

BOB GREENE

Berry's World

Be neurotic, yes; but be FUNNY-neurotic — like Woody Allen.

Feminist movement gave houses to some

A lot of American families can thank the feminist revolution for the roofs over their heads.

And a lot of other families could have good cause for blaming it for their difficulties in finding roofs.

Why? Because the feminist movement's success to date in expanding the legal rights and responsibilities of women has been a major contributing factor in the current housing boom.

That, in its way, is the good news — for two-income families, and the housing industry.

The bad news is that single-income families, generally those in which only the husband is a jobholder, have not seen their mortgage-eligible income escalate similarly. Consequently, they are being priced out of the market as housing costs continue to rise steadily. Unless, of course, they were fortunate enough to be home-owners before 1975 and can apply the increased value of a present home to the purchase price of a new one.

But that's the way it is with revolutions — you win some and you lose some.

Brock didn't draw up the agenda for the so-called "Dewater Conference" in Eastern Sea.

But Brock knew the affirmative action item was included for discussion, and did not protest. "It is an issue we've got to face," he said.

Maybe so. But it is also the kind of issue on which Republicans and blacks are likely to remain light years apart philosophically. And it is symptomatic of the very real differences of perspective that will probably limit GOP inroads among black voters.

GOP works to win over wary blacks

WASHINGTON (NEA) — Republican efforts to woo black voters away from the Democratic Party appear to be paying dividends in many parts of the country, but deep-seated differences of perspective are likely to keep the gains relatively modest.

Since becoming chairman of the GOP National Committee some 16 months ago, former Sen. Bill Brock, R-Tenn., has fought vigorously to reverse his party's long-standing record of indifference and insensitivity toward black Americans.

Other Republicans have talked periodically of the importance of broadening the base of the GOP, but Brock is the first national chairman to put the party's money and muscle where his rhetoric is.

By the end of this year the national committee will have spent at Brock's direction, nearly \$1 million on programs aimed at recruiting black candidates and voters to the Republican cause.

The investment is producing tangible results. After an intensive effort by a team of black political organizers hired by Brock, Rep. Robert Livingston, R-La., won a special House election last August with 22 percent of the black vote. In Louisiana he polled only 1 percent of the black vote and had lost to a Democrat subsequently ousted on vote fraud charges.

Brock persuaded the charismatic Jesse Jackson to address the full RNC at the Washington meeting early in the year, and Livingston has stepped forward to underwrite the financially starved public affairs television program, "America's Black Forum," which has been on the air nearly a year in 20 major media markets but was threatened by a lack of commercial sponsorship.

All this activity has unquestionably helped the GOP's image in the black community, but suspicious linger about the depth of Republican concern. And for all Brock's nuts-and-bolts work, and his efforts to emphasize GOP proposals that appeal to blacks, there remain some very real examples.

A classic example is what has been on the tentative agenda for an April 28-30 conference of elected state and national Republican officials in Easton, Md. "Resolved: we support affirmative action which removes all roadblocks to equal opportunity; however, we oppose government action which discriminates against any person by imposing quotas (numerical standards) based upon race, color, creed, sex, religion or national origin."

There is no question the issue of "quotas," by whatever name (goals, targets etc.) is a burning one in today's society. And Rep. blacks, in opposing such numerical and sex, creed, race, color, creed, sex, religion or national origin.

But this very same issue, and its companion "reverse discrimination," constitute a red flag to black Americans' fear that any further progress towards equal opportunity can be achieved in the absence of such spurs.

Brook didn't draw up the agenda for the so-called "Dewater Conference" in Eastern Sea. Robert Paole, GOP R-Cm., chairman of the elected state and national Republican officials in Easton, Md. "Resolved: we support affirmative action which removes all roadblocks to equal opportunity; however, we oppose government action which discriminates against any person by imposing quotas (numerical standards) based upon race, color, creed, sex, religion or national origin."

But Brock knew the affirmative action item was included for discussion, and did not protest. "It is an issue we've got to face," he said.

Maybe so. But it is also the kind of issue on which Republicans and blacks are likely to remain light years apart philosophically. And it is symptomatic of the very real differences of perspective that will probably limit GOP inroads among black voters.

## King Hussein keeps mum on marriage plans

KING HUSSEIN

United Press International  
**ROYAL WEDDING?**  
 The Royal Palace in Amman isn't talking, but press reports in France are saying Jordan's King Hussein, 42, is planning to marry tall, fair-haired, 25-year-old Lisa Halaby, daughter of Wallace Halaby, president of Pan American World Airways. Halaby, of Lebanese descent but raised in Washington, has been working in Amman as a landscape and building planner. Hussein's third wife, Alla, was killed in a helicopter crash about a year ago. While keeping mum for the moment on the king's marriage plans, a royal spokesman says a "comment" may be issued by midweek. No one else is talking.

**NOROYAL WEDDING?**  
 While Britain's Princess Margaret, 47, is recuperating from hepatitis at her Kensington Palace and waiting for her divorce from Lord Snowdon to go through, the king's eldest daughter, Princess Shamsa, 31, is convalescing in Tangier, Morocco, from a stomach ailment. Llewellyn is also busy talking to the London tabloids — asserting: "I will never marry Princess Margaret... There is no chance of us getting married..." But — the commune resident-turned-pop singer adds: "Of course, I shall see her again. We are good friends."

**CHANGIN' TIMES**  
 Sen. Edward Kennedy was greeted warmly Sunday by the graduating class of the University of Mississippi — the same Ole Miss occupied by federal troops in 1962 at the order of his brother, President John Kennedy, to force the admission of black civil rights activist James Meredith. In fact, officials at the Oxford campus said many of the school's 1,064 graduates decided to participate in commencement ceremonies only because the Massachusetts senator — who wore a Massachusetts Rebel lapel button and warned against a too-powerful federal government — was to be the main speaker.

**ONLY IN AMERICA**  
 The most important moment in the Watergate episode — at least to Federal judge John Sirica, who ought to know — was the day the Watergate grand jury voted to subpoena the secret tapes kept by then-President Richard Nixon. Sirica told the graduating class at Mount St. Mary's College in Emmitsburg, Md., Sunday: "... Here were the little people coming from all walks of life and making demands of the most powerful man in the world. They told the students they should keep the faith 'because if a little Italian guy named Sirica had the opportunity and made it, then you surely can make it, too.'"

**GLIMPSES**  
 Danny Kaye will give the keynote address next Sunday at commencement ceremonies at Pomona College in Claremont, Calif. ... Jacqueline Kennedy Onassis is in Tel Aviv, Israel, for today's dedication of the Museum of the Jewish Diaspora ... Al Pacino came out of seclusion — at least for the weekend — to dance at Manhattan's J.U.S. Steakhouse at a party to celebrate the end of the shooting of the upcoming movie "Oliver's Story."

AL PACINO

JOHN SIRICA

# Grandma awaits her turn in jail

GEORGETOWN, Ohio (UPI) — Great-grandmother Mildred Wilburn will remember this Mother's Day as the one she spent waiting to get jail.  
 City officials did some quick footwork to keep the stubborn grandma out of the clinic on the annual day honoring motherhood after the spunky 70-year-old first pleaded guilty to letting her granddaughter stay out past curfew, then opted for two days in jail rather than pay a \$38 fine.  
 "I'm just settin' here wait-

ing for them to come to take me to jail," said Mrs. Wilburn, mother of 10 children, 23 grandchildren and 10 great-grandchildren.  
 "Really? I should be upholdin' the law. But I feel it's not a good law," she said.  
 Because Georgetown has no facilities for women prisoners, Mrs. Wilburn's punishment will wait until an appropriate cell opens up in one of three surrounding county jails.

She was ready for an additional jail sentence Friday, when her granddaughter Shirley Mae appeared in juvenile court for her curfew violation that sparked the incident.  
 Mrs. Wilburn was fined \$38 after pleading guilty to permitting the 15-year-old out two hours past the town's 9 p.m. curfew earlier this month. But, the self-described "stubborn old woman" still contends her granddaughter was unfairly singled out by

police from a group.  
 Judge John Johnson told the youngster Friday to pay \$11.50 for court costs and ordered her income by \$2 a week for the next 60 days.  
 "And he (Johnson) didn't tell me to pay the court cost, because I'd say in lay it on the line (arrested)," Mrs. Wilburn said, chafing at the thought of the judge's reaction.  
 She added, "He (Johnson) is nice and treats you with respect like we were human beings too."

She wasn't quite as pleased with what she saw in Mayor's Court last Tuesday, however, when she reported guilty.  
 When the news spread, people from as far away as California telephoned the great-grandmother, voicing support. Some even said they'd pay the fine and end the matter.  
 "But that's not what we're wanting to do," she said.  
 After futile attempts last week to change her mind, Mayor Joseph C. Rose postponed her jail stay until after Sunday.

"Mother's Day is coming up and it would be ridiculous to have her in jail then," said the mayor.

## Young intruders viciously beat blind minister and his sister

CHICAGO (UPI) — An elderly, blind minister, well-known by neighbors for his kindness and warmth, finds it difficult to understand why screaming intruders broke into his apartment and viciously beat him and his sister.  
 "We don't have anything here," the Rev. Hubert L. Lalan, 76, said Sunday at his South Side home.  
 Lalan — a Presbyterian

minister, and his sister, Harriet Hellbuth, were kicked, punched and slashed with knives Saturday night by the intruders. Mrs. Hellbuth, 82, also is blind.  
 "They didn't have anything to do with me," Mrs. Hellbuth said one neighbor who declined to identify herself.  
 "They lived off his social security income. Sometimes you'd wish they'd pick on someone who can at least fight

back."  
 Terry Davis, 19, and Alvin Patterson, 23, were charged Sunday with aggravated battery, attempted robbery and burglary in the incident. Bond was set at \$75,000. Police said a 15-year-old boy who lives next door to the victims was named in a delinquency petition on the same charges.  
 Mrs. Hellbuth was listed in good condition Sunday at Little Company of Mary Hospital in suburban Evergreen Park. Lalan was released after treatment.

"It makes me so mad that they hurt Harriet," Lalan said. "If I had taken the initiative, they would have left. I should have taken a crowbar and beaten them up."

## Operating on camel not an easy task

ALBUQUERQUE, N.M. (UPI) — Henry's operation for removal of an orange-sized tumor went off without a hitch, thanks to a well-placed tranquilizer and the chief surgeon's feet.  
 Henry is a 1,200-pound camel who lives at the city zoo and — as veterinarian Bret Snyder learned — is rather ornery.

Once Henry went to sleep on bales of hay, it didn't take the veterinarian long to remove the tumor.  
 "None of the Ben Casey stuff," said Snyder in explaining the operation procedures employed, "not for one little tumor like that."  
 Following the operation, Snyder had to give Henry a stimulant to help him get over the effects of the sedative. This time, he employed an eight-foot pole.  
 Snyder said the operation was a success.  
 "It went like we'd been handling camels for 20 years," he said.

Zoo officials recently discovered the tumor in the camel's neck and set an operation with Snyder. But getting Henry to cooperate proved to be tough.  
 Snyder first tried the gentle approach as he attempted to administer a tranquilizer. But he found out the camel just walk up and give a camel a shot.  
 "He whipped his head around to bite me, then he look off after me," Snyder said. "Luckily, Henry received enough of the sedative to slow him down."  
 "He was doped up so he wasn't making his best effort. But, it was fast enough that I was running."

# Texas evacuees returning

NACOGDOCHES, Texas (UPI) — Fires spread by the explosions of three derailed tank cars were brought under control early today, and thousands of evacuated residents began returning to their homes.

The three tank cars were among eight that jumped the track Sunday just outside of the East Texas town of Nacogdoches as a 127-car Southern Pacific train crossed a small wooden trestle over a stream feeding into Lake Sam Rayburn.

Explosions from the cars sent huge balls of orange flame curling 400-feet into the bright afternoon sky and scattered smoking fragments of hot metal into nearby woods, causing additional fires. There were no injuries caused by the explosions.

"It was about 1,000 feet away when one of the cars went up," said Fire Chief C.E. Duffin. "It was pretty spectacular. It was a loud, thunder type explosion. The flames went up and then formed a black mushroom cloud."

Duffin said the tank cars that exploded were believed to carry ethyl acrylate, propylene oxide and butadiene, all highly flammable petroleum chemicals.

The derailment occurred at mid-afternoon and between 2,500 and 3,500 people — including residents of two nursing homes — were evacuated as a whitish-blue haze drifted over the southern edge of the city.

That haze initially was thought to be gas but Duffin said it later proved to be smoke from the fires.

Duffin said there were no injuries in the explosions but a fireman, policeman and several reserve officers were treated at hospitals for minor injuries sustained in fighting the blaze.

Officials from the Environmental Protection Agency ordered the creek under the burning trestle be dammed until it could be determined if any dangerous chemicals spilled into the slow running stream. Duffin said preliminary tests showed some chemicals were in the water, but none were considered dangerous. He said the dam would remain intact until a thorough check of the water could be made.

Duffin said investigators would try to determine the cause of the derailment as soon as the tank cars cooled enough to approach the tracks.

## Ultrasound caution advised for doctors

WASHINGTON (UPI) — An expert on medical devices is urging doctors to exercise "a little common sense" in the use of ultrasound, a sound-like instrument used in some diagnostic procedures.

David Link, director of the Food and Drug Administration's Bureau of Medical Devices and Diagnostic Products, said in an interview that knowledgeable people have observed no detrimental effects in humans from its use.

"But why expose people unnecessarily to things about which everything isn't known," Link asked.

FDA Commissioner Donald Kennedy expressed the agency's concern in recent testimony to Congress, and the FDA is circulating to medical professionals a draft statement saying it intends to take some action in the field of diagnostic ultrasound.

"Like so many other things, it has never been rigorously studied to conclude without any question that the levels used are indeed unequivocally safe," Link said.

Ultrasound is used particularly to view unborn infants. The newsletter Science Trends, which first reported the FDA's concern, said officials are particularly upset that ultrasonic fetal monitoring is being carried out at medical equipment sales demonstrations.

## Bright look for Schultz

WASHINGTON (UPI) — White House economist Charles Schultz said today he expects the economy to continue moderate growth in the immediate future and he disagrees with private forecasts of a 1980 recession.

Interviewed on "The CBS Morning News," Schultz said he thinks President Carter's inflation strategy will work, but he cautioned against expecting immediate results.

Success, said Schultz, cannot be "guaranteed." But he said "we think it does" stand a chance of bringing inflation down.

"We've been suffering this kind of inflation for seven years," Schultz said. "What we're trying to do is turn it down. It's going to be a problem. It is a problem, and in the first lining you're not going to win. But there are eight more innings to come," he said.

## Ted wants federal role cut

OXFORD, Miss. (UPI) — Sen. Edward Kennedy, appearing on the campus where his late brother once sent federal troops to enforce integration, called Sunday for a lesser role by the federal government in the lives of Americans.

Kennedy, wearing a Mississippi Rebel lapel button, told University of Mississippi graduates that Americans must find ways to regulate society and control their own lives.

"The way to have good and safe government is not to trust it all to one, but to divide it among the many," Kennedy said, quoting Thomas Jefferson.

Kennedy suggested allocating more power to state and local governments as a way of breaking the federal government's grasp on the lives of citizens.

"Federal authority extends to almost every aspect of our social existence," Kennedy told more than 7,000 people at the commencement ceremonies. "It affects the structure of our cities, the price of our groceries and the conduct of our schools."

The 46-year-old senator received a warm welcome at the university. School officials said many of the 1,064 graduates decided to participate in formal spring commencement ceremonies after hearing Kennedy was to be the main speaker.

In 1962, Kennedy's brother, the late President John F. Kennedy, ordered federal troops onto the campus of Ole Miss to force the admittance of black student James Meredith.

The Massachusetts Democrat was introduced by Mississippi Sen. James O. Eastland, an Ole Miss graduate. Eastland, president pro-tempore of the Senate, is retiring this year and Kennedy is slated to succeed him as chairman of the powerful Judiciary Committee.

## Colby denies lie charges

WASHINGTON (UPI) — Former CIA Director William Colby says allegations the CIA conducted a covert war in Angola and tried to keep it secret are correct, but said today he never lied to Congress about the campaign.

Colby, in an interview on NBC's "Today" program, denied charges by former CIA agent John Stockwell that he misled Congress about the scope of the U.S. operation in Angola.

The CIA backed pro-western forces in Angola in 1975 while Cuba and the Soviet Union backed the other side.

**JOHN STOCKWELL**  
... different view

Unions backed Marxist-led forces in the campaign to gain control of Angola after Portugal withdrew from the southern African nation.

"I just deny the statement that I was misleading or lying to the Congress," Colby said. "I don't think I was."

The U.S. strategy was to funnel operations in and out of Angola to keep track of developments, Colby said, but the United States did not direct operations.

"To say that some individual at the far edges may have told some fellow to point his gun that way instead in that way changes that basic approach — I object — it did not," Colby said.

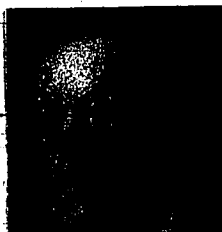

Although Colby denied Stockwell's allegations the CIA misled Congress, he conceded the accuracy of Stockwell's charges that the agency tried to keep the U.S. involvement secret.

"I wouldn't say he made up any of this," Colby told CBS' "60 Minutes" Sunday.

Stockwell was a veteran of 12 years in the CIA and head of CIA operations in Angola who left the agency to write a book about his experiences. He first made his charges on the same program last week.

"I think he may characterize things differently," Colby said.

Stockwell said the United States' "blundering stupidity" in the civil war led to massive Soviet and Cuban involvement in the war. Stockwell also accused the president of Zaire, Mobutu Sese Seku, of stealing \$1.4 million intended for U.S. allies in Angola.

**WILLIAM COLBY**  
... concedes secrecy

## Nixon kicked

HOLLYWOOD (UPI) — Some people still have Richard Nixon to kick around.

Cathy Kvorlak, an assistant buyer at Pickwick Bookstore, said a man came into the store and stopped in front of a display of the former president's book, "RN: The Memoirs of Richard Nixon."

Mrs. Kvorlak said the man passed, took careful aim at the display, and kicked it. As for sales of the \$19.95 tome, a quick check of a few bookstores showed that sales were slow.

### Almanac

By United Press International  
Today is Monday, May 15, the 135th day of 1978 with 230 to follow.

The moon is in its first quarter.

The morning star is Mercury.

The evening stars are Mars, Venus, Jupiter and Saturn.

Those born on this date are under the sign of Taurus.

Three world entertainment personalities were born on May 15: Actresses Anna Maria Alberg (1938), Constance Cummings (1910), and actor James Mason (1909).

On this day in history:  
In 1862, Congress created the Department of Agriculture.

In 1918, the first regular Air Mail service was established between Washington, Philadelphia and New York.

In 1969, Justice Abe Fortas, under fire for an admitted lifetime money deal, with fellow Justices Lewis and Warren, resigned from the United States Supreme Court.

In 1972, Alabama Gov. George Wallace was shot and critically wounded at a presidential campaign rally in Laurel, Md.

A thought for the day: American President Harry Truman said, "A president cannot always be popular."

# Abby

By Abigail Van Buren

**DEAR ABBY:** I have been a widow for many years. I have a son and a daughter who are as different as night and day. Both are married and have families.

My son has always been a very selfish person, and his wife is just like him. They never have time for me, I hear from them only when they want something.

My daughter has been wonderful to me. She's always calling me, inviting me to be with her and her family, and she is the one who knows that she is the only one I ever need her.

When my husband died, he left everything to me. I am not a millionaire, but I do have a sizable estate. My lawyer is after me to make a will, and that's where I need your help, Abby. Should I divide what I have equally between my son and my daughter? I wouldn't totally ignore my son, but I don't think I'm entitled to as much as his sister.

If you think I'm being petty and small-minded to want to punish my son for treating me shabbily, let me have it. I can take it, and I've been wrong before.

UNDECIDED

**DEAR UNDECIDED:** An inheritance is a gift. You need not apologize for deciding giving your son a gift you feel he's not entitled to. Use your own judgment, and don't feel guilty.

**DEAR ABBY:** My teen-age daughter is a mess! And the sad part of it is, she does it to herself. She is a very bright girl, and God gave her a pretty face, but she ruins her appearance by wearing her hair in a frizzy unruly mop and letting her posture go.

Should I tell her she would cut off half that mop and practice holding her stomach in and her shoulders back, she would be attractive, but she doesn't listen to me. Should I continue to nag her? Or should I leave her alone? She's losing out because she's such a mess.

DISGUSTED

**DEAR DISGUSTED:** Leave her alone. If she's as bright as you say she is, she will soon realize she is losing out (if indeed she is) because of her appearance, then she'll do something about it.

## Ask Randy

Some of the most uncomfortable patients seen in the physician's office this time of year are those individuals who have hay fever. A medical term often used to describe these seasonal allergies is allergic sinusitis or rhinitis. This disorder usually occurs in the spring or fall but can be nearly year round. Symptoms include sneezing, nasal or sinus congestion, watering eyes and occasional itching skin.

Diagnosis can be confused with an infection of the same areas as involved with allergies. In the treatment of allergies there is no place for the use of antibiotics unless infection is also present. The dry climate and perpetual winds in this particular area often produce the same irritation of eyes, ears, nose, throat.

Dr. Randy Slickers

A diagnosis is made on the basis of not only the patient's symptoms but also his physical findings and generally a family history of the disorder. An adult showing these tendencies usually had some childhood allergies or, at least, a milk intolerance. Childhood eczema is also another frequent part of his past medical history. Occasionally there is a patient who has had no past history and no one in his family has ever had this disorder. The inheritance of this disorder, on the other hand, follows no predictable pattern.

One of the upper respiratory discomfort is caused by an inflammatory reaction to a foreign substance. Inflammation includes the dilation of blood vessels and subsequent oozing of fluids into the tissues which causes the irritation. The irritation may take the form of pain or itching, which itself is just a mild form of pain. The foreign material usually takes the form of one of thousands of molds or pollens. The hay fever victim is somewhat prone to a secondary infection. Among other things, all of this fluid tends to be a good fertilizer for viruses and bacteria in which can multiply.

A physician need not be any great diagnostician to recognize allergies. Adequate treatment is a completely different ball game. Allergies cannot be cured but they may spontaneously disappear. Allergens are so prevalent in the environment that in order to avoid all of them, the patient would necessitate living in a plastic bag.

The atopic person is often greatly improved by avoiding the most obvious of irritants and allergens. Convincing the allergic patient to quit smoking should be obvious but is often quite difficult. Reducing house dust is usually quite practical. Maintaining the humidity at 30 to 40 percent keeps most of the air-borne allergens at a reduced level. Excessive use of moisture in the form of a vaporizer can be a problem. An inadequately cleaned vaporizer or humidifier may be spewing out allergy-producing molds in as much quantity as it is moisture. A person need not become overly concerned buying air purifiers, water purifiers, water filtered vacuums, despite numerous willing salesmen who are ready to sell them.

The mainstay of drug treatment for allergic rhinitis includes antihistamines and decongestants. Here, again, patient compliance is also difficult. Most people are unwilling to use these medications at adequate dosages. The most common side effect of drowsiness will become much less with continued use, but most people are not patient enough to give the medication an adequate trial.

Over-the-counter nasal sprays should be banned by the FDA. Patients tend to overuse these devices. The nasal lining becomes so accustomed to the medication that if it is not used from the nose each time the medication is discontinued. Properly used nasal sprays can be of great benefit if not used daily for more than a week.

Topically used cortisone in the form of creams or sprays are becoming available for use, not only on the skin, but also the nose and lungs. Cortisone administered in this manner avoids the numerous other problems encountered when using systemic cortisone. When properly used, cortisone sprays and other medications and rational avoidance will control perhaps 90 percent of all seasonal allergies.

On occasion, the symptomatology of the patient warrants the use of systemic cortisone. A one to two week course, no more than once or twice a year, affords prompt and sometimes complete relief of allergic symptoms. The greatest hazard of this medication is also overusage. Long term shots daily of cortisone for more than two weeks has been shown to be hazardous.

Hyposensitization, although quite beneficial, is not a cure. The multiple skin tests necessary to discover the proper injection for a particular patient are expensive and time consuming. Injections of this substance need not be year round but usually six to eight weeks prior to the onset of the problem is sufficient for control. In the treatment of allergies, in addition with the standard medications will control the remaining problem cases.

Although not curable, allergies can be confronted. The occasional flareups are to be expected, but with proper adjustment of medications, the symptoms can be controlled. No atopic person should have to live in a plastic bag.

## Winner take all

# Dedicated racers have life wish

**It's a life's dream . . . pushing a supercharge Indianapolis racer around the track before 500,000 people. It can be dangerous all right, but Salt Walther came back from his brush with death to race again and again. If you're a race driver, good enough to race at Indy, it's what you do, says Walther in this first of a two-part series, because only a very special man can win this most spectacular race in the world.**

By SALT WALTHER

© 1978 Field Enterprises, Inc.

Some people will never understand why we strap ourselves in these moving coffins at Indianapolis every year. Others look for deep psychological reasons.

No, we don't have a death wish. Rather, we have a life wish. Certain kinds of people have to be Madison Avenue advertising guys, and there are others who never want to do anything but drive race cars. I'm tickled to be one of the race drivers, or hams.

Hams come in all shapes and sizes. I'm six feet tall, weigh 195 pounds, have naturally curly hair and suffer from a nasty habit of opening my big fat mouth. I'm moody, mean as hell, and I don't know a professional race driver who isn't exactly the same. I'm 30 years old, and looking forward to my sixth straight ride in the Indianapolis 500.

**THE BIG DOWNER**

I won't go into the details of my first-lap crash in 1972. Anyone looking for a blow-by-blow can check the library. Let's just say I was bumped during one of the most disorderly starts in Indianapolis history, climbed the wall down the front straightaway, and pinwheelled across the track.

It took six minutes for me to be pulled out of the wreckage. I was burned up, scuffed burns over 40 percent of my body. My chances of pulling through weren't as good as a rabbit's at a coyote convention.

I beat the odds, though. Eight months later, I was back in a car, tire testing at Ontario, Calif. A year after the crash, I was back at Indianapolis to prove to myself — and to the world — that I could make it, that I belonged there.

The date was May 18, 1974. One I'll remember for as long as I live. It was during the time trials, the 10-mile-ritual skirmish before the 500-mile war and my turn to attempt qualification, four high-speed-laps around one of the world's toughest race tracks. I moved out of pit row onto the track. The announcer thought there must be something wrong with my car — I was only going 10 mph.

It was the crowd. It was wonderful. The people were standing up and yelling my name. It shook me up terrifically. They shouted, and I waved back.

**TIME OUT FOR LOVE**

As I came into the fourth turn, I saw a really good-looking blonde. She had blue eyes. She was waving, and I fell in love right then and there. You don't usually take the time to view the whole scene at the most spectacular event in the world, but I did. By the third lap I knew I was in a "go" situation, and I stood on it.

I qualified with an average speed of 163.927 mph, good enough for the fifth row. I had nothing to complain about. I was faster than a lot of very good drivers. A wire-service photographer shot a picture of me leaping into the air and clicking my heels. That picture said it all.

A strange thing is that while I had never considered quitting the sport after my crash, I did almost give up later, in 1974, when my brother Skip was killed racing, unlimited hydroplanes.

The time he died, I wanted to chuck it all, but I didn't. When it comes right down to the wire, you ask yourself: Is this what I really want to do, knowing the risks involved? If you're a race driver, good enough for the Indy 500, the answer is always yes.

I've led a full life and, [I should die tomorrow, I'd have no regrets. How many other people can honestly say the same thing?

Other race car drivers feel the same way — winners like A.J. Foyt, who drove his Coyote into Victory Lane at Indianapolis last May; Or Johnny Rutherford, and Al and Bobby Unser, who have all won the great race twice.

And there's a relative handful of drivers, including myself, who are capable of winning the world's richest and most prestigious auto race. I'd include Tom Sneva, Mario Andretti, Mike Mosley, Gordon Johncock, Wallyallenback, Danny Ongals and Billy Vukovich among them. There are others, too, but not many. You could put all the probable Indy 500 winners alive today in a good-sized station wagon.

**THREE MUSTS**

What are the winning ingredients? It takes a combination of, first-class equipment, an experienced driver and a competent crew to pull off the biggest payoff in motor sports.

If I may brag, I'm the only driver today who has competed in the Indy 500, the Daytona 500 for NASCAR stocks and the Gold Cup for unlimited hydroplanes. Indianapolis beats them all.

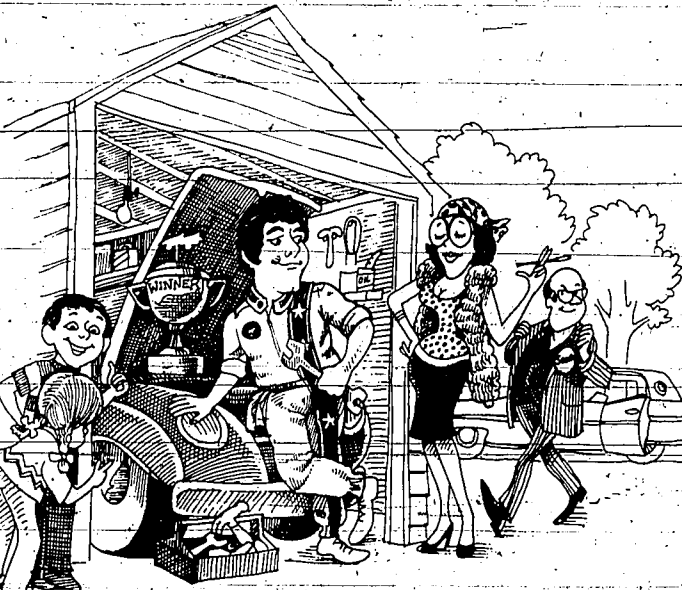

Ask a hundred people who Tom D'Eath is, and you're likely to get 99 choruses of "Tom who?" He won the Gold Cup a couple of years ago. And, while it's true that the average sports fan has heard of Daytona, it just doesn't have the impact of Indianapolis.

After the nightmare of Indianapolis '73 in which I nearly lost my life — a rain-shortened disaster marked by a multiple-car jam-up, the deaths of two drivers and a pitman, and injuries sustained by scores of spectators — Pope Paul called for "an end to this barbaric sport." I didn't hear anything he said about the roughness of hockey, or how many people have died skydiving. His opinion reflects the people's interest, however, and what the media choose to cover. I'm glad His Holiness reads the sports pages.

**50 MILLION FANS**

Somebody must love auto racing. Some 50 million fans watch the many forms of racing annually, and that puts our sport second only to horse racing in the number of spectators. But, take away the betting end of horse racing, and it would be about as popular as polo.

As far as the Indianapolis 500 is concerned, more than 250,000 fans pour into the Speedway for time trials, which are held over four days on

**IT'S A LIFE'S DREAM . . . PUSHING A SUPERCHARGE INDIANAPOLIS RACER AROUND THE TRACK . . . and only a very special man can win this most spectacular race**

**IT TAKES A GOOD DRIVER, GOOD EQUIPMENT AND GOOD CREW TO WIN . . . winners enjoy the attention of 50 million fans who watch auto racing**

two separate weekends before the race. That's a million tickets sold, just to see which 33 drivers will make the show.

Then consider the 350,000 who come for the actual race itself. It's a sight to glaze goosebumps.

You know, it's never easy at Indianapolis. Maybe it's because of the place it is, and everything that's associated with Indy — the electricity in the air, the 21 million people, the mass of humanity. A driver's liable to be berating there in his garage and some celebrity, a movie star or a politician, will come in to shake your hand. Then he goes home that night and tells his kids, "Guess who I met today!"

It's always hectic as hell, because it's the biggest single race in the world. If you win, you become an instant millionaire because you're going to take home \$300,000 or \$400,000 for first prize — then pick up all the endorsement money, public appearance fees and everything else.

It's easy to get swept up in the carnival-like atmosphere of Indianapolis. It's the greatest party in the world, especially for a guy who likes to wrap a hand around a glass, or wrap an arm around a beautiful woman.

**DAVID 'SALT' WALTHER**  
—back after crash

## Walther's unique in racing world

David "Salt" Walther is a rare breed of man. He is the only driver on the scene today who has competed in championship car racing, unlimited hydroplane racing and stock-car racing.

One of the most colorful and controversial figures in all of motor sports, Walther began his career at age 13 in a mini-bowl on a lake in his native Dayton, Ohio. By the time he was in his early 20s, he was already a regular campaigner in the spectacular and dangerous "hunderbol" hydroplanes. But, driving those monstrous, three-ton creations wasn't enough for him. By the late 60s, he was well-launched in his career as an auto-racing driver.

In 1972, he stunned the racing world by qualifying for his first of five Indianapolis 500s, and registering the fastest speed for a rookie.

Not only his career-but his life was threatened by a fiery, first-lap crash in the '73 Indy 500. Suffering burns over 40 percent of his body and losing all the fingers on his left hand, Walther nevertheless pulled through and was back at Indy for the next racing season.

Improving year by year, he finished a career-high fourth in the USAC race at Trenton in '77. As for the Indy 500, he is confident he'll win it some day — perhaps this year. "Heck," he says, "I'll just matter of time. I'm only 30."

There's lots to do!

Seniors center provides breakfast, dances, bingo

TWIN FALLS — Pancake breakfasts, Mexican dinners, dances, birthday parties, cards, bingo and special programs are all possible for Twin Falls senior citizens through the daily activities of the new Senior Citizens Center at the end of Sixth Avenue West.

Several areas of the building are still under construction and already the large dining room is crowded.

"I don't know what we ever did to get by in the old building," says Lucille Johnson, a part-time assistant director.

The former Chateau has been remodeled to provide more than double the space of the former center and as Mrs. Johnson says, the seniors participating in meals and programs seem to increase every week.

Thursday a special Mother's Day program followed the regular noon meal. A chalk talk was given by Fern Davis and cake and ice cream topped off the event.

With the additional space, Kathy Fenlon, director, says programs and activities for seniors have been expanded and will continue to increase. Workers are putting final touches on what will soon be a library. There will be a card room and pool tables, a quilting room and areas for crafts and hobbies.

The center is now open Sundays from 2 to 4 p.m.

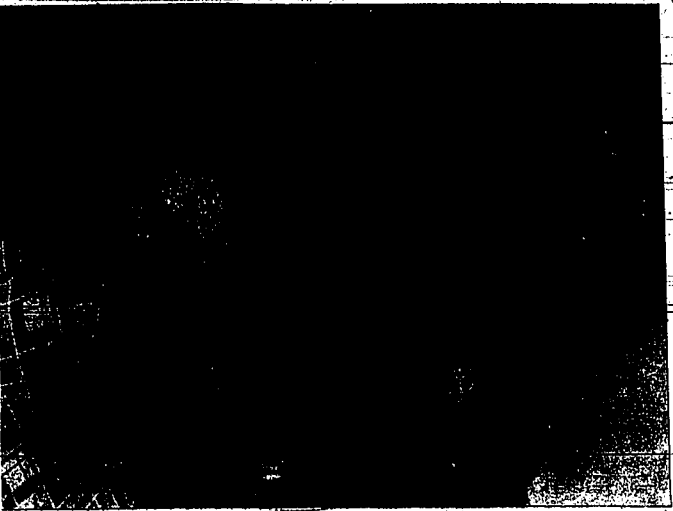

Noon meals are served each week day at the center. There is no charge but those able to pay are asked to make a \$1 donation to help defray the cost of food and cook's salaries. Fenlon says the donation system makes it purely a matter of choice on the part of the seniors and avoids embarrassment for those who cannot afford to pay. She said this system helps reach those who need the meals the most.

Bingo is played each Tuesday at 1 p.m. following luncheons and Wednesday this week will be birthday dinner for all those having birthdays in May. Thursday is bingo and pinocle game day and a special dinner with a program is usually featured.

Friday breakfasts are served and this week it will be held at the Golden Griddle.

On Saturdays a Mexican dinner is served with Mexican recipes selected by the cooks and center director.

Mrs. Johnson said the center is slowly being furnished, but with growing attendance at the noon meals, more chairs are a must. She said many donations and memorials have been made to what will soon be a library. There will be a card room and pool tables, a quilting room and areas for crafts and hobbies.

GROUP OF SENIOR CITIZENS PLAYS PINOCLE ... new center provides a place for many social activities

Honorary degrees announced

MOSCOW, Idaho (UPI) — Representatives of Idaho's potato, cattle, and water industry as well as a poet will be honored Saturday during the University of Idaho's 100th annual commencement.

President Richard Gibb will present honorary degrees to Leonard N. "Bud" Purdy; Picabo, president of the Idaho Cattlemen's Association; Milton F. Eberhard, Blackfoot, president of American Idaho Co.; Weston J. Sater, Spokane, Wash., president of Washington Water Power Co.; and Mary De Rachewitz, Italy, poet and daughter of one of the state's men of letters, Ezra Pound. Purdy, who has worked in natural resource management, will receive an honorary doctor of natural resources degree; Eberhard, responsible for strengthening the potato processing industry, will receive a doctor of agriculture degree; Sater, an industrial leader, will receive an honorary doctor of science degree; and Miss de Rachewitz, who has studied and translated the works of her father and other authors, will receive an honorary doctor of humane letters degree.

South plays greet unblock

Bridge score table with columns for NORTH, WEST, EAST, SOUTH and various card symbols.

Alan: "South doesn't really expect to make his contract, but he starts out as best he can by discarding dummy's ace of hearts on his own ace of spades. Then he cashes the three top hearts to discard dummy's ace, king and queen of diamonds. This makes his diamonds good and he cashes them."

Oswald: "This leaves South with three aces while dummy holds the ace and two clubs. What does East hold?"

Alan: "He holds the bag. He throws a club dummy's clubs are good. If he throws his last spade or heart, South's six of that suit becomes a winner and East is squeezed again."

Martens sets wedding date

EDEN — Mr. and Mrs. Herman Martens, Eden, announce the engagement and forthcoming marriage of their daughter, Bonnie, to Douglas Raper, Boise.

Raper is the son of Mr. and Mrs. Harold Raper, Eagle. Miss Martens is a Valley High School and Boise State University graduate. She is employed by John Hancock Insurance Co., Boise.

Raper is a graduate of Emmett High School and attended BSU. He is now director at KIDO Radio in Boise.

The couple plans a May 27 wedding at Trinity Lutheran Church in Eden.

BONNIE MARTENS ... engaged

State Library Board applications invited

BOISE — Application or nominations for membership on the State Library Board are being accepted at the State Board of Education office.

Del Buckelman of Nampa has submitted his resignation for the end of his six-year term which expires June 30.

Members of the State Library Board are responsible for management of the Idaho State Library, for administration of public and private grants, statewide finances for library services and co-ordinating more library services in Idaho.

Applications are due by May 22 at the Office of the State Board of Education, room 307, Len B. Jordan Building, 450 West State Street, Boise 83720. The board will make a decision during a June 1-4 meeting.

Commercial Credit's been helping people for more than sixty years. How much will do it for you? \$2,500. COMMERCIAL CREDIT CONTROL DATA CORPORATION.

Thompson to tour China

GLENNIS FERRY — Reed Thompson, a former Glennis Ferry resident, has been selected to make a three-week tour of China during May.

Thompson is show director for Up With People and one of the 23 members of the tour. The group has been working for several years to gain permission to send a group to China and arrangements for the tour were made by the government of Mexico.

The group is traveling as a cultural group representing Mexico. They will visit cities not visited by anyone from the western world since World War II.

Reed is the son of Mr. and Mrs. W.J. "Bill" Thompson of Montpelier and attended Glennis Ferry High School. He is the grandson of Mr. and Mrs. Joseph Doyle of Glennis Ferry.

Jerome girl wins stipend

JEROME — Lottie Bruning was selected winner of a \$400 scholarship by Grange Insurance Association of Seattle, Wash.

Miss Bruning, daughter of Mr. and Mrs. Boyde Bruning of Jerome, is a senior at Valley High School in Hazelton. She plans to attend Ricks College to major in physical education and dance.

Miss Bruning is one of 18 winners chosen from 124 applicants in seven western states. She is a member of the National Honor Society and her class valedictorian.

Grace Baptist shows film

TWIN FALLS — The Grace Baptist Church will present the film, "Rapture," Wednesday at 8 p.m.

The film, produced by The Last Days Film Co., depicts the creation of man, social advancement, fulfilled prophecy and signs of Christ's promised return.

The church is located at 788 Eastland Drive North, Twin Falls.

FREE QUILTING CLASS MAY 18th ... 8:30 A.M. Vans' Dept. Store. Conducted by: Lucille Deagle, Beverly Sheckler, Carpan-Davis.

"Losing Hair? Try This At No Risk"

HOUSTON, Texas — If you don't suffer from male pattern baldness, you can now stop your hair loss... and grow more hair.

male pattern baldness and cannot be helped. But, if you are not already bald, how can you be sure what is actually causing your hair loss? Even if baldness may seem to "run in the family," it is certainly not proof of the cause of YOUR hair loss.

The great majority of cases of excessive hair fall and baldness are the beginning and more fully developed stages of male pattern baldness. You can now stop your hair loss... and grow more hair.

Loesch Laboratory Consultants, Inc. will apply you with treatment for 32 days — at their risk — if they believe the treatment will help you. Just send them the information listed below. All inquiries are answered confidentially by mail. ADV.

Carroll Righter

FORECAST FOR TUESDAY, MAY 16, 1978

**GENERAL TENDENCIES:** A very good time to put some zip and zeal in the details of projects you are involved in now. Avoid becoming so wrapped up in minor personal matters that you miss out on some larger phase of your duties. Be alert to change.

**ARIES** (March 21 to Apr. 19) Ideal time to get right down to work and handle it most efficiently so that you have big benefits from it. Take time for health improvements. Forget socializing and rest up.

**TAURUS** (Apr. 20 to May 20) You are magnetic and can gain the favors from others that you desire. Indulge only in pleasures that are not too expensive. Stay within your budget and all is fine.

**GEMINI** (May 21 to June 21) Take care of minor problems at home wisely and they are soon behind you. Don't be a smart aleck andirk a bigwig, whether in business or at home. Take no risks where health is concerned.

**MOON CHILDREN** (June 22 to July 21) Contact closest friends and come to a better understanding with them. Handle all correspondence, reports intelligently. Get information you need to carry on more efficiently.

**LEO** (July 22 to Aug. 21) Study your present monetary position and make needed changes. A good adviser will be most helpful if you show your best qualities.

**VIRGO** (Aug. 22 to Sept. 22) Study your appearance, and interests and see where to make needed changes. Take any health treatments you may need. Be at your best with everyone.

**LIBRA** (Sept. 23 to Oct. 22) Find more efficient ways to take care of chores that waste so much of your time. Steer clear of a trouble maker who does nothing but aggravate you.

**SCORPIO** (Oct. 23 to Nov. 21) Get an early start on an important project and make real progress with it. Gain the cooperation of good pals for some personal aims you have.

**SAGITTARIUS** (Nov. 22 to Dec. 21) A good time to handle important matters since your thinking is clear. Talk over with a bigwig how best to commercialize on your talents.

**CAPRICORN** (Dec. 22 to Jan. 20) Get the data you need at the right sources and then use it wisely. Plan that trip you want to take early in the day. You can make fine new contacts later in the day.

**AQUARIUS** (Jan. 21 to Feb. 19) Handle obligations well and gain goodwill that is so important in business. Show loved ones how truly devoted you are and have fine rapport. Be careful in the handling of money.

**PISCES** (Feb. 20 to Mar. 20) Be more thoughtful of associates and come to a better understanding with them. Be more concerned about the welfare of mate, loved one.

**IF YOUR CHILD IS BORN TODAY...** he or she will be exact and painstaking in everything... which is fine, provided you teach ethics early. Otherwise your progeny could get so bogged down with details that big issues are all but forgotten. Teach early to listen in order to understand, since there is a tendency to do all the talking here. Give music lessons to discipline the mind and fingers.

**PEANUTS**

ONE OF THE WORST THINGS THAT CAN HAPPEN TO A PERSON IS TO KNOW HIS OWN DESTINY.

ONE SHOULD NEVER TRY TO LOOK INTO THE FUTURE.

I SAW YOU PEEK!

YOU DON'T EVEN THINK OF ME AS A HUMAN BEING, DO YOU?

TO YOU I'M A WORKHORSE! A DISHWASHER! A PUNCHING BAG!

AN ERASER!

**SHORT RIBS**

I WROTE THIS REALLY GREAT SITUATION COMEDY.

I EVEN CREATED A PART FOR THE KING.

DURING REHEARSAL HE GOT HIT IN THE FACE BY A LEMON PIE.

I NEVER DREAMED MY SITUATION COMEDY WOULD PUT ME IN THIS SITUATION.

**FAMILY CIRCUS**

"If they had Mother's Day on Monday, you wouldn't have to do all this laundry."

Nobody foun' out yer age, Mister Walt?

The cake burned before anybody could count the candles!

It ain't how old you is what count!

It's how you feel!

A man only feel as old as he is, I always say!

True!

**BLONDIE**

BOSS, I THINK I SHOULD HAVE MY NAME ON THE DOOR.

DO YOU CONSIDER YOURSELF A GENTLEMAN?

CERTAINLY I'M A GENTLEMAN.

THEN YOU ALREADY HAVE YOUR NAME ON A DOOR!

**ANDY CAPP**

BREWERY

NEVER MIND, LAD, JUST DO YOUR BEST.

SO MUCH BEER AN' SO LITTLE TIME.

**WIZARD OF ID**

THIS MAN WAS CAUGHT STEALING APPLES!

TO THE DUNGEON!

THIS MAN WAS LOITERING!

TO THE RACK!

THIS MAN STOLE ALL THE MONEY OUT OF THE BASKETBALL PLAYERS' PENSION FUND!

SO WHAT?

**ALLEY OOP**

IF LOOMBAH HAS TAKEN THINGS OVER IN A HURRY, AN' GUT AN' UNPAID WALK INTO TH' CAPITAL WITHOUT KNOWIN' ABOUT IT...

THAT BAD CAT WILL KNOCK 'EM FLAT!

EXACTLY! I SURE HOPE YOU CAN CATCH 'EM BEFORE THEY GET THERE!

AH! IT'S WORTH A TRY... BUT WE MUST FLY!

**BETLE BAILEY**

YOU DON'T EVEN THINK OF ME AS A HUMAN BEING, DO YOU?

TO YOU I'M A WORKHORSE! A DISHWASHER! A PUNCHING BAG!

AN ERASER!

**RICK O'SHAY**

BAA... BAA... YERSELF, YA FAT-TAILED, GRASS-KILLIN' CRITTERS!

GET OUTTA MY WAY, OR I'LL TURN YA INTO MUTTON CHOPS! I GIT! VAMOOSE!

YA DON'T UNDERSTAND ENGLISH, EH? WELL, ANSERS IS I UNDERSTAND THIS!

**THE BORN LOSER**

WHO STARTED THE CHICAGO FIRE?

DON'T LOOK AT ME!

WILLBERFORCE!

LOOK, IF THE BOY SAID HE DIDN'T DO IT, HE DIDN'T DO IT!

**REX MORGAN**

ARRIVING AT THE HOSPITAL LATE FOR MORNING ROUNDS, DR. BRICE ADAM IS TOLD THAT DR. REX CALGAIN HAS BEEN CALLED TO AN EMERGENCY.

PERHAPS IT BETTER CHECK WITH REX AND SEE WHETHER HE NEEDS HELP?

ANYBODY YOU PHONE ME WHEN SHE CALLED YOU, JUNE?

I DID, BUT YOU HAD APPARENTLY LEFT FOR THE HOSPITAL, SO I WENT ON OUT TO SEE HER!

WHEN I ARRIVED, I KNEW SHE WAS IN REAL TROUBLE AND CALLED AN EMERGENCY CORNARY AMBULANCE! WILL SHE MAKE IT, REX?

HOPEFULLY! SHE SEEMS TO BE RESPONDING!

# what's what

L.M. Boyd

Britain's mustard king once observed: "My fortune came not from the mustard people eat, but from the mustard they leave on their plates." Interesting notion. How many other commodities can you think of which likewise generate more profit from waste than from use?

Medical researchers now say that perspiration doesn't get rid of bodily poisons, contrary to long-held belief. Perspiration, they say, is nothing but sterile water with some dissolved salts in it.

Providence, R. I., is credited by some as the first place in the world where all human beings were welcomed regardless of race, color or creed.

Average age at which U. S. military officers retire is 43. Enlisted personnel, age 39.

**JEALOUSY**

Q. "Just how common is that thing called jealousy?"  
A. Mighty common, studies show. More than 96 percent of a sizable sampling told surveyors recently that they'd experienced jealousy within the last six months.

Q. "How much money did Henry Winkler get in the early days of the 'Happy Days' show? How much now?"  
A. Then, about \$750 per episode. Now, an estimated \$80,000 per episode plus a cut of the profit.

Q. "Do most women get better looking after they've married?"  
A. Most women think so, surveys show.

Q. "What word is most frequently pronounced wrong?"  
A. Wrong.

**NEARSIGHTED**

The British tested 17,000 children who were 11 years old. And the test found that the nearsighted children appeared on the average to be about a year ahead of the overall group in such matters as arithmetic and general ability. A check then of their records showed that even at age 7 before they'd been fitted with glasses they'd exhibited higher-than-average intelligence.

A few generations ago, fly fronts replaced the wide-brimmed rectangular pans on gentlemen's trousers. But Mormon leader Brigham Young denounced the new pants design as an evil abomination: He forbid the men to fly their church to wear such.

Pat Boone holds the all-time record for having one recording or another on the Billboard charts for 200 consecutive weeks.

# Hansen polls farmers on federal subsidies

By KEN RODGE  
Times-News writer

Idaho farmers in the second congressional district do not want federally supported parity prices for their crops, according to a mail survey conducted by Congressman George Hansen's office. Hansen surveyed Idahoans in his district during March to give him ammunition for congressional committee meetings on farm legislation.

About 2,000 of the 150,000 postal patrons in the 36 central and eastern counties of Idaho's second district responded to the survey, according to Tom Dayley, Hansen's legislative assistant.

Returns indicate Idaho farmers don't want government subsidies, but are willing to take federal loans to help them recover losses on their own.

Idaho's second district farmers did not fall in love with a federal wheat and feed grain set aside program provided in the 1977 farm bill, either, according to survey results.

At the same time, farmers expressed dissatisfaction with target prices of \$3 per bushel for wheat and \$2.10 per bushel for corn for the federal price support program.

Farmers were highly in favor of increasing the nation's exports to help improve market prices in this nation and also favored establishing a world market for major crops with price floor to stabilize prices.

Although Dayley says the survey was not scientifically designed, he termed it "an indicator" of the feelings of the farm community in the second district.

"The main thrust of our questionnaire was to provide some information about the attitudes of the farm community," Dayley said. "Complaints we heard this year in

Congress were, 'there are a bunch of farmers here in Washington, but do they really reflect the attitudes of a majority of farmers?'"

Dayley said Hansen will take the results of the survey with him to congressional committee meetings—to reflect what second district Idaho farmers are feeling about key farm issues.

"People who are interested enough in sending it back want to express their opinions," Dayley said. "They are pretty responsive. I think this is pretty representative of the farmers in the district. They are independent enough thinkers to want their opinions to be heard."

Hansen's poll revealed about 72 percent of the respondents favored funding government research on ethanol and favored lower taxes on the gas and grain alcohol fuel mixture when sold to consumers.

A whopping 82 percent favored boosting federal research on new ways to use farm crops and waste for sources of energy.

And 80 percent of nearly 4,000 respondents favored labeling imported foods according to the nation of their origin in the same way clothing and other manufactured goods are labeled.

The poll indicates that 94 percent of the respondents are in favor of more stringent inspection requirements on foreign food products imported for use in the United States. The respondents were 78 percent opposed to trusting foreign nations to inspect their own food products to be used in this country.

The poll showed that 77 percent favor a law that would protect domestic cattle markets by limiting imports of beef when U.S. cattle prices begin to fall.

And 63 percent of the respondents said they favored reducing all imports to protect domestic commodity markets when prices fall below the cost of production.

More than 63 percent of the farmers polled favored increasing farm exports by working cooperative agreements with foreign nations.

Only 21.3 percent of the farmers surveyed favored federal set-aside payments for land taken out of production, but 75 percent favored comprehensive federal loans to help farmers help themselves.

Only 16.9 percent of the farmers who responded said they planned to participate in this year's federal wheat set-aside program and only 19.7 percent said they would participate in the feed grain set-aside program.

More than half of the respondents were against forming a permanent federally controlled grain reserve in this country.

About 50 percent of the farmers questioned were opposed to the federal which provides price supports for wheat and corn at target prices of \$3 and \$2.10 per bushel, respectively.

And 57 percent of the respondents were opposed to raising the target prices, although 55 percent favored working with foreign nations to establish a world floor for market prices of major crops.

Only 35 percent of the respondents favored passing a law making it illegal to purchase farm commodities in this country at less than parity prices, while 44.3 percent were opposed to such a law.

Almost 70 percent of the farmers responding to the questionnaire said they favored more farmer control in setting policies for administering existing laws and telling the secretary of agriculture what to do.

## Petition ignored

"I think that I shall never see..." Not everyone was pleased with the recent street widening of Second Avenue in Twin Falls.

Among those upset at the widening, which resulted in the felling of many tall trees, were students at Lincoln Elementary School. Several students signed a petition asking the trees be spared and posted the petition on the fence beside the trees.

But the petition was ignored, and the chain saws continued cutting. The trees once shaded the school and its adjacent playground, but some sawdust and wood chips next to the school's sidewalks are now all that remain.

# SIRAA may delay hiring today

## Eden accident fatal

By RAY BULLIYAN  
Times-News writer

BURLEY — A decision on hiring an executive director for the Southern Idaho Regional Airport Authority may be postponed. Regional airport authority chairman Dale Garner said today the SIRAA may not hire a \$30,000-a-year executive director until more work is done organizing a petition drive to get Twin Falls and Blaine Counties into the SIRAA.

Five Magic Valley counties, Minidoka, Cassia, Jerome, Lincoln and Gooding counties, currently are members of the SIRAA.

The SIRAA hopes to build a new regional airport on the north side of the Snake River Canyon in Jerome County.

But to build the airport, the SIRAA feels it must lure Twin Falls County and Blaine County into the authority because these two counties represent half of the tax base in Magic Valley.

Garner said the board, which was to have met tonight to name someone to the executive director's position, won't meet in executive session until 8 p.m. Tuesday night in the Burley office of SIRAA lawyer Pete Snow.

Garner explained the board members are having second thoughts about having to spend \$30,000 of tax money to hire an executive director and a secretary until a drive is underway to get Twin Falls and Blaine Counties into the authority.

EDEN — Lisa Hoke, 17, of Route 2, Filer, died Sunday in a single-car accident near Eden on I-80 North.

Her sister, Cynthia Hoke, 20, also of Route 2, Filer, was the driver of the car. She suffered minor cuts and bruises.

Both girls are daughters of Robert Hoke of Filer. According to the Idaho State Police, the car, moving at an estimated 50 mph, went off the highway to the left side and the passenger side of the car hit the guard rail. The vehicle, a 1974 Datsun coupe, was totaled.

Officers Coleman Watkins and George Blackburn of the Idaho State Police investigated the accident, which occurred at 3:40 p.m. They were assisted by the Jerome County sheriff's office.

## Volunteers needed

BUHL — The city of Buhl needs some sod to cover the baseball park and eliminate a that problem which is bringing complaints from nearby residents.

A street project soon to begin will result in removal of enough sod to handle the project, but there is just one problem. The city crews and equipment may not have time to get the sod before it is bulldozed away.

City councilman Jerry Hawkins, who announced his resignation from the council last week, said this is just one of the many frustrations the council members face.

"There are a lot of things we can do for the residents of Buhl that don't take a lot of money and effort but we don't seem to be doing them," Hawkins said. "We are so involved with big projects we don't take care of the little things."

Mayor Dale Christensen and councilman Joe Fahrenbacher say they are hoping some volunteer help will be forthcoming to save the sod before it is wasted.

# Widow in trouble for baby-sitting without a license

By LORAYNE O. SMITH  
Times-News writer

TWIN FALLS — Lack of training and health problems prevent Delphia Dotson from holding a day-care job, so to augment her meager veterans benefit she has for many years cared for children in her home.

Now the 52-year-old Twin Falls widow says she is threatened with jail if she continues doing the only type of work she is able to perform to add to her monthly income of \$13.

Her crime? Caring for children in her home without a day-care license, the requirements of which she feels she could not possibly meet.

Dotson has been told by the Idaho Department of Health and Welfare that she has three choices:

- obtain a license as a day-care center; get a license for children;
- face a lawsuit for running a day-care center without a license;

Erna Shropshire, in charge of day-care licensing for the department of health and welfare in Magic Valley, says the department's first concern is simply the care of children.

Health and welfare officials visited Dotson's home, Shropshire said, in response to a complaint made against the Twin Falls woman.

Upon investigation of the Dotson day-care center, DHW found 14 children under the woman's care.

on Dotson, according to DHW's Shropshire. If she obtained a day-care license Dotson probably would be licensed to care for only four children at a time, according to DHW.

At her home in Twin Falls recently, Dotson explained why she feels she could run an adequate day-care center for 14 children and why she is unhappy with health and welfare's attempt to license her operation.

"It hurt me so (the agency licensing official's statement) to think I'm trying to make it on my own," the widow says. When she asked about the possibility of getting financial assistance if she has to eliminate her source of income, Mrs. Dotson says, "They laughed in my face."

She has high blood pressure, diabetes and an "ulcer." Because of her medical condition she has to see a doctor twice a month, at \$16 per visit for an office call and blood-sugar check. Insulin costs were \$9.50 per week and she is on several types of medication for her blood pressure.

She is not old enough for Social Security payments on her late husband's earnings, and apparently can not qualify for disability, although her doctor has verified she is unable to perform a full day's work.

"Baby-sitting is the one thing I can do," Mrs. Dotson says, "because I can take my time and rest when the children nap."

Since she was visited last month by Mrs. Shropshire, the widow says she "got scared" and told five of the mothers leaving her children with her to take them elsewhere.

Ironically, all of the homes these children now are staying in also are unlicensed, Mrs. Dotson says.

According to government requirements, the only way an individual can care for someone else's children in their home without a license is if the children are relatives.

Shropshire requested a list of all the children Mrs. Dotson currently is caring for so she can contact the parents to check whether or not they are relatives.

"If she does as she said she would, keep just relatives' children, there will be no problem," Mrs. Shropshire says, "but if I find some of them are not relatives, we have no choice but to turn this information over to the prosecuting attorney."

"It's none of their business who comes to my home," Mrs. Dotson says bitterly. "If I were on welfare and they were helping me I'd have said differently."

She also feels indignant about the agency intervention when she never has advertised for children. Many of her charges are children of friends of her own.

One of the licensing requirements is that a home must have a fenced yard.

Mrs. Dotson says the incident from which the health and welfare agency received a complaint about children in the street occurred when a young mother stopped at her house to visit, leaving her three small boys in the car parked in front of the Dotson home.

Someone apparently reported that these children were out in the street, but Mrs. Dotson said they were not in her care.

She says the mother made an effort to telephone Mrs. Shropshire to verify this fact, but had been unable to reach her.

Also, to make matters look even worse, from the agency's standpoint, Mrs. Dotson says, "There must have been about 20 kids here that day, including grandkids and neighbors."

She says she was actually babysitting only four children that day, but that the agency official "acted like I was lying."

Mrs. Dotson maintains that "if the parents didn't tell me I was doing a good job, they wouldn't keep bringing their kids back." She has had two little girls for two years, she says.

She also says several neighbors will visit for the children never have been children in the street when under her care.

Carol Clark, who had lived across the street for 12 years, says Mrs. Dotson does a good job with the children, many of whom she has kept since they were babies.

"The only time I ever see any of them get out of hand is when the parents come to get them and then they are under their control," Mrs. Clark says.

Mrs. Dotson obviously likes children and it is hard to differentiate between "paying customers" and neighborhood children in her house.

DELPHIA DOTSON, TWIN FALLS WIDOW needs a day-care license for baby-sitting

## Lisa Gaye Hoke

**FILER** — Lisa Gaye Hoke, 17, Filer, died Sunday as the result of an automobile accident on Interstate 80. Born Nov. 19, 1960, in Murray, Utah, she moved to Filer in 1970 from Twin Falls. A junior in Filer High School, Miss Hoke was a member of the Honor Society and the Debra Loumal organization and would have been a delegate to Girls State in June.

She was also a member of the Filer-Latter Day Saints Church and was Laurel Class president.

Surviving are her parents, Mr. and Mrs. Robert Hoke, and two sisters, Cynthia and Rosann Hoke, all Filer; maternal grandmother, Mrs. Ila Holden, Burley.

and Mrs. Winifred Hoke, Boise. Services for Miss Hoke will be conducted at 11 a.m. Wednesday in the Filer LDS Chapel by Bishop Leroy Kohntop. White Mortuary, Twin Falls, is in charge of arrangements.

## Henrietta Howard

**GOODING** — Henrietta M. Howard, 77, Gooding, died suddenly at her home. Services are pending at Thompson-Sears Funeral Chapel.

## Betty Mitchell

**HEYBURN** — Betty Mitchell, 67, Heyburn, died suddenly at her home. Services are pending at McCulloch's.

## Elsje V. Wohllaib

**TWIN FALLS** — Elsie V. Wohllaib, 93, Twin Falls, died Saturday in a local nursing home of natural causes. She was born Feb. 17, 1885, in Dow City, Iowa, and moved to Twin Falls in 1908 from Iowa. She was the first teacher at Mountain View School south of Twin Falls when the school opened in 1908.

She married Harry Wohllaib Aug. 11, 1909, in Coeur d'Alene. Mr. Wohllaib died May 23, 1969.

Mrs. Wohllaib was a member of the Tyler Street Baptist Church. Surviving are four daughters, Mildred Jellison, Twin Falls; Esther Hill, Portland, Ore.; Jeanne Roper, Mountain View, Calif.; and Doris Nelson, Wilsonville, Ore.; eight grandchildren and seven great-grandchildren.

The funeral for Mrs. Wohllaib will be conducted at 3 p.m. Wednesday in White Mortuary Chapel by Rev. David Kribbs and Rev. Kirt Bell. Burial will be in Sunset Memorial Park. Friends may call at the mortuary this evening, Tuesday and until 2 p.m. Wednesday.

## J. VandenBos Fisher

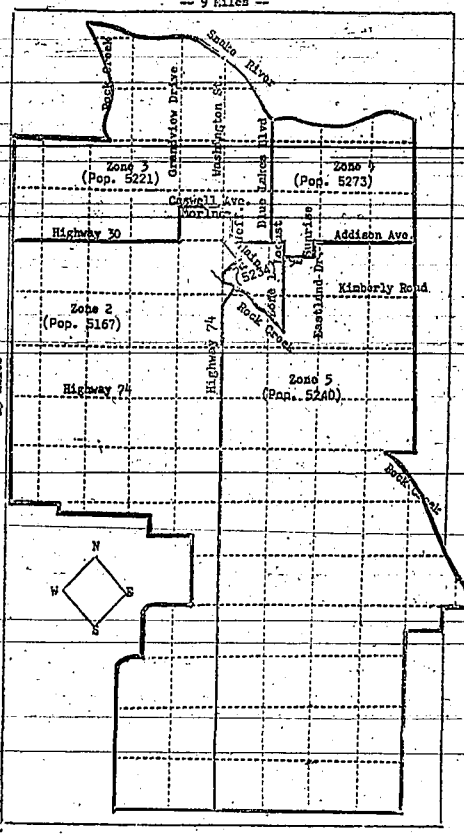

**TWIN FALLS** — Janelle Lynn VandenBos Fisher, 21, Fruitland, former Twin Falls resident, died Saturday in an Ontario, Ore. hospital from injuries received in an automobile accident at Fruitland.

Born March 18, 1957, in Boise, she was educated in Twin Falls schools, moved to Caldwell in 1972 and graduated from Caldwell High School in 1975.

She married Dennis R. Fisher June 26, 1976, in Parma. Mr. and Mrs. Fisher lived in Fruitland and at the time of her death Mrs. Fisher was employed by Dame's Landscaping and Hedges Co. in Boise.

She attended Kirkpatrick Memorial Community Presbyterian Church, Parma. Surviving are her husband, Fruitland; her parents, Mr. and Mrs. Glenn C. VandenBos, and a sister, Joann VandenBos, all Caldwell, and her grandparents, Mr. and Mrs. Lester Colner, Nampa.

The funeral for Mrs. Fisher will be conducted at 4 p.m. Tuesday in Kirkpatrick Memorial Presbyterian Church by Rev. Edson Pederson. Burial will be in Hillcrest Memorial Gardens under direction of Fialliff Funeral Chapel in Caldwell.

# Flooding delayed

**REXBURG (UPI)** — The National Weather Service said today snow melt into the Henry's Fork River near Rexburg is expected to flood a couple thousand acres of farmland near the city.

But forecaster Led Krogh said increased irrigation in the area has drawn off more water from the river than expected, temporarily delaying the flooding.

Krogh said the river's latest reading was 8.78 feet and that flood stage is nine feet.

**TWIN FALLS** — Residents of only Zones 2 and 5 in the Twin Falls School District will be able to vote in the Tuesday trustee election, but all residents of the district may vote on a proposed two-mill plant facility levy.

School officials say the voting will take place from noon until 8 p.m. in four-polling places, and electors may vote in any of the polls. These include Lincoln and Morningside elementary schools, Robert Stuart Junior High School and the Twin Falls Senior High School. No prior registration is necessary. Voters will sign oaths as to their qualifications.

Candidates for Zone 2 include Gary Custer, a local dairy farmer and salesman for Sears, running against the incumbent Byron Snyder, who is employed by Mountain Bell.

In Zone 5 — where incumbent Howard Rook, now chairman of the board, is not seeking election — there are four candidates.

These include Gene Champlin, a farmer east of Twin Falls; Ester M. Simpson, housewife and TWCA director; Marvin E. Taylor, who resides south of Twin Falls; and Chester Buhannon, who heads the local office of Snelling and Snelling Employment Service.

The two zones are the largest in the district in square miles and include the rural area of the county south and west of Twin Falls, as well as part of the city.

Zone 2 is largely south of Addison Avenue and west of Highway 74. Zone 5 runs east of Highway 74 and south of Addison Avenue. The two areas include a section of old townsite between Addison Avenue and Rock Creek and bordered by Locust on the east. Zone 2 includes two small triangle areas of the original townsite between Washington Street and Main Avenue and Washington Street and Rock Creek.

# Board candidates answer questions

By BONNIE BAIRD JONES  
Times-News Staff

**TWIN FALLS** — The political action committee of the Twin Falls Education Association submitted 22 questions to the six candidates in the Tuesday trustee election in the Twin Falls school district to determine how they stand off issues of interest to teachers.

All candidates with one exception returned questionnaires. Incumbent Byron Snyder, Zone 2, did not fill out and return the questionnaire.

Some of the questions and answers include:

**What facet of the school system would you emphasize in board activities?**

**Chester Bohannon, Zone 5:** Basic education with emphasis on Voc. tech, a look at high school-CSI cooperation, disciplined procedures and drop-out records.

**Eugene Champlin, Zone 5:** Keeping education in step with modern times; making certain students are prepared for jobs or college when they graduate and providing the best balanced educational program available with limited funds.

**Gary Custer, Zone 2:** Whatever needs to be improved the most.

**Ester Simpson, Zone 5:** More emphasis on elementary education.

**Marvin Taylor, Zone 5:** Good solid basic education in the elementary grades, more vocational training in high school.

**Strengths and weaknesses of educational program?**

**Bohannon:** Schools are turning out good college students but those not going to college are not job ready.

**Champlin:** Good school facilities and well educated teachers but many people in the community feel what was good enough in their school days is still good enough. More parents need to get involved.

**Custer:** A good education program but it can be made better. We need to retain the best teachers.

**Simpson:** Close to 300 dedicated teachers and administrators but our

weaknesses are in the financial and communication areas, communication between teachers and district administrators.

**Taylor:** Well qualified teaching staff and broad-based educational program but a lack of emphasis on basic education in the first three grades.

**How much weight would you give recommendations of the district superintendent and how much on teacher recommendations?**

**Bohannon:** High priority, both.

**Champlin:** Both are professionals in education. Serious consideration to superintendent, and careful consideration to teachers.

**Custer:** As much consideration to both as would be given other equally qualified individuals or groups.

**Simpson:** Listen carefully to superintendent. Considerable weight on teacher association recommendations.

**Taylor:** Considerable weight to the superintendent so long as I was consistent with policy. Look at and consider teacher recommendations.

**Your feeling about collective bargaining between teachers and trustees?**

**Bohannon:** It is provided by law.

**Champlin:** The present system seems to be working well.

**Custer:** Great if there can be give and take on both sides and reasonable action on both sides.

**Simpson:** I believe in collective bargaining.

**How do you feel about the present situation as long as negotiations are carried out in a fair manner by both sides?**

**Taylor:** A healthy situation as long as negotiations are carried out in a fair manner by both sides.

**Your recommendations on teacher salaries?**

**Bohannon:** A review is needed in this area.

**Champlin:** Some may be underpaid. The district has to pay salaries large enough to attract good teachers.

**Custer:** They should provide an incen-

tive to keep good teachers with two or three years' experience.

**Simpson:** They should be comparable with other Idaho districts.

**Taylor:** They should be based on what the district can afford not on a comparison with other Idaho districts.

**Your recommendations on local school taxes?**

**Bohannon:** I need more input in this area.

**Champlin:** I need more information in this area. We are spending all available money. If this is not enough, we should seek more.

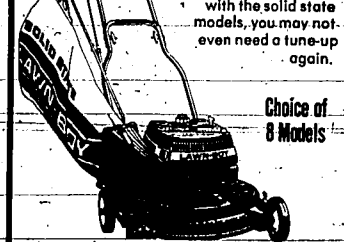

**Custer:** I am concerned Twin Falls spends less per student than other districts and levies less taxes for valuation. Maybe there should be an increase.

**Simpson:** I favor increasing the levy to expand district revenue.

## Denver stays alive with victory

DENVER (UPI) — David Thompson got his touch back Sunday and that might mean trouble for the Seattle SuperSonics.

The 6-foot-4 guard scored 35 points and led the Denver Nuggets to a 123-114 victory over the Sonics in the fifth game of their best-of-seven NBA-Western Conference championship playoff series.

Denver, which had to win, trails Seattle three games to two in its bid to play Washington in the NBA finals. The sixth contest in the matchup will take place Wednesday in Seattle.

"I felt good to have the touch back," said Thompson, who hit 15-of-27 field goal attempts in 41 minutes of play. "I take a lot of the blame on myself for not winning before. I haven't been playing up to par, up to my normal standards."

With Thompson providing the offense and his teammates dominating the boards, the Nuggets rolled to leads of up to 19 points. The SuperSonics, a team that switched coaches early in the season, rallied to within

five points to start the fourth quarter and late in the game; but it was as close as they could come.

Center Dan Issel added 27 points and 10 rebounds for Denver, while Anthony Roberts, Bobby Jones and Bobby Wilkerson each had 13 points for the Nuggets. Veteran guard Ralph Simpson had 12.

High point man for the SuperSonics was Gus Williams, who scored 31 points before fouling out with 4:51 remaining in the game. Rookie forward Jack Sikma also left the game with six fouls with 7:01 left to play.

Forward John Johnson scored 22 points, and Seattle center Marvin Webster — who has managed to intimidate the Nuggets' inside shooting with his 7-1 height — hit 16 points. Webster also grabbed a game-high 12 rebounds and blocked seven shots.

The game marked the first time in the series that Thompson, who signed a \$4 million contract with the Nuggets a month ago, had topped his regular season scoring average of 27.2.

"The thing I liked is he just went up and shot the ball," said Nuggets coach Larry Brown. "He wasn't losing a step. That young kid he's playing against is carrying a big responsibility, night in and night out."

The defensive assignment against Thompson was held by Dennis Johnson, who has been a big reason for Seattle's success.

"David played really well today," Johnson said. "They set a lot of picks for him. I'm going to have to learn now how to get around them without getting hit so hard."

Seattle coach Lenny Wilkens, who took over the job after the SuperSonics had gotten off to a miserable 5-17 start this season, said his team had trouble making the transition from offense to defense early in the game.

"Every time we turned around, we were out of position," he said. "At halftime we tried to concentrate on what we do well in. In the second half, we talked better, went to the boards better, got the ball out and ran, but it's tough to come back on your opponent's court when you're down by 20."

## Rains wash out Indy practice

INDIANAPOLIS (UPI) — It was a rough weekend at the Indianapolis Motor Speedway for the drivers, the fans and the management.

There was no racing on the famous auto racing oval either Saturday or Sunday because of intermittent rain. What was to have been four days of time trials for the 500-mile race spread over two weekends will be cut in half.

It marked the first time since 1969 that not a single qualifying attempt could be made in the first weekend.

Weather permitting, they'll try again next Saturday and chief steward Tom Binford said he hopes the trials can be completed on time by late Sunday.

"If those properly in line have not had a chance to qualify, we would extend qualifications to Monday or Tuesday," Binford said.

The double rain-out was a severe blow to Mario Andretti, who last week set an unofficial speed record of nearly 203.5 mph.

Andretti, winner of the 1969 race, is committed to drive in the Belgian Grand Prix next weekend. Car owner Roger Penske said he planned to have Bobby Allison, who competed in the 500 in 1973 and 1975, qualify Andretti's car, but that Andretti would start the race.

"We want Mario to fulfill his Formula 1 obligations," Penske said. "We can get his car into the race, barring unforeseen developments."

The rules say a car qualified by one driver but driven in the race by another must start at the rear of the field.

"That's better than not starting at all," quipped Andretti, who said he was "at the mercy of the elements."

The native Italian, now of Nazareth, Pa., was miffed he apparently lost his chance at the pole position, which he won in 1966 and 1967.

Penske said there was still a possibility that Andretti could qualify for the Grand Prix event, return to Indianapolis to qualify for the May 23 race and then fly back in time to race in Belgium.

"The weather plays a real card on us. We're the ones who are stuck with it," he said.

Andretti and Penske also expressed disappointment track officials turned down their proposal to qualify today.

"They told us that the schedule was firm,"

Penske said. Traditionally, the trials are extended when 33 cars have not been qualified and some cars have not had an opportunity to make the field in the allotted time.

An estimated 65,000 fans paid their way into the Speedway grounds last weekend. Their only consolation was that rainchecks will be honored Saturday.

A. J. Foyt, the 500 defending champion who is also a top contender for the pole spot, flew to Alabama Sunday morning to compete in the Talladega 500 stock car race when it became apparent the Indianapolis trials would be washed out.

Foyt, who qualified second in the NASCAR event, finished third.

REJECTING A shot by David Thompson is Seattle SuperSonics Marvin Webster. Although Webster got to two of Thompson's shot the Nuggets ace hit 35.

## EM Kayan claims tourney

TWIN FALLS — EM Kayan of Boise completed his undefeated swing through the first Twin Falls Invitational fastpitch softball tournament Sunday afternoon by dropping the T-Birds 7-3.

Kayan won the game with a four-run outburst in the second inning and added two more in the top of the seventh when the T-Birds were still in contention.

The second inning breakaway started with a pair of walks and the runs come across when Dennis Chesnut singled, Vince Sebastian col-

lected a double and Tim Ahern singled. In the seventh, Ahern and Nelf set things up with base hits and Jerry McConnell tripled in both runs.

The day started with Les' Body Shop walloping Dale White 17-0 and the T-Birds came back to whip Les' Body Shop 15-0.

Speedy Gonzales of Dale White Toyota was named the tournament's most valuable player. He posted a .467 average with seven hits and six RBIs and also had a 3-2 pitching record.

## IOC waiting for LA reply

ATHENS (UPI) — The International Olympic Committee said Sunday it was still waiting for Los Angeles to return the IOC Olympic contract for the 1984 Summer Games just five days before members were scheduled to vote.

Los Angeles, the only city to bid for the Games, has handed the IOC its own contract following lengthy discussion by the City Council.

The Los Angeles contract seeks to put a cost-control veto on all expenditure and absolve the City Council from a deficit if one is incurred.

"Until now we have not received any comments on the contract we sent Los Angeles on April 5," said Montrealer Berlioux, the IOC director.

"Instead we have received an entirely new contract which we have turned over to our lawyers," he said. Berlioux added the IOC had not been informed officially that the City Council had voted to turn down the IOC version of the contract two weeks ago.

"I would point out that the three cities bidding for the 1984 Winter Games — Sarajevo, Yugoslavia, Gobleburg, Sweden, and Sapporo, Japan — have all accepted the IOC contract," Berlioux said.

She also disclosed after a meeting of the IOC's nine-man Executive Board that the whole question of China's readmission to the Olympics has been discussed at length.

The problem of China's readmission, which Peking will only accept if Taiwan is kicked out of the IOC, has been shelved for the past two years while the IOC sought a solution.

But Berlioux indicated there was a possibility of a vote on the issue later this week at the IOC's general session.

One plan under discussion, according to IOC sources, was to ask the Taipei delegation to change its name from the Republic of China to Taiwan. This was a move rejected by the Taiwanese during the 1978 Montreal Olympics, and a similar rejection could give the IOC an excuse to drop them and thus allow Peking to come in.

"But that is not necessarily a solution," said Berlioux, "because what happens if Taiwan agrees? Then we are in exactly the same position as before."

## Trevino wins Colonial

FORT WORTH, Texas, (UPI) — Lee Trevino turned potential trouble into a tournament clinching chip-in at the 14th hole Sunday to spark a 4-shot victory in the \$200,000 Colonial National Invitational.

In winning the Colonial for the second time in the last three years, Trevino scored his first victory of the year and second since undergoing back surgery in November 1976.

Trevino's final round 66 gave him a 72-hole total of 12 under 288, lowest in the 31-year history of the tournament. His victory margin over second-place Jerry Heard and Jerry Pate was the largest on the tour this year and his winning score also was a 1978 best.

In addition, the \$40,000 he won Sunday boosted his career earnings to \$1,754,559 — just \$23,000 short of overtaking Arnold Palmer for the second spot on the all-time money winning list.

Trevino has now won at least one tournament in each of the last 11 years, a streak surpassed only by Jack Nicklaus, who has one at least once in every year since 1962.

Heard finished with a 68 and Pate shot a 65 for their four-round totals of 272. They each won \$18,500. Steve Melnyk and Tom Watson were a shot back at 273 and each collected \$7,700. Tom Weiskopf, who also had a 68 Sunday, finished alone in sixth place at 276.

Trevino opened the day with a 3-shot lead and never lost it in the final trip around the Colonial Country Club course. And coming to the 14th hole — a 431-yard, par-4 — he had a 2-shot lead on Heard.

Trevino missed the green with his second shot at that hole and Heard was in position for a birdie that could have given him a chance for the lead. But Trevino chipped the ball in from 40 feet and when Heard missed

his putt it was all over. Heard promptly missed the fairway on the 15th hole and made a double bogey while Trevino was knocking it within six feet and making yet another birdie.

Early in the week Trevino kept referring to the Colonial course as something akin to a championship prizefighter.

"You have to jab at it," Trevino said. "You can't take roundhouse swings at it in the early rounds."

Trevino did just that all week, nibbling away for a while now and then and making only three bogeys all week.

That was in sharp contrast to his nearest challengers. Watson, for instance, could have been in the race had he not put his tee shot in the water at the fifth hole Sunday and taken a triple bogey.

Melnik also saw his chances for victory fritter away when he knocked his tee shot into the trees on the seventh hole and made a bogey.

Trevino's last victory came in the 1977 Canadian Open in which he fired a 74 on the final round.

And his victory Sunday — the 21st of his 18-year professional career — re-emphasized his position as one of the leading players in the game.

Just two years ago, after he won at Colonial, it appeared that career might be at an end. While at his home in El Paso, Texas, Trevino felt pain rip through his back when he picked up a large potter plant.

Surgery was required and a disc was removed from his back. His back problems had forced him to take exercises each morning and each night, something he says he will have to do the rest of his life to be free of pain.

By Milton Richman

## Positive Larry Holmes

GROSSINGER, N.Y. (UPI) — Larry Holmes is positive he's going to be the next world heavyweight champ.

That makes him and his mother a minority of two who think so.

Check that. His mother, Flosie, isn't that sure. She's just hoping.

Holmes has never been beaten as a professional. He has won all 27 of his fights so far, including 19 by knockouts, and the 28-year-old former shoeshine boy and car washer from Easton, Pa., figures his next opponent, Ken Norton, will go the same way all the other kids.

Norton is recognized as heavyweight champion by the World Boxing Council, which claims he earned the title when he beat Jimmy Young in 15 rounds last November and when Leon Spinks reneged on his agreement to meet him after defeating Muhammad Ali. Spinks is regarded as the heavyweight king by the World Boxing Association but the WBC isn't paying any attention to that.

Holmes will be the new champion, as far as the WBC is concerned, anyway, if he beats Norton in their 15-round title fight at Las Vegas on June 6.

Norton is favored but Holmes couldn't care less.

"When the fight is over, I'll be making Handicappers movies and Norton will be shining shoes," he says.

The fight is being billed as "The Bad Blood Battle" because both Norton and Holmes have been going around saying nasty things about each other. In the fight game, it's not that unusual for promoters and press agents to try to pump additional interest in an otherwise ordinary bout by building it up as some kind of "grudge match," but in this particular case, they don't need a whole lot of help.

"We don't really like each other," said Holmes, cutting into the thick sirloin steak he was having for lunch at his training quarters here in the Catskill Mountains. "Ken Norton doesn't like me because I talk a lot and tell the truth. You know, with all that jewelry he wears, he reminds me of a walking pawn shop."

"I don't like him because he bellittles people all the time. He bellittles me, too. He calls me 'a cheap imitation of Muhammad Ali' and says 'who did you ever fight?' Every chance he gets he calls me 'boy.' He has a habit of walking away from you [you're nobody]."

Before his last victory, a one-sided 12-round decision over Earnie Shavers in Las Vegas, two months ago, Holmes actually didn't have too much stature despite his 26 wins in a row.

But after the way he handled Shavers, supposedly one of the deadliest punchers among the heavyweights, there were natural comparisons with Ali and how much tougher a line he had against Shavers.

"You saw the beating I gave Shavers," Holmes said. "Norton is gonna take a bigger beating. I'm gonna knock him out somewhere along the 12th round, and when I do, I will be the champion of the whole world. Norton can't be tougher than Shavers. He doesn't have Shavers' boxing ability, his punching power or his defense. I know I can take Norton. I'm positive I can."

Holmes has served as a sparring partner for Ali, Joe Frazier and Shavers. He wasn't making much progress in his career until he booked up with Richie Giachetti of Cleveland five years ago.

Giachetti, who trains and manages Holmes, arranged to have two of boxing's best known handlers, Ray Arcel and Freddie Brown, in Holmes' corner for the Shavers fight, but neither is being engaged for the Norton bout.

"What did they do for me? Nothing," Holmes said, answering his own question.

"When I came back to my corner after the first round and he saw what I was doing to Shavers, Ray Arcel said to me, 'you're gonna be champion... you're gonna be champion.' I said, 'I know it.'"

"I'm not afraid to admit I was a dropout and that I need help," he said. "I know how it feels not to be educated. I know how it feels to sneeze dope and get high on wine. I've tried them all. Anytime I get a chance, I tell the kids how foolish all that is. Look at Leon Spinks. I think all that of example do you think he's setting for kids?"

MEXICAN goalie Pedro Solo shows his effective style of stopping goal attempts by the Stuttgart West Germany team as his team defeated them 3-1 in the World Cup Soccer competition in Los Angeles, Sunday.

# Kingman ends slump with 4 blasts against Dodgers

United Press International  
 Dave Kingman, always seems to find sun-drenched California the perfect place to end a drought.

The seven-dollar slugger of the Chicago Cubs, mired in a slump since the start of the season, made his first appearance of the year this weekend in one of his favorite parks — Dodger Stadium — and snuffed out of the hitting slumps with four homers and 10 runs batted in against the Los Angeles Dodgers.

Kingman, who hit a two-run homer Saturday night in a Cubs' loss, unloaded three homers and drove in eight runs on Sunday as Chicago outslugged Los Angeles, 10-5.

It wasn't the first time Kingman ended a prolonged slump at the expense of the Dodgers. Two years ago — on June 4, 1976 — when he was with the New York Mets, Kingman hit three homers and drove in eight runs in a game at Dodger Stadium.

"I ended a long drought in A-below," said Kingman, who had entered Saturday night's game batting only .207 with three homers.

"The last time up I just wanted a single but in the ninth inning I was really swinging for a homer. You can only go bad so long. Now maybe I'm starting to come out of it."

Kingman's game-winning homer came off Rick Rhoden, who was making his first appearance in the major leagues. Paul Reuschler, who worked three scoreless innings in relief, got the victory, Bobby Murcer also homered for the Cubs.

# Matsuoka, Anderson grab titles

**TWIN FALLS** — Carolyn Matsuoka of Twin Falls and Jim Anderson of Buhl took the major singles titles Sunday in the final action of Newton's Sports Center ice-breaker tennis tournament.

Matsuoka down Bulgui 6-3, 6-1 to win the women's A single while Anderson down Blake 6-3, 6-3 for the men's A crown.

The men's A doubles title went to Newlan and Newlan with 6-3, 6-4 decision over Hoyden and Leonetti with Matsuoka teaming with Walker to defeat Strubbers and Reed 6-3, 6-1 for the women's A doubles. Bulgui

and Crane topped Falco and Strubbers 7-5, 6-3 for the A mixed doubles title.

In B competition, Blackwood topped Peterson 6-4, 7-5 for the men's singles and Merrill and Wall dropped Hartrutt and Praegitzer 6-3, 7-5, 7-5 for the men's A doubles. Hoag defeated Street 6-4, 6-3 in the women's B final with the doubles going to Powell and Kemper with a 6-4, 2-6, 6-2 decision over Hoag and Hoag. Mixed doubles were won by Horner and Bailey who topped Hutchings and Hutchings 6-4, 6-7, 7-5.

The tournament attracted over 100 players from

throughout Magic Valley.

The form reversal of the meet came in the men's A singles where Bob Hoyden was the top seed. Anderson defeated him 6-3, 7-5 but then eased the sting of it all by going on to win the championship.

Center-teeled through championship match results include:  
 Men's A singles: Matsuoka 6-3, 6-1; Anderson 6-3, 6-3; Strubbers 6-4, 7-5; Hoag 6-4, 2-6, 6-2; Powell 6-4, 2-6, 6-2; Horner 6-4, 2-6, 6-2; Bailey 6-4, 2-6, 6-2; Hutchings 6-4, 2-6, 6-2; Hutchings 6-4, 2-6, 6-2.  
 Men's B singles: Strubbers 6-4, 7-5; Hartrutt 6-3, 7-5; Praegitzer 6-3, 7-5; Blackwood 6-4, 7-5; Peterson 6-4, 7-5.  
 Men's B doubles: Powell 6-4, 2-6, 6-2; Kemper 6-4, 2-6, 6-2; Hoag 6-4, 2-6, 6-2.  
 Women's A doubles: Matsuoka 6-3, 6-1; Walker 6-3, 6-1; Strubbers 6-3, 6-1; Reed 6-3, 6-1.  
 Women's B singles: Merrill 6-3, 6-3; Wall 6-3, 6-3; Falco 6-3, 6-3; Strubbers 6-3, 6-3; Crane 6-3, 6-3.  
 Women's B doubles: Merrill 6-3, 6-3; Wall 6-3, 6-3; Falco 6-3, 6-3; Crane 6-3, 6-3.  
 Mixed doubles: Horner 6-4, 2-6, 6-2; Bailey 6-4, 2-6, 6-2; Hutchings 6-4, 2-6, 6-2; Hutchings 6-4, 2-6, 6-2.

## Memorial Open practice begins

**DUBLIN, Ohio (UPI)** — Practices will be held Monday by golfers, headed by host and defending champion Jack Nicklaus, in the 1978 Memorial Tournament at the Muirfield Village Golf Club.

A program is scheduled Tuesday at the third annual tourney, to open Wednesday morning. The 72-hole event for \$250,000 will have a field including winners of 19 of this year's 20 tour events and the top 13 finishers in the Masters.

The program will include former President Gerald R. Ford and entertainer Bob Hope, who will team with Nicklaus. Amateurs competing will include Kerry Packer, sponsor of the Australian Open,

and Mauricio Urdenata, former Mexican Golf Association who sponsors the new Mexican Open Cup.

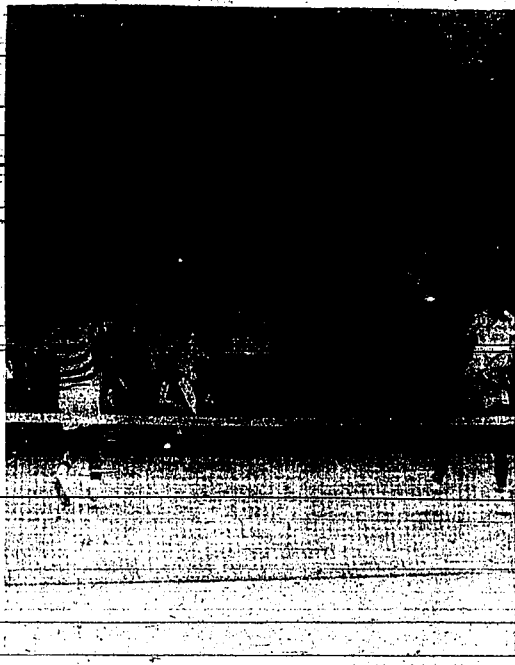

The four pros scheduled to compete include Tom Watson, topping the PGA winning list; defending U.S. Open champion Hubert Green, former Masters champion Arnold Palmer, Tommy Aaron, George Archer, Ray Floyd and Charles Coody, former U.S. Open champion Hale Irwin, Jerry Pate and Orville Moody, and former British Open champion Tom Watson.

A number of outstanding foreign stars also are to be present, including South Africa's Gary Player, Taiwan's Lu

Liang-Huan and Japan's Takashi Murakami, as well as several tour regulars, such as Peter Oosterhuis, David Graham, Bobby Cole, Vic Rogalado and Chi Chi Rodriguez.

The most prominent absentee probably will be Lee Trevino, who is taking the week off to rest. Johnny Miller also will not be back this year.

### A smash

RETURNING a backhand is Terry Newlan during the Newton's Sports Tennis Tournament. Newlan and his brother Dennis defeated Mike Leonetti and Bob Hoyden in this match and went on to take the Men's A doubles.

### Mattioli, retains crown

**PESCARA, Italy, (UPI)** — Rocky Mattioli of Australia retained his World Boxing Council junior middleweight boxing crown Sunday by knocking out Jose Duran of Spain with a crushing right hook in the fifth round. The outcome was never in doubt, with the Italian-born Mattioli knocking down the Spaniard in the second, fourth and early in the fifth before delivering the punch that put Duran down for good at 2:24 of the fifth.

## TOYOTA'S MILLION-DOLLAR-DASH FOR THE 1980 OLYMPIC GAMES.

### SOMETHING FOR THE U.S. OLYMPIC ATHLETES... A \$1,000,000 DONATION.

As you may know, our Olympic athletes are not government-subsidized. So they need money to train now if they're going to win in Moscow in 1980.

**Here's our plan:** Toyota and your participating Toyota dealer will make a donation for the U.S. Olympic team every time a new Toyota car or truck is sold through June 30th, 1978. Help us make our sales goal, so we can give \$1,000,000 or more, to help build a tough U.S. team. When you buy a new Toyota, you'll also get a specially designed Olympic pin, patch, and a certificate thanking you for your support. Now you can get a tough Toyota, and a tough Olympic team.

The world class Corolla.

### SOMETHING FOR YOU... A CHANCE AT \$1,000,000 IN PRIZES. ENTER NOW!

Three "Gold Medal" first prizes, worth over \$134,000 each. How'd you like to win all of this? A \$100,000 condominium in Snowmass, Colorado; Two brand-new Toyotas; \$5,000 in AMF Sports Equipment; A Nikon FM Camera; A \$1,000 Levi Shopping Spree; A 3-week trip for two to Moscow, Munich, and Montreal, with \$10,000 in pocket money; And a Sony Color TV, in case you get bored. That's just the first prize. Three lucky people will win them. Good luck!

Ten "Silver Medal" second prizes: Every "Silver Medal" winner will receive a Toyota Corolla SR-5 Liftback, a \$1,000 AMF Sports Shopping Spree, a Nikon FM Camera, and a one-week trip for two to the European Track and Field Championships in Prague, Czechoslovakia. And \$2,500 cash.

1000 "Bronze Medal" third prizes: A Nikon FM 35mm Camera with 50mm F2 lens. Nice to have around even if you can't make it to the games.

**How to enter:** Just go to your participating Toyota dealer and fill out an entry form. There's nothing to buy, no sentences to complete. But do it soon. Your Olympic-sized chance to win it big ends June 30th. The Million-Dollar-Dash for the Olympic Games. You asked for it. You got it. Toyota.

Complete rules available at participating dealers. U.S. licensed drivers only. Sweepstakes void in Missouri, Maryland, and where prohibited by law.

19-123 - COMMERCIAL BY-LAWS  
The following ordinance by-laws for the Twin Falls Planning and Zoning Commission are hereby adopted and the same shall be considered an integral part of this ordinance and functional guidelines for said Commission:

**BY-LAWS**  
**PLANNING AND ZONING COMMISSION**  
Twin Falls, Idaho

**Article I - Creation and Purpose**  
1. There is hereby created a Planning and Zoning Commission for the City of Twin Falls, Idaho, to fulfill the powers and duties by law conferred upon the Commission, and the Commission shall, among other things, base its decisions on the following objectives:  
1. The protection of property rights and property values.  
2. Public facilities and services.  
3. The effect on the economy of the City of Twin Falls, Idaho.  
4. Environmental considerations.  
5. Effects on prime agricultural, forestry and mining lands.  
6. Unplanned and planned urban development within the City of Twin Falls, Idaho.  
7. The avoidance of undue concentration of population and overcrowding of land.  
8. Land development compatible with land characteristics.  
9. The protection of life and property in areas subject to natural hazards and disasters.  
10. The protection of fish, wildlife and recreational resources.  
11. The avoidance of water and air pollution.

**Article II - Membership and Term**  
The Commission shall consist of seven members and one alternate member who shall be appointed by the Mayor and confirmed by a majority vote of the full Council. The Mayor shall ask and receive recommendations from the Commission, and names of persons to serve, on the Commission.  
Members shall serve a term of three years beginning regularly in January of each year with a maximum of two consecutive terms or six (6) years provided, however, that the term of office for at least one-third of the regular membership shall expire every year. Therefore, upon organization, regular membership shall expire every year as appointed as of the first class and their term of office shall expire every year from the date of their appointment; one-third of the regular membership shall be appointed as of the second class and their term of office shall expire two (2) years after the date of their appointment; and one-third of the regular membership shall be of the third class and their term of office shall expire three (3) years from the date of their appointment. Thereafter, regular members shall be appointed for a term of three (3) years as provided.  
The working alternate shall be of the third class and upon organization shall be appointed to an initial three (3) year term.

**Article III - Organization and Meetings**  
Upon organization, and thereafter at the regular meeting in December of each year, the Commission shall elect, by a majority of the full membership, a Chairman and shall elect and fill in a similar manner any other office that it may deem necessary.  
The Commission may establish sub-committees, advisory committees or neighborhood groups to advise and assist in carrying out the responsibilities of the Commission. The Commission may appoint such non-voting ex-officio advisors as may be deemed necessary.  
The Chairman shall preside at all regular meetings of the Commission which may be scheduled for the last Tuesday of each month for not less than nine months in a year. All meetings and records shall be open to the public and a record of all meetings, hearings, resolutions, studies, findings, plans, recommendations, and actions shall be maintained by the Commission.

**Article IV - Special Meetings**  
Special meetings of the Commission may be held at such times and at such places as agreed on by at least four (4) members at a regularly scheduled public meeting. Written notice of all such special meetings, including the time, date, and purpose of said meetings shall be given to all members of the Commission, including the alternate members. Provided, that written notice of all special meetings may be waived by a member at said special meeting, duly entered and recorded in the minutes of each meeting.  
No business may be conducted at any such special meeting upon any application or request of any citizen except and unless notice of the request and of the special meeting has been published as required by law.

**Article V - Order of Business**  
All regular and special meetings of the Commission shall be conducted by the Chairman in an orderly fashion.

**Article VI - Members Qualifications**  
Persons recommended for appointment to the Commission shall have resided in the City of Twin Falls, Idaho, for the (3) consecutive years preceding their appointment and said members must remain a resident of the City during the term of office to which they were appointed.  
In appointing members to the Commission, the Council shall be certain that the aims and interests within its jurisdiction are broadly represented by the appointed membership. Members shall be selected and appointed without respect to political affiliations.

**Article VII - Vacancies and Removal of Commission Members**  
Vacancies occurring otherwise than through the expiration of appointed terms shall be filled in the same manner as the original appointments. A member appointed to fill an unexpired term shall serve the remainder of the unexpired term and may be appointed to one additional full term.  
Members may be removed for cause only by a majority vote of the full Council.

**Article VIII - Conflict of Interest**  
A member of the Commission shall not participate in any proceeding or action when the member, his employer, or his employee, business partner or associate, his business, or any person related to him by affinity or consanguinity within the second degree has an economic interest in the procedure or action. Any actual or potential interest in any proceedings shall be disclosed at or before any meeting, duly entered and recorded in the minutes, at which the action is being heard or considered.

**Article IX - Duties of Commission**  
Consistent with the purposes of the Commission hereinafore set forth, the Commission shall have the following duties together with such other duties as are prescribed by law:  
1. Initiate proposed amendments to this ordinance and conduct a biennial review of the ordinance and guidelines.  
2. Review all proposed amendments to this Title and make recommendations to the Council.  
3. Conduct a comprehensive planning process designed to prepare, implement, and review and update a comprehensive plan as required by law.  
4. Review all overlay districts and design review districts and make recommendations to the Council.  
5. Grant special use permits as specified in this Title and under the conditions as therein specified with such additional safeguards as will protect the intent of this Title.  
6. Hear and decide appeals where it is alleged there is an error in any order, requirement, decision, interpretation or determination made by the administrator.  
7. Authorize such variances from the terms of this Title as will not be contrary to the public interest where, being to special conditions, a literal enforcement of this ordinance will result in unnecessary hardship, and so that the spirit of this Title shall be observed and substantial justice done.

**Article X - Duties of Alternate Member**  
The alternate member to the Commission shall attend all meetings of the Commission, including both regular and special meetings and shall actively participate in all discussions had on any matter before the Commission. The alternate member shall not vote on any matter except as herein provided.  
The Commission alternate shall have full voting privileges whenever a regular member is absent, unable to act due to a conflict of interest, and whenever a vacancy occurs on the Commission for any reason. The alternate member shall not act with full voting privileges, unless the disability of the regular Commission member has been removed.

**Article XI - Public Hearings**  
The Chairman shall preside over and conduct all public hearings on all matters presented to the Commission. No public hearings shall be held except and until notice has been given to the public in conformance with the statutes of the State of Idaho made and provided in such case. At such public hearings the Chairman shall preside over the matter for discussion and may, before the hearing commences, impose a time limit upon such individuals who desire to comment.  
At the close of all public hearings, the Commission shall discuss and decide as hereinafter provided, the matter at issue and shall commit its decision or recommendation to the Council in writing and the reasons therefor. If the application is denied, a roll-call vote shall be taken on all issues and recorded in the minutes.

**Article XII - Quorum for the Conducting of Business and Voting**  
A majority of the membership shall constitute a quorum for the transaction of business at any meeting of the Commission. In consulting a majority of the alternate members shall not be counted unless the alternate member is sitting with full voting privileges as herein provided.  
In the event more than one regular member is absent, the alternate sitting due to a conflict of interest, said member shall not be counted for the purposes of constituting a quorum.  
Each member shall be entitled to one vote and the acts of a majority of a quorum present at any regular or special meeting shall be the acts of the Commission.

**Article XIII**  
All decisions of the Commission on issues not requiring the passing of an ordinance shall be final if not appealed to the Council within thirty (30) days.

**Article XIV**  
These By-Laws may and shall be amended in the same manner provided for amendments in this ordinance as it is amended.

# HOW TO DO A LITTLE BUSINESS ON YOUR OWN...

Holding a garage sale is a fun way to do a little business on your own...but it takes a bit of planning

Like you'll want to decide what to sell and how much to charge for each item... and then you'll need price tags so other people will know what you're charging

And you'll have to be able to make change for all your customers... so that means you should have lots of one dollar bills and an assortment of coins.

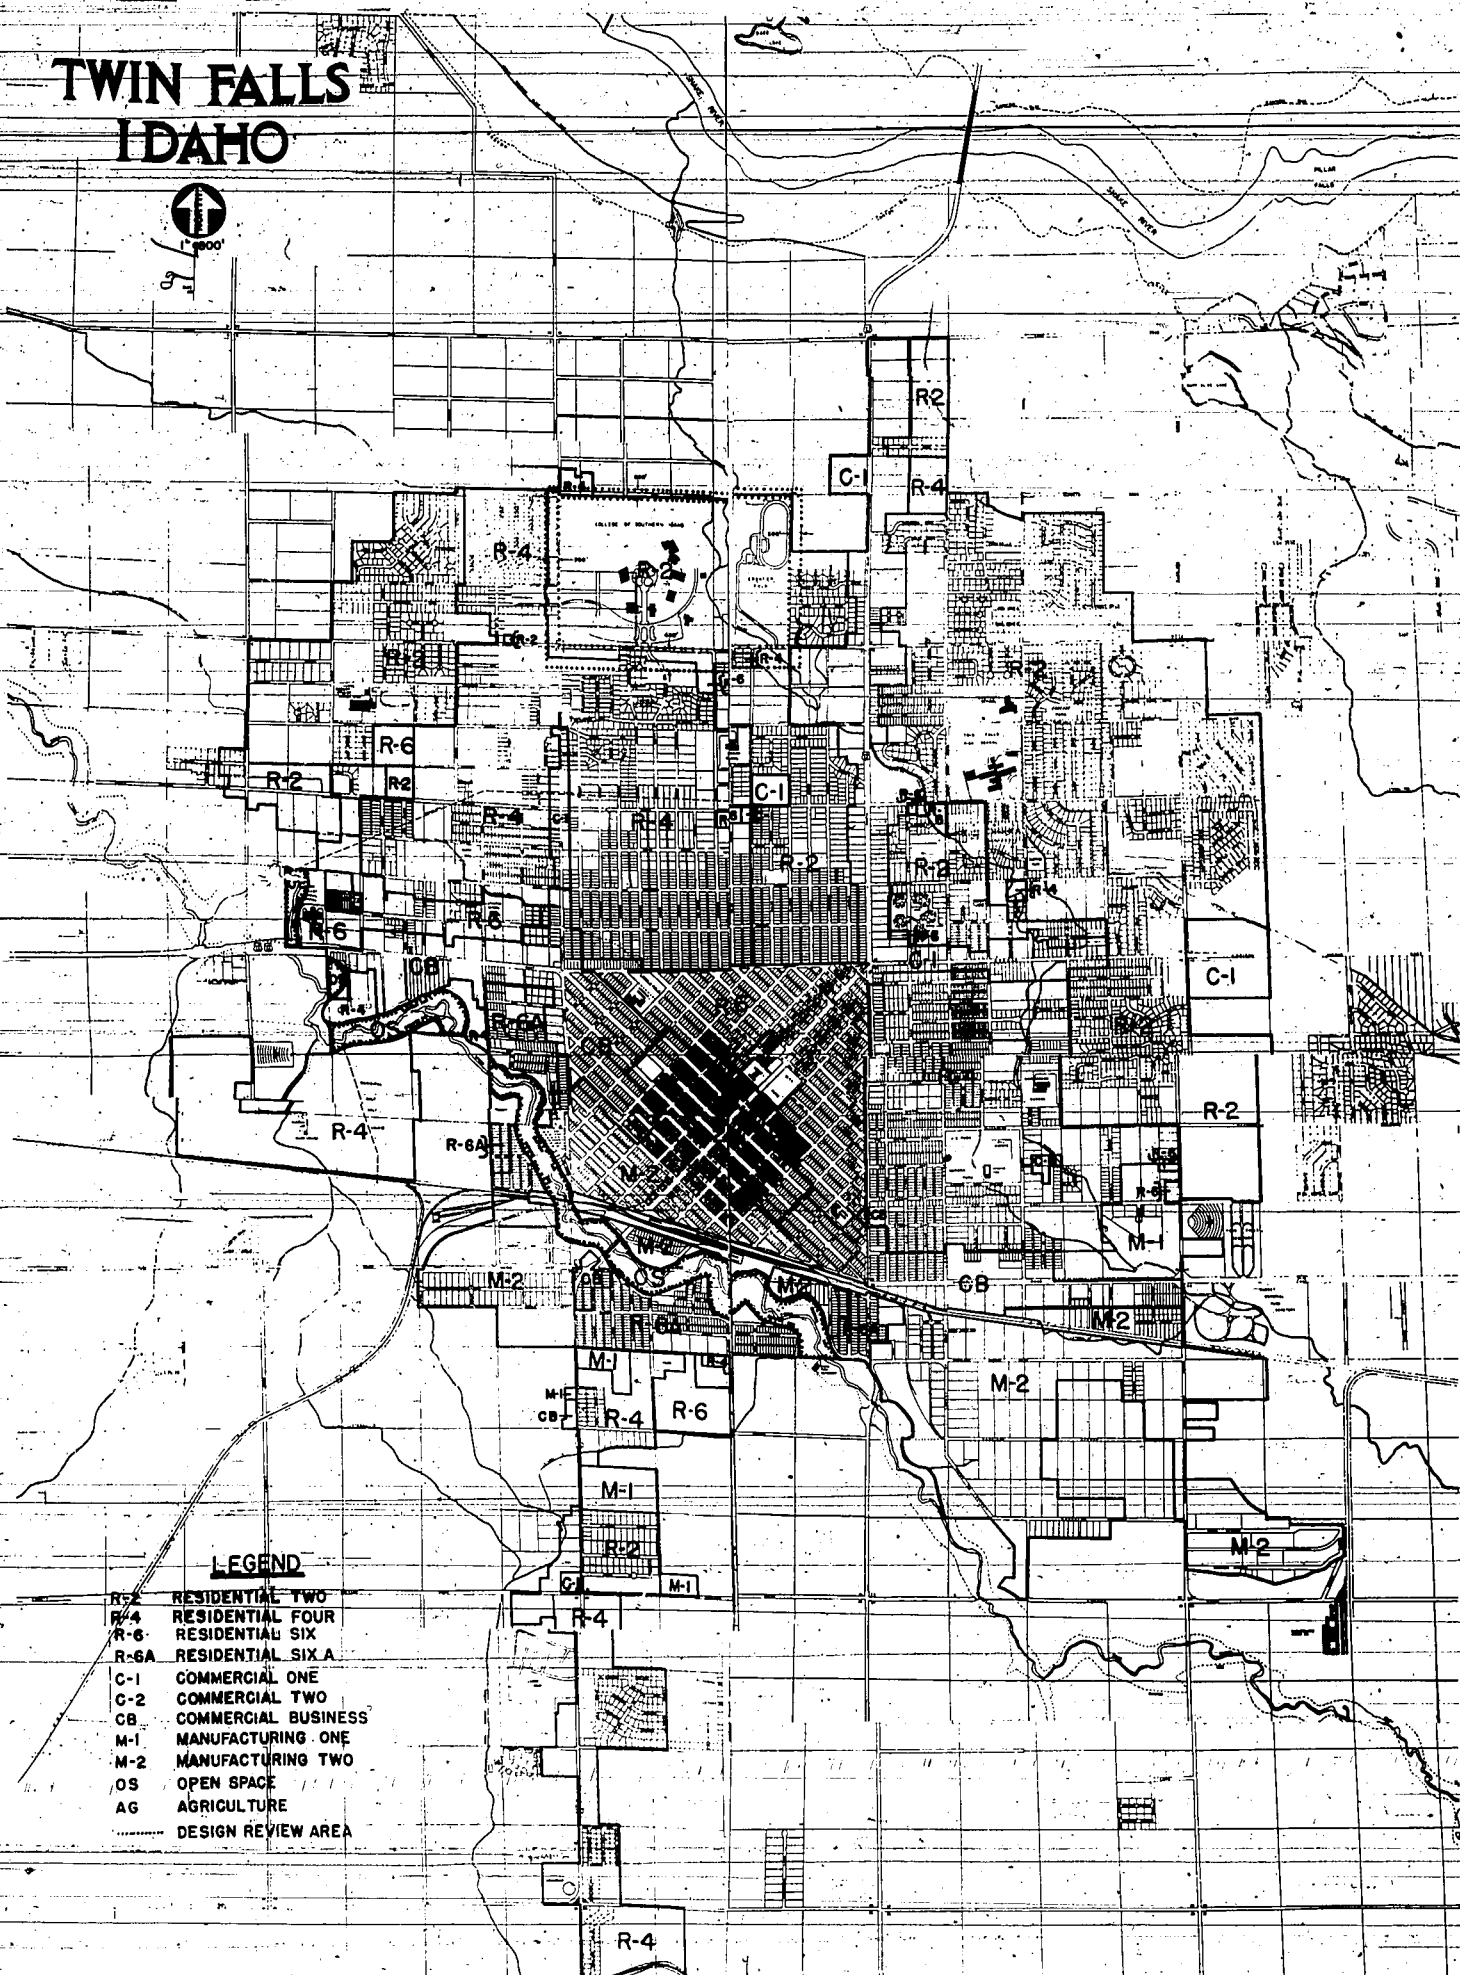

Then you'll want to advertise your sale to attract that crowd. You can do it with a sign or signs in your neighborhood... but you'll want a bigger crowd than that... so you'll run an ad in Classified which tells the time and place of your sale to a host of potential buyers.

One more thing... get up early the day of your sale! When people read about a Garage Sale in Classified, they shop early.

Have fun with your little business adventure!
