

Pentagon says missiles baffle USSR

WASHINGTON (UPI) — Flight tests show the earth-bugging U.S. cruise missile can penetrate any air defense system the Soviet Union is likely to mount against it through the mid-1980s.

A senior defense official said Sunday Pentagon experts have tested the

16-foot missiles, being developed as a major strategic weapon for the next decade, against both air-based and ground-based anti-aircraft radar systems — including some actual Soviet equipment.

The test flights have made U.S. planners more optimistic than they

once were about the cruise missile's chances against potential Soviet defenses.

"It is not going to fly into the nose of a surface-to-air missile site and have a high probability of survival," said the official. "But on a one-for-one basis it can defeat the systems.

provided it is cautious and stays a few miles away."

In actual practice, the United States would depend on a mass attack by at least 3,000 cruise missiles. Planners would try to locate defense sites ahead of time to give the missiles a greater chance of success.

The first few hundred cruise missiles are expected to be operational by 1982.

Earlier estimates had given the Soviets a chance of reducing the penetrating ability of cruise missiles. If they mounted a crash program to get as many as 10,000 of a new anti-aircraft missile, the SA-10, into the field by 1985, they are believed to be ready to deploy the first SA-10s at any time.

But the official said he is confident new types of Soviet air defenses will be needed against the missiles, which are actually pilotless jet planes that use a computer "map" to fly 100 feet or less above the ground, carrying nuclear warheads to targets with high accuracy.

How soon the Soviets could develop new systems and get them operational is guesswork, but is "certainly

beyond the mid-80s," the official said. No Soviet equipment new enough to approach the SA-10's believed capability is available for the current U.S. tests.

But Pentagon experts believe the latest model U.S. missile being used in the tests, matches the new Soviet missile.

While miniaturized electronic jamming systems are planned for use in later versions of the cruise missile, the official said as a result of the tests their development will not be rushed for use on the first generation of the weapon.

Although one of the "survivability" tests was opened to reporters and television cameras last June, details have been kept secret. Pentagon sources disclosed, however, that U.S. AWACS radar planes were able to spot cruise missiles as much as 100 miles away.

Hey Mom! Can I have a wedding like this?

LONDON (UPI) — It was a wedding to make society editors swoon, financiers beam and followers of royalty line up hours early just to get a glimpse of the happy couple.

Quite simply, British papers said, the marriage of Earl Grosvenor, 26, the son of the Duke of Westminster, to 19-year-old Natalia Phillips, descendant of a Russian czar, was the "wedding of the year."

Gerald Grosvenor, Britain's richest landowner and long considered one of its most eligible bachelors, wed the blonde, elfin-faced "Tally" over the weekend in the 12th century St. Mary's Church at Luton, 30 miles north of London.

The couple then hosted a reception for 1,000 guests at the home of the bride's brother.

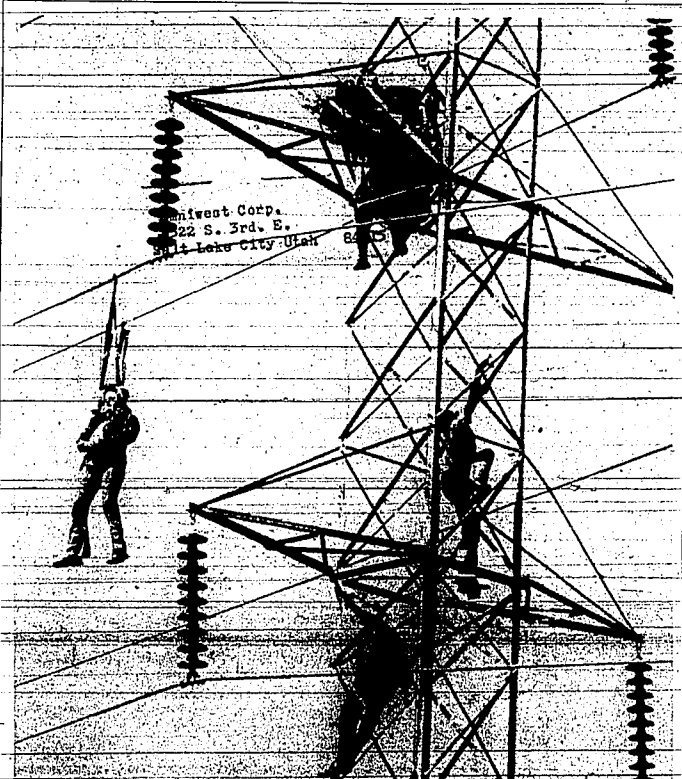

Overshadowing the ceremony was the sudden illness of the groom's father, who was rushed to Westminster Hospital late Friday night after suffering an asthma attack. He was reported "responding to treatment" in the intensive care ward.

The six-foot, ruggedly handsome Grosvenor is heir to an estate that owns, among other properties, 300 acres of central London and vast holdings in Wales, Scotland, Northern Ireland, Australia, Canada and Hawaii. By one estimate, he grows about \$400 richer every minute.

British papers were quick to dub it a "fairytale romance," but the marriage was far from a Cinderella match.

Though the bride was untitled, her mother is a close friend of Queen Elizabeth and she is a direct descendant of Czar Nicholas I.

She brings her own inheritance to the marriage as well, making the couple's combined worth well over \$1 billion.

Hang glider hung up in the wires

Danny Mathews took a wrong turn in the sky and landed his hang glider in a high voltage transmission line outside Dallas Sunday.

Mathews was rescued from the perch by power company teams and was declared lucky to be alive.

Carter's cabinet gets mixed review

WASHINGTON (UPI) — President Carter has "called his Cabinet superb," but a survey released Sunday indicated people who deal daily with Cabinet members describe some as "abrasive," "lightweight" or "a flunky."

The survey was conducted by U.S. News and World Report, which said it took Carter up on a suggestion that it examine attitudes toward Cabinet members.

"The Cabinet that President Carter calls 'superb' is rated only average on the whole by most government officials and private citizens who work closely with it," the magazine reported.

"A handful of top-ranked members evoke descriptions such as 'remarkable,' 'respected,' 'extraordinarily bright.' More common, however, are reactions such as 'a flunky,' 'abrasive,' 'lightweight.'"

U.S. News said it interviewed more than 100 people including White House aides, members of Congress and their staffs, career officials and citizens who deal with the government.

Using the interviews, it rated each Cabinet member on a scale of one to 10.

Defense Secretary Harold Brown, 63, "considered knowledgeable, organized, tough, loyal to the president, but has a cold personality and is not entirely trusted by Congress."

Secretary of State Cyrus Vance, 80, "tactful, hard working, respected, patient ... sometimes too cautious,

lacking imagination, not forceful."

Health, Education and Welfare Secretary Joseph Califano, 75, "intelligent, dynamic, persuasive and sensitive ... also vain, domineering, ruthless and manipulative."

Housing and Urban Development Secretary Patricia Harris, 65, "determined, knowledgeable, dedicated, knows Washington ... abrasive, stubborn, impatient, politically partisan."

Attorney General Griffin Bell, 60, "an eye for top talent ... forthright, accessible ... (but) politically inept, overly sensitive, not aggressive."

Agriculture Secretary Bob Bergland, 60, "knows farming, good congressional contacts, affable ... fights White House policy ... a lax administrator."

Interior Secretary Cecil Andrus, 55, "good ties with Carter ... personable, pragmatic, sincere ... (but) unpopular in the West, is seen as too close to environmentalists."

Good morning!

Employers in West hiring fewer workers

WASHINGTON (UPI) — National hiring expectations for the remainder of the year have tapered off compared to a year ago with western states, particularly California, feeling the impact of Proposition 13, according to a report issued this month.

Manpower, Inc., a Milwaukee-based major employer of office workers and semi-skilled and skilled

workers, said in its quarterly hiring outlook that 30 percent of the employers surveyed project increased hiring, 58 percent no change, 9 percent a reduction in staff and 3 percent unsure.

Manpower said its survey of a year ago showed 33 percent of those surveyed said they would increase hiring, 55 percent projected no change

in hiring and 9 percent expected a decrease in staff.

"For the first time in the history of the Manpower survey, hiring expectations in the West trail all other regions of the country," the report said.

"A major cause of the drop is believed to be the effect of California's Proposition 13, which is now being felt at the hiring level. Hardest hit are public

agency jobs and public education institutions. California hiring plans are at a lower level than other states in the western region."

The report indicates that in the West, 27 percent of those interviewed expect to increase hiring, 59 percent to remain the same, 11 percent to decrease staff and 3 percent unsure. The report added that two years ago,

the West led the nation in its hiring outlook.

Twenty-nine percent of the public administration employers in the West said they would decrease hiring during the last three months of the year. That figure was followed closely by education institutions, both public and private, where 26 percent said they would decrease hiring.

Race is on

By DAVID MORRISSEY Times-News writer

BUHL — The west end of Twin Falls County has seldom been friendly territory for Democrats.

Since 1938, only two Democrats — Frank Church and Cecil Andrus — have been able to crack the grip of the Twin Falls Republican Party in the Buhl-Castledorf-Piler precincts.

Not surprisingly, Legislative District

24, which contains the western two-thirds of the county, has produced more Republican state legislators than almost any other district in Idaho.

For the past 12 years, the District 24 Senate seat has been held by the Republican — John Barker of Buhl. A 62-year-old Twin Falls native, Barker is President of the John M. Barker Agency, Inc., an insurance, real

estate and real estate loan agency. So popular was Barker in 1976 he had no opponent in either the primary or general election.

During those 12 years in the Senate, Barker has not only become second in seniority but has become chairman of the powerful Health, Education and Welfare Committee.

This year Democrats hope the political climate may change. Not only did Barker face a tough primary challenge in his own party, but Democrat George Anthony is waging a campaign to topple Barker in the general election.

Anthony is a 54-year-old former nuclear engineer who traded a position with the space program in California for the less hectic job of farming in Castledorf. No newcomer to politics — he ran unsuccessfully for the legislature in 1976 against Rep. Roy Brackett, R-Twin Falls — Anthony is campaigning hard in his challengers bid for the Senate.

Knocking on doors, addressing meetings, and buying billboard space, Anthony is demonstrating that Republicans aren't the only candidates in Twin Falls County who know how to campaign.

The two candidates find themselves on opposite sides of several issues. One of the more significant differences occurs on taxation legislation. Barker supported both the four-mill and eight mill property tax reduction

estate and real estate loan agency. So popular was Barker in 1976 he had no opponent in either the primary or general election.

During those 12 years in the Senate, Barker has not only become second in seniority but has become chairman of the powerful Health, Education and Welfare Committee.

Venus-bound spacecraft pass key tests

MOUNTAIN VIEW, Calif. (UPI)—Two Venus-bound Pioneer spacecraft, the Orbiter and the Multiprobe, have passed major planet operations tests; National Aeronautics and Space Administration scientists at the Ames Research Center announced Sunday.

Aboard Pioneer 2, the Multiprobe, orientation, timing and separation systems were successfully tested for the split-second release of three probes that will spread over Venus' Earth-facing hemisphere 6,000 miles apart.

Heroin bust nets 11 pounds of drug

RONKONKOMA, N.Y. (UPI)—Five Californians were arrested and more than 11 pounds of high-quality Mexican heroin confiscated Sunday by local and federal narcotics officers.

Suffolk County District Attorney Patrick Henry said it was the largest quantity of heroin ever seized on Long Island, which has become known recently as a major connecting point for drug smugglers.

Authorities said the four men and one woman were arrested about 1:30 a.m. after they sold the heroin to two undercover Suffolk County police officers for \$200,000.

A spokesman for the Long Island Drug Enforcement Task Force said the heroin was about 11 percent pure, which is considered high grade.

Law enforcement authorities disagreed on the street value, with estimates ranging between \$300,000 and \$7 million. The value depends on the quantity and quality of each sale and whether it was sold at wholesale or retail prices, authorities said.

Immediately after the undercover detectives paid \$200,000 cash, officers from the Suffolk County police and the Task Force arrested the five suspects and recovered the money.

The suspects were identified as Alencar Valencia, 34, of Redwood City; Roberto Carillo, 27, of Sunnyside; "Eleanor" Ferdono, 36, of Calexico; Samuel O'Livas, 29, of La Puente; and Leopoldo Nina, 31, of San Jose.

Negotiators named

JERUSALEM (UPI)—Foreign Minister Moshe Dayan and Defense Minister Ezer Weizman will represent Israel at the peace talks with Egypt in Washington, beginning this week, the Cabinet formally decided Sunday.

"I think everybody is interested that the peace treaty be signed as early as possible," Deputy Prime Minister Yizhak Mordechai said after the four-hour meeting, which was held in the absence of Prime Minister Menachem Begin.

Today's weather

Clear skies will turn cloudy soon

Twin Falls, North Side, Burley-Rupert area:

Fair but with some high clouds tonight. Increasing clouds late Monday night and Tuesday. Overnight lows mid-30s to mid-40s tonight and 40s Monday night. Highs mid-70s Monday and near 70 Tuesday.

Halley, Camas-Frarick, lower Wood River Valley:

Fair but with some high clouds tonight. Increasing clouds Monday with chance scattered showers especially northern elevations late Monday and Tuesday. Lows mid-30s to mid-50s tonight and mid-30s to low 40s Tuesday. Highs mid-60s to low 70s Monday and 60s Tuesday.

Synopsis: Sunny mild days and clear cool nights have been the rule across Idaho for the past few days.

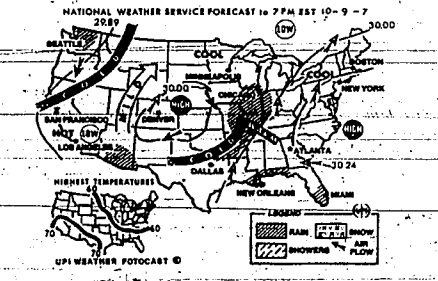

The extended weather outlook:

CIA coached ITT employees before Church subcommittee

WASHINGTON (UPI)—The CIA helped two International Telephone and Telegraph executives prepare testimony for a Senate subcommittee in which they denied knowledge of a \$1 million payment by the communications conglomerate to the socialist president of Chile, it was reported Sunday.

The executives, Robert Berrellez and Edward J. Gerrity Jr., said they were unaware of any connection between ITT and the spy agency before the election of Salvador Allende in 1970.

But the Washington Star reported that CIA personnel coached the two executives about their testimony before a Foreign Relations subcommittee chaired by Sen. Frank Church, D-Idaho, in which they related any knowledge of the \$1 million payment to Allende's campaign or any association with the CIA.

The pair are charged with perjuring themselves before the Church committee. Gerrity is ITT's senior vice president for public relations and Berrellez worked for him as a corporate director for South America.

Berrellez goes to trial in U.S. District Court Oct. 23 and Gerrity faces the perjury charges Dec. 4.

The newspaper quoted sources that indicated former Sen. J. William Fulbright was aware of a CIA-ITT association during the Chilean

presidential campaign but did not inform the Church subcommittee. Fulbright declined comment on the report pending his possible testimony in the trial.

Gerrity told the Church committee in 1973 that ITT was concerned that Allende's socialist record could lead to a takeover of ITT assets in the South American nation. But he said he had "no knowledge of any money being offered" to Allende's opponents.

The newspaper's sources said the Justice Department has evidence the CIA was in continuous contact with ITT prior to the hearings and apparently coached Gerrity and Berrellez about their disputed testimony.

When you're a congressman, you can't sit in the back row giggling and throwing spitballs," Truby said.

"I don't know when he is kidding or being serious," Truby said. "I thought he was joking, but later I found out he was serious."

"I don't know when he is kidding or being serious," Truby said. "I thought he was joking, but later I found out he was serious."

"I don't know when he is kidding or being serious," Truby said. "I thought he was joking, but later I found out he was serious."

Truby not amused at Symms

BOISE (UPI)—Democratic congressional candidate Roy Truby says he becomes confused about Rep. Steve Symms' sense of humor and wants the incumbent Republican to stop making disrespectful, ridiculous statements.

Truby, appearing on KBCI television Sunday, was referring to Symms' statement that Idahoans should burn forests "and maybe then the government will think about giving them back to us," and suggesting that Utah authorities "shoot (executed killer) Gary Gilmore on television."

Almanac

By United Press International Today is Monday, Oct. 9, the 282nd day of 1978 with 83 to follow.

This is Columbus Day by federal proclamation (although it traditionally falls on Oct. 12).

The moon is in its first quarter. The morning stars are Jupiter and Saturn.

The evening stars are Mercury, Venus and Mars.

Those born on this date are under the sign of Libra.

American evangelist Aimee McPherson was born Oct. 9, 1890.

In 1701, Yale College — now Yale University — was founded.

In 1916, forest fires in northern Minnesota destroyed six towns with a loss of 400 lives and damage estimated at \$100 million.

In 1934, King Alexander of Yugoslavia was assassinated by a Croatian terrorist during a state visit to France.

In 1975, Andrei Sakharov, father of the Soviet hydrogen bomb, became the first Russian citizen to win the Nobel Peace Prize.

WALTER MONDALE speaks on taxes

Tax cut inflationary, Mondale warns

WASHINGTON (UPI) — Vice President Walter Mondale said Sunday the Senate has exceeded President Carter's proposed tax cuts by \$10 billion, a reduction he warned that would fuel inflation and erode any economic benefits of the measure.

In a weekend session the Senate boosted the tax bill to nearly \$20 billion.

"We will have about a \$20 billion tax cut," Mondale said. "That is our suggestion. If it goes higher than that it can bust the budget."

"It gets to the point where it starts re-igniting inflation and thus it becomes an illusionary cut."

Mondale appeared on the ABC interview program, "Issues and Answers."

"The president has talked about \$20 billion and I believe anything beyond that would be very serious and I don't anticipate that one would go beyond that at this time."

The vice president said Carter will soon unveil a bold program to fight inflation that would balance the burden on business and management, but without mandatory price and wage guidelines.

Mondale sought to assure AFL-CIO President George Meany and other labor leaders who are

cautious about the inflation program that business will not be unduly favored in a program based on voluntary restraints.

"The president is doing everything he can and the proposal that he will be announcing shortly will be a strong, new initiative," Mondale said. "And it will be a fair initiative which I think will commend itself to labor as well as business."

An anti-inflation program cannot be one which asks any segment of American society to pay a disproportionate price.

Nation's nutritional problems not studied

By AL ROSSITER JR., UPI Science Editor

WASHINGTON (UPI) — Federal research has focused too much on such issues as under-nutrition and paid too little heed to evidence linking modern eating habits with fatal

diseases, Congress' Office of Technology Assessment said Sunday.

As a result of the failure of nutrition research to keep up with the times, the OTA said, the U.S. quality of life may suffer for generations to come.

Americans have significantly

changed their eating habits during the past 50 years, and few people today show obvious signs of nutritional deficiency, the OTA said in a new report.

Most Americans now get a balanced diet providing necessary protein,

minerals and vitamins, it said, and nutrition deficiency diseases are no longer a major problem.

As a result, the report said, scientists believed continued studies into human nutrition would yield little of practical value for the United States.

It said they shifted their attention toward more basic studies into biochemical functions of nutrients and toward under-nutrition in developing countries.

That shift left a vacuum in domestic nutrition research, even though nutrition is believed to be a major cause of the degenerative diseases that kill most Americans today, the report said.

people of the United States." It said.

"The consequences of continuing to pursue the present program with nutritional deficiency will seriously affect the quality of present and future generations in the 21st century."

The OTA said studies in the decade have indicated consumption of certain kinds of food, such as those high in cholesterol, are important contributing factors in five of the leading causes of death: heart disease, stroke, diabetes and cirrhosis of the liver.

"Increased research into the diet in causing and preventing major chronic diseases may find findings which could reduce incidence or delay their onset," the report said.

Barker, Anthony vie for senate

Continued from page A1

Even if the technical corrections are made in the initiative, Anthony says, "It is my understanding that the majority of the counties in the state of Idaho will in due course of time end up paying more property taxes than they are paying now."

Anthony says he opposes the initiative with or without its need for corrections because "the net effect will be raising taxes on farmland and farm homes."

Anthony adds he has drafted an alternative tax relief plan. That proposal calls for a property tax exemption on the first \$10,000 of assessed value of a home, and the elimination of the sales tax on food.

Barker says there are several accomplishments from his 12 years of legislative service of which he is particularly proud. "I worked very

hard for passage of the kindergartens bill and was the floor sponsor in the Senate," he said. "We had it passed three different times in the Senate only to have it fall in the House."

Barker also notes with pride his work as Chairman of the Health, Education and Welfare Committee in providing the funding for better education for handicapped children.

Anthony says he would have several specific interests if elected, and some would be directed toward the committee Barker now chairs. Anthony says that committee should be split into two or perhaps three different committees. "The problems in determining the monies to be expended are far too much for any one committee and should be split into several committees which can specialize," Anthony says.

Anthony also says a major concern would be seeking funding for a new bridge across the Snake River, which would connect the Interstate with Highway 30, approximately four miles West of Twin Falls. That bridge would relieve the traffic problem in downtown Twin Falls, Anthony says, and would also give west Twin Falls residents better access to the Interstate.

But while Barker and Anthony differ in some areas, in other areas they find common ground.

Each, for instance, is taking a "wait and see" attitude toward local option taxation. If Ketchum and Sun Valley succeed in implementing their local option "tourist" taxes, both candidates say they will consider voting for expanded local option taxes.

Each is critical of attempts to repeal the Local Planning Act of 1975,

the one state law which requires local governments to draft land use plans. Each agrees that law is needed.

Each also agrees legislative sessions have become too long, and that some method should be found to reduce the amount of formal matters which consume lawmakers' time.

On the question of mandatory minimum sentencing, Barker says he will work to see legislation requiring minimum sentences for persons who commit violent crimes written into law. Anthony says he won't disagree with that idea, but needs additional time to study the specific merits of the proposal.

Both candidates say they campaign extensively in the final days before the election. Barker says he will likely spend between \$300 and \$500 in his bid for re-election, while Anthony says he will spend a minimum of \$3,000.

Catholic's march marred in Ireland

LONDONDERRY, Northern Ireland (UPI) — Hard-line Protestant Sunday hurried rocks and bottles at Catholics trying to prevent them from attacking Roman Catholics marking the 10th anniversary of their first civil rights march.

A security spokesman said 41 policemen and nine soldiers were injured in the hour-long clash. Most suffered cuts and bruises from the missiles. Nine persons were arrested.

Gas bill will fuel inflation, study says

WASHINGTON (UPI) — An independent energy research group said Sunday the natural gas deregulation bill would have a "supercharged inflationary effect on the nation's economy."

The group, Energy Action, said that by using Department of Energy figures on the anticipated average gas prices over the next eight years the yearly increases would range from 13 to 23 percent. The total increase from 1977 to 1985, assuming a 5 percent inflation rate, would be

252 percent, the group said.

"This new information, in combination with the latest inflation figures, means that inflation is already increasing even more than expected, and the gas deregulation bill would seriously undermine President Carter's anti-inflation efforts."

Congressional action on the bill, which would remove all government controls on natural gas by 1985, is expected to be completed this week.

Keep religion out of governor's race

Mormonism, not politics, keeps recurring as the major issue in the Idaho gubernatorial race this year.

Rarely a week goes by that someone doesn't say Republican Allan Larsen, a Mormon, is in trouble because of his religion.

Of course, Gov. John Evans, a Democrat, was raised a Mormon, too.

But Evans is viewed as less-Mormon than Larsen and therefore more acceptable to the non-LDS majority in Idaho.

This line of thinking shows more than a tinge of religious prejudice on the part of Idaho voters.

Check the record of Larsen and Evans in the state legislature and you find they don't differ on many of the so-called Mormon issues of drinking, gambling and the family.

Evans has been careful not to liberalize Idaho drinking laws; hasn't spoken out in favor of gambling or done much that can be perceived as weakening the family bond.

Evans plainly isn't going to alienate the Mormon vote in Idaho because he needs those votes just as Larsen does.

So, voters who think Evans will come down hard on the Mormons are letting their own religious bigotry cloud their political vision.

And what about Larsen and his Mormonism? Doesn't it seem likely that Larsen, knowing Idaho is predominately Republican but not predominately Mormon, will try, if elected, to accentuate his Republicanism, not his Mormonism?

Looking at the religion-issue pragmatically,

Larsen has much to lose by playing up the Mormon issue as governor. It's an issue that can always be used against him by the non-Mormon majority.

He simply can't be elected if only the Mormon counties of southern and southeastern Idaho vote for him and everybody else goes for Evans or somebody else next time.

And who says all the Mormons in southeastern Idaho are automatically going to follow Allan Larsen, anyway?

The Evans campaign expects to do well in some Mormon counties, Bannock, Oneida, Bonneville, and others.

Evans may not win in these areas, but he may score well because he is viewed by many Republicans as a benign governor who happens to be the opposite party.

And that's the point. Allan Larsen is a more conservative than John Evans. Larsen dislikes Bob Lenaghan of the PUC, likes the 1% initiative, isn't an environmentalist.

That's politics, not religion. Yet a month before the governor's race, at parties and political gatherings, religious debates all but drown out talk of the political differences between the candidates.

Sen. James McClure, a non-Mormon but a good Republican summed up all this talk of the LDS vote in Twin Falls recently.

"We are not religious bigots in Idaho," McClure said. "It's time to law to rest once and for all the idea that a person shouldn't run for office if he belongs to a certain church."

Amen.

Holes in Oswald story

WASHINGTON (UPI) — In a month of dramatic and sometimes grim public hearings, the House Assassinations Committee seems to have bolstered the Warren Commission's finding that Lee Harvey Oswald alone killed John F. Kennedy.

But it has not established Oswald's motive or cleared away suspicions he was a Soviet agent.

At the final public session, committee Chairman Louis Stokes, D-Ohio, said the panel will not present its conclusions until December.

"All the evidence is not yet in," Stokes said. Investigation is continuing. But he cautioned: "Not every question that can be answered can be answered to the satisfaction of all."

Of the 59 witnesses called to the chandeliered Caucus Room of the Cannon House Office Building, two in the best position to know could only speculate on Oswald's motive and whether the Russians had ensnared him.

They were Marina Prusavka Oswald Porter, Russian-born widow of the accused assassin, now married to a Texas electronics engineer, and former CIA Director Richard Helms.

Slim and attractive at 37, Mrs. Porter spoke hesitantly but in good, even slangy, English.

"I really do not know what to say about the motive," she said.

But she knew he was capable of murder, she said, because he had taken a shot at retired right wing Gen. Edwin Walker six months before the Kennedy assassination.

(The shot missed Oswald ran away and took the bus home.)

"Anytime a person is capable of killing somebody, he is not a stable-minded person," Mrs. Porter said.

Could it have been that Oswald simply wanted to make himself important by killing someone important?

"Well," she replied, "the whole matter is so irrational it is very hard to even come up with any rational answers. But I would buy your statement that you made — about somebody important. It probably does not matter what their political views are."

"But this is just my opinion. I could be wrong."

Helms, who was running the CIA's clandestine operations at the time of the Kennedy murder, said he still thinks Oswald could have been recruited by Soviet KGB intelligence agents during his 2 1/2 years as a defector in Russia. He returned home in 1962.

"It still hangs in the air like an incubus," Helms said.

It all depended, he said, on whether KGB defector Yuri Nosenko was telling the truth when he informed the CIA two months after the Kennedy assassination, that the KGB had taken no interest whatever in Oswald.

"This strained credulity — at the time," Helms said. "It strains it to this day."

From 1964 to 1967, the CIA tried to "break" Nosenko's story. He was kept in solitary confinement under high-pressure interrogation. But he stuck to his story.

In 1968, the agency finally released him and hired him as a consultant on Soviet intelligence methods.

"It is difficult to overstate the significance that Nosenko's defection assumed in the investigation of President Kennedy's assassinations," Helms said. "If this information were to be believed, then we could conclude that the KGB and the Soviet Union had nothing to do with President Kennedy's murder."

Porter spoke hesitantly but in good, even slangy, English.

"I really do not know what to say about the motive," she said.

But she knew he was capable of murder, she said, because he had taken a shot at retired right wing Gen. Edwin Walker six months before the Kennedy assassination.

(The shot missed Oswald ran away and took the bus home.)

"Anytime a person is capable of killing somebody, he is not a stable-minded person," Mrs. Porter said.

Could it have been that Oswald simply wanted to make himself important by killing someone important?

"Well," she replied, "the whole matter is so irrational it is very hard to even come up with any rational answers. But I would buy your statement that you made — about somebody important. It probably does not matter what their political views are."

"But this is just my opinion. I could be wrong."

Helms, who was running the CIA's clandestine operations at the time of the Kennedy murder, said he still thinks Oswald could have been recruited by Soviet KGB intelligence agents during his 2 1/2 years as a defector in Russia. He returned home in 1962.

"It still hangs in the air like an incubus," Helms said.

It all depended, he said, on whether KGB defector Yuri Nosenko was telling the truth when he informed the CIA two months after the Kennedy assassination, that the KGB had taken no interest whatever in Oswald.

Pruitt: the wheel chair's just for transportation

TWIN FALLS — Dwain Pruitt was able to get away from his job with the South Central Community Action Agency for only three camping trips this summer, much as he wanted to do every weekend.

A Magic Valley native, born and raised near Burley, Pruitt considers the back-country a significant part of his life. As is the case with many Idahoans, the tonic of wilderness has become a "necessary" element of day-to-day living.

Whether it was during his teen-age years as a student at Burley High School or following his stint in the Army, Pruitt never lost his love for the pungent bite of wood smoke or the taste of freshly caught rainbow trout.

Pruitt's life isn't that much different from a lot of other Idaho outdoorsmen, equally attached to the mountains and forests of their home state.

Except that for the last 18 years Pruitt has been — a quadriplegic, paralyzed from the neck down and confined to a wheelchair.

I suspect it would be difficult to find a more remarkable tale of achievement than the 18-year odyssey of Dwain Pruitt, a journey which began in 1960.

This week, after having been named the outstanding handicapped employee of the year in Idaho, the 38-year-old Pruitt talked of those years and the experiences they contained.

"I was just out of the service," Pruitt recalled, mentioning his Army days stationed in West Germany. "and I knew what I wanted to do with my life. I was going to be a rancher and farmer near Burley, raise cows and kids and cuss them both."

But shortly after his return to the states, Pruitt was in an auto accident. The force of impact threw him and several others from the vehicle.

The other passengers received minor injuries, but Pruitt landed on his head and shoulders, severely damaging his spinal column. Not long after, doctors told him he was paralyzed from the neck down, and that no procedure existed to reverse the damage.

He was 20 years old. Pruitt had been a medical corpsman in the Army and understood better than most the extent of the damage to his spinal column. But that didn't make it any easier to accept.

There were periods of intense depression, days when life itself seemed like a cruel joke. Vocational rehabilitation services were primitive in those days and geared almost entirely to individuals less injured than Pruitt. More than one counselor said they could do nothing for him and that he in turn was frow incapable of making a contribution to society.

Friends he had known since childhood stopped calling, unable to

face the thought or the physical presence of a quadriplegic. Businessmen he had worked for as a student would cross the street to avoid meeting him in his wheelchair.

It was such a shattering experience, Pruitt recalled. "All at once I was trying to accept my physical limitations. I was being rejected. But I was still me. I had my mind and I could talk and I knew I was still a person."

Not anyone gave up. His family and some friends believed as he did that Dwain Pruitt was still Dwain Pruitt. With their love and support he began the painful task of rebuilding his self-identity.

"I had always been a physical person. The men I knew were cowboys and outdoor types, and I had thought I would be like them. I found now that I had to go from being 98 percent physical and two percent verbal to two percent physical and 98 percent verbal."

Slowly that change was made. And with the change Pruitt resolved to live life as fully as possible. Holding instruments in his mouth he taught himself to write, type and paint. With a speaker attachment, use of the telephone became possible. And bit by bit another idea was forming, at the time almost too preposterous to be considered seriously.

Dwain Pruitt, the paralyzed man confined to a wheelchair, resolved he would go to college and earn a degree. Most universities he contacted were polite, but firm. The idea, they said, was out of the question. College studies, they explained, were impossible for him.

Finally, after numerous rejections, Pruitt heard of a new college being formed in Twin Falls. Again he argued his case, asking only, he said, for a chance.

He got that chance, and as an experiment was allowed nine hours of credits.

But professors at the College of Southern Idaho remained skeptical. One counselor told other faculty that they'd "never believe what came in my office today."

Years later, after the person they'd never believe had received "A" and "B" marks in these first classes, and successfully finished the two-year CSI program, that same counselor — now a close friend — told Pruitt of his comments, choking back tears.

Following CSI, Pruitt finished his degree with studies in Idaho and at Texas University. The struggle then

begant to find a job. For a period he was a news announcer at an Idaho radio station, but Federal Communications Commission regulations required radio license holders to fix the equipment they operated. Eventually he heard of an opening with the South Central Community Action Agency.

There, for the past year and a half, he has served as energy coordinator and program director. Thirty-eight persons in an eight-county area now work under his direction.

Pruitt is rapidly becoming an acknowledged authority on energy and conservation. Persons interested in winterizing their homes quickly learn of his expertise.

They also quickly learn that he's just another worker; and he damn well doesn't want their pity.

"All any handicap wants is a chance," Pruitt says, "a chance to show what he can do and that he should be treated just like anyone else."

Pruitt points out that despite his being confined to a wheelchair, he still lives much of the life he lived before his accident. Camping and fishing ("I don't catch the fish, but I tell my friends how and help them eat them") are still favorite recreations. In his specially equipped van he travels Idaho, doing the things once thought impossible for a handicap.

"I'm not really confined to this wheel chair," Pruitt says. "It's just for transportation."

"Handicaps are just persons with a problem," he adds. "They're still people. All it takes is a little understanding to recognize that they still have a great deal to offer society. And if you can't accept them as people then maybe you have a bigger problem than they do."

Pruitt says attitudes have changed toward handicaps since his 1960 accident.

"In 1960 I thought it would take Idaho 50 years to come as far as we've come now. I'm very proud of Idaho. Not that all attitudes have changed. But in discussing this, Pruitt laughs. "I used to think I wanted to be 'normal.' But lately I've decided that normal people have so many problems I'd rather be handicapped. I've learned to live with my problem."

Dwain Pruitt says that someday he's going to write a book about his life. I hope I get the chance to read it, because if it tells his story, it will be a most remarkable book.

Dwain Pruitt overcame quadriplegic handicap to become program director for Community Action Agency

Ian Smith blames U.S. for Rhodesian troubles

WASHINGTON (UPI) — Prime Minister Ian Smith said Sunday the United States and British governments had supported his "internal settlement" to give blacks the vote and representation in government, the guerrilla war in the former British colony would have ended.

Smith said Rhodesia now is complying with a plan to transfer control of Rhodesia to the black majority. He said the plan was first offered by former Secretary of State Henry Kissinger to bring majority blacks into the once all-white government.

But Smith charged the United States is supporting "Marxist terrorists" seeking to topple his regime.

"The main reason for the failure for a cease-fire is the fact that the American and British governments are supporting the Patriotic Front, the Marxist terrorists, instead of supporting the internal settlement by peaceful peoples to try to bring Rhodesia into the western camp," Smith said.

"And there is no doubt that if we got the support which we should get because of previous commitments, I believe the terrorism would have collapsed by now."

Smith spoke on the NBC interview program "Meet the Press" in his first network television appearance since arriving in the United States Saturday.

Smith is on a one-week unofficial visit to lobby the administration and Congress to support his plan for bringing blacks into the Rhodesian government. The Carter administration wants all parties in the civil strife to seek a settlement in a peace conference and opposes the plan Smith said Kissinger sold him in 1976.

Ian Smith on "Meet the Press" UPI

Spy trial continues

NEWARK, N.J. (UPI) — A counter-intelligence specialist testifying in the espionage trial of two Russians said Sunday he recognized the voice of one defendant as he allegedly placed orders for American defense secrets.

FBI agent John Keary-Taylor, director of the FBI's counter-intelligence unit in Newark, said he recognized the voice of Valdik Enger, 39, speaking English on three taped telephone calls to a U.S. Naval officer working as a double agent.

Enger and Rudolf Chernyayev, 43, both Soviet citizens employed by the United Nations, are charged with allegedly paying Lt. Cmdr. Arthur E.

Lindberg more than \$20,000 for defense documents.

Defense attorneys unsuccessfully argued to suppress Keary-Taylor's testimony. It is the first time a government witness has positively identified the voice on the tapes.

U.S. Attorney Robert Del Tufo said the testimony was introduced to show that Enger spoke English. Both defendants have sat through the trial with interpreters translating the proceedings.

Keary-Taylor said he spoke to Enger in English after five FBI agents arrested the defendants after they allegedly placed a phone call to Lindberg at a nearby shopping center with directions for dropping off

defense documents.

Enger was given his constitutional rights first in English and then in Russian by an agent who spoke the language, Keary-Taylor testified.

The government replayed tapes of three phone conversations that were bugged by the FBI after Lindberg had been given the numbers of various phone booths on New Jersey's two toll roads.

Lindberg has testified a man with a foreign accent identified only as "Jim" directed him to drop off documents in exchange for cash.

After playing the tapes of conversations in February, March and May, Keary-Taylor identified the voices as Enger and Lindberg, he said.

Soviets call trial low-grade film

MOSCOW (UPI) — The Soviet Union accused the FBI Sunday of fabricating the evidence against two Soviet citizens on trial in New Jersey on espionage charges, comparing the case to a "low-grade detective film."

The official newspaper Izvestia also demanded that the trial be stopped immediately in the interests of Soviet-American relations.

"The trial of the Soviet diplomats in Newark is 'nothing but a staged performance,'" Izvestia said.

"Its aim is to distract the attention of the Americans from their vital

problems," the paper said. "But the main thing is to try to discredit the idea of good relations between the Soviet Union and the United States by whipping up anti-Soviet hysteria."

The Izvestia article concluded Soviet-American relations are too important to be jeopardized by such a trial. It said "the earliest stopping by the U.S. side of the case-forged

against the Soviet diplomats would meet the interests of both sides."

Vladislav Enger and Rudolf Chernyayev, Soviet officials at the United Nations in New York, are accused of trying to purchase American defense secrets from a U.S. Navy officer. A third suspect, Vladimir Zinyakin, had diplomatic immunity and returned to the Soviet Union.

U.S. will crack down on arson

WASHINGTON (UPI) — The Law Enforcement Assistance Administration, following testimony that indicated it had frustrated local efforts to combat arson, has decided to "increase the emphasis on anti-arson efforts," Sen. Charles H. Percy, R-Ill., said Sunday.

During hearings on arson-for-profit by his Senate Permanent Subcommittee on Investigations, Percy had urged both the FBI and LEAA to

target arson as a major law enforcement priority.

Percy announced Sunday that LEAA Acting Administrator James Gregg has called on 55 state and territorial LEAA agencies "to increase the emphasis on anti-arson efforts in state plans and through allocation of block grant resources."

"It is not too late to stem the rising tide of arson," Percy said in a statement from his office. "By moving now in tandem with the FBI to control arson head-on as a major activity of organized crime conspiracies, LEAA can help mend the social fabric of our nation's cities, by keeping their inner cores safe from

the arsonist's torch."

Percy's subcommittee recently reported that over the past three years LEAA spent less than one-tenth of 1 percent of \$2 billion distributed to local law enforcement agencies on arson control programs.

Experts have estimated that arson is growing at the rate of 25 percent a year, and costing insurance companies \$2 billion annually and claiming approximately 1,000 lives a year, Percy said.

During the subcommittee's hearings, officials from Massachusetts, San Jose, Calif., and Houston, told how they were unable to receive LEAA funds to combat arson.

Ariyoshi a winner in Hawaii

HONOLULU (UPI) — Incumbent Gov. George Ariyoshi won a surprising 5,822-vote victory over Honolulu Mayor Francis Iwaniwa in Hawaii's Democratic primary Saturday, virtually assuring himself of a second four-year term.

The 52-year-old son of a sumo wrestler, the first American of Japanese ancestry to serve as governor, fared badly in the polls in the last days of the campaign because of investigative reports alleging ineptness and criminal negligence by his deputies.

But when the final computerized official tally finally came in at 2:30 a.m. Sunday, the statewide results were 130,521 for Ariyoshi and 120,899 for the challenger.

The 285,000 voters gave Ariyoshi state Sen. Jean Sadako King, 52, as a running mate. As lieutenant governor, she will be the first woman to hold one of Hawaii's highest state offices.

Ariyoshi and Ms. King should have an easy time of it against Republicans John Leopold and Virginia Isebell in the November general election, although Leopold claims bitter Fasi Democrats will never support Ariyoshi and he will benefit instead.

Ariyoshi, a non-flamboyant, behind-the-scenes governor in the style of the late three-termer John Burns, was upstaged time and again during the campaign by the flashy, silver-haired Fasi, an Italian-American from Hartford, Conn.

Book claims mob ordered Hoffa killed

WASHINGTON (UPI) — A new book on Jimmy Hoffa suggests organized crime leaders ordered the former Teamsters chief killed because he knew of the CIA collaboration with mobsters crime in plots to kill Fidel Castro.

The CIA's recruiting of underworld figures to assassinate the Cuban leader was revealed in Senate hearings in 1976. Hoffa disappeared without a trace in July of that year.

In his book "The Hoffa Wars," scheduled for publication Tuesday, author Dan Hojdes also suggests underworld figures wanted Hoffa dead because they feared their status quo with the Teamsters would be upset if he regained the union presidency.

The author recounts a Teamster-informant's testimony that Hoffa once considered assassinating his arch-enemy, Robert Kennedy, who led the government investigation of the Teamsters — and went as far as ordering plastic explosives to bomb Kennedy's suburban Virginia home before dropping the plans.

Now you can earn interest on dollars you normally keep in a checking account.

Take Advantage The NEW way to bank that helps you control your money.

With First Security Advantage your checking money can stay in statement savings — earning continuous interest 24 hours a day — until you write a check.

*Transfers are made from your First Security statement savings automatically when required to maintain the checking balance at the level you set. Balance may be set at zero, \$100, \$200, \$300, etc. It's your choice.

First Security Advantage also gives you:

- First Security Banking Card — It works like your personal check. Accepted wherever VISA is honored.
• Greater check writing capacity.
• All the personalized checks you need.
• New combined checking and savings monthly descriptive statement.
• Visa credit card.
• Check Protection Plus.
• Reduced rate on installment loans.
• Little or no cost. Based on your savings and checking balances combined.

Advantage may not be for everyone, but look at your own situation. Are you splitting your savings to pick up a few dollars a year in a savings and loan? Bring them to First Security for the Advantage, where combined savings and checking balances can save you much more. See your nearby First Security Bank for complete details.

Faces Parton, Milsap favored to win country awards

NASHVILLE, Tenn. (UPI) — Blind singer Ronnie Milsap, who swept last year's Country Music Association Awards for entertainer, male vocalist and album of the year, has a chance for a repeat performance Monday — but one big obstacle could be dazzling Dolly Parton.

Milsap has a chance to become the only person to win the top entertainer award twice, but Miss Parton could thwart the singer's hopes and be the second female to win country music's top honor.

DOLLY PARTON — favorite

country has gone up.

The sharply Miss Parton, also nominated for top female, album and single, has journeyed to pop stardom after her decision to hire a Los Angeles management firm 18 months ago.

Singer Linda Ronstadt, who gained recognition in the pop charts, is a contender for the top single award. So, no longer must a country entertainer be accompanied by a barefoot fiddler or sing with a nasal twang to sell records.

The only similarity between the other top female nominees — Janie Fricke, Crystal Gayle, Emmylou Harris, and Barbara Mandrell — is that they all sing.

Vocal Duo nominee Miss Fricke is an example of the new breed of country sweethearts, Miss Fricke, who got her start singing in jingles for 7-Up and United Airlines, is an Indiana farm girl with urban roots.

But there is still a smattering of old timers hanging on.

Don Williams is up for Male Vocalist honors along with Willie Nelson, Larry Gatlin, Kenny Rogers and Kris Kristofferson.

Country fans like to keep abreast of their idols' lives, just as rock fans want to be informed of Mick Jagger's latest fling. So, when Johnny Cash has nose problems or singer Tammy Wynette is kidnapped, fans eat it up.

Cash, who is hosting the 12th annual awards show and is one of five nominees for the Country Music Hall of Fame, will not be singing during the ceremony because of a sinus operation he underwent last week.

Miss Wynette, who last Wednesday was kidnapped from a Nashville shopping center, beaten and then released near the Alabama border, will present awards even though the bruises on her face cannot be covered by makeup.

Soprano Price wows Carter

WASHINGTON (UPI) — Soprano Leontyne Price charmed President Carter Sunday with a White House concert ranging from classical opera to Negro spirituals and — at Carter's special request — an encore of "Summertime" from "Foggy and Deep".

Miss Price, who has been called "the Girl of the Golden Voice," won two standing ovations for her performance in the East Room. It was her second White House performance.

In a green leather case and aldes said he might go some shooting at the Camp David skeet range Monday.

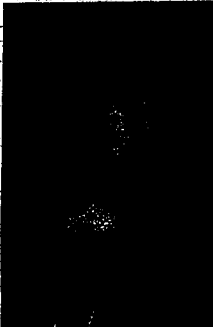

In his introduction of Miss Price to more than 200 East Room guests and a national Public Broadcasting System television audience, Carter said he and Miss Price have many things in common.

Both are natives of the South, he said, noting that Miss Price was born in Laurel, Miss., and both share a love of religion and a desire to convince people that opera is not "a luxury that appeals only to a few."

Carter, laughing, said he and Miss Price also had shared a desire to make it to the White House but that she got there 11 years before he did — a reference to her performance at the White House in 1967 for Aldo Moro, then president of the Italian Council of Ministers.

Miss Price, standing with one hand on a grand piano, sang two arias by Handel, four selections by Richard Strauss and the aria "Vissi D'arte" by Puccini. Her soaring, clear performance of the Puccini aria won cries of "bravo" from the audience.

Smiling but saying nothing, Miss Price switched to a lighter vein with five songs by American composers including an animated rendition of "Praise Ye the Lord" by Leon White, taken from Psalm 150 — and finally three spirituals, "My Soul's Been Anchored in the Lord," "This LI' Light of Mine" and "Ride on King Jesus."

LEONTYNE PRICE ... virtuoso

Murder stops eating

HUNTSVILLE, Texas (UPI) — A man sentenced to die for the slaying of an Austin policeman has refused food for a week and a prison spokesman said Sunday he will be force-fed, if necessary, to keep him alive.

Ron Taylor, a spokesman for the Texas Department of Corrections, admitted the situation was "ironic" in that the state was prepared to force feed Davis Lee Powell to keep him alive so a lethal chemical could be eventually injected into his body to kill him.

Powell, 27, has refused to eat because he wants to die, his mother said.

Taylor said Powell would not be

allowed to kill himself by refusing food. His conviction would be frequently checked, Taylor said, and he would be force fed if officials thought it was necessary.

"We'll give him an opportunity to change his mind, or we'll have to force-feed him," Taylor said.

Taylor said he did not know what method was used to force feed prisoners and was not familiar with any of the other cases involving hunger strikes at the Huntsville prison.

Convicted of capital murder Sept. 27, Powell was transferred Friday from Austin to the Texas Department of Corrections to await execution.

Californians don't care about Brown, Ronstadt

LOS ANGELES (UPI) — California voters could scarcely care less whether Gov. Edmund G. Brown Jr. marries singer Linda Ronstadt, a poll taken by the Los Angeles Times showed Sunday.

The bachelor governor, running for re-election, has been seen with Miss Ronstadt on a number of occasions and his father, former Gov. Pat Brown, said recently he wished they would get married.

Brown's Republican opponent, Evelle Younger, also raised the question of the governor's unmarried state during the campaign. Younger said a man could better manage the job if he had had the experience of changing diapers, paying off mortgages and other joys of wedded life.

The Times put it to the voters, asking this question:

"For Jones and now Gov. Brown has been going out with Linda Ronstadt, the popular singer. If Jerry Brown were to marry Linda Ronstadt,

would that make you think more highly of him, less highly, or would that make any difference one way or the other?"

The answers were:

- 88 percent — no difference.
- 6 percent — more highly.
- 6 percent — less highly.
- 2 percent — unsure.

MOVIE GUIDE FOR FAMILIES

G — General Audiences. Film contains little, if any, material that may offend sensitive children.

PG — Parental Guidance Suggested. Some material may be offensive to children. Parents are urged to be selective in what they allow their children to see.

R — Restricted. Film contains adult material and may be offensive to children under 17 years of age. Some material may be offensive to parents or adult viewers.

X — This is a specialty adult-type film and to one under 17 is admitted. The age limit may be higher than that shown.

People Korchnoi catching up

BAGUIO, Philippines (UPI) — Chess challenger Viktor Korchnoi defied all the experts and beat champion Anatoly Karpov in their 28th game Sunday, raising the prospect of one of the most dramatic comebacks in chess history.

Korchnoi's victory after 78 moves and nine hours of play narrowed the Soviet champion's lead to 5-2 and put the defector back in contention for the world chess title he has coveted for 15 years. The title goes to the first man to win six games.

Karpov, whose loss came in front of Soviet chess federation president and cosponsor Vitaly Sebastianov, tipped over his king in the traditional gesture

of resignation, signed his score card and walked out of the playing hall.

"I feel a little tired," the 47-year-old Korchnoi told a gaggle of admirers seconds after signing his scorecard. "I don't know how I did, I just did it."

Korchnoi, who at one point trailed 5-2, has won two consecutive games from the 27-year-old Karpov, a former team mate and now a bitter personal and ideological enemy.

"It was a miracle," Korchnoi's chief aide, Raymond Keene of Britain, said after the win.

Keene, seen one of an almost unanimous host of experts who predicted Saturday night at adjournment the match would end in a draw.

Korchnoi disagreed. For hours Sunday morning, after an unusual early arising, he pondered the adjourned position looking for a winning line.

Karpov helped him. In the end game, he tried once again to play blitzing chess with the challenger. He failed, lost a piece advantage and virtually handed the victory to Korchnoi.

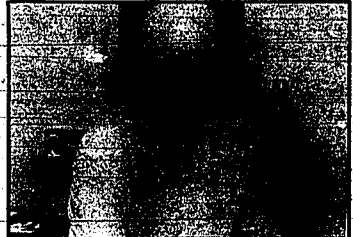

Behind 5-2 in the tournament (just a week ago Korchnoi's two consecutive victories had experts conjecturing Sunday night he could stage one of the most spectacular comebacks in the history of the game.

Meet Idaho's 'Big Labor'

Jack Asher (above) a Scout leader and Al Wild (right) a past Commander of Post 889 of the Veterans of Foreign Wars, are a part of Idaho's "Big Labor."

Jack Asher, Twin Falls, is a member of Local 368 of the Meat Cutters Union and has been very active in the Boy Scout program. A Scout Master since 1959, Jack says that he enjoys Scouting because "it's satisfying to see kids grow up to be good citizens. Both of my sons went through Scouting and became Eagle Scouts." In addition, Jack has found time to help raise funds for the Y.M.C.A.

Al Wild and his wife Eleanor live in Pinehurst, where he is a member of Local 18 of the Steelworkers Union. Al was appointed by the Governor of Idaho to serve a term on the Mine Safety Commission. He also served as Chairman of the Board for the Kootenai Hospital District when the new Coeur d'Alene hospital was built.

Al Wild and Jack Asher — a part of Idaho's "Big Labor" who are working for their communities and working for a better Idaho.

Cease-fire shattered in Lebanon

BEIRUT, Lebanon (UPI) — Scattered shelling and sniping Sunday marred a day-old cease-fire between warring Syrian troops and right-wing Christian militia forces in Beirut, its suburbs and nearby Palestinian areas. Syria declared a cease-fire Saturday in an attempt to halt the heaviest fighting in Lebanon in three years of bitter civil strife.

Around midnight the Syrian rocket launchers and heavy artillery halted their shelling and heavy units of Christian East Beirut, choked with rubble and pockmarked with huge craters.

But rightist radio reports late Sunday said two shells fell on the southeast Christian suburb of Hadath, two on the Karantina area of east Beirut, and five on the Christian village of Douar.

In addition, sniping was continuing on most fronts and rightist radio reported seven deaths and 17 injuries. The state-run Beirut Radio said, "there were limited and isolated violations of the cease-fire, which were dealt with quickly in order to stabilize the security situation in the country."

Badly outgunned Christian leaders, including former President Camille Chamoun, said the cease-fire would not last.

"My confidence in the effectiveness of the cease-fire worked out in Damascus is very limited," the 78-year-old Chamoun said in his party headquarters. "In past cease-fires, when the fighting stopped, they (the Syrians) reinforced their positions and started fighting again."

"There will definitely be more fighting," one Christian commander said. "This cease-fire is nothing."

In Cairo, chief Egyptian negotiator Kamal Hassan Ali said an Israeli-Egyptian peace treaty could be reached in a matter of weeks, but warned that a confrontation between Syria and Israel on Lebanese soil would publicize the talks.

Israel has threatened to intervene in the Lebanese fighting, if it continues. Accurate casualty figures were impossible to obtain from the latest round of fighting.

But the right-wing "Radio Free Lebanon" listed three separate sets of figures, ranging as high as 1,300 dead and more than 7,000 injured. But Red Cross officials said they felt these estimates were "surely exaggerated."

Part of the east Beirut was a scene of mass destruction Sunday. Residents of the area emerged cautiously from the basements to search for relatives, buy food and find out how badly their homes had been hit.

Electric cables were down, unexploded shells lay in the wreckage of some buildings and the craters of mortar shell-blasts pocked the area. Streets were choked with burnt out cars, broken glass and debris.

The cease-fire came as emergency talks continued in Damascus for the third day between Syrian President Hafez Assad and Lebanese President Elias Sarkis.

The right-wing "Radio Free Lebanon" quoted a spokesman for the unified command of the combined Lebanese rightist forces as saying they would reject any accord reached between Sarkis and Assad that did not provide for the immediate withdrawal of Syrian troops from Lebanon.

Catholic cardinals 'blank' on new pope

VATICAN CITY (UPI) — The prince of the Roman Catholic Church, frustrated so far in their search for a perfect pope, Sunday actively considered candidates from outside their own Sacred College of Cardinals.

In theory, any baptized male is eligible for the papacy — he may even be married, if he is willing to install his wife in a convent.

But the last pontiff elected from outside — the Sacred College of Cardinals — was the heretic monk Celestine V, who resigned from 1294 until 1296, when he became the only pope in history to resign.

Aides said the name of Turin Archbishop Anastasio Ballestrero was one of the most frequently mentioned as the cardinals compared notes

during a weekend retreat in the hills overlooking Rome.

Ballestrero, 65, was a protégé of the late Pope John XXIII and was expected to receive the cardinal's scarlet cap, the zucchetto, at the next consistory had Pope Paul VI lived. With one week left before they cast their first secret ballot, Vatican sources said most cardinals were at a loss for a clear-cut candidate.

"We are all blank and confused," admitted one of the 112 cardinals eligible to participate in the conclave scheduled to begin next Saturday in the Sistine Chapel.

Cardinals' aides said the cardinals had backed themselves into a corner trying to draw up a composite of the perfect pontiff to succeed the late John Paul I.

Iran police shoot anti-shah rioters

TEHRAN, Iran (UPI) — Police fired on anti-government rioters in two towns Sunday reportedly killing several people.

Thousands of government and industrial employees showed up at offices and factories but refused to work to support demands for wage increases and other benefits.

Thousands of passengers were stranded for hours in the desert when striking railroad workers stopped

Tehran-bound trains Sunday and forced passengers to get off.

The Ettelaat newspaper said shooting erupted Sunday in Arak, about 110 miles northeast of Tehran, for the second consecutive day and first reports said several people were killed and many wounded.

A woman, who sheltered demonstrators fleeing police, was shot and killed in Amol Sunday, Trouble flared again Sunday when a mob rampaged through the town attacking public and private property.

Demonstrators shouted "Allah-O-Akbar" (God is Great), a slogan used by Muslim militant followers of the Shiite clergy which has led the opposition movement in Iran since late 1977.

Police opened fire to disperse the demonstrators, the Ettelaat said. There was a steady flow of wounded to the Red Lion and Sun (Iran's Red Cross) emergency center in Amol, the paper said. No specific casualty figures were available.

Police and demonstrators also clashed in Khorramabad in south Iran, scene of bloody clashes last week. The demonstrators set fire to several government buildings and banks, pulled out furniture and documents and burned them.

In Tehran, police Sunday baton-charged several thousand students who demonstrated in front of the main university. Several casualties were reported.

Universities across the country were shut as students boycotted classes. Police made several arrests when striking students tried to dissuade others from going to school, reports said.

Late reports told of casualties Saturday in Babol, near Amol, when police fired on demonstrators. A movie house and 30 banks were burned.

Floods wash Thailand

BANGKOK, Thailand (UPI) — Floodwaters began to recede in some areas of water-logged Southeast Asia, but southern Vietnam braced for another bout with the raging Mekong River.

In India, floods continued to spread death and disease. The West Bengal government Sunday urgently appealed to the United Nations for vaccines to fight the cholera epidemic that has killed more than 200 people in the severely flooded state.

Officials Radio Hanoi said Friday thousands of people were being evacuated from the hard-hit Mekong River delta.

"The Mekong River is expected to rise again and the new flood is expected around Oct. 10," the radio said.

Floods in the Mekong Delta have killed 74 people and destroyed two million acres of crops, the Vietnamese government reported.

A separate dispatch from Vietnam said Premier Pham Van Dong had called on all Vietnamese to step up agricultural production to overcome the consequences of floods, which the government news agency called the biggest natural calamity in years.

Many states tough on teen-age marriages

By ABIGAIL VAN BUREN
Chicago Tribune-N.Y. News Synd.

DEAR ABBY: This is in reference to the 15-year-old girl who is begging her mother to let her get married.

In some states, the decision to allow teen-agers to marry does not lie with the parents.

For example, in the state of Washington, no child under the age of 17 may marry with or without parental consent without a court's permission. Kids between 17 and 18 require permission. After 18, they require only a witness.

In one case, a 15-year-old girl was pregnant by a 17-year-old boy. Both his father and hers tried to get the

judge to let them get married. At first he refused because he talked to the kids and didn't think they were sufficiently "sincere." Only after they delayed several months of counseling did the judge feel they were ready for marriage, after which he gave his consent.

Another case: A 16-year-old girl asked for permission to get married because she was pregnant. The judge refused, saying that wasn't a good enough reason. The girl had her baby, walked-until-her-18th-birthday, then got married.

Many parents feel it is their right to give or withhold permission to marry, but the state of Washington says differently.

B. IN SNOHOMISH, WASH.

Dear B.: At first I thought someone was giving me a "Snoob" job, but a call to a Washington lawyer confirmed your facts. Thanks for the information.

DEAR ABBY: I have a suggestion for people who would like to leave their worldly goods to favorite relatives and special friends.

DO NOT write: "I want Sister Diane to have the gold brooch I got from Aunt Sophie." DO WRITE: "I want my sister Diane to have my 14 kt. gold brooch in the shape of an owl with diamond eyes." (If you have more than one gold brooch, no one may remember which one your Aunt Sophie gave you for your 16th

birthday 55 years ago.) Or, better still, if you don't have one of these instant cameras, borrow one and take a picture of every valuable item you own — and write the name of the person you want to have it on the back of the picture.

That way there will be no misunderstanding.

MRS. M. IN L.A.

DEAR MRS. M.: Good idea, but very few people are prepared to accept the fact that they can't take it with them — or indeed, that they are even going!

DEAR ABBY: Several years ago we wanted a third child. We joyously welcomed a 3-year-old child into our

existing family. My husband, our social worker and I were certain the adoption would be a happy one. It wasn't.

I still feel the pain of the six months that child was with us. So much had happened in her little life that the adjustment could not be made. At the time of our anguish, I read every book and article I could find about adoption. No one mentioned the pitfalls or even the possibility of an unsuccessful adoption — only the glowing accounts of the "happily-ever-after" successful adoptions.

I have been tempted to publish the story of our failure, but I hesitate because I don't want to discourage others from adopting children who desperately need a loving home.

One of the most difficult things we had to deal with was a problem no one mentioned — the sexually abused child. As I write this I can hear the child's screams as my husband tried to hold her. We finally understood when she told us in detail how "that bad man" had hurt her.

We had hoped that our patience, kindness and love would help. Perhaps it did — but not enough.

TAMMY STANSELL
Heads group

Officers announced

TWIN FALLS — Tammy Stansell was elected president of the Office Education Association in their first meeting held recently.

Also elected were Linda Berney, vice president; Elisa Rodriguez, secretary; and Debbie Clausen, treasurer.

In addition to several money making projects, the association plans to hold a state conference. At the end of the year, students will hold an appreciation banquet for their bosses.

Questionable treasures always found

DES MOINES, Iowa (UPI) — A pink plastic elephant had a hair dryer set in its stomach and its trunk was made up of a plastic hose.

It stuck out sitting on the floor in the middle of a lot of confusion during what was billed as the "World's Largest Garage Sale" at Veterans Memorial Auditorium Friday. The one-day sale is put on each year by the Des Moines Junior League to raise close to \$20,000 to use to finance a number of charitable projects.

"That thing here again," said Roberta, 67, who refused to give her last sale. "Couldn't sell it last year and couldn't sell it again. There's always something that just is crud at a garage sale. The dirty little thing. It is a grade-2 garage sale material."

Roberta says she's a pro at the sales.

"Come early to check out the stuff and to get it staked out. You can't do a good job at a garage sale without some advance preparation," she said. "I go to them all — the Methodist, the Baptist, the Catholics — and this is the best," she said.

Roberta said she and all her friends hit the garage sales faithfully "because where else can you get good deals and the prices always go down despite inflation — it also is great fun to socialize."

But to Emily Halliday, 3, the elephant was a friend in need and very welcome.

To Emily the sale was big, confusing and a little bit bewildering with a lot of things running in all directions and a lot of noise.

"There's a lot happening," she said, as she took a hand to look over the scene.

The hair dryer was found in the middle of the furniture department, where it had been used as a prop for a play.

"How it's mine for awhile," she said. "Look at this," Emily said, pulling the trunk out and loosening the dryer hose. "It came out."

Moments later, the elephant was left alone again sitting on a bench — and finally put into a bin for next year's sale.

Goodbye Gloria — say hello to Sally

HOLLYWOOD (UPI) — For the first time in eight years Sally Struthers faces a future without her alter ego, Gloria Stivic, the hysterical daughter of Archie and Edith Bunker of "All in The Family."

Gloria, along with husband Mike, has been written out of the popular series and, excepting a Christmas-time reunion episode, they are not scheduled to return.

Sally is more relieved than bereaved at Gloria's departure from the scene.

She was absent without leave from several episodes three years ago when Sally attempted to quit the series to go on to other things. But her contract with Tandem Productions was upheld in court and Sally stayed on.

Gloria, in an unsuccessful attempt to free the series Gloria was given more to do and say.

"Gloria was a terrific character," Sally said the other day. "She was always growing, learning, crying and yelling. It was a catharsis to play her every week. But the first two or three years it was a pretty thankless role."

"I had almost the same two or three lines every week — 'I'll help you set the table, Ma' or 'Oh, Daddy, stop it' and 'Michael, where are you going?'"

"Then Paul Bogart came in as director. He let us throw the script away and create new things on every show."

"Each year only two really terrific episodes were written for Gloria, so I walked with bated breath from week to week to see if I was going to set the table or have a miscarriage."

"When I did have a big show, friends and strangers would tell me how my acting had improved. Naturally, I could do a lot more

with 40 lines than my usual three. I'm glad I'm leaving the show before Gloria goes through menopause."

Sally, 30, says she does miss the day-to-day camaraderie with costars Carroll O'Connor, Jean Stapleton and Rob Reiner.

"They've started the season without Gloria," Sally said. "I think they're having a very good time. I think they miss me and I know I miss them."

"As a matter of fact, three weeks ago I couldn't stand it anymore. I drove to the studio and walked into the booth for a visit. Everyone screamed and we had a big reunion."

"I'm somewhere between a rock and a hard place. It's not easy not to go to work every day, but on the other hand it wouldn't have been easy to do it either. I feel that eight years of Gloria was enough. As an actress I played her with every emotion I could have played."

"I don't feel any void in my life. It was a job and now it's completed. But when you are locked in a small room with the same people five days a week, seven months a year, it creates a very real sense of family."

"I've been overexposed as Gloria. I'm seen in that character six times a week, once in primetime and five times in afternoon reruns. The public needs a breather from me and I need a breather from myself and Gloria."

I like to think of myself as a character actress. I'm not a leading lady.

"When they want a character actress, they look for me because of my face and height. I'm well aware of that. I try to change my appearance, the color of my hair and even the color of my eyes with contact lenses when I work now."

Health

Exercise for weight control

By LAWRENCE E. LAMB, M.D.
Dear Dr. Lamb,

I am a woman 54 years of age and have taken medication for control of high blood pressure for 17 years. I have been dieting for 30 years or more and have done fairly well until the last year. Now I find myself 75 pounds overweight. I have been counting my calories, trying to eat nutritious foods and keeping under 1000 calories but I cannot lose an ounce. I am very frustrated: Is there a diet that I could try that would work for my age? Any information would help.

Dear Reader,

At least you are started in the right direction. It's certainly true that a large number of people with high blood pressure can reduce the level of the pressure if they get their body weight down and stay as lean as they can be.

All of things that you can do for yourself, if you tend to have high blood pressure, even if you have to take medicine to control the blood pressure, getting thin and staying that way is the most important. It's also important to limit your salt intake but

Lisa Fitzpatrick

EDEN — Mr. and Mrs. Harold Fitzpatrick of Eden, announce the engagement and forthcoming marriage of their daughter, Lisa, to Lee Williams, son of Fay Williams of Twin Falls and Kenneth Williams of Seattle, Wash.

Miss Fitzpatrick is a 1978 graduate of Valley High School. Williams is a 1975 graduate of Haines High School, Alaska.

The couple plans an Oct. 22 wedding at the Eden Church of Christ, after which they plan to reside in Twin Falls.

Cain's
 Serving Since 1946

204 Main Ave. E. PL. 723-7111

the big factor is getting thin. Recent studies by scientists have again shown that people with high blood pressure who do lose a significant amount of body weight will have a significant decrease in their blood pressure, often to normal levels. In many instances, if it is done properly, this means a person would need to take medicine to control moderately elevated blood pressure. Of course, there are some people who will need medicines even after getting thin, but getting thin is certainly the first thing that should be done in anyone who is moderately overweight.

How can you lose the weight? You're no different than anyone else in that what your weight is depends on what you eat and how much physical activity you do. A 1000-calorie-a-day diet isn't very much. I'm sending you a well-balanced dietary program which you can use. It is a low-fat, low-calorie diet, between 1200 and 1400 calories a day. Others who want this diet should ask for The Health Letter number 4-7, Weight Losing Diet and send 50 cents with a long,

stamped, self-addressed envelope for it to me in care of this newspaper, P.O. Box 1531, Radio City Station, New York, N.Y. 10019.

As people get older they tend to lose muscle mass. That's because they change the kind of work they do. The size of your muscles depends on the amount of strength they must exert when they contract. That's why a weight lifter tends to develop large muscles. Since you have high blood pressure, I wouldn't recommend weight lifting for you, although moderate weight training is useful for some people, including women.

I would suggest that you try, in every way possible to increase your level of physical activity by walking, swimming, bicycling, playing tennis, whatever fits your lifestyle and that you can and will do regularly. If you haven't been doing any exercise, I would suggest you start slowly and build up gradually. A good way to begin is walking. The more you can walk, and do it consistently day after day, the more help you will get in controlling your body weight.

Horoscope

Private affairs may cause Aquarians grief; Taurians should plan for bigger things ahead

GENERAL TENDENCIES: You will find it difficult in the morning to arrange affairs the way you had planned. But later you can easily gain your aims. Be sure to let associates know you appreciate them.

ARIES (Mar. 21 to Apr. 19) The morning is not good for approaching higher-ups, but the afternoon is fine. Avoid one could be a detriment to your progress.

TAURUS (Apr. 20 to May 20) Make plans to expand and have greater abundance in the future. You have to be more open-minded to gain your aims.

GEMINI (May 21 to June 21) Plan business deals ahead of you and then handle them with speed and intelligence. Forget any grudges you may have.

MOON CHILDREN (June 22 to July 21) Long talks with your associates now can bring excellent results. Strive for increased happiness.

LEO (July 22 to Aug. 21) Consider all the work you have to do and be sure to use the best method. Devote yourself to the romantic side of life in the evening.

VIRGO (Aug. 22 to Sept. 22) Study the details of a professional program you have in mind before engaging in such. Avoid one who is a troublemaker.

LIBRA (Sept. 23 to Oct. 22) Be sure to hand business affairs wisely today. Strive for increased harmony in the home. Express your finest talents.

SCORPIO (Oct. 23 to Nov. 21) Concentrate on right ideas and forget those that depress and you get ahead faster. Study ways of getting ahead.

SAGITTARIUS (Nov. 22 to Dec. 21) Be most precise in the handling of monetary affairs today and get excellent results. Set up a better budget.

CAPRICORN (Dec. 22 to Jan. 20) You may feel unhappy early in the day only to be satisfied, but you soon cheer up and reach a great deal accomplished.

AQUARIUS (Jan. 21 to Feb. 19) A private affair is distressing today, but you can straighten it out if you contact the right persons. Be logical.

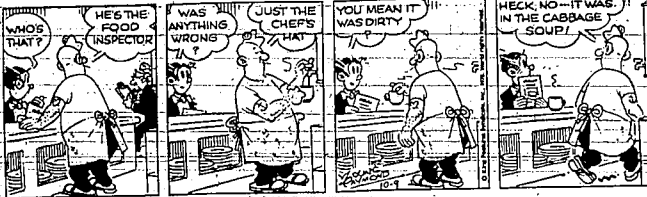

PISCES (Feb. 20 to Mar. 20) An older person could be annoying in the morning but most helpful later; so be patient. Avoid the social tonight.

IF YOUR CHILD IS BORN TODAY... he or she will be one who needs cheerful surroundings to become the dynamic and happy individual that is in this chart. Give a good chance to express talents. Start religious studies early in life for best results. Give music lessons, too.

What's what

A freeze-dried solution to the cemetery problem

What concerned Philip Bachman was the overcrowding of cemeteries. So he devised a solution. He's just been granted a patent for a technique wherein the temperature of the body is lowered to 150 degrees below zero, and the stiff corpse is pounded into thin bits in a hammer mill, and the remains then are freeze dried, like coffee, and buried.

Was a time in Old England when people dried out their capes by hanging them on the boards above the fireplace. It was because those capes were known as mantels that they hung boards above the fireplaces likewise came to be so called.

If the lady chooses to wear real perfume daily, she ought to get by on about four ounces of the stuff a year, according to the experts.

Oil comes out of the ground at 180 degrees F.

KISSING

Q. "What sort of kiss tends to please a woman most?"
A. Our Love and War man is too foolish to discuss kissing techniques in detail. He does offer this advice, however: If you want to be convincing, young fellow, kiss the girl when she doesn't expect it. If possible, the unexpected kiss is said to be better than a dozen roses. Realize this is easily said than done. It's a rare gift who's ever kissed unexpectedly.

Q. "What were the rates for the first telegrams to the West Coast?"
A. At the outset, \$1 a word. Fairly soon thereafter, 36¢ for 10 words with extra words at 75 cents each.

Q. "How long does it take a surgeon to implant a peep-maker in the chest of a heart patient?"
A. About 45 minutes.

RESTRAINTS

Maybe you've read that the only two natural fears in an infant are the fear of falling and the fear of loud noises. Client asks if similarly there are natural causes of anger. Only one, according to some scholars. Restraint. Even a well-blanketed baby who seems to enjoy the security of being tightly wrapped will tend to act up, if placed down in a motionless position. From the listless child to the oldest, government restraints cause anger. Add the severest restraints—leashes, stocks, chains, jail—bread fury.

Question arises as to why a spider doesn't get caught in its own web. It oils its legs.

Niagara Falls moves constantly backwards by about two and a half feet a year.

Canadian dollar hits lowest level since 1933 depression

By JOHN M. LEE
C.N.Y. Times Service

MONTREAL — For the past year, the United States dollar has been tumbling against all the major currencies with one big exception. That exception is the Canadian dollar, which has been having substantial troubles of its own.

Indeed, during the 10-4-12 month period, the value of the Canadian dollar has plunged from 93 United States cents to less than 65 cents. Just 10 years ago, the Canadian currency was valued at about \$1.15 in United States funds.

Now, for the first time in 45 years, the Canadian dollar languishes at its lowest level since 1933 during the Depression.

Last week, the Canadian Finance Minister, Jean Chretien, said at the International Monetary Fund's annual meeting in Washington that no extraordinary measures were planned to bolster the dollar's value. There had been conjecture that Canada might seek IMF aid, impose exchange controls or even authorize increased national gas exports to the United States to supplement the massive international borrowings and higher interest rates already marshaled in the dollar's defense.

But Chretien dismissed the suggestions of new action and remarked, "The market will set the value of the dollar, wherever the Canadian currency will go."

face manifestation of larger problems underneath.

The most fundamental of these is a loss of competitive position against the United States, which buys 70 percent of Canada's exports and accounts for an equal percentage of her imports. Other major problems are investor anxieties concerning not only Quebec separatism, but Canada's economic stagnation.

When the Canadian dollar decline began, most observers regarded the slide as an inevitable adjustment to economic realities. After all, Canadian wage rates in manufacturing had begun in the early 1970s to exceed those in the United States, which was far more efficient to start with. Then, during 1975, Canadian productivity growth in manufacturing fell behind that of its big trade partner.

By last year, an astonishing \$11 billion deficit had opened up in manufactured goods. Fortunately, sufficient raw material and agricultural exports were available to offset this. But some adjustment in Canadian export costs was clearly needed.

Economists at the Bank of Montreal, among others, calculated that a dollar valued at 87 to 89 American cents would make manufactured exports competitive in the United States. Monetary authorities thus intervened only to guide the rate down to what they hoped would be the soft landing.

because of a huge outflow of funds.

There is, for example, a substantial travel deficit as well-paid Canadian workers take their money south to escape a few weeks of harsh winter weather. There has also been a surge of Canadian investment in plant and equipment in the United States to take advantage of what are perceived to be more favorable growth opportunities.

There has been a subsidence in the initial outflow of flight capital reflecting anxieties over Quebec (a figure estimated at a couple of billion dollars in 1976-77.) But other factors have taken over, such as a flood of real estate investment in the United States.

The Canadian economic landscape is also marred by rising interest rates in the United States. This forces Canada to raise her rates even more to preserve the historic differential needed to attract funds north of the border. Unfortunately, this all comes at a time when the Canadian economy is "drifting along somewhere between prosperity and recession," as R. W. Bagley, senior economist of the Royal Bank of Canada, puts it.

But for the moment, when someone talks about the sick dollar, it's inappropriate to ask which one.

Even if you're generally satisfied with your position now, it will be that, in an unexpectedly short time, you'll be looking for a new job. Even if you're a high-level executive and you feel secure in your present post, an unanticipated merger or successful take-over bid of which you are utterly unaware may shock you into sudden realization that you are fundamentally insecure.

Then, knowing how to use an employment agency to get top results for you could be of invaluable help. Today's column is for you, the worker, seeking a job through an agency.

1. Keep your resume on file with the agencies that serve your field. This is highly advisable, because then if you need the agency's assistance, you'll find you have the first opportunity to consider openings that are exactly right for you.

2. Of course, you must be concerned about how confidentially the agency will treat your resume and, warns Eugene Taylor, president of National Personnel Associates (a network of employment agencies that exchanged more than 1,600,000 resumes among its 200 offices in 130 cities last year), "convey this concern to the agency. Mistakes do happen. An employer could learn that one of his employees is looking for work through an error by the agency."

3. But confidentiality is violated far more commonly when workers run into their counterparts at meetings and speak thoughtlessly. Personnel

people make very few mistakes along these lines. An agency can't violate a candidate's confidence and survive."

2. Use an agency particularly if you want to relocate to another city. Agencies exchange information and they can save you travel costs and vacation time.

3. Use an agency to coach you on interviewing techniques. The agency may have an insight into an employer's personality and history of treating employees. And if you, the applicant, get several offers the agency can help you make a decision.

4. Do not, though, make what Dr. Arthur A. Witkin, chief psychologist for Personnel Sciences Center of New York, calls the "worst mistake"—namely going to agencies to look for a "job." You should have "a career plan," says Witkin (whose firm has helped employers select more than 50,000 employees for hiring or advancement). "The agency's counselor is not a vocational counselor. The counselor will help match the applicant's skills with the employer's needs but before the applicant goes to an agency he should have decided on career objectives, preferably with professional help from a counseling psychologist."

5. While you're holding a job and well protected, learn which agencies serve your field. Don't wait until you are looking. As Tam Scribner of Campaign Communications Institute of America puts it, "Keep your resume updated in the agency files and keep in touch. That way you'll

know what's going on, when there's a lot of movement among your peers, what the salaries are."

6. Know your agency and develop a relationship with the counsel in whom you have confidence. Check out the agency before giving any confidential information. You can do that among your peers; Never meet an employment agency representative any place other than in the agency's office. This is not only plain common sense for your own safety but also gives you the chance to see how the agency operates and how reliable its staff is.

7. Work with only one or two quality agencies and develop a rapport. Feeling the agency is doing everything it can for you and treating you as an individual. As Orville W. Dale of United Artists, says: "If you put yourself in the hands of a good agency, you can accomplish more than by hitting the pavement. If you lack confidence in the agency's feeling for you, go elsewhere."

8. If you're a high-level executive suddenly on the job market, you may find it tough to reach a search firm because these firms generally are not geared to help those who approach them and they do not store up potential candidates for searches they don't have. They don't even respond to letters. Employment agencies are far more approachable and, although, of course, they don't provide the degree of services a search firm does, you may find they can help you more than you realized.

Not even the announced Friday-day of a merchandise trade surplus in August (compared with a deficit in July) had of plans for a new \$750 million Government borrowing in the United States did much to reverse market sentiment. The psychology has all run one way.

There are several factors that lie behind the decline. Exchange rates, after all, are but the tip of the economic iceberg and only the sur-

face manifestation of larger problems underneath.

The most fundamental of these is a loss of competitive position against the United States, which buys 70 percent of Canada's exports and accounts for an equal percentage of her imports. Other major problems are investor anxieties concerning not only Quebec separatism, but Canada's economic stagnation.

When the Canadian dollar decline began, most observers regarded the slide as an inevitable adjustment to economic realities. After all, Canadian wage rates in manufacturing had begun in the early 1970s to exceed those in the United States, which was far more efficient to start with. Then, during 1975, Canadian productivity growth in manufacturing fell behind that of its big trade partner.

By last year, an astonishing \$11 billion deficit had opened up in manufactured goods. Fortunately, sufficient raw material and agricultural exports were available to offset this. But some adjustment in Canadian export costs was clearly needed.

Economists at the Bank of Montreal, among others, calculated that a dollar valued at 87 to 89 American cents would make manufactured exports competitive in the United States. Monetary authorities thus intervened only to guide the rate down to what they hoped would be the soft landing.

because of a huge outflow of funds.

Employment agencies are far more approachable and, although, of course, they don't provide the degree of services a search firm does, you may find they can help you more than you realized.

Pain-relievers can endanger kidneys

WASHINGTON (UPI) — Two Philadelphia doctors say overuse of common non-prescription pain-relieving drugs appears to be an important cause of chronic kidney disease in the United States.

It had been known for years that massive overuse of some analgesics could harm the kidneys but up to a few years ago the problem was considered rare in the United States.

But Drs. Martin Goldberg and

Thomas G. Murray of the University of Pennsylvania Hospital reported in 1975 that a study of kidney patients there suggested that 5 percent of all chronic kidney disease in the Philadelphia area might be caused by the pain relievers.

They followed the study with an informal survey of specialists at 38 kidney-disease centers across the nation. The results indicated that the

analgesic link to kidney disease in other areas was similar to the Philadelphia findings.

Goldberg and Murray reported their concern in an editorial in a recent issue of the New England Journal of Medicine.

They said there is no reason to suspect that the problem has worsened in recent years. Instead, Goldberg and Murray said it appears

this apparent link just was not recognized in the past.

"We have not been sufficiently conditioned to make the association between drug ingestion and renal disease," they said.

A proper diagnosis is important, the doctors said, because it appears that the damage can be stopped or even reversed if the patient stops taking the offending drug.

State water law hinges on Hagerman case

Trout farm in court

HAGERMAN — What began two years ago as a simple water rights application by a Hagerman trout farm has turned into a test case to determine whether the new state water law can be applied to applications filed before the law went into effect.

After granting a water rights application made by Hidden Springs Trout Ranch at a hearing in January, 1976, Department of Water Resources Director Steve Allred took unprecedented action in July which effectively reopened the hearing on the application to allow the public to protest the application on the basis of the public interest.

Between the January hearing and July action, the Idaho legislature passed the new state water plan, which added local public interest to the list of criteria which the DWR can take into account when considering water applications.

Allred's action prompted the owners of the trout company to go to court to determine if the new water law, passed in March, 1976, can be applied to an application filed in 1976.

Hidden Springs applied in December, 1976, for a permit to divert 100 cubic feet per second of water from Billingsley Creek for the purposes of fish propagation.

Hagerman resident Rolfe Stevens, who lives on Billingsley Creek, protested the application on the grounds that it would reduce the quality of the water in the stream.

After Allred informed Stevens that by law the DWR could not consider protests on the basis of water quality, Stevens filed suit in Fifth District Court to attempt to force the DWR to consider the water quality factor.

Fifth District Court Judge Douglas Kramer denied Stevens' motion in Sept. 1977.

In January of 1978, a public hearing was held on the application, at which Stevens testified that he doubted whether there was sufficient water in the stream for the diversion intended.

Allred approved the application, made by Hidden Springs owners Virgil and James Newwood, in July of 1977.

In explaining his decision, Allred cited U.S. Geological Survey measurements which showed that at Idaho Springs, about one-fourth mile above the point of diversion, the creek flowed at 162 cfs in March of 1977 and 85 cfs in July of 1977. He also cited a

Kimberly fisherman Gary Stone pauses to reflect on the tranquil environment of Billingsley Creek.

Bob DeLashm/Times-News

reading taken by Reid J. Newby of Shoshone which showed that at a point below the point of diversion, the creek measured 117 cfs in July, 1977.

Stevens, however, insisted these figures indicate there is insufficient water to grant the application.

Allred then made the unprecedented move of allowing an appeal period during which interested parties could petition the DWR to reopen the hearing on the basis of whether the application conflicted with the local public interest.

Allred stated he believes the public

good provision of the new state water law enacted in March probably should apply to the Hidden Springs permit, which was not approved until July.

Before the appeal period expired, the Idaho Fish and Game Department and more than 250 individuals from throughout the Magic Valley asked DWR to reconsider the application because it conflicts with the public good.

They claim that if the entire application is diverted, the stream will be dewatered for at least part of the year, and the quality of the flow

remaining in the rest of the stream will be adversely affected. The part of the stream which would be dewatered, the protesters claim, is the section from the point of diversion just below where Hagerman Avenue crosses the stream to a point about 500 yards downstream where the company plans to return the water it uses to the stream.

In response to Allred's action, Buhl attorney Robert Weaver, representing the Norwoods, filed suit in Fifth District Court to block the DWR from reconsidering the application.

Weaver said the main contention in his suit is that a law which was passed

in 1978 should not apply to an application filed in 1976.

The new water law itself does not specifically state whether it will apply retroactively.

Allred said the law suit will be a test case which will determine how the DWR will apply the state water law throughout the rest of Idaho.

He said the court's decision will determine whether he reopens the hearing on the Hidden Springs application.

Allred said if the case is reopened, it is likely that only the original protesters will be allowed to testify, not the 256 individuals who requested the rehearing.

"Hearings with oral testimony are very expensive," he said. He added that interested parties will be able to submit written testimony if the hearing is reopened.

Allred said he feels the major question in the case is not whether the law can be applied retroactively, but whether there is sufficient evidence to justify reopening the case.

Weaver said that although he would like to see a court ruling on whether the law applies retroactively, he felt Allred took his action "at the expense of my clients."

He pointed out that Allred could have asked the Idaho attorney general for an opinion on the matter.

Snake River Glass Co. relieves strikers of jobs

By JEFF SHER
Times-News writer

TWIN FALLS — Striking glassworkers at Snake River Glass Co. of Twin Falls have been relieved of their jobs, the company owner said.

SNAKE RIVER GLASS CO. co-owner Ben Ledbetter told the Times-News on Friday that new employees have been hired to replace the striking employees, who have failed to report for work for more than two weeks.

Eight employees of the company, members of Glaziers Local Union 764, an AFL-CIO affiliate, walked off the job Sept. 21. They are seeking, through negotiation, to secure higher wages and health and welfare benefits equal to other glass workers in Local 764.

Ledbetter said another negotiating session is set for Wednesday. He said the major area of disagreement between

workers and management is whether the company will be an open or closed shop.

"Right now union security is what we're hassling over. They want a closed shop," he said.

In a closed shop, all employees must join the union. In an open shop, employees have the option of whether to join the union.

If the workers are successful in securing a closed-shop arrangement with the company, they may eventually get their jobs back, Ledbetter said.

Ledbetter explained the legally dictated negotiation process requires that, "if we do go union (a closed shop), the people we have working for us will have to join the union," and, "when new employees are needed, the company must look first for replacement employees from among the employees who engaged in the strike, if they still want the job."

Ledbetter would not say what he expects the outcome of the negotiations will be. His only comment was, "We're still negotiating it. Let's put it that way."

Wood cutting up sharply

By CHRISTOPHER BOGAN
Times-News writer

KETCHUM — More people than ever before are cutting their own firewood in the national forests from the Little Wood River to Stanley.

U.S. forest service officials in the Ketchum Ranger District and the Sawtooth National Recreation Area say this year there will be more public firewood permits issued than ever before.

With the high costs of oil and gas, more and more people are hopping in their pickups and driving into national forest areas with chainsaws in hand to cut firewood.

However, the increased pressure on forests has created a two-sided situation that may ultimately result in stricter regulations governing firewood cutting policies.

Regional forestry technicians say

the work of eager woodcutters contribute to the health of the forests. The free firewood permits allow people to cut only dead wood, which is lighter and burns better than green wood. Removal of the dead wood therefore decreases the fire danger, thins the forests and removes diseased trees.

But the large number of people now cutting wood is making it increasingly difficult to find accessible firewood and some cutters violate slash disposal and off-road-vehicle regulations, the forestry experts say.

Bill Bush, forestry technician for the Ketchum district, says the increased interest in cutting firewood and the greediness of some cutters, who take more than the maximum five cords allotted by permit, are what causes problems.

"There's always going to be dead wood and it's a good practice to clear

that dead wood out," Bush observed. "They're doing us a favor. But the biggest problem is that so more timber sales have been made on the district and with a limited number of accessible roads, it's getting harder and harder to find wood."

The firewood cutting season runs from early June until the end of October in most of the Wood River districts' forests.

Rush noted that in 1977 the Ketchum district issued about 920 permits during the season. But this year, with the busiest wood cutting time just begun, he says the district has already issued about 1,000 permits. He estimated about 2.5 million board feet of firewood has been harvested this year from the Ketchum district.

Some of the permits are issued to assistant John Hepworth said the same cutting pressures are being felt. Hepworth said 700 permits were issued by his office last year and about 700 permits have already been issued in 1978. He estimated about 1.5 million board feet have been taken out of some of the cycles, he said.

"I think it's going to be a problem before long," Hepworth said. "People are going to have a hard time finding wood."

"There are a lot of people who are looking and who are going back with a half or three-quarters load," he added.

The SNRA sets its own firewood regulations and Hepworth said the problem is pressing enough that he and other forestry officials have begun considering possible changes in the permit regulations.

Some of the cycles being considered reducing the maximum number of cords a person can cut, reducing the number of permits issued, and closing forest areas that are very close to firewood cutting.

Hepworth and other SNRA officials will meet sometime during late October or November to review firewood and timber policies.

Spinal taps may detect mental illness

By LORAYNE O. SMITH
Times-News writer

BOISE — A Nampa psychiatrist predicts that within five years spinal taps will be available to detect chemical imbalance, one cause of severe mental illness.

Dr. Charles E. Greene, speaking at the Idaho Mental Health Association convention in Boise Friday, said it now takes psychiatrists some four weeks to detect this chemical imbalance "by trial and error."

"But don't ask for a spinal tap tomorrow. You can't get one routinely yet," he said.

Discussing the latest advances in brain biochemistry, the psychiatrist said it is now known that chromosomes carrying the chemical imbalance are inherited from father to

daughter. This genetically-caused mental illness usually shows up by early adulthood, he said.

He compared persons with chemical imbalance to diabetics: with proper medication most can resume useful lives.

Dr. Greene said providing patients with the basic facts about the role natural body enzymes play in the brain's control of both physical and emotional reactions usually "is a whole new revelation" to patients who, he emphasized are "stupid people."

Given the right chemicals, patients who have often swung from high to low syndrome of manic depressive become "new people," the doctor said.

"If they know about their illness

they can do a beautiful job of treating themselves," he said.

But no amount of medicine will do any good, he stressed, if the doctor does not have a good relationship with the patient.

"It's easy to treat the psychotics (most severe form of mental illness). The hardest part is to get the person's self confidence built back up so he or she can go back to work and resume a normal life," Dr. Greene said.

Psychotherapy is important in helping the patient build self-confidence. The psychiatrist termed as "tragic" the many older persons whose symptoms of mental illness are incorrectly labeled senility and left untreated.

Both Dr. Greene and a Boise psychiatrist, Dr. Jody Erikh, who

spoke Saturday, criticized the widespread prescription of anti-depressant drugs.

"Physician-prescribed sleeping pills are the largest cause of sleeplessness in this country," Dr. Greene declared.

All speakers at the two-day meet which concluded Saturday afternoon said that depression from life's ups and downs, such as loss of job or mate, is normal. It is only when depression continues and the person shows increasingly unusual behavior that help should be sought.

Much help is available for mental illness caused either by genetic or outside stress or combination of factors, the speakers said.

Problems faced by women in seeking counseling were examined during

another workshop conducted by three Boise mental health professionals.

Dr. Susan Hayden, Region 4 Community Mental Health Center clinical psychologist; Dr. Wylia D. Bagness, Boise State University psychology professor; and Sue Stadler, social worker in private practice, all agreed the stereotyped female role in Western culture is not mentally healthy.

Women traditionally are seen as more emotional, more dependent upon others for approval, less assertive and competitive than males.

"Males early are taught to be competitive while females learn to be good little girls," Stadler said.

Women are faced with the dilemma that to be socially acceptable they must retain personality traits which are mentally unhealthy.

Instruction candidates disagree on 'basics'

BOISE (UPI) — Both Idaho superintendent of public instruction candidates said Sunday they support getting "back to the basics" in education, but they disagreed as to what those basics are.

Democratic candidate **Daryl Sallaz** said the basics include traditional reading and writing skills plus "survival" skills like consumer and vocational education.

Republican hopeful **Jerry Evans** said school teachers

should stick to teaching reading, writing, spelling and arithmetic.

Sallaz said, "The kid in the classroom today in Idaho will live the majority of his life in the 21st Century. There are going to be changes in the 21st Century that in the wilder recesses of my imagination I can't picture. If a kid has a solid, basic education he'll have the flexibility to survive in that environment."

Evans said if it has been estimated that every child graduating from high school at this time will have to change jobs four- or five times to cope with technological changes.

Evans said teachers should stick with reading, writing, spelling and arithmetic. He said public schools "do a good job" in the lower elementary grades, but break down there, where he said the emphasis is on the subject and not

overall skills.

"It's not unusual for a teacher of mathematics to say 'I really don't care about how they write and I don't mark down for spelling and a number of those things. I think we need to focus in those things throughout the public school years,'" Evans said.

The candidates made their comments Sunday on KIDO Radio's "Boise City Potato" program.

For month of August

Unemployment surges upward in Idaho

TWIN FALLS — Idaho's unemployment rate for August rose to 5.6 percent, up 6 from the previous month.

The rate is 1.1 percentage points above the August, 1977, when it was 4.5 percent.

September's unemployment rate in Idaho is forecasted at 6.1 percent, seasonally adjusted.

According to Department of Employment figures released, the unemployment rate increased to 5.6 percent from 4.5 percent in August, 1977, when it was 4.5 percent.

The largest increase in unemployment was in the lumber and wood products and food processing industries.

Rainy weather during the survey week prevented loggers from working in the woods. The potato harvest was

halted preventing food processors from beginning their seasonal operations.

Seasonal layoffs also have occurred in mobile home, pre-fabricated homes and construction industries.

"A fall activities begin," the unemployment picture for October is good," it said.

Non-agricultural employment increased by 1,800 workers to 324,000 in August. The number of unemployed increased by 2,800 workers. This was the largest since August, 1977, when the increase was 3,700 workers.

than 50 percent of the increase was in the eating and drinking establishments.

In Twin Falls County, the unemployment rate was 4.8 percent.

The department said Hemingway Cold Storage will soon begin operation in Twin Falls and will probably employ eight to 10 full-time people.

United - First Federal - Savings and Loan is constructing a branch office in the city.

Several new office complexes, with space available for rent, are being built around the city. Excavation began on the new Herrett Museum at the College of Southern Idaho.

It also said Green Giant in Buhl has been operating at peak capacity since

the start of the sweet corn harvest.

In Jerome County, a new 30,800 square-foot Smith's Food King is expected to be completed by February, 1979. The store will have a drugstore and pharmacy. Other businesses in the center will include a Sprouse Reitz and a Coast-to-Coast Store.

Wendell has a new custom meat cutting business called Prince's Custom Corner. This will be a family-owned and operated business.

The department estimates the total agricultural employment in Idaho at 41,700 for the month of September.

Who do you know in Twin Falls who'll lend you \$5000?

We will! Call or stop in for the money you need to solve a money problem. We lend millions to business everyday. And we lend even more to help people.

We find ways to help.

Obituaries

Wilson Churchman

JEROME — Wilson B. Churchman, 79, died Saturday at his home after a brief illness.

He was born Sept. 22, 1899, at Indianapolis, Ind. and attended schools in Indiana and graduated from Purdue University with a major in agriculture.

His married life was spent in Idaho. He was in Indianapolis, Ind. from 1908 to 1909. He moved to Jerome that same year where he was employed by an uncle in the sale of model cars.

He later drove a school bus and owned the Appleton Bus Route. He was a partner with Northside Auto and Truck. He later became associated with Jerome First National Bank and a Jerome finance company.

Churchman and Young Motor Co. was established in 1948 and eight years later he became sole owner of Churchman Motors.

He sold out in 1952, and in later years served as secretary of Jerome Chamber of Commerce.

Mrs. Churchman died in 1954, and he married Frances Statton July 5, 1958 in Jerome.

He was a member and past master of Jerome Lodge 701 AF & FM, a member of Scottish Rite Bodies, El Korah Shrine, past president of the Wood River

Shrine Club, served as president of chamber and the Jerome Rotary Club, charter member of Jerome Elks Lodge, and had served on the cemetery board, fair board, St. Benedict's Hospital board and city council.

He also was a member of the Jerome Country Club and active in Jerome Recreation Association.

Survivors include his wife of Jerome; one daughter, Mrs. Joan O'Neal of Pocatello; two sons, Wilson F. (J.R.) Churchman of Shoshone and Edward F. Churchman of Jerome; one step daughter, Margaret Scherzer of Santa Rosa, Calif.; one brother, Frank Churchman of Indianapolis; 13 grandchildren; and seven great grandchildren.

Services will be 2 p.m. Tuesday in the Hope Funeral Chapel by Rev. Father Thomas Heeran and Jerome Lodge 701 AF & FM. Burial will be in the Jerome Cemetery. Friends may call Monday from 5 to 9 p.m. and Tuesday until 1:30 p.m.

Mrs. Churchman may be made to the Shriners' Hospital in Salt Lake City, Utah.

Angeline Holloway

GOODING — Angeline Holloway, 95, of Gooding, died Sunday at a local nursing home after a long illness.

She was born Nov. 25, 1882, at Cochocton, Ohio, and lived in Bates County, Mo. where she received her education. She taught school for several years.

She married Roy Holloway Dec. 25, 1905, at Lola, Kan. They moved to Twin Falls tract in 1908 and since have resided in Oregon and California. They moved to Gooding in 1919 where they farmed until retiring and then moved into town.

She was a member of the Baptist church for more than 42 years. She was preceded in death by her husband in 1961.

Survivors include one son, Wayne Holloway of Gooding; one daughter, Blanche Winters of Glenns Ferry; seven grand children; 13 great grandchildren; and five great great grandchildren. She was preceded in death by her husband.

Graveside services will be Tuesday at 11 a.m. in the Elmwood Cemetery at Gooding. Friends may call Monday afternoon and Tuesday until service time.

Richard Miller

JEROME — Richard Eugene Miller, 76, of Wenemucca, Nev., died Friday near Hollister while en route to Jerome to visit relatives.

He was born July 21, 1902, in Heber City, Utah, and attended schools in Shelley and Arco. He was married to Alma Beatrice Briggs Nov. 16, 1936 in Jerome.

They came to Jerome that same year from Blackfoot. He worked as a carpenter most of his life and retired 10 years ago.

Mrs. Miller died in 1965, and he moved to Wenemucca in 1971.

He was a member of the Idaho Falls Carpenters Local.

Survivors include two step daughters, Mrs. Vallejo Arden and Mrs. Elaine Hoot of Bountiful, Utah; one step son, Gall L. Briggs of Jerome; one sister, Mrs. Charlotte Mercer of Fresno, Calif.; 13 grandchildren; and 26 great grandchildren.

He was preceded in death by one son who died at birth and a step son, Lyle, who was killed at Pearl Harbor.

Graveside services will be 10 a.m. Tuesday in the Shoshone Cemetery by Rev. Dean Hill. Friends may call at the Hope Funeral Chapel Monday from 3 to 9 p.m.

Services

TWIN FALLS — Services for Mary Margaret Holley, 62, of Twin Falls, who died Friday, will be 9:30 a.m. today at White Mortuary Chapel. Burial will be in the Remburg Cemetery at 4:30 p.m.

RUPERT — Services for Roba Mitchell, 71, of Rupert, who died Saturday, will be 1 p.m. Tuesday in the Windsor LDS Ward Chapel near Preston with Bishop Carol Stacks officiating. Burial will be in the Preston Cemetery. Friends may call at McCulloch's today from noon until 8:30 p.m. and one hour prior to services on Tuesday.

HAILEY — Services for John William Rice, 58, of Lovington, N.Mex., who died Wednesday, will be today at 10 a.m. in Lovington.

BURLEY — Services for Michael Morris, 71, of Burley, who died Friday, will be 2 p.m. Tuesday in the Burley Ward LDS Chapel with Bishop Blaine Style officiating. Burial will be in the Gen Memorial Gardens. Friends may call at McCulloch's today from noon until 8:30 p.m. and Tuesday prior to the service.

HEYBURN — Services for James Leonard (Jim) Johnson, 19, of Heyburn, who died Friday, will be 10 a.m. Wednesday in the Heyburn LDS Second Ward Chapel with Bishop W. Ray Bailey officiating. Burial will be in the Riverside Cemetery in Heyburn.

Friends may call at the Payne Chapel Tuesday afternoon and evening and prior to service on Wednesday.

BURLEY — Services for Kimaloo Franks, 18, of Burley, who died Friday, will be 10 a.m. Tuesday in the Burley LDS Stake Center with Bishop Norman King officiating. Burial will be in the Pleasant View Cemetery. Friends may call at the Payne Chapel this afternoon and evening, and at the church one hour prior to services.

TWIN FALLS — Graveside services for Raymond N. O'Dell, 51, of Twin Falls will be 3:30 p.m. today at the Sunset Memorial Park. Friends may call at the mortuary today until 3 p.m. The family suggests memorials be made to the Intermountain Organ Transplant Bank, Utah Medical Center.

KIMBERLY — Services for Thomas Francis Marozco, 61, of Kimberly, will be 2 p.m. today at the Kimberly Ward LDS Church. Burial will be in Sunset Memorial Park. Friends may call at the church one hour before services. The family suggests memorials to the cancer fund.

TWIN FALLS — Services for Roy Neal Ross, 78, of Twin Falls, will be 11:30 a.m. today at the White Mortuary Chapel. Friends may call at the chapel until 10:30 a.m. Burial will be in Sunset Memorial Park.

Democrats planning chili bash

TWIN FALLS — State and local candidates will attend a chili bash sponsored by the Twin Falls Democrats Oct. 12.

The "Discover Democrats" event will begin at 8 p.m. in the Twin Falls Moose Lodge.

Candidates who will be attending include Gov. John Evans, Stan Kress, Bill Murphy, Dwight Jensen, Mike Wetherell, Daryl Sallaz and Marjorie Ruth Moon.

Prizes will be awarded to those who come up with the best "chili concoction," according to a spokesman.

Anyone interested in entering the contest is invited to bring a crockpot of chili to the lodge, 835 Falls Ave., before 4 p.m. Homemade bread and condiments will be served.

There also will be live country music.

Tickets are available at Democratic Headquarters, in the Rogerson Hotel on 2nd Street East. They also may be purchased at the door.

For more information contact the headquarters.

McClure plans tour of state

BOISE (UPI) — Sen. James McClure is "anxious to get started" on his planned tour of Idaho by chartered bus, which officially begins today in his hometown of Pocatello.

"Every time we've taken this tour I've been stimulated and very encouraged by the response Idahoans have shown," he said. "The trip gives me a chance to be with taxpayers, and it really gives me a chance to talk with all the people who feel the way I do about limiting government and keeping Washington out of Idaho decisions."

The campaign trip is expected to touch nearly every area of the state.

Chargers 'crush' punchless Broncos

SAN DIEGO (UPI) — The San Diego Chargers' defense shut down the Denver Broncos Sunday, yielding only yards in the first half on route to a 23-0 victory and their first win under new coach Don Coryell.

San Diego scored on Don Woods' 1-yard touchdown run, a 14-yard pass from Dan Fouts to Hank Bauer and three Rolf Benirschke field goals.

The Chargers' inspired defense blanketed Bronco quarterback Craig Morton. Morton did not complete a pass in seven attempts and was intercepted once. His replacement, Norris Weese, did little better and was carried from the field with an injured knee in the third quarter.

Fouts passed for 187 yards for San Diego, completing 22-of-34 attempts with one interception.

The first Charger touchdown came in the first quarter on an 85-yard drive in 15 plays that took more than 11 minutes. The drive was kept alive by three Bronco penalties, the most costly an illegal block while the Chargers were punting on fourth down. Given a first down, the Chargers scored with Woods' plunging over from the 1-yard line.

San Diego scored again on its first possession of the second quarter. Woodrow Lowe recovered a Morton fumble at the Denver 34-yard line and five plays later the Chargers scored on Fouts' pass to Bauer.

Rams beat 49'ers to widen lead

LOS ANGELES (UPI) — Pat Haden threw touchdown passes of 11 yards to Willie Miller and three yards to John Cappelletti in the opening half Sunday and the Los Angeles Rams remained unbeaten with a 27-10 victory over the San Francisco 49ers.

The Rams, who were penalized 15 times for 136 yards, looked less than inspired against the hapless 49ers, 1-5 but they still had more than enough to improve their record to 6-0. Along with Washington and Pittsburgh, the Rams are one of three undefeated clubs.

Although Haden fumbled once and had a pass intercepted in the opening period, he helped stake the Rams to a 17-3 halftime lead with his 3-yard scoring pass to Cappelletti at 3:27 of the first quarter and his 11-yard pass to Miller in the end zone at 14:32 of the second quarter.

The first touchdown came on the Rams' first possession after a 44-yard punt return by Jackie Wallace gave them the ball at the 49er 15. It took the Rams four plays to go the 15 yards.

With the score 10-3, the Rams turned an interception by Pat Thomas of a Steve DeBerg pass into a touchdown. Thomas' theft with two minutes left in the first half gave Los Angeles the ball at the San Francisco 43 and the Rams went in six plays later. That drive included a 22-yard pass from Haden to Cappelletti.

By winning on a day New Orleans and Atlanta lost, the Rams moved into a four-game lead in the NFC West with 10 regular season games to go. At 6-0, Los Angeles has one more win than the other three clubs in its division.

The only 49er first half points came on Ray Werschling's 25-yard field goal at 9:05 of the first quarter after San Francisco failed to put the ball in for a touchdown after it had a first-and-goal at the Rams' six.

San Francisco turned one of four Ram turnovers into a touchdown at 4:14 of the third quarter. Bob Jury recovered Jerry Latin's fumble of the second half kickoff and the 49ers managed to go 29 yards in seven plays for the score that made it 17-10. Greg Boykin scored on a 2-yard run.

Robin Johnson sharply maneuvers around a pole to have best time in pole bending event

Richfield's Johnson rides to pole bending win

HAGERMAN — Robin Johnson of Richfield took top honors Sunday in the pole bending contest sponsored by the Snake River Barrel Racing Association.

Johnson won with a time of 21.8 seconds in the event. Other placers were Darla Owen, Jeannette Juker and Peggy Newton.

In the kids division of pole bending competition, Cindy Turmp finished first and Nikki Juker got second.

The open barrel racing event was won by Phillinda Geese with a time of 17.4. Shirley Daniels was second. Connie Stevens third and Shari Aslett fourth.

Geese also won the novice division, while Aslett and Stevens tied for second, and Juker tied fourth. Novice rider Brenda Sayer, with 19.2 seconds, won that division. Marla Drake was second. Kelly Fuller third, and Wendy Hayes fourth.

Yankee skipper didn't think about Dodgers

NEW YORK (UPI) — New York Yankees manager Bob Lemon, the first man in American League history to win a pennant after taking over in mid-season, admitted being a bit dazed after his team won the third straight American League pennant Saturday night.

"I can't describe it (the feeling) now," the Yankee manager said following the Yankees' 2-1 victory over the Kansas City Royals in the fourth and deciding game of the AL championship series. "I'm very nervous. People think I'm calm — that's a bunch of baloney."

"This has been a great year in baseball. This and the Hall of Fame are the most gratifying moments of my life."

Asked about the World Series, Lemon, the UPI Manager of the Year with the Chicago White Sox in 1977, said, "I haven't had any thoughts on the Dodger series. The Dodgers have been the farthest thing from my mind. I have not been planning that far ahead."

Lemon added that he didn't know when he would be able to use Ron Guidry, who nulled down the pennant with relief help from Rich Gossage Saturday night, against the Dodgers. But the Yankee left-hander said "I'll be ready to pitch when Lem says I'm ready."

In the middle of the New York clubhouse celebration Saturday night, Bucky Dent stated his feelings on this Yankee team which overcame controversy and turmoil to come from 14 games back in July and win the crown. "Let me tell you something," said Dent, who has provided surprising offense to the New York Yankees late in the season. "These guys showed me some class. We didn't get again tonight that we don't go out and rely on our own strength. It's a different guy winning it for us every night."

'Win one for Gilliam'

Dodgers hope to prove 1977 series was a fluke

LOS ANGELES (UPI) — Facing the New York Yankees in post-season competition is sort of like taking on Don Rickles in an insult exchange, but the Los Angeles Dodgers are out to prove that the team was best to New York in last year's World Series was an impostor.

Still basking in the euphoria of his club's National League 43 playoff victory over the Philadelphia Phillies Saturday, Dodgers' manager Tom Lasorda Sunday predicted the Dodgers would win the World Series and fulfill their promise to capture a world championship for stricken coach Jim Gilliam.

"There's no doubt we're going to win," said Lasorda. "I can't put it any clearer. I'm just so gratified. We dedicated this playoffs to a great man, a great human being — Jimmie Gilliam. We dedicated the pennant to him, we dedicated the playoffs to him and we're dedicating the Fall Classic to him."

The 75th World Series begins Tuesday at Dodger Stadium with either right-hander Burt Hooton or left-hander Tommy John pitching for the Dodgers and right-hander Ed Figueroa scheduled to start for the defending world champion Yankees.

"I don't know how many players on this team would admit it, but we didn't like playing second fiddle to the Yankees last year," said Dodgers' outfielder Reggie Smith. "A lot of people said we were lucky to be there. I think we dedicated ourselves to proving those people wrong this year."

"I'm grateful for the opportunity to play the Yankees again. It makes us want to come back and prove that we should have won last year. It's not always a case of the best team winning. I thought we had better players, but they did a better job."

World Series schedule

New York vs. Los Angeles (Game 1) (AT Times MDT)	October 14 — Los Angeles at New York, 1:30 p.m.
New York vs. Los Angeles (Game 2)	October 15 — Los Angeles at New York, 1:30 p.m.
New York vs. Los Angeles (Game 3)	October 16 — New York at Los Angeles, 8:30 p.m.
New York vs. Los Angeles (Game 4)	October 17 — New York at Los Angeles, 8:30 p.m.
New York vs. Los Angeles (Game 5)	October 18 — New York at Los Angeles, 8:30 p.m.
New York vs. Los Angeles (Game 6)	October 19 — New York at Los Angeles, 8:30 p.m.

The Dodgers played poorly when they lost the World Series to the Yankees in six games last year, especially in their home park where they dropped two of three. This year they have the home-field advantage with four games. If necessary, slated for Dodger Stadium.

However, the Dodgers presumably have an advantage this year because their pitching staff is well-rested while the Yankees will be without their ace, left-hander Ron Guidry, until at least the third game.

Seahawks by a point

SEATTLE (UPI) — Eren Herrera, who had two extra point attempts blocked earlier in the game, kicked a 19-yard field goal as time ran out Sunday to rally the Seattle Seahawks to a 22-21 victory over the Minnesota Vikings.

The Seahawks controlled the ball for the final 7:04 of the game, moving 70 yards to the Minnesota 1-yard-line to set up the winning kick.

Sherman Smith, playing his first game since an injury in the season opener, ran for 23 yards and caught two Jim Zorn passes for 26 yards in the final drive.

Seattle entered the fourth quarter trailing 28-19. Zorn brought Seattle to within two points with a 22-yard scoring run. His second touchdown of the game, with 9:02 left.

The Seattle victory brought the season record for both teams to 3-3.

For Minnesota, which had lost earlier this year to Tampa Bay, it was the second defeat to an expansion team.

Seattle took a 13-0 first-quarter lead but Fran Tarkenton, who hit 27-of-36

passes, rallied the Vikings. Seattle opened the scoring on a 44-yard pass from Zorn to Sam McCullum but Herrera missed the extra point attempt.

Seattle ran 12 yards to cap a 71-yard scoring drive with 59 left in the first quarter, making 11:30.

Then Minnesota scored on four of its next five possessions. With the Viking running game hampered by the absence of Chuck Foreman, Tarkenton directed the Seattle defense apart with short passes to his running backs and tight ends.

Tarkenton threw two touchdown passes, one to Ahmad Rashad for two yards and another to Sammy White from nine yards out.

Tarkenton scored on a 1-yard run with four seconds left in the first half to make it 19-14, Seattle.

The Vikings opened the second-half scoring on a 5-yard run by Robert Miller, capping an 80-yard drive.

Seattle's other touchdown was scored in the second quarter on an 8-yard run by David Sims.

Minnesota	5-3-0	287	132	118	118	118
Dallas	4-4-0	287	132	118	118	118
Denver	3-5-0	287	132	118	118	118

Cowboys 24-3

IRVING, Texas (UPI) — Roger Staubach threw for 246 yards and three touchdowns Sunday to help the Dallas Cowboys, sparked by their stingy defense, register a 24-3 victory over the New York Giants.

Staubach, off to one of the poorest starts of his professional career, completed 17-of-32 passes and ran his season touchdown total to 12, tops in the NFC.

Raiders 21-17

OAKLAND (UPI) — Ken Stabler passed three yards to Dave Casper for a touchdown with 47 seconds left Sunday to rally the Oakland Raiders to a 21-17 victory over the Houston Oilers.

With Houston leading 17-7 and about to score again, Oakland defensive back Charles Phillips picked up an Earl Campbell fumble and ran 96 yards for a touchdown that put the Raiders within three points.

Oakland stopped three Houston drives in the final period before Stabler went to work with 3:14 remaining. The veteran quarterback completed 5-of-7 passes for 67 yards, and with 47 seconds left completed a 3-yard pass push to Dave Casper for the deciding score. The Raiders raised their record to 4-2.

Baltimore 30-17

ST. LOUIS (UPI) — Safety Lyle Blackwood returned an interception 79 yards for a touchdown and Bill Troup passed 10 yards to tight end Malcolm Alston in a 46 second victory of the second quarter Sunday to send the Baltimore Colts to a 30-17 victory over the winless St. Louis Cardinals.

Troup, again filling in for the injured Bert Jones, also scored on a 5-yard bootleg run midway in the final quarter to clinch the victory. Centerback Lloyd Mumphord had

blocked a Steve Little punt and Reese McCall scooped it up and rambled 37 yards to the St. Louis 9 to set up the score.

Packers 24-14

GREEN BAY, Wis. (UPI) — Safety Steve Luke returned an interception 63 yards for a touchdown and recovered a fumble to set up a field goal Sunday to give the NFC Central Division leading Green Bay Packers a 24-14 victory over the Chicago Bears.

The Packers won their fifth game in six tries on a 41-yard field goal by Chester Marcol, a 2-yard TD run by Terrell Middleton, Luke's interception return and a 58-yard scoring pass from David Whitehurst to rookie James Lofton.

The Bears lost their third straight to fall to 3-3. Chicago's touchdowns came on passes of 15 and 27 yards from Bob Avellini to James Scott.

Luke's touchdown was his first on an interception in his 4-year career. Whitehurst's pass to Lofton was Green Bay's longest scoring pass of the year and the fourth for the pair. The Packers led 3-0 at the half on Marcol's kick, and went ahead on Middleton's touchdown, set up by an interception by Jackie Battle. Battle's task on the Chicago 18. Later in the third period Luke's interception made it 17-0.

Browns 24-16

NEW ORLEANS (UPI) — Cleo Miller and a revitalized Calvin Hill combined for 43 rushing yards in the first half of a 24-16 victory over the Cleveland Browns to a 24-16 victory over the New Orleans Saints.

Miller, who gained 94 yards, scored the Browns' first touchdown on a 11-yard plunge, capping a 61-yard first play drive that used 37 of the first period.

The Browns shredded the Saints' flex defense in the first half, building a 14-0 lead.

After Cleveland took over on its own 44-yard line in the second period, quarterback Brian Sipe struck mostly to the ground as Hill, Miller and Larry Collins gained huge chunks of yardage up the middle.

Tampa Bay 30-13

KANSAS CITY, Mo. (UPI) — Rookie Doug Williams completed 14-of-29 passes for 226 yards and one touchdown and Jimmy DuBose added two fourth-quarter scores Sunday to lift Tampa Bay to a 30-13 victory over the Kansas City Chiefs.

Williams put the Buccaneers in front for good with 31 seconds left in the first half on a 18-yard scoring pass to Morris Owens, capping an 80-yard drive in seven plays. Williams hit passes of 33 yards to Jimmie Giles and 20 yards to Larry Mucker prior to the scoring pass to Owens, his fourth TD pass of the year.

Steelers 31-7

PITTSBURGH (UPI) — Terry Bradshaw passed for 231 yards and a touchdown and ran for another and running back Larry Shuler added two touchdowns to give Pittsburgh Steelers their sixth straight victory, 31-7 over the Atlanta Falcons.

John Stallworth, who grabbed an 11-yard scoring pass from Bradshaw, caught five passes for 113 yards, tying a career high. Rocky Bleier rushed for two touchdowns on runs of 8 and 2 yards and Roy Gerela added a 21-yard field goal and four extra points.

Bradshaw, questionable all week in the week due to a bruised knee suffered in last week's game against the New York Jets, completed 12-of-18 passes before being replaced by Mike Kruczek early in the fourth period.

Redskins 21-19

PONTIAC, Mich. (UPI) — John McDaniel reached over rookie cornerback Tony Sumler's head to grab a 25-yard touchdown pass from Joe Theismann with just 1:24 left Sunday, enabling the Washington Redskins to remain unbeaten with a 21-19 victory over the Detroit Lions.

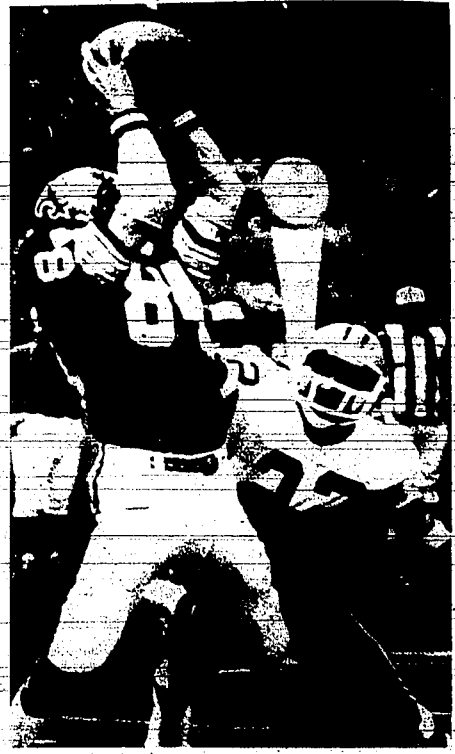

Detroit, with just one win in six games, got four field goals from Benny Ricardo and a 6-yard touchdown run from Rick Kane with 5:32 to play. The Lions appeared as if they were going to hand Washington its first loss in six games.

But Theismann, who had tossed a 21-yard touchdown strike to tight end Jean Fugett at the start of the fourth period to put the Redskins ahead for the first time, 14-12, coolly steered Washington 74 yards to the winning points.

The drive started with a running play and an incomplete pass before Theismann connected on passes of 13 and 30 yards to running back Mike Tobias. Tobias' 31-yard run to the 25, McDaniel, whose 52-yard reception represented the bulk of Washington's 80 first-half yards, beat Sumler, a newly signed backup, for the game-winning score.

Eagles 24-14

FOXBORO, Mass. — Steve Grogan passed for one touchdown and Sam

Saints' Rich Mauti (84) grabs pass for score

Cunningham and Don Culhoun each scored on short runs Sunday to pace the New England Patriots to their third straight win, 24-14 over the Philadelphia Eagles.

Grogan connected on a 58-yard bomb to Stanley Morgan in the third quarter. Culhoun scored on a 4-yard run in the first quarter and Cunningham on a 1-yard plunge in the second quarter. Rookie David Posey added a first-period field goal for New England, 4-2.

New York 45-14

NEW YORK (UPI) — Kevin Long ran for three touchdowns, Burgess Owens returned an interception 40

yards for a score and Bruce Harper had an 82-yard TD run on a punt return Sunday during a 45-point first-half burst that carried the New York Jets to a 45-14 rout of the Buffalo Bills.

Long scored on runs of 5, 16 and 3 yards and Matt Robinson threw an 18-yard TD pass to Derrick Goffney as the Jets turned a blocked punt, a pass interception, a punt return and two fumble recoveries into scores. The most productive day by an NFL club this season ended the Jets' three-game losing streak and the Bills' modest two-game winning streak.

The Jets put together the most productive first half in their 19-year history in taking a 35-7 lead.

Bengals' new coach makes debut tonight in Miami

MIAMI (UPI) — The Cincinnati Bengals' Homer Rice may have picked the wrong time to make his NFL debut as head coach against the Miami Dolphins tonight.

The Miami defense will start to look like old times with the return to the starting lineup of end A. J. Duhe and linebacker Steve Towle against the troubled Bengals, winless in five games.

The sight of Dolphin quarterback Bob Griese on the sidelines in uniform will be a familiar one also, although there is only a slight chance he will play. Starting fullback Leroy Harris, out for two weeks with a sore ankle, also will remain in the Dolphins.

Don Stock, still bothered with a bruised thigh suffered in last week's 24-10 defeat at St. Louis, will be making his sixth start of the season against the young Bengal defense.

Duhe is making his first start this year after a knee operation in August. He has seen spot duty the last two

games, but rookie Doug Bellis has been the starter and has gone most of the way for the 3-2 Dolphins.

Towle has been out for three games with an injured knee and is looking forward to getting back into action, although he feels a little rusty.

"You lose some of your fluidity, you're making more sharp jerky movements instead of flowing with the play," Towle said. "You'll check one hole down the line and it's not as smooth as you'd like."

Cincinnati quarterback Ken Anderson knows what it is like to be off stride. He threw four interceptions in a 28-12 loss to San Francisco last week in his first game since he injured his hand in his season opener.

He should be a lot more effective Monday night with a full game behind him, but former Bengal Coach Bill Johnson left other problems behind when he resigned last Monday.

Sport shorts

CSI to sponsor Oct. 22 horse show

TWIN FALLS — The second annual CSI all-Breed Horse Show, sponsored by the CSI Aggie Rodeo Club, will be Oct. 22 at the CSI Expo Center.

English riding and jumping competition will start at 8 a.m. and the afternoon events, starting at 1 p.m., will be Western riding, reining and gymkhana.

Admission will be free, and the public is invited to attend.

The Sunday horse show will follow the big Ray Hunt/Gene Lewis Horse Training Clinic, which will be offered on Saturday. For further information, call Shawn Davis at 733-9554, extension 320.

Deadline Tuesday for buying deer tags

TWIN FALLS — Tuesday is the deadline to purchase deer tags for the upcoming general deer hunt throughout most of southern Idaho.

The tag deadline will not apply to youngsters who become the legal hunting age following the cutoff date. It

also will not apply to persons who have established a six-month residency and Idaho servicemen home on leave.

Deer tags may be purchased from a fish and game office or by mail. It will be unlawful to use the tag until the second day following issuance. The tag is marked with effectiveness dates.

Fish & Game to consider fishing rules

TWIN FALLS — A reduced bass limit and a bonus on trout trout in some areas are being considered by the Fish and Game Commission.

Recommendations will come before the commission in a public meeting Friday at 1:30 p.m. at the department's headquarters in Boise, 600 South Walnut.

regulations by writing Joseph C. Greenley, commission secretary, Box 25, Boise, 83707 prior to Friday.

The department is recommending that the bass limit be reduced to 10, with not more than three fish longer than 17 inches.

A full list of the recommendations is available at the fish and game department.

Britain earns Davis Cup final spot

LONDON (UPI) — Defending champion Australia salvaged its tennis pride Sunday by winning both reverse games Sunday, but could not prevent Britain from clinching up a 3-2 victory for a place in the Davis Cup final against the United States.

The Australians, assured of elimination after Britain built up a winning 3-0 lead over the first two days, made the score respectable at the expense of John Lloyd and Buster Mottram.

In two one-sided clashes, Tony Roche whipped Lloyd 6-3, 6-2, just over an hour, and John Alexander rounded off the match with a 6-2, 6-3, 6-2 victory against Lloyd.

Spectacular Bid wins Stakes

NEW YORK (UPI) — Spectacular Bid took the lead on the backstretch and held off a belated drive from favored General Assembly Sunday to take the \$133,750 Champagne Stakes for 2-year-olds at Belmont Park.

Ridden by Jorge Velasquez, Spectacular Bid broke smartly and took the field of six through fractions of 23 1/2, 46, and 1:10 1/4 before completing the one-mile race in 1:34 4/5, 2 1/2 off the stakes record set by Seattle Slew in 1978.

Rick Mears cruises to Indy 120 win

BRANDS HATCH, England (UPI) — Rick Mears, who got to drive when champion Mario Andretti is picking up points on the Formula One circuit, cruised to an

easy win in the Brands Hatch Indy 120 race Saturday while teammate Tom Sneva edged closer to his second consecutive USAC title by finishing second.

verge of signing a more than \$4.5 million contract with the Bulls that will be the most lucrative in major league sports, the Chicago Tribune reported Sunday. Gilmore has agreed to sign — probably before the Bulls open their regular season Friday — the seven-year pact that will pay him an annual salary of \$2,000,000 to \$2,500,000, an NBA source told the newspaper. "That's more than David Thompson gets, more than Julius Erving gets, more than anybody gets," the league official said.

Jose Higueras, who has long played in Spain under the shadow of Manuel Orantes, defeated Czechoslovakian Tomas Smid 6-7, 6-3, 6-4 Sunday to win the Madrid Grand Prix and top prize money of \$13,600.

Track, football and baseball star Jim Thorpe is the greatest male athlete of this century while golf and track star Babe Didrikzen Zaharias is the greatest among this century's women athletes, according to a new poll of sportswriters.

The poll, conducted for the second edition of The People's Almanac, also rates Dan Lusk's perfect game in the 1956 World Series as the most dramatic sports event of the decade.

Ranked as the greatest male athletes, after Thorpe, were Babe Ruth, Muhammad Ali, Jack Dempsey, Jack Nicklaus, Ty Cobb, Bobby Jones, Joe Louis, Willie Mays and Red Grange.

Ranked as greatest female athletes, after Zaharias, were Chris Evert, Helen Wills Moody, Billie Jean King, Wilma Rudolph, Nadia Comaneci, Sonja Henie, Stella Walsh, Dutch track star Fanny Blankers-Koen, and German swimmer Kornelia Ender.

The second through tenth most dramatic events were Jerry Thompson's home run to win the 1951 Dodgers-Giants playoff, the 1927 Dempsey-Tunney "long count" fight, Lou Gehrig's farewell at Yankee Stadium July 4, 1939; Babe Ruth's "called" home run at Chicago's Wrigley Field in the 1932 World Series; the Dempsey-Firpo fight in 1923; Joe Louis' knockout of Max Schmeling in 1938; the New York Jets' 1969 Super Bowl victory over Baltimore; the United States' 1900 Union basketball final in the 1972 Olympics; and the 1975 Boston-Cincinnati World Series.

Montreal Canadiens defenseman Pierre Bouchard heads the list of players available today when the National Hockey League holds its annual waiver draft.

The draft, established last season to help the weaker teams, allows all NHL clubs to protect 18 skaters, two goalies and two other pros with two years service.

All others, except one-year professionals and newly drafted players, are up for grabs at prices ranging from \$100 to \$20,000 each. The waiver price is based on the number of years of active professional service by each player.

Bouchard, an eight-year Montreal veteran, is available for \$7,500 and it was reported that he would be taken by the Atlanta Flames to shore up their weak defense.

GILLES VILLENEUVE

... wins Grand Prix

By UNITED PRESS INTERNATIONAL

Canada's Gilles Villeneuve, driving a Ferrari, took the lead on the 48th lap and coasted home to victory Sunday in the Canadian Grand Prix at Montreal, Canada.

The 36-year-old Villeneuve, from Berthierville, Quebec, picked up his first-ever Grand Prix victory in winning the 19th and final event on the 1978 circuit for formula one cars.

It was a double victory for Canada, as second place went to South Africa's Jody Scheckter, in a Wolf Ford owned by Montreal industrialist Walter Wolf.

Carlos Reutemann, last week's winner in the U.S. Grand Prix, finished third.

Heavyweight contenders Duane Bobick and Ernie Stover are slated to continue on their road to respectability tonight when both are in action at the Hampton Coliseum at Hampton, Va.

Bobick, who was knocked out by Ken Norton after 85 seconds of their nationally televised bout in May 1977, is scheduled to oppose Norton's longshoreman John "Speedy" Jordan.

Stover, who dropped decisions recently to Muhammad Ali and World Boxing Council champ Larry Holmes, takes on John Gerowski, a history professor at Florida State who moonlights as a boxer.

Dr. Gil Morgan shot a one-under-par 70 in the final round Sunday to win the \$300,000 Taiheyo Club Masters golf tournament at Gotemba, Japan with a four-round total of 11-under-par 273.

Morgan, winner of the World Series of Golf last month, moved into the lead in the second round and never yielded, taking home first prize money of \$55,000.

Chicago Bulls 7-foot-2 center Artis Gilmore is on the

Ashe crushes Swede to lead U.S. win

GOTHENBURG, Sweden (UPI) — Arthur Ashe put the United States through to its 50th Davis Cup Finals Sunday by trouncing Sweden's Kjell Johansson, 6-0, 6-0, 7-6, in the decisive fourth match of the Interzone semifinals.

Sweden's Bjorn Borg won the fifth and final match against American Vilas Gerulaitis, 6-3, 6-1, but could not reverse the final, 3-2, tournament result which gave the United States a Davis Cup finals placing for the first time since 1973.

Britain won the other Davis Cup Interzone semifinal Sunday with an unbeatable 3-0 lead against Australia, to go through to Britain's first Davis Cup final against the United States since 1937.

The tournament will be held in the United States in December.

The veteran 35-year-old Ashe clinched victory with one hour and forty minutes of powerful, effective play against the Swedish second seed, only dropping his service once in the match to win in three straight sets.

Toasted with victory champagne by his teammates, Ashe said: "I wasn't at all nervous during the match, because there was too much pressure on Kjell (Johansson). He can play with, much better."

Borg, Sweden's No. 1 player, said of the match against Gerulaitis: "It was a difficult match despite the score. I had to work hard, as my body still felt stiff after Saturday's doubles match."

The three-day indoor semifinals, at the Scandinavium Stadium, in Gothenburg, was attended by a record 27,000 people and the decisive fourth match was watched by more than 11,000 people.

United States team coach Tony Trabert said he hasn't decided on the American team for the finals but said he would not use Jimmy Connors as it wouldn't be "fair" to the other players.

"After this victory we will be ready to play against Britain on the 8th, 9th and 10th of December at an as yet unfixed venue in the states," said Trabert.

"On paper the British team may not seem as good as the Swedes, but I do not underrate the ability of the Britons," added the coach. "After all, they can't be bad if they beat such a strong Australian team to qualify for the Davis Cup finals."

"It's difficult to decide the team, so much can happen between now and then, but I am sure we will get a very solid and well-balanced squad together against the British," Trabert concluded.

In world basketball tourney

Yugoslavs dash American hopes

MANILA, Philippines (UPI) — Kreslina Cosic, Zeljko Jerkov, Dragan Kicanovic and Koran Slavnic combined for a 10-2 second-half blast Sunday to lead Yugoslavia to a 100-83 semifinal victory over the United States, giving the Yugoslavs sole leadership of the world basketball championships and dashing the title hopes of the American team.

The victory was Yugoslavia's fourth straight in the eight-team semifinal round.

After a day's rest today, the Yugoslavs will face defending champion Soviet Union Tuesday in what could be a preview of the championship.

In other semifinal games, Russia thrashed Canada, 107-85, to nail down their third win in a row and share the second semifinal slot with Brazil and Italy beat Australia, 87-69, for its second win in four games.

The Dominican Republic defeated South Korea, 113-83, in the only scheduled game in the consolation pool.

The Americans, showing their best performance so far in the tournament, surprised the Yugoslavs with a tight man-to-man defense and took the lead several times, the last at 57-56 before the Europeans pulling away.

finished with 24 points, including 10 in the last quarter that put the United States to within six points at 73-67.

"Our defense was poor," said Yugoslav coach Aleksander Nikolic. "My boys thought the Americans were not good, but they were not too bad a team."

"Too many fouls hurt my team," said U.S. coach Bill Oates.

The Russians stormed at the outset and took a 64-34 halftime lead before relaxing and finishing under siege from the rallying Canadians.

But veteran Sergei Belov and 7-foot-2 Aleksander Trakchenko fired six points apiece and took the heat off the Russians, 97-78, with three minutes left.

Canadian coach John Donahue saw the hopelessness of trying to overhaul the Russians and finished his young players for the experience.

Lorenzo Carraro led the Italians to victory with 20 points.

Ivan Mieses, a 5-foot-10 guard led the Dominican Republic with 20 points. The central American champions are now ranked second behind Czechoslovakia in the consolation pool. Czechoslovakia has two straight wins.

Victory didn't come easy for Sooners

How top teams fared

- 1. Oklahoma (9) beat Texas 31-16.
- 2. Oklahoma (4) beat Missouri 27-10.
- 3. Penn State (14) beat Iowa 27-10.
- 4. Arkansas (1) beat Tennessee 10-0.
- 5. Texas (1) beat Wisconsin 27-17.
- 6. Alabama (1) beat Baylor 30-17.
- 7. Florida (1) beat Texas A&M 24-14.
- 8. Colorado (1) beat Iowa 27-10.
- 9. Oklahoma (9) beat Kansas 17-14.
- 10. Michigan (1) beat Ohio State 34-10.

By United Press International
No. 1 Oklahoma has left its brand on the rump of the Texas Longhorns once again, but before they could get out of the way Saturday the Sooners were the victim of a pretty good kick in the shin.

"Our injury situation is critical," bemoaned Oklahoma coach Barry Switzer after the Sooners' 31-10 triumph over the sixth-ranked Longhorns. "We're just going to have to patch some players together now. It was a physical, hard-fought game."

Oklahoma was simply devastating in its annual shootout with the hated rivals from south of the Red River. The Sooners scored on their first possession, forced five turnovers and easily lived up to their No. 1 ranking.

By contrast, however, the Sooners' injury list read like the Who's Who in college football. Fullback Kenny King had a hip

pointer, quarterback Thomas Lott had a twisted right ankle and wide receiver Ray Rhodes had a separated shoulder that will keep him out of action for the rest of the season.

Still, the Sooners, despite the injuries, are a good bet to stay unbeaten the rest of the regular season and go into the round of bowl games as the nation's No. 1 team.

Texas, meanwhile, came out injury free and one Longhorn's official said it was the first time he could remember his team coming out of the Oklahoma game without at least one major injury.

The Sooners used an slightly altered offensive strategy and a total domination of the line of scrimmage to make the help-ful-ful-over-Texas-a-surprisingly easy one.

"In our first four games we gained so many yards outside that we thought Texas would be ready for that," said Lott, who said he did not think his ankle sprain would keep him out of next Saturday's game with Kansas. "We figured they would key their defense to stop us outside, so we went inside."

Despite Oklahoma's ability to put points on the board, the key to the game was the Sooners' defense, which had been maligned in early games because of the points it had allowed.

In other games involving top ten teams, No. 3 Michigan beat Arizona 21-17.

Pass Pass Pass Pass

Opening lead: ♠ 2

Alan: "I believe you won between 1934 and 1968 because years before I was born and it has been done twice between now and then."

Oswald: "The team uses East's king of hearts to advanced standard American. In other words they make normal opening bids and have all sorts of slam gadgets."

Alan: "Here is a poppommoma slam bid by Brahmman and Soloway. Paul's three diamond bid was strong but not forcing so Malcolm just bid six."

Oswald: "He won the trump led in dummy; led a heart to his ten and West's queen. Later on he ruffed out West's king of hearts to find a parking space for his three of spades on dummy's jack of hearts. If this hadn't worked he could still have fallen back on the club finesse."

By Oswald Jacoby and Alan Sontag

Oswald: "The two most prestigious events in American bridge are the Vanderbilt and Spingold Cups. The feat of winning both in the same year was just accomplished by the team captained by Malcolm Brahmman of Dallas that included Paul Soloway, Bobby Goldman, Eddy Kantar and Mike Passell. They won twelve successive matches against the best in America to do this."

Ask the Experts

A Maine reader asks, "Do all experts use the Gerber convention as well as Blackwood?"

We can't speak for all, but those experts we know do use it when it is obvious. (NEWSPAPER EDITORIAL ASSN.)

Montana State coach says team was 'lucky'

By United Press International
Montana State coach Sonny Lubick said his team was "lucky" to win the Big Sky Conference play. "We were lucky!"

The NCAA Division I-AA second round Bobcats, ranked 10th, three touchdowns in the fourth quarter. All by fallback Delmar Jones — to edge Weber State 31-14 and avoid an upset in Ogden, Utah.

But in Boise, defending Big Sky champion Boise State wasn't as lucky as they would like to think. The eighth-ranked Broncos were beaten 15-17 by underdog Montana. In other games for Big Sky teams — all in non-conference contests — Idaho State edged Northern Colorado 9-7, ninth-ranked Northern Arizona blanked Cal Poly-Fomosa 31-3, and Idaho State blanked Nevada-Las Vegas 31-0.

Lubick said, "I feel that game and then we won it. Then we nearly lost it again. We were just beating ourselves. Then we seemed to come alive in the fourth quarter. But we got some breaks too."

Jones, fifth nationally in Division I-AA in rushing going into the game, finally broke away for his three touchdowns in the final 14 minutes to power the Bobcats to their fifth consecutive victory.

Jones got the Bobcats on the scoreboard with just 12:30 left in the game when he broke through the Wildcat line for a 7-yard touchdown run following a fumble recovery.

Then a pair of short punts by Weber State set up Jones' next two 12 runs of two and 17 yards. Jones gained only 46 yards in the first three quarters on 14 rushing attempts. He added 32 in the final 15 minutes to erase the Wildcat's early two touchdown lead.

Montana spotted Boise State the first score — Hoskin Rogan's 26-yard 1d pass in Cecil Minter. But the Grizzlies then scored two touchdowns, on Tim Kerr's 5-yard pass to Al Green and Doug Egbert's 2-yard run.

And the Grizzlies ended the scoring with Paul Allegretti's 33-yard field goal.

The only bright spot for BSU was Minter's rushing. He had 151 yards in the game to give him a Bronco career record of 1,688 yards.

Utah State Aggies giving WAC a lesson

By United Press International
Utah State has finally come up with a method for impressing the Western Athletic Conference members. The Aggies' several wins in Utah State expressed a desire to join the WAC. But the league, which already includes two other Utah universities, wasn't interested in the Aggies.

This season, Utah State left the Independent Athletic Association but retained several WAC teams on its schedule. All the Aggies have done is beat up three of the better teams in the WAC except in a sparkling 14-0 over Nevada.

Defending WAC champion Brigham

Young became Utah State's latest victim Saturday, 24-17. The Aggies earlier had beaten Colorado State and Idaho State in the latter counting as a league game for Utah State in the PCAA.

In WAC games Saturday, New Mexico kept alive its title hopes with an impressive come-from-behind 19-15 win over Wyoming and Colorado State broke a four-game losing streak with a 35-29 win over the University of Texas El Paso. In non-league games, Utah continued its remarkable comeback from obscurity with a 13-9 win over Iowa and San Diego State retained its mastery of Fresno State with a 31-14 win.
