## Gooding makes plans to hire hospital chief

GOODING — Plans are under way to hire a new administrator sometime next week for Gooding County Memorial Hospital.

"We need a strong professional who can administer both the business and medical ends of the hospital." Mod Spackman, newly selected hospital board chairman, said Friday.

"We're looking for someone qualified to handle the Immediate-problems of the hospital luftly we thoard. The problems of the hospital luftly we thoard we're looking at selecting a new administrator next week."

Spackman was named chairman-late Thursday during week."

Spackman was named chairman-late Thursday during the group's first meeting since resignations of three board members were accepted by Gooding County Commissioners Monday.

Spackman, John LeMoyne and Martion Klingter were appointed to replace James Molchan, Merie Owsley and Juan Menchaca, who resigned in a dispute with commissioners over-emergency room operation-and financial management. Gooding Memorial Administrator Frances Whorton resigned in the same disagreement.

Former board chairman John Varin and board member Darwin Yoder also submitted resignations, but were talked into remaining by the commissioners.

'I think some of the problems' experienced by the hospital board earlier happened because communication

between the briant and county commissioners was gotting stale and had broken down." Spackman said. "Right now, there, some i.o-be\_nothing\_but\_ocoperation—and—a conviction that the hospital will remain open." Gooding Memorial, which has operated on its own income since a tax key was abandoned in 1977, had record low occupancy rates this summer.

"What we must do is meet the changing trends in hospital care that have affected us so much. Spackman said. "The medical environment has simply changed the status of our problem is due to a rapid increase in government regulations, combined with the growing complexity of medical care in general." Part of this changing situation is the increasing need for specialists, which has increased the number of referrals away from Gooding Memorial." Spackman continued. "The result of all this is depressed revenue and rapidly increasing costs of höspital operation." Spackman said the hospital board will give serious consideration to several management firm proposals to

## Reagan blasts Carter 'leaks'

Ronald Reagan said Friday Presi-dent Carter's decision to keep a top aide from testifying before Congress on a new radar-defying aircraft shows the president puls—lis—re-election campaign above national interests.

Reagan made the accusation in a statement released aboard his airplane en route to Lynchburg, Va., for a speech at Liberiy Baptist College.

## Anti-semitism on the rise in Europe again

DERUSALEM—Evidence of a neo-Nazi and anti-Semitic revival in Western Europe on the political left as well as the right is causing grave concern among Jewish experts who seek to prevent the seeds of hatred from sprouting into another genecidal Holocaust.

This concern was fed by the currentwave of herrorist attacks on Jewish hattellulors. In France and Belgium-Hattellulors. In France and Belgium-Hattellulors and syring schools, kindergartens leid in the six million Jews who perished during Nazi Germany's Woolf War 11 bloodletting. They came from Samuel Roth, director of the London-based institute of Jewish Affairs.

The examples included the so-called "revisionist historians," centered in the U.S., who attempt to use academic data to prove that the Holocaust is no-more-than-a-hoax-perpetrated-for-political or economic motives by the Jews themselves.

Next year, Roth said, a "revisionist low" of the major European death, camps, including such infamous places as Danchau and Auschwitz, will-take place in a bid to prove that they are not what the Holocaust survivors are not what the H

## The *Times-News* Did Not Report This But In Twin Fall's On September 19 Idaho's Senator Jim McClure Spoke Out.

## Excerpts from Senator McClure's speech:

I made a special note on my calendar when I knew of this event tonight to be here tonight to be with my friends in Magic Valley.

I'm particularly pleased to be with Steve Symms. Steve took my seat in the House when I moved over to the Senate. I've known Steve and his family and I know the people that live down on the Sunnyslope region. I know that they're among the most honest and hard working people in the State

And there isn't anyone who knows you better than your neighbors.

Steve has the support of his neighbors. The Symms family has the respect and the admiration and the love of the people they live and work with. There isn't anything that can be said better about people in a rural community than that their own people like them.

I've been involved much more in this Senate race than some people thought I would. I'm not here tonight to say anything against Frank Church. But I am here to say that he has been wrong. I'm not going to talk about him, personally, because he, personally, is not the issue. The issue is, what is done for this country and what has been done that is right and is wrong.

Are we a stronger nation today, militarily-or-economically, or-morally, because of his service? Or do we find ourselves before the world today with less respect than ever before in history. We have never had the same disrespect shown to Americans and the American flag as we have today. Never.

And some of the policies that have been forged in the Congress of the United States and some that were spoken out loudly for by my colleague in the Senate (Frank Church), have helped contribute to that lack of respect.

We are not as strong a nation as we should have been. Our milltary defenses are down not because of evil intentions, but because of the bad judgment of the people who have voted to weaken our military posture before the world.

It's a marvelous thing..... what happens at the time of election when people who are in office and are running for re-election begin to feel the heat of the electorate at home saying you were wrong. We should have had a B-1 bomber, even George McGovern is for a bomber now

But the issue isn't the George McGoverns and Frank Churchs or the Birch Bayhs or the John Culvers, the issue is: can the United States regain the strength and respect that is necessary to make us secure? We can. We can when we elect men and women to office from the presidency to the court house who want us to be strong, who respect ourselves enough to demand respect of others, who live and work and speak honestly and courageously so that we earn that respect at home and abroad-

That requires people of judgment. People who are right about the kind of world that we live in.

- . Why was it that we ran into trouble in Iran? Because we didn't know what was going on
- Why was it we misjudged the situation in Nicaragua? Because our intelligence eyes had been blinded.
- Why is it there is so much going on in the world today about which we know so little? Because we have cut off our means of access to the knowledge of what's going on in other countries around the world - largely as the result of investigations of the intelligence community in the United States led by our own Senior Senator, Frank Church: Not because he was evil, but because he was wrong.

You will remember just a little over a year ago when suddenly we found a Russian brigade in Cuba? And it was intolerable:

Well, just last week, we had a group of treaties before the Senate of the United States that had been reported by the Foreign Relations Committee. One of those treaties happened to be with the nation of Cuba. One Senator said, "let's vote on that one separately:" Senator Helms offered an amendment that said, "this treaty will not go into full force and effect until the Russian brigade is out of Cuba." And there was a motion made then to substitute another one - in other words, to nullify the intention of the Helms

That substitute amendment would pull the teeth and make meaningless the restriction that Sen. Helms was offering. And when the motion was made to table the substitute amendment, so it would be brushed aside and we could vote on the Helms amendment, my senior colleague, Frank Church, voted against tabling it because he wanted it adopted to nullify (kill) the effort to say, "we will not do this kind of diplomatic relations with a nation that exports revolution around the world and supports the efforts of the Soviet Union to dominate the continent of Africa.

I say that tonight because I don't think you'll read about it in any of Frank Church's newsletters. And yet I thought you might like to know whether that intolerable Russian brigade is still intolerable, whether or not we have come to a point where we're going to brush aside what Cuba is doing around the rest of the world to make our world less secure.

> Many Idahoans have contributed to Steve Symms' campaign to pay for this message. They feel you should have an opportunity to study Senator McClure's unreported statement. And judge for yourself.

## New popularity for d-fashion warmth

By BONNIE BAIRD JONES

TWIN FALLS — Some of the old-fashioned practices that kept frontier families warm in their homestead housing may be coming back in fash-

ion.

Dr. Patricia Tripple of the University of Nevada School of Home Economics and families living in the homes of the 1800s and early 1900s had to conserve energy and find ways of keeping warm because of less efficient heating systems.

Tripple addressed Idaho homemak-ers Friday during the annual conven-tion of the Idaho Home Economics Association convention at the Lit-iletree Inn.

She said the return of the foolstool is an energy saving move.

an energy saving move.

"if by keeping the feet elevated on the footstool, the individual escapes the footstool, the individual escapes the footstool, the shawl that grandmother or great-grandmother wore had a worthwhile use. If kept the shoulders and back warm and was usually made of wool, the best insulator against cold.

cold.

She said there were a number of other lessbis to be learned from a few decades back. Ankle warniers and the elaphoer sock, especially those with leather soles, keep the feet warn, even when the thermostal is turned down to the energy saving levels.

own to the energy saving levels.

"Other augustions in the address on
"Energy Behavior in the Home" included placing a throw rup over the
bottom of-every-door-leading-to-theoutside and the use of a central
chimney instead of one on an outside
wall. She said the heat going into the
chimney with the smoke gives off heat
in the area around it.

Tripple said home design also may change to meet the energy conservaon needs. A large central room there all of the family activities can e.carried on will save heating over be carried on will save healing costs, she said. She said not only can everyone use the same lights and heat, but body heat will help keep the room comfortable.

"Our conspicuous consumption needs to be replaced by conspicuous conservation. We now have about 4 billion-people in-the-world and by-the-year 2000 there will be 6 billion, all consuming energy. We have its conservation of the conservation of the growing population."

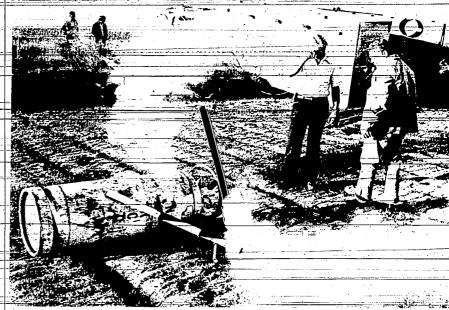

growing population."

The speaker also listed a number of energy saving innovations in the new designs of household appliances.

Another speaker at the convention, Carl P. Bergstrom, director of the Center for Treatment of Addictive Diseases in Gooding, told the home economists about 60 percent, of those commists about 60 percent, of those commists about 60 percent, of those coming to the center make a good recovery from alcoholism, but he said those who recover usually continue in some social contact forganization such as Alcoholics Anonymous or work with Alanon, the organization adding families of alcoholics.

## Bruins revel in 21-6 homecoming romp

By LARRY HOVEY

TWIN FALLS — Twin-Falls' Bruins, 453 the past four years, thumped idaho Falls 21-6 Friday night and moved to within a victory of gaining the state playoffs.

The game was not as close as the scored indicated as Twin Falls owned the ball all night and, indeed, used up the most time with a l8-play drive that didn't produce a score.

But it was the offense that domi-nated the night as Idaho Falls was

unable to contain the running attack. The Bruins pited up 347 yards in total offense, all but 110 of those yards on the ground.

And it was senior Bob McMillan that made it work best as he rushed for a pair of touchdowns and 117 yards. He was abetted by junior Larry Hurt who picked up 84 more. In other words, the Bruin defense seldom was on the field.

"I'm starting to believe in these

on the field.
"I'm starting to believe in these kids, that they can sustain a drive and, we no longer have to be a team that relies on the big. play," Coach. Bill Jones said afterward, indicating the offensive line improvement has been

most marked and gratifying.

But, "Be added with a simile," I'm not so sure that our offense wasn't our best defense tonight. It (dun't seem like idaho Falls had the ball six plays in the second half."

Coach Bill Ingram was asked if he was pheased with the offensive showing.

"You're damned right," he beamed.

The victory, equalling the total of the past four years, leaves Twin Falls a winover Nampa away from going to the state playoffs. The Buildogs come to Twin Falls Nov. 10 for the season finale.

## Briefly in sports

#### Taylor reactivated by Giants

EAST RITHERFORD, N.J. (UPI) — Billy Taylor, who led the New York Glants in rushing last season but injured his knee in the final preseason game this year, Friday was reactivated from the injured reserve just to the property of the propert

## Top seeds advance in Madrid tennis

MARID-(UPI)—The top- four-seeds of the 4125,000 Madrid Openman Championships advanced to the semifinals in straight sets 
Friday, led by Argentinian Guillermo Vilas.
Despite the lack of surprise in the outcome of the quarterfinals, the 
play was the best so far on the courts of the exclusive Club de Campo. 
The high point of the round was the first set of the match between 
second-seeded Ivan Lendl of Czechoslovakia and fifth-seeded Balasz 
Taroczy of Hungary.
Lend, playing a confident game with hardly any errors, met strong 
resistance from Taroczy until the Hungarian lost the first set 7-6 in the 
tile break. Lendl swept the second-set 6-1. 
The top-seeded Vilas outleassed Bolivian Mario Martinez, 6-1, 6-1, 
giving the sixth seed no rest. 
In the other two quarterfinal matches; third-seeded Jose Luis Clerc 
of Argentina defeated unseeded Ross Case of Australia and fourthseeded Hans Gildemeister of Chile beat eighth-seeded Andres Gomez 
- Vilas will meet Gildemeister and Lendl-will-face Clerc-in-foday'ssemifinals.

## Sayers honored by Camp Foundation

NEW HAVEN, Conn. (191)— The Walter Camp Football Flounda-tion Friday named former Chicago Bears running back Gale Sayers as its man of the year.

The foundation honored Sayers for his "tremendous achievements on the football field" and "his contributions to his community, his country and his fellow person."

Sayers, now director of athletics at Southern illinois, will be honored at the foundation's annual banquet Feb. 7 in New Haven along with George "Pan Bear" "Italas, the owner of the Chicago Febris.

Halas was named earlier to receive the foundation's distinguished-American.named

American award.
Sayers was the NFL rookie of the year in 1965 when he set an NFL sayers was the NFL sayers. record by scoring 22 season touchdowns. The five time NFL AIFPro was the youngest person to be inducted into the pro Football Hall of Fame in 1977 at the age of 34.

#### Coach discounts NAU's mark over ISU

FLAGSTAFF, Ariz. (IIPI) — Coach Dwain Painter figures Northern Arizona's historical edge over Idadio State will have very little to do with the outcome of tonight's Big Sky Coalierence contest. NAU holds a 10-61 advantage over the Bengals for the entire series und have more commanding 61 edge in Dig Sky play, all of which does not overly impress Painter. not overly impress Painter.

"A lot of things are more important in deciding whether you win or se," Painter, said when asked to comment about the NAU

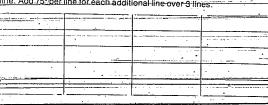

While NAU has been beset by injuries—losing-II-players-who-started in the opening game victory over Texas A & 1 — Painter still feels the Lumber jacks are a good team despite a three-game losing streak.

"ill's like I told our players — We're in control of our own destiny,"
Painter said: "If we win the rest of our games we will be the
conference champions.
Idaho State has had its own problems recently, ending an 18-game
losing streak just last week by outscoring Portland State 59-33.
Painter expects an aerial circus from the Bengals, a team that has
passed 155 times and rushed only 68 times in compiling a 1-2 mark this
