U.S. will block oil shipments from Iraq

The Associated Press

WASHINGTON — The United States, citing the legal authority of United Nations sanctions, will stop oil shipments from leaving Iraq and block food and other supplies from entering the country, the government said Sunday.

Asked during a golf outing in Maine whether the embargo would include food, President Bush replied: "Just watch. Everything."

Questioned later on whether a blockade would be considered an act of war, the president said, "I consider interdiction of shipping to be in accord with the Chapter VII action taken by the United Nations. No point getting into all these semantics."

"The main thing," said Bush, "is to stop the oil from coming out of there and that is what we're going to do."

Asked Sunday by both the Secretary of State, James A. Baker III, and White House spokesman Martin Fitzwater, he underscored the extent of the U.S. determination to squeeze Iraq economically.

"The United States will do whatever is necessary" to enforce the sanctions, Fitzwater said in a written statement issued on behalf of the president.

Although neither Fitzwater nor Baker would be specific about any U.S. action, the secretary of state said the U.S. response would begin "almost immediately."

Kuwait's government has asked the world community to enforce the U.N. sanc-

More on crisis - A2, 10

tions and Baker said that gave the United States legal authority to halt any Iraqi oil exports.

Baker was asked by reporters later whether the United States was considering blocking shipments of goods other than oil to Iraq.

"The request that's been received from the legitimate government of Kuwait is that we, we and the other countries, countries that support the U.N. resolution, do what we can to implement these U.N. sanctions," said Baker. "Now those sanctions go beyond just oil."

On the CBS television show "Face the Nation," national security adviser Gen. Brent Scowcroft was asked about the prospect of sanctions eventually resulting in "starving people in Kuwait."

"Well, we'll deal with that when we get to that point," said Scowcroft.

"The president has decided that the United States will do whatever is necessary to enforce that relevant UN sanctions are enforced," Fitzwater said from Kennebunkport, Me., where Bush is vacationing.

"The United States will coordinate its efforts with the governments of other nations to whom the Kuwaiti government has made similar requests."

Baker characterized the contemplated action as an "interdiction" rather than a

Demonstrators in Mafraq, Jordan, rally in favor of Iraq's Saddam Hussein. They also burnt the British flag and posters of Egypt's Hosni Mubarak.

blockade, which is "diplomatic parlance" could be considered an act of war.

Baker, who spoke on the ABC television program "This Week With David Brinkley," said Iraq now has "a significant presence" in southern Kuwait consisting of

about 120,000 troops in nine divisions.

"There's not much to prevent him, if he should decide to do so, from launching offensive operations from there," Baker said.

Insurance sours sugar plant talks

Dispute pits company's record sales against workers' free benefits

By Phil Sahin
Times-News writer

TWIN FALLS — Amalgamated Sugar Co.'s insistence that workers start paying for part of their health insurance follows a year of record sales for the company.

But it also points to something that sets the company's employees apart from many others in the labor force: They pay nothing toward their company health insurance plan.

Health insurance is negotiated into Amalgamated workers' contracts as part of the wage and benefits package. But no money is deducted from workers' pay checks for insurance coverage.

This year, however, in contract talks, the company has held fast in tying workers' raises to health insurance costs, which increased 29 percent last year alone, an Amalgamated spokesman said.

Amalgamated employee insurance includes a \$100 deductible for individuals and \$300 for families. The insurance pays 80 percent of costs up to \$1,300 and 100 percent above that.

Not paying a health insurance premium punts Amalgamated workers in a small minority in today's labor force, an employee in the Idaho Insurance Commission Office said. The employee, Jim

MOSE GALLAGHER/This Times-News
Not paying an insurance premium punts Amalgamated workers in a small minority in today's labor force.

Genetti, estimated that fewer than 5 percent of employers today don't make workers pay part of the cost.

"The trend today is for putting more responsibility on the insured (workers)," Genetti said.

Usually this comes in "payroll" deductions or health insurance deductibles. The reasoning behind this is simple. Employees are less likely to make unnecessary trips to the doctor if the money comes out of their pockets, he said.

The average cost of a group health plan increased 25 percent nationwide last year, Genetti said.

A senior vice president of Blue Cross of Idaho agreed that the trend is far more responsible to pay more toward health insurance, but he said negotiated contracts traditionally have included insurance as part of the total wage package, meaning those workers have not had money taken from

Study: Kids who kill numbers to rise

The Associated Press

BOSTON — Poverty, drugs, child abuse and the widespread availability of guns is pushing up the number of teen-agers who are likely to kill, a forensic psychologist warned Sunday.

"We're about to see an epidemic of juvenile violence, such as Americans have never before witnessed," said Charles Patrick Ewing, who has written a book on the topic called "Kids Who Kill."

"In the past five years, juvenile homicide has increased five times faster than homicides committed by adults," Ewing said.

"And it's not just murder. Murder is just the awful tip of the iceberg," he said at a news conference sponsored by the University of Buffalo at the American Psychological Association's annual meeting here.

After falling sharply between 1982 and 1984, the number of juveniles arrested for murder and non-negligent homicide began a steady rise in 1985, according to figures supplied to Ewing by the Federal Bureau of Investigation.

In 1989, 2,208 juveniles nationwide were arrested on charges of murder or non-negligent manslaughter, 25 percent more than the year before, Ewing said.

In his study of 225 juvenile killers over the past ten years, Ewing found that more than half the killers come from poor back-

grounds, the majority used guns in committing their crime and 25 percent had drugs in their system at the time of the killing.

But Ewing believes that child abuse is most closely linked to later killing by teenagers.

"Kids learn to be violent and they learn from their role models, especially their parents," he said. "And kids who are especially brutalized by their parents learn to be the most brutal, the mostly likely to kill others."

Child abuse may result in the sort of brain damage that hurls the child's ability to deal with frustration and is associated with violence, Ewing said.

On A-bomb anniversary, Japan faces WWII ghosts

Chicago Tribune

NAGASAKI — Japan — Hiroshima — and Nagasaki: For millions of Japanese the two cities have been symbolic repositories of the nation's wartime suffering and justification for Japan to view itself as a victim of World War II rather than an aggressor.

But as the cities lie in the world ever attacked with atomic weapons observed the 45th anniversary of their destruction last week, a survivor of the bombing stood up at the ceremony in Hiroshima and apologized for crimes Japan committed during the war.

"As a Japanese, I deeply apologize for these crimes," Shigetoshi Iwamatsu, 62, now a professor at Nagasaki University, told foreign delegates in the first-ever apology

Crews' reaction - A5

during ceremonies commemorating the nuclear holocausts.

"Unless the Japanese people thoroughly criticize themselves for crimes they committed in their aggressor-against-other-countries in Asia, such anti-war movements in Hiroshima and Nagasaki will ring hollow to others."

As the world noted the events of Aug. 6 and Aug. 9, 1945, when American B-29s dropped the bombs nicknamed "Little Boy" and "Fat Man," one on each city, Japanese seemed more intent than ever in exercising the long suppressed ghosts of their nation's

militaristic past.

Newspapers and television stations ran self-flagellating accounts of atrocities committed by Imperial Japanese Army soldiers in China, Southeast Asia and Korea. Tearful veterans recalled bayoneting of women and children in Nanking, China, and the cruel treatment of American and British prisoners of war in places like Burma, Singapore and the Philippines.

Letters to the editor columns were filled with commentaries urging the nation to be more honest about its aggression in the 1930s and 1940s.

A Japanese publishing company announced last week that it would publish for the first time ever the memoirs and notes of wartime Prime Minister Hideki Tojo-Tojo

was hanged by American occupation forces in 1948 after he was found guilty of war crimes.

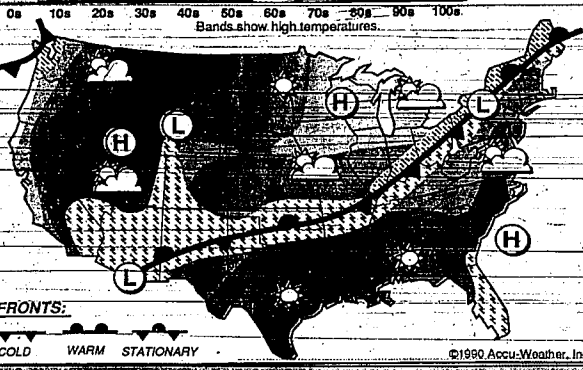

The Japanese government last week released heretofore secret documents listing the names of almost 80,000 Koreans forcibly brought to Japan as slave laborers during the war. Some 20,000 of those Koreans, forced to work in defense plants, died in the Hiroshima atomic attack.

For foreigners and Japanese who have watched modern Japan wrestle clumsily with events in the first half of this century, the gush of guilt has been a remarkable event. Unlike Germany, Japan's wartime iniquities have gone largely unpunished. There have been no Simon Wiesenthal to hunt down Japanese war criminals.

Council looks at WPPSS restart, protesters demand if stay away

SATSOP, Wash. (AP) — ing by the state Senate Energy and Utilities Committee in Prosser. "The ing ground this weekend, gathering outside an unfinished nuclear power plant to demand it stay that way. At the same time Saturday, energy planners told a legislative committee it's time to look at whether the Washington Public Power Supply System plant near Satsop and a sister generator at the Hanford nuclear reservation might fit into the region's energy needs. "We're thinking it might be useful to get sooner, rather than later," Northwest Power Planning Council Chairman Tom Trulove told a hearing by the state Senate Energy and Utilities Committee in Prosser. "The system needs to begin addressing the issues surrounding these plants, so that if we do need that resource, we'll be able to move ahead quickly." Across the Cascades, the rally at Satsop, near Olympia, was the first at the site in 12 years. It included environmentalists, public utility commissioners from Washington and Oregon, and alternative energy advocates. "Pull the plug, plug the plug," people shouted as a devil-masked actor portraying a nuclear-power executive was tossed into a replica of a cooling tower during a skit before speakers took the stage. "The environmental group Greenpeace organized the gathering because of the talk of reviving the plants. At a similar rally in 1978 sponsored by the now-disbanded Crabbshell Alliance, about 300 people were arrested. "We'd be crawling back out of the woodwork if they started the Satsop plant," said former Crabbshell Alliance member Steve Luark. "Most of the county and local businesses don't want it."

Washington group blasts pork barrel project

KELLOGG (AP) — While the Silver Mountain gondola has been hailed as a miracle destined to revive the Kellogg economy, a watchdog group calls it another example of useless spending. The organization, co-chaired by news columnist Jack Anderson, is currently working on compiling the names of legislators who have sponsored bills with a lobbying Congress to reduce the federal budget. D.C., did not label the whole project worthless, just the \$64-million federal grant that helped make it possible. "It basically benefits private interests with public money," said Tom Schatz, senior vice president for the organization. "It certainly does not have any national benefits." The gondola grant was one of about 360 examples the citizens group cited in the past year as government largesse. The organization, co-chaired by news columnist Jack Anderson, is currently working on compiling the names of legislators who have sponsored bills with a lobbying Congress to reduce the federal budget. allow more quality time," Kilmer said.
Murphy added that the longer classes will allow for a complete teaching cycle, and should allow for more time in class while the teacher is available to help.
"With this system," we'll also have a greater variety of classes than has ever been offered in the history of our school," Murphy said.
He said it will also allow teachers to split classes into different ability levels.
The extended curriculum will include new classes, such as World Affairs, and will allow some vocational classes to be offered at the junior high level.
Under the new schedule, certain core classes, such as beginning typing, algebra and foreign language classes, will meet every day.
Murphy says that 83 percent of the students are in favor of the new schedule. The school has some questions and doubts and "the other kids could care less."
"The teachers like it because they will be teaching fewer prep days," something Murphy said is a major cause of teacher burn-out in small schools.
Kilmer said his previous experience with the roll-over day in an Oregon school shows that the overall effect is a good one.
"We found out that the good teachers got better, because they had more time, and that the poor teachers had to change," Kilmer said. The students did better because their day was not so chaotic. "They could spend some in-depth time in class."
He said the School Board is very happy with the quality of its teachers, but "we think this (schedule) will be one more plus."
"We have good teachers here, so this schedule will work," he continued.

Deficit

Continued from A3
Stallings said Chief of Staff John Sununu is whispering veto behind Bush's back.
Meanwhile, with the president and Democratic-controlled Congress still unable to agree on how to reduce the budget deficit, The Associated Press reported Friday that the Bush administration has ordered federal agencies to spell out how they plan to cut spending by 31.9 percent.
Under a worst-case scenario, most departments would have to reduce spending by a total of \$104 billion during the budget year that begins Oct. 1. Those cuts, known in Washington jargon as "sequestration," would take effect Oct. 15 unless Congress and President Bush agree on a package of tax increases and targeted spending reductions.
Budget negotiations have been suspended until early next month. "Part of this is a dance to buy some time for the public to realize who dire the situation is," Stallings said.

Fossils

Continued from A3
The variations between time levels also show how species respond to changes in environment.
McDonald heard of the Hagerman fossil beds while he was in high school in California. It sharpened his interest in paleontology — the study of fossils.
During summers while he worked on his undergraduate degree at Idaho State University he helped survey bogs, collect and identify fossils.
"Most other sites show only one slice of time and are limited in geological extent."
The horse fossil deposit — known as the Horse Quarry — includes specimens ranging from young colts to stallions so that it is possible to do a population study. The fossil record can be compared to modern counterparts to present a more complete picture of the ancient horse.
"It's very rare you can do that with fossils," he said.
Other species found at the site help illustrate the conditions of the time. Though large bones are easier to find and preserve, the smaller animals fit in important details about climate and conditions.
The paleontologists seem eager to share their knowledge with the public. They hope to create a research site that also will provide first-hand knowledge of paleontology for visitors.
"They're going to go away with a better understanding of the bigger picture," McDonald said.

Shoshone

Continued from A3
she said. While Richfield has a library-taxing district and a small part-time library, many residents of Richfield also use the Shoshone library, she added.
"Our city library is well funded and very well supported. We appreciate all the county residents who use the library and I'm pleased we won't have to charge people who live out of the city," she said.
When Hamilton became librarian in 1988, the library was charging a \$7.50 library fee. Because of the county support had dropped from \$2,500 to just \$500 when federal revenue-sharing funds were ended. She said the county increased its support to \$1,000 in Oct. 1988 and she was able to drop the fee.
Increasing operating costs, increasing size and continuing efforts to maintain and upgrade the library's collection all add to the need for a larger budget.
"People (both city and county residents) expect us to provide the service and we want to do the best job possible," Hamilton said.
Hamilton said she will look at the procedure for forming a library taxing district. But she said she fears the amount of money needed to get started would be so large a tax levy would not be well received by county residents.
She pointed out that Richfield residents already have a library tax district.

Firefighters winning some battles, losing others

Times-News-Wire Services

Firefighters continue battling blazes in fires in Yosemite, Oregon and Idaho. Dozens of lightning-triggered wildfires Sunday devoured thousands of more acres of forest land across California and in Yosemite National Park, where firefighters lost ground to two blazes at the western edge of the park. Officials announced the park would remain closed at least until mid-week.

The largest of three fires in the park threatened a campground, gas station and general store at Crane Flat, near Arch Rock, fire officials said. The Arch Rock fire, which already has destroyed 66 structures in the village of Foresta and claimed timberlands valued at \$7.2 million, jumped to the adjacent Stanislaus National Forest and charred 3,000 acres of old-growth spotted owl habitat. Meanwhile, an estimated 20,000 firefighters battled hundreds of other fires in six western states, which already had burned more than 856,000 acres by Sunday afternoon, said Reed Jarvis, a spokesman for the National Fire Information Center in Boise, Idaho.

Bridger-Teton National Forest officials on Sunday put in requests for 40 additional firefighters to combat the blaze. "I know it seems like a lot of people, but the decision has been

made to keep the fire as small as possible," said forest spokesman Fred Kingwill. "There are lots of steep terrain in the area. It's an extremely popular recreation area and has a big timber base of great economic value to the Afton community."

About 75 acres were burning Saturday in the heavily wooded steep terrain of the Grey's-River drainage, about nine miles southeast of Alpine and 30 miles northeast of Afton.

Firefighters appeared to be winning the battle Sunday against five major groups of lightning-caused fires that have burned across 119,420 acres of remote Eastern-Oregon-forest-and-range land.

No structures were imminently threatened and no major injuries were reported.

"A lot of the credit for the success has to go to the firefighting resources and the good work of a lot of hard-working people," said Jim Forest Service spokesman U.S. Forest Service spokesman Jim Guest, working out of the Burns Area Command. "We've had a tremendous cooperation of local agencies."

A total of 6,059 people were fighting the fires Sunday, with an additional 1,000 regular Army troops from Fort Lewis, Wash., expected to arrive shortly, Guest said.

Atomic entrepreneurs making cash off history

SALT LAKE CITY (AP) — The pilot, navigator and bombardier of the plane that dropped the atomic bomb on Hiroshima say they have no reservations about making a buck off their place in history.

In recent months, they've been hawking the country, flipping books, T-shirts, caps and coffee mugs commemorating the Aug. 6, 1945, bombing that claimed nearly 100,000 Japanese lives and hastened the end of World War II.

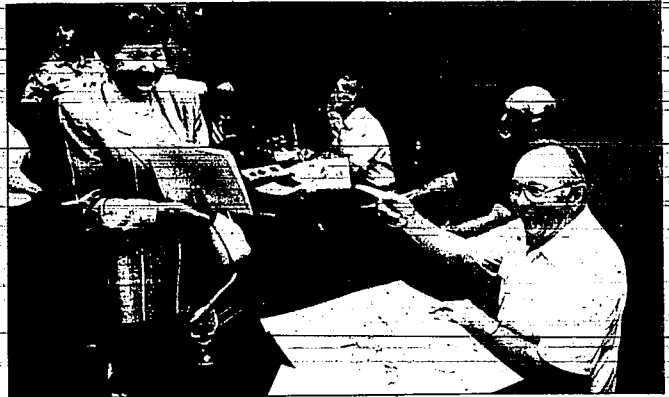

It's simple supply and demand, says 75-year-old retired Brig. Gen. Paul W. Tibbets Jr., the pilot of the bomber Enola Gay. He spent years speaking for free at Kiwanis and Rotary luncheons.

"None of these organizations that ask you to come and talk offer you any kind of compensation for doing it," he said. "It's unfortunately at the point they expect you to do it. You owe it to them."

"Well, I don't think I owe anybody a damn thing."

Seisuko Thurlow, founder and co-chairwoman of Hiroshima-Nagasaki Revisited, a non-profit, anti-nuclear group, finds that attitude appalling. She was 13 when she was buried in the rubble from the bomb, which killed her sister and niece.

"I think it is commercial exploitation of the hundreds of thousands of people who were killed," she said. "I do question their sense of morality. Whatever they did, you would think they would feel at least a part of the

Theodore 'Dutch' Van Kirk, navigator aboard the 'Enola Gay' when it dropped the first atomic bomb on Hiroshima, autographs a lithograph of the event for Betty Kavanagh of Salt Lake City, Utah.

But Tibbets said, "It's never dawned on me that I'm trying to capitalize on anybody's death. My reaction to that is, I tell them that they're wrong."

Last August, Tibbets hooked up with an agent, Clark St. John of Buck-

eye Aviation Publishing Co., which published his book "Flight of the Enola Gay."

They began touring shopping malls and air shows, and later persuaded Enola Gay navigator Theodore "Dutch" Van Kirk and bombardier St. John. "But I would say we're certainly in the black."

Barry may abandon affiliation with Democrats

WASHINGTON (AP) — Mayor Marion Barry is receiving conflicting advice on whether he should run for city council, but is planning nonetheless to drop his Democratic party affiliation as a first step, aides said Sunday.

Barry, convicted Friday of one cocaine possession charge and acquitted of another, plans to drop out of the Democratic Party and register as an independent on Monday, said top Barry aides who spoke only on condition of anonymity.

That would be Barry's first step toward reviving his political career with a campaign for an at-large seat on the District of Columbia's 13-member council, the aides said.

Monday is the deadline for switching parties. If Barry becomes an independent, he would then have to gather the signatures of 2,000 registered city voters before his name could be placed on the ballot. He would compete for two city-wide council seats with winners of the Republican, Democrat, and Statehood party primaries.

Winning a council seat would allow Barry to maximize his future city pension earnings and let him stay active in local politics, which he has dominated since he was first elected mayor in 1978.

"His life is politics, and he doesn't know anything else," one Barry adviser said. "If he stays clean, he can

contribute a lot. That's what he wants to do."

Barry announced in June that he would not seek a fourth term as mayor. He has 16 years of city government service and would be eligible for a full pension after 20 years. But Barry's supporters are deeply divided over whether the mayor should remain in politics, other sources said.

White some believe Barry has been exonerated and should resume his political career, others are wary of antagonizing U.S. District Judge Thomas Penfield Jackson or prosecutors.

Briefly

Senate contender uses S&L to help polls
DENVER — An underdog's primary election campaign in Colorado could mark the first time a politician has translated public anger over the savings and loan scandal into success at the polls.

In two months, Carlos Lucero, a political unknown, has ridden the S&L issue to come from 30 points behind front-runner Jose Heath and become a contender for the Democratic Senate nomination in Tuesday's primary, that pollsters now say, is too close to call.

Rare case of diphtheria worries officials
CLAYTON, Mo. — A rare case of diphtheria, diagnosed in an 18-year-old woman, prompted a warning this weekend by worried health officials.

Most children are immunized against the potentially lethal disease when they begin school, but they can outgrow the immunity, said Dr. Linda A. Fisher, chief medical examiner of St. Louis County.

She issued a warning Saturday, asking adults not to overlook the symptoms of diphtheria, which include sore throat, fever, cough and difficulty swallowing.

Senator helps grounded stewardesses
WASHINGTON — Fitness has little to do with fitness of flight attendants, says an Ohio senator who has taken up the cause of women grounded by American Airlines' weight policy.

The policy is "outdated and wrong," Democrat Howard Metzenbaum said in a letter urging the Texas-based carrier to scrap its weight standard. The senator said the standard appears to be biased against women — particularly older women.

Children of divorce risk more illness
WASHINGTON — Children of divorced or separated parents run a greater risk of becoming ill than those who grow up in intact families, a study concludes.

Researchers Jane Mendon of the University of California at Berkeley say children of divorce run a 35 percent risk of developing health problems over a three-year period. That compares with a 26 percent risk among all children.

Grady stays steady, wins PGA Championship

BIRMINGHAM, Ala. — Wayne Grady had been here before. Precisely 29 times. He was holding a second place. Again. Another majors golf championship was slipping through his hands, moving inexorably toward Fred Couples just as the sun began sliding toward the tops of the pine trees on a steamy summer afternoon at Shoal Creek. "I thought, 'Christ, I've been in the lead since Friday, and now I'm out of it,'" Grady said. "At that point, you're not going to go out and make four or five birdies. The course was just going to jump out and grab you. You had to play conservative golf."

Defending champion Payne Stewart, right, congratulates playing partner Wayne Grady after Grady won the PGA Championship in Birmingham, Ala. 12, scoring a birdie to go 7-under while Grady came through with a bogey to slip to 6-under. Boom Boom then fired blanks, missing four consecutive par putts from inside 6 feet. "It was a snowball effect," Couples said. "Boogy-Bogey-Boogy-Boogy. You play to do what I was doing. Then, with seven holes to go, I didn't do it. It was a quick stretch. The best I can say is I didn't make any of those, and it was the whole round." "Not quite. Grady had to negotiate the final, perilous holes, grinding out par after par and finally snafu after landing his 7-iron approach 25 feet from the pin at 18. "I wasn't going to let myself get too far ahead," Grady said. "For awhile, it was too easy to say, 'here we go again.' You never wish any other player harm, but he (Couples) made a few mistakes and I made good solid pars.

Stewart suffers meltdown

BIRMINGHAM, Ala. — Payne Stewart said he loves major championship heat on the final day. But he suffered a painful meltdown on Sunday that kept him from successfully defending his PGA Championship. Stewart failed miserably at Shoal Creek as he sought to become the first player since Denny Shute in 1937 to earn back-to-back PGA titles. "At least I broke 80," Stewart said, trying to find some humor in the situation. "I believed in my bones I was going to win. What a day. I'm glad it's over."

Cincinnati drops Giants further back in NL West

CINCINNATI - The Cincinnati Reds gave the San Francisco Giants another shove backwards Sunday, their predicted winner fell to their closest pursuer. A revamped Cincinnati lineup scored four first-inning runs off Scott Garretts and rolled to a 6-4 victory that pushed the Giants 3 1/2 games back in the National League West. Cincinnati leads 2-1 in the four-game series that ends today, but Reds manager Lou Piniella considered this series a foregone conclusion. "We're going to beat them tomorrow, OK? We're just going to go out and beat them," Piniella said. "Then, referring to the Giants' club motto, Piniella added, 'No hum baby, we're just going to beat them.' The Reds beat up on the Giants by taking advantage of early control problems by Garrettts (9-9), who made his first start in nine days.

Welch's 19th win extends A's mastery of Yankees

OAKLAND, Calif. — Finally, Bob Welch is ready to become a 20-game winner. Then again, all of Oakland's pitchers look that way when they face the New York Yankees. "When I had 10 wins, all I thought about was getting ready for the 11th," Welch said. "So now that I have 19, I guess it's time to worry about 20. Not worry about it, but just be prepared to go for it." Welch got his 19th victory Sunday as the Athletics beat New York 6-1 in the 11th game of a nine-game against the Yankees this year. Mark McGwire's three-run homer capped a four-run first inning as Oakland completed its third three-game sweep of the Yankees. The Athletics have outscored them 43-6. The Athletics have won 11 straight in two seasons against New York, and the teams have three games remaining at Yankee Stadium next month.

Oakland's Bob Welch can start worrying about his 20th win of the year.

Argentina focuses on U.S. team at world championships

Buenos Aires, Argentina — Mike Krzyzewski has ink on his Duke teams to some 100 jerseys that provide huge advance notice to the host city. When his U.S. team plays Argentina Monday night, he'll be going against a whole country, even a hemisphere. The United States opens the quarterfinal round of the World Championships tonight against the host country and Argentines everywhere are ready for the challenge. "It's much different than just 'Krazy' said Sunday when he was asked to estimate what his team will face here with when college teams encounter on the road. "For Argentina, this is a thing for the whole country, not just a university, and they are a very emotional, very proud people. It will create an atmosphere that will be the most unusual any of us will have ever had an experience with." It doesn't seem to matter that the game is the first of three for each country in the quarterfinal round. Argentina has its eyes set right now only on the United States. Monday, the top two teams from each group advance to Friday's semifinals. The other group opens play with Brazil against Yugoslavia and Greece meeting the Soviet Union. "It's a tough group for us in that each team poses a different problem," Krzyzewski said. "Australia is the biggest and strongest of all the teams and not the fastest and we haven't played teams like that and they have American college players on the team — Luc Longley, Andrew Vlahov and Andrew Gaze. They understand the American game and they won't be intimidated playing against Americans, in fact, there's a chance for them to prove themselves. "For Puerto Rico it's pretty much the same thing except they're not a physical team. They have kids from New York City and the Puerto Rico players are from New York and we've had trouble with them in the Goodwill Game and back-to-back. It's better because they've added four players."

Welch (19-4) is the top winner in the major leagues. His previous career-high for victories was 17, accomplished last two seasons with the Athletics.

Indians 9, Tigers 5
CLEVELAND (AP) — Tom Candiotti got his third career win against long-time nemesis Detroit and Alex Cole had three hits and two RBIs for Cleveland Sunday as the Indians beat the Tigers 9-5.

Red Sox 7, Mariners 2
SEATTLE (AP) — Marty Barrett hit a tiebreaking, two-run double in the ninth inning Sunday that sent the Boston-Red Sox past the Seattle Mariners 7-2.

Royals 7, Brewers 1
KANSAS CITY, Mo. (AP) — Tom Gordon, the only member of Kansas City's original five-man rotation to miss a start in 1990, pitched his second straight complete game Sunday as the Royals beat the Milwaukee Brewers 7-1.

Cardinals 6, Pirates 0
PITTSBURGH (AP) — Bob Tewksbury pitched a six-hitter and Todd Zeile homered and doubled as the St. Louis Cardinals got a season-high 17 hits and beat the stumping Pittsburgh Pirates 6-0 Sunday for a three-game sweep.

Expos 6, Phillies 3
MONTREAL (AP) — Dave Martinez homered twice and drove in a career-high five runs as the Montreal Expos beat the Philadelphia Phillies 6-3 Sunday and extended their winning streak to five games.

Cubs 10, Mets 2
NEW YORK (AP) — Rookie Mike Harkey gave up one run in eight innings and sparked Chicago's four-run second inning with a bases-loaded single as the Cubs routed the struggling New York Mets 10-2 Sunday.

Padres 9, Astros 0
HOUSTON (AP) — Derek Lilliquist pitched a four-hitter for his first major league complete game and the San Diego Padres put the finishing touches on the best road trip in club history Sunday, beating the Houston Astros 9-0.

Twins 5, Blue Jays 4
TORONTO (AP) — Allan Anderson wanted to give up some hits. Against Toronto, he almost gave up too many.

Blue Jays got 10 off the Minnesota starter, but Anderson held on for his third complete game in the Twins' 5-4 victory.

For most of the season it seemed I didn't give our guys a chance to make the plays behind me, said Anderson. Today I got them to put a lot of balls in play and let the defense do its job.

The Padres scored in only two of the 27 innings of the series.

Padres 9, Astros 0
HOUSTON (AP) — Derek Lilliquist pitched a four-hitter for his first major league complete game and the San Diego Padres put the finishing touches on the best road trip in club history Sunday, beating the Houston Astros 9-0.

The Padres won 9-2 on the swing, easily surpassing the previous best trip of 8-5 in April 1989. San Diego won nine games on a road trip in August 1972, but lost seven times.

The Padres have won four straight games and 16 of their last 21.

Cardinals 6, Pirates 0
PITTSBURGH (AP) — Bob Tewksbury pitched a six-hitter and Todd Zeile homered and doubled as the St. Louis Cardinals got a season-high 17 hits and beat the stumping Pittsburgh Pirates 6-0 Sunday for a three-game sweep.

Tewksbury (7-3) extended his shutout streak against Pittsburgh to 17 2/3 innings as the Pirates lost their fifth in a row while being swept at home for the first time since August 1972, but lost seven times.

The Padres have won four straight games and 16 of their last 21.

Cardinals 6, Pirates 0
PITTSBURGH (AP) — Bob Tewksbury pitched a six-hitter and Todd Zeile homered and doubled as the St. Louis Cardinals got a season-high 17 hits and beat the stumping Pittsburgh Pirates 6-0 Sunday for a three-game sweep.

NL

Continued from A6
Sunday to lead the Los Angeles Dodgers over the Atlanta Braves 7-3.

The Braves have lost nine of their last 11 games and 17 of their last 21. The Dodgers have won four of their last five games, have won six of their last seven against Atlanta.

Expos 6, Phillies 3
MONTREAL (AP) — Dave Martinez homered twice and drove in a career-high five runs as the Montreal Expos beat the Philadelphia Phillies 6-3 Sunday and extended their winning streak to five games.

Chris Nabholz, a 23-year-old left-hander recalled "from the minor leagues on Saturday, won his first major-league game as Montreal's Philadelphia to its fifth consecutive loss and 10th defeat in 14 games. He combined with Tim Burke of a three-hitter.

Frank Viola (15-7) was hit hard for the second straight appearance, giving up seven runs and 10 hits in the first three innings. He lost four of his last six decisions and has allowed 18 hits and 13 runs in his last two starts.

New York, which has lost six of its last nine, remained one-half game ahead of second-place Pittsburgh, which lost its third straight to St. Louis. The Cubs have won 19 of their last 26, including two of three from the Mets over the weekend.

Padres 9, Astros 0

Opinion

U.S. better crank energy efficiency into high gear

Saddam Hussein is not the only villain in the tragic crisis under way in the Persian Gulf. Eight years of conspicuous policy neglect have led to steady increases in U.S. oil import dependence during the late '80s, helping to increase dramatically Iraq's influence over our oil supplies.

In the short run, the world has already lost more than 4 million barrels per day, or 15 percent of the oil traded on the world market. Given the military buildup in the Persian Gulf, it is unlikely that Saudi Arabia or any other country can soon make up for this loss.

An open-ended period of extreme political and military instability has now begun in the heart of the world's energy economy. Even the capitulation of Hussein or the withdrawal of all U.S. forces cannot eliminate the dangers now facing the world.

When Iraqi tanks entered Kuwait, Saddam Hussein initiated the most profound change in the world oil market since the discovery of a few hours, he raised his share of world oil reserves from 10 percent to nearly 20 percent.

The long-term situation is even more ominous. Oil demand has been increasing by more than 2 percent annually since 1985.

This is a crisis that has been brewing for years, and the United States has largely itself to blame. U.S. imports have increased by 3 billion barrels per day in the past six years.

How has such a potentially explosive situation crept up on political leaders as unexpectedly as Hussein's tanks? The sad answer is that the Western world's energy policy-makers stumbled through the last decade, slashing many of the programs that could have reduced oil consumption and thereby our vulnerability.

The United States, for example, allowed federal fuel economy standards to remain at the level achieved in 1986. Neither Congress nor the administration has pursued the option of tightening them.

Christopher Flavin

Less efficient than those of the previous year for the first time since the oil crisis of 1974. If average fuel economy were just five miles per gallon higher, we would be importing 2 million fewer barrels less oil each year.

Meanwhile, home weatherization efforts have been slashed, as have energy-efficiency research and development programs. Federal spending on improved energy efficiency fell from \$700 million in 1981 to \$150 million in 1990 — equivalent to five days' worth of Kuwaiti oil production.

The folly of such moves is shown by the fact that oil production in the lower 48 states has been declining for two decades, a trend interrupted only in the year 2000 would reduce U.S. oil consumption by 2.8 million barrels per day by 2005.

Raising average new car fuel economy from the current 27 miles per gallon to 40-42 miles per gallon in the year 2000 would reduce U.S. oil consumption by 2.8 million barrels per day by 2005.

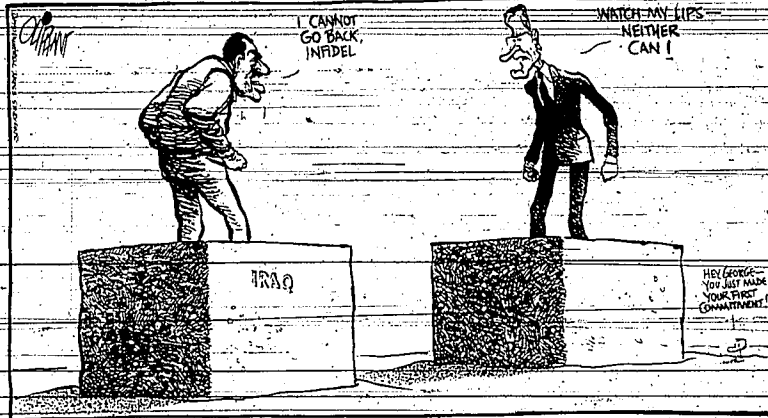

The projected additional cost for a 40-miles car is \$500. This sum would be more than offset by gasoline savings of more than \$2,000 during the life of a typical car. Overall, such technologies can save gasoline at a cost of about 40 cents per gallon or one-third the current retail price.

The political climate for such a bill mandating fuel economy standards in September. The political climate for such a bill is likely to be favorable this fall.

The U.S. action, which intended to bring Iraq's economy to its knees, may soon cripple the U.S. and world economies as well. Not only the industrial countries, but also the Third World — with its markets for cheap oil — are vulnerable to a serious oil shock. The folly of relying on the Middle East for most of the Western world's energy supplies has been clearly revealed.

The United States, for example, allowed federal fuel economy standards to remain at the level achieved in 1986. Neither Congress nor the administration has pursued the option of tightening them. New cars rolling off Detroit's assembly lines in 1989 were actually

Christopher Flavin is vice president for research and an energy analyst at Worldwatch Institute in Washington.

Hussein a villain as world shifts again

Almost as remarkable as Saddam Hussein's swift conquest of Kuwait has been his quick transition from friend to enemy in the eyes of the United States. The Iraqi leader was in Washington's good graces when he was fighting Iran's Ayatollah Ruhollah Khomeini.

Hussein is not the first foreign leader to undergo such a transformation in the eyes of the United States, though few have undergone such a radical change in such a short time.

Among those moving from good guy to bad guy are almost all of China's current leaders, Ferdinand Marcos of the Philippines, the Shah of Iran and Panama's Manuel A. Noriega. Moving in the opposite direction have been Syria's Hafez al-Assad; the late Anwar el Sadat of Egypt and Mikhail S. Gorbachev.

Like Hussein, all of these politicians have pursued consistent political courses. How, then, do we account for our own vacillating views of these foreign political figures?

One of the main reasons for our changing views of these foreign political figures is the answer lies in part with understanding the dynamic nature of the world, coupled with the standard operating procedures for U.S. foreign policy in the past 45 years.

American society has a unique cultural configuration. It is summed up in the phrase "a democracy in a republic." A republic is collective government by the people based on common principles. Democracy emphasizes

William O. Beeman

each individual's right to affect the affairs of the whole of society.

U.S. citizens carry this dual ideology into all aspects of everyday life. We reveal individuality while at the same time demanding conformity to common goals and ideals.

By contrast, U.S. foreign policy practice has been strangely at odds with our basic ideology. Although we are a democracy and a republic, we see our society as somehow hermetically sealed from the ideological and moral concerns of other cultures.

Once Washington has someone in its pocket, the positive publicity can be awesomely high for the clients who are marketed to the American public (and, indirectly, to Congress).

Our most unfortunate political habit is to drop these clients cold as soon as they have achieved our goal or as we perceive they are unwilling or unable to do what we

Want it is for this reason that the United States is both feared and distrusted in so many parts of the world. The Saudi-Arabian royal family, for example, resisted the establishment of a U.S. military land base in their country for decades because they knew it would be politically damaging.

But when foreign leaders, pursuing their own national interests and ambitions, run afoul of U.S. interests, they become villains.

As long as he opposed Ayatollah Khomeini, Hussein was a friend. We overlooked his poison-gassing of Iraq's Kurdish population, his assassination of political and religious leaders and his warlike rhetoric. Now that the Iraqis have been quashed, Hussein is more doing what he always had in mind. He is pursuing a ruthless hegemonic drive to dominate the entire region.

Iraqis who oppose him, such as President Hashemi-Rafsanjani, are looking potentially friendly. Any Arab leader expected to support Hussein, such as King Hussein of Jordan or Yasser Arafat, will also be a hero if he breaks ranks.

The world is changing rapidly. Global interests can no longer be divided into two categories: ours and others. We must learn that all nations have heroes and that our country's hero may be another country's villain.

William O. Beeman is an anthropologist at Brown University, Providence, R.I.

The Times-News

Stephen Hartgen Publisher, Clark Walworth Marketing editor, Allen Wilson Circulation manager, Peter Gray Advertising director

The members of the editorial board and writers of editorials are Stephen Hartgen and Clark Walworth.

Write to us

The Times-News welcomes letters from readers on subjects of public interest. To make sure your letter is published promptly, here are a few guidelines to remember:

Each letter should include the writer's signature, mailing address and telephone number. Typewritten letters are preferred, because they allow faster handling with less chance of error.

Letters may be brought to our Twin Falls office, mailed to P.O. Box 548, Twin Falls, ID 83403, or sent by fax to (208) 734-5538.

Letters considered libelous, obscene or in bad taste will be rejected, as will material expressing racial, ethnic or religious bigotry.

We do not publish verse or poetry, and we generally remove or limit religious quotations. Asides taken from other publications will not be reprinted.

Because of space constraints, please limit letters to 400 words. Longer letters will be shortened. The Times-News reserves the right to edit all letters.

We look forward to hearing from you!

Science isn't boring; schools make it so

Newsweek magazine reports that science textbooks have become so littered with errors that scientists across the country are mounting a campaign to set the record straight.

Some of the goofs are oversimplifications. Others are so wrong that Newton probably wouldn't recognize his own laws. In any case, Newsweek says, the men and women in white smocks are doing a disservice to visiting publishers to running for local school boards to make sure the mistakes do not go unnoticed and uncorrected.

It's a noble effort. However, the textbook glitches are only the latest sign of just how sickly science education has become. Once the errors are corrected, I hope we try to cure what the instructor is boring — or, to put it more precisely, made to be boring.

Students too often are fed a litany of facts by teachers who read from textbooks as

Bob Moos

though they were reciting phone numbers. In such a setting, science becomes merely an exercise in memorization. Which is the opposite of what science is supposed to be.

The outcome of such instruction is predictable. In a recent science test taken by high school seniors in 14 nations, Americans ranked last; college enrollments in science courses are at an all-time low; and of high school students who do enter college with the intention of pursuing science careers, 60 percent change their minds by graduation.

Many teachers, particularly those in elementary school, spend far more of their college years learning the art of teaching than studying the subject of science. As a result, they are uncomfortable following the Mr.

Wizard approach to science education. They would rather have their students simply turn up page 18 in their textbooks.

That has to change. The lack of proficiency in science among students today will lead to a shortage of biologists, chemists, engineers, physicists and other scientists tomorrow.

Science museums enjoy considerable popularity. Science books occupy an almost permanent spot on best-seller lists. Science programs are among the most-watched shows on public television. It is time to stop thinking of science as inherently boring. With better teaching, this nation needn't lose its scientific prowess to other countries.

Bob Moos is an editorial writer and columnist for The Dallas Morning News.

To those who angle: Keep a watchful eye out for exploding sharks

Our topic today, in "The Sportsperson's Corner" is Fishing Tips.

Call me a masculine stud hound if you wish, but fishing is in my bloodstream. This was also true of Ernest Hemingway, who wrote the masterpiece fishing novel "The Old Man and the Sea," later released as the major motion picture "A Man Called Ove." The book, which tells the story of an old man who hooks a giant fish and fights it for days on the open ocean, surrounded by increasing literary tension, until finally, in a shocking and unforgettable ending, something happens that unfortunately I am not aware of because I never finished the book. I read it in high school, when my literary strategy was to read exactly enough to write a book report. Using standard high-school book-report style, I could sometimes write a 500-word report after reading ONLY THE TITLE.

"The Old Man and the Sea" is a short, no-weight less than 200 pounds written by the author, Ernest Hemingway. It concerns an old man who becomes involved with the sea (or, as it is sometimes called,

Dave Barry
Humor

the ocean). As the book ("The Old Man and the Sea") unfolds, the author, Ernest Hemingway, writes about these two major themes — (1) the old man, and (2) the sea — and the things that happen to both the main character, which is the old man, and a major body of water, played by the sea, as viewed by the author, Ernest Hemingway, and as we reach the 106-word mark in this book report we can see that...

And so on. Book reports are excellent training for journalism, the essence of which is writing authoritative stories about things you don't actually understand. I can remember, as a young reporter, writing lengthy, disapproving analyses of international banking practices at a time when my personal-investment portfolio consisted en-

tirely of discount pizza coupons.

But that is not my point. I have forgotten my point. No! Wait! My point is that rugged outdoorspersons such as Ernest Hemingway and myself are crazy for fishing. Although I frankly have never been a fond of bait, I still vividly recall a Bait Encounter I had on Stephen Heyman's 12th birthday party, when his father took a bunch of us boys deep-sea fishing. We went out on the sea (or, as it is sometimes called, the ocean), many miles from safety, and Mr. Heyman opened a cardboard box, and out came: giant minicard worms. I have always been fond of regular worms, because they're small and harmless in the sense of having no appendages or mouths, plus they are very slow. You rarely read about people being run down and savaged by packs of worms.

But the worms that emerged from Mr. Heyman's box were more the size of adolescent snakes; plus they had somewhat developed LEGS. They started striding brazenly around the boat, obviously aware that they outnumbered us.

So we boys were backing away, thinking about leaping aboard, when Mr. Heyman, in an act of great foolhardiness, picked up one of the worms WITH HIS NAKED FINGERS and put it on a hook. Of course this infuriated the worms, not to mention the onlooker worms, who were clearly thinking: "OK, if we can develop legs, there's no reason why we can't develop HIGHLY TOXIC STINGERS and..."

So I spent the afternoon at the front (or "nose") end of the boat, admiring the ever-changing beauty of the sea and idly throwing up bits. At the other end, Mr. Heyman continued to wrestle with the worm and eventually used it to capture a flounder, which — although nobody realized this at the time — is an extremely dangerous fish in the sense that it will sometimes explode. I know this because dozens of alert readers mailed me a recent newspaper article concerning a woman in Wellington, New Zealand, who was preparing a flounder for dinner when — this is a direct quote — "It blew up." (The article states that police are " baffled.")

I would like to dismiss this as an isolated incident, but I also happen to know a famous minor radio personality named (really) Jimmy Music, who does a fishing show on the Florida Keys, and who informs me that sharks also sometimes explode. Jimmy states that sharks can contain "an incredible amount of stomach gas" and will sometimes burst upon capture, causing anglers to become drenched with stomach contents. I'm sure this raises some troubling questions in your mind.

1. Why do we call them "anglers"?
2. Wouldn't "Shark Puke" be a good name for a rock band?
3. How about "Jimmy Music and the Stomach Contents"?

I don't know about the rest of you sportspersons, but these questions, I do not intend to angle or become otherwise involved with any fish that is not in the form of a frozen stick. That's how I feel, as we reach, at last, the 834-word mark in this column.

Dave Barry is a Miami Herald columnist.

Massacre survivors plead, 'arms or cyanide'

ERAVUR, Sri Lanka (AP) — Hundreds of weeping men and women, some beating their heads with their hands and others flailing their arms in despair, begged Sunday for protection from rebel guerrillas.

"Give us arms or cyanide," several residents of Eravur wailed as reporters viewed bodies with gunshot wounds, being prepared for burial Sunday after the massacre of more than 100 Moslems here Saturday night.

"Please don't leave us at the mercy of the Tigers. Please don't go," cried old men and women when relief officials visited the scene.

The government in Colombo charged the Liberation Tigers of Tamil Eelam were responsible for the carnage.

Eravur, a Moslem-majority township some 10 miles north of Battaramulla in eastern Sri Lanka, was still recovering from shock when reporters visited.

Ahmed-Lebbe Ismail, 65, heard his daughter and her three daughters be-

ing shot before he fled the area. He later found his daughter's house in the area where the gunmen first attacked.

"When I heard the gunfire, I peeped over the wall into my daughter's house. There were five of them (Tigers) near the door and another five near the gate. I was shocked, and I ran out of my house with the rest of my family," he said, weeping.

Eyewitnesses and survivors identified the armed men in military uniforms as being from the LTTE. According to some residents, they spoke Sinhala, the main language, haltingly and then switched to the Tamil language.

"A few of them had LTTE badges on their uniforms," said Abdul Jabbar, who lost his uncle.

Military officials said 116 had been killed. Military officials in charge of the funeral arrangements said 119 had been killed and 20 wounded. The dead included 29 women and 31 children, the youngest a 7-day-old baby.

Moslem women wait for dead relatives, among 119 Moslems killed.

Counterattack dashes rebel hopes of seizing Monrovia

PAYNESVILLE, Liberia (AP) —

Government troops mounted a successful counterattack Sunday. 72nd Battalion advanced behind a dashed rebel hopes of seizing the capital before a West African task force arrives to impose peace. Troops also fired on civilians, and refugees said at least 18 were killed. The rebel troops ran away.

Bodies of refugees and pieces of clothing from their bundles of belongings were seen scattered in the government forces opened fire on fleeing civilians.

REPAIR CONTRACTORS NEEDED

USDA, Farmers Home Administration (FmHA), 111 East Avenue F, Jerome, ID 83338, Phone (208) 324-2308, seeks contractors for the repair of single-family dwellings in Jerome County. If interested, contact Janine Morgan, at the Jerome County FmHA Office. Contracts will be executed without regard to race, color, sex, age, religion, national origin, or marital status.

How to save a city: Give buildings to occupants

LENINGRAD, U.S.S.R. (AP) — The historic heart of the old czarist capital is crumbling and can be saved only by giving it to the people who live there, says a young architect who has become an influential politician.

For Alexei Kovalyov, one of the gems of European culture is the prize to be won or lost by an experiment in market economics and individual responsibility.

Piles of dirt and debris lie in Peace Square, once a beauty spot of the city. The broad Corinthian columns of the Kazan Cathedral are disintegrating.

About 1,000 historic buildings dating from the time when Leningrad was St. Petersburg are under official protection, but that has little practical meaning because there has been no attempt at maintenance.

"The condition of the city is catastrophic, and this applies not only to its architectural monuments, but to all of its buildings," said Kovalyov, 26, an intense man who began his campaign to save Leningrad in 1986, when he was an archaeology student.

He now is chairman both of the city council committee on historic preservation and one of the council factions. Like most other public is-

sues in the era of glasnost, his effort has become intensely political.

"We usually say 'we don't have the money, we don't have the materials, we don't have the working hands we need,'" Kovalyov said of the reconstruction effort. "That's all an illusion. If we had normal economic relations, we would all of a sudden have the money, the material, the working hands."

Briefly

9 blacks killed in S. African shooting

JOHANNESBURG, South Africa — Six men and three women were killed in gunfire in a hostel south of Johannesburg in what appeared to be a fight among black factions, police said Sunday.

Police Capt. Eugene Opperman told the independent South African Press Association that attackers fired through the windows of two rooms in a black workers' hostel in Sebokeng Saturday night.

Four men and three women were killed. Two other men died later in a hospital. Fifteen people were injured in the shooting.

Police arrest 5 associates of Bhutto

KARACHI — Pakistan — Police arrested five associates of ousted Prime Minister Benazir Bhutto, the first cases in what is expected to be a sweeping investigation of high-level corruption in her government, police said Sunday.

Arrest orders also were issued for a sixth person, believed to be in hiding, police said.

Earlier, Ms. Bhutto's mother left for London, authorities said.

Soviet movie wins 1st prize at festival

LOCARNO, Switzerland — The Soviet film "Waltz of Chance" was awarded the Golden Leopard award at the Locarno Film Festival Saturday night.

A British film "The Reflecting Skin" and the American film "Metropolitan" won second prizes.

Arab alliance, not Iraq, scares Israel

Los Angeles Times

TEL AVIV, Israel — As they look at the current Persian Gulf crisis, the main concern of Israeli military planners is a future war involving the combined forces of several Arab nations aligned against the Jewish state.

They do not see Iraq on its own attacking Israel — the retaliation would be swift and destructive. But they do worry if Baghdad should somehow link up with Jordan and perhaps settle differences with Syria. As a result, the planners in the Israel Defense Forces (IDF) are looking once again at the possibility of a large-scale conventional conflict.

In rejecting the prospect of Iraq acting alone against Israel, Defense Minister Moshe Arens noted that Iraqi long-range missiles do not yet have the capability of carrying chemical weapons in their warheads. Thus, according to senior officers, no single Arab nation — not even Iraq — poses a vital threat to Israel.

Moshe Arens
Iraqi missiles no threat yet
"But if Iraq should combine with Jordan, and somehow link Syria in an alliance on the Eastern Front," said an IDF general officer, "then we would be looking at a major threat."
"We would still have the capability to win against them, but it would

be much more difficult." As Joseph Alpher, deputy director of Tel Aviv's Jaffee Center for Strategic Studies, put it, "If war comes, it will be potentially far more destructive of Israel's civilian population than previous wars."

Israel's chief planners still regard Syria — with 4,000 tanks, 2,500 artillery pieces, and 510 combat aircraft — as the most immediate threat. They are very close to Israel only minutes to reach our border, and could try to launch a surprise attack, as they did in the Yom Kippur War in 1973.

Further, Syria still seeks to regain the Golan Heights lost to Israel in the 1967 war and currently is attempting to attain strategic parity with Israel, according to the military experts.

"More dangerous would be a combination of Syria and Jordan — which has a good army — and more than 1,100 tanks along our eastern border over the Jordan River," said a military planner.

Iraqi president calls for halt tightening in face of sanctions

NICOSIA, Cyprus (AP) — Iraqi President Saddam Hussein called Sunday on Iraq's Muslims to economize and not to heed as the country faces international economic sanctions and the threat of war after its invasion of Kuwait.

In a statement read on Baghdad radio and television, Saddam urged women to organize their households and economize to help achieve victory.

"Liberation of Jerusalem, Mecca and Medina, this is your role," the Iraqi leader said in the statement monitored in Nicosia. Saddam on Friday declared a jihad, or holy war, against Western-imposed sanctions on Saudi Arabia.

The three cities are considered holiest to Muslims.

"Train yourself and the family to take a serious posture in life where food and clothing will be much less, using only what is required for honorable living because the nation and future are threatened by the foreigner," he said.

U.S. journalists allowed into Saudi Arabia

WASHINGTON (AP) — American journalists were allowed Sunday to travel to Saudi Arabia for the first time since U.S. troops arrived in the Persian Gulf nation to protect it from a possible Iraqi invasion.

The Washington-based reporters were briefed by Gen. H. Norman Schwarzkopf, commander of the United States Central Command Air Force Base near Tampa, Fla., before their non-stop flight on an Air Force cargo plane. They were scheduled to arrive Monday.

Journalists had protested to the Pentagon that U.S. troops had arrived in Saudi Arabia, but no American reporters were allowed into the country to cover their activities. Defense Department officials had promised to work on the matter.

Today's kids missing their childhood

Children these days are beset with the same pressures of time as their parents. The reason, say experts, is that full-sped-ahead lifestyle of the parents is now being visited on the children. Parents are so ambitious for their kids that they overbook them with appointments, classes, activities. As a consequence, kids leave the ways of childhood too early.

**JoAnn
Larsen
Psychology**

Children are also being raised in an atmosphere of stress, hurry, and anxiety which is exacting a tremendous toll on their physical and emotional well-being. Suicide rates among young children are increasing at an alarming rate, more children are experiencing physical problems, such as ulcers or migraine headaches, and more are becoming psychiatric casualties.

And, many more children are acquiring "Type A" patterns at a very young age. These patterns, which make them prone as adults to heart disease, include intense striving, extreme competitiveness, deadline urgency, chronic impatience and excessive organization.

Finally, children are being raised in this fast-forward age by parents who are pressed by their own schedules and, as a result, very preoccupied and irritable.

So how do you - as a parent - reduce some of the insidious stresses of time on a child? Consider these possibilities:

- Examine the insidious stresses of time on you and the stresses you may be modeling. The best role models for kids are parents who are happy, stress-free, and feeling good about themselves.

- Leave children some time for themselves. "Think back to your own childhood and remember how you were fascinated by a caterpillar, how you could spend hours lost in play besides a lake or watching frogs or lily pads. Remember how you rode your two-wheeler for the first time and felt the freedom of moving on it," says Wayne Dyer, author of "Who Do You Really Want For Your Children?"

- Children need time for the kind of experiences Dyer describes - experiences that allow them to explore their world at their own leisure and to experience a sense of inner peace and tranquility. Resist the in-it-for-the-money efforts to have young children get ahead of the game very early in life, recommends Dyer. Don't force children to learn before they're ready. Children need to develop at their own pace. Allow them to enjoy their young years and develop the capacity to be "WTFH" them rather than "AT" them all the time.

- Give your child undivided attention. Says Carolyn-Jabs, author of the article: "Relax: Seven Ways To Be A Happy Stress-free Parent." If you make a habit

Health habits

Fast-paced society discourages view toward nutrition

By Mimi Steffens
Times-News correspondent

Good health begins with good nutrition, and good nutrition begins with good habits. Developing healthy eating habits depends on two things: what kind of foods to eat and how much of those foods to eat.

"You need to eat a variety of foods to get the right nutrients and you need to eat enough food to get the right amount of each nutrient," says Betty Peterkin of the U.S. Department of Agriculture's Human Nutrition Information Service.

"The Dietary Guidelines for Americans," published jointly by the USDA and the Department of Health and Human Services, is part of an effort to provide people with information about nutrition and a healthy diet," Peterkin says.

With over 40 nutrients needed for good health, the daily task of meeting dietary goals is made easier by following the seven guidelines.

The first guideline is to eat a variety of foods every day in proper amounts. Selecting from the five categories of fruits; vegetables; cereal and other grain products; milk and milk products; and meat, poultry, fish, eggs and dry beans and peas will provide a balanced diet.

While knowing the specific 40 nutrients might be helpful, eating this variety of foods will allow a person to meet the requirements for the essential vitamins and minerals, amino acids, protein, fatty acids from fats and oils and energy sources or calories from carbohydrates, fats and proteins.

The second guideline is to maintain a desirable weight because if you are overweight you increase your chance of developing some chronic disorders such as high blood pressure or heart disease.

According to the Guidelines, a desirable weight is an individual matter, but in general, an adult should not weigh much more than they weighed at age 25, if they weren't overweight then.

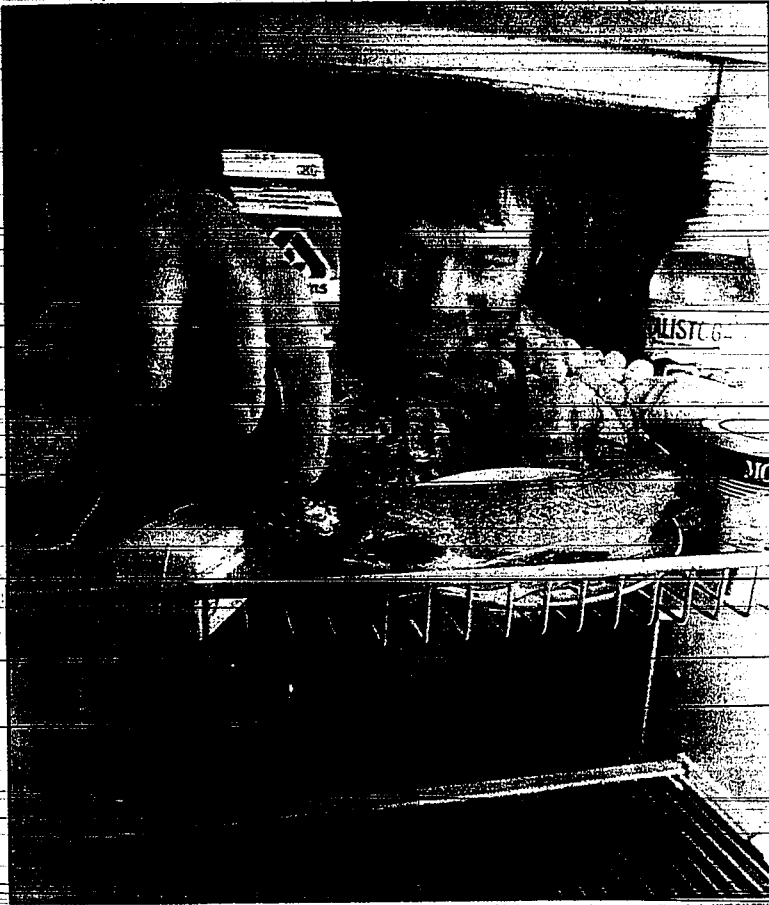

If someone would like to change their weight, the number of calories consumed must be more or less than the number of calories expended, depending on whether someone wishes to lose or gain pounds, according to the Guidelines. In the case of weight reduction, this means that someone must either eat foods with lower calories or increase activity and preferably both.

The third guideline is to avoid eating too much fat, saturated fat, and cholesterol. The chances of having a heart attack increase when a person has a high blood cholesterol level. Again, there is a variation among individuals and the effects of high cholesterol, but a reduction in the daily consumption of fat is a sensible approach for most people in the United States today, according to the Guidelines.

The fourth guideline is to eat foods with enough starch and fiber. Since starch is a carbohydrate and carbohydrates and fats are the major sources of calories in American diets, knowing about different carbohydrate is important.

There are two different kinds of carbohydrates - simple and complex - and each

Test your knowledge of nutrition

The Associated Press

Here is one of five quizzes from the book "The Tufts University Guide to Total Nutrition" by Stanley Ger-shoff, Ph.D., with Catherine Whitney and the Editorial Advisory Board of the Tufts University Diet and Nutrition Letter. Copyright by the Tufts University Diet and Nutrition Letter. Used by permission of Harper Collins Publishers.

QUIZ ONE
Most people know that protein is essential, but there are many misconceptions about how much the body needs and what are the best sources.

- Take this true-or-false quiz to see if you know the facts.
1. Most Americans eat more than enough protein.
 2. Proteins that come from animals contain all the essential amino acids the body needs.
 3. As adults age, they require less protein.

4. High-protein diets are not recommended for the obese.
5. Red meats are better protein sources than poultry or fish.
6. Athletes need significantly more protein than non-athletes.

ANSWERS FOR QUIZ ONE

1. (True) Most Americans consume double their requirement for protein. For example, the RDA for a 130-pound woman is easily met by eating three ounces of lean meat, one slice of bread, one-half cup of cottage cheese, and 1 cup of milk.
2. (True) Animal proteins are considered "complete," meaning that they contain the needed amounts of the nine essential amino acids your body must get from food. Vegetables are not complete sources of protein; they lack essential amino acids or do not contain them in sufficient quantities to meet your body's needs. Only by combining complementary vegetables on the same day (e.g., rice and beans) can you receive a complete protein source.
3. (False) Current thinking is that the RDA for protein remains the same on a weight basis throughout adulthood. Some

investigators think that because of changes in the body's efficiency in using protein, the elderly might require more. However, since caloric needs decrease as we age, it is wise for the elderly to select low-fat sources of protein.

4. (False) High-protein, low-carbohydrate, very low-calorie diets can be effective for weight loss in obese people (those who are approximately 25 percent or more above their normal weight range). After an initial water loss, significant amounts of fat are also lost. However, these diets can be hazardous and are recommended only for heart disease or adult-onset diabetes. They should always be done with medical supervision.

5. (False) Red meats tend to be higher in fat, so the percentage of protein on an ounce-for-ounce basis is lower than in fish or poultry.

6. (False) Although an athlete may need slightly more protein during the initial stages of training or competition, that need is not very great. Since most Americans already consume more than enough protein, chances are the increased need has already been met by a normal diet.

Looking good

Kids still wearing denim

Denims, bright colors and graphics continue to characterize everyday clothes for children. Like their elders, youngsters can wear status stone-washed jeans and jackets with a country western flavor. For example, Guess' Kids is offering green denim jackets, to be worn with corduroy pants or skirts or slub blue jeans.

Comfortable hooded sweatshirts, drawing pants and over-sized sweaters for children also mimic adult wear, except that many of them have cartoon and happy face face tips (from Brookside Enterprises) to keep the drawstrings from slipping into the openings. Colored lace faces, they also can be added to the tips of shoelaces.

A slight contrast to the bright colors and graphics typical of children's playwear today is Le Roi's Folk Song lines, which feature traditional ethnic patterns, including cotton wallpaper florals and pastels, touched with gold. The company's distinctive rounded silhouettes are featured in fun-filled jumpsuits and for toddlers in jumpsuits and two-piece sets.

The traditional motifs are carried through on the sleepwear lines, decorated with teddy bears, bunnies and clouds in pastel shades. These are made of flame-resistant polyester-in-generous, roomy cuts featuring colored snips and covered feet.

Roller coasters: Neck hazard

If you enjoy (and participate in) the thrills and chills of roller coaster riding, here's something you might want to think about. All those quick turns at high speed, it turns out, may be a little rough on your neck.

In fact, at least one Los Angeles chiropractor attributes a recent increase in business to the opening earlier this year of several big roller coasters in the area. According to Leonard Faye, these rides thrust the neck forward and backward unexpectedly, and faster than the neck muscles can adjust to avoid the snapping motion. While young, previously uninjured necks can take the strain without suffering any harm, older necks and those with recent whiplash injuries may have difficulties.

Faye says anyone who is older than 40 and has limited neck flexibility may be risking discomfort if he or she chooses to try to master the modern coasters. A simple test can be done to determine flexibility: You should be able to painlessly and freely place your chin on your chest bone, look at the ceiling directly above your head without leaning backward, rotate your head right and left to touch your chin to your shoulders, and tilt your head to touch your ear to a slightly shrugged shoulder.

Ballplayers' chewing' less

Although smokeless tobacco is almost as much a

part of professional baseball as is the seventh inning stretch, it appears the boys of summer may be changing their habits.

Of the 1,109 major and minor league players surveyed and examined by researchers at the University of California, San Francisco, during spring training in 1988, 39 percent had used smokeless tobacco within the previous year. Another 4 percent had used it within the previous month, and 13 percent were former users.

According to UCSF researcher, Virginia Emster, Ph.D., professor and chair of epidemiology and biostatistics and adjunct professor of dental public health and hygiene, "long-term smokeless tobacco use, particularly snuff use, has been strongly associated with oral cancer" in past studies.

The good news is that when Emster and her colleagues resurveyed players in 1989, they found that 82 percent of current users considered smokeless tobacco use to be "either very harmful or somewhat harmful."

"There seems to be an increased awareness within the sport of professional baseball that smokeless tobacco use is undesirable," reports Emster, adding that, "anecdotally, some players told us they were concerned about the effect some of their habits might have on young fans, saying they had switched from smokeless tobacco to chewing gum for that reason."

To do for you

Winter outings group to meet

TWIN FALLS — The High Desert Nordic Association will hold a general meeting at 7 p.m. Tuesday at the YFCA. Bring a calendar to plan for winter outings and to schedule a fall work party. The group will also be discussing the planned yurt. A car-wash is also planned from 10 a.m. to 4 p.m. Saturday at Pay Less Drug parking lot.

Caesarean childbirth class starting

TWIN FALLS — The Magic Valley Regional Medical Center has scheduled a Caesarean childbirth class for 7 to 9 p.m. Aug. 20 in the conference room, second floor.

The program, designed to help parents learn more about Caesarean childbirth, features a one-session class offered the third Monday, every other month. Classes are also scheduled for Oct. 15 and Dec. 10.

Topics will include the medical indications for a Caesarean birth, hospital procedures, delivery and recovery.

The cost is \$5. To pre-register, call the Women's Health and Education Center at 737-2900, weekdays between 9 a.m. and 4 p.m.

Red Cross will teach CPR course

TWIN FALLS — The Sawtooth Chapter of the American Red Cross will offer an eight-hour course in Community Cardiopulmonary Resuscitation in two, four-hour sessions from 6 to 10 p.m. Aug. 20 and 27.

Community-CPR teaches the course for adults, infant and child victims. The course fee is \$15. Pre-registration is required. To pre-register or for more information, call 733-6464.

733-6464 or stop by the Sawtooth Chapter office at 718 Shoshone St. E.

Baby-sitting course beginning

TWIN FALLS — The Magic Valley Regional Medical Center will offer a Baby Sitter Certification and Training Course from 8 a.m. to 2:30 p.m. Wednesday in the conference room, second floor. The cost is \$10 and is intended for youths 11 and older. To register, call Dorothy Miller, Volunteer Director at 737-2006. This is the last certification class scheduled for this summer.

Childbirth classes set Wednesdays

TWIN FALLS — A prepared childbirth course for parents due in October begins Wednesday at the Magic Valley Regional Medical Center.

The Lamaze-based series of six classes will be from 7 to 9:30 p.m. Wednesdays in the Women's Health and Education Center conference room, second floor. The course fee is \$30.

Designed to prepare parents for childbirth and early parenting, the course includes films, slides and physician question and answer sessions. The expectant mother is asked to wear comfortable pants and to bring two pillows. A support person is encouraged to attend. Pre-registration is required. To pre-register or for more information, call the Women's Health and Education Center at 737-2900, weekdays between 9 a.m. and 4 p.m.

Course to teach CPR instructors

TWIN FALLS — The Sawtooth Chapter of the American Red Cross will offer a Cardiopulmonary Resuscitation Instructor Course. This 12-hour instructor's course will be held in three,

four-hour sessions from 6 to 10 p.m. today, Wednesday and Friday. This course prepares and authorizes instructors to teach American Red Cross Adult CPR, Infant and Child CPR and Community CPR courses. The course fee is \$12.

Applicants must have successfully completed the American Red Cross Introduction to Health Services Education Course (IHSE), the Community CPR course, and possess a valid card/certification.

Class will teach first aid teachers

TWIN FALLS — The Sawtooth Chapter of the American Red Cross will offer an instructor's course in Standard First Aid. This 12-hour course will be held in two sessions from 9 a.m. to 5 p.m. Thursday and from 9 a.m. to noon Friday at the Sawtooth Chapter office, 718 Shoshone St. E.

Applicants must have taken the new Standard First Aid course prior to participation. Upon successful completion of the course, candidates will be authorized to teach the most current scientific and medical information available to the lay public in the principles of first aid training, including Red Cross Cardiopulmonary Resuscitation and other lifesaving techniques.

Pre-registration is required. To pre-register or for more information, call the chapter office at 733-6464.

To Do for You is a calendar listing health-related activities, events and education. Information should be submitted by Thursday for publication in the following Monday's Reach section. Mail envelopes to: *To Do for You*, Box 548, Twin Falls, 83303, or deliver to our office at 132 Third St. W.

Looking

Continued from B1 Fashions this fall for men concentrate on comfort

Black is dead. Stripes are in. Slouchy is the rage. And white leads the way in monochromatic dressing. These are the trends of the moment from the Designers' Collective. A New York consortium of about 100 menswear designers.

The bottom-line is that the average gentlemen can slip into these styles with little or no coaxing. Comfort seems to be the philosophy of the majority. The relaxed-silhouette of suits from seasons-past has given way to cardigan jackets, chenille sport coats and Eisenhower jackets. Although the shapes vary, each offers an easy, unconstructed alternative.

Larsen

Continued from B1

of doing or thinking about something else whenever you're with your child, his requests begin to feel like interruptions and his very presence may seem like an intrusion.

Pretty soon, continues Laska, kids begin to react: "Kids who sense that their parents' thoughts are elsewhere often do whatever it takes, y whining, arguing, breaking rules - to get their attention. Children are also likely to draw unspoken conclusions about why a parent does everything else before getting around to them... After a while, the child thinks, 'What's the matter with me? Why doesn't Mommy enjoy my company?'"

It's important to put kids on your prior list - to pay full attention part of the time you spend together. It will, of course, take discipline, stressers, laska, to concentrate on a game of Candy Land when you're worried about the fourth-quarter sales figures, or to listen carefully to the details of the afternoon soccer game when you've got a dozen phone calls to make.

Connect with your child, Sherod Miller calls it CONNECT-ING - those special times when you and your child join momentarily and link like meshed gears. When you click, good feelings flow - and you experience love and warmth that simply don't surface at other times.

How do you connect with kids? Well, first, by entering your children's world and looking at life momentarily through their eyes. Say Miller and other authors of "Straight Talk" share with children's anger over a lost intramural game, their delight with a compliment from a teacher, their conflict over whether to wear the green slacks or jeans to a school dance, their hysteria because their nose has a pimple or their current love has called them, their desire to be left alone, their doubts about whether God hears their prayers.

The relative safety of cars not always consistent

You've heard this one before... you're safer in an airplane than you are driving across town in your car. According to some estimates, in fact, driving is 10 times more dangerous than traveling by either plane or train. Maybe so, maybe not, says the U.C. Berkeley Wellness Letter. It all depends on who you are, and where, how and what you drive.

Those oft-quoted statistics apply only to "the average driver," notes the Wellness Letter. Citing an article in Risk Analysis, they add that if you are a typical low-risk driver, you are more than 1,000 times less likely to die in a car crash than a high-risk driver. And in that case, driving may be just as safe as flying.

So, how do you know whether you're at risk? According to the Risk Analysis article, you are low risk if you are a 40-year-old man or woman who is sober, wears a seat belt, travels on rural interstate highways and has a heavy car (a full-sized model about 3,700 pounds). And the typical high-risk driver? He was defined as an 18-year-old, intoxicated, unbelted male traveling on average roads in a lightweight car (a compact, about 2,300 pounds).

Nutrition

Continued from B1

and each has almost the same number of calories. Yet, simple carbohydrates, like sugars, have little or no vitamins or minerals, whereas complex carbohydrates, like starches, contain many essential nutrients. Given the choice between cookies and breads, bread is the healthier choice.

And when you increase the amounts of complex carbohydrates in your diet, you will also increase the amount of fiber in your diet.

According to the Guidelines, dietary fiber is a term to describe the generally indigestible parts of plant foods. There are different kinds of fiber, but they all help intestinal problems and problems such as constipation and may help reduce the risk of developing colon cancer.

To increase your intake of fiber, Elva McNurlin, chief dietitian at the Magic Valley Regional Medical Center recommends eating more fresh fruits, vegetables and whole grains.

The last three guidelines are to decrease the consumption of sugar, salt and alcohol. Health risks, and problems with the heart, kidney, teeth, tooth decay, complications for people with high blood pressure and nutritional deficiencies related to heavy drinking.

A copy of the Dietary Guidelines is available for \$0.50 each from Consumer Information Center, Department 70, Pueblo, CO 81009. Please request Home and Garden Bulletin No. 232.

McNurlin offers some insights into some of the issues people face in trying to satisfy their nutritional needs. "A lot of the problem today is people are trying to eat on the run; that tends to be the trend, and it's difficult to eat on the run and eat healthy foods. And people have become accustomed to eating potato chips, just fast food in general and junk food, as opposed to eating meals. Years ago people used to sit down and have meals. It may have been a lot of fried food, but it was more likely at least a balanced meal," says McNurlin.

Sorting out information on cholesterol is also important. Types of cholesterol, a body fat, varies, such as the high-density lipoprotein level, and the low-density lipoprotein level, also known as "good" and "bad" cholesterol," McNurlin said.

"The HDL are what we call good because they help get the fat out of the body. The LDL are what we call bad cholesterol because they tend to help store fat. They counteract each other," she explains.

To reduce cholesterol, McNurlin recommends reducing total intake of most fats, eating less saturated fat, and consuming more lean or low-fat meats.

One highly discussed subject is "empty calories." Items like candy bars with a high sugar content or alcohol are things which have calories without significant amounts of nutrients, hence, the phrase "empty calories," and you'd have to consume large quantities of these items to get the required amount of nutrients, McNurlin says.

McNurlin also has concerns about advertising and cautions people to read the labels of the foods they buy.

"There is all the advertising now about the things that contain no cholesterol when, in fact, they contain fat - possibly saturated fats or hydrogenated fats, which are just as likely to contribute to high cholesterol levels," McNurlin says.

McNurlin recognizes the obstacles in trying to change dietary habits. In her job, she finds she is able to help people modify their dietary habits successfully when the people have the interest and motivation to do so.

"Some people are set in their ways and they are not going to change. They just don't want to or it's too much work and they don't have the motivation to change. But some people are very motivated and they really want to make a difference and they're very grateful for any information they can get," she says.

To some, magazine fragrances the sweet smell of excess

NEW YORK (AP) — Some magazine readers are thumbing their noses at "scent strips," the fragrance advertising inserts that can make everything in the mailbox smell like a perfume store.

These people want scent strips sealed in odor-proof wrappers to protect the health of the allergic, asthmatic and hypersensitive, as well as the olfactory sensibilities of everyone else.

Legislation to regulate the use of the strips is even being considered in some states. Manufacturers and publishers defend the strips as an inexpensive, effective way to bring fragrances from the perfume counter to the kitchen counter.

But some have agreed to stop using one form of the strips. The scent strip was first used widely in the early 1980s to introduce a perfume called Giorgio.

Legislation to regulate the use of the strips is even being considered in some states. Manufacturers and publishers defend the strips as an inexpensive, effective way to bring fragrances from the perfume counter to the kitchen counter.

But some have agreed to stop using one form of the strips. The scent strip was first used widely in the early 1980s to introduce a perfume called Giorgio.

been distributed over the past decade, and about 30 major magazines regularly carry them. The magazines love the ad revenue — \$15 million last year — but some readers don't like the scents.

One is Amy Solomon, 38, who opened a fashion magazine last spring on a train ride from Manhattan to Albany.

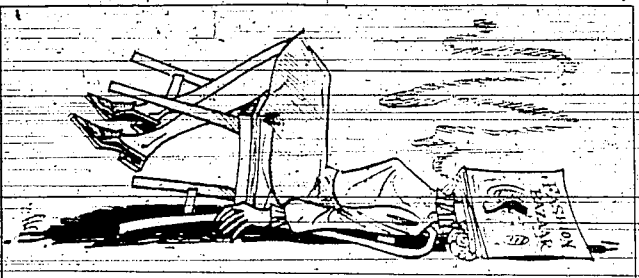

By Bagan, she had a headache. By Foughes, she could barely open her eyes. By Hudson, she felt sick to her stomach.

"There ought to be a law, she told herself. As director of communications for New York state Sen. Martin Connor, she was in a position to help pass one.

At Solomon's urging, Connor is sponsoring a bill to prevent distribution of cosmetic or fragrance samples unless they are "enclosed in a sealant," such as a plastic or foil wrapper.

Legislators in New Jersey and Massachusetts also are preparing bills. Several magazines are refusing strip ads, and New York magazine subscribers can request a strip-free copy.

A scent strip is a coating, usually containing hundreds of thousands of microscopic capsules of fragrance

The Associated Press

oil, that has been shattered under the overlap of an ad page.

In theory, the capsules are broken, and their aroma released only when the overlap is peeled back; in reality, capsules often break prematurely in shipping and handling.

"But the worst culprit is something called 'free oil'.

By the late '80s, thick fashion magazines had become a hotbed of competing fragrances. In an attempt

to grab readers by the nose, some companies began dousing their inserts with unencapsulated fragrance oil that soaks into the paper whether or not the flap is pulled back.

Such magazines mingle with other mail, and even Solon of Fortune could wind up smelling more like a boutique than a rifle range.

Wright, a letter carrier from Bayona, N.Y., says she gets a headache the day Cosmopolitan is delivered.

Last month California barred free oil inserts.

In an attempt to head off more restrictive laws, the leading makers of fragrance inserts agreed to stop using free oil on July 1.

Although no one knows how many people are acutely sensitive to fragrances, experts say that between 10 and 20 percent of Americans may be sensitive to chemicals commonly used in fragrances.

Add strength to exercise program

Muscle strengthening is best accomplished by using "free" weights (hand-held weights or weight machines). If you don't have access to weights, try push-ups. They strengthen the arms and chest and are one of the few muscle strengthening exercises that can be done without

Bodylessons Judith Sheppard Missett

weights; you use the weight of your body as the resistance instead.

Push-ups work the triceps muscles (back of the upper arm) and the pectoralis major (front of chest). By placing your hands close together, as in the following exercise, you will shift the focus to the triceps.

• Assume a comfortable push-up position, with your knees on the floor. Place hands close to each other, rather than in line with the shoulders.

• Bend arms into the push-up so the torso lowers in one straight piece, no arching in the back or "swoy back."

• Straighten arms so the torso lifts in one straight line.

• Repeat the movements in increments of five, or as desired.

Previously, exercise researchers told us that working out aerobically three to five times each week for at least 20 minutes each session was sufficient for a total-body conditioning program.

Now, the American College of Sports Medicine has revised its position on how much and what kind of physical activity we actually need. The new guidelines recommend a muscle strengthening program for the major muscle groups, practiced at least two times a week, to help maintain muscle and bone mass.

When you begin your muscle conditioning program, start out slowly. Start with light weights (five pounds or less) and do 10 repetitions for each muscle group. If you're sore or stiff the next day, you probably did too much.

Los Angeles Times

Push-ups are one of the few muscle strengthening exercises that don't require weights.

There are a wide variety of weight-lifting exercises you can choose from. If you can't make it to the gym, try setting up your own personal weight room at home. Hand weights can be purchased at any sporting goods store and are relatively inexpensive.

Judith Sheppard Missett is the owner of Jazzercise. Her column appears every Monday in The Times-News.

Crash diets don't permanently drop metabolism, study shows

CHICAGO (AP) — The crash diet that gave Oprah Winfrey her svelte new figure does not permanently lower the body's metabolism, a study says.

Many people have worried that crash dieting permanently lowers a person's metabolism — the rate at which the body at rest burns calories — making it harder and harder to shed more pounds and to keep the weight off.

A study in the Journal of the American Medical Association found that the Optifast liquid diet caused women's metabolism to plunge, but it rebounded after they began eating

normal food. The study was funded in part by Optifast.

The diet helped the women lose almost 50 pounds in four months. "The good news is that the study showed dieting, when combined with exercise, does not result in a long-term reduction in metabolic rate," said researcher Thomas A. Wadden. "The bad news is that it's still a struggle to maintain weight loss."

Wadden, associate professor of psychology at the University of Pennsylvania School of Medicine and clinical director of its Obesity Research Group, said for every 25 pounds of weight loss, a dieter must

eat 100 fewer calories a day than in pre-diet days to gain the loss.

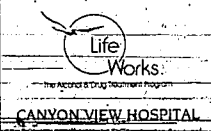

Wadden also is a consultant to the Sanford Nutrition Co., maker of Optifast. Winfrey shed 67 pounds on the Optifast diet.

The study compared nine women who went on the 420-calorie-a-day Optifast program with nine women who went on a diet of conventional food totaling 1,200 calories a day.

The metabolism of the Optifast women dropped 22 percent over 16 weeks, when they were consuming only the liquid diet, while the metabolism of the others fell about 13 percent.

Famed psychologist recalls life and work

CAMBRIDGE, Mass. (AP) — B.F. Skinner, the psychologist who popularized behavior modification, is facing his approaching death by leukemia with no regrets, a fitting end-to-a-life-he claimed — was governed by rational rules.

"Skinner, 95, is preparing what may be his final work, a defense of controversial research that explored the uses of positive and negative reinforcement to improve human behavior.

"I will be dead in a few months," Skinner said with a laugh. "But it hasn't given me the slightest anxiety or worry or anything. I always knew I was going to die."

For years, Skinner has endured a battering by many American psychologists who scorn his belief that behavior could be engineered to make society better. Not everyone will accept his final work, he said in a recent interview.

"I'm writing a paper which is my summing up of what psychology is all about and attacking cognitive psychologists," Skinner said. "The cognitive psychologists won't like it, but that doesn't bother me at all. Cognitive psychology emphasizes the unconscious structure of the human mind, rules for the brain's operation that can't be explained by conditioning."

Skinner's principle of "operant behavior" holds that even seemingly spontaneous action is a response to rewards and punishment. People don't shape the world, he has said. The world shapes them.

Bornus Fredrick Skinner (B.F.) to the world, Fred to his friends) grew up in Susquehanna, Pa., and spent

B.F. Skinner, dying of cancer, believes behavior can be engineered to make a better society.

most of his career at Harvard University, where he applied his observations of animals to the motives and manipulation of human conduct. He retired from the faculty in 1974.

"Skinner argued that "behavioral technology" could be put to work to create a world free of overpopulation, war and pollution.

In "Walden Two," published in 1948, he described a tightly con-

trolled Utopia in which people are motivated by positive and negative reinforcements. The novel was required reading for many college students in the 1960s and 1970s.

In Walden Two, everyone is happy. People don't know the meaning of envy and jealousy. Buildings are communally owned, and everyone helps out with chores.

Many psychologists found Skinner's Walden to be a tyrannical

place — others said it was bland. But his application of the ideas of the Russian physiologist Ivan Pavlov have left an indelible stamp on American society.

"We now know that many principles govern human behavior, not just operant behavior," but that doesn't diminish his importance," said Jerome Kagan, chairman of the Harvard psychology department.

Operant conditioning is used ev-

ery day by parents, Kagan said, "every time they praise a behavior they want and punish one they don't want."

"For his regret, Skinner may be best remembered for teaching pigeons to play pingpong, using the Skinner Box. The pigeons pressed buttons or levers to receive food in return for doing what the experimenter wanted them to do."

A Life magazine photograph of the pigeons lunge in Skinner's wood-paneled study in his home. Nearby is a signed portrait of Pavlov, whose experiment showed dogs could be conditioned to salivate at the ring of a bell.

Skinner's frame is lean but otherwise he shows little sign of illness. His snow-white hair is combed back from an expansive forehead and his blue-gray eyes sparkle.

He laments the search among cognitive psychologists for an "inner creator" responsible for human behavior, likening them to creationists who scorn Darwin's theory of evolution.

Skinner compares the search for an inner self to the search for God. Skinner doesn't believe in God, either.

"I'd hate to see Skinner want to be remembered?"

"Somebody asked my daughter recently what she remembered most about me," he says. "It was very strange. She said I used to come and put her to bed and talk with her, and I'd take her hand and there'd be tears in my eyes."

"I'd hate to have people say he's the man who taught pigeons to play pingpong."

Boise band places 1st in contest; local band takes 2nd

TWIN FALLS — Patti Syme and The BDT Band from Boise won the Third Annual KEZJ/True Value Hardwood/GMC Truck Country Showdown and Good Times Jam-boree Aug. 5 at the Twin Falls City Park.

Second place went to a Twin Falls group — Renegade, and Rocky Watson, Mackay, took third. The competition featured artists from Boise, Mackay and Fairfield, along with local talent. Fifteen country music acts from around the state competed for a chance to advance to the state finals.

Syme and her band go to the state finals Aug. 26 at the Bonner County Fairgrounds in Sandpoint. The band will compete for \$1,000 and the right to represent Idaho at the regional contest. The top three acts at the local contest split over \$1,700 in prizes donated by local merchants.

The winner of the Western region will advance to the national competition in Nashville for a chance at a national recording contract, \$50,000 in cash and prizes and a 1991 GMC Sierra pickup truck.

RATINGS

The five category system of the voluntary film industry rating program is now as follows:

- G. General Audiences, all ages admitted.
- PG. Parental guidance suggested. Some material may not be suitable for children.
- PG-13. Parents are strongly cautioned to give special guidance for children under 13. Some material may be inappropriate for children.
- R. Restricted, under 17 requires accompanying parent or adult guardian.
- X. No one under 17 admitted.

Tips for mothers-in-law help keep peace in the family

DEAR READERS: I recently published 10 tips on how to get along with your husband's mother — submitted by a very wise mother-in-law.

Then in the interest of evenhandedness, I asked for letters from daughters-in-law on how to get along with your son's wife.

Did I get letters? Today's column will be a compilation of the best tips on how to get along with your daughter-in-law.

1. When you go to talk with your son and your daughter-in-law answers the phone, don't say, "Is John there?" Spend a few minutes asking how she is and what's new. And if they live out of town, when you write a letter, always address it to both your son and his wife.

2. If your son has been previously married, don't bring up his past marriage. If he's had girlfriends in his past, don't mention them either. If your daughter-in-law has been previously married and has children by that marriage, accept these grandchildren as your own. Don't play favorites.

3. Never offer advice unless it's asked for. And never criticize your daughter-in-law's housekeeping, cooking-in-law's friends or new

hairstyle. And don't try to rearrange her furniture.

4. Ask for — and display — pictures that include her and her children. Every time she looks at them, she will feel wonderful.

5. Never say, "John looks thin, or pale, or tired." His wife will take it as a personal insult.

6. If your daughter-in-law has given you a gift, show your appreciation by wearing it — or displaying it proudly.

7. Never repeat family gossip. And try not to listen to any.

8. Don't allow your son or his wife — in the heat of anger — to tell you something unkind about the other. They will eventually kiss and make up, and you will be left holding their dirty laundry.

9. Don't drop hints about how much you would like to have grandchildren. Some couples aren't ready, some couples may have been trying for a long time without success, and some couples have decided that they

don't want any — which is strictly their business.

10. And one cardinal rule should always be observed. Regardless of how close you live to each other, never drop in unexpectedly. A telephone call from the corner drugstore is all it takes.

11. If perchance she has hurt your feelings, take it up with her. Do not let it fester, and don't complain to your son.

12. Also — don't monopolize holidays. Remember that your daughter-in-law has parents, siblings and friends that she might like to spend time with on holidays. Some couples may even like to spend an occasional holiday by themselves.

13. Let your son go. Recognize and respect him for the adult he is. Stop calling him Skippy, Sonny, Junior or any other juvenile nickname that he has long outgrown.

14. Also, if you have other daughters-in-law — or daughters, of your own — treat them all equally. And that goes for their children, too.

DEAR ABBY: Let me tell you about my mother-in-law! There is never a time when she would stop by and not be welcome. My house could be a mess, my son dirty, my hair in rollers and my fridge empty.

My mother-in-law (whose house is always immaculate) could come in, have a cup of instant coffee and visit, and never make me feel the least bit guilty. I know she loves me because she knows she'll get it very happily married, and that's the most important thing in the world to her. And she never lets me forget it.

— A LOVING DAUGHTER-IN-LAW

DEAR DAUGHTER-IN-LAW: I know the joy of having a wonderful

mother-in-law. I've had one for 31 years. (God bless you, Rosie!)

Want your phone to ring? Get Abby's booklet, "How to Be Popular" is for people of all ages. To order, send a long, business-size, self-addressed envelope, plus check or money order for \$3.95 (\$4.50 in Canada) to: Dear Abby, Popularity Booklet, P.O. Box 447, Mount Morris, Ill. 61054. (Postage is included.)

Despite lack of laws, kids riding in backs of pickups dangerous

CHICAGO (AP) — Children who ride in the back of pickups risk serious injury, say researchers who report that 127 youngsters died nationwide in one year in such accidents and an estimated 1,000 were injured. Only eight states have measures restricting travel in the back of pickup trucks, said the researchers, who call for tougher laws.

"The ultimate goal should be a legislative intervention eliminating travel in the back of a pickup truck where no opportunity for restraint exists," the researchers wrote in the Journal of the American Medical Association.

Their study, led by Dr. Phyllis F.

Agran of the pediatrics department at the University of California, Irvine, examined data on 290 children injured or killed in pickups from 1980-89 in Orange County, Calif.

The children were infants through age 14, and eight of them suffered fatal injuries. A total of 201 children were riding in truck cabs when injured, while 89 were in the back. Four of those who died had been traveling in the back; the other four were in the cab.

More significantly, researchers found that 24 percent of those in the back were injured in non-crash events — such as a sudden stop,

CHECK DISTRIBUTION FOR FINANCIAL AID AND SCHOLARSHIPS

Students who are scheduled to receive financial aid for the fall '90 semester may pick up their financial aid checks at the CSI Business Office according to the following registration schedule.

SCHEDULE FOR FALL REGISTRATION 1990 (Academic and Vocational Credit Courses)

RETURNING STUDENTS FROM SPRING '90

SEMESTER ONLY

WEDNESDAY, AUGUST 22*		THURSDAY, AUGUST 23	
*K, L, & N	8:30 AM	*H, I, & J	1:30 PM
*M, & O	9:30 AM	*A & B	2:30 PM
*P, Q, & R	10:30 AM	*S, U, V & X	3:30 PM
*E, F, & G	11:30 AM	*T, W, Y & Z	4:30 PM
*C, D	12:30 PM		

* You may register anytime AFTER your designated time, but NOT before. Alphabet rotates each semester.

NEW AND RETURNING STUDENTS

THURSDAY, AUGUST 23

*X, Y & Z	8:30 AM	*M, & N	11:30 AM
*K & L	9:30 AM	*O & P	12:30 PM
*Q & H	10:30 AM	*E & F	1:30 PM

Open for anyone 2:30-5:30
eligible to register
on Wednesday or Thursday

* You may register anytime AFTER your designated time, but NOT before. Alphabet rotates each semester.

NEW AND RETURNING STUDENTS

FRIDAY, AUGUST 24

*I & J	8:30 AM	*C & D	11:30 AM
*G & H	9:30 AM	*T, V & W	12:30 PM
*A & B	10:30 AM	*S & U	1:30 PM

Open registration 2:30-4:00

* You may register anytime AFTER your designated time, but NOT before. Alphabet rotates each semester.

If you cannot pick up your financial aid according to the above schedule, you may wait until school begins on the 27th of August. Stafford student loan checks will be disbursed by the same schedule if they are available at that time. Students who register during "non-traditional" dates may pick up their financial aid check(s) three days before the first day of each session. The spring semester disbursement will follow the spring '91 registration schedule.

* All Vocational Trade and Industrial students who have been accepted and have a permit to register may proceed to the CSI Business Office to pay fees or pick up Financial Aid checks. If you have not been officially accepted into your program, you need to complete your admission/registration at the Records Office.

ATTENTION: STUDENTS PLANNING TO TRANSFER TO ANOTHER COLLEGE

Because each receiving institution has its own unique requirements, it is always to the advantage of a transfer student to plan carefully which courses to take at CSI so they can match the requirement of the college to which he or she plans to transfer. To best accomplish this, the students should always consult a CSI advisor and plan his or her future course of study with the catalog of the receiving college at hand. Direct communication with the receiving college is also available. You can't communicate too much when planning your college future!

**ARTICULATION AGREEMENT
and
ASSOCIATE OF ART OR SCIENCE DEGREE POLICY**

ARTICULATION AGREEMENT

To facilitate the transfer of students, Boise State University, Idaho State University, Lewis Clark State College and the University of Idaho, and the College of Southern Idaho, North College, Ricks College, and Treasure Valley Community College shall individually and jointly honor the terms of this statewide articulation agreement.

Students who complete requirements for the Associate of Arts or Associate of Science degree at an accredited institution in Idaho and Treasure Valley Community College will be considered as satisfying the lower division general education core requirements and shall be granted junior standing upon transfer to a four-year public institution in Idaho and will not be required to complete additional lower division general education core courses subject to the conditions listed below.

Transfer students from any accredited institution who have completed the general education core courses will not be required to complete additional lower division general education core courses. However, these students must obtain certification of such completion. Certification of successful completion of the lower division general education core for students who have not completed the Associate of Science or Associate of Arts degree is the responsibility of the transferring institution.

This transfer policy will provide for the fulfillment of all general education, lower division core requirements only. It is not intended to meet specific course requirements of unique or professional programs (e.g., engineering, pharmacy, business, etc.) and required courses needed in a specific major. Students who plan to transfer to unique or professional programs should consult with their advisors and make early contact with a program representative from the institution to which they intend to transfer.

Transfer students who have not completed the Associate of Arts or Associate of Science of the general education core courses will not come under the provision of this articulation agreement.

A maximum total of 70 lower division credit hours will be normally accepted for transfer from accredited community or junior colleges.

GENERAL EDUCATION REQUIREMENTS Associate of Arts	
These general education courses are required of all students to be eligible for the Associate of Arts degree. The courses that satisfy these general areas are listed below.	
Courses	Min. and Max. Credits Allowable
Speech 101	2 2
English 101, 102	6 6
Social Science (classes from two different disciplines)	6 12
Humanities	6 12
Natural Science (two classes, with at least one lab class)	7 12
Mathematics	3 5
Physical Education: P.E. 155 or two activity classes	2 2
Additional Core Courses	6
Minimum GE Credits Must Be:	38
Students need to complete a minimum of 64 credits in an academic major to receive an AA degree. Consult your advisor or counselor to select the courses to complete the major degree requirements.	

GENERAL EDUCATION REQUIREMENTS Associate of Science	
These general education courses are required of all students to be eligible for the Associate of Science degree. The courses that satisfy these general areas are listed below:	
Courses	Min. and Max. Credits Allowable
Speech 101	2 2
English 101, 102	6 6
Social Science (classes from two different disciplines)	6 12
Humanities	6 12
Natural Science (a minimum of two lab classes)	7 12
Mathematics	3 5
Additional Core Courses	6 5
Minimum GE Credits for AS:	38
Students need to complete a minimum of 64 credits in an academic major to receive an AS degree. Consult your advisor or counselor to select the courses to complete the major degree requirements.	

To receive the ASSOCIATE OF ART AND ASSOCIATE OF SCIENCE, the student has to meet the requirements in the list above. Students transferring from CSI who have completed 28 credits in the core courses of Speech, English, Social Science, Humanities, Natural Science, and Mathematics will not be required to complete additional lower division general education core courses at an Idaho college or university.
NOTE: Students must take PE 155 Wellness or 2 Physical Education activity courses in the Associate of Arts Degree.

**COLLEGE OF SOUTHERN IDAHO COURSES
that will fulfill the general education requirements**

DROPPING A CLASS

Regulations governing the cases of dropping a class:

1. Students desiring to drop a class after the first week must obtain a drop slip from the instructor or Records Office and secure the instructor's signature. After the instructor has signed the drop slip, it must be taken to the Records Office for processing.
2. After the first two weeks and until 75 percent of the course length has elapsed, no NC will be granted in the course the student drops. NO DROPS WILL BE PROCESSED AFTER THE DEADLINE WITHOUT THE SIGNED CONSENT OF THE INSTRUCTOR AND REGISTRAR.

COMPLETE WITHDRAWAL FROM COLLEGE

Regulations governing the cases of withdrawing from college:

1. A student desiring complete withdrawal from college must complete a withdrawal form in conference with a counselor and should confer with their instructors and advisor. The complete withdrawal form must be taken to the Records Office for processing; CW will be granted in the course(s), the student was registered in.

ADDING A CLASS

Regulations governing the cases of adding a class:

1. The deadline for adding classes will be the final day of the first week, unless special permission is granted. Students desiring to add to their schedule after the first week must obtain an add slip from the instructor or Records Office and secure the instructor's signature. After the instructor has signed the add slip, it must be taken to the Records Office for processing.
2. To add a course that has officially closed, the student must get permission from the instructor.

CAREER GUIDANCE AND COUNSELING

Career counseling services are available to all CSI students and other people who are considering continuing their education. To take full advantage of those services, prospective, new, and returning students who are undecided about a career direction should make an appointment to see a counselor prior to the week of registration. That contact would give students the advantage of discussing, in detail, future planning before making a final choice of classes or a vocational training program when registering.

If you are undecided about an academic major or need career guidance, please contact the Counseling Office or the Career Planning and Placement Center, both located in the Taylor Administration Building. An appointment can be made for you to talk with one of the counselors for assistance. The phone number is 733-9554. The Counseling Office extension is 250. The Career Planning and Placement Center extension is 286.

Counseling staff will be available from 8:00 a.m. to 4:30 p.m. daily to assist you.

Please note that your class schedule will be determined with your faculty advisor or a faculty representative from your major department during the week of registration.

REGISTRATION INFORMATION FOR FALL SEMESTER, 1990**BEFORE YOU REGISTER FOR ACADEMIC OR VOCATIONAL CREDIT COURSES:**

- STEP A.** Apply for admission if you are: (1) A new CSI student or (2) A returning student (if you have not attended since Spring 1989). Send all admission materials to the CSI Records Office. High School students may register for a CSI class if they bring a letter from their parents and principal or counselor stating their approval to enroll for the class.
- STEP B.** If you are a degree-seeking or certificate-seeking student, have the following items sent to the CSI Records Office: (1) High School Transcript or GED, (2) ASSET, and (3) College transcript. NOTE: ACT or SAT scores are not required for admission except for Registered Nursing. However, they are strongly recommended to help in student advising.
- STEP C.** All new CSI students who are degree-seeking or certificate-seeking students, whether part-time or full-time, must take the ASSET Evaluation Assessment. Allow about 2 hours for assessment. EXCEPTION: Transfer students with passing grades in math and English will not have to take the ASSET Evaluation Assessment. THESE TESTS SHOULD BE TAKEN AT THE CSI STUDY SKILLS CENTER PRIOR TO REGISTRATION. CALL 733-9554, EXT. 413 FOR TEST APPOINTMENT, HOURS AND DAYS THE SKILLS CENTER WILL BE OPEN FOR TESTING.
- STEP D.** Check the priority Registration Schedule on page 2 for time and date of your registration.

ACADEMIC AND VOCATIONAL STUDENTS

- STEP A. Students will meet with an advisor located in the cafeteria of the Taylor Administration Building. Check with your advisor (or faculty person in the department of your major) and fill out your registration form. Your class schedule will be arranged at that time.
- STEP B. After schedules are arranged, students will proceed to the Records Office to register. The Records Office is on the second floor of the Taylor Administration Building.
- STEP C. After registering, each new student will receive a student ID card in the Records Office.
- STEP D. After receiving their ID cards, students will take their registration packets to the Business Office for payment of tuition and fees. The Business Office is located on the main floor of the Taylor Administration Building.
- STEP E. After payment of tuition and fees, take copy of class schedule to the Bookstore to buy books and supplies.

REGISTRATION PROCEDURES FOR CONTINUING EDUCATION NON-CREDIT COURSES

STEP A. All students are encouraged to register for non-credit classes as soon as possible after the official schedule of classes is made available.

You can register for all non-credit courses in one of the following centers:

1. in person at the Records office located on the second floor of the Taylor Administration Building on the CSI Campus;
2. in person at the Burley Extension Center, 2227 Overland, Burley, Idaho.
3. in person at the Hailey Office.
4. in person at the Gooding Office.

STEP B. FOR INFORMATION, call 733-9554 and ask for the appropriate extension:

Adult Enrichment.....	ext. 270 or 272
Center for New Directions	738-0070
College for Kids	ext. 270
Vocational Adult Evening	ext. 428

STEP C. Check the Continuing Education Fall Schedule for times and date of classes.

REFUNDS

Refunds of tuition will be made only when the students have completed withdrawal procedures with their counselors and have complete appropriate applications through the Business Office. Refunds are made according to the following:

- A. Refunds of 100% — less \$10 prior to August 27
- B. Refunds of 75% — prior to September 7
- C. Refunds of 50% — prior to September 21

TUITION AND FEES

	In-District	Out-of-State	Foreign
1 Credit	\$ 40.00	\$ 90.00	\$ 91.50
2 Credits	80.00	180.00	183.00
3 Credits	120.00	270.00	274.50
4 Credits	160.00	360.00	366.00
5 Credits	200.00	450.00	457.50
6 Credits	240.00	540.00	549.00
7 Credits	280.00	630.00	640.50
8 Credits	320.00	720.00	732.00
9 Credits	360.00	810.00	823.50
10 Credits	400.00	900.00	915.00

Students living outside of Twin Falls or Jerome counties but within the State of Idaho will be charged out-of-district fees in addition to the regular tuition and fee cost. The students home County may pay the out-of-district fee providing the student meets the requirements of Section 33-2110A and 33-2110B of the Idaho Code in all respects. Excerpts from the Code are as follows:

"No County shall be liable for out-of-district tuition unless the Board of County Commissioners of the County has first verified to the Junior College in writing the fact that the student is a resident of the County"

"A resident student is any student whose parents are court appointed guardians are domiciled in the Junior College district and provide more than fifty percent (50%) of his support"

A completed Certificate of Residency is required from all out-of-district students. If certification is not received the student will be required to pay the fee normally charged to the County. A new certificate must be obtained each year that you attend the College of Southern Idaho.

The Certificate of Residency blanks are available from the College Business Office, counseling offices, and most County Commissioner's offices. Each out-of-district student should obtain Certification from his/her County Commission.

COUNTY CHARGES

1 Credit	\$ 50.00	6 Credits	\$300.00
2 Credits	100.00	7 Credits	350.00
3 Credits	150.00	8 Credits	400.00
4 Credits	200.00	9 Credits	450.00
5 Credits	250.00	10 Credits	500.00

VETERANS

To receive G.I. Benefits you will need the following:

New Veterans:

1. A completed application form, VA Form 1990
2. A certified copy of your discharge paper, Form DD-214
3. A certified copy of your marriage license and copies of your children(s) birth certificates, if either you or your spouse were previously married;
4. High School Transcript or G.E.D. scores.
5. Transcripts from all colleges or universities you previously attended.

Transfer Veterans:

1. Your VA file number (Claim Number).
2. A completed VA Form 1995 requesting a transfer to place to training or change of program.

FINAL EXAM SCHEDULE**December 17, 18, 19, 20, 1990**

The week prior to finals week will be CSI's "dead week". We will not hold classes on this Thursday or Friday, but we will leave these days open so students can complete final papers or assignments. Faculty will be available in their offices during scheduled office hours or by appointment. No final examinations will be given in any part of the last week of classes, except for lab finals or finals in activity classes.

SHORT-TERM VOCATIONAL

WOODWORKING

You will develop basic skills required to work successfully with wood while building your own project. Instruction in the use of common hand and power tools will be provided, along with information related to the tools. Learn how to use wood creatively to build, repair, or refinish a project. Sanding, gluing, doweling, and stripping, will be included in the class. This class is intended for beginners and advanced. (10 sessions) \$75

Centennial Broadside:

CSI Literary Club Honors Poet
William Studebaker

In order to celebrate the Centennial year of Idaho, the College of Southern Idaho Literary Club decided to honor its own William Studebaker, native Idaho poet and CSI Creative Writing Instructor, by publishing one of his poems as a Broadside. The tradition of the Broadside, or Broadsheet, dates back to the 15th Century where it was originally used for political literature. It was also a popular medium employed by poets for the distribution of popular ballads, copies of which were sold on the streets of large cities by itinerant peddlers. The collection of these sheets has become a favorite pursuit among antiquarians, as a branch of book collecting. The production of "The Bruneau Desert" involved the cooperation and assistance of the CSI Literary Club, English Department, Art Department, as well as the CSI Foundation. It combined the technologies of a modern Macintosh computer system and a turn-of-the-century Chandler & Price letterpress. The graphic was designed by David Babb, CSI art student. The typeface is Palatino. It was produced in a limited edition. The first twenty-five copies have been numbered and signed by both the poet and the artist.

Penelope Reedy-Sloan
Literary Club President 1989-90

CSI SWEEPS STATE VOCATIONAL AWARDS

The College of Southern Idaho swept all awards for post-secondary programs given this summer at the annual Idaho Vocational Educators Summer Conference in Boise.

The college's Law Enforcement Program, which has been headed by Wes Dobbs since its inception in 1965, was named the "Post-Secondary Program of the Year." The CSI Center for New Directions received the Post-Secondary Service Award for its Program for Education Readiness (PEER) on "Workplace Basics."

An award was also presented for CSI's Idaho Hospitality Training as a top post-secondary program.

More than 900 educators, business and industry representatives and government leaders attended the conference.

PRACTICAL NURSING PROGRAM OFFERED IN TWO WAYS

Beginning this fall, the College of Southern Idaho's Practical Nursing education can be obtained in two ways.

The traditional 11-month program offered Monday through Friday will continue. In addition there will be an evening and weekend option. This option will require students to successfully complete five credits of PN classes (Nutrition, Human Growth and Development, Medical Terminology and Professional Concepts). These courses will be offered on Tuesday and Thursday evenings.

Spring semester classes will also be offered on Tuesday and Thursday evenings. The two required courses are Human Anatomy and Physiology and Community Health. For Fall, 1990 and Spring, 1991 the enrollment is open to anyone. To continue into the summer, students must meet, by April 1, the same admission criteria as a full-time PN candidate.

The summer program involves Tuesday and Thursday evenings and Friday and Saturday clinicals. Students will study Care of the Elderly (1 credit) and Fundamentals (5 credits). Clinical will be in long term care. In Fall, 1991, students will study Medical Surgical Nursing Part I (5 credits). Classes will continue on Tuesday and Thursday evening and Friday and Saturday.

Spring, 1992, will continue to use Tuesday and Thursday evenings for classes and Friday and Saturday for clinicals. During this semester of seven credits students will continue in Medical Surgery as well as study Maternal Child Nursing and Pharmacology. During the summer of 1992 the student will complete Medical Surgical Nursing and Maternal Child Nursing (6 credits). Upon successful completion of this program, graduates will take their NCLEX-PN examination (state boards) in October.

This program has been created to assist working people to study nursing. It is the only such program in Idaho. Anyone interested should call 733-9554, Ext. 450.

FINANCIAL ASSISTANCE AVAILABLE FOR WOMEN IN NONTRADITIONAL COURSES

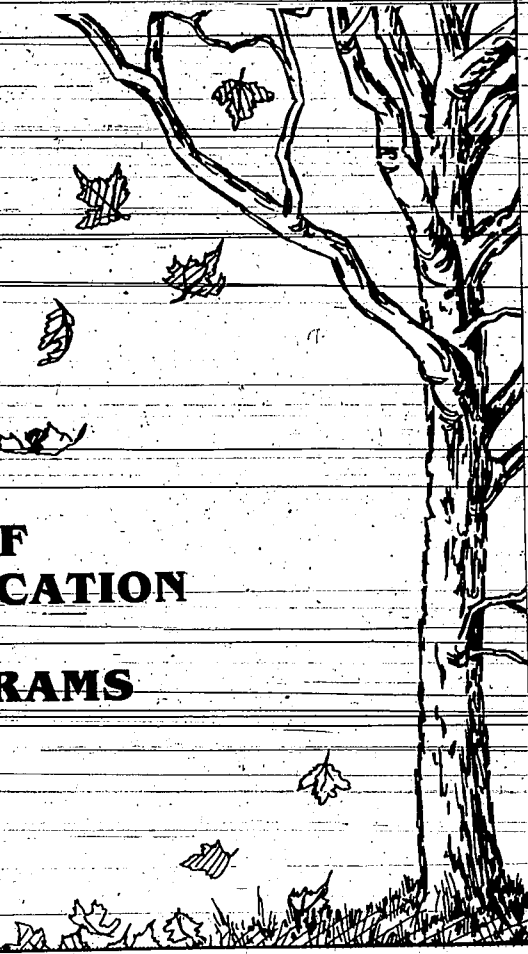

Financial assistance is available for women who enter vocational training for occupations usually dominated by men, according to Susan Westendorf, counselor at the College of Southern Idaho Center for New Directions.

Up to \$500 in incentive awards may be earned by females who are entering or preparing to enter any of 12 CSI technical training programs. These include welding, automotive service, diesel, drafting and fisheries.

For more information about training and financial assistance call the Center for New Directions at 736-0070.

REGISTRATION PROCEDURE

All students must register and pay for classes before the starting date.

ADULT-ENRICHMENT NON-CREDIT CLASSES (ZERO CREDIT)

You can register for all non-credit classes on campus, by mail, or by phone.

CSI CAMPUS, the Records Office is located in the Taylor Administration Building. Hours are 8 A.M. to 7 P.M. Monday through Thursday, 8 A.M. to 4:30 P.M. Friday. Phone: 733-9554, ext. 231.

BURLEY OFFICE, 1458 Overland Avenue. Telephone: 678-1400. Hours are 8:30 A.M. to 5 P.M. Monday through Friday.

HAILEY OFFICE, 115 South Main, Fox Building, Suite H. Telephone: 788-2038 or 788-2033. Hours are 9 A.M. to 5 P.M. Monday through Friday.

NORTH SIDE OUTREACH CENTER, 202 14th Avenue East, Gooding. Telephone: 934-8678. Hours are 8:30 A.M. to 4:30 P.M. Monday through Friday.

All 0-Credit classes must be paid for at the time of registration.

MAIL-IN registration must be accompanied by a check or money order payable to CSI, and should be mailed to the CSI center offering the course. Use the form at the back of this schedule. If the class is full before the registration card is received, your money will be returned.

PHONE-IN registration accepted with Master Card or VISA for Payment. Phone the CSI center offering the course.

WHEN TO REGISTER: You can register for a 0-Credit class at any time prior to the course start date. **WARNING:** If you do not preregister, available space in the class cannot be guaranteed.

ACADEMIC AND VOCATIONAL CREDIT CLASSES

You can register for all credit classes at four CSI locations.

CSI CAMPUS, the Records Office is located in the Taylor Administration Building. Hours are 8 A.M. to 7 P.M. Monday through Thursday, 8 A.M. to 4:30 P.M. Friday. Phone: 733-9554, ext. 231.

BURLEY OFFICE, 1458 Overland Avenue. Telephone: 678-1400. Hours are 8:30 A.M. to 5 P.M. Monday through Friday.

HAILEY OFFICE, 115 South Main, Fox Building, Suite H. Telephone: 788-2038 or 788-2033. Hours are 9 A.M. to 5 P.M. Monday through Friday.

NORTH SIDE OUTREACH CENTER, 202 14th Avenue East, Gooding. Telephone: 934-8678. Hours are 8:30 A.M. to 4:30 P.M. Monday through Friday.

STEP A. Fill out the application for admission.

STEP B. Fill out the registration form and county residency form.

STEP C. If degree seeking, provide high school or college transcripts and take the asset evaluation.

STEP D. Pay for the class at the Business Office or the Off-Campus Center when you register.

For Payment of Fees & Tuition

and

Accepted

ENRICHMENT TWIN FALLS CAMPUS

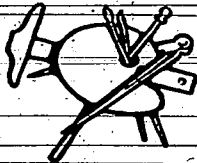

315 Falls Avenue
P.O. Box 1238
Twin Falls, Idaho 83303-1238
Telephone: 733-9554, Ext. 270 or 272 or 734-0242

All students are encouraged to register for classes:

On the CSI Campus, the Records Office is located in the Taylor Administration Building. Hours are 8 A.M. to 7 P.M. Monday through Thursday and 8 A.M. to 4:30 P.M. Friday.

REGISTRATION FORM ON LAST PAGE OF SCHEDULE.

WARNING: If you do not preregister and pay your fees in advance, available space in the class cannot be guaranteed.

ARTS AND CRAFTS

POTTERY

Learn the basics of forming clay by hand and on the potter's wheel; pottery will be created through hand-building and wheel-throwing. It is a useful skill which develops your design sense as well. Besides making pottery, you will learn about glazing, firing, and pottery in general. This is also a great class in which to reduce stress and relieve tension. Completed projects will be glazed. At the end of the class you will take home a finished piece. (8 sessions). \$35. Fee does not include clay—\$10 which should be paid to the instructor for each 25-pound bag of clay.

Section 90172.7701 AEAR 009
Tuesday, September 18 to November 6
8:30-9 P.M., Art Complex 0 Credit Christensen

FOLK ART PAINTING ON FURNITURE

A furniture project has been planned for the intermediate to advanced folk artist. Students need to have had two sections of total painting instruction or the equivalent for this class. A small furniture piece (bread box) has been selected and will be completed within the eight weeks. If you wish to finish a different project, you are free to do so. The style has been adapted from a European technique. Materials are not included. (8 sessions) \$35.

Section 90003.7702 AEAR 003
Saturday, September 15 to November 3
9 AM-12 Noon, Shields 107 0 Credit Shropshire

FILM AS ART

Lights...Camera...Art! Film as Art. In this course, we will discuss film as an art form. Veteran film fans will have the opportunity to discuss their favorite subject with other fans, while fledgling aficionados will learn to watch movies with new eyes. We will focus on five

classes. You will learn that films can be more than entertainment. (7 sessions) \$30.

Section 90399.7701 AEMS 066
Monday, October 1 to November 28
7-10 P.M., Shields 207 0 Credit P. Marcantonio

CALLIGRAPHY

Beautiful writing adds a special touch to your letters, cards, and invitations. You can use the three styles of calligraphy you will learn in this class in many different ways. The class will offer an introduction to Italic, Book Hand, and Gothic lettering along with some creative ideas on how to put them to use. Students will need to have a carriage calligraphy pen and college-ruled paper for the first class meeting. (6 sessions) \$47.

Section 90006.7701 AEAR 006
Tuesday, September 25 to October 30
7-9 P.M., Canyon 205 0 Credit C. Westorhold

PHOTOGRAPHY-BEGINNING

Students will learn basic camera techniques; how to use film, light, camera equipment; and subject control. The purpose of the class is to allow the student to express himself creatively through photography. Students must have cameras with manually adjusted meters, lens openings, shutter speeds, and focus. (10 sessions) \$55.

Section 90001.7701 AEAR 001
Thursday, September 20 to November 28
7-9 P.M., Shields 103 0 Credit Mathis

SCENIC PHOTOGRAPHY

As you head into the outdoors on your next excursion, you will be able to capture and bring home some of the spectacular beauty if you have tried it before and found that your pictures just don't "turn out" the way you would like, this class will show you what to do next time.

You will also learn how to protect your camera from elements such as sand, dirt, water, and heat and cold weather. Additionally, you will learn which equipment to use and when to use it. The instructor, Doug Bobb, is a professional photographer specializing in outdoor color photography. This class is intended for those who have taken a previous photography class and/or have a good working knowledge of their own cameras. (6 sessions) \$29.

Section 90001.7702 AEAR 001
Wednesday, Thursday, Friday, October 9 to October 19
7-9 P.M., Aspen 143 0 Credit D. Bobb

STAINED GLASS

Would you like to beautify your home with stained glass or give a unique gift for Christmas? Learn the techniques involved in this beginning stained glass class. Each student will complete a simple panel during the six-week course. Various patterns will be available for your choice. You choose the perfect combination of colors and types of glass to suit your needs. No art background is necessary for success! Fee does not include materials. (6 sessions) \$75.

Section 90700.7701 AEAR 014
Wednesday, September 28 to November 7
8:30-9:30 P.M., Canyon 135 0 Credit L. Gray

BETTER HOMES

INTERIOR DESIGN FOR YOUR LIFESTYLE

Home interior decorating principles of choosing and using color, window treatments, furniture and upholstery fabrics; room planning for decorating individual rooms; field trips to home furnishings outlets for consumer information. (6 sessions) \$30.

ANTIQUES-FURNITURE AND GLASSWARE

Brighten and individualize your home, while looking toward the future value of your antiques and collectibles. This is an informal class, but it is also full of information you will be able to use in your own search for the beautiful objects of yesteryear. This is an introduction to antiques—what makes them antiques, how to identify and research antiques and care and restoration of the history and workmanship involved in antique furniture and glassware. Learn how to discover the many sources of finding "sleepers," how to shop intelligently, and what to consider when contemplating a purchase. This introduction of antiques will include china, glass, and pottery, Depression glass, cut glass, pressed glass, and sandwich glass. Join in the "show-and-tell" session. Bring an item that you enjoy from your home or have "just wondered about." Find out how much your antiques add to your total assets and the value of what you have. (5 sessions) \$30.

OF FINANCIAL INTEREST

LEARNING TO WIN THE MONEY GAME

You are living in an era of tremendous change! Dynamic, challenging, and frustrating change is taking place in family relationships; international affairs, living styles, technology, and especially in the area of investing money.

To win the money game in this decade of the 90s and win, you must; you will have to develop a special kind of expertise; mental attitude, agility, diversity, and determination. It will not be change but rather how you react to change that will determine your financial future.

How you cope with this inevitable change will determine whether you'll win or lose the vital money game. The money game is not like any other game. You cannot choose whether you'll play because the money game is the only game in town. Since you have no choice but to play, it behooves you to learn to play the game well, as losing could mean spending your life in a state of frustrating and devastating financial insecurity. (4 sessions) \$15.

How you cope with this inevitable change will determine whether you'll win or lose the vital money game. The money game is not like any other game. You cannot choose whether you'll play because the money game is the only game in town. Since you have no choice but to play, it behooves you to learn to play the game well, as losing could mean spending your life in a state of frustrating and devastating financial insecurity. (4 sessions) \$45.

HOME TANNING OF DEERSKINS

Just in time for the upcoming deer season, you can learn to make genuine buckskin the American-Indian way. This ancient method (though not difficult) produces flannel-soft skins of excellent quality. Learn to make the simple tools; prepare, tan, and smoke the skin. Deer skins will be provided for this hands-on, learn-by-doing class so that you can learn now and be able to tan your own deer hide later with this ideal, inexpensive home-tanning method. Enrollment limited to 8 students. Class will be held on two Tuesdays and Thursdays with an ending Saturday meeting. (5 sessions) \$34.

EIGHT BASIC STEPS INTO GRAPHOANALYSIS (HANDWRITING ANALYSIS)

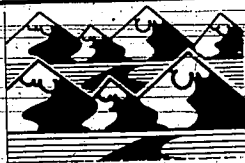

Basic Steps to Graphoanalysis—an introduction to personality assessment through handwriting analysis. Eight two-hour classes will enable the student to understand how personality traits of a writer might be ascertained through analyzing each individual stroke of his pen. Graphoanalysts work in business to facilitate personnel selection, credit-risk evaluation, and also in questioned document examination work. Personality assessment is a valuable aid in counseling and is used by personnel, marital, vocational, and child guidance counselors in many parts of the world. (8 sessions) \$25.* Book not included in the registration fee.

THE MAGIC VALLEY STORY

This interesting educational class is an introduction to the history of south-central Idaho, including the prehistoric people of the area, the fur traders, and the adventurers who traveled the Oregon Trail. This will be followed by the impact of the Gold Rush, the early settlements of the Magic Valley, and railroad construction. Also to be discussed are the founding fathers of Magic Valley, irrigation projects, changes in agriculture, and the forming of counties as well as transportation and schools. Slides and other graphics will be used. The slides include many old photos showing the town and the valley as it was in addition to slides taken recently of historic sites. The instructor, Virginia Ricketts, is a well-known authority on local history. As a researcher and author of newspaper articles relating to local history, Mrs. Ricketts is knowledgeable about all periods of Idaho history. (6 sessions) \$20.

**THE GREAT OUTDOORS****SPELEOLOGY-EXPLORING THE UNDERGROUND REALM**

Come with us to explore the underground realm of the Magic Valley. You will learn safety and conservation associated with caving, one of the fastest-growing sports in America. The emphasis is on the ecology and geology of the Magic Valley through field trips and first-hand experience. Through the course, you will gain an understanding of how caves are formed, how to explore a cave without affecting its ecology, what equipment is needed, and how to handle an emergency situation in a cave. The course will include a Tuesday orientation and slide presentation and field trips on the following six Saturdays. Student will need to supply their own helmet, gloves, and 3 sources of light; those may be obtained reasonably inexpensively; locally and will be discussed in the first class. (7 sessions) \$40.

ROCKCLIMBING

This course is a weekend workshop held at the City of Rocks to give you practical experience in the sport of rockclimbing. The course will emphasize safety procedures for technical rockclimbing as well as address the variety of techniques used for sport rockclimbing. Within the weekend, you will learn climbing calls, belaying, rope handling, anchors for top-rope climbing as well as a variety of techniques to move efficiently on a vertical rock environment.

This course is designed for novices through intermediate-level rockclimbers. All equipment, excluding rock shoes, will be supplied. Rental shoes \$10 from the guide service. The course will be instructed by a licensed professional guiding/mountaineering/climbing company. Students will need to have loose-fitting, comfortable clothes; rain gear; day pack with water bottle; and camping equipment for overnight stay. Max. 6 students per class. (2 days) \$90. TRAINING YOUR DOG

DOG OBEDIENCE

Obedience can be a happy, rewarding experience for you and your dog. Learn to train your dog to be an enjoyable, responsive companion. Beginning and intermediate dog obedience techniques will be taught. Students will need to bring a dog wearing a choke collar on a 6- to 8-foot lead (no chain leads). Students, please wear soft-soled shoes. For more information, please call the instructor, Donna Stalley, at 733-1462. (8 sessions) \$20.

Section 90028.7702 AEMH 004
Tuesday and Thursday, September 4 to September 27
7-8 PM, East Side of Expo Bldg. 0 Credit D. Stalley

STOCK DOG TRAINING II

A good stock dog can save you a great deal of work, walking, and frustration. If you are interested in continuing to improve your started dog, you will find this class very helpful. The 8-week course will offer you the ability to work your dog weekly with the instructor. When you combine with your working your dog between classes, this will help you and your dog to work as a more efficient team. To attend this second-level class, all dogs must qualify with the instructor on September 27 prior to registration. The actual course, which will begin on October 4, is limited to 15 students and the instruction of one dog per class meeting. For more information, contact the Continuing Education office at 733-9554, Ext. 272, or the instructor at 467-7372. (8 sessions) \$95.

TRIPS AND TOURS

SEE AND LEARN: The mobile classroom of the office of Continuing Education, College of Southern Idaho, presents one-day trips and tours which will help you discover a southern Idaho you have never known. These trips are designed to meet the needs and interests of all age groups. All trips meet in the Aspen Building in Room 108 prior to departure from the College of Southern Idaho.

Registration is open to all Magic Valley residents. Preregistration is required because of limited enrollment. The registration fee includes a lunch, instructional materials, transportation in comfortable vans, and well informed directors who will accompany the group.

For further information, please contact the office of Continuing Education at CSI by phoning 733-9554, Ext. 270, or 734-0289.

SILVER CITY

Silver City was one of the major mining towns in the Idaho territory in the 1860s. The population of the town at that time was about 2,000. It was the county seat of Owyhee County until after the turn of the century. Much of the town is still preserved. Participants are urged to wear casual dress and walking shoes. Lunches are included in the registration fee. \$30.

Section 90048.7602 AETT 003

WORKSHOP

SUPERVISORY DILEMMAS

This program is designed for managers who want to better understand their roles as supervisors and improve their supervisory expertise.

In this intensive full-day workshop, managers will learn how their own attitudes about being "boss" determine their effectiveness as supervisors.

They will discover the normal stages of growth through which all supervisors pass and learn shortcuts to supervisory maturity.

The focus will be on specific techniques for more effective management.

Participants will be actively involved in various activities, including taking self-scoring quizzes, working in small groups, and other structured experiences.

Specific, practical methods of supervision will be taught, including the art of delegating, providing feedback, administering discipline, and handling employee conflicts. As a special bonus, each attendee will be helped to create a unique, personalized plan for on-going personal and professional growth so that the program benefits will continue long after the workshop is over.

Preregistration is required. Please call 734-0269. \$75 includes lunch and materials.
Section 90169.7701 AEMS 023
Friday, November 18
8:30 AM-4:30 PM, Desert 113 0 Credit M. Seldenfeld

PROGRAM LEADER

Dr. Martin Seldenfeld, psychologist, is president of the Human Resources Corporation and serves on the faculties of Boise State University and the College of Idaho. He has conducted workshops and seminars throughout the United States and in Europe. An author of numerous articles, he has had his own radio call-in program as "Dr. Marty." His clients have included major American corporations and trade and professional associations as well as numerous small businesses, government agencies, and nonprofit organizations.

Dr. Seldenfeld is a former president of the Idaho Psychological Association. He was appointed by Governor Evans to serve on a statewide advisory commission and was the recipient of a special NEH Fellowship to Yale University.

IMAGO presents
MASK!
January 22, 1991

Come voyage with IMAGO to a world of live human animation, where fantasy and ultra-realistic illusion are the height of entertainment. The masks/costumes are ingenious, the music is original, and the performers are masters of mime, dance, and drama. All come together in imaginative performances that move from the whimsical to reflection and back again.

... a madcap review... Thanks to their masks and their mastery of dance, mime, and acrobatics, they became a multitude of curious creatures... Their efforts left everyone, including this dance goer, feeling glibly."

DISCOVER THE WORLD OF TELECOMMUNICATIONS

The Idaho Centennial Committee and the CSI Continuing Education/Special Programs Department are offering to the public three free telecommunication events that provide a look into the future. The public may attend the events at the CSI Twin Falls Campus locations listed.

Two of these programs, "Satellite Communications into the 21st Century" and "Food for the Future" are live videoconferences which offer participants the opportunity to communicate with the panelists.

There is no charge to attend these Centennial events; however, enrollment is limited and participants must preregister.

For more information on these events, phone the CSI Continuing Education Department at 733-9554, Ext. 272.

FUTURE FORUM: A WORLD OF COMPETITION

ABC World News Tonight anchor Peter Jennings hosts a panel of business and political leaders, which includes former French President Valéry Giscard d'Estaing; Steven Jobs, Chairman of Next, Inc.; and Jesse Jackson, president of the National Rainbow Coalition. Jennings presents hypothetical business situations on topics that include worker loyalty, entrepreneurship, management responsibility, financing opportunities, job security, the role of government in industry, and America's increasingly competitive global economy as the 1990s lead into the next century.

STUDENT HOUSING NEEDED

The need for student housing will be critical this fall for students planning to attend the College of Southern Idaho. If you would like to list a rental or make arrangements to trade babysitting or housework for room and board for a student, call the CSI Student Activities Office at 733-9554, Ext. 221.

DR. CARL SAGAN

September 13, 1990

Carl Sagan is the David Duncan Professor of Astronomy and Space Sciences and Director of the Laboratory for Planetary Studies at Cornell University. He has played a leading role in the Mariner, Viking and Voyager expeditions to the planets, for which he received the NASA Medal for Exceptional Scientific Achievement; the Prix Galabert, the international astronautics prize; the NASA Medal for Distinguished Public Service (twice); the Konstantin Tsiolkovsky Medal of the Soviet Cosmonautics Federation; and the John F. Kennedy Astronautics Award of the American Astronautical Society. His scientific research has enhanced our understanding of the greenhouse effect on Venus, dust storms on Mars, the organic haze on Titan, the origin of life, and the search for life elsewhere. Dr. Sagan has served as Chairman of the Division for Planetary Sciences of the American Astronomical Society, as President of the Planatology Section of the American Geophysical Union, and as Chairman of the Astronomy section of the American Association for the Advancement of Science. For 12 years he was Editor-in-Chief of *Icarus*, the leading professional journal devoted to planetary research. He is currently President of the Planetary Society, a 100,000-member organization which is the largest space-interest group in the world, and Distinguished Visiting Scientist, Jet Propulsion Laboratory, California Institute of Technology.

In addition to more than 600 published scientific papers and popular articles, Dr. Sagan is author, co-author or editor of more than twenty books, including *Broca's Brain*, *Comet*, *Contact*, and *The Dragons of Eden*, for which he was awarded the Pulitzer Prize. He was responsible for the Pioneer 10 and 11 plaques, and the Voyager 1 and 2 interstellar records, messages about ourselves sent to possible other civilizations in space. His Emmy and Peabody Award winning television series *Cosmos* became the most widely watched series in the history of American public television and has now been seen in 60 countries by over 300 million people. The accompanying book, also called *Cosmos*, was on the *New York Times* bestseller list for 70 weeks and is the best-selling science book ever published in the English language.

In recent years, Dr. Sagan and his colleagues have been engaged in research on the long-term consequences of nuclear war, un-

covering previously unsuspected dangers for our civilization and our species. Partly for this work, he has been given the Annual Awards for Public Service of the Federation of American Scientists and of Physicians for Social Responsibility, as well as the Leo Szilard Award for Physics in the public interest of the American Physical Society. Dr. Sagan has also received the Explorer's Club 75th Anniversary Award "for the achievements in furthering the spirit of exploration," the Joseph Priestly Award "for distinguished contributions to the welfare of mankind," and the Honda Prize "for contributions towards...a new era of human civilization."

College of Southern Idaho's
SMALL BUSINESS INCUBATOR

New Technology
Value-Added Business
Entrepreneurs

Research & Design
High Tech.
Economic Diversification

This new building on the CSI Campus is specifically designed to house new or expanding small businesses in their start-up phase (first two years) utilizing service and light-manufacturing technologies.

Southern Idaho Development Center was built with a combination of federal, state, and local funds, dedicated to the strengthening of the economy of the entire Magic Valley through an active involvement with the small business community.

The facility contains the offices of Region IV Development, the Private Industry Council, SCORE, JTPA, Small Business Development Center, and the Small Business Incubator. We have been told that this is the most comprehensive combination of economic development entities in the state of Idaho, and possibly anywhere else.

Further information on the services available can be obtained by calling 733-9554, Ext. 477 or 478.

ENRICHMENT CSI BLAINE COUNTY COMMUNITY EDUCATION OFF-CAMPUS CENTER

115 South Main
Fox Building, Suite H
Halley, Idaho 83333

ARTS AND CRAFTS

DRAWING FOR PAINTERS

You will explore the basics of drawing and composition as a preliminary step to painting. This class or a similar experience will be required to take the watercolor painting class offered in the Spring. Bring a drawing board, some 18-x-24-inch paper, and pencils to the first class. (5 sessions) \$40

Tuesday, October 2
7-9 PM, WRHS 0 Credit Zappell

ELEMENTARY JEWELRY FABRICATION

Working with silver, copper, or brass, you will learn how to make designer jewelry with a few simple tools that you can use at your kitchen table. The instructor will guide you through the process of sawing, soldering, filing, and polishing these metals as you create a pendant, bracelet, earrings, etc. Tools provided. Materials fee relative to project: minimum \$10. (4 sessions) \$50

Wednesday and Thursday, October 2
6:30-9:30 PM, WRHS 0 Credit Rodman

FOLK ART (BAUERNMALEREI)

Sometimes called "tole painting," this centuries-old art of decorating utilitarian objects can be an inexpensive and satisfying hobby. After practicing the basic strokes and set designs on wooden plaques, you will have the option of working on a large project such as a tray, cookie tin, or piece of furniture. Materials cost approximately \$15. (6 sessions) \$35

Monday, September 10
7-9 PM, Hemingway 0 Credit Schivone

BUSINESS

STARTING A SMALL BUSINESS

Tired of punching a time clock? This intensive six-week course will help you identify a need for your product or service, develop a business plan, get your business off the ground, decide on an organizational structure, and explore various options. (6 sessions) \$55

Tuesday, October 2
8:30-9 PM, Hemingway 0 Credit Rodman

COMPUTER APPLICATIONS FOR ACCOUNTING

Learn computer applications for a general ledger accounting system—accounts receivable, accounts payable, and payroll integration with the general ledger. Several different software packages will be discussed. Accounting experience, knowledge of double-entry bookkeeping, or a college-level accounting course required. (3 sessions) \$45

Tuesday, October 2
6-9 PM, Croy St. Exchange 0 Credit Thomas

HEALTH

MASSAGE

You will learn techniques from many different disciplines so that you will be confident, creative, and energetic when you give your next massage. Come prepared to participate and have fun. Bring paper, pen, one large and one small pillow or three large towels, and massage oil in a non-breaking bottle. Wear comfortable, loose clothing. (4 sessions) \$50

Tuesday, October 2
8:30-9:30 PM, Old Ketchum Town Square 0 Credit Allen

SWEDISH MASSAGE

You will learn the basic strokes of Swedish massage needed to give a relaxing, tension-releasing massage. Bring bathing suit, oil, and towels. ANNIE ALLEN, a graduate of the Berkeley School of Massage, has been working as a masseuse since 1975 and has taught massage in four-year colleges and community colleges from California to Alaska. (4 sessions) \$50

Wednesday, October 3
6:30-9:30 PM, 0 Credit Allen
Old Ketchum Town Square

IDAHO

PROSPECTING FOR VALUABLE MINERALS

This slide lecture and field trip course will introduce you to valuable mineral deposits through a discussion of these major topics: how minerals are formed, how to recognize valuable minerals in the field, how to test deposits for value, and how to research data on deposits. Three evenings in the classroom will be followed by a Saturday day trip to a silver field or mine. (4 sessions) \$45

Monday, Wednesday, Thursday and Saturday
September 17
7-10 PM, WRHS (all day field, Sat) 0 Credit Deo

BEGINNING PHOTOGRAPHY

This class will be a fun non-technical approach to photography. We will explore step-by-step how to use to your advantage your camera, lenses, and different types of film. We will learn how to improve composition and exposure with lighting demonstrations showing the different kinds of light and how to use them in snapshots, nature, scenic, wildlife, and portrait photography. (7 sessions) \$60

Monday, September 17
7-9:30 PM, Community School 0 Credit Hogler

JOB SKILLS**BEGINNING ARCHITECTURAL DESIGN AND DRAFTING**

If you are a builder, realtor, homeowner, or other interested person, this class will cover information about drafting tools, dimensioning, and other aspects of structural plans. Materials cost approximately \$40. (10 sessions) \$65

Thursday, September 13
7-9 PM, WRHS 0 Credit Sarich

BEGINNING TYPING

Typewriting is a skill that can be utilized at home, in the office, or for computer keyboarding. You will learn to type by touch, improve your speed and accuracy, and become familiar with basic typing formats such as personal/business letters and reports. Includes optional 4-hour word processing component. (6 sessions) \$45

Thursday, September 27
6:30-8:30 PM, WRHS 0 Credit Davies

BOOKKEEPING CLINIC

Under the guidance of an experienced bookkeeper, you will learn how to set up a bookkeeping system. Class includes information on spreadsheets, ledgers, checkbook reconciliation, profit and loss statements, tax preparation, legal deductions, and billing. (4 sessions) \$40

Wednesday, October 10
7-9 PM, WRHS 0 Credit Duncan

**WELCOME!**

This new schedule is the result of your tremendous response to our program! Last year over 1200 residents enrolled in Blaine County Community Education/College of Southern Idaho classes in Blaine County. In ten years we have grown 600%.

Education is important to people in the Wood River Valley. Over 30% of you have a four-year college degree and many more of you have attended a school of higher education at least some time in your lives. You support and encourage the best possible programs and facilities for your children and you want the continued challenge of learning new information and new skills as adults.

Here at BCCE/CSI we have continually expanded to meet your needs. Originating in 1979 strictly as a non-credit program, BCCE became partners with CSI in Twin Falls in 1985 to become the third of CSI's outreach centers. We could now offer you the opportunity to complete an Associate of Arts degree. Apprenticeship classes were added for electricians and plumbers working toward their journeymen's license.

You asked for more sophisticated computer classes and we responded by updating both our machines and our software. In our classroom in Hailey, we now schedule as many

LANGUAGE**CONVERSATIONAL SPANISH**

Considering traveling to a Spanish-speaking country or just going to a foreign film? You will develop basic foreign language skills in a class designed for people who know very little or no Spanish at all. Textbooks required. (12 sessions) \$69

Tuesdays and Thursdays, October 9
6:30-8:30 PM, Community School 0 Credit Lindahl

INTRODUCTION TO LATIN

Become acquainted with Latin grammar, vocabulary, and inflected forms. As a result of your studies, you will gain knowledge and appreciation of classical studies as well as an enhanced English vocabulary. (12 sessions) \$69 plus book.

Monday and Wednesday, September 24
7-9 PM, WRHS 0 Credit Sihl

BEGINNING GERMAN

The goal of this course is to develop the four basic language skills: reading, writing, understanding, and speaking, with the principal emphasis on spoken German. The interesting text provides a good understanding of contemporary German culture. (12 sessions) \$69

Monday and Wednesday, September 10
7-9 PM, Hemingway 0 Credit Schlawone

as 30 computer workshops annually, some contracted for by local businesses. These range from introductory classes to more advanced accounting workshops. Within the next two years we hope to be able to offer you such programs as Computer Aided Drafting and R-Base.

We have had numerous requests for GED testing and have recently begun giving such testing on a regularly-scheduled basis. You may also designate our office as a testing site for correspondence courses. Last year we added a pilot series of Classes for Young People which has been very popular. English as a Second Language, Literacy, and the federally mandated Amnesty program are all available under coordinate Joan Davies. Many of you have given generously of your time as volunteer tutors under this program.

We look forward to meeting your continuing education needs in the years to come with a state-of-the-art two-way interactive telecommunications system. Our future is bright in this Centennial year and we thank all of you who have participated as both teachers and students.

Florence K. Blanchard
Program Director

PERSONAL GROWTH**INTRODUCTION TO MEDITATION**

This class is designed as an exploration of various meditation techniques. Through this exploration and experience, you will have enough information to develop your own techniques and personal style. Along with technique, we will discuss the metaphysical principles that are involved in the meditation process. Textbook *Journal of Awakening* by Ram Das, \$4.95. (5 sessions) \$35

Monday, October 1
7:30 PM, Ketchum-Old Town Square 0 Credit Hru

ADULT CHILDREN OF DYSFUNCTIONAL FAMILIES

This class is for people interested in learning more about the concept of "Adult Children of Dysfunctional Families." Terms will be defined and explained along with discussions on codependence, on the pain of the adult child, on what this means, on how it affects our lives—relationships in particular—on what to do about it, and on what healthy parenting and functional families are. (3 sessions) \$25

Wednesday, October 31
7-8:30 PM, 0 Credit Janson
Blaine County Courthouse

POTPOURI**YOUR ROOTS TREASURE HUNT**

This class will help you get started compiling your family history. You will be able to check out what has already been done on your line, to learn how to search for original documents, and to learn how to use the Personal Ancestral File (PAF) computer software program published by the L.D.S. Church for use by anyone. The Family History Library in Hailey is a branch of the Family History Library of Salt Lake City and has access to all of the records there. (4 sessions) \$15

Thursday, September 20
7-9 PM, LDS Church, Hailey 0 Credit Griggs

ACADEMIC MINI-CASSIA CENTER

1458 Overland Avenue

Wednesday, August 29 3 Credits Seyer

ART

DESIGN

Elements of design explored through various media in two- and three-dimensional problems. Emphasis is placed on developing control over form, color, texture, line, and value. \$120

Section 10132.7702 ART 105
Tuesday, August 28 3 Credits Youngman

INTERMEDIATE DRAWING I

Exploration of drawing various media and techniques, with emphasis on pictorial composition. \$80

Section 10157.7702 ART 211
Tuesday, August 28 2 Credits Youngman

BIOLOGY

CONCEPTS OF BIOLOGY

An introduction course for nonscience majors. The course will provide an introduction to the principles and processes that apply to living matter, with particular emphasis on the biology of man, human behavior, human genetics, and the relationship of man to his environment. Study of plants and other animal materials will be included in order to illustrate the broad range of life processes. Lecture Monday 7-9 PM; lab at CSI, Thursdays 7-10 PM. \$160 plus book.

Section BIO 100
Monday, Thursday August 27 4 Credits Suggen

BUSINESS

PRINCIPLES OF ACCOUNTING

Basic accounting principles, journal ledgers, and controlling and subsidiary records will be covered. Emphasis on preparation and use of financial statements. \$180 plus book.

Section 10020.7702 AGCF-201
Wednesday, August 29 4 Credits Aston

PRINCIPLES OF MARKETING

A survey course covering the basic elements of marketing and the marketing process. An analysis of product, pricing, promotion, and distribution. Attention given to consumer motivation and factors leading to ultimate buying decisions. \$120 plus book.

Section 10296.7701 BA 260
Wednesday, August 29 3 Credits Heiner

LEGAL ENVIRONMENT OF BUSINESS

Emphasis will be on both the external and internal legal environment of a business organization. Topics will include the nature and function of the legal process; administrative regulations; the interaction of business with the judicial, legislative, and executive branches of the government; and the legal responsibilities of business. \$120 plus book.

Section 10041.7701 BA 265
Friday, August 31 3 Credits Heiner

CAREER AND EDUCATION COUNSELING

CAREER/LIFE PLANNING

This course is designed to help people explore their interests, abilities, strengths, weaknesses, likes, and dislikes, and to relate this information to the world of work; career selection; and life planning. The course will involve interest, ability, and value analysis as well as an examination of the world of work. The student will be given an opportunity to learn the process of setting goals and, as part of the course, actually write down a few immediate and long-term goals. Resumé development, interviewing techniques, and other job-seeking skills will be covered in the course. \$80 plus book.

Section 10718.7702 SP 640
Wednesday, September 29 2 Credits Randolph

COMPUTER

INTRODUCTION TO DATA PROCESSING

An introduction to basic computer concepts and the structure and organization of computer systems. This course covers a brief history of computer development, mathematical systems, logic, familiarization with equipment, and concepts of the computer. Includes hands-on lab with popular application software. \$80 plus book.

Section 10222.7701 CS 101
Tuesday, August 28 9-11 AM 2 Credits Heiner

Section 10222.7703 CS 101
Tuesday, August 28 9-11 AM 2 Credits Heiner

Section 10222.7702 CS 101
Tuesday, August 28 8-10 PM 2 Credits Heiner

Section 10222.7705 CS-101
Wednesday, September 5 4:15-6:50 PM 2 Credits Parker

Section 10222.7704 CS 101
Wednesday, September 5 7-10 PM 2 Credits Parker

ECONOMICS

PRINCIPLES OF ECONOMICS (MACRO)

This course includes organization and operation of the American economy, supply and demand analysis, money and banking, employment and aggregate output, public finance, and economic growth. \$120 plus book.

Section 10074.7701 ECON 201
Monday, August 27 7:30 PM 3 Credits Heiner

EDUCATION

FOUNDATIONS OF EDUCATION

An introduction to the history of education, the place of the school in the social milieu, the basic principles under which our schools are operated. Consideration of contemporary education philosophy. \$120 plus book.

Section 10468.7702 ED 201
Thursday, August 30 4:15-6:45 PM 3 Credits Bagwell

APPLIED EDUCATION

Applied principles of education in the fields of practice teaching, teacher aide, playground director, or other related areas.

Section 10621.7501 ED 202
TBA
TBA 3.4 Credits Keith

AIDE EXPERIENCE

The student will be assigned to classrooms at various levels, preschool through adult. Seminar meetings will be included. \$40

Section 10677.7702 ED 203
Tuesday, August 28
7-10 PM 1 Credit Shoppell

MAINSTREAMING AND MULTICULTURAL EDUCATION

This course is designed to acquaint education majors with information related to teaching exceptional students in the regular classroom. It should also assist students in gaining an appreciation of the individual differences of students regardless of race, sex, or national origins. \$120 plus book.

Section 11675.7702 ED 204
Monday, August 27
7-10 PM 3 Credits Dr. Croft

ENGLISH*****ENGLISH TESTING*****

Students will be assigned to English 020 or English 101 on the basis of their asset scores alone. On the first night of class, the instructor will request a writing sample to verify the student's class placement.

DEVELOPMENTAL ENGLISH

A study of the basic concepts of standard English in essay composition, with emphasis on grammar and the mechanics of sentence construction and paragraph development. \$120 plus book.

Section 10089.7702 ENGL 020
Monday, August 27
7-10 PM 3 Credits Sloan

ENGLISH COMPOSITION

A course in effective essay writing, emphasizing the strategies of rhetoric and methods of research. \$120 plus book.

Section 10604.7706 ENGL 101
Tuesday, August 28
7-10 PM 3 Credits Sloan
(This class will be taught on computers.)

ENGLISH COMPOSITION

A study of language in its art forms, with emphasis on reading and writing about literature. \$120 plus book.

Section 10081.7707 ENGL 102
Thursday, August 30
7-10 PM 3 Credits Larson

FINANCE**PERSONAL FINANCE I**

An introductory course for business and non-business majors dealing with financial planning including budgeting, insurance, Social Security, personal income taxes, banking and credit, and other areas that students will encounter in dealing with business institutions and business situations. \$120 plus book.

Independent Study
TBA 1 Credit Anderson

SUCCESS AND**MOTIVATIONAL DEVELOPMENT**

An individualized course utilizing audio cassettes to learn techniques of personal motivation that can lead to successful living. Learn how to increase your personal productivity. Learn about time organization, effective problem solving, decision making, personal goal setting. \$40

Section 50087.7701 MM 165
Independent Study
TBA 1 Credit Anderson

MATH**BEGINNING ALGEBRA**

Algebraic algebra, the number line, exponents, polynomials, fractions, first degree equations of one variable, formula evaluation, and radical expressions. \$120 plus book.

Section 10242.7701 MATH 010
Wednesday, August 29
4:15-6:50 PM 3 Credits Levin

INTERMEDIATE ALGEBRA

Linear equations and inequalities, exponents and radicals; first and second equations of two variables, linear analytic geometry, functions, systems of equations, relations and graphs of inequalities. \$160 plus book.

Section 10243.7701 MATH 020
Monday, August 27
4:15-6:50 PM 4 Credits Miller

A CULTURAL APPROACH TO MATHEMATICS

Designed for liberal arts students, the course provides an opportunity to acquire an appreciation of the nature of mathematics and its relation to other aspects of our culture. The humanistic aspect of mathematics is emphasized to help cultivate creativity and abstract thought processes that are rigorous but not rigid. \$120 plus book.

Section 10244.7701 MATH 102
Tuesday, August 28
7-9:30 PM 3 Credits Levin

MATH FOR TEACHERS

Elements of set theory, systems of numerations, bases other than 10, relations, functions, the whole numbers, integers, rational and real numbers, geometry, probability and logic statistics. \$120 plus book.

Section 10918.7701 MATH 135
Wednesday, August 29
7-9:30 PM 3 Credits Levin

COLLEGE ALGEBRA

Real and complex numbers, functions, equations, inequalities, polynomials, rational functions, exponential and logarithmic functions, systems of equations. \$120 plus book.

Section 10920.7701 MATH 140
Tuesday, August 28
4:15-6:50 PM 3 Credits Levin

TRIGONOMETRY

Only for students with algebra equivalent to MATH 140 without trigonometry. Students desiring both algebra and trigonometry should take MATH 155. \$80 plus book.

Section 10921.7701 MATH 160
Monday, August 27
7-9 PM 2 Credits Miller

MUSIC

MUSIC APPRECIATION

A nontechnical course designed to provide a basis for enjoyable listening through the discovery of stylistic differences between historical eras and the individual composers within the eras and through the awareness of the various performance media. \$120 plus book.

Section 10186.7702 MUSIC 107
 Thursday, August 30
 7-9:30 PM 3 Credits Nelson

PHYSICAL EDUCATION

BEGINNING KARATE

Instruction and participation in the skills and techniques of Karate. \$40

Section 10099.7702 RE 422
 Tuesday, Thursday, September 4
 7-8 PM 1 Credit Gabbert

ACTIVITY-BY-CONTRACT (ABC)

Activity-By-Contract is designed to provide students a meaningful and practical toning exercise experience by setting aside a regular flexible activity schedule and choices in activities. \$40

Section 10747.7703 PE 118
 Monday, August 27
 TBA 1 Credit Granada

FIRST AID & CPR

This first aid and emergency care course is designed to meet the needs of individuals and groups who are in a position to provide first aid frequently. The course provides the essential knowledge and skills required by individuals interested in advanced rescue work. The American Red Cross Certificate is issued to students successfully completing the course. Cardiopulmonary resuscitation is included in this course. \$80 plus book.

Section 10322.7705 PE 150
 Tuesday, August 28
 7-10 PM 2 Credits Edwards

PROFESSIONAL STUDIES

BEGINNING SIGN LANGUAGE 1

Pidgin Sign English is a mixture of American Sign Language (ASL) and English. It is the most common form of signing between deaf and hearing adults. All signers and nonsigners are welcomed. \$40

 Thursday, September 6
 7-9 PM 1 Credit Mitchell

SIGN LANGUAGE 2

This is a continuation of the Pidgin Sign English course, a mixture of ASL and English. Beginning Sign Language or permission from the instructor is required. \$40 plus book.

Section 11413.7701 PSSL 151
 Thursday, November 1
 7-9 PM 1 Credit Mitchell

PROFESSIONAL STUDIES COMPUTERS

INTRODUCTION TO COMPUTERS

A beginning class in IBM or Leading Edge software applications for business and home use, including hands-on experience in word processing, spreadsheets, and database merge.

Section 10769.7701 PSCE 101
 Monday, September 10 to October 8
 7-10 PM 1 Credit Staff

Section 10768.7704 PSCE 101
 Thursday, September 13 to October 11
 7-10 PM 1 Credit Parker

Section 10768.7702 PSCE 101
 Monday, October 15 to November 12
 7-10 PM 1 Credit Parker

Section 10769.7703 PSCE 101
 Thursday, October 18 to November 15
 7-10 PM 1 Credit Parker

LOTUS 1-2-3 LEVEL 1

Topics of this popular software course will include Lotus 1-2-3 spreadsheet commands, graphics, database features, and an introduction to macros. (15 hours-5 sessions) \$62

Section 10771.7701 PSCE 111
 Saturday, September 8 to October 6
 9 AM-12 Noon 1 Credit Parker

WORD PERFECT LEVEL 1 WORD PROCESSING 5.0

Intensive hands-on training in practical application of this popular word processing software. (15 hours-5 sessions) \$69

Section 10775.7703 PSCE 144
 Monday, September 10 to October 8
 7-10 PM 1 Credit Parker

Section 10776.7701 PSCE 144
 Thursday, September 13 to October-11
 4:30-7 PM 1 Credit Parker

Section 10775.7702 PSCE 144
 Thursday, October 18 to November 15
 7-10 PM 1 Credit Parker

WORD PERFECT LEVEL 2 WORD PROCESSING 5.0

Continued instruction in practical applications such as mailmerge, macros, file management, and other advanced features will be included. Students should have completed Word Perfect Level 1 class. (15 hours-5 sessions) \$69

Section 10776.7701 PSCE 144
 Monday, October 15 to November 12
 7-10 PM 1 Credit Parker

DOS LEVEL 1

An overview of the Disk Operating System for IBM and compatible microcomputers. Includes basic history of DOS and its role in the computer system, with hands-on experience in preparing diskettes, copying diskettes and files, and learning basic DOS concepts. (15 hours-5 sessions) \$49

Section 10819.7701 PSCE 158
 Thursday, September 13 to October 11
 7-10 PM 1 Credit Parker

PSYCHOLOGY

GENERAL PSYCHOLOGY

The study of human behavior. This includes development of language, thinking, and personality. Also includes into learning processes, conditioning, forgetting, attention, perception, motivation, emotions, leadership, reactions to stress, deviance, and psychotherapy. \$120 plus book.

Section 10288.7707 PSYC 101
 Wednesday, August 29
 7-9:30 PM 3 Credits Bagwell

CHILD & ADOLESCENT GROWTH AND DEVELOPMENT

From conception through adolescence, biological changes during development, learning, socialization, personality, and patterns of child rearing. \$120 plus book.

Section 11179.7704 PSYC 201
 Thursday, August 30
 7-9:30 PM 3 Credits Bagwell

SPANISH

ELEMENTARY SPANISH

Pronunciation, vocabulary study, reading practice, exercises in spoken Spanish, and functional grammar. Emphasis is placed on acquiring a nucleus of practical Spanish which can be developed into true oral proficiency. \$160 plus book.

Section 10124.7703 SPAN 101
 Tuesday, Thursday, August 28
 4:15-6:50 PM 4 Credits Jensen

SPEECH

FUNDAMENTALS OF SPEECH

An introduction to the skills and techniques of effective oral communication with emphasis on content, organization, audience, motivation, persuasion, and listening. Also designed to develop and strengthen poise in speaking to others. Extemporeous classroom speaking with constructive criticism of performance. \$80 plus book.

Section 10211.7712 SPCH 101
 Monday, August 27
 4:15-6:50 PM 2 Credits Hollifield

STATISTICAL PROCESS CONTROL

QUALITY ALERT (PROBLEM SOLVING)

This course helps students identify what a true problem is and how to select a problem to cure. They learn to define the situation, implement a fix, identify the root causes, take corrective action, evaluate and follow up, and organize a group, and work together to solve the problem forever. \$120 plus book.

Section 11386.7701 PSBA 110
 TBA 3 Credits Staff

CONTINUOUS QUALITY IMPROVEMENT

This course teaches a basic understanding of the improvement quality. The students will complete workshops addressing the areas of identifying requirements, using prevention, understanding zero defects, calculating the price of nonconformance, developing team work, measuring, analyzing problems, eliminating causes, and improving supplier/customer relationships.

Section 11562.7702 PSBA 112
TBA 4 Credits Staff

BASIC STATISTICAL TECHNIQUES

Basic statistical techniques used for decision making in the analysis and control of quality. Discussion of the principles of total quality control and the statistical tools used in process control, purchased material control, reliability, and costs with emphasis on techniques for decision making. \$120 plus book.

Section 11562.7701 PSBA 270
TBA 3 Credits Staff

STUDY SKILLS**MATH CONCEPTS**

Designed to improve a student's arithmetic skill. Whole number operations, fractions, decimals, ratios, and percentages are covered in this course. \$80 plus book.

Section 10666.7705 SS 000
Monday, August 27 9-9 PM 2 Credits Coffer

BASIC ENGLISH

This course is designed to develop and reinforce understanding of basic English grammar skills including punctuation, capitalization, pronoun usage, irregular verbs, parts of speech, fragments, compound sentences, complex sentences, and subject-verb agreement. \$80 plus book.

Section SS 011
TBA 2 Credits Baker

TRADE AND INDUSTRIAL**ELECTRICAL APPRENTICESHIP 1st and 2nd Year**

This module includes safety, tools, electrical theory, conductors, insulation, trade math. \$165 plus book.

Section 60181.7702 APEL 016
Tuesday and Thursday 8:30-9 PM 2 Credits Larson

ELECTRICAL APPRENTICESHIP

The third-year module includes blueprint reading, over-current protection, motor circuits, and service equipment. Also included are requirements for commercial wiring, busways, wire pulling, and the National Electrical Code articles that apply. The fourth-year material covers a review of electrical safety as well as reading wiring diagrams and transformer connections, solid state fundamentals, metering, and special occupancies. \$155 plus book.

Section 60188.7702 APEL 022
Tuesday and Thursday 8:30-9:30 PM 2 Credits Larson

MINI-CASSIA ENRICHMENT PROGRAM

The CSI Mini-Cassia Center is located at 1458 Overland Avenue, Burley, Idaho across the street from the Burley Courthouse. Telephone 678-1400.

The College of Southern Idaho Mini-Cassia Enrichment program is based on the concept that learning is a lifelong process, and we try to provide various kinds of learning experiences for community members of all ages. Our purpose is to make available a variety of classes in both Minidoka and Cassia counties. Where there is a need, your Mini-Cassia Enrichment program is anxious to provide resources to serve you. Please call to let us know what we can do for you!

Instructors are chosen for their unique ability to instruct or share a skill with the community. We are interested in offering workshops, seminars, short courses, special interest classes, and youth enrichment programs. If you want to see a particular course offered or if you are interested in instructing a class, please contact Denise Dietz at the CSI Mini-Cassia Center.

All classes are self-supporting and require a sufficient enrollment in order to meet the cost. Therefore, students are requested to preregister for each class at least one week prior to the starting date. Classes which register on a monthly basis, such as gymnastics, dance, self-defense, and fitness classes, will begin the week of September 3. Other short course enrichment classes will begin in October and November.

A BROCHURE LISTING ALL ENRICHMENT CLASSES IN THE MINI-CASSIA AREA WILL BE AVAILABLE IN LOCAL BUSINESSES, SCHOOLS, LIBRARIES, AND AT THE CSI-MINI-CASSIA CENTER IN AUGUST.

If you would like a brochure mailed to you, please contact the CSI Mini-Cassia Center.

CSI NONCREDIT ENRICHMENT CLASSES TO BE OFFERED FALL 1990

CONTINUOUS CLASSES REGISTERING ON A MONTHLY BASIS:

Thursday, August 30 to December 20
6:30-9:30 PM 3 Credits Hunzaker
Wendell H.S.

SOCIAL PROBLEMS

Examines some of the primary forms of deviance and social disorganization which face our society at the present time. Emphasizes the problems which face American society in particular, including crime, alcoholism, problems of the elderly, racial prejudice, overurbanization and others. In the discussion of a specific problem there will be an attempt to examine basic causes, ultimate effects on both individuals and society, and possible solutions. \$120 plus book.

Section 10496.7702 SOC 102
Monday, August 27 to December 17
7-9:30 PM 3 Credits Speyer
Wendell H.S.

WAR AND PEACE IN THE NUCLEAR AGE

This 13-part telecourse follows the development of both nuclear weapons and nuclear issues. Through archival film footage and recent interviews with key Soviet, American, European, and Asian participants, the course shows how nuclear politics and technology have influenced international relations and contemporary thought. By incorporating a variety of perspectives—political, historical, philosophical, and scientific—the students are provided a solid foundation of knowledge upon which they can base their views of the nuclear future. One one-hour program will be shown each Saturday. \$120 plus books.

Section 10854.7701 SOC SCI 200
Saturday, August 25 to November 17
12 noon-1 PM 3 Credits Powers
KAID, Channel 4

VOCATIONAL CLASSES

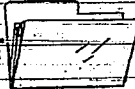

OFFICE OCCUPATIONS

INTRODUCTION TO BOOKKEEPING

This class covers the following: recording transactions in special journals, general and subsidiary ledgers, accrual accounting, adjusting and closing entries through the use of worksheets, preparation of financial statements, and accounting for the purchase and sale of merchandise. No prerequisite. \$160 plus books.

Monday, Wednesday, August 28 to December 20
6:30-9:30 PM 4 Credits John
Wendell H.S.

TELECOURSES

THE BUSINESS FILE

This 28-part telecourse is an introduction to business course designed for people already in the work force as well as those wanting to explore a career in the worlds of manufacturing, trade, or finance. The course covers everything from learning and managing a small business and its personnel to production, marketing, accounting, investing, legal concerns, and the challenges of doing business in an international arena and in a high-tech era. Two parts will be shown back-to-back each Saturday. \$120 plus book.

Section 10284.7701 and 10284.7702 BA 101
Saturday, August 25 to November 24
8-4 PM 3 Credits Hurley
KAID, Channel 4

GOVERNMENT BY CONSENT

This 26-part American government survey telecourse focuses on teaching students how to access their government. The course content combines political science instruction with examples of how students involve themselves in government. Interviews with political movers and shakers, minidocumentary segments showing how individuals are making a difference, and animation and graphics that vividly explain complex concepts and processes are used to enhance the immediacy and relevance of the course. Two parts shown back-to-back each Friday. \$120 plus books.

Section 10488.7704 POL SCI 101
Friday, August 31 to November 23
6:45-7:45 AM 3 Credits Powers
KAID, Channel 4
