## Magic Valley

### Misappropriation charged

A civil lawsuit has been filed in 5th District Court in an attempt to reclaim nearly \$700,000 allegedly taken by a real estate developer's accountant.

Page A5

### Workers get merit raise

Twin Falls County workers will get an 8-percent pay raise starting Oct. 1, including a 3-percent "discretionary" increase.

Page A5

### City approves budget

The Twin Falls City Council approved a \$15.9 million budget Friday, 7 percent bigger than the current budget.

Page A5

## Sports

### Bruins meet Minico

Twin Falls faced Minico in the season's second weekend of prep football.

Page B1

### Rodeo windup tonight

The bucking and bouncing at the Twin Falls County Rodeo went through round three Friday and concludes tonight.

Page B1

### Grid paradise lost

An author looking to find the ideal situation for a high school football discovered the pigskin paradise he thought existed in Odessa, Tex., could not survive a close look.

Page B4

### Tales of terror in Kuwait

Americans arriving in Amman, Jordan, from Kuwait tell tales of terror and hunger in the wake of the Iraqi invasion. "People are frightened... running out of food," said Patricia Hammer of Denver.

Page A3

### Steroid use growing

Teenagers unfazed by warnings of health risks are apparently increasing their use of body-building steroids, federal health officials say.

Page A3

### Taylor's doctors charged

Three doctors caring for actress Elizabeth Taylor face charges of over-prescribing addictive painkillers. She allegedly received over 1,000 prescriptions during a five-year period.

Page A11

## Idaho

### More corrections money

The Idaho Department of Corrections says it plans to seek a 35 percent increase in spending authorization for the next fiscal year.

Page A9

### Funding fuss continues

Sources of campaign contributions continue to be the focal point of verbal exchanges between Idaho's gubernatorial candidates as the campaign proceeds.

MIKE SABOL/SURVIVORS/Times-News  
Richard Cranmer, 52, has been a carnival worker for the past 30 years.

## Expert on carnival rides keeps his feet on ground

By Mark Kind

Times-News writer

**FILER** — He knows all there is to know about Super Loops, the Zipper, and the bumper cars — he can tear them down and set them up with his eyes closed, his boss said — but he doesn't know the exhilaration of actually spinning, whirling, and zipping through the air.

"I don't ride them," said Richard Cranmer, 52.

He left Jerome 35 years ago halfway through the tenth grade and joined the carnival a few years later. He returns to the

Magic Valley four times a year with Royal West Amusements.

At first he worked in the game booths hustling carnival funseekers for a spin of the wheel, a toss of the darts, or a pitch of a dime.

"I went from there to the wheel," he said, referring to the 40-foot-tall, the only ride that he hates to operate, but does occasionally ride.

"He's seen every piece of equipment since the first day it got here," said Dave Cook, a former political consultant and Nevada commissioner of consumer affairs, who now manages Royal West Amusements.

"Life on the road is hard," Cook said.

"We have eight months on and four months off. During these eight months, you just don't have days off."

When workers aren't running rides or disassembling them, they're setting up rides or hauling them.

But the pay is better than most people expect, Cook said. Certified trail drivers start at more than \$300 per week, with living quarters provided. But on the road, living quarters aren't really separate from working quarters, he said.

"You work very long hours," he said.

## Fair facts

Saturday  
Gates open: 8 a.m. to midnight  
Carnival open: 11:30 a.m. to midnight

Attendance: 20,410 people attended Thursday, compared with 17,834 who attended on Thursday last year.

The total attendance this year as of Thursday was 80,147, compared with 78,810 last year.

### Today's highlights

8 a.m. — Wranglerette horse show

9 a.m. — Paint horse halter, Centennial Arena

10 a.m. — 4-H and Future Farmers

Fat Stock Sale, Sale Ring

11 a.m. — Free entertainment at Split Stage and Music Magic Stage

1 p.m. — Living museum opens, east of Tom Park Pavilion.

2 p.m. — Pedal Puller championship, south of Tom Park Pavilion

7 p.m. — Pre-rodeo entertainment, rodeo arena

8 p.m. — Professional Rodeo Cowboy Association-sanctioned rodeo, Crowning of Miss Rodeo Idaho

9 p.m. — Teen dance, Music Magic Stage

The session is to focus primarily on the Persian Gulf crisis.

The president and the Soviet leader are to meet for five hours of talk and one-hour lunch in the Finnish capital on Sunday.

Administration officials said that the summit, which Bush proposed, was designed as an informal session for consultation and that it was unlikely to produce any major announcements or new initiatives.

## 165 Americans fly to freedom

The Associated Press

### More money due - A4

A U.S.-chartered airliner plucked 165 Americans from occupied Kuwait on Friday and carried them to safety in Jordan, raising hopes the pace of freedom flights might quicken.

One surviving American said, "It's terrible there."

U.S. officials say the 100,000-strong American force in the Persian Gulf region is costing about \$1 billion a month, and Japan, South Korea and Kuwait on Friday promised financial aid to defray the cost.

But European Community ministers meeting in Rome on Friday made no move to help bankroll the American troops in the gulf.

In Kuwait, a few foreign embassies — including the U.S. mission — were still defying a 2-week-old Iraqi order to shut their doors. But without power, water, telephone service or food, the diplomats were being forced to retreat. Norway said it planned to evacuate its embassy Saturday.

Humanitarian sites have tried to stay open in part to avoid the appearance of having accepted Iraq's annexation of the emirate, and in part to try to provide protection to their citizens.

But there was less and less they could do to help Americans arrive in the Jordanian capital of Amman in Friday aboard a U.S.-chartered Iraqi Airways jet described as desperate conditions.

We are planning additional flights to evacuate remaining Americans," the spokesman said. "Of course, we are aware that Iraq has said that only women and children

Please see GULF/A2

## Iraq holds 90 Americans

The Associated Press

access," Dillon said.

Many of the Americans are believed to have been taken to military or industrial installations as "human shields" to deter against a potential American military attack on Iraq.

Dillon said the Iraqis have provided no additional information about an American who was shot by an Iraqi soldier earlier this week while trying to evade capture, the first incident of its kind since Iraq's Aug. 2 invasion of Kuwait.

Iraqi authorities told U.S. envoys on Thursday the man was not wounded severely and was expected to be released shortly from a hospital.

## Harvest gives big boost to area employment rate

By The Times-News  
and The Associated Press

### U.S. rate falters - A3

WASHINGTON — With harvest kicking into gear, the central Magic Valley continued to paint a strong employment picture, but was nowhere near the Wood River Valley's vigorous performance.

The adjusted unemployment rate for August in Twin Falls, Jerome and Gooding counties was 4.4 percent, down from 5.1 percent in July and last August's 4.9 percent.

Other indicators released Friday by the Bureau of Labor Statistics also showed continued strength in the area's labor market.

The labor force — people working or looking for work — grew slightly to 38,570 up 30 people from August 1989. The number of employed grew 210 workers to

36,720.

Strong seasonal farming, solid retail and manufacturing employment plus improved construction all came together to produce the low rate, Labor Market Analyst Lon McDonald of the department said.

Bonne County recorded a 2.5 percent adjusted employment rate. Out of an unadjusted labor force of 9,200, only 130 people were out of work.

Unadjusted numbers — the raw data before the department adjusts for such factors as seasonal fluctuations — showed a low, low 1.4 percent rate.

Figures for other Magic Valley counties were unavailable Friday.

Idaho's seasonally adjusted unemployment rate was 4.4 percent.

## World

# Countries promise Gulf help

TOKYO (AP) — Japan and South Korea joined Kuwait on Friday in pledging to contribute to the massive costs of the economic and military campaign in the Persian Gulf.

Treasury Secretary Nicholas Brady and Secretary of State James A. Baker III solicited the promises on their separate global fund-raising expeditions.

They were seeking support for an American plan that needs more than \$25 billion in aid to defray the costs of the U.S. troop buildup and to provide emergency economic relief to countries hurt by the U.N.-sponsored trade sanctions against Iraq.

The United States estimates it will cost about \$1 billion a month to keep American troops in the Mideast, with \$10.5 billion urgently needed to alleviate serious hardships in Jordan, Egypt and Turkey.

None of the world leaders provided any specifics, saying in most cases that they needed more time to review the request.

"I think Japan will give its support," Japanese Foreign Ministry spokesman Kenji Okamoto said after meeting with Baker in Saudi Arabia.

Baker, meanwhile, was garnering support among the oil-rich countries of the Mideast.

"We will not spare any amount or effort," said Kuwait's emir, who called monarchs from al-Sabah, said after meeting with Baker in Saudi Arabia.

"We will give whatever is necessary."

Al-Sabah's regime already has pledged to compensate Turkey for losses of up to \$2 billion from the shutdown of an Iraqi oil pipeline and the exiled-leader also said his government would contribute to the cost of the American military buildup.

On Thursday, Saudi Arabia promised several billion dollars toward the operation protecting the kingdom's oil fields from Iraqi aggression.

Baker was scheduled to go later Friday to Abu Dhabi for a meeting with President Zayed of the United Arab Emirates. U.S. warplanes are deployed in the Persian Gulf country to shield that country from Iraqi attack as well.

## 3rd party takes surprise victory in Ontario

TORONTO (AP) — The New Democratic Party ended a five-year Liberal Party rule in Ontario and gained its first legislative majority in elections in Canada's most populous province.

The NDP stunned the Liberals by taking 74 of the 130 seats in the legislature, knocking off Premier David Peterson and prominent Cabinet members. "We have an obligation to govern and provide people with leadership," the new premier added. "It was an election," said NDP leader Bob Rae, who had an easy victory in his Toronto district of York South in the Thursday election.

The Yukon territory has the only other government led by the Social Democratic Party, which supports a socialist platform.

Ontario, which has about 6 million voters, has been ruled by the Liberals since 1985.

Peterson was defeated by New Democrat challenger Marion Boyd, who runs a women's shelter in the district of London Center.

Conservative leader Mike Harris held onto one of the few northern Ontario seats the NDP did not seize.

## Obscure figure to head China's stuck economy

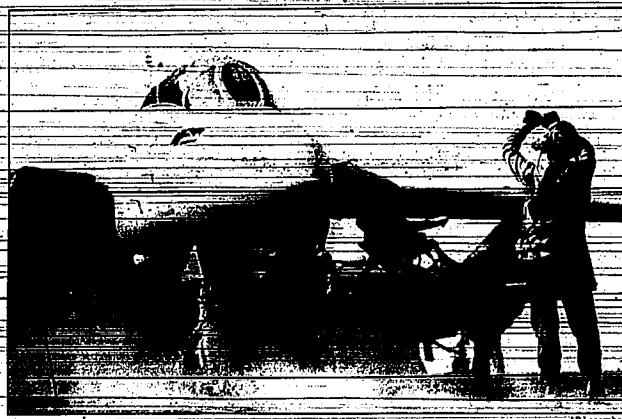

BEIJING (AP) — A little-known political and business figure was named Friday to replace Premier Li Peng as shepherd of China's stumbling economy.

It was not immediately known how the loss of the economic post could affect Li, 61, who faced accusations for his strict fiscal policies and his role in the 1989 crackdown on the nation's pro-democracy movement.

The China News Service said Li asked to be relieved as minister of the State Commission for Restructuring the Economy so he could concentrate on his new post as premier. Li took charge of the commission in 1988; the same year he became premier. Li remains one of China's top leaders and remains the main person in charge of economic policy on a day-to-day basis.

Radio Beijing and China Central Broadcasting said Li's replacement was Chen Jining, 61, a long-time leader in economic work who had been president of the China National Petrochemical Corp. since 1983.

## Combat suits may be chic but soldiers question their comfort

DAHHRAN, Saudi Arabia (AP) — and is the most popular. But the fabric American troops are clad in this is too heavy for the 100-plus latest in combat clothing — stylish desert temperatures, troops say.

two-piece suits specially designed for desert duty — but some soldiers "when they're outside to prevent sunburn" are not convinced their "fashionable" burn. The American women have

been told to stay covered so as not to offend Saudi sensibilities about bare

skin.

A rumpled forage hat, visored cap or jaunty beret is de rigueur. A cotton scarf to wipe sweat from the brow or guard against a sunburned neck is another must-have accessory.

Slung around the soldiers' waists are the trappings of desert life: a chemical gas mask, canteen, flashlight, knife, an M-16 slung over the shoulder is part of the uniform; lots

are 50 percent cotton and 50 percent nylon, a combination designed to make the material tough but breathable.

They come in varying tints, some soldiers complain — Lt. Col. Ned Longworth,

Soldiers give the uniforms high marks for comfort.

The baggy trousers have six pockets, including cargo pockets for notebooks and assorted items.

The highest blends in well with the sand.

Like "couture" outfits from Paris and Milan, the outfitts hang best on those who are tall and thin.

"It's a problem if you're short and fat," said Maj. Peggy Sweet, an Air Force logistics officer based at Myrtle Beach, S.C.

But the fit can be a problem for those who are tall and thin.

Troops from all services issued two or three uniforms before they left the United States. The uniforms were specially designed for desert situations, and that is the first time they have been used in a deployment.

T-shirts and underwear were not part of the package provided soldiers, so Ms. Colaw said she bought herself male boxer shorts because "they're cooler than the women's kind."

## Troubled Gorbachev heading to summit

MOSCOW (AP) — Mikhail S. Gorbachev carries a bag full of troubles to Helsinki.

He's attending a summit full of hope, with the United States and the Soviet Union united in opposition to the Iraqi invasion of Kuwait. It is the first time they have been on the same side of a global crisis since World War II.

But at home, Gorbachev's popularity is plummeting as the Soviet economy is defying predictions. It couldn't get worse, and most of the 15 Soviet republics, including Mother Russia, have declared sovereignty or independence from the Communist government that Gorbachev heads.

After the summit, Gorbachev is expected to rush back to Moscow to present economic reforms that are likely to strip central authorities of much of their domestic power and largely dismember the state-planning apparatus that Josef Stalin assembled at the cost of millions of lives.

Despite the tumult on the home front, Soviet Foreign Minister Edward A. Shevardnadze has hailed the Sunday summit in Helsinki as a "landmark." Soviet media are describing it as a new phase in superpower cooperation.

Hippe could well be made in Helsinki, identified, noted that even the United States generally seeks accord with its allies before exerting military muscle.

A senior Western diplomat was more cautious, simply saying, "It has been a major world event for quite some time now." That, he added, spoke of condition that he not be further identified, noted that even the

AP Laserphoto

nady Gerasimov said in an interview Friday that the Soviet Union would be willing to send military forces to the Middle East under a military staff committee that included officers from the five permanent members of the U.N. Security Council: the United States, Soviet Union, France, Britain and China.

The aim, he said, was not only to help the United States enforce Security Council sanctions against Iraq, but also to impose Soviet controls on any unilateral military actions against Iraq by the United States.

The implication is that despite the collapse of the Soviet empire in Eastern Europe and the malaise at home, the Soviet Union retains its superpower status.

But that view is not universally held. Andrei Korotun, a young Soviet scholar at the USA-Canada Institute, publicly classified his nation as a regular rather than a super power last June. His analysis has been embraced by a number of respected American sociologists.

The Soviet Union is not still a superpower, at least as pertains to its capability of projecting global power in a low-violence conflict. Of course, it still has vast nuclear arsenals," said Marshall Shulman, a Columbia University professor who is visiting Moscow.

A senior Western diplomat was

more cautious, simply saying, "It has been a major world event for quite some time now." That, he added,

spoke of condition that he not be further identified, noted that even the

United States generally seeks accord with its allies before exerting military muscle.

## Around the valley

### Drug trafficking nets 63 month sentence

BOISE — A Burley man described as the head of a Mini-Cassia area drug trafficking ring will spend more than five years in prison, a judge decided.

U.S. District Court Judge Edward Lodge on Friday sentenced Thomas A. Rudy to 63 months in federal prison followed by four years of supervised release, according to U.S. Attorney Maurice Ellsworth. Rudy must also pay a \$60,000 fine.

Rudy was indicted last winter on one count conspiracy to distribute controlled substances, two counts distributing cocaine, one count distributing marijuana and seven counts of using a telephone to commit a felony. He pleaded guilty to and was sentenced on one count conspiracy to distribute cocaine and marijuana Ellsworth said.

A total of six other Mini-Cassia men have been indicted and convicted as part of the same drug ring. Three of them, Salvador Rios, Gerald Red Draper Jr., and René Penites, still await sentencing.

Two of the six were indicted following

the June, 1989, seizure of 3 kilograms — about 7 pounds — of nearly pure cocaine at the Twin Falls-Sun Valley Regional Airport. At the time, authorities called it, the largest drug seizure in Idaho's history.

A federal investigator testified in February that Rudy financed the group's drug business and received most of its profits.

### Police arrest Pocatello man for reckless driving on U.S. 93

JACKPOT — A Pocatello man was arrested Tuesday night after running off the road a pickup carrying a fire chief and a judge.

Carl Mar, Jackpot fire chief and an Elko County special deputy sheriff, was traveling north on U.S. Highway 93 at 6:15 p.m. with a Jackpot justice of the peace, when the driver of a car six vehicles ahead of him drove erratically, Mar said.

But when came a semi truck traveling south, and Mar drove off the side of the road so the car could safely return to the northbound lane, he said. The driver completed the pass and sped on, but was pulled over 10 miles south of Jackpot by a sheriff's deputy radioed by Mar.

Daniel Edward Kellcher, 38, was charged with driving under the influence, reckless driving and possession of cocaine, Elko County Sheriff's Sgt. Jim Black said. He was transported to the Elko County jail and held on \$6,440 bail.

### Stallings, Andrus will help Robbins inaugurate offices

TWIN FALLS — Democratic Rep. Richard Stallings and Gov. Cecil D. Andrus will help Rep. Gary Robbins inaugurate his new campaign offices Wednesday.

Grand opening festivities will begin at 4 p.m. at Robbins' headquarters, 1023 Blue Lakes Drive N. in Twin Falls. The public is invited.

Robbins is running against former Rep. Russell Nesswoski for the state Senate seat representing Magic Valley's eight-county filer district.

The Robbins' headquarters telephone number is 734-0821.

### Appeals court agrees with 5th District license ruling

BOISE — A law enforcement officer must present a properly certified sworn statement before a driver's license can be suspended for refusing to take a blood-alcohol test, the Court of Appeals says.

The court on Friday agreed with 5th District Court that the license of Scott Hanson could not be seized in a Blaine County case, because the officer's sworn statement was not properly notarized.

An affidavit, or sworn statement, must be issued by the proper official, usually a Notary Public, after the officer appears in person and swears that the information is correct, the court said.

In Hanson's case, the officer took the affidavit to a Notary, but was not present when the official later signed it.

That invalidated the affidavit and thus officers had no grounds to seize Hanson's license for failure to take the breath test, the court said.

Court records said Hanson was cited two years ago for drunken driving and refused to allow a blood-alcohol test. The charge later was dismissed.

### Work begins on West Road railroad crossing in Burley

BURLEY — Work has begun on a rail-road crossing project on 300 West Road, according to the Idaho Transportation Department.

A detour will reroute traffic around the construction site; however, motorists are urged to use caution through the work zone area.

## Real estate developer sues former accountant

By Barbara Newert  
Times-News correspondent

HAILEY — A civil lawsuit has been filed in 5th District Court in an attempt to reclaim nearly \$700,000 allegedly taken by a real estate developer's accountant.

According to court documents, Thomas D. Hormel of H.H. Inc. discovered the missing funds on July 31, 1990, three years after hiring Janet Hamilton as his business manager. Hormel is seeking recovery of the \$667,019, now invested in real estate properties under Hamilton's name. He is also seeking \$100,000 for punitive damages in addition to attorney's fees.

Hormel claims Hamilton paid herself from Hormel's checking account a total of more than \$342,633 during the three years she was employed by Hormel.

The suit claims Hamilton purchased, under her own name real estate properties in the Warm Springs Village and Silverwood subdivisions totaling \$242,294 using funds from Hormel's checking accounts as the sole source of payment.

The suit also says Hamilton endorsed Hormel's name and deposited into her own bank account a check from First American Title Company for more than \$72,000.

According to court papers, money obtained from

Hormel's business was used to purchase, in Hamilton's name, four lots in the Lane Ranch subdivision, four Columbine condominiums, a Kynance condominium as well as four cars — a 1987 Saab, a 1959 Corvette, a 1988 Dodge caravan, and a 1988 Mercedes.

Hormel is seeking a temporary restraining order to prevent Hamilton from selling any of the property in question.

As of Friday, no criminal charges had been filed in connection with the suit.

The Times-News could not reach Janet Hamilton Friday evening for comment. Neither the Blaine county prosecutor nor Hormel's attorney could be reached for comment Friday afternoon.

## Councilman questions 'emergency' ordinance

By Terrell Williams  
Times-News correspondent

WENDELL — The City Council has passed a new mobile home ordinance to head off trailers moving into neighborhoods which several council members claim could decrease property values.

But one councilman says it was passed hurriedly for no reason.

The new regulations do not affect homes already in place.

The City Council passed the ordinance after one reading. It defined it as an "emergency" in order to dispense with the additional two readings required by law and make it effective at once.

Councilman Dale Bunn voted against the ordinance, saying this is not an emergency. "It doesn't hurt to have three readings," he said. "That gives people time to come up and show us where we're wrong ... I don't want to have to sign anything though."

The new ordinance states that mobile home must contain at least 900 square feet of living space, must be less than five years old, must rest on a concrete pads and must be on lot at least 50 feet wide.

Previous regulations allowed homes of any age, with a minimum of 400 square feet. And they could be placed on cinder blocks and on lots just 25 feet wide.

Bunn said he is not against the mobile home ordinance itself, but the people are entitled to know what is going on, he said.

However, Councilman Ron Finley said this was an emergency.

"There are people in town that are getting ready to put old trailers on empty lots," he said. "I think we should protect the people that want to live in nice neighborhood and have their property values stay up."

Notice of the ordinance was posted for 48 hours, he added, saying, "Ample time was given for the comment to comment."

According to a real estate agent, Finley said a "shabby trailer" will decrease the value of nearby properties by about \$7,000.

When every resident of a neighborhood is about to lose money invested in his home, it is an emergency for the council to post it, Finley explained.

He declined to name any particular neighborhoods where trailers would soon be located.

Mayor George Benson said the city has had complaints from various property owners about small trailers moving in next to them and lowering property values. The ordinance passed now will protect these

## County gives workers 8 percent pay increase

By Phil Sahn  
Times-News writer

your job like you should, you'll get the raise," he said. "We don't have any shirkers here."

The salary increase puts the county commissioners, clerk, treasurer and assessor at \$27,000 a year, a \$2,000 raise. Sheriff Jim Munn will make \$28,000, also up \$2,000.

Prosecutor K. Ellen Baxter will make \$22,300 and Public Defender Michael J. Wood's salary will rise to that figure as well, Hemphill said.

This year's \$2.5 million budget increased almost 8 percent from the current year's amount.

"We never give the cost-of-living raise," Jim Fraley said. The budget includes money for 15 more full-time employees.

Please see COUNTY/A6

## City manager calls budget a major shift in direction

By Phil Sahn  
Times-News writer

TWIN FALLS — The Twin Falls City Council approved a \$14.9 million budget Friday — a budget that City Manager Tom Courtney has called a shift in direction from the 1980s.

"Under the budget, residents can expect the city's portion of the property tax levy to increase an average of 5 percent, although Courtney said that figure will vary with individual valuations."

The \$14.9 million is 7.3 percent higher than the current budget. The operating budget, from which the city conducts most of its business, is currently at \$14.1 million.

Courtney originally submitted a budget of \$14.9 million, but about \$1 million was added from funds in this year's budget for

the Victory Bridge.

A resident's total tax bill will increase depending on how much the schools and highway districts, the county and College of Southern Idaho increase their portions.

The Twin Falls County budget call for increasing its portion of the levy 5 percent this year.

County Commissioner Marvin Hemphill said he was not aware of what increases, if any, had been requested by the school districts or CSI.

Water and sewer rates probably will remain the same but city residents' monthly sanitation charge could rise as much as 6.6 percent. Additionally, residents will see a 5 percent increase in their monthly monthly city service bills.

The change will help provide street lights and ease the burden on the general fund.

## Twin Falls County Fair Board plugs 2 leaks in arena

By Mark Kind  
Times-News writer

FIREFIGHTERS — What a difference 24 hours makes.

Wednesday night, rodeo ticket sales at the Twin Falls County Fair lagged behind last year's sales though attendance seemed to be greater judging from the crowded grandstand.

Before Thursday night's rodeo, the Fair Board saved

down a catwalk and locked a gate on the east side of the arena, hoping to make more people walk in it worked; apparently rodeo general admission ticket sales surged ahead, putting the rodeo \$1,000 ahead of last year as of Thursday night.

"We're plugging the leaks," Fair Manager Cindy Demoney said at the Fair Board's informal meeting at noon yesterday.

But the rodeo still has a long way to go — last year it lost \$20,000, although that number does not account for extra

general admission fare income from rodeo fans who paid at the fair gates as well as the rodeo gates.

Overall fair attendance also has caught up with last year. Two thousand more people attended the fair this week than did last year.

"After the start we've had, I think we can feel good about it," Demoney said.

## Nurse matches organ donors with recipients

BOISE (AP) — Virginia Zimmer watches for death.

It's grim work. But Zimmer can't let death have the final say.

There are miracles, and she somehow finds ways to turn grief and tragedy into joy.

"I tell people it's the gift of life — it's the

finest gift we can give."

At St. Alphonsus Regional Medical Center, the 55-year-old manager matches organ donors with people from all over the country who also watch for death.

For the thousands of seriously ill with diseased hearts, kidneys and livers, the choice is simple — a transplant or death. They wait anxiously for the call that another person has died so they might live.

The donors share a profile. They die quickly, violently. It may be a traffic accident, a blood vessel exploding in the brain, a suicide. In any event, the brain is destroyed while the organs still function.

Almost always, they're young.

They're 16 to 20 years old. That's why it's difficult. They're the hope of the family. They die, and it's tough," Zimmer says.

The awful moment comes when the family is told their loved one is dead. Machines can maintain the organs in a brain-dead person for a couple of days at most. Zimmer must work quickly, compassionately.

Gently, she tells the family of the donor program. She answers questions. The grieving struggle to understand.

"How do you know our son is dead? Because his brain shows no signs of activity. Will it hurt him?"

No. He can't feel pain now.

"Eighty percent say 'Yes,'" she says. "I've never had anybody say 'No' to a request to donate. They can only say 'No.'"

In 1986, Zimmer volunteered to coordinate organ donation at St. Alphonsus on top of her regular duties as a registered nurse. Her 24 years as an intensive-care nurse were ideal training.

The volunteer work grew into the full-time position of director of multicenter matching with the hospitals in northwestern Idaho. A top priority for Zimmer is to educate the public about the donor program.

Her first year, she managed 13 donor cases. There were 14 the following year. Then eight. And only four donors so far this year.

Nationally, donors of solid organs — like the heart, lungs, liver, kidneys and pancreas — fell from 3,975 two years ago to 3,898 in 1989. Yet the number of transplants rose more than 5 percent to 13,384.

In any given year, only 8,500 to 12,000 people could be considered to be donors, says Wanda Bond, a spokeswoman for the United Network for Organ Sharing in Richmond, Va.

It may be that hospitals already burdened with bureaucracy and red tape see the donor program as just one more thing to do," Bond says. She also thinks stricter drunken driving laws, higher seat belt use and more uniform health laws may all affect the number of available donors.

Zimmer says the number of donors appears

Virginia Zimmer is on call 24 hours a day, seven days a week waiting for word on organ transplant donors who can be matched with recipients.

small, but up to a half-dozen recipients may benefit from any one donor. Besides the organs, a donor may give his eyes for corneal transplants, bone to graft onto shattered limbs and skin to protect burn patients.

When they can donate," Zimmer says, "it's just like the donor family almost as much as the recipient family."

After a patient has died and permission is obtained from relatives to donate organs or tissue, an intricate choreography involving scores of people is performed. Most of the work must be done within 12 to 18 hours.

"We treat the donor respectfully," says Merle Ruel, an intensive-care nurse at St. Alphonsus.

"But we can't treat them as though they're going to get well. Now you're working to save another life — or three or four lives — with the organs."

If the heart or other organs have been donated, Zimmer is on the phone with the national organ sharing network for its lists of the people needing organ transplants.

The lists are brutally efficient. They mock Darwin. Only the most feeble rise to the top. The likelihood of survival through an organ transplant increases rapidly as a person's medical condition deteriorates.

Lab work is done to check for hepatitis and AIDS. Blood pressure is stabilized. The chest is measured. The kidneys are kept working. Organ recovery teams jet in from Salt Lake City or Portland.

A heart must be transplanted within four hours after being removed from a donor. Lungs, two hours. A liver, 24 hours. And kidneys, within 72 hours.

The ones who feel badly are the ones who weren't tasked.

Nine months ago, Virginia Zimmer's own son, Joe, died in a car crash. He was 28 and strong, a former Marine.

The nurses at St. Alphonsus, out of respect for their co-worker's feelings, didn't ask her the obvious question.

Zimmer, in her grief, didn't remember until later that she had donated his eyes.

"I could have donated his eyes," she says.

She pauses.

"The ones who feel badly are the ones who weren't tasked."

Sheepard, now 21, is engaged to be married and wants to get his pilot's license. The only time he thinks about his transplant is during his twice-daily doses of cyclosporine, an anti-rejection medicine.

## Religion

# Mother Teresa resigns; nuns to elect successor for 'saint of gutters'

**CALCUTTA, India (AP)** — The nuns of Mother Teresa's Missionaries of Charity have gathered to elect a successor to "a saint."

Pleading old age and ill health, Mother Teresa is stepping down as head of her order two weeks after her 80th birthday and a year after she suffered a minor fatal heart attack.

Pope John Paul II, who had rejected her earlier pleas to step aside, accepted her resignation last March.

Her successor is expected to be one of the six nuns who serve on the council administering the order, which operates 430 homes in 95 countries under the mission to "help the poorest of the poor" — lepers, the severely handicapped and maimed and abandoned infants.

More than 100 nuns are expected to cast sacred ballots Saturday at the Kenmare Center for retarded women and children in Calcutta, where the Yugoslav-born Mother Teresa founded the order in the late 1940s.

The order's new superior general will be announced at the Vatican after the pope approves the decision.

The delegates have been in an eight-day period of prayer, reflection and religious instruction. They are forbidden to even discuss the election among themselves or with outsiders.

A prime candidate to succeed her is Sister Agnes, a 64-year-old for-

**'This is not a secular organization. It is a matter of faith. The work will go on.'**

Sister Alex, sister superior of children's orphanage

mer student of Mother Teresa's from years ago to leave convent teaching Calcutta, who was the first to join and plunge into Calcutta's most impoverished sectors. She became known as "the saint of the gutters."

In the order's 1979 election, Sister Agnes was the only person other than Mother Teresa to receive any votes. She received one, and no one could name world events and can vote for herself.

The order's last election was in 1982, in 1982, the helped evacuate men

from Lebanon during the height of battles between Israeli troops and the Palestine Liberation Organization.

Her order has also stressed family planning methods despite the severe overpopulation in India and other nations.

Mother Teresa has been Pope John Paul II's ambassador against abortion but led most other church groups by opening centers for AIDS victims. She won the Nobel Peace Prize in 1979.

"There won't be another Mother Teresa. Her successor will be just another religious superior," said Rev. E. de Joly, a Belgian-born Je-

nun on the council, adding: "From Mother Teresa's calling to

such priests, who has been a spiritual adviser to Mother Teresa and many of the sisters for more than three decades.

The retirement of the frail but seemingly indefatigable nun has raised questions about her order's future.

But some of the 3,000 nuns of the Missionaries of Charity, distinctive in their simple plus-sized white cotton saris, seem undisturbed by the thought that Mother Teresa is retiring.

"Mother will continue to be our mother, and God's work will go on," said Sister Alex, the sister superior of the Children's House orphanage.

"This is not a secular organization. It is a matter of faith. The work will go on," said Sister Maria of Calcutta's From Dan Home for the Retarded and Dying.

Mother Teresa will remain active and continue to travel, de Joly said in an interview.

"But the Missionaries of Charity will change and that may not be all bad," he said.

"It is too much. Mother. It's not good for religious people to always be in the spotlight. Mother can stand it. She has not become proud. She sees it all as God's work," he said.

Mother Teresa suffered a serious heart attack in September 1989 and received a pacemaker in December.

Mother Teresa is stepping down from her order at age 80.

## Baptist Convention urges diplomacy in Persian Gulf

**LOS ANGELES (AP)** — The once-table-for-a-meaningful-negotiation's third-largest Protestant denomination urged the U.S. government on Friday to pursue greater diplomatic efforts to avoid combat roles in the Persian Gulf.

Delegates to the National Baptist Convention USA Inc. unanimously approved a resolution supporting President Bush's decision to send troops to the Middle East, but said the crisis is a test for the major powers to resolve the crisis without resorting to war.

We contend that if the United States wishes for the world to move toward democratic society, no matter how horrific the position of Saddam Hussein might appear, we must deal with him in a manner that he and all powers concerned in the Middle East are lead to the world conference.

John O. Hunter, president of the Christian Church (Disciples of Christ), said in a joint letter to Bush:

"We are concerned that the continuing buildup of an already massive military presence in the Middle East will hamper these efforts and exacerbate tensions.

Leonard Green spoon, a Clemson University religion professor, said yoga has become a secularized form of exercise and relaxation.

"There's certainly no necessary connection between yoga and devil worship," he said. "Anybody who's equating Eastern religion with devil worship has made a big mistake."

Roger Terrell, program director for the recreation department, said he met with yoga teacher Carolyn Davis to make sure the class would

## Pope visits AIDS hospitals, comforts dying

Pope John Paul II

"There is one humanity"

**KIGALI, Rwanda (AP)** — Pope John Paul II, continuing his travels across AIDS-ravaged central Africa, comforted dying patients Friday and assured them "you are not alone in your ordeal."

The pope arrived in Rwanda on the third stop of his 10-day African trip, the place visited a hospital in neighboring Burundi for people with AIDS and other terminal illnesses.

John Paul appeared moved as he stopped at the bedside of about 40 men and women at the Prince-Regent Charles Hospital in Bujumbura.

Doctors said 85 percent of the patients have acquired immune deficiency syndrome and most are in advanced stages of the disease.

The pope patted the heads of the patients, touched their foreheads in the sign of the cross and offered his blessing.

One of the patients, a woman in her 40s, was barely conscious while undergoing a blood transfusion.

I know the moment is difficult. John Paul said. "I think especially of those among you who are afflicted by AIDS, for which there is still no effective cure."

"But I want to tell you, in the name of faith, that you have reason for hope and you are not alone in your ordeal."

The pope instructed the Vietnamese undersecretary of state, Archbishop Giovan Battista Re, to make a \$10,000 donation to the hospital.

The pope has spoken frequently on the problem of AIDS during the trip, which has also taken him to Tanzania.

He has said AIDS is both a moral

countries in the heart of the central African AIDS belt, health officials estimate up to 40 percent of young urban adults in some areas could be infected by virus.

On his arrival in Kigali after a 45-minute flight, the pope was met by Maj. Gen. Juvenal Habyarimana, who seized power in a military coup in 1973.

In a speech to diplomats, the pope said international aid was needed to help Rwanda and other developing countries boost their economies.

"We will not cease repeating that there is one humanity and that poverty and suffering of a large part of its members cannot be ignored," he said.

The pope will travel Sunday to Ivory Coast, the final stop on his trip.

## Yoga class canceled after devil-worship claim

**TOCCOA, Ga. (AP)** — Yoga is a form of New Age mysticism that can lead to devil-worship, says one man who testifies that forced officials to cancel a city-county sponsored yoga class.

"The people who are signed up for the class are just walking into it like cattle to slaughter," said Phillip Lawrence. "Half of yoga is a branch of Eastern mysticism, and it has strong occult influences."

Lawrence said he is opposing the yoga class as a Christian. He said other people opposing the classes are from Baptist, Lutheran and Church of God congregations.

The class, sponsored by the Toccoa-Stephens County Recreation Department, was scheduled to begin Monday. It was canceled Aug. 31 after city

and county commissioners received numerous complaints from church members in Toccoa.

The different commissioners got together on the phone, and the majority decided the class should be canceled, Mayor Bill Harris said.

"Some felt that they were under too much pressure," Mayor Bill Harris said.

Leonard Green spoon, a Clemson University religion professor, said yoga has become a secularized form of exercise and relaxation.

"There's certainly no necessary connection between yoga and devil worship," he said. "Anybody who's equating Eastern religion with devil worship has made a big mistake."

Roger Terrell, program director for the recreation department, said he met with yoga teacher Carolyn Davis to make sure the class would

involve only simple stretching and relaxation techniques.

"We can't be promoting religion or anything," he said. "It's strictly for health reasons."

Some of the 26 people who had signed up for the yoga class say they won't let the matter drop. "This is not the end," said Deborah Hartley.

"This is just the beginning as far as I'm concerned."

She said she also plans to fight for the class at the next meetings of the county commissioners and the city-county commissioners.

# Correctional system wants 35% budget increase for coming year

**BOISE** (AP) — The state's correctional system wants to boost its budget by more than 35 percent in the next budget to keep up with demands of a prison system already exceeding capacity and predicted to grow by another third in the next five years.

In a telephone meeting Friday, the Board of Correction gave Gov. Cecil Andrus his proposal for a budget request of \$46.4 million. It calls for \$10.3 million in new requests, and would add 179 jobs in the statewide staff. That would push Correction to 1,011 employees.

The proposal first goes to the governor's office and Gov. Cecil Andrus will forward his recommendations to the executive budget committee in the Legislature.

Correction Director Richard Vernon said everything in the budget is based on solid need.

"There are no areas here where it will be hard to defend. We may not get it, but it's definitely what we need and what we hope to get," said Vernon.

The board also gave approval to a six-year construction plan designed to meet the needs of a state inmate population that is about 2,000 now, but could reach 3,260 by July of 1995.

Correction's capital budget request involves more than \$60 million worth of facilities, the largest new, 500-bed medium security prison that might be started in about two years. Its cost was estimated at more than \$37 million.

In a later addition, the board approved adding \$50,000 for preliminary planning and site location for what could become a new Department of Correction building in a few years.

Vernon said his fast-growing agency already is crowded in the building it leases in Boise, and the lease is up in three years. The department's rented training center also is overcrowded.

The 1991-92 spending plan calls for major improvements in the supervision of felons released on probation and parole; doubles the number of community work centers and boosts the quality of health care be-

haviors.

It proposes beefing up parole supervision with 12 new officers and three supervisors.

It calls for two new community work centers, probably in the Panhandle and Magic Valley. The two centers now in operation are in Boise and Narita. The two new centers and 26 employees would cost \$924,000.

## Briefly

### Couple says L.A. will steal Idaho water

**BOISE** — Mike and Roberta Ushman traveled to Idaho from Keeler, Calif., to deliver a message: Los Angeles wants your water.

It's not a new message. The Los Angeles County Board of Supervisors suggested in May that it would be a good idea to divert some water from Idaho's Snake River.

Idaho Gov. Cecil Andrus responded with an emphatic "No."

But the Uschmans say Los Angeles won't take no for an answer.

"They will take your water. It's a fact, not fiction," Mike Ushman, 65, said Thursday. He and his wife have been visiting newspapers, television stations and environmental groups in Idaho.

Ushman, who belongs to the business section of the environmental lawyer Conservation Association, says he speaks from experience.

His home is in the Owens Valley, a former farming area in Northern California that produced a large variety of crops including 17 different types of apples. Then, Ushman said, Los Angeles sucked the valley dry and turned it into a dust bowl.

Idaho could easily end up the same way, Ushman said. He contends Los Angeles will join forces with water-starved Las Vegas, Nev., and Phoenix, Ariz., to water the Northwest.

### Woman dies when car hit by train

**KATHDRUM** — An eastern Washington woman was killed when she apparently ignored railroad crossing barriers and drove her car into the path of a train traveling 58 mph, Idaho State Police said.

Tracy Ann Bischoff, 21, of Greenacres, Wash., died shortly before 3 p.m. in a crossing zone within west of Kathdrum, an ISP spokesman said. The accident remained under investigation Friday.

### Hostage's family to reunite in Boise

**BOISE** — The family of Jesse "Jon" Turner of Boise, who has been held hostage by terrorists in Beirut since June 24, 1987, will be reunited Saturday.

Bad-Turner, Jon-Turner's wife, will fly into the Boise Airport at 1 p.m. Saturday along with the couple's 3-year-old daughter, Joanne. They currently live with a relative in the United Arab Emirates.

Estelle Ronneburg of Boise, Jon-Turner's mother, will meet them at the airport. Mrs. Ronneburg has never seen her granddaughter. The reunion is being paid for by Boise television station KTVB.

### Horse deaths prompt disease warning

**LEWISTON** — The deaths of three horses last week has raised concern about a possible disease outbreak in Lewiston, but an isolated case of botulism is the leading suspect.

Still, veterinarians said Thursday that local horse owners should take such precautions as ensuring animals are vaccinated and protected from flies until laboratory tests are complete in case the problem proves to be a contagious virus.

Experts said the possibilities include botulism from a feed source or equine encephalitis, also known as sleeping sickness.

Nobody knows for sure what's going on, said Rebecca Phillips of the Colton Veterinary Service, who examined the horses.

### Andrus says federal money vital to states

**BOISE** — Federal-budget negotiators are opening talks aimed at balancing the federal budget, but Gov. Cecil Andrus says it shouldn't be done at the expense of the states.

As the budget talks opened Friday at Andrews Air Force Base near Washington, D.C., the governor urged Bush administration and congressional leaders against budget decisions that "will attempt to balance the federal budget on the backs of the states."

Although the negotiators are under great pressure to produce a compromise, Andrus said it should not include new, unavoidable cuts to states.

He said Idaho already has been forced to absorb millions of dollars in the state budget because Congress and recent GOP administrations "have consistently forced the states to cover up for their fiscal irresponsibility." He said federal mandates and the shift of federal mandates to Idaho cost the state nearly \$21 million in the current budget alone.

### Idaho couple dies in car-truck crash

**PARK VALLEY**, Utah — An elderly Idaho couple was killed when the vehicle they and another couple were driving rear-ended a stock trailer pulled by a truck on State Road 30, officials said.

John R. Sparks, 80, and his wife, Afton, 71, of Mohrville, Idaho, died when their car collided with the truck-trailer that had pulled off the road about 20 miles south of the Uni-Idaho border, said Box Elder County sheriff's dispatcher Ron Osborn.

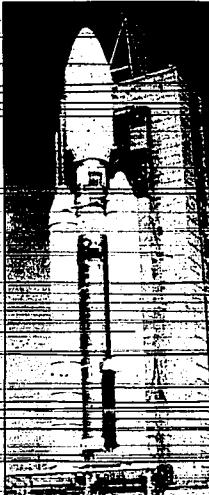

### Utah woman killed in Preston collision

**PRESTON** — A Utah woman has been killed in a collision between her vehicle and a tractor at Preston.

Sandra Kusimsson, 43, of Honeyville, Utah, was pronounced dead at the scene of the Thursday night accident. Tractor driver Arvin Rawlings, 61, Preston, was uninjured.

### Seattle schools okay plan to ease racial guidelines

**SEATTLE** (AP) — The School Board has approved a plan to relax racial balance guidelines despite opposition from civil rights activists who said it would re-segregate schools.

School busing was a major issue in last year's City elections, when voters passed an initiative asking the School Board to ban busing to achieve racial balance.

The new plan, approved 4-3 Tuesday night, allows 75 percent of a school's racial makeup to consist of any one racial group, including whites. The plan replaces a requirement that no more than 50 percent of a school's enrollment be from one minority group, 70 percent from all minority groups, or 65 percent white.

Supporters of the plan said it

new plan means a school to know why Andrus is taking cam-

aign contributions from the savings and loan industry in California,

percent black and 25 percent Asian.

The NAACP will do whatever is necessary, including lawsuits,

to prevent the re-segregation of Seattle public schools," said Larry Harter, president of the Seattle chapter of the National Association for the Advancement of Colored People.

Supporters of the plan said it

would reduce mandatory busing by allowing more minorities, who are

bused in greater numbers than are whites, to attend their neighborhood schools. It would also give whites more school choices.

"I never have and never will favor resegregating the school district," said board member Ken Eastlick.

Eastlick said:

"Most Idahuans, I am sure, would

also like to know what the Stan-

Harth Corp. of Reno, Nev., is

and what interest in the Idaho govern-

ment office would prompt a \$3,200 dona-

tion to Cecil Andrus," he said.

He also listed Milton G. Kuolt III,

Seattle; Herbert A. Allen, New York

and R.C. Holdings, Inc., Sum-

erville, N.J., as individuals and

companies whose connection to Ida-

bility should be explained by Andrus.

"Once again, a candidate who has

had a very unsuccessful attempt at

raising campaign money and getting

his campaign off the ground has

displayed a total lack of knowledge of

getting any money from them.

I have no intention of going

through a daily list of contributors

to show the full list of

knowledge," Andrus said Friday,

about a statement issued by Fairchild.

"Like most Idahuans, I would like

to know why Andrus is taking cam-

aign contributions from the savings

and loan industry in California,

percent black and 25 percent Asian.

The NAACP will do whatever is

necessary, including lawsuits,

to prevent the re-segregation of Seattle

public schools," said Larry Harter,

president of the Seattle chapter of the National Association for the Advancement of Colored People.

"I never have and never will favor

resegregating the school district,"

said board member Ken Eastlick.

Supporters of the plan said it

would reduce mandatory busing by

allowing more minorities, who are

bused in greater numbers than are

whites, to attend their neighborhood

schools. It would also give whites

more school choices.

"I never have and never will favor

resegregating the school district,"

# Arkansas state Capitol closes as Hollywood comes to Little Rock

**LITTLE ROCK, Ark.** (AP) — The state Capitol will be closed this weekend for a display of violence and gore from Hollywood that could go little else.

Secretary of State Bill McCuen said the Capitol would be off-limits to the public during filming of "The Brotherhood," an adventure starring former football star Brian Bosworth. McCuen said, "If the filming could be wrapped up by Monday, McCuen said."

The secretary of state said he didn't mean to offend anyone by closing the Capitol. On the contrary, he meant to save them from offensive dialogue.

"This is not a G or a PG-13 type of movie," he said. "They don't want to be involved with the public when some of their lines and scenes are being shot. That have violence and vulgarity. I agreed to do that and it's no big deal. It's a violent movie and they say things that they don't want people to hear while walking down the halls of the state Capitol."

## Pierce says Hall of Fame election would cap career

NASHVILLE, Tenn. (AP) — Veteran Webb Pierce says he is elected to the Country Music Hall of Fame

**Brigitte Bardot  
Angered by sheep burnings**

France would cap his career. Pierce, 69, is among five finalists for this year's induction. Others are Tennessee Ernie Ford, Don Gibson, George Jones and the Louvin Brothers. The inductee will be announced Oct. 8 during the nationally televised Country Music Association awards show.

## Girlfriend testifies in case of teen charged with murder

JUNEAU, Wis. (AP) — The 19-year-old son of a state legislator talked for hours about his hatred for his parents only weeks before he shot his mother with a hunting arrow, his girlfriend testified Friday.

"He told me about how his parents had been cruel to him," Jennifer Bolstad told the jury in Dodge County Court.

Ms. Bolstad, a student at Mount Mary College in Milwaukee, testified in the second day of Chad Goetsch's trial. Goetsch is accused of first degree intentional homicide for fatally shooting his mother, Carolyn, 51, with an arrow.

He also is accused of reckless endangerment during a violent

struggle with his father, state Rep. Robert Goetsch, seconds after his mother was shot Nov. 8 at their home in the town of Clark Grove.

Ms. Bolstad said she spoke to Goetsch on the telephone about his parents at least twice last October.

"He told me that she (his mother) treated him badly, that she

would nice to him and then really mean to him," Ms. Bolstad said.

Ms. Bolstad said she suggested he get away if he didn't want to be around his parents. She said Goetsch responded that he couldn't escape his parents' control and that he loved them, at least his mother.

— Bob and Rosalie Critchfield have pumpkin fever, but they're not looking for a cure.

For the past four years, the Critchfields' Atlantic have been the biggest pumpkins at the Spokane Interstate Fair, which opened Friday. Some of the potential jack o' lanterns have topped 300 pounds, growing at a rate of 15 pounds and 18 inches a day, Critchfield said.

Having it examined, Acevedo said. The woman asked not to be identified, and the store owners would not disclose her address.

"She's worried that there's going to be a big swarm of people coming over," said Stanley Gunther, a Great Falls jewelry store owner.

Gunther and his wife arranged the sale between Acevedo and the woman.

Phyllis Gunther, who first examined the diamond, said the woman

placed the diamond in her purse for two weeks before

came into the store one day with the gold-colored stone and wanted it set in a ring or some other kind of jewelry because,

"It's probably the largest ever found in the northern United States," said Alexander Acevedo, an antique and art dealer.

An area woman jogging with two companions earlier in the summer found the uncut diamond and carried it in her purse for two weeks before

having it examined.

The woman asked not to be identified, and the store owners would not disclose her address.

# Canseco, McGwire power Athletics to 7-1 win over Yankees

**NEW YORK (AP)** — Jose Canseco and Mark McGwire homered as the Oakland Athletics beat the New York Yankees for the 10th straight time this year, 7-1 Friday night.

The Athletics, trying to become the first team to sweep a season series from the Yankees, have outscored New York 30-7. The clubs play twice more this weekend.

"I don't know if we're that much better than they are," Canseco said. "They're a young team, trying to find their way."

Oakland broke open the game with a five-run sixth inning that featured six walks and only one hit, a go-ahead single by Willie McCovey.

The first-place Athletics opened their lead to 7½ games over Chicago in the American League West.

Oakland won its fifth straight game overall and 12th in a row against the Yankees in two seasons.

McGwire hit his .35th home run in the fifth inning, tying it at 1. Canseco hit his 36th homer, and only second in 25 games, in the ninth.

## Red Sox 5, Mariners 4

**BOSTON (AP)** — Carlos Quintana tied the score with a sacrifice fly in the ninth inning and drove in the winning run with a one-out single in the 11th as Boston beat Seattle to snap a three-game losing streak.

The Red Sox maintained their 5½-game

## American League

lead over the AL East. It wasn't all good news for the Sox, though. Before the game, the Red Sox learned 20-game-winner Roger Clemens will miss at least two starts with tendinitis in his right shoulder.

Ken Griffey Sr. went 4-for-5 for the Mariners, including a home run and RBI single.

## Twins 2, Indians 0

**MINNEAPOLIS (AP)** — Allan Anderson pitched a five-hitter over 8½-3 innnings as Minnesota beat Cleveland.

Anderson (7-7) was two outs away from his fourth complete game in his last five starts, but was removed after consecutive singles Chris James and Candy Maldonado. Paul Aguiar struck out Sandy Alomar Jr. and Brook Jacoby for his 28th save.

## Orioles 6, Angels 2

**BALTIMORE (AP)** — Sam Horn had three hits and four RBIs, including a three-run homer, as Baltimore snapped a six-game losing streak by beating California. Ben McDonald (6-4) gave up four hits and two runs in eight innings to earn his first victory since Aug. 13. Gregg Olson finished for his 30th save, allowing one hit.

Winner Teddy Higuera (10-6) gave up seven hits, struck out six and walked three in 6 1-3 innings. Chuck Crim pitched hitless ball over 2 1-3 innings for his 10th save.

Higuera had a two-hit shutout going until Fielder hit a 445-foot homer to center field after a single by Travis Fryman to cut Detroit's deficit to 6-2 in the sixth inning.

## Rangers 4

**ARLINGTON, Texas (AP)** — Charlie Hough won for the first time since Aug. 11 and Pete Incaviglia hit a pair of double homers as Texas beat Kansas City for its third straight victory.

Hough (11-10) gave up eight hits in eight innings with five strikeouts and four walks as the Royals lost their fifth straight.

## Blue Jays 3, White Sox 1

**TORONTO (AP)** — Mookie Wilson's two-out, two-run double in the seventh inning lifted Toronto past Chicago.

Manny Lee drew a two-out walk from Melido Perez (12-13) in the seventh and moved to third on Jimmie Wynn's single as Wilson's winning double. Perez pitched 5 2-3 no-hits until Kelly's Gruber's double.

Todd Stottlemyre (13-14) gave up one run and four hits in eight innings. Tom Henke got the last three outs for his 27th save.

# Montreal downs Pittsburgh 4-1

**PITTSBURGH (AP)** — The Pittsburgh Pirates have no trouble with the New York Mets. It's the Montreal Expos they can't beat.

First baseman Sid Bream's throwing error allowed two runs to score in the fifth inning and the Ex-

## National League

pos won 4-1 Friday night to stop the Pirates' six-game winning streak.

Cat Boyd (9-5) allowed three hits in 6 2-3 innings as the Expos beat Pittsburgh for the ninth time in 13 games. Tim Burke pitched one inning for his 17th save in 22 opportunities.

"They've got a great hitting ballclub and it makes your intensity level that much higher," said Boyd, who faced the Pirates for the first time.

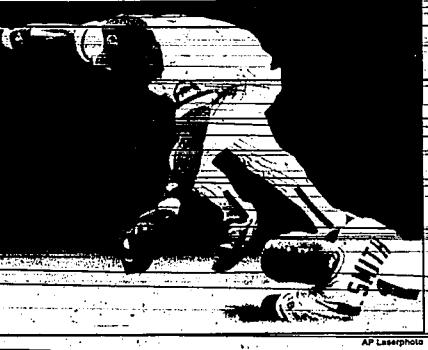

"I was reaching back and throwing the hell out of the ball. I took at it like it's do or die."

Pittsburgh maintained its 3½-game lead in the National League East as the New York Mets lost to Philadelphia 4-1.

"We weren't flat, we just saw some good pitching," Andy Van Slyke said. "The Expos have good starting pitching, they steal bases and they're a team that has a better division record than we do."

John Smiley (8-8), winless in five starts against the Expos the last two seasons, gave up six hits and three runs in 5 2-3 innings.

Jerry Reuss pitched for the Pirates for the first time since 1978 and became the 22nd player and eighth pitcher to play in four decades.

Cubs' shortstop Shawon Dunston forces out St. Louis' Ozzie Smith in the seventh inning of Friday action in Chicago.

## Phillies 4, Mets 1

### Cardinals 4, Cubs 3

### PHILADELPHIA (AP)

— Jose DeJesus (5-6) pitched a four-hitter and former-Met Len Dykstra had three hits and scored three runs as New York's losing streak reached a season-long nine games.

New York swept its first-place

Pittsburgh in a three-game series.

John Smiley (8-8), winless in five

starts against the Expos the last two

seasons, gave up six hits and three

runs in 5 2-3 innings.

Dale Murphy had a pair of two-

RBI-singles and pinch-hitter

Charlie Hayes and Von Hayes also

had run-scoring singles.

David Cone (11-8) struck out a career-high 12 in 6 1-3 innings and allowed five hits and one run.

Tom Pagnozzi (10-5) gave up five

hits in seven innings, holding a

two-run hole to Andre Dawson in the

Cubs' first.

Smith had three hits and three

RBIs in seven at-bats.

Mike Schmidt had three hits and

three RBIs.

Steve Lyons had two hits and

one RBI.

Mike Gargan had two hits and

one RBI.

Mike Piazza had one hit and

**Automotive-Automotive-Automotive****FAIR PRICES ON BRIDGE**

"I always know that in most people's estimation, to do anything is to do it secretly."

Herman Melville

"...which you're forced to bid a two-card suit. It's not a time to panic. Carla Attwells, a member of the Dutch International Women's Team, not only handled today's bidding problem—but also found the sure way to land her game."

What could South do after North's cue bid in hearts? She had already shown long diamonds by her penalty pass of one diamond doubled, and she had no heart stopper. The only reasonable alternative was to bid a one-round two spades with her higher ranking two-card suit. This was not overruled when she heard her partner's bid game.

The play was just as interesting as the bidding. Dummy's heart ace won, and the two top spades were cashed, bringing down West's doubleton queen. Two more rounds of trump were drawn, and a low diamond from dummy was led to South's hand.

This left West with no winning choices. If West took her diamonds king, the defenders would get two more hearts, but no more. And if West refused the diamond king, Carla would lead a diamond to dummy's 10 to hold her losses to two hearts and a club.

No suit—and no cards—

doesn't mean you do not have enough to play and make a vulnerable game...

Send bridge questions to "The Aces," P.O. Box 3245, Dallas, Texas 75235, with self-addressed stamped envelope for reply.

Comments: "I am a bridge player

and I am interested in your column."
