#### Much to fear from homosexuals Response to March 24 letter from Echo

Response to March 24 letter from Echo Dalos:
True love and compassion includes seeking to discourage and protect individuals and society from that which is still-mately destructive to them. Statistics show that the average life span of a homosexua is far shorter and less healthy than that of heterosexuals. San't it loving and compassionate to seek a long and healthy life for others? And tolerance of anything and everything is not the teaching of the Biblie – or of our seci-cyts laws. We do not tolerate murder or rape or child molesting. Homosexuality is not to be tolerated or accepted because it directly violates God's created order of human sexuality. Though some do not, you can, as many do, firmly oppose homosexus.

I am deeply grieved over the very sad

fact that "many young gay people commit suicide." But that cannot be blamed solely suicide. But that cannot be blamed solely suicide. It also not that so the genuine guilt and shame for doing that which their God-given conscience tells them is morally wrong.

How I long for them to know the love and forgiveness of Christ so that they have hope to go on instead of the hopelessness that leads to self-destruction.

### THE ACES ON BRIDGE

"He who digs a hole for another may tall in himself." Russian proverb

"Today's declarer had inten-tions of playing an April Pools' joke on his opponents. When diffu-my appeared, he feigned displea-sure and displayed a deep from 'His plan was to change his de-

sure and displayed a deep from
this plan was to change has the
meanor suddenly leasting. April
Fool." after the apponents had
been convinced he was going set
(pless who became the victum of
the joke
Counting nine winners with a
normal club break. South scated
North shout his "overbid." In a
chilly voice, he asked, "Where is
that extra point you promised?"
South playfully covered West's
In with dumny's joke, the king
East's queen and ducking again
when the suit was continued. After winning his nee on the third
word, he cashed his long diptround, he cashed his long diptround, he cashed his long diptround, he cashed his long dipcount, which believe his future lay
with spades.
Then he revealed his surprise.
He led his low club to dummy's
king and a low one back to his ace.
When East discarded, South's
frown returned. It was much
deeper. The clubs were blocked
and South could win only seven
tricks.

tricks.

South was so intent of playing games, he forgot to play bridge. To guard against a bad break in clubs, he should have first led his clubs, he should have first led his club 10 to dummy's king and a low dub back. Had East held the club stack, nothing would have worked. With West holding the clubs, a finesse to dummy's nine picks up the suit and South makes the game.

Women; imbalances in the leg muscles are why
throe of you playing sports such as basketball have
more knee injuries than men. So says a new study
that was on attempt to determine why female basketball players, for instance, have eight times the
risk of damage to the anterior cruciate ligament, a
web of fibrous tissae that binds the knee. The findings were presented at the Annual meeting of the
American Academy of Orthopaedic Surgeons.

A lot of pluck

You've heard of someone harping on good health? Well, when cerebral palsy forced Northern Illinois University music professor Ronald Price to give up the Ferench horn, he began playing the harp and noticed his tremors lessened. He has since founded a musical group called Healing Harps.

Evaluating soft playgrounds

EVAIUAGING SORT DIAY GROUNGS
Soft indoor playgrounds, those increasingly popular enclosed structures filled with bright plastic equipment like cand-through tubes; climbing dets; roller-slides and ball pools, have gotten a clear bill of health from the Consumer Product Stdey Comission — with certain modifications. There are about 7,900 centers at light-food resolutions.

Research has added another good reason for keeping high blood pressure under control Better brain function in later life. The Honolula-Asa Ar ing Study, looking at 3,700 Japanesse-American men, found a direct relationship between brain function and blood pressure control. The higher the blood pressure in the middle years, the lower the level of brain function later in life. High blood pressure experts and the pressure could of its harm by domaging blood vises seen in the brain on manifer the effection of undisvidual brain each, the researchers say.
