No policeman: Conflict issues remain in four-block project

By Jared S. Hopkins
Staff writer

City officials and influential Twin Falls developers are forging ahead with a downtown renewal project that could cost taxpayers tens of millions of dollars, but a state lawmaker and even the city's own attorney question whether the deal smells right.

"It's like all the boundaries seem blurred," said state Rep. Phil Hart, R-Idaho, the Legislature's leading critic of urban renewal projects. "Is this a good use of taxpayers' money or do we have private developers

INSIDE

T.F. Council to vote on consulting contract

See Page A4

Local developers Fran Florence, a former city planning and zoning commission chairman, and Jeff Hepworth, a recent Urban Renewal Agency board member, are organizers of the Four Block LLC, a private, for-profit company that will control the project.

Florence and Hepworth also have been paid through city-financed consulting contracts to advise the URA on how to acquire property that they say they hope to buy from the URA for their development.

Tonight, the City Council is to vote on the city's share of a \$65,000 contract already approved by the Twin Falls URA to continue the services of the Leland Consulting Group of Portland. Under terms of the contract, Florence and Hepworth will no longer be on the consultants' "direct team," but will work with Leland and the as "developers and members of the Four Block LLC."

Hepworth has said he would receive 5 percent of LLC profits; and he owns property adjacent to the four-block site that could increase in value because of the city's investment. Florence would get 10 percent profit for managing the development.

City Attorney Fritz Wonderlich said earlier this year there was no conflict of interest in the employment of the two as consultants, but that there could be if the two later stood to profit from the success of the city-backed development.

Last week, when asked if the current arrangement changes that

dynamic, Wonderlich said he didn't recall his statement to comment specifically.

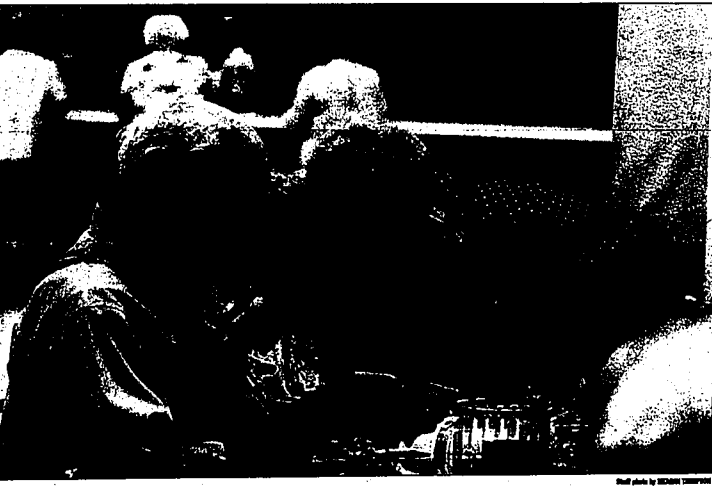

While saying that he sees no current legal problems, Wonderlich said a conflict of interest still "could arise" and said the arrangement might not "pass the smell test."

Asked to explain his comment, Wonderlich said he was referring to public policy decisions, not state law.

"I'm the city attorney so I'm measuring it on the legal standpoint," he said.

A founder exits

Jacquie Whiting, right, the manager of the Twin Falls Senior Center, gets a hug from Cytadelle Parkin, 82, during one of her last lunch hours at the facility before she retires in August. Parkin's husband Oris Parkin, 88, is seated next to her.

Senior center pioneer leaves post next month

By Cassidy Friedman
Staff writer

A war happens only once. But the need for survivors to recount their tales follows them to death. John Militch and Glenn Roach, two old, weathered veterans who earned Purple Hearts for battle injuries, needed each other.

"They commanded airplanes, the heat in Africa to the pretty girls in Germany," said

WATCH: A video interview with Jaquie Whiting.

Jacquie Whiting, "If you can't share what you have to offer, then you're lost."

Without the conversations shared over meals, music and card-playing events held at Twin Falls Senior Center, Militch and Roach would have no one with whom to

share their stories. And with massive federal funding cuts, that fate appears more imminent than ever, Whiting said.

For most years since 1972, Whiting has had what she calls "the most wonderful occupation" of facilitating encounters like the one

between these two veterans at the Twin Falls Senior Center manager. Now, after serving as one of the program's original founders, Whiting will leave her post Aug. 28.

That leaves some to wonder: What next?

Whiting's aggressive style, although at times tough, is the kind that's sorely needed at the center, said Marjorie

Western boomtowns need federal aid, study suggests

By Ashley Powers
Los Angeles Times

LAS VEGAS — As outlying sagebrush here was quickly devoured by starter homes and chain stores, Las Vegas began grappling with the kinds of problems that long have vexed California: Crowded classrooms. Packed freeways. Not enough water. Immigrants who struggle to learn English. Rising poverty.

Similar issues recently have bedeviled the Phoenix, Denver, Salt Lake City and Albuquerque, N.M., metropolitan areas. By 2040, Las Vegas and its fast-growing brethren will be home to nearly 12.7 million more people.

While a booming population is turning the intermountain West into an economic force and political battleground, a Brookings Institution report released Sunday suggests that, without help from the federal government, its major cities are headed for trouble.

"These places are going to be overwhelmed if they're left to go it alone," said Mark Muro, policy director for Brookings' Metropolitan Policy Program.

The five-state region, which the study dubbed the "New American Heartland," was the least developed part of the country in 1950. There isn't even an interstate linking Las Vegas and Phoenix because they were mere blips when the nation's highway system was mapped out.

Between 2000 and 2007, however, Nevada, Arizona and Utah boasted the nations' top three population growth rates; the Las Vegas area alone jumped 31 percent, to more than 2 million people.

In addition, the report said, the arid region is growing thirstier — and climate change could further stretch it. Its middle class is dwindling more quickly than in other regions, and its cities must cope with about 1 million undocumented immigrants, half of them in Arizona.

Solutions, according to the nonpartisan think-tank, lie in the western states working more closely with Washington on transportation, water, energy and immigration — much as the federal policies helped shape Atlanta, Miami and Dallas during their growth spurts. But there are formidable roadblocks, including the nation's current economic slump.

Proposals that require money "may be difficult to pass in today's budget environment," said Alan Viard, a resident scholar at the American Enterprise Institute. "Large federal deficits will make many members of Congress wary of creating or expanding such programs."

And Washington, Muro said, historically has taken a hands-off approach with the West.

"I don't know if I'd call it neglect," said Utah Gov. Jon M. Huntsman Jr., a Republican. But federal officials "have been impervious to the growth here over the last generation."

Greater Las Vegas, which includes Clark County, neighboring Nye County and Mohave County, Ariz., has boomed more quickly than any other area examined in the Brookings study. Nearly one-fifth of Las Vegas-area residents are foreign-born, a higher percentage than in the other metropolitan areas, and about 43 percent of its U.S. transplants moved from California.

Soldier in famous photo never defeated 'demons'

By Allen G. Breed and Kevin Maurer
Associated Press writers

PINEHURST, N.C. — Officers had been to the white ranch house many times before over the past year to respond to a "baricade situation." Each had ended uneventfully, with Joseph Dwyer coming out or telling police in a calm voice through the window that he was OK.

But this time was different. The Iraq War veteran had called a taxi service to take him to the emergency room. But when the driver arrived, Dwyer shouted that he was too weak to get up and open the door.

The officers asked Dwyer for permission to kick it in.

"Go ahead," he yelled.

They found Dwyer lying on his back, his clothes soiled with urine and feces. Scattered on the floor were dozens of spent cans of Dust-Off, a refrigerant-based aerosol normally used to clean electrical equipment.

Dwyer told police Lt. Mike Wilson had been "huffing" the aerosol.

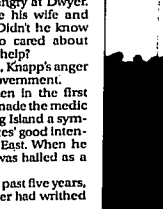

"Help me, please!" the former Army medic begged Wilson. "I'm dying. Help me. I can't breathe."

A half hour later, he was dead. When Dionne Knapp learned of her friend's June 28 death, her first

reaction was to be angry at Dwyer. How could he leave his wife and daughter like this? Didn't he know he had friends who cared about him, who wanted to help?

But as time passed, Knapp's anger turned toward the government. A photograph taken in the first days of the war had made the medic from New York's Long Island a symbol of the United States' good intentions in the Middle East. When he returned home, he was hailed as a hero.

But for most of the past five years, the 31-year-old soldier had writhed

MORNING BRIEFING

AROUND THE WORLD

IRAQ Obama expected to meet with Iraq war commanders

BAGHDAD — Democratic presidential candidate Barack Obama's visit to Iraq for talks with commanders of a war he long opposed follows the prime minister's apparent endorsement of his troop withdrawal plan...

Obama has called for withdrawing U.S. troops at the end of one or two brigades a month, ending combat operations within 16 months of becoming president. He favors leaving behind a residual force to protect U.S. personnel...

GERMANY Report: Iraqi PM says U.S. troops should leave as soon as possible

BERLIN — Iraqi Prime Minister Nouri al-Maliki says U.S. troops should leave Iraq "as soon as possible," according to a magazine report. He called presidential candidate Barack Obama's suggestion of 16 months "the right timeframe for a withdrawal."

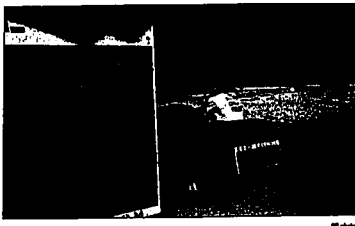

In Baghdad, however, the chief spokesman for al-Maliki issued a statement Sunday saying the prime minister's comments were "not conveyed accurately" by Germany's Der Spiegel magazine.

TODAY IN HISTORY

Today is Monday, July 21, the 203rd day of 2008. There are 163 days left in the year. Today's Highlight: On July 21, 1861, the first battle of the Civil War was fought at Manassas, Va., resulting in a Confederate victory.

HOROSCOPE BY JERALDINE SAUNDERS

IF JULY 21 IS YOUR BIRTHDAY: Ambitions become a deciding factor in everything you do this year. You will realize that you must make pronounced changes in your life to achieve them.

Matt Bacon, with Kitty Hawk Ocean Rescue patrols the beach in Kitty Hawk, N.C., Sunday. Tropical storm Cristobal larks offshore and has had minor impact on the Outer Banks of North Carolina. (See story below.)

Maliki was quoted as saying, "Those who operate on the promise of short time periods in Iraq today are being more realistic. Artificially prolonging the tenure of U.S. troops in Iraq would cause problems."

Treasury chief says U.S. banking system sound

Treasury Secretary Henry Paulson sought to reassure an anxious public Sunday that the banking system is sound, while also bracing people for more troubled times ahead.

"Of course the list is going to grow longer given the stresses we have in the marketplace, given the housing correction. But again, it's a safe banking system, a sound banking system. Our regulators are on top of it. This is a very manageable situation," he said in broadcast interviews.

NORTH CAROLINA Tropical Storm Cristobal weakens as it skirts along coast

RALEIGH — Tropical Storm Cristobal dumped rain and brought rough seas to the North Carolina coast Sunday, and forecasters predicted the weakening system was headed for the open Atlantic.

Evolution. (The conviction was later overturned on a technicality.) In 1930, President Hoover signed an executive order establishing the Veterans Administration. In 1949, the U.S. Senate ratified the North Atlantic Treaty.

showing three inches or more of their underwear in public. Eugene Williams was the mayor of Lynwood. He says young men walk around town half-dressed, keeping major retailers and economic development away. He calls the law a hot topic.

The American Civil Liberties Union says the ordinance targets young men of color. Young adults in the village, like 21-year-old Joe Klonas, say the new law infringes on their personal style. He says leaders should instead spend money on making the area look nicer.

HOLLYWOOD 'Dark Knight' sets opening-weekend record with \$155.34 million

LOS ANGELES — Batman has sent Spidey packing as king of Hollywood's box office superheros. "The Dark Knight" took in a record \$155.34 million in its first weekend, topping the previous best of \$151.1 million for "Spider-Man 3" in May 2007 and pacing Hollywood to its biggest weekend ever, according to studio estimates Sunday.

ILLINOIS New law: Can't show more than 3 inches of underwear in public

LYNWOOD — Be careful if you have saggy pants in the south Chicago suburb of Lynwood, where city officials have passed an ordinance that would levy \$25 fines against anyone showing more than 3 inches of their underwear in public.

"This weekend is such a juggernaut," said Nikki Rocco, head of distribution for Universal, whose musical "Mamma Mia!" debuted at No. 2 with \$27.6 million. — The Associated Press

WHAT'S NEW AT MAGICVALLEY.COM

Jacque Whiting will retire as head of the Twin Falls Center for 13 Years. Meet her in a video interview.

In 1969, Apollo 11 astronauts Neil Armstrong and Edwin "Buzz" Aldrin blasted off from the moon aboard the lunar module. In 1960, draft registration began in the United States for 19- and 20-year-old men. Ten years ago: President Clinton announced a crackdown on nursing homes that were lax about quality and on states that were doing a poor job of regulating them. Five years ago: Carlton

Dotson Jr., the roommate of missing Baylor basketball player Patrick Denny, was arrested and charged with Denny's murder. Dotson later pleaded guilty and sentenced to 35 years in prison. One year ago: Doctors removed five small growths from President Bush's colon after he temporarily transferred the powers of his office to Vice President Dick Cheney under the rarely invoked 25th Amendment.

With crucial matters you possess the motivation to work like a dog to reach your goal. Start things that require unyielding dedication. LIBRA (Sept. 23-Sept. 22): Your optimism is backed up by willpower and you may be chomping at the bit to get things accomplished. Be careful to avoid offending others today. LIBRA (Sept. 23-Oct. 22): Trying conditions may fall by the wayside due to a vote of confidence from a co-worker or family member. You may catch sight of an opportunity to increase your net worth. SCORPIO (Oct. 23-Nov. 22): Put others first — even if it seems your efforts are unappreciated or unreciprocated. Friendships are like pennies that can be collected and saved to use on a rainy day. SAGITTARIUS (Nov. 22-

Project

Continued from page A1

David Leland, of LCG; said he wouldn't participate in the four block project if there were a conflict. And both Hepworth and Florence have said they see no current conflict.

But Hepworth, an attorney, acknowledged there is "potential" for one if he and Florence land on both ends

of a real estate transaction — or if one side is damaged. That may happen. Hepworth said the four block LLC hopes to buy land assembled by the URA for their project.

"That's probably something that will occur," he said. "That's our goal."

In some cases, the developers were involved in setting a price the URA paid for properties and negotiating terms. Hepworth himself

wrote the sales contract for the URA's purchase of Red's Trading Post, a \$200,000 deal he helped arrange.

The Red's property may become the site of a new City Hall, which developers have said is critical to the entire project's success.

Under Idaho law, Twin Falls County Prosecutor Grant Leeb has the responsibility for overseeing investigations of official misconduct or conflicts of interest. But he said

without witnessing a crime, he must rely on a citizen complaint.

Loeb's said he has not received any complaints about the four-block project.

Hart, the state lawmaker, said Idaho law lacks sufficient options for public scrutiny of urban renewal projects.

"There isn't a policeman that's sort of institutionalized into the process," he said

when contacted by the Times-News. "Who checks the urban renewal agency?"

He said the work of Florence and Hepworth could be done by private developers, but the city is acting like a private entity by trying to get property, too.

"It seems to me like there is this conflict here," he said of the Twin Falls project. "They're benefiting on the profit end of something they're getting a paycheck for

on the organizational end."

Hart said URAs in Idaho negotiate so many property deals that he believes the state law should be changed to prohibit agencies from meeting behind closed doors to cut the deals.

"When 100 percent of what they deal with is real estate transactions," he said, "I think we need to change the state law so these transactions need to be done out in the open."

Founder

Continued from page A1

Benedict, a widowed volunteer for nearly two decades.

"You can't be the nice, 'would you please?' person," Benedict said.

The preponderance of her working life, Whiting, now 71, has directed the local senior citizen center which feeds the elderly and provides a community with friends rather than solitude in their homes.

"This is pretty much what she's done with her life," Benedict said. At work, as at home, Whiting has made caring for the elderly her all-consuming focus for 30 years.

As Ronch's health deteriorated, she began calling him and moved him into a trailer next to her home so she could take care of him, Benedict said. Now that he's switched over to full-time care, she still visits him three times a week.

Citren was older and needed help and Jacque stepped in and helped him," Benedict said. "With Glenn, she adopt-

ed him."

Whiting said she will find another job but continue to volunteer at the center.

After 30 years of service, Whiting's age is not so different from that of her customers. Yet she's still very much the same character she was when she first entered the program. She moves around the large hall gently resting a hand on the arm of a woman playing cards, calling her "honey." A caller on the phone who offers to donate her computer she calls "sweetheart."

And she's got a sense of humor when asked what her age was when she took the job, she clears her throat and starts tapping away on a printing calculator.

But, more than ever, she's tired.

In four years, the center, which relies also on private donations, has lost half of its funding, she said. If funding continues to get slashed, no ratcheting up of private fundraising will matter. The program will switch to feeding clients inside their

homes, she said.

Never has it been more important for her well-being, or worse timing for the public, for Whiting to step down. But next year will only be worse, she assured.

Whiting's life and career have thoroughly blurred with the life story of the national senior center project, launched in Idaho in 1972 under Sen. Frank Church. Only seven years earlier, the federal government recognized the plight of poor, starved elderly with a comprehensive program. Whiting said.

At the time, Whiting was a health and welfare case manager — first for child abuse and then for the elderly. She joined the cause, getting hired as the site manager in Bull, one of five centers that opened in south-central Idaho. Today, nine other centers have cropped up across the region.

"We were part of the ground level implementing it," she said. "It was fun, exciting and different putting together a

facility, getting to know the community."

The need for the program was evident the day the Bull center opened. Some 25 customers were presented with a sad display of resources: playing cards, card tables, a kitchen stove and a refrigeration unit.

But for seniors, the company of peers beat lonely homes. Each customer stated a claim in the center, volunteering time as bus drivers, assistant cooks, and other positions. It remains that way today.

"I just knew there was a need to gather together people who had the same life tribulations," Whiting said. "You lose a spouse. Your children are gone."

She invented a motto for the program: "It is better to have a friend share a hot dog than to sit at home and eat a steak."

In 1975, Whiting married a

businessman in Jerome and took over the same job at its senior center. Years later the marriage ended and she took another job in Twin Falls.

But the moment her current position opened at the Twin Falls Senior Center she leaped at it — a natural move she compared to getting back on a bike.

She met new seniors and learned their life stories — her favorite being Roach's. A child

of the Depression, she relished their stories of struggling on meager rations — markings of history and also a way of reconnecting with the memory of her deceased parents.

"You get to see a part of them that's funny," Whiting said. "You get to see a part of them that's hurt."

Cassidy Friedman may be reached at 208-735-1241 or cfriedman@magicvalley.com.

Soldier

Continued from page A1

in a private hell, shooting at imaginary enemies, sleeping in a closet bunker and trying desperately to huff away the "demons" in his head. When his personal problems became public, efforts were made to help him, but nothing seemed to work.

Police are treating Dwyer's death as an accidental overdose. Friends and family see it differently.

The day of the 2005 stand-off, Knapp spent hours on the telephone trying to get help for Dwyer. She was frustrated by a military bureaucracy that would not act unless his petrified wife complained, and with a civilian system that insisted Dwyer was the military's problem.

In a letter to post commander Maj. Gen. Robert Lennox, Knapp expressed anger that Army officials who were "proud to display him as a hero ... now had turned their back on him..." (Lennox told The AP that Dwyer "had a great (in my opinion) care giver").

Some wondered why the VA couldn't involuntarily commit Dwyer. But Dr. Antonette Zeiss, deputy chief of the VA's Office of Mental Health, said it's not that simple.

"Veterans are civilians, and VA is guided by state law when it involuntarily commits," she told the AP. "There are civil liberties, and VA

respects that those civil liberties are important."

Zeiss said that while caregivers must be 100 percent committed to creating an environment in which veterans feel comfortable confronting their demons, the patient must be equally committed to following through.

"And so it's a dance between the clinicians and the patient."

Paul Rieckhoff, executive director of Iraq and Afghanistan Veterans of America, feels the VA is a lousy dance partner.

"I consider (Dwyer) a battlefield casualty," he said, "because he was still fighting the war in his head."

Vacant, but not empty

Recent suicide raises questions over Burley's policies of vacant buildings

By Laurie Welch
Staff writer

For the family of Eric Bias, the search for his nephew's body in the 1600 block of Normal Avenue in Burley would come soon enough.

Bias, 30, who lived with his uncle Mitchell Bias in Burley, went missing July 7 and was found July 11, the community suicide in an abandoned house that had become a teen hangout.

"He was working on a ramp pole and losing his grand mother the last time I saw him," Mitchell Bias said about his nephew, who had lived in his home since October 2006.

The house happy and never came home and he probably never have an answer why," Bias said.

Bias filed a missing person's report with the police department and spoke with all of Eric's friends who said they were perplexed about his disappearance.

Bias said his nephew, who suffered from schizophrenia, was no angel and had some scrapes with the law and a penchant for marijuana. But he was trying to turn his life around and planned to return to school.

On July 11, Aldoifo (Chappa Saldana was looking for his missing cat in an alley in the 1600 block of Normal Avenue. When he entered a vacant building marked with graffiti and strewn with empty alcohol containers, he found the 20-year-old's body.

"It was a drug and alcohol-infested building that kids hang out in and they shouldn't have been there," Mitchell Bias said.

The tragedy left him questioning why such a dangerous building was allowed to remain within city limits.

"This is something you see in Los Angeles or in a ghetto, but not here," Bias said. "It would have been boarded up like it is today, he wouldn't have been able to get in."

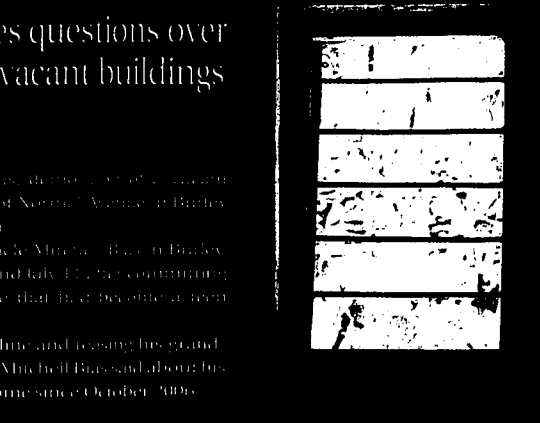

The owners of the property, Rocky and Stefanie Hensen of Abilene, bought it in 2005 and it has been vacant since September 2007.

"We boarded it up several times and had neighbors watching it," Stefanie Hensen said. "I am absolutely sick about it. It will be torn down as soon as possible. This has been so devastating for me, I feel so bad for his family."

Hensen said she and her husband had originally planned to remodel the home, which stands on the back half of a city lot. But it is now beyond repair due to the extent of damage caused by vandals.

IN MEMORY

A celebration of the life of Eric Conley Bias, 20, will be held July 26 at 4 p.m. at the Club Down Under, 139 E. Main St., Burley.

Mitchell Bias searches for answers Thursday after the suicide of his nephew, 20-year-old Eric Bias. Eric Bias was found July 11 at a vacant house in the 1600 block of Normal Avenue in Burley — a building that some say has become a teen hangout.

"This is something you see in Los Angeles or in a ghetto, but not here. If it would have been boarded up like it is today, (Eric Bias) wouldn't have been able to get in."

— Mitchell Bias, uncle of Eric Bias, who was found dead in a vacant house in Burley on July 11

Burley City Inspector Gary Pawson said city officials were aware of the property and whenever they drove by to check, it was boarded up.

"If there is nobody living in a house, it doesn't matter if there is a steel door on it, people will get in," Pawson said.

Jessica Osterhout, a neighbor to the property, said she had noticed the door to the house was kicked in a couple of times and had heard it was full of beer cans and graffiti.

"I would be scared walking by if I saw a bunch of kids outside of it," Osterhout said. "I don't know how long it's been empty, but it's been a while."

Pawson said that several years ago a homeless man who was staying in the vacant Y-Hell Motel on East Main Street committed suicide when the police arrived to remove him from the premises. The building has since been torn down.

T.E. Council to vote on consulting contract

By Jared S. Hopkins
Staff writer

The Twin Falls City Council will vote tonight on whether to fund half of a \$65,000 contract with the Portland-based Leland Consulting Group to continue its services in mapping out an ambitious downtown revitalization project.

The Twin Falls Urban Renewal Agency agreed to pay the other half last week. Expenses will be paid, too.

Under the new contract, ICG, along with local developers Jeff Hepworth and Fran Florence, will work with city officials for how to pay for the redevelopment of four downtown blocks and Main Avenue — and ways to promote such projects to voters who could be asked to approve a bond measure to fund the four-block project. Unlike earlier arrangements, Florence and Hepworth won't be paid but serve as private developers.

Consultants have estimated the project could cost at least \$40 million and will need public funding.

In the past two years, the city has invested hundreds of thousands of dollars in pursuing redevelopment of the city's downtown, most of it going to consultants. The city has also budgeted \$150,000 for next year's budget.

The four-block project is a mixed-use development with about 243,000 square-feet of offices, retail and affordable housing, from Second Avenue South to Fourth Avenue South and Shoshone Street South to Idaho Street.

The work in the new contract is scheduled to last 75 to 90 days. A second phase, which will essentially be to identify funding sources and precise amounts for the project, is expected to follow.

Also on the agenda:

- Consideration of allowing developers of the Shoshone Heights subdivision to pay \$31,700 in lieu of donating about half-an-acre of parkland. Under city code, developers of residential subdivisions must either give a portion of their plot to the city for park development or pay its equivalent.

In this particular case, city staff supports the in lieu plan because the development, which is immediately east of the Shoshone Falls Park complex, will be nearby another subdivision already planned to give a neighborhood park. The city also hopes to expand its nearby Centennial Trail.

- Consideration of a special events application for the 19th Annual Hispanic Heritage Fiesta to be held Aug. 9 and 10 at Twin Falls City Park.

- Discussion of the proposed 2008-2009 \$51 million city budget. The budget is a more than 24 percent increase from this year but city officials have said about one-third of spending will be on infrastructure projects crucial to meet the city's goals.

- A closed-door meeting to discuss negotiations related to real estate or labor negotiations. No further details were given.

School calendar topic of special Buhl School Board meeting

By Blair Koch
Correspondent

In February, residents within the Buhl River District expressed their displeasure with the proposed school calendar which was approved in January. Parents said they would rather have school start after the end of the Twin Falls County Fair, which has been the district tradition for many years.

During the July 15 school board meeting, Chairman Jim Barker said that while the calendar was approved

months ago, the issue is still a hot topic.

"The No. 1 thing I've had people talk to me about is the school calendar," Barker said. "I think we should look at this ... let patrons know we're willing to discuss it."

The new school calendar has students beginning school on Aug. 25. While students are off for far week, Aug. 27 through Sept. 1, residents feel their concerns were dismissed.

"I strongly felt patrons were disregarded," said Trustee Jackie Frey. Superintendent Margaret Cox

stood behind the schedule she created and said many teachers were in favor of the change. Cox said the start date was moved back to better accommodate student athletes and to coordinate the district's school

days with that of the College of Southern Idaho.

While the board may not change the calendar, Barker said a meeting was necessary to open dialog between the board and residents. The board requested Cox to gather information on why the change was necessary and the possible conflicts created with changing the calendar now.

"There are two sides to this story," said Trustee Mike Hamilton. "We need to weigh the pros and cons and move on."

Bond issue plans for Malta schools detailed

By Damon Huzarke
Staff writer

A sign inside the entrance of Buhl River High School reads: "Your Story Begins at Raft River." The walls are adorned with pictures, the Trojan mascot, trophies, and newspaper clippings commemorating student achievements.

Most of the building, assuming a \$44.5 million school bond issue passes Aug. 20, will probably be demolished.

But the Cassia County School District hasn't firmly established what to do with the Raft River schools.

Constructed in the 1950s, the main entrance and the surrounding classrooms occupy the oldest section of the Malta school system and are replete with deficiencies.

The heating system is antiquated, inefficient — and, as the school board discovered after their engineers examined the facility, incapable of

being updated.

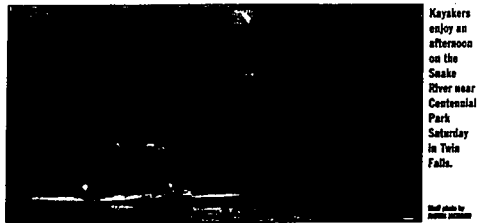

"The boiler is about 18 years old, but the plumbing and steam pipes are original — about 60 years old," said Paul Edwards, head of maintenance.

Cassia County School Superintendent Gaylen Smyer expanded on the significance of the building's age.

"The pipes were cast in the concrete underneath, so they

CSI graduates 25 from practical nursing program

By Jeffrey Jackson
Correspondent

2008 College of Southern Idaho practical nursing awards

The College of Southern Idaho set forth 25 graduates from its 2008 practical nursing graduation Wednesday night at the Fine Arts Auditorium in Twin Falls.

The event took off with an enthusiastic introduction by Dr. Pam Holloway, director of CSI's Practical Nursing program. Holloway welcomed guests and commended the graduates for their hard work and dedication.

Brannen offered a quote to each of the 25 graduates,

Dr. Taylor Award: Kaylyn Simmons
Outstanding Leadership Performances Award: Reagan M. Bako and Stephanie York
Excellence in Service Award: Jashelle Gummow, Caroline Osterhout and Kaylyn Simmons.
Award of Excellence: America Duheric

something new this year, in lieu of stating a personal quality for each.

Holloway took over with a challenge, "to ask students to do a little bit more."

Challenge respondent Casey Elson, 23, of Boise, stepped up and delivered a speech that informed, thanked, congratulated, and wished well of his fellow classmates and instructors.

"We accomplished no small task, and for this

accomplishment, we give ourselves all due respect," he said.

Elson plans to move forward to his registered nursing transition and to earn a master's degree in anesthesia.

Graduate Amber Zaccone, 30, of Twin Falls said, "The instructors are great. This program is unlike any other. Instructors accommodate students." Zaccone plans to continue school for registered nursing.

A presentation of awards followed the challenge. Holloway presented the Dr. Taylor Award, given yearly to the student who maintains the highest overall grade-point average, to Kaylyn Simmons.

A slide show of the students' graduation pictures and childhood photos was also shown. The event concluded with a piping ceremony as the graduates were called to be awarded a nursing pin by Becky Brown and given certificates by Timmy Peterson.

Authentic Hawaiian leis were also placed around each graduate's neck.

Jeffrey Jackson may be reached at jjackson@2104-students.col.edu.

Phyllis L. Hitchcock

In Loving Memory of our dearest mother and sister, Phyllis L. Hitchcock passed away peacefully in her sleep Saturday, July 19, 2008.

Born to parents Thelma and Paul James Anderson of Jerome, Idaho, on March 13, 1937. She is survived by her sisters, Sheri Hittenbach of Twin Falls, Idaho, Terrell (Him) Conway of Boise, Nev., along with her children,

Michael (Mary) Dickson of Belse, Idaho; Kelly (Greg) Williamson of Post Falls, Idaho; and Daren Hitchcock of Elko, Nev. She leaves behind seven wonderful grandchildren, Jason, Kasey, Amber, Thresa, Michael, Cody, and Autumn) and 13 great-grandchildren.

Private family services to be held in Elko, Nev., on Tuesday afternoon, July 22.

DEATH NOTICES

Robert (Bob) L. Collins

Robert (Bob) L. Collins 66, of Mountain Home, died July 19 in Boise.

Funeral arrangements are under the direction of Demary Funeral Chapel, Mountain Home.

Christine A. Bonning

CHRISTINE A. — Christine A. Bonning, 55, of Jerome, died

Sunday, July 20, 2008 at Bridgeview Estates in Twin Falls.

Services are pending under the direction of Hope-Robertson Funeral Chapel in Jerome.

Wayne Sorenson

SHOSHONE — Wayne Sorenson, 85, a resident of Shoshone, Idaho, died Sunday, July 20, 2008 at his residence.

Arrangements are pending and will be announced by Demary Funeral Service, Shoshone Chapel.

SERVICES

Dorothy Sedgwick of Hamah, S.C., graveside service at 10 a.m. today at the Carolina Memorial Park (J. Henry Stubb Inc., Northwoods Chapel in North Charleston, S.C.).

William "Bill" Roy Mink of Gooding, graveside service at 11 a.m. today at the Elmwood Cemetery in Gooding (Demary Funeral Service, Gooding Chapel).

Anna "Annie" Elizabeth Carter Hooper of Elgin Falls, funeral at 2 p.m. today at Park's Magic Valley Funeral Home, 2551 Kimberly Road in Elgin Falls.

Ethel Mary (Timmons) Ballantyne of Rupert, funeral at 11 a.m. Tuesday at the Grace Community Church, 100 N. Meridian in Rupert; visitation from 6 to 8 p.m. today at the Hansen Mortuary in Rupert Chapel.

710 Frank St.

Frank B. Burton of Gooding, Mass of Christian burial at 10 a.m. Wednesday at the Gooding Methodist Church; rosary at 7 p.m. Tuesday at Demary Funeral Service, Gooding chapel; visitation from 4 to 7 p.m. Tuesday at the mortuary.

Edwin H. Rogers of Gooding, funeral at 2 p.m. Wednesday at the Gooding LDS Chapel, 1228 Main St.; visitation from noon to 1:30 p.m. Wednesday at the church (Demary Funeral Service, Gooding Chapel).

The Rev. Andrew Herbert Horderred of Castleford, memorial service at 10 a.m. Thursday at the Twin Falls Church of the Brethren, 461 Flax Ave. W. (Park's Magic Valley Funeral Home in Twin Falls).

For obituary rates and information, call 735-3266 Monday through Saturday. Deadline is 3 p.m. for next-day publication. The e-mail address for obituaries is obits@magicvalley.com. Death notices are a free service and can be placed until 4 p.m. every day. To view or submit obituaries online, or to place a message in an individual online guestbook, go to www.magicvalley.com and click on "Obituaries."

Crash on Interstate 86 injures Utah man

Staff report

One man was injured Sunday after his car rolled over near the Interstate 86 and Interstate 16 split in southern Idaho, police said.

At about 6:17 a.m. Richard

Ramos, 18 of Utah, was driving a 1998 Honda Civic eastbound on Interstate 86 at mile marker 25 when he drove off the left shoulder.

Ramos overcorrected and caused his car to roll over, eventually coming to rest on

the right shoulder, according to an Idaho State Police news release.

Ramos was not wearing his seatbelt and air bags did not deploy.

He was taken to Cassia Regional Medical Center

and later air lifted to St. Alphonsus Regional Medical Center in Boise, where he is being treated for serious but not life-threatening injuries.

The crash is under investigation by the ISP.

Lions, tigers, and guns, oh my

Gun group tours Boise zoo while armed

BOISE (AP) — Idaho members of a group that advocates openly carrying handguns in public gathered at Zoo Boise this weekend to tour the area while packing guns on their hips.

The 10 members of OpenCarry.org were allowed into the southern Idaho zoo on Saturday

after initial confusion at the entrance on whether it was legal to bring an uncocked handgun into the zoo.

After getting the OK, the group bought tickets and entered through the front gates.

"Coming to the zoo was something we could do together, like any family would," group member Carol Schultz of Nampa told the Idaho Statesman.

Schultz said she's never without her handgun, that she keeps in a holster that's

attached to a heart-studded belt.

She said she's also gone through the training and background check to qualify for a concealed weapons permit.

"In an ideal society, one of peace and people taking control of their own lives, ideally you wouldn't need a gun," she said.

Blaine Tewell of Eagle also took part in the visit to Zoo Boise. He said he's in the process of getting a concealed weapons permit, but for now openly carries a

weapon in plain sight.

He said he's not a vigilante and doesn't want to chase down criminals, but does want to be able to defend himself.

"When seconds count, police are still minutes away," he said.

Schultz and Tewell said they've never had to use a gun in self-defense. However, they have been asked to leave private property, such as restaurants and stores, when told they were making others nervous with their guns.

COMMUNITY NEWS

Minidoka County Fair looks for Grandma Queen

The Minidoka County Fair Board is looking for candidates for the 2009 Grandma Queen. To nominate someone, write a short story about a favorite lady and tell why she should be the Grandma Queen. The only requirements are that she must be at 50 years old and a grandma. Mail nominations to the Minidoka County Fair Board, P.O. Box 151,

Rupert, ID 83350. Deadline for nominations is July 31. For more information: 208-436-9748.

Heyburn Alumni Reunion news

The Heyburn Alumni Reunion will be held Saturday, July 26 at the old Heyburn High School. The day will include honoring of alumni, drawing for a painting, and time for visiting. The paintings will be available for

viewing from 3 to 4 p.m. Registration will begin at noon, with lunch served at 1 p.m.

Jerome County Fair competition books available

The 2008 Jerome County Fair Exhibit Department announced that competition books are now available. Books can be picked up at local businesses in Jerome. The fair will run July 26-Aug. 2. For more information: <http://www.jeromecountyfair.com>.

Vacant

Continued from page 44

Pavson said the city has a policy on attractive nuisances or structures that will draw in children. Depending on the condition of the building, the city may require the owners to keep it boarded up. But if the structure is deemed unsafe — with the ceiling and floor caving in — Pavson will

take pictures and send them to the owners along with notices regarding the owner's responsibility in demolishing the building. If the property owners do not respond to the city's requests to tear a building down, the city will do the work and charge the owners. A lien will be placed on the

property if unpaid. The city has condemned three or four structures and regularly has to resecure the old Stanley building on Main Street, Pavson said. "It's not always so easy to tear these old buildings down. Some of them have asbestos in them and special precautions have to be taken,

especially if the city does it." Pavson said. "It can end up as a long, drawn-out court case."

Pavson said the best thing citizens can do if they notice people entering vacant buildings is to call the city.

Laurie Welch may be reached at (208) 677-0767.

Malta

Continued from page 44

can't be swapped out," he said. "That's the way it was done back then, but it was short-sighted."

One of the school's problems is the science room. It's even for a town with a population of about 200 people.

"It's a very congested room, and they're not able to conduct all of the science lessons they'd like to and need to, even basic chemistry experiments," Smyer said.

The room may still be used in some fashion. One of the details yet to be determined is what to do with the mid-section of the high school, whether or not to tear it down and turn it into a covered walkway connecting the auditorium and classroom section.

More than likely, according to Smyer, the auditorium

What Malta needs

High School: New building, including a new gym
Junior High: New heating systems; students will use the newest section of the old high school building as their own; middle section between gym and auditorium will possibly be torn down
Elementary: Classes will be freed up to accommodate population growth as junior high students attend designated classes in old high school building

Open houses at each affected school in the county will be held from 5 to 7 p.m. on July 22 and 29. A calculator to determine how much individual property taxes would increase can be found at <http://www.sd151.k12.id.us>.

wing, which includes the library, will remain and be used for junior high classrooms. Currently, junior high students use lockers in both the high school and the elementary buildings.

"Some people say just knock it all down and replace it, but that might be cost prohibitive," Smyer said. The

most significant project, the one allowing junior high students to have their own building, is the construction of a new high school between the elementary and the football field.

EDITORIAL

We've got a surplus: Can we fill potholes?

One of the reasons that Idaho Gov. C.L. "Butch" Otter and legislators have had such an uneasy relationship over the past two years is a clash of world views. Otter is an optimist — a guarded, shrewd businessman optimist, mind you, but usually inclined to see the glass half full. Lawmakers, on the other hand — especially those who sit on the budget-writing Joint Finance Appropriations Committee — are pessimists by inclination and experience. If something can go wrong with the state tax collections, they've learned, it probably will. Now the governor is on the road trying to drum up consensus for spending more money to fix Idaho's beleaguered highways. He wants legislators, who refused to do so in last winter's session, to erase some of the \$240 million or more backlog in highway maintenance and repairs. Many lawmakers, and quite a few editorial writers statewide, are skeptical. We think Otter has a reasonable plan. Why? State government ended the last budget year with a \$223.8 million surplus. Sure, it's a "soft" surplus, bolstered by a \$247 million carryover from the previous budget year. And in June sales tax receipts totaled \$95 million, down from the \$101 million generated in June 2007. But that's an economic slowdown, not a coma. Idaho can afford to spend some money to fill the potholes. The governor has \$60 million to \$80 million in mind, which is reasonable — especially given the fact that the need is even more compelling than when the Legislature adjourned with no new highway funding in April. One of the state's main funding sources for roads — a 25-cent-per-gallon gas tax — is becoming less certain as motorists downsize to more fuel-efficient vehicles or drive fewer miles. According to the Idaho Statesman, Idahoans used 219 million gallons of gas in the first three months of 2008, down 9 million gallons from 2007. And unless the state makes a significant funding commitment — and soon — Idaho simply won't have enough money to match federal dollars that pay for most roads. Then there is the state of the roads themselves, which in some Magic Valley highway districts have gone from bad to kidney-busting. For their part, legislators are certain to come up with all kinds of excellent reasons why the state can't afford the big investment in highway repair just now. And they'll be full of nickel-and-dime proposals, such as diverting the sales tax on auto parts to highways. That won't get it done. In January, lawmakers should do what Otter proposes: Show courage and appropriate a significant number of general fund dollars for highway repair. There may be secondary funding sources to tap as well, but the state's kith is where most of the road money will have to come from. The governor was foolish to turn down the House leadership's compromise of \$68.5 million in new highway money last session, but that's water under the crumbling bridge. This time he's showing leadership on the roads issue, and the Legislature should follow.

Our view: Gov. C.L. "Butch" Otter is right. Fixing Idaho's battered roads is an urgent priority. What do you think? We welcome viewpoints from our readers on this and other issues.

Back to the bad old days in Russia

Vladimir Putin's appointment this spring as prime minister of the symbolic "union" of Russia and Belarus was yet another example of the troubling similarities between today's Russia and the other stable and prosperous Russian regime of the past 80 years: Leonid Brezhnev's Soviet Union in the 1970s. That economy, too, was fueled by then-record oil prices. And while there are clear differences between the two Russias, in these tendencies go unchecked, the increasingly authoritarian and economically stultid country may soon face crises of the kind that became apparent under Brezhnev and contributed to the Soviet Union's demise. • The most disturbing of these present-day tendencies include: • The national alcoholic binge. In the 1970s, Soviets annually consumed eight liters of strong (40 to 60 percent proof) alcoholic beverages per person — more than in any other country. Between 1964 and 1980, male life expectancy fell from 67 to 62. Today, per capita consumption of vodka, which is four times cheaper in relation to the average salary than 30 years ago has grown to 10 liters, according to official statistics. Outside experts say it is higher. By contrast, the most recent data available from the World Health Organization show the corresponding U.S. figure is 2.57 liters. One in 10 Russian men is thought to be an alcoholic. Life expectancy for Russian men is less than 60.6 years, more than 15 years shorter than in the United States and European Union and below current levels in Pakistan or Bangladesh. • Oil for food. This spring, Putin admitted that 70 percent of the food consumed in Russia's largest cities is imported, a situation he decried as "intolerable." This problem, too, first surfaced in the 1970s, when grain imports were so high that by the end of the decade they supplied the flour for every third loaf of bread. When oil prices collapsed, Russia was forced to spend gold reserves and seek loans — and eventually found itself without grain or gold. After agricultural land was denationalized in the early 1990s, food

became available almost immediately — for the first time in almost 70 years it could be had without hours-long lines and rationing coupons. Russia started to export grain. Yet agricultural land was never legally privatized, and rules for long-term leasing have been left to local authorities. Not surprisingly, such legal gray areas have given rise to corruption, increased production costs and hampered innovation. Provincial governors, who are no longer elected and answer only to the president, pressure successful entrepreneurs and farmers to "share" with local authorities. • One-party rule. With its position marginalized and demoralized, and election results rigged, United Russia has emerged as the "ruling party," the term that used to be reserved for the Soviet Communist Party. "Today we are the party responsible for the government," a top United Russia functionary told a Russian newspaper this year. "Since our leader (Putin, the party's chairman) is the chairman of the government," those who argue, rightly, that United Russia membership is only a ticket for ambitious apparatchiks to punch should remember that there was precious little ideological fervor and much cynicism in the 1970s as well. Lack of sincerity then did nothing to ameliorate the absence of corrective societal feedback and, with it, the inability to reverse the dead-end policies that led to the crisis. • A new oligarchy. Brezhnev drew some of his loudest critics in his six-

hour "reports" to party congresses when he declared "respect for the cadres." Delivering his presidential valediction this spring, Putin's longest applause came when he cited "stability" as his crowning achievement. With virtually every top Putin official and adviser retained, sent to the Security Council or made "presidential envoy" to some part of the country, a new *nomenklatura* has emerged — insulated from media criticism, spared political competition and effectively immune from criminal prosecution. As in Soviet times, the members of this political master race are almost never fired. Since the Putin "Poliburo" and "Central Committee" are a good 20 years younger than Brezhnev's, retirement is not an option. The 1970s were clear what the belief in official infallibility and omnipotence, under disregard for public opinion, ossification, and pandemic corruption could lead to. Most of all, the experience of Brezhnev's Russia confirms that authoritarian "stability" is a curious political commodity. Its benefits are instantly apparent but its price is revealed only gradually — and may be devastatingly high. As he moves forward, President Dmitry Medvedev should do well to remember the lessons from Russia's other most stable regime.

Leon Aron is director of Russian studies and a resident scholar at the Woodrow Wilson Center, a senior advisor to the American Enterprise Institute. He wrote this commentary for The Washington Post.

LETTERS TO THE EDITOR

June story on virtual schools was misleading

I am unhappy about the June 29 article titled "Virtual money-makers." I believe the general thrust of this article was inaccurate and misleading. I am a parent who has had children in the (Idaho Virtual Academy) for more than five years now, which is nearly the entire time it has existed. Several factors should be considered when assessing the state of Idaho's young virtual academies. The first is that, since they are so new, in order to be cost-effective, they must contract for many of the services they use. This is not unusual, even for brick-and-mortar school systems. Also, in order to fulfill the need for which they were created, they must purchase first-class curriculums which do pose a significant cost. Finally, though the raw numbers quoted in the article are impressive, when comparing per-student costs and academic outcomes, IDVA is far more efficient than its much older counterpart. Much of the scrutiny being given to virtual learning is coming at the behest of those within existing school systems. Today's teachers are talking about "21st century learners," a concept that includes more interactivity, creativity and collaboration

within the framework of schooling than ever before. It's all about preparing kids for the future, not protecting the beloved system of the past.

Next time: the whole story, please! TAMIY LOWTHER Twin Falls

Wendell residents need to know more from city

I am responding to your article titled "In closer proximity" in the July 10 paper. I believe the residents of Wendell need more information about the proposed repeal of the setback requirements. They should also be asking more questions of the Planning and Zoning and City Council about what would happen if the repeal is passed and the slaughterhouse is allowed to be built next door to residential homes and existing businesses. The original ordinance was created in the '70s to protect the citizens of the city from being subjected to slaughterhouses. The new ordinance strikes the limitation that the slaughterhouses cannot be built less than 1,000 feet from a residence. The first slaughterhouse they allowed in Wendell was built illegally because it did not conform with the 1,000-foot restriction. Now they want to correct a past mistake and

allow a new slaughterhouse to be built next to residential homes.

The proposed slaughterhouse will greatly affect property values, attract flies, cause odors, create traffic, dust and noise — just like the existing slaughterhouse. Hundreds of residents have already expressed their displeasure with the existing slaughterhouse, but the City Council doesn't seem to want to listen. They want to push through the modified ordinance in order to get more tax dollars for the city. I don't think they are taking into account the damage this is going to create to the already overloaded and ill-maintained sewer system. I would venture a guess that they are going to pass the cost of a new sewage system on to the tax-paying residents of Wendell. Please make sure you attend the City Council meeting July 24 to voice your concerns. You can also e-mail nuslaughterhouse@gmail.com to weigh in with your opinion. All e-mails will be presented at the meeting. MIKE SCRIBANK Wendell

What are Don Gillispe's real qualifications?

Mr. Don Gillispe: After you told us at Glens Ferry that you graduated

from MIT, we have been trying to confirm that information. We have a tape of the statement you made at Glens Ferry. We have called MIT to confirm you graduated and, they say they haven't heard of you. We have requested from your company if you graduated from MIT and they said you attended Sloan School of MIT. We checked with this school and they have no information. Reporters have called you and you refuse to respond about your MIT graduation. Is there something you are hiding or are we checking in the wrong place? If someone is interested in investing in your company isn't it proper to give out information that is correct and above board? Mr. Gillispe, we can't confirm your education and experience in the nuclear business. We are beginning to wonder what is going on here. Please help us by publishing a detailed resume of your education and work experience in the Times-News and Mountain Home News. The public has the right to know if you are qualified to build a nuclear power plant. We are looking forward to reading your detailed resume in our local newspapers in the near future. THE LIGHTER SIDE OF POLITICS

Cartoon strip by Garry Trudeau and Bruce Tinsley. Characters include Doonesbury, Mallard Fillmore, and Cheryl. Doonesbury asks "CAN I CHANGE MY POSITIONS CONSTANTLY AND GET AWAY WITH IT?". Mallard Fillmore replies "YES, YOU CAN!". Cheryl says "THIS IS WAAAAAY TOO EASY... YES!".

Meet Pope Benedict XVI, environmentalist

Pope Benedict XVI, like many world leaders, has spoken passionately about the urgent need to protect the planet from climate catastrophe. But unlike his fellow heads of state, the pontiff has actually created a carbon-neutral mission—and done it inexpensively and quickly.

The Vatican announced last year that it would restore 37 acres of forest in Hungary that had been cut down in the Middle Ages. Those growing trees will absorb enough carbon dioxide to offset all the pollution from the fossil fuels used to power Vatican City.

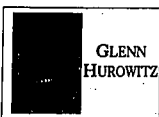

The reason this "Vatican model" succeeded while other countries struggle to achieve even modest emissions reductions is because of the unique qualities of forest conservation and restoration. Compared with other methods of reducing climate-changing pollution, such as switching to wind, solar or geothermal power, it's fast and relatively inexpensive. That's true even in a small, Vatican City scale as well as a massive American scale.

It's particularly true when it comes to the carbon-rich tropical forests that act as the Earth's lungs, breathing in carbon dioxide and breathing out oxygen. These forests are being logged and burned at a terrifying pace by big agricultural, biofuels and mining companies. Between August 2007 and April 2008, for instance, big ag and its partners destroyed or whittled 2,300 square miles of the Amazon, releasing 300 million tons of CO2 into the air in the process.

Compounding the disaster, the treeless land generally loses its capacity to absorb the greenhouse gases produced by the world's fossil fuel consumption.

The good news is that stopping that destruction — by purchasing the land outright or paying landowners and others to conserve it — is a bargain. Because of the low cost of tropical land, protecting these forests can cost as little as \$1 per ton of CO2 saved and almost never more than \$10 a ton. (For comparison, cleanups based primarily on energy trade for more than \$40 a ton on European markets.) As a result, the World Bank and others estimate that global deforestation could be completely halted for the relatively tiny sum of \$11 billion to \$15 billion a year. That one move alone would eliminate 20 percent of total global warming pollution.

Despite the urgency of the problem — and the ease of the solution — forest conservation, until recently, has been the forgotten stepchild of climate

GLENN HUROWITZ

legislation. For many years, policymakers (particularly in Europe) were nervous that polluters would abuse the system by using low-cost diesel or forest conservation projects as an excuse to avoid cleaning up industrial pollution at home.

But forest conservation needn't be an end, it should be a beginning. Again, we can look to the Vatican as a model. The pope didn't stop with his Hungarian forest. This year, he's planning to unveil an army of solar panels atop the huge Paul VI Audience Hall, which will provide enough electricity to light, heat and cool the building year-round. The payoff is using forest conservation the right way: not as a method to avoid a clean-energy revolution but as a way to achieve immediate gains while other progress is underway, including the greening of Catholic Church operations around the world.

That should be the model for the United States (and other industrialized nations too). Although comprehensive climate change legislation is considered dead for this year, it's likely that Congress and President Bush could cobble together a consensus to authorize the \$11 billion necessary to halt worldwide deforestation for 2009. That would keep 6 billion tons of carbon dioxide out of the atmosphere — equivalent to the United States' entire annual emissions — and save 30 million acres of forest from destruction for the foreseeable future. It would send a clear signal to American voters (and the world) that although the details still have to be figured out, the federal government can deliver real action on climate change.

This isn't as pie-in-the-sky as it might seem. Bush has approved several significant tropical forest conservation projects in Guatemala, Costa Rica, Panama and elsewhere. With this deal, Bush could leverage the claim that he'd done far more, far sooner, for far less money to stop global warming than either the Kyoto Protocol or the failed congressional climate bill would have.

By following the pope's example, even Bush might qualify for a bit of ec-sainthood.

Glenn Hurowitz writes about the environment at Crist.org. He wrote this commentary for the *Las Vegas Times*.

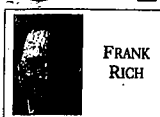

How did Bush & Co. foul things up so badly?

We know what a criminal White House looks like from "The Final Days," Bob Bernstein's classic account of Richard Nixon's unraveling. The cauldron of lies, paranoia and illegal surveillance boiled over, until it was finally every man for himself as desperate courtiers scrambled to save their reputations and, in a few patriotic instances, their country.

"The Final Days" was published in 1976, two years after Nixon abdicated in disgrace. With the Bush presidency, no journalist is waiting for the corpse to be carted away. The latest and perhaps most chilling example arrives this week from Jane Mayer of *The New Yorker*, a long a relentless journalist that of her top-tier colleagues to portray a White House that, like its prototype, savaged its enemies within almost as ferociously as it did the Constitution.

Some of "The Dark Side" seems right out of "The Final Days," minus Nixon's operatic boozing and weeping. We learn, for instance, that in 2004 two conservative Republican Justice Department officials had become "so paranoid" that they actually thought they might be in physical danger. The fear of being wiper-tipped by their own peers drove them to speak in code.

The men were John Ashcroft's deputy attorney general, James Comey, and an assistant attorney general, Jack Goldsmith. Their sin was to challenge the White House's don, Dick Cheney, and his consigliere, his chief of staff David Addington,

FRANK RICH

when they circumvented the Geneva Conventions to make torture the court law of the land. Comey and Goldsmith failed to stop the "torture memos" and are being gone from the White House. But Vice President Cheney and Addington remain enabled by a president, attorney general (Michael Mukasey) and CIA director (Michael Hayden) who won't shut the door firmly on torture even now.

In Mayer's portrayal of the Bush White House, the president is a secondary, even passive, figure, and the motives invoked by Cheney to restore Nixon-style executive powers are theoretically selfless. Possessed by tectonic-homb scenarios, all they want to do is protect America from further terrorist strikes.

So why if they cut corners, the administration's latest defenders argue. While prissy lawyers insist on habeas corpus and court-issued writ warrants, the rest of us are being kept safe by the Cheney posse.

But are we safer? As al-Qaida and the Taliban surge this summer, that single question is even more urgent than the moral and legal issues attending torture.

Once again terrorism has fallen off America's map, landing at or near the bottom of voters' concerns in recent polls. There were major attacks in rapid succession last week in Pakistan, Afghanistan and at the American consulate in Turkey. Who listened to this

Once again terrorism has fallen off America's map, landing at or near the bottom of voters' concerns in recent polls. There were major attacks in rapid succession last week in Pakistan, Afghanistan and at the American consulate in Turkey. Who listened to this ticking time bomb? It's reminiscent of July 2001, when few noticed that the Algerian convicted of trying to bomb Los Angeles International Airport on the eve of the millennium testified that he had been convicted of trying to bomb Los Angeles International Airport on the eve of the millennium testified that he had been trained in bin Laden's Afghanistan camps as part of a larger plot against America.

to pose the most dangerous threat to American lives.

And so we're back where we started in the summer of 2001. We are once again distracted and unprepared while the Taliban and bin Laden's minions multiply in Afghanistan and Pakistan. This, no less than the defiling of the Constitution, is the legacy of an administration that not merely rationalized the immorality of torture but shattered our national security to the absurdity that torture could easily fix the terrorist threat.

That's why the Bush White House's corruption in the end surpasses Nixon's. We can no longer take comfort in the Watergate maxim that the cover-up was worse than the crime. This time the crime is worse than the cover-up, and the punishment could rain down on us all.

Frank Rich is a columnist for *The New York Times*.

Get to know contractor before you hire

A driver's license doesn't make a good driver.

READER COMMENT
Mike Carraway

Who would believe that a contractor's license would make a good contractor? The Idaho Contractor Registration Act requires, in part, that all contractors, painters, cleaning companies, handyman, roofers, general contractors and all construction-related companies that do \$2,000 or more in improvements to a single property to register with the Idaho Bureau of Occupational Licensing. With voluntary licensing, each one of these trades would require customized training relevant to their individual fields.

Your general contractor's ability to swing a hammer is the least of your worries.

- What you should be concerned about:
 - Financial stability: Your general contractor's financial abilities and financial health can have a major impact on your project.
 - Customer service and satisfaction: Will your general contractor return your calls, take the time to listen and respond to your ideas?
 - Relationships with subcontractors: Choosing a general contractor who has established healthy business relationships and has maintained the respect of trade contractors will show in the quality and timeliness of your project.
 - Reputation with prior customers: Choose a general contractor who gives you ref-

erences; these are people you can talk to. Ask the tough questions.

Having a home built or your existing home remodeled is one of the biggest investments you will ever make. Most people will spend more time deciding what dishwasher to buy than choosing which general contractor they will hire. The best way to protect your self is to check the general contractor out and get to know the hammer. Far too often, people choose the person to build or improve their greatest investment by the builder who offers the lowest bid.

No law can protect you from fraud or shoddy workmanship. Voluntary contractor licensing programs do less to protect consumers than the existing Idaho Contractors Registration Act. The only action that voluntary programs can administer in instances of fraud or shoddy workmanship is to expel the offender from the "CLUB." There are several agencies already actively participating as "watchdogs" in the building industry. Financial institutions take a significant risk every time they loan money for a housing project. They judge the credit worthiness and reliability of the borrower. Insurance institutions cover not only the risk of

Most people will spend more time deciding what dishwasher to buy than choosing which general contractor they will hire. The best way to protect your self is to check the general contractor out and get to know the person behind the hammer.

potential damage but the risk of contractors not completing their projects; they assess the safety and performance history of a general contractor. City building inspectors enforce code compliance. In other words, that structures are built to meet or exceed the "code" for public safety.

The contractors in Idaho, working with their state organizations pushed for contractor licensing several times in the past 15 years only to have their efforts die in the Legislature. Registering 20,000 contractors in the last two years has been a huge accomplishment. We have many excellent contractors in Idaho who take pride in their work and care for their customers.

Mike Carraway, 2008 president of the Magic Valley Builders Association, submitted these comments on behalf of the association.

QUOTABLE

"Came here a long time ago. We had a blast that night and we're having another one tonight."
— Paul McCartney, who joined Billy Joel on stage for his farewell at Shea Stadium concert. McCartney and The Beatles performed 43 years ago at Shea — the first concert at the ballpark.

"These misdeeds, which constitute so grave a betrayal of trust, deserve unequivocal condemnation."
— Pope Benedict XVI in Australia apologizing for the sexual abuse of children by that country's clergy.

"It's the magic of the movie business, how one film just stands out above the others."
— Dan Feilman, Warner Bros. head of distribution, on the debut of "The Dark Knight," which set a record \$18.5 million in ticket sales on its opening night.

Haiti's hidden hunger

Country's food aid lags, hunger deepens for many

By Jonathan M. Katz
Associated Press writer

DESCHAPELLES, Haiti — Every inch of Rivlade Filisame's body hurt from his swollen, empty stomach to his dried-out, wrinkled skin. The 18-month-old had been crying for so long in the hospital malnutrition ward that his mother no longer tried to console him.

After soaring food prices led to deadly riots in April, the U.S. and the U.N. promised millions of dollars in aid to poor families like Rivlade's, as well as help for farmers to break Haiti's dependence on imported food.

But three months later, The Associated Press has learned that only a fraction of a key U.S. food pledge — less than 2 percent as of early July — has been distributed.

Even those who oversee the food aid programs say they are stopgap measures while programs to create jobs and help Haitian farmers to increase production are more critical to ending the country's chronic hunger once and for all.

But right now, aid workers say, the poorest families need immediate help, and little of America's largest food program has reached them. Most of what has reached Haiti is stuck in port. Nearly all the rest is still inside warehouses

Rivlade Filisame, an 18-month-old boy who suffers from malnutrition, sits next to his mother at the Albert Schweitzer hospital in Deschapelles, Haiti, June 17. Funding delays, a dysfunctional central government and transportation problems along crumbling rural roads are keeping aid from reaching critical areas such as the fertile Artibonite Valley, where one out of three children are malnourished.

— victim of high fuel prices, bad roads and a weak national government. Barely any food at all has gone to the desperate countryside, where more than half of Haiti's 8.7 million

people live. Even in the Artibonite Valley, Haiti's most fertile region, child malnutrition is rampant. Farmers — reeling from last year's floods and a dry spring, and lacking

equipment that was promised to increase their yields — are eating the very seeds they should be planting to avoid future hunger.

One in three children is malnourished in the most rural areas of the Artibonite Valley, according to the Hospital Albert Schweitzer in Deschapelles, where Rivlade was treated in June. Doctors there treated 113 children to the malnutrition ward from May through June, almost two and a half times more than last year. In April and May alone, there were 361 children under five who were severely malnourished and more than 2,500 others moderately so.

"Kids who would have been moderately malnourished last year are severely malnourished this year," said hospital official Adeline Azreck. "Families that were once just vulnerable are now in crisis."

With families eating through their meager food savings and with the hurricane season in full swing, the food riots could be returning. On Thursday, U.N. police said, a small group of demonstrators burned tires and threw rocks at police and U.N. peacekeepers in Les Cayes, where the April riots began.

"Life is even more difficult than it was in April," said Pierre Anjollier St-Cyr, who works in agricultural development in Les Cayes. "Community organizations are meeting weekly to see if they are going to start the protests again."

Woman in Penn. baby mystery charged with homicide

PITTSBURGH (AP) — A woman suspected of cutting open a pregnant woman's uterus and stealing the baby has been charged with homicide, unlawful restraint and kidnapping, police said Sunday.

Andrea Curry-Demus, 38, of Wilkinsburg, is charged in the death of Kia Johnson, 18, of McKeesport. Curry-Demus is accused of taking the baby boy to a Pittsburgh hospital and claiming it was her own.

Johnson's body was found Friday in Curry-Demus's apartment. The body was positively identified through dental records, Allegheny County Medical Examiner Karl Williams said Sunday.

Police said in court papers that video surveillance at the Allegheny County Jail from Tuesday afternoon shows Curry-Demus talking with Johnson for several minutes. The women were at the jail visiting different inmates, police said.

The clothing Johnson is

seen wearing on the surveillance tape was consistent with the garments found on her body, police said.

Allegheny County Police Superintendent Charles Moffatt said the jail was the last time Johnson was seen alive. Curry-Demus had denied meeting Johnson, police said in court papers.

Curry-Demus showed up at the hospital Thursday with a newborn that still had the umbilical cord attached, police said. Tests later proved that she was not the mother.

Police said Curry-Demus then said she bought the baby for \$1,000 from the baby's mother.

The baby was "apparently doing well," Williams said Saturday. The hospital would not release any information about the boy's condition.

In 1990, Curry-Demus, then known as Andrea Curry, was accused of stabbing a woman in an alleged plot to steal the woman's infant.

As of Monday, July 14, 2008, Burn Barrel Ash Will No Longer Be Accepted at Any Southern Idaho Solid Waste Disposal Site.

Burn barrels are one of the leading causes of wildfires and structural fires in the United States. Even a burn barrel that feels cool can have live embers in the center that can ignite when the barrel is dumped. As a fire prevention measure, SSIW's Board of Directors has decided to ban ash dumping at the transfer stations, effective July 14, 2008.

For more information, please call Southern Idaho Solid Waste at 208-432-9082 or visit www.ssiw.org

Coal's renewed popularity concerns environmentalists

By Chris Kraul
Los Angeles Times

ALBANIA, Colombia — Its gray and black walls stretching to infinity, Latin America's largest coal mine resembles a miniature Grand Canyon.

The big difference is that the timeless hand of nature has not carved out El Cerrejon mine. Booming global demand has.

A fleet of electric shovels runs 24 hours a day scooping up 50 tons of coal at a swipe. The rock is then loaded onto 100-car trains that roll nine times a day to a private Caribbean port, where it is placed on cargo ships that deliver it to power plants in Chile, the Netherlands, Japan, the U.S. Eastern Seaboard and elsewhere.

As the global price of oil and natural gas soar, some customers are taking a look at other fuels — including coal. And countries including China and India, whose demand is helping push the price of petroleum, need even more energy. Besides petroleum products, they are buying vast amounts

of coal, as well. The worldwide demand for oil has its own set of environmental consequences — drilling in pristine areas where it previously saws uneconomical and continued omission of greenhouse gases. But environmentalists warn that renewed reliance on coal takes the threat to another level.

"Growing coal use threatens nothing less than the end of civilization as we know it," said Henry Henderson, the Chicago-based Midwest director of the Natural Resources Defense Council.

Low in acid-rain-causing sulfur and inexpensive to produce, Colombia's coal has always been coveted. These days, El Cerrejon and half a dozen other major mines in the region are booming. Energy & Mines Minister Hernan it previously says Colombia's shipments will rise to 80 million tons this

year, 10 percent more than last year and double the amount just five years ago.

The value of Colombia's coal exports in 2008 will surpass \$5 billion, up 40 percent from last year and 10 times what it was six years ago, a reflection of the increased price. Coal has more than

doubled in price to \$100 a ton in a year.

China added more coal-burning power plants in 2007 than Britain has built in its history, said Gerard McCloskey, a coal market specialist with Cambridge Energy Research Associates in London.

Harrington wins British Open, ends Norman's dream

By Doug Ferguson
Associated Press writer

SOUTHPOIT, England — Padraig Harrington enjoys few moments more than the walk down 18th fairway of a century-old links course, especially with a four-shot lead in the British Open and the engraver putting the final touches on the oldest trophy in golf.

He stopped Sunday to share the moment with Greg Norman, who knows this path all too well.

Celebration for one, sympathy for the other. "I did say to him coming down 18 that I was sorry it wasn't his story that was going to be told," Harrington said. "I did feel that, but I wanted to win myself. In this game, you have to take your chances when you get them."

Harrington seized his opportunity by smashing a pair of fairway metals into the par 5s that carried him to a 32 on the

back nine of blustery Royal Birkdale and made him Europe's first player in more than a century to win the British Open two years in a row.

"Obviously, winning a major puts you in a special club," Harrington said after closing with a 1-under 69 to win by four shots over Ian Poulter. "Winning two of them puts you in a new club altogether."

Norman got a chance no one saw coming.

Still on his honeymoon with tennis great Chris Evert, at 53 only a part-time golfer with no expectations, the Shark found himself with a two-shot lead going into the final round and still one shot ahead with nine holes to play.

It ended like so many other majors for Norman — a quick succession of bogeys, the clutch shots belonging to someone else. He made eight bogeys in

guess that reached 40 mph, closed with a 77 and tied for third.

"Where does it rank in those? Probably not as high as some of the other ones," Norman said of the six other times he lost a 54-hole lead in a major. "Quite honestly, I'm sure I surprised a lot of people."

So did Harrington. The 36-year-old Irishman injured his right wrist eight days ago, and it was so sore that he could only practice for nine holes on Tuesday and for three swings on the eve of his title defense.

He gave himself a 75 percent chance of starting, 50 percent of finishing.

Turns out that wrist was strong enough to hit all the right shots. Better yet, it was strong enough to lift the claret jug.

"It was a great distraction for me," Harrington said. "It took a lot of pressure

Padraig Harrington of Ireland kisses the trophy as he celebrates winning the British Open Golf championship, at the Royal Birkdale golf course, Southport, England, Sunday.

Please see HARRINGTON, Page B4

HITTING THE LINKS: DAY 3

The best of area golf

By David Bashore • Staff writer

S

The No. 1 hole at Clear Lake Country Club is 265 yards from tee to green, just short enough to have a crack at bridging the gap in one stroke.

Best place to try and drive the green. No. 1 at Clear Lake Country Club earns this distinction, head and shoulders above the others. As mentioned Sunday, Nos. 11 and 13 at Twin Falls Municipal are two others, but the bunkers guarding the green make it difficult. There's no such problem with this hole. It's a straight shot that slopes downhill, with the center of the green lying 265 yards from the back tees. With a well-struck driver and some top-spin, if you can hit it straight, you can reach this in one and be putting for eagle.

Best place for a "no guts, no

glory" shot: This is a tough one, but the nod goes to No. 10 at Jerome Country Club. It's one thing to hit a tee shot over water on a par 3 like Jerome's No. 5 or Pleasant Valley's No. 2, but to hit a second shot over water is a totally different animal. The distance and accuracy of your tee shot dictates exactly how much water you have to carry with your second shot if you want to reach the green in regulation. Keeping it to the right and long will be helpful, but you'll probably have to carry your second over some water no matter where you hit the tee shot.

Best place to grip it and rip it: No.

18 at Twin Falls Municipal gets the nod here, if for no other reason than it's got a little bit of inherent forgiveness. If you miss and give the ball a little slice rather than catching it flush. The fairway doglegs to the right, meaning that if you have a natural fade (like this writer does) you're in business even if the ball drifts a little to the right. So don't hold back in the tee box on this one.

Best place to go for the hole-in-one: Clear Lake's No. 15 hole is the ideal spot for this one. No hazards, no elevation changes, no deceptive greens. Just a clear view of the pin. Club selection and luck play huge

factors, naturally, but this is one of the prime places to grab the white whale known as the ace.

Best place to show off your putting prowess: Chosee just about any of 93 Golf Ranch's holes for this one. As mentioned Saturday, the greens are evil, but that's not to say they're malicious. You just need to get incredibly close to the hole to avoid contending with all the ridges and slopes. This writer four-putted from eight feet on one hole, but hey, the practice is worth the extra pressure.

David Bashore may be reached at 735-3230 or dbashore@magicvalley.com.

Quale gets win at MVS

By Linda Brittan
Correspondent

Bruce Quale once again proved he hasn't forgotten how to win at Magic Valley Speedway.

Quale captured the win in the 100-lap race Saturday night after starting 13th in the pack of the largest field of Popsi Prenter Series cars to undertake a main event this season.

With Mike Greco taking the lead at lap 5, the 21-car mixture of late-models and modifieds ran 26 laps before the first caution of the race. The ride of last weekend's winner Cliff Chester received the most damage in the incident, taking him out of contention for the remainder of the event.

Greco held on to the lead until lap 34 when Quale took over. At the halfway point Quale had gobbled up a 10-car length lead over the field, but successive yellow flags in the following laps continued to bunch up the pack for restarts. Shelby Stroebel had won his way up to one of the top three challengers for the victory, but the final laps saw Quale en route to the win while all Greco and Stroebel could do was fight for second.

"The car ran great tonight," Quale said. "That outside groove was perfect. Just as smooth as glass."

Greco lost his battle with Stroebel with 18 laps remaining in the race, but nevertheless had one of his best runs of the season having been snake bit several times in recent weeks.

"The crew has really worked hard on the car for at least the last five weeks," Greco said. "Sometimes it's hard to keep everybody motivated after all that has happened. But it was a good handling car tonight."

Please see MVS, Page B2

Rogers predicts big things for CSI women's basketball this winter

CSI women's basketball 2008-09 roster

Returning players

Kim Gamblin, 5-11 So. G, Harriman, Utah (Snow College)
Cassie Wood, 5-9 So. G, Richfield (Richfield HS)
Noelle Millic 6-0 Fr. G/F, Boulder City, Nev. (Boulder City HS)
LaCale Pringle-Buchanan, 5-8 So. G/F, Seattle, Wash. (Pepperdine)
Maddy Plunkett, 6-2 So. C, Albany NSW, Australia (Keweenaw)
Soana Lucei, 6-1 So. C, New Caledonia (Lapevrouse)

Incoming players

Nicole Harper, 5-8 Fr. SG, Malta (Rat River HS)
McChel Hunt, 6-0 Fr. SF, Plain City, Utah (Remont HS)
Martina Holloway, 5-5 RS So. PG, Albuquerque, N.M. (Stephen F. Austin University)
Kiera Tate, 5-7 So. SG, Plano, Texas (Southridge HS, Beaverton, Ore.)
Kalika Tullock, 5-9 Fr. F, Middleton (Middleton HS)

By Mike Christensen
Staff writer

Ask Randy Rogers about his team's ranking in the polls and he'll typically say his squad is overrated. Ask him about his team's wealth of talent and he'll wind up referencing his roster's weaknesses.

That's why it meant all that much more when Rogers said what he did about the 2008-09 College of Southern Idaho women's basketball team. "I believe we're going to be

a Top 10 team," said Rogers.

Before that statement could sink in, he added, "On paper. Maybe not on the floor."

Still, the lofty prediction is significant from Rogers, whose team is coming off a 32-4 record and a sixth-place finish at the NJCAA Division I Women's Basketball Championships.

The reason for Rogers' optimism lies in the return of six players from last year's squad, including All-

American performers Maddy Plunkett and Soana Lucei.

The more post from Albany, New South Wales, Australia, averaged 14.8 points and 7.7 rebounds a year ago, while Lucei led the team with 14.9 points and 8.3 boards.

Guard LaCale Pringle-Buchanan returns after considering offers from NCAA Division I schools including Utah State University.

After last year's team strug-

gled with turnovers, Rogers went after some help at point guard. He found that in a big way.

Inking Martina Holloway, a 5-5 point guard from Albuquerque, N.M. Holloway, a sophomore transfer from Stephens State University in Nacogdoches, Texas, is already earning rave reviews.

"She's been a really pleasant surprise," said Rogers. "She's probably the best overall guard I've coached since

Without Wie, Oh wins State Farm

SPRINGFIELD, Ill. — Second-year LPGA golfer Ji Young Oh won her first tournament, sinking a 5-inch putt for par to win the State Farm Classic in a playoff over rookie Yani Tseng.

A day after the tournament lost its marquee player, Michelle Wie, to disqualification for failing to sign her card, the sudden-death playoff injected life into what had been an ordinary final round.

Oh and Tseng finished together at 18-under par.

Tseng, the leader coming into Sunday, chipped her first shot, sinking the green and into the rough, then pitched her ball to about 6 feet from the cup.

But Oh's third shot, from just inside the rough, left her with the tap-in that gave her the win.

Tseng shot a 66 in each of the first three rounds before her even-par 72 to force the playoff.

Na Yeun Choi finished in third place at 17 under for the tournament after shooting a 4-under 68 Sunday.

Oh day dominated by youth, Chinese LPGA rookie Shanshan Feng shot a 9-under 63 — the second best round of the tournament along with Christina Kim's first-time winner on the tournament at 16 under, par, tied for fourth place with Stacy Prammanasudhi and Lee-Weon Han.

Ji Young Oh of South Korea hits the ball up onto the 17th green during the final round of the LPGA State Farm Classic golf tournament in Springfield, Ill., Sunday. Oh made a birdie on the first playoff hole to beat Yani Tseng.

JOHNSON WINS FIRST PGA TOUR VICTORY AT U.S. BANK CHAMPIONSHIP

MILWAUKEE — Richard S. Johnson birdied three of his last four holes for a 6-under-par 64 to earn his first PGA Tour victory. He finished at 16-under 264 and became the seventh first-time winner on the tour this year.

Ken Duke closed with a 65 and was the runner-up

at Brown Deer Park Golf Course.

Dean Wilson (65), Chad Campbell (65) and Chris Riley (66) tied for third at 13-under this year's Ryder Cup.

Kenny Perry closed brilliantly with a 64 to get to 12-under and finish tied for sixth with three other golfers. He had been criticized for skipping the British Open to play this event after winning three of his last five tournaments, including last week's John Deere Classic.

Perry chose to play in Milwaukee because he felt he had the best chance of picking up points so he can make this year's Ryder Cup team. The event is being held in his native Kentucky.

—The Associated Press

16 year-old Quinn Carbol wins 2008 IGA title

Staff report

BLACKFOOT — For the second time in a month, an IGA championship was claimed by a teenager.

Quinn Carbol from Procelto was able to fend off the likes of several perennial IGA contenders to win the 2008 IGA Men's Amateur championship.

Fyson McFarland from Bering needed to make a birdie on the 18th hole to tie Carbol, but his putt fell just short. No players finished the championship

under par. Carbol finished the championship 1-over par with a 214.

McFarland finished one shot back. Joe Pantzer from Meridian, Jesse Hillber from Meridian and Jon Crozier from Nampa finished two shots back. Twin Falls golfer Jordan Hamblin finished in a tie for ninth place by shooting 219.

Matt Mcador from Hiley fired a 5-under 66 to take the low round of the tournament, but finished in tied for seventh after shooting 218.

Guardian's cancer diagnosis puts boy's future in question

DEAR ABBY: My cousin's 9-year-old son, "Andy," has been living with me for the past few years. Now my husband has been diagnosed with cancer, and I must return Andy to his mother.

Abby, his mother is an alcoholic and drug addict. She has no income, and the list goes on. How do I return that boy to this type of environment? My immediate and extended families insist he go home to his mother, but I am worried about his future. What do I do? I need to concentrate and focus on my husband's health, but who will give Andy the care that he needs?

—WORRIED AUNT IN COLORADO

DEAR WORRIED AUNT: There is an alternative to returning Andy to that unhealthy environment, but it will require cooperation from your immediate and extended families. Keep the boy with you, but have him stay with the relatives at the times your husband is getting his treatments. If they are unwilling, perhaps the parents of some of Andy's friends would be willing to help out. Please give it a try and let me know what happens, because the best place for Andy is with responsible people who know and love him.

DEAR ABBY: I am in my early 40s. Most of my good

friends, whom I have known my whole life, have not given a second thought to our approaching "golden years." No one is saving money for retirement, participating in any sort of plan or even thinking about how they will manage later in life.

They all have fun, interesting, low-paying jobs. This mindset may have been fine 20 years ago, but we aren't kids anymore. I worry that when my friends are senior citizens they will be destitute. They laugh off my worries.

My parents are enjoying a modest but comfortable retirement which they worked for — and played for — most of their lives. I want the same for myself and my friends. How can I inspire them to take action?

—TOM IN LONG BEACH, CALIF

DEAR TOM: You are a caring and wise friend who is surrounded by perpetual adolescents. Sometimes people can be their own worst enemies, and it's not always possible to save them from themselves.

Talking to people who

choose to live for today while ignoring the importance of preparing for tomorrow is work. A better approach would be to teach them by example, then cross your fingers and hope they catch on.

DEAR ABBY: Perhaps you can settle a minor disagreement between a fellow bar tender and me. I say it is impolite to remove a cash tip from the bar before a patron leaves. She, however, just grabs the money and counts it — right in front of the customer. She thinks it's OK because the customer wants to be acknowledged and thanked.

Abby, I always thank my customers, whether they tip or not, and I think counting money in front of them sends a message that we value their gratuity more than their business.

What is the polite way to handle this?

—SHAKEN, NOT STIRRED IN MARCO ISLAND, FLA.

DEAR "S.N.S.": Your coworker's technique makes me wonder if her acknowledgment is given on a sliding scale, commensurate with the tip. (Ten percent gets a nod. Fifteen percent gets a smile. Twenty percent and she says, "Come back soon!")

I prefer your more low-key and appropriate method — and it isn't even close.

Harrington

Continued from page B1

off me. It took a lot of stress off me. The fact that I didn't play three practice rounds like normal for a major was a big bonus. I was very fresh going into the weekend, and this 36 holes was a real battle."

Harrington first had to take the lead from Norman, which he did on the par-3 12th when Norman missed a 10-foot par putt. Then came a late charge from Fowler, who made a 15-foot birdie on the 16th and saved par with a 15-footer on the final hole for a 69 that looked like it might be good enough to win.

The Irishman responded with clutch shots of his own. He hit a 3-wood into the wind to 40 feet on the par-5 15th and got down in two putts for birdie, giv-

ing him a two-shot lead. Standing in the 17th fairway, still aware that Norman could make eagle and stay in the game, Harrington hit a 5-wood that bounded onto the green and up the ridge, stopping 4 feet away for eagle.

That gave him a four-shot lead, and he knew it was over when his tee shot found the 18th fairway.

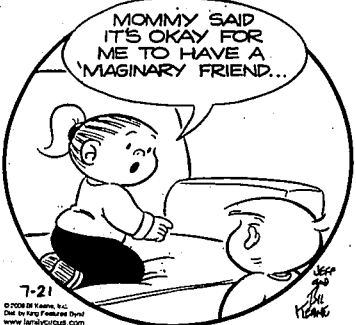

What a change from last year, when Harrington made double bogey on the 18th hole, got into a playoff only when Sergio Garcia couldn't save par, and couldn't celebrate at Carnoustie until a tasty 3-foot forer for par on the 18th hole of overtime.

"I enjoyed the claret just so much I didn't want to give it back," Harrington said.

V. EASY #61

Fill in the grid so that every row, every column, and every 3x3 box contains the digits 1 through 9. That's all there is to it. There's no math involved. The grid has numbers, but nothing has to add up to anything else. You solve the puzzle with reasoning and logic. Find the answers for today's puzzle on page C8.

THE ACES ON BRIDGE®

Bobby Wolff

"The world will freely offer itself to you, if you are unmasked, if you have no choice, it will roll in ecstasy at your feet."
— Franz Kafka

This week the summer nationals in Las Vegas are in full swing. To mark this occasion, we shall be focusing on deals from last summer's national tournament.

No one can say Bruce Ferguson is not a good sport—or that he doesn't know a terrific play when he sees one. On this deal from the second day of the Spingold Knockout Teams, Ferguson had high praise for his opponent Bob Eter.

ANSWER: With three small cards in partner's suit, lead low, not high. Partner is far more likely to want to know how many diamonds you have than whether you have an honor. Conversely, had you raised diamonds, you would lead high from three small; partner already knows you have three or more cards, so won't read you for a doubtless.

5

ways to keep cool while working out

By Ariel Hanson
Staff writer

For all but die-hard exercisers, weather extremes may result in some beautiful landscapes but don't seem very appealing to run or hike in. Drifts of snow, the sun pounding down on the desert floor — it's easier just to stay indoors where the climate is regulated. But the treadmill gets tiresome pretty quickly, and who wants to be cooped up when there's a whole world out there to explore?

"The vitamin D you get from the sun, you just get so many benefits from being outdoors. I just love the idea of people being out, getting their kids out," said Lesley Martin, fitness director for the Twin Falls YMCA. "It's amazing how beautiful early summer mornings are."

Here are five tips to help you make the best of your exercise routine this summer without succumbing to heat stroke. And when you've finished your workout, that glass of lemonade on the porch will taste even better.

Stay hydrated

1

This is critical. "One of the most important things for anyone who is going to spend a lot more time out in the heat is they have to have adequate fluid replacement," said Marlene Rodgers, a registered nurse at St. Luke's Magic Valley Medical Center.

Water is best, but sports drinks like Gatorade or Powerade are OK too. But avoid any beverage with caffeine or high amounts of sugar or salt, as these will dehydrate you further.

"The body's main source of cooling itself is sweating. The body needs to replace that water," Martin said. She advised drinking 15-20 minutes before starting a workout, then drinking about 8 ounces of water every 15 minutes during strenuous activity in hot weather.

Although drinking very cold water — perhaps from a frozen water bottle — may feel good going down, Martin noted that it will leave your stomach faster, so for hydration it's better to drink slightly warmer water. Save the icy water bottle to rub on your forehead!

Timing and pacing

It's best to avoid the hottest time of day, between 10 a.m. and 3 p.m., Martin said. She prefers morning because her body is fresh from the night's rest, and "it's gorgeous in the mornings."

But evening works just as well for those who aren't early birds.

"Exercise in the evenings or early mornings, don't exercise in the heat of the day," Rodgers said. "If you're going to take that day hike, and it's an eight- or 10-hour, take a rest, pace yourself, take a few minutes to sit down every couple of hours and replenish the fluids you've lost through evaporation and the exercise you've been doing."

Seasonal timing is also important, as July 21 may not be the best day of the year to decide you want to become a marathon runner.

"People need to acclimate themselves to the weather changes," Rodgers said. "If you're going to start running or jogging every day, you want to consider doing that in the cooler times of the year so that by the time the heat starts creeping up you've acclimated yourself to it better."

When it's hot out, Martin recommends that everyone tone down their level of exertion a bit, but that's especially important for the overweight, the underweight, the elderly and pregnant women. She suggests that they exercise to only about 60 to 70 percent of their personal maximum — talk to a fitness expert or doctor to determine yours.

Heat-related illnesses

Two stages of dehydration can strike when you've been in the sun too long.

Heat exhaustion is less serious, said Marlene Rodgers, a registered nurse at St. Luke's Magic Valley Medical Center.

"People, when they start getting a little too warm, they're going to start feeling a little weak. They may experience some dizziness, nausea, vomiting," she said. "Other symptoms include headache, profuse sweating, intense thirst and hypernatremia."

"When they start feeling these things, look for a little more when they rehydrate," Rodgers said. "If they don't, they may get into a heat stroke."

Heat stroke is a life-threatening condition that can lead to death, Rodgers said. Symptoms include disorientation, confusion, cessation of sweating, and a body temperature above 103 degrees Fahrenheit.

"If anybody experiences any of these symptoms, they should get to a hospital as fast as possible," she said. "If you're in a hot area, you should get to a cool area as fast as possible."

Heat stroke is a life-threatening condition that can lead to death, Rodgers said. Symptoms include disorientation, confusion, cessation of sweating, and a body temperature above 103 degrees Fahrenheit.

5

Eat right

Before exertion, give your body enough fuel to finish the task.

Whether that's a protein bar or oatmeal before a jog, or a steak-and-potatoes dinner the night before a long hike, the calories will help keep you going even if the heat is wearing you out.

"Spaghetti's good, or steak, something with a lot of protein in it," said Hunt, who loves to hike and climb.

After a short run, or for your lunch break during a long one, turn to fruits and vegetables that are water-heavy. In addition to the beverages you'll be guzzling, these foods add more liquid to your dehydrated body.

Use shade

Shade can be anything from a big tree to a wide-brimmed hat, perhaps with panels that hang down over your neck.

"When on long hikes, I usually wear a hat, one with a back on it," said Ethan Hunt, a Twin Falls outdoors enthusiast.

Shade is great for resting, whether you're going for a short jog or a day-long hike.

"If you're feeling a little queasy, take a break, get some water in your system then go on," Hunt said, suggesting that, in his experience, 15 to 30 minutes is enough time for the first effects of heat exhaustion to abate. "You need to get in the shade and get as cool as possible."

If there's a stream, river or pond nearby, use that to either dunk your head or your whole body — you'll cool down fast. Seriously, go jump in a lake!

4

Get the gear

Exercise clothes these days seem about as well designed as satellites, and the most sought-after fabrics are those that wick moisture away from the body. This mimics the natural action of evaporation of moisture from the skin that cools the body.

"What you're wanting to do is allow the air to get to the wet place, the perspiration, to allow a cooling effect," Rodgers said.

"Wear loose clothing, something that's light colored and is going to reflect the sun, the heat, better, something that has an open weave to it to allow it to breathe easier."

Teresa Ballard, an employee at Elevation Sports in Twin Falls, recommends SmartWool, especially for socks, as they don't hold odor and allow the foot to breathe.

"You don't get the starchy itchy foot," she said.

Caplene is one brand name used for a polypropylene fabric that wicks moisture, but other companies have other names for their versions. If you choose not to go high-tech, cotton is a good alternative, as it's light and absorbent.

Want your hands free while you exercise? Many backpacks come with internal water delivery systems. The most widely known are made by Camelbak, but other manufacturers have similar products, some designed just for water, others to carry gear as well.

And if you hate getting a sticky back under your backpack, consider one of the new packs designed to hold the pack away from the skin.

For short jaunts, use an icepack scarf: The blood rushing past the cooled skin will help cool the rest of your body. On longer hikes, a warmer but still handy substitution is a wet bandana.

Managing your mood through food

"If we are what we eat, then I'm fast, cheap and easy."
—Bumpersticker sighted

The old maxim "you are what you eat" is dripping with truth serum if you listen to Judith Wurtman, who has studied the food/mood connection for the past 30 years. Dietary data for disease prevention is well documented, but we don't often think about the connection between food and drink and the effect they have on our moods.

"What we eat changes how we think and feel... at least temporarily," says Wurtman, a research specialist at MIT and author of "The Serotonin Power Diet." "You can manipulate your mood and your mental acuity just by what you eat and when." In fact, choosing one food over another can reverse mild mood changes in as little as 30 minutes.

Including a protein like tuna for lunch may increase alertness and concentration for two to three hours after eating, while a carbohydrate-rich pasta with tomato sauce produces a calming effect. Who knows, maybe future menus might offer foods for their intended mood effects: Smart Soup or Serenity Spaghetti, just maybe.

How does diet play a role? Emotions are linked to the most food-sensitive brain chemicals called neurotransmitters—dopamine, norepinephrine and serotonin. Wurtman notes that people feel more alert when their brains are producing dopamine and norepinephrine, while serotonin production is associated with easing anxiety or irritability.

Protein-packed foods like fish, poultry, eggs and nuts stimulate the chemicals that produce a feeling of alertness, an increased ability to concentrate and faster reaction times.

"A stable brain serotonin level produced with carbohydrate-rich consumption complements a positive mood and, interestingly enough, curbs appetite." When serotonin is made and becomes active in your brain, its effect

ALIVE AND WELL
Jan Mittelder

on your appetite is to make you feel full before your stomach is stuffed and stretched," says Wurtman. Many carbohydrates, such as bread, cereal, pasta or candy, can produce a temporary increase in serotonin although large portion sizes lead to drowsiness.

Early birds—those persons who typically wake up before the alarm goes off with peak productive hours in the morning—can benefit from a protein-rich lunch and snack during the afternoon for optimal performance later in the day.

Although breakfast is an important meal, foods that the early bird may choose later in the day could have a more profound effect. Instead of pasta with marinara sauce for lunch, as an example, the early bird can decrease mental sluggishness in the afternoon with grilled chicken, seafood or a protein-packed veggie dish — in moderate quantities, of course.

In contrast, the night owl—the person who prefers the weekday that begins at noon—needs another food chemical response. Protein-rich breakfast foods with a mild morning snack like yogurt or cheese can jump-start the day with less sluggishness when the afternoon and evening are naturally more productive periods.

The bottom line

Although the food/mood connection does little to change serious clinical depression, it can be an effective tool to battle the everyday blahs or fire up an optimal performance when it really matters.

Health educator Jan Mittelder is coordinator of the *Over 60 and Getting Fit Program* at the College of Southern Idaho.

Strengthening those ankle muscles

By Wicky Hallett
Specialist To The Washington Post

Going back probably to junior high school, whenever I run, one of my ankles will suddenly give. There's no pain, no warning — but I'll take a step and the ankle will "break." I've observed my 9-year-old daughter having this same problem. Any thoughts on how we could strengthen the ankle to avoid this?

I sure hope you mean "roll" rather than "break," because if every jog ends in a hospital trip and a few weeks in a cast, I'd stick to walking from now on. Remember: We're not doctors and we can't diagnose. But as long as it's just an issue of your ankle smarting a bit after runs, some strength training might prevent a nasty sprain.

Jeff Robinson, a physical therapist, suspects your

problem stems from ligament instability. Basically, that means you're double-ligament — except probably not in a way that will allow your daughter to grow out her friends. (Sorry, kid.)

And although you're stuck with your weak ligaments, Robinson adds, working the muscles around your ankle can help compensate.

He'd start you off with some balance moves: Stand on a box (or another uneven surface) while throwing and catching a ball, or try single leg squats. "When you're doing an activity like that, the intrinsic muscles (or stabilizers) in your feet have to work," Robinson says. You might also see results if you wrap a resistance band around your foot and pull with your arms while you fight against the pressure with your ankle.

Get in the habit of mother-daughter training, and you'll be ready to rock — but not roll — a run together soon.

Vaccinations:

Make them a part of your travel prep

Staff report

Packing to travel? No matter your destination, don't let your vacation be spoiled by hepatitis, flu, measles or any other disease. Prevent infections from ruining your summer by getting routine or travel-related vaccines, the South Central Public Health District advises.

Why is this summer different from other years? Apart from the usual travel-related health risks, major international sports events are expected to increase travel from the U.S. to Europe and Asia. The location of these events (such as the 2008 Beijing Olympics), and the fact that people from all over the world will attend are impor-

tant reasons for travelers to make sure they are up-to-date on all routine and travel-related vaccines.

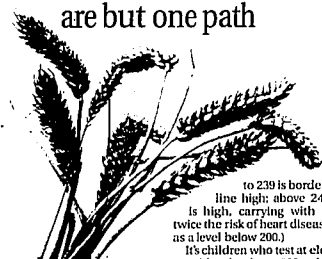

"Over 50 million Americans travel every year with 21 million of them traveling to developing countries," said Lisa Klamm, a nurse with the local health district. "If you are traveling to one of these countries, talk to

your doctor to make sure you are up-to-date with your vaccinations. If you are traveling with children, be sure they are also vaccinated."

If vaccination records show a need for updates, call your health care provider or South Central Public Health District (737-5900) for information and an appointment.

Cholesterol control

For your kids, statins are but one path

By Susan Brink
Los Angeles Times

At first blush, the new guidelines on cholesterol control in children were shocking. Statins, one of the most frequently prescribed drugs for adults worldwide, could be prescribed for some children as young as 8, according to recommendations released by the American Academy of Pediatrics.

But the vast majority of children will never in their pre-pubesence or teens pop a pill to lower cholesterol. Nor will their parents want them to. "I hear it every three I see parents," says Dr. Alan Lewis, a pediatric cardiologist and director of the lipid clinic at Children's Hospital Los Angeles. "I don't want my kid taking a pill."

For most children, the new guidelines will simply serve to alert parents that their kids could be accumulating plaque in their arteries that will set them on a road to early heart attacks or strokes. "My own practice and the new guidelines emphasize the importance of lifestyle as the approach to lowering the risk of cardiovascular disease," Lewis says.

Whether you're a kid or a grown-up, here's how to adopt that lifestyle.

Children ages 2 to 10 who test in the acceptable range (total cholesterol less than 170 milligrams per deciliter of blood) should simply keep up the good work. Those who test in the borderline range (total cholesterol 170 to 199) need to make some changes in what they eat and how much they exercise. (For adults, total cholesterol less than 200 is desirable; 200

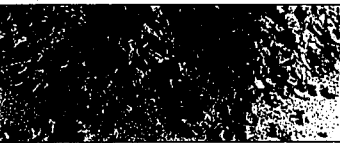

to 239 is borderline high; above 240 is high, carrying with it twice the risk of heart disease as a level below 200.)

Children who test at elevated levels, above 200, who bump into the controversial recommendation of taking a statin as part of their preventive therapy. Even then, "you should always start with lifestyle modifications," says Dr. Stephen H. Daniels, chairman of the department of pediatrics at the University of Colorado School of Medicine in Denver and lead author of the guidelines.

For starters, dietary fat intake should be lowered to less than 30 percent of calories, with saturated fat, found in meat and whole-milk dairy products, less than 10 percent of calories and no more than 200 milligrams of cholesterol a day.

If that doesn't do the trick, Lewis says, cut saturated fat to 7 percent of calories, keeping total fat below 27 percent. Trans-fat acids should be all but eliminated, with the recommendation of less than 1 percent of calories. (The American Heart Association recommends that all adults keep dietary fat below 30 percent of daily calories, with no more than 7 percent of dietary calories from saturated fat, and less than 1 percent from trans fats.) Kids as young as one year, according to the new guidelines, can cut out whole-milk and start drinking reduced fat milk. The biggest influence on blood cholesterol is the mix of fats in the diet. Saturated fat, found mostly in animal products, also increases blood cholesterol levels the most.

Fiber, in the form of whole grains, fruits and vegetables, can lower cholesterol. It binds bile and blood cholesterol to form waste, which the body eliminates. If a fiber supplement is used, the guidelines suggest a dose of the child's age plus 5 grams a

day up to a dose of 20 grams a day at age 15. Long-standing government recommendations suggest that young kids 2 to 3 should get three ounces of grains a day, building up to about three ounces. Fruits and vegetables also contain fiber, and young children should get a cup of each, building up to two cups of fruit and three cups of vegetables for kids 14 and older.

The new guidelines recommend exercise in general, though without a recommended amount. Exercise in adults has been shown primarily to increase levels of HDL, the protective cholesterol, though it has little effect on lowering LDL. But exercise can also lead to weight loss, and weight loss has been proven to lower total cholesterol in adults.

Children with less than ideal cholesterol levels could need up to six months of lifestyle changes before results are seen. One study of children 8 to 11, published in the May 10, 1995, Journal of the American Medical Association, found that those who kept their total fat calories to 28 percent and saturated fat to 8 percent in calories dropped levels of LDL cholesterol by an average of 15 points over three

years, compared with those in a control group who ate their normal diet.

For children whose cholesterol is mildly or moderately high, the reduction could get them into the normal range. The National Institutes of Health-sponsored study, the Dietary Intervention in Children Study, also found that after three years, children who were in the group that received aggressive nutrition education consumed 67 percent of their calories from heart-healthy foods, compared with 57 percent in the group that received no counseling.

Studies of adults have shown that bad cholesterol can be lowered by 5 percent to as much as 20 percent by lifestyle changes, including quitting smoking. Losing excess weight, which requires lowering calories and fat consumption and increasing exercise, is the most successful strategy for lowering cholesterol. "Before starting a statin, try losing 20 pounds," says Dr. David Becker, cardiologist at the University of Pennsylvania Health System.

"In most kids, you'd want to work on that for three to six months before you go to a more aggressive treatment," Daniels says. If during that time physicians see evidence of improvement in lower cholesterol numbers and less weight, the lifestyle treatment could continue without adding a drug.

MONEY HAS NO GENDER

When it comes to money, it's not just a man's world, though it often seems like it is. There is a growing body of evidence to support the idea that women are usually more astute and better disciplined investors than men are.

Women are more likely to investigate their investment options before men do, so they are better educated about what is in their portfolio and why. Women are less impulsive investors than men are. They question the "hot tip" and usually won't act upon it as often as men do.

The bonus to this is that it is easier for women to take a long-term view toward their finances. "Financial security doesn't wear a suit, or a skirt. Being a confident and effective investor is within the reach of everyone. If you've been holding back on seeking professional help for your investment, please give us a call.

Weighing diets

Which is the best one?

By Linda Guica
The Hartford Courant

The way to lose weight is pretty simple: Eat less and exercise more. So why are there so many diet books and plans?

Most of these plans have a gimmick. Many have catchy names — "Intuitive Eating," "Good Mood Diet," "Fit for Life," "The New Sugar Busters" — but choosing or rejecting a diet based on its name isn't the best path to fitness.

Just in time to prop up these emerging diets are two to get into shape comes "The Diet Selector: From Atkins to The Zone, More Than 50 Ways to Help You Find the Best Diet for You" by Judith C. Rodriguez, Rodriguez, a clinical dietitian and professor at the University of North Florida in Jacksonville, Fla., listed colleagues in her department to evaluate 50 weight-loss diets and 25 disease management or healthful eating plans.

The author and her team used criteria that double as questions a person should ask when choosing a diet plan. One key question is

"Does it have a multi-component approach, related to foods, behavior and physical activity," Rodriguez asked in a telephone interview. "The other piece is, does it fit your lifestyle and your (food) likes and dislikes?"

While most of the diets rated in the book are weight-loss diets, Rodriguez felt strongly about including plans that promote good health. "If you follow a health program, you almost don't need a weight-loss diet," she says. She also recognized that "there are people who have special needs outside of weight loss. I thought it was important for them to have a sense of what the diets are and what elements they should be looking for."

"The Diet Selector" is easy to use. Each plan merits two pages, including a brief history and description of how the diet works, pros and cons, and a sample

menu. Rodriguez also rates each diet on the strength of its long-term plan, flexibility, cost, family-friendly aspects and whether the plan is rooted in science.

The introductory chapters clearly outline how to use the book and also take a practical look at what to expect from a diet.

The book presents the facts rather than recommending one diet over another, although Rodriguez has her favorites.

"There are some diets that I thought had healthier approaches, such as the French Woman's Diet, which doesn't talk about dieting but about behavior and lifestyle values," she says. "The Mayo (Clinic Healthy Weight Program) diet is another one." She also singled out D.A.S.H. (Dietary Approaches to Stop Hypertension) and the Mediterranean diet because they are eating

plans for life.

She prefers plans that aren't restrictive, although she acknowledges that "some people really like a rigid 'tell me what to do' approach."

In choosing a diet, Rodriguez advises looking at the big picture — a plan that melds changes in eating, behavior and activity.

Even those who don't plan to embark on a diet or health program such as those outlined in the book can still make small changes that will make a difference, the dietitian says.

"Try a few small things and forego the big dramatic changes," she says. "Figure on two or three things you can do every day — replace soda with water; park a little farther (from a destination) and maybe cut back on dessert in the evening. These are things you can easily do for the rest of your life."

SMALL DOSES

Your jewelry can cause a rash

You've broken out in a rash suddenly and don't know why. It may be the nickel in your jewelry, according to Lisa Garner, a dermatologist on staff at Baylor Medical Center at Garland in Garland, Texas. It's the most common source of metal allergies — producing problems in millions of Americans — and it's present, to a degree, in any silvery-looking metal, says Garner.

Pinpointing the likely culprit is the easy part. Treating it is tougher. The only way to avoid a rash if you're one of those allergic to it is to avoid the metal.

Act fast if you see these signs

Seeing stars? Fast action could save your sight. Get to an ophthalmologist quickly if you see any of the following signs, which could be a signal of a detachment or tear in your retina:

- Floaters that drift in your vision as your eye moves. They may look like dots, veils, cobwebs or strings. Pay particular attention to a sudden increase in the number of dark floaters.
- Flashing lights, especially in peripheral vision. They may ripple or flicker.
- A shadow or curtain that comes down across your field of vision.

TO DO FOR YOU

About childbirth

Prepared childbirth classes, 6:30-9 p.m. Tuesdays, this week through Aug. 19, in the lobby at St. Luke's Magie Valley Medical Center's downtown campus, 660 Shoshone St. E. in Twin Falls.

Topics: wellness of the mother; labor and delivery process with relaxation and breathing techniques; care of the postpartum mother and newborn; breast-feeding and bottle feeding; and a video tour of the Women's and Infant Center. Wear comfortable clothing; bring two pillows and, if possible, a support person.

Cost is \$60. Preregistration required; 732-3148.

'Baby and Me'

St. Benedict's Family Medical Center's "Baby and

Me" classes, 11 a.m. to noon Tuesdays, at Jerome Public Library, 100 First Ave. E.

The session is for parents of children from infancy through toddler years. Free; 324-6133.

Breast-feeding

"Breast-feeding 101" class, 7-9 p.m. Wednesday, at the Jerome Ambulance Building, 240 E. Main St.

The class is for expectant mothers, fathers and support people; first-time parents; and mothers who feel their last breast-feeding experience wasn't successful. The class can be taken as a refresher course.

Cost is \$5. Register; 324-6133.

Childbirth refresher

Childbirth refresher course,

6:30-9 p.m. Thursday, in the lobby at St. Luke's Magie Valley's downtown campus, 660 Shoshone St. E. in Twin Falls.

Childbirth preparation and procedures will be reviewed, along with a video tour of the Women's and Infant Center. Cost is \$20. Preregistration required; 732-3148.

Learn CPR/first aid

First aid and cardiopulmonary resuscitation class, 8 a.m. to 1 p.m. Saturday, in the Sage Room at St. Luke's Magie Valley's Education Center, 588 Addison Ave. W. in Twin Falls.

Topics: classroom instruction and hands-on practice with emergency procedures for mouth-to-mouth resuscitation, chest compression and choking response for adults and infants.

Cost is \$50. Preregistration

required; 737-2007.

Learn CPR

College of Southern Idaho will offer a cardiopulmonary resuscitation class for health care professionals, 5-9 p.m. Wednesday in Room 179 at CSI's Aspen Building. The class provides a two-year American Heart Association certificate.

Cost is \$25; preregister at CSI's Taylor Administration Building.

"To do for you" is a listing of health-related activities, events and education. Submit information by Thursday for publication in the following Monday's Image section. E-mail notices to ramana@magievalley.com.

A MONTHLY NEWSLETTER FOR THE BUSINESS COMMUNITY

Chamber Celebrates Community Successes of August

August is just around the corner and that means it's time for the Twin Falls Area Chamber of Commerce's Hot August Nite in Jamaican Style. Mark your calendar for Thursday, August 14 from 5pm to 9pm at the Twin Falls City Park Bandshell. This annual fundraiser supports the charitable and civic functions of the Chamber including scholarships for Student Ambassadors, support of leadership training through Magic Valley Leadership and Student Leadership, and operation of the Buzz Langdon Visitor Information Center. These activities support the Chamber's mission to enhance our community's economic vitality and quality of life.

Inside:

Magazine Printing Soon!

- Celebrate our Ag Heritage

We're throwing a party this year for Hot August Nite including a Caribbean-style picnic and no-host bar, live Reggae and Ska music with Brian Tucker and the Grass Roots All-Stars, silent auction packages and games. Plus - a \$10 raffle ticket enters you in the drawing for the grand prize of a Jamaican Vacation for 2 (sponsored by Cooper Norman), the Southern Idaho Stimulus Package featuring more than \$2000 in gift cards and certificates at Southern Idaho merchants, or a Backyard BBQ Package including a patio set, grill, and summer supplies (sponsored by Magic Valley Bank).

Get your tickets today at the Chamber office - or call 733-3974 to order with a credit card. Raffle tickets are \$10. Picnic tickets are \$10 for adults and \$7 for children ages 12 and under. **BUY 12 RAFFLE TICKETS AND GET 2 PICNIC TICKETS FREE!** Celebrate our community success and have fun with the Twin Falls Chamber on August 14.

DELTA DENTAL

www.deltadentalid.com

How do you define reliable?

Like your faithful dog that excitedly greets you when you come home, or like slipping on a pair of comfortable slippers, or knowing your newspaper will be delivered on time each day, we've been providing reliable dental coverage, reliable rates, and reliable service for more than 35 years.

Consistency

- Preventive plan options with more value for your benefit dollar
- Employee-paid plans for employers that wish to provide their employees with dental benefits but do not wish to pay the premium
- A reliable dental benefit partner with long-term rate stability

Benefit of Experience

Doing business with a local dental carrier with more than 35 years of experience and a nationally trusted name has its benefits. And that experience translates into happy customers that come back every year - 98% to be exact.

Service With a Smile

We handle all claims processing, billing and plan administration right here in Idaho. That means responsive service and seamless coverage for you and your employees.

To learn how you can provide dental benefits to your employees at no cost to your company, please contact your agent or Delta Dental:

(800) 718-3374 or sales@deltadentalid.com

Or, visit our website at:
www.deltadentalid.com

The Twin Falls Area Chamber of Commerce Mission Statement

The Twin Falls Area Chamber of Commerce is a non-profit business organization providing members a strong voice, vision and focused leadership to enhance the economic vitality and quality of life in our community.

Chamber Celebrates Ag Heritage on Annual Ag Tour

Agriculture remains the cornerstone of our local economy. Each year, the Chamber's Agrilbusiness Committee hosts the "Ag Tour" — highlighting different aspects of the agricultural and natural resource sectors of our economy. This year, 30 participants enjoyed a two-day trip to Idaho Power's Hells Canyon Complex. The complex is located on the Snake River in picturesque Hells Canyon. Hells Canyon Complex includes Brownlee, Oxbow and Hells Canyon projects, reservoirs and power plants. The tour also highlighted the wine industry with a visit to Ste. Chapelle Winery. Special thanks to Idaho Power, Twin Falls Canal Company, Nelson Jameson, Pepsi Cola, Oasis Stop'n'Go, Key Bank, Kregel's, and Merry Maids for their sponsorship of this event!

This year's participants enjoyed the experience and look forward to next year.

Chamber to Publish Annual Community Magazine in Print and Online

The 2009 edition of Images of Southern Idaho, a community magazine sponsored by the Twin Falls Area Chamber of Commerce, will publish in January.

Images of Southern Idaho is a vibrant, newsstand-quality magazine that showcases the best of the Southern Idaho region through its people, places and progressive business climate. With all new original photography and editorial features, the 2009 publication will focus on specific areas of education, the arts, sports and recreation, health care, commerce and quality of life. It will be used all year for the purpose of promoting the community to prospective residents, new businesses and visitors.

"Images of Southern Idaho 2009 will illustrate the great quality of life we enjoy in our commu-

"What a learning experience! The weekend was not a learning curve but a learning spike. We fell so welcome and treated like family."

— Steve Hoogesteger

"The trip was more than I ever expected. Idaho Power's Dan Olmstead and Gerald Orthel are informed and know the business."

— Jim Fischer

"The power plant was so big, dynamic, and we were very impressed. We were so glad that we had a chance to go through."

— Jack & Kunie Hirai

The Chamber's Agrilbusiness Committee meets monthly — on the first Tuesday of each month at 9:30am at the Chamber office. The next meeting is Tuesday, August 5th.

ity and promote our economic strength and growth potential to new businesses," says Chamber President/CEO Shawn Barigar. "Best of all, this highly targeted marketing tool will capture the audience our members want to reach."

Chamber members will have the opportunity to reserve advertising space. More than 10,000 copies of the magazine will be distributed through the Chamber and key local businesses, as well as at trade shows, conferences and events throughout the year.

To create a quality guide like Images of Southern Idaho, the Chamber partners with Journal Communications (jrlcom.com), an award-winning custom publisher of community and specialty magazines with clients in more than 30 states.

The print magazine is just one part of Journal's complete publishing program that also includes an online magazine and photographic video tour of the community, a targeted distribution network and a customer acquisition and retention program.

"Journal is proud to partner with a progressive community like Southern Idaho," says Ray Langson, Executive Vice President for Journal Communications. "Great communities make great subjects, and we anticipate a spectacular publication this year. Together we will make Images of Southern Idaho the most effective tool to

generate a strong return on investment for advertisers and to promote growth in the area.

Visit Images of Southern Idaho online at imagesouthernidaho.com. Get connected! Enrich your Web site instantly with engaging community content. Go to imagesouthernidaho.com, "Links" and "Link To Us."

For more information about the magazine, contact the Twin Falls Area Chamber of Commerce at (208) 733-3974 or Journal Communications Toll-free at (800) 333-8842.

"Stand-up" For Kids Event Coming August 21

The Twin Falls School District will host a special evening of stand-up comedy with a message on August 21. The show features Michael Pritchard, one of America's leading motivational speakers. Michael has been featured in Time magazine and on CNN. He's been profiled on CBS Sunday Morning and the Today Show for using humor to help initiate positive change in youth across America. He has shared the stage with Robin

Williams, been on an Emmy winning episode of Taxi, done voices for Star Wars and is now COMING TO TWIN FALLS. Based on his new book, "Listen to What Your Kids Aren't Telling You," Michael's comely stand-up show has a great message and is one the whole family can enjoy. Please join the Twin Falls School District on Thursday, August 21st at 7:00pm at the Roper Auditorium for an evening of back to school fun.

34 Up-and-Coming Leaders Graduate Magic Valley Leadership

June marked the end of the 10-month Magic Valley Leadership program, culminating with "Tourism Day" where the 34 participants in the program learned more about the tourism industry and its impact on our local economy. The day wrapped up with some fun on the river - rafting with High Adventure River Tours on the Hagerman to Bliss run of the river.

The Chamber thanks the volunteer co-chairs for the 2007-2008 Leadership Sessions - Darren Kyle with McDonald's/Valley Food Service, Tina Brown with AT&T Wireless, and Chad Brown with D.L. Evans Bank. Their leadership took the participants through 10 monthly sessions highlighting education, industry, social services, and more about our community.

Congratulations to the 2008-2009 Leadership co-chairs - Matt Hicks with the Twin Falls Police Department, Holly Klosterman with Northwest Farm Credit Services, and Travis Wray with First Federal. They'll guide the sessions in the coming year, kicking off in September.

Magic Valley Leadership is a great opportunity to instill leadership skills in your managers and employees. Plus - it's a fun program where participants gain valuable networking and build lifelong friendships.

The 2008-2009 session is already full. However, reservations are being taken for this elite program for the 2009-2010 year. Contact Bobbi Fyfe if you're interesting in reserving a spot.

Magic Valley Leadership participants shoot the rapids of this year's program in June.

Visitor Center Enjoys an International Flavor

Each year, hundreds of BASE Jumpers visit Twin Falls to participate in their extreme sport parachuting from the Perrine Bridge. But it's not just BASE Jumping that's bringing international travelers this year. With a favorable exchange rate against the US Dollar, international travelers are finding an affordable alternative in traveling in the United States, and particularly in the West. Here's just a sampling of the number of visitors we've met at the Buzz Langdon Visitor Center from various countries this year:

- Austria 4
- Bahamas 6
- Belgium 12
- Brazil 12
- China 37
- Croatia 2
- Czech Republic 10
- Denmark 4
- England 56
- Finland 8
- France 23
- Germany 75
- Greece 2
- Holland 7
- Hungary 7
- India 11
- Ireland 7
- Israel 4

Argentina 1

- Japan 15
- Korea 10
- Oman 1
- Netherlands 32
- New Zealand 16
- Norway 5
- Peru 2
- Philippines 5
- Poland 6
- Puerto Rico 2
- Russia 2
- Scotland 4
- Serbia 1
- Spain 2
- Spain (Basque Country) 5
- South Africa 1
- Switzerland 23
- Tasmania 1

This does not include Canada or Mexico - nor the 10 tour buses that visit Twin Falls each week. Plus - we've had thousands of visitors this year from other parts of the United States.

If you haven't been to the visitor center lately, take the time to stop in. You'll find the most wonderful volunteers and staff with a wealth of knowledge about our area, unique Idaho products and souvenirs, and perhaps you'll run into some international travelers!

The College of Southern Idaho is sensitive to and understanding of its responsibilities to equal access, accommodation and support of individuals with disabilities. Staff and faculty alike provide resources, advocacy and collaboration across our campus community. Students who wish to provide to SDS the needed documentation and make a formal request for services are encouraged to contact the Director well in advance of the start of each semester. 208-732-6260. www.csi.edu/dsabilities

Cover Photos: The front cover features Alcu Peters, a 2008 Secondary Education graduate from Twin Falls. Back cover: Jesse Maher of Twin Falls is 2008 CSI Liberal Arts Graduate who transferred to Southern Utah University.

COLLEGE OF SOUTHERN IDAHO REGISTRATION

MyCSI - <http://mycsi.csli.edu>

MyCSI is MyCSI online portal where prospective students can apply for admission and search or browse our schedule of courses; current students can register for classes, check their grades, print out copies of their official transcripts, look up financial aid information, look up their account balances, pay online, contact their advisors, etc.

Blackboard - <http://blackboard.csli.edu>

Blackboard is CSI's online course management system (LMS). Many Instructors who teach online or hybrid courses utilize Blackboard to post their syllabi, class notes, Powerpoint presentations, handouts, quizzes and tests, grades, etc. Blackboard is also used for online asynchronous discussions.

It is important for students to know that most instructors do not enroll their students into their Blackboard courses. If you know for sure that your instructor will utilize Blackboard, you need to enroll yourself into the course (even if you registered for the course through MyCSI or the Records Office: the two systems are not connected so you will need to enroll yourself into the Blackboard course, unless your instructor tells you that he or she will enroll you). We have enrollment instructions on the Blackboard login page.

Online Course Evaluations

<http://evaluation.csli.edu>

CSI has an online course evaluation system that students can use to provide feedback on their courses. Evaluations open up two weeks before the courses end. The last day to fill out the evaluation is the last day of the course. All students enrolled into the course are encouraged to fill out evaluations. Faculty use the feedback to continually improve their courses. Faculty can check the results one week after the course ends. They can see what was said, but not who said what - evaluations are confidential and anonymous. We need and appreciate your candid feedback!

Copyright - <http://copyright.csli.edu>

It is the intent of the College of Southern Idaho to adhere to the provisions of state and federal copyright law and regulations. The College strictly prohibits the illegal use, reproduction, distribution, public display, or performance of copyrighted materials in any form.

The CSI Copyright and Intellectual Property Policy addresses the use of copyrighted materials (owned by others) by staff, faculty, and students (to protect CSI and provide guidance for everyone).

Campus Security

CSI works to maintain a safe environment for students. Campus security officers are available 24 hours a day (732-6665) to provide assistance and oversight of all campus events and functions. All crime reports are handled through campus security and the Twin Falls Police Department. In accordance with the statutory requirements of the Jeanne Clery Act, campus crime statistics are posted each year on the campus security website at www.csli.edu/security.

Name, Address,

Phone Number, or Major Change

It is the student's responsibility to ensure that the information in our system is current and accurate. If your mailing address, phone number, name, major, or any other pertinent information changes, you must notify the Admissions and Records Office. Necessary forms are available in the Matrix, at off-campus centers and online. Students are responsible for any delay in communications sent from CSI when an incorrect address is on file.

Student e-mail - <http://students.csli.edu>

E-mail is the primary means of written communication with all CSI students. All students automatically get a CSI e-mail account when they register for courses. Student e-mail addresses have the following format: username@students.csli.edu. You can access your e-mail anywhere from a computer with Internet connection, Open a browser (e.g. Internet Explorer or Firefox) and either go to the CSI website (www.csli.edu) and click the WebMail link in the top banner or go directly to <http://students.csli.edu>.

Students are expected to check their CSI e-mail accounts regularly as they are official communications via e-mail from their instructors as well as from various offices such as Records and Admissions, Business Office, Advising, Financial Aid, etc. It is the students' responsibility to check their CSI e-mail accounts regularly. Failing to do so will result in missing important messages and deadlines. It is also the students' responsibility to make sure that their mailboxes are not full in order to ensure that important messages do not bounce back.

If you are taking an online class, it is advisable to send an e-mail to your instructor who will contact you with instructions on how to get to your course.

Notice of Equal Opportunity

The College of Southern Idaho is committed to providing equal educational and employment opportunities, services, and benefits to students and employees without regard to age, race, color, national origin, sex, religion or disability in accordance with Title VII of the Civil Rights Act of 1964 as amended, Title IX of the Educational Amendment of 1972, Section 504 of the Rehabilitation Act of 1973, and the Americans with Disabilities Act of 1990.

Inquiries and concerns may be directed to our Affirmative Action Officer / ADA Coordinator:

Human Resources Office
PO Box 1238
Twin Falls Idaho 83303-1238
1-208-732-6267 (Voice) / 1-208-734-9929 (TDD)

Persons with disabilities needing accommodations to participate in the College of Southern Idaho activities may contact Student Disability Services in the Taylor Building on our Twin Falls campus.

Family Educational Rights And Privacy Act

<http://www.csli.edu/FERPA>

The Family Educational Rights and Privacy Act of 1974 (FERPA) was designed to protect the privacy of a student's educational records, to establish the right of students to inspect and review their educational records, and to provide guidelines for the correction of inaccurate or misleading data through information and formal hearings. The College of Southern Idaho may release "directory information" as allowed by law. This includes publishing the Dean's and President's Honor Lists, and releasing information about enrolled students to the military as required by the Selective Administration. Directory information is defined as the following:

- Student's name
- Student's address listings
- Student's phone number listings
- Student's e-mail address
- Student's photograph
- Student's date of birth
- The most recent previous educational agency or institution attended
- Enrollment status
- Full-time/part-time status
- Dates of attendance including whether or not currently enrolled
- Major
- Freshman/sophomore standing
- Degrees conferred and dates
- Awards and honors received
- Participation records in officially recognized activities and sports
- Height and weight of members of athletic teams

Students may submit a written request to the Registrar's office to prevent the release of directory information.

Students may submit a written request to review their records to the Registrar's office. Records covered by FERPA will be made available to the student within 45 days, and the college may charge a reasonable fee for preparing copies for the student. A college representative may be present during the review of the records, and may provide information regarding the interpretation of such records to the student. Students may not inspect financial information submitted by a parent or guardian, confidential letters associated with admission, and records to which they have waived their inspection rights. The college will not release records that are not owned by the college.

Students have the right to file complaints with FERPA concerning alleged failures by the institution to comply with the act. Questions concerning FERPA should be referred to the Registrar (732-6795).

Student Code of Conduct

CSI and the surrounding community expect all students and employees to practice high levels of academic and professional honesty and integrity. The College must and will enforce appropriate action in order to create and maintain a positive learning environment in which the rights, privileges, property, and self-worth of every individual in the College community are preserved. The Student Code of Conduct addresses student rights and freedoms and the types of misconduct that are not tolerated at CSI. The Code includes the rules, regulations, policies, reporting procedures, sanctions, appeals, and emergency actions that can be taken for violation of the Code. The complete CSI Student Code of Conduct can be found in the Student Handbook.

PREPARATION, PRECISION, PROFESSIONALISM TRADE AND INDUSTRY

CABINETMAKING AND WOODWORKING

CSI provides the community with the only postsecondary Cabinetmaking Program in Idaho.

Daytime program: 8 am to 2:30 pm

Instructor: Ken Triplett 732-6335
or ktriplett@csi.edu

Options include: Certificate of Completion/
Technical Certificate - 11 months or Associate
of Applied Science - 2 years.

Competent woodworkers and cabinetmakers are in constant demand. Our program emphasizes professionalism and craftsmanship in cabinetmaking, furniture building, counter top construction, and finish carpentry. Quality and pride in craftsmanship will make a difference in your career.

DIESEL TECHNOLOGY

Graduates and industry associates rate the CSI Diesel Technology Program Number One!

Daytime Program: 8 am to 2:30 pm

Instructor: Jim Schlund 732-6371
or jschlund@csi.edu

CSI Diesel Tech students enjoy a 90-percent placement rate. You can enroll in an 11-month Certificate of Completion or the 2-year Associate of Applied Science Degree programs. 2-year graduates from the CSI Diesel Program are employed as service managers, parts and sales persons, tractor and truck sales persons, service center owner/operators, teachers and instructors, service representatives for large companies, line mechanics, field mechanics, warranty claims persons, and service writers.

REFRIGERATION, HEATING, AND AIR CONDITIONING

This program offers interesting classes in a challenging and growing field with unique career opportunities and helps develop skills few individuals ever acquire.

Evening program:
Monday - Thursday, 5 to 10 pm

Instructor: David Wyett, 732-6323
or dwyett@csi.edu

Get a certificate in 12 months or an Associate of Applied Science Degree in two years.

Applied or Technical Refrigeration, Heating, and Air Conditioning is a field of study which gives students a window of practical application on which to build their career. As a student, you will learn heat pumps, fossil fuel furnaces, air conditioning, commercial refrigeration, and ammonia refrigeration. You will receive an introduction to a variety of facilities, laboratories, and methods in Refrigeration, Heating, and Air Conditioning. This program focuses on in-house instruction and actual laboratory experiences.

EPA Certification Testing and 410A Certification available by appointment Mondays through Thursdays 2 to 4 pm. Call David Wyett at 732-6323.

WELDING TECHNOLOGY

Exciting career opportunities for both men and women.

Instructor: John Peterson 732-6372 or
mjpeterson@csi.edu

Certificate of Completion or Technical Certificate (11 months)

Associate of Applied Science Degree (2 years)

Daytime Program: 8 am to 2:30 pm

Graduates are employed as production welders, welding supply sales persons, instructors, services representatives, construction welders, welder assemblers, maintenance welders, owner/operator welders, welding technicians, welding engineers, and ornamental iron workers.

PREPARATION, PRECISION, PROFESSIONALISM TRADE AND INDUSTRY

DRAFTING TECHNOLOGY

Daytime Program: 8 am to 2:30 pm

Instructor: Pat Ferrell 732-6326
pferrell@csi.edu

The CSI Drafting Program provides training aspects of using Computer Aided Design programs as well as traditional drafting techniques. After two successful years, receive an Associate of Applied Science Degree.

AUTO BODY TECHNOLOGY BODY SERVICE EDUCATION PROGRAM (ASEP)

The very best in a dynamic, fast-paced, rewarding career.

Instructors:
Richard (Dick) Frey 732-6336, rhfrey@csi.edu
Tim Pierce 732-6331, tpierce@csi.edu

Daytime Program: Monday-Friday, 8 am - 2 pm

CSI's Auto Body Technology Program is a one or two-year Auto Body collision repair training program designed to develop the skill and technical competence of students preparing for entry level employment. Using the latest curriculum, equipment, vehicles, and technologies, you will train in the following areas:

- Frame and unibody damage analysis and repair
- Body component repair and replacement
- Mechanical and electrical repair
- Steel and aluminum light sheet metal welding
- Painting and refinishing

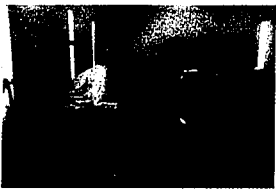

AUTOMOTIVE SERVICE EDUCATIONAL PROGRAM (ASEP)

The best way to train for employment as a General Motors or ACDelco technician. Daytime Program 8 am to 2 pm

Instructors:

David Rodriguez 732-6334 drodriguez@csi.edu
Robyn Swainston 732-6332 rswainston@csi.edu

This is a 2-year program to upgrade the technical competency and professional level of the incoming dealership technician. The curriculum is designed by General Motors and CSI and leads to an Associate Degree in Automotive Service Technology. The program requires the student to find employment at a General Motors dealership or ACDelco service center of his or her choosing. Students must be dedicated to learning and working on new vehicles like the ones they will find in a new car dealership. CSI's Automotive Service Education Program (ASEP) is personally and financially rewarding for students who successfully complete the challenge of becoming a new vehicle automotive technician.

RESIDENTIAL CONSTRUCTION TECHNOLOGY

Residential construction is one of the fastest growing industries in America. Over 1-million new jobs will be created over the next decade to accommodate the nearly 18-million new homes and apartments expected to meet the growing population. From construction management to specialized skilled trades, this is an exciting, rewarding growth industry with endless opportunities to match your talent, personality, and skill. You will get hands on experience building a real home with all facets of construction from footings to finish, sheetrock to shingles, including the latest technologies.

Daytime program: 8 am to 3:30 pm

Instructor: Alan Heck 732-6330, aheck@csi.edu

Earn a 1-year Technical Certificate or a 2-year Associate of Applied Science degree.

MANUFACTURING TECHNOLOGY

Whether you are looking at a job in fabrication, machining, dairy or agriculture or you already have one, this program has been designed for you. Classes will be held late afternoons and evenings at the CSI Canyon building and other locations. Choose the classes that will help you most - machining, industrial controls, automation and robotics, plastics and molding. Or, enroll in the one-year certificate or two-year degree program where you will learn more, including computer engineering graphics, applied math for manufacturing, physics for technicians, human relations, and business communication. Classes begin August 25. Contact a CSI-adviser at 732-6250 as soon as possible.

STAY NEAR GO FAR

PREPARATION, PRECISION, PROFESSIONALISM INFORMATION TECHNOLOGY

WEB DEVELOPER

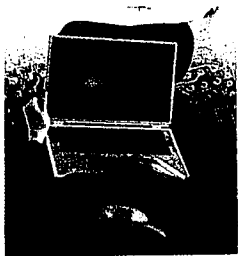

Most companies today have websites, but many are now perfecting their data collection abilities, presentation design, and functionality. As a student in the program, you will learn about web design and development fundamentals, database design techniques, and you will be introduced to several programming languages. Upon graduation you will be able to develop robust, database-driven web applications.

Advisor: Ryan Jund 732-6313 rjund@csi.edu

COMPUTER LITERACY

All CSI students require a basic level of general computer literacy to graduate. In fact, many CSI classes expect that the students who enroll have some fundamental computer skills. The Informational Technology Department offers several courses that can assist the student in meeting the requirements of the Computer Skills Assessment (CSA). You may also want to take one of these courses if you are interested in a career in Information Technology, but are not ready yet to make that commitment. For more information about Computer Literacy at CSI, see <http://computerliteracy.csi.edu>.

Advisor: Julie Heithecker 732-6565
orjheithecker@csi.edu

COMPUTER SUPPORT TECHNICIAN

This one-year technical certificate option is designed to provide students with the skills and knowledge to become employable in the field of computer support. Students will be able to assemble, configure, install and troubleshoot parts of PCs and software.

This 1-year Computer Support Program is the first year of the 2-year Network Support Program. Upon successful completion of the course work and self-studying, students will be prepared to take the industry standard A+ Certification test for computer technicians and the Network+ Certification test for network technicians. The Computer Support Technician program embodies all the information necessary to become A+ and Network+ certified, but does not guarantee certification.

Advisor: Kirk Ruby 732-6316 or kruby@csi.edu

NETWORK SYSTEMS TECHNICIAN

Looking for a career as a network administrator or technician? Students will gain skills that should prepare them to pass industry certification exams, including Microsoft, Cisco, and CompTIA. Those who successfully complete the program will be valuable assets to corporate IT departments that utilize Microsoft networks, Cisco routers and switches, and PC computing hardware and software.

Advisor: Roland Cooke 732-6309
orcooke@csi.edu

Get more information on these programs by visiting our website at www.csi.edu. You can also call our admissions office at 732-631-3000. Contact our advisors at 732-631-3000 or lgarnand@csi.edu for more information.

ADMINISTRATIVE ASSISTANT

The Administrative Assistant program prepares student for a fast paced career, keeping an office running smoothly and efficiently, utilizing strong organization and critical thinking skills. Student will develop an expertise in communication, problem solving and software applications that can be carried through to any business environment. Student's course work meets the standards for Microsoft Certified Application Specialist.

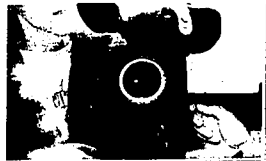

Students may choose to pursue a Legal Assistant option that will develop an understanding of the technical and human relation skills necessary for a position as an administrative assistant in a legal office. Certification as a Legal Assistant requires a combination of course work and work experience. Students completing the required course work may after working two years take the ALS (Accredited Legal Secretary) certification exams.

Advisor: Lori Garnand 732-6317
lgarnand@csi.edu

DIGITAL MEDIA

Digital Media is a program designed for students interested in studying the creation, use, and management of high-quality digital media content. The primary focus is on the production and application of digital multimedia, web design, video, and graphic design for print in a project-based, hands-on learning environment. Course work prepares graduates to work as freelancers or in a variety of industries as digital media creators and content managers.

Advisors: Teresa Sept 732-6315 tsept@csi.edu
and Daryl Hunt 732-6305 dhunt@csi.edu

QUALITY WHERE IT COUNTS BUSINESS AND ECONOMICS

GENERAL BUSINESS

Leads to careers in management, marketing, accounting, banking, and other aspects of commerce and business. Credits transfer to Idaho's four-year schools and universities and to Boise State University's on-campus BBA program. Contact CSI Business Chair Rosemary Fornshell at 732-6435 or rfornshell@csi.edu or ISU Coordinator Shari Stroud at 732-6284 or sstroud@csi.edu. Located in CSI's Evergreen building.

ECONOMICS

This program teaches about the production, distribution, and consumption of goods and services. The goal of economics is to maximize human well-being in a world of limited resources. Economics skills lead to careers in business, government, and labor relations. CSI's two-year associates degree transfers to four year schools and universities. Contact John Hurley at 732-6856 or jhurley@csi.edu

BUSINESS MANAGEMENT AND ENTREPRENEURSHIP

Learn the skills necessary to own and operate your own business or manage for others. Develop skills to research, analyze, and develop a business plan. The program covers marketing, selling, accounting, supervision, economics, the legal environment of business, advertising, small business management, and more. Contact Mike McClymonds at 732-6406 or at mmcclmonds@csi.edu.

INTERNATIONAL BUSINESS

CSI's newest business degree program. Students looking to work in the global business environment will take their business curriculum further with cultural competencies, geographic knowledge, and additional language skills. Contact Rosemary Fornshell at 732-6435 or rfornshell@csi.edu

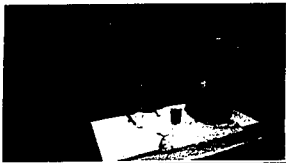

ACCOUNTING/COMPUTERIZED BOOKKEEPING

Demand will always be strong for qualified computerized bookkeepers. This is a two-year degree program that provides the training necessary for employment in bookkeeping and related fields. Students learn two popular accounting software programs — PeachTree and QuickBooks Pro - as well as Excel Spreadsheets and Microsoft Word. Contact Cindy Harmon at 732-6319 or charmon@csi.edu

HOSPITALITY MANAGEMENT

The fastest growing industry in the world! Use your social and communications skills along with the training in this program to prepare for rewarding careers in lodging, food and beverage services, and travel and tourism. This program qualifies students for entry level management in lodging, resorts, conference and convention centers, food service, recreation, tourism, and event planning industries. Contact Dianne Jolovich at 732-6407 or djolovich@csi.edu

FINANCE

Learn to manage money and meet personal goals to create a successful future for you and your family. This course includes financial planning, risk management, consumer strategies, and investing approaches. Students gain skills in budgeting, tax reduction, credit sources, consumer legal protection, and debt elimination. Contact Frank Ellis at 732-6436 or fellis@csi.edu

CULINARY ARTS

Restaurants and resorts are always looking for people who are skilled in the art of preparing food. This is a one year certificate or two year degree program that teaches food preparation, food service purchasing, menu management, sanitation, entrée and plate presentation, pastries, and desserts. Contact Mike Johnson at 732-6381 or mjohnson@csi.edu

REAL ESTATE PROGRAM

The Real Estate curriculum is provided as an intensive preparation of study for the Real Estate professional and to meet the educational qualifications necessary to become a Real Estate Broker. This major transfers to universities within the field of Business. For information contact Penny Johnson at 732-6287 pjohnson@csi.edu

EDUCATION THAT WORKS! AGRICULTURE

HORTICULTURE

Daytime Program: 8 am to 4 pm

The Horticulture Program option in Agriculture at CSI provides students with practical, hands-on horticulture skills and applied theory in classroom and laboratory settings. Classes prepare students for careers in the fast growing 'green industry'. Classes include: Introduction to Horticulture, Herbaceous Plants, Irrigation Systems, Plant Science in Agriculture, Turfgrass Culture, Woody Landscape Plants, Greenhouse Management, Nursery Management, Plant Propagation, General Soils, Arboriculture, Urban Forestry, and Landscape Planning and Design.

Instructor: Dave Kiesig 732-6432
dkiesig@csi.edu

AQUACULTURE

Year around tours and advising. Program begins each August.

Daytime Program: 8 am to 3 pm

This program educates people to fill the expanding needs in the commercial aquaculture industry. Students learn and work at a unique aquaculture facility with an excellent faculty-to-student ratio. Our proximity and relationship with the aquaculture industry in the Magic Valley (the Trout Capital of the United States) further enhances the program. You will take courses in Fisheries Management, Diseases of Fish, and Fish nutrition.

Instructor: Terry Patterson 733-3972
tlp@pmt.org or tpatterson@csi.edu

VETERINARY TECHNOLOGY

Want to combine your love for animals with your interest in science? You can have both when you enroll in the CSI Veterinary Technology program. CSI has the only Vet Tech program in Idaho approved by the American Veterinary Medical Association. Some of the classes you will take are Anatomy and Physiology, Animal Nursing and Restraint, Health Records, Veterinary Parasitology, Clinical Lab Procedures, Surgical Nursing, Radiology, Animal Diseases, and much more. Enrollment is limited so apply early. CSI Veterinary Technology is a daytime program - 8 a.m. to 5 p.m.

For more information, contact one of the instructors:
Dr. Jody Rockett 732-6408, jrockett@csi.edu
or Chani Christensen, 732-6432,
cchristensen@csi.edu

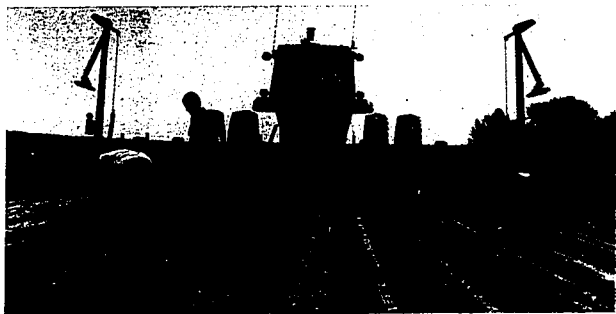

EQUINE STUDIES AND BUSINESS MANAGEMENT

CSI is fortunate to have the Equine Studies Program, which offers our students the option of a one-year Technical certificate or a two-year Associate of Science or Associate of Art degree. Throughout the world, horse people share the love of horses and the desire to learn more about them. The CSI Equine Program gives you a working knowledge of subjects such as Nutrition, Reproduction, Health, Judging, Anatomy, Draft Horse Management, Massage Therapy, English and Western Equitation, Roping, Horseshoeing, and The Business of Raising Horses. CSI is also a gateway to valuable internships at world class horse farms in Kentucky, Utah, Texas and other locations.

For more information, contact the CSI Ag Department at 732-6401 or e-mail instructor Jim Knight at jknight@csi.edu.

EDUCATION THAT WORKS! AGRICULTURE

ANIMAL SCIENCE

Animals provide food, clothing, recreation, and companionship for humans. Animal science is the study of the biological function, production, and use of domestic animals. Animal scientists apply the latest technology in Genetics, Physiology, and Nutrition to better understand how to use and care for animals. They may work in all phases of Livestock Production, Education, Business, Marketing, Food, and Biotechnology Industries. Some jobs in animal science include Ranching and Farming, Artificial Insemination and Embryo Transfer, Livestock Inspection and Grading, Consulting, Technical Sales and Marketing, Research, and Education.

Contact: Barry Pate 732-6415, bpate@csi.edu.

AGRIBUSINESS

Only about two-percent of the jobs in the United States are in production agriculture. However, 25-percent of all jobs in the U.S. are related to or based in agriculture, the food and fiber industry. The Agriculture Program at CSI is a great place to begin a career in the vast world of agriculture. Students can choose to complete a two year degree or move to a four year degree from the University of Idaho. Students learn about Plant Science, Animal Science and Soil Science. They also learn about Global Positioning (GPS) and Geographical Information Systems (GIS), Soil Fertility, Crop Protection, animal nutrition and many other areas of Agriculture. Salaries can start between \$20,000 and \$30,000/year.

Contact: Jim Wilson, 732-6403, jwilson@csi.edu

WATER RESOURCE MANAGEMENT

CSI's Water Resource Management Program prepares students to meet the needs of environmental, municipal, industrial, and agricultural water management. Students learn about water quality, measurement, pumping and the legal aspects associated with water use. Students can choose from a two-year Associate of Applied Science degree or a one-year Technical Certificate. Employment opportunities include: hydrology, soil and water conservation, municipal or industrial water treatment, laboratory analysis, drinking water distribution, irrigation technology, and water measurement technology. The starting pay range for most entry level jobs is \$10 - \$12/hour.

Contact Ross Spackman, 732-6405 or rspackman@csi.edu.

STAY NEAR * GO FAR

HEALTH SCIENCES AND HUMAN SERVICES

MEDICAL ASSISTING

One of the fastest growing professions in health care!

Medical assistants are multi-skilled allied health practitioners who work in outpatient settings such as physicians' offices, clinics, and immediate care centers. They perform administrative tasks such as billing, management of insurance issues, and scheduling. They also perform clinical tasks such as assisting with exams and treatment, drawing blood and performing lab tests, and doing EKGs. Upon graduation from this accredited program, students may sit for the Certified Medical Assistant exam to earn the CMA credential. Historically, graduates of this nationally accredited CSI program excel on the exam, usually scoring in the top 8% of the nation. The program has a 100% placement rate. The Department of Labor Statistics predicts Medical Assisting to be one of the fastest growing allied health occupations in the nation for years to come.

For more information contact Penny Glenn at 732-6728; pglenn@csi.edu

PRACTICAL NURSING

Last year 100% of the graduates passed the National Licensure Examination and 100% of our graduates are employed at graduation time.

CSI's Practical Nursing program is approved by the Idaho Board of Nursing and leads to a technical certificate in Practical Nursing. Graduation qualifies the student to take the National Council Licensure Examination to become a Licensed Practical Nurse. Passing this exam enables the nurse to practice in Idaho and to apply for licensure in other states.

There are two options available to PN students. In each case students must compete for admission.

The first option begins each August and ends in July of the following year. The application process for this option must be completed by Feb. 15.

The second option begins each January and ends in December of the same year. The application process for this option must be completed by Oct. 15.

For more information contact Dr. Pam Holloway at 732-6720 pholloway@csi.edu

REGISTERED NURSING

Accredited by the National League for Nursing Accrediting Commission.

This is a two-year professional program that leads to an Associate of Science Degree with a major in nursing. The RN responds to the holistic needs of individuals in a variety of settings, interacting professionally with patients, families, and co-workers as a member of a health care team. Graduation qualifies the student to take the National Council Licensure Examination to become a Registered Nurse. Passing this exam enables the nurse to practice in Idaho and to make application for licensure in other states. Nurses are in high demand all over the nation.

The application process is competitive. Applications must be submitted by Feb. 15 or Aug. 15.

For more information contact Janet Sandy at 732-6734 or jsandy@csi.edu

ALLIED HEALTH

Students acquire several occupational certificates in this program.

Multi-Skilled Allied Health graduates work in all areas of health care. The Department of Health Sciences and Human Services offers a program to prepare multi-skilled health assistants. Dual credit for high school students is available. Students may earn a Certificate of Completion, Technical Certificate, or Associate of Science Degree in Allied Health.

For more information, contact Cathleen Currie at 732-6722 ccurrie@csi.edu

HEALTH SCIENCES AND HUMAN SERVICES

HUMAN SERVICES

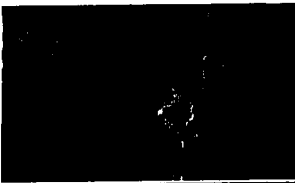

Individuals who "care" for themselves and others will find this program of great value.

The Human Services Program is a broad field of endeavor that prepares the graduate for employment in juvenile justice, aging, mental health, addictions, and developmental disabilities. Students learn to function effectively in all areas of life, including crisis, change, and stress.

...Make a difference in peoples' lives! Job analysts predict that a strong need will continue for juvenile justice caseworkers, patient advocates, mental health technicians, and other human services specialists. Applicants should have a strong desire to help others. Courses in Addiction Studies are also available.

Upon completion, a student can earn a Technical Certificate (1 year) or Associate of Applied Science Degree (2 years).

For more information contact Mary Christy at 732-6713 mchristy@csi.edu

STAY NEAR ✨ GO FAR

RADIOLOGIC TECHNOLOGY

Rad Techs use x-ray equipment to produce images of the tissues, organs, bones and vessels of the body, as prescribed by physicians, to assist in the diagnosis of disease or injury. Rad techs apply knowledge of anatomy, physiology, positioning, radiographic techniques, radiation biology, and protection in the performance of their responsibilities. They are employed in health care facilities, including specialized imaging centers, urgent care clinics, and private physician offices.

For more information contact Dr. Gary Lauer at 732-6719 glauer@csi.edu

DENTAL ASSISTING

Study Dental Assisting in the finest learning laboratory!

Dental assistants help dentists prepare, examine, and treat patients for dental work. They take the patient's medical/dental history, expose and process dental radiographs, set up the dental tray with appropriate instruments, pass and retrieve instruments, and maintain a clear operating field for the dentist. They also help the patient feel comfortable before, during, and after the dental examination.

Students should enjoy fine details, have good eye-hand coordination, be able to learn and apply technical training, be personable, and have good health. Job experts predict that employment for dental assistants will remain very strong for years.

For information contact Tonja Bowcut at 732-6708; tbowcut@csi.edu

SURGICAL TECHNOLOGY

CSI's Surgical Technology program is an 11-month (three semester) technical program that teaches students to perform a variety of functions which occur prior to, during, and following surgical procedures.

In CSI's new state-of-the-art surgical technology classroom and lab, students learn the traditional surgical scrub, apply gown and gloves, and set up sterile tables of instruments, supplies, and equipment. The Surgical Technologist passes instruments to the surgeon during the procedure, assists with retraction of tissues, cutting sutures and assists during the procedure as directed by the surgeon.

Surgical Technologist graduates are employed in hospitals, surgery centers, day surgical sites, sterile processing and trauma centers.

For more information contact Janet Milligan at 732-6706 jmilligan@csi.edu

NEW THIS SEMESTER!

SURGICAL FIRST ASSISTING

Surgical First Assistants are the surgeon's immediate assistant with many surgical procedures. This is an advanced Health Science degree option for Surgical Technologists or other OR professionals. The program is a 24-month Associate of Applied Science program, with very strong career placement options.

For more information contact CSI Health Science Student Advisor Kathleen Neal at 732-6730 or kneal@csi.edu

HEALTH SCIENCES AND HUMAN SERVICES

HEALTH WORKFORCE EDUCATION SHORT-TERM TRAINING, LONG-TERM BENEFITS

For more information contact Jill Chestnut at jchestnut@csi.edu or Rae Jean Larsen at 732-6701, rlarsen@csi.edu.

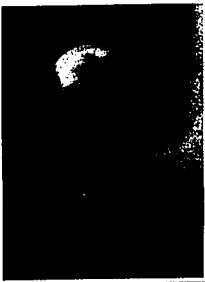

CERTIFIED NURSING ASSISTANT

All graduates are employed following certification!

The first step into the health care field. Certified Nursing Assistants care for older residents of nursing homes and assisted care centers. The CNA student receives classroom and clinical experience in the development of the necessary competencies required of nursing assistants. Federal regulations require the completion of this training program to be employed in skilled nursing facilities. Upon completion, the student will take the written test and skills test to be added to the state Nursing Assistant Registry.

CARDIO PULMONARY RESUSCITATION (CPR)

Statistics prove that the person's life you may save with CPR will be a family member or close friend. Not only American Heart Association CPR are available, also CPR/ First Aid and CPR for Health Care Professionals. Classes available on campus and at your worksite.

INTRAVENOUS THERAPY FOR HEALTH PROFESSIONALS

Learn the procedures of administering IV fluids, blood and medications. Certification for Licensed Practical Nurses is required by all area hospitals and nursing homes.

PHLEBOTOMY

Graduates taking the National Certification pass at 100%! Students who have completed the CNA requirements may enroll. The course offers experience with the collection of body fluids, laboratory procedures, and the skills necessary to enter the work force as a phlebotomist. This course prepares the student to take the National Certification exam.

ASSISTANCE WITH MEDICATIONS

This class is necessary to be employed in Assisted Living and Residential Care facilities. Students learn the legal responsibilities, limitations and liabilities of the medication aide along with medical terminology and commonly used abbreviations. Problem-solving skills are stressed to prepare the student to assist persons with the use of medications.

EMERGENCY MEDICAL SERVICES (EMS)

PARAMEDIC

Learn to save lives!

The College of Southern Idaho Paramedic Program offers an Associate of Applied Science Degree or an Advanced Technical Certificate path of study. Minimum qualifications for acceptance require a current EMT-B or higher certification and specific pre-requisites. Students prepare for the paramedic profession in lecture, lab, and clinical educational environments throughout the three semester program, studying topics such as medical-legal issues, pathophysiology, pharmacology, assessment, OB, trauma, medical emergencies, pediatrics and special operations. Once certified, paramedics work in EMS, fire, hospital, occupational and industrial settings.

For more information contact Gordon Kokx at 732-6710 gkokx@csi.edu

EMERGENCY MEDICAL TECHNICIAN

Gain National Certification as an EMT from the College of Southern Idaho's EMT program!

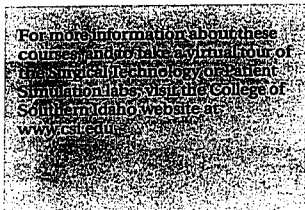

First Responder training is useful for law enforcement, fire departments, and industry. First Responder students provide emergency medical care with a limited amount of equipment.

Basic EMT students learn lifting and moving of patients, airway management, physical assessment, and an introduction to lifesaving procedures for accident victims and hospital-bound patients.

Advanced EMT students must have completed Basic EMT and accompanying clinical experience. Advanced care skills include airway maintenance, intravenous therapy and defibrillation. They also learn to monitor and interpret basic cardiac dysrhythmias.

Students who complete Advanced EMT may certify in handling hazardous materials often encountered at accident scenes. Personal and public safety are stressed.

For more information contact Gordy Kokx at 732-6710 gkokx@csi.edu

For more information about further courses and to make a virtual tour of the Simulation Technology of Patient Simulation Labs, visit the College of Southern Idaho website at www.csi.edu

STAY NEAR GO FAR

Get a Great Start.

Brush up those Rusty Skills for College or the Workplace!

Writing

Basic English and Writing

An introduction and review of basic skills and strategies needed for writing in college and the workplace.

Spelling Development

A review and enhancement of basic spelling patterns and rules in preparation for college writing.

English Grammar & Usage

An introduction and review of traditional English grammar and usage, including parts of speech, phrases, complete sentences, pronoun usage and punctuation.

Developmental Composition

A study and practice of the basic concepts of composition, including paragraph and essay construction.

Reading & Critical Thinking

Reading Courses

Designed to increase reading proficiency through a variety of methods and to develop reading strategies that promote higher levels of comprehension.

Building College Vocabulary

Designed to increase the vocabulary of students in preparation for college and the workplace.

English as a Second Language

Designed to increase English language skills to help you be successful in college-level courses.

Math

Prealgebra

Emphasizes prealgebra concepts and is designed to equip students with skills necessary to be successful in Beginning Algebra.

Beginning Algebra

Designed to develop basic algebra skills and prepare you for Intermediate and College Algebra.

Learn How to Study

Study Methods Courses

Designed to develop your study methods for college. Emphasis is placed on learning organized study techniques, examination skills, note-taking procedures, and comprehension of reading material. Also, students will learn basic research and computer skills.

GREAT TEACHERS INSPIRE EDUCATION

EDUCATION ASSISTANT PROGRAM

The Education Assistant Program is a comprehensive paraprofessional training program that offers a two-tiered degree system. A technical certificate and an associate of applied science degree are available in an online or online-traditional setting. Because of the online delivery method, all paraprofessionals, even those located in isolated areas, have access. Additionally, this performance-based program allows students to gain credit for prior learning experiences. Laptops may be available upon request. Contact Tracey Meyerhoeffer at (208) 732-6874 or tmeyerhoeffer@csi.edu.

TEACHER EDUCATION PROGRAM

Would you like to make a difference in the growth and development of children and youth? CSI's Teacher Education Program offers prospective students opportunities in elementary education, bilingual elementary education, secondary education, and special education. These two-year programs introduce social, philosophical, and historical perspectives in education as well as an up-to-date examination of the teaching field and teaching as a profession. Education coursework is designed to transfer to four-year teacher education programs. For more information, contact John Hughes at (208) 732-6549 or jhughes@csi.edu; Dr. Lucinda Egbert at (208) 732-6890 or legbert@csi.edu; or Tracey Meyerhoeffer at (208) 732-6874 or tmeyerhoeffer@csi.edu.

PHYSICAL EDUCATION PROGRAM

The Physical Education Program at the College of Southern Idaho provides opportunities for prospective students who seek teaching and non-teaching careers in physical education and related fields. These include elementary and secondary physical education, athletic training, exercise science, health promotion, sport management, and recreation. The program also serves the needs of degree and non-degree seeking students interested in personal fitness enhancement, health education, first aid & CPR, and skill development. If you are interested in an exciting, fulfilling career in physical education or related field, contact John Hughes at (208) 732-6549 or jhughes@csi.edu; Jaime Tighe at (208) 732-6479 or jtighe@csi.edu; Shelly Wright at (208) 732-6483 or swright@csi.edu.

EARLY CHILDHOOD EDUCATION PROGRAM

This program offers several options for students interested in working with children, birth through eight, and their families. The ECE Program operates a Laboratory School for toddlers (18 months to 3 years) and preschoolers (3-5 years). The program has integrated its curriculum to meet the Early Childhood Special Education Blended Certificate standards for two-year programs with transferability into Idaho four-year universities. The ECE Program also provides an online training program for child care providers who are seeking the Child Development Associate national credential. All ECE core classes are available online through the college's Blackboard platform. Laptops may be available upon request. Contact Evin Fox at (208) 732-6872 or efox@csi.edu.

ELEMENTARY BILINGUAL EDUCATION PROGRAM

Do you have knowledge or would like to acquire knowledge of Spanish? Are you interested in helping children learn English while helping them develop a sound foundation in basic subjects? There is a high demand for bilingual teachers, and CSI's Elementary Bilingual Education Program is a great start toward earning a bachelor's degree. In this cooperative program with Boise State University, students complete the first two years at CSI and finish their degrees in Boise. For more information, contact Raquel R. Arenz at (208) 733-6853 or rarenz@csi.edu.

STAY NEAR GO FAR

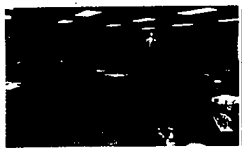

SEE HOW THE WORLD WORKS PHYSICAL SCIENCE

Have you ever wondered...

- What does a fast freight train and a falling feather have in common?
- How was the Snake River Canyon formed?
- Where does groundwater come from and how does it move?
- What is a laser and how does it work?
- Should I take Advil, Tylenol, or aspirin?
- Should I be worried about a large eruption in Yellowstone?
- Why is the sky blue?
- Are global warming and the ozone hole the same thing?

Courses in the CSI Physical Science Department will help you answer questions about natural phenomena, space, minerals, matter, motion, electricity, geography, and much more. We have associate degree programs in chemistry, physics, and geology. Get the foundation you need to continue to four-year degrees in these and other areas of applied science such as medicine, pharmacy, and engineering. For students majoring in non-science areas and wanting to develop an appreciation for science, we provide general education level courses in chemistry, physics, geology, and geography. Find additional information by visiting <http://physsci.csi.edu> or contact CSI Physical Science Department Chair Dr. Rosa Davila at 732-6400 or at rdavila@csi.edu

The CSI Biology Program parallels those of Idaho's four-year institutions. All courses are accepted for transfer. We provide a laboratory-rich learning environment where students learn by doing experiments, analyzing data, and drawing conclusions. Our faculty are experienced scientists who are student-oriented and readily accessible to assist in your inquiry into life. Faculty advisors will gladly help you in your career planning. For information contact Jayson Lloyd, Biology Dept. Chair, 732-6547 or jlloyd@csi.edu.

CSI BIOLOGY CLASSES CAN HELP OPEN THE DOOR TO A CAREER IN:

- Forestry
- Dentistry
- Microbiology
- Genetics
- Physical Therapy
- Crime Scene Investigation
- Medicine
- Range Management
- Fish and Wildlife Resources
- Marine Biology
- Ecology
- Clinical Lab Science
- Environmental Science
- Bioinformatics

... and many more!

EVALUATING AND VALUING HUMAN BEHAVIOR

SOCIAL SCIENCES

ANTHROPOLOGY

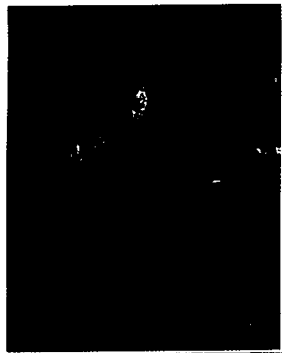

Anthropology students become aware of human diversity using scientific methods developed to understand human behavior, past and present. Jim Woods 732-6862
jwoods@csi.edu

Career Opportunities include cultural resource management (federal, state, private), museums, foreign service, academic positions, and in research institutions in areas such as primatology, medical anthropology, and many more.

CRIMINAL JUSTICE

Criminal Justice students learn the social, philosophical, and historical perspectives of criminal behavior and the administration of criminal justice. Chris Meyerhoeffer 732-6873
cmeyerhoeffer@csi.edu

Career Opportunities include law enforcement (federal, state, local), correction officers, private security, loss prevention officer, probation and parole (adult and juvenile), presentence investigator, court personnel, and work in other branches of the justice system.

GEOGRAPHY

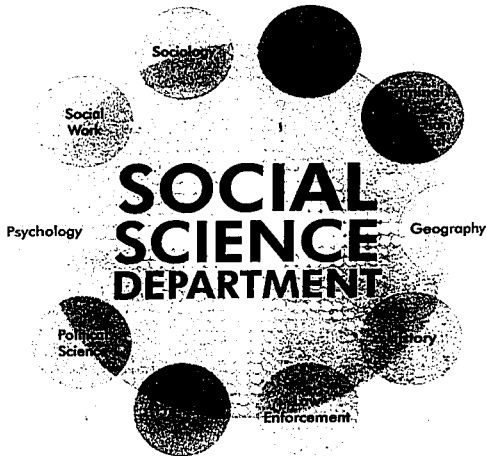

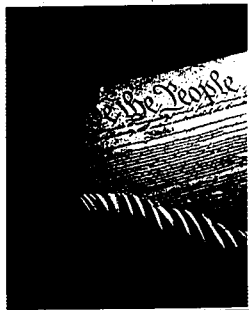

Geography students study the earth with emphasis on spatial physical and human phenomena. Lee Ann Hagan 732-6867
lhagan@csi.edu

Career Opportunities include teachers, urban planners, cartographers, global positioning specialists and government jobs.

HISTORY

History students seek to understand and interpret the past. Russ Tremayne 732-6885
rtremayne@csi.edu

Career Opportunities include teachers, law, professional editors, museum or archive jobs, or positions with state or federal government agencies

EVALUATING AND VALUING HUMAN BEHAVIOR

SOCIAL SCIENCES

LAW ENFORCEMENT

Law Enforcement students prepare to enter the law enforcement field. The curriculum have been approved by the Idaho Police Officers Standards and Training (POST) Council. Brett Reid 732-6339 breid@csi.edu

Career opportunities include peace officers (city, county, state), dispatcher, detention officer, security officer, correction officer, and security guards.

PRE-LAW

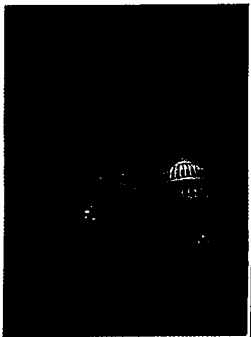

Pre-Law students prepare to enter law school. Lee Ann Hagan 732-6867 hagan@csi.edu

Career opportunities include paralegals and lawyers.

POLITICAL SCIENCE

Political Science students examine the theory and practice of politics and the description and analysis of political systems and political behavior. Lee Ann Hagan 732-6867 hagan@csi.edu

Career opportunities include law, government, business, international and national organizations, diplomacy, and education.

PSYCHOLOGY

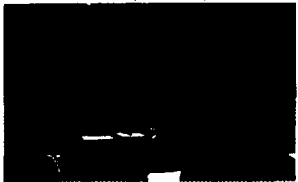

Psychology students scientifically study thinking, emotion, and behavior. Randy Simonson 732-6858 rsimonson@csi.edu

Career opportunities include human resources worker, crisis intervention associate, rehabilitation worker, child welfare worker, psychiatric technician, correctional officer, police officer, child care assistant, mental health technician, aide to geriatric clients, and social welfare worker.

SOCIAL WORK

Social Work students learn to provide moral, practical and compassionate leadership in helping people confront and resolve their personal dilemmas. Susan McFarland 732-6878 smcfarland@csi.edu

Career opportunities include employment in nursing homes, hospices, hospitals, home care agencies, substance abuse programs, mental health services, mental retardation/developmental disabilities services, vocational rehabilitation services, public health agencies, community actions agencies, family services agencies, children & youth agencies, child welfare agencies, aging services, residential treatment programs, child & adult day care centers, domestic violence programs, homeless shelters, criminal justice agencies, schools (elementary & secondary), income maintenance, and legal service agencies.

SOCIOLOGY

Sociology students examine group life and social interactions. Matt Reynolds 732-6861 mreynolds@csi.edu

Career opportunities include research, teaching, social work, criminology, pre-law, clergy, advertising and personnel management.

LEARN! CREATE! PERFORM! FINE ARTS

THEATRE

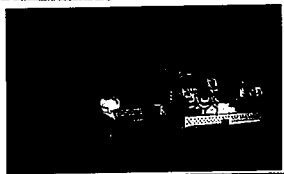

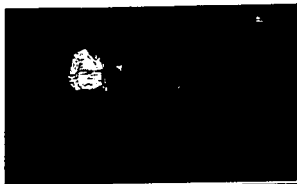

The College of Southern Idaho offers an outstanding theatre education to students in a state-of-the-art facility. With four productions each season, students are given the opportunity to perform in productions; learn the ins and outs of stagecraft, makeup, and lighting; and to discover the business side of the arts as well. For more information contact Tony Mannen at 732-6778 or Laine Steel at 732-6780.

COMMUNICATION

The Communication Program at CSI will open your mind to one of the most valuable skills needed in business, in family, and in life—human communication! With face to face and online courses in basic communication, along with courses in interpersonal communication, intercultural communication, mass media, and business and professional communication, CSI's program can help you transfer to a four-year program, advance in your job, and improve a fundamental life skill. For more information contact Mark Wasden at 732-6764.

The College of Southern Idaho Speech and Debate team is among the top programs in the northwest. CSI's storied past includes numerous regional championships, national award winning speakers, as well as a national championship parliamentary debate team. Come to CSI and become part of our future success! For more information contact Beth Hewes at 732-6776 or bhewes@csi.edu.

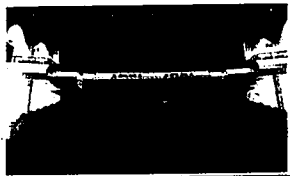

MUSIC

Whether you are looking to major in music, to perform in a community group, or just to brush up on your favorite instrument, the College of Southern Idaho Music Department has something for you. Performance opportunities abound in the Music Department. Chamber Choir, Madrigal Ensemble and Magic Valley Chorale are among the performing groups for vocalists. For instrumentalists, CSI provides the Symphonic Band, Pep Band, Jazz Combos, Percussion Ensemble and Magic Valley Symphony. For more information contact Sue Miller at 732-6769, George Halsell at 732-6767, or Brent Jensen at 732-6765.

ART

The College of Southern Idaho Art Department offers you the perfect outlet for your creative side. The department offers three comprehensive majors for those looking to move on to four-year programs, offers a variety of courses for those looking to enrich their lives, and offers it all with the one-on-one small college attention that is the hallmark of the College of Southern Idaho. Whether your interests lie in painting, drawing, printmaking, sculpture, pottery or photography, the CSI Art Department has what you are looking for. For more information contact Milica Popovic, 732-6755, Russ Hepworth, 732-6756, Bill West, 732-6753, or Mike Youngman, 732-6754.

THE A.S. DEGREE IN COMPUTER SCIENCE

The Computer Science Program is an academic transfer program for students intending to complete a bachelor's degree in computer science at a four-year university. The curriculum emphasizes computer science, mathematics, and general education core courses.

Computer Scientists work as software engineers for applications, software engineers for systems, researchers, systems analysts, and database administrators.

The program is designed to result in an associate's degree in computer science and meets the general education requirements at all Idaho public universities. Course selection should be coordinated to meet the requirements for each student's intended transfer institution.

THE A.S. DEGREE IN MATHEMATICS

The A.S. degree in Mathematics is an academic transfer program for students intending to complete a bachelor's degree. The program is designed to give students a broad exposure to calculus, statistics, discrete math, computer science and linear algebra in order to prepare them to transfer to a four-year institution.

Mathematicians generally use deductive reasoning to solve problems from business, industry, other sciences, or from within mathematics itself. Mathematicians typically find careers as actuaries, analysts, consultants, educators, programmers, or researchers.

ASSOCIATE OF ENGINEERING DEGREES AT CSI

Because of the specialized nature of engineering programs, the Associate of Engineering degrees at CSI are not designed to meet the general education requirements at other 4-year schools. Instead Engineering majors at CSI work with the Engineering Advisor, Bill Eberlein, to plan their coursework to be equivalent to the first two years of a bachelor's degree in engineering at their chosen transfer institution.

Agricultural Engineers design and develop equipment and systems to grow, harvest and process agricultural products. They also are heavily involved in developing biological systems for handling agricultural waste and producing fuels from agricultural products. Many agricultural engineers develop bioengineering expertise.

Chemical Engineers design processes to change raw materials into economically viable products. Chemical engineers often work in the petroleum, plastics, food, pharmaceutical and environmental industries.

Civil Engineers are involved in the design of transportation infrastructure (roads, bridges, airports, seaports, dams, and rail lines) and water projects (irrigation, drinking water supply systems and sewage and waste management). They also are involved with the design and construction of structures. Civil engineers often work as consultants and for public agencies at the local, state and federal levels.

For more information, contact these members of the Math, Engineering, and Computer Science Department:

Randy Berriochos, Computer Science Advisor
(208) 732-6822 - berrioch@csi.edu

Bill Eberlein, Engineering Advisor
(208) 732-6829 - eberlein@csi.edu

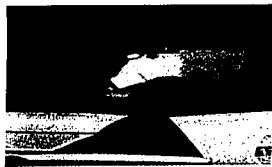

Jason Rose, Math Advisor
(208) 732-6807 - jrose@csi.edu

<http://math.csi.edu>

Computer Engineers design, construct and operate computer systems. They specialize in digital and operating systems, networks, hardware and software. They often team with engineers from other disciplines to incorporate computer systems and controls into a wide range of devices.

Electrical Engineers work in energy generation and transmission, communications, control systems, circuit design and computers. Electrical engineers are involved in a wide range of projects including research, development, product design, testing, and sales and marketing.

Mechanical Engineers design and develop all types of machines. Many mechanical engineers work in the transportation industry and are involved in the design of aircraft, spacecraft, automobiles, trucks, bicycles and propulsion systems. Others are an integral part of the manufacturing industry, designing consumer products and the machinery and processes to produce them. Robotics, power generation and air conditioning are principally mechanical engineering topics.

ADULT BASIC EDUCATION

ADULT BASIC EDUCATION (ABE)

GENERAL EDUCATIONAL DEVELOPMENT (GED)

HIGH SCHOOL EQUIVALENCY (HSE)

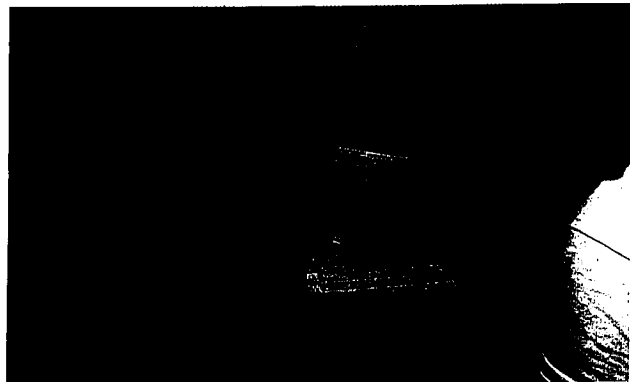

Non-credit classes in mathematics, reading, and writing are offered at no cost.

Classes are designed for people who wish to brush up on basic skills, obtain a GED or HSE, improve skills for the workplace, or get ready for college.

Classes are held at various times, day and evening, at locations throughout southern Idaho. For more information on enrollment and class schedules, call 208-732-6534 or 208-732-6526 or 1-800-680-0274, Ext. 6534/6526. The main Adult Basic Education office is located on the second floor of the Meyerhoeffer Building on the CSI Campus in Twin Falls.

Funding for GED/ESL was provided through PL. 150-202, an Adult Education and Family Literacy grant. The activity, supported in whole or part by the USDOE and Idaho Department of Education, does not necessarily reflect the position of either department and no official endorsement should be inferred.

COMMUNITY ENGLISH AS A SECOND LANGUAGE (ESL)

These classes are offered at various South Central Idaho locations. These locations include, but are not limited to: Buhl, Burley, Gooding, Hailey, Jerome, Ketchum, Rupert, Shoshone, Twin Falls and Wendell.

For more information on days and times call 732-6540 or 1-800-680-0274, Ext. 6540 or stop by the Adult Basic Education ESL office (room 206) located on the second floor of the Meyerhoeffer Building on the CSI Campus in Twin Falls.

All classes are offered for no credit/no fee in the following subjects at all levels:

- Reading
- Conversation
- Citizenship
- Computer Literacy*

*Must be enrolled in an ABE to attend the Computer Literacy class.

Classes are for individuals wishing to improve English skills for:

- Home
- The Workplace
- School
- College Entrance
- Social Activities

GET A HEAD START WITH CONCURRENT CREDIT

High School juniors and seniors can get a head start on college by earning college credits while still in high school. Classes may be taken either at your high school or on one of the CSI Campuses during the day or evening classes. Many college courses may count for high school credits.

The concurrent credit program is designed for students who:

- Are planning to go to college and want an early start towards a college degree.
- Want to be challenged and are ready for college level work.
- Want to take courses that will provide both high school and college credits.

Below are area schools that offer Dual Credit in their high school:

Buhl High School
Burley High School
Cassia Regional Technical Center
Castleford High School
Centennial High School
Declo High School
Filer High School
Jerome High School
Kimberly High School
Meridian High School
Minico High School

Mountain Home High School
Murtaugh High School
Nampa High School
Oakley High School
Skyview High School
Timberline High School
Twin Falls High School
Vallivue High School
Wendell High School
Wood River High School

Dual Credit course are offered in the following areas:

Math	Physical Education
Medical/EMT/Dental Asst.	Computer
Ag/Horticulture/Vet Technology	Geology
Chemistry	History
Biology	Political Science
Accounting/Economics/Finance	Education
English/Languages	Information Technology
Music/Art	Communications/Theatre

**Courses offered vary from high school to high school.*

Costs of the Concurrent Credits are \$65.00 per credit for the Fall 2008 Semester.

If you are interested, contact your high school for classes offered or register at one of the CSI Registration Offices for classes offered through CSI in Twin Falls, Gooding, Burley, or Hailey Campuses.

Prior to enrolling in a dual credit class, students should check with the institution they plan to attend to see if concurrent credits are transferable.

CSI FALL 2008 ADULT EVENING PROGRAMS

AUTO BODY FOR THE HOBBYIST

AUTB S010

An evening program for those seeking basic skills in auto body repair and refinishing.

6:30 to 9:30 pm - Canyon 128

CO1 Mondays, October 6 - December 8

CO2 Tuesdays, October 7 - December 12

Instructor: Tim Pierce 732-6331

tpierce@csi.edu

Cost \$150 plus materials fee

COMPUTER AIDED DRAFTING

DRAT S008 CO1

This evening class provides training aspects of using Auto CAD program with traditional techniques.

7:00 to 9:50 pm - Canyon 115

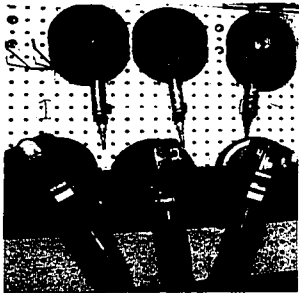

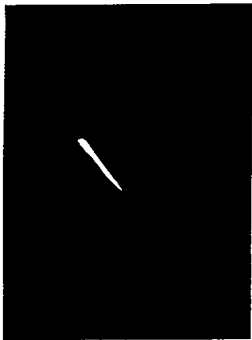

Mondays and Thursdays

August 25 - December 19

Advisor: Pat Ferrell 732-6326

pferrell@csi.edu

Cost: \$120 plus book

WELDING CERTIFICATION

WELD S006 CO1

To arrange a time to take a certification test, please contact instructor.

8:00 am - 2:20 pm

Mondays - Fridays

August 25 - December 19.

Instructor: John Peterson 732-6372

mjpgerson@csi.edu

Cost: \$225

INTRODUCTION TO WELDING

WELD S004

This class is designed for students who want to train in welding for career or personal use. The course begins with the basics and allows you to continue into the areas of MIG and Stick welding, and Oxyacetylene cutting at your own speed.

6:00 - 8:50 pm - Desert 105

Tuesdays and Thursdays

CO1 September 9 - October 9

CO2 October 21 - November 18

Instructor: Dave Marten 732-6372

Cost \$225

Contact: John Peterson 732-6372

mjpgerson@csi.edu

SPECIAL WELDING

WELD S017

This class is a continuation to the Intro to Welding and covers the areas of MIG, TIG, and Stick Welding. The student can begin focusing on a special area of interest and work toward certification. Certificates of Completion may be available.

6:00 to 8:30 pm - Desert 105

Mondays and Wednesdays

CO1 September 8 - October 8

CO2 October 20 - November 17

Instructor: Kent Parish

Contact: John Peterson 732-6372

mjpgerson@csi.edu

Cost: \$225

WOODWORKING

CABW S099

Learn basic to advanced woodworking skills with great equipment and instruction. You will be taught safety and how to use equipment for your project. You can repair, refinish, or create new pieces here.

6:30 to 9:20 pm - Canyon 113

CO1 Tuesdays, September 2 - November 11

CO2 Wednesdays, September 3 - November 12

Instructors: Ken Triplett 732-6335

kttriplett@csi.edu (CO1)

James Bolton 732-6335 (CO2)

Cost: \$110 plus cost of materials

For further information on any of these offerings, please contact the instructor or advisor.

IDAHO

Small Business Development Center

directions solutions impact

The Idaho Small Business Development Center Training Department offers a wide array of courses and workshops. Call today 208.732.6455 for more information or to discuss your training needs. In addition to our public offerings, we provide customized programs suited to your organization.

Pre-registration and Pre-payment required. Call 208.732.6455, email isbdcc@csi.edu or visit our website for full details on all of our classes at www.csi.edu/isbdcc

Applied Leadership - The Art of Supervision

Call for Part Level or Full Program Pricing (discounts available)

Level I Communication, identifying roles, interpersonal styles & self management

Level II Creating a motivating climate, leading for growth, & performance management

Level III Customer service, vision setting, problem solving and process improvement

Level IV Ethics, conflict resolution, negotiations and change management

FranklinCovey 7 Habits for Small Businesses 5399

(Savings of \$400 off regular price of \$799)

Experience straightforward leadership development that will ensure your ability to execute your most critical business goals.

Confused About Business Taxes? \$20

(Bring one guest for FREE!)

Gain a better understanding about the taxes your business must pay and learn techniques to reduce them.

Quickbooks Pro 2008 - Intro and Advanced

\$75 Per Level (Discounts available)

Level I is designed for beginners. You'll learn the basics of the program. Level II is for those who have taken Level I or who have a basic understanding of the program. You'll go beyond the basics. Flash/Thumb drive required for class.

Quickbooks PDS (Point of Sale) Training \$25

Call for Details!

You'll learn "hands-on" how to set up Point of Sale hardware equipment for your store and then how to use the software.

You won't need to purchase the equipment. We'll have a table this class as we will have a working model for you to use.

NAlevel Classroom Style Business Planning Course

\$200 (12 sessions)

Learn how to expand and manage your business successfully as you write your own comprehensive business plan.

NAlevel Online "Test Pilot" Business Planning Course

\$200 (12 sessions - limited to 100 people)

Starts Sep 9, 2008. National program will launch late Jan 2009 for \$485 per person, & up to 500 people. Learn how to expand and manage your business successfully as you write your own comprehensive business plan.

Board Member Leadership Training - Turbo-charge Your Board \$94

Program will provide area board members and those considering a board position with important tools to help them in their service duties. SOX training will be covered as well as all other aspects of board member governance.

Patents or Trademarks & Copyrights \$29

Gain knowledge from an experienced patent attorney on these important topics.

Marketing Simulation \$20

As the manager of a mock software development firm, you will plan strategies, select target markets and more.

Sewing Expo 2008 \$5

2nd Annual Expo will cover all aspects of sewing and will feature vendor booths and demos through the day.

Crafting as a Home-Based Business \$35 per person

\$10 for business partner or spouse

Webpage Bootcamp for Your Business \$79 (2 Saturdays)

Learn the fundamentals of website design & management and be introduced to web standards & design techniques. Class will be hands on with the hope of enabling you to leave with your own complete, functional website.

Understanding Labor Law & How It Affects Your Business \$30

Learn to successfully manage HR duties in your company and remain compliant with current labor law.

How to Evaluate a Franchise \$10

Learn key steps in evaluating a franchise opportunity.

MS Access for Your Business

Your ability to organize critical business data, filter out pertinent information, and get immediate answers to your most pressing business questions is the difference between success or fighting to keep your company alive in the marketplace. Most of us probably only use a fraction of this powerful program's capabilities. If you're looking for a quick and easy way to top into the essentials of MS Access, attend this class!

Renting Housing in Our Community \$20 Landlords

\$10 Tenants

Learn the basics to avoid risky business as a landlord or tenant.

How to be a Successful Seller on eBay \$62.50

You'll learn the basics of how to create an auction listing and close a sale from start to finish. Offered on several dates this Spring.

"In business, three things are necessary: knowledge, temperance, and time"

"SBDCC trainings opened my eyes to aspects of running a business that I had never thought of. It was a great success!"
- Idaho Entrepreneur

Immigrant Tax Prep for CPAs and Tax Preparers

\$25 AM \$25 PM Sessions

How to navigate through the complex tax preparation requirements for immigrants and undocumented aliens.

Artistry in Plaster - The Infinito System

The Scuola d'Arte has put together a certification class for individuals interested in learning to work with the Infinito plaster product. You'll be certified in this system and will be working with the ISBDC to develop your skill into a viable business. Call for details!

Time the Choo with Learn Office

- Custom "In House" Program

Applying Learn principles to your front and back office operations can solve these problems and create empowered and efficient knowledge workers that are a real competitive advantage. Designed specifically for your business or organization. Call for details.

Initiating a "3S" Audit for Your Company

- Customize "In House" Program

3S is a method to reduce waste and optimize productivity through maintaining an orderly workplace and using visual cues to achieve more consistent operational results. Five S drives a cleaner environment and organizes the workplace. Sort (Seiri), Set in Order (Seiton), Shine (Seiso), Standardize (Seiketsu), Sustain (Shitsuke)

Excellence in Customer Service

Spreading the Word Through Magic Valley To truly change the way your organization interacts with its customers, you must have authentic, engaged individuals of every level of the organization - leadership, management, and front line who create memorable customer service experiences every single day!

Magic Valley Business & Planning Retreat \$300

(Deadline to register Dec 5, 2008)

Step back from working. In your business to work ON your business. Join us Jan 14 & 15, 2009.

SBA

Small Business Development Center

The Idaho Small Business Development Center (ISBDC) is partially funded by the US Small Business Administration (SBA). It operates in a partnership program with the US Small Business Administration, the College of Southern Idaho, and other funding sources. The support given by the US Small Business Administration through such funding does not constitute an expressed or implied endorsement of the co-sponsors' participants' opinions, products or services. Please call one week in advance if you have handicap access needs that require special attention. All programs are offered on a nondiscrimination basis.

ENRICHMENT COURSES

Putney (Ages 12 to adult)

Mail, water, fire and paint as you explore your creative side learning the basics of pottery. Students will experience the relationship between clay, water, air and fire in creating art and useful items for the home. The course is ten sessions.

NART008B01 \$50 + \$20 clay fee. Instructor: 6 to 8 p.m., Mon. Sept. 8 to Nov 17
MCC Room A-16 Joan Peterson

Candy Wrapper Purposes

Recycle your trash into the cutest accessories in town. Candy wrapper handbags are sold in fancy boutiques, on the Internet and across the border. Ducto clip sacs, candy wrappers or glossy magazines can end up great gifts for the holidays. Start saving colorful paper discs that can be cut into 2 x 4 1/2 inch pieces. Shannon Wood will teach how to cut, fold and glue covers that are unique, durable and colorful.

NART046M01 \$40
6 to 8 p.m., Tues. Sept. 9 to Oct. 30
MCC Room B-12 Shannon Wood

Introduction to Animation Art

A stack of paper, a pencil and you're off on an adventure. Instructor Babae Anderson worked in animation as an artist and in production for about 10 years. She will share the process from idea to final print.

NART008M01 \$20
7 to 9 p.m., Mon. Nov. 3 to Oct. 24
MCC Room B-5A/25 ItaNae Anderson

Digital Camera Survival Skills

Turning it on is a challenge, then the controls are small and whatever does DSLR and S-M-P means? John Berglund will solve the mysteries and help students discover the settings and controls to survive in the digital camera world. Students will need to bring their camera and camera manual in class. Class meets twice so that students can try out the new skills and then have time to discuss more details. Class is limited to 12 participants.

NART008M01 \$20
6 to 8 p.m., Mon. Aug. 10 to Oct. 25
MCC Room B-12 John Berglund

Basic Photography and Landscapes

It's all about "light" and focus. John Berglund will have some new techniques to bring out the best in your pictures with composition, angle and light. Among the techniques taught are: winning photographer Berglund plans to teach about: describing a scene, taking an overall picture and then breaking the scene into smaller scenes. The agenda includes a field trip for practice. Participants need a camera, digital or single reflex lens, with aperture and f/stop settings.

NART008M02 \$40
6 to 8 p.m., Mon. Sept. 29 to Oct. 27
MCC Room B-12 John Berglund

Photos of People

There are simple tricks for great photos of people and John Berglund is planning to share them. Berglund will review composition basics, before delving into photographing individuals and groups. Students will learn a variety of skills for lighting and using light sources. This is a hands on "apply it" class with photo practice during class and a jaunt around Burley for unusual photo setting opportunities. Participants need a camera, digital or single reflex lens, with aperture and f/stop settings.

NART008M03 \$40
6 to 8 p.m., Mon. Nov. 3 to 24
MCC Room B-12 John Berglund

Few Turned On The Computer...Now What?

MPCC 242-01 is not the mouse you think! Take the intimidation out of computer technology with this basic course. Participants will experiment with the keyboard and mouse through several computer programs. This class will increase your understanding of Windows' popular operating system. Students will learn how to create, edit and manage files, customize windows, change desktop displays and discover great shortcuts.

NCCP014M01 \$40
6 to 8 p.m., Wed. Aug. 27 to Sept. 17
MCC Room A-24 Shilley Stauffer

Cell Phone Txt 4 the Completely Confused

Cell phones have lots of wonderful features, ready to help you, now learn to use them. Instructor Lance Pincock will cover text messaging, adding music and ringtones, taking and sending photos, setting up voice mail and contacts and customizing your display. The two-class course should get you started so you won't need to ask strangers or worse, small children, for help with the basics.

NCCP014M01 \$20
6 to 8 p.m., Tues. Aug. 19 to Sept. 20
MCC Room A-25 Lauren Pincock

Buy & Sell on Ebay

Protect your identity don't buy or sell on Ebay without learning tips and tricks to avoid identity theft. Technology can be intimidating for beginners but Instructor Lance Pincock will cover making smart decisions with online marketing. The cost is \$40 and class is limited to 12 participants.

NART008M01 \$40
7 to 9 p.m., Tues. Nov. 18 to Dec. 9
MCC Room A-25 Lauren Pincock

Office 2007 Word

You will eventually "HAVE TO" update your program. Work with the newest version of the Microsoft Office programs and learn how versatile Word can be. See how new features like building blocks, SmartArt and themes make it easier to transform a plain document into a great document. Class will cover fonts, borders, graphics, posters and more. Classifies and templates while turning out cards, letters, stationery and more.

NCCP048M01 \$40
6 to 8 p.m., Wed. Sept. 24 to Oct. 15
MCC Room A-24 Shilley Stauffer

Publish It With Office 2007

Publisher 2007 is a great companion to all of the Microsoft Office programs. Don't just rely on the text, students will learn to download templates to create great cards, newsletters, banners, brochures, menus, calendars, posters and more. This versatile workhorse is fast and friendly to use and easily accepts images from other sources.

NCCP048M01 \$40
6 to 8 p.m., Wed. Oct. 22 to Nov. 12
MCC Room A-24 Shilley Stauffer

Microsoft Movie Maker

Shoot photos with your digital camera download and edit it into usable video with Movie Maker. Instructor Jackie Anderson worked in production design on movie videos and feature films in California. She will guide students through the process of editing and adding music and narration. Students may want to bring a laptop to work on their projects.

NCM#1958M1 \$40
 7:00 p.m., Mon. Sept. 29 to Oct. 27
 MCC Room A-25 BuSae/Anderson

Quick Picasa Photos

Digital doesn't get any easier than this. Picasa is a free photo organizing and manipulating program. Individual photos can be cropped, lightened or darkened and emailed. Students will learn to transfer photos from camera to computer, move photos between folders and create a slide show disk. The three-session course is \$30.

NCM#1960M1 \$30
 7:00 p.m., Mon. Sept. 19 to Oct. 27
 MCC Room A-25 John Berglund

Photoshop Elements

Even when taking pictures isn't your strong suit, you can learn to fix the flaws and make them fantastic. Students will take care of red eye, red faces, bad lighting, crooked shots and crooked angles. Lance Pincock has planned some just for fun projects, along with the basic skills.

NCM#1960M2 \$40
 7 to 9 p.m., Tues. Oct. 2 to 29
 MCC Room A-25 Lance Pincock

Office 2007 PowerPoint

Create your photos and videos and create a powerful compact disk presentation with your recent narration. Microsoft Office PowerPoint 2007 not only enables users to quickly create high-impact, dynamic presentations, it also provides workflow integration and tools to easily share information. From the redesigned user interface to the new graphics and formatting capabilities, PowerPoint 2007 puts the control in your hands.

NCM#1961M1 \$40
 7 to 9 p.m., Mon. Nov. 17 to Dec. 8
 MCC Room A-25 Shirley Stauffer

Web Page Design

Everyone who uses the Internet has been to websites that were so hard to use, locked up your computer. You don't want yours to be one of those. Web Page Design is more than just setting up a website. Students will learn to maintain and update a website. Instructor Lance Pincock will teach them to use text, images, links, frames and tables.

NCM#1971M1 \$40
 7 to 9 p.m., Tues. Sept. 2 to 23
 MCC Room A-25 Lance Pincock

Beginning Genealogy

Look for long lost relatives, dig into your family's past and discover yourself in genealogy. Lance Pincock will guide participants through the hands-on process of searching the World Wide Web for ancestors.

NCM#1959M1 \$40
 6 to 8 p.m., Thurs. August 7 to 28
 MCC Room A-25 Lance Pincock

Find out how your primal survival instincts are to practice. Amanda Grump will demonstrate how preparing in advance can aid you whether you are stranded in a car or stuck in the wilderness. Students will learn why to prepare the most useful tools and equipment and the importance of mental preparation.

NCM#1828M1 \$40
 6 to 8 p.m., Tues. Aug. 5 to 26
 MCC Room B-12 Amanda Grump

ADDITIONAL CLASSES UNDER CONSTRUCTION AT PRESS TIME

For more information, call or stop by the Center or register your name for the email database at Jorynnet@csd.edu

All classes have size limitations and early registration is recommended.

Step Back in Time Antietam

The Antietam Battle near Sharpsburg, Maryland was the worst single day in American history in respect to the loss of life. This strategic victory encouraged Abolition Lincoln to change the purpose of the war, from a war of preservation to a war of eventual abolition for the slaves. This battle enabled Lincoln to finally release the Emancipation Proclamation. Some of the class will focus on the ordinary heroes who helped influence the outcome and discuss the war such as Clara Barton who would eventually set the standard for American nursing and the American Red Cross.

NCM#1872M1 \$30
 6 to 8 p.m., Thurs. Aug. 14 to 29
 MCC Room 1-5 Joe Colleschi

Step Back in Time: The Civil War

Self-Defense 101

Would you know how to defend yourself if you were confronted in a dangerous situation? What's the best thing to do when you only have your body's natural "weapons" to use? You'll get these questions and many more answered in this class. You'll practice with Williams, who has a black belt in Tai Kung Fu and a blue belt in Brazilian Jiu Jitsu, will teach you over 55 different stand-up and ground fighting positions. You'll be introduced to the basic philosophy of mixed martial arts, dojo etiquette, and learn basic techniques on common confrontation scenarios. You will be able to apply what you've learned by sparring in a safe environment. (8 sessions)

Run for Your Life

Just like the Energizer® bunny, we're still running, so why not join us? Now that the approaches, instructor Amy Brinkley is, back with evening hours and fewer sessions. This basic introduction to running is open to all levels of fitness. Whether you are a walker, just getting started as a runner, or are training for a race, you'll benefit from this class. Everything from stretching, breathing, and form to setting personal fitness goals will be covered. You'll even get some tips on how to prepare for a 5K. Learn about the various running apparel that's available, how to recognize and prevent injury, and why not jogging intervals. Pace work on the track as well as distance work on a road course will be introduced. You will create a workout that fits your own schedule and abilities. So don't wait—"run" on down to the North Side Center and sign up. (8 sessions)

Introduction to Scuba Diving

Don't be discouraged by the cold weather! Start making plans to take a trip to a warmer climate as you jump into the adventure of SCUBA diving in this new course. Enjoyed by millions, SCUBA is fun, easy and safe and allows you to explore the mystery and beauty of another world. PADI certified instructor Dave Scanlin will introduce you to the excitement of diving and its environment. In this course, find out what equipment you'll need and some of the best places to go, as well as some physiology and how the body reacts under water. If we have a good response to this class, we will follow-up with some certification classes in the spring semester. (1 session)

Embracing Change

The only constant in life is change. So why do so many of us resist and fear change instead of seeing it as an opportunity to grow? You'll find the answer to that question and others as you learn how to turn your traditional beliefs about change into affirmations that allow you to go through life's transitions with grace and ease. With the help of instructor, Jodie Robb, you'll learn the basics of acceptance and personal insight that will assist you in creating peace of mind and spirit. So don't stay stuck in the past, embrace change and the wisdom you gain to use as a springboard to an exciting and fulfilling life. (1 session)

You're on the Air

(How to Really Make It in Voice-Overs)
Voice-overs are hot today! And you don't have to be an actor to get voice-over work. Learn about an exciting new way to avoid the professional competition and actually turn voice-overs into a thriving full or part-time business. In this online class done from the comfort of your own home, Dan Levine, a commercial producer and Tony Award-nominated Broadway composer, will discuss voice-over technique. Then a successful voice-over artist will discuss voice-over opportunities, iconic potential, and the all-important demo and how to have it produced. There will be time after class to ask questions and get answers via email and conference call and you can even have a voice evaluation done by calling from your home phone. Don't miss this chance to get the inside scoop on this exciting business. (1 session)

Conversational Spanish

Have you taken a Spanish class before and only learned a few words or phrases? Or maybe you've forgotten most of what you learned. Even if you're a "first-timer," you'll be surprised how quickly you can learn to speak Spanish with our fluent bilingual instructor, Samuel Lopez. Using an interactive approach, the instructor will introduce key verbs and phrases, questions and answers, numbers, dates, and other vocabulary that's applicable to you. You'll have fun as you are exposed to cultural aspects and learn to express yourself in the Spanish language. (8 sessions)

I've Been Framed

Whether it's a family portrait or your child's artwork, how you frame it can make all the difference. What colors look best? What type of wood should you use for the frame? Why not learn from a professional? Instructor Phil Howler of Phil's Framing will teach you how to choose a mat based on the colors of your project. He will then show you how to cut the mat and the window that displays your art. Cutting the glass and the pieces of wood to make a frame will also be demonstrated. For the second and third classes, you are encouraged to bring your own picture or artwork to get hands-on experience in framing. Think what a great Christmas gift this would make! Previous students are welcome to enroll and spend the time working on their own projects. (3 sessions)

Knitting—More with Sticks and Strings

As students had so much fun in this class last summer we just had to offer it again! Both beginner and intermediate knitters are welcome. Instructor Pat Hamilton is on hand again with easy lessons to help you make a scarf for yourself or a Christmas gift for others. A beautiful hand-knitted scarf, hat, bag, or vest can be yours once you learn two basic stitches. If you took this class before, join us again to relax, knit and ask questions while you have fun with sticks and strings. (5 sessions)

Do you have a
HEAD
for business and a
HEART
for sports?

Have you considered a degree in Sport Management or Recreation?

Careers in sport management have grown dramatically. Some sport management titles include program directors in sport programs, marketing & promotions director, or sport business manager.

Career opportunities in recreation can be found in a variety of areas such as private and commercial recreation, community recreation and youth agencies, recreational sports, recreational leadership, and recreational administration.

20th Anniversary Season

East Village
 An award-winning musical in three acts, set in the East Village of New York City. The story follows the lives of a group of young people who are struggling to find their way in the world. The music is a mix of rock, soul, and funk, and the production is a masterpiece of modern theater. You can find out more about East Village as well as watch and listen to them at www.eastvillagecompany.com

Swan Lake performed by the Eugene Ballet Company

October 17, 2008
 In Swan Lake, romantic music, beautiful costumes, and elaborate scenery set the stage for classical ballet's most beloved story of a prince's love for an enchanted princess. From its incarnation in 1877 at the Bolshoi Theatre in Moscow to the many productions mounted around the globe today, the timeless story of a young man's love and eventual betrayal of a swan queen, set to one of Tchaikovsky's most enduring scores, continues to engage audiences and inspire new generations of dancers. The Eugene Ballet, one of the most young-star dance companies in the Western United States, has 20-

performers in a blend of classical and contemporary styles. The production is a masterpiece of modern ballet. You can find out more about Swan Lake as well as watch and listen to them at www.eugeneballet.com

Children's Choir
 The Children's Choir, dressed in brightly colored costumes, the choir's program of song and dance with popular, gospel, and contemporary music, on traditional African instruments. Founded in 1984, the choir has performed in concert halls around the world. They've appeared on television programs (including NBC's 2007-2008 season of The Tonight Show) and in films (including the 2007 film The Sandlot 2). You can find out more about the Children's Choir as well as watch and listen to them at www.childrenschoir.com

Second Line Band
 The Second Line Band, a New Orleans street music band, has been performing for over a decade, playing the traditional Second Line parades, hosted each Sunday afternoon by Social Aid and Pleasure Clubs and infusing their performances with their funk and groove that makes New Orleans music loved around the world. The members of the Hot 8 Brass Band were born and raised in New Orleans and many began playing together in high school. The band's music is a mix of funk, soul, and jazz, and the production is a masterpiece of modern jazz. You can find out more about the Second Line Band as well as watch and listen to them at www.hot8brassband.com

Sophie Milman

February 14, 2009

Jazz vocalist Sophie Milman is a sophisticated and fiery singer with a bent toward American popular songbook standards. At just 24 years of age, Sophie has established herself as one of the jazz world's most exciting performers. She is a lively creature on stage who suddenly becomes the focus of the room with her musical and vocal presence, the sophistication and depth to her voice belying her age while she evokes the spirit of the great jazz singers of the '40s and '50s. Since her self-titled debut was released in 2004, it has sold almost 100,000 copies worldwide, hit the Billboard Top 5 in Canada and the Top 15 in the United States, and topped the iTunes jazz charts. The three years since have been a whirlwind of awards and touring for Milman. Her new album, Make Someone Happy, was later named one of iTunes' "Best Selling Jazz Albums of 2007". You won't want to miss the sultry, soulful performance of her glamorous jazz repertoire. Watch Sophie perform by going to her website at www.sophiemilman.com

Beauroot

March 4, 2009

Beauroot is a fast rising, young acoustic blues band based in Anchorage, Alaska featuring powerful electric blues, funk, rock arrangements and instrumental passages backed by a tight rhythm. Likened to greats such as Blind Creek in their early approach to blues and acoustic folk, the members of Beauroot are a tight, cohesive unit. Beauroot has performed at the International Blues Music Association Festival, where they were awarded, Westergate Festival, and at the Talkeetna International Blues Festival. Beauroot was the 2007 11 Band Competition, and has toured with past winners Blind Creek (1995) and the Duke Circle (1991). You can check out Beauroot's website at www.beaurootblues.com
