News of War In Summary

WASHINGTON, Feb. 7 (AP)—The administration leadership tonight suggested and the house quickly adopted a sharp limitation on the extent to which, under the lease-lend bill, President Roosevelt may transfer to other nations American military and naval equipment already on hand or appropriated.

The limit fixed was one tenth of total appropriations for defense for the fiscal year 1941. The exact figure was left subject to some dispute but all agreed that the appropriation total by budgetary standards would be \$1,000,000,000 and \$13,000,000,000. Hence the transfer limitation is at \$1,000,000,000.

WASHINGTON, Feb. 7 (AP)—Senators, during the last-lead bill today they would hold an unofficial hearing of their own if the senate action committee cut short their list of witnesses.

AS EXPECTED The plight of the Belgians, as revealed by Herbert Hoover, chairman of the National Committee on Food for the Five Small Democracies, is a picture of a quarter of a century has endured so much of grief and suffering. The story is lacking, however, in the element of surprise. When Mr. Hoover states that he does not see the future of Belgium as little more than one third that of Germany, he reveals only what was to be expected. It has been known all along that the Germans will be the last to starve when Europe ultimately rests around to the grim business of starvation.

SOMEHOW AMERICAN During five decades of purchasing William Randolph Hearst is reputed to have made a fortune of \$100,000,000. His collection now removed from a Bronx warehouse and offered for sale in two New York department stores. The sale is not without one dislike: the outworn phrase—social credit. It is not that the phrase is so offensive as Hitler and his disciples. It is the fact that the phrase is each philosopher must decide for himself.

FIFTH COLUMNISTS IN TRADE There can be no reasonable quarrel with the state department's dictum that American business houses should give a thorough housecleaning to their Latin American branches. This involved a thorough scrutiny of personnel and the elimination of nationals or of sympathizers with the totalitarian powers. Also there is a determined effort at Washington to get American exporters to discontinue shipping from Latin America to the axis powers materials originating in the United States, which direct shipment would be banned by Presidential embargo.

these concerns is not at all in the nature of a witch hunt. It is a necessary step in the direction of hemisphere solidarity. Where it is effective it will be just another evidence of American good faith.

SAINT LAWRENCE SEAWAY Unless international developments grow too warm for his consideration, it is probable that the Saint Lawrence Seaway treaty will be presented to the United States Senate in the near future. The road to the present in 1934. Whether the arguments will be forceful then will seem less decisive now is to be seen.

The senate in 1934 turned down the proposal because most of the cost would have been borne by the United States. The bulk of its construction would be outside the United States by foreign labor, there is plenty of hydro-electric power available in the Great Lakes region and if there were no steam power could be provided more cheaply and cheaply; scheduled ocean navigation can not be economically adapted to the Great Lakes; the treaty would internationalize Lake Michigan, a wholly American body of water.

Other Points of View NATIONAL DEFENSE—FOR WHAT? Peace? Only Congress can declare war. Only the people can defend it. It is a question of whether to do the one or the other, a serious question which can do the other.

Let us, then, have an answer from our leaders. Do they intend that America is in danger of foreign invasion? Do they see the future of the United States as a collection of small states, each with its own army and navy, still to be ready, most look ahead.

Federal Reserve Figures Show Britain Able to Pay for Aid

By PAUL PALMER WASHINGTON, D. C.—How poor is Britain? That is the question of the day. The answer here, as given by Secretary of the Treasury Morgenthau, is that the English are fully able to pay for their aid to the United States. The federal reserve figures, in fact, show that the English are fully able to pay for their aid to the United States.

Looking Ahead What do the English themselves say? In December 1940, as Frederick Phillips, under secretary of the British treasury, stated flatly, "England's financial position is never stronger." Can it have changed since then? Morgenthau says as Secretary Morgenthau says that the British are fully able to pay for their aid to the United States.

## International Relations Expert Urges Teaching of Spanish for All Students

"Young people of America should be able to understand and read Spanish. It should be taught in all the schools today because the world is changing rapidly and only when South America and the United States can readily understand each other will the two countries be united," said Mrs. David Simms in an interview yesterday afternoon soon after her arrival in Twin Falls from Seattle.

Mrs. Simms, who came here under the sponsorship of the Twin Falls Business and Professional Women club, spoke last night at a public meeting at the Protestant church on "South of the Equator." Prior to her address, she was honored at a no-hostess dinner at the Park hotel, and following her talk, was the honoree at a reception held at the church.

**Toured South America**  
Chairman of the international relations committee of the National Federation of B.P.W. Mrs. David Simms has toured South America, Cuba, Panama, Nicaragua and Honduras in the past few years and describes in a straightforward manner her impressions of the people and neighbors and their relation to the United States.

"The South Americans have inaugurated the mammoth program of teaching English in all their schools so they may understand us."

"Nazi Propaganda"  
Speaking of the Nazis through the southern countries, she said that Nazi propaganda has spread just two weeks in the United States and that America can face the world as one," she continued.

"When they meet us and they visit us and we talk together, they find an entirely different view of the pre-conceived picture of the Yankee and it's the same in all countries."

"To correct the situation we've got to have understanding and we can't have understanding without knowing a different language! This grey-haired woman with the young eyes and the hair that is just beginning to turn white, in America, think too much of self and not enough of the other. We must declare to the world that we will take care of our own people as well as those of other nations."

**No Hostess Dinner**  
Thirty-five guests at the no-hostess dinner at the Park hotel, were seated at one large table centered with a centerpiece of daffodils and rose-colored anemones on a large mirrored plinthe. A program was presented by the honoree, who spoke briefly to club members.

## Clever Program Acquaints Girls With Twin Falls

Intensive program, designed to acquaint members of the group with their city, highlighted the meeting of the Girls' League, at the Y. W. C. A. Thursday afternoon at the Farmer's Auto Insurance auditorium. The "Year of Our Centennial" theme of the program, arranged under the direction of Miss Madge Bowman.

During the program, the mayor, city councilmen, municipal band and Harmon park were represented by girls who appeared in the different roles.

The program, played by Miss Charlotte Thompson, and the mainline, portrayed by Mrs. Olenia Wilcox, Miss Hayward and Miss Beverly Burton, showed a pair of strangers, with a fair amount of money, seeking information about the city prior to moving their capital here.

During the scene, the mayor, and his councilmen gave an adequate description of the business district and pointed out opportunities to the visitors, indicating that an investment here would be wise. Visitors in the scene were Miss Gloria Wilcox, Miss Betty Ann Thomas, Miss Nancy Mart, the wife and Miss Jane Hoops, their secretary.

Following the scene, Miss Betty Kelly, with cornet, and Miss Dorothy Halpin, trombone, represented the municipal band.

Miss Salmon gave a talk about Harmon park with Miss Halpin and Miss Kelly in appropriate costumes playing tennis in the background. Miss Kelly gave a talk about business and industry in Twin Falls, Idaho, discussed the city band.

# 'GLADIATOR' BOWLING ROYALTY JOSE BATTLE

## Billy Soose to Fight Tigh over 12-Round Route

### Ex-Collegian Awarded Decision Over Slugger But Fails to Earn Shot at Overlin's Crown

NEW YORK, Feb. 7 (AP)—Billy Soose's long-range left won him a 10-round decision over Ernie Tigh before 10,507 fans in Madison Square Garden tonight, but the victory didn't bring with it the promised midweight title shot for the "gladiator" from Penn State college. Soose weighed 160; Tigh 160-162.

Ernie Tigh, promoter Mike Jacobs considered the bout too close — with Soose floored once by the Newburgh, N. Y., slugger's body punches — but that he announced he planned to re-match the two over the 12-round route March 1.

The bank Pennsylvania boxing academy came off the floor in a rousing fight back to the body and short fight to the head, bringing him to the eighth round and the count reached eight, with Soose on his knees as the bell rang.

Both judges scored the fight in favor of Soose. Referee Eddie Jacobs called the fight a draw, but he gave the decision to Billy, the Associated Press correspondent says. Tigh, a former champion of Newburgh, N. Y., five rounds, four of Soose's and one even.

The fight was in effect, a long-range cannon against a submarine with Soose in the lead. As long as Soose was able to stay away and poke out with his left, from his advantage in the reach, he was safe. When Hugh had enough of this, he'd bounce forward and fight with Tigh, but Billy with ripping rights to the body and left to the midriff.

With draw 15, Soose's nose in the third round and Billy returned the compliment by doing the same to the sixth.

The eighth was the highest of the bout, with both scoring punches being in, trying for knock-out advantage. As the round drew to a close, Billy rushed Soose into the clinch and with his right hand dug into Billy's midsection, you could barely see the glove. Soose was lifted off his feet.

High followed it up with a half-hearted right to the head, but Soose was on his feet and the fight, it got to one knee as the count reached four, and a 27 to 10 rally at the end of the fight as the bell sounded.

Ernie Tigh followed up his advantage in the ninth but Soose again out of harm's way. If Hugh had his chin against the ropes in the tenth, he might have won the fight, but Soose recovered by then, took matters into his own hands and finished with a right win to this final and by the rally won the decision.

HOWARD ENGLEMAN

BY HAROLD GLASSMAN  
LAWRENCE, Kan., (AP)—Howard Engleman, the Kansan forward, fired at the basket in the second half. The ball hit the backboard, slanted for the hoop, skittered around the rim and—plunged horizontally to the floor.

The anti-Kansan crowd cheered. They applauded his aerial victory although they begrudged victory because they were being led by Engleman's team.

Engleman, the blond bracer of Dr. P. Allen's latest Big Six title team, is a 6-foot-7, 175-pound sophomore. He is a member of the Big Six conference, and he is a member of the Big Six conference.
