Word of reports of being drafted to petition congress against the proposal to extend the emergency drew him from Lt. Gen. Hugh Drum, commander of the first army, he said.

# REPULSES ALTER HITLER'S PLANS

### Far East Crisis Linked With Tough Going for Nazis in Russia

By KIRK L. SIMPSON  
News Special Service War Analyst  
Science authorities here are finding his areas "crucial" against Communist forces, notes that he expected and is seeking diversions.

It helps explain the sustained bombing of Moscow, which has come under foreign fire for the first time since Napoleon's campaign in 1812. It also underscores the crisis in the far east, momentarily expected to flare into some sort of Japanese military action but not necessarily into "blazing war."

The Moscow bombing, which could just as easily have been carried out by the Nazis, is being kept out of the news, it is felt, because of weeks ago, imply that German victories in the field have thus far failed to shake the will of Russia in the mass to fight on.

**Crucial Told**

Moscow has made no attempt to conceal heavy losses from its people. The German air force is reported to be flying back through all Germany to try the long-strained nerves of the civilians.

Devastating victories to end the Russian military were long ago promised by Hitler. They are still deferred. To offset that unexplained bombing of the city, the German high command, the same sort of terroristic bombing of great cities that has so often been used to terrorize the civilians, and to go on to the aid of the courage, Moscow has been attacked from the air. According to reports, the German air force has been just as dubious as the British in England.

In the far east, there can be small doubt that Berlin has been prodding the German army to the aid of the Soviet Union, which could have any day in a Japanese attack on the Nazi-Soviet battle, Japanese occupation of all and bases in the Pacific. Indo-China, which is likely to be Tokyo's answer. And the trend of all runners flooding the Pacific is that it is in the hands of the victor probably ascending until still pressure on Berlin.

**Eye on America**

Berlin's prime purpose in fostering a Japanese raid on the United States would be to divert British and American attention. Hitler may hope to limit the extent of the attack, and if other aid to Britain, or Russia.

There is ample evidence that Japanese and heavy bombing is being done at odds on policy. The navy men, the trend of all military operations southward on a scale, would draw the line, to great distances from its home base.

They never lose sight of the American fleet in the Pacific. It is a fact that the Japanese has made no communications between Japan and a major sea-borne military force to the south. However, Japan may be planning the attack that is in the hands of a sailor at his foreign affairs here.

 Four visiting pitchers paraded to the mound in an effort to halt the Twin Falls attack. Hank Dushman and Don Harrison hurried for the winners.  
 The evening's slugging produced a rate of three-homers and eight doubles in addition to Kerr's four-base smash.  
 Five hits including a triple and a double, netted the Russets four markers in the first two frames. The Cowboys were to work in their half of the second, scoring two runs on a single. Kerr's fan-burner again inflicted out. Idaho Falls got three singles and two runs in the fourth.  
 Twin Falls bouncers have had five same inning to knot the count with three straight singles and doubles by Ed Burton and Vern Reynolds. Burton's hit drove in three of the four runs that were in their half.  
 Each club tallied once in the fifth. The fifth inning saw the Russets come out three singles and a double to ahead of fifth with his homer and all lighter, who doubled, scoring on a similar blow by Manager Andy Harrington.

## Pro Golf to Ban Organized Betting

### Association Executive Committee Considers Action to Outlaw 'Book'

By EARL WILLIAMSON  
 CHICAGO, July 23 (AP)—The best bet in golf at the moment—by the possible exception of one that says Ben Hogan will be in the money at St. Paul this weekend—is that there will be no organized betting at future tournaments sponsored by the professional golfers' association.  
 The P. G. A. president, Tom Walsh, said today he will take before the association's executive committee a motion to bar from all P. G. A. tournaments any such betting "book" as was made this past weekend at the \$5,000 Chicago open championship at Kinloch Country club.  
 Baseball had to employ Commissioner Landis and pay him \$55,000 a year after gambling hurt the sport. Walsh said "and of the P. G. A. will not allow the gambling element to take a foothold in golf. We've built up a reputation that our tournaments can be enjoyed by the public without 'muckers' or 'books' and we don't intend to see that reputation damaged."  
 The book at the Chicago open was run at the ninth green, with odds listed on some 30 layers. Hogan, current winner, was the regular choice at opening odds of 4 to 1. This was cut sharply to 2 to 1 first round. A large sign "place bets here" was periodically announcing to P. G. A. officials.

## Middleweight Champion Flattens Bulldog Harris

### Zale Scouting 161 Pounds

CHICAGO, July 23 (AP)—Tom Zale, Gray, Ind., National Boxing association middleweight champion, knocked out Cecil "Bulldog" Harris, Pittsburgh, Pa., with a right to the jaw in the first round of their scheduled 16-round bout in the Chicago stadium outdoor arena tonight.  
 Zale dropped his foe after one minute and 40 seconds. The Pittsburgh Negro fell straight backward. Zale pulled him over on his face and was unable to move at the count of ten.  
 Harris fought at 161 pounds, but Zale scouted 161.  
 Zale kept stalking Harris with right hands to the body to set him in position to land the knockout blow. Zale was too busy looking away to do any damage to Zale, and succeeded in landing only a couple of futile jabs to the head before Zale pulled him with a right that traveled with lightning speed.  
 A crowd of 3,800 attended.
