Destination: Thousands of Cherry Pies

This camera here takes you inside the local cherry cannery which is unique within Twin Falls. Coming from vats in the background, the cherries pass on a conveyor in front of the young women seated at the sides and they then pass into the pitting machinery at front of the machine.

DISCOUNT GIVEN LENINGRAD PERIL

German Claim Coincides with British-Russian Attack in Arctic

By KIRK L. SIMPSON
Interpreting the War News
Berlin's contention that the
Leningrad, former czarist capital of
Russia, is impending is subject to
suspecting, Britain's war news
the Moscow reply of "Nazi propaganda."
If the city is actually closely beset
by the German-Finnish allies, there
has been no previous indication of it
from any quarter. Not that it is
wholly overlooked that the Berlin
claim was made at a time when
plans from British airforce carriers
were launching an attack on Ger-
man-ruled or German-ruled bases on
the Arctic ocean. About the same
time, moreover, Harry Hopkins, the
American director of aid to the
war of the axis was in Moscow extending
assurances of help to Russia.

It seems possible that Berlin felt
the need of off-setting this encourage-
ment to Russian defenders of
Leningrad at any rate, has a claim
from the front door to Leningrad
from the west, the narrow 40-mile
strait of the Gulf of Finland, is still
held by the Russians. The main base
of the German navy along the Russian
Arctic border at that point are
less than 100 miles from the city.
These reports told of Russian forces
being thrown back to the
north. That means the main fighting on
the extreme Baltic flank is still in
the hands of the Russians. The
long water barrier guards the ap-
proaches to Leningrad from the west
for a distance of nearly 500 miles.
Just south of the lake system,
within Russian frontiers, is the
most important rail junction
point on the Leningrad west front.
Three routes converge there. One
crosses the lakes and fan out again
eastward to Leningrad, while a fourth
runs east and south to Moscow via
Petrozavodsk.

The most dangerous Nazi threat at
Leningrad up to now has been via
Pskov and Porokhov. For days Mos-
cow war bulletins have reported the
ports of violent battles in the Por-
kovo region, indicating that the Nazi
attack south of the Pskov lake sys-
tem has been held up, still 150 miles
and more, air line, from Leningrad.

Dewey to Leave Prosecutor Post

NEW YORK, July 31 (AP)—Man-
hattan district attorney, Thomas
E. Dewey, whose reputation as a
racket-buster carried him almost to
the Republican presidential nomina-
tion last year, announced today he
would forgo the career which made
him famous.

He declared in a seven-word state-
ment, "I shall not run for district
attorney when his first year term in
that office expires Dec. 31."
Asked whether he intended to re-
turn to private practice in January
he said merely, "I am a lawyer by
profession."

There appeared little doubt that
Dewey intended to remain in poli-
tics, although today he would not
say that he had any particular of-
fice in mind. He has been mentioned
as a possible candidate for governor
next year—a post he sought un-
successfully in 1938 when Governor
Herbert Lehman defeated him by
62,000 votes.

Fathers' day is observed in Sweden,
Canada, Mexico, Hawaii, India, and
Korea as well as in the United States.

NYA-Built 'Ag' Shop Complete

JEROME, July 31—A new ag-
ricultural building at the rear of the
high school grounds, availed Jerome
high school agriculture students.
The building has been completed
by N. Y. A. youths under the di-
rection of H. D. Cook, Stanley Tren-
hale is local teacher.

The new structure is one of the
most adequate for a large class of
students, and all kinds of farm ma-
chinery repair work will be done in
addition to class work. The class
room, with plastered interior, is 21
by 30, while adjoining the study
room is the large farm shop, 20 by
60 feet in dimension.

The shop is equipped with all the
necessary tools, and fronts are to be
heated in winter months from a
furnace heat from the main ad-
ministration building of the high
school.

The farm shop is also plastered
in the interior and numerous lights
have been installed at intervals for
adequate illumination. Two perma-
nent forges have been placed at the
rear of the farm shop, where
blacksmithing and soldering will be
done. Leather work and rope work
will also be a part of the farm shop
activities.

NEW ROAD WORK TERMED FAULTY

State Highway Director Pro- mises Aid in Inquiry at Idaho Falls

IDAHO FALLS, July 31 (AP)—Idaho
highway director S. E. Johnson to-
day promised Bonneville county
commissioners that cooperation and a
complete investigation on a commis-
ion charge that "the taxpayers" did
not get their money's worth in a
three-mile improvement of the town
road.

Johnson, Ray Hunter of Pocatello,
district engineer; Raymond Shinn,
resident engineer, and W. C. Burns,
Idaho Falls contractor, heard the
commissioners' complaints at a hear-
ing today in the courtroom.

Commission Chairman Sam Price
charged many thin spots have ap-
peared in the road since the dirt mat-
ing was re-laid last spring. Burns, al-
though the appearance of the thin spots,
contended he met all tonnage
requirements on the contract.

ed a position in the junior high
school of Rupert. Loren Anderson,
seventh grade teacher for the past
year, was in a recent selective ser-
vice group.

Railroads Appeal To Federal Board

CHICAGO, July 31 (AP)—The na-
tional railroads appealed to the na-
tional railway mediation board to-
day to settle its controversy with
the fire operating rail brotherhoods
over proposed changes in working
rules. Negotiations reached an im-
passe yesterday.

Representatives of the railroads,
and the brotherhoods are meeting
here to discuss the suggested
changes and to consider the brother-

hoods' demand for a 30 per cent
wage increase in basic rates for their
320,000 members.
F. C. Gurley, chairman of the
conference committee, said the
wage issue would be taken up
at a meeting Friday.

Hitler Blitz Stalled? Because lulls in Nazi blitzkrieg attacks are often deceptive, there has been a reluctance to comment on the absence of reports of German gains on the last week or more.

Exactly what the present status of Smolensk remains obscure, but this city which bars the road to Moscow approximately 235 miles to the east is presently reported controlled by the German high command.

It is even possible that the Nazis can be held off until autumn, severe climatic conditions have the weather of the territory to be controlled will prove a major disaster to Hitler, whether he wins or loses the Russian campaign.

During the six years the national labor relations act has been in operation the validity of certain procedures and actions by the labor unions and the courts has been established by repeated judicial findings.

Petitioner's case does not remotely approach the strength and persuasiveness which we require before we will undertake to reverse what we believe to be a sound public policy.

There is more than a pin prick in the final judgment that has not only ended the fifteen years, so Hitler's morale is expected by his foes to crumble in the occupied countries before the letter "V" symbol of ultimate victory against the tyrant.

Just as the walls of Jericho in the Bible story fell at a shout from Joshua's army and the city was destroyed, so Hitler's morale is expected by his foes to crumble in the occupied countries before the letter "V" symbol of ultimate victory against the tyrant.

perhaps the Germans themselves. Every few minutes the German radio taps out "V's" in Morse code. The "V" is said to stand for "Victoria," not a German word, but all as Hitler's own slogan, "Sieg" is the German word for victory.

The prompt recognition of the British campaign by this effort for a "V" is of itself an indication of already frayed nerves.

The war department has made a gracious, as well as practical, gesture of even with an appearance before congress. Hereafter senators and representatives will have a five-hour bat over the press in receiving news of site selections for new army construction.

Public relations efforts of the war department were at first instructed to give members of congress a 24-hour jump on the press, but this has now been cut to five hours, according to Washington dispatches.

What the members of congress may have nothing to do with selection of a site is irrelevant. When he announces it to his constituents, before even the press has it, he will not fail to receive the approval of his voters.

There are some 250 construction projects now in progress, which will entail expenditure of \$1,000,000,000. Congressmen who can capitalize part of this figure into their state or district will certainly feel no doubtless thinking back without regret to a time when a new post office or dredging of an obscure creek was considered big political business.

Other Points of View

ILL-DEFENDED ISLANDS The president's order calling the organized military and naval forces of the United States to the aid of the United States called attention to the fact that, although the commonsense will acquire indubitable evidence of the ill-protected nature of this nation, but the effect of the order will be largely a tactical matter of consolidating command.

Radio Dealers View New Sets

Presentation of the new line of 1941 radio receivers before a meeting of about 25 south central Idaho general electric dealers Wednesday night at the Regency hotel here.

The session was conducted by R. Stanton Branch, branch manager, Boise, and emphasis was placed upon the fact that, although General Electric has accented materially in the national defense program, it is continuing full production of radios for domestic use.

Dealers and solicitors attending the session heard an address on sales and promotion by T. F. Hall, Bridgerport, Conn. and viewed advanced models, including sets utilizing a new type "new" battery with a long period of service without attention.

Von Werra Killed On Russian Front

LONDON, July 31.—The Daily Herald reported today that Baron Franz Von Werra, German officer who made three escapes from the British and jumped bail in the United States to go back to Germany, had been killed in the Russian front.

The Baron was shot down near London last September and captured. He escaped in Britain twice but was recaptured. Taken to Canada, he fled to prison train and crossed into the United States in January, where he was arrested on a charge of failure to report to an immigration officer.

He was released on \$5,000 bond, but forfeited it when it was disclosed in April he had gone to South America. There he flew to Europe.

Third Shoot Won By Hansen Team

HANSEN, July 31.—Hansen Modern Woodman Pneumatic Rifle club of the district, which includes teams from Gooding, Bluff, Hansen and Shoshone, won the third shoot of the present series Tuesday evening at the tournament held at Hansen.

IDAHO'S TOLL IN TRAFFIC LOWERED

63 Deaths in First Half of Year, 16 Per Cent Under 1940 Record

BOISE, July 31.—Idaho traffic fatalities during the first half of 1941 numbered 63, a decrease of about 16 per cent from the 72 deaths recorded in the first six months of 1940, it was reported today by State Safety Bureau Director E. T. Spencer.

Only Idaho county which could boast an 18-month period without a traffic death was at June 30, was Caribou county. State Law Enforcement Commissioner J. L. Halderston reported today.

Four counties, Adams, Boundary, Owyhee and Valley had one fatality each during last year but none during the first six months of this year. Fourteen counties got by the first half of 1941 with no automobile fatalities.

Of the 63 fatalities during the first six months of this year, Shoshone had nine, Ada six, Blainock five; Twin Falls, Cassia and Canyon four each; Fremont, Latah and Nez Perce, three each; Blaine, Bonneville, Gem, Idaho, Kootenai and Washington, two each; and Brex, Bingham, Clearwater, Elmore, Franklin, Jerome, Lemhi, Lincoln, Ouzel and Payette, one each.

Balderson said four accident "hot spots" were Shoshone and Kootenai counties in north Idaho, with 11 deaths; Ada and Canyon counties in the western section with 10 deaths; Twin Falls and Cassia in the south-central area with eight; and Blainock, Bingham and Benewah on the Yellowstone highway, with eight deaths.

Foreign Relations Chairman Named

WASHINGTON, July 31.—Senator Conrad (D-Tex.), veteran of two wars who holds that "a vigorous and firm foreign policy is essential to secure respect for our rights abroad and the security of our people at home," was designated chairman of the senate foreign relations committee yesterday.

Senator George (D-Ore.) who became head of the committee after the death of Senator Pittman (D-Nev.) last year, withdrew to become chairman of the finance committee succeeding the late Senator Harrison (D-Miss.).

The Democratic steering committee, which made the nominations, also added Senators Lee (D-Okla.) and Tamm (D-Ind.) to the foreign relations committee to succeed Harrison and former Senator Brynes (D-S.C.) who was appointed to the supreme court.

Miss Venna Hyde Engaged to Wed William Harvey Bingham

Announcement of the betrothal of Miss Venna Hyde, daughter of Mr. and Mrs. J. D. Hyde, of Twin Falls, to William Harvey Bingham, Rupert, son of Mr. and Mrs. Joseph H. Bingham of Rupert, came as a surprise feature of the late afternoon garden party yesterday at the country home of Mr. and Mrs. Hyde. Guests were members of the Relief society of the L. D. S. church, who had previously attended an "Afternoon of Music" program at the church.

Mrs. Hyde had invited Relief society members to come to her home for refreshments, following the musical program, and several of her neighbors had also been invited to call at 3 o'clock. When all the guests were gathered, she made the announcement of her daughter's betrothal.

To Wed at Logan

The couple will be married Tuesday, August 12, at the L. D. S. temple in Logan, and will make their home in Durley, where Mr. Bingham is associated with the paper factory.

The bride-elect is a graduate of Twin Falls high school and for the past two years has been an operator for Mountain States Telephone and Telegraph company.

Mrs. Bingham was graduated from the Nyssa, Ore. high school, and attended the Weber college in Ogden, Utah.

Luncheon served on the lawn at the Hyde home at quarter tables decorated with purple and white summer blossoms.

Afterwards, guests were taken in groups to view the bride-elect's trousseau.

Mrs. Hyde was assisted by her daughter, Miss Venna Hyde, Miss Lavon Hyde, and Miss Elsie Arrington.

The "Afternoon of Music" presented by the First ward Bingham Relief society was directed by Mrs. Myron Smith.

Gem State Club Fetes Members At Canyon Event

Two members of the Gem State club, whose birthday anniversaries were celebrated in July, were honored at the meeting of the organization yesterday afternoon at Shoshone lake. The business meeting was held at 7 o'clock.

Birthday cakes were set in their honor during the picnic luncheon hour, and gifts were presented to them by Mrs. William R. Wolter, club president.

At the afternoon, the women played cards at tables set up in the shade of the trees at the canyon. Other games were also in progress.

Mrs. J. L. Berry will entertain the next business meeting, which will be held at her home September 5.

Mentor Club of Buhl Feted by New President

BUIL, July 31—Mrs. Vesta Shriver, newly elected president of the Mentor club, was hosted at 10 o'clock Thursday morning at the delightful summer breakfast for eight members of the club.

The Shriver home on Broadway was beautifully decorated with baskets of flowers and refreshments.

The one large table and three quarter tables were covered with colorful with flowers and refreshments.

The morning hours following breakfast were spent in a discussion of books by the club members during the coming year.

Mrs. Vernon Post and Mrs. Carl Curtis, members of the club committee, presented a list of books for their selection.

At the close of the convention, all visited friends in Los Angeles and Long Beach, Calif.

Miss Larson will be a soloist at the University of Montana, at Missoula this fall and is a granddaughter of Mrs. G. W. Doyle.

Her parents, Mr. and Mrs. J. W. Larson, were former residents of Buhl.

Two Thousand Guests Expected To Witness 'The Deliverers'

Two thousand people from all parts of southern Idaho are expected to be in attendance when the "Deliverers," is presented in Snake river canyon, at Twin Falls, Friday evening, August 8, at eight o'clock in the evening by a cast of two hundred persons from Blinn, Minidoka and Twin Falls stakes of the L. D. S. church. Representatives of the general board of the church from Salt Lake City will also be in attendance at the pageant, acclaimed by church leaders as an outstanding intrestake undertaking.

Production staff members from Twin Falls visited the stakes participating in the presentation last Wednesday night and witnessed rehearsal of both groups, reporting here yesterday that it would be one of the grandest bits of pageantry ever to be presented in southern Idaho.

The pageant, written by Mrs. Janice Hill of Twin Falls, taken from Biblical and religious history, will be presented in nine episodes. Twin Falls Stake is being directed by Theoren Knittel; Blinn Stake, Mrs. M. H. Allen; Minidoka Stake, Oren Whitaker, assisted by Frank Campbell and Mrs. Mable Weston.

No admission will be charged for the presentation, feature of the annual "Evening Under the Stars" program at Twin Falls in Snake river canyon, and the public is invited.

Guests are expected from all stakes of south Idaho.

C. Vera Yates is production manager and Mrs. Hill is coordinator. Mrs. Yates will be social hostess, and Mrs. Hill will be in charge of the grandstand and traffic will be directed by Cliff Sorenson, in cooperation with state traffic officers. Mel Carter will be in charge of the music.

Edred Traveling price went to Mrs. Anah Iron.

G. D. Johnson won high honors at concrete cleaners and D. Harvey Cook won low.

The world supply of sugar for the 1941 season is estimated at 42,500,000 tons, the largest on record.

Pythian Sisters Honor Husbands

Honoring their husbands and friends, members of the Pythian Sisters Social club entertained at a card party last night at the club home of Mr. and Mrs. Albert Putzer. Six tables were in play during the evening.

Committee in charge included Mrs. H. Mober, Mrs. Angie Iron and Mrs. Beatrice Hinch.

Pinholes and Chinese checkers were the diversions, after which refreshments were served at a late hour by the hostess committee.

High honors at pinholes went to Mrs. Rose Phillips and Albert Putzer, and Mrs. Mober.

Women went to Mr. and Mrs. C. H. Hagerman.

CROP INSURANCE SIGN-UP BEGINS

New Phases of Program Before Meeting of Committeemen

Following a recent meeting of Twin Falls county and community A.A.A. committeemen at which new phases of the 1942 wheat crop insurance program were discussed, committeemen are preparing to present the program to winter wheat producers of the county.

Kenyon Green, committeeman in charge of crop insurance, said last night that the program is being planned today when producers planning to plant wheat may come to the Twin Falls A.A.A. office and sign either a 1942 wheat plan or crop insurance application.

When crop insurance, which was taken out by 11,083 Idaho wheat growers last year on the crop now being harvested, was signed up on the A.A.A. wheat acreage allotment of 1942, the deadline for enrolling is August 30, or before seeding the 1942 crop, whichever is earlier.

The 1942 program contains four changes from the 1941 program. First, it changes the possible premium payments by a deduction of the amount of the farmer's premium from any indemnity he might receive in the event of crop loss.

SPECULATION IN CROPS DEFENDED

Board of Trade Committee Advises Against Regulatory Measures

CHICAGO, July 31 (AP)—A special board of trade committee today reported to J. M. Mehl, chief of the commodity exchange administration, that it saw no immediate danger of "unwarranted" speculation in future prices of surplus agricultural commodities that might require any additional governmental regulatory measures.

The report was a reply to a communication Mehl sent to 18 exchange operators under the commodity exchange act asking them to determine what precautionary steps, if any, needed to be taken to limit "excessive" speculation.

"On the contrary," the committee's statement said, "we visualize a decided danger in placing any further curbs on speculation which will make it increasingly difficult for the farmer to receive a fair price for the produce of his lot."

"With the huge surpluses of agricultural commodities on hand and with prices of labor and merchandise advancing, it appears that the farmer is more apt to receive a price

Notice TO OWNERS OF TODAY'S HIGH COMPRESSION CARS

As your new car piles up mileage, your high compression engine increases in compression. Even inside the first 10,000 miles, tests show, this increase can cause knocking and engine sluggishness. And this can happen to any car on the market today.

The cause of this is carbon—which cakes inside today's compact combustion chambers, reducing their size. You can't avoid such carbon deposits completely, no matter what kind of gasoline or oil you use.

Shell scientists have developed a special type of gasoline—Shell Premium—which will automatically compensate for these carbon-created higher and higher compressions.

This super motor fuel will produce maximum knock-free power in the highest compressions your engine can develop. Because Shell Premium is a special blend of clean-burning gasoline fractions... a patented, scientifically prepared anti-knock compound... and powerful alkylate (similar to that used in 100-octane aviation fuels).

Whether your car is new or old, Shell Premium will give you greater power when you want it... new handling ease in traffic... cooler running. And to top all this, excellent mileage.

Shell Premium costs 2¢ more than "regular." But if you drive the average amount, Shell Premium will cost you only about \$1 a month extra. We recommend Shell Premium for the extra miles of new-car performance it can give you. On sale at Shell Dealers and Shell Stations.

ELECTRICIANS TO END SHIP TIEUP

Pickets Withdrawn From Brooklyn Navy Yard Halting Workout

NEW YORK, July 31 (AP)—Pickets were withdrawn today from the Brooklyn navy yard and officials were advised that 250 striking electricians would return to work tomorrow on a \$700,000 expansion program, delayed since Tuesday by a city-wide walkout.

The executive board of local 3, International Brotherhood of Electrical Workers (I.B.E.W.), ordered the men back to jobs in compliance with a request by the office of production management.

The stoppage on other construction projects throughout the city occasioned by the strike of about 8,000 electrical workers in an effort to induce the Consolidated Edison company to employ 600 members in the construction of a new power house, was continued.

The board's action followed a threat by Harry Van Arsdale and 10 others to resign unless immediate action was taken.

The three had been asked yesterday by Sidney Hillman, CIO director, to renege work in vital defense projects.

"By complying with Mr. Hillman's request, we feel we have given practical proof of this union's willingness to assist at all times in the national defense effort," said Van Arsdale.

"Compliance, in the light of the international situation, is a simple and clear duty."

The union took no immediate action on other defense projects. Van Arsdale explained that the navy was

OFFICIALS CHECK ON CANAL BREAK

Water Shortage Feared at Preston's 3,000 Acre Irrigation Tract

PRESTON, July 31 (AP)—Soll commission service officials, at the behest of Governor Clark, inspected today a break in the main canal of the Albia creek irrigation project eight miles north of Preston that threatened to deprive farmers on a 3,000-acre tract without water in mid-summer.

The break occurred yesterday when a rat had burrowed in a mountain-side softened and washed out for

800 feet, spreading out over a 10-acre tract. Clark, informed of the situation by the Pocatello Chamber of Commerce, appealed to federal authorities for assistance and asked reclamation commissioner E. V. Berg to take steps.

A. W. McCulloch, area engineer for the SCA, Carl O. Kohler, regional SCA engineer, and local officials began inspection of the break.

State officials hope to secure use of labor and equipment from the SCA civilian conservation camp at Denver to repair the canal by building a new fill and placing a pipeline or flume along the top.
