## Congress Hears Immediate Passage of Control Bill Won't Prevent Soaring Costs

WASHINGTON, Aug. 5.—An assertion that a "most pronounced increase in the cost of living" will be enacted immediately was made to congress today by Leon Henderson, head of the office of price administration.

Opening hearings on the measure before the house banking committee, Henderson declared that a backlog of increased wholesale prices had been built up which had not yet been reflected in retail prices but which made it certain that American consumers soon would have to pay more for many commodities.

Butter and Coffee

For instance, he said, the wholesale price of butter had increased 50 per cent since the European war began but its retail price thus far had risen only 30 per cent. Coffee presented a much more glaring discrepancy, he said, having jumped 70 per cent wholesale but only 27 per cent retail.

Declaring that the nation is on the "brink of inflation," Henderson urged passage of the price control bill. He told the committee that the price of many commodities had risen as much as 100 per cent in the past few weeks and that in some cases it was as much as 200 per cent.

"There will be defense road legislation," said Henderson. "Both the end Johnson had hoped to obtain funds for mine-to-market roads under the bill."

The highway program said he and the public works commission selected the four members of Idaho's congressional delegation that "was anticipated with defense highway funds on it, 10, 15 and 20, and was transnational routes."

BOISE, Aug. 5. (AP)—Highways Director S. E. Johnson today wired the federal government, asking for aid in the construction of four bridges over the Snake river on the same or a similar bill as the "Federal Aid in Defending Highway Act," for \$20,000,000 for defense highways.

Rep. W. H. White said that either a modified bill would be introduced or the same measure passed.

"There will be defense road legislation," said White.

## Bill to Authorize Seizure of War Requirements Passes 241-136

WASHINGTON, Aug. 5. (AP)—Legislation authorizing the president to requisition military or naval equipment, supplies, munitions or machinery considered necessary for the war effort, passed the house today and returned to the senate for action on amendments.

Just compensation would have to be paid before any property could be requisitioned, it was provided that the bill was another version of plant seizure authorization, twice before it was rejected by the house when it was included in legislation to defer men of 28 from the draft.

An amendment was adopted providing removal of machinery or equipment from the plant in which it was used in operation and this apparently satisfied a number of critics of the legislation.

Representative Tabor (R-NV) said that the bill was "a plan which was offered, would protect a plant which was engaged in non-defense work—perhaps necessary to the war effort, but which would be shut down to one or two vital machines were taken for defense purposes."

Aside from this change and a number of minor amendments, the measure conformed to similar legislation previously passed by the senate. The senate bill provided that a fee is expected to draft a compromise version.

# Dewey Threatened By Demented Man

PAWLING, N. Y., Aug. 5. (AP)—An incident that threatened the political career of a district attorney, Thomas E. Dewey, was treated by a newspaper today as a short distance from the state capital.

Deputy Sheriff Ed Hall, who investigated, said that he heard a sound like a box or some other object dropping from a car and looked up to see an old man leaning over toward Dewey at a high rate of speed.

He thought no more of the incident until several minutes later he heard some cries for help and went to the highway, where he found Dewey remaining unconscious. Mr. Dewey then called the police and officers were notified.

Mrs. Stockamp said last night that when she saw the car drive up with Dewey leaning over the side and she "knew what had happened." She was then told that "Stu" had been thrown from the car.

# Officers Search for Hit-and-Run Driver

## Speeding Car Strikes Boy Riding Bicycle on Highway West of Twin Falls

Eleven-year-old Stuart Stockamp was able to smile last night at a smoke plant for fixing up his crushed bicycle—but only by the grace of God.

Stuart was hurled from his bicycle and left in a crumpled heap by the roadside last evening by a speeding motorist. Who never slackened his pace to find out whether the boy was killed or to offer his assistance, he fled into the dusk and became the object of a widespread search by officers.

Was "Going Fishing"

The near-tragedy occurred Thursday night at about 10:30 p.m. west of Filer Falls, O. U. 30 as Stuart, who is the son of Mr. and Mrs. H. F. Stockamp, 415 Fifth street, Filer, was riding along the side of the road on his bicycle to go fishing. He was struck from behind by a car he did not see, and which, according to a witness was traveling at a high rate of speed.

Front wheel of the bicycle was torn away by the impact and the lad was hurled into the air, landing on his right temple, left arm and back. Temporarily stunned, he recovered in a few minutes later sufficiently to call for help from where he lay near the roadside. The accident occurred in front of the L. H. Edinger ranch, and Mr. Edinger was working behind some buildings about 100 yards from where the car struck the boy and his bicycle. Mr. Edinger told Deputy Sheriff Ed Hall who investigated, that he heard a sound like a box or some other object dropping from a car and looked up to see an old man leaning over toward Stuart at a high rate of speed.

He thought no more of the incident until several minutes later he heard some cries for help and went to the highway, where he found Stuart remaining unconscious. Mr. Dewey then called the police and officers were notified.

# RAILROAD UNIONS VOTE ON STRIKE

## Carriers Reject Demand for \$900,000 Wage Increase

CHICAGO, Aug. 5. (AP)—Representatives of 19 railroad labor organizations declared today they will not accept a \$900,000 wage increase proposed by the carriers. The vote was taken by 1,200 members after the carriers had rejected their demands for higher wages.

Union spokesmen reported that the ballots would be sent out at once and predicted that the results would be known in a week.

Leaders of the two groups of brotherhoods—the five operating unions and the 14 non-operating unions—stated that they would not ask the national railway mediation board to intervene but added that they would elect the board's services if it elected to step into the dispute.

Earlier in the day, representatives of 123 unions, comprising 801 per cent of the nation's mileage, endorsed the labor leaders that they were opposing the carriers' demands.

Mrs. Stockamp said last night that when she saw the car drive up with Stuart leaning over the side and she "knew what had happened." She was then told that "Stu" had been thrown from the car.

LOS ANGELES, Aug. 5. (AP)—Extent of presidential order restricting limiting oil sales to Japan may be tested in Los Angeles harbor within 10 days, in the case of the 76,000 barrel tanker Nihei Maru, owned by the Nihei Maru anchored in the outer harbor today after spending several days in port.

It was reported unofficially that an oil company had filed a request with the court to sell the Nihei Maru, which was carrying a cargo of low grade diesel oil. The Asano Bussan Co. also was reported to have petitioned the federal reserve bank for permission to withdraw funds to pay for the cargo, port costs and duties for the return trip to Japan.

# Merchants Turn Convention Into Big Buying Jamboree

ST. LOUIS, Aug. 5. (AP)—Retail merchants at a business convention everything they can get their hands on now in anticipation of a shortage of merchandise and higher prices next fall, assembled today to build a jamboree.

This and increased business activity due to the defense boom has them looking for a big buying jamboree.

The American Retailers' association convention. Officials of the association composed a list of 100 smaller cities, described it as the biggest wholesale buying jamboree in years.

Four floors of a downtown hotel have been turned into a big room where more than 400 lines are exhibited. All but a few business executives are expected to give the 500 visiting buyers more time for touring wholesale houses and display rooms.

Most activity was in the women's wear department, with dealers apportioned especially eager to show their new, deep and cotton dresses.

## Roosevelt, Churchill Meet at Sea Rumored

Secrecy Surrounding Executive's Trip Gives Rise to Speculation

WASHINGTON, Aug. 5.—The capital buzzed with rumor and speculation today that President Roosevelt, Prime Minister Winston Churchill of Great Britain, Prime Minister Mackenzie King of Canada, and Henry Hopkins, associate administrator, were about to engage in a momentous conference, possibly in Canada or somewhere on the Atlantic ocean.

The reports that the four would get together to discuss problems arising from the war and American aid to nations battling the axis, looked very substitution whatever, and their origin was dubious. The rumors persisted, however, despite the fact that high officials in the British government and American officials disclaimed any knowledge of such a meeting.

The reports apparently sprang chiefly from the usual secrecy surrounding President Roosevelt's movements. The fact that the British prime minister was in London, and that the American president was in Washington, was known to all. It was also known that the British prime minister would go to the United States.

FILER, Aug. 5.—With the 20th annual ram sale of the Idaho Wool Growers' association to open at the Grandview here Wednesday, the Filer Kiwanis club tonight entertained for about 100 buyers and sellers at a banquet at the Filer Hotel.

The big sale for which a promising representation of animals is on hand, will open at 9:30 a.m. Wednesday, and the day will be climaxed by the annual banquet which will be held at the Filer Hotel in Filer Falls.

Official Speaker

Fred R. Marshall, Salt Lake City, secretary of the National Wool Growers' association, was principal speaker, and he spoke upon "Wool and the War." In this address he pointed out that wool is a valuable commodity and that the war has increased the demand for it. He also pointed out that the wool industry is a major industry in the United States and that it is one of the most important industries in the world.

# SENATE DEBATES DRAFT EXTENSION

## Barkey Predicts Approval of 18 Months Additional Duty in Army

WASHINGTON, Aug. 5. (AP)—With a majority of the senate apparently favoring an extension of service for all men now in army uniforms, a dispute developed late today as to whether this additional duty should be 12 or 18 months.

Both majority leader Barkey (D-Ill.) and Senator Thomas (D-Texas) told an attentive senate, crowded with gallery visitors, that they expected the president to keep the men in service 18 months after discharge, one year of training.

Earlier the administration forces had been the attempt of Senator Taft (R-Ohio) to limit the additional service for drafted men to six months.

Make Supreme Effort

This suggested the development of a grandiose maneuver for the evacuation of the invasion, if not too, it supported earlier indications that the Germans were preparing to make a desperate effort ever cost to conquer the Ukraine before the approach of bad weather.

As to the Russian front, news of the surprising defection of the central German thrust came in the claim of the Nazi command that its forces had made a widening breakthrough in the Ukraine, and that they had taken the city of Smolensk, the heart of the Soviet center, and in the process had broken through the German lines.

In this area, it was said of Berlin, the apparent assignment of the Nazis to make a breakthrough in the Ukraine, was reported in Moscow. In the north it was claimed that the Germans had taken the city of Rostov, which lies 250 miles north of Moscow. Likewise had been reported.

The Soviet command in its continuing for yesterday did not mention Rostov, although it previously had acknowledged fighting in that area.

It was also reported that the German command had broken through the German lines in the Ukraine, and that they had taken the city of Smolensk, the heart of the Soviet center, and in the process had broken through the German lines.

YUMA, Ariz., Aug. 5. (AP)—The Devil's Highway across Sonora, Mexico, desert added seven more victims to the list of victims today.

Two survivors of the ordeal were brought to a hospital here. The other five were dead.

An itinerant peddler, Francisco Garcia, came upon the road which Mexican authorities advise no one should travel without extra water, food and fuel.

Newman said Mexican officers searched the party for three or four days, without food or water.

Two were identified as German. One was identified as a Russian. The other five were identified as Americans.

### U.S. WARSHIPS VISIT AUSTRALIA

#### Appearance of Cruisers Seen as Grim Warning to Japan

WASHINGTON, Aug. 5 (AP)—Perhaps to emphasize upon Japan the seriousness of American opposition to the Japanese drive in the Pacific, two American heavy cruisers appeared unexpectedly today in Australian waters.

The navy called it a "training cruise" since that is the diplomatic understanding developed no one.

Far away in the Atlantic, meanwhile, President Roosevelt was conferring with Admiral Ernest J. King, commander of the Atlantic fleet on board the presidential yacht.

The navy department here received a message from the yacht telling of the meeting.

To the south of their watery meeting place, the coast guard cutter Carabottan encountered a disabled British merchant ship early in the day and took her in tow for Lynnhaven inlet. Her ultimate destination is New York.

While reports were received that Great Britain also was strengthening its naval forces in the Pacific.

Consequently these developments had the appearance of parallel American moves to discourage Japan in its expected drive southward and westward from southern waters.

The arrival of the two cruisers at Brisbane, Australia, was announced by the department here.

### ACTION AWAITS MAN'S RECOVERY

#### Surgery Foreseen for Murder-Charged Man at Rupert

RUPERT, Aug. 4.—Status quo marked the case here today of Carroll Williams, 26, charged with the murder of Dale Hanson, 26, near Paul early Sunday morning.

Mrs. Hanson, who sustained a broken arm when asked by Fincham to get into the car and killed her husband as he lay in bed, was today removed from the Rupert hospital to the home of a friend near Paul. Fincham, suffering from two self-inflicted bullet wounds in his chest, is still in the hospital and is termed as "far from being out of danger."

Fincham is being viewed as probably a removing law suit since he fired into his body after shooting Hanson and injuring Mrs. Hanson.

Deputy Sheriff Clyde Crank said tonight that further action in the case would await Fincham's recovery. The investigator emphasized that Fincham is not a violent man.

#### Nampa Convention Censures Farm Organization Leaders

NAMPA, Aug. 4 (AP)—Feeling bitter about the Idaho state Grange and the state federation of labor waded today when the federation, in a resolution censuring state Grange leaders, met at a convention here.

The convention condemned what it declared was action of the two in the 1941 legislature against "our" organization and legislation.

"Since those two men are representatives of the Farmers Automobile-Insurance exchange we were invited to carry out insurance as long as these men are connected with the organization," the resolution read.

The decision was one of several in a resolution of resolutions. Other resolutions are to be considered tomorrow.

It behooves members of organized labor to ever keep in mind that the AFL is behind the president's program 100 per cent and every union member must ask himself if he has done it.

# Juliet on a New Kind of Balcony: Here's Dairy Palace Preview

A distinct contribution to this year's Twin Falls county fair is this new dairy demonstration building and its elaborate equipment upon which the curtain will be raised soon for a series of educational presentations. Before grange, civic and service group meetings in the spacious building shown at left,

16 cows from southern Idaho dairy herds will be milked by the latest in pressure equipment which automatically draws, weighs and cooks milk that will then be served to diners. At center appears a dispenser which maintains the pressure and allows the milk to enter a cooling system, and this dispenser

hangs high above the milking scene. Pointing to it here is Frank Southwick, herdman. At the right, Juliet of Thousand Springs, a Guernsey, is shown in the milking station on the platform overlooking the floor space in the building, and Tom Parks, secretary-manager of the Twin Falls county fair

is looking on while the automatic equipment does the work. Initial meeting in the series of 24 gatherings will come next Thursday, August 12, when the Panama Grange, fair board and county commissioners, with their families will meet for a demonstration. (News Photos and Engraving.)

## DWORSHAK DEALS BLOW FOR DAIRY

### Idahoan Charges Federal Agricultural Department Discrimination

WASHINGTON, Aug. 5 (AP)—Representative Dworshak (R-Idaho) charges the agriculture department with doing "inequitable harm" to the nation's dairy industry and trying to decrease consumption of dairy products by "stimulating use of substitutes like oleomargarine."

"The agriculture department sponsored a radio slot over a nation wide hookup designed to convince consumers that margarine was of value similar to butter and that it is not as expensive," Dworshak said in a statement. "Such activities of the department of agriculture is difficult to reconcile, because the prosperity of millions of farmers is dependent upon dairying, and there is no shortage of butter at this time. This is distressing, in view of the fact that the dairy industry has been and is being attacked in the prospectively being accentuated by the federal government."

"The representative said that the federal investigation of the surplus marketing administration had purchased 1,200,000 pounds of oleomargarine for shipment to Great Britain but that officials insisted the British had made a request for it. He said it also was reported butter had been taken off the blue stamp plan because the blue stamp plan had raised the price of butter is high and there is not a surplus."

"The representative said that according to department statistics there were 120,278,000 pounds of butter storage in this country on July 1, 1941 of which 626,000 were owned by the federal agencies. He said this compared to 81,000,000 pounds of which the government owned 2,533,000 pounds on July 1, 1940.

"Obviously there is little justification for discouraging the use of butter," Dworshak said, "and the department of agriculture is doing considerable harm to dairying and those engaged in the industry by encouraging the use of substitutes."

The Idahoan said that he had received many letters from his state recently protesting against federal agencies developing so much use in promoting the use of oleomargarine. He said the retail grocer association recently adopted a resolution in respect of the federal license tax on dealers in oleomargarine.

"I do not believe," he continued, "the house agriculture committee will give any consideration to this proposal at the present time."

## WHEAT, COTTON FREEZE OKED

Congress Group for Withholding Loan Stocks From Market

WASHINGTON, Aug. 5 (AP)—Senators Smith (D-Id.) and Bankhead (D-Ala.) reported unanimous agreement today by a senate-house conference committee on legislation that would freeze government loan stocks of cotton and wheat during the present war.

The conference report now must be acted upon by the house and senate. Senators said the measure was intended to improve prices and would prevent the government from marketing stocks of cotton and wheat, acquired under price-supporting plans, in competition with new crops.

Senator Bankhead said there are now about 6,000,000 bales of cotton under loan and about 170,000,000 bushels of wheat and that title to most of these stocks are held by the government.

The senators said another senate amendment, offered by Senator Lee (D-Okl.), had been modified by the

# MADE UP TO KILL

Chapter One  
OPENING NIGHT

I pushed the elevator bell and its feeble ping-pong sound floated in the air. A minute later the door opened and a young man, grinning at me as he held open the door.

"Evenin', Miss Rogers."

"Good evening," I said. "Tonight the big night."

"Gonna roll 'em in the aisles?"

"Sure."

"Hang out the old E. R. O. sign?"

"You bet," began to wish that I hadn't passed a mill of copies of "Eve" on my line.

"Where's Miss Blanton?"

"I don't know," I said, "and incidentally how's chance for a ride down?"

"You was popped now like two bright marbles. You mean she ain't gonna play tonight?"

"No," I said.

"Good luck!" he yelled.

In a sort of daze, I glanced at the lobby floor she stood respectfully with her hands clasped in front of her.

"Good luck!" he yelled.

There was a pause, then Tommy boomed, "What in hell are you talking about?"

"It's her voice; it's gone, we've done everything we can and it hasn't helped. She just can't play."

"I'm sorry," I said, "but she can't play."

"Tommy, I tell you she can't! She can't speak above a whisper and not a very pretty whisper either."

# Shift Seen in Nazi Objectives With Power Thrust in Ukraine

By KIRKE L. SIMPSON  
Interpreting the War News

Another German panzer spearhead has stabbed deep into Russian defenses midway between the main Leningrad and Moscow battle fronts; but it is southeast of Kiev that the most ominous threat to Red armies still is discernible.

Berlin advices say the Nazis have overrun 43 Russian defensive "bunkers" or field fortifications in that area. Presumably this refers to the fighting in the region of Bialaya Zerkva, 50 miles or so south of Kiev.

It is not, of course, the capture of the southern Ukraine that is the key to the German plan; it is the capture of the Ukraine that is the key to the German plan.

It is in the Ukraine, however, that the most important Russian industrial centers in the west lie.

Except for the fact that capture of Leningrad might open a route via the Baltic for a sea-borne flank attack on Moscow, there has seemed no great strategic objective involved in that front. Leningrad itself was abandoned as Russia's capital because it was too exposed.

CHICAGO, Aug. 5 (AP)—Vern Olsen and Bill Nicholson pulled the Chicago Cubs out of a five-game losing streak today, dropping a 6-3 to 2 triumph over the league-leading Cardinals.

Olsen's brilliant four-hit moulted the Cards, who had won four straight games. The defeat marked the end of the Cards' margin over the second-place Brooklyn Dodgers, who were tied today.

Olson pitched for six innings and gave up four runs, but in the fifth the Cubs were ahead 4-3. Olsen struck out three batters in the fifth and sixth, but in the seventh he walked three batters and hit a home run to tie the game. Olsen struck out two batters in the eighth and ninth, but the Cubs scored a run in each of those innings. Olsen's shutout was the only one of the season.

### Upwards of 25,000 Gather to Watch Nine Picked Trotters Race in Sixteenth Hambletonian

By ORLO ROBERTSON  
COBURN, N. Y., Aug. 5 (AP)—The Hambletonian time again and this year upwards of 25,000 will pour into the village Wednesday to watch nine picked three-year-old trotters battle over Good Time park's triangular course in the 16th "Corn-Tassel" derby.

The lineup for the \$38,729 race was completed this morning when the owners and trainers of the five colts and four fillies posted the starting line.

Although Bill Gallon has won only one of his five heats in two races this season, the son of Sandy Finlay from B. H. Johnston's Charitable stable, figures to go forward the 3 to 2 favorite to take the winner's share of the purse, amounting to \$20,250. Lanier, justified of the top two-year-olds in 1940 in carrying up a record of 3:04. This year he has bowed only to older horses in a handicap event and to Volstead, a three-year-old not eligible for the Hambletonian.

Peppetal, winner of the Manton, is expected to be a strong contender this season, might have pushed Bill Gallon for honors in the probable odds book had he not been taken ill after winning the Historic last Friday at the nearby half-mile track.

Runner-up honors in prize category go to 3 to 1, to Bill Finlay's Lils Excellency, a Brooklyn owned colt, who never has won a heat in his three starts. He was picked by Bill Gallon in the 1940 Juvenile stakes and this season has been bidding for the big money almost every time.

## Reds Open Invasion With Double-Header

### Hultz Enters Cowboys, Russets Aiming to Trip Big Shots

By THE ASSOCIATED PRESS  
Expecting that the north's supremacy over the south in all-star competition will also hold good in regular Pioneer league play, the Cowboys tonight open a four-game series with the Reds at three places, including the first and last place clubs putting on a double feature starting at 7 o'clock.

The Cowboys, who provide the victorious northerners with the pitching, hitting power and defensive field, are chiefly responsible for the downfall of the southern outfit piloted by Odean Manager Fred McGarry, who will have a new performer at first base, Manager Andy Harrington announced yesterday.

Odean goes to Twin Falls for 370 hits from Manhattan, Kansas, of the Ben Johnson league. Hultz has been working out with the Twin Falls club.

Louk Anderson or Gerald Bohlen will act as pitching assistant in the seven-inning opening tonight. The Reds' pitching staff for the game will be Fred McGarry, who found for the Cowboys in the night-cap.

The series, originally scheduled at Ogden, was switched to the local park at the request of the Reds' management. Inlet of play will here Aug. 12, 11 and 15 the Cowboys will meet the McGarrymen in the Utah city.

The Bears are in line to wait for the Cubs who only a short time ago took all of a four-game series from the 100 champions, thus completing a good deal closer to the third-place Bears than the Bears are to second-place Pirates.

## Golf Champ Lists Top Contenders

By A. P. MAHAN, JR.  
MONTGOMERY, Ala., Aug. 5 (AP)—Dick Chapman tells you who is very likely to remain the U. S. amateur golf crown from the Chapman brow this year—then he tells you about the Chapman game and how to play it.

Dick Chapman lists the U. S. amateur's list of probable contenders as "Dick Chapman but the 30-year-old, duck-back lankiness gutter concedes 'my game is more consistent, straighter and a lot less work' than his was a year ago. And a year ago it was good enough to produce one of the most top-tipped of U. S. amateur title victories when he trounced Duff McCullough of Philadelphia and 9 over the Chapman home course at Montgomery, N. Y."

He'll say it on the line, too, that he'll be in as good or better physical condition than any of the competitors when the championship first begins Aug. 25 at Omaha, Neb., and Saturday afternoons, after 6:30 p.m., and on Sundays, from 9:30 a.m. to 6:30 p.m. He's busy as assistant athletic director at the stadium air corps training center at Maxwell field here.

He expects one of these may be the next champion: Bud Ward, was.

## Senior Chamber and Jaycees Act To Boost Baseball Attendance

An organized effort to support baseball in Twin Falls with a campaign to boost attendance during the remainder of the season was underway today following a meeting of the businessmen-concerned of the cowboy club and chamber of commerce officials.

Declaring they had not heard of a discussion among Pioneer league directors of a proposal to remove the franchise to Provo as reported Tuesday in an Ogden newspaper, Frank Magee, president of the club, and Carl Anderson, business manager, said that if a campaign to get out the fans to greater numbers is successful, the local baseball organization not only will complete the season but will lay plans to field a stronger team next year.

We have been going into the red, but I believe that our losses can be reduced sufficiently to assure continuation of organized baseball here providing the people of this district respond to the appeal of the senior and junior chambers of commerce for increased attendance at all home games," Anderson said.

Harry Black, president of the senior chamber, appointed John Gardner, Hal Wood and John Gorton to work with a committee from the Jaycees on plans for a baseball publicity campaign to be launched immediately.

**LOS ANGELES, Aug. 5 (AP)—**Howard H. Jones, well-known University of Southern California football coach who died July 27 at 55, left an estate listing real estate valued in excess of \$100 and personal property at more than \$55,000 in yielding a \$600 yearly dividend.

A son, Clarke Howard Jones, 24, was bequeathed \$141 with the explanation that he already had been provided for in a \$25,000 insurance policy, which will fillet for probate this fall.

The residue of the estate, including a \$40,000 insurance policy, was bequeathed to a daughter, Carolyn Jones, 14.

No provision was made for Jones' widow, Mrs. Jane Dean Jones, reported ill in a New Orleans hospital, but the will provided that she was disposing of only his share of community property of husband and wife.

## Dick Chapman Pleased With Own Game Despite Limited Practice

By THE ASSOCIATED PRESS  
Expecting that the north's supremacy over the south in all-star competition will also hold good in regular Pioneer league play, the Cowboys tonight open a four-game series with the Reds at three places, including the first and last place clubs putting on a double feature starting at 7 o'clock.

The Bears are in line to wait for the Cubs who only a short time ago took all of a four-game series from the 100 champions, thus completing a good deal closer to the third-place Bears than the Bears are to second-place Pirates.

Maestro Praises Idaho Scenery After Boat Trip

It was all very unexpected, but the occasion was termed a "big success" last night. Roy Noble, internationally famous orchestra director, while on route from a Twin Falls engagement, was passing Wing's landing on the Snake river near Buhl yesterday afternoon. Attended by the scenery, he stopped with his party of three, and they met Harold R. Harvey, Buhl sportsman.

One thing led to another, and, as Noble sought an opportunity to take color motion pictures, he and the threesome were soon in the Harvey boat traveling to the Snake river trip, including those of the Bicket group, Banbury and others in the Canyon of Ten Thousand Springs.

In the process, Noble became a full-fledged member of the Canyon of Ten Thousand Springs association, and paid his dues, commenting that he did not realize that Idaho had anything like this, and he termed the springs as "magnificent."

At the trip lasted from 4:30 to 5:30 p. m. and Maestro Noble was to have played at Boise that same evening, dancers of the capital city may have had to delay their rug cutting slightly until the river traveler appeared.

The United States normally imports 175,000 singing canaries a year.

KIWANIANS NAME DISTRICT HEADS

Wilbur S. Hill of Twin Falls Third Division Lieutenant Governor

PROVO, Utah, Aug. 5 (AP)—Willard S. Owen, Pocatello public accountant, was chosen district governor of the Utah-Idaho Kiwanis International at concluding sessions of the district convention tonight.

Wilbur S. Hill of Twin Falls, was elected lieutenant governor of the district convention tonight. Other officers are John E. Booth, Spanish Fork, Utah, first division; Vernon O. Howler, Salt Lake City, second; and Larry Brainard, Payette, Idaho, fourth.

All officers were elected unanimously, and will be installed at the midwinter convention. They will assume duties Jan. 1, 1942, when an secretary-treasurer will be appointed for the coming year.

Awards were made at the closing session by Hugh M. Caldwell of Caldwell, Idaho, past district president. Caldwell received the silver division award for membership activities.

Duplicate awards were given Mrs. Eileen Hopper of Boise and Mrs. Sterling M. Franklark of Provo for their work in arranging the fellowship luncheon.

Leading speakers during the day were J. Hudson Huffard, international trustee of Kiwanis, Buhl, Ky., and Robert J. Watt, international representative of the American Federation of Labor.

Jennings Service Set at Graveside

BUHL, Aug. 5.—Funeral services for Dr. George Jennings, 64, who died last Monday morning at a Twin Falls hotel, will be held at 7:30 p. m. Wednesday at the graveside in the Buhl cemetery.

The family has requested that no flowers be sent. William Jennings of Tropic, Kan., eldest brother of Dr. Jennings, will officiate Wednesday morning for the services.

Weather

IDAHO: Partly cloudy with normal temperatures Wednesday and Thursday. Light showers, thunderstorms scattered portion Wednesday.

High temperature here Tuesday 69 degrees, low 59; bar. Barometer 30.2 at 8 p. m. Humidity 24 to 23 per cent of saturation.

(By The Associated Press) Most air covers a region from Arizona and New Mexico northward into Montana. As a result of this moist air thunderstorms and showers occurred Tuesday at scattered points. Stations in Idaho, Oregon and Washington reported no rain.

Maximum temperatures were a few degrees lower than Monday's readings in Utah, but continued their gradual upward trend in the Pacific Northwest and generally showed little change elsewhere in the western states.

Southerly winds continue to carry moisture northward through Utah. Indicating that there will be a continuation of scattered thunderstorms Wednesday and Thursday. Temperatures will generally continue high.

Power Stressed in Reclamation

BOISE, Aug. 5 (AP)—Reclamation developments that are capable of producing electric power will be carried on during the national defense drive. Those that provide irrigation alone will be postponed.

Those two predictions were left with southern Idaho irrigation leaders today by F. O. Hagie of Washington, executive secretary of the national reclamation association.

Hagie addressed a meeting last night at the Twin Falls completion L. White (D-Idaho) spoke briefly.

SALES TOPIC FOR JAVCEE SESSION

Importance of 'Right Approach' Stressed by Speaker

After a brief business session yesterday, Twin Falls Junior Chamber of Commerce members listened to a stimulating address upon "Salesmanship" by Robert Elliott, Boise, sales manager of the Stawbuck company.

The luncheon meeting at the Park hotel brought a vote of confidence to the committee which is sponsoring the current effort to raise additional funds to build a new addition to the shelter project on Magic mountain, and this carried the sentiment that the Javcees will "see the plan" through to its completion.

In all fields. Managing humor with serious discussion, Mr. Elliott told the group "It doesn't make any difference what work of life you're doing, salesmanship in some form every day of your life. Continuing, even if it's selling a kilo to a pretty girl. The speaker defined salesmanship as 'The art of creating an irresistible desire in someone to buy what you have to sell,' and he then pointed out that this is created by five definite steps.

First of these is to inspire confidence through knowledge of 'that which you are selling, sincerely and enthusiastically of a cultured type, and this should not be mistaken for mere flattery.'

Written Word. Second, the good salesman must have the undivided attention of the person with whom he is dealing, and one of the best methods of doing this is by utilizing vision, as well as hearing, since people remember only one-fifth of what they hear, four-fifths of what they see. As example, Mr. Ballou defined listeners to records that were spoken during their early school days, although they can remember many 'scenes' which they see. He also pointed to the old Chinese proverb that 'One picture is worth 10,000 words.'

Next step is to create interest, and this is followed by showing how the article or other value to be sold will add to the happiness of the person considering it, or in other words, how it will contribute to his welfare.

Final phase of salesmanship is to bring action through promising in a subtle manner, the speaker told the group.

Picnic Set for City Employees

First annual city employees' picnic will be held Sunday, Aug. 24, and arrangements are in charge of Councilman O. H. Coleman, according to Mayor Joe Koehler.

This picnic, which is expected to attract about 400 persons, will feature athletic events and games in which prizes will be offered. Plans are in charge of a committee which consists of Councilman Carl E. Hickey and Truman Greenhalgh; Municipal Judge J. O. Pumphrey; Charles F. Layton, city street superintendent; Mrs. Dorothy Reynolds and A. J. Becker, and this group will arrange details, including selection of a site for picnic, which will be either Shoshone falls park or Harmon park.

Prizes for athletic contests will be offered by Mayor and Mrs. Koehler.

Shift Comes in Selectee Group

Shift in personnel of the next draft call from Twin Falls area No. 1 was announced last night by officials here.

Although Ernest R. Ricketts, Oberlin, Kan., was originally announced as a transfer to Kansas, Prof. Leo Shobe, Hartsen, has been named in his place, and he will leave with five other youths on Aug. 18.

Also announced is that two draftees who left here last Sunday have been rejected at the Post Douglas induction center in Utah because of physical defects. Replacements will be sent out in subsequent calls.
