

OPPOSITION OF DRAFT SPREAD TRAP PROGRAM

Polis Indicate Close Vote In House to Hold Drafted Men In Service Indefinitely; Compromise Talked

(By The Associated Press) WASHINGTON, Aug. 9.—House Republicans drafted amendments by the dozen today to modify administration legislation which would keep the army rank and file in service indefinitely, a bill, many believe, privately of compromise.

Polis taken by leaders of both parties today to discuss the question of unlimited extension of service would be so that a few members, now an committee, could turn the outcome either way. But, at the same time, the bill was indicated to be months continuation — already approved by the senate — might win a house majority.

New York Holds Key The fate of the bill probably will be determined by the votes of their large bloc from New York City, as President Roosevelt sought to influence a group of 30 or 40 "doubtful" Democrats. Replication moves in the senate, the military committee arranged a conference to discuss strategy.

Representative Short (R-Mo.), one of the floor leaders of the opposition to the legislation, said the minority would make their principal fight for these two amendments. To make the continuation of the service beyond the present 12-month period apply only to national guard units which are called into active service, the selectees to be discharged at the end of their year of training.

To eliminate a preamble declaration which says "the national service is imperilled." We do not feel that congress should at this time continue selectees in our army beyond their 12-month period of training and service, but we do feel that it is longer than that would be required to meet the needs of the war, and we are now studying a bill to extend the life of the selectees.

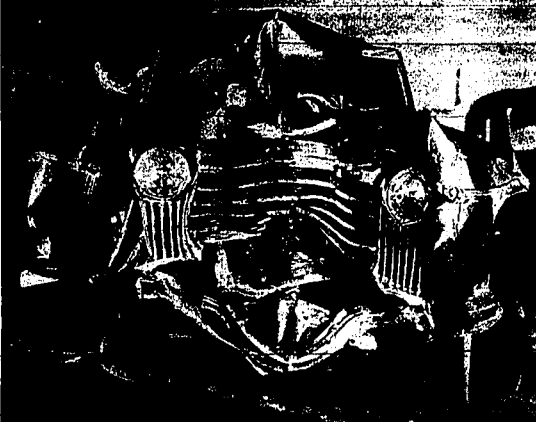

Rep. Fish (N.Y.), who said amendments which would permit the release of all married soldiers, including those in the army, would be a compromise — similar to the "Hill" compromise on that point.

BOISE BIDS FOR TRAINING CAMP

Bogus Basin Recreation Center Considered for Ski Troops

BOISE, Aug. 9 (AP)—Ninth corps area army chiefs are considering training ski and snowtroop troops in Bogus basin, mountain-rimmed recreational center being developed 17 miles northwest of Boise.

Harry L. Yost, chairman of a committee of commerce promoting the area as a ski resort, said he had referred the proposal

to army officials and considered the prospects for receiving federal assistance in developing the basin.

Were the section utilized by the army it would be the second within Idaho. A camp for training 20,000 men is to be established in the Henry's lake section where congress appropriates the funds.

"Bogus basin is 7,200 feet high and skiing is possible from early fall until mid-May," Yost declared. He pointed to its proximity to the new 2,500-man air base here.

Governor Clark added his endorsement to the proposal, saying he felt the basin an "ideal place to train ski troops."

OUR "HOSPITALITY GIRL"

The News and Times, in co-operation with the Twin Falls Chamber of Commerce, will start an experiment tomorrow, designed to acquaint tourists with the many scenic attractions abounding in this vicinity.

To be known as the "Hospitality Girl," Helvet Duvall Denton, an attractive young woman well known in Twin Falls, will take up her duties of catering to tourists during the remainder of the summer travel season.

Trimmly attired in a specially designed uniform, the News and Times Hospitality Girl will make a series of appearances at various points for the next three or four weeks, visiting with tourists and directing them to our many points of interest.

Some idea of the persistency of the costs of employment may be gained from noting that congress, enacted in 1937, a law which provided for a "time-out" of a day or so to approximately \$2,000 to reimburse the state of Vermont for expenditures for the persistence of Vermonters, too, for probably anybody else would have become discouraged after the first year.

Hostess Trio Arranges Surprise For Two Brides at Painter Home

Mrs. Lyle A. Frazier and Mrs. M. F. Smith were two thoroughly surprised honorees last Friday evening when Mrs. Roy Palmer and Mrs. Guy H. Shuler and Mrs. E. F. Stettler entertained at the Painter home, 1015 Shoshone street north, for wives of officers and employees of the Federal bank of Twin Falls and Flier, recent brides, they enjoyed the entire evening. Mrs. Frazier will put out the knowledge that the party was in their honor.

The occasion came after the retirement period, when they were blindfolded and led upstairs — as each of a long lace-covered table where fifteen-minute shower girls were prepped for each of them.

Mrs. Frazier was Miss Dorothy Coulson before her marriage this summer, and Mrs. Smith was formerly Miss Margaret Brown.

Guests during the evening were arranged in the attractive recreation rooms of the business center at home, which was decorated with a profusion of garden flowers for the occasion.

Part of the twenty guests enjoyed bridge during the evening while others entertained themselves with popular recreation room activity.

Following the game, two all-star teams were awarded with Mrs. W. A. Ostrander and Mrs. Harold Robinson of "The girls" and refreshments were served.

The "blindfold" game was the final event of the evening.

Picnic Planned During V.F.W. Auxiliary Meet

Council Fire at Camp Nissaki Ends Program

Older girls at Camp Nissaki, at the Presbyterian assembly grounds above Ketchikan, will leave today for their homes throughout southern Idaho after participating in a week's program at the camp site. Young Camp Fire Girls had their week's preceding seven days, and now summer camp will soon be a memory for all who attended.

Miss Ruth Schellberg, who has served as camp director for the two-week period, will go directly from camp today to Spokane and will visit Camp Swopeyakin, at Lake Coeur d'Alene.

Mrs. W. A. Van Dusen and Mrs. P. C. Sheenberger, Twin Falls girls, went to camp yesterday afternoon to attend the council fire.

ceremonies last night. Church services this morning will conclude activities.

Last Thursday, mountain climbing and hiking was the schedule with girls leaving in groups early in the morning and staying out until late afternoon when they put finishing touches on stunts prepared on their hiking trips, and presented the stunts around the camp fire that night.

Two of the girls, Lena Rose Palmer and Ruthann Hayes of Twin Falls, with counselors, Miss Margaret Van Encheer and Miss Schellberg, made a more difficult trip, climbing Mount Boulder.

Not tired by their hiking activities of Thursday, eight girls, accompanied by Miss Marie Kessinger and Miss Margaret Young, counselors, climbed Green mountain before breakfast last Friday, returning to camp for breakfast with the other girls.

Pirates Move Up Notch in National League Race

Frisch's Team Beats Cardinals in 13 Innings

Bucs Capture Thriller by 5-4 Score

NATIONAL LEAGUE
Boston 5, Brooklyn 4 (10 innings)
Philadelphia 1, Chicago 2 (10 innings)
New York 1, Philadelphia 0.

ST. LOUIS, Aug. 9 (AP)—Frank Frisch's red-hot Philadelphia Pirates are really taking this pennant drive business seriously. Already winning striking distance of Brooklyn and St. Louis, they moved up another notch today by taking a 5-4 decision from the Cardinals in a thrilling contest that went 13 innings after it appeared they were going to be held to a tie.

Max Butcher, Pittsburgh's starting pitcher, was effective in the ninth and held a 4-1 lead until the eighth inning when the Cardinals began throwing reserves into the battle and tied the score.

Eddie Lasko, substitute shortstop, after turning in several spectacular plays, finished a grand slam off the bat of Spud Davis with the bases loaded in the ninth, but was not allowing Art Vaughan to cross the plate with the winning run.

Bob Kline, one of Philadelphia's pitchers, did another brilliant bit of relief pitching to get credit for a 10th victory in the role during the Pirates' spectacular day. It was Philadelphia's 19th triumph in the last 25 games.

Russet Player's Suspension Ends

Governor Sends Telegram to Bramham; \$50 Fines Stand
IDAHO FALLS, Idaho, Aug. 9 (AP)—Idaho baseball fans wouldn't be at all surprised if Secretary Bill Woodard had asked to settle a Pioneer league row. The momentous question already has reached Idaho's Governor Chas. A. Clark, and it's traveling to higher quarters daily.

Woodard filed the pair a total of \$22.50, then resigned.

Idaho Falls fans protested to everybody in sight, and some who weren't, including Clark, who rejected an appeal from the Idaho Falls city council.

Asked how he had liked Hollywood Billy Woodard avoided the

superlatives and gave out with a laconic: "He's okay."

With Billy was his bride, the former-starry Tommie Smith, daughter of James J. Smith, ex-big league ball player. Smith once threatened to "punch" Billy if he married Mary Leslie.

Bill said he didn't know where he would meet his father-in-law, adding that he thought Smith was in Ocean City.

Sports Trail

BY WHITNEY MARTIN
NEW YORK, Aug. 9 (AP)—The just in our two-bills' worth of worrisome news today was the fact that the Yankees drew from the Yankees next year.

Di Maggio's 1941 salary is strictly a personal matter between Di Maggio and Ed Barrow, so it's only natural that several million fans should have no say in the matter.

It is being reported that Di Maggio will ask for \$60,000 for his 1942 efforts, and based on his value at the end of this year he probably is worth it.

It's impossible to say whether or not the Yankees will draw 200,000 extra customers around the league, and on any one of several days at the Yankee stadium has paid his 1941 salary.

What he will be worth next year is another matter.

RULES MODIFIED FOR SHACK SALE

Demolition Requirement Abrogated for Grain Storage

Purchasers of newly two acre squares to be removed from Twin Falls housing authority. The squares are not required to tear down these buildings before removing them. They are to be used for storage of grain.

Word to this effect came to A. B. Wilson, Twin Falls engineer, in a telegram last evening from Senator D. Walsh Clark, the authority's sponsor, as confirmed by Dale Wacker, local housing authority manager.

Previously housing authority officials had advised the shacks would have to be torn down before the use to which they were to be put.

S. S. Kimes, Twin Falls contractor, who is building the buildings, Monday and who is to construct local demolition of the site, said that he had been told by the housing authority that the buildings should be removed. Senator Clark's message last evening quieted a letter from Leon H. Reynolds, director of the housing authority.

The Twin Falls Housing Authority decided to amend the contract. It is now a requirement that all buildings on the site of the project should be removed. The Twin Falls Housing Authority will now offer all buildings on the site of the project which are sold and are not to be released outside the limits must be demolished on the site.

1,813 SHIPS SUNK IN SEA WARFARE

Survey Indicates Loss of 14,859 Persons in 100 Weeks

NEW YORK, Aug. 9.—An Associated Press report stated that at least 1,813 ships of all nations had been lost and 14,859 persons killed in the last 100 weeks.

From the sinking of the 13,581-ton liner Athenia on Sept. 3, 1939, the first day that British merchant ships were attacked, to the newly reported torpedoing of the 3,576-ton Greek freighter Skopelos, a known total of 682,004 tons of merchant and naval shipping has been sunk or scuttled. This represents an average of two ships and 21 lives lost each day. The tragic toll also includes the listing of 827 vessels of merchant tonnage in a day—most of whom must be given up as dead.

The bitter struggle has cost Britain 818 vessels, far more than any other nation, the completion reported.

Two American ships have gone down since the beginning of the war at sea. The freighter City of Haville which struck a mine off Australia last November with the loss of one crew member and a submarine rescuer. The freighter Robin Moore, sunk by submarine last May on a voyage to Cape Town. No deaths occurred in the latter sinking.

LABOR CALLS FOR HIGH PRODUCTION

Federation Asks Roosevelt for Post-War Program—to Meet Shock

CHICAGO, Aug. 9.—The American Federation of Labor, forecasting the possibility of widespread unemployment after the defense emergency has passed, President Roosevelt today sought to take the leadership of a movement to maintain peacetime production at high levels.

A statement issued from the annual summer meeting of the federation's executive council in Chicago, the opinion that industrial production "can not only be maintained at its present high level after the defense emergency but can and should be expanded."

"This will require creative planning and the sincere cooperation of government, industry, labor and agriculture," the statement declared.

The first step must be to set up a planning agency in which representatives of these branches of our economic system will be fully represented. This body should proceed to set up a program by which American resources could be teamed with peace production with time comes.

Commenting on the proposal, William Green, the federation's president, said that the end of the war would cause many American industries which are now producing will shut down overnight. "We must not let too long to make our preparations to meet this shock," he said. "I believe we have worked too long as it is."

The executive council's statement expressed confidence that dozens of new industries could be developed in the United States.

HITLER'S CLAIMS RAISE QUESTION

Defensive Propaganda Scattered in Reports of Bloody Victories

BY KIRK L. GIMPSON

Interpreting the War News Bulletin's account of the Russian front, there is an implication that the Russian front is a matter of doubt of his final triumph.

There are indications that the Russian high command, in order to conceal the German public the cost in life of the Russian war, is distributing German wounded in German-occupied or controlled regions. Yet it is clearly impossible to prevent knowledge of the terrible losses from reaching the German public ultimately.

And coupled with it is the steady hammering of British bombers at Germany in a war-of-nerves in which for the first time Britain is on the offensive, not the defense. Collected and other factors for contemplation, and Hitler's victory over Russia seem more like defensive propaganda than anything else.

The battle of Berlin began by the calendar on June 16, 1940, when France fell. Actually, however, it was more than two months later, on August 3 of that year, that Hitler thanked his mighty Luftwaffe against England in all-out air attack.

His hope and expectation was to break British resistance within weeks at most and pave the way for invasion of England. He failed miserably, as terrible as was the cost in British lives, and even more so was the damage wrought by ruthless Nazi attack on London and other thickly populated English cities.

A year later, the people of Germany must be fully aware of the grim significance of that first Hitler day of war, and that, increasing numbers of British bombs are falling on Germany, and that the man occupied regions, also, that as July, 1941, was a banner month for British defensive and offensive as continued to July, 1940.

It is obvious to retrospect that expectation of a thundering Churchill, recounting to parliament that he promised the using of the Hitler broadcast of victories in Russia. There is an implication that the Russian front is a matter of doubt of his final triumph.

Merchants Hear Credit Officials

A group of about 25 Twin Falls merchants at a meeting at luncheon Friday noon was addressed by two credit organization leaders, Walter A. Jensen of Portland, Ore., field man for the National Retail Credit Men's association and Associated Credit Bureau of the Pacific Northwest, and Thomas McCann of Boise, district representative of the former organization.

They stressed the value of close cooperation with credit bureau headquarters in national organization transactions.

Mr. Jensen will return about the first week of September to organize a number of merchant groups, and to assist in formation of a credit women's breakfast club.

Mrs. J. J. Hughes of Twin Falls preside over a luncheon at the Friday noon meeting.

CRASH INVOLVES DOZING DRIVER

Jerome Man Hit Rocks at Rim-to-Rim Bridge; One in Hospital

JEROME, Aug. 9.—Elsworth Patrick Jerome is in Twin Falls county general hospital recovering from facial cuts and bruises which he sustained early this morning near the rim-to-rim bridge, when he was riding with Charles Knell, also of Jerome. The car in which the two were traveling toward Twin Falls ran over a large pile of rocks after it left the highway. Knell, the driver of the car, is reported to have told officers that he fell asleep at the wheel. Knell suffered lesser hurts, and is at his home in Jerome.

The truck was the property of Jerome motorists, who appeared shortly after the accident, and were brought into Jerome to a local physician's office for first aid treatment. Patrick was later removed to the Twin Falls hospital by a member of the Idaho state police who checked the accident. The car left the highway about 1 mile from Jerome county's side of the bridge.

Youths Escape As Truck Overturns

JEROME, Aug. 9.—A Pocatello youth and his companion from St. Anthony, narrowly escaped injuries, when the truck in which they were riding overturned on the highway, 15 miles west of Jerome at about 6:30 p. m. last evening, a report from the sheriff's office shows. Driver of the truck was Virgil Smith, 21, and his companions was Harris Parke of St. Anthony. The big truck was overturned when a passenger car slowed up in front of the truck, to make a right hand turn onto a side road. The large truck was unable to go around the car and to stop because of an approaching car from the west. To avoid the collision, Smith assertedly swung the truck to the left, onto a side road and the truck overturned about five rods south of the corner. The truck was the property of Smith's brother. Inspection of the truck was reported to have disclosed that the tandem attachment or "fifth wheel" of the truck was defective.
