RAILROADS LOWER RATES ON APPLES

Idaho Commissioner Figures Material Reductions to Nation's Markets

BOISE, Aug. 14 (AP)—Idaho's public utilities commission has been advised rates on apples shipped from the northward to points throughout the United States shortly will be reduced, Commissioner President M. Horne Hattabaugh said today.

"Pointing out in an interview Idaho last year shipped 1,912 cars of apples, Hattabaugh declared: "The reductions proposed are material. It is impossible at this time to give all of the reductions which will occur but the reduced rates have been determined from Idaho to points east of the Mississippi line and east of the Mississippi river."

"For instance, the rates from Idaho to Boston, Mass., New York City and Raleigh, N. C., are at the present time \$1.25 per 100 pounds. The new rate will be \$1.10, a reduction of 21 cents per 100 pounds. Other present and new rates in that order, listed by Hattabaugh: To Miami, Fla., \$1.27 and \$1.15; to Buffalo, N. Y., \$1.23 and \$1.05; to Atlanta, Ga., \$1.21 and \$1.05. Although said new rates for other shipping points have not yet been determined except for certain points in Washington and Oregon, he said the reductions were voluntary by the railroads.

U. S. BUILDS UP FOOD RESERVES

Wheat Crop Assures Nation of Enough Supplies to Last Until 1943

WASHINGTON, Aug. 14 (AP)—Agriculture department officials said today that this year's bumper crop of wheat assured the nation of enough supplies to last until the 1943 harvest even if next year's crop should be unusually short.

Likewise, prospects for fair crops of corn and oats and unusually large crops of barley and grain sorghums indicated that feed grains would total nearly 40,000,000 tons, an increase of four per cent above last year's larger-than-average production.

Administration farm leaders have been striving to build up food reserves which President Roosevelt said may be needed to meet emergencies which can as yet be only dimly foreseen.

In a letter to Secretary Wickard, dated July 25, but made public today, the president declared that in this time of crisis "food is a weapon which is as important as munitions and food will continue to be a weapon in all efforts toward insuring a more orderly, prosperous and peaceful world."

Gooding Pioneer Paid Final Honor

Funeral Services Held Monday Afternoon at the Thompson Chapel for G. B. Brown, a former resident of Gooding who died Aug. 8 at Salt Lake City.

Funeral services were held Monday afternoon at the Thompson chapel for G. B. Brown, a former resident of Gooding who died Aug. 8 at Salt Lake City. Services were conducted by Rev. T. H. Stitzer, pastor of the First Methodist church, with instrumental music by John Alexander.

G. B. Brown was born April 14, 1871, at Summerville, Mo., and died after a brief illness which was the culmination of an illness lingering over a number of years. He was married to Emma May on June 16, 1898, and three years later moved from Summerville to Hill City, Kan. Mrs. Brown died there in 1914.

Mr. Brown and his daughter came to Gooding in 1906, pioneering on the new tract. He was in the jewelry business for years, and spent most of his life here. He was a member of various orders, including Modern Woodmen, Old Fellows and Knights of Pythias.

Surviving are his daughter, Mrs. Hugh Baker of Salt Lake City; two sisters, Leta Partridge of Vinnet, Okla., and Thera, Singlet of Huntington Park, Calif. Pallbearers were Earl Dote, Bruce Bird, Adam Schuler, Alva Thurgesen, Charles B. Hess and Bert Paul. Burial was in Shawwood cemetery in Gooding.

POTATO CLEANING RESEARCH BEGINS

Idaho Commission Studies Improvements in Brushing Spuds

BOISE, Aug. 14 (AP)—Idaho's marketing commission has begun a series into improvements in brushing potatoes.

Washing of potatoes has been found in many cases to be not entirely satisfactory, and Chairman James H. Newport has been commissioning that Idaho growers arrive at the terminal markets free from soil and dirt.

He asked in a press statement that it also was decided to search for other ways of improving Idaho produce, particularly with view of eliminating "light-green" that spoils their eating. An educational campaign was proposed to create better handling and shipping of Idaho potatoes in growers' hands.

Times as contractor. These will be 14 duplex structures which will be rented at a nominal rate to low income families. Seven of the shacks have been contracted for by Lantier to be utilized for grain storage purposes, and this is the only one to which they may be put under federal housing authority approval.

First New Spud Shipment Leaves

101 Shipment of new potatoes from the Twin Falls area, according to Fred C. Parmer, Union Pacific freight agent, departed from Boise today.

The shipment this year is nine days later than last year, as the first 1940 cars left Aug. 4.

CASSIA PROPERTY VALUES INCREASE

\$165,668 Gain Largest Since 1930; Lands and Livestock Lead
BURLY. Aug. 14—An increase in property valuation in Cassia county in 1931 of \$165,668 is shown in the report of the 1931 assessment roll approved by the county board and forwarded to the state equalization board.
This is the largest increase in valuation on tax rolls since 1920. The property values here are \$1,000,000. Improvements on land increased \$23,074, from 1,271,102 to \$1,294,176. An increase in livestock assessments of \$18,223 brought the total from \$249,779 in 1930 to \$268,002. Stock increases was \$24,775 over 1930's valuation of \$77,027.
Stores closed by the factory increased \$37,106 to bring the valuation this year up to \$225,020.

Woman Accused Of Tipsy Driving

Mrs. Jessie L. Jones, formerly of Oregon and more recently of Twin Falls, was released yesterday afternoon upon payment of a \$100 fine and a \$1000 bond. She was charged with driving a motor vehicle while intoxicated. She was picked up by city police shortly before midnight following an accident in Twin Falls. Operating the car which she struck was Virginia Clare Harrison, 1340 Addison avenue east.

Rupert Slaying Hearing Slated

RUPERT, Aug. 14—With his preliminary hearing set for Tuesday before Judge C. H. Fitch, A. C. Carr, Carroll Dennis Fincham, 25, accused of the slaying of a 16-year-old girl, was brought here yesterday from the Rupert general hospital to the Mountain county jail. Assigned to Deputy Sheriff Clyde Crick.
The shooting with which Fincham is charged has occurred here. Fincham entered the Hanson farm home and allegedly shot Hanson as he lay in bed and murdered Mrs. Hanson, before turning the gun on himself.

Mr. Molander was born June 29, 1874, in Sweden. He is survived by the following brothers and sisters: Ernest Molander, Rulh; Charles Molander, Flaxton, Colo.; August Molander, Auld, Colo.; Mrs. Helma Molander, Pierce, Colo.; Mrs. Alma Molander, Auld, Colo. He also leaves two nephews and one niece: Enora Molander, Rulh; Carl Nelson, Colorado; Mrs. Helen Kennedy, Dailey, Colo.
The body rests at the Albersen funeral home pending word from relatives.

Honor Comes to W. J. Dermody

Bestowed upon W. J. Dermody, Opend, Utah, as was last Sunday in Ogden, Utah, was the order of the Knights of St. Gregory, according to word received here by friends.
He is the son of a former Twin Falls resident—Mr. Ed Kinney.
This honor was conferred from the Pope and it was conferred for outstanding church endeavor. It is the highest honor which may come to a Catholic layman. Later in the day, Open Knights of Columbus honored Mr. Dermody at a reception.

TODAY'S PAGE

DIARY OF THE HOSPITALITY GIRL

Dear Diary: It's surprising how many nice people I meet here today's travels. I glad when I say travel. I mean travels. Besides my 'bent' along Main avenue and vicinity, I visit several points on truck several times, and even ventured as far afield as the coast.

The News-Times hole-in-one tournament was starting at the south course when I went out, and one of the contestants was Frank Turner of Lakeview. He and all the other members of his family had the most delightful Texas draws. He was with his mother, Mrs. John F. Turner and his sisters, Marion and Margaret. They were very impressive in the drawing of the roll course, and Margaret was particularly successful when I interviewed her, because she is a women's editor of the Avalanche Journal at Lakeview. She and her family live on the Pacific coast and were heading back toward Texas.

One family from Wichita, Kansas, was particularly proud of the record set by their seven national parks during the trip. Incidentally, they observed a lot of Kansas cats on the road, and I noticed the one that they brought.

While I was seeing new country, tourists get a lot of fun out of being themselves for a change. One especially well-dressed operator who has been fishing on Wood river was wearing very old clothes and a hat, and he spoke loudly of his attire as though he enjoyed that nearly as much as the fishing.

Others whom I met included three women from Tampa, Fla., and two from Illinois—and whether it or not they didn't try to sell me on Florida. Then there was a Lay, Veans, Her, couple bound for St. Louis, who went to see Shoshone falls and in-gone-the-famous. Also a woman who went to Sun Valley for the robes, Mr. and Mrs. R. D. Wright, Chicago, and as they have been here previously, they knew about Thousand Springs and wanted to visit them again. They had their 15-year-old son with them, which is probably one good reason why they are here for the time.

The country in this case, some real beauty in Mr. and Mrs. A. L. Mulford, San Angelo, Tex., who told me they had traveled through eight states and that this is the best looking country they have seen. Called it the most beautiful they ever saw and that they were called it the most beautiful they ever saw.

Had intended a "Hospitality Girl" article in all it, met about 75 tourists, making the grand total 275 since starting last Monday—and to mention hundreds of local folks who have expressed interest in the work.

RAILROAD ASKS TRIAL TRANSFER

Union Pacific Railroad would Take \$100,000 Damage Suits to Pocatello

Union Pacific Railroad company and two employes, Claude Mickle, engineer, and R. J. Miller, conductor, are demanding transfer to Pocatello of trial in three damage suits totaling nearly \$100,000 arising out of a fatal crash at Carey crossing east of Bull on Oct. 30, 1929.

But the defendant was filed in district court in Twin Falls in a legal action along with defendants: in the three suits in Pocatello.

District Judge James W. Porter set next Aug. 22 for hearing on the transfer and matters.

In support of the demand for transfer of trial district attorneys George Link, of Boise, the plaintiffs, Mrs. Thelma Annette Coughlin, her son, James Richard, 16, and daughter, Donna Verlyne, and Edward Rasmussen, are residents of Twin Falls county, Idaho.

The engineer lived at Pocatello and the conductor at Buhl, while the railroad conducted headquarters in Idaho are at Buhl, Idaho. Mrs. Coughlin on her own account and in behalf of her children, sued for damages because of the death of her husband, Richard Coughlin in the eye-scar crash. Mrs. Coughlin and Rasmussen, owner and driver of the car involved in the crash, sued also for damages on account of personal injuries.

City Continues Drive on Bikes

There's a growing collection of bicycles in the Twin Falls police station — and it will continue to grow as long as youths continue to violate ordinances concerning operation of bikes, officials said last night.
At present, bicycles impounded total about 15, and they have been taken in for varying lengths of time for such violations as riding on the sidewalks, riding double and creating other hazards.

DOG CATCHER AT JEROME ACCUSED

JEROME, Aug. 14 — Accused Monday on charges of arrested Monegan of foul, from the city of Jerome, Lee Daugherty, Jerome's dogcatcher, was remained in the custody of Sheriff Lee L. Bailey Wednesday after he issued preliminary hearing, and will appear later this week before District Judge T. Bailey Lee of Buhl.

Not less in the city of Jerome because Daugherty's arrested offense was committed at Rulh, police authorities said.

The money, which Daugherty reportedly misappropriated, was a part of that collected in dog license fees from Jerome residents.

Daugherty was placed under bond which was not furnished. He appeared for arraignment Wednesday morning before District Judge William C. Gontlock, and asked himself 2 p. m. this afternoon when he waived the hearing.

Auto Accident Bruises Woman

One occupant was slightly bruised in an automobile mishap yesterday morning one mile north of Kimberly on White course, according to investigating state police.
The accident occurred when a machine driven by Mrs. Ella M. Stout, Chicago, overturned and was seriously damaged. Mrs. Pearl Craven, Chicago, sustained bruises in the accident in which the car overturned after skidding about 250 feet.

Young People's Camp Reports Given at Meet

Approximately sixty-five members of the general Women's Society of Christian Service of the Methodist church were present at the picnic dinner and informal program yesterday afternoon at the country home of Mrs. Roy Stearns at a business meeting, during which plans and projects for next year's summer camp were discussed.

Entertainment highlights was an interesting account of the young people's institute last week at the Presbyterian assembly grounds near Burley by Mrs. M. E. Callister. It is planned that the Methodist youth conference at the country home of Mrs. Stearns on an annual affair, and part of the buildings and equipment at the former Methodist camp at Camp Stearns have been dismantled and will be used in improvements at the Presbyterian camp.

Mrs. James Howard and members of Circle No. 9 were hostesses at yesterday's picnic, which included group singing led by Mrs. O. A. McMaster and donations under the direction of Mrs. Leonard Abbe, following the picnic meal.

Guests at Meet Entertained by Mrs. C. Bowles

Of special interest to women who attended the meeting at the country home of Mrs. C. Bowles yesterday afternoon at the church was the devotion under the direction of Mrs. C. P. Bowles, who traced the treatment of women down the ages to the present time.

During her interesting talk, she told of the treatment of women in India, China, Japan, and throughout her discussion, she pointed out the difference between women of the Bible and women in her story.

Mrs. Frank W. Black was in charge of the business meeting and Mrs. Albert Wegener and members of the Women's Society of Christian Service of the church were present at the program and refreshments, served first style at the close of the afternoon to forty guests.

During the program, Miss Marilyn Brooks played two piano solos and Mrs. Dorothy Green gave a reading, "Dunkin'."

Novel Patterns Shown at Meet

Novel apron patterns were displayed by members of the art committee, Mrs. Mary Richards and Mrs. Esther Bates, during the work and business session of the first Ward L. S. Relief society meeting yesterday afternoon at the city park.

It was also announced that during the next month the society will be making of various articles of interest to homemakers who are given.

Refreshments were served by Mrs. Elva Bartlett, Mrs. Edna Thilly, Mrs. Ruth Lewis and Mrs. Ella Grandall.

Roosevelt-Churchill Statement Anticipates Peace Drive

By KIRKE L. SIMPSON
Interpreting the War News
Although the greatest military risk of the German-Russian conflict is shaping up into the battle of the air, the Roosevelt-Churchill statement takes first place in the war news.

The British and American leaders of the British and American peoples proclaim their solidarity in the matter of post-war aims. It is for this reason that they imply that there can be no peace with Hitler or Hitlerism on any terms.

There have been widespread whispers among the British and Americans in the Russian campaign and before winter sets in to stigmatize the new treaty which has been signed. If so, he has been answered in advance, so far as the primary and prime objective is concerned.

The Roosevelt-Churchill statement was definitely a part of the war news. It goes without saying that the meeting was designed to impress upon Hitler's Japanese axis and upon the Vichy regime in France and the determination of the British and American leaders to be directed from their common objective of stamping out Hitlerism whenever it shows itself.

The Roosevelt-Churchill more suggests that with German battle losses in Russia unquestionably mounting into terrible figures and with no end to the struggle yet in sight, London and Washington may have inspirations of rising public discontent in Germany. A German defeat in Russia will turn the tide against Hitler or him. Defeat in a decisive sense which will serve of his great crusade—might serve the same purpose.

This is admittedly pure speculation as to the motives behind the dramatic Roosevelt-Churchill statement. If their action does nothing else, however, it puts them and their statements on the offensive on the news war front.

Light and Lively
was the matchless beer of PILSEN...

It was brewed by masters of the art from the choicest of hops and grains... and it was slowly aged in the great cool cellars that stretch for five miles beneath old Pilsen.

To taste this delectable beer was an experience never to be forgotten. For the old-world Pilsner had a delicacy of flavor and a sparkling brilliance that distinguished it from all other beverages known to man.

We brew Brown Derby Pilsner for you with the same painstaking care, of costly malt, and with hops selected for the choiceness of their flavor.

Then we age this true-to-type Pilsner for just the right length of time. Till it is crystal-clear. Its flavor the mellowest. Its collar rich and creamy.

Like imported Pilsen, therefore, Brown Derby in a cold, long glass is a summer day's finest refreshment. And, like the imported, it goes extra well with food.

TASTE-TEST, if you wish, at our expense. Get some Brown Derby Pilsner—enough for several friends to enjoy with you. Cool it. Then everybody taste. If you don't find it to be all that we claim, if you are in any way dissatisfied, return the empty bottles to the store where you bought this beer and they will return your full purchase price.

KNOX URGES U. S. 'JUMP ON HITLER'

Secretary Argues for Independent, Powerful Sea-Air Arm

NEW YORK, Aug. 14 (AP)—Colonel Frank Knox, secretary of the navy, is starting in an article in the current issue of Collier's that the United States has the jump on Hitler...

Our observers have expressed the belief that England's early failure to develop an independent, powerful sea-air arm has been primarily the result of nearly every reverse suffered by Britain so far in the war at sea.

The secretary said the navy took no stand on the question of last night—plans superiority. He said "our naval commanders contend that both battleships and planes are superior; and that, properly used as coordinated forces at sea, they are invulnerable, each in its own realm and in its close relation with the other."

STOCKS IMPROVE ON MILD BIDDING

Small Gains End One of Longest Stalemates in Exchange's History

Markets At A Glance

NEW YORK, Aug. 14 (AP)—Stocks steadily, with advance modest, closed today after a long stalemate in the history of the exchange.

BY BERNARD S. O'HARA

NEW YORK, Aug. 14 (AP)—Mild bidding for stocks and scattered increases today helped the market break one of the longest stalemates in the history of the exchange.

The Associated Press, average of 60 issues made a net advance of 1.01 point at 43.1 the first improvement in this composite since July 29.

The future was far from unanimous. Of 642 stocks traded, 255 were up, 104 down and 194 unchanged.

WELDING TEACHERS PLAN TO SPEED INSTRUCTION

BOISE, Aug. 14 (AP)—Instructors in vocational training schools in Moscow, Weber, Stump, Boise and Pocatello met today to consider means of speeding the training of competent welders for west coast shipyards.

Commercial apple production is estimated at 2,070,000 bushels, compared with 2,160,000 last year and the average of 2,450,000.

Excutive sessions of the board have been very busy since Monday. Protests against the tentative valuation of utilities would be fixed as about the same as last year, or a little more than \$10,000,000.

At the same time little change was reported in the value of property tax rolls submitted by the assessor. This would result in an increase of about \$5,000,000 over last year's total assessed valuation of approximately \$130,000,000.

The board called for a property tax roll valuation for the year 1940-1941 as compared to 1939-1940. This would result in an increase of about \$5,000,000 over last year's total assessed valuation of approximately \$130,000,000.

IDAHO FARMERS HARVEST WHEAT

Potatoes, Sugar Beets Continue to Make Good Growth

BOISE, Aug. 14 (AP)—Harvest of Idaho's winter wheat crop continuing in full swing during the past week it was reported in the cooperative weekly crop and weather summary today.

Most of the crop had been harvested in the southwestern counties, with very good yields reported. Spring wheat yields were being estimated as good to fair—farmers particularly in the north and northwest, harvesting of this crop was getting under way except in the higher elevations of the east.

Potatoes continued to make good growth, though spotted areas reported some second growth because of heat. Beans were said to be improving and dry peas—yields of which are averaging somewhat below expectations—were being harvested.

Sugar beets continued to make good growth though while in the south central counties was the heaviest in years.

A second crop of hay was being harvested. Ranges and pastures were drying but were in generally good condition for this season of the year. Prunes were maturing in the southwest and peaches were being harvested. Apples were said to be developing well.

Alfalfa seed prospects were spotted. Good crops of red and white Dutch clover were reported.

In the south central district grain harvest is in full swing. Winter wheat is about half harvested in Cassia county, with very good yields reported. Oats and barley harvest is in full swing; spring wheat harvest is beginning. There has been a rather general late infestation of rust which is resulting in slight losses. Yields are good. Potatoes generally continue to make good growth, though some second growth is reported in Lincoln county. So far there has been no damage from fusarium in Twin Falls county. The dry pea harvest is nearly completed. Beans are improving. Sugar beets

are also improving, though the white population is the largest ever reported, and the proportion of fire carrying virus is exceptionally heavy. A good second crop of hay is greatly well harvested. Pastures are good, but ranges are dry. Apples are harvested. The apple crop looks good but the peach crop is light. White fly are affecting garden crops. Alfalfa seed prospects are poor, but the red clover seed crop is good. A good yield of white Dutch clover is being harvested in Blaine county. There is a strong demand for feeder cattle and lambs. Milk production continues at a high level. Hog shipments are light, but are expected to increase materially in two or three weeks.

Dairy Production Urged for Britain

Members of the Upper Snake River Valley Dairyman's association, meeting its annual section Wednesday at Idaho Falls, were asked immediately to increase their production to furnish urgently needed dairy products to Great Britain in her hour of peril. The British particularly need cheese, canned milk and dried milk for war-time shipping reasons, according to Dr. T. G. Ellis, Washington, D. C., chief of the cooperative research and service division, farm credit administration, who addressed the dairymen in their meeting at Highland park.

"Since we have long recognized that our people have not been consuming enough milk and milk products, it is clear that domestic consumption should not only be maintained at recent levels, but that it should be increased," said Doctor Ellis.

Government Uses Corn for Defense

WASHINGTON, Aug. 14 (AP)—Secretary Wickard announced today that the agriculture department would make 20,000,000 bushels of government-owned corn available to the war department for production of aviation fuel used in the manufacture of munitions. He said this action would free ocean tankers now being used to bring in molasses from Cuba for the manufacture of alcohol. Such tankers are needed, he said, for the shipment of other strategic material.
