"You Will Benefit Public Health"

Says DR. J. F. X. STACK Health Commissioner, City of Hoboken, N. J.

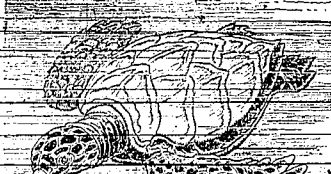

one of 56 health officials from 56 different points approving Cremo's crusade against spit or spit-tipping. Every smoker, every wife whose husband smokes cigars, should read Dr. Stack's letter. "Who are the friends of Spit?" YOU MAY WELL ASK THIS QUESTION WHEN 56 IMPORTANT HEALTH OFFICIALS HAVE WRITTEN SO STRONGLY AGAINST THE EVILS OF SPIT OR SPIT-TIPPING. Dr. Stack writes: "I am heartily in favor of your campaign to better your industry by making it cleaner."

As a health commissioner, I am interested in seeing the formation of this sort brought home to everybody. Human spit would be greatly lessened if every person knew that danger there is in spitting in public places and in using the tobacco spit or spit-tipping in manufacturing. Your campaign is indeed a "crusade of decency" and my department wishes you success in your efforts. You are welcome to use this letter in your plan of public education, if you wish, with the understanding that I am not publicly endorsing your project in preference to any other, but that I am heartily in favor of your campaign to better your industry by making it cleaner. Very truly yours, J. F. X. Stack, M.D., Health Commissioner, City of Hoboken, N. J.

SIDE-GLANCES

"I'm glad I impressed him, kind of. He's so intelligent and all."

BUILT IN THE OLD DAYS WORKINGMEN who were leveling ground for a new...

Now this cabin was built in 1758, when western Pennsylvania was a wilderness as deep and as untamed as the Brazilian jungle.

It is interesting to compare that bit of construction work with the sort of work we are content with nowadays.

The fact seems to be that we have sacrificed something in the way of sturdiness and solidity in the last century and a half.

Probably this is not very important. Certainly we wouldn't go back to the old ways, even if we could.

There is no use in lamenting it, to be sure. This decline in the excellence of the individual's handiwork is part of the price we have paid for our mechanical civilization.

But it is hard to vent of this old cabin and of the work that went into it, without feeling that this price has been heavier than we ordinarily suppose.

THE CORN SUGAR RULING SECRETARY OF AGRICULTURE HYDE'S ruling that it is no longer necessary for manufacturers of food products to indicate on the label the fact that they have sweetened with corn sugar has aroused plenty of protest.

An editorial in the current issue of the Journal of the American Medical Association discusses the question from the standpoint of medical science.

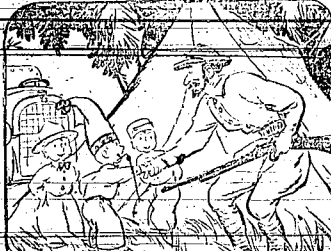

THE DEATH TOLL RISES STILL America's automobile fatality toll goes up. In 1930, according to figures just passed by the National Safety Council, 32,500 Americans were killed in traffic accidents.

CONGRESS is reported to be studying a way to make paper money last longer. It's a funny thing, but most of us have been working on the same problem for some time now.

Suburban rioters, says a news item, are setting fire to sugar plantations. Razing cane, as it were.
