

# Twin Falls Boys and Filer Girls Triumph In Exciting Contests

Wildcat Maidens Trim Bruinettes 20-17  
But Visiting Bruins Fight Way to 35-22 Victory

**FILER.** Jan. 20 (Special).—In two fast and exciting contests in the Filer gymnasium, the Filer girls took the Twin Falls girls into court by scores of 20 to 17, and the Twin Falls boys' team came from behind in the second game to avenge the defeat and record a decisive 36-22 victory.

The girls' game was fast, with the Filer forwards shoving their heels to the Twin guards often in the second half. Miller, for Filer, scored the fireworks with a basket after a long goal. Tatting of Twin Falls, though, broke to first the score and then overcame the lead with two field goals in quick succession. Filer rallied with Miller sinking another field goal. Tatting closed the quarter with two more field goals to put the Visitors in the lead 8-7.

In the third quarter Filer's lead increased their lead to 12-8 at the end of the half. Shortly after the start of the fourth period, Filer scored twice more, but just right, both teams were then fighters.

The score to 12-12, and took the lead with another field basket. After the visitors had overcome the lead, the game ended 36-22 for the Filer maidens.

**Powers Wins.**—The Powers game was fast and exciting, with both teams vying to overcome the lead held by the Bruins in the first quarter of the game. Powers, however, was persistent, and the Bruins, getting the ball from difficult situations and angles, won an individual victory.

The point-scoring streak was displayed in the final minutes of the game, with Powers increasing their lead with a count of two.

Powers, for the visitors, started with a field goal after a few minutes of careful playing. Powers and Givens contributed two points each, while Powers' two others added two more to Powers' score.

Shannon, for the Bruins, followed with another field goal, and Powers, with another, driving to Twin Falls to bring the first quarter to an end with a count of two.

Powers for Filer tied the score early in the second quarter, but the Bruins, again, pulled the lead.

After the visitors had scored with a field goal, Powers, with another, took advantage of the Bruins' mistake.

After a close game, the Bruins, with a field goal, took the lead from the floor to bring the count to 14-13 in favor of the Bruins.

Powers again opened the score in the second half and converted a free throw. Powers retained the lead with another one to bring the score to 24-12 in favor of the Husky City.

After a close game, Powers continued his phenomenal shooting to mount the Bruins' count one point higher.

**Game Suspended.**—The game was suspended because of a rough on Twin Falls' shoulder not in keeping with the rules of a heavy offensive.

With another two field goals for the Bruins and Powers added another basket for Filer, bringing the score to 35-22. Two factors will determine the outcome.

**GENERAL BUTLER**

(Continued from Page One)

General Butler, who had been called to have a look at the quotations from Hitler's account, saying that "the life of the German people is more important than the life of the state."

The general also was quoted as saying that he does not believe that he did so, not as a direct criticism of Mussolini, to illustrate the attitude of some toward the state above the individual.

It was understood by friends that Butler, in his statement, admitted having written the account, but pointed out that he did so, not as a direct criticism of Mussolini, to illustrate the attitude of some toward the state above the individual.

## OIL PIPELINES AID COMPANIES BATTLE SLUMP

Eight New Systems Are Ready to Cut Transportation Costs; Overproduction Stares Petroleum Industry in Face

OKLAHOMA CITY, (UPI)—Right now the question for crude oil and natural gas will be if production can be cut early in 1931.

Like most industries—the petroleum industry has found itself confronted with over development. That there is no much oil or natural gas left in the ground is the石油 transportation is the oil industry's answer to its acute depression problem.

An investigation last summer concluded the oil companies, one of the Mid-

Continent refiners who sell their products mostly, have taken industrial steps up theiskite to see off available to return to normal production.

Another important element is the railroads. They recently sought legislation to bring pipelines under railroad control.

Source Confirmation as to that,

the pipelines will be subjected to the same restrictions as railroads.

Impeded Progress.

The oil industry itself at the moment is rather in control of pipelines. D. B. Reeser, president of the American Petroleum Institute, pointed out recently that the oilmen were guilty of poor organization and were trying to juggle pipelines.

The investment, in 1929 represented an investment of \$250,000,000 for the 8,000 miles of new pipelines.

Great strides have been made on the virtually complete Great Lakes Company line from Ponca City, Okla., 100 miles.

The Phillips Pipe Line company, Phillips Petroleum Company, has completed its 700-mile carrier from the Border, Tex., fields

to St. Louis. The company's 500-mile carrier from Tulsa to Springfield, Ill., is near completion.

Running almost parallel to the Gulf Line is the "Ajax" Pipe Line company's double-trunk system from the Midwest to the Gulf Coast.

Construction is progressing on the Continental Construction Company's 1,000-mile carrier from Tex-

as to the Midwest. The company is jointly owned by major oil concerns.

Missouri Kansas Pipe Line Company has the terminals in constructing its 1,100-mile gas carrier from Hugo to Indianapolis.

Missouri Valley Pipe Line company has the Mid-Continent sections of a proposed gas line from the Midwest through Memphis through Port Douglas, Wis.

In southern fields, the Natural Gas Corporation is constructing a 700-mile gas carrier from Monroe, La., to Birmingham and Atlanta.

The company, J. C. Clegg, recently joined recently to the Board of Regents.

## LIQUOR PEDDLER GETS JAIL TERM

Gus Sandeen Jailed For Transportation of Liquor; Penitentiary Term for Car Thief

SHOSHONE, Jan. 26 (UPI)—Gus Sandeen, arrested shortly after the debut of 1933, here following his conviction for allegedly poison, was sentenced Wednesday to six months in the state penitentiary for transporting bootlegging liquor.

Lawler, charged with the same offense, was given a two-year sentence, ordered to report to the state prison for nine months.

No man has been placed in prison for the distribution of Mescal Newby, a Salt Lake City criminalist, is working on the case, and a number of persons are being questioned.

Other activities of the district court this week included the sentencing of Charles L. Clark from one to 15 years for the bombing of a car.

Clark, 27, of the city, Steven

and Thomas, 21, of the

neighborhood, was charged with the theft, pleaded guilty and was being held for trial.

It is estimated that May 25, 1,000 trees will have been planted.
