ALFONSO HOLDING  
HOPE OF RETURN  
TO SPAIN THRONE

Message Points Out He Has  
Not Renounced Rights  
As Ruler

## REACTION IS AWAITED

Former King Can Return If  
Republicans Fall

MADRID, April 16 (UPI)—Alfonso XIII in exile, has not renounced his rights to the throne of Spain.

The deposed monarch's last message, revealed today that he turned the government over to the Republicans to await an "expressed opinion" of Spanish public.

While Alfonso was enroute to France, where he signed a peace treaty with the Republicans, his last message was made public despite the disallowance of the Republican government by Niceto Alcalá Zamora.

"I do not renounce any of my rights, however, rather than that they be violated by history and I shall have to render a strict account for them," the message said.

Not Through

The message had been given to Count Romanones, who is the former king, who remarked as signed that he never "felt more at Spanish soil."

The new government, facing a gigantic task in its efforts to guide Spain peacefully, had issued a statement that no governments hindered publication of the message yesterday.

"It amounts to positive renunciation," said Alcalá Zamora, in describing the message.

The attitude of the king, who had recently renounced his throne, was not received by the Republicans, which was "hard" at first, according to a spokesman, and was forcing far-reaching changes in all departments.

Alfonso in Exile

As a result Alfonso is on the same plane as the former king, who was exiled and was living in Madrid, and was identified as the "dealing in the throne" case.

Alcalá Zamora's government, which yesterday morning made public its manifesto calling for a new constitution, was almost without interruption, confirmed almost without interruption, last night, and issued various demands, including the calling out provisions of the manifesto for an investigation of the dictator's grafting and corruption, the 1916 constitution, ensuring liberty of religion and private rights, were ordered by the cabinet.

ALFONSO IS OFFERED JOH  
PAUL MAKING MOVE OF LIFE

AN ALLEGEDLY forged copy of motion picture of the career of King Alfonso XIII of Spain, was cable to the English Graham, London producer.

The cable said: "Believe you're colorless, but I am taking a picture of international importance based on the brilliant and virile career of King Alfonso, and I am sure you will feel receptive to this. It will easily gross millions of dollars could easily go to worthy charities in America and Spain."

When the order to vacant the smoke-filled editorials, and reporters started carrying gallows of typewritten material, it had been prepared for the morning paper.

Through the courtesy of James Buckley, manager of the *Baltimore Daily Post*, this morning's Standard was printed in the Post's plant, and was sent to the English Graham.

WASHINGON, April 16 (UPI)—The crop reporting board of the department of agriculture estimated today that the supply of wheat in the United States on March 1, 1931, was 114,953,000 bushels.

The report said the April 1, 1930, crop of wheat remaining on farms was 102,200,000 bushels, or about 17,000 bushels less than in 1929 and 17,000 bushels greater than the April 1, 1929, crop.

April 1, 1930, the farm stock of wheat was 102,362,000 bushels, or 600 bushels less than there were in 1929.

The movement of wheat from farms during March was measured in bushels shipped from farms.

On March 1 and April 1, it was greatest in the six years for which statistics have been kept.

The disappearance this year was 62,289,000 bushels, in March 1930,

it was 27,462,000 bushels in March 1929 and the crop average was 30,000 bushels.

The disappearance includes grain used for feed and seed as well as grain shipped to markets, mills and elevators.

Rifle Club Shoot  
Won By Gunderson

Gunderson was first scorer in the regular weekly shoot of the Twin Falls Rifle club, Wednesday evening, with a total of 150. Kral was second with 145, and Dickey third with 129. Gunderson also won the open shot event.

The complete score was as follows:

Name	Prize Standing Total
Hornsey and Clark - Klein	\$8
Add to Laurels With Home Runs	100
GRIMES BLANKS REDS	125
Ruth's Sacrifice Fly Wins For Yankees	130

NEW YORK, Apr. 15 (UPI) — The Cincinnati Reds were the best team in the short season. Cardinals in their drive for the 1930 National League pennant, and there were indications that Ruth and the "Bambino" in "Gumby" Street's champion again this season.

Last year, the Cardinals won all of their games with the Reds, including all of the 12 contests played by the two clubs after June 1.

The Cardinals are continuing their success against Cincinnati. Yesterday they scored their second victory in a row, defeating the Reds 4 to 1, Ruth 4 to 6, helter-skelter pitching by Burleigh Grimes, who allowed only 7 hits in compiling the season's first

Heavy Hitting Feature.

Other National League games yesterday were: Boston 6, Chicago, defeating Pittsburgh, 6 to 5; Boston drubbing Brooklyn, 9 to 3; and Philadelphia beating New York, 10 to 7.

Hoppe, Hornsey's home run provided Chicago's winning run and ended the game in the eighth. While Grimes made a successful debut as a Cub pitcher.

Cluck Klein led the Phillies, and the Cards' Grimes, in hitting in a perfect day at bat with a homer, triple and two singles. An extra run came from the bats of the Cards.

The victory clinched the game for the Phils.

Senators Beat Champions.

Washington was the victor. Philadelphia was the highest

team of American League competition. "Bumby" had his best day, leading the Cards to victory over the two clubs at one game each, while his mate drove in the winning runs.

The Cards' Ruth continued the assault on Mahaffey.

The Boston Red Sox used 10 hits to win. The Cards, which had been defeated 8 to 5, with the Yanks scoring the winning run on Ruth's fly with the bases loaded, lost the ninth.

The victory enabled the New Yorkers to tie St. Louis for the league lead with 10 wins, while the Cards were still even.

Four games last year pitched for the Bronx against Philadelphia, and the Cards allowed 14 hits but was more effective in the

pitches than Hoyt who gave St.

League 12 wins.

Given an uphill fight to tie the score against the Chicago White Sox, but won it out in the ninth, 6 to 5. Chicago had four runs in the third due to Cleveland errors, and won in the tenth when Tate's double and Watrous' right field ball scored Watrous.

## SHOUSE SEES DRY LAWS, ECONOMICS IN 1932 BATTLES

Democratic Chairman Avers Party Which Does Not Straddle Will Win

**SAN FRANCISCO**, Apr. 16 (UPI)—The dry law proponents will be the major issue of the 1932 presidential campaign, with economics predominating, Chairman James J. Shouse of the Democratic executive committee believes.

Speaking to San Francisco business leaders last night while on tour of the country, Shouse declared that the party which sincerely believes the issues with "straddling," will elect the next president.

Firm Stand Vain

"The dry law movement takes a firm stand on unemployment," Shouse said. "Tied up with this is the Hoover-Gruendy tariff, which has been responsible for a great deal of the depression effect on our foreign trade."

"The question of prohibition must be settled first. The party is divided on this subject. It's gallows of my own sentiments, which are against this prohibition amendment, but I believe the party would come out with an outrageously dry plank in its platform than try to straddle the issue."

"It is neither the time nor

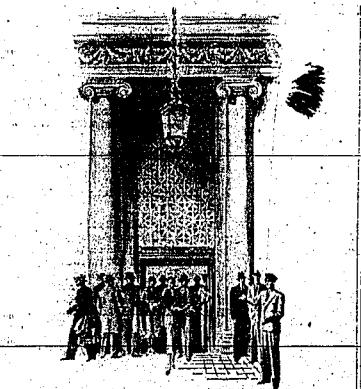

the occasion, perhaps, to bring up the question of prohibition," he continued. "I ask you as self-respecting men and women if your are satisfied with existing conditions."

Kremer Speaks

Bruce Kremer, Democratic congressman from Montana, told the press yesterday a return of 1924 government."

"In 11 short years our country has lost more wealth than has ever held in the world," he said. "The liberties of man have been trampled upon. Perhaps a million Americans have died during this period of depression. In the future, commerce stands idle because ports of the world are everywhere except New York state will be held in the new municipal agriculture lies prostrate."

**LIGHT BEHIND THE MOUNTAIN**  
**IDAHO:** A dreary desert thinly populated by jackrabbits, hornedtoads, and a tribe of Indians that raise potatos and vote for Borah.

That is a rather free translation of the average Easterner's conception of our state; but, in the main, more accurate than any Idahoan could believe. And who can blame Mr. A. Easterner?

While California, Oregon, Washington, Arizona and others of our sister states are telling the world of the wonders of their commonwealths via extensive advertising and publicity, Idaho remains dumb.

In fact, we are emulating all three of the "Wise Monkeys" by also being deaf and blind to the tremendous publicity possibilities within our easy reach.

Any adequate state advertising campaign conducted in the paid columns of national periodicals would cost hundreds of thousands of dollars . . . and such an expenditure is at present out of the question as far as Idaho is concerned. BUT right at our finger tips lies limitless material for every type of interesting story and article that writer or editor could imagine—unique copy beyond the wildest dream of a delirious press agent.

The Grand Canyon of the Snake River is deeper than the world famous Grand Canyon of the Colorado. We have the largest area of standing white pine timber in America—and the largest phosphate deposits in the world, Mesa Orchards is the largest individually owned orchard tract in the world. And these are but a few of our records.

We have the biggest of this and the best of that from canyons to farm crops—but nobody knows it save a handful of people.

If California had these things, every man, woman, and child who could read would be apprised of the facts—and a fair percent would come to see for themselves. And these are not just tourists. They are potential buyers of farms and builders of factories.

The cost of a comprehensive, efficient, and energetic publicity campaign would be small. It could be financed easily even under present conditions. And spending a few thousand dollars for intelligent state promotion work would bring a return of hundreds of thousands.

"E-dah-ho," the Indian word from which Idaho is derived, means "Light upon the Mountain"; but we're keeping our light hidden behind the mountain.

We're ignoring big opportunity. The world of print is eager for live, interesting copy—and Idaho can supply reams of it. To be sure, there would have to be some sugar-coating so that the pill of publicity could be taken easily and agreeably.

But pleasantly present Idaho—I Idaho—Idaho enough times before the eyes of enough people and we will get our full share of new residents—new life-giving blood in our economic arteries.

#### A PLAN FOR OUR VIRGIN ISLES

**COMMENTING** on the impoverishment in the Virgin Islands, which he recently visited, President Hoover declared, "Viewed from every point, except remote contingencies, it is unfortunate that we ever acquired these islands."

And perhaps Virgin Islanders are just as sorry as the president that the United States ever made the purchase. Since we took possession of this little trio of islands in the Caribbean 14 years ago, their profitable rum business has been ruined by the Volstead act and their commerce hampered by our shipping regulations. As a consequence thousands of natives have left the islands, and they are worse off economically than they were under Danish control.

But it is a mistake to assume that we can do nothing in restoring in some measure, the prosperity they once enjoyed. The natural charm of the islands, which have been called "The Gardens of Eden of the Caribbean," suggests, for one thing, that we might develop them as a resort.

It would require no superhuman effort on the part of the government to lure some of the thousands of Americans who travel to Bermuda, Cuba and Panama to the tropical playground which really belongs to them. The islands comprise "the loveliest playground in the world." The tiny islands with their brilliant flowers and fragrant forests, glow like jewels in the blue of the Caribbean, each in a setting of sparkling white beaches and bays shimmering emerald and sapphire by turn. The Virgin Islands are fairy isles, homes of romance, basking in the lazy sun of the tropics.

As poor an investment as the \$25,000,000 we paid for the islands may now seem, there is no denying they have possibilities as an all-year-round resort. It is a lamentable fact that this paradise must be called the poorhouse of the Caribbean.

Some think they should and some think they shouldn't. At any rate Idahoans have had something to think about over the transfer of prisoners from the penitentiary to the insane asylum. Both the warden and Commissioner Williams are equally conscientious but there is no getting away from the fact that criminals belong in the penitentiary, even if it is necessary to provide an insanity ward.

# Great Mass Meeting

CALLED TO HEAR

## MONTAVILLE FLOWERS

ORATOR, STATESMAN, AND CONFIDENTIAL FRIEND OF THE GREAT THEODORE ROOSEVELT  
WHO WILL DELIVER HIS FAMOUS ORATION ON

## "LIBERTY"

Friday Night, April 17, 8 P.M., Twin Falls High School

## THE CHALLENGE

Against Freedom and Good Citizenship  
HAS BEEN ACCEPTED

Mass production is a problem in mechanics, of benefit to all.

Mass distribution is a method of degrading humanity by greedy men of wealth. They dazzle your eyes with a bait of low prices on certain articles, but their system tends to uplift life very community, which they pretend to serve.

The average well-conducted INDEPENDENT STORE gives just as good value, all things considered, as does the chain store.

The Independent Merchant, the Free Man, helped build your schools, churches and communities. He is entitled to the benefits which accrue from them.

Man can work long hours a day, sleep low wages and be a credit and a benefit to his community.

The men belonging to our organization invite you to join them if you are in favor of building good citizenship and maintaining your community on a high plane.

165,000 salesmen were eliminated in three years by mergers, chains and combinations. This alone has caused a loss of ONE BILLION DOLLARS in spending power to your community.

We feel it our duty and obligation in our power to drive from public office all those who would lower our standards and impede our progress.

Many small business men have received low estimates.

Many business buildings are empty.

Thousands are out of work.

Keep your money at home by patronizing the independent merchant.

ENJOY YOURSELF AND MEET US AT 8 P.M. AT THE TWIN FALLS

## MEMORIAL CAMP CONTRACT GIVEN

George Slichter Gets Labor Contract for McCluskey Memorial Camp at Buhl.

**BUHL**, Apr. 16 (Special) — The labor contract for the construction work at the McCluskey Memorial Camp at Buhl was awarded yesterday. George Slichter, contractor of Twin Falls, when the bids were opened yesterday afternoon, said the main building to be remodeled will be one story high, high construction without plastering, with a large kitchen, a sunroom, a summerline. The kitchen will be installed in the rear of this building and the main part will be dormitories and conference rooms.

Members of the building committee, who are not named yet, Mrs Louise McKey, Tuesday afternoon stated that work will begin immediately although no time has been set. The kitchen which will be set as part of the labors will be donated.

The remaining memorandum concerning the plans will be given later. Members of the building committee who are not yet: Mrs. Nels L. Johnson, Mr. P. Dunn, Mr. Eddie McCluskey, Mrs. Frances Constant, Mrs. E. J. Daly, Mrs. Harry Wilson, Mrs. C. O. Smith, Mrs. John Murphy, Mrs. Nedra and Fred T. Parikh.
