## U.S. WOULD BAR POISON GAS AND UNDERSEA CRAFT

Geneva Confers Listen to  
Drastic American Plan  
For Arms Clash

## NINE-FOLD PROGRAM OFFERED AT MEETING

Total Abolition of Submarines  
Advocated Among Other  
Things

GENEVA, (UPI) — The United States has proposed to the world nations that, in addition to armament, the complete abolition of the submarine, limitation of heavy mobile artillery and the prohibition of the use of poison gas and bacteriological warfare.

These were the high points in a nine-fold program made before the world disarmament conference by the American delegation.

In a bold and dramatic gesture,

the U.S. delegation urged

the other powers to make

scheme of disarmament touching

virtually every phase of warfare.

It was

the American government's

recommendation of the draft

convention as containing the

outlines for a convenient build-

er discussion, with the expressing

of a desire to give the conference

consideration to any supplementary

proposal calculated to ad-

vance the end we all seek.

We suggest the possibility

of presenting the existing naval

agreements at London; and, we ad-

vocate completing the latter on

the basis of the adherences

of France and Italy.

"We advocate proportional

reduction from the figures laid

out in the Washington plan

as soon as all parties to the Washington agreement have en-

tered this framework — we long

have done the total abolition of

submarines."

"We will join in formulating

the most effective measures

to prevent civilian population against

war," said the American delegation.

"We advocate the total abol-

ition of lethal gases and bacteri-

ological warfare."

"We advocate the computation

of the number of armed forces

on the basis of the effectiveness

for the maintenance of internal

order, not on the basis of

war defense. The former

are obviously impossible of

reduction; the latter is a ques-

tion of relativities."

"In advocating special restrictions for tanks and

heavy mobile guns, in other

words for those arms of a military nature which are likely to become

involved in future conflicts,

we believe it would be best

to confine or to limit

them — such a plan would be fol-

lowed by an authoritative source to-day."

Questioned as to the adequacy

of reports that the defense

would insist in the pacts of

protection, Mr. McFadden re-

plied: "I do not know if

they will insist on that."

"We advocate the total abol-

ition of lethal gases and bacteri-

ological warfare."

# GOODING LEGION TOSSEES DEFEAT TWIN FALLS FIVE

Locals - Los Hard Battle to  
Northside Quint by  
Score 30-29

Twin Falls' friendly Fiveagers bowed to an opposing team for the first time in Legion Monday night, when the Gooding Legion, led by twin five handed the locals soundly 30-29 trouncing on the Twin Falls high school floor.

The two teams played a small lead during a greater part of the game, including at the half, when the tally was 11-11. Although the Twin Falls team did not score in the second quarter and again in the second half, they were unable to break into a safe lead.

Gooding Legion and Northside Quint, two of the star players of the local outfit, were out of the Twin Falls team.

The two teams will play a return match on the Gooding college floor, probably next week. Both will participate in several other tournaments in the annual Gooding college Outlaw Tournament February 11, 12 and 13.
