PLAN TO PAY WAR VETERANS IN FULL MOVES FORWARD

Bill Sponsored by Patman May Be Passed Despite Hoover's Protest

ENACTMENT OVER VETO HELD PROBLEMATICAL

President Warns Against the Measure in Statement Issued Tuesday

WASHINGTON, (UP)—The warning of President Hoover against passage of the compensation certificate bill, estimated cost of \$2,000,000,000, has been a factor in the White House disapproval of a project that has been gaining momentum in Congress since the passage of the bill in 1924. At the same time there is shaping a bill, quietly and with apparent intention, to amend the law to move to distribute twice this sum in cash immediately to World War veterans.

Yeto Forecast
General Washington opinion in the Congress will pass the measure if its advocates can force it to a vote. A presidential veto in such a case would definitely forestall the measure, Hoover's statement. Whether Congress could pass the measure by a two-thirds majority over a veto is uncertain.

The project is contained in House bill introduced by Rep. Patman, Dem., Texas, a young man who has been campaigning throughout the country for it. He is an earnest, outspoken, person, clean-cut in appearance, neatly dressed, looking rather more like a legislator than a politician. He is throwing into the mix the word "bankers" of the country.

The argument against Patman's proposal is chiefly that the government cannot afford to pay \$2,000,000,000 which it is already piling up a huge deficit.

But the bill's argument is summarized by Patman to the United States House of Representatives. As to the expense involved: "The payment can be made without unduly taxing the budget, without a tonnage or excise tax, without increasing interest payments by the government, and without anything about unduly taxing the budget when it was pertaining to the war." Patman also mentions other international bankers.

PLAN PARDON FOR LUMBERMAN OF 24

Oscar Johnson Unwilling to Orime to Save Father From Jail

OSAGEVILLE, Mo., (UP)—A 24-year-old lumberman who confessed a crime he did not commit to save the father of a family from going to jail, named freedom today by the state of a governor's pardon.

Oscar Johnson, a young lumberman, took the fall, and his wife and children into his cabin for a few weeks' appearance there, seeking shelter.

The father was sick and John Johnson turned him back to health, for the family might have starved. The attorney general's office arrived at the little cabin in near Laramie and accused him of stealing a barrel of coal.

Martin to Prosecute Men Indicted in Idaho

Lewiston Attorney Will Act for State in Trial Alleging Fraud

LEWISTON, (UP)—Three men charged in 45 indictments with fraudulent sale of oil and gas in connection with the state highway department office in Lewiston were prosecuted by Noel H. Martin.

Martin, a Lewiston attorney, was appointed special assistant attorney general by Attorney-General Fred Habcock. Habcock is here investigating the case.

Martin took an active part in presenting the evidence against the defendants, who were charged with being persons or fraudulent vouchers, Gorman is also accused of receiving stolen property.

British Divino's Alleged Relations With Women Are Investigated

LONDON, (UP)—Women's Committee is demanding to know today if the white-headed 50-year-old Reverend Harold Francis Divino has been in contact with his own whims or saving souls of wandering women during five years of his social activity.

Miss Gwendoline Harris, secretary of the committee, testified today she looked like Greta Garbo. He had been accused of relations with her over a two-year period.

Wasn't that because you were always posing like Greta Garbo and said that just in honor of B. F. Levy, Dr. Davidson's counsel, who she had married?

She denied that the doctor had ever tried to "seduce her from her husband." She admitted, however, that she had met the doctor. Dr. Davidson arrived at the hearing 20 minutes late. He wore his usual grey suit, clerical collar, and a white necktie.

Miss Harris testified that Dr. Davidson came to her room often to see her. She said, "I never saw him, no sex, she said."

GOVERNOR RECEIVES ENDORSEMENT DURING TURBULENT CONVENTION

DAVENPORT, Iowa, (UP)—Gov. Franklin D. Roosevelt of New York today added Iowa's 26 delegates to the list of those supporting his candidacy for the Democratic presidential nomination.

The Roosevelt endorsement came after a turbulent state convention which also adopted a resolution favoring the adoption of a state option prohibition amendment to the state through constitutional convention.

Considerable sentiment for an unqualified delegation was present in the convention and opponents of the New York executive charged Iowa had been "railroaded" into the column of central-west states including Minnesota and North Dakota already supporting him.

Beer-Negotiations Fail to Progress

DAVENPORT, (UP)—Negotiations between beer-growers and the Great Western Sugar company over the 1932 beet contract were not successful today.

The growers yesterday submitted a contract proposal to the company providing that the farmers should be paid 60 per cent of the proceeds derived from the sale of all the produce coming from a ton of beets, and that the minimum price should not be below \$1.00 a ton.

The company rejected the plan. Previously the growers had rejected an offer by the company to pay 50 per cent of the net price derived from the sale of sugar from a ton of beets as a contract price.

NORFOLK, Va., (UP)—Norfolk investigation continued today the 21 annual kidnapping charges of the "Two Falls Canal company" was taken over by the Norfolk members of the board of directors.

Originally April 1 was the final date for payment of the bill without penalty. The date was advanced to May 1 for the convenience of those members who are interested in using federal funds to care for maintenance, as well as members who will require the additional time to finance the bill.

Sen. Eugene C. Burdette, Republican, said that a conference was held at 10:30, with representatives of the canal company and the state department of reclamation.

Move to Legalize Beer Is Considered Effort to Ban Prohibition

W. C. T. U. (UP)—Staunch opposition to any form of referendum or reamendment of the 18th amendment was expressed today by reports filed before the national Women's Christian Temperance Union conference.

Historians show that all such proposals to be the first step in repeal of the prohibition amendment.

The proposal to legalize 60 per cent of the net price derived from a ton of beets as a contract price, and that the minimum price should not be below \$1.00 a ton.

The company rejected the plan. Previously the growers had rejected an offer by the company to pay 50 per cent of the net price derived from the sale of sugar from a ton of beets as a contract price.

Garner Scores With Speech in Behalf of Present Tax Measure

House Approves Recommendation for Increased Corporation Levy Following Speaker's Address

WASHINGTON, (UP)—Speaker Garner today threw himself into the thick of the tax bill struggle with a speech on the House floor urging adoption of a way and means committee amendment placing a levy on consolidated corporation returns.

Garner, whose appearance yesterday with a dramatic plea for a balanced budget ended factious fights which had torn the original revenue bill to shreds, won another victory by his unexpected speech today.

Representative Cannon, Dem., Missouri, withdrew his substitute proposal to abolish the privilege of consolidated tax returns. Cannon explained his action by saying he wanted to "follow the Speaker."

The House then adopted the recommendation of the ways and means committee for an increased corporation tax program which would place a 16 per cent levy on a consolidated return for a corporation and an individual tax of 12 1/2 per cent on single returns. The single return rates compare with 16 per cent previously recommended and 12 per cent in the existing law.

The increased corporation tax was part of a program of new amendments submitted by the ways and means committee to increase the revenue without power of the revised tax bill by \$45,000,000.

Acting Chairman Crisp of the ways and means committee announced the House that Garner supported the committee amendment. Garner then arose to "clarify my position."

"I will not vote," he said, "during the next year or two, whether I am right or wrong, consolidated returns. I feel that those who believe we should permit 'consolidated' returns are right. I feel sure that there is no defense for consolidated and affiliated returns. The way to get out is to penalize corporations which have consolidated returns."

"Remember, gentlemen, the tax as framed by the committee will yield \$180,000,000. It will yield a larger sum of money if we abolish the consolidated and affiliated returns but as you know how much will be gained."

"Don't think, gentlemen, that the abolition of consolidated returns would result in \$180,000,000 in 1932."

INCREASE LARGE IN SNOW REPORT

Greatest Amount of Snow in 13 Years Says Word From Moran

IDAHO FALLS—An extraordinary increase in the amount of snow in the Snake River watershed during the past few weeks was shown in the latest report from the Snake River watershed at Moran, Wyo., received this week by Lynn Crandall, watermaster, in his report.

Mr. Crandall declared that the Snake River watershed area is being irrigated sufficient water for the coming irrigation season has been removed and the average precipitation as Jackson Lake and American Falls should be maintained throughout the summer.

Late snow conditions on the watershed northeast of here are greater now than for any time in the past 13 years, according to 1927, the report says. Following is the report:

Between the first of March and the first of April, the water equivalent of the snow on the Jackson Lake watershed has been from 22 inches to 28 inches, an average increase of 27 per cent over the entire watershed since the first of March.

The snow is reported to be exceptionally dense and heavy, being 35 per cent water on an average.

It is only one year, 1927, during the past 13 years has there been a greater amount of snow on the Jackson Lake watershed at this time of year than is now reported. The present amount of snow on the watershed is reported to be the greatest since the filling of both Jackson Lake and American Falls reservoirs in 1927. It is expected that the snow will melt during the summer, will result in large snowdrifts, next fall at both reservoirs.

WARDEN BAILEY

THE EVENING TIMES believes it is voicing the sentiments of all true sportsmen of Idaho when it deplores the resignation of M. P. Bailey, state game warden, who has accepted a more lucrative position in the business world.

In this locality particularly have Mr. Bailey's far-sighted policies been illustrated, and high appreciation is expressed for the excellent manner in which he has worked with the Southern Idaho Fish and Game association during his single year in office.

His many friends over the state—and they are legion—will wish him continued success in his new undertakings, and the hope is expressed that his successor, whosoever he may be, will be able to advance Idaho's game resources so efficiently and constructively as they have been under the present administration.

THE LINDBERGH BABY AND THE PRESS.

SOME of these days the world is going to be made happy with news of the safe return of the Lindbergh baby!

Newspapers all over the country are prepared for the story. Photographic cuts of the child and its parents are all ready and the headlines have been written.

The news may appear in your evening newspaper or in the morning—makes no difference as far as the world is concerned. When newspapers want, as well as the world, is to get the child back safely. Press associations have done more and are doing more than the public may ever know in shaping things for the possible return of the baby.

You hear that the newspapers have spoiled the case, that sensationalism is responsible for the delay that has existed. This may be partly true as far as the metropolitan press is concerned, but of course, when that criticism is uttered, country newspapers are not involved, for they only reflect what is going on back east—and besides what is said in a distant part of the United States has no effect on kidnappers presumably located near the scene of the crime.

Newspapers and newspaper men are presumed to be on the "inside" of many news developments, and they are. Doubtless many of them are laboring conscientiously on this case, maybe not reporting developments, regardless of how much you want to know, but perhaps preserving confidential information and cooperating with the officers to the fullest extent.

In this connection it will interest everyone, perhaps, to know that the Lindbergh story is preceded by leading newspaper men to have been the biggest piece of news since the Armistice; and without doubt the biggest in a decade, combining as it does all the elements of a big news: heart interest, mystery, suspense and sustained interest.

Frequently newspaper folk are queried as to what they think will be the developments in the case—say if they know any more than the laity. Perhaps their wish is father to the thought, but generally speaking they have an abiding faith in the reappearance of the child. True, there is a group of cynics who believe the baby will never be returned—and they are right!

But there is an abiding faith strongly predominate that the reading public will have the pleasure some of these days of the big news, and thus will open a train of follow-up material such as has never before been experienced, as the result of this baffling, unique, phenomenon of 1932.

AN EXCELLENT IDEA

MAYOR JACK EDWARDS of Marion, Ind., seems to have had an idea that many another city could profitably copy.

Mayor Edwards' idea, briefly, is to have all traffic law violators pay their fines in articles of food, clothing or fuel. The commodities obtained in this way are turned over to the city's needy.

It would be heard to imagine a neater way of killing two birds with one stone. The traffic offenders get punished for their misdeeds, the city is materially helped in its task of caring for the unemployed, and there is no extra burden on any one.

The idea is one that mayors and city councilmen everywhere ought to examine.

FOOTBALL AT CHICAGO

DISPATCHES from Chicago the other day, announcing that the University of Chicago is going to establish stricter entrance requirements for its students in the future, led a number of sports writers to predict that the university would presently cease to be a very important factor in Western Conference athletic competition.

One writer said that Chicago fans were complaining because "strict entrance requirements bar men who have allowed the scholarship to drop a bit while devoting time and energy to athletics."

This, probably, is highly deplorable. The Chicago University authorities seem to have the odd notion that a university is actually a place for study, and that athletic diversions should be allowed to interfere with the scholarship. Suppose some other universities that are not infected with that notion; what on earth would become of football?

HOUSE GETS BUSY ON TAX MEASURE

Harmony Prevails As Legislators Spend Up Important Bill

WASHINGTON, (UP)—The House passed harmoniously and with unprecedented speed Tuesday a bill toward enactment of a revised \$24,000,000 tax bill.

Three hours after a vote plan for raising \$247,000,000 was submitted nearly half of it had been adopted. The spur for such a rapid speed was supplied by Speaker Cramer in a speech warning the House that the worst panic in the history of the country would be the result if the budget would be balanced.

The House important tax measure in the fiscal year in the House was a 3 per cent levy on automobiles, 2 per cent on trucks, and 1 per cent on other motor vehicles. This tax, dedicated to raise \$500,000,000, was one of the key provisions of the attack by the Senate for the defunct sales tax.

A drastic new scale of luxury taxes also was written into the bill, almost without protest. The list included 10 per cent on jewelry, cosmetics, furs, platinum and silverware, 5 per cent on hand yachts, and 5 per cent on radios, candy, and phonographs, even a number of were taxed, a cent per 1,000.

The whole proceedings were characterized by harmony, but a few minor dissenting opinions which had been falling over the bill for two weeks. There was no party line followed by the majority, and the bill, Republican, New York, charged Representative Martin Stromer, a Republican, receiving two government pay checks.

The vote was suppressed quickly by the leaders.

New Pernicious Anemia Solution Found Effective

BOSTON, (UP)—Seventeen times as potent as liver and some other preparations for "ironing" iron concentrate now available, a new method has been developed by Dr. William B. Cole of Harvard Medical School for the treatment of pernicious anemia.

The new treatment is described by Dr. Cole in a paper read at the annual meeting of the British Medical Association, Dr. Murphy, widely known for his connection with the discovery in 1921 that liver was of value in treating anemia, is continuing his research.

So powerful is the new liver extract, according to Dr. Murphy, that it affects even the most stubborn cases of pernicious anemia. Injections may be made of it every two or three days, and the improvement may be noticeable within 24 to 48 hours after the first injection. It is injected into the patient's muscle at intervals of from one to three days, or more weeks, the dosage and frequency of injections to be determined by the attending physician.

Battle Over Estate of Idaho's "Silver Queen" Begins in Circuit Court

SAN FRANCISCO, (UP)—A battle for the \$300,000 estate of May McArthur, Idaho's "Silver Queen," is on in the United States Circuit Court of Appeals.

Her estate, which was valued at \$1,000,000, was divided into two parts. One part, valued at \$500,000, was to go to her husband, and the other part, valued at \$500,000, was to go to her children.

With a little money they saved, she started a claim and worked it out for three years without result. One day an unemployed but experienced lawyer looked over their property, and he saw a chance to share in it. He went to work to it.

The claim later became known as the Heron Silver and Lead mine, from which one valued at \$2,500,000 was taken.

Mrs. Hutton formed a company, the Hutton Silver and Lead mine, and her husband joined it. Within a few days she was in Washington, and she went to work to it.

DUSK

By HELEN WELSHIMER

THESE are the things men seek at dusk:
A soft glow of moonlight,
Green shadows against dim rocks,
Garden where flowers bloom.

IT AMPLIFIED gold of a wardrobe,
They said, all day alone,
When you wish a slaking sleep,
For a night's rest.

PAINT of a small child's glowing gray,
Cauldron, "table" set,
With a blossom on a grey lace bow,
Fragrance of ousted bread.

FORK may be made of a paper ship,
A ball, or a spiny camp,
Butler's hands pull a humming way,
To a woman, a child, a lamp.

Young Business Girls Observe Anniversary

Simultaneously with younger business girls of the Y. W. C. A. all over the world, members of the Muzie-Y club, their sponsors and honor guests, sat down at a world fellowship banquet at the Park hotel, Tuesday evening. It was the fifth anniversary of the world-wide organization of younger business women, and the theme was "Pioneering."

Mrs. John P. Hayes, guest speaker, at the event, gave the most inspirational address on "The Gift of Pioneer Women." Her talk with accents on the fact that while adventure was a large motive, it took more than adventures to help women in this "wild west" of yesterday.

Required courage to face the outdoor danger elements, such as Indians and bears, Mrs. Hayes pointed out. Pioneer women were required to enter by themselves, and were called upon to minister to each other in life and death.

Women of Resources. Respected to be appreciated, resourcefulness was called upon to make possible the pleasure of pioneer days. Fellowship and willingness to serve, were necessary characteristics of pioneer women.

They also possessed a quality of vision which made possible for them to get across spiritual thorns to keep and to pass on to their children, cultural things which, raised life gradually to its present level.

Mrs. J. W. Grubb, one of the speakers of the club, told of the reaction of early Oregon pioneers to the wants of women.

First and second prizes for contract went to Mrs. J. D. Orr and Mrs. J. L. Holtz; for music, Mrs. J. W. Grubb; for needlework, Mrs. W. B. Smith; and for public speaking, Mrs. C. Peterson and Mrs. Leonard Hill.

Benefit party. The benefit card party, sponsored by the musical Lecture Auxiliary at Legion Memorial hall Tuesday afternoon, was especially successful. Mrs. G. E. Foster was general chairman of arrangements, and also table chairman.

Members of the club, told of the reaction of early Oregon pioneers to the wants of women. First and second prizes for contract went to Mrs. J. D. Orr and Mrs. J. L. Holtz; for music, Mrs. J. W. Garner Scores With Speech on Tax Legislation

Revision of the gift tax to a maximum of 32 1/2 per cent. The new amendments were advanced because the bill would not raise enough revenue to balance the budget, according to Clatsop County officials.

Reagan estimated the possibility of the tax as follows: At places \$2,000,000; pipe lines \$15,000,000; corporations \$5,000,000; gifts \$10,000,000; and affiliated returns restrictions \$18,000,000.

It was apparent the committee was acting with such speed that exact estimates could only be obtained by comprehending the underlying tax figures.

LEVIES ON EACH WASHINGTON, (AP)—

The increased duties on imports will have little effect on incomes of less than \$10,000 because of the exemptions for dependents.

The proposed rates on a \$10,000 income would mean a tax of \$100 for a married man with two children. This includes a surtax of \$25.

Plan to Pay War Veterans in Full Moves Forward

The government has reduced the maximum debt to \$25,000,000 more than as required by law. Therefore, the government could pay the delinquent certificates in full and still not owe more than Congress contemplated it should under the scheduled for retirement of the national debt.
