U. S. C. CONCEDED 40 TO 60 POINTS

Observers Predict Victory In Big Track Meet For Trojan Athletes

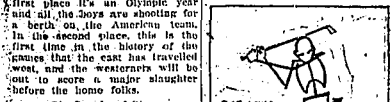

Berkeley, Cal. (UP)—Despite gloomy predictions from Coach Lewis Cromwell of the University of Southern California, regarding his team, observers today predicted the intercollegiate A. A. U. A. track championships here today and Saturday will be won by U. S. C.

The Trojans have been conceded 40 to 60 points in the meet... Eastern colleges, with 228 track stars entered in the meet have completely conceded victory to the Trojans.

"The tendency has been to subordinate eastern athletes," Farrell declared... "Anticipating general new intercollegiate records, G. T. Kirby, U. S. C. A. A. official, will introduce the "Kirby electric eye" for the first time this week.

GOLF ART KRENZ

Although many golfers keep their feet firmly on the ground and resist the pull in from below, it is wrong if the left heel is lifted in the backswing.

REPLACING THE LEFT HEEL IN THE DOWN-SWING... THE LEFT HEEL SHOULD BE KEPT TO PROPERLY.

And there's no reason why they shouldn't... The new surroundings are not calculated to make the eastern team trophy.

Now, if the left heel is lifted in the backswing, replacing it should be the first action of the down-swing. This will cause the weight to be shifted properly and will move the left side out of the way so the arms and hands can swing freely.

PORTLAND HOLDS ONE-GAME LEAD

Ducks Defeat Los Angeles As Sacramento Conquers Hollywood Stars

By United Press Once Tom Turner's Portland aggregation got within stone's throw of first place it didn't take them long to capture the leadership of the Pacific Coast league.

The Ducks held a one-game lead today because of the determined stand Sacramento took against the faltering Hollywood Stars last night. Although out, their Senators bunched hits in the seventh and ninth to win the second straight over Hollywood. The score was 5 to 2 and Lefty Venci was credited with the victory.

While the Senators were pulling Hollywood from first place, which they had held several weeks, Portland was having trouble at home. A run in the ninth gave them an 8-0-7 win over Los Angeles. Both teams used three pitchers in the free hitting melee.

WEDDING GUESTS ATTEND RECEPTION

Social Affairs Following Impressive Ceremony, Honorers Bride and Groom

BIRTH. (Special) — One of the most beautiful weddings ever held in Tula was solemnized at the Presbyterian church Tuesday afternoon at 2 o'clock when Miss Jeanne Sheroy, daughter of Mr. and Mrs. J. Hugh Sheroy, Sr., resident of Tula, was united in matrimony to the bride of Edgar Davis Slaton, mining engineer in the employ of the St. Louis and Ancon company, Atlanta, Idaho. Their marriage was the culmination of a college romance. Mr. and Mrs. Slaton graduated from the University of Idaho and graduated together in the class of 1929. Their families were friends in Colfax, Wash.

Before the entrance of the bridal party, Mrs. C. W. Halsey entertained the guests at the organ and Mrs. H. C. Jepson sang "Promises, Promises." The wedding procession "Wedding March" by Mendelssohn, and the recessional "Wedding March" by Mendelssohn, were played by Mrs. C. W. Halsey.

Bridal Procession
The bride entered the church on the arm of her father, preceded by two little flower girls and her attendant and who were met at the altar by the groom and best man. The Episcopal ring service was read by Rev. C. W. Halsey, pastor of the Presbyterian church. The bride was exhibited in a gown of white silk and tulle, trimmed with white satin, made entirely of silk, trimmed with old Irish lace, yoke and beaded pearls, also a long bridal veil, trimmed in orange blossoms and carried a shower bouquet of bride's roses.

Her attendant, Miss Virginia Vance of Mackay, Idaho, college mate at the University of Idaho, wore a gown of white silk and tulle picture hat, trimmed in pink velvet and carried a shower bouquet of roses and sweet peas. Her bridesmaids were Misses Hazel Halsey, three-year-old daughter of Mr. and Mrs. Raymond Halsey of Tula, and Misses Mary, three-year-old daughter of Mr. and Mrs. W. K. Sorensen of Twin Falls; were flower girls, and were dressed in orange dresses in the pastel shades of pink and blue. Their dresses were made empire style and to the floor and they carried orange bouquets. The reception was attended by J. Hugh Sheroy, Sr.

The ushers at the church were the Messrs. Harold Perry, William Stubbaker, Charles Carney, William Kowalek, Jay Gessner and Hollis Kroelich.

The church was beautifully decorated in pastel shades of pink, orange, yellow, and blue. A colorful, sweet pea, pansy and carnation arrangement was placed on the rear of the altar and was decorated with greenery while the immediate foreground was a bank of asparagus fern and rambler roses forming a clunch with candles on either side of the altar and back. Each window was decorated with asparagus fern and sweet peas in a basket of flowers. The pews on the center aisle were

City Official Is Held In Killing

Twenty-four hours after the death of Mrs. Howard Halsey (top photo), 32 wife of a Logan, Va., policeman, was found by a domestic mountain trail near Logan, Harry Robertson, president of the city commission, was arrested, charged with her murder. The arrest followed discovery of blood stains on the city official's automobile, police said. Robertson authorities claimed, admitted having encounters with Mrs. Logan, who was prominent in church and social work in Logan.

marked with orange bouquets and the stairway of the entrance hall was lined with roses. The bride was under the direction of Mrs. H. N. Holt of Twin Falls, who was assisted by Mrs. H. C. Gier and Mrs. L. J. Johnson of Tula.

Reception on Lawn
Immediately following the ceremony a reception was held on the lawn of the Sheroy home at 527 Eleventh avenue north to about 100 guests. Before a white trellis and background of garden flowers stood the receiving line, including the bride and groom, bridesmaids, Miss Virginia Vance, best man, J. Hugh Sheroy, Sr., bride's parents, Mr. and Mrs. J. Hugh Sheroy, Sr., bride's grandparents, Mrs. B. F. Sheroy, mother of the bride, and the bride's aunt, Mrs. J. W. Sheroy of Pomeroy, Wash. Punch was served by "Coco" and the bride was given by the Misses Mollie Tyler, Maxine Winn and Helen Kambridge. Another small table held the wedding cake in three tiers decorated with white with bride and groom on the top and the bride's cake in three tiers decorated with orange blossoms and white flowers.

In the house the dining table was covered with a lace cloth. The

centerpiece was a bowl of white sweet peas, silver candelabra and white center. The silver coffee service, one at each end of the table, were provided over the first hour by Mrs. S. A. Weber and Mrs. Florence Nelson and the second hour by Mrs. H. F. Sheroy, grand mother of the bride and Mrs. M. J. Dinkel of Twin Falls. Refreshments of bride's cake, wedding cake, finger sandwiches, ice cream in heart form and coffee were served in the dining room to a full house at a time by the Misses Thelma Sheroy, Dorothy Cunningham, H. F. and G. Cunningham, Mary Hill and Mrs. Raymond Kutz.

On Wedding Trip
Shortly before 6 o'clock Mr. and Mrs. Slaton left on their first day's honeymoon in Salt Lake City, after which they will make their home in Atlanta, Idaho. The bride's traveling costume was green and eggshell crepe with green hat and white accessories.

Out of town guests were Messrs. William Kowalek and Jay Gessner of Logan, Utah; Mrs. H. C. Sheroy, Colfax, Wash.; Mr. Dean Sheroy, Miss Maxine Sheroy and Mrs. W. W. Sheroy, Pomeroy, Wash.; Mr. and Mrs. Hollis Kroelich, Seattle, Wash.; Charles Carney, Washington, D. C.; Mr. and Mrs. W. K. Sorensen, Mr. and Mrs. A. M. Wheeler, Mr. and Mrs. Phelps, Mr. and Mrs. M. J. Dinkel all of Twin Falls, and Miss Virginia Vance of Mackay, Idaho.

Mr. Treadwell was Hot....

but His Motor Wasn't!

CONTINENTAL OIL COMPANY.
Gentlemen:
I am using my recent Cadillac 1 had occasion to give Germinol Oil a real test, driving some 1,200 miles, temperatures from 105 degrees to 111 degrees. The car never previously stayed as cool, and drove nice, and I attribute it to no other cause than the use of Germ Processed Oil. Yours truly,
T. P. TREADWELL

Although Mr. Treadwell is Chief of the Fire Department at Fort Collins, Colorado, he must have been pretty hot in 100-degree weather; his motor didn't heat up! Conoco Germ Processed Motor Oil withstands heat better because Conoco's exclusive, patented Germ Process gives it extra "oiliness" other oils don't have. That extra oiliness reduces motor operating temperatures. It guards against thinning out caused by heat and crankcase dilution. It gives Germ Processed Oil more stability.

And, no matter how hot the weather, the Hot-End Quart stays up in your motor and never drains away. It stays on top when you start, cutting down vastly wear during the starting period, when almost half of all motor wear occurs.

For Summer, for Winter, any time—Conoco Germ Processed Motor Oil is a better oil for your car. Change now at any Conoco Red-Tri-Apple station.

A BRAVE MARTYRDOM It is impossible to remain unmoved by those stories about the 20 people who, fatally ill of Bright's disease, have volunteered to donate the remainder of their lives to medical science in the hope that future sufferers from the disease may be cured.

These 20, as you have probably read, will be subject to experiment by scientists at the University of Chicago, operating under the Lasker Foundation for Medical Research. They will get the best of care, of course; yet they are doomed to die, and they know it, and there is scant hope that the experiments will be of much direct benefit to them. Eventually, it is believed, their sufferings will bring relief to the whole race. Meanwhile, they themselves must die.

It is a brave and tragic martyrdom.

FIGHTING BECOMES A RACKET A decade or so ago the opposition to prize fights arose chiefly from the fact that they were brutal. Today it comes from the fact that prize fighting has changed from a brutal sport into a dirty racket.

Certainly it can hardly be called brutal any more. The heavyweight title has changed hands several times in the last decade, but not since 1919 has it changed hands by virtue of a knockout; and what such stalwart bruisers of the old days as Sullivan or Fitzsimmons would say about such a situation would not bear publication.

But it has become a racket, and, as is the case in all rackets, the general public foots the bill. And those who run the racket should take an hour or so off some day to meditate on the old fable of the goose that laid golden eggs. If they keep on bilking the public they will find themselves in the position of the man who killed the goose.

300,000 ROVING BOYS Reports from Washington say that fully 300,000 young men and boys are wandering aimlessly about the country these days, going on the bum without the slightest notion of what is ahead of them.

Uprooted by the depression, these youngsters originally set out in the hope that they could find work in the next town, or if not then in the next town after that. In almost every case they were disappointed; now they are simply wanderers, homeless and penniless, constituting an ever-growing problem.

It is vitally important that young men this summer be made to see that it is better for them and for everyone else that they stay at home. The chances are 100 to one that they will not better themselves by going away, unless they have a very definite promise of a permanent job. This nation already has all the roving panhandlers it can care for.

A REVIVAL OF NATIONAL SPIRIT One of the most interesting things about the current demand for economy in government is the way in which numerous small cities reacted to the recent congressional proposal for an extensive postoffice building campaign.

In the old days the "pork barrel" bill was always a sure-fire lit. It got through Congress over and over again because each congressman wanted to make the folks back home think that it was a big shot and the easiest way to do it was by getting an elaborate postoffice building put up in some town in his district.

In the aggregate, this was always horribly expensive, but such bills almost always got through because the separate districts always thought more of their own bit of pork than they did of the federal budget.

This year, however, things are different. There is no example, the state of Missouri.

The proposal in the House of Representatives would have given new postoffices to 17 northwestern Missouri towns. But it wasn't long before the people in these towns began to object violently. They would like new buildings very much, but they would prefer to see Uncle Sam practice a little rigid economy. So most of them let their representatives know, in unmistakable terms that the pork barrel would make no friends back home this year.

Nor was this phenomenon peculiar to Missouri. It happened in many other parts of the country, in many, many towns. A great many congressmen who thought they were about to make themselves solid with their constituents discovered overnight that they had guessed wrong.

All of this, is very encouraging to a believer in democracy.

One of the things that has kept democracy from functioning as well as it might in the United States has been the triumph of the sectional viewpoint. Too many congressmen have tackled all problems from the local angle and have let the national angle go. What we are witnessing now is a revival of the national spirit. It restores one's faith in the

WASH TUBS By Crans Democratic convention; this morning was intended to learn that Texas' 46 votes were "All Wet" (Vote). Why even allasompt with her large per cent Negro population went on record with her 20 votes as being unwaveringly pro-Oklahoma, when her caucus, rolled up 22 votes the same. Shame on her Texas ally, why her Salina friend set too much store with her 8 votes, sent the way of the brass rail and consider, as I suppose I am a man without a country and an alien here about Java sea.

15 YEARS AGO WASHINGTON—The prohibition fight has swifter. Whiskey has been outlawed. It is practically certain that wine and beer will continue to be manufactured. As far as the Senate is concerned the fight will hinge on whether the President will allow the manufacturers, or the Senate to determine the question. I am in receipt of your telegram of June 25, which I am exceedingly glad to have. I am a letter from William E. O'Connell, received by President Arthur C. Hickenham, of the Commercial club. I think I can make some use of this in arguing the Smith bill in the way of an amendment on the food bill. Your telegram shows conclusively and astoundingly what can be done upon these projects and what an inestimable necessity these projects are under when reduced to cultivation. It was response to a telegram from Jim Doug 25 similar proper legislation for the partially completed irrigation districts in the west. Twin Falls county—

Relief for Jobless and Federal Economy Urged In Democratic Platform

Program Adopted at National Convention of Party Favors Federal Loans to States. In Effort to Help Unemployed

CHICAGO (U.P.)—Salient points of the Democratic platform adopted by the national convention:

- 1.—The prohibition plank would commit the party to repeal, wine and beer.
- 2.—Government costs, not less than 25 per cent reduction in federal expenses; actions efforts for approximate reduction of state expenses.
- 3.—Budget balancing by taxation on "the principle of ability to pay."
- 4.—Preservation of sound currency to all hazards and a pledge to call an international conference "to consider the rehabilitation of silver and related questions."
- 5.—Competitive tariffs for revenue and international commerce "to restore international trade and facilitate exchange" and tariff conference to deal with "excessive interference."
- 6.—Unemployment Relief: Federal loans to states for employment relief; shorter hours of labor; Federal public construction in the public interest "such as flood control and water works including the St. Lawrence-Great Lakes project."
- 7.—State unemployment and old age insurance.
- 8.—Agriculture—Improved credit at low rates of interest; national amortization plan; selection of the farm cooperative movement; effective control of surpluses; enactment of every constitutional measure that will aid the farmer.
- 9.—An army and navy "adequate for national defense."
- 10.—Conservation and development of water power in the public interest; impartial, strict enforcement of anti-trust laws but revision for better protection of labor, small producers and distributors.

- 11.—Investment Protection:
 - a. Protection for the investing public by requiring public records of true information regarding all foreign and domestic stock and bond issues; federal regulation of securities and commodities exchanges, banks, companies and utilities doing an interstate business.
 - b. Banking: Quicker liquidation.

"Kidnaped Delegate"

If some presidential candidate comes along and kidnaps the Kansas delegation at the national Democratic convention in Chicago, it will not be a new experience for Mrs. Nell Donnelly (right) delegate-at-large from the Sulfur state. For Mrs. Donnelly, Kansas City business woman, such a feat was the victim of kidnapers last year. She refused to pay ransom and was released.
