THE COUNTY TICKET

One of the strongest tickets ever offered to the voters of Twin Falls county is presented in this election by the Democratic party.

J. D. Barnhart, Kimberly, for assessor, served highly creditably as county commissioner here in 1928-24, and in Colorado, his former state, he was county clerk and recorder for two terms.

E. F. Prater for sheriff is highly qualified by experience and disposition for the job and his administration has proved his rare capability as an administrator in this important post.

Nothing but praise has been bestowed upon Cora E. Stevens for her efficiency as county treasurer and her faithfulness in this position entitles her to endorsement at the polls.

In the office of prosecuting attorney, O. W. Williams has demonstrated his ability and competence by a splendid record the past two years, as his Guy L. Kinney, probate judge, who has brought to that office a high degree of efficiency and capability through his training as a lawyer.

Dr. Frank A. Dwight as coroner has proved to the satisfaction of the public that a physician is the ideal person to fill this office. W. A. Minnick, is the party's nominee for county surveyor, the duties of which office could be most satisfactorily handled by him.

For county superintendent of public instruction, Maude Farley Kleinkopf of Hollister, is experienced in the school grades coming under her jurisdiction, from the first to the ninth, is well equipped for the position, and is imbued with the idea of decreasing expenses of the office while maintaining its efficiency at the highest.

The three commissioner candidates present a record of unquestioned efficiency and economy. Mr. Ray, who is the candidate from the Twin Falls district has an enviable reputation as a public official, is present being a member of the Twin Falls High-way district board, while the two present members of the county board seeking re-election, George R. Hart and James L. Barnes have made a remarkable record in office during the past two years, by reducing expenditures from \$323,000,000 in 1929 and \$328,000,000 in 1930 under the previous board, to only \$288,000,000 in 1931, and this to \$163,700,000 for the first nine months, despite the inroads of public charity, reduced valuations and slow tax payments. Twin Falls county needs the services of these men during the next two years.

On the legislative ticket, the party presents a well-planned group of candidates who are pledged to work together for the interests of this county at the important session this winter. T. Dan Connor, an old-timer of the tract is the senatorial nominee. He is a Filer farmer, with a record of economy as county commissioner during the term 1923-24. The representative candidates, Harry W. Barry, Bullf; John Robertson, Twin Falls; and W. H. Turner, Kimberly, are men of accomplishment and are peculiarly fitted to represent this county.

With the desire of the voters to usher Franklin D. Roosevelt into office, to make Jim Pope United States senator, to help sustain the new administration by sending Tom Coffin to Washington as congressman, and to re-elect Governor Ross, as well as to give him a harmonious set of state officials, Twin Falls county voters will find the entire Democratic ticket offering a splendid array of talent which they can support enthusiastically with the knowledge that they are choosing highly qualified and efficient administrators of the public's business for the approaching term.

The decline of what prices this week to the lowest point in the whole history of trade is a ghastly and ironical answer to the anticipated rise which was to herald the election of President Hoover. There is no one in this country who would not long ago have willingly exchanged restored economic conditions for passing political success. But fate would have it otherwise. Every situation has contributed to the defeat of the administration and has assured the inevitable victory of Franklin D. Roosevelt and his deal for America commencing March 4.

A writer says that golfers are rarely moved by money. But how those golfers can move the scenery about those war debts.

The scientific discovery that England is slowly sinking into the sea naturally prompts a little suggestion about those war debts.

CALL OF THE WOLF

By R. G. MONTGOMERY

BEGIN HERE TODAY STAN HALL, accused ASPER horse to all the picking and dog to lose. Don't mention in spite of herald. Dudley had been riding on Folly Mountain every day for 10 days now but had just a plain old "I'll take you out," dummy said: "The rain is not such a dummy as you think it is."
