The new President is a scatterbrain, according to the Washington Post, and the opportunity to seek rest and recreation in the Virginia country is the best he can offer. THE PEOPLE'S DUTY

Local people have a real duty to perform in the pressing problem of charity. While the situation is acute it is perhaps no more so here than in other places. But because of this city being the metropolis of south central Idaho, there has been an unusual influx this winter of those persons who have no permanent residence.

That may account for a proportionately higher percentage of the destitute, but regardless, wonderful assistance has been and is being received from the outside through Reconstruction Finance corporation channels. To keep this money flowing in, it is necessary that a fair percentage of the funds be matched with local cash.

When it is understood that the ratio of this outside help to local subscriptions is about 10 to 1, it will be seen that each dollar subscribed locally is a wonderful investment.

Those individuals and organizations who have shouldered the load this season, meaning the Associated Charities, the Red Cross, other organizations and the officials of all these, are asking those who cannot give of their time, to give a small amount of cash without putting the entire burden in this regard either on publicly-employed persons or on business houses. These latter can be counted upon to do their share and more, but all must help. It is a duty as never existed before.

There can be no shrinking, no holding back, no unwillingness to do all that is possible to tide the needy people over the few remaining weeks of winter. Tools must be provided for workmen—none of the R. F. C. money can be used for this purpose; and the cash must be on hand with which to purchase groceries and other necessities for those temporarily embarrassed because of unemployment.

The Associated Charities, the Red Cross, the Chamber of Commerce, the service clubs and the American Legion sense this demand and are calling upon the citizens of this community to do their duty. It's a job which has to be done—the quicker and more thoroughly it is accomplished the better it will be for all.

EATING BUSINESS

The House of Vicks—famous for its various household preparations—has its own way of overcoming depression. Instead of retrenching, it expands. It employs more people—spends more on its research division—in developing new products, more money for advertising them. This, in turn, requires the purchase of more raw materials, and helps other business in allied lines.

Just lately this concern introduced a new product—in its production, and in preparation for its marketing, thousands of people were given new or extra employment. Three weeks ago, 132 cardinals of this new preparation went out through wholesale druggists to America's 60,000 drug stores. In each card, there was an added slice of prosperity for bottle makers, can manufacturers, carton makers, glass and paper mills, printers and engravers—to say nothing of the various sources of raw materials for the product itself; and the thousands of whom pay envelopes were created or fattened.

Nor does all this take into account the \$700,000 appropriated for the introductory advertising campaign—over 85 per cent of which is being spent in newspaper space. It's Vicks' answer to the challenge of the times—"Can new business be created in a period of depression?"

Vicks' believes that it can do. In fact, it is proving it, just as many other concerns, large and small, throughout the land are making renewed drives for business through sound newspaper advertising and are succeeding beyond all expectations.

TIN PAN ALLEY

The death in Honolulu recently of Albert R. Cunha, aged 58, calls to mind the odd way in which our popular songs get written.

Cunha, 25 years ago was a Yale student, a tackle on the football team. He liked to write songs, even then and after leaving college he started the craze for Hawaiian songs which swept the country half a generation ago. It was Cunha who wrote "On the Beach at Waikiki," and if your memory goes back 15 or 20 years you don't need to be told of the wave of Hawaiian songs that followed in it train.

To be sure, Cunha actually went to Hawaii—and thereby got a lot closer to the subject of his songs than the ordinary song writer gets. Tin Pan Alley is full of men who write passionately about their humdrum in Alabama, their humble down home in the West and their old plantation in Tennessee, Kentucky or Mississippi—but when they themselves have never been south of Brooklyn or west of the Hudson river.

If our jobless seem a little more glum than usual it's probably because they've been reading about baseball holdouts rejecting \$24,995 offers and won't sign up for one cent less than \$25,000.

Where would the world be but for the international goodwill created by last summer's Olympic games?

Famed Attorney Has Gloomy Attitude Toward Modern Day Existence

(Continued from Page One) he's got it bad, and it's him.

"Colonel" leads the tournament with six victories, one defeat.

Then comes "Mister," defeating Bixby and Leake, 64-54, in each of his fifth and sixth matches.

SOAL BERRY BUSINESS

Snow day Soal Berry is going to take a vacation. Besides being one of Milwaukee's busiest notaries, Berry has the added burden of being a club entrepreneur that demands a good portion of his time. He had just come into town Saturday night to jump in his car and he left when he got a call from M. H. Hoff, attorney for the State of Wisconsin, who wanted him for a bar trial.

"The Stokey," Peter L. Kyne's thrilling romances drama, is now playing at the Idaho Theatre with success in the reading room.

Joseph Lawrence Finds It Is Necessary; Money Rates Lowered Sharply

NIGHT, NEW YORK, Feb. 1 (UPI)— "Inflation is not merely desirable, it is necessary," Joseph Starnes Lawrence, editor of Bradstreet's Weekly, member of the faculty of Princeton University, told the United States Senate today, emphasizing that every effort must be made to keep the value of the dollar stable.

"During the past two years the government has sought to every means to force a rise in commodity prices and a reduction in the exchange rate of the dollar."

"Inflation is not only a theory, it is also a reality, a fact," said Lawrence, editor of the newspaper of the government.

"Money rates have been reduced to unprecedented levels. The Federal Reserve Board has increased their portfolios with government securities.

"Loans have been made more liberal to business, banks and individuals, bank investments, rail road securities and real estate." All three are inflationary forces, he said.

"The extent of damage of inflation have failed," he said, "that legislators are today turning to re-nationalization of the gold dollar and flat money."
