POPE HITS MOVE FOR PROPAGANDA

Idahoan Officers Munitions Men Are Preparing Plans to Flood Country

(Continued From Page One) Nominous company, that the "attack on munitions men" was instigated by "a subversive force" and allied interests, to weaken the defense efforts of idealists to prevent war through a mistaken notion that preparedness is the cause of war and a cleavage in the part of many newspapers to not assist by limiting to the public their reading which will help their nation. "That, said Pope, "is the position which should be made clear to every citizen of the United States," he continued, "that the purpose of the acute investigating committee is not to reduce the defensive forces of the United States but to end war propaganda, insidious lobbying and excessive war profits."

CITY MANAGERIAL SYSTEM WIDENING

More Than 400 Communities Governed by Expert Directors

CHICAGO (AP)—Six counties and 425 cities in the United States have discarded the Jeffersonian theory of government by amateurs and substituted administration by technically trained managers. "The City Managers' Association" is a study of this development in local government, but has been published by the University of Chicago Press. The authors are Clarence E. Moley, director of the International City Managers' Association and associate professor of political science at the University of Chicago, and Orin F. Nolling, assistant director of the association. At present the city manager is the administrative head of cities ranging in size from Park City, Utah, with 222 inhabitants, to Cincinnati, with 481,000.

Coast Tieup Delays Army Alaskan Trip

WASHINGTON, July 12 (AP)—The army's flight to Alaska, scheduled for the early part of this month was today reliably reported to have been postponed until later in the month. Original plans had called for the flight to be made by July 15. Delay was said to have been due to difficulties in forwarding supplies to northern Canadian and Alaskan flying bases. TERRELL LISTED AS FILER TALKER

Pocatello Judge Candidate For Congress Post, Will Address Democrats

At the first of a series of county-wide meetings planned by the Young Democratic clubs of the county for this Monday evening, Judge Robert M. Terrell, Pocatello, candidate for nomination as congressman or the Democratic ticket, will be one of the principal speakers. It was announced today.

It was indicated also that Asher H. Wilson, Democratic aspirant for nomination as governor, would be on the program, depending upon whether or not his plans would permit him to accept the invitation.

Terrell in Pocatello Tonight

Terrell, in a brief speech tonight, outlining the highlights of the platform upon which he is seeking office.

He is a native of Kentucky, coming to Pocatello at the age of 21, and has resided there continuously for over 30 years. He has served as prosecuting attorney, member of the 1911 session of the legislature, member of the board of education, and for 17 years as judge of the fifth judicial district. In his statement of candidacy, he says:

Farm Aid

"We cannot have prosperity in this country without a prosperous farming community.

"I favor legislation that will tend to bring industry and commerce with respect to farm and livestock products into proper balance or relationship as a means of raising the price of farm products without a corresponding rise in the general price level.

"We cannot have prosperity until the idle men and unorganized labor workers are fully employed by private industry at a wage that will insure a decent American standard of living. I favor public work projects, home rehabilitation, etc., until private industry can absorb these unemployed.

Liberal Treatment

"I favor liberal treatment of emergency workers at the going wage rate in the community where that work is performed, and a system of penalties for railroad and industrial workers based upon years of service.

"I am in favor of conservation and full development of our resources of the state, and believe government aid in those matters is justified where coal would otherwise be prohibited. I would support national legislation tending to foster and protect the forestry industries of mining and lumbering in our state.

Favors Veterans

"I favor preferential treatment for veterans of all wars, and special consideration for the disabled veteran.

"I believe we should capitalize that fact that Idaho is a state of wonderful scenic beauty. It is important to the state to create a recreation ground, and would support national legislation fostering the propagation and conservation of our fish and game, and popularizing our scenic attractions.

"I would expect to consult with all social groups of the state upon legislative matters respectively affecting them.

U. S. WILL SEEK BANKING CHANGE

Important Legislation Under Scrutiny as Inquisitors Study Loopholes

(Continued From Page One) United stock ownership in 7,484, or nearly half of the banks. Government investment in banks, ostensibly for strengthening purposes but leading to some reduction of personnel, now amounts to \$817,800,000.

Another Step

"Another step toward greater federal control over banking was the government's insurance of deposits in banks and 14,000 banks through the federal deposit insurance corporation.

The FDIC is generally credited with reduction of bank failures to the lowest level in decades. Only two FDIC member banks, both small institutions, have closed. Extension of powers of the FDIC activities has been crimped because of varying state banking laws, and this one of the principal "reforms" being considered.

COAST LOOKS TO BIG GRAPE CROP

Harvest Yields Predicted by Optimistic California Vineyardists

SACRAMENTO, Cal. (U.P.)—California wine grapes are exhibiting record yields by doing their utmost to establish 1934 as a "winning year" for the coast counties, where yields are usually excellent.

The usual "ups" around the grape and wine industry, but if vineyardists get a fair harvest, wineries should have an exceptionally large supply of grapes.

Two men, Richard Lockart and Ralph Anderson, both pleaded guilty this morning, after having been found guilty from the justice court of T. M. Butler, and will be sentenced by Judge W. A. Babcock Monday at 10 a. m.

Lockart was accused of forging a \$10.00 check, and Anderson was arrested after he allegedly had attempted to pass a \$10 check.

SUNDAY TEACHER WILL GET HONOR

Nation-wide Plan Will Result in Pats Paying Tribute to Instructors

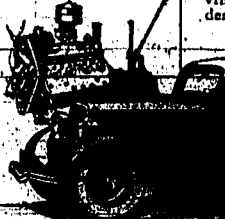

PHILADELPHIA (U.P.)—What is termed "the most spectacular demonstration in the religious and civic life of America" is under way in this city—a project to hold, on Oct. 1, in every community a civic celebration in appreciation of the work of the more than two million Sunday school teachers, Protestant, Catholic and Jewish.

Denominational and Sunday school leaders, as well as civic organizations, are promoting the movement, which was originated by a newspaper man, Dr. William T. Miller, of Swarthmore, Pa., who is chairman of the National Executive committee.

NEBRASKA PAIR HURT IN CRASH

Two Injured, Three Bruised As Car, Truck Collide Near Shoshone

SHOSHONE, July 12 (Special).—Dennis Hockstamer and his wife, Gladys, both of whom were on their way yesterday afternoon to attend the funeral of Hockstamer's mother in Boise, today were in the Gooding hospital as a result of an automobile accident which occurred at 3:45 p. m. yesterday on the Gooding road one half mile west of here.

Hockstamer, suffering from a head concussion, was delirious although Dr. B. Barrett, his physician, states his skull is not fractured. Mrs. Hockstamer has a broken leg.

The Chrysler sedan in which they today were occupants, was traveling to Boise, collided with a Ford panel truck driven by Marvin Newman, employee of the Idaho Power company, Twin Falls. Newman escaped unhurt, although the truck was totally wrecked.

Three Are Bruised

Clyde Hockstamer, Omaha, and Robert Tiepelt and his daughter, Miss Phyllis Tiepelt, Declo, other occupants of the sedan, received bruises and scratches, but no serious injuries. The sedan was badly damaged.

The Hockstamer party stopped at Declo yesterday for Mr. and Mrs. Tiepelt's car. The driver, who is already in Boise, with her mother's body.

Sherriff G. M. Brown and Deputy Sheriff Leo Whimmer were investigating today in an effort to fix responsibility for the accident.

YANKEE COLLEGE QUILTS IN TURKEY

American-Backed University Will Terminate Work at Smyrna

SMYRNA (U.P.)—The International College of Smyrna will terminate its work in Turkey this year, it is announced by President Cass Arthur Reed.

This well-known institution, which is affiliated with the New East College Association of New York, largely has been supported by United States endowments. It is chartered under the laws of the State of Massachusetts, and has 50 years old.

The college grew from a small school founded more than 50 years ago and was for many years directed by President Alexander MacLachlan, who removed it in 1913 to a splendid site in what is now the suburb of Kizilirmak, where a fine group of modern buildings and residences was erected.

Its high standing in the educational world is attested to by the respect accorded to its degrees in the arts and sciences both in the Near East and abroad.

RETURN FROM EAST

HURLEY, July 12 (Special).—Mrs. and Miss J. D. Hanson and daughter, Collette, returned from Durham, N. C., Monday. At Durham they attended the graduation exercises of both their daughters and upon their return they visited by a newspaper man, Dr. William T. Miller, of Swarthmore, Pa., who is chairman of the National Executive committee.

SURRENDERS

A 44-year-old chess importer of Philadelphia, Michael Muggli, is shown in Camden, N. J., after surrendering to face charges of murdering his second wife and his son by an earlier marriage. They were found shot to death allegedly after a love fight near Muggli's summer home near Clementon, New Jersey.

SOUTH IDAHOANS LEAVE FOR CAMP

Fifty-four southern Idaho boys were to leave here late this afternoon to commence their enrollment in the Junior O.C.C. division at Fort Collins, Colo., following their examinations at Puerhull.

Seventy boys appeared for tests, and from this number the 54 were to be chosen by army medical examining officers.

Twin Falls had been designated an assembly point for enrollment.

Quota for the several counties which sent men, were: Twin Falls, 7; Jefferson, 7; Power, 3; Gooding, 3; Cassia, 2; Jerome, 2; Minidoka, 2.

Judge Sentences Shoshone Robber

BOISE, July 12 (U.P.)—Sentenced by United States Judge C. C. Cavert today for robbing a railroad freight car at Shoshone, Jim Williams will spend the next year and a day in federal prison at McNeil Island—probably in hospital, for he is a wreck with arthritis, bronchitis and other ailments.

Williams was arrested in Twin Falls in May. His partner in crime, Jim Ryan, is already serving a nine-months' sentence.

ELK RULER SETS TRAVEL RECORDS

Excited Head-Challer Up Mark During Excursions to Many Lodges

KANSAS CITY, Mo. (U.P.)—Walter F. Mohr, the headman of Elkdom, has established a mark for himself by traveling to 100 lodges in his amateur standing. Making his last stop here yesterday in a year of almost constant traveling by all means of transportation, the Grand Excited Ruler has traveled more than 80,000 miles visiting 519 of the 1,350 Elk lodges.

He has spent from three to eight days in every state in the union and has paid official visits to lodges in Alaska, Hawaii, the Panama Canal Zone, and Puerto Rico.

Good by Air

Some 8,500 of his miles were covered by air, 6,500 by water, and a large percentage of the remainder by motor car.

The chief Elk appears anything but the professional "traveler" one might expect to find in such a position. He is quiet, unassuming and with an eye to details.

He is a native Nebraskan, who left to practice law in Seattle after his graduation from the state university in 1903. A special talent for organizing started him his present business. Since last spring he has spent 20 days at his law practice.

Turkey Producers Seek Low Freight

SALT LAKE CITY, Utah, July 12 (U.P.)—Turkey growers of Utah, Idaho, and Montana are way up to Thanksgiving already.

They start another round of their fight for cheap shipping rates to the Atlantic seaboard here Monday, examining John H. Howell of the ICC will listen to their arguments.

UNIFORM MAKERS EXPECT UPTURN

CHICAGO (U.P.)—Brighter days are in store for uniform makers throughout the country, if reports from a meeting of members of the National Association of Uniform Manufacturers are any indication.

The meeting was called by M. Birk in order that the many factors might discuss their business problems with Harold V. Spahn of New York, executive secretary of the association.

Although the depression hit the uniform business as every other line, there are ample signs, Birk said, that "times are getting better."

WALLACE URGES MIDDLE COURSE

Says Industry and Agriculture Must Sacrifice to Avoid "Greater Pain"

MADISON, Wis., July 12 (U.P.)—"Middle of the road" is the key between the demands of agriculture and industry was predicted today by Secretary of Agriculture Henry A. Wallace as the New Deal's probable answer to its most difficult problem. The secretary told the convention delegates of the American Institute of Cooperation last night he saw no better "pain killer" for the drastic operations necessary on agriculture and industry than a distribution of sacrifices between the two.

Both Must Sacrifice
Industry, he said, probably will see tariffs increased to permit importation of \$200,000,000 more of goods than the United States now buys outside the country. At the same time, he predicted, some 50,000,000 acres of poor land or high that area of good plow land must be permanently retired from production. "The only alternative is a nationalistic course that would mean economic sacrifice and perhaps extreme regimentation," he said. Wallace predicted that the present agricultural adjustment act must be retained for at least five years, and possibly ten. "Each of the courses open to us," he asserted, "involves some pain. The question is whether we are willing to suffer a little pain now in order to avoid an infinitely greater pain later on."

IT'S THE HEAT AND HUMIDITY

HOUSTON, July 12 (U.P.)—To an Idahoan nothing could be more intolerable than the combination of heat and humidity now in Washington and State Superintendant John W. Condie on his return from the National Educational association convention at the national capital. Condie was on the resolution committee and proud to have put through a declaration for higher teachers' salaries. He regretted that L. S. Superintendant Pratt of Spokane lost the presidency of the N. E. A. to an Indiana man because California's large delegation would not support him.

HEIRLOOM TRUNK TRAVELS WIDELY

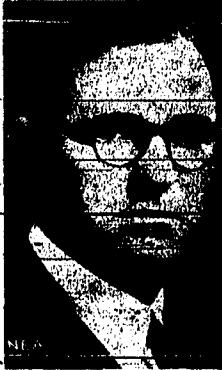

Started Journeys 100 Years Ago and Has Covered 100,000 Miles

MILFORD, Ia. (U.P.)—W. G. Adkins collector of heirlooms has among his possessions a trunk more than 100 years old, which has traveled more than 100,000 miles. In 1810 it was the property of Elizabeth Sperry of Linton, England, and was taken by her to Calcutta, India. In 1823 it was taken on a round-the-world trip by her uncle, William Bligh, and twenty-two years later he took it with him to Africa from Calcutta.

The fourth longest voyage of the trunk was made in 1867, when Frank Abner, a descendant of the original owner, took it with him from England to Canada. He returned to England, taking the trunk along, and in 1895 set out for Canada again from Liverpool. The ship on which he had booked passage was wrecked, however, and the trunk went to the bottom of the sea off Queenstown, Ireland, where it remained for two years. The ship and cargo were raised at the end of this time, the trunk being shipped back to Linton, England, its original base. Several years later the trunk was brought to America and eventually to Iowa, where it has remained since.

The little island of Fligg, in the Hebrides, has a musical beach, which gives out a shrill, sonorous note, causing a tingling sensation in the voyager's feet.

Personality Holds School Spotlight

POCATELLO, Idaho, July 12 (U.P.)—Personality is a big part of success, Idaho unemployed young women apparently believe. "Personality traits for success" in the most popular course at their eight-week summer school, Director Frank P. Baird, has revealed. More than 60 young women have enrolled for the session. It is sponsored by the University of Idaho, southern branch, and financed by the FEHA.

POCKET CHANGE REVEALS BOOST

There's More, Smaller Coins Circulating, Says Aide at Federal Bank

KANSAS CITY, Mo. (U.P.)—The pocket change dealer can make more noise than he could a year ago, according to M. W. Park, assistant comptroller of the federal reserve bank here. The mounting crescendo of pocket change is due to an increase of \$20,000,000 in half dollars, quarters and dimes; \$6,000,000 in nickels and pennies, and \$2,000,000 in that old standby of the West, the silver dollar.

Business Gaining
The increase in the number of small coins in the South Federal Reserve Bank district, according to Park, can be laid to the increase in small businesses and cut rate sales for which purchasers need more small coins and receive more small coins in change.

Today, Park said, there are \$275,000,000 in dimes, quarters and half-dollars in circulation in the United States compared with \$255,000,000 at the time last year. Nickels and pennies now amount to \$118,000,000 compared to \$112,000,000 in 1933. Silver dollars in circulation have increased from \$28,000,000 to \$30,000,000.

SECOND SECTION

SUITS AIMED AT DEPOSITORS' AID

Action to Bring Assessments Against Stockholders Will Help Restore Losses

By RICHARD L. GRIDLEY (Copyright, 1934, United Press) WASHINGTON, July 12 (U.P.)—More than \$100,000,000 is being "made good" to depositors in bank closed since the start of the depression by heavy assessments on many bank stockholders, officials here are saying.

Suits to collect the usual 100 per cent assessment against bank stockholders in closed institutions have been instituted by both the comptroller of the currency and the state banking authorities.

Only a small portion of the more than \$100,000,000 to be obtained for depositors is yet available due to action, through liquidating affairs of closed banks and inability of many bank stockholders to pay their assessments.

Stockholders in closed national banks are now being assessed at the rate of more than \$5,000,000 monthly, Comptroller of Currency J. E. O'Connor reported. The average monthly rate for non-national banks is believed to be in excess of this.

In the first six months of this year O'Connor levied assessments of \$38,128,780 against stockholders in 338 closed national banks. The year ended Oct. 31, 1933, assessments of \$58,000,000 were made against shareholders in 548 closed national banks, a total of nearly \$100,000,000 for the period.

Additional assessments of \$100,000,000 are believed to be levied against shareholders of closed non-national banks.

Stockholders of several hundred additional banks in various states are expected to be assessed double liability in the near future, which will virtually clean up the situation, so far as national banks are concerned.

Ranchers Back from Trip to Mountains MOUNTAIN VIEW, July 12 (Special)—A party of ranchers returned Monday from a week-end fishing trip to Lake Huron and Wood river. The party included, Age DeVries, August DeVries, Ben Asendrup, Roy Berg, Roy Evans, Ed Eilers, Kenneth Hempleman and Henry Riedeman. They returned with a sizable catch.

The Misses Rosemond Asendrup, Anna DeVries and Charlotia Riedeman, returned home Friday on a brief motor trip to Hilder and Carey, where they spent independence day. They also visited the Center of the Moon.

Hold Reunions Mrs. Jennie Light, and son, Ronald, and daughter, Miss Janet Noonan, N. D., arrived here last week for a visit with her daughter, Miss Luella Light, and with her brothers, August and Age DeVries. Sunday the DeVries, Asendrup and Light families held a family reunion picnic at the Buhl city park.

Miss Nettie Stafford spent the past week at Stanley with Mrs. Ted Williams.

Mr. and Mrs. Alton Williams, Medford, Ore., are guests at the home of Mr. and Mrs. Glen Nelson.

Herold Brooks, 10-year-old son of Roy Brooks, returned to his home at Knoll Friday, after spending a week at the home of Mr. and Mrs. L. J. Hanlon.

Mrs. L. J. Hanlon returned Monday after a week-end visit with her sister, Mrs. E. J. Farrar, at Magic hill springs.

Mr. and Mrs. Victor Nelson moved to Madison, Ore., last week for a brief visit with Mrs. Nelson's sister, Mrs. Alton Williams, Mr. and Mrs. Williams and their daughter returned to Twin Falls with them.

Hooverville Gets Its Own College SEATTLE (U.P.)—Hooverville, a small village of shacks built by unemployed men near the railroad track in South Seattle, will have an Alma Mater.

The Hooverville Workers' college, established by Stephen A. Erling, who claims several degrees, is open to all unemployed and workers.

The college opened July 2. The curriculum includes social sciences, government, government legislation, labor movement, current events and a course in international affairs, social psychology and English classes.

DENTISTRY WORK

CLUE TO CRIME

Colorado Believes Teeth May Help Identify Feminine Murder Victim

FLORISSANT, Col. (U.P.)—With every other clue exhausted, authorities in that county have turned to the dental profession to help them in solving one of the most fiendish murders in the history of the region.

More than a year ago two small boys, hunting berries in the heavily wooded mountains here, found the body of a young woman. Her skull had been crushed in. An attempt had been made to burn her body, but after the features had been made unrecognizable the fire had been extinguished.

55 Years Old She appeared to have been an attractive woman, about 25 years old, with dark blue eyes and brown hair. Her clothing that survived the fire and the careful manhandling of her fingerprints convinced investigators she had been of a family in comfortable circumstances.

The dental work of the woman was of high order. They believe that by printing a reproduction of the dental work in trade magazines they can establish the identity of the murder victim.

FOREIGNERS WILL PRAISE LINCOLN

Ambassadors, Educator Listed On Program for Birthday

SPRINGFIELD, Ill. (U.P.)—Foreign notables will play a prominent part in Abraham Lincoln Day exercises commemorating the Emancipator's anniversary here next February, according to program plans announced.

Both the Mexican and Japanese governments and the Canadian government of Toronto (Ont.) University have been invited to speak. The program is under the auspices of the Midway club, civic organization.

No exercises were held this year because of the "war" demonstrations because German Ambassador Hans Luther had been invited.

Chicago City Twenty airplanes were present in one day to help forecast the weather. The planes are being sent up at various points throughout the country for daily studies of atmospheric pressure, temperature and humidity.

The army and navy will cooperate with the weather bureau in making the observations at elevations of about 17,000 feet. The weather bureau will operate five, the army seven and the navy eight.

A recommendation of the President's science advisory board to extend the air mass analysis method throughout the service resulted in the heretofore of the number of planes. Plans also call for the increase of daily forecasts from two to four, beginning in July of 1935.

DOCTOR SLUGGED

Slugged unconscious by a drunk, believed to be a Pittsburgh hotelman after he had treated the drunk's companion for a bullet wound, Dr. Leslie Laird, North Webster, Ind., is shown here, his own wounds bandaged. Police believe the pair were fleeing from South Bend, where a \$28,000 bank robbery was staged a short time before.

YOUTH, 20, ENDS MEDICAL COURSE

St. Louis Boy Will Receive Diploma This Autumn on 21st Birthday

ST. LOUIS, (U.P.) At 20, Rudolph Stutz of St. Louis, formerly of North Webster, Ind., and Cincinnati, O., has completed a full medical course here and will receive his diploma on his 21st birthday, Sept. 12.

The achievement was accompanied by no "padding" stuff, but steady application, and was accomplished mainly through the fact that he graduated from high school at 15.

Here's schooling: Succeeded in his schooling completed: Entered grade school at six, skipped the second grade, completing his third grade work at North Webster.

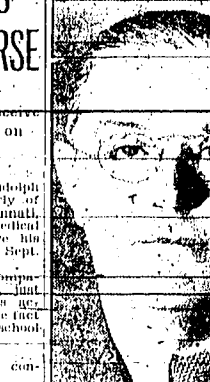

Moved to Cincinnati for fourth grade.

Moved to St. Louis for his fifth. Moved back to North Webster, where at 11 he completed his elementary school course.

Entered high school at North Webster, but two years later came to St. Louis, where at the end of a year, he was graduated from Soldan High.

Completed pre-medical work in two years, the minimum, and his medical course in four years.

NAZI REICHSTAG MAY SHOW TOLL

Vacancies at Friday Session Tormed Barometer of Men Dying in Revolt

BERLIN, July 12 (AP)—A count of vacancies in the Reichstag tomorrow night to hear Chancellor Adolf Hitler make a "final" statement of his government is the counting of the supporters of the alleged storm troop revolt may give evidence of the number of Nazi leaders who incurred his wrath.

Eight of the Storm Troop leaders who were executed were members of the Reichstag, and names of other Reichstag members have been mentioned in rumors as leaders in plotting the revolt.

Hence parsons interested in completing the story of the revolt planned a story.

The difficulties.

There were two difficulties—first that many of the Reichstag members, hand picked from the ranks of the Nazi party, are unknown to most Germans if not to each other, and secondly that Minister of Interior Wilhelm Frick in his dual capacity of parliamentary leader, has personal power to appoint successors to any Reichstag members elected from the party or resigned.

It was suggested that Frick might appoint successors to dead or imprisoned members before the morning night meeting.

It will be only the third session since election of the all-Nazi Reichstag last November.

First session, it was announced, have arrested 70 persons at Konstanz, Singen and Rudolfszell on the ground that they were trying to revive the Communist party in the Rhine-Ruhr area.

Second session, it was announced, were arrested 70 persons at Konstanz, Singen and Rudolfszell on the ground that they were trying to revive the Communist party in the Rhine-Ruhr area.

CLARK DEMANDS WATER STORAGE

Candidate Asserts Reservoir Systems Needed on All Idaho Streams

BOISE, July 12 (Special)—No Idaho river should run to the sea so long as an Idaho farm needs water, declared Dr. J. W. Clark, Democratic aspirant for congress, here today. The New Deal must be applied to this acute and essential Idaho problem, he said.

"A system of storage reservoirs on all our streams, particularly the tributaries of the Snake, must be planned and built at once by the federal government. This will mean a supplemental dam to multiply and end the errors of drought. The next congressman from southern Idaho must be prepared to fight and fight hard for those things. A man who does not do, we need action, intelligent action, and more action."

"CHIMP" MENTAL LEVELS STUDIED

Yale Savants Scan Reactions of Anthropoids to Check with Humans

ST. LOUIS, Mo., (AP)—The Yale university anthropoid experiment station at Orange Park, Fla., June 26 chimpanzees, including one set of twins, which are being studied to compare their mental reactions to those of human beings.

"They are remarkably intelligent," Dr. Joseph G. Yerkes, of the station staff, said here recently while en route from Florida to California to deliver a paper on "A Bstraction of the Chimpanzee."

Learn Easily.

Their learning on the physiological plane is on a par with human beings. Of course, much of what we consider manifestations of intelligence is dependent upon verbal patterns. At this point naturally the chimpanzee is beyond the end of his intelligence, unless their responses of the lower level are amazing, however. A chimpanzee can learn, however, a process involving several motions.

A bunch of bananas may be placed outside the cage, with a rope around it and the loose ends in the cage. The chimp will learn, after a few trials, that it cannot obtain the bananas by pulling one end of the rope but must instead pull both ends at the same time.

Irvin Cobb, Turned Movie Actor, Finds Filmland Easy on Brains, Hard on Feet

BY IRVIN S. COBB (HOLLYWOOD (NEA))

To a veteran brain worker, this movie business offers a heaven-sent relief. You don't have to use the intellect all, but it is sort of hard on the feet!

The noblest work of God is the human form. The noblest work of man is the custard pie to him against it.

I've just found out what it is they call a "stand-in," and why. It is a person standing twenty-four dollars a day who stands in front with the leading directors.

All Hollywood streets, shops, homes, take tempo and color from the movies. Every time I give down an attractive vista, I'm expecting my moment and somebody will yell "Strike!" and a staves crew of mechanics in overall will fold the whole thing up and pitch it on a truck.

After a month of visiting these studios, I'm beginning to think into waste of time and money to have any back in my clothes. There can't be anything around behind there except fat and chicken wire.

The outstanding difference between a comedy lot and a dramatic lot is that while both of them are terribly funny, the folks on the comedy lot know it.

Nevertheless, a seeming contradiction is that the professional comedian always is the saddest person in sight. The necessity of thinking up new gags and new tricks long ago reduced him to a state of melancholia bordering on the suicidal.

When I see a scholarly elad gentleman moving about with a face so long and drawn he only needs a floral horse shoe through his neck to pass for a Derby winner, I know I am looking upon a famous comic getting ready to be comical. I mark his dragging and dependent footstep and I listen to his low ducking voice and I wonder if he is about to step out on a set and throw all the extra people into gales of merriment.

Los Angeles traffic laws (if any) also give one to think. In other large American cities, a policeman who beats a taxi-cab to the sidewalk is considered out of bounds and cannot be put back into place until he has crossed the curbstone. But in sunny California, the chauffeur is permitted to follow his prey up a whole tree.

Los Angeles traffic laws are merely first impressions. I feel that as yet I've merely scratched the surface. If I can hire a professional surface-scratcher somewhere, I'll hit up a lot of small paradises out here.

A humorous (and) comedian, Irvin S. Cobb does a bit of reflecting as he makes up for his film debut in a series of film production. The funniest reflection is that of Thomas Todd, shown with him. Other reflections are contained in the following article which the noted author has written especially for this newspaper and NEA service.

CANNIBAL TRIBES TERMED AMIABLE

Capt. Salisbury Asserts They Can Be Huddled if You Do It Correctly

ROCHESTER, N. Y., (AP)—Cannibals are easy to get along with if one knows how to handle them, according to Capt. Edward A. Salisbury.

The captain, who for 40 years has explored the remote corners of the world and often has been where man-eating tribes are a reality, visited Rochester before embarking for another voyage.

"The average cannibal has the mind of a 4-year-old child," the captain explained. "My attitude toward them has to be like that of a nurse toward a group of children. Should they begin to squabble, it is forgotten as soon as their attention is turned to something else. My only problem, if they begin to show me a potential media to a situation, is to divert their attention."

No Huddling.

The captain also explained the popular belief about the cannibals' pot with the assertion that victims are not huddled in a large pot but are "cooked over hot rocks."

That is no consolation, the captain offered a bit of comfort with the statement that cannibals do not like white men as their "main dish" but prefer members of an enemy tribe as a choice diet.

Capt. Edward A. Salisbury appeared in Twin Falls a year ago in connection with showing of his motion picture at the Orpheum.

Policeman Solves Hornet Troubles

IRVINGDALE, Cal., (AP)—Criminal or honest? Berkeley's "scientiffic" police department has the answer.

Some angry wrath and the on-the-suburbhood in the vicinity of 628 Sun Lane Road was hounding hornet trouble. The insects nested in a tree in Mrs. Wraith's backyard.

So the police department was called in. They sent Patrolman Charles Fleming, expert apartment marlman.

From a rear window, Patrolman Fleming first threw a small blame into the nest, then heathly closed the window.

The hornets scattered and now the neighborhood has returned to normal.

EXPERT SEEKING IDAHO'S FOSSILS

Smithsonian Institute Savant Sets Up Camp Near Hagerman

HAGERMAN, Ida., (AP)—Hoping to unearth specimens that will apply the missing link in the fossil history of human, a research expedition headed by Dr. C. L. Gazin, assistant curator of vertebrate paleontology of the Smithsonian Institution, has established camp on the Snake River near here.

Previous expeditions, headed by the late Dr. J. W. Gilbey, found valuable bone species in the same regions during the summers of 1928 to 1931. Bones of proboscidean horses were found which were declared to be different from any found elsewhere.

Dr. Gazin is accompanied by G. P. Sternberg, field vertebrate paleontologist, of the Fort Hays State College of Kansas, and G. B. Pearce, Sternberg's assistant.

NRA BLAMED IN PLANT'S LAYOFF

Back-Pay Order Tormed as Reason for Shutdown in Virginia

ROYALTON, Va., July 12 (AP)—The NRA was blamed today for the layoff of 600 workers of the E. S. H. Manufacturing Co., a subsidiary of L. Grier & Bros., of Baltimore.

The plant was closed as a result of an order by the NRA that the firm pay \$200,000 in back wages to employees who "surrendered" its 1500 Bigie, Orleans and other similar layoffs were in prospect for 1,000 workers in 11 other plants of the Grier company in Virginia, Maryland and Pennsylvania.

The company, second largest clothing firm in the country, is bitterly fighting the order.

THE PARKING PROBLEM

As Twin Falls develops physically and commercially, it encounters new problems, one of which is that relating to traffic and parking spaces.

Where a few years ago the citizenry took sides on whether hitching racks should be left on Main avenue, now the problem is what to do with the large number of cars which are permitted to park on the street for unlimited periods.

The city officials recognize this situation, and through Commissioner O. H. Coleman have set out to rectify it.

They propose to enlist the cooperation of the owners of vacant lots, and business interests generally, in providing suitable parking places for the large number of cars which Twin Falls is called upon to accommodate.

Adjacent vacant territory is brought into valuable use on week-ends especially, when thousands of cars are driven here from over the countryside.

At times, acre upon acre of automobiles may be viewed from one vantage point.

Meanwhile the main thoroughfares are filled on both sides, many times with cars which are permitted to stand there all day.

Enforcement of the one-hour parking ordinance is inevitable if the present situation is permitted to continue. But the police officials indicate that before they drive the violators of the ordinance off the streets, they want to provide a convenient and satisfactory place for parking the large number of vehicles.

This effort to solve an important problem is to be commended, for the parking ordinance is being imposed upon visitors from the adjacent territory complain that parking is difficult for short shopping trips, and merchants are penalized because of the inability of prospective customers to reach their places quickly and conveniently.

The proposed solution of the matter appears to be so practical and easy of attainment that it should be welcomed by everyone affected.

And the quicker some such plan is put into effect, the better it will be for all those to be benefited.

ANIMALS DUMB? NO!

The average man or woman who likes animals and is convinced that his or her pet understands a half dozen familiar commands may be surprised to learn that several "animal dictionaries" have been written.

Gabriele D'Annunzio, the Italian poet, has announced that he will include a complete glossary of the canine language in his new book, "Lives of Illustrious Dogs." The book is to be modeled after Plutarch's "Lives."

Other animals whose vocabularies have been recorded are the monkey, the horse, and the cat. An American woman, Miss Blanch W. Learned, was responsible for classifying 32 terms of the chimpanzee, together with the meaning of each. Other scientists have tabulated 12 "words" of the marmoset language and 14 of the gibbon's.

The horse is said to speak with "six words and three kinds of neighing." Cats produce 15 sounds, according to the experts, each with its distinct interpretation. There are 12 "words" in the hen's vocabulary and 5 in the rooster's.

From all this it seems that it is high time that the phrase, "our dumb friends," went into discard. It was always a libel.

Early this summer, officials of the American Graves Registration Service will go to Archangel, that chilly Russian White Sea port, to exhume the bodies of some 40 American soldiers.

The bodies will be sent back to the United States for burial, as has been done with so many soldier casualties from the battlefields of France.

SOPHIE KERR'S SUPERB LOVE STORY

"STAY OUT OF MY LIFE"

By Sophie Kerr

When HOWARD J. KANDOL, a young man with a record for the small middle-western town of Idaho, was asked to write a letter to his sweetheart, he was determined to win his heart.

Howard was attracted by Jane's friend, ANNE LOVE, but Jane refused to let him go. There one evening Howard sat on the sofa and thought of the girl he had fallen in love with.

Howard's mind was troubled. He had a plan, but it was a risky one. He decided to write Jane a letter that would tell her of his feelings for her.

"At your age that statement is a joke. How come, it's better than anything I've ever heard of," she said. "You're not a young man, you're a young man."

"No, that's not enough for me," she said. "You've got to be a man. You've got to be a man."

"You've got to be a man," she said. "You've got to be a man. You've got to be a man."

"What if I don't?" she asked. "I'm not going home." "You're not a young man, you're a young man."

"You're not a young man, you're a young man," she said. "You're not a young man, you're a young man."

"You're not a young man, you're a young man," she said. "You're not a young man, you're a young man."

Arguments over an alleged loan of \$175 by Mary Miller Minter, former screen actress, to John Deacony, also a former actress, were aired in court today with both women seeking "vindication."

Miss Minter, whose real name was given as Julie Shelby, said return of the money by court order. Miss Deacony, in a cross-complaint, declared that Miss Minter owes her \$100.

Evelyn Venable, starry-eyed film ingenue, today remained silent on the subject of a rumored romance between herself and Hal Mohr, camera man, whose friends insist will end in their marriage soon. Mohr likewise maintained a discreet silence.

Because the case here "all the because of a gun" and "all the neighborhood a row," Municipal Judge A. A. Scott today had freed S. H. Duncan, father of the famous Duncan sisters, slugs and soon stars, of charges of battery.

Mrs. Bertha McLaughlin accused the Duke of stealing her when she took her dog for an airing in the property. Duncan denied the charges.

Both had equal number of witnesses to substantiate their versions of the trouble.

FILM BEAUTIES FACE CHANGE OF ROLES IN MOVIE CLEANUP

Each of these famed motion picture stars has built a reputation chiefly on a definite type of worldly picture—but it's a reputation which must live down as the movie cleanup grows stronger. Left, Norma Shearer; in the middle, Carole Lombard; right, Constance Bennett, whose admirers feel that she has "gone wrong" almost too often in pictures.

FAMED SURGEON VISITS MIDWEST

Sir Henry Wellcome Views Childhood Haunts After 50 Years Abroad

MILWAUKEE (U.P.)—Recently returned to his homeland after spending nearly half a century in foreign lands, Sir Henry Wellcome, an widely known scientific and philanthropist, visited the scenes of his childhood.

Based in Waushara county, Wis., Sir Henry at eight went with his uncle to a wild and remote section of Minnesota. It was here that he became acquainted with Dr. Mayo, father of the famed Rochester brothers, who played an important part in shaping his ideal.

Shortly after their arrival there, a tribe of Sioux Indians, driven to desperation and driven by a drought similar to the one now blighting the same region, descended upon the white settlement in one of the bloodiest massacres in history.

It was while aiding Dr. Mayo and his uncle, also a surgeon, care for the wounded that Sir Henry developed his desire to enter the medical profession. Later, through the aid of Dr. Mayo, he studied medicine and surgery in Chicago and Philadelphia.

A degree of doctor of science was recently conferred on him by Princeton university. Sir Henry has founded a dozen hospitals and has written a number of scientific books.

CHICAGO (U.P.)—Beneficial effects of airplane riding on common colds are being demonstrated here, as Dr. Holden Carlson, Chicago physician, conducted a series of 50 flights to get the low down.

"Flies, steamships and other travelers of the air," says Dr. Carlson, "have believed that a high flight would cure a cold. We made observations and tests among passengers and found none of them to be free of colds. We caught with tubes in various stages, from the sniffles on arrival at the Newark, N. J. airport with their colds entirely gone."

CHINA DEVELOPS TUNGSTEN SITES Operations Started As Step Toward Profit In World Munitions Trade

BEIJING, China (U.P.)—With the development of a number of tungsten sites in northern Kwangtung province, China, the Kwangtung provincial government and a number of Japanese companies now hope to get in on the selling and more profitable end of the international tungsten trade.

Under Red Control The best known tungsten deposits in China happen to be in territory controlled by the Red army in southern Kwangtung province. Along the border regions of Kwangtung and Kwangsi provinces, however, there are deposits located in territory controlled by General Chen Chih-lang, the Canton military governor, and according to new reports, mines have begun operation there.

In tungsten all companies expect to double their production within five years.

PRISON BAD GIRL KILLED IN BREAK

Young Oklahoma-Slayer Is Dressed in Frills for Funeral Today

JACKSONVILLE, Ark., July 12 (U.P.)—The body of Helen Spencer Salton, Arkansas bad girl, was taken to a female frills today for burial in the graveyard of the state prison for women.

She wore blue overalls and a blue shirt when she was killed by a prison guard yesterday. She never once munched for fancy clothes. She had killed two men. Helen's body was filled with buckshot a day after she escaped for the fourth time from the prison farm. She carried a six shooter and had left a note at the prison that she would never be captured alive.

Guard Frank Martin, member of the posse that found her a few miles away, said she shot her because she failed to halt when commanded.

Helen was 22 and killed her first man when she was 16. Her second was a trial in Dewitt, Ark., charged with the murder of her father, Helen shot him in the courtroom but served only a few years before she was paroled to return to Dewitt. In a hotel Greek restaurant, she was next victim. She killed him, she explained, because she resented his advances. She received a 21-year sentence for that.

She had been in prison the second time only a short while when she escaped. A few days later she returned because she was tired. A few months later she escaped again but returned when her conscience started bothering her. When she escaped the third time, bloodhounds tracked her down. Yesterday she feigned illness and was excused from duty in the strawberry patch. In departing from prison she managed to steal the revolver of the guard who later killed her.

VICTIM NO. 1

Harold L. Yeamans, Buhl, at left here today that he was going to Riprap Friday for the purpose of leaving in organizing a new Don't club there that evening.

Asked concerning the fact that his declaration of candidacy for congress had not yet been filed, Yeamans gave assurance that his name would be entered on the official list before the closing date.

"In fact," he said, "I am going to file tomorrow, on Friday, the 12th. The last count I had there were 318 signatures to my petition, requiring that I get out the list to 300. And you can say for me, that the 23 counties in the congressional district, I am confident of carrying 13 of them."

Berlin Abandons Traffic Signals German Capital Says Police Direction Will Speed Flow of Cars

BERLIN (U.P.)—A new traffic law has been issued for Germany, effective Oct. 1, uniting traffic regulations throughout the country.

The action of the Berlin chief of police, ex-Admiral von Lovelozow, in abolishing traffic lights at the heavy traffic points, came as a surprise. At some other points the lamps will be maintained by hand, all others remain automatic. It was announced that the lights had slowed up traffic. Traffic now is regulated by the traffic police, as it was some years ago.

The new law also regulates the behavior of pedestrians, and a campaign against "jaywalkers" has been started. Pamphlets with directions for pedestrians have been distributed.
