DILLINGER CASE FIGURES CAUGHT IN FEDERAL NET

Charges of Conspiracy Face Two Physicians and One Lawyer

THREE WOMEN ARRESTED

J. Edgar Hoover, Bureau of Investigation Chief, Leads Roundup

CHICAGO, Sept. 1 (UPI)—Dr. William Lowey and Dr. Harold Bernard Cassidy today pleaded guilty before United States Commissioner Edwin K. Warner to charges of conspiring to shield John Dillinger from the law.

Their guilty pleas were made after their bonds had been fixed at \$25,000.

Confidential "Winkie" informed the surgeons that he could not accept a plan of guilty and instructed them to waive examination.

CHICAGO, Sept. 1 (UPI)—Two physicians and John Dillinger's attorney are under arrest on charges of robbing and finger tips by a surgical operation, federal agents announced today.

Two women of the Dillinger gang and Mr. and Mrs. William Finley of Calumet City, Mich., in whose home the agents said Homer Van Meter, slain Dillinger lieutenant, stayed for several weeks, also were arrested.

The squad which arrested Attorney Louis Piquett, Dr. Wilhelm Lesser and Dr. Harold Cassidy with a client, O'Leary, waited

for J. Edgar Hoover, chief of the federal bureau of investigation, to arrest them. Piquett, O'Leary, Dr. Lesser and Dr. Cassidy are charged with harboring Dillinger while the Indiana bandit was eluding police in the mid-chase which preceded his slaying.

Authorities Try to Connect Buffalo Abduction With Murder Mystery

CLEAN, N. Y., Sept. 1 (UPI)—Abduction of Theodore H. Keating, wealthy Buffalo merchant, was disclosed here today as police followed a new trail in the hunt for the mystery of Buffalo Police Lieutenant George L. Uhle.

Keating, president of S. O. Bar-num and Sons company, was released in a cornfield near home and staggered over the head with the butt of a revolver. After his captors had gone, Keating walked six miles to the Clean police station and reported the kidnapping to officials.

He gave a description of his abductors, which tallied with descriptions of the two men who shot and killed Lieutenant Uhle yesterday morning.

Police believed the men held up Keating and abducted him to obtain funds and an automobile with which to escape out of New York state. The automobile was headed for Pennsylvania, Keating reported, and opinion of both states were

MISSISSIPPI FLIES OVER ILLEGAL MORTGAGE CASES

CROWN POINT, Ind., Sept. 1 (UPI)—Back door got a terrible workout today.

"Any day now," Dr. J. E. Key, who doesn't know where he'll be tomorrow, says, "we'll be back to square one." He added, "I have a good idea what's coming to Crown Point, and it's all about the violations

of the law, whose mortgages were thrown into doubt by a ruling that the Rev. H. Oscar Stevens, 'merry parson,' was not qualified to consent to the bonds in Indiana."

After a simple trial from 10 a.m. to 1 p.m. yesterday, Stevens was sentenced to 10 days in jail and fined \$100.

Denver M. Bulges With Gold Bullion

DENVER, Colo., Sept. 1 (UPI)—Gold was piled high in the United States mint here today.

The store of the precious metal was increased last night with the arrival in Denver of gold bullion valued at between \$70,000,000 and \$100,000,000. It was the first shipment of \$2,200,000,000 the federal government is moving from San Francisco to Denver for safe keeping.

When the "gold train" arrived in Denver it was met by the greatest armed force the city has ever produced. Policemen, secret service operatives, soldiers from Fort Logan, postal inspectors, firemen and special agents were on hand. Every type of firearm except artillery was in evidence.

Their guilty pleas were made after their bonds had been fixed at \$25,000.

Confidential "Winkie" informed the surgeons that he could not accept a plan of guilty and instructed them to waive examination.

LEWIS DOUGLAS SLATED TO QUIT

Friends of Administration Foresee Resignation Of Budget Chief

HYDE PARK, N. Y., Sept. 1 (UPI)—A major defection in the New Deal's high command—the resignation of Budget Director Lewis Douglas—was conceded today in merchandise to the queen and her attendants.

Following the selection of the queen and presentation of flowers to each of the contestants last evening, members of the Junior Chamber International publicly

regarded it almost a certainty.

The budget director called on the chief executive Thursday

to discuss affairs. It was then that he asked to be relieved of his duties,

850,000 READY TO CEASE WORK

**Textile Strike Total Near
Million Mark. More
Factories Join**

(Continued From Page One)
Commander Edward A. Hayes of the American Legion, German asked cooperation from war veterans.

That Territory Affected
He estimated that 1,200 cotton plants, 1,000 silk and rayon mills and 300 woolen factories stretching up and down the Atlantic seaboard and into the west would be affected.

The silk workers have been demanding a 30-hour week with only two shifts; drastic lowering of the machine speed, \$28 per week for operators running six hours and wages of \$25 for weavers on four looms or less. They also seek union recognition.

Members of the executive committee of the United Textile Workers arranged to leave immediately for the mill centers. Gorman intended to fly this afternoon to Charlotte, N. C.

WASHINGTON, Sept. 1 (UPI)—The greatest industrial uprising in American history was in the making today.

Eight hundred fifty workers were ordered to leave their jobs in textile mills tonight, and more without orders may swell their number to 1,000,000 by Labor day.

The figures are amazing by any comparisons. As supplied by union leaders:

500,000 cotton textile workers ordered to walk out at 11:30 p.m.; 200,000 women and worsted spinners, offered to join them; 150,000 silk spinners awaiting a strike decision today; 250,000 garment workers preparing to strike.

"Never before has there been such a threat to the nation's well-being."

Violence Outbreak
Reports of violence and of communistic activity were serious as the administration tried to stop the effects such as a strike—if prolonged—might have on the country.

President Roosevelt was silent. So were his brain trustees. Their efforts to avert the strike have collapsed. Only, indeed, they say, they sought a formula whereby the walkout might be stopped before the very foundations of the New Deal were undermined.

Lloyd K. Garrison, chairman of the national labor board, admitted formally that there was no chance of averting the strike. He said his only hope was to achieve an early settlement.

Big business was jittery.

Harmless Hurts Attack
Henry F. Harriman, president of the United States Chamber of Commerce, and Right, priest of American industrialism, issued a bitter statement.

He charged the United Textile Workers, with trying to force the government into "financing" the walkout. He said the labor department was powerless to say whether the strike was justified; asserted the relief administration had no right to feed the strikers.

"I affirm that policies of the government should not be such as to encourage strikes and industrial unrest," he said.

Gov. Irvin Blochwood of South Carolina also issued a statement.

He said South Carolina business were "very much" opposed to the strike. Previously he had ordered out the national guard. He said it was necessary to protect workers at Seneca.

Another statement came from George A. Elton, president of the Cotton Textile Institute, and arch-enemy of the strike. He said all out of WORK IN SIC, big South Carolina mills were opposed to walking-out. He said employees of one plant at Decatur, Ala., voted 100 percent to stay on the job.

These statements were like red eyes (lurkers), before a bull at strike headquarters here.

From factory towns in Maine, Massachusetts, in Connecticut and the Carolinas, from almost every dusty village dominated by the gaunt, outlined, or twisted mills, came conflicting and sometimes alarming reports.

Communist activity in New England was intense. The New Hampshire American Legion notified all members that its members were to help "keep the Reds off the job."

DAILY CHANGES BRING ZEST TO YARD BOUQUET

"A back yard bouquet" is what Mrs. W. F. Enser's miniature garden must be called, according to the publicity committee for Association Guild's flower show, and the same name applies to Miss Juanita Sutcliffe's and R. R. Spafford's larger flower beds.

Both gardens, unlike most, feature climbing vines, and some pink, blue, purple, and orange blossoms combined to make a glowing, colorful bouquet, which changes from day to day as blossoms open and fade.

Vines Add Variety

The city's gardens show an interesting assortment of vines. Miss Sutcliffe's trumpet vine, with its deep rose trumpet, and the wild clematis, transplanted from Rock Creek canyon, are popular for vine borders.

Mr. Spafford's garden features the grape vine, with its clusters of green grapes, and the Virginia creeper, with horns and those glistening trumpet vines.

Mr. Spafford's garden has a cozy nook, sheltered from the sun by a carefully trained grape vine, and climbing roses, trained with equal care, form an effective background for some unusual visitors. The flaming heart of France and some pink and blue California sunshines, which will be the nucleus of the Association's flower show, are also in the garden, along with English ivy, roses and Virginia creeper, with horns and those glistening trumpet vines.

The smallest "prayer book"
glimmed here in many a

It is in the flat head of a pin.
On it is engraved the opti-

in the "Book of Common Prayer."

The rarity, property of Har-

The steel die from which
the pinhead was stamped is 10

At first he makes the interview difficult, because he objects to answering questions unanswered many times before, but a question about his almanac tides the tide.

Explain Definition

"I've never been measured, because I don't wear record," he says, "but I feel that I'm 5 feet 2." He looks shorter than that, however.

A sign standing on the floor suggests a question. It reads:

"Father Divine is God, lord of lords, king of kings and will live forever."

"These followers call you God,"

"If you keep his sayings you will never see death."

An embazoned banner proclaims:

"Peace: Father Divine is the light of the world. The tree of life is blooming—blooming for me and all . . . Father Divine, I thank you, Father."

Appearance Surprising

The repeated evidence of development in the appearance of Father Divine, all the more surprising. Short and stocky, his bland face holds attention only because of the sad quality of his eyes. He is almost bald, and wears a scanty mustache that is hardly noticeable.

Mystery Veils Income of Evangelist Hailed as God by Thousands in Flock

By GEORGE A. WIEDA
(NEA Service)

NEW YORK.—A small, mild-mannered, soft-spoken and serious-colored man has become the mystery-man of Manhattan because he apparently can afford to spend thousands of dollars without having any visible source of income.

He says his name is Major Detective Tom of Dougherty in Newark, and white acclaim him as "God, King of Kings, Lord of Lords," the self-styled and self-stroking of Father Divine, Prince Mahomet, which includes 15 branches throughout the "Kingdom of God" in the metropolis and other eastern cities. Many of his followers believe he came into being full blown, the personification of God, at Sayville, Long Island, about 10 years ago, when he founded the first branch "heaven" of the kingdom. But investigators say he is George Butler, a Negro born on an island off the coast of Georgia about 1882. The extent of his influence and the shrewdness of his followers was publicly demonstrated during the Community peace parade here, when thousands of marchers carried red banners proclaiming, "FATHER DIVINE IS GOD."

As they marched, they chanted endlessly, "He is God, he is God, God, God!"

The main branch of the "Kingdom of God" is at 20 W. 11th street, just a few steps off Fifth Avenue. It is housed in a five-story building that gains a churchly air from its gothic trimmings.

Worshippers about the door greet every newcomer: "Peace, brother, peace," to which the devout reply fervently: "It is wonderful!"

U. S. PONDING BANKING POWERS

Government, With Wide Hold Already, Studies Plans To Extend Control

(Copyright, 1934, United Press)

WASHINGTON (UPI)—The Unit-

Acequia

More than 100 ward and mine officers of Minden Letter Day Saints stake a reunion picnic here Tuesday evening. Eight wards were represented. A social dinner was followed by a musical evening.

Acequia Orange members and their friends took a picnic lunch to the dam Sunday, where they were joined by members of the I. O. O. F. Lodge. Later the Grangers gathered at the G. H. Sennior home for an evening of cards. Four dozen of picnickers were at play. Mrs. Marlin Gerard won "high score." Refreshments were served.

House-guests for the week-end at the G. H. Senior home were Mr. and Mrs. George Jones and their sons, Jack, Junior and Wayne, Mordecai. Mr. and Mrs. Beamer entertained at a Sunday morning breakfast in their honor. Other guests were Mr. and Mrs. August Quantum and children, Jim, Fay and Roy Wayne, and Mr. and Mrs. Everett Saman.

Mr. D. L. Young returned Wednesday from a nine-day vacation in Rockland and American Falls. In Rockland she visited her father, Richard Hardy, and in American Falls her sisters, Mrs. Barnard, Mrs. Anna Trodsham, and Mrs. Amanda Adam.

HEAT IRON MEDICS
CINCINNATI (UPI)—The summer heat wave have given physicians and nurses something to think about when they read their thermometers. General hospital attendants here reported. When a thermometer is taken from a patient's mouth, its mercury line kept going right on up," Dr. H. H. Langdon said. "We have to take two readings fast," he explained.

Vast Outlay

Government ownership of pre-

ferred stock and capital notes in

more than 5,000 of the country's 15,500 banks alone has called for a federal outlay of \$854,000,000. A total of \$508,024,004 is still owed the government through the R. F. C. on loans made to the institutions to tide them over past financial difficulties. Other hundreds of millions of dollars have been poured into mortgage loan companies, building and loan associations, agricultural credit associations and land banks, and a billion dollar postal savings system is being operated.

The eight members of the fed-

eral reserve board which guides the policy of the reserve banks are

presidential appointees and as the secretary of the treasury is ex-

officio chairman of the federal re-

serve board, his domination, al-

though seldom used, could be pow-

erful in determination of policies.

Would Stress Powers

Preumably any form of "cen-

tral bank" in the United States

should be created would make

a more complete distinction as to the powers of the federal govern-

ment over the central bank.

The federal reserve system, com-

prising 6,300 of the country's 15,

500 "banks" already is considered

by many bankers as a form of a "central bank." Inasmuch as it

takes such steps as the determina-

tion of rediscount rates in its 12

districts and conducts open market

operations in United States gov-

ernment bonds in close association

with the Federal Reserve Board.

Another "central bank" function of the reserve system is use of

federal reserve bank money, which

comprises more than half of the

country's \$5,000,000,000 circulat-

ing medium. Some proponents of

a central banking system urge

money should only be issued by

the government itself, instead of

by an agency like the federal re-

serve system.

ANCIENT CAMP FOUND

IRKUTSK, Russia.—Archaeolo-

gists of mammoth hunters, believed to date back 25,000 years, soon will be excavated under the direction of the Soviet Academy of History. Discovery of the camp, located near Irkutsk, in eastern Siberia, was made by a party of scientists in 1932, but they did not complete their explorations. Ancient arms and tools were found there.

MONTANA MINERS FIND MAGNESIUM

Attempt to Interest Eastern Capitalists in Extensive New Discovery

GREAT FALLS, Mont. (UPI)—Mining circles are displaying inter-

est in an immense body of mag-

nesium ore discovered near here.

W. E. Spinelli, former Cascade county deputy sheriff, reported the day consisted of a deposit 700 to 1,000 feet wide and more than two miles long.

Anlays show small amounts of

duralumin, aluminum, lead,

gold, silver, traces of vanadium

as well as about 17 to 50 per cent

magnesium content.

Some 15 claims have been staked along the deposit by Spinelli and his associates, who now are attempting to interest eastern aluminum and alloy makers.

Per capita consumption of ice cream-in-the-country—is nearly three gallons a year.
