## TAX CUTS MADE CERTAINTY WITH FILING OF LEVIES

Substantial Reduction Assured As County Auditor Gets Certifications

FEW UNITS ARE HIGHER

General School Fund Climbs Three Cents Over Last Year's Figure

Substantial reduction in taxes through the cutting down of levies in most tax-assessing units, and by a reduction in the assessed valuations was assured today in the completion of the certification of the levies at the office of the county auditor, showing that property in Twin Falls city, for instance, will this year be charged on a basis of \$7.31 per acre (\$100 valuation, compared with \$7.015 in 1930).

The levy for the general school fund, received today from the state, shows an increase from 78.6 cents last year to 81.6 cents this year. Previously, announcement was made that the county was cutting its total levy from \$85.6 cents last year to 87 cents this year, and the state from \$60 cents in 1930 to 60 cents in 1931.

*Varied Reductions.*

Other reductions include those made by the City of Twin Falls, from \$2,074 cents in 1930 to \$2,074 cents this year, and Twin Falls highway district, from \$1 to 65 cents. The levy of independent school district No. 1 remains the same, at \$1.70.

In the county other reductions include: Buhi city, from \$4.03 to \$3.97; Pier highway, from \$1.08 to \$1.20; Murtaugh highway district, from \$1.35 to \$1.30; Bear Creek highway district, from \$1.20 to \$1.32; Kimberly school district, from \$1.40 to \$1.50; Hollister In-

## Bullets Fly as Bloodshed Sweeps Strike Area

An exciting moment in the pitched battle between police and strike pickets at Macon, Ga., is portrayed in this dramatic picture. Combattants are shown scattering and ducking before the gunfire of police who were guarding strikebreakers en route to a textile mill. The fight started when pickets overturned the strike-breakers' car (shown in background) after it rolled to half at the picket line. Similar violence in other southern centers took 11 lives. Clash between strikers and state troops broke out in Rhode Island, taking two lives and wounding scores to date.

## MURTAUGH CHILD INJURED BY CAR

Kay Egbert, 4, Seriously Hurt In Accident; Oklahoman Injured Here

Victims of two motor vehicle accidents last evening were hospital patients today, suffering from injuries received in what are believed to have been mishaps unavoidable on the part of drivers of the cars which struck the injured persons.

Kay Egbert, 4-year-old son of Mr. and Mrs. J. H. Egbert, Murtaugh, Okla., was the star of all Europe. Hungry is a kingdom, but got no king. They are looking for one. Believe the old Kingfish will fix 'em. I can fix it for you, Huey, Yours,

Floyd Miller, Oklahoma, was expected to be released from the hospital this afternoon, after being treated for a broken arm and a head wound, sustained when he ran over an automobile driven by G. T. Parkinson, Pier, deputy county coroner.

Floyd Miller, Oklahoma, was ex-  
pected to be released from the hospital this afternoon, after being treated for a broken arm and a head wound, sustained when he ran over an automobile driven by G. T. Parkinson, Pier, deputy county coroner.

Two young men were found by Officer Carr, Odgen traveling salesman, lying on the ground at the north end of the bridge, after the truck had passed. It had not been identified today. Mrs. Ruth Clark, 121 Van Buren street, and "Duke" McDonald, Hazelton, are relatives of Miller.

Fear is held for the life of the Egbert child, who at the time of the accident was leaving home to attend a party with other members of the family. Officers said he was carried on either side of the highway and that the child ran around one of these, struck the front door of the Parkinson machine and was hurled to a rear fender.

*Other Officers.*

Chosen last evening with Blandford as post officers are Ed Lohner, first vice commander; O. T. Kostel, second vice commander; Carl Ritchie, service officer. The following were re-elected: Herbert Smith, adjutant-finance officer; A. Wilton Peck, chaplain; Dr. W. F. Pusser, Americanization officer; Junius H. Shinn, historian; J. E. Warner, sergeant-at-arms.

Officers appointed are: General Hogbin and other retiring officers were recorded at the meet-

ing.

**SWINDLER TAKEN TO LEAVENWORTH**

Gaston B. Means Shifted in Secret Move; May Go To Alcatraz

WAHINGTON, Sept. 14 (UPI)—Gaston B. Means, kidnapper of Charles O'Dell, oilman, kidnapper, was arrested and jailed today after the Hardin County grand jury indicted him on charges of assault with intent to kill, and pointing firearms.

The charges grew out of O'Dell's failure in defusing his abductors after a mob of strike-breakers abducted and beat him severely August 25. The trial for O'Dell, which was held in Tennessee, was adjourned because of the kidnapper's mental condition.

With administration officials predicting a full industrial pickup to furnish more jobs, Relief Administrator Harry L. Hopkins refused to estimate the number who would require aid during the winter.

Against this, Secretary of Labor

Frances Perkins reported that 3,000,000 persons have been re-employed since September, 1933. Many of these were previously on relief, others were not.

**Demands Increase.**

Federal, state and local relief rolls increased sharply from 3,176,725 families in June to 3,650,000 in July.

## MUNITIONS QUIZ SCOPE LESSENED

Probe Curtailed as Secretary Of State Objects to Use Of Foreign Names

(Continued from Page One) moved Daniel C. Roper to discuss international complications causing out of the hearings. Chairman Gerald P. Nye, R., N. D., and both Hull and Roper manifested "a spirit of complete cooperation."

The conference delayed the start of the second session of questioning of the Du Ponts. Pierre A. Felix, Lamont and Irene.

The representation application came from R. Montague Smith, who represented both Du Ponts and their British ally, Imperial Chemical Industries, Ltd., at Shanghai.

**Orders Handicapped.**

He reported that orders for shipment of high explosives and hand grenade fillings to the Canton government would be "handicapped" by export limits.

Smith complained of difficulties in obtaining a permit and suggested:

"It would be a great help to conducting business if these restrictions could be lifted, and we suggest that representations be made to the British foreign office and the state department in Washington in this respect."

"It could be stated in this representation that, on no account would we consider questions be applied to the Cantonese government if a state of war existed between them and the central government."

## MOSCOW VISIONS HIGH ENROLLING

Advance Registration at Now Daily Record; Total May Reach 2,000

UNIVERSITY OF IDAHO, Moscow (Special)—Advance registration of new students at the University of Idaho set an all-time daily record on Sept. 8 when 151 permits to register were mailed from the registrar's office.

Total advance registrations when the office closed its record day were up to 881, an increase of 300 over the previous year. This represents an increase of 45 per cent in advance registrations of new students over 1933, when the university enrollment was 4.5 per cent greater than for the previous year.

### Expect Record

University officials believe the enrollment this fall will exceed if increased to 4,000 students, the total enrollment of 1,900 students established in 1930-31. Some campus manufacturers forced a new record above the 2,000 mark. Application for registration blank sent in by former students show an increase of 8 per cent above the highest previous total on record one week before the opening days. This would indicate that old students as well as new will be more numerous than usual this year.

No permits to register are being mailed out after Sept. 10. New students sending acceptable credentials to Idaho after that date will receive their permits to register on Sept. 17 and 18, freshman days. Registration proper is scheduled for Sept. 18 and 19. Classes officially begin Sept. 20.

### Enrollment Big

KNOXVILLE, Tenn. (UPI)—The University of Tennessee expects a much larger enrollment of freshmen and upper classmen this fall, Dr. R. F. Thornton, registrar, reports. The introduction of the new G-T program and the return of better conditions have indicated a great increase in the registration, he said.

**Home from Chicago**

—Mrs. Edith Vorhees and children have returned from a trip to Chicago and other Illinois points. They made the journey by automobile, arriving here Wednesday night.

Strike-Torn City Put Under Drastic Regime by State Guardsmen

### (Continued From Page One)

Miss Gladys Smith left today for Portland to enter the University of Idaho, southern branch, as a sophomore.

All incoming cars from Fall River or Providence were closely examined, turned away at the city line, or permitted to proceed only after a thorough investigation of the passengers' credentials.

### Suspects Held

Two young men and four women from Fall River were questioned at police headquarters for more than an hour before they were released. They had been shot in town and there were more than 40 arrests of rioters.

One minor disturbance occurred early today. Shortly after 1 a. m., firemen at engine company three were aroused by a group of five or six men who made a sudden raid and smashed furniture on the station's front porch.

The American Legion and Veterans of Foreign Wars passed resolutions permitting their membership to serve in military guard, but as individuals rather than organizations. It was agreed that the veterans, as a body, would remain "neutral and impartial."

### Plant Guarded

Military headquarters were set up at the manufacturer of the Woonsocket Rayon company, which won the target for Wednesday night's mass meeting. From there Col. Edmunds, serving over "war plan," directed the disposal of his troops, the 10th engineers, the 103d field artillery, and several medical units operating as combat troops.

## FINAL TOUCH PUT ON ADDISON JOB

Improved Thoroughfare Given  
Gravel-Coating; Better  
Approaches

Finishing touches are being put on the road on the Addison avenue interchange job, on which the William Haag Construction company has the contract.

The thoroughfare, which lately has been improved with the laying of a 30-foot strip of rolled gravel, is now receiving an additional coating of loose gravel on either side, covering the entire width of the street.

In addition, five approaches to the street have been improved with the laying of an even layer of loose gravel. The improvement connects on one end with Blue Points in the west part of the city, forming a direct routing of highway 93 from the state highway to the Washington school corner.

Cost of the approaches is being borne by the city, it was stated. The mile-long improvement is a public works project, financed by the federal government without cost to the municipality.

## VIEWS NEW DEAL AS HOPE OF U.S.

Meditation Board Chief Finds  
Fascism, Communism Only  
Alternative

WELLESLEY HILLS, Mass., Sept. 14 (UPI).—If the New Deal fails, "there will be no other alternative but Fascism or Communism, for the old deal has led and can only lead to economic paralysis and social chaos," Chairman W. M. Leiberman of the national meditation board said today.

He told the 21st annual business conference that the New Deal had freed workers from the competition of child labor and sweat shops, and in some cases from the necessity of working 60, 70 and 80 hours a week.

## POMERENE RAPS GOLD REDUCTION

Ex-Senator Claims Lessened  
Content in Dollar Tends  
To Hurt Business

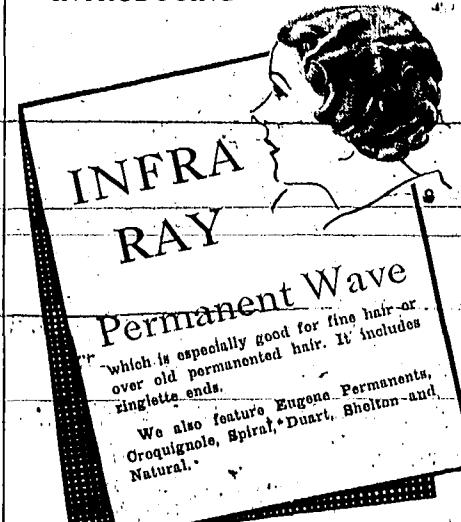

CINCINNATI, O., Sept. 14 (UPI).—Reduction of the gold content of the dollar is in violation of the fifth amendment of the U. S. constitution and tends to depress general business, former Senator Atlee Pomerene, Cleveland, said in a sharp attack here last night on the Roosevelt administration.

It was Pomerene's first public expression on the New Deal and was made to the Ohio valley group of the Investment Bankers association of America.

The reduction action, Pomerene charged, was tantamount to cancellation of government's wartime promise in that it eliminated the necessity of redemption of the Liberty bond coupons in gold currency.

### WIRT BROADSIDE RAKES NEW DEAL

Gary Educator Assorts Game  
Is to Outwit Politicians,  
Secure Control

WELLESLEY HILLS, Mass., Sept. 14 (UPI).—The "game of the New Dealer" has been to outwit the politicians and thus "secure control of our government indirectly," Dr. William A. Wirt, Gary, Ind., schoolmaster, said in a speech here today.

"No one can successfully deny that they have succeeded," he added.

Dr. Wirt, who became prominent through his charge that bureaucrats planned a "red" revolution, was addressing the 21st annual National Business conference on "the other side of the New Deal."

#### Not Bengal

"Many persons," he said, "think that when we delegate to the government a grant of power we are trusting a benign old Uncle Sam who in all wise and good will deal justly with his dear children. They do not realize that in doing so we are turning absolute power over to the ordinary politicians who happen to be in political office. History teaches that men have always suffered much more from the tyranny of politicians in control of absolute governments than they have suffered from any form of tyranny. Of course, it is not surprising that these politicians do not object to this grant of absolute power so long as it is granted to themselves."

#### Brothers Meet

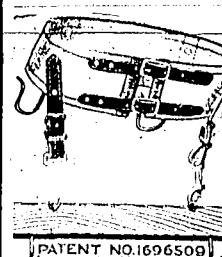

PHILADELPHIA, Sept. 14 (UPI).—Two brothers, William J. Gorman, of Winnetka, Ill., and Joseph G. Gorman, of Philadelphia, met for the first time since their parents died 48 years ago. Joseph, who is totally blind, recognized William yesterday, remembering the sound of it since childhood.

## Model of Navy's Plane Carrier Listed as Hobby Fair Display

Included in sell more than 1,200 parts.

### Flagship Model

Benson has also carved a wooden model of the Texan, a ship built for the Atlantic fleet, and one of a Boeing plane, called T-33. He takes him about six months to complete the ship.

The ship is also equipped with 500 airplane, even one carved individually from wood.

The planes include amphibious bombers and Vought Corsairs. Each one is painted completely and carved to show all parts of the body. Benson has made them in 12 hours a day, and he has carved "ever since he can remember."

It was announced last evening that the hobby fair will be held at the high school that Benson will display his designs and possibly the other two models.

An excellent display of amateur photography, Donald Craibtree's collection of fossils and Indian relics, puppets made by Bill Reserve, a number of stamp collections and clocks made by T. Allen Gaskell are other interesting displays which are already ready.

### Complete Details

The landing circle is indicated and the springer that supports either side of the boat is used to catch the planes are there. The inch-long bodies are equipped with tiny hooks, such as are used on real planes to catch them in their cables and so stop the plane.

The model is two and one-half feet long, and made exactly to scale. It is made of light pine, and Benson has penneled marks on the deck to resemble actual planes. The wings, which are made in real ships as a refuge for sailors when planes are landing, he says. The model

# SALE OF RADIO RIGHT ADDS \$100,000 TO WORLD SERIES POOL

## FIRST OF GAMES SET FOR OCT. 3

Opening Clashes Scheduled at Home of American League Participants

CHICAGO, Sept. 14 (UPI)—An unexpected \$100,000 was won in the 1934 world series pool today as an added incentive for the players who will compete in the event opening Oct. 3 in the American league city winning the pennant.

The Ford Motor Car company purchased the exclusive rights to broadcast the games for \$100,000. It is the first time the radio rights have been sold. The radio description of the games will be on both national stations.

The additional revenue will be divided up the same as the other world series money, with the phys-

NINE RAHS FOR MEXICO!

Couched by John Kilkenny, former Yale star, the University of Mexico will send a football team to the United States this year to play a series of five games. The Mexican squad will face Union University, Jackson, Tenn., Sept. 29; Lamar college, Beaumont, Tex., Oct. 12; Louisiana College, Oct. 27; Birmingham Southern, Nov. 12, and Southwestern Louisiana Institute, Nov. 20. Above is Captain Guyallion, of the Mexican team, with Coach Kilkenny.

## Cubs Hinted as Ready To Acquire Dizzy Dean

By HENRY McLEMORE

NEWPORT, R. I., Sept. 14 (UPI)—Putting the sports world here and there:

Baseball group has it that Joe Strippoli, the Boston Red Sox

Giant second baseman, has told his wife he will trade him to the Atlanta Crackers.

He was no terrible

they fired him, despite the fact

his batting average was better

than .400.

House of David nine helps Babe Herman is scheduled to play first base for the Cubs next year.

The last time we saw

Babe was with the Cub

team, he was with the Atlanta

Crackers.

He was no terrible

they fired him, despite the fact

his batting average was better

than .400.

Max in Movies Again

Maxie Paquin's coming film will feature "Baby" LeRoy, but no prize-fight scenes.

However, there will be plenty of

incidents.

Max is hunting

the movie-hunters who

stripped him of his

ace-to-the-kidneys.

Tommy Grogan starts his 3rd year as coach at Vanderbilt.

Look like he's working up to a steady job.

Trade talk: Guy Cronin

will go to Boston as shortstop

for Bucky Harris, former Senator boss.

Earl Averill of

Indiana may be traded to White

Sox for several players.

And the Bengals want Sammy West

of St. Louis for their outfield.

Handy Letter

Food Packer's letter to the

Fairmont Tennis customer

for clearing off his errors gives

a laugh.

At least, they

didn't applaud his footfaults,

which is just what the Wim-

blodin crowd did to Glavin.

Wood in Davis cup match with

yes, with Perry.

Perry's ambition, by the way, is

not to become the greatest tennis

player of all time, but to lead

fashionable jazz band.

He could well do so, as well

as he's equipped. He wouldn't

have much trouble fulfilling his

dream.

W.H. Allison, when

questioned as to his availability

for the 1934 cap team, said

it all depended on who was

made non-playing captain.

And the leaders he named who

would be satisfactory to him

didn't include R. Norris Wil-

liams.

## THOUSANDS WAIT FOR YACHT RACE

Briton, U. S. Sloops Ride at  
Anchor as Thruway Jam  
Into Newport

NEWPORT, R. I., Sept. 4 (UPI)—Two racing sloops Britain's royal blue challenger Endeavour and the sleek, white Rainbow, the American, were rocked gently at anchor today, trimmed to the second for the first race of the American cup series off Brenton's reef tomorrow.

The port is all worked up. It is the 15th challenge for the world's prizewinning albatross: a turtlenecked goblet brought from England in 1851 by the schooner America. It has rested ever since on a shelf at the New York Yacht club.

Thomas Octave Murdoch Sopwith, of Hollywood, by defeating Sacramento, 6-1, for the third victory registered by Ed Stutz, when he was graduated from the bullpen, Stutz had now only two earned runs.

Los Angeles won again, defeating Oakland, 6-4, holding tight to their apparently immovable lead in first place.

Closer to Second

Hollywood's double win brought the team from mudland closer to the second place Seattle team which again was idle because of wet grounds.

San Francisco Seals kept pace with Hollywood by defeating Sacramento, 6-1, for the third victory registered by Ed Stutz, when he was graduated from the bullpen.

Stutz had now only two earned runs.

Los Angeles won again, defeating Oakland, 6-4, holding tight to their apparently immovable lead in first place.

BURLEY OPPOSES  
WASATCH OILERS

Idaho Baseball Champs Meet  
Topnotch Utah Outfit  
On Sunday

BURLEY, Sept. 14 (Special)—Bill Williams' ace burley baseball crew, will meet the Wasatch Oilers, Salt Lake City, here Sunday afternoon.

The Oilers are runnerup in the battle for the state championship of Utah, having lost out last week to the Division team in a titanic game that saw the Oilers leading until the sixth, when errors led the crown. Some Utah experts, however, give the Wasatch outfit top rating in that state and Sunday's game here is expected to prove a thriller.

Expect Vengeance

Wasatch is the only squad which defeated Hurley and which didn't subsequently lose in a return game with the locals. The difference was in the number of wins.

The races will be held four out of seven over alternating 30-mile courses. The first will be a windward and leeward 30-mile course, with starting signal set for 10:30 a.m. tomorrow. The alternate course will be over triangular 10-mile loops.

Stoops Look Alike

The racers look much alike, with polished durham mustaches, steel eyebrows, flexible boomer and the new quadrilateral or double-blade whips.

Inasmuch as the Americans have what edge there is, Vandenbult in one of the world's foremost amateur skippers and his crew is professional, trained to the minute. Sopwith's amateur crew has not been definitely tested under racing conditions.

## BORAH PRAISES IDAHO PIONEERS

Senator Declares Present Day  
State Deeply Indebted to  
Early Settlers

BOISE, Sept. 14 (UPI) — "Idahoans of today are debtors to the pioneers beyond all power to pay," Senator W. E. Borah told a huge throng in Julia Davis park here at a reunion of early settlers at the Fort Boise centennial.

Reviewing the stupendous task of temple building performed by those who came over the old Oregon Trail, the senator concluded with a magnificent tribute to the pioneer woman, and appealed for an enduring monument to commemorate her greatness of spirit, character and deed.

**Maine** Pagrant

Opening the centennial celebration, a cast of 1,700 local performers, including the municipal band and a special chorus of 400 voices, presented the pageant, "Wings Of The West" at the greenward of public school field before an audience of 8,000.

In a brief succession of panoramas, they depicted the history of southern Idaho from its primitive state, through the legends of Indian lore, the building of Fort Boise, the coming of Hunt, Price, Bonneville, McKay, Payette, and later trappers and settlers, down to the present time of advanced farming and industry.

Today streets were swelling with visitors from many parts of the state, from Salt Lake City to Portland.

## ADVISES CONTROL FOR PRODUCTION

A. F. of L. Proposes Central  
Agency for Regulating  
Industry Output

WASHINGTON, Sept. 14 (UPI) — A program of controlled production by a central agency representing organized business, labor consumer and government is proposed by the American Federation of Labor in its current monthly review of business.

Arguments advanced for this program included:

"...the recovery measures for recovery if they succeed can restore business only after a long period of time.

"The recovery program has as yet given us no way of adjusting production to the needs of population.

"No individual business man or worker need curtail his spending for fear of the future if all cooperate in a definite program to produce all our needs."

"The government can not up necessary information; it can establish a central agency representing business, labor, consumers, and the government to lay out a production program and carry it through."

## Gooding

Mr. and Mrs. Crist, Atlanta, announce the birth of a son, Sept. 10 at Boise. Mrs. Crist was formerly Miss Lois Taylor, Gooding.

John Cleaver and son, John, returned Sunday from Delaware where they have visited the past two weeks.

Mrs. William Kennedy plans to leave Saturday for California to spend the winter. She will be accompanied by her daughter, Mrs. Alma Leacham.

Mrs. Gru Wennstrom is visiting in Boise this week.

Miss Jean Baile left this week for Columbia, Mo., where she will attend Steven's college.

Gooding band is entered in the band contest at Boise during the celebration.

**Salmon Diversion  
Survey Postponed**

BOISE, Sept. 14 (UPI) — In a telegram to Governor Ross Idaho's state today declared it indispensable to this year's survey for the tunnel project to get Salmon river water to the Boise project.

"This is not to be construed as commitment to allocate funds later," the secretary added.

**Hermit Living in  
Century Old Hut**

QUINCY, Ia. (UPI) — Leading a solitary existence in an isolated spot ten miles from here, known as Burton Cave, is John Clingerman, an aged hermit.

Clingerman lives in a log cabin which was built by him sometime more than 100 years ago. His reputation as a hermit is well known among the citizens of Quincy.

Clingerman has made a motion picture and talked with visitors on a train once.

Mr. and Mrs. Clifford Askins, husband and wife, are the parents of Mrs. Clifford Askins, known in the circus world as Princess Valeria, world famous midget.

Once a midget, now a woman,

three feet, three inches tall, had been married to a Kansas City cobbler, Clifford Askins, who tipped the beam at six feet, two inches.

They commenced began under-

olive tents, \$60.00 with a desire to amuse children customers, became a clown. He repaired harness for the horses.

A boy constrictor snake, 35 feet

long, broke from its cage one day,

and crawled to the "Princess." Askins rescued her, saving her life.

## THIS CURIOUS WORLD

By William Ferguson

The BACK SWIMMER INSECT BREATHES THROUGH THE HIND TIP OF ITS BODY.

Of the 1500 cubic miles of water which fall each year upon the earth, about one-half goes back into the atmosphere by evaporation; about one-third flows into surface streams; and the remainder enters the crust of the earth, to be drawn up later.

## VETERAN SCREEN ACTOR SUCCUMBS

Sam Allen, Player With Old Biograph Concern, Dies At Hollywood

(Copyright, 1934, United Press)  
HOLLYWOOD, Sept. 14 (UPI)—Sam Allen, 77, who acted in 1911 after 51 years on the stage and screen, died at his home here yesterday, following a prolonged illness. Allen, who made his acting debut in 1880, was a prominent stage figure when he joined the old Biograph Film company of New York in 1910. He worked in Hollywood from 1911 until his retirement.

Douglas Fairbanks assumed a new role today. He was appointed formally as executor of the estate of his sister-in-law, Mrs. Margaret McElvain Fairbanks, who died last month, leaving an estate valued in excess of \$10,000. The will stipulated that he serve without bond. Mrs. Fairbanks was the widow of John Fairbanks, Doug's brother.

Harry Langdon's bookkeeping ability was challenged by the federal government today in an infringement of the demanding game from the comedian. The government charged that Langdon altered it when he filed his 1931 return.

Damages of \$35,000 were demanded by Mack Sennett, veteran producer, a suit against Mrs. Myrtle Mack, widow of Charles E. Mack, radio comedian.

The suit claimed that Bonnie suffered injuries in an automobile accident when Mack was fatally injured near Meadville, last June. Sennett was a passenger in the car and Mrs. Mack was driving. An insurance company was named as co-defendant.

Mack's radio partner, George Moran, was denied damages in a similar suit several months ago.

## OLD THEATRICAL GROUP MAY QUIT

Woloh Minstrel Troupe Faces Finale Unless Business Improves

PHILADELPHIA (UPI)—Continued decrease in the stage show business may erase one of the most familiar names in theatrical circles of Philadelphia.

Mrs. Emmett Welch, widow of one of Philadelphia's pioneer minstrels, has been carrying on since her husband's death six months ago, arranging bookings for the old-time "Woloh Minstrel Troupe."

May Quit:

But unless business improves, Mrs. Welch says, she will be forced to give up her booking office here, and "try to earn some money by renting out rooms to boarders."

The name of Welch long has been connected with theaters and minstrels in Philadelphia. For

years, Emmett Welch operated the Old Minstrel Men and Diamond Theaters now demolished. He also directed a troupe at the Million Dollar Pier in Atlantic City. Welch's death followed a stroke of paralysis in Gettysburg. At the time, he was en route south to make contacts for his booking agency.

## Flier Plans To Hop To Poland

Stanley Hausner Maps Third Effort to Span Atlantic To Native Land

DETROIT (UPI)—Stanley Hausner, Polish-American aviator who for 14 of his 25 years has stuck doggedly to a dream of spanning the Atlantic, has decided to make a third attempt this fall.

Take his non-stop flight, New York to Warsaw, Poland, ended in failure, but not despair.

The Newark, N. J., motion picture operator, who has wanted to cross the Atlantic since he was 21, is making final arrangements for a Detroit-Warsaw solo flight—of some 5,000 miles.

If successful this time, he will try again.

Negotiate the eastward crossing from America to Poland.

2. Span the ocean from a falcon west of New York.

The site of his starting point has not yet been definitely decided, although Hausner believes it will be Detroit, center of a large Polish group. He recently came here to study condition of the city's airports and to obtain support of Polish organizations for his proposed flight.

**DOG'S ACTIONS CAUSE SUIT**

TOLIN, O. (UPI)—Mrs. Mary M. Reynolds sleep-walked with dreams of a large, vicious dog barking at her, so she asked \$1,000 damages in a suit she filed in common pleas court against Mr. and Mrs. Henry Rosenthal. Mrs. Reynolds said in her petition that every time she leaves her home and enters her automobile the Roseblum dog scratches at the car door, barks and sometimes rides for two blocks on the running board. The dog's actions have made her so nervous she can't sleep, she charged.

## ME and MY PAST by MAE WEST

As Told to LEICESTER WAGNER, United Press Staff Correspondent

Hollywood couldn't figure me out—despite the well-known fact that I brought a figure right along with me.

When I rode down THIS boulevard—that first-time-the-flame-only, know what there, but didn't know exactly why.

"They had honest things about this woman who had been brought out from Broadway to support a man. My, my—what things.

So don't blame them for wondering a bit when I settled down immediately in an apartment only a mile from Paramount, took the telephone receiver off the hook and turned all my attention to making good."

**Dishonest Parties**

Word spread around that Mae West didn't like parties. Why, of all things, she didn't invite and she didn't smoke!

Impossible—but true. And the reason?

I figure smoking would make a woman of my type seem hard. Drinking would make me coarse. He'den't like the taste of liquor.

A few friends in Hollywood—still had them—and I went out to private dinners once in a while. But when I did go out, it was not to some party where I had to stand around nursing a cocktail as a decoy, and breathe a lot of stale air.

I went to dinners at home, where they talked about something more important than who's wife was having an affair.

Then I just don't have time for Hollywood's usual idea of good times. Mine were different—and still are.

The support I gave to that man in "Night After Night" aided a flood of comment. They—men, women and children, particularly the men—wanted more.

Could I turn out a startling picture? Paramount wanted to know.

At a church social the day when I was first beginning to act, I convinced my mother, the minister and all others—present that I had something.

Down the street from the church was Handome Hal Calrendon—in the Gotham Theater. My mother had an idea that a theater might be a better background for my act.

Hollywood—or the rest of the world, for that matter—today would have a difficult time imagining Mae West as she appeared when she toddled into that theater. Or the parts I played there.

Can you imagine me hanging onto the coat-tails of my stage father—“Ten Nights in a Barroom”—urging “Father, dear Father, come home with me now”?

Me—the woman who won't play any parts, dumb parts or partizans.

But I did, and it's plain later what influence those child roles had in bringing me to Hollywood—where two wrongs make a riot.

Funeral arrangements were being made today for J. S. Chapman, 78, who died last evening at the Drake mortuary.

Death followed a long illness.

Mr. Chapman had been a patient at the hospital since Tuesday.

With his family, he came to Twin Falls from Alton, Ill., 10 years ago. The family homestead in 1900 had been purchased by Emerson Webb, son of Mr. and Mrs. Harry Webb, present owners of the farm, dug up the ring while working in a garden. It was returned to Mrs. Krahn, now living on neighboring farm.

**Lost Ring Found**

KENOSHA, Wis. (UPI)—The wedding ring was found by Mrs. J. V. Krembs in her family home in 1900.

It was given to her by her husband, John Chapman, three sons, Dale, Gaylord and Gerald Chapman, and one daughter, Mrs. Hazel Phelps, San Francisco.

**Death Summons Mother of Six**

CHICAGO (UPI)—In the belief that no great piano talent should go untrained, Molissey Boguslawski, noted Chicago pianist, has offered a \$1,000 scholarship in tuition to the best American boy or girl, pianist qualifying in a contest to take place here.

The player is to perform one piece each in the morning and afternoon.
