## HUGE AIR PROFIT REVEALED UNDER SENATE QUIZZING

Returns of Million Per Cent Disclosed for Pratt and Whitney Group

### URGED BY COMMANDER

Naval Man Later Resigned to Accept Private Position, Probers Told

BY RONALD G. VAN TINE

WASHINGTON, Sept. 17 (UPI)—Stockholders of the Pratt and Whitney Aircraft company realized a return of more than 1,000,000 per cent on their original \$1,000 investment in the firm, say investigators were told today. The company was organized in July, 1926, with a stock issue of 6,000 shares, priced at 20 cents per share.

Investigators for the Senate munitions committee said that at the end of 1932 the return of the original investment was \$11,407,250 or 1,142.725 per cent.

**Cash, Stock Dividends** It included cash dividends of \$8,400,000 and stock dividends of \$3,037,250.

The amazing profit was revealed as the committee started its third and last week of the final phase of the inquiry into the munitions industry.

The original investors were C. W. Deeds, George J. Mond, Fred Rentzschler and the Pratt and Whitney company.

Deeds told the committee the salaries and bonuses paid to him from 1926 to 1933 amounted to \$208,788.

Mond, he said received \$522,485 and Rentzschler, from 1926, \$1,558,750.

The story of Pratt and Whitney's entrance into the aircraft engine business was told by Donald L. Brown, director of the United Export company.

Early business, he said, was \$100 per month with the United States government as customer.

Now, the company has contracts for 400,000-horse power aircraft engines in March, 1935.

In June, 1930, the company received a contract for six, add. (Continued on Page 2, Column 3).

## ATHLETE DIES OF CRASH INJURIES

Gessford Abel, 19, Senior at Filer, Succumbs After Auto Accident

Gessford Abel, 19, Eller rural high school senior and athlete, died at the county hospital at 8:30 p.m. yesterday following an operation necessitated by internal injuries sustained in an auto accident which took place west of Curry on the state highway Saturday evening.

The youth is survived by his parents, Mr. and Mrs. K. D. Abel, Filer, and by a brother, Kyle, 15. The body is at the Drake mortuary here. Funeral arrangements await word from relatives.

The fatal accident occurred as Abel and Elwood Massey were riding to Twin Falls with Raymon Baker, son of Mr. and Mrs. George Baker, Sixth Street truck driver by Tom Williamson, Twin Falls, was parked about half a mile west of Curry, while a flat wheel was being repaired. Baker slowed down for the truck, and awaited the passage of another vehicle from the east. After it had passed, he attempted to swing to the left-hand side of the road, and in so doing struck the standing truck with his car on the side on which Abel was sitting in the front seat.

Abel received full impact of the collision, while the two others were slightly injured. (Continued on Page 2, Column 3).

## HAUSNER DELAYS HOP FOR POLAND

DETROIT, Sept. 17 (UPI)—A boy was born in the Wayne county airport hangars today for Stanley Hausner, Polish-American flier, who is awaiting favorable weather conditions for his nonstop, solo flight of 5,000 miles.

Two physicians both charged with the same offense, heat in breast, have been found to not be much longer, however, than the physician who diagnosed the condition.

Two physicians both charged with the same offense, heat in breast, have been found to not be much longer, however, than the physician who diagnosed the condition.

## Unequal Prison Penalty Called Cause of Riots

BIRMINGHAM, Tenn., Sept. 17 (UPI)—The inequitable prison sentences are the chief cause of penitentiary riots, M. R. Cass, secretary of the American Prison Association, charged today.

Juries don't know what it is all about and judges who have a penchant for "locking the unfortunate are responsible for a condition that seems to

will result in the adoption of some system whereby boards of probation and parole men will pass sentence," Cass said.

He quoted Cass as saying:

"The unequal prison sentences are the chief cause of penitentiary riots, M. R. Cass, secretary of the American Prison Association, charged today."

## REOPENING FAILS, UNIONISTS CLAIM

**Strike Larger Than Last Week.**  
Labor Says in Defying  
Operators

(Continued from Page One)  
by the hundreds." He said production in the mills was inconspicuous and not sufficient to indicate that the mills still open were maintaining any more than mere skeleton staffs.

Officials of Rhinelander and other textile mills across have been informed. Corrigan said, that the strike committee will not be responsible for the consequences if an attempt is made to reopen mills.

### TWO SLAIN

BIRMINGHAM, Ala., Sept. 17 (UPI)—Two Negroes lay dead today and nine others suffered serious injuries after a clash between the Porter miners in the western section of the county.

The Negroes were slain in a gun battle between sheriff's deputies and union miners who marched to the coal mines to hold a demonstration, described as an attempt "to completely unionize the Porter employees."

Officers said more than 2,000 union miners were in the march, in trucks, automobiles and about. They included miners from a dozen surrounding towns.

**Threaten Non-Unionists**

The shooting started, Deputy Sheriff Sam Arnott said, when Negroes broke from the line of march, swarmed around houses of non-union employees and threatened their lives.

Leaders of the parade of United Mine Workers of America, the unionists without representation,

"It was murder," said Talmadge Latham, a union official. "They had given us permission to march to Porter for a peaceful mass meeting. The deputies opened fire as we marched. It's a wonder more were not killed."

The dead Negroes are Harrison C. Collins of Flat Creek, and Ed Womble.

### MOVIES TO KEEP RACIAL RECORDS

Films Will Record Pictures  
of Primitive Tribes Now

#### Dying Out

LONDON (UPI)—Movie cameras will soon be making lasting records of those primitive races whose extinction within the next two or three generations is foreseen.

At the first International Congress of Anthropology and Ethnological Sciences, which has just met in London, it was decided to send out special expeditions equipped with movie cameras to make film records of life among tribes which are believed to be dying out.

It also was decided to create a central film library here with branches in all the principal cities of the world, where such records can be kept. In addition to the special expeditions, traders, explorers, traders, colonists, planters and others who make films of life among primitive peoples will be urged to send copies to this library of dying races.

The special permanent committee set up to study the question of compiling such movie records plans also to hunt up material for the library out of old newsreels, tropic and sea cupboard of the film world.

#### Lindy, Wife Head For Los Angeles

BLITZEN, Cal., Sept. 17 (UPI)—After a long flight of 14 hours, Lindy, his wife, and their two sons, 10 and 12, arrived yesterday at the airport here to begin their tour of the world, which such records can be kept. In addition to the special expeditions, traders, explorers, traders, colonists, planters and others who make films of life among primitive peoples will be urged to send copies to this library of dying races.

The special permanent committee set up to study the question of compiling such movie records plans also to hunt up material for the library out of old newsreels, tropic and sea cupboard of the film world.

#### Fliers Court

BLITZEN, Calif., Sept. 17 (UPI)—A flier, here to repair a flat tire on their small airplane, Col. and Mrs. Charles A. Lindbergh hopped off from here today for Los Angeles.

Plainly fatigued from their transcontinental trip which had been a series of minor mishaps, the Lindberghs slept late at the Hotel Roosevelt.

They arrived at the flying field and discovered a tire on the plane had gone flat during the night. The tire was punctured by cactus when they took off from Roswell, N. M., yesterday.

**Plans New Search  
for Sunken Gold**

MILWAUKEE, Wis., Sept. 17 (UPI)—While seeking to salvage a sunken ship near Poverty Island, Wilfred Bohrson lost his own ship, the Captain, which, when he was unable to get away from the jutting reefs of the island.

Undaunted, Bohrson intends to outfit another boat and tackle the sunken hulk that he reported to contain \$40,000,000 in gold bullion.

If the expedition fails, Bohrson will attempt to recover 350 barrels of whisky that went down in the steamer Templeton 17 years ago, near South Manitou Island.

#### Huge Mushroom

TORRINGTON, Conn., Sept. 17 (UPI)—Harold Boyceian plucked a mushroom that was big enough for an umbrella. It measured 38 inches in circumference and weighed slightly more than seven pounds.

#### Latin Copy

ASTORIA, Ore., Sept. 17 (UPI)—A Latin copy of the New Testament, printed 2,000 years ago, is the property of Rev. L. O. Hense, pastor of the First Lutheran Church.

### News in Brief

Members of the Evening Times are invited to contribute brief news items to this department of the paper by telephone. The number is 44-4444.

#### Car Recovered

An automobile owned by W. H. Gomer, reported stolen over the weekend, has been recovered, according to the police.

#### Leaves for School

Lee Abachar is among those who have gone to Albuco to enter upon studies at the University of Idaho.

#### Leave for Athlon

Mrs. Ruth Perrine, Barbara Thompson, Jannet Bell, Mary Triplett and Mabel Walker left yesterday to enroll in Albion State Normal school.

#### Accompany Daughter

Mr. and Mrs. H. H. Lamb and their daughter, Miss Viola Mae Lamb, drove to Salt Lake City today, where Miss Lamb will enroll in the University of Utah as a junior.

#### Go to Long Beach

Robert Dickard left today for California, where he will enter Long Beach Junior College. He returned Saturday from Boise to spend the weekend here before leaving for school.

#### P.T.A. to Meet

Lincoln Parent-Teacher association will meet Wednesday in the Lincoln building at 7:30 p. m. Abby Frederick, member of the hobby fair board, will talk on "Hobbies."

#### Struck in Spokane

M. A. Stroik, president of the Southern Idaho Production Credit Association, is in Spokane concerning with officials or the federal farm credit bank. He is not expected back until the end of the week.

#### Miss Reborn

By her mother, Mrs. Joe Kochler, left yesterday morning for Salt Lake City where she will enroll in the University of Utah. Joe Kochler will join them Wednesday.

#### Conducts Sale

E. O. Walter, Filer livestock auctioneer, is conducting the Wyoming Wool Growers' ram sale Thursday and Friday at Cheyenne. This is the sixth consecutive year he has acted in this capacity. The sale this year is rated as the largest in America.

#### Gets Degree Today

In district court this afternoon a decree of divorce was granted by Judge W. A. Bubeck to Emma Johnson against H. M. Johnson on grounds of non-support. Paul Boyd, Bubeck, appeared as attorney for the plaintiff.

#### Pleads Not Guilty

Jay Lynch, Buhl, pleaded not guilty when arraigned today in probate court on a charge of contributing to the delinquency of a minor girl. The bond was set at \$500 and his hearing was set for Wednesday, Sept. 26 at 10 a. m. Lynch is represented by Turner, R. Hackman.

#### Remains Unconscious

Condition of Kay Egbert, 4, son of Mr. and Mrs. J. H. Egbert, Murtaugh, was unimproved at the hospital this afternoon, attendants reported. The child was struck by an automobile in front of the family home Thursday night, sustaining a fracture at the base of the skull, and has not yet regained consciousness.

#### Hearts Petitions

Petitions for citizenship were received at the court house today by Harold Wood, of the Salt Lake branch of the naturalization office. In the cases of Anton Mayer and William Willkomm, Twin Falls, and Ludwig Dierkes, Buhl, Mayer came to this country Dec. 29, 1926, and Dierkes May 14, 1926, from Germany. Willkomm is a native of Ireland.

#### Fliers Court

BLITZEN, Calif., Sept. 17 (UPI)—A flier, here to repair a flat tire on their small airplane, Col. and Mrs. Charles A. Lindbergh hopped off from here today for Los Angeles.

Plainly fatigued from their transcontinental trip which had been a series of minor mishaps, the Lindberghs slept late at the Hotel Roosevelt.

They arrived at the flying field and discovered a tire on the plane had gone flat during the night. The tire was punctured by cactus when they took off from Roswell, N. M., yesterday.

#### At the Hospital

Mrs. Edna Anderson, Mrs. Otto E. Ackroyd, Twin Falls; Alberta C. Cobb, Filer, and Miss Lydia Pyron, Hailey, have entered an infirmary at the hospital under supervision of Mrs. J. M. Howard, Hansen, and Mrs. Fern Brown, Hansen, have entered an infirmary patients. Dalmatians include Floyd Miller, Twin Falls, and Rudolph Martens, Eden, medical patients. John Chapman, dual and Laundie Drexler, Buhl, medical patients. Mrs. A. C. McFarland, accident patient, was also ill.

#### Sheep Purchasing

DENVER, Colo., Sept. 17 (UPI)—Fredrik Petrie, chief of the cattle and sheep section of the agriculture adjustment administration, today authorized increased purchases of drought sheep in western states.

The quota for this week was set at 75,000 head, up against 37,000 last week when the purchases began.

Allotments by states for this week were: Montana, 10,000; Wyoming, 15,000; Colorado, 3,000; New Mexico, 6,000; Texas, 15,000; Oregon, 8,000; Nebraska, 1,000; Idaho, 5,000; Utah, 4,000; Nevada, 5,000; North Dakota, 1,000; Arizona, 1,000, and South Dakota, 5,000.

#### Large Copy

ASTORIA, Ore., Sept. 17 (UPI)—A large copy of the New Testament, printed 2,000 years ago, is the property of Rev. L. O. Hense, pastor of the First Lutheran Church.

## QUIZ WARNED OF OIL EXHAUSTION

Known Reserves Will Go in 15 Years at Present Rate, Export Says

**WASHINGTON**, Sept. 17 (UPI)—Hale B. Sooytar, government geological expert, warned the special house oil investigating committee today that at the present rate of production known petroleum reserves of the United States will be exhausted in 15 years.

Sooytar was one of a group of oil experts who supplied the committee with data for use in drawing up new oil control legislation.

**13 Billion Barrels**

He estimated that recoverable petroleum reserves of the United States amount to 13,250,000,000 barrels. 1933 production was 605,655,000 barrels. He said that of the known oil reserves 85 per cent are in California and Texas.

E. B. Swanson, chief of the division of production and refining of the federal petroleum administrative board, submitted data on oil shipments but was unable to determine how they compared with code-permitted shipments from oil states.

Refused to Appear

Oil Administrator Harold Ickes is expected to appear before the committee tomorrow. Chapman William P. Cole, D., Md., and Gov. Gifford Pinchot of Pennsylvania has been invited to appear Friday when the committee will seek data on the Pennsylvania field.

William S. Lovings, production division advisor of the petroleum board, testified that he believed there was imminent danger of exhaustion of petroleum reserves. Neither he nor Sooytar would admit, however, that national defense might be endangered.

Lovings said that 50 discoveries of new pools had occurred between Jan. 1, 1933, and Sept. 1, 1934, the pools having a reserve of 600,000,000 barrels. Rate of discovery has been accelerated under the oil code due to the higher price for petroleum.

## DEAF "HEAR" BY SENSE OF TOUCH

Pittsburgh Institute Teaching Through New System Based On Nerve Senses

**PITTSBURGH** (UPI)—Deaf persons are now learning to hear through nerves of touch at De Paul Institute here.

By practice, sensitivity of nerves in the chin may be increased. Sisters of Mercy found Deaf patients are trained to distinguish nerve sensations carrying sounds from the fingers or neck to the brain.

Difficulties are countless at first. Sisters said, but after preliminary training progress is rapid.

**Must Be Nearby**

The speaker must be close to the patient when speaking. Sensations must be stronger than average.

The sounds conveyed are "pure and rich." Sister Bernadette, who is in charge of instruction, said.

Children, therefore, can learn to speak as well as normal persons.

Patients are first trained to pick up sensations. Then they are held against the cheeks of the speaker until sensitivity is increased. Afterward the speaker talks while standing close to the patient.

Six-year-old patients within three months learned 800 words, an increase over the normal child's vocabulary.

Sisters at De Paul first heard of the method at International Congress of the Deaf, Trenton, N. J., a year ago.

## BARTENDERS ARE DIAMOND BUYERS

Not Afraid of Bandits, Buys Veteran Jeweler at Salt Lake City

**SALT LAKE CITY** (UPI)—Bartenders are the ones buying diamonds these days, according to William J. Smith, who has sold gold "assays" here for 38 years.

"Bandits are the cause of it all," he explains.

"Actors, and the average persons used to be my best customers," he said. "But since bandits became so bold, stars of the footlights have stopped coming to my display of diamonds. The same goes for the average male, who ordinarily would wear a fair stone."

**Good Old Days**

Smith years for the good old days when nationally known actors were in the habit of stopping in Salt Lake City to visit his establishment.

Before the decline of the road show he sold stones to Harry Richman, Julian Eltinge, Will Oakland, Madge Rambo, Fanny Brice and Eddie Cantor.

"But that's all over now," he says, rather wistfully, "and I guess only the bartenders keep buying—and wasting—diamonds, because they're not afraid of the average bandit."

Diamond mines now use an X-ray device to detect gems stolen by workers. The ray makes the diamond glow green in the atmosphere it is swallowed.

## RIOTER DOWN

## REPORT DEMANDS BANKING REFORM

Sonitors Condemn Group Plan After Probe at Detroit And Cleveland

**WASHINGTON**, Sept. 17 (UPI)—The Senate banking committee today demanded basic reform of America's "archaic" banking system in a report that condemned group banking practices.

The report was based on the committee's investigation into banking in Cleveland, O., and Detroit, Mich., activity which was published several months ago.

**Cities Detroit Debacle**

Operations and collapse of the Guardian-Detroit Union group Inc., and the Detroit Bankers Co., in Detroit, were cited as emphasizing the weaknesses of group banking.

Inquiry into the Union Trust Co. and the Guardian Trust Co., of Cleveland, is planned to show the weakness of the whole commercial banking structure.

Defining group banking as something distinctive from other branches of chain banking, the report found that the collapse of the Detroit organizations could not be attributable either to the stock market debacle, the depression, the banking holiday or the "constituent competency or honesty of the persons controlling these institutions."

Prior to the Detroit collapse, it said, many competent banking authorities favored group banking as practised in Detroit.

The same committee found that unit banking in all sorts carries much the same dangerous potentialities. The weaknesses it added, were not to be considered as confined to the Detroit situation.

Highlights of the practical report issued in Detroit were stretched in undue concentration on repeated drainings of unit resources to maintain a group dividend policy, "window dressing" false, confusing, and un-intelligible reports on group stock and loans to officers, listing of stock on exchanges and dubious ability to impose the double liability on holders of stock.

Shown here is a Rhode Island state trooper who has just felled a strike rioter at Sayville, R. I., where nearly a dozen persons were shot and many injured during violent textile outbreaks.

## COL. ROOSEVELT HITS NEW DEAL

Taken Blistering Denunciation Into Iowa After Fiery Chicago Talk

## TREE LINKS OLD TO MODERN ERA

Famed Nebraska Elm Recalls Early Pioneer Days in Midwest State

**LYONS**, Neb. (UPI)—Pioneer days and Nebraska history are linked with today by means of nature's landmarks—a huge elm tree, now hollow, which appears to be an old man in the hills in this vicinity.

"If it is permitted to run its course unchecked savings bank accounts and life insurance policies will be wiped out," he said. "The savings of the small people throughout the country will be equivalent to the total achievement of the world-wide war and the building of a political machine."

Banners which waved about him read, "Washington, Lincoln and the real Roosevelt" and "end dictatorship."

He said that the problem of unemployment should be faced squarely and that it would continue for many years. "Guardians of unemployed men do not propose a system of direct cash relief with stringent tests to prevent those who can get work but won't take it and those who have other means of support" from living off the government.

He suggested that the government extend the Civilian Conservation Corps and maintain a re-activated public works program.

"Mr. Nease, which he was wearing, retarding recovery and becoming unpopular," should be abandoned, no should the PWA and AAA, he declared.

Antoine de la Mothe Cadillac, famous French explorer, founded Detroit, Mich., in 1701.

## Iron Fireman Heat Costs You Nothing!

An Iron Fireman is an investment . . . not an expense. Iron Fireman will cut your fuel bills in half . . . eliminate grate cleaning bills . . . reduce furnace repair bills . . . reduce doctor bills . . . give you automatic, clean, healthful heat.

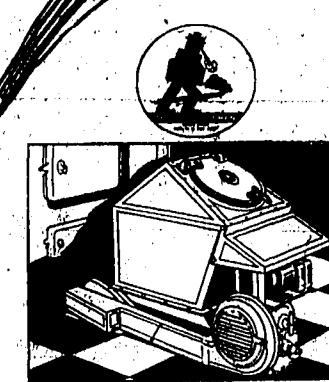

By buying an Iron Fireman on the "Save as You Pay Plan,"

\$12.50 Per Month

will bring you all of these advantages . . . your investment will be returned to you out of savings, and those savings will continue for years and years, so that this desirable heat really costs you nothing. As a matter of fact, you are paying for Iron Fireman heat, whether you buy it or not.

Can You Afford to Waste What Iron Fireman Users Are Saving?

Let us give you a fuel survey, Fireman will do for you,

## CONSIDER THESE POINTS WHEN YOU BUY AUTOMATIC HEAT

Can You Afford to Sell Your Confidence to the Lowest Bidder?

IRON FIREMAN is the highest priced, but least expensive, automatic coal burner on the market! The poor Ruskin, said: "All works of quality must bear a price in proportion to the time, skill, risk and expense attending its invention and manufacture; those things called 'dear,' are, when justly estimated, the cheapest."

There is hardly anything in this world that some man cannot make a little worse and sell a little cheaper, and the man who considers "price" only, is that man's lawful prey."

We are all grieved today by numberless "young substitutes" for the standardized products that have been known and bought for years. These newcomers are the "just as good" make, who bid for your confidence with all the tricks of substitution, and who set their prices down in comparison with known and advertised makes, with the implication that their quality is "just as good."

But—you DO NOT KNOW that the manufacturer himself has confidence in his substitute, for he has never told you so through the pages of reputable newspapers and magazines, which INSIST UPON HIGHEST STANDARD of quality and integrity in all articles sold through their pages.

Most-of-us-know-that-it-is-BETTER-and-SAFER-business-to-buy-a-standardized-article-which-already-has-the-confidence-of-the-public—and-that-means-not-only-published-statements, but DEFINITE PROOF . . . shown by the experience of THOUSANDS of users.

Competition is too keen today to allow any product to be sold for more than it is worth. The merchant ADMITS THE VALUE OF HIS PRODUCT by the price quoted. If his product sells for less—certainly, IT MUST BE WORTH LESS.

The "young substitute" has no reputation to maintain . . . it offers you nothing but a price . . . therefore . . . HOW CAN YOU BE SURE OF ITS QUALITY? First, always be sure of quality, honest manufacturer, and financial responsibility behind the product, to INSURE SERVICE and replacement parts in years to come. Be sure that the machine is not just an assembled unit.

Without practical experience in actual building, selling, and making thousands of installations WORK-SUCCESSFULLY, how can any manufacturer know what is a fair price for his product, so that he will be in business for five, ten or twenty years? Are your requirements such that you can SAFELY consider possible orphans? In other words, CAN YOU AFFORD TO SELL YOUR CONFIDENCE TO THE LOWEST BIDDER?

## THE MANUFACTURER—

Of Iron Fireman, is the oldest and largest manufacturer of automatic coal burners in the world, devoting their entire three large factories to the manufacture of automatic burners.

They manufacture and sell more automatic coal burners every year, than all other makers combined.

They are the only manufacturer of automatic coal burners who has enough confidence in their product, to invest their money to advertise nationally . . . Iron Fireman has become a national by-word, the same as Frigidaire, Bullock, Packard, Waltham, Stetson, and numerous other products that we buy with full confidence built up by reputation and advertising.

They are the only automatic coal burner manufacturers who have built up a national distribution organization . . . enjoying a national back-ground of success. They have built their institution so solidly that when you buy an Iron Fireman, you have the satisfaction of knowing that your machine will not become an "orphan" . . . parts and service will be available ten or twenty years in the future.

The Iron Fireman factory and dealer policy is to give the most in quality and service possible, price being a secondary consideration . . . knowing that the vast majority of the buying public forget the "price" if they get all and more than they expect . . . knowing further that if quality is lowered in order to "cheapen" the price, "price" is never forgotten.

## THE DEALER—

If you break an arm, do you go to a Dentist?

If your tooth aches, do you call a Doctor?

Would you buy an automobile from Blacksmith?

From whom you buy your automatic coal burner, and to whom you must look for service in years to come, is an important as quality of product, or reliability of manufacturer.

IRON FIREMAN is not permitted to be handled as a "side-line"; the manufacturer requires that none but trained men install them and service them, so that the buyer will get the satisfactory results he is entitled to. IRON FIREMAN is the only automatic coal burner offered in Southern Idaho that is installed and serviced by factory-trained men. When you have an Iron Fireman installed in your home, you know that it will give you the economical, clean, automatic heat you want.

## SURE-TITE Insulation

Is a companion "home betterment" to the Iron Fireman; for after all, Iron Fireman generates the amount of heat necessary to keep your home comfortable, but without insulation, that same heat goes right through your ceilings, up into your attic; evidence of this is shown on frosty mornings or after a snow, you will notice how the heat in the attic melts the roof off while the eaves are not at all melted.

Insulation will further reduce your fuel bills . . . lengthen the life of your heating plant . . . preserve your roof . . . reduce re-decorating bills . . . make your home more comfortable in the winter . . . make your home 10 to 12 degrees cooler in the summer.

Many Iron Fireman owners have their homes insulated also. We have a special plan whereby both of these modern improvements can be had on convenient, monthly payments . . . making both self liquidating. Isn't it really poor business to keep a big fire roaring, and letting most of your heat escape through your ceilings?

Let us give you an estimate, free, on making this improvement to your home or building. You have friends who have their homes insulated, we will be glad to refer you to a number of them, and see what "Sure-Tite" has done for them.

**Detweiler Coal Co.**

DISTRIBUTORS FOR SOUTHERN IDAHO

SALES AGENTS:—McKEAN FURNITURE CO., BURLEY, — MARLOTT PLUMBING & HEATING CO., GOODING

**ALBION ENROLLS  
STUDENTS TODAY**

Registration Forecast Higher  
Than Last Year; Classes  
Start Tomorrow

**ALBION**, Sept. 17 (Special) — Albion State Normal opened today for registration, and classes begin tomorrow. "We are expecting a much larger enrollment this year than last," said President Snyder yesterday, "since practically all places in the village have been reserved or are already occupied by prospective students, and reservations in both men's and women's dormitories are more than double what they were last year. Students who have received rooms come from all parts of southern Idaho, extending as far north as Whitebird, the home of one student who is already registered."

The normal school faculty will be the same as last year, announces President Snyder, with the addition of Miss Frances V. Purcell, second grade critic, who was away last year on a leave of absence.

**Instructors Return**

Faculty members returning who were away during the summer do advanced work. Included are Mrs. Clara Kirkpatrick, who worked on her master's degree at the University of Oregon; Miss Adrienne Woods, who received her master's degree this summer at the Colorado State Teachers' college; Mrs. May Anita Johnson, who worked on her master's degree at the University of Idaho; and Coach Norman J. Jacobson, who worked on his master's degree also at Idaho and attended the two weeks' coaching school held at Northwestern University, Chicago, last month.

Coach Jacobson has been on the campus for several days and has already begun practicing his football men.

**GOODING SENDS  
30 TO IDAHO U.**

**GOODING**, Sept. 17 (Special) — Gooding sent at least 30 students to the University of Idaho, Moscow, this year.

Twelve students left on the "special" which went through here at noon Saturday. They are Mary Schmitt, Audrey Robinson, Mary Mitchell, Murva James, Berne Levy, Stomko Pavak, Carter Luther, Wesley Cray, Norma Jean Nelson, Fred Potts, Andrew James and Alma Bissell.

Other students who have gone to Moscow during the past week are John Cooper, Bruce Bowler, Clarence Childs, Everett Card, Hurwitt Baker, Bob Gardner, Allen Jeffries, John Clouser, Addison Beaman, Dale Clemons, Fred Cromwell, Dave Holler, Jack Gooding, Glen Hudson, Wade Wells, Aldrich Bowler, Harvey Graves and Orr Durham.

**Other Schools, Too**

Many other young people will attend out-of-state universities and colleges. Lamar, doctor, left last week for the University of Kansas; Lawrence, Kan. Velton Sullivan will go to Washington State college, Pullman, Wash.; Verl Sullivan has left for Pocatello to attend the University of Idaho, southern branch; Miss Ila Mae Fales and her house guest, Miss Elizabeth Post, left Saturday for Seattle, Wash., and Francis Rist will leave soon for Helena, Mont., where he will enter Carroll college. Michael Arkush left Wednesday to resume his studies at Stanford university, Palo Alto, Calif.

**SHIP'S ENGINEER TELLS OF ROLE IN DISASTER**

Awakened by the alarm, Eben S. Abbott, chief engineer of the liner Marquette Castle, wandered around the vessel checking up on the fire instead of reporting to his post, he testified at the federal inquiry in New York. He is shown above in center, with hands clasped, as he told how, after a half hour, he entered a life boat in which 30 members of the crew and two passengers sought safety.

**CITY FINANCIAL  
BODY CONVENES**

Municipal Treasurers, Auditors  
Gather at Philadelphia  
For Annual Meet

**PHILADELPHIA**, Sept. 17 (Special) — The 20th annual conference of the Municipal Finance Officers' association will convene today, and continue for three days.

From the opening session on, delegates will hear some of the nation's foremost treasurers and auditors of municipal governments.

Election of officers will be held Sept. 19.

**Two Changes**

Two changes in the program have been announced by Carl H. Chaitkin, executive director of the association. Joseph W. Nickels, city purchasing agent, Milwaukee, will appear on the program instead of Leonard S. Levy.

San Francisco, Cal., and Earl Hagerman, director of finance, Dayton, O., will speak on tax limitations.

Some of the other speakers listed include: S. E. Leland, Chicago University; S. Davis Wilson, Philadelphia city controller; C. E. Armstrong, Birmingham, Ala.; Henry J. Amon, Worcester, Mass.; G. A. Laddell, Toronto, Ont.; A. E. Neale, Springfield, Mass.; M. L. Fuller, New Smyrna, Fla.; R. F. Agard, Tonopah, Kan.; A. C. Meyers, St. Louis, Mo.; Elmer Newell, Clarendon, Va.; Harry T. O'Brien, Albany, N. Y.; John C. Donehue, St. Petersburg, Fla.

**Services Thursday  
For Frank A. Fritz**

The body of Frank Allen Fritz, 20, who died yesterday morning from an electrocution shock received while working on a Boulder dam, was being prepared today for shipment here. Mr. Fritz was the son of Mr. and Mrs. Helen, wife of Paul.

Funeral services will be held Thursday at the Evans and Johnson funeral chapel here. The body is expected to arrive late Tuesday or Wednesday.

The young man is survived by his mother and by his father, Ben Fritz, Rupert.

**SHOSHONE**

Democratic Women's club held a regular meeting at the Legion Memorial hall Thursday afternoon. Forty members were present. Attorney-general Bert Miller, Boise, was the speaker and his subject was "The Functions of the Project and Pardon Board."

Rev. W. P. Roberts troupe will be here Saturday to take over the postoffice of the First Baptist church for the next few months.

Jack Clem left Wednesday for Linfield College at McMinnville, Ore.; Harold Stoenard, 18, Spokane, Wash., and Mary Helmer went to Monroe Sunday on the students' special; Dorothy Bauer left Thursday from College of Idaho, Caldwell; Mary Elizabeth Smith has left to attend Scripps college, Pasadena; Richard Mabbutt has returned to University of Utah, Salt Lake City; Nadine Ryan had departed for Peacettelito to enter University of Idaho, southern branch; and Paul Grimes has gone to Iowa City to enter law school.

Mr. Cox died Saturday at the home of her daughter, Mrs. Floyd Culley. She is survived by four sons and four daughters: Clarence Cox, Oakland, Calif.; Mrs. Viola Hall, Terrebonne, Ore.; Arthur Cox and Don Cox, Rupert; Mrs. Ethel Strite, Enterprise, Ore.; Mrs. Adelle Doggett, Heyburn; Mrs. Florence Culley, Deeth, and Ralph Cox, Stockton, Calif. Another daughter, Mrs. Olive Little, died last year.

Mrs. Cox was born in Illinois Nov. 20, 1884. She married Oscar Cox before they came west to pioneer in both Oregon and Idaho. They have lived on the Minidoka project for many years, both in Rupert and Paul.

**RITES TUESDAY  
FOR MRS. COX**

**RUPERT**, Sept. 17 (Special) — Funeral services for Mrs. Nellie Helena Cox, widow of the late Oscar Cox, will be held at 2 p. m. Tuesday at the Christian church. Rev. D. W. Netting will officiate, and interment will be in Rupert cemetery beside the grave of her husband. The body rests at the Evans and Johnson mortuary.

Mrs. Cox died Saturday at the home of her daughter, Mrs. Floyd Culley. She is survived by four sons and four daughters: Clarence Cox, Oakland, Calif.; Mrs. Viola Hall, Terrebonne, Ore.; Arthur Cox and Don Cox, Rupert; Mrs. Ethel Strite, Enterprise, Ore.; Mrs. Adelle Doggett, Heyburn; Mrs. Florence Culley, Deeth, and Ralph Cox, Stockton, Calif. Another daughter, Mrs. Olive Little, died last year.

Mrs. Cox was born in Illinois Nov. 20, 1884. She married Oscar Cox before they came west to pioneer in both Oregon and Idaho. They have lived on the Minidoka project for many years, both in Rupert and Paul.

**TWO KILLED BY  
MANILA RIOTING**

**TEN INJURED IN STRIKE GROUP**

**Storms Gates of Island  
Sugar Factory**

**MANILA**, P. I., Sept. 17 (UPI) — Two striking charmers were killed today in a wild riot at the gates of the Minerva sugar factory.

Thousands of rioters attempted to break into the factory in the climax of a month-long strike of the charmers. Six of those injured were Chinese, the other four were policemen.

After splitting the disturbances the authorities took into custody 30 alleged leaders of the mob.

The situation remained tense and there were rumors that another uprising such as that at Tayang in 1933 was being plotted.

In that rebellion a band of rebels seized an entire town and burned 12 buildings while meeting the community. Police drove them off a day later, but 11 remained, living their lives in the fighting.

Leaders of Communists' strike made the authorities especially watchful.

The strike started when 8,000 workers demanded 50 centavos (45 cents in U. S. money) as a daily rate of pay. The present scale is 40 centavos.

Despite the strike many cigar factories are operating with reduced forces.

**PLANS SERVICES FOR  
RESIDENT OF BUHL**

**BUHL**, Sept. 17 (Special) — Funeral arrangements were being made today for Mrs. Floyd E. Gunther, 49, who died Saturday at the hospital. She had undergone an operation three weeks before.

The body rests at the Evans and Johnson funeral home here.

Mrs. Osborne is survived by her husband; a son, W. L. 11 1/2 m.; 14, and a daughter, Dorothy, 12. She came here recently from Anchorage, Wash.

**JEROME**

## WISCONSIN VOTE VIEWED AS TEST

**Primary Can Speed Realignment  
Of Parties or Put Severe  
Check in Trend**

By LYLE C. WILSON

WASHINGTON, Sept. 17 (UPI)—Wisconsin's primary election apparently tomorrow will decide the realignment of parties or to check it severely.

The La Follette brothers' re-born Progressive party is interpreted here as a straw in the political wind. If the La Follettes pile up a big primary vote and go on to win in November the politically unruly northwest will provide an inviting rallying point for liberal or radical forces.

Boosted by F. D. R.

Comparison of the Progressive primary vote with that of the Democrats and Republicans will measure the sentiment for a new liberal party alignment. In August Governor Alben W. Barkley, President Roosevelt's booted, although he spoke kindly, too, of Democratic Governor Albert B. Schmehlman who is a candidate for renomination.

But it appears fair to say that the La Follette Progressives have the passive, friendliness of the White House. Senator Robert M. La Follette, who heads the Progressive ticket in an effort to succeed himself, was one of four Progressive Republican senators who campaigned for Mr. Roosevelt in 1932. That political debt remains unpaid.

**Liberals Trend**

The Wisconsin Progressives beckon the New Deal to more radical or liberal relief and financial policies. But on some issues there is striking agreement between the White House and the Madison Progressive headquarters. The La Follettes do not go as far, perhaps, as their third party neighbors in Minnesota where Governor Floyd B. Olson is boss of the dominant Farmer-Labor party. If Wisconsin follows Minnesota on the third party path the movement may be expected to spread in the restless, agrarian northwest.

Outstanding Progressive party planks which extend beyond announced New Deal policies include:

Central Bank

1. Government control of credit through central bank.

2. Government jobs for every person unemployed by private initiative.

3. Public ownership of railroads.

4. Government ownership of manufacturers of munitions, armaments and military implements in general.

La Follette bolted the administration on war veterans last session and in his current program demands immediate payment of adjusted compensation certificates.

**Sixty days on which**

Mr. Roosevelt and La Follette are similarly committed include:

Farm Profits.

1. Fair profits for farmers in excess of production costs; prohibition of speculation in food stuffs.

2. Collective bargaining and reduced hours for labor.

3. Social insurance including old age and unemployment benefits.

4. Repudiation of the sales tax.

## SERVICES HONOR GOODING WOMAN

(GOODING, Sept. 17 (Special)—Funeral services for Mrs. Margaret N. Snider were held at 4 p. m. Sunday at the home of her daughter, Mrs. D. W. Alexander, Rev. W. C. Bowman, pastor of the Gooding Methodist Episcopal church, officiated. Music was furnished by the mixed quartet of the church.

L. S. Harris, Ben Glover, Fred Bar, Oscar Har, Earl Crane and Ray Holloway acted as pall bearers. Interment was in Gooding cemetery, under direction of the Twin Falls mortuary, Twin Falls.

## BIRD PAINTINGS MAY GET HOME

HARTFORD, Conn., Sept. 17—The fruits of 40 years labor of Ross T. Brasher, noted naturalist, artist and compiler of the most extensive picture study of North American birds, may be housed in one of the country's most unique museums if the Connecticut Park Commission grants official endorsement.

Brasher has roamed from Mexico to the Arctic regions studying birds. He has made 800 paintings of as many species, believed the greatest collection ever compiled. In addition, he has illustrated 100 sub-species, which has been compiled in a 12-volume work.

**Plant Building**

The commission has under advisement construction of a \$100,000 museum, a circular building 200 feet in diameter and built entirely of concrete, to house the one-man collection. The galleries would radiate from the center of the structure and the pictures so arranged that only one could be viewed at a time. It would be one story high, with overhead lighting. Government is being solicited to carry out the project.

Brasher has studied birds since he was 16. He formerly was a professional engraver. He is a self-taught naturalist and his plates are hand-colored.

Plant roots can be kept cool and moist by spreading loose straw on the garden after watering.

## Hobby Chief Shows His Fellow Americans How to Use Leisure

(NEA Special)

NEW YORK.—The League of America has discovered 700 ways to spend leisure time. Add the way the league's president, spend his, and you have 701. Stanley's unique idea for a hobby came to him out of the blue, won to round non-profit-making organization to promote other people's hobbies at no cost.

Without salary devotees at home, 12 hours out of the 24 to 42, to his complete satisfaction, building boulders—a chain of 100 stations on Long Island and a patriotic transport proposition in New York harbor—but both are in charge of managers.

"I never was a man to let my hardness run me," explained the brick, sandy-hairled leisure league president, interviewed at his brand-new desk in his brand-new office in Rockefeller Center.

Find a Jay in Building

"I still believe in delegating authority and letting it alone," gurgled. My theory is that there would be far more happiness in this world if more people would just take the chance for making a lot of money and spend a greater part of their time building things for the pure joy of building.

"That's what I am doing with this," here he made an expansive gesture that included the length of the office strewn with big wooden boxes, opened and unopened, and a table on which was displayed an assortment of small blue-paper-covered volumes.

"Those are our first eight books on ways to have fun with leisure time," he explained. "Each was done by an authority on the subject he or she has chosen to write about. We sell those little books at 25 cents apiece and in time, through them, the league will be self-supporting. It is not so now, but the deficit is met by persons interested in hobbies."

All From Nothing

"This thing was created out of nothing and there is no more exciting or fascinating occupation in the world than creating something from nothing. It's all for fun though. Don't let anybody get the idea that we are trying to make money. We are trying to present; we're not a huckster bunch, and there is no mystery about us, either. We simply want to help the public learn about leisure—if it wants to learn."

The league has accumulated a weighty board of advisors including half a dozen editors of important magazines, the president of the Boothover society, a number of writers and heads of recreation enterprises. Twenty more books about hobbies are now in preparation.

From Indiana

The resourceful Stanley came from Indiana originally. He is a graduate of Cornell, where he took a course in engineering. His first idea was to be an inventor and he did put together what seemed to him a smart plan for a pivoting toothpaste cap. He even interested a manufacturer in the project, but, unfortunately, the gadget was so expensive to make that the company had to give it up. Next he conceived schemes for a razor cleaner and a shaving brush, respectively; that his ideals weren't much good, also gasoline drill that nothing came of.

Then he decided to go into business, at which he did well. In addition to the reserve feed loan, the stockmen may apply for regular monthly allowances and hold his extra two months' feed supply in reserve for emergency purposes when transportation may be cut off. Then, in cases where the monthly allowances are ob-

A happy-riding master is James S. Stanley (upper right), president of the Leisure League of America. A fair devotee is Joan Crawford (upper left), who, hooked rug in her lap, takes aitch in time for the cameraman. Downy building is the profitable hobby of Elmer Cawell (below), a Cape Codder.

## LIVESTOCK FEED LOAN AVAILABLE

Operators in Primary Drouth  
Areas May Get Cash for  
60-day Supply

Range livestock operators in parts of primary drouth areas where winter weather conditions will soon prevent transportation of feed may obtain funds to purchase a 60-day reserve feed supply, according to a statement made here today by George H. Stevens, supervisor for Twin Falls, Camas and Minidoka counties with headquarters in the ERA office. Such advances will be granted by him on a reserve supply of feed and on the livestock to be fed.

In addition to the reserve feed loan, the stockmen may apply for regular monthly allowances and hold his extra two months' feed supply in reserve for emergency purposes when transportation may be cut off. Then, in cases where the monthly allowances are ob-

tained without interruption and the reserve supply retained through the winter, the latter will take care of feeding needs in February and March and until supplemental advances will be granted the borrower for those months.

### Monthly Advances

Monthly advances for feed for livestock in the primary drouth areas will continue to be made on the basis of the borrowers' promissory note, as heretofore, Stevens said. Those monthly feed loans, as well as those for reserve feed supplies are advanced from the drouth relief fund appropriated in the act of Congress approved June 10, 1934, and available to applicants who are unable to obtain credit from other sources.

The primary drouth loan areas now include almost 1200 counties in 23 states. During the past month 123,000 applications for feed and forage loans and supplemental advances have been received, and 100,000 loans disbursed for over \$3,200,000.

### Frog Imitates Jonah

SALEM, Ore. (UPI)—A living frog was found in the stomach of a male killed here. When liberated the frog at first appeared to be dead. In a few minutes, it opened its eyes, jumped into a nearby pond and swam away.

## Indian Chief Gets Judge's Position

REILINGHAM, Wash., Sept. 17—August Martin, venerable chief of the Lummi Indian tribe, is a judge now.

Acting under O. C. Upchurch, district Indian superintendent, the chief will preside over trials of Indians accused of law violations and civil suits between tribesmen.

At his first trial he sentenced four Indians charged with being drunk and disorderly each to 10 days in jail and 10 days work on the reservation.

## Canada Vets May Convene at Vimy

OTTAWA, Ont., Sept. 17—Canada's war veterans may hold their next reunion at Vimy Ridge, France, scene of the famous World war battle, according to the Dominion Command of the Canadian Legion.

The legion has announced that it plans to hold a pilgrimage to the famous battlefield in connection with the unveiling there of Canada's national war memorial in 1936.

## PUBLISHER RAPS NEW DEAL TREND

Deblares Roosevelt Alcholomists  
Are Turning Constitution  
To Rubber Document

PHILADELPHIA, Sept. 17 (UPI)—In an impassioned defense of the constitution, Colonel Robert R. McCormick, publisher of the Chicago Tribune, charged today that the New Deal had turned it into a "rubber document."

"The alchemists of the New Deal are making a 'rubber constitution' for the United States with one set of rights for one class of population and another set of rights for another class," he declared.

Speaking in historic Carpenters hall here before a congress of delegates from 30 patriotic organizations commemorating the 147th anniversary of the drafting of the constitution, Colonel McCormick briefly outlined the chief provisions and autograph of the early document and then attacked the activities of proponents of the New Deal.

"Do you want all legislative power to remain vested in a congress elected by yourselves, or turned over to an endless number of self-appointed governments—as is done under the legal fiction called NIRA, under the chairmanship of a politician, subject to undue influence from campaign contributors, with power to fix prices and stifle competition?" he demanded.

The tyranny laws provide that certain criminal crimes by fiat of illegal 'code authorities' or 'presidential codes' may be tried by a judge without a jury under the pretense of an injunction."

## HAZELTON

Miss Carol Cochran left recently for Los Angeles where she will attend at the University of Southern California.

The Ladies Aid society held the first meeting of the season at the home of Mrs. Simeon Hopper. Wednesday evening with a good attendance, the members decided to buy a new stove for the house. An attractive luncheon was served by the hostess.

Mrs. L. White, Denver, Colo., in visiting at the Longenberger-Holmstrom home, Mrs. White is a sister of Mrs. Longenberger.

The following teachers are employed in the Hazelton schools this year: W. W. Stokesberry, superintendent of high school; Miss May Alvord, Miss Emma Nelson and Mr. Van Emerson; R. R. Held, superintendent of grade schools; Miss Ethel Bott, Miss Ethel Hubbard, Miss Pauline Dowler and Miss Margaret Freeman.

Patton Armour Ross, seven-year-old son of Mr. and Mrs. Harry Ross, fell from a swing while playing at school Friday afternoon and fractured his left arm.

## Political Rally

PHILADELPHIA, Sept. 17 (UPI)—All persons in Elgin, Marion, Thomont and Cleveland principally interested in the election of Franklin D. Roosevelt as governor on the Republican ticket are invited to attend a meeting to be held this evening at Orange hall. It is announced by local party officials.

**Brief Final Rites**  
ASHLAND, O. (UPI)—An April 20th, 1933, dropped into his grave, the only site he could find, Rosetta Turgeon Phelps, 88, of Kingville. Further in accordance with her desires, burial was at sunset.

Germany has nearly 2,000,000 telephones in use and, in second only to the United States in number of telephones in the country.

## ONE RESCUED IN LAKE ACCIDENT

Survivor Describes Hours of  
Horror Lashed to Mast  
With Dead Friend

RACINE, Wis., Sept. 17 (UPI)—Herman Jensen, 48, only survivor of three men aboard the 34-foot sloop Spray, today described hours of horror during which he was lashed to the same mast with the body of a dead companion.

Thomas Orman, 22, who fought with Jensen against a rolling sea after the sloop overturned in Lake Michigan, died several hours before arrival of a coast guard cutter.

Another companion, Irving Ulrich, 28, was washed away by the heavy sea. His body was not recovered.

The three sailed from Racine aboard the Spray Saturday night for a yacht regatta at Milwaukee, when the craft failed to arrive there. Captain John Olander of the coast guard ordered a search.

The overturned boat was found 15 miles northeast of here.

## RITES ARE HELD FOR EDEN CHILD

EDEN, Sept. 17 (Special)—Funeral services were held Sunday afternoon at the Presbyterian church here for George Francis Albee, six-year-old son of Mr. and Mrs. A. R. Albee. Rev. Charles Hawley officiated. Mrs. Bruce Gordon and Mr. Arthur Smith accompanied by Mrs. Frank Pulte, sang two hymns.

Wall bearers were the child's brothers, Harold Leslie R. Howard and Lawrence P. Albee.

The White mortuary directed interment in Twin Falls cemetery.

## MARRIED AT SHOSHONE

SHOSHONE, Sept. 17 (Special)—Miss Flora Haldeman and Earl Capps, Richfield, were married Saturday by Probate Judge Ross E. Haddock.

**NO MORE WATER**

It is reported that water will be shut off from canals this winter. Make ARRANGEMENTS NOW for well or cistern supply.

We can furnish a PUMP for ANY PUMPING CONDITION and our stock of pipe and pipe fittings is the MOST COMPLETE in Southern Idaho.

Estimates and Surveys furnished Free.

**C. W. and M. Co.**

## HOW THIS NEW SERVICE WORKS

If you need an engine "overhaul" simply drive your Ford into the nearest Ford dealer's. The engine will be lifted from the car. Carburetor, distributor and other units will be removed and placed on a cylinder assembly that has been completely reconditioned at the Rouge Plant of the Ford Motor Company, Dearborn, Michigan.

You get a complete assembly consisting of cylinder block with mirror-finish cylinder bores, new main bearings, a crankshaft with all bearing surfaces just like new. Also new pistons, piston pins, piston rings and a set of connecting rods equal to new. Included in the assembly, of course, are the camshaft, push rods, valves, valve springs and retainers. Cylinder head with new cylinder head gasket is bolted on. The timing gears and front cover are in place and the oil pump is included. It is a complete cylinder block assembly—carefully inspected and block-tested—ready to give you new engine performance.

With no waste of time the reconditioned engine is put back into your car or truck. Only a few hours are required for the entire job. And you have an engine that's as good as new.

## Many Other Units Included In This Exchange Service

If your carburetor, generator, or any of several other important units need major repairs it can be replaced with a factory-reconditioned unit—at much less than the usual cost of repair. Note the low charges for factory-reconditioned parts:

Engine	V-8	41*
Cyl. Assembly	\$49.50	\$46.50
Distributor	1.90	—
Carburetor	1.85	—
Shock Absorber	2.00	2.00
Fuel Pump	1.45	1.45
Clutch	—	—
Disc Assembly	3.75	3.75
Clutch	—	—
Pressure Plate	3.80	3.80
Brake Shoe (each)	.45	.45

\*Includes installation. Slightly higher west of the Rockies.

*Service*

**Ford Service As Good As The Car Itself**
