SILVER PROGRAM MEETS OBSTACLE IN CHINESE LEVY

New Difficulties Loom After China Imposes Excess to Halt Drain

MANDATORY, SAYS HULL

Secretary of State Asserts U. S. Cannot Abandon Metal Plans

WASHINGTON, Oct. 15 (AP) — New difficulties in operations of the U. S. silver buying program were forecast today after publication of an exchange of messages between the United States and China.

Soon after the message were known, China took steps to halt the drain of silver which was attributed to the American purchase policy.

Impoverish Tax — The action, consisting of a 10 per cent tax, was believed to indicate belief that no fundamental change in the American silver program could be expected. China has been alarmed because of the rise in the price of silver, and fears that her national economy would be upset by a drain of the metal which is the basis of her monetary system.

The note exchange gave China assurance that the plan would be carried out so far as possible to indicate no change in policy might be expected.

Will Cooperate — Secretary of State Cordell Hull advised Chinese Minister Alfred Sze that "this government, while necessarily keeping within the general purpose of the act, will give the closest possible attention to the possibilities so arranging the time, the place and the quantity of its purchases will keep constant on page 2, column 1."

JOHNSON LEAVES POST WITH NRA

Greets Resignation Day From Out in Hospital; Future Business Secret

WASHINGTON, Oct. 15 (AP) — Gen. Hugh S. Johnson today left the national stage of public affairs where for eighteen months he had been in or near the New Deal spotlight.

In the wings, he will await a call to give President Roosevelt and congress an account of his accomplishments as administrator of NRA.

Johnson greeted the day of his resignation from a hospital cot here which he will leave in a day or two to rest at the North Carolina estate of Bernard H. Bush, New York City resident and Johnson's former business associate.

Will Return — After a thorough rest he will come back to occupy an office in business building not far from the banking government structure which houses the NRA. His closest NRA associate, Miss Frances Robinson, has charge of Johnson's office.

What Johnson's business will be, he has not announced. He will spend considerable time in New York where his autobiography soon will come off the press. He plans to submit to President Roosevelt before long a detailed report of the NRA—past, present and future.

When congress convenes, Johnson will be building out for the coming in suggesting permanent legislation to replace the recovery structure.

POINCARÉ, WAR TIME FRENCH LEADER, DIES

Taken by Death Savior of France Is Taken Suddenly At 74

Raymond Poincaré, "Lion of Lorraine" and war-time president of France, succumbed to death after a brief illness as premier in 1920, the republic's darkest days of currency collapse, he earned the title, "savior of the franc."

PARIS, Oct. 15 (AP) — Raymond Poincaré, war-time president, died today.

He had been ill in health since he resigned from third tenure of office in 1929. In 1929, Poincaré was elected president of the republic. Last night he died peacefully, because weary around midnight and died at 4 a. m. today.

Savior of France — The death of Poincaré called the savior of the franc for his stabilization of the currency when he was called to the prime ministry for the third time in 1920, deprives France of its second great statesman within a week.

Louis Barthou, foreign minister, who was assassinated at Marseilles with King Alexander, was buried Saturday.

Poincaré served his country for more than 50 of his 74 years. He entered the chamber of deputies, already prominent as an editor, in 1887 and from then on was a central figure in politics.

In 1920, honored and in even higher esteem than when he was president, he was forced to resign as premier because of ill health.

Death Unexpected — In his last brief illness he was helpless, paralyzed on the left side and partly paralyzed on the right. His death, however, was not expected. His wife was the only member of the family at his bedside, though several of his political collaborators were there.

Former Premier Domergue and other members of the cabinet learned four hours later that Poincaré was dead. The last bulletin they had received, Sunday night, announced a "slight indisposition" was terminated.

Respected By Few — Poincaré was loved by few but respected by all. Frenchmen, not only in France but also abroad, made in politics, of whom one of the most implacable was the late Georges Clemenceau, "The Tiger" who was premier during the war with the Kaiser.

Poincaré, though he was called the Lion of Lorraine, was known as a man of deliberation and method.

He was premier for the first time in 1912 and 1913, during the critical years just before the war. He was his own foreign minister, and in addition to maintaining the closest relations with Great Britain he did all he could to forward friendship and close collaboration with Czarist Russia, the third member of the triple entente which was opposed to the German-Austrian triple alliance.

Saw War Coming — In 1913 he was elected president for the term expiring in 1920. He was one of the men who were on the way, and he did everything he could to prepare France for it. He was in Russia on an official mission when Archduke Franz Ferdinand was assassinated at Sarajevo in 1914, and the war was a matter of weeks.

Leaving the presidency in 1920, Poincaré returned to the senate. He became premier for the second time in 1922, and it was he who made the decision to march the French army into the German Reich-empire after the German revolution. He did not pay reparations promptly.

He made his decision against the advice of many, and despite the cry of "victory in the mine shaft" (Continued on Page 2, Column 1)

AIR FIRM LOSES CONTRACT FIGHT

U. S. Supreme Court Refuses To Consider Appeal on Cancellation

WASHINGTON, Oct. 15 (AP) — Transcontinental Airway Co., Inc., today was refused Supreme Court consideration of its appeal attacking Postmaster General James A. Farley's cancellation of air mail contracts.

The company appealed from the southern district of New York federal court ruling which refused to enjoin the cancellation order.

The Transcontinental's action was dismissed because the cancellation order was sought to enjoin Farley from breaking the contracts.

Filed in New York, one of the terminals of the company's transcontinental lines, the suit charged that Farley's order nullified contracts beyond his authority. The brief contained a bitter attack on the so-called "private citizen, as governmental functions increase, has a right to know where he stands."

Whether he is helpless as a private citizen or as a taxpayer, the brief asked, is a question for the courts to decide.

HAUPTMANN AND WIFE SWEAR TO ALIBI IN COURT

Both Assert Suspect Was in New York When Lindy Baby Suffered Death

NEW WITNESSES HINTED

Accused Slayer Opens Battle To Defeat New Jersey's Extradition Plan

NEW YORK, Oct. 15 (AP) — Bruno Hauptmann and his wife today swore to an alibi in supreme court today that Hauptmann was at his home in New York on the night the Lindbergh baby was kidnaped and murdered in the Sourland mountains of New Jersey.

The man charged with murdering the baby testified in his own defense at a hearing before Supreme Court Justice Robert E. L. Taylor, who was aided by defense counsel for a writ of habeas corpus to prevent extradition of Hauptmann to New Jersey.

The man charged with murdering the baby testified in his own defense at a hearing before Supreme Court Justice Robert E. L. Taylor, who was aided by defense counsel for a writ of habeas corpus to prevent extradition of Hauptmann to New Jersey.

Rule and questions continued by questions, the prisoner said he spent March 1, 1932, looking for work in New York and in the evening he called for his wife at the Bronx bakery where she worked and they went home and to bed.

Mrs. Hauptmann swore to the same story. Defense Counsel James M. Packer testified he might introduce other witnesses to testify that Hauptmann was in New York at the time the infant son of Col. and Mrs. Charles A. Lindbergh was kidnaped.

Attorney General David T. Wilentz and justices continued by questions, the prisoner said he had an ace in the hole but that the appearance of his witness would depend on what was testified in regard to Hauptmann.

All of the morning session will be devoted to the testimony of witnesses. (Continued on Page 2, Column 2)

STRIKING MINERS THREATEN DEATH

1,200 Self-Entombed Workers Ready to Die in Mass Suicide Move

VIENNA, Oct. 15 (AP) — The Neues Wiener Tagblatt reported from Budapest today that a large additional group of miners had joined the shaft of the strike, making the total of strikers 1,200, after which obituary service was halted.

PUNSKROVITZ, Hungary, Oct. 15 (AP) — Twelve hundred desperate coal miners who entombed themselves and went on a hunger strike in Pez in Hungary today, sent word to their employers that they were ready to die.

"Raise our wages or send us 1,200 red coffins,"

At the pit head, 1,310 feet above them, wives and children wept, crying vainly into the mine shaft for the return of their men.

3,200 More Strikers — Thirty-two hundred more miners, on the surface, went on strike this morning and tried to join their companions in the pit. Police and soldiers re-entrained them forcibly.

Forty-five men had been removed from the pit seriously ill from coal gas fumes. Twenty more were ill in the mine.

The miners sent word they were prepared to wreck the water pumps, and drown, unless their demand for restoration of an eight per cent wage cut was met.

General Motors Starts Employee-Bargain Plan

Termed Initial Shot In "War" With A. F. L.

DETROIT, Oct. 15 (AP) — The huge General Motors Corporation went to its 130,000 employees today with its own plan for collective bargaining.

"We of the General Motors," said Fred Alford B. Sloan, Jr., in a formal letter mailed to every worker, "recognize collective bargaining as a constructive step forward, both for the employees and the management. Recognition of any obligations that may exist, new proposals not only to continue the best but to develop it."

War With A. F. L. — Despite the corporation's avowal that it considers collective bargaining of mutual benefit, the plan also was considered as the first shot in a "war" between automobile manufacturers and the American Federation of Labor.

The plan was designed to meet all requirements of section 7-A of the NIRA. It has been in effect for one month. It considers employees' work first informed of it today.

The company in its communication made no declaration regarding the A. F. of L. It said, however, that:

Specific Selection — "Membership in a labor union or other type of labor or employee organization does not in itself establish the right of such union or other organization to represent employees in collective bargaining negotiations. Representatives for such purpose must have been specifically chosen by the employees, and they are to represent and the fact of such choice must be established."

Employees must be given complete freedom in setting up collective bargaining organizations and choosing representatives, the company stated.

The management may, however, assist any employee organization in plans for employee mutual benefit, provided that in the determination of the right of employees to participate in the benefits, there is no discrimination on the basis of race, religion or sex. (Continued on Page 2, Column 2)

Posse Organizes for Vast Search in Dixie Kidnaping

Gigantic Hunt Ready to Start As Contact Time Limit Nears

Continued Silence of Abductor Produces Fear That Victim Is Dead

LOUISVILLE, Ky., Oct. 15 (UP) — Hundreds of police and possemen stood by today for the beginning of a gigantic hunt for the body of Mrs. Berry Stoll, kidnap victim. Continued silence of her abductor caused the growing conviction that she either had died or had been killed.

Federal agents and Louisville police, even the millionaire family of the missing girl, abandoned all but the last shreds of hope that the "friend" who snatched her from a sick bed last Wednesday would keep a promise to contact her husband within five days.

That time limit in 4:20 p. m. today.

At the climactic hour approached, federal agents and posse prepared to abandon the "hunts off" policy adopted at the insistence of Mrs. Stoll's husband and parents. The search to be instituted when the time is raised will rival any manhunt in the south's history.

The only indication that hope for Mrs. Stoll's return persists was the use by Harold L. Nathan, in charge of federal agents here, of the phrase "when Mrs. Stoll is returned."

When newspapersmen to whom he repeatedly used the phrase asked Nathan to repeat "if we returned" Nathan refused to say whether or not she was still alive.

Hint for Graves — Indicative of the fear felt by investigators of the brutal crime was an order to 300 men searching the hills about Louisville to watch for a freshly turned mound of earth.

Mrs. Stoll, at best of frail physique, was ill of a cold and had a temperature of 103 degrees when the yellow-faced kidnaper slugged her into semi-consciousness with a paper-covered lead pipe and yanked her hair into the autumn cold.

Fear that the victim would not return alive did not halt the patrol of the hills by search of suburban Louisville — which was inaugurated Friday.

MAN CONFESSES KILLING GIRL, 5

New Yorker Admits Slaying Child, Stuffing Body Into Hot Furnace

MOUNT VERNON, N. Y., Oct. 15 (AP) — Lawrence Stone, 24, today signed a confession that he had killed five-year-old Nancy in the basement of a fashionable apartment house and stuffed her body into the white hot furnace of the furnace.

The child's body was found in the fire box yesterday. It had been reduced to charred bones and would have been consumed entirely if discovery had been delayed five minutes.

Carl Hutchinson, building agent, followed a trail of blood down a steel stairway that led to a large puddle of blood in front of the furnace. He called police who came racing in an automobile that collided with another a block from the building. When the ambulance arrived to take three slightly injured policemen to the hospital, Stone was taken from the scene and clothes covered with blood.

After nine hours of questioning, Stone confessed he had put the child's body in the furnace believing her dead. He said they had been playing with her rubber ball in the basement, he said. They struck her head, and he said she dropped heavily, her head hitting the concrete floor. Panic-stricken, he called for another block around a corner a minute, then thought of the furnace.

He took office when the republic was facing its worst monetary crisis, and before long Frenchmen were calling him the savior of the franc. He built for France a financial backbone which made her the most potent economic force in Europe.

His death was fixed for Saturday, in order that President Albert Lebrun and several cabinet ministers could attend the funeral in the afternoon at the Hotel de Ville.

Rural Program Rehabilitating Farm Families

By Duane Wilson

WASHINGTON (AP) - An act which pushed his way through a through which had gathered around a truck load of mules and pointed his finger at a hick who said he was having back his car at by-stander.

Many Aided Since croppers from the cotton plantations of the south, dry-lunged from the west, who have been burned out and hauled-out year after year are enjoying an era of self-reliance and economic stability such as they never knew before.

Individual Cases The very nature of the program, according to the bank, is to be handled by individual management on a property by property basis.

Here's How The program would mean that the bank would be able to buy land in large numbers, many of them from distressed sections of the middle west, it is learned.

HUSKIES LOOM AS CONFERENCE POWER BY WIN OVER OREGON

PHELAN'S SQUAD OFFERS THREAT

Stanford, California Ambitions For Rose Bowl Encounter New Danger

By United Press
The Pacific coast conference has a new "team to beat" in its ranks today and the club is the University of Washington, taught to go places by Jimmy Phelan.

Although each week-end sets up a new contender whom somebody else will be peddling the next week in this topsy turvy football season, Washington's performance Saturday stamped the Huskies from Seattle as the team Stanford and Stanford are expected to meet in the Rose Bowl next New Year's day in Pasadena.

Showing Power
In defeating Oregon, 10-6, Washington showed the ability to win straight ahead for scores. Once they marched 43 yards and the next time 80 yards. They also displayed a punter who averaged 44.6 yards a kick in Elmer Logg. Young Mr. Logg also showed scoring ability himself by executing a nifty drop kick from a hard angle for the opening point, "all of which" the Stanford coach, Phelan, said, "was the drop-kicking side up to something mighty dangerous in football matters."

Washington will have two weeks to rest from their feat in scoring on Oregon for the first time in seven years. Then they will meet California, Oregon State and Stanford on successive Saturdays.

Perhaps Washington looked so good this past week-end because most of the other conference teams didn't. For California eked out a 7-0 win over little College of the Pacific who Amos Alonzo Stagg is the coaching wizard; Washington State found itself on the short end of a 13-0 score against Gonzaga; U. S. C. won 20-0, and Northwestern 20-0. For the past few weeks, the first time that ever has happened since Howard Johns came to the Trojan stronghold, the conference has been dominated by Northwestern 20-0. It is largely because of the absolute weakness of the other team more than because of its own strength.

U. S. C. A. Eyes Bears
U. S. C. A. has given notice that next Saturday's game against California at Berkeley will be a tough one for the Bears by defeating Montana, 15-0. Outside the conference Santa Clara, just 2-0, is expected to beat Loyola at Los Angeles, 0-0, and St. Mary's lost to University of Nevada, 0-7, in a warm-up for the "Saints" clash Saturday against Fordham in New York.

As a result Washington became the only undefeated, until team scoring the big boys of west coast football.

Chicago Slugger Hinted Sold to Detroit Tigers

By HENRY MOLEMORE
NEW YORK, Oct. 15 (AP)—Hitting the sports shot here and there.

I hear, on what the White House correspondents would call unimpeachable authority, that Al Simmons has been bought by the Detroit Tigers from the White Sox. The University of Chicago has a football player named Raywater Wells, John Dillinger is a tackle on a small Illinois grid team, while Jack Dempsey plays the same position for the Pittsburgh pack. Harry Butjun, Dayton university coach, reached the height of something or other when he attempted to teach his sixth grade classes by shooting clay pigeons out of a trap at them. Only two field goals have been booted by C. C. N. Y. players since football was revived at the school.

All major league stars have one weakness in common—they like to collect baseballs autographed by other star players. Trik Staror and Ray Schmit own the largest collection. Max Schmelling is a collector, too. The first thing he does on arriving in a new town is to buy a baseball from the pitcher of the city engraved in the luncheon. Harry Newman, one-time Michigan all-American quarterback and now ace of the New York Giants, can take it.

Since 1926, when he started football in high school, he has played seven consecutive years without an injury. Harry, by the way, was a poor punter in high school.

It's hard to believe, but according to an English profes-

RUPERT DRILLING FOR BUHL GLASH

Pirates, Defeated by Strong Nampa Team, Hope to Pull Upset This Week

By CLAYTON NUTTING
RUPERT, Oct. 15 (Special)—Although the Rupert high school football team has dropped four games in succession, it has been showing plenty of fight and Coach Ed Lacy started today on strenuous practice drills designed to help the Pirates pull a possible upset Friday against the powerful Buhl eleven.

The game will be played at Buhl, Coach Lacy's home town.

Coach "Lefty" Martineau's Nampa Bulldogs annexed a Big Ten game here Friday by running up a score of 26 to 0 over the Pirates. Although it took the visitors some few minutes to get underway, their heavy scoring was done in the first quarter. Rupert put up a determined defense in the latter part of the game. Nampa alternated first and second strings throughout the clash.

INDIANS INVITED TO VANDAL GAME

Redskins Urged to Take Part in Pioneer Parade During Oregon Clash

UNIVERSITY OF IDAHO, Moscow, Oct. 15 (Special)—Indian war whoops will mingle with college yells when the University of Idaho varsity football team meets the powerful Oregon aggregation in the Idaho homecoming game at MacLennan field Saturday, Oct. 20.

Redskins from all over the Pacific and Clearwater hills are invited to paint their "cannons" faces—more likely radiator caps—more blue for the inland Empire football classic. In Grande Manager George E. Horton has announced that all Indians appearing at the stadium in tribal regalia will be admitted free. During the half, the Indians will be asked to appear in the colorful parade of covered wagons, which are being entered by the various group homes.

The realistic and comic will be seen among the public schoolers. Prizes will be awarded for the best entry, said Charles Warner, student in charge of homecoming activities.

The parade during the half of the football game will be part of Idaho's pioneer program for this year. The Indians will be asked to wear their "Hats of Oregon's Trail." The wigwag will also parade Friday evening—before the game, starting Tuesday, the students will deck themselves out in pioneer garb, everything from sunbonnets to coonskin caps.

GIRL VANQUISHES MT. ASSINBOINE

Miss Georgia Englehardt, 17, Climbs 10,000 Feet to Summit of Mt. Assinboine

Two years ago she set a new women's endurance championship by scaling 38 peaks in this region in a single summer. Mount Assinboine, known as the Matterhorn of the Canadian Rockies, towers 11,378 feet, some 40 miles southeast of Banff. Its great plunger top of snow is reached in a normal ascent in the Banff-Lake Louise area.

Miss Englehardt made the Assinboine climb with Victor Kuitcin, Assinboine guide of Lake Louise. She scored only a dozen ascents this summer, partly because of uncertain "climbing weather" and partly because of a "sprained wrist."

In the Assinboine district Mount Shurtee (10,300 feet) by a new route up its north ice wall. "It took us four hours," she said, "to chop our way up 600 feet of vertical ice—a real thriller." They made a first ascent of Mount Magog (10,500 feet) up its east wall. This offers a final 200 feet with only very minute and fragile finger holds.

FAVORITES TAKE MOUNTAIN WINS

Rocky Conference Views No Upsets; Utah Overwhelms Brigham Young

SALT LAKE CITY, Utah, Oct. 15 (AP)—Rocky Mountain conference football was the most distinctive in the nation during the national week-end school of games.

Not one favorite was chastised by being on the short end of the score when the final gun sounded.

Three favorites won their games and now share the lead in conference honors with two wins and one defeat. A fourth club won its first game.

Utah university almost continued to point a minute past, defeating Brigham Young, 43-0. Wyoming, a pre-season dark horse showing unusual strength, beat Montana State 29-6. Colorado Aggies defeated Utah State 24-0 over Denver. Utah Aggies routed Colorado Teachers 40-0. Colorado, 13-7, while Colorado Mines beat Western State 6-0.

MIDWEST BIG 10 GETS SURPRISES

Standings Seem Upside Down With Chicago on Top and Michigan on Bottom

CHICAGO, Oct. 15 (AP)—The Big Ten football season today was distinctly upside down with Chicago on top and Michigan on the bottom.

Chicago, which has been dominant since the start of the season, secured the year's lead, but the anxiety of being the underdog has suffered since Ed George ran wild with four touchdowns in 12 minutes in 1924 and Illinois rolled up a 30-1 triumph.

Chicago hosts the top of the Big Ten to itself, as it has to share the leadership with Illinois and Iowa, each victorious in its own conference game. Michigan also has company in the basement, with such strange bed-fellows as Indiana and Northwestern. Each has lost its only conference start.

THIS CURIOUS WORLD

THE ENTIRE PERIOD OF THE EARTH'S EXISTENCE WERE REPRESENTED AS GAVE DAY OF TWENTY-FOUR HOURS, MAN, IN THE FORM WE KNOW HIM TODAY WOULD HAVE LIVED ONLY DURING THE LAST MINUTE.

The age of the earth is estimated by many scientists to be as much as two billion years. Nothing is known about the length of time which elapsed before the world came into being. True men of the Cro-Magnon type appeared only within the last 50,000 years.
