# SCIENCE BALKED BY PROTOPLASM

### Secret of Life Fluid Still Evades Scientists in Spite of Wide Research

#### BY ARTHUR HEATHCOTE

NEW YORK, Oct. 28.—Although new methods and instruments have been devised for the purpose of micro-surgery, protoplasm, the fluid of life, remains a mystery to scientists.

Despite intensive search, its component parts have not been clearly defined by the investigators. One group claims that it is granular, another avers it is reticular, other scientists say that it is alveolar in structure.

**Granular Theory**

The granular theory holds that it is a mass of small, living, moving material; the alveolar theory contends that it consists of frothy, expanded substance, while the reticular theory states that it is a network of minute fibers resembling a sponge and including a liquid.

Protoplasm has been divided into cytoplasm and nucleoplasm, and the various properties of each have been enumerated. Several techniques are being applied in the effort to find out more about them, including microscopic observation, chemical analysis, and experimental methods to determine in physico-chemical terms the reactions of protoplasm.

**The Instruments**

Exceedingly small instruments, so delicate that they must be manipulated by mechanical means, are used to discover the physical, chemical, structural and physiological construction of protoplasm.

Among the scientists now engaged in this work are Professor R. H. Chambers of New York University, who is a leader in micro-surgery, Dr. Joseph Canal of the Rockefeller Institute, who has succeeded in cultivating a chicken embryo for 20 years, and Professor K. Hofer of Vienna, who is now classifying just what substances are desirable to the cell.

# NEBRASKA PLANS DUCK PRESERVE

### Valentine, Neb. City — The federal government, working in collaboration with the state of Nebraska, plans to establish a \$600,000 refuge for migratory wild fowl in the wild marshlands along the banks of the Missouri river.

Plans for the proposed preserve were formulated here at a meeting of the Nebraska Game, Forestry and Fish Commission, with representatives of the U. S. Biological Survey, inception of steps toward actual acquisition of the land on which the preserve is to be located.

The preserve would be created by adding existing marshlands and lakes in this wild section of western Nebraska with the Snake River flow from the river would raise the level of the lakes and maintain it at a constant height, making a perfect haven for wild life of all kinds.

Both state and private land will be utilized for the preserve under plans approved at the meeting of the state and federal representatives here, funds furnished by the Nebraska Game and Fish Commission would be used to augment federal advances for the project.

# EXPERIMENT IS TEST TO CLASS

### Instructor Uses Pretended Excitement to Try Out Student Reactions

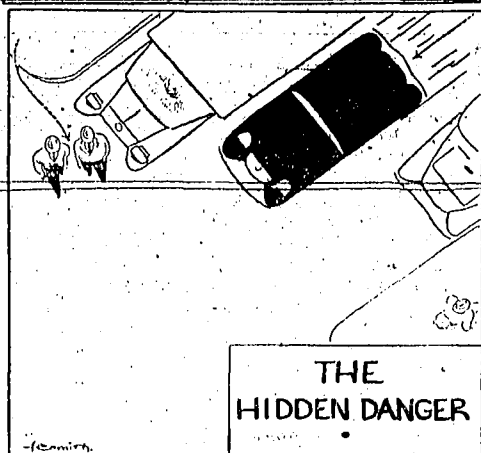

NEW ORLEANS, Oct. 28.—The federal government, working in collaboration with the state of Nebraska, plans to establish a \$600,000 refuge for migratory wild fowl in the wild marshlands along the banks of the Missouri river.

Plans for the proposed preserve were formulated here at a meeting of the Nebraska Game, Forestry and Fish Commission, with representatives of the U. S. Biological Survey, inception of steps toward actual acquisition of the land on which the preserve is to be located.

The preserve would be created by adding existing marshlands and lakes in this wild section of western Nebraska with the Snake River flow from the river would raise the level of the lakes and maintain it at a constant height, making a perfect haven for wild life of all kinds.

Both state and private land will be utilized for the preserve under plans approved at the meeting of the state and federal representatives here, funds furnished by the Nebraska Game and Fish Commission would be used to augment federal advances for the project.

# Diagrams of Danger—No. 3

### THE HIDDEN DANGER

No one is more active in the campaign to persuade the automobile driver to exercise the care, courtesy and common sense which will reduce the appalling number of accidents than the Motor Vehicle Administrators. They know the facts. Ten of them, officers of National and Regional Associations, have described the most common driving and pedestrian faults.

#### By ORVILLE E. ATWOOD

### Director, Motor Vehicle Division, Michigan, Vice-President, Region No. 3 of American Association of Motor Vehicle Administrators.

There is nothing dangerous about an automobile properly parked at a curb, its motor silent and its brakes locked. So far as it is concerned that car could stand there until it fell apart and no one would be charged against it.

Yet, that same car is one of the most dangerous traps known in motor vehicle records. It is a deadly menace to the highway pedestrian and a threat to the motorist himself. Death and injury surround it at all times. This is because negligent pedestrians at intersections will appear suddenly in the roadway from behind it, directly in the path of a moving automobile.

Last year, 35,000 pedestrians did that according to figures supplied by the National Bureau of Census and Bureau Underwriters. Of this number, 1,400 were killed while the remaining 33,500 were injured.

It happens sometimes that a ped-

# STUDENT SCRAMBL

Miss Martin entered the classroom, handed Miss Nolan a note. The student jumped from her seat screaming, stumbled and apparently fainted.

"Now," said Miss Sango to the class, "write down what you saw. What color was Miss Nolan's dress, what hand did she hold the note in? And was her watch broken when she fell?"

Stunned the class sat silent, until Miss Sango explained it was "just an experiment to find out the class reaction."

So with the collaboration of her assistant, Miss Jean Martin and

# TEXAS OIL AIDS STATE BUSINESS

### Income Gains, Keeps Drought Blump from Becoming Noticeable

#### DALLAS, Tex., Oct. 28.—Texas received twice as much for oil produced in the first six months of 1934 as during the same period last year, which is one reason "drought maps" don't coincide with weather maps, the Texas Oil Producers report.

The league completed a survey to determine the effect of the drought on business and found that, but as it was, the hot dry weather was not the calamity it had been painted in the state.

The value of the state's five major crops — cotton, wheat, corn,

# TVA TOWN FREE OF LAWBREAKING

### Norris, Tenn., Sounds Yikes Policeman's Dream of Peacefulness

#### NORRIS, Tenn., Oct. 28.—A description of Norris, the Tennessee Valley Authority's model town, sounds like a policeman's dream. It never has had a murder or other major crime.

It hasn't even a jail. Yet it has an extremely capable police force of 21 men, who give 24-hour protection to the town and dam alike.

Most of the Norris policemen are college graduates. All are tall, athletic looking, and crack shots. The police force is commanded by R. A. Round, graduate of the University of Chicago, where he

# FEARS REPRISAL, CONVICT SHIFTED

## U. S. Grants Alcorn Request For Transfer After Aid In Kidnap Trial

**STOUX FALLS, S. D., Oct. 28 (AP)**—Fearing that convicts in Alcatraz prison will kill him in retaliation for his assistance in the government's attempt to convict Mrs. Vera Sankey on a kidnaping conspiracy charge, Gordon Alcorn today appealed to authorities to return him to Leavenworth.

It was understood that the government would grant the request.

Alcorn, who was fireman for Sankey when the latter was an engineer with the Canadian National railway and later Sankey's chief of staff in his notorious kidnaping gang, was brought here to testify in Mrs. Sankey's trial last week. It was the government's chief witness. Mrs. Sankey was acquitted.

**Fears Retribution**

Federal authorities said Alcorn feared retribution at Leavenworth "but not so much" as at Alcatraz, where Harvey Bailey, Alphonse Capone, George (Mac) Quinn Kelly and other of the government's most dangerous prisoners are incarcerated.

It was recalled that when Alcorn was at Leavenworth before being transferred to Alcatraz several months ago, he was in solitary confinement for four months at his own request for the same reason.

It was understood that authorities granted Alcorn's request in return for his assistance, would take him to Leavenworth at once, probably today.

# MODELS BATTLE SOCIETY'S DEBS AS MANNEQUINS

**NEW YORK, Oct. 29 (AP)**—What it takes to make a lady was explained at some length here by Miss Gertrude Mayer, leader of professional mannequins who are up in arms about debutantes "chickening" in on their jobs.

Miss Mayer, who is red-headed, explained that an amount of "Park avenue will make some dames into ladies."

"She was aroused by the statement of Mrs. Harold E. Tullott, jr., a society leader, who said that professional models merely 'acted like ladies,' inferring that the reason fashion shows engaged debutantes was because they wanted 'ladies' for their window action."

"The amateurs had better get out of the modeling business or the professionals will take drastic action, such as sending their boy friends, Miss Mayer said. Fifty mannequins under her leadership petitioned shops and fashion shows to employ models of ability and not social background, a war of blue blooded debutantes and junior league was lowering professional standards."

"The girls agreed to picket the next fashion show if the petition failed, and that, failing, to provide the society amateur's own realm in retailing and grab their blue blooded boy friends."

"That would be a last resort," Miss Mayer said. She said she had looked the debutantes over and didn't think it would be difficult.

"A lot of society girls walk 'like ducks' and are 'humped back,' but are taking 1,000 jobs a year from professional models trained for the profession, she said."

**WRECKS CAN**

**WESTLEY, R. I., Oct. 28**—Albert B. Thomas, jr., Wakefield, lunched over to pick up a Bible from the wreck of his automobile. The car lunched, veered across the highway, struck a highway fence and was demolished.

# At The Theaters

## Grace Moore Film Sensation at Roxy

Grace Moore's sensational screen triumph in the star role of "One Night of Love" which continues its successful engagement at the Roxy Theater until Wednesday midnight, marks one of the bright spots of the current cinema season.

Miss Moore's radiant personality and beautiful singing voice, which had been hailed from the stages of the La Scala Opera House in Vienna, the Opera Comique in Paris and the Metropolitan Opera in New York, has now found an enthusiastically responsive audience in the millions of movie goers throughout the United States.

The character of "Mury Barrett" which Miss Moore creates in "One Night of Love" parallels to a degree her own remarkable life story. Supporting Miss Moore, in the role of the anonymous music instructor, is Thelma Carpenter, debonair, feminine leading man, and Lynn Tolbot, as the American playboy in Milan. Others in the large cast are Mona Barrie, Jessie Ralph, Nydia Westman, Andrea De Sogno and Ross Marie Clousier. Victor Schertzinger directed the film.

Charles Butterworth and Anne Durante in "Student Town" with Phil Brown and Maxine Doyle, now at the Roxy.

## Arliss Scores Hit In Latest Picture

George Arliss came to the Orpheum theater Sunday for "The Great Continental" and proved once again his right to the title of "The Great Continental of the Screen." His latest picture is a modern comedy drama with comedy, pathos, and dramatic moments in abundance, and above all it is first rate entertainment. The novel and completely surprising ending to the picture is an unique in any the screen has ever yet produced.

The current program is scheduled for showing through Tuesday, with "Kansas City Princess" as the next Orpheum feature attraction.

There is no combination at the center of a flame.

# PULLMAN BERTHS BRING LAW SUIT

## Woman Asks \$10,000,000 for Patent Infringement on "Drawing Rooms"

**NEW YORK, Oct. 29 (AP)**—A \$10,000,000 patent infringement and anti-trust suit based on the development of the new "drawing rooms" berths of the type used by the Union Pacific steamlined train has been filed by Mrs. James Gardner Rowman, Pittsburgh society woman, against the Pullman company and associated railroad companies.

Mrs. Rowman, who claims to have perfected the berth after many nights in old style sleepers when she was touring an Richard Mansfield's leading woman, also demands an injunction against the Pullman company and the Pennsylvania railroad forbidding further infringement.

**Claims Patents**

Through her attorney, Samuel Untermyer, Mrs. Rowman alleges she patented the adding metal curtains, folding stairways and built-in metal toilet and dressing facilities of the ultra-modern berths between 1924 and 1928, whereas the Pullman company did not adopt these features until 1933.

Suits were filed in federal court in January, but did not become public until today, when Rowman, an alleged public utility engineer, came here to confer with Untermyer. Rowman pointed out that the anti-trust law provides for the tripling of damages, making it possible for his wife to get a verdict for an amount of \$30,000,000.

# Coolidge Desired Career of Actor, Hopkins Reveals

**BOSTON, Oct. 29 (AP)**—A frustrated ambition of the late Calvin Coolidge was to be an actor, according to Arthur Hopkins, theatrical producer.

Mr. Coolidge, it is well known, Hopkins said, while he was president of the White House, "And we left with the definite knowledge that he had not only wanted to be an actor, but that he was convinced he could have made a great actor," Hopkins said.

# ESCAPED KILLER PAIR IS HUNTED

**CLAREMONT, Tex., Oct. 29 (AP)**—Search for Virgil Steamp and Clarence Brown, who escaped late last Saturday from the Dickens county jail in a break in which Sheriff W. H. Arthur was killed, centered in this section today after the sheriff's car, in which the men drove from Dickens, was found abandoned in a cave near here.

Claremont is south of Dickens. Now Mexico and west Texas officers guarded highway for the escaped men.

Steamp was being held for trial in a United States court, but was allegedly held Sheriff Arthur into their cell by complaining of broken plumbing in their cells, overpowered him and shot him through the neck with his own gun, killing him instantly.

# THROUGH WATCHES DRAW AT DUBLIN

## Additional Names Picked from Drums in Big Sweepstakes Lottery Event

**DUBLIN, Oct. 29 (AP)**—Pretty Dublin girls drew from two big drums today the names of 80 horses in Wednesday's Cambridgehire race, and the names of hundreds of ticket holders in the Irish sweepstakes who will profit on them in amounts ranging from \$2,000 to \$10,000.

The draw was resumed at 10 a. m. at the tremendous Plaza dance hall, in an audience of thousands of Irish men and women who heard the names mostly of foreigners, principally Britons, Americans and Canadians, to whom the result meant fortune.

Names of horses were drawn from a small drum, and the names of persons from a larger one. Those whose horses win have a chance for the 60 big prizes—20 first of \$10,000 each, 20 second of \$7,500 each, and 20 thirds of \$5,000 each. Any ticket holder who drew a horse, even if it did not run in the race at Newmarket, was assured of a \$2,000 prize.

In addition, there were drawn today names of persons who will get the 10 residual prizes of \$500 each and 600 winners of the 2,000 consolation prizes of \$50 each. The rest of the consolation names will be drawn tomorrow.

# Mrs. Eden Dies At County Home

**AGED ISLANDER DEAD**

**SANDUSKY, O., (AP)**—Michael Guerin, 80, Kelleys Island's oldest man, died recently at his Lake Erie island home. He was a quartermaster for years until he was retired on pension 16 years ago.

Samuel Untermyer, one of America's best known lawyers, never appears in court without a front orchid. His large estate near Yonkers, N. Y., contains approximately 60,000 varieties of flowers from all parts of the world.

## Are You Going To Remodel Or Build A New Home?

If so, let us tell you about Reynolds Aluminum Insulating Lath and Aluminum Building Paper.

Reynolds Aluminum Metal Insulating Lath is fire-proof, wind-proof, adds structural strength, and affords a very efficient wall insulation as well as a plaster base.

Reynolds Aluminum Building Paper is an inexpensive insulating building paper, one thickness being equal to 3/4-inch of cork-board.

Be sure and investigate these two products for your remodeling or building.

# IRON FIREMAN

The machine that made coal an automatic fuel in almost five hundred homes and business houses in Southern Idaho

Over A Carload Has Been Installed By Us This Fall With The National Housing Modernization Enthusiasm

## IRON FIREMAN AUTOMATIC HEAT COSTS YOU NOTHING!

Under the National Housing Act, an Iron Fireman can be installed with nothing down, and extremely easy monthly payments . . . deducting the savings which Iron Fireman will bring to you, your payments are reduced to approximately the equivalent of the cost of a package of cigarettes per day . . . isn't the comfort, convenience and cleanliness of Iron Fireman heat worth far more than this small investment?

### OIL TREATED DUSTLESS COAL

Eliminates the only objection to Iron Fireman heat . . . you will find it clean to the last shovel-full . . . just what you have been waiting for. Let your next stoker fuel order be "dustless."

### LOOK AT YOUR ROOF!

These frosty mornings—see how the heat is escaping from your home and melting the frost off. This waste can be stopped with "Sure-Fite" attic insulation.

Every bulletin of the Housing Administration urges the necessity of every home and building being insulated . . . let us tell you about this inexpensive home improvement . . . it will pay for itself out of savings in fuel reductions, re-decoration costs, roof preservation and reduced heating plant repair.

### FRIGIDAIRE

America's Choice Refrigerator

Can be purchased on the National Housing plan . . . Let this be among the things you will add to your home modernization program.

You will enjoy a Frigidaire as much through the winter as summer . . . why not get your electric refrigerator now.

### A MORE COMFORTABLE HOME THIS WINTER

A comfortable, warm house to arise in every morning—no more early morning cold trips to the basement to shake down the ashes and shovel coal. No more dirty dusty ashes . . . no more smoke and soot . . . only requires attention once daily . . . no more rousing down to tend the furnace every few hours. The exact desired temperature maintained automatically, by a thermostat, saturating the whole house with a gentle flow of mellow warmth—that is real comfort, and a vital factor to health, especially with children and convalescents.

## IRON FIREMAN—The machine that made coal an automatic fuel . . . FRIGIDAIRE—America's Choice Refrigerator . . . "SURE-TITE"—The most economical, efficient attic insulation . . . REYNOLDS PRODUCTS—Modern construction materials . . . "DUSTLESS" SLACK—Hot oil processed.

See all of them at the House of Magic and Modernization Exposition, Tuesday, Wednesday and Thursday, at Radioland

### Pres. Rudger Clawson Gives Address at Quarterly Conference

President Rudger Clawson of the quorum of twelve apostles, Salt Lake City, attended and gave the principal address at the regular quarterly conference of the Latter Day Saints church held in the Twin Falls tabernacle over the week-end. The meetings were the annual conference on "Friendship."

President Clawson gave his final address at the special session sponsored by members of the Mutual Improvement association last evening. Other features on the program were the slogan given by Aris Lind, members by the girls' chorus of the Twin Falls ward, directed by Mrs. H. H. Stokes, talk by Bishop Roy Wood of the Third ward, and quartet selections by James Clawson, Frank Eighart, Vernon Mann and Mr. Buckhorn, Murbach.

Pres. J. W. Richards and J. E. Alfred gave short talks at the afternoon meeting yesterday, and H. C. Howell and Milton Reese told of their recent experiences while on missions.

# PAPA BEAR

Following the resignation of William Walker, Chicago Cubs president, his shares in the club were bought by F. H. Wrigley, a b.v.c. majority stockholder, and chewing gum magnate. Wrigley now rules as president of the Cubs.

# F. D. R. PRAISED BY RADIO PRIEST

### Rev. Charles Coughlin Sees Confidence Unshaken in New Deal

DETROIT, Oct. 29 (AP).—The "article" engineered by capitalists soon will be displaced through the nation's unshaken confidence in President Roosevelt, the Rev. Charles F. Coughlin, crusading radio priest, said in his Sunday sermon.

Father Coughlin renewed his ancient "Roosevelt or Bust" slogan with a declaration that the nation's faith in the New Deal is unshaken.

The priested President Roosevelt and Secretary of the Treasury Morgenthau for leaving "international bankers and Wall Street profiteers at a healthy distance from the treasury."

"Because of our confidence in these gentlemen," he said, "I fully anticipate that the strike engineered by capitalists soon will be discontinued; that annual wages shall surpass the now impractical hourly wage system; that want in the midst of plenty shall cease, and that our systems of unbearable taxation shall be remedied."

# Seen Today

A number of hunters revealing how they were fooled successfully on the Charles Salter farm, when Salter perpetrated a hoax that got the best of them. He had an excellent specimen of pheasant that he had shot during the early morning, and concealed the idea of mounting it in a field a respectable distance from the roadside, to see what would happen. By using a crow, he was able to mount the bird in a life-like position. Not long after the fowl was placed, passing hunters commenced taking shots at the bird, much to the amusement of the family. By the end of the day, the bird presented a sorry spectacle, numerous "crack shots" were missing away from the scene in the hope that they hadn't been seen, and the Salter family had been provided with no little amusement. . . . Person, whose name is authorized highly, soon waiting along the street with a long cobweb entangled on his hat and floating along behind him. . . . Members of the sheriff's force reported that for at least a few minutes Saturday, John Komarek, the man who has to walk from the court house to Main avenue in the event of the election of Frank L. Stephens, was seen wearing a Socialist for Governor button on his lapel!

# MEXICO PRESSES RELIGIOUS FIGHT

### Plans to Carry Out Wider Steps Against Catholic Church Group

MEXICO CITY, Oct. 29 (AP).—Stimulated by a mass demonstration of laborers and peasants in favor of the socialist educational program of the government, the Mexican administration today prepared to carry still further its program to divorce the Catholic church from all civic functions.

Sunday's manifestation, which included a parade of 150,000 workers past the national palace and a counter-pilgrimage by faithful Catholics to the famous Guadalupe shrine, came to an end with a minimum of disorder and few arrests.

Arrest Priest

At Guadalajara, the authorities arrested a priest of Saint Augustine church, who was said to have 5,000 pesos in gold, an amount that the money was intended to go toward the financing of a "Cathedral" revolt. Sunday services were suspended by the authorities.

At Puebla, all religious services were suspended through fear of attack by government supporters.

Socialist Wedding

The anti-clerical government of Yucatan state introduced a new fashion for weddings, calling them "Socialist marriages." At the marriage of a prominent official, attended by the highest officers of the state government, the bride wore a red dress, a red veil and red shoes.

# HUGE LAKE WEST DRY

JAMES TOWN, Kan. (AP).—The big state lake, which formerly covered a large area in the Great Salt Marsh near here, has gone dry and thousands of fish with which it was stocked have perished.

Howard, near Aberdeen, Cal. (AP).—A flock of geese, estimated at 100,000, were shot for attending flocks and selling them at speculative prices.

The head of a Fifth savings bank was shot for swindling.

# FIVE SLAIN FOR SOVIET CRAFTING

### MOSCOW, Oct. 29 (AP).—Five more men have been shot to death in a campaign against craft and corruption in the Russian economic system, it was announced today.

MORGAN RAIDER DEAD  
CINCINNATI (AP).—Milton M. Campbell, 66, former Morgan raider and for 42 years a member of the Cincinnati fire department until his retirement as assistant chief in 1928, died here recently.

Dr. Boyenger, Foot Specialist, Over-look, 607 1/2 for prices. Ad.

# DISCUS Priesthood

On Sunday morning Pres. Toyah C. Tolman, Noah W. Arrington, Mrs. George J. Ward, Bishop Wood, E. M. Ghent, and three laymen of the Annapolis, Annapolis, Chesapeake, Maryland, and Annapolis, Md., continued the discussion of Priesthood topics begun at the first session. Edna Stokes directed the talks in several numbers.

Pres. Clawson spoke at both morning and afternoon sessions. An audience of 400 persons attended in the morning.

Pres. Richards gave the address of welcome and a brief report of the condition of the high priest, seventy and elders' quorums of the state at the opening meeting Saturday evening. Other reports were given by Mitchell W. Hunt and Elmer Miller. The main chorus from Buhl and Murbach wards sang several numbers. Pres. Clawson gave the address of the evening.

# GLACIER PRIEST PLANS NEW TRIP

### Father Bernard Hubbard to Spend Year on Island Off Alaska

OMAHA, Neb., Oct. 29 (AP).—Father Bernard H. Hubbard, the "priest of the glaciers," said today he would spend a year on a barren island off the Alaskan coast, to study the theory of a prehistoric migration from Asia to cross the Bering sea.

Father Hubbard, a Jesuit priest, is an authority on glaciers and volcanoes in the frozen Alaskan regions.

For his new studies, he plans to go into seclusion on King's Island 40 miles off the Alaskan coast. In collaboration with Father Bellarmine in Seattle, Jesuit missionary for the past 32 years at King's Island, he hopes to either prove or disprove the theory that the ancestors of the American Indian were Asiatics. Some scientists believe that once the Bering sea was a river easily forded by migratory tribes from Asia.

Father Hubbard intends to plant a flag on the island, to make the inhabitants of the island, to plans to compile an Eskimo dictionary and some of the tribal legends.

# ARGENTINA USES MANY LOTTERIES

### Average Citizen Spends More on Tickets Than on Use of Tobacco

BUENOS AIRES (AP).—The Argentine citizen spends twice as much on lotteries and lottery games as he does on tobacco, 60 times as much as he spends on tea, and 4,000 times as much as he does on cigars, a recent survey showed.

Sixty million pesos a year are held out to the Argentine public in lottery prizes by the national government and the 14 provinces; 100 millions are conjured out of John Citizen's pockets each 12 months by the lottery boards and municipalities. And fully 100 millions are gambled on the terminals of the big winners. Argentina's lotteries cost the public 200 million pesos a year. Twenty times as much as was spent on armaments last year.

High Income

The governments and provincial legislatures rake in 25 millions from the weekly lotteries. The National Lottery Board and municipalities clear profits, divided among hospitals and various philanthropic societies. The provinces got six million. Middlemen who sell at profit the tickets for 10 to 40 cent above face prices rake in 15 millions. The yearly legal lottery bill represents 100 million pesos to the Argentine public. Since legalization 30 years ago, Argentina has staked over two billion pesos on the rattle of the legal lottery numbers in the electric sorting cage.

# FASCISM MARKS 12TH BIRTHDAY

### New Projects Undertaken as Italy Enters 13th Year Under Mussolini

ROME, Oct. 29 (AP).—Workmen in all parts of the country hurried themselves today on new public works, and the public went to its work over newly completed roads and through newly completed streets in token that Fascism had entered its 12th year.

Power stations, roads, Alum clearances, a wireless station to broadcast to the United States, were inaugurated yesterday to mark the anniversary. The keels of the 35,000 ton battleships Vittorio Veneto and Littorio, were laid at Trieste and Genoa.

Premier Benito Mussolini, after reviewing 15,000 athletes here, exhorted them to do their part in consolidating Fascist Italy in a primacy on land, sea and air.

# ENGLISH FASCIST HEAD RAPS JEWS

LONDON, Oct. 29 (AP).—Sir Oswald Mosley, leader of the British Shylocks, Fascist group, denounced the Jews as "scoundrels from the foreign Ghetto," at a meeting in Albert hall, that the organized power of Jewry has striven consistently during the past year and a half in favor of war.

"We stand for the ending of the modern Jerusalem, wherever they live," Mosley concluded.

The laughing jackass is not an animal, but a Jew.

### National Housing Act Offers Means to Keep Standards At High Level

While property ownership in a very stable and attractive investment, two serious items must be kept in mind, according to G. J. DeGollia, director of the Central State Division of the American Institute of Architects. They are:

1. Depreciation, due to the wearing out of the buildings, which reduces their value.
2. Obsolescence, due to building not meeting the requirements of the times and therefore not producing reasonable returns.

### Retired Farmer Taken by Death

Fred Southland died at his home northwest of Ellar about noon yesterday following an eight day illness, during which influenza turned into pneumonia. Mr. Southland, a well known farmer, was married by his wife and two grown children, Vernon Southland and Mrs. R. H. Jones, both of Ellar.

### WHEAT DROPS ON WINNIPEG NEWS

CHICAGO, Oct. 29 (U.S. Hog) - Wheat dropped sharply today on the news of the proposed treaty of the Winnipeg market by the Canadian government.

General selling hit the wheat pit, already depressed by a lack of speculative demand, and prices fell 1 1/2 to 2 1/2 cents lower. Corn climbed off 5/8 to 1/2 cent, and oats were 1/4 to 1/2 lower.

### SHRINERS COMING

### HERE THIS WEEK

Entire Inter-mountain Region Will Send Participants To Ceremonial

Newly worked in Twin Falls will be marked by Shrine ceremonies which will include members from the entire inter-mountain region. Reservations have already come in from as far north as Butte, Mont., as far west as Ontario, Ore., and as far south as Salt Lake City. Three hundred Shrine men are making reservations for themselves and their ladies, and a number of others will come today.

Preparation for the principal event, the initiation of a class of at least 30 novices into the inner mysteries of the order, which will take place Saturday at 8 p. m., will be made early this week.

John T. Oliver, recorder of El Korah Temple, Hobbs, will establish officers in the Rogerson Hotel Shrine and "Free York" company potentate in the world and also representative of El Korah Temple, will arrive Friday to cooperate with Joe Koehler, general chairman of the committee of arrangements. Under the auspices of the Southern Idaho Shrine club, El Korah Temple will conduct the ceremony, and three chartered buses will bring its representatives to Twin Falls early Saturday.

Drill Ceremony  
The El Korah drill team will bring a three-ton load of paraphernalia for the ceremony. Other events scheduled for the date are a luncheon for novices at Park hotel at noon, big street parade at 1:30 p. m., conferring of first and second degrees of the Shrine degree and athletic teachings of the solemn part of the work at the high school gymnasium at 2:30 p. m., band concert and patrol drill at city park at 4 p. m., 30-minute broadcast by El Korah chapters at 8:30 p. m., Shrine banquet at Lindholm at 9 p. m., banquet for Shrine ladies at the Rogerson hotel.

### House Is Stolen

SALT LAKE CITY (AP) E. C. Morgan owned a house. For two years it was unoccupied. He decided to apply for a federal loan to repair it. He went to look at the house. It wasn't there. The police turned over seven neighborhood boys to the juvenile authorities, alleging they moved the house to a vacant lot and transformed it into a shack.

### SHRINERS

Two of the leaders who will participate in the Shrine ceremonial here are shown above. Pop L. Van Sault, captain of El Korah patrol, will lead the drill at city park next Saturday at 4 p. m., and will also guide the patrol in helping novices over the "rough spots." Below, Walter M. Williams, chief emblem, El Korah temple, and chief assistant to Potentate Fred York to see that none of the novices are "slighted."

### CHURCHMEN SEE

### AID FROM NAZIS

German Clerics Hope Chiefs Will Help Stop Bitter 'Internal Schism'

HEIDELBERG, Oct. 28 (AP) — Evangelical church leaders fighting the Nazi church government saw hope today that two high Nazi leaders, Capt. Hermann Goering, president of Prussia, and Wilhelm Frick, minister of interior, might intercede with Adolf Hitler and bring about an end of the schism.

It was reported Goering might exert his powerful influence to aid an early settlement. Frick was reported to have rebuked August Jaeger, lay aide to Nazi Reichsbishop Ludwig Mueller, for the punnier in which he carried out orders to depose Bishop Hann Moser of Bavaria.

Not Satisfied  
The Rev. Martin Niemoller, a pioneer opposition leader, is disappointed that the church would not be satisfied with the resignation of Jaeger.

### WHEAT PAYMENT

### FUNDS RECEIVED

\$60,000 Ready for Growers As Partial Benefits on Contracts

Sixty-six thousand dollars, representing partial payments on 1933 and 1934 wheat extension contracts, has been received at the office of the county extension agent and today is ready for distribution. It was announced by Harvey B. Hulse, county extension agent.

Those to whom the checks are made payable are being notified by mail from the agent's office, he said.

Last week approximately \$7000 was received for first 1934 payment to some of the contractors of crops, the checks being for those whose names commence with the letter H and run through to L. Today the second 1934 payment to those same persons was received, these checks totaling \$38,000, and representing an approximate half of the amount to be distributed. The remainder of the checks had up to October 22, 1934, \$116,000. To be received for the last 1933 payment is about \$33,000. The first payment amounted to \$100,000, and represented 20 cents a bushel. Payments for 1934 contracts will be in similar amounts. The second payment for 1933 amounts to seven cents a bushel.

### DEATH SUMMONS

### BUHL RESIDENT

HULL, Oct. 28 (Special) — M. Groves, 87, passed away at the home of his daughter, Mrs. Eleanor Van Houten, at 8 a. m. today.

Mr. Groves was born Jan. 30, 1847, in Lee county, Ohio, the youngest of six children, none of whom survive. Dec. 31, 1870, he married Mrs. Clara Nell Roberts and they made their home in Fremont county, Ohio, until Sept. 1921, when they moved to Buhl to be with their daughter, Mrs. Van Houten, who started teaching in the Buhl high school that year. Mrs. Van Houten is now principal of the junior high school and has been for six years.

Funeral services will be held Tuesday at 4 p. m. at the home, 229 Thirteenth avenue north. Rev. O. L. Kendall and M. M. Van Patton will officiate. Interment will be in the Buhl cemetery with the Evans and Johnson funeral home in charge.

### Staff of Hospital

### Recovering After

### Poison from Food

ANN ARBOR, Mich., Oct. 29 (AP) — About 140 nurses, internes and other employees of the University of Michigan hospital were recovering today from the effects of a poison believed to have been in chicken salad served in the staff dining room.

### BURMAN FUNERAL

### CONDUCTED HERE

Funeral services for Mrs. Anna Sophia Burman, who died Friday at the home of Mr. and Mrs. B. Bjerson, southwest of Kimberly, were held at the Drake mortuary chapel this afternoon. Rev. C. L. Clark, pastor of the First Presbyterian church, officiated. Mrs. Clara Gillman, Pler, furnished music.

B. Bjerson, A. Wamman, W. Burman, F. Holmgren, C. Ohman and William Peterson directed an interment in Twin Falls cemetery.

## V-8 Leadership Is Based on Engine Facts and Records

SOME things about an automobile are more or less a matter of opinion. But when it comes to the engine, you are dealing with the hard facts of power and its application. Either you have V-8 power or you don't have it.

You should know that experience and the records of performance are definitely in favor of the V-8 type engine. You need not depend on words—the record speaks for itself. It is something you can see as you "Watch The Fords Go By." Something you will realize even more fully when you drive the Ford V-8 yourself.

It isn't the difference between green or black or between velour and broadcloth upholstery, but a far-reaching difference in basic engine design. Only the V-8 can give you V-8 speed, power and performance. It costs more to produce, but Ford has made it possible to use this engine in a low-price car. Only the Ford gives you a V-8 engine unless you pay \$2500 or more!

TEXAS DIVISION GAINS IMPETUS

Formation of Another State Kept In Public Eye by New Booklet

AUSTIN, Tex. (AP) Division of Texas biggest state in the Union, again in a under lively discussion. Vice President John N. Garner, original advocate of dividing Texas, is silent now, but the West Texas Chamber of Commerce has presented arguments for and against, in its official publication...

When the limit state, four times bigger than all New England, was admitted to the Union, there was a provision that new states not exceeding four may with the consent of Texas be fashioned out of the territory and be entitled to admission.

Any dividing line separating the state into East and West portions naturally has the 100th Meridian as its northern starting point. That is the Meridian that separates the Texas Panhandle from Oklahoma. Extended through the state the Meridian strikes the Rio Grande west of Laredo. Used as a dividing line it would place only about a third of the area of Texas in 'West Texas'.

## The Clew of the Forgotten Murder

**BEGIN HERE TODAY**  
 When **FRANK BAKER**, publisher of the **Idaho Times**, published the **CHAPPEL HILL** murder story, he was not only a pioneer in the field of public opinion, but also a pioneer in the field of public safety. He was the first to point out the danger to the community which was being created by the presence of a man who had been convicted of a crime and who was still at large.

## HISTORY Of Twin Falls City & County

As Glanced from Files of The Times  
**15 Years Ago**  
 All workmen employed on the construction of an addition to a local garage have been withdrawn by Contractor R. Payne as the latest move in the lockout of union machinists at that garage and organized labor's fight for collective bargaining. Carpenters, brick masons and other building craftsmen are included in the move, which was made in sympathy with the machinists. None of the men are idle, the entire crew being removed to another job by the contractor, who has aligned himself with organized labor. Work on the building has been suspended.

## NORRIS LOOKING TO LIBERAL ERA

Victorian Lawmaker Sees U. S. Constitution as Aiding National Progress  
**McCOOK, Neb. (AP)** — Nebraska's pioneer liberal, Sen. George W. Norris, who has seen the "New Deal" outstrip most of the early liberal vision, believes the United States Constitution does not constitute a "stop-light" to national progress.  
 "A new era in government is on the way, and there is no place to stop to look conditions over before taking further progressive steps, according to the senatorial veteran."  
 New Human Values  
 The new era will see the recognition of human values in harmony with political and religious theory as the result of changes in social, economic and political thought.  
 "The current fight in which we are engaged, Norris said, is for the preservation of our civilization."  
 "That civilization is better today than it was 100 years ago because men going before us did not fear progress," Norris said.  
 Endangered  
 "It would take about one more depression to kill our civilization," Norris said. "If we are as wise as I think we are, we will recognize we cannot permanently maintain an army of 1,000,000 unemployed. We will devise, through legislation, a means to prevent the return of depressions which the older school of economists tell us are natural."  
 "We do not will require that we not aside some of our cherished ideals which have outlived their usefulness. What we need is humanity in our situation. If we learn to practice humanity in government, recognize that we are, after all, our brother's keeper and that the sole object of government is the happiness of the people, we will find an easy difference between politics and religion."

## Public Forum

**TWO MILLION DOLLARS ARE LOANED COUNTY CITIZENS**  
 Editor Evening Times:  
 Dear Sir:  
 While Republican candidates are gnawing over the county being owned by the county, ridiculing New Deal plans and telling what their party now wants to do for the people, the cold facts of what the Roosevelt administration has accomplished already in saving Twin Falls county homes and farms from forced sales and foreclosures, is open to inspection by the recorder of the county records.  
 Since the beginning of October, 1933, a little over a year ago, when the government's New Deal program was first implemented, loans to the county—a total of over \$2,252,000 has been loaned to home owners and farmers of this county, to save their properties, the recorder's records show.  
 Of this amount, loans have been made on approximately 360 Twin Falls county farms through the Federal Land banks, totaling over \$1,000,000. Loans of approximately 350 farms have been aided through the Federal Land bank commissioner's direct, to the extent of over \$10,000.  
 The Home Ownership Loan Board has also accomplished a total of over \$1,000,000 in loans to home owners and farmers of this county, to save their properties, the recorder's records show.  
 This accomplishment of aiding 350 farms, owners to the extent of over \$2,000,000 in saving their properties in a little over one year, is not a campaign promise. It is a cold, hard fact. It is an actual accomplishment which has relieved 400 Twin Falls county citizens and their families from worry and the dread of losing their dearest possessions—their homes and their farms.  
 No amount of political hot air and rony promises can obscure these facts. No rony promises will have difficulty in distinguishing between what has been accomplished by an administration which wants to help those in need and has actually done so, and a party which is coldly and brutally indifferent to those in need when it was in power, and now has nothing to offer but criticism and empty promises.  
 WITTIAM  
 Twin Falls, Idaho, Oct. 27, 1934.

## THE ISSUE

As the campaign enters its final week, interest in the biennial event is on the increase and indications point to a large vote. Rivalry for votes promises to be keen, more so this week than in the past period, which, admittedly, has been rather listless.

Eliminating personalities, the question for voters to decide is whether they want a continuation of the recovery effort in the nation, cooperation with this program in the state, and reduced taxes.

Democrats seeking reelection and those running for the first time, present a solid front in defense of the present administration and promise a continuation of similar service to the people. Opposing these candidates are those of the Republican ticket who must appeal to those dissatisfied with the kind of government administered during the past two years.

There are many who predict that the results of the present election in its "landslide" propensities, will be similar to the one of two years ago when the Democratic ticket secured practically unanimous endorsement in this county and state.

Based on the records which have been made by individual officers, it can be well said, that they are entitled to public endorsement for their administrations. They have labored faithfully in behalf of their constituency through a very difficult period; they have met new and unheard of situations regarding public business; they have proved their honor, their ability, their efficiency and their courage.

Now they come before the people asking for endorsement. It appears likely that an appreciative public, not wishing to change horses in the middle of the stream, will wish, by their votes next week to express their appreciation for faithful services well rendered, by keeping in power the party which still has the responsibility of restoring the nation, state and county once more to the economic plane where they deserve to be.

There was a time when radio waves were blamed for droughts, accidents, earthquakes and such. Now it's either President Roosevelt or the munitions makers.

## PAUL MALLON'S NEWS BEHIND THE NEWS

An Exclusive Evening Times Daily Report on the Fast-Moving Events in the Nation's Capital by an Expert Interpreter and Commentator.  
 (Copyright, 1934, by Paul Mallon)

**STEPCHILD**  
**WASHINGTON** — There has been some whispering and planning about clearing up the White House standing of the Democratic Party. The White House before California goes to the polls.  
 The whispering is among those who are high enough in the administration to plan its business.  
 They believe an erroneous impression was created by President Roosevelt's first meeting with the EPIC Californians. They will even tell you off the record Mr. Roosevelt himself is displeased about it.  
 The President's plan was to see Sinclair briefly at Hyde Park in the presence of two or three other cabinet members. However, he was sidetracked by the finest Sinclair that the conference lasted an hour and a quarter, and later word came out that the meeting was "inconclusive."  
 They believe the decision that Mr. Roosevelt wanted Mr. Sinclair elected. That impression was strengthened by the way Messrs. Farley, Hopkins, et al, took the newspaper into the fold.  
**POSSIBILITIES**  
 It would be exceedingly difficult for the White House now to change that impression. Mr. Roosevelt must maintain his historic pose of taking no hand in local election contests.  
 This does not surprise if some delicate maneuver is being carried out. The impression is being made that Mr. Roosevelt should be asked whether he intended to take part in the California situation, he would answer no. The question whether he would vote for Gov. Latham, he could answer yes. That might do the job.  
 It might be enough for Senator McCain to see that the situation is going fishing on election day in California. (Mr. Creel has been acting suspiciously as if he intended to come out against Mr. Sinclair openly.)  
 At any rate, keep your eyes open for something along this line.

**CONGRESS**  
 When the Missouri picnic has gone on the rampage, says Priddy, "The German Fascists specialize in statements that attack the world. Their flights of fancy suggest those of the celebrated Ivan Munchausen."  
**NOTES**  
 President Roosevelt's new political strategy was outlined in Dr. Willard Thorpe, recently installed in NRA's research and planning division. He is the main trustee refused confirmation by the senate in his role as director of foreign and domestic commerce.  
 Even for trappers of the far north have their NRA code, at least in the many of them, never heard of it.  
 FTC probes are now writing a five-volume report covering their activities in the field of utility interests. It will go to congress in January with recommendations for legislation.

## 27 Years Ago

The convention of the League of Southern Idaho Commercial Clubs to be held at Boise on Nov. 10 promises to be an exceptionally interesting one. The executive committee of the League has started the ball rolling by recommending two amendments to the constitution which will undoubtedly precipitate a very heated argument. At present any railroad operating 30 miles or less in Idaho has a right to two delegates, and the executive committee proposes that no railway of such length hereafter be represented on the floor, in other words if this should go through, the railroad men will have to come before the convention as outcasts and in the capacity of lobbyists.  
 The other proposed amendment requires all committees of the League to report to the executive committee their action on any matter of subject and prohibits the publication of any such action by any one except the executive committee.

## Tobacco Boom Aids Sales in Carolina

**WILSON, N. C. (AP)** — Tobacco growers are making wide use of high prices brought by their crops this year.  
 Besides automobiles, mechanical refrigerators, zipper jackets, and golf baggies, they are buying everything they can get.  
 Undertakers report a sudden increase in expediting, as well as in expenditures for funerals in general. Horseshoes, it was pointed out, embalming was rarely practiced in this vicinity.

## Anglers Get Fish, Lots of Potatoes

**BERLIN, Conn. (AP)** — Something new in the state.  
 A. J. Spring and "Red" Lindgren chartered Capt. Davis' fishing boat and fished for trout in the Connecticut. They caught four blue and 40 bunches of potatoes, the latter carried off shore by an outgoing tide.  
 Capt. Davis claimed the potatoes as "salvage." The fishermen took home one fish apiece.

## Why Postpone the Matter?

(Contributed)  
 Why is there so much uproar over alleged cases of F. C. O'Fallon, of the State Insurance Fund, to show certain books of his department on request? If it is thought that there has been any unfairness or crookedness, why don't the Republican state committee, or some person claiming an interest, invoke a writ of mandamus? To a layman this would seem to be the thing to do.  
 O'Fallon asserts that to show the books in controversy would violate the state statutes as it would reveal matters which the department over which he presides is forbidden to reveal. O'Fallon is an able attorney, but able attorneys sometimes err. Surely the courts could determine the validity of his claim in this case.  
 Let us suppose similar matters came up in 1929, when James P. Pope, now United States Senator, then state Democratic chairman, initiated proceedings to make Commissioner Hall of the public works department open his books for inspection by certified public accountants employed by the Democratic state committee. Hall asserted that he had no intention to deny access to his books so the courts did not pass on the issue involved.  
 However, the action of Chairman Pope on that occasion might suggest to Republicans the advisability of trying this process.  
 Why, if the Republican campaigner wish to prove their independence, is this matter postponed?  
 Their refusal to act in proof of contention that either their contention are misleading, or that they fear an investigation would do them more harm than good.

## STUDENT FIGHTS MILITARY DRILL

**TOPEKA, Kan. (AP)** — Whether Kansas State college at Manhattan can force its students to take compulsory military training is to be a showdown in a court tent.  
 A temporary injunction, issued by Judge Paul Hines of the district court, forbids President D. Farrell and the Board of Regents of the school from expelling Raymond McMahon, student from Logan, Kan.  
 McMahon, through his attorneys, states he is conscientiously opposed to war and military training, and further charges that the government, in granting the land in the state for a school, made no specification that military training was compulsory. He further charges that no legislature has conferred on the Board of Regents authority to make such training obligatory at the college.

## TWO-HOUR PARKING

It is to be expected that the traffic situation in Twin Falls will be greatly benefitted by the new ordinance, which, it is announced, will be enforced commencing November 1.

The municipal statute regulating parking on the principal thoroughfares is being changed by extending the permitted parking limit during business hours from one to two hours. The one-hour limit never was satisfactory and it got to the point where the ordinance was not enforced. Parking privileges have been abused with the result that there are virtually no limitations.

This was the situation the present administration found upon assuming office. In an attempt to correct it, O. H. Coleman, commissioner of public safety, instructed the police department to enforce the ordinance, but the plan was opposed by ranchers and others. Then an appeal was made by Coleman for merchants and employees to refrain from parking their cars on Main avenue and Shoshone street, with indifferent results.

The plan to extend the limit to two hours and to enforce the ordinance was conceived by Coleman, after consulting with representative groups, but before passage of the new ordinance the commissioner of public safety determined to go further. He enlisted the support of several property owners who have supplied parking zones.

Now the ordinance has been passed, after full publicity, and the effective date for its enforcement has been extended to Nov. 1.

Coleman is solicitous that the parking problem be solved fairly and to this end invites public cooperation. He has been led to believe that the two-hour limit is the wisest plan.

His department went a long way when it eliminated the stop-and-go-bell at the corner of Main avenue and Shoshone street. The change has proved to be one of the best steps yet taken here to improve traffic conditions.

Similarly, it is to be hoped that the two-hour parking regulation will prove to be wholly satisfactory, convenient and welcomed by Twin Falls and its many visitors.

Prince Hohentohle of Germany, here to defend his reputation in the Gloria Vanderbilt suit, just left one Nazi situation for another.

Insult stockholders, lost in the maze of holding companies, ought to form one all-inclusive bug-

# PHILIPPINE GOLD OUTPUT BOOSTED

### Islands May Surpass Alaska In Yearly Production, Leader Says

WASHINGTON, Oct. 28 (AP)—The Philippine Islands with prospective gold production this year of \$10,000,000 may soon pass Alaska as a producer of the yellow metal, Jorge B. Vargas, Philippine minister in Washington, said today in a dispatch to Manila.

He said Philippine production in 1933 was nearly \$8,000,000, double the preceding year, and some likely again to double. Alaskan production, according to departmental statistics, ranged from about \$5,000,000 in 1927 to \$9,500,000 in 1933.

The Philippine industry is not a flash in the pan, but will be permanent, Vargas said. "Modern machinery and technical expertise have been brought from the United States and scientific mining especially supercharges the placer production."

"The mountain province in northern Luzon is still the most productive region, but the old Spanish gold workings in Mindanao are again being opened. Over 6,000 jobs claims and 7,000 placer claims have been registered."

Large resources of copper, iron, manganese and other minerals are also being developed.

Vargas' remarks on the importance of lustrous mining were intended to indicate the possibility of further development of mutually profitable and relatively non-competitive commerce between the Philippines and the United States. He accompanied President Manuel L. Quezon of the Philippines en route to the United States in an effort to keep open the transpacific tracks of commerce.

**Non-Competitive Products**

"We want to produce in the Philippines articles which in no possible way will compete with United States products," he said. "In any case, we would like to supply those articles which the country must obtain from tropical countries, or of which there is a deficit in United States supply."

**Typical of this trend in Philippine commercial policy,** Vargas yesterday island officials are studying new uses of manila hemp which may be of future great importance in this country. Such experiments relate to the use of hemp in manufacture of paper bags and containers, including the Indian jute in rope-making.

The islands also would like to furnish tropical fruits to this

# FLOYD'S GUN AND BULLET VICTIM

The sub-machine gun left by "Pretty Boy" Floyd when he fled, wounded, from a gun battle with officers near Wellsville, Ohio, is being used by the hands of Special Policeman William E. Kewin, one of the trio of officers who shot it out with the outlaw and his companion, Adam Ritchie. At right, with arm in sling, is Special Policeman G. C. Potts, who was shot in the shoulder in the Wellsville battle.

# REPORT REVEALS ARRINGTON WORK

### Projects of Twin Falls Boy Who Won Degree Lined In U. S. Summary

History of the agricultural projects of the American Farm-Visitors of the recent national gathering in Kansas City, has been compiled by the national organization and made public through the United States department of agriculture.

Arrington received his state farmer degree in 1933, and is now 17 years of age.

"At the time of making application his record shows that he was the owner of 300 chickens, a registered Jersey cow and calf, the result of his project work," according to the report, which continues:

**Produce Corn**

He also rents 2 1/2 acres of irrigated land for corn production. During the present year Leonard planted 10 acres of irrigated land for spring wheat. After graduation Leonard plans to continue his farming activities and take an agricultural course at the University of Idaho, returning to the farm with him to go into partnership with his father. Leonard desires to become a successful poultry and dairy farmer.

**Cooperated Farming**

Leonard included poultry and corn, yielding him a total labor income of nearly \$500. He had a wide farming experience and has been very active in organizing improvements on the farm. He is a member of the K. F. A. swine association. Leonard is farming, he has \$1000. There is splendid evidence of up to date farming methods, especially with his poultry raising, in the report there is also splendid evidence of cooperative activities and leadership.

**On-Draft Team**

He has been on the debate team and has done considerable public speaking. A long list of prizes won on his poultry and as a member of school judging teams accompanies his application. Leonard received his scholarship in outstanding ability in a class of 200. His project work in poultry has attracted attention throughout the state.

# BURLEY

Pat Park Knolls club entertained at dinner Thursday night in honor of their husbands. The party was held at the home of Mrs. G. A. Baker with Mrs. George Egan as hostess. Ladies gave tables of bridge were at play following dinner, and high score prizes for men went to Ross and Dick. The club will entertain a program in connection with the Knolls week. The club will appear the picture, "The Last Gentleman" with George Arlson in the title role. All proceeds from ticket sales go to purchase library books.

Mrs. Vera Phelps entertained at a bridge party Thursday afternoon in honor of Mrs. Everett Williams. Two tables of bridge were at play with high score prizes for men went to Ross and Dick. The club will entertain a program in connection with the Knolls week. The club will appear the picture, "The Last Gentleman" with George Arlson in the title role. All proceeds from ticket sales go to purchase library books.

# PLANES USED BY MILITANT YOUTH

### Young French Group Admits Ownership of Aircraft Among Weapons

PARIS (AP)—Admission upon admission by militant youth organizations that it has aviation among its arms is contained in a copy of the day just issued by the French headquarters.

"Rebellion, Order No. 78," says:

"Only airplane K will participate in the envisaged operations. It shall be at the disposition of the Leaders of the Second Brigade, in the quality of scouting ship."

Although Royalists and other similar organizations have been accused by their critics of harboring secret airplane fountains, ready to descend on the champion of democracy with bombs at a moment's notice, this is the first public proof of the existence of such a craft.

**They Don't Fool**

The Frenchists, moreover, do not mince words. Nobody knows how many there are at the present date, but it is certain they are growing. They themselves admit they will regularly and with real frequency.

"For one wounded or dead," said a recent manifesto aimed at the Communists, "that we incur a number of your daggers or bullets, you shall pay with three. That's clear enough, isn't it?"

The Frenchists played a comparatively negligible part in the manifestation of last week. Every day at present, however, points to their having grown into a young army capable of giving the Reds plenty to worry about.

# DEEP CREEK

# BUILDING TREND HAS TOY EFFECT

### Robasval's Campaign Brings More Playthings Dealing With Construction

NEW YORK (AP)—The president's drive for home modernization and building is drawing well-heeled responses from young Americans, too. With enthusiasm for playroom building projects more than doubled, pre-views of Santa Claus' picks for 1934 show several hundred new types of construction sets to educate the youngest set.

Add-room doll houses, city-scenes, garages and farm groups are only a few of the miniature building jobs that children are tackling with enthusiasm. Doll houses furnished in sets for each part of the house, including drawing room, bedroom, bathroom and kitchen, so that juvenile interior decorators can modernize their doll houses in the very latest period style.

**Help Education**

The building sets are designed to educate the capabilities of every age group from two up. ABC blocks are packed in wagons and tubes to give the baby's building activity a grownup flavor. There are architectural blocks which can be put together in modernistic designs. There are apartment house blocks with windows indicated, so that the fumbling fingers of the very young can produce a realistic structure.

For the older children—both boys and girls are enthusiastic builders—there are steel construction sets. Realistic boats, trains, airplanes, as well as houses and bridges are now within the scope of the playroom builder.

**PERMIT FOR TWO**

HOSTON (AP)—A single country permit to the United States was issued here to two Canadian applicants were Simplico and Licio Godino, 40-year-old Slavonic twins.

# Kimberly

Mr. and Mrs. Lee Ranslett a few days ago for Chicago, where they will visit A Century of Progress. They will also visit relatives in Illinois and Nebraska and expect to return to Kimberly in December.

Mr. and Mrs. Judd Orrell left recently for Escobedo Springs, Mo., where they will visit relatives.

Mr. and Mrs. H. H. Denton drove to Salt Lake City Saturday to attend the University of Oregon game.

# HARVARD PLANS UNUSUAL COURSE

Extra-Curricular Talks by Young Researchers Will Be Given

CAMBRIDGE, Mass. (AP)—A novel experiment in the history of the independent systems of American universities will be conducted by the department of government at Harvard this year.

It will take the form of a series of extra-curricular lectures which will be presented by younger members of the department, dealing with their particular fields of research.

The lectures, scheduled to begin in November, are open only to university members and are in no way a required part of the course.

The experiment is viewed as consistent with the policy laid down last spring by President James B. Conant of taking away the emphasis from formal, set course requirements, and of giving the student greater responsibility in question of attendance and records.

It is believed by the government department that the program will have a double value:

1. It will make available to students research that ordinarily would not fit into any course structure.
2. It will be valuable as a testing ground for the opinions and theories developed under the isolated conditions of private research.

# Buhl Girl Reserves Fete New Members

Buhl, Oct. 28 (Special)—Buhl Girl Reserves gave a party for their new members in the Girl Reserve room at the high school Wednesday evening. Miss Dora Leary, program chairman, presented the following program:

Girls' nexted composed of Mary Lou Wright, Alta Curtis, Gladys Steiger, Naomi McGuire, Jan Schmid and Marjorie McGuire sang two numbers. Miss Florine Hunt played the accompaniment. Interpretation of "Pretty Hoop" was given by Mary Kuster, and Wilda Meyer closed the musical program with a piano solo.

Joanie Mercer conducted a style show with the following models: Ruth Haldeman, Minnie Paul, Helen Hambury, June Schmidt, Marjorie Thatcher, and Doris Leary. Marjorie Haldeman furnished the music for the show. Helen Hambury and Ruth Van Patten gave a duet. Naomi McGuire closed the program by leading the group singing. Refreshments were served by Helen Hambury and Ruth Kambridge.

Airplanes do not have speedometers, but air speed indicators, which record the speed of the plane relative to the air.

# Ogden Man Speaks To Rotary Groups

OTJULY, Oct. 28 (Special)—"Rotary Ideas" was the subject of the talk given by Dr. John Edward Carver, Ogden, before the members of Rotary clubs of Jerome, Coalinga, Shoshone, Twin Falls and Buhl at the West End Country club house Thursday evening. His speech followed a pheasant dinner.

A. W. Jacobson, president of the Buhl club, presided and introduced the speaker and the president and secretary of each visiting club.

The Buhl high school glee club furnished music.

# Given New Money For Burned Bills

PERCIVAL FALLS, Minn. (AP)—James Jarvinen, 18, earned \$18 working on a farm here for a month. He put his hard-earned money in a tooth-paste box and showed it to his mother.

His mother, cleaning house, threw the box into a rubbish fire.

James' father, E. A. Jarvinen, sent the ashes to the United States treasury with an affidavit setting forth the facts. James now has 18 crisp new \$1 bills.

# Abandons Usage of 'Honor Plan'

Tulane Liberal Arts College Thinks System Can't Get Proper Results

NEW ORLEANS (AP)—The "Honor System" for 60 years a part of the College of Arts and Sciences of Tulane university has ended.

Action was taken by the college faculty after a thorough investigation of the "system."

"The heterogeneous nature of the students in this college make the system impossible," Dean Edward A. Hecht said, "many of the students transfer here from other colleges where the honor system is unknown—therefore it is impracticable."

No plan to show, no gears to grind. See the New-Statesman Atlantic Stoker at Benson's. Use Aberdeen Coal and a Stokol and save money.—Adv.

# Plan World Tour

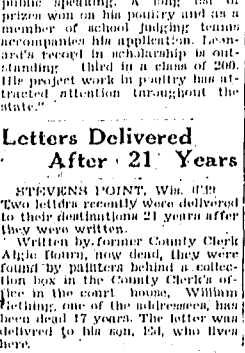

VANGOUGH, N. C. (AP)—An attempt to circumnavigate the globe in a home-made 32-foot sailboat equipped with a motorcycle engine—auxiliary motor will be made by Tom McDonald of Cary, N.C., and William Banks of Vancouver. The men attached an airplane propeller to the motorcycle engine to furnish an artificial breeze when becalmed.

# Letters Delivered After 21 Years

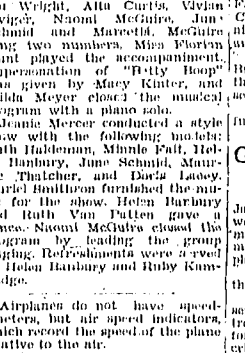

STEVENS POINT, Wis. (AP)—Two letters recently were delivered to their destinations 21 years after they were written.

Written by former County Clerk Alick Horn, now dead, they were found by painters behind a collection box in the court house. William Leitch, one of the painters, has been dead 17 years. The letter was delivered to his son, Ed, who lives here.

# Architect Says: 'When Business Makes Heavy Demands on Energy, Smoking Camel, Soothes the Way—restores my energy. My mind is clearer and more alert.'

# Young Society Matron: 'Camels are a grand-acting cigarette,' says Mrs. Allison Boyer of New York. 'They are so mild and it's marvelous how smoking a Camel revives my energy.'

# WANT TO RELIEVE TIREDNESS? GET A LIFT WITH A CAMEL!

Bill Miller, famous all-around athlete and 4 times National Single Sculls champion, explains in this way the "lift" he experiences from smoking a Camel: "Many people have commented on how quickly my energy seems to come back after a hard race. The secret is, I think, that it is my custom to smoke a Camel after a race. With me, as with other smokers, Camels quickly refresh me and revive my energy. And Camels never upset my nerves."

**TOBACCO MEN ALL KNOW:**

Camels are made from the most expansive tobacco—Turkish and Dominican—than any other popular brand.
